PRICE FIVE CENTS

Won By Feet

Non-support she might stand, but when her husband declared that her feet were too big, her dancing partner, and that she was as awkward as an ox, it was more than Sheila Terry, film actress, above, could endure, she testified in asking divorce from Maj. L. E. Clark, New York banker, in a Los Angeles court. The decree was granted.

BY OTHER WRITERS
JACK HULL in Clovis News-Journal—Great are our railroads they have been pretty much looted by the demands of a dividend-laden system of financing, and a system of excessive salaries. No industry could stand up under what the railroads have been compelled to carry. A sane policy with them in the past would find them now financially impregnable, but there was not vision into the future. Blind financial draining has left them stranded and a pawn of the depression.

C. E. CLARK in Childress Index—I heard an employe of the West Texas Utilities company estimate that the population of Childress is now about 7,800. Their records of customers is a basis upon which to make fairly accurate estimates.

WILLIAM RUSSELL CLARK in Memphis Democrat—In precinct, county and district politics, no strong lines are drawn. The men and women who seek office are generally known to their home-folks. There is no need for small talk. A card is generally sufficient. Some times, it is too much. But once out of the realm of what might be termed purely local politics, the professional office-seeker generally makes no want to cheer up my typewriter and spit the keys at him.

C. G. MILLER in Wheeler Times—The need of the hour is courage, for it is in our lives and our destiny and in the providence of God. When the period of our chastisement is past a change will come that will be so persuasive and yet so intangible that one of the moot questions of the future will be, "What brought it about?" The important thing for us is to lift our vision above the worries that circumscribe us now take of the progress of mankind down through the ages and from that record take hope for better days ahead.

ALBERT COOPER in Shamrock Texas—Last week an 8-year-old Panhandle boy gave his stamp collection to the Canyon museum, following a procedure of older people who have been willing to present their old relics to this gathering.

House Passes Bills Further Regulating Oil Industry

STATE WOULD SCAN RECORDS OF REFINERIES

NEITHER BILL COULD BE EFFECTIVE IMMEDIATELY

AUSTIN, Feb. 19. (AP)—Two bills to give the Texas railroad commission increased power in regulating oil and gas production were passed today by the house of representatives.

One would allow the commission to inquire into records of refineries and check their runs and storage tanks to determine if production orders were being observed. The other would make penalties for violations comply with those in the oil law.

Neither of the bills received the required 100 votes necessary to make them effective immediately. Senate action was necessary to send them to the governor.

A move to send the refinery inspection bill back to committee was defeated by four votes. Opponents charged the bill was sponsored by the large oil companies.

It would allow representatives of big companies to obtain information from records of little companies, find where they were making their money and then "freeze them out," Representative Amos Scarborough of Jasper said.

Representative R. J. Long of Wichita Falls, sponsor of the bill, said the commission now was denied the right to check refineries suspected of violating production orders and that the law was necessary if the campaign against "hot oil" is effective.

The only ones opposed to this bill are refineries running hot oil," Long said.

Debate was started in the house on a bill to reduce the registration fee for all passenger motor vehicles to \$5. Registration fees now are based on weight and horsepower.

World Mourning For King Albert

By The Associated Press.
All the world combined today in mourning for Albert I, king of the Belgians, killed Saturday night in a fall while mountain climbing.

Belgium, bowed with grief, prepared to crown Albert's elder son as Leopold III.

Only the presence of Crown Prince Leopold assuaged the little nation's grief, for the Belgians look to Leopold, now 32 years old, as a worthy successor to his beloved father.

Leopold, like his father, served with the Belgian troops in the world war and gives evidence of being a democratic as the late monarch.

Love of the dead king and confidence in the new appeared to unite all the political factions of Belgium in the hour of trial.

Socialists, liberals and conservatives a good side by side in mourning. Only the communists expressed dissatisfaction with the succession to the throne and their declaration calling on workers to refuse recognition to Leopold, was ignored by other political factions.

Sovereigns of other countries or their representatives, statesmen, and delegations from all walks of life prepared to go to Brussels for the funeral services Thursday and the coronation Friday.

HURT AT CLARENDON
CLARENDON, Feb. 19. (AP)—Edgar Fisher, under secretary of state in Colorado, suffered a broken shoulder in a head-on collision here last night. Harvey Weir, of Houston, who was traveling with Fisher, and Kelly Chamberlain, of Clarendon, driver of the other car, were uninjured. Fisher received first aid treatment at Adair hospital here.

I HEARD—
Chief Jno. V. Andrews inquiring who the other man was that assisted Conrad Graham in the race with a hi-jacker this morning. The chief would like for him to call at the police station.

Lon L. Blansett, former Gray county sheriff, telling about the organization of the hunt for criminals in Oklahoma. Lon planned to accompany one of the posses but was called back to Pampa on important business.

"Guardian"

American officials in Austria have been active in assuring safety and protecting interests of U. S. citizens in the war-torn republic, and much of this work has been handled by Ernest L. Harris, above, American consul-general in Vienna.

BROWN DENIES HE DID WRONG IN MAIL CASE

Every Law Observed, Claims Former Postal Head

WASHINGTON, Feb. 19. (AP)—Walter F. Brown, postmaster general in the Hoover administration, told Senate investigators today that in awarding domestic air mail contracts "every requirement of law was observed and no evidence whatever of collusion between the bidders thereon or the holders of any other air mail contract appeared or was ever suggested by any one."

Appearing before the senate air mail investigating committee after charges that collusion and conspiracy had entered into the awards, Brown testified that only three out of 34 domestic contracts were let during his term of office.

Just prior to his voluntary appearance the former postmaster general issued a statement denying any wrong doing in awarding contracts and saying it was "inconceivable" that President Roosevelt would sanction such a colossal injustice as the cancellation of all contracts.

Brown said in another statement read to the committee there was nothing clandestine about the two meetings of air mail operators and postoffice officials here May 19 and June 4, 1930, at which Black had charged the air mail map was "divided up" and contracts let without competitive bidding.

"No suggestion of dividing air mail operators among the companies represented at these meetings was ever made or contemplated," Brown said, "and no agreement or understanding with respect to the awarding of air mail contracts was made at any of those meetings or at any other time."

C. C. Miller of LeFors was a Pampa visitor this morning.

Miss Anna Maude Teague of Canadian shopped here Saturday.

Champion Wind Story Sent Out From Plainview

PLAINVIEW, Feb. 19. (AP)—It's an ill wind that blows nobody good.

The terrific windstorm which hit this sector of the Panhandle of Texas over the week-end proved a curse and then a blessing to two unidentified motorists.

Stranded just south of Kress when the gale blew sand into the carburetor of their small coupe, the men did a little figuring and hit upon a scheme that brought results.

They opened both doors of the car and started it rolling with a gentle push. They climbed in and rode 12 miles to Plainview on the wings of the wind.

CHILD POLICY IS REQUESTED IN SIXTY DAYS

SAYS PRESS FREEDOM HAS NO PLACE IN LABOR CLAUSE

WASHINGTON, Feb. 19. (AP)—In approving the newspaper publishers' code President Roosevelt made a request that papers with more than 75,000 circulation in cities of 750,000 or more place their news staffs immediately on a five-day, 40-hour-a-week basis.

The president's executive order required that a study be made within 60 days to determine permanent policy on the employment of children as delivery boys and paper salesmen, and a further study to establish hour provisions for the editorial staffs of all newspapers.

In accepting the code, the president said he was "dissatisfied" with its child labor provisions, which provide that boys under 16 may sell papers out of school hours between 7 a. m. and 7 p. m. in winter time and 7 a. m. and 8 p. m. in summer.

The report on both questions will be made by Administrator Hugh S. Johnson rather than independently by the American Newspaper Publishers' association, proponent of the code.

As for the publishers' declaration for freedom of the press the president said that "of course a man does not consent to what he doesn't consent to." The president then proceeded to assert this did not in any way affect his powers under the section of the industrial law which permits him to impose codes.

This policy has not been resented to under NRA but the right to do so has not been surrendered by the administration.

Of the reference to freedom of the press the president also said: "The question of the freedom of the press is not a matter of the whole of the constitution or of the ten commandments."

"The freedom guaranteed by the constitution is the freedom of expression and that will be scrupulously respected—but it is not freedom to work children or to do business in a fire trap or to violate the laws against obscenity, libel, and lewdness."

While the hours of street sales by children are expressly limited there is no limitation on time for home deliveries except that it shall not impair the health of the boys nor interfere with day school hours.

A will covering a piece of paper five feet long and nine inches wide was filed in the Alameda county, Calif., court. It disposed of \$3,500.

WEST TEXAS: Fair, colder in southeast portion, rising temperature in the Panhandle tonight; Tuesday fair with rising temperature.

ABLE MUSICIANSHIP SHOWN IN CONCERT ON SUNDAY--BRASSES SHOW POWER AND SKILL

Soloists Are Featured; Same Group and Orchestra To Be Presented Later.

THREE hundred Pampans who attended the free concert of the Pampa high school band yesterday are talking enthusiastically of the appearance, precision, and musicianship demonstrated in the program.

The green and gold uniforms were striking in contrast to a black background in the city auditorium.

Particularly impressive was the brass section, which is more complete in its instrumentation than the wood winds. No band in the Panhandle is superior to Pampa's in the brass section. It has a "punch" of near-professional power and clarity. The trumpets are led

by Roger Townsend, the trombones by Charles Frazee. Jack Powell plays the baritone horn. Wayne Larsh and Winston Savage do well on the Sousaphones.

Turney Mullinax is showing excellent progress as leader of the clarinet section. The drum division, too, promises to be above the average for a high school band. With addition of flutes, oboe, bassoon, and piccolo, the band next year should be one of the best in West Texas.

The featured guest artist, Junior Lowenstern of Amarillo, demonstrated ably why he is national junior saxophone champion. Although only 17 years old, he plays scores of difficult numbers from memory with execution that is little short of marvelous. Mrs. Kennedy of Amarillo accompanied Wabrenstein, director,

Wedding Wasn't Secret Long

A secret is just something for everybody to know in Hollywood as Pat Paterson, English actress, and Charles Boyer, actor, ruefully will admit. They eloped from the Hollywood home of John McCormack, which they have leased.

Other characters—Cal Harvey, George Chappel, and Ray Whittaker, theater employes; O'Clockingworth and John Tate, barbers; Conrad Graham, local youth, and Wayne Nicholson, city motorcycle officer; other officers and court attendants.

"STOP HIM!" exclaimed John Tate, local barber, early this morning as, bending nearly double and holding his pistol-whipped, bleeding head, he pointed to a tall man fleeing south past the Fall National bank building.

Conrad Graham, local youth, gave chase. The fleeing man ahead turned at the bank corner, headed east, and cut across the vacant lots toward Pampa Motor company. Graham gained rapidly, meanwhile yelling to Police Officer Wayne Nicholson who, because of the high wind Sunday, had abandoned his motorcycle and was using his car. Nicholson whirled his car around and drove rapidly ahead of the fugitive.

Just as the fugitive was drawing his 38 caliber pistol on Graham to prevent a flying tackle or other attack, Nicholson drew his own gun as he stepped from his automobile. The fleeing man, who had stopped, threw his gun on the ground and surrendered. At the police station he gave his name as Joseph Bradley, 40, of New Orleans, and said he had arrived yesterday afternoon from Berger, where the robbery plot was suggested by a stranger while the two were purportedly drinking and gambling at a resort house.

Didn't Know Partner
Bradley made a confession to District Attorney Lewis M. Goodrich but declined to give any information concerning his partner in the affair. Charges of assault with a prohibited weapon, burglary, and carrying a pistol can be placed against him. Bradley is 5 feet 10, weighs 133 pounds, and claims to have \$100. He had about \$40 when arrested. He said it was his first "job." It was his own money. His companion obtained about \$15.

See GUNMAN, Page 8.

WASHINGTON, Feb. 19. (AP)—Secretary Ickes said today he would continue to enforce the oil code and orders curtailing production of crude to conserve the supply and protect states supplying the interstate market, "although seriously crippled" by a recent court decision in Texas holding the oil code unconstitutional.

CHICAGO, Feb. 19. (AP)—Isaac Costner, 33, alleged Touhy gangster recently arrested in Baltimore and testifying as a state's witness, today accused three other members of the Touhy gang of the \$70,000 kidnaping of John Factor last July. Costner took the stand as the state's first witness in a surprise move which was opposed by defense attorney, William Scott Stewart.

GREENWOOD, Miss., Feb. 19. (AP)—Further testimony that Dr. Sarah Ruth Dean had caused the rift between Dr. John Preston Kennedy, brilliant Greenwood surgeon, and Mrs. Kennedy, was given by the divorced wife today in the murder trial of Dr. Dean, charged with poisoning the surgeon last July.

The state had sought to prove that Kennedy died when he was making plans to re-wed his former wife.

Mrs. Bessie Barry Kennedy, appeared more composed as she resumed the narrative of her marital difficulties.

Carefully avoiding Dr. Dean's eyes, who kept her face constantly on the witness Mrs. Kennedy, blonde and pretty, told the jury that she and her husband discussed a divorce "shortly after I found Dr. Dean's letters to him in 1931."

"Did you notice anything unusual in Preston's conduct after this that caused you concern?" asked Special Prosecutor Means Johnston.

"Yes," Mrs. Kennedy testified. "I looked around for a reason. One day I entered the side door of my husband's medical building and started down the hall toward the reception room. Before I reached there, Preston came out and met me. He seemed to try to detain me but I walked casually on into the reception room. I saw Dr. Dean going out the other door."

MERCURY DROPS TO TEN DEGREES ABOVE ZERO LAST NIGHT AFTER WORST SANDSTORM QUIETS DOWN

Immediate Relief Is Not In Sight, Says Weatherman

Atmospheric silence descended over this section of the Panhandle last night after one of the worst sandstorms in months. Driving was almost impossible from Saturday noon until yesterday afternoon.

Last night was clear and cold with the temperature near the season's low of 10 degrees above zero. At noon today the mercury had climbed to 35 degrees.

Pampans who attended the Katharine Cornell play in Amarillo Saturday night had considerable trouble getting home because of the sandstorm between Amarillo and Pampa; it was impossible to drive more than a few miles an hour. Many cars stalled on the highway. Rain which fell at times caused the sand on windshields to turn to mud and visibility was cut to a few feet.

The wind did strange things. Pampans who stayed in Amarillo all night reported several windows broken and contents scattered over Polk street.

One of the plate glass show windows in the Pampa J. C. Penney store was broken by the pressure of the wind. Many signs were torn down and a few residence windows broken. Dust was everywhere. Homes, stores, and show windows were covered.

Frank Chapman, who carried THE NEWS to Miami, Canadian, Wheeler, Siamrock, Mobster and McLean, was forced into a ditch by a reel from a combine which was "tearing down highway 90" near Canadian. Hol Wagner followed a car into the middle of a wheat field near St. Francis.

CRIMINAL COURTS BUILDING CHICAGO, Feb. 19. (AP)—Dr. Alice Lindsay Wynkoop today went on trial for her life for the second time, charged with the murder of her daughter-in-law, Rheta Gardner Wynkoop, Prosecutor Charles S. Dougherty announced he again would ask the death penalty.

BOSTON, Feb. 19. (AP)—The battered body of Victoria David, 14, criminally assaulted and then apparently slain, was found this morning in a shallow excavation on the border of Boston's Chinatown. The medical examiner said the girl had been attacked before apparently being beaten to death sometime early today.

WASHINGTON, Feb. 19. (AP)—Secretary Ickes said today he would continue to enforce the oil code and orders curtailing production of crude to conserve the supply and protect states supplying the interstate market, "although seriously crippled" by a recent court decision in Texas holding the oil code unconstitutional.

CHICAGO, Feb. 19. BARBER'S CRY SENDS GRAHAM AFTER BANDIT

NICHOLSON JOINS IN RACE AND HEADS OFF FUGITIVE

Plot—To hold up Tom Blair, La. Nora theater manager and make him open his safe early this morning, hatched in Berger. Setting—La. Nora theater, 8:05 a. m.

Villains—Joseph Bradley, 40, New Orleans, confessed plotter, and unknown partner, who escaped.

Other characters—Cal Harvey, George Chappel, and Ray Whittaker, theater employes; O'Clockingworth and John Tate, barbers; Conrad Graham, local youth, and Wayne Nicholson, city motorcycle officer; other officers and court attendants.

"STOP HIM!" exclaimed John Tate, local barber, early this morning as, bending nearly double and holding his pistol-whipped, bleeding head, he pointed to a tall man fleeing south past the Fall National bank building.

Conrad Graham, local youth, gave chase. The fleeing man ahead turned at the bank corner, headed east, and cut across the vacant lots toward Pampa Motor company. 'Member Him?

Smiling, ruddy-faced and 40 pounds heavier, Charles Ponzi, notorious swindler, is shown as he emerged from the state prison at Boston after serving seven years for perpetrating one of the most fantastic get-rich-quick schemes in financial history. Re-arrested by federal agents for deportation, the once manipulator of millions was unable to raise \$1,000 for bail.

MINSTREL TO BE GIVEN FREE THIS EVENING

CWA Workers Eager To Hear Music And Humor

THE LIONS will roar again tonight.

A very full house will greet the minstrel cast as CWA workers and their families attend the third performance of the musical show as guests at the clubmen.

It will be the same show which pleased two previous audiences of last week. All members of the cast are requested by Director John Sturgeon to report for make-up at 7 p. m. tonight.

The curtain will rise promptly at 8:15 p. m. Tickets for CWA workers may be obtained from the office in the city hall basement. Hundreds of tickets good for whole families, were distributed by Mrs. W. H. Davis, administrator, Friday, Saturday and today.

Other Pampans who wish to attend may do so by paying 50 cents for adults and 25 cents for children.

Rickenbacker In Gesture Flight

NEWARK, N. J., Feb. 19. (AP)—Captain Eddie Rickenbacker landed at 1:01 p. m. today to complete the last commercial air flight for the Transcontinental and Western Air.

The flight a gesture to show efficiency in the handling of airmail by commercial planes, started at Los Angeles at 11:30 p. m. yesterday. TWA officials claimed it set a new record for commercial flights.

The plane, a Douglas Airliner and the newest type of commercial ship, carried six passengers.

The elapsed time of the flight was 13 hours and 4 minutes. The two officials said the fastest previous commercial transcontinental flight was made in 18 hours and 30 minutes, also used time.

"That's what commercial airlines could do with the airmail," Rickenbacker said as he stepped from the plane.

I SAW--

In the Sarcophagus, the Sphinx club's "newspaper," where the old spinning wheel is just a modern roulette wheel. Reg Farless was responsible for the crack.

A front-page banner headline in the Matador Tribune which stated that "Gaston Foote's address swayed chamber of commerce banquet audience" from the heights of hilarity to the point of tears in one of the most sweeping and inspiring orations ever delivered here. A picture of the pastor accompanied the story.

KEEPING OUT OF WAR

Nations are even more head-strong than individuals because of the mob-mind, aroused, grows apace on its own favor. The Atlantic ocean seems a safe barrier between troubles in Europe and our own lives. No one seems to doubt that war is coming, however, and this state of mind is dangerous. In addition to preparedness of arms, we need preparedness of mind to know how to stay out of needless and useless wars.

The Atlantic ocean is wide, and this continent is physically far removed from the scene of these European troubles. But the distance isn't as great as it might be, for all that.

Canada, in 1914, and the United States, in 1917, learned that they could be called on to send their young men overseas to die in quarrels that were purely European—quarrels in the making of which the New World had no hand, and from whose solution it could expect no direct benefits.

Today, consequently, with the war clouds drifting high over the European horizon, the one question in which most of us are interested is simply, "If a new European war comes, how can we keep out of it?" Perhaps the best answer is the remark that the way to keep out of a war is to keep out of it; in other words, that we cannot be drawn into a European conflict if we make up our minds definitely, in advance, that we are not going to be entangled in it on either side.

Such a policy might call for a stricter conception of neutrality than we observed before. We could not permit our country to be made a happy hunting ground for propagandists, as it was in 1915 and 1916. We could not permit our financial resources to be used as a reservoir for war loans for either set of combatants. We could not turn our industries into manufacturing for munitions of war.

It might be hard to follow such a policy. The pressure would be tremendous. But we need only look back to the world war to understand what the consequences of failure to follow it might be. If and when a new war comes to Europe, it will be of the highest importance to civilization that one great nation remain at peace. And if we are going to maintain our neutrality, the present moment is not too early a time to start making up our minds.

Canadian railways are developing a plan for providing pick-up and delivery service to patrons at no extra cost, through cooperation with trucking concerns.

Happy Camp, Calif., has what is believed to be the only "log cabin" high school in the country.

ITCHING IRRITATION Even in persistent cases where parts are sore and tender—comfort follows with the soothing touch of Resmol

TABASCO THE SAUCE SUPREME MORNING—With your breakfast eggs. A few drops of Tabasco make a good egg better. NOON—Try Tabasco on your mashed potatoes—you'll be surprised at the new appetizing flavor. OUT OUR WAY By WILLIAMS

Oil Field News

The Panhandle oilfield was "the hot spot of the state" last week, when 10 tests were announced completed. Most of them had been on railroad commission test for five days. Ten locations were also made. The most startling development of the week was the Warner Oil company's Webb in section 62, block 23, near the Wheeler county line. The well was deepened 40 feet to a total depth of 2,400 feet and production increased from 25 barrels an hour to 115 barrels an hour. The test was shut in Friday but when opened up Saturday afternoon, it produced at the rate of 264 barrels an hour for more than two hours. Five per cent of water flowed with the oil during the Saturday test. The well was again shut in and remained closed yesterday. In eastern Wheeler county the R. R. Osborne test was opened up again after paraffin had been treated and the well made more than 400 barrels the first day. It came in for 240 barrels three weeks ago. The test is eight miles east of Shamrock and is a rank wildcat. Two locations have been made near the new producer. The field completions during the past week were as follows: Continental Oil company No. 1 Bryan in section 92 block 4, I&GN survey was an old well deepened. Former depth was 3,210 where it was completed for 370 barrels. Had quit producing and was deepened to 3,253. New pay at 3,240 to 3,250 and it was completed for 150 barrels. Huber Petroleum company No. 1 Burnett "A" in section 123 block 3, I&GN survey was bottomed at 2,570. Gas pay was from 2,470 to 2,510 and initial volume was 19,000-000 feet. Skelly Oil company No. 24 west Schaffer in section 68 block 4, I&GN survey was drilled to a total depth of 3,115. Pay was from 3,062 to 3,115 and it averaged 115 barrels on a 4 day Railroad commission test. Gray-Mid-Kansas Oil & Gas company No. 4 Webb in section 61 block 25, H&GN survey was bottomed at 2,501. Lime pay was from 2,418 to 2,455 and granite wash pay from 2,465 to 2,494. Both pays shot with 190 quarts and the well averaged 203 barrels on five day commission test. Shurway Oil company No. 7 Cook-Faulkner in section 30 block B-2, H&GN survey was an old well deepened. Former depth was 2,862 where it did 1,970 barrels initial. Dropped to 150 barrels a day and was drilled on down to 2,998. Increase in the pay from 2,904 to 2,998 and averaged 386 barrels on five day commission test. Phillips Petroleum company No. 5 Jackson in section 88 block B-2, H&GN survey was an old well deepened. Former total depth was 3,130 where it was completed for 35 barrels. Had quit producing and was drilled on down to 3,198. Increase in oil from 3,063 to 3,075 and it averaged 131 barrels on a five day test. Texas company No. 10 Bokers in section 89 block B-2, H&GN survey was an old well deepened. Former

Argument Flares Over Death Toll In Austrian War

VIENNA, Feb. 19 (AP)—All Europe wondered today just how many men, women and children—workers, police and soldiers—died in Austria's civil war last week.

Chancellor Dollfus declared in an international broadcast Sunday that 241 were slain before the four-day socialist rebellion was put down.

To this number, however, can be added without argument five socialists who, a government communique said, were slain by their own (same guard) bayonets yesterday, and 7 socialists hanged for insubordinate activities.

Counting these, the official death list may be set at 153, but there the argument begins.

Socialist fugitives in Bratislava, Counting these, the official death list may be set at 153, but there the argument begins.

17 ARRESTED IN HUNT FOR HILL BANDITS

BRADSHAW RELATIVES ARE ROUNDED UP BY POSSE

MUSKOGEE, Okla., Feb. 19 (AP)—Another chapter in the history of the Cookson Hills, fantastic stronghold of the lawless for more than a generation, was written today—not in blood but in police records.

Seventeen persons, including three women, were held in jail here and at Sallisaw for investigation, following the mightiest manhunt in Oklahoma's history, in which hundreds of Oklahoma and Arkansas officers and Governor "Alfalfa Bill" Murray's national guardsmen participated.

But the big fish, Charles "Pretty Boy" Floyd, machine gun bank robber and killer, and Ford Bradshaw, reputed the most dangerous of the Cookson Hills hoodlums, got away.

The 17 arrested were mostly small fry, some of whom will be released. Others probably will be charged with auto theft or with carrying concealed weapons.

However, Sheriff Stanley Rogers of Oklahoma county, generalissimo of the hoodlum roundup, said he didn't believe Floyd was in the hills, where he was reared, but added, "we believe we just missed Ford Bradshaw by a hair's breadth."

Those held here were Luther Jolliff, of Vian, who has been sought for questioning concerning the gun battle two years ago and his companion, Andrew Lowery of Bristow, Jolliff was armed.

Others, at Sallisaw, included: Curman Bradshaw, young brother of Ford; Sam Bumgardner, Hoyt Teague, Jack Jackson, 17, said by officers to be a nephew of Ford Bradshaw; Mrs. Rena Deetjen, sister of Bradshaw; Mrs. Ruth Clanton, niece of Bradshaw; and widow of Ed Clanton, slain in Chicago two weeks ago; Cecil Snow, Virgil Myers, and others whose names were withheld.

Family Reunion Honors Birthday

A birthday party that was the occasion for a family reunion was given yesterday at the home of Mrs. Earl Lawrence on Francis street, honoring her mother, Mrs. L. A. Fannin of Elk City, Okla.

Members of the family who had not all been together in 20 years were present for the delicious dinner. Lovely gifts were presented to the honoree.

Guests were Mr. and Mrs. L. A.

MRS. IHRIG'S K C BAKING POWDER

25 Ounces for 25c

SAME PRICE TODAY as 43 years ago

Manufactured by baking powder specialists who make nothing else. Controlled by expert chemists. The quality of K C is always uniform—it's dependable.

The demonstrator will show you how this double-acted—double-action baking powder will produce fine texture and large volume in your baking—also, why K C is economical and efficient. Owing to its great leavening strength a smaller amount of K C is used per recipe than of some other brands.

You will realize why K C is the most popular brand sold.

Then try K C yourself. Give it the oven test and judge by results.

MILLIONS OF POUNDS USED BY OUR GOVERNMENT

U. S. ARMY PLANES WILL START FLYING MAILS LATE TODAY

MAIL SERVICE IN 100 CITIES DISCONTINUED

SAFETY TO BE PRIME THOUGHT IN MIND OF OFFICERS

WASHINGTON, Feb. 19 (AP)—The United States army squared away today for the biggest job it has tackled since the world war—toting the mails through the skyways in the dead of winter.

The nation's fighting birdmen are to turn into aerial postmen officially at midnight but several hours before that the task is expected to be under way, weather permitting. At 3:35 p. m., a military plane is to start from Newark, N. J., airport for Miami with mail bags aboard. Shortly after midnight, the whole vast system is expected to be in gear.

Safety is one of the prime thoughts in the minds of the commanding officers, and no unwarranted chances are to be taken. Three deaths already have resulted from army preparations to fly the mails. The army service will begin over a much curtailed system. Officials figure the military pilots will cover about 41,000 miles daily, as against 100,000 miles by the private companies whose contracts were cancelled because of charges of "conspiracy." For this, the aviation concerns have recruited about 1,250,000 a month for the past five years.

Although the army plans to expand its routes, officials estimate that about 100 cities will be without airmail facilities out of 167 served before.

ARTFUL DODGE

BALTIMORE (AP)—The artists of Baltimore have hung a "for rent" sign on their works and have inaugurated in installment for selling their pictures.

By the former plan, persons entertaining guests may rent the works of Baltimore painters for a day, week or month—at a rate agreeable to the artist.

The interested artists have formed an organization—its purpose not to sell the pictures but to get them into circulation.

JAPS WORRIED ABOUT CHINESE USE OF LOANS

Declare Plane Bases Being Built With American Funds

By The Associated Press

TOKYO, Feb. 19 (AP)—Reports that a portion of America's \$50,000,000 cotton and wheat loan to China is being used in the expansion of Chinese airbases at Foochow and Amoy will be the subject shortly of Japanese diplomatic representatives to China, it was learned today.

A Japanese foreign office spokesman said Akira Ariyoshi, minister to China, had been instructed to seize an early opportunity to ask the Nanking nationalist government to confirm or deny the reports.

In the event of confirmation, the spokesman said, Ariyoshi will warn China that such use of foreign funds violates China's pledge not to employ borrowed money in military establishments along the Fukien province coast.

The spokesman said that many reports concerning Fukien air bases had reached Tokyo "from Japanese consuls and agents in other departments of the Japanese government."

One of these, he asserted, was that "officers of an American gunboat lying off Foochow during the recent disturbances (in Fukien province) went ashore and inspected proposed airbase extension plans. Another said houses surrounding the present flying field at Foochow were being condemned and demolished to permit the extensions," the spokesman added.

"The enlargements, in our belief, exceed purely commercial requirements," he went on.

"Moreover, the establishment of two big air bases so close together as Foochow and Amoy supports the suspicion that they are intended for military purposes. This we are unable to ignore in view of the proximity of Formosa."

Out of funds the public works administration has terminated the services of all members of state advisory boards.

PRICE-FIXING GRADUALLY TO BE DISCARDED

WILL PREVENT SALES BELOW REASONABLE COST IN FUTURE

By The Associated Press

WASHINGTON, Feb. 19 (AP)—The NRA has created a new price formula, expected to lead to eventual abandonment of absolute price-fixing.

It is designed to prevent sales below "reasonable cost." Officials of the recovery agency feel that if the plan proves successful it will make more arbitrary price-fixing unnecessary.

The new scheme, as set for in an official memorandum not yet released to the public, proposes a standard price provision for codes. It would permit an industry to determine "reasonable" costs in an "emergency" where destructive price cutting might endanger the maintenance of a code.

It would tend in the future to permit price regulation only in emergencies, and officials said it indicated a general backing away from price tampering in a few instances.

The new provision is recommended in all new codes, and may be adopted for old codes if the industry desires.

The new price formula was described as based on the idea of selecting the cost of plants of average efficiency as standard "reasonable cost" for an industry.

The new standard provision is as follows: "When the code authority determines that an emergency exists in this industry and that because thereof is destructive price cutting such as to render ineffective or to seriously endanger the maintenance of provisions of this code, the code authority may cause to be determined the lowest reasonable cost of the produce of this industry, such determination to be subject to such notice and a hearing as the administrator may require."

"The administration may approve, disapprove or modify the determination."

Eggs, steady; extra firsts 15 1/2-16; fresh graded firsts cars 15 1/2-16; current receipts 15.

NEW ORLEANS COTTON

NEW ORLEANS, Feb. 19 (AP)—The market was only moderately active during the morning and prices fluctuated in a rather narrow range. Traders appeared to be waiting on further Washington news relative to the Bankhead bill. Prices reacted 6 to 7 points from the early high, May dropping to 12.4, July to 12.41 and October to 12.60, or 10 to 11 points net lower. Near noon the market recovered one to three points.

CHICAGO GRAIN

CHICAGO, Feb. 19 (AP)—Grain prices went lower today largely owing to moisture relief for domestic winter wheat territory and because of uncertainty over administration plans for regulating commodity exchanges.

Many traders said some authoritative announcement regarding the National Grain Exchange code would tend to dispel part of the uncertainty as to the trend of the market. The fact that sufficient surface moisture had been received in parts of the dry areas west and southwest was generally believed to

MARKET BRIEFS

NEW YORK, Feb. 19 (AP)—After leading throughout most of the session today, stocks turned downward in the final half-hour and the activity picked up sharply under the reactionary impetus. Short covering brought a few moderate recoveries just before the finish, but losses of 1 to 2 or more points predominated. The close was a trifle heavy. Transfers approximated 2,400,000 shares.

Belgian Unity Is Now at Stake, Is French Opinion

By The Associated Press

As the world mourned King Albert today, hope was expressed in the capitals of the great powers that his death will not disturb the peace of Europe.

How the young Crown Prince Leopold will handle Belgian internal difficulties, including the old racial problems, and how he will act toward Europe's political troubles of the hour—some of the chief of which is Hitlerism, worried the statesmen of many countries.

France loved King Albert as dearly as her own world war heroes for his stand against the Germans, and in official circles hope was expressed that his son and successor, Leopold III, will be as good a friend and ally.

Members of the Doumergue government were particularly shocked by the death of the ruler of the Belgians because of the efforts France has been making to stem the tide of Hitlerism in Europe.

7 New Automobiles and \$11,000.00 in Cash

FREE!

For a Name for this Lovely Silverware Pattern!

What do you "feel" about the silverware pattern illustrated to the left? If you feel it is REGAL—give it the name of a king or queen or some other member of royalty. Can you make up words like these: Queen Elizabeth; Adonis; Chippendale; Governor; Robin Hood; Dickens; Hollyhock? Names of presidents, artists, authors, people, flowers, birds, trees, stars, and a hundred other subjects will inspire you to make up a name. Simply find or make up a name that appeals to you—and then ask your grocer how to enter the contest! You may be one of the 777 cash prize winners (\$7000 first prize) or get one of the 7 new cars!

The purpose of the contest is to find a new name for this lovely Wm. Rogers & Son 35-year Guaranteed Silverware which is given FREE for GOLD MEDAL SILVERWARE COUPONS, and also to call your attention to modern milling, science's latest development to end failure in baking—GOLD MEDAL "Kitchen-Tested" Flour. For this flour banished bad luck by banishing the cause—LACK OF UNIFORMITY! And in every sack you will find another aid to baking success: A set of 20 Betty Crocker recipes (new set every three months).

MRS. IHRIG USES GOLD MEDAL FLOUR At The HOMEMAKERS' CONVENTION

In both her health talks before the Homemakers' Convention meetings, and also in her cooking demonstrations from the stage, you will find that Mrs. Ihrig relies on GOLD MEDAL "Kitchen-Tested" Flour. For she knows the health building qualities of this finest product of the miller's art—and that GOLD MEDAL "Kitchen-Tested" Flour has been tested in an oven just like yours for UNIFORMITY OF RESULTS before it goes to you. Every batch is tested scientifically for baking of cakes, pies, pastries, breads, by a number of experts directed by the noted Gold Medal Cooking Authority, Betty Crocker.

FREE SILVERWARE COUPONS IN EVERY SACK OF GOLD MEDAL 'Kitchen-Tested' Flour

This silverware coupon is on the back cover of the Betty Crocker \$25,000 recipe set to be found in every sack of Gold Medal "Kitchen-Tested" Flour—and additional coupons may be secured also in every package of BISQUICK, SOFTASILK, The Cake Flour; WHEATIES; and in every sack of AMARYLLIS or GREAT WEST Flour. But be sure to ask your grocer about the details of the contest, when you buy your sack of GOLD MEDAL.

FREE! \$25,000.00 BETTY CROCKER RECIPE SET IN EVERY SACK OF GOLD MEDAL!

ABC

Washes safer, faster, cleaner, more thoroughly, does not tangle clothes

- All the words in the dictionary couldn't begin to describe the thrill you'll get, operating ABC Washer Model 66, with patented Fingertip Control. Never before has a Washer been fabricated so good looking... so strong... so easy to operate... SO SAFE... so different... so startlingly new in its conception of all that a washer should be... so revolutionary in design, construction and power.
- A Washer most unusual in operation... equipped with a wringer that is extraordinary. And in addition a new French type agitator that washes faster, cleaner, more thoroughly, and does not tangle clothes... a new idea in tub design... patented porcelain swinging wringer and a host of other extra convenience features.
- Women all over the country are talking about the new ABC Washer Model 66... with patented Fingertip Control. A phone call brings a Washer for free home demonstration... and if the ABC doesn't sell itself... don't keep it.

ROOSEVELT IS IN FAVOR OF COTTON PLAN

COMPULSORY CONTROL OF PRODUCTION APPROVED

By SAM BLEDSOE
Associated Press Staff Writer
WASHINGTON, Feb. 19 (AP)—The principle of compulsory control of cotton production was endorsed today by President Roosevelt in letters to chairmen of the house and senate agriculture committees.
Removing all doubt about his stand, Mr. Roosevelt approved the plan of the pending Bankhead bill to limit cotton marketed from the 1934 crop to 9,500,000 bales through federal taxation.
Although Mr. Roosevelt referred only to cotton, legislators and officials felt he would approve federal compulsion where other crops were concerned should it be a success in the case of cotton.
Touching on another phase of the agricultural problem, Chairman Smith (D-S. C.) of the senate agriculture committee advocated postponement of government supervision of trading on commodity exchanges until they had had a chance to work out a system of self-control and until crop surpluses have been reduced.

Why Doctors Favor a Liquid Laxative

A doctor will tell you that the care less use of strong laxatives may do more harm than good.
Harsh laxatives often drain the system, weaken the bowel muscles, and even affect the liver and kidneys.
Fortunately, the public is fast returning to laxatives in liquid form. The doctor's liquid laxative can be measured to suit individual need. It forms no habit; you need not take a "double dose" a day or two later.
Dr. Caldwell's Syrup Pepsin gently helps the average person's bowels back to regularity. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go! Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. All druggists, ready for use in big bottles. Member N. R. A.

BLOND GODDESS

A New Serial by HERBERT JENSEN

SYNOPSIS: Frank Grahame, the explorer, and Janice Kent, movie star, are saved from death at the hands of the subvados in the Yucatan jungle by the sacrifice of Horatio Greene, Miss Kent's publicity agent, and a Mexican boy named Juan. They make a dash for freedom in an airplane. Frank prays that the wound inflicted on him by the savages will not make him unconscious before the plane reaches the coast.
Chapter 38
JUNGLE AGAIN
If only he could retain consciousness a little while longer! Vaguely he knew that an airplane flying at normal speed could travel in a minute almost the distance one could travel in a day's beating through heat-laden jungle. Just a half hour more he wanted. His sight grew dimmer. Just a few minutes longer, he prayed. The beach, he knew, was one long landing field.
Through bleared eyes he observed that the jungle thickness below was spotted with many savannahs. Again he tried for altitude, but his muscles refused to supply strength sufficient to haul back the stick.
Then ahead of him, abruptly, he saw tree tops. A creak of darkness obscured his sight for an instant. When his vision cleared he felt the upper branches slap against the landing gear.
Savagely he fought the controls. The effort sent blinding pain through his brain. He was conscious of a great crashing noise.
Eons later, it seemed, he dreamed that he was struggling through incalculable jungles. It was very real to him. The smells of rotting vegetation were bitter in his nostrils. Trees and brush weaved like unrealistic phantoms before his eyes.
From time to time a variety of tastes spread over his palate, as if he had eaten of jungle fruits; twice his brain dwelt in dull wonder that water could taste so sweet even in a dream.
His body felt as though it were encased in hot metal. When that nightmare became too painful to endure, all his senses became blank again. After a period of time the dreams would recur.
When finally he awakened, it seemed that he had been sleeping forever. The air about him was cool and fragrant. He opened his eyes.
He was lying in a palm clump. He saw the drooping fronds above, glistened against a sky brilliant with stars. A man was crouched upon his chest. He struggled to a sitting position. A spear fired burned nearby. "Janice!" he cried. "Janice!"
"What is it, Frank?"
She stared before him. The firelight blundered. He stared in amazement. Her trim costume was stained and torn, her laced boots were cut to tatters.
He observed that her face seemed thinner of contour, and the skin was pink and peeling as if it had been blistered. At first he thought

Leviathan Rots Because of Great Britain Says Paper

NEW YORK, Feb. 19 (AP)—The New York Evening Post says in a copyrighted article that the Leviathan, largest liner in the world, is being allowed to rot at a Hoboken pier where she was sent in order to remove "a menace to British shipping."
The Post, in a story by Willis J. Ballinger, says the Leviathan has been abandoned by her owners, the International Mercantile Marine, to a "fest of the elements" and that lack of care has already inflicted a million dollars damage on her.
"The docking of the Leviathan," the article says, "marks one of the closing chapters in a chain of intricate and astounding moves whereby high-powered finance, the British government and the United States shipping board have wrecked the American merchant marine."
Capt. George E. Cook, instructor of reserve officers at Annapolis, Md., owns a silver "chow pot," he says, was given him by a Moro bandit in the Philippines.

ly, though, they've been swallowed by the jungle."
"This one was a godsend. We followed it until dark. Then it stopped. Just like that." She made a downward gesture with her arm.
"It was like walking off an open bridge. I stepped out and my foot touched nothing. I fell—I don't know how far I fell—into some brush and rolled out of it down a slope. I think I screamed, but you didn't hear me."
"I was shaken, but not much hurt, I think. I called to you but you didn't answer. I thought I was in some kind of a well, and you had walked on, missing it."
"I was really terrified then." She smiled a little apologetically. "I think I was too frightened to call to you. I sat there—I don't know for how long. Then the moon came up."
"You were lying just a little way from me. Your face was terribly scratched."
"There were matches in your coat. I made this fire. There were clouds of mosquitoes." A tear glistened on her cheek and fell. "I don't know where we are. We're lost, Frank! Do you think there's any chance..."
She wept tiredly. Frank tightened the arm across her shoulders with awkward reassurance. She rested her cheek against his shoulder. It seemed that she fell asleep in that instant. He held her thus for an hour, staring somberly at the fire's glow.
Curiously he thought of Spin Winslow's remark made weeks—or was it years?—before. Janice Kent, he had said with his characteristic cynicism, was wholebone and gristle under her soft exterior.
But he hadn't meant that she could stand this hardship. The routine of the studios, however, exacting, had at the day's end warm baths, massage and proper food. Here—no one knew better than Frank Grahame—the privations of the jungle would be brutally swift and murderous.
The rifle was gone. He discovered in a glance that his pistol was not in the holster. There was a sagging weight in his pocket—ammunition—but worthless without the gun.
They had the machete, but that was little use as a good-getter. It would serve to hack a trail through the jungle; that was all.
How far they were from the coast he had no idea whatsoever. Distances in the jungle are not computed in miles but in days of travel. They had no food—no means to provide themselves with food. Water, even, might prove to be a problem.
They must depend upon the afternoon rain, or else drink the trackish and germ-thickened water from the swamps they might pass. Furthermore a casual wound, the small mishap of a thorn scratch might become infected and prove more deadly than snake bite.
As he watched the fire dwindled, McCuices sang closer. A slight sound in the surrounding darkness made him realize that jaguars were ferocious cats and might be lurking about.
Gently he allowed the limp form of his companion to rest upon the ground. He took off his coat and

Each year Turkey and Greece ship us thousands of bales of fine tobaccos.

But why send 4,000 miles for tobacco?

... because spicy, aromatic Turkish is the best seasoning there is for a cigarette.

It adds something to flavor and aroma that no other tobacco can give. Chesterfield uses Turkish tobacco—from Samsoun, Smyrna, Cavalla and Xanthi.

Then it blends and cross-blends them with various kinds of choice home-grown tobaccos in the right balance to give you a cigarette that's milder, a cigarette that tastes better.

Chesterfield

A BALANCED BLEND OF FINEST AROMATIC TURKISH AND DOMESTIC TOBACCO

A leaf of Turkish tobacco—smaller than the palm of your hand—800 or more to the pound. There are many thousands of these leaves in each of these bales below, ready for shipment to America.

LIKELY BOYS TO BE CHOSEN BY MITCHELL

TEAM CANDIDATES TO MEET WITH COACH THIS AFTERNOON

Football is in the air. Coach Odus Mitchell posted a notice on the bulletin board at the high school this morning calling for all boys interested in football to be on hand for a meeting this afternoon.

Coach Mitchell said he would select his most likely prospects and start spring training immediately. The rest of the squad will be called later in the season. Line Coach Argus Fox will be on hand. "Limb-ering-up" exercises will be on the program for the first few days. Workouts will be held only on suitable days, the coaches having decided not to take any chances on their charges becoming ill.

Captain Monroe Owens, all-state end, was the most excited member of the squad when he read the bulletin this morning. Captain Owens is one boy who takes his football seriously. If all the members of the 1934 team follow in his footsteps in hard play every minute under fire and keep in condition as he does, Pampa should be on top next fall.

There will be 17 members of the 1933 Harvester squad eligible to report for practice. That number of prospects will be increased by a large number from the 1933 Gorillas. Coach Mitchell does not plan to coach track and field this spring. He will devote his entire time to football. "I should have a well-balanced team developed by the time school is out this summer," Coach Mitchell said recently.

Fans are eager to see what changes will be made in the lineup this year. It is rumored that a lineman or two may appear in the backfield to give it more weight. A center will have to be developed to replace Roscoe Pinnell and a tight will develop over the boy who will take the place of Jess Patton, captain-end of last year's team.

Several other places will have to be filled, and the fight for positions should be keen. Several Gorillas are expected to cause much trouble for last year's squadmen.

"Leg" Specialist Here Tonight

YAQUI JOE

Yaqui Joe likes to use his legs a lot more than his arms when he gets on the mat. He invented the flying body scissors, the flying headlock and a few more holds that require the legs. His favorite hold is the flying body scissors and the drop toe hold. Wrestlers who have felt the full power of Yaqui's legs declare they would rather be between the blades of a pair of giant scissors. The Indian meets Professor Dick Kanthe of Detroit in the main event at the Pla-Mor auditorium tonight. Fans are betting on whether the strong man will be powerful enough to break the Indian's leg holds or whether Yaqui will be able to combat Kanthe's terrific power.

Joe Bauer, German grappler, will tangle with Pat Garrison, local boy, in the semi-final. Anything is liable to happen in the bout. Both get mad and start tearing things loose. The German has mostly clowned here but that was because he wanted to get a chance at Garrison. Bauer can wrestle and he isn't bluffing the local boy.

Kid Hill, local newcomer to the mat game, will tangle with Charlie Heard of San Antonio in the opening encounter which will get under way at 8:15 o'clock.

Oyster beds have been planted at Weather's Cove, Alaska, in an effort to inaugurate the industry in the northern territory.

Hens will reduce their production of eggs and finally cease laying entirely unless they are supplied with fresh water.

CALIFORNIA NOSES OUT TEXAS POLO TEAM IN EXTRA CHUKKER

British Brothers Star For Two Clubs; Elmer Boeske Fractures Arm.

LCS ANGELES, Feb. 19 (AP)—California held an inter-state high goal polo victory today at heavy price.

The west coast quartet defeated a Texas team 10 to 9 in a torrid extra chukker match yesterday, but in so doing lost the services of its ten-goal star, Elmer Boeske, for the remainder of the winter season.

Boeske, one of the country's three top-rated mallet experts, suffered a fracture of his right arm in a bad spill and was taken from the game. Capt. Wesley White, one of the umpires was pressed into service to finish out the close contest.

In the ninth chukker Rube Williams, rough riding Texan, took a bad spill and was taken from the game. Capt. Wesley White, one of the umpires was pressed into service to finish out the close contest.

The victory gave California the series for it won the first match two weeks ago 19 to 15 and then lost the second encounter 13 to 8.

For the second time in the series, Texas played without its 10-handicap performer, Cecil Smith, who was unable to participate in the last two matches because of an eye ailment.

As in the previous contests, the Roark brothers, Aidan and Pat, former internationalists for Great Britain, rode off the field in possession of the greater share of the acclaim.

Pat, who scored 5 goals for Texas, was high individual point garner, with Aidan his younger brother playing for California, only a goal behind with four.

Texas pulled up into a tie in the fourth chukker and the teams battled to a standstill through the sixth before California forced one goal ahead, but Williams tied the score in the eighth.

In the ninth Aidan Roark dribbled the ball through the goal posts in splendid fashion for the victory.

DEATH FLIES A KITE
SAVANNAH, Ga. (AP)—Three-year-old Robert Scholl had the measles and couldn't go out to play so his father made a kite and flew it outside his window to amuse him.

Robert watched eagerly from the upstairs—too eagerly. He leaped out and fell to the ground. He died shortly after a broken neck.

BY BILL PARKER.
Associated Press Sports Writer.

GALVESTON, Feb. 19 (AP)—Some of the National Professional Golfers' association's brightest sub-par stars—sub-par customarily—hit the road for Florida tournaments today, leaving "mister par" in undisputed possession of the treacherous Galveston municipal golf course.

Among them was Craig Wood, professional of Deal, N. J., who carried the check for winning the first annual \$2,000 Galveston open but not the glory of trimming the 36-36-72 par course. Wood beat the field with a 72-hole score of 280, two over par. He was consistent thru the four championship rounds with 73-73-72-72. His two round of par shooting yesterday went on the record here as remarkable for a north wind having a velocity of 26 miles an hour whipped a course already waterlogged by an early morning downpour.

Wood shot the morning round in 35-37-72 for a two-stroke lead over Tom Creavy of Albany, N. Y., at the start of the final 18 holes. He shot 34-38-72 on the final round to pick up another stroke on Creavy and finish 3 strokes in front of Byron Nelson of Texasarkana, who drew down a check for \$300 as second place. Wifry Cox, who drew down \$750 as winner of the Texas open, received a check for \$1450 for finishing in 18th place with 302.

The Brooklyn professional could not putt with any degree of success until the final round when he carded a 73.

With the professionals off for Florida, most of the amateurs who playing in the Texas and Galveston opens left today for Houston to compete this week in the 20th annual Houston Country club invitation.

Johnny Dawson of Chicago, who carded 301 to beat Gus Moreland of Dallas for the low amateur medal in the Galveston open, will compete at Houston. Moreland, who finished as low amateur in the Texas open with 285 and who shot 302 here, has won the state and Houston invitation three consecutive years. He left today for Houston where he will rest until qualifying time tomorrow.

AGAIN! Mrs. Ihrig Selects the GRUNOW REFRIGERATOR

See It In Operation At The Home Makers Convention

Grunow says LOOK INSIDE

the REFRIGERATOR BEFORE YOU BUY

- The Grunow is beautiful.
 - The Grunow uses safe Carrene.
 - The Grunow is smooth running.
 - The Grunow is silent in operation.
 - The Grunow has rounded corners inside and out.
 - The Grunow freezes lots of ice cubes.
- It really is important to know what's inside the refrigerator you are about to buy. It's important, if you value the health of your family and if you want your family to be protected.
- The Grunow is not only a beautiful refrigerator, but it is a SAFE refrigerator. The Grunow, and the Grunow alone uses the safe refrigerant Carrene, that cannot explode, that cannot harm in any way the most delicate member of the household, even though all of the refrigerant should leak out of the refrigerator.
- Carrene looks like water, yet it is probably the most efficient refrigerant ever discovered. You can see it, smell it, and hold it in your hand without danger or inconvenience. Come in and let us show you the new Grunows today.

HOMEMAKERS CONVENTION TO BRING HOUSEWIVES NEW IDEAS

THREE-DAY PROGRAM IS TO START TOMORROW AFTERNOON AT CITY HALL AUDITORIUM

MRS. IHRIG, DIRECTOR OF CONVENTION, IS KNOWN HERE

ATTENDING a convention implies meeting new people, being entertained, and learning new things. All these factors of a successful convention will be embodied in the home-makers convention that will start tomorrow afternoon, sponsored by the Pampa Daily News and Pampa merchants.

The opening session will be in city hall auditorium, 2:30 to 4:30. All women who are homemakers, expect to be homemakers, or are interested in home making, are invited. Not only Pampa women, but many from over the surrounding territory are expected.

Director is Expert. Programs will be in charge of Mrs.

Leona Rusk Ihrig, no stranger to housewives here. She has directed cooking schools here and in many neighboring cities, and women who have heard her recognize her as an expert in the subject in which they are most interested.

This year's program is not merely that of a cooking school. Although food preparation and serving will be stressed, and new recipes given, Mrs. Ihrig's talks will extend to other parts of the home. She will discuss home furnishings that mean comfort, convenience, and a happy home atmosphere. She will speak of personal health and beauty. And her suggestions on home entertaining will be welcomed, as every homemaker finds herself at some time a hostess.

Three sessions of the home-makers convention will be conducted at three different times of day. The Wednesday program will be from 9 to 11 a. m., and the concluding session Thursday evening.

Ralph Sheffer of Borger visited friends here yesterday afternoon.

Eld Baker of Roxana transacted business in the city Saturday.

Mr. and Mrs. Roy Kretzmeier are the parents of a son, born yesterday morning in Wibley hospital. The young man has been named LeRoy Harris.

Convention Head

Mrs. Leona Rusk Ihrig, ready with new ideas and practical plans to make homemaking easier and more pleasant, will open the home-makers convention sponsored by the Pampa Daily News and Pampa merchants tomorrow afternoon in city hall auditorium, and will conduct the three-day sessions.

Former Member Has Miami Club At McLean Home

MIAMI, Feb. 19.—Members of Junior Home Progress club were graciously entertained Thursday evening with a buffet supper at the home of a former member, Mrs. J. E. McLaughlin of McLean.

The rooms tastefully carried out a red, white, and blue color scheme. The patriotic note was also apparent in the tables and appointments. After the lovely supper, the club gave an interesting program. Those taking part were Meses, Holt Barber, N. B. Moon, Pedro Dial, and Wesley Davis.

Those attending from Miami were Meses, Juanita Haynes, Allie Gill, Mary Berryman, Thelma Gill, Meses, Skin Counts, Barber, Davis, Moon, and Dial. About 25 women of McLean were also guests for the supper and program.

Frank Donnelly of Pampa will be in Pampa Saturday night.

Blue Star Kills Foot Itch Germs
Stubborn foot itches go away when Blue Star Ointment is used. It kills the germs that cause the rash, itching, ringworm, pimples, and other skin troubles. You can find nothing as fine as Blue Star Ointment. Does not burn. (adv.)

WEEKLY CLINIC SESSIONS OPEN ON WEDNESDAY

Club Committee Is To Be In Charge Each Week

Weekly open days for the child clinic sponsored by Junior Twentieth Century club will start Wednesday, when pre-school children from needy families will receive attention.

The clinic has been maintained for several months, with only one open day a month. Club members decided recently to open it every Wednesday afternoon from 1 to 3 p. m. It is held in the rear of the White Deer land company building on South Curry.

Mrs. Frank Perry will head the committee from the club in charge this week. Levelia Oetzbach, county nurse, and Pampa doctors will assist.

Children of families on local relief rolls are given physical examination, immunization from common diseases, and needed treatment through the clinic. Mrs. Arthur Swanson is general chairman from the club, and members take turns serving on clinic committees.

Club Gets New Cookie Recipes

A well filled cookie jar is a compliment to any mother's pantry shelf. Miss Ruby Adams said in a cookie making demonstration to Busy Bee Home Demonstration club Thursday at the home of Mrs. G. O. Carruth.

Miss Adams demonstrated spread, drop, rolled, and filled cookies. Five different kinds of cookies were served to 10 members and one visitor, and several other recipes were given.

In a business meeting which followed, plans were made for the canned meat show that will be held in Amarillo March 5.

The next meeting will be on March 1 at the club room in LeFors.

Graduate Nurses Are Entertained At Pretty Party

Mrs. J. G. Wheeler and Miss Ethel Simpson entertained the Graduate Nurses club with a Valentine party at the Pampa hospital last week. Valentines were attractively used in bridge appointments and refreshments.

Miss Esther Shill was awarded high score prize in the games, and Mrs. C. H. Miller consolation. Other players were Meses, Hazel Rains, Kemper, Morris, C. C. Wilson, Meses Nix, Walburn, Saxe, Mason, and Nichols.

E. J. Braxton of Shamrock was a Pampa visitor Saturday.

H. D. STAFF OF AREA MEETING IN CONFERENCE

AGENTS FROM EIGHT COUNTIES ARE HERE TODAY

HOME demonstration agents from eight counties are here today, conferring with Miss Ruby Masburn, district agent. Miss Ruby M. Adams, Gray county agent, is hostess to the area meeting.

A morning session was conducted from 10 to 12 o'clock. Lunch at Schneider hotel was followed by a visit to the county club reporters' training school session at 2, then another conference session.

Visiting agents are Miss Dora Crowder of Perryton, Mrs. Gladys Weaver of Canadian, Miss Viola Jones of Wheeler, Miss Martha Buttrel of Stinnett, Miss Bessie Lee Sikes of Panhandle, Miss Mary Sitter of Amarillo, Miss Sadie Kate Bass of Clarendon.

Posts Filled at Recent Election In Hopkins Club

Mrs. Ike Davis was elected representative to the county home demonstration council, in the place of Miss Grace Byrd, when Hopkins Home Demonstration club met with Mrs. S. L. Cook last Tuesday.

Members were instructed in the duties of different officers. A brief history of the club scholarship fund was given by Mrs. C. P. Couls. Mrs. Earnest Vandenberg and Mrs. S. L. Cook were elected to serve on the recreational committee.

A synopsis of the agricultural adjustment act and its operation was given by Mrs. Leonard Darnell. Resignation of Mrs. Darnell as wardrobe demonstrator was announced.

Members present contributed 100 per cent to the educational fund, which goes to provide a scholarship for some worthy girl.

Cocoa and cookies were served to Meses, Davis, Couls, Darnell, Vandenberg, G. Pinnell, J. R. Byrd, and Miss Opal Davis.

David Skibinski of White Deer underwent a major operation at Pampa hospital yesterday evening.

DON'T TRIFLE WITH COUGHS

Don't let them get a strange hold. Fight germs quickly. Creomulsion combines 7 major helps in one powerful but harmless. Pleasant to take. No narcotics. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion. (Adv.-K)

NEW MINISTER WELCOMED BY BAPTIST GROUP

MEMBERS BRAVE COLD TO GREET THE REV. PIPES

BRAVING a norther to welcome their new minister, members of Central Baptist church kept their attendance almost up to normal yesterday, but other churches reported decreases from a half to two-thirds in morning congregations.

The Rev. Vernie Pipes, recently chosen by the Baptist group to succeed the Rev. W. O. Cooley after his resignation, spoke on "Relation of a Church and its Pastor" in his initial sermon.

The new pastor urged members to expect much of him, thus furnishing an incentive for his best efforts, but he also reminded them that he must depend upon them to perform their duties in the church. "Responsibility of the church," was his theme in the evening.

An attendance of 100 was reported at Sunday school, and good attendance at the men's prayer service yesterday evening. There were six additions to the church.

The Church of Christ reported five new members. Sunday school reports showed attendance of 225 at the Methodist church, 182 at First Christian, 54 at Presbyterian, 276 at First Baptist, and 102 in First Baptist Training service.

Mrs. Violet Gier has returned from a marketing trip to Chicago, New York, and other eastern cities.

Mrs. Charles Preston of White Deer shopped here Saturday night.

Francis Herrin of Denworth visited in Pampa yesterday.

J. A. Mullins of LeFors was a business visitor here this morning.

Bar Association Of 3 States Flays Lindbergh Action

NEW YORK, Feb. 9 (AP)—The federal bar association of New York, New Jersey, and Connecticut today made public a resolution condemning Charles A. Lindbergh's aerial protest to the president along with "the motives behind such message."

The association also pledged itself and its committee on air law to assist the government, without compensation, in formulating "a plan which will be free of the smother of collusion, lobbying, fraud, and favoritism and also shall be without the exploitation of aviation experts by financial and political parasitical groups."

In its customary whereas, the resolution accuses certain aviation interests of exploiting Lindbergh "for publicity purposes, in an undignified, disrespectful, absurd, and presumptuous attempt to discredit the president of the United States, and to turn public opinion against the president, the postmaster general, and the federal government in general because of the cancellation of air mail contracts."

PAMPA TOPICS OF OUR CITY

(Continued From Page 1)

place of countless curiosities. Every museum has room for a real curiosity of the old days. Naturally the Panhandle museum deals for the most part with old cowboy and Indian relics which some day will be of even greater interest to the people of this district, but there are many other things, too, which are family belongings handed down through many generations. Many people prefer to keep their own heirlooms and will take care of them, but others have antiques lying around in dust which are worthless to them and which would be appreciated by the public if they could be collected. The little boy whose stamp collection will be on display for many other Panhandle leads to admire is a good example of Panhandle patriotism, and his offering is no more than many others could make if they chose.

WEATHER

(Continued from page 1)

Marvin Lewis said he followed the black mark down the middle of the highway, but was on the wrong side of it road.

By The Associated Press.

Sub-freezing temperatures laid down in the wake of a rain storm and a northerly today replaced balmy and clear weather over most of Texas and the weatherman said immediate relief was not in sight.

The sudden change was felt first in the Panhandle, where the wind battered the mercury down to 16 at Plainview, and tapered off to the south and east until it struck the Gulf and lower Rio Grande valley, where temperatures were in the low forties.

The weatherman forecast temperatures from 29 to 30 on the coast and from 39 to 42 in the lower Rio Grande valley. The forecast for tomorrow was fair with rising temperatures.

For West Texas he forecast somewhat colder in south portion and rising temperatures in the Panhandle tonight.

EXTENSION WORKERS TELL HOW TO USE "RENTED" FARM LANDS

Texas will have seven million acres retired from cotton, wheat, and corn complete this job. He cannot, if already producing food and feed enough, merely shift that production to retired acres and use the land thus released for competitive production.

The production of feedstuffs on retired acres, especially pastures, is certainly encouraged in the national program, provided this feed is not sold nor used directly or indirectly as the basis of increased livestock production. The spirit back of the contracts is to prevent the creation of additional surpluses.

If retired acres are taken this year to establish living at home firmly on every contracting farm, the foundation of a good permanent Texas farm system will be greatly strengthened. If in addition many of these acres are made into good permanent pasture lands and otherwise used as a feedstuff balance to cotton and other cash crops, Texas farms will be shifting to a sounder base. While all this is going on there is many an acre that can be terraced and overcropped to fit it to compete again when international trade permits.

On other hand there are perfectly sound and legitimate uses to which this land may be put. The chief of these in case of cotton and wheat land, but not of corn land, is to use the land for making the home living and feeding the farm stock. This can be done under two conditions, either that the farmer has not produced his own food and feed, or that he has produced only part of it and needs more land to

complete this job. He cannot, if already producing food and feed enough, merely shift that production to retired acres and use the land thus released for competitive production.

The production of feedstuffs on retired acres, especially pastures, is certainly encouraged in the national program, provided this feed is not sold nor used directly or indirectly as the basis of increased livestock production. While all this is going on there is many an acre that can be terraced and overcropped to fit it to compete again when international trade permits.

No One Is Able To Soothe King Albert's Widow

BRUSSELS, Belgium, Feb. 9 (AP)—"All is finished"—a phrase breathed so low as to be almost inaudible—was uttered over and over again today by the distraught Queen Elizabeth of Belgium as she mourned the death of the king.

This was revealed by persons close to the queen as they sought to comfort her. They said she was almost overcome with grief and was unable to control her feelings.

Intimates of the royal family at suburban Laeken, site of the castle, declined to give details, however, of the scene which marked the first meeting of the royal son and his mother upon Prince Leopold's arrival from Switzerland last night.

The expressions on their faces told the tragic story of the moving moments when mother and son sobbed out their sorrow in the lonely early morning hours.

Before they embraced after the prince and his princess had been taken to the castle, the mother and the man who will soon be King Leopold III knelt before the dead monarch's bier in the royal bedchamber.

INFANT DIES
Dorothy Jean Taylor, 16 days old, died in a local hospital yesterday afternoon. The body is at the G. C. Malone Funeral home. Funeral arrangements have not been made.

Dorothy Jean, daughter of Mr. and Mrs. J. H. Taylor, is also survived by a sister, Edith, and two brothers, Leon and James. Mr. Taylor is employed by the Texas-Elf Carbon company.

IN LOCAL COURTS
Complaints of drunkenness, driving while intoxicated, and using abusive language were filed against Bill Hodges of LeFors today in Justice W. S. Baxter's court.

Prospective jurors in 31st district court were told to return for duty Thursday morning.

WORKMANS RETURN
Mr. and Mrs. W. O. Workman and children returned yesterday from Sudan, where they attended the funeral of his mother, Mrs. M. F. Workman, Thursday. Mr. Workman was with her when she died. His two sisters, Misses Dorothy and Rachel, accompanied him home, as did Mrs. Nettie Ivy, long-time friend of the family.

Sowing of seed of resistant strains is the best preventive against "scorch" or anthracnose, in the red clover belt, the department of agriculture reports.

J. C. ESTLACK in Donley County Leader—When one hears about inherited criminal tendencies they should remember the suggestion of Ezekiel in Holy Writ when he said: "What mean ye, that ye use this proverb concerning the land of Israel, saying, 'The fathers have eaten sour grapes, and the children's teeth are set on edge?'" Ezekiel was not very strong for the idea that all criminals were born that way, and human nature is the same today as it was in ancient times—it never changes.

C. C. WARFORD in LeFors News—The mother who allows a sixteen-year-old daughter to float around the township in a top buggy (or closed automobile) until 2 a. m. with the counterfeit sport with weak jaw and weaker morals, merely opens the front door of grief and disgrace. If you don't know what company your girl keeps, or what time she "turns in" your roar when the gossip gets busy will sound about as pathetic as the wheeze from a Jew's harp.

JAPANESE COUNT DIES
TOKYO, Feb. 9 (AP)—Count Mitsu Itō, an influential and veteran member of the privy council, died here today at the age of 77 years. He had been suffering from ulcers of the stomach.

4 NEW SUBJECTS
AUSTIN, Feb. 9 (AP)—Five additional subjects were submitted to the legislature by Governor Miriam M. Ferguson today. They were: Prohibition of travel bureaus; fixing fees certain officers in some counties can retain.

GUNMEN
(Continued from page 1)

from a stamp drawer in the office of Mr. Blair. Glass in the office door had been shattered. A flour sack containing two punches, a heavy hammer, and a bar was left behind.

Employees Tied Up
Cal Harvey of the theater advertising staff unlocked the theater door about 8:05 a. m. The tall intruder identified as Bradley met him with a gun and took him into the darkened rear of the auditorium, where a heavier man, also armed, kept him company. George Chapel, another employee, was similarly conducted into the dark, followed shortly by Ray Whitlock, a third employee. Each of these was tied up and made to lie down in an aisle.

Barber O. G. Killingsworth from a shop next door entered and, as he started to enter a rest room, was menaced with a pistol and told to "stay in there."

Hit With Pistol
John Tate, another barber, thought he tall handi was joking but when he saw the pistol he changed his mind and raised his hands, meanwhile raising a shout and starting toward the door. It was then that Bradley struck him on the head with a pistol and dashed outside. Tate, who was given a blow that necessitated a stitch in his scalp, fell over a ticket box as the intruder rushed past him. Tate got to his feet and ran outside, where he shouted to Graham to give chase. "Are you Blair?" was the question put to every man who entered the theater. The burglar pair seemed suspicious as each man denied that he was the theater manager. The employees were asked questions such as "Where does he keep the money?" but they professed ignorance. Bradley kept a handkerchief tied across his face below the eyes and it was around his neck when he

5,000 Troops To Guard Pu-Yi At His Coronation
(Changchun), Feb. 19 (AP)—An army of 5,000 troops and police is being concentrated in this capital today to safeguard Henry Pu-Yi, 18-year-old emperor designate of Manchukuo.

Drawn from both Japanese and native forces, the troops will be on hand to protect him against assassination when he is enthroned on March 1.

This huge concentration is only one phase of a vigilant program of precaution. Police already have started jailing all suspicious characters.

As a result of the fears for his safety, young Pu-Yi, now chief executive of the Japanese assisted state, is forced to lead a solitary existence.

His tastes are simple, anyway. He smokes only occasionally. He seldom drinks. His food is plain.

Nothing will be spared in the coronation. Two American-made automobiles, built to order and bearing the golden orchid crest of the new dynasty, are on their way to Hsinking for use in the ceremony.

Pu-Yi has fondness for American-made products generally. He wears conventional American style sack suits, and has an American made wireless set, phonograph and talking picture outfit.

was taken to the police station.

Bradley had registered at a local hotel under the name of J. C. Moore. He said he did not know the man he met in Berger, and who yesterday suggested the robbery as a "clinch." He said he made a date to meet the man near the theater early today, then hitch-hiked to Pampa.

Whether the escaped burglar went out a back door or through the front door during the chase was not certain. The theater boys wriggled out of the ropes without difficulty after their captor left.

Bradley was in the city jail this afternoon. If he is not wanted on more serious charges elsewhere, he will be turned over to the county officers here. He was finger-printed this morning. He has not yet been charged.

The outer door of the La Nora office safe had been knob-knocked and opened, but the inner partition failed to yield.

Bradley said he and his companion entered the theater by pulling a front double-door open.

It was learned this afternoon that young Graham was joined in the chase by a local man named Maddox, who was the one who calling Officer Nicholson.

Bradley had registered at a local hotel under the name of J. C. Moore. He said he did not know the man he met in Berger, and who yesterday suggested the robbery as a "clinch." He said he made a date to meet the man near the theater early today, then hitch-hiked to Pampa.

Whether the escaped burglar went out a back door or through the front door during the chase was not certain. The theater boys wriggled out of the ropes without difficulty after their captor left.

Bradley was in the city jail this afternoon. If he is not wanted on more serious charges elsewhere, he will be turned over to the county officers here. He was finger-printed this morning. He has not yet been charged.

The outer door of the La Nora office safe had been knob-knocked and opened, but the inner partition failed to yield.

Bradley said he and his companion entered the theater by pulling a front double-door open.

It was learned this afternoon that young Graham was joined in the chase by a local man named Maddox, who was the one who calling Officer Nicholson.

The Largest user OF FINE TURKISH TOBACCOS

...one reason why Luckies taste better, smoother

In Turkey too, only the finest tobaccos are selected for Lucky Strike—the mildest leaves, the most delicate, the most aromatic. Lucky Strike is the world's largest user of fine Turkish tobaccos. When these tender, delicate Turkish leaves are blended with choice tobaccos from our own South and—to make your Lucky Strike a cigarette that is fully packed—so round, so firm—free from loose ends. That's why Luckies taste better, smoother. "It's toasted" for throat protection—for finer taste.

From the Diamond Horseshoe of the Metropolitan Opera House

Saturday at 1:35 P. M. Eastern Standard Time, over the Red and Blue Networks of NBC, LUCKY STRIKE will broadcast the Metropolitan Opera Company of New York in the complete Opera,—"Tannhauser."

NOT the top leaves—they're underdeveloped—they are harsh!

The Cream of the Crop
"The tenderest, mildest, smoothest tobacco"

NOT the bottom leaves—they're inferior in quality—coarse and always sandy!

Always the Finest Tobacco and only the Center Leaves
