Reds Said Still Importing Arms

WASHINGTON (AP) — High Air Force officials believe North Vietnam still is importing considerable amounts of vital military supplies despite the U.S. bombing, and say American involvement in the war could last several more years.

These officials estimate that anywhere from 25 to 50 per cent of North's petroleum, ammunition and other war goods—as compared with pre-bombing amounts—are getting past the American bombing and mine blockade.

They said it is enough to sustain on a limited basis at least Hanoi's war effort.

And, they say, it is conceivable that if efforts to negotiate a settlement to the war fail, the American bombing from bases in Thailand and Navy aircraft carriers could last for some time possibly for three or more years.

This assessment, given to a small group of newsmen Wednesday night, was perhaps one of the more sobering reports on the situation since the North Vietnamese Easter offensive began.

Although the Pentagon never has asserted that the bombing would shut off the flow of war goods to North Vietnam, ad-

ministration and military officials have claimed that the flow had been reduced to a trickle.

It was stated in Wednesday night's assessment that the amount of supplies reaching communist forces in the South has been drastically curtailed.

Senior Air Force officials say the North Vietnamese by using truck shuttles and railroad by-passes, still are able to bring in substantial amounts of supplies from China.

Also, the communists have built one petroleum pipeline from the Chinese border and are working on a second.

Nevertheless, they say the bombing has put heavy pressure on the North and believe that this, coupled with Saigon's ability to hold its ground, will force Hanoi into following one of three options:

—Call off the offensive and withdraw its forces.

—Continue the attack until losses of manpower and supplies become too severe, forcing a return to guerrilla warfare.

—Push the attack even harder in the coming weeks until shortly before the U.S. presidential election in November and then press for a negotiated settlement.

Beef, Pork Prices Set Record In July

WASHINGTON (AP) — Beef and pork cost more than ever before in July while overall supermarket food prices rose 1.8 per cent, the Agriculture Department said today.

Supermarket prices for the year are running 4.5 per cent more than in 1971, the department said.

Most of the gain was attributed to higher prices paid farm-

ers and mark-ups by retailers.

The overall retail-food-price increase was slightly more than the 1.2 per cent reported Tuesday by the Bureau of Labor Statistics. The department explained its meat index was for the entire month while BLS covered prices only in the first week of July, meaning prices rose through July.

In all, a "market basket" list of farm-produced food, theoretically enough to feed an average family for an entire year, cost \$23 more than in June—a record of \$1,322.

Average beef prices for all cuts soared to more than \$1.17 per pound in July, compared with \$1.13 in June and the previous record of slightly less than \$1.16 last February and March. A year ago beef was about \$1.05 per pound.

Pork averaged a record 85.6 cents per pound, compared with 82.0 in June. The previous high was 82.1 cents in January 1970.

There is a fear that cutting back the number of aircraft carriers in the Mediterranean would undermine U.S. commitments to Israel.

Prices of live beef cattle have dropped from recent high marks and the wholesale beef price also has edged down. Much of that reduction, however, was not included in the July figures.

Farmers got \$16 of the market-basket increase mainly because of higher prices for hogs, chickens, eggs and some fresh vegetables. Middlemen who transport, process and sell food accounted for \$7 of the rise.

Compared with \$528 in June, the farmers' share of the market basket in July was \$544. The middlemen received \$771 in June and \$778 last month.

Compared with June, lower prices were reported for milk, bread, tomatoes and lettuce.

Sanders Blasts Tower's Record

SAN ANTONIO, Tex. (AP)—Barefoot Sanders, Democratic nominee for the Senate post now held by Republican John Tower, suggested a welfare reform today—one which he asserted would make Tower work fulltime for his \$42,500-a-year salary.

The tongue-in-cheek proposal came as Sanders again claimed Tower treats his position as a parttime job.

He also charged at a Democratic breakfast meeting that Tower is riding President Nixon's coattails "so hard it's transparent."

He declared that Tower has a poor record on being present for roll call votes, that he surfaces before the people of Texas only in election years, and that he follows the GOP line, whether right or wrong, most of the time.

Nixon Begins Campaign Swing, Raps Rival's Defense Cut Plan

Nixon Wins Jewish Vote And Money

LOS ANGELES (AP) — Phantom jets, the 6th Fleet and moving the American embassy in Israel have become issues in the 1972 presidential campaign in California.

They are symbols of a battle for Jewish campaign money and Jewish votes.

President Nixon already has won important blocks of Jewish campaign money in California, including support from Louis Boyar, retired Los Angeles contractor, and Eugene Klein, board chairman of National General Corp.

Both have been major Democratic fund raisers. That alone is a major setback for Democratic candidate George McGovern. It seals off sources of funds that always have gone to Democrats.

"That's a terrible loss," says Herb Brin, editor of the Jewish Heritage newspaper in Los Angeles and a McGovern backer. "McGovern cannot make it up."

Now, the Nixon organization is conducting a campaign to win more of the Jewish vote which traditionally has gone Democratic. The national director of the drive is Lawrence Goldberg, a Rhode Island lawyer, who says the effort will involve advertising, speakers, mailings and other campaign techniques directed at the Jewish community.

This year, Nixon strategists are shooting for the votes of 20 to 30 per cent of California's estimated 700,000 Jews. That could tip the state's 45 electoral votes in a close election.

Brin estimates Jews would split 50-50 now between Nixon and McGovern but that McGovern can boost his margin to 65 per cent by election day as his views become better known.

Campaign talk so far has centered on McGovern's record on Israel, concern over his tax and welfare programs and defense cuts which would include a reduction in Navy forces in the Mediterranean.

There is a fear that cutting back the number of aircraft carriers in the Mediterranean would undermine U.S. commitments to Israel.

"Many rich Jews are supporting Nixon for the same reasons many non-Jews are supporting Nixon," Brin said, largely over economic issues such as tax reform.

"There is a natural erosion," Brin said. "It was inevitable."

But Brin argues that McGovern's record on Israel is much better than many Jews believe.

"He's all for moving the American embassy from Tel Aviv to Jerusalem," he said.

"The Jewish community is not a one-issue constituency," Goldberg said.

Nation's Trade Deficit Declines

WASHINGTON (AP) — The nation's trade deficit declined to a six-month low of \$542.2 million in July, the Commerce Department reported today.

The July figure pushed the trade deficit for the first seven months of the year to \$3.88 billion.

"The prospects are for an improving trend in the trade balance in the months ahead, although every month may not show an improvement," said Harold C. Passer, assistant secretary of Commerce for economic affairs.

A trade deficit represents a loss of competitiveness by U.S. industry as well as a potential loss of jobs. The administration is depending on a reversal of the trade figures to correct its long-time balance-of-payments deficit.

Last December's devaluation of the dollar and other currency realignments should begin to have an impact on trade figures later this year, administration economic spokesmen said.

BACK ON THE TRACK — With the start of school this week, the old yellow school buses have again returned to their rounds of picking up children and delivering them to their schools. Here a bus travels down Duncan Street this morning. The first week of school ends tomorrow, with students looking forward to that weekend break from school—except for the homework.

Most Of Protesters Freed After Posting Nominal Bonds

MIAMI BEACH, Fla. (AP) — Most of the more than 1,000 demonstrators arrested Wednesday night after being outwitted in attempts to disrupt the finale of the Republican National Convention were released from jail today after posting nominal bonds.

Lt. William Armstrong, an official at the Dade County Jail in Miami, estimated that the number arrested, in random street violence that spawned ranks of charging police, "went over 1,000" shortly after midnight and that "a few stragglers were still being booked" this morning.

Officials said 10 judges holding all-night special sessions had set bonds in most cases ranging from \$3 to \$40. They said bond hearings would continue this morning and be followed by individual trials.

After their release, the demonstrators traveled back across Biscayne Bay to Miami Beach where they began folding their tents and moving out of their Flamingo Park campsite.

As President Nixon spoke inside the packed Convention Hall Wednesday night, Secret Service agents hovered at the gates outside cradling axe handles. Just blocks away, riot-ready state troopers contained roving bands of protesters.

When the gavel finally fell at 11:17 p.m. and the delegates spilled from the littered hall into the humid night, many wept from the lingering aftermath of tear gas. Rubbing red eyes, the hundreds whose ears were still ringing from the ovations for Nixon beheld streets swept empty of all but an 800-yard cordon of police. The officers stood quietly, 10 feet apart, wary of interlopers.

Protesters had tried to block the delegates from entering the hall five hours earlier. The plan called for peaceful sit-ins at the gates and milling crowds in the surrounding streets.

But when the demonstrators arrived, they found their path cluttered by bumper-to-bumper buses. The buses, some so old they had to be towed into place, hugged the gates and created a dilapidated corridor for other vehicles carrying delegates into the Convention Hall compound.

"We were defeated tactically before we even began," said Marsha Monestery, a member of the Students for a Democratic Society.

Small bands of protesters fanned out into the streets toward the hotels where most delegates waited to go to the hall.

Striking quickly, the protesters grabbed trash baskets, park benches and newspaper vending machines to fashion makeshift barricades. As traffic ground to a halt, the young protesters dashed in to slash tires, fling open hoods and yank distributors.

When a few residents tried to kick over the barricades, the demonstrators set several garbage cans afire.

Close behind the barricade builders came 100 state troopers. Then 100 more. As their ranks swelled, elderly citizens cheered from hotel balconies.

Some demonstrators were hit with clubs and two motorcycle officers were shoved from their machines as the law enforcement officers and protesters clashed amidst the noise of

squawking police radios and flying rocks and bottles.

Many demonstrators raced away. But others who had refrained from violence sat in the streets. They waited to be arrested, and they were. Poet Allen Ginsberg and Yippie leader Jeff Nightbyrd were arrested in one group.

"This city is taking a thrashing, property is being damaged, people are being injured," said Police Chief Rocky Pomerance. "They talk about peace in Vietnam. It seems obvious they are not for peace in this community."

Authorities marshaled about 2,000 men to handle the police-estimated crowd of 1,500 demonstrators who took to the streets.

About 4,000 demonstrators had been in town for the convention.

Red China To Cast First Veto In U.N.

UNITED NATIONS, N.Y. (AP) — Communist China was ready to cast its first U.N. veto today, to bar the admission of Bangladesh to the United Nations.

Diplomatic sources said the Chinese were adamant in their stand as the Security Council scheduled an afternoon meeting to take up Bangladesh's bid after three weeks of backstage maneuvering.

The session was viewed as another chapter in the Chinese-Soviet jousting for influence on the Indian subcontinent.

Bangladesh, expecting defeat, was prepared to carry its campaign for membership before the General Assembly which convenes Sept. 18. It hopes to get the assembly to try the Security Council to tell again.

China sought postponement of council consideration of the bid today. But if that failed, a Chinese veto was considered certain.

The Nationalist Chinese regime used the veto once in the 26 years it occupied the Chinese seat on the council.

Bangladesh, formerly East Pakistan, was born of the India-Pakistan war in December that Pakistan lost. The Soviet Union supported India in the war while China backed Pakistan.

The Nixon administration also sided with Pakistan but has since recognized Bangladesh and favors its bid for U.N. membership.

A poll of the council's admissions committee, which has been discussing the question for three weeks, showed 11 nations favoring membership and Guinea opposed. China, Sudan and Somalia did not participate in that committee vote.

More than 900 demonstrators were arrested Wednesday night, 300 outside the Doral Beach Hotel headquarters of the Committee for the Re-election of the President. Police used a crowd-control gas known as CS to disperse roving bands of protesters who blocked streets, damaged cars, set fires and smashed windows.

Barricades of buses ringed Convention Hall, and some delegates had difficulty getting through.

The tear gas-like fumes had drifted near the hall when helicopters bearing the President's

President Addresses American Legion Meet

CHICAGO (AP) — In the first appearance of his campaign for a second White House term, President Nixon today pictured critics of his defense spending plans as gambling with world peace.

Nixon, in a speech prepared for the annual American Legion Convention, made no direct mention of his Democratic opponent, Sen. George McGovern, who spoke from the same platform Wednesday.

However, the President cited military programs that McGovern would curb or scrap and described defense policy as "one of the major issues of this election year."

He said that if some of these economies were adopted "America would become the second-strongest power in the world."

He said: "We have economized and will continue to economize on military spending whenever and wherever it is safe to do so. But I never will gamble — with the safety of the American people under a false banner of economy. Lasting peace is built only on strength."

For Nixon, it was the first stop on a cross-country tour taking him into Illinois, Michigan and California on the day after accepting the Republican nomination for another four years in the presidency.

The President told jubilantly cheering Republicans at the closing session of their national convention Wednesday night that he seeks "a new American majority" that will win the "election and build peace" "the world can enjoy for generations to come."

Vice President Spiro T. Agnew remained behind in the convention city of Miami Beach, Fla., to answer newsmen's questions before heading to Minneapolis for an address before the Veterans of Foreign Wars. He won the GOP renomination Wednesday night with one dissenting vote and two abstentions and got a boost for the 1972 presidential nomination from Mrs. Nixon.

Nixon planned to head next for Utica, Mich., to dedicate the Dwight D. Eisenhower High School before flying on to a welcome home from his San Clemente, Calif., neighbors.

As the confident Republicans headed home from a convention marked by three days of harmony with barely a discordant note, antiwar protesters also began to leave after failing in their effort to stop the GOP proceedings.

More than 900 demonstrators were arrested Wednesday night, 300 outside the Doral Beach Hotel headquarters of the Committee for the Re-election of the President. Police used a crowd-control gas known as CS to disperse roving bands of protesters who blocked streets, damaged cars, set fires and smashed windows.

Barricades of buses ringed Convention Hall, and some delegates had difficulty getting through.

The tear gas-like fumes had drifted near the hall when helicopters bearing the President's

party set down outside. Though moistened towels were handed to some to relieve the discomfort, Nixon and his family walked through the fumes without acknowledging their presence.

A mighty roar greeted the broadly beaming, untanned President as he stepped to the rostrum of the brightly lit hall, following Agnew's introduction.

His 42-minute speech was punctuated with repeated bursts of applause and chants of "Four more years!" as Nixon rallied his party to battle and appealed to Democrats "to join us as members of a new American majority bound together by our common ideals."

Much of the President's speech was devoted to direct and indirect assaults on the statements, views and actions of McGovern.

Nixon said the South Dakota senator's plan to replace welfare with a flat \$1,000 grant per person, a proposal now undergoing revision, "insulted the intelligence of the American voters."

Nixon hailed his own foreign policy initiatives to China and the Soviet Union, vowed he would never abandon U.S. prisoners in Vietnam and urged voters to "reject the policies of those who whine and whimper about our frustrations and call on us to turn inward."

"Let us not turn away from greatness," he declared.

At one point in his speech, amidst the cheers and chants of discord, a barely audible note of praise sounded as four members of the militant Vietnam Veterans Against the War chanted "Stop the bombing! Stop the war!" from the back of the hall.

Security guards hustled them out. Few delegates noticed.

Though the evening's schedule of what GOP leaders had dubbed "the on-time convention" ran almost an hour late, Nixon still made it onto the nation's television screens in prime time — starting at 10:27 p.m. in the East, 7:27 p.m. in the West — in sharp contrast to McGovern's 3 a.m. EDT acceptance speech at last month's Democratic Convention.

Then, his speech over and the convention adjourned, Nixon broke precedent by remaining for more than an hour to shake hands with delegates and spectators.

Agnew, too, remained, stationing himself in front of the boxes that had been occupied by members of the President's cabinet and top party officials.

In sharp contrast to four years ago, when party moderates staged an abortive effort to stop his nomination, the vice president's was the only name presented to the convention. He received 1,345 of the 1,348 votes.

Oregon delegate Wayne W. Whitehead, news director of NBC affiliate KZAL-TV of Eugene, voted for NBC correspondent David Brinkley, noting that CBS Roger Mudd had gotten two votes for vice president at the Democratic convention.

Three Represent Pampa At Sweetwater Meet

Representing Pampa at Growth Industry Seminar No. 1 in Sweetwater, Tex., today are James McCoy, local director of the West Texas Chamber of Commerce; E. O. Wedgeworth, manager of the Pampa Chamber of Commerce; and Benny Kirksey, of the First National Bank.

The meeting is being held in the Coliseum Annex of Newman Park in Sweetwater and is the first in a series of industrial seminars sponsored by the West Texas Chamber of Commerce and the Texas Industrial Commission.

Today's meeting will deal with "How to Get a Textile Industry in Your Town." West Texas has for many years been a leader in the production of cotton, wool, and mohair. In recent years there has been a tremendous growth of apparel plants in the West Texas region.

The purpose of this seminar is to examine the potential for yarn, spinning, weaving, finishing and dyeing plants in West Texas to fill the gap between the production of raw fibers and ready-to-wear clothing.

Harry W. Clark, vice president of the First National Bank in Midland and chairman of the Industrial Development Committee of the West Texas Chamber of Commerce, is presiding at today's seminar.

New Tricks with Iced Tea

Iced tea enhances French-toasted sandwiches and jellied borscht.

By AILEEN CLAIRE
NEA Food Editor

Iced tea is a favorite refreshing drink for summer months. Usually buffs feel the only way to make a perfect glass of iced tea is to start with boiling water. But those in the tea business experimented and report it is possible to make a good tea drink using cold tap water. It takes from six hours to overnight and is a good method for preparing large quantities. Try it.

Iced Tea

Here's a simple way to make a pitcherful of amber-clear, cloudless iced tea.

Add 8 to 10 teabags (remove tags) to a quart of cold tap water. Cover container and let stand at room temperature or in the refrigerator for at least six hours (overnight, if you prefer). Squeeze teabags as you remove them. Stir. When ready to serve, pour into ice-filled glasses. Add lemon and sugar to taste. Makes 5 to 6 servings. For 10 to 12 servings, simply double recipe, using 2 quarts of cold water and 16 to 20 teabags.

FRENCH-TOASTED PEANUT BUTTER SANDWICHES

(With Sliced Ham)
4 thin baked ham slices
Peanut butter
8 slices bread
2 eggs, beaten
1/2 cup milk
1/2 teaspoon salt
1/2 cup butter

Mashed sweet potatoes taste extra good when they are mixed with crushed pineapple and sliced dates. Nice to serve with baked ham or smoked boneless pork shoulder butt.

To stretch a package of frozen okra, after cooking, add canned whole-kernel corn and reheat.

Make up 4 sandwiches with a slice of ham and generous spread of peanut butter. Combine eggs, milk and salt in shallow bowl. Dip each sandwich into the egg mixture and brown in melted butter in skillet. Add more butter if needed to brown both sides.

(With Shredded Carrot)
2/3 cup shredded carrot
2 tablespoons mayonnaise
1/2 cup peanut butter
8 slices bread

Combine carrots, mayonnaise and peanut butter. Spread on bread for 4 sandwiches. Dip in egg mixture and French-toast as above.

JELLIED BORSCHT

(Makes 6 servings)

Special Dressing Enhances Spinach

By AILEEN CLAIRE
NEA Food Editor

There is nothing like a refreshing green salad to set off chicken, barbecued beef or fish for summer eating. A salad with fresh spinach, head lettuce and sliced radishes has a special, piquant flavor and also makes a nice luncheon dish for those watching their calories. Serve with a Lorenzo dressing with just the right amount of bite from mayonnaise, catsup, scallions, parsley and Worcestershire sauce. This dressing also goes well on chilled macaroni or with shredded cabbage, or on a sandwich.

LORENZO DRESSING OVER SPINACH SALAD

1 cup mayonnaise
1/2 cup catsup

1 envelope unflavored gelatin
1/4 cup cold water
1 (10 1/2 oz.) can shoestring beets with liquid
1/2 teaspoon salt
1/2 teaspoon sugar
1 tablespoon lemon juice
1/2 cup hot water
1 beef bouillon cube
Sour cream

Sprinkle gelatin over cold water to soften; set aside. In large saucepan combine remaining ingredients except sour cream. Bring to a boil and simmer 5 minutes. Stir in softened gelatin. Pour into serving dishes and chill until set. Serve with sour cream. Garnish with sliced green onions if desired.

Barbecue Change of Pace

By AILEEN CLAIRE
NEA Food Editor

Fresh corn remains a summer favorite. For barbecues, try a change of pace dish with a Corn and Cabbage Saute. Merely cut uncooked fresh corn from the cob and combine with scallions or fresh green onions, chopped cabbage and sliced carrots. Saute quickly. This dish may be cooked on

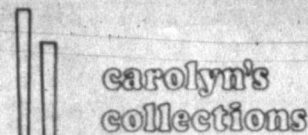

a camp stove or barbecue unit.

CORN AND CABBAGE SAUTE

5 ears fresh Florida corn
1/4 cup butter or margarine
1/2 cup chopped scallions
2 cups chopped cabbage
1/4 cup sliced carrots
1/2 teaspoon salt
1/4 teaspoon ground black pepper

Remove husks and silks from corn. Cut kernels off cobs (makes about 3 cups). In large skillet melt butter. Add scallions and saute 3 minutes. Stir in corn, cabbage, carrots, salt and black pepper. Cook, stirring constantly 5 minutes or until corn and cabbage are just crisp-tender. Makes 6 portions.

(NEWSPAPER ENTERPRISE ASSN.)

By Carolyn Anderson
Onion and Bacon Pie

8 strips bacon
4 onions, finely chopped
3 eggs plus 1 egg yolk
1 cup sour cream
1/8 tsp. salt
1/8 tsp. cayenne pepper
1/8 teaspoon coarse ground black pepper
1 unbaked 9-inch pie shell

Fry bacon slowly until crisp. Remove and drain. Saute onions in small amount of bacon drippings. Beat eggs and combine with sour cream. Blend well. Combine all ingredients and pour into pastry shell. Bake at 350° for 45 minutes. Cut in wedges and serve hot. — The American Way Features

Worry Clinic

By George W. Crane, Ph.D., M.D.
Frank Kromm's Irritation shows that TV scenario writers need to take a few lessons from newspaper reporters! And they should realize that adults resemble kiddies in wanting the hero and heroine to be easily identified!

CASE U-570: Frank Kromm is basically a newspaperman. For he heads the Hopkins Syndicate with some 500 newspaper customers.

"Bu, Dr. Crane," he grumbled recently, occasionally I watch a romantic movie on TV.

"The other night Mrs. Kromm and I intently followed a one-hour program.

"The characters were attractive and the plotting was good—except for the conclusion.

"At the end, neither my wife nor I knew whether the hero and heroine finally got married or were left apart.

"So I felt disgusted at this waste of my valuable time.

"We certainly would rate above average in education, so if we couldn't figure out the ending, what about millions of other Americans with lesser education?"

TV FOIBLES
It so happened that Mrs. Crane and I had chanced to see that very same TV show.

And we were also left dangling, uncertain as to what really occurred at the finish.

For many supposedly sophisticated scenario writers either credit us with occult powers, or they fail to clinch their conclusions in an evident manner.

Most people, if they watch a love romance, prefer to see the hero take the heroine into his arms in a final embrace.

In movies for children, it has long been customary for the "baddies" to ride black horses.

"Who is the good guy?" a 5-year-old recently asked his 7-year-old brother.

"Oh, you can always tell that," disdainfully answered the older child.

"For the goodies always ride a white horse."

Well a lot of modern TV plots need to heed that simple way of illuminating even the college viewers.

"If the 'goodies' don't ride white horses, at least let us see them in a final romantic embrace so we realize that the hero won the heroine.

Don't leave so much to the weirdo imaginations typical of drug users!

Most Americans even like to have the hero and villain dress so differently that we can always be alerted to which is which.

This same TV confusion is duplicated in one of the high priced newspaper comic strips.

For the cartoonist thereof apparently can't draw but one type of face!

So his hero and his villain look alike! And he even fails to dress one of them in a checkered suit or other distinctive garb.

In fact, that cartoonist uses the same facial contour for the women in this strip, but their dresses then label them as females, so we can tell the difference.

In writing and speaking, beware of using subtle stuff!

Employ visual words to express your jokes rather than Chesterfieldian wit.

That's why kiddies still laugh at a pie-in-the-face situation for their sense of humor requires physical action rather than puns.

So send for my booklet "How to Write Salable Copy," enclosing a long stamped, return envelope, plus 25 cents.

(Always write to Dr. Crane, Hopkins Bldg., Melott Indiana 47558, enclosing a long stamped, addressed envelope and 25 cents to cover typing and printing costs when you send for one of his booklets.)

TV And Radio

MIAMI BEACH, Fla. (AP)—High, high above the convention floor, less than an hour before air time, Walter Cronkite looked at his desk with concern.

Someone had sawed off one end. "Someone cut up my desk last night," he said more in reproach than anger.

"It's got to be fixed in the next 45 minutes. Someone should have asked me before they cut it up. I don't have any place to put my papers."

The order for repair given, Cronkite turned back to his homework — a collection of notes and reference books that supports and succors television anchormen during the hours they are on the air.

It all seems so easy and relaxed on the air, the John Chancellors, David Brinkleys, Harry Reasoners, Howard K. Smiths — all wise and knowing, patient and quick-witted, explaining, predicting and pointing out the action — and filling the time with humor when things are dull.

They sit in their eagles nest, up where the baskets of red, white and blue balloons in baskets waited for Richard Nixon's sure nomination, up where the hundreds of bright lights are, up with the flags and the air conditioning ducts, up with a view of the convention floor that is breathtaking in scope and color.

To the viewer, perhaps, the choice of networks is a matter of personalities — Cronkite's father-figure on CBS, the spark that jumps between Chancellor and Brinkley, the bristle that

snaps around Smith and Reasoner.

Their ways, however, are as different as the networks' way of doing things. They are the visible ones and everything radiates out in concentric circles.

Cronkite is in control of technical gadgetry, where he can bring in any of 99 voice channels from correspondents, producers, film, tape, or the platform to guide him. In another hall, Robert Wussler, the CBS executive producer, makes the decisions about which of 20 or more television images goes on the air.

ABC's Reasoner and Smith are not in the hall at all. Their coverage is from an off-convention hall studio.

Smith Approves Grants For Panhandle Program

AUSTIN—Two grants for the region served by Panhandle Regional Planning Commission, Amarillo, totaling \$76,385, were among those approved yesterday by Governor Preston Smith.

The money will come from the Criminal Justice Council, which oversees statewide law enforcement planning and administers funds from the Law Enforcement, Assistance Administration for crime control projects in Texas.

Collingsworth County will receive \$38,648 from CJC to launch a juvenile probation project serving Collingsworth, Donley and Wheeler counties. Funding provides for two juvenile probation officers, an office manager-secretary. Grantee will make an in-kind contribution to the project valued at \$12,922.

Panhandle Regional Planning Commission will receive \$37,737 to operate the regional law enforcement training academy. The academy will offer a basic law enforcement training program of 240 classroom hours.

Classes will be at Amarillo Junior College or other appropriate location in the Panhandle Region. Specialized training courses also will be offered. In-kind match of \$19,500 is stipulated.

Counties of the Panhandle Region are Armstrong, Briscoe, Carson, Castro, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher and Wheeler.

The Panhandle applications were among 44, for funding of 3.4 million dollars, considered by the CJC Executive Committee Aug. 11 at Huntsville.

Today In History

By THE ASSOCIATED PRESS
Today is Thursday, August 24, the 237th day of 1972. There are 129 days left in the year.

Today's highlight in history: On this date in 1814, British troops invaded Washington, D.C. and burned the Capitol and White House.

On this date: In 79 A.D., an eruption of Mt. Vesuvius in Italy buried the ancient cities of Pompeii and Herculaneum.

In 1777, General George Washington led his Revolutionary War army into Philadelphia.

In 1862, a Confederate army under General Braxton Bragg invaded Kentucky during the Civil War.

VA Regional Office News

Minutes spent on completing application forms fully and accurately can speed up veterans' benefits by days and weeks, a veterans Administration official advised today.

Jack Coker, director, said the advice is aimed primarily at veterans who will be entering school under the GI Bill this fall. Coker cited VA's "package" plan for applying for education or training benefits as one example of how veterans can contribute to faster VA service.

Under this plan, the veteran brings his separation document and proof of dependency to VA and at the same time completes

an application for education benefits, prior to enrollment. All the necessary forms are available at all VA offices.

If the veteran enrolls in school before applying for GI Bill benefits, he completes the forms and asks the school to forward them to VA in one "package" when the school certifies his enrollment.

He should check later with his school to make sure his forms and certification have been forwarded to VA.

"The 'package' plan cuts delay and permits VA to send the veteran his first education allowance check sooner," Coker explained, and added, "usually it's just a matter of promptly providing the required information for a particular benefit."

"Information on veterans benefits is available at all VA offices, veterans county service officers, and from local representatives of veterans service organizations," he said.

In 1891, Thomas A. Edison applied for a patent for a motion picture camera.

In 1932, Amelia Earhart became the first woman to make a non-stop airplane flight across the U.S., flying from Los Angeles to Newark, N.J., in 19 hours, five minutes.

In 1939, Nazi Germany and the Soviet Union signed a ten-year non-aggression pact.

Today's birthdays: Liberian diplomat Angie Brooks is 44. Argentine poet Jorge Luis Borges is 73.

Thought for today: In the field of world policy, I would dedicate this nation to the policy of the good neighbor—President Franklin D. Roosevelt.

Dear Abby

Love needn't wait for appearances

By Abigail Van Buren

(c) 1972 by Chicago Tribune-N.Y. News Synd., Inc.

DEAR ABBY: I am very much in love with a very fine gentleman whose wife passed away about six months ago. She had been ailing for over a year.

This man and I have known each other for several years, but I give you my word nothing went on between us while he was still married altho we have been attracted to each other since our first meeting.

We are both past middle fifties, but this is some wild love affair. He wants to marry me quietly and quickly. I want to marry him, too, but it has come back to me that many people think we had something going while his wife was still living. This is not true.

I have married children and so has he and I don't want any ugly talk. To be on the safe side, how long should we wait before marrying?

CLEAR CONSCIENCE

DEAR CON: If your conscience is clear, you have clear sailing. Why wait at all?

DEAR ABBY: I read the letter from "FORTY-EIGHT AND GETTING THERE" with some concern because as far back as I can remember, comedians have been portraying old folks.

Naturally, they come off a bit wobbly, and some don't hear too well, but it's all in fun, and I doubt if anyone sets out to ridicule them.

My wife and I have always enjoyed the Carol Burnett show, which includes skits showing the old couple in their rocking chairs.

My advice to "FORTY-EIGHT AND GETTING THERE" is to develop a sense of humor.

"SEVENTY-ONE AND ALREADY THERE"

DEAR THERE: Thanks for expressing an opinion shared by this writer and many others. Carol Burnett is far too kind and sensitive to intentionally ridicule or hurt anyone.

DEAR ABBY: Our 22-year-old son has a 21-year-old girl friend who spends a lot of time at our home.

These two cannot seem to keep their hands off each other. The girl is always running her fingers thru his hair, petting him, smoothing his sideburns, massaging his shoulders and legs, sitting in his lap and giving him a hug around the waist. They often sit with their arms around each other, kissing frequently.

This goes on not only in the presence of the family, but before guests and neighbors as well.

My husband and I have both told our son that such behavior in public is in poor taste and to please cut it out, but they tell us that "love" is beautiful and they are not ashamed of it. Then we're told we are old fashioned.

Please tell me what you think of such carryings on? HIS PARENTS

DEAR PARENTS: Love is indeed beautiful, but such exhibitions are out of place in public.

DEAR ABBY: Okay, go ahead and scold those who write thank-you notes and fail to sign their last names. Most people remember to whom they send gifts.

How about the chumps who send gifts (especially wedding gifts) and sign the card, "Mary" or "From the Smiths"? Or (are you ready for?) "Love from both of us"?

Anyone who sends a gift and does not enclose a card with his full name, and a legible return address on the package deserves to be stuffed into a mail slot and canceled. I. M. DISGUSTED

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69700, L. A., CALIF. 90069 and enclose a stamped, addressed envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abby, Box 69700, Los Angeles, Cal. 90069.

Polly's Pointers

By POLLY CRAMER

POLLY'S Problem

DEAR POLLY—Do you or any of your readers know how I could restore a lamp shade to its original whiteness after it has yellowed?—BARB

DEAR POLLY—My Pet Peeve is with the manufacturers of women's clothes who do not put pockets in women's nylon slacks or blouses. Consequently I wear men's shirts because they do have pockets.—MRS. H.G.C.

DEAR POLLY—I am answering Mrs. N.B.M. whose spinet piano has stains left by hands and arms touching the piano's finish. She might rub a small amount of slightly warmed linseed oil directly on the stain and then generously sprinkle on cold cigar ashes. Rub with a circular motion and the stain should disappear. This is also excellent for white marks on table tops.—MRS. R.F.H.

DEAR GIRLS—Please do not write that you are tired of my repeating that any such remedy must first be tried on an inconspicuous spot. Finishes vary and cleaning and polishing agents that have been previously used can be different.—POLLY

DEAR POLLY—I used to find that the real joy of sending birthday and anniversary cards was threatened by the realization that the due date found me without an appropriate card on hand. Now the habit of carrying the entire year's list complete with dates in my billfold at ALL times has proven to be invaluable. When I have to wait for someone or something there always seems to be a nearby place to buy

cards and I enjoy the leisure of not meeting deadlines.—M.W.B.

DEAR POLLY—If no broiler pan is available a good substitute is a muffin pan. Place chops or small steaks on the pan turned right side up so the fat drops in the cups leaving the meat free from grease.—MRS. H.H.H.

DEAR POLLY—My Pointer will save a few of those pennies that soon add up. When my terry cloth dish towels wear thin and are no longer very absorbent I cut them in half, hem on the sewing machine and use them for washing dishes. Now I have to buy very few dish cloths.—LEONA

An age-old controversy

What is a "Woman's Place"?

While the precise sequence of events in the Garden of Eden is a bit obscure in the record, there are those who maintain that the Forbidden-Fruit caper would have never happened if Eve had not been left alone to rap with the snake while Adam had to put out the garbage.

Today, that venerably masculine chore—garbage disposal—is still a point of contention between the sexes. Too often, runs the female argument, men choose to overlook the fact that women would be amenable to sharing the garbage-out chores if such tasks as cleaning, washing and cooking were split up more equitably between the sexes.

The subject of Who Does What in households where both husband and wife hold outside jobs, has been getting an economy-sized scrutiny in recent years by a number of groups ranging from the academic to private sectors, reports the Institute of Life Insurance.

Roles are about the same

A recent study in Syracuse, New York, for example, suggests that household roles of men and women have changed less than has been recently supposed. The researchers found that while some husbands share marketing chores and child-care, most still concentrate on such traditionally masculine tasks as house repairs and work in the yard.

The Syracuse study also discovered that husbands averaged 1.6 hours a day on household tasks, regardless of whether or not their wives had jobs.

This adherence to tradition is by no means unanimously appreciated in all households. According to a recent Harris survey, almost half of the working women polled felt that men should do more around the house. More than one-third opined that they should get more help with children, cleaning and shopping, and about one-fourth also wanted more help with the dishes.

Thinking is changing

An even stronger indication that the status quo may be in for shaking-out is suggested by a brand new study of young people between the ages of 14 to 25, sponsored by the Institute of Life Insurance. In contrast with a similar study two years ago, in which 3 out of 5 young people polled agreed that "a woman's place is in the home,"

Stone and Ms. Woolf to take quill in hand could have had something to do with a verse popular in their day. Entitled, "The Housewife's Epitaph," it went:

"Here lies a poor woman who always was tired, She lived in a house where help was not hired, Her last word on earth were 'Dear friend, I am going Where washing ain't done, nor sweeping nor sewing But everything there is exact to my wishes For where they don't eat, there's no washing of dishes."

Just to prove that the division-of-labor controversy remains universal, the Chinese Communist Party journal, "Red Flag," recently came right out and admitted that members of male superiority still smolder in some parts of the People's Republic. Despite some "past problems," however, the Peking publication says: "Now things are changed. Men not only encourage women to work, but help with household chores. But, the "Red Flag" did not mention who takes out the garbage in China.

Pampa Garden Club Sets Autumn Events

Spotlighting the mums in Pampa this fall, the Pampa Garden Club will hold a fall flower show Saturday, Oct. 14, from 2 to 7 p.m. at the First Christian Church. The show, "Autumn Trails," will have both artistic (arrangement) and horticulture divisions. Entries in each will be open to the public, announced Mrs. Holly Gray, show chairman, at Monday's club meeting. Mrs. James Malone, schedule chairman, gave an explanation of this year's show schedule. Tickets for the flower-arrangement demonstration and workshop Monday, Sept. 11, featuring Mrs. Ross Ferrier of Fort Worth, judge and instructor, are on sale for \$2. They may be purchased from club members or by calling Mrs. N.C. Jordan, 665-2864 or Mrs. A. B. Cross, 669-2634.

Mrs. Thelma Bray, chairman of the civic beautification committee, announced that

bindweed has become prevalent in areas of Pampa and citizens need to take action to eradicate the infested areas of this white, morning-glory-type weed. Precaution must be used with the weed-killing chemicals because they can be harmful to surrounding plants, she said.

Guest speaker Bill Binion of Amarillo, landscape architect, emphasized the choice of plants for home landscaping should be determined by the lot, house, use of the grounds, as well as the size of plant, location, suitability, and most popular determinant, rate of growth.

Selecting a tree because of its fast rate of growth is not always wise, he cautioned. The fast growing trees, such as willow, cottonwood and poplar have shallow, massive root systems and subject to disease, weather, insect damage, and are short-lived. It is difficult for the maple to adapt to Panhandle

soil conditions, while the mimosa is prevalent to disease and is messy.

On the plus side, the speaker listed the locust, Washington hawthorne, crab apple, golden rain tree, and red oak for this area. He rated the locust high because it is resistant to wind, pests and disease, is fast growing, large and the filtered shade permits ground growth. The only minus feature is the lack of fall color, which the red oak, another highly-recommended tree, does have. However, the red oak is expensive and difficult to acquire. Binion recommended the two-inch to three-inch caliper tree as the best for transplanting.

When planting a shrub, the home-owner often neglects to consider the high fluctuation in temperatures, he pointed out. Too often a semi-hardy shrub is placed on the south or west side of a home, by concrete, both of which cause it to become warm during a winter day and chilled at night. The Japanese boxwood and jew were recommended for this area, if care is taken to place them on the north or east sides of a building.

Hostesses for the meeting were Mmes. Lee Harrah, Raymond Darsey and Joe Curtis.

Members present were Mmes. N.C. Jordan, S.T. Holding, C.J. McNaughton, Marion Brown, H.H. Boynton, Georgia Mack, A.J. Mitchell, Cliff Vincent, Bert Robinson, A.B. Cross, Lee Harrah, Mary Weaver, Lee Moore, V.M. Osborn, Holly Gray, R.E. Darsey, Thelma Bray, James Malone, Ralph Esson, W.R. Campbell and Wallace Birkes.

Guests were Mrs. Aubrey Sprawls, Mrs. Eben D. Warner Jr., Mrs. J.V. Young Sr. and Miss Cathy Pearce of England.

Questions for which there may be no answers:

Why is it that "Fritz the Cat" is the next featured attraction at our theater just after I've told the little kids, "Don't worry about all the R-rated films you can't see. Just wait until some cartoons are being shown?"

Why do we need three times the amount of equipment for a week's camping trip than our great-grandparents needed when moving west in a covered wagon?

Why does a little girl wait until her mother's bridge club has gathered in the living room to ask, "Mommy, what is an ovary?"

How can all these perfect children we hear about today have such lousy parents?

Do teen-agers lie to parents as much today as we did when we were their age?

Does a child use an unbreakable toy for any purpose except breaking other toys?

Is there a certain age or job level at which a person's "messing around" starts being called "an avocation?"

Is mine the only kitchen

Suede for Summer

Suede has gained in popularity even as early as summertime. Suede halters with bare backs are made in the palest colors. Now there's man-made suede that looks and feels like the real thing, but costs less and, forget the cleaner bills, it's washable.

International Dinner Slated By Altrusans

Internationally-born women of the community will be dinner guests of the Altrusa Club of Pampa at 7 p.m. Monday in the First United Methodist Church. Mrs. Jack Stroup, international relations committee chairman, stated that all women born outside the continental limits of the United States are eligible to attend, with or without a personal invitation. Food of an international flavor will be prepared by Altrusans. Club members will be contacting all known eligible women between now and Monday. Additional names, information, or changes of address may be given to Mrs. Stroup, 665-5734, Mrs. Malcolm McDaniel, 669-9660, or any Altrusan. The club is anxious that no internationally-born woman be overlooked, Mrs. Stroup said.

Your Horoscope
 By Jeane Dixon

FRIDAY, AUG. 25
 Your birthday today: The upcoming year leads you beyond your past limitations as you test to see how far you can reach. Today's natives enjoy investigating natural phenomena; many of them possess strong psychic talents.
Aries (March 21-April 19): Let others lead the way, but be right next with your best efforts to mend any breaks. Avoid clandestine actions, if possible.
Taurus (April 20-May 20): Let your work go along seasoned routines, concentrate your main thrust on building healthy contacts. Don't fret over finances.
Gemini (May 21-June 20): Quiet persistence begins to yield results, people begin to listen, but it is not yet time to force any issue. Gather good friends.
Cancer (June 21-July 22): The tide turns and you have general agreement on any reasonable course. Romantic or sentimental ventures offer quiet satisfaction.
Leo (July 23-Aug. 22): If you are on the right track, some streak of coincidence comes in to help. Reaching out to help others tends to upset your budget.
Virgo (Aug. 23-Sept. 22): You are the main source of your own problems and should solve them yourself. An unorthodox approach may be needed.
Libra (Sept. 23-Oct. 22): Make use of improving relationships to take care of yourself; attend any discrepancy quickly, before it widens into further complexity.
Scorpio (Oct. 23-Nov. 21): Cater to your urge to change appearances—an investment in public image can really pay off. Later hours test your patience.
Sagittarius (Nov. 22-Dec. 21): Get busy early. Get yourself free to attend to home and family. Your share may include meeting relatives more than half-way.
Capricorn (Dec. 22-Jan. 19): Bridge gaps in your information the best you can. Make introductions; where others have disagreed, seek compromise.
Aquarius (Jan. 20-Feb. 18): Cooperation is available if you concern yourself with your own needs rather than what you think others ought to be doing.
Pisces (Feb. 19-March 20): Switching from weekday conditions to week-end turns out quite a chore this time. You have better emotional rapport.

The Tailored Head Returns

THE TAILORED HAIRDO is about to make a comeback, according to Helene Curtis's experts in Paris. According to them, the watchword for hair is refinement. At left, Jacques Dessange portrays his version of this look with the simplicity of a page-boy with long flowing lines. At center, he shows a version for shorter hair, which features long bangs and gives a thick and supple feeling because of a squared-off cut. At right, Alexandre, who styles hair for some leading designers in Paris, shows a hair-do that is cut short, parted in the middle and pinned down with over-sized combs.

Olympians Are Finally Taking Care Of Business

MUNICH (AP) — Finally the young, the strong, the graceful and the swift are being thrust into prominence at Munich's Olympic Games.

Politics disappeared into the Bavarian fog as Avery Brundage and the entire Rhodesian team were consigned to sports' pasture within 24 hours.

"The game is on," said trackman Lee Evans of San Jose, Calif.

U.S. and Kenyan runners galloped through a blistering preview of Olympic track and field on Wednesday night. Black speedsters who earlier threatened a walkout at the Games were among the most impressive.

Evans, the 400-meter gold medalist in the 1968 Olympics, anchored the U.S. 1,600-meter relay team to a rapid closing of 3:00.69 fastest in the world this year.

Larry Black of Miami, Fla., back from leg injuries, did 20.24 in the 200-meter sprint and was leadoff man on the American 400-meter relay that blazed around Olympic Stadium in 38.89 seconds—seven-tenths seconds off the world mark.

Evans and his three running mates, Vince Matthews of New York, Wayne Collett of Santa Monica, Calif., and John Smith of Los Angeles, were among the American blacks who vowed to leave Munich if white-controlled Rhodesia had been allowed to compete.

Rhodesia was kicked out by the International Olympic Committee over a passport technicality, a bitter setback for retiring IOC President Avery Brundage.

His pride still openly wounded, Brundage presided Wednesday over the election of

Lord Killanin of Ireland as the new IOC president, and there was a scent of change in the air. "We have to realize we are about to enter the last quarter of the 20th century," the Irish peer said.

While the few U.S. track stars who entered the pre-Olympic meet were impressive, the Yank women's swimming team suffered at least a temporary setback.

Denna Dearduff of Cincinnati injured her ankle in a fall at Olympic Village, and the butterfly specialist was hobbling Wednesday on crutches.

In the track and field preview, Kenya's fabled Kip Keino, who may retire after the Munich Olympics, ran the fastest 800 meters of his career with a 1:46.41 clocking.

Keino will not run the 800 in the Games but will concentrate on the 1,500, in which he is defending Olympic champion, along with the relays.

Robert Ouko of Kenya timed a creditable 1:48.11 in another 800 meters heat. He is a teammate of Black's in the United States at North Carolina Central College.

Black had been timed in 20.0 for 200 meters prior to suffering leg injuries. He has been slowly regaining speed, but barely qualified for Munich by finishing third in the U.S. Trials at Eugene, Ore.

Valery Borzov of Russia, who has run 20.2, is the likely favorite in the spectacular dash event when Olympic track and field competition begins Aug. 31.

Bill Bowman of Oregon, the head track coach of the American men, removed 19-year-old Rey Robinson of Lakeland, Fla., from the 400-meter relay team and placed the more ex-

perienced Black on the No. 1 leg.

Black's mates will be Robert Taylor of Houston, Tex., Gerald Tinker of Miami and Eddie Hart of Pittsburg, Calif. The 38.89 was equal to the year's fastest time.

In the shot put, it was strictly an American show with a 1-2-3 sweep. George Woods of Warden, Ill., throwing the best of his career, hit 70 feet, 1 1/4 inches. Al Feuerbach of San Jose, Calif., was second at 68 1/2 and Brian Oldfield of South Elgin, Ill., third at 68 1/4.

Those in charge of pomp and ceremony for the German Olympic Committee continued practicing toward the colorful, nationalistic opening ceremonies scheduled Saturday afternoon.

BOB TOLAN, if one can judge from his expression, does not think that sliding into home is the most pleasant task in the world. In this recent game the Cincinnati player had another reason to look pained. He was put out.

Chuck Drulis' Death Shocks St. Louis Cards

HOUSTON (AP) — The St. Louis Cardinals, shocked by the sudden death of defensive coach Chuck Drulis, try to concentrate on football in the Astrodome tonight against the Houston Oilers in an exhibition football game.

Drulis collapsed and died Wednesday on the charter flight from St. Louis to Houston. The plane landed at Little Rock, Ark., where Drulis was pronounced dead. Drulis was attended on the plane by team physician Dr. Fred Reynolds.

PRO CHARTS

by MURRAY OLDERMAN

National Conference: Central Division
20—DETROIT LIONS

Joe Schmidt

PROSPECTUS — The quest goes on... and on... to catch the Vikings. Unfortunately, they're losing distance. Last season was injury-marred. But Joe Schmidt's still optimistic it can be done. Pendulum of club power has shifted in recent seasons from defense to offense. They'll score plenty of points but Joe's got to concentrate on plugging couple of defensive holes.

OFFENSE

QUARTERBACK—For precocity and depth, you couldn't ask for more than Greg Landry and Bill Munson, in that order. They're even happily signed for a change. Rating—A—.

RUNNING BACKS—It says something when talent like Mel Farr can't struggle back into regular lineup. Rugged Steve Owens reached 1,000-yard class as soph. Alvin Taylor's game-breaker. Of course, Farr always has been injury-prone. Others clamoring for time include swift Paul Gipsan. Rating—A—.

WIDE RECEIVERS—The one change from last year in offensive unit may find fleet Ron Jessie beating out even fleet Earl McCulloch, who never has developed moves like he should. The guy with the world of talent on receiving line is Larry Walton, and he's never put it all together either. Rating—B—.

TIGHT END—Not even injury could slow up Charlie Sanders. He's solid as No. 1 tight end in pro football. Craig Corsten hangs on for insurance. Rating—A—.

LINE—A stable unit built around center Ed Flanagan, who's all-pro caliber. Rockne Freitas has come strong as a right tackle, too, able to cope with the premier defensive ends in NFL. Guards Chuck Walton, Frank Galloway can't afford to relax with Rocky Rosky, Bob Kowalkowski chasing them. Rating—B—.

DEFENSE

LINE—Sorest point on club because pass rush has fallen off drastically. Yet Jerry Rush walked out of camp, leaving tackle void. Other tackle, Bob Bell, was just so-so as rookie. Jim Mitchell was disappointing at one end. Only guy who held up was Larry Hand, the 32-year-old vet end. Big chance for top draftee Herb Orvis. Rating—C—.

LINEBACKERS—Age creeping up on them. Wayne Walker's now 35; Mike Lucci in middle is 32. But hasn't shown yet in their performance. Lucci's up there with the best. He and Paul Naumoff on left had off-season knee surgery but look O.K. Charlie Weaver, wild-man type soph, can spell Walker. Rating—B—.

SECONDARY—Major shift finds Dick LeBeau, after 13 seasons, moving from right corner to right safety (where Tommy Youngh retired). Ex-Falcons Rudy Redmond steps into LeBeau's old spot. Mike Weger does solid job at left safety, but Lem Barney's got to play back to superstar rating at left corner. Rating—B—.

KICKING—Still entrusted to the reliable toes of Herman Weaver as the punter, Errol Mann for the three-pointers. Mann matches any of them for distance. Rating—B—.

SPECIAL TEAMS—Got good performance last year from covey of eager youngsters. For returns, Lem Barney on punts, Ron Jessie on kickoffs are tops. Rating—B—.

Frogs Look Good If No One Injured

FORT WORTH, Tex. (AP) — Texas Christian kicks off a new football season with a new coach, a new nickname, a new quarterback and an old problem—depth.

"If don't anything bad happen ah feel like at the end of the season we'll all be happy," said Billy (the Kid) Tohill, beginning his first full season as head coach.

At 33 the youngest of the Southwest Conference czars, Tohill inherited the top job deep in the 1971 season at the death of Jim Pittman.

Tohill took over on the sidelines of the Baylor game, which the Horned Frogs won, and guided the saddened team to a 3-1 windup and third place in the league.

"We hope to do as good or possibly better than last year," drawled the personable Mississippiian in a pre-season interview. "We don't have a lot of depth."

But we have one good offensive team and one good defensive team... If we start getting a few people injured, we could be in real trouble real quick.

Somewhere along the way the Horned Frogs picked up the nickname "Tohill's Terrors," and with 33 lettermen and 16 starters back they may well be "Over-all, we should be better than last year," said Tohill in assessing the team's 6-4-1 record a year ago.

Cardinal Coach Bob Holloway will open with either Gary Cuozzo or veteran Cardinal Jim Hart. Cuozzo, who came to the Cardinals in a trade from Minnesota, has started all three St. Louis games.

Houston Coach Bill Peterson is expected to counter with second year quarterback Lynn Dickey, who is challenging Dan Pastorini, also a second-year man, for the starting Oiler job.

Holloway also has Tim Van Galder to consider in selecting a starting quarterback. Van Galder took command with St. Louis trailing 13-0 against Denver and produced 17 second half points for a 17-13 victory.

Elsewhere, Jerry Shay, a former defensive tackle with three NFL teams, signed Wednesday with the Edmonton Eskimos of the Canadian Football League.

The office said there was no indication of a warming trend during the 16-day games.

WINNING at weekend tennis improving your doubles game

By Tony Trabert with Joe Hyams

25. The Volley

What is a volley? A volley is a ball that you hit before it bounces either on the right or left side of your body.

Where should I stand? Remember the premise of doubles: You are trying to cut your opponent's possibilities in half and divide your responsibility with your partner.

Your best position is midway between the net and the service line and about midway between the center service line and the singles side-line.

You don't want to be so far away from the net that it's easy for your opponents to get balls down at your feet and you don't want to be in so close that it's easy for them to get a lob over your head.

If you stand where I suggest, you will have more time to react to a fast return and it will be very difficult for your opponents to hit an offensive lob over your head. With a step and reach in either direction, you

should be able to cover the alley and your obligation in the center.

(NEWSPAPER ENTERPRISE ASSN.) (NEXT: Volley Stance.)

Waiting for the volley.

Baseball Roundup

By The Associated Press

The Chicago White Sox are meticulous baseball players, so it's entirely possible that they closed the door behind them when they stepped into first place in the American League's West Division.

Now, if Manager Chuck Tanner can only find the key to locking it.

The White Sox used Dick Allen's lively bat and Wilbur Wood's rubber arm for a 5-2 victory over New York Wednesday and then hopped into first place in the West a few hours later when Detroit whipped Oakland 7-5.

That was a vital victory for the Tigers since it enabled them to remain one-half game ahead of Baltimore in the East. The Orioles rapped California 7-1.

Elsewhere in the American League Wednesday, Cleveland dropped Minnesota 5-1 and Kansas City blanked Boston 3-0. Texas at Milwaukee was rained out.

In the National League, Houston defeated New York 7-4. San Francisco shut out Pittsburgh 8-0. Atlanta outslugged Philadelphia 9-6. Montreal blasted Cincinnati 11-0. Los Angeles shut out St. Louis 3-0 and Chicago stopped San Diego 7-5.

Allen hit his 32nd homer of the year, a titanic two-run shot in the seventh inning to help Wood beat the Yankees. It was the 22nd victory of the year for the knuckleballer.

The homer soared into the centerfield bleachers at White Sox park—470 feet from home plate—an area reached only three times before. The huge homer gave Wood a working margin and increased Allen's runs batted in total to 91.

Tanner, reaching into his managerial bag of adjectives, called Allen, "Babe Ruth. Ro-

gers Hornsby and Ty Cobb, all put together.

He neglected, however, to compare Wood with Cy Young. If the knuckler captures the award named for the legendary pitcher, that'll be good enough for Tanner. It might even mean that the manager will locate that key to the first place door.

Detroit boos, the Sox into the West lead. I stayed in front in the East knocking off Oakland. The Tigers did it with a seven-run explosion in the second inning, four of the runs scoring on Bill Freehan's second grand slam homer of the season.

That should have made it easy for Joe Coleman, who won his first game since June 22. And it was easy until the ninth when Coleman, coasting along on a three-hitter, was suddenly strafed for four runs. Chuck Seelbach came on to get the last out.

Ted Kubiak drove in four of the A's runs, three with a bases-loaded double in the ninth.

Baltimore stayed one-half game off Detroit's pace by pounding California for Jim Palmer's 17th victory of the season.

The Orioles also used a big inning for their victory, bunting six runs in the fourth inning, three of them on a homer by Paul Blair.

Roger Nelson carried a no-hitter until two were out in the eighth inning against Boston when Ben Oglivie spoiled the Kansas City pitcher's bid with a clean single on a 3-2 pitch.

"I just threw it right down the pipe and he hit it cleanly," said the Royals' right-hander of the Red Sox' lone hit.

Ed Kirkpatrick accounted for all the KC runs with a three-run homer in the sixth inning against loser Sonny Siebert.

Buddy Bell drilled a bases-loaded double for three runs as Cleveland stopped Minnesota.

The Indians snapped a scoreless tie in the sixth, scoring two runs on Alex Johnson's sacrifice fly and an error. Rich Reese's seventh-inning homer cut that lead in half but Bell's double gave Steve Dunning a comfortable edge.

That's something the Division leaders, Chicago and Detroit, wish they had.

Killanin Hints Change

MUNICH (AP) — They're changing guard in the Olympic movement and a hint of new ideas is in the air.

Lord Killanin, elected Wednesday to succeed Avery Brundage as president of the International Olympic Committee, indicates he will not be a diehard champion of amateurism during his eight-year term.

"I don't believe in open Olympics," he said in an interview. "I don't believe in professional Olympics. But I do think we have to realize that we are about to enter the last quarter of the 20th century."

Killanin, 59-year-old Irish nobleman who has been a journalist, author and movie producer, does not take over as president until the end of the Munich Games Sept. 10. Until the Olympic torch is extinguished, Brundage, who has refused to budge an inch on amateurism and the eligibility rule for the last 20 years, remains in office.

Rogers, Hogan Land 9 Lb Cattfish

Tibby Rogers and Jeff Hogan caught this nice 9 pound channel cattfish in a farm pond east of Pampa. They caught it on a trawline with liver for bait. The men were fishing early in the morning. Bring in your catch to be photographed and to have the weight recorded at Pampa Tent & Awning, 317 East Brown, Highway 60.

When were your brakes checked last?

If it's been over six months, you should stop by. If your brakes are okay, we'll say they're okay. If they need work, here's what we'll offer you:

- New Delco brake shoes
- Master cylinder inspected and filled
- Wheel cylinders & brake hoses inspected
- Brake drums turned

TEXAS HIGHWAY DEPARTMENT NOTICE OF HIGHWAY IMPROVEMENT
The Texas Highway Department is planning to proceed with the development of the proposed highway improvements on State Highway 70 in Roberts County from 12 1/2 miles north of the Gray County Line to Chickasaw Creek a distance of approximately 5 1/2 miles. Since the Administration of the Highway Department has approved the route and design proposed for development of this project, work will begin on the next phase of engineering necessary for the development of this project.

The proposed improvement will consist of rebuilding, widening, and upgrading the present facility. The proposed facility will consist of two 13 traffic lanes, one additional 12' climbing lane in warranted areas, and two 8' shoulders. There will be no control of access features. The right of way width varies as a minimum from the present right of way width of 120' (80' right and 40' left of center line) to a maximum of 120' left and 125' right of the center line. Environmental studies have been made and are on file and available for inspection and copying.

Maps, drawings showing geometric design, and other available data concerning the development of this project may be inspected at the Resident Engineer's Office, P.O. Box 1138, Pampa, Texas 79065, located on U.S. Highway 60 just east of Pampa.

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces can he develop to his utmost capability.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

Porous Paving Rescue?

We are still a long way from paving over the entire country, but the urbanization if not "highwayization" of America has caused a problem in some localities.

This is the runoff of uncalculable quantities of water which formerly soaked into the earth to replenish underground supplies, with a consequent overburdening of storm sewer systems, not to mention the contribution to the pollution of lakes, streams and rivers.

But technology may be coming to the rescue. Chemical and Engineering News reports on a porous pavement that lets rain pass through to underground water tables rather than be wasted via storm sewers.

Developed at Franklin Institute Research Laboratories in Philadelphia, the pavement is made of a new asphaltic material that allows up to 70 inches per hour of water to flow through.

Laboratory tests have shown that it has good resistance to mechanical stress, exposure to air and freeze-thaw cycles and should be cheaper than conventional paving with its necessary runoff (sewer) system.

The next step will be to pave several acres in different locations with the material to test it in actual use. The institute is betting that porous pavement will be preferred in the future.

Alcoholism Incentive

If you have a U.S. Civil Service Job and imbibe alcohol to excess, you're not drunk; you're sick. Furthermore you get time off until the hangover wears off.

That's according to rules that became effective Dec. 1, 1971. The guidelines were published by the Licensed Beverage Industries, Inc.

Among the guidelines are the following:—Alcoholism is recognized as a treatable illness.

—An employee having an illness or other problems related to the use of alcohol will receive the same consideration and offer of assistance presently extended to employees with any other illness.

—No employee to whom the program applies will have his job security jeopardized by his request for counseling or referral assistance.

—Sick leave will be granted for treatment or rehabilitation on the same basis that it is granted in any other illness.

We don't want to get stuffy about this. Back in the old days, it wasn't considered so bad if you took a nip in order to loosen up for the Saturday night dance; provided, however, you were able to do your Sunday morning chores. The principle involved in the new Civil Service guidelines is that self-inflicted impairment is made the same as illness from natural causes. We do not see how that is fair to the Civil Service workers who try to show up in a state of equilibrium sufficient to do the job. What we can see is that headline of the future, "Supreme Court Holds Heroin Addict Entitled To Sick Pay."

A Hairy Threat

Americans, warns historian Henry Steele Commager, are in danger of losing their freedoms, and the danger comes not from without but from within—from their own government.

"A society that discourages nonconformity," he says, "whether in little things like the length of hair or in big things like religion, or penalizes experimentation, whether in local matters like the organization of schools or in national and global matters like new forms of sovereignty, will simply fail to solve its most important problems."

He's certainly right about the hair bit. How many men do you see with hair below their shoulders?

Conformity demands that it Let us not pray for lighter burdens but for stronger backs. — Roger Babson, American statistician.

cover the collar and ears, and sometimes the eyes, but no more. And, like unshorn sheep, the young men do what they're told by the Federal Bureau of Tonsorial Control.

Quick Quiz

Q—When and where was the first Chamber of Commerce established?

A—In New York in 1768, "to promote and extend just and lawful commerce."

Q—Who was the first Christian Roman emperor?

A—Constantine, who ruled 306-337.

For a country to have a great writer is like having another government. That's why no regime has ever loved great writers, only minor ones.

—Nobel Prize-winning novelist Alexander Solzhenitsyn on why he is feared by Russia's leaders.

Good Diet Can Curb 'Killers'

By DAVID HENDIN
The medical affliction responsible for the most deaths in the United States today is coronary heart disease.

Experts say that heart disease is epidemic in our country, and they link it closely with another problem of epidemic proportion—obesity.

Now several scientists believe they have found a close connection between overeating and the nation's No. 2 killer disease—cancer.

If these preliminary studies are borne out by further studies it will be another in what may someday prove to be a long series of links between the nation's two top killers.

Other associations between causes of cancer and heart disease have already received a lot of publicity.

Cigarette smoking has been statistically tied to both lung cancer and coronary heart disease.

Emotional stress, long thought to be a factor in heart disease, has also been mentioned, by some scientists, as a possible factor in certain forms of cancer in some patients.

There has been much research into the relationship of obesity, fat intake and other nutritional factors to heart disease. Experts in the field generally agree there is an optimal state of nutritional health to most successfully avoid coronary heart disease.

Now the possible relationship between nutrition and cancer is receiving a great deal of attention by scientists.

At the recent annual meeting of the American College of Surgeons in Atlantic City, Dr. Robert Good, a University of Minnesota physician-researcher, said that he had been able to induce resistance to certain blood and breast cancers in rodents "by just reducing the amounts of protein in the diet."

Good warned strongly, however, that too drastic a protein reduction can have just the opposite effect—an increased susceptibility to cancer in the laboratory animals.

Proteins, responsible for rebuilding destroyed and damaged cells and tissues in the body, are needed in greater quantity by individuals who are not yet physically mature.

Earlier this year Good reported in Nature, a British science journal, that malnourished rodents had an easier time destroying cancer cells in their bodies than did normally fed animals.

Similar research by Dr. Roy Walford at the University of California School of Medicine showed that rodents fed a diet of one-third the normal number of calories lived longer and developed 10 to 60 per cent fewer cancers than better fed animals.

Walford suggested, based upon his work, that man should eat considerably less than he does now, provided that he maintained the proper intake of vitamins and minerals.

Such studies point up the importance of increasing nutrition study for medical students; it is now scanty or non-existent, as well as the funding of ongoing research programs.

The notion that man must eat right to keep healthy is not a new one. But it seems that around every new corner the public is finding out how little science really knows about what man should eat.

Walford suggested, based upon his work, that man should eat considerably less than he does now, provided that he maintained the proper intake of vitamins and minerals.

Such studies point up the importance of increasing nutrition study for medical students; it is now scanty or non-existent, as well as the funding of ongoing research programs.

The notion that man must eat right to keep healthy is not a new one. But it seems that around every new corner the public is finding out how little science really knows about what man should eat.

AND NOW THE MAN YOU'VE BEEN WAITING TO HEAR... A MAN WHO...!

H.L. Hunt Writes Inside Washington

STRUCK OUT AGAIN
It was a distressing spectacle to witness in one weekend both W. Averell Harriman and Ramsey Clark were trotted out again by the TV news media to pontificate on foreign affairs.

Averell Harriman creakily wheezed into the mike an assertion that the administration had misunderstood certain communist moves in Vietnam in 1968 while he alone had comprehended their true motives.

Ramsey Clark, filmed in Hanoi, brayed into the mike a statement that our POWs are in fact well treated, well fed and well cared for. Both of these men claim they should be granted credence because they are former governmental officials.

Therefore, it is in order to evaluate their records while in federal office and determine their batting averages. Both have consistent records and batted about one thousand; unfortunately, both were consistently wrong and batted about one thousand on the wrong side.

Time and time again, Harriman, Clark and those of like persuasion have gone to bat against the communists and been traded right out of their pants and then have exhibited the brazen effrontery to warble to the U.S. citizenry what a fine job they did.

Go back into retirement, Averell and Ramsey! When we want fantasy like you dish out, we will read Mother Goose.

What is needed most now and what should be demanded by an aroused U.S. citizenry is tough, hard-nosed U.S. leadership who know the communist conspiracy, understand communist perfidy and are determined that the Freedom side will prevail. All 1972 campaign rhetoric should be evaluated in this light.

But even if a John Mitchell or a Maurice Stans is not directly implicated, indictment of little-known Nixon lieutenants will contradict earlier protests of innocence and provide fuel for McGovern. The reason goes back to a major tactical dispute among Presidential aides which began on June 17 when the Watergate buggers were caught red-handed.

At that time, several political and public relations aides at the White House submitted this advice in written memoranda: don't hide anything; the instant

The Treasury Department's Bureau of Customs was created by Congress in 1927. The bureau is responsible for checking merchandise entering or leaving the United States, collects duties on imports and investigates attempts at smuggling. The World Almanac says, it also works closely with the Bureau of Narcotics in controlling entry of dangerous drugs.

The first office building in the United States with air conditioning as part of its original construction was the Milam Building in San Antonio, Tex., which opened Jan. 1, 1928. The 20-story building has nearly three million cubic feet of space and about 248,000 square feet of gross floor area.

THE AMERICAN PARTY

1972 Platform

At their recent National Political Convention in Louisville, delegates to the American Party Convention put together a great political platform which has to date been blocked out by the big city press, the networks and the so-called "news magazines". One Louisville paper accused the American Party of having "flat earth" beliefs, completely unrealistic in these times.

Here are the highpoints of the American Party platform. I believe at least three-fourths of the American people would agree, if the mass "news" media and left-leaning antenna allow the facts to penetrate their paper curtain and distorted tube.

Preamble: The American Party of the United States of America gratefully acknowledges the Lord God as the Creator, Preserver, and Ruler of the Universe and of the Nation, hereby appeals to Him for aid, comfort, and continuing guidance in its efforts to preserve this nation as a government of the people, by the people, and for the people in this time of peril.

The American Party speaks for the majority of Americans, the hard-working, productive tax-paying citizens who constitute the strength of America.

No other party today speaks for the average American or expresses his concepts, hopes and goals.

The average man today does not think of himself in ideological terms, such as liberal and conservative. Rather, the average man thinks in terms of the basic problems which confront him. He is concerned with the opportunity for gainful employment, educational opportunity for his children, the safety of his wife and child on the streets of his community, and equity in taxation which makes him neither the victim of those who by refusing to work have no income to tax, or the multi-millionaires who use tax loopholes to avoid payment of any taxes. He is concerned about the never-ending use of his sons for gunfodder in futile international involvements.

The platform of the American Party is a response to his desires, a voice which speaks for him as no other political party in America today so speaks.

No nation can survive if it fails to meet the problems

which concern the average citizen. The American Party confronts these problems with the conviction that the little people of America are right and will be heard in a free Nation committed to Government of, by, and for the people. The people will ultimately have their way.

To these, the great American people, we offer this platform:
Local Government

The American Party is totally committed to the governmental frame work embodied in the Constitution of the United States with its emphasis on a maximum of individual freedom and local autonomy. We are unalterably opposed to Federal domination of local institutions, particularly our public schools.

Individual Rights

The American Party speaks for individual freedom; the right of each citizen to the ownership of property and the control of his own property, the right to engage in business or participate in his labor union without governmental interference.

We shall steadfastly oppose Federal legislation permitting the Federal bureaucracy to tell a business man who he must hire or fire, tamper with Union seniority lists and apprenticeship programs or invade the individual's right of privacy.

We call for the elimination of government competition with free and competitive institutions.

Federal Judiciary

The greatest obstacle to the achievement by the average man of his goals and desires for America is the unrepresentative, unresponsive, dictatorial, federal judiciary.

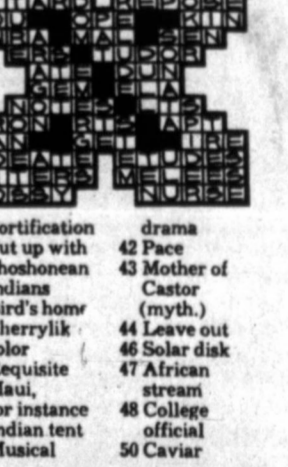

The American Party would end judicial usurpation, of the constitutional process by requiring federal judges at the district court level to be directly elected by the people, by requiring federal judges at the appellate level, including Supreme Court Justices, to be reconfirmed in their appointments every four years, and by limiting the appellate jurisdiction of the federal courts in state constitutional cases.

(More next week on the pro-American, pro-freedom, pro-Constitution program of the American Party.)

Answer to Previous Puzzle

today's FUNNY

THE MOST DANGEROUS WHEEL OF CHANCE IS THE STEERING WHEEL

A special dispatch to the New York Times warns that "in the next three weeks, millions of mosquitoes—more than double the normal amount—will be hatched in New Jersey's marshes and wetlands..."
The normal amount of mosquitoes, evidently, is half-millions.

BERRY'S WORLD

What worries me is, if things don't start getting better for McGovern, he may get a tremendous number of sympathy votes!
