Gramps won't play with grandson

By Abigail Van Buren

(© 1972 by Chicago Tribune-N.Y. News Synd., Inc.)

DEAR ABBY: My problem is my father. He's a 53-year-old widower, and very intelligent and self-sufficient. He's been a wonderful father.

I am happily married and have one darling two-year-old son who is my father's only grandchild.

Abby, I love and respect my father, but he has got to be the world's worst grandfather. He tells me he has never cared much for small children. I want so much for my son to know his grandfather and to love him, but if my father sees him for half an hour a week, that's enough for him. Children aren't fooled, Abby, they know when someone likes them.

I have begged my father to play with him, and even to put on an act if necessary, but he says, "Please don't ask the impossible. I just never learned how to play with kids and I can't be a phony."

My husband's father is dead, so my father is the only grandfather my son will ever know, and it hurts me to see his lack of interest.

Isn't my father's attitude immature? YOUNG MOTHER

DEAR YOUNG: Inflexible, yes, but the lack of maturity is on your part for asking your father to put on an act. You're right. Children know when someone likes them. [They also know when someone doesn't.] Perhaps when your son is a little older your father will establish a genuinely good rapport with him. In the meantime, accept the fact that your father doesn't know how to "play" with children, and doesn't want to fake it. And don't hassle him about it, or your son will see even less of Gramps.

DEAR ABBY: A while back a guy I was dating took me to the races. He gave me \$2, so I chose a horse and bet him on the nose. My horse came in and I won \$70. The guy insisted that I give him the whole \$70. I said I would give him half of it.

I know it was his money, but I'm the one who placed the winning bet. He said if I didn't give him the \$70 he wouldn't take me home. He meant it, too. I ended up taking the bus with \$70 in my pocket. Was I right?

NO GAMBLER IN N. Y.

DEAR NO: Yes. You're obviously better at picking horses than people. Stick with whole horses.

DEAR ABBY: Have you or any of your readers ever heard of a floral offering being returned to the sender by the family of the deceased?

Ours was returned to us a few days after the funeral with the explanation that they were keeping only "real" flowers. [Ours were artificial, but they were beautiful.]

NAMELESS AND HURT

DEAR NAMELESS: This is a "first." It's difficult to believe that anyone could be so ignorant and unfeeling as to return any kind of floral offering for any reason.

DEAR ABBY: Please pass this on to the women who are obviously pregnant when their last child is still in diapers. They are frequently asked my surprised friends, "Pregnant again?"

I had five children, very close together, and needless to say I didn't plan it that way, but my friends thoughtlessly asked me, "Pregnant again?"

I'd reply, smilingly, "No. I'm just carrying this for a friend."

Your Horoscope

By Jeane Dixon

SUNDAY, SEPT. 3
Your birthday today: Excitement, progress enter your life early in the year. Adjustments are in order, not difficult to make. Today's natives usually have mystical interests, seldom seen special personal skills.
Aries [March 21-April 19]: Enjoy this reasonably quiet Sunday. Invitations based on your recent approaches to others and eligibility are at hand.
Taurus [April 20-May 20]: Seek the shortest and most pleasant path this Sunday. Romantic and sentimental considerations tend to take your attention.
Gemini [May 21-June 20]: It is all right to scatter your attentions and energies today, but not so much your money. Visit and catch up on community news.
Cancer [June 21-July 22]: Going along with a group has special dividends, relieves you of some personal chores, may bring an introduction important to you.
Leo [July 23-Aug. 22]: Give, if you can afford it and really care. There are likely emotional expressions going on you'd rather keep out of notice.
Virgo [Aug. 23-Sept. 22]: Go along with family, friends for special events, excursions, wherever condi-

tions permit. Get off your regular track for a change.
Libra [Sept. 23-Oct. 22]: Make your appearance promptly for your share of Sunday observances. Make a broad circuit of visits, take in public entertainments.
Scorpio [Oct. 23-Nov. 21]: Where family reunions are in order, help get them together. Time invested in group affairs makes the difference in future ventures.
Sagittarius [Nov. 22-Dec. 21]: Within the bounds of propriety, have a fling this lively Sunday. You are barely past your lowest ebb for business.
Capricorn [Dec. 22-Jan. 19]: Confront rivals and interesting people with your brightest good humor for a lively day of many quirks of circumstance.
Aquarius [Jan. 20-Feb. 18]: Let people be themselves, do the spontaneous thing with them, let nature take its course. Venture into unaccustomed directions.
Pisces [Feb. 19-March 20]: Harmony is your keyword for today. Bring people together, make cheerful ceremonies of everyday amenities. Be yourself.
An extra capful of bath oil or moisturizer in your tub will keep your skin smooth and soft and preserve your tan a little longer.

Any Fabric Rated Right For Fall, Except Stains

COLLEGE STATION—Anything goes in fabrics for fall—except spots and stains.

Removing spots and stains from clothing is a foremost cause of concern for many individuals, according to Mrs. Becky Culp, Texas Agricultural Extension Service clothing specialist.

"Although today's fashion picture calls for interesting combinations of pattern on pattern, textured effects and bold colorations, the presence of a stain that meets the above requirements—and is prominently displayed on a favorite garment—is not the latest vogue," Mrs. Culp observed.

Furthermore, clothing discarded due to improper or inadequate stain removal methods means a mounting expense to consumers—totaling a substantial drain on the clothing dollar.

"Sophisticated fibers, dyes, finishes, and even stains create problems in effectively caring for clothing items," the Texas A&M University specialist noted.

Mrs. Culp recommended prompt action when a garment becomes stained. Aging makes stain removal more difficult and may permanently set the stain.

For drycleanables, take the garment to a reputable cleaner. Identify the stain by location, and if possible, the exact cause of the stain.

For washable items, prompt laundering procedures will remove the majority of most common stains. Stain removal

charts are valuable aids for prompt attention and removal of known stains.

"In caring for washable clothing of family members, the homemaker is often unsure of the nature of a stain. By following a sequence of procedures—beginning with the mildest—stains may be removed before they become permanently set or before the garment is damaged through too harsh treatments," Mrs. Culp explained.

She recommended the following procedures for washable clothing:

1. Begin by soaking the stain in cold water for approximately 20 minutes.

2. Work liquid or dissolved laundry detergent into the stain, allowing to stand 30 minutes. Then rinse. Special instructions may be found on the container.

3. Launder, using bleach and water temperatures suitable for the fabric. Do not use chlorine bleaches on wool, silk, spandex, acetate, delicate fabrics or on any garment with a label warning against its use. Oxygen bleaches are safe for all fabrics and should be used when in doubt. Synthetic fibers, permanent press finishes and non-colorfast dyes require warm, not hot, water temperatures.

"The majority of the most common and troublesome stains can be successfully removed from washable garments by following the above procedures," the specialist maintained.

"Next—if the stain still remains—soak the garment overnight using a laundry

additive designed for presoaking," she added.

"If that is ineffective, launder in the hottest water suitable for the fabric."

Greasy stains, such as paint and asphalt, may be removed by sponging with a safe spot remover such as perchlorethylene or trichlorethane, she noted.

Use removers carefully and follow manufacturer's directions. Always test by first applying to a hidden part of the garment, such as a hem, to determine if the remover damages the fiber or changes the color or appearance of the fabric, Mrs. Culp cautioned.

As a final effort in removing a "mystery" stain, apply liquid bleach—suitable for the fabric and mixed in equal parts with water—to the stain with an eye dropper. Repeat if necessary and launder.

"Some stains are more difficult than others to remove. A procedure may need to be repeated several times if the stain is lightened the first try," the clothing specialist advised.

"Promptness, patience and perseverance are the keys to stain removal."

"If a garment is worth saving, it's also worth a little extra time and effort to follow stain-removal procedures that will remove the stain without permanent damage to the garment."

Washable Wools

Washable wools are being used in the newest lines of fall clothes. If they cost a little more, consider the savings in cleaning bills.

"Sew Fair" Scheduled For Pampa

COLLEGE STATION—Fairs don't always mean ferris wheels and cotton candy.

Sometimes they mean learning how to sew better.

That's just what Sew Fair will show interested viewers when it comes to Pampa Wednesday Sept. 13.

Sew Fair will be held at M.K. Brown Auditorium from 9:30 a.m. to 12:30 p.m. and 2 to 5 p.m. Sponsored by the Texas Agricultural Extension Service, Sew Fair will feature home sewing industry representatives, who will give talks and demonstrations about latest sewing techniques and will explain how to sew with new fabrics currently being marketed.

Program topics will be the designer's twist by Susan Borinski of Belding Corticelli; and pants: fit and fashion by Janet Nolan of Butterick Fashion Marketing Co.

Also featured is sewing modern fabrics by Bonnie Friday of Coats and Clark; the importance of pressing as you sew by Layneigh Chapman of General Electric; fashion tailoring with polyester peltan by Eileen Foley of Pellon; and your wardrobe recycled by Claretta Bostic of American Thread.

The fair will be open to public and no admission will be charged.

Clothing specialists and Gray County home demonstration agents will be available for answering consumers' questions about home sewing.

Old Faithful hasn't been known to miss a performance in 90 years.

TO STUDY — Miss Eva Marie Whiteley, 18, daughter of Mr. and Mrs. T.M. Whiteley, 1610 N. Woman Who Crossed Atlantic Says She Endured Fear And Boredom

By PEACE MOFFAT
AP Newsfeatures Writer

NEW YORK (AP) — On June 12, 1971, Nicolette Milnes Walker climbed into her 30-foot sloop and set sail — alone — from the southwest tip of Wales. On July 26, 45 days and 3,500 miles later, she brought her boat to port in Newport, R.I., and became the first woman to sail nonstop across the Atlantic Ocean.

SOLITARY SAILING — Nicolette Milnes Walker, who sailed across the Atlantic alone in her 30-foot sloop, is shown at left, before leaving from England, coiling rope in the cockpit of her boat, the "Aziz," and at right, making the "Aziz" shipshape on arrival at her American destination, Newport, R.I.

What kind of woman would want to do a thing like that — endure the known physical and the unknown emotional hazards of facing the Atlantic alone on a small boat? And why?

"I really do think the reason I took this trip is that I was darned bored with my job, and I had to have a good reason to hand in my resignation," says Miss Walker, a petite 28-year-old woman, whose blue eyes are flecked with gold. Here to promote the book she wrote about her trip, "When I Put Out to Sea," she went on:

"I had been working in the city, had a lot of evenings at home, and started thinking about this trip. Before I knew it, I was making lists of what was needed and I had the thing organized."

Miss Walker's serious sailing experience had begun the previous year on a trip to the Azores with two friends. Later, at a boat show in London, she began thinking of what kind of sailboat she would need, and within several days had made a definite decision to go.

The fourth daughter of a surgeon, Miss Walker says she always had a need for attention and admits, "this might have been a hang-over."

In addition, Miss Walker says she thinks there is "something in the English character that likes to do things alone — there's not that much scope for adventure on the island."

was light, and to help pass the time "nibbled all day," and worked on the boat. She spent much of her time on deck naked. "The water was often warmer than the air," she explains, "and you could dry off straight away. But I always had on a safety harness to keep from falling overboard. It would have made a funny Playboy photograph."

The noise from the sea and the boat were surprising, Miss Walker says. "There's always a slapping, and with bad weather, the whole boat shakes, and the water goes 'boom'."

Time and space were sometimes distorted, this blonde sailor also reports. "I was always aware of what time it was for navigational purposes," she says, "but I had no sense of time happening — of time passing."

"I also felt I was in a small environment. The world of the Atlantic is quite a small world. There's about a six-mile horizon — with just the sea — blue, green and always a swell. I would look back and not be able to believe I had gone past 2,000 miles of ocean."

There were several severe storms during her trip, but not many times when Miss Walker says she thought she wasn't going to make it. "Those were Blushing Color"

on occasions when I was in bad weather, and felt the boat might not last," she recalls.

After her voyage, Miss Walker, who has recently married, says she has a "lot more confidence and self-awareness. The trip was a bit like going through analysis," she says.

But asked if she would try her

lone passage again, she replies, "No. But it is tempting. I wouldn't have the same motivation, though," she says. "I could always tell myself I had already done it once. And it would be bad to repeat this kind of public adventure."

"Besides — there are so many other things to do."

Opening lead—♥K

By Oswald & James Jacoby

West opened the king of hearts and continued with the ace. South ruffed; led a trump to dummy's ace and played dummy's three of diamonds. East took the trick and led a club. South's king lost to West's ace and a club return left South one trick short.

"Not bad," chortled South. "My preempt shut East and West out of a small slam in hearts."

"Not bad, if you follow the old saying that half a loaf is better than none," said North. "It's too bad you didn't go all the way, make your contract, and have the whole loaf."

North was right. Just a little early planning would have brought home the spade contract.

South couldn't do anything except follow to the first heart. He didn't have to ruff the second one, and if he had just discarded a low diamond everything would have been easy from then on.

West would still be on lead. His best continuation would be a shift to a trump. South would win this in either hand and go after diamonds. Eventually he would set up dummy's last diamond for a club discard, and wouldn't care where the ace of clubs was.

This type play is known by two names. The loser-on-loser and the avoidance play. His diamond was a sure loser and the discard was the play of a diamond loser on a heart loser.

The avoidance part of the play was that South avoided the possibility of East gaining the lead to play a club.

Baggies Invade Men's Fashions

COLLEGE customer can choose—their introduction doesn't necessarily mean other pant styles, such as flares and straight legs, are no longer fashionable," Mrs. Culp pointed out.

Turning to cost factor of the new fashion look, the specialist eyed the consumer role in "absorbing expenses."

"As new fashions are introduced, the consumer absorbs added manufacturing, designing and styling expenses. Baggies are no exception."

"Retail prices average 15 per cent higher for jeans and 20 per cent for slacks. Consumers generally are more willing to pay a little extra for current and new fashions," Mrs. Culp added.

Baggies didn't just happen, the specialist said citing three factors in their creation.

First, pant styling had reached a standstill with the wide-reaching acceptance of the flare.

Second, a nostalgic influence from the 40's and 50's had penetrated other major fashion looks for both men and women, and third, the baggy is a more attractive and becoming fashion look for the majority of people.

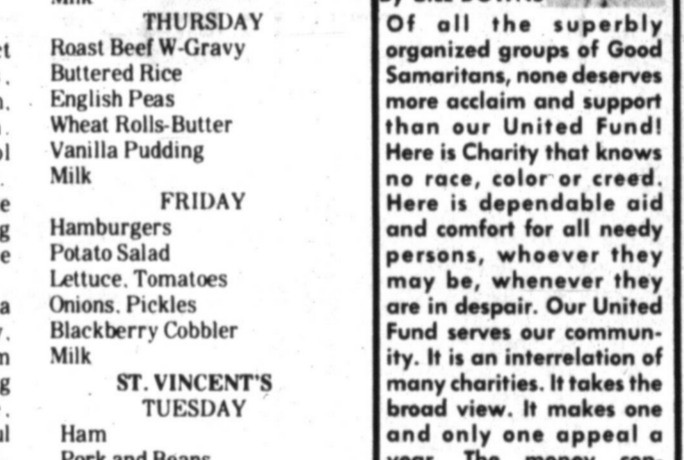

"Major manufacturers, retailers and designers are staking baggies as the look for today's fashion life and significance of baggies," Mrs. Culp predicted.

"One fact is certain—baggies have already made an impact."

Red Cross News

By Libby Shotwell
The Multi Media First Aid Class held August 26 in the Palm Room was not as well attended as we had hoped. However, those who took the class felt that it was a day well spent. The Red Cross furnished coffee and doughnuts for the group and Mr. Louis A. De Masters taught the class of seven in the all day sessions. Those who completed the class were: Billy N. Stovall, John I. Holt Jr., Jack Tompson, from Cabot, Mrs. Jack Duke from Borger, William E. Koonce from Higgins, Texas and Miss Margaret Stovall, Pampa.

Mrs. Ruth Carter will begin another senior life saving class at the Youth Center Pool 10 a.m. - 12 p.m. Those who are interested in taking this class are urged to call our office. The WSI class taught by Anna Lee Barton will begin Oct. 3 at the Youth Center Pool. Prerequisite for the course is that everyone

attending the WSI course must be 17 years of age and has completed his Sr. Life Saving during the past two years.

If you are interested in taking the WSI course, call our office and we will arrange for your attendance. Please be sure that you have a current senior life saving card, or plan to take this course.

There will be a meeting at 10 a.m. Sept. 15 at the Chapter House in Amarillo Sept. 15 to discuss the program FIND. This is sponsored by the Social Security Office and the Red Cross has been asked by our National Red Cross to work with SS in finding persons 60-years-old or older who may need assistance with their food budget. Commodities in our country are available, if you do not have sufficient financial aid for this project.

A fine group of persons interested in water safety and

swim meets drove to Lubbock Saturday 26th to attend a Course in Swim Meets. Dr. Carl Brown, officials and rules chairman was in charge of the sessions, assisted by Dr. Richard Norton, Vice Chairman West Texas AAU, Coach Jim McNally, Lubbock Swim Club, Thurman Brown, President of Pampa Swim Club, and Chaplain Dave Wood, Director Lubbock Swim Team. Diving Procedures, starting Procedures, and Timing Demonstrations by members of the Lubbock Swim Club. Those who attended from Pampa were: Mr. and Mrs. Jerry Carter, Mr. and Mrs. Orin Carter, Mr. and Mrs. Thurman T. Brown, Mrs. Carl Williams, Ruth Steger, and Laquita Carter. Laquita, Mrs. Carl Williams, Mrs. Jerry Carter, and Mrs. Orin Carter are all WSIs for Pampa Swim and Water Safety program.

Our Men In Military

D.D. Robbins, 720 E. Francis, Pampa, continued working and showing his belief in Winston Churchill's statement, "To be a reservist is to be twice a citizen," by re-enlisting in the Naval Reserve.

Robbins serves in the ready Reserve of the U.S. Navy as a Chief Petty Officer in the Engman rating. His civilian employment is with the Pantex Corporation in Amarillo.

Being administered the enlistment oath is nothing new to Robbins. His first entry into the service was in the Reserve Forces of the U.S. Marine Corps during World War II, when he served 23 months in combat in the Pacific area.

At that time he served aboard the battleships Idaho, New Mexico, Mississippi, and Pennsylvania. This includes the battle of Leyte Gulf. He was in Tokyo Bay at the signing of the surrender of the Japanese forces.

During the Korean conflict, he served in the U.S. Coast Guard.

Chief Robbins affiliated with the Naval Reserves in Amarillo in August, 1966. This enlistment will complete 18 years active duty and Reserve duty combined.

The Naval Reserve? Chief Robbins states he "Feels that the Reserves is the best way possible to maintain our first line of defense and military strength and still be able to work at a civilian occupation. It is an honor and privilege to serve in the Reserve Forces of the United States."

The unit he is affiliated with is the surface division at the Naval Reserve Center 2309 Line Avenue, Amarillo.

A four-inch-square bar of copper can be drawn into a thread 20 million times the length of the ingot.

CLEANUP DETAIL?—During the warm weather, numbers of city residents have flocked to the parks to have a picnic or just enjoy the cool shade. And not too far behind the people have come the birds—probably to pick up the food tidbits and maybe even some of the trash left behind by persons using the park facilities. Unlike the birds in Alfred Hitchcock's movie, this group seems content just to feed upon the food in the park. (Photo by John Ebling)

Worry Clinic

By George W. Crane Ph.D., M.D.

Jennie is growing more forgetful, despite the medical and psychological therapy outlined below. But it keeps her on her feet and coming to the table under her own power. Nobody in her family ever passed 91, so something is helping her!

CASE U-578 Jennie Crane, age 94 is my mother. She had read through the entire Bible from Genesis to Revelation on 72 occasions, up to 25 years ago.

Now she "spot reads" it for special passages that are unusually appealing to her. As you would surmise, she has also been a faithful church attendant.

And taught me to read the Bible, starting when I was 7 years old. By the time I was through high school, I had completed it 8 times.

General MacArthur had finished it 6 times before he graduated with top honors at West Point, for it is the ideal source of English grammar, vocabulary and religious history.

When my wife and I are down at our Indiana farm, we always drive to the village to pick up my mother on Sunday morning and take her both to 9:30 Sunday School as well as the 10:45 church services.

But Dr. Crane, some friends have urged, "on blizzard Sundays why don't you leave her at home?"

For she can hear more inspiring sermons from the TV pastors, who are usually toptotch brators?

But it is wiser to let your aged relatives get back into their familiar church pews!

For there they also meet neighbors of their own age and thus revive emotions that may have been dormant for 50 years.

Remember, emotional and spiritual tonics actually banish some of the typical mental fog

or woozy thinking that besets oldsters.

For hardening of their arteries in the brain, plus the typical secondary anemia that attacks most people after middle age, will thus reduce the nourishment of the brain cells. That's why old folks are so forgetful of current events and can't recall names or the time of day.

This mental fog is further increased by their detachment from life, as due to poor eyesight, defective hearing and lack of reading the newspaper or watching TV.

IRS Answers Questions

QUESTION: Do you have a booklet that tells landlords what information they must include in a notice to a tenant of a rent increase?

ANSWER: Yes. IRS Publication S-3019, "Rent Guidelines," and the supplement to this booklet, Publication S-3044, as well as Publication S-3026, "Rent Violations," explain in uncomplicated terms the rules for making permissible rent increases, including what information a landlord must include in a tenant's notice of rent increase. For your free copy, write the Internal Revenue district office nearest you.

QUESTION: I own a Category II firm and am required to file quarterly profit margin reports with the Price Commission. I am worried that my profit margin is approaching the base period level. Can I file more frequent profit margin reports in order to avoid an inadvertent violation?

ANSWER: Yes. A businessman may choose or be required to make more frequent reports if he has increased prices and his anticipated profit margin is close to the base period level or if his volume is exceeding his forecast.
