Good Evening

O mischief, thou art swift to enter in the thoughts of desperate men.—Shakespeare.

REDS ADMIT LENINGRAD IN 'DREAD DANGER'

Pampa Hospital To Reopen In October

Pampa will have another hospital about October with the opening of the Pampa hospital by George Tiffany, former technician at Worley hospital here who will be manager and technician at the hospital.

The new hospital will be located in the building on East Kingsmill avenue formerly the Pampa-Jarratt hospital, which closed on January 1 of this year. The building is being completely remodeled at a cost of about \$8,000, according to Mr. Tiffany. New plumbing and new wiring throughout the building is now being installed.

New operating room, X-ray and other equipment will be installed.

The hospital will be operated as a general hospital with an open staff, Mr. Tiffany said. It will have a capacity of between 25 and 30 beds with two wards, one for men and one for women.

Mr. Tiffany has been a resident of Pampa for six months, coming here from Northwest Texas hospital in Amarillo where he had been technician for five years. He graduated from Amarillo college and from Gradwohl School Laboratory in St. Louis.

The hospital staff has not been named.

State Officials To Install New Jaycees Tuesday

New officers and directors of the Pampa Junior Chamber of Commerce will be installed at a banquet of the Jaycees to be held on Tuesday night at the Schnelder hotel.

The installing officer will be Fred Morgan, Gopur Christ, state president, the principal speaker, Ray Christopher of Brownsville, national regional vice president, and Frank Smith, second vice president, J. B. Altman, secretary.

Directors: E. L. Henderson, J. G. Teeters, Bob Miller, J. W. C. Tooley, Finis Stillwell, Sug Cobb, I. H. Johnson, Smith, Kelley, and Altman.

Alternates: Steve Matthews, Dr. Adrian Cowdy, Charles Gunn, Greeley Warner, and Vernon Hall.

Pampa Rainfall To Date 22 Inches

It's "2" all the way now on Pampa rainfall.

For what is believed to be the first time in two years, the annual precipitation has a uniform measurement, four 2's, or 22 inches.

Adding to the 73-inch rainfall recorded early yesterday morning was an additional 45-inch last night, making the day's total 1.18 inches.

Rainfall was much heavier in downtown Pampa than at the U. S. Weather Bureau station, east of the city.

Considerable lightning accompanied the shower, causing electric lights over town to go off momentarily.

No Change Reported In Corpus Strike

CORPUS CHRISTI, Aug. 21 (AP)—A strike of more than 300 men in building trades unions against contractors on 17 jobs here, involving \$1,000,000 in construction, remained unchanged today after two conferences of union leaders and representatives of the contractors.

The strike is now in its 11th day. The men are seeking recognition of the AFL truck drivers union and an exclusive closed shop agreement. E. B. Jackson, president of the south Texas branch of the Associated General Contractors, said demands presented last night were impossible of fulfillment.

Luck Was With Him

TEMPLE, Aug. 21 (AP)—Two cars rolled over and over down a hillside near West on U. S. Highway 81.

From the tangled wreckage and without a scratch stepped Hilary Lenertz of Austin, only occupant of the cars.

The rear car, towed by the first, had gotten out of control and pulled both over the brink.

I HEARD . . .

That Miss Berge Goad of Panhandle ordered the Pampa News as a birthday present for her brother, Everett Goad of Wheeler. The paper was started today and Many Happy Returns, Mr. Goad.

The rear car, towed by the first, had gotten out of control and pulled both over the brink.

Dance at McClellan Lake Friday night. 85c. tax included. Music by Texas Swingsters.

Transportation Strike Still Grips Detroit

(By The Associated Press)

Detroit today remained in the grip of a transportation strike brought on by a jurisdictional dispute between rival AFL and CIO unions.

At the same time the Kearny, N. J., shipyard strike continued in full effect, with the next move apparently up to the White House.

Mayor Edward J. Jeffries of Detroit called for further conferences today with leaders of the two transit unions in an effort to restore service on municipally operated street car and bus lines used by hundreds of thousands of defense workers and office employees.

Spokesmen for the Amalgamated Association of Street Railway and Motor Coach Operators (AFL) which called the strike spoke of the possibility of sympathy strikes by union members in other city departments.

The AFL organization demands the right to act as sole bargaining agent for employees of the department of street railways. A CIO union, the State, County and Municipal Workers of America, has contested the demand. Mayor Jeffries has taken the position that the AFL is in effect demanding a closed shop, and threatened to "call upon the might of government" to end the strike.

The AFL organization demands the right to act as sole bargaining agent for employees of the department of street railways. A CIO union, the State, County and Municipal Workers of America, has contested the demand. Mayor Jeffries has taken the position that the AFL is in effect demanding a closed shop, and threatened to "call upon the might of government" to end the strike.

Detroiters who drove, hitchhiked or taxied to and from work yesterday were prepared for the same routine again.

The strike at the Kearny, N. J., yards of the Federal Shipbuilding and Dry Dock company has tied up the past two weeks on \$493,000,000 worth of defense orders, including warships for the navy. The CIO Industrial Union of Marine and Shipbuilding Workers is demanding that the company accept a recent recommendation of the national mediation board.

L. H. Korndorff, company president, rejected the plan, contending it would amount to a closed shop. He offered to turn the plant over to the navy for operation—an offer upon which the government has not acted.

President Roosevelt has written Korndorff and John Green, president of the union, asking them to put the importance of national defense above their differences, and reopen the yard. Green and Korndorff conferred yesterday but reached no agreement.

Aircraft Carrier Undergoing Repairs

NEW YORK, Aug. 21 (AP)—The British Press service announces that the famous battle-scarred aircraft carrier, *Illustrious*, is in an American shipyard undergoing repairs and that Capt. Lord Louis Mountbatten, cousin of King George VI, who arrived by Clipper Tuesday, would command the ship and supervise repairs.

The announcement, authorized by the British ministry of information in London, did not disclose the exact whereabouts of the 23,000-ton vessel.

British admiralty reports published June 18 said the mighty vessel, a year old and with a speed of more than 30 knots, was almost destroyed in Axis plane attacks Jan. 10 near Sicily and again at Malta, where she took refuge.

Americans Facing Difficult Times In Occupied China

SHANGHAI, Aug. 21 (AP)—An anti-American campaign, purported to be inspired and directed by Japanese military authorities, appeared today to be growing throughout occupied China as a result of the recent United States freezing of assets.

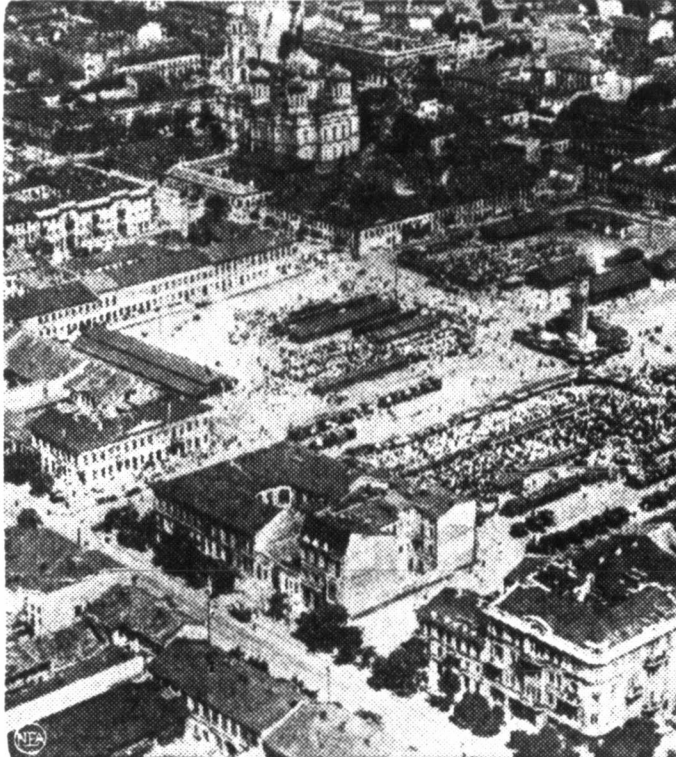

Reports from numerous points in central and south China indicate that more than 1,700 Americans are facing increasingly difficult living conditions because of restrictions imposed by the military. British citizens also were affected in some areas, but not as badly as Americans.

One Swedish correspondent for American and British newspapers has been expelled from Hankow and two British correspondents have been told to leave. All Anglo-American press activities were halted last night by the Japanese military at Hankow.

Chamber of Commerce Manager H. V. Hamilton is guarding Sadie carefully.

"I plan to use her," he explained, "as a living inducement for other West Texans to move to East Texas."

ODESSA REPORTED AFLAME

Odessa, southern Soviet metropolis on the Black Sea, was reported in flames today by the Germans. The city's modern buildings and great square are shown above.

British Invasion Of Continent Demanded

LONDON, Aug. 21 (AP)—Unofficial English, Polish and Norwegian strategists raised anew today their cries for a British invasion of the continent as the only way to defeat Germany.

British military leaders were called upon for all-out war against the Nazis. Current RAF bombings of Germany and occupied territories were deemed insufficient by these sources.

Frank Owen, editor of Minister of Supply *Lord Beaverbrook's Evening Standard*, demanded "a second front and not only in the air" in a signed editorial. Owen suggested a British offensive against Italy, long favored by some military sources as the spot where the Axis could be hit hardest.

Many Polish and Norwegian military men have urged the British to attempt landings at a number of points along the European coastline in an effort to find the weakest point in German defenses.

Once a weak spot were found, these men believe, enough British and allied forces could be landed to overcome local resistance to dig in and open a new front. Most of these men believe RAF bombings have smashed German communications and therefore the Germans would find it difficult to concentrate enough troops to counter a British invasion at any one point.

Patriotic Quality Of Parade Recognized By March Of Time

Patriotic quality of the Parade of All States and Nations, at the Top O' Texas Fols, held here last June, gained national recognition today through the March of Time and was deemed good enough to be included in their latest film, "Thumbs Up." A close-up of the side of the float appears in the film.

Scenes from various parts of the state, connected with defense, are shown. Individual to whom the film devotes the most time is Amon Carter, publisher of the Fort Worth *Star-Telegram*.

Oil wells near Pampa appear in the picture, as does a pump jack on which is seen the word "Cabot." There is a brief shot of the U. S. helium plant at Amarillo.

The idea of the Fiesta parade was first suggested by Jimmie Dodge, at that time president of the Pampa Jaycees. In the parade were 25 floats built by the state clubs and the Jaycees. Paper decorations on the floats were made by the Jaycees and the clubs paid for the cost.

Finis Stillwell made the floats in the parade.

Reich Closes Cuban Consuls In Retaliation

BERLIN, Aug. 21 (AP)—The German government announced today it had ordered closing of Cuban consulates in the Reich, effective Sept. 15.

(The announcement followed closely the action of the Italian government in closing Cuban consulates in Italy in retaliation for the expulsion of the Italian consul general from Cuba.)

'We'll Defend Our Ships,' Elliott Says

LONDON, Aug. 21 (AP)—Capt. Elliott Roosevelt, son of President Roosevelt, said in an interview today that if the United States were to enter the war it might not be "determined by us but by some other people."

"One of our ships might be fired on," Roosevelt, an officer in the air corps, commented. "We are going to defend our ships and our men."

Yeah? We Bet That Dog Was Kidnaped!

PALESTINE, Aug. 21 (AP)—Sadie, a West Texas prairie dog, scampered about her new home at the Palestine Chamber of Commerce today.

No one knows how Sadie reached far-off Palestine. Railroad men at nearby yards theorize she hopped off a through-freight.

Yet without, she is a lady. Primly she scampers about the lawn. Fearfully she scuttles under the Chamber of Commerce bungalow at an untoward glance.

Chamber of Commerce Manager H. V. Hamilton is guarding Sadie carefully.

"I plan to use her," he explained, "as a living inducement for other West Texans to move to East Texas."

'Come On, Neighbor, Let's Have Fun,' Title Of Peppy Picnic Song

Sheriff Hurt In Fight At Abilene Jail

ABILENE, Aug. 21 (AP)—Attempt of three prisoners in the Taylor county jail to escape was thwarted late yesterday after a running fist-and-club fight in which Sheriff Sid McAdams was injured seriously and Jailer Jess Edwards and the prisoners were beaten up.

McAdams suffered head wounds, a broken rib, a broken hand and a slight concussion. Sixty-seven stitches were necessary to close his wounds. Edwards suffered a broken rib and minor cuts and the prisoners were less seriously hurt.

The prisoners were Alfred McLaughlin and Doyle Morgan, McLaughlin and Wolfe are Choctaw Indians, members of company C, 180th Infantry of the 45th division. They have been in jail more than a month under charges of attacking a 17-year-old Abilene girl.

Wolfe was charged with rape and McLaughlin with accessory to rape in connection with an attack upon a 17-year-old Abilene girl. Morgan was held on an auto theft charge.

The break was attempted when Edwards went to a cell to empty a trash can. The men attacked him when he unlocked the door, and sought to lock him in a bathroom. His shouts brought McAdams and other officers. McLaughlin, called the ringleader, took a club from the sheriff and beat him on the head. While Edwards and Leo Standard, a jailer, battled Wolfe from the second floor to the stair entrance, McAdams was locked in the cell with McLaughlin and other prisoners. He sank into semi-consciousness after being rescued but later was revived.

President Confers With Kearny Heads

(By The Associated Press)

In an eleven-hour attempt to halt the "dadaize" at the Kearny, N. J., Federal Shipbuilding yard, President Roosevelt conferred today with L. W. Korndorff, company president, and Myron C. Taylor, former board chairman of the United States Steel corporation, to sponsor the Kearny company is a subsidiary.

Following their White House visit, Taylor and Korndorff were to confer with Secretary of Navy Knox, Sidney Hillman, associate director of OPM, and William H. Davis, chairman of the defense mediation board.

There were indications, meanwhile, that a development might be expected soon in the city-wide transportation strike tie-up in Detroit. Shortly before resumption of operations aimed at settlement of the union jurisdictional dispute there, Thomas J. Donahue, Michigan labor mediation board chairman, declared, "There are signs of a break."

26 American Consular Officials Leave Japan

TOKYO, Aug. 21 (AP)—The Nyk line apparently under foreign office pressure—suddenly announced tonight it had reservations for 26 United States embassy and consular officials aboard the liner *Tatsuta Maru*, scheduled to sail Aug. 28 for Shanghai.

At Shanghai, most of the Americans expected to obtain trans-Pacific passage home aboard a United States transport.

Because of the unfavorable "hoax" publicity arising from the inability of United States nationals to obtain passage from Japan, the foreign office was believed to have exerted pressure.

Nyk line officials then turned up accommodations for nine naval, two marine and four army officers, all Japanese-language students who recently have been ordered to other stations; and a group of consular employees.

Bureau Of Mines Estimate Higher

WASHINGTON, Aug. 21. (AP)—The bureau of mines today forecast the September market demand for domestic crude oil at 118,800,000 barrels, or 3,960,000 barrels daily. This was 20,000 barrels higher than the estimated daily demand for August and 7 per cent above the actual demand in September, 1940. The bureau estimated September crude exports at 4,000,000 barrels, against actual exports of 4,200,000 in September last year. Domestic demand for motor fuel next month was estimated at 57,500,000 barrels, an increase of 10 per cent over the actual demand in the same month of 1940.

Medals Will Be Given In Roller Skating Tourney

A city-wide roller skating tournament for boys and girls of Pampa will be held in the 500 block on West Kingsmill avenue, sponsored by the Pampa Recreation council. Gold and bronze medals will be awarded winners in various contests. Divisions will be as follows: junior and senior boys and girls, 12 years old and under; senior boys and girls, 13 years and older. Judges will be Dr. H. L. Wilder and C. E. McGrew.

It is regarded as improper for a mother-in-law to speak to her daughter's husband among some Indian tribes.

Childress Rainfall Totals 2.60 Inches

(By The Associated Press) Heavy to light showers brought relief from the heat today to a part of Texas following temperatures that ranged upward to Laredo's 107 yesterday.

The Dallas weather bureau reported heavy to excessive precipitations during the past 24 hours in West Texas, including 2.60 inches at Childress, 2.05 at Memphis, 1.52 at Miami, 1.38 at Quanah.

Showers fell at Fort Worth and Dallas, with promise of continuing, with resultant drops in temperature. At Vernon, lightning set fire to the home of Mayor J. V. Owens in an early morning storm in which 1.68 inches of rain fell. A heavy general rain over the entire area, with a pronounced drop from yesterday's 99-degree temperature, was falling. The forecast for East and West Texas called for more showers.

Instructor, Student Critically Injured

DALLAS, Aug. 21 (AP)—Agents of the Civil Aeronautic administration today investigated an airplane crash near here yesterday in which an instructor of the Dallas Aviation school was injured, perhaps fatally, and a student flier was less seriously hurt.

The instructor, Wallace Hillier, 28, of Muskogee, was in a critical condition at Parkland hospital. He was unconscious throughout the morning. His face was badly lacerated and he suffered a fractured leg and severe shock. Jarvis Peddicord, 21, of Hobart, Ind., the student, was reported resting well at Baylor hospital.

Three First Aid Courses Planned For This Fall

Three courses in first aid—standard, advanced, and lay instructor's—will be conducted by the American Red Cross in Pampa this fall, Mrs. J. B. White, executive secretary of the local chapter, announced today. The first aid classes are a part of the program of the national organization in training civilians, both men and women, to cope with accidents and emergencies.

Walter Sandy, who is a representative of the first aid, water safety, and accident division of the mid-western area office of the Red Cross in St. Louis, was in Pampa last week to make arrangements for a class for training lay instructors in first aid some time during the latter part of September or early in October. For this course, an instructor will be sent out from national Red Cross headquarters. Only persons who have completed the Red Cross standard course in first aid and have taken the advanced or "refresher" course within the past year will be eligible to enroll for this class.

Forty-five persons in Pampa are now eligible to take the instructor's course, but since no other opportunity will be offered soon, Red Cross officials decided to conduct additional classes in both standard and advanced first aid before starting the instructor's course. Persons interested in taking any of these courses are asked to notify Mrs. White at the Red Cross office, telephone 960, so that definite plans can be made. If there is sufficient interest, the standard course will be started within the next week or two, days so that there will be time enough to complete it and the advanced course too, before the instructor's course is offered.

Any person who has reached the age of 17 is eligible to enroll for the standard course, which offers training in immediate care of the injured before the arrival of a physician. It includes control of bleeding, artificial respiration, handling and transportation of injured persons, prevention of infection, relieving pain, and accident prevention. The minimum time required for this course is 20 hours. The hour and frequency of meeting will be determined by those who enroll for the course. Mrs. White stated. A certificate is awarded upon satisfactory completion of the course.

With thousands of accidents occurring daily on highways, in homes, and in industrial plants; with fires, explosions, and other forms of destruction, either accidental or planned, on the increase with the speeding up of defense production and with even the possibility of bombings—it is becoming increasingly important that large numbers of men and women have at least some basic training in first aid.

All men in the United States army are given first aid training by Red Cross instructors. The Red Cross standard course is required for all members of the home defense guard, the highway patrol, and the C.C.C. In some states it is mandatory for school bus drivers. Most industrial plants require their employees to have some training in first aid. In Pampa and surrounding area 200 persons have completed the Red Cross standard first aid course and are now eligible to enroll for the advanced course which will be started soon.

Consisting chiefly of drill and review of practical phases of first aid, the advanced course requires only 10 hours of class work. All persons desiring to enroll in the lay instructor's course will be required to have taken this "refresher" course sometime within the past year.

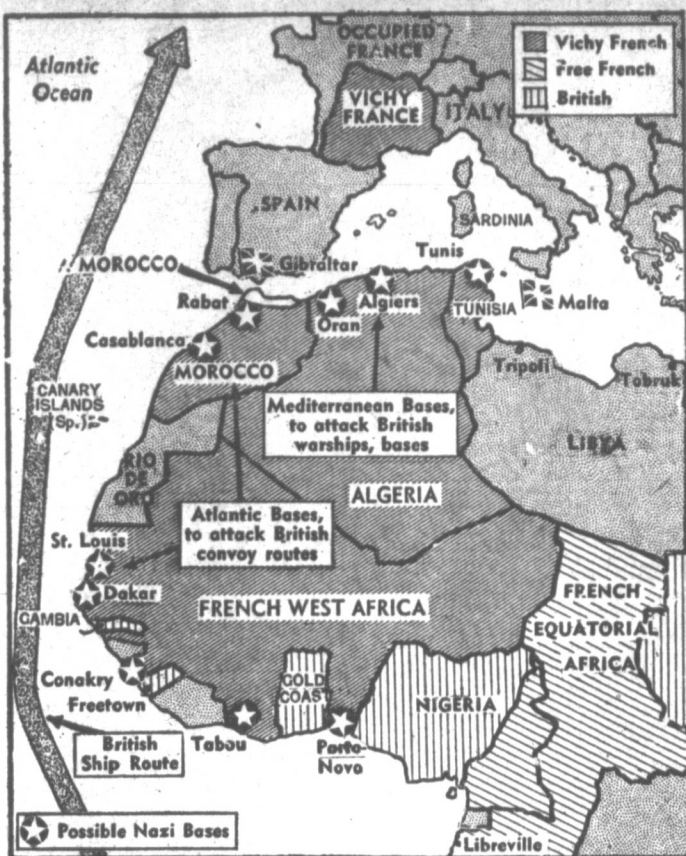

Four Pampanas are qualified Red Cross first aid instructors: Bert Arney, Tom Eckert, Homer Cone, and Mrs. C. G. Gardner. J. H. Dunbar of LeFors is also a qualified instructor. Teachers for the standard and advanced classes will be chosen from this group. Dr. R. M. Bellamy, local Red Cross medical adviser, will also assist with the classes. Any recognized physician is qualified to give Red Cross first aid instruction.

For the lay instructor's course, which will be offered in September or during October, an instructor will be sent out from the national Red Cross headquarters. This course, requiring a minimum of 30 hours, is designed particularly for the training of lay persons as instructors in first aid. Practice teaching is a definite part of the work. Several refineries, carbon black plants, machine shops, etc., in this area have expressed a desire to have at least one qualified first aid instructor among their employes. Such training is also valuable for leaders of Girl and Boy Scouts.

Ford Trial Date Set
AUSTIN, Aug. 21 (AP)—Trial of the state's anti-trust suit against the Ford Motor Company will begin in District Court here Dec. 8. The setting was made by Judge Roy C. Archer on agreement of opposing counsel.

About 2 per cent of the population of the United States is interested in philately, or the collection of stamps.

New Naval Bases for the Nazis?

Nazi naval bases in Africa may result from new "collaboration" of Vichy France with Germany following conferences of Marshal Petain and his war aides. Map shows possible locations of these bases, within striking range of British shipping lanes.

Senator Demands Gasoline Shortage Investigation

WASHINGTON, Aug. 21 (AP)—A New England senator today urged a speedy congressional investigation to determine whether the East actually faces a gasoline shortage, as the defense petroleum office sharply reasserts it is the case.

"I want to learn if there is an actual shortage or if we are being pushed around for psychological reasons," Senator Maloney (D-Conn.) told reporters, saying he would ask the senate commerce committee to act immediately on his resolution for an inquiry.

Ralph K. Davies, acting petroleum coordinator, announced yesterday that the long-predicted shortage has developed, that usable reserve stocks had dwindled to an available storage sufficient for only 10 days, and that the situation was "perilous."

Davies lashed out at the prophets he said had "arisen to proclaim that there is no danger" and "the warnings of an impending shortage phony." He spoke in the absence of Secretary of Interior Ickes, the petroleum coordinator who is vacationing in the West.

He cited figures to show that Eastern gasoline stocks dropped 893,000 barrels last week, an increasing effect of the transfer of American oil tankers to British service were felt.

Government petroleum officials would not say what gasoline supply, in terms of days, was normal, due to fast shifts in demand and supply, but they told newspapermen "it certainly is more than 10 days."

Be A Patriotic Good Neighbor And Attend All-States Victory Picnic

It's likely that you will want to attend the All-States Victory Picnic on Labor Day because it will give us all another opportunity to exult in and enjoy the freedom, neighborliness, and unity which make America the land we love and the land we will defend to the death. Just fill out the blank below signifying that you will attend the picnic and will bring a basket lunch for you and your family to Central Park in Pampa on Labor Day, when the entire Top O' Texas will enjoy democracy and friendly neighborliness. Bring, mail or send the blank to The News.

Oklahoman Killed At New Air Base

WINDSOR LOCKS, Conn., Aug. 21 (AP)—Second Lieutenant Eugene M. Bradley, 24, of Antlers, Okla., was killed today in the first airplane crash at the new army air base here. Military officials said he failed to come out of a routine dive. Bradley was a member of the 64th Flying Squadron of the 87th Pursuit Group which arrived here Monday from Mitchell field. He received his wings at Kelly field last March 29.

British Air Raids Heavier Than Nazis, Says High Authority

LONDON, Aug. 21 (AP)—British air raids during the last eight weeks of heavy attack have placed far more RAF bombers over German in a single night than the Germans put over Britain nightly in the heaviest assaults of last autumn and winter, a high British authority said today.

Furthermore, this authority promised even more intensive raids as the winter progresses this year, and he asserted that the German people "are catching it now."

Two big waves of the British air force roared over the channel and France in daylight sweeps today in a continuation of the British offensive.

Observers along the southeast coast saw a large force of bombers, heavily escorted by fighters, heading across the channel early in the afternoon shortly after a previous attacking force had returned.

The second sweep was toward the area of Boulogne and the bombers of the first returned from the direction of Calais. Shipping as well as shore objectives were the targets.

Mainly About People

Mr. and Mrs. R. E. Gatlin and son, John David, are vacationing in New Mexico.

Jimmy Paul Gatlin is spending a month in Tucson, Arizona.

Miss Jeanette Cole will arrive tonight from Texas State College for Women at Denton to spend three weeks with her mother, Mrs. A. Cole, before returning to T. S. C. W. on September 14 for her senior year.

Mrs. John W. Blackwell of Long Beach, California, left today after visiting with her parents, Mr. and Mrs. E. M. Donnell, west of the city.

Rev. and Mrs. W. B. Taylor and daughter, Henrydean, have returned to their home in Phoenix, Arizona, after visiting in the home of Mr. and Mrs. H. A. Overall. The Taylors have just completed a tour of the southwestern states.

Mr. and Mrs. Luther Beeson have returned from a vacation spent in Arkansas and Missouri. They attended an old soldiers reunion at Beaverville, Missouri, which has been held 61 years.

Miss Thelma Phillips of Prescott, Arkansas, left Wednesday morning after visiting in the home of Mr. and Mrs. J. O. Phillips for the past two weeks. She will visit with her mother, Claude Phillips, in Great Bend, Kansas.

The girls glee club of the I. O. F. home at Corsicana sang for the Pampa Rotarians at the club's regular weekly luncheon at noon yesterday. Attendance at the luncheon was 34. Visiting Rotarians were C. H. Everett, Ardmore, Okla.; Ivan Conklin, Canadian; C. S. Edmondson, Port Worth; J. R. Phillips, Borer. Other guests were W. M. Gray, Amarillo, and Clifford Draly of Pampa.

Regular semi-weekly drill of Company D, Texas Defense Guard, will be held at 7 o'clock tonight at 706 W. Foster.

Deputy Sheriff and Mrs. Dan Cambern, and Mr. and Mrs. Dane Cambern have returned from a nine-days vacation trip to Salt Lake City, Yellowstone National park, Idaho, and Nevada.

Mr. and Mrs. H. L. Wilder, Jr., and daughter Julia Ethel left today to return to their home in Rockmart, Ga., following a two-weeks visit here with Mr. Wilder's parents, Dr. and Mrs. H. L. Wilder.

A wheat improvement meeting, conducted by County Farm Agent Ralph R. Thomas, was held this morning in the district court room. Paul, Jr., and Richard Crossman are visiting in the home of their aunt and uncle, Mr. and Mrs. H. E. Saunders and family in Oklahoma City.

Jones Ready To Lend To Russians

WASHINGTON, Aug. 21 (AP)—When Russia needs money for her war effort against Germany, the Soviets will find Jesse Jones ready to help out with an RFC loan.

The federal loan administrator revealed at his press conference yesterday that he had already discussed the possibility of a loan with the Russian ambassador, Constantin Oumansky, although matters had not yet reached the formal application stage.

Jones would not indicate the probable size of the loan, but said he "couldn't imagine it would be as big" as the \$1,000,000,000 mentioned in rumors.

As for security, he remarked: "I guess we would have to take their promissory note."

He told the press conference that he believed aid to Russia would take the form of a cash loan rather than a lease-lend allocation.

Cotton, peanut, sweet potato, and tobacco plants grow side by side in the garden of Charles Emerson, Milford, N. H.

South of the East Indies the land that sent its men to fight in the battles of Africa, Syria and Britain now looks to its own defense. Australia, one of the British Empire's biggest producers of food, munition and aircraft, has called its parliament to emergency session as the Japanese threat grows.

Game Officials Disappointed At Short Mourning Dove Season

AUSTIN, Aug 21 (AP)—State game department officials today expressed satisfaction at the 10-day white wing dove season decreed by federal officials but were disappointed at the shortened season on mourning doves. Secretary Will J. Tucker of the game commission said the state law on white wing doves conflicted sharply with federal regulations and expressed the opinion that Texas hunters would derive little benefit from the federal open season on white wing doves unless the state law was liberalized to conform with the federal law. The season on white wing doves was set between Sept. 16 and Sept. 25 and if the Texas legislature is called into special session before that date, Governor Coke Stevenson will be asked to submit the subject of conformity of vital hunting laws, Tucker said. The shortened season on mourning doves, of which there is a plentiful supply in Texas, will not work a hardship on hunters in the northern zone according to game department officials, who say that recent surveys show that after the first three weeks of the mourning dove

where there are great concentrations of snow geese and where, upon occasions, heavy concentrations of these snow geese have damaged muskrat marshes.

SEAPORT

(Continued from Page 1)
 firmed reports circulated in European listing posts that the Russians had opened or blown up the great \$100,000,000 Dnieper river dam, near Dnieperopetrovsk, in an attempt to stem the Nazi onslaught. Built by American engineers, the dam is 200 feet high and was the world's largest hydro-electric plant before the construction of Boulder dam. German war correspondents said the Russians were establishing a shaky defense line along the Dnieper between Dnieperopetrovsk and Kherson, which lies 20 miles above the mouth of the Dnieper. In the critical battle of Leningrad, Soviet Marshal Klementi Voroshilov admitted that the Germans were attacking the city's approaches and dramatically called on the inhabitants to fight to the death. "Stand firm to the end," he exhorted. "Death to the bloody Fascist German robbers!" Reports from Helsinki said Finnish columns fighting on the Karelian Isthmus had captured the towns of Vuoksenhanta and Raisala, 65 miles from Leningrad. The capital of old imperial Russia thus was under assault from three directions. Besides claiming the capture of three key cities in the main Leningrad defense ring, Hitler's high command announced the "crushing defeat" and partial destruction of 25 Russian divisions—about 375,000 troops—as well as two air-borne brigades in a great battle around Gornel, on the central front, midway between Smolensk and Kiev. The Germans said Red army prisoners taken in the battle, originally listed at 78,000, had mounted to 84,000. The mention of air-borne troops indicated that the battle was the same one previously mentioned by the Soviet army newspaper, Red Star, which said Russian counter-attacks supported by aerial troops had blasted the Germans out of three defense lines and re-captured five towns in a 3-day conflict. Terns, or sea swallows, are said to have a greater "homing sense" than pigeons.

... oh, what a pal was Polly!

Guess the weather had my mind muddled because if it hadn't been for Polly, my parrot, I'd never have signed up that big business tycoon.

Our discussion grew more heated as the afternoon turned hotter and hotter. When I was despairing of it all, Polly upped and gave this life-saving call, "Grand-tastin'—grand beer—Grand Prize."

Well, you should have seen the smile that spread over this business man's face. "Sure," said he, "any man with a parrot so well trained, deserves our order."

Now, if you find the heat hard to bear, get next to a chilled glassful of grand-tastin' Grand Prize. Your thirst will vanish with your first sip . . . for here is beer truly a triumph of the brewmaster's craft. Grand Prize—sparkling with grand-tastin' flavor—comes in Keglined cans as well as in bottles.

GRAND PRIZE IS GRAND-TASTIN'

Today's War Analysis

By DEWITT MACKENZIE

Those trying to figure out the probable duration of the European war (and who hasn't) must find special interest in President Roosevelt's assertion that the conflict will continue through 1943, if necessary, and that Britain and the United States will make a survey of needs and production through that year.

F. D. R., of course, wasn't in any way forecasting the length of the war. However, we are justified in concluding that he and British Premier Churchill believe it may be a protracted one, for if it goes through 1943 it will be more than four years old—and that's a mighty long time when you're talking about mechanized hell.

There's a far reach, though, between four years and the estimate of Virginia Gayda, authoritative "Pampa" editor who frequently voices Mussolini's views. In discussing the Roosevelt-Churchill war-aim of "final destruction of Nazi tyranny," Signor Gayda declares that "if the proposal were maintained the World War would have to last ten years or longer."

It's humanly possible that the war might run for ten years—or for forty. But that's not the probability, according to the figures in my books. War isn't merely a question of marching men who are willing to die and big guns. When the smoke of battle begins to lift, the economic fellows get their innings in the matter of the resources of the belligerents.

Signor Gayda is a keen analyst—when he wants to be—and I'd bet all of a silver sixpence that he believes in his heart the axis isn't likely to win at all, unless it's able to break through the British blockade to fresh supplies—supplies not only for itself but for the whole of Europe. I've raised that point in this column numerous times before, but it's worth repeating because Britain is placing its main reliance on that blockade to win the war.

Europe is far from self-contained. It can't carry on indefinitely without access to outside supplies. It can not even feed itself and wage war at the same time.

Despite Herr Hitler's best efforts to crack the blockade—and he came close to success at one time early this year—the continent has been slipping further into the slough. Quite apart from war essentials such as oil, there is actual hunger in many countries.

The chief leak in the British blockade was via Siberia and across Russia to Germany. The Soviet Union also provided Hitler with considerable amounts of wheat, oil and other necessities.

With the invasion of Russia, however, the fuhrer, in effect, fortified the British blockade at its weakest point, and at the same time erected a further barrier against himself by cutting off Soviet supplies. He undoubtedly hoped to secure necessities by lightning conquest but expectations of speedy re-

NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or that your blood is full of poisons.

Don't wait! Ask your druggist for Doan's pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

leif have receded because of the fierce Bolshevik resistance.

Hitler may still sweep through the rich Ukraine and on into the oil fields of the Caucasus. His war machine is forging ahead, as is recorded in today's reports from the Russian theater. Still, instead of a quick victory and filled storehouses, he appeared to be headed for a war of attrition which will further deplete his present supplies.

Flashes Of Life

(By The Associated Press)

MAYSVILLE, Ky.—Patrolman J. F. Brodt, Jr., flagged a city bus, told Driver Roy Mitchell that Mrs. Mitchell just had given birth to a son.

The patrolman ordered Mitchell to the hospital where he could greet the new arrival and said: "I'll take your place at the wheel."

Brodt made one complete trip over the bus route before being relieved by a regular driver.

WINSTON-SALEM, N. C.—A convict at a farm near here literally disappeared in a cloud of dust.

Superintendent Bud Flynn said a guard on duty with a crew loading topsoil told him the prisoner "was there when they started loading the truck but when the truck pulled out he was gone."

HOLLYWOOD, Calif.—John M. Stahl, 59, who has walked 640 miles since July 5, is riding back home to San Francisco.

"I get homesick every time I see a train," explained Stahl, who has visited 17 missions during his walk-for-health.

NORMAN, Okla.—University of Oklahoma professors who hold the title of doctor will have to be content with prof or just plain mister. President Joseph A. Brandt thinks the Dr. titles are confusing.

An honorary doctor himself, the new proxy made it known he's to be called Mr. Brandt or just Joe.

Up-to-date football fields of the future will have electric eyes to record field goals, it is predicted.

Police Arrest 6,000 Jews In Paris Raids

VICHY, France, Aug. 21. (AP)—Police were reported today to have arrested 6,000 persons in German-occupied Paris.

Most of those arrested in the great roundup, apparently aimed at striking at the sources of growing public unrest in the city, were described as Jews.

At the same time it was learned that two men had been executed by a firing squad for alleged participation in a Communist manifestation against German occupation authorities.

All approaches to each of the four quarters comprising the working class eleventh arrondissement were blocked off and subway stations closed to prevent any escape during the five-hour clean-up.

French and German police then swept through the district, stopping all on the streets, conducting house to house searches and going through identity papers.

Those arrested included everybody who could not show he was an Aryan. Those arrested were from about 17 to 50 years of age.

Meanwhile notices appeared on all subway stations outside the district saying trains would not stop at the eleventh arrondissement's station, which is at the Place de la Republique.

The Paris newspaper Les Nouveaux Temps said those arrested were taken in buses to concentration centers at Drancy where, it was reported in Vichy, they were being held for investigation.

The surprise move followed unrest and firing in the streets as well as public admissions by French and German authorities that sabotage and subversive activities in the conquered capital were reaching dangerous proportions.

Big Six Hasn't Lost Many Stars To Selectee Army

KANSAS CITY, Aug. 21. (AP)—The Big Six hasn't lost many star football players to the defense program, but Uncle Sam has claimed as officers a trio of coaches any school would welcome.

Nebraska, last year's conference champion and Rose Bowl visitor, must do without Lieut. Col. W. Harold Browne and Capt. Harold G. Petz during the coming campaign. Browne, top aid to Major L. M. (Biff) Jones in the Nebraska grid wars, devised the team's defensive maneuvers and tutored the backs. Petz, primarily a track coach, helped with the freshmen gridlers.

Missouri lost Lieut. Houston (Hoot) Betty, line-bullier.

The Huskers also contributed four players to Uncle Sam's military might, chief of them being Eddie Schwartzkopf, guard.

Oklahoma was the most generous with its grid talent. Six varsity players enlisted and 17 other squad members are draft eligibles. The enlistments took away Olin Keith, senior guard; Tommy Tall Chief, 220-pound Osage Indian, and Harvey Stone. The latter two were the best line prospects to appear on the Sooner campus in recent years.

Athletic directors and business managers say the loss of manpower has been so little it has no effect on ticket prices or game schedules for the future.

In contrast, Oklahoma announces all box seats for its annual joust with Texas on Oct. 11 were sold 10 weeks before the game.

Half Of Blind Already On Old Age Pension Rolls

AUSTIN, Aug. 21. (AP)—Preliminary surveys by state officials today disclosed that nearly half of the persons eligible for social security assistance under the aid to the needy adult blind program already were on the old age pension rolls.

State department of public welfare officials said that under Texas laws, no person was allowed to participate under both programs. Applications under the assistance-to-the-blind program were being received at district offices.

J. S. Murchison, director of the department, estimated between 4,000 and 5,000 persons would qualify for the newly inaugurated program, financed by the legislature at its recent session four years after it had been voted by the people as an amendment to the state constitution.

The director said that in many instances it would not be wise for old age pension recipients to transfer to the blind assistance program because requirements were practically identical and they would receive no more under one than the other.

Fisher Funeral To Be Held Friday In Skellytown Church

Funeral services for Louis Franklin Fisher, 66, of Skellytown, will be conducted at 3 o'clock Friday afternoon in the Skellytown Baptist church with the Rev. R. G. Brister, pastor, officiating. Burial will be in White Deer cemetery under direction of Duenkel-Carmichael Funeral home of Pampa.

Mr. Fisher died yesterday morning at the family home of a six-week illness which followed a heart attack.

Survivors are the widow, a daughter, Mrs. Annie Sartyne, Birmingham, Ala., and six sons, R. E. Leonard and Davis, all of Skellytown, Jack of O'Brien, Bel and L. B., both of Richmond, Calif.

One Canadian game and fur preserve, the Back River preserve, has an area of more than 439,000 square miles.

Even Cooks Have Initiative In War Maneuvers

BY NORMAN WALKER
 CAMP POLK, La., Aug. 21 (AP) — The Third Army's war games in western Louisiana are giving soldiers from truck drivers to generals a chance to test their initiative and fighting ability.

Answering what he said were recent criticisms against the usefulness of such maneuvers, Lieut. General Lesley McNair, army chief of staff, declared they were worth many times the expenditure involved and gave officers and privates alike a real opportunity to prove their soldiering ability.

"If there is any sense at all in teaching a man the rudiments of military training in a comfortable camp," McNair asserted, "it certainly follows he will be better able to defend himself and his country in war time if he has had a chance to try out his knowledge and improve it in closely simulated war conditions."

One incident of quick thinking was demonstrated by a truck convoy of the first cavalry brigade from Fort Bliss, Tex.

Finding itself surrounded by enemy tanks, the convoy went into action with rifles and machine guns and blocked the road with a truck and water wagon.

Just enough room was left for enemy tanks to pass, but the armored division found it led them straight into a muddy bog, making their machines useless and pretty easy to capture.

Meanwhile, scouts located two abandoned 105-millimeter howitzers and two other big guns which were placed at each end of the truck column. Altogether the cooks and supply men were credited officially with bagging 30 tanks, including eight made helpless in the mud trap.

Venice Menace

Nancy Brinckman, trailing clouds of Mardi Gras grass, is a sample of what will be seen at the annual Venice, Calif., festival.

Nazis Warn Leningrad

NEW YORK, Aug. 21 (AP) — The German radio declared today that if Leningrad is defended it will suffer the fate of Warsaw, which was ground into a bubble by Nazi warplanes and siege guns when the Poles refused to surrender it.

The broadcast was heard here by CBS.

The land and water area of the Netherlands East Indies is about equal to the land area of continental United States.

It is 2,300 miles from Gibraltar to the Syrian shore across the Mediterranean.

Officials To Use Four New Signals

DALLAS, Aug. 21 (AP) — There's less than a month to go, so football fans had better start learning four new signals officials will use this year.

The officials will learn the signals at the Southwest Football Officials Association fall rules interpretation meeting, here, Aug. 30-Sept. 1.

James W. St. Clair, secretary-treasurer of the association, lists the new signals as follows:

Intentional grounding of a forward pass—both hands held high over the right shoulder as if grasping a football, and then brought down and forward. (The motion is to resemble the throwing of an imaginary football to the ground.)

Unsportsmanlike conduct—arms outstretched at the sides of the body, parallel to the ground, with palms downward.

Illegal touching of a kicked or free ball—both shoulders tapped with the finger tips, with the upper part of the arms parallel to the ground.

Illegal formation or position of a player—hands revolved about each other in front of the chest.

Army Captain Guest Of Canadian Rotary

SPECIAL TO THE NEWS
 CANADIAN, Aug. 21—The Canadian Rotarians had as guests at their weekly luncheon Tuesday, Captain Morris Schwartz of the signal corps, Austin, Earl Lee Wilbur, who graduated last week from West Texas State college, Canyon, and his house guest, Weldon Bright.

Local guests were Mrs. H. S. Wilbur, Mrs. Russell Carter, and Sammy Wilbur, son of H. S. Wilbur, Jr. Miss Betty Patterson played for the group singing. Herman Mowrey discussed Rotary International service.

Several musical numbers were supplied by Earl Lee Wilbur, trumpet, accompanied on the piano by Weldon Bright.

Frank Phillips is president of the Canadian Rotary club and A. B. Dameron is club secretary.

The sample food of Afghanistan's population is fruit.

Ten Guests Attend Tenth Birthday Party Recently

Mrs. Carl Anderson entertained with a party recently honoring her daughter, Barbara Jean, on her tenth birthday.

Various games were played after which gifts were presented to the honoree.

Refreshments of ice cream and cake were served to the 10 guests, who were Mary Keough, Peggy Ann Hukill, Lee Ann Isley, Dorena Ruth Perrin, Joan Stroup, Sue Brashears, Neva June and Donald Lee Bowden, Norma Ann Pirtle, and Cleo McCreary.

Falconry is said to be the oldest sport in the world.

New under-arm Cream Deodorant safely Stops Perspiration

- 1. Does not rot dresses or men's shirts. Does not irritate skin. 2. No waiting to dry. Can be used right after shaving. 3. Instantly stops perspiration for 1 to 3 days. Removes odor from perspiration. 4. A pure, white, greaseless, stainless vanishing cream. 5. Arrid has been awarded the Approval Seal of the American Institute of Laundering for being harmless to fabrics.

ARRID is the LARGEST SELLING DEODORANT. Try a jar today!

SENATOR REYNOLDS AND BRIDE-TO-BE

Senator Robert K. Reynolds, Dem. from North Carolina, and his 20-year-old fiancée, Evelyn Walsh McLean, of Washington, as they stopped off in New York for a bit of sight-seeing before completing a trip upstate.

GLORIFYING YOURSELF

By ALICIA HART

Within the past few weeks several mothers and a couple of aunts who have young nieces staying with them for the summer, have written for advice on what to do about the adolescent girl who is greatly overweight.

First of all, the 12-year-old girl who is 20 or 30 pounds overweight should be taken to the family doctor for a complete physical examination.

Three glasses of milk and three of water ought to be a sufficient amount of liquids a day. The matter of liquids should be discussed thoroughly with the doctor, of course.

Do not encourage plump children to cultivate a taste for highly-seasoned foods or fried dishes. And do make summer salads so tempting that they will eat huge ones for lunch instead of sandwiches and sweets.

Meanwhile, encourage them to run and play and swim and be active.

REWARD FOR REDUCING

One mother we know persuaded her 13-year-old daughter to eat more sensibly by letting the child learn more about food and cooking.

Each time the total calories per meal added up to the exact number the doctor had said the child should have per day, some special privilege was granted. The system really worked, too.

Even the doctor was pleased with the results.

Although Burma has no outlet on the Gulf of Siam, one point of the Burmese-Thailand border is only ten to fifteen miles from the water.

Ninety-nine per cent of the earth's atmosphere is made up of gases: argon, carbon dioxide, nitrogen, and oxygen.

The American silk industry has about 175,000 workers.

Foot Comfort Wins In A Walk When You Do These Exercises

By FRANCESCA CASSARD

Summertime shoes bring autumn blues—as far as your feet are concerned. The easy freedom of sandals and toeless, heelless, play shoes allows the feet to relax. The wisest way to arrange for fall comfort is to prepare for it in advance.

Get your ankles limbered for high heels by this simple but effective exercise. Sit down, cross your legs and point your feet down like a ballet dancer, then bend it upward toward the leg as far as you can.

The metatarsal arch will be strengthened by this next exercise. Sit in a chair, put both feet on the ground. Make a "flat" of your toes and the forepart of your foot, curling all your toes under. Then spread all your toes as far apart as possible, fan-wise, and hold this for a few seconds. Curl up into a "flap" again. Repeat five or ten times with each foot.

You can re-vitalize your weather-wilted feet by changing your shoes several times during the course of each day. This tends to exercise the foot involuntarily as well.

Most important of all, remember that foot ease and good posture result from comfortable, well-fitted shoes. Select your fall footwear with care—and walking will become a daily pleasure—not a boring chore.

First Baptist WMS Meets In Circles For Mission Study

Meeting in weekly session, members of seven circles of Woman's Missionary Society of First Baptist church conducted mission programs.

Mrs. Lonnie Rountree was hostess at the meeting of circle one which was opened with prayer and the devotional by Mrs. Tommie Stone.

The mission program presented by Mrs. L. M. Salmon was followed with prayer by Mrs. Cartwright. Refreshments were served to five members.

A joint meeting of circles two and three was conducted in the home of Mrs. C. L. McKinney and Mrs. Troy Maness where a song, "Send the Light," was followed with prayer by Mrs. L. H. Greene.

In the business session presided over by Mrs. Robert Carr, Mrs. C. D. Hunter reported on the personal service work done for soldier boys.

The mission program was presented by Mrs. Paul Briggs, Troy Maness, Miller, and Vandover, and prayer was led by Mrs. Paul McCann. Refreshments were served to 15 members.

Circle five met in the home of Mrs. T. J. Worell with Mrs. Mary Blinford leading the opening prayer.

Mrs. T. D. Alford gave the devotional after which Mrs. J. C. Vollmert and Miss Harriet Scott spoke on evangelism. Refreshments were served to six members.

At the meeting of circle six in the home of Mrs. D. H. Coffey, Mrs. E. I. Anderson led in prayer and Mrs. Wilson-Hatcher, chairman, presided over the business session.

The mission program by Mrs. Garnet Reeves was followed with prayer by Mrs. T. F. Morton of Mount Vernon, Illinois. Refreshments were served to nine members.

Opening the meeting of circle seven in the home of Mrs. Howard Giles, Mrs. F. E. Leech led in prayer. Mrs. Homer Doggett presided over the meeting and Mrs. Don Egerton was assisted by Mrs. F. E. Leech, Charles Miller, Doggett, and W. B. Hallmark in giving the program. Refreshments were served to seven members.

Mrs. Julia Kelley, Home League will meet at 2 o'clock in the Salvation Army hall.

Ladies Bible class of Central Church of Christ will meet at 3 o'clock in the church.

Catholic Youth Association will meet at 8 o'clock in the parochial school hall.

Dureas class of Central Baptist church will meet at 2 o'clock for visitation.

Central Baptist. Woman's Missionary Society will meet in circles at 2:30 o'clock.

Experts Say: Buy Best Furs In Price Range

Nothing undemocratic about this year's mid-summer fur sales. Any smart shopper can find plenty of bargains among lower priced fur coats—bargains that will make Miss Low Budget and Mrs. Medium Budget as happy as Mrs. Sky-is-the-Limit, for all her mink, ermine and sable.

Fashion experts agree that it is better to get a top-grade muskrat, skunk, dyed lamb or other comparatively low-priced fur than an inferior grade of a luxury fur, such as mink or sable.

BEST BUYS TO SUIT YOUR POCKETBOOK

"Buy the best in the price range which suits your pocketbook," they say. "A good skunk jacket or even a good lapin (sheared rabbit) one will do more for your wardrobe—and your ego—than a coat in a poor grade of Persian lamb or beaver."

Among the low-budget furs that are popular this year are muskrat, skunk, dyed lamb, American opossum, kidskin, American broadtail (which is South American sheared lamb), raccoon and white Chinese lamb.

In the medium price range, there are coats of Persian lamb, beaver, Alaska sealskin, and caracul. These come in luxury categories as well. In other words, you can pay a lot or quite a lot less than a lot for any of them.

BUDGET MAY ALLOW POPULAR SPORT JACKET

Jackets in varying lengths from short boleros to the increasingly popular 32-inch type give a girl a chance to compromise with price without sacrificing quality. She may not be able to afford a fine, full-length swag coat of gleaming Alaska sealskin in safari or matara brown or a dolman-sleeved, waistline-hugging one of sleek, tightly curled Persian lamb. But it's quite possible that her budget will allow for a short jacket in one or the other. Except in the coldest climates, fur jackets, worn over wool suits, provide adequate warmth and comfort.

Blonde Beauty Suffers Under Summer's Sun

By HILDA BURKE

There is a distinct difference between looking glamorous and looking obvious; and it is much easier for a brunette than a blonde to achieve that "glamorous without being obvious" appearance. Brunettes can play up their looks while a blonde is apt to have to tone hers down.

In the summertime, this problem of being a blonde is far more serious than in the winter. The blonde must keep that fair skin from getting parched and red looking and her hair from becoming sun-bleached, dry and brittle.

BEAUTY RULES FOR BLONDES

Certain simple beauty rules which I, as a blonde, have found invaluable, are:

Use a foundation cream before applying your makeup, which prevents chapped and peeling skin, and ap-

The tunic is one of the fashion details you hear about frequently for Fall. Pattern No. 8009 is an expression of the tunic idea, in a suave, sophisticated frock with draped neckline and bosom sections, a smooth midriff line and a hip length tunic which hangs with graceful fullness. The same pattern can also be made in a lace top frock with a straight skirt.

Pattern No. 8009 is designed for sizes 12, 14, 16, 18 and 20. Size 14 requires 4-1/4 yards 36-inch material without nap with short sleeves. A detailed sew chart is sent with the pattern which gives you step-by-step directions for making this very new frock.

For this attractive pattern send 15 cents in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

Before you plan your school sewing—send for the new Fashion Book, just out. Designs for all ages, in practical easy-to-sew patterns. Pattern 15C, Pattern Book 15C. One Pattern and Pattern Book ordered together, 25c.

Couple Entertains With Hamburger Supper Wednesday

Mr. and Mrs. Henry Jacobson entertained with a hamburger supper at their home Wednesday evening.

Bingo was played following the supper.

Attending were Mr. and Mrs. Dave Bauer, Mr. and Mrs. Morris Goldfine, and Mrs. Bauer, mother of Dave Bauer.

Luncheon Given As Courtesy To Deane Wilkinson

Complimenting Miss Deane Wilkinson, Miss Betty Sue Mullins entertained with a luncheon in her home Wednesday afternoon.

Centering the luncheon table was a large cake. Guests were seated at individual tables and a corsage of roses marked the place of the guest of honor.

Following the lunch, gifts were presented to the honoree.

Present were Miss Shirley Resaquel, Miss Ann Lee Watkins, Mrs. Jack Wilkinson, mother of the honoree, Mrs. Joe Mullins, and the hostess.

ply makeup sparsely. Never go out without a good sun-tan lotion if you are a sun-worshiper. Be sure your beach wardrobe includes clothes to protect yourself, particularly your head, from too much sun.

Since blonde hair has a tendency toward dryness and brittleness, too much importance cannot be stressed on brushing the hair. Always brush up and away from the scalp.

A good method for keeping the hair soft and pliable is to apply olive oil to the roots once a week, before each washing, with a soft sponge or a pad of cotton. If possible, leave the oil on overnight. It will protect your hair under any kind of dress and will wash out easily.

Eight million galley slaves would be required to propel the liner Queen Mary.

JEFF Says:

My company will pay the grocery bill and rent for your family as long as you like after you are gone.

16 HARVESTER FOOTBALL LETTERS EMBLE TO RETURN

Fall Practice Will Begin September 1

BY HARRY E. HOARE

The Pampa Harvesters, with 16 letters and reserve lettermen eligible to return, will begin the fall training grind on the morning of September 1 and there'll be two practice sessions daily until school opens on September 8. Head Coach Buck Prejean announced today.

Coach Prejean and Assistant Coach Mac Best attended the Texas High School Coaches' association school in Houston the first of the month and got a line on the state high school football race.

In District 1 the Amarillo Golden Sables and Lubbock Westerners are still considered the one-two teams with Pampa, Plainview and Borger unknown quantities. All three schools will field new coaches and anything can happen in the opinion of the experts. Buck Prejean and Mac Best will be the new Pampa coaches while Jerome Vannoy will coach the Plainview Bulldogs and "Windy" Nicklaus will be at the helm of the Borger Bulldogs, considered the darkhorse of the district.

Coach Prejean announced today that every boy desiring to play football should report at the one-two school gymnasium at 9 o'clock the morning of September 1. Morning sessions will be from 9 until 11 o'clock while the afternoon practices will be from 3 until 5 o'clock. The boys will eat dinner in the high school cafeteria.

Burk Burnett Tough

First game of the season will be on the night of September 19 with Burk Burnett providing the opposition. The "Burk" Bulldogs is the team feared in District 2, according to Fat Gerald, coach of the defending champion Vernon Lions. The Bulldogs are reported to have 18 returning lettermen.

Of the 16 boys who will be eligible for the Harvesters this season, six were considered starters on the 1941 team. They were Co-Captain Ralph Phillips, tackle; Co-Captain Roland Burnett, guard; John Chesser, tackle; Wayne Ott, end; Leslie Burge, center; and Bill Arthur, halfback. Others eligible to return are R. L. Edmondson, quarterback; Leonard Hollis, halfback; Basil Arnold, end; Frank Daugherty, end; Don Meador, halfback; Floyd Allen, tackle; Tom Cox, end; Tom Johnson, end; Earl Snyder, center; Pat Flanagan, end.

Promising Prospects

Some of the most promising prospects scheduled to report are L. J. Halter, quarterback; Jack Waters, fullback; Bobby Edson, tackle; Royce Bailey, center; Frank Shotwell, end; Harry Kerbow, guard; Jerry Kerbow, center; Richard Bynum, tackle; Harry Abbott, tackle; Arthur Moyner, guard; Leroy Thomas, tackle; all up from the Gorillas, and Charlie Boyles, fullback; Bobby Dunham, halfback; Jimmy Berry, halfback; George Neef, halfback, all up from the junior high Reapers.

No starting lineup has been released by Coach Prejean and Best and it is doubtful if they know who will get the call. The first 11 players will depend on those who put out the most and show up the best in the first two weeks of fall practice. That much the coaches announced.

Looking at the situation from the sidelines, the fight for starting positions could be among Edmondson and Halter for the signal calling job, Hollis, Arthur, Meador and Dunham at the halfback slots; Boyles and Waters for fullbacks; Ott, Flanagan, Johnson and Arnold at ends; Chesser, Phillips, Edson and Bynum at tackles; Burnett, Meyer, and a couple of converted tackles for guards; and Burge and Snyder for centers.

But don't think some of the other boys can be counted out. There's plenty of good material available and a lot of hustle, fire and fight will make it uncomfortable for some of the so-called regulars. Only comparison that can be made is from the spring training period and a lot can have happened since then.

From the look of things coaches are going to have to work long, hard hours to develop a passer and punter. Dunham, by his great pass work with the Reapers, looks like the best bet with Edmondson and Halter in the running. Boyles, Edmondson, Halter and Dunham have been promising kickers. The boy with the educated kickoff and point after touchdown toe is Bobby Edson, big lineman, who boots 'em far and true.

The Harvester schedule, complete excepting for one open date, follows: Sept. 19—Burk Burnett, here. Sept. 26—Cloviss, here. Oct. 3—Open. Oct. 10—Bowie of El Paso, here. Oct. 16—El Paso, here. Oct. 24—Childress, there. X—Nov. 1—Lubbock, there. X—Nov. 11—Plainview, there. X—Nov. 20—Amarillo, here. X—Nov. 27—Borger, here. X—Conference games.

Do You Want To Attend Baseball School? Fill Out Blank

Efforts are being made to hold a baseball school for youths of West Texas, Eastern New Mexico and Western Oklahoma in Pampa next month. Major league teams have been contacted in the interest of sending representatives here for the school which will be for youths 16 years or over who are asked to fill this blank.

I am interested in baseball as a career and if a baseball school is held in Pampa in September I will attend the sessions:

My Name is.....

My Address is..... Street..... City..... State.....

Associated Press Sports Writer

The pennant problem in the National league is getting to be "Can the St. Louis Cardinals beat the Brooklyn Dodgers?"

There have been only five games this season in which Manager Billy Southworth has had available the complete Cardinal lineup and the club's hospital list is beginning to read like a page out of Who's Who in Baseball.

Topping off a long string of accidents, Terry Moore, the best center fielder in the league, was struck on the head by a ball pitched by Art Johnson yesterday at Boston. He will be out of action for a week.

Moore is captain of the Redbirds, an invaluable cog in the club, one of the great fielding players in baseball, a 300 plus hitter, and a real gas-houser with the heart of a lion.

In spite of this procession of trouble the Cardinals have kept right on coming and yesterday they swept a doubleheader from the Braves 2-0 and 3-2. Ernie White, the Cards' great young lefthander, pitched a six-hit shutout in the first game for his 15th victory, and Howard Pollett, a 20-year-old southpaw just brought up from the Texas league, pitched a four-hitter for his major league debut in the nightcap.

The double triumph enabled the Cards to climb within a game and a half of the Brooklyn Dodgers, who were given a 7-6 handout by the Pittsburgh Pirates for Brooklyn's sixth straight win.

The Cincinnati Reds reinforced their third place position by shutting out the poor Phillies twice, 2-0 and 3-0.

The Chicago Cubs cut loose with a 16-hit attack as Vallee Eaves kept eight hits spaced to beat the New York Giants 9-4.

In the American league the New York Yankees got squeezed out 1-0 by the Detroit Tigers as Tommy Bridges pitched two-hit ball for ten innings in one of the finest performances of his long career.

The Chicago White Sox chopped another game off the Yankees' ample lead as John Rigney blanked the Philadelphia Athletics 9-0.

The collapsing Cleveland Indians dropped their 14th game in 15 decisions 6-3 to the Washington Senators.

Ted Williams hit two home runs, giving him a total of five in two days and 28 for the season, but his Boston Red Sox were beaten in both ends of a doubleheader by the St. Louis Browns, 11-9 and 4-3.

Oilers Lose 8 To 7 At Big Spring In 12th Inning

A single, error and squeeze play cost the Pampa Oilers a ball game in the 12th inning last night in Big Spring, the Bombers finally winning 8 to 7. Big John McPartland was nipped for a total of 10 hits and it was his error that put the winning run on third base and set up the squeeze play.

The Oilers had to come from behind to tie the game but they did the trick and then held the battling Bombers the rest of the way. While McPartland went the distance for Pampa, it again took two Big Spring pitchers to win. Mohrlock started but gave way to Ramsdell, who finished strongly. On Monday night he Ramsdell started the game but was chased after Whelchel finished. On Tuesday night Schultz started but he also was bombed from the hill and Whelchel again finished.

McPartland was the hitting star of the game for the Oilers, bagging four singles to score three runs. Haney opened the scoring for Big Spring with a home run with two on board. The Oilers scored two in the fifth on three hits, Fulewider starting with a double and scoring on Phillips' single and then McPartland's single scoring Phillips.

Big Spring added two more in the fifth but the Oilers picked one up in the sixth on three singles. But once more, in the sixth, Big Spring added two more runs to go far in front.

Scott and McGahey walked in the seventh and Matney sent them both home with a double. Phillips and Haralson walked to open the eighth and so did Mohrlock—to the showers—Ramsdell relieving. He hit Reynolds with the first pitch, filling the bases. Men came to the plate John McPartland and he singled, scoring two runs. McGahey tried to sacrifice but forced Reynolds at third. A wild pitch to first advanced both runners. However, Scott fanned and Matney fled out to end the rally.

From then until the hectic twelfth

neither team really threatened. In the final inning Shilling drew a base on balls from the firing McPartland who had pitched nine innings Saturday night and came back as a relief pitcher Sunday night. Stevens then attempted to sacrifice but McPartland threw the ball into the outfield and Shilling went to third from where he scored when Lindsey bunted to score him with the winning run.

Johnny Goodman Picked To Win U. S. Amateur Title

OMAHA, Neb. Aug. 21 (AP)—Stanley Davies, the husky English-born professional who brought Johnny Goodman up from the caddy ranks and had the sure-fire hunch his protégé would win the 1934 U. S. Open title, has several top choices for the 1941 National amateur golf championship, including his own Johnny.

"Really, it is an amazing thing and I couldn't possibly name you the winner this time," said Davies as he took time off from his duties of getting the field club ready for the opening shots Monday.

The big fellow may not have a No. 1 selection for the amateur crown but he has pretty fair ideas about those he believes will be the front challengers for the title now held by Richard Chapman, here on leave from an army camp in Georgia.

Here are Davies' selections and why: Johnny Goodman — "Although Johnny hasn't been playing his best for some time, he's a great competitor and will be dangerous." Rodney Bliss, another Omaha favorite—"Rodney should do awfully well. He'll be very tough on this course."

Marvin (Bud) Ward of Spokane, the 1939 winner—"Everybody likes Bud Ward."

John Fischer of Cincinnati, another former champion—"I've always liked his golf."

Mario Gonzales, Brazilian champion—"This young fellow may be a surprise next week. He seems to have the ability to play his best golf when he needs it."

Harry Toid, Dallas, Texas—"He seems to have the intestinal fortitude characteristic of all Texans and he undoubtedly gained considerable confidence by being low amateur in the National Open."

By SID FEDER

(Pinch Hitter for Eddie Brietz)

NEW YORK, Aug. 21—You hear the strange story that Eddie Arco of the Saratoga club that Eddie Arco's perfume is one of the reasons he and Whirlaway get along so well. Every time he's been on when Whirly, Eddie used a lot of it, and when Willie was out, which he forgets all about running crooked. Then there's the whisper going round the American league that Bobby Feller's depending so much on his curve these days because he's lost his "misplaced" faith one. South-west grid coaches say it's between Texas and Rice, with the Aggies and Southern Methodist threatening this fall.

Old timers around St. Leo watched young Howie Pollet check in with a four-hitter, and recalled a guy named Dixey Dean bowed into the big leagues with a three-hit white-wash job 'way back in 1900. And right in the middle of a hot flag fight, too. You can laugh off those stories that light-heavy champ Gus Lenevich is having weight troubles for is fight with Tami Mauriello in the Garden next Tuesday.

Word from New England is Challenor will end his winning in the Pacific in time to try some running again at Narragansett's fall meeting.

PLEDGE OF ALLEGIANCE—I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all!

We Take Our Stand

After all, a person or a people must stand for something. The thing that distinguishes a person or a people from the vegetable kingdom is having principles. Having principles, it is right to avow them openly, to stand upon them, and to work for their survival and extension. To do that is life; to fail to do that is only a form of death.

President Roosevelt was on the side of life when he met Churchill at sea and laid down eight principles on which not only the British and American peoples, but uncounted millions of peoples all over the world (including many in Germany, Italy and Japan) agree. There was nothing new, nothing Americans had not long believed, nothing not directly implied in the Fourteen Points enunciated by President Wilson, Jan. 8, 1918.

Here is no new step, then, but simply a reaffirmation of principles as old as the American people. There will be disagreement on how far the United States ought to go in backing them up. There can be no disagreement that the moral and material force of the United States, so far as it decides to make it felt, must be exercised along these lines.

The circumstances under which Wilson pronounced the Fourteen Points, stating the minimum principles of a peace in which the United States could acquiesce, are interesting. Russia had fallen; the Bolshevik revolution had taken it out of the war; Germany was dictating its hard terms at Brest-Litovsk, demonstrating that a pax Germanica would mean to any who were compelled to accept it. France was bled white, Britain sore beset by the submarine blockade. A rallying point, a clear indication of what the Allies wanted, was needed. Wilson gave it, and men of good will everywhere saw that his terms were the absolute minimum.

So today, in this general reiteration of the kind of world which the British and American peoples, and free peoples everywhere feel must emerge, the way is open to the Axis powers to proclaim publicly what they propose instead.

Should they do so, the world can then make a clearer choice.

Yersilles, bad as it was, was better than Brest-Litovsk. The Eight Points formulated by Roosevelt and Churchill offer at least a hope for the world. It is a clear challenge to the Axis to state equally clearly what kind of a world it wants.

Reward Of Appeasement

Russia must be industriously kicking itself these days. In the 18 months just before Germany turned on the friend who had tried to appease her, Russia sent Germany a million tons of oil, including lubricants and aviation gasoline. That is a British estimate, and though Germany never got as much oil from Russia as she had hoped, there is no reason to doubt that she got that much.

Now that same aviation gasoline, or its equivalent, is being used to bomb Moscow; those same lubricants, or their equivalent, smooth the way for the panzer divisions in their drive on Kiev and Leningrad.

By the way, how are our own shipments to Japan going?

Socialism Isn't Democratic

It is much easier for the people to get the government to maintain proper regulation of private industry than it is to get the government to check on government-owned industry. In the former case the government is a neutral party; in the latter case the government is not a neutral party, and is not likely to regulate without prejudice.

For a government to be democratic it must be neutral. The thing that makes democracy is the ever-present existence of a neutral force with sufficient strength to outweigh any dictatorial group. When the government owns and operates enterprise, its neutrality relations with society are destroyed. It becomes less democratic and more dictatorial. Socialism isn't democratic!

The Men Can Help, Too

Probably most men think of the silk stocking situation as an exclusively feminine concern. It isn't. Men have a part to play in this great mass transfer from Japanese sheer silk to American cotton. Here's the part:

When Agatha comes home with her first pair of cotton stockings, and sticking out a tentative foot, inquires, "How do they look?" that's where the man's part comes in. Start learning the line now: "Ravishing, darling, they look just swell!"

This may even a mere male contribute his bit in putting the ax to the Axis.

The Nation's Press

PRICE CONTROL IS TORPEDOED (The Wall Street Journal)

Action of the domestic commodity markets on Saturday and Monday shows that the farm bloc in Congress has played hob with the Administration's purpose to head off price inflation—if that was its purpose. A regulating statute which leaves foodstuffs and clothing materials free to rise well above recent and even present levels cannot possibly be amended to put any sort of a ceiling over wages. Already the pending bill has ceased to be a price control measure. It could serve only as a profit limitation device and only unevenly and inequitably as such.

But manufacturing and merchandising profits could be wholly eliminated without preventing a "runaway" general price level. The prices for food and staple clothing very largely determine the cost of living and so long as the latter is under

Common Ground

This column contains there can be no satisfactory progress until we measure the shares of each man by the common yardstick of the God-given equal right to create and enjoy anything anyone else has a right to create and enjoy.

THE WORST THING THE CHURCHES EVER DID TO AMERICA

A third of a century ago, the Federal Council of Churches of Christ of America passed what was known as a social creed. This creed, as a whole, would take about two or three columns to reproduce. The main question is what effect has this creed had upon our morals, our freedom, our peace and our prosperity.

Some of the leading churchmen are beginning to realize that this social creed does not define the rights of employers and of the public.

Roy L. Smith, editor of the Christian Advocate in a recent issue of the magazine, says,

"In view of the situation as it stands, as of this date, it seems to be about time for someone to draw up a statement which will define the rights of the employers and of the public, in terms as fair and impartial as those used in the 'Social Creed of the Churches'. Individuals who have, through thrift and industry, accumulated savings and invested them in productive enterprises, have established rights thereby which must be respected. Industrial managers who, by skill and knowledge, have developed enterprises that can employ workers at a fair wage and render a service to the public, are entitled to fair treatment at the hands of their government and of their workers. * * * The church can never dare to become a class institution any more than her Lord was a class redeemer."

The most important part of the Church creed, as adopted 33 years ago, was that it advocated a minimum wage in every industry and that labor was not a commodity.

Now the result of the churches advocating a minimum wage has been nothing but confusion. It tends to cause the workers to believe that men can receive wages above what they produce; that there need be no relation between the production of the worker and the amount of pay he receives. But every practical person knows that when a minimum wage is set above what millions of people can produce, then these millions can find no employer to employ them. They must either be idle or work for themselves for what they can produce.

This Church Creed has led the public to believe that wages can be paid on the basis of goodwill or of wishes or forced up by government laws. Workers have come to believe this instead of understanding that the amount of wages a worker can be paid is governed by the inflexible rule that each man must produce his own wages in order to have permanent employment. This law governing wages is the same law as set forth in the Good Book which proclaims that man shall live by the sweat of his brow.

Minimum Wage Crux of Collective Bargaining The whole crux of collective bargaining is based on minimum wages. Collective bargaining when analyzed to its final results, is nothing but force, intimidation and coercion. Thus, it is the exact opposite of the teachings of Jesus, of true Christianity and of democracy.

It demands a double standard of justice and rightness. It does this because every Christian, every man who loves justice, will admit that the employer has no moral right to do what labor unions do by establishing minimum wages below which no one dare sell his services without being penalized and fined. When employers do this, every one admits that it is immoral. The Sherman Anti-Trust Law makes it a crime for employers to do this. If it is a crime and immoral for the employer to do this, then, if all men are equal before God, it is immoral and a crime for working men to do the same thing.

If this be true then it is immoral and a crime against society and civilization for the churches to recommend this immoral, double standard of human relations. It is making classes out of people.

The strange thing about it is that no churchmen will attempt to answer questions about this theory. They have adopted the hit and run method. They make statements and refuse to answer questions or explain how it is in harmony with the belief that God is no respecter of persons.

And any man who is advocating sound principle, that will add to the standard of living of all the people and make it possible for an ever-increasing population to live better, need not put his light under a bushel. If he is advocating sound principles, they will bear investigation; they will bear analysis; they will not contradict themselves. But this creed will not bear investigation and will not stand analysis and the defenders of it have to use the church where they can make dogmatic statements and not be questioned so that they will not be embarrassed by their errors and injustice they are doing to their fellowman.

It is time the church people lay this creed upon the altar of investigation and either defend it or admit that it is doing untold harm to their fellowman.

no effective restraint it is time to suggest limitation of labor's exercise of its collective bargaining power.

Unless the urban wage worker and the farmer can be brought into some sort of collaboration to accomplish it, we shall have no control over prices. Without that, neither 110% of parity on the one hand nor successive wage increases on the other will assure either group of intended beneficiaries any lasting advantage.

And if price control is not to be real we should abandon a statutory pretense which leaves the solvency of all business enterprises to the fallible judgment of a bureaucrat.

MOOSEVELT TOURS, INC. ANNOUNCES FREE TRIPS ABROAD!!! (American Guardian)

"Excursion to Belgrade, Cairo, Buenos Aires, and all corners of the earth.

"Luxurious American flagships.

"All expenses paid—including Bethlehem bayonet, Goodyear gas masks, Du Pont grenades, hospitalization, knotty-pine coffin, dignified white cross, and gold star for mothers.

"No passport required.

"We have left no stone unturned our untiring efforts to make this unique trip a reality for this summer—the best that big money can buy is being rapidly made available.

"For further information inquire at the White House or our branch offices at Wall Street and Downing Street.

"See the world through a gun sight." We plus you oo."

THIS MACHINE KEEPS ROLLING ALONG

Around Hollywood

BY PAUL HARRISON

HOLLYWOOD, Aug. 21.—The golden gates: The hypothetical red plush carpet was laid down for Monty Woolley's return to Movieland as the star of "The Man Who Came to Dinner." The bearded actor is appreciative, but he also is mindful of the other time he came here under promising circumstances. For his movie debut, in "Live, Love and Learn," he stood four days under a sprinkler. And for his last film during that unhappy period, he was tossed into a pool.

Between those dunkings, Woolley played diplomats and doctors mostly, and bit roles entirely. When Moss Hart telephoned him one evening two years ago that he was wanted for the lead in the Hart-George comedy, "The Discouraged Woooley said, "Go away, I'm just a tired old man trying to get some sleep."

While he was starring in the Broadway hit, Woolley never dreamed that he would be hired for the Warners' film version. His cynicism was very nearly justified. The studio considered almost everybody in Hollywood before sending for the original Man Who Came to Dinner.

MR. CAPRA GETS TOLD

Dorothy Coningore was a new-comer in Hollywood and a Columbia stock cutie when Frank Capra began "Mr. Smith Goes to Washington." For experience, she was given atmosphere work in the picture—walking downstairs in one costume, strolling across backgrounds in others; sitting in the senate gallery; being the unseen voice on telephones.

Since "Citizen Kane" has brought her prominence, Capra has been heard to speak highly of her, usually remarking that she has been in the picture since she was a child, the actress sent him a wire: "You mean, Mr. Capra, that I was in one of your pictures a number of times."

When Victor Mature came to crash the golden gates, he landed with only 11 cents and sent a collect wire for money to his father in Louisville. No funds came back, but there was a message that fortified his determination better than any money order could have done. The actor said, "I had only 6 cents and couldn't speak English. Good luck."

OAKIE THE TAR

Besides having been in six navy pictures, Jack Oakie somehow always reminds me of a sailor. On the set of "Navy Blues," during some work talk, I asked what his ship he had served on, and he laughed and said none. It's a common error, he explained, and maybe a hangover from 1928 when Paramount gave him a sort of honorary nautical background as a publicity stunt.

Although he was fresh from New York musical stages when he began working in "The Fleet's In," press agents decided to build him up as a real job. They unblushingly announced that Oakie had been discovered on a battleship while some scenes were being filmed with the fleet off San Diego, and that special leave for him had been obtained from the Navy Department.

"Even the navy believed it," Oakie chuckled. "I began getting letters from 'old shipmates' all over the world. Most of 'em wished me luck. A few wanted loans. One guy was very tough. He said he had been looking for me for two years, and how about that 20 bucks he had loaned me when he went on that barge down in Panama?"

The United States imported 662,577 pounds of inedible tallow during the second quarter of 1940.

A pound of coffee contains approximately 2,850 beans.

People You Know

By Archer Fullingim

This is the story of two families who live next-door neighbors to each other, on a quiet residential street—that is, it used to be a quiet street, but before the two families started feuding, it began when the children next door shouted and yelled all day so that the man who worked at night could not sleep. The wife of the man got on the children and their mother, and the mother, just to show her neighbor what could be done in the way of noise turned on the radio full blast.

But what's sauce for the gander so that night the wife of the sleepless husband turned on the radio full blast and kept it on all night. It wasn't long before both families were calling up the police. Now, a child of one of the families can't skate up and down the sidewalk in front of the neighbor's house because he makes too much noise. So he must go down the street a half-block and skate noisily in front of other houses whose occupants are now thinking of complaining.

Yesteryear In The News

Ten Years Ago Today

Gray county crude oil, formerly posted below 35 gravity, 46 cents with a two-cent higher differential for each degree of gravity up to and including 40 gravity and above, topped at 58 cents.

Five Years Ago Today

Because of a new water system, the city was richer by some \$300 which otherwise would not have been collected.

Additional federal funds might be available to aid needy Gray county high school pupils in continuing their education, it was announced by W. B. Weathered, county school superintendent.

Cranium Crackers

HISTORIC RULES

Rulers of Europe in days past had much more colorful names than men like Hitler, Mussolini and Stalin, who are running that continent now. Name the country each of the following ruled, and approximate time each was in power.

- 1. Peter the Great and Frederick the Great.
2. Henry the Eighth and Louis the Fourteenth.
3. Ivan the Terrible and Philip the Fair.
4. William the Conqueror and William of Orange.
5. Edward the Confessor and Theodosius the Great.

So They Say

Only in self-deception and wishful thinking can we believe that we can live in America on a fenced Atlantis isolated from the revolutionary movement which is sweeping the world. We must play our part.

JOHN CUDAHY, former U. S. diplomat, urging a U. S. plan for peace.

I look to the day when we shall go forward hand in hand to build a

THE LOOKING GLASS

CURE FOR LOVE By Stella Helt

There was once a generous, sensitive woman with the capacity to love one man all the days of her life and all the aeons of her eternity.

When men glimpsed the rather astounding depths of her affection they were frightened. A woman who calmly promised such interminable devotion was a terrifying proposition.

So our generous woman was often and deeply disappointed. Men loved her and left her, and each left her more shaken than the last. The woman saw the expediency of not offering her love but to love was as natural as to breathe.

At last she decided to take scientific steps to remedy her sad condition. She studied chemistry and secret formulas in forgotten languages of the middle ages. As she worked she grew inspired. Men and women had always suffered from an over abundance or insufficiency of love. Mostly the formulas for inducing love had survived but by working them backwards the woman at last concocted a potion that would immunize a person from love.

She felt that she had now saved humanity, or that class of it who like herself offered much where a very little would have been appropriate.

She invited five of love's pathetic victims to her laboratory.

First, she would save Belanca. Belanca had just been rescued from her third attempt at suicide, her third venture of too much loving.

Another similar case is that of Mitzi who was just a younger edition of the wife who had wrecked his career and his life. Elaine would be saved all the pain when her husband walked out on her. The formula would be like an anesthetic to that fine soul who had given her all to a faithless man. Broken-hearted Ruth would be rescued from another married lover. Michael, who needed all his energy for his creative art would never dissipate it again on possessive, jealous models. With his heart at ease he would paint great masterpieces. And the woman herself would be saved from all the degradation, the humility, the horror and frustration of loving when the lover had ceased to care.

But Belanca refused the salvation offered. Even a successful suicide for love seemed preferable to immunity from it. Randolph wanted to keep on being Mitzi's slave. Elaine's heart refused to believe that she was going to be deserted. Ruth was sure that her lover's wife would die off or divorce him sometime. Michael refused the love immunity quickly. Women got in his way but they were the only inspiration for masterpieces. He hated still lifes.

They all trooped out a little indignant. People resent the removal of their tribulations. There was only the woman left to take the potion. She looked out of the window at the moon. It was riding high and white and glorious. And between her face and the moon little breezes were stirring memories of love: A cat's wall carried complete ecstasy and horrible frustration all together. The woman destroyed the potion and walked out into the night.

better, a kinder and a happier world for our children. —Queen ELIZABETH of Britain.

Teh real problem is winning the peace.

—WENDELL WILLKIE, 1940 G.O.P. presidential candidate.

We are told that we must fight for the freedom of mankind. But the greatest battle for freedom is being fought right here in America today.

—CHARLES A. LINDBERGH of the America First Committee.

TEX'S TOPICS

EDITOR'S NOTE: While Tex DeWesse is on vacation this space is being filled each day by a different writer. Incidentally, DeWesse saw none of the copy before he left and said he had no desire to censor any of it. So here's today's guest columnist:

By RAY MONDAY

From radio to newspaper isn't as long a jump as from oil-field to swivel chair, but still, it's different. It's different enough that it gives me a touch of "Teletype Prig" to think of the comment I might arouse from this column. However, whether the comment is good or bad, it will be much better than being ignored.

The man who usually fills this space has accused me and several of my microphone colleagues of being "off in the upper story" when we made mention of it "raining frogs." And yet, he cannot explain where so many tiny frogs come from immediately following a rain, especially on ground so dry before the rain that a frog would have "croaked" had he been anywhere near. Well, I contend that, while driving in the rain, I have actually seen frogs come hurtling down with the "sky-juice." Maybe not the large variety suitable for the frying pan, but frogs nevertheless. Maybe they didn't fall all the way from the clouds. Maybe they have some kind of cobweb rendezvous somewhere between earth and sky that the rain disintegrates making it necessary for them to "come down to earth." Okay, bring on the straight-jacket, but Darwin had a theory, too, didn't he?

NOW, as a measure of redemption, let's turn to a serious thought. I heard a fellow say one time that he didn't want to live in a big city because it was getting too close to civilization. And civilization to him meant cruelty, greed, low morals and a disregard for your neighbors. To a certain extent, I agreed with him. Civilization is a great thing, until it loses the HUMAN touch. There's a great deal of difference in being HUMAN and HUMANE. Let's try to be both.

Many is the time I have watched the "skipper" of this column, and have noted his "contortistic" features as he scanned the final printed page of Tex's Topics to find that some word or phrase was not spelled as it should have been. So, in his defense, in my defense and in the defense of other would-be columnists who will fill this space, I quote this gem, penned by Phoenix Flame:

The typographical error is a slippery thing and sly. You can hunt till you are dizzy, but it somehow will get by. Till the forms are off the presses it is strange how still it keeps. It shrinks down in a corner and it never stirs or peeps. The typographical error, too small for human eyes, Till the ink is on the paper, when it is strange how mortal size. The remainder of the issue may be clean as clean can be. But that typographical error is the only thing you see.

'Columnist for a day.' Yes, it all looks very easy from that easy chair where we scan the day's headlines. Which brings to mind the thought that we daily readers do not give the columnist due credit. Another similar case is that of Noah Webster. It took him 21 years to prepare his Dictionary and then a lot of people give Daniel credit for it.

I'll admit that there is a great deal of sabotage and espionage in these 48 states, but even that idea can be carried to extremes. For example, the theory is now going about that the constant "sticking" of new automobile horns results from a form of sabotage, designed to unnerve the American public.

While searching frantically for something of value to fill this space, I ran across this "truism" from the pen of Hadley: "The man who has faith in the integrity of others in the face of irresponsible accusations is assumed to have the confidence in others' goodness because he is a good man himself."

This may appear to be a short column, but I make no excuses. I can only remind you of the words of Kipling, who said: "Had I more time, I would have written a short-

Behind The News In Washington

By JACK STINNETT

WASHINGTON—The house of representatives is in the doldrums. It has been shorn of its laughter, applause and cheers—at least so far as the Congressional Record is concerned. And there are some who even would welcome return of the "Bronx cheers" if they could only get the notations back into the Record that their stirring speeches didn't find the customers sitting on their hands and that their wisecracks weren't just jocular duds.

It started back in June when Rep. Clare Hoffman of Michigan asked permission to correct the Congressional Record. On a certain page, he said, following a speech that he had made, the Record noted that there was "Applause."

"There was no applause," said Congressman Hoffman, and I ask that the word struck out." This somewhat flabbergasting request made such an impression that Speaker Sam Rayburn made a rule. He pointed out that it was the chair's opinion that "applause," "laughter," etc., were not a part of the record. The word struck out. It was not incorporated into the Record and thereafter would not be.

At the moment, no one took the matter very seriously. But reading the Record, from day to day, brought a different reaction. A member got off a smart one. The house and the galleries laughed. The next day, reading the Record, he checked up to see just how funny he was and at the end of his hilarious gag was just a cold little period and after that a quick resumption of business.

Senators Get Full Credit It was the same when the members delivered themselves of those titillating orations that called for hand-claps and hand-claps. So far as the Record showed, the members might have been reading from the 3,008th page of the cumulative statistics on the life-cycle of a house fly.

Into this deplorable state of affairs the other day (all the more deplorable since the senate report in the Record, with such phrases as "boisterous laughter" and "loud applause," still shows what extent the senators are laying them in the aisles) stepped Rep. Louis Ludlow, of Indiana, who as newspaperman and congressman has been watching the Washington scene for 40 years.

In all his career there had been only one such demonstration of honesty as Mr. Hoffman's, said Mr. Ludlow. That was 35 years ago when John Shafroth, a representative from Colorado, stood on the floor and presented his resignation, stating that he had been studying the evidence surrounding his election, and that he had come to the conclusion that the other fellow had been elected.

Nevertheless, said Mr. Ludlow, the ruling attendant upon this latter demonstration of honesty had caused a lot of members of congress, including himself, "bitter anguish."

"Discourages Genius" "One of the severest indictments that can be brought against the new rule," Mr. Ludlow declared, "is that it discourages genius and initiative among the members in thinking up bright things to say."

What would happen, he inquired, if Rep. Robert Rich (of Pennsylvania) continued to find no hint of "razzberries" at the end of one of his dissertations on "where are we going to get the money?" or when it appeared in the records that all of Mr. Luther Patrick's (of Alabama) "inimitable jokes were duds;" or that Mr. Dewey Short's (of Missouri) "superb punning efforts" failed to come off?

Reasoning that the all-out effort of the Record, said Mr. Ludlow, the voters must get the idea that the senate end of the capitol is rocking with applause and laughter while the show on the house side is deadlier than a one-night Broadway turkey.

The congressman from Indiana doesn't stand alone in this, either. It's a major issue—like taxes and national defense and fixing prices.

er letter." And that's '30 on Monday for DeWesse.

For nearly two centuries, St. Paul's cathedral, London, was without bells. Its chimes were installed about 60 years ago.

SERIAL STORY SECRET VOYAGE BY JOSEPH L. CHADWICK

YESTERDAY, Jim Mallory and... SECRET VOYAGE... CHAPTER X... JIM MALLORY still looked at Mary Larsen when Lois Hammond came and slipped her arm through his.

"No. She was scuttled. The first mate, Halloran, opened the sea cocks. But she had been shelled. We didn't want her brought into port full of holes because of the excitement and the scandal it would cause."

SCUTTLED CHAPTER X JIM MALLORY still looked at Mary Larsen when Lois Hammond came and slipped her arm through his. He thought: "So she didn't become Eric Forbes' secretary."

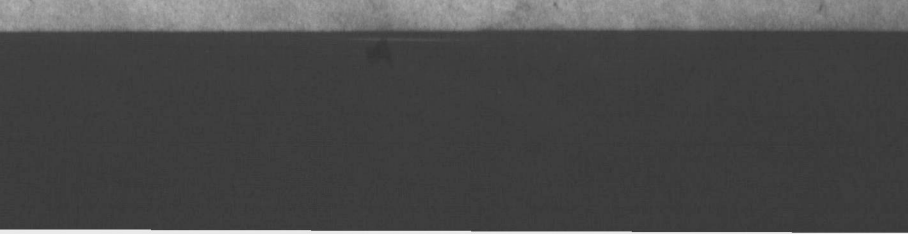

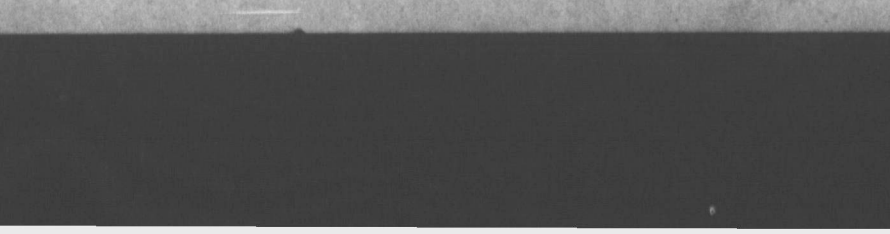

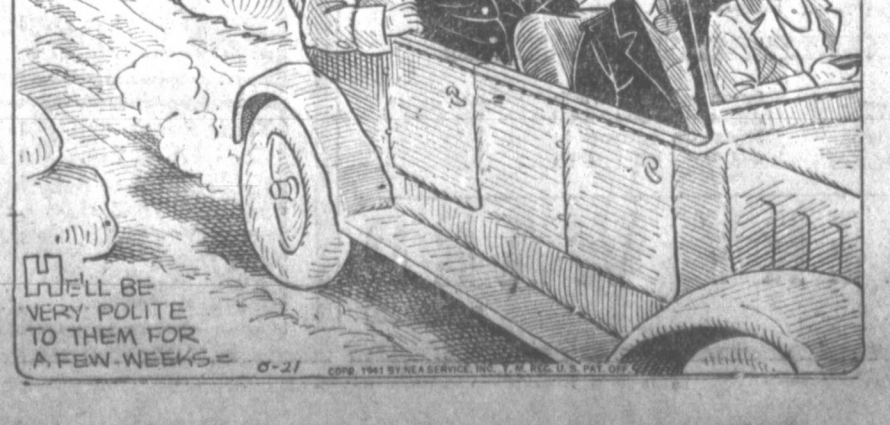

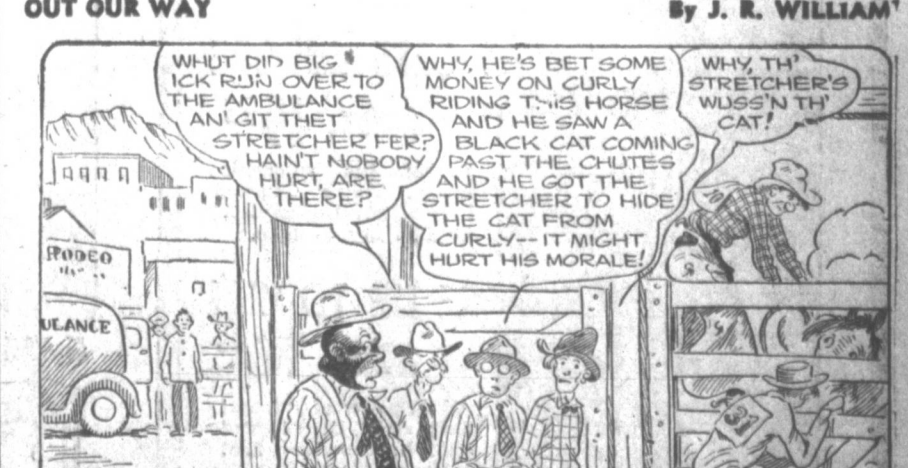

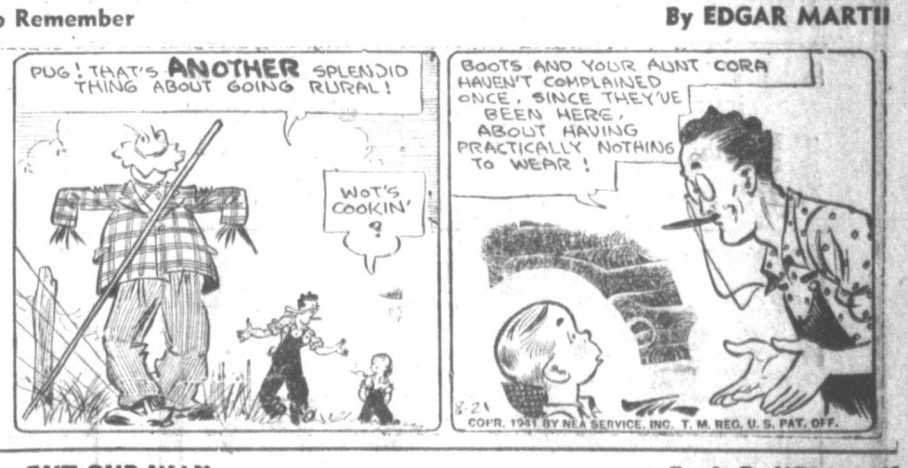

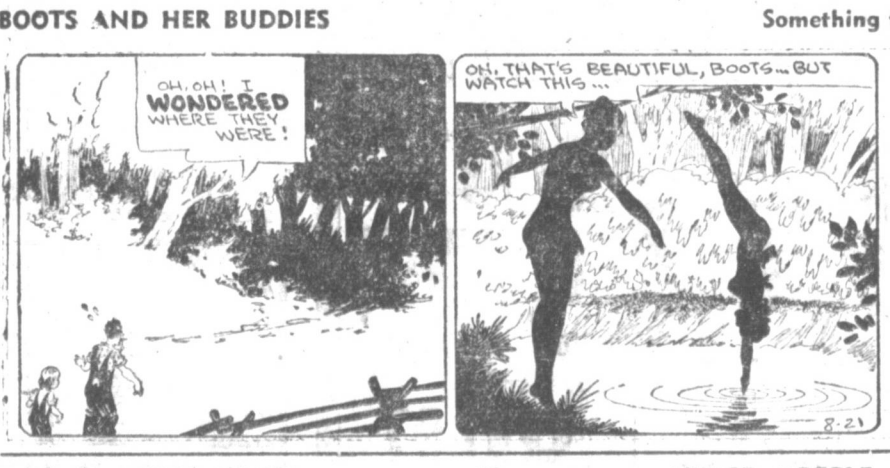

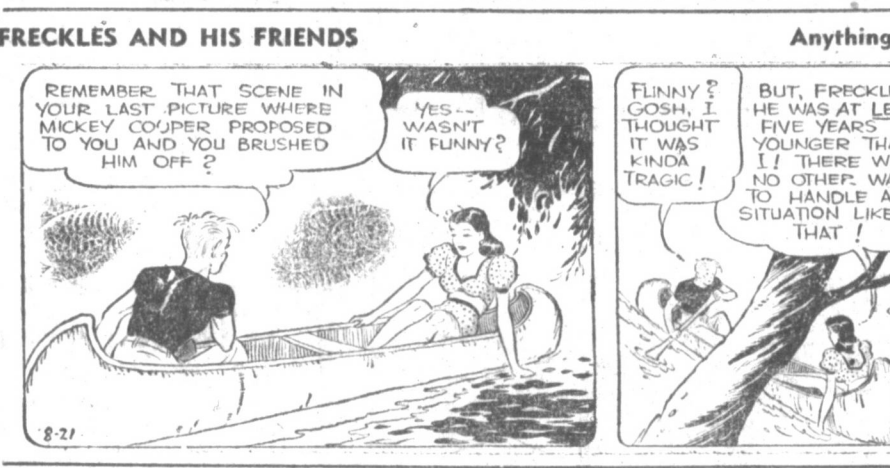

HAMMOND'S face looked suddenly old and tired. The Sonora carried oil and rubber out of South America, and not mangled. That is why the cargo was not insured.

ACCOUNTANTS NEEDED BY CIVIL SERVICE The United States Civil Service Commission has announced examinations for filling accountant positions, with salaries ranging from \$2,800 to \$5,600 a year.

HOLD EVERYTHING The Commission has amended the examination for Industrial Specialists in various fields, salaries ranging from \$2,800 to \$5,600 a year.

75,000 Soldiers Battle Mythical Army Down In Arkansas WITH THE ARMY IN SOUTHWEST ARKANSAS, Aug. 21 (AP)—The 75,000 men of the Seventh Army Corps, operating as a close-knit organization for the first time, struck at a simulated enemy at dawn today.

FUNNY BUSINESS Applications for these examinations must be filed with the Washington Office of the Commission not later than the closing dates specified.

Kibitzing 'Possums Eye Employes Of Grayson County

SHERMAN, Aug. 21 (AP)—Ground floor office workers in the Grayson county building have started a campaign against possums, since several three-quarter grown rodents have been captured there in the past 16 days.

"I have the feeling all the time that someone is looking over my shoulder," declared Jess Wall, justice of the peace.

For Highway Patrolman G. T. Avery, the thing came to a head Sunday, when he attempted to start his car parked on the south side of the plaza. From under the hood came shrieks, growls and possum swear words. One of the rodents had become involved in the fan belt.

Avery turned him loose in the county building grounds, where he was seen by several other persons Sunday.

Halle Halslip, county building superintendent, said he was mystified by the sudden descent of the rodents on the building. One employe, mindful of the well known partiality of possums for Damsion plums, remarked that possibly the animals had political aspirations.

It was believed by Mr. Halslip and some others that the animals came up the street from Post Oak creek at night, and made for the greenery and shrubs about the county building. There they lie during the day, kibitzing through the recessed windows at the work of the county employes.

State Park Boards To Meet Tomorrow

AUSTIN, Aug. 21 (AP)—The State Parks Board will meet here tomorrow and put the final touch to plans for acquiring with a \$1,500,000 appropriation the land necessary for the Big Bend National Park development.

At its Austin session the board will name a negotiator to direct the purchase of the wilderness acreage which eventually will become the fifth largest National Park.

The appropriation, made at the last general session of the legislature, becomes available Sept. 1, beginning of a new fiscal year, and the board's branch office at Alpine will begin functioning Sept. 2.

As designated by Secretary Ickes of the interior department the National Park will embrace 788,682 acres of which 112,907 are now vested in the state parks agency. This leaves 675,775 to be acquired.

When purchase is completed the area will be developed by the National Park service. Early expansion into an international vacation land—by development of 500,000 additional acres on the Mexican side of the Rio Grande—is anticipated.

Texas Women Named To Sponsor Battleship

WASHINGTON, Aug. 21 (AP)—Secretary of the Navy Knox today designated Mrs. Lewis C. Robbins, daughter of Governor Henry F. Schriker of Indiana, to be sponsor of the 36,000-ton battleship Indiana at its launching December 19 at Newport News, Va.

Mrs. Robbins is a resident of Wichita Falls, Tex.
