## NATIONS ENDORSE ARMS TRUCE

### TUESDAY'S ELECTIONS TO DECIDE CONTROL OF HOUSE

#### LEAGUE ISSUE MIGHT WORRY HOOVER MUCH

NEW YORK TO PASS ON ROOSEVELT-SMITH QUARREL.

#### DEMOCRATS HOPEFUL

LONGWORTH SUCCESSOR WILL BE CHOSEN IN OHIO

WASHINGTON, Oct. 31. (AP)—A ghost of other days—the League of Nations issue—made Halloween return to the whispering galleries of politics today as President Hoover's enemies measured the strength of both William E. Borah and Hiram W. Johnson as possible candidates against him.

While the politicians were pondering Johnson's appeal to "the ballot box" to head off further participation in the league, it developed that Borah, too, had been listening to speculative predictions of what he might do if he went into the republican primaries.

Speculation intense. Neither Borah nor Johnson has said "yes" to these promptings. Both, however, are impressed by the possibility that Mr. Hoover's cooperation with the league in the Manchurian trouble may become the vehicle for a new political war in 1932.

Today's presidential speculation all but blanketed the capital's tense interest in the results of Tuesday's election.

Democratic or republican control of the new house depends largely on the outcome of five special elections for the filling of vacancies in New York a decision will be made on the issue between Governor Roosevelt and Alfred E. Smith over a forest conservation amendment to the state constitution. Governors will be elected in New Jersey, Kentucky, and Mississippi.

Wets insistent. Meanwhile, the puzzling prohibition issue arose anew in the deliberations of national democratic leaders as Mayor Cermak of Chicago went to New York to assure Alfred E. Smith and Chairman John J. Raskob of the national committee of support of their demand that there be no sidestepping of the wet and dry controversy.

With Smith and Roosevelt at war, close notice was given to a statement by Mayor Cermak today that "the democrats can win if they stand firmly for a candidate of the Smith type." When Cermak was left in New York he said Governor Roosevelt looked all right to the democrats of the middle west.

Ohio Race Hot. Tuesday's election will leave only two vacancies in the house, which now has a lineup of democrats, 214; republicans, 213; farmer-labor, 1. The day will see the election of a successor to the late Speaker Longworth from the Cincinnati, Ohio, district where a ding-dong contest has been in progress.

Democrats are hopeful of capturing the eighth Michigan seat, left vacant by the death of Representative Vincent, republican. They expect to keep the 20th Ohio and 7th New York, normally democratic.

The republicans count upon retaining the 2nd Pennsylvania and both the Ohio and Michigan districts to give them control of the house.

#### Brunow and Studer Back From "Hunt"

Dr. V. E. von Brunow and John Studer returned yesterday from New Mexico where they went on a fruitless search for deer. They went to Black Lake, 15,000 feet altitude, hoping to find deer from the many hunters flooding New Mexico.

However, the hunters were present and the altitude appeared to be too high for deer.

One other party returned to Pampa last week without even sighting a deer, due to the large number of hunters.

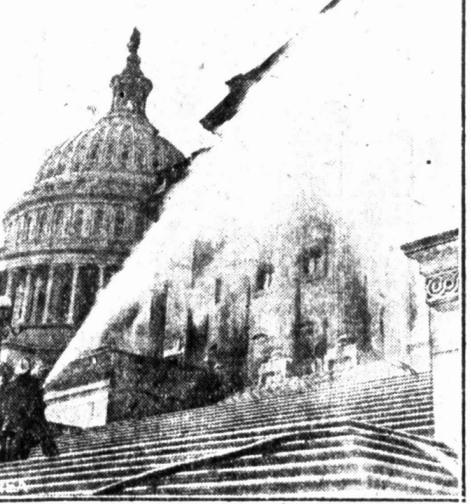

#### Skellytown Safe Robbed of \$400

Carson county officers yesterday were searching in the vicinity of Skellytown for a safe stolen Friday night from Brandt's dry goods store.

The safe was said to have contained nearly \$400 in cash and checks. It was hauled away in a small vehicle, probably a truck.

Two overcoats also were taken. Entrance was made through a rear door, which was pried open.

#### CAPITOL GETS IT'S FACE WASHED

Don't be alarmed—you won't be taxed to pay for a new national capitol. The historic structure didn't take fire, as this photo might indicate. Washington firemen simply were giving the building a bath in preparation for the next congress session.

#### EXPLOSION AT BELL REFINERY SATURDAY JARS HOUSES HERE

PUMP HOUSE, TOTALLY DESTROYED BY FLAMES.

Mystery surrounds an explosion which completely destroyed the pump house at the Bell refinery a mile east of Pampa at 8 o'clock yesterday morning. The shock was felt in Pampa. Houses shook and the explosion was heard by several citizens.

The Pampa fire department answered a call to the plant and succeeded in putting out the fire which followed the explosion. Water and foamite was used on the fire. Luckily no one was near the building at the time of the explosion.

Officials scout the idea that a flash occurred in the pump house where a pocket of gas could have gathered.

Only the quick work of the Pampa fire department kept the fire from spreading, company officials declare. Nearby buildings were scorched by the flames but were kept from burning by throwing streams of water on them.

#### RAISE IN OIL PRICE ON WAY

OKLAHOMA GOES TO 85 CENTS BARREL ON MONDAY

TULSA, Okla., Oct. 31. (AP)—Runners were by definite announcements today, and the mid-continent oil industry let out a joyful whoop when it learned a long delayed increase in the price of crude oil was actually on its way.

The Continental Oil company broke the glad news shortly before noon with an announcement from Dan J. Moran, president, that the company would raise crude oil prices Monday morning from the present total of 70 cents a barrel to 85 cents.

This announcement was followed quickly by word from E. B. Reeser, president of the Burnsdall Oil company, and Homer Wilcox, of the H. F. Wilcox Oil and Gas company, that their companies would meet the price increase immediately. Late in the day the Phillips Petroleum company was added to those who will get the higher scale.

From other companies came indications that their prices would be met. It was learned the Texas company, the Gypsy Oil company (Gulf), and Carter Oil (Standard of New Jersey), probably would issue a new schedule Monday or sooner to conform with the posted increase.

Among the major companies, the Stanolind Crude Oil Purchasing company (Standard of Indiana) and the Sinclair Oil and Gas company, made no announcements and failed to indicate whether they would meet the increase or hold to their present schedule of 46 to 70 cents.

## MAN ADMITS SLAYING OF THREE MEN

### PAIR ROBBED BEFORE BEING FATALLY SHOT

OFFICER WHO TRIED TO ARREST HIM ALSO SLAIN

### ARRESTED IN TEXAS

MYSTERY HAS PUZZLED OFFICERS FOR TEN DAYS

DADELA, Okla., Oct. 31. (AP)—A confession that he shot and killed two men near Ultima Thule, Okla., after he had robbed them and that he shot to death a third man who attempted to arrest him, was made tonight, county officials said, by Charles Draper, 29, of Millerton, Okla.

Draper was rushed to the McCurtain county jail by eight officers of Oklahoma, Texas and Arkansas, who captured him early today at a farmhouse 10 miles southeast of Clarksville, Texas.

Murder charges were filed against Draper in connection with all three deaths by County Attorney L. E. Milfin who obtained the confession.

Draper said he did not know any of the three men he killed. One was identified as E. S. Chappels of Springfield, Ark., and another as Leonard O'Dell of McCurtain county. Officers believed the third man not identified resided near Antlers, Okla.

Both Men Slain. The prisoner told Milfin he was picked up by Chappels and the unidentified man near Valliant the morning of October 18 and stopped at his home at Millerton, where he obtained some whiskey. The three drove to Broken Bow, where they obtained gasoline and continued on U. S. highway No. 70 to a point near Ultima Thule.

Draper said he forced the two men at the point of a gun into nearby woods and forced them to remove their clothing. He took \$74 from Chappels' clothing and a purse with some small change from that of the younger man.

He then shot the young man through the heart, he related. Chappels started to run, and Draper said, he shot him three or four times, killing him instantly.

Shot Officer. Throwing some brush over the two bodies he started toward the highway. He was halted by O'Dell who asked him if he had killed a deer. Draper replied he had. O'Dell drew a pistol and demanded part of it. Draper said.

O'Dell then told him he was under arrest and started with him to the jail.

#### Panhandle Gridiron Boys Go on Strike

PANHANDLE, Oct. 31. (AP)—For the time being Panhandle is without a high school football team, seven members of which are on a strike.

Because members of the girls pep squad were severely reprimanded and then suspended from school for attending the Panhandle-Clarendon football game at Clarendon, Friday, against orders from school authorities, all except four members of the football team, in a temperamental "huff," turned in their uniforms.

They declared they would not play another game until the authorities made suitable amends.

The coach is expecting the boys to report for practice Monday.

#### Elk City Man Claims Car That Officers Seized

W. W. Killough of Elk City, Okla., claimed a 1929 Chevrolet coupe being held by city officers this morning. The car was found by J. P. Cramer last Monday night abandoned on the Clarendon road two miles south of Pampa.

Mr. Killough said the car had been stolen from his place in Elk City last Sunday night. It carried a Gray county license number and was registered in the name of a sister, who formerly resided here. It is believed the car was taken by persons who wanted to come to Pampa looking for work. It was not damaged.

#### 1931 "CRUSOE"

After six months on a tiny island in the Pacific, Gordon Brawner, above, of Springfield, Ill., and two companions were rescued and taken to Panama on a United States gunboat. Brawner and his companions were cast on Cocos island when their yawl was wrecked in a storm and lived on fish and coconuts.

#### ARMY'S DRIVE FOR FUNDS TO BEGIN MONDAY

SALVATION HALL HAS BECOME MECCA OF NEEDY

#### MANY CHILDREN ARE FED

CITIZENS ARE URGED TO CONTRIBUTE TO WORK

The Salvation Army's annual drive for funds to keep the local unit going will begin tomorrow morning and continue through November 10, according to H. L. Ryan, who is in charge of the work here.

Mr. Ryan pointed out that the Army has a large following of children and grown-ups whose means of support cannot be depended upon to get them through the winter without help. Some of the dependent families have as many as eight children, with the father working at odd jobs and making very small sums. There are a number of invalid and crippled fathers who will not be able to work for a number of months. There are widows who are struggling with poverty and illness.

In distributing bread, the Army's staff has seen children grab dry bins as if they had not eaten for days. The current drive is intended to spread some of the comforts of life to those who are in dire want.

In appealing to Pampa citizens, Mr. Ryan said "there are always a few who give to the cause of suffering humanity. I am appealing to a greater number to join this movement because the need is so much greater this year. When the representative calls at your home or place of business this week, we ask that you give your best. Success in our work among those in need will be made possible only if everyone does his best for this cause."

#### Two Die As Plane Burns in Crash

WACO, Oct. 31. (AP)—Lieutenant Wayne Bone, pilot, Kelly Field, and Edgar Thompson, 18, passenger, were killed late this afternoon when their plane crashed near Gatesville.

The accident occurred within sight of Gatesville and a large number of Saturday afternoon shoppers witnessed the crash. The plane dropped in a pasture one mile south of the town.

Both men were apparently killed instantly. The plane had burned up when the first of the crowd to see the accident arrived.

Cause of the tailspin which the plane went into was unknown immediately.

Bone is the son of Police Chief Tom Bone, Gatesville. Thompson is the son of Mrs. Dick Thompson, of Gatesville.

#### Truck Strikes Car Kills Law Student

WACO, Oct. 31. (AP)—Bob Masterson of Beaumont, senior law student at the University of Texas, was fatally injured today when the automobile in which he was riding was struck by a cotton truck on the highway three miles south of Hillsboro.

Miss Nancy Gestling of San Antonio, also a University of Texas student, received internal injuries. Physicians said an operation might be necessary.

Julius Gordon of Beaumont, driver of the car in which Masterson and Miss Gestling were riding, was slightly bruised. Gordon is also a student at the University of Texas.

The students were en route to Dallas to attend the Texas-Southern Methodist football game today.

Masterson was the son of Judge and Mrs. R. E. Masterson.

#### HELPS THESE

Here is H. L. Ryan, Salvation Army head here, and two little tots who are typical of the many who call at the Army headquarters for food and clothing.

#### RAILROAD FUND MUST BE PAID

CHAIRMAN DAVIS HAS APPEALED FOR RESPONSE

Pledges to the railroad fund of the Fort Worth-Denver Northern MUST be paid this week, preferably tomorrow, announced Mel B. Davis, chairman of the drive last night.

The right-of-way committee has taken options on most of the land needed in the city and county. These options require payment beginning Monday and closing Thursday. Work on the line cannot proceed until the funds are in hand and paid on the land. The contractors are on the ground, they have completed certain portions on donated land, and they are ready to move and to provide employees for many of Pampa's jobless men.

Mr. Davis asked THE NEWS-POST to appeal to the public, in behalf of the railroad committee, to go to the White Deer Land building Monday and pay their pledges to A. J. McAllister, who has his collection office there.

A committee of local men pledged the railroad that Pampa people would furnish the right-of-way and terminal facilities in this county. This promise was on the basis of pledges made to the committee at mass meetings. The zero hour has come—the pledges must be paid.

It will require \$45,000 to redeem the options which have been taken. Tomorrow that money is due and payable to the railroad committee, Pampa fought long and valiantly to secure the I. C. C. permit for the line. Work on the Pampa-Childress project has been started but cannot progress without local citizens concluding their campaign with redemption of their pledges. Unless the work can proceed, the line cannot be completed in time to handle next year's wheat crop and conceivably might be delayed several years.

#### Bouknight Freed On Murder Charge

HOUSTON, Oct. 31. (AP)—F. L. Bouknight was acquitted by a jury in criminal district court early Saturday night.

The jury called for the judge at 7:07 p. m. and the verdict was read at 7:43 p. m. after Judge Whit Boyd arrived at the court house and took the bench.

Bouknight had been charged with the murder of W. L. Edwards, air-transport, slain here nearly two years ago.

Prosecution testimony was to the effect that Bouknight, secretary to T. P. Lee, wealthy oil man, employed Frank Adams and Sam Peretta to hold up Edwards for certain papers, and that Peretta shot Edwards to death with a saved off shotgun when the airport promoter reached for his own pistol.

#### AMARILLOAN ARRESTED

AMARILLO, Oct. 31. (AP)—Charged with possessing and passing of counterfeit federal reserve notes, Billy Culwell, former assistant Potter county attorney, this morning made \$3,000 bond before the United States commissioner here, and Horace Wells had failed late tonight to make similar bond.

#### THE WEATHER

WEST TEXAS: Fair, warmer Sunday; Monday partly cloudy.

#### THIRTEEN IN AGREEMENT TO QUIT BUILDING

HOLIDAY WOULD BEGIN TODAY AND LAST ONE YEAR

#### NO WORD FROM ENGLAND

NAVY LEAGUE MAKING MEMBERSHIP LIST FOR HOOVER

GENEVA, Switzerland, Oct. 31. (AP)—Thirteen nations, including the United States, have signified their willingness to participate in a 1-year armament building truce proposed by the Council of the League of Nations, and although there was no official statement from the league secretariat today there was a disposition to believe that some sort of arms truce can be put into effect.

The building holiday, the league proposed, would begin tomorrow and continue for 12 months. France accepted conditionally, asserting that she was willing to participate if the nations which border that country also agreed.

So far, in addition to the United States and France, affirmative replies have been received from Japan, Russia, Hungary, Holland, Australia, New Zealand, Czechoslovakia, Egypt, Albania, Latvia and Luxembourg. Great Britain has not replied nor has Switzerland, and there has been no word yet from Italy or Germany.

Italy's willingness is taken for granted, as that country proposed the armaments truce.

WASHINGTON, Oct. 31. (AP)—Navy league workers today were busy preparing a membership list from which President Hoover will select jurors to try his case against the organization.

Chargers William H. Gardner, president of the league, with disseminating "untruths" about his naval policy, the chief executive intends to appoint a committee before which he says government agencies will demonstrate the league's statements are baseless. The committee will be composed partly of league members.

There were indications Mr. Hoover had already begun marshaling facts upon his side of the controversy. Among his callers today were Secretary Adams and Admiral Hugh Rodman, retired. Neither would comment as to their conference, or whether they had discussed the Navy league controversy.

The secretary of the navy consistently has declined to make any statement concerning Gardner's claims that the president intended to "starve" the navy, that unrevoked agreements had been reached in 1929 between Mr. Hoover and Prime Minister MacDonald of Great Britain, and that his policies would result in an unfavorable comparison between the United States fleet and those of England and Japan.

#### SPECIAL TRAIN KILLS FOUR

KEATCHIE, La., Oct. 31. (AP)—A special football train, traveling from College Station, Texas, to Shreveport, La., struck a cottonseed meal truck here today, killing three persons.

Odys Anderson, 38, and Barren McCarty, 25, white men of Cushing, Texas, and a negro known only as Ebenezer, all riding on the truck, were the victims.

Gasoline from the truck caught fire as the crash occurred and sprayed into the locomotive and badly burning the engineer. Two bodies of Anderson and McCarty were also fired by the burning gasoline.

The accident occurred at a grade crossing in the center of Keatchie. The train proceeded with a new crew after delay of an hour.

## ABOUT NEW YORK

By WILLIAM GAINES

NEW YORK.—Peeping at personalities: Edward G. Robinson, big shot of the movie gangsters, who came here to be bold and bad in vaudeville, fascinated the habitués of the night places.

In some establishments his most casual dropping-in would be the signal for a miniature demonstration.

Mayor Jimmie Walker's sporting of that beret when he came home from Europe has given larger impetus to the fad here. Many more shops display berets for men, including several conservative houses.

And Otto Kahn does his bit for vests with that narrow white trim.

Max D. Steuer shuns the usual whispered consultations with co-counsel when he is in action in the courtroom. Nor does he bother much with notes: his memory has caused many to marvel.

Suddenly to behold Primo Carnera parading down an avenue is something startling indeed—at first you think he's one of those advertising fellows on stilts.

Little boys follow him, but Primo shows no concern. He is, by the way, in demand at some social functions, and on various swanky beaches last summer he was seen in the company of several debs.

### Slow Motion Pictures

Katharine Brush's hobby is astrology.

Lily Pons, France's gift to the Metropolitan last season, has been studying her English assiduously while on her summer excursions and, it is reported, will do a musical movie next year.

Philip Moeller, the stage director, is an accomplished pianist.

Lyda Roberti's father was a celebrated European clown.

Burns Mantle, who attends the theater as a business, finds his diversion in his young daughter, Margaret, Lillian Tashman, who passed through here en route to the Paris gown marts, has five feet, seven inches of personality to decorate.

## Washington Daybook

By HERBERT PLUMMER

WASHINGTON.—That fiery, pugnacious and hard hitting senator from Iowa—Smith "Wildman" Brookhart—probably chuckled to himself when he read the papers the other morning and said, "Verily, all things come to him who waits."

For there was reported the rumor that President Hoover had selected Daniel Frederick Steck of Ottumwa, Iowa, as a member of the tariff commission.

Now it so happens that Brookhart and Steck have no love for each other personally and politically. They don't speak, although they served side by side for years in the senate, representing the same state.

Steck must be confirmed by the senate before he becomes a member of the tariff commission. And unless the unexpected happens, Brookhart will have some choice things to say in the senate about him. Already he has said significantly:

"I'll attend to it when the time comes."

### Five Year Fight

The Brookhart-Steck "feud" started five years ago when Steck took Brookhart's seat in the senate from him in an election contest. It has continued unabated since.

Neither attempts to conceal his feelings. In that bible of official Washington—the Congressional Directory—for example, in the biography of each which they wrote themselves, Steck points out:

"Seated after a contest with Smith W. Brookhart," Brookhart goes further. He writes:

"Received certificate of election certified by the executive council of the state of Iowa which showed his (Brookhart's) election; but notwithstanding, the senate of the United States disregarded the Iowa election laws and seated his Democratic opponent (Steck)."

Proudly he adds in the next line:

"I immediately entered the Republican primary as opponent of Sen. A. B. Cummings and defeated him for the Republican nomination by 71,527 votes."

Spats are all right for a bachelor, but bad for newly-weds.

Jack Sharkey may go into the movies. He may not be the next heavyweight champ, but he'll be a wow in the talkies.

International manufacturers are planning to sell automobiles in 107 carless countries. Imagine getting pinched for making a left turn in Borneo.

Well, anyway, it will give Zulus one more reason for divorce when their wives began to drive from the back seat.

## THE STAR BOARDER!

## PAMPA TOPICS OF OUR CITY

A junior chamber of commerce is proposed for Pampa. We are unqualifiedly for it. Pampa has led in many things; Pampa is not afraid to experiment with ideas which appear good.

Not New Club Actually, the junior chamber idea is no experiment; it has proved its value in cities of all sizes. It is not a new organization, but integrally would be a working unit of the old group, despite the fact that it would have separate officers. Its coordination with the senior chamber would be through an interlocking directorate.

Theoretically, there should exist no need for a junior unit. Men and women of all ages should join and work with the older organization. But the fact is that older men usually make up the majority of the directors of the senior units. There are sound reasons for this. Certain large interests, certain civic leaders, are needed and should be directors. This crowds their junior partners and executives into the background. Younger men, of unquestioned ability and integrity, often are very useful despite the fact that they have not "arrived" at the so-called mature age of judgment and wealth. They hesitate to speak out frankly and energetically in the presence of older men, some of whom may be their clients or even bosses.

Need Young Men Every community has work which needs the attention of lively, enthusiastic men of under 35 years of age. Much of a city's work can just as well—some better—be done by the junior group. In this age of fast progress, thorough education, and instant communication, youth attains soundness much earlier than it did two or three decades or more ago. This is a youthful age. Expression of youth in civic affairs is very essential.

Junior chambers bring into action the future leaders of a community. Every community should be eager to welcome the use and training of its young man power. The older men will pass on, their work done. A survey of chamber directories shows that less than 10 per cent of the members are under 35 years of age. The junior chamber corrects this condition.

### They'll Grow Up

Almost invariably the wise executives of senior chambers are glad to place younger men on their committees. Moreover, in a few years the young men trained in the junior work make skilled directors of the senior organization. They know in advance what to do, what to expect, what to initiate. They have, by reason of their public work, earned the acquaintance and respect of the powers that be. They have made followings in the citizenship of all ages. Young men, like boys of scout age, need the counsel of older men, and the older men in turn are benefited through contact with and sympathy for the youthful viewpoint.

### Youthfulness Lingers

The age of the "old fogey" is passing. No longer, in West Texas do we find reactionary deadwood in the chamber saddle. Old men in years are young in mind and interests in this section. You find them cheering on the gridiron, singing in quartets at civic clubs—in short, they have retained their youth and they enjoy the company of youth. There is no reason why the junior unit should detract in any way from the prestige and powers of the senior organization. It will, indeed, aid and strengthen the older chamber and will enable a more equitable distribution of responsibility and opportunity between the younger and older men of the city. There are, in almost every city, too many men NOT participating in chamber of commerce work.

## WHAT OTHER EDITORS THINK

YOUR HOME TOWN DAILY

To the outside world newspapers are more or less an index to the communities in which they are published. Recent comments on the character of the newspaper the Herald is publishing have been of no little interest to the publishers of the paper.

Probably readers of the Herald would be somewhat interested in the remarks.

Only Saturday night a representative of a news picture feature service, who has completed a swing of all the daily papers in Texas, stated that he was surprised to find a Sunday morning newspaper in Plainview under the conditions which maintain here now. He said that it is remarkable that the Herald has maintained its leased wire to bring daily to the people of Plainview adjacent country the full news of the outside world, while so many papers in towns even larger than Plainview are abridging their wire service to a few thousand words a day and have cut down the reading content of the paper in keeping with advertising available.

Now those who think it is an easy thing to maintain a full leased wire daily newspaper in times like these have another guess coming. It is no easy thing to do. It is not an easy thing to even temporarily operate a daily newspaper when income will not meet expenditure.

The Herald is imbued with a sincere desire to serve this community and it is thoroughly aware of the fact that this newspaper is an index to the outside world of general conditions in Plainview. The Herald has no desire to hold up this community in an untrue light, but it has never a minute lost faith in the Plains country, in Plainview, and the surrounding towns and it does want to do its part in maintaining confidence at home and abroad.

As a section we have forged too far ahead in this great section of Texas to permit temporary conditions to undo the good work of years. We cannot afford to allow today's depressed conditions set us back too much. Let's look to a five-year or ten-year average and keep everlastingly sawing wood.

In this connection the Herald wants to express its appreciation for every penny of patronage that the business men and citizens in general have given to it. On a basis of the value of the service its advertising columns can render the individual, and on a basis of whatever value this publication may have in the general upbuilding of the town and its surrounding country, a much needed continuation and increase of patronage is respectfully solicited. The Herald will build as good a newspaper and maintain as good a newspaper as the community will allow it to maintain. That's a pledge to this community.—Plainview HERALD.

### NO TIME FOR LIQUOR SHOWDOWN

Regardless of whether one endorses Governor Murray's actions in general, his speech at Dallas before the thirty-sixth division reunion is entitled to general approval, especially that part of it which was concerned with the American legion's proposal for a referendum on the modification of the prohibition act. The same expression may well apply to the entire prohibition laws.

The Oklahoma governor asserted the cry should be: "Give us bread and butter, beans and bacon, rather than give us beer." We have a thousand years in which to discuss temperance, the proper method for baptism of infants and the infallibility of the Pope.

Regardless of the governor's wisdom as demonstrated in other matters this is one time that he is right. There should be but one issue of importance in the political campaign of next year. Certainly prohibition and the possibility of repeal should be side-tracked for the time being while serious effort is made to solve the economic problem.

Unquestionably it is possible to solve several issues at one election in theory, but we have learned that in practice, due to prejudices and passions, the outcome of elections usually is determined by one issue and only one. This is particularly true when prohibition happens to be an issue.

We know beyond reasonable doubt that the people cannot consider prohibition calmly. If it is thrown into the next campaign it will be given consideration to the exclusion of everything else. This is not a time to argue over the wisdom of the people in such a situation. We know it to be the case. Such a contingency can be avoided only if we keep prohibition out of the campaign.

If we attempt to pass on prohibition the economic issue will be given little consideration. It happens to be the big issue at this time and we should take action to make it such. We can't do it by demanding a showdown on prohibition.—Vernon RECORD.

### Battle Of LeFors And McLean Teams Is Ended In Tie

LEFORS, Oct. 31. (Special)—LeFors and McLean high school football teams battled to a 13 to 13 tie on the LeFors gridiron Friday afternoon in one of the toughest and most sensational games of the season. Both teams played a hard brand of football that had the crowd on their feet from the opening whistle.

Both teams penetrated the other's 20-yard line five times but McLean took honors on first downs, with 20 to LeFors 15. LeFors completed four passes to none for McLean. The Wildcats intercepted two of McLean's heaves over the line.

Crickett stood out for McLean while Carter, Stewart, and Hall were shining lights for the Wildcats. McLean opened the game with a determined march down the field which netted them the first touchdown of the game. Crickett carried the ball over on a fourth down. The attempt for extra point failed.

LeFors scored in the second quarter by line plunges which carried the ball to the 15-yard line. On a reverse play Stewart carried the ball across. Carter passed to Watson for the extra point.

McLean went into the lead in the same quarter when they blocked a LeFors punt and ran the ball across the goal line. They bucked for the extra point.

LeFors evened the count in the third quarter on a march down the field. Passes, and runs and crisp cross plays carried the ball down the field with Hall taking the ball over. The winning point failed to clear the goal.

The game closed with McLean taking to the air but unsuccessfully.

## SAM

BY FREEMAN LINCOLN

Chapter 35 BOUGHT BUT UNDELIVERED "THERE!" Eugene beamed and pointed a triumphant finger at Nelson. "What did I tell you, Mr. Alderson? I told you that your sister was a sensible young woman and that she'd catch on quick as a wink. I told you that she wouldn't make any trouble!"

Sam had a strange feeling of detachment. From what seemed a great distance, she heard her own voice. "I won't make any trouble. Just tell me what you have to say. Tell it as quickly as possible." "That's right. We'll just hand out the facts and we'll make it as snappy as we can. I believe in that." The widow leaned back in her chair. "Well, in the first place, I never thought much of Mr. Alderson's invention? I had it investigated, and I decided it wasn't any good—much too expensive to manufacture. On account of that I couldn't believe my ears when you told me that somebody had paid him a lot of money for it. It didn't sound right. It sounded fishy, and the more I thought about it the fishier it seemed. I made up my mind something was wrong, and I made up my mind to find out what it was."

"And you did?" Sam inquired tonelessly. "You must have, or we wouldn't be sitting here now." "I did." Eugene nodded. "At least my agents did. My agents are a clever bunch, Miss Sherrill, and I don't mind saying they had a hard job this time. The A. A. Burke Manufacturing Company was a tough nut to crack. It took a lot of cagey work to get a man in their office, and it took a lot more cagey work for him to find out anything after he was there. He spent days and days—"

"Please, Mrs. Frye!" Sam interrupted firmly. "Do you mind my saying that I'm not interested in the way this thing was discovered? I'm not. I just want to know what was discovered. Is it—has Fourth been—dishonest?"

"Dishonest? I should say not!" The widow was shocked. "Nothing of the kind! Mr. Alderson thought, and he still thinks, that everything is just as advertised."

"Oh," Sam shrugged. "Then that's something. I was afraid."

"There's nothing for you to be afraid of," said Eugene severely. "I should think you'd know that your father isn't that kind of man. He has just been deceived. He's been tricked all along the line."

"Has he? How?" "Well, it's this way. The Burke Manufacturing Company aren't behind your father at all. He has an office at their place, and they sign the checks they give him, but all that is just a blind. The Burke crowd is just acting as agent for somebody else. Somebody else is doing the paying."

"But why?" Sam was bewildered now, and incredulous. "If the invention isn't any good, why would anybody pay him a lot of money for it and pretend that it is going to be put on the market? Who would be such a fool?"

"That's the funny part," Eugene glanced at Nelson. "That's why I came to your brother instead of you. When I found out who was doing this thing, and why he was doing it, I decided I'd better talk to your brother first."

"But why?" Sam was still more bewildered. "I don't understand! Who could be such a fool? Nobody could! Absolutely nobody, unless—" Sam suddenly went pale. She seemed to shrink back in her chair, and there was a long moment of absolute silence. Then she spoke in a small, strained voice. "Unless it could be—Peak Abbott! It isn't Peak Abbott is it, Nelson? Tell me it isn't!"

Nelson's eyes shifted from hers and he coughed nervously. Eugene said quietly: "Yes. You're right. Mr. Abbott is the man."

There was another long period of silence. Then Sam said pleadingly: "Peak Abbott? But why? Why should he do such a thing?"

### "QUEEN OF THE PLAINS"

Lucille Mulhall, the "original cowgirl," helps the west keep a touch of its old romance with her ranch in Oklahoma. Below she is shown on Eddie C. the "wonder horse," as she gave a riding demonstration 25 years ago, and in front as she appears today. Above is a scene on her father's 80,000 acre ranch 40 years ago.

MULHALL, Okla. Oct. 31. (AP)—On a small Oklahoma ranch, remnant of a once magnificent 80,000 acre estate, Lucille Mulhall, the "original cowgirl," has been left to carry on, almost alone, the traditions of the old, romantic west.

She is the daughter of Col. Zach Mulhall, whose recent death severed one of the few remaining links with Oklahoma's glamorous yesterday.

Ranch-born and reared, she became so expert at riding and roping that while still a little girl she helped her father and brothers manage their vast holdings.

Colonel Zach, who promised his 7-year-old daughter all the calves she could rope and brand herself, soon realized this mistake and begged off his bargain.

Twenty-five years ago she won a world championship at tying wild steers.

President Roosevelt called her the best woman rider than in the saddle, and it was at his suggestion that Colonel Zach put her on the stage.

Tours of the United States and later of many foreign countries followed for the "Queen of the Plains."

Tom Mix and Will Rogers once roped calves and tended branding fires on the old Mulhall homestead, and many important visitors to the southwest made the ranch their headquarters.

Lucille Mulhall, returning with her father to Oklahoma when her troupe days were over, found a changed order.

Pastures were fenced in, signboards and filling stations lined the newly-laid highways and everywhere was evidence of the "rule of the monarch" oil that had come to supplant cattle.

Motor cars were routing broncos—except in the "carriage house" at Mulhall's where Eddie C., the wonder horse, was stabled to pass his declining years.

The big white horse is still there, pride of the Cimarron country. Col. Zach paid \$1,000 for Eddie C. and refused offers of three times the amount.

"Something fine has passed with the old life," the "original cowgirl" says. "This new day is probably fine, too, but I loved the unfenced range and the open prairie and the boundless friendliness of the cattle country."

Eddie C. could he speak, probably would agree.

## UNIQUE COSTUMES WORN BY BAPTIST WOMEN AT PARTY

NAMES ARE WRITTEN ON SUIT WORN BY CLOWN

Then there were negroes, clowns, ghosts, sailors, Spaniards, gypsies, colonial ladies, Dutch girls, Turks, bums, and hoboes. One guest wore an old-time black veil and a dress that was in style many years ago.

Jolly Games Played

The crowd joined in a game in which each was to guess the identity of the others, as well as in "feeding corn to Mr. Jack," an apple race, "blind feeding the blind," a banana eating contest, and other features.

After the games all were invited into other rooms of the church on

## CHILDREN DELIGHT IN LETTER

State Superintendent Urges Pupils To Take Good Care Of Textbooks and Other Property Owned by Public

To receive a letter from S. M. N. Marrs, state superintendent of public instruction, was a "thrill" that comes once in a lifetime for Hazel C. Bath, Ludine Luttrell, and Betty Ann McTaggart, all pupils of Woodrow Wilson school. In reply to letters which they wrote the superintendent, they received the following message:

"My dear children:

"I was very much pleased to receive your letters concerning the new textbooks. I am glad to know that you appreciate the books, and that you are thankful for what the state does for you in securing an education. In some states, such as New Mexico, Kansas and Arkansas, children are required to buy their books, and frequently poor children are unable to secure the books that are necessary.

"Texas is lending you these books and you should treat them in the same manner as you would if you had borrowed them from some friends. Of course you will be expected to return them in good con-

### MANY HEADS OF COLLEGES WILL ATTEND

#### TO BE "FOLLOW UP" OF WHITE HOUSE CONFERENCE

By MRS. WILL T. DECHERD

The twenty-third annual convention of the Texas Congress of Mothers and Parent-Teacher associations which is to be held in San Antonio Nov. 10-13, will be in the nature of a "follow-up" meeting of the White House conference on Child Health and Protection, according to Mrs. Noyes Darling Smith, state president of the Texas congress. The convention has as its general theme the Challenge of the Children's Charter, a document consisting of 19 principles of child welfare based on the findings of the White House conference which was held last November in Washington, D. C.

Although President Hoover requested every state to hold a follow-up conference, Texas up to the present time has not been able to do it. When Mrs. Smith as chairman of the convention program secured as speakers for the congress convention Dr. Ray Lyman Wilbur, secretary of the interior, director of the white house conference and national chairman of the Illiteracy committee, and Dr. Charles G. Mappis, a member of the national advisory committee on illiteracy, she immediately saw the opportunity to make this occasion one of great benefit to Texas by bringing together at the state and educational forces in Texas to study how the 19 principles of child welfare could be realized in Texas for every child, regardless of race, color, or situation.

In accordance with this plan, Mrs. Smith has invited all persons interested in child welfare and education and the wiping out of illiteracy in Texas to hear Dr. Wilbur on Wednesday evening, Nov. 11, at the auditorium in San Antonio. She has given over the convention program in favor of the illiteracy luncheon planned by Honorable S. M. N. Marrs, state superintendent of public instruction and state chairman of Texas illiteracy commission, for Wednesday noon.

Among platform guests for the Wilbur speaking will be presidents of many colleges and universities in Texas, as well as representatives of many other educational and cultural institutions. Several state officials and several presidents of national organizations have been invited.

## CHURCH FOLK ENTERTAINED

MADONNA AND DORCAS CLASSES ARE HOSTESSES

The Madonna and Dorcas classes of the Central Baptist church entertained all the ladies of the church and their husbands with a Halloween party Thursday evening. The guests were met at the foot of the stairs by a clown who assisted them up the stairs that were strewn with hay, then directed into a prettily decorated room where many lively games were played. A menu card was then displayed and each guest ordered refreshments from a list of comically named dishes.

Those enjoying the evening were: Mr. and Mrs. McCollum, Mr. and Mrs. O. L. Beatty, Mr. and Mrs. D. L. Lunsford, Mrs. W. B. Barton, Mr. and Mrs. F. Naylor, Mr. and Mrs. L. W. Hardcastle, the Rev. and Mrs. W. O. Cooley, Mr. and Mrs. J. M. White, Mrs. A. D. Evans, Mr. and Mrs. G. C. Spark, Mr. and Mrs. W. Hughes, Mr. and Mrs. E. J. Chapman, Mrs. W. C. Brown, Mr. and Mrs. Cecil Lunsford, Mrs. M. M. Rutherford, Mr. and Mrs. G. L. Moore, Mr. and Mrs. E. V. Davis, Mrs. Walter Kirbie, Mrs. Kelly Langard, Mrs. H. C. Chandler, Mrs. Walter Shair, Mrs. Lewis Tarpley, and Mrs. D. J. McAllister.

Mrs. L. M. Williams was awarded for high score and Mrs. L. R. Hartell for second high.

## LINKING PAST AND PRESENT

The modern Indian may be very much like the rest of us, but he has forgotten the art in which his forefathers excelled, says Lillian Murphy, 18-year-old member of the Plute tribe in Utah, shown here with some of their handiwork. Hundreds of Indians in the west earn their living by making such objects as these for sale to tourists.

## AUTUMN TEA IS GIVEN FOR CHILD STUDY CLUB OF CITY

LOCAL MUSICIANS ON PROGRAM HERE THURSDAY

Huge bouquets of chrysanthemums, zinnias, and petunias were employed in stressing a black and yellow color motif when open house was held by the Child Study Club in the home of Mrs. H. W. Johns Thursday afternoon. Mrs. J. H. Patterson assisted Mrs. John in entertaining, and Mrs. B. E. Finley was in charge of a program on Beethoven.

The tea table was covered with lace over pink and yellow satin, was lighted with yellow tapers, and centered with a large bouquet of chrysanthemums and roses. The seasonable effect was furthered through the yellow cake topped with chocolate icing and the favors of little candy pumpkins. Mrs. Emma LePors poured tea. She is the mother of Mrs. A. H. Doucette, president of the organization.

Mrs. Doucette, in opening the program, welcomed the guests and outlined the club's course of study.

Mrs. B. E. Finley, program leader, then took charge. "Beethoven," she said, "is supreme of all modern musicians and is the last of the classical musicians. He added a new word to music. His Minuet for violin and piano and his Symphony for orchestra are his greatest compositions. This composer ranks with Mozart."

Mrs. Lee Harrah discussed Beethoven as a nature composer. The expression of nature through music makes Beethoven's compositions popular among children. This composer, she said, began his career at the age of 3, when he was 7 he was giving recitals. He had the ability, she said, to describe temperature through music.

Mrs. A. W. Mann spoke on the human side of Beethoven's everyday life. He represented two extremes, she said. He was a great musician, but he was also child-like.

Roy Tinsley compared the composer with Homer and Shakespeare, and discussed him as representing

## DINNER PARTY GIVEN GROUP

Mr. and Mrs. J. S. Wynne entertained a group of friends with a dinner party in their home Thursday evening. Games of bridge were played after dinner.

The guests were Mr. and Mrs. Dick Walker, Maurice Luther, Miss Roy Finley, Mr. and Mrs. DeLoe Vicars, Miss Leora Kinard, and Jimmie Drake.

## RATS ARE PRIDE OF CLASS

Hunky, Odus, Jim Dub, R. B., and L. L. Are Center Of Attention; Each has Well-Known Godfather

"She cut off their tails with a carving knife." So goes the old song, at the song. But the song applies to the farmer's wife—not to the modern high school miss.

Hunky, Odus, Jim Dub, R. B., and L. L. (all of whom, incidentally, have well-known local godfathers) are just five white rats, but they are given as much attention at 21-2 year-old children by girls of one of Miss Angela Strnad's high school home economics classes.

The idea of all the attention is to compare the effect milk will have a person—or a rat—as compared with other foods.

The rats are of the same litter and are separated into different cages made by the girls. Their cages are kept together so that the same conditions are obtained—the same animal—good air, light, and temperature. Each cage is cleaned once a day. Fresh water and cage food, in addition to the special food, is put into the cage daily.

Here is the difference. Hunky is fed 2 cents worth of coffee a day by Myrtle Ethel Seeds and Betty James, his keepers; Odus is fed 2 cents worth of candy a week by Edna Jones and Louise Peares; Jim Dub is fed 2 cents worth of milk by Sunny Jones and Evelyn Croy; R. B. is fed 2 cents worth of cake by

Elgin Frasier and Eunice Jones; L. L. is fed 2 cents worth of chili by Jewel Bradley and Beulah Robertson.

Each week the rats are weighed and a chart is kept showing gain, loss, and appearance.

The girls pointed out that the digestive systems of albino rats and man are practically the same. The chemical changes which food undergoes during digestion result, for practical considerations, in the same chemical compounds. For this reason a given food contributes the same compound to the blood and therefore to the tissues of both species. When meat is eaten and digested, the main acids which result and enter the blood are the same in both cases.

Rats eat everything indiscriminately. This is a great advantage in nutrition since rats will eat foods which constitute the diet of man.

The life of an albino rat is considered to be approximately 3 years, that of man 90 years. A rat approximately 1 month old would be equal to a child 21-3 years of age.

The rat experiment is being extended over a period of two months to cover the physiological changes equivalent to those which take place during a 5-year period of a man's life.

## DANCE GIVEN FOR GROUP OF YOUNG PEOPLE

### HALLOWEEN ALSO USED AS THEME FOR MANY EVENTS

Old and young made merry Halloween night, the climax of a season which inspired many church groups, clubs, and individuals to entertain. For more than two weeks, witches, cats, and goblins have been the "guests of honor" at gatherings of all kinds—dances, bridge parties, informal "socials," and programs of all kinds.

The attractions Saturday night were of every type—dances, parties, costume visits to the business district, and pranks on friends and neighbors. Many a small boy, if provided a pumpkin and a mask, had no trouble in finding his own source of entertainment.

A visit to the midnight matinee closed the evening for scores of fun-seekers.

Guests were escorted to the auditorium, where a 30-minute musical program was heard, and decorated with stacks of today's pumpkins, and bats. A play was given by Mrs. T. A. Cox, and the guests then joined in playing Halloween games.

### QUEEN OF CLUBS AND HUSBANDS HAVE PARTY IN CARL BOSTON HOME

Guests, all gaily costumed, joined in playing Halloween games, and Miss Catherine Vincent, dressed as a witch, told the fortunes of each boy and girl.

Marshmallows were roasted, and Halloween refreshments were served. The sandwiches resembled jack-o-lanterns, and toy crickets were given as favors.

Prizes in the contests were awarded Chester Hunkapillar and Betty Jo Townsend. **ARMY BEATS COLORADO**  
WEST POINT, N. Y., Oct. 31. (AP)—The golden helmets of West point prevailed today against little Colorado college, which battled to the last but went home on the short end of a 27 to 0 score.

Taking the intersectional-breath-er in stride, the Cadets used a liberal mixture of substitutes, especially in the second half, after Ray Stecker; star mule halfback, had led in rolling up 20 points in the first two periods.

**KANSAS GETS REVENGE**  
MORGANTOWN, W. Va., Oct. 31. (AP)—The Kansas Aggies avenged the last defeat they suffered on the gridiron by beating West Virginia university's Mountaineers today 19 to 0 in a chilling rain.

### Rockne Football "Team" Loses Game

LAWRENCE, Kans., Oct. 31. (AP)—Mrs. Knute Rockne saw an unusual sight today—the defeat of a Rockne football team. The Pembroke Mid-gets, captained and quarterbacked by 13-year-old Knute Rockne Jr., lost, 6 to 21, to the Bearcat Juniors.

But young Rockne, son of the late football mentor of Notre Dame, gave a typical Rockne climax to the contest played before and between halves of the Kansas-Oklahoma Aggie varsity game in Memorial stadium of the University of Kansas.

He sprinted 25 yards around end for Pembroke's only touchdown in the closing minutes while his mother and 5-2 year-old Jackie Rockne, sitting in her lap, exhorted, "O'm, Junior."

Mrs. Rockne's attention was distracted from the blue-clad Junior only long enough to cheer when the Notre Dame-Carnegie Tech score was announced.

### Texas Miners Down McMurry 18 to 7

EL PASO, Oct. 31. (AP)—The Texas College of Mines defeated McMurry college, 18 to 7, in a slow football game here today.

Neither eleven scored in the first quarter, although the Mines once penetrated to McMurry's 30-yard line.

In the second quarter, several lateral passes advanced the Mines to McMurry's own 19-yard line. After a series of line plays, Key carried the ball around right end for a touchdown. The attempt to kick goal failed.

In the next period, McMurry received a punt on its own 33-yard line, and two passes, Bell to John-

ton, netted a touchdown, kicked goal.

# LUBBOCK TAKES DISTRICT LEAD IN 32-6 VICTORY OVER NOTRE DAME

## PAMPA TEAM IS UNDER PAR FOR BIG TILT

### CONFIDENT LABS ARE UNABLE TO GET GOING

Surprised by a savage attack which netted the visitors a touchdown in the first period, the Pampa Harvesters yesterday afternoon failed to hit the stride which gave them a 13-0 victory over Amarillo two weeks ago and took the short end of a 32-6 score before 7,000 fans.

Over-confident, the Harvesters failed to get organized after fumbles had given Lubbock sporting opportunities, while everything the Westerners attempted seemed to bear a lucky charm. Individually, the locals played valiantly and some brilliantly, but it cannot be said that Lubbock faced the same offensive which crushed Amarillo.

Lubbock's backfield quartet of Britton, Scroggin, Merrill, and Barnett gave an exhibition reminiscent of Pampa's Four Horsemen of last year. The four husky young men passed, plunged, ran the ends, and punted with the skill of college players. They were uncannily in front of a majority of Pampa passes.

Joe Kohl was the only Pampa backfield man who played up to normal form. He tore off a majority of Pampa gains, broke up Lubbock passes, and blocked like a veteran. Martindale, usually sensational, had an off day, failing to get away for his usual long gains and punting weakly.

The big Lubbock line-men, far heavier than reported, proved too strong for the light Harvesters backs. They tore big holes and held like a stone wall when the Harvesters tried to get through.

The Westerners made 17 first downs to 18 for the Harvesters. The boys from Lubbock took the two visitor passes and converted two of them into touchdowns. The Pampa boys completed two passes. The Westerners tried seven passes but all were incomplete, due largely to the sensational work of Joe Kohl.

Merrill, sensational Lubbock punter from White Deer, lifted the ball into the air six times for an average of 43 yards, while Martindale averaged 30 yards on the same number of punts.

Both teams were penalized 45 yards. Pampa got one 25-yard penalty for clipping and a 15-yard penalty for holding. Lubbock pulled two 15-yard penalties for roughing and three penalties for offsidings. Lubbock nearly doubled the number of Harvester yards gained from scrimmage.

The Westerners were held by the Harvesters for the first half of the opening quarter. The Harvester slump started late in the opening quarter when Hill missed the signal and let Poe's pass from center fly past him to the 1-yard line where Blagg, Lubbock, entered. It took the Westerners three tries to make the touchdown.

From that play to the end of the game the Harvesters were erratic. They tried hard but just couldn't get going. The Westerners, remembering a 12 to 9 defeat last year in Lubbock, played inspired football for the remainder of the game.

to his 20-yard line. Burch was hurt, making a tackle, but stayed in the game. Scroggin ran out of bounds, making 2 yards. Merrill hit right tackle for a yard. Merrill pushed right tackle for 2 more. Merrill punted out of bounds on Pampa's 20-yard line, for 45 yards.

Scroggin failed to gain at left tackle. Scroggin swept left end, running out of bounds for 3-yard gain. Pool got him. A pass from Scroggin to Watson was incomplete and the ball went to the Harvesters on their 34-yard line.

Chastain got 3 yards on a spinner at right side. Crawford stopped him. Hill rammed center to gain. Martindale passed to Kohl 10 yards and Kohl advanced to Lubbock's 47-yard line, then Kohl circled right tackle for 8 yards. Chastain failed at left side. Barnett plunged over for the touchdown. Britton kicked the point. Lubbock 7, Pampa 0. Bost replaced Hill for Pampa, and Berry for Burch.

Martindale's right-tackle drive for 1 yard. The quarter ended with the ball in Pampa's possession on Lubbock's 18-yard line. Score: Lubbock 7, Pampa 0.

Barnett hit right tackle for 3 yards, and Britton 1, same place. Scroggin ever standing up seemed to be all over the field. Wildcats waged a one-sided battle against their heavier opponents from the outset. A safety after Goober Keyes had punted to the 1-yard line started the scoring and the total mounted in every quarter. The touchdown tide reached its crest in the fourth frame when the Christians crossed the goal three times.

Rescue Wrestling Here Thursday Eve  
Wrestling in Pampa will be resumed next Thursday night with Sailor Otis Clingman, local middleweight, meeting Fred Kimball, one of the toughest hombres in the middleweight class. Kimball threw that tough mauler Hollis in Amarillo last week and Clingman had a tough time beating Hollis two weeks ago. The match will officially open the season here. One match has already been held but the weather was considered too warm to continue matches at that time and continuation was postponed. There will be matches every Thursday night during the winter. Promoter Hunt says, "Red Michaels and Wildcat Willie will provide the entertainment in the semi-final event. Wildcat Willie is from LeFors and he was one of the redheads' worst enemies last year. They wrestled three draws last season. Michaels has greatly improved since then and is liable to make the Wildcats eat the mat."

OREGON UPSETS DOVE  
NEW YORK, Oct. 31. (AP)—An underrated team in yellow and green from the University of Oregon plunged its way across Yankee stadium today to upset predictions and odds and deliver a stinging 14 to 0 defeat to New York University. New York, playing more loosely than its far western opponents, was on the defensive the major part of the game and appeared helpless against Mark Temple's dashes and the brilliant interference that went before.

gaining 2 yards. Lubbock was off-side for 5 yards. Scroggin went through the right side for another touchdown, 16 yards, standing up. Barnett's try for point failed. Score: Lubbock 25, Pampa 0.

Hill went in for Martindale Pampa backfield. Crawford of Lubbock kicked off to Hill, who returned to Lubbock's 29-yard line. Britton picked up 3 more. Barnett got 11 side side, but Lubbock drew a 5-yard penalty for offside.

A short pass from Barnett to Blagg was too fast. Merrill punted over Pampa's goal zone, 41 yards. Hill passed but Merrill of Lubbock intercepted it on Pampa's 30-yard line, carrying it to the 24-yard line. Bell replaced Watson and Brown, went in for Blagg of Lubbock.

Britton went 18 yards off left tackle, dropping on Pampa's 11-yard line. Merrill hit right tackle for 10 yards. Merrill hit right end for Berry. Britton took a spinner for 6 yards, but was called back and Pampa was offside and the gain stood.

Barnett made 2 at the line. Britton hit for 3, putting ball on Pampa's 1-yard line. Britton went over for a touchdown. Davidson kicked the extra point. Lubbock fans delayed game, crowding on field. Crawford, Lubbock, kicked off to Hill, who fumbled and the ball rolled but Hill picked it up and ran to his 28-yard line.

McCarthy went in for Crawford at Lubbock center. Greenash replaced Britton, and Lubbock was penalized for talking. Stovall went in for Merrill. Ball on Pampa's 48-yard line. Chastain lost 3 on spinner, but Lubbock lost 5 yards for 3 yards. Hill jumped over line for 3 yards. Hill went over right tackle for a touchdown. Chastain missed kick for point. Led by Captain Brit Pippen, who alternated ever standing up seemed to be all over the field. Wildcats waged a one-sided battle against their heavier opponents from the outset. EASTLAND, Oct. 31. (AP)—The Abilene Eagles topped district 3, the Oil Belt, today with their 21 to 0 win over Eastland. The Eagles have three wins and no losses in district play. Both teams played sluggishly today, although Abilene secondary men intercepted seven Eastland passes. The Eagles were deep in Eastland territory most of the time, but three times were halted inside the five-yard line.

## BAYLOR BEATS TECH IN AERIAL SPECTACLE

WACO, Oct. 31. (AP)—In a battle of flying footballs the Baylor university Bears today defeated Texas Technological college of Lubbock, 32 to 0.

Baylor scored but one of its touchdowns on straight football. The other came via the air route. Two intercepted passes and two aerial heaves rounded out the total.

The Bears registered 28 first downs to Texas Tech's 18. Each team completed five passes.

## PORKERS LOSE TO HORNED FROGS 7-0

PAYETTEVILLE, Ark., Oct. 31. (AP)—A red-headed junior, Richard Oliver, used any home-coming plans the University of Arkansas had today when he led Texas Christian university to a 7 to 0 victory before three thousand shivering spectators.

It was the second time the Horned Frogs have figured in an Arkansas county defeat. The other time was in 1928 when the Porkers fell 10 to 7. And this is the second time Coach Francis A. Schmidt figured in the picture. But this time the scene was reversed with the former Arkansas coach in the role of victor.

## TEXAS NOSED OUT OF RACE BY MUSTANGS

### SAFETY IN 4TH GIVES METHODISTS 9-7 VICTORY

By BILL PARKER  
Associated Press Sports Writer.  
DALLAS, Oct. 31. (AP)—An estimated crowd of twenty-four thousand received all the football thrills they cared for during one afternoon today when Southern Methodist Mustangs continued their undefeated and untied record with a 9 to 7 victory over the University of Texas. It was the Mustangs' sixth consecutive triumph and their third Southwest conference win.

It was a stout fighting Texas aggression that eventually bowed to the Southwest conference aerial circus in the fourth period when Delcambre, Southern Methodist center, rushed through the Texas line to block Craig's punt and turn it into a safety when Kenneth Mills, Southern Methodist wing, pounced on the ball. This one superb effort by Delcambre riddled a 7 to 7 deadlocked game with a two-point lead. Craig virtually eliminated the 1930 conference champions from this season's race.

It was a scintillating battle between two determined machines who slipped a formation cog now and then, but easily overshadowed their mistakes by unreeling plays that rocked the crowd and sent the roaring mob home thinking and talking about Southern Methodist's dash for a touchdown in the second period which occurred when Mason blazed a 24-yard pass to Koonits to put the ball on Texas' three-yard stripe. On the first down, Oliver saw a hole in the Texas line and thunderbolted through.

Later in the third period, Neeley kicked goal to allow Southern Methodist a 7 to 0 lead at the half.

Many evidently thought the remainder of the game would see Southern Methodist rely on defensive football, and believed that the system would halt Texas. But it failed. Late in the third period, the stubborn Longhorns counted with the most sensational play of the game.

Deep in their territory, having failed repeatedly with off-tackle smashes and end skirts, the Longhorns resorted to the air. It was a triple pass from Ernest Koy to Jimmy Burr to Wilson. Elkins then scored a touchdown. The pass was good for ten yards. Elkins, with Stafford furnishing interference, tore through a broken field and dazed with a 58-yard run for a touchdown. Blanton kicked goal to tie the score.

Determined to hold their opponents to a tie, it was a desperate Texas machine that repulsed Southern Methodist passes for the rest of the third period, but the break for Southern Methodist was not to be denied.

Texas had held S. M. U. for downs in the fourth period on the six-yard line. Fagan tried a long pass on the first down which was incomplete. Craig tried to punt on the second down, but Alford Delcambre made himself a hero to S. M. U. when his outstretched hands contacted with and blocked the kick.

Close behind Delcambre was Kenneth Mills, S. M. U. wing. The ball was rolling loose when Mills pounced on it for a safety, giving his mates a 9 to 7 lead and what proved the ball game.

Texas was clearly outplayed offensively, gaining only 185 yards against 407 for Southern Methodist. The Mustangs registered 29 first downs against five for Texas.

Weldon Mason, ace S. M. U. back, was injured when tackled by Koy in the second period. He retired until after Texas had scored all but one of their touchdowns in the last half.

ITHACA, N. Y., Oct. 31. (AP)—Cornell whipped Columbia, 13 to 0, today in the race for eastern football championship honors, due chiefly to the all-around brilliance of two fiery youngsters, Johnny Ferraro, Buffalo, N. Y. sophomore halfback, and Jose Martinez-Zorilla, Jalisco, Mexico, spectacular end.

These two gridiron dynamos combined to furnish driving force to Cornell's attack as well as to fortify its defense in two of the finest individual performances witnessed in many years on historic Schoellkopf field. They accounted for both Cornell touchdowns and the younger member of the famous Martinez-Zorilla clan made life miserable all afternoon for Columbia's renowned captain, Ralph Hewitt.

Determined to hold their opponents to a tie, it was a desperate Texas machine that repulsed Southern Methodist passes for the rest of the third period, but the break for Southern Methodist was not to be denied.

Texas was clearly outplayed offensively, gaining only 185 yards against 407 for Southern Methodist. The Mustangs registered 29 first downs against five for Texas.

Weldon Mason, ace S. M. U. back, was injured when tackled by Koy in the second period. He retired until after Texas had scored all but one of their touchdowns in the last half.

Palestine attempted to gain largely by an air attack but the passes were consistently knocked down by Tyler's secondary. Tyler made 17 first downs to 11 for Palestine.

Touchdowns for Tyler were scored by Shuford, Porter (2), Hill and Herndon.

TYLER, Oct. 30. (AP)—The Tyler Lions gained momentum in latter stages of the game here today to defeat their ancient rivals, Palestine high school, by a wide margin, 31 to 0. Tyler grippers scored all but one of their touchdowns in the last half.

## NOTRE DAME ROLLS OVER PITTSBURGH

By GAYLE TALBOT  
Associated Press Sports Writer.  
PITTSBURGH, Pa., Oct. 31. (AP)—Notre Dame's powerful football array, led by the irrepressible Marchionni Schwartz, swept down the field for three touchdowns in the first half to humble a hard fighting Carnegie Tech eleven, 19 to 0, before 52,000 spectators at Pitt stadium today.

The Tartans, who have been panned to the Ramlers in recent years, came back to hold their famous adversarial cores in the last two periods, three times hitting them within their 15-yard line, but it didn't alter the result. The damage already had been done and the Fighting Irish had chalked up another one for "the Rock."

The dazzling array from South Bend went into the game steamed to the limit, determined to keep its record of 23 starts without a defeat inviolate. Preceding the initial kickoff, two early conversions stood benevolently the opposing goal posts and blew "taps" for Knute Rockne, late coach of the Irish, and the contest was decided to his memory.

It was a beautiful gesture, but it spelled disaster for Carnegie. With the All-America Schwartz breaking away for one brilliant dash after another, Notre Dame's great backfield corps tore the Tartans' line and its line shreds from Carnegie's weak offensive. The fullback, a converted blitzer, stood benevolently the opposing goal posts and blew "taps" for Knute Rockne, late coach of the Irish, and the contest was decided to his memory.

ILLINOIS AGGIES DOWN CHAMPIONSHIP MEMORIAL STADIUM, LAWRENCE, Kan., Oct. 31. (AP)—The 14 Cowboys of Oklahoma A. & M. college triumphed over the Kansas Jayhawkers, champions of the Big Six, 13 to 7, in their inter-conference football game today. One of the smallest Cowboys of the Big Six, Hal Hayden Trigg, scored both Aggie touchdowns in the third period, one on a pass and another with a win, fullback charge straight through the Jayhawk line, after the Big Six champions scored their only touchdown in the second quarter.

HUSKERS TRIUMPH OVER MISSOURI  
COLUMBIA, Mo., Oct. 31. (AP)—A furious Missouri tiger, unleashing a furious aerial attack in the final period, threw a scare in the Nebraska Huskers, but their final rally was halted on the Husker halfback line as the final game sounded. Nebraska winning, 10 to 7. The Nebraska went into a tie with the Kansas Aggies for the lead in the Big Six conference football race.

ILLINOIS SCORES ON NORTHWESTERN  
EVAUSTON, Ill., Oct. 31. (AP)—Northwestern's Wildcats ripped off four touchdowns in the first period today, then sheathed their claws and coasted to a 32 to 6 triumph over Illinois.

About 40,000 spectators huddled in the stands under a grey, chilly sky and watched Northwestern do everything but chase the green game Illinois sophomores out of the stadium in the first period, but the Illini outlasted in everything except courage, braced with the count 2 to 0 against them, and managed to become the first Big Ten team to score on the victors this season.

SOONERS LOSE BY MARGIN ONE POINT  
NORMAN, Okla., Oct. 31. (AP)—Outplayed in the first half, a game Iowa State gridiron lineup rallied to defeat the Sooners of the University of Oklahoma today by a lone point. The score was 13 to 12.

The 75-yard return of a punt for a touchdown by Bill Parris, 130-pound bundle of generated lightning from Fort Smith, Ark., in the first few minutes of play, which gave the Sooners their first touchdown, was the outstanding feature of the contest.

DARTMOUTH TIES  
NEW HAVEN, Conn., Oct. 31. (AP)—Down from the hills of Hanover today came a courageous band of Dartmouth football players to fall in a quest for victory over Yale, but gain glory enough in coming back from almost certain defeat to tie the blue 33 to 33.

# Markets

By JOHN BOUGHAN  
Associated Press Market Editor  
CHICAGO, Oct. 31. (AP)—Signs that Russia had over-reached herself under-selling wheat competitors throughout the world and was now in a tight corner, gave bread-stuffs an exciting advance today. Wheat and rye both out-stripped the season's top quotations, with foreigners buying future deliveries here on a large scale, and with general speculative demand unusually broad. Indications were that Russia to escape from self created difficulties was finding it unavoidable to repurchase wheat on a rising market, the quandary intensified by reports that Europe's potato crop and Asia's rice crop were short.

Wheat soared 2 1/2 cents a bushel to a maximum of 37 cent per cent gain and closed feverish, 1 3/8 to 2 1/8 cents higher than yesterday's finish, corn 1-2 to 1 cent up, oats 1-4 to 7-8 advanced, and provisions varying from 2 cents to 32 cents gain.

In a tumultuous general dash to the buying side as soon as the wheat pit was open, word spread around that Russia had sold more wheat than she could deliver, and was paying dearly to cancel contracts. Liverpool reported that wheat offerings there were scanty, and that the Russian government's grain collections up to Oct. 29 had totaled only 30 per cent of the month's plan. There were also advices that the Soviets were unable to fulfill large export contracts made months before her 1921 crop was harvested with yields curtailed must below expectations.

Enormous buying power that sprang into evidence forced the Chicago wheat market higher and higher despite waves of profit-taking, and continued to do so with little abatement until the final gong cleared the brokers from the exchange floor. Sharp as was the advance here, European price bulges were greater, the way being led by 5 1-4 to 6 1-2 cents a bushel rise in Rotterdam, where much of Russia's wheat has been stored awaiting distribution to other countries. Corn and oats sympathized with wheat strength, but advances of feed grains were retarded by speculative selling.

Provisions averaged higher with grains, despite lower hog values.

# JAPANESE AND RUSSIA AGREE

**BOTH NATIONS TO KEEP TROOPS OUT NORTH MANCHURIA**

TOKYO, Oct. 31. (AP)—Japan announced today an agreement with Russia which is expected to keep troops of both nations out of North Manchuria where they have large economic interests.

There was no change, however, in the Japanese control of South Manchuria, although the Japan League of Nations association telegraphed to all countries having permanent memberships on the league council a statement defending the nation's Manchurian policy.

Failure to protect Japanese nationals and their properties was charged against the Chinese rulers of Manchuria when Japanese troops seized strategic centers in the southern third of the country in September, disrupting the Chinese administration.

Russian fears lest Japan might plan to extend this control to North Manchuria prompted the conversations this week in Moscow between the two officials.

The two officials, it was announced here today, agreed that Russia would send no troops into Manchuria to guard the line of the Chinese Eastern railway, which Russia and China own jointly, unless unexpected developments occur.

Japan, on the other hand, agreed not to send troops with the repair gangs sent northward on the Tso-nan-Anganchi railroad, upon which three bridges were damaged in recent civil warfare.

# Factories and Coal Mines Going Again

WASHINGTON, Oct. 31. (AP)—Word from the coal mines and shoe factories today increased hope that the town on the face of business may be changing into a smile.

Though encouragement given by the report of the United States employment service that several major industries perked up during September was counter-balanced to some extent by accompanying data, optimists pointed to other recent developments as significant.

They included President Hoover's smiling announcement that the credit situation had changed greatly—and for the better—since Oct. 7. With this went the facts he cited.

Predictions before a senate committee by Albert H. Wiggin, the banker, and Alfred P. Sloan, Jr., of General Motors, that business upturns were in sight heartened those who recalled that both have been chary of cheery prognostics heretofore.

Coal mining was quite a few steps ahead of the industries which marched toward prosperity last month. The employment service's report said:

"Thousands of men were recalled to the mines and large numbers who had been working on a part-time basis for many weeks returned to full-time schedules."

# Girl Given 1 Year For Shooting Boy

ABILENE, Oct. 31. (AP)—Leora Moxley, 22, former hotel elevator operator, was found guilty of assault to murder without malice by a jury in district court here late today in connection with the shooting of Hulen (Buddy) Rutherford, 18, hotel bellboy here last May 13, and her punishment was set at one year in the penitentiary, the minimum sentence.

A motion for a new trial filed immediately by her counsel, was denied, and she was released shortly on \$2,000 appeal bond.

Rutherford was wounded in an attorney's office after the young couple went there seeking advice on marriage, testimony showed.

# MEXICANS RETURN HOME

EL PASO, Oct. 31. (AP)—Twelve hundred Mexican repatriates will arrive here Monday for entry into Mexico. They left California on a special train. More than 800 from the same state were cleared yesterday, bringing the total to pass the El Paso-Juarez port in 1931 to approximately 30,000.
