Work Together to Fit Him for o Successful Career

Spare Time Route Work Adds a Big "PLUS" to a Boy's

.EN your newspaperboy graduates from high school, he will be unusually well equipped for advancement in whatever line of work or study he may pursue. For, TWO great educational forces—the public school and the daily newspaper-have joined hands to give him the best possible preparation for success. As a result, he has the benefit of BOTH practical schooling and actual business experience.

His spare-time newspaper route is the ideal supple ment to classroom studies because it enables him to pu many lessons to immediate use. This combination o route work and schooling gives him a well-balancec knowledge of both business theory and practice-makes him better able to absorb and apply the things he learns!

Important, too, is the money he makes and saves from his newspaper route efforts-it comes in mighty handy for school books, sports, hobbies and the good times every teen-ager craves! Often such savings enable an ambitious boy to COMPLETE high school and GO ON to the college of his choice.

Congressman Fred L. Crawford

they Double Federal Taxotion

has introduced a bill known as House bill H R 3627 in the House of Representatives. The purpose of which is to eliminate double federal taxation. Under the present law corporations are obliged to pay a tax on the earnings of the corporation and then when the earnings are distributed in the form of dividends the recipient is again taxed. The corporation that has notes or bonds issued to individuals pays no tax on the earnings it uses to pay interest on them. Thus under the present law it is to the advantage of the corporation to have as many bonds or notes against it as possible. This is true because capital invested

The proposed bill is a short one. It has only 38 words, It simply proposed "that Section 22 (a) (general definition) of the Internal Revenue Code be amended by The moral reason of this is that the corporation already pays a federal tax at the rate of 38% on earnings of the corporation.

Most people who have not studied the question of taxation or who are not causationists and flave never read Emerson's essays on "Compensation" do not realize that progressive taxation is most harmful to the very people it was intended to help. Progressive taxation was believed by most people to make it easier for the man with a small income. It does for the first few years from a material standpoint, but it is only a ques-tion of time when a nation adopts progressive taxation until it hurts the poor man infinitely more than hurts the poor man because it dries up the wealth that would go into new capital and thus compels the working man to work with
