

# Blockade of Berlin Expected to End on May 12

## Decision Made in Four-Power Parley

WASHINGTON — (AP) — The big four powers agreed today to lift Berlin blockade and counter blockade measures.

NEW YORK — (AP) — Russia met with the three Western powers today to work out details for lifting the 10-month-old Berlin blockades and for a meeting of the council of foreign ministers.

The conferees met at 12:31 p.m. (10:31 a.m., CST) amid reports that the blockade will be lifted May 12 and the foreign ministers will gather May 23.

The British Press Association said Sir Alexander Cadogan, British representative at the United Nations, had notified London of these dates. There was no confirmation here immediately.

## Nationalists Yield to Reds At Hanchow

SHANGHAI — (AP) — The government confirmed today it has yielded Hanchow to the Reds without a fight.

Loss of this port and rail city 100 miles down the coast of Shanghai's last land escape route to South China.

A Shanghai garrison communique said Hanchow's defenders, a provincial peace preservation corps, withdrew at noon yesterday. Chinese press dispatches said a force of 4,000 Communists took over.

(Hanchow's population is about 400,000.)

The new Red advance trapped Nationalist forces remaining in the big triangle bounded by Hanchow, Shanghai and Nanking, 160 miles inland. One Red broadcast said 80,000 Nationalists were captured in this triangle.

Only sea lanes remained open to the government defenders, and they were using them. Evacuation (See NATIONALISTS, Page 8)

## Vet School Will Begin Here Friday

The first meeting of the Gray County Veterans' Vocational School business managers will be held at 7 p.m. Friday at the Junior High School, Jesse O. Coleman, coordinator.

Twenty-eight veterans from Pampa and neighboring towns have registered for the course and other veterans are waiting the start of a second veterans' vocational course.

The business manager course will be held 104 weeks, meeting 12 hours a week. Both textbooks and tuition will be furnished by the Veterans' Administration.

Veterans to begin the course Friday include Jess R. Abbott, L. G. Aishart, James R. Ayers, Enoch K. Baumgardner, Homer E. Bybee, Jr., Troy L. Curlee, Calvin L. Dittmore, Elvis H. Duck, Albert F. Fowell, Roy Glenn Floyd, William D. Gunkell, James M. Harmon, Kenneth J. Hughey, Donald Hampton, John Levi Jones, Carl L. Madhur, Thomas H. Phillips, Othales E. Nelson, Loyd M. Simpson, Billy Gardner Smith, Thomas Jefferson Rogers, James H. Steen, Bertie L. Stevens, William C. Tidwell, Laurence L. Warren, Orville M. Tigart, Ray W. Thompson and Houston V. Ballard.

## Life, Says Doctor, Is No Different

CANADIAN — (Special) — "Life today is no better or no worse than it was 50 years ago," Dr. E. H. Snyder, veteran physician of Canadian, told the Canadian Rotary Club Tuesday at the regular luncheon.

In a talk made intensely interesting by comparative descriptions, Dr. Snyder said the kerene lamp was symbolic of the era of the turn of the century. He told of the planning and labor necessary in life in those days in matters which we take for granted today.

He pointed to the vast improvements in the field of the healing art, using several examples and among them the disease of diphtheria, once the scourge of childhood with 70 percent of the cases fatal, and now almost entirely under control.

He excoriated modern schooling systems for their failure to instruct in basic subjects so essential to everyday life, and pointed to the urgent need of basic training and encouragement which would inspire more of our young men and women to enter into the fields of medicine (used in its widest sense in reference to the art of healing) and nurse training.

## THE WEATHER

WEST TEXAS: Partly cloudy tonight and Thursday. Widely scattered thunderstorms tonight. No important temperature changes.

OKLAHOMA: Partly cloudy tonight and Thursday with few local showers or thunderstorms tonight and in east Thursday forenoon. Slightly cooler northwest Thursday.

VOL. 47—NO. 269 (14 PAGES) PAMPA, TEXAS, WEDNESDAY, MAY 4, 1949

CAN OPENER SAVES POLIO VICTIM'S LIFE — Mrs. Ralph Palmer smilingly listens to her husband as he tells how he operated a small chest respirator when the machine failed to operate aboard the Union Pacific's Los Angeles Limited speeding across Western Nebraska. Palmer crouched on his hands and knees for five hours using the metal can opener he holds to operate the belt, enabling his polio-stricken wife to breathe. Mr. and Mrs. Palmer, shown in Chicago, are enroute to Ithaca, N. Y. (AP Wirephoto)

## Democrats Win Fight to Recommit Wood Labor Bill

WASHINGTON — (AP) — Truman Democrats today won a fight to send the Wood Labor Bill back to a House committee.

Their margin on the motion to recommit was three votes—212 to 209.

This outcome left the House with no labor bill before it — in effect ending the great labor-battle with a stalemate.

The administration was unable to put through its bill to repeal the Taft-Hartley Law and enact labor statutes more to the liking of unions.

On the other hand, it succeeded in preventing passage of the Wood Bill which would repeal Taft-Hartley in name, but keep most of its essential provisions.

House leaders indicated that — in event of such an outcome — they would let the matter rest in the House for a while.

Their strategy is to wait now and see what kind of bill the Senate may be willing to pass.

The outcome of the recommitment vote was an upset for Republican leaders, who put the Wood Bill over in the House yesterday with strong support from Southern Democrats.

Yesterday's voting turned up a margin of 217 to 203 for the Wood Bill. That meant the administration forces needed to win eight votes overnight to put the Wood Bill in the cooler.

They succeeded in getting the needed margin although there was one more vote cast today than in yesterday's ballot.

The motion to recommit was supported by 193 Democrats, 18 Labor members, one American-Labor member.

Voting against recommitment were 62 Democrats and 147 Republicans.

The outcome served to take some of the sting from the recommitment.

Higgins Play to Be Next Week

HIGGINS — (Special) — A 3-act mystery comedy, "Demon in the Dark," is rapidly taking shape and will be presented Thursday evening, May 12, in the High School Auditorium. The performance will start at 8:15 o'clock.

Reserved seats will go on sale this week by members of the cast. Part of the proceeds of the play will go toward purchasing stage furniture and completing necessary arrangements for the stage, Harold Mason, director, announced.

## Rent Control End Sought

The ball started rolling yesterday toward possible rent decontrol here when the City Commission was presented with 20 petitions, bearing 635 names, asking that rent controls in Pampa be removed.

The group of approximately 16 property owners, and headed by three leading realtors, told the City Commission that 10 percent to one-third of the signers were people now living in rent houses.

J. Wade Duncan, one of the three mainstays in yesterday's conference, said that a survey made recently by realtors showed 71 dwelling units were vacant at present. The figure was obtained through records of the Southwestern Public Service, showing meters installed but not working. John I. Bradley added that this count did not include the number of houses now vacant that are up for sale with lights turned on so they can be shown, plus others that are being readied for completion.

Another leading realtor, Clarence Arnold, told the commission the group had rechecked the decontrol law and found that municipal governments must hold public hearings on the matter before a request can be made to the Governor for permission to remove rent ceilings. The cities must show that a shortage of housing does exist. This can be done only by a survey.

Through Mayor C. A. Huff, the commission accepted the petitions, but made no definite commitments on their feelings either way. There was no date set for (See RENT, Page 8)

## Fair Plans Underway

Board of Directors of the Top of Texas Fair Association will meet at 7:30 p. m. tomorrow in the Chamber of Commerce office to discuss plans for the second annual fair. H. B. Taylor, Jr., president, said.

The 1949 fair has been scheduled for the last week in September, with Irvin Cole serving as superintendent. The fair will again be held at Recreation Park.

"Last year's show was the first attempt to organize a county-wide fair," Taylor said. "It worked out bigger and better than we had expected, thus proving the need and demand for a fair in Gray County."

Before the fair will be able to expand much, additional buildings must be provided at the park for exhibit space, he added.

The Board of Directors of the fair is comprised of Taylor, Cole, E. O. Wedgeworth, Ralph Thomas, Vic Joyner, Quentin Williams, Clyde Carruth, Russell Kennedy, H. H. Keahey, Joe Fischer, Mrs. Mary Anne Duke, Mrs. Charles Warrington, Murray Seely, Willis Price, Paul Crossman, J. E. Kirby, Frank M. Carter, Milton Carpenter, L. L. Palmer, R. M. Samples, Clyde E. Magee, Pete Fields, E. F. Tubbs, Huelyn Laycock, Ellis Locke, D. V. Hardin, Crawford Atkinson, W. E. James, and J. L. Swindle.

## McLean Officials Assume Duties

McLEAN — (Special) — New city officers were installed during Monday night's City Council meeting. Votes on the recent election were canvassed and certified by the outgoing council, and the \$50,000 bond election also received its approval.

Harris King was installed as mayor, succeeding Boyd Meador. Guy Beasley and W. L. Copeland, an alderman, succeeding Roger Powers and R. T. Copeland. D. A. Davis was installed as city secretary, but J. A. Brawley was not present to take the oath; so J. A. Sparks is continuing for the present as city marshal.

## Woodshop Enjoyed by 95 Pampa Boys

By JIM McCLUSKEY  
News Staff Writer

About 95 Pampa High School boys are winding up a successful year of shop, under the instruction of Myles Morgan, who has taught shop at the High School for the past five years.

Because of the popularity of Morgan's course and the expanding enrollment, shop, this year, was open only to sophomores, Juniors and Seniors. Still more students wanted to take the course than could.

Several year-projects have been completed and others are still getting the finishing touches. Billie McClendon, who is completing his second year of shop, is just about to finish a large canoe, which is one of the largest projects in any of the classes. Gayland Turner, third year "shopper," has undertaken and nearly completed a desk.

About 25 students made large cedar chests this year, 15 made radio-record cabinets, several made coffee tables and many made bookshelves, table lamps, bookshelves and wastebaskets.

Joe Edd Mackie, Senior, who already has had three years of shop, continues to come around the shop, consequently, he has become Morgan's "right hand man." His latest assignment is making 100 miniature rolling pins to serve as a lady's plate favors.

Many of the first-year students have been engaged in lathe work throughout much of the year. John Hutchens, manager of the Pampa Bowling Alley, has kept the students supplied with worn-out bowling pins, with which they are able to make many types of maple table lamp bases.

This year the classes became so large that an extra room was added to the shop. It is the storage space under the stairs and is known as the finishing room.

Also, shop has provided the workplace for three students who are designing and building model autos to be entered in the General Motors-sponsored contest.

They are Lee McKinney, Wallace Bruce and Donald Lunsford. Nine students started leather craft at the first of the year because of the shortage of wood tools. Most of the leather craft tools were made by the students themselves. They started with strips of rawhide and before the end of the year will end up with fancy tooled belts and bill-folds.

Students taking the leathercraft phase of shop are Ronnie Samuels, Tommy Smith, James Clark, Len English, Mackie Higgenbotham, Dale Shackelford, Bobby Rogers, Jerry Noel and Robert Shelton.

## Dulles Warns Against Too Much Optimism

WASHINGTON — (AP) — John Foster Dulles, American delegate to the United Nations, said today the lifting of the Berlin blockade may mean merely a change in Russia's methods and "not a change of Soviet intention."

Dulles cautioned against too much optimism over Berlin developments while before the Senate Foreign Relations Committee to urge ratification of the North Atlantic Security Alliance.

He said the pact, binding the United States and 11 other nations to stand together in opposing any aggressor, is needed to help solve the German problem.

From former Undersecretary of State Will Clayton, the senators also got an expression on the prospective lifting of the Berlin blockade. Clayton said "we have won the battle of Berlin" but that it is only one small segment of the East-West struggle.

And, Clayton declared, "on balance, Russia is winning the cold war."

Called before the Senate Foreign Relations Committee to testify in support of the Atlantic Pact, Clayton said in a prepared statement:

"Soviet Russia's principal objectives in the cold war are to frighten democratic governments into excessive expenditures for defense, and to frighten private capital and initiative so that it will not operate freely." He added:

"The cost to the democracies, on the other hand, is enormous. So far, he said, the Soviet effort to undermine the democracies appears to be succeeding. The only solution, Clayton declared, is to use the pact as the basis for a federal union of democracies, which would muster such strength (See DULLES, Page 8)

## U.S. Seeks Way to Enforce Pledges on Human Rights

WASHINGTON — (AP) — The United States is consulting with other nations on steps to compel three Russian satellites to abide by human rights pledges.

Secretary of State Acheson told a news conference that Bulgaria, Hungary and Romania have rejected American charges that they are violating their peace treaty guarantees "concerning human rights and fundamental freedoms."

The charges were based chiefly on the persecution of religious leaders including the trial of Josef Cardinal Mindszenty in Hungary.

As a result of the rejection, Acheson said, the United States is now discussing with other countries the next steps to be taken.

In response to a question, Acheson added that he believes action by the Western powers under the peace treaties is imminent.

Acheson took a verbal swing at the idea of the "police state" which suppresses all independent opinion. He said this contrasts with the "American concept of a free society."

The Balkan peace treaties provide that in the event of a violation the first step is for the nation charging the violation to ask for action by the American, British and Soviet ambassadors in the country accused. The ambassadors would have two months in which to reach a decision.

If they do not agree within two months, the dispute may be referred to a commission composed of a representative of each of the contending parties plus a third party.

(See PLEDGES, Page 8)

## Seniors to Make Trip On Weekend

Approximately 140 Pampa High School Seniors and members of the faculty have made reservations for the weekend trip to Carlsbad Caverns. Frank Wilson, principal, said today.

The students and the nine faculty members will leave for Carlsbad at 6 p.m. Friday and will go by way of Lubbock, where they will stop for lunch.

The annual High School trip one of the climaxes of the year. The Seniors, when the group arrives at Carlsbad at 4:30 p.m. Friday, they will take part in a swimming party at the beach. Following the party they will be presented with a picnic supper.

This year's Senior Class will stay at the De Luxe Motel at Stephens Courts. The teen-agers will have a dance planned for the Pampa group Friday night.

Following the four through the caverns, the Seniors will be feted with another swimming party. They will leave Carlsbad Sunday morning and will return by way of Roswell and Clovis. They are expected to be back in Pampa late Sunday afternoon.

Faculty members accompanying the Seniors will include Miss Virginia Vaughan, Miss Margaret Jones, Miss Gwen Johnson, Miss Mary Winston, Aubra Noncaste, B. G. Gordon, John Plaster and Wilson.

RIVALS FOR W. C. FIELDS ESTATE — William Rexford Fields, Morris and Carolita Monti, two of the four principal contestants for the estate of the late W. C. Fields, meet on friendly terms outside a Los Angeles court where claims to the estate were being heard. Miss Monti, a former movie actress and friend of the comedian, got \$100,000 in the will. Morris, a Dallas airline official, contends he is Fields' son and entitled to one-third of the \$800,000 estate. (AP Wirephoto)

Mrs. Doshia Anderson, 815 N. West, is ill at the Pampa Hospital. All her children have been called home, it was said.

### Common Cold Fighter Found

CHICAGO — (AP) — An industrial physician reported that an anti-allergy drug has been found effective in controlling common cold symptoms.

Dr. Halstead G. Murray, writing in the May issue of Industrial Medicine, said that 75 percent of 494 persons treated during early stages of colds reported they "were cured or had their symptoms alleviated by the treatment."

The drug, pyribenzamine hydrochloride, was administered in 30 milligram tablets at four-hour intervals at the onset of a cold. Pyribenzamine hydrochloride is used extensively in treatment of hay fever. It is classed as an anti-histamine because it neutralizes histamine, an irritant substance released by the body in allergic reactions.

Primitive tribes paint their faces to frighten the enemy.

Swans were partly domesticated by the ancient Romans who valued their flesh as food.

Turtles, members of the reptile family, are primarily meat-eating although a few are herbivorous.

## American Mother of 1949 Is Given Another Title

NEW YORK — (AP) — The "American Mother of 1949" won another title on her arrival Monday from Fort Worth, Tex. "She's also the sweetest of mothers-in-law," a daughter-in-law remarked as Mrs. Pearl A. Gillis, 61, of Fort Worth arrived by plane.

An excited granddaughter, four-year-old Carol Ann Gillis, rushed up and asked: "Are you the American mother of the year?" "Grandma?"

"Yes, dear," Mrs. Gillis replied, as she hugged Carol Ann and a grandson, Don Gillis, Jr.

Mrs. Gillis was accompanied by her husband, Earle, a postoffice clerk on vacation. It was her first flight and their first trip to New York. She will attend a reception in her honor Wednesday night and on Mother's Day, May 8, she will speak at exercises at Central Park.

In addition to members of her family, Mrs. Gillis was greeted at the field by Mrs. Norman Vincent Peale, national chairman of the American Mothers Committee of the Golden Rule Foundation, which sponsored the selection. She presented Mrs. Gillis with a bouquet of snapdragons.

**HUKBALAHAP ATTACK**  
MANILA — (AP) — Four hundred hukbalahap guerrillas attacked Cabanatuan Monday but were driven off by constabulary troops.

**MINI CHILDREN**  
NEW YORK — (AP) — There is a surplus of women in America. Supply has now outrun demand in this important field. And the ratio of excess women to men is likely to continue.

What can be done about it? Particularly since medical science at present is unable to arrange a switchover in posterity production techniques — by means of which the stark world would bring more baby boys and fewer baby girls.

The commonest solution for the problem of the extra female has been polygyny, the system under which a man has several wives.

To an American husband this system certainly has obvious merits. I think ten wives would be about right, if all remained deductible for income tax purposes.

Under polygyny you would marry the first wife for love alone — as now often happens in monogamy.

The second wife would be a \$52,000-a-year career woman, and she would bring her \$1,000 pay check home in her mouth every week.

The third wife would be a wonderful cook.

The fourth would be maid and housekeeper — a well-muscled lass able to move heavy furniture around by herself.

The fifth would be a trained nurse, skilled at mixing hot toddies when I had a cold.

The sixth would be a plump young baby sitter. She'd care for the children and do odd jobs like bringing my slippers and lighting my cigars.

The seventh would sing and dance at home entertainments.

The eighth would be a secretary and an accountant. She'd keep the family budget.

The ninth I would take to sports events. And she'd never ask questions like: "Why don't they arrest that man if he is stealing bases?"

The tenth would be a glamorous, talented conversationalist. I'd take her along when the boss invited me to his house for dinner.

I think with ten wives like that any man could have a happy home.

If your face is round do not wear round eyeglass frames.

By HAL BOYLE

NEW YORK — (AP) — There is a surplus of women in America. Supply has now outrun demand in this important field. And the ratio of excess women to men is likely to continue.

What can be done about it? Particularly since medical science at present is unable to arrange a switchover in posterity production techniques — by means of which the stark world would bring more baby boys and fewer baby girls.

The commonest solution for the problem of the extra female has been polygyny, the system under which a man has several wives.

To an American husband this system certainly has obvious merits. I think ten wives would be about right, if all remained deductible for income tax purposes.

Under polygyny you would marry the first wife for love alone — as now often happens in monogamy.

The second wife would be a \$52,000-a-year career woman, and she would bring her \$1,000 pay check home in her mouth every week.

The third wife would be a wonderful cook.

The fourth would be maid and housekeeper — a well-muscled lass able to move heavy furniture around by herself.

The fifth would be a trained nurse, skilled at mixing hot toddies when I had a cold.

The sixth would be a plump young baby sitter. She'd care for the children and do odd jobs like bringing my slippers and lighting my cigars.

The seventh would sing and dance at home entertainments.

The eighth would be a secretary and an accountant. She'd keep the family budget.

The ninth I would take to sports events. And she'd never ask questions like: "Why don't they arrest that man if he is stealing bases?"

The tenth would be a glamorous, talented conversationalist. I'd take her along when the boss invited me to his house for dinner.

I think with ten wives like that any man could have a happy home.

If your face is round do not wear round eyeglass frames.

## Strike's Out

President Truman received the first strike of this new Truman Presidential Medal, which went on public sale at the Philadelphia Mint. A profile of the President appears on one side, top, with a recent south view of the White House and the presidential coat of arms on the other, bottom.

## AMERICANS WARNED

HONG KONG — (AP) — The American Consulate here Tuesday reissued a warning to Americans to get out of South China interior points.

The consulate said conditions anticipated in its first warning had "became reality" since the Communist crossing of the Yangtze.

Women with large faces should not wear small glasses.

## Express Head Has Retired

NEW YORK — L. O. Head, president and director of the Railway Express Agency since 1932, has retired after more than 30 years of continuous service in the express field. It was announced today.

Alfred L. Hammell, executive vice president, has been elected as his successor in both positions by the Board of Directors.

Mustered out of military service in the Spanish-American War, Head began his career as a clerk for Wells Fargo & Company Express on the Texas Central Railroad at Dublin, Texas. He was transferred to Albany, Texas, and in July, 1900, became agent for Wells Fargo & Company Express at Lake Charles, La.

After three years at Lake Charles, he was appointed route agent at Dallas for four years; chief route agent at Houston in July, 1907, and general agent at New Orleans in October, 1909.

He first became an operating official in August, 1911, when he was appointed superintendent at Little Rock. In June, 1913, he became efficiency superintendent at Houston and in July, 1915, general superintendent at Los Angeles. He received a series of promotions, and in August, 1940, he was appointed vice president of the Central Departments, Chicago, serving in that capacity until October, 1945, when he assumed the duties of the newly-created position of executive vice president at New York, the company headquarters.

## Children Join in Hunt for Themselves

QUINCY, Mass. — (AP) — Two little friends took a stroll in the marshlands Monday.

Hours later they were deep in volunteers — hunting for themselves.

This is how it happened.

## Pampa News, Wednesday, May 4, 1949

The parents of a Joe Marcou and Richard Paul, both 7, reported they were missing.

Volunteers went into the marshlands. Jane and Paul spotted several of the men. But they thought the men were chasing them. So they hid.

Another little friend came across the youngsters. He told them the men were searching for "a little boy and girl."

Jane and Paul joined searchers. They were hard at work when employees of a radio station recognized them — and hunt ended.

## Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugist and ask for four ounces of liquid Barcostrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two table-spoonsful twice a day. That's all there is to it.

Follow the easy way endorsed by many who have tried this plan and help bring back slurring curves and graceful slenderness. It's so how quickly most disappear — how much better you feel. More alive, youthful appearing and active.

10 pounds lost in 10 days

Mrs. M. C. Britton, 286 W. Wildwood, San Antonio, Texas, writes us as follows: "I am a faithful user of Barcostrate. I had dieted for weeks without your product and needed so badly to lose 10 pounds. I started using Barcostrate and my worry was over for I lost the 10 pounds in 10 days. I now weigh 125 pounds."

"I eat most anything I want and hold my size weight."

Harvesters Washed Out of District Baseball Race

Main, darkness and twelve Amillo Sandie runs brought an end to the one-game winning streak of the Pampa Harvesters last night. The game was called in the 5th half of the fifth inning with the Sandies holding a 12-7 lead. Light shower had started to fall and the groundskeeper immediately turned off all of the stadium lights to prevent the bulbs from burning, and refused to turn them back on. So the game had to be called with Amarillo victor. The loss knocked the Harvesters out of any chance for the District 1-AA baseball title. The Harvesters jumped off to an early lead, scoring in the first three hits, the big blow double by John Nolan with two men aboard. But the Harvesters turned around and gave Amarillo eight runs in the third frame with two errors and several mental blunders. Pampa fought back with one in the fourth and three more in the fifth, after Amarillo picked up a run in the fourth on two hits and two more errors.

The Harvesters close out their season next Friday afternoon at Park when they will play at the Berger Bulldogs, the only team in the district that they will definitely be gunning for their second victory over the Bulldogs, as they are the team which caused the protest of the saying of Derral Davis. A defeat at the hands of Pampa could shut Berger the district title.

Borger Continues Winning Ways; Bounces Gold Sox Again, 15-13

BORGER — (AP) — Third baseman Bob Johnson's clutch triple in the eighth inning, coupled with Hugh King's masterful relief twirling, gave the Borger Gassers their tenth straight win last night. The Gassers whipped Amarillo 15-13. Borger led in the fifth 11-2, when defense and pitching fell apart. The Amarillo Gold Sox jumped on starting hurler J. L. Peterson and reliever Max Aron Grant for eleven runs to take a 13-11 lead.

Borger scored one in the seventh to make the count 13-12. In the eighth Johnson tripled scoring Jimmy Littlejohn and Bill Wynns to give the Gassers the lead. Hugh King handout for the Sox in the later innings to chalk up the win. Littlejohn grand-slam homered for the Gassers in the fourth. Amarillo AB R H PO A E. Jean Duenkel New Woman Champion

Mrs. Jean Duenkel won the Women's City Golf championship yesterday afternoon, defeating defending champion, Mrs. Floyd Heath, one-up on 19 holes. The match was a terrific all the way, with neither lady holding over a one-up margin at any time.

Mrs. Heath, who usually has little difficulty on the greens, found her putter giving her trouble yesterday, and Mrs. Duenkel took advantage of it to win. Heath defeated Miriam Lueders and Marge Austin to gain the finals, while Duenkel downed Ruth Beisenherz and Alice Howard on her way to the crown.

Marge Austin won the consolation championship in the championship flight, defeating Oak Alley Whittle and Ruth Beisenherz to do so.

Winner of the first flight in the tournament was Lela Ward, young High School girl, who defeated Sally McGinnis, 2-up on 18 holes. Lela defeated Juanita Tinsley and Sammie Osborne and Sally downed Audrey Schwartz and Alice Schetz to reach the finals.

Tinsley defeated Schwartz for the consolation title.

Golfer Scores Hole-in-One

The second hole-in-one of the year was registered at the Pampa Country Club yesterday when Orville Heiskell holed out on the 155-yard number 10 hole. He used a three iron shooting into the crosswind. Playing with Heiskell at the time were Mr. and Mrs. Clarence McGinnis.

This is the first one for Mr. Heiskell in his lifetime, and the second of the season at the club. E. E. Ehrbridge scored an ace early in January on the short number 3 hole.

Many golfers were out on the course yesterday practicing for the city tournament. Qualifying will begin this weekend and a week from Saturday, with the first championship round being shot the following Sunday, May 15.

Nats Beat White Sox With Seven Homers

CHICAGO — (AP) — The Washington Senators hit seven home runs yesterday, in the tenth inning to defeat the Chicago White Sox, 14-12, before a crowd of 4,507 persons. Al Evans and Gil Coan hit the Senators' sixth and seventh round trippers in the tenth after Steve Souchock's pinch double pulled Chicago into a 12-12 deadlock in the White Sox ninth.

Pro-Amateurs Shoot At PGA Tournament

DALLAS — (AP) — More than 100 pro-amateur teams competed today in the last preliminary to the Texas Professional Golfers Association annual tournament. Yesterday, five teams tied for first place in the professional best-ball event.

Tomorrow, the 72-hole PGA tournament gets underway. Warren Smith of Oak Hills Country Club, San Antonio, and Jack Hardin of El Paso shot one under par 70s to tie for the best individual round in the best ball meet.

Smith teamed with Ray Garrett of Wichita Falls for a 34-68 to tie for first.

Byron Nelson, defending Texas PGA champion, and four others had even par 72 for the second best individual scores.

PHILADELPHIA — (AP) — Mixing three hits with three bases on balls and a hit batsman the Philadelphia Phillies scored six runs in the seventh and defeated the St. Louis Cardinals 7-3 here last night in the first game of the series.

Hitting and Pitching Fail Again; Play Abilene Tonight

LUBBOCK — (AP) — Extra base hits spelled the downfall of Pampa again last night, the Lubbock Hubbers pouncing the offerings of Merlin Hubbard for 13 hits and a nine to five victory. It was the Hubbers fourth straight win over Pampa and they lost no time getting to work.

Two hits in the first inning were followed by a three-run homer off the bat of Jim Prince. John Meyer, a lanky righthander who arrived here only yesterday morning, throttled the Oilers on nine scattered hits. Eight of the safeties were singles, Dave Teyema getting a double in the sixth.

Lubbock wasted no time making Hubbard's existence a misery, after Pampa had put together two scratch infield hits and an outfield fly for a run in the top of the first. Nelson Davis forced Buddy McCallum who had singled and Manager Jackie Sullivan followed with a double that sent Davis to third. Prince followed with his homer.

In the second, Meyer singled, McCallum doubled, Sullivan tripled and Prince singled to drive in three more runs. Duarte called the game away in the third when over Mike Dooley had singled, he drove a pitch over the rightfield barrier.

Pampa pecked away at the Hubber lead, but Meyer never let the Oilers get too close. The visitors made three walks and a single by Homer Matney good for one run in the fourth. They picked up two more tallies in the sixth on a single by Matney, a walk to Ken Peacock and a double by Teyema.

The Oilers closed their scoring in the seventh on a walk to Ernie Velasquez and singles by Virgil Richardson and Peacock. The Hubbers got 10 of their 13 hits before Jim Anderson could come on to chill the home club. Both Meyer and Hubbard whiffed eight, with Meyer walking seven and Hubbard only two.

Tonight the Oilers will attempt to break their losing streak as they go to Abilene to tackle the Blue Sox, who have just come to life. Who will be on the mound for Pampa is doubtful, Manager Seitz having used up most of the material available while trying to stop the Hubbers bats the last four days. Bodine may make another start after only one day's rest, or Roy Parker could be on the mound after two days off.

## San Antonio Knocks Eagles Down Second Time in Three Days

By The Associated Press  
Texas League teams swap opponents tonight, and the Dallas Eagles, for one, think it is a fine idea.

Tommy Fine last night beat the Eagles, 2-1, with a neat eight-hit pitching. It gave the San Antonio Missions the brief series, two games to one, and impressed on the estimated 26,784 fans who saw the three tilts that Dallas isn't any winged monster.

Pitching played a part in two other victories last night, but in another, batting was best.

Oklahoma City batters beat six shrewd pitchers badly, pounding out 16 hits for a 16-3 victory.

Tulsa downed Beaumont, 8-3, and Fort Worth whipped Houston, 4-2, on pitching.

For Tulsa, Jim Avrea set the Exporters down with three hits. His mates clinched the game for him in the ninth with a five-run outburst. Earlier, Jean Herbert had hit a home run.

Carl Erskine came in to choke of the ninth inning Houston rally for Fort Worth.

Seven of Oklahoma City's runs came in the first inning. Grant Dunlap hit a home run in this frame and Ray Murray chipped in a grand-slam circuit clout a little later.

A snappy double play erased a Dallas threat in the final inning. The Eagles got one run this frame and had the bases loaded when the twin killing stopped everything.

Vernon Kennedy gave San An-

tonio only five hits, but one was Don Lenhardt's home run. It was his first defeat in five starts.

### Chandler Asks Protection From Unneeded Abuse

NEW YORK — (AP) — Commissioner A. B. Chandler's admonition that "ball players have a right to protection from unwarranted abuse" drew a round of lusty "amens" today from major league club officials.

Many of them said they were heartily in accord with the commissioner's view of the subject and those who hadn't already taken such precautions promised to do so immediately.

Several clubs said they had taken steps long ago to protect players from fans after the game. Chandler's reproof came in his statement yesterday reinstating Leo Durocher as manager of the New York Giants after a brief suspension.

The commissioner blamed the New York Giant Baseball Club in a large measure for Durocher's altercation with a fan in center field at the Polo Grounds last Thursday.

He said the Polo Grounds wasn't properly policed and the fan, Fred Boyesen, should not have been permitted in the box seat section without a ticket or allowed to "hurl insulting language."

Horace Stoneham, president of the Giants, promised quick action. "Hereafter no fan will be permitted on the field until all players have reached the clubhouse," he said. This rule was enforced last night after the Giants beat Pittsburgh, 5-3.

### Last Chance for Softball Teams

All teams who haven't entered the Industrial Softball League as yet will have their last chance to do so tomorrow. All rosters and entry fees must be turned in at the Pampa Hardware by 6 o'clock tomorrow night.

The schedule will be drawn up Thursday night, after all of the entries are in. At present there are only four clubs entered in the league, so there is room for many more.

### Hornbuckle Relected

DALLAS — (AP) — The Odessa Country Club golf professional, H. T. (Shorty) Hornbuckle, has been relected president of the Texas PGA.

Hornbuckle was relected at an annual meeting of the group here last night.

## Sport Shots

By HAROLD V. RATLAFF  
Associated Press Sports Editor  
DALLAS — (AP) — Results of a five-point referendum in the Texas Interscholastic League will be announced Saturday morning at the annual league breakfast in Austin. The points have to do with membership in the National High School Federation, the amateur rule, television, football training camps and spring football training.

Two years ago a rule was inaugurated that forbade a school holding spring football training. In its place the school was allowed to start fall training Aug. 15 instead of Sept. 1. There has been a general clamor from the Texas High School Coaches Association for abandonment of the rule. The coaches say it's because the Aug. 15-Sept. 1 period is too hot for training, that spring football of 30 days is needed in order to condition the boys and teach them fundamentals, etc. The real reason, we suspect, is that a lot of coaches want to play football the year around and to tuck with the spring sports.

Anyway, the question has been again submitted and prospects are that the Class AA schools will vote spring training back while the others will not.

If the schools join the National High School Athletic Federation they will be forbidden to participate in interstate contests unless those contests are sanctioned by the federation.

The amendment having to do with the amateur rule would more clearly define "Athletic sport" and "amateur." The sports already recognized by the league such as additional recognized professional sports in which Texas High Schools are likely to participate. In other words, it would tell what a boy could take part in without becoming a professional.

Under a rule being voted upon, the State Executive Committee can negotiate yearly contracts for telecasting football games in the state play-offs on the basis of competitive bids.

The rule having to do with trips to training camps outside the school districts would hold the training period to the school campus or on a site controlled by the school board and lying within the boundaries of the school district.

We hear Houston, which had talked about plans for building a stadium seating 110,000 — which would be the largest in the nation — has lowered its sights somewhat.

Plans now call for a stadium of about 65,000.

What, no bowl game in Houston?

Recently, when Jerry Thompson ran a mile in 4:12.3 at the Texas Relays it was hailed as the fastest mile in Southwestern history. It now develops that the designation was erroneous.

Blaine Rideout, while running at North Texas State, did 4:11.8 in a meet at Denton.

Rideout ran faster miles than that but not in the Southwest. He turned in a 4:08.5 at Memphis, Tenn., in 1949 and 4:10.5 in the Sugar Bowl at New Orleans in 1939. However, he did not win either race. He still holds the Kansas Relays record of 4:10.1 and in that race his brother Wayne, finished second to him in 4:10.2.

Rideout, now trainer at Texas A&M, sees a 4:10 flat mile for J. D. Hampton, the Aggie distance star, in 1950. "If Hampton will keep working on his finish."

Some state legislators wanted to see the Dodgers in Oklahoma City, but a motion to adjourn was beaten when the speaker angrily rapped his gavel, and ordered a roll call.

It sounded like a Bum rap.

On one day, Greenville, Tex., of the Big State League beat the Yankees, the Atlanta Crackers whipped the Dodgers for the second time in a row, and the Fort Worth Cats and Houston Buffs topped the Cubs and Cardinals, respectively.

They were all, of course, exhibition games.

What an exhibition!

Angelo Lopez, Kid Gavilan's manager, comments on the projected Ray Robinson-Gavilan welterweight title bout, says his boy has been offered \$30,000.

But, he adds: "If they want me to double-cross anyone, they'll have to go higher than that."

In other words, *W.P. Lake* race Sugar.

The Argentine Football Association suspended more than 300 players, including some of the nation's top booters, for failure to reach contract agreements. The athletes protested the pay scale. They held out and got booted out.

That should prove a lesson to football players.

Rather than kicking, it might pay to take the plunge.

## WARREN'S WARMUP

By Warren Mass — News Sports Editor  
QUESTION: What is the longest measured home run drive ever hit?

**DUROCHER AFFAIR:** The outcome of the latest Leo Durocher affair was very gratifying to all sports-minded people. Durocher has been in a lot of trouble in the past three years, in fact, all of his life. But the decision handed down by Commissioner A. B. Chandler that Leo was not guilty in this last flareup was good to hear.

The clearing of Durocher in this case was not only good for Leo, but was good for the baseball world in general. Just in the past couple of years the game has been dragged into more courts and had more trouble than ever before. Possibly some persons will attribute this to the loss to the baseball world of the great Judge Landis, who ruled over his flock with an iron hand. No one dared cause trouble with The Judge. He wasted no time in throwing them out of baseball for good.

Many griped when Chandler took over, complaining that he was not capable of the job. But he has been confronted with problems that never happened during the tenure of The Judge. Landis was never confronted with huge amounts of money usurping the stars of the major leagues. Early in his career he had jumped the Federal League, but that was a different situation.

Chandler had to do something about this situation, and he felt that to bar them from baseball for five years was the best answer. It certainly stopped several big

### Cubs Whitewash Champion Braves

BOSTON — (AP) — Rightlander Walt Dubiel, who joined the Cubs in a winter trade, last night pitched a five-hit shutout in leading the Chicagoans to a 4-0 victory over the National League leading Boston Braves. A crowd of 15,096 saw only one of the Tribesmen reach third base.

### Athletes Gather For State Track Meet

More than 500 athletes will swarm into Austin this weekend for the thirty-ninth annual Texas Interscholastic League Track and Field Meet. New champions in all three divisions appear certain.

One overall state record is likely while nine divisional marks are in grave danger.

Corpus Christi is an overwhelming favorite to win the Class AA championship. Falfurrias appears the best bet for the Class A title while White Oak should take the Class B crown.

The discus throw record of 165 feet 2 inches set last year by Byron Townsend of Odessa, is likely to tumble before the flips of Lawrence Strickland of Tyler, who turned in 164 feet 3 inches in the regional meet this year.

Four records in Class AA are endangered. The 440-yard dash mark of 50 flat, set by John Trevathan of Corpus Christi, may take a beating from Billy Ed Daniels of Kerrville who did the event in the time in the regional. The 220-yard dash mark of 21.5 made by Carl Mayes of Pampa also may fall before Daniels who has turped in 21.7 and Bobby Dean of Corpus Christi, who had 20.5 with a strong wind at his back. The broad jump record of 21 feet 6 inches made by Jimmie Mash of Corsicana could tumble before John Cavileer of Austin, who has gone 21 feet 11.5 inches. Strickland is due to crumple the discus record held by Townsend.

In Class A there is bound to be a new record in the 440-yard dash because last year — the first time this division had its own meet — the winner was disqualified and no time was allowed. In the pole vault, Melvin Barfield of Athens, who tied for first last year at 11 feet, is back. He already has made 11 feet 4.5 inches this year.

In Class B Iran could wipe out the 440-yard relay record of 45.4, set last year by Richland Springs. Iran has done 45.5 this year. However three members of the 1945 Richland Springs team are back and just how fast this team is this year is not known.

### Sportsmen's Club to Meet Friday Night

The Pampa Sportsmen's Club will hold a meeting next Friday night, May 6, at the Courthouse starting at 8 o'clock.

The meeting is to complete the final arrangements for the fish rodeo. All members of the prize committee will meet there.

### Leo Durocher Happy Chandler

name players from playing in the wildest Mexican League for Pasquel pesos. But the five year ban also brought up other problems that never were even thought of in Landis' era.

The players who jumped their clubs brought up the reserve clause ruling and claimed that baseball was now interstate commerce because of the television and radio broadcasts. Whether Landis could have kept these cases out of the courts is unknown. Some think that he could have, others that he couldn't. Regardless, he was never confronted with such problems as Chandler, and many of the most rabid anti-Chandler baseball men are rapidly growing to respect him and his line of thought and action.

Durocher isn't out of the woods, yet, though, on this latest charge. Fred Boyesen, the fan whom Durocher is accused of attacking, has filed a simple assault charge against Leo. But after the outcome of yesterday's hearing with Commissioner Chandler, it would appear that the assault charge will be dropped.

From the word of fans who have come to the aid of Durocher with verified statements, it would appear that the fan got what he deserved, after jeers and taunts hurled at Leo during the course of the ball game which preceded the attack. Perhaps Boyesen did get kicked and punched. But in a crowd, he can't be certain that Leo did it. A sworn statement by a fan says that he kicked Boyesen accidentally when Boyesen fell to the ground. Television reports stated that Leo could clearly be seen working Boyesen over.

Whatever the truth, Durocher is clear, and the name of baseball has been helped once again.

ANSWER: Ken Silvestri, Yankee catcher, hit a home run during an exhibition game at Tampa, Fla., March 15, 1941, that was officially measured at 538 feet.

### Three Share Lead

By The Associated Press  
What a difference a day makes. It's three teams in first place in the Longhorn League now — San Angelo, Midland and Big Spring.

Midland squeezed into a share of the top by beating Sweetwater, 6-5 last night; San Angelo lost shuffest to Vernon, 0-16, and Odessa bowed to Big Spring, 7-10. Roswell beat Ballinger, 10-6, with a big five-run third inning.

A double and two singles counted Midland's winning runs in the eighth and Guinn Simons' big bat sparked a six-run Vernon splurge in the first inning.

The mark that appears destined to fall if any do is the 880-yard run in Class B. Vernon Dutton of Junction set the record of 2:04.0 last year. This year Dale Gonnell of Spring Hill already has turned in 1:55.7.

Bob Baggett of Harper might top the pole vault record in Class B. It is 11 feet 3 inches, set by G. W. Walker of Junction.

Preliminaries in all divisions are scheduled Friday with finals Saturday.

### Olympia Walks Off With Derby Trial With Little Competition

LOUISVILLE, Ky. — (AP) — A field of 12 shaped up today for Saturday's 75th running of the Kentucky Derby, with Olympia still the horse to beat.

The ease with which F. W. Hooper's colt won the one-mile Derby Trial over six other contenders yesterday boosted his Derby stock considerably.

Jockey Eddie Arcazo, who will ride Olympia in the \$100,000 added, mile-and-a-quarter "run for the roses," brought him under the wire only a length and a quarter ahead of Calumet Farm's on-rushing Ponder, but had slowed him to almost a walk at the finish.

Not pushed at any stage, Olympia ran the mile in 1:37 3/5, the same time hung up by Citation last year in winning the Trial with the same ease. Citation is the only horse ever to win both the Trial and the Derby.

Greentree Stable's Capot finished third in yesterday's Trial, followed by Hooper's Ocean Drive, Mrs. H. J. Damm's Roundleer,

### Yesterday's Sports Briefs

By The Associated Press  
BASEBALL  
CINCINNATI — Leo Durocher, manager of the New York Giants, was reinstated by Commissioner A. B. Chandler, who said there wasn't sufficient evidence to show Durocher assaulted a fan.

NEW YORK — The U.S. Court of Appeals postponed for 24 hours a hearing on the appeal of Max Lanier and Fred Martin for injunction to lift their suspensions.

RACING  
LOUISVILLE, Ky. — Olympia (\$2.60) galloped to a length and a quarter victory in the Derby Trial, going the mile in 1:37 3/5. Ponder was second and Capot third.

Arthur F. Cotter's Peley Cotter and Calumet Farm's Deluxe. From the first to the last there was a 14-length gap.

Writer Says Marshall Plan More Harmful Than Good

By THURMAN SENSING, Director of Research, Southern States Industrial Council

LONDON — A distinguished British doctor said to me the other day, "Great Britain should never have accepted your British loan or Marshall Aid. We should have said, 'Thank you very much, we are indeed appreciative of your generosity, but we have lived through the terrible days of the war and have survived, and we would prefer making our own way.'"

A sound-thinking British industrialist said to me, "The greatest service your country could render Great Britain would be to discontinue Marshall Aid in 1950. As it is, you are only enabling a socialist government to continue to deceive the people as to the real facts of their economy, and the longer they are misled to ignore the harsher the reality will be for them when the awakening finally comes."

These two statements are rather startling, coming as they do from citizens of a nation that has been the greatest beneficiary of our aid since the end of the war, but they only confirm, so far as these two gentlemen are concerned at least, a feeling that I have had for a long time and one which I have expressed in the past. The United States has been rendering freedom an actual disservice through the Marshall Aid plan. So far as Great Britain is concerned, we are certainly being unfair to that great percentage of her population who steadfastly believe in the free enterprise system and are unalterably opposed to socialism.

After all is said and done, this aid from the United States could never have been supported by logic for any purpose except that of self-defense. It is a faintly not to preserve democracy in the world, as its proponents so loudly proclaimed at the time. Subsidizing socialism, which is only a half-way step to communism, is certainly preserving democracy. It was not a matter of charity for a needy people. So far as the people of Great Britain are concerned, the friendship of the people of the United States for the British would have caused them to willingly extend all necessary aid to relieve suffering and starvation, but there were a great many people in the world in even greater need.

We have all been officially told that the purpose of the Marshall Aid was to put the recipient nations back on a sound, self-sustaining basis. So far as Great Britain is concerned, she will never get back on a sound economy under a socialist government. So long as it receives the funds to enable it to do so, the present government will continue to experiment with nationalization, with its consequent wastefulness and deficits, will continue to build up an overburdening bureaucracy and state control that kills initiative and stifles individual incentive.

The patriotic, freedom-loving people of Great Britain, and there are many of them, should be given a chance. This should be the last year of Marshall Aid.

KLAN GETS ORDER

ATLANTA — (AP) — No longer will this capital of the Ku Klux Klan allow the hooded order to wear masks in public.

The City Council voted unanimously yesterday to outlaw masks except for holiday celebrations such as Halloween.

Common Ground

By R. C. BOILES, Chapter on Education From the book "Facing the Facts" (Continued)

In the last issue I was quoting from the chapter on Education from the book "Facing the Facts" by Manly Hall, published in 1932. I wish to comment and quote further from this chapter.

"A most dangerous force is at work in the lives of the young, and only a well-balanced and properly directed educational system can hope to cope with and correct the condition. Where do young high-school children get the following philosophy, 'If you are honest, you're a sap; if you love mankind, you're a sissy; if you won't fight, you're a washout; if you don't drink, you're a washout; if you are an idealist, you're a dumbbell, and if you are religiously minded, you're a misfit?'"

Even though he may achieve only a portion of these vote-getting proposals from the current session of Congress, he has set himself up as the "people's friend" and the advocate of the so-called "welfare state." It is maintained that he has won back almost every element in the electorate which saved him from apparent defeat by Governor Thomas E. Dewey.

FAITH — The White House group is not concerned over the criticism which has emanated from certain agricultural, labor and economically-minded Democrats on and off Capitol Hill. Although the "professionals" and the "politicians" grumble, they are convinced that the rank and file of working men, farmers, racial minorities and "liberals" still have faith in him.

CONFERENCE — The disorganized and discordant state of the Republicans is cited by Truman leaders as an indication of the extent of the President's improving political health. When the GOP's top strategists assembled at Washington recently to discuss finances, rebuilding and their 1950 chances in the Congressional elections, there was a strong demand for a national conference of the leaders somewhere in the Midwest.

IMPORTANCE — The fact is that the coal miners' generalissimo will approach the 1949 battle with the "ops" under more severe disadvantages than at any time in the last twenty years. Despite his recent "memorial resolution," there is more coal above ground than during previous conversations, probably a two months' supply. A summer strike will not work as great a hardship on industrial and home consumers. Foreign exports of coal are dwindling steadily.

Other fuels are cutting the market for John L's product. His welfare fund for injured or retired miners is costing far more than he had expected. The man in the White House is his enemy, or so he feels. All these politico-economic considerations, he feels, lie behind the operators' suggestion for an

The Kiss of Judas

National Whirligig

news behind the news

WASHINGTON — President Truman's political aides believe that he has staged such a bold and startling recovery since his January-February loss that he has thrown the Republicans on the defensive as completely as he did in last fall's presidential campaign. They attribute his comeback to his new health, expanded social security, farm and foreign programs.

Even though he may achieve only a portion of these vote-getting proposals from the current session of Congress, he has set himself up as the "people's friend" and the advocate of the so-called "welfare state." It is maintained that he has won back almost every element in the electorate which saved him from apparent defeat by Governor Thomas E. Dewey.

FAITH — The White House group is not concerned over the criticism which has emanated from certain agricultural, labor and economically-minded Democrats on and off Capitol Hill. TEXAS NEWS

The Nation's Press

WASHINGTON DIDN'T SLEEP HERE (The Wall Street Journal)

According to Herbert Hoover, George Washington had one bureaucrat for every 4,000 citizens. President Truman has one for every seven.

In other words, seven people now support the bureaucrat the cost of whose prototype was distributed among 4,000 people. Doubtless the Washington ratio could not have been revised. It is hard to imagine the United States Government, vintage 1949, serving less than 37,000 officials. American insulation for the political insulate has grown, and the elaborate foreign representation and, of course, intimate concern with the functioning of other nations.

At home, Government has seen fit to minister more and more to its increasingly numerous charges. To do so it has had to explore every facet of their lives and control a number of the facts. Normal economic forces could not be permitted to go unchallenged; they had to be stabilized to provide insulation for the political insulate. Disputants and the habit of taking their quarrels to Papa Sam; the more they did so, the more Government thought it had to intervene.

It matters little that this was scarcely what Washington, Jefferson and others had in mind. They hated Government and feared its encroachments. But times have changed, and if the niche Government carved for itself has become an enormous room, seems on the way to becoming the whole building, few there are to protest.

The growing paternal bureaucracy required not only money but bureaucrats, which in turn cost more money. Over the past year the bureaucrats were being added at the rate of 285 a day.

Now Government wishes to embark on an even more ambitious program of caring for its presumably incompetent charges. Among other things, it wants to educate them, pay their medical bills, lower their food bills, maintain food-producers' prices, and house them. That is, it wants the seven citizens now supporting each bureaucrat to pay for these things, which the bureaucrats would control.

Except that, if these things are done, there will not be seven producers to support every official drone. There will more likely be two or three for one. And, of course, no one can seriously suppose the growth would end there; by its nature paternal Government must always find more things to do for its children, and the more things there are the more administrators. Ultimately the ratio could be 0.1 for every public official.

As we said, Washington's ratio of 4,000 to one probably could not have been preserved.

Class I Is Ann

McLEAY — (S) Williams, daughter of the late C. L. Williams, was elected editor-in-chief of the Class I newspaper.

Mr. and Mrs. James Ray Tindall and Mrs. E. L. Bakken, all of Stillwater, Okla., were recent guests in the home of Tindall's parents, Mr. and Mrs. J. M. Tindall.

Mr. and Mrs. W. A. Allen, Miss Catherine Ann Allen and J. R. Pennington have returned home from a trip to Lubbock where they visited in the home of Mr. and Mrs. A. D. Payne. Cathie Ann Payne returned with them for a visit here.

Mr. and Mrs. Ben D. Boyce and sons have moved from Shamrock to Magnolia Petroleum Company Research Department, where they will make their home.

Mr. and Mrs. Joe Henry Wickskaemper and family of Amarillo, and Miss June Wickskaemper of Dalhart, have returned to their homes after a visit in the home of Mr. and Mrs. A. F. Wickskaemper.

Mr. and Mrs. James Robinson and small son of Oklahoma City visited last week in the home of her mother, Mrs. Addie Moran, and with other relatives.

Mr. and Mrs. James Atkinson and daughter, Betty, and Mrs. G. N. Atkinson and daughter, Suzanne, all of Dallas, were recent guests in the home of Mr. and Mrs. G. N. Atkinson, Sr.

Mrs. Douglas Fringie and children, have returned from a visit with their mother and grandmother at Vernon.

Let's Plow Under Bigger Pigs!

With all apologies to William Shakespeare, who said that a rose by any other name would smell as sweet, we petition the reader to stay with us for just a couple of minutes to observe that a skunk by any other name would stink just the same.

Henry Wallace's old idea of plowing under the little pig has been found in ill repute by the Fair Dealers — in ill repute, par excellence, because it was a peanut operation. Under Brannan's plan, as Peter Edson notes on this page today under the title "Washington," not a little pig, but "pork chops" would be plowed under. We find not less socialism, but more of it.

If some readers have doubted our sincerity and purpose in proposing an end to the government's continued and insidious trend of government interference, they might take a look at what Edson has to say. This business of subsidy is only one of many inroads the government is making against the inalienable right of each individual to play his own trade. But it is vast in its own right. The government insists on "protecting" the people against surplus, Edson says, "a great big surplus of pork is building up. Under the law Commodity Credit Corp. will have to step in and buy this surplus level. . . . CCC can buy either hogs or finished ham, bacon, sausage and lard. Whatever it buys it must keep. That means either looking for tremendous feed pens and buying feed, or else renting more cold storage space than is available. Pork doesn't keep very well, either, so most of it will eventually be dumped. It should create not only a great smell, but a scream and a scandal."

This is one of the perplexities of the American people. We know that not enough of them know what is going on; and then we wonder if they would prefer to do anything about it if they did know. America has been cataloged as the cornucopia of the whole world.

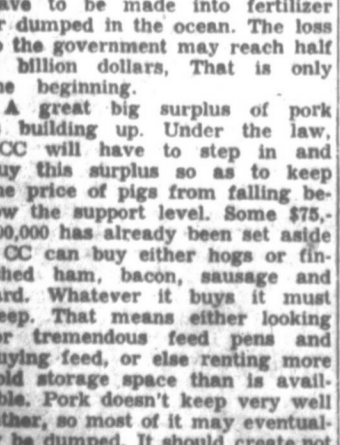

Most of our people may say "What matters anyway?"

ROTS KILL SIX

LA PAZ, Bolivia — (AP) — Bolivia counted at least six dead and 80 wounded today as the result of bloody riots which followed Sunday's parliamentary elections.

QUICKIES

By Ken Reynolds

"While you figure up your News Want Ads for a decorator!"

Washington.....by Peter Edson

WASHINGTON — (NEA) — Department of Agriculture's Commodity Credit Corporation now has on hand vast quantities of surplus pork, not to mention dried eggs and dried milk. It has bought these surpluses as required by the Agricultural Marketing Act of 1948. The purpose was to support the price of current farm production. CCC is probably stuck with these surpluses. Nobody wants to buy them at any price.

Being perishables, the eggs and milk, in particular, have to be dried at extra cost — to preserve them for a year or 18 months. But eventually they will have to be made into fertilizer or dumped in the ocean. The loss to the government may reach half a billion dollars. That is only the beginning.

A great big surplus of pork is building up. Under the law, CCC will have to step in and buy this surplus so as to keep the price of pigs from falling below the support level. Some \$75,000,000 has already been set aside. CCC can buy either hogs or finished ham, bacon, sausage and lard. Whatever it buys it must keep. That means either looking for tremendous feed pens and buying feed, or else renting more cold storage space than is available. Pork doesn't keep very well, either, so most of it may eventually be dumped. It should create not only a great smell, but a scream and a scandal. Instead of plowing under little pigs, it would plow under pork chops.

These two predicaments point to the immediate need for revising the present farm legislation and stopping all such nonsense. One suggestion has been to revive the old food stamp plan of depression days. That would permit surplus groceries to be sold to needy people below open market prices. Cost of such a stamp plan today has been estimated at around \$2,000,000,000 a year. The farmers would get half of this. Wholesalers and retailers would get half.

Gracie Says

By GRACIE ALLEN

I read where a theatre in Portland, Ore., advertised a coming attraction which had the word "chicken" in the title by having a lucky 7 contest winner chas a live chicken through the audience as his prize.

I always dreamed the day when movie theatres would borrow the audience-participation idea from radio. Now I guess they'll be advertising sex pictures by dropping dead fish down the backs of fortunate persons sitting in numbered seats, or farm picnics, by having an audience participant chas a greased pig through the theatre.

### Annual Pioneer Round-Up To 'Come of Age' May 21

PLAINVIEW - The atmosphere of the Old West will prevail at the 21st annual Pioneer Round-Up to be held here May 21, when the event will "come of age."

Sponsored by the Business and Professional Women's Club of Plainview, the event is presented each springtime. The curtain of the years is pushed back and out on the stage set in the modern little city troop gay figures from the past. These happy "old-timers" are the very same cowboys and their ladies who more than a half-century ago cleared the Llano Estacado of its buffalo and Indians and stocked its rich grasslands with cattle and windmills, pushing farther west the Texas frontier, and pioneered a section that today is one of the most prosperous agricultural areas of the nation.

From every walk of life the pioneers will be singled out, and for one brief day will be the center of an event that has come to mean a gallant salutation to their achievements, and a revelation to all who celebrate it with them.

The program for the day will start at 10 a. m., with registration at the City Auditorium.

### Texas Prison System Okays New Post, Plans Expansion of Present System

HUNTSVILLE (AP)—The Texas Prison Board created the job of executive assistant to the general manager and hired Richard Jones of Memphis, Tenn., to fill it.

The board said Jones' duties would be to relieve prison system General Manager O. B. Ellis of detailed work.

Jones formerly was education director of Shelby County Prison in Tennessee, the institution Ellis headed when he was hired to take over the Texas Prison System.

The board also approved plans to build an isolation cell block within the prison wall here. The block will contain 500 cells, with 192 set aside for quarantine cells.

They will be used to house prisoners described by Ellis as "unsalvageable material."

The board said it believes the cell block will help solve the problems of sex perversion, dope addiction and self mutilation.

Dr. T. R. Havins, secretary of the board, said sex perversion is prison system's number one problem. Self mutilation and dope addiction have decreased, he said.

Each of the isolation cells will be five feet wide, nine feet long and eight feet high.

Jones was at the Shelby County Penitentiary nearly four years. During his term there, he was also president and dean of Memphis State College.

His salary as Ellis' executive assistant will be \$5,000 a year, plus housing and prison-produced food.

He is a graduate of the University of Tennessee, attended Harvard and the University of Chicago and received his masters degree from Peabody College in Nashville.

Ellis was given authority to employ two more assistant general managers, as soon as he finds men he desires, at the same salary as Jones.

The board raised the salary of Ellis' present assistant general manager, Mace Thompson, from \$4,200 to \$5,000 a year.

It approved employment of A. G. McKain of Houston as superintendent of construction for the prison building program at a salary of \$500 a month. The board hired R. H. Jackson of Houston as engineer and estimator for the program at a salary of \$500 a month.

Former Assistant Manager Joe Byrd was promoted to transportation director and assistant warden at the Huntsville prison.

The board named L. G. Bounds, veteran prison employe, assistant warden at Central Prison Farm No. 2.

It also gave Ellis authority to negotiate with the State Board of Control to fix prices on prison products, including license tags.

The board indicated this should be on a cost-plus-profit basis.

Voted to junk the present powerhouse for the Huntsville prison and buy power from an outside source. The board said this would save money.

Voted to construct a duplex to house the new executive assistant to the general manager and the director of prison rehabilitation. The duplex will be built on prison property here at an estimated cost of \$10,000.

Approved plans to build about 75 units to house other prison employes at an estimated cost of \$3,000 each.

Voted to lengthen the prison print shop 30 feet to house a new textile mill.

Voted to change from wood heating to gas at Clemens and Retrieve Prison Farms.

Said that installation of an experimental laundry and bathhouse has been started at Clemens Prison Farm.

Voted to install new wells at Harlem No. 1 and Retrieve Farms and a new pump at Retrieve.

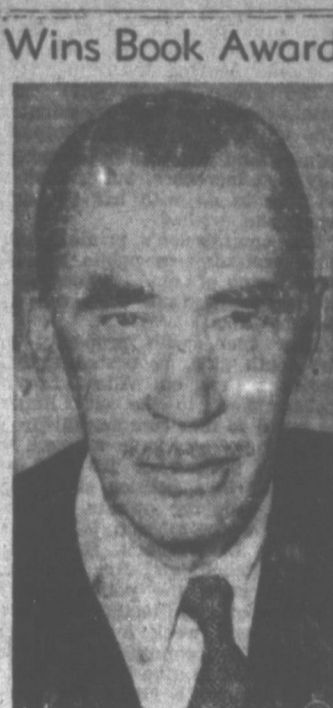

Dr. Havins reported the present prison population is 5,938 inmates. He said escapes had been reduced to 13 in the first four months of 1949 as compared with 28 in the same period in 1948.

He said the prison rehabilitation bureau is now helping freed convicts get jobs in cooperation with the Rotary Clubs of Texas.

The plan was suggested by Walter Casey, Beaumont Rotarian.

GASOLINE BURNS ALEXANDRIA, Va. (AP)—About 300,000 gallons of high octane gasoline were destroyed last night at Ebebe Field by a two-hour fire believed set off by lightning.

### Wins Book Award High School Show Begins On Thursday

Robert E. Sherwood received the \$1000 Gutenberg Award for his book, "Roosevelt and Hopkins," judged the book which "most progressively influenced American thought in 1948." The award was inaugurated this year by the Book Manufacturers' Institute in New York.

AUSTIN (AP)—The big show of the year for Texas high schoolers—the State Interscholastic League Meet—begins its three-day run here Thursday.

Some 1,400 high school students will compete for state titles in a variety of contests.

One-act play, ready writers, journalism, tennis, track and field, declamation, extemporaneous speech, typewriting, debate, short-hand, slide rule and number sense are the divisions in which students will challenge one-another.

Special events will include a special program for journalism, conference delegates and sponsors.

Outcome of the voting on proposed athletic rule changes and next year's debate topic will be announced during the meeting.

The league's annual breakfast meeting when new proposals are discussed will be held at 7:30 a. m. Saturday.

Superintendents and principals of member schools have voted on these questions: spring training, membership in the national federation, limiting fall training to the home campus; telecasting rights in football finale; and amending the amateur rule.

In 1948 the Philadelphia mint produced more than 808 million coins.

The weight of the human brain increases 200 to 300 percent during the first year of life.

### Canadian Has Top Band

CANADIAN (Special)—The Canadian High School Band, Class B, was rated first in sight reading at the band clinic at Canyon Saturday.

It also was rated second in marching and second in concert. Since there were no "firsts" in marching in the B-class bands, the Canadian band received many compliments on being "tops" in its class.

Other ratings at the clinic were: Student conducting, second for all three entrants—B. M. Bryant, Norma Bernson and Danie Conklin; solos, Patsy McMean, trombone, second; Nan Matthews, cornet, second; Norma Bernson, cornet, third; Dorothy Bernson, clarinet, third; Richard Waters, clarinet, third and Wanda Hoover, saxophone, third.

Monday the band attended the Guymon celebration and rodeo and appeared in the 5-mile-long parade in which more than 20 bands took part.

A pastry brush is useful many times in a kitchen. It's handy for brushing poultry when you are getting it ready for the broiler or the roaster and it's a help in buttering pans for baking.

The brain of a newly born child is about one third its ultimate size.

### Ex-ROTC Students May Be Reservists

AUSTIN—Former ROTC students who have successfully completed Senior ROTC instruction are eligible to enlist in the Enlisted Reserve Corps, Colonel Oscar B. Abbott, executive for the Texas Military District, announced here.

"These former students may enlist in the ERC in a grade commensurate with the number of years of training which they have received," said Col. Abbott. "For one year of training a man may enlist in Grade VI, private; two years of training, Grade V, private first class; and for three years of training he may enter in Grade IV, corporal."

The Organized Reserve Corps is currently conducting a drive to bring its strength up to mobilization requirements. As of Dec. 1, there were 270,000 male reserve officers, 4,800 WAC reserve officers and 470,000 enlisted reservists on the rolls. However, many of these thousands are inactive and many other thousands are coming to the end of their first enlistment. The interest of the inactive reservists must be revitalized and the service of present reservists retained if mobilization requirements are to be met, it was stated.

**ANTHONY'S** Every Day Low Price

**Baptists Give To Hospitals**

Every Baptist in Texas is being asked to observe Mother's Day, May 8, by giving to the charity funds of the six Baptist hospitals in the state.

Each year the hospitals sponsor the Mother's Day offering program in Texas Baptist Churches. The money is used for giving free hospitalization to those who are ill but unable to pay for treatment. Sunday School classes, Woman's Missionary unions, men's Brotherhood groups and church congregations will participate. The money is to go to Hendrick Memorial Hospital, Abilene; Baylor Hospital, Dallas; Valley Baptist Hospital, Harlingen Memorial Hospital, Houston; Hillcrest Memorial Waco; and Southeast Texas Baptist Hospital, Beaumont.

Last year the Baptist hospitals in the state cared for 68,000 patients. They treated 18,800 charity patients on a free or part-pay basis. Total cost of the free service, exclusive of the free time given by physicians, amounted to almost \$400,000.

**Sealed-In Poppa Caught Napping**

Hoisted to the hospital window on a fork-lift, Don Haynes shakes hands with his wife Mary and gets his first peek at his new-born daughter Jeannette from the sealed-shut car in which he must live a year to win a \$25,000 bet. Haynes expected to do his corridor pacing by driving around the Ashland, Ore., hospital, but was snoozing in the family garage when Jeannette arrived. He entered the car Feb. 19.

McCloy (Continued from Page 1) take over the government responsibility which Clay has exercised and apparently the President will have to name a military man as commander for American forces in Europe. There has been speculation that this job might go either to Gen. Mark W. Clark or Lieut. Gen. Albert C. Wedemeyer.

BLOCKADE (Continued from Page 1) next conversation will include the representatives of the French and British governments as well as Mr. Malik and Mr. Jassup. The third member selected by mutual agreement.

PLEDGES (Continued from Page 1) four representatives have arranged to meet at U. S. U. N. (American mission to the United Nations), 2 Park Ave., at 12:30 today.

RENT (Continued from Page 1) the hearing, but indications pointed toward a survey tour of the city by the commission and real estate men in the near future, to determine the full extent of the local housing shortage, and that a public hearing would be held.

'Gold Rush' To Advertise Palo Duro CANYON - Treasure and pleasure hunters over the Panhandle will head for Palo Duro Canyon May 28 to participate in a modern "gold rush."

6-Year-Old Star Gets State Award LITTLE ROCK - (Special) - Ginger Prince, 6 star of "The Lawton Story," new Hallmark film based on the life of Christ, has been made an Arkansas Traveler.

Gov. Sid McMath walked to the stage of the Pulaski Theater here on April 17 and presented the certificate to the little star himself.

Although the certificate has been awarded to distinguished scientists, authors and other important persons, it has been given to only one other movie star.

Arkansas Traveler certificates can be presented by the chief executive of the state only. When asked why he had awarded it to the little star, the Governor said: "The Lawton Story" will help lead men and women to God.

After a personal appearance, Miss Prince and her mother, Mrs. Gladys Prince, returned by plane to Beverly Hills, Calif.

Grand Canyon of the Colorado is 278 miles long, according to the Encyclopedia Britannica. At one point it is 13 miles wide and 600 feet deep.

The U. S. Department of Agriculture says that both ripe and green olives contain an abundance of vitamin A.

received the honor several years ago. Arkansas Traveler certificates can be presented by the chief executive of the state only.

## Merten HD Club Makes Slipcovers

Members of the Merten Home Demonstration Club met yesterday at the home of Mrs. A. Swafford on the Gulf Saunders lease to study the scheduled project of making slipcovers.

Mrs. S. E. Waters, living room decorator, was in charge of the program. She discussed selection of fabrics, fitting, marking, cutting, stitching and finishing.

Carding was discussed, and a new way to cover it was shown. Mrs. Waters stated that a zipper foot on the sewing machine is necessary because it will stitch close to the card.

"Always select firm, closely-woven material that has been pre-shrunk and vat dyed," was her advice.

Roll call was answered by each member discussing her slipcover problem.

A ten-minute demonstration on work simplification was given by Mrs. V. Smith on trouser stretchers, and by Mrs. D. A. Rife on bed-making. Mrs. C. L. Cudney was in charge of the business meeting.

Present were those mentioned and: Mmes. Frank Bailey, W. E. Coop, V. S. Day, C. A. Jones, A. M. Nash, G. W. Gardner, Les Moore, and I. F. Peterson, L. R. Spence, A. H. Brewer, visitors from the Lefors club.

## White Deer Grade School Girls Chorus Gives Program

WHITE DEER — (Special) — The White Deer Grade School Girls Chorus presented a program Sunday afternoon at the First Baptist Church here under the direction of Mrs. Hope Rusk.

The program included: "Country Garden," "Night Wind," "Singing in the Rain," "Dixie, Dackety, Do," "Dyin' to Me Only with Thine Eyes," "Velvet Shoes," "The Rosary," "Holy, Holy, Holy," and "Lift Up Thine Eyes," sung by the chorus; and a solo, "At the End of the Storm," sung by Betty Webster.

Members of the group were Ramona Meadows, Betty Fern Roles, Betty Webster, Patricia Kalka, Barbara Evans, Sue Franklin, LaVerne McAdams, Donna Rhoades, Patricia Hendricks, and Lois Mae Mills.

## To Look Younger Hold Head High

By ALICIA HART  
NEA Staff Writer

There is more than one reason for holding your head high if you are facing the forties.

A drooping head typifies an attitude of dejection or apology. If you want to look as young and alert as you feel you won't express this attitude by slumping.

Because allowing a head to droop is usually nothing more than a lazy habit, practical beauty reasons for correcting posture may be more convincing. Your slightly routine of creaming a throatline, keep it smooth and unlined will be less effective if you cancel out the benefits by carrying your head at a downward slant. If you will study your profile's behavior in a mirror you will see that drooping head encourages chin-lift and deepens creases in a throatline.

Eyes, too, look more youthful when a head is held up in proper alignment with the spinal column. To see for yourself, hold a hand mirror at eye level in normal daylight. When you tilt your nose slightly up in the air, you will see that a more even lighting of your face helps to banish under-eye shadows. When you drop your head forward so that light shines more strongly on the forehead, those unwanted shadows are intensified by contrast.

## CREAMED CHICKEN

Creamed chicken may be flavored various ways; a dash of celery salt and a little Worcestershire sauce adds tang, and so does finely grated onion. A few toasted almonds sprinkled over the top makes the dish crunchy and delicious.

## UPSIDE DOWN CAKE

In making an upside down cake, try sprinkling a little grated lemon or orange rind over the butter and sugar in the bottom of the pan; the rind combines well with whatever fruit is used and a plain cake topping.

## Thurman L. Morrison Arrives To Judge Piano Auditions Here

Adjudication of 107 piano pupils of Pampa and surrounding towns will begin tomorrow when Thurman L. Morrison of Hardin-Simmons University, Abilene, arrives to preside at the hearings sponsored by the National Guild of Piano Teachers.

Local women who are assisting as monitors are: Mmes. A. A. Schuneman, Irvin Cole, Herman Jones, and J. B. McCreery. Mrs. H. A. Yoder is local chairman.

Over 150 judges from coast to coast will be at work in 300 centers ascertaining the piano progress of America. These national arbiters are selected for their sympathy and understanding of students as well as for their reputation for achievement in some field of music.

In interviews with them after

the auditions, many of them say that talent is everywhere; in large cities and by the quietest wayside.

Many people ask, "What points does the judge consider when examining a piano student?"

The National Guild has a copyrighted chart in which accuracy, tone quality, rhythm, phrasing, pedal technique, interpretation, choice of repertoire, with 30 possible sub-headings are outlined.

There is also a place for specific, individual comment by the adjudicator on each pupil's performance. Each student is heard privately and plays from two to ten numbers, with an occasional 15 or 20 prepared by the more professional.

## 18 Canadians Attend OES Rites in Wheeler

CANADIAN — (Special) — Eighteen members of the Canadian Chapter, Order of Eastern Star, attended the constitution of the Wheeler OES Chapter Saturday night at Wheeler.

Dr. T. G. Rogers, worthy grand patron for the state of Texas, OES, presided at the constitution.

Mrs. Myrtle Rogers of Decatur, Mrs. Mary Bryan of Bryan, Floy Williams, Ethel Reid, Abeynail Ownbey, Anna Lee, Bessie Mae Hest, Cella Roe, Lenore Flewelling, Jennie Johnson, Juanita McDonald, Marg Pair, Georgia Green, Elva Trueblood, Lois Bryant, Eva Rhea, Earl Johnson and Bill Flewelling.

After the chapter was constituted, officers were elected and installed. About 200 guests, representing 12 chapters, attended the services.

Attending from Canadian were: Mmes. Bryan, Floy Williams, Ethel Reid, Abeynail Ownbey, Anna Lee, Bessie Mae Hest, Cella Roe, Lenore Flewelling, Jennie Johnson, Juanita McDonald, Marg Pair, Georgia Green, Elva Trueblood, Lois Bryant, Eva Rhea, Earl Johnson and Bill Flewelling.

## McKENNEY ON BRIDGE

By WILLIAM E. MCKENNEY  
America's Card Authority  
Written for NEA Service

Practically every city in the country has a bridge club. And, as I have often said, bridge is the one game in which young and old, whether they are athletic or crippled, can compete on an equal basis.

There are thousands upon thousands of people who are left alone. They need companionship and a game that will give them the competitive spirit. That is why the popularity of bridge is ever increasing, and the reason why bridge clubs should be encouraged. While it is true that at some clubs a small stake is played for, it is not the stake but the competitive spirit that people enjoy. The amount of money one can lose at bridge, even at a high stake, is small compared to what can be lost on other games or horse racing.

One of the first bridge club

thousands of people who are left alone. They need companionship and a game that will give them the competitive spirit. That is why the popularity of bridge is ever increasing, and the reason why bridge clubs should be encouraged. While it is true that at some clubs a small stake is played for, it is not the stake but the competitive spirit that people enjoy. The amount of money one can lose at bridge, even at a high stake, is small compared to what can be lost on other games or horse racing.

operator was Herman Goldberg of New York City. The other day I saw him playing rubber bridge at one of the clubs he originally owned, the Mayfair Bridge Club. As I kibitzed him, today's hand came up.

West's opening lead of the ten of hearts was made with the hope of finding his partner with the hearts; and also to avoid the danger of losing a trick by the lead of any other suit. Goldberg cashed four heart tricks and on the fourth heart West was helpless. West elected to discard three spades, so Goldberg simply cashed the ace of spades and conceded a spade trick to West.

## Tech Alumni To Have Dinner, Dance at Amarillo

A special invitation is extended to ex-students and alumni of Texas Tech by the Amarillo Chapter of the Texas Tech Alumni and Ex-Students Association to attend its dinner and dance at the Amarillo Hotel at 7:30 p. m. Saturday, May 14.

Mr. Noble and his orchestra will furnish music for the informal affair. Reservations may be obtained from Lois Weeks, 220 West Sixth, Amarillo. Deadline for receiving reservations is May 10.

## Worthwhile HD Club Plans 42 Party

The Worthwhile Home Demonstration Club had a called meeting in the home of Mrs. O. G. Smith for a glove-making demonstration.

Each member cut her gloves from suede material of beige, gray, pink or white color. Written instructions were given to each one present.

Final plans for the 42 party were made. The party will be held in the home of Mrs. Ray Robertson Friday night, May 4.

Refreshments were served to the following members and guests: Mmes. John A. King, R. L. Vaught, J. M. Harbison, B. M. Vaught, Carl Moot, Chester Williams, Paul Chambers, T. J. Watt, Ray Robertson, W. B. Turner, A. C. Crawford, W. L. Rowntree, R. E. Engle, E. A. Shackleton, Guy Savage and Roy Tinsley.

Make a topping for spice cake from a small package of cream cheese softened at room temperature then mixed smooth with a few tablespoons of cream, a quarter cup of sugar and a little vanilla.

operator was Herman Goldberg of New York City. The other day I saw him playing rubber bridge at one of the clubs he originally owned, the Mayfair Bridge Club. As I kibitzed him, today's hand came up.

West's opening lead of the ten of hearts was made with the hope of finding his partner with the hearts; and also to avoid the danger of losing a trick by the lead of any other suit. Goldberg cashed four heart tricks and on the fourth heart West was helpless. West elected to discard three spades, so Goldberg simply cashed the ace of spades and conceded a spade trick to West.

# ROGER THE LODGER

By Elizabeth R. Roberts

COPYRIGHT BY GARDNER FULMER  
DISTRIBUTED BY NEA SERVICE, INC.

THE STORY: Mr. and Mrs. Roberts take in problems as well as lodgers when they attempt to solve the wartime housing shortage in Great Falls, Minn. One problem is Roger, who invites unexpected guests to the house and who is the Roberts' son. But there are other roomers. She had four children in the basement, but these have been moving elsewhere one by one.

eating in the one room. There were no screens on the windows; the stove was an open-flame gas plate and she worried for fear fumes from it would poison her baby. They couldn't light a light at night because it attracted mosquitoes. She couldn't put the baby out to sun in the daytime unless she sat right beside the carriage, because the Missouri frowed unfenced by her door and she was afraid of some of the other children in the court might push the carriage into the river. They paid \$3 a day rent, nothing off by the week or month, and she didn't see how they could stand it any longer.

MONTANA has two seasons: winter and July. Unless there is rain some part of 20 of the 30 days of June, there is no crop; and in August, though the days are sunny and warm, the nights are chilly. But July is usually hot. The sun roars hot and set hot and stored up enough heat on earth during the 15 odd hours it shone to keep us nicely warm all night. On the morning after a particularly mellow night, a hurried young girl rang our door bell. She understood that our basement was empty—Pat had left the day before—and she wanted to rent it. "There are three of us," she said, indicating a parked car from which peered the anxious face of a young officer who was holding a tiny baby in his arms.

"You have a baby?" I exclaimed. "That settles it. You couldn't possibly live in our basement." I was talking, that, always hopeful of scoring if I could hold the other side from making a point. "It's too dark in summer. The leaves on the trees and shrubs shade the windows. It would be a dreary place for you to spend the day." "Is it the baby you object to?" "No, it's too tiny to be much trouble. I only feel you can find more suitable quarters somewhere else." "Do you know of any?" "No."

I HADN'T invited her in up to this point because I was afraid if I did I might have trouble getting her out. But now I felt safe, for we had only an open-flame gas plate in our laundry and I knew she'd want to cook.

"Come in and I'll convince you I'm right," I said.

We filed downstairs. The young people looked thoroughly into the laundry, saying that when they were cooking, they could close the door and open the windows and get rid of any gas fumes that way.

"No refrigerator," I pointed out confidently.

"Oh, we have one," they chorused.

They examined the bedroom carefully; noted that sunlight was streaming in the south and east windows in spite of what I had said, that there was a huge closet and space enough by the bed for the baby's crib.

"They made no comment on the sitting room, merely sank down on the davenport and relaxed. The air was at least 15 degrees cooler than out-of-doors."

"May we have it?" Captain Morgan asked.

I mentally ran over what I might

have to endure: our car? ... my kitchen? ... drinking? Obviously, with their own car, ours should be safe. With a baby, the girl would be too busy to be "helpful" upstairs. They seemed to be a happy couple—there should be no drowning of sorrow. I said I realized she'd need to use the washing machine and mangle and that I'd need to, too; and in exchange for letting her cook in my laundry, I'd have to have the privilege of laundering in her kitchen. I said I wouldn't be able to undertake to keep her apartment clean.

"Oh, no," she exclaimed. She'd gladly take complete care of the entire basement and the side entry as well. This was a break for my side since there was a lot of traffic through that entrance to the kitchen. I felt buoyant, relieved of so much housekeeping, and on the strength of that left invited Mrs. Morgan to sun herself and the baby in our garden. Rapidly we became a mutual aid society and it seemed perfectly natural for her to suggest I keep an ear open for sounds from the baby while she and Dick went after their possessions.

While they were gone, I called our neighborhood handy man. He pounded a few nails and changed the laundry into a kitchenette by hanging an old bookcase on the wall for cupboards, making a slatted top for one of the laundry trays so it would serve as a drain-board, and installing a rack to hold the dishes in the other tub so it wouldn't be such a back-breaking job to use it as a sink. He covered the laundry table with some left-over Sanitas from the powder-room walls and put hooks under the laundry shelf to hang pots and pans from. There were already checked gingham curtains at the windows; the walls were painted sunlight-yellow and the woodwork apple-green. By the time the Morgans returned with their boxes and dishes, make-do though it was, that room looked more like a kitchen than a laundry.

(To Be Continued)

## FUNNY BUSINESS

By HERSHBERGER

"No, thank! We just came in to gloat—we tried to get one delivered a year ago!"

## Woman Tile Contractor Has Big Ceiling Problem

By HAL BOYLE

NEW YORK — (AP) — Mrs. Mary Crocetti, who loves to putter about the kitchen, has the biggest ceiling problem in America today.

She is a plump, pleasant woman of 50 who operates a \$1,000,000-a-year business, one of the nation's largest tile contracting firms.

Her workmen now are installing clay tile on the twin ceilings of the new \$80,000,000 tunnel that will link Brooklyn and Manhattan.

"They are the longest ever installed in the United States — 9,117 feet," she said. "That will take about 3,200,000 — all set by hand."

Mrs. Crocetti talked shyly of how as a widow she had made a success in an industry dominated by men.

"Being a woman is no handicap," she smiled, "because I have such a reliable group of men working under me."

"My husband and I both worked on Italian language newspapers here a quarter century ago. But my husband opposed Mussolini at a time when many people still favored him."

Forced to enter another field, her husband, G. M. Crocetti, became a tile contractor. Upon his death she took over the business.

"I don't do much of the contact

## Movies Most Censored of All Art Forms

By BOB THOMAS

HOLLYWOOD — (AP) — This thought occurred to me during the fourth act of "Rigoletto."

Movies are the most censored of all art forms.

The notion came in a hot flash while sitting in a cold draft and watching the Metropolitan Opera Company here last week. Sparafucile had just sliced Gilda to ribbons and was going scot-free. And the lecherous duke, who caused Gilda's downfall, was backstage happily chirping "La Donna e Mobile."

This couldn't happen in the movies. The duke would have to repent, perhaps joining a monastery. And the assassin Sparafucile would probably be run through by Errol Flynn.

Opera is full of things that wouldn't get past the Johnson office censors. That goes for other forms of entertainment, too.

Take the stage. In "Mister Roberts" I heard language that wouldn't be permitted in the rowdiest of parlors, much less on the screen. The cleavage and comedy of "As the Girls Go" would be snipped in the script before filmed. Much of Shakespeare would have to be (and has been) blue-penciled to please the movie censors.

And books? Can you imagine the foxhole dialogue of "The Naked and the Dead" on the screen? Or the boudoir antics of "Forever Amber"?

That explains why Amber was such a dud in the movie version.

"One of the biggest problems is to keep the tilesetters happy," she said. "They are skilled craftsmen, and they are as temperamental as any artist."

"They work in teams—a tile-setter and his helper. And we call them 'husband and wife.' A good team is something like a happy marriage. They want to stay together."

"But if the team quarrels and the two men don't work well with each other—well, one of them has to take a trip to Reno."

About 75 percent of the tile setters are of Italian descent. She has three children. One son teaches sociology. Another is a graduate student in psychology. Her daughter, Emma, 17, is in college here.

"The only one in the family who wants to go into the tile business is my three-year-old grandson," she said. "He wants to drive a truck for me."

'Possum Has His Dancing Legs  
DENTON — North Texas State College's new student union building, decorated in a pioneer Texas theme, had an added Western attraction this week — a real live opossum.

The opossum wandered stage fashion onto the union's dance floor. But instead of being the pick of the stag line, he caused one coed to give a piercing scream and run in the opposite direction.

## Word Difference, Says Professor

DENTON — You don't have to see a West Texan walking to tell him from his East Texas brother — his speech habits will mark him almost every time.

Dr. Clifton, North Texas State College English professor who is conducting a research project to study speech habits of Texas. Usage of certain words almost con-

clusively draws a line between an East and a West Texan, he says.

Chances are that a West Texan has never heard of "blinky" milk; whereas almost any East Texan knows that it is soured milk. The words "where" and "nor" tend to come out with "whur" and "nur" when West Texans use them, Dr. Clifton points out.

Dr. Clifton's study, to be published upon completion, includes material on what people call objects, what forms of words they use to express their thoughts, and how they pronounce them.

MARGARET TO POPE  
VATICAN CITY — A source close to the Vatican secretariat of state said today Pope Pius would receive Prince Margaret of England during her stay in Rome.

## Textile Students To Attend Meet Of Fraternity

LUBBOCK — Thirteen Seniors textile engineering students at Texas Technological College who are members of Phi Psi, national honorary and professional textile fraternity, will attend the 1949 Phi Psi convention in Atlanta, Ga., May 6-7.

Texas Tech graduates, J. W. McCarty and Fred Williams of Atlanta, Ga., are assisting in convention arrangements. Williams is general chairman.

Tech students who are to attend include Joe Williams of Paris; Don Dugan of Seymour; Wade Webb of West; H. H. Ahrens of Hallettsville; Lance Sanders and R. C. Robertson of Lubbock; C. J. Harmon, Silverton; Bill Johnson of Greenville; Tom Welch of Fort Worth; Thomas and Lloyd Greenwood of Hale Center; Dick Siwert of Slaton; and Joel McConnell of Commerce.

Texas Tech has one of nine student Phi Psi chapters in the nation.

## Dietetics Grads Plan Internships

LUBBOCK — Five students in home economics at Texas Technological College who will be graduated this year with a Bachelor of Science degree in dietetics, have been appointed for internships in institutions under the approval of the American Dietetic Association for a fifth year qualifying requirement.

Miss Exa Fay Hooten of Stephenville will go to the Steverly Hospitals, the State University of Iowa, Iowa City. Miss Jessie Pearce of Lometa, a Miss Gloria Spradley of Seymour will join the staff at the University of Oklahoma Hospitals, Oklahoma City.

Jean Foleet of Olton is to join the University Hospital, Ohio State University. Miss Faye Walker of Roscoe will go to the Veterans Administration Hospital at Hines, Ill.

Work during internship may apply toward graduate degrees, Miss Margaret W. Weeks, dean of home economics, said.

## Venus Girl Wins College Award

DENTON — Barbara Dell Dean, 17-year-old Venus High School Senior who won the Texas Home Demonstration Association's 1949 Maggie W. Barry award, will attend North Texas State College next fall.

Highest honor which can be won by a 4-H club girl, the award carried a year's scholarship to any state college. Barbara decided to continue her study at NTSC's School of Home Economics after conferring with Dr. Florence Scoular, dean of the school.

Oakland Bay Bridge in San Francisco is the largest in the world.

## A Change is in Order...

Change to OIL-PLATING!

**Like New!**

Keep your car in showroom shape. OIL-PLATE the engine with Conoco No. 1 Motor Oil. It protects against wear... preserves that power. An additive, exclusive in Conoco No. 1, fastens an extra shield of lubricant right to cylinder walls. That's pep-preserving OIL-PLATING!

**Holds Fast!**... OIL-PLATING holds fast to metal parts. It can't all drain down, not even overnight! Already lubricated at the touch of the starter. Saves metal surfaces. Fights wear.

**Holds Up Longer!**... Conoco No. 1 is tough, because it's made from top-quality paraffin-base crude oil. It stands up under hard driving in searing summer heat.

**Holds Down Cost!**... An OIL-PLATED engine means fewer repair bills. An OIL-PLATED engine means fewer quarts between drains. An OIL-PLATED engine purrs with right-off-the-assembly-line performance for years and years and years.

**Oil-Plate today at your Conoco Mileage Merchant's!**

**AIR CONDITIONED**

**ELECTRIC COOKING is Cool too.**

Think about cool comfort... and you naturally think about electric cooking.

Electric cooking is truly cool cooking, for very little heat escapes from around the utensil to make your kitchen uncomfortably warm. Pots and pans remain sparkling bright because electric cooking is clean.

You'll be amazed at how much easier-cooler-cleaner your cooking can be. Many new and different features have been added to the new electric ranges... so see your dealer soon for a look at modern living at its best.

**Priscilla's Pop**

I CAN'T EAT ANOTHER BITE...

I'M ALL FULL!

WHAT A SHAME! I GUESS YOU HAVEN'T GOT ROOM FOR ICE CREAM!

OH, I COULD EAT ICE CREAM, ALL RIGHT! IT KIND OF SOAKS IN BETWEEN ALL THE OTHER STUFF!

**Bo**

OLD MRS HOYT IS IN THE PARK. SHE SPRAINED HER ANKLE AND I SAID YOU'D DRIVE HER HOME.

I'LL BE GLAD TO.

OKAY... THE ALLEY IS ALL CLEAR... BACK UP... HURRY.

THERE SHE IS ON THAT BENCH... BO STAYED WITH HER... COME ON, MOM.

MOTHER'S GONE. HER ROOM IS EMPTY. SHE MUST HAVE HEARD US QUARRELING OVER PUTTING HER IN A HOME.

GOOD

**Penny**

BYE, PEOPLE, I'M OFF TO THE CASBAH!

JUST A MINUTE...

YOU GO OUT MUCH TOO MUCH! WHEN YOU GET MARRIED YOU'LL LEARN TO SETTLE DOWN AND NOT GO OUT SO OFTEN.

YOU MEAN, NOT GO OUT AT ALL, DON'T YOU, ROGER, DEAR?

I CERTAINLY WALKED STRAIGHT INTO THAT ONE, DIDN'T I?

**Bo**

They'll Do It Every Time AND LEAVE MY MOTHER OUT OF THIS! AFTER ALL, IT'S HER HOUSE WE'RE LIVING IN!

REMEMBER HOW THEY USED TO COO AND WOO BEFORE THEY WUZ MARRIED? THEY WUZ THE GOOD OL' DAYS!

AS I TOLD YOU THIS MORNING WHEN I LEFT THE HOUSE, YOU DON'T HAVE TO SHOUT AT ME - WHY CAN'T WE SETTLE THIS OUTSIDE THE OFFICE?

IT COULD BE WORSE - THE OL' LADY DOESN'T WORK HERE - YET - I'M WITH MY OL' LADY ABOUT FOURTEEN HOURS A DAY - AND THAT'S TOO TOO LONG!

LISTENING TO THE MARRIED COUPLE WHO WORKED IN THE SAME OFFICE - THANK YOU SAL AND NELSON 'GERARDS' HILLSIDE AVE, JAMAICA

Sothern Finds Herself Being Discovered Again To Worriers

By BOB THOMAS HOLLYWOOD - (AP) - Ann Southern finds herself being discovered again...

CHICAGO - (AP) - If you're a worrier, here's a timetable which may come in handy. Four psychologists at the University of Chicago...

The ages and their primary worry subject are: 18, idealism; 20, personal development; 22, personal appearance; 25, sexual morality; 28, making a good impression on people; 30, pay at cost of living; 31, personal business success; 33, job security; 35, health; 41, political convictions; 42, marital difficulties; 45, giving up ambition; over 45, the primary worry is health.

Packard Offers Car Price Cuts

DETROIT - (AP) - Price reductions ranging from \$108 to \$220 on volume models of its new line of cars were announced Monday by Packard Motor Car Co.

Somebody Stole Annie's Guns

SHREVEPORT, La. - (AP) - Stage hands were in a dither over opening night of "Annie Get Your Gun" at the Municipal Auditorium here.

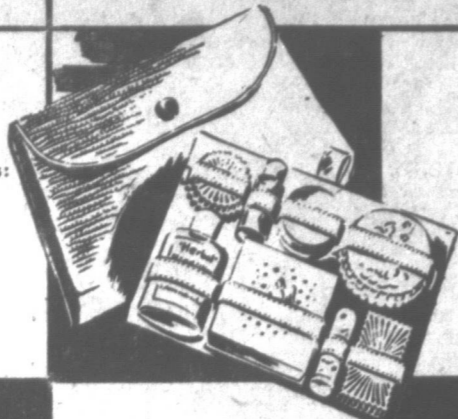

IT'S OUR MOVE . . .

for Mom!
