

Signs Appear New Year Will Give U.S. Consumers a Break

Spirit of Christmas Comes to Poverty-Stricken Mountain Area

SHALLMAR, Md. — (AP) — The spirit of Christmas burned brightly in this little mountain town today. And it is spreading to other poverty-stricken communities of the mountain area. All but a few of Shallmar's 200 residents were utterly destitute a few weeks ago. There had been no work in the community since its only mine closed down in March for lack of orders. Thin, scantly clad children became faint in school for lack of food. Some families had subsisted for weeks on a diet made up mainly of potatoes and apples. Then the plight of the town and its 80 children looked into the outside world.

Soon trucks loaded with food and clothing started bumping their way over the narrow mountain road to Shallmar. The packages were sent from all sections of the country. Hundreds of toys arrived and the mails brought letters from each of the 48 states. Many contained a coin or a check. More than \$3,000 is on hand now. It will be used to assure hot lunches for the children. In all six and one-half tons of clothing and foodstuffs have been sent to Shallmar. That would have been enough to carry the community for a long time. But Christmas is coming and many families of nearby Maryland and West Virginia

communities also have been facing a cheerless Yule. So Shallmar is dividing its gifts with less fortunate neighbors. Seventy neighboring families have received Shallmar food baskets in the last day or two. The children of 30 families have been clothed from Shallmar stocks. Many toys are being repaired by the men of the town. They will be sent to mountain homes where Christmas stockings would have been empty. Shallmar has given so much that there is just enough food left for the weekend. But this is a big weekend. The folks here are glad they have had a chance to spread the spirit of Christmas.

WASHINGTON—(AP)—There were some signs today of a happy new year ahead for consumers—with money more plentiful, a drop expected in pork and egg prices, and the easiest installment terms since the war.

The good news for those who like ham and eggs came yesterday from the Department of Agriculture. It reported prospects of a record-breaking peacetime pork supply in 1950, along with a possible eight to ten-cent-a-dozen drop in the cost of eggs.

The Federal Reserve Board followed that up today with a report that:

1. The tendency seems to be toward progressively easier terms for all borrowers who are buying goods on the installment plan.
2. It expects an expanding money supply next year. This includes bank deposits (both checking and saving) and currency in circulation. It will be swelled by large public outlays by federal, state and local governments—made with the use of bank loans since tax income doesn't cover the cost.

It is probable that consumers will continue to pay the same rate of income taxes and also the cost of steel products and coal is expected to rise. However, these increases may be offset in part by the mounting Congressional drive for a cut in the taxes levied on so-called "luxury items."

That would bring somewhat lower telephone bills, cheaper transportation, and a saving on such other things as electric light bulbs, cosmetics, leather goods and jewelry.

The reserve board said in its monthly bulletin that installment buying already has eased considerably since the government credit controls ended last June 30—most notably in the cases of new automobiles and refrigerators.

The money supply, it noted, fell off in 1949 for the third year in a row. "The total amount of currency outside banks at the end of November," the board said, "was \$800,000,000 less than a year

earlier and \$1,500,000,000 below November, 1946."

Like money, pigs were expected to be plentiful in 1950. The Agriculture Department said the fall crop this year is 10 percent higher than last year's, while next spring's crop is due to be six percent bigger than in the spring of 1949.

Those two crops will make up the bulk of the 1950 pork supply, and the increase probably will be (See CONSUMERS, Page 6)

Mother, Four Children Die As Shack Burns

HOUSTON — (AP) — A mother and four of her children were burned to death and four other children burned in an early morning fire in a frame shack at the John B. Kleinmann Dairy on Turner Road, near Fairbanks about 7 a. m. today.

Dead in the tragedy are Claudia Holcomb, 44, the mother, and Lillie Mae, 10; Floradene, 9; Louise, 5, and Willie Lee, 2.

Burned were L. L. Holcomb, 18, a son, who tried to break his way into the blazing shack; Ivy, 17; Dolly Lee, 13, and Lucille, 6. The extent of their burns was not learned immediately.

Fire Chief E. P. O'Rourke of the Spring Branch Volunteer Fire Department, said the fire apparently started when Lillie Mae poured either gasoline or kerosene on a wood fire to get it started.

The father, Pete Holcomb, is an employe of the dairy and was working with his father, but rushed to the house and tried to beat his way into the fire to rescue his mother and brothers and sisters.

Chief O'Rourke said the fluid probably exploded and showered the interior, causing the shack to go "up in one big puff."

He said the house was burned to the ground. "I don't know what happened inside the house, but they all must have got pretty excited," he commented. "The stove must have been close to the door to keep some of them from getting out."

Holcomb told reporters that his wife died with the youngest child, Willie Lee, in her arms. The shack burned to the ground so quickly that it took the 10 firemen of the Spring Branch department only 10 minutes to put it out.

Chief O'Rourke said L. L. told him that he thought his sister had used kerosene on the fire. (See MOTHER, Page 6)

New Drive-In To Be Built Near Hospital

Paul West, manager of the Pampa Theater, announced yesterday the purchase of a site for Pampa's second drive-in theater, and said construction on the project would begin as soon as weather would permit.

The site is about three or four city blocks north of the General Hospital on the route Highway 70 will take, on the left side of the road facing north. It is located on the Bill Kinzer land.

The theater will be comparable in size to the original drive-in (about 400 speakers), and will have the same modern equipment, West said.

Ollie Wilhelm, temporarily managing the new LaVista, will be in charge of both drive-ins when the new one is opened in the spring. West said new manager for the LaVista will be named later.

The LaVista, formerly the Rex, was opened last Saturday, with equipment of the latest equipment. Among the innovations is the cyclopic screen, or a screen which gives proper perspective and proportions to characters and objects regardless of the seat position of the patron. This is the only such screen in town, West said.

Last Chinese Army in Retreat

HONG KONG — (AP) — Heavy fighting today raged only 10 miles from Chengtu, last Nationalist mainland capital in Western China.

News of the battle was contained in a message direct to the Associated Press bureau here from a Chengtu foreign source. The message said Nationalist troops under Gen. Hu Tsungnan were in mass retreat toward Sikang Province which borders Tibet. Hu commands about 400,000 troops — the largest Nationalist force on the mainland.

Sikang Province has been chosen as the base for Nationalist guerrilla warfare.

Seal Sales Progressing

The response of Gray County residents to the 1949 Christmas seal sale has been most satisfactory to date, Mrs. G. F. Branson, president of the county tuberculosis association, said. Residents have contributed \$2,696.75. With a successful seal sale, Mrs. Branson said, the tuberculosis association can carry out its plans to expand its health education, case-finding and rehabilitation projects for the control of the disease in Gray County.

Today ends the third week of the sale. With the expanding services of the association, however, even more money is needed, she added.

During 1948 approximately 4,800 Gray County people were given free chest X-rays. Out of this number about 63 unknown cases of tuberculosis were discovered. More than 1,000 county residents took advantage of the free chest X-rays this year.

The X-ray service is jointly sponsored by the State Health Department, Gray County Tuberculosis Association and Gray County Medical Society.

CAROLERS VISIT LEUKEMIA VICTIM—Good Fellow carolers make a non-scheduled stop at the home of three-year-old Bobby Joe Kelle (seated center, on father's lap) at Chicago. The youth is the son of Mr. and Mrs. Michael Kelle. The carolers are steelworkers 50 weeks of the year; the remaining two weeks they are ambassadors of Christmas cheer. Bobby is a victim of leukemia. (AP Wirephoto)

SANTA CLAUS DRAFTED FOR DUTY IN COLD WAR

WASHINGTON — (AP) — Now even Santa Claus is in on the conflict with Russia. The Jolly Old Gent will play a leading role in the "Voice of America" broadcasts to the Russian people this Christmas season. The idea is to show the Russians what a fine season Christmas is in the land they are taught by their government to hate and fear.

Heavy emphasis also will be placed on the religious significance of Christmas.

In Russia itself, officials here expect that this year, as in the past, the Soviet Santa Claus will serve not as a dispenser of good cheer but rather as a mouthpiece of Communist propaganda.

Around the State Department, where every aspect of Russian life is put under the microscope, some odd facts have been turned up about the official Russian attitude toward Christmas.

The theme, authorities here said, is to be found in the "Large Soviet Encyclopedia" which in the 1941 edition declared:

"In the Soviet Union the celebration of Christmas by believers is a most harmful reactionary survivor of the old capitalist past. Like every religious holiday, Christmas is kept alive and supported among backward groups of workers by reactionary religious prejudices."

In the early years of the Soviet regime, an attempt was made to end the Christmas celebration completely. The sale of Christmas trees was forbidden and the familiar ornaments and decorations of the season were not offered in a technically-phased discussion of "semiautomatic" homing guidance in which a missile seeks out a target which has been "illuminated from a source other than the missile."

The reference was tucked away in a pamphlet issued today by the Defense Department's Research and Development Board. It is a new edition of the "glossary of guided missile terms."

As untangled from such complex phrasing in explanation by one expert, this means that a missile follows a radar beam from a transmitter either located in, or pointed at, a city or factory. In the case of pointing, the radar beam is aimed at the target and reflected off at an angle. The missile would "ride" the beam of this reflected radar impulse and then blast the target with an atomic or conventional warhead.

The "suitcase" transmitter to illuminate the target for the electronic eyes of the approaching missiles could be deposited by agents.

However, variations of this plan also are possible, among them the use of a "pathfinder" plane to fly high above and beyond an enemy city. A whole fleet of missiles could be headed for the target, following a radar (See ELECTRONIC, Page 6)

Santa's Sallies

Last-minute Christmas package senders have been advised by Postmaster W. B. Weathered to send their parcels air mail. Central Airlines makes four stops a day in Pampa — so parcels going in any direction just might get to their destination by Christmas if air mail is used. The same weight and size parcel regulations apply for air mail as for regular Post Office packages.

Heard Ed Cleveland, chairman of the Decoration Committee, says his group is about ready to start judging home decorations. This is one year that job is going to be a real one, since so many Pampa homes have been decorated. The decorations should be lighted from 7 to 10:30 p. m. until Jan. 1.

How curious can one get at Christmas time without peaking into those packages that could be anything from bow ties to overcoats from the shake and sound? Got one yesterday afternoon from an organization that certainly has the giving Christmas spirit. Three more days to wait and wonder.

Noticed a house in the 308 Magnolia block that is decorated to the hilt. In front of a huge silver background stands cutouts of carolers. Then there are enough spotlights added to brighten the whole block.

These Christmas parties in Pampa this year certainly are "spirited" affairs. Everyone at the parties seems to be such a nice person. Can't it be the parties? (See SANTA'S, Page 6)

Electronic 'Saboteurs' Considered

WASHINGTON — (AP) — Military scientists are considering the possibility of planting robot electronic "saboteurs" in an enemy city to steer a guided missile to a target.

A hint of this was contained in a pamphlet issued today by the Defense Department's Research and Development Board. It is a new edition of the "glossary of guided missile terms."

The reference was tucked away in a technically-phased discussion of "semiautomatic" homing guidance in which a missile seeks out a target which has been "illuminated from a source other than the missile."

As untangled from such complex phrasing in explanation by one expert, this means that a missile follows a radar beam from a transmitter either located in, or pointed at, a city or factory. In the case of pointing, the radar beam is aimed at the target and reflected off at an angle. The missile would "ride" the beam of this reflected radar impulse and then blast the target with an atomic or conventional warhead.

The "suitcase" transmitter to illuminate the target for the electronic eyes of the approaching missiles could be deposited by agents.

However, variations of this plan also are possible, among them the use of a "pathfinder" plane to fly high above and beyond an enemy city. A whole fleet of missiles could be headed for the target, following a radar (See ELECTRONIC, Page 6)

Hoskins Given 35-Year Term

AMARILLO — (AP) — Dwight Hoskins, former Amarillo high school football star, was convicted last night of murdering a crippled filling station operator in a \$31.11 holdup.

A jury which deliberated the case more than 24 hours gave Hoskins 35 years in prison. The state had demanded he be executed. Defense attorneys said they would give notice of appeal immediately.

The filling station operator, Charles Lee Freeman, was shot the night of Oct. 5 during the robbery of the Wornie Kelley Service Station here.

Repeat of the Taft-Hartley Act Still HST's Main Objective in Labor Field

WASHINGTON — (AP) — Repeat of the Taft-Hartley Act still is President Truman's No. 1 objective in the labor field. But Democratic leaders in Congress say they look for the law to stay on the books through 1950.

Mr. Truman's lieutenants at the Capitol have indicated clearly they plan to advise the President it probably would be futile to try again for repeal — or even drastic revision of the law — at the new session opening Jan. 3.

Thus repeal appears almost certain to be one of the stormy issues of next year's Congressional election campaigns, just as it was in the Presidential and other contests in 1948.

The Truman Democrats aren't unhappy about that. Many of them feel the party's chances for

Guardsmen Lose Dog, 'Fritz,' to Happy Owners

Mr. and Mrs. Adolph Navotny have been converted into true believers of Santa Claus. Two months ago they lost their dog, "Fritz," and had given up hope of ever seeing him again.

However, National Guard Sgt. William Leonard was around to assume the role of St. Nick. He found "Fritz" in the Army's supply days ago behind the Oil Well Supply Company.

"Fritz" appeared to be a stray dog despite his "thoroughbred" look. He had a sore or broken left back leg when Leonard found him, but the sergeant decided that he could be mended and would make a fine "Trooper, II." Trooper, the blonde Cocker Spaniel mascot of the local unit of National Guard, disappeared several months ago.

"Fritz" was slowly nursed back to health while living at the Army at Recreation Park. Meanwhile, Mr. and Mrs. Navotny attended a square dance function at Recreation Park Sunday. Someone had let "Fritz" out of the National Guard office and the Navotny's discovered him roaming around the halls of the building.

When they spied their long lost "Fritz" they could hardly believe their eyes and were positive Santa had something to do with his discovery. So it now appears it will be a merrier Christmas for the Navotny's, and "Fritz," but not for the 57 men of the National Guard.

These Christmas parties in Pampa this year certainly are "spirited" affairs. Everyone at the parties seems to be such a nice person. Can't it be the parties? (See SANTA'S, Page 6)

Watchman, 71 Foils Burglary

KINGSVILLE, Texas — (AP) — A 71-year-old night watchman shot it out with thieves here early today to foil the attempted burglary of a downtown jewelry store.

The burglars got away after an exchange of six shots with Jack Farquhar, 71.

Here is the story as outlined by Farquhar: "Making his rounds, about 1 a. m., he drove up an alley near Wiseman's Jewelry Store and saw two men hiding in some bushes.

He gave no indication of seeing them but drove on away. He waited five minutes, then slipped up to the back door of the jewelry store and there was a man trying to gain entrance to the place.

He had a canvas sack of tools. He had already opened a door of steel bars and was working intently on an inner door. "What are you doing?" Farquhar asked the man.

"Just resting," said the stranger. "What do you have in the sack?" Farquhar inquired.

The stranger started walking off down the alley adjoining the store. Farquhar called to him, three times, to stop and then (See WATCHMAN, Page 6)

Donivee Ellison, 7-year-old daughter of Mr. and Mrs. Jack Ellison, 1509 W. Ripley, the little girl who has astounded audiences from Pampa to El Paso with her orations and recitations, will appear as guest entertainer at the Shamrock Lions Club banquet tomorrow night.

Last Sunday, Donivee, a small freckled-faced girl, gave orations on the Bible before the Business and Professional Women's Club here. She also delivered a reading on the Gettysburg Address, one on Thanksgiving, and novelty numbers. She was the center of attraction for 35 minutes.

The child has appeared on charity and strictly entertainment programs at Pampa, Odessa, Dallas, Wink, El Paso, Artesia and Hobbs, N. M., Tulsa, and Wichita, Kans.

Her mother, a former newspaper reporter and photographer in San Francisco, said the child started her "performing" when she was three. At that time she was devoting her effort to singing, during which she sang as an unusual child with Russ Morgan's orchestra. Later, when it was apparent she was exceptional in the pronunciation of words, her mother began training her in speech. Mrs. Ellison told The News she gave the child a lesson every day in speaking.

The little girl is a third grade pupil at Woodrow Wilson.

MacArthur Asks Probe in Case Of 376,000 Missing Japanese

2 JUVENILE PROBLEMS IN CITY SETTLED

In the face of a threat of a jail sentence the family of a seven-year-old confessed burglar has promised to move to Arkansas.

There are five youngsters in this family, County Judge Bruce Parker said today, the oldest of whom is 11. It was the oldest boy, the 11-year-old one, who told juvenile officer H. A. Doggett that the family "had been run out of" Clovis and Tucuman, N. M., and Amarillo.

A seven-year-old boy in the family admitted to breaking into Mundy's Service Station, at the corner of W. Foster and Frost, late Sunday night in company with a 10-year-old boy of another Pampa family.

The mothers of both boys were brought before Judge Parker yesterday and threatened with heavy (See JUVENILE, Page 6)

Communist Secretary in Court Today

HOUSTON — (AP) — James J. Green, state Communist Party secretary, was to appear today before Federal Judge T. M. Kennerly to show why he should not be cited for contempt of court.

Last week Kennerly ordered Green to testify before immigration officials in their investigation of Kurth and Steffi Regina Wittenberg. The Wittenbergs have applied for American citizenship papers but also seek to return to Germany. They are Houston residents.

The judge ordered Green to produce any party papers or documents pertaining to the Wittenbergs. Immigration officials recommended the contempt proceedings. They advised the U. S. district attorney's office Green had refused to testify or produce the documents.

Kennerly took under advisement yesterday whether Miss Ruth Koenig, former state chairman of the Texas Communist Party, must testify in the Wittenberg investigation.

Miss Koenig appeared before him to answer a show cause (See COMMUNIST, Page 6)

Child Speaker to Appear Before Shamrock Lions Club

Electricity Output Hits All-Time High

NEW YORK —(AP)— Electric power production hit an all-time high last week for the second week in a row, Edison Electric In-

stitute reported.

Output totalled 5,996,606,000 kilowatt hours last week, compared with 5,881,360,000 the previous week and it was 3.8 percent above the 5,790,191,000 kilowatt hours of a year ago.

India Displays Growing Pains

By DEWITT MACKENZIE AP Foreign Affairs Analyst.

The new and mighty nation of India, which a month hence assumes the status of a sovereign republic, is displaying some astonishing growing pains.

Take the strange case of the Gaekwar of Baroda who until the advent of the new India was one of the richest and most powerful of old India's some 600 ruling princes.

His latest adventure is involvement in a dispute with his 250 palace servants. They have organized a union under India's new freedom and are striking for higher wages.

There's a fine kettle of fish for a ruler who virtually held the power of life and death over his 3,500,000 subjects. Worse and more of it, 3,000 municipal work-

ers in the city of Baroda have struck in sympathy with the palace servants. The Bombay government can't intervene in the palace dispute because, for sooth, his highness is a "private citizen."

If the current Gaekwar did spend \$10,000,000 in six weeks he was merely keeping up the record set by some of his elders. Unhappily that also was the record in many of the ruling houses of India.

During my time in India there was one princely rake who used to get soused on champagne and chase wild dogs across country in a Rolls Royce. Fox hunting he called it.

Perhaps in some previous column I may also have mentioned the peasant dead. Later this ruler remarked to a friend of mine: "You know, I shouldn't have shot that fellow. It really wasn't a nice thing to do. Hereafter I'm not going to drink champagne when I'm driving."

However, it would be unfair to stop our column on this note. Some of the Maharajahs were beneficent rulers and did much for their people. Among these most assuredly must be included the great house of Baroda, at least in some periods of its reign.

Admiral Doubts Size Of Red U-Boat Fleet

LOS ANGELES —(AP)— Retired Adm. William H. Standley, former ambassador to Russia, doubts the Soviets have either the atom bomb or a large submarine fleet.

"President Truman's report concerning their possession of the secret of atomic energy," he said at a press conference. "From what I know of the industrial potential, I don't believe they have the bomb at all."

He also scoffed at the report by James Fighting Ships that Russia has more than 300 submarines with hundreds under construction.

The Corruption Of High Office

DISCUSSED in today's Whirligig column by Rudy Tucker, veteran Washington newspaperman, is a matter which has been in the back of every citizen's mind. It is a fact of disconcerting proportion, and a situation which, if permitted by the people to continue, could undermine the integrity of the republic.

Gracie Says

By GRACIE ALLEN
Here's a news item that could worry millions of travelers. A touring Iowa lady got into the MOPSY Gladys Parker

Washington....by Peter Edson

WASHINGTON (NEA)—The Committee for Economic Development has raised a new worry here. It's about the kind of country the United States is going to be for the next generation. Assuming that the "cold war" lasts that long.

Stalin-Tito Propaganda War Gives Two Pictures

By JOHN FISHER
Bot' Stalin and Tito have taken new steps to infiltrate each other's ballistics and bore from this.

But the Little Caesar didn't shiver in his boots. Instead, he quickly weeded his army and police. Whatever latent resistance there might have been went under cover. Even local foes rallied to their fellow nationalist.

On THE OTHER hand, the Fair Deal, through the department of Justice, has brought suit against large companies and corporations for alleged infraction of the law. Take, for instance, the current case against the AP grocery chain.

IT IS A BAD thing, indeed, as we have said here many, many times, when the administration and Congress bulldoze the people into acceding to bad laws. But it is far worse now for us as a nation to countenance the corruption of high office.

Belgrade illustrated papers play up the fun youth has in serving Tito. They print snapshots of young men and girls in shorts laughing as they push

habit of a midget she was visiting and was stuck there for 60 hours. Now, if the public gets the idea travel is that broadening, nobody but little people will dare take trips. That's wrong! All big people need to do is avoid little

Three particular dangers which a top-heavy national defense program imposes on individual liberties are listed by CED: 1. The burden of too-high taxes, weakening the incentive of business to produce.

The particular dangers which Mr. Laszaru points to are likely to lead to loss of individual liberties during the national security program include: 1. Peace-time selective service.

CommonGround

By R. C. HOILES
Answering E. Stanley Jones' Open Letter to the People Of Colorado Springs

For three previous issues I have been answering E. Stanley Jones' open letter to a sister newspaper. He will not answer any questions I have asked him but attempts to divert attention from embarrassing questions and what he advocates by wanting to discuss what I stand for.

The man who believes in distributing wealth by legislation believes that he and the majority are superior to Divine Providence. He must believe there are no eternal principles that must be obeyed. He becomes a law unto himself.

Edward Norton, the 29-year-old Navy veteran, to go to the White House, the Department of Justice or to the Central Intelligence Bureau, although these are the official agencies charged with authority in such a vital field.

It signifies a growing loss of faith in the willingness and eagerness of the men at Washington to safeguard questions vital to national security, or to re-examine the activities of prominent and political individuals accused of having endangered the nation's fundamental interests in the recent or remote past.

Success Secrets
By ELMER WHEELER
Is experience the best teacher? It's an awfully good one if you're sure you have the facts. Before we say that a thing cannot be done because Bill Jones tried it and failed, we should know the circumstances under which Bill Jones tried it.

WASHINGTON (NEA)—The Committee for Economic Development has raised a new worry here. It's about the kind of country the United States is going to be for the next generation.

WASHINGTON (NEA)—The Committee for Economic Development has raised a new worry here. It's about the kind of country the United States is going to be for the next generation.

Wheel The People!

National Whirligig

news behind the news

WASHINGTON — Most people probably missed the significance of the fact that when a Clemson College student told former Secretary of State James F. Byrnes that he had evidence of a secret shipment of atomic blueprints to Russia, Mr. Byrnes did not send the young man to a government investigating unit.

REWARD — The roll call of convicted or alleged betrayers of public trust who might have escaped prosecution or even questioning save for the insistence of Congress, the press at Washington and throughout the nation and an unflinching public opinion is too long to enumerate here.

Shovin' Sam, the Hurry Man

By GORDON MARTIN
When you're standing in a crowd to wait your turn to move ahead, it's likely you will meet a situation that you dread. There's a guy who's right behind you and he thinks you're moving slow, so he keeps on inching forward, though there's just no place to go.

The Doctor Says

BY EDWIN J. JORDAN, MD
WRITTEN FOR NEA
A long-lasting chronic cough is no joking matter. Furthermore, it may be dangerous to ignore it and just to try to ease the cough with drug store remedies.

HOLLYWOOD (NEA)— Exclusively Yours: Claudette Colbert and Fred MacMurray are a good bet to be reteaming in "My Wife, the Celebrity." Chester Erskine's first independent production. It's a comedy about a conservative bank teller whose wife suddenly becomes a celebrity when she writes a book about their married life.

REWARD — The roll call of convicted or alleged betrayers of public trust who might have escaped prosecution or even questioning save for the insistence of Congress, the press at Washington and throughout the nation and an unflinching public opinion is too long to enumerate here.

NAM-Proposed Excise Tax Is Opposed by Retailers

WASHINGTON (AP) — The American Retail Federation, saying it represents more than 500,000 retail stores, came out strongly against a general manufacturers' excise tax as proposed by the National Association of Manufacturers.

NAM directors on Dec. 8 suggested a uniform tax on "all end products of manufacturing except food and food products." This would substitute for the present so-called luxury taxes and the taxes on travel, entertainment and communications. NAM said it sought to correct "undeniable evils" while maintaining the federal revenue level.

Such items as jewelry, furs, cosmetics, luggage, handbags and electric light bulbs are considered luxuries and are taxed 20 percent.

And a tax of from 15 to 25 percent is put on such services

TRIBUTE TO A GREAT NEWSPAPERMAN—A portrait of the late Ernie Pyle, famous Scripps-Howard newspaper correspondent, is hung at the Press Box, a New York restaurant. His is the first of a series of paintings of famous newspapermen to be displayed in the restaurant's Hall of Fame. On hand at the unveiling were: William Donovan, wartime head of the Office of Strategic Services; John Shelton, artist who painted the portrait, and Henry Castello, co-owner and manager of the restaurant.

Woman 'Cal' Trainer Killed By Mean Lion

THOUSAND OAKS, Calif. (AP) — With a roar, a savage lion sprang at a widely known woman animal trainer and quickly killed her while her horrified children tried to save her.

Mrs. May Kovar Schafer, 42, was in the cage Tuesday with the lion, Sultan, attempting to break him into training. The powerful animal lunged at her, bore her down and bit her in the neck, severing the spine.

Her children, Michael Kovar, 15, and May Kovar, 14, were watching.

Armed with short poles, they rushed through the cage door. But the beast, with Mrs. Schafer's neck in his jaws, ignored their pokings.

Michael, May and three-year-old Sandra Schafer, who was nearby, screamed for help.

Rudy Muller, 59, an elephant trainer, ran to their aid.

"I grabbed up a pitchfork and an eight-foot length of pipe," the frail man said. "I brought the pipe down on his head."

"That made the lion drop her."

"But I didn't have much time," Muller said. "Just enough to pick up Mrs. Schafer. Then the lion

started for me and the children. I backed out, inch by inch, never taking my eyes off the lion. The children got out. Little May held the door open for me and I got out. It was a near thing for those youngsters. He probably would have got them too."

Muller said Mrs. Schafer moved her arm as he stepped to pick her up but was apparently dead by the time he got her out.

Mrs. Schafer was known professionally as Madam Kovar.

Louis Goebel, animal dealer, said she obtained Sultan and another lion recently from Texas. Her husband, Fred Schafer, also an animal trainer, was located in Fort Worth, Texas, and flew here to assist in the investigation and arrange for the funeral.

Goebel said a decision on whether the lion, "Sultan," will be destroyed will be left up to Schafer.

Charlemagne is said to have had an asbestos table cloth and to have astonished his guests by throwing it into the fire where it did not burn.

The whole of New Guinea lies in the track of the southeast trade winds.

Four Moonshiners, 15 Stills Seized

AUSTIN (AP) — Seizure of 15 illicit stills in 10 Texas counties last month was reported by the State Liquor Control Board.

With the stills, inspectors made four arrests.

Four of the stills were in Red River County, two each in Wood and Harrison counties, and one each in Titus, Fannin, Smith, Marion, Jack, Nacogdoches and Freestone counties.

California produces about 200,000 tons of raisins annually.

March of Dimes Goal Doubled

NEW YORK (AP) — The National Foundation for Infantile Paralysis is in the worst financial condition in its history, President E. J. O'Connor says, and it will double its March of Dimes goal.

He said that the foundation must raise more than \$50,000,000 in January in its annual March of Dimes campaign — twice the amount raised in the 1949 drive.

The crisis was caused, he said, by "the largest number of cases of infantile paralysis in any one country in any year in the world's history."

O'Connor said 41,481 cases have been reported thus far this year.

Writing to the Foundation's 2,800 local chapters, he said the national headquarters on Dec. 1 had only \$1,990,000 on hand to meet emergency requests for the next six months.

"Against this \$1,990,000," he said, "we already have on hand at this moment requests for \$1,600,000 from chapters that must have financial assistance from national headquarters."

The 1950 March of Dimes will start Jan. 18.

Irish Lad to Get Outfit From American Cowboy

DALLAS (AP) — Little Sean O'Neil in County Cork, Eire, is going to get a long wished for cowboy outfit . . . in fact three of them.

The 7-year-old Irish lad's letter to Santa, addressed "General Postoffice, Texas, U. S. A.," landed in Postmaster J. Howard Payne's lap.

"I have been asking Santa here in Ireland every year for a cowboy suit like Roy Rogers' but he did not bring it to me," it said. "Mummy told me it is in America the little boys get them. My sister told me you were in New York. Please Santa, I want a cowboy suit for Xmas for I am going out to Texas someday to Roy."

He gave his address as Belvedere House, Western Rd., Cork, Eire.

Sean's letter was printed in The Times Herald. Three Dallas firms bundled up their best cowboy outfits and turned them over to Santa for delivery.

Postmaster Payne took the packages to the airport to make sure they reach Sean Christmas Day.

Employment Hits All-Time Texas Peak

AUSTIN (AP) — Employment climbed to an all-time peak in Texas last month.

The Texas Employment Commission reported November non-farm employment at 2,305,000, passing the previous peak set in December a year ago by 16,000.

The November figure was 19,700 above October's.

'True Meaning Of Christmas' Is Discussed

The Rev. Russell West yesterday discussed the "True Meaning of Christmas" during the weekly meeting of the Pampa Rotary in the Palm Room, City Hall.

Rev. West's talk centered around the Holy Bible explaining that it gave a progressive understanding of Christ as it went along. He added that "progressive" meant a step by step understanding of Christ and His ideals.

Entertainment was furnished by Misses Anne and Odeverne Spencer who sang two solos and a duet, accompanied on the piano by Mrs. Virgil Mott.

Little seven-year-old Donnie Eilsson made her first Rotary appearance with two short talks.

The September, October, November and December birthday parties, missed during the past months, were held yesterday with each member assigned to a table where the birthday cake was placed.

Farris Oden announced that next week each member was to bring some item representing his business or profession and place it on the table. The program is to come under classifications.

JAPANESE

(Continued From Page 1) can not fail to denounce." He termed it a smokescreen to distract attention from the repatriation issue.

W. J. Sebald, head of the occupation diplomatic section, earlier had termed the letter "unadulterated twaddle."

The Japanese crowd around the Soviet mission became clamorous at times. Once Russian guards pushed them back when they attempted to enter the compound.

The delegation went to the embassy to keep what its leaders said was an appointment made last week with Soviet officials who promised answers to questions on repatriation. The Japanese said they represented the "Tokyo chapter of the council for acceleration of the repatriation of Japanese abroad."

When the Japanese men began to shout and the women to weep, guards refused them entrance and said the Russian officials they asked to see were unavailable.

Later, however, eight members of the delegation were admitted. They reappeared in about 30 minutes and said they had been told to return again on Dec. 28 by an unidentified Soviet official.

But two hours after that the Japanese were still before the embassy gate. They evidently planned to remain there throughout the cold night and longer.

"VEEP" SURVEYS CAPITOL REPAIRS—Vice President Alben Barkley, on rostrum, looks over the new ceiling of the Senate Chamber. The white steel dome will have in its center a glass-and-bronze seal of the United States. Gone are the temporary steel girders which were put up in 1941 to bolster the sagging roof.

24-Inch Gas Pipeline Bursts

HUTCHINSON, Kans. — (AP) — The Michigan-Wisconsin Pipeline Company's 24-inch line, which carries Texas gas to the Detroit industrial area, blew up at 4:45 a. m. today with a report that frightened residents of Belpre, ten miles away.

No one was injured and the snow blanket prevented fire. Pipeline workers were rushed to the scene to cut valves and repair crews are enroute from Kansas City.

MOTHER

(Continued From Page 1) but that the fluid had a funny odor.

This led firemen to believe that gasoline had been used instead. L. Lee, who burned his hands badly trying to beat his way in to the shack, said the fire was so fierce that he could not break through.

Dolly Lee, who also tried to rescue members of her family, was burned badly in the attempt.

COMMUNIST

(Continued From Page 1) subpoena. Immigration officials want her to testify in the Wittenberg matter.

The Wittenbergs testified yesterday in the proceedings involving Miss Koenig and Robert L. Brannan, factory worker who had been served with a similar show cause subpoena.

Last week in seeking Green's testimony immigration officials said they hoped to show through party records the Wittenbergs had applied for membership in the Communist Party.

The Wittenbergs testified they had applied for citizenship papers in this country, but want to go to Germany and "do not want to return to the United States."

The ukulele was taken to the Hawaiian Islands by Portuguese immigrants.

Moose Initiates Six New Members

Pampa Lodge 585, Loyal Order of Moose, last night initiated six new members with the short form ceremony during the weekly meeting held in the lodge home on E. Brown.

Secretary Vincent D. Kersey announced the lodge auditorium would be turned over to the Bash-Ross Tool Co. tonight for their annual Christmas party, and the club rooms closed to members. Friday night will be the regular weekly teen-ager's dance. The club rooms will be closed from 2 p. m. Saturday until noon Monday.

JUVENILE

(Continued From Page 1) jail sentences for contributing to the delinquency of a minor if the children were found roaming the streets late at night or were involved in any more crimes.

The father of the 10-year-old boy involved in the burglary is deceased.

The father of the five children is a painter at present in Louisiana. The mother of the children admitted that the father drank heavily but defended him by saying: "All painters stay drunk most of the time," the judge reported.

It is believed the family has relatives in Arkansas, whom they will visit.

A 16-year-old Pampa youth was recently caught in the act of trying to rape a six-year-old girl, but the girl's parents have refused to file charges against the boy. County Attorney John Studebaker said yesterday.

It was the girl's mother who caught the youth in the family garage, but the parents feared the inevitable publicity would harm the child's future reputation.

The parents of the youth, however, have agreed to send him to a military school, Studebaker said.

Police said there have been a number of complaints received against the youth for molesting small girls, but in no case were the girls' parents willing to sign complaints.

Accident Toll Raised to Two

RANDLETT, Okla. — (AP) — Another Air Force soldier died late last night, bringing the toll of yesterday's auto-truck collision near here to two dead and six injured.

Pfc. Norman F. Doris, 21, Milwaukee, died at the Sheppard Air Force Base hospital in Wichita Falls, Texas.

Earlier Pfc. George E. Brown, 17, Brooklyn, N. Y., had died in the same hospital.

Doris, Brown, and six other Sheppard soldiers were enroute home on Christmas turlough when the accident occurred. The Oklahoma Highway Patrol said a car in which the soldiers were riding was in collision with a trailer truck driven by Clyde M. Wakefield of Dallas.

Deer roam wild in every state of the United States.

The goldenrod is the state flower of Nebraska.

WATCHMAN

(Continued From Page 1) the night watchman drew his gun.

At that moment, a second man, an accomplice hidden in some nearby bushes, fired at Farquhar.

"I was in a mess then," said the elderly watchman. "I didn't see any gun flash and didn't know where the shot had come from."

The night watchman sought cover behind a small frame structure, an abandoned outhouse. But he felt he was still in an exposed position, so he made a break for a couple of telephone poles a few yards away.

As he started running, however, the man with the gun fired again.

"The bullet whistled right by my head," said Farquhar. "I thought I was a goner. And I didn't see any gun flash then either. I didn't know where it came from."

Farquhar dived to the ground and flattened out. There was a third shot. He saw the flash. He fired his own pistol three times in the direction of the flash, leaving himself two bullets to spare.

Right after this, the man with the gun sprang out of the bushes and started running down the alley with the second man. Farquhar heard one of the men ask the other: "Are you hit?"

"The other man either told him 'no' or 'I don't know,'" Farquhar said.

The two escaped in an automobile which had been parked a block away.

Farquhar then ran to a bowling alley where Dale Wasson, proprietor, was counting the day's take. Wasson phoned police and a search has begun immediately. No suspects had been arrested shortly before noon.

CONSUMERS

(Continued From Page 1) reflected in lower prices paid by the consumer.

In a second announcement, the department said it will support egg prices at a level intended to assure farmers across the nation of an average income of 37 cents a dozen — compared with 45 cents this year.

That policy, officials predicted, will mean a drop of eight to ten cents a dozen in the average cost to consumers. While a sharp cut in production could prevent that price drop, officials said, 1950 egg output is expected to exceed the 1949 figure by two or three percent.

SANTA'S

(Continued From Page 1) ties — the season — or the people?

Another house that shouldn't be missed by Pampa night sightseers is one in the 1000 block of E. Fisher. Particularly picturesque art the brightly lighted Christmas trees in the front yard. Nativity scene cutouts occupy the biggest part of the front of the house.

Pampa and Gray County Health Department personnel this year have a novel way of wishing residents a merry Christmas. It is: "Sanitation is the way of life. It is the quality of living that is expressed in clean homes, farms, businesses, industries, neighborhoods and communities. It must come from within the people."

ELECTRONIC

(Continued From Page 1) beam sent back across the target by the pathfinder plane.

Scientists are making progress toward development of missiles which will reach across oceans or continents, but there has been less progress toward attaining a missile which could pinpoint even a large city at those ranges. In the final phase of flight, a device to "home" the missile in to the exact target will be required.

The National Safety Council says horse travel was more dangerous than is automobile travel today with about 30 fatalities per 100 million miles of horse travel in 1938 (the peak of such travel in the United States) compared with seven deaths today for each 100 million miles of auto travel.

Troup 4 to Send Boy to Jamboree

Boy Scout Troup 4, sponsored by the First Christian Church, was the first troop in the Adobe Walls Area Council to make reservations to send a Scout to the National Boy Scouts of America jamboree, which will be held at Valley Forge Park.

The council has been allotted 72 reservations. All troops in the council will have the opportunity to send one boy. The jamboree will be held from June 30 to July 8, when about 40,000 Scouts and their leaders gather. The local contingent will travel to Valley Forge on a Santa Fe special, the "Land of Enchantment." It will carry three troops from Albuquerque, three troops from Roswell, two troops from Amarillo, two troops from Enid and two troops from the Adobe Walls Council.

Services Held For Evans Infant

Services were held at 4 p. m. today for Robert Lee Evans, infant son of Mr. and Mrs. Clinton Evans, 1709 N. Russell.

The child lived less than a day after his birth yesterday morning.

Besides his parents, he is survived by a brother, Dean Clinton, and by his grandparents, Mr. and Mrs. S. C. (Tex) Evans, 1800 Charles, and Mr. and Mrs. Joe A. Berry, Fresno, Calif.

Services were held in the Duenkel-Carmichael Chapel with Rev. Orlin W. Carter, pastor of the First Methodist Church, officiating, and burial was in Fairview Cemetery.

Base to Entertain 289 Orphan Children

SAN ANTONIO — (AP) — Plans for "operation orphan" have been worked out and Christmas Day 289 orphan boys and girls from various San Antonio charitable organizations will visit and be guests of Lackland Air Force Base.

Major Gen. C. W. Lawrence, commander, said each unit at the base will entertain groups of children. In addition to the traditional turkey dinner with all the trimmings the youngsters will be taken on a tour of the base, service clubs and theaters.

Holiday Death Toll Estimated at 435

CHICAGO — (AP) — The nation's death toll in traffic accidents over the three-day Christmas holiday may reach 435, the National Safety Council says.

The estimate is the largest ever made for any holiday by the council. It said the estimate covers only immediate traffic deaths. Persons killed between 6 p. m. Friday and midnight Monday.

Army and Navy Planes Collide

EDENTON, N. C. — (AP) — A Navy PAU fighter plane and an Army C47 transport collided in flight today five miles north of here. The fighter crashed. The damaged transport crash landed at the Marine air base here. It had a damaged tail.

The fate of the fighter pilot was not immediately known.

First reports said the transport crew members were not injured.

Jude Appointed For 34th District

AUSTIN — (AP) — Roy D. Jackson of El Paso was appointed judge of the 34th Judicial District to succeed the late W. D. Howe.

William F. Clayton was named district attorney by Gov. Allan Shivers to succeed Jackson. He had been assistant district attorney.

Jackson had served as district attorney since 1933. The 34th district includes El Paso, Culberson and Hudspeth Counties.

J. H. Reeves, student at Oklahoma A&M, arrived in town yesterday to spend Christmas with his parents.

made in Pennsylvania about 1750. February was 1948's safest month with 7,600 accidental deaths in the United States, August the most dangerous with 9,200.

PAMPA NEWS, THURSDAY DEC. 22, 1949 PAGE 7

Red Sea Aims Said Awakening

BOSTON—(AP)—Admiral Forest P. Sherman, chief of U.S. naval operations, said there is "ample evidence" of a reawakening of Russian "maritime ambition."

He added that America's superior force of aircraft carriers must be maintained to keep open vital sea lanes.

In a speech prepared for delivery to the Boston Chamber of Commerce, Sherman said that Russia has more cruisers in active service than this country, and that Soviet shipbuilding capacity reportedly is double its 1940 level.

He placed the total number of Soviet cruisers at 14. The United States now has 13 cruisers in active service and 60 more in its "moth-ball" fleet. Of the laid-up U.S. vessels, 32 are light cruisers.

Sherman gave the Soviet fleet's known strength as three old battleships, 14 cruisers, 110 destroyer types, and about 270 submarines.

Rural Electric co-operatives treated 3,600 miles of right-of-way with weed-killing chemicals in 1949.

Garner Treasurer Of Choctaw County

HUGO, Okla., (AP)—John Vance Garner is the new treasurer of Choctaw County.

But he is not the former vice president of the United States. He is a nephew and namesake of the Texan.

The 40-year-old Garner was appointed by the county commissioners to fill the unexpired term of Lee Lettin. Lettin died Monday.

Jap Boy Meets Foster Father

BILLINGS, Mont. — (AP) — A 17-year-old Japanese has met the Wyoming man who will give him an American education in gratitude for aid in the war from the boy's father.

The youth, Paul Haruo Kasai of Osaka, arrived here by plane from Spokane to meet Henry J. Schmidt of Greybull, Wyo.

Young Kasai, dead tired but happy, was greeted by Schmidt as he stepped off the plane, the two had never seen each other.

Kasai's father had saved Schmidt from starvation when the latter was a prisoner of the Japanese during the recent war and the Wyomingite had promised "a real break for your son if I get out of this alive."

The young Japanese got acquainted with his second "dad" at dinner in a Billings hotel, where they chatted in half-English and half-Japanese, before leaving for Greybull.

Kasai has had three years of English in school. Schmidt had more than four years of Japanese in prison.

Kasai will enter Greybull High School next September when he hopes "my English will be not so bad." He wants to be a nuclear physicist "if I have the capacity."

Although, in the western world, octopuses are used mostly for fish bait, many peoples find them good eating.

Recluse Leaves Total of \$80,000

JERSEY CITY, N. J. — (AP) — The estate of a 74-year-old man, described by police as a recluse who lived on stale bread and old meat, was listed as totaling \$80,000 besides several Texas oil wells.

The man, Frederick Suppan, died of a heart attack in a Jersey City park Dec. 4. Police searching for relatives found cash, bank books and assorted securities in his \$4-a-week lodging.

Detective James McDevitt of the Jersey City special service detail said some of the securities had been issued in pre-war Europe and were valueless now, but that the papers still showed Suppan's holdings to be worth \$80,000.

Included among the papers were documents showing he owned 247 acres of oil lands at Matagorda, Texas, which were leased to Texas Oil Company and the Shell Oil Company.

McDevitt said police were looking for a woman identified as Anna H. Jackwaldo, believed to be Suppan's sister-in-law with whom he formerly lived.

The Po River, Italy's longest, is more than 400 miles long.

Car Buyers May Feel Hike In Steel Price

DETROIT — (AP) — The nation's car buyers soon will know whether increased steel costs are to mean higher car prices.

Price tags are to go on many new models within the next few weeks. Undoubtedly they will reflect the auto industry's reaction to the recent \$4 a ton hike in steel prices.

Scheduled for public introduction — and new price tags — during the month ahead are all the new Chrysler models and most of General Motors' new vehicles. Other producers may be waiting to see what these heavy volume companies do about prices.

As far as steel itself is concerned the price hike should not mean a very sharp boost, if any, in car prices. Few cars now made require more than a ton and a half of steel. Many, however, face increased competition, have been trying to cut rather than advance prices.

But the car makers do not get all their steel directly from the steel mills. A substantial part of it comes in the form of various components and sub-assemblies through their suppliers. They know the steel increase means advances in the cost of these sub-assemblies.

Among the new models soon to be given public showings are Buick's Roadmaster and Super models, scheduled for next week. Chrysler, Dodge and Oldsmobile have set their public displays in dealer showrooms for Jan. 4; the new Chevrolets will be shown on Jan. 7; De Soto on Jan. 9; Plymouth Jan. 12; Lincoln and Cadillac shortly thereafter.

Union Station Sets Up Santa INDIANAPOLIS — (AP) — Who's taller than a tall-talking Texan? I am, says the 54-foot Santa Claus in Union Station here.

The public address system voice of the immense plastic foam statue booms out hundreds of times a day, telling just how big this Michigan-built Santa is. He doesn't even mention a peweee 42-foot Santa put up by enterprising boosters in Kerens, Texas.

CAUGHT IN WINTER'S GRIP—Symbolic of the new icy grip winter has on a large part of the United States is the freighter George F. Rand, grounded while bucking ice in Saginaw Bay, Lake Huron. An ever-thickening field of ice closes in on the 532-foot ship, loaded with 8000 tons of coal, threatening to imprison it for the winter.

Christmas A Time to Remember

By HAL BOYLE

NEW YORK — (AP) — The heart turns back at Christmas-tide.

The Christmas that most grown-ups remember best is some Christmas as a child at home, when our faith was as bright as Santa's beard and a bright new sled under a popcorn-decked tree filled life with a joy almost too tremendous to bear. For Christmas wasn't just fun when you were young and got what you asked for — it was ecstasy. Remember?

But many a land-locked heart this season isn't merely voyaging back to childhood Christmases at home. It's ranging in memory overseas to wartime Christmases abroad.

There are three I like to remember — in Algiers, in Belgium, in Manila.

It was in Algiers in 1942 that I learned how the war had divided the loyalties of countrymen as well as countries. A fellow correspondent and I were invited to have Christmas dinner with a young Frenchman, Paul Millon, his wife and their two children.

Looking down at us from the wall was a portrait of Marshal Petain. This seemed odd as the old hero of Verdun was even then widely regarded as a German puppet. But Paul wouldn't take the picture down. "We simply cannot believe all they say about the old marshal," he said. And you couldn't help but admire him for his faith, however misplaced.

The spookiest Christmas I ever spent was in Spa, Belgium, in 1944. The little town had been evacuated by the American First Army headquarters in the first days of the Battle of the Bulge. It looked like a drab Christmas for a few correspondents who had elected to remain in the Hotel Portugal.

Then a strange Santa Claus indeed — a bearded, stubble-bearded supply sergeant for an anti-tank company dug up three turkeys, cranberries, potatoes — and the hotel provided wine and cognac and the other trimmings. While German guns boomed across the hills we sat down to a merry banquet presided over by Madame Beaucoup, the hotel proprietor. We called her "Madame Beaucoup" because her bills for cognac were always "beaucoup big."

I remember a 1945 Christmas Eve dinner in Manila because it was the first Christmas season of peace. We were guests of Mrs. Siaron, a Filipino woman, and her family.

Outside firecrackers popped and the gecko lizards sang a serenade. A famous lithograph of Jesus hung in the living room, and a flickering light beneath it lit these words: "I will bless the homes in which the image of my sacred heart shall be honored and exposed."

Somehow it seemed like a message of a peace that would be lasting.

Dear Mrs. Siaron, Dear Madame Beaucoup, good Paul Millon — to you and the millions like you in many lands who took American strangers into your homes and made them happy — a merry, merry Christmas, in remembrance of things past!

Betty Jo Jones Changes Answer

LONDON — (AP) — Betty Jo Jones, who has been saying "no" for the past 14 months, has finally said "yes."

The yes was for Major Edward A. Hawdens of Pittsburgh. The engagement of the Wichita Falls, Texas, actress and the U.S. Air Force officer was announced this week.

As "Ado Annie" in the successful London production of "Oklahoma," Betty Jo has been singing the popular song: "I Can't Say No."

The major and Miss Jones met at a Royal Academy benefit dance in March — ten days after the Pittsburgh airman landed in London on assignment to the Ministry of Supply's Engine Research Department.

Before coming to London, Miss Jones played for the Theater Guild in summer stock and on television. They plan a summer wedding in Wichita Falls.

Three different types of oysters are taken from U. S. waters, the large native eastern oyster, the small Olympia oyster found on the west coast and an imported, large, Japanese oyster.

Traffic Toll Under Last Year's Record

AUSTIN — (AP) — Texas traffic deaths for this year were running 9 percent under last year's total at the end of November, the Texas Department of Public Safety reported.

During November there were 168 persons reported killed, to boost the year's total to 1,691. Last year the same period totaled 1,865.

Conspiracy Trial Postponed Again

NEW YORK — (AP) — The long-delayed spy conspiracy trial of Judith Coplon and Valentin A. Gubitchev was postponed again.

They were scheduled to go on trial Dec. 27 but Federal Judge Sylvester J. Ryan said a pre-trial hearing would prevent the trial's starting then.

Ryan did not immediately set a new date.

This Was Hollywood's Marryingest And Divorcingest Year of All Time

HOLLYWOOD — (AP) — This was Hollywood's marryingest year. Also the divorcingest.

Most sensational of the marriages came on May 27 when Rita Hayworth and Aly Khan exchanged gold rings in the Town Hall of Vallauris, France.

Another European wedding ranked with that one for excitement. While Italian mobs screamed "ty ty ty," erstwhile Actress Linda Christian became the bride of Tyrone E. Power in Rome. The ceremony took place on Jan. 27, just eight hours before Annabella's California divorce from Power became legal.

Jimmy Stewart married socialite Gloria Hatrick McLean on Aug. 9.

Jennifer Jones married her boss, David O. Selznick, at Genoa, Italy, on July 13. Greer Garson took another fling at married life with Texan Buddy Fogelson. Rudy Vallee, 48, wed Eleanor Kathleen Norris, 21, a psychology graduate.

Mickey Rooney began his third marriage, with Martha Vickers. Angela Lansbury and Peter Shaw found another parson after the vicar of her family church in London refused to perform the ceremony, she being a divorcee. But the marital splits were just as loud and numerous. Biggest bombshell was the break between Ingrid Bergman and Dr. Peter Lindstrom following her Stromboli idyll with Roberto Rossellini.

Almost as thundering was the split of Shirley Temple and John Agar. The fable of their story-book marriage was shattered when she aired her troubles in a divorce court.

Ginger Rogers and Jack Briggs called it a day, and Joan Fontaine and William Dozier ended their marriage, but not their movie company.

Eyesight of the kingbird is so keen he can spot a tiny insect 50 yards away.

The Story of the Savior by William E. Gilroy, DD

Then Jesus left his home and mother in Galilee and went to the Jordan valley to be baptized by John, who felt that it was he that ought to be baptized by Jesus. But Jesus prevailed. (Matthew 3:13, 14, 15.)

"And Jesus went up straightway out of the water and he saw the Spirit of God descending like a dove and lighting upon him: and lo, a voice from heaven, saying, This is my beloved son, in whom I am well pleased." (Matthew 3: 16, 17.)

Then came Jesus' great ordeal of temptation. He went into the wilderness and fasted 40 days, and while in this weakened state he resisted the devil, saying, "Get thee hence, Satan." (Matthew 4:1-10.)

Bascule Bridge Arouses Fight in Many Texans

(By The Associated Press) Texans have thrown more cuss-words at the Bascule Bridge in Corpus Christi than any other structure in the state. It lies between the main section of Corpus Christi and the heavily-populated North Beach section.

And when it's up, all land traffic stops, of course. Apparently the operation of the bridge is not entirely trusted, for it is lifted while ships are still far out in Corpus Christi Bay. Then automobiles and trucks line up for a mile on both sides. Sometimes the siren of a hurrying ambulance, caught by the bridge, will add its snarl to the cussing of motorists.

The 90-foot width provides scant clearance for a big ship. Skilled pilots who go aboard ships for a trip down the channel somehow steer the vessels through the bridge opening, sometimes with just inches to spare.

Water Wasters Face Jail Terms

NEW YORK —(AP)— Jail terms were threatened for persons who waste water as the city struggled to make its skimpy water supply last longer.

Texas Asks States To Band Together

ATLANTA —(AP)— Texas' attorney general called on all Southern states to band together in a fight in the U. S. Supreme Court to preserve racial segregation in schools.

Israel Asked to Move Government

LAKE SUCCESS —(AP)— The U. N. Trusteeship Council began a month's recess Wednesday after directing its chairman to ask Israel to transfer its government offices back to Tel Aviv.

Twelve New Cases of Polio Reported

AUSTIN —(AP)— Twelve new cases of polio for the past week in Texas were reported by the State Health Department.

Baseball's 'Grand Old Man,'

PHILADELPHIA—(AP)—Cornelius J. McGillicuddy celebrates his 87th birthday today but whether baseball's Connie Mack was born Dec. 22 or 23, 1862, is still an open question.

"I have been told I arrived in the middle of the night," said the manager of the Philadelphia Athletics. "Some say it was the 22nd, others the 23rd."

No big celebration is planned. The Grand Old Man of baseball planned only to hold his annual birthday news conference and be the honored guest at a luncheon attended only by relatives and close friends.

Although Connie has been a part of the baseball picture for 66 years—49 as manager of the Athletics—he prefers to think of the future rather than the past.

Not since 1931 has the American League pennant or championship flag flown above Shibe Park. But Connie has high hopes for next season.

Owner Doubted Mack's Future in 1883; Players Sold for \$75 He Was One of Five

By HARRY GRAYSON
NEW YORK (NEA)— Connie Mack recalled his manager's doubts about his future in baseball at East Brookfield, Mass., in 1883, and an owner named Tilden asking him if he wanted to play professionally.

"I haven't heard from him since," laughed the 86-year-old manager of the Athletics, "and I'm beginning to suspect I won't. I guess he didn't think I had much of a future in baseball."

At the dinner bringing Connie Mack Day at Yankee Stadium to a close, Mr. Mack told of five members of the Hartford club of the Eastern League being sold to the Washington Nationals for \$75. Included were Gilmore and Mack, who gained fame as the Shadow Battery, because they were so tall and thin.

Mr. Mack spoke of his first training trip to Charleston, when three-class hotels accepted ballplayers provided they didn't mingle with the other guests. Manager Ted Sullivan put the

Connie Mack

club up at \$1 a day American plan, and no tipping.

No one ever had to ask "What ever became of Connie Mack?" but the game between the old Yankees and Athletics gave you a good line on what happens to used-up ballplayers.

John Franklin Baker was the oldest player on the field at 63. He's still a dirt farmer on Maryland's eastern shore.

Jimmy Foxx was on first base

Sports Round-Up

By HUGH FULLERTON, JR.
NEW YORK (AP)—A bunch of basketball coaches were arguing which is hardly unusual, and Honey Russell was maintaining that it is impossible to teach New York boys a definite style of play.

"You don't have them together on the campus and you stop them from sneaking away and playing with other teams—in clubs and church leagues. You teach them on a play and right away they go off and play some other style.... If you have a dozen players, you'd need a dozen detectives to watch them.... That helps to explain such things as Oklahoma's victory over CCNY the other night. It was a real team beating a brilliant collection of individuals."

THE SADDLE TRUTH
Casimir (Slug) Wittuck, Indiana's big football guard, was showing off his physique for a group of admiring Freshmen, reports Bob Cook, the eavesdropping publicist.... "See these shoulders," asked Slug. "Push-ups built them up; this stomach and chest—lots of stomach; look at these legs—running did it...."

At that juncture line Coach Steve Sinko, approaching from the rear, observed the part of the Wittuck anatomy that was bulging over the bench.

"Looks to me, Slug, like you did a lot of horseback riding, too," Steve observed.

COURT PATTERNS

Good Actors and Fakers Capitalize On Ever-Changing Hoop Situations

Player 5 comes off 4, receives pass from 3 and dribbles in for hook shot.

By E. O. HAYES
Southern Methodist Coach

DALLAS—(NEA)—Basketball players must be actors and fakers. No matter what type of pattern used, there must be options.

There is little time to think. That is why coaches drill players incessantly, so they will capitalize on the mistakes of opponents, take advantage of ever-changing situations.

In the accompanying diagram, Southern Methodist has three men inside, two out. Player 1 immediately after 5 breaks off him, 4 loosens up the middle by breaking to the outside and to run the baseline.

Player 5 may fake a return pass after receiving the ball from 3, roll off and throw up a hook shot, or hand off to 3, who drives by him. If 3 can fake his man out of position easily, he may elect to break the other way, run the baseline to receive a pass from 5 for an easy lay-up. Player 4 must be on the alert for a quick bounce pass and shot if his defensive man decides to help on 3, if the latter breaks across the middle.

All sorts of opportunities are open.

Fast moving and quick fakers will sense each situation immediately, take advantage of it.

Baseball Goes After High Slides at Second

NEW YORK (AP)—Life will be safer for infielders in 1950 if the new baseball rules are enforced.

The rules committee officially adopted the new code last night after nine months of strenuous effort. The rough stuff around second base came in for plenty of attention.

"Interference" by a base runner was interpreted in simple, direct terms that place a heavy burden on the umpire. The ump always had to call interference, but now his attention is directed to the rule in specific wording.

"A batter is out when a preceding runner shall, in the judgment of the umpire, interfere with an infielder," the rule will read.

"The objective of this rule is to penalize the offensive team for deliberate, unwarranted and unsportsmanlike action by a runner in leaving the baseline for the obvious purpose of crashing the pivot man on a double play rather than trying to reach his base."

Buck Lettermen Announced by Coach Watson

WHITE DEER—(Special)—Coach George Watson has announced that 22 of the White Deer Bucks' 1949 football squad will receive letter packet awards for the season's participation.

To be awarded a jacket a member of the squad must have met one or more of the following conditions: 1. Played more than 20 quarters; 2. When called upon regular and do a good job; 3. Had desire and determination to work hard during all practices.

Receiving jackets will be: Ted Harvey, co-captain, Douglas Smith, co-captain, Dickie Ingram, Tom Horn, George Ellis, Jon Scott, Merle Drayer, Wendell Jordan, and R. D. Talley, Seniors; Walter Staats, Kenneth Crawford, Dale Imel, Franklin Hussey, and Ronnie Buchanan, Juniors; Eret Lopez, Guy Thornburg, Floyd Travis, Ethan Noble, and Jackie Freeman, Sophomores; Morlan Shuman, Donnell Carpenter, and Cordell Pugh, Freshmen.

Managers who will also receive awards are Dwan Johnson, Bobby Joe Doss, and Don Fowell.

Rice Dropped by Colorado, 83-25

(By The Associated Press)
Three Southwest Conference basketball teams see action tonight.

Rice will attempt to avenge last night's 83-25 licking by Colorado as it ends a two-game stand at Boulder. Southern Methodist University opens a two-game series with Missouri at Dallas, and Arkansas takes on Oklahoma A&M at Little Rock.

The only Southwest Conference team playing last night was Rice. Colorado caged 35 percent of its shots as it crushed the Texans. After making the first half a battle, Rice faded before sharp shooting from Colorado guards Wayne Tucker and Gene Rogers. Tucker scored 19 and Rogers 18 points to gather honors.

Wichita Falls and Austin Battle Tomorrow For State Schoolboy Class AA Championship

(By The Associated Press)
Next to last shots in the Texas Schoolboy football campaign will be fired tomorrow.

Wichita Falls, unbeaten and untied and rated as the greatest team that city ever produced, takes on once-defeated Austin at Fort Worth for the Class AA championship.

After that, one more title will need be determined to end high school football for the year. That will come Monday at Abilene when Littlefield battles Mexia for the Class A crown.

Wichita Falls enters its test with a 7-1-2 point favorite with the folks who put cash on the line.

Littlefield is a two-touchdown choice over Mexia.

Sports writers of the state yesterday gave Wichita Falls and Littlefield heavy margins in predicting on the games. The vote was better than two-to-one in each instance.

Heavy Ben Hogan Planning Comeback on Tourney Trail

By HAROLD V. RATLIFF
FORT WORTH—(AP)—Wee Ben Hogan (he's not so little these days—that is compared to the Hogan that was) is pretty confident that he will be back on the professional golf tournament swing.

But he's equally positive about what tournaments he'll play in. The great linkman, whose glittering career was halted almost a year ago in bus-automobile crash, said today he didn't think he ever would be able to play in a tournament that had 36 holes in a single day.

"I don't think I'll ever be able to go two rounds in one day in tournament competition," said Little Ben, as he relaxed at Colonial Country Club here. "But there aren't many tournaments that have 36 holes in one day anyway."

Hogan was pleased that he now is able to play nine to eighteen holes a day. He did his first 18-hole rounds Dec. 10 and 11 and went around the course in a scooter. He registered 71 and 72 over the tough par 70 Colonial Course. And he did all the shots—driving, pitching, putting.

Tuesday he made 18 holes without benefit of traffic facilities except his two good feet. He didn't try very hard but he did shoot under 80, the best he could figure.

"I get awfully tired and sometimes my legs swell on me," he said. "But, you know—" and he grinned at this—"I have to get my weight down."

Hogan always was known as the little man of sport—the little giant of the fairways who called him. If he had weighed 140 pounds he would have figured he was busting at the seams.

Today he weighs over 155 pounds and admitted he looked something like a baby blimp. "Me trying to take off weight is something to joke about," he said.

Hogan looks tanned and healthy but he still has his legs bound up and he's far from recovered from the sickening crash of early morning last Feb. 2 when he almost lost his life as his automobile and a bus met head-on near Van Horn, Texas.

There was a long, tough fight in a hospital, trips to New Orleans

Syracuse Heads For Perfect Basket Record

NEW YORK (AP)—It would be nice if Syracuse's basketball team went through its 26-game schedule undefeated this season.

It would be a going away present for Lew Andrea who plans to step down as Syracuse basketball coach.

So far they have played and won six games and there's no law against hoping.

Syracuse last night whipped Pennsylvania, 81-65.

Meanwhile, Minnesota lost to Washington, 63-46.

Kentucky, the defending NCAA champion, nosed out DePaul, 49-47.

Once-beaten Bradley, one of the nation's top teams, whipped Washington State, 67-59.

In other games West Virginia beat Temple, 67-46; Tampa upset Tennessee, 64-63; Miami (Fla.) trounced Mississippi, 82-67; and Colorado walloped Rice, 83-52.

Irishmen Arrive To Help Yankees

MIAMI, Fla.—(AP)—Inspired by the arrival of six Notre Dame players, Yale's Herman Hickman today sent his North squad through its roughest workout yet in preparation for the Shrine Charity Football Game, Monday night.

The North squad will tangle with a Southern squad of all-stars in the annual Miami Shrine game before an expected 50,000 crowd in the Orange Bowl.

The South squad elected Baylor's Adrian Burck and Alabama's fullback Lionel (Red) Noonan as co-captains for the game.

WARREN'S WARMUP

By Warren Hass—News Sports Editor

QUESTION: What major college football team had the best defensive record against rushing in the 1949 season?

THE PAMPA HARVESTERS BOOSTED THE BORGER BULLDOGS' basketball stock last Tuesday when they took a 41-50 thumping from the Lubbock Westerners. Lubbock had fallen to Borger, 49-28, a week earlier. The Harvesters further tabbed themselves as not equal to the 1948-49 Pampa team in more ways than one.

Probably the greatest fallacy is the scoring ability of the team. So far it has been restricted to two men, James Callamore and Jimmy Howard. They can't be expected to carry the brunt of the attack all season. With any scoring help whatsoever against Lubbock it might have been a different story. These two boys have scored a total of 130 points so far, while the team total is 197. That leaves but 67 points for the other 11 members of the squad.

The team lacks in hustle and fight. Rebound work was and has been left up to but about two fellows. This lack of hustle has caused a weak defense that doesn't hold tight enough to the opposition.

And the most disheartening part so far has been the letdown in play midway through the games. Three times so far, at Childress, at Memphis and at Lubbock, the Harvesters have rolled to big early game leads and had them whittled down to nothing. You can be certain that Coach McNeely will be trying some new combinations on the starting team in an effort to work up a combination that can help the scoring duo of Howard and Callamore and one that will hustle the whole game.

When a baseball player isn't hitting he usually gets a rest on the bench. And the same goes for basketball players. Coach McNeely doesn't like to lose a ball game, but it appears that he is going to have to on the short end of several this season until he can get a group of boys together who can play winning ball. And he well knows that he only has from now until January 13, when the district season opens to find that unit. So the lights will burn long at the gymnasium.

Season basketball tickets are now on sale at the School Business Office in the City Hall. There are only three home conference games this season. They are with Borger on Jan. 13; Amarillo, Feb. 3 and Plainview, Feb. 10. Knowing the condition of the seating facilities at the gymnasium it is advisable that everyone who wants to be assured of a seat for all the district games get a season reserved seat immediately.

Had a nice three-cornered one-sided talk with my two favorite basketball coaches down at Lubbock. Coaches Cliff McNeely and Roy Morris got their heads to-

gether before the game and yours truly sat in with them. Morris is the individual who last season kept the Harvesters from winning the district title. His Lubbock Westerners defeated the Harvesters in the playoff and then went on to state to take third place. And despite the fine season he had he got the boot from the athletic director of the Lubbock schools due to a difference in personalities.

Coach Morris is one of the finest basketball coaches in the Plains and perhaps the entire state. He has developed many great players at Lubbock, and this season would have had another powerhouse. Now his work is restricted to just teaching in the public schools and sitting on the sidelines at basketball games, of which he doesn't miss a one.

If you ever saw a man who is lost, it is Coach Morris. He has been so deeply involved in basketball for so many years that the sudden break from the game is like a man quitting smoking overnight. He is nervous and excitable when talking about basketball. And if you ever get him started on the subject, he won't quit. That is why I say the two-hour gabfest was one-sided.

Roy said that if Lubbock couldn't win the state title this season, he was whole heartedly pulling for the district 1-A-A champion to do it. He still considers 1-A-A his district. That's where he made a host of friends through his fine sportsmanship, personality and excellent teams. This was my first trip to Lubbock since the great football disaster that befell the Westerners. It is a pretty sore subject around there, not many wishing to talk about it.

But from the few people I did get to converse with and who were willing to talk about it, the cause apparently was the great overconfidence of everyone, including the coaches, athletes and townspeople. Everybody was looking forward to playing in the Cotton Bowl for the state championship and overlooking the block that they stumbled on. Overconfidence has always taken its toll among sports celebrities and the Westerners were added this year.

ANSWER: Oklahoma University had the best defensive record against opponents' rushing, throwing the combined foes for a 44.2 net loss per game during 1949.

CAL GRIDDERS GET INSTRUCTIONS—Members of California's football squad, who will play in their last game when they clash with Ohio State in the Rose Bowl Jan. 7, get instructions from Coach Lynn "Pappy" Waldorf during a workout at Berkeley, Calif. Left to right are: Jim Turner, Rod Franz, Forrest Klein, Dan Begovich, Waldorf, and Bob Celari. (AP Wirephoto)

Tennis in 1949

Pancho Fools the Experts; Kramer, Gussie Make News

By FRANK ECK

AP Newsfeature Sports Editor

NEW YORK — Jack Kramer, Richard (Pancho) Gonzales and lace panties drew the tennis raves during the year. Kramer experienced little difficulty proving he is the best tennis player in the world. Gonzales proved he was the world's top amateur by retaining the national singles title and thereby fooling the experts. He also won the national indoor and clay court crowns. He stepped out of his class, however, when he turned professional. As a pro he figured to make a reported \$40,000 in less than a year. Fitted against the skill of Kramer, Pancho lost 26 of the first 33 matches. The panties with the two-inch lace trim belonged to Gertrude (Gorgeous Gussy) Moran of Santa Monica, Calif. Her attire made the headlines during the Wimbledon championships. However, it didn't help her tennis. She bowed out in the third round, losing to a Chinese ballet dancer.

shouted. But he couldn't match Kramer. At one city, Gonzales was so peeved at his misfortune against Kramer that he took one of the touring pros and drove alone to the next city. The rest of the pros had to cram in the other vehicle. Kramer taught Pancho a lesson by blasting him off the court in their next meeting. Schroeder was the male toast

Ted Schroeder Pancho Gonzales

at Wimbledon. He won four five-set matches in England, beating Jaroslav Drobny of Czechoslovakia in the final. Drobny and Vladimir Cernik defied the Czechs' Communist regime in the 1949 international tennis rubarb of the year. Their government ordered them to withdraw from a Swiss tournament. They defied the Czech order to return to Prague, announcing they would seek a haven in the United States.

The U. S. Davis Cup team beat Australia for the fourth straight year. Gonzales and Schroeder both won two singles tests. Australia, however, had the top doubles combination in John Bromwich and Billy Sidwell. They scored as a team in the Davis Cup and also in the national doubles.

In women's tennis, Mrs. Margaret Osborne duPont of Wilmington, Del., retained her national singles crown and, with Louise Brough of Beverly Hills, Calif., as a partner, continued as doubles champion. Maureen Connolly, 14, of San Diego, became the youngest player ever to win the national girls' crown. Experts say the high school student is the coming women's champion.

In the Wightman Cup matches, the U. S. beat Great Britain, 7-0, for its 13th straight over the British.

Like Coach, Like Son at SMU

DALLAS — (P) — If background has anything to do with it, Southern Methodist is due to have another smart football team next season. There will be seven sons of coaches on the squad. One is H. N. Russell, Jr., son of H. N. (Rusty) Russell, backfield coach of Southern Methodist. He's playing a lot of halfback this season. Herschel Forester, Jr., whose father was a high school coach in Dallas, is a guard on the varsity. A brother, Bill, a backfielder, is on the freshman team. Henry Stollenwerck, regular halfback, is the son of Logan Stollenwerck, former SMU great who now is a high school coach at Waxahachie, Texas. A brother, Sam is on the freshman squad. Others on the freshman team whose fathers are coaches are Sonny Mitchell, a star trackman in addition to being a footballer, and Ernie Dickey, Jr., son of a Dallas high school coach.

Bowlers Like to Experiment With Grips; Vet Easter Originates Newest Unique One

NEW YORK — (NEA) — A favorite topic of major-league bowlers is the various grips. There is much discussion these days of the Ed Easter Grip. Ed, or Sgt. Ebbie Easter, at 69 had the skill and stamina to qualify for the finals in the recent National All-Star Match Game Championship in Chicago. Rivals and spectators marveled at the strong hook ball Easter delivered in an effortless motion. "It must be the grip," the key-lers agreed. The Old Sarge was besieged with inquiries. Easter has a unique grip. He uses a three-finger ball with the hole for the middle finger so far distant from the thumb hole that he can barely insert the digit to the first knuckle. The ring finger hole is at the normal comfortable distance. Thus it's a reverse of the Chic Grip in which the hole for the ring finger is farther apart than the middle finger slot. The ball is believed by many to be the answer to "stiff" lanes often found in Individual Sweepstakes. Most lanes used locally for major-league play seem to be on the "stiff" side. No extra help is needed to make the ball hook. Most of the talk of grips last

season had to do with the Tip Grip, used by Connie Schwogler in winning the National All-Star Match Game title. In this the finger hole or holes—depending on whether it's a two or three-finger ball—are bored so distant from the thumb hole that only the tips of the fingers can be inserted. Roger Sweet and Bill Toto use variations of this delivery with encouraging results. Sweet, like Schwogler, tried the ball to ease pressure on a tender knuckle, and not only found relief but a strong hook. Sweet likes an outward pitch on his finger, Toto the reverse. Veteran bowlers call it a western pitch if the hole slants under the palm, eastern if it slants the other way. Bowlers like to experiment with grips to get sharper-breaking hooks. Some develop strong hook balls which give them "splashy" strikes on a light hit, but the trouble they have with spares more than makes up for the extra strikes. The most-dreaded spare leave for a bowler with a new-found hook is the 10 pin. To make this with his bender, he must roll the ball directly for the gutter, and hope it hangs on until it reaches the pit. Experimenting with grips is not advocated for the low-average bowler. He should be content with using a ball which fits his hand, and sacrifice an eye-catching hook for control. He'll make more spares, and it's usually the fellow who makes the spares who carries off the prizes. Three times during the season of 1941-42 the West Texas State Buffaloes piled up basketball scores of over 100 points. Against New York State they made 105; against New Mexico State, 111; and against Hardin-Simmons, 108.

Grantland Rice, dean of American sports writers, again leads national sports drive for MARCH OF DIMES January 16-31. Under his chairmanship the entire sports world pledges 100% cooperation in the 1950 fight against infantile paralysis.

Ducks, Geese Get Out of Line While on Migratory Flight

MINNEAPOLIS — (AP) — The shooting is over but the shouting continues over the old-fashioned migration of ducks and geese down the Mississippi flyway. Big fat mallards and tasty canvasbacks—fast pumping blue bills and tricky teal funneled through Minnesota and western Wisconsin in large numbers on their way down the flyway. The flight included unprecedented numbers of Canada geese and snow geese. Many an old time hunter who had been carrying a couple of geese loads for years "just in case," finally got a chance to fire away. A couple of large flocks of honkers, all peckered out, even landed at Duluth airport. Geese flew virtually down Main Street in Two Harbors, Minn. Both are Lake Superior shore communities, far off the accepted goose route which is generally through the Dakotas in these parts. Jimmy Robinson of Minneapolis, veteran duck hunter and trap-shooting editor for Sports Afield,

again "flew" the Mississippi route with the ducks and geese this season. He's been doing it for years, starting in Manitoba, Canada, after the freeze-up. On his migration through Minnesota and Wisconsin, Iowa, Illinois and down into Arkansas, Robinson heard nothing but favorable shooting comment. Geese were shot in Iowa where they'd never been seen before, he says. If the great numbers of ducks and geese that come north next spring find the same favorable nesting conditions that accounted for 1949's big flocks, says Robinson, the 1950 migration south should be "terrific."

In 1941 and in 1942, the West Texas State Buffs could start a basketball team averaging 6' 4". In 1943 the average height of the West Texas State basketball squad was 6 feet 4 1/2 inches. In 1948, Sir Alexander Mackenzie reported finding oil spres during his exploration in Canada.

Tigers Like Defense

BATON ROUGE — (AP) — Louisiana State University is rather happy about the prospects of its defense standing up against Oklahoma in the Sugar Bowl football classic Jan. 2. The boys had their first post-season defensive scrimmage yesterday and the Oklahoma brand of football, as played by the scrub team, got nowhere fast. West Texas defeated Kansas State the only time the two basketball teams have played.

With the St. Louis Cardinals playing their opening game under the arcs, Apr. 18, will they call those present first-nighters?

The National League voted to discard the 12:50 a. m. curfew on night games. After-dark contests can go on forever. Or as long as the bulbs hold out.

The most valuable asset of any team won't be the slugger out-fielder or the fireballing pitcher. They'll be superseded by the keeper of the fuses.

A psychologist says betting on horses is one of the most universal traits of man.

People of all nationalities suffer equally from galloping gamblers.

Take France, for example. The betting machine draws its name from the French city—the Paros-mittet.

Many French expressions, with which we are familiar, originated at tracks. Such as: Pariez-vous Francois? — Translated, that means, "Do you know a good parlay?" — "I bet on a mare, she lost, and I'm sick." — A la carte — Literally, that means, "To the cart." In other words, "Get off the track, you dog, you belong pulling a garbage wagon." — Double entendre — "I intend to win the daily double."

**Pythian Sisters Elect Officers,
Give Birthday, Christmas Parties**

An election of officers marked the Monday night meeting of Pythian Sisters Temple 41 in Castle Hall.

Officers were elected as follows: Beatrice Stone, most excellent senior; Lucille Turner, excellent junior; Dorothy Cox, manager; Mary McKamey, secretary; Eloise Braly, treasurer; Ida Niemeier, and Patsy Hopkins, guard.

Mary K. Burch, past chief; Juanita Tinsley, trustee; Syble Dudley, press correspondent; Oak Allee Whittle, installing officer; Syble Dudley, temple deputy; Mary K. Burch, grand representative; Lucille Weathered, captain of degree staff, and Dorothy Cox, constitutional officer.

Birthday dinners for November and December were held at the Court House Cafe. Honorees were Oak Allee Whittle, Syble Dudley and Lucille Weathered. The birthday cakes, made by Dorothy Cox and Mary K. Burch, were on a musical cake plate which played "Happy Birthday."

The group met Wednesday evening in the home of Mercy E. Marlow for a Christmas party.

The home was decorated with Christmas trimmings and gifts were exchanged. Cake, Christmas cookies and coffee were served. Those attending were Nola Fide, Lucille Weathered, Eloise Braly, Patsy Hopkins, Beatrice Stone, Syble Dudley, Dorothy Cox, Oak Allee Whittle, Hazel Fraisher, Juanita Tinsley, Elizabeth Doggett, Lucille Turner, Jean Turner, Rudine Stinson, Mary K. Burch, Mercy E. Marlow, and one guest, Virginia Harris.

ADD ONION JUICE
Onion juice helps point up the flavor of a casserole of macaroni and cheese.

**Girl Scouts
Fete Parents
At Yule Party**

Members of Girl Scout Troop Three presented a short program of readings and carols and enacted the Nativity scene for their parents and other members of their families, who were guests at a Christmas party in the Little Scout House.

After the program each girl presented her mother with a ceramic dish which she had made. Cakes, decorated in Christmas colors, was served with ice cream.

Members present were Betty Hogsatt, Patricia Hilton, Frelva Dean, Laynda Smith, Patti Clauch, Adena Chisum, Charlene Wood, Betty Wood, Charlotte Vaughn, Lawanna English, Bonnie Brown, Mattie Wright, Joan Keesee, Barbara Bullard, Sue Fulton, Faye Butcher. A guest, Patricia Fugate, was also present.

GUILDED KISSES
Next time you make coconut kisses try adding a teaspoon of grated lemon rind to the cookies before baking.

**The Social
Calendar**

A Rebekah meeting will be held at 7:30 p. m. Thursday in IOOF Hall. Members have been asked to take articles of food for baskets.

**Holiday Party
For Bell Club
Hosted by Four**

Mrs. Joe Wheelley, Mrs. H. H. Keahy, Mrs. Roland Dauer, and Mrs. Gracie Morris were hostesses Saturday night at the Bell Home Demonstration Club annual Christmas party.

Progressive Party Two was played with Mrs. David Collins winning high score and Johnnie Moorehead low.

Cake and coffee were served from the linen covered table. A poinsettia plant centered the table and was flanked by red candles. An old desk was converted into a chimney, which held handmade snow men, candles and sprigs of greenery. Red stockings hung around the front of the chimney.

Those attending were Mr. and Mrs. Lloyd Collins, Mr. and Mrs. Jack Morris, Mr. and Mrs. D. W. Swain, Mr. and Mrs. David Collins, Mr. and Mrs. Emmett Osborne, Mr. and Mrs. Nolan Cole, Mr. and Mrs. Henry Duesterhaus, Mr. and Mrs. Ernest McKnight, Johnnie Moorehead, H. H. Keahy, Joe Wheelley, Roland Dauer. There were also several children at the party.

**Cookies Add
Quaint Charm to
Tree Trimmings**

It's time to get out the Christmas tree ornaments — the colorful balls handed down from year to year, the tinsel angels and the bright star that shines from the very top branch. And it's time to think about what additional decorations will be necessary to supplement those old ones to make this year's tree the best one ever.

What could possibly make a better tree than to have goodies — yes, the kind you can nibble and enjoy — interspersed among the more permanent decorations. Popcorn balls wrapped in colorful cellophane and tied with bright ribbons, candies in pretty little cornucopias made from Christmas wrapping papers, and patterned cookies ranging from Santa Claus to Christmas trees and angels.

Don't wait until the night before Christmas to start the holiday fun — instead, days before, gather the family together and let them join in by designing their own Christmas cookies. Everyone can trace or make up pictures of his favorite Christmas designs and decorate them with sprinkles, candies or artistic markings. But be sure that when you invite the family to make these cookies you have all the necessary ingredients and equipment on hand. You'll need several cookie tins and you'll want a set of sifter sifter to measure and sift the dry ingredients. In case you've never seen these sifters, there is a junior miss one-cup sifter that you can keep right in your flour canister to serve as a scoop and to measure and sift right into the measuring cup, thus avoiding any messy and wasteful spilling. Then the big sister 8-cup sifter takes over to sift together all the measured flour along with the baking powder, salt and spices or whatever dry ingredients the recipe calls for. Both have spring-action handles and come packed together. If your kitchen doesn't boast this set, treat yourself to one — you'll find it a year-round delight.

Cookies for Christmas Eve Party

"CAN'T FAIL" COOKIES—Decorated Christmas cookies are a holiday tradition among families.

By GAYNOR MADDOX
NEA Staff Writer

Many Americans with foreign background celebrate Christmas on Christmas Eve instead of Christmas Day. The tree is lighted and gifts distributed to family and friends. There, of course, there are refreshments.

For this kind of gathering on the night before Christmas, only simple refreshments are in order. Have a holly decorated punch bowl filled with a sparkling fruit punch and a large cake of ice. You'll need a plate of assorted sandwiches, a cheese tray with crackers and a plate of decorated Christmas cookies. Hot coffee — plenty of it — is part of the informal Christmas tree party.

Fruit Punch
(Serves 12)
One and one-quarter cups sugar, 1-4 cups very hot strong tea, 1 cup orange juice, 1-3 cup lemon juice, juice of 3 lemons, 1-2 cup pineapple juice, 1 pint gingerale, 1 pint club soda, slices of orange and pineapple.

"Can't Fail" Christmas Cookies
(About 20 cookies)
One cup quick mix shortening, 2-3 cup sugar, 3-4 teaspoon salt, 2 teaspoons vanilla, exactly 1-3 cup eggs (1 to 2, depending on size. If just a trifle short, a little water may be added to bring eggs to required measurement), 3 cups sifted all-purpose flour. Combine shortening, sugar, salt, flavoring and eggs. Beat until smooth and light. Stir in flour. Chill dough. Preheat oven to 350 degrees F. Use a pastry canvas and covered rolling pin. Flour both lightly. Roll dough to 1-4 inch to 3-8-inch thickness.

Cut into Christmas shapes with special cookie cutters. Bake cookies on cookie sheet in moderate oven (350 degrees F.) 12 to 15 minutes. Do not allow to brown. Remove from cookie sheet and cool thoroughly on cake racks before decorating. Decorate with colored sugars, coconut, silver and other tiny candies.

CRANBERRY COCKTAIL
To make cranberry juice for a cocktail, boil two cups of the berries with two cups of water until the berries are soft. Put them through a sieve, sweeten them with a half cup of sugar and add a dash of salt. Chill and add the juice to a cup of cold gingerale just before serving.

in moderately hot over, 375 degrees F., 10 to 12 minutes. Remove from baking sheet while warm. Cool on rack.

TRADITIONAL BOWL—The old-fashioned holiday party brings cherry egg-nog, fruit cake and sandwiches.

**Birth Told in
Carols at Class
Christmas Party**

Christmas carols telling of the birth of the Christ Child were sung by members of the Crusaders Class of the First Methodist Church at the Christmas party in the home of Mrs. H. H. Boynton Tuesday night.

Mrs. Boynton read the Nativity story and PMA. Marvin Cooper read the story, "The Star Across the Tracks." Gifts were exchanged from the decorated tree.

Those present were Mrs. V. L. Watkins, Mrs. D. C. Dodson, Mrs. Marvin Cooper, a guest; Mrs. A. L. Smiley, Mrs. A. E. Marlow, Mrs. Don Wilson, Mrs. J. D. Wright, Jr., and Mrs. A. D. Pruet.

Mrs. L. E. Bromart, Mrs. E. Collum, Mrs. Joe Taylor, Mrs. R. D. Wilkerson, Mrs. F. E. Converse, Mrs. Vernon Stuckey, Mrs. Leon Cook, Mrs. Dorothy Cox, Mrs. Wilson Howell, Mrs. C. J. McNaughton and Mrs. Boynton.

**Children's Program
At Zion Lutheran**

The Children's Christmas program will be given at 7:30 Friday evening at the Zion Lutheran Church, Pennsylvania and Duncan. The program will be the Christmas story told in song and verse. The public has been invited.

STUFFED FIGS
Stuff steamed figs with cream cheese and serve with coleslaw. This combination is delicious with baked beans for lunch or supper.

TESTED TIPS By Jack and Betty Gray

GLANDERIZER!
IF YOUR FACE IS SLIGHTLY ON THE CHUBBY SIDE, APPLY ROUSE CREAM TO NOSE AND IT WILL LOOK THINNER. — NOT YOUR NOSE!

COLD SHOWER!
— TO PREVENT GREENISH TINGE AROUND YOLK OF HARD-BOILED EGGS, IMMEDIATELY CHILL COOKED EGGS IN COLD WATER!

THE MAIL BAG
MRS. T. DELAWAN, WYO. — SPREAD TOASTED & ON FOLK — HOLD BRIEFLY OVER LIGHTED GAS BURNER — AND SKIN WILL COME OFF LIKE MAGIC!

CODDLE MUSHROOMS
Do not cook mushrooms over too high heat or too long or they will toughen.

Raisin cake served with a hot lemon sauce makes a nutritious and delicious dessert suitable for all members of the family.

Bentley's

I Love My Doctor

By Evelyn Barkins
Copyright by Evelyn Barkins; Distributed by NEA SERVICE, INC.

THE STORY: John and I eloped, after discouragement from my parents and despite the fact that John is an intern at a hospital and receives only \$15 a month, plus board and expenses. But soon John will be a full-fledged doctor and have a large practice and I'll finish my law school education and have a career as an attorney-at-law. Right now we are spending our honeymoon in a modest little hotel and dreaming of the future.

BUT being married, even thus privately married, felt funny; the intimacy, the close relationship, the understanding.

"Now who would ever guess?" I told John one day as I watched him shave. "That a black-haired man like you could grow a yellow mustache!"

John swung his razor blade at me in mock alarm. "Don't you ever tell a soul," he threatened, but I could see a seriousness beneath his comical stance. "Not a soul," I promised and never did until now.

He found out many things about me: that I never sew slip straps when they break but use safety pins; that I have to sleep with "curlers in my hair unless I have a fresh permanent; and that I always go to bed with an apple.

In common with all other newlyweds, I suppose, we reviewed our personal history from first meeting onward. It seemed to us, as is the case with thousands of others (and it still does), one of God's major miracles that we met at all, and that out of all the teeming millions of people in the world we found each other.

"Do you remember," John asked, "how the first time we met, we danced, and I told you that I wasn't much of a dancer?"

"And you still aren't," I answered. The record of our wondrous achievement never failed to astound us, only. After seven momentous meetings, we could no longer resist the tide.

"Remember my proposal?" John asked. One evening, our seventh date, John had told me that he had had a dream that he and I were married.

Not wanting to appear over-anxious, I had answered, "I'll bet you were glad when you woke up and found it wasn't real."

"Nope," John had said drawing me close. "It was a horrible disappointment."

From there on in, the path was straight ahead, and our eight months' period of engagement had been a sop to family argument, professional convenience, and general convention.

ALLE in all, we lived our honeymoon days in a kind of complete, communal solitude, despite the many people we encountered and conversed with. Sometimes, I honestly feel that most newlyweds deserve absolute success of all relatives and friends, on the whole private year. Much incipient mother-in-law trouble, too, if you ask me, is directly traceable to those early months when Mama is trying to make herself heard above daughter's thorough absorption in her new world, and seeming indifference to the old; although it should be obvious to anyone that there is usually such a visible haze about the chosen couple, that trying to make real live contact with them is harder than trying to get the Statue of Liberty to sing.

John and I were no different. Not that we punctuated every sentence with a kiss, or went around looking like Election Day's chief drunk on a sugar bender.

It was just that we were basically unaware of everything and everyone but ourselves, although having been well trained, we both went through the proper social motions. Winston Churchill could have been pitching for the Dodgers that season, and we wouldn't have heard or cared.

Everything was new and exciting and different and wonderful. After a lifetime of broadcloth pajamas and flannels, I was suddenly immersed in trousers, satin and lace. The trailing robes, the filmy nightgowns all went to my head. I felt like the star of an amateur theatrical in hired clothes. Indeed, the very next day after we were married, I sat John down and tried on one item after another for our mutual admiration until his exaggerated responses assured me that he too was convinced.

Whenever we lolled and talked and laughed into the late early morning hours, I expected at any moment to hear my mother's voice calling from her bedroom, like a town crier in a medieval village: "It's 1 o'clock, dear. You better tell John to go home."

How solemnly we spoke, and how seriously we resolved. We would never become like so many other husbands and wives. Heaven forbid! Bored with each other, eating in silence, living in anger, arguing like mortal enemies! How shocked we would have been, and outraged, to be told that that too had been said before.

HOW we laughed at everything that happened. There was the time when John was looking for me in the lobby, and the elevator man said: "Want your wife, sir?" and John, taken by surprise forgot and gulped: "My—what?"

And yet, in another way, we felt as if we had always been married. It was thrilling to belong like this together, to do things together, and to always go everywhere together.

"I feel as if it's been this way forever," I told John one night. "It is and so do I," he answered with a mouthful of toothpaste and water.

"And talk of being tied down," I scoffed. "Why, people are crazy! I'm freeer than lobo on a train!" To this day, I am always puzzled by the proverbial ball and chain talk. For me, marriage has always seemed the ultimate in liberty, like a convict in his first walk out of Alcatraz. Not that home life had been imprisonment by any means, but, on the other hand, neither had it been like this. No more "Hang your clothes up at night" talk. No more "Be home at 12 dear, or what will the neighbors think?"

THE first insidious change that marked our marital progress, however, began almost immediately with our search for a place to live. History, of course, flowed calmly onward, completely undisturbed by us or any other single couple's catastrophic events. With unbelievable contempt, it records an inaugural procession, Presidential successions, and war and peace, while totally ignoring the day Henry proposed to Anna, or the time Uncle Hiram accidentally burned down the barn. But in true love-queers-all fashion, John and I kept our own egotistical reckoning in which we, in turn, abandoned the Roosevelt administration for one of our own. High at the top of world shaking occasions we wrote: "Wedding Day, and underneath, in only very slightly smaller print we inscribed: "The time we found our home."

Unfortunately, even in those prehistoric years when apartments were not quite so hard to find as polar bears in Times Square, house hunting was still a tough problem.

"Must we?" I asked John half-seriously, half jokingly, when first the call to duty resounded through Room 518 like revolvers in an army camp, and we searched our original discussion: "I'm having a wonderful time right here."

"So am I," said John, "but two weeks are up already. In a few more, I'll be finished at the hospital, and we have to be all ready to start our practice and begin making some money. And before you know it, you'll be back at law school."

"I guess you're right," I admitted reluctantly. "Everything has seemed so far away, that I've almost forgotten. Well, I finished, sighing dramatically for the world that is too much with all of us, 'what do we do?'"

"Find a place to live," he answered immediately, as if he were filling in a prescription blank. Then he laughed. "Not that it won't be hard! We need four rooms at least to accommodate both home and office, but we can only afford two. We want a decent, middleclass neighborhood where the people can manage medical care, but we can only pay for a poor one. And if we do find a nice apartment, then we have to make sure that the price and location check too. Otherwise," he ended cheerfully, "it's as easy as solving a simultaneous quadratic equation with four unknowns."

He found out many things about me . . . that I have to sleep with curlers in my hair unless I have a fresh permanent.

ing and different and wonderful. After a lifetime of broadcloth pajamas and flannels, I was suddenly immersed in trousers, satin and lace. The trailing robes, the filmy nightgowns all went to my head. I felt like the star of an amateur theatrical in hired clothes. Indeed, the very next day after we were married, I sat John down and tried on one item after another for our mutual admiration until his exaggerated responses assured me that he too was convinced.

THE first insidious change that marked our marital progress, however, began almost immediately with our search for a place to live. History, of course, flowed calmly onward, completely undisturbed by us or any other single couple's catastrophic events. With unbelievable contempt, it records an inaugural procession, Presidential successions, and war and peace, while totally ignoring the day Henry proposed to Anna, or the time Uncle Hiram accidentally burned down the barn. But in true love-queers-all fashion, John and I kept our own egotistical reckoning in which we, in turn, abandoned the Roosevelt administration for one of our own. High at the top of world shaking occasions we wrote: "Wedding Day, and underneath, in only very slightly smaller print we inscribed: "The time we found our home."

Unfortunately, even in those prehistoric years when apartments were not quite so hard to find as polar bears in Times Square, house hunting was still a tough problem.

"Must we?" I asked John half-seriously, half jokingly, when first the call to duty resounded through Room 518 like revolvers in an army camp, and we searched our original discussion: "I'm having a wonderful time right here."

"So am I," said John, "but two weeks are up already. In a few more, I'll be finished at the hospital, and we have to be all ready to start our practice and begin making some money. And before you know it, you'll be back at law school."

"I guess you're right," I admitted reluctantly. "Everything has seemed so far away, that I've almost forgotten. Well, I finished, sighing dramatically for the world that is too much with all of us, 'what do we do?'"

"Find a place to live," he answered immediately, as if he were filling in a prescription blank. Then he laughed. "Not that it won't be hard! We need four rooms at least to accommodate both home and office, but we can only afford two. We want a decent, middleclass neighborhood where the people can manage medical care, but we can only pay for a poor one. And if we do find a nice apartment, then we have to make sure that the price and location check too. Otherwise," he ended cheerfully, "it's as easy as solving a simultaneous quadratic equation with four unknowns."

"Must we?" I asked John half-seriously, half jokingly, when first the call to duty resounded through Room 518 like revolvers in an army camp, and we searched our original discussion: "I'm having a wonderful time right here."

Otherwise," he ended cheerfully, "it's as easy as solving a simultaneous quadratic equation with four unknowns."

Mosquitoes To Meet War From Texans

BEAUMONT — (AP) — Jefferson County has declared total war against the diptera and given fair warning their kingdom will be invaded Jan. 1, 1950.

Death to the diptera is the battle cry down along the bayous—death until maybe only a few billion diptera are left.

The diptera are the mosquitoes that have plagued Jefferson County for years.

A mosquito-fighting specialist from New Jersey, Albert Lafferty, will lead the county's invasion against the dive-bombing pests.

He'll throw everything into the fray—five mobile units for inspection, spraying and dusting; five more mobile units equipped with fog machines and two mist blowers to control adult mosquitoes; and airplanes to lay down hot fog for areas otherwise inaccessible.

And he'll have a war budget of \$91,794.14.

Tired of smelling citronella, slapping mosquitoes and being speckled with mercurochrome as if they had the measles, Jefferson County residents decided to do something about them.

They mapped their battle plans carefully. First they got their state legislators to introduce a bill allowing counties along the Gulf Coast to set up mosquito control districts. The bill passed. It allowed them to levy a small tax for funds for the battle.

Then they hired 31-year-old Lafferty, who had been fighting mosquitoes in New Jersey for 12 years.

Lafferty made a brief reconnaissance between Sept. 15 and Dec. 1 and said he believed three main sources were responsible for the "great mosquito infestation in Jefferson County":

1. The salt marshes which remain partially flooded during the entire year. Mosquitoes bred there have flight ranges of 30 miles or more.
2. The fresh or brackish water areas, including many acres of irrigated rice fields, bays, upland pools and streams.
3. Local mosquito breeding areas under houses, in open roadside ditches, in cesspools, and containers holding rain.

War starts in earnest the first of the year.

"Beware you eulex, aedes, anopheles, spherocha, masonia and other members of the order diptera!" Jerry Lynas wrote in the Beaumont Journal.

"Your days are numbered. Take to your wings and fly across the Louisiana. Total war against you pests and disease carriers is going to break out in Jefferson County on Jan. 1, 1950."

"FUR HEVVIN'S SAKE"—A fallen angel is hailed Cary Wilmer, Jr., seen strumming his harp in an Atlanta, Ga., hospital. Playing the role of a Heavenly messenger in a stage show, Wilmer suffered a broken arm and leg when the cable supporting him above the stage broke. Strictly down to earth now, Wilmer vows never to act the angel again—not in this world, anyway.

Million Workers Locate Jobs

AUSTIN — (AP) — More than a million workers found jobs through the help of the Texas Employment Commission in the first 11 months of this year, the agency reported.

The TEC said the exact number placed on jobs was 1,170,327. This was 102,397 more than the number of placements for all of 1948.

By December's end, the 1949 figure will overshadow last year's by some 175,000, the TEC predicted.

The Appalachian Trail, a public hiking and riding track, extends 2,050 miles from Maine to Georgia.

Officers and directors of the association voted to send the plaque to Carter. It is silver, mounted on white wood and it reads:

"Commemorating the boundless hospitality of Amos G. Carter to the 1949 meeting of the Associated Press Managing Editors Association, Inc. at Fort Worth, Texas, November 2-5."

The U.S. rapid transit industry carried a number of passengers in 1948 equal to about 10 times the population of the earth—

Carter Receives Plaque From Eds

FORT WORTH — (AP) — Amos G. Carter, Fort Worth publisher, has received a silver plaque from the Associated Press Managing Editors Association for his "boundless hospitality."

The association held its annual national meeting at Fort Worth last month. During the meeting, hundreds of managing editors from over the nation were guests at a variety of entertainments given by the Fort Worth Star-Telegram, Carter, its publisher, and other executives of the newspaper.

Officers and directors of the association voted to send the plaque to Carter. It is silver, mounted on white wood and it reads:

"Commemorating the boundless hospitality of Amos G. Carter to the 1949 meeting of the Associated Press Managing Editors Association, Inc. at Fort Worth, Texas, November 2-5."

The U.S. rapid transit industry carried a number of passengers in 1948 equal to about 10 times the population of the earth—

O'Dwysers Honeymoon On Bahama Island
STUART, Fla. — (AP) — New York's Mayor William O'Dwyer and his bride, the former Elizabeth Sloan Simpson, honeymooned today at a tiny speck of land in the Bahamas.

The 55-year-old mayor of the nation's largest city and the 35-year-old Texas-born beauty were married in a simple single-ring ceremony at St. Joseph's Catholic Church here Tuesday.

Immediately after the ceremony they boarded the luxury yacht, Almar II, for an eight-day honeymoon cruise.

A reliable source said they would go to Cat Cay, about 60 miles east of Miami in the Bahamas group.

Cooperative Action Best Against Weevil

BRIMMINGHAM, Ala. — (AP) — The best way to handle that prime foe of cotton — the boll weevil — is through cooperative community action, according to a Texas expert.

K. P. Ewing, Waco, of the Bureau of Entomology and Plant

Quarantine, said experiments showed that large-scale programs proved more effective than intensive poisoning programs in small areas.

Ewing spoke at the final session of the annual Cotton Insect Control Conference.

British New Guinea has about 97 acres for every inhabitant.

Production In U.S. Takes Slight Rally

TULSA — (AP) — A slight rally from two previous sharp drops was registered by domestic crude oil production for the week ended Dec. 17. The Oil and Gas Journal said yesterday.

The week's daily average, in the Journal's estimate, was 4,961,750 barrels — an increase of 17,325 barrels a day over the week before.

Kansas reported the largest gain, up 10,000 barrels to 291,250. Illinois showed the greatest decline, down 3,600 barrels to 175,600. Other increases were set by Mississippi, up 8,850 to 102,100 Michigan, 1,200 to 44,100.

There were drops in Kentucky, Indiana, Arkansas, Louisiana, Montana and Wyoming.

Production remained unchanged in Texas, New Mexico and Utah.

Kansas Test Hits Pay in Mississippian

WICHITA — Six counties figured in Kansas oil news the past week, with main interest centered on Barber County at Barbara Oil Co. No. 1 Page "C." The test is a northwest offset to the company's discovery well in the Rhodes pool which opened last October with a 146-barrel Mississippian discovery. The new well is reported to have flowed 160 barrels hourly in a test from the Mississippian at 4,496 to 4,561 feet. Two other wells in the pool carry ratings of 171 and 102 barrels daily.

Almost a mile east of production in the big Morel oil pool of Graham County, Derby Oil Co. and associates appear to have a good producer at the No. 1 Balthazor. Good oil shows were recovered in both the Lansing and Arbuckle formations. Operators recovered 460 feet of free oil in a 15-minute drillstem test of the Arbuckle at 3,728-33 feet.

Twenty-eight tests were finished as oil wells for 10,534 barrels daily, as compared to 33 completions and 9,454 barrels the previous week. Russell County led in new production with seven wells and 5,995 barrels of oil.

Twelve tests were completed as gasers for 438,992,000 cubic feet daily. The previous week saw 13 completions for 157,601,000 cubic feet daily.

World Production Rises Two Percent

TULSA — (AP) — The Oil and Gas Journal reports a two percent hike in world crude oil production during October.

The Journal attributed the increase largely to a boost in United States output, which was estimated at 5,046,000 barrels daily. The world daily average was estimated at 9,512,100 barrels.

Competitive Bidding Slated for Job

NEW YORK — (AP) — The American Telephone & Telegraph Co. announced it would offer at competitive bidding a new issue of \$200,000,000 of debentures to provide additional funds for expansion of its subsidiary companies.

Johnson, Warren Lash Imports At Meeting Held in Midland

MIDLAND — (AP) — Imports of foreign oil must be restricted, say a U. S. senator from Texas and the head of the Independent Producers Association of America.

Sen. Lyndon Johnson and J. Ed Warren of Midland spoke Tuesday at a dinner given in their honor by independent oilmen of the Permian Basin.

About 245 oilmen from West Texas, New Mexico and Oklahoma attended the dinner. Among the guests were U. S. Reps. Ken Rogan of Midland, George Mahon of Colorado City and Clark Fisher of San Angelo.

"Legislation to limit the importation of oil must and will be enacted at the next session of Congress," Johnson said. "If not, the oil man has seen his most prosperous days."

The senator said he would use all his influence to retain the depletion allowance for the industry.

Warren declared: "Oil is more important to the security of our nation than the atomic bomb. That is why petroleum has become the football of international politics and intrigue."

Warren said prime requirements for health in the oil industry are: (1) incentives to keep large amounts of risk capital, and (2) saving the American petroleum market for American oil production.

Texas Oilmen Set New High With 418 Drilling Permits

AUSTIN — Another new high for 1949 was set last week when Texas oil men obtained permits to drill 418 oil wells, of which 346 were regular permits and 70 were special exceptions to the spacing rules.

The previous high for the year was the week which ended Dec. 3, when 407 permits were granted by the Railroad Commission.

Last week's figures were well above the previous week, which had 294 regular and nine special permits, and above the same week of 1948, when 278 regular and 46 special permits were issued.

Completions were also high last week, with 212 oil and 24 gas wells added to commission schedules. Dry hole reports were filed on 78 wells. During the previous week, there were 195 oil, 17 gas and 107 dry holes reported. The figures for the week which ended Dec. 18, 1948, were 179 oil, 20 gas and 79 dry.

Starr County Test Opens New Field

AUSTIN — (AP) — A new oil producing area in Starr County yesterday was designated as the Buena Vista field.

The new field designation and discovery rights were granted by the Railroad Commission for the Clark Fuel Producing Co. Canales well No. 1. The Clark Co. office is at Mission.

Commuters Have Party

DALLAS — (AP) — When the commuters' bus to Carrollton and Denton pulls out of the station tonight, the passengers may be just as glum and weary as usual.

But they may have some smiles left over from Tuesday night. It was different.

The bus—on its regular Continental Trailways run and filled with people who live in Carrollton and Denton but work here—was all dressed up like a Christmas tree. In fact, it had a Christmas tree, surrounded by packages, on the back seat.

The passengers didn't even look at their watches to see if they were behind schedule (they were). They laughed and harmonized on Christmas carols.

And, finally, when the bus lumbered to a stop in Denton, they had a party. They had drawn names for gifts, and they passed them out from around the tree.

Dallas Producers Are Told Bitter Fight Developing

DALLAS — (AP) — A leader of Texas independent oilmen says relations between independents and big oil importing companies are in a "dog-eat-dog" stage, and a no-quarter fight is developing.

Guy Warren, president of the Texas Independent Producers & Royalty Owners Association, spoke Tuesday to some 50 Dallas independent producers at a strategy meeting.

Warren said he doesn't believe the independents have deliberate plans to harm the domestic petroleum industry. But in their eagerness to realize a dollar return on huge foreign investments, he said, they are doing just that.

In the United States, 87 percent of the farmers have automobiles and 36.5 percent have trucks. Forests cover half the area of Sweden.

He wants to give you good service, so if your paper is not placed where you want it, tell him just where you want him to place it and he will endeavor to do so. As an independent merchant his income is the difference in money collected from you and what he pays for the paper. When you fail to pay him promptly it is his loss as he must pay out of his pocket to assure uninterrupted delivery of your daily paper.

So KEEP YOUR newsboy smiling by having his money ready each collection day, and by thanking him occasionally for delivering your paper rain or shine—especially in stormy weather. As a young businessman striving to please his customers, he'll appreciate a kind word along with the cash on collection day.
