IMMEDIATE PERIL BEING DISCOUNTED

GOING HOME TO DIE—Little Patricia Owens, 4, hugs her teddy bear and doll at Sunnyvale, Calif., unaware that doctors say she may be dead of a rare lung disease within 30 days. The little girl was taken to California recently in the hopes that the change in the climate would help her. But physicians say her condition is getting worse and her parents are returning her to Chicago, their original home and where Patricia will spend the Christmas holidays in a Chicago hospital. She is now spending much of her time in an oxygen tent. (AP Wirephoto)

One Schoolboy Titlist to Be Determined This Week; Lubbock Defeat Termed Upset of Year

Port Arthur Rated Top 11 In Class AA

By HAROLD V. RATLIFF
AP Sports Editor

One championship will be determined and the battle for another will reach its semifinals this week in Texas schoolboy football.

The City Conference title goes on the line at Dallas Saturday afternoon when Sunset (Dallas) plays Thomas Jefferson (San Antonio). The teams have similar records, each having won 10 and lost one, and there is no comparison on the basis of season records. But Jefferson will be the favorite because it played a stronger schedule.

In Class AA two undefeated, untied teams roll against each other in the semifinals. Lubbock has a 10-0 record, taking on Austin of El Paso (8-2) at Wichita Falls Saturday. Wichita Falls will be favored but the margin would have been overwhelming except for a little incident last week. That incident was mighty Lubbock, rated the best in the upper bracket, falling before Austin 37-12. This goes down as the major upset of the season.

Port Arthur, the No. 1 eleven of the state (according to the sports writers), takes on Marshall at Port Arthur Friday night. Port Arthur is unbeaten and untied in 11 games, Marshall has a 10-1 mark. The Marshall loss was to South Park of Beaumont 13-7 and Port Arthur whipped South Park 34-7. Also, Marshall beat Beaumont 28-6 and Port Arthur slaughtered Beaumont 72-13. A Marshall victory would rate alongside the Austin (El Paso) upset of Lubbock.

In another quarterfinal game, Highland Park (Dallas) takes on resurging Abilene at Dallas Saturday afternoon. Highland Park has a 10-1 record, Abilene shows 8-2-1 but the Eagles have been coming on like the wind the past month. They beat Breckenridge 35-0 last week. Breck was sorely crippled by the fact remains that Breckenridge tied Abilene 7-7 in early season.

The fourth contest pits Austin against Alice at Alice Saturday

Leahy Already Moaning About Prospects for 1950 Season

DALLAS — (AP) — Notre Dame's gridiron champions are on the way home boasting the greatest four-year record in fighting Irish history — but take it from Coach Frank Leahy, they accomplished it in the nick of time.

Next year, laments that rugged individualist among pessimists, his team can't hope to be half as strong as the 1949 outfit which he called "the greatest team I ever coached."

Happy that they were able to

finish four seasons without defeat while winning 56 games and tying two, the Irish still are talking about the thunderous game they had here Saturday when it required every ounce of drive and fight to turn back Southern Methodist 27-20.

That one-half starter comes about in this manner: Bob Lilly and Fred Wallner divided time at one guard position. Lilly is through but Wallner has another year.

Notre Dame is swept clean of all-Americans. End Leon Hart, tackle Jim Martin, and fullback Emil (Six-Yard) Sitko, all are due to graduate.

Others lost from the starting team are end Bill Wightkin, tackle Ralph McGehee, guard Frank Johnson, center Walt Grohous and backs Frank Spain and Larry Coutre.

Twelve players with varsity experience return.

Leahy says he doesn't expect much help from this season's Freshmen. He and Ed Krause, Notre Dame athletic director, say "there are no outstanding prospects."

"We will lose five games next year," Leahy laments.

The meeting of Leahy and Matty Bell, Southern Methodist coach, was a sort of moaner's convention. Bell long has been noted for his dour outlook and Leahy runs Matty a close race. Before the current season opened, each coach (as if reading the other's mail) predicted his team would lose four games. Bell became quite a prophet because that's exactly what his team did. Leahy failed to make the grade. But it hasn't changed Frank's attitude in the least.

2 Unbeaten Teams in A Meet Friday

(By The Associated Press)

The only undefeated, untied teams in the Class A Schoolboy football playoff — Mexia and New Braunfels — clash Friday night at Waco in the feature tilt of the quarterfinal round.

The high scoring New Braunfels Unicorns, pre-season favorites to replace Monahans as the state champion, advanced to the third round of the five-week playoff by blanking Rousebald last week, 21-0.

Mexia, which has rolled up 350 points to 52 for 12 opponents, crushed Grand Saline, 53-0.

Other quarterfinal games match Littlefield and Ballinger at Odessa Friday; Garland and Mineola at Greenville Friday night, and Uvalde and El Campo at Uvalde Friday night.

Ballinger and Uvalde are unbeaten but tied.

New Braunfels, a finalist last year, has scored 484 points while holding 11 opponents to 65.

Ballinger came from behind to crush Wink, 33-7, last week.

Its opponent, Littlefield, had less trouble with Lefors, winning 26-6.

Mineola nosed out Atlanta, 18-13, to come up against Garland, winner over Bowie, 7-0.

El Campo blasted undefeated, untied French of Beaumont, 28-6, while Uvalde downed Mission, 19-7.

The records of the quarterfinalists:

Team	W	L	T	Pts	Op
Littlefield	11	1	0	419	67
Ballinger	11	0	1	379	51
Garland	9	1	2	238	59
Mineola	11	1	0	316	132
Mexia	12	0	0	350	52
New Braunfels	11	0	0	484	65
El Campo	9	1	1	203	74
Uvalde	10	0	1	340	34

Browns-49ers Meet For Pro AAC Title

NEW YORK — (AP) — Cleveland and San Francisco meet next Sunday for the All-America Football Conference championship while the National League's regular season ends with the Chicago Bears trying to overtake the Los Angeles Rams for Western Division honors.

In yesterday's AAC semifinal playoffs, Cleveland's Browns eliminated the Buffalo Bills, 31-21. At San Francisco, the 49ers outplayed the New York Yankees, 17-7.

The Rams, who have won seven games, lost two and tied two, still figure to wind up as the team that will meet the Philadelphia Eagles, Eastern Division winners, in the league playoff for the title Dec. 18.

Their next Sunday opponents will be the Washington Redskins, no ball of fire, while the Bears, who have an 8-3-0 record, must tackle the tough Cardinals.

The Eagles, who had cemented first place in the Eastern Circuit a week before, had a mere work-out in crushing New York's second-place Giants 24-3.

In other NFL games, Detroit edged the New York Bulldogs at home, 28-27, and at Washington, the Redskins routed Green Bay, 30-0.

Washington's ageless pass master, Sammy Baugh, Texas Christian veteran, ran eight yards on his own for a touchdown and teammate Dick Poillon starred with three field goals.

Rote's Play Against ND Brings Titles

By WILBUR MARTIN
Associated Press Staff

Kyle Rote used a sensational performance against Notre Dame Saturday to win the Southwest Conference ball-carrying and punting championships.

The big Southern Methodist University Junior also wound up third in conference scoring, thanks to the three touchdowns he scored against the mighty Irish.

Southern Methodist's 27-20 loss to Notre Dame closed out the regular season for conference teams. Rice has a Cotton Bowl engagement Jan. 2 with North Carolina and Baylor may play the College of Pacific in a post-season game on the West Coast. But the other clubs are through until next year.

Rote ran for 115 yards against Notre Dame to finish with a rushing total of 777 yards on 142 carries. Arkansas' Geno Mazanti was second with 743 yards

NC State 'Hoosiers' Pick in South

RICHMOND, Va. — (AP) — The No. 1 troublemaker in the Southern Conference basketball race again undoubtedly will be North Carolina State's vicious Wolfpack.

Even Coach Everett Case admits his defending champions will be strong.

"Our team at present looks as good as any I have had at State," says Case. "Our main problem is getting the reserves — the new sophomores — fitted into our system. That will take time, but if they stand up under pressure, we should have another good season."

Case's ace has won 81 games, lost only 16 since the little man from Anderson, Ind., turned up at Raleigh, N. C., three years ago. Only three times have conference teams been able to outscore the Pack. Wake Forest did it twice and Duke once.

State's starting lineup is loaded with veterans. Dick Dickey and Sam Ranzino, a pair of sharp-shooting Indiana Hoosiers, man the forwards. Paul Horvath of Chicago exploits his 6-foot 7-inch frame at center. Vic Bubas of Gary, Ind., and Joe Harand of Tenally, N. J., have the guard assignments.

The most valuable player on the squad seldom starts. He's Warren Carter, a 6-foot, 3-inch handy man from Green Bay, Wis. He plays any position.

Another veteran reserve is Charley Stine, forward from Frankfort, Ind. The Wolfpack will get plenty of help from the 1949 freshman team which won 14 of its 15 games. Coming up as sophomores are Bob Cook of Columbus, Ind., and Joe Stoll of Princeton, Ind., two giants who averaged 15 points a game.

The Wolfpack has a new coliseum with seating capacity of 12,000.

Duke, North Carolina, George Washington, William and Mary and Wake Forest have outstanding the finest in the Blue Devils' might be singled out as the team most likely to succeed in any big knock off State.

Scrapping for Duke varsity positions on Coach Gerry Garard's squad are several sophomores from the 1949 freshman outfit, the fines in the Blue Devils' long cage history. Last year's freshmen won 15 of 17 contests and averaged close to 70 points a game.

Five Duke lettermen are back, including Ceep Youmans, Dave Scarborough, Tommy Hughes, Bill Martin and Scotty York.

North Carolina's chances may be dimmed by a touch football

WARREN'S WARMUP

By Warren Mason—Sports Editor

QUESTION: What is the oldest basketball league in the nation?

THE SOUTHWEST WILL BE TALKING FOR YEARS ABOUT THAT thrilling Notre Dame-Southern Methodist University game Saturday afternoon. And I can't blame them. It was beyond a doubt one of the most thrilling and best-played ball games I have ever witnessed. And I'm sure that the many Pampa fans I saw at the Cotton Bowl will share this opinion with me.

The Mustangs were pitched to their highest peak of the season as they attempted to snap the four-year old Irish winning streak. Kyle Rote finally had an opportunity to take over the spotlight that has been dominated by the presence of Doak Walker. In the two SMU games I witnessed this fall Rote was the outstanding man on the field, and his performance last Saturday would undoubtedly have earned him an all-American berth on many teams had they not been selected already.

Rote could do no wrong. His passing, punting and running were spectacular. He consistently did the correct thing at the proper time. He received excellent blocking by his front line, which was partially responsible for his deadly passing—which in turn was the main factor in the narrow score.

The Irish felt the sting of Rote's passing from the opening play. The wavy-haired youngster connected on three straight passes after the kickoff, and this bullseye throwing opened the Irish defense for fake passes and power running by little Johnny Champion.

The entire Notre Dame team was unanimous in the opinion that Rote was one of the two finest backs they had faced this season. The other was Lynn Chandoin of Michigan State. And this football wizard of the Furies will be back next season.

It was too bad that the Doaker couldn't play. He hobbled around on the sidelines watching each play carefully, trying to diagnose errors in the Irish defense and was constantly offering suggestions to Coaches Matty Bell and Rusty Russell. His absence on the field was probably the underlying factor in the outstanding performance of the Mustangs.

Coaches Bell may have been trying to switch a system used by the Irish years ago. Knute Rockne had the boys from South Bend "win one for the Gipper". Bell might well have suggested that the Mustangs "win this one for the Doaker".

On the other hand, rumblings were heard around Dallas that several of the boys on the Pony squad were "down" on the Doaker because of his headline stealing for the past few years. But this rumor usually surrounds any great star. They may have been out to prove that they could win without him. Either way the

Locally it was a bad weekend for Panhandle citizens. All three of the teams from this area that were fighting to remain in the playoffs entered their games as underdogs and came out the same way. The fighting Harvesters dropped a game to Wichita Falls; mighty Lefors fell to Littlefield and White Deer succumbed to Kress. All went down fighting, the same way that they had gotten to the playoffs. All brought honors to themselves and to their school through their fine play and everyone in the Panhandle should be proud of them despite the fact they lost.

Today starts the first of a series of articles previewing the college basketball season. The series will be "crapped up" in two weeks during which time every major college conference and a number of independent teams will be covered. The article today deals with the Southern Conference and what teams or teams appear to be the contenders there.

ANSWER: The Eastern Intercollegiate Basketball League, in its 48th season, is the oldest cage loop in the nation.

Dec. 15—White Deer at Skellytown; Panhandle at Claude.

Jan. 5—Claude at Skellytown; Groom at Panhandle.

Jan. 19—Claude at Groom; Panhandle at White Deer.

Jan. 26—Groom at Skellytown; White Deer at Claude.

Feb. 2—Skellytown at White Deer; Claude at Panhandle.

Feb. 16—Skellytown at Claude; Panhandle at Groom.

Feb. 23—Groom at Claude; Panhandle at White Deer.

Members of the Skellytown eighth grade team are Donald Coffey, Donald Denham, Don Galaher, Gene Hoskins, Jerald Hunt, Ronald Mills, Edward Vaughn, Bill Wells, Jack McCabe, Eugene Willis, Loyd Cook, Dale Hunt and managers Howard Holt and James Hufniss.

Members of the seventh grade team are Thomas Gerik, James Hoskins, Lou McBee, Billy Moseller, James Oates, Wendell Powell, Teddy Williams, Roger Barrett, Don Broome, Harry Cannon, Gene Clark, John Robert Kramer and Vernon Baker.

Coach of the Skellytown cagers is Bert Isbell.

Co-Champ Bears Open Basketball Season Tonight

DALLAS — (AP) — Baylor, which shared the Southwest Conference basketball championship last season with Rice and Arkansas, opens the 1949-50 season tonight against North Texas State.

Six of the seven conference cage teams opened play last week and all but two suffered licks in the first week.

Southern Methodist downed East Texas State, 53-28, and Centenary, 61-48. Texas Christian beat Abilene Christian, 52-35, and East Texas State, 63-35.

Rice and Arkansas broke even, while Texas lost its only game and Texas A&M dropped two.

Rice defeated Sam Houston State, 74-65, but lost to Southwestern Louisiana Institute, 42-26. Oklahoma beat Texas, 65-48. A&M lost to Long Island, 66-52, at Madison Square Garden in New York City, then bowed to Niagara, 63-50.

Arkansas whipped Kansas State Teachers, 59-49, then lost to Oklahoma A&M, 8-41.

Anticipate No Big League Deals At Minor Meet

BALTIMORE — (AP) — Not a single big league trade may be announced at this 48th annual Minor League Baseball Convention that opens here today and does not end until Friday, Dec. 9. But that does not mean that none will be consummated.

It is almost a certainty that at least two, perhaps three, player deals of "sizeable proportions" will be ready to be announced at the Major League sessions in New York next week.

The New York Yankees have been trying to wrangle pitcher Rae Scarborough and first baseman Eddie Robinson away from the Washington Senators.

The New York Giants have made a cash offer to the Boston Braves for veteran second baseman Eddie Stanky.

The third deal that may jell involves the St. Louis Browns and Detroit Tigers with Browns second baseman Gerry Priddy as the key figure.

ROTE STOPPED ON ONE FOOT LINE—Kyle Rote, Southern Methodist University back, is stopped in midair on the one-foot line as he smashed into left guard in a touchdown try in the second period of the game with Notre Dame in Dallas, Texas, Cotton Bowl. SMU players are guard Bob Welch (65) and fullback Dick McKissack (38). Notre Dame won 27-20. (AP Photo)

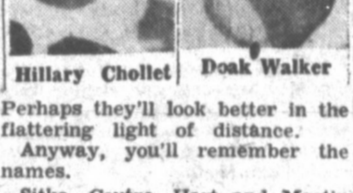

Football May Not Have Been Exceptional, But You'll Remember the Names, Mister!

NEW YORK — (NEA) — Colleges are unloading football Seniors by the carload this trip.

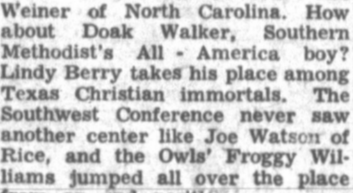

The past four falls saw more players in school than at any other time in history.

Some choose to look upon the campaigns of 1946-47-48-49 as tops quantitatively rather than qualitatively. But this old-timer is listed among those who saw nothing wrong with the over-all performance.

It some of the young men didn't stick out, they certainly did a grand job of attracting attention.

Hillary Chollet

Doak Walker

Perhaps they'll look better in the flattering light of distance. Anyway, you'll remember the names.

Sitko, Coutre, Hart and Martin of Notre Dame, for example. And Choe, Choe, Justice and Art Weiner of North Carolina. How about Doak Walker, Southern Methodist's All-America boy? Lindy Berry takes his place among Texas Christian immortals. The Southwest Conference never saw another center like Joe Watson of Rice, and the Owls' Erzygy Williams jumped all over the place from an end position.

Arnold Galiffa set a style for Army passers, and Cornell long will speak of gracious Hillary Chollet. Minnesota's Leo Nomenlind and Clayton Tommemaker will take on added stature with the years, true giants of the North. Capt. Al Wistert, Michigan's old man and his kids, will become a legend in Ann Arbor. Tulane will wish it had Eddie Price back.

What will the 1950 Oklahoma line be like without Walker, West and Owens, who'll find Split T holes like George Thomas? It won't be long before College of

the Pacific men will be saying: "You shoulda seen little Eddie LeBbron. Even fooled officials, that's what he did." Next to LeBaron, if you had to make one quick pick on the Pacific coast it would be Stanford's punting end, Ken Rose.

Princeton will not soon forget George Selia. Texas had a young squad, but it could use more like Randall Clay, Guards Ed Bagdon and Don Mison started every game throughout four tough seasons for Michigan State, where Lynn Chandoin was a 60-minute man, or thereabouts. Penn State was a bit mediocre, but it wasn't Funchy Rogel's fault. Bernie Barkoskie of Pittsburgh had to block a kick to beat Pennsylvania, is to crash the headlines, but he belonged there all the while. So did Bimbo Ceconci.

Bob Deuber, Ray Dooney and Harry Wettlaufer gave Pennsylvanians something to remember them by. Jack Clout served William and Mary well. It will take quite a linebacker to replace Forrest Klein at California. Jim

Powers of Southern California established a new Pacific Coast conference passing record in seven games. Ken Carpenter was one of the slickest backs ever turned out at Oregon State. And so on down the line.

It was a lot of fun.

Lack of Stadium Holds Up Press Bowl Grid Game

SAN FRANCISCO — (AP) — Finding a stadium is still the biggest problem for promoters who would like to see Baylor and College of Pacific meet in a Press Bowl Football Game.

December 26 has been agreed upon as the date, President Leo Lee of San Francisco's Press Club said yesterday. But officials of the East-West Shrine Game to be played Dec. 31 have refused to permit use of the Kezar Stadium here. Lee said one of several Northern California stadiums may be used.

College Cagers Open Full Week

NEW YORK — (AP) — College basketball goes into its first full week of the season tonight and already one national champion dropped an early contest.

The deflated five is the University of San Francisco, which won the National Invitational title last March, the Dons dropped a close one to San Jose, 43 to 38.

It will take more doing to down Kentucky, National Collegiate Athletic Association champ.

With four first-team men graduated to the professional Indianapolis Olympians, the Wildcats still had enough left to drub Indiana Central, 84 to 61.

Hart, Iba's Oklahoma A&M NCAA finalists and second team in the Associated Press poll last season, opened with a victory over Arkansas, 43 to 41.

Loyola of Chicago, National Invitational finalist, lost to Minnesota, 55 to 51.

Waldorf Would Like to Beat Ohio State for California Coach Owes Bucks Something

By HARRY GRAYSON
NEA Sports Editor

COLUMBUS, O. — (NEA) — Pasadena gets a strictly Big Nine football game for the second year in succession when California books up with Ohio State in the Rose Bowl, Jan. 2.

Northwestern managed to edge the Golden Bears, 20-14, a year ago, but Lynn Waldorf wasn't mad at the school he coached for a dozen years.

Ohio State is something else again.

Pappy Waldorf really owes the Bucks something, you are reminded by Hank Cassery, the veteran sports editor of the Madison, Wis., Capital Times.

Cassery points out that during his run at Northwestern, Waldorf lost six of 11 games at Ohio State, won four and tied one, having it out with the late Francis Schmidt, Paul Brown, Carroll Widdoes and Paul Exler.

Waldorf quickly made it plain that there is nothing wrong with Pacific Coast football that coaching won't cure.

The golden slope, where once Doble, Dietz, Besdek, Andy Smith, Kerr, Warner and Howard Jones held sway, long has been on the short side in drill. California is a tremendous institution, with as fine material as there is in the land, but as Dan Walton of the Tacoma News Tribune points out, it was a coaches' cemetery from the

late Smith's wonder teams until Waldorf took over in 1947.

Waldorf doesn't know any more football than a lot of other coaches, but, like Frank Leahy of Notre Dame and Red Blaik of Army, he's a master organizer.

John Heinrich, College of Puget Sound coach, tells about taking a summer course under Waldorf.

"I haven't anything special to offer," Waldorf told the class, "unless it is in helping you or-

ganize your work. I am no fireball, I hire assistants to do that part."

Waldorf told the clinic that he kept track of the time his staff put in studying pictures, working out plays and on the field. He said that through Friday, he and his aides put in 76 hours, and the Saturday game was still ahead.

Waldorf uses a modified T in which he gets remarkable blocking. He contrives to work in the power of the single wing.

But the principal reason for his success is knowing how to handle men, how to allot assignments. Everything is arranged in advance. He draws the master pattern. Then he is nothing more than a supervisor, with a pat on the back for all.

Hank Cassery further points out Wes Fesler has received a fine business offer from a Columbus man, and Ohio State's handsome and affable young mentor is giving it serious consideration.

Columbus fans have been on Fesler the past three years, made it particularly hard after Minnesota routed the Bucks, 27-0, and at home.

NEW YORK - For the second time I challenge the statement of G. P. Putnam's Sons, Inc., of New York, that Saul Alinsky, the author of a recent biography of John L. Lewis...

I call attention again to the fact that the trash which this publishing house sent out as a plumb with Alinsky's book boasts that it has been called "Red" and "many unprintable epithets."

In fact, Alinsky writes that Lewis had no choice. But to accept the support of the Communists because the American Federation of Labor had flinched from these insurrectionary assaults on established, lawful government...

Mr. Keller then wrote that "no such incident took place" and that "the report is false." Turning the page, we find Alinsky again attributing cowardly and quavering conduct to an official of the company.

side of an alleged episode described by Alinsky, although Alinsky does not explicitly give any authority for it. He implies, but does not flatly say, that Levin gave him this "material."

Alinsky said that during the disputes between Lewis, representing the CIO, and Keller, now president of Chrysler Corporation, Lewis threatened to "come around this table right now and with one fell swoop wipe that damn sneer right off your face."

There is a truth here. We gain freedom through obedience to law. But the Law is incapable of giving ultimate security because of two things: it is an authority outside of us, imposed on us; and it lacks dynamic to fulfill its demands.

It seems clear, and so Mr. Ewing has informed friends, that if he and Mr. Truman were entirely satisfied with the health insurance setup as they have submitted it to Capitol Hill, he would not be making a field survey of the problem at this late date.

The BOWLS

By GORDON MARTIN

Years ago the football season ended on Thanksgiving Day, but it seems the gridiron sport is now inclined to overstay. For they keep the boys at the playing 'til the new year rolls around, while the experts write of football bowls which o'er the land abound...

And the daddy of 'em all and one that everybody knows, is the bowl at Pasadena where they glorify the rose. Too, the Delta and the Elain Bowls are waiting to be seen, and in Florida they've got a bowl to plug the tangerine. So we ought to do some weeping when the drums of judgment roll, for the poor forgotten towns that are without a football bowl.

WRITTEN FOR NEA

Stagnation or slowing of the flow of bile through the gallbladder is believed to be at least one of the causes of gallstones...

Whatever the cause for the formation of gallstones, they become increasingly common after 30 and are most frequent between 40 and 50. About three-fourths of all cases are in women.

Gallstones can get caught in the duct or passageway leading out of the gallbladder and produce severe pain and blockage to the flow of bile. Unless this happens the symptoms are likely to be rather mild, at least at first. The most common is "indigestion."

Many people merely complain of a sense of fullness in the abdomen and a vague feeling of discomfort.

DETECTED BY X-RAYS

Gallstones can almost always be detected by means of X-rays. Some of them can be found by a simple X-ray plate of the gallbladder region. In most cases, however, a special dye, or coloring patient which is eliminated through the gallbladder. An X-ray taken at the proper time after taking this dye should show any gallstones present.

If stones are producing any symptoms—and even sometimes when they are not—operations to remove them from the gallbladder must be seriously considered. Whether operation is desirable requires a good deal of judgement, including analysis of the X-ray studies, the symptoms, age and the general physical condition.

There is no medicine which can be given which will dissolve the stones. Also there is no sure way of making them pass down the bile duct into the intestines.

QUESTION: What can be done for infectious dandruff?

ANSWER: The number of suggested methods of prevention and treatment are so numerous that they cannot be listed here. Probably the care of the scalp, which involves washing about once a week, rubbing with the tips of the fingers and exposure to the air and sun, providing these are not too drying, will be as much as anything to prevent the development of dandruff.

\$81,000 in Building Here During Month of October

During October in Pampa building construction permits numbered 45 and came to an estimated value of \$81,000, it was reported from the Bureau of Business Research of the College of Business Administration at the University of Texas.

The report was made in cooperation with the Bureau of Labor Statistics, U.S. Department of Labor.

Throughout the state there were 20,390 building permits issued including both dwelling units and other buildings. The estimated value of the buildings is \$60,170,000.

Amarillo ranked high in October building. There were 178 new dwelling units constructed there and 299 other buildings which included all types of non-residential buildings and hotels, dormitories and tourist cabins. Total value of the buildings was estimated at \$2,313,000.

Built-Ins Used In Colonial Room

Built-ins need not be confined to modern interiors; the early American room can also take advantage of their usefulness.

Before a single or double window in one end of a Colonial living-room place a sofa. Instead of lamp-tables, built in at either end of the sofa a table-height cabinet with simple batten door. In either corner, at right angles to the sofa and cabinet-tables, build open shelves to the ceiling, over closed storage cupboards.

On the sofa use a ruffled printed chintz or other cotton slipcover. Have simple draw-curtains at the windows, of the same material. All the built-ins may be left in their natural finish, and waxed to a soft glow.

On the open shelves display early American pressed and blown glassware, such as the famous wheeling ruby red, cobalt, topaz and milk-glass made in Wheeling and the greater Ohio River Valley a century ago. Reproductions of this typically American glassware are still being turned out today in this area by skilled American craftsmen.

Fictorial tiles also are used in other rooms: clown faces, animals, birds and baby ducks for nursery or child's room; game fish and birds, playing cards, top hat and walking stick for a man's den; compass, anchors, boats for the room of the man or boy with nautical tastes; musical notes and clefs for the musician or music room; ivy leaves and fruits for dining area; shuffleboard court, letters and numerals for the recreation room.

PROTECTS AND BEAUTIFIES
Home appliances — refrigerators, laundry equipment, radios, phonographs, television sets, home freezers, vacuum cleaners, stoves, dishwashers and many other objects — all have their special finish to protect them from rust and disintegration, as well as to make them beautiful and to keep them in good repair.

BASEMENT FLOORS
For the basement floor that is not plagued by dampness, you have the choice of several types of coatings — a porch and deck enamel — colorinated rubber paint or cement dye.

COLOR FOCUS-FOCUS
If a room seems too large — and is well-lighted — you can make it seem friendlier and more inviting by painting it a dark color.

FOR SUNLIT ROOM
As a wall color, blue is used to best advantage in rooms that receive sunlight.

Waste Space To Cabinets

The architectural eyesore, such as that jog in an upstairs bedroom wall made by the chimney, or an unused door, or the unwanted double doorway between dining and living-room, can be remodeled into useful as well as attractive cabinets.

Fill in the jog in the wall with shelves so that they smooth out the long sweep of the wall. Enclose the lower shelves with doors to form a storage cabinet.

The double opening between dining and living-room can be closed up with sheets of wall-board, and shelves installed on the dining-room side. Or, if you only want to partially close this opening, install shelves without closing the upper space with wall-board. Doors for the lower shelves will give storage cabinets on both the dining and the living-room sides.

The unused door is given a slightly different treatment. Fill the frame entirely with shelves. Remove the upper panel of the door, but not the lower. Back the shelves with a board. This makes a shadow-box effect of the upper shelves, framed by the door. The bottom panel of the door conceals the lower shelves. To get at the lower shelves, simply open the door.

Decorating the shelves is a challenge to the imagination. In a room with walls striped in dusty rose and white, an attractive plan for the shelves is to paint them white, edged in powder blue. Beige walls will be handsome with shelves of terra cotta or tile red.

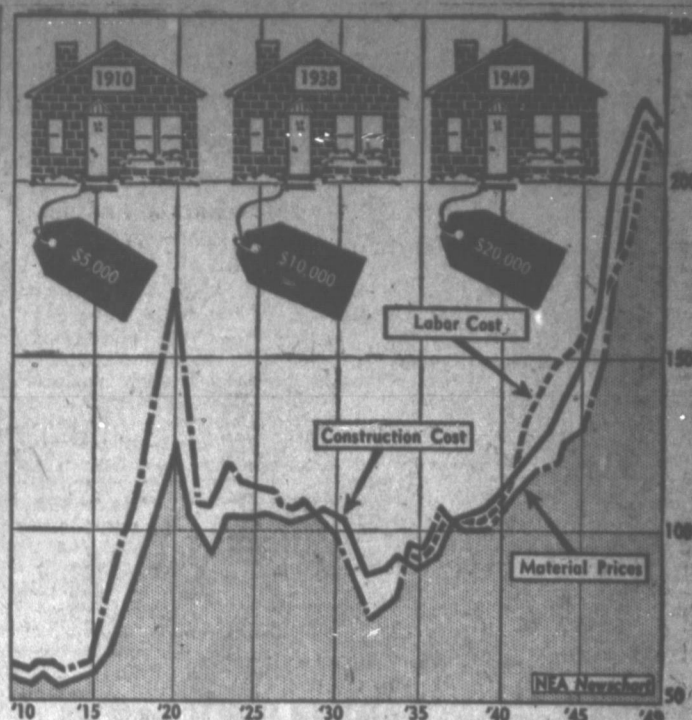

These shelves are effective background for the display of collections of old Sandwich, Siegel and Wheeler pressed glassware. In the closed cabinets can be stored glassware less frequently used.

Price Greenhouse Adds Basement

The need for mere storage space and a work room at Price Greenhouse has resulted in the construction of a basement at the side of the greenhouse.

Work was started last week on the addition and floors were laid in the new basement Tuesday. The greenhouse is located at 220 N. Ward and is owned by W. T. Price.

PROTECTS AND BEAUTIFIES
Home appliances — refrigerators, laundry equipment, radios, phonographs, television sets, home freezers, vacuum cleaners, stoves, dishwashers and many other objects — all have their special finish to protect them from rust and disintegration, as well as to make them beautiful and to keep them in good repair.

TRENDS IN BUILDING COSTS—Building costs have declined, but not very much, from their all-time peaks of 1918. A brick home that cost \$5000 in 1910 costs four times as much to build now. The new chart above shows how the cost of building has followed right along with the cost of building materials since 1910 and construction workers' wages since 1934, the first year when comparative statistics became available. Data is from the Cleveland Trust Company and the Bureau of Labor Statistics.

Survey Shows Heavy Demand for Homes in Moderate Range Income

While considerable emphasis properly is being placed on providing the nation with more low cost housing, a heavy demand still exists for homes in the moderate price range.

One recent "sampling" survey by a national magazine showed that nearly 30 percent of the potential home buyers questioned were interested in houses costing more than \$10,000.

Of nearly 16,000 persons from whom replies were received, more than 57 percent were in the market for homes over the \$8,000 figure. The largest group consisted of prospective buyers in the \$8,000 to \$10,000 range. They represented 27.9 percent of the total. Houses in the \$6,000 to \$8,000 bracket attracted 24.4 percent and those in the \$10,000 to \$15,000 class 20.2 percent.

Indicative of the demand for quality materials in homes was a survey by another organization on the subject of flooring. It revealed that oak floors were more popular with homeowners than all other types of flooring combined. It has been estimated that more than 80 percent of all homes in the nation are equipped with hardwood floors, most of which are oak.

THE HOME THE TOWN BUILT

This is the home the town built.
This is the home so clean and neat
That adds so much to the looks of the street,
That makes the strangers wish that they
Could take it along when they go away,
And neighbors are glad that everyone had
A hand in the home the town built.

This is the youth with pep and vim,
Clean, honest labor looks good to him,
He is the one who owns the place
As you can see by his satisfied face,
The property stands in his own name,
To own a home is plenty of fame
And he takes part in the village biz
To hold up the value of what is his—
For this is the home the town built.

This is the maid so filled with love,
Who makes the home like heaven above,
Her work is play the whole day long,
She fills the house with happy song,
For the house is new and clean, you see
And just as convenient as it can be—
For this is the home the town built.

But what is that army that stands outside
And watches the house with looks of pride?
Why, they are the ones who helped to build
This home. No wonder with joy they're filled!
They, too, deserve their place in the sun,
For it is a wonderful thing they've done—
Constructing the home the town built.

First, the ARCHITECT drew the plan,
Then the lot was got from a REAL ESTATE man;
The LAWYER found the title was right,
And the BANKER showed the money in sight;
The LABORER dug the cellar so deep,
The MASON made the foundations to keep
The base for the BRICKMASON'S solid wall
And the Chimney above so straight and tall.
The CARPENTER bought from the LUMBER YARD
All manner of wood both soft and hard,
To make the partitions, the shelves and the doors,
The shady porch and the wide, smooth floors,
The ROOFER shingled (perhaps he finned)
And the GLAZER guarded against too much wind,
The PLUMBER saw that the water was right,
The GAS and ELECTRIC men handled the light,
The LATHER and PLASTERER covered the wall,
And the PAINTER finished the last of all;
And then, deny it if you can,
They called the INSURANCE MAN.

But these are just the ones who build,
The house is empty and must be filled,
So the rest of the town then takes a part
To prove that each has a will and a heart,
To make that house a HOME indeed—
And here is the rest of this jingly creed:
The FURNITURE man gives a table and a bed,
A chair and a carpet on which to tread,
The DRYGOODS man provides the sheets
And towels and napkins for the eats,
The CROCKERY man sets up a cup
And a plate and dish from which to sup,
The CUTLERY man then gives the tools,
Knife, fork and spoon, by fashion's rules,
The HARDWARE dealer would think it strange
If he could provide the range
Together with many a pot and pan
That a woman needs to feed a man.

These are the men, if the house is small,
Who help to build but they are not all,
If the maiden wants a PIANO to play
An ALARM CLOCK to waken her early each day,
A VACUUM CLEANER, a PICTURE FRAME,
A FRONT DOOR PLATE to hold her name,
Then others step into rank and file
To make her house a home worth while—
For this is the home the town built.

The GROCER, the BAKER, the seller of MEAT,
The MERCHANTS who handle all good things to eat,
The ICE and the MILK and the EGGS and the FOOD,
The COAL and the CLOTHES and the GAS and the WOOD,
The STOREKEEPERS handling all things she can use,
The EDITOR telling the latest news,
The PREACHER the LAWYER the DOCTOR the JUDGE,
The MOWER OF LAWNS and the MAKER OF FUDGE.

There's hardly a soul in town, you will find,
Who hasn't some sort of connection to bind
His personal profit and happiness through
His part in constructing a home just for two,
And every HOME in town is the same,
It's a wonderful work and a beautiful game,
The TOWN is the gainer as well as the pair,
For their comfort and ease make them permanent there,
And every new dwelling that opens its door
For a loving pair and their worldly store,
Makes the town worth living in that much more—
FOR THIS IS THE HOME THE TOWN BUILT.

Fish Dish Supreme! Delicious Rice Salmon Loaf

Rice Salmon Loaf

Here's a delicious main-dish that's sure to be one of the family favorites. It combines popular salmon, fluffy white rice and tasty seasonings into a luscious baked loaf that's quick and easy to make. It's a real budget-saver, too!

- Ingredients:**
 1 cup cooked rice
 1/2 cup buttered bread crumbs
 3 eggs, beaten
 1/2 teaspoon salt
 1/2 teaspoon celery salt
 1/2 teaspoon pepper
 1 tablespoon chopped onion
 1 tablespoon chopped parsley
 1 tablespoon chopped pimento
 4 cups flaked canned salmon

Combine ingredients in the order listed and place in a buttered loaf pan or ring mold. Bake in a moderate oven, 350 degrees, for 30 or 40 minutes. Turn onto a serving platter.
 Serve loaf with buttered peas and carrots or, if ring mold is used, fill the center with this complementary vegetable mixture.
 Garnish with radishes, pickles and lemon slices. Serve with cream sauce or lemon sauce.

McKENNEY ON BRIDGE

By WILLIAM B. MCKENNEY

 We all hear players say, "I never can win at bridge. I never hold any cards." Whenever I hear that remark, it brings back to memory a famous comment of the late F. Hal Sims. He said that the first lesson a beginner at contract should learn is to make good cards work for him and not wreck him.

Lesson Hand on Bidding
 N-S vul.
 South West North East
 1 Pass 2 Pass
 3 Pass 4 Pass
 5 Pass 6 Pass
 6 Double 7 N.T. Pass
 Opening—4 11

In today's hand most of the North and South pairs in a tournament arrived at a slam contract. Some pairs played the hand at six diamonds. One pair played it at six clubs for some unknown reason. Both six diamonds and six clubs made.
 At one table South got to six hearts, which West promptly doubled. That was where he made his big mistake. He knew he could defeat six hearts, because he had a heart trick and the ace of diamonds. He had bid spades, but he did not have the top of the spade suit. With the strong bidding on the part of North and South, he could expect to find the top spades in the opponents' hands. Why not be content when you can beat a slam contract in your own hand, and pass it?
 In this particular case, when West doubled six hearts, North went to six trump. It is true that if East had led a heart, the six no trump contract also would have been defeated. But East elected to lead his partner's suit. Declarer won the trick, knocked out the ace of diamonds, and claimed twelve tricks for his contract.

WE, THE WOMEN

BY RUTH MILLETT
 NEA Staff Writer

"Are you the girl your husband married?" asks a male writer in a woman's magazine.

The correct answer is supposed to be "Yes."

But don't worry if your honest answer is "No."

If you've been married even five years you're probably entirely different from the girl your husband married.

And the chances are in favor of most of the changes being a decided improvement.

What did that girl be married know about running a home, for instance? Chances are she didn't know much — but has learned a lot about the job of home-making, right on the job.

And what did she know about the man she promised to love, honor, and obey? Not very much probably. All those romantic notions she had about him had to be unlearned as little by little she came to really understand the man she married.

And what was she like herself, this just-married wife? Chances are she was completely absorbed in herself. But making a home, having and caring for children, getting along with a husband and helping him get ahead are bound to have broadened her interests.

Mrs. Mae Manning Hosts NALC Party

The NALC Christmas party was held Thursday night in the home of Mrs. Mae Manning and her daughter, Lura.
 Gifts were exchanged and refreshments of fruit cake and coffee were served.
 Present were Mrs. Dallas Culwell, Mrs. Sam Baumgardner, Mrs. Wynne Herd, Mrs. Leroy Morgan, Mrs. Carl English, Mrs. Junior McPhillips, Mrs. Edwin Blanton, Mrs. J. L. Mulanax, Mrs. Bert Stevens, Mrs. T. V. Parks and the hostesses.

Mary Martha Class Members Give Party for Families

LEFORS — (Special) — Members of the Mary Martha Sunday School Class of the First Baptist Church, Lefors, entertained their families with a holiday dinner in the recreation hall.

Mrs. Claude Lamb, W. G. Ammons, S. A. Farmer and B. T. Smith served on the social committee.

Those present were Mr. and Mrs. M. A. Hixon, Mr. and Mrs. J. C. Hull, Mr. and Mrs. S. A. Lamb, Mr. and Mrs. V. L. Hart, Mr. and Mrs. W. G. Ammons, Mr. and Mrs. Edwin Sanders, Mr. and Mrs. B. T. Smith, Mr. and Mrs. R. W. Gochour, Mr. and Mrs. C. H. Earhart, Mr. and Mrs. V. Lewis, Mr. and Mrs. J. D. Florence, Mr. and Mrs. R. B. Halley, Mr. and Mrs. R. B. Brown, Mr. and Mrs. Bud Cumberland, Mr. and Mrs. E. W. Ammons, Mr. and Mrs. Jake Leggett, Mrs. D. E. Atchley, Mrs. R. G. Holley and Mrs. Sarah Smith.

Every now and then you find a wife who, after years of marriage, is still the girl her husband married.

And she's usually a pretty silly specimen of womanhood. She is still completely absorbed in herself. But making a home, having and caring for children, getting along with a husband and helping him get ahead are bound to have broadened her interests.

She usually still clings to the idea that it is cute for a woman to be dumb and helpless. She's still the girl her husband married, when she should be a mature woman.

Tea and Shower Given as Favor For Bride-Elect

SHAMROCK — (Special) — Miss Freda Tugwell, bride-elect of Raymond Sonnenburg, was complimented with a tea and miscellaneous shower recently at the home of Mrs. Tom Morgan. Co-hostesses with Mrs. Morgan were Mrs. Travis Cantrell, Mrs. Travis Pennington, Mrs. Lee Burrell, Mrs. Paul Morgan and Mrs. Jennie Wilson.

Elaborate decorations were used. In the living room white chrysanthemums and red roses were arranged. The dining table was laid with a lace cloth and centered with silver-flecked carnations in a silver container. Fern and wedding bells, with the silver coffee service at one end of the table completed the setting.

In the receiving line were Mrs. Travis Cantrell, the honoree and her mother, Mrs. Fred Tugwell, and the mother of the bridegroom-to-be, Mrs. T. J. Sonnenburg.

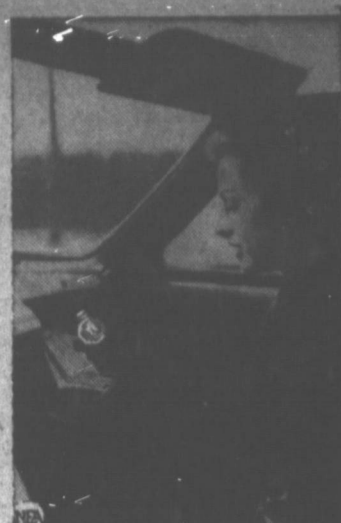

Mrs. Travis Pennington had charge of the guest register. Mrs. Jennie Wilson and Mrs. Tom Morgan poured alternately. Mrs. Paul Morgan and Mrs. Dee Burrell presided in the gift room.

Faith full-fledged soaring to the ethereal height, brings blessings infinite, and the spirit of this oration is the fruit of righteousness, — on earth peace, good will toward men.

Faith marches at the head of the army of progress. It is found beside the most refined life, the freest government, the profoundest philosophy, the noblest poetry, the purest humanity.

Gifts for Orphans Made at Meeting

Mrs. H. L. Bean was hostess to the Lillie Hundley Circle for a luncheon Wednesday. The afternoon was spent making dolls for the Mexican Orphans Home. Plans were made for a social with exchange of gifts, to follow the program on Dec. 20. The meeting will be in the home of Mrs. L. H. Musgrove.

Grand Jury to Question Gambler

DALLAS — (AP) — The Dallas News says the Tarrant County Grand Jury Friday will question gambler Herbert Noble, whose wife was killed in an underworld attempt against his life.

Noble, who says there is an underworld price of \$30,000 on his head, has lived through four attempts to kill him. His wife was killed in the fourth. A bomb wired to the starter of Noble's automobile blasted her to death last Tuesday.

The News said today that Noble will likely be questioned by the grand jury about the third attempt against his life.

This occurred near Noble's Tarrant County ranch last Sept. 8.

INFLATION

(Continued From Page 1)

It is inflationary for the government to be pouring into the public's hands \$5,500,000,000 a year more cash than it takes away from the public. That is the estimated rate of red ink spending for this fiscal year.

Another 1950 fillip will come in January when the Veterans Administration starts handing out \$2,800,000,000 in GI insurance refunds.

The real wallow may come when the steel, automobile and other industries have figured out a year more cash than it takes away from the public. That is the estimated rate of red ink spending for this fiscal year.

Another 1950 fillip will come in January when the Veterans Administration starts handing out \$2,800,000,000 in GI insurance refunds.

TEXAS

A referendum Dec. 15 on acceptance of the quotas. The Coastal Band Farm Bureau Cotton Committee in South Texas complained directly to Chairman Harold D. Cooley (D-NC) of the House Agriculture Committee. Cooley said areas faced with reductions they believed to be unfair would discuss their problems at a meeting in Memphis, Tenn., the first of this week. The South Texas group is sending farmer Truett Barber to the meeting.

At opposite ends of the state—down in the Lower Rio Grande Valley and up in the Panhandle—farmers were protesting.

The 1950 allotments for four valley counties showed that each county will plant approximately 23 to 25 percent less cotton in 1950 than in 1948 and from 32 to 50 percent less than in 1949 if growers approve the allotments.

An Amarillo News-Globe survey showed Texas Panhandle-South Plains growers would plant about one-third less cotton than they planned in 1949. Swisher County acreage was cut from 35,000 acres in 1949 to 7,319 in 1950.

side of the bandits' car, and wounding one man slightly. The Corsicana officer was not hit, although his car was pierced by several bullets.

Theford said the bandits broadcasted a state-wide radio broadcast, although there was a slight mixup in the license numbers. A Fairfield, Texas, nightwatchman spotted what he thought was the bandit car headed toward Palestine. However, the car was picked up in Dallas by city police about 2:30 a. m.

Luck had been with the desperadoes most of the way, especially in connection with the Palestine. However, the car was picked up in Dallas by city police about 2:30 a. m.

Hols said the couples were parked about two miles outside Orange when the man approached. He fired two shots into the air, ordered the couples out of the car, and said:

"I'm gonna kill every one of you."

Hulsopple, a former welterweight Golden Gloves district champion, got out of the car and struck at the man.

"Oh, you're gonna get tough," the man said. He shot Hulsopple in the stomach, but the boy kept his feet.

The man made the girls tie up the boys with belts and shoe laces.

Hulsopple chewed through the shoe laces with which his hands were tied and freed himself and Bullock.

Jordan said in a radio interview Friday night that big loads of uranium and "bomb powder" were flown to Russia in 1944 under hurry-up instructions telephoned Jordan by the late Harry Hopkins. Hopkins was a right hand man to President Roosevelt.

Jordan was stationed at Great Falls as a liaison officer between U. S. and Russian officers at the time he says atomic materials were handled through that base. Suitcases full of secret government documents, some dealing with the atomic projects, also were loaded aboard Russia-bound planes at Great Falls, Jordan said.

The Congressional Library report did not mention the so-called "postal pay lobby." Buchanan declined to say whether his committee would give early attention to this group. Its members litigiously pursued through the halls of Capitol Hill during the days the pay raise bill was under consideration and it was generally credited by House members as having been the most effective "pressure" group of 1949.

serving the eight to 24-month sentence imposed on him after his conviction two years ago, had been based on a claim of poor health, and his age.

Warden Culver was at the prison when Moore's car drove up, but neither Culver nor his assistant, D. R. Larr, appeared to meet the ex-congressman.

Culver explained:

"There'll be no favoritism shown. He's just another prisoner."

Moore had staunchly denied last night that he had received any commitment papers for his noted prisoner, saying "they might arrive" in the mail from his office in Lexington today.

May's son, Robert Vernon, a Prestonburg oil dealer, played a leading role in the ruse to elude newsmen.

He drove up to the Boyd County Court House in nearby Catlettsburg in a Cadillac sedan at about the time his father was entering the prison. Another man in the car, apparently intended to be mistaken for the former representative, made a start as if to alight.

When newsmen approached, he jumped back in the car and they drove off.

WHEELER CO. Farmer Dies

WHEELER — (Special) — P. L. Wheeler, a resident of this community about 30 years, died at his home 2 1/2 miles south of here at 9 a. m. today. Born Nov. 20, 1883, in Colbert County, Ala., Mr. Wheeler had been severely ill for a week.

He was a member of the Methodist Church for 52 years, came to Texas in 1900, but did not move to Wheeler County until 1920, where he farmed.

Services will be held tomorrow at the Methodist Church here at 2:30 p. m. with the Rev. Darris Egger officiating. Burial at the Wheeler Cemetery will be under the direction of Kirk-Mason Funeral Home.

He leaves two daughters, Misses Maggie and Beulah Ramsey, both of Wheeler; two sons, Fred of Dallas and Robert of Mobeetie; five grandchildren and three great-grandchildren. Nephews will serve as pallbearers.

Sports Round-Up

By HUGH FULLERTON, JR.

NEW YORK — (AP) — There seems to be no doubt that Louisiana State is the "upset" champ of the football season. Besides knocking off Rice, North Carolina and Tulane, the Tigers upset the Southeastern Conference rule limiting bowl participation the first season it was in effect. . . . Slamming Sammy Snead, who gets 14 bucks an hour for golf lessons, something wrong with his back a short time after he resumed teaching at White Sulphur this fall. Then he realized the ache came from bending over 700 to 1000 times a morning—tee-up—the ball for his pupils.

MATH BATH — Before Michigan State's footballers played Arizona at Tucson, Coach Biggie Munz politely remarked: "We will be satisfied with a one-point victory. . . . Arizona piled up 19 first downs to State's 16 and a total of nearly 300 yards. . . . The final score: Michigan State 75, Arizona 0. . . . What's puzzling the Arizona mathematics dept. now is why couldn't Arizona score? And with a 74-point surplus, was Biggie really satisfied?"

CLEANING THE CUFF — Bill Coffman, who's in town whooping up the Shrine East-West Game, points out that no player or coach ever received a dollar above his expense allowance and entertainment, but the Shrine Hospital has been given \$1,292,000 in 24 years. . . . Announcement from Tropical Park concerns the appointment of a "public relations representative" for the six-horse stable owned by Ralph Lowe. . . . Maybe Lowe just wants to make sure none of his nags is misquoted.

Rice Owls Victors In Cage Opener

HUNTSVILLE — (AP) — The Rice Owls whipped Sam Houston State, 74-65, to open the basketball season for both teams last night.

The Bearkats led 34-33 at the RHM, but Capt. Warren Switzer of Rice pulled his team out in front. He scored nine of his 14 points in the early minutes of the second half.

Bearkat center Dean Lloyd led all scorers with 28 points. J. D. White got 18 for Rice.

The CAMEO

By Virginia Teale

THE STORY: Two murders come to a sensational conclusion as the art colony of the Cameroons. The death of Neil O'Neill, by the name of sharp instrument that took the life of O'Neill, Charlie Reddy, a young lawyer, questions Hagar Blair and Stephanie Smith, who is really Neil's niece. Hagar says that at the time of the murder she was in the house some distance from Dallas. She has a phone call and there is a knock on the door. After Reddy leaves, Hagar carries the cameo box. In the bottom of the box are engraved numbers.

XXII

HAGAR was examining the numbers, once more considering their possible purpose, when Stephanie returned to the room.

"He's gone," she announced. "Don't worry, Hagar, everything will turn out all right, he'll look out for us. Wasn't he wonderful to bring me the cameo? She came to lean over Hagar's shoulder, "What are you looking at?"

"These numbers. See, engraved in the bottom of the box: Ten, dash, four, eight, dash, two. And, underneath, six."

Stephanie peered at them. "Are they dates, do you think?"

"Might think so, except for this six down here all by itself. Or, it could be some kind of jeweler's code. Probably nothing important, anyway." She placed the cameo flat on one of the numbers. "Pretty bloody process, getting hold of this thing—maybe it's jinxed, like the Hope diamond."

"Let me have it, Hagar. I'll try again to open it."

"If you could. Can't you remember how your mother used to open it?"

Stephanie fingered the cameo's surface. "She pressed something. There's a little spring somewhere in the frame."

"A little spring? Hagar frowned. "This gets corner all the time!"

"I seem to remember," Stephanie mused as she pressed the frame experimentally, "that one

of these pointed sections must be pushed down to spring the lock, but I've tried all 12 of them and nothing happens."

Hagar leaned back on her pillows. "I wonder why your mother wouldn't consider selling it when she knew it could mean the difference between feast and famine for her little girl?"

"My father told her never to let it out of her hands. It was their most important possession, he said, it would insure our future. Mother wouldn't part with it because she kept thinking father might still be alive."

"You don't expect him to appear, do you?"

"Oh, no. I've been sure for a long time that I'm completely alone in the world."

HAGAR grinned at her. "Except for me. And don't forget your friend, Charlie Reddy, he's very much in the picture, if I'm any judge."

"Mr. Reddy—Charlie—is very nice," Stephanie said primly. "Oh, but you'd better open up those eyes and take a better look, if that's the best you can say for him! He's smart, he has a good sense of humor, and he's perishingly handsome. Wish there'd been somebody like him camped on my trail back about 20 years ago. I wouldn't be such a dried up old prune now if there had been."

She wagged a warning finger: "Better look sharp, girl, and grab him before summertime comes along and all those long-legged bronzed blondes start parading the boardwalk!"

Stephanie's honey-brown hair tossed silkily and her blue eyes flashed.

"Charlie's intelligent; he doesn't go around admiring legs!"

Hagar glanced significantly at Stephanie's underpinnings. "Let me tell you something: If he's like most men, he won't even realize you have an intellect until he

Neville Penrose of Fort Worth, chairman of the commission, reminded the visitors that "this is an auspicious occasion because it brings the problem of good relations to an official state level."

Amarillo May Be Headquarters for Atomic Commission

SANTA FE, N. M. — (AP) — The Atomic Energy Commission may move its regional headquarters from Los Alamos, N. M., to Amarillo.

The Texas city, as well as Denver, Albuquerque and Santa Fe, are under consideration, AEC Regional Manager Carroll Tyler said.

About 1,200 AEC employes are at Los Alamos, 25 miles northwest of here. However, only about 20 of them are headquarters employes. The rest are employes in the research laboratories project.

Tyler said purpose of the shift would be to separate affairs of the headquarters operations office and the laboratories. He said he plans to decide on the new location by Jan. 15.

MAY TO SURRENDER

WASHINGTON — (AP) — Former Rep. Andrew J. May is due to surrender Monday morning to a U. S. marshal to start serving an eight-month to two-year sentence for wartime bribery and conspiracy.

A Justice Department spokesman said some confusion had arisen because a federal district judge here, where May was convicted, first set Saturday for his surrender to a marshal at Catlettsburg, Ky.

Council to Advise on Ag Teaching

WHITE DEER - (Special) - To advise with the instructor in developing a vocational agriculture program that will meet the needs of the boys of the community, an Agricultural Advisory Council for the White Deer-Skellytown schools was set up Tuesday evening at the vocational building.

This type of organization is new in this area and the closest chapter is at San Angelo, but the plan has been tried successfully in the Midwestern states. The council is made up of businessmen, farmers, the vocational agriculture instructor, and representatives from the school administration. It will meet the first Tuesday of each month to discuss the plans and problems of the agriculture department in the school and to sponsor its activities when that is advisable.

Making up the local council are Dalton Ford, president; E. C. Shuman, vice president; Edward Frix, secretary; Homer O'Neil, George Coffey, Russ Howard, J. C. Freeman, Frank Carpenter, F. E. McCoy, C. E. Terry, Ray Vineyard, and Julius Meaker, Sr.

Mercator, the man who invented the term "radio" for a book of myths, said it derived from a mythical astronomer King Atlas of Libya and not from the god Atlas, formerly supposed to support the world on his shoulders.

The Christmas Story begins for back in Faith and Vision. Christ's coming was foretold many generations before his birth.

Abraham, a remote ancestor, prophesied it. Jesus said, "Abraham rejoiced to see my day." (John 8:56.)

Ruth, who "gleaned in the field after the reapers," was the great-grandmother of King David and a Gentile ancestor of Jesus.

David, the shepherd boy who became king, was 27 generations before Christ, who was sometimes called "Prince of the House of David." Prophets spoke of a greater David, who was to come. (Matthew 1.)

Q—What is a "hardwood?"
A—It is a name in general use for trees belonging to families other than the conifers—such as the oaks, maples, hickories, and other broadleaf trees.

Q—Where was Verdi's opera Aida first performed?

A—This opera was first performed at Cairo on the 24th of December, 1871. It was not, as is generally stated, commissioned by the Khedive Ismail-Pasha for the opening of his new opera house, which had been inaugurated nearly two years previously. It was intended to be a work that should bring honor to the new theater by conferring distinction upon its repertoire.

Q—For whom was the gardenia named?

A—The gardenia was named in honor of the American botanist Alexander Garden of South Carolina.

Q—How many wooden fence posts do American farmers use?

A—They use about 500,000,000 a year.

Q—Can paper be made from tobacco?

A—Most organic plant materials can be used for the manufacture of paper, as a source of cellulose. Probably tobacco could be used in a similar way, though paper so made would not show many of the characteristics of tobacco, since the constituents responsible

"Too many grownup girls were sitting on his lap!"

for these would be removed in the manufacturing process.

Q—How did Mexico receive its name?

A—Mexico is named after "Mexitli," national war god of the Aztecs.

Q—Does the witch hazel belong to the same family as the hazel tree?

A—The witch hazel is not a

Q—Who prepared the first Indian alphabet?
A—Sequoyah, a talented Cherokee, also called George Guess, prepared the first Indian alphabet.

Williams Defends Title Tonight

PHILADELPHIA (AP) — The Williams, with everything to lose and very little to gain, defends his lightweight boxing championship tonight in a 15-rounder with Chicago's Freddy Dawson. Williams is risking his crown against a guy he already has licked twice in non-title engagements.

Some 10,000 fans are expected at Convention Hall for the 9 p.m. (CST) bell. Williams is a 2 to 1 favorite.

Radio Listener Believes His Ears

FORT WORTH (AP) — A Fort Worth radio listener got a television set for 199 berries and 50 cents. That's how Radio Station KFJZ advertised it — 199 berries and 50 cents, slang for \$199.50. Gerald Aldridge took it literally. He turned up at the Johnnie Johnson Tire Company with the berries and four bills. The startled salesman turned him down without even getting his name.

Find 'Em, Try 'Em, Deport 'Em Key to Anti-Red Fight in U.S.

(EDITOR'S NOTE: Here is the seventh of a series of 12 articles on what the U. S. is doing to fight communism. Peter Edson, NEA Washington correspondent, describes action of the Justice Department against Communists active in this country.)

By PETER EDSON

Although charges that the federal government was well-stocked with Communist and fellow-traveler employees have been frequent since the first term of Franklin Delano Roosevelt, it took a war and its backwash to drive America into doing anything specific about self-preservation.

The loyalty investigation, for example, was not launched until October, 1947. The attorney general's subversive list, intended to air in public the Communist front organization (Lenin called them the "transmission belt"), came as part of the \$20,000,000 loyalty program.

The United States has had Red spies for years, but it remained for Canada to arrest the first of them — Lieut. Igor Sergeevitch Gouzenko, who confessed to being a member of five A-bomb spy groups with headquarters in the Russian embassy at Ottawa.

But now that the country is relatively awake, it can do the needful for protection to the tune of a paraphrase: Find 'em, try 'em and deport 'em.

Here's how the government has been finding 'em:

The first temporary commission on government employee loyalty was set up by President Truman shortly after the 1946 election, largely as a result of such charges as (February, 1945) the Army had commissioned Communists and (April, 1946) the State Department had at least 108 Communists or sympathizers on its payroll. The denials in both cases staved off investigations for the time, but proved to be the ample incentive for the loyalty program.

In December, 1946, a few weeks after appointment of the first temporary commission, the U.S. Court of Appeals held that the government had every right to fire any employe of doubtful loyalty. With this test case behind him, Mr. Truman went ahead, in February, 1947, to revise Civil Service rules in such a way that Communist employes would no longer enjoy the protection of obsolete regulations.

In the following month, with the way thus paved, the President set up the loyalty program under Executive Order 9835. The order was based entirely on recommendations of the temporary commission. It called for:

1. Immediate investigation by the FBI of every government employe.
2. Establishment of a master personnel index.
3. Placing of responsibility for employe loyalty on department heads.

As of today, some 2,687,000 basic investigations have been conducted, with 13,000 cases suggesting further field work by the FBI. Of the 13,000, there have been found 102 persons ineligible for federal employment. An additional 814 withdrew applications. The grand total at the end of the year, when the investiga-

TOM CLARK

tion is expected to end, is not likely to be much greater than 1000.

In another "find 'em" sector is the attorney general's official list of subversive organizations. This came into being as a supplement to the loyalty check. It called for scanning six categories: totalitarian, fascist, communist, subversive, advocates of acts of force and violence to deny others their Constitutional rights, and advocates of government alteration by other than Constitutional means.

Under Attorney General Tom Clark, the Justice Department totted up a total of more than 100 subversive organizations. These ranged from the villain of the piece, the Communist Party, U. S. A., through the Trotskyists (Social Workers Party), the Soviet friendship blocs (of which there are at least four), the friends of the Spanish Republicans (roughly 10 groups), to the fronts working ostensibly for peace.

It is neither possible nor necessary to list every one of these subversive front organizations here. Such listing, unless undertaken on the exhaustive scale of the Justice Department, would be pretty futile anyway. Most of the older fronts have gone through several names and have changed their coats as the political temperature varied. Underneath they all come to the same thing — Nicolai Lenin's statement: "The dictatorship of the proletariat cannot be effectively realized without 'belts' to transmit power from the vanguard classes and from the advanced class to the mass of those below."

Next: What the churches, schools and colleges are doing to fight communism.

general's 100-plus figure alarms you, give an ear to the 1948 inventory of the Un-American Affairs Committee: 562 front organizations publishing at least 190 organs.

The "try 'em" phase of government strategy against communism may be bypassed with a simple reference to the matters still fresh in the public memory: The trials of Judith Coplon and Alger Hiss, Whittaker Chambers' "pumpkin papers," the 11 top Communists in New York. If there is any flaw in this aspect of the campaign it is in the lean-over backward effort to give the defendants the fairest of all possible shakes—as witness Judge Harold A. Medina's patience in New York, over nine weary, ear-shattering months, and the admission into evidence at Judy Coplon's trial of secret items found in her purse, over the government's protest that their publication might endanger national security.

Now, having drawn a pretty picture of some skillful maneuverings on the battleground, you come again—and it seems inevitably, in dealings with the Communists — to the bog-down. This is in the third, or "deport 'em" phase, of the government's program.

As of January, 1949, the Justice Department had some 800 alien Communists it wanted to deport. But because of weaknesses in the law, a niggardly Immigration Service appropriation, and the absolute discipline of the Soviet regime abroad, nothing much could be done about them.

The Justice Department needs the Hobbs Bill, which would permit holding alien subversives in custody until they are deported. But opponents call this establishment of "concentration camps in peace-time." The Immigration Service is supposed to operate on an appropriation of \$27,000,000, with which to maintain 7000 employes and patrol 8000 miles of border. Finally, the Soviet refuses to accept a deported person unless the U.S. government can prove he was a Russian resident before the revolution of 1917, and the Iron Curtain satellite countries have taken a similar stand.

The U.S. still has a corps of professional revolutionists, known to the officials to be so dangerous that nothing but deportation will nullify their threat. But this comes up against a bland refusal from Joe Stalin's countries to accept them. And finally there is a squeamishness which says, "To put these men in custody would be to destroy the Bill of Rights."

What it all adds up to is a fact made more self-evident every day the war against the Communists goes on — the Constitution, while it is America's bulwark, is also its Achilles Heel.

WE'RE SORRY

Many of our friends have found their grocers "sold out" of Holsum Bread, during the past week, since the announcement that it is now half-a-day fresher. The increased demand for this fresher bread exceeded our expectations. We are making every effort to provide all dealers with an adequate supply. HOWEVER, we try to put in each store ONLY ENOUGH TO MEET THE DEMAND. We will not stack in surplus bread for display purposes, because we want the loaf YOU get to be really half-a-day fresher.

NEWMAN'S HOLSUM ENRICHED BREAD

Don't Look for the Largest Stack. Look for the Bread that's 1/2 Day FRESHER.
