Plane Crash Deaths Make Texas Toll 51

By The Associated Press Two deaths in a Lubbock plane crash early Monday brought Texas' holiday violent death toll to 51.

Toll in U.S. Falls Short Of Estimate

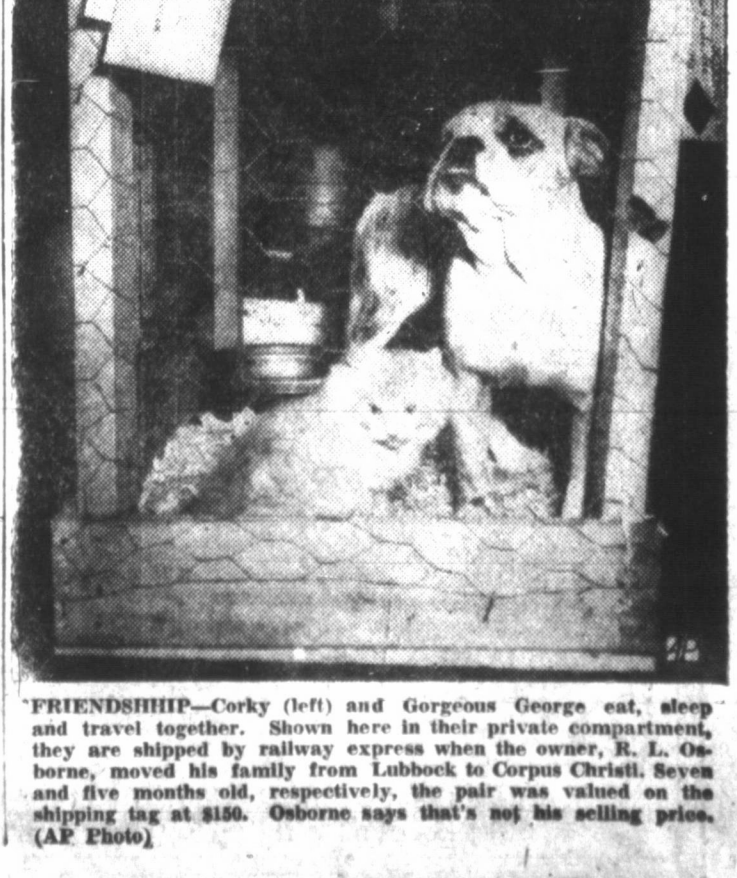

(By The Associated Press) The nation apparently took to heart advice that caution and care would be rewarded in the new year.

Jan. 1 Quiet For Officers

All was quiet on the Pampa front during the first day of 1950, and the law enforcement officers and firemen were able to celebrate Sunday as it should be.

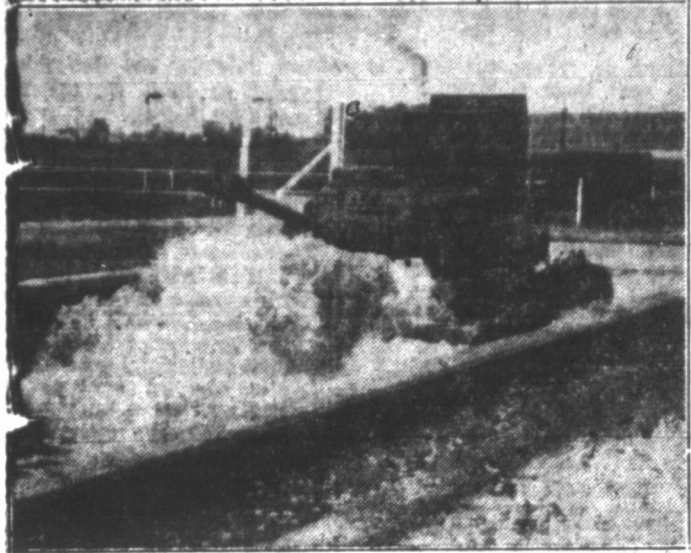

Gift Is Offered Baylor University

WACO—(P)—A \$100,000 gift has been offered Baylor University toward construction of the Tidwell Bible Building on the university's campus.

FRIENDSHIP—Corky (left) and Gorgeous George eat, sleep and travel together. Shown here in their private compartment, they are shipped by railway express when the owner, R. L. Osborne, moved his family from Lubbock to Corpus Christi. Seven and five months old, respectively, the pair was valued on the shipping tag at \$120. Osborne says that's not his selling price. (AP Photo)

Organized Labor Has Full, Busy Year During 1949

SATURDAY NIGHT FOR THIS TANK—At the Army's Aberdeen Proving Ground this M-26 (Patton Tank) gets a thorough bath to test the waterproofing of engines and the sealing of hatches to hold out water. It plunges in with its fording device, demonstrating how deep streams may be crossed. (Department of Defense photo).

So closely related are the two people move faster in cold languages that natives of New Zealand find it possible to talk with natives of Hawaii on meeting.

WASHINGTON (AP)—Organized labor had a full and busy year in 1949. It scored some major victories. But it also took it on the nose. High among the victories were labor's pension and welfare improvements won after some costly strikes, the CIO's purge of Communists, and the new 75-cent minimum wage. Its biggest defeat was a political one, its failure to put over the Taft-Hartley law repeal drive. There was no big round of pay boosts as in the earlier postwar years. Wage increases were small and spread around fairly thin. Labor unions still were testing the political strength they discovered in supporting President Truman in 1948. This encouraged them to make even bigger political plans for 1950. Strike idleness in 1949 ran about a fourth higher than in 1947. It was about three times the prewar average. But it was far less than the biggest strike year of 1946. The year's worst labor crisis came in October and November with the twin coal and steel strikes. A board named by President Truman furnished the basis for

the steel settlement. It recommended against any wage increase but suggested an employer-financed pension and insurance program for steelworkers. This formula was adapted to many other industries as labor contract settlements. But the steel industry and Philip Murray, head of the CIO and the steelworkers, were unable to agree on the board plan. Murray called a strike Oct. 1. Finally, on Oct. 31, one of the steel industry's major producers, Bethlehem, signed up. One by one other steel companies did the same. The steel settlement called for \$100 monthly pensions for workers reaching age 65 with 25 years service. Steel firms agreed to pay the balance between the \$100 minimum amount and a worker's government social security payments. Workers and employers agreed to share costs of a sickness and death insurance plan. The coal strike lasted 82 days. John L. Lewis, leader of the miners' union, had called two shorter strikes earlier in the year. They were all maneuvers in Lewis' attempt to wrangle a new contract from coal operators. This dispute continued as the year draws to a close. Lewis wanted a wage boost and a bigger welfare fund. This dispute over old-age pensions prompted steps in Congress

LAST WORD IN AIR-BORNE LIFEBOATS—This new lifeboat, designed to be carried by airplane and dropped by parachute in air-sea rescue operations, would have been in handy during the search for the B-29 that crashed near Bermuda recently. Largest and most completely equipped craft of its kind, the A-3 is nearly 30 feet long and weighs a ton and a half. It has a four-cylinder motor and carries fuel enough to cruise 500 miles. It stocks food and clothing for 15.

to improve retirement benefits under federal social security. A bill to do this sailed through the House with only a handful of dissenting votes. It will be one of the first things the Senate will take up in the new year.

EARLY HEMP ROPE—One of the earliest recorded uses of hemp for a ship's rope was on the famous galley Syracuse, built about 220 B.C. for Hiero under the supervision of Archimedes.

Texas Conference Resumes Action (By The Associated Press) Four games are on tap this week as Texas Conference basketball teams resume play after a layoff for Christmas holidays. McMurry opens the schedule tomorrow night by meeting Texas Wesleyan in a nonconference game at Fort Worth. Texas Wesleyan also plays Howard Payne Thursday night and Abilene Christian Saturday night. McMurry meets Eastern New Mexico at Portales, N.M., Saturday night. Last week McMurry lost its ninth straight game, to East Texas Baptist, 64-41. Howard Payne and ACC competed in the Sunshine Basketball Tournament at Portales. ACC beat Central, Okla. State, 41-40, then lost to New Mexico Western, 50-43, and to Eastern New Mexico, 55-51. Howard Payne dropped three

McLean

McLEAN — (Special) — Mr. and Mrs. G. W. Keller and family of Colorado Springs, Colo., visited her mother, Mrs. W. E. Kennedy, during the holidays. The Kellers are former McLean and Pampa residents.

Hereford Raisers Set Show Date

PERRYTON — (Special) — The North Plains Hereford Breeders Association will hold its fourth annual show and sale Feb. 6 and 7 in the Ochiltree County Barn on N. Main. To date, 58 Herefords have been listed for the main show and 28 head have been registered for the 4-H livestock show to be held in conjunction with it, County Agent Hood Willis said. Walter Britton of College Station, who has appeared in Perryton twice as auctioneer, will again serve in that capacity.

Traffic Increases on Shamrock Highway

SHAMROCK — (Special) — To Shamrock residents, the outstanding information given in the monthly report of the State Highway Planning Survey, is the increase of traffic over U. S. Highway 83. The survey shows that 2,744 vehicles traveled Highway 66 during November, an increase of 26.1 percent over November, 1948. During the same period, 2,001 vehicles traveled Highway 83, an increase of 33.5 percent over last year.

An Alaska sealskin is so light and pliable that an entire pelt can be passed through a napkin ring.

Average wage for the entire oil industry has risen from 63 cents an hour in 1939 to \$1.40 an hour in 1949.

CofC Banquet Date Is Set

PERRYTON — (Special) — The annual Ochiltree County Chamber of Commerce banquet and installation of new officers will be held Jan. 25. John Ben Sheppard, attorney of Gladewater and former president of the National Junior Chamber of Commerce, will be the principal speaker. The banquet will be held in the Perryton Hotel Coffee Shop. The new president and vice president will be named by the directors soon after Jan. 3.

City Building Get Paint Job

McLEAN — (Special) — Painting of the interior of the new city building in the City Park will begin this week under the supervision of C. Bjerg, local interior decorator, Guy Beasley, councilman in charge of the project, said. Bjerg has volunteered his services as supervisor of the painting and will make no charge. He will be in charge of the color scheme and the blending of the paints, Beasley said. The exterior work is nearing completion, and some of the flooring inside was installed last week. No decision on the seats has yet been reached, Beasley said.

New Chevrolet Showing Jan. 7

DETROIT — (AP) — Chevrolet will introduce its new 1950 model automobiles publicly on Jan. 7 with automatic transmissions as optional equipment. Announcing this W. E. Fish, general sales manager, said promotion of the new models will be the most widespread in Chevrolet history.

Pig Production Below Average

AUSTIN — (AP) — The number of new pigs rooting around in Texas last year totalled 2,362,000, the U.S. Department of Agriculture reported. The pig crop was 1 percent less than last year's and 11 percent below the 10-year (1938-47) average. Approximately 61.2 percent of all business and property taxes paid in 1948 to the Texas state government, \$111,676,043, was paid by the petroleum industry.

Skellytown

SKELLYTOWN — (Special) — The Rev. and Mrs. Gerald Benright and infant son are visiting her parents, Mr. and Mrs. G. T. Studebaker. Carl Moran is recovering from an appendectomy performed recently. Mr. and Mrs. F. C. Washburn and daughter, formerly of Skellytown, now live in Pampa. Mrs. Era Kibler of McLean visited her daughter, Orma Harlan, Sunday. Clara Brown has returned from a visit with relatives in Oklahoma. Mr. and Mrs. W. J. Houghton, Jr., visited his mother in Oklahoma over the weekend.

URBAN AREAS GROWING

The first United States census in 1790 revealed that only five percent of the population lived in cities; today, cities claim 60 percent of all people.

Dozen Bowl Games Today Take Over Sports Spotlight; Rain Expected

Air Power of San Jose Too Much for Tech

FRESNO, Calif. — (AP) — Pass superiority spelled the difference in San Jose State College's 20 to 13 victory over Texas Tech in the fifth annual Raisin Bowl football game.

The Red Raiders from Lubbock, led a heavy margin against the visiting 289 yards to 155 for the Spartans. But via air, the story was different.

San Jose completed ten passes in 17 heaves for 139 yards. Tech connected only four times in 12 tries, for 88 yards. The Red Raiders grabbed three Spartan passes and the Californians intercepted on Tech aerial.

The 10,000 fans who sat shivering in the fog here Saturday saw two teams fight to the final run. The contest provided money for the San Joaquin Valley Children's Hospital Fund.

It was an even match the first half. Texas Tech scored a first quarter touchdown and San Jose came back with one in the second period. The halftime score was 7-7.

The Spartans added 13 points in the third period and the Red Raiders 6. The final quarter was scoreless.

Texas Tech's first period touchdown was scored by halfback Tim Hatch from the half-yard line after a 34-yard march. Hatch converted.

The Red Raider's third period score was the thrill-run of the day — a 76-yard sprint by halfback Ike Stuber.

San Jose's second quarter touchdown came on a 34-yard pass.

Sports Round-Up

By HUGH FULLERTON, JR. NEW YORK — (AP) — Part two of the Vadal Paterson report on sports in Brazil:

One reason for the popularity of basketball, says the Utah coach, is that Brazil's one big sport up to a few years ago was soccer football. "Now," he says, "they have found a game they can play with their hands instead of their feet. . . they're eager to learn about American sports, but they're very suspicious of Yankees."

THE BOOTER PART OF VALOR

The soccer players, Peterson explains, have learned how to take care of violent fan reactions. "We were at one game in Rio," says Vadal, "when a player had the ball out of bounds. . . I would just see some object shining in the sun as it flew out of the stands and knocked him. . . His ten teammates gathered round and we could see them pointing up into the stands. . . As they stood there trying to locate the thrower, the crowd began opening up like a big V. Then the players started jumping into the stands and the V widened out as they climbed. . . they went up to where the boy was and really took him apart; then they dragged him down on the field and beat him some more. . . Finally about 50 police came out and salvaged the remains and the players went on with the game. . . They're building a new football stadium there which will seat 100,000. . . And they're going to have a 25-foot mast filled with water between the field and the stands."

Dick Wakefield of the Detroit Tigers was the last major league rookie to get a hit in his first season—he got him in 1913.

All I know is that when you get it together, it should be a Thirty-Six Super Deluxe!

You've got an awful wreck there, mister—but if anybody can fix it, we can. Whether it's a leak in your tire or a major repair job, you'll find super service and know-how at Coffey Pontiac Co.

Joe Louis May Be Forced to Fight Again for Heavy Title

By FRANK ECK

AP Newsfeature Sports Editor NEW YORK — Joe Louis is giving a good example of how to lose friends and discourage heavyweights from taking up boxing as a career.

The Brown Bomber, who made friends wherever he fought during his 12-year reign as world's heavyweight boxing champion, now has come to the point where he is scoring knockouts in exhibition bouts. And the fellows being knocked out are some of his old friends, the sparring partners who helped keep him in shape when he ruled the roost.

Louis is fighting only because he needs ready cash. Though his share of purses in 16 championship fights amounted to \$2,668,112, the feeling all around is that he never got to keep much of it. Recently he had a \$7,000 tax lien hanging over his head. With exhibition bouts bringing him roughly \$5,000 a match, even a \$57,000 is a pretty penny to gather together.

Last March, Louis wound up a five-month tour which netted him \$210,000 in 41 bouts. His showing was a high point in his career. South, Cuba, the Dutch West Indies and even to far off Manila. Then the tax lien came to light. Last October, he said money lured him back on the exhibition circuit. Thus he began another tour that was reminiscent of his "Bum of the Month Club" during his rise to the title in 1937. Only this time it was bum of the week. In the final three months of 1949, Louis boxed close to 90 rounds, giving him a total of more than 165 rounds in some bouts during 1949.

As a result of his two five-round bouts in Detroit, Michigan has put a ban on boxing exhibitions. If the fans tire of seeing Louis exhibit, the man who held the title longer than any heavyweight in history may be forced to return to real action for a crack at the crown now held by Ezzard Charles.

Surely, Louis isn't fighting because he likes it. The task of

Five of Top Elevens See Bowl Action

NEW YORK — (AP) — Five of the top ten college football teams of 1949 seek to add lustre to their national standing today on far-flung, rain-menaced bowl battle fronts.

Clouds hovered over the bowl zone from Honolulu in the mid-Pacific to the tip of Florida, with showers threatened for eight of the 12 post-season extravaganzas.

The odds-makers followed the Associated Press rankings right down the line in establishing Oklahoma, California, Rice and Kentucky favorites in the four headline attractions.

Of these, only Kentucky didn't place in the first ten, missing out by a gap. Oklahoma and California were picked over Texas who also rated the select bracket in the final AP poll.

Here's how the four big games were figured:

Oklahoma, ranked second behind Notre Dame, an eight-point favorite over Louisiana State, No. 9, in the Sugar Bowl at New Orleans.

California, No. 3, six points over Ohio State, No. 6, in the Rose Bowl at Pasadena, Calif.

Rice, No. 5, seven and a half points over North Carolina, No. 16, in the Cotton Bowl at Dallas.

Kentucky, No. 11, five and a half points over Santa Clara, No. 15, in the Orange Bowl at Miami.

The only reversal of 1948 form is seen for the Gator Bowl at Jacksonville, Fla., where Missouri, 20th in the standing, rates a one-point edge over Maryland, No. 14, in fluctuating odds.

Georgetown and Texas Western meet in the Sun Bowl at El Paso with the Washington, D. C. Hoyas slightly favored.

Completing this day's activities were the Sugar Bowl at Tampa, Fla. (Wofford vs. Florida State), Pineapple Bowl at Honolulu (Stanford vs. Hawaii), Tangerine Bowl at Orlando, Fla. (Emory and Henry vs. St. Vincent, Pa.), Oleander Bowl at Galveston, (McMurry vs. Missouri Valley), Salad Bowl at Phoenix, Ariz. (Arizona State vs. Xavier, Ohio), Prairie View Bowl at Houston (Prisk vs. Prairie View).

Several Pampa golfers entered the annual Eskimo Open Golf Tournament at Amarillo yesterday and came through the first day's play in fine shape. The tourney is being staged over the Ross Rogers course, and on the opening day the weatherman contributed exceptionally fine weather. So good, in fact, that a new entry record was established as 150 golfers tried their skill.

Harry DeLashmutt, Amarillo, paced the first day's shooters with a 69. Tied with him is Bill Jensen, also of Amarillo, who carded a 72, but with a four stroke handicap drew into a tie. In third place in the Class A golfers was Glenn Johnson, of Pampa, who carded a 73.

Local Golfers Fare Well in Eskimo Meet

In Class B, Grover Austin, Sr. of Pampa, was third with a fine round of 82-14-68, one stroke of the pacesetter, Max Humphreys of Amarillo.

Among the pros, Johnny Austin, also of Pampa, was second to host professional Dick Turner. Turner posted a 70 over his own course. Austin had a 74.

The tournament was scheduled to finish today, running two days this year because of the Sunday holiday.

Other Pampa golfers who participated in tournament were Lefty Cox and Tommy and Jack, D. T. Adkins, Charles Austin and Cletus Mitchell. Three other Pampa golfers went over today. They were DeLa Vicars, Dallas Bowsher and Sam Sloane. Some other Pampa contestants may enter today.

Doak Unsure Of Future in Grid Game

DALLAS — (AP) — The deep disappointment and anguish of winding up one of football's greatest careers on the bench — not being able to play against the team you always had dreamed of playing against — came to Doak Walker in 1949.

Poignantly, he tells about it today in the final chapter of his life story, a copyrighted feature in the Dallas Times Herald.

The football campaign of 1949 was one of injury, illness and keen regret for the golden boy of Southern Methodist University. But even with that he made all-America on every team except the one he personally asked to be left off.

In a gesture of sportsmanship for which the Doaker always was noted, he wrote Goller's magazine and asked not to be included on its all-America team. He said he felt unworthy of it since "I hadn't gotten to play the full season because of my illness and my leg injury, but nevertheless was naturally proud and grateful."

About his future: Walker doesn't know whether he will play professional football, coach or what. His status is uncertain in pro football at this time. He is being courted by Detroit and Cleveland when they were in different leagues. They now are in the same circuit.

But Walker says he does know that he would like to stay close to the game of football in some capacity. In losing he makes this observation: "If a boy can stand the knocks on the football field you can be pretty sure that he can take them most anywhere else."

New Sugar Bowl Track Marks Set

NEW ORLEANS — (AP) — Four new Sugar Bowl track records were entered in the annual invitational meet here yesterday. William Fleming of Notre Dame, broke the Sugar Bowl mark in his 120-yard high hurdles run in 33.9, four-tenths of a second off the old mark.

The Oklahoma Aggie mile relay team snapped the Sugar record with a 3:26.4 race. Pat Bowers of Kansas, broke the record at 1:43.0 in a half mile run.

Charlie Peters, an Indiana University student, covered 100 yards in 9.8 to shatter the 1939 mark. The summary included: 100-yard dash — Charlie Peters, unattached, Indiana; second, Charlie Parker, Texas. Half mile run — Pat Bowers, Kansas; second Ray Holbrook, unattached, Texas Aggie. Mile relay — Oklahoma Aggies; second, Texas Aggies.

The 20,046 persons who watched the Washington Capitals play the Chicago Stags at Chicago in 1949, made up the largest crowd ever to see a pro basketball game.

PAGE 4 PAMPA NEWS, MONDAY JANUARY 2, 1950

SWC Cagers Open Season This Week

(By The Associated Press) Championship play starts this week for Southwest Conference basketball teams and you can name your own favorite.

The Conference moves into title competition with a sad record against intersectional opposition. Last week the circuit had its best showing against outside opposition. It won six games and lost nine. Three conference games are set Wednesday, Rice vs. Texas Christian at Houston; Texas A&M vs. Southern Methodist at College Station, and Arkansas vs. Texas at Fayetteville.

Two more are on tap Thursday, Rice vs. Southern Methodist at Houston and Texas A&M vs. Texas Christian at College Station. The sixth "for keeps" game is Saturday night and matches Texas and Baylor at Waco.

Baylor lost to Oklahoma City University in the All-College Tournament, 43-32, but beat Vanderbilt, 61-50, in the Sugar Bowl meet. The Cotton Bowl meet the Bears bowed to St. Louis, 58-30. SMU lost to Navy, 53-50, in the Rice Bowl Tournament.

Rice meets Pepperdine of Los Angeles tonight at Houston and Arkansas, plays Kentucky at Little Rock to open the week's schedule.

Scores last week included: Oklahoma City U. 43, Baylor 35; Arkansas 41, Alabama 33; Wyoming 44, Texas 35; Wyoming 40, Arkansas 26; Texas 45, Alabama 41; Baylor 61, Vanderbilt 53; Texas 49, Baylor 41; Oklahoma A&M 57, Arkansas 48; Texas Christian 54, Wichita 42; Rice 72, Wichita 69; St. Louis 58, Baylor 50; Navy 53, SMU 50; Stanford 55, Texas A&M 49; SMU 61, Baylor 37; Texas Christian 48, North Texas State 43.

Towering Buffs Take Third in Sun Carnival

EL PASO — (AP) — West Texas State's towering Buffs grabbed third place in the Sun Carnival Basketball Tournament Saturday night, running over New Mexico University, 63-46.

West Texas State held a 39-26 halftime lead. Hubert Kitchens' 16 points was high for individual scorers, while teammate Bill Allen got 13. John Leonard topped New Mexico scorers with ten.

Lin Bend of the St. Paul Saints of the U. S. Hockey League is cousin of Bryan Hextall, one of the New York Rangers' former great stars.

Harvesters Battle Blackhawks At Jr. High Gym Tomorrow

Gallemore Is Named on All-Tourney

BROWNWOOD — (Special) — Polytech of Fort Worth won the seventh annual Howard Payne College Basketball Tournament here Saturday night defeating Port Arthur 47-43.

Port Arthur led 24-22 at the half. Kerrville took the consolation title winning 30-18 over Brownwood.

The Pampa Harvesters placed one man on the all-tournament team. He was James Gallemore, a foot 3 inch center, who led the Harvesters through most of the game. Another Harvesters player, Jimmy Howard, nearly repeated his all-tournament selection of last year, but was two votes shy.

Other players named on the all-star squad were James Bellow and Harvey Wisenbaker of Port Arthur; Charles Boston and Robert McCulloch of Polytechnic; Clifford Rowland of San Angelo; James Howard of Big Spring; Morris Stone of Kerrville; Doyle Brunson of Sweetwater and Tommy Stratsburger of Temple.

James Blake of Brownwood was the single game high scorer of the tournament, canning 24 points against San Angelo. Bellow and Boston were tied for total high scorer of the tournament, both getting 51 points in the four games their teams played. Blake was right behind them with 50 points. He was held to one point in the final game.

All coaches and fans and school representatives were of the opinion that the tournament was one of the finest they had ever seen, with excellent completion and good officiating. In all probability the Harvesters will return again next season to try and regain their crown toppled by the fine Polytechnic team from Fort Worth.

Kyle Rote Honored By Sportswriters

DALLAS — (AP) — Kyle Rote, Southern Methodist's smashing halfback, was named "Southwesterner of the Year" today by the Texas Sports Writers Association.

Rote, who led the Southwest Conference in rushing, punting and number of touchdowns scored, was picked for his great showing against Notre Dame and for the prestige he brought to the Southwest.

In the Notre Dame game, Rote scored three of his 12 touchdowns. For the season, he gained 777 yards and had a punting average of 44.4 yards.

The Association also selected "coach of the year" for seven other athletic divisions.

Jess Neely, football coach at Rice, was named Southwest Conference Coach of the Year, nosing out Bob Woodruff, football coach at Baylor.

Wilford Moore, football coach at McMurry, beat out Ray Morrison, football coach at Austin College, for Texas Conference Coach of the Year.

Others honored were: Gulf Coast Conference — Billy Stamps, football coach at Hardin College; Lone Star Conference — Bob Berry, football coach at East Texas State; Border Conference — Frank Kimbrough, football coach at West Texas State; Southwestern Junior College Conference — Floyd Wagstaff, football coach at Tyler Junior College; Texas Junior College Conference — Jack Coats, Odessa Junior College football coach; South Texas Junior College Conference — Johnny Frankie, football coach at Wharton Junior College; Texas High Schools — Joe Golding, football coach at Wichita Falls, in a close race with Johnny Kitchens, football coach at Austin High Schools; and Tom Tipps, football coach at Pampa.

John Burnett of the Cleveland Indians collected nine hits in 11 times at bat in a 1932 game — the major league record.

TOPPLING TEN PINS . . . No. 3 It's Safer, No Strain to Pick Up Ball With Fingers at Sides

Third of a series written and illustrated for NEA Service.

By VAL MIKIEL
Bowlerette-of-the-Year

Pick up the ball with the fingers at its sides, not in the finger holes, where a lift would strain them.

With the fingers at the sides, there is no danger of another ball striking and injuring them. Note in the accompanying photograph that I hold my shoulders straight, bend the knees slightly, the proper lifting method, without a semblance of tiring strain.

Experts will see to it that you have a properly fitting ball. Its weight should be determined on the basis of how often one bowls. A feminine novice, for instance, bowling only once or twice a week, would probably find a ball weighing more than 14 1/2 pounds difficult to control.

As to whether a heavier ball gets more pins, the answer is that control is the thing. If you cannot control a heavier ball you should not attempt it.

Never attempt to bowl without bowling shoes, created especially for this sport.

One sole is constructed of leather so that the bowler may end his or her approach with a smooth slide matching the swing of the ball. The other sole is fashioned of rubber to permit halting of the forward motion of the body at completion of the delivery.

Shoes should fit you comfortably so that one feels perfectly relaxed while walking in them.

NEXT: Starting stance.

PICK UP—Val Mikiel's fingers are at the sides, not in the holes, where a lift would strain them.

SPORTS AFIELD

By TED KESTING

The ability to recognize and read sign of the red fox is the most effective method of learning about that elusive animal, and it's exciting sport, too.

Outdoor hawkhounds find sign reading more challenging when the snow is gone. Tracks may appear on most any ground surface free of vegetation, especially when the soil has been softened by rain or thaw.

The oval shape and the unusually small toe pads are distinctive characteristics reflected in the track. The mark of the heel pad does not project forward between the outermost toe prints as in the dog track, and the furry nature of the foot may be seen on a good tracking surface. The largest track of a forefoot that I have found measured 2.8 inches long and 1.8 inches wide. The track of a hind foot is always smaller, and the mark of the heel pad is about half as wide as that of a forefoot.

The track arrangements for the different gaits are similar to those of the domestic dog, except in walking or trotting the tracks of the fox are in an almost straight line.

Naturalist Tom Scott suggests that when studying fox sign, you learn to identify the sharp, penetrating odor of fox scent. Their droppings are also good sign. Typical droppings are usually in two to four segments, but there may be as many as nine.

Sign may be seen where the fox beds down. The bed may be

WARREN'S WARMUP

By Warren Haase—News Sports Editor

QUESTION: What was the most decisive basketball triumph in the history of the University of Texas?

YESTERDAY WE HAD A LENGTHY FLASHBACK AT THE 1949 sports scene locally and nationally. Today let's take time out to see what is in store for the local sports fans for 1950 in the world of basketball, baseball, boxing, football and golf. The first one we'll look at is basketball, the season being with us now.

Basketball, locally, is centered entirely around the Pampa Harvesters. There are several independent clubs but failure to play in an organized league and a haphazard schedule reduces the interest in them. The Harvesters this season don't appear to be up to par with the squads of the past two years. So far they have played seven games, losing two. Tomorrow night they will seek their sixth victory at the expense of the Phillips Blackhaws.

Two players have paced the Green and Gold so far. They are James Gallemore and Jimmy Howard, the two returning veterans from last season's "Time Team." District play starts on Jan. 12, with the Borger Bulldogs the first competition for the Harvesters. The Bulldogs are expected to be the class of the district, although the Amarillo Sandstrom, under the guiding eye of crafty T. G. Hull, probably will be the team to beat for the crown. The Harvesters will know after the Borger game how their chances of taking the district crown stack up.

Last season's district titlist, the Lubbock Westers, are now playing in a different district, leaving but Pampa, Amarillo, Borger and Plainview to battle for their relinquished crown. Plainview is already being discounted as a possible threat. The race appears to be three-cornered, with Amarillo the favorite of this writer to take the championship. Boxing appears to be on the way out. Wrestling disappeared this season also. Jim Arndt, local head of the Golden Gloves, said that there would apparently be no boxing activity for the local fans this season, or next, or next, or next, until some building is either erected or found or moved in that will handle the activity. The only one that was anywhere near suitable for the sport, the Sportatorium, has been transformed into a church. So until another location can be found or built there will be no local boxing or wrestling.

Baseball, which is with us the longest of any sport, should be improved over last season. At least it couldn't be much worse. Owner R. L. Edmondson has stated that he plans to make some changes in the park for the aid of the fans. He announced plans for improvement of the rest room facilities and also of the loud speaker. Outside of those two things the fans are probably treated the best in Pampa of any city in the West Texas-New Mexico League. Pampa has as fine a park and grandstand as anywhere in the league. Now all it needs is the ball club.

Edmondson has already started to renovate last year's team, shipping a couple of boys off and obtaining some new men. The team at the present lines up with the two new draftees filling out the infield along with Richardson and Velasquez. The outfield is pretty well set with Matney, Enzel and Bob Ferguson, obtained from Borger. Jim Martin will be behind the plate. The pitching staff needs help, which may be forthcoming from some of the rookies or from a couple of other boys whom Edmondson is trying to purchase.

So far, Grover Seitz hasn't been rehired as field manager, but probably will be inside of the next month. The Oilers plan to open spring training about the middle of March, perhaps going into Oklahoma for the first phases of work in order to obtain better weather.

Edmondson also has planned to add a couple of wings onto the press box to ease the radio broadcasting situation. The additional

Little Scatback Is Titled 'Bob Hope of SMU'

DALLAS — (AP) — The football season is over but they're still talking and will do so far into the winter about little Johnny Champion, the Bob Hope of Southern Methodist University.

Johnny has another season of football on the horizon. Great things are predicted for the guy they call Johnny Super-Mouse and Toy Bulldog.

Champion is the fellow Leon Hart, Notre Dame's all-America end, said was the "fastest guy I ever saw."

Johnny caught six passes for 117 yards against the Fighting Irish.

He can lay you in the aisle with his story of meeting up

with Hart. Johnny, who is five-foot-four and weighs 165, being built along the lines of a miniature tank, was supposed to block Hart six-foot-four and weighing 260.

"All I could do was hatch his foot," relates Champion. "Down he went. And you know he came up to me and said: 'If you do that again I'm going to tell the referee on you.' I answered with a hurt look: 'Oh, no; you wouldn't do that.'"

Johnny admitted that he might have been holding on the play though.

He said he once "got tangled up in Hart's shoe laces." "You see," he explained, "I just reached to his knees."

COURT patterns

Simple Scissors Used by Cann Causes Trouble for NYU's Foes

By HOWARD CANN
New York University Coach

NEW YORK — (NEA) — Any time you have two men crossing in opposite directions, a simple scissors worked often by New York University causes trouble.

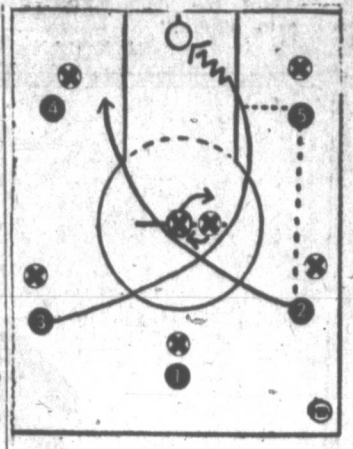

A 2-on-1 situation is created, with a man breaking behind his teammate while the defensive men are attempting to switch. Player 2, in the accompanying diagram, passes in to 5.

Howard Cann, then breaks across the middle of the court, in position to receive a return pass. With proper timing, 3 breaks toward the middle so that he will cross behind 2, using the latter as a screen.

While the two defensive men are switching, 3 usually can go in free, take a pass from 5 under the basket.

In addition to the shooter, 2 and 5 are in good rebound position, while 1 stays back for defensive balance.

Loony Larcenists Stole Crane, 'Gators, Golf Green

By M. G. PATTINGTON
NEA Correspondent

The looniest larcenists of 1949 are the anonymous looters who lifted a putting green right out of a country club.

They left the hole when they rolled up the No. 1 green at Warren Valley Golf Club in Detroit, but they got away with every last blade of grass.

Also in the hole for the year's loony larceny roundup were two men in Louisville, Ky., who were found hauling a manhole cover in a stolen wagon. It took six policemen to lift the cover and they never did find out how two men got it in the wagon or where the manhole was that the cover came from.

There were, apparently, some highly choosy burglars on the loose in '49. One guy cracked into a parked car in Providence, R. I., and walked off with 12 shrouds belonging to a casket salesman. Another had swiped 23 alligators from an Ocala, Fla., menagerie.

Then there was the Philadelphia man who was arrested and charged with stealing a 20-ton crane. In Phoenix, Ariz., somebody stole a sign reading "Dog For Sale," which was, apparently, just what he'd always wanted; he went back and got the dog the next night.

Besides doing some heavy sleuthing, the cops were on the receiving end a few times this year. In Detroit, one policeman was accused of lifting his fellow officers' lunches. In Tokyo, a discharged cop stole clothing and approximately \$100 from police headquarters. And a candidate for sheriff in Indianapolis was sentenced to two years for doing his campaigning in a stolen auto.

Among the odd ways crooks were caught this year was the Case of the Cheesy Teethmarks.

FINLAND

(Continued From Page 1)
Foreign Minister Andrei Gromyko demanded to know why Finland had not handed over the "war criminals" which Russia says Finland is harboring.

Moscow broadcasts gave few details, but said that 36 of the 390 alleged war criminals had committed "the most serious crimes" against the Soviet Union. Moscow charged that Finland's failure to turn the accused over was a violation not only of the peace treaty which ended Finland's second war with Russia but also of the treaty of friendship and mutual aid signed in April, 1948.

KIDNAPING

(Continued From Page 1)
bound and put out of the car near Redfield, Kans.

"When those two men tied my wrists together with my own shoelaces and bound my ankles together with their handkerchiefs before they let me out of the car, they told me the only reason I had not been mistreated was because I had courage and had obeyed their orders," McPherson said.

He was released two hours later by a passing farmer.

The men were arrested shortly after they got into an argument in a taxicab in Wichita. During the argument Dauer fired three shots at Hutchins, wounding him slightly. Neither would say what caused the argument.

FBI agents said neither man had a clear reason for their action. Hutchins said they just took McPherson's car "because it looked like a fast car."

Dauer is a paroled lifer from Kansas State Penitentiary.

Gambler Is Injured for Sixth Time

DALLAS — (AP) — Gambler Herbert Noble said from his hospital bed he may take the law into his own hands and get whoever is trying to rub him out.

He was shot Saturday night as he stepped from the door of his modest Oak Cliff home. The bullet ripped through his left forearm, chipped off a section of his hip bone as it plowed through his body and lodged against his spine.

It was the sixth reported attempt on Noble's life. Last Nov. 29 his wife was blown to bits as she stepped on the starter of Noble's automobile. Police say the bomb was meant for Noble. Groggy from sedatives and in great pain, Noble yesterday told Dallas News Reporter Harry McCormick:

"I had started outdoors to go to the drug store for a newspaper. I heard a shot, but I saw no one and I don't know where it came from."

"I knew it was not a firecracker. I turned to run back into the house when the second shot hit me. I don't remember much after that except the intense pain in my back."

He said that he saw a late model Hudson auto headed north at the corner. It had a spotlight on the driver's side. He said this wound was the worst he had ever received.

"Except," he said, "the suffering I had when they blew up my wife."

Noble in the past has blamed the attacks on a gambler he would not name. He has said the gambler was in the West. After his wife's death, Noble said the man responsible was "1500 miles away."

The latest attempt on Noble's life came one week after Hollis DeLois (Lola) Green, tagged as a leader of Dallas' underworld, was shot to death as he left a Dallas night club.

Green had been questioned in the explosion death of Mrs. Noble. Noble was questioned in Green's murder.

Noble was on the operating table five hours Saturday night. Doctors were unable to remove the bullet.

This is the story Noble told McCormick:

"I had started outdoors to go to the drug store for a newspaper. I heard a shot, but I saw no one and I don't know where it came from."

"I knew it was not a firecracker. I turned to run back into the house when the second shot hit me. I don't remember much after that except the intense pain in my back."

Wage-Hour Law Session Slated

SAN ANTONIO — (AP) — Top-ranking officials of the U. S. Department of Labor will meet here tomorrow to prepare for administration of the new federal wage-hour law in five Southwestern states.

Jack G. High, head of the San Antonio field office, will be host to 60 delegates from Texas, Oklahoma, Arkansas, Louisiana, New Mexico and Washington, D. C.

The meeting will continue through Thursday.

POPULATION

(Continued From Page 1)
thousands of them. Nobody knows exactly how many. The estimates run from 2,500 to 7,000. Whitehead and Clary have done a little browsing around themselves, and they admit they've got a tough job on their hands. But, observed Clary, after looking around:

"We've got 'em out of worse places than this."

Time — particularly tomorrow and Wednesday — will tell.

SHIVERS PICKED

COLUMBIA, S. C. — (AP) — Gov. J. Strom Thurmond of South Carolina, chairman of the Southern Governors' Conference, has announced appointments to committees, including: Gov. Allan Shivers of Texas, chairman Tideland's Committee.

One Baby Really Brought by Stork

LENTALE, Calif. — (AP) — Little Baby Spiegner — she only weighed a pound and a half — is one New Year's baby who really was brought by a stork.

The baby was delivered yesterday by Nurse Margaret Stork in absence of a doctor.

307 MARRIAGE LICENSES

An unofficial check of records in the office of Charley Thut, county clerk, Friday, showed that there have been 307 marriage licenses issued between Jan. 1, 1949, and Friday afternoon.

TO PRIVATE LIFE

WASHINGTON — (AP) — Deputy Defense Secretary Stephen T. Early hinted he may return to private life next spring, but there were indications that President Truman and Secretary Johnson would urge him to remain.

PROFESSOR DIES

SAN ANGELO — (AP) — Dr. Erma Gill, 70, associate professor of English at the University of Texas, died of a heart attack here Saturday night while visiting friends. Funeral service will be held Tuesday at the Cook Funeral Home in Austin.

MINISTER DIES

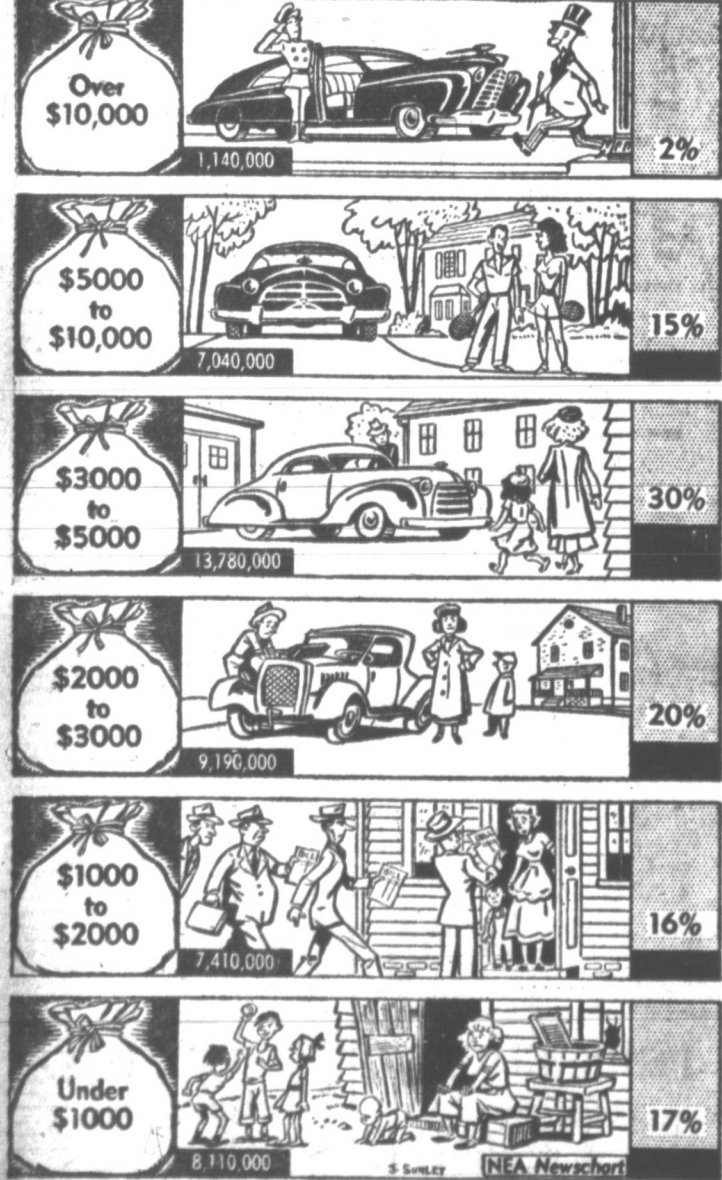

FORT WORTH — (AP) — Rev. Benjamin Andrew Copas, 84, retired head of the Old Testament Department at Southwestern Baptist Theological Seminary died early today at his Fort Worth home. He retired in 1942. He had been at the seminary since 1918.

The Army Organized Reserve

offers short tours of active duty with full pay and allowances—15, 30- or 90-day tours.

A man or woman joins the Enlisted Reserve Corps at the highest rank held during prior service.

INCOME LEVELS: Of Families and Single Persons in the United States, during 1948

Where does your family fit in the above pattern? About one-third of America's families and single individuals had money incomes of less than \$2000 during 1948, according to a recent report of a subcommittee of the Joint Committee on the Economic Report. Chart reflects the report's data, which will be basis of hearings in Washington Dec. 12 to 16 on the problem of low-income families. The report cautions that low cash income does not necessarily indicate poverty, especially in the case of farm families which provide for many of their needs at home. On the other hand, city families with higher cash income may have trouble meeting basic needs.

MARCH OF DIMES GIRL IN CLASS—Wanda Wiley, March of Dimes poster girl, points to the blackboard in class under teacher Mrs. Doris Dodge at Govalle School, Austin, Tex.

Now Come the Cage Platoons

HELENA, Mont. (AP)—Coach John Gagliardi of Carroll College aimed some kidding at football's platoon system, asking why this wouldn't work for basketball as well.

"We could use one platoon for bringing the ball up the court," he said, "another for starting plays under the opponent's basket, another for out-of-bounds plays, another for free throws and still another for putting the ball into the basket."

"Then we could require various platoons for defensive work. The fives could be stationed at strategic places on the sidelines and enter the game when needed. A 'tally-ho' or 'hi-there-old-boy' to the scorekeeper would be enough to permit players to enter the game."

"It would be ideal. We wouldn't need any gym classes. The boys could find something they could excel at in basketball, even if only catching the ball after it dropped through the basket."

Lone Star Conference Starts Busy Week

By The Associated Press

Sam Houston State won the only game scheduled in the Lone Star Conference last week and took over leadership in the season standings. The Bearkats downed Brooke Medical Center, 76-42, to pass Southwest Texas State.

Southwest Texas State opens this week's schedule tomorrow night by playing the University of Corpus Christi at San Marcos. Thursday Sam Houston plays the University of Houston at Huntsville. Friday Stephen F. Austin is host to East Texas Baptist at Nacogdoches and Sam Houston meets St. Edwards at Huntsville.

Baltimore Changes Stadium Name, Again

BALTIMORE (AP)—Baltimore's hybrid stadium—cross between a modern, concrete-stand arena and an elderly wooden bowl—has had its name changed once again.

The stadium was named for Babe Ruth almost immediately after that baseball great died in August, 1948. A large wooden sign reading "Babe Ruth Stadium" was erected outside the structure.

Veterans groups protested. They pointed out the arena was to have been a memorial for the city's World War II dead. Little heard at first, the complaints gained force and finally availed.

Sixteen months after the hasty christening, a city-wide veterans committee once more carried its case before Mayor Thomas D'Alesandro, Jr. He agreed the bowl should be a war memorial after all. Down went the Babe Ruth sign in a hurry. It's the Baltimore Memorial Stadium now.

Race-driver Bill Holland, winner of the 1949 500-mile Indianapolis Speedway classic, was married in Miami, Fla.

Bill Holland's excuse was that he couldn't remember the way to the church.

Which is understandable for a guy who usually goes around in circles.

To Petroleum Council

WASHINGTON (AP)—Three Texans have been named new members of the National Petroleum Council for 1950. Most of the 1949 members were reappointed.

Secretary of the Interior Chap-

The Organized Reserve Corps is a federal force paid, maintained and trained through federal authority and federal funds.

man Friday announced the following new appointments: Warren S. Churchill, Dallas; J. E. Warren, Midland, and R. G. Anderson, Vernon.

HST Against Using Troops On Formosa

WASHINGTON (AP)—President Truman is reported standing pat against any use of American troops to try to block Communists from the island of Formosa.

It is understood, however, that such a decision would not preclude continued economic help and political support, as well as advisory assistance, to Generalissimo Chiang Kai-shek in his fight against expected Communist attempts to take over the island stronghold of the Chinese Nationalists.

Mr. Truman's reaffirmation of his stand against the use of American troops in Formosa is said to have been made during a meeting of the National Security Council Thursday. Mr. Truman presided over the meeting at the White House.

Responsible informants said the council made no change in the American attitude toward Formosa despite many demands from members of Congress that the United States should in effect place the island under the protection of American forces.

There were rumors that some congressmen had proposed that the President seek a deal with Chiang whereby Americans would take over air bases on the island in exchange for limited U.S. military aid.

Senator Connally (D-Tex.), chairman of the Senate Foreign Affairs Committee, said last night he had heard of these reports. He had no further comment.

A report from Tokyo today said that General MacArthur and his top military planners believe the United States should make every practicable effort to prevent the Chinese Communists from capturing Formosa.

However, the report did not say MacArthur has even talked about direct involvement of American forces.

Hashemite Jordan Kingdom Enlarged

AMMAN, Hashemite Jordan (AP)—Although no formal proclamation has been made, roughly a fifth of what once was Palestine has been made a part of Arab King Abdullah's kingdom of Hashemite Jordan.

An Arab News Agency dispatch last Friday said the formal announcement of the incorporation of the 2,300 square miles of Jordan-occupied Palestine into the Hashemite kingdom would be published in the official Gazette Jan. 1, but no announcement appeared yesterday.

More than 1,000,000 translations of more than 1,000 American books have been published in Japan under American occupation authorities.

More than 400 war crimes trials have been completed by U.S. Military commissions in Yokohama and Manila.

It is estimated that the population of India is increasing at the rate of about 3,000,000 a year.

More television stations are operating within the boundaries of the United States than all the rest of the world combined.

MAN'S WORLD GREW SMALLER IN 1949

By MARTHA COLE
AP Staff Writer

Man's world grew smaller in 1949. Women moved into new fields to conquer, and Texas women were in the fore.

Two sisters from Jolleyville near Austin chucked their jobs in Austin and Houston and galvanized off to Mexico to seek their fortune — in bullfighting.

Now every day Essie and Winnie George, 19 and 22 years old, twirl their capes practicing in a Mexico City bullring.

Up in the Panhandle the girls got down to the serious business of football. Put on their second Powder Puff Bowl game with

few of the frills and lots of know-how.

Down in Austin the women showed the men a few things about lobbying in the state Legislature.

School teachers in their Sunday clothes packed the galleries by the hundreds, cornered the legislators and got the Gilmer-Alkin school reorganization bills passed.

Less in number but no less successful were the women from the Texas League of Women Voters. They practically lived in the Capitol until they got two bills passed — a more secret ballot and a change in the juvenile court procedure.

Less successful were the Bus-

ness and Professional Women's Clubs and the Women's Christian Temperance Union. The women lobbyists for the BAPW got the proposed Constitutional amendment allowing women to serve on juries passed in the Legislature. But the voters of Texas turned it down in the November election.

The WCTU wanted a stricter liquor control laws. But they failed. Undaunted, state WCTU president, Mrs. Claude de Van Watts of Austin said they would keep on fighting toward their goal of prohibition in Texas.

Three women served in the state Legislature — state senator Mrs. Nevelle Colson of Navasota, Rep. Rae Files Still of Waxahachie and Rep. Persis Henderson of Groesbeck.

Arthritis took Mrs. Roy Largent, 64, of McKinney from a man's world — baseball scouting. She was a scout for the Chicago

White Sox for 18 years. The Dallas baseball team honored her at a game at Rebel Stadium in Dallas Aug. 21.

Down in Central Texas Mrs. H. E. Harton of Briggs, weighing only 105 pounds, was out pounding the beat, calling square dances. Out near Junction, Mrs. Salley Loeffler, 35 years old, was doing the same thing.

Temple women took their annual night out, left the dishes and the children's homework with papa and went to the annual every woman's party around Thanksgiving.

And just to show that Texas women may stray into new fields to conquer but still know how to make a home—

Mrs. Pearlie Owens Gillis of Fort Worth was named U.S. mother of the year by the Golden Rule Foundation of New York. Entries were from over the entire nation.

Mainly About People

Rosamond Allen returned to WTSO yesterday after spending the holidays with her parents, Mr. and Mrs. Houston Allen, 439 N. Faulkner.

Experienced fountain help wanted at once. Apply City Drug Store.

Miss Elise Donaldson, 111 E. Louisiana, had returned from a two-week visit in Nashville, Tenn., Franklin, Ky., and Oklahoma City.

Mr. and Mrs. J. C. Daniels left Friday for Old Mexico where they spent New Year's Eve and New Year's Day. They will return home tomorrow.

International 11 cu. ft. Deluxe new pedals, sheepskin seat \$15.00.

Deep Freeze, just like new; moving away, do not have room. Sells new \$379.00, bargain at \$219.00. Terms if desired. Call 610-J.

Mr. and Mrs. Ralph Fauley became the parents of a seven-pound daughter Thursday in Alpine, Texas. Mrs. Ethel Fauley, 415 N. Frost, is the paternal grandmother.

Mr. and Mrs. Tom A. Howell and son, Ronny, returned to their home at Norman, Okla., after spending the holidays with their parents, Mr. and Mrs. R. D. Howell and Mr. and Mrs. Earle Cloud.

Good boy's bicycle, new tires, \$15.00.

Girl's bicycle, good condition, new tires, no longer needed, \$12.50. Call 610-J.

Mr. and Mrs. Richard Cox, Tulsa, became the parents of an eight-pound daughter, Saturday. Paternal grandparents are Mr. and Mrs. A. C. Cox, 903 E. Francis.

Mrs. S. A. Hurst, Portland, Ore., is visiting her sister, Mrs. Tom Perkins, and family, and other relatives and friends. She will return home tomorrow. She was accompanied to Pampa by her son-in-law and daughter, Mr. and Mrs. A. C. Cox, Jr., and children, who returned to the U. S. from Germany in August. Mr. and Mrs. Cox are now residing at Albuquerque and went home at noon today.

Fuller Brushes, 615 Cook, Ph. 2152.

Mr. and Mrs. John Mobley and sons, Gerald and Ray, spent the holidays in San Antonio and Raymondville visiting relatives and friends. They also visited in Brownsville, Corpus Christi and Old Mexico.

Mr. and Mrs. R. S. Heberling and son, Duane, of Calgary, Alberta, Canada, visited last Thursday in the home of Mr. and Mrs. Leon Holmes, 611 South Osborn.

Janie Vae Harrison, six-year-old daughter of Mrs. Zada Harrison, was discharged Thursday from Pampa Hospital, where she underwent surgery.

Mrs. Alma Mosley and Mrs. Lillie Hertzfeld have returned from a two-week visit with relatives in Waxahachie and Hillsboro.

Although television sets of direct view type put the picture on the flat end of a cone-shaped tube, it still is called a "screen."

Auto Industry Hit New High In Year 1949

DETROIT — (AP) — The nation's auto industry built — and sold — more motor vehicles in 1949 than in any previous year. Barring an economic upset it may do nearly as well in 1950.

Final official figures probably will not become available until about mid-January, but they are certain to show 1949 output of more than 6,000,000 cars and trucks. They also should show that, excepting for the units that always have to be in transit from factory to distributor, most of these vehicles were sold.

The industry's previous production record was 5,358,420 vehicles, built in 1929. But that year, unlike 1949, saw the industry carry over more than a million unsold vehicles. It was followed, too, by a high total of repossessions.

Whether the steel strike late in the year materially cut down the auto industry's 1949 output is a disputed question in the many quarters. Ten-day to two-week shutdowns of considerably more than half the industry's capacity that began with Thanksgiving Day generally were attributed to the shortage of steel.

But there were many among industry chroniclers who asserted that had there been no steel shortages prolonged shutdowns would have been ordered and attributed to new model change-over work. It is significant that most of the factories that halted assemblies for a time after Thanksgiving Day had just completed their 1949 model production.

It is significant, too, that they planned no heavy output volume until well into January.

Whatever else may be said about 1949 it must be recorded as the auto industry's most successful year. Aside from record production it brought for most companies the greatest net profits in their history.

Examples were General Motors' \$602,614,029 net in the year's first nine months against \$327,155,222 in the like period of 1948; Chrysler's net of \$97,651,453 against \$39,387,601; and Studebaker, leader of the independents, \$17,242,245 against \$13,392,724.

The family-owned Ford company makes no interim earnings reports.

Only two companies — both newcomers — ran substantially against the general trend. Kaiser-Frazer which built 181,317 cars in 1948; turned out fewer than 60,000 in 1949. Crosley, which started with relatively low volume in 1939, got production up to nearly 30,000 units in 1948 and dropped to fewer than 10,000 in 1949.

Frequent closings for inventory adjustments marked the year for Kaiser-Frazer.

Aside from huge production, sales, and earnings, 1949 brought more high compression engines and more automatic transmissions to the car industry. Design changes, however, were relatively few.

One of the things that failed to materialize were major price cuts. Several companies, including Ford and General Motors, made minor reductions during the first half of 1949, but the sharp cuts predicted for July and later did not develop.

Brushing up—Her fans at home wouldn't recognize Japanese movie idol Kinuyo Tanaka, above, as she tries on a golden wig during a visit to a Hollywood studio's make-up department. Miss Tanaka, known as the "Bette Davis of Japan," is the first actress to leave that country since the occupation. She is in the U. S. to study

Miami Seeks Free Spenders By Offering Free Services

MIAMI BEACH, Fla. (NEA)—Business men and hotel owners on this fabulous, over-populated strip of sand have a unique set of worries.

Such things as blizzards in Chicago or the mean winter temperature of New York may mean the difference between lean and fat profits for a year.

The threat of a coal strike puts them in a cold sweat. If it materializes and perhaps produces a two- or three-point drop in the nation's business index, the bigger spenders stay around their northern fireplaces.

With this year's season just getting nicely underway, the outlook appears to be something like this:

The tourist take will probably be slightly down from last year's record season. However, the drop is expected mostly from the ranks of the second-level spenders.

In the really swank, luxury hotels, with rooms up to \$50 a day and suites bringing more than \$100 a day, there's no cut expected from last year's top rates.

The average tourist may not have quite as many dollars to throw around here as he did last winter, but the management is determined to make the throwing a more pleasant operation.

From hotel managers' and head waiters through traffic cops and down to bell-hops, there's been a mass "thank you and yes sir" educational campaign, the likes of which is pretty revolutionary. Courtesy has become the Miami Beach watchword.

The management of the \$50,000,000 swank Saxony, which was built last year, boasts that it leads the field in providing that new welcome feeling.

Built in to every closet is a special box for your shoes, which the porter can get to from the hall. By morning, your shoes are back cleaned and polished.

Soon after you register, special stationery with your name printed below that of the hotel is made available to you. And so are books of matches with your room number and name printed on the outside. Female guests have flowers put in their rooms when they arrive.

The elevator operator offers condolences if a guest shows any sign of a hangover. And there are free steam rooms, massages and reducing treatments available to any guest who may need or want them. An attendant at

WOONGING — Miami woongs vacationers with personalized matches, free services, and courtesy.

the pool is ready with a towel and will even dry your back after a swim. This is for free, too.

Probably the most astonishing thing of all is the elimination of that familiar, exaggerated wait for a tip after an employee renders some service. If it's offered, there's a grateful thank-you. If it's not, there's no surly remark.

A big glass of orange juice for the weary traveler when he checks in is a new feature of several of the hotels. Some even offer a glass to the guest when the paper is delivered each morning. Most of the expensive hotels have variations on the same theme. And in lesser degrees, the same is found in restaurants, night clubs and shops.

About the only significant basic changes old-time Miami Beach observers note this season, compared to last, is the almost complete disappearance of the French-type, scanty bathing suit and the sudden popularity of fancy ice cream sundaes and sodas.

To the amazement of all, the chocolate soda is challenging the hourbon and soda in popularity.

Rail Service Cost Hits New Peak

NEW YORK — (AP) — The cost of providing rail service reached a new peak in 1949, President A. T. Mercier of the Southern Pacific Company said in a year-end statement.

The 40-hour week for non-operating employees, made effective Sept. 1, alone added nearly \$4,000,000 to the wage bill in four months and on an annual basis will cost nearly \$14,000,000, he said.

Reporting on Southern Pacific's equipment improvement, Mercier said: "In 1949 we have received or ordered 195 additional diesel locomotives at a cost of \$65,500,000. We have received 6,123 new freight cars and have under delivery or authorized for purchase 1,209 more, at a total cost of \$54,500,000. We are also modernizing 900 old cars. Passenger equipment delivered this year and now on order will cost about \$24,000,000."

Museum Will Get Meteorite

BISBEE, Ariz. (AP) — An 80-pound meteorite which fell at a ranch near here last month probably will be given to a library or museum.

The meteorite struck about 9:30 p.m. on Nov. 30, 1949, and plunged 4 feet into the ground on the ranch of Robert Forrest.

He dug it up and found it to be of irregular spheroid shape about 12 inches across at its largest diameter.

Charles L. Cassidy, Marion

Income Taxes Equal Autos, etc.

WASHINGTON — (AP) — American families pay out as much for federal income taxes as they spend on autos, furniture and home appliances — from television sets to vacuum cleaners.

A new Federal Reserve Board report on consumer finances estimated that \$9 of each \$100 of income goes for federal income tax alone and the same amount goes into purchase of the listed items.

The board calculations are based on 1948 data obtained in a survey taken this year.

Figured that nearly one-third of the nation's \$50,500,000 "spending units" — meaning mostly families living together and pooling incomes for living costs — overpaid their 1948 incomes.

But six out of 100 broke even — partly because they had no nest egg to draw upon — and no credit available — while another 63 managed to save a part of their receipts.

The median or middle-sized income of America's family units in 1948 was \$2,840 and savings amounted to 875 or 3.5 percent of income.

The United States constitutes the greatest oil market in the world in that 60 percent of the world's production is utilized in this country.

Ohio, bought the meteorite from Forrest. He said he planned to give it to a museum or to the University of Arizona if the school wants it.

Seven-Day Diet Can Whittle Down That Holiday Bulge

By PATRICIA MORISON
Written for NEA Service
As the photograph of the gaping waistband shows, I went overboard during the holidays. I'll have to lose at least five pounds to get that zipper to work again.

What I like about this diet, which I've followed now for two days, is that its low-calorie count is hidden under an abundance of food. With this one, you have more to look forward to at each meal than a couple of lettuce leaves.

Below is the diet for the first two days.

By ALICIA HART
NEA Staff Writer
If too much holiday fun has left you with bursting buttons or a gaping waistband, make reducing one of your New Year resolutions.

Since it's not wise to risk health hazards while you're taking off unwanted pounds, follow a medically planned diet.

Such a diet is offered here: a seven-day regimen that's as low-priced in food costs as it is in calories. It's sheer nonsense to believe that in order to reduce you have to eat only expensive cuts of meat, costly fruits and vegetables.

Planned by nutrition specialist Samuel M. Bloom, M. D., of Brooklyn, our seven-day diet of low-calorie, low-cost foods gives you three well-balanced meals. Although it gives you all of the protective foods you need for combating rugged winter weather, Dr. Bloom recommends that a high potency vitamin capsule be added as an extra safeguard to health.

On this seven-day diet, you can lose up to five pounds in one week. Continue it a second week, and you should be able to whittle off another three pounds. To round out weight loss to a full 10 pounds, continue this diet still another week.

Any plan to lose more than five pounds, however, should be checked with your doctor, advises Dr. Bloom, who insists that your physician is the only judge of how much weight you can safely lose.

FIRST DAY'S DIET

BREAKFAST
Tomato juice—8 oz.
Whole wheat cooked cereal—1/2 cup and skimmed milk—2 oz.
Coffee with skimmed milk—1 cup

Lunch
Roast beef sandwich—lean roast beef
2 thin slices whole wheat bread—no butter or dressing
Orange—medium size
Skimmed milk or buttermilk—1 cup

Dinner
Grapefruit—1/2
Hamburger steak grilled—4 oz.
Braised tomato—medium
Boiled spinach—1/2 cup
Whole wheat bread—1/2 slice
Jello—1 cup
Tea or coffee with skimmed milk—1 cup

SECOND DAY'S DIET
Breakfast
Orange juice—4 oz.

Parties Honor Young People Of Shamrock

SHAMROCK — (Special) — Mary Carver was complimented by her mother, Mrs. Vernon Carver, with a birthday party recently.

The guests attended the show, then returned to the Carver home where they played games and were served refreshments.

Those present were Sue Ann Benson, Peggy Mallow, Linda Isaacs, Marilyn Barth, Charlene Cadenhead, Judy Mundy, Cheryl Tisdal, Judy Perrin, Tommy Tindall, Tommy Ryan, Gary Wayne Dalton, George Copeland and Jan Puckett of Sayre, Okla.

To compliment their son, Raymond, and his bride-elect, Miss Freda Tugwell, Mr. and Mrs. T. H. Sonnenburg entertained Thursday evening with a rehearsal dinner at their home.

Others present were the Rev. and Mrs. S. M. Dunnam, Mr. and Mrs. Fred Tugwell, Mrs. Cabot Brannon, Walter Buice of Lubbock, Mr. and Mrs. Eldon Sonnenburg and children, Sylvia and Mike, of Crain, Miss Jo Nell Gambill of Muleshoe, Ted Sonnenburg, and Barbara Tugwell.

About 50 members of the Senior Class of the Shamrock High School work in a group during the holidays to sing Christmas carols to elderly people and shut-ins.

The group returned to the Community Building where games

Egg, poached—1
Whole wheat bread—1/2 slice
Butter or margarine—1/2 teasp.
Coffee with skim milk—1 cup

Lunch
Cottage cheese (8 oz.) on lettuce leaves
Whole wheat bread—1 slice
Apple—1
Skim milk or buttermilk—1 glass

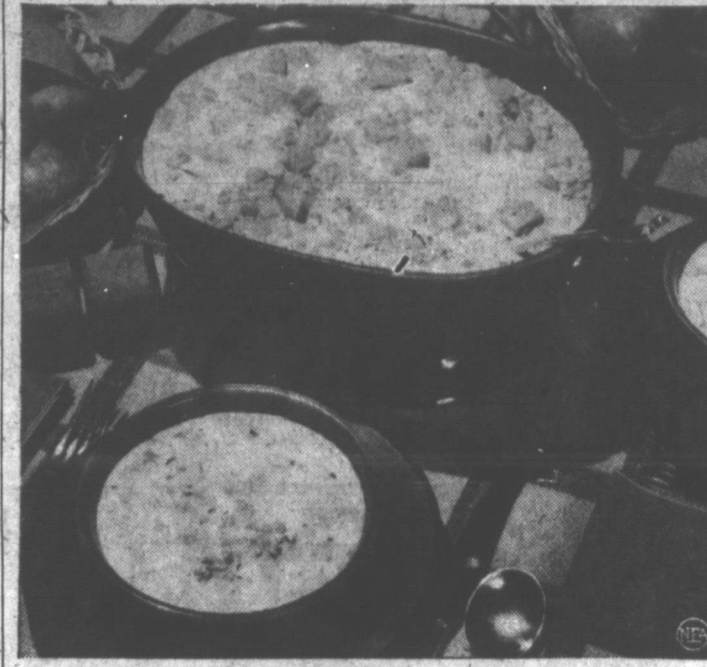

Dinner
Clear broth—1 cup
Boiled lean beef—4 oz.
Boiled carrots—1/2 cup
Mixed green salad—1 cup
Whole wheat bread—1/2 slice
Oatmeal cookies—2
Tea or coffee with skim milk—1 cup

Corn Chowder Makes Hearty Meal

ONE-DISH MEAL—Make a New Year's resolution to use lots of plentiful corn. Corn chowder is a hearty dish.

By GAYNOR MADDOX
NEA Staff Writer

Canned corn is on the United States Department of Agriculture's list of plentiful January foods. It's also on the family's list of favorite meal-in-a-dish specialties.

Corn Chowder
(4 generous servings)
Four tablespoons ham fat; butter or fortified margarine, 1 large onion, sliced, 1 No. 2 can whole kernel or cream style corn, 2 cups diced potatoes, 3 cups milk, 1 cup diced cooked or leftover ham, optional, 1 teaspoon salt, 2 tablespoons chopped parsley, 1-8 teaspoon Tabasco.

Add onion to fat in large saucepan and cook until tender, but not brown. If whole kernel corn

is used, drain corn and add corn liquid to saucepan. If cream-style corn is used, add 1-2 cup water to saucepan. Bring to a boil and add potatoes; cover and cook 10 minutes. Add corn, milk and ham if desired. Add salt. Heat thoroughly. Add parsley and Tabasco.

Here are two more good corn recipes, each by cooking experts of the Department of Agriculture: **Corn Fondue** (Serves 4)

One-third cup of bread cubes, 1-2 cups cream-style corn, 2 teaspoons minced onion, 2 teaspoons finely chopped green pepper, 3/4 cup finely grated cheese, 1/2 teaspoon salt, pepper, 2 eggs, well beaten, 1-2 cup scalded milk. Blend all the ingredients into the eggs, adding the scalded milk last. Pour into a greased loaf pan (4 x 8 inches) and set in a pan of hot water. Bake in a moderate oven (350 degrees F.) until set — about one hour. Cheese, Corn, Tomato on Toast (6 servings)

were played and refreshments served.

Mrs. Claude Montgomery is sponsor of the class. As a project this year the Seniors took a Christmas box to an invalid woman.

Holiday Party Given Local Chapter of NSA

Jann Ethridge opened the program at the annual Yule social of the Top o' Texas chapter of the National Secretaries Association in the City Club Room.

Miss Ethridge sang two selections, accompanied at the piano by Miss Charlotte Alston. President Minnie Barnes pre-

sided over the meeting. Roll call was answered with each member giving some outstanding fact about Christmas. Laura Bell Cornelius then gave a true story about Santa Claus and how he originated. Helen Dudley told how Santa thrills the children each Christmas season by making toys, his arrival down through the chimney, and his reindeer and sleigh. Noel Thompson gave a story on the first Christmas cards, Christmas carols, and other Yule activities. "Christmas Celebrations and Customs in Other Lands" was given by Mildred Clauder. Lillian McNutt then told how the first Christmas tree originated and how it was decorated.

Members of the organization brought gifts for two small children, which Santa himself delivered to the family.

Refreshments were served to the following: Meses. Lillian Jordan, Minnie Barnes, Lillian McNutt, Mary Wilson, Laura Bell Cornelius, Noel Thompson, Mildred Clauder, Misses Nancy Sullivan, Bettie Mosley, Mary Elizabeth Porter, Gorda Bell Miller, Geneva Covatt, Elizabeth Parnell, Helen Dudley, and Fern Patterson. Guests were Misses

Auto Production Hits New Record

DETROIT — AP — The auto industry's 1949 production in the United States will total 6,250,471 vehicles, Automotive News estimated.

Included in this unofficial estimate here 5,120,556 cars and 1,129,915 trucks. The industry's previous record was 5,358,420 cars and trucks, built in 1929.

This week's output, the trade paper said, will total 85,172 cars and 17,694 trucks. Last assemblies in United States factories were 92,818 cars and 19,627 trucks.

Before the introduction of explosives, rock sometimes was excavated by building a fire against it, causing it to split as it cooled, according to the Encyclopedia Britannica.

Jann Ethridge and Charlotte Alston. NSA meets every third Wednesday at 5:15 p. m. in City Club Room in the City Hall.

CRETNEY DRUG STORE

Grace Friend...

FORGETS TO THANK HOSTESS
Dear Grace Friend,
My husband asked me to write you for advice concerning our present dilemma. We were recently invited to a very dear friend's home for cocktails then all of us rushed on to a dinner party.
Late that evening, when we had returned home, my husband asked "Did you thank the Smiths for their nice hospitality and excellent liquor?"
I replied "No, didn't you?"
His answer, too, was in the negative so he wants to know what we should do now.
I never before have written for advice like this but since we read your column regularly I feel sure you could help us.
N. R. W.

Dear N. R. W.,
Since you all left in such a whirl for a large dinner party, I suspect that your hosts weren't even aware that you hadn't formally thanked them.

However, if the situation worries you why don't you write them a nice note, telling them that you are so glad they appreciated the evening very much and are taking this means of thanking them for an enjoyable time.

It is never amiss to write your hosts a note of thanks whether you have thanked them verbally or not.
Such thoughtfulness is always appreciated by the people who have put time and effort into planning an entertainment for you.
MEANING OF "1st" and "2nd"
Dear Mrs. Friend:
I have often wondered under what circumstances a boy is named John Jones, II rather than John Jones, Jr. I would also like to know whether if John Jones II and John Jones, Jr., had sons named after them, both boys would be named John Jones, III. Will you clarify these points for me?
Mrs. W. E. N.

Dear Mrs. W. E. N.,
"Junior" always means the son—occasionally the grandson—of a man of the same name and "2nd" means the nephew or cousin of a man of the same name.
If John Jones, II, and John Jones, Jr., who are cousins, wish to name their sons after them, since there is no way to distinguish between the two, it usually is the custom that the second boy be given a different middle initial. In this case his name is changed and he has no suffix. Then his son may be a Junior.

VARYING ORBIT
The time required by comets to make a single revolution in their orbits varies from three-and-one-third years to one million years, according to the Encyclopedia Britannica.
MOST FAMED RUG
Most famous rug in the world is called "The Holy Carpet of the Mosque at Ardabil" cherished by the South Kensington museum. In London, it is valued at more than \$500,000.
The fastest meteorites travel at speeds of 180,000 miles per hour.

from different groups and I think you will enjoy them. This, the first hand, brings out the point of sacrifice bidding.
As this is a bidding hand I do not want to justify North's bid, but there are many good players who will risk a light bid, especially in third position. East realized that North's bid could mean little or nothing and rather than double, he wanted to show the real strength of his hand with a bid of two no trumps.
When West bid three no trump, North felt his hand justified a sacrifice bid. In other words, a player will overbid even though he knows he will go down. He feels sure he will lose less this way rather than letting his opponents make a game.
The hand today has a good point in play. East cashed the king of clubs and shifted to the four of diamonds. Declarer played low from dummy and West made the mistake of going up with the queen. North won with the king. He immediately returned a diamond and finessed the ten spot. On the ace of diamonds, declarer discarded a spade.
A spade was played from dummy. The rule says "second hand low," but does not always apply. If West had jumped up with the jack of spades and led a heart the hand would have been down several tricks more, but West carelessly played a low spade. East was forced to win the trick with the king. He returned the fourth diamond.
Now you can see that the declarer can cross-ruff the hand out and the only tricks that East did make were the king of clubs, two heart tricks and the king of spades, setting the hand only one trick.
ODDITY
The sun burns your eyes if you look at it, and yet, between the sun and our earth are 93,000,000 miles of air with a temperature close to 459 degrees below zero.

McKENNEY ON BRIDGE
By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service

A trip to New York by any bridge player would not be complete without a visit to the Mayfair Bridge Club. It is operated by Harry J. Flahbein and Mrs. Phyllis Schellenberg. Flahbein is one of the most popular bridge players in the country.
I was over at his club the other night and picked up six hands

FRENCH CHIEF — Major Gen. Clement Blane (above), 52-year-old veteran of both world wars, has been named by France's Cabinet as Chief of Staff of French land forces.

Business Termed 'Extremely Good' In Southwest

WASHINGTON — (AP) — Business conditions in the Southwest have been termed "extremely good" and are expected to remain so in 1950.

Secretary of Commerce Sawyer made the report to the White House based on his personal inspection of the economic situation over the country.

The secretary reported: "The Southwest has been experiencing a period of economic growth reminiscent of the opening of the Western frontier."

"The heart of this development is in Texas," he added: "Striking testimony was provided in all of my meetings there of what it has meant in terms of business conditions through the present year."

"The 1949 declines experienced in areas and business lines elsewhere appear to have been not nearly so noticeable in Texas, and recovery seems to have been achieved more rapidly."

"Indeed, numerous individual businessmen made reports to the effect that in many instances bank loans and debts, drugstore, restaurant, gasoline, automobile and general retail sales would run ahead of 1948 levels both in dollars and otherwise."

The only somber aspects of Sawyer's report on the Southwest concerned the petroleum and livestock industries.

Large imports of oil from the Far East have forced cutbacks in domestic production, hitting independent operators in particular, he said, and lower livestock prices adversely affected ranchers.

He reported the effects were felt more severely in Oklahoma than in Texas.

"Comments made to me on business conditions in Oklahoma indicate that, while the same general pattern described above has also been felt there, business conditions have conformed more closely to national trends," his report to John R. Steelman, assistant to the President, said.

"That situation was in part related to a lower volume of livestock sales, lower livestock prices and, thus, lower levels of farm income and stockyard and packing house employment than prevailed in 1948 . . ."

Refined products have risen from \$1.85 in 1941 to \$3.27 by the end of 1949.

Crawford Rites Held In Alanreed Monday
 ALANREED (Special)—Funeral services were held here Monday for Mrs. James B. Crawford, a former Alanreed resident. Burial was in the Alanreed cemetery beside the body of her husband, who died in February, 1938. Included among those present were Mrs. Jimmy Hill of Alanreed and Mrs. J. A. Patterson of Groom.

Betsy Says Family Will 'Just Happen'

HOLLYWOOD (AP)—Betsy Drake, bright new bride of Cary Grant, says their family will "just happen."
 In her first interview since the Christmas Day wedding, the pixy young actress said she was baffled by the usual question to new-

TABLE MANNER—With one foot on the table and the other on a chair, Rear Admiral the Mackintosh of Meckintosh, CB, DSO, DSC, drinks a toast in the traditional manner of the clan at a dinner in London.

led by the usual question to new-laws: "Do you plan to have a family?"
 "How do you plan those things?" she replied. "After all, that matter is actually in other hands."
 "Besides I think it is bad to plan to have a large family or to plan not to have one. I think those things should just happen. I think it would be very depressing for one to know that he was a planned baby. That's no cold and unromantic."
 Mrs. Grant is back at work in "Pretty Baby" after a one-day vacation. "But we're having a honeymoon anyway," she smiled. She indicated a full-fledged honeymoon appears doubtful for many months, since Grant starts a picture Jan. 3.
 The bride admitted that the wedding party's dash to Arizona was hectic, but said she preferred that to a big splashy affair.
 The actress couldn't recall when Cary popped the question. "We discussed it for a long time—whether we should or shouldn't." Did he ask her father for her hand? "Of course not!" replied the actress, who is free, white and 26.

Valentino Continues to Reign as Greatest Lover of the 20th Century

NEW YORK (AP)—The greatest lover of the first half of the Twentieth Century was Rudolph Valentino.
 He stands out in the first 50 years of our time in the politics of amour as Franklin D. Roosevelt did in the politics of people.
 And after Valentino who was the most devastating male between 1900 and 1950?
 Well, a casual male poll says he is Francis X. Bushman. He was a matinee idol whose memory has outlived the noise of a popcorn generation that revered him.
 We'll have to mix up our chronology a bit to place John Barrymore third and John Gilbert fourth. Remember Gilbert in "The Big Parade?"
 And who but Clark Gable would

be fifth, Tommy Manville sixth, Gary Cooper seventh, Ronald Colman eighth, Charles Boyer ninth and ole singing Bing Crosby tenth?
 Of course, a poll on great lovers such as this—taken among people we just happened to crowd into the subway—has its limitations. It leaves out all sorts of people, including vice-presidents.
 What about Aly Khan? What about King Farouk of Egypt? Hasn't love in the first half of the 20th Century become an international problem?
 Privately the average man is sure that he himself is one of the great lovers of his era. And his wife is hardly in a position to say he is wrong—because what has a good girl to judge by?
 But Rudolph Valentino is still

the landmark of romance in our century, for all the fact that if he were alive today he and Ezio Pinza would look like two sophomores.
 You say his name now and most men laugh. And some women weep. He stood for something they yearn for—romance unattainable. And in death they miss him for something they want and haven't found.

SOUTHERN DRINK
 Yerba mate is an aromatic beverage prepared in South America from the leaves of Paraguay tea, and has a stimulating effect on the drinker. The tree belongs to the holly family.

FLY DAMAGE
 A horse in California switched its tail at a fly and bit a hot wire. The horse was killed, its tail caught fire, and the flames spread over 55 acres of timber. Fate of the fly is unknown.

PENNEY'S THE STORE THAT THRIFT BUILT

Undismayed by Russia, Finland Defies Reds in Own Government, Labor Unions

MARKET PLACE—At this open-air market in Helsinki, Finland, buyers purchase unrationed meat. "We must eat a lot of it to keep warm during our cold, dark winter," one Finn said. Only sugar and coffee are rationed in Finland, but there is tight control on rents.

By MARIE DAERE
NEA Special Correspondent
HELSINKI, Finland — (NEA)—
Put Finland down in your book as a little country, endowed with a big ration of optimism.

You need only a brief time in Helsinki to become convinced that this plucky democracy knows there are turbulent seas ahead. It also knows it will ride them, because it's been through worse storms before.

Seated uncomfortably close to the Russian bear, Finland points proudly to the fact that today the Communists and left wing Socialists hold only 28 seats of the country's 200-member legislature and that Finland's "little man" has built up an excellent resistance to Red propaganda. And, in Finland, the Reds do a lot of shouting.

"The political situation has improved much in the past year," an industrial Finn told me during an American Overseas Airlines reporting tour of Scandinavia. "It will improve more in the near future."

The Finns remind American reporters that a few months ago the Federation of Finnish Trade Unions expelled four big Communist-dominated unions for continuing to strike in defiance of the federation's back-to-work ultimatum.

"Today, only two of those unions are still officially out of the federation," I was told. "The other two promised to be good and were re-instated."

Right now, the Finns are busy tackling the problem of their economy. High wages have an unhealthy production costs to the level.

"Prices aren't too bad for the manual laborer, whose wages have sky-rocketed since 1939," a Finn told me. "They're not so good for the white collar worker, whose salary has increased only about half as much as the laborer's."

At present, government people agree, the Finnish landlord is taking an economic beating from rent control.

Because Finland has a housing shortage, the size of a Helsinki family determines how large an apartment that family may occupy. The general rule is one room per person. Two small children count as one person.

"Do the Finnish people resent the reparations which have dominated their economy?" I asked.

"Because we have worked hard, we are over the hump of that situation," I was told. "By 1952, everything will be paid off. As for resenting the reparations—why, you might as well resent the rain on a stormy day."

A Finn who sat next to me at luncheon helped himself to a generous portion of veal and buttered a slice of bread.

"I returned to Finland recently after a stay in England," he said. "I feel sorry for the English.

Their food situation is so much worse than ours. We have plenty of everything."

In Finland, only sugar and coffee are rationed. It is also possible to buy more expensive unrationed coffee.

"It is sad to see the English stand in line for their pathetic little Sunday joint," continued the Finn. "We have plenty of meat here. We must eat a lot of it, to keep warm during our cold, dark winter."

Helsinki residents do much of their food shopping in open-air markets, well stocked with fish, poultry, fruits and vegetables. Rich and poor patronize the markets, where prices are a little lower than in stores.

Finnish women are proud of their place in the employment scene. You see them in the barber shops, shaving their male customers. They are attendants in the famous Finnish steam baths, giving both men and women rub-downs.

They are conductors, farmers and textile workers. They operate Linotype machines in newspaper plants and carry loads of tile on construction jobs. The fact that many of them are housewives and mothers doesn't seem to make any difference.

Six Shamrock Boys Named Cub Scouts
SHAMROCK — (Special) — Cub Scouts of six dens and their parents, approximately 100 persons, attended the December meeting of the Cub Scout Pack in the Community Building last week.

John Pounds of Pampa, field worker of the Adobe Walls Area Council, was in charge of the meeting, at which seven boys received their Bobcat badges to become Cub Scouts.

Boys who became cubs were: Richard Payne, Alvis Reeves, Gary Dalton, Mike Welty, Ernest Lee Cadenhead, Johnny Finley and Richard James.

Toys Asked for European Children
McLEAN — (Special) — The Andrew H. Floyd post of the American Legion is joining other Legion posts in the nation in a "Tide of Toys" campaign for unfortunate children overseas, Commander George Terry announced.

The toys will be shipped to children in war-torn countries in Europe who received few, if any, toys at Christmas.

Persons with sturdy toys to donate are asked to take them to the Greyhound Drug Store in McLean. War-like, electrically operated, or fragile toys would not be suitable, it was emphasized.

Distribution will be done by CARE, the European relief organization, Terry said.

Hollywood Writer Dreams of 'Good' Day for Columnists

By BOB THOMAS
HOLLYWOOD — (P) — Let me tell you about my holiday dream. The mind doctors say that dreams relate to actual experience. I can believe that. Because I think this dream is the result of questions that I am often asked by actors. Such questions as: "Why is the press always concerned with Hollywood scandal? Why don't columnists print more nice things about Hollywood? Why are film critics so critical?"

Anywhere, here is my dream: Once upon a Christmas, every correspondent in Hollywood was gifted with a gaily wrapped white box. Inside the box was a bottle of champagne and card which said, "for a happy New Year's Eve—S. Genesis."

"Who is S. Genesis?" one correspondent asked another.

"I think he's an independent producer— isn't it Sam Genesis?"

"Yeah, I think so."

So on New Year's Eve, every correspondent in Hollywood pour-

ed the champagne and toasted big-hearted Sam Genesis, the independent producer.

Now it so happened that the gift giver was not an independent producer, but was actually St. Genesis, the patron saint of actors. And the champagne was not pure. It contained a magic potion of good will.

And when the correspondents wrote their columns on New Year's Day—for columnists must work on holidays, too—they could write nothing bad about Hollywood and its people. Their copy was nothing but sweetness and light, bristling with the good deeds done by stars. And all the pictures they reviewed were beautifully-acted hits.

After two weeks of this, editors began peppering the correspondents with demands to "get on the ball! Cut out this sob-sister stuff!"

Then the public became aroused. Crowds marched on the newspaper offices and hurled rocks through the windows. The harried editors

Alanreed
ALANREED — (Special) — Mr. and Mrs. Everett Hall of McLean visited his parents, Mr. and Mrs. D. L. Hall, during the holidays.

Mr. and Mrs. Leonard Glass visited relatives and friends at McLean during the holidays.

Mr. and Mrs. M. E. Brown have moved from Alanreed to the Kellerville community.

Christmas dinner guests in the Roy Sherrod home were Miss Gloria Stewart of McLean, Mr. and Mrs. Bob Sherrod, and Mr. and Mrs. Clifford Walser of Canadian.

Mr. and Mrs. George Orrick and son of McLean visited her parents, Mr. and Mrs. A. B.

finally fired all the good-willed correspondents and hired new ones.

And so the new correspondents began writing the kind of copy that people wanted and everybody was happy again.

Everybody, that is, except the actors—and St. Genesis.

PAMPA NEWS, MONDAY JANUARY 2, 1950 PAGE 15

Q—Does a member of Congress lose his pension rights when convicted of felony?

A—The fact that a member of Congress runs afoul of federal law does not affect his pension rights. The law is so worded that pension payments cannot be invalidated by a felony conviction and cannot be attached for debts.

Q—How many vice presidents have died in office?

A—Seven men died while serving as vice president—George Clinton, E. Gerry, William King, Henry Wilson, Thomas Hendricks, Garrett Hobart and James Sherman.

Q—What is the origin of the name "Texas"?

A—In 1690 Spain sent Capt. de Leon to found a mission. De Leon named the country Texas from the Comanche Indian term, "teja" which means "friends."

Q—How rapidly has the parking meter system increased in the United States?

A—Parking meters were first installed in six American cities in 1935. By 1942 they had been installed in 347 cities and on Jan. 1, 1948, they were in operation in 1564 cities in the United States.

Many Texas Areas Break Previous Building Records

By MARVIN BRAU
AP Staff Writer

The buzz of the saw and the clap of the hammer played record-breaking tunes on Texas' construction front during 1949. Indications are they will continue the same tempo right into 1950.

From all sections on the last day of the year came reports of record-breaking building permits for 1949. In no area was there any appreciable lag in new building.

Fort Worth, Beaumont, Orange, Waco, Lubbock, Amarillo, Bryan and other fast-growing cities erected more new homes and buildings than in any one year in their history.

Houston and Dallas, the state's two biggest cities, fell slightly behind their 1948 record year, but continued to grow at a clip far above normal times.

Fort Worth issued 7,953 permits for a total of \$29,990,011 for new construction. Its 1948 record was 6,556 permits totaling \$29,887,977. The new year is to get off to another good start with erection of a 20-story office building and other projects now on draft boards.

Beaumont issued \$10,004,055 in permits. This topped the 1948 record of \$9,602,806.

Lubbock's permits were more than a million and a half dollars greater than a record of \$15,173,372. The 1948 total was \$18,754,908. Included were 1,808 dwelling units.

Orange issued \$1,250,000 in building permits, \$900,000 more than in 1948, the previous record year.

Wichita Falls had its biggest building spree since 1926. The 1949 new construction, most of it dwellings, totaled \$5,806,186. The 1948 total was \$4,321,391.

Galveston's permits doubled those of 1948. During 1949, 1,643

permits totaling \$7,828,413 were issued. The 1948 total was \$3,492,168 for 1,837 permits.

Austin reported new construction three million dollars above that of 1948. For 1949 the total was \$20,237,116 compared to \$17,181,616 for 1948.

Ahlens issued \$6,424,470 in permits to \$5,228,738 in 1948. Waco built 150 more new homes than it did during 1948. This year's record totaled \$11,237,100. Last year's \$11,022,800.

Amarillo's astonishing growth continued unabated. New construction totaled \$16,600,000. This was \$150,000 more than the total in 1928 when the oil boom doubled the city's population. Last year's total was \$10,550,000.

Permits numbered 1,229 in 1949. Kerrville issued \$576,978 in 1949 compared to \$1,394,946 in 1948. A million dollar hospital was included in the 1948 total.

Paris total for 1949 was compared to \$1,495,000 in 1948, the city's record year.

Bryan's total was nearly twice that of 1948. It was \$2,692,107 compared to \$1,331,195. Included in the 1949 total were new schools, churches and a power plant.

San Antonio's unofficial total for 1949 was \$35,042,886 compared to \$35,613,913 in 1948. Midland's permits totaled \$5,592,223 compared to \$1,030,998 in 1948, the record year. In the new construction were 658 dwelling units.

Pampa's total was \$3,954,838 compared to \$2,890,286 in 1948. Kilgore reported \$2,992,968 compared to \$1,250,000 in 1948. Harlingen's total was \$2,069,905 compared to \$2,062,705 in 1948.

Hillsboro's 1949 total was \$132,075 compared to \$137,325 in 1948. San Angelo's total through Dec. 29 was \$4,044,660 compared to \$3,946,585 in 1948. Permits numbered 1,229 in 1949.

Kerrville issued \$576,978 in 1949 compared to \$1,394,946 in 1948. A million dollar hospital was included in the 1948 total.

Paris total for 1949 was compared to \$1,495,000 in 1948, the city's record year.

Bryan's total was nearly twice that of 1948. It was \$2,692,107 compared to \$1,331,195. Included in the 1949 total were new schools, churches and a power plant.

BUILDING NEWS

PAMPA NEWS, MONDAY JANUARY 2, 1950 PAGE 17

Big Increase Is Shown in Homes

AUSTIN—(AP)—Carpenters and bricklayers built lots of homes in Texas this year. More money was spent for residential units than in 1948, the banner year for all types of construction.

Engineering and non-residential construction work slackened in 1949, but a \$19,000,000 increase in residential awards brought the year's total of all contracts to \$939,382,556. This was only nine million dollars short of the 1948 record, reported the Texas Contractor, building trade journal.

The magazine said the 1950 outlook is for another record year for construction in terms of dollar volume, with the total expected to equal that of 1949.

"Construction costs are expected to show slight upward tendency in 1950, but the average for the year probably will be about the same as the average for 1949," the magazine said editorially, adding:

"Generally we are entering 1950 under the momentum of good employment in Texas, much government spending and general expansion by all industries in plant construction.

"The hesitation seen in home building during the fall months of 1949 is expected to level out and possibly show some steady increase through the impetus of a government program designed to assist the little man in building a home."

"With it becoming apparent that substantial reductions in construction costs are not to be expected in the immediate future, some of the postponed construction of commercial facilities should get underway in 1950, particularly in the building of shopping centers for newly developed residential areas," the trade journal continued.

"All types of public construction are definitely going to show increases, from 10 to 20 percent in dollar value. Expenditures for public construction will be larger, except for military and naval facilities.

"Public housing probably will show the largest increase, as a result of activities under the 1949 housing act. Continued pressure

consideration than is usually given.

If a floor needs refinishing it must first be sanded, either by hand or with a sanding machine rented from your local hardware store.

After sanding, a filler available in paste form, should be applied to fill the pores of the wood. Apply the filler as directed, first with the grain and then across it.

The filler will be somewhat glossy at first, but in a short time it will begin to dull. When this occurs, it should be wiped off across the grain with a coarse cloth. The wood should be rubbed until it is rather shiny, indicating that the excess filler is gone, and allowed to dry for at least a day.

Since the filler raises the grain somewhat, the floor should next be sanded again lightly with No. 0 sandpaper.

To varnish start far from the wall and toward the exit, covering three or four boards at a time completely across the room. This prevents any joint marks from showing. Lay the varnish on in straight strokes, brushing with the grain. When the brush is empty, go back and brush out the varnish evenly.

Don't try to work the varnish too thick because it dries rather quickly and don't attempt to put it on too thickly. A thin uniform coat hardens best.

The universal beauty treatment for floors, whether varnished wood or linoleum, is waxing. There are various kinds of floor wax, each requiring a different application. Paste wax which is rubbed on and then polished by further rubbing is considered best since it gives a hard, wear-resistant surface.

When a waxed floor is slippery, it is usually due to the fact that too much wax has been put on. A thin, hard film is most beautiful and is not slippery.

added advantage, builders point out, of serving as an insulation as well as a plaster base. Application of plaster on this modern type lath does not affect its insulating property. It remains highly resistant to passage of heat. Thus, it keeps the house warmer in winter and cooler in summer.

Plaster cracks often are the result of twisting and warping of the framing during the drying process after it has absorbed moisture from wet plaster. When insulating board lath is used, it acts as a moisture-resistant barrier between the plaster and framing. This forces the moisture into the room where it has a chance of being carried away harmlessly by ventilation.

Insulating board lath has the

Pampa Houses Boom in 1949

There were 218 residential building permits valued at \$1,410,497.68 taken out at the City Engineer's Office in the City Hall during 1949.

New houses had the lead for the year both in the number and value of the permits. The total value of all last year's permits amounted to \$3,934,838.60, which is a record year for Pampa.

November's permits for residences numbered 39 and were valued at \$264,400. Other busy months in house building here were April and July, with 33 permits each.

The number and value of permits per month follow: January, 6 for \$30,000; February, 6 for \$33,000; March, 19 for \$94,250; April, 33 for \$210,900; May, 13 for \$81,964.68; June, 18 for \$110,450.

July, 33 for \$219,843; August, 26 for \$203,500; September, 11 for \$59,800; October, 3 for \$21,900; November, 39 for \$264,400; and December, 11 for \$80,400.

Feeding the Furnace Is an Art

By BOB SCHARFF
Written for NEA Service
Even when your heating plant is clean and in good repair, you can't get the most out of it unless you know how to maintain an efficient fire. Firing a furnace is an art — not merely a matter of throwing in a few shovelfuls of coal and letting it go.

The proper way to hand fire a furnace is to shake the grates easily until you see the first glow on the ashes in the ash pit. Then with the shovel or with a rake, pull the live coals from the back of the fired toward the feed door.

This forms a cavity sloping downward towards the back of the fire box. Into this cavity put the fresh coal, being sure to leave a spot of live coals showing in the front to ignite the fresh coal and burn up the gases. The fired level should be kept even with the bottom of the firing door at all times.

When re-coaling, keep the turn damper in its usual closed position, the ash pit door or damper open, and the check damper closed. Remember that a shunt and check dampers work alternately, when one is open, the other should be closed. If the ash pit damper is opened it means the check damper is closed. Controlling the furnace draft

A furnace with a good fire.

and dampers by means of a thermostat will eliminate the wastefulness of fuel and unnecessary high temperatures that result when several members of the household tend the fire.

An oil burner is most efficient when it burns with a yellowish orange flame that has a barely noticeable tinge of dark smoke at the top. If the fire is dark and sooty, adjust the burner to increase the air supply. A clear white flame, on the other hand is an indication that too much air is being consumed with the oil.

The electrical controls and safety devices on an automatic stoker or oil burner are very delicate precision instruments. Don't tinker with them — it's an expert's job.

PRODUCED SEEDLESS FIG
The University of Hawaii holds one of its extension courses on the rim of a volcano so the students can study botany, geology, and volcanic phenomena.

VOLCANIC SCHOOL

you'd like, though," he finished hopefully, looking at the nasty scratch bite the boy had shown. "I'll be glad to cauterize your wound with nitric acid. Keep it from getting infected."

"No thank you," he said politely, as if he were refusing a second helping of pie a la mode, "but if it's not rabies, I'll just do what I always do when she bites me — put a little iodine on, and let it alone."

EVEN my mother's daily telephone call grew more and more frantic. "No one at all!" she would repeat sadly, and then add in that false cheerfulness: "But don't worry dear. Something's bound to happen tomorrow."

Freda, too, was wonderfully sympathetic. "If only my Karl would hurt himself," she said yearningly. "He always does, but now when you need it, he doesn't. And he always goes to the doctor in the building when it happens."

At first I was shocked at the brutal idea. Then I asked: "But Freda, we wouldn't take any money from you in any case," since neither John nor I had any illusions about a superintendent's salary.

"Of course not," she laughed at my ignorance. "When my old man gets hurt — and I don't make him do it, but he's always bound to twist his back shoveling coal or slip when clearing the ice, nothing serious you see — well, it's always a compensation case. Nobody pays." This blunt summation of the millions of dollars expended annually to and for injured workmen startled me then, but actually it is the average employee's impression of the workmen's compensation laws.

But Freda meant well. "Maybe," she finished, patting my hand sympathetically, "any day now Karl will do it again!"

Then our first real live patient turned up very, very early the next morning and it was, of all things, an emergency.

(To Be Continued.)

Bedroom Color Scheme May Make the Difference

By JEAN SCOTT
WASHINGTON—Suffering from the pitters? You probably need a new color scheme. It's an established fact that colors can either depress or stimulate. Some colors help you to relax and feel cheerful, while others irritate you and may cause actual physical discomfort.

When you wake up in the morning, do your eyes thus open on colors that give you a sense of well-being and tranquility? If not, repaint and redecorate your bedroom wisely and your morning disposition will benefit.

Scientists have found that blue light acts as a sedative. Too much blue in a room, however, can be physically as well as mentally depressing. Yellow, on the other hand, is stimulating.

A mixture of blue and yellow together to make gray gives a soothing, restful background. Cool, grayed tints have relaxing qualities that make them desirable for bedroom color schemes. To tone down any color, mix it with its complement. To cool a color, add white; to warm a hue, add black.

Green is a good color to use in a bedroom receiving warm light from the south and west. Other colors for these exposures may be white, light ivory, Wedgewood blue, and blue-green.

For rooms receiving cool light from the north or east, warm colors are desirable. You might choose pastel yellow, rose, peach, buff, or rosy beige.

In the bedroom, just as in any other room, you can employ color to modify or emphasize structure. A long, narrow room can appear to have better proportions if the end walls are painted darker than the long side walls. The ceiling should be lighter than either set

Science Turns Logs Into Useful Boards

Producing a board four feet wide from a log only six inches in diameter is one of the modern manufacturing miracles which are helping this nation whip its housing problem. It isn't done with saws. Instead, huge machines do the job fast and efficiently, in more than a dozen great factories spread throughout the country.

In other factories a similar material is being turned out, except that the raw material is sugar cane bagasse — the stalks remaining after the sugar has been removed.

The board thus produced is insulating board. It has strength and rigidity and possesses a number of unique properties which make it ideally suited for a wide range of building purposes. Chief of these is heat — the quality from which it derives its name.

The insulating board industry, which produces upwards of a billion and a half square feet of building products annually, owes its existence to research workers who in their laboratories learned how to separate the fibers of wood and cane and reassemble them into flat, homogeneous boards. The first factory-produced insulating board was made thirty-five years ago. Demand for the board was increased steadily until today the manufacture of insulating board is a major building materials industry.

In the making of insulating board the raw materials are first reduced to fibers. In the case of wood, this is done by large machines which grind pine, aspen and other small logs into a mass of tough fibers. The fibers then pass through drums, rollers and driers, where they are felted, interlaced and pressed into wide, stiff sheets. These sheets are cut into boards of the desired size. Products intended for interior use are given a colored finish.

The first insulating board was employed as sheathing. It had good bracing and strengthening qualities and in addition provided efficient insulation. Later a special board of tough resistance was introduced for sheathing use. Insulating board sheathing has become one of the materials most widely used for enclosing the framework of homes before the application of exterior siding.

SPEEDS FINISHING
In the early 1930's, manufacturers brought out insulating board products with textured and predecorated surfaces. They also introduced the board in plank and tileboard shapes. These new products immediately became popular for interior use. With them it is possible to completely finish or remodel a room of any size at low cost and in a minimum of time.

Insulating board lath, a heat-resistant plaster base, also was perfected in the 'thirties. Applied on the inside of the studs, it became a companion product of insulating board sheathing. The two products used together make up a wall of double insulating efficiency, yet the insulation costs nothing additional.

If you want to avoid unsightly lath marks and plaster cracks in walls and ceilings, benefit by the experience of builders who have used insulating board lath. This modern product, made of wood, cane or other vegetable fibers, provides a continuous surface for the plaster. Lath marks therefore are impossible.

Plaster cracks often are the result of twisting and warping of the framing during the drying process after it has absorbed moisture from wet plaster. When insulating board lath is used, it acts as a moisture-resistant barrier between the plaster and framing. This forces the moisture into the room where it has a chance of being carried away harmlessly by ventilation.

Insulating board lath has the

For Floors: Sand, Wax, Work

By BOB SCHARFF
Written for NEA Service
Everybody admires a beautiful floor, but making a floor beautiful and keeping it in condition are problems that require more

consideration than is usually given.

If a floor needs refinishing it must first be sanded, either by hand or with a sanding machine rented from your local hardware store.

After sanding, a filler available in paste form, should be applied to fill the pores of the wood. Apply the filler as directed, first with the grain and then across it.

The filler will be somewhat glossy at first, but in a short time it will begin to dull. When this occurs, it should be wiped off across the grain with a coarse cloth. The wood should be rubbed until it is rather shiny, indicating that the excess filler is gone, and allowed to dry for at least a day.

Since the filler raises the grain somewhat, the floor should next be sanded again lightly with No. 0 sandpaper.

To varnish start far from the wall and toward the exit, covering three or four boards at a time completely across the room. This prevents any joint marks from showing. Lay the varnish on in straight strokes, brushing with the grain. When the brush is empty, go back and brush out the varnish evenly.

Don't try to work the varnish too thick because it dries rather quickly and don't attempt to put it on too thickly. A thin uniform coat hardens best.

The universal beauty treatment for floors, whether varnished wood or linoleum, is waxing. There are various kinds of floor wax, each requiring a different application. Paste wax which is rubbed on and then polished by further rubbing is considered best since it gives a hard, wear-resistant surface.

When a waxed floor is slippery, it is usually due to the fact that too much wax has been put on. A thin, hard film is most beautiful and is not slippery.
