FIRE PREVENTION

Pampa, along with nearly every other city in the nation, is observing Fire Prevention Week. This, however, is not just one week set aside to watch for fires. Fire prevention, instead, is a year around task. To save grief and money, we must be fire-conscious all year.

Legionnaires Make Cry for Acheson Oust

LOS ANGELES — (AP) — A demand that President Truman replace Secretary of State Dean Acheson will be brought before the national American Legion convention today.

This is one of the top issues of the 32nd annual convocation, which resumed business sessions after staging a mammoth six-hour parade Tuesday.

The outgoing national executive committee has recommended Acheson's dismissal. And National Commander George N. Craig has said the state department chief should go because the American people have lost confidence in him.

The proposed resolution, one of 800 dumped into the hopper, is expected to come up in the committee report on foreign affairs.

Communism will be attacked in reports today of the Americanism and other committees. Proposed resolutions urge stricter control of subversives.

The convention also is expected to back a demand for uniform state laws to require financial responsibility of fathers who cross state lines to desert their children.

Rep. Edith Nourse Rogers (R-Mass.) will receive the Legion's highest award, the Distinguished Service Medal, for work in behalf of veterans as a member and former chairman of the House veterans' affairs committee.

Addressing the national organization of world war nurses Tuesday, the congresswoman said the nation is faced with a shortage of hospital beds and pointed out that Korean war casualties already exceed 30,000.

A crowd unofficially estimated at over 1,000,000 saw the annual legion parade. The colorful parade, 50,000 strong, started early in the afternoon and finished long after dark. Scores of smartly uniformed bands, drum and bugle corps, color guards and marching units thundered along Broadway for nearly seven hours.

New Kelley Clinic Will Open Monday

Monday will mark the opening day for the new Kelley-Kelley Clinic located on East Kentucky Avenue.

No formal opening will be held because of the recent death of the clinic's first owner and builder, Dr. J. H. Kelley and his son, Dr. Frank Kelley. The clinic had been the lifelong dream of the elder Dr. Kelley, pioneer doctor, who died Sept. 30.

Dr. Raymond Laycock, formerly of New Orleans, is associated with the young Dr. Kelley in the medical clinic. Mrs. J. H. Kelley will serve as business manager; Jane Rose, receptionist; Fern Snoddy, bookkeeper.

Three registered nurses will be employed at the clinic. Two of them, Ellen Caskey and Ellen Francis, have been associated with the two doctors. The other nurse will arrive later in the week.

The clinic will be ready to receive patients Monday morning. Osborne Construction Co., Pampa, are the contractors for the clinic building, which is cream-colored brick with gray trim and tile roof.

County Resident Killed in Crash

AMARILLO — (AP) — Charlie Clifford Cash, 43, of McLean, was killed last night near here when the car he was driving collided with a truck loaded with 15 Latin-American farm laborers.

Jose Domingue of Carlsbad, N. M., riding in the car, suffered minor injuries.

Two-year-old Mary Paez, an occupant of the truck, was critically injured.

The laborers, all from San Antonio, were en route to Plainview.

Army Issues New Call for 40,000 Additional Draftees

WASHINGTON — (AP) — The military gave its Army expansion program another boost today with a new call for 40,000 more draftees during December. It raises the total of calls since the defense program started to 210,000.

Added to men already in the Army or brought in under federalization of National Guard units and call up of reservists, this indicates the Army has or will have within a few months more than 970,000 men. That does not include an unspecified but presumably substantial number of men in reserve who brought into active duty during the last three months.

The Army's reported objective, under the 3,000,000-man program proposed by President Truman, is between 1,500,000 and 1,800,000 men.

That seems probable the objective can be reached perhaps by next spring — if facilities and other physical limitations on the speed of expansion permit. Military officials have emphasized that these are important factors in deciding how fast expansion should proceed.

In manpower quantity, the Army probably already is close to double the size it was when the Korean war started. It had about 591,000 men last June 25. But a large part of the added manpower needs training and organizing into effective units.

Here is what has happened: Four National Guard divisions have been federalized. Although understrength, their combined manpower probably amounted to about 32,000. Two regimental combat teams from the National Guard were brought in — about 10,000 more men. Called to duty were 100,000 individual reservists, then 17,427 reserve male captains and lieutenants. In addition, 1,644 women officers and enlisted personnel were summoned to active duty. (See NEW CALL, Page 2)

PRESIDENT'S ROUTE — Dotted line extending westward across the nation and on to an area southwest of Hawaii outlines the probable route of President Truman for his scheduled meeting this coming weekend with Gen. Douglas MacArthur, United Nations commander. Dotted line extending eastward from Japan is MacArthur's probable route to the meeting. The president's first stop after leaving Washington will be St. Louis, Mo. He will fly from there Tuesday in his plane, the "Independence," for Hawaii. The announced purpose of the meeting is to discuss the "final phase of the United Nations action in Korea." (AP WIREPHOTO)

Far Eastern Problem Due For HST-Mac Discussions

WASHINGTON — (AP) — President Truman and Gen. Douglas MacArthur will meet somewhere in the Pacific this weekend for talks sweeping the whole range of critical Far Eastern problems.

The chief executive, with a party of military and diplomatic advisers, planned to leave here today (3:30 p.m. EST) on the first leg of the long flight which he will resume at St. Louis Thursday night.

The party is due at Honolulu in the Hawaiian Islands Friday, and the two men with MacArthur coming from Tokyo, will meet over the weekend somewhere west of Hawaii. The exact location, and whether it would be on an island or a ship, were not disclosed.

Plans were announced yesterday without any advance speculation, but White House Secretary Charles G. Ross told reporters, "it is the result of no sudden emergency."

The talks will be the first meeting between the president and MacArthur, who has not been back to the United States since 1957.

Administration officials expect the conference to produce a far better understanding between the two men on some issues, notably Formosa, which have divided them in the past as well as on development of U. S. Far Eastern policy in the future.

In addition, Mr. Truman's home-front position can be expected to be strengthened by the brief, spectacular meeting.

1. It will no longer be possible for his critics to accuse him of having failed to consult MacArthur on controversial Far Eastern matters — a charge which some Republicans have thrown at the president for a long time.

2. The meeting will dramatize a deep presidential interest in MacArthur and his views and in the Korean crisis shortly in advance of the congressional elections — some of which may turn on Far Eastern questions.

In this respect the president's plans provide him with a 1-2-3 headline punch.

First comes the meeting with the United States far eastern commander, who is also the United Nations commander for Korea; second, the chief executive will make a foreign policy speech in San Francisco on Oct. 17 immediately after seeing MacArthur; and third, he will address the general assembly at New York on United Nations Day, Oct. 24.

Apparently the reason for scheduling two foreign policy speeches so close together is that in his New York talk the president, as leader of the U. N.'s host country, will have to be careful in what he says about the Russians, but in his speech at San Francisco he can hammer strongly the idea that the world's troubles are to be laid at the door of Soviet communism.

Two local teen-age boys were to be heard before County Judge Bruce Parker this morning on charges of theft after they were apprehended late Tuesday afternoon by Constable Bill Langley at the Tyng Street Apartments.

The boys, H. J. Waller, 17, of the Newlawn Cabins, and Hobart Lee Banks, 18, of the Tyng Street Apartments, are charged with the theft of headlights from a farm tractor, several tools and five gallons of gasoline.

Langley told reporters he traced the boys through cigarettes and foot measurements he had taken from the scene of the theft. When he picked up the boys yesterday the measurements matched with the print measurements. The loot was found in the rear of the car they were driving.

The tractor is owned by Mrs. Jim Stroup, but was on the R. E. Converse farm when it was stripped of the headlights. Langley said a pair of pliers was used to cut the headlight wires.

PM PERMIT ISSUED — WASHINGTON — (AP) — Southwestern Baptist Theological Seminary, Fort Worth, was issued a construction permit by the communications commission Tuesday for a new non-commercial FM broadcasting station.

Free plans and estimates for heating in new and old homes. Several heaters on hand at old prices. Bert A. Howell & Co., 119 N. Ward, Ph. 132—adv.

Red Premier Vows To Battle To Finish

Three U.N. Forces Smashing Resistance Near Pyongyang

TOKYO — (AP) — Red Koreans fought bitter no-surrender actions today against three allied forces striking toward the Communist capital, Pyongyang.

The highest ranking American on the fighting front, Maj. Gen. Hobart R. Gay of the first cavalry division, said the Red forces were doomed and the taking of Pyongyang was only a matter of time.

"These cookies are beaten," Gay told war correspondents at cavalry headquarters.

The allied forward groups comprising four South Korean divisions (Rokis) and most of the first cavalry were inside Red Korea less than 100 miles from Pyongyang. They were driving on the capital from the south, southeast and east.

Red Premier Kim Il Sung told the 10,000,000 people of North Korea in a broadcast message they could not surrender.

"Our motherland is now face to face with a grave crisis," Kim said.

He ordered his shattered troops to "fight until the final day of victory...overcoming all difficulties."

Kim's message was obviously an answer to General MacArthur's second and "last time" ultimatum of last Sunday, but the Red premier did not mention it.

This was the frontline situation in Red Korea:

On the east, two Rok divisions were mopping up small holdout forces in the strategic east coast industrial port of Wonsan, 95 air line miles east of Pyongyang.

Southeast of Pyongyang about 100 miles, two Rok divisions were driving ahead on a 30-mile front. The Rok sixth division captured Kunhwa, a major road center, and drove several miles northwest.

West of this force, the first cavalry drove several miles inside Red Korea on the closest approach to Pyongyang. Speakers were within 80 miles of the capital but were meeting strong resistance. Other cavalry columns fanned out to the east and west, seeking out holdouts in the Red's border defense.

Red Premier Kim, in his no-surrender message, told the North Koreans:

"We should study the example of the Soviet Union (1918) Revolution of the Soviet Union which gained final victory after numerous difficulties."

"The example of victory over British and American imperialism is close at hand."

He called on workers to send "more weapons and ammunition to the front...to supply food and material."

The broadcast of Kim's message, heard in Tokyo, again contended that South Koreans in the very start.

Similar statements on Korea have been issued from time to time. The latest was broadcast by the Peiping radio and heard here.

It said the United Nations resolution authorizing its troops to enter North Korea was "entirely illegal and against the will of the overwhelming majority of the world's population," and created a "serious situation" for Red China.

Red China Hints of Action Against UN

LONDON — (AP) — Communist China warned today she could not "stand idly by" as United Nations troops advanced into North Korea, but gave no hint of any action she might take.

The Red Regime's ministry of foreign affairs issued a lengthy statement which declared the "American war of invasion in Korea has been a serious threat to the security of China from the very start."

Similar statements on Korea have been issued from time to time. The latest was broadcast by the Peiping radio and heard here.

It said the United Nations resolution authorizing its troops to enter North Korea was "entirely illegal and against the will of the overwhelming majority of the world's population," and created a "serious situation" for Red China.

Fire Prevention Includes Visit

In connection with National Fire Prevention Week, now in progress in Pampa, Den Two and, Pack Four of the Boy Scouts visited the local fire station Tuesday afternoon.

Under the supervision of Mrs. H. H. Heiskell, den mother, and her assistant, Mr. Vern Pendergrass, Fire Chief Ernest Winborne took the Scouts on an extended tour of the station. The tour will comprise the Scouts' project for fire prevention week.

Earlier Tuesday, Capt. J. V. Pirkle spoke at Horace Mann School about fire prevention. Capt. Albert Fuller spoke at Woodrow Wilson and W. A. Claunch at Sam Houston.

Each day's activities during this week are begun by the sounding of the fire alarm, after which one of the firemen takes a truck out and makes a tour of the city.

If it comes from a hardware store, we have it. Lewis Edw.

Bell Backs City To Wall on Rates

Southwestern Bell Telephone Co. appears destined to get what it wants on telephone rates from a reluctant and almost rebellious city commission.

But before the utility succeeds in pushing the commission to the wall on its rate demands, the new proposal made Tuesday will be kicked back to the citizens committee with Mayor C. A. Huff's own recommendations—recommendations the commission heartily favors.

The commission rebelled against the telephone company's demand on rate increases for the two-party line, claiming it to be a hardship on those people who need phones but can't afford private line service; the residence extension proposal claiming it was a 100 percent jump instead of the fifty percent as proposed by the citizens' committee; and on P.B.X. trunks, claiming them to be too high.

The citizens committee last week recommended an "across the board" 50 percent increase in rates contingent upon installation of dial service with rates to be negotiated when dial goes into actual operation.

The phone company's answer yesterday only partially met the committee's recommendation.

But Southwestern Bell yesterday, through one of its attorneys, Arthur Teed, demanded that both present and dial rates be written into the ordinance. They want the two-party rate increased from \$2 to \$3.25, a jump of 62.5 percent; the residence extension jumped from 50 cents to \$1, a 100 percent hike; and commercial P.B.X. trunks boosted from \$7.50 to \$11.25. All of the other rate changes for present boosts are 50 percent jumps. It means the one party business line would go from \$5 to \$7.50; business extension from \$1 to \$1.50; one party residence \$2.50 to \$3.75; two party residence from \$2 to \$3.25; residence extension from 50 cents to \$1; commercial P.B.X. trunks from \$7.50 to \$11.25; commercial P.B.X. stations from \$1 to \$1.50; pay phones from 15 to 23 cents per day.

"I don't like any part of it," Commissioner Crawford Atkinson declared openly. He added, "that's too much of a hardship on those people who need phones but can't just about afford them now without a 62.5 percent jump."

Teed indicated he was told by the company they would accept nothing but the proposal made yesterday before agreeing to install dial within two years.

The phone company, it appeared, has the city commission against the wall by its virtual ultimatum of yesterday. The proposal saying, in effect, "give us what we want or no dial."

Atkinson said he would like to hear some comment from the public before the city commission (See BELL BACKS, Page 2)

Chinese Eggs Raise 'Stink'

SEATTLE — (AP) — A Seattle waterfront warehouse was jammed with powdered eggs from Communist China today. The 700 tons are awaiting transshipment to New York for distribution to eastern bakeries.

News stories about the Chinese eggs kicked up an immediate firestorm.

Rep. Mitchell (D-Wash.) fired telegrams to President Truman and the department of agriculture asking an investigation in view of the present United States policy of buying up eggs to support parity prices.

The Packinghouse, Poultry and Egg Workers Union (AFL) called the egg shipments a "blow to American labor" and also prepared telegrams for the president and his agriculture department, as well as the Washington state congressional delegation.

A former egg man told the Post-Intelligencer that the Chinese eggs could undercut the American surplus variety in this country.

The government has bought up \$1,830,013 pounds of surplus U.S. eggs so far this year at 96 cents a pound for the powdered variety, the same price the government would charge domestic users for export. The powdered U. S. eggs go for 30 cents a pound.

Alex M. Bryce, Jr., of W. J. Byrnes & Co., the customs house brokers handling the Chinese eggs, said such shipments have been coming in "for 35 years" and that "there's nothing unusual about it."

He refused to give the name of the New York consignee or to mention the price of the Chinese imports to buyers in this country.

The Post-Intelligencer said the eggs were first shipped to Vancouver, B. C., by trans-Pacific freighters, including at least one American cargo ship. The paper also said that another shipment is due this week.

Commission Okays 400 New Meters

The city commission yesterday authorized a call for bids on 400 automatic parking meters to replace the present hand operated meters. Bids are to be opened on Oct. 21.

The authorization was granted on grounds of the high maintenance cost and unpopularity of the hand operated meters.

The problem had no opposition from any of the commission's members and was voted through in less than five minutes after it was introduced by City Manager Dick Pepin.

At the same time the commission expressed its willingness to loan, cost free, some city equipment to the Fairview Cemetery Association for paving a circular driveway through the cemetery. However, the city will provide only part of the equipment to be used. The cemetery will be asked to furnish the remainder on the same basis. The cemetery association will be asked to pay the operators and the material used in paving the strip. The association, a non-profit organization, made the request through the city manager's office.

The commission indicated it was willing to permit the use of the equipment, providing the county goes along on its share and that the association pay the truck drivers and other machinery operators. The cost, under the plan, to the cemetery association was estimated, roughly, by City Engineer Ray Evans at \$6,000.

Before any action can be taken, the city, county and cemetery association will have to arrive at a meeting of minds on the subject.

In rapid fire succession the commission approved sending three policemen to the five city police school at Austin, and passed ordinance, \$22 on its second and third readings to permit the Citizens Bank to construct a new facing on the west side that would extend five inches on to city property. They also approved the monthly library bills and city expenses, the latter amounting to \$12,720.17.

BELL BACKS

(Continued from Page 1)
 acts on the proposal. Mayor Huff asked each commissioner personally if any of their people had complained to them about the pending increase. The answer was "no" from all four wards.

Under the phone company's demands for dial rates — to be effective on the first billing after dial is in operation—are:

One-party business, \$9; business extension, \$1.50; one-party residence, \$4.24; two-party residence, \$3.50; four-party residence (a new service), \$3; residence extension, \$1; commercial P.B.X. trunks, \$13.50; commercial P.B.X. stations, \$1.50 and pay stations a guarantee of 23 cents per day.

The commission balked at those figures too, Atkinson again taking the lead claiming the rates were out of reason, especially after the 15 percent federal excise tax is added to the bill.

Atkinson wondered if the people actually wanted dial service "so badly they are willing to pay those exorbitant rates?"

Looking into the future, Mayor Huff predicted a large percentage of residential telephone users would curtail their telephone usage, adding he would curtail his at home and at the office.

"Too many times I just pick up the phone and call Kansas City, Dallas, Amarillo, Fort Worth or some other place when a letter would serve the same purpose for only three cents."

"It's one of the biggest problems I ever faced," Atkinson shot back, "but, I still want to hear some reaction from the public, but I sure don't want to."

City Attorney Bob Gordon added there would be some legal technicalities to be on guard against when and if a contract is written.

But, that is the bogey man in the closet — stipulation of rates in the ordinance that will have to be passed when the rates are adjusted.

The phone company wants both present and dial rate schedules in the ordinance — binding the city commission to those rates.

The city is willing to allow a contingent 50 percent rate increase now, but dial rates to remain open for negotiation when dial is installed. This would bind neither the city nor phone company to stipulated rates.

The mayor's recommendations brought the residence extension and two-party residence rates down to the 50 percent increase, and no more.

The phone company argued that the two party rate, recommended by the mayor, would cut their revenue by \$10,000.

City Manager Dick Pepin was told to call the group together later this week.

And national assemblyman Lee Chong Hyun said:
 "Let Kim Il Sung himself fight and die!"

In some of the early experiments of transmission of photograph over electrical circuits as many as 25 lines were used simultaneously.

NEW CALL

(Continued from Page 1)
 duty. Other calls brought in 240 aviation officers of company grade and 205 chaplains. Draft calls, including yesterday's, added 210,000 more. The number of men in reserve units brought to active duty has not been announced.

All these figures put together present an impressive statistical picture. But there remains the fact that the Army has only ten regular combat divisions, with another just being organized. Months will be required to convert part of the new manpower into combat units, ready for fighting wherever they are needed.

Moreover, the Pentagon at the moment isn't sure how long it can or wants to keep in federal service the National Guard units it now has or may call up later.

It is known that intensive studies now are under way by both the Army and the joint chiefs of staff (the military commanders of the Army, Navy and Air Force) on the question of the guard.

ACHESON

(Continued from Page 1)
 the anti-aggression resolution — the U.S., Britain, France, Canada, Uruguay, the Philippines and Turkey — admit openly that its real purpose was "to liquidate the veto."

Diplomats commented privately that the purpose was not to end the veto power, but to enable the general assembly to take over when a veto thwarted majority will to combat aggression.

Since experience had proved, they said, that the U.N. had been stymied in the past by the Soviet veto, it must find a way around that difficulty in order not to turn into a mere debating society.

An overwhelming majority of the U.N. favors the resolution, first made public by Secretary of State Dean Acheson Sept. 2. They were not believed to have been swayed by Vishinsky's speech.

Diplomats awaited with interest the reaction of India, which so far has not announced its stand.

A source close to the delegation said the text of the American resolution had been sent to New Delhi for study along with the text of Vishinsky's objections.

He said it was quite possible Prime Minister Jawaharlal Nehru would have suggestions and amendments to offer in an attempt to reconcile the Soviet and western points of view.

Cold Sled Dog Rescued in Plane

REYKJAVIK, Iceland — (AP) — Carlo, sole survivor of 18 sled dogs aboard a Skymaster which crashed atop a 6,000-foot glacier — has been reunited with six men and a girl who shared a week of cold and famine with him.

The plane crashed on Sept. 14 on Vatnaokell glacier while en route from Luxembourg to Reykjavik. When rescuers prepared to bring the six crewman and stewardess down the slope, Carlo got scared and ran off.

A few days ago a new party of mountaineers reached the plane. They found Carlo inside, cold and hungry.

U.N. FORCES

(Continued from Page 1)
 vaded Communist North Korea on June 25 — the day the Reds invaded South Korea.

Kim said "United States imperialists exploited the United Nations in order to enslave the Korean people and to legalize their invasion of Korea."

The United Nations decision to go into North Korea, he said, was "reached unilaterally (one-sidedly) without allowing the participation of representatives of the Korean people."

South Koreans quickly denounced Kim's decision to continue the fight.

The vice minister of defense at Seoul, Chang Kyung Keun, said: "It is a pity that Kim Il Sung cannot accept General MacArthur's surrender terms because Russia would not allow him to do so."

"The North Korean Communists are not fighting for Korea but for Russia."

The republic's home minister Cho Pyong Ok said: "It is an unfortunate decision... the Rok and U. N. forces will not stop advancing until the totalitarian communism is completely gone from this peninsula."

And national assemblyman Lee Chong Hyun said:
 "Let Kim Il Sung himself fight and die!"

Pampa Will Play Without Walker, Tarpley

WESTERNER TACKLE—Frank Hill is one of the two 265-pound starting tackles Lubbock will throw against Pampa Friday night. Hill, a senior, lettered in 1949, but saw only infrequent service. This year he has been a mainstay in a Lubbock line which has more than held its own against four opponents. At the other tackle post will be Jerry Van Felt, who equals Hill in weight. (News Engraving)

The Harvesters continued with their long practice sessions Tuesday afternoon preparing for their Friday night's football battle with the Lubbock Westerners in Harvester Park.

Coach Tom Tipps sent his gridsters through a three hour practice. Looking on from the sidelines, were Tackle Jerry Walker, Ends Alvin Ward and Don Burns, and Guard Dale Gantz. Gantz, who is bothered with an injured ankle, worked out for a short period then watched from the sidelines the rest of the time. Hit hard by injuries in the tackle slots, Coach Tipps had Buddy Cockrell and Jesse Dykes replacing Buzzy Tarpley, who is hospitalized, and Walker. Walker and Tarpley will both miss Friday night's contest.

The three hour session was spent on both defense and offense. After the three hour drill the boys did wind sprints.

Lubbock will bring a forward wall that will average 181 pounds into Pampa Friday night.

With two first string tackles out, and one end, Coach Tipps is hurrying up front. The Harvester backfield will be ready to go with all boys getting out of the Wichita Falls contest without a serious injury.

Lubbock has won 16 straight scheduled games without a loss. The last time the Westerners lost was to the Harvesters, 26-19, in 1948.

Guerrillas Play Here Thursday, Reapers Travel

Coaches Marvin Bowman and Duane Lyons sent the Reapers and Guerrillas through a long scrimmage session Tuesday afternoon, preparing for their football games Thursday.

The Guerrillas meet Price College of Amarillo in Harvester Park Thursday night at 8 o'clock. The Guerrillas have a 1-2 record this season. They lost their opener to Lefors, 27-13, defeated Borger, 13-6, and lost to Wheeler, 13-19.

The Reapers will go to Borger Thursday afternoon to play the Borger Junior High School eleven. Coach Bowman's football machine has punched out three straight victories without a loss. They won their opener from Elizabeth Nixon Junior High of Amarillo, then measured Sam Houston and Horace Mann for their next two grid wins.

Bauer Advances in Golf Tourney At Fort Worth

FORT WORTH — (AP) — Alice Bauer of Midland, Tex., won the title of Long Beach, Calif., today in a featured second round match of the Women's Texas Open golf tournament here.

Yesterday Miss Bauer travelled 14 holes in even men's par to surprise Pro Louise Suggs of Carrollton, Ga., 5 and 4.

Miss Kieley shot even par on the outgoing nine to defeat Jeanie Dobbins of St. Louis, 8 and 7.

A top contender for the title, Marjorie Lindsay of Decatur, Ill., fell, 4-3, before Mrs. H. C. Reidel of Dallas.

Defending Champion Beverly Hanson of Indio, Calif., won 2 up over Mary Lena Faulk of Birmingham, Ala. Medalist Betty Rawls of Austin tripped Mrs. George Wilcox of Miami, Fla., 4 and 3. Pro Patty Berg of Minneapolis sidelined Mrs. B. P. Bitterman of Dallas 4 and 3. Helen Detweiler of Indio, Calif., ousted Pat Garner of Midland, 4 and 3.

Pirates Travel To Shamrock for Game Friday

LEFORS — (Special) — The Lefors Pirates will tangle with the Shamrock Irish, Friday at Shamrock Field. The undefeated team once tied Irish with their game as a two touchdown favorite.

The Irish edged Memphis last week 18-14, while Lefors fell to the Cyclones two weeks ago 12-7. This will be one of the better

Undeclared in For Trimming In Class AA

By HAROLD V. RATLIFF AP Sports Editor
Proud heads will fall in Class AA Texas schoolboy football this week as the state's 17 unbeaten teams all play and conference warfare blasts open in three districts.

In three instances undefeated teams meet each other. The headline game of the week is Texarkana's clash with Longview in a District 9 title struggle. Texarkana is unbeaten and untied. Longview is undefeated but has been tied.

Other important battles match Pampa with Lubbock and Midland with Sweetwater in classics of the west. Pampa and Midland have unblemished records, Lubbock and Sweetwater have ties against them.

Lubbock and Pampa used to be in the same district but Lubbock now is in a district with Midland. Pampa, meanwhile, remains with Amarillo in the Panhandle District.

All along the line unbeaten teams run into the kind of opposition that can leave shattered hopes. Big Spring could have trouble with San Angelo and Pasadena, one of the unbeaten though tied elevens, faces tough Conroe.

District 4 opens the conference campaign with El Paso playing Yaleta, in District 7 Greenville and Gainesville get together.

In District 9, Gladewater swipes at Marshall in addition to the Texarkana-Longview battle.

There are 40 games in the state. The week's schedule by districts:

- 1 — Friday: Brownfield at Plainview, Vernon at Amarillo, Lubbock at Pampa.
- 2 — Friday: Woodrow Wilson (Dallas) at Quahog.
- 3 — Friday: San Angelo at Big Spring, Abilene at Odessa.
- 4 — Thursday: Marfa at Jefferson (El Paso), Friday: El Paso High at Yaleta (conference); Saturday: Borger at Austin (El Paso).
- 5 — Friday: Midland at Sweetwater.
- 6 — Friday: Lamesa at Mineral Wells, Waxahatchee at Weatherford, Brownwood at Stephenville, Breckenridge at Crozier Tech (Dallas).
- 7 — Friday: Greenville at Gainesville (conference), Palestine at Paris, McKinney at Denton.
- 8 — Thursday: Sunset (Dallas) vs Highland Park (Dallas), Grand Prairie at Forest (Dallas), Adamson (Dallas) at Denton.
- 9 — Friday: Texarkana at Longview (conference), Gladewater at Marshall (conference).
- 10 — Friday: Orange at Lufkin, Kilgore at Nacogdoches.
- 11 — Friday: Bayton at Beaumont.
- 12 — Friday: Conroe at Pasadena, Kirwin (Galveston) vs Galveston, Port Neches at Galena Park, Harlingen at Freeport.
- 13 — Friday: Bryan at Temple, Cleburne at Hillsboro, Sherman at Waco.
- 14 — Friday: South Park (Beaumont) at Kerrville, Port Arthur at Miller (Corpus Christi), Bowie (El Paso) at Austin.
- 15 — Friday: McAllen at Kingsville, Texas City at Victoria.
- 16 — Friday: Ray (Corpus Christi) at San Benito, Corpus Christi College - Academy at Brownsville, Edison (San Antonio) at Edinburg.

Irish Battle Tough Pirate Crew Friday

SHAMROCK — (Special) — Shamrock's fiery Irishmen, facing a tough Lefors eleven here Friday night, remain the only undefeated Class A team in the Eastern Panhandle, following their 18-14 victory over the tough Memphis Cyclones there last week.

Shamrock has great respect for the Lefors Pirates who will invade Denver field Friday night, because the Pirates were the 1949 District 2-A champions, and also because the Lefors gridmen held Memphis to a 12-7 score week before last.

The Irish sent Memphis reeling from the list of undefeated Class A teams in the fracas last week. Kenneth Kidwell, Donald Lee and Vernon Tarbet scored touchdowns, the former two on line plunges and Tarbet on a pass from Dummam.

Tarbet took Dummam's leave on the 15 in the third period to score the winning touchdown and bring Shamrock under under a 14-12 halftime deficit.

Shamrock will be in good shape for the Pirates, who are reported in excellent condition for the contest. The Lefors crew almost beat Memphis when they returned the second half kickoff for a touchdown, nullified by a clipping penalty.

Shamrock is rated second in Class A Panhandle teams by some sports writers, with Phillips of 1-A third and Memphis fourth. Littlefield, 1949 state champion, retains first in the area.

Texas plays its 212th game with an out-of-state opponent Saturday in meeting the University of Oklahoma. Against the "foreigners" the Longhorns have won 140, lost 62 and tied 9.

games in Class A this week. Last week the Pirates squeaked past the Dumas Demons 21-10, making their season record three wins against two defeats. Shamrock has four victories, one tie, and no defeats.

Pattison Through Sends Lubbock 3 Hour Practice

By CHOC HUTCHESON
LUBBOCK — (Special) — Lubbock's Westerners went through a lengthy spirited drill Tuesday as they girded themselves for Friday night's non-conference meeting with the Pampa Harvesters at Pampa.

Coach Pat Pattison, his squad already riddled by injuries, did not risk subjecting his players to the rigors of a full-fledged scrimmage Tuesday. Instead, he directed the Westerners through a "dummy" scrimmage, stressing play timing and blocking assignments.

The Western first stringers also spent considerable time on defensive assignments, opposite a team of reserves which ran T-formation plays.

After the scrimmage session, Pattison sent the full squad through a brief head-on tackling drill then closed out the afternoon practice with a series of wind sprints.

It was almost dark when the Westerners finished the workout which lasted more than three hours.

Jack Weldon, regular right halfback, who missed last week's San Angelo game because of a broken hand, took an active part in Tuesday's practice. Weldon's mending hand is still in a cast but it now appears probable that he will play against Pampa. The return of the 150-pound red-head, who has averaged 9.3 yards in 14 carries this season, definitely brightens Lubbock's outlook.

Six other Westerners, however, are virtually certain to remain on the sidelines, these include tackle Bill Waters and Oliver Harrell, End Jimmy Crawford, Guard Ross Craig, Halfback Duane Rampey and Bill Davis, the kicking specialist.

Against the perfect record Pampa crew Lubbock will rely largely on the formation of offense which has produced 78 points in four games. The Westerners have a particularly strong ground game having gained 1,068 net yards rushing.

The Lubbock aerial attack with Quarterback Charles Brewer headed most of the passing hand netted 237 yards and four touchdowns. Buddy Hill, a sophomore who shares quarterback duties with Brewer, is the team's major passing threat after Brewer.

Lubbock's defense has been somewhat erratic to date with only one shutout in the four games played. However, no opponent has been able to score more than one touchdown against the hustling but inexperienced Westerners, although yielding numerous yards in mid-field the Lubbock defense usually has tightened in the clutches.

Last week Pattison's charges held San Angelo scoreless allowing the Bobcats only one penetration of the 20-yard line.

Westerner spirit is unusually high for this week's Pampa encounter which rates as West Texas' outstanding Class AA game of the week. The Lubbock club will be glad to protect its record of 16 successive regular season contests without a setback. Pampa was the last team to defeat the Westerners in a scheduled game turning the trick in November 1948 by a one touchdown margin.

The Texas-Oklahoma football series has produced at least five touchdowns for the past four seasons, and the Longhorns have scored at least two in each meeting for the past seven years.

The Connecticut Agricultural Experiment Station is experimenting with wood chips to add organic matter to soil.

MAY SEE ACTION—Jack Weldon, 155-pound right halfback, may return to action this week for the Lubbock Westerners. Weldon missed last week's San Angelo game because of a broken hand, but has taken part in Westerner workouts this week, with his hand in a cast. In three games this season, he has gained 121 yards in 14 tries from scrimmage, for an average of 9.3 yards. (News Engraving)

Texas Basketball Teams Increased In High School

AUSTIN — (Special) — The 1950-51 basketball season will find 1,099 Texas High Schools fielding boys' teams, Dr. Rhea H. Williams, Interscholastic League Athletic Director, announced today.

The total, Dr. Williams said, was taken from a tabulation of schools which have signified their intention, by sending in acceptance cards, to enter the 1950-51

basketball campaign. Last year, the tentative list contained one less team than this year, and stood at 1,098; 1,094 actually took part in the 1949-50 campaign, for a net increase of two teams over the previous year's total of 1,092. This year's tentative list shows a continuing slow increase in the total number of boys' teams.

Oklahoma Aggies Worry Mustangs

DALLAS — (AP) — Southern Methodist University athletic officials said today Oklahoma A&M was fooling no one with that "Thin Thirty" stuff. They said they expected all kinds of trouble when the undefeated, untied Methodists play the Sooner Aggies in the Cotton Bowl Saturday night.

Pointing out that the Southwest Conference had lost only four interconference games this season and two of them were to the Oklahoma Aggies, Lester Jordan, business manager of athletics, commented: "All year the Aggies have been singing the blues, calling themselves the 'Thin Thirty', saying they have no reserve strength and that they're just green football players trying to get along. Yet they are the only team in the country that has

And Scout Clinton (Red) McClain disturbed Coach H. N. (Musty) Russell even more with his report on last week's Oklahoma A&M-Drake game which ended in a 14-14 tie. McClain saw the Aggies in their opening game of the season with Arkansas when they won 12-7. He predicted then that they would beat TCU, which they did 13-7. "They have a tricky offense, are strong on fundamentals and the best conditioned team I ever scouted," McClain reported. Russell persists that his Mustangs will have trouble aplenty with the Aggies and professed to be agghast when told his team was a 10-12-point favorite. The fans also must be expecting a good game, Jordan said today that 50,000 tickets already had been sold and that he had high hopes of a sell-out, which would mean 75,000.

Sports Round-Up

By HUGH FULLERTON, JR.

NEW YORK — (AP) — Casey Stengel, set for two years with the best manager's pay in baseball, will not stand pat with his World Champion New York Yankees.

Boston, Cleveland, and Detroit are respected by Stengel. So is Washington, which he regards as a potential first division club.

Stengel peered ahead into 1951 today after signing a new two-year contract to manage the Yankees. Old Case can get as high as \$75,000 to \$85,000 a year under a bonus arrangement. The bank's pay is believed to be \$85,000.

"That Boston club should be very good," he said. "That young pitcher (Willard) Nixon looked like he would make it. And they have two or three others who ought to make the pitcher better. If they do, then they can keep (Ellis) Kinder on relief. Yes sir, they're very good. When you consider they had that big guy (Ted Williams) out half the year with a broken arm, they did pretty good, too."

"Detroit is another good club. They got a very good infield with maybe a little more strength needed around first base. And they'll be helping themselves during the winter."

"Cleveland, they can knock your brains out. That fellow on first base (Luke Easter) can knock the ball over the fence. And the fellow on third base (Al Rosen) has power, though he did bog down toward the end."

"And Washington. The way they played against me, they can do anything. I think he (Bucky Harris) might move into fourth."

Stengel generalized about his own club's plans for next season. "I have openings on 'this club,'" he said.

"I realize we won with a hard fight. I'd say any young infielder might make our club. Maybe a first or third baseman. Sure, we have openings in the outfield, too. Anybody that can come in and hit home runs can make it."

"Our pitching is in pretty good shape. Ed Ford gave me a fourth man."

Stengel knows all about the youngsters moving up through the farm system. Right now he says Jim Brideweser, an all-league shortstop at Binghamton, N. Y. in the Eastern League can "make the club." He also is high on Dick Carr, a pitcher from the same club.

Gil McDougald, a second baseman from Beaumont; Mickey Mantle, a shortstop from Joplin; Bob Cerv, an outfielder, and Hank Workman, an outfielder-first baseman, both from Kansas City are other bright new faces.

Stengel said he would try no more first base experiments with Joe DiMaggio. Johnny Mize's future is still undecided. Tommy Henrich's future hinges on the condition of his chronic knee condition.

The 40 points scored against the 1950 Texas Longhorns in their first two starts has been exceeded only once in the school's 58-year grid history. Only the 1946 team that bowed to Randolph Field, 6-42, yielded more points in its first two starts.

By JACK HAND
NEW YORK — (AP) — Casey Stengel already talking about "schooling" the Yankee plan for advanced baseball education, tried out last spring, apparently is one of those "added obligations" Stengel took on, along with a whopping salary raise, for next year. About 15 players came in for a look and some extra coaching last spring. One of them, Hank Workman, came up before the end of the 1950 season. Infielder Jim Brideweser, Hank's former Southern California U. teammate, and Catcher Lou Berberet will stick next year. They're bonus players.

But the idea is to have them stick, if they can. "Says Stengel: 'The main thing is to see if we can push along about 15 men in our organization who have shown improvement. We don't want to hold them back six or seven years. We have some openings now on this club for young fellows who can make it.'"

After the Michigan football team was trimmed by Michigan State, Athletic Director Fritz Crisler was in the press box, watching the victorious students rip up the goal posts. "One scribe asked: 'Fritz, what are the latest quotations on goal posts?'" Smiling ruefully, Crisler replied: "I don't know. We haven't had to price any lately."

The way things have been going, maybe Crisler and Frank Leahy should get together and place a wholesale order.

The Tiger of Nassau will eat the Navy war.

Notre Dame vs. Tulane When his sad predictions come to anchor.

You'll agree that Leahy could be Frnk.

Texas vs. Oklahoma The day will be merry For Texas' Blair Cherry.

Penn State Coach Rip Engle, whose Brown teams played Army early in the Blanchard - Day era, tabs Army's Al Pollard as a better back than Doc Blanchard right now. Manpower shortage: Seward Ridlon, statistician for the New Hampshire football team last year, drew equipment this season and is playing center.

Steve Owen's description of the Pittsburgh Steelers: "They get right down on the ground, look you in the eye and kick . . . out of you."

SPORTS MIRROR

(By The Associated Press)
 Today a Year Ago — Talmadge Bussey, 27, lightweight, died in Detroit after being knocked out by Luther Rawlings.

Five Years Ago — San Francisco defeated Seattle, 6-5, to win the Pacific Coast League playoffs, 4-3.

Ten Years Ago — Can't Wait defeated Glided Knight by a head in the Continental Handicap.

Fifteen Years Ago — Illinois defeated Southern California, 19-9, and Minnesota stopped Nebraska, 12-7, in top football games.

Louisiana State Will Doubledeck Grid Stadium

BATON ROUGE — (AP) — Louisiana State University's football stadium will be doubledecked to provide 29,000 seats, increasing its capacity to more than 70,000. The university board of supervisors approved plans for the enlargement. It discarded an alternate plan under which the open south end of the horse shoe would be enclosed.

The plan adopted and scheduled for construction to begin this fall will add seven rows of seats to the existing structure and provide for an overhanging tier of 21 rows all around the "U." Supervisors said this addition would cost less than an equivalent number of seats at the south end and also would provide more desirable seats. The additional seats will be about equally divided between end zone and sidelines.

Cost is estimated at \$1,800,000 and will come out of a \$5,700,000 bond issue authorized by the legislature, part of which the lawmakers earmarked for stadium enlargement.

Voluntary Way Is The American Way

Throughout today's paper you will find various advertisements sponsored by the American Medical Association and its friends fighting socialized medicine, telling the people the truth, the old-fashioned way. Harry a doctor's degree a white back and the fellow in the White House mistook it for a medical degree. Now the figure he has diagnosed—rumblings of the country and has prescribed a good dose of socialized medicine as the cure. The word is out that Harry expects to make socialized medicine something he promised the people in 1948 but Congress wouldn't allow him to make any progress on during its sessions on Capitol Hill in 1949 and 1950, a major issue of the 1952 presidential election campaign. He wants it to prove that he is a doctor—but if his I-tell-ya-yah-what-I'm-gonna-do remedy is used you can bet that the patient will die. Dr. HST has told us how wonderful it will be and how much healthier everyone will be and how much stronger our country will be and—and—and. But, as they say in political circles, let's look at the record. England, the socialized island paradise, has its British National Health Service. It's working beautifully—for the undertakers. In England, during 1949, socialized medicine displayed all the faults and weaknesses to be expected when such a system is applied to a large nation. Today, after more than a year and a half of the National Health Service, the British predicament stands as a glaring, timely example for all Americans to study and ponder. During the first year of the operation of the NHS, from July, 1948, to July, 1949, THE DEATH RATE IN BRITAIN WENT UP RATHER SHARPLY! The Practitioner, highly respected British medical journal, published an impartial report of the first year of the NHS, written by outstanding professional men with the new system. Here are a few examples: "The Service has indirectly caused irreparable damage to the teeth of hundreds of thousands of school children." "Certain very definite risks to childbirth have been added by the present medical service." "A child with bad tonsils doesn't have a chance of an operation here unless her ears are running and there is a danger of meningitis trouble." So the story goes all over Britain, and it is a dismal story of medical decline and danger. Britain's so-called "free" medical care—which actually costs the people double the government's estimate for the first year—has produced a dismal situation aptly described by one London physician as "a shaming of medical poverty." The same doctor, after attend

Fair Enough-Pegler

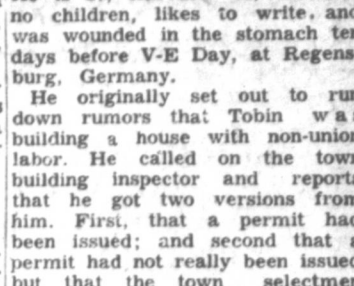

By WESTBROOK PEGLER

NEW YORK—Not content with the winter palace at Miami Beach, for which subjects were nicked for an initial grant of \$100,000, Danforth T. Tobin, the king-president of the Teamsters' Union, has been building a seaside summer retreat for himself and a restricted group of princes of privilege at Marshfield, Mass., near Quincy, at a cost of about \$20,000. The job was done with non-union labor up to a point, close to completion, when Anson H. Smith, Jr., of the Quincy Patriot-Ledger, took out after the story. Thereupon, some occult process, the position of the toilers was regularized in a manner reminiscent of the Aryans of the Japanese by Adolf Hitler. It was represented that the men were not really non-union but just delinquent for a long time in their dues. In union membership and morals he was a non-union labor is a major social and political offense. In known cases the penalty has been death. Delinquency is equivalent to non-membership. However, unions themselves being as I were, divine entities, are incapable of sin and they frequently employ non-union workers, pay sub-scale wages, violate picket lines and discharge employees without notice or severance pay. They also discharge employees for offenses which are held to be insufficient when other employers invoke them. For example, a private employer who fires a worker for calling him a name, Truman in his public repertoire, must take that worker back and pay him for the time lost. But a union may not only fire an employee for this offense without notice or severance pay according to the Book, but may blackball him forever. One union may call upon all other unions to stone him off any and all jobs until he dies. Mr. Smith's reports disclose rare persistence and thoroughness and invite the attention of editors. In two hours, he told a correspondent of the Philadelphia Evening Bulletin, he awoke nights sometimes, wondering what I may have missed in the rush. And America is craving for doctors for its communities. Already the doctors are overloaded with patients. If socialized medicine is adopted it will be necessary to draft men to study medicine to provide doctors for the nation. But Harry doesn't mind a little thing like that. In fact, he likes the power of pulling a switch and having the lights go out. That's what he's after, and most people know it. The others should find it out. And that's why the AMA is running this series of articles, to inform the people of the truth about National Compulsory Health plans for socialized medicine. After forcing socialized medicine on the people and drafting men for medical training it will reach a point of the government operating drug stores and pharmacies and more government-owned businesses. Is that what you want? Harry does. There is only one essential difference between socialism and communism. Under state socialism human liberty and human dignity are moved slowly, but they die just as surely. The voluntary way is the American way. This nation has existed this way all of its long and honorable life, existed better than any other country in the world. THE VOLUNTARY WAY IS THE AMERICAN WAY.

The Red, White and Blue (Particularly The Red)

MARK VAN DOREN: Am. soc. for cult. relations with Russia, committee for welcome of Red Dean of Canterbury, com. to abolish com. of Congr. on Un-American activities, "world gov. news." FRANK WALDO: Am. com. for prot. of foreign born, Am. Pushkin com., Am. revolutionary writers, friends of the Soviet Union, John Reed clubs, Intl. Labor Defense, union for Dem. action, Communist party, 50 others. United World Federalists, students for world gov., "world gov. news," action for world federation. A. F. WHITNEY: Am. Youth Congr. (formerly Young Communist League), Congr. of American-Soviet friendship, friends of A. Lincoln Brig., Intl. Labor Defense, "New Masses," people's daily news, 25th anniv. of Red army, "Soviet Russia today," U.S.-Soviet friendship rallies. Well, this is getting monotonous. I could go on for the next two months calling off the rooster, but you begin to get an idea of the type of people who are promoting the one-big-world-government idea under its various "front" organizations. Just thought I'd mention it so that the next time you hear world government enthusiasts pretending that the movement is as pure as driven snow and free from Communism, you will have some ideas of your own. You might spot a few of them in your own home town, who knows. You can verify most of the organizations mentioned as "Red fronts" or Communist cells by simply getting the reports of the committee investigating Un-American activities of the Congress of the United States. Others are listed by the legislative committee investigating Un-American activities of the state of California. That is just a small amount of documentation, a sample. I wish I had space to give you the records of Norman Corwin, Norman Cousins, Lewis Storey, Lowell Mellett, Bishop Francis McConnell, Carey McWilliams, Scott Nearing and other big wheels. I am not saying that all of the big one-worlders ARE Communists because I can't PROVE it. It is difficult to establish a man as a Communist unless he admits it or you get hold of his party card, or a responsible governmental agency has the testimony of sworn witnesses. What I AM saying that it is very peculiar that world federalist leaders should also be members of PROVEN Red front organizations. For example, have YOU ever joined any of the Red front organizations I have listed? Probably you have never heard of them. Most people haven't. But they'RE THERE, all right. Take the anti-Fascist refuge committee, for instance. Most ordinary Americans never heard of it. But CONGRESS did. After an extensive investigation that committee was discovered to be highly financed and a RED FRONT, a Communist transmission belt. Note how many world federalists are or have been members of it in my listing. How do THEY know all about it—this Communist agency—while the average citizen isn't aware of its existence? It is "anti-Fascist." When you stop to reason that Communists regard ALL patriots, ALL American Nationalists, ALL individualists, ALL people against Communism and world government as "Fascists," easily see why the named their organization "Anti-Fascist." They are

"How You Grew While You Were in Korea!"

National Whirligig

news behind the news

By ROGER WARREN (Ray Tucker is on a vacation.) WASHINGTON—Governmental restrictions on home building may avert what might have been an economic set-back which would have cost the Democratic party the presidential election in 1952. Mild restrictions on housing construction will be imposed, but more are coming. The Federal Reserve Board is expected to give the credit screw a few more turns and, as priorities become necessary to advance further the rearmament program, housing construction will be slowed down more. Steel and cement have already become hard to get and other essential materials will be scarce. is a matter of dispute among economists. Or—what is more important—at just what date buyers discovered it. Some say we are already overbuilt, and they point to the longer and longer lists of apartments and homes for rent in many large cities as evidence of their claim. They say that sales of new units would have slowed down long ago if government guarantees had not made credit go soft. Other authorities say that we are still a million or so units behind current requirements. Whichever is right, it seems certain that the housing boom would be punctured sometime between now and elections in 1952. If the puncture were to come, it would undoubtedly have such serious effect on the economy that the political repercussions would be sharp. Something else, possibly, would intervene. The fertile political imagination of the Truman administration might be expected to pull an economic rabbit out of a tam-shanter. But that's not necessary now. Joe Stalin has done our hat trick for us. TIME—What we have today is the prospect of a tapering off of the housing boom instead of a sharp bust that does not minimize the adjustments that will have to be made. Contractors will have to shift to government work. Retailers who have been supplying the "new" market may have to develop other markets to the extent that lesser supplies of home goods permit them. Manufacturers may have to turn their eyes away from charts that foretell millions of consumer sales in the home-furnishing and appliance fields, and focus them on the realities of the consumer market and the new, growing government market. But at least all of them—all of us—will have time to adjust. Adjusting may hurt, but it may be far less painful than a bust. BACKLOG—Whether or not the country has over-built housing, the basic situation provides a healthy future. There may still be a backlog of demand for one, one and a half, or two million more units. Even if there is a theoretical backlog of zero, as marriages are performed and new family units are created, a real backlog will be created and grow. When we are over the hump on rearmament, if of we ever can establish peace with the Russians, this backlog will insure a high rate of construction activity. It means that when men are released from war work and the army there will be jobs for them, and when war manufacture is converted to peace industry, there will be markets waiting, too. COLLAPSE—If the Korean war plus its lesson on the importance of rearmament for other possible aggressions, had not intervened, home building would continue at its million-a-year rate. Then, at some future date, the country would have awakened to the fact that it was over-built. At that point there would have been a collapse. Private lenders would quickly withdraw from financing housing. Contractors would have found themselves suddenly without contracts. Property values would fall. And the thousands of retailers who were supplying the things to change housing into homes would see their markets deflate with a not-too-quiet thud. DISPUTE—At just what date the country would be over-built individual independence. The "refugee" gets caught here illegally the "anti-Fascist" boys rush to his defense to keep him from being deported. It's a big business. I can prove that merely by quoting former attorney general (now Supreme Court Justice) Clark, who flatly stated that on an average of 2000 ALIENS A DAY were coming across our borders illegally. Even though we keep them from swamping us by catching a lot of them, we have trouble deporting them because of legal and other actions to hamstring us and protect them instituted by the "anti-Fascist" and "refugee" committees. Communists naturally want to get all the Red-sympathizing aliens they can into America, where they can be organized, some of them even rising to commanding positions, like Harry Bridges. If a final showdown comes and outright revolution is precipitated—especially if we are at war and our troops are overseas—these organized aliens could be a mighty formidable guerrilla army. While we are worrying about RUSSIA's Red army and wondering if it could invade the United States, the Communists are miles ahead of us—they are building one

The Nation's Press

WHAT ARE THE ACTS, MR. REUTHER? (The Wall Street Journal)

In recent years there has been a group of people in Government and among unions whose goal is to get Government into business. The key industry they'd like to see the Government own and run is steel.

Yesterday, according to the Associated Press, President Walter Reuther of the United Auto Workers-C. I. O. said that an impending steel shortage threatens to throw a lot of his auto workers out of jobs. The scarcity of this material, he argues, is caused by "the monopoly control of steel." And he adds: "The steel manufacturers say there is too much steel capacity but that they would build more plants if they could amortize the cost over a five year period."

Mr. Reuther's specialty is autos but since autos are one of the biggest users of steel he ought to be acquainted with a few steel facts of life. Such as— Steel ingot capacity in this country in 1945 was 90 million tons a year. Today the capacity is a little more than 100 million tons. The companies in this industry have plans to add five million tons a year within the next 27 months. The steel makers will provide enough of their products to enable the auto industry to make a third more cars and trucks this year than last—and last year saw a big new record for the auto makers.

Does that read like "monopoly controllers" trying to hold down production? THE MINER'S LAMP (The Wall Street Journal) We know of only one reason why a political leader, be he a dictator of Moscow or of mine workers, should try to prevent his minions from hearing another man speak his piece. If the Taft-Hartley law is the slave labor law John L. Lewis says it is; if Senator Taft, its author, is the wicked oppressor of labor Mr. Lewis portrays him, John L. would not have to worry about his miners listening to Mr. Taft.

Leaders hang iron curtains to shut out the light only because they fear without them their followers might see too much too clearly. So They Say Even though it would seem easier without some people in there (the UN), I'd rather see us do the hard thing—keeping on a whole, keeping the bridge open. —Mrs. Eleanor Roosevelt My name was usually Blinky. And in every picture I would say, "Come on Joe, or John, I've got the stuff in the car." I never did find out what the stuff was. —Screen comedian Phil Silvers, telling of his several early roles as a pal of the hero. "We're going to find out if our meat is being sabotaged. Communists have tried to sabotage our factories—why not our hogs?" —Congressman Karl Stefan, after calling upon the FBI to investigate. Everyone likes to eat and drink. Very few are those who do it well. The satisfaction of a good meal, as is necessary to man as his spiritual nourishment. —Claude Michel, noted French steward. If we want a healthy society made up of healthy bodies and healthy-minded citizens we must invest more money, time and effort in farming, not in acquiring more doctors and dentists. —Jonathan Foreman, editor of the Ohio State Medical Journal.

Thoughts

Take, my brethren, the prophets, who have spoken in the name of the Lord, for an example of suffering affliction, and of patience. —James 5:19. There are no songs comparable to the songs of the prophets equal to those of the prophets. —Milton. Sound travels four times faster through water than it does through air.

The Doctor Says

WRITTEN FOR NEA BY EDWIN J. JORDAN, M.D.

LOOKING AT SWITZERLAND "Probably some of my readers will say, or at least think, that this piece is in bad taste now that American boys are being killed every day in the 'police action' in Korea. If so, so be it. However, to those who feel that way I'd suggest that they keep in mind that 'police action' or no 'police action,' war or no war, there is still an awful lot of debunking which must be done if this country is to come out of this ruckus with its form of government unchanged and its way of life intact.

A recent survey of world economic conditions shows that no country in the world is in a stronger position than Switzerland. It is the only country in the world which has its currency backed 100 percent by gold. In fact, the Swiss gold holding per capita is more than three times as great as in the United States. How has it been possible for Switzerland, completely surrounded by countries which have had recent wars, to remain neutral whereas the United States which is more than three thousand miles away has been involved in two European wars and is now well on its way to being very seriously involved in another one? Maybe part of the answer is that Switzerland has defied every rule which the American internationalists say must be followed by a modern state in order to maintain peace and promote prosperity.

Switzerland is not a member of the United Nations. Out of courtesy to this country it joined the Marshall plan but it never took a dime of American money. It did not become a partner in the European payments plan set up by the recipient nations under the Marshall plan. It did not become a member of the Council of Europe, world bank or monetary fund. It is not a party to the North Atlantic military alliance or of the mutual assistance program. Switzerland does not have any government supported plans or devices to promote free trade. Switzerland is a true Republic, has been for 600 years, and keeps open frontiers for both imports and exports. It is the only capital exporting country in Europe and it exports capital not on the basis of government hand-outs but rather on sound business terms. Switzerland imports more than it exports—and pays the excess in cash instead of crying, like its neighbor countries, over "dollar shortages" or inability to balance payments.

The Swiss did not devalue their currency last September when their European neighbors did. Instead they maintained the parity of the Swiss franc with the dollar, which has existed since 1936 even though this had the effect of increasing the price on Swiss exports by 43 percent. Switzerland has met this problem by sustained production of high grade capital goods which Europe and the world badly need. Under a free competitive economy the Swiss work while their socialist competitors mess around with rules, regulations, expert and import controls, the devising of plans and the setting up of goals which are never met. Those who swallow the internationalists' bait—that only the government can promote prosperity and that only through international agreements and alliances can peace and stability be maintained—would do well to take note of several long looks at Switzerland and its accomplishments.

Washington.....by Peter Edson

By DOUGLAS LARSEN NEA Staff Correspondent

Peter Edson is in Europe on a special assignment. WASHINGTON (NEA)—From now on, as never before in the peacetime history of this country, the average U. S. citizen will find the military moving in on his private life. Taxes are going up to finance the mobilization, the draft has become an integral part of every young man's life. All kinds of consumer goods will go up in price and be in short supply as the services stock up on this and that item. No man with a special skill or training can consider himself a free agent any longer. He has become military property. The degree to which defense officials can keep this encroachment on the military palatable to the civilian population will determine the nation's patience and ability to maintain an adequate defense against the threat of Russian aggression. The Korean affair has everybody steamed up about a big defense. But the taxpayer is sickle. If Korea turns out to be an

isolated incident and not the first of a chain of such events, as the military now considers it, the nation's patience and indignation will again become a popular political symbol. This will be even more of a danger if the wily Russians pretend to relax their belligerence for a few years. Under Johnson the services got together on a unified budget, an extremely important tool in promoting efficiency. It is now ridiculed claim of cutting, out fat and leaving muscle has saved a lot of lives in Korea. UNNEEDED HOSPITALS For example, one of his most criticized "hatchet jobs" was cutting out half-filled military hospitals around the country. This particular economy was a special barb in the sides of many congressmen. A military hospital is a nice plum for a community. But the hundreds of doctors who were freed from this wasteful duty in empty hospitals are now giving the men in Korea better medical attention than most of the wounded received in World War II. And it's the unified air and sea transportation, accomplished under Johnson, that is providing the marvelously efficient evacuation of the wounded, emergency air delivery of critical weapons, and the whole amazing job of supplying the Korean fight. True, some of these programs were conceived before Johnson, but if it hadn't been for some of his "head-bumping" they wouldn't have been accomplished for years. This recitation of some of Johnson's positive accomplishments does not imply that he shouldn't have been removed. The fact that overwhelming public sentiment, apparently making itself felt in a democratic manner, forced him out, makes the net achievements of his stay at the Pentagon purely an academic question. The important thing is for the public not to let Johnson's experience be interpreted by the military leaders as a reason for taking the country over, instead of confining themselves to its defense. In a somewhat crude way that's what Johnson was trying to do in behalf of the

MOPSY Gladys Parker

Bid For A Smile

Non-Dad, I have to bring to the class tomorrow a simple explanation of the theory of relativity and also the theory of relativity. I wish you would help me. Dad—All right, son. Suppose we begin with Einstein's theory. That's the easiest. The utilities to government is the entering wedge, a major step on the way toward complete socialization of our economy. Inventions that failed Mark Twain a lot of money, but one he didn't invest in could have made up for all the other losses. The tall man with kindly eyes that met the famous author in the street one day had an unusual-looking device under his arm. The man explained about his invention. The humorist listened politely, said he had learned his lesson in investing in "h-a-y-s-bread" schemes, and refused to back the new apparatus which the man displayed. "But I'm not asking you to invest a fortune," the man pleaded. "You can have as large a share as you want for \$500." "Still the man wrote 'Tom Sawyer' and 'Huck Finn' refused to invest his money. The strange man walking away when Twain called after him: What did you say your name was?" "Bell," replied the inventor of the telephone. "Alexander Graham Bell."

JACOBY ON CANASTA

Beginning of a Tragic Finish

By OSWALD JACOBY
Written for NEA Service
Minnie the melder dealt and turned up a four spot. The score was opponents 3880, Minnie and her partner Hold-up Harry 2470. The first three discards in order were 4-4-5. Minnie's hand consisted of a joker, a deuce and ace - king - king - jack - nine-eight-eight-four-four. She drew a five spot.

At this point Minnie could have melded her nines in any one of several ways but did restrain her melding impulses. Minnie loves to meld but even Minnie is not going to use her two wild cards to make a first round meld when there is no urgent reason to do so. Minnie simply discarded the five.

The next player drew and discarded a queen. Hold-up Harry placed joker-nine-nine and two queens on the table, added the queen from on top of the discard pile, took the rest of the pile into his hand and discarded one of the three fours.

Without seeing Harry's full hand we can't be sure that his discard of one of the fours was correct. However, the chances are that the play was all right. Except in very unusual circumstances when you start by taking a fair-sized discard pile and the opponents need 120 you should forget about playing for out in a hurry and try to play for a big hand. With Hold-up Harry that particular play was automatic.

Generous George who played

she melded the four with the two in her hand and added her own nine and joker to the nine meld. This made a meld of four nines and two jokers and left her side one from a canasta in nines.

Minnie discarded her jack and her hand now was ace-king-king-king-8-8-2. This was not a good play, neither was it a particularly bad play. In my next article I will analyze that play and describe the further progress of the hand. Actually, this play started a sequence that would play disastrously for Minnie, but the principal blame for that sequence is due to plays made later on by her partner.

The National Geographic Society says watermelons were brought to America by the earliest settlers.

Court Upholds Negro in Entry To LSU School

NEW ORLEANS — (AP) — Qualified Negroes must be admitted to the law school of the Louisiana State University, a three-judge U. S. court has ruled.

Roy S. Wilson, a Negro of Ruston, had asked that the LSU board of supervisors be restrained from putting into force a resolution adopted July 2 to exclude

him and several other Negroes from the law school.

In an opinion written by U.S. District Judge J. Skelly Wright, the court ruled Saturday that to bar Wilson from the school "solely because of his race and color denies a right guaranteed by the 14th amendment."

The court added that to en-

Fat Is Not a Nice Word When Applied to the Body

Don't say it's your thyroid while reaching for the box of chocolates. Possibly one bulgy person in 100 has some glandular disturbance and that is truly a case for a physician. Never take any treatment for a gland condition without your doctor's advice. But for the other 99 per cent who are trying to fight the "Battle of the Bulge" common sense is the watchword. It is not necessary to over-eat and then quickly put it back on either. Furthermore, it just doesn't make sense to go on a strenuous diet—take off weight and then quickly put it back on again when the diet period is over. For it is obvious that one cannot continue a starvation diet over a protracted period. Within the last year or so, several diet and vitamin "plans" have appeared on the market, which mean cut down on the food intake and fortify with vitamins for hunger distress. But as mentioned above, you can't keep this

World Series Brings Random Thought to Henry's Mind

By HENRY McEMORE
Thin thoughts by a thick man: Have you ever noticed how often politicians complain about what they seem to feel are their low salaries? They point out that they aren't paid as much as men in business with similar responsibilities.

I have never been able to shed so much as one-tenth of a tear for them because they strive go to the trouble of pointing out the privileges which go with their jobs, and which couldn't be bought by the highest paid executives in the country.

I was reminded of this at the recent World Series. The man who wasn't a politician had one heck of a time parking his car within a mile of Shibe Park or Yankee Stadium. He had a heck of a time getting a cab, and the cab had to drop him half a mile from the stadium if he was to get there on time for the ball game. And what did he see when he reached Shibe Park or Yankee Stadium? Scores of limousines parked where no other cars were allowed to park—within ten feet of the entrance gates. No use for me to tell you to whom those cars belonged. They carried politicians, most of whom had police escorts, and were able to breeze through the World Series traffic as if they were the holy of holies.

The politicians never add this high convenience to their pay. Senators never remember the benefits of the prestige their position carries. Diplomats are likely to forget the joys of being spared the thousands of petty inconveniences to which the man in the street is subjected. Please let them remember this when they wail about the money they make.

No one is prouder of American progress and efficiency than I am. Turn me loose in Europe and I'll boast for hours on how we can build a skyscraper in three and a half days, turn out locomotives as if they were toothpaste tube tops, and tunnel through mountains faster than a beagle can make his way through a pound of salt butter.

But in my heart I am not completely happy with American efficiency. We do things too well for the happiness of the little man. Take the way we package things, for example. Have you bought a tooth brush lately? If you have you know the struggle one must go through to get it out of the container. It's done up in a stainless steel, cellophane wrapper that can only be broken by a sledge hammer, a chisel, and a pick axe. I bought a tooth brush yesterday and have been working on the package ever since with no visible effects. It is my guess that I won't break through the tomb of that tooth brush until early next week.

Coming back on the train from the World Series game in Philadelphia last week a friend of mine (I have cautioned him against the use of spirits for years) ordered a drink of Scotch. It was brought to him in a little individual bottle and he started

trying to open it just out of Trenton. When we reached New York his fingers were bleeding, his temper was gone, but the little bottle was as intact as ever. It apparently was sealed with plaster of Paris, two-inch armor plate, and a thick coating of cement.

He and I both expressed the wish that there was something in this country that came in an open shoe box, or a paper bag, or was just handed to you with

no wrapping whatsoever. Much better, it seems to me, to risk a few germs than to break your heart getting at what you have bought. I feel there is a great field for some manufacturer who will put up a product and state that it isn't a very good product but it is immediately available.

I might even give him a slogan: Buy It And Use It The Same Day You Buy It. No Strong Man Required To Open Our Product. Our Product Can Be Opened By

A Small Child Without The Use Of Dynamite, Hoisting Machines, And Steam Rollers. (Distributed by McNaught Syndicate, Inc.)

Take Off Ugly Fat With This Home Recipe
Here is an inexpensive home recipe for taking off unsightly weight and helping to bring back alluring curves and graceful slenderness. Just get from your druggist four ounces of liquid Borestrate. Add enough grapefruit juice to make a pint. Then just take two tablespoonfuls twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back breaking exercises or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slendery, more graceful curves, return the empty bottle and get your money back.

Marching Koreans Outpace Slow Flying Gypsy Planes

By HAL BOYLE
WITH KOREAN REPUBLIC TROOPS IN NORTH KOREA
 Two American planes have been outmarched in North Korea by the South Korean foot soldiers the planes were supposed to protect.

It might gall the ghosts of the Wright Brothers to know that the aircraft, two of the artillery's Cub spotter planes, have been out-distanced by a column of little men in tennis shoes. And it's downright humiliating

to "the slow-flying gypsies." They are eight Yanks whose job was to fly ahead of the Republic of Korea (ROK) Third Division along the East Coast, pinpointing enemy targets for American naval guns offshore.

But the small, wiry South Korean infantrymen, fueled on rice, have set a pace the air-planes can't match. It looked like a perfect setup when they began their assignment early in September. They thought they were plenty mobile, with their two planes, a jeep and a 2 1/2-ton truck.

The group had two pilots—Lt. Raymond J. Worth of Galveston and Lt. James W. Maschmann of Ladora, Iowa. It had two trained observers to pick out enemy targets—Lt. Edward B. Ledford of 10,081 Empire Rd., Oakland, Calif., and Lt. Clayton Johnson of Portland, Me.

It had two crack drivers to keep its vehicles rolling—Cpl. Lawrence C. Boucher of Marin City, Calif., and Pfc. William Clark of Yucca Valley, Calif. And it had an excellent airplane mechanic in Sgt. Jack F. Bollin of Clinton, Okla.

All these boys agreed that they had the best cook in the army: Cpl. Rubin Collins of Watonga, Okla.

The slow-flying gypsies performed admirably as long as the ROK troops were held to a creeping advance in the Pohang area. By finding the targets they helped eight-inch naval guns to crack the enemy's defensive crust.

Time to get

those summer kinks

out of your Buick!

THERE'S a change of the year for your Buick, too, stalwart as it is! Hot summer driving has taken its toll—in played-out lubricants, spark timing that may have slipped off a notch or two over the many miles, a carburetor that would probably give you better mileage and snap if it were properly adjusted now for fall driving.

Point is—your Buick will feel a lot friskier in the trying days to come if you let your Buick dealer get those summer kinks out of its system now! Just drive in—say you want (1) a fall tune-up and (2) a regular Lubricare—and see how much rewarded you are, for a small fee!

Do it this week, will you? Before the rush, you can be served more promptly.

Put your Buick in Buick hands.

PAMPA NEWS, WEDNESDAY, OCT. 11, 1950 PAGE 5

They asked how far ahead the metal strip runway. Empty that they wouldn't become a target in the dark for bypassed enemy forces.

"We're just a bunch of gypsies going down the road," Ledford said forlornly.

"Yeah," sighed Johnson, "slow and low—and damned unsure."

And then all eight gypsies burst out laughing.

Physicians and Surgeons

Unfettered by political controls, American medicine has made this the healthiest, strongest nation in the world. Socialized medicine would endanger our physical health, our economic welfare and our political freedom. Let's keep our right to manage our own lives . . . to earn our liberty . . . to keep America the land of the free.

McLean's Fourth Polio Case Home

McLEAN — (Special) — Charlene Hall, 11, McLean's fourth polio victim of 1950, is expected to be returned to her home soon from Worley Hospital, Pampa, where she is under treatment. Charlene is the daughter of Mr. and Mrs. Charles Hall.

The other McLean victims of the disease are Victor Craig, 8-year-old son of Mr. and Mrs. Jack Craig, who waited the year's first polio victim; Roy Norvell, 14-year-old grandson of Mr. and Mrs. Henry Rosson and Lou Ann Graham, 9, daughter of Mr. and Mrs. George Graham.

The Craig child is reported to be almost completely recovered from the disease and is now at home in McLean with his parents. Norvell is still confined to the polio clinic in Plainview, but is reported to be improved. The Graham child is still in Plainview also, and it is reported that she can now move her hands a little. She was almost completely paralyzed by the disease.

Texas plays its 127th game against a state university Saturday in meeting Oklahoma. The Longhorns own a won-lost-tied record of 88-34-4 against this type of institution.

Report Cards To Be Discussed At Baker P-TA

"The Value of Report Cards" will be the panel discussion topic, led by Dr. Ruth Lowes, teacher consultant from West Texas State College in Canyon, at the Parent-Teacher Association meeting at B. M. Baker school Thursday at 2:15 p.m.

The meeting will be held in the school cafeteria. The school chorus, directed by Mrs. Claudie Gallman, will perform and Mrs. H. M. Stokes will discuss the birthday of the association. This meeting will follow an executive board meeting to be held at 1 p.m. in the principal's office.

Kellerville Church Opens 10-Day Meet

McLEAN — (Special) — The Rev. Ray Stephens, pastor of the First Baptist Church of Spearman, will begin a 10-day revival meeting at the Baptist Church in Kellerville, Sunday, Oct. 15, the pastor, Rev. H. Price Bishop, has announced.

Services will be held twice daily at 10 a.m. and at 7:30 p.m. Music services will be directed by Mrs. Brent Chapman, assisted by Mrs. Don Haslin at the piano.

GULL AND 20-30—Members and wives of the 20-30 club have a few more questions for Rep. Ben Guill following his speech before the group last night. Left to right are Mr. and Mrs. Dee Thornhill, Mr. and Mrs. Benny Walker, Guill, and Mr. and Mrs. Bill Nellis. Last night was "Ladies Night" at the club meeting. (News Photo and Engraving)

Guill Paints Grim Picture For 20-30 Members, Guests

Republican Congressman Ben Guill last night painted a grim picture on world and national affairs to members and guests of the 20-30 Club meeting in the Schneider Hotel. Guill saw a prolonged period of armament spending, inflation, increased cost of government and higher taxes. He said a demand for a cut in non-essential spending in government and a greater awareness on the part of the people of their responsibility in making good government were urgent. Guill appeared as guest speaker for the semi-annual "Ladies Night" of the young organization here. Approximately 30 persons gathered to hear the representative to Congress following a dinner held in the hotel. The group meets regularly every Tuesday night.

"Our only hope of salvation — against the Reds — is to be highly armed," he said, "and this must be maintained the rest of our natural lives."

He envisioned a steady rise in the rate of taxation due to the cost of maintaining our strength and that of our allies. "Inflation would bring additional demands for tax dollars," he said. "The cost of government is rising," he pointed out, "and should we have to fight Russia, even if we won, we could expect an increase in the national debt to well over six hundred billion dollars." The figure now stands over two hundred and fifty billion dollars.

He said that public demands for a decrease in non-essential spending would be one of the surest ways of cutting the national indebtedness. He said the Hoover Report, if followed, would cut federal expenses over five billion dollars per year.

"Good government just doesn't happen," the congressman said. "It is built by the people's votes." "Watch your elections, study the issues, check the men running for office and take an interest in good government," he urged. "Only the man sent from here gives a hoot about the Panhandle."

"Make him do a good job. Don't give him a mandate on a congressional chair for the rest of his life. Ask him how and why he is going to vote on certain questions."

"In commenting on controls, Rep. Guill said he disapproved the control bill as passed by the House. He said one that would bring control "all along the line" would be acceptable. In speaking on foreign policy, the Panhandle representative said the "Far Eastern thing is the most tragic and pitiful thing in our history."

"We have been sold a bad bill of goods," he added. He said rumor in Washington placed the recognition of Red China by the U. S. as the end of Formosa and Chiang Kai-shek. When these are gone Gen. MacArthur would have to step out. Then this nation would have lost its only chance of regaining China from the Communists.

He stood behind the rearming of Western Germany. According

to the congressman, the U. S. can't depend on the Western European nations to stand behind it in the future.

"We might be fighting them one of these days," he said, and they would be using our money."

He said Western Germany under our supervision, however, could serve as an excellent buffer state against the Reds in Europe.

"Russia is in the favorable position of standing back with push buttons, able to start a minor

war anywhere in the world for which we would have to spend American lives and untold millions of dollars. They hope to break us without ever having to be attacked themselves," Guill stated.

"We can't stage a 'preventative war' without being aggressors," he said. "We have never been such and have stood against this' throughout the years."

The congressman said he favored Universal Military Training "... because it would take the uncertainty out of the lives of young men of this nation."

One or more field goals were made in each of the four successive Oklahoma-Texas games, 1930-33 inclusive, but the series has not produced one since that string was broken.

Doctors Feel Ads Necessary

Today's issue of The Pampa News carries many ads sponsored by the American Medical Association, its members and its friends. Dr. Joe Donaldson, secretary-treasurer of the Top of Texas Chapter of the AMA, explained the advertising as follows:

"At the San Francisco meeting of the AMA last June it was agreed to deviate from the former policy of remaining in the background. Instead it was decided to come out with this advertising nationally to fight for what we feel is best for the patient."

"This is not a battle against socialized medicine. Instead, it is an attempt to encourage people to buy some plan of medical insurance, voluntarily, for better service at less cost."

"What we want is a voluntary program, one where the people can choose their own doctor and hospital."

"Today in America 70 million people are protected by voluntary health insurance, the greatest total in the nation's history. There are hundreds of voluntary health insurance plans. And this advertising campaign is urging people to adopt one of these plans for their own benefit."

Officers Installed At McLean Legion

McLEAN — (Special) — Formal installation services for incoming officers of the Andrew H. Floyd Post 315 of the American Legion were held Monday night in the Legion Hall.

Rhea Smith of Amarillo, commander of the 18th District, was in charge and installed George Terry, commander; J. C. Claborn, first vice commander; R. E.

Class on Packard Transmission Held

C. E. Benham, Packard representative from the Dallas zone, conducted an all-day service school Tuesday on the new Packard's transmission.

The school was held in the service department of the Auto Mart, local Packard dealer, 222 N. Somerville. Representatives from Packard houses in Perryton, Shamrock, Borger and Pampa spent the day removing the transmission from a new Packard, disassembling it, studying each part

carefully and reassembling and reinstalling the transmission. Attending the school were Ralph E. McIlvain and J. R. Zundel, Perryton; U. S. Boydston, Shamrock; R. C. Doose, Borger; Roy Chisum and Don Young, Pampa.

A slide film on the operation of the transmission was shown by Benhara Tuesday morning.

We like taking orders...

...from customers who want our products. We know those customers have shopped around, looked over other products and have decided that ours is right for them. It keeps a company on its toes...taking orders from people.

BUT THERE'S A KIND OF ORDER-TAKING WE DON'T LIKE

...the kind you'll find in some foreign countries where it's no longer the customer—but the Government that gives the orders on what shall be made, what shall be sold... and to whom.

We want no such system in America.

That's why we say: Let's Keep the Voluntary System in America!

Voluntary insurance, Voluntary manufacturing, Voluntary buying and selling are all part of American freedom. They make it certain that—

In America—the customer gives the orders!

THE VOLUNTARY WAY IS THE AMERICAN WAY

Who Runs America?

the Congress? the President?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

<ul style="list-style-type: none"> General Federation of Women's Clubs American Farm Bureau Federation National Grange Veterans of Foreign Wars National Conference of Catholic Charities American Protestant Hospital Association 	<ul style="list-style-type: none"> American Legion National Association of Small Business Men United States Chamber of Commerce National Association of Retail Grocers National Retail Dry Goods Association American Bar Association
--	---

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proudful security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance-companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

You and Your Neighbor Run America!

YOU and the SERVICE

NEA Staff Correspondent
By DOUGLAS LAHSEN
WASHINGTON — (NEA) —

Q. A young man who is doing exactly the same thing I do in our shop has been deferred from the draft because of the importance of his work. Does that mean I will be deferred if I get a call to active duty?

A. No. The policy of draft deferments is much more lenient than the policy of deferring reservists.

Q. We had been planning to send our son to college. But he has just received his draft notice. If we get him enrolled before the date of induction will he be deferred?

A. If you can prove to your son's draft board that you had planned to send your boy to college by showing definite steps which you had taken previous to his notice, the board is instructed to defer your son for a year.

Q. My boss told me that he considers me a key employe and wants me to take steps as soon as possible to be deferred in case I get a call to active duty. Would I be smart to apply for the deferment before I get my call? Or would that just bring my name to the attention of the Army and get me called up sooner?

A. It won't do you any good to try to get a deferment before you get a call. But it won't hurt. No deferment application will be considered by the Army until after a man has had his call. It's not likely that applying beforehand, however, will inspire the Army to call you any sooner.

Q. Do I ask for a deferment from a call to active duty or should my boss write the letter?

A. Either you or your boss can apply for deferment.

Q. Is there a chance of women being drafted?

A. That's not in the law and there doesn't seem to be much sentiment for it in Congress.

Approximately 100,000 people live in subterranean dwellings in Northern Africa.

HEALTHY, WEALTHY AND why?

America is the healthiest great Nation in the world. Americans live more abundantly than any people in the world. . . . why?

Not because somebody passed a law. But because the founding fathers were WISE. Because they turned away from dependence on Government. Because they believed that real security is based on individual initiative.

Americans today believe that, too. That is why America is the symbol of human Freedom . . . the bulwark of world liberty!

The strength of America is the product of creative, free initiative. America's health is the best in the world. A free medical profession will keep us so.

Freely, without compulsion, over 70 million Americans have secured the best medical care in the world, through Voluntary Health Insurance, prepaying the major costs of illness.

The price is low—the care is the best. Your program for your family can be tailored to fit your needs and budget!

COPE, 1950 BY NEA SERVICE, INC.

The little Pekinese, feeling left out of the fun, leaned out of Mrs. Muchmore's clutch and bit Roger Blessen.

I SNIFFING the fresh laundry I detected smell of my waste jacket as I buttoned myself into it that first morning after my vacation was over. I was glad to be back at the store. It's only a small-town drug store, but the Fortson Pharmacy is all mine, and making money.

Walking up front through the crocodile smells of the dog medicines and disinfectants at the back of the store, I knew there was no place in the world I'd rather be. If you can think of a better job for a nosy guy than that of a small-town pill roller, I'll take it.

Sure, I'm nosy. Who isn't? I'll admit I like to know what's going on. I like people—all kinds—and I like to know what makes them tick. Some folks put jig-saw puzzles together for fun; I do the same thing with talk and tattle and tell-tale actions.

I sauntered up to the rental books and found "Tears and Phobias" tucked away between a whodunit and a hot love story. A man can pick up an interesting story for the low brow. I never miss one. So I stood there skimming until I got my elbow logged.

"Young man!" Mrs. Muchmore's lips were pressed together and her nose was in a book and customers waiting!

So I took my nose out. My cashier Betsy Sharpe was busy at the cash register because we have a 10 o'clock coffee rush, but I heard her giggle. Grace Muchmore is one of those nosy women with her eyeglasses pinned to the northeast corner of her nose. She always made me feel like I'd held out on the church collection plate, but she's a good-hearted old girl actually. She handed me a prescription and glanced down at the Pekinese. She watched me read the veterinarian's prescription rather doubtfully.

"Doctor Doan said Ching must have the medicine at once," she told me. "I thought I'd try here first. But if you can't give me ingredients I can call my druggist in the city."

The local vet, Doc Doan, had prescribed some ordinary vitamin pills for the pooch. I noticed then that the half-pint dog under our local Lady Bountiful's arm did look kind of peevish, even for a Pekinese, if you'll pardon the low pun.

"I can give you these, Mrs. Muchmore," I said. "What seems to be wrong with the little dog?"

"I started to get his head sick the day he lifted his hip and growled to say he wasn't keen about my bedside manner. So I put my hand in my pocket.

"Doctor Doan seemed to think he had a faulty diet," she sniffed. "But I told him the idea was simply absurd. Ching eats only especially prepared food under the supervision of myself and my maid."

A POOR little rich dog, I thought. "The tablets will be ready in a few minutes," I told Mrs. Muchmore. "Would you care to try today's special while with crushed strawberries and fresh pineapple?"

"I really shouldn't," she wavered. "I'm on a diet. But I have given up candy and all other sweets. I just can't give up ice cream, too. You may bring me a sundae, young man." She eased herself into a booth.

I gave the order to the soda boy, remembering something I'd read

in the last batch of rental books. The writer of "So You Think You Don't Overeat" said fat people, especially women, firmly believe they have glandular trouble that makes them take on the extra tonnage. He claimed most fatties believe they don't overeat because they refuse to remember the snacks they tucked away between meals that add the extra pounds.

I saw Mrs. Muchmore look up as Betsy's aunt came by the booth. "Hello, Myra," she called. "Won't you join me?"

Miss Myra Sharpe looked at the super-sundae the soda boy slid in front of Mrs. Muchmore as if she thought it might explode. "How can you eat that awful mess, Grace?" She sat down opposite Mrs. Muchmore, and two slices of lemon," she told the boy, looking as sour as her drink would be. "Grace, you shouldn't."

"You're probably right," Mrs. Muchmore agreed placidly, spooning into the sundae. "I've given up candy and all other desserts, but not ice cream yet." She eyed Miss Myra's angular figure. "As long as we're playing a game of Truth, you could do with some padding on your bones. If you'd eat more, it would do you more good than all those extracts and vitamin pills you take."

"But I don't like milk or liver, or fruit juices," Miss Myra said. "Then she went back to Mrs. Muchmore's poundage. Miss Myra's specialty is solving other people's problems. "The dog sitting beside her and Miss Myra looked like she'd love to use a fly swatter on him. "If Ching eats his good whole-some dinner he gets one piece for being a good boy. But I never eat candy myself any more."

MISS MYRA SHARPE let her eyes underscore Grace Muchmore's well rounded cheeks. "Well, if I never eat candy, you certainly shouldn't," she said bluntly. "Grace, about that Youth Center committee. Now if I were you—"

I left them there. "If I were you" was in Miss Myra's mouth as often as her teeth. She knows how anything on earth should be handled and she dotes on making people uncomfortable and unhappy for their own good. I often wondered how my cashier Betsy stood it. She lived with her Aunt Myra, who was devoted to Betsy—that is, she devoted plenty of time to bossing the kid. There were just the two of them since the old Captain, Miss Myra's father, had died of a heart ailment a few months back.

I had the vitamin pills for Ching already packaged, but I put them in one of our special boxes in case Mrs. Muchmore would think anything already compounded would be unworthy of Ching. While I was behind the glass screen in the prescription department, Roger Blessen stopped in with the mail and stood talking to Betsy. When I saw Tom Carson come in with his Seeing Eye dog, I stubbed out my cigaret and went up front. My assistant doesn't come to work till afternoons so I have to help with the customers in the mornings.

MISS MYRA was probably the cause of the uproar that burst out when I was halfway there. I figured later that she had come up to the cash register with Mrs. Muchmore and either didn't see or didn't notice Tom Carson's seeing-eye dog. She probably walked too close, maybe even stepped on the big shepherd's toes. Anyway, the big dog Greta yelped and plunged in her harness.

Miss Myra screamed and Roger Blessen, who had been standing with his back to them, jerked I said. Tom Carson came in with his Seeing Eye dog, I stubbed out my cigaret and went up front. My assistant doesn't come to work till afternoons so I have to help with the customers in the mornings.

I figured later that she had come up to the cash register with Mrs. Muchmore and either didn't see or didn't notice Tom Carson's seeing-eye dog. She probably walked too close, maybe even stepped on the big shepherd's toes. Anyway, the big dog Greta yelped and plunged in her harness.

Miss Myra screamed and Roger Blessen, who had been standing with his back to them, jerked I said. Tom Carson came in with his Seeing Eye dog, I stubbed out my cigaret and went up front. My assistant doesn't come to work till afternoons so I have to help with the customers in the mornings.

MISS MYRA was probably the cause of the uproar that burst out when I was halfway there. I figured later that she had come up to the cash register with Mrs. Muchmore and either didn't see or didn't notice Tom Carson's seeing-eye dog. She probably walked too close, maybe even stepped on the big shepherd's toes. Anyway, the big dog Greta yelped and plunged in her harness.

Tabasco Gives Spaghetti a New Twist

NOT actually, of course, for spaghetti now comes in enough twists and shapes to please everyone. Rather, this new twist is the addition of tangy Tabasco to the meat ball sauce, which picks up the flavor of this favorite fall dish.

Here's a simple recipe for one of the most popular and economical dinners in the land, and one that's especially timely during the next month. The secret of this dish is the seasoning, topped with Tabasco, the hot pepper sauce from down south, just as it will be for the French dressing to be mixed at the table and added to the tossed greens salad which accompanies the spaghetti and meat ball main course. Wonderful way to entertain easily!

Spaghetti With Meat Balls
 1 pound ground beef
 1 clove garlic, peeled and minced (optional)
 1 teaspoon salt
 1/2 teaspoon pepper
 3 8-ounce cans tomato sauce
 1/2 cup chopped onion
 1 8-ounce package spaghetti (optional)
 Grated cheese (optional)

Sprinkle the beef with salt and pepper; form into small balls. Brown quickly on all sides in oil in skillet. Add onion and garlic when meat is almost brown. Add tomato sauce and Tabasco; cover and simmer 20 to 30 minutes. Cook spaghetti according to directions on package. Turn onto platter and pile meat balls in center. If desired, serve with cheese. **YIELD:** 4 to 6 servings.

Miss June Drum Becomes Bride of Clarence Dunham

KELLERVILLE — (Special) — Miss June Drum, daughter of Mr. and Mrs. Clarence Drum of Kellerville, became the bride of Clarence M. Dunham of Lubbock, on Sept. 30.

Vows were exchanged in the home of the Rev. Floyd Dawson, pastor of the Four Square Gospel Church in Lubbock, who read the double-ring ceremony.

Relieves Distress of MONTHLY FEMALE WEAKNESS

Also Helps Build Up Red Blood! Do female functions, periodic disturbances make you suffer pain, feel so nervous, irritable—at such times? Then try Lydia E. Pinkham's TABLETS to relieve such symptoms. Pinkham's Tablets are also very effective to help build up red blood in simple anemia. **Lydia E. Pinkham's TABLETS**

Mrs. Charles Daugherty of Lubbock was matron of honor. The bride wore a gray suit with black accessories and carried a white Bible.

Mrs. Drum is a graduate of McLean High School and received nursing training in Lubbock.

Attending the wedding were Mr. and Mrs. Clarence Drum and daughter, Martha, of Kellerville; Mrs. James McCellan and baby of McLean; Mrs. Floyd Dawson and daughter, Floydan, and Mrs. Henry Sanders of Lubbock.

Mr. and Mrs. Drum went on a short honeymoon trip and are now at home in Lubbock.

The Lazy Daisy Sewing Club of Kellerville met in the home of Mrs. Raymond McReynolds, who served refreshments to 11 guests.

Those present were Meses E.C. West, Brent Chapman, Archie Farrer, Edwin Owen, Joe Harris, O. L. Thompson, D. Brock, Elmer Immel, W. S. Marshall, Newt Barker and Jack Harris.

The next meeting will be in the home of Mrs. Immel.

Better is the frugal intellectual repeat with contentment and virtue, than the luxury of learning with egotism and vice.

PAMPA NEWS, WEDNESDAY, OCT. 11, 1950 PAGE 13

American Legion Auxiliary Meets; Activities for Season Scheduled

The City Club Room was a meeting place for the executive board of the American Legion Auxiliary Thursday evening.

A letter from the 18th district president, Mrs. Pitts of Amarillo, was read, inviting members of the local unit and Post to attend a banquet and dance in Amarillo on Oct. 26 to meet the national commander of the American Legion. The zone meeting originally scheduled for Pampa on that date has been moved to Oct. 30. The annual fall convention of the 18th district will be held in Shamesock on Nov. 11-12.

A letter was read from Mrs. Ora Farlow, Veteran Hospital representative, thanking the Pampa Unit for the hospital party and donation for lawn furniture.

The treasurer and the auditing committee made annual reports, and the membership committee reported 67 members for 1950. Mrs. Frank Lard, treasurer, asked members to pay dues for 1951 as soon as possible.

The child welfare and rehabilitation committee reported that they were caring for the family of a disabled veteran while he is in Veterans Hospital in Amarillo.

Present were Mrs. Gladys Turner, Mrs. Frank Lard, Mrs. Mildred Hill, Mrs. John Putman, Mrs. Frank Yates, Mrs. Estelle Wheeler, Mrs. Roy Sewell, Mrs. E. E. McNitt, Mrs. Lyle Stout, Mrs. Roy Hall and daughter, Zeporia.

Dutch Maid

5004

By MRS. ANNE CABOT

This softly stuffed 15-inch doll is dressed in a knitted Dutch costume which will delight any little lassie. The doll is easy to make. . . embroider her features and knit her frock and cap in simple garter stitch.

Pattern No. 5004 consists of complete knitting instructions, tracing pattern of doll, embroidery stitches and making and finishing directions for doll and clothes.

Send 20c in COINS, your name, address and the PATTERN NUMBER to ANNE CABOT (Pampa Daily News), 1180 N. Y. Americas, New York 19, N.Y.

NEEDLEWORK FANS — Anne Cabot's BIG new ALBUM is here. Dozens of fascinating new designs, gifts, decorations and special features. . . PLUS 4 gift patterns and directions. 25 cents.

Altar Society of Holy Souls Has Business Meeting

There were 23 present for a meeting last Wednesday of the Altar Society of Holy Souls Catholic Church. The meeting was in Parish Hall.

The Rev. Otto Meyer led the opening prayer and Mrs. Fred Neslage conducted the business meeting. Mrs. John K. Taylor, secretary-treasurer, read the minutes from the previous meeting and gave the financial report.

Reports were made by standing committees. A spiritual bouquet will be sent to a parishoner who is ill. Mrs. A. B. Zahn reported on a layette she assembled to give to a Polish family in the parish, as a token of friendship, since the family is new here.

Mrs. J. P. Brown announced a rummage sale on Oct. 13-14, to be sponsored by the parish council.

Fall Holiday Advised For Woman Traveling On Shoestring

By GAHEE DUGAS
 NEA Staff Writer

NEW YORK — (NEA) — An autumn vacation, when travel prices are down and hotels aren't crowded, is the one most likely to give a champagne holiday to the woman on a coke budget, says travel expert Marion McKinney.

A fall holiday, Miss McKinney believes, is a good starting point for trying out different seasons. The traveler who visits a different part of the country in a different off-season each year finds rewarding results: expenses are less, and travel knowledge is considerably increased. The custom of the summer vacation taken in the same spot each year is a matter of habit, this expert thinks. As director of the women's travel department of the Union Pacific Railroad, Miss McKinney has advised thousands of women travelers in the past decade. Traveling thousands of miles herself each year, she has learned how any woman can get the most from a vacation.

"If you're married and a homemaker," she says, "stay away from meal preparation on your vacation. Go to places where meals will be prepared for you. And if your husband would rather go fishing while you'd rather sight-see, by all means try separate holidays. Each one of you will be interested in what the other has discovered and neither of you

will suffer the interest clashes which ruin many vacations."

If you're a career girl, consider a spot like Sun Valley, a resort in the Rockies, a dude ranch or any other place where you can meet people and take part in planned activities. A vacation should mean real recreation for you and should give you an outlook different from that provided by your usual routine.

But don't try to combine a visit to the dentist or duty visits to relatives with your vacationing, cautions Miss McKinney. If some of your time must go for these visits and for check-ups, get them over in the first half of your holiday and reserve the second week for yourself.

The sure-fire way to ruin any vacation, she warns, is to take along too much luggage.

"I've found that any woman can be well-dressed for a two-week period with a travel suit, a thin silk dress for warm days in places like Southern California or Florida, a wool jersey or sheer wool for the Northwest or New England, and a street-length dinner dress which can be a strapless sheath with matching jacket. Thus, the dinner dress can double for afternoon wear."

To these four interlinking changes, add a top coat, nylon lingerie, a pair of walking shoes and a pair of dress shoes, and any woman traveler can look well

"Poise is an asset to a woman, traveling or not," Miss McKinney says. "But if you feel uncertain about the right course to follow when you're on a trip, watch experienced fellow travelers. You'll learn a great deal by mere observation."

Mrs. Ruth Heard Honored with Party

SKELLYTOWN — (Special) — Mrs. Ruth Heard, who will leave soon to make her home in Liberal, Kans., was honored with a party Monday night after lodge session in the IOOF Hall.

Hostesses were Miss Addie Fern Lick and Mrs. Louise Morgan. Cake and coffee were served to 24 members.

Proper care for the fiber rugs on your porch or terrace includes a daily going-over with broom or carpet-sweeper. Every two weeks the rugs should be rolled up and the floor beneath them scrubbed with soap and water.

Freedom Roll Call

AMERICA stands up to be counted

THE VOLUNTARY WAY IS THE AMERICAN WAY

America always fights on the side of Freedom. At home or overseas, America champions the right of the individual to live peaceably and to work out his own destiny.

Through Voluntary Health Insurance 70 million Americans now protect themselves against the financial shock of illness. Now officially on record opposing Compulsory Health Insurance are more than 10,000 great, responsible organizations, representing millions of citizens throughout America. Here are just 10 of them:

General Federation of Women's Clubs	National Association of Retail Druggists
American Farm Bureau Federation	National Association of Insurance Agents
National Association of Retail Grocers	Veterans of Foreign Wars
American Legion and Legion Auxiliary	National Retail Hardware Association
National Fraternal Congress of America	National Retail Dry Goods Association

FREEDOM IS WORTH DEFENDING—at home as well as abroad!
