Senate Body Votes Down Move To Ask T-H Law in Coal Scene

Hospital Formal Opening Feb. 12

EX-BANDITS TAKING OVER TSINGTAO

By WAYNE RICHARDSON

TOKYO — (AP) — Tough former Chinese bandits who say they are Communists rule Tsingtao so rigidly that even old-line Reds have trouble with them. They roamed the rich countryside in Shantung Province, of which Tsingtao is a part, for two months before they were expected to leave, the former bandits moved in. They grabbed power and have hung on to it. I saw them at the former U. S. Naval base while I was in Tsingtao with the Flying Arrow which left there this week. I was the only correspondent aboard that American freighter, which was shelled by the Nationalists and put in to Tsingtao to unload cargo destined for Shanghai. The former bandits say they are Communists and follow the party line. But they also like the fat jobs they inherited, and party regulars have found it difficult to remove them. Chinese Communist leaders from outside arrived after the former bandits took over. The outsiders have run into trouble giving orders to these provincial rulers. The former bandits leave no doubt about what they say is their Communist "mission." They regard themselves as allied with Russia. There are pictures of Stalin everywhere. The Communist officials in Tsingtao make no pretense of living simply. They have taken over all the big automobiles. They occupy all the villas. The streets are shabby and ill kept. Buildings are beginning to run down. Chinese in the streets appear listless, beaten and gloom. During my visits ashore none tried to shove me off the sidewalk, as Chinese do foreigners in Shanghai and Hong Kong. One thing is quite plain in Tsingtao. The Communist authorities have a tight rule over the city — backed with guns.

Bus Line Found Guilty of Safety Code Violation
DALLAS — (AP) — The Transcontinental Bus System, Inc. and five of its drivers yesterday were found guilty of violating the U. S. safety code in interstate commerce. The company was fined \$1,000 for violation of the code by permitting drivers to drive more than ten hours at a time without taking a rest. The firm was also found guilty of failing to require its drivers to keep an accurate drivers' log. The drivers were fined \$50 each for failure to keep correct entries in their logs.

CHIEF SWORN IN
WASHINGTON — (AP) — Adm. Forrest P. Sherman was sworn in today as chief of Navy operations.

Credit Union Votes Dividend
In their 10th annual meeting last night in the City Commission Room, members of the Texaco employees' credit union elected officers and voted a dividend on shares. The Board of Directors elected is composed of: president, H. P. Dosier; treasurer, J. E. Torvick; and E. O. Hart, O. B. Grant and William Giles. The Credit Union Committee is made up of: F. J. Frair, H. W. Nippert, R. M. Barrett, R. E. Williams and C. O. Fitzgerald. And F. M. Corbitt, J. B. Gallaher and Miss A. S. Swain comprise the Supervisory Committee. A dividend of 6 percent was voted on shares on the union. Assets of the savings and loan cooperative for Texaco employees in the Panhandle District are now \$2,200,54, an increase of about \$10,000 over 1949, Torvick said. At last night's meeting, Dosier traced the growth of the union, the full name of which is the Panhandle Texaco Federal Credit Union, from its inception in April, 1940. It has shown a steady increase both in savings and in income from loans granted each of its 10 years, he said.

WALLACE—Henry A. Wallace is in good humor on the witness stand of the House un-American Activities Committee in Washington just before closed hearing began. Wallace said he had "absolutely nothing to do with" wartime uranium shipments to Russia. The wartime vice president had asked to be heard after radio commentator Fulton Lewis, Jr., said in a radio broadcast that Wallace helped the Russians get supplies of atomic materials. (AP Wirephoto)

WASHINGTON — (AP) — The Senate Labor Committee today pigeon holed a resolution asking that President Truman invoke the Taft-Hartley Law to restore full coal production. A motion to postpone action indefinitely was approved 6-5. Senator Aiken (R-Vt.), who was on the losing side, said the decision amounted to killing the resolution. But Senator Elbert D. Thomas (D-Utah), the committee chairman, and Humphrey (D-Minn) disagreed. They said it did not necessarily mean there would be no action at some time in the future. The motion to postpone action indefinitely was offered by Humphrey as a substitute to motion by Senator Donnell (R-Mo) that the committee approve the resolution. Humphrey argued that action should be deferred because "negotiations are underway" looking toward a settlement of the coal dispute. Maneuvers toward that possibility are underway. Their reports may be to get soft coal workers back to work, at least part time, and perhaps help John L. Lewis in his legal complications. George H. Love, president of the Pittsburgh Consolidated Coal Company and, as such, a leader in the operator ranks, said at Pittsburgh that he believed the operators will agree to resuming contract talks with President Truman. (See SENATE, Page 2)

Nixon Asks New Hunt for Red Spy Ring
WASHINGTON — (AP) — Producing a fresh sheaf of documents from Whitaker Chambers, Rep. Nixon (R-Calif.) today demanded a new House investigation into Communist spy activities. Nixon quoted Chambers — an admitted courier for a Soviet espionage ring in the prewar years — as saying he got the eight new documents from the late Harry Dexter White, former assistant treasury secretary. White died in 1948, a short time after denying to the House Un-American Activities Committee that he had ever passed on confidential data to Chambers. Experts which Nixon showed the House yesterday dealt with such things as U. S. policy toward Japan and the assignment of an American Navy captain to England in 1938 as a "secret liaison man." Nixon said he will insist that the House committee, of which he is a member, resume the spy inquiry it suspended during the two perjury trials of Alger Hiss, former State Department official. Hiss was convicted last Saturday and was sentenced to five years imprisonment. He had denied to a grand jury that he gave secret government documents to Chambers. In a one-hour speech in the House yesterday, Nixon denounced the administration's attitude in the case and said the Justice Department once had considered prosecuting Chambers instead of Hiss. Had that course been followed, he said, the effect would have been to ruin any case against Hiss and others because their principal accuser would have been an "indicted perjurer." Nixon also claimed that President Truman had access to a secret memorandum dated Nov. 25, 1945, saying the Soviets had an agent in this country "who was an assistant" to Edward R. Steinitz, then assistant secretary of state. The lawmaker made clear he considered the case still open. (See NIXON, Page 2)

Bandits Hit Rose Home
NEW YORK — (AP) — Bandits raided the fashionable home of showman Billy Rose last night, looting a safe, furs and jewelry valued at \$100,000, but missed \$250,000 in other gems being worn by Rose's wife, former swim champion Eleanor Holm. Miss Holm learned of the theft early today when she returned from the theater wearing jewelry valued by her husband at a quarter of a million dollars. "I'm glad Baby had her watch on tonight," said Rose in putting the \$250,000 price tag on Miss Holm's necklace, a bracelet and a ring of shimmering diamonds she was wearing. Rose, a newspaper columnist as well as safe owner, said the bandits left undisturbed a \$500,000 collection of paintings, and \$75,000 worth of antique silver.

Young Japanese Astronomer Says He Sighted Explosion on Mars
TOKYO — (AP) — A young Japanese astronomer who never went to college says he sighted the "terrible explosion" on Mars which has excited astronomers the world over. Tameo Saeki, 32, has been keeping an optical eye on Mars for 15 years. He is highly regarded by two of Japan's greatest astronomers, Tadao Murayama of Tokyo's Science Museum, and Dr. Hideo Hirose of Tokyo's Astronomical Observatory. Saeki said in a telephone interview from Osaka that he was not certain the explosion he saw was of volcanic origin. "There are no accurate data on such phenomena," he said. Saeki said he "presumed" the greyish cloud was of volcanic origin because it was of a different color from clouds usually observed around the planet. He never be-

Agreement on Arms Aid for Europe Signed

WASHINGTON — (AP) — The United States and eight North Atlantic allies signed agreements today that will govern the flow of one billion dollars worth of American arms to Western Europe's defenses against possible Russian attack. It was the last-step-but-one before guns, tanks, planes, ships and raw materials begin moving under the aid program Congress approved last year. The final step is President Truman's approval of the secret master defense plan worked out last month by military chiefs of the 12 Atlantic Pact countries. That is expected momentarily. The master defense plan will be kept secret. It is known that the largest share of the American weapons and raw materials will go to France. Countries signing agreements in addition to France are Britain, Italy, Belgium, The Netherlands, Luxembourg, Denmark and Norway. The language of each country's agreement varies, but the main commitments are identical. These provide that all countries will pool their defense plans to defend Western Europe against any attack and that no arms furnished them will be turned over to any other nation "without the prior consent" of the United States. All pledge to "take such steps as may be necessary" to (See AGREEMENT, Page 2)

March of Dimes Jamboree Takes to Air This Sunday
The second annual March of Dimes Jamboree will hit the air at 1:45 p. m. Sunday with a diversified array of local talent donating services before the mike of KPND in the polo battle. By press time today a partial list of entertainers was completed. Ken Palmer, radio manager, said. One-way radio cars manned by civic club members will be on duty to pick up donations as directed by the program's master of ceremonies. Last year the studios were crowded with helpers, cheerleaders and impromptu entertainers. In addition to the activity at the station, local citizens began selling pets over the air, the money going to the March of Dimes. Some 20 dimes, rabbits, cats, and various other "items" were sold. Helpers had to run back and forth between the station and the homes. "That is where the one-way radio cars come in. Cars from each civic club — radio tuned to KPND — will be stationed in various parts of town. The cars will receive directions and go to the place having a donation or wanting to give a check or cash for the March of Dimes. The program will continue until donations stop coming in. One of the main attractions last year was when Dr. R. Malcolm Brown played a trumpet solo by request. It cost the requesting person a healthy donation to the March of Dimes. Ken Palmer said he might even get his old, rusty trumpet out and squeak a few notes on the polo report if a donation is forthcoming from it. Due to the large number of volunteers this year, the station will be crowded with workers and no room will be left for a studio audience. A partial list of those who (See JAMBOREE, Page 2)

'Saucers' on Return Visit
The evasive "flying saucers" visited again yesterday. Local residents, as well as others from many parts of the Panhandle, saw "shapes" and "objects," variously described as the size of a No. 3 washbowl, whitish, oblong, round and fire-like. Mrs. Howard Lockhart, 1141 N. Starkweather, said she saw the phenomenon about 6 p. m. H. L. Sisco and a relative also saw it about that time, drove toward Kingsmill watching it. It was generally agreed there were two objects which shone brightly, as if they were metal, as the sun set against them. Most people said they appeared to "draw together" and then "separate." Judge Bruce Parker said he saw them as he drove home from Canadian about 6 p. m. Civil Aeronautics Administration officials at Amarillo said high flying planes (45,000 feet) which flew over the area around 5 p. m. may have left heavy vapor trails. The setting sun may have reflected on the planes, causing the excitement, or they said the sun may have reflected on the vapor trails.

5 Children Victims of Home Blaze
LAWTON, Okla. — (AP) — Five small children, burned to death alone in their flimsy two-room frame home here yesterday. The structure's only door accidentally became locked and thwarted frantic rescue efforts by their 23-year-old mother. Seven persons escaped unhurt from another two-room hut jammed against the burning building. The victims, ranging from two months to six years old, were the children of Mr. and Mrs. C. D. Young. Mrs. Young said she stepped out into the yard to get water from a hydrant and stopped a few minutes to talk with a neighbor. Then the frantic screams from her children brought her racing to the door, only to find the inside wooden latch had dropped into place. She tried to reach the crying children by breaking windows, but each time the heat drove her and helping neighbors back. Mr. and Mrs. H. A. Hensler, their four children, and a visitor ran from the adjoining house when flames began seeping through the wall. Dead were Judith Aline, 6, Patty Louise, 5; Phyllis, 3; David, 20 months, and Denny, two months. The Lawton Fire Department extinguished the blaze before damage to the house became extensive. However, four of the bodies were charred beyond recognition. Four were found sprawled. (See 5 CHILDREN, Page 2)

M. J. Stokes Dies at 72
M. J. Stokes, a resident of Pampa since 1925, died at a Fort Worth hospital at 3:45 p. m. yesterday following a long illness. He was 72. A resident at 421 Dwight, Mr. Stokes had been a carpenter since 1942. He came to Pampa from Commerce. Besides his wife, Amy, he leaves three daughters: Mrs. Oma Cunningham, Panhandle; Mrs. Essie King and Mrs. Ruth White, both of Fort Worth; Mrs. Grace White, Pampa; and Mrs. Faye Fleming, Wichita Falls; two sons, Edgar A., Fort Worth, and Loyd, San Antonio; 31 grandchildren; 28 great-grandchildren; three brothers, Ruben, Lone Oak, Texas, and Hoyt and Hugh, Pampa; and the following sisters: Mrs. Ida Castle, Lone Oak; Mrs. Ella Stewart, Pampa; Mrs. Nina Miller, Canyon; Mrs. Lula Goodwin, Greenville; and Mrs. Alice McNabb, Los Angeles. Funeral services will be held at 2:30 p. m. tomorrow at the First Christian Church, of which she was a member. The Rev. H. H. Tyler, pastor, will officiate, and burial will be at Fairview Cemetery under the direction of Duenkel-Carmichael Funeral Home. Pallbearers will be Chester Nicholson, Tom Smith, Russell Hill, Robert Randolph, Aylis Smith and Buck Riddle.

Lone Star Steel Will Sell Shares
WASHINGTON — (AP) — Lone Star Steel Co. of Texas, plans to sell 592,185 shares of \$1 par common stock to pay off outstanding obligations and to finance the construction of cast iron pressure pipe foundries estimated to cost \$1,280,000. Under the plan registered with the Securities and Exchange Commission, present stockholders would be permitted to buy the new offering at \$4 per share at the rate of two additional shares for each five shares now held.

Square Dancers Slate Benefit
Tickets for the Do-Si-Do square dance, to be held Monday night at the Senior High School Cafeteria, are available at Berry's Pharmacy, it was announced today. Bob Sumrall, well-known West Texas square dance caller and instructor, will appear at the event, which will benefit the March of Dimes. It starts at 9 o'clock. Tickets are also available from members of Do-Si-Do. A spokesman said a number of out-of-town square dancers are expected to be attracted to the dance, due to the fact that Sumrall will appear.

Dinner to Honor U. S. Congressmen
WICHITA FALLS — (AP) — Air Secretary W. Stuart Symington, Senators Tom Connally and Lyndon Johnson and Reps. Ed Gossett and W. R. (Bop) Poage will be honored at a dinner here Feb. 1. The dinner will be in appreciation for their efforts in making Sheppard Air Base a permanent stock. Lewis Hdq.—adv.

STUCK TIGHT—Bobby Morgan, 5, is about to get out of an oil drum in which he became trapped at Pasadena, Calif., while playing. It took the combined efforts of his mother, Mrs. Arlene Morgan (left), several neighbors, the fire department, and an ambulance crew to free him. A hack saw and tin snips slipped him out 30 minutes later. (AP Wirephoto)

American Heritage Being Sold Down River, Warns Lecturer

"You're selling your American heritage down the river," Robert Kazmayer, Knife and Fork Club lecturer, warned last night at the High School in a lengthy address entitled "Things to Watch and Watch For." Kazmayer, world traveler and author, said the United States is at the top now, but no nation has ever been able to stand still. "It must either move forward or go downhill," he said. He said the attitude in America toward work and capital is bad. "We've grown to want something for nothing," he said. "Everybody wants on the gravy train, but that could lead to spending ourselves into bankruptcy." Truman's administration is spending 14 billion dollars a year more than Roosevelt ever spent — and he had a war to finance, he said. "Let's not be so smug and so sure of ourselves," he said. "It can happen here. The God of history doesn't select any one people to remain on top forever. You can't fight a religion or a faith without a better religion or faith of your own. Our faith," he said, "must be vital and virile as the kind our fathers knew." Americans are tired of hearing about Europe, but what's brewing there will affect us. Five out of the six big wars in our nation's history have had their roots in Europe. "And understanding of Europe today starts with that keystone pivotal nation of Germany. The young Germans are inordinately proud of their war record. We were defeated, ya," they argue, "but it took the whole world to do it." Germans don't feel their defeat was inevitable, Kazmayer believes. Rather, they feel they lost the war because Hitler was stupid. Their spirit is not broken nor their morale cracked, he said. "We have fallen down on three (See AMERICAN, Page 2)

Modesty Comes High
TULSA, Okla. — (AP) — Modesty comes high in Tulsa. Frank M. Denham, Jr., Wichita Falls, Texas, salesman, told police a woman entered his hotel room yesterday while he was taking a shower. She grabbed his pillow containing \$115 and ran out, he said. "I'd have chased her," Denham said, "but I didn't have a stitch of clothes on."

KEY DEMOS STILL BEHIND TAX MOVE
WASHINGTON — (AP) — Key House Democrats were reported standing firm today behind President Truman's insistence that any cuts in excise taxes should be balanced by tax boosts elsewhere. Democratic members of the tax-drafting House Ways and Means Committee were said to have agreed on that position in order to prevent the government from losing revenue through cuts in levies on such things as transportation and amusement tickets, luggage and jewelry. Republicans still kept up pressure for a simple excise repeal bill — without the balancing features asked by Mr. Truman. One GOP effort to push through such a measure failed yesterday. That effort came as the House took up a bill — which it later passed — levying a 90 million dollar income tax on part of the \$4,500,000,000 investment earnings of life insurance companies which were untaxed in 1948, 1949 and 1950. Passage of that measure marked the first congressional action on a part of Mr. Truman's new tax program. He told Congress Monday a tax law quirk that lets insurance company earnings go untaxed should be removed. When the bill was brought up, House GOP leader Martin of Massachusetts offered an amendment proposing a 700 million dollar excise reduction. It would have halved the 20 percent retail levies on furs, jewelry, luggage and toilet articles and reduced many others. He failed to get a vote. Rep. Gore (D-Tenn.), presiding at the time, held that House rules bar an excise amendment to a bill dealing only with the corporation income tax section of the Internal Revenue Code.

Kelley Rites Tomorrow
Mrs. Anna Belle Kelley, 908 E. Jackson, died at a local hospital at 4:35 p. m. yesterday. She had been ill for two years. She leaves her husband, B. W. Kelley; two daughters, Mrs. Peggy Gowdy and Sandra Kay Kelley, Pampa; a granddaughter, two brothers, Buster Damon, Lubbock and Lewis Damon, Portland, Ore.; and two sisters, Mrs. Bonnie Jackson, Big Spring, and Mrs. Roberta Kirkpatrick, Lubbock. Funeral services will be held at 2:30 p. m. tomorrow at the First Christian Church, of which she was a member. The Rev. H. H. Tyler, pastor, will officiate, and burial will be at Fairview Cemetery under the direction of Duenkel-Carmichael Funeral Home. Pallbearers will be Chester Nicholson, Tom Smith, Russell Hill, Robert Randolph, Aylis Smith and Buck Riddle.

Legislative Bill On Nurses Planned
TEMPLE — (AP) — Medical and nursing organizations are to meet here tomorrow and Sunday to write a legislative bill to train and license bedside nurses. Dr. A. C. Scott, Jr., said yesterday that the scarcity of registered nurses makes it imperative some action be taken.

Newspapers Get Hospital Series
AUSTIN — (AP) — Three newspaper articles dealing with the state's hospital needs are being circulated to weekly newspapers by Gov. Allan Shivers. The governor said he was paying for the project himself to halt possible complaints against spending state money in that matter. The series, he said, is designed to remove confusion from the minds of many persons about the hospital problem. He said the confusion seems to exist despite what he termed a great job done by the newspapers in presenting the problem to the public. The first article dealt principally with the present condition of state hospitals. The other two articles are to be circulated at a later date.

UNDERGROUND BLAST
ST. ELOY, France — (AP) — A violent underground blast killed 13 coal miners yesterday and sent 20 others to the hospital with gas poisoning.

TOUCH TYPING IN 90 MINUTES—Philip Gross of Brooklyn, N. Y., shows the keyboard of his 'Tuch-Rite' typewriting system with which he claims he can teach anybody how to type in 90 minutes. Gross, who has been studying typing since 1925, bases his system on the simultaneous hearing, sight and touch theory.

Deputies Still Track Down Tex Thornton Murder Clues

(By The Associated Press) The Sheriff's Department at Amarillo still spends a lot of time sifting down tips on the slaying of W. A. Thornton. Chief Deputy Sheriff Murphy Hurd said "hopping every tip will lead to a break in the case." But we haven't had a tip of any value in five long months. Thornton, daring explosives expert of the world's oil fields, was found murdered in an Amarillo motel last June 23. His skull was fractured in two places and his shirt and a towel were knotted around his throat. His money and his car were gone.

Water Needs Survey Set

AMILENE (AP) — A survey of West Texas water needs will get down to individual town level by March, says Harry P. Eby, state planning engineer of the U. S. Bureau of Reclamation. Eby made this statement yesterday at a meeting of the West Texas Domestic Water Association, an affiliate of the West Texas Chamber of Commerce. The WTDC last year asked the bureau to survey West Texas water needs and make recommendations for huge multi-city dams to solve municipal shortages. He said discussions will be held with representatives of the Upper Colorado River Authority, the Bob Baskin Dam Association in Haskell, Stonewall, Knox and Seymour Counties; and an Eastland County project. He said all projects would be considered on the basis of re-arrangements if congressional appropriations for construction are authorized.

Substitute Clerk Needed at Lefors

Another call has been made for applicant who file for the job of substitute clerk at the Post Office at Lefors. It was said today. The deadline for filing is Feb. 8. The Civil Service Commission announcement said that no experience is necessary to take the job, that the employee will learn on the job. The entrance rate is \$106.12 per hour. Application forms are available at the Post Office at Lefors, and they are to be filled out and sent to the 14th U. S. Civil Service Commission, 210 S. Harvard St., Dallas, Texas.

Man Charged With Aiding Delinquency

DALLAS (AP) — A one-time Sunday School teacher and Boy Scout leader has been charged with contributing to the delinquency of a minor and with seducing. The man, James Manly Edwards, is accused of organizing nude swimming parties involving at least a dozen southeast Dallas youngsters, including one 13-year-old girl. The 47-year-old suburban banker is also accused of taking pictures of the swimming parties and of having improper relations with two of the boys.

Gas Turbine Version of Jet Engines May Someday Beat the Traffic Light

By DOUGLAS LARSON NEA Staff Correspondent

WASHINGTON — (NEA) — A refined version of aviation's powerful jet engines is on the drawing boards for the automobile of the near future. The revolutionary new engine would give car owners a motor that would be stall-proof, shift-less and amazingly powerful. Called a gas turbine, it has already been developed to the point where manufacturers are ready to start giving it practical tests in new trucks. The Navy will soon have it installed in some of its smaller vessels. And it is also expected to prove itself the best motor yet built for hundreds of specialty jobs in manufacturing, transportation, logging and aviation.

The extreme simplicity of the gas turbine is its chief advantage. It goes one step beyond the jet engine of the airplane. Instead of the power resulting from the pressure of out-rushing jet gases pushing through the air, the gases turn a fan which transmits the power to a drive shaft.

Because the power of a gas turbine—blasting and expanding hot gases—can be transferred to a drive shaft without mechanical contact, most of the complicated gears required by an ordinary piston engine are eliminated. This also makes it impossible to stall the motor, provides ranges of speed greater than found in the ordinary car engine and gives tremendous bursts of emergency power.

Trucks powered with gas turbines, for instance, wouldn't have to crawl up steep hills. Shifting would be eliminated. And none of the expensive, complicated automatic shifting devices now being put on most new cars would be necessary.

Hundreds of different models of gas turbine engines are in various stages of development. It is generally agreed among the experts that Boeing Aircraft Company's 160-horsepower "Model 502" is the one most fully developed. Here are some of its advantages:

It weighs only 185 pounds, against 2850 pounds for a diesel, producing comparable horsepower. There are only one-sixth as many parts as there are in a comparable piston-type engine. One man can assemble and take it apart in six hours. It can be adapted to use the lowest grade of fuel, including aviation. It is easily started in the coldest temperature.

It has its bugs, however. Fuel consumption in a version of the "502" is the one most fully developed. It is the one most fully developed. It is the one most fully developed. It is the one most fully developed.

TOMORROW'S AUTO ENGINE? Between the power-producing section (left) and the power output section, there's no mechanical connection. There's no shifting—and no stalling, either.

It weighs only 185 pounds, against 2850 pounds for a diesel, producing comparable horsepower. There are only one-sixth as many parts as there are in a comparable piston-type engine. One man can assemble and take it apart in six hours. It can be adapted to use the lowest grade of fuel, including aviation. It is easily started in the coldest temperature.

Composer-Producer of 'Harmony Ranch' in Musicals Most of Life

By JIM McCLUSKEY News Staff

Composer-director Ken Bennett says his latest musical production, "Harmony Ranch," is coming along fine. Curtain time for the three-act benefit musical comedy is 8 p.m., Feb. 6-7, at the Junior High School Auditorium. He composed 21 new songs during the past summer and wrote the story of "Harmony Ranch" for the seventh annual Kiwanis-sponsored Top of Texas Revue.

The versatile musician began his career shortly after receiving his degree in music at Oklahoma A&M in 1929. He started in the show business in 1930, by being associated with Al. G. Fields, said to be one of the oldest and largest Negro minstrel shows in the East.

Although he has written more songs than he is able to count, Ken soon discovered you can't eat sheet music. Consequently he went to teach school, work on newspapers, manage radio stations and play in touring bands.

Ken came to Pampa in 1936 to serve as band director at Horace Mann School. He also has taught at B. M. Baker, Junior High and has worked in the Advertising Department of The News and for radio station KPFD.

He went to Gladewater in July, 1949, to take the management of radio station KSLJ. Started by the Kiwanis Club in 1941, Ken wrote music for the show for that and the following years. During the war the revues were not presented, but since 1946 Ken has pleased hundreds by bringing the revues back to Pampa.

Last year's revue, "Bar & L," was the most successful show to date. He wrote a story to go with his music. After two repeat performances last year, Ken de-

KEN BENNETT

Also, Ken traveled with Frank Waterhouse's band for several seasons. Ken not only composes music, but also is a pianist, organist, accordionist and singer. He has been the highlight of many Top of Texas Rodeo and Horse Show booster trips and is a ready entertainer wherever he goes.

Crates of vegetables are completely buried in crushed ice in refrigerator cars.

Jury Criticized Sharply by Judge

HOUSTON (AP) — District Judge Frank Willford, Jr., yesterday criticized sharply a jury that acquitted a man charged with felony burglary. "If you have any citizenship," he said, "you have not shown it today." He said he did not consider members of the jury capable of serving as jurors. Testimony indicated two city detectives found the man inside a medical prescription center at 1 a.m. on June 10. The man was described as wearing socks for gloves and holding a crow bar.

The building's front door had been torn from its hinges. No defense witnesses were called. The jury foreman told Willford the jury did not find sufficient evidence that the man broke into the building.

AMERICAN

(Continued From Page 1) phases of our occupational policy there — business, commerce, industry; longrange education; and religion," he said.

Developing his idea of what to watch for, he said we must consider the changed position of the British Empire. At the beginning of the 20th Century Britain occupied a position of ascendancy compared with the "austerity" the people are now forced to accept.

However, he said, something is happening to the British group that pays the bills — the group with drive and incentive who are willing to invest. Bogged down in their mire of red tape, British businessmen have lost all hope and are sitting tight, waiting for the government to take over their businesses.

Kazmayer said: "The British are getting on okay now because we are paying the bills. We have contributed \$700 for every family on the island and our government has pledged \$700 more for every family. We are paying for their Labor Party experiment, which is rapidly reaching the point of no return."

Another force casting a shadow in our world is Soviet Russia, he said. No one outside the Kremlin knows whether or not Russia is moving the world toward war. Kazmayer thinks Russia is moving just as fast as possible to the point just short of war. How long the point will remain short of war depends on two factors, he believes.

He cited several instances where democracies have failed, but believes that if they can hold out in Europe for five to 15 years longer, peace is possible. The next Knife and Fork Club speaker here will be John Scott, Feb. 15. He will speak on "American Influence on Europe."

SENATE

(Continued From Page 1) Lewis of the United Mine Workers next Wednesday. Love was commenting on Lewis' acceptance of a qualified invitation Love had made that negotiations in the strike-plagued industry be resumed. It was Lewis who suggested the Wednesday date.

President Truman found his own position believe had been reported about ready to use the Taft-Hartley Act's emergency machinery for stopping a coal strike if no agreement was reached this weekend to restore production by Lewis' miners. The operators had broken off contract negotiations during the strike Lewis called in October. Since then the mine owners sought a court injunction against Lewis' three-day work week, saying Lewis refused to bargain in good faith and was using the short week to coerce them into an illegal contract. A hearing on that is scheduled next Wednesday morning.

The coincidence of timing could be due to plans for Lewis to bulwark any denial that he has not been willing to bargain in good faith. "The possibility was clear, too, that miners who have been observing a "no day week" might decide to go back to work for at least three days a week now that negotiations are in prospect. Lewis already has signed contracts with operators producing more than \$1 million tons of soft coal annually. These pit owners agreed to a 15-cent boost in the 20-cent tonnage royalty for welfare and pensions, and a short week to coerce them into a pact of their miners." Others, like Love, balked. In his letter to Lewis suggesting that negotiations be resumed, Love asked the United Mine Workers' chief to wipe out the clause saying miners would work only when "able and willing."

POET RECOVERING LONDON — (AP) — Poet Alfred Noyes, 70, was recovering after an eye operation for a cataract.

PINKING SHEARS

Never Before at such a LOW Price! \$2.50

At last... pinking shears at a price you can afford. It's easy to make professional-looking, even-pinked edges with these fine shears. The high carbon steel blades are protected by light metal covers in chip-proof baked enamel which eliminates the awkward heaviness found in most other shears. The supply is limited, so order now from Zale's.

Dream May Develop Because He Told It to a Newspaper

ROBERT VAN DER VOORT: "Dream job" vice president.

UNION CITY, N. J. (NEA)—For 26 years, Robert Van der Voort has battled hemophilia, the bleeding disease for which there is no known cure. For the last four years, he has dreamed of a way to help others who suffer from the dreaded illness.

Today, because the story of his dream was told in the New York World-Telegram and the Sun last month, Van der Voort's hopes are on the way to becoming reality.

The story told of Van der Voort's hopeful plan that some day all the victims of the crippling disease could be helped together and, through medical and social research, improve methods of treatment and eventually find a cure.

Van der Voort's dream caught the eye of Robert L. Henry, president of Hemophilia Foundation, Inc., in New York, who started the organization with the same hopes that inspired Van der Voort's plan.

Before Henry could get in touch with Van der Voort, the Union City man had formed his own group—the New Jersey Hemophilia Society, backed by the Union City chapter of Kiwanis. When Henry explained, however, how merger of the local group with an international organization would speed the chances of making Van der Voort's dream a reality, the two organizations were merged.

Van der Voort now is a vice president and on the board of trustees and executive committee of the national foundation, and he works at these "dream jobs" at his home, 516 Eleventh St. That is not all he does; despite his handicap, he works when he can at embroidery and needle-work factories, traveling about in a tricycle cart he designed for himself.

Like Van der Voort, the Hemophilia Foundation believes that concentrated research can find a cure for the disease, on which scientific progress now stands just about where it was 2500 years ago. Then it was mainly associated with royalty, since its most famous victims were the Czarovitch of Russia and Don Juan of Spanish royalty.

Sub-surface bleeding is a very many hemophiliacs crippled at the knees, ankles, elbows and fingers, and the result often resembles polio sufferers. It strikes only males, but it can strike without any previous family history or background of the illness, and has been known to skip as many as seven generations.

fore reappearing without warning. Today intense research is going on at the Children's Hospital, Boston, under the direction of Dr. Louis K. Diamond, director of the American Red Cross Blood Bank. Already blood fractions have been isolated that have been helpful for many hemophiliacs.

This project has been underwritten for one year by the Hemophilia Foundation, which makes no public appeals for funds but works through civic organizations and fund-granting foundations interested in medical research.

The merger that took place in Union City puts both the national foundation and Van der Voort closer to making their dreams a reality. The Union City Kiwanis Club is urging the Kiwanis International to join the battle.

And Van der Voort, who gets around a lot despite the fact he has to push himself in his tricycle cart, is probably the hardest working vice president any organization ever had.

McLean Automotive Supply Store Moves
McLEAN—(Special)—The G&G Automotive Supply Co., owned and operated by Gene Greer and Leo Gibson, moved last weekend to the Harris King building from the building next to the Stewart Texas station.
The owners stated that the change was made to give them a more central location. The store was open for business Monday, although some work on fixtures was still being done.

New Cleaning Shop To Open Monday
McLEAN—(Special)—Another new business in McLean, the Master Cleaners, will open Monday. Emory Crockett, manager, said.
The new shop is in the former W. C. Shull building north of the post office. Shull has moved his paint and wallpaper business to his former corner location. Cleaning equipment and fixtures were installed this week. An addition to the rear has been constructed where the cleaning equipment will be installed.

Dr. L. J. Zachry, Optometrist has moved his offices from the First National Bank Bldg. directly across the street to the Brunow Bldg.
110 EAST FOSTER

Mr. and Mrs. J. A. Gray of Sayre, Okla., were Sunday guests of Mr. and Mrs. C. R. Gray.

Bert Barker made a business trip to Sayre, Saturday and returned Monday.

Mr. and Mrs. Joe Green of Pampa visited Sunday with Mr. and Mrs. W. E. Green.

Mrs. A. P. Andrews of Phoenix, Ariz., and Mrs. Elizabeth Major of Groom are visitors of Mr. and Mrs. Jess Kemp this week.

Carol Smith spent the weekend in Perryton visiting Rita Stone.

Mr. and Mrs. Edward Pagan and children of Shamrock visited in the home of Mr. and Mrs. Miro Pagan Sunday.

Mrs. Lucy Blake of Falfurrias, a former resident of McLean, is visiting Mrs. J. W. Story this week.

Mr. and Mrs. W. S. Lent's visits Mr. and Mrs. Tony Vaughn in Borger Sunday.

Sunday guests of Mr. and Mrs. Fred Westfall were Mr. and Mrs. Floyd Westfall and Mr. and Mrs. P. M. Polk of Altus, Okla. Pat Fardus of Amarillo is spending this week with her grandmother, Mrs. Fred Westfall.

Prescriptions "Stitch in Time" Cretney Drug

McKenney On Bridge

By WILLIAM E. MCKENNEY
America's Card Authority
Written for NEA Service
One of the most talked of hands at the nationals came up in the open pair championship event, which was won by Charles Whitebrook and Cardinal E. Goldsmith of New York.

A great many pairs played the hand at four hearts in the West, and of course had no trouble making six. There were a few pairs who did reach the slam in hearts. At one table South bid a club and West, deciding to play possum, passed. North bid a spade and when South bid two clubs, West, thinking there would be more bidding, decided to pass—and two

clubs became the final contract. However, the most disastrous results were obtained with the bidding given above. West's bid of two clubs was a cue-bid. He elected to make this bid rather than double, fearing that if he doubled, East might leave the double in.

While South did not have the spade suit stopped, I think his bid of two no trump was okay. When West doubled two no trump he had no idea that it would be left in and was dumbfounded when everybody passed.

When the hand was over, West jokingly said, "I led my fourth best heart." In other words, he led the jack of hearts. West cashed his nine heart tricks and then the ace of spades. Now he led a diamond, East won with the ace and cashed the king of spades.

South held on to his ace of clubs, discarding the king of diamonds—and of course he still has his ace of clubs. East had a diamond left and led it. West winning the last trick with the queen of diamonds. Thus East and West cashed thirteen tricks, setting the contract 2300 points.

The Twentieth Century Fund reports that the largest part of America's wartime increase in total output came from the fact that more people worked rather than from increased productivity.

Helium is a colorless, odorless, and tasteless gas.

Hollywood's Forgotten Man May Be Recalled

HOLLYWOOD—(AP)—Hollywood's forgotten man may finally be remembered.

He is Jack Beutel, who seemingly had the leading role in "The Outlaw," but who got lost in the dock of Stratford visited in the J. S. Johnson home Sunday.

But now he hears that he may finally do another. He has been reported chosen to star in a football picture and a Western. "All I know is what I read in the papers," he sighs.

The only real indication he has received was a telephone call from a Hughes executive New Year's Eve.

"Mr. Hughes wishes you a happy New Year," said the voice, "and wants me to tell you to get ready for some work. Mr. Hughes expects to make a lot of pictures this year."

If Beutel isn't ready for work now, he never will be. He has been taking dramatic lessons ever since he signed with Hughes in 1941. In fact, except for making "The Outlaw" and some appearances, that is all he has done for his weekly paycheck.

That check has continued to come in, even during the three and a half years Beutel was in the Navy. It is another example of the uniqueness of the Hughes operation.

Hydrogen is lighter than helium.

Mr. and Mrs. D. D. Leonard and daughter, Ann, visited relatives at Spearman during the weekend.

Mr. and Mrs. R. C. Martin and boys of Bovina were weekend visitors in the E. E. Johnston home.

Joyce McCauley of McMurry College at Abilene and her roommate, Janie Margret, spent the weekend in the L. D. McCauley home.

Golden Gloves Roars Into Semifinals; Shamrock District Fighters Win

Report Veeck Bid For Senators, Cubs

SAN FRANCISCO — (AP) — Baseball's grapevine belts this report clear across the country to this outfielder: Bill Veeck has made overtures and now may be negotiating for controlling interests in either the Washington Senators or the Chicago Cubs.

The source of the report may not be disclosed, but always has been reliable.

Veeck became baseball's boy wonder while ballyhooing a good-will Cleveland Indians into one of the best attractions in the majors. Previously he turned in a handsome front office job with Milwaukee of the American Association.

When Veeck sold the Cleveland club at a fine profit after last season, there was a speculation whether he intended to remain out of the sport, or rest up to take another whirl at it. He demonstrated dynamic ability while operating the Indians. One rumor that later cropped up was that he was interested in taking over the Cubs' Pacific Coast League holding, Los Angeles.

In Washington the other day, Wash. B. Williams, sportsman, expressed disappointment his deal to purchase 40 percent of the Senators had been called off by attorneys for the proposed seller.

Williams said that stock to this extent, representing interests other than that of Clark Griffith, Washington president, had been offered him for nearly \$500,000. At this rate, the full value of all of the stock in the club would be worth around \$1,300,000.

Could there be any connection between the report that young Veeck is dickering for purchase of the Senators and the fact that Williams had for 40 percent of the club had been rejected? Williams declared he was "mystified and bewildered" that his bid had been turned down, especially since he had been approached in the matter.

George Smith, Michigan State conversion specialist during the 1949 football season, didn't kick extra points in high school; he held the ball.

Joe Mortensen, new Army track coach, was national AAU decathlon champion in 1931.

Monday's Tilt To Decide Scoring Title

Monday night's benefit basketball game at the Junior High Gymnasium between the J. C. Daniels Mercurys and the Groom Independent team promises to provide some scoring action as a result of a Tuesday night game at the Hedley Tournament. The J. C. Daniels team defeated Groom that night for the second time this season, but J. W. Malone, high-scoring guard on the Groom team, outscored Clifton McNeely, Harvester coach. Now each has been high-point man one night. Monday's tilt will be the grudge game.

In the two games the teams have played against each other Malone, former All-American from West Texas State, has counted 70 points. McNeely, the nation's leading scorer in the 1946-47 campaign while playing for Texas Wesleyan, has tallied 75 points, 52 of them coming in one game.

Monday's game will be a benefit for the March of Dimes campaign. There will be no admission charged for the contest. Instead, any donation to the March of Dimes will be the only payment necessary to get into the gymnasium. All proceeds will go to the Police Fund.

The night will provide double entertainment. A preliminary scrap will match Coach Tom Tipps' Guerrillas against an aggregation coached by Guerilla football coach Eustace Prizzell, lovingly known as the Dirty Dozen. This game is scheduled to start at 7 o'clock.

The J. C. Daniels' team last night captured the championship of the Hedley Independent Basketball Tournament defeating Hedley in the final game. They conquered the Modern Market of Wellington and the Groom Independents to gain the finals.

AMARILLO — (Special) Dreamland specials flew fast and furious last night in the Regional Boxing Tournament here as ten fighters slugged their way to the finals on a card that featured the same number of knockouts.

The action-packed entertainment saw only one representative from the Shamrock District triumph in a semifinal match, although one other member also won his bout.

Hard-hitting Wilbur Smith, the 135-pound terror from Wellington, started the evening's festivities in grand style, delivering the first KO punch to Sammie Moren of Amarillo in the first round. Smith was the aggressor from the very beginning and had Moren down once before the knockout.

Four fights after Smith's inaugural clash Bobby Campbell of Shamrock solved Charles Mulkey's style, also in the first round in the High School 147-pound division. Although Mulkey was on his feet, the referee stopped it after Campbell had floored the Amarillo twice "on successive punches. Mulkey's eyes told the story as they seemed dead of glass after the first Campbell bombardment.

Joe Rice, veteran warrior from Lefors, battered his way to the finals when he outpunched Don Middleton of Amarillo. Rice hit hard and often as Middleton was in trouble in every round. Rice will meet Wilbur Smith in the finals Saturday night, in what should be one of the top fights of the tournament. The two battled in the finals at Shamrock two weeks ago with Smith gaining the nod, but the bout was so close that the Childress District sponsored Rice. And now the two are scheduled to wage ring warfare again in the finals Saturday night.

The only Shamrock boy to fall in last night's action was Herve Skaggs who was on the receiving end of Pat McCarthy's terrific right hand too often in the first round. Skaggs could not answer the blow, but the bout was so close that the Childress District sponsored Rice. And now the two are scheduled to wage ring warfare again in the finals Saturday night.

Cardell Pugh, tough slugger from Skellytown, won the admiration of the fans when he outslugged the red-haired Irish footballer from Dalhart, Raymond Kelly. Kelly's Irish temper flared often and sent him on wild rushes in the High School welterweight clash. On one such rush he was met by Pugh's solid right which sent him to the canvas for a nine count. This was probably the margin of victory since the bout was very close until Pugh's hard right landed.

Several of the tournament favorites in the debut last night, and none had too much trouble. After having a rugged first round, with Joe Reeves of Dalhart, the great Amarillo welterweight, Sammie Sims, slugged him into submission in the second round and the bout was stopped. Leon Palacio, three times winner of the tournament in the 118-pound Open Division, slugged Adair Gilbert of Childress until the referee also called a halt to the fracas in the second round.

The most exciting contest of the night was the final bout that brought together Robert Martinez, sharp welter recently released from the Army, and Tunney Bayles, pugilist representative from Amarillo College. Bayles ran into too much trouble in the third round and dropped the decision to Martinez after making a real fight of it—the first two rounds.

Leon Kelly and Gene Hubbard, popular members of the Shamrock team in the High School light-heavy and heavyweight divisions, respectively, had their matches postponed until tonight, due to the fact that their opponents were Borger football players and were attending a football banquet.

Last night's results:

HIGH SCHOOL DIVISION

135-pounds — Wilbur Smith Wellington, KO (1) Sammie Moren, (Borden's) Amarillo, (semifinal).

135-pounds — Joe Rice, Lefors, dec. Don Middleton (Buck's) Amarillo (semifinal).

147-pounds — Bobby Campbell, Shamrock, TKO (1) Charles Mulkey, (Bucks) Amarillo, (quarterfinal).

147-pounds — Kenneth Hamilton, (Buck's) TKO (3) Monty

Scott, (Buck's) Amarillo (quarterfinal).

147-pounds — Cardell Pugh, Skellytown, dec. Raymond Kelly, Dalhart (quarterfinal).

147-pounds — Eddie Elliott, Amarillo, dec. Pat Bailey, Plainview, (quarterfinal).

Heavyweight — Donald Giles, Amarillo (Blackburn's) KO (1) Bob Phillips, WT High (semifinal).

OPEN DIVISION

112-pounds — Pat McCarthy, (Buck's) Amarillo, TKO (2) Mervil Skaggs, Shamrock (semifinal).

112-pounds — Glen Duckworth, Amarillo, KO (1) Arthur Martinez, (Borden's) Amarillo (semifinal).

118-pounds — Leon Palacio, (Borden's) Amarillo, TKO (2) Adair Gilbert, Childress.

126-pounds — Beacham Toler, (Blackburn's) Amarillo, TKO (1) Donald Stevens, Memphis (semifinal).

126-pounds — Buster Holman, (Buck's) Amarillo, TKO (1) Carroll Huffine, Borger (semifinal).

147-pounds — Sammie Sims, (Buck's) Amarillo, TKO (2) Joe Reeves, Dalhart, (semifinal).

147-pounds — Robert Martinez, (Borden's) Amarillo, dec. Tunney Bayles, Amarillo College.

147-pounds pairings are (all are semifinals):

HIGH SCHOOL DIVISION

112-pounds — Donnie Ray, Shamrock, vs. Eddie Andraza, (Borden's) Amarillo.

112-pounds — Alfonso Guana, (Borden's) Amarillo, vs. Benny Martinez, (Borden's) Amarillo.

118-pounds — Joe McGinnis, Plainview, vs. Bill Matthews, Dalhart.

118-pounds — Joe Paredes, (Borden's) Amarillo, vs. Johnny Wilkerson, Borger.

Tonight's pairings are (all are semifinals):

112-pounds — Donnie Ray, Shamrock, vs. Benny George, Kress.

126-pounds — Bobby McCrary, (Buck's) Amarillo, vs. Vincent Teichman, (East Side) Amarillo.

147-pounds — Ken Hamilton, (Buck's) Amarillo, vs. Bobby Campbell, Shamrock.

147-pounds — Cardell Pugh, Skellytown, vs. Eddie Elliott, Amarillo.

160-pounds — Harvey Meredith, Plainview, vs. George Melton, (East Side) Amarillo.

160-pounds — Jimmy Hyatt, Pampa, vs. Durward Lynch, Panhandle.

175-pounds — Leon Kelly, Pampa, vs. Kenneth Hall, Borger.

Heavyweight — Gene Hubbard, Wheeler, vs. John Perkins, Borger.

OPEN DIVISION

135-pounds — Tom Landrum, Shamrock, vs. Johnny Hernandez, (Borden's) Amarillo.

135-pounds — Claude King, (Buck's) Amarillo, vs. Buddy Simpson, Amarillo.

147-pounds — Joe Williamson, (Borden's) Amarillo, vs. Ken Hodges, (Buck's) Amarillo.

175-pounds — J. Roy Henry, Shamrock, vs. Auslin Bowes, WTSC.

Heavyweight — Clint Williams, WTSC, vs. Jerry Smith, WTSC.

Heavyweight — Don Biggley, WTSC, vs. Doyle Porter, Phillips.

Autry Services Next Sunday

WOODSBORO — (AP) — Funeral services will be held here Sunday for Martin G. (Chick) Autry, manager of the Beaumont club in the Texas Baseball League.

The 46-year-old veteran player and manager died yesterday of a heart ailment in Savannah, Ga.

Guy Airey, president of the Beaumont club, said he was shocked at the news of Autry's death. He said it was too early to discuss a possible successor.

Among the first names being mentioned as a possible successor is Rogers Hornsby, former major league star who once managed Fort Worth in the Texas League.

Hornsby, contacted in Chicago, said he would be happy to "assist the Texas League in any way."

Ice fishing continues until March 15 in Wisconsin.

Wisconsin stands eighth among the states in the number of hunting licenses sold, with 421,343.

Hogan and Demaret in Hot Pursuit of Johnny Palmer

PHOENIX, Ariz. — (AP) — Ben Hogan and Jimmy Demaret renewed their Phoenix golf battle today with a fellow named Johnny Palmer given a good chance of fooling them both.

Marlene Gets Stiffest Test

MIAMI, Fla. — (AP) — Marlene Bauer today faces her sternest test thus far in the Helen Lee Doherty Women's Amateur Golf Tournament when she meets Marjorie Lindsay in the third round of championship play.

The tiny, 15-year-old Midland, Texas, sensation continued her blistering pace yesterday as she scored a lopsided 7 and 5 victory over Claire Doran of Cleveland, Ohio.

Miss Lindsay of Decatur, Ill., ten years and many tournaments senior to the petite Texan, yesterday eliminated Margaret Gunther of Memphis, Tenn., 5 and 4.

Marlene, who stands five feet, two inches and wears a pink ribbon atop her bunnet hair, was just two strokes over men's par after 46 holes of competitive golf.

In the second round match yesterday she turned 5 up after carding a one under women's par 37.

Marlene's 22-year old sister, Alice, withered under the sizzling putting pace set by Polly Riley of Fort Worth and was eliminated from the championship flight, 3 and 2.

Pirates Drop 2 To Price College

LEFORS — (Special) — The Lefors Pirates got a double dose of the Price College Cardinals here last night, dropping both the A and B team games. The score of the A game was 52-25; the B game, 39-19.

Birchfield led the scoring for the Bucs in the main game, getting 8 points. He was closely followed by Boggs and Jennings with 6 each. James Gallegos paced the Cards with 14. Trusty James and Jennings played fine floor games for the Pirates.

In the B game, Wayne Sims led the Pirate B squad with 4. Dave BobberSmith had 14 for the visitors. The Price clubs led all the way, 7-3 at the first quarter, 23-10 at the halfway point, and 29-11 as the final quarter started. Ken Florence played good defensive ball for the losers.

Tonight the Pirates play the Pampa Guerrillas at 7 o'clock in the Pampa Gymnasium. The game on next Tuesday night, they journey to White Deer to battle the Bucks.

Green-Gold Seeks Revenge For Earlier 50-41 Defeat

Tonight the Pampa Harvesters have an opportunity to seek revenge on the Lubbock Westerners for the first defeat hung on the Green and Gold this season. The two clubs will square off in the Junior High Gymnasium about 8:15 in a nonconference game.

The Westerners downed the Harvesters earlier this year at Lubbock, halting a four-game winning streak of the Green and Gold. The Harvesters ran up an apparently substantial early lead in that game but the Hub City crew came roaring back to throw in 14 straight points and take the lead at halftime, never to be headed again.

Reapers Lose to Westex Quintet

The Junior High School Reapers dropped a close and hard-fought game to the West Texas Junior High School team of Canyon yesterday afternoon at the Gymnasium, 29-26. The Reapers never could manage over a one-point lead at any one time, though most of the time they trailed.

Westex led at the first quarter, 10-6, at the half, 16-13, and at the end of the third period, 19-18. The Reapers led the scoring for the Reapers with 9 points; two more than Buddy Cockrell picked up. Captain Jimmy Bond went out by the foul route early in the fourth period after gaining four points.

Next game for the Reapers is Monday afternoon when they play the Sam Houston Junior High of Amarillo here.

Kentucky on Rebound Win

NEW YORK — (AP) — Kentucky and York, both beaten in their last games, rebounded last night. Kentucky, ranked fourth in this week's Associated Press basketball poll, drubbed Davier (Ohio), 58 to 47. Kentucky had lost to Notre Dame on Monday.

Bradley, ranked sixth, walloped Tulsa, 64-45, in a Missouri Valley Conference game. Bradley had lost to Detroit last Saturday in a major upset.

Undefeated St. Bonaventure ran its string to 10 straight by upsetting Niagara, 52-48.

Dayton University, which had been bidding for national recognition, suffered its third straight defeat in bowing to Muskingum, 71-68.

In other games St. John's (Bkn) 65-46 and Villanova buried John Marshall under a 107-62 score.

C. Mercurys Win Hedley Tournament

Two Pampa clubs walked off with the championships of the Hedley Independent Basketball Tournament last night. The J. C. Daniels Mercurys won the tournament championship with an exciting 46-42 overtime victory over the hometown Hedley team. The Culberson Chevrolests won the consolation championship edging out the Modern Market of Wellington.

The J. C. Daniels-Hedley game was a thriller all the way. It was knotted at 20-20 at halftime and 40-40 at the end of the game.

High-point man for the winners was Clifton McNeely, Harvester coach, who dumped in 24 points. He was followed by Bob Andis with 12. Truitt led the home club with 18.

White Deer Does Beat Panhandle

WHITE DEER — (Special) — The White Deer A and B girls' basketball teams won two games here last night over the Panhandle.

The A team won, 22-20, in a close game. Barrett was the leading scorer for the Does with 12 points.

The B team game was a wider margin victory, the Does winning 35-22. Evans was the leading scorer with 19 points.

Tonight the teams play in the District Tournament at Phillips. They will meet again Thursday night at Panhandle.

Amherst Suspended

AUSTIN — (P) — The Inter-scholastic League Executive Committee yesterday suspended Amherst High School from football competition next season.

The action followed accusation that officials had been mistreated after a game between Amherst and Olton last Sept. 23 at Amherst. Olton won, 39-0.

Big State to Meet

DALLAS — (P) — The Class B Big State League's annual schedule meeting will be held in Waco Sunday.

Cice president Gilbert Tindall of Greenville will preside at the meeting. President J. Walter Morris is recovering in a Dallas hospital of injuries received several days ago in an automobile accident.

WARREN'S WARMUP

By Warren Mason—News Sports Editor

QUESTION: What team won the Basketball Association of America championship last season? The National Basketball League championship?

THE BIGGEST QUESTION AROUND TOWN THESE DAYS is: "Is Ed going to hire Grover back?" The doubters are inquiring, of course, as to the managerial status of Grover Seitz, whether or not owner R. L. Edmondson of the Oilers has inked him, or plans to, for the 1950 season.

Ed himself is noncommittal on the subject. He won't say whether he is going to sign Grover, or at least try to, or whether he isn't. Grover himself appears to be completely in the dark as to whether he will or won't manage the club next season.

But I'd wager anyone a cup of coffee right now that the colorful senior manager of the West Texas-New Mexico League will once again be anchored firmly in the season gets underway. Grover is in top physical shape right now. He has been tramping the field all fall and winter hunting anything and everything. He has brought his weight down to around the 200-pound pole and appears to be ready to move into the outer garden regularly if necessary. And even with Father Time catching up on him he is ready and probably able to outrun most of the personnel on last year's team.

He was quite a speed merchant in his day, and still can pick 'em up and lay 'em down. Pampa is the only club in the league that hasn't settled the managerial problem for the new season as yet, but it probably won't be long before an announcement will be coming from the head of the club concerning the 1950 job. The baseball season is rapidly sneaking up on us and plans must be laid now.

As I think about going up and buying any new license plates for 1950 I am reminded of one particular license plate issued already in this state.

Cochman Johnny Kitchens of the runner-up Austin Maroons probably won't forget the spore of the game that took the state title from his grasp. It was 14-13 in favor of the Wichita Falls Coyotes. Thoughtful friends (?) made certain that he wouldn't anyway; that is his 1950 auto tag-number 1413.

The new setup in professional football certainly looks like a thorough victory for the old National Football League. Out of the 13 clubs comprising the new National-American Football League only three are members of the new National All-American Conference. The NFL apparently took the cream of the AAC teams.

CAULIFLOWER PFD... No. 3

Bronson 'Club' Beating Fight Law, Taxed 'Members' for Seats

Dixon Knocked All the Fight Out of Jimmie

(Third of a series) By JIMMIE BRONSON As told by Lester Bromberg (Written for NEA Service)

Knowing Tommy Dixon had carried me the greatest blow to my pride as a fighter. In my three greatest fights, the basis of my reputation, he could have knocked me out at any time. For weeks I pondered the unpleasant truth. I was nothing as a fighter. The little boy from Decatur had been let down. His dream of emulating Harry Sharpe, the hero of the 77-round battle, had vanished.

At 22, after 85 professional fights, I decided I'd never fight again, but my seat for boxing only increased.

When the saloon began to prove unprofitable, after three years, I closed it, and opened a gymnasium. Tommy Dixon and I taught, imported a few "professionals" to demonstrate. Soon we had more spectators than students. Then I got an idea.

Why not put on fights in a big hall, limiting the spectators to "members"? This would get around the anti-prize fighting law.

In a few months we were organized, with 5000 members. I was secretary and matchmaker. Also referee, when Dixon wasn't available.

We had no initiation fee. When we ran a show we'd assess the "members" \$2, \$3 or \$5, depending on where they sat. For a while, everything ran smoothly. Then jealousy. A stream of letters poured into the office of the prosecutor.

George F. Wolf, president of the "club," and I went to the state capitol. Wolf was able to get an appointment with Gov. Herbert Hadley.

Football apparently has just the same type of person in its commissioner, Bert Bell. He was the one who shouldered most of the problems and decided them at the recent meeting in Philadelphia. He made decisions on many problems that the 130 leagues couldn't come to any satisfactory agreement on, stepping on many toes in both leagues, but getting no arguments.

That type of leadership professional football should thrive. And perhaps, in the not too distant future, the Southwest will have an opportunity to join the setup. Most of the professional players come from this area, a football hotbed, and it most certainly would be a good move by the league and by any promoter.

Citation Outrun By Unknown Nag

ARCADIA, Calif. —(P)— Citation, for only the third time in 21 starts, has come off the turf second best.

Citation's return was marred yesterday by Mische, an unheralded little gray horse from the Argentine.

The small one, ignoring the greatness of his rival, outtimed Citation and whipped him by neck in a six-furlong thriller at Santa Anita Park.

The race was Citation's second trip to the post after a 13-month layoff due to leg injury. It was a tune-up for the Calumet cannon-ball for the \$50,000 San Antonio Handicap Feb. 11 and the \$100,000 Santa Anita Handicap Feb. 25.

It was a full-scale race for Mische, however, as he took Citation's measure in 1:10 4-5. The winner paid \$30.20. Citation was 1-4.

Twelve of the 22 men on the Michigan State basketball roster and three of the five most frequent starters are Sophomores.

OTHER SIDE—All the fight knocked out of him, Bowtie Jimmie Bronson became a matchmaker and man about Joplin.

a dance. Owens liked to wear a Panama hat, regarded as duds, and going back to the hotel a local yelled: "Pipe the skimmer!" Owens went for him. An accomplice let fly with an object. It knocked off Owens' hat, but he continued the pursuit undamaged.

Someone with us picked up the missile. "A brick, what can hurt that guy?" he shouted. "His name should be Brick Owens!"

The Giants and White Sox barnstormed through our part of the country, with Christy Mathewson the big attraction. Walter Johnson was playing post-season ball in Springfield.

I went up to Springfield to see Johnson.

Casually I said: "You've never pitched against Mathewson, have you?"

"No," he replied. "Well, if I could arrange for you to pitch for the White Sox, I said, 'how much would you want?'"

"How much?" he repeated.

"NEXT: Could Jimmie Bronson match Walter Johnson with Christy Mathewson without raising the mint?"

Hunting License Business of Government Is Multi-Million Job

By WILBIE MARTIN Associated Press Staff

If you bought a hunting license the fiscal year of 1949 (that means before last June 30) you're a part of a multi-million dollar business.

The U. S. Fish and Wildlife Service has just released totals for the various states on how many hunting licenses they sold and how much money was received.

Texas alone sold 291,888 hunting licenses to resident hunters and 1,428 out-of-state persons paid for the privilege of hunting in Texas. The amount paid by these 293,316 persons was \$623,506.

In duck hunting, 184,078 Texans bought federal stamps.

Texas' total doesn't put it among the first ten states. Michigan has this distinction, selling 777,879 licenses. Pennsylvania, New York, Ohio, Minnesota, California, Illinois, Wisconsin, Indiana, and Washington are next.

Albert Day, director of the Fish and Wildlife Service, reports the fiscal year ending June 30 set two records — the number of licenses sold in the 48 states, Alaska, District of Columbia, Hawaii, and Puerto Rico and in revenue received.

Hunters paid a grand total of \$34,966,887 for 12,758,698 licenses. Increased hunting fees helped swell the revenue, Day reported.

The report Day made to Secretary of Interior Oscar L. Chapman bears out remarks he made in 1947 when he came to San Antonio to address the 12th North American Wildlife Conference.

Day said then in an interview that he was worried about the future of hunting; that he expected the number of hunters to increase year by year. He said that thousands of men who had never handled a rifle had learned to use one while serving in the Army, Navy or Marines. These men, he said then, were potential hunters.

E. H. Lounsbury of Austin has a way of troling his friends claim is remarkably successful. Ken B. Harper explains it like this: Lounsbury uses a six-pound test nylon leader some four feet long. About 10 inches from the end, he attaches a sinker heavy enough to pull the rig down to trolling depth of six feet below the surface of the water. He uses a nickel-plated spinner on the end of the leader and then a no. 2 hook. A minnow is used for bait on the hook.

SPORTS BEFORE YOUR EYES Latest red hot tip on the Holy Cross football coaching situation is that basketball tutor Buster Sheary may be the choice. "He had an excellent high school record," says our informant, "and could be another Paul Brown."

Earl Stewart, the Texan who was recently tabbed as the best amateur golf prospect in sight, has just turned pro and plans to make the summer tour.

Carver Team Win Two From Berger

The Carver boys and girls basketball teams won two games last night at the Gymnasium, defeating Berger. The Carver girls won, 22-10. Rowland getting 15 points for the winners. Carter got all 10 points for the losers.

The Carver boys won, 29-15, with Rowland getting 9 points. The next game for the Carver teams is Saturday night when they play Plainview at the Junior High Gymnasium.

This is a Piston PACKED WITH POWER! It's Nurlized

What does Nurlized mean? It means new pep from old cast iron or collapsed pistons waste power—cost money in gas and oil. The Perfect Circle Nurlizer is a new development to save that power, economically. It increases the diameter of the piston permanently, accurately—makes it fit a worn cylinder.

See your Doctor of Motors, your expert mechanic, about Nurlizer service. Nurlizing means new life for old cars, new economy for car owners! Surprisingly low cost per piston.

To COMPLETE the POWER SERVICE PROGRAM :::

- Perfect Circle Custom Made Piston Ring Sets are the first thing you should think of when you want to stop oil pumping—save gas—restore power.
- Perfect Circle Plastigage—a new way to save up to 2/3 time checking bearing clearances. Fast, economical, foolproof!
- Perfect Circle Custom Made Bearing Adjusters. These bearing adjusters are made for specific bearings, individually packaged, ready to install, tapered for precision fit.
- Perfect Circle Manulathe is a fast, accurate, money-saving way to regroove worn, roughened, or out-of-shape piston ring grooves.

WE MAKE IT A POINT TO EXTEND A GOOD OLD FASHIONED WELCOME TO PAMPA NEWCOMERS

Plain, old-fashioned hospitality is what we are offering all the newcomers to Pampa. We hope that each and every one of these new comers will take their place in this oil and gas capital of the Panhandle plains and become a part of our growing community. Today, Pampa's estimated monthly payroll is \$3,168,000—not to mention a fine educational system of up-to-date school buildings, beautiful churches with hospitable congregations and a beautiful mercantile section of modern retail stores.

This is only a thumb-nail sketch of the town you newcomers have chosen to live in. As we proudly welcome you to our city we hope that you will like us—and will have a happy and prosperous future in Pampa.

NEWCOMERS! WE SAY WELCOME

May we help you with your home furnishing problems? You will find quality at prices you can afford.

Alanreed First Baptist Church Scene Of Smith-Haynes Wedding Ceremony

ALANREED (Special)—Miss Glenda Joyce Smith, daughter of Mr. and Mrs. Ruel Smith of McLean, became the bride of John Morse Haynes, son of Mr. and Mrs. John C. Haynes, also of McLean, Sunday afternoon in the First Baptist Church.

The Rev. W. B. Hicks, pastor of the First Methodist Church of McLean, read the single-ring ceremony before an arch of greenery and pink gladioli. Tall baskets of pink gladioli decorated the altar, and candelabra held white tapera.

Candles were lighted by Miss Gwendolyn Ridde of Amarillo, and Miss Wynette Caldwell of Borger, cousins of the bride. Mrs. Travis Stokes, pianist, played the wedding music, and Mrs. Bob Thomas sang "Because" and "I Love You Truly."

Given in marriage by her father, the bride was attired in a piece dress made with an embroidered yoke, and a pink halo hat with pink shoulder length veil. She carried a white Bible topped with an orchid. The bride carried out the tradition of "something old, new, borrowed and blue," and had a penny in her shoe.

Miss Ernestine Dickinson, school mate of the bride, of Dallas, was maid of honor. She wore a dress of sky blue crepe, and the bridesmaids, Miss Dorthea Back of Abilene, in silver-gray, and Miss LaWanda Chadler of Denton in blue-gray, wore corsages of pink carnations.

Sammy Haynes, brother of the bridegroom, served as best man, and Bobby Kramer and Charles Bailey were ushers.

The bride's mother was dressed in a tan faille suit with navy blue accessories and wore a pink carnation corsage. The bridegroom's mother wore navy blue with white accessories and a white carnation corsage.

For the wedding trip to Denver, Colo., the bride wore a navy blue suit with navy accessories.

Both Mr. and Mrs. Haynes are graduates of McLean High School. Mrs. Haynes is also a graduate of Colorado Women's Junior College, Denver. Mr. Haynes is a student at West Texas State Col-

Grace Friend...

Dear Mrs. Friend, Our neighbors have got more kids and dogs than they know what to do with, which means that they are always messing up our yard until it makes our home look like a pig pen.

My husband and I moved here recently from the east, and we are no use to having the neighbors plague our senses. I have called the woman next door and even wrote her letters but it just doesn't do no good, I can't seem to make her understand that we don't want all those kids and animals playing around and trampling the flowers which my husband works so hard to keep up.

I've thought of calling the cops, but perhaps you could suggest some other way, because I don't want to cause them no real trouble, if I can help it.

Mrs. S.

Dear Mrs. S. I guess you will have to build a fence around your garden, a fence high enough to keep out all children and dogs. Then your flowers will be protected and you can keep your garden as neat as you wish.

Don't blame the mothers who can't keep their children home. It is natural for them to run back and forth to each other's homes and of course they must use the intervening lawn. Who ever hears the children going around by the sidewalk? It is natural for their dogs to follow after.

As children are pretty necessary to this world, we can't banish them. If I were you and didn't like them about, I should carefully investigate the neighborhood where I plan to make my home to be sure there are no youngsters there.

Personally I have never minded the toys and tricycles left about on lawns where there are children. I would rather be where they are brightening the vicinity with their noise and laughter and where there is the colorful clutter which marks their path than be in a dull, drab neighborhood populated entirely by adults.

My suggestion to you is to move to another neighborhood if you can't stop worrying about the children.

But, before you do another thing, please read Oscar Wilde's beautiful fairy story, "The Selfish Giant."

NEEWOMER LAOMS FRIENDS

Dear Miss Friend,

What is the matter with people in this city? We came here to live in 1942 (not by choice). We left our home and friends of many years when my husband gave up his business to give his service to his country.

We have been here eight years and our only friends are people we met through the service who happened to be stationed here too.

I joined one of the women's clubs during the war, but no one in the club tried to make me feel welcome, so when I was asked to join after the war I refused.

I wanted to tell the woman who called me, why, but I didn't. If they'd realize that they'd have more members if they went out of their way to make a stranger feel welcome it would be much more pleasant all around.

We bought a home here and even the neighbors paid no attention to newcomers.

Back east where we came from neighbors came in to call when we moved there—even gave a bridge party for me to meet other neighbors. I miss my friends back there and their friendly hospitality.

People here are too stand-offish and only concerned with their own little group of friends.

We have joined a country club in a neighboring city and have found the people there so much more friendly. I'd be interested in other "Out-towners" opinion on the lack of friendliness here.

A Disappointed Resident: Cities in the west are different from those in the east in that newcomers back there are an event while here they arrive everyday.

Even your neighbors might be newcomers wondering why you have not called in them.

Do you have a hobby that might interest other people? If you like to garden, why not join one of the interesting garden clubs where members all have a common interest.

Do you play bridge? You might join a bridge club. Such groups would be better for making friends than the average woman's club where everyone already has her circle.

If your neighbors haven't had a party for you why don't you have one for them? If you have met as many as four of them, even, you might have them in for luncheon some day. If you have met more invite them too. Let your guests know that you are interested in them and enjoy having them in your home.

When they return your invitation there undoubtedly will be others of their friends present and you will meet new people and your circle of acquaintances will continue to grow and a year from now you will have twice as many friends for luncheon.

In a busy community such as this one, people do not realize that they

Mother Invents Leakproof Diaper

Inventor of a leakproof nylon diaper cover, Mrs. James Donovan gets approval from the final authority. The cover is adjustable, washes clean under the water tap.

NEA Newsfeatures SAUGATUCK, Conn. —(NEA) — A shower curtain, a pair of scissors, and necessity recently turned a young Connecticut housewife into an inventor. Her invention is a waterproof nylon diaper cover.

Mrs. James Donovan is the mother of two small children. While they were babies, she found that there was no such thing as a leakproof cover. She set to work herself, cutting up a shower curtain, sewing and stitching. She wasn't satisfied with the results. She finally got the right answer in nylon, which she turned into a steamlined diaper cover after months of trial and error.

"My new diaper cover, like a good boot, absolutely can't leak," Mrs. Donovan says. "It snaps on easily, never binds, is adjustable through snaps, and permits a healthy ventilation. Furthermore, only one diaper is necessary to fit the cover. This diaper, folded

my way, gives eight thicknesses of protection, rather than the usual three or four." The secret of the cover's effectiveness in keeping baby clothing dry lies in protective walls, built in at either side, at the leg openings. The protection band at the top has a four-inch leeway at each side which can be pinned to the shirt for greater security. And the cover comes in four sizes for all babies.

The diaper cover is a cinch to come clean under the water tap without scrubbing. Or it can be quickly dunked in warm water and suds.

"I had never thought of myself as an inventor," Mrs. Donovan says. "My invention happened by gradual steps, with necessity nudging me. But I did have my youngest child to test it for me. We laboratory-tested it, of course, but Sharon was the final authority."

High School Girls' Clubs Sponsor Dance Tonight to Aid Polio Fight

Officers of the Las Ceras, Sub Deb, La Rosa, and Kit Kat clubs met in the home of Jane Hampton Tuesday, Jan. 26, to plan a dance to be held Friday night at 8 o'clock. All proceeds from this dance are to be given to the drive against polio.

The La Rosa Sorority will be in charge of refreshments, the Las Ceras will provide the music, the Sub Deb Club will be in charge of advertisement, and the Kit Kat Klub will be in charge of the decorations and lapel pins. A floor show was also discussed and it was suggested that several quartets perform.

The dance will be held in the Moose Home, beginning at 8 o'clock. A small admission fee will be charged.

Those attending the meeting were Janice Mayes, Irma Jean McWright, Betty Wilson, Elaine Ellis, Barbara Radcliff, Martha Hopkins, Mary Lou Gantz, Glenda Husted, Jan Ethridge, Cornelia Cornelius, Joan Ryan, Berdene Laycock, Sue Lynn McFall, Phoebe Osborne, Laura Nell Berry, Mary Haworth, Betty Howard, Zula Brown, Donna Robinson, and Jan Hampton.

Money spent for housing constitutes about one-fifth of total capital expenditures in the United States.

are neglecting newcomers. They just don't have lots of time to call on them.

Don't sit at home and wait for them to try to find a free moment for a call, invite them in. Make an occasion out of it. They will be delighted to be friendly and undoubtedly will wonder why they haven't gotten over sooner.

There are other ways of making friends in a new community. Try doing some volunteer work for the Red Cross or the YWCA, and you will find that you are making friends with your P-co-workers.

Whatever you do, don't go around looking unhappy so that none will want to know you better. Look and act cheerful and treat your neighbors in friendly fashion when you meet them.

Classic Style

By SUE BURNETT

A charming daytime style that's as versatile as can be. It buttons down the front, has handy shaped pockets, a narrow belt that ties in front. A favorite in your wardrobe the year 'round.

I Love My Doctor

By Evelyn Barkins

XXXIII BUT the die was inevitably cast. In a short while, we discovered that we were definitely "expecting" and so took the first step out of the honeymoon stage without the slightest realization of what was taking place.

"How come husbands in the movies never seem to know beforehand?" I asked John as he consulted the calendar. "She faints, or drops a little bootie that she's knitting, and he acts as flabbergasted as if he were never even there!"

John laughed. "Although I joined in his laughter, I still was firm about not revealing the news until after my diploma was secured, and John finally agreed. Despite his personal excitement, however, his professional attitude was as annoyingly consistent as ever. First he decided the whole business of having a baby to the unimpressive cubby hole reserved for prostatic routine cases in medical practice.

"It's a perfectly natural function," he began, like a second-grader reciting the pledge to the flag. "The most important thing to remember is to forget the entire matter." This conclusion was offered like an obstetrician addressing a class for expectant mothers.

Keeping busy was no task for me—at that time, or anytime since. I was soon fully recovered, back in the office, helping John and reaping my full share of engrossment and often laughter. If distraction was all that John prescribed, then his office was the ideal place to get it.

AND "forget it" was exactly what John proceeded to do. When I developed spells of nau-

ses, and complained because I had to sneak out of the lecture hall at school, he merely said with his usual exasperating nonchalance toward non-dangerous uncomfortable symptoms: "Morning sickness is common enough, and of no significance at all. Don't worry."

Besides keeping busy in the office, I found myself flung into the final throes of cramming at school. The effort of covering the whole year's law work in preparation for the concluding examinations, as well as the state bar, was no negligible matter.

"Thank Heaven that's all over!" I told John one day after the last paper had been handed in, and I came home from school for the last time.

"Think you passed?" asked John, as I fell wearily on the couch.

"I prayed hard enough," I answered confidently, as if prayer could alter the facts of how much two plus two make, or what Justice Marshall said more than 100 years ago.

"When's graduation?" he asked equally confident.

"Got something for me?" I spoke with renewed interest.

John's face fell 20 points. "Gifts again?" he groaned. "I clean forgot. Don't worry, though, now I'll remember. I tell you though, sweetie," he went on half jokingly, "the Bible says Jacob served seven years for Rachel, but sometimes I think that modern man never finishes serving."

"It wasn't such a horrible job for you when we were engaged, and first married?" I answered, trying to joke back, but not succeeding very well. "You used to get me loads of things then."

"That's just it," said John. "A fellow kind of runs out of ideas. Besides, I've got a lot more on my mind now."

"Well, anyway," I said deliberately turning away from this Scylla and Charybdis topic, "you'd

Nevada is the driest of states in rainfall, averaging 8.81 inches a year, according to the U. S. Weather Bureau.

Louisiana is the wettest of all states, by U. S. Weather Bureau records, with an average annual rainfall of 55.11 inches.

Lefors Church Women Meet to Choose Officers

LEFORS — (Special) — Officers of the Elizabeth Rea Young Women's Association of the Baptist Church were elected at a meeting of the group held Monday at the church.

Those elected were: president, Peggy Starr; secretary-treasurer, Nell Guthrie, program chairman, Geraldine Dunn, missionary leader, Marlene Swafford, song leader, Jean Rowe; and pianist, Barbara Chastain.

Miss Browning and Miss Guthrie were chosen YWA sweethearts and Miss Dunn and Wanda Roberts will be their attendants.

A banquet to honor the sweethearts was set for Feb. 11. Special guests will be Weldon Lewis of the Calvary Baptist Church at Pampa and Peter Chen, a Chinese student from Wayland College, Plainview.

Besides the officers, refreshments were served to Miss Roberts, Barbara Dick, Delores Nazworth, Mrs. Eddie Rowe, Mrs. Dick, Mrs. Fred Browning, and Mrs. Vern Ferguson.

A dinner in honor of the Rev. G. H. Baxter's 20th birthday was given at his home Sunday.

Those attending included: Mrs. and Mrs. W. E. Wilson and daughter, Barbara, of Boise City, Okla.; Mr. and Mrs. J. E. McCathern of Heford; Mr. and Mrs. G. W. James and daughter, Janis Jean; Mr. and Mrs. Ralph Baxter and Jerry, Kenneth, and Sherill, all of Pampa; Mr. and Mrs. Jim Stroup and daughters, Fatsie and Frances, of Amarillo; Mr. and Mrs. Marion Baxter and sons, Marion and Ricky, of Borger; and Mr. and Mrs. Bill Fulcher, Mr. and Mrs. D. T. Pfeil and daughters, Delena and Barbara, all of Lefors.

Minnesota, "land of ten-thousand lakes," actually has more than 11,000.

Christian Gospel Is for Everyone

By WILLIAM E. GILROY, D. D. If we could transport ourselves back through 20 centuries, and see just as it was the world and the environment in which Jesus and His little band of disciples laid the foundations of Christianity and the Christian church, we should understand something of the wonderment of that beginning, and the seeming miracle of how the church took root and grew.

As it is we see the events through 20 centuries when Christianity and the church are worldwide, when the church even in its outward aspect has become an institution of prestige and power, and when the name of Christ, in profanity or in sincere love and devotion, is on the tongues of countless millions.

We can hardly conceive how small, in an outward sense, was the beginning, in an environment little larger than the smallest American state, in a country itself almost insignificant in size, among the great and powerful empires of that ancient world.

The fact that Palestine was situated always in the center of those great empires—Egypt, Assyria, Babylon, Persia, Syria, Greece, Rome—gave the Holy Land an actual significance far beyond its size. But the real significance of Palestine was that it was the Holy Land, the land of strange and sharp contrasts, of good and bad, of evil Herods and devout shepherds, but the land in which above and beyond all tragedy was the glory of pre-eminence in spiritual values and religious experience.

The marvel and the explanation of the growth of Christianity are seen in the teaching and mission of the Master, and in the faith and vision that He inspired in His disciples. As if He might have been speaking from Rome, the center of world power, instead of from villages insignificant in the eyes of Rome, He announced His mission as worldwide. He commissioned His disciples to go forth and preach the gospel to all the world, even to its very ends, and he assured them that everywhere He would be with them.

But what was even more significant was the fact that this gospel

Parish Council Of Holy Soul's Has Lunch Meet

The Parish Council of Holy Soul's Church met for a covered dish luncheon and regular meeting Jan. 16 in the Parish Hall. Hostesses for the luncheon were Mrs. Clayton Husted, Mrs. E. J. Lewis, Jr., Mrs. J. W. Kidwell, and Mrs. J. W. Garman III.

Luncheon was served at 1 p. m. followed by a business meeting at 1:45. Plans were made to serve the DePaul's Infirmary Chorus after their concert here on Feb. 4. Dinner will be served to the chorus in the Parish Hall.

Attendance Grows At Pampa Church

A concerted effort to increase attendance at the Francis Avenue Church of Christ is "reaping results," A. C. Cox, elder, said yesterday.

The Sunday morning Bible School has increased from an average attendance of less than 200 to 321 during January.

The men's class has increased 75 percent; the ladies' class has increased about 61 percent; and other classes have shown increases in attendance this month from 20 percent upward.

Baptist Groups In Miami Meet

MIAMI — (Special) — The Baptist W.M.S. met in the home of Mrs. Dwight Baker Monday afternoon with 13 members present.

Mrs. C. T. Locke taught the manual of methods, "Things We Should Know," and conducted a roundtable question and answer period.

As both the president and vice president have resigned, a committee was appointed to choose nominees for those posts.

JUVENILE DELINQUENCY BEGINS IN THE HOME

... and Bless My Mommy and Daddy"

Parental influence is the most important thing in the world. Children are what parents make them. Habits learned while your child is completely dependent upon you mean everything to his character, happiness and success in later years.

Continue to exert this mighty influence through the growing-up years and help shape an American citizen of your son or daughter that you will be proud of.

You will be repaid in your efforts by your child's continuing faith and trust ... and prayers.

As Good Parents You Should:

- 1--Give the love and companionship so necessary to your child's welfare;
2--Attend church with your children;
3--Support personally the many fine organizations that provide recreation for boys and girls;
4--Devote some of your time to personal services in the activities that minister to the young;
5--Help spread good cheer and human understanding to families not as fortunate as your own.

Wise parents know that duty to their children is more than food, clothing and shelter.

They know that the home life needs to be more attractive to childhood: that wholesome recreation for their own boys and girls and their neighbor's children is the best way to prevent trouble and sorrow when the critical years are upon them.

Rich Iron Ore Found In Venezuela

NEW YORK (AP) - A five-year American search for iron ore is climaxed with news of a rich strike overseas.

It may allay the bogey of what would happen if another war ate into the nation's own fast dwindling, although still extensive, ore sources.

Guided by this bogey, thousands of American engineers have tramped over the lands bordering the South and North Atlantic.

They have found new deposits in Labrador and in Liberia. They have reported finding the largest and richest iron ore deposit in the history of the world.

The United States Steel Corporation has staked claim to a mountain of iron "of almost the cretaceous maximum purity" in the interior of oil-rich Venezuela.

Mining engineers estimate the mountain has one billion tons of iron ore. This compares with a little more than one and a quarter billion tons of high grade natural iron ore reserves still left in the Lake Superior region.

The nation also has Bethlehem Steel's Venezuelan ore deposits, and others found in Labrador, and others found in Liberia.

The steel industry plans to develop extensive concentration plants to grind and separate the low-grade taconite ores in the Superior region.

The rich iron ore, together with the others, means that the nation's available sources of iron and steel have been extended many years into the future.

"Well, I never heard of that - that one can get rid of his cares and troubles through prayer. Say, why don't you say a prayer for me, too?" Next day he again found her at prayer.

"I'm praying for you, asking that you'll be able to go to Heaven," said the nun. Thereupon, the story goes, the Russian blurted out an astonished rejection.

"No, no, I don't want to go to Heaven. I want to stay in Germany." (This story is intended to stress what many Germans have always contended: That the Russians stayed in Germany "never had it so good.")

Q-Where were the first highways in the world? A-The first highways were the trade routes of Asia Minor which connected the East with the West about 2000 B. C.

Q-Why are Leghorn hats so called? A-Leghorn hats take their name from that of the Italian port through which they are shipped.

Q-Has the United States issued any postage stamps honoring a labor leader? A-A special 8-cent stamp in honor of the 100th birthday anniversary of Samuel Gompers, noted American labor leader, has been authorized by the Postmaster General. It is believed to be the first stamp honoring a labor pioneer.

Q-In what city is a monument dedicated to birds? A-Sassville, Missouri, in Salt Lake City, Utah, commemorates the rescue by seagulls of the crops when attacked by hordes of crickets in the second year of the settlement. This is the only monument dedicated to birds in the United States.

Q-How long has the Mo Grande been the southern boundary of Texas? A-The Treaty of Guadalupe Hidalgo concluded between the United States and Mexico in February, 1848, recognized the Rio Grande as the boundary of Texas.

Q: In the musical instrument, the ocarina, so-called because it has eight finger holes? A: No. Ocarina is an Italian word meaning "little goose," from the instrument's fancied resemblance to the body of a goose.

THE CRIPPLER PLAYS NO FAVORITES!

It visits the home of the young and the old, rich and poor, of all races and religious persuasions. Democrats and Republicans . . . it comes quietly . . . without warning . . . without mercy and leaves in its wake nothing but misery and helplessness . . . twisted bodies, shrunken limbs, awkward locomotion . . . victims of the great crippler.

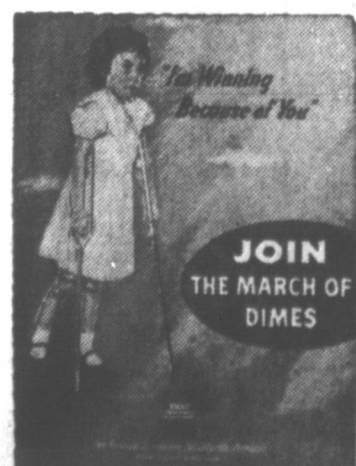

BE SURE TO DRINK AN EXTRA CUP OF COFFEE
TOMORROW BECAUSE

**THE COFFEE YOU DRINK
WILL HELP SOME CHILD
TO WALK AGAIN**

Tomorrow, Saturday, Jan. 28, during the hours of 8:00 a. m. to 5:00 p. m., the merchants whose names appear below will charge 10c per cup for coffee. Money received from coffee sales will be donated to the March of Dimes Campaign. Won't YOU help, too, by making sure that you drink at least ONE EXTRA CUP tomorrow? Get your coffee from these merchants tomorrow, and help some child to walk again.

**REMEMBER—SATURDAY, JAN. 28, 8 a.m. to 5 p.m.
COFFEE WILL BE 10c PER CUP.
MONEY TO GO TO THE MARCH OF DIMES**

GET YOUR COFFEE AT THESE PLACES TOMORROW AND HELP DEFEAT POLIO!
