

The Weather

West Texas—Mild afternoon temperatures. Cool again tonight.

"MOTHER, DON'T WORRY ABOUT ME. I am fine and will be home some time to tell you how we whipped the Japs."

E. WAYNE PERRY, son of F. E. Perry, 323 South Russell, is stationed aboard a naval vessel in the mid-Pacific area.

Britain Organizing Great Invasion Army

Argentine And Chile Break With Axis

By HENRY BAGLEY
RIO DE JANEIRO, Brazil, Jan. 22 (AP)—An agreement among five nations, including reluctant Argentina and Chile, on the much-debated proposal for a concerted diplomatic break with the Axis opened the way today to a unanimous stand by the 21 American republics against Germany, Italy and Japan.

(By The Associated Press)
Russian troops slashed at the rear guard of Adolf Hitler's retreating German armies seven miles west of Moshalsk today, while in London Air Minister Sir Archibald Sinclair declared that the British army now was organizing "the greatest possible striking force for offensive operations on the European continent."

Sinclair gave no indication whether a British counter-invasion was imminent. London newspapers and other critics for weeks have been clamoring for action, and British officials have frequently mentioned the readiness of the 2,000,000 army regulars and 2,000,000 home guards long held in readiness to combat any attack on the island kingdom itself.

11 Jap Ships Sighted Off Australian Island

Rubinfo
Famous Violinist Will Appear Here In Two Concerts

Rubinfo, famous conductor, composer and violinist, and his \$100,000 Stradivarius violin, will play two concerts of popular and classical music at the Pampa Junior High school auditorium on the afternoon and night of Thursday, March 5.

200,000 Japs Attack Fiery Filipino Army

By ROGER D. GREENE
Associated Press War Editor
British jungle troops, seizing the initiative for the first time in the Malayan campaign, were reported smashing at Japan's main invasion armies in a full-scale counter-offensive 70 miles north of Singapore today while reinforcements of 350-mile-an-hour Hurricane fighters swung into action over Singapore itself.

Hurricanes Arrive To Battle Enemy

MELBOURNE, Australia, Jan. 22 (AP)—Rabaul, capital of New Britain, reported today that 11 ships, including warships, had been sighted off neighboring Watom Island, and immediately following this report communications with Rabaul ceased.

Bishop Urges Axis Cities Be Destroyed

(By The Associated Press)
The invasion of Germany and capture of Berlin "the German people must know and feel the meaning of invasion," is the expressed hope of Bishop Harry T. Moore.

IF ALL THE BOYS FROM GRAY COUNTY who are in armed forces were in one group, they'd make a formidable fighting force, and Gray county is proud of every one of them, said as it is proud of Coleman W. Brown, son of Mr. and Mrs. W. R. (Dick) Brown of Denworth, Dick enlisted in the U. S. Navy Feb. 27, 1941.

28 Red Soldiers Battle 50 Tanks

By EDDY GILMORE
MOSCOW, Jan. 22 (AP)—A dispatch from the central front told today of 28 Red army soldiers, crying "Moscow is behind us—there is no retreat," battling against 50 German tanks before losing their lives.

Rail Fares To Be Raised 10 Per Cent

WASHINGTON, Jan. 22 (AP)—The nation's railroads held official authority today to raise passenger fares 10 per cent to meet increased wages and operating costs.

That Announces For County Clerk

Charlie Thut announced today that he was a candidate for re-election as county clerk. He is the first candidate to announce this year for this office.

What's Cooking?

ARKANSAS CITY, Kas., Jan. 22 (AP)—Miss Stella McCain settled down to enjoy a movie.

Mosquito Bites Japs

AND NAVY HAS NEW HERO—Lt. John Benton Bulkeley, right, commander of Motor Torpedo Boat Division 15, whose ship, identical to the one at left, raced into Subic Bay on the Philippine Island of Luzon and torpedoed a 5,000-ton Japanese ship under the fire of three-inch shore batteries and machine guns.

Identical to the one at left, raced into Subic Bay on the Philippine Island of Luzon and torpedoed a 5,000-ton Japanese ship under the fire of three-inch shore batteries and machine guns.

I HEARD....

From Sam Malvica, former Pampa Oiler baseball star, today and he is now at Fort Ord, Cal., but expects to move again. He's been at Fort Bliss, Fort Leonard Wood and Camp Robinson. Sam said he was keeping his batting eye and throwing arm in shape to get a crack at the Japs soon.

Have your car checked by trained mechanics at Hampton's, Ph. 488.

Clock Jumping Designed To Save Power

WASHINGTON, Jan. 22 (AP)—Clocks may be an hour "faster," but officially they still will be on "standard" time after Feb. 9.

This was developed today in response to questions as to whether the law signed Tuesday by President Roosevelt puts the nation on "daylight saving time," as happened in the first World War.

Interstate Commerce Commission officials offered their views anxiously. After all, they don't care what you call it, but they don't want you to call them. The ICC is the federal agency most concerned with time because of its effect on the railroads whose operations ICC supervises.

In 1918 congress adopted "an act to save daylight and to provide standard time for the United States." It said that the states should be divided into four time zones. A fifth zone was fixed for Alaska. The law provided further that time one hour earlier than standard should be in effect from March to October. This portion—the "daylight saving" section—was repealed over President Wilson's veto in August, 1919.

The ICC was charged with the responsibility of delimiting the zone boundaries, and fixed them generally along the lines already in use by the carriers. The commission has made a number of changes, such as bringing states which originally were divided into a single zone.

It retains the power to make such changes, and officials already are anticipating, with no delight, demands that the lines be moved eastward at some points to offset the effect of the new standard. In a few instances, however, congress itself fixed time zone boundaries because the ICC had rejected requests. One such law involves Idaho, and another, Texas and Oklahoma.

The purpose of jumping the clocks up an hour, as in 1918, is to conserve electric power by putting more of normal activity into daylight hours.

After a certain speed is attained by an airplane in a power dive, the propeller acts as a brake.

Hospitals Asked To Continue Building

WASHINGTON, Jan. 22 (AP)—The federal works agency today urged hospitals to go ahead with their own financing plans instead of waiting for public grants or loans for expansion purposes.

Administrator Baird Snyder III said a large number of hospitals were delaying fund-raising in hopes of getting federal aid. Under the new Lanham act appropriation only \$150,000,000 is available for defense public works of all types. Snyder said many hospitals are not eligible to get funds because their need is not based upon the defense program.

HELP FIGHT

INFANTILE PARALYSIS

Ray Kuhn, chairman of the county committee for the celebration of the President's birthday, today called on Gray county residents to extend the hand of loyalty to the chief executive at a time when his burdens and responsibilities are heaviest.

To raise funds for the Fight Infantile Paralysis campaign, dances in celebration of the President's birthday will be held over the nation. In Pampa, three have been scheduled for Friday night, Jan. 30.

"The war against infantile paralysis was instituted by President Roosevelt," said Chairman Kuhn. "And, because it is close to his heart, he granted the use of his birthday as the focal date of the annual fund drive."

"Consequently, each dime and dollar contributed to sustain the foundation he established is a tribute to him. President Roosevelt is 60 years old on Jan. 30. You can make that Diamond Jubilee sparkle with love, loyalty, and unity for him while bringing hope and assurance to the afflicted among our people."

Funds derived from the campaign are used in the war against a crippling disease, which, as Sister Kenney pointed out in a recent Saturday Evening Post article, leaves its victims "neither dead nor alive," and which, in the past three years, has entered more than 26,000 American homes.

Radio Program Tonight

As part of the 1942 Fight Infantile Paralysis campaign, a half-hour variety show will be heard over the Mutual network, coast-to-coast, 7 to 7:30 o'clock tonight, Pampa time.

The show is titled "Americans at the Ramparts" and will originate with WGIN, Chicago. Songs by Morton Downey, and spots by Laurel and Hardy, and Arthur Treacher are on the program, with James Dunn as master of ceremonies. All on the program donated their services.

Panhandle Production Down 3,750 Barrels

NEW YORK, Jan. 22 (AP)—United States gasoline stocks rose 1,413,000 barrels during the week ended Jan. 17 to a total of 95,617,000 barrels, the American Petroleum Institute reported today.

Crude oil production during the week averaged 4,045,600 barrels daily, a drop of 183,550 under the previous week's average, and compared with 3,611,900 barrels a year earlier.

Refineries operated at 79.8 per cent of potential capacity, indicating a daily run of crude oil to stills of 3,723,000 barrels. This compared with 83.6 per cent and 3,891,000 barrels the preceding week and 3,471,000 a year earlier.

The gasoline stocks at the end of the week compared with 94,204,000 barrels a week before, and with 96,999,000 barrels a year back.

Gasoline production during the week was estimated at 12,794,000 barrels, against 13,185,000 barrels the preceding week.

The report showing daily average crude oil production (in barrels) follows:

(Note: The figures indicated below do not include any estimate of any oil which might have been surreptitiously produced.)

Week ended Jan. 17, with changes from previous week:

Oklahoma, 406,450; inc. 5,000. Panhandle Texas, 87,850; dec. 3,750.

North Texas, 145,300; dec. 1,500. West Texas, 294,500; dec. 49,300. East Central Texas, 56,150; dec. 5,150.

Six New Civilian Defense Schools To Be Established

WASHINGTON, Jan. 22 (AP)—Six new civilian defense schools will be established, the war department announced today, to augment the facilities at the Edgewood Arsenal, Md., school.

Specific locations have not been selected, but one will be in the northeast, probably in New England, one in the middle west, in or within convenient distance of Chicago; one along the Gulf coast, one in Texas, and two on the west coast.

The new schools are expected, the department said, to utilize the facilities of colleges and universities now maintaining reserve officers' training corps.

The new schools will offer 83 hours of instruction, covering all phases of civilian protection, including the technique of extinguishing incendiary bombs, fire fighting, rescue work, and decontamination of areas subjected to gas attack.

Workers Needed At Naval Base At Pearl Harbor

The U. S. Civil Service commission is conducting an intensive recruiting drive for qualified workers for filling vacancies in various field establishments vitally concerned with the war effort. The Tenth District Office of the U. S. Civil Service commission, located in New Orleans, Louisiana, has representatives in each first- and second-class Post Office throughout the states of Louisiana and Texas and additional traveling representatives operating throughout these states.

Positive recruiting is also being undertaken to provide persons qualified as shipyard inspectors in various grades. The U. S. Maritime commission has immediate urgent need for two shipyard inspectors (hull) at \$2,600 per annum and four shipyard inspectors (hull) at \$3,200 per annum.

permith, \$1.23 per hour; craneman, electric, \$1.02 per hour; machinist, inside, \$1.02 per hour; radio mechanic, \$1.24 per hour; rigger, \$1.20 per hour; shipfitter, \$1.18 per hour; driller, pneumatic, \$1.02 per hour; instrument maker, \$1.24 per hour; loftman, \$1.24 per hour; ordnanceman, mechanic, \$1.05 per hour; patternmaker, \$1.41 per hour; pipefitter, insulator, \$1.18 per hour; sheet-metal worker, \$1.28 per hour.

The need for workers at the Pearl Harbor Navy Yard is extremely urgent and an appeal is being made to all persons qualified to perform the duties of the positions listed above to submit their applications to the Tenth District Office of the Civil Service commission in New Orleans, Louisiana, without delay.

An examination has been announced throughout the states of Louisiana and Texas to secure train-

ees for civilian employment in the signal corps of the war department to receive training in the operation and maintenance of signal corps equipment, salaries for these positions are \$1,080 to \$1,440 per annum. Persons between the ages of 16 and 50 are urgently needed to fill these positions. General mechanical aptitude tests will be given to determine the applicants' qualifications. Training will be given by the Air Corps

after employment. Appointments will be made to these positions on or about February 1, 1942.

The first saw mills in the United States were located at Jamestown, Va., and Berwick, Me., in 1625 and 1631, respectively.

Sir Harry Lauder, Scotch comedian, got his first job in a flax mill at two shillings and a penny a week.

Marine Corps Tank Units Are Among The Best

Tanks are playing an important part in the present World war and United States Marines have plenty of them. These are just a few metal monsters the Leathernecks will use when the time is ripe. The personnel of the Marine tank outfits is composed of trained experts. The "tails" pictured in the rear of the tanks are radio antennae. Orders are received by radio. Each tank has its own radio transmitter.

200,000 JAPS

(Continued From Page 1) The Dutch East Indies had sunk a Japanese cruiser and set fire to a 10,000-ton Japanese tanker 100 miles south of Jolo island, in the southern Philippines. This apparently was the same action previously announced by Washington. The giant, long-range bombers were apparently part of the reinforcements which President Roosevelt said were en route to combat Japan's widespread thrusts. Dispatches from the front said British artillery opened the Malayan counter-offensive yesterday with a heavy curtain of fire. Two waves of RAF fighters then swept over the area, machine-gunning Japanese patrols and were immediately followed by charging infantrymen.

Typing-Shorthand Course For Adults Planned By School

Pampa High school plans to start a course in typing and shorthand for adults. Principal Doyle F. Osborne said today that a meeting of all persons interested would be held at 7:30 p. m. Monday night, January 26, at 206 high school. If there is sufficient demand, the courses will be taught. The courses will last from the present until mid-May when the 1941-42 session is concluded, and classes will meet three nights a week, with Mrs. Russell Holloway, head of the commercial department of the local high school, as instructor. There is no connection between the proposed classes and other classes for adults. This is strictly a local proposition, not federally subsidized, and a fee will be charged students to defray the cost of lights and janitor service.

It's 40 Below Zero In Russia

By ROBERT MACGIDOFF MOSCOW, Jan. 22 (AP)—Eskulant Soviet soldiers shelled the rear guard of a retreating German army in the snows seven miles west of recaptured Moshansk and hampered its flanking units today with a declaration that "the road to full victory lies ahead." In 40-below-zero weather—so cold it coats exposed hair and eyelashes with frost—the heavily-clad troops of Lieut. Gen. Leonid Gorovov pressed the advantage of their greatest victory on the central front. They proclaimed the battle of Moscow finally ended with the recapture of Moshansk, 57 miles west of the capital, and sought to give the German survivors not a moment to blast out even fox-holes for a new stand on the road to Smolensk. The frontal offensive had gained a mile since it was announced yesterday the invaders had been driven to the six-mile mark beyond Moshansk. (Russian dispatches to London said the road to Smolensk, reported German field headquarters on the Dnieper, was crowded. Red army artillery was reported to be hurling big shells into the German ranks. British analysts said shattering of the Moshansk salient put Russia in a position to strike her next major blow along the Donets basin front, from Kharkov to the Sea of Azov. They expressed belief session of that area was vital for Soviet defense against a new German attack expected in the spring.)

Market Briefs

NEW YORK, Jan. 22 (AP)—Early rallying rail stocks soon lost headway in today's market and mild irregularity was the rule in subsequent proceedings. While the carriers and assorted industrial shares to modest advances at the close, initial gains running to a point or so were reduced in most cases and small declines were plentiful when the final gong sounded. Activity picked up moderately on the opening swing but, when the recovery failed to follow through, dealings slackened appreciably. Transfers were around 400,000 shares compared with 550,000 yesterday when the direction was definitely downward. ARGENTINE

(Continued From Page 1) thus far has refused to call a special session. The meeting at which the five nations thrashed out their problem was at the office of Foreign Minister Oswaldo Aranha, of Brazil. Besides Aranha and Rosetti, those present were U. S. Undersecretary of State Sumner Welles, Argentine Foreign Minister Dr. Enrique Ruiz Guinazu, and Peruvian Foreign Minister Alfredo Solz Muro. The first two points of the four-point declaration say that aggression against one American republic by a non-American state is an act of aggression against all of them and that all 21 nations will cooperate for their mutual protection. The third and fourth points—covering the break clause—follow: "The American republics consequently declare that in the exercise of their sovereignty and in accordance with their constitutional institutions and powers, provided that these are in accord, they cannot continue diplomatic relations with Japan, Germany and Italy, since Japan has attacked and the others have declared war upon a country of our hemisphere. "The American republics finally declare that before they reestablish relations referred to in the previous paragraph, they will consult together in order that their decision may be collective and unanimous."

BISHOP

(Continued From Page 1) motion from brigadier general was announced January 14. Cottonseed mills at Clint, El Paso and Tornillo were ordered not to crush American-Egyptian cottonseed or to sell or deliver any such seed now in their possession because it is needed for planting, the Dallas office of emergency management was advised by the division of priorities in Washington. In Dallas, Clem D. Johnston, vice-president of the United States Chamber of Commerce, predicted that a greater part of the new defense industries would be established in the Midwest from the gulf to the Canadian border. Mrs. Mickey Dunbar became San Antonio's first female telegraph messenger of the war, her husband is fighting on Luzon island in the Philippines. Brewster county automobile drivers figure they can walk if Gas Edwards, chairman of the county tire rationing committee, can. Edwards doesn't own a car.

PERRY

(Continued From Page 1) liberty, besides they are not selling any whiskey or beer. It's pretty tough on us, Honolulu is sure a pretty town, but a poor liberty town. Some pretty hills around the island but give me the good old U. S. A. anytime. Have you been over to Berger lately, sure would like to see it again. . . They got me in the electric shop now. I was pretty lucky to get in without having gone to a trade school. I was put on board as soon as I arrived over here. That was about five weeks ago. It was a pretty rough trip but I didn't get sick. Wayne's P. S. on the letter said: "Remember Pearl Harbor—as though I could forget it."

COUNTY

(Continued From Page 1) A school of instruction for registrars, school, Supt. E. R. Reeves and E. A. Vance; Grandview school, Principal A. L. Jones; Hopkins school, Principal Huey Laycock, and community building, Phillips plant, E. F. Vanderburg, supervisor. Laketon, Emmett Jones, supervisor. Place will probably be the Laketon school, but telephone line trouble prevented confirmation this forenoon. Each supervisor will select his own helpers. The work is voluntary. Trials will be held a week prior to R-day, but the exact date, time and place has not been decided. The registration is for all men, resident and transient, in Gray county on February 16 of this year who were 20 years old before December 31, 1941 and those men who have not attained the age of 45 by February 16, 1942. With the addition of the estimated 2,000 men, this will raise Gray county's total registration to 5,428. There were 3,326 men registered on October 16, 1940 in the 21-35 age group; 102 in the 21-year bracket on July 1, 1941.

Labor Crisis At Hand Again For Detroit

DETROIT, Jan. 22 (AP)—A labor crisis, the first in five months, was at hand again today for the city of Detroit, vital producer of the tools of war.

Only hours distant was a final verdict by a union of city employees whether or not to go out on its announced strike at 4 a. m. tomorrow, a move which might cripple the productive capacities of this great factory center.

Faced with the city council's flat rejection of its wage increase demand, the City Employees Union (AFL) intended to meet tonight to frame its answer. On the decision may rest the opportunity for thousands of defense workers to go to their jobs.

Leaders of the union, which demands a 15 per cent flat wage increase, claimed that a strike would pull out 15,000 of the city's 27,000 employees, and a tieup of the city's transportation system was feared.

A second AFL union, the Amalgamated Association of Street Electric Railway and Motor Coach Employees of America, took a stand that if picket lines were thrown around transportation systems properly they would be respected. This union also has been seeking a wage boost.

Last August a strike crippled the transportation system for five days. Mayor Edward J. Jeffries, however, held out hope that there would be no strike.

"I won't believe," he said, "that a handful of people can make such a serious mistake until I see it."

Sheriff Cal Rose Files His Report

Latest annual report of a county official filed in the office of district clerk is that of Sheriff Cal Rose.

Under fees earned and collected, including mileage, in misdemeanor cases, justice courts, is \$393.04; fees earned and collected, out of county courts, civil cases, \$343.31; same, district court, \$206.68.

Total fees earned and collected during year are shown as \$1,248.03. Chief items under expenditures were:

Salaries of deputies and assistants, \$7,188; traveling, inclusive of mileage, \$3,050.22; cost of feeding prisoners, including court's salary, \$2,349.30; fingerprint bureau equipment, \$261.53; officer's, \$3,750.

The report lists deputies and assistants for the year 1941. Of these, four are listed as special: Guy C. Andis, Mack Harmon, E. C. Coffey, and C. L. Courson. The others are Glen R. Carruth, chief deputy, Dan Cambren, C. C. Draper, M. M. Newman, James R. Barrett, D. O. Mims, and Roy Pearce.

Out of the latter list of names, Cambren, Draper, and Mims have left the department, leaving as regular deputies, Carruth, Newman, Barrett, and Pearce.

Total expenditures of the department for the year are listed as \$17,278.98.

The county jail population was at a new "high" of 29 today, the highest in several months. Among those being held by county officers were two Missouri boys, one 15, the other 17, arrested in Amarillo yesterday in alleged connection with the taking of a sedan in McLean, belonging to L. L. Humphreys.

Lone Jap Held Hawaiian Island Until Benny Kanahale Got Mad

Benjamin Kanahale and his wife, Ella. He hurled Jap pilot against a stone wall . . . she beat his brains out.

Some of the cowboys of the tiny Hawaiian island of Nihoa, pictured in a whaleboat like the one in which Havila Kaluwanahane and companions escaped to seek aid.

HONOLULU, Jan. 22—Five days after the world knew that the United States and Japan were at war, a Japanese pilot, wearing a Japanese uniform, wandered peacefully at large on the Hawaiian island of Nihoa.

He had landed his plane, out of gas, on one of the most amazing islands in the world, and as he walked through the only village, he was unmolested by the peace-loving Hawaiian natives.

Because there are no telephones or radios on Nihoa, which is 100 miles from Pearl Harbor, the inhabitants did not know they were at war.

Only 180 Hawaiians and two Japanese live on this forbidden island, owned by the wealthy Robinson family, direct descendants of a feudal homesteader, Mrs. Elizabeth Sinclair, who settled there in 1864.

The Japanese aviator was an incongruous addition to that happy island population, when he was discovered by a band of Hawaiian cowboys.

ARMED PILOT LANDS ON PEACE-LOVING ISLE
He was armed with two pistols and a machine gun which were promptly taken away from him by the natives. He was allowed, however, to wander about in this strange community on an island which had never been mentioned, probably

never dreamed of, by official Japan.

The story of his establishment, for a few brief hours, of a Japanese-dominated "military regime," will go down in annals of island history. Because, for those few hours, Japan had a base within 100 striking miles of Pearl Harbor.

The story of this terrorism, told by Benny Kanahale, the man who finally killed the pilot, is a dramatic one.

In pidgin-English, the six-foot, pure-blooded Hawaiian told of the arrival on December 7 of the Japanese in a single seater fighter plane, apparently damaged in the air attack over Oahu that day.

"My neighbor, Havila Kaluwanahane, found him sitting in a daze by his plane, so we took him to the Robinson home and made him welcome," explained the Hawaiian.

"We allowed him to roam the island, because we didn't know about the war. While he was at liberty, he met Harada and Shintani, the two Japanese who were on Nihoa Island, and persuaded them to help him escape. The pilot asked Shintani to go to Havila and get his 'war papers' and guns back with a bribe of 200 yen. The papers were maps of Oahu.

"When this happened, Havila became suspicious and left Nihoa with five other cowboys in a whaleboat for Kauai, 15 miles away. In making their escape, the cowboys mounted horses and rode furiously through town in a hail of machine gun bullets, because the Japanese, meanwhile, had recovered the guns and were in control of the village.

"I left the village that night with my wife, Ella, and the whole community, and we stayed in caves in the back of the hills. The next morning, Harada and the flier found me and my wife in a cave. They were suspicious that help was being sought by now, and the pilot had burned his plane. They asked me to find Havila and I pretended to help them search for him.

"They were getting madder and madder, and finally I think they were going to commit suicide because the pilot gave Harada his shotgun. Then I grabbed at the gun and the pilot shot me in the ribs, in the opu (stomach) and the groin."

Husky Benny Kanahale "got mad" according to his story. He picked up the pilot and threw him against the stone wall. Mrs. Kanahale's fighting blood was up, too, and she finished the job by bashing the pilot's brains out with a large rock. During this time, Harada shot and killed himself.

When help from Kauai arrived, they found Kanahale had walked home "because he didn't feel so good." He is now recuperating at a Kauai hospital.

Here's Where To Get Vitamin A
COLLEGE STATION, Jan. 22 (AP)—Housewives, if you want lots of vital vitamin A cheap, your best sources are mustard greens, turnip greens, sweet potatoes.

Next in order come carrots, spinach, parsley, and beet tops.

That was the finding of a study made by Chemists G. S. Fraps and W. W. Meinke of the Texas Agricultural Experiment Station.

Their research into the cost of vitamin A potency was based on foods and prices at the Bryan market, as of Dec. 15, 1941.

A rose bush planted by Esfepor Charlemagne 1000 years ago still is flourishing at Hildesheim, Germany.

Good Neighbor Policy Will Be Topic Of Address

Dr. Anna Powell, who has traveled widely in South America and Mexico in recent years, will speak on "Our Good Neighbor Policy" at the fourteenth annual Founders' Day dinner of the American Association of University Women at the Schneider hotel next Monday evening at 7:30 o'clock.

With the increasing importance of the Latin American countries in our defense against the Axis powers and in view of the fact that a conference of representatives of Pan American countries is now in progress in Rio de Janeiro in an effort to achieve hemispheric solidarity, Dr. Powell's address should be of special interest to both men and women.

Reservations for the dinner must be made before 6 o'clock Sunday evening. They can be made by telephoning Mrs. Aubrey Steele at 2383-J.

Fun, Food, Frolic Night Set For Friday

An entertaining program will be presented by students of Sam Houston school at the Fun, Food, and Frolic Night tomorrow evening at the school.

A variety program has been planned, consisting of music by the Sam Houston Band and Chorus, accordion numbers by the students of Jack Andrews and Mike Sheple, and dancing by students from Vivian's School of Dancing.

Officers Elected By Sacred Heart Parish Recently

Special To The NEWS WHITE DEER, Jan. 22.—Committees of the Sacred Heart Parish and officers of the women's and girls' organizations were elected at a parish meeting.

Committees: Buis Urbanczyk chairman; Florian Haiduk, L. M. Bichsel, Johnnie Kotara, Jr., and T. L. Haiduk.

Officers for the altar society are Mrs. Johnnie Kotara, Jr., president; Mrs. John Warminski, vice-president; and Mrs. L. M. Bichsel, secretary-treasurer.

Parent Education Club Plans Series Of Lectures Here

Parent Education club members met Tuesday afternoon in the home of Mrs. R. H. Nestel when Mrs. W. A. Rankin, president, opened the meeting with a prayer after which the group gave the pledge to the flag.

Plans were made for the lectures of Dr. and Mrs. Garry Cleveland Myers of Cleveland, Ohio, editor-in-chief and associate editor of the magazine, Children's Activities. They will be in Pampa on February 20 to speak to P-T. A. groups in the afternoon, to civic clubs at noon, and at an open meeting for both men and women that night.

The next meeting will be held in the home of Mrs. J. R. Combs.

Mrs. Kelley Speaks On Nutrition At Kingsmill HD Club

"If we cannot grow gardens, let us do all we can to feed our families right. A balanced ration fed one day and neglected the next will probably cause colds," Mrs. Julia E. Kelley, Gray county home demonstration agent, stated in her talk on "Nutrition" at the meeting of Kingsmill Home Demonstration club in the home of Mrs. P. F. Blankensburg.

Continuing, Mrs. Kelley said that those who have enough money to buy what they want will be wise if they economize and bring themselves up to date on the methods of cooking. Food is too valuable to experiment with. Let the government experiment and we will profit by it. She urged everyone to follow the Texas Food Standard chart.

Mrs. D. L. Lunsford presided over the business session in which a report was given by the recreation chairman, Mrs. S. E. Elkins, and the reporter, Mrs. H. M. Proper.

Refreshments were served to Mrs. W. H. McBride, L. E. Twiggs, S. E. Elkins, C. F. Bastion, O. G. Smith, W. A. Blankensburg, Julia Kelley, H. M. Proper, and the hostesses.

Rainbow Girls Plan Scavenger Hunt At Meeting

A scavenger hunt to be conducted between 7:45 and 9:15 o'clock on Friday, January 30, was planned at the meeting of the Order of Rainbow for Girls this week.

Mrs. de Cordova was installed as mother advisor and Mrs. Ora Wagner as a member of the advisory board at this meeting. Also in the business session, Mary Ellen Moss was admitted into the Order by transfer, and arrangements were made to initiate Marilyn Keck at the next regular meeting.

Attending the meeting were Mary Frances McMullen, Eudell Hancock, Phyllis Ann Parker, Peggy Murphy, Nadine Mauldin, Phyllis Casey, Naomi Snyder, Marjorie Gobble, Elsie Ruth Graham, and Mary Ellen Moss.

Eastern Stars and Masons present were Henry Lewis, Mrs. Ruth Casey, Mrs. Ora Wagner, Mrs. W. C. de Cordova, and Mrs. Buri Graham.

HARVESTERS WILL PLAY SHAMROCK FIVE HERE TONIGHT

Dalhart Will Invade Court Saturday Eve

Coach Oscar Hinger believes that his Harvester basketball team will "do all right from now on," including tonight when his cagers will play the Shamrock Irish in the local gym at 7:30 o'clock.

It will be the third home game the Harvesters have played here this season. Saturday night, the Pampa boys will pit their skill against the Dalhart Wolves in another game at 7:30 o'clock.

Then next Tuesday night will be the big game of the season. At that time the undefeated Amarillo Sandies whom Amarillo boys are now talking up as the state champions and as the greatest team Amarillo ever had, will invade the local court.

"We'll beat Amarillo, too," promised Coach Hinger, and his team chorused. "You tell 'em, Coach!"

Amarillo has defeated Borger, Lubbock and Plainview one game each, and leads the district standings. Pampa has played one game, at Borger, and lost it by two points.

Last week-end the Harvesters won the Shamrock tournament, winning four games and defeating McLean's good team, Briscoe, Kirkland and Thalia. Borger got lost in the shuffle at Shamrock, being defeated in the first round by Lakeview. They trounced McLean in the consolation game.

The dope favors the Harvesters over Shamrock tonight and over Borger the next time the two teams meet, and Harvester supporters are predicting that the Bulldogs will get a sound whipping when they come over here.

As for the Sandies, there is just as much dope in favor of them as there is for the Harvesters. The Amarillo boys are expected to have a good showing.

Meanwhile, it is expected that good crowds will attend the games tonight, Saturday night and next Tuesday night. Pampa should be hungry for a basketball game for the reason that they had a chance to see only two this season.

Shamrock had one of the best teams in their own tournament. They won their opening game from Wheeler and lost a thriller to Kirkland in the second round.

Chalk Up Another Record For Hoppe

CHICAGO, Jan. 22 (AP)—Chalk up another record for Willie Hoppe, the man whose name has become synonymous with billiards for more than 40 years.

And if running up a 27-0 lead last night before his opponent could score is an omen of things to come, chalk up another world three-cushion title—Hoppe's third in a row.

Since the tournament is scheduled to close tomorrow night, many things might have led to his record achievement against the veteran Jake Schaefer last night. Maybe he grew weary of sharing the tournament lead right down to the finish. Maybe his book on billiards (they're being sold at the door) needed a sales boost. Maybe he was just sharp—a champion in form, or as Schaefer explained, "hot as hell."

Anyway, the 53-year-old Hoppe stunned Schaefer and spectators alike by forcing an intermission call in 14 innings. He got the required 25 points in that time despite three blank frames. Schaefer, runner up to Hoppe in the last two tournaments, meantime had none, had only two good shots in fact, so safe did Hoppe leave the ivory.

Paul Bond Member Of Abilene Team

ABILENE, Jan. 22—Paul Bond, son of Mr. and Mrs. W. E. Bond of McLean, is a member of the Abilene Christian College basketball squad, which so far is undefeated in Texas conference play this season. Paul, a freshman in that institution, played football with A. C. last fall.

With three lettermen back in the starting line-up and a very good beginning, the A. C. Wildcats are expected to put up a good fight for the conference title this season.

There are months that have more rain than April in almost every country in the world.

Most reptiles lay their eggs on land, while most amphibians lay theirs in water.

The Romans introduced the bagpipe into the British Isles.

Tunney Belatedly Admits Louis Greatest Fighter

By SID FEDER
NEW YORK, Jan. 22 (AP)—A fellow who would be inclined to look lightly upon the stunt of an army bomber making a three-point landing on the tower of the Empire State building pointed to Joe Louis today as probably the greatest fighter who ever lived.

This overcautious individual is none other than your old pal Gene Joseph Tunney, who retired undefeated as heavyweight champion, who took a long count in Chicago one night that they said gave him all the best of it, and who looked on the dynamite of Dempsey without blinking an eye.

The occasion for his sudden discovery of Louis as a pretty fair country back-buster, after seven years of varying degrees of pooh-poohing the Brown Bomber, came last night at the annual dinner of

the Boxing Writers Association of New York. At this clambake, decked out in the appropriate costume for peeling potatoes or standing guard or whatever else they hand out to buck private, received not only the Edward J. Neil memorial plaque as the man who did the most for boxing in 1941, but also the Ring Magazine merit award as the fighter of the year.

What is more remarkable about Gene Joseph's song of praise was that Gene Joseph himself was among the reward receivers. He got a special trophy from the boxing writers for his services as head man of the navy's fistic follies collection.

"I saw Joe beat Buddy Baer down in less than a round a week ago last Friday," explained Tunney, who had been more or less smirking at the Bomber ever since he came down the pike back in '35. "It was

the greatest exhibition of human destruction I have ever seen. "Joe is probably the greatest and most complete workman the ring has ever seen. The only other fighter in all fight history who might have done his job as well was Bob Fitzsimmons, and I never saw him. I'm going only by what they tell me."

Gene Joseph passed on his deplorable pat on the back in the presence of such ear-scrambling operators as Jack Dempsey and Jim Braddock, but it's doubtful if Louis got more of a kick out of Tunney's speech than he did out of the wire from Lieut. Col. Howard Brenzinger of Camp Upton, where Louis is stationed. This wire, voicing the colonel's regrets for being among the missing, also pointed out that Joe is developing into the finest soldier as he was a boxer and a gentleman.

About to set sail on Lake Hopatcong, N. J.

Build Yourself A Sail For A Flying Thrill On Skates

By EARLE W. GAGE
NEA Service Special Correspondent
NEW YORK, Jan. 22—First, you have to know how to skate. By that we don't mean the type of ice-waddling that is interspersed with frequent falls. You must be really proficient, know how to turn and control your movements at a lively clip.

Then build yourself a sail. Now, find a good surface with a stiff breeze. Ready? Okay, you're in for a new thrill—skate sailing.

It's one of those less-publicized sports—checkful of excitement, exhilarating speed and with a premium on skill.

It's the same principle as sailing a boat. The wind is your propeller. Muslin or Light Canvas Sail: Tape, Piano Wire Project Pole.

You can build the sail. Take two strips of bamboo, resembling two fishing rods, one about nine feet long, the other six feet.

Secure the long strip into the short one by a heavy wire nail driven into the end of the long strip, with the head of the nail filed off.

Secure the pole securely with tape to keep it from splitting. Cover it with fine piano wire. Bore a small hole in the middle of the long strip, inserting the nail in this.

Cut a piece of unbleached muslin or light canvas three and one-eighth by nine and one-half feet. The cloth should be cut diagonally from one corner to the other so that you have two strips with pointed ends. Now place the two parts together and sew. Your sail will measure nine by six feet.

Head Edges to Prevent Tearing: If No Ragbush, Ash Or White Pine. Hem all edges to keep the cloth from tearing in the wind. Make a two-inch hem along the sides and fasten eyelets every nine inches on the side of the sail that is to be attached to the shorter bamboo pole.

If you do not have bamboo, use one and one-quarter inch ash or white pine, well cured, selecting only strong pieces that are free from knots and imperfections. These tend to break in the wind. The ends are securely fastened together with nail pins.

The correct way to hold the sail while skating is with the arm around the long strip, or, if the second type sail is used, by grasping the shorter side piece.

Sailing Terms Are Used: Quivering Is Adventure. When you get on the ice on which you skate is long and narrow and the wind is coming from the north, start sailing at the extreme northern end of the field of ice. Place the

Rice And TCU Win Thrillers

By The Associated Press
The Rice Owls successfully invaded Aggie land, defeating the Cadets 44 to 42, while at Fort Worth, Texas Christian university's Horned Frogs beat the Methodist 50 to 45 last night (Wednesday).

Rice's representatives had to overcome an Aggie lead of 21 to 19 at the half. The Owls' Bob Kinney scored 21 points, boosting his team into a 24-all tie soon after the intermission, and thence to a lead of six points. From there, Rice coasted in.

Forward Ray Jarrett was a busy floor man for the Aggies, interesting several Owl passes and scoring 14 points. Bill Henderson of the Cadets twirled in 18.

The Horned Frog-Mustang was a tense one all the way, marked by effective goaling on both sides.

Johnny Sebeck, Mustang guard, sparked a last-half push that tied the count at 43—all with two minutes remaining. The Frogs won on field goals by Floppy Blackmon, Jarma Peito and L. A. Monroe.

Sebeck was the scoring leader with 17 points, followed by Blackmon with 13.

It was TCU's second conference victory in three starts and SMU's fifth loss—each by five points or less.

Today's Guest Star Bob Gebbie, Watertown (S. D.) Public Opinion: "If your congressman does nothing else, by passing the daylight saving bill they have earned the votes of sleep-loving nitwits."

Because duck shooting starts at sunrise, hunters will get an extra hour's sleep next fall.

Service Dept. One of Bob Peller's first acts after reporting at the Norfolk naval training station was to join Chief Gary Bodie's basketball squad for a workout. He's not a candidate for the team.

Best wishes go with Jay Simon, sports editor of the Coffeyville (Kan.) Journal, who gets his uniform at Fort Leavenworth next week; Jim Decker, the Syracuse U. tub thumper, who has joined the navy; Fight Managers Joe Vella (Gus Lesnevich) and Jimmy White (Aaron Seltzer), who are rejoining the army after having been discharged under the 38-year age limit.

Private Pete Sessa of Fort Knox, Ky., former assistant golf pro at West Orange, N. J., says his great ambition is to caddy for Sam Snead. Pete says he would cure Snead of blowing up and would "sweat him in."

Johnny Roudkema, the Paterson, N. J. speed skater, isn't finding army life a handicap to keeping in condition. Johnny is stationed at Ft. Litchburg, N. Y., where there is plenty of ice.

Students Collect Waste Paper, And Still Have It

OSWEGO, Kans., Jan. 22 (AP)—High school students, wanting to do their bit, decided to collect waste paper.

They accumulated five tons of the stuff—and then discovered there wasn't a waste paper dealer in town.

Excepting the common rabbit, practically all wild animals will bite a man when first handled.

To Perry, that is synonymous to playing gin rummy in the House of Lords.

So you see, Frank Kovacs is giving professional tennis the same sort of hucks office appeal that practically drove wrestling out of the true dramatic arts, out of business.

People pay to see good tennis, not the thespian panegyrics heretofore delegated to such true artists as Chief Little Wolf and Strangler Hokum.

Refused 14 night games and with the directors stuck something like \$500,000, Donald Barnes chooses a strange cure for the grave illness of the St. Louis Browns.

President Barnes dismisses his scouts—Ray Cahill, Jack Fournier, Willis Butler, and Charley Stis—and puts the San Antonio farm on the block.

Peddling First Baseman George McGinnis, if a feeder system, or reducing salaries all the way along the line would hurt the club's present. There would be holdout trouble. Morale would be even lower, if that were possible.

In firing his scouts and disintegrating his feeder system, Barnes destroyed the club's future by cutting off talent.

While it is true that the Browns have gone nowhere in particular rapidly, it also stands that they will go nowhere faster without a steady flow of material.

Perhaps Don Barnes finally has arrived at the solution that practically everyone but the Browns' owners agreed on before war clouds gathered.

That is, that the Browns' situation is hopeless, especially under war conditions.

Negro Teams Will Battle Friday Night

Two basketball teams from Carver negro school here will battle teams from Patten negro school of Amarillo at the junior high gymnasium here tomorrow night beginning at 8 o'clock. The local girls' team will make its first appearance of the season while the boys' team will be playing its second game, having lost to Childress 31 to 25 last week.

Both local teams are working long hours on their outside court at Carver school. Defense is being stressed in workouts this week, especially by the boys who saw their defense pierced several times by the Childress five.

The locals would like nothing better than to take the Amarillo teams in their first games on the hardwood floor.

Admission will be 25 cents for adults and 15 cents for students. One side of the gymnasium will be reserved for white fans.

Proceeds from the game will be used to provide hot lunches for underprivileged children attending Carver school.

Sports Roundup

By HUGH FULLERTON, JR. (Wide World Sports Columnist)
NEW YORK, Jan. 22 (Wide World)—Jack Dempsey shouldn't have much trouble with his new duties as aide de camp to Major General William Otkman of the New York State Guard. Jack has had plenty of experience as aide de field camp—which required him to keep from laughing while he said So-and-So had a good chance against Joe Louis.

Both men are wondering if they will be able to get back to the seven-game limit for night games after they boot it to 14 as a war measure. Jack Meagher, Auburn coach, figures the threatened shortage of small-college football opponents will have to come by having traditional rivals play home-and-home games.

Ex-Mayor Jimmy Walker presented the Eddie Neil memorial trophy to Joe Louis at the boxing writers' dinner last night, but it might have been more appropriate if he had delegated the job to Quent Reynolds, who followed Eddie's footsteps from sports to war reporting.

They Get the Breaks Warren Switzer of Jeff Davis High, Houston, and Jack Wilson of Baylor U. are rivals for the all-Texas hard luck championship. Switzer broke his collar bone twice during the football season, got himself all fixed up for a fast start in basketball and then went back to the bench with a busted hand.

Wilson, who was cracked up about half the time during his three years of football, also was going great guns on the hardwood this winter but appendicitis got him down last week.

Today's Guest Star Bob Gebbie, Watertown (S. D.) Public Opinion: "If your congressman does nothing else, by passing the daylight saving bill they have earned the votes of sleep-loving nitwits."

Golf Association Plans 'Hale America' Tourney

By AUSTIN BEALMEAR
NEW YORK, Jan. 22 (AP)—Its major championships shelved by the war, the United States Golf Association went to work today on a tournament designed to furnish competition for many golfers, entertainment for many fans, and relief for many of the conflict's innocent victims.

The tournament will be named the "Hale America" open. It will be 72 holes of medal play, staged on a Chicago course June 18-21—the dates originally set for the National Open at Minneapolis.

Earlier this month, the U. S. G. A. called off the Open, as well as the National Amateur, the Women's Amateur and the National Public Links tourney, in order to focus its attention on the nation's war effort.

Preliminary plans for the "Hale America" event call for a series of district and sectional qualifying tests, dividing the nationwide program into three stages which may touch 70 or more cities.

Secretary Joe Dey of the U. S. G. A. said the setup would be the broadest ever undertaken by his organization and was expected to attract the largest entry list ever compiled for a nationwide competition.

Not only will the tournament and its qualifying eliminations raise money for war relief, but the whole show is planned to further the physical fitness program sponsored by the office of civilian defense.

Here is how the three parts of the tournament program will be run, if the U. S. G. A. sticks to its original outline:

1. District qualifying rounds of 36 holes, open to all professionals and to amateurs with handicaps up to five or six strokes, will be held May 25 in from 50 to 70 cities. Each entrant will pay a fee of \$5 and all entry fees will go to buy defense bonds, most of which will be used as prizes for the low-scoring professionals.

2. Qualifiers in the district events will enter sectional tournaments in 12 major golf centers. These tournaments will be 54 holes of medal play and will be set either June 5 and 6 or June 6 and 7, with each sectional association to decide which two days are more desirable. Admission will be charged at the sectional events. Part of the receipts will go to war relief and part converted into defense bonds to be given as prizes for the pros. A driving contest may be slipped in as an added feature.

3. The national "Hale America" finale at Chicago will have a field composed of a limited number of qualifiers from the sectional tourneys, plus a group of players whose past records merit their invitation. The final field of 75 golfers, including a separate limited division for amateurs. Again the gate receipts will be split between war relief and defense bonds for prizes.

Cooperating with the U. S. G. A. will be the Chicago District Golf Association, which is combining the "Hale America" tournament with its own Chicago Open championship.

Van Meter Named Coach CANYON, Jan. 22 (AP)—Leslie Van Meter takes over today as West Texas State's head football coach, succeeding Jack Curtice, who left to become head coach at Texas College of Mines.

Van Meter was assistant coach. His assistant will be chosen in about two weeks.

Buffaloes To Leave Friday For Garden

CANYON, Jan. 22—Coach Al Baggett and his staff of the basketball world will leave Friday, January 23, on their most audacious road trip of the season—a jaunt which will take them to Madison Square Garden January 28 and to Convention Hall in Philadelphia January 31.

Ned Irish, eastern basketball king, picked the Buffaloes of West Texas State to meet Long Island University in the Garden and St. Joseph's college in Philadelphia. These teams are not accustomed to losing many ball games in a season, or several seasons. Definitely, they are in the top flight of the nation's clubs.

But, so, for that matter, are the Buffs, who for six years have gone without challenge as the "Tallest Basketball Team in the World." This year's lineup will average 6 feet 6 inches in height.

It will be quite a trip for the small town boys and cow hands which Coach Baggett coaxed into college and taught the finer points of basketball. Not, however, that the Tall Texans are crude articles and untraveled. Baggett gets around. He opened the season with two wins over Chihuahua State in Old Mexico. During the Christmas holidays the Buffs won the Oklahoma City invitation tournament. Recently the team made a quick stab into the Middle West, beating DePaul uni-

versity at Chicago and Evansville, Ind., and dropping their only game this season to Bradley Tech at Peoria, Ill., 49 to 52, after taking a 20-point lead at one stage of the game.

The big coach requires his men to dress well on trips, to eat and act like gentlemen, and to keep strict training rules. The alternative for any wandering athlete is a quick trip home—hitch-hiking.

Baylor Cuts Daily Chapel To Save Heat WACO, Jan. 22 (AP)—To save the cost of heating the huge Baylor university auditorium, the 97-year-old Baptist school has decided not to continue compulsory daily chapel but to hold the services on call only.

The largest river entirely within Switzerland is the Aar or Aare.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or acute passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect. It may also cause nagging backache, rheumatic pain, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headache and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Today's War Analysis

By DEWITT MACKENZIE
Wide World War Analyst

The anti-Axis diplomatic front achieved among the American republics in conference at Rio de Janeiro may prove in the long run to be a bigger thing than the World War which brought it about, for we have here the beginnings of what might easily develop into a permanent politico-economic solidarity of all the states of the western hemisphere.

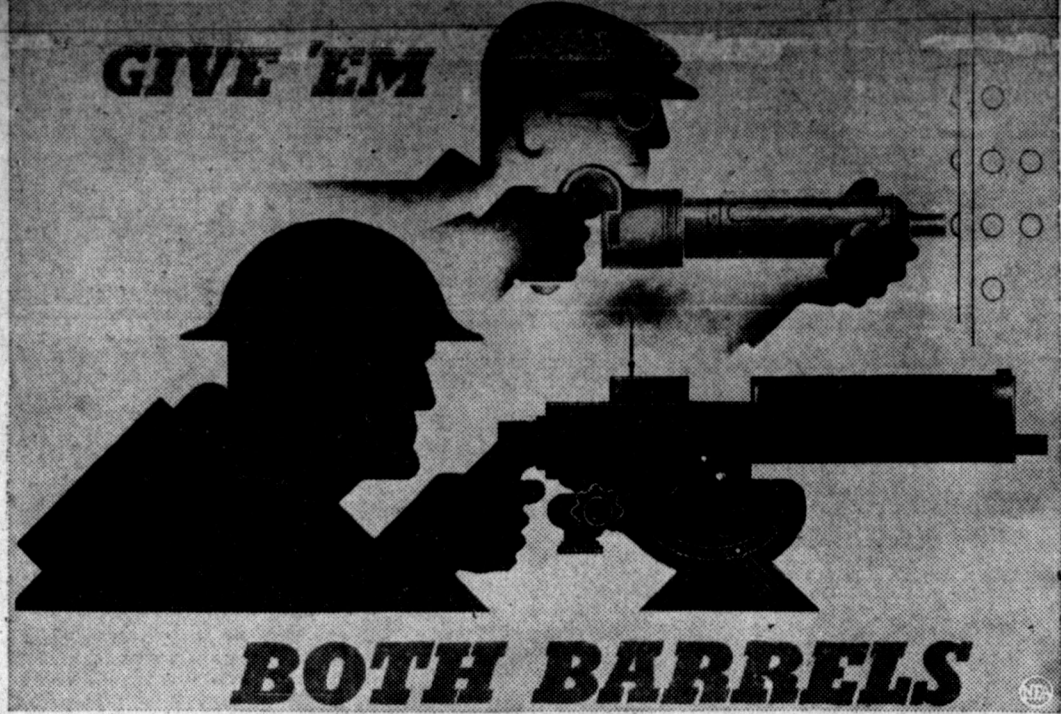

There we should have the counterpart of the United States of Europe which Allied statesmen have been discussing anew as a post-war possibility for the rehabilitation of an old world which is in a state of chaos that steadily grows worse. Should these two dreams be achieved, the great unions could then cooperate in plans for universal peace and plenty and thus carry out the work for which the League of Nations was conceived but failed to achieve.

It is hard to believe that the American republics ever will abandon their new-found solidarity, once they have inaugurated the vast war production plan of the United States for the western hemisphere. That plan strikes much deeper than the war, since it provides for such far-reaching changes as abolition of all trade barriers, the establishment of a common currency among all anti-Axis nations and the inauguration of great international harbor, canal and highway projects.

This gesture of the United States, by which she flings all her resources into the defense of the entire hemisphere, cannot but help dispel any suspicions which might still linger in other American republics that we harbor selfish intentions as regards our neighbors. In the past there has been an unwillingness on the part of some South American states to enhance our power in the southern continent.

Then there has been the heavy clash of trade interests, as in the case of the Argentine, which, like the United States, has wheat, corn, and meat surpluses. However, the sweeping reorganization of western hemisphere trade which is proposed should go far towards remedying the situation.

Turning to the active war-front, one of the bright spots for the Allies in the generally gloomy picture

Impressive Office of Emergency Management poster by Jean Carlu symbolizes parallel parts played by labor and the armed forces in going all out to knock out the enemy.

In the Pacific areas is the announcement that British Hurricane fighting planes, which possess great firepower, have arrived in the Singapore region and are in action. We aren't told, of course, how many of these hard-hitting machines have been brought into play, but the fact that such air reinforcements have arrived is glad news, for the battle of the Pacific is turning on air-power at this moment, and the Japanese have had things pretty much their own way thus far.

This move by the British should help dispel the erroneous idea which has grown that the Allies are going to devote all their resources to beating Hitler and meantime let the Orient go by the board. So far as I know, nobody in responsible position has ever said that the Allies didn't intend to make a vigorous effort against the Japs.

It is true that the Allied high command considers the smashing of Hitler the paramount task, and doesn't intend to allow the Pacific show to distract attention from carrying it out. However, there has been every intention to send reinforcements and to put up as good a show as possible without letting Hitler run wild in Europe again.

Time has been needed to provide reinforcements. The American defense of the Philippines and the British action in Malaya have held up the Nipponese and given the Allies a chance to assemble aid and get it under way. If the Allies have really strong air reinforcements on hand for the Pacific area, it may rock the Japanese back on their heels, for much of their success thus far has been due to their control of the air.

Officers Elected By Canadian Valley PCA

CANADIAN, Jan. 22—Stockholders of the Canadian Valley Protective association held the annual meeting in the Palace theater Monday.

This organization has a membership of several hundred farmers and ranchmen in the counties of Hemphill, Gray, Roberts, Wheeler, Lipscomb, and Ochiltree.

After a year of service, it was decided to open a field office in Pampa to better serve members in that part of the territory. This was done April 1, 1941, with Clyde Carruth, secretary of the National Farm Loan association, as manager.

C. W. Allen has been secretary-treasurer since the beginning of the organization, in charge of the Canadian office. He is assisted in the work here by R. B. Tyson, Mrs. W. D. Wiggins, and Miss Teresa Shaw. Mr. Allen stated that 1941 business was satisfactory, the Pampa office carrying their share of responsibility.

Personnel of the Pampa office: Clyde L. Carruth, manager; Ralph Prock, assistant manager; Mrs. Eva Kitchen, stenographer. Gray county members attending the stockholders meeting were C. S. Boston, W. F. Taylor, Mr. and Mrs. Clyde Carruth, Mr. and Mrs. R. S. Jordan, Mr. and Mrs. J. O. McCoy, Mr. and Mrs. Monroe Seltz, and Mr. and Mrs. D. L. Wood. Gray county guests were Mr. and Mrs. N. P. Willis, W. D. Price, and L. E. Taylor. Frank E. McMordie, Canadian,

Pampa Pastor Addresses New Club At Miami

MIAMI, Jan. 22—Seventy-nine men and two women who were special guests, were in attendance at the initial meeting of the proposed Men's Civic club for Miami and surrounding territory. A banquet was served by women of the Methodist church to the group which met in Fellowship hall.

After the banquet several musical numbers were presented before the main business of the evening. A men's quartet, composed of E. M. Ballengee, Charles Meach, Ollie Duniven, and Buford Low sang Mrs. E. W. Henshaw of Pampa, dressed in native Hawaiian costume, sang a number of Hawaiian melodies, without accompaniment, interpreting them in the spirit of island singers.

Mass singing of patriotic songs led by Mr. Ballengee, with Mrs. Alfred Cowan at the piano, contributed the right atmosphere to the gathering.

C. F. Bastion, pastor of the local Christian church, introduced the speaker of the evening, the Rev. E. W. Henshaw of St. Matthew's Episcopal church of Pampa. Rev. Henshaw, who has been much in demand for speaking dates in both Pampa and surrounding towns, brought first-hand information about the Hawaiian islands, now so prominently brought into the news.

Rev. and Mrs. Henshaw lived for 16 years in the islands and his talk on the customs, problems, and ideals of that part of our world, was both informational and timely.

A large number of women who were not in attendance at the banquet came for the address. At the conclusion of Rev. Henshaw's talk, E. M. Ballengee, who was master of ceremonies for the evening, called Billy Craig and Clinton Meek forward. They will go into training in a few days for service in their country's armed forces.

In an impressive flag ceremony Mr. Ballengee, a veteran of World War I, presented each of the young men with a small American flag.

In addition to the Roberts county men present at the banquet, Rev. and Mrs. Henshaw, Mr. and Mrs. Bastion, J. E. Johnson, John Martin, W. F. Taylor, and Morris Enloe, all of Pampa, were guests.

Date set for the next meeting is Feb. 2, at the same time and place. At this meeting the nominating committee will report and organization of the civic club will be completed.

was elected a member of the board of directors for the coming three years. Other members are J. C. Bradstreet, Wheeler; George Trenfield, Follett; M. H. Smith, Gem; and J. A. Bryant, Wheeler.

At a meeting of the board of directors of the CVPCA held Tuesday, J. A. Bryant, Wheeler, was elected president for the coming year, Frank McMordie was elected vice-president, C. W. Allen re-elected secretary-treasurer, and E. B. Tyson elected assistant secretary-treasurer.

Speaker Sam Rayburn rang the school bell and swept the buildings to help pay for his education at East Texas Normal school.

There were 443 convictions under the white slave traffic act in the United States in the last fiscal year.

Texas Company To Spend 25 Million

HOUSTON, Jan. 22 (AP)—The Texas company will spend between \$25,000,000 and \$30,000,000 on plants and other projects for the war effort, much of it on the Texas coast, W. S. S. Rodgers, president, said here today.

Mr. Rodgers, with a number of directors and other officials of the Texas company, is on an inspection trip of Texasaco properties in the South, Southwest and Middle West. "The Texas company is spending a great deal of money this year in response to the wish of Secretary Harold I. Ickes, coordinator for the petroleum industry, to build up its oil potentials and crude oil reserves, and in addition to this, is embarking on a large program for the construction and manufacture of toluene (a base for high explosives) and 100-octane aviation gasoline," Mr. Rodgers said.

"The Texas company also is planning on plants for the manufacture of butadiene, the raw material from which synthetic rubber is made. Our directors want to know how and where we can spend this money most effectively."

Among the plants ready to get under way on the Gulf coast are a \$2,500,000 lubricating oil plant and a \$7,500,000 alkylation plant for processing 100-octane gasoline. Secretary of Commerce and Federal Loan Administrator Jesse H. Jones announced in Washington Tuesday that the government has contracted to buy all of the Texas company's output of 100-octane aviation gasoline.

Other definite projects are a \$5,500,000 toluene plant and a \$4,000,000 100-octane aviation gasoline plant to be built in the North.

Where the butadiene plant will be built, or how much it will cost, have not yet been determined, Rodgers said. In addition to the plants the Texas company will build, it plans a step-by-step program for adding new underground oil reserves, the company head continued. A good bit of this will be along the Texas and Louisiana Gulf coast. He mentioned as other spots western Oklahoma, California and Illinois.

Saul Funeral Held At Plainview Church

MIAMI, Jan. 22—Funeral services were held Monday afternoon for Mrs. Betty Jane Saul, 74, who died at the home of her daughter, Mrs. T. J. Boney, Sunday, after a brief illness. The last rites were conducted at the First Baptist church at 3 o'clock with the Rev. L. B. Reavis, pastor, officiating.

Interment was made in the I. O. O. F. cemetery under the direction of Woods Funeral home. Mrs. Saul was buried beside her husband, who preceded her in death by only nine months.

The Saul family had been residents of the Panhandle since 1900 coming here from South Texas. They lived in and near Miami until about 15 years ago when Mr. and Mrs. Saul moved to Plainview. Mrs. Saul had been a member of the Baptist church since she was a girl.

She is survived by two daughters, Mrs. Boney of Plainview, and Mrs. J. P. Osborne, Sr., of Miami; one son, J. B. Saul of Miami; and nine grandchildren and six great-grandchildren.

Attending the services from Miami were Mr. and Mrs. J. P. Osborne, Sr., Mr. and Mrs. J. B. Saul, and son, Eldon, Mr. and Mrs. J. P. Osborne, Jr., Mr. and Mrs. Wiley Reynolds, and Mrs. J. E. George.

Youngsters Wanna Kill Some Japs So They Play Hookey

LOS ANGELES, Jan. 22 (AP)—Edward Crandall, 8, and Nile Boyer, 7, played hookey from school to try to enlist in the army.

"We wanted to do something about those Japs," Nile complained, "but they wouldn't take us because they said we were too small to handle guns."

Refusing to give up, the boys played hookey next day and went to an airplane factory employment office.

"We don't wanna build planes, we want to fly 'em," they said. Yesterday they returned to the army camp.

"Come back in about 10 years, boys," a soldier suggested.

About that time a deputy sheriff caught up with them.

"I hope the war ain't over by the time I get old enough to fight," Nile told the officer on the way back to classes. "I wanna kill some Japs."

An independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics.

PLEDGE OF ALLEGIANCE—"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

Two Pledges For Americans:

I PLEDGE myself to be a little thoughtful every day about the meaning of freedom and how and why I am a citizen of a republic of free men and women, and how and why men and women toiled and fought yesterday for my freedom today.

I PLEDGE myself to do a little thinking every day about the need of discipline and how, in a time of national danger more than ever, my own rights as a citizen are tangled and interwoven with the rights of others and these rights always deserve a decent respect.

Bombing And Boredom

What sounds like a flippant remark about a grave subject is not really so flippant when you stop to think about it. The remark is that the worst thing about war is that it is such a terrible bore.

That doesn't mean that one grows bored with war as a debatable grows bored with receiving white orchids. It means that there is one terrible and dangerous aspect of war that is concerned with an immense and overwhelming weariness.

The United States has been at war only a little over six weeks, so this aspect of war doesn't concern us now. But it may, and it is just as well to understand it in advance.

When a war has just begun, or even in its more active phases, there is a tremendous wave of patriotic enthusiasm. But all the waging of war does not consist of a series of dashing deeds. Waging war consists in grinding labor, in doing a thousand little things well, and in doing them over and over again as long as it may be necessary. And the country that can keep doing them longest is the country that wins.

You probably got a great kick out of buying that first defense bond. But the second week it was less thrilling, the sixth still less so, and by the time the sixtieth week and the hundredth and the two hundredth have passed, the whole thing tends to drop into a routine. Thus we are authentically told that in Germany even repeated victory had come, by the time of the fall of Greece, to be a bit of a bore in Berlin. They may be less bored there now.

For instance, Noel F. Hall, British economic envoy to the United States, says that, "the cumulative effect of the petty annoyances of the temporary loss of a large variety of small things must, I think, have been much more serious to the morale of heavily bombed populations than would have been a larger number of deaths and serious injuries."

People rise to the mark in spectacular crises, and even bad news is not too hard to take when you feel you are striking back. It is the long periods of inactivity, the petty annoyances and nuisances, the constant and relentless pressure, that drag peoples spirits down—in other words they induce boredom.

Peoples like the Germans, Japanese and Italians, have been living in a state of things for 10 years and more which the United States is just approaching.

Do things like standing in line for a use tax stamp for your car bore you? Well, remember that if we have to do it for three or four years, that's still 10 years less than the other fellow has been doing it.

The Nation's Press

WHY THE JAPANESE ARE FANATICS

(Christian Century)

In trying to explain the swift Japanese advance on Manila, American correspondents again and again referred to the "fanaticism" with which the invaders pressed forward under murderous fire. Seemingly in the eyes of the correspondents no ordinary troops should have been expected to stand up to such punishment, but an attempt was made to soften the humiliation of the American retreat by insisting that General MacArthur's men were not facing ordinary troops, but fanatics. The same characterization has recurred in reports from Malaya. Undoubtedly these reports are founded on fact. The Japanese have been fighting like fanatics; they are fanatics. But what makes the Japanese fanatics? And what are they fanatical about? The answer is not far to seek. A major ingredient in their fanaticism arises from the slights which they are convinced they have suffered because of their color. They know that they have been regarded with condescension, frequently with contempt, caused by the white sense of racial superiority. The fact which gives the war in the Pacific its peculiar ferocity is that there the Japanese, fired with a feeling of racial outrage, faces the whites with a gun in his hand. His strength is as the strength of ten, not because his heart is pure, but because he is making up for years of what he has regarded as insult. Before the war the Japanese world war is finished the West will reap a bitter harvest for the racial snobbery which has marked the attitude of too many whites in the East.

FIRST THE FIGHTING MEN

(Chicago Tribune)

The appointment of Mr. Donald Nelson of Chicago to direct the production and procurement of war materials appears to be an excellent one. Mr. Nelson had high standing as a business executive and since he has been in Washington has had ample opportunity to demonstrate that he possesses unusual talents. There is every reason to expect that his achievements in bringing order out of chaos will measure up to the country's hopes.

Those who know Mr. Nelson best are confident that he will start with the immense advantage of knowing his role and recognizing that it is a sub-

Common Ground

"I speak the same-world primer, I give the etc of democracy. By God! I will accept nothing which a man has their counterpart of on the same terms."

WHAT IS A GODLY MAN?

A reader has contended that I am inconsistent in advocating adherence to the principles of the Constitution which, he says, includes tolerance and religious freedom and then calling socialists "Godless."

I believe the word unGodly more nearly describes what the socialists really are than the word "Godless."

Of course, I did not mean by that that socialists have no God at all. I meant by that that they had a God that was of very little use to them and to society. The real test of whether a man is Godly is whether or not his God causes him to have meekness, courage, goodwill to all mankind, respect for the equal, inherent rights of every human soul and makes him capable of being a friend. By "friend," I mean a person as described by Herman Smith when he said, "A real friend is one who will tell you of your faults and follies in prosperity and assist you with his hand and heart in adversity."

Men who have a God that meets this test for Godliness are Godly men; and men who have an anthropomorphic God some place up in the air ten miles, or a God of "hate, or a God of majority rule, or a God of money, or a God of force and power, are unGodly men, as I used the term.

Religion Not Undiscussable

The reader who contends I am inconsistent for saying that Socialists are unGodly, seems to think that freedom of worship bars discussion of God and religion. Religious freedom does not mean that the subject of God and religion should not be discussed. In fact, the greatest service one man can perform to another is to help him find a God that will be useful and of service to himself and mankind. If a man worships a man-made God, or one that doesn't develop his personality, then the best thing that can happen to him is to have someone make him realize that he is not worshipping a true, helpful God.

The Socialists worship a God of coercion, a God of force, their own personal opinion instead of the immutable will of God.

They do this because they put no limits or restrictions on their own wills, according to what they advocate the majority through their government has the right to take by force the fruits of labor from those whom they think have too much and give it to those whom they think have too little. They thus put their opinions above God's who says thou shalt not covet and who certainly intended people to be different and have different incomes or He would not have made every human being different.

Their God leads to poverty, misery and suffering. Their God leads them to be conceited; to think they know more than God and that man can change God's or Nature's laws.

A GOOD JOB FOR LABOR UNIONISTS

A news story from Singapore quotes the Straits Times in a lengthy editorial, explaining the difficulty in getting the people in the district to completely destroy everything before it is taken by the Japanese. The Times says:

"It is a policy which involves very hard decisions and there can be few positions less enviable than that of men called upon to destroy their life's work or to wreck something which has provided them with the means of livelihood."

Now here is a job exactly fitted to modern labor unions. They have great pleasure and enjoyment in destroying wealth and opportunities for people to work. They have no hesitancy whatsoever in trying to destroy any man's property who does not agree to pay them any tribute they demand. It would not be hard for labor unions to destroy wealth in Singapore if they practiced the same tactics that they practice in the United States destroying wealth that should be used in defending ourselves against Japan and Germany.

It is not his business to run the war but only to manage a subordinate part of it. He and all those who will work under him in Washington and in the factories and mines are the servants, not the masters, of the fighting forces. It is the duty of the procurement staff to find out what the army and navy and need to get it for them as quickly as possible, and nothing more.

All this Mr. Nelson knows, and he has not been said for a good many others in Washington and elsewhere who are running around in circles playing at war and enjoying every minute of it. Altogether too much attention has been paid to the gratifications of these personages and altogether too little to the desperate situation of our gallant little army in the Philippines. That force is fighting against overwhelming odds. Our army's plight is as grave as it is because of errors of omission and commission in Washington. What the country now expects of its government is a repentant spirit and evidence of a determination to make amends for its past mistakes.

It is shocking to observe the citizens of this country going about their business and their pleasures apparently unmindful of the soldiers who are dying in the Philippines. Our churches did dedicate a day of prayer to these brave men, but appear to have felt that was enough. It's about time the people of this country began to realize that we are at war, that the war thus far has been going against us, and that all the spiritual and material force we can muster will be needed if we are to have the victory.

THE LIVING BILLY MITCHELL

(Chicago Tribune)

It is to be hoped that restoration of Brig. Gen. Billy Mitchell's name to the rolls of the War Department is not merely a token of repentance, but is a symbol of intention to permit no further neglect of Mitchell's ideas. Gen. Mitchell was the first American officer to realize the full importance of air power in modern war. In 1926 he was driven out of the army by superiors who obtusely resisted any suggestion that new methods might be better methods.

Other officers in other countries suffered a similar fate. France, for one, preferred to put its trust in the Maginot line, rather than in the theories of Gen. Charles de Gaulle—a proponent of armored divisions and a strong air force. The nations that trust new ideas aside paid tragic penalties, while the Germans, adopting the ideas of Mitchell and de Gaulle, rode the tide of success.

The Senate committee on military affairs which has ordered Mitchell's name restored to the rolls has, by its action, conceded that time has confirmed all of Mitchell's ideas. The recent shakeup that placed an air general in charge of the defense of Hawaii and put an air-minded admiral in command of the fleet is encouraging. It is not enough for the Washington leadership to confess past error. There must be complete acceptance of the fact that the dead general's ideas are very much alive. They are the ideas that win today's wars.

READY TO JOIN THE OTHERS?

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, Jan. 22—Many of the best and biggest aviation and navy pictures you've been seeing since the late silent days—and you still haven't seen "Bombardier" and "Destroyer Man"—have been authored by Frank W. Weed. But from now on, he's going to be busy with more vital drama. The once retired lieutenant-commander is back on active navy duty in Washington.

TRIPPED TO FAME

Fifteen years ago, Lieut. Comm. Weed tripped on the low front porch of his home and broke his neck. Some months later, encased in steel braces until he resembled the Tin Woodman in the Oz books, he left a navy hospital and began to write. He wrote prolifically—articles for aviation trade magazines, fiction for the pulps. Astonished by news of his active, anyway, so far as his brains are concerned. The famed flyer, who helped organize naval aviation in its present setup, who commanded the first aircraft carrier fleet squadron, and who in 1923 headed the U. S. Schneider Cup team and won the international seaplane race in England, won't be doing any more actual piloting.

He wrote "Ceiling Zero" for the New York stage, and that story of commercial aviation later came to the screen. Constantly in demand, Weed moved back and forth between all the major studios. Although usually identified with films such as "Hell Divers," "Dive Bomber," "Test Pilot" and "I Wanted Wings," he has scripted every sort of picture from "Jason Over Burma" to the very fine "Citadel."

But such activities represent no full account of the retired officer. He kept up with every development of his normal life's work. Still in his steel braces, he read and studied and talked. Navy officers with whom he served in the bureau of aeronautics in Washington and at flying bases never forgot "Spig" Weed and his skill and interest in organization and technical matters. There have been more gold-braided uniforms in Weed's home here than you could find in the wardrobe departments of the movie studios.

EARLY OFFER

On the fateful afternoon of December 7, Weed sent a wire offering his services to Rear Admiral J. H. Towers, chief of the navy's bureau of Aeronautics. A reply of acceptance came next day, along with assurance he needn't worry about his physical disability.

Weed, with his background as a writer of service movies, could have done a good job in any such post, but his earlier background loomed still larger in the estimation of navy officials. And so Lieut.-Comm. Weed was named special assistant to Capt. Ralph Davison, head of the plans division, which deals with the organization and tactical operation of all naval aviation.

Interested as he still must be in feature pictures dealing with our war efforts, the officer hopes he can help Hollywood in presenting authentic background. RKO's "Bombardier" is one in which he'll have a special interest, because he wrote the story and has obtained the promise of official aid on the picture about the training of the men who can drop a silver dollar in your pocket from 20,000 feet.

When I used the word "sacrifice" in reminding him that he was leaving a \$2,000-a-week berth for one paying \$460 a month, he just snorted. It was a very eloquent snort.

People You Know

By Archer Fullingim

Pampa can, and will, get along without modest, unassuming Finis Eilwell, but in the last year Pampa got along better with him living and working here. And so will booming Midland, where Finis will go Saturday to become assistant manager of the Griffith theaters there, get along better with Finis performing his civic duties as he did here—and he will. Both you and I are going to miss him. During the year that he lived here he ably and willingly accomplished valuable public services. It would take too much space to detail the significant part he had in making in the Fiesta, the Victory Picnic, the Red Cross drive successful, and you can take it from this observer that what he did he did with no thought of public recognition. When people found out that he would work, he was always placed on committees but was never the chairman, and he preferred it that way, and he did his job well. He is a good theater man, too, and his employers are proud of him and his work here. He deserves the promotion. . . . He sought good will for the theaters, because good will is the most valuable intrinsic asset a business institution can have, and in return for the good will he worked with others in trying to make Pampa a more humane and interesting place to live, a more prosperous place. . . . Anybody can count on money, but it takes a man who is liked and who can create good will to help the business he represents. . . . One of Finis' best assets is a sincerity and seriousness that makes people trust him. Finis tries to make people feel good and naturally he made friends. He doesn't have to use the methods of a politician or of a diplomat, because he sincerely likes people, and he will be just as interested in the welfare of Midland as he was here. And (Midland papers please copy), it is not true in this instance, to say that Pampa's loss will be Midland's gain.

Mr. Eilwell has asked me to point out where I believe he has not been consistent and has requested that I write an immutable law of human conduct.

In my opinion he has been inconsistent:

1. When he has made statements that conflict with previous statements. (I have many clippings on file to support this.)
2. When he advocates adherence to the principles of the Constitution (which includes tolerance and religious freedom) and then calls those that disagree with him, "Godless." (When people they do not believe in the same kind of a God that he does.)

Will answer this "Godless" charge in an article under Common Ground column.

3. When he attempts to prove his theory by putting his own interpretation (and often his own definition of words) upon quotations without proof of the writer's meaning.

4. When as publisher he has the editorial writer make statements that conflict with his own. I know of no such instance. He gives no evidence.

5. When claiming equality before the law and then advocates a consumer's tax.

Will answer in a special article under Common Ground.

6. When claiming laws conflict with the Constitution when they were passed in the manner prescribed by the Constitution and declared constitutional by the Supreme Court.

No evidence. Think I have referred to the laws being in conflict with the objectives of the founding fathers.

7. When preaching adherence to the Constitution and then criticizing the enactment of laws and the election of public officials as prescribed by the Constitution. (Majority rule.)

If there is anything in the Constitution, as advocated by the forefathers, that gives the citizen a right to do, it is the right to criticize laws and acts of officials. If this were not the case, there could have been no agitation against slavery. The right to petition and criticize is a basic right under the American way of life.

The editor and I agree that all men are not created equal for children are born with different mentalities, having different physical conditions, and having different abilities. However, I go a step farther and claim that there is no such thing as absolute liberty allowed by either God or man, that the Constitution does not allow absolute freedom of speech and that there is no Divine law guaranteeing equal freedom to pursue happiness. (If I am wrong on the last one, I would like for the editor to state his source of information.)

I know of no immutable (unchangeable) law of human rights. All laws governing human rights are made by man and are therefore in the A.E.P.

News Clearing House

"It is for each to utter that which he sincerely believes to be true, and add his unit of influence to all other units of influence, and let the results work themselves out."—Spencer. Contributors are urged to confine their articles to 300 words.

Fellow Citizens:

In order to save repetition of questions, Hoiles has inserted comments on the various questions, specifying those he would answer specifically in his column when they require special answer.

Mr. Hoiles has asked me to point out where I believe he has not been consistent and has requested that I write an immutable law of human conduct.

In my opinion he has been inconsistent:

1. When he has made statements that conflict with previous statements. (I have many clippings on file to support this.)
2. When he advocates adherence to the principles of the Constitution (which includes tolerance and religious freedom) and then calls those that disagree with him, "Godless." (When people they do not believe in the same kind of a God that he does.)

Will answer this "Godless" charge in an article under Common Ground column.

3. When he attempts to prove his theory by putting his own interpretation (and often his own definition of words) upon quotations without proof of the writer's meaning.

4. When as publisher he has the editorial writer make statements that conflict with his own. I know of no such instance. He gives no evidence.

5. When claiming equality before the law and then advocates a consumer's tax.

Will answer in a special article under Common Ground.

6. When claiming laws conflict with the Constitution when they were passed in the manner prescribed by the Constitution and declared constitutional by the Supreme Court.

No evidence. Think I have referred to the laws being in conflict with the objectives of the founding fathers.

7. When preaching adherence to the Constitution and then criticizing the enactment of laws and the election of public officials as prescribed by the Constitution. (Majority rule.)

If there is anything in the Constitution, as advocated by the forefathers, that gives the citizen a right to do, it is the right to criticize laws and acts of officials. If this were not the case, there could have been no agitation against slavery. The right to petition and criticize is a basic right under the American way of life.

The editor and I agree that all men are not created equal for children are born with different mentalities, having different physical conditions, and having different abilities. (If I am wrong on the last one, I would like for the editor to state his source of information.)

I know of no immutable (unchangeable) law of human rights. All laws governing human rights are made by man and are therefore in the A.E.P.

Behind The News In Washington

By PETER EDSON

WASHINGTON, Jan. 22—The total cost of the federal government's share of the civilian defense for the next year will be around \$2.7 billion if the job is done as Mayor La Guardia's boys and girls have figured it out. That \$2.7 billion figure hasn't been mentioned very loudly before one of the bills being considered by congress mentions \$100 million as the original appropriation, but that will merely start things. It will permit the placing of the first orders for the 50 million gas masks and so far undiscussed numbers of fire engines, anti-aircraft equipment, emergency hats, and all the paraphernalia that a well-organized civilian defense should have.

Idea of the whole program is, first, to see that every city of 10,000 or more population in which you might call the target area of the United States has what it takes to care for the civilian population in case of an air raid bombing. It's potential target area is roughly a strip 300 miles wide, extending inland from U. S. shores and borders. It may be deeper in some areas like the industrial northeast, and it may be shallower along the mid-continent Canadian border.

If you have been bothered about what the Office of Civilian Defense has been doing since it was created last May, one of the little tasks has been to compile the lists of all this civilian material, to inventory every town in the target area as to its fire-fighting equipment, an emergency hurry-up wagons, then to compile the lists of additional fire-hose, decontaminators, and all such stuff that will make the area safe. The orders are all written. Army and navy procurement offices have been used to determine where the contracts can be let, and they'll be placed just as soon as congress gets around to granting the authority and appropriating the money.

NO GUNS FOR OCD

Not one cent of these appropriations for civilian defense will go for anti-aircraft guns or shooting irons or ammunition of any kind. Mayor La Guardia feels his OCD really has an unfortunate name. Because of the "defense" in the name, too many communities have been told to buy anti-aircraft guns or more anti-aircraft guns to be sent along to them in a hurry. That isn't OCD's business, and right here is the place to say that the idea of turning over to the army this civilian defense job or whatever it should be called is one of the silliest ideas ever to get born in congress. Fortunately, the idea died young. It was largely inspired by a pique against the mayor and a desire to do anything that would get the OCD director out of the hands of La Guardia and Mrs. Roosevelt. But rule No. 1 for any war is that the army's job is to fight the enemy and that the civilian population must look out for itself. In that distinction is the simplest and the most important of what civilian defense really is.

All this \$2.7 billion worth of OCD equipment will be bought at the expense of the federal government and given free to the cities. Gas masks will be given to the 50 million people in the target area. The theory is that these are national expenditures which can't be saddled on the local governments. Such equipment as is given will be strictly on the utilitarian, and not on the ornamental side. The fire engines will be plain, and not, but simply light trucks with a hose reel, a pump, and the necessary ladders.

UTILITIES MUST DIG DOWN

Not all the expense of civilian defense is to be borne by the federal government. Public utilities have to supplement their emergency repair crews and the shovel brigades must be armed with tools already manufactured. If OCD were to go out on some fancy scale of buying municipalities have advocated, it would take a considerable chunk of steel that should be going to other implements of war.

All the educational work of getting this phase of local cooperation organized has been a propaganda effort. The government has kept the government printing presses on the hum for months. Forty-five pamphlets, handbooks, instruction sheets, and leaflets have been turned out. The average edition of these has been about two and a half million copies. OCD now has over 7,000 local defense councils with about three and a half million volunteers registered or enrolled or in training. When they get through, there will be about 10 million—six million men and four million women.

So They Say

New York debutantes look older than their mothers. Their appearance is distressing.

BUD WESTMORE, Hollywood makeup artist.

Let's shoot the works and get this nightmare over with.

Production Boss DONALD M. NELSON.

If there is an immutable law of human rights, I would appreciate it if the editor will state who wrote it and by what authority.

A good general rule for human conduct is the rule of expediency which according to Webster means, "to do the proper thing under the circumstances."

However, if we follow the words of Jesus when he said, "Render unto Caesar the things which are Caesar's; and unto God the things that are God's," and "As ye would that men should do to you, do ye also to them likewise," we won't be very far wrong.

Sincerely, E. L. HUMPHREY.

TEX'S TOPICS

By Tex DeWesse

TOOK time out of a busy day yesterday to travel 120 miles to listen to some advice on censorship of news during war time—advice as dished out by Byron Price, chief of Uncle Sam's censorship office. . . . In the party were three newspaper men and one radio (KFDN) man. . . . Two of these four men are horse lovers. . . . Well, the two newspapermen who were left thought they never would get back home. . . . I was one of them. . . . The radio man and the three newspaper men, crazy over horses, had to visit all the horses in Amarillo and between Amarillo and Pampa. They even drove on back roads, out and across ranches in order to talk to the horses personally. . . . Once we drove into a pasture where the horses were mixed up with four or five over-stuffed bulls who gave us dirty looks. . . . Now, I like horses when they are hitched to a plow or somebody else is riding them, but to walk right out and commune with them where they're mixed up with bulls who have nothing to do but think about China shops, is completely out of my category. . . . The Roving Reporter was along—and he got the same reaction. . . . Moral: . . . If you're going on a business trip, take two of the four horsemen along with you—especially if you're driving through horse country.

We see in the papers where movement purchasing agents are finding it impossible to spend defense billions as rapidly as congress votes 'em. . . . A few modern women added to the purchasing department could take care of that difficulty without any trouble at all!

LET'S be completely selfish for a moment. . . . Let's forget that it's patriotic to drive safely and sanely, and therefore save rubber, oil, and gas. Let's forget that a little courtesy and common sense on the highway saves lives. . . . including your own. . . . Let's forget all that. But, brother, if you smash THIS car, where are you going to get another? . . . If you ruin even one tire in a minor accident, where are you going to get another?

This is one time when, for purely selfish reasons, you can't afford to drive recklessly. You may have plenty of money. . . . You may not give a damn for anybody else's. . . . but you DO want to keep on driving! . . . Then drive safely! And one of these days, when we've won this war and you're able to get a new car, maybe you'll have a little more traffic habit and will drive safely just because you have found it's smart business.

HERE are a few "Smash-Up Savers": . . . (1) Start sooner. Take it easy. Allow more time for the return following the close of the year. The safe life of a tire at 50 miles an hour is only half of what it is at 30 miles an hour. At 30 miles an hour it falls to only 30 per cent of normal life. . . . (2) Don't drive on in tip-top shape—motor, brakes, tires, lights, horn, battery, etc. . . . (3) Try turning on your charm behind the wheel—be courteous to other drivers and pedestrians. . . . (4) Remember—drive it safely, brother—you can't get another!

Your Federal Income Tax

TIME FOR FILING RETURNS OF INDIVIDUALS

Income tax returns of citizens are required by law to be made on or before the 15th day of the third month following the close of the taxable year, which for most individuals is the calendar year. Since March 15, 1942, will fall on a Sunday, such returns must be filed on or before midnight of Monday, March 16, 1942.

Returns by non-resident alien individuals must be made on or before the 15th day of the sixth month after the close of the fiscal year, or on or before June 15, 1942, for the calendar year 1941.

If placed in the mail, the returns should be posted in ample time to reach the collector's office, under ordinary handling of the mails, on or before the due date. The envelope should bear proper postage and be addressed to the Collector of Internal Revenue at the correct address in the district where the taxpayer's legal residence or principal place of business is located. If he has neither, the return should be mailed to the Collector of Internal Revenue at Baltimore, Md.

The regulations grant an extension of time for filing returns of income up to and including the 15th day of the sixth month following the close of the taxable year in the case of American citizens residing or traveling abroad, including persons in the military or naval service on duty outside the United States. In all such cases an affidavit is required to be attached to the return stating the cause of the delay in filing, and taxpayers who take advantage of this extension of time will be charged with interest at the rate of 6 per cent per annum on the first installment of the tax from the original due date until paid.

Yesteryear In The News

Ten Years Ago Today The railroad grade of the Fort Worth & Denver road into Pampa was taking form. Cuts and fills between Pampa and LeFors were nearing completion.

Five Years Ago Today A sudden change in temperature was blamed for the gas explosion that hurled flames 200 yards when a gas line of Gasgry company parted near Pampa.

SERIAL STORY TAMBAY GOLD BY SAMUEL HOPKINS ADAMS

THE STORY: Mom Bummer sets up "Feeder" lunch wagon at run-down Tamabay plantation...

ANGEL'S FISTS FLY CHAPTER XVI MONEY is bad for my system. I'm not used to it in big gobs...

Let's face it, pal. I said. "I know it's worse than we thought it would be, but how much have we left ourselves in for?"

"You say it," I said. "I'd choke." "What'll we do now?" "I had one of my brilliant flashes. What's a bank for, said. "We can take our books down to La Rue at the Leverton National."

As I did, she said. "Look what it got me." "There's others and maybe different," I said.

National Income Now 92 Million

WASHINGTON, Jan. 22 (P)—War fattened the national income to the record-breaking total of \$92,200,000,000 in 1941...

The experts figured that about one-third of the increase in national income last year was dissipated in the higher cost of things.

Wages and salaries accounted for the biggest part of the national income, \$48,000,000,000, which was 9 per cent more than in 1940.

Manufacturing industries, augmented by a large number of new defense factories and defense orders for many old ones, produced \$26,600,000,000 of the national income.

Military expenditures of the United States and British governments represented about \$15,000,000,000 or 16 per cent of the total.

In terms of jobs, the higher national income meant that non-agricultural workers increased 2,400,000 in number and reached a total of 40,600,000.

Donate Your 1941 Tags, Coke Advises AUSTIN, Jan. 22 (P)—Governor Coke R. Stevenson today endorsed a suggestion by many citizens that 1941 license plates be donated to the defense effort.

He announced incidentally that 1942 tags had been delivered to tax collectors and may be purchased beginning Feb. 1.

The governor said complete details of the salvaging program would be announced soon.

It was contemplated that plates

of the Fort into Pampa and fills by were near-

Archbishop Of Canterbury To Resign March 31

LONDON, Jan. 22 (AP)—The archbishop of Canterbury, primate of all England and a central figure in forcing the abdication of King Edward VIII, announced today he would resign March 31 to make way for a younger man.

You bell Give me the strong, serviceable, hard-wearing material that our soldiers wear—Army Twill. The Army knows what's best for tough, exacting work like mine. Years of experience in the field under all conditions have shown it will withstand unusual wear.

FOR YOUR PROTECTION Dickie's Army Twill coats and shirts are made from Government regulation Army Twill. You can buy Dickie's with the fullest assurance.

DICKIE'S WORK CLOTHES SOLD Exclusively in Pampa By LEVINE'S PRICES TALK

The archbishop, the Most Reverend and Right Honorable Cosmo Gordon Lang, was 77 years old last Oct. 31 and has been the archbishop of Canterbury since July 27, 1928. He said he was relinquishing his lofty church office to make way for "someone younger in years and more vigorous in mind and spirit, who will be better able to prepare now for post-war plans x x x."

His decision to resign his position was made known to the convocation of the province of Canterbury, one house of the church assembly of the Church of England.

"When this war is over," he said, "great tasks of reconstruction must await the church as well as the state."

"Preparation for these tasks must begin now. It is clear the preparation must be the work of those who will have the responsibility of undertaking the tasks."

"Thus I deem it my duty to hand over my charge to someone younger in years and more vigorous in mind and spirit, who will be better able to prepare now for post-war plans because he may expect to have a leading place in the endeavor to carry them out."

Nelson Gives WPB Back To Whole Nation

WASHINGTON, Jan. 22 (AP)—Washington awoke today to the realization that Donald M. Nelson is giving the war production job back to the whole country.

Nelson's announcement that he intended to establish a field service as a seventh and new major division of the war production board which he heads was regarded here as a step toward decentralizing the war effort.

Officials said such a move, sending WPB men into the industrial centers of the country where the battle of the assembly lines is being fought, would shorten a great part of the delays caused by paper work and letter-writing and by the necessity of calling manufacturers to Washington to discuss production and conversion problems.

Nelson said he had not yet decided "how much responsibility will be here and how much out in the field." However, the high place accorded the proposed field service in his organizational scheme was taken as clear indication that he intended to delegate to it a good share of the decision-making power heretofore reserved for Washington alone.

The field division will compare in importance, Nelson said, with the six major divisions of WPB set up by him yesterday, when he abolished the Office of Production Management—production, purchases, materials, labor, civilian supply, and industrial organization.

The field offices will handle not only the job of bringing small plants all over the country into the military arsenal, but will advise contractors on priorities, allocations of material, "or anything else that pertains to getting the job done," Nelson told newsmen yesterday.

Nelson's theory of decentralizing control is getting its first big test in Detroit, where Herbert C. Kanzler, veteran automobile production man, is being sent with a staff to achieve the total conversion of the motor industry to army production.

There will be a counterpart of Kanzler in every important industry, Nelson said, and he estimated their number at 50 or 60.

Not all the industry chieftains will have as much power as Nelson vested in Kanzler—"all the authority that I've got"—because not all of them will need it, Nelson said. Kanzler is authorized to move tools and machines from one motor company to another, if necessary to get maximum arms output.

William S. Knudsen and Sidney Hillman, erstwhile, co-directors of the now defunct OPM, will continue to play important, though separate, roles.

Nelson said he wanted them added to the new War Production board, and his wish was viewed as tantamount to command, in view of the sweeping powers granted him by President Roosevelt.

War Bond Rallies Held At Canadian

CANADIAN, Jan. 22—Mrs. Mabel Teas, chairman of the Bond-a-Month club, reported Tuesday that 56 persons had signed up to purchase a Defense Bond each month for the duration of the war.

At a citizens meeting in the city hall Monday, informative talks were made on various matters pertaining to defense work in Hemphill county.

Speakers were Darrell Wiggins, president of the chamber of commerce; County Judge E. C. Fisher and Mayor John Caylor, defense coordinators for Hemphill county; H. S. Wilbur, chairman of the selective

service board; L. A. McAdams, chairman of Hemphill County Chapter American Red Cross.

HEFFY Wilbur, Jr., chairman of Defense Bond sales in this county; D. U. (Bud) Hardin, member of the tire rationing board; and S. E. Allison, secretary of the Canadian Chamber of Commerce.

On Tuesday evening, the Bond-a-Month club committee held a meeting to plan work. Those contacted are mainly persons employed at regular salaries at stated times, but anyone may join.

Another classification for bond-buying is called the salary allotment plan, where employers retain an agreed-upon part of each month's salary which may be as small as \$1, placing it in the bank until amount totals sufficient to purchase a bond.

Several business firms have already agreed to cooperate in this plan. All will be contacted within next week.

Mayor Caylor leads this committee. City employees have signified their willingness to participate and \$382 of salaries will be placed in the bank each month towards the purchase of bonds.

The Federal Bureau of Investigation secured 83 convictions of crimes on the high seas in the last fiscal year.

Over 10 Million Bottles Sold For Bronchial Coughs Sufferers will find Buckley's brings quick relief from persistent, nasty, irritating coughs whether due to colds or bronchial irritations. Sacred Heart Parish Service Flag Blessed

WHITE DEER, Jan. 22—A new service flag for Sacred Heart parish was blessed Sunday morning after mass.

Its four stars represent the four members of the parish who are in the armed forces, Leonard Bednorz, who is in the navy, and Privates Fred and Vincent Urbanczyk and Sergeant Bernard Peters of the army.

The choir sang "Mary Help Our Valiant Soldiers"; the congregation, led by Sergeant Peters, gave the pledge of allegiance to the flag; and the program was concluded with the singing of "America."

Bicycles Come Back

OLNEY, Jan. 22 (AP)—Social functions here reflect the trend of the times. Bicycles instead of automobiles are parked in front of homes where bridge parties and teas are in progress.

One dealer reported bike sales to a banker's wife, a merchant's wife, a stenographer. One young matron bought a large attached basket to tote her baby in.

That Candidate For County Clerk Office

Charlie Thut today stated that he would be a candidate for reelection to the office of County Clerk of Gray county, Texas.

Charlie, as he is known to most of the people who have occasion to call on the office, said that he appreciated the support given him in the past and had made every effort to conduct the affairs of the office in such a manner and render such services as would merit the continued approval of the voters of the county.

He expressed the opinion that travel restrictions and increased duties imposed by new laws and war time conditions would make conventional campaigning difficult but said that he expected to make as many personal calls as such conditions would permit.
