

Parents Of Boys In Armed Forces Invited To USO Rallies Monday Night

YOU HELP SOMEONE YOU KNOW WHEN YOU GIVE TO THE USO 1942 USO Slogan.

All parents, sisters and other relatives of boys in the armed forces are asked to attend USO rallies to be held at Pampa, LeFors, McLean

and Alanreed Monday night. No donations will be asked and no collections taken up. Nobody will be asked to serve on any committees. Parents are just asked to come and take it all in, and spread the good word that when you didn't say no to the USO last year you said, "yes, buddy, I'm with you" to the boy in the uniform.

The indirect purpose of the meeting will be to start the ball rolling for the USO in Gray county where the quota is \$4,000, and no less. That means that Pampa is going to have to raise more than \$2,000 more than last year. It means that nearly twice as many people will have to give this year, and that they will have to give more.

The word "have" is used. Of course, nobody in America has to give anything. Nobody has to give to the Red Cross. Nobody has to buy a bond. Nobody even has to join the army—instead he can be a conscientious objector.

But in America each loyal citizen feels that he has to do these things. The USO has proved itself to be the best camp friend of the boy in the uniform. President Roosevelt is asking the country to raise \$32,000,000 for the USO, and \$4,000 is Gray county's quota.

Gray county is going to raise that quota, for the burning reason that it can't afford not to, patriotically speaking. But back to the meetings Monday night. In Pampa the meeting will take the form of a radio program which will be broadcast from the district court room. Parents of boys in the armed forces will appear on the program. At all four meetings parents will tell what the USO has done and is doing for their sons. BUT THE PARENTS ARE URGED TO ATTEND WHETHER OR NOT

THEY ARE ON THE PROGRAM. Parents who will appear on the program will be contacted this week. A short program of patriotic musical numbers is being arranged. IT IS HOPED THAT THE COURT ROOM WILL BE CROWDED TO CAPACITY WITH PARENTS OF BOYS IN THE ARMED FORCES. Yesterday afternoon, County Judge

Sherman White called together the bunch of people who were in charge of the drive last year. Then he announced that Jack Hanna, manager of The News, would be general chairman. Other chairmen were announced as follows: city, M. C. Johnson; special gifts, E. G. Hughes; in-

Baker School Does Share In City Clean-Up

Rain has held up but has not stopped the drive to make Pampa a clean city. Although city trucks cannot follow the schedule for today to pick up trash, this simply means that as soon as the weather is favorable, trucks will again start out on the job, and the special Clean-Up week will be extended through Monday, City Manager Steve Matthews said today.

Physician At Lubbock Shot Mysteriously

LUBBOCK, May 21 (AP)—Dr. Roy Hunt, who is in the officers' hospital in his Littlefield, Tex., hospital and officers of this section sought a man and woman in connection with a mysterious shooting at midnight.

First Bombers Roll Off Ford's Lines

DETROIT, May 21 (AP)—The first of the big four-engine bombers which soon will be put into mass production based on automobile manufacturing methods has rolled off the new half-mile-long assembly line of the 37-acre Willow Run plant, the Ford Motor company announced today.

Red Army Wipes Out German Stronghold

By HENRY C. CASSIDY MOSCOW, May 21 (AP)—Marshal Semeon Timoshenko's army reported today that it had crushed one of the key German defense strongholds on the Kharkov front, wiping out the Nazi garrison in a fierce 40-minute struggle and storming forward six more miles.

Reporting the success of the sudden new surge in this sector, Red Star, mouthpiece of the Russian army, declared that the stronghold was one of the Germans had sought to hold at any cost.

Artillery, planes, and tanks were used in a concerted dawn battering on the strong point, clearing the way for an infantry charge which took the position, Red Star said.

It reported that the Germans had held the fortified village for three months, developing an intricate system of defense works, surrounding it with deadly minefields and clearing zones for point-blank fire.

The Russians also captured five reserve troops hurried forward in a German counter-attack, Red Star said.

Meanwhile the Russians reported fighting off German flanking assaults in Syria. Mike came to America back in 1914 and lived for a while at Okmulgee, Okla., where he went to night school and became subject to Uncle Sam in 1927.

Then he went back to his "home town," Damascus, the oldest city in the world, and married Mr. and Mrs. Alloway. They traveled through Turkey and Greece on their way to the United States. Mike has traveled a lot and he's learned that there's no place like America.

"Living in the old world is like living in a coop," said Mike. "It's all right if you've never known anything about the United States, but once you come here and see the fun and thrill and the chance you have."

Cards on the wall of Mike's small cafe attest Mike's loyalty. There's one showing Mike has contributed to the U. S. O.; another reading "Stand By America"; and a third

Five Pampans Naturalized In Amarillo Court

Yesterday was an occasion comparable to Christmas and the Fourth of July combined for Mr. and Mrs. Mike Alloway of Pampa. Mike closed up his cafe at 117 1/2 S. Cuyler, and accompanied his wife to Amarillo where Mrs. Alloway became a naturalized citizen.

"It was a big day for us," said Mike. "We just closed up all day."

Mike was as happy about the whole thing as a boy with a new sled at Christmas. For Mike knows what being an American means, it wasn't handed to him on a platter.

Both Mike and his wife are natives of Syria. Mike came to America back in 1914 and lived for a while at Okmulgee, Okla., where he went to night school and became subject to Uncle Sam in 1927.

Then he went back to his "home town," Damascus, the oldest city in the world, and married Mr. and Mrs. Alloway. They traveled through Turkey and Greece on their way to the United States. Mike has traveled a lot and he's learned that there's no place like America.

"Living in the old world is like living in a coop," said Mike. "It's all right if you've never known anything about the United States, but once you come here and see the fun and thrill and the chance you have."

Cards on the wall of Mike's small cafe attest Mike's loyalty. There's one showing Mike has contributed to the U. S. O.; another reading "Stand By America"; and a third

Third Of An Inch Of Rain Falls Here

It's going to be warmer than it was yesterday but there's more showers and thunderstorms coming this afternoon and tonight, says the weatherman's announcement to Pampa and vicinity today.

Hoover Pleads For Grousers And Gossipers

NEW YORK, May 21 (AP)—To win total war, says Herbert Hoover, dictatorial economic powers must be vested in President Roosevelt.

"There must be no hesitation in giving them to him and upholding him in them," the former President declared last night. "More-over, we must expect a steady decrease in economic freedom as the war goes on."

Hoover addressed the National Industrial conference board. While stressing the need of "Fascist" measures in mobilizing the nation's economy, Hoover declared an equal need to guard against their being frozen into American life after the war.

Pleading for the retention of civil liberties which the country could so stand guard, he asserted that "from a philosophical viewpoint" he would like to see "the sixth columnists given a little more liberty."

"They are defined as the ones who discuss the war or speculate or even criticize in private conversation," said Hoover.

"The American people have always been a debating society x x x and all this cannot be stamped out of them by a hob-nailed boot. It is not sedition. It comes from concern to win the war, and they ought to be allowed to grouse and gossip a little without being sixth columnists."

From the same platform came a forecast of hit-and-run raids by the Axis on American war plants and a prediction that the end of 1943 would see 22,500,000 additional soldiers and war workers in action.

"I predict," said Undersecretary See HOOVER, Page 4

Japs Advance Into Chekiang

By The Associated Press Drenching monsoon rains stalled the battle of Burma at China's back door today while Japan's invasion armies pressed a grave new threat on the Chinese east coast with a 30-mile advance into Chekiang province.

Dispatches said the Japanese, apparently determined to overrun Chekiang and wipe out any air bases which could be used for medium-range bombing attacks on Tokyo, were advancing southward on a 150-mile front.

A Chinese army spokesman said that the invaders, 30,000 to 40,000 strong, had already advanced within 50 miles of Kinhow, provisional capital of Chekiang province, and that heavy fighting was in progress along the entire front. Kinhow is 180 miles below Japanese-occupied Shanghai.

About 60,000 other Japanese troops were reported massing for supporting thrusts.

On the Burma front, Chinese military dispatches said Japanese thrusts northward into China's Yunnan province had been fairly well checked, with torrential rains helping to bog the enemy advance.

In the battle of Australia, Gen. Douglas MacArthur's headquarters reported that Allied bombers renewed their assaults on Japanese advance bases after a 24-hour lull, raiding the enemy airdrome at Koepang and the harbor of Dili, both on Dutch-Portuguese Timor Island.

With the Japanese now apparently conserving their bomber forces for a big-scale attack, Australia moved to draft 35,000 more men into a corps which is preparing the "down under" continent as a base for a great Allied offensive.

Snakes Can't Ride Buses, Rules Driver

ATLANTA, May 21 (AP)—Dogs, yes. Cats, okay. But snakes? Nostrife! So decreed an irate bus driver yesterday shortly after an elderly, mild-mannered gentleman had boarded his trackless trolley. The man was reaching in his pocket for his money when a snake, about an inch in diameter, crawled out of his shirt bosom and dived under the driver's seat.

The driver was startled (understatement). "He ain't gonna hurt you," observed the snake fancier. "That's all right," retorted the driver. "You can't buy him a seat and he ain't gonna ride free"

Marfa And Dalhart Get Air Schools

WASHINGTON, May 21 (AP)—Authorization and contract awards for the construction of two air force training schools and one air command post in Texas were formally announced by the war department last night as follows:

Air force training school at Marfa, to cost less than \$3,000,000. Construction to be supervised by the Albuquerque, N. M., Office of the Corps of Engineers.

Command post at Galvestone, to cost in excess of \$3,000,000, construction to be supervised by the Denison Office of the Corps of Engineers.

Air force training school at Dalhart, to cost in excess of \$3,000,000, construction to be supervised by the Tulsa, Okla., Office of the Corps of Engineers.

No other details were given.

CIO Lauds Murray

CLEVELAND, May 21 (AP)—The CIO United Auto Workers' president, R. J. Thomas, told the CIO United Steelworkers of America today their unions would "battle the forces which try to break up the labor movement from within or without," and lauded CIO President Philip Murray as a man who "is not sitting in Washington in a grouch-gripping and nursing sores."

Congratulations—

Mr. and Mrs. Leo Moore of the King lease are the parents of a seven pound daughter, born at a local hospital this week. She was named Statha Leoma.

It Could Happen Here—Committee Drafts Emergency Hospital Plan

If there was a big train wreck near Pampa and 200 persons were injured, how would Pampa provide for their care?

Also, the same question applies to fires, epidemics, cyclones, explosions, in Pampa, LeFors, Miami, Canadian, McLean—what could Pampa do about it?

This is the idea on which Walter Biery and members of his committee are working with a view toward setting up an emergency hospitalization plan in conjunction with the local chapter of the Red Cross, the Pampa Civilian Defense council, and the churches.

"We have found out," said Mr. Biery, "that there are only about 85 hospital beds in Pampa and these are 90 per cent full most of the time. There is also a similar shortage in the number nurses. Pampa has about 85 and 40 of these are employed nearly all the time."

"Of course, it may sound far-fetched to think of the casualties that would occur in air raid in Pampa—but it could happen. Besides that, there is always the danger of suffering arising from some

PICTURED ABOVE IS Miss Roy Riley, head of Junior High school art department, and a group of students viewing the art exhibit which is now on display on the third floor of the new high school. The exhibit, including 19 original paintings by Ethel Stump Deeter, will be open until 10 o'clock tonight. Proceeds from the admission fee will be used to purchase the most popular painting for the new building.

Woman Burns To Death In Flaming Bus

CLAUDE, May 21 (AP)—Three persons died early today in the crash of a Bowen bus with a stolen automobile 3 1/2 miles east of here. Ten others were injured.

State Patrolman W. G. Abbott said Miss Inogene Holbert of Amarillo and an unidentified man buried to death in the flaming wreckage of the bus.

The body of the driver of the automobile, also unidentified, was found in the charred machine.

Mrs. Clyde H. Holtzclaw, wife of an Amarillo druggist, was the most seriously injured of the ten passengers in the bus. Abbott said he had a report she had died but a check at Amarillo, where she was taken to a hospital, revealed that she was still alive.

Abbott said the body of the unidentified man in the bus was believed that of a Dallas architect and that a check was being made with police in Dallas.

Action of a truck driver and a soldier prevented others dying in the blazing wreckage.

Homer L. Penrod of Wichita Falls, the bus driver, and nine of his eleven passengers were injured. Mrs. Clyde H. Holtzclaw, wife of the owner of Amarillo drug stores, was severely hurt. She received a broken leg and deep burns.

Mrs. Holtzclaw and Miss Holbert were returning from a credit convention at Galvestone, Miss Holbert is missing and since one woman was burned beyond recognition, it was believed by officers that Miss Holbert was the victim.

Slightly injured were: Mrs. Jesse McKissick of Bonham, Miss Ethel Burch of Thackerville, Okla.; Carl L. Dunlap of Ester Field, La.; George W. Maness of Camp Bowie, Brownwood, Tex.; L. O. Edwards of Camp Bowie, Edwin Pohlmeier of Sheppard Field, Wichita Falls, Tex.; William LaRash of Sheppard Field and an unidentified passenger.

The automobile was stolen from an Amarillo night club last midnight. It belonged to C. M. Akin of Amarillo.

A. R. Rude, nightwatchman at Claude, said he saw the car pass through that town and estimated it was going 75 miles an hour. Investigating state officers said the automobile was on the wrong side of the road when it plowed into the bus.

"BETTER CLEANING ALWAYS" Pampa Dry Cleaners

Walsh Exonerated Of Morals Charge

WASHINGTON, May 21 (AP)—Democratic Leader Barkley (KY.) told the senate today Attorney General Biddle had informed him that a justice department investigation had "completely exonerated" Senator Walsh (D-Mass.) of published statements that Walsh had visited a "house of degradation" in Brooklyn. Addressing a crowded senate in which Walsh was one of the few vacant seats, Barkley told of the publication in the New York Post of charges that Walsh had been a frequent visitor to a house in Brooklyn at which Barkley said there were reports that soldiers and sailors were "plied with liquor" in order that information on the movement of ships might be obtained from them. Walsh told him personally, Barkley said, that he had never been to the house in question and had been in Brooklyn only three times in his life, on each occasion to make public speeches. The Kentuckian added that a justice department investigation, which he and Republican Leader McNary of Oregon agreed should be made, "completely exonerated" Walsh.

Diamond Hill Grid Star Bombed Tokyo

FORT WORTH, May 21 (AP)—When Nolan A. Herndon was a student at Diamond Hill High school here he did every job well, whether in the classroom or on the football field, so it was no surprise the serious-minded, dark-haired youth had been revealed as one of the intrepid United States fliers who bombed Tokyo. But if there was no surprise, there was plenty of thrill and excitement up and down the hallways, in classrooms and offices, the name of Nolan A. Herndon passed back and forth among older students and faculty members, who knew him while younger pupils listened, open-mouthed, to his latest exploit. One of those most thrilled by the report was Mrs. J. J. Boydston, whose son, Ward L. Boydston, was Herndon's closest chum in high school and college days. Ward is now at Chandler field, Ariz., where he will be graduated with a commission in June. Nolan A. Herndon, now 23, is the son of Mr. and Mrs. J. T. Herndon, who two years ago moved to Sulphur Springs where the father operates a cotton gin.

Fvt. J. C. Weckesser, son of Mr. and Mrs. Jess W. Morris, of Pampa, today was graduated from the huge Air Corps Technical school at Keesler Field, Miss., after an intensive 12-week course which prepared him to serve as an airplane mechanic "on the line."

Notice to merchants: Let us furnish you with ceiling price tags for your merchandise, any size or quality. Commercial Dept., Pampa News, Ph. 666.—Adv.

Regular old time dance, sponsored by Kerley-Crossman post of the American Legion, will be held at 9 o'clock Saturday night in the junior high school gymnasium. Proceeds go to the schools' cafeteria fund.

Let the Commercial Dept. of Pampa News print your candidate cards, placards or window cards. We have a large selection to choose from. Pampa News Commercial Dept., Ph. 666.—Adv.

Second class of auxiliary firemen will have their first lesson at 8 o'clock tomorrow night at the Pampa fire station. There were 25 in the first class which met Monday night. Eddie Gray is the instructor. This week's lesson is on how to operate fire engine pumps, and the use of axes, nozzles, and gas masks. Auxiliary firemen who missed the lesson Monday are to meet with the second section tomorrow night.

It's clean up time. Have your drapes, blankets and winter wearings cleaned now ready for fall. Use cash and carry and save. Pampa Dry Cleaners, or Ph. 88.—Adv.

A report on the recent 127th district conference at Wichita Falls was made at the Pampa Rotary club's regular weekly luncheon at noon yesterday. Attendance at the luncheon was 41. John E. Hill of Amarillo and C. H. Everett of Ardmore, Okla., were visiting Rotarians. Guests were Clarence E. Reed, Lubbock; Gordon Neville, Woodward, Okla.; Mason Anderson, San Diego, Calif.

Mrs. George Walstad, Jr., who underwent a major operation two weeks ago at Haysland, Kansas, will arrive home tonight.

A marriage license was issued Wednesday to Elbert Hershel Harvey and Beulah Irene Wood.

For Sale—Man's practically new bicycle. Phone 1349.—Adv.

Fire Chief Ben White and Captain Dwight Upham of the Pampa Fire department are attending the state firemen's training school at College Station.

One man, charged with being a vagrant, was fined in city police court today.

Mrs. Claude Ledrick is convalescing at her home following a serious illness.

Joe Bowers, private in the U. S. Army, is visiting in Pampa on a furlough. He joined as a selectee in March.

The infant daughter of Mr. and Mrs. C. L. Parks of LeFors was buried in LeFors cemetery this afternoon following services by the Rev. Henry Phillips. Arrangements were in charge of Duenkel-Carmichael Funeral home of Pampa. The child died in a local hospital yesterday afternoon. Survivors are the parents, a sister, Janie Ruth, and a brother, Clarence, Jr.

Californian Invents Mechanical Sentry

LOS ANGELES, May 21 (AP)—L. K. Gerkey, owner of a small engineering plant, said today he has invented a mechanical guardman which will relieve some of the soldiers guarding defense plants for front line war duty.

The mechanical guardman, technically an interceptor fence detector, has been tested for several months at Northrop Aircraft, Inc. Army engineers said they were "very much sold on this system."

They explained that it eliminates defects often found in such devices as high voltage barriers, photo electric cells, and microphones.

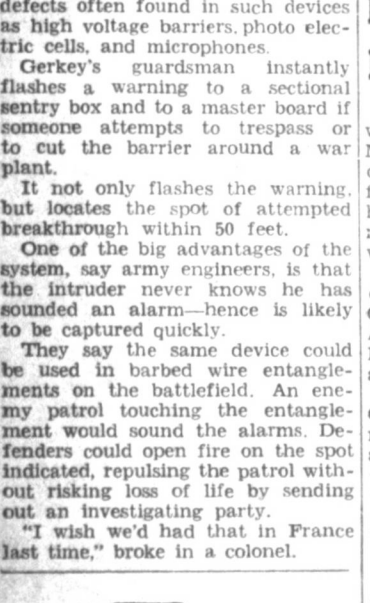

Gerkey's guardman instantly flashes a warning to a sectional sentry box and to a master board if someone attempts to trespass or to cut the barrier around a war plant.

It not only flashes the warning, but locates the spot of attempted breakthrough within 50 feet.

One of the big advantages of the system, say army engineers, is that the intruder never knows he has sounded an alarm—hence is likely to be captured quickly.

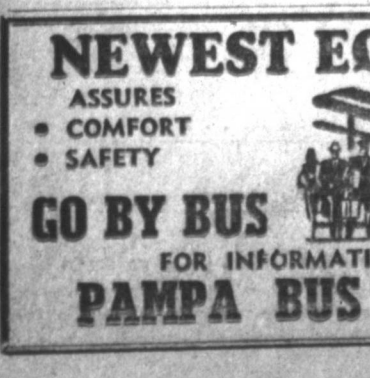

They say the same device could be used in barbed wire entanglements on the battlefield. An enemy patrol touching the entanglement would sound the alarms. Defenders could open fire on the spot indicated, repulsing the patrol without risking loss of life by sending out an investigating party.

"I wish we'd had that in France last time," broke in a colonel.

EMERGENCY

(Continued from Page 1)

natural cause.

"Witness the Crowell disaster and the one at Pryor, Okla.," he said.

Churches as Hospitals

Under the plan as set up by Mr. Biery and his committee, five centrally located churches are to serve as emergency hospitals. Another factor in selecting these five was that all have kitchens.

The churches are the First Methodist, First Christian, Presbyterian, Holy Souls Catholic, and First Baptist.

Each congregation is to form a committee with chairmen assigned to such jobs as providing for feeding, nurses, and related work.

Also, each congregation is asked to supply cots, blankets, sheets, pillow cases. Method by which this is done is for members of the respective congregations to notify their church committee by use of the blank, which is reproduced below.

Other persons are to make use of the blank by sending it to the office of the local chapter of the American National Red Cross, located on the third floor of the city hall.

All articles are to be plainly marked so that they can easily and readily be returned to their proper owners after the emergency is over.

Besides the churches, Mr. Biery said it was planned to make use of the city's school system by having the school cafeterias as canteens, with all janitors and other personnel available at a moment's notice.

He said that the churches in the plan could provide for from 700 to 800 patients.

More Students Sought

Another feature of the plan will be increased emphasis on the number of women taking courses in nutrition, and first aid, taught by the Red Cross.

"The Red Cross can supply medicines," said Mr. Biery, "so there will be no cost on this account to the churches. But to gather up the medicine and other supplies from Red Cross headquarters, and from the army, takes time."

"It is to fill up the gap, to shorten the time between disaster and relief, that we are working on this plan."

First arrangements for the project were outlined at a meeting held Tuesday night in the city commission room at the city hall.

Attending were W. E. James, Mr. and Mrs. W. P. Yeager, Mrs. Bertha Anderson, Mrs. H. M. Cone, Mrs. A. L. Prigmore, Lyn Miller, Reaburn Thompson, W. J. Stark, Mrs. J. B. White, executive secretary of the local Red Cross chapter.

Mr. Biery, chairman of the Red Cross disaster committee, and the Rev. W. J. Stack, pastor of Holy Souls Catholic church, and Doyle P. Osborne, chairman of the local Red Cross chapter.

The blank which Pampanians are asked to fill in and take either to their church committee or to the local office of the Red Cross:

Name _____
 Address _____
 Telephone Number _____

I have the following which I will loan to the emergency hospital in the case of a local disaster, whether man-made or caused by nature. I shall see that my name is placed on the articles which I agree to loan.

- _____ folding cot
- _____ single bed and mattress
- _____ pillows and cases
- _____ sheets
- _____ blankets
- _____ miscellaneous.

Mrs. Annie Reams Dies At Family Home

Mrs. Annie Atrice Reams, 50, wife of J. T. Reams, farmer in the M. K. community south of Canadian, died this morning at the family home of a brief illness. They have resided in the M. K. community for 12 years. Mrs. Reams was a member of the Baptist church. Survivors are the husband, three daughters, Mrs. Hazel Lemmons, Canadian, Mrs. Bill Terry, Miami, Ark., and Mrs. Leslie Williams, Eunice, N. M., a son, Leonard Reams, at home, and four grandchildren.

The body lies at rest at Duenkel-Carmichael Funeral home here. Funeral arrangements are pending the arrival of the daughters.

Junior High To Present Comedy

(Continued from Page 1)

For the benefit of the school's activity fund, the Dramatic club of Pampa Junior High school will present a three-act play titled "Professor, How Could You," at 2:30 o'clock tomorrow afternoon, and again at 8:30 Monday night, in the Junior High school auditorium. C. T. Hightower is directing the cast:

Jackie Rains, Keats Perry; Wanda Jay, Vicki Randolph; Phyllis Ann Parker, Grandma Perry; John Robert Lane, Grandpa Perry; Johnny Campbell, John Appleby; Dorothy Cullen, Valerie (a wov with the boys); Jella Shelton, Tootsie Bean; Jackie Dunham, Butcher Boy Bean; Billy Sackett, Valery Whitman; Pat King, Bobbins, the butler.

The play is a farce of college romance and fun. Woman-hating Professor Perry has to find a wife in order to qualify for the position as dean of the college. The professor's family and friends all pitch in to help him find a wife. Vicki, the class spitfire, stumbles on the news and, to get even with the professor, cannot spell but is cute enough, as the ideal wife for the professor. Grandma does not say who her candidate is, but she captures the professor just the same in three acts of fun, foolishness and frivolity.

USO RALLIES

(Continued from Page 1)

dustrial, R. G. Allen and Ben Lockhart, Laketon; Mr. and Mrs. Dave Turcotte, Farrington; Mrs. E. E. Gething, Webb; Charles Cousins, McLean; Mrs. Wilson McInerney, Alaneed; Guy Andis, Grandview; C. C. Mullins, LeFors; Leo Franks, Bell and Kingsmill; Bill Ginn, Hopkins Nos. 1 and 2.

Quotas were announced as follows: Hopkins 50, Laketon \$100, Farrington \$100, Webb \$100, McLean \$400, Alaneed \$75, Grandview \$150, Kingsmill \$100, Pampa and LeFors \$3,725, Total, \$4,800.

The LeFors, Alaneed, McLean chairmen will be in charge of the rallies to be held in those towns Monday night at the high school auditorium in each place. All the meetings will begin at 8 o'clock.

In Pampa a committee will be in charge of the program.

The purpose of the rallies is to be to sell parents of boys in the armed forces on the USO—they are already for it, and the reason they are is because their sons are. These parents know that the USO has taken the place of the tangle of service agencies that operated at camps in the last war.

Every soldier boy, every sailor, every marine, every flier who has ever mentioned the USO in letters home or to friends has had only good words for the organization that provides the nearest thing to a home that a boy in a uniform gets—entertainment, reading rooms, recreation halls, writing desks, stationery, doughnuts, parties and a thousand and one other things.

The USO has been called the greatest morale builder of the war—and what is morale? Morale is the thing that made the boys on Bataan and Corregidor fight to the death, it is the thing that made those 14 Texans volunteer to bomb Tokyo. The USO is everywhere there are soldiers, sailors, marines, fliers.

BUY VICTORY BONDS

FORD'S LINES

(Continued from Page 1)

E. Sorenson, vice-president, declared, "Our work on general war production will double the entire peacetime business of the Ford Motor company and our employment will also be about doubled."

The bombing plane, which will be produced on the design of the Consolidated Aircraft corp., is known technically as the B-24-E. It is a giant ship weighing 30 tons, powered by four Pratt & Whitney 1,250-horsepower engines with a cruising range of 3,000 miles at a speed of 300 miles an hour. It can carry four tons of bombs.

Sorenson already has been quoted as saying the Willow Run plant has been built on an estimated production rate of one bomber, every hour. Workers in the new plant probably will go on to three eight-hour shifts when high-speed turn-out is attained.

The assembly of the first plane, Sorenson said today, has proved that airplanes can be built by the same mass production methods that Henry Ford introduced into the automobile industry with his Model T car.

BUY VICTORY BONDS

FIVE PAMPANS

(Continued from Page 1)

poster, seeking purchasers of war savings bonds.

Mike buys bonds, too, but he states simply that he buys what he can, and he won't "brag" about the amount. As Mike sees it, he's simply being an American—not just talking patriotism.

Mr. and Mrs. Allaway have three children, "all born in America," Mike proudly says.

They are Soltan, 11, and Kamell, 8, sons, who attend E. M. Baker school; and Janet, 7-months, a daughter. Soltan was born in Enid, Okla., but his brother and sister are both native Pampanians.

Mrs. Allaway, whose first name is Wafia, was one of the 25 persons who were in the naturalization class in Amarillo yesterday. Besides Mrs. Allaway, there were four others from Pampa who were in the class and who became American citizens: Josephine Ryan (Miss Catherine of Bologna); Pierre Joseph Bossent, Belgium; Steve Postkos, Greece; Sam Sampson, Norway.

RED ARMY

(Continued from Page 1)

said to be dining an ever louder challenge to the Nazi grip on once-captured Soviet soil.

Pravda reported that guerrillas had captured one important city of several hundred inhabitants deep in White Russia, driving out Germans who had held the community for four months and beating off a strong German force which attempted to recapture positions there in a dawn-to-dusk battle.

The importance of the city—its name was undisclosed—was indicated by the fact that it is the center of 70 collective farms.

A Russian communique made no specific claim of further Red army gains in the drive to recapture the Kharkov industrial center, but declared that "during the night of May 20-21 our troops continued offensive battles in the Kharkov direction."

It said that "the Germans, disregarding enormous losses, have made counter-attacks attempting to hold up the offensive of our troops," but added that "these attempts of the

enemy have been defeated."

(A London military commentator said that the northern wing of Timoshenko's army continued a slow advance despite the German counter-measures, but that the southern wing of the Russian attack seemed to have been checked, perhaps by the German thrust in the Barvenkova sector.

Bucharest dispatches reaching Bern said, too, that the pace of the Red army's advance had been slowed by the German-Rumanian counter-offensives—but had not been stopped.

(These dispatches said the Russians had been forced to withdraw Tuesday from the environs of Chuguev, 20 miles southeast of Kharkov, where a bitter battle still was under way.)

Russian reports indicated that the Axis flanking thrust in the Barvenkova area south of Kharkov had been blocked.

"On the Kerch peninsula (where the German high command claims final victory), battles continued in the eastern section," a government communique declared.

On the Leningrad front Russian troops cut a road between two ene-

my centers of resistance and slew 600 Germans to repulse Nazi counter-attacks intended to restore the line, and Red Army artillery and mortar fire accounted for 300 more on northwestern sectors, the information bureau reported.

(Reichsmarshal Hermann Goering told German workers in Berlin last night that "this war is the hardest Germany has had to fight"; that Adolf Hitler suffered deeply for his troops during the winter campaign, "but he knew he must not yield."

"Behind us there was only a heap of ruins," Goering said. "Therefore we had to hold the front x x x.")

Forty-two more tanks were reported destroyed or damaged by Russian armor in a day's operations (these adding to a toll which London advices yesterday said had already reached 600.)

As the USSO-German campaign rounded out its 11th month, Reichsmarshal Hermann Goering told German workers in Berlin that "this war is the hardest Germany has had to fight."

Goering said Hitler had suffered deeply for his troops during the bitter months of the Soviet winter "but he knew he must not yield"

Board Ordered To Enforce Ceiling Law

The Gray County Rationing board has been designated to see that all retail merchants abide by the price ceiling law which became effective last Monday but up to today no information on procedure had been received at the office here, Chairman J. B. Massa said.

Mr. Massa said he believed compliance with maximum price regulations to be general in the county, but renewed a warning that "any retailer who does not adequately and properly display his ceiling prices on cost-of-living articles is acting in direct violation of the order."

He indicated that the investigation section of the office of price administrator will make unannounced inspections of all retail establishments to ascertain whether the regulations are being observed.

But it was suggested public opinion because "behind us there was only a heap of ruins," therefore we had to hold the front."

tion would be an aid in enforcement.

"Consumers generally are familiar with the price provisions of the regulations, and retailers are going to recognize their customers' interest in maintaining the highest March price levels on all articles not specifically exempted by the order," an OPA release stated.

"We are sure no merchant wants to be charged by his own customers as a violator of the maximum price regulation, and it is obvious that this relationship between the two will simplify enforcement."

The OPA cannot notify everyone individually of all provisions of the order, but "feels that full opportunity has been given every retailer to gain complete knowledge so that compliance should be relatively simple," it was said.

- _____miscellaneous _____

Mrs. Annie Reams Dies At Family Home

Mrs. Annie Atrice Reams, 50 wife of J. T. Reams, farmer in the M. K. community south of Canadian, died this morning at the family home of a brief illness. They have resided in the M. K. community for 13 years. Mrs. Reams was a member of the Baptist church.

Survivors are the husband, three daughters, Mrs. Hazel Lemmons, Canadian, Mrs. Bill Terry, Miami, Ariz., and Mrs. Leslie Williams, Eunice, N. M., a son, Leonard Reams at home, and four grandchildren.

The body lies at rest at Duenkel-Carmichael Funeral home here. Funeral arrangements are pending the arrival of the daughters.

of War Robert P. Patterson in discussing possible enemy attacks, "that the first attack which is made directly—from the air or otherwise—will bring out in us the same qualities that were shown so splendidly by the English at the first bombing raids."

The prediction of the increase of 22,500,000 in soldiers and war workers was made by War Manpower Commissioner Paul V. McNutt, who hinted there would be some sort of a labor draft.

Junior High To Present Comedy

For the benefit of the school's activity fund, the Dramatic club of Pampa Junior High school will present a three-act play titled "Professor, How Could You," at 2:30 o'clock tomorrow afternoon, and again at 8:30 Monday night, in the Junior High school auditorium. T. Hightower is directing the cast:

Jackie Rains, Keats Perry; Wanda Jay, Vicki Randolph; Phyllis Ann Parker, Grandma Perry; John Robertson Lane, Grandpa Perry; Johnny Campbell, John Appleby; Dorothy June Johnson, Friscilla Morley; Joella Shelton, Tootsie Bean; Jackie Dunham, Butcher Boy Bean; Billy Sackett, Valery Whitman; Pat King, Bobbins, the butler.

The play is a farce of college romance and fun. Woman-hating Professor Perry has to find a wife in order to qualify for the position as dean of the college. The professor's family and friends all pitch in to help him find a wife. Vicki, the class spitfire, stumbles on the news and, to get even with the professor, cannot spell but is cute enough, as the ideal wife for the professor. Grandma does not say who her candidate is, but she captures the professor just the same in three acts of fun, foolishness and frivolity.

BUY VICTORY BONDS

BUY VICTORY BONDS

USO RALLIES

(Continued from Page 1)

Quotas were announced as follows:

Hopkins \$100, Laketon \$100, Farlington \$100, Webb \$100, McLean \$400, Almarred \$75, Grandview \$150, Kingsmill \$100, Pampa and LeFors \$3,725. Total, \$4,800.

The LeFors, Almarred, McLean chairmen will be in charge of the rallies to be held in those towns Monday night at the high school auditorium in each place. All the meetings will begin at 8 o'clock.

In Pampa a committee will be in charge of the program.

The purpose of the rallies will not be to sell parents of boys in the armed forces on the USO—they are already for it, and the reason they are is because their sons are. These parents know that the USO has taken the place of the tangle of service agencies that operated at camps in the last war.

Every soldier boy, every sailor, every marine, every flyer who has ever mentioned the USO, either home or to friends has had only good words for the organization that provides the nearest thing to a home that a boy in a uniform gets—entertainment, reading rooms, recreation halls, writing desks, stationery, doughnuts, parties and a thousand and one other things.

The USO has been called the greatest morale builder of the war—and what is morale? Morale is the thing that made the boys on Bataan and Corregidor fight to the death. It is the thing that made those 14 Texans volunteer to bomb Tokyo. The USO is everywhere there are soldiers, sailors, marines, flyers.

BUY VICTORY BONDS

FORD'S LINES

(Continued from Page 1)

E. Sorenson, vice-president, declared, "Our work on general war production will double the entire peacetime business of the Ford Motor company and our employment will also be about doubled."

The bombing plane, which will be produced on the design of the Consolidated Aircraft corp., is known technically as the B-24-E. It is a giant ship weighing 30 tons, powered by four Pratt & Whitney 1,250-horsepower engines with a cruising range of 3,000 miles at a speed of 300 miles an hour. It can carry four tons of bombs.

Sorenson already has been quoted as saying the Willow Run plant has been built on an estimated production rate of one bomber every hour. Workers in the new plant probably will go on to three eight-hour shifts when high-speed turn-out is attained.

The assembly of the first plane, Sorenson said today, has proved that airplanes can be built by the same mass production methods that Henry Ford introduced into the automobile industry with his model T car.

poster, seeking purchasers of war savings bonds.

Mike buys bonds, too, but he states simply that he buys what he can, and he won't "brag" about the amount. As Mike sees it, he is simply being an American—not just talking patriotism.

Mr. and Mrs. Allaway have three children, "all born in America," Mike proudly says.

They are Soltan, 11, and Kamell, 8, sons, who attend B. M. Baker school; and Janet, 7-months, a daughter. Soltan was born in Enid, Okla., but his brother and sister are both native Pampanians.

Mrs. Allaway, whose first name is Wafia, was one of the 26 persons who were in the naturalization class in Amarillo yesterday. Besides Mrs. Allaway, there were four others from Pampa who were in the class and who became American citizens:

Josephine Ryan (Sister Catherine of Bologna); Pierre Joseph Bossent, Belgium; Steve Poskos, Greece; Sam Sampson, Norway.

RED ARMY

(Continued From Page 1)

said to be dining an ever louder challenge to the Nazi grip on once-captured Soviet soil.

Pravda reported that guerrillas had captured one important city of several hundred inhabitants deep in White Russia, driving out Germans who had held the community for four months and beating off a strong German force which attempted to recapture positions there in a dawn-to-dusk battle.

The importance of the city—its name was undisclosed—was indicated by the fact that it is the center of 70 collective farms.

A Russian communique made no specific claim of further Red army gains in the drive to recapture the Kharkov industrial center, but declared that "during the night of May 20-21 our troops continued offensive battles in the Kharkov direction."

It said that "the Germans, disregarding enormous losses, have made counter-attacks attempting to hold on to the offensive of our troops," but added that "these attempts of the

enemy have been defeated."

(A London military commentator said that the northern wing of Timoshenko's army continued a slow advance despite the German counter-measures, but that the southern wing of the Russian attack seemed to have been checked, perhaps by the German thrust in the Barvenkova sector.

(Bucharest dispatches reaching Bern said, too, that the pace of the Red army's advance had been slowest by the German checked in the Barvenkova sector.

(These dispatches said the Russians had been forced to withdraw Tuesday from the environs of Chuguev, 20 miles southeast of Kharkov, where a bitter battle still was under way.)

Russian reports indicated that the Axis flanking thrust in the Barvenkova area south of Kharkov had been blocked.

"On the Kerch peninsula (where the German high command claims final victory), battles continued in the eastern section," a government communique declared.

On the Leningrad front Russian troops cut a road between two ene-

my centers of resistance and slew 600 Germans to repulse Nazi counter-attacks intended to restore the line, and Red Army artillery and mortar fire accounted for 300 more on northwestern sectors, the information bureau reported.

(Reichsmarshal Hermann Goering told German workers in Berlin last night that "this war is the hardest Germany has had to fight"; that Adolf Hitler suffered deeply for his troops during the winter campaign, "but he knew he must not yield."

("Behind us there was only a heap of ruins," Goering said. "Therefore we had to hold the front x x x.")

Forty-two more tanks were reported destroyed or damaged by Russian armmen in a day's operations (these adding to a toll which London advices yesterday said had already reached 600.)

As the USSO-German campaign rounded out its 11th month, Reichsmarshal Hermann Goering told German workers in Berlin that "this war is the hardest Germany has had to fight."

Goering said Hitler had suffered deeply for his troops during the bitter months of the Soviet winter "but he knew he must not yield"

Board Ordered To Enforce Ceiling Law

The Gray County Rationing board has been designated to see that all retail merchants abide by the price ceiling law which became effective last Monday but up to today no information on procedure had been received at the office here, Chairman J. B. Massa said.

Mr. Massa said he believed compliance with maximum price regulations to be general in the county, but renewed a warning that "any retailer who does not adequately and properly display his ceiling prices on cost-of-living articles is acting in direct violation of the order."

He indicated that the investigation section of the office of price administrator will make unannounced inspections of all retail establishments to ascertain whether the regulations are being observed.

But it was suggested public opinion because "behind us there was only a heap of ruins," therefore we had to hold the front."

tion would be an aid in enforcement.

"Consumers generally are familiar with the price provisions of the regulations, and retailers are going to recognize their customers' interest in maintaining the highest March price levels on all articles not specifically exempted by the order," an OPA release stated.

"We are sure no merchant wants to be charged by his own customers as a violator of the maximum price regulation, and it is obvious that the relationship between the two will simplify enforcement."

The OPA cannot notify everyone individually of all provisions of the order, but "feels that full opportunity has been given every retailer to gain complete knowledge so that compliance should be relatively simple," it was said.

Yankess' first baseman, is working in the big Willow Run bomber plant near Detroit. Tom Stidham, Marquette football coach, takes orders from one of his 1941 players these days. Joe Kinsey, a guard, has been named air raid warden for the Marquette athletic office building. And at Wayne university (Detroit) Dave Boxer won the 117-pound championship of the intramural boxing tournament.

Blackout Regulations

During a Sally league ball game at Jacksonville, Fla., recently the umpire mistook the flagpole in left field for the foul-line marker and gave a Columbia player credit for a home run on a hit everyone in the park figured was foul. When the customers finally subsided, there wasn't a pop bottle left in the stands. The next night Crowther Boyd, secretary of the Jacksonville club, had a red lantern run up the flagpole so there wouldn't be another mistake.

Today's Guest Star

Don Foneshney, Philadelphia Evening Bulletin: "Did the president stop to think that, with the women's auxiliary army corps in uniform, every day will be 'indies' day at the ball park?"

Athletic Programs Should Not Be Cut, Says Navy Director

By GAYLE TALBOT

WASHINGTON, May 21 (AP)—The last thing that colleges and universities should be doing at this time is curtail their athletic programs because of the war, says Lieut.-Commander John Hamilton, head of the navy's new aviation physical training program.

"It's exactly what we don't want them to do," said the big, dark man who once made three dropkicks to tie the Army and who coached the Navy football team with marked success in 1934-36. "For some of them it is just a convenient way out because they think they might lose money."

"I can't say too forcibly that it is absolutely essential to the armed stop to think that, with the women's auxiliary army corps in uniform, every day will be 'indies' day at the ball park?"

forces that competitive sports continue in the schools, despite financial losses; that kids be brought up in competitive athletics. The problem we face right now—our having to add five months to our training period in order to whip our boys into top physical shape—never would have arisen if there had been more hard competitive sports in the last 20 years.

The commander, himself, is a striking example of the benefit of athletics. At 36 he looks like he still might play 80 minutes of football, and the enforced occupancy of a desk chair while a war is going on is about to get him down.

"Flying is my business," he grumbled. "I've had 13 years of training and I've asked them to let me go as soon as the four pre-flight training schools are running smoothly, and I think they will."

Reed Sees Texas Farm Labor Shortage

AUSTIN, May 21 (AP)—An acute farm labor shortage is looming for Texas, in the opinion of State Labor Commissioner John D. Reed, who reported 19,253 workers left the state for northern beet fields during March and April as a result of solicitation by licensed agents.

The commissioner added that probably another 30,000 went to the

informed Mr. Weiss. "The response during the first few days of the drive is heartening," Mr. Weiss declared. "It shows that Texans are awake to the importance of providing those recreational facilities for the fighting men of America who are sacrificing on democracy's battle lines that we may continue the way of life we all want."

To a host of volunteer workers who have pushed the USO campaign past the half-way mark, Chairman Weiss expressed his appreciation.

"You are fighting the battle at home for the fighting men away from home," he said, "showing them we are determined to give them home-like comforts as well as the materials of war."

Joe Bowers, private in the U. S. army, is visiting in Pampa on a furlough. He joined as a selectee in March.

The infant daughter of Mr. and Mrs. C. L. Parks of LeFors was buried in LeFors cemetery this afternoon following services by the Rev. Henry Phillips. Arrangements were in charge of Duenkell-Carmichael Funeral home of Pampa. The child died in a local hospital yesterday afternoon. Survivors are the parents, a sister, Janie Ruth, and a brother, Clarence, Jr.

BUY VICTORY STAMPS

Californian Invents Mechanical Sentry

LOS ANGELES, May 21 (AP)—L. K. Gerkey, owner of a small engineering plant, said today he has invented a mechanical guardman which will relieve some of the soldiers guarding defense plants from front line war duty.

The mechanical guardman, technically an interceptor fence detector, has been tested for several months at Northrop Aircraft, Inc. Army engineers said they were "very much sold on this system."

They explained that it eliminates defects often found in such devices as high voltage barriers, photo electric cells, and microphones.

Gerkey's guardman instantly flashes a warning to a sectional sentry box and to a master board if someone attempts to trespass or to cut the barrier around a war plant.

It not only flashes the warning, but locates the spot of attempted breakthrough within 50 feet.

One of the big advantages of the system, say army engineers, is that the intruder never knows he has sounded an alarm—hence is likely to be captured quickly.

They say the same device could be used in barbed wire entanglements on the battlefield. An enemy patrol touching the entanglement would sound the alarms. Defenders could open fire on the spot indicated, repulsing the patrol without risking loss of life by sending out an investigating party.

"I wish we'd had that in France last time," broke in a colonel.

EMERGENCY

(Continued From Page 1)

natural cause.

"Witness the Crowell disaster and the one at Pryor, Okla.," he said.

Churches As Hospitals

Under the plan as set up by Mr. Biery and his committee, five centrally located churches are to serve as emergency hospitals. Another factor in selecting these five was that all have kitchens.

The churches are the First Methodist, First Christian, Presbyterian, Holy Souls Catholic, and First Baptist.

Each congregation is to form a committee with chairman assigned to such jobs as providing for feeding, nurses, and related work.

Also, each congregation is asked to supply cots, blankets, sheets, pillow cases. Method by which this is done is for members of the respective congregations to notify their church committee by use of the blank, which is reproduced below.

Other persons are to make use of the blank by sending it to the office of the local chapter of the American National Red Cross, located on the third floor of the city hall.

All articles are to be plainly marked so that they can easily and readily be returned to their proper owners after the emergency is over.

Besides the churches, Mr. Biery said it was planned to make use of the city's school system by having the school cafeterias as canteens, with all janitors and other personnel available at a moment's notice.

He said that the churches in the plan could provide for from 700 to 800 patients.

More Students Sought

Another feature of the plan will be increased emphasis on the number of women taking courses in nutrition, and first aid, taught by the Red Cross.

"The Red Cross can supply medicines," said Mr. Biery, "so there will be no cost on this account to the churches. But to gather up the medicine and other supplies from Red Cross headquarters, and from the army, takes time."

"It is to fill up the gap, to shorten the time between disaster and relief, that we are working on this plan."

First arrangements for the project were outlined at a meeting held Tuesday night in the city commission room at the city hall.

Attending were W. E. James, Mr. and Mrs. W. F. Yeager, Mrs. Bertha Anderson, Mrs. H. M. Cone, Mrs. A. L. Prigmore, Lyn Miller, Roseburn Thompson, W. J. Stark, Mrs. E. B. White, executive secretary of the local Red Cross chapter, Mr. Biery, chairman of the Red Cross disaster committee, and the Rev. W. J. Stack, pastor of Holy Souls Catholic church, and Doyle F. Osborne, chairman of the local Red Cross chapter.

The blank which Pampanas are asked to fill in and take either to their church committee or to the local office of the Red Cross:

Name _____
Address _____
Telephone Number _____

I have the following which I will loan to the emergency hospital in case of a local disaster, whether man-made or caused by nature. I shall see that my name is placed on the articles which I agree to loan.

—folding cot
—single bed and mattress
—pillows and cases
—sheets
—blankets
—miscellaneous

Mrs. Annie Reams Dies At Family Home

Mrs. Annie Reams, 50, wife of J. T. Reams, farmer in the M. K. community south of Canadian, died this morning at the family home of wife's parents. They have resided in the M. K. community for 13 years. Mrs. Reams was a member of the Baptist church.

Survivors are the husband, three daughters, Mrs. Hazel Lemmons, Canadian; Mrs. Bill Terry, Miami, Ariz.; and Mrs. Leslie Williams, Eunice. N. M., a son, Leonard Reams, at home, and four grandchildren.

The body lies at rest at Duenkell-Carmichael Funeral home here. Funeral arrangements are pending the arrival of the daughters.

Junior High To Present Comedy

(Continued From Page 1)

For the benefit of the school's activity fund, the Dramatic club of Pampa Junior High school will present a three-act play titled "Professors How Could You?" at 2:30 o'clock tomorrow afternoon, and again at 8:30 Monday night, in the Junior High school auditorium. C. T. Hightower is directing the cast:

Jackie Rains, Keats Perry; Wanda Jay, Vicki Randolph; Phyllis Ann Parker, Grandpa Perry; John Robert Lane, Grandpa Perry; Johnny Campbell, John Appleby; Dorothy June Johnson, Priscilla Morley; Joella Shelton, Tootsie Bean; Jackie Dunham, Butcher Boy Bean; Billy Sackett, Valery Whitman; Pat King, Bobbins, the butler.

The play is a farce of college romance and fun. Woman-hating Professor Perry has to find a wife in order to qualify for the position as dean of the college. The professor's family and friends all pitch in to help him find a wife. Vicki, the class spitfire, stumbles on the news, and to get even with the professor, enters Valerie (a wow with the men) as one of the candidates. In the meantime, Bogbins has picked Tootsie Bean (winner of cooking prizes) as a desirable wife. The professor's friend picks out his secretary, who cannot spell but is cute enough, as the ideal wife for the professor. Grandpa does not say who her candidate is, but she captures the professor just the same in three acts of fun, foolishness and frivolity.

USO RALLIES

(Continued from Page 1)

dustrial, R. G. Allen and Ben Lockhart, Laketon; Mr. and Mrs. Dave Turcotte, Farrington; Mrs. E. B. Getling, Webb; Charles Couslin, McLean; Mrs. Wilson Blakney, Alarred; Guy Andis, Grandview; C. C. Mullins, LeFors; Leo Franks, Bell and Kingsmill; Bill Ginn, Hopkins Nos. 1 and 2.

Quotas were announced as follows: Hopkins 50, Laketon \$100, Farrington \$100, Webb \$100, McLean \$400, Alarred \$75, Grandview \$150, Kingsmill \$100, Pampa and LeFors \$3,725. Total, \$4,800.

The LeFors, Alarred, McLean chairmen will be in charge of the rallies to be held in those towns Monday night at the high school auditorium in each place. All the meetings will begin at 8 o'clock.

In Pampa a committee will be in charge of the program.

The purpose of the rallies will not be to sell parents of boys in the armed forces on the USO—they are already for it, and the reason they are is because their sons are. These parents know that the USO has taken the place of the tangle of service agencies that operated at camps in the last war.

Every soldier boy, every sailor, every marine, every flier who has ever mentioned the USO in letters home or to friends has had only good words for the organization that provides the nearest thing to a home that a boy in a uniform gets—entertainment, reading rooms, recreation halls, writing desks, stationery, doughnuts, parties and a thousand and one other things.

The USO has been called the greatest morale builder of the war—and what is morale? Morale is the thing that made the boys on Bataan and Corregidor fight to the death, it is the thing that made those 14 Texans volunteer to bomb Tokyo. The USO is everywhere there are soldiers, sailors, marines, fliers.

FORD'S LINES

(Continued from Page 1)

E. Sorenson, vice-president, declared, "Our work on general production will double the entire peacetime business of the Ford Motor company and our employment will also be about doubled."

The bombing plane, which will be produced on the design of the Consolidated Aircraft corp., is known technically as the B-24-E. It is a giant ship weighing 30 tons, powered by four Pratt & Whitney 1,250-horsepower engines with a cruising range of 3,000 miles at a speed of 300 miles an hour. It can carry four tons of bombs.

Sorenson already has been quoted as saying the Willow Run plant has been built on an estimated production rate of one bomber every hour. Workers in the new plant probably will go on to three eight-hour shifts when high-speed turn-out is attained.

The assembly of the first plane, Sorenson said today, has proved that airplanes can be built by the same mass production methods that Henry Ford introduced into the automobile industry with his model T car.

RED ARMY

(Continued From Page 1)

said to be dining an ever louder challenge to the Nazi grip on once-captured Soviet soil.

Pravda reported that guerrillas had captured one important city of several hundred inhabitants deep in White Russia, driving out Germans who had held the community for four months and beating off a strong German force which attempted to recapture positions there in a dawn-to-dusk battle.

The importance of the city—its name was undisclosed—was indicated by the fact that it is the center of 70 collective farms.

A Russian communique made no specific claim of further Red army gains in the drive to recapture the Kharkov industrial center, but declared that "during the night of May 20-21 our troops continued offensive battles in the Kharkov direction."

It said that "the Germans, disregarding enormous losses, have made counter-attacks attempting to hold up the offensive of our troops," but added that "these attempts of the

enemy have been defeated . . ."

(A London military commentator said that the northern wing of the Timoshenko's army continued a slow advance despite the German counter-measures, but that the southern wing of the Russian attack seemed to have been checked, perhaps by the German thrust in the Barvenka sector.)

(Bucharest dispatches reaching Bern said, too, that the pace of the Red army's advance had been slowest by the German-Rumanian counter-offensives—but had not been stopped.)

(These dispatches said the Russians had been forced to withdraw Tuesday from the environs of Churkov, 20 miles southeast of Kharkov, where a bitter battle still was under way.)

Russian reports indicated that the Axis flanking thrust in the Barvenka area south of Kharkov had been blocked.

"On the Kerch peninsula (where the German high command claims final victory), battles continued in the eastern section," a government communique declared.

On the Leningrad front Russian troops cut a road between two ene-

my centers of resistance and slew 600 Germans to repulse Nazi counter-attacks intended to restore the line, and Red Army artillery and mortar fire accounted for 300 more on northwestern sectors, the information bureau reported.

(Reichsmarshal Hermann Goering told German workers in Berlin last night that "this war is the hardest Germany has had to fight"; that Adolf Hitler suffered deeply for his troops during the winter campaign, "but he knew he must not yield."

"Behind us there was only a heap of ruins," Goering said. "Therefore we had to hold the front x x x.")

Forty-two more tanks were reported destroyed or damaged by Russian armor in a day's operations (these adding to a toll which London advices yesterday said had already reached 600).

As the USSO-German campaign rounded out its 11th month, Reichsmarshal Hermann Goering told German workers in Berlin that "this war is the hardest Germany has had to fight."

Goering said Hitler had suffered deeply for his troops during the bitter months of the Soviet winter "but he knew he must not yield"

Board Ordered To Enforce Ceiling Law

(Continued from Page 1)

The Gray County Rationing board has been designated to see that all retail merchants abide by the price ceiling law which became effective last Monday but up to today no information on procedure had been received at the office here, Chairman J. B. Massa said.

Mr. Massa said he believed compliance with maximum price regulations to be general in the county, but renewed a warning that "any retailer who does not adequately and properly display his ceiling prices on out-of-living articles is acting in direct violation of the order."

He indicated that the investigation section of the office of price administrator will make unannounced inspections of all retail establishments to ascertain whether the regulations are being observed.

But it was suggested public opinion because "behind us there was only a heap of ruins . . . therefore we had to hold the front."

COMMENCEMENT EXERCISES for LeFors High school will be held this evening at 8:30 o'clock in the LeFors High school auditorium. The theme for the program, "God Bless America, Our Home," is to be given by members of the graduating class.

Forty-four seniors, the largest graduating class in the history of the school, will be granted diplomas. A.W. Shoffit is the honor graduate, with Regina Frances Lockard second. The averages for the entire four years in academic subjects served as a basis for the selection of these two students.

The LeFors senior class placed six students on the Texas Who's Who Honor society this year. They are two boys, Marvin Bowman and A. W. Shoffit, and four girls, Joyce Bowman, Billene Moseley, Norma Lee Lantz, and Regina Lockard.

The affairs and activities of the class have been handled by Marvin Bowman, president; A. W. Shoffit, vice-president; Norma Lee Lantz, secretary; and Mary Evelyn Johnson, treasurer. These students have been counseled and assisted by their sponsors, Mrs. D. A. Brown and Miss Ila Mae Hastings.

Sightseeing Bus Service Prohibited

By D. HAROLD OLIVER
 WASHINGTON, May 21 (AP)—The rubberneck bus is going to be put to more essential war use to save rubber. Effective June 1, the Office of Defense Transportation decreed last night, all sightseeing bus services will be prohibited and chartered buses will be reduced to such essential operators as the moving of troops, war workers, and school children. Joseph B. Eastman, ODT director, estimated this would save more than 100,000 pounds of crude rubber a year. Exempt from the charter bus order are those used for transporting members of the armed forces, persons participating in organized recreational activities at military posts, selectees traveling to or from induction or examining points; students, teachers, and school employees going to and from school; employees going to and from work, persons going to and from places of religious worship, civilians working under evacuation orders, and children under 18 attending summer camps. Only in case other bus or train transportation was not available would special permission be granted to use a chartered bus, Eastman said. His order coincided with a War Production Board announcement that a survey was being made of cosmetics and toiletries with a view to limiting shades of lipstick, rouge, and face powder. The aim: to save essential materials such as glycerine, alcohol, waxes, and colors. Meanwhile, well informed production officials predicted that shortages of certain consumer supplies would probably lead to the rationing of 15 major commodities within a year, including the six already rationed or about to be: sugar, gasoline, tires, typewriters, automobiles, and bicycles.

Quotas Already Raised in Ten Texas Counties

HOUSTON, May 21.—Texas is half-way down the road to its USO quota, State Chairman Harry C. Wiess announced today as he tallied up contributions from the first reports made on the war fund drive. With a goal of \$1,110,000 as its share of the nation's contribution to provide for the comfort of the men in service, Texas gave just under 50 per cent of that amount in the first week. The drive was scheduled to continue through July 4, but Chairman Wiess predicted the quota would be reached within three or four weeks and would pass the \$1,110,000 mark before July 4. Ten Texas counties were quick to make their quotas. First was Gillespie county, home of Admiral Chester Nimitz, commander-in-chief of the Pacific fleet, and Midland, Farmer, Pecos, Andrews, Nolan, Stephens, Sterling, Edwards and Live Oak were quick to follow. Most of these will go far above their original goals, their chairmen informed Mr. Wiess. "The response during the first few days of the drive is heartening," Mr. Wiess declared. "It shows that Texans are awake to the importance of providing those recreational facilities for the fighting men of America who are sacrificing on democracy's battle lines that we may continue the way of life we all want." To a host of volunteer workers who have pushed the USO campaign past the half-way mark, Chairman Wiess expressed his appreciation. "You are fighting the battle at home for the fighting men away from home," he said, "showing them we are determined to give them home-like comforts as well as the materials of war."

Reed Sees Texas Farm Labor Shortage

AUSTIN, May 21 (AP)—An acute farm labor shortage is looming for Texas, in the opinion of State Labor Commissioner John D. Reed, who reported 19,253 workers left the state for northern beet fields during March and April as a result of solicitation by licensed agents. The commissioner added that probably another 20,000 went to the beet harvests without solicitation. Reed said war industry operators desiring exemption from the state's nine-hour-a-day 54-hours-a-week law for women and other regulations possibly interfering with the all-out production effort should write the State Bureau of Labor statistics for permits. The U. S. Department of Agriculture reported meanwhile that there had been no statewide test of the adequacy of farm labor supply. Farmers were finding it necessary, however, to use more women, children, and relatively inexperienced help and were exercising ingenuity to adapt their programs to more efficient utilization of machinery, equipment, and available labor.

Oilers Win Easy 13 To 3 Victory From Clovis Club

CLOVIS, N. M., May 21—Joe Isaacs and Lloyd Summers put on their ring clothes last night to lead the Oilers to an easy 13 to 3 victory over the Clovis Pioneers, as hit a triple, double, and three on five trips to the plate. Summers bagged a home run and two singles.

Andy Mohrlock, big pitcher purred from Lamesa recently, hurled a hit ball for the Oilers and led his own cause with three hits on six times at the plate.

Although suffering from a bad cold, Bob Bailey was on first for the Oilers.

Just about everything happened on mound. Mohrlock hit three bats and when Seitz took the mound Clovis he hit two Pampa batters. Mohrlock added a balk and Bohnen struck a wild heave. Behind the plate, Summers was charged with

two passed balls and Quillin and Janicki with one each.

The Surratt-Cunningham-Bailey combination for the Oilers came up with two snappy double plays.

The Oilers and Pioneers will battle again tonight after which the Oilers will move to Albuquerque for a pair of games.

Last night's win was the fourth in a row for the Oilers who jumped to fifth place in the league standings, a half game behind Lamesa.

Spring Football To End Friday With Scrimmage

Spring training for the 1942 Harvester football squad will end with full length scrimmage against the C-Harvesters still in school tomorrow afternoon at 4 o'clock—weather permitting. The scrimmage will be held on the practice field east of Harvester park. There will be no admission.

The turf on the playing field at Harvester park has been plowed up and ready for re-seeding. The ground became so hard last fall that grass wouldn't grow and as a result injuries were more numerous than usual because of the hard playing surface. The rain of yesterday and today will be of great benefit in preparing the soil for planting, George Hancock said today.

Should the field be too wet for play tomorrow afternoon, the scrimmage will be held Monday afternoon

at the same hour. Should the deluge continue, there still will be Tuesday to hold the scrimmage but that will be the last day possible because teams in the state are allowed only 30 practice days. Tuesday will be the 30th day for the Harvesters who started workouts late, hoping for better weather.

Ten of the 11 boys who will take the field for the exes tomorrow, were first string players on last year's co-championship team. The other boy played two years ago.

Eleven reserves of last season's team will take the field tomorrow unless Coaches Buck Prejean and Mac Best decide to start a couple of newcomers to the team who have been looking exceptionally good in spring training.

The exes will have a big weight advantage, especially in the line, to go along with experience.

The Harvester starting lineup will be Arnold and Lard, ends; Berlin or Casey and Edison, tackles; Kerbow and Berry, guards; Snyder, center; Halter, quarter; Arthur or Stafford and Dunham, halves; Boyles, full.

Casey and Stafford are newcomers to football but they have been showing up well. Kerbow has been moved from center to guard and Berry from the backfield to guard.

Richard Bynum, big tackle prospect, is nursing a badly bruised rib and may not be able to play. Lard broke a tooth in a Tuesday workout but will be in the lineup. Missing will be Frank Shotwell, end, who is out with a broken collar bone.

The exes will probably line up with Cornett and Allen at ends; Chessher and Phillips at tackles; Burnett and Moyar at guards; Barge at center; Edmondson at quarter; Hollis and Meador at halves; Morris at full.

Cooper Brothers Snap Dodgers' Winning Streak

By JUDSON BAILEY
Associated Press Sports Writer

The Cooper kids from Atherton, Mass., are taking up this year where baseball's other brother acts, the Deans, the Waners, the Ferrells and the rest, left off.

The combination of Morton Cooper pitching and Walker Cooper catching has become a fearsome battery for the St. Louis Cardinals and yesterday the boys made a family affair of beating the Brooklyn Dodgers, 1-0, in a sizzling show at Ebbets field.

Mort pitched two-hit ball while Walker tripled and scored the only run to snap an eight-game Brooklyn winning streak and shut out the National league champions for the first time this season.

It also was the first defeat of the season for Whitlow Wyatt, the Dodger ace who had won two games previously without looking nearly as good as he did in losing this one. He gave up only four hits, but Walker Cooper's triple in the fifth, followed by Frank Crespi's fly to center, decided the game.

Morton Cooper, who made one of the three singles that Wyatt also allowed, faced just 30 Brooklyn batters, none of whom got past first.

This was the fifth time this year that the two Coopers had worked together. Their first effort brought an 8-0 shutout, but they next two times they teamed up the Cards were blanked, 1-0.

St. Louis came close to moving into second place by the victory over the Dodgers, but the Boston Braves managed to remain a half game in front by noosing out the Pittsburgh Pirates, 4-3, in ten innings.

The Cincinnati Reds crushed the Phils, 10-3, with Ray Starr pitching a six-hitter and Ray Lamanno sparking a 13-hit offensive with a grand-slam home run in the third.

Mel Ott hit his sixth home run with one on in the first inning to help the Giants get a 3-0 lead for

the first time this season.

3. Canada hopes to mobilize civilian manpower before the United States.

framed against the Chicago Cubs. Then the Bruins went to work. Claude Passeau hit a two-run homer in the sixth, Lou Novikoff singled two tallies across in the three-run seventh inning and Bill Nicholson homered in the ninth. Final: Cubs 6, Giants 3.

Just when Manager Jimmy Dykes had straightened his Chicago White Sox out, the world champion New York Yankees invaded Comiskey park and halted the Sox' seven-game winning streak, 4-1. Joe Gordon hit two home runs to chase Chicago humbly back to the American league cellar. Cleveland's game with the Boston Red Sox was postponed and thus the Yankees' first place lead was swelled to 13 percentage points although they are dead-locked in won-lost reckonings.

Air-tight relief pitching by Luman Harris raised the Philadelphia Athletics out of the basement with a 5-3 decision over the Detroit Tigers.

The Washington Senators shared Chicago's cellar spot by folding 10-1 at St. Louis in a night game.

SHREVEPORT, La., May 21 (AP)—"Lefty" Brillheart, pitcher for the Shreveport Sports, was in the hospital today, the victim of a magnificent bit of faking by his own battery mate, Del Ballinger.

San Antonio, defeated by the Sports, 3 to 2, last night attempted a double steal in the sixth inning with runners on first and third.

Ballinger bluffed a throw to second base, and then rifled the ball to Brillheart, who he hoped would return it in time to cut the runner off at the plate. The pitcher, turning to watch the play at second, was struck in the cheek by the ball, and had to be carried from the field.

No bones were broken.

Rayon is said to take dye better than silk, and white rayon is brighter than white silk.

Brillheart Hit In Cheek By Ball And Goes To Hospital

SHREVEPORT, La., May 21 (AP)—"Lefty" Brillheart, pitcher for the Shreveport Sports, was in the hospital today, the victim of a magnificent bit of faking by his own battery mate, Del Ballinger.

San Antonio, defeated by the Sports, 3 to 2, last night attempted a double steal in the sixth inning with runners on first and third.

Ballinger bluffed a throw to second base, and then rifled the ball to Brillheart, who he hoped would return it in time to cut the runner off at the plate. The pitcher, turning to watch the play at second, was struck in the cheek by the ball, and had to be carried from the field.

No bones were broken.

Rayon is said to take dye better than silk, and white rayon is brighter than white silk.

Beaumont Wins Game But Loses Pitcher Mueller

(By The Associated Press)

The Beaumont Exporters won a ball game and lost a pitcher last night.

Surging back after their loss of the previous evening the Shippers, cloaked Elmer Rummans and Al Brazile for 16 hits and quelled the Houston Buffs, 9 to 1.

Leslie Mueller, Beaumont twirler who leads the league in strike-outs, left for his home at Belleville, Ill., to enlist in the army. He may return, however, if found unacceptable for service with the armed forces. He has defective vision and a trick knee.

The last-place Dallas Rebels stiffened behind the steady pitching of Gordon Maltzberger and defeated the Tulsa Oilers, 4 to 1.

Maltzberger gave only four hits up to the ninth, when he yielded a couple more. All were singles. The Rebels got their seven hits off Glenn Gardner in the six innings he worked.

Merv Connors had a busy night; he racked up two hits, batted in the first Rebel run and handled 18 chances.

The Shreveport Sports took advantage of Peterson's wildness in the ninth and made it two in a row over the San Antonio Missions, 3 to 2. York opened the last inning with

Ex-Grid Aces Also Star In Tokyo Raid

By HAROLD V. RATLIFF
Associated Press Sports Editor

Boys who carried the ball on Southwestern gridirons are carrying the bombs for hammer blows at the Axis.

Names that made sport page headlines a few years ago are now ablaze across the front pages with feats of daring in foreign battle areas.

Of the fourteen Texans who participated in that memorable air raid on Tokyo and other Japanese cities, ten of them were former athletes in high schools and colleges of this section.

Then there was Henry C. (Pelly) Dittman, football player and track man at Texas A. and M., who was among the first Americans to receive a distinguished service award for action as a flier in the Philippines.

Neil Martin, football, basketball, track and tennis star at the University of Arkansas, was credited with shooting down six Japanese planes in Burma.

Going further back—away back to 1908—George Fleming Moore was a football star at A. and M. Recently he was decorated for valor on Corregidor.

Of the moment are the heroes of the daring raid on Tokyo and the roll of honor lists these former athletes of Southwestern schools:

Lieut. Robert M. (Bob) Gray, a star tackle on the Killeen High school team and a letterman two years at John Tarleton college.

Lieut. Rodnes R. (Ross) Wilder of Taylor, who was too light for high school football but grew to 200 pounds at Southwestern university and became a bright star of the Pirate eleven.

Capt. Dave M. Jones of Winters, who never was large enough to play football but ate up the yards as a distance runner at the University of Arizona at Tucson.

Lieut. Dean E. Hallmark of Dallas, who was an all-state tackle on the Greenville High football teams of the early thirties and who also played at Paris junior college.

Lieut. Nolan A. Herndon of Sulphur Springs, who was a star footballer with Diamond Hill High of Fort Worth and also was a baseball and basketball player.

Lieut. E. E. McElroy of Longview, who played a hefty game for Ennis High and then carried his gridiron talents to Trinity university.

Lieut. James M. Parker, who was the greatest forward passer Livingston High school ever had.

Lieut. Robert L. Hite, who was captain of the football team and a track star at Earth, Lamb county.

Lieut. Thadd Blanton of Gainesville, who was a tennis star at Myra and Gainesville High schools and also was an accomplished golfer.

Lieut. Lucian Youngblood, who starred at Waco High and St. Mary's university of San Antonio.

Others will come along. They just haven't been in the service long enough to reach the scene of most furious action. As Leo Buckley, coach of Killeen High school, said of Bob Gray:

"Whatever the job was, no matter how tough, if they gave it to Bob Gray he'd get it done."

BY VICTORY BONDS

Rayon is said to take dye better than silk, and white rayon is brighter than white silk.

single and moved to second on Sally Parker's sacrifice. Ballinger walked and Ralph Hamner fanned. Padgett bent out a roller to third.

Peterson tossed four straight balls to Jo Jo Vetter, forcing York home with the winning marker.

Lefty Brillheart, Sport pitcher, was taken to a hospital after being hit in the face by a ball, but an X-ray showed there were no broken bones.

The Oklahoma City-Fort Worth game was postponed because of weather.

'Smear' Probe Frowned Upon By Barkley

WASHINGTON, May 21. (AP)—Demands for a general investigation of charges that attempts were being made to "smear" some senators who oppose intervention in the war prior to Pearl Harbor met with opposition today from Democratic Leader Barkley (Ky.).

In an interview, Barkley said he did not favor launching any inquiry of this nature—as proposed by Senators Nye (R-N. D.), Wheeler (D-Mont.) and Clark (D-Mo.). The demands were made after Barkley told the senate yesterday that a justice department investigation had exonerated Senator Walsh (D-Mass.) of charges that Walsh could be accused of "conspiring with enemy aliens" in a Brooklyn house of ill-repute, charges which Barkley said were published in the New York Post.

Nye told reporters that he and others intended to press an investigation of what he described as "a definite campaign to smear certain members of the senate" which he said had been "going on for months."

Walsh, a member of what had been called the non-intervention bloc, along with Wheeler, Clark, Nye and others, did not comment. Ending two weeks of cloak-room discussions, Barkley announced to a crowded senate that the alleged proprietor of the Brooklyn house, Gustave E. Buckman, had signed a statement that Walsh was not the man who had visited his place. Barkley said Beckman and others had identified pictures of another man as being the one in question.

There were reports, Barkley said, that soldiers and sailors had been "plied with liquor" in the house to obtain information on the movement of ships.

The New York Post published yesterday a further affidavit from Beckman saying that on May 15 and 16 he was questioned by the FBI and that the FBI "wanted me to identify someone else as Mr. Walsh."

The affidavit continued in part: "They showed me a picture of a man called 'Doc.' They wanted me to agree that this 'Doc' was the man and let it go at that. x x x. "The FBI asked me to sign the statement. Even though I knew it was untrue, I signed it. There was nothing else I could do. x x x. "Attorney General Biddle told a press conference that a principal witness in the case was questioned by the FBI on May 15, after which he made a statement, but added: "There was not the slightest duress of any kind."

The newspaper said in a statement issued through its editor, Ted O. Thackeray, and endorsed by its publisher, Dorothy S. Backer, that it would "continue to demand a full senate investigation" of the matter.

A GENERAL GAVE Private James C. Mason, above, his diploma when Private Mason was honor student in a class of 150. James is the son of Mr. and Mrs. J. C. Mason of Canadian. He was inducted into the army at Fort Bliss on Feb. 25 of this year, is now a member of the medical replacement training center at Camp Barkley at Abilene. Private Mason grew up in Canadian, is a graduate of the high school there; was employed at the Best Way store, later going to Amarillo, where he had his own business in San Jacinto. He has a sister, Mrs. Lewis Merry, who resides in Canadian, and a brother, George, defense worker in California. George served three years in the U. S. Navy,

NAVY LIFE AGREES with Don Richard Thurlow, above, son of Mrs. Hazel Thurlow of Skellytown. He's gained 20 pounds since enlisting on Feb. 3 of this year. Don will be eligible for advanced radio training when he graduates in 16 weeks from the navy school at the University of Wisconsin at Madison. He's making above-average grades. Don went to school in Skellytown and White Deer and was a basketball star. He's 6 feet 4 1/2 inches tall. His picture shows that he represents the highest type of navy fighting men.

receiving his honorable discharge several years ago.

Naval And Marine Fliers To Be Conditioned On Football

WASHINGTON, May 21 (AP)—Because football is, in the words of Lieut.-Cmdr. Tom Hamilton, the "closest thing to war," the sport will receive a great deal of emphasis in the training of naval and marine fliers at the four revolutionary pre-flight schools set up by the former Annapolis gridiron hero.

"Air fighting nowadays requires a high degree of teamwork and a spirit of aggression—much more so than in the other war," pointed out Hamilton, himself a naval pilot of 13 years' experience. "Football in my opinion is the nearly perfect means of giving a cadet those qualities while at the same time making a real man out of him physically."

Practically all of the 1,800 boys at each school will play some football, though not at the neglect of their swimming, boxing, wrestling, military track and other required training. Each squadron will have its regular schedule of games against other squadrons.

Finally, each of the four schools will have a picked "varsity" team to play against the colleges and universities in its section. The schedule of these games is not quite complete, but enough so it can be revealed that the boys are going to play "big league" football and lots of it. Starting Sept. 19, each cadet team will play 13 games against major opposition, most of them away from home.

"Frankly," Hamilton said, "we have planned these games mainly as window-dressing, or as recruiting trips. But let no one think there is anything frivolous about them. It is pure training for aviators."

Jim Crowley will be the head football coach at the "eastern" school, the University of North Carolina at Chapel Hill. N. C., with Harvey Harman, from Rutgers, head of the entire sports program there. Bernie Bierman, coach of great Minnesota teams, will be both football coach and athletic director at the University of Iowa school. Tex Oliver from

the University of Oregon is head football coach at the St. Mary's (Calif.) branch, and Sam Barry, of Southern California, the athletic director. Officials of the "southern" school, the University of Georgia, at Athens, Ga., have not been announced.

It is doubtful that the cadet teams will be anything special, for the personnel of each pre-flight school will change completely every three months.

In all, two hours and 25 minutes of each six-day week will be devoted to the physical aspect of the cadets' training. Every candidate will have one week of what Commander Hamilton calls "labor," which means building roads and generally bending his back over a shovel. In addition to all this, of course, the cadet will receive the customary academic and military training, including plenty of infantry drill.

"Yes, it's a hard course—as hard and as thorough as we know how to make it," says Hamilton. "But we are at war and it is necessary without a doubt many a boy will not make it through the first three months. That is so much the better—to find out as quickly as possible whether a boy is air-fighter material."

"The ones who do come out of it, though, will be the most aggressive, fearless, resourceful and skillful air pilots in the world."

Father Killed And Son Joins Navy
PROVIDENCE, R. I., May 21 (AP)—Charles J. Fay of Newport is only 17 but he wanted to join the navy because his father was a chief torpedoman in Australia. So special papers waiving the age limit were forwarded to the father for signature.

No answer came; instead, a brief telegram saying the elder Fay had been killed in action.

So young Charles' mother signed the papers. With his experience as a store clerk, the youth could have asked for a storekeeper's rating. But he didn't. "I want to be the same as my father, a torpedoman," he said, "as he was accepted into the navy."

Sports Roundup

By HUGH FULLERTON, JR.
Wide World Sports Columnist
NEW YORK, May 21—Although Navy Bob Feller is at a station without a ball team, it doesn't look as if his arm will get rusty. He is scheduled to pitch for a navy team, composed mainly of college players from Quonset Point, R. I., against Hugh Mulcahy's Fort Devens army outfit Saturday in a preliminary to the Red Sox-Athletics relief benefit game. . . . Then Bob will go to Chicago to help out the service all-star outfit Dizzy Dean is assembling and contribute his share of the receipts to the navy relief society.

Names Make News
Two celebrated baseball names are on the roster of the Rome (N. Y.) Canadian-American league club. Hal Chase is an outfielder and Dale Mathewson is a pitcher. Neither claims relationship to their famous namesakes. . . . Wally Pipp, Lou Gehrig's predecessor as the

Yankees' first baseman, is working in the big Willow Run bomber plant near Detroit. . . . Tom Stidham, Marquette football coach, takes orders from one of his 1941 players these days. Joe Kinsey, a guard, has been named air raid warden for the Marquette athletic office building. . . . And at Wayne university (Detroit) Dave Boxer won the 117-pound championship of the intramural boxing tournament.

Blackout Regulations
During a Sally league ball game at Jacksonville, Fla., recently the umpire mistook the flagpole in left field for the foul-line marker and gave a Columbia player credit for a home run on a hit everyone in the park figured was foul. . . . When the customers finally subsided, there wasn't a pop bottle left in the stands. . . . The next night Crowther Boyd, secretary of the Jacksonville club, had a red lantern run up the flagpole so there wouldn't be another mistake.

Athletic Programs Should Not Be Cut, Says Navy Director

By GAYLE TALBOT
WASHINGTON, May 21 (AP)—The last thing that colleges and universities should be doing at this time is curtailing their athletic programs because of the war, says Lieut.-Commander John Hamilton, head of the navy's new aviation physical training program.

"It's exactly what we don't want them to do," said the big, dark man who once made three dropkicks to tie the Army and who coached the Navy football team with marked success in 1934-36. "For some of them it is just a convenient way out because they think they might lose money."

"I can't say too forcibly that it is absolutely essential to the armed stop to think that, with the women's auxiliary army corps in uniform, every day will be 'trick'-day at the ball park?"

forces that competitive sports continue in the schools, despite financial losses; that kids be brought up in competitive athletics. The problem we face right now—our having to add five months to our training period in order to whip our boys into top physical shape—never would have arisen if there had been more hard competitive sports in the last 20 years."

The commander, himself, is a striking example of the benefit of athletics. At 36 he looks like he still might play 60 minutes of football, and the enforced occupancy of a desk chair while a war is going on is about to get him down.

"Flying is my business," he grumbled. "I've had 13 years of training and I've asked them to let me go as soon as the four pre-flight training schools are running smoothly, and I think they will."

Correct Softball Standings Announced

The Sam Houston school girls' softball team won that division of the ward school league with five wins against one loss instead of four wins and two losses as announced yesterday.

The league statistician turned in the wrong standing on that division of the league.

The Woodrow Wilson boys won from Sam Houston in a playoff game, having five wins against two losses.

Pennsylvania Holds Primary Elections

PHILADELPHIA, May 21 (AP)—Both Republican and Democratic state organizations nominated their candidates for governor while two veteran Democratic congressmen lost their chance to stand for re-election, unofficial returns of Pennsylvania's primary showed today.

Major General Edward Martin, the few-Grandy organization candidate, handed U. S. Senator James J. Davis, secretary of labor under three presidents, the first defeat of his long public career, to capture the Republican gubernatorial nomination.

His fall opponent will be F. Clair Ross, state auditor general backed by National Committeeman David L. Lawrence and the Democratic state committee, who won out over U. S. Senator Joseph Guffey's candidate, Judge Ralph H. Smith of Pittsburgh, and Luther Harr, bituminous coal consumers' counsel.

Rep. Charles I. Faddis, outspoken chairman of the house sub-committee on military affairs, was defeated for Democratic renomination by Dr. Grant Furlong, who had strong CIO support, in a new Washington-Allegheny counties district. Labor leaders had contended that Faddis gave support to proposed curbs on union labor.

SIDE GLANCES

By Galbreith

"Well, other men manage to tell their wives what goes on at the office! If you weren't the life of all the office parties, maybe you'd have more to say!"

One Of Ten Seamen Reaches Georgetown

GEORGETOWN, British Guiana, May 21 (AP)—A maddening 46-day voyage on a raft, during which one companion died and the other fell

into the sea and drowned was described today by Michael Wajda, 28-year-old American seaman brought here by a rescue ship.

Wajda said his ship was torpedoed and shelled at night in the Atlantic. Wounded on the head and in one ankle, he tumbled overboard.

He said he remembered nothing more until he was revived on the raft by Mahlon R. Benton, 35, and Lindgren Bancroft, 28, second and third assistant engineers.

"For 10 days I was in a daze, but they looked after me," said Wajda, his eyes brimming with tears each time he mentioned the names of the men who later died.

BGK Has First Program For New Members Of Club

Conducting the first program meeting honoring new members, B. G. K. club met in the home of Mrs. H. E. McCarty Tuesday night with Mrs. Charles Lamka, Miss Mary Gaylord Booth and Miss Jane Kerbow as hostesses.

Miss Kerbow presented those taking part on the program, which included the reading of the constitution and by-laws by Mrs. Lamka; two piano selections by Miss Martha Pierson, and a quiz, "What is Your Emergency Quotient?" by Miss Booth. Miss Gloria Posey was awarded victory stamps for making the highest score.

Two new members will be formally presented at a dance next Saturday night at 9:30 o'clock in the Country Club.

Refreshments were served to Miss Margaret Tomberlin, Miss Marguerite Jones, Mrs. Charles Cook, Mrs. Charles Ashby, and Mrs. George Tiffany, incoming members; Misses Elizabeth Mullan, Catherine Pearce, Claudine Jeffries, Gloria Posey, Mary Price, Lucille Bell, Mary Gaylord Booth, Jane Kerbow, and Misses George Follard, Bill Gray, Freda Barrett, Tom Rose, Jr., Allen Evans, Charles Lamka, and H. E. McCarty.

Mrs. Smith Hostess At Westside Home Demonstration Club

Westside Home Demonstration club met recently in the home of Mrs. O. G. Smith with Mrs. Minor Langford in charge of the program on which Mrs. A. L. Gillis, Mrs. Smith, and Mrs. E. N. Franklin assisted.

Mrs. Gillis discussed "Buying Material." "The public must buy in regard to material instead of price. In buying prints, we must learn to buy the best available and buy the 80-thread piece goods," she continued. "Also in regard to prints, be sure to buy standard colors which will stand laundering. These emergency has affected dyes so that we

Additional Society On Page 12

must be careful to pick colors which will give service. Mrs. Gillis spoke on buying of rayons and woolsens, stating that everyone must buy the better grades because time is too valuable to be lost in sewing materials which will not give a reasonable amount of service.

Mrs. Smith discussed "Canning," and Mrs. Franklin spoke on "Price Control."

Refreshments were served to Misses Kit Aubry, A. L. Gillis, Minor Langford, Glen Andrews, Russell Cartwright, E. N. Franklin, and O. G. Smith.

Tommy Moorehead Feted By Theater Employees At Party

Employees of the LaNora, Rex and State theaters entertained with a farewell party on the mezzanine of the LaNora theater for Tommy Moorehead, who is being transferred to Sunray as manager of the theater there.

Bingo was played and prizes were won by Lloydell Moore, O. E. Stephens, Troy Wallace, Tommy Montgomery, Jack Moorehead, and Skeet Jones. Carl Benefiel presented a farewell book from the employees to Mr. Moorehead.

Sandwiches and cold drinks were served to Mr. and Mrs. T. H. Moorehead and son, Jack, Mr. and Mrs. C. F. Benefiel and son, Charles, Mr. and Mrs. O. E. Stephens and daughter, Billie, Mr. and Mrs. John Monroe and son, Dennis, Mr. and Mrs. Rufus Higdon and son, LaMar; James Ellison, Troy Wallace, J. E. Jones, Gilbert Moore, Sunny Danner, Maggie Hollis, Lloydell Moore, Doris Jean Baines, Edith Bell, Pauline Williams, Doris Smith, Tommy Montgomery, Elmer D. Young, Bill Bell, Harry Abbott, Joe Cox, Tommy Howell and Melvin Spencer.

ALL DAY DRESS

Long, straight lines running from shoulder to hem of this dignified frock give it a smooth silhouette which is flattering for every wearer. The detailing of the side pleatings and the soft gathers at the waist add style interest, too, to a model which is ideally suited to the season's smartest cotton materials—printed pique, linen, lawn or rayon prints. It is easy to decorate the neckline, too, with clips, a flower, or a pretty necklace!

Pattern No. 8141 is in sizes 36 to 52. Size 38 requires 4 1/2 yards 39-inch material.

For these attractive patterns send 15c plus 1c postage for each in coin, your name, address, pattern numbers, and sizes wanted to The Pampa News Today's Pattern Service, 211 W. Walker Drive, Chicago, Ill.

Send for our Fashion Book if you want the best of home references to the latest and best patterns offered in this service. Styles for all ages. All sizes from 1 to 52. Pattern, 15c; Pattern Book, 15c; One Pattern and Pattern Book, ordered together, 25c. Enclose 1 cent postage for each pattern.

Annual Breakfast Given For Council Members, Guests

Women's Council of First Christian church met Wednesday morning for the annual May breakfast with 73 members and seven guests, Mrs. E. C. Kirkpatrick, Mrs. Frank Williams, Mrs. John K. Sweet, Mrs. F. E. French, Mrs. Houston Norman, C. H. Mundy, Rev. B. A. Norris, present.

The tables were decorated with baskets of spring flowers and miniature nosegays marking each place.

Rev. Norris gave the prayer of thanks, after which a delicious two-course breakfast was served with Mrs. C. F. Bastion in charge.

A brief business session was presided over by Mrs. Charles Maderia, during which officers for the New Year were elected as follows: President, Mrs. C. E. Cary; first vice-president and program chairman, Mrs. Hal Suttie; second vice-president and world call chairman,

New Officers Of Parent Education Club Installed

Parent Education club had its final meeting of the year Tuesday afternoon in the home of Mrs. J. W. C. Tooley when Mrs. Fred Roberts, guest speaker, installed the officers for 1942-1943.

New officers are Mrs. Frank D. Smith, president; Mrs. Fred Thompson, vice-president; Mrs. L. N. Atchison, secretary; Mrs. R. G. Herrington, treasurer; and Mrs. Tooley, parliamentarian.

Mrs. W. A. Rankin, outgoing president, presided over the business session in which the club voted to discontinue the nursery as a club project.

Mrs. Joe Key was elected to membership, and yearly reports were given by the officers.

In the president's report, Mrs. Rankin pointed out that the club was federated this year by El Progresso and Twentieth Century clubs; the club was chartered with 20 members; the members have

helped with the Boy Scout drive, cancer control drive, and with Red Cross work, and have bought War Bonds and Stamps. The club brought Dr. Garry C. Myers, child expert and psychologist, to Pampa. A gift of appreciation was given to Mrs. Rankin for her work as president.

Mrs. Smith appointed the following committees: Program, Mrs. Fred Thompson, chairman, Mrs. L. N. Atchison, Mrs. Fred Radcliff, and Mrs. Joe Gordon; yearbook, Mrs. Jerry Oston and Mrs. R. K. Edenborough.

Roll call was answered by each member telling the topic she enjoyed most during the year.

Refreshments were served to Misses R. K. Edenborough, R. H. Nestel, Carlton Nance, M. E. Lamb, E. C. Kilpatrick, Fred Thompson, Joe Gordon, Jerry Boston, Fred Radcliff, W. A. Rankin, Hugh Anderson, J. W. C. Tooley, Fred Roberts, Perry Gault, L. N. Atchison, and Frank D. Smith.

Three tablespoons of horseradish added to a cup white sauce makes a fine covering for 2 cups diced cooked celery or green beans or peas.

Woman's Club Has Final Meeting Of Year At Canadian

Special To The NEWS
CANADIAN, May 21—The closing session for the club year was held by members of Woman's Club Tuesday afternoon in the parlors of the W. C. T. U. building, with the president, Miss Georgia Eagle, hostess.

Mrs. W. L. Helton discussed "Women and Their Place in World Affairs;" Mrs. J. M. Carpenter played a piano solo, "Impromptu," (Lily Strickland); Mesdames R. N. Matthews, R. M. Hobdy, and H. S. Wilbur entertained with spirituals; Mrs. Sam Isaacs gave a report of the Triennial convention of the General Federation of Women's clubs recently held in Fort Worth.

The president announced committees for the next club year and introduced the new treasurer, Mrs. Paul Bryant, this being the day

New under-arm Cream Deodorant Safely Stops Perspiration

1. Does not rot dresses or men's shirts. Does not irritate skin.
2. No waiting to dry. Can be used right after shaving.
3. Instantly stops perspiration for 1 to 3 days. Removes odor from perspiration.
4. A pure, white, greaseless, stainless vanishing cream.
5. Arrid has been awarded the Approval Seal of the American Institute of Laundering for being harmless to fabrics.

Arrid is the LARGEST SELLING DEODORANT. Try a jar today!

PLEDGE OF ALLEGIANCE—"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

Pampa And The USO

As everybody knows, the United Service organizations seek to give the fighting men of America a substitute, insofar as is possible, for the home and the community life they have given up in the name of country and duty.

Funds for this purpose come from the voluntary contributions of the folks at home. A nation-wide campaign is underway for such contributions, and that includes Pampa and Gray county.

Contributors fulfill more than a duty. They enjoy a privilege. They give not merely to provide cigarettes and entertainment and social meeting places for our armed forces. They also establish a bond of understanding and comradeship between the military front and the home front, and help to make clear that all America is united as never before in a fight that is "not for things but for ideals."

John D. Rockefeller emphasized this in opening the U. S. O. campaign at Chicago, saying:

"Perhaps the most important reason for supporting the U. S. O. is because it is based upon spiritual values. This war is fundamentally a death struggle between the material and the spiritual forces in the world. Materialism has run rampant. International treaties have been broken. The given word has meant nothing. The end is held to justify the means. The lust for power has exalted might and scoffed at right."

Our soldiers, sailors and marines know what they are fighting for. The U. S. O. is a means of showing them that we at home know too. In contributing to Pampa's share of the \$38,000,000 national U. S. O. fund, we are contributing to the very heart of the fight for liberty and democracy.

BUY VICTORY BONDS

Some Hard Facts

There isn't going to be much civilian flying from now on. Such transportation will be allowed only for real emergencies or public errands. The commercial air fleet is cut one-half and will be reduced more later on. Air mail, too, will probably be curtailed. Commercial flying yields to military flying.

This throws a new burden on the railroads, which are already overworked. It is expected that passenger and freight priorities will soon hit them.

The buses still run, and will doubtless continue, but there may be fewer bus lines and thinner schedules. Automobile traffic, as everybody knows, is being drastically reduced by lack of gasoline in some areas and insistence on rubber-saving everywhere. Bicycles still flourish, but the boys and girls need not be surprised if they are asked to use them only for necessary transportation, to school and on errands. Vacation touring will be very slim indeed.

Evidently it is going to be a fine summer to stay at home and take care of the house and yard, and do a little honest gardening, and save money and buy war bonds and otherwise sustain the fighting services.

BUY VICTORY STAMPS

Victory

Emperor Hirohito, Nipponese Son of Heaven, has commended his naval commander for the crushing victory over American-Australian forces in the Coral Sea.

The maximum Japanese claim appears to be eight United Nations ships sunk or damaged and 98 planes shot down. On the other hand, we claim fifty and officially that we sank 11 warships and damaged six more. In the Coral Sea engagement alone, plus several later. Our claims hitherto have proven conservative. A few such Japanese victories will indeed prove crushing—for Hirohito and the Axis cause in the Far East.

Today's War Analysis

(This daily feature, conducted by DeWitt MacKenzie, Wide World war analyst, is being written in his absence for a fortnight by Fred Vanderschmidt.)

Hitler's decision to let his chief henchman, Heinrich Himmler, apply the full fury of Gestapo "pacification" to the Netherlands is evidence of his fears lest this heartstone of Western Europe become one of the main routes of Allied invasion.

Since Monday Himmler is reported to have been in the Netherlands, organizing his horrors, and cloaking with Gestapo authority even the lousiest Dutch Nazis who betrayed their country two years ago.

There are excellent tactical reasons for an Allied bridgehead to the Netherlands, when the time is ripe for a western land front, and a situation also has arisen there which might conceivably give the Allied invaders a greater degree of skilled and organized assistance from within than will be available in other countries.

The Germans themselves admit that the cause primarily responsible for the steady growth of opposi-

THE EFFECTS OF PROHIBITION ON THE PROHIBITIONISTS

It is strange that so few people see what characteristics develop in those people who would establish prohibition. When a man gets to the point that he wants to use force to compel his neighbor to be good to himself, there seems to be no end to what he wants to force others to do. This belief usually is the forerunner of the belief that the prohibiter also has the right, by a bare majority, to force A to feed and care for B.

These prohibiter, in reality, are contending that God was wrong when he gave Adam and Eve the choice to enter the Garden of Eden and to eat the forbidden fruit or to refrain from doing so. The prohibiter would make those they would prohibit obey them instead of having their own right to choose.

They usually contend that drinking is harmful. They believe this is the whole of the question. They seem never to realize that those who drink have a different opinion or belief.

The real question then is not whether drinking is harmful but whether the prohibiter is willing to respect the opinion of others; or whether they are so sure the beliefs of others are wrong, that they are willing to use force to prevent others from being guided by their own beliefs.

Become Meddlers and Loss Influence

Prohibiter have lost the germane idea of Christianity of respecting the personality of every human soul. The prohibiter, entirely, too often become meddlers, bosses, reformers by coercion rather than by persuasion. They become their brother's keeper rather than their brother's helper. The prohibiter usually fail to see that they lose their influence, their ability to persuade. When they go to a man and try to persuade him to temperate, this man thinks to himself that they are trying to persuade me only because they lack the power to use force on me to make me stop drinking. So the prohibiter have very little influence on the very people they would help. They set up high barriers between themselves and those who need assistance. Their influence too often is negative instead of positive, as it should be if they attempted to teach by example and by persuasion rather than by coercion.

Again it seems absurd that prohibiter who claim to be Christians should be fearful of the drunk man doing them physical harm. They seem to have forgotten the admonition of the Good Book that "If God be for us who can be against us", or "Fear not them that kill the body, but are not able to kill the soul." They evidently do not believe the Christian and Platonic doctrine that it is worse to inflict wrong than to suffer it. At least they do not practice this doctrine.

It is time that prohibitionists come to analyze themselves and see whether they themselves are in harmony with God's law. They should pull the beam out of their own acts, rather than attempt to pull the meat out of their neighbor's eye.

NAME ONE CHRISTIAN FEDERAL LAW, PLEASE

I can think of no single federal law passed in the last 30 years that was truly a Christian law; that is, if the essence of Christianity means the sanctity of the human personality. Virtually every law passed in the last 30 years has been a discriminatory law; has not respected the inherent rights of some people. It is little wonder that we have had the worst and longest depression in our history; that we have a greater debt than we ever had in our history; that we have had more unemployment; that we have had the worst two wars in our history, when practically all of our laws have been discriminatory and unChristian.

Probably the last law that was more nearly Christian than any other was passed 52 years ago; the Sherman Anti-Trust Law. This law attempted to respect the inherent rights of all people. It attempted to prevent any group of people from combining to restrain others from having equal rights to help establish the value of things.

But this law was in reality repealed by the Clayton Amendment in 1913 which discriminated against certain groups. The law, thus, becomes an unChristian law.

We have not passed a tax law in the last 30 years that has not been a dis-respector of persons—discriminatory. And any law that is not a respector of persons, that makes classes, is undemocratic and unChristian.

It is a sad predicament, when a nation becomes so confused that all their laws are un-Christian. It is no wonder we are in war.

tion to the occupying forces is the officer personnel of a Dutch army which once totaled 400,000. Among the 96 Dutchmen recently shot by German firing squads were an unestimated number of Netherlands officers accused of violating their paroles; later the Germans said that "all 2,000" officers and cadets still out on parole had been arrested.

Obviously, however, the Germans have not caught all the officers who had so little chance to fight in May of 1940, or Hitler would not have detached Himmler from his bloody work in Germany and elsewhere.

There are ample indications these officers are in frequent contact with their own exiled government and their British Allies across the narrow lower reaches of the North sea, and that they are carefully preparing to assist the first Allied forces to set foot on the moist, lush soil of Holland.

To anyone who knows the Dutch there is no doubt that these canny and indomitable men will defeat the henchmen of Himmler, just as they defeated with their contempt, the first clumsy efforts of the Nazi propagandists to lure them into a phony "Teutonic brotherhood."

The swagging Dutch Nazi storm troopers, now responsible to Himmler, will not swagger long. Their lot is the worst that can befall a traitor. Their countrymen detest them—up to and including their so-called leader, Anton Mussert.

Mussert's followers are weaslings and ne'er-do-wells, who played storm troopers behind locked doors and drawn blinds prior to May 10,

X WORRIES

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, May 21—Movie aspirants speak longingly of crashing Hollywood as if a role or two represented the final step toward security and a career. But they can take the word of a little blonde trick named Phyllis Ruth that staying in pictures is a lot harder than starting in them.

When she won a comedy role in "Caught in the Draft," and then in "Louisiana Purchase," Miss Ruth had a private dressing room, a standing ovation and other flattering attentions. In the midst of her work on the latter picture, she was called to the front office of Paramount, where executives intimated that her work was so good that they'd like to have her around all the time. She has offered a contract. For the first time in three years of persistent effort—years of sitting in casting offices and playing bit roles and weathering disappointments—Miss Ruth sighed, signed and considered that she had a chance to earn every week, and spends part of it for vocal and dancing lessons. She keeps her weight down to 100 pounds and goes to bed early so she'll be in condition when the studio calls.

When the studio calls, it's always bearing up under it pretty well. If you're from Texas you're from Texas and that's all there is to it. You may have been born in Capetown but if you can talk the Texas lingo and call that state your home, great things are expected of you.

News Cleaning House

"It is for each to utter that which he sincerely believes to be true and add his full influence to all other man's endeavor, to help the world work themselves out."—Spencer. Contributors are urged to confine their articles to 500 words.

WAR QUIZ

1. These crossed anchors obviously indicate the wearer belongs to the navy. What is his rank?

2. When an army man is speaking of getting his "jamoke," does that mean he is going to "catch it" from his officer, or draw some article of clothing, or get something to drink?

3. What country is proposing to beat the United States to mobilization of civilian manpower?

People You Know

By Archer Fullingim

John Lawson drove nearly 100 miles Wednesday morning to go eight. He was driving his truck from Amarillo to Pampa, and he had to make White Deer. When he found out he couldn't make the muddy detour between Panhandle and White Deer he turned around and drove to White Deer by way of Panhandle, Boger, Pampa. . . They are still repairing the road that goes through the lake.

Brownie Emerson says that he still doesn't like "Gone With the Wind." The Yankees still win it, he complains.

Every native and adopted Texan was proud that 14 of the 79 men who made the first bombing raid on Tokyo were from Texas. It's not that Texans are any braver than, say, Iowans or Kansans, but the fact that they are from Texas makes them feel that they have to live up to the traditional idea of Texas. They feel that they have to live up to the record made at the Alamo, San Jacinto, and in the War Between the States—you will remember that General Robert E. Lee, the greatest general of U. S. has ever had, once said, "Give me an army like the Texas brigade and we'll win this war in six weeks." Our boys in the armed forces have found out their buddies expect more of them when they say they are from Texas. All you have to do in most sections of the country is to say you're from Texas and people at once regard you as a superman. That's a heck of a responsibility but the boys seem to be bearing up under it just grand. Her view was so unattractive that she had painted the windows that looked on the world and got her light from skylights in her ceiling.

There were paint pots in various parts of the big room. And many canvases tacked on the walls. The place was as dirty as only an amateur artist can achieve. She had had a husband when she came to live in the warehouse but one gathered that he got misplaced or thrown out. Now she was free.

It would be nice to add that this courageous painter painted beautiful pictures, only it isn't so. Her pictures all had the dirt of the street and the grime of the warehouse. They didn't matter in the least, not even to her.

My theory is that she has a beautiful home somewhere. Only the rich could choose such grime. The more I think of it, the surer I am that she must live on Park Avenue and play at being an artist in the warehouse.

Office Cat . . .

Ernestine—Did anyone ever tell you how wonderful you are? Kenneth—Don't believe they ever did. Ernestine—Then where'd you get the idea? Tommy—That is a landlord. Tommy—The man who always comes when Pa's not at home. Captain—Why didn't you salute me yesterday? Private Nye—I didn't see you. Captain—God, I was afraid you were mad at me. Bobby Proff—Which pipe has the longest and thickest needles? Student—The pencil.

HIGH LIFE And low life in The BIG City

By Stella Hait

An advertisement spoke of a studio suitable for an artist and a pleasant place to start a lot of runs on the stores, and that is just what must be avoided. Almost every shortage that has been specifically mentioned thus far has brought on one of these things: a vast space with ample, the silk stockings and razor blade stamper. It would be naive indeed, however, to think for a minute that the United States could get through the war with no more rationing. The next rationing book will be issued immediately, standing in line might not be necessary for the names and addresses of all sugar consumers were taken on that first registration and new books could be mailed out. But if the next registration isn't called for six months, so there will have been so many shifts in the population that the first sugar registration will be worthless. You may therefore safely reconcile yourself to registering for something or other every few months, for the duration of the war.

One idea is that the next rationing book might contain a lot of varied colored coupons, issued in blank. And then on some day when you were least expecting it—surprise!—you would be told that hereafter the Harvard crimson coupons would be good for Harvard beads, while the Navy blue ones would be good for fish.

In trying to compute where rationing will be applied, the simplest calculation is to take the amount of all the goods of any given group and divide that quantity by the number of people it must be shared by. If it is to be consumed only in the United States, divide by 130 million. If it must be shared by Great Britain, divide by 164 million. If it must be divided among all the united Nations, divide by 800 million.

After that, there are several kinds of rationing that may be applied for the type of rationing that fits autos and tires where issuance is based on demonstrated essential use, is entirely different from rationing sugar, which everybody is entitled to in about equal quantity.

POINT SYSTEM

There is a third form of rationing which the United States hasn't experienced yet, but which the British can do, and which we should have to come to. This is the "point system." It was devised to avoid regimenting sales of certain commodities too rigidly and to give purchasers a bit of a choice, in place of telling them they will get 12 cans of salmon in 1942, or "You WILL buy a new vest and not a new overcoat."

Under the point system, every consumer is given a book of stamps representing points, and every variety of canned fish or every item of clothing to be rationed is given a point value. A can of salmon, 4 points, sardines 8 points, lobster 12 points, carter 24 points. Supposing the consumer had an advance deposit person were set at 48 points per month. The purchaser could have his choice of one can of each, or 12 cans of salmon, or six cans of sardines or two cans of caviar, or one can of caviar and two of lobster, depending on his taste.

In clothes, suppose you were allowed 66 points a year, as the British are. A suit would be worth 32 points, pants 16 points, skirts 6 points, and so on.

Dollar prices of commodities make no difference under this point system, and as a matter of fact, the point system makes a kind of second currency. A \$2.49 pair of slacks and a \$10 pair of slacks is each worth eight points in the eyes of the rationing board and a coupon book.

One of the nice things about the point system you might speculate on is whether the points should be salable. That is, if one consumer used up only 60 of his clothing book points, would he be permitted to turn in to the rationing board his six points left over and get cash for them. And would the rationing board be permitted to resell those extra six points to some factory fellow who needed six more points to get himself a red flannel union suit?

There are 25,000,000 insects in the air up above each square mile of the earth's surface, according to estimates.

Behind The News In Washington

By PETER EDSON

Those wails of anguish you're now hearing from one-third of the American motorists who are having to get along under gas rationing are just a whimper. Extension of gas rationing to other areas is not necessary from a petroleum point of view, according to Petroleum Coordinator Harold L. Ickes, though from the rubber conservation point of view it may be necessary to limit gas consumption all over the country. Just listen if that should ever happen.

Put gasoline and tires and automobiles and sugar and bicycles aren't the only things that can be rationed, and typewriters, kitchen stoves, washing machines, radios, refrigerators, new houses, and such items are not the only ones on which production can be frozen with rationing the eventual result.

It would be a fallacy to say that the back-room boys of the Office of Price Administration have a lot of R-days marked on the calendars, with new things springing up and ready to issue for rationing half the commodities in the store, or even a quarter of them or 1 per cent. Officially, OPA won't even admit that it knows the date for the second sugar rationing. For the form of the next rationing book decided on, nor the quantity of gasoline to be allowed in the rationing areas after July 1. The policy now is to see how gasoline and sugar rationing work out, learn whatever lessons there are to be learned from this experience and by thus feeling the way, go on from there.

To announce now a list of items that might be rationed would simply be to start a lot of runs on the stores, and that is just what must be avoided. Almost every shortage that has been specifically mentioned thus far has brought on one of these things: a vast space with ample, the silk stockings and razor blade stamper. It would be naive indeed, however, to think for a minute that the United States could get through the war with no more rationing. The next rationing book will be issued immediately, standing in line might not be necessary for the names and addresses of all sugar consumers were taken on that first registration and new books could be mailed out. But if the next registration isn't called for six months, so there will have been so many shifts in the population that the first sugar registration will be worthless. You may therefore safely reconcile yourself to registering for something or other every few months, for the duration of the war.

One idea is that the next rationing book might contain a lot of varied colored coupons, issued in blank. And then on some day when you were least expecting it—surprise!—you would be told that hereafter the Harvard crimson coupons would be good for Harvard beads, while the Navy blue ones would be good for fish.

In trying to compute where rationing will be applied, the simplest calculation is to take the amount of all the goods of any given group and divide that quantity by the number of people it must be shared by. If it is to be consumed only in the United States, divide by 130 million. If it must be shared by Great Britain, divide by 164 million. If it must be divided among all the united Nations, divide by 800 million.

After that, there are several kinds of rationing that may be applied for the type of rationing that fits autos and tires where issuance is based on demonstrated essential use, is entirely different from rationing sugar, which everybody is entitled to in about equal quantity.

POINT SYSTEM

There is a third form of rationing which the United States hasn't experienced yet, but which the British can do, and which we should have to come to. This is the "point system." It was devised to avoid regimenting sales of certain commodities too rigidly and to give purchasers a bit of a choice, in place of telling them they will get 12 cans of salmon in 1942, or "You WILL buy a new vest and not a new overcoat."

Under the point system, every consumer is given a book of stamps representing points, and every variety of canned fish or every item of clothing to be rationed is given a point value. A can of salmon, 4 points, sardines 8 points, lobster 12 points, carter 24 points. Supposing the consumer had an advance deposit person were set at 48 points per month. The purchaser could have his choice of one can of each, or 12 cans of salmon, or six cans of sardines or two cans of caviar, or one can of caviar and two of lobster, depending on his taste.

In clothes, suppose you were allowed 66 points a year, as the British are. A suit would be worth 32 points, pants 16 points, skirts 6 points, and so on.

Dollar prices of commodities make no difference under this point system, and as a matter of fact, the point system makes a kind of second currency. A \$2.49 pair of slacks and a \$10 pair of slacks is each worth eight points in the eyes of the rationing board and a coupon book.

One of the nice things about the point system you might speculate on is whether the points should be salable. That is, if one consumer used up only 60 of his clothing book points, would he be permitted to turn in to the rationing board his six points left over and get cash for them. And would the rationing board be permitted to resell those extra six points to some factory fellow who needed six more points to get himself a red flannel union suit?

TEX'S TOPICS

By Tex DeWesse

YOU, too, no doubt have noticed that even the smallest things happen in connection with the war fronts, you'll find some Texas boys had a part in it. . . . Latest evidence of this is the news yesterday that 14 of the 79 flyers who blazed the hell out of Japan last month were from Texas. . . . So on the day they send about 5,000 over the empire to wipe it out, you can figure that about 1,000 of them will be from Texas. . . . Thanks to Secretary of State Hull who made the prediction yesterday that victory for the United Nations will come sooner than most people expect. . . . We've been having some trouble lately because we already had made that statement without any official backing from high government authorities.

USO is coming back for more money, and it's okay. . . . If we all give a little, it won't hurt any of us. . . . It is high time we learn that these sacrifices must be made without squawking. . . . No doubt Hitler loses his sleep these nights, the rat. . . . Especially since he got the news that the RAF has figured out a plan to enslave him with a thousand bombers a night over Germany. . . . The American correspondents who were released from Germany and now are on their way back to the U. S. are permitted to write the folks at home as they see fit under conditions in Nazi-land. . . . That truth is certainly mighty good and startling news to the folks here at home who have been wondering. . . . Hitler shipping and the Axis is on its way to tottering. . . . Just wait and see.

NEWSBOYS like their jobs. . . . The other Sunday morning the boys here at The News picked out their boss, Circulation Manager Jim Green, with whom to have some fun. . . . They left a note for the route boy who delivers his paper about 2 a. m. Sunday. . . . The note, ostensibly, was from Mr. Green himself. . . . It instructed the route boy to rouse him out of his sleep when the paper was delivered. . . . The boy supposed Mr. Green was going through the war with no more rationing. . . . He had long and loud on the Green front door in those few small hours. . . . Editor's Note: Mr. Green was not going fishing. He has not yet found out who fathered the idea.

Johnny Mills, WNU representative from Wichita, Kans. in town yesterday, has the best joke of the month, but it's not told here.

Incidentally, Johnny is getting ready to get his gun and march off to war June 1. . . . He says he expects the firing to cease before he completes his training, but he is looking forward to seeing the world in an army of occupation somewhere. . . . The Pampa News campaign on the recent Scrap Metal Drive is being used as the basis for a model for other Texas cities. . . . We have always wondered how the Texas Election Bureau holds its monopoly on collection of election returns, but it turns out that the news that belongs directly to the people of Texas, but the three great news services are not allowed to carry the returns. . . . That's how the newspapers will have to "go to the press" to get the news. . . . We wouldn't mind kicking in, if we were getting ample service in return for the money.

RAY Monday is back with KPDN as program director. . . . Which reminds us that from 5 to 5:30 this afternoon KPDN will broadcast a United China Relief program with the Dixie Reviewers of Amarillo, but the music from the studio, instead of the program, will be played on Friday night of this week the United China Relief organization will stage a benefit dance at the "Biggie" night club in Amarillo. . . . Every dime taken in goes to United China Relief with exception, of course, of the 5-cent federal tax on each 50-cent ticket. . . . Eddie Pohl, manager of the dance, will be in charge for more than four years, leaves this week-end to return to his old home-town where he will become advertising manager of The Tonawanda News, at Tonawanda, N. Y.

BUY VICTORY BONDS

Many Civil Service Commissions Open

The United States Civil Service commission announces that it will discontinue receiving applications for military positions from \$2,000 to \$5,600 a year. Applications will be accepted until May 29, 1942, but must be filed with the commission's Washington office not later than that date.

The unit chemist positions, \$2,000 a year, and technical scientific aid positions, \$1,440 to \$2,000 a year, will be closed to men who do not apply by June 1, 1942. The positions are still open to women, who are in great demand if they possess the prescribed qualifications.

Announcements for technical assistant in engineering, \$1,800 a year, have been amended. In order to secure additional qualified persons for these positions, the education requirements were modified. Women are particularly desired for the meteorologist positions. Sub-professional positions in meteorology at \$1,620 and \$1,800 a year will be filled by those willing to accept these salaries.

By amendment persons now taking appropriate defense training courses can apply for engineering draftsman positions paying \$1,440 to \$2,000 a year. They must meet the other requirements. All branches of drafting are included.

All applications must be filed with the Civil Service Commission in Washington, D. C. Announcements and forms for applying may be obtained from V. Darnell, secretary of the Board of U. S. Civil Service Examiners, at the post office or courthouse in this city, or from the Secretary of the Board of U. S. Civil Service Examiners, at any first- or second-class post office.

MAYOR BUYS FIRST POPPY—Billie Mae Osborne 4-year-old daughter of Mr. and Mrs. Emmett M. Osborne, is shown here selling a poppy to Mayor Fred Thompson of Pampa, first poppy sold in the annual poppy day campaign conducted here by members of the American Legion auxiliary. Mrs. Osborne, mother of Billie Mae, is poppy

day chairman, and auxiliary member, while Mr. Osborne is a member of the American Legion. Poppies, made at the Waco hospital, will be distributed throughout Pampa Saturday by volunteer workers from the American Legion auxiliary. All money contributed will go into the Legion auxiliary welfare funds.

Layette Shower Given To Honor Mrs. D. Timmons

Honoring Mrs. Darrell Timmons, a layette shower was given in the home of Mrs. Carl Emerson this week with Mrs. Ollie Smith as co-hostess.

A pink and blue color note was observed in the decorations. After contests were conducted, refreshments of gingerbread topped with whipped cream and punch were served to Meses. Fay Cole, Zola Hicks, Bonita Williams, Crystal Cruzan, and Zelma Timmons.

Gifts were sent by Meses. Dewey Bond, Buton Nichols, W. W. Combs, and A. H. Brewer.

BUY VICTORY BONDS Buffet Dinner Given By Miami Couple

Miami, May 21.—Mr. and Mrs. E. M. Ballengee entertained a few of their friends with a buffet dinner Tuesday evening.

When the guests arrived, they were invited to serve themselves from the long dining table and find their places marked with floral place cards at the small tables arranged in the living room. The hostess was assisted in serving by Miss Arvalce Stanford.

After dinner, the evening was spent in informal games and listening to the radio.

Those present were Mr. and Mrs. J. K. McKenzie, Rev. and Mrs. E. Leo Stanford, Mr. and Mrs. W. F. Locke, Mrs. Agatha Locke, Stanley McKenzie and Dare Locke, in addition to the hosts.
