

The Weather

West Texas: Quite warm again this afternoon and tonight; widely scattered thunderstorms in extreme north portion of Panhandle.

THE PAMPA NEWS

(VOL. 40, NO. 64) (12 PAGES TODAY) THURSDAY, JUNE 18, 1942 PAMPA, TEXAS Wide World News—AP Leased Wire (PRICE FIVE CENTS)

Good Evening

It is as easy to draw back a stone thrown with force from the hand, as to recall a word once spoken.—Menander.

WHERE U. S. AND BRITISH BOMBERS SMASHED AXIS ATTACK—Italian planes attack a British convoy bound for Tobruk from Alexandria (1); U. S.-British planes turn back Italian naval force steaming toward the convoy (2); Italian fleet attacks second convoy near Pantelleria (3), but is broken up by bombing attacks.

Nazis Push Into Defenses Of Sevastopol And Tobruk

11 Tons Of Scrap Rubber Gathered In

Half enough rubber that is required in the construction of a battleship has already been given by Gray county residents. It takes 45,000 pounds of rubber for a battleship. To date, filling stations over the county have gathered in 23,500 pounds, or 11 tons. That was the combined figure announced at a meeting of retail and wholesale gasoline agents, held yesterday afternoon in the county court room, as reported by 12 agents. Amounts ranged from 100 pounds to 12,000 pounds. Of the latter, 7,000 came from one filling station at LeFors.

Independent dealers, who have no wholesale bulk station, won't have to worry about how to dispose of the rubber they collect. When this question came up at yesterday's meeting two of the men present immediately volunteered to act as agents, going around and collecting the independents' supply and selling it through their own wholesale station. Use of a four-wheel trailer and a car was also offered the independent dealers.

U. S. Soldiers In Australia Fit And Happy

(EDITOR'S NOTE: Ian Fitchett, Australian official war correspondent who reported the battle of Malaya, has just completed a 500-mile inspection trip through New Caledonia, Free French island east of Australia, and describes its defenses in the hands of United States troops who have been on guard there since April.)

By IAN FITCHETT
Australian Official War Correspondent
MELBOURNE, June 18 (AP)—Well equipped, well clothed, fit and happy, a United States fighting force that is the equal in spirit and training of any army I have seen stands prepared to repel any Japanese threat to the island of New Caledonia, astride the sea lane from the United States to Australia.

The completeness of their preparations is a revelation. No troops in the world today are serving under more pleasant conditions than these soldiers from the States who are quartered under canvas and eat in the open on rustic benches and tables in this coral-tinged mountainous woodland of singular beauty.

There are few relaxations on New Caledonia at which the city-bred men are accustomed. For country-bred youths, however, the hundreds of square miles of brush and jungle are a paradise, and even the men from the cities are catching on to the fishing and hunting with enthusiasm.

Each man gets at least one day a week to himself, and organized hunting and fishing parties are popular. The hills echo with the crack of rifles as men hunt deer. There are fish for the taking in the inland streams and the rocky coastal pools. Oysters cluster thickly in the mangrove roots along the beach. Huge crabs swarm the shallows.

French is the native tongue, and the United States soldiers have acquired enough local patois to get along with the farmers and natives. Tobacco is plentiful and beer, although usually rare, appears on the soldiers' ration lists.

For all of this, the men are never allowed to forget they are part of the war effort.

Japs Increase Air Strength In Far East

By WILLIAM H. MCGAFFIN
CHUNGKING, June 18 (AP)—While informed sources here believe the Japanese may attack Russian Siberia before the summer is over, the enemy now is concentrating on reinforcement of his air strength in the China and Burma theaters. Army intelligence reports received here indicated today that the Japanese now have 500 planes in Burma and have increased the number actually in China to 300, with a fresh influx of planes at Canton and Hankow.

The aerial preparations of the foe gave weight to indications that the Japanese would intensify their efforts to tighten the cordon around the still free parts of southern China and thereby strangle Chungking. The present nutcracker offensive in eastern China provinces of Chekiang and Kiangsi is an important part of these efforts.

On the Chekiang-Kiangsi front, the Chinese hold on the important railway looping through the two provinces has been narrowed to less than 50 miles, it appeared tonight on the basis of the Chinese high command communique.

The Japanese column from the west had reached the railway town of Kweilui by a detour while forces from the east continued their advance from Shanghai, the communique said.

Meanwhile, a Japanese threat to Fukien province, south of Chekiang and east of Kiangsi, seemed to have developed further with thrusts by the enemy from Kwangsi, eastern Kiangsi.

Informed sources here, discussing prospects of a Japanese attack on easternmost Russia said the Japanese had shifted many preparatory steps but were leaving one, reinforcement of the air force in Manchukuo, to the very last. There was no confirmation of rumors that the Japanese had shifted many planes from southeastern Asia and occupied China to Manchukuo.

The Chinese informants said, however, that reinforcement of the air force was being stepped up.

British Left With Only One Outlet

By ROGER D. GREENE
Associated Press War Editor
Grave new threats to the British armies in North Africa and the Russian defenders of Sevastopol were reported today as the German high command asserted that Nazi troops had driven into Sevastopol's immediate defense ring and had split the British Libyan armies into two parts.

A bulletin from Adolf Hitler's field headquarters said the German siege armies storming Sevastopol, the last big Soviet stronghold in the Crimea, had captured Fort Gorky and driven within two miles of the harbor entrance. The communique described Fort Gorky as "the most modern and strongest bastion of the whole fortress."

Besides capturing Fort Gorky in the main fortifications north of the city, the Axis assault forces also drove back stubborn Red army troops on the southern fortifications, the Hitler command said.

The Nazi claim of having knifed into Sevastopol's ring of fortified point-blank artillery fire and infantrymen standing against tank-led waves of attackers. Red army and navy defense forces have beaten back every German attempt to smash through the shell-scarred fortifications that guard Sevastopol and its cliff-lined roadway, Pravda reported today in dispatches from the front.

The Communist party newspaper said that since yesterday steadily reinforced German shock troops had battered almost unceasingly at the grimly held Crimean base from north and south, disregarding a toll of 1,500 killed in a single day.

The enemy attempted by every means to break through our defense, but failed," Pravda said. "Fighting continues in two directions, to the north and south."

In the Libyan desert struggle, the Russians declaring they had beaten off a series of savage new attacks.

The German high command said the British forces had been split into two parts. One part has fallen back on Tobruk, while strong German and Italian tank formations are pursuing other British forces fleeing in the direction of Bardia, the high command said.

Sidi Rezegh is 25 miles southeast of Tobruk and 50 miles from the Egyptian frontier; El Adem is 18 miles due south of Tobruk.

An Italian war bulletin asserted that aerial reconnaissance disclosed British imperial headquarters acknowledged that British troops had withdrawn from two key defense points at Sidi Rezegh and El Adem.

Jap Sea Losses Reduce Threat On Pacific Coast

WASHINGTON, June 18 (AP)—Secretary of War Stimson said today the losses inflicted on the Japanese in the Pacific had temporarily reduced the threat of an attack on the Pacific coast which he has repeatedly said might be expected. War and navy department information is, he said, that the Japanese thus far had made only a "very small landing" in the Aleutian Islands of Alaska but he stressed that fog and unfavorable weather obscured developments in the north Pacific.

Information is still incomplete, the secretary also told his press conference, on the earlier air and sea engagement off Midway.

"But after three days fighting the enemy fleet was scattered all over the Pacific ocean, hustling away as fast as it could in the opposite direction, without air protection," he added.

In the Aleutians, Stimson said, the American and Japanese forces thus far had only fleeting glimpses of each other through the eyes of airmen.

He promised that the government would make available "every bit of information we can," about the Aleutians as well as the earlier engagements off Midway Island in the Pacific and in the Coral sea near Australia.

One reason the report was still incomplete on the Midway fight, the secretary said, was that many naval fliers were still at sea on aircraft carriers which were prohibited by radio silence orders from forwarding reports.

Kilday's Plea For Injunction Denied

(By The Associated Press)
The second phase of legal action occasioned by the candidacy of James E. Kilday for one of the railroad commission posts will be brought before the fifth circuit court of appeals at Dallas today in the form of a motion asking the court to set aside its recent judgment directing the state Democratic executive committee to certify Kilday's name for the office.

Haynes Appointed Airforce Head In China Campaign

By WILLIAM MCGAFFIN
CHUNGKING, June 18 (AP)—Col. Caleb V. Haynes has been appointed chief of the American bomber command in China, it was announced today. Just where and when the new American force would go into action naturally was a military secret. It was not disclosed what force would comprise the American bomber command in China. There have been reports that United States air units and personnel had arrived there, but these were without confirmation. Already operating in China are Brig. Gen. Claire L. Chennault's Flying Tigers—the American volunteer group with the Chinese air force—but these are scheduled to be taken back into the army air force July 4.

Kingsmill Receives First 1942 Wheat

A Kingsmill elevator received the first of Gray county's 1942 wheat crop yesterday. It was brought in to the Tubbs Grain company by Matheson & Bell, from a farm five miles south of Kingsmill, and tested 60, according to the purchasers.

I HEARD . . .

That the Lee C. McConnell elevator received the first load of 1942 wheat here this morning. It was brought in by J. R. "Skeet" Roberts who lives five miles northwest of Pampa. The wheat tested 63 and Mr. McConnell paid a premium of \$10 for the load. J. E. Kirby of McLean brought in the second load about noon.

Mexican Planes To Join In Hunt For Axis Subs

(By The Associated Press)
News of aid to the United States in the war on Axis submarines came from Mexico City today, with the announcement that Mexican patrol planes are scouring the Gulf of Mexico and the Pacific under orders to "sink at sight" all prowling undersea boats.

While the officially-announced toll of ship sinkings since Pearl Harbor remained at 276 in the Atlantic and adjacent waters, Gen. Robert Fierro, chief of Mexico's military aviation, said:

"Our pilots are winging far out to sea, searching for the enemy everywhere. We have no news of any encounters yet, but our fliers hope it will not be long before they have an opportunity to fire their machine-guns and loose their bombs against an enemy."

Mexico declared war on the Axis powers three weeks ago. Fierro said 12 modern patrol planes have reached Mexico in recent days and already are in service. Acknowledging difficulty in obtaining more ships speedily from the United States, he said Mexico is expanding its own manufacturing and repair facilities.

The torpedoing of an unidentified Allied merchantman was disclosed late last night with the landing of 14 survivors at an eastern Canadian port. Survivors refused to discuss the torpedoing, but it was learned that one member of the crew died aboard a rescue craft.

Willkie Not To Run For Public Office

NEW YORK, June 18 (AP)—Wendell L. Willkie, Republican presidential candidate in 1940, last night declared: "I doubt if I will ever aspire to public office again." Speaking at a dinner honoring James V. Alfred, another senatorial candidate, assailed O'Daniel in talks at Jacksonville, Kilgore and Longview. He said Texas' junior senator "hasn't done anything to help the president in this war and he did not do anything in the last war to help Woodrow Wilson either."

Truman Criticizes Dollar-A-Year Men

By EDWIN B. HAAKINSON
WASHINGTON, June 18 (AP)—A demand for change in war production methods of the War Production Board came today from Chairman Truman (D-Mo.) of the special senate committee investigating national defense as he issued a report criticizing what the committee termed "damaging delay" in the conversion of major civilian industries to war purposes.

"The WPB has not fully measured up to its responsibility," Truman said in a statement. He went on to say that "fulfillment of this responsibility will require a change in both the organization and personnel of some branches and divisions in the WPB."

The 32-page printed report upheld part of the charges made against WPB by Robert F. Guthrie, who resigned March 14 from the WPB executive staff with a protest that some dollar-a-year men had

impeded the war production program because of private interests. Recommending additional restrictions upon big business executives now serving in the war production effort, the senate committee said it believed that "the Guthrie case points to the conclusion that certain dollar-a-year men within the Bureau of Industry Branches (of WPB) are unable to divorce themselves from their subconscious gravitation to their own industries."

The senate conclusions differed widely from an earlier report by a house military affairs subcommittee.

See TRUMAN, Page 4

Axis Planes Use Rocket Type Bomb

LONDON, June 18 (AP)—Axis planes participating in the great sea-air battle in the Mediterranean this week were reported today to have employed a new type rocket bomb characterized by technical authorities as the most important innovation since the introduction of the magnetic mine. Some experts went so far as to say that because of its terrific penetrating power and high potential accuracy the new weapon might result in the development of a technique that would supersede dive-bombing. The rocket bomb reported used by the Axis planes, described as the aerial equivalent of a high caliber artillery shell, apparently is similar to bombs which Russian Stormovik aircraft recently have been reported employing with great effect against Nazi tanks on the eastern front.

Self-propelled, the new bombs are attached to the under side of the wings and are aimed by pointing the plane's nose directly at the target. When discharged they leave a trail of sparks like the tail of a comet.

Woman Donates 46,920 Pounds Scrap Rubber

TERRELL, June 18 (AP)—Mrs. A. W. Riter used large quantities of discarded bus tires to fill ditches on her plantation estate of here, over a period of several years. The appeal for scrap rubber went out and Mrs. Riter, widow of Auble W. Riter, founder of the Sunshine Bus lines, had the old castings dug up.

Yesterday she made the largest single contribution to date to the scrap drive here—46,920 pounds of old bus tires.

Houses Can Be Built For Civilian Workers

There'll be no new houses built for anyone in Pampa except civilian war plant workers. That was the word left today by Pampa by Thomas W. Poore of Dallas, field advisor for the National Housing Agency.

Mr. Poore is in the city to complete a survey of housing needs for Pampa's two war projects. There will be sufficient quarters at the air corps installation for all officers, he said. The first need is to find available living quarters for civilian workers in the war projects.

This is being determined by a survey of all available housing and rooms in the city. A check also will be made on structures that can be reconditioned for the incoming workers.

When all his findings are complete on the available housing in Pampa, Mr. Poore stated, he will make his recommendations for any new housing that might be needed.

War Bond Prize In Coleman Campaign For Scrap Rubber

COLEMAN, June 18 (AP)—A \$25 war bond, purchased by the Lions club, will be the prize for the individual who brings in the most scrap rubber from this county. Lions club members voted to use money they obtained from sale of scrap to buy cigars for soldiers in foreign service.

Market Briefs

NEW YORK, June 18 (AP)—Many stocks continued to attract modest buying in today's market but light profit taking, inspired partly by the somewhat bearish news from Libya and China, halted the general upswing which got under way late yesterday.

The majority of losses ran to minor amounts near the close—there were isolated setbacks 2 or so—scattered.

Among stocks American Can went into new high ground for 1942. Resistance was displayed by Sears Roebuck, Montgomery Ward, Standard Oil (N.J.), Anaconda, Douglas Aircraft, Consolidated Edison, Owens-Illinois and Union Carbide.

On the offside at intervals were Bethlehem, Chrysler, General Motors, Goodrich, Western Union, American Telephone, Eastman Kodak, General Electric, Santa Fe and John-Manville.

The list:

Am. Can.	8 7/8	69 1/2	69 1/2
Am. T&T	14 1/4	114 1/4	114 1/4
Am. Woolen	4 1/4	4 1/4	4 1/4
Anaconda	64 25/32	25 1/2	25 1/2
AZ&S	12 3/4	8 1/2	8 1/2

Sheriff Investigates Two Gray Burglaries

Gray county felt the effect today of a minor wave of burglaries that hit three Top O' Texas counties this week.

Sheriff Cal Rose was called to Alarney today to investigate a burglary of the W. J. Ball store in that town, which occurred last night.

He also will investigate the burglary of a farm home three miles north of the Roy Tinsley farm, located five miles east of Pampa.

The sheriff said he had no details on what was taken in either burglary.

Tires and wheels were taken this week in a burglary at Berger. On Monday night, a night club at Panchard was robbed of coins from cigarette and marble machines.

Hogs, salable, 5,000; fully 10 higher; spots 20 above Wednesday's average; extreme top 14; shippers and packers; practical top 14.00; hogs, 100-150; common 14; culls as low as 10.00; most shorn slaughterer ewes 3.00-5.00.

KANSAS CITY LIVESTOCK

KANSAS CITY, June 18 (AP)—(USDA)—Hogs, salable, 2,000; 10 higher; top 14.35 to all; good to choice 19.25-20.00; 14.25-14.55; 14.00-15.00; 13.50-14.25.

Cattle, salable, 1,500; common and medium grades 8.50-11.25; beef cows 7.25-9.50; bulls 7.25-9.75; good and choice fat calves 11.00-12.00; common and medium grades 8.50-11.00; good and choice stocker steers calves scarce at 12.00-14.00; common and medium lots 8.00-11.00; most yearling stocker steers 9.00-12.50.

Hogs, salable, 1,500; steady to 10c higher; top 14.10; packer top 14.00; most good an choice 17.25-20.00; 13.00-14.00; good and choice 15.00-17.00; 13.25-13.55; Sheep, salable, 4,000; spring lambs weak to 25c lower, other classes poorly with a few good shorn lambs about steady. Medium and good spring lambs 11.00-12.00; choice grades scarce. Medium and good shorn lambs 10.00-11.00; several lots of common ewes 4.00 down; shorn feeder lambs 7.00-8.50.

CHICAGO GRAIN

CHICAGO, June 18 (AP)—Wheat prices fell more than a cent a bushel from the month's highs today as a result of profit taking and selling which traders said was inspired partly by Secretary of Agriculture Wickard's opposition to efforts in congress to get government-owned surplus grain off the market at below parity prices.

Wheat closed 1 cent lower than yesterday, July \$1.20 1/4, September \$1.22 1/2, 1.23 1/2, 1.24 1/2, 1.25 1/2, 1.26 1/2, 1.27 1/2, 1.28 1/2, 1.29 1/2, 1.30 1/2, 1.31 1/2, 1.32 1/2, 1.33 1/2, 1.34 1/2, 1.35 1/2, 1.36 1/2, 1.37 1/2, 1.38 1/2, 1.39 1/2, 1.40 1/2, 1.41 1/2, 1.42 1/2, 1.43 1/2, 1.44 1/2, 1.45 1/2, 1.46 1/2, 1.47 1/2, 1.48 1/2, 1.49 1/2, 1.50 1/2, 1.51 1/2, 1.52 1/2, 1.53 1/2, 1.54 1/2, 1.55 1/2, 1.56 1/2, 1.57 1/2, 1.58 1/2, 1.59 1/2, 1.60 1/2, 1.61 1/2, 1.62 1/2, 1.63 1/2, 1.64 1/2, 1.65 1/2, 1.66 1/2, 1.67 1/2, 1.68 1/2, 1.69 1/2, 1.70 1/2, 1.71 1/2, 1.72 1/2, 1.73 1/2, 1.74 1/2, 1.75 1/2, 1.76 1/2, 1.77 1/2, 1.78 1/2, 1.79 1/2, 1.80 1/2, 1.81 1/2, 1.82 1/2, 1.83 1/2, 1.84 1/2, 1.85 1/2, 1.86 1/2, 1.87 1/2, 1.88 1/2, 1.89 1/2, 1.90 1/2, 1.91 1/2, 1.92 1/2, 1.93 1/2, 1.94 1/2, 1.95 1/2, 1.96 1/2, 1.97 1/2, 1.98 1/2, 1.99 1/2, 2.00 1/2.

New Blows Against Japs In Offing

(By The Associated Press)

A picture of tremendously growing American strength in the battle of the Pacific, where U. S. airmen have already exacted a 10-to-1 toll in Japanese men and planes, was drawn by Admiral Chester W. Nimitz today along with a hint that new, electrifying blows against Japan are in the offing.

"We are greatly increasing our battle strength," Admiral Nimitz declared.

"Our ships, planes and pilots are being added in constantly increasing numbers."

Meanwhile, American bombers were preparing to help Generalissimo Chiang Kai-Shek's hard-driven armies in China.

Announcement that Col. Caleb V. Haynes, of North Carolina, veteran of the battle of Burma, had been appointed chief of the U. S. bomber command in China indicated that the new American force would soon go into action.

The news that the China fighting front again was dark.

Chinese headquarters acknowledged that Japan's invasion armies now had seized all but 50 miles of the 450-mile Chekiang-Kiangsi railway which feeds fresh supplies into the heart of China.

This offensive is an important part of the Japanese campaign to tighten their cordon around the still free regions of southern China and thereby strangle Gen. Chiang's war-time capital at Chungking.

Informed Chungking quarters said they believed Japan might attack Russian Siberia before the summer is over, but declared that at the moment the Japanese were concentrating on reinforcing their air strength in the China and Burma theaters.

Chinese army intelligence reports indicated that Japanese had now massed 500 planes in Burma—perhaps for an attack on India or on far southwest China—and had increased the number actually in China to 300.

The Chinese said there was no confirmation of rumors that the Japanese had shifted many planes from southeast Asia and occupied China to Manchukuo for an attack on Siberia.

However, many new airmen were reported ready to receive eleventh-hour reinforcements for an assault on the Soviet, and the Kwantung army in Manchukuo was said to have been restored to its full strength of 33 divisions (about 600,000 troops) by the return of divisions which had been withdrawn for the Japanese drive into Malaya, the Philippines and the Dutch East Indies.

Representative From Kaufman Resigns

AUSTIN, June 18 (AP)—The resignation of State Representative S. F. Weatherford of Kaufman was on Governor Coke Stevenson's desk today, the 10th resignation from the house since the war began.

Weatherford resigned to accept employment with an aircraft manufacturer at Long Beach, Cal.

Numerous other house members have quit to enter the military service or a related war activity.

Special elections to fill all vacancies—including the one in the senate—have been ordered for July 25, concurrent with the state Democratic primary election. This was ordered by the governor in order to cut down some of the expense of a special election.

The governor has asserted the special elections are not necessary, but contemplates a special session of the legislature.

Fred Perry Retires Because He Can't Play Any More

MEXICO CITY, June 18 (AP)—Fred Perry, world's professional tennis champion and former top-flight amateur player, announced today his retirement from the sport "because I just can't play any more."

The slender Englishman who was ranked as No. 1 tennis player of the world when he was winning amateur championships, said he was stopping because of an arm injury suffered in a fall at Madison Square Garden, New York, last winter.

Perry, who has been in Mexico about a month after taking extensive treatments in the hope of nursing the arm back to its old strength, said he tried to play last week "and I'm no good at all."

J. N. Hodges, 89, Dies At White Deer

Special To The NEWS

WHITE DEER, July 18—Joseph Newton Hodges, 89-year-old pioneer of Carson county, died at his home here yesterday afternoon at 2 o'clock, after having been in failing health for more than a year.

Funeral services will be conducted this afternoon at the First Methodist church by the pastor, Rev. Don Davidson, assisted by the Rev. W. A. Cassedy, pastor of the Presbyterian church, and the Rev. H. W. Fike, pastor of the Church of Christ.

Born Oct. 3, 1852, near Gadsden, Alabama, Mr. Hodges moved to Hunt county, Texas, in 1885. In 1872 he went from there to Grayson county, where he married Miss Margaret Priddy. In 1876 they moved to Montague county, and during their 33 years residence there, 13 children were born to them. In 1905, with the six children who were still at home, Mr. and Mrs. Hodges moved to Clarendon, and in 1909 from there to a stock farm between White Deer and Groom, where they resided until 1916, when they came to White Deer.

Mrs. Hodges died several years ago.

Survivors are six sons, Marvin E. T. D. and Byron of White Deer; Veston C. and Walter N. of Hereford; and W. E. of Clarendon; three daughters, Mrs. Mattie Wilton of Henrietta; Mrs. Minerva Paine of Nocona; and Mrs. Pearl Burgin of Groom; 23 grandchildren, and 27 great-grandchildren.

Duenkel-Carmichael Funeral home of Pampa will be in charge of the arrangements, and burial will be in the White Deer cemetery.

Claude Schaffer For Commissioner, Pct. 3

Claude Schaffer today authorized The Pampa News to announce his candidacy for Commissioner Precinct 3, subject to action of the Democratic primary, July 25.

Mr. Schaffer was born in Precinct 3 of Gray County the same year the county was organized and has been a resident of that same section ever since. He is married and the father of five children. He is a stock farmer.

"This is my first time to run for public office," Mr. Schaffer said, "and I will sincerely appreciate the opportunity of serving my community. My continuous residence in Precinct 3 gives me full knowledge of the problems and my past business experience qualifies me to conduct the business of the office in an economical and efficient manner. Your vote and influence in the coming election will be deeply appreciated."

Don't Try To Guess How Long War Will Last, Says Taylor

DALLAS, June 18 (AP)—Undersecretary of Commerce Wayne C. Taylor warned today that "one of the most useless of current mental pastimes is attempting to guess how long the war will last."

"You can't establish a time table for victory, it has to be long enough to win, and the sooner the better," he declared in an address prepared for delivery before delegates to the National Junior Chamber of Commerce convention.

He pointed out that "this war is not a ten-round exhibition match with time out between rounds. It's a fight to a finish, with all that that implies. It will be over only when the Axis armies are defeated and disarmed."

Urging industry to make cheerfully the sacrifices entailed by war, he declared that "wars produce untold misery, unbelievable suffering, bitterness, hate—they show the depths to which human beings can sink when they organize for conquest, for domination of their fellow men. But that is not all. They also show the heights to which human beings can rise, the heights of bravery, of self-sacrifice, of truly unified effort."

Vinson Defends Big Battlewagons

WASHINGTON, June 18 (AP)—Continuing construction of battlewagons was described by Chairman Vinson (D-Ga.) of the house naval committee today as "essential insurance" against a possibility that future carrier losses might turn sea warfare into an "old fashioned slug-ging match."

He offered that observation in making it clear that the day of the big battlewagon was not done, despite the havoc wrought against them recently by torpedo planes, and that the navy intended to continue work on battleships already started.

At the same time Vinson reiterated his contention that the aircraft carrier had become the "backbone of the fleet" as he went before the

rules committee seeking a go-ahead signal for an \$8,550,000,000 fleet expansion measure which emphasizes floating aerial striking strength.

In Sumatra and Celebes the wild tribes consider exposing the knee imminent.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eye, headaches and dizziness. Frequent or painful passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give longer relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

them recently by torpedo planes, and that the navy intended to continue work on battleships already started.

At the same time Vinson reiterated his contention that the aircraft carrier had become the "backbone of the fleet" as he went before the

rules committee seeking a go-ahead signal for an \$8,550,000,000 fleet expansion measure which emphasizes floating aerial striking strength.

Charlie Now Has Axe On Bergen

PHILADELPHIA, June 17. (AP)—Edgar Bergen, whose lively "dummy" friend, Charlie McCarthy, has been pleading for an increase in his \$250,000 allowance, was paid \$252,000 for his radio work in 1941 by Standard Brands, Inc.

Bergen's income was almost four times the payment made by the company to its former president and present chairman, Thomas L. Smith, who received \$75,000, additional annual reports filed with the securities and exchange commission revealed today.

Many of the late reports showed executives of firms now engaged in war production were given substantial increases last year. Included in this group were Charles Balough, president, treasurer, general manager of the Hercules Motor corporation, Canton, Ohio, who received \$60,000, including \$35,000 as bonus or share in profits, a \$21,000 increase over his 1940 income, and Parker F. Williams, president of the Pittsburgh Steel foundry corporation, who jumped from \$21,034 in 1940 to \$46,390 last year.

Other remunerations included: Atchison, Topeka and Santa Fe Railway company—E. J. Engel, president, \$60,000; American Zinc, Lead and Smelting company—H. I. Young, \$50,385; Texas and Pacific Railway company—J. L. Lancaster, chairman and president, \$50,535; Missouri-Kansas-Texas Railroad company—Matthew S. Sloan, chairman and president, \$50,000; Union Electric company of Missouri—William McClellan, president and chairman, \$55,800; Texas and New Orleans Railroad company—H. M. Lull, vice president, \$40,000; Lone Star Cement corporation—Charles L. Hogan, president, (died) \$42,500; Lone Star Gas corporation—D. A. Huley, president and director, \$36,625.

TRUMAN

which commended efforts of the dollar-a-year men and said Guthrie's charges lacked proof other than an evidence of sharp differences of opinion among war production officials.

Philip D. Reed, chief of the WPB Bureau of Industry Branches, was cited by the senate committee as not having taken "the necessary action to obtain the maximum conversion of private industry to war production in the shortest possible time."

Reed was Guthrie's immediate superior when Guthrie and his friends quit WPB, and the report said Reed was serving WPB "on a dollar-a-year basis, on leave from his position as chairman of the board of the General Electric company from which company he is presently receiving a salary and a bonus totaling \$120,000 per year."

Truman said that "labor has demonstrated its right to a greater degree of participation in the operating work of the War Production Board." He also recommended a "wider opportunity" for small businessmen to participate in WPB administration and a place in the set-up for "many of the country's outstanding independent-minded production engineers."

The army and navy ride in trucks and battlefields utilizing the new fireproof cotton. Before long Mrs. Housewife will be able to spray her kitchen curtains and livingroom drapes with a fireproof formula. Handy when and if incendiary bombs fall.

Yank—And Girl—In Australia

American soldier landing at unnamed Australian port has plenty to carry but still manages to bring along picture of girl friend.

SCRAP RUBBER

Gray has not yet been announced. Those tires you have seen as decorative rings for trees and flower gardens are due to go. One bulk station dealer announced that many of these scattered at camps at one of the company's plants would go into the county's rubber pile.

One thing that rather slaps at the patriotism of Pampans is the fact that at one local station, where 3,000 pounds of rubber has been collected, each person bringing rubber to the station has offered it at the market price. Not a single one has voluntarily given the rubber.

On the other side of the picture is the effort the filling station and other oil men are putting into the campaign. R. B. Saxe, Gulf Oil company superintendent, took 50 men out Tuesday and they gathered 2,000 pounds of scrap rubber on the Gulf leases.

A by-product of yesterday's meeting was the appointment by Crawford Atkinson, who was in charge of the meeting, of a committee composed of D. V. Burton, J. C. McWilliams, and P. E. Hoffman to call on junk dealers and others to persuade them to turn loose tires for the "harvest pool," a plan for using certain types of tires to aid farmers in tilling harvest, originated by the Gray County War Price and Rationing board.

Why Rubber Is Needed
Now if you still think this work to get scrap rubber isn't important, there's a ton of rubber on the wheels of 18 cars. That's just how much is needed for every four-engined bomber, the kind the Japs saw over Tokyo, Yokohama and Kobe.

A single month's rubber supply to the comb factories is enough to put tires on 1,700 eight-wheeled 2½-ton army trucks.

It takes 3-4 pounds of reclaimed rubber to make a gas mask, 30 pounds to make a tire for a big bomber.

We used to turn six million pounds of crude rubber into 30 billion pounds of rubber bands each year. That's one for the duration: Six million pounds of rubber can put bullet-proof gas tanks into 300 heavy bombers and make the threads and engine-mounts and shock-absorbing cushions and machine-gun installation for 500 tanks. Or it could be used to make 1,500,000 gas masks and 500,000 army raincoats.

One hundred and eighty tons of rubber went into pencil erasers last year. This year they're going into the making of 200,000 army gas masks.

Leaky garden hose will be in fashion until the war is won. That precious rubber is going to put tires on the carriages for 8,500 7s, 6,800 37 mm. anti-aircraft guns, and still leave enough over to make 600 pon-toon for army bridges.

One pair of overshoes, plus one hot-water bottle, a tennis ball, plus a child's playball, equal a pair of rubber knee boots for the army. A

RCAF Aids U. S. In Alaska
VICTORIA, B. C., June 18 (AP)—Squadrons of the Royal Canadian Air Force are operating with United States forces in Alaska. It became known last night, Lieut. Gen. Kenneth Stuart, chief of the Canadian general staff, assumed temporary command of Canada's Pacific forces.

Canadian anti-aircraft units are also on duty in Alaska, Gen. Stuart revealed.

U. S. SOLDIERS

(Continued from Page 1)
an army with a big job to do. Although little can be said of their preparations, there is more than enough being done here to satisfy the severest military critic. When necessary, work continues night and day.

The troops appear to be well equipped with sports materials. A good deal of baseball and softball is played. There are several first class bands on the island and there are always transports available to move them around to different units. Silt trenches have been dug everywhere for the protection of the troops and civilians in case of a sudden air attack. An indication of the care taken of transports is the rule that every vehicle must be taken down after 6,000 miles of travel.

U. S. Minister Reports On Eire's View On Troops

LONDON, June 18 (AP)—David Gray, United States minister to Eire, has arrived in London for consultations with Ambassador John G. Winant, it was understood in informed quarters that he is making an important report on the Berlin government's reaction to the presence of United States troops in Northern Ireland.

Grocers To Check On Sale Of Coffee

WASHINGTON, June 18 (AP)—Card rationing of coffee is unlikely in the immediate future but grocers will have to keep a close rein on the amounts sold to customers under the quota system, Harold E. Rowe, director of food rationing, indicated today.

He said that because of the ever-present possibility of more drastic curtailment of shipping space he could give no assurance that coffee would not be rationed.

The War Production board's coffee quotas for July, soon to be announced, are reported to provide the same amount as in the past two months—75 per cent of 1941 deliveries.

AIR STRENGTH

Japanese air power in Manchukuo could be effected easily at the 11th hour when the Japanese are ready to launch an attack on Siberia.

Awaiting such reinforcements are large numbers of modern airdromes. Evidence that the Japanese hope to take a crack at Siberia some day is seen in the report that they have restored the Kwantung army in Manchukuo to its full strength of 33 divisions—about 600,000 men—by returning divisions withdrawn for the Southwest Pacific campaigns.

The enemy's recent attacks on Midway and the Aleutian islands are interpreted as preparatory to a Siberian move. The Japanese, it is said, had hoped to eliminate a threat to what would be the rear of an attack on Siberia. But the Japanese failure in those will not necessarily lead an attack on Siberia, the Chinese say. The main factor is doubt over the course of the German-Russian war.

So long as the Russian defenses stand up, Japan is believed likely to delay her Siberian plans.

Rubber Agency Seen As Aimed At Nelson

WASHINGTON, June 18 (AP)—The first congressional threat to Donald M. Nelson's overall control of war production appeared yesterday with drafting of legislation to place direction of the rubber program under an independent agency.

Conceived by a group of senators seeking production of synthetic rubber and alcohol from farm products, the bill would create a powerful "rubber supplies agency" to coordinate activities now directed by separate units under Nelson.

SEVASTOPOL

(Continued from Page 1)

The British were beginning a general withdrawal toward the Egyptian frontier.

This claim was unconfirmed elsewhere, however. The Reuters (British news agency) correspondent at Cairo, headquarters of Gen. Sir Claude Auchinleck's imperial command, said Tobruk was "practically surrounded" with the coastal road the only route left open to the east.

Despite Axis armored supremacy, the British declared they still maintained superiority in the air.

The setback at two vital points on the half-moon front apparently meant that the British were now falling back on Tobruk's main defense works, where British tomies, Australians, New Zealanders and Indian troops made history with their stand against Axis siege armies last year.

Numerically out-numbered in tanks and other armored equipment after 24 days of fierce desert fighting, the British evidently elected to retire behind Tobruk's perimeter of solid fortifications.

An Italian communique said Axis armored columns had captured strong British positions in the El Adem sector and were mopping up British troops pocketed farther west in the vicinity of Ain El Gazala.

The Fascist command said Axis warplanes were blasting at British troops and lines of communications between El Adem and the Egyptian border, apparently seeking to prevent the arrival of reinforcements from the east or a retreat from the Tobruk area toward Egypt.

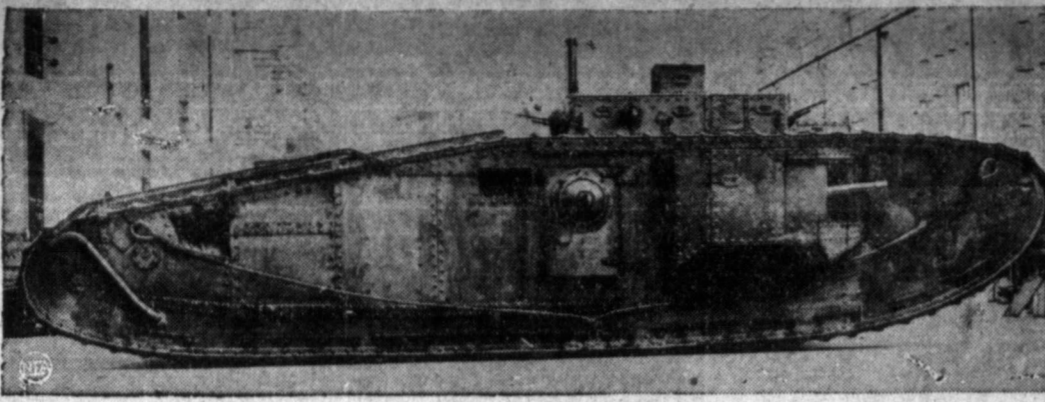

In the Soviet campaign, Russia's armies beat off a series of furious new assaults on the bloody plains and heights around Sevastopol and shattered tank-led German infantry attacks on the Kharkov front amid indications that the Nazi war machine was losing some of its knock-out punch.

The German military juggernaut that wiped out the great forts of Belgium, Holland and France with lightning speed in the summer of 1940 was reported making little headway in either of its latest Crimean and Ukraine offensives.

Soviet front-line dispatches said hundreds of German dead and burned-out tanks littered the slopes before Sevastopol. Stockholm reports said United States-built Consolidated Liberator bombers were aiding Sevastopol's defenders.

While Red army headquarters declared there was no significant

How Tanks Came of Age as Modern Weapons of War

Father of all big tanks was British Mark VIII, 44-ton monster. Lumbering along at walking speed, behemoth spat death at World War I enemies from battery of machine guns. Mark VIII carried crew of nine, shook them up unmercifully since tracks had no suspension and tank itself took every bump.

Here's the Way Leathernecks Go Ashore

United States Marines go ashore in style—lowering a 37 mm anti-tank gun behind them. The Leathernecks have at last found a car that will take all the knocks a Marine must take in fighting the Devil Dog type of warfare. This "jeep" took part in a recent Leatherneck landing maneuver.

change overnight in the 14-day-old battle, the German high command asserted that Nazi troops had breached the system of fortifications north of Sevastopol and seized important positions before the big Crimean naval base.

On the Kharkov front, Soviet dispatches said new attacks in Field Marshal Fedor Von Bock's week-old offensive were bloodily repulsed. "The enemy left 600 men killed on the battlefield, nine damaged tanks and a large quantity of arms," a Soviet communique reported. An earlier communique listed 1,500 German casualties and 15 tanks destroyed.

On the air war front, RAF bombers pounded the German U-boat nest at St. Nazaire, on the Nazi-occupied French coast, and attacked airfields and railroads in Northern France and Belgium.

St. Nazaire is one of the main bases for far-roving German submarines preying on American coast-

al shipping. Apparently beginning to feel the sting of America's rising countermeasures, the German high command for the first time noted "strong American defenses" in claiming that Nazi U-boats had sunk 12 more ships in the Caribbean sea and seven in the Atlantic.

Non-political speeches were made by Gov. Coke Stevenson, a candidate for re-election, at Rockwall, where he made an address dedicating a courthouse; at Dallas before the National Junior Chamber of Commerce convention, and at Fort Worth before the State Pharmaceutical convention.

Hal Collins, gubernatorial candi-

date who is campaigning with O'Daniel, declared himself opposed to the "political spoils men and overlordship smashed by O'Daniel" in a talk at Orange.

Collins said that if elected governor he would oppose horse race gambling, stop the squandering of taxpayers' money, oppose any efforts to restore dog racing, and impose stricter regulation on state liquor traffic. He decried roadside taverns, and promised to obtain for old people their \$15 a month in pensions, this to be matched by the federal government.

Vichy Attorney Wounded VICHY, France, June 18 (AP)—State's Attorney Palk was wounded seriously yesterday afternoon by the explosion of a package which was handed to him just as a court session opened at Besune. Authorities blamed someone bent on personal vengeance.

Pantex Employment Agent To Visit In Pampa This Month

Pampa will be visited by a representative of the Pantex Certain-tyed plant on June 29, June 30, and July 1, who will interview applicants for employment. Place will be the county court room; time 8 a. m. to 5 p. m.

Bill Stubbs is the representative coming here. Another man, Tom J. Finley, will conduct similar interviews in towns on another part of a regional tour which will begin June 26.

Purpose of the tour is to interview applicants for jobs and to secure as many workers for the plant, located near St. Francis, as possible.

While the Certain-tyed corporation maintains an office at 504 1/2 E. Taylor, Amarillo, the concern wants to contact as many possible workers as it can. There is a special need now for railroad men, mechanical and electrical workers, and truck drivers.

As far as possible, preference is shown first to those with relatives in the armed forces.

Besides Pampa, Mr. Stubbs will be at 113 W. Third street in Shamrock July 2; county court room, Canadian, July 3; Borger, location to be announced later, July 6, 7, and 8.

Other towns on the itinerary are Clarendon, Memphis, Lubbock, Plainview, Vernon, Electra, Childress, Perryton, Dalhart, Guymon and Shattuck, Okla.; Tucumcari and Clovis, N. M.

Due to national tire rationing, long-trip travel by passenger automobile has dropped 40 per cent in the U. S.

RECRUITS

(Continued from Page 1)

patrolling, and combat practice in the field. Guard duty and control of local disturbances are also a part of the organization's work.

Members are required to attend one drill a week. If additional instruction is required, guardsmen can attend the non-commissioned officers meeting, also held weekly. Regular drills are at 7 p. m. Tuesday; non-coms school, 7 p. m. Friday; both at the Pampa High school.

Applications for enlistment will be accepted by the officers: Captain E. J. Dunigan, Jr., 503 Combs-Worley building; First Lieut. Dan E. Williams, Danciger Oil & Refineries, Inc.; Second Lieut. Dan C. Kennedy, Bovaird Supply company.

These officers can also be contacted at the high school on Tuesday and Friday nights and any other information desired on the Texas Defense Guard may also be obtained from them on those nights.

First and second platoons of the company are each claiming a "win" over the other in the combat practice held Tuesday night at the rifle range.

While the second platoon advanced right up to the ravine where the first was concealed, without scouts being aware of the "enemy," the second, on the way back across the rifle range field, took much better advantage of cover, and had the edge in out-manuevering the first.

Cactus, devil's-claw, and chiggers all added their touch of realism to the practice, as the guardsmen crawled, sprinted, side-stepped, and

Senate Bloc Opposes Pipeline In Florida

WASHINGTON, June 18 (AP)—Passed by the house after long and heated debate, legislation for a large canal and pipeline across Florida and for a second pipeline between Tinley, Miss., oil fields and the Atlantic faced stiff senate opposition today.

The house action late yesterday followed previous refusal to approve the bill, which was backed by administration leaders as a safe means of getting fuel to the East.

The same issue which prompted the house fight—claims that the legislation was the opening wedge in a new drive for the construction of a Florida ship canal—was expected to come up in the senate.

fell down in the grass in their advance on the "enemy" first platoon.

THRIFT
An Old Word With New Meanings.

It's a sad truth that many people have always been a little ashamed of being thrifty. There was too much of "keeping up with the Joneses"—too little pride in living within income. All that is changed now. Good Americans are learning the satisfaction of making a little go a long way—of doing without unnecessary luxuries and services. These people by the million are joining the ranks of Penney customers—people who have always bought for cash, who have always carried their purchases home—who have always practiced the thrift to which patriotism now compels us all.

New Sealing Lids

That Make Folger Coffee Jars

Ideal for Home Canning

THESE NEW SEALING LIDS AND FOLGER JARS SAVE RUBBER, METAL AND GLASS FOR UNCLE SAM-- AND SAVE MONEY FOR YOU!

They're the new No. 63 Thrif-T-Lids... thin metal discs edged with sealed-in rubber to give an air-tight seal for pressure cooker, water bath, oven or open kettle canning.

They work just like 2-piece lids you may have used. But now you buy only this one piece—and use it under the Folger cap that comes with the coffee. They're for sale at most grocers. With these new No. 63 Thrif-T-Lids, Folger jars make the most streamlined, efficient and economical canning jars in America!

NO JARS TO BUY. Just save and use your empty Folger jars and caps. They're the new-type coffee jars—streamlined to save glass—lighter, yet stronger and better than old-style Mason jars. And they're more attractive in design.

DON'T LET YOUR EYES FOOL YOU—there's less than 1/4 inch difference in the opening of Folger's new type jar and old style Mason jars. So you can pack any kind of fruit and vegetable in the Folger jar easily and economically.

NO RUBBER RINGS, NO MASON JAR CAPS TO BUY. Instead, just place rubber-saving No. 63 Thrif-T-Lid on the jar opening. Then screw on the Folger cap (that comes with the coffee). You save that much extra rubber and metal for Uncle Sam.

Join the Thousands Changing to Folger's Deliciously Different Mountain-Grown Coffee... and Save the Jars and Caps for Canning!

You have two good reasons for switching to Folger's now! You'll not only be giving your family better-tasting coffee—but you'll also be able to can this summer in a way that will help conserve vital materials for America—and save money for you!

Thrillingly Different Coffee!

The vast bulk of the world's coffee is lowland grown, but Folger's is mountain-grown on high volcanic plateaus where nature grows a far richer flavor and tang into the coffee berries. Flavor so much more vigorous—

many women tell us they can use 1/4 less of Folger's than of other brands they've tried—and get better-tasting coffee in the bargain!

And remember—you'll be getting these useful new-type glass jars at no extra cost when you buy your Folger's! So you'll only need the No. 63 Thrif-T-Lids for complete home canning equipment! They're for sale at most grocers—so get them without delay.

Then this summer you can do your canning in the most efficient and most economical way ever known! So start saving jars and caps now—switch to Folger's today!

County Court of Gray County, Texas.

Leftlander
Leads Sport
In Control
The Pampa Oilers have a left-
handed pitcher and tonight's
game to be his night at Road Run-
ner park so every man and woman
in Pampa is invited to be on
hand to witness George Milstead
who is scheduled to oppose
Prexy Price's Pirates. George
Milstead is no youngster—he ad-
mits he's 37 years old. He started
playing ball with Dallas in
1922, went to Houston the next
year and then went to the Chi-
cago Cubs, where he pitched from
1924 through 1927.
George Milstead is known in the
baseball world as the leftlander
with the best control of any por-
tion of the field. The idea comes
even better than Rex Dibeck who
is no slouch when it comes to find-
ing the plate.
Milstead was with Tulsa until this
year when he became manager of
the Wichita Falls Spiders. He re-
signed recently to return to the
retire but Manager Dick Ratliff of
the Oilers persuaded him to come
to Pampa for the rest of the sea-
son.

Red Birds To Move In
On Fierce Rivals Today
By JUDSON BAILEY
Associated Press Sports Writer
The St. Louis Cardinals, riding the
crest of a seven-game winning
streak, will move into Brooklyn to-
day for a five-game series with the
Dodgers that may throw the Na-
tional league pennant struggle back
into a battle royal.
Through quirks of the weather
these two fierce rivals have met on-
ly four times thus far and of those
games the Redbirds have won three
—proving to the satisfaction of St.
Louis, at least, that the Dodgers'
4 1/2 game lead is an uncertain bul-
wark.
The Cardinals warmed up for to-
day's important tussle (a twilight
affair) by white-washing the New
York Giants, 3-0, on the five-hit
hurling of big Mort Cooper, who

pitched no-hit ball till the seventh
inning.
The Dodgers showed no qualms
at the approach of their challeng-
ers, turning back the Chicago Cubs,
5-1. Kirby Higbe pitched four-hit
ball for his sixth victory and would
have had a shutout except for a
honour by Rip Russell in the sec-
ond stanza.
At Detroit Paul (Dizzy) Trout,
who had been beaten five times in
a row, hurled a five-hitter to hand
the world champion New York Yan-
kees their first shutout of the sea-
son as the Tigers won, 1-0.
Phil Marchildon, the strong right-
hander of the Philadelphia Athlet-
ics, also ended a five-game losing
streak by pitching five-hit ball to
beat the Chicago White Sox, 4-3.
Elden Auster stopped a nine-game
winning streak for the Boston Red
Sox and a seven-game losing streak
for the St. Louis Browns by hurl-
ing a six-hit 8-3 victory. George Mc-
Quinn drove in three St. Louis runs
with a homer and a single. Mike
Chartak also homered for the
Browns and Bobby Doerr connect-
ed for his 11th of the year for Bos-
ton.
The Cleveland Indians noed out
the Washington Senators, 5-4, in a
night game, with Ken Keltner driv-
ing in the tying and winning runs on
a seventh-inning single with the
bases loaded.
The Cincinnati Reds captured both
ends of a doubleheader at Boston,
4-2 and 4-3, the latter game going
to 11 innings.
The Pittsburgh Pirates bunched
their hits for two three-run innings
to down the Phils, 6-1, in a night
game.

Crain Will Play
With All-Stars
DALLAS, June 18 (AP)-The Japanese
attack on Pearl Harbor halted
temporarily the great gridiron car-
eer of Cowboy Jack Crain, but he's
coming back as a guest artist.
Finishing three stellar years at the
University of Texas, he enlisted in
December to help the naval air ca-
det selection board sign up prospec-
tive cadets.
Now Crain accepted an invitation
to play with the college all-star
team, meeting the professional Chi-
cago Bears in August.

Diamond Shop Team Bows
To Mack And Paul 4 To 3
Sports Roundup
By HUGH FULLERTON, JR.
Wide World Sports Columnist
NEW YORK, June 18-Has your
softball team played a "magazine
game" yet? The idea comes
from Louisville's Bonnycastle club
and it sounds like a swell way to
make a little bit contribution to the
armed forces. . . The club merely
established an admission price for
its Saturday night, doubleheader
of "one or more" copies of a cur-
rent issue of a good magazine. . .
First night's receipts were 2149
pieces of reading matter which went
to the air base unit at Bowman
field.
Today's Guest Star
Flem Hall, Fort Worth Star-Tele-
gram: "If professional coaches
of college athletes continue to pre-
fer the services at their present
pace, the volunteers 'grandstand
coaches' (unappreciated in other
years) may have to get off their
feet and stand on their heads. . .
They can do so on the field with a
first guess."
Service Dept.
After playing in Baltimore's navy
relief game against Bob Pellen and
Co. The other night, Shortstop Jack
Conway of the Orioles decided to
enlist in the navy himself. . .
Other Greene, former Des Moines,
Ia., Golden Gloves lightweight,
claims to be the first A.E.F. mem-
ber to fight professionally on the
other side. He stopped Aircrafts-
man Frank Gilluley in three rounds
at Belfast, Ireland. . . Reports
from the marines' recruiting offices
show that a good many athletes
prefer green uniforms to khaki or
whites. The Mississippi U. football
team has contributed five members
while the new officers' candidates
class at Quantico includes Peanut
Hall, Florida linearmen and Gus Tun-
nell, Southern Methodist end.

100 Golfers
Tee Off In
Hale America
By GAYLE TALBOT
CHICAGO, June 18 (AP)-Golf's
biggest wartime show got under way
at the Ridgemoor club today as
more than 100 of the nation's top-
ranking linksmen teed off in the
opening round of the 72-hole Hale
America tournament, total proceeds
of which will go to service charities.
For four days the stars will scrap
it out, until on Sunday evening they
will draw down the winning prize
of \$1,000. The galleries, judging by the
number who pursued Bob Hope and
Bobby Jones around the fairways
yesterday, should be among the larg-
est ever to witness a golf event in
this country.
To all intents and purposes, it
really is the National Open cham-
pionship. Practically all the big play-
ers are on hand and playing the
regular open route of 72 holes. The
winner, though, will not go down in
the golf records as an open cham-
pion.
All will go the full distance. The
tournament directors, dreaming of
a total gate of more than \$100,000,
did not want any of the gallery at-
tractions eliminated at the end of
36 holes, as is customary in open
championships.
The nature of the Ridgemoor
course, too, promises to make a spec-
tacular tournament and to draw the
crowds. The players themselves are
predicting openly the winner will
need to shoot a quartet of 69's, and
the most popular guess is that he
will have to shoot a 72-hole total of
not over 275.
The lowest card of the practice
round was turned in by Herman
Barron, 32-year-old White Plains,
N. Y., pro whose 65 tied the 5-year-
old course record. Henry Picard had
a 66 after taking six strokes on one
hole.
Yesterday's exhibition, in which
Bob Hope and Ed Dudley played to
a 13-hole draw against Bobby Jones
and Gene Sarazen, proved nothing
except that the modern golf fan
will pay good money to watch a co-
median play passably good golf.

Pampa Oilers To
Be Guests At
Dinner Sunday
A group of Pampa baseball fans
are planning a stag dinner for
members of the Pampa Oiler base-
ball team at 8 o'clock Sunday night
in the Schneider hotel dining room.
Other fans who want to attend
the dinner may leave their name
and 75 cents with C. E. "Duke" Mc-
Grew or with Mrs. Marian Parks,
day desk sergeant, at the police sta-
tion. Deadline for making reserva-
tions is Saturday noon and an
extra charge of 25 cents will be
added for those who do not make
reservations in advance.
The dinner is being planned in
appreciation of the way the boys
are playing ball and to let fans
get acquainted with the players.
They're a swell bunch of boys.
Anyone desiring to take a base-
ball player as his guest may leave
the money for an extra plate.
"Deadline for making reserva-
tions will be Saturday noon and
not a minute later." Vice-president
Bob Posey said today.

Equalization Board Will Meet Tuesday

First meeting of the city board of equalization will be held next Tuesday, W. C. deCordova, city tax officer, said today.

The meeting is not for taxpayers, but for the members of the board only. Taxpayers will have their turn later after the board has completed its study of valuations. This should be finished around July 1, and taxpayers will probably be heard beginning 10 days later.

Members of the board, named at the city commission meeting this week, are Charles Ward, chairman, Erving Williams, and D. N. Atchison.

Other business transacted at the city commission meeting included acknowledgment of a letter from the district office of the Texas Railroad commission, recorded in the minutes which means official acceptance of their new quarters in the city hall; payment of monthly bills totaling \$5,690.68; acceptance of the auditor's report; and announcement of a call for bids to seal coat Highway 60 throughout the city.

Bob Huff, deputy supervisor of the Texas Railroad commission, wrote the city commission that he was highly pleased with their new location in the city hall.

Total cost of the new offices for the railroad commission was \$4,030.35, which is to be repaid to the city at a rental of \$75 a month.

This includes carrying out the agreement to pay one-half of the contract price of remodeling the third floor of the city hall, amounting to \$3,681.22, plus telephone and buzzer system, \$83.45, and fluorescent lighting \$265.68.

In accepting the report of R. H. Nestel on the city finances for the fiscal year, the city commission voted to retain him as city auditor for the current year, at the same annual salary of \$900.

BUY VICTORY BONDS
The average price of gasoline in 50 representative U. S. cities on May 1 rose about one-tenth of a cent from the April 1 price.

BUY DEFENSE BONDS
In a single decade approximately 300,000 miles of roads in the United States have been improved with higher types of surfacing.

Special Deputies To Meet Friday Night

Sheriff Cal Rose today called for all special deputies to be present at a meeting to be held at 8 o'clock Friday night in the county court room.

Purpose of the meeting will be to make further study in methods of combating possible sabotage within the county and to study other defense topics.

"I want every special deputy who possibly can to attend this meeting," Sheriff Rose said today. "There are about 100 special deputies in the county and they should be present at this meeting."

The sheriff, Roy Pearce and James Barrett, regular deputies, attended the FBI school of instruction in Amarillo Tuesday.

Albuquerque Will Play in Amarillo

DALLAS, June 18 (AP)—President Milton Price of the West Texas-New Mexico league said today he had granted a request for transfer of the next three Albuquerque-Amarillo games to Amarillo.

Harold Miller, co-owner of the Albuquerque club, asked Amarillo for transfer of the games of June 18, 19, and 20 because the New Mexico team was in dire financial straits. Amarillo in turn communicated with Price.

Squatters Buy Club

WILSON, N. C., June 18 (AP)—For ten years a group of men met from time to time in front of Harry Walls' tailor shop and talked of the weather, politics and world problems. In the winter, they sat inside. They called themselves the Squatters' club.

Walls moved away and the men, afraid a new proprietor might not like their company, chipped in and rented his shop quarters.

Now there'll be no business there except talking.

Again Dallas Beals Leaders Of League

(By The Associated Press)

The San Antonio Missions threatened the Houston Buffs, recently installed in second place in the Texas league standings, by eking out a 2-1 decision over Tulsa last night, while the Buffs were losing 5-4 to Oklahoma City. Only one game separates the Missions from the runner-up spot.

The top league spot is still securely in the possession of Beaumont, although the Exporters met their second consecutive reverse at the hands of the Dallas Rebels, coming out on the small end of an 8-4 score.

Shreveport clipped the Cats in both ends of a doubleheader at Fort Worth, winning the opener 7-6 and the nightcap 3-1.

The Missions, playing at Tulsa, collected only four hits, but made them count for two runs in the second inning. Tulsa pushed across its lone run in the first.

Mervyn Connors came roaring out of a batting slump to lead the Rebels to victory over Beaumont at Dallas. Connors slammed out two homers, one with the bases filled.

Dizzy Dean's little brother, Paul, fared badly against the Indians at Oklahoma City. He was forced to leave the game in the sixth for his third defeat, compared with eight wins for the season.

For writing last line to this EASY VEGETOLE JINGLE
Since Star Lard and shortening in tin Are gone till the Axis gives in—Vegetole I'll be buying, For all baking and frying.

SEE FREE ENTRY BLANK BELOW. CONTEST CLOSES JULY 12, 1942

PURPOSE OF CONTEST: To induce you to discover Texturated VEGETOLE, the only shortening that comes in the economical self-measuring carton!

HOW TO WIN A \$1000 BOND! Think of the thrill of owning a \$1000 U. S. War Bond! . . . your chance for real security . . . money that's piling up interest for you and helping Uncle Sam at the same time! It may be yours this easy way! . . .

EASY TO WIN . . . Get your whole family in on this big Vegetole Jingle Contest. Even a child may win. All you do for a try at the \$1000 War Bond and the 141 other prizes is to write a last line to the jingle above. It's easy, it's fun, it only takes a few minutes!

ONCE YOU'VE TRIED VEGETOLE, you'll find last lines come easy. Vegetole not only makes wonderful cakes and deep fried foods—it makes prize-winning pies and biscuits! And Vegetole is the only shortening that comes in a self-measuring carton. You just slice yourself a cup—or half a cup—without using a measure. Vegetole is Texturated, that means it's pre-creamed so it makes finer textured, lighter pastries.

BUY VEGETOLE . . . AND ENTER NOW! Send in as many last lines as you want . . . just be sure each one is accompanied by the Money-back Guarantee seal (or facsimile) from a Vegetole carton.

HINTS ON WRITING LAST LINES! Read the jingle over several times, then think of all the words you can that rhyme with "tin" and "in." Use one of these words for the last word in your last line. For example: "That will simply delight all my kin." Send in all your last lines. . . The one you think can't win may bring you the \$1000 bond. Fill out and send your entry today!

FREE ENTRY BLANK, CLIP NOW!

EASY RULES

- Simply write or print your "last line" on the entry blank or on any ordinary sheet of paper. Use sufficient words to complete the jingle and make sure the last word in your last line rhymes with "tin." Print your name and address and the name of dealer from whom you purchased Vegetole on your entry.
- Mail to Vegetole Judges, P. O. Box 5112, Chicago, Illinois. Your entry must be postmarked before midnight, July 12, 1942. Send as many entries as you wish, but with each, send the "Money-back Guarantee" seal (or facsimile) from a Vegetole carton.
- There will be 142 prizes in this contest. 1st prize—\$1000.00 U. S. War Bond; 2nd prize—\$500.00 U. S. War Bond; and 140 prizes—each a \$25.00 U. S. War Bond.
- Entries will be judged for uniqueness, suitability and aptness. Decisions of the judges will be final. Duplicate prizes in case of ties. No entries returned. Entries, contents and ideas therein become property of Armour and Company.
- Any resident of the continental United States may compete, except employees of Armour and Company, its subsidiaries, its advertising agency and their families. Contest subject to federal, state and local regulations.
- All prize winners will be notified by mail approximately 2 weeks after this contest closes. Complete list of all winners will be sent on request.

Since Star Lard and shortening in tin Are gone till the Axis gives in—Vegetole I'll be buying, For all baking and frying.

Salvage Rubber in Texas, Says Moody

SAN ANTONIO, June 18 (AP)—Dan Moody, former governor and candidate for the United States senate, en route late yesterday from Houston to El Paso, took time out to offer the suggestion that rubber be reclaimed here in Texas from the accumulating scrap heaps as a result of the present rubber campaign.

"Texas is collecting hundreds of thousands of tons of scrap rubber," he said, "and it begins to look like Texas will lead the nation in piling up a huge stockpile."

"I have an idea," Moody declared. "Salvage plants grind these tires up and then mix it with sulphuric acid. The acid eliminates the fiber in the tires and leaves the pure rubber," the former governor explained.

"We manufacture lots of sulphuric acid in Texas. Why can't we get some of the grinding machinery down here and salvage this rubber right here in Texas."

"We can keep the pure rubber that is needed in the state for use by those who have priority ratings and thereby save a lot of useless transportation," Moody suggested.

New Device Will End Tin Shortage

PITTSBURGH, June 18 (AP)—A new mining device which may relieve America's shortage of war-important tin was announced today by Westinghouse Electric and Manufacturing company.

G. W. Penney, manager of the company's electro-physics division, said the apparatus separates tin from low-grade ore found in North America.

High-grade ore in Malaya and the East Indies yielded much of the nation's supply, the company pointed out, until the Japanese invasions cut off imports.

The Westinghouse device, called an electro-static separator, was announced as metallurgists of the Federal Bureau of Mines arrived to watch a laboratory demonstration today.

Army To Have Four Months Maneuvers

WASHINGTON, June 18 (AP)—Four months of intensive war time maneuvers, stressing desert and jungle fighting and joint operations by air and ground forces, will open for a large portion of the expanding army July 13.

Secretary Stimson announced this schedule today. Six army corps, each of two or more divisions, will undergo the training, in the South and West.

Aimed at providing "the most thorough training ever developed for American troops," the maneuvers will help condition troops "both mentally and physically for the job that lies ahead," the war secretary said.

The schedule for the maneuvers, Stimson said, was arranged so that use of air and armored forces would not conflict in the different areas. Only more seasoned troops will take part.

The schedule:
Second army corps, July 13-September 6, Carolina area.

Eighth army corps, August 3-September 20, Louisiana area.

First army corps, August 17-October 11, Carolina area.

Seventh army corps, August 24-October 18, desert training center.

Third army corps, September 14-November 8, Camp Forrest, Tenn.

Fourth army corps, September 21-November 8, Louisiana area.

Public Appearances Out For Joe Louis

WASHINGTON, June 18 (AP)—Secretary of War Stimson said today that Heavyweight Champion Joe Louis would make no more public appearances, except those strictly for the armed forces, until he completes his basic military training.

Louis, who is Corporal Joe Louis Barrow in the army, now stationed at Fort Devens, Mass., has been unable to keep up with the army's military training program, the secretary said.

Pampan Predicts Addition Of Many Women To Payroll

A prediction that women will become increasingly important in the war labor picture was made today by Lonnie Hood, local office manager of the United States Employment service, who said that the addition of thousands of Texas women to Texas payrolls is a distinct probability as war production soars and the reserve of qualified male workers dwindles.

Mr. Hood quoted J. H. Bond, director of the United States Employment service for Texas as saying that employers now using women workers should review their needs and the requirements of their jobs to determine the degree to which women workers may be utilized.

"The necessity for widespread use of women workers," said Mr. Hood, "apparently is nearer at hand than many employers realize. The problem may not be evident in some localities, but a broad survey of the Texas labor market reveals sharp reductions in the supply of many types of male workers. Local employers should recognize the implications of this broader situation, which does not affect them directly, and lay their plans accordingly."

Mr. Bond's statement that three million entirely new workers must be drawn into the nation's war industries during 1942, over and above the seven million who will enter war production as the result of plant conversion. It appears, he said, that two million of this number must be women. Other women must replace men moving out of non-war industries.

"In the last war," he said, "proportion of women employed in leading industries more than doubled. They were employed in a broad range of occupations, including even some requiring heavy manual labor. An almost unlimited number of occupations are suitable for women, and in many cases jobs which are not suitable can be broken down into component tasks most of which can be performed by women after relatively short periods of training."

The employment service has made a nationwide survey of women in war and non-war industry and is in position to advise employers, said Mr. Hood in which occupations have definitely proved themselves to be capable. The demand for women workers in war industries already has resulted in the establishment of training facilities to prepare them for specific occupations, and further facilities will be provided upon demand, he asserted.

Kimona Sleeve

Let's have cool comfort in the dresses we wear every day! The kimona sleeve does the trick in this simple style—relieves the shoulders from tight sleeves and lets in the air. Neckline is very open, too, and you'll find the front button opening a special comfort in getting the dress on and off during the sticky days. The decorative material is the clever tulip-shaped pocket to be outlined with contrasting braid.

Pattern No. 8201 is in sizes 12 to 20, 42, and 44. Size 14 requires 4 yards 35-inch material, 10 yards bias fold to trim.

For this attractive pattern, send 15c in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

Patterns for every sewing need are to be found in our summer Fashion Book. Lingerie, aprons, youngsters' styles—dresses of many, many designs. Send for your copy today.

Pattern, 15c; Pattern Book, 15c; One Pattern and Pattern Book, ordered together, 25c. Enclose 1 cent postage for each pattern.

Swimming Party And Dance Given By LaRosa Group

LaRosa sorority entertained with a swimming party and dance at the municipal pool this week.

Music for the event was furnished by Glenn Dawson.

Club members present were Ernestine Crane, Elaine Dawson, Molita Kennedy, Barbara Mathews, Betty Jean Myers, Alysne Osborn, Robbie Lee Russell, Fern Simmons, Sally Simmons, Virginia Washington, and Mary Frances Yeager.

Chaperones were Mrs. James Washington, Mrs. Pete Wilborn, Mrs. W. F. Yeager, Mr. and Mrs. Glenn Dawson, Oscar Hinger, and Mrs. Claud Lard.

Attending were Sally Simmons, Pauline Forman, Harris Lee Hawkins, Wayne Hillard, Glen Stafford, Leslie Burge, Bill Forman, Molita Kennedy, James E. Foran, Jr., Evelyn Barnes, Mary Frances Yeager, John Schwind, Tommy Mills, James McMullen, Bill Washington, Hansel Kennedy, Harry Kerbow, Charles Beach, Eugene Winget, Ernest Miller, Wemya Vaughn, Don Johnson, Paul Traywick, Homer Johnson, Frank Gausnaullis, Frances Deering, Fred Thornberg, Erlene Shotwell, Betty Johnson, Phyllis Perkins, Betty Wine, Bill McNutt, Raymond Jones, Gene Lunsford.

Flerty Lane, Imogene Sperry, A. C. Miller, Harold Mitchell, Grover Heskell, Georgia P. Overstreet, H. E. Crocker, Pinkie Foster, Ed Taylor, J. V. Adams, Larry Fuller, Betty Lee Berry, Erna Lee Kennedy, Marjorie Gillis, Mary Tubbs, Robbie Lee Russell, Verna Rose Berry, Doris Alexander.

Flint Berlin, Jimmy Berry, Billy Coy Sheehan, Nathan Turabo, Roy Carpenter, Bill Elkins, Otis Davis, Jerry Kerbow, Bill Arthur, Jimmy Mosley, R. D. Redus, Mickey Rafferty, Buddy Simmons, Mary Gurley, Doyle Lane, R. L. Edmondson, Charles Hillard, Melvin Clark, and Joe Rogers.

Girl Scout Leaders Club To Meet Friday Morning In City Park

Girl Scout Leaders club will meet Friday morning at 11 o'clock on the west side of the city park.

Each member is to take a nosegay lunch.

BPW Officers To Be Installed At Breakfast Sunday

Installation of officers for the ensuing year will be conducted by Hatilu White of Amarillo, state president of Texas Business and Professional Women, when members of the Pampa B.P.W. organization meet at the Schneider hotel Sunday morning at 8:45 o'clock for breakfast.

Among the contributions made by the B.P.W. club here during the past year are the following: School cafeteria lunch—fund, \$244.22; Thanksgiving baskets, \$10.25; clothing for girl, \$9.40; USO, \$40; Red Cross, \$25; Salvation Army, \$5; recreational fund, \$10; safety awards, \$10; British and Chinese nurses, \$20.85; cancer control, \$6; and sending representative to Bluebonnet Girls State at Waco, \$30.

In addition to these donations by the club as a whole, every mem-

Corp. Long Makes Best Lemon Pie At Camp Walters

MINERAL WELLS, June 17 (AP)—Corporal William L. Long, 24, hoped his mother in Garland was listening on the radio last night.

Corporal Long was awarded a gold loving cup for baking the best lemon meringue pie at Camp Walters.

It was a real creation of culinary art—crisp in crust, rich in lemon content and high topped with fluffy meringue.

Ninety-six pies were on display at the Camp Walters Service club. Pies that didn't take a prize went to visiting soldiers.

Miss Walters And Doyle Mullennix Wed In Skellytown

SPELLTOWN, June 18—Miss Neta Walters and Doyle Mullennix of Borger were united in marriage on Sunday, May 31, in the home of the bridegroom's sister, Mrs. C. L. Querry, of the Cabot camp in Skellytown, with the Rev. R. G. Bristler, pastor of First Baptist church of Skellytown, reading the single ring ceremony.

The bride is the daughter of Bert Walters of Henrietta, Okla., and Mr. Mullennix is the son of Mr. and Mrs. G. W. Mullennix of Perrin.

Forming a garden setting, an attractive arrangement of flowers and fern in baskets and pottery vases were placed about the room where the twilight ceremony was performed.

The bride wore a white ensemble with navy trim and matching accessories. Her corsage was of pink and white carnations.

Attending the couple from Borger were Miss Oleta Walker and Miss Robbie Atchley. Miss Walker wore a two-piece ensemble of dusty rose with a corsage of carnations, while Miss Atchley's dress was of black and white crepe with a corsage of white carnations. Mrs.

Querry was dressed in a royal blue crepe with white accessories.

A dinner was given for the bridal party following the ceremony. After a two-week trip to Mineral Wells, Dallas, and Oklahoma City, the couple is at home in Borger where Mr. Mullennix is employed by the Columbia Carbon company.

Mrs. Mullennix has been honored with several pre-nuptial parties in Borger, one of which was a Pyrex shower from her Sunday school class of the First Baptist church of Borger.

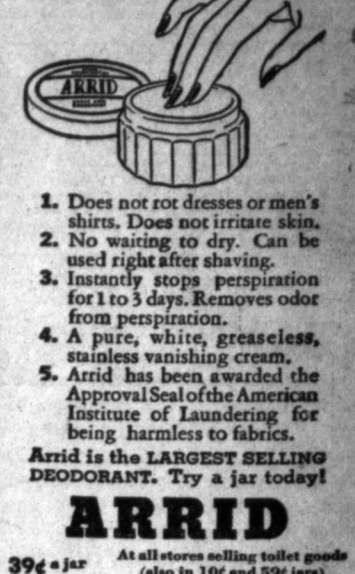

In the wedding party were Mr. and Mrs. Doyle Mullennix, Mr. and Mrs. Guy Rice, Mr. and Mrs. C. L. Querry, Mrs. R. B. Bristler, and Misses Oleta Walker, Robbie Atchley, Oulita Querry, Norma June Rice, and Berna Deaderan Querry.

Loading The Cannon

The nation's leading retailers recently met in Chicago with representatives of the government. The topic under consideration was how retailers can give maximum aid in the campaign to sell war stamps. The retailers pledged themselves to sell \$100,000,000 worth of these stamps each month, beginning with July. A practical promotional plan, available to all stores, has been created, and it can be easily adapted to the needs of both large and small retailers.

The importance of this is obvious. It is estimated that 40 per cent of all war savings must come from the sale of stamps. The treasury is depending upon the retailers to reach the 25,000,000 Americans who cannot be included in payroll savings plans. When war stamps were first issued, retailers of all kinds promptly stocked them and promoted their sale. Now those efforts will be greatly intensified.

The promotional campaigns will have many phases. Newspaper advertising will be widely used. The radio will be employed. Attention-demanding window and interior display posters will be distributed to the participating stores. Every consumer will be urged to take part of his change in stamps.

The retailers involved will include the chain systems as well as thousands of independent stores. They deal in food, clothes, general merchandise, hardware—anything and everything that the consumer wants and needs. No industry is in more direct and constant contact with the great American buying public. And none is more determined to do its full share on behalf of the war effort.

Buy stamps from your retailer. You'll never miss the dimes and quarters so spent. And each of those dimes and quarters will help produce a weapon to use against the Axis.

Sound Theory

Recent supreme court decisions, notably that on the Jehovah's Witnesses case, suggest that we cannot abolish split decisions by changing the court's personnel. Nine smart men, well-informed and accustomed to forming their own conclusions, inevitably will differ often on moot points, which supposedly are the only matters which reach the highest tribunal.

The decisions indicate also how deep-grained is the American concept that the courts are not super-legislative bodies—that within certain broad bounds, the people must be permitted to suffer for the errors of their chosen lawmakers. That was the expressed theory of the "conservatives" or "reactionaries" who used to make up the court; that is the theory of the "liberals" or "radicals" appointed by President Roosevelt. It is a very sound concept.

Today's War Analysis

By DeWitt Mackenzie, Wide World War Analyst

The violence of the fighting in the various theaters of combat, as the Axis strains to get its war-machine into top speed for a killing, is producing the usual heavy fluctuations of emotion among the Allied peoples, and for no vital reason there has been a fair amount of gloom knocking about the last day or two.

Without possible doubt we're going to get a lot more of the sweat and blood and tears that British Prime Minister Churchill promised long ago, but there are no present signs that we shall see anything worse than the war already has produced. After all, the collapse of France and Belgium, the crimson sands of Dunkerque, the sweep of the Hun forces across the Russian steppes last summer, and Pearl Harbor were tough spots.

The Allies are encountering some setbacks, but from my observation post the conflict has appeared to be moving along just as it should. We've taken some hard knocks and handed out some but, after all, war is that way, you know. Thus, it is with some concern that one read Premier Churchill's gloomy warning to Australians yesterday.

Common Ground

By E. C. HOLES

"I speak the plain-word proverbial. I give the sign of democracy. By God! I will accept nothing which all cannot have their counterpart on the same terms."—WALT WHITMAN

OUR GOVERNMENT HAS CORRUPTED LABOR UNIONS

Few people realize the extent to which a government can corrupt people. A concrete example of this is the extent to which our government has corrupted labor unions.

Before our government passed discriminatory labor laws, labor unions were performing a service for their fellowman. They were of service by helping find better jobs for workers, by paying dues to help each other when in difficulty and by helping educate, each other. Then they were not able to force people into unions, as they do now days. They had to survive on their own merits.

It usually happens that when government steps in, it corrupts the very organization and the people it would help. Our government has corrupted labor unions by passing discriminatory laws which give labor union members rights without responsibilities and duties; which give them special privileges.

The first labor-union corrupting law passed by our government was the Clayton Amendment to the Sherman Anti-Trust law, passed in 1914. This, in effect, told the workers that they could combine and fine any worker who produced for less and not violate the Sherman Anti-Trust law. This, thus, gave the workers and employers different rights. Employers were guilty of a crime if they did the very same things that labor unions were permitted to do, without being guilty of a crime.

The next corrupting labor union law was the Norris-LaGuardia law. This prevented employers and employees from having the right to enter into a contract that the employee would not join a labor union, while they were permitted to enter into a contract to join a union. And if it is right for one group to be permitted to join one kind of an organization and enter into a contract to do so, it is equally right for others to be permitted to enter into a contract not to join a union. To take this right of contract away, is a discriminatory law.

But probably the most corrupting law ever passed in the United States is the Wagner law. This prevents the employers from having the right of choice as to whether or not he prefers a union man or a non-union man. He is permitted to discriminate in favor of the union man but he is not permitted to discriminate in favor of the non-union man. This makes labor members princes of privilege. It gives them rights which other people do not have.

And when the government, by its laws, makes classes out of its citizens, it is only natural that those who have the law in their favor soon become tyrannical and corrupt.

Had it not been for these discriminatory laws, labor unions would not have been demanding and getting wages out of proportion to what other workers are able to get for the same skill. Thus, this runs up the cost and lowers the real wages of other workers by an amount equal to the extra labor union wages. Nothing is more American and more unfair than for some workers to receive more for their work than other workers can receive for the same skill.

It is little wonder we have had the worst and longest depression in our history—when our government is a party to exploiting and corrupting while its sole purpose should be to prevent exploiting and corrupting.

You Can't Win War Without Army Mule

ST. LOUIS, June 18. (AP)—Ask any veteran mule trader and he'll tell you the army can't win the war without Missouri Jack.

Mules, the motive power for the AEF in France, fell into disrepute with the surge of the motorized German blitzkrieg, but are coming back again, even though for non-military tasks than formerly.

Dealers in the national stockyards have been informed the army plans to replace more than 1,500 automobiles and trucks with animal-drawn vehicles as a means of saving 315,000 pounds of rubber annually.

Civilians already are a jump ahead of the army in turning to horses and mules because of the tire situation.

Farmers, suburbanites and business concerns are booming the market, paying prices 25 per cent higher than last year.

Six hundred animals were sold one day this week at the Sparks-Norris Commission company's auction, compared with a day's sales of only 100 two years ago when the business went into the doldrums after the fall of France.

Good work horses are bringing as much as \$150, saddle horses as high as \$200, colt mules \$150 and common mules \$85.

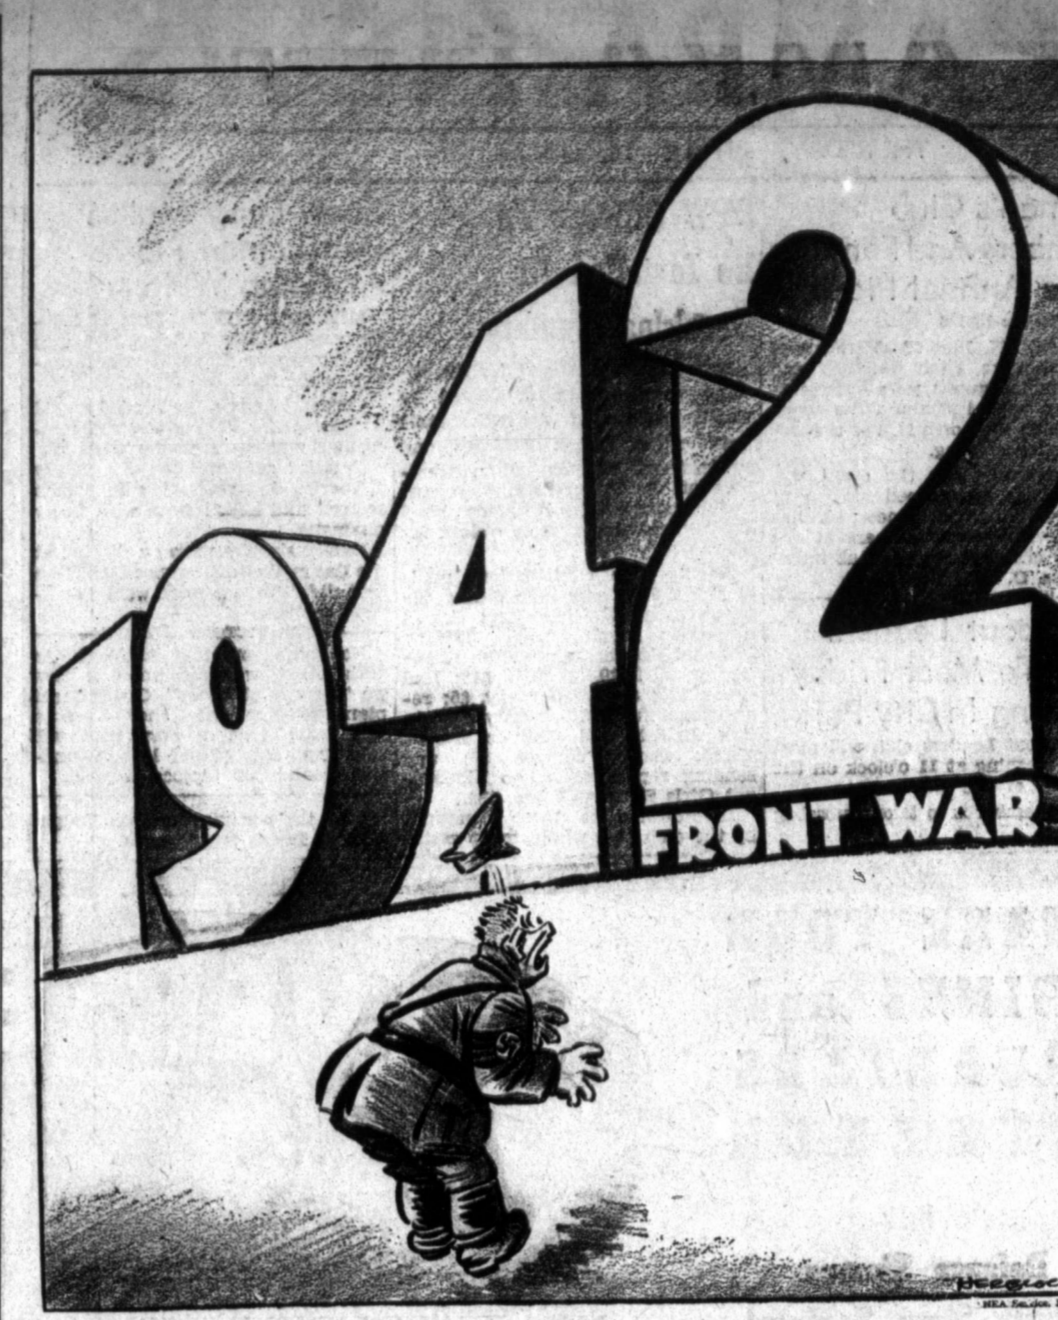

Business would be even better, but for one bottleneck, says W. F. Sparks, partner in the commission firm.

"People can't get bugles or wagons. If that industry would do a comeback, we'd have a land office business."

Increase in Armored Divisions Expected

DALLAS, June 18. (AP)—Major Gen. Jacob L. Devers, commanding officer of the armored forces, Fort Knox, Ky., said today that an increase in armored divisions of the U. S. Army could be expected right away.

Such divisions now number eight. "There's plenty coming up," said General Devers, but any further announcement should come from Washington.

Around Hollywood

By Paul Harrison

HOLLYWOOD, June 18.—Times being what they are—with silk scarves and silk stockings costly, but with feminine vanity undiminished—this department offers a bit of glamour today by courtesy of Maurice Seiderman, celebrated make-up man of Hollywood.

This has to do with tanning legs. Sure, I know everybody's legs can be tanned by simple exposure. But this is painless, fairly rapid, lasts a long time, permits even coloring and provides any desired shade from pine to mahogany—and, I'm not talking about wooden legs. Besides, being partly a dye job, it somehow brings a suggestion of texture.

You use tea. Unfortunately, tea also is getting scarce and is likely to be rationed. But silk is used to make parachutes and other militarily essential items, so I don't hesitate to nominate tea as a substitute for silk stockings.

POWERFUL BEER

You use black tea unless you want to experiment with green tea and maybe obtain a sort of chartrouse effect. Mr. Seiderman's researches don't include data on the latter. The black tea is brewed very strong and astringent enough to pucker in the top of the teapot, almost. For beverage purposes, tea shouldn't be boiled; but for legs, it should. Boiling extracts the tannin.

Seiderman says the ideal way for even application is to boll up enough of the stuff to stand in above the knees. This doesn't require a barrel of the brew; a pair of fisherman's wading boots, or even one, would make a good tank. He suggests that several gals could club together for economy, each one alternately standing in the tea for a few minutes and then standing in the sun. A small quantity will serve, though, if dabbed on with a cloth, or sprayed on and allowed to dry.

In any case, applications of tannic dye and sunshine can be continued to produce the desired shade. The makeup expert says that in his native Russia, strong tea was used as a remedy for burns on account of the tannic content; that it is a fine preventive of sunburn if applied in advance. Naturally it works just as well on arms and shoulders.

GODDARD'S GO BARE

Paulette Goddard is the only actress I know who for years has gone stockinged. Many others are doing it now, though only a few have heard about Seiderman's tea treatment. The majority still use commercial preparations for leg make-up. He says that although the patent cosmetics are all right, some are too weak, and to give quicker action they can be boiled to get a lot of the water out.

Maury Seiderman produced the amazing age changes for Orson Welles' portrayal of "Citizen Kane." These included everything from blood-shot contact lenses on the eyeballs to a progressively sagging, flabby face and wrinkled hands.

I'm not at liberty to tell about a somewhat similar disguise he's now doing for an actress.

Boom! Boom! Clang!

TACOMA, June 18. (AP)—Brrr! Bang! Clang! went the wedding bells.

On his marriage license application Robert W. Harkins listed his occupation as shipfitter.

With his aide and pilot General Devers arrived late yesterday from an inspection of the sixth, armored division at Camp Chaffee, Fort Smith, Ark. He said his party would go from Dallas to Camp Hood, near Temple.

The general said he would tell the U. S. junior chamber of commerce convention in an afternoon speech today that in his opinion this nation and its Allies are "up against a real proposition in this war, and we haven't even got started good."

People You Know

By Archer Fullingim

Correspondents came back to Texas from the war zone last week, and rather startled Texans by saying that they were complimentary, a charge that Texans indignantly deny, but are we complacent? Let's go into that for a minute. There's been a USO drive going on in Pampa for several weeks, and we haven't raised the \$4,800 quota yet. Maybe we are complacent, even those of us who have given. Maybe we ought not to be complacent about those who have NOT given.

Who has given the \$4,000 that has been raised? Oil field workers, wage-earners, small-salaried workers, many of whom had their donations taken out of their checks. Who has not given? Sad to say, many of the men and women who had most to be glad to have not given. The records in the county judge's office shows that the 15 most prominent members of that group have not given a thin dime. Where do they live? East Francis, East Kingsmill, N. Ward, Mary Ellen Christine, all over town. . . . Maybe we ARE too complacent.

My favorite columnist, Ed Bishop of The Dalhart Texan, last Saturday wrote a piece in his column, Ed Aches, which will fit in right nicely. . . .

And the "kid" who played soldier around our house is making trip after trip to Pearl Harbor. . . .

And the tall aviator who the town worshipped because of his ability, modesty and daring has already "gone west." And the kids who used to prow around on the streets at night and drive cars too fast on main streets are captives of the hated Japs. And the boys who used to shift ice over at the ice docks are listed as "missing in action." . . . They are now in uniform in Iceland, Australia, Florida, California, on the ships and manning the airplanes.

"This is war and regardless of how much you think about it and how much sacrifice you think you are making to help win you feel so little, so useless, so helpless when these things come home to you. The kids of yesterday are fighting, dying, suffering—but wherever they are whatever they are doing their spirit is high. They know we'll win.

They believe those of us back home are doing our part. They would prefer to be among us, living in the peace and happiness of contented people. But none of them wants to be at home now. They are right where they want to be, and they're happier there, more contented and will be until this terrible thing is over. Then they'll break all records coming home. And they are going to want to come home to a town they will still be proud of.

They're GOING TO CHECK OUR WAR RECORD, just as closely as we check theirs. They're going to want to know if we let them down. We've got to answer to them when they come home. . . . Maybe public opinion should be turned on those high and mighty people who are letting our boys down.

It takes everybody to win this war. Men fly the planes, and we should not forget that it also takes men to build those planes. . . . Back in Pampa now is Seth Cox, who works in the Consolidated plant at San Diego. . . . Seth is a riveter and he worked on the bomber that sank the Bismarck here or a few days.

Behind The News In Washington

By PETER EDSON

The Supreme Court, in its hurry to get away on that nice long summer vacation, left behind it three wage-hour law decisions that will have the labor lawyers scratching their heads until long after the nine young men get back on the job in October. As far as the wage-hour division of the Department of Labor is concerned, it has been thrown into almost complete confusion because, from its point of view, two of the decisions simply can't be reconciled.

On June 1, which was supposed to have been the final decision day of the term, the Supreme Court handed down its opinion in the so-called Kirschbaum case. The effect of the decision was to classify as employed in interstate commerce, and therefore eligible for wage-hour law minimum benefits, all maintenance men like janitors, watchmen, elevator operators, building engineers and messengers. The general principle established is that an employer doesn't have to have physical contact with the goods going into interstate commerce in order to be subject to the law's provisions. For instance, a building owner whose tenants are engaged in interstate commerce is considered to be in interstate commerce himself.

COMES CONSTERNATION

The Kirschbaum decision's implications are even greater: Local utilities selling gas or power to a manufacturer of goods going into interstate commerce would also be included, even though none of the electric power or gas sold by the utility went out of the state.

Employers hired by advertising agencies would be covered if the goods advertised—not necessarily the ads themselves—crossed state lines.

And so on. Those are just a few of the reasons for all of the consternation which this Kirschbaum case decision has thrown into the ranks of employers who had previously considered themselves immune from the minimum wage, overtime and 40-hour week provisions of the wage-hour law, now tremendously broadened in its application. So broadened, in fact, that the only employers really exempted were operators of "service establishments" like barber shops, cleaning and dyeing establishments or restaurants.

All this was on June 1. But the Supreme Court had two more wage and hour cases up its voluminous black sleeve, and so, to clear the docket, it stayed in session another week, to June 8, doing overtime without extra compensation itself to hand down opinions in what will probably be known for short as the Overnight and Belo cases.

In the Overnight Motor Transportation company case, the court held that the wage-hour law provides for compulsory payment of time-and-a-half for overtime, whether the employee is making well above the minimum wage set by the law, or not. The Overnight company contended that compulsory time-and-a-half for overtime if the employer's regular pay amounted to as much as or more than the minimum 40 cents an hour for 40 hours plus 60 cents for the overtime. Thus, if a man's regular wage were \$40 a week, he wouldn't have to be paid overtime if he worked a 50-hour week, because 40 hours at 40 cents plus 10 hours at 60 cents adds up to only \$22. But the court said in effect, no. The man should be paid \$40 for his first 40 hours, plus overtime for 10 hours at the rate of \$1.50 an hour, or \$15. This is the way overtime has usually been computed, so there was no great surprise or shock in that.

COMES CONFUSION

But along comes the case of the A. H. Belo corporation, publishers of the Dallas Tex. News. The Belo corporation had taken the trouble to work out a contract with its employees to do practically the same thing the Overnight company tried to do, without contract. Under the Belo contract the employees were guaranteed a certain minimum salary, in excess of the minimums of wage-hour law. For every hour the employee worked, he was credited with one-sixtieth of his base pay. The one-sixtieth part was purely optional and the fraction could have been one-fiftieth or one-hundredth or anything. Anyway, if the employee worked only 40 hours, he still got his minimum base pay. Say it was \$60 a week. But if he worked 50 hours or 60 hours, he still got only \$60, and his overtime didn't begin till he had worked more than 60 hours.

In the Belo decision, the Supreme Court ruled this practice okay. And if you can reconcile that opinion with the Overnight opinion, you belong to the Supreme Court jury.

In the Kirschbaum and Overnight decisions, the court had set wage-hour administration up on a firm foundation. In the Belo decision, the question is whether the foundation has been knocked from under the wage-hour law.

WASHINGTON EDICTS

If you hooked your typewriter after March 13, you don't have to pay interest on the loan when you redeem your property. . . . Rotenone may be used to treat cattle for grubs but may not be used on citrus fruits. . . . It's again okay to use natural resins in finishes for playing cards and toys. . . . The pig bristle order has been revised. . . . Temporary telephone installations may now be replaced with permanent equipment.

BUY VICTORY BONDS

Another one of the important services rendered to save time and material in time of war, is propeller blade straightening. About 80 per cent of all blades returned for repairs are given many more hours of useful wear.

Yesteryear In The News

Ten Years Ago Today

First load of 1932 wheat was brought in by Alvis Smith from the C. S. Barrett place southwest of Pampa. The 120-acre field had been planted and harvested by Alvis' father, R. A. Smith.

Five Months Ago Today

Ray Monday, KPND announcer, returned from a three-day trip to Dallas' Pan-American exposition.

Three 16-year-old boys were amateur Sherlock Holmes in working on a case that resulted in charges of illegal possession of liquor being filed against two men. The boys were Leonard Hall and Vernon Dickinson, both of Pampa, and J. O. Harvates, Jr., visiting here from Lubbock.

Office Cat . . .

The flighty young girl looked real serious as she prepared for a talk with her father.

Daughter—Dad, I know I have been a trial to you, but I have decided to do something useful. I want to settle down and raise chickens.

Father—Er, a very worthy thought, my girl. But don't you think you ought to start out on something easier. Owls, for instance. Their hours would suit you a lot better.

Old Colored Mammy—I want a ticket for Magnolia.

Old Colored Mammy—She's settin' over dar on de bench.

Mother—What's the idea of poking the broom in the baby's face this morning?

Lucy—I'm afraid I can't trust my boy friend any more.

Rose—What has come over him?

Lucy—Lipstick, powder and perfume that I don't use.

Mistress—Susie, go and see if the cake's done. Stick a knife in it. If the knife comes out clean, it's done.

Susie (returning some minutes later)—The knife come out as clean as a whistle, so I stuck the rest of the knives in it, and the forks and spoons, too.

So They Say

The Axis knows that the next six months will spell victory or defeat for their forces. For the Axis, it is now or never.

—Lt. Gen. H. H. ARNOLD, Army Air Force commander.

The enemy's strength, at best, is at its peak. Ours grows every day. He can only increase his material resources by hard and costly fighting. We have resources ready at hand that only await final development.

—LORD HALIFAX, British ambassador to United States.

We may live in a chosen land, but we do not belong to a chosen race. And if America is a chosen land, it is not for her sake that she is chosen of the world at a certain stage of the world's history, but for the sake of all the world.

—Vice-President HENRY H. WALLACE.

He puts the rivets in the PBY's, the navy bombers. Seth was a Harvester athlete, and played on both football and basketball teams, as did his brothers, Norman and Tom. The latter is now working in the same plant. Norman is going to school at Texas Tech, where he will finish this summer. Seth, always quiet and modest, is still that way, and he still has the same accent he left with. He is visiting his folks here or a few days.

Wheat Allotments For 1943 Announced

WASHINGTON, June 18 (AP)—The agriculture department announced today a 55,000,000-acre national wheat planting allotment—the minimum permitted under the farm law—but asked that a portion of the allotment be planted to other crops more urgently needed in the war effort.

U. S. On Lookout For Smuggled Money

WASHINGTON, June 18 (AP)—The treasury today ordered a nationwide search for and seizure of an estimated \$300,000,000 of American money which the Axis is believed to be trying to smuggle into this country for use by agents and spies.

SERIAL STORY SPORTING BLOOD

BY HARRY HARRISON KROLL

HUNTER UNDER SUSPICION CHAPTER VIII

WHEN Hunter Dent came to himself he was lying on a cot. The rough wool blanket was not woven in any of the local perfume or cosmetic plants. The walls were bleak and narrow. There was a steady pour of rain outside. It came to Hunter slowly that he was in jail. He sat up. He got to unsteady legs and crossed the floor. He was in a cell, all right. He was in jail. He remembered more and more, how he had opened the safe to make sure about the money; how he had been set on by rascals lurking in his office. It must have been Neal Frazier, and the rest of them, after knocking him out, had brought him to town and lodged him here. A brown Negro, evidently the night clerk of this public hostelry, came at his wild howls. "I is Shady," the colored man stated, not without deference. "You is Mr. Hunter Dent, isn't you?" "Unlock this door and let me out of here!" "I couldn't do dat, Mr. Dent. Sheriff Anderson he say if you comes to and is hurting to look after you, but alongside of dat I is to keep you locked up. Is you hurting nowhurs, Mr. Dent?" No use venting his wrath on the jailer, who was merely doing his duty. "Nowhurs," he growled. He had breakfast, and Sheriff Anderson then took him to his office. "Frazier, and the other boys, fetched you in late last night, Dent." "Sweet of 'em," Dent grumbled. "What am I charged with?" "Robbery, murder, resisting arrest, and a few things like that. What have you to say for yourself?" "I decline to talk, Sheriff. I want a lawyer."

Either you took part in it, or you were an accessory before the fact, or you are shielding the ones who did the trick. I'm your friend. I could treat you as a rascal and give you the third degree, and make you come clean. Maybe I'll do that yet, but only after I have given you every chance in the world. "You listen carefully now while I reconstruct this whole business. There's a pretty wild bunch of youngsters that gather out at Ballard's country home. That red-head of Ballard's; the boy Temple, the banker's son; the twins; the girls that sing over the radio; Mrs. Ballard's brother, and several others. Good deal of gambling goes on, too, eh?" "I don't keep up with them," Hunter said. "Sure, you do. You know it, so do I; so do plenty of others. Drinking, gaming, dancing. Wild, yes; but nothing so terrible, at least. War does things to young people. You can't raise 'em up to shoot each other and kick too much when they are willing to lose their shirts at strip poker. But getting back, you don't run with them, no; but now watch you watch, maybe, and pick up things. Now, it's my theory that the leak of money movement was through young Hank Temple. He works in his dad's bank. He would know, perhaps make up the shipment, put it in a bag, give it to the messenger. You heard him say something indiscreet. All right, you got a partner, perhaps two, and went after the thing. You and Ballard did have a row, didn't you?" "I'm still not talking," Hunter said. "Well, what started out to be a lark—to put it mildly—got down to something deadly earnest. You had to do some shooting. You had to make your get-away in your car. We know the car was parked not far from the scene. Let me show you." He produced two bromide enlargements. "This is a print of the tread of the car in the road at the back of the estate. Here is a picture of the tread of your car. See? The same, eh? You did admit you are the only one with a key to that iron gate; that the car was yours. Miss Ballard heard you, so did the collar-stable out there. It is known that you were not in the place where you sleep nights that night. We have that on authority that can't be impeached. So you were abetted, you have a grudge, you probably have the money. Come on now and tell me the truth, and let's work this out so it will be as easy on you as we can make it. I'm your friend, Dent."

Parting Of The Ways

Sales Tax Has Only Outside Chance Of Committee Approval

WASHINGTON, June 18. (AP)—A sales tax was conceived by its advocates today to have only an outside chance of approval as the house ways and means committee began putting the finishing touches on a tax bill which probably will produce about \$6,650,000,000 in new revenue. Hoping to end its work in a week, the committee still has to vote formally on a sales tax and two other subjects—a post-war credit for corporations which pay excess profits taxes, and withholding of individual income taxes at the source. The administration was reported to be exerting terrific pressure against what sales tax sentiment remained in the committee, and one of those who has been advocating it to make up the difference between the present bill and the treasury's revised \$8,700,000,000 tax goal observed "it looks like we're licked." The current committee trend toward increased selective excise taxes instead of a general retail sales tax was emphasized yesterday when the bill's total revenue from that source was boosted \$408,000,000 to \$971,000,000. The largest gain approved tentatively was a 5 per cent tax on transportation of freight and express by common carriers, estimated to produce \$300,000,000.

U. S. Spending Billion Dollars Week On War

WASHINGTON, June 18 (AP)—Budget Director Harold D. Smith revealed today that America's arms factories are rolling so fast now that government war expenditures have climbed to approximately \$1,000,000,000 per week. "That shows," he said in an interview "how we are going into action against the Axis." The accelerated pace of war production, Smith continued, "assures our hitting on the nose our estimate of \$28,000,000,000 of war expenditures for the fiscal year which ends this month." He said the pace also made more probable his estimate that \$70,000,000,000 would be spent for war in the coming fiscal year. Treasury expenditures for war purposes alone, Smith explained, have climbed steadily from \$409,400,000 in the week before Pearl Harbor to \$944,100,000 last week. The \$1,000,000,000 a week pace not only is the biggest spending figure in American history, but it also overshadows every other belligerent's costs. Sir Kingsley Wood, chancellor of the British exchequer, said yesterday that his country was spending \$377,000,000 a week. German, Russian and other totals also are lower although exact figures are not available. Foreign money totals, however, are not necessarily comparable to American figures because of differences in resources and price levels. Not counting about \$6,000,000,000 of other federal expenses that have to be paid for, the current fiscal year's war costs will be about twice as big as all federal tax revenues, estimated by Smith at \$12,700,000,000. Sales of war bonds and regular government securities finance the balance.

Gas Rationing Would Deal Joe Louis Haymaker To Texas Income

By BRACK CUREY Associated Press Staff Nation-wide gasoline rationing would deliver a Joe Louis haymaker to one of Old Man Texas' principal sources of income and means of employment—oil—and to one of every six Texans dependent upon the petroleum industry for livelihood.

Just what universal rationing would mean to Mr. and Mrs. Texas in reduced income, higher taxes, poorer schools, reduced employment, fewer roads, and disrupted transportation facilities is concisely outlined in a resolution written by foes of rationing and placed before the highest federal authorities by Gov. Coke R. Stevenson.

Reflecting the conclusions of a meeting of state and county officials, and business leaders held in Austin to analyze and determine the probable effect of gasoline rationing was compiled by Railroad Commissioner Olla Culbertson, State Comptroller George H. Sheppard, John Winters of Amarillo, president of the County Judges and Commissioners association of Texas; L. A. Woods, state superintendent of public instruction; and DeWitt C. Greer, chief engineer of the state highway department.

It was forwarded to President Roosevelt; Sam Rayburn, speaker of the house; Donald M. Nelson, war production chief; Leon Henderson, price administrator; and Senators Tom Connally and W. Lee O'Daniel.

Calling for "a calm and intelligent analysis of any proposal as far reaching as gasoline rationing," the resolution bluntly asserts that "Texas motorists are more fully aware of the critical condition facing them than residents of almost any other state."

"Preliminary surveys made by the highway planning survey show that in areas where war work is concentrated, private passenger vehicles are carrying a larger number of passengers per car than is reported to be the case in other sections of the country," states the resolution.

Citing a national figure on the number of passengers being transported per vehicle at 1.7, the document lists 27 persons per vehicle between Camp Swift and Bastrop, 2.9 and 2.5 on two routes leading to the naval base at Corpus Christi.

"That Texans recognize the transportation picture and are working to conserve their tires and vehicles as much as possible is further shown by a report of the highway planning survey that in April, 1942, the number of vehicles clocked at key points on the state highway system on Sundays was 18 per cent less than for the same period in 1941."

"This indicates," submits the resolution, "that pleasure, recreational, and other non-essential driving has been curtailed voluntarily. "Data of the planning survey also show that week day and Saturday traffic in April was 11.08 per cent below the traffic for the corresponding period of 1941. Texas gasoline tax collections for May, 1942, dropped approximately 10 per cent below collections for May, 1941."

The wealth flowing from Texas' 99,000-odd wells pours \$72,000,000 in wages and salaries into the pockets of Texas workers, says the resolution.

The combined petroleum industry of the state pays \$128,000,000 in lease and royalty money to land owners, \$160,000,000 in purchase of equipment and supplies, \$95,000,000 in local state and federal taxes, and \$85,000,000 in other expenditures, making a total of \$750,000,000.

At least a million of our citizens or approximately one-sixth of the total population of Texas depend directly on employment in oil production, refining, or distribution and in motor vehicle servicing," the committee points out in the resolution.

"To curtail these operations through unnecessary and harsh restrictions on the use of gasoline would throw out of employment thousands of persons who cannot be absorbed either in war industries or in the armed forces, a condition which would have a severe and depressing effect on the morale of the people."

"To attempt to impose gasoline rationing on the theory that it is necessary to conserve the supply of rubber now on vehicles operating over the highways is subject to critical analysis. It is believed that the indiscriminate curtailment of motor vehicle usage on this theory might waste more rubber than it would conserve, it being a recognized fact that tires used intelligently and prudently will give better service than tires which are improperly stored on being taken out of use."

The resolution suggests that "if the purpose of rationing gasoline is to conserve rubber for the eventual use of the armed forces, it would be better that the government now take that rubber and now allow it to be used upon motor vehicles in ordinary non-essential traffic."

"But," the document continues, "if the government is not to use this rubber in the war effort, but it is to be left upon the vehicles of the individuals, the rationing of the gasoline for the purpose of conserving tires is only for the good of the individual and not for the good of the people as a whole, and is not sound."

Asserting no yard stick of rationing that could be applied to a smaller and more thickly populated state could be applied with justice to those in Texas who depend on motor transportation, the resolution states:

"Rail transportation is not as plentiful in Texas as it is in more congested areas, and scores of Texas communities and thousands of persons must depend exclusively on motor vehicle transportation."

"Apparently it is difficult to impress upon those charged with the conduct of the war effort just how big Texas really is, the unusually high percentage of reliance on highway transportation, and the tremendous distances that must be traveled in this state in the ordinary pursuit of essential business."

"The United States has become so dependent upon the movement of persons and commodities over highways that it is evident maximum utilization of this type of transportation must be attained if we are to be able to continue to make substantial contributions to the war effort and at the same time maintain some semblance of the domestic structure."

Chicagoans Stake Rubber Lode Claims

CHICAGO, June 18 (AP)—City-bred prospectors excitedly dug through a rich vein of scrap rubber today to work the most wealth from their claims before the vein's estimated yield of 400 tons was exhausted or their blisters broke.

The rubber lode was discovered Monday on Chicago's near north side at the site of an old rubber scrap pile that had been covered with earth after repeated fires several years ago.

News of the bonanza spread quickly across back fences. Men, women and children hurried in with picks, spades or just tough, eager fingers to tear into the vein covering an area 50 by 100 feet and 6 feet deep.

Families staked out claims with rotting old pillars for markers. Some prospectors brought their lunches so as to waste no time.

Diggers turned up scores of rubber truck tires, each weighing 50 pounds, hundreds of inner tubes, rubber horseshoes, fire hoses, galoshes and scraps.

Two-wheeled carts, baby carriages, wagons, bushel baskets, bags and pails were used to haul the diggings to nearby gasoline stations where it was assayed and bought for a penny a pound.

The site is owned by the First National bank which gave diggers permission to remove the rubber.

Pampa Nurse Leaves For Basic Hospital

Australia will soon be "home" to a Pampa nurse.

The land "down under" is where Miss Catherine Green, daughter of Mr. and Mrs. F. D. Green, 317 N. Faulkner, will be on duty in an army hospital after she completes her basic training at San Antonio.

Miss Green, who graduated May 16 from St. Anthony's Hospital Nurses school, Amarillo, joined the army nurse corps immediately after receiving her diploma and left Amarillo yesterday for the VIII corps headquarters city, after a visit with her parents here.

She has a brother, Wayne, who is now stationed in California. Both Miss Green and her brother are graduates of White Deer High school.

Orders For 15 Grain Bins Mailed Here

Orders for 15 grain bins have been mailed by the county farm agent's office here to the Commodity Credit corporation. Bins are due to arrive in Pampa on July 1.

These prefabricated wheat bins are designed as a help to farmers who are having difficulty in finding storage space for their crop.

Over the state, Texas farmers have ordered 990 of the bins. Orders for the bins are being transmitted daily to the lumber yards in Austin and Houston.

B. F. Vance, College Station, chairman of the Texas USDA War board, indicated that more bins would be ordered if the initial supply of 2,000 small bins and 500 medium bins is exhausted.

Already ordered by farmers are 500 bins with a capacity of 1,502 bushels each and 340 of the 1,843-bushel bins.
