Good Evening

Rest is sweet after strife. —Owen Meredith.

WHERE "RISING SUN" SET

A step by step chart shows how Japs attacked in Solomons only to lose twenty-three ships in the biggest naval battle since Jutland, leaving Guadalcanal safe in American hands. Says Secretary of the Navy Knox, "The third round is still coming up." (NEA TELEPHOTO.)

44 Asylum Inmates Killed; Hundreds Sick; Eggs Blamed

SALEM, Ore., Nov. 19 (AP)—Forty-four inmates of the Oregon state hospital have died from an unidentified poison—possibly contained in frozen eggs—and a corps of physicians struggled today to save the lives of more than 400 other men and women.

The poison struck swiftly, and within 15 minutes after dinner last night, at which the eggs were served, the victims began complaining of violent cramps. Within an hour the poison had caused the first death. By 10 p. m., five hours after the meal 10 had died. By midnight, the toll had reached 32. By four a. m. the total was reported to have reached 40.

Dr. J. C. Evans, hospital superintendent, said: "They had nausea, vomiting blood, and showed evidence of an acute toxic condition. Respiratory paralysis and violent cramps in the legs preceded death.

"Those who were not strong passed out immediately and died." Dr. Evans expressed the belief that the eggs, obtained from the federal surplus commodities corporation, contained some poison, or were toxic because of some chemical reaction.

L. J. Barrick, Marion county coroner, called for an immediate investigation. All the deaths, 35 men and 5 women, occurred in four wards. Inmates of a fifth ward, Dr. Evans said, but an attendant there tasted the eggs before they were served, and allowed only a small amount to be eaten.

The superintendent said that a third of the two-ton shipment of eggs had been served previously without ill effects. They were received two or three months ago from the government agency, packed in two-gallon tin containers, and were frozen en route from Portland in a refrigerator truck.

Upon arrival in Salem, they were placed in the hospital cold storage room, where a temperature of zero Fahrenheit is maintained. Part of five tins were served at luncheon yesterday in rice pudding, and the remainder scrambled for dinner.

Eggs similarly prepared had been delivered to other state institutions, Dr. Evans said, and eaten without ill effect.

BUY VICTORY STAMPS

Jeffers Opposes Tire Sale Plan

WASHINGTON, Nov. 19 (AP)—Opposing legislation which he said might hamper his program, Rubber Administrator Leon William M. Jeffers told the Senate Banking committee today that he was trying to get as many tires recapped as possible to "keep the country on rubber."

This was essential, he said, because "failure to keep the country on rubber would be equivalent to a military disaster."

The committee is considering a proposal that some 30,000 small business men be given, by law, all the retail tire business, including sale, repair and recapping, but Jeffers testified he thought "it would be a mistake to attempt any legislation until we get further along in the program so that we can get some idea of what is occurring."

Senator Ellender (D-La.) has contended that small independent business men need protection from what he called the "destructive competition" of manufacturer-owned stores.

For moist, warm, circulated air, see the Estate Heaters. Lewis Hardware. Adv.

Kaiser Not Alone In Doing Things, This Man Knows

TOPEKA, Kas., Nov. 19 (AP)—Undersheriff George Hornbeck's surprise was understandable. He had investigated a fire on a war construction project. A building had been destroyed and a workman killed.

He returned to the scene the next day. There was no trace of the tragedy. On the spot was a new building, complete with roof.

BUY VICTORY STAMPS

Japs Unable To Undertake New Move For Weeks

WASHINGTON, Nov. 19 (AP)—It will take the Japanese at least three weeks and possibly much longer to pull themselves together for another try at Guadalcanal.

That was the considered opinion of Naval experts today after a detailed analysis of the staggering losses in ships, men and equipment suffered by the enemy in last week's rout.

These authorities, who asked to remain anonymous, were interested in, but not unduly excited by, the appearance of eight Japanese destroyers off the North coast of New Guinea yesterday. They said it was to be expected that enemy task forces would be encountered from time to time. But, they declared, it requires considerable time and organization to assemble a major armada such as was taken back last week.

The delay will give United States forces an opportunity to replace their relatively small losses and build up their strength for what Secretary Knox already has labeled round 3 (coming up) of the battle for the Solomons.

In fact, it would not be surprising to many informed persons here if the Marines and Army troops on Guadalcanal took aggressive advantage of the enemy's predicament to improve their own positions which still encompass only a small area of land about the airport on the North coast of the island.

Salt Water Well Abandonment Plan

AUSTIN, Nov. 19 (AP)—Texas oil operators attending a statewide proration hearing today submit nominations for the December allowable and conclude testimony on the proposed order to permit abandonment of salt water wells in the East Texas field.

The proposed adoption of a water-oil ration to govern production of crude in East Texas, declines in the state's production, war-stimulated demands for oil liquids and other problems caused by war restrictions will be discussed.

Commission officials said the hearing would be the most significant for the industry since the war began.

BIG ALLIED SQUEEZE OF ROMMEL SHAPES

German Military Leaders Said To Be Seeking To Isolate Hitler, New Rumor

LONDON, Nov. 19 (AP)—A responsible foreign diplomatic source who cannot be further identified said today that an important junta of aristocratic German military leaders, convinced that Hitler cannot win the war, has begun to "isolate" the Fuehrer in order to establish themselves favorably with the Allies in the event of a stalemate, peace or defeat.

The foreign diplomatic source, who said he believed his information is reliable, declared leaders of the junta included Field Marshal General Walter Von Brauchitsch, who was dismissed as commander-in-chief last winter after counseling against Hitler's winter campaign against Moscow; Field Marshal Fedor von Bock, who was ousted in the midst of the drive against Stalingrad this fall, and their followers. Both these generals are reported to have disagreed with Hitler's strategy.

Includes Leaders Also included in the junta, it was reported, are Gen. Franz Halder, who, like Von Bock wanted to withdraw the southern German armies behind the Don before it was too late; Gen. Fritz Erich Von Mannstein, Field Marshal Gen. Karl Rudolf Guderian, Field Marshal Gen. Johannes Blaskowitz.

Advices from usually reliable quarters inside Germany and occupied countries, the informant said, indicated that two prime factors were behind the formation of the defeatist junta—increasing dissatisfaction with Hitler's intuition as a guide of strategy, and his steady Nazification of the Army and high command.

Some members of the junta were said to be "deliberately provoking Hitler's ire so as to be dismissed or relegated from places of responsibility in order to be able to blame him directly for the disastrous last winter in Russia."

They were said also to hold him responsible for the defeat of Marshal Erwin Rommel in Africa on the ground that it might have been averted had he followed different tactics in Southeastern Russia and taken early steps to reinforce the African forces with soldiers from the Eastern front.

Laval Total Hitler Stooze, Says Hull

WASHINGTON, Nov. 19 (AP)—Secretary of State Hull said today the emergence of Pierre Laval as supreme dictator of France, after the recent complete occupation of that country by German troops, only emphasized Laval's complete identification with German aims and policies.

The secretary told his press conference that Laval's latest promotion confirmed what he has said many times: That Laval was part and parcel of Hitlerism and the Hitler government.

British Bombers Strike Over Italy

LONDON, Nov. 19 (AP)—Britain's heavy four-motored bombers streaked across the Alps last night and delivered another heavy blow at Italy, choosing the big Fiat Works at Turin for their chief target, the air ministry announced.

With clear skies to aid them, the RAF bombers accomplished "good results" on this, the fifth big raid on Italy this month, without the loss of a plane, the official announcement stated.

THANKS TO YANKS

Lieut. Peter Sychev of the Red Army grins broadly as he tries on a Balachava helmet knitted by Clara Scale, of Stamford, Conn. His equally pleased companions, holding their allotment of gifts from America, are Lieut. Brichlevsky and Sergt. Yudin, right.

Oil Men Told Output Boost Now Unsound

AUSTIN, Nov. 19 (AP)—Texas crude purchasers attending a statewide proration hearing today submitted nominations 239,595 barrels above the certification from the Office of Petroleum Coordinator.

AUSTIN, Nov. 19—Against increased purchaser nominations for December crude oil, the railroad commission today was advised by the office of petroleum coordinator against adding to Texas stocks.

Purchasers at a statewide proration hearing certified to the need for 1,589,995 barrels daily next month, an increase of 31,820 over November nominations.

The principal increases were in the Gulf coast, 10,123 barrels daily; East Texas outside of the East Texas field proper, 6,219; Division 2 of Southwest Texas, 4,163; and West Texas, 4,137.

Commission Chairman Ernest O. Thompson meanwhile made public a telegram from Ralph K. Davies, deputy petroleum coordinator, advising that Texas crude stocks had increased 20,000,000 barrels since last January 1.

Davies added it was "inadvisable" to build further Texas crude storage in view of impending gasoline rationing, transportation difficulties and a dropoff in tank car deliveries to the East.

Russians Open Offensive Drives

MOSCOW, Nov. 19 (AP)—Extending their job of bleeding and blocking the German armies, the Russians have taken the initiative in Stalingrad and in the Caucasus, today's battle reports showed.

The midday communique reported no major changes anywhere but said that during the night "our troops launched active operations and captured several enemy fortifications" in Southern Stalingrad.

A Red Army unit also was credited with a fighting reconnaissance northwest of the city in which enemy trenches were broken into, 60 Germans killed and others captured. In a factory area of the staunch Volga stronghold, wrapped for two days in fog, the Germans returned to the attack during the night but were driven back with 200 killed, the latest reports said.

BULLETINS

WASHINGTON, Nov. 19 (AP)—A prediction that an announcement will be made within a fortnight of steps to be taken before the first of the year toward registration of American woman-power William Green of the American Federation of Labor.

WASHINGTON, Nov. 19 (AP)—Southern opponents of a bill barring collection of poll taxes as a prerequisite to voting for federal officials reportedly agreed at a conference today to seek a show-down vote in the senate Saturday in the hope of killing the measure by defeating a proposal to limit debate.

BOSTON, Nov. 19 (AP)—Future deferments of military service will depend more and more upon the kind of work a man is doing and less and less upon whether or not he has dependents, Paul V. McNutt, chairman of the war manpower commission, today told the first New England war conference.

WASHINGTON, Nov. 19 (AP)—Yes, and a soft answer turneth away wrath—written in the U. S. Senate Democratic Leader, Barkley of Kentucky, appeared to have demoted that today as southern ire over his insistence on bringing up the anti-poll tax bill began cooling.

Despite much behind-the-scenes grumbling, Barkley's soft answers to the indignant outpourings of southern Democrats evidently averted any serious move to divest him of his toga as majority leader when the new congress is organized in January.

Senator Connally (D-Tex.), one of Let us prepare your car for cold weather ahead. Pampa Garage and Storage, 113 N. Front. Adv.

Three Armies Move To Close Steel Ring

LONDON, Nov. 19 (AP)—Three of the toughest armies assembled by the United Nations since the start of the war converged on the Bizerte-Tripoli-Bengasi triangle today in fighting contact with Axis forces, while Allied planes and parachute troopers built up air power in preparation for the final assault to wipe the Germans and Italians from North Africa.

As the Americans and British squeezed the last Axis foothold from East and West, a motorized column of Fighting French was reported driving up from the Lake Chad base 1,200 miles to the South.

Sweeping back outlying Axis paratroops, Lieut. Gen. Kenneth A. N. Anderson's first army—the veterans of Flanders—drove on into Tunisia from Algeria at several points in a sweep intended to trap and crush the German-Italian air-borne army reported digging in at Tunis, the capital, and Bizerte, the big naval base, against pro-Allied French resistance.

Leaping ahead of Anderson's ground forces, American and British paratroopers were seizing vital airfields for use by follow-up units of the United States Army Air forces and the RAF which already were gunning their way through the Axis aerial screen.

The RAF laid down a bomb barrage for Anderson's advance, while veteran Battle-of-Britain squadrons engaged Axis Rommel's fighters, and United States Flying Fortresses turned their bomb-sights upon the Axis-held Bizerte airfield.

From the East, the British eighth army overtook the rear-guard of Field Marshal Rommel's broken African corps south of Bengasi—well within 160 miles of the El Agheila line where the Nazi commander is expected to try a new stand.

Hit Italy Again Reuters said the Morocco radio reported that Allied supply ships, meanwhile, had arrived at recaptured Tobruk to feed new force into the eighth army's Libyan drive. The broadcast did not specify whether the supplies were shipped from west to east through the contested Mediterranean, or came the long way around Africa and through the Suez canal.

Long-range British bombers soared across the Alps overnight for their fifth attack this month on Italy's ports and war industries. This time the target was Turin, home of the royal arsenal and the big Fiat airplane works. Not a bomb was lost. The Italians acknowledged once more that damage was heavy.

Reuters reported from North Africa that the wreckage was located from the air yesterday. Following the circling planes, A. D. Packard, 60, caretaker at Costilla reservoir, reached the men late in the day with the first food they had had since the crash at 5 a. m. Monday.

Twelve of the Army ground crew set out to their rescue last night on horseback. The others waited for daylight.

Wild Geese New Hazard To Flyers

COLUMBUS, Ind., Nov. 19 (AP)—Army officers at an Army air base near here are faced with an unforeseen flying hazard—wild geese. Several flocks of the birds have "mistaken" the concrete runways and port aprons for water and the silly geese keep trying to make a water landing. Many of them stick around for hours in the daytime and sometimes overnight trying to figure out the puzzle.

News Doubles Size Of Sunday Colored Comic Supplement

Beginning next Sunday, The Pampa News will double the size of its colored comic supplement from eight to 16 pages.

New comics to be added will include Captain Easy, Red Ryder, Biff Baker, Dan Dunn, Jane Arden, Lily Abner, This Curious World, Freckles and His Friends, Abbie and Stats, and Our Boarding House.

Also in the Sunday colored comic supplement will be found Superman, Out Our Way, Off the Record, Alley Cop, Joe Pabooka, Boots, and Taran.

Under the arrangement all daily comics in The Pampa News will be found in the new Sunday supplement.

I HEARD . . .

That Kenneth Twigg, who for two years was captain of the LeFors football team, and an expert boxer, was in a marine corps cotinment that recently went overseas. Kenneth's brother, Bill, was at Corregidor when it was captured by the Japs. Parents of Bill and Kenneth are Mr. and Mrs. L. E. Twigg, formerly LeFors, now of Seattle. They have not heard from Bill since Corregidor was taken.

Pampa Leads District With 44 Recruits

Pampa's U. S. Army Recruiting station is leading the entire West Texas Recruiting and Induction district to date this month in enlistments, exceeding even Lubbock and Amarillo.

Sgt. Robert D. Short, in charge of the local station, says this has happened several times since he came in March, but that Amarillo has come back to exceed the number of enlistments from Pampa.

"I can lead them for a while, but in the final stretch they overtake me," Sergeant Short said yesterday.

There have been 44 enlistments from Pampa to date this month, to place Pampa at the top of the district, which is composed of the Panhandle, the Big Bend, and extends from Perryton to Sweetwater.

Last month was the banner one of the year with 77 enlistments. Reason for the record number was the offer of enlistment as air corps specialists, with many of those enlisting assigned to the Pampa air base after preliminary training.

One Man's Work
Record of the Pampa station is even more remarkable since it represents the work of one man.

A few times Sergeant Short has had some help. Most of the time he works alone. Last week Pvt. T. G. Webb, who had been working at Amarillo, was assigned here and now is helping Sergeant Short.

Besides keeping up his work with enlistments, Sergeant Short is the

Brazil Missionary Visits In Canadian

Special to THE NEWS
CANADIAN, Nov. 19.—Rev. Blonnye Foreman, home on furlough from Brazil where he has been a missionary for the past 13 years, addressed an audience in the First Baptist church Monday night, coming here from a speaking date in the Miami church.

Rev. Foreman's parents live in Clovis, N. M., and he has a year's leave of absence from his missionary work in Brazil. He is making a tour of the churches in the Canadian Baptist association which includes the counties in the North Panhandle.

Rev. Foreman is one of three Americans who has been at this particular mission station. He speaks Portuguese fluently, the language used in that part of South America.

He was a guest in the H. S. Wilbur home while in Canadian.

Rev. Foreman addressed the students in the high school auditorium Tuesday forenoon, then the Rotarians at their weekly luncheon Tuesday.

Treasure In Dimes Buried By Bird Dog

FORT MYERS, Fla., Nov. 19 (AP)—Buck, a big white and liver bird dog, is dead and with him went the secret of a buried treasure.

Buck's master, Bishop Fink, taught the dog to take a dime to the grocery for his daily ration of canned food.

Soldiers, here for air corps training, learned about Buck and showed him with dimes.

Swamped with too many dimes for food, Buck began hoarding and his master thinks he may have buried maybe \$100 in dimes in alleys, vacant lots and lawns.

A truck killed Buck and yesterday Bishop and neighborhood kids buried him with appropriate honors.

Negro Slayer Will Pay With His Life

NEW BRUNSWICK, N. J., Nov. 19 (AP)—Death in the electric chair January 4 has been ordered for John Henry Swan, six-foot-four Negro who battered 20-year-old Gizzella Mary Forepough to death with his fists in the movie house where he was a porter.

Swan was convicted of murder and sentenced yesterday on his own admission that he had followed the pretty, slightly built girl into the lounge, pummeled her in the woman's room, dragged her backstage and stripped her body of clothing behind the screen while 500 persons watched the picture on its other side.

Major E. R. Chase Promoted Colonel

A Pampian, Earl R. Chase, has been promoted from major to lieutenant colonel. It was announced today by the public relations office of Camp Swift.

Prior to entering active military service the colonel was employed by the Magnolia Petroleum company here. He came to Pampa from Dallas.

Colonel and Mrs. Chase live at 3006 Lafayette in Austin, and his mother, Mrs. A. M. Chase, at 1402 Marshall, in Houston.

The colonel is a native of Hillsboro, and a World War 1 veteran, having been a gunnery sergeant in the marine corps.

Entering active service on Dec. 14, 1940, after 11 years in the reserve, Colonel Chase was first on duty as quartermaster at the Ft. Sill reception center. Later he was transferred for duty to the enemy alien internment camp at Stringtown, Okla., from where he came to Camp Swift on April 27 of this year, arriving here shortly after the arrival of Col. L. A. Kurtz, post commander.

\$4,825 In Bonds Auction Total

A total of \$4,825 (face value) in Victory bonds and stamps was sold at the farmers Victory bond auction sale held yesterday at 708 W. Foster.

The amount was divided into \$500 of the series P bonds, \$3,775 series E, and \$50 in Victory stamps.

Bonds and stamps bought in exchange for the items on sale totaled \$685.54.

It was the first event of its kind ever held here, and also the first farmers' Victory bond auction sale in the Panhandle, and the second known sale of its type in the state.

Tom Cox was auctioneer.

Seven groups cooperated in the sale, including the Pampa Junior

High school band, Gray county home demonstration clubs, and the Pampa Rotary club. The club provided lunches served in the Legion hut by home demonstration club members, while the band played a concert.

\$1000 Sale Largest

Bond and Stamp sales, separate from the auction, totaled 27, while sales of livestock, implements, and farm produce totaled 22.

Plows, cultivators, trailer and truck bed, tractors, four turkeys and one cow were among articles sold with exchange in bonds and stamps.

Owners of articles sold at the auction were:

Ford Mitchell, Roy Krezmeler, Dave Osborne, Gray County Feed company, W. H. Kinzer, W. H. Noel, Irvin Cole, McCConnell Implement company, N. M. Kite, and Wiley Reynolds.

Largest separate bond sale was one for \$1,000 purchased by William Jackson of Route 1, Box 13, Pampa. Other bond buyers were:

H. Clay Schofield, F. O. Gurley, Mrs. Lella Gurley, Mrs. Mamie Bell, William G. Kinzer, Miss Mary Gurley, Miss Joan Gurley, J. L. Noel, Oscar F. Johnson, Ernest Crane, Thomas O. Kirby, county commissioner, Miss Orene Alford, employee of the Gray County Selective board office, Minnie Olive Montgomery, administrative officer of the Gray County Agricultural Conservation association, Leroy Kretzmeier, J. W. Condon, Irvin Cole, C. L. Thomas, state AAA committeeman, and C. W. Bowers.

Address of all the buyers except Mr. Bowers is Pampa. Mr. Bowers' address is Route 1, Miami.

A highlight of the program held

in connection with the sale was the presentation of the Santa Fe educational award to Drew Word, Alfreed 4-H boys club member.

Drew was one of the 19 boys in Texas who received the educational award certificate which means that he will be in the 4-H group awarded an all-expense trip to Chicago to attend the National 4-H Congress there November 29-December 2.

The award was presented here by H. M. Bainer, general agricultural agent of the Santa Fe.

Issuance of the certificates of merit, which are signed by E. J. Engel, Santa Fe president, is handled through the cooperation of L. L. Johnson, Texas 4-H club leader.

Mainly About Pampa And Her Neighbor Towns

Grover Lee Heiskell, son of Mr. and Mrs. H. H. Heiskell, has been accepted in the Navy Air Corps. He will be stationed at Canyon for his Civilian Pilot Training course, after which he will go to Athens, Georgia. While attending Pampa schools, Grover was a member of the football, track, basketball, and baseball teams.

The condition of Mrs. T. B. Solomon, who has been seriously ill in the Pampa hospital, is slightly improved. Mr. and Mrs. Clifford Solomon left Wednesday for their home in Rosedale, Oklahoma, after visiting here.

We wish to express our appreciation for the many acts of kindness and expressions of sympathy and the beautiful floral offerings extended by our friends and neighbors during the recent illness and death of our loved one, Mrs. Nels Walberg.

WANTED—Experienced beautician at Charles St. Beauty Shop, phone 160.

Capt. Nix sold the ranch cattle and leased some of the pastures to J. L. Yokley and some pastures to Bud Brainard, leased for the duration.

Uncle Sam is certainly going to give his soldiers a typical American meal on Thanksgiving day, if he feeds them all like he will do the Ft. Sam Houston reception center. Col. Telephor G. Gottschalk writes that the Thanksgiving dinner menu

will be roast young turkey, giblet gravy, Virginia baked ham, nut dressing, cranberry sauce, snowflake potatoes, candied yams, buttered peas, hearts of celery, mixed pickles, ripe and green olives, cake, hot rolls, pumpkin pie, coffee, candy, orange-ade, and cigars. Copies of the menu will be used by the soldiers to write letters home, the reserve being set aside for that purpose.

Mr. and Mrs. F. S. Brown have returned from Weatherford, Okla., where they visited their daughter Mrs. Dolly Sauter, naval air cadet instructor.

Fall convention of the 18th district American Legion will be held at Wellington Saturday and Sunday. Henry Teubel of Tulsa is district commander. Frank King Post 249, Wellington, Charles Anderson commander, is host.

The Walberg family, Mrs. Alex Schneider and L. F. Sills.

CANADIAN—Capt. Dale Nix, with Mrs. Nix and Billy Dale, arrived in California Wednesday, making the trip by airplane. The captain had a 15-day furlough to attend the funeral of his uncle, W. J. Todd, and to attend to business matters here.

WANTED—First class general mechanic, rate \$1.00 per hour. Jack C. Vowell, phone 1412.

Pampa lodge 480 Knights of Pythias will hold its regular meeting to-night at the Wynne-Merten building at 7:30. Three new members, R. W. Wilson, Henry Stephens, and Leo Tiley, will be initiated as pages. Sam W. Turner is acting chancellor commander of the lodge.

Clarence Lewis Swank, Jr., of Pampa, was among the navy recruits enlisting yesterday at Amarillo.

For the week ending Tuesday, Gray county collected 13,005 pounds of scrap metal, making the annual total to date 171,388 pounds. Scrap rubber collected to date totals 1,095 pounds, according to the weekly report received by County Judge Sherman White, county defense coordinator.

Visiting in Pampa now is Tom White of Stephenville, a brother of County Judge Sherman White.

Food left over from the Farmers Victory auction sale yesterday was donated by the Pampa Rotary club to the B. M. Baker school cafeteria. The club had provided the lunches served to those attending the sale.

* Advertisement.

30 Gray County Youths To Army

Headed by Dick Pepin, former Pampa city engineer, as leader, 30 Gray county selectees left this morning to take examinations for induction into the Army at the district headquarters at Lubbock.

Mr. Pepin left Pampa in August, 1941, to take a job as engineer on a federal project near Little Rock, Ark. Later he was sent to Denver. He had made application for a commission but was rejected due to a physical ailment.

Pampa Leads District With 44 Recruits

Pampa's U. S. Army Recruiting station is leading the entire West Texas Recruiting and Induction district to date this month in enlistments, exceeding even Lubbock and Amarillo.

Sgt. Robert D. Short, in charge of the local station, says this has happened several times since he came in March, but that Amarillo has come back to exceed the number of enlistments from Pampa.

"I can lead them for a while, but in the final stretch they overtake me," Sergeant Short said yesterday.

There have been 44 enlistments from Pampa to date this month, to place Pampa at the top of the district, which is composed of the Panhandle, the Big Bend, and extends from Perryton to Sweetwater.

Last month was the banner one of the year with 77 enlistments. Reason for the record number was the offer of enlistment as air corps specialists with many of those enlisting assigned to the Pampa air base after preliminary training.

Record of the Pampa station is even more remarkable since it represents the work of one man.

A few times Sergeant Short has had some help. Most of the time he works alone. Last week Pvt. T. G. Webb, who had been working at Amarillo, was assigned here and now is helping Sergeant Short.

Besides keeping up his work with enlistments, Sergeant Short is the

Brazil Missionary Visits In Canadian

Special to The NEWS CANADIAN, Nov. 19.—Rev. Blonnye Foreman, home on furlough from Brazil where he has been a missionary for the past 13 years, addressed an audience in the First Baptist church Monday night, coming here from a speaking date in the Miami church.

Rev. Foreman's parents live in Clovis, N. M., and he has a year's leave of absence from his missionary work in Brazil. He is making a tour of the churches in the Canadian Baptist association which includes the counties in the North Panhandle.

Rev. Foreman is one of three Americans who has been at this particular mission station. He speaks Portuguese fluently, the language used in that part of South America.

He was a guest in the H. S. Wilbur home while in Canadian.

Rev. Foreman addressed the students in the high school auditorium Tuesday forenoon, then the Brazilians at their weekly luncheon Tuesday.

—BUY VICTORY BONDS— RATIONED VEHICLES SOLD

A total of more than 66,000 commercial vehicles of all types have been released to civilians and holders of government exemption permits since March 9, when rationing began.

Director here of the Top O' Texas cadets, a group of Army Reserve cadets, is in charge of the organization and been instrumental in keeping the club "on its toes," led the organization of special classes in mathematics, to provide them with worthwhile study while they are awaiting their call to active duty.

First man enlisted here by Sergeant Short was Cleo E. Harcrow, of McLean, on March 3, 1942. The last to date was Ferrell E. Heard, Route 1, Box 73 A.A., Pampa, who signed up here Sunday. In all, Sergeant Short had added 244 men to Uncle Sam's Army since he came to Pampa.

While the district over which the sergeant is in charge is composed of 10 counties, most of the recruits here are from Pampa and Gray county.

Counties in the district are Gray, Roberts, Childress, Lipscomb, Hemphill, Wheeler, Collingsworth, Childress, Hall, and Donley.

Headquarters of the West Texas Recruiting and Induction district are at Lubbock.

By month, enlistments this year in the army from the Pampa station: March, 17; April, 22; May, 21; June, 34; July, 32; August, 37; September, 29; October, 77; November, 44.

Major E. R. Chase Promoted Colonel

A Panaman, Earl R. Chase, has been promoted from major to lieutenant colonel. It was announced today by the public relations office of Camp Swift.

Prior to entering active military service the colonel was employed by the Magnolia Petroleum company here. He came to Pampa, from Dallas.

Colonel and Mrs. Chase live at 3006 Lafayette in Austin, and his mother, Mrs. A. M. Chase, at 1402 Marshall, in Houston.

The colonel is a native of Hillsboro, and a World War 1 veteran, having been a gunnery sergeant in the marine corps.

Entering active service on Dec. 14, 1940, after 11 years in the reserve, Colonel Chase was first on duty as quartermaster at the Ft. Sill reception center. Later he was transferred for duty to the enemy alien internment camp at Stringtown, Okla., from where he came to Camp Swift on April 27 of this year, arriving here shortly after the arrival of Col. L. A. Kurtz, post commander.

—BUY VICTORY BONDS— 30 Soldiers To Become Citizens

CAMP SWIFT, Nov. 19 (AP)—Thirty khaki-clad soldiers will become citizens of the nation they are training to defend in proceedings here Friday before Federal Judge W. A. Keeling.

In one of the buildings on this big government reservation, Judge Keeling will administer to the new Americans the oath of citizenship in what army officials believed would be the first mass naturalization of fighting men within the limits of an army camp.

—BUY VICTORY BONDS— Treasure In Dimes Buried By Bird Dog

PORT MYERS, Fla., Nov. 19 (AP)—Buck, a big white and liver bird dog, is dead and with him went the secret of a buried treasure.

Buck's master, Bishop Fink, taught the dog to take a dime to the grocery for his daily ration of canned food.

Soldiers here for air corps training, learned about Buck and showed him with dimes.

Swamped with too many dimes for food, Buck began hearing and his master thinks he may have buried maybe \$100 in dimes in alleys, vacant lots and lawns.

A truck killed Buck and yesterday Bishop and neighborhood kids buried him with appropriate honors.

—BUY VICTORY BONDS— Negro Slayer Will Pay With His Life

NEW BRUNSWICK, N. J., Nov. 19 (AP)—Death in the electric chair January 4 has been ordered for John Henry Swan, six-foot-four Negro who battered 20-year-old Gi-vella Mary Forepough to death with his fists in the movie house where he was a porter.

Swan was convicted of murder and sentenced yesterday on his own admission that he had followed the pretty, slightly built girl into the lounge, pummeled her in the women's room, dragged her backstage and stripped her body of clothing behind the screen while 500 persons watched the picture on its other side.

Big Doings Slated For Schoolboy Gridirons Over Next Week-end

By HAROLD V. RATLIFF
Associated Press Sports Editor
Wichita Falls plays Vernon Friday night, and Texas schoolboy football fans will know then if it's true what they say about the Coyotes being as strong as last year, when they swept to a state championship.

Wichita Falls takes the top record of the year into this game—eight straight victories and 306 points to 26 for the opposition. But Vernon also has won eight in a row, and, along with Wichita Falls, occupies a spot with the state's seven undefeated, untied teams.

Anyway, the game will determine the District 3 championship and because it matches two eleven-win perfect records and is the major test for the Coyotes as they seek a place in the state play-off once more, it is the outstanding battle of the week.

But there'll be big doings elsewhere in Texas' far-flung gridiron campaign. Championships go on the line at Fort Worth, at Austin and at McAllen.

It's the showdown in the Fort Worth district where unbeaten Amon Carter Riverside seeks to hurdle its last barrier—Masonic Home's mighty Mites. Amon Carter Riverside already has clinched at least a tie for the title, but Masonic Home could deadlock for the lead with a victory.

At Austin, the Maroons battle Corpus Christi. Victory for Corpus Christi would clinch the title. If Austin wins it still could be tied for the lead, but that would be considered a major upset.

San Benito needs to beat McAllen to win the District 16 championship. McAllen could take over the lead but there would be the possibility of a tie for the title if it lost next week.

All along the line the games are crucial. Other districts could determine championships if there were upsets—and those are likely anytime in the always topsy-turvy schoolboy races.

- The Schedule**

Schedule Light But Games Important In Texas For Week

Saturday Will Be 'Judgment Day'

WILLIAMSBURG, Va., Nov. 19 (AP)—Saturday will be "Judgment Day" for that "wizard of ours."
The "wizard" is Carl Maryin Voyles, who has been laboring the last four years rebuilding football fortunes at the College of William and Mary. Voyles, who used to help Wallace Wade at Duke university, sends his undefeated but once-tied William and Mary team against one of the nation's greatest combinations—the North Carolina Pre-flight school.

When Voyles picked up his belongings at Duke and came down to the second-oldest college in America, he didn't have much to look forward to. That was in 1939. The previous year, William and Mary had won only one game. The Indians didn't even get a player among the honorable mention on All-State teams.

It didn't take Voyles long. With a freshman team that didn't win a game and the remnants of the hapless veteran eleven, he produced a club that lost only twice. Then, Voyles became known as that "wizard of ours."

The following year—1940—the Indians won the Virginia "Big Six" with only a tie to mar a perfect state record. Last season, they won every start in Virginia.

Right now, the Associated Press lists W. & M. as the fourteenth team in the country. The Indians have stopped Navy, smothered such teams as V. P. I., George Washington, Virginia Military and Dartmouth. Only a 7-7 tie with Harvard mars their slate.

Voyles, who did his high school and first college coaching in Oklahoma, later moving to Illinois and then Duke, figures that his Indians could put the finishing touches on their gridiron surge Saturday against the Cloudbusters. He also believes a triumph may bring the tribe a bowl invitation and shove the Indians among the nation's top 10 teams.

Pampa Mentor None Too Sure

With half of his starters not recovered from injuries, Coach J. C. Prejean was anything but optimistic today about the Harvesters' chances for the remaining two games of the season.

Even though the dope has it that Pampa should take an easy win over Borger, anything could happen, the coach warned today, citing the examples of T. C. U. and Baylor in games last week. Borger has lost to Brownfield, Plainview, and Amarillo, in the conference; and won over Perryton, Memphis, and Liberal, Kas., all non-conference games.

Nevertheless, the game to be played at 2:30 Friday afternoon isn't a cinch for the Harvesters by a long shot, with three full-backs, Manry, Arnold, Boyles, and Stafford, a wingback, out of the lineup. Robbins is also in the injured list, as are Dunham and Eason, although the injuries to the latter two are minor, and they will likely be among the starters.

With the game for which the Harvesters have been pointing all season, the contest with Amarillo, only one week off, Coach Prejean feels that injuries to his squad are definitely a handicap; and despite the Harvesters' good chances for victory over the Borger Bulldogs, he sees a mighty tough row for the Harvesters when they play Amarillo.

The Pampa team will eat lunch at 11 o'clock tomorrow morning in the high school cafeteria, then leave for Borger in private automobiles an hour later.

Mobley, Wilson May Grab All Rushing Honor

By ARNOLD DERLITZKI
CHICAGO, Nov. 19 (AP)—Rudolph (Little Doe) Mobley and six-foot Camp Wilson, the long and short of unbeaten Hardin-Simmons' devastating running attack, are well on their way to becoming the top two ball carriers of 1942 football.

If they succeed, it will mark the first time in modern records that two members of the same team have run one-two in national rushing figures. Mobley, already credited with a season's record-breaking rushing total of 1,145 yards in seven games, has first place virtually sewed up. Wilson must beat out Missouri's Bob Steuber and Ohio State's Gene Fekete for the runner-up position. Although playing in fewer games, Wilson trails Fekete by only 20

yards and Steuber by 51. Figures released today by the American Football Statistical Bureau show Steuber with 848 yards in nine games; Fekete 817 in eight games. Wilson has 797 yards in seven contests with two more to play.

Together, Mobley and Wilson have Hardin-Simmons leading the nation in rushing with an average of 350 yards a game, 40 yards better than the record set by Colorado in 1937. In fact, the two would be outdistancing complete backfield units of every college eleven in the country if it weren't for four teams—Ohio State, Boston College, Missouri and Texas.

Meantime, Frankie Sinkwich, the Georgia powerhouse, is running and passing his way toward the 2,000 yard mark in total offense. He has a 1,815 total gained by running 692 yards and passing for 1,123 and still has two more games to go. The record is 1,928 yards.

The other leaders: Total offense—Governall, Columbia, 148 yards rushing, 1,218 yards passing; Dutton, Pittsburgh, 676-580; Steuber, Missouri, 848-335; Mobley, Hardin-Simmons, 1145-0; Evans, Kansas, 234-881; McKay,

and M., caught 35 for 412 yards; Ferguson, California, 24 for 306; Salem, Texas Mines, 24 for 314; Judd, Tulsa, 23 for 312; Kelleher, Columbia, 22 for 305.

SPORTS ROUNDUP
By HUGH FULLERTON, JR.
NEW YORK, Nov. 19 (AP)—National Hockey league officials are talking (one of the best things they do) about reducing the player limit to 13 men. . . . This is important mainly because hockey is the first sport to feel the real wallop of the war. What happens to it now may happen to the others later. . . . The change may or may not equalize the strength of the teams, as Art Ross claims, but it surely would cause some changes in the way they play the game. . . . The managers could either reduce their defense strength, keep three forward lines in action and go in for heavy scoring, or they could cut out the third line and return to the slower game of a decade ago, when a hockey team was 12 men. Come to think of it, the Bruins have done all right with only 13 men in their last few games. . . . You can imagine the effects if other sports start cutting—football squads two deep, 16-man baseball squads, etc. . . . But it's one way of spreading out the available manpower.

MISSING 'EM QUICK
Winding up the football selection season with no more idea of what's what than we had at the start, Boston college, Georgia and Georgia Tech (automatically); Army over Princeton, Columbia over Dartmouth, Harvard over Yale, Missouri over Fordham, Wisconsin (home team) over Minnesota, Ohio State over Michigan, Notre Dame over Northwestern, Alabama over Vanderbilt, North Carolina over Virginia. . . . When it comes to the Southwest and Pacific Coast we give up.

SCRAP COLLECTION
Although bowl talk is taboo at the Boston college, word is that the B. C. seniors would prefer the Orange Bowl to the Sugar bowl because they've visited New Orleans three times but never have seen Miami.

TODAY'S GUEST STAR
Les Gontes, Salt Lake City Desert News: "The acquisition of a winning football team would seem to involve a matter of ethics. But nevertheless you can't cheer an ethic."

TIP FROM TED
Gordon Cobbledick of the Cleveland Plain Dealer reports that the reason Ted Williams got so few long hits off Indian pitchers late last season was that Ted, himself, gave Lou Boudreau a hint on how he could be stopped. . . . "Once a pitcher shows me his fast ball I can hit anything he throws," Ted remarked during the All-Star game. "I time everything by the hard one. Until I see it I'm liable to have trouble with his other stuff. . . . Boudreau promptly ordered his pitchers to throw nothing but curves and slow stuff to Ted until they had two strikes on him.

SERVICE DEPT.
The Army has ordered 18,200 pairs of boxing gloves from the Benlee outfit here, and the Navy has ordered 3,000 pairs—which should give our side quite a punch. . . . Lieut. Commander George Halas spent \$40 on phone calls from Norman, Okla., to Chicago to get the details on the Bears-Packers game last Sunday.

Montgomery Ward Ordered By FDR To Meet Ruling

WASHINGTON, Nov. 19 (AP)—President Roosevelt directed Montgomery Ward and Company today to comply "without further delay" with a war labor board order that the big Chicago mail order firm should include a "maintenance of membership" clause in a contract with an employe union.

The chief executive, in a letter to the company's president, Sewell Avery, said he considered "such a course of action essential in the interest of our war effort."

Montgomery Ward had rejected the board's order, handed down November 5, which called for a union maintenance contract and also for compulsory arbitration and a guarantee of wages and working conditions for a year.

The firm said, however, that if the President as commander-in-chief, directed that the company accept the WLB's rulings, it would obey. It contended the rulings were illegal and unenforceable.

The firm had particularly objected to the maintenance of union membership clause, saying this was but a form of the closed shop.

SOFT ANSWERS

(Continued from Page 1)

overthrow the existing party organization.

McKellar himself had no comment, and the attitude of the others had not softened their determination to prevent a vote on the bill, and one of the group, Senator Russell (D-Ga.), said he had every confidence this aim would be attained.

"This is a political punitive expedition into eight southern states and we are going to fight for our constitutional rights, just as the senators from the Far West would fight if some one tried to put something over on their section of the country," Russell declared.

The southerners have contended only the states have the right to fix qualifications for voters, asserting that to abolish the poll tax as a prerequisite to the exercise of the ballot would be an unconstitutional invasion of state rights.

LIMITED

(Continued from page 1)

talitarianism," and some Democrats also had shied from it as delegating to the executive too much legislative power.

Indications were that the final draft, on which a sub-committee starts work tomorrow, would specify the extent to which the President could disregard existing laws in dealing with international traffic.

Many Pampanos 'Lost' When Gas Rationing Registration Gets Started

Despite advance notice in the newspapers and over the radio, many Pampanos were still asking "Where do I register?" today as the three-day registration period of application for gasoline rationing opened in Gray county.

Local schools, registration centers in Pampa, were not "swamped" early this forenoon but were doing a steady "business."

At the red brick school building on the junior high school campus, there were two workers seated at each of five tables, or 10 workers in all, making out the registration forms.

Schools all over the county are registration centers. In Pampa, the places are the High School, Junior High, Baker, Houston, Woodrow Wilson, and Horace Mann.

Carver school is not being used for this purpose. Persons who are in the Carver district are registering at the red brick school building.

Other registration places over the county are the schools of Alameda, McLean, LeFors, Beck, Webb, Farrington, and Hopkins 2.

Registration opened at 9 a. m. today and will end at 5 p. m. The same schedule will be followed tomorrow, with the exception of Pampa, McLean, and LeFors, where registration will be kept open until 10 p. m., to accommodate those who cannot register in the daytime.

Only place for this late registration.

THREE ARMIES

(Continued from page 1)

rica that four Spitfires attacked a flight of six Italian Savoia torpedo planes near an Algerian port, shot down four of them and drove the others away before they could attempt to discharge their torpedoes against an Allied convoy.

Although the Allied communique did not identify the points at which columns had driven into Tunisia, information here suggested that these followed the main road and rail routes: one from the Algerian port of Bone along the coast through Tabarca toward Bizerte; a second along a rail line from Tebessa, Algeria, toward Tunis; and a third, farther south, along a trail which runs through Ga. sa to Gabes, where better roads lead on to Sfax and the coastal rail line to Tunis.

Progress of these drives was not disclosed, but pro-Allied French forces were reported making a fighting withdrawal to join the incoming British and American forces, while their compatriots from Algeria advanced as scouts ahead of Anderson's army.

Observers here said the advance from Lake Chad might use as a striking base the Kufra oasis, which is 500 miles south of Benghazi and which the Fighting French seized from an Italian garrison 18 months ago.

Forces in the Chad region were reported here to be of considerable number, well equipped, and supported by South African and RAF squadrons.

U. S. To Finance Mexican Lines

WASHINGTON, Nov. 19 (AP)—The United States has agreed to finance rehabilitation of key Mexican railway lines in order to speed up war shipments.

In an exchange of notes disclosed last night between Mexico's Foreign Minister Ezequiel Padilla and Ambassador George S. Messersmith in the Mexican capital the U. S. agreed to bear the cost of all necessary materials and equipment, repairs and maintenance.

The Mexican railway lines to be rehabilitated under the agreement, as described in the notes, are:

(A)—Mainline south from United States border at Laredo, Texas, via Monterrey-Saltito-San Luis Potosi to Mexico.

(B)—East-west line from Torreon via Paredon to Monterrey.

(C)—Main line south from Cordoba and Puerto Mexico via Jesus Carranza and Ixtepe through Suchil de Goto to the Guatemalan border.

(D)—From Chihuahua to Torreon.

500 Attend Big API 1942 Ball

A crowd of 500 persons attended the annual membership dance of the Panhandle chapter of the American Petroleum Institute, held last night at the Southern club.

Election of officers was held during an intermission with H. V. Anderson installed as the new chairman, R. B. Saxe, first vice-chairman, B. O. Lilly, second vice-chairman, and R. L. Westbrook, secretary-treasurer.

Music for the dance was by Nat Towles and his orchestra. They gave Pampanos a brand new type of big time music.

Given just before gasoline rationing registration opened, the dance attracted many from out of town.

B. O. Lilly was chairman of the dance committee.

Mrs. Ethel Seitz Dies Early Today

Death took Mrs. Ethel Seitz, wife of Jones Seitz, Texas Kif Carbon company employe, at the family's residence on N. Russell street at 1 o'clock this morning.

Mrs. Seitz had been in ill health for several years. She was found dead by her husband when he came home from work early today. Death was attributed to a violent hemorrhage.

The physician called said Mrs. Seitz had been dead 10 minutes when her husband returned home. The body is at Duengel-Carmichael Funeral home. Funeral arrangements had not been completed early this afternoon.

Helps You Overcome FALSE TEETH

Looseness and Worry
No longer be annoyed or feel ill at ease because of loose, wobbly false teeth. PASTEETH, an improved alkaline (non-acid) powder sprinkled on your plates holds them firmer so they feel more comfortable. Soothing and cooling to gums made sore by excessive acid mouth. Avoid embarrassment caused by loose plates. Get PASTEETH today at any drug store.

FIRST ROAD SIGNS

Trees were the first highway trail markers. Indians bent saplings to show directions and some of these, grown to maturity, may be seen even today.

ANIMAL TONGUES

Roots of the tongues of most animals are fastened in their skulls, but that of the giant anteater is anchored to its breast bone.

THE PAMPA NEWS

(VOL. 40, NO. 204)

THURSDAY, NOVEMBER 19, 1942

PAGE 7

Japs Admit Battleship Lost In Battle With Americans

NEW YORK, Nov. 19 (AP)—Japanese imperial headquarters announced today for the first time in this war the sinking of a Japanese battleship, confirming the U. S. Navy's claim of two days ago and underlining by sober statement the measure of the American victory in the latest battle of the Solomons.

The Japanese went further than they ever have in admitting their own losses, even though an attempt was made to offset the casualties by claims of even greater losses inflicted upon the opposing forces.

They confirmed the U. S. Navy's announcement of the sinking of a Japanese battleship and the damaging of another and listed also one Japanese cruiser and three destroyers sunk and seven transports damaged.

Against this total of 13 vessels sunk or damaged—compared with the U. S. Navy's preliminary announcement that the total was 30 vessels sunk or damaged—the Japanese claimed the casualties inflicted by them totalled 13 or 14 vessels sunk and 11 or 12 damaged.

Imperial headquarters issued this version of what was called the third Solomon naval battle after the Tokyo radio, abetted by the German and Italian radios, had trumpeted in advance to the world that "another bombshell announcement" was forthcoming.

In comparison with previous Japanese versions of other naval engagements in the Pacific war, however, the bombshell element was lacking for anyone but the Axis since the real surprise was the Japanese admission to have lost a battleship.

Texas Soldiers Are Victims Of Blast

CAMP EDWARDS, Mass., Nov. 19 (AP)—Two Texas soldiers suffered severe injuries yesterday when dynamite exploded in their hands, the camp's public relations office reported today.

Corp. Alton M. Barrett of Jefferson, Tex., lost his right hand, while Private First Class Robert Lee Hayles of Beaumont, Tex., had an artery in his right arm severed.

Help operate America's great war machine—with your savings and a tenth of your pay. Buy Stamps—Buy Bonds—Buy a peaceful future! U. S. Treasury Dept.

Mass Bomb Raids May Hit Italy

WASHINGTON, Nov. 19 (AP)—Members of the Pacific war council expressed the view today there was a possibility that "mass bombing" raids would be directed at production centers in northern Italy.

Heaving Shale Can Now Be Fought

AUSTIN, Nov. 19 (AP)—A new weapon in the oil industry's fight against heaving shale has been invented by University of Texas engineers. It's a small cylinder into which samples of the shale may be placed for testing of hydration-pressure or pressure exerted when the clay becomes saturated with water.

REPORTER WOUNDED

NEW YORK, Nov. 19 (AP)—Leo S. Disher, a United Press correspondent with American expeditionary forces in French North Africa, suffered nine shrapnel and bullet wounds during the initial task force raid on the harbor of Oran and was reported today recovering in an Oran hospital.

Dairy Products May Go On Ration Base

WASHINGTON, Nov. 19 (AP)—Secretary of Agriculture Wickard has told the War Production Board's Foods Requirements committee that dairymen can not possibly supply next year's demands and that as a consequence the government should take immediate steps to limit consumption of some dairy products.

Sources which could not be quoted by name said today that Mr. Wickard, who is chairman of the WPB Foods committee, felt that cheese should be placed under ration along with meat, that the production of ice cream should be reduced at least 25 per cent below this year's level, and that consumer rationing of fluid milk should be established in milk-sheds facing short supplies.

Meat is scheduled to be placed under rationing shortly after the first of the year. Distribution among retailers is being limited now, and the public is urged not to buy more than the equivalent of two and a

Wood County In Discovery Of 3rd New Oil Field

TYLER, Nov. 19 (AP)—Wood county has a new oil field with recovery yesterday of 20 feet of saturated oil sand from the Paluxy zone in Delta Drilling Co. of Tyler No. 1 J. D. Goldsmith, three miles northwest of Quitman.

The recovery came after coring from 6250-287 feet. This gives Wood county its third field in two years. Nevada is the only state in the Union that does not levy an inheritance tax.

The secretary was said also to have recommended that distribution of butter and evaporated milk be limited until rationing plans for these products can be studied and developed for establishment before the winter is over.

HE DID JOB

Lt. General Bernard L. Montgomery, Commander of British Eighth Army, is watching from the turret of an American-bull tank, as Rommel's once-powerful Afrika Korps retreated to the West, in Egypt. Photo passed by censor and radioed from Cairo to New York then telephoned to The NEWS.

Meat Shortage May Close Plant Cafe

SAN FRANCISCO, Nov. 19 (AP)—The Pacific coast's meat shortage was brought urgently to the attention of the federal government today by restaurants feeding 30,000 defense workers in a shipyard boom town. The restaurants threatened to close because they cannot get meat.

Food For Norway Discussed By FDR

WASHINGTON, Nov. 19 (AP)—Wilhelm Muntze De Morgenstjerne, Norwegian ambassador to the United States, talked with President Roosevelt today about the possibility of getting food supplies to the Norwegian people this winter. The ambassador said the food situation in Norway was desperate, that the Germans had looted the country and there was "hardly a herring left."

Applicants Sought In Eight Vocations

Eight vocations are represented in the list of examinations of the United States Civil Service commission, announced today by Vaughn Darnell, secretary of the Board of Civil Service Examiners. Full information on requirements and application forms may be obtained from Secretary Darnell at the Pampa postoffice.

Jobs open, with annual pay, are: Teletype operators, \$1,440 to \$1,620; office appliance repairmen, \$1,600; junior chemists, \$2,000; chemical aides, \$1,800; librarians, \$1,260 to \$1,620; paint and textile inspectors \$2,600; warehouse managers, \$2,000-\$4,600; nurses, \$168.75 a month in Panama, \$1,800 a year in the United States.

These Questions may decide what laxative to give your child

Ques. Is it true that children take more readily to a child's laxative? Ans. Yes, that's generally so. Ques. What is a "child's laxative"? Ans. A laxative like Syrup of Black Draught, designed especially for a child's needs and tastes. Your children should like Syrup of Black Draught. Follow label directions. The big 50c bottle contains more than three times the old trial size.

EDITORIAL ECHOES

WHY BE THANKFUL?

Thanksgiving! For what? Is it only the well-known menu that thrills you?

After terrible hardships, our forefathers celebrated their survival by feasting.

The American people have existed through strong opposition; we are fighting to keep that freedom now.

This year when you sit down in front of a turkey, stop and remember the real reason for Thanksgiving. Ask yourself, "What have I to be thankful for?"

Remember the times your father and mother have cast their votes for the man of their choice.

Remember that you read a newspaper in which a journalist has told the story as it happened with editorials expressing opinions freely and without fear.

Remember the man who preaches as he believes.

Those are three reasons for thankfulness. Richard Hughes

SAVE FOR UNCLE SAM

Save, save, save! Uncle Sam is crying for us to save everything.

Save on food. People across the waters in both directions are short on food—some to the extent of starvation.

Save the tin cans. Pack the cans in this way: First, cut out the bottom; second, flatten out the can with your shoe; third, stack the can in metal sheets.

Save all scrap metal for making more airplanes, ships, anti-aircraft guns, and machine guns.

Save wool scraps. They are now cut into four inch squares and put together for afghans to cover the wounded and sick soldiers.

Save everything to help Uncle Sam win the war. This is our war. It is hard to realize when we hear no guns. But we should not wait that long to get into the fight. It may be that we shall hear those guns yet. We hope not. We shall try to win the war by building ships with our scrap, by supplying the soldiers with the weapon and ammunition in foreign lands—in Africa, in Iceland, in England, in Australia, in Hawaii, in India, wherever the flags of the United Nations wave.

IMPROVEMENTS WE COULD MAKE

As a member of the seventh grade, I wish students in Junior High would not do several things we are guilty of: Whistling in the auditorium, (our principal has asked us always to applaud with our hands); booing anywhere (this is not good sportsmanship—and should never be done. Remember the time Nellis tried to speak from the fire escape when he and Griffin were running for student president? I was ashamed of what took place there;) then improper language (why not keep clean minded and mouthed?)

If we could overcome a few of our troubles we would have the best junior high in the United States.

Bobby Oden

BONDS

No matter how little your income or allowance, buy stamps and bonds with one-tenth of it.

Back up your brothers in the armed forces. Let's be sure we do our part in bringing them back.

Floyd Brandt

Bands And Choir Are In Victory Concert

Miss Barton Hostess To Tri-Hi-Y Girls

Nine members of Tri-Hi-Y met in the home of the sponsor, Miss Ruth Barton, at 821 E. Kingsmill, Monday night for election of officers for the year.

These girls will lead the organization for 1942-43: Dorothy Culbertson, president; Lucille Smith, vice president; Betty May Brown, secretary; Elizabeth Sturgeon, historian; and Wanda Gordon, reporter.

Next meeting will be in the home of Elsie Ruth Graham Nov. 24.

Sixth Grade Title Goes To Room 108

Room 108 won the touch football tournament when in a close game with 107 it doubled the score, 12 to 6. Winning Sixth grade team follows: Gordon Fraser, right end; Jerry Davis, right tackle; Leon English, right guard; Albert Wilson, center; Hubert Pinkline, left tackle; Ray Covall left guard; Gall Smith, left end; Jimmie Cline, quarterback; Harbord Cox, right half; Darrel Davis, fullback; Malcolm Douglas, left half.

Poll Of Movie Goers Shows Various Likes

Junior High students see many movies. Some see them too often for their grades sake. Eight students give their preference and why.

Joyce Oswald says, "I liked Mrs. Miniver. It gave facts about the war in England that I did not know."

"The Major and the Minor" pleased Mary Morris because it was comical.

Paulette Traywick liked "Captain of the Clouds" because her favorite movie star played in it.

"Footlight Serenade" playing John Payne was Mary Lou Lane's favorite.

Veronica Lake in "The Glass Key" was Billie Jean Searle's best movie.

The mystery, "Sweater Girl," was the best recent show Betty Chapman has seen.

Mae Owens liked "King Kong" because of the comedy.

Floyd Brandt likes his airplanes. No wonder he chose "Eagle Squadron."

Sports Satic

Coaches re-elected officers when Billy Washington resigned as coach of his room. This had to be done because Billy was president of Coaches club.

The new officers are Charles Beard, president; Jack Dunham, vice president; and Bill Smith, secretary.

Volleyball will be the next intramural for boys, beginning with the Ninth grade with these rooms as opponents in the preliminaries: 211 vs 218; 113 vs 112; 214 vs 215; Room 215 drew a bye.

On Nov. 23 the games in the ninth grade begin, two a day, with the student coaches officiating.

At the close of the tournament, the Ninth and Eighth grade champs will play a final game. This was not done in football. By the time the eighth grade finished their tournament, the ninth grade had forgotten their strategy.

The first of the eighth grade pin soccer games began Monday of last week with Room 2-B victor over Room 212, by a score of 3 to 0.

Winning team was composed of these girls: Crossman, Matheny, Pierson, Kelley, Pagan, Dorbridge, Myatt, Bain, Davis, Yoder, Perkins.

Members from Room 212 following: Lane, Traywick, Davis, Shelton, Conway, Phillips, Wells, Hutchens, McCall, Brown, and Stevens.

On Wednesday Nov. 11, Room 213 nosed out Room 217 with a 1 to 0 score.

Members on the team of Room 217 are as follows: Fine, Clemmons, Coggins, Bradford, Groves, Sheedy, Flowers, Lawrence, Lane, Stark, Trader.

The opposing team, Room 214 played these girls: Butler, Giddens, Renegades, Snyder, Hill, Anderson, Walls, Kitchens, Bond, Slusher, Morris.

In the physical education department last week in the Victory parade Dee Griffin and Maurice Lockhart represented boxing; Jerry Nash and David Shelton track; Kenneth Clemmons and Berel Williams, softball; Richard Gee, basketball; Lloyd Brandt and Jones Ford; exercises, Joe Pierat, Earl Hildebrand, Wilton Hay, and Roy Priest.

Mannequins & Models

Do your necklaces get tangled up in the drawer? Try using a tie-rack. It also makes a pretty display.

Using various colors of felt in cutting out names is new—one for background, the other for the cut-out.

Finning your name in wood or plastic across a felt heart gives a newness to the name you have had for some time.

Ginger Bassett's G makes a pretty initial pin.

The Johnny Jeep hats are the thing now!

PAMPA JUNIOR HIGH BAND, 1942-43

These ninth grade students are members of the Reaper Band which will contribute to the musical program Friday night in the Junior High auditorium: Gerald Bendender, Carrol Chism, Arnelida Cargill, Randall Clay, Dorothy Culbertson, Roy Carpenter, Elsie Graham, James Harrah, Billy Hutchinson, Jack Hood, Bobby Keller, Ronald Lewter, Eugene Lively, Dick McCune, Tommy McPhillips, Roy Noland, Sybil Pierson, Bill Payne, Deryl Robbins, Roy Rutherford, Willis Stark, Horace Saunders, Doris Shackelford, Beth Sturgeon, Betty May Brown, Dorothy Culbertson, Erma Lee Kennedy, and Wanda Gordon.

This is an auxiliary organization of the Y. W. C. A.

GRAZINGS

Wanda Cobb returned Saturday from a trip to Tennessee where the family went to visit her brother, Wayne, who was a Pampa high school student six years ago. He is in the armed forces in Virginia.

The family had not seen Wayne since he left Pampa in November 1941.

Charles Hatcher's autographed cast on his left knee is a good memento of his visiting friends. Since coming back to school, others have added names. He spends most of his recreation time in the halls chatting with the patrol officers.

If you wondered why the fourth Wheeler last week, he sat with the local eleven throughout the game.

Elva Jean Anderson who received a severe burn that kept her from school a week still carries her knee stiff and remains inside for safety.

If you wondered why the fourth period was so long one day last week, we might remind you that the fifth was correspondingly short. Things are generally clicking fine in the office with the new registrar. This is one bell that almost was overlooked.

A sign near Room 217 reads, "Lovers Lane." A good name.

Room 112 has some new flowers. Mrs. Leech brought the last pot plant which is the prettiest. Three vases, other plants and the discarded book shelves from the library are all new additions.

Homeroom 118 presented their teacher, Mrs. Stroup, who left Pampa for California lately, with a black set of costume jewelry.

Beat the record score to be diligent using the third hour—when they do not get interested in the football game then in progress.

Advanced physical education girls felt let down when the instructions after school for "little outdoor recreation" were these: Maurice Lockhart, Jimmy McTaggart, Kenneth Beasley.

Joe Bob Rowell and Billy White went duck hunting the afternoon of Nov. 2. They each got their ducks. Others who neglected school that afternoon for "little outdoor recreation" were these: Maurice Lockhart, Jimmy McTaggart, Kenneth Beasley.

From Room 101 Donald Winton brought down three ducks after school Monday afternoon. His father brought in four, with this one duck, when he was in the football game then in progress.

Mrs. Dan Busch and her husband who was on a ten-day furlough from Fort Knox, Ken., joined Miss Lorraine McCarroll for a duck hunting expedition after school hours lately.

They haven't got anything else to do but run us out of the building.

"Hit that old girl, there, as we go by. She doesn't care."

"Oh, she slapped me. I'll get even with her at noon."

What's wrong with this scene? Raymond Vanderlinden.

Mrs. Mabel Torvie, who took her degree from the University of Louisiana, began her duties as eighth grade teacher Monday morning taking Miss Virginia Lane's place which was vacated when Mrs. E. O. Stroup left her ninth grade English position last week.

Mrs. Torvie's husband works in one of the local oil companies and expects to be in the army soon. She returns to the school room in Pampa after these students have had several substitute teachers lately.

The Lost and Found Department has two big signs for directing students to the proper place to find what they forgot to remember to put in the proper place.

Girls are the opposite of boys. Boys are rough. Rough is what queens wear around their necks. Necks are cold. Cold is what ice is. Ice is frozen water. Water your flowers tonight is a question. A question is a problem. Therefore, girls are problems.

When Louise Clark wondered why the cookies in Miss Louise Smelser's desk had no sugar in them, she never once guessed she might be eating the dog biscuits meant for Duchess, Miss Smelser's terrier. Miss Smelser even made it sound plausible by saying, "No sugar? Well, they are wartime biscuits."

One rubber plant can never make a home.

Not even when combined with brush and comb.

And spoon, and fork, and knife, and gramophone, and wife, No! something more is needed for a home.

One rubber plant can never make a home; One day did not suffice for building Rome.

One gas log and a cat Can't civilize a flat; Not something more is needed for a home.

Maybe girls who still have a cup of sugar to try out on the family would like to follow this recipe for Chocolate Drop Cookies:

1 cup sugar
1/2 cup shortening
1 egg
1/2 cup milk
1 1/2 squares chocolate or 1/2 cup nutmeats
4 tablespoons cocoa
1 teaspoon vanilla
1/2 cups flour
1/2 teaspoon soda
1 teaspoon baking powder
1/2 cup raisins
Cream sugar and shortening; add egg and beat well. Add milk and melted chocolate. Add flour sifted with dry ingredients. Stir in raisins, nuts, and vanilla. Drop by teaspoonfuls on cookie sheet and bake slowly by 325-350 degrees.

When a visitor comes to class, Don't just stare like that. Perhaps she is a little plump. You don't have to say she's fat.

When our principal comes around To announce it to your class, Don't sit there in ignorance. If there's a question you should ask.

When the chairman comes on the stage, No applause is needed then. We all must go to understand. The Who, or What, or When.

You who attend our Junior High Aged 12 or in your teens, Listen attentively always. Be courteous by all means.

In order to learn to read and write We all must go to school. But little tricks of courtesy will help As well as the Golden Rule. By Neva June Bowden

CALENDAR

Nov. 19—Night Parent-Teacher meeting.

Nov. 20—Victory concert.

Nov. 25—Beauty and the Beast, Claire Tree Major production.

Nov. 26, 27—Thanksgiving holidays.

CHAFF

The little calf walked up to the silo, "Is my fodder in there?"

The big firecracker said to the little firecracker, "I've got a bigger Pop than you."

The ocean never speaks to the shore. It just waves.

Most good bridge players we notice are also good students of the international situation, all of which is one way to drag in this story.

The Nazi leaders were playing contract bridge in Hitler's mountain retreat.

Goering: Three diamonds. Goebbels: No bid.

Von Ribbentrop: Five diamonds. Hitler: One club.

Goering: Pass. Goebbels: Pass.

Von Ribbentrop: Pass.

When Louise Clark wondered why the cookies in Miss Louise Smelser's desk had no sugar in them, she never once guessed she might be eating the dog biscuits meant for Duchess, Miss Smelser's terrier. Miss Smelser even made it sound plausible by saying, "No sugar? Well, they are wartime biscuits."

One rubber plant can never make a home.

Not even when combined with brush and comb.

And spoon, and fork, and knife, and gramophone, and wife, No! something more is needed for a home.

One rubber plant can never make a home; One day did not suffice for building Rome.

One gas log and a cat Can't civilize a flat; Not something more is needed for a home.

Maybe girls who still have a cup of sugar to try out on the family would like to follow this recipe for Chocolate Drop Cookies:

1 cup sugar
1/2 cup shortening
1 egg
1/2 cup milk
1 1/2 squares chocolate or 1/2 cup nutmeats
4 tablespoons cocoa
1 teaspoon vanilla
1/2 cups flour
1/2 teaspoon soda
1 teaspoon baking powder
1/2 cup raisins
Cream sugar and shortening; add egg and beat well. Add milk and melted chocolate. Add flour sifted with dry ingredients. Stir in raisins, nuts, and vanilla. Drop by teaspoonfuls on cookie sheet and bake slowly by 325-350 degrees.

When a visitor comes to class, Don't just stare like that. Perhaps she is a little plump. You don't have to say she's fat.

When our principal comes around To announce it to your class, Don't sit there in ignorance. If there's a question you should ask.

When the chairman comes on the stage, No applause is needed then. We all must go to understand. The Who, or What, or When.

You who attend our Junior High Aged 12 or in your teens, Listen attentively always. Be courteous by all means.

In order to learn to read and write We all must go to school. But little tricks of courtesy will help As well as the Golden Rule. By Neva June Bowden

Aviation News

In the first week of Aviation News, an error which read that P-40's are new planes should have read Thunderbolt P-47's.

The Flying Tigers of China numbered 100 including the Chinese ground crews who often carried on 24 hours a day and the American fliers with their P-40's.

Statistics show that 800 Jap fliers were killed by this small group and 300 planes were shot from the skies when the Flying Tigers were used.

One squadron numbered 10 to 1. Squadron leader, John V. Newkirk, 28, of Scarsdale, N. Y., shot down the greatest number of planes, 25.

Next in line was James H. Howard, 29, of China and educated in the United States. His father was born in when his son was only 12 years old.

Pilot Robert Layher, 26, was of Otis, Colo.

Flight Leader Edward P. Rector, 25, from Marshall, N. C., was a hard-working farm boy, one of the most popular of the group.

David Lee Hill, 26, of Hunt, Tex., one of our own state, flew aboard the Saratoga and the Ranger. When he attended A. and M., he was in the cavalry.

Pilot Frank Lindsay Lawlor, 27, was born in Winston-Salem, N. C. He was rejected once for the Navy Air Corps, stuffed with bananas and made it. He has a ten-month old son and flew aboard the Saratoga.

Noel Richard Bacon, 24, from Randall, Iowa, played good football before learning flying.

William E. Bartling, 27, of Middleton, Ind., was a crack dive bomber on the Wasp.

Henry M. Geselbracht, 25, of St. Louis, flew for a movie.

Dead is Tom Cole of Missouri. Wounded in battle was Pilot Matthew Kuykendall, 23, of San Saba. He is a fine horseman and rifle shot.

The ground crews have a close place in the regard of every flier. General MacArthur's nephew, Ernest B. MacArthur, 27, is taking pre-flight training in San Antonio.

Cadet Horace L. Borden is following up his father, Capt. Horace L. Borden, who won the Distinguished Service Cross while flying in France with the 95th Aero Squadron.

Girls are the opposite of boys. Boys are rough. Rough is what queens wear around their necks. Necks are cold. Cold is what ice is. Ice is frozen water. Water your flowers tonight is a question. A question is a problem. Therefore, girls are problems.

Bond Or Stamp Admits One Person To Music Of Junior High Groups

Victorious Group

From Last Season

Again Is Winner

The final score was 15 to 13 when the eighth grade allstar kickball team of girls played the seventh grade allstars last week. Due to several tie-ups, the game ran into the fourth period after lunch hour closed.

Last year the same eighth grade team which was then the seventh grade won over the team ahead of them.

In the last two innings June Matheny was the star catching four wild flies.

This game brought unusual interest from the respective physical education teacher, Misses Louise Smelser and Nadine Wilson, as well as the interested onlookers from the seventh and eighth grades.

Sue Barton Voted New Favorite

Recently the library development selected the book which seemed to be called for most. This was the Sue Barton series.

Many girls go to the shelf in the back of the library and then back to the desk wondering where to find the Sue Barton books written by Boylston.

This is the proper procedure: Find the book in the files. If it is non-fiction, a number will appear on the card. Find that shelf in the reading room. If it is fiction, it will have the author's name and number. In the main reading room are the fiction books on the south wall.

If the book is not there, then someone has checked it out.

Lennis Boren Captain Of Ninth All-Stars

The all-star pin soccer team for ninth grade girls is composed of the girls from the seventh ninth grade rooms who participated in the tournament and did outstanding playing. Miss Louise Smelser coaches physical education for this grade.

Room coaches chose this group: Lenlis Boren (captain), Peggy Kelley, Gretchen Berry, Florence Ferguson, Betty Bruner, Iline Barrett, Anna Merle Cox, Doris Baird, Orna Jean McCarty, Mickey Swearingen (assistant captain), Mary Ruth Lawler, Leatrice Winton, Duane Vieux, Sybil Pierson, and Louise Clark.

This team will compete against the eighth grade all-star pin soccer team which has not yet been chosen.

The seventh grade all-star pin soccer team are these best players from the eighth seventh grade rooms: Ida Ruth Taylor (captain), June Myatt, Ruthie Lee Franks, Wanda Fish, Billy Jean Hollis, Alice Robinson, Nickie Frasier, Leona Young, Lillith Martin, Bernice Bond, and Nancy McClelland. Honorable mention goes to these girls: Jo Dell Elliott, Donna Holden, and Wilma Tubbs. Girls will be placed in positions on this team by the captain. They expect to play the sixth grade all-star team.

Anyone feeling cold might find a warm reception in Room 202. This catches the heat and remains warm when other rooms are cold. This room is also "hot" when spelling test come up. Miss Barton teaches spelling in this room. In one of the last lessons 100 percent. Everyone is striving for that grade.

From Room 207 Glen Gary and Billy Jean Hollis have recently been elected Best Citizens. A parliamentary and his assistant were elected at this same homeroom meeting: Ray Oliver and Margarine Hall.

Joyce Nunez was a new student in Room 221. She had spent the past several weeks in California.

Jack McCord and Ida Ruth Taylor were chosen the best students in Room 221 for one week.

Room 207 has had several teachers. They have written Santa Claus to bring them a permanent teacher. Mrs. Oscar Hinger is the present substitute.

Substitute teachers seen about the building have been Mrs. H. H. Hahn, Mrs. L. G. Wells, Miss Ella Mae Hale, and Mrs. Tom Duvall.

These students study with Miss Denton at development hour: Kenneth Fugate, Doris Caughey, Mildred Spotts, Glenn Henderson, Junior Minnick, Carl Lam, Olva Bishop, Juanice Doggett, Ramon Board, James Gordon, Vernon Holler, Vernon Wood, Kenneth Williams, Buster Kelley, Billie Moyer, Francis Hunt.

Glenn Henderson, an eighth grade student, in Miss Verdie Denton's development has several pictures worthy of note. One in oils portrays a seaside scene on the wharf with dark colors; a lighter picture in watercolors shows dilapidated buildings with more sky and sea included.

These are on a large scale and according to the teacher are quite spontaneous and natural in treatment and interpretation.

These students study with Miss Denton at development hour: Kenneth Fugate, Doris Caughey, Mildred Spotts, Glenn Henderson, Junior Minnick, Carl Lam, Olva Bishop, Juanice Doggett, Ramon Board, James Gordon, Vernon Holler, Vernon Wood, Kenneth Williams, Buster Kelley, Billie Moyer, Francis Hunt.

All sixth grade had a voice in the choice for the Sixth All-star team in Pin Ball. The girls chosen for the best in the Sixth grade follow: Betty Parker (captain), Peggy Lake, Naneen Campbell, Virginia McNaughton, Patsy Cox, Roberta Smith, Ruby Wylie, Donna Beagle, Sara Spears, and Billie Gillog. Honorable mention went to these: Sharon Chapman, Jo Dell Bell, Francis Rose, Gladys Van Pelt, and Betty Culverhouse.

This team played the seventh grade team and lost 16 to 5.

When Louise Clark wondered why the cookies in Miss Louise Smelser's desk had no sugar in them, she never once guessed she might be eating the dog biscuits meant for Duchess, Miss Smelser's terrier. Miss Smelser even made it sound plausible by saying, "No sugar? Well, they are wartime biscuits."

PLEDGE OF ALLEGIANCE—I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all.

Ordnance Decentralizes

Come to think about it, we haven't heard much about the Army ordnance branch—which designs, purchases and services tanks, guns, munitions, combat and staff vehicles, and most of the things with which men fight except planes and water craft.

When the British evacuated Dunkirk, and scurried back to their island sanctuary without arms, cartridges, or anything much except their fists, we hastily sent them just about every weapon and munition in our almost bare cupboard.

It was the task of the ordnance department, with utmost haste, to replace those guns, that powder, and the other material of war out of an economy which, during years of pacifism, we had deliberately demilitarized by malnutrition.

The way that job has been done is a tribute to the quiet devotion of the little ordnance nucleus which the Army managed to maintain through lean years.

Rearmament has been achieved with little publicity because it has been done well. Criticisms have been few and for the most part badly founded.

The following article was the winner of the first prize in the Santa Ana district. One of the judges thought this was the best over-all article.

The article stresses the importance of considering the future results of a course of action in determining whether or not a man is a real leader. This is something too often overlooked.

RAINBOWS COME AND GO (By Gordon Carlson) Because human nature is what it is, there will always be men who lead and men who follow.

Therefore he has decentralized his work to the limit. Planning and designing inevitably are entered in his own office in Washington. Procurement and inspection are done in the field.

The proof of the pudding is in the eating. Ordnance's pudding has a sweet and spicy taste for us, a bitter one for the Axis. We commend the ordnance department's example to some other Washington war agencies.

Reorganization—Not Scarcity One conventional but really unimportant phase of the current economic adjustment will be the disappearance of favorite brands from store shelves.

Speedster Smith Some time before election Gerald L. K. Smith, Fascist-minded independent candidate for the U. S. Senate, threatened to drive from Detroit to Kalamazoo at 60 miles an hour, to see whether Leon Henderson was boss in Michigan.

The great leader follows the principles laid down in the living monument of freedom, the document evolved when a new union was born, and painstakingly molded to serve the needs of a growing nation and meet the challenge of a changing world.

more of work each week from every war worker than we are. Per capita output is bound to reflect the difference. The 40 hour week law probably has had a good deal to do with our shorter week.

Then there is poor management on the part of the bureaucracy in handling man power and allocating materials. Some industries have been overloaded with labor, and others, perhaps more important, have suffered for want of workers.

Our abundance of materials was transformed into a shortage because the materials were unsystematically and unwisely allocated. If there wasn't material enough to maintain full production schedules per capita output naturally declined.

Finally, if our production lags in comparison with that of Britain, labor is challenged to make good its repeated professions of patriotism. We have seen frequent strikes and slowdowns, despite the goals of the armed services have been somewhat scaled down, an indiscriminate draft system proceeded far enough to make serious inroads in the skilled labor supply.

First of all, there are hours of work. The Bureau of Labor Statistics reported that the average working week in the durable goods industries was 45.1 hours. In Britain, the bureau said, the average week in war industries was between 55 and 60 hours.

PERSONALITIES: Harry Hopkins' former Works Progress Administration aides are now applying their talents to the relief of the peoples of the world. Many of his top men during the leaves-raking era are now serving with military or

Common Ground

I speak the plain-word primer. I give the stark of democracy. By God, I will accept nothing which all cannot have their counterpart of on the same terms.

HOW MANY TIMES CAN WE EAT A CAKE AND HAVE IT?

The whole philosophy of the New Deal is that we can eat a cake not only once but time after time and still have the cake. Their whole phantasmagoria is the belief increasing credit and making things scarce will make it possible for people to live better.

They seem to think that money and debts and credit will magically supply people with food, shelter and clothes and win the war.

And this is all a natural result of following a leader who has no conception of how wealth is produced and distributed. This is evidenced by the laws that he has insisted upon enacting and keeping on the statute books that make things scarce.

ANOTHER WINNER OF THE GREAT LEADER CONTEST

I am reproducing below another article, winner of one of the prizes in the contest attempting to promote a better understanding of the impersonal rules that should be used to measure great leadership.

The following article was the winner of the first prize in the Santa Ana district. One of the judges thought this was the best over-all article.

The article stresses the importance of considering the future results of a course of action in determining whether or not a man is a real leader. This is something too often overlooked.

RIVET THEM DOWN

News Behind The News

The National Whirligig

By RAY TUCKER CASTOPFS: The nation may be beating its plowshares into swords but certainly not into razors.

Previously most manufacturers, anticipating emergency shortages, built up enormous inventories. When priorities on materials used in shaving instruments were put into force, the bigger companies had immense stockpiles of finished products for their salesmen.

Trade analysts note that in some ways the former wastefulness of Americans has become a blessing. The thrifty British worked everything to the limit. Now their attitudes are here.

MORGENTHAU: Since the election, rumors have buzzed concerning its effect on the career of famous Democrats. Those New Dealers who whisper that James F. H. Dole will walk the plank are due for a surprise.

But when the die was cast there, "Jim" could not quit without giving the impression that he was deserting Bennett and his other friends. Now he will not withdraw for the same reason: he cannot run out on those who hold the same principles as himself until those views are accepted by the Party.

The tip from insiders in New York is that Governor Herbert H. Lehman will be given an impressive post in the war setup by the Administration. For more than a year he has wanted very much to go to Washington and now he has his chance.

Negro spokesmen of national prominence advance several reasons for the reversion. Their people, they say, finally came to realize that for partisan purposes. They resented the failure of their class to obtain important patronage posts and they were angry about their treatment in the Army and Navy.

SCRAP NEEDS SET Scrap collectors must turn in 17,000,000 tons of iron and steel to meet the demands of war industry, for the last six months of 1942.

TAXI DISTANCE LIMITED Taxicabs have been limited to trips not over 10 miles beyond the corporate limits of the cities in which they operate, except for special emergencies.

CHROMITE IN OREGON Chromite-bearing beach sands in Oregon are being studied by geologists as a source of strategic and critical minerals.

Around Hollywood

By ERSKINE JOHNSON NEA Service Staff Correspondent

All around the lot: The Harlem buildings lean crazily, as off-balance as your wife's checkbook. A bright green fire escape runs up the facade by yellow-tint windows and flowering window pots in dabs of bright color.

Some 150 Negroes are dancing. They're be-ribboned and be-decked be-zoot-suited and be-split-skirted, and they like what they're doing. Eyes roll and teeth flash.

It's a scene for the Warner film-musical, "Thank Your Lucky Stars," and you can be thankful they're not filming it in technicolor. You'd leave the theater color blind.

BETTE SEES GHOSTS On another Warner stage we find Bette Davis seeing ghosts on a staircase. Nobody else can see them, but you can conjure up a few dramatic scenes when you stop to think what an important part those steps have played in Bette's career.

ANCHORS AWAY Over at RKO, a scene for "I Walked With a Zombie" shows the arrival of a sailing schooner at a small West Indies Island. They've brought the boat right onto the stage and floated it in a six-foot deep tank of water.

SIX DALLAS MILK WHOLESALE FINED KAUFMAN, Nov. 19 (AP)—Six Dallas milk distributors have paid \$27,250 in penalties to the state for alleged, but not admitted, violations of Texas anti-trust statutes.

FUNNY BUSINESS Pepper even goes so far as to admit that the electricity had some effect on making Congress cool and streamline its own efforts and itself to what it is insisting the executive departments do—reorganize and get going. Anyway, count this up as benefit No. 1 from the election protest.

Office Cat... Its a "date" when a man makes it with his stenographer; an "engagement" when he makes it with the woman he loves; and an "appointment" when he makes it with his wife.

Lady—Conductor, where do I transfer? Conductor—Where are you going? Lady—Its none of your business where I'm going!

The younger generation seems to be alike in many respects. One of these fellows who always claims to be in abundant health, dropped in on us the other day to expound his philosophy: We—What is the secret of your health? He—Eating onions. We—That's no secret.

There are no bad times for good ideas. Voice (on the telephone)—Are you the game warden? Game Warden—Yes, madam. What can I do for you? Voice—Well, thank goodness, I have the right person at last! Would you please suggest some games suitable for a children's party?

RECIPROCITY... A searcher after truth once asked of a wise man, "Is there one word which may serve as a rule of practice for all one's life?" And the wise man answered, Yes—Reciprocity is such a word. What you do not want done to yourself, do not do to others.

SCRAP NEEDS SET Scrap collectors must turn in 17,000,000 tons of iron and steel to meet the demands of war industry, for the last six months of 1942.

Congress Would End Production Muddle-Puddle

By PETER EDSON The Pampa News Washington Correspondent

The host of congressional investigating committees which have been riding off in all directions to look for bugs in the war production effort probably have been more confusing to the folks back home than the war itself. Take the one subject of manpower. Half a dozen committees have been investigating what's wrong with the manpower situation.

What has happened about investigating manpower has happened on every other part of the war program—contracts, small business, conversion iron and steel, price fixing and so on. But it is notable that every committee investigation has in the long run come up with one principal conclusion—that lack of central authority has done more to slow up the war effort and cause confusion than any other one thing.

For five congressional committees to get together on anything is almost unprecedented in congressional history. Most of the credit for putting this over should go probably to mild-mannered little John H. Tolan, 65-year-old Minnesota-born lawyer who has lived in Oakland, Calif., since 1914 and has just been selected to serve his fifth term in Congress.

The bill to establish the Office of War Mobilization was prepared under the direction of the Tolan Committee and it represents their ideas. When the draft was made, Tolan took it to Senators Harley M. Kilgore of Kentucky, W. Va., and Claude Pepper of Tennessee. Mr. Kilgore is on Military Affairs and Truman committees, while Pepper is chairman of a manpower subcommittee of Education and Labor.

These two senators went over the Tolan draft, motioned a few suggestions, and then agreed to sponsor the measure in the Senate. Tolan then turned over to Pepper's subcommittee his entire staff of investigators under a Dr. Robert K. Lamb, a smart and also mild-mannered young economist whose last previous assignment had been as a professor at the liberal Bennington College for Women, a Vermont.

It is Lamb who will serve as counsel for the combined committee hearings on the bill. Twenty of the biggest war contractors have been invited to send representatives to Washington to testify, and the congressmen have indicated they are more interested in hearing what these people outside the government have to say about Washington's war production machinery than they are in hearing any defenses of the existing fifth wheel mechanisms from men now in Washington.

If the bill should go through in its present form, it would make drastic reorganizations and centralizations of authority in the existing setup. It would eliminate dollar-a-year men entirely. It would combine manpower and selective service. It would put Army and Navy contract letting under one head.

If you want to make something out of all this, you might say it was congressional meddling in what have heretofore been regarded as executive functions. Another way of putting it is that Congress, fed up with executive bungling, has at last decided to take matters into its own hands and regain some of its lost prestige. New Deal Senator

Today's War Analysis

By DeWitt Mackenzie CAIRO, Nov. 19 (AP)—Major offensives like the Allied drives to destroy the Axis in North Africa draw their striking power from many sources, and present operations are getting great strength from a strategic development which has been achieved so quietly that many of its features still remain secret.

Since this is likely to play an increasingly important part in the Mediterranean campaign, it is necessary that we know something of it. So if you will dig out your maps of Africa I will show you what I mean.

Now, if you will flip a dime toward the heart of the Dark Continent, and you are a fair shot, it will fall close to a big name known as French Equatorial Africa.

That is the Fighting French territory, which has Chad on the north and reaches southward to include Ubangui-Shari, the French Cameroons, the Middle Congo and Gabon. Brazzaville, way down on the Lower Congo, is the capital of this huge area which pokes its hot nose close to the equator and likes it.

French General Mangin once remarked that he who holds Chad, holds Africa. A map will help you get the significance of this statement in part, but you've got to see the recent works of man in this state largely primitive vastness to understand it in full.

I've just made my way across this zone by the sweat of my brow and have discovered what Mangin meant. First off, you will note on your maps that if French Equatorial Africa had been controlled by Vichy, as was adjoining French West Africa, there would have been a huge barrier dividing Allied territory right through the whole area almost from the equator to the Mediterranean. That in itself would have created a grave handicap and prevented the strategic development which I have described.

Fighting French leaders foresaw Hitler's plan to use North Africa to gain domination of the Mediterranean and, right after the fall of France, moved to secure control of Chad.

This key position was under the powerful governorship of General Eboe, a huge Negro who was one of the most capable administrators in the empire. He elected to stand with the Fighting French and as a result all French Equatorial Africa joined the Allies.

This was done before any effort was made to raise a Fighting French army for this region, which lies at the rear of the Axis battlefield. Since then an army and military resources have been developed, and we shall hear much more of them before this conflict is finished.

French Equatorial Africa now provides a span for an Allied bridge right across Africa. During the past two years the Fighting French and the other Allies have joined hands in pioneering an almost incredible chain of developments from the Atlantic coast, clear across Africa to the Middle East.

The Allies have performed the historic feat of a complete line of air and water communication thru the heart of this no-man's land. It is a magnificent feat, and it is good to be able to report that American men have played a prominent part, risking their lives among bottomless morasses of jungles and daring terrible diseases which poison Equatorial Africa's air.

Thus, day and night, there stream across Africa supplies and personnel needed on Allied fronts from North Africa clear to far-off China. Here we follow one of the difficult

FUNNY BUSINESS

"We had to do something—they kept missing each other!"

SERIAL STORY
THE EDGE OF DARKNESS
 BY WILLIAM WOODS

THE STORY: All Norway is preparing for revolt against Nazi rule. Gunnar Brogje, leaving the office of Dr. Stensgaard, finds an angry crowd facing a row of German troops who enforce an order forbidding the taking of boats to leave. Gunnar restores peace by whispering to the men that he has good news.

PLAN OF ACTION
CHAPTER IV
 LIKE a warm, muscular animal, Solveig was watching him. "Come," she said. "This beating about the bush. Out with it."
 "Lars, do you have outboard motors?"
 "Yes," the old man cried excitedly. "Of course. Three of them."
 "I want you to put them in a safe place. If anyone... mind you, anyone... comes in asking about them, tell him they're sold. Understand?"
 "Of course, what else? I can take care of more than motors."
 For the first time Gunnar smiled. "There's time for that," he said.

All three heard the little bell tinkle at the front door of the shop. The old man hesitated, then went out past the curtain.
 "What do you want?" Solveig asked her husband tensely.
 He put a hand on her arm. They listened. It was Kasper Torgersen outside, talking to the old man for cotton thread. They heard his gruff voice. While Matken was evidently looking through the drawers, they heard him inquiring how the fishermen took the confinement. "After all, Torgersen was saying, 'I own a third of those boats. If I don't complain, surely they have no right.'"
 Gunnar beckoned to Solveig and they went out. "Good morning, Herr Torgersen."

"You are a leader of the men," Torgersen said now slowly. "They will not forget your work last winter with the fleet." He made a pause and then added, "We will hold you responsible for keeping order."
 "You mean... first and foremost I am a Norwegian. You know that well enough. The interests of the men are my interests. But I feel... that is, I am sure... we can accomplish a great deal more if we do not act rashly. That lamentable business in Stokstund yesterday..."
 "Where did you hear about that, Herr Torgersen?"
 The smile left his face. "Why... it's all over town. I want to assure you, of course, that any action you may feel obliged to take will have my support... as a Norwegian, you understand... my

full support, even if I disagree. But..."
 "Suppose...," Gunnar drew close, peering toward the door first as if he wanted to make sure they could not be overheard. "Suppose I were to tell you that there is a plan on foot to overpower the guard, cut loose the boats, and set sail for England?"
 "Good enough," she said impatiently, "good enough, but you have only the doctor's word."
 "I've thought of that. We meet tonight at Osterholm's to talk to the man Hammer, and outling a plan of action."
 "What do we do?"
 "First," he said slowly, "we must collect gasoline from every man in town and hide it in a safe place." He was walking with head bowed, hands clenched in the pockets of his trousers. "I think I have worked out a plan. It's been going through my head for months, and now that this has come about, it begins to grow clear. We will talk about it tonight. I think it is a way by which... by which we could even win."
 Solveig, seeing the strange, intent look to his eyes, realized why in this unsure, disjointed world, men looked up to him. She was proud. "Tonight, then," she said, "don't talk nonsense. And make very sure before you start. You know the men will follow you."
 They passed a shop window where dusty little dolls in peasant costumes, green and red, with Norwegian flags in the hems of their dresses, had been lying since the summer of the year before. The shoemaker's wife had used to sew them for the tourists.
 "I am sure," he said suddenly. "A dozen pictures raced through his brain, but his dark, expressionless face gave no sign. Men, trenches, barricades. "Before the fighting ever starts," he said thoughtfully, "each man will have his special task. If we wait for the snow, we can use skis."
 The sun rose higher and higher. The sea lay calm. The stern ridged hills, like giants, gazed down at the little shelf of land where the town lay, in terrible peace, between them and the sea. The boats, with slender masts, sat empty in the placid water of the harbor. The pigeons wheeled higher over the tense and silent square.
 "Give me the names," he said. "We have no guns yet, and already you talk of fighting. Maybe you can say that to Malken or to those down on the dock, but not to me." She was buttoning her cuffs. "Not to me," she repeated a little more loudly. Gunnar's face grew dark. "Ev-

Dumas Man Wins Wheat Show Prize

A Tennar sample grown by C. C. McIntosh, of Dumas, was the only Texas sample winning honors in wheat contest sponsored by the American Royal Milling and Baking contest in Kansas City, Mo., held in conjunction with the American Royal Livestock show.
 Sample grown by Carl Miller of Texhoma, Okla., was declared the best. Second place honors went to a Turkey wheat sample grown by J. J. Lohrmeyer of Logan, Kas., while the Tennar sample of the Dumas man placed third.
 Announcement of winners was made today by the Texas Wheat Improvement association, Amarillo, of which Frederic T. Dines is director.
 Director Dines, in connection with listing wheat acreage allotments for 1943 for Texas counties, said that wheat seeding in the Panhandle is completed. Seeding took place in early September. Surface moisture is limited in some conditions but the deep rooting of most of the wheat can carry it over several months of normal winter conditions.
 Wheat acreage allotted Gray county for 1943 is 93,850; Carson, 150,472; Hemphill, 25,138; Hutchinson, 57,586; Roberts, 28,540.

but straight and narrow paths to victory.
 That's not the whole story, however. There have been great industrial developments, both in Fighting French territory and in other Allied countries.
 Ancient and broken-down caravan towns have been modernized and become throbbing centers of Allied efficiency. Places like Brazzaville, which were just collections of native huts, have been set on the road to progress and become international cities in which French, Americans, British, Belgians, Poles and what-not brush shoulders in the public square.
 Along with manufacturing, there has been a notable increase in cattle raising and agriculture. In short, this vast belt is a mill which is grinding grit for the Allies and laying up stores for future demands.
 Naturally, all this spells enlightenment and progress, not only commercial but social, for this hitherto largely undeveloped part of the world.

War And The Top O' Texas
 Vital Information

The Gray County Ration board has a limited supply of application for mileage ration for official and fleet automobiles or motorcycles, Form R-561, also a supply of Form R-537, which application is to be used for all non-highway rationing. This form must be prepared in duplicate by all non-highway users who purchase such gasoline tax-free, or who apply to the state for a refund of taxes paid on such gasoline.

Service station operators are requested to get a supply of non-highway forms for distribution. Owners of fleet cars, and operators of official cars, as well as users of non-highway equipment are urged to get these applications, fill out and return to the rationing board office as soon as possible.

Notices have been served on 258 retail stores in the Dallas OPA region alleging violations of the GMPF and warning the stores that if further violations occur they face action to revoke their licenses to do business, Regional OPA Administrator Max McCullough announces.

Food canners are being asked by WPB to mark the contents of each can itself. The request is made at the instance of the armed forces, military operations cans of food frequently lose their labels.

Departments and agencies of the federal government, already heavy contributors to the national salvage program, have been asked by WPB's Conservation Division to turn in all available metal items, beyond what normally is considered.

8 Scrapping Yanks In Bullet-Ridden Fortress Down 4 Huns

LONDON, Nov. 19 (AP)—Here's the rousing story of eight scrapping Americans who fought off 30 of the Germans' best planes, downed four to eight of them and brought their Flying Fortress home with a wingtip rolled up "like a sardine can," an engine dead and rudder controls half frozen.

Major General Carl Spaatz, commander of American air forces in the European theater, disclosed the feat, adding another chapter to the

story that American men and machines are writing over Europe.

The Fortress had completed a bombing assignment over Lille, France, its fourth mission over the continent, and was headed home when a formation of 30 Pocke Wulf-190's jumped the flight, quickly knocking this plane out of the bomber formation and making it an especially attractive target.

"When they put a bullet through our No. 1 propeller and knocked us out of formation I knew we were in trouble," said Lieut. Robert L. Riordan, the pilot, of Houston, Tex.

"And when they slammed two cannon shells into our rudder control, I told the boys to get ready

to ball out. We were lucky, I guess." Staff Sergeant John T. De John of Ansley, Ala., was banging away at the enemy from his tail gunner's position when a German fighter put a 20-millimeter cannon shell "right in his lap," spraying steel fragments down his left side and knocking out one of his two guns.

Was A Ball Player

Despite his multiple wounds, the rugged former professional baseball player kept on firing his lone gun for another 10 minutes, and was credited with one plane shot down.

When De John finally admitted he was wounded, Riordan sent the navigator, Second Lieut. J. Spellman, of Holyoke, Mass., back to help. The young officer dragged the wounded gunner into the radio room, covered him with his own flying coat and then, coatless and gloveless, fought with the tail gun in 20-below cold until his hands were blue and almost frozen.

"But you should have seen that gun barrel," said the co-pilot, Lieut. Edward F. Malisewski of Groese Pointe, Mich. "It got so hot it bent."

As the running fight went on, a cannon shell blew a hole "as big as a cabbage" in the fuselage beside the waist gunner, Staff Sergeant Anthony L. Santoro of Houston, Tex., and bullets cut his ammunition belt; but he changed to a new

one just in time to knock down one of the fighters.

All the time Riordan was nursing the Fortress toward the chalk cliffs of England and after 25 minutes the Nazis gave up and veered off as they saw Spitfires coming out to shepherd the wounded ship home. The pilot set her down with hardly a bump.

Although she was holed from props to tail by machine-gun and cannon fire, De John was the only one of the crew injured.

In addition to De John and Santoro, two certain victories were credited to the top turret gunner, Staff Sgt. Raleigh W. Holloway of Fredericksburg, Va., and the lower turret gunner, Staff Sgt. John E. Owens, Roanoke, Va.

Four other probable victories were scored by the crew, which also included Bombardier Gerald D. Roter of Commerce, Okla.

King George VI was among those who later saw the shell-pocked Fortress and marveled that it had come back.

Jap Admiral Sees Further Fighting In Central Solomons

LONDON, Nov. 19 (AP)—German broadcasts heard here today quoted Admiral Sankichi Takahashi, former commander in chief of the Japanese navy, as saying "We must reckon with further heavy fighting in the Solomons."

The broadcast added that he declared "the Americans obviously are planning to use the Solomons as a springboard for an offensive with a view to regaining islands in the Dutch East Indies."

This radio report, based on a DNE news agency dispatch, conflicts with repeated declarations by the Tokyo radio that heavy losses in Pacific naval battles have reduced the American fleet to impotence for offensive purposes.

UPTREND IN BIRTHS

Birth statistics of the United States for 1941 reveal a birth rate of 18.8 against 17.9 the preceding year; a total of more than 2,500,000 babies born (greatest number since 1921's 2,600,000); and that births exceeded deaths by 1,090,000.

STORKS DECREASING

Storks, regarded as a sanitary asset in Holland, are decreasing in number there, due, it is said, to eating poisoned grasshoppers while wintering in South Africa.

GOOD NEWS! **GOOD NEWS!**

Pampa Furniture Co.'s ANNUAL CHRISTMAS SALE

STARTS FRIDAY MORNING, NOV. 20 --- CLOSES CHRISTMAS EVE!

FREE GIFTS--MONEY TO EVERY PURCHASER From Now To **CHRISTMAS**

FREE! Presents will be good as cash in our store. You can spend it like money anytime from now to Xmas. When your purchase is completed you will be given the exact amount of this money that your purchase has earned you, then you spend it same as real money in our store, anytime until Christmas, for anything you wish. **THIS IS A VERY FINE WAY TO SECURE YOUR LITTLE EXTRAS FOR CHRISTMAS GIFTS WITHOUT COSTING YOU ANYTHING AT ALL.**

FOR EXAMPLE: IF YOU HAVE \$5.00 IN GIFT MONEY, YOU CAN SPEND ANY PART OF IT AND GET OTHER GIFT MONEY IN CHANGE—SPEND IT LATER.

REMEMBER---REMEMBER---REMEMBER

We have one of the very nicest Gift Shops in Pampa. This is a good place to spend this extra money and solve the Christmas gift problem, without cost to you.

BAD NEWS! BAD NEWS!

A Sale With Bad News --- Out Of The Ordinary, Isn't It? --- It's True Though

All spring construction, in chairs, living room suites, studio davanos, and couches is out for the duration. All we will have is on hand now. Beat the Bad News by buying NOW!

GOOD NEWS AGAIN

We have on hand a very fine selection of living room suites by KROEHLER, also chairs and divans, all spring construction as good as ever built, and costs nothing extra at all.

WATCH THE FOLLOWING PAPERS AND LISTEN TO KPND FOR MORE DETAILS! IT IS REAL FUN TO BUY CHRISTMAS PRESENTS WITH MONEY THAT COSTS YOU NOTHING. COME IN FOR DETAILS AND HAVE THAT NEEDED CHRISTMAS FURNITURE SET BACK FOR YOU WHILE SELECTIONS ARE FINE—IT COSTS NO MORE. NO CARRYING CHARGES. NO INTERESTS. TERMS.

You Get This Extra Money -- Good As U. S. Money -- In This Store
