The mouth obeys poorly when the heart murmurs.—Voltaire.

# RED ARMIES SURGE DOWN ON NAZIS AT STALINGRAD

## Bill Provides For Raising Of Farm Ceilings

WASHINGTON, Sept. 30 (AP)—Seeking to compromise with the farm bloc, Democratic Leader Barkley, of Kentucky, agreed today to have the anti-inflation bill provide for the raising of agricultural price ceilings where they did not reflect farm labor and other cost increases since Jan. 1, 1941.

Immediately thereafter, Senator Hatch (D-NM) withdrew a controversial "cost of production" amendment and there were indications that a satisfactory compromise might be reached for elimination of the bill of a farm bloc amendment adopted by the senate yesterday increasing the level of parity prices.

## War And The Top O' Texas

Vital Information  
CAN GET SUPPLEMENTARY RATIONS—Under plans now in preparation for nationwide gasoline rationing to conserve tires, migratory workers, engaged on farms and war construction projects, will be entitled to supplementary gasoline rations to move about as their work requires, WPB Rubber Director William M. Jeffers announced.

WOMEN WILL HELP IN SALVAGE DRIVE—WPB's conservation division is holding conferences with a group of well-known business and professional women to discuss ways and means of achieving fuller participation in the national salvage campaign by women in all parts of the country. Following the conferences in Washington, the women will go to various parts of the country to cooperate with local salvage officials in developing programs on a local basis.

## I HEARD . . .

W. E. Conway telling about the job he and another man had in lifting a 500-pound radiator donated to the scrap metal collection for the benefit of the Texas Defense Guard. The collection was taken Sunday and is being continued. Among the "scrappers" who sweated in getting in the scrap Sunday were Jesse Rogers, H. L. Belew, Roy Kay, T. S. Hargis, W. L. Cox, R. C. Brown, R. E. Engle and Preston Kramer, who is chairman of the company's campaign.

Ladies! Let us sharpen your knives free. Bring them in to Lewis Hardware.—Adv.

## Farmers Reverting To Swap-Work Plan

AUSTIN, Sept. 30 (AP)—Texas farmers are reverting to the old pioneer custom of trading labor with the neighbors to get their crops in because of a shortage of workmen in most rural areas of the state.

The Department of Agriculture and the Texas Agricultural Extension service in their weekly report of crop and weather conditions, saw wartime labor conditions bringing a revival of the old neighborhood farm work swaps.

Harvesting of cotton, corn, grain sorghums and other crops made rapid progress despite the shortage of labor farmers usually depend on, and despite delays occasioned by local rains in some areas.

## G.O.P., Dems Both See Victory In November Voting

By D. HAROLD OLIVER  
WASHINGTON, Sept. 30 (AP)—A Republican prediction that the party would win control of the house in the November elections was countered today by a Democratic spokesman who expressed the belief that Democrats not only would retain their majority but might increase it slightly.

The Republican speaker was Frank E. Gannett, assistant chairman of the Republican National committee, who told a party dinner last night that the country was in an "awful mess" from bungling of the war effort and new presidential threats to undermine the constitution, and added:

"If the voters in November will elect a Republican house, as I believe they will, then we can check the inefficiency in our government, prosecute the war more vigorously and hasten that happy day when our boys will come back home."

Rep. Jed Johnson of Oklahoma, head of the speakers' bureau of the Democratic Congressional Campaign committee, meanwhile told reporters at the capitol:

"We're hopeful of getting back at least as many members as we now have. Perhaps we can pick up a seat or two. I don't think there's a possibility of a turnover which would give the Republicans a majority in the house."

(Present membership of the house is: Democrats 256; Republicans 165, with minority parties and vacancies making up the remainder of the 435. A clear majority is 218. On the present basis, the Republicans would have to capture more than 50 Democrats' seats and not lose any of their own to organize the next house.)

Johnson said there were about 40 Democrats and as many Republican incumbents who won in 1940 by a margin of 500 votes or less.

Gannett, addressing 20 members of the G. O. P. national executive committee and Republican members of the senate and house, declared the public is losing confidence in the management of the war, he said it was the fault of the "higher-ups on the home front," not the men in uniform. He demanded that the "failures be thrown out" and men of ability and experiences put in their places.

Gannett, publisher of a Rochester, N. Y., newspaper, said freedom of the press also was being threatened and that important news is

Children May Be Drafted For Farms  
NEW YORK, Sept. 30 (AP)—School children in America may have to work four or five hours a day at farm work or something else useful, Maj. Gen. Lewis B. Hershey, director of selective service, told a conference of manpower and war labor problems.

"The civilian population has not gone to war yet," Hershey said. "We must realize that we may have to see the time when our youngsters will have to do farm work or do something else useful four or five hours a day."

"I don't want to hurt education, but the education of our children may have to be confined."

## They Forgot War For Couple of Hours Today

From the days of Home Run Baker to Red Ruffing and Mort Cooper, who were opposing hurlers in today's first game of the world series, the eyes of the millions brighten at the fast action of America's own game of baseball. Thousands of fans thronged Sportsman's park,

above, in the initial game between the New York Yankees and the St. Louis Cardinals, at St. Louis, this afternoon, and thousands more all over the nation wished they were a part of the crowd. Ruffing, the Yankee pitcher, is a favorite with some Panhandle sports fans, for they

remember the time, when the Yankees purchased him from the lowly Red Sox. He was quite a pitcher, even then. But Mort Cooper has his following, too, for he's with the Cards' and that team is a little closer in distance to Texas and the

West, than New York. President Roosevelt has stressed the value of baseball as a morale builder, even in time of war, and today's crowd at the game in St. Louis proves that Americans will never tire of the thrill of the grand old game.

## Series Fans Jam Park At Opener

### St. Louis Wild At Game Time

SPORTSMAN'S PARK, St. Louis, Sept. 30 (AP)—Red-hot Cardinal fans, many of whom had waited in line all night, swarmed into the park and quickly filled every available unreserved seat several hours before the Yankees and the Cards were scheduled to clash in the opening world series game at 1:30 p. m. (CWT) today.

SPORTSMAN PARK, St. Louis, Sept. 30 (AP)—Old Red Ruffing faced big Mort Cooper today as the mighty New York Yankees and the St. Louis Cardinals collided in the opening game of the 1942 world series before a capacity crowd of approximately 35,000.

It was the sixth time in the lone and lustrous career of Ruffing that he had been named to inaugurate a world series for the Yankees and has won all but one of these assignments.

Now, 38 years old, the rugged right-hander has lost some of his speed and his record this season was a comparatively shrunken 14 to 7, but he still retained the confidence of Manager Joe McCarthy as a winner when the going gets tough.

Facing Cooper, ten years his junior, Ruffing drew a difficult task today. The star of the Cardinals won 22 games and lost seven during the year and numbered among his conquests 10 shutouts.

—BUY VICTORY BONDS  
Sleeper "Guesses" He Must Have Been Run Over  
KANSAS CITY, Sept. 30 (AP)—Thomas Smith, 55, sat on a downtown curb to rest—and fell asleep. He was awakened by a sharp pain in his left foot, he was taken to the hospital where examination revealed a fractured bone.

Composing the board are M. A. Graham, J. C. Cox, Don Conley, D. V. Burton, and William T. Fraser.

### Trafficking On War Jobs Charged

WASHINGTON, Sept. 30 (AP)—Complaints of trafficking in jobs at war projects in Texas and of labor unions causing dismissal of workers after "excessive" union fees had been collected, have been received by the senate defense investigating committee headed by Senator Truman (D-Mo.).

The complaints, however, have been of isolated cases, a committee official said, and there is no intention to make a thorough investigation of the matter unless there are more numerous charges.

This was the view expressed by Hugh Fulton, chief counsel for the committee.

### New Zoning Board Appointed By City

In response to requests that have arisen for adjustment of zones in Pampa, the city commission at its meeting Tuesday, named a new zoning board to take over the job of administering the city's zoning ordinance.

The former board's term expired on April 1 of this year. No new board was appointed at that time as there was no pressing zoning problems.

### Texas Scrap Piles Continue To Grow

Scrap metal time in Texas today found the butcher, the baker, the merchant, the banker, women, children and college students gathering scrap to help fill the nation's yawning blast furnaces.

"Tons upon tons of the metal are being piled up in Texas cities, towns and hamlets but the scrap piles at the mills are growing low and we've got to build them high again," Thornton Hall of San Antonio, director of the state's newspaper salvage drive, said in Dallas.

### Dieppe Raiders Walked Into Trap

LONDON, Sept. 30 (AP)—The Allied invasion tent at Dieppe met tank barriers of unforeseen strength and the attackers' losses were "very nearly half the total" of the troops involved, Prime Minister Churchill said in the house of commons today.

As at the first meeting of the reconvened house yesterday, when the prime minister emphasized the undebatable of speculation on the time and place of a second front, his reports were in answer to a battery of questions.

He is expected shortly, however, to make a more thorough report on the war situation.

For the third time since the war began, the house received a government bill for a one-year extension of its own life. This the government rejected repeated demands from critics of the present commons for a general election.

### U. S. Rent Office To Be In Pampa

Pampa will be the center for the rent control area of Gray, Carson and Hutchinson counties with the establishment of the area office at 212 N. Ballard tomorrow.

W. L. Boyles, former Panhandle mayor, who will be director of the area, was in Dallas yesterday receiving instructions from the regional office of price administration.

Under federal rent control for this area, beginning Thursday, October 1, no tenant shall pay and no landlord receive more rent for residential property than was charged for the same property on March 1, 1942. Where rents have been raised since March 1, they must be cut back to the March 1 level.

### Home Storage Of Foods Discussed At Wayside Club

"Anyone with an excess of home-grown fruits and vegetables should consider home storage," Mrs. Julia E. Kelley, county agent, said at a recent meeting of Wayside Home Demonstration club in the home of Mrs. J. S. Fuqua.

Storage points to observe are: Type of storage—basement, cellar, banks, mounds, or pits; temperature—never below 32 degrees; moisture—when too dry, vegetables and fruits dry out and shrivel; when there is too much moisture the growth of spoilage organisms is likely to occur; ventilation—is not only a means of regulating temperature and humidity but it is also important in removing gaseous products that are injurious.

Mrs. Kelley exhibited several slatted boxes, crates, wire racks, and baskets, and explained the importance and use of each in home storage.

Refreshments were served to Meses. Lowell Osborne, R. R. House, Doyle Osborne, Wood Osborne, J. W. Condo, Harold Osborne, Julia Kelley, and the hostess.

The club will meet with Mrs. H. E. Taylor, Jr., on October 9 at 2 o'clock.

The howie or hunting-knife gets its name from the Texas frontiersman, James Bowie, one of the Alamo's defenders.

### Girl Scout Troop Four Entertained At Skating Party

A skating party entertaining members of Girl Scout troop four was given Tuesday by the former leader, Mrs. E. C. Hart.

After skating for an hour and a half, the girls gathered at Patrick's for refreshments.

Mrs. R. M. Wells, new leader, and Miss Sallie Cahill accompanied the group.

Attending were Laura Nell Berry, Johnnie Sue Hart, Patricia Cook, Ola Mae Smith, Nancy Jean and Ottolene Patton, Martha Ann McGuire, Nancy McClellan, Patsy Ann Cox, Joan Cooper, Betty Moore, Beverly Cheyning, Betty Jo West, and one guest, Betty Wells.

The troop has announced that they have on display in the Girl Scout office a quilt which they made and intend to donate to a worthy cause.

### Lawn Breakfast Served To Parent Education Club

Parent Education club entertained with an informal breakfast Tuesday morning on the lawn at the home of Mrs. Gene Fatheree with Mrs. Perry Gaut and Mrs. M. E. Lamb as co-hostesses.

Courses of dry cereal were presented to each guest.

The buffet breakfast was served from a table centered with a huge basket of brightly colored fruits and vegetables.

Present were Meses. Frank Smith, Joe Key, J. W. C. Tooley, Aubrey Steele, Arthur Teed, W. N. Anderson, Hugh Anderson, Carlton Nance, R. H. Nensiel, Fred Thompson, R. K. Eldenborough, Gene Fatheree, Perry Gaut, and M. E. Lamb.

### BPW Club Plans Recreation For Soldiers Here

At a special meeting Tuesday evening in the city club rooms, members of the executive board of Business and Professional Women's club discussed plans for securing a building for a place of recreation for the soldiers who are already in Pampa, until a U. S. O. can be established or other plans worked out.

Several of these soldiers are in town and anyone desiring to entertain them in their homes may contact them by calling Lillian Jordan at number 141.

Audrey Fowler, who with Hatilla White of Amarillo, state president of the B. and P. W., has just returned from the State Institute meeting at Ft. Worth, reported that the district conference at Quanah had been cancelled. In view of this, the club voted to have a luncheon at the city club rooms.

Leaders or interested adults who did not attend last week are invited to be present at these meetings.

**BUY VICTORY BONDS**  
Those attending were Mildred Overall, Mildred Lafferty, Muriel Kitchens, Tommie Stone, Lillian McNutt, Maurine Jones, Alene Tipton, Lillian Jordan, Vera Lard, Audrey Fowler, Madge Rusk, Blanche Drescher, Jesse Busch, and Anne Heskey.

### Sam Houston Home Room Mothers Plan Activity For Year

Home room mothers of Sam Houston met in the home of Mrs. Henry Ellis Tuesday afternoon to discuss tentative plans for the year's work.

Jack Merchant was elected president, and Mrs. Bill Vasey was named secretary.

The following have been appointed room mothers for the school:

First grade, Mrs. J. D. Beach's room, Mrs. Walter Nelson and Mrs. Bill Vasey; Miss Wilma Jarrell's room, Mrs. R. W. Depe and Mrs. E. A. Ellis; second grade, Mrs. J. T. Bradley's room, Mrs. J. M. Fitzgerald and Mrs. Luke McClellan; Mrs. Teresa Humphrey's room, Mrs. C. P. Coble and Mrs. Alvin Bell.

Third grade, Mrs. Sam Irwin's room, Mrs. W. F. Chapman and Mrs. Jack Merchant; Miss Bernice Larsh's room, Mrs. D. M. Dickey and Mrs. Roy Kretzmeier; fourth grade, Mrs. Oleta Camp's room, Mrs. Bill Money and Mrs. S. T. Beauchamp; Miss Melbie Bird Richie's room, Mrs. W. O. Abernathy and Mrs. J. D. Walters.

Fifth grade, Mrs. A. J. Johnson's room, Mrs. W. C. Wilson and Mrs. C. E. High; Miss Essie Mae Leaverton's room, Mrs. W. L. Loving, Mrs. W. R. Campbell, Mrs. R. E. Donovan, and Mrs. Clyde Carruth.

New Member Of LaRosa Welcomed By Buds Tuesday

LaRosa Buds assembled at the White Way Drive Inn Tuesday evening for a weekly meeting at which a new member, Pete Luttrell, was accepted.

The club discussed new members and a dance which will be given soon.

The group will meet in the home of Melvin Clark at 8:30 o'clock next Tuesday night.

**BUY VICTORY BONDS**  
LUNCH BOX SEASON

Keep lunch boxes and thermos bottles thoroughly clean to avoid their contents absorbing odors. Wash thoroughly with warm soapy water after each using, rinse and dry in the sun. Airing is particularly important. If overnight airing is insufficient to dispel odors completely, use two lunch boxes, so that one may be used while the other is aired.

**BUY VICTORY BONDS**

To prevent sheer, fragile curtains from being torn while washing in an electric washer, pull them in an old pillow case and allow machine to agitate for about three minutes. Use plenty of good mild suds and warm, not hot water. Rinse until water is clear and free from soil or soap scum. If you wish to add a little body and crispness to the material, add thin starch to the last rinse water.

Report Of District Board Meeting To Be Given At PTA Council

City Council Parent-Teacher Association will have a regular monthly meeting on Thursday at 3 o'clock in room 119 at the Junior High school.

Mrs. H. H. Boynton, president, will preside over a short business session.

The program will be based on the Eighth District Parent-Teacher board meeting which was held in Amarillo last Saturday. Mrs. Boynton, Mrs. Roy Holt, Mrs. C. E. Cary, Mrs. Burl Graham, and Mrs. Claude Lard, who attended, will give reports.

Mrs. F. M. Culberson will talk on home nursing classes, preparatory to organizing such classes in the various local P. T. A. units.

Each local president will give the all inclusive and local membership of her parent-teacher association.

It used to be TABOO for girls to discuss this kind of help

Nowadays, thousands of women who suffer from purely functional periodic pain rely on the 2-way help of CARDUI. Started 3 days before the day and taken as directed, many find it brings relief. As a tonic, it often perks up appetite, increases flow of gastric juices, thus aiding digestion and helping build resistance for times most needed. A 62-year record says "Try CARDUI!"

**THE NAME THAT STANDS GUARD OVER Quality**

"Quality" is an intangible. You cannot feel it, weigh it, measure it. Yet quality is real... vital. It is the great power behind our armed forces that insures victory. And the word "quality" can be applied to things as well as people. Furniture that possesses this attribute lives long, gives satisfaction. Its quality is in-built... in wood, construction, fabrics. As long as we remain in business, we pledge our store to stand guard over the quality of our merchandise. We will not sell a single item that lacks this essential.

**That Extra Something!**

...You can spot it every time

TO DO a special kind of service takes that extra something. Thing. Coca-Cola does a special service to thirst because it has that extra something. Too more than just quenching thirst, ice-cold Coca-Cola brings energy-giving refreshment that you feel... and enjoy.

And Coca-Cola brings you the deliciousness of its clean, exciting taste. A finished art in its making blends special, wholesome flavor-essences to merge all the other ingredients into a unique taste all its own. No one can duplicate it.

To think of refreshment is to think of ice-cold Coca-Cola. Its quality, taste and refreshing goodness set this original drink apart from all others.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called Coke. Coca-Cola and Coke mean the same thing... the real thing... a single thing coming from a single source, and well known to the community.

While you're exchanging pictures, why not exchange your thirst for an ice-cold Coca-Cola. You'll go for the sparkling goodness of its delicious taste and you'll welcome its after-sense of refreshment.

### RUSSIANS

(Continued from Page 1)

northwest of Moscow, in an attack droids of guns.

Pravda dispatches said the Russians, fighting in autumn-colored woods where red and yellow leaves mingled with the green of fir, drove the Germans into retreat and reached a curve on the upper Volga.

The "line of the fuhrer" was apparently the system of heavily fortified defenses erected by the Germans for the past 11 months around Rzhev, a key Nazi stronghold. Trenches, underground communications, mine fields, wire barricades and three lines of fire points guarded the zone.

Far to the south, in the Caucasus, strong Red army forces were reported to have stemmed a series of attacks by reinforced German columns seeking to break down through the "Terek valley toward the Grozny oil fields.

The Russians said the fighting throughout the Caucasus was becoming more severe as snow lines crept farther down the mountains and German Alpine troops attempted to capture strategic passes before deep winter sets in.

On the Black sea coast, in the northwest Caucasus, the Russians said they had routed the 12th Rumanian mountain division below Novorossiisk. Red navy marines were credited with capturing a height, destroying 45 dugouts, seven block houses and four headquarters, and killing 500 Axis troops.

A Berlin broadcast said German troops driving down the coast had reached the suburbs of Tuapse, Black sea naval base 75 miles below Novorossiisk, and that the battle for the port had begun.

Other developments in the global war:

Egyptian front—All quiet.

Air war—British rescue workers dug in the ruins of a bomb-smashed boys' school in southern England, searching for 18 boys still reported missing and believed either dead or entombed alive in the wreckage.

Twenty-two boys and two teachers were known dead as a result of yesterday's German air attack; 34 others were injured.

Dieppe post mortem—Prime Minister Churchill, commenting on the commando raid at Dieppe, August 19, told the house of commons in London that Allied losses were "nearly half of the total" troops involved.

Churchill said British tanks were held up by the "altogether unexpected strength" of German defense blocks guarding the ends of Dieppe's streets.

Far Pacific—Gen. Douglas MacArthur's headquarters reported that Australian jungle fighters had captured the first objective of their New Guinea offensive, the Japanese fleeing northward and seized quantities of abandoned enemy equipment.

"Our advance continues," Gen. MacArthur said.

Dispatches said Allied troops first seized the Ioribaiwa ridge, only 32 miles from Port Moresby, and then set out in pursuit of the retreating Japanese toward Nauro, 10 miles north of the ridge.

No further reports were forthcoming on the battles of the Solomon or Aleutian islands.

being "held back needlessly."

"I maintain that to win this war, we must keep the people informed and thus strengthen their morale," he declared, adding that for a long time there had been "a deliberate plan by the administration to smear, weaken and destroy our newspapers because they have dared to criticize new deals."

"The radio," he continued, "is under control because it is licensed. Freedom of speech over the air is being increasingly restricted. The next step is to control the press."

"The pending suit against the Associated Press has this objective. If the A. P. can be made a public utility then there will be removed the last barrier in the way of putting all wire service under some government commission. Then government control tightens and freedom of the press perishes."

"Already, I am sorry to say, it is fast disappearing under the pretext that war demands control."

### So, This Is The Guy Who's Responsible!

HARLINGEN, Sept. 30 (AP)—Juke boxes? Why, they had them away back in 1916.

Dr. R. E. Uley couches for that, with the explanation that he invented them. He still has one to prove it.

More than 20 years ago when he was a young physician back in Oak Park, Ill., Dr. Uley came up with a device which automatically changed phonograph records. From this he produced a harmonophone.

He says they were received avidly in Chicago saloons. But the war came and he went into the army. After the war he found that prohibition had changed things and the harmonophone dropped out of favor.

He vainly tried to sell it but the big companies weren't interested until 1930, when one firm, Dr. Uley says, incorporated his basic ideas into a juke box.

Rattlesnakes and other poisonous members of the viper family detect living objects partly by a highly developed sense of temperature.

### Gray's Salvage Record Better Than Nebraska

Nebraska hasn't a thing on Gray county in the collection of scrap metal.

If the Cornhuskers can brag about their 130-pound per capita for the state's population, Gray county can go them a lot better, for 18,500,000 pounds of scrap metal have been gathered in this county since the first of the year. This figure 750 pounds per capita for Gray county. Records of Nebraska brought that state national recognition.

Comparison of the amounts gathered by the Cornhusker state and by Gray county were mentioned at a meeting of two committees of the Pampa Civilian Defense council, held last night at the BGD committee room at the city hall, a prelude to the lease-to-lease canvass which started today.

Members of the committees will assemble again at 8 p. m. October 9 to check up on work done, preparatory to the visit here of Lewis G. Huff, Dallas, assistant executive secretary of the Texas Salvage committee, who will address a meeting of the Panhandle chapter of the American Petroleum Institute.

Attending last night's meeting were Jack Hanna, chairman of the Pampa Civilian Defense council; C. K. Trease, chairman of the industrial salvage committee; and C. P. Conover.

### White Deer Victory Bond Dance Tonight

Everyone who has had a good time at the Sacred Heart church entertainments of White Deer in the past will want to attend the Victory Bond benefit dance that will be held tonight in the Chevrolet Building on U. S. Highway 60 east of Main street, in White Deer.

Sons of the West orchestra will furnish the music tonight, starting at 9:30 and admission has been set at 60 cents per person.

All proceeds of this affair will be used by Sacred Heart church toward the purchase of a war bond. Through the means of several special events in the last few months, the church has been able to buy a thousand dollar bond and a fifty dollar bond.

### Hospital Fugitive Has \$6,190 When Captured

CINCINNATI, Sept. 30 (AP)—David Mitchell, 29, a fugitive from the Lima State hospital for the insane, was captured recently with \$6,190.

He first said he found the money in a house, then a second house and a third.

The house owners claimed the money.

Judge Louis J. Schneider threw up his hands, said "the source of the money remains a mystery to this court," and awarded it to Mitchell. The court labeled Mitchell's story "unworthy of belief" but ruled the others had established no claim.

### Repairman Turns Recruiter

KANSAS CITY, Sept. 30 (AP)—Rolland Millard-Turner repairs watches for a living, and recruits for the navy for recreation.

The navy now has 186 sailors, flying cadets and officers that it might not have had if Millard-Turner hadn't been on the job.

He served in the navy for 11 years himself. He was a lieutenant, senior grade, when honorably discharged.

### Mainly About Pampa And Her Neighbor Cities

Pampa fire department answered a grass fire call to 705 West Foster just before noon. No damage was reported. The department also had two calls yesterday when grass fires broke out. In neither case was there any damage. Calls yesterday were to 425 Short street and to the end of North Summer.

Wanted—Lady for housework and care of small child. Ph. 1879-W after 5 p. m.

Mr. and Mrs. G. T. Hackney of Pampa have returned from East Texas after a four-day vacation. They spent the time visiting relatives in Pickett and Dallas, Texas.

LeFORS — Jack Henry of Quanah is visiting in the home of Mr. and Mrs. Joe Henry, northeast of here.

John Mikessell, formerly of Pampa, left yesterday for Roswell, N. M., after visiting friends here.

Wanted—Middle-aged woman for housekeeper for elderly couple. Excellent home for right party. Ph. 757-W.

Private James H. (Jimmy) Mosley, Jr., who enlisted in the army air corps, has been transferred from Sheppard field to Sioux Falls, South Dakota, where he is studying radio at the air corps technical school. He expects to remain there for 18 months.

### Fire Damages Train Bound For Chicago

STERLING, Colo., Sept. 30 (AP)—Oil-fed flames enveloped five units of the Union Pacific's crack passenger train, the City of Denver, as it sped through northeastern Colorado last night.

No one was injured and none of the cars in the Denver-to-Chicago train left the track.

Two power units and three cars were damaged, but Engineer Clark Peacock of Denver prevented damage to the nine passenger cars in the 14-unit streamliner by running the train in reverse while the crew put out the fire, company officials reported.

William Murphy, Union Pacific public relations representative at Omaha, said preliminary investigation indicated some object on the track near Snyder, 110 miles east of Denver, struck and punctured a fuel tank in one of the diesel power units, causing oil to spray the cars.

### OPA Officer Resigns

PORT WORTH, Sept. 30 (AP)—E. E. Hale has resigned his post as a state OPA price officer and will return to the economics department in the University of Texas.

His resignation, effective Oct. 1, was announced by Mark Magee, state director of the office of price administration.

### Mama Gets Her Own Pay Envelope Now

KANSAS CITY, Sept. 30 (AP)—Well, mama makes good money but she blows it all on beauty shops, clothes and beer taverns . . .

That's the 1942-style divorce court testimony.

For it's the man who brings such tales to court nowadays as often as it is the woman, says Edward Selter, commissioner of social service for the city welfare department.

Husband, as well as wife, often alleges non-support. And the little woman, too, is not so willing to listen back-talk from her husband when she's getting her own pay envelope, Selter indicates.

It all adds up to more divorces, he sighs.

Court records agree with him.

Thus far this year 1,496 suits have been filed, 158 more than in the same period a year ago. And 1,295 have been granted, 247 more than the 1941 total to this date.

### Speaker Declares Free Enterprise Is Worth Fighting For

HOT SPRINGS, Ark., Sept. 30 (AP)—The competitive economy of the free enterprise system is a "fifth freedom" for which Americans should fight, C. C. Carr, advertising manager of the Aluminum Company of America told the Southern Newspapers Publishers association.

"We can win the war and lose our American way of life," Carr said.

"We will win the war and make even finer and better a system which rewards individual initiative if we recognize how certain forces are at work and take steps to keep the American people clear as to what it is all about."

### Hershey Backs Up Rotan Draft Board

ROTAN, Sept. 30 (AP)—A Texas draft board, which huffily quit when one of its recommendations was overruled, has the big boss on its side now.

MaJ. Gen. Lewis B. Hershey, director of selective service, has upheld the Fisher county board in its dispute with the Texas State Service director over the correct status of a ranch worker.

George Riley of Rotan, a member of the board, said yesterday that General Hershey's decision backed up the local board's 1-A classification and overrules the state director's recommendation for a six-month deferment in 2-A since the registrant worked on a ranch run by two elderly women.

The board had insisted that if the registrant in question deserved a 2-A rating, so did 50 per cent of the men it had sent into the army from the county.

Riley said that the board had been asked to continue its duties until successors can be appointed.

### U. S. Merchant Vessel Sunk Off S. A. Coast

WASHINGTON, Sept. 30 (AP)—The navy announced today that a medium sized United Nations merchant vessel had been torpedoed and sunk by an enemy submarine in the Atlantic off the northern coast of South America early in August. Survivors have landed at an east coast U. S. port.

### RENT OFFICE

(Continued from Page 1)

ment of rent. All types of residence property will be covered by the application of the rent control measure, including hotels, rooming house, tourist courts, and trailer camps.

### BILL PROVIDES

(Continued from Page 1)

how much this would raise the ceiling levels, but administration lieutenants battled against the move on the theory that it would wreck the over-all directive to President Roosevelt to stabilize prices, wages and salaries at Sept. 15 levels, so far as practical.

### Traffic Deaths Are Lowest In History

CHICAGO, Sept. 30 (AP)—Fewer lives were lost in traffic accidents in the United States last month than in any August on record, the National Safety council reported today.

Fatalities dropped 40 per cent below the same month a year ago, and the total of 2,310 was lower than in any August as far back as 1926, the earliest year for which national monthly totals are available.

The council said the reduction represented a saving of 1,550 lives. It reported the downward trend was general throughout the country, and that for the first time not a single state reported an increase for August.

All America Knows Budweiser... but Few Know This

## THEY'VE PASSED THEIR 'PHYSICAL'-TOO

America's feathered and four-legged armies are very much on their toes these days. Yeast vitamins used in fortifying animal feeds have done wonders in recent years to better the quality and propagation of livestock and poultry. Did you know that the Home of Budweiser is America's biggest single source of these vitamins?

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

### Endless research in making the world's leading beer has led to other products

VITAMINS, B COMPLEX—for manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.

VITAMIN D—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

BAKER'S YEAST—We are one of America's biggest suppliers of standard and enriched yeasts and malt syrup used to make bread.

CORN SYRUP—many millions of pounds annually for America's candy industry.

SYRUPS—for food, table and confectionery uses and special syrups for medicinal purposes.

STARCH—for food, textile, paper and other industries—millions of pounds annually.

REFRIGERATING EQUIPMENT—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed Forces.

DIESEL ENGINES—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.

# WRITE A CHECK SAVE TIRES-GASOLINE-TIME

Your checking account can be a time saving, labor device. When you want to pay bills or transfer money, write your check, drop it in the mail and the job is done. It is done more safely and with less effort than if it were done personally. You are welcome to a personal checking account at this bank. It is more helpful than ever in these days of emergency.

# YANKS, CARDS BATTLING IN FIRST WORLD SERIES GAME

## Colleges Face Sharp Decline In Grid Crowds

By HAROLD CLAASSEN  
NEW YORK, Sept. 30 (AP)—Fans working—or marching—to beat the Hitler-Mussolini-Filohito combination, none of whom probably ever saw a football game, are the reason for the drop in gridiron attendance, an Associated Press survey shows today.

A majority of the larger colleges opened their schedules last Saturday with, in some cases, a terrific falling off in the turnout of the faithful.

Only 17,087 saw Michigan open its season, the smallest crowd in 11 years. Ohio State manhandled Fort Knox before 24,553, the smallest first-game house since 1933 and only 22,000 sat in on the trimming Minnesota game at Pittsburgh. That a total of 63,642.

A year ago on the opening Saturday, Michigan, Ohio State and Minnesota participated in a trio of games that lured 160,000 through the gates.

Southern California's attendance Saturday was 10,000 below that of a year ago; Harvard lost to the North Carolina pre-flight team with 12,000 watching, and only 3,000 Floridians cheered the Gators and Randolph Macon in contrast to the 8,000 of 1941.

Charles Johnson, sports editor of The Minneapolis Star-Journal and the Boswell of the Golden Gophers, replied with "the kick of winning has been taken out of football by the bigger battle to win. The young people who made up a good share of the fans either are in the service or wondering when they will go."

On the west coast, Paul Zimmerman, Los Angeles Times sports editor, wired that "it isn't that the general caliber of good football is missing. Rather, it is an apparent feeling on the part of the fan that he had better reduce participation in this collegiate madness."

Along with these mental restraints, conservation of tires and gasoline and the Saturday afternoon of work contribute to the attendance decline.

## Bucks To Battle Pirates Friday

Special To The News  
LEFORS, Sept. 30—Friday night at 8:30 the Pirates will play the White Deer Bucks, who beat McLean last week-end 13-7, at Shaw field.

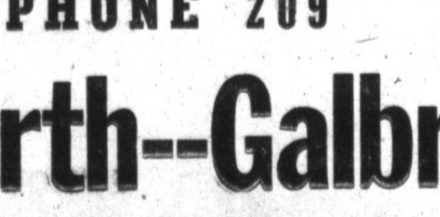

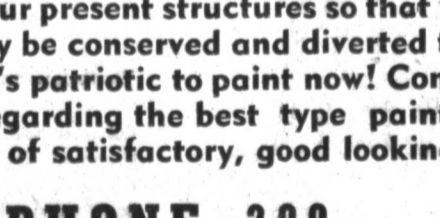

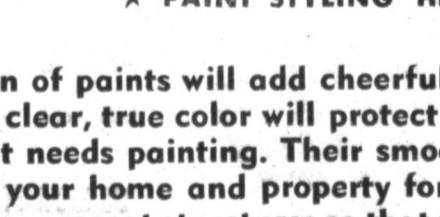

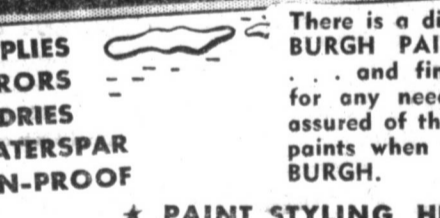

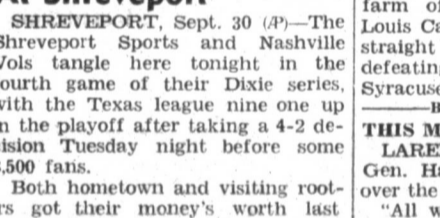

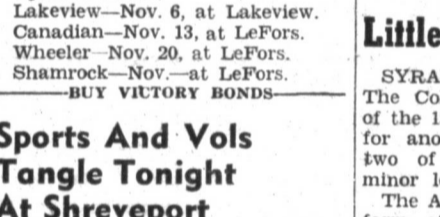

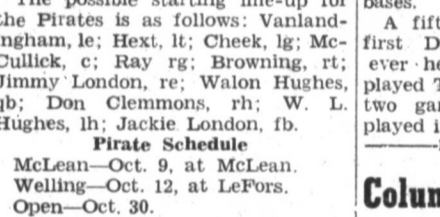

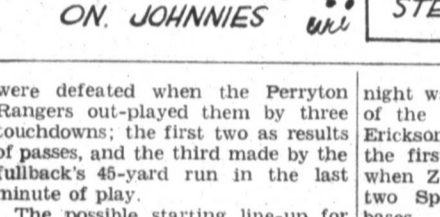

With two defeats behind them, one by Perryton 20-0 last Friday, and the other by Panhandle 14-7, the Pirates may be without two injured boys, Charles Nipper and Joe D. Hamrick.

Last Friday night the Pirates, with an inexperienced backfield as a result of four of the regular players being out on the injured list,

### RAMS BLITZ VOLUNTEERS

## Opener Finds Both Confident At Game Time

By GAYLE TALBOT  
ST. LOUIS, Sept. 30 (AP)—It was Mort Cooper, peepless 22-game winner of the St. Louis Cardinals, against Rufus (The Red) Ruffing, 37-year-old right-hander of the New York Yankees, when the champions of the National league and the champions of the American league, respectively, tied into each other in the opening game of the 1942 world series today at Sportsman's park.

A crowd of just under 35,000, the utmost capacity of the park, was sure to be on hand when the two league champions inaugurated the annual playoff at 1:30 p. m., C. W. T. Every reserved chair was sold more than a week ago, and speculators were getting handsome premiums for the seats that had come into their possession—up to \$50 for choice locations.

In the opinion of old stagers, it promised to develop into one of the bitterest world series in history, probably to be fought right down to the last gasp. Nobody would be surprised if it went the limit of seven games. While most of the experts thought the Yankees would win eventually, few of them predicted it would be an easy victory.

The Cardinals have too much class for that. Those who have been following Billy Southworth's braves as they made their sensational stretch drive to beat out the Brooklyn Dodgers declare unanimously that they are capable of beating anybody—including the Yankees. Those who have seen the most of the Cards lately are highest in praise of the wild-running kids, and are the ones who like their chances the best against the resplendent Yankees.

Here, was to tell the truth, an agreeable surprise to St. Louis last night when the word arrived, in advance of the Yankees themselves, that Ruffing had been named by Manager Joe McCarthy to hurl the first game of the series. The American league champs did not pull into town until nearly dark—too late for a workout—but the word that Ruffing was McCarthy's choice earlier by telegraph some hours earlier.

For some obscure reason, the locals decided the Cards were setting a big break in facing an old-timer like Ruffing in the first heat. They suggested, actually, that McCarthy was "conceding" the opener to the Cardinals. He realized, they said, that he couldn't kick Cooper, so he was sacrificing Ruffing.

Wait! Joe McCarthy does not play baseball that way. If McCarthy did not think Ruffing, old as he is, had the best chance of trouncing the Cardinals today, he would have nominated the biggest winner on his staff, Ernie Bonham, to toss his fork ball at the Cardinals. The Cardinals had thought they would face Bonham, winner of 21 games this year, in today's starter.

Ruffing knew two weeks ago to the writer's knowledge, that he would be given the opener to win or lose. The veteran has won only 14 games this year, while losing 7. He isn't anything like the pitcher he was a few seasons ago. He has to "buck" himself acutely these days. But the buxom redhead still can bear down and make a batter acutely uncomfortable in the pinches. He still has the complete confidence of his Yankee teammates.

**Kansan Would Oust Football For Duration**  
TOPEKA, Kas., Sept. 30 (AP)—Kansas high school football players may quit worrying about the pigskin and start looking after the pig.

George McCarty, state director of the farm security administration, recommends that high school athletics be abandoned for the duration of the war emergency to provide a labor reservoir.

"There's a lot of energy going to waste on the football field," he remarked, his eye on reports of growing critical farm labor shortages.

Others agreed sports might have to be curtailed.

Governor Payne H. Ratner suggested that schools and federal, state and local governing agencies release workers to aid the farmers.

Leonard Ott, the Denver golf pro, finds that a sharp hook isn't always troublesome. Recently he went out on the Gunnison river and hooked a six-pound trout; next day he returned to the same spot and hooked a 7½ pounder.

Presumably they had to be sliced to get 'em into a frying pan. . . . Jim Reed, former Topeka and Burlington, Ia., sports scribe, is back in Topeka working for Radio Station WIBW and taking some courses at Washburn U. as a member of the enlisted army reserve. . . . The Cardinals celebrated their pennant by attending a barn dance. That's one way of stable-izing their emotions.

Wide Awake  
Earl Minnewater, who works in the shipyards and plays football for the San Francisco Bay Packers, had a hard decision to make the other day. . . . He got off shift at 8 a. m. the day the Packers were scheduled to play the coast guard. . . . Early was afraid that if he went to bed he'd oversleep and miss the game, so he stayed up long enough to spring 70 yards for a touchdown that gave his team a 7-6 decision.

## Injuries Keep Harvesters Under Par For Bobcat Game

Minor ailments and various degrees of sickness may force Coaches Buck Prejan and George Scott to revamp their Pampa Harvester lineup for the Friday night game against the Childress Bobcats, it was indicated today, as five squadmen, three of which have been playing regularly, all reported under their usual top physical condition.

As the Harvesters tapered off in a light drill this afternoon, Bob Dunham, halfback, Gene Robbins, end, and three tackles, Flint Berlin, Richard Bynum and Harold Cobb, all were on the ailing list.

While any of the five may see action in the Friday night tussle against Childress, it is very probable that the Harvesters will be under-par for their third game of the season and what they hope will be their second finish on the victory side.

Practice sessions out at Harvester field this week have been devoted to a series of polishing-up drills as the coaches attempted to correct the mistakes the team made against Dallas last Saturday.

Scrimmages were rough and fast as attested by the fact that Berlin received an injured rib in Tuesday's drill.

However, it is possible that all five members now out with injuries will see action Friday, although not a member of the quintet may be his usual self.

Very little is known of this year's edition of the Childress team, but on the records, the Harvesters will be favored to win. The Bobcats have dropped a couple already this season, losing last week to Class A Wellington, earlier in September. Amarillo welcomed Pampa's opponent this week, 31-0, which indicates that dopsters may be calling their shots right in making Amarillo—and also Lubbock—the teams to beat for the pennant in district 1-AA.

Boyles shines at Practice  
Reviewing a few favorable minutes of the game last week, fans were pleased—and the coaches, too—about the impressive punting and running

ability of Charlie Boyles, 180-pound junior back, whose punt average against the Bisons came to 37 yards. One of Boyles' booms traveled in the neighborhood of 62 to 65 yards, another time a punt rolled out about the 10-yard marker, so it begins to look as though the Harvesters will not have to worry about that department in future games.

While the Harvesters this year are a young team without a great deal of experience under fire—even though the 11 usual starters have won numerals—the club seems to be developing at a good pace. The boys make mistakes, of course, but a few more games before the opening of the conference race will see them gain added experience and football poise.

Tickets for the Pampa-Childress game Friday night can be secured at downtown drugstores or at the school business office in the city hall. Fans are advised that they can avoid a great deal of confusion and delay by purchase of the duets before reaching the stadium.

—BUY VICTORY BONDS

## Mathews' Left Jab Gains Ring Decision

SEATTLE, Sept. 30 (AP)—The steadily jabbing left hand of a young war industry worker from Idaho knocked Al Hostak off the fistic comeback trail last night.

Harry (Kid) Matthews of Seattle, formerly of Emmet, Idaho, scored a 10-round decision over the 26-year-old Seattle slugger, who twice held the world middleweight championship (as recognized by the National Boxing association) before losing it to Tony Zale.

—BUY VICTORY STAMPS

## Phillips Wins Place On Aggie Freshman Team

Roland Phillips, former Pampa high school football star, has apparently won himself a regular berth as tackle on the Texas A. and M. freshman team, according to word received by The News sports department.

Phillips played football for two years under Coach Buck Prejan of Pampa High, who said last night that "Roland was one of our better players."

Before entering A. and M. this fall and making the freshman team, Phillips took part in two all-star games last August, appearing in the Texas High School All-Star game at Abilene, and playing again at Wichita Falls in the Oil Bowl contest, which drew stars from every section of the state.

## Mustangs Leave For Pitt Game

DALLAS, Sept. 30 (AP)—Southern Methodist's Mustangs, accompanied by Redman Hume, the Gallop' Gazette of pony football fame in years gone by, were to head eastward today to tangle with Pittsburgh's Panthers Saturday.

## SCHOOL PAYMENT RELEASED

AUSTIN, Sept. 30 (AP)—A \$3 payment on the scholastic apportionment has been released to public schools, Superintendent of Public Instruction L. A. Woods announced today.

## SPORTS ROUNDUP

By HUGH FULLERTON, JR.  
NEW YORK, Sept. 30—Just to give you an idea what the Cardinals are up against, they came from 10 games behind on Aug. 5 to cop the pennant by winning 43 of 52 games.

During the same stretch the Red Sox won 35 out of 42 and gained only 3½ games on the Yankees. . . . Joe McCarthy says the Yankees haven't bothered about scouting their world series rivals, but they've been taking lessons from Buddy Hassett, an ex-National leaguer. . . . Billy Southworth, Jr., son of the Cards' manager and first player in organized ball to enlist, now is a captain in the army air corps. . . . Add travel troubles: Funnyman Al Schacht, who just opened a restaurant here, didn't make the trip to St. Louis but he'll perform at the three games in the stadium.

Today's Guest Star  
Dan Parker, New York Daily Mirror: "In peace time this should be known as the rubber series between the Cards and the Yankees. But what with war time conservation, priorities, etc., this year's post-season playoffs will simply have to be satisfied with the designation of the buttadiene series."

Sportspouri  
Akron U. is considering an early-morning football game against Eastern Kentucky Teachers for the benefit of war workers who can't see the regular night contests. . . . Marshall Field has sold all his race

**THE TOWN THAT LET HIM DOWN**

HE: Well, here's the city limits. Tomorrow I can see my customers around town. Are you tired?  
SHE: Not very. Does the car need anything?  
HE: Yes, it does, but the map shows no Conoco station here.  
SHE: You and your Conoco Nth oil . . . but I don't blame you . . . the way this car performs.  
HE: Here's the hotel, and a garage right across. Let's leave the car there, eh?  
ATTENDANT: Good evening! In for the night?  
HE: Yes. Fill the tank, grease her, check the oil, but don't drain.  
ATTENDANT: What brand do you use?  
HE: Conoco Nth.  
ATTENDANT: Sorry, haven't got it . . . but this is the last straw, mister. You're the fifth driver this week demanding Conoco Nth. Seems like everybody knows about that Death Valley Test, when six engines were run to destruction. Conoco Nth out-miled the average of five other brands more than two to one. I'm going to get some in stock.  
HE: Sure, your regular customers, too, will want Conoco Nth to OIL-PLATE their engine.

Conoco Nth helps keep your oil and your engine clean. It can save you repairs and many a quart. See Your Conoco Mileage Merchant today. Continental Oil Company

**CONOCO Nth MOTOR OIL**

FOR THE DURATION of your car  
Don't depend on hurried stops for gas. Line to have your engine-A-WEEK CHECK. Choose one day each week to bring in your car. I will properly check your tires, oil, radiator, and battery. I will report anything that appears to need attention. I will keep a careful record and remind you when greasing and oil change are needed. I help you get maximum service and car-life at least possible cost and trouble.

Under the new C. A. A. training plan, at last America's eager "oldsters" can get in to what has been exclusively the youngsters' war service—flying.

### Uncle Sam Can Now Use 'Oldsters' Under The New CAA Training Plan

By NEA Service  
WASHINGTON, Sept. 25—Say you're a guy in his middle thirties. You're in pretty good condition, even if your mid-section is thickening and your hair is thinning and you start to squint at the end of the day.

And you're looking for an active, exciting, important role in the war. Well, did you ever think of becoming a . . . wartime pilot?

No kidding. You're just the guy the Civil Aeronautics Administration is looking for. It wants fellows of from 18 to 35, like you, who are sound of mind and body, even though not quite sound enough to make combat grade. No one cares whether you've ever been in a plane before, let alone can fly one, though of course that is an advantage.

**OLDSTERS CAN RELIEVE YOUNGSTERS FOR COMBAT**  
What could the C. A. A. possibly want with an old gent like you? Plenty, mister! Right now classes are starting to train you and thousands like you for flying jobs that will free combat-fit pilots for front-line jobs.

You might wind up as a flight instructor, teaching aeronautics ABCs to the youngsters who'll do the combat work. Maybe your job would be service or airline piloting, flying the army's mail and cargo, or ferrying big shots from point to point. Or you could do liaison work as a pilot-courier.

Too tame? Okay, Bud. These same classes will turn out glider pilots, too. Where could you find a less tame spot than this?

Interested? Ask any of the C. A. A. training centers, or any American Legion post for details.

### Gray County Engineer Joins Naval Reserve

Ray Evans, Gray county engineer since 1936, has enlisted in the U. S. N. R. and is en route to Norfolk, Va., where he will be stationed. Warrant Officer Evans was given a "send-off" party at his home, 311 N. Faulkner, on Friday night, by members of the Rotary club, Boy Scouts of Troop 14, of which he had been scoutmaster, county employees and other friends. A fountain pen and luggage were among gifts presented the warrant officer. Mr. Evans has been a Pampa resident since 1933.

### British Schoolboys Killed By Nazi Bomb

LONDON, Sept. 30 (P)—A German raider, diving out of the clouds Tuesday, bombed a boys' school in a small town near the south coast and killed at least ten boys and two teachers. Others were injured.

Troops and townspeople who recovered the 12 bodies searched on for hours in the heaped debris for others who might have been killed

### 28 Attend Meeting Of Auxiliary Group

Twenty-eight members of the Pampa Auxiliary firemen, a unit of the city's volunteer defense group, held their meeting at the fire station Monday night and continued the study of fire-fighting equipment and how to handle it. Methods of

fire-fighting were also reviewed under the direction of Fire Chief Ben R. White, who has charge of the classes. During the business meeting, it was decided to hold future sessions on the fourth Monday of each month. Amateur movies of Colorado and the Rockies were shown at the close of the meeting.

Every state in the region where grasshopper outbreaks are a serious farming hazard has at least 100 species of grasshoppers.

### Accident Lost Time Is Cause For Alarm

AUSTIN, Sept. 30 (P)—Alarmed at the 490 million man-days of industrial labor lost last year because of accidents, the Texas Safety association today appealed to industrial management to enroll key employees in war training courses in safety engineering being offered by six Texas colleges.

"Accidents are a far greater menace than strikes, saboteurs and raw material shortages," said George Clarke, managing director of the

association. "The nation has a right to demand of industrial management now lacking adequate accident prevention programs that its factory doors be opened to safety."

# SERIAL STORY OF BRIGHTNESS GONE

BY HOLLY WATTERSON

## LAST REHEARSAL CHAPTER XVIII

MARTIN realized that he was late for the rehearsal. He wished that he might skip it altogether, continue right on to the club and the bachelor dinner that had been planned for him.

He was too bone-tired really to care much, yet he found himself hoping uneasily that Faith would not be upset again. He wasn't late on purpose. Mrs. Timothy Simmons' vague symptoms had been, if anything, more vague tonight, but she had certainly made up in quantity for anything that they might have lacked in quality. The weather had something to do with that, he supposed. But he wished that she hadn't decided to have an "attack" just tonight.

He walked up through the nave of the church, shaking the wet from his coat as he went, and Faith, detached herself from the group at the altar to meet him. She called gaily, "I hope this isn't an indication of what's going to happen tomorrow," and she was smiling, but he felt her tense as he bent to kiss her and she didn't meet his eyes but looked past him with a bright blond look that was the usual prelude to a scene. He groaned inwardly. But he smiled at the others.

"You're too late, the minister's been called away," but the pastor said, "No, no indeed, Doctor. I'll stay while you go through it once at least, quickly."

The thing didn't take long but it seemed ages, conscious as he was of Faith standing aside so tensely while he went through the prescribed motions with the girl taking her part. He knew he could depend on her to keep smiling in front of people, she would not subject him to a public scene; but he knew he was due for hours of coaxing and cajoling. Yet even through his irritation he was conscious of pity. Because she really suffered. She was really ill after one of these scenes. He wondered how on earth a girl could get to her age and not realize that nothing in the world mattered as much as she seemed to. He thought that body was worth this devotion, this wearing, possessive devotion.

AT the door when the group was breaking up she said with that bright hurt smile, "I'd better go home with the girls, dear. You're already late."

He shepherded her to his car firmly. "Nonsense," he said. "That can wait."

"Hail the bridegroom goth,"

one of his ushers shouted to the others in warning. "Hey, Corby, aren't you coming to your own shindig?"

Martin laughed. "Soon," he said. "You bet. See that you birds don't get too many up on me."

Faith was weeping, he knew that. Over the swish-swish of the windshield wiper he heard an occasional snuffle, and sideways he saw her dabbing surreptitiously at her eyes.

When he could no longer appear oblivious, he pretended great surprise. "Why, darling, what's the matter?"

She pulled her hand away from his touch. "Nothing," she said stiffly.

"But there must be," he said. "They had come out onto open highway. He drew over to the side and stopped. "Tell me," he said, "what's it?"

"You don't care," she said passionately. "You don't even care about getting to your wedding rehearsal on time. You keep me standing around waiting, humiliated, and you don't even care."

Martin captured her struggling hands. "You're marrying a doctor, my dear," he said firmly, "a man whose time is not really his own, not a boy who can run around with you all the time, he has to be called away. There will be lots of times when you'll have to stand around and wait. Lots of times when you'll be disappointed at the last minute because I've been called out on a case."

He called gently, "I couldn't help it, you know that. I phoned that Mrs. Simmons wanted me."

"Mrs. Simmons?" She mimicked him furiously. "That neurotic old fool! You told me yourself there's nothing really the matter with her. She's more important than I am, I suppose; she's more important than our wedding rehearsal!"

"I'm afraid she is," Martin said. "She's a patient. And incidentally," he added, in a way that meant it wasn't incidental at all, "I see I've made a mistake in mentioning my patients to you. I shouldn't do it again. And you're not to speak of any of them in that tone of voice; not to me, nor to anyone else."

She said coldly, "I see. You're to have everything your own way. Cock of the roost." She lashed out unexpectedly, so that he saw what actually had been troubling her. "How do I know where you really were?"

"What do you mean?" he demanded.

"Just what I said. You told me

you were at Mrs. Simmons'. How do I know you really were? I can't call up, can I, everywhere you say you're going, and ask, 'Dr. Corby said he was calling on you: is he really there?'"

He was suddenly angry with a rage that made him want to shake her until the teeth rattled in her spoiled, pretty head. He warned in a voice like cold steel, "You ever try a trick like that and I'll—"

"You'll what?" she taunted him. "I'll give you the spanking that you should have had long ago. I'll give you the hiding that such a childish trick would deserve. I warn you."

HE stepped on the starter, threw the car into gear and they shot forward again through the opaque wall of rain.

After a long while Faith's hand crept over and touched him. She said contritely, "I'm a bigger souse, 'I'm so sorry, darling. So awfully sorry."

Martin said gruffly, "You've had a bad time, too many parties, too much excitement. And I'm tired. We were both wrong. Let's forget it. It's all right."

It was not and he knew it. He saw with a sudden blinding clarity just how all wrong the thing was. He had called Candace jealous and nagging once because she had accused him, rightfully, of cheating; he thought of the three years in back of him since then and the lifetime ahead of him and he knew he was due to find out even further what a jealous woman was. He smiled bitterly in the darkness. The mills of the gods grind slowly, he quoted. . . .

He'd been so sure he could handle the thing at first, so sure he'd wind up having the Hartshornes as influential friends and nothing more. By the time he'd decided that wasn't going to work, not with Faith who was so intense, he'd lost out on his chance to mention Candace in any way at all without having the Hartshornes completely down on him. There didn't seem to be anything to do, according to his way of thinking, but take advantage of the "outrage" Candace gave him.

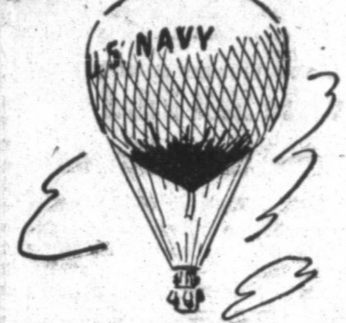

A small, blurred red light was suddenly visible directly ahead through the rain. A lantern on the back of a slow-moving truck. He slammed on the brake. The road under him became a greasy slide over which they skidded toward that light with terrifying speed. Martin's arm shot across in front of Faith to keep her from slamming forward when they crashed—

(To Be Continued)

### What You Buy With WAR BONDS

Copyright, 1942, NEA Service, Inc.

All branches, the Army, Navy, Air Corps, the Marines and the Coast Guard, use balloons for various purposes in this war. The barrage balloon, with flapping wings and fins, plays an important role as protection against air blitzes. Observation balloons of the Navy, or the anchored balloons of the Coast Guard and Marines, also play important parts.

Some are used over troop concentrations to prevent ground strafing. Some are towed by merchant ships to make direct air hits more difficult. Anchored balloons are moored by some 9,000 feet of cable or mounted on mobile trucks. They cost upwards to \$9,000. You can help pay for them with your regular investment every payday, of TEN PERCENT OF YOUR INCOME in War Bonds. Do your bit toward winning the war.

### Shark Fighter Now In Uniform Of Coast Guard

NEW ORLEANS, Sept. 30 (AP)—Captain Wallace N. Caswell, 37-year-old tiger shark fighter, has given up his shark fighting to battle the "tin fish" that have been preying on merchant ships in American waters.

The husky boat captain enlisted here Monday in the United States coast guard. He explained how he dove into a school of a score of the man eating brutes, molesting his fishing nets off Panama City, Fla., and gave them a fight.

"After losing a few nets," he said, "I decided it would be cheaper to give into the net myself and get rid of the big fellows. When I first started fighting the monsters I would drown them by showing my arm in their gills. But later I discovered that a sharp knife was more effective and did the job a little quicker. Captain Caswell said he would wait for the shark while he clinched a knife between his teeth, then approach from an angle until you "put him in the position you want and after a battle you can find a spot for the knife."

Caswell has been fishing since he was 16 years old. He became a Florida boat captain two years ago.

### Selective Service Nazi Bund Fought

NEW YORK, Sept. 30 (AP)—Testimony that the German American Bund opposed the selective service law on the grounds that President Roosevelt might use a large army against Germany was given in federal court yesterday by William Luedtke, former secretary of the bund.

Luedtke is a government witness in the trial of 25 former Bund leaders who are charged with conspiracy

### Newspapers Can Be Obtained In England Only Through Clubs

HOT SPRINGS, Ark., Sept. 30 (AP)—In England certain newspapers are so scarce that they can be obtained only by joining a club or resorting to a similar stratagem, a British newspaper expert said today at the Southern Newspaper Publishers association convention.

Graham Hutton, director of the Chicago office of the British press service, a government information agency, said that due to the newspaper shortage publishers had to decide whether to cut their papers to four pages or cut their subscription list.

"This," he said, "had amusing and paradoxical results, for instance: " "Though there are no 'sale or return' copies any more the popular four-page, two-cent papers with unaltered or increased circulations can be subscribed to, and even bought fairly easily but the Times and the Telegraph, which are larger in size yet circulate to only two-thirds of their normal readers at a 50 per cent increase in price, have acquired a kind of scarcity value and good will."

to counsel members to evade the draft law. He pleaded guilty to the charge.

Luedtke, who was on the stand for the sixth day, had indicated in previous testimony that he did not think the Bund had opposed selective service until the act was amended to bar Bund members from job vacancies caused by military service.

### Texan Captured When Germans Down Plane

LONDON, Sept. 30 (AP)—The Bremen radio reported that four Americans were among prisoners taken Saturday when 12 planes were shot down by anti-aircraft guns during an RAF raid on occupied France.

The German station listed the Americans as follows: Pilot Officers Charles Albert Cook, Alhambra, Calif.; Marion Jackson, 1671 Palmer St., Corpus Christi, Texas; and Edward Gordon Bratton (no address given). Flying Officer George Sperry, Alameda, Calif.

All were members of the former 133rd Eagle squadron, which now is the 336th squadron of the United States army air corps.

### Merchants Told To Eliminate 'Frills'

WASHINGTON, Sept. 30 (AP)—Price Administrator Leon Henderson told representatives of the nation's retail industry that the "frills" of merchandising would have to be curtailed to conserve manpower and resources for the war program.

Demands of the war, he said, were such that supplies of civilian goods in 1943 would be reduced to the 1932 depression level.

Hence, he said, merchants, facing the prospect of a greatly reduced volume of goods, would find it necessary, not only in the general interest but for their own sake, to reduce operating expenses.

In a brief discussion of price control, Henderson said he believed that any advances from present levels should be reserved for the "extraordinary impacts of the war."

Carrier Airpower Key To Defeating Japan

WASHINGTON, Sept. 29 (AP)—Lieutenant Commander John S. Thach, three decorated for his exploits as leader of a squadron of navy fighter planes in the Pacific, declared Tuesday that only carrier based airpower can clear the way for invasion and defeat of Japan.

Horizontal bombers, whether operated by the army or navy, cannot do this job nor can they stop a force of enemy warships directed against American objectives, he said.

He declared that "not one major ship in this war has been sunk by horizontal bombing," and when asked whether that included the Haruna, Jap battleship which the army reported sunk by a flying fortress in the Philippines, he repeated his assertion.

Output Of Planes In U. S. Greater Than In England

PORT WORTH, Sept. 30 (AP)—The rate of plane manufacture in the United States already far exceeds that in England, and the vast plant capacity and efficient factory methods should make it easily possible to reach the production goals this country has set, Alexander Dunbar, comptroller general of the British ministry of aircraft production, said here yesterday.

Dunbar is head of a nine-member British air mission engaged in a strenuous, week-long tour by air of American plane-producing plants. The group was to visit North American Aviation and Consolidated Aircraft Corporation plants in this area before leaving today to continue their rapid tour.

"The size of plants in this country, their efficiency of operations, large-scale production methods, and keen and efficient workers, compared with our limited factory space and manpower means we can never hope to achieve anything like the production in the United States," Dunbar said.

British Women To Be Taught U. S. Recipes

LONDON, Sept. 30 (AP)—British housewives are going to be taught how to prepare Johnny cake and apple pie so they can make United States soldiers feel at home when they invite them to dinner.

The ministry of food announced today a plan for a demonstration tour of the country to familiarize housewives with recipes from the United States.

Advertising Still Deductible Expense

WASHINGTON, Sept. 30 (AP)—Guy T. Helvering, commissioner of internal revenue, said in a formal statement today that advertising expenditures of businesses would continue to be deductible from income tax returns as long as they are "ordinary and necessary and bear a reasonable relation to the business activities in which the enterprise is engaged."

The statement was issued, Helvering said, in response to numerous inquiries arising from Secretary Morgenthau's notice to congress May 28 that the bureau was examining corporation returns with a view to disallowing excessive deductions of various kinds, including advertising.

Divorce Suit Filed Against Greer Garson

LONDON, Sept. 30 (AP)—A petition for divorce on grounds of desertion has been filed against Greer Garson, star of the movie "Mrs. Miniver," by Edward A. A. Snelson, can divorcee.

The British actress won a divorce from Snelson in Los Angeles, May 8, 1940. Suing under the name of Ellen Evelyn G. Snelson, she testified that her marriage lasted but one month and five days in the autumn of 1933 and ended because of her husband's temperamental outbursts and insistence that she accompany him to India. British law does not recognize some American divorces.

Change Of Venue Ordered In Trial Of Mrs. Dilling

CHICAGO, Sept. 30 (AP)—The removal of Mrs. Elizabeth Dilling to Washington to stand trial on a charge of conspiracy to undermine the morale of the nation's armed forces has been ordered by Federal Judge William H. Holly who expressed "some doubts" as to the guilt of the red-haired foe of Communism.

Judge Holly sustained a federal

Daring Seeks Votes For Someone Else

RENO, Nev., Sept. 30 (AP)—Walter S. Daring, candidate for the Nevada assembly, is making a serious campaign—to get his supporters to vote for someone else.

Daring enlisted in the navy, now finds Nevada laws won't permit him to withdraw as a candidate.

If elected, he promises to resign.

Ask yourself these Questions when you buy a laxative

Ques. Why has Black-Draught been such a favorite laxative with four generations of users in the West? Ans. Because it is purely herbal, and usually gentle, thorough, prompt when directions are followed.

Ques. What's another reason for Black-Draught's great popularity? Ans. It costs only 25c for 25 to 40 doses. Get Black-Draught in the familiar yellow box today. Follow label directions.

**DON'T BE FOOLED BY A FULL JUNK YARD**

Don't listen to people who say--" They can't need scrap very badly. look at that junk yard, or the auto graveyards---they've got plenty of scrap. And remember the last time we had a drive the stuff sat around for weeks." Tell such people these true facts. . .

Of course the junk yards are full. They are "factories" that turn out finished scrap—sorted, broken up, and bundled . . . ready for the mills of America. The scrap has to go through these yards, and it keeps going through fast!

The auto graveyards too, are busy. They specialize in used car parts, but produce plenty of scrap as well. In June alone, these yards moved 450,000 tons—they are required to junk within 60 days as many cars as they buy.

As for Salvage Depots—communities all over the country are staging drives. All this scrap can't be taken away at once. The junkies can't handle it and the mills can't store it. But every pound is needed and will be used. We've got to pile it up ready for instant use at any time.

The day when all junk yards are empty, when the auto graveyards are cleaned out, when all the local scrap stockpiles are gone—that is the day to dread. It is a day to avoid at all costs.

So remember—steel is needed to fight the war, and millions of lives depend on it. This steel is made of 50% scrap—and the mills have not enough scrap to last even 30 days longer. Don't fail to do your part in this emergency.

**Get your scrap ready for the drive that starts Monday!**
