## ALLIED AIR DOMINATION GROWS IN PACIFIC

### Japanese Prisoners On Guadalcanal

Japanese prisoners on Guadalcanal in the Solomons look anything but unhappy as they light up American cigarettes, of which they get 10-per day, after being captured in fierce, recent action. (NEA TELEPHOTO)

### U. S. Bombers Stall Thrust On Solomons

By JOHN H. WIGGINS WASHINGTON, Oct. 21 (AP)—Allied domination of the skies in the vast Pacific battle front appeared growing mightier today as American bombers slugged Japanese invasion bases from the Aleutians to the Solomons.

The fury of the Allied bombing of enemy troops and supply concentrations in the Solomons seemed thus far to have stalled, at least temporarily, the full force of a Japanese thrust to retake the American-held Guadalcanal airbase and win control of the southwest Pacific.

While a large force of Japanese warships and auxiliary vessels in the Solomons and reinforced enemy troops on northwestern Guadalcanal still held an expected attack in leash, United States bombers dropped explosives on the embattled island's invaders on Oct. 18 and 19, and started fires at the Japanese Rekata Bay base on Santa Isabel island, 150 miles to the northwest. At that same time, Gen. Douglas MacArthur's Australian command reported last night, Allied bombers were believed to have inflicted extensive damage on the Japanese airbase and shipping at Buna, Bougainville island, about 315 miles northwest of Guadalcanal. All Allied planes, meeting no attempts at interception, returned safely from the Buna night raid, the communiqué said. The navy's report yesterday of the latest American assaults in the Solomons and Aleutians made no mention of any enemy planes rising to counterattack.

While the Southwest Pacific skies may soon become a hornet's nest of Allied planes as seen yesterday in an assertion by Secretary of the Navy Knox that the number of navy land-based planes was "steadily increasing," in the North Pacific, the navy announced that on Oct. 18 the army's heavy four-motored Liberator bombers smashed again at the Island of Pliska, the last of three Aleutian bases once held by the Japanese. Twelve tons of bombs were dropped on enemy shore installations and on a beached ship in the harbor. The explosives set fires in the harbor. The explosives set fires in the harbor. The explosives set fires in the harbor.

Draw up a national service bill, now being drafted by the war manpower commission's management-labor policy subcommittee.

"It is only fair to this group to state that the subcommittee has indicated their opposition to immediate enactment of national service legislation," McNutt said. "They believe that all indirect sanctions should be exhausted before such a law is passed."

"Nevertheless, they are preparing draft legislation for consideration whenever the President indicates that national service legislation is required."

McNutt left no doubt as to his own belief that such legislation was necessary. "Public opinion and sound public policy both dictate that we must not stop short of compulsion when those who will not cooperate are blocking war production," he declared.

Yesterday President Roosevelt warned congress of the geographical and seasonal difficulties involved in legislation for drafting of men for farm and industrial work.

Sponsors Austin (R-Tx.) and Hill (D-Ala.) who have bills to that effect before the committee, declared compulsory manpower mobilization offered the only solution.

A different view was taken by Senator Downey (D-Calif.) who told reporters that a labor draft would "not do the job."

"West Coast farmers face disaster unless we can find means of importing 150,000 Mexican laborers," McNutt said.

## NAZIS STALLED ON STALINGRAD FRONT

HERE'S STALINGRAD WHERE GERMANS STOPPED

The first picture to reach the United States showing devastation suffered by Stalingrad in the German's current siege. Smoke and flames rise from bomb-shattered buildings in the background as two women carry supplies to defenders. This information from the Russian caption on the picture. (NEA TELEPHOTO)

### Senator Lee Sees Growing Support Of Dry Draft Law

WASHINGTON, Oct. 21 (AP)—Mounting support was claimed by Senator Lee (D-Okla.) today in his fight to ban liquor from army and navy camps. As both sides took advantage of a one-day recess to marshal forces for a possible showdown tomorrow on Lee's "bone dry" amendment to a bill lowering the draft age to 18, the Oklahoman told reporters that some of its senatorial supporters were "people who don't favor general prohibition."

"But," he declared, "they are for my amendment."

The author of the "teen age draft bill," Senator Gurney (R-SD), said for his part that he hoped no "controversial amendment" would slow its passage.

Opponents of Lee's amendment, which would bar the possession, sale, gift or use of any alcoholic beverage, are also for my amendment.

Russia Says U. S. Is Ready To 'Open Up'

MOSCOW, Oct. 21 (AP)—Red Star, official organ of the Soviet army, asserted today that the United States is ready now in men and equipment to open active military operations. "The Russian press has expressed the view with increasing frequency recently that Russia's Allies have the strength to undertake second front operations at once to relieve German pressure on the Soviet forces."

### Germany Squawking Again; Claims She's Been 'Done Wrong'

NEW YORK, Oct. 21 (AP)—The German High command concluded its communique today with a charge that British planes had attacked a German dressing station on the Egyptian front and with this menacing remark: "From this the German high command is compelled to draw the conclusion that the British government no longer attaches any value to maintenance of the convention of Geneva."

This apparently is a new phase of the German propaganda campaign of threats combined with allegations, unsupported by any independent evidence, of Allied actions contrary to international laws and the accepted rules of war.

The Geneva convention mentioned pledges its signatories to respect for the Red Cross emblem of medical services in the field.

### Jaycees Plan For Regional Conclave

Pampa Jaycees are making plans to attend the Region Six Victory conclave in Amarillo, Oct. 24-25, according to Jaycee president, Bob Miller. Jaycees from Brownfield, Lubbock, Pampa, Borger, Snyder, Panhandle, and Plainview will meet to exchange ideas for stimulating and sponsoring war drives such as savings, U. S. O., the selling of Victory bonds and stamps, and Red Cross. The program includes reports from the various vice-presidents of the Texas Junior Chamber of Commerce as well as an address from an outstanding government official, Paul D. Dollard, Panhandle, vice-president of the state organization in charge of special war drives will preside at all the business sessions, and Taylor Cole, Midland, also a vice-president in charge of post war planning will appear on the program.

### Nelson Puts Ban On Non-Essential Production Jobs

WASHINGTON, Oct. 21 (AP)—Chairman Donald M. Nelson of the War Production board announced today he would limit government construction to projects "directly essential" to the war effort. Nelson notified the heads of eight governmental agencies that he had given instructions to revoke priority assistance to a large part of non-military production for the federal government, and said a review now was underway of all military projects of the army, navy, and maritime commission, with the same end in view.

As things now stand," Nelson said, "facilities and construction, including many projects not related to the war effort, programs for 1943, with the carryovers of uncompleted 1942 projects will absorb between one-fifth and one-fourth of the total war effort."

He added that the aggregate demand of these projects for materials, labor, transportation, and engineering services, "is so great as to not only jeopardize the various military and essential civilian programs in general, but to force the most essential war projects dangerously behind schedule."

### Los Angeles Hit By Slight Earthquake

LOS ANGELES, Oct. 21 (AP)—An earthquake of moderate intensity, described as varying from a gentle rocking motion on inland points to fairly sharp on the seacoast, was felt throughout most of Southern California at 9:24 a. m. (PWT) today. There were no reports of damage or injuries. It was sharpest at Santa Monica and Long Beach, the latter scene of a disastrous shock in 1933.

### McNutt Maps Bill To Draft Manpower

BULLETIN WASHINGTON, Oct. 21 (AP)—War Manpower Director Paul V. McNutt announced today he would present a national service bill to President Roosevelt within two weeks as the army indicated disapproval of proposals revealed by the president to release older men to take jobs in industry as a means of easing the labor shortage. McNutt said the bill would require the federal government to draft men aged 18 to 45 who are not already in the military service. The bill would also require the federal government to draft men aged 18 to 45 who are not already in the military service.

### Tokyo Says Four U. S. Fliers Held In Doolittle Raid

NEW YORK, Oct. 21 (AP)—The Tokyo radio, continuing to broadcast threats of severe punishment for United States flyers taken after raids on Japanese territory, named today four airmen it said had fallen into Japanese hands after the April 18 raid on Tokyo led by Brig. Gen. James H. Doolittle. The names were given as Second Lieutenant William J. Parrow, 23, Darlington, S.C., 2nd Lieutenant Dean E. Hallmark, 27, Dallas, Cpl. Jacob D. Deshaizer, 29, of Oregon, and Sergeant Mechanic Harold A. Spatz, 20, of Kansas. The Tokyo radio on Monday said that U. S. airmen captured after the raid had been convicted of "inhuman acts" because it was charged, they bombed civilians and machine-gunned school children. It was said they "would be severely punished in accordance with international law."

### Two Cannon Shells Addressed To Hitler

LAREDO, Oct. 21 (AP)—Two 105 millimeter cannon shells weighing 130 pounds each are on their way to glory addressed to "Hitler, Berlin." Used as decoration at the American legion home in Laredo for many years, the shells have been donated to the Newspaper Scrap campaign.

I SAW... F. L. Stallings, secretary-treasurer of the Gray County Tuberculosis association, winding up on plans for publicity in the forthcoming bangle sale and seal sale of the county tuberculosis organization. For moist, warm, circulated air, see the Estate Heatrols Lewis Hard-ware.

### 24 Bundists Get 5-Year Pen Terms

NEW YORK, Oct. 21 (AP)—Twenty-four former German American Bund leaders, including Gerhard Wilhelm Kunze, national leader, were sentenced today to five years in prison each for conspiring to counsel Bund members to evade the draft law. Federal Judge Alfred D. Barksdale said that in his opinion all of the defendants were guilty of "far worse than any tactical violation of the Selective Service law" and said that he would not impose fines because that might have the effect of causing their families to lose their homes.

Under the conviction, each defendant could have been subject to a \$10,000 fine.

### Jehovah's Witness Gets Two-Year Term For Draft Evasion

GALVESTON, Oct. 21 (AP)—Judge T. M. Kemner yesterday sentenced Pete Buttecall, who identified himself as an ordained Jehovah's witness minister from Fort Bend county and who was found guilty of violating the selective service act, to serve two years in a federal prison. He had been tried before Federal Judge James V. Allred and was sentenced on a mandate from the United States circuit court of appeals which denied his appeal from his conviction.

Leaders Turn Thumbs Down On Any Further Major Tax Bills Until After First Of Year

WASHINGTON, Oct. 21 (AP)—senate finance committee told reporters that while Secretary of the Treasury Morgenthau might carry out his announced intention of requesting \$6,000,000,000 more in direct revenue, he, George, thought nothing concrete would be done about it by congress until after Jan. 1. Moreover, George made it plain that he believed the tax load contained in the new bill already approached the maximum. "Of course," George said, "we are going to have to go into the question of compulsory savings to help in financing the war. It may be that Mr. Morgenthau will bring back from London some ideas of what the British have accomplished in obtaining such forced loans and they may be useful to us."

Morgenthau has been in London on an undisclosed mission and his absence was regarded as likely to delay any new recommendations. President Roosevelt told his press conference yesterday that he would sign the new measure before midnight tonight, thus breathing life into the question of compulsory savings to help in financing the war.

### Cold And Rain Put Crimp In Week-old Drive

By ROGER D. GREENE Associated Press War Editor Adolf Hitler's latest week-end offensive against Stalingrad was reported dwindling today as cold rain again drenched the cemetery streets, and Russian headquarters announced that the Red armies had held their lines unbroken for 48 hours. It was the 58th day of siege, just five days short of equalling the historic Russian stand in the nine-week siege of Odessa last year. German field headquarters acknowledged that the Russians were launching powerful diversion attacks against the Nazi-guard north flank, above Stalingrad, but asserted they had been repulsed in heavy fighting.

### Smuts Declares Russians Bleeding Nazis To Death

LONDON, Oct. 21 (AP)—Field Marshal Jan Christian Smuts, premier of the Union of South Africa, told a joint meeting of the House of Commons and the House of Lords today that the German army is "bleeding to death" in Soviet Russia and "the stage is set for the last, the offensive phase" of the war for the United Nations. The 72-year-old premier, last surviving member of the War Cabinet of the last war still active in high office, said the "appalling blood-letting which is necessary for Hitler's ultimate defeat is being administered by the Russians and they alone can do it." Russia, Smuts said, is "bearing more than her share of the common burden" and he urged that "whatever help in whatever form we can give to Russia to sustain her in her colossal effort should be given in fullest measure and with utmost speed." In reference to the second front, See SMUTS, page 8

### TODAY'S WAR MAP

This telemat shows where the Japs are reported advancing on the U. S. base near Guadalcanal Island in the Solomons. Bottom

Congratulations—The Rev. and Mrs. M. C. Cox of Skellytown are the parents of a daughter weighing 9 pounds born at 11:25 a. m. Tuesday at a local hospital. Jessie Louise is the name chosen for the infant.

"Listen here—you'd better read up the law and learn what I can find people for besides speedin', or the town treasurer will be asking for a new cop!"

### TEXANS IN Washington

By L. T. EASLEY

War time Washington, background for innumerable fact and fiction stories, is all that's said about it.

The procession of European royalty there, the hurried comings and goings of American and foreign diplomatic envoys, and the colossal single lot out from other cities of the nation.

These manifestations of the war are in addition to those which Washington has in common with Texas and other states with plane factories, shipbuilding yards, army and navy centers.

Incidentally, in some central states the writer visited recently, he found that many towns remote from war activities were taking on the appearance of mountain ghost mining towns.

The housing shortage in Washington is a well publicized fact. Recently it was announced that a floating, multi-deck boat hotel had been brought up from Florida and would be docked in the Washington ship channel only a few blocks away from the big government buildings.

Individuals and couples arriving in the city may, with luck, promptly find a suitable room or tiny apartment in the District of Columbia, or in nearby residential areas of Virginia and Maryland.

A man coming to a new job in Washington and hoping to find a desirable house for his family is an optimist, that is unless expenses mean nothing to him.

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

The absence of tourists from the capital during the past summer has been evidenced by the lack of cars from the big parking space provided in front of the capital.

War workers! Farmers! Save now on these tough cottons! Seamless, reinforced feet!

Blackout tests are held in the metropolitan area of Washington about twice monthly, with nearby Alexandria, Va., and Maryland communities cooperating in the air raid alarm tryouts.

His speech was the report of a committee of states which he said was formed to oppose security board efforts to take over operation of state agencies.

### Texas UCC Head Criticizes Set-up

KANSAS CITY, Oct. 21 (AP)—Director Claude Williams of the Texas Unemployment Compensation commission recommended in a speech here today that state unemployment agencies divorce themselves from the federal government.

In a speech critical of the Federal Social Security board before the interstate conference of employment security agencies, Williams asserted: "The board has, by its conduct during the past year, completely destroyed the faith and confidence of the state administrators in it. We no longer believe the board capable of x x x fair dealing."

JUDGES NOW SENTENCE BAD DOGS TO THE ARMY

NEW YORK (AP)—The old habit of judges suspending sentence on young men guilty of slight crimes if they enlist in the army is now being applied to dogs.

PLEDGE OF ALLEGIANCE—"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

Psychology Of Victory
Mr. Eric A. Johnston, who is president of the Chamber of Commerce of the United States and also a member of the Economic Stabilization Board, objects to assertions that we are losing the war.

Assistant Navy Secretary Ralph A. Bard told a labor convention recently: "We are losing the war, period. We damn well mean it, period."

But Germany and Japan possessed the tanks, the planes, the guns, the trained soldiers, the blueprints for modernized warfare, while we still were pipe-dreaming about how smart we were and how we could get those things if we should need them.

Usable Articles
Two over-enthusiastic New York youngsters threw almost new bicycles into the scrap collection pile. This was a perfect example of what Uncle Sam does not want.

Still Too Little
The Japanese succeeded in landing troop reinforcements and supplies on Guadalcanal island, notwithstanding the heroic efforts of "a little band of seven Wildcat fighters which went up against the big enemy force" of 30 Japanese fighters, and destroyed nine of them.

The Nation's Press
BARNSTORMING
Rolling "Secretive" in Willkie's Jammies
Mr. Wendell Willkie is not as secretive as the President when he takes to the open road.

Common Ground
"I speak the peace-word primer, I give the sign of democracy. By God! I will accept nothing which all cannot have their counterpart of on the same terms." -WALT WHITMAN.

CAN OUR ARMY BE TOO LARGE?
A question we should decide is, what size army will win the war with the least sacrifice of life and property.

We undoubtedly have a million men more on the government civilian payroll than are needed. These million men all have to be supported by the labor of private citizens. Every extra man on the government payroll means a lower standard of living and lower real wages for all private workers.

Roosevelt does not seem to realize this. If he does, he does not seem to care so long as it gives him the votes and the power and control over those on the government payroll.

Nowadays, war is a specialized proposition. It is not as it was 100 years ago when each man fought with a sword or a gun and required little destructive material. The food and clothing are the same today as it was 100 years ago, but the munitions required for soldiers takes many times more hours of labor to produce than it did when we were fighting with swords and rifles.

Distance Reduces Number of Fighters
The distance we are obliged to transport the soldiers and war equipment to the front also reduces the size of the army we can use.

War is like agriculture. One hundred years ago, 80 or 90 per cent of the people were needed to supply us food. Now, with modern machinery, we need only 20 per cent of the people producing food. Just so, with war we now need a smaller percentage of our people in actual combat and a larger part of our workers on the production line supplying them with modern, efficient instruments of war.

spendent of the Hearst papers, said in a recent dispatch: "The Communist Party, up to its old tricks of following the Moscow party line, is the only pressure group that is trying to put the heat on the military leaders and force them into premature action."

WRECKED The postponement of President Roosevelt's visit, because of the indiscreet remarks of Sumner Welles, has precipitated a squall in New England.

WILLING TO LEARN
He was poor and honest; she was rich and a beauty. He has just proposed and been refused.

News Behind The News
The National Whirligig

By ALBERT N. LEMAN
SIGNS Turkey is ready to cut off ribbons any frontier force which violates her frontiers. This reassuring forecast is announced by an extremely important New York business leader just returned from a fact-finding mission in the Near East.

Earlier in the war Hitler might have jumped them. Ankara trod the diplomatic tightrope—as did Stockholm—because her armament was not sufficient for facing the Wehrmacht. Today a million well-drilled and well-equipped soldiers, thanks to American lend-lease and British arsenals, are at their posts.

JITTERS The plan to draft the teen-age class has stirred up an imbrolio in New York's medical fraternity. One faction contends that this group is best fitted to withstand the nervous upheavals of combat because its members are happy-go-lucky and disinclined to brood.

Chemists of the new school do not like to have their products described as "substitutes." They argue that most of the latest goods are superior to the familiar originals, and that the world will never return to the old. We shall emerge from the struggle with capacities for concocting synthetic fibers, octane gasoline, nitrates, hydrocarbons and similar miracles on a scale in excess of the dreams of two short years ago.

Teacher—What is the meaning of the word matrimony, Robert? Robert—Father says it isn't a word; it's a sentence.

Around Hollywood

By ERSKINE JOHNSON
NEA Service Staff Correspondent
Talk of the sound stages: Richard Arlen making a long distance telephone call to Lieut. Don Lee Arlen, army flyer recovering at Westover, Mass., from a broken leg and collar bone suffered in a forced landing. The flyer, who has shot down enemy planes and sunk two submarines, previously wrote Arlen: "Because of our same last name I have always followed your pictures and you became my screen idol. When you began making air pictures, like 'Aerial Gunner,' I also became interested in aviation and began taking lessons."

Private Lynn Riggs ushering soldiers to their seats in a Ft. Ord, Calif., theater for a showing of the motion picture, "Destination Unknown." Before joining the army Private Riggs was a Hollywood scenarist—the author of "Destination Unknown."

Tommy Dorsey introducing a new note to music in "DuBarry Was a Lady." He hits the first note on the trombone, hums the second and then combines the two. A nice trick if he can do it. . . . MGM including scenes of the Russian Royal family, actually photographed by the late czar of Russia, in the John Nestbit Passing Parade subject, "The Film That Was Lost."

Jane Withers, who rose to fame as a result of her imitations, giving the best imitation of her career in Republic's "Johnny Doughboy." Jane imitates herself, playing the dual role of a movie star and the movie star's greatest admirer, a Nebraska farm girl, Chuckles Jane: "They really had to hold me down to keep me from overplaying my greatest admirer."

The average citizen finds it very difficult to keep up with both the war and government spending.

Farm Boom Need Not Turn Into A Wartime Bubble
Today's War Analysis

All this current campaigning to make you a better soldier or civilian—increasing your wartime efficiency by improving your diet and making you eat more of the right kinds of vitamin-packed nutritional foods—is apt to have far-reaching postwar effects if calculations of Department of Agriculture economists can be realized. These changes in diet might even go so far as to solve the farm problem, or a part of it, anyway.

A couple of figures will give you the drift. Out of the 477 million acres of U. S. land suitable for cultivation, the agricultural bureau estimates that in the 1936-40 period some 311 million acres were used for raising food. But the pencil and paper farmers, by adding up the total quantities of food that would be required if all the 134 million people of the land ate adequately rationed diets, have come up with the figure that to raise all these victuals, a minimum of 321 million acres would have to be cultivated, an increase of 10 million acres.

This admittedly is a pretty "iffy" calculation, but it does indicate that all the increased production being demanded of American farmers for feeding the American civilian population, Army and Navy, and Lend-Lease is not an inflationary bubble that has to burst when the war is over. And it is another indication that American agriculture can gain what the economic planners had thought it might take another 25 years to make.

## Coleman Of Baylor At Home In Any Backfield Position

WACO, Oct. 21 (AP)—Hats off, folks, to Bill Coleman, who proved the truthfulness of the saying—"dynasty comes in small packages."

It happened in the fourth quarter of the Hardin-Simmons game.

Baylor was training 0-13 when the 155-pound Coleman, a wingback, came in at tailback, a position he'd never played before.

Coleman, at home in any backfield position, general, passed and ran the Bears to the goal line then powered his way through when Hardin-Simmons stacked its defense for big Milton Crain.

With Coleman leading Baylor almost scored again.

But bringing teams out of the doldrums is nothing new to Baylor's mite. Against mighty Texas last year he sped down the sidelines like a scared rabbit to take the pass that brought that memorable tie.

This year he's doing even more against Oklahoma A. and M. Coleman came in to lead the charge that brought victory when the seemed certain. Against Arkansas he passed for 93 yards, scored two touchdowns and kicked an extra point.

Against Texas Tech he ran back a punt 91 yards for the touchdown that won the game.

He has passed 19 times for 184 yards, intercepted three passes, ranks with the conferences top six in punting and has scored 29 points.

Texas-Rice, A&M-Baylor Top Contests

By The Associated Press

With two championship games highlighting the week's schedule, Southwest conference football teams today polished their offensive plays and defensive tactics for Saturday's contests.

The two games that count in loop percentages are the Texas-Rice and Texas A&M-Baylor affairs, the former at Houston, the latter at Waco.

Non-conference games Saturday find Southern Methodist at hosts to the Corpus Christi Naval Air Station Comets, Arkansas meeting Mississippi University at Memphis, and Texas Christian journeying to Florida to play the Pensacola Naval Air station.

Free injuries after romping over Arkansas 47-6 Saturday, Dana Bible's Texas Longhorns began making bad medicine for the Rice Owls, traditionally bitter rivals. An offensive drill was slated today against Rice plays and a game-conditioning session is on tap Wednesday.

Dick Dwelle ran as number one tailback with the Owls Monday as Coach Jess Neely sent his squad through a long scrimmage session. Virgil (Ike) Eikenberg, who has been holding down the job with the regulars, missed the rough going because of a slight leg injury.

Beaten but unbowed, the Texas Aggies went through routine drills Monday as they prepared to meet Baylor. Coach Homer Norton said the team would devote considerable attention this week to Baylor plays.

All Aggie players came out Saturday game with Texas Christian in good shape.

All members of the Baylor squad are in good condition for the first time this year, Coach Frank Kimbrough reported. The Bears took these things Monday after arriving from Lubbock where they downed Texas Tech Saturday. This week's contest with the Aggies is a homecoming game.

As a result of injuries in the SMU-Temple game last week, it is possible that Mustang Co-captain Orville Johnson and Bob Ramsey will be out of the pony-line-up against the Comets. Johnson received knee injuries and Ramsey has a broken nose.

Arkansas will be in their best physical condition of the season against the Mississippians. Only Meredith (Cotton) Jones, big, rangy back, may miss the game; he is nursing a recurrence of an old knee injury.

Texas Christian gridgers, in high spirits as a result of their 7-2 victory over the Aggies Saturday, went through a light drill Monday. The Frogs leave Wednesday afternoon for Pensacola to assure rail connections at New Orleans.

## TEXAS' TWIRLER

Where Roy McKay, Texas' starting fullback, got his sureness of foot is shown by his rope twirling trickery, on demonstration here.

## Texas' Grid Ace Genuine Cowboy

Special To The NEWS

AUSTIN, Oct. 21.—When they speak of "cowhands" on the Texas Longhorn team this season, most likely they're speaking of the likes of Roy McKay, starting fullback and triple-threat offensive of the current edition of D. X. Bible's University of Texas football organization.

McKay, a product of Junction High school, who works each summer on a ranch not so far from that where Gov. Coke Stevenson makes his home, is a senior for Texas this season.

In the first four games of the current season, he led the Southwest conference in total offense, having 538 yards for rushing and passing gains to lead the way. He was just behind his own teammate, Jackie Field, in running yards alone, and ranked third in the nation for his combined rushing and passing.

A major in physical education, who has played freshman football for the university and who has a year as squadman and a year as a letterman to show on his record, is 6'1" and weighs in this season at 190 pounds.

He is in the marine reserve and expects to be called into service as soon as he finishes his college work this spring, if not a little before.

A rope trick performer on the side, McKay is an actual cowhand. He lists his hobby as ranch work, and he follows it in the summer and whenever he gets up to Junction in the mesquites.

As a matter of fact, McKay was the player who attracted the attention of one of the bankers who had been attending a convention at the hotel where the Texas team put up while in Chicago where they went to play Northwestern earlier this year.

The little banker took one look at him and rushed off to find a couple of friends.

"Hey, Joe," he cried, "come here and look. Here's one of those Texas cowboys wearing his big hat, boots and jodhpurs."

His wisecracker friend, however, took one look at McKay's trousers, looked again at his hat, and quietly whispered in his ear:

"Them ain't jodhpur's brother; them's blue jeans."

## One-Armed Texan Right Guard Grid Coaches On University Of Tulsa Team

By BEN FUNK

TULSA, Oct. 21 (AP)—Rugged, red-haired Ellis Jones, University of Tulsa right guard, has only one arm but he couldn't be much harder to handle, opposition linemen say, if he had as many flippers as an octopus.

A lot of people were surprised, most of all Jones himself, when the quiet, modest Texan won a starting berth on the most powerful Tulsa football team of recent years.

But Coach Henry Frnk insists that he was entirely in his right mind when he gave Jones the nod over a field of half a dozen pretty good guard candidates.

Jones is very fast and has tremendous leg power," Frnk said. And he can block, kick, and is a good tackler.

Jones injured his right arm in a fall from a tree when he was 11 years old. Blood poisoning forced even him to amputate the arm near the shoulder.

One of his boyhood ambitions was to play football and he determined not to let the handicap stop him. He went out for football as a freshman in the Abilene, Tex., high school.

"Better not do it, kid," advised Coach Dewey Mayhew. "This is a rough game and you might get hurt."

But Jones couldn't be talked out of it. So, to keep him out of danger and out of the way, Mayhew assigned him to a scrub team where he had little chance for action.

However, the sober, determined youngster had no intention of remaining with the scrubs. Hours at a time, day after day, he practiced kicking, blocking and tackling and soon learned to snag a pass with the best of them.

When he was a junior, Mayhew promoted him to the first string and two years later he made the San Angelo, Tex., junior college team.

A report on Jones came to Frnk last fall from a scout who saw San Angelo play the Cameron Angies at Lawton, Okla. "That one-armed guy," said the scout, "was in their backfield all day."

Frnk was skeptical but saw it, nevertheless, that Jones was duly sold on the merits of Tulsa University.

And Jones soon sold himself to Tulsa when he arrived and donned a football suit.

SERIAL STORY PLAY BY PLAY BY PAUL DAVID PRESTON

THE STORY: Nancy Hale is winning Blythe Miller's affection. And a 7' boy, Pop Miller, has all but ruined a football game for the Lincoln Field ender pilots' team. Nancy, a pretty young widow, seems to have captivated Duane Hogan, ender football star whom Blythe loves. And Scooter upset Duane, on the way to a touchdown in a scoreless game, by running out on the field and causing Duane to fall in avoiding him. The cadets win the game through the generous act of connected Quarterback Norman Dana, who grabs the ball, feels the opposition, and they pass it to Duane for another try. This sends his stock up only slightly with Blythe, whom he wants to marry.

gotten it from Blythe. And, truly, Blythe had glowed before that heart fire. It was all very poetic and perfect just like Edwin Markham—and that far. But then Nancy had fallen in love with the boy Blythe herself had wanted. That "other" kind of love. "I wish he had written a sequel," Blythe whispered. "I wonder if he—if he could have continued glowing, even if that friend had stolen his sweetheart."

THE book disappeared before her eyes and Blythe was living, planning, rehearsing a campaign out in life. There's always something zestful about playing Cupid even when you yourself are involved and she felt a definite enthusiasm now. In the theater this evening, Norman had admitted his conceit, admitted it as a fault and tacitly said he yearned to overcome it. It had raised him high in her estimation—this new, deeper understanding of a cocky young man. It hadn't made her love him as he thought he wished her to—not that; but it made her know that some girl, somewhere, would be extremely lucky to get him. Just as any girl would be lucky to win Duane.

Norman is lonely, inside, and trying to hide his loneliness with smart talk and conceit. Hide it from himself! Pop said. . . Pop said it is a common way for lonely people to act. . . He said he would like to forgive them. . . and help them. "The truth is, Norman is lonely!" That thought struck her all at once. It bore out some things wise old Pop had said. She was almost whispering her thoughts again. "Norman is lonely, inside, and trying to hide his loneliness with smart talk and conceit. Hide it from himself! Pop said. . . Pop said it is a common way for lonely people to act. . . He said he would like to forgive them. . . and help them."

WE'LL WAIT 'LL THE OLD BOY GETS THAT PIPE GOING--

Canadian Man, 22, Aviation Instructor

CANADIAN, Oct. 21 -- Mr. and Mrs. Earl Lee Wilbur were in Canadian the first of the week for a brief visit with his parents. Mr. and Mrs. H. S. Wilbur. Earl Lee graduated with a B. S. degree last year from West Texas State college, Canyon, and in September, went to California where he secured a position in the main office of the Columbia Broadcasting system, studying music at the University of Southern California also. He has just completed a five-months course in the Airport Ground school, Hollywood, Calif., passing the U. S. government tests and has received a license to teach meteorology and navigation. Young Wilbur has accepted a position as ground instructor at the Riddle Aeronautical institute, Carlstrom field, Arcadia, Fla., where he will report for duty Friday of this week. This is one of the largest primary training centers in the United States. Usually, men under 24 years of age are not accepted for this position, but Wilbur's qualifications were exceptionally good and overcame the fact that he is only 22 this month. Earl Lee Wilbur has been a busy man this past year, studying music, taking a course in meteorology and navigation, doing a little instructing in the latter, and keeping up his seven hours a day at the Columbia Broadcasting office. Mr. and Mrs. Wilbur left Canadian Monday afternoon to spend that night with Mrs. Wilbur's parents, Mr. and Mrs. A. P. Dickenson in Silverton. Mrs. Wilbur is a graduate of WTS college and was secretary to Registrar Shirley there

Ickes Asked For Oil Ration Data

WASHINGTON, Oct. 21 (AP)—Senator Wiley (R-Wis) asked Secretary Petroleum Coordinator Harold L. Ickes for "specific factual data" to back up findings of the coordinator's office that "it is necessary to ration fuel oil in the Middle West." Wiley wrote Ickes that he had been advised by John Neukom, chief of the fuel oil branch of the OPA, that extension of rationing to the Midwest was prompted by the lack of transportation. "I am advised by a Milwaukee constituent that one national oil company has so much oil on hand that they have a barge lying at a Milwaukee dock with 250,000 gallons of oil for which they have no storage facilities," Wiley wrote. "Another Milwaukee office of a national oil company operating three barges apparently has a similar store of oil on hand. I am told, moreover, that virtually all the towns located on Lake Michigan are supplied all petroleum products by barge. "In what way does the present rationing order relieve the transportation shortage if these barges are tied up because their storage facilities are already taxed to the utmost?" Wiley protested fuel oil rationing for the Midwest in a recent letter to Neukom and said the reply "indicated that there is no actual shortage of fuel oil in this country at present." "I would appreciate," he asked Ickes, "as your earliest convenience the specific factual data on which you base your conclusion that it is necessary to ration fuel oil in the Middle West."
