### MAY TAKES STAND FRIDAY

#### New Evidence Shows He Intervened Twice for Soldier Son of Garsson

WASHINGTON—AP—The war department said today that Rep. May (D-Ky.) twice intervened with Gen. Dwight D. Eisenhower during the court martial of Capt. Joseph H. Garsson, son of a midwestern munitions maker under congressional investigation.

### Proration Given Credit for Texas Supplies of Oil

DENTON—AP—Col. Ernest O. Thompson of the Texas railroad commission today credited 10 years of strict proration and waste prevention prior to Pearl Harbor as being responsible for the state being able to supply four-fifths of the nation's wartime oil needs.

### Heirens Is Reported Indicted for Murder

CHICAGO—AP—A true bill charging William Heirens, 17-year-old University of Chicago student, with murdering Suzanne Degnan, 6-year-old daughter of a former OPA official, was reported today by the Cook county (Chicago) Grand Jury today.

### Political Trend Not Definite in Incumbent Losses

WASHINGTON—AP—The sudden rise in primary defeats of house incumbents may or may not be indicative of a trend to "kick the ass out."

### State Continues To Swelter Today

(By The Associated Press) Coastal breezes off the Gulf of Mexico were keeping Texas temperatures bearable today but most of the state continued to hit around the 100 mark.

### Governor Scores Teacher-Atheists

AUSTIN—AP—Contending that public school teachers have no legal right to teach atheism Gov. Coke R. Stevenson today said that a man who teaches atheism is teaching a subversive doctrine.

### Snyder: 'It's A Lot of Bunk'

NEW YORK—AP—A two-engine airplane roared out of fog shrouding New York City yesterday and narrowly missed striking the Empire State building.

### She Was Literally 'The Little Woman'

The younger generation is shouldering some of the domestic responsibility of Pampa, or so thinks L. P. Fort, manager of the local U. S. States employment service office here.

### Employers Urged to List Jobs To Help Vets

Job openings in Pampa are better now than they have been during the whole month of July, according to a report today from P. Fort, manager of the local United States employment service office.

### Truman's Decision Expected by 3 P.M.

WASHINGTON—AP—President Truman probably will state whether he will sign or veto the OPA revival bill at a news conference at 3 p. m. (CST) today.

At the time of a White House announcement to this effect, the bill had not reached Mr. Truman. Although passed by congress, it still had to go through the hands of the speaker of the house and the president of the senate for their signatures.

It was expected to get to the White House soon after noon. Presidential Press Secretary Charles G. Ross told reporters that the President's action on the legislation, approved early today by the senate, will not be announced in advance of the news conference.

The decision, Ross said, will be accompanied by a message to congress in explanation of his actions.

If the President signs the bill, Ross said, he will name the three-member price control board it provides "very promptly."

Ross would not forecast the President's action, although other White House officials say privately and House Democratic Leader McCormack has said publicly, that he will sign the measure.

Except for rents many of the agency's wartime powers will be curbed or removed.

But on Capitol Hill, virtually no one expressed any real doubt that the President will sign the extension bill which the senate passed a few minutes after midnight, 53 to 26, and sent to the White House.

The house previously had approved the measure, 210 to 142.

When signed by Mr. Truman, the bill automatically will re-establish the control of the price ceilings which lapsed July 1. OPA's plans are to follow quickly with a number of temporary adjustments on prices, pending calculation of new and higher ceilings required under the measure.

The bill gives OPA life through next June, but it prohibits restoration of price controls at least until August 20 on such major market basket items as meat and dairy products, as well as on grains, petroleum and tobacco.

Besides diverting OPA of much of its authority over prices of manufactured goods, the bill in the case of farm commodities gives all authority to the secretary of agriculture and ultimately to an independent three-man board. This board is to be named by the President and confirmed by the senate.

The legislation prohibits restoration of price controls before August 20, on meats, dairy products, eggs, poultry, petroleum, tobacco, cottonseed and soybeans, and their products. It also bans ceilings until at least that time on grain and livestock and poultry feeds made from grain.

The control board could rule by August 20 whether or not ceilings should be re-established on meats, dairy products, grains, cottonseed and soybeans. If it failed to act, ceilings would be restored automatically.

On the other hand, ceilings could not be re-invoked even after August 20 unless the board gave its permission.

The bill also sets up a new pricing standard for fixing ceilings of manufacturers, producers and processors. These ceilings would reflect 1940 average industry-wide prices on each product, plus cost increases which have occurred since that time. Under the old law, 1936-39 was the price base.

Another provision requires OPA to restore the pre-war profit margins of dealers handling such so-called "price base" goods.

Ex-Marine Being Held for Slayings

SAN BERNARDINO, Calif.—(AP)—Trial continues today in the case of Emmett E. Patterson, 30, ex-marine, accused of bludgeoning to death his sister and brother-in-law, by burying their bodies in shallow desert graves in California and Arizona.

Yesterday two doctors testified that the man's skeleton found near Ludlow, Calif., showed fractures from blows on the back of the head and the skull of a woman's body found near Kingman, Ariz., showed multiple fractures from blows with a narrow flat-edged instrument.

However, the state failed to identify the dead woman.

The state charges that Patterson killed his sister, Alice, 37, and her husband, William E. Cole, 41, formerly of Amarillo, Texas, while the trio was en route to Los Angeles. Missing the state contends is \$7,000 which Cole received from sale of a Texas hole.

Marines Are Released Unharmed by Chinese

TIENTSIN, China—(AP)—Seven U. S. Marines who were captured July 13 by some 80 armed Chinese communists were released today after a special executive headquarters trustee team, the marine commandant announced today. They were unharmed.

The marines were seized by the Chinese at a small village 22 miles southwest of the port of Chingwangtao, where they had gone to obtain ice.

Marine headquarters for the first time described the captors as communists.

Name of the marines were not made public immediately.

THEY GO 'ROUND TOGETHER—Having fun on the merry-go-round at New York's Coney Island are 18-year-old Shorty Sprouse and his 79-year-old wife, Mattie, of Cat Hollow, Ky., who said the roosters down home don't come as big as the Chanticleer on which they're riding.

### Battleship Arkansas Is Atomized by Bomb

#### MASSIVE WAVES FROM BLAST CRUSH SHIPS' STACKS, CHARGE CLOUDS

By HOWARD BLAKESLEE  
ABOARD USS APPALACHIAN, BIKINI LAGOON, July 25—(AP)—The first under water atomic bomb exploding with an awesome roar that thundered upward into a beautiful cloudy gyser, destroyed the battleship Arkansas and sank the huge old aircraft carrier Saratoga and seven lesser vessels today.

First to go in the mighty plutonium blast that was the second chapter of the army-navy "Operation Crossroads" was the old 25,100-ton battleship Arkansas. She and two small craft, a yarder and a tank-landing ship, simply disappeared in the pink-fringed mist at 8:35 a. m. (3:35 p. m., CST, Wednesday).

Seven hours and 32 minutes later, at 4:07 p. m., the 32,000-ton Saratoga, war-worn old carrier, settled protestingly to the bottom of the Bikini lagoon. Her pro nosed upward as if her stern were resting on the bottom, then disappeared.

A little later five submarines of the six that had been submerged in the lagoon were found to be resting on the bottom. Whether they were crushed or had sunk through some defects in their air lines was not known.

Probably the most powerful man-made force ever loosed—perhaps even stronger than the bomb that razed most of Nagasaki last August—the atomic bomb did not immediately sink as many of the 75 target vessels as observers had expected.

The true extent of the damage

### Atom Bomb Board Of Civilians Is Urged by Solons

WASHINGTON—(AP)—Senate and house conferees agreed today that the proposed atomic energy control commission should be composed exclusively of civilians.

They agreed also that the director of the division of military application should be a member of the armed forces.

The agreements, announced by Senator McMahon (D-Conn.), head of the senate conferees working with a house group to adjust differences over atomic energy legislation, represented a compromise.

The house had insisted that at least one, and not more than two, members of the commission should be members of the armed forces. The senate had insisted that all be civilians.

However, the house won its argument that the director of military application should be a military man instead of a civilian as recommended by the senate.

The decisions of the conferees, however, are not binding on the senate and the house and must be approved by both chambers before becoming effective.

No agreement was reached over the controversial patent section and a provision in the house bill authorizing the President to direct the atomic energy commission to permit the armed forces to produce atomic weapons.

McMahon told reporters the conferees would meet again this afternoon in an attempt to reach final agreement.

### Storm Causes Panic In Belgian Capital

BRUSSELS—(AP)—A violent thunderstorm caused near panic last night in parts of Brussels, where some persons linked it up with the Bikini atomic bomb test.

Lights were put on and neighbors held excited conversations until darkness finally on the day or night—and everybody went back to bed.

# Daughter Of Mine

By R. Louise Emery

Copyright, 1946, NEA SERVICE, INC.

**THE STORY:** Cecily's wedding is over at last. But never will I forget the cruel thing I did to her. How can I explain to Corinna and Robert, that they—my daughter and my son—have been cheated all through the years for Cecily's sake? And that she wasn't worth it? Della? Della hates me for what I've done to Cecily's life.

Della took her out of the game for fear her dress would be torn. Cecily started to cry and I bit down hard on my lip for fear of saying what was in my heart.

**CHAPTER II**  
YOU have to know Della before you can understand Cecily. Della always had a fair cut of the world's goods, but some peasant strain in her still remembers a generation when a penny or a crust of bread meant life or death. She is the most unpredictable mixture of parsimony and pound-foolishness I've ever met. She resigned from the Women's Club when they raised the price of their monthly luncheons from thirty-five to fifty cents. She said she couldn't afford to pay that much. She grieved for weeks that time the P-T-A. asked her to donate two cakes for their sale to raise money for a Christmas party "honoring" the Marlin district children.

Della told me exactly how much she was out of pocket for those two cakes—and she figured in the amount of electricity used in the baking, and her time on a union wage scale. Then, when the cakes were auctioned off they sold for less than Della figured they had cost her—and of course the P-T-A. pocketed the money.

Della was so mad that she gave a party from across Marlin street, just to show the P-T-A. up. She was afraid to give it in her home because the kids might smash some of her lamps or scratch her furniture, so the youngsters came to our house.

Della had ordered ice cream in middle and two huge decorated cakes and there was an expensive toy for each guest as a favor. Of course there was a Christmas tree—a towering silver spruce, since the P-T-A. had bought a mere cheap pine for their party.

But in spite of all its trimmings the affair would never have gotten started if it hadn't been for Robert. Even our most modestly dressed children from the hand-to-mouth district, and the beautifully appointed table in the dining room made them ill at ease and somehow resentful. Cecily, eight years old, looked like the Sugar Plum fairy in a short frock that was all pink silk net ruffles and pale green satin ribbons. No one else—certainly not Corinna—wore anything remotely comparable to it.

THE kids from across Marlin street wearing their scuffed shoes and pitiful patches, took one wild look around them, read the condescension on Della's countenance, and huddled with their cohorts near the door, planning to make a bolt for it. Only Robert's entrance with an armful of wood for the fireplace circumvented them.

They all knew Robert. He had organized clubs for their after-school hours and had talked the city council into buying a playground for them. Before long he had all of Della's guests interested in the games he had planned for them. E. on Cecily got in on London Bridge and had a hilarious time until the moment arrived for the final tug of war. Then Della took her out of the game for fear her dress would be torn.

Cecily started to cry and I bit down hard on my lip for fear of saying what was in my heart. Val saved the moment for us. He extended his hand to Cecily. "Come on," he invited, "we'll work a jig-saw puzzle in the game room Mr. Wynne lets us use."

Della opened her mouth to object as they started off together, but Robert called her to assist him with a new project and between us we kept her so busy all afternoon that Cecily was given a measure of freedom. Robert was not as unobtrusive as he sometimes seemed. Thanks to Robert's talents the party was a masterful success and the children were grateful. But although we told them that their gifts and goodies had come from Della, the youngsters all thanked Robert and me when the party was over. Della didn't like it and when an item appeared on the social page of the town newspaper the next day beginning, "Mr. and Mrs. Robert Wynne were hosts at a children's Christmas party in their home yesterday"—and listing Della and Cecily among the guests, she was furious.

SHE telephoned me immediately and accused me of having given the information to the paper. "Good heavens, Della, I never thought of such a thing," I said. "It's mighty funny!" Della declared. "You and Robert were taking credit for everything all afternoon—I suppose it would do Rob-

ert some good around town if people thought he had enough money to give a party like that."

"Don't be childish, Della," I wanted to shake her. "Robert's position doesn't depend on the social page."

"Who else do you think would be interested in putting in a notice?" she demanded.

"Probably the mother of one of the children," I said. "Wanting to see her youngster's name in print."

"Then you certainly must have given the mothers the impression that you were paying for everything," Della insisted.

"You sent the invitations," I reminded, tempted to sism the receiver down.

"Have you called the paper to tell them what a lamer they made?" Della asked. "That's the least you could do if you really wanted to be honest and square about it."

Anger welled up in me until the blood sang in my ears. "What difference can it possibly make?" "It makes a difference to me," Della retorted. "I wanted Myrtle Ralston to see that notice."

"Then YOU gave it to the paper," I said.

"I didn't give it the way it was printed," Della denied angrily. "Somebody evidently called in and had my information changed."

"Della," I tried to control my exasperation. "Nobody else called in. Reporters get so many stories in a day that they can't just remember all the details. Somebody wrote the story in a hurry, saw that the party was held at our house and assumed—"

"Well, I'm good and burned up about it!" Della said. "I spent all that money just to show Myrtle Ralston that I don't have to raise money from other people's cakes when I want to throw a party—and you get all the credit for it."

### Agriculture Is First in Group Accident Hazards

More deaths occurred last year in agriculture than in any of the other major industrial groups, County Agent Ralph Thomas pointed out today in a discussion of National Farm Safety week now in progress. Special bulletins have been received by the Gray county agent urging active participation in promoting safety on the farm during safety week and throughout the year. Campaigns to promote safety on

### Man Pleads He Is Innocent

HOUSTON—The Harris county grand jury will convene for the third time tomorrow morning in its hearing on the roadside slaying of Roy V. Jones, Corpus Christi printer, last Saturday. Yesterday, Thomas P. Sawyer, Houston painter, was released under \$5,000 bond to await action of the grand jury. Sawyer has been charged with murder in connection with the slaying. A new witness, Milton M. Morgan, testified yesterday that he lived "about 150 or 200 feet" from the scene of the shooting. He said he heard a shot the night of the killing and a few minutes later two men came to his house and told him someone had been shot. Sawyer has protested his innocence since he was arrested. He says he saw the wounded man on the road and stopped to give first aid.

### VFW Radio Series To Be Aired Here

Beginning tonight at 7 the Veterans of Foreign Wars will sponsor a weekly program over Radio Station KPND in recognition of local veterans and for their benefit. O. B. Simms will be in charge of the 15-minute broadcast each week and various programs are being planned, it was announced.

**THE GREATEST BAKING POWDER IMPROVEMENT IN 50 YEARS!**

Better Baking 3 Ways!  
 Improved WITH... **FOOD CALCIUM**

**1. BAKINGS LOOK BETTER!**  
 THE FOOD CALCIUM in the new KC permits more even distribution of the fine, active ingredients throughout the baking powder. This promotes more uniform action—gives bakings the light, smooth texture and inviting rich appearance everyone enjoys.

**2. BETTER TASTE!**  
 FOOD CALCIUM in KC prevents the "overpowering" of the rich natural flavor of other ingredients in your bakings. There's no bitterness or "Soda Taste" when you use the new KC.

**3. BETTER FOR YOU, TOO!**  
 KC makes everything you bake with it a valuable source of FOOD CALCIUM—adding 2 to 5 times more FOOD CALCIUM than the fresh milk used in a baking, depending on the recipe. Thus KC joins milk as a fine source of this vital food element.

At Your Grocer's Now!

**Scarcity Is the Atomic Age Keynote**

By RUTH MILLETT  
NEA Staff Writer

"Atomic Age Has First Birthday," reads a newspaper headline. In case we've confused the Atomic Age with progress, let's look at the American family and at how it is living in this Atomic Age.

The family can't find a house to rent, and its members are called "crazy" if they start to build. And no wonder. Building may be held up for months because of some necessary item, like flooring, which just can't be gotten.

If there's a new baby expected, Mama is tearing her hair (and tearing up full-sized bed sheets) because she can't buy baby gowns, crib sheets, etc.

The chances are that Papa has not been able to buy a white shirt since his discharge from the service.

The family can't get a new car. Not even a tricycle for Junior can be found.

Mama is going stockless—not by preference, but by necessity.

There's butter—but it's too expensive to eat.

**VACATIONING IS A GAMBLE**

The folks have earned a vacation, but they're told they had better stay home if they want to be sure of a place to sleep at night.

There are plenty of cotton play-suits for Mama (as if she had time to play, these days), but no sleeping garments for the small fry.

With money and a long shopping list in her handbag, Mama is urged to go on a buyer's strike.

It's great, isn't it—this Atomic Age which is getting us nowhere fast?

The real name of Duke Ellington, orchestra leader, is Edward Kennedy Ellington.

**SOCIETY**

**Kit Kat Klub Has Social Recently**

Miss Naneen Campbell entertained members of the Kit Kat Klub with an ice-cream social in her home, 1330 Christine, Tuesday night. Fifteen club members and Mrs. L. L. Sone, club sponsor, were present.

The Seven-Eleven, brother club to the Kit Kats, were guests at a swimming party Monday night at the local pool. About 30 attended the social.

Miss Joan Sawyer, club president, presided at the meeting Tuesday, with the following girls present: Jean Pratt, Kilda Burden, Zita Kennedy, Donna Neustiel, Ann Mosley, Arvilla Patterson, Pat O'Rourke, Barbara Walters, Joan Applebay, Edwina Lee Emerson, Beverly Baker, Gloria Jay, Virginia McNaughton, Mrs. Sone and the hostess.

**Mickey Joe Caldwell Celebrates Birthday**

Mickey Joe Caldwell, son of Mr. and Mrs. J. B. Caldwell, celebrated his sixth birthday anniversary at his home, 318 Zimmer St., Tuesday with a party.

Cake decorated with white icing and pink candles and pop were served to Larry Franklin, Patsy and Jerry Mack Pritchard, La Verna Follis, Ronald McDaniel, Sue and Derrell Franklin, Wade and Wanda Lunsford, Larry Meeks, Ned Follis, Jerry and Myrnia Sue Higginbotham, Patricia S.roup, Carlene and Penny Chambliss and Patricia Caldwell.

**Business, Professional Women Are Entertained At Picnic in City Park**

Members of the Business and Professional Women's club were entertained with a picnic in the west part of the City Park Tuesday evening.

Plans for the picnic were arranged by Mrs. Dee Day and other members of the social committee. The picnic supper was provided by the members.

At the conclusion of the meal, Mrs. Tommy Stone and Mrs. Bertha Chisum were presented with individual birthday cakes made by Mrs. Ann Chapman, Mrs. Stone and Mrs. Chisum. Mrs. Stone and Mrs. Chisum were the members present having birthdays in July. Mrs. Chapman read their horoscope.

Members and guests present were Mesdames Wyndall LaCasse, Ellic LaCasse, Margaret Dial, Laura Belle Corneliou, Don Egerton, Tommie Stone, Lillian Jordan, Ruth Johnson, Mildred Lafferty, Ann Chapman, Dee Patterson, Lucille Foster, Dee Day, Dorothy Ward, Viola Clendinning, Evora Crawford, Anna Jo Ealor, Bertha Chisum, Clara Lee Shewmaker, Julia Pagan, Misses Gladys Romero, Jean Corneliou, Inez French, Neva Burgan, Florence Merriam, Muriel Kitchens, Maggie Hollis, Molita Kennedy, Leona Parker, Patsy Dial, Judy Neslage, Lynn Corneliou, Barbara Jean and James Epps, Janis Foster, and Mrs. Eva Ferrill, Mrs. Audrey M. Fowler, and Mrs. Jean Yeary of Borger.

A large tin ore deposit in Nigeria, Africa covers an area of nine thousand square miles.

**Social Calendar**

**FRIDAY**  
Ruth class at the First Baptist church will have a coffee and book review at the home of Mrs. Bob Triplehorn, 1301 Charles at 2:30 a.m. All members and members in service are invited to be present. A nursery will be provided at the church.

Sub Deb club will have a slumber party in the home of Miss Joan Thompson.

**SATURDAY**  
Ester club will have a breakfast in the Hillson Coffee shop at 8 p.m. All members are asked to be present.

**TUESDAY**  
Kit Kat Klub will meet in the home of Miss Naneen Campbell, 1330 Christine at 7:30 p.m.

Las Cressas club will meet with Miss Jacqueline Nessel, 323 N. Frost.

**Party Compliments Birthday Anniversaries**

Billie Duane Carter and Leo Mathus were complimented with a birthday party Tuesday afternoon in the home of Mrs. W. A. Carter.

Games were played and pictures were made during the afternoon.

Refreshments of ice cream and cake were served to Phyllis Gale Cisco, Nickey Lewter, Geneva Gurley, Babe Barrett, Edway Cotton, Bill Gurley, Francis Brown, Rita Brown, Carmelita Hogan, Colleen Mathus, Danny Mathus, Jimmy Brown, Bobby Brown, Wayne, Nadine, Shirley, Maxine and Kay Don Slater, Adell Cooper, Maralene West, Patricia West, Gale Karen Bond, Lonnie Nichols, Gale Bond and Jimmy Bond.

Mesdames J. H. Nichols, Sam Caldwell, Gus Mathus, C. B. Bond, Kenneth Bond, S. H. Godfrey, Sam Bond, Bob Godfrey, Welma Lee Mathus and Janice Carter.

Six hundred Haitians fought for American independence at Savannah in 1779.

She handles most of the farm's finances herself. She and her son grow most of the food they need and trade some of their produce at the local store for the other things they want. The farm's chickens lay four or five dozen eggs a day, and the Johnsons own eight head of cattle and two horses.

When Mrs. Johnson first came to this country from a farm in Orstadarna, Sweden, with her parents, three sisters and a brother, the family lived in a five-room farmhouse on the same property that is farmed by the Johnsons now.

In those days they walked to the nearest town to get flour from the mill, and carried it home on their backs.

In the old days, too, about 30

**90 Year-Old Does House, Farm Jobs**

By MARY COLE  
ISANTI, Minn.—Mrs. Christine Johnson, at the age of 90, still does most of her own work on her farm, and still enjoys the job.

The farm, pretty much as it was when she came to this country from Sweden in 1873, has neither electricity nor running water. She likes it that way. In fact, when electric power is brought into the area, probably this year, Mrs. Johnson isn't going to take advantage of it.

"I don't know what I'd want it for," she says. "I've gotten by in other years without it, and I don't need it now."

Mrs. Johnson, who speaks only Swedish but understands and reads English, lives on the 110-acre farm with her son, Alben. He does the actual farming, but Mrs. Johnson does all the woman's work on the place. That includes making bread twice a week, milking 3 cows, feeding calves and chickens, churning butter, spinning yarn and making her own clothes. The calves are fed with a special gruel she makes herself.

Once a year her daughter comes up from Minneapolis to give the house a thorough spring house-cleaning. Although Minneapolis is only a half hour's drive from the farm, Mrs. Johnson has not been to the city for ten years. But she does get around to visit her old friends in neighboring towns. Last July she entertained a group of them at her home on her ninetieth birthday.

Most of her contemporaries have moved from their farms into towns in the area. Mrs. Johnson's two children have urged her to give up her farm and move into the city. But she has always refused.

Even at the age of 90, she feels she must still do her part—"especially now that food is needed abroad."

threshers gathered at the place at harvest time. Those were the days of wood-burning tractors when the threshers stayed all night, ate breakfast at 5:30 in the morning, coffee at 7, dinner at 12, coffee again at 3, and a second dinner before sundown.

The churning, then, was done with a dasher, but now Mrs. Johnson has what she calls a modern churn that is turned with a handle.

The Johnsons' present house was built in 1910. It has eight rooms for the 90-year-old woman to keep clean. One of the rooms is a best parlor that is opened up only for company. Covering the entire floor is a plaid rug that Mrs. Johnson made on a loom about 50 years ago.

She also uses the room to store scores of pillows, blankets and rugs that she makes in her spare time.

There are about 17 species of albatross.

Applications must be filed by the close of business August 19. Name of applicants will be announced later, probably on August 22.

Zane Grey published his first novel himself.

# Richardson's 10th-Inning Homer Wins for Oilers, 2 to 1

## White, Seitz On North All-Stars

With the announcement that Grover Seitz will manage and Foster White will be one of the four hurlers, Pampa will be represented on the North team in tomorrow night's all-star game at Lubbock by six players.

Seitz was named yesterday on a vote of the players of the North team. White, who has won 13 games and lost 7 this year, was chosen to replace Gilbert Archuleta, Albuquerque, who will be unable to participate.

Other Oilers named to the all-star squad were Bill Garland of the Chinquapin staff with a record of 16 wins and six losses, Al Zigelman, chosen as reserve catcher, Jack Riley, chosen to play in right field, and Earl Harriman, shortstop.

The selections of players were made by managers, who cast their ballots two weeks ago.

South players named Bob Seeds, Amarillo Gold Sox boss, as manager.

In everything except fielding, the South will have the edge in tomorrow night's contest, to be held at the Hubber park in Lubbock at 8:30 p. m.

According to Tom Miller, league statistician, the South will have a team batting average of .328 to the North's .321, as of July 7, while South hurlers boast 41 victories and 15 losses to the North corps' 38 wins and 18 losses.

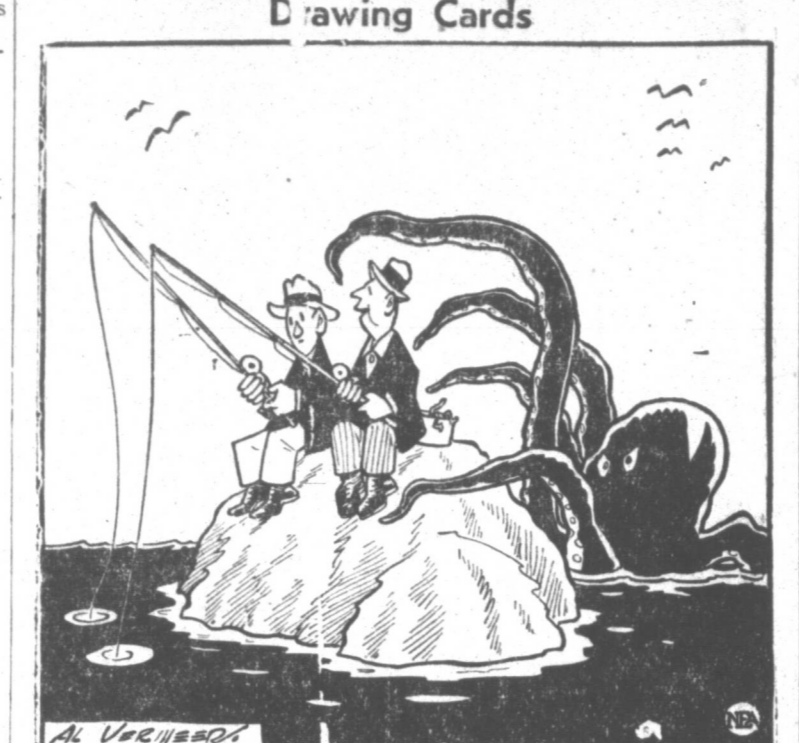

The line-ups, with batting averages of July 1 in parenthesis.

**NORTH**  
Zigelman, Pm, catcher (.244).  
Clawitter, Bg, catcher (.292).  
Goldberry, Alb, first base (.274).  
V. Gilchrist, Bg, second base (.339).  
DeLaGarza, Alb, third base (.312).  
Harriman, Pm, shortstop (.315).  
Bauer, Cl, left field (.306).  
Robinson, Alb, center field (.320).  
Riley, Pm, right field (.355).  
Decker, Bg, utility (.327).  
Woldt, Cl, utility (.325).  
Garland, Pm, pitcher (12-6).  
White, Pm, pitcher (10-6).  
Blackwood, Cl, pitcher (8-4).  
Hair, Bg, pitcher (8-6).

**SOUTH**  
Miller, Bg, catcher (.289).  
Lamprecht, Am, catcher (.261).  
Bauman, Am, first base (.339).  
Gross, Alb, shortstop (.327).  
Thomas, Ab, third base (.343).  
Satch, Am, shortstop (.299).  
Sullivan, Am, left field (.320).  
Krause, Ab, center field (.329).  
Carr, Bg, right field (.370).  
Sullivan, Bg, utility (.381).  
Seppelton, Im, utility (.359).  
Evans, Am, pitcher (13-4).  
Henz, Bg, pitcher (8-2).  
Werbowski, Alb, pitcher (13-3).  
Forrest, Bg, pitcher (4-8).

"You get act in when you least expect it."

## Headliners Fall In Public Links Meet at Denver

**DENVER**—(AP)—The headliners of the qualifying rounds had wilted under the pressure of match play as the national public links golf tournament moved dizzily into the third round today.

Medalist Jimmy Clark of Long Beach, Calif., who qualified with 134, lowest medal score ever shot in a U. S. G. A. tournament, was knocked out in his first match by Marshall Holt, a teammate he had always beaten easily on Long Beach's home courses.

Into the discard with Clark went the next six lowest medal shooters—Robert Silvestri of San Francisco; Ralph Hall of Oakland, Calif.; Buck Johnson of Tulsa, Okla.; Tal Smith of Alameda, Calif.; Carl Degern of Durham, N. C., and Jack Koenecker of Denver.

The defending champion, William Welch of Spokane, Wash., fell too.

Some of the first-round conquerors of the hotshots were beaten themselves in the second round and except in a few instances the 16-man third round bracket was populated by a bunch of Joes who went virtually unnoticed through the first days of play.

There were exceptions, like William E. Doll, Louisville, Ky., shipping clerk who went to the semifinals of the last public links tournament at Spokane in 1941 before losing to Welch. And Simley Quick of Los Angeles, who shot a course record 64 at Park Hill here last week in a warm-up for the big event.

## Stanolind Captures Another League Title

Stanolind, the leading team in the Industrial softball league, edged the Schafer nine 8-7 last night to increase its lead over second-place Montgomery Ward.

Bash-Ross and Alpaico played to a 0-0 tie in the only other scheduled game. The tie was called at the end of seven innings on account of darkness.

Leders Jewelry team has withdrawn from the league and a replacement will be selected from three applicants at a league meeting in the city court room Sunday afternoon at 1:30.

Frank Leder, who is chairman of the league because of an argument between members of his team and Skelly-Schafer's recently during a game which Leders won, 11-7.

## Inquest To Be Held Today Into Shooting

**LAS VEGAS, N. M.**—(AP)—An inquest will be held today in the death of Percy Ralph Perry, 42, of San Angelo, Texas, who was shot to death yesterday at the mountain resort of El Provenir, west of Las Vegas.

District Attorney Jose E. Armijo said Perry was shot in the chest with a .22 caliber rifle as he sat at a table with Mrs. Frank W. Kerchline of San Angelo.

No charges have been filed.

Armijo said the woman's estranged husband, 40, of San Angelo, Texas, arrived at El Provenir while Perry and Mrs. Kerchline were horseback riding. He inquired about "my friend Perry" and waited until the couple returned.

Armijo said Perry and Mrs. Kerchline were seated at a table when Kerchline entered Perry's cabin. The shooting followed and Perry died 20 minutes later.

Perry's wife was reported living in Detroit. Perry was recently discharged from the army. He served as a major at San Angelo.

## Pampam Serves With Tokyo Army Forces

James O. Tillman, Pampa, is now serving with the First Cavalry division in the present occupation of Tokyo.

Overseas since February, 1945, he saw action on Okinawa with the 27th Infantry division. He entered the army August 8, 1944, and took basic training at Camp Hood, Texas. Prior to service, he was a farmer. He is a former student of Groom high school. His mother, Mrs. Hattie Lee Tillman, resides here.

## Department Probe Asked at Houston

**HOUSTON**—(AP)—An investigation of the Houston fire department was asked yesterday by the citizens charter committee.

The politically influential committee presented a resolution to the city council, accompanied by a report of a survey made recently by the national board of fire underwriters.

"This is a shocking exposure of conditions in the fire department endangering the lives and property of our city," the resolution said.

City Manager J. M. Nagle deferred action until the return of Fire Chief Homer Lyles, who is attending a fire chiefs' convention in Cleveland.

## 3 Transports Are To Arrive Today

(By The Associated Press)  
Three transports are scheduled to arrive at San Francisco today with more than 3,500 service personnel.

Ships arriving:  
At San Francisco—President Hayes from Pearl Harbor, Talladega (APA 208) from Tsingtao, Mariposa from Australia and Pearl Harbor.

## Garland Notches 16th Win, Bais in First Pampa Score

By SCOTT RAFFERTY  
News Sports Editor

Two left-handers—Bill Garland and Virgil Richardson—combined their talents last night to give Pampa's Oilers a 2-1, 10-inning thriller over the Borger Gassers, whom they had beaten the previous night, 20-4.

Richardson, southpaw first baseman, slammed a home run over the right field fence in the 10th inning to break a 1-1 tie and give Garland his 16th victory of the season.

## Houston Checks Dallas Drive on Second Position

By The Associated Press

The Dallas Rebels slipped back into third place last night after the seventh inning when Bob Meyer hit his 16th home run of the season to tie the game 1-0.

In the meantime, Garland and Buck Tinsley, Gasser hurler, were tussling in as tight a pitching duel as has been seen here since Foster White and Knowles Piercey of Clovis tangled here in a game that saw White give up three hits and Piercy give up two with Pampa winning the game 1-0.

Garland whiffed seven batters and walked only three, while Tinsley, struck out six and walked five. Each gave up six hits.

Gordon Nell, another West Texas-New Mexico league veteran, was the Borger hero of the game. His eighth inning home run over the left field fence gave the Gassers a chance to get back in the ball game.

Garland walked the second man to face him in the first inning—Vurdon Gilchrist—but a fast double play from Earl Harriman to R. C. Otey to Richardson on Decker's ground ball ended the threat.

Harriman slapped a double in the second inning, but died on base, the first of 11 Pampa batters to be left on base.

Manager Ted Clawitter of the Gassers singled and stole second in the second but likewise succumbed.

Pampa hit again in the last of the second, when, after Fortin had grounded out, Range singled, Al Johnston was safe on a fielder's choice, with Range out and Zigelman walked, Garland, however, flied out for the third out.

Larry Gilchrist reached first in the third when Otey dropped a fly ball but died on base.

In the Pampa half, Fortin led off with a single, Range grounded out with Fortin taking second on the out and the latter went to third on a passed ball. Johnston grounded out, Zigelman walked and Garland singled to score Fortin. Otey flied out.

Neither team threatened again until the tenth. Vurdon Gilchrist walked and Decker hit into a double play, Otey to Harriman to Richardson. Nell then slapped his homer over the left field fence.

Although Range doubled, Pampa was unable to tie the eighth.

In Borger's half of the ninth, Cox flied out to left field, Johnston popped up to the catcher and Dosssett struck out.

In Pampa's ninth, Garland struck out. Otey grounded out third to first and Harriman flied out to center field.

Leading off the tenth, Tinsley flied out to center, Vurdon Gilchrist hit a ground ball toward the third base line that rolled foul. After a heated argument, Gilchrist took his place in the batters box and promptly struck out. Vurdon Gilchrist then grounded out.

In the last of the 10th, Riley went out on a long fly to center and Richardson, with one ball and two strikes on him, hit the pellet over the deep right field fence for the game.

The two teams will play here again tonight at 8:30. No teams are scheduled to play tomorrow as the all-star game is to be played in Lubbock.

## Smits Heads AP Sports Division

**NEW YORK**—(AP)—Appointment of Ted Smits as general sports editor of the Associated Press, with headquarters in New York, was announced today by Kent Cooper, executive director.

Smits leaves the post of chief bureau chief in Detroit to undertake his new duties August 1. He joined the AP staff at Los Angeles in 1934 and has broad experience as a news writer and executive.

Smits succeeds Robert J. Cavanaugh, who resumes his work as executive representative with headquarters in New York.

Historians estimate that gloves were in use 3,000 years ago.

The whale shark is the largest living fish.

## Dodgers Regain First Place, Beating Cubs

By JOE REICHLER  
AP Sports Writer

Those who have started to count the Brooklyn Dodgers out of the National league pennant race because of their recent near-disastrous road trip, have done so without taking into account Brooklyn's amazing home record at Ebbets' field where they still have 38 games to play this season.

Forced to share the National league's top berth with the St. Louis Cardinals for four days after leading the parade for more than two months, the Dodgers wasted little time upon their return home yesterday to regain undisputed possession of first place.

This they did by the simple medium of notching their 30th victory in 39 games, at the expense of the third place Chicago Cubs while the Cardinals were thrashed by the New York Giants.

The Dodgers eked out a brilliant 2-1 triumph over the Bruins, principally on the fine hurling of Southpaw Joe Hatten.

The Giants shoved the St. Louis aggregation one full game behind the Brooks when they beat the Cards for the 9th time in 14 meetings this season by a 3-1 score on the strength of Johnny Mize's 20th home run in the ninth inning with one mate aboard.

In the American league, the pace-setting Boston Red Sox maintained their 1 1/2 game margin over the runner-up New York Yankees by taking advantage of a pair of mis-cues to defeat the Chicago White Sox 4-1.

The Yankees kept pace with the Red Sox by coming from behind to defeat the St. Louis Browns, 5-3.

Cleveland's Bobby Feller racked up his 18th win and seventh shutout of the campaign in pitching the Indians to a 1-0 triumph over the Philadelphia Athletics. The tribe fireballer fanned nine to raise his season strikeout total to 220.

Bob Newman, veteran Washington right-hander, duplicated Feller's feat

## Houston Checks Dallas Drive on Second Position

By The Associated Press

The Dallas Rebels slipped back into third place last night after the seventh inning when Bob Meyer hit his 16th home run of the season to tie the game 1-0.

In the meantime, Garland and Buck Tinsley, Gasser hurler, were tussling in as tight a pitching duel as has been seen here since Foster White and Knowles Piercey of Clovis tangled here in a game that saw White give up three hits and Piercy give up two with Pampa winning the game 1-0.

Pampa hit again in the last of the second, when, after Fortin had grounded out, Range singled, Al Johnston was safe on a fielder's choice, with Range out and Zigelman walked, Garland, however, flied out for the third out.

Larry Gilchrist reached first in the third when Otey dropped a fly ball but died on base.

In the Pampa half, Fortin led off with a single, Range grounded out with Fortin taking second on the out and the latter went to third on a passed ball. Johnston grounded out, Zigelman walked and Garland singled to score Fortin. Otey flied out.

Neither team threatened again until the tenth. Vurdon Gilchrist walked and Decker hit into a double play, Otey to Harriman to Richardson. Nell then slapped his homer over the left field fence.

Although Range doubled, Pampa was unable to tie the eighth.

In Borger's half of the ninth, Cox flied out to left field, Johnston popped up to the catcher and Dosssett struck out.

In Pampa's ninth, Garland struck out. Otey grounded out third to first and Harriman flied out to center field.

Leading off the tenth, Tinsley flied out to center, Vurdon Gilchrist hit a ground ball toward the third base line that rolled foul. After a heated argument, Gilchrist took his place in the batters box and promptly struck out. Vurdon Gilchrist then grounded out.

In the last of the 10th, Riley went out on a long fly to center and Richardson, with one ball and two strikes on him, hit the pellet over the deep right field fence for the game.

The two teams will play here again tonight at 8:30. No teams are scheduled to play tomorrow as the all-star game is to be played in Lubbock.

## Houston Checks Dallas Drive on Second Position

By The Associated Press

The Dallas Rebels slipped back into third place last night after the seventh inning when Bob Meyer hit his 16th home run of the season to tie the game 1-0.

In the meantime, Garland and Buck Tinsley, Gasser hurler, were tussling in as tight a pitching duel as has been seen here since Foster White and Knowles Piercey of Clovis tangled here in a game that saw White give up three hits and Piercy give up two with Pampa winning the game 1-0.

Garland whiffed seven batters and walked only three, while Tinsley, struck out six and walked five. Each gave up six hits.

Gordon Nell, another West Texas-New Mexico league veteran, was the Borger hero of the game. His eighth inning home run over the left field fence gave the Gassers a chance to get back in the ball game.

Garland walked the second man to face him in the first inning—Vurdon Gilchrist—but a fast double play from Earl Harriman to R. C. Otey to Richardson on Decker's ground ball ended the threat.

Harriman slapped a double in the second inning, but died on base, the first of 11 Pampa batters to be left on base.

Manager Ted Clawitter of the Gassers singled and stole second in the second but likewise succumbed.

Pampa hit again in the last of the second, when, after Fortin had grounded out, Range singled, Al Johnston was safe on a fielder's choice, with Range out and Zigelman walked, Garland, however, flied out for the third out.

Larry Gilchrist reached first in the third when Otey dropped a fly ball but died on base.

### Birdman Navy Receiver of 500-Unit Housing Project in Texas

WASHINGTON—(AP)—National housing agency officials announced today that the 500-unit Orange, Tex. public housing project will be turned over to the navy.

The transfer from control by the Orange housing authority is subject to provision that ex-service men and persons engaged in war work who now are living in the development will not be evicted before Dec. 31, 1947.

Housing agency officials told aides of Rep. Combs (D-Tex.) that need by the navy for the project arose as the result of the establishment of a reserve fleet, lawaway base at Orange, and that the secretary of the navy has the authority under law to ask for housing facilities when the need has been established.

### Sister of Pampan Succumbs in Tulsa

Mrs. George Egly, sister of Mrs. Frank Walker, Pampan, died yesterday morning at Tulsa, it was learned here today.

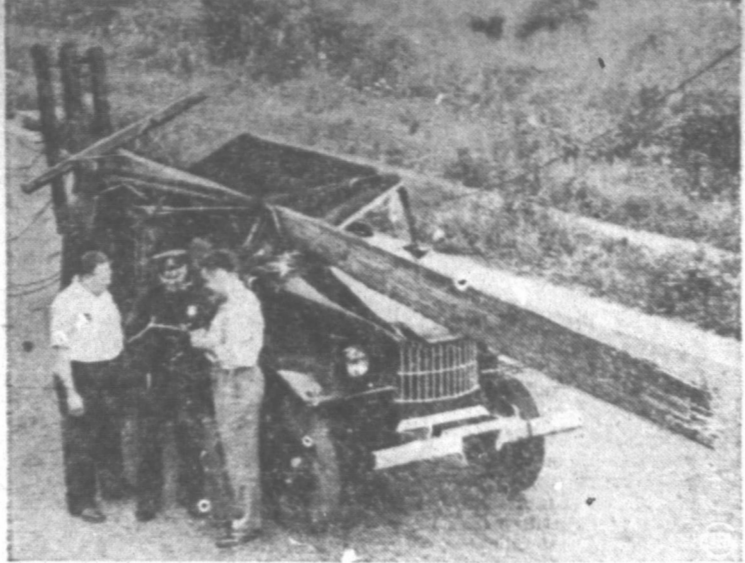

The body is now at the Fitzgerald Mortuary in Tulsa. Funeral services will be held tomorrow afternoon and burial will be in Arcadia, Kansas.

### Hughes Recovers, Holds Conference

LOS ANGELES—(AP)—Howard Hughes has recovered sufficiently from his injuries to hold an extended business conference with Glen Odekirk, general manager of the Hughes Aircraft company in Culver City.

Hughes and Odekirk conferred for almost three hours yesterday. It was Hughes' first business discussion since he was critically injured July 7, when his experimental plane crashed and burned in Beverly Hills.

### You Can't Take It With You

An official dressing-down, and maybe a ticket, is the fate of Nelson Carman, right above, 22-year-old former Seabee who hit a power line pole near Baldwin, L. I., with his covered "recon" car, broke it off and carried it 350 feet before he could stop. No one was injured in the accident.

### QUICK TAKES

"Sylvester's finally got around to taking his work more seriously."

### Shriners March In Frisco Today American Troops

SAN FRANCISCO—(AP)—Shriners, out to prove that everybody loves a parade, today marched in Arabian regalia toward the end of their 1946 convention.

With a parade every day of their three-day convocation, the 25,000 Nobles of the fraternal organization reached the heights of their dazzling display in a noon and torch-light procession which began last night and continued until an early hour this morning.

### Steamfitter To Ride Horse to California

WACO, Tex.—(AP)—Roy Wheelis, 35-year-old Belmead, Texas, steamfitter, and his horse Prince today were en route by automobile and trailer to El Paso, from El Paso Wheelis intends to ride Prince to California.

He said he would sell photographs en route to raise funds for the establishment of a riding school for orphans. Wheelis left Waco yesterday and said he expected to arrive in El Paso tomorrow.

### Arkansas Forecasts Light Vote Tuesday

LITTLE ROCK, Ark.—(AP)—No more than about one half of the state's qualified electors will cast votes in Arkansas' preferential Tuesday, political observers have predicted.

They forecast a light vote of between 140,000 and 160,000 due to a lack of interest in that only three state races are involved.

The croaker is not a frog but a fish.

### Vote for BEAUFORD H. JESTER of CORSICANA for GOVERNOR

"The Home, the Church, and the School are the foundations of our society and well-being. As Governor, I shall ever strive to secure and strengthen these foundations."—Beauford Jester.

### There Should Be a PEOPLE'S PATH

free from bickerings of political extremists... with equal responsibility, and harmony, between labor and management... full employment for all of the people, with safeguards for their livelihood and property... tangible assistance (not theories and platitudes) for returned service men and women... new opportunity for youth in health, education and security... ample provisions for old age assistance.

Vote for Beauford Jester for Governor, who declares: "The people of Texas are entitled to first consideration in all public matters."

### A-Bomb

(Continued From Page 1) tile. They simply had disappeared. Smoke began pouring from the Saratoga. It was possible to see that she was listing by the stern. Hours later a plane reported that the Saratoga was going down. Admiral Blahdy, boss of the Crossroads Operation, sent tugs into the lagoon to try to beach her, but in vain.

A destroyer had raced into the lagoon and out again earlier. Elton C. Fay, Associated Press reporter aboard the flagship Mt. McKinley, said that patrol teams later entered the lagoon in gunboats and transferred to launches. They were seen skirting the edges of the array.

Less than nine hours after the explosion, this ship entered the lagoon but anchored some distance from the targets. Col. Stafford Warren, the radiological safety chief, said that a rain of death-dealing fission particles came down in the lagoon immediately after the millions of tons of lagoon water skyrocketed upward. Later, clouds along a 30-mile front became contaminated with fissionable products. This cloud bank drifted to the northwest. It was tracked by airplanes.

Colonel Warren pointed out that rain from clouds of this nature could be deadly.

### NOMINATION

WASHINGTON—(AP)—President Truman has sent to the senate the nomination of Maud Swanner as postmaster of Scurry, Texas, made presidential July 1, 1946.

### Howe Warned To Start Writing

TUCSON—(AP)—Gene Howe, the Amarillo, Texas, editor who saw red the last time the movie of a Texas story was filmed in Arizona, had better warm up his typewriter—because the movie people are doing it again.

"Red River," based on a story lead in Texas and Kansas, is to be filmed at Elgin, Ariz., by Howard Hawkes' Monterey Productions, Inc.

### Big Fluctuations Noted in Cotton

NEW ORLEANS—(AP)—Cotton futures broke the full limit of 100 points allowed in one session under exchange rules on the opening here this morning. At the \$5 a bale decline new buying came in and the market recovered \$1.50 of the loss.

The rally was quickly checked however and prices slid back to the lowest level.

Senate passage of the OPA extension bill and predictions that President Truman would sign it increased offerings.

BERRY PHARMACY

### Crimes Court Turns Down Hess' Defense

NUERNBERG—(AP)—The war crimes court refused today for a second time to hear a German attorney's defense summation for Rudolf Hess, once third ranking German politician, ruling it contained irrelevancies and objectionable references to the Versailles treaty.

The marathon trial of 22 ranking Germans as war criminals is drawing to a close.

Justice Robert H. Jackson, United States prosecutor, delayed his prosecution rebuttal until tomorrow. He did not wish to start his address on one day and have to postpone its conclusion until the next.

FOR—AGAINST WASHINGTON—(AP)—In the senate vote yesterday which approved and sent to the house legislation extending the OPA until June 30, 1947, Senator Connally (D-Texas) voted for and Sen. O'Daniel (D-Texas) voted against.

Sugar has more than 70 industrial uses.

Mugg returned to college from the service in September, bringing with him his ex-Wave wife and young son. Football scouts spotted the 240-pound tackle while he was playing with the navy Commodores, and offers came to him from the Philadelphia Eagles, Boston Yanks, Pittsburgh Steelers and Detroit Lions.

### Committee Says Tax System Bad

WASHINGTON—(AP)—The house republican tax study committee declared today there is "an imperative need for a complete overhauling of our federal tax system." It suggested a 20 per cent reduction in federal taxes for 1947.

Chairman Reed (D-NY) of the 27-member committee issued a statement saying there is no reason why taxes should not be reduced "handsomely in 1947." He said "one reason is the continued need program of spending and wasting public funds."

The statement said that Canada is preparing to reduce taxes 23 per cent in 1947, and asked "why shouldn't the government of the United States do as much for its taxpayers next year as the Canadian government does for its taxpayers."

### Buyers' Strike May Flop—No Chairman

AUSTIN—(AP)—A proposed buyers' strike is having difficulties in organizing. Fifty persons met to elect permanent chairman.

Stuart Long, radio news commentator and temporary chairman, was nominated.

He declined: "Too busy." Bob Eckhardt, attorney and chairman pro tem, was nominated. He also declined.

The same for three other nominations. The nominations came back to long, then to Mrs. Charlotte Weiner.

Mrs. Weiner accepted. Then Mrs. Weiner resigned immediately after the meeting.

The Austin buyers' strike is still looking for a chairman.

### War Profits

(Continued From Page 1) ever, forwarded the case to Eisenhower's headquarters without such a recommendation. There, Brig. Gen. Edward C. Betts, staff judge advocate, and his assistant reviewing officer urged suspension of the sentences "in view of the circumstances and the previous creditable record of the accused."

Vote for Beauford Jester for Governor, who declares: "The people of Texas are entitled to first consideration in all public matters."

### 100 Million Declared Not Too Much Money for Cancer Research

By JAMES MARLOW  
 WASHINGTON—(AP)—There's a big deal of cancer research in the air. The government has authorized a \$100,000,000 program to find the cause and cure of cancer. Congress is in a hurry to get the money out of the treasury. Here's the story: A good deal of cancer research is being done by specialists, by private hospitals and laboratories, and by the government's research center, the national cancer institute. Total money to be spent this year on cancer research by private sources and the government's cancer institute will be about \$4,500,000. The institute's share roughly is \$1,000,000.

### Many Never Suspect Cause of Backaches

Old Treatment Often Brings Happy Relief  
 When disorder of kidney function permits poisonous matter to remain in your blood, it causes aching backache, rheumatism, sore pains, loss of pep and energy, getting up late, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty urination with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Backache, a stimulant diuretic, used successfully for millions for over 40 years. Doan's give you relief and will help the 15 miles of kidney flush out poisonous waste from your blood. Get Doan's Pills.

### Strange English Custom Will Be Enacted Again

By BARBARA WACE  
 RICHMOND, Surrey—(AP)—Fine, Swan-Upping weather in the Thames valley.  
 Up the turbid Thames, the king's men, and the men of the worshipful company of Vintners and the worshipful company of Dyers will travel in six rowing shifts the next three weeks, just as they have once a year for five centuries, to divide the Swans of England amongst them.

And when the sun sets, the riverside taverns will echo to the cheerful laughter of the hearty watermen who leave their jobs for these few weeks to follow the ancient custom of "Swan-Upping."  
 The little procession of beflagged rowing boats will go from Southwark to Oxford, marking those Swans which belong to the Vintners or the Dyers, throwing the king's swans back into the river untouched.  
 "The king once owned all the swans in England" explained Fred Turk, the king's swankeeper who directs the upping. "He takes his two brothers with him, Richard as governor for the Vintners company swans, Herbert or the Dyers. Like so many ancient crafts in England, Swan-Upping is a family business."  
 But back in the reign of Edward IV, "there were a lot of wars, and well, you know wars take money," he said.

"The king borrowed money from the rich city companies. And in return they got a share of the swans, and can have swan pie at their banquets."

John Yallop, who has been the only amateur for the last 15 years, came up. He is an easy end of London metal worker and swan-ups for fun, not money. He wore the scar-

let jersey and beret of the king's men.  
 He turned to a smiling boy in the green and white striped sweater and old fashioned nightcap-type sailor's knitted cap of the Dyers company. "And you'll see another fine tradition, no doubt, as the day goes along. We always duck the new boys in the river."

"There's another" he added, pointing to a stocky, red-haired man in the Vintners' blue jersey. "He's got an uncle here, rowing for the king's men for 35 years, but he'll go in just the same. It's easy. You mark a bird with a nick on the bill, and then somebody says, 'Put him back, careful now.' And just as he's going into the water, you tilt him, and in he goes. All part of the good old English custom."

### Famous "Private" to Speak at Texas U.

AUSTIN—Marion Hargrove, author of "See Here, Private Hargrove," has been added to the list of speakers to appear next fall at the University of Texas under the auspices of the university union speakers' committee. He will speak on November 4.  
 Other lecturers engaged for the coming year include Gov. Ellis R. Allison of Georgia, Eve Curie, daughter of the late Madame Curie, discoverer of radium; Julian Huxley, English biologist; Howard Pierce Davis, news analyst, and Virginia Sale, humorist and daughter of the late comedian, Chic Sale.

### He Was Told To Run Wide Open

LIBERAL, Kans.—(AP)—Steve Ford, Jr., former Republic Gas company employe, testified yesterday in the Kansas corporation commission hearing here that he was ordered by Alfred Hurlburt, Republic official at Dallas, Texas, to run the company wells wide open.  
 Ford was called during the commission hearing of what the notice of hearing termed "the practice of failing to measure gas produced by a well into a pipeline and measuring such production."  
 R. J. Philippe, Hugoton, commission employe conservation officer, testified earlier that he had warned Ford that he was violating commission rulings.  
 Philippe's investigation of Sherwood wells No. 1 and 2 south of Hugoton, May 24 led to the hearing here.  
 Ford said that after Philippe reported to the commission he had taken it upon himself to remedy the situation.  
 D. A. Howard, vice-president of Ford, testified that arrangements had been made for the retirement of Hurlburt before the discover of the alleged violations. Hurlburt was described as a man 70 to 75 years of age.  
 Fish generally are near-sighted and have poor vision.

**Movie To Be Shown At Prison—There's Housing Shortage**  
 By HOWARD C. HEYN  
 HOLLYWOOD—(AP)—Bob Hope marched into the death cell of San Quentin, and Warden Clinton Duffy was on hand to see that the proceedings were authentic.  
 Mr. Duffy was invited by Paramount to supervise prison sequences in "My Favorite Brunette." It was his first trip to a movie studio, although he has advised many companies on such scenes.  
 The handsome, middle-aged warden was intensely interested in the photographic proceedings and more than willing to report on the movie situation in his prison.  
 "We show our 4,000 inmates movies on Saturday," he reported. "There are three showings: noon, three p. m. and seven p. m."  
 "Their favorite types of films are, in order, drama, comedy, musicals, and westerns."  
 No crime pictures are shown and the westerns are not the "shoot-em-up" variety.  
 I asked whether he would sanction the Hope picture for the inmates, since it depicts the prison and death-row.  
 "The men have asked to see it," he said. "And Bob Hope suggests that it be premiered at the prison. I think it will be O. K."

**ORDINANCE 233**  
AN ORDINANCE GRANTING TO ED WEBSTER, AND TO HIS SUCCESSORS AND ASSIGNS, THE RIGHT, PRIVILEGE AND FRANCHISE OF OPERATING MOTOR VEHICLES IN, ALONG, UPON AND OVER THE STREETS, AVENUES AND PUBLIC GROUNDS AND PLACES, IN THE CITY OF PAMPA, FOR THE TRANSPORTATION OF PASSENGERS FOR A PERIOD OF TEN (10) YEARS, AND PROVIDING THE TERMS, STIPULATIONS AND CONDITIONS UPON WHICH SAID FRANCHISE IS GRANTED AND SHALL BE EXERCISED.

**SECTION I.**  
The right, privilege and franchise of operating in, upon, along and over the streets, avenues, and public grounds and places of the City of Pampa, motor vehicles for the transportation of passengers, for a period of ten (10) years, from and after thirty days from the last publication of this ordinance and the acceptance thereof by the said Ed Webster, is hereby given and granted unto Ed Webster, and his successors and assigns, hereinafter styled grantee, upon the provisions, stipulations and conditions hereinafter set out.

**SECTION II.**  
All motor vehicles used by said grantee for the transportation of passengers under this franchise, shall be modern type passenger-carrying motor vehicles of not less than twenty (20) seated passenger capacity, and shall at all times be kept and maintained in good repair, suitable for the transportation of passengers, and shall be first approved by the City Commission before being placed in service, and shall be subject to inspection by said City Commission or by any duly authorized inspector, agent or employee of the City of Pampa. Provided, that said City Commission may permit grantee to operate vehicles of less seated passenger capacity, when and where it is found to be adequate, and for the good of the service.

**SECTION III.**  
Grantee shall, at all times, operate a sufficient number of motor vehicles, and maintain a schedule, and give transportation service in such a manner and way as to provide efficient public transportation service to the City of Pampa, that can be supplied over and on paved routes and establish such a schedule for the operation of said motor vehicles within said city, with the approval of the City Commission of the City of Pampa, which may appear to grantee would reasonably justify such service, and as will reasonably support such service, the City Commission, in determining and in passing upon and giving its approval to the routes and schedules selected and adopted by grantee, shall take into consideration the sections of said city where the resident population reasonably justifies such transportation service; provided, that if such determination be submitted to a board composed of three impartial persons, one to be selected by the City Commission, one by grantee, and one by those two persons so selected. The City Commission and grantee shall submit facts and conditions before this board, and the findings of the board shall be final, and shall be in effect for one year after the date of the same.

It is provided further that grantee shall not be required to operate vehicles on and over every street into, through and across every section of said City of Pampa, but only on and over such street or streets as shall be approved by the City Commission of the City of Pampa. The number of motor vehicles used in the service of the grantee, and necessary to be operated, shall be submitted to the City Commission by grantee for its approval, and the City Commission shall approve, or amend, as it may deem wise and proper, the routes to be traveled by motor vehicles of grantee, and the number of motor vehicles to be operated by grantee under this franchise.

**SIDE GLANCES** By Galbraith

"Too bad we don't live near where they're building those new race tracks, dear—I might be able to rent one of the stables!"

paid by a passenger paying fare, shall be transported free. It is, however, provided, grantee shall, for one fare, give a transfer from any of its lines to any other line operated by it, where the passenger's destination is on the other line within the corporate limits of the City of Pampa. The form and terms of such transfers shall be approved by the City Commission.

**SECTION IX.**  
The grantee, shall on or before January 1, 1946, and on or before January 1, of each year thereafter during the life of this franchise, file with the City Secretary of the City of Pampa, a sworn statement showing the total number of passengers paying fares during the preceding calendar year, ending December 31, the number of motor vehicles with passenger service and the number of such vehicles to be in regular service for the ensuing year, together with such other facts and information as may be required by the City Commission of the City of Pampa, and in the form as the City Commission may require. It is provided in this connection that the City Commission of the City of Pampa, or any of its duly authorized agents or employees shall have the right to inspect, examine and audit all books and records of the grantee and as well all machinery, apparatus, devices and coin boxes, for the receipt of money and fares, and the registration of passengers using said motor vehicles, used by grantee, and its said passenger-carrying motor vehicles operated under this franchise.

**SECTION X.**  
As a material and essential provision of this franchise, grantee shall agree to at all times carry and keep in force for each bus operated, what is known as public liability insurance covering personal injuries, and covering all risks ordinarily included in such kind of insurance, and in limits of Five Thousand Dollars for one person and Ten

Thousand for more than one person, for any one accident.

This requirement is and shall be material consideration for the rates set out in section eight of this ordinance.

The grantee is expected and required to carry and maintain all other kinds of insurance usually carried and maintained by transportation concerns, and the fare provided for in Section eight hereof, is deemed sufficient to provide for such expense.

**SECTION XI.**  
This franchise and all rights and privileges herein granted shall be forfeited and this ordinance shall be null and void on failure of the grantee to accept the same within thirty days from the date of the last publication of this ordinance, and for failure of grantee to comply with any material provision of this franchise and/or order of the City Commission of the City of Pampa with reference thereto, as authorized hereby, after due notice of the same, upon non-compliance being established by a proceeding for such purpose in the District Court of Gray County, Texas, by the City of Pampa, against the grantee or its successors and assigns.

**SECTION XII.**  
The validity of any section, or subdivision of provision hereof, shall not affect the validity of any other provision, subsection or section. All other ordinances so far as in conflict herewith or applicable hereto, are hereby suspended during the term of this franchise.

**SECTION XIII.**  
That the present provisions of the City Charter of the City of Pampa, Texas, wherein they relate in any manner to this franchise, are hereby made a part hereof, and reference is here made to the City Charter for full particulars.

**SECTION XIV.**  
This franchise shall become an official act thirty days after the date of the last publication hereof, and ac-

ceptance hereof by the grantee, and grantee shall be required to begin the operation of the transportation system herein provided for in accordance with the terms and conditions hereof, within thirty (30) days after the date of acceptance.

PASSED at first reading by the City Commission, City of Pampa, Texas, this 23rd day of January, 1946. ss/Ferris C. Oden, Mayor.

ATTEST:  
ss/J. Ernest Hood,  
City Secretary.

**Tito Terrorism Policy Reported**

NEW YORK—(AP)—A New York Times dispatch from Bari, Italy, quotes travelers from Belgrade as saying Premier Marshal Tito's government was carrying out an anti-Catholic policy of terrorism in Yugoslavia, in which 230 priests had been killed, 198 without trial, in the last two years.

The Times article, written by Camille M. Cianfarra, did not identify the sources, saying the reasons were obvious.

The correspondent said he had received detailed reports of the indirect suppression of the Yugoslav Catholic press through a plea of lack of newspaper, "the suppression of religion teaching in the schools, the spoliation of church property, occupation and requisition of buildings belonging to the clergy and Agrarian reforms that in many cases left the clergy without the means of subsistence."

Physicists believe that the sun will continue to give off heat and light for about 50 billion years.

**Cashes \$5,000 In Bogus Checks**

Houston—(AP)—A one-armed man suspected of passing \$5,000 in bogus cashier's checks will be turned over to Lockhart authorities for prosecution.

The 56-year-old man was arrested on a Houston street yesterday with 1,000 freshly printed cashier's checks on a Greenville bank. Later, police found an additional 1,000 checks on a Paris bank.

Detective T. B. Morris said the man admitted passing cashier's checks totaling \$2,000 in Lockhart, Luling, \$1,000; Amherst, \$500. Also, \$1,000, and some in Austin.

Morris said the man told a printing shop operator that he was an official of the Paris and Greenville banks.

**QUICK DISSOLVING IMPERIAL SUGAR**

HELPS INSURE SMOOTHER, MORE DELICIOUS JAMS AND JELLIES

Texas' Own 100% PURE CANE

**Make This Home Recipe To Take Off Ugly Fat**

It's simple. It's amazing, how quickly one may lose pounds of bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. More alive, youthful appearing and active.

**SECTION IV.**  
All motor vehicles operated by said grantee for the transportation of passengers, within the city of Pampa, shall be and are hereby prohibited from making stops, for the purpose of discharging and taking on passengers, between street intersections. Grantee shall be responsible for the operation of said motor vehicles for the purpose of discharging and taking on passengers within said zones, shall be, selected and approved by the City Commission of the City of Pampa, and shall be marked off and designated as "Bus Loading Zones."

**SECTION V.**  
No motor vehicle shall be operated under this franchise unless the same complies with Ordinance, and is approved by the City Commission of the City of Pampa, and is in good condition, suitable for the purpose intended, nor unless the same shall be properly equipped with brakes and lights, as provided by law.

**SECTION VI.**  
No person shall operate any motor vehicle hereunder in the City of Pampa, for the transportation of passengers, unless he shall be over the age of eighteen years, of suitable experience and shall have obtained a permit to do so from the City Secretary of the City of Pampa, which permit shall be granted to any person, who shall be revocable by the City Commission of the City of Pampa, for carelessness, negligence, or improper conduct in the operation of any such motor vehicle, or for other good cause.

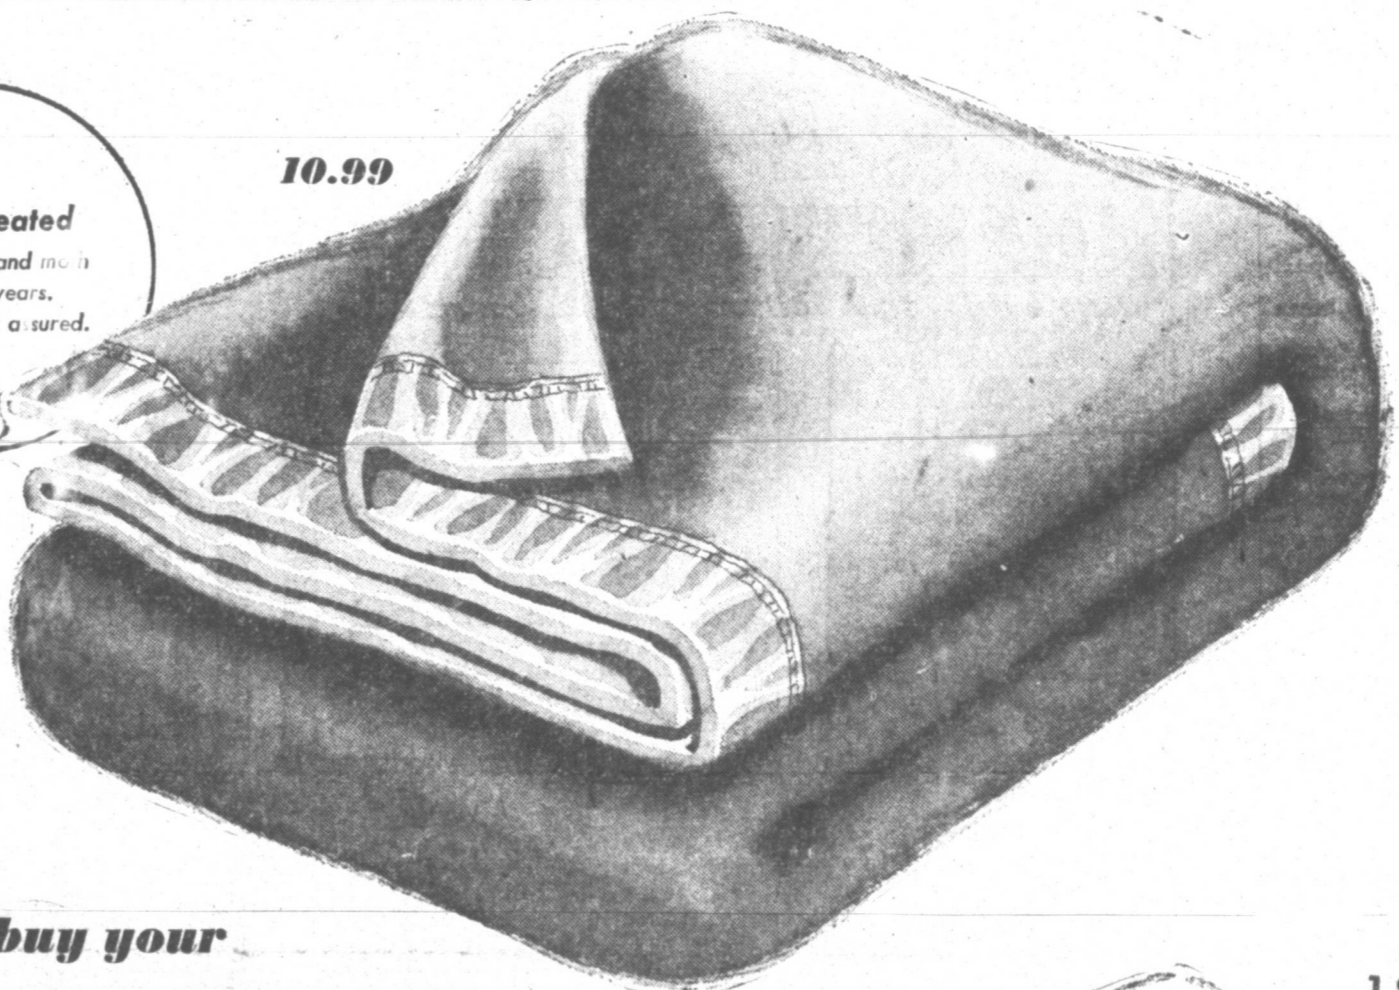

**SECTION VII.**  
As a Franchise Tax the Grantee herein shall pay to the City of Pampa, Texas, on or before the first day of January, Fifty (\$50.00) Dollars per bus he operates in the City of Pampa, Texas, during the calendar year. This payment shall be made in advance, shall be prorated; and no part of it shall be refundable. In addition to the above payment, in the event any bus dies, the Grantee shall also pay to the City of Pampa, Texas, a sum of money calculated on the following schedule to-wit:

- On gross receipts up to and including \$40,000.00 in each calendar year—One-Half of One per cent.
- On gross receipts over \$40,000.00 up to and including \$80,000.00 in each calendar year—Three-fourths of One per cent.
- On gross receipts over \$80,000.00 up to and including \$100,000.00 in each calendar year—One per cent.
- On gross receipts over \$100,000.00 for each calendar year—Two (2%) per cent.

From the total calculated by said schedule the Grantee shall be allowed to deduct the total paid during such calendar year at the rate of Fifty and No./100 (\$50.00) Dollars per bus, per year.

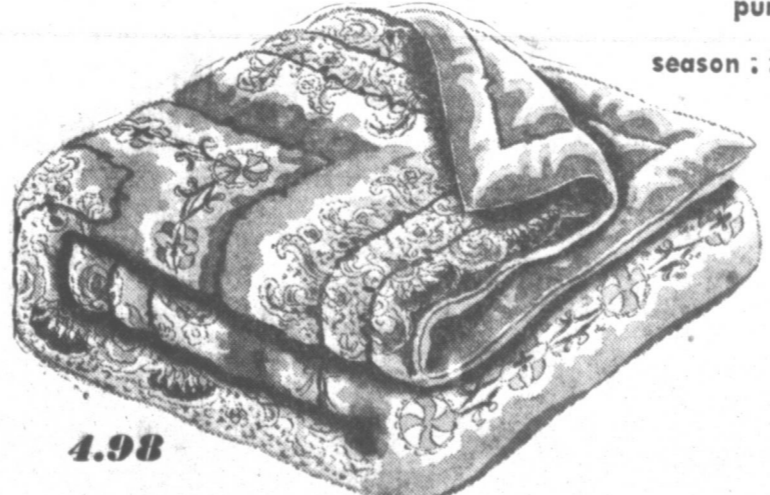

**SECTION VIII.**  
The regular fare for transporting any one passenger from any point within the corporate limits of the City of Pampa to any other point of such City, within the corporate limits, on any route, without stopping, shall not exceed ten (10c) cents; children under five years of age accom-

### Water Instruction Class Meets Today

The local Red Cross chapter has striven to out-date the old phase, don't go near the water, by sponsoring a series of water safety courses this summer.

Instruction in life-saving, diving and general water safety has been offered to Pampans free except for the admittance fee to the pool, charged by the city. Glen C. Emrick has been in charge of the courses.

Classes in general swim strokes are being held at the local pool at 6 o'clock for beginning, intermediate and advanced swimmers. The class will meet tonight.

### Denton Services Are Held Today, 4 P. M.

Funeral services for Mrs. Mary Denton, LeFlore, who died here Tuesday morning, were to be conducted at 4 o'clock this afternoon at the Duenkel-Carmichael chapel.

Mrs. Denton is survived by her husband, three daughters and three sons.

Following services here, the body will be sent to Tulsa for burial.

A muskrat can travel 50 yards under water without coming up for air.

### Reelect J. E. McDonald

of Ellis County State Commissioner of AGRICULTURE

Remember the initials "Jay" - J. E.

REWARD INTEGRITY - Continue a constructive, cooperative administration.

### Railroad House, Shop Will Stay

WASHINGTON—(AP)—The City of Palestine, Texas, was assured yesterday by the house that its railroad house and shops would be retained under a 74-year-old contract.

Shortly before the railroad reorganization bill was passed, the lawmakers adopted an amendment by Rep. Pickett (D-Texas) which provides that nothing in the act shall be construed to authorize a change in existing contracts between rail carriers and cities such as that between Palestine and Anderson county, Texas, with the Missouri Pacific railroad.

Pickett explained that the city and county entered into a contract in 1872 with the Houston and Great Northern Railway that the round house and shops in Palestine should

be permanent there, either by the H. and G. N. or its successors.

Successors to the H. and G. N. have tried to move the Palestine facilities elsewhere, Pickett said, but legislation has always been settled in favor of the city and county.

The reorganization bill must go to a separate-house committee for settlement of differences.

### PROJECT TO BEGIN

COLUMBUS—(AP)—Rep. Mansfield (D-Texas), chairman of the rivers and harbors committee, announced that a crew from the Galveston office would move to Victoria today to start work on the Guadalupe project. The project was held up during the war.

### MURDER-SUICIDE

PORT ARTHUR—(AP)—Police Chief Claude Goldsmith and Justice of the Peace Fulton Lee said W. E. Bodie, 33-year-old auto mechanic, fatally shot his 32-year-old wife yesterday as she fled from her home and then shot himself. Bodie is in a critical condition.

### Behavior Code Issued to Yanks

FRANKFURT—(AP)—Gen. Joseph T. McNarney's headquarters has issued a strict code of behavior for Americans entering Soviet-occupied territory in Europe to prevent "embarrassment" to the United States.

Rigid controls, it was disclosed, have been ordered to avoid "prolonged detention" of the American army personnel in "eastern, central and southeastern European countries."

A directive from headquarters said that "certain instances of misconduct" on the part of Americans in eastern Europe has "resulted not only in embarrassment to this headquarters and certain high-level diplomatic representatives, but also in the prolonged detention of individuals involved in incidents caused by this misconduct."

### Doctor's Father Dies At New York Home

Dr. Siegfried Falkenstein, 65, father of Dr. Richard D. Falkenstein, 1317 Mary Ellen, died yesterday morning in Kingston, N. Y. Funeral services will be conducted tomorrow afternoon in Kingston and burial will be at Fairview cemetery here.

He is survived by his wife and son, Richard, who were with him at the time of his death. The younger Dr. Falkenstein will fly back to Pampa tomorrow.

The "ears" of a katydid are located in its forelegs.

**ORDINANCE NO. 258**  
**AN ORDINANCE TO BETTER PROTECT THE PUBLIC HEALTH AND PARTICULARLY TO PREVENT THE INTRODUCTION AND SPREAD OF MURINE ENDEMIC TYPHUS FEVER AND OTHER RATBORNE DISEASES, BY PROVIDING FOR THE RAT-PROOFING OF ALL BUILDINGS, OUTHOUSES, SUPERSTRACTIONS, STABLES, LOTS, OPEN AREAS AND OTHER PREMISES, SIDEWALKS, STRUTS AND STAYS, PROVIDING FOR PENALTIES FOR VIOLATIONS THEREOF AND PROVIDING THAT THE INVALIDITY OF ANY PART OF THIS ORDINANCE SHALL NOT INVALIDATE ALL OF SAID ORDINANCE.**

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF PAMPA, TEXAS:

**SECTION 1**

For the purpose of this ordinance, the following definitions shall apply: (a) The term "business buildings" shall mean any structure, whether public or private, regardless of the type of material used in its construction, located within the boundaries of the City of Pampa, Texas, that is adapted to the occupancy for transaction of business, whether or not occupied, for the rendering of professional services, for the display, sale or storage of goods, wares or merchandise, or for the performance of work or labor, including hotels, rooming houses, beer parlors, office buildings, public buildings, stores, markets, restaurants, grain elevators, and slaughterhouses, workshops and factories.

(b) The term "opening" shall mean and refer to any opening in the foundation, side or walls of any business building, including roof, chimney, eaves, grills, windows, sidewalk grates and sidewalk elevators, through which a rat may pass.

(c) The term "rat stoppage" means an inexpensive device, whether designed to prevent the ingress of rats into business buildings. It is essential to the closing or protecting of any openings in exterior walls and foundations or the grates in a sidewalk of business buildings by rat-proofing materials installed in such a manner as to prevent rats from gaining entrance. (d) The term "rat harborage" shall mean any condition found to exist under which rats may find shelter or protection, and shall include any defective construction which would permit the entrance of rats into any business building.

(e) The term "premises" shall include all business buildings, outhouses, sheds, barns, garages, docks, waives, piers, and other structures, whether public or private, and any and all other structures used in connection with the operation of any business building as herein defined.

(f) The term "person" shall include owner, occupant, agent, individual, partnership or corporation, or any other person in custody of any business building as defined herein.

**SECTION 2**

It shall be unlawful for any person, firm or corporation to construct within the corporate limits of the City of Pampa, Texas, any business building, curb or farmers' market, unless such construction shall conform to the business building rat-proofing in accordance with the regulations prescribed by this ordinance.

**SECTION 3**

From and after the passage of this ordinance the Public Health Officer of the City of Pampa, Texas, or his representative, is authorized to make frequent and regular inspections of existing business buildings within the corporate limits of the City of Pampa, Texas, for the purpose of determining any rat infestation, and order by written notice either the owner, occupant, agent, or any other person in custody of any business building by rat-stoppage as herein provided, or the repair or remodeling of such buildings, and further order that such other rat control methods be employed as may be deemed necessary by the Public Health Officer or his representative, and that the cost of such work and improvements, unless said work and improvements are completed in accordance with the written order and/or notice by either said owner, whether individual, partnership, corporation, occupant, agent or any other person in custody of the business building within the time so specified or within the time to which a written extension has been granted by the Public Health Officer or his representative, then, in such event, the owner, occupant, agent or any other person in custody of the building shall be deemed guilty of an offense under the provision of this ordinance.

**SECTION 4**

That from and after the passage of this ordinance the Public Health Officer or his representative, is authorized to make inspection during the course of and upon completion of any such construction, repair, remodeling or installation of rat-control measures to business buildings to insure compliance with the provisions of this ordinance and no person shall interfere with or refuse to permit such inspection.

**SECTION 5**

That for the purpose of obtaining maximum rat-stoppage at a minimum cost to the owner, occupant or business buildings, the following regulations are set forth as the minimum requirements for applying rat-stoppage to business buildings:

(a) The Public Health Officer or his representative, shall approve all materials used and the method of installation.

(b) Solid sheet metal, expanded metal and wire cloth specified in these regulations shall have a rust-resisting, protective coating, preferably galvanized.

(c) Masonry or concrete exterior wall construction - foundation wall ventilation openings shall be covered for the entire height and width with perforated sheet metal plate of a thickness not less than fourteen (14) gauge, or with expanded sheet metal of a thickness not less than eighteen (18) gauge, or with cast iron grills or grates, or with any other material of equivalent strength and equal rat-resisting properties. The openings therein shall be small enough

to prevent the ingress of rats, and in no instance shall be larger than one-half (1/2) inch.

(d) Miscellaneous foundations and exterior wall openings, cable and telephone wires, all foundations and exterior wall openings, excluding those used for the purpose of ventilation, light, doors, and windows, such as those openings around pipes, electric cables, conduits, openings such as deteriorated walls, broken masonry or concrete, shall be protected against the ingress of rats by closing such openings with cement mortar, concrete or masonry, or close-fitting sheet metal or solid masonry pipe hangers or other material with usual rat-resisting properties, which shall be securely fastened in place.

(e) DOORS. All exposed edges of the lower eight (8) inches of wooden doors and door jams, serving at front, rear or side entrances into business buildings, from the ground, basement or cellar floors, and other doors accessible to rats, shall be protected against the ingress of rats by covering said doors and jams with solid sheet metal of not less than twenty-four (24) gauge thickness. The same material shall be used on door sills or thresholds, or such door sills or thresholds may be constructed of cement, stone, steel or cast iron. Doors, door jams and sills of coal chutes and hatchways that are constructed of wood shall be covered with solid sheet metal of twenty-four (24) gauge or heavier, or they may be replaced with metal chutes of twenty-four (24) gauge or heavier installed in such a manner as will prevent the ingress of rats.

All doors on which metal flashings have been applied shall be properly hinged to provide for free swinging. Where doors are hinged so closely that the maximum clearance between any door, door jamb and sill shall not be greater than three-eighths (3/8) of an inch.

Door jams and sills constructed of masonry, stone, cement mortar, or cast iron and steel, when fitted closely to exclude rats, will not be required to comply with this provision of the ordinance.

(f) WINDOWS. All windows and other openings for the purpose of light or ventilation in the side or rear of exterior walls which could afford possible ingress of rats shall be covered for their entire height and width, including frame, with wire cloth of nine-teen (19) gauge heavier having a mesh of not larger than one-half (1/2) inch.

All windows and other openings for the purpose of light or ventilation in the exterior walls that may be accessible to rats by way of exposed pipes, wires, conduits and other appurtenances, shall be covered with wire cloth of nineteen (19) gauge or heavier, having a mesh of not larger than one-half (1/2) inch.

Such pipes, wires, conduits or other appurtenances shall be placed in a vertical position, and shall be snugly fitted around the pipe, wire, conduit or other appurtenance. Said guard shall measure not less than twelve (12) inches beyond and on all sides of the pipe, wire, conduit or other appurtenance, where the intervening space between the wall and pipe permits an upward direction and twelve (12) inches in a downward direction, and shall be fastened to the pipe, wire, conduit or other appurtenance and also to the adjacent wall wherever practicable so that the guard will remain in a vertical position at all times.

Such guards when used on vertical pipes, wires, conduits or other appurtenances shall be fitted snugly around the pipe, wire, conduit or other appurtenance, shall be placed in a horizontal position (right angle to pipe, etc.), and shall extend horizontally from the pipe, wire, conduit or other appurtenance a distance of twelve (12) inches beyond and on all sides of the pipe, wire, conduit or other appurtenance, where the intervening space between the pipe and wall permits, and shall be fastened to the pipe, wire, conduit or other appurtenance and also to the adjacent wall wherever practicable so that the guard will remain in a horizontal position at all times.

(g) Light wells with windows in exterior walls that are located below the outside ground level shall be protected from the ingress of rats by the following:

(1) Installing over light wells cast iron or steel grills or steel gratings, or other material of equal strength and rat-resisting properties, with opening in grills or gratings not to exceed one-half (1/2) inch in shortest dimension.

(2) Installing securely to and completely covering existing metal grills that are broken or have openings larger than one-half (1/2) inch in shortest dimension or otherwise defective, with expanded metal of eighteen (18) gauge or heavier, having openings not greater than one-half (1/2) inch in shortest dimension, or with sixteen (16) gauge or heavier wire cloth with one-half (1/2) inch mesh.

(3) Business buildings constructed on piers having wooden floor sills less than twelve (12) inches above the intervening ground shall have the intervening ground protected against the ingress of rats by installing a curtain wall of solid masonry, concrete or other material of a permanent nature of not less than three (3) inches in thickness and eighteen (18) inches in depth below ground surface with a shelf which is two (2) inches in thickness extending eight (8) inches outward at base of the curtain wall. This curtain wall and shelf shall be installed around the entire perimeter of the business building and fastened securely to the exterior wall of said business building in such a manner as will prevent rats from entering the building. All openings in curtain wall for ventilation, or other purposes not heretofore mentioned, shall be covered the entire height and depth with nineteen (19) gauge galvanized hardware cloth or expanded metal of twenty-four (24) gauge or heavier with a mesh not to exceed one-half (1/2) inch.

In lieu of the installation of curtain walls, all ground floors of wood construction may be replaced with concrete of not less than three (3) inches in thickness with the exterior walls protected for a height of seven (7) inches above the concrete floor with masonry, concrete or solid metal of not less than eighteen (18) gauge or heavier. Exterior wall protection shall be securely tied into the concrete floor at all points.

Business buildings constructed on piers having wooden floor sills greater than twelve (12) inches above the ground level shall have the intervening spaces between floor sills and ground protected against the ingress of rats by installing said business buildings against the ingress of rats by installing solid sheet metal coverage of twenty-four (24) gauge or heavier snugly around each pipe, cable, wire, conduit or other utility service, passing through wooden ground floor. Said metal coverage shall not be less than eight (8) inches in diameter larger than diameter of pipe, cable, wire, conduit or other utility service, and shall be securely fastened to the wooden floor.

All other openings in wooden ground floors through which rats may gain entrance into double walls or the interior of business buildings, such as openings that may exist in floors and double walls above floor sills, shall be closed with twenty-four (24) gauge or heavier solid sheet metal or sixteen (16) gauge or heavier wire cloth of one-half (1/2) inch mesh or masonry or with concrete. Wood frame constructed business buildings having concrete or masonry foundation walls shall have ventilators in foundation walls protected as herein provided in Section 5 (d). All miscellaneous wall openings, doors and windows

shall be protected in accordance with this ordinance.

**SECTION NO. 6**  
 (a) Miscellaneous markets in which fruit or vegetables or any other food products are exposed and offered for sale, on racks, stands, platforms and in vehicles outside of business buildings, shall have floors paved with concrete or asphalt for the entire surface area of the market. Display racks, stands, or platforms on which fruit or vegetables or any other food products are displayed or offered for sale shall be of sufficient height that all such fruits, vegetables or other food products shall be a distance of not less than eighteen (18) inches above the floor pavement and be so constructed that rats cannot harbor therein or thereunder.

**SECTION NO. 7**  
 For the purpose of eliminating all rats that may remain in any business building after rat-stoppage shall have been carried into effect, all store rooms, warehouses or other business buildings in the city shall be provided by the owner, occupant, agent or any other person in custody of such business building with one or more traps, which shall be kept set and freshly baited at frequent intervals, and maintained in good working condition, and shall be checked daily, and any rat or rats caught therein shall be killed, removed daily and disposed of in a manner acceptable to the Public Health Officer. Such a trap or traps reset and rebaited.

Rats may also be destroyed by poisoning or fumigating in the manner approved by the Public Health Officer, or by any other authorized agency of the United States or Health Service, or the State Board of Health and subject to applicable laws and ordinances relating to poisonous substances and fumigants.

**SECTION NO. 8**  
 In order to protect business buildings from what is commonly called the climbing or roof rats, all ventilators, chimneys, skylights and openings on roofs which constitute a possible place of ingress for rats shall be covered by the entire height and height with nineteen (19) gauge hardware cloth, except ventilators or skylights constructed of metal with opening not less than eighteen (18) inches above the roof surface.

The owner of business buildings shall also protect elevator shafts, fire escapes and guy wires in such manner that rats will not be able to gain ingress into any business building.

**SECTION NO. 9**  
 When the Public Health Officer, or his representative, shall find any building, structure, or premises so heavily infested with rats as to constitute a present menace to public health, he shall have authority to close the same or any occupancy thereof, until rats have been eradicated, or while rats are being eradicated.

**SECTION NO. 10**  
 It shall be unlawful for any person to use or maintain any business building or premises in such a manner that a rat harborage is brought into existence or maintained.

**SECTION NO. 11**  
 It shall be unlawful for any person, firm or corporation to dump or place on any land or on any waterway within the city any dead animals, butchers' offal, seafood, or any waste, vegetable, animal matter or any food products whatsoever.

No garbage, rubbish, waste or manure shall be placed, left, accumulated or permitted to accumulate or remain in any building or premises in this city so that the same shall constitute a rat harborage or rat breeding place for rats. Rat burrows and other exterior harborages shall be treated under methods directed by the Public Health Officer.

**SECTION NO. 12**  
 It shall be unlawful for any person to permit any premises, improved or unimproved, and all open lots and alleys in the City of Pampa, Texas, to accumulate lumber, boxes, barrels, bricks or stones in similar materials that may be permitted to remain thereon and that may be used as rat harborages by rats, unless same shall be placed on a platform elevated not less than eighteen (18) inches above the ground with a clear intervening space underneath, to prevent the harborage of rats.

**SECTION NO. 13**  
 Any person who shall violate any provision or provisions of this ordinance, shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine or not more than One Hundred (100.00) Dollars. Each day of violation shall constitute a separate offense.

**SECTION NO. 14**  
 Repeat Clause: All ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict only.

**SECTION NO. 15**  
 Savings Clause: If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional, void or invalid, the validity of the remaining portions of this ordinance shall not be affected thereby, it being the intent of the City Commission of the City of Pampa, Texas, in adopting this ordinance to be suspended and that this ordinance be read three separate times and adopted at one regular meeting of the City of Pampa, Texas.

**PASSED AND APPROVED**  
 this 22nd day of April, A. D. 1946.  
 ATTEST:  
 FERRIS C. ODEN, Mayor.

**ROY MCILLEN,**  
 Business Manager.

**NOTICE OF BUDGET HEARING**  
 Notice is hereby given that the Trustees of the Pampa School District will hold a hearing at 8 p.m. Monday, July 29th, 1946 in the City Commission Room in the City Hall in Pampa, Gray County, Texas. Persons interested in discussing the 1946-1947 budget with the Board may do so at that time.

**SNOWBOUND SHEEP DYING IN AUSTRALIA**  
 SYDNEY—(AP)—Australia, which has a reputation for scorching droughts, is losing sheep this mid-year winter as a result of snow. The heaviest snowfalls in years late in June covered thousands of square miles of grazing highlands south of Canberra. Low temperatures kept the snow there. Sheep station owners, unaccustomed to lasting snow, had made no adequate arrangements for hand-feeding their flocks, running up to 20,000 sheep. Many animals starved.

**SOCIETY NOTE:**  
**LION VISITS MURRAY'S**  
 DURANGO, Colo.—(AP)—C. L. Murray didn't mind camping on a picnic ground near Durango's city limits while waiting to move into a new home, until his wife heard a deep cough in the night. Before dawn the lion made another visit and another clean getaway. Next night, the Murray's kept a two-hour watch, heard a noise, shot and killed a coyote. The first bulbs Edison used for his laboratory experiments were free-blown by skilled artisans.

**WALL STREET**  
NEW YORK—(AP)—Selected stocks rallied at recovery in today's market but an early comeback failed to hold in most cases and considerable irregularity was in evidence near the close.

While gains of fractions to a point or so were well distributed in the final hour, the losing division was well populated. Transfers ran to around 1,200,000 shares.

Youngstown sheet erased most of a 2-point advance inspired by a boosted

dividend. G. R. Kinney common was buoyed by the first dividend since 1931. Resistant were Bethlehem, Republic Steel, Goodyear, General Electric, Kennecott, Westinghouse and Baltimore & Ohio. On the offside were American Telephone, Dow Chemical, Allied Chemical, and Western Union "A."

Timid buying was attributed to the belief the list may have been over-sold in Tuesday's sharpest slump since last February and was in technical shape to rebound substantially.

Bonds improved in spots.

# Pampa News

Texas' most consistent newspaper

Published daily except Saturday by The Pampa News, 222 W. Foster Ave., Pampa, Texas. Phone 466. All departments. MEMBER OF THE ASSOCIATED PRESS (Full Contract). The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise credited to this paper and also the exclusive right to syndicate its news.

### SUBSCRIPTION RATES

BY CARRIER in Pampa 25c per week. Paid in advance (at office) \$2.00 per 8 months. \$6.00 per six months. \$12.00 per year. Price per single copy 5 cents. No orders outside localities served by carrier delivery.

### WE MUST NOT BE CARELESS

News dispatches yesterday carried the information that there are already more polio cases (3,242) this year than there were (2,320) in 1944—described as the second worst "polio" year in U. S. records.

While the stories declared there apparently was not going to be an epidemic, they did not hold out an especially bright picture for Texas. This state, in fact, led the list in the number of cases and in percentage of increase in incidence.

Texas reported 61 cases, in the week ending July 20, as compared with 54 the week preceding. Texas has had over 400 cases reported this year. The disease is declared to have reached epidemic proportions in parts of Texas, principally along the coastal area.

We cite these figures in support of our contention that Pampa, with two cases already reported this year and the worst month yet to come, has no logical excuse for relaxing its cleanup campaign. Nor has the county, for that matter. There was one case reported at McLean a few weeks ago.

Polio, it has been proven conclusively, is not a disease to fool with. We mean by that, it is a disease we must vigilantly pursue until it is stamped out, for the permanent effects of its attack, sometimes fatal, make an indelible mark upon a community, a family, an individual.

There has been some "gripping" by those who operate eating places, even from housewives, who, with a great deal of false pride, are indignant that an officer should tell them their garbage barrels are unclean. And everyone should know it is not the purpose of those officers to "expose" someone for permitting pockets of filth to collect. But those who refuse to cooperate should be exposed if they will not have a change of mind.

Polio, like some other diseases, is dangerous. We must not be careless in our drive to stamp it out.

## MACKENZIE'S Column

By DEWITT MACKENZIE AP Foreign Affairs Analyst

Atomic energy is the greatest force on which any man ever has succeeded in putting his halter. It is capable of unlimited destruction or can be made to work wonders.

The method of developing and controlling this new-found might is the world's No. 1 problem of the moment. And yet even the experts were denouncing the underwater bomb at Bikini the explosive question of atomic control was being used for a football at the conference of the U. N. atomic energy commission.

The proposal of the United States for global supervision of atomic energy once more was up for consideration. This is the altruistic offer of Uncle Sam to destroy his store of atomic bombs and share his atomic secrets for peace. And if the world will set up adequate safeguards to make sure this terrible weapon never again can be used as an instrument of war.

Yesterday Gromyko again flatly rejected the American proposals. It might appear that the Soviet suspects Uncle Sam of hiding trickery under the cloak of beneficence. That suspicion would be so utterly absurd that we must look further for an explanation of the Soviet attitude.

The Moscow plan, proposing to keep the whole control within the United Nations machinery, clings tenaciously to that veto power. Observers note that under this arrangement the UN control couldn't institute an investigation within the borders of any nation possessing the veto power. In short, Russia apparently isn't willing to lessen her sovereignty to the extent of granting the atomic control agency the blanket right of investigation within the Soviet Union. She demands the privilege of vetoing investigation.

### In Hollywood

By ERSKINE JOHNSON NEA Staff Correspondent

HOOLOWOOD—(NEA)—Michael Chekov, that fine actor who should have won an "Oscar" for his work as the old professor in "Spellbound," has a new angle on this business of acting and underplaying on the stage and screen.

"Everyone is to blame," he says, "including the audiences. The audiences are shy. The people are afraid to look at emotion, because emotion is what they feel inside. They are ashamed of emotion." Chekov, who turns in another great performance in the current "Spectre of the Rose," told us an amusing story about himself. He and Moise, the late German actor who was famous for his portrayal of Hamlet, were great friends when they were young. But there was a little jealousy between them—Chekov played Hamlet, too.

"I would try to watch his Hamlet," he grinned, "but I always left after the third scene. I felt badly because I couldn't like Moise's Hamlet."

Then, one day, a friend told me: "Michael, your friend Moise comes here to see you in Hamlet—but, you know, he always leaves after the third scene."

BLARING GOLDWYNISMS  
Someone asked Sam Goldwyn how his latest Danny Kaye film, "The Kid from Brooklyn," was doing at the box-office.

"Terrific—sensational," said Sam. "It's out-grossing 'Going Somewhere' and 'The Bells of St. Vincent's.'"

Frank Jenks was about to do a re-shooting scene for "White Tie and Tails," and director Charlie Burton asked if he needed any instruction in handling the ivory.

"No," said Frank, "but this will be the first time I've made any ivory at it."

Gale Sondergaard took her two children, five-year-old Joan and

## NATIONAL WHIRLIGIG

news behind the news

By GEORGE S. BENSON President—Harding College, Springfield, Arkansas

### DECISIONS

Men and nations gain or lose by the quality of decisions they make. Founders of this remarkable republic made a wise decision long ago, in favor of personal self-reliance and individual achievement. America is great today because so many smart people were left free to do as they knew how, and gain as much of a reward for themselves as they were able.

Not all Americans are models of progress and success but they all have benefited more or less from the achievements of those who did have the immortal spark. You can't pick successful men before they try, but more men of outstanding talent are sure to come to light where everyone is free to do his best. A large number of thinkers at work always adds up to more for everybody.

### NOT LUCK AT ALL

People may orate about America's greatness and her vast natural resources. The resources exist all right but the redskins had them before Columbus came and didn't know the use of a wheel. Some people boast of this nation's blue-blood heritage. It was good. Our forebears, in large part, came from Europe. That was probably the smartest thing most of them ever did.

America's economic system is what made America great. It is a system of liberty giving every man the right to pick what he wants and go after it hammer-and-tongs, get it if he can and enjoy it to the extent of his capability, so long as it does not trespass the rights of somebody else. It is a sprightly and dynamic economy, quickly adjustable to changing times and conditions.

### WHAT DEVELOPED?

Limitless opportunity and keen competition have borne a rich harvest. Our farmers live better than the peasantry of some foreign lands. Our laborers have more than workers anywhere have ever had at any time. America has the greatest abundance of other care than the rest of the world combined.

During the last two years of World War II, from a startled start in December 1941, America made more war materials than all her allies and her foes put together. An American carpenter can buy more with his pay for a day's work than any other carpenter anywhere—2 1/2 times as much as a carpenter in Germany or France. And the same goes in all trades; the butcher, the baker and the street-car conductor.

### HOW IT WORKS

Freedom of opportunity fires everybody to try; men of great genius come to light and the whole nation benefits. Then competition between men of special ability stimulates them to zealous effort in developing products of excellence at fair prices to get and hold their profitable markets. This enables America's middle class to enjoy luxuries unknown to run-of-mine junkies.

### Typical

The ups and downs of the Constellation constitute a typical chapter in the history of aviation, according to the experts, although this machinery calls for a greater book of plane progress.

### Gracie Reports

By GRACIE ALLEN

Well, I see that General Eisenhower would never be awarded five stars as a corn-meal mush cook. When he and his f o u r brothers went to the North Woods on a fishing trip, General Ike took over the cooking chores and turned out some mush which he said was "passable." However, the very next day his brothers suddenly announced they had caught the limit of fish and packed up and went home.

It is believed by a great many thoughtful people that financial turmoil will follow the termination of the OPA, no matter when it is terminated. If that belief is well founded, we are merely postponing a headache when we extend the life of the OPA for another year. And many people are disposed to feel that if we are going to have trouble anyway, why not have it now and get it over with? Of course there is the possibility that the resultant upfear would be less severe in 1948 than it would be at present. But, on the other hand, it might fall with even greater fury in 1948 than it would right now.

But there is one thing as certain as grim death and excessive taxation. The day will never come when the stary-eyed sons of the bureau will admit that the OPA can be dispensed with. No matter when the order is permitted to die, its suspension will be opposed violently by those who believe that it is the solemn duty of the government to control everybody's business. Leave it to them and the OPA will live as long as the republic.

### Sheetrock Supply is Believed Sufficient

DALLAS—(P)—The army's order for two and a half million feet of sheetrock for Camp Hood, Texas, will not seriously hamper the veterans housing program in this area, regional housing expediter Joseph P. Tufts said.

Tufts said that a check of five plants manufacturing wallboard in the southwest revealed a production expectancy of 139 million feet in the next six months.

Tufts also said efforts were being made to get surplus building material from Camp Wolters at Mineral Wells and Camp Barkeley at Abilene for the program.

### Peter Edson's Column:

## SOME LITTLE NEWS ABOUT BIG PEOPLE

WASHINGTON, (NEA)—Congressman "All for Love" Frank Boykin of Alabama is running for the late John Bankhead's seat in the U. S. senate. Boykin comes from Mobile and isn't too well known in the northern part of the state. So, recently, he got in a car and told his driver to go up north, just as far as he could go. Boykin wanted to win some new votes for himself and influence some voters.

He came at last to a little town with a crowd ready-made around the general store. Frank introduced himself and proceeded to make a speech in the best flowery Boykin style. When it was all over, one of the crowd came up to shake his hand.

"It was a great speech," said the native, "and I shure wish I could vote for you. But I can't. This town's in Tennessee."

One story that didn't get on the cables from the atomic-bomb test at Bikini—concerns a six-foot-three scientist who was constantly bumping his head against the low pipes and bulkhead doors on the press ship Appalachia. One night he cut open his forehead pretty badly. They

gave him bleeding to the sick bay, and the doctor patched him up. "You know this is purely psychological," said the doctor. "You just forget about these low passageways. So, to impress them on your consciousness, sit down here and write on this sheet of paper 100 times, 'I must not bump my head.'"

To the eager scientist, this sounded like sensible psychiatric medication. He sat down and wrote, "I must not bump my head," 100 times. Then he smiled with satisfaction, pushed back his chair, stood up proudly—and bumped his head against the ceiling.

SILVER'S PRICE RISE BOTHERS SENATOR MCKELLAR  
Sen. Kenneth McKellar, of Tennessee, as chairman of the Appropriations committee, was presiding over hearings on Treasury and Post Office bills, to which there was attached a rider providing for an increase in the price of silver.

From 1933 to the present time, how much has the price of silver gone up? asked McKellar of a Treasury witness. "I am thinking about an ounce of silver," McKellar explained, "and this is important. Because of a little personal experience, I ask you this question. 'Somebody got married, and I

reached into his inside coat-pocket for his notes. They weren't there. Quickly his hands dove into his other coat-pockets, then into his pants-pockets. A frown crossed his classic brow. The audience began to titter. Back into the inside coat-pocket. The breast-pocket. The pants. Then over the route again, with no more luck.

Just as McDonald got to the place where he was to say, "And now, ladies and gentlemen, I give you Secretary Wallace," that gentleman walked off the stage with a backward wave of his hand that said "Fooooey," more plainly than words. The audience roared.

Wallace came back in a minute, still fumbling in his pockets, but determined to make the speech without notes if necessary. Then, as he began, he made one final dive into his inside coat-pocket, and there were his notes. The audience applauded. Henry blushed. "I didn't know this pocket had a false lining in it," he apologized.

Every speaker after that made some crack at Wallace's embarrassment. "This is indeed the Century of the Common Man," said one, "when even the Secretary of Commerce has a hole in his coat."

We are grimly determined not to only put the world back where it was. We know that the world as it existed was just not good enough. — UN Secretary General Trygve Lie.

WASHINGTON, (NEA)—The secrecy laws around the Civil Aeronautics Board's grounding of the Lockheed Constellation after two accidents in Connecticut and Pennsylvania serves to conceal the important fact that the mishap was incidental to America's attempt to grow bigger and better wings than any other nation has had in the past.

There is no truth in the widespread rumors that the CAB showed carelessness or favoritism when it certified a four-motored Constellation plane for civilian use after it had been rejected by the Army Transport Corps for military service.

A. T. C. engineers, experts and impartial pilots swear that the Constellation is an excellent design for commercial purposes after it has been subjected to minor modifications. Preliminary inquiries indicate that human error rather than mechanical faults was responsible for the recent accidents.

The inside story is extremely important, in view of the growing popularity of air transportation and its advantages to the nation in postwar rivalry for commercial supremacy. It reveals that Federal supervisors, as well as the builders of American planes, are taking every possible safety precaution.

DEFICIENCIES—The Army Transport Corps did acquire about 15 Lockheed Constellations in 1942 to supplement its service in hauling heavy cargoes around the world. But after months of experimentation it found that the Lockheed product was not entirely satisfactory for this purpose because of certain weight and balance deficiencies.

The plane could have been modified to meet A. T. C.'s objections. But the Army had in production so many other more suitable types—the DC-3, for example—that it was not overhauling was not worth the time and expense during the world emergency.

So, it canceled its contracts for more Constellations, and concentrated on other types. It is this move which has given rise to the charge that the CAB erred when, a year ago, it okayed the Constellation for civilian flying.

The indictment against CAB was that if this model was not sufficiently safe for wartime fliers, who must take chances, it should not have been placed in operation for everyday travel.

FAILURE—The big, four-motored ship is admittedly difficult to handle, and its upkeep is expensive. It puts greater demands on pilots and ground crews, which may explain why some military and civilian fliers have complained that it was not airworthy in its present design.

The Constellation has an "induction" as against an "injection" motor. Not to grow too technical, this means that the air sucked into the fuel stream makes the engines more subject to fuel hazards. But CAA tests showed that this danger can be overcome—in fact, it has been—by proper piloting, mechanical changes and careful checkups by ground mechanics.

In fact, some Federal experts believe that the recent accidents were due largely to the failure of the men responsible to give the necessary overhauling and handling to the planes which figured in the accidents.

Pending further experiments, however, the Lockheed people are installing "injection" motors in place of the "induction" type. The substitution means less power and speed and altitude, but these commercial losses will be compensated for by a maximum of safety for the passengers and crew.

Typical—The ups and downs of the Constellation constitute a typical chapter in the history of aviation, according to the experts, although this machinery calls for a greater book of plane progress.

Every new and more modern design has met difficulties. Pilots and ground workers crab because it imposes additional strain and burdens. The weight of the engines and technical advances reduce the size of the labor market.

All three groups grouched when such superb ships as the Boeings and Douglas's first came on the market. As with locomotives, automobiles and ocean liners, every advance and technical improvement precipitates human opposition.

Incidentally, postwar blueprints of all kinds of planes—fighters and bombers, transports, individual models for private flying—make even the 1945 types seem obsolete.

If the trade thinks that the "induction" type of Constellation is something out of this world, wait until they view forthcoming models!

BASEBALL—The rivalry between Mexican and American baseball interests embarrasses the American State Department almost as seriously as do Anglo-American clashes with Russia over economic, political and territorial aims. Promoter Angel del Rio of Mexico City worries "Jimmie" Byrnes as much as does Spanish Dictator Franco.

American club owners, resentful over their stars' shift to the Mexican league, have exploded with sulphurous remarks which wounded the sensitive Latin Americans, who regard the game as a new industry rather than sport. They have complained to the Mexican Embassy at Washington, which has filed formal protests with the State Department.

The Mexicans do not seem to realize that Leo Durocher, Lou Boudreau and Clark Griffith are not official spokesmen for the administration. Nor do they understand that we do not consider the national game in the light of politics or diplomacy. Therefore, their indignation when our diamond experts refer to their enterprise as a "bush league." That is tantamount to referring to Mexico as a "minor or backward state."

Luckily, "Jimmie" Byrnes is a fan and a buddy of former Senator A. B. (Happy) Chandler of Kentucky, now baseball czar. Which explains why the violent outbursts against Senator Pasquel's "raid" on our star players have disappeared.

LIGHT IN 'EGYPT'—CAIRO—(P)—Grime has taken a holiday in Alexander county embracing this river city, and for one of the few times in recent years there was no need to convolve a grand jury.

Bambo, a bulow-stemmed plant, has been known to expand 16 inches in a day.

### Stevenson Urges Air Day Be Established

AUSTIN—(AP)—Gov. Coke Stevenson has urged establishment of an annual air day in Texas in a proclamation setting Sept. 7 as the state's first air day and designating Harlingen as host city.

Rio Grande backers of the idea told the governor they want to make air day the occasion for an annual aviation show, both spectacular and educational, with participants from every state in the union, from Mexico and other Latin American nations.

Hawthorne Phillips, Harlingen headed the delegation which flew here for the signing of the proclamation. Phillips is chairman of the air day committee.

Phillips said preparations are being made for 80,000 visitors for the first annual air day show at Harlingen.

### SHOTGUN IN GOLF BAG GOOD FOR BIRDIE

SYDNEY, Australia—(AP)—Golfers at the country town of Narromine are packing shotguns in their bags to shoot flocks of crows which swoop down on their glistening white golf balls. Gunfire is the only thing which will scare off the petty thieves.

### No's Shouted After Proposal

WASHINGTON—(AP)—House supporters of terminal pay for GI's and GIs shouted an emphatic "no" today to the senate's plan to issue bonds cashable only after five years.

Rallying behind the cry that "if cash is good enough for officers it's good enough for the enlisted men," the group planned to fight for restoration of the original house provision for lump sum payments.

That fight will be made in a senate-house conference to which the bill passed by the senate late yesterday may be sent by nightfall.

Rep. Sikes (D-Fla.), chairman of the military subcommittee which wrote the house bill, and Rep. Dwight L. Rogers (D-Fla.), its sponsor, told reporters they will demand a reversal of the senate's position.

Rogers and Sikes both noted that the bond payment plan was not even considered by the house when it passed the bill without a dissenting vote on June 11. The senate action yesterday was by voice vote.

The bond provision, suggested by President Truman after the house acted on its own bill, provides that payments generally are to be in bonds unless the amount is less than \$50. In that case the recipient would get cash.

### NOTICE OF SALE—SURPLUS GOVERNMENT REAL ESTATE PROPERTY

The Federal Farm Mortgage Corporation hereby gives notice that it now has available for disposal under the Surplus Property Act of 1944 and Regulation 5 of the War Assets Administration, the following real property which has been declared surplus by the Government: two tracts of land aggregating approximately 800 acres, together with any easements thereon not reserved, identified as follows: all of Section 29, Block 23, H. & G. N. R. Co. Survey, and the Southeast quarter of Section 94, in Block 23, H. & N. R. Co. Survey, all of said property being located in Gray County, Texas, and known as the McLean Prisoner of War Camp. No buildings will be sold with the land and all sales will be subject to a reservation for removal of all government owned buildings and improvement now on this property and subject to reservation by the United States of America, in accordance with Executive Order No. 9701, approved on March 4, 1945. (1) 1/4 of all fee simple materials in the above described land, together with the right at any and all times to enter upon the lands and prospect for, mine and remove such materials with all necessary and convenient means of working and transporting or visiting Mr. Fred Cotton, the Project Manager, at 228 Mays Building, P. O. Box 1842, Amarillo, Texas. SALES PRICE AND TERMS AND CONDITIONS OF SALE—and the method of submitting offers to purchase will also be available at the office of the Project Manager at the address given above.

### BIRDS OF A FEATHER NOW ROOMING TOGETHER

DENVER—(AP)—Occupants of an apartment house were puzzled to see a pigeon repeatedly banging its head against a brick wall on the roof. They called Humane Officer William B. Wheeler.

Wheeler climbed up and found a ventilator that had been sealed with

bricks. Twenty-eight of the pigeon's pals were imprisoned inside.

Mrs. Gertrude Hamm, owner of the building, was so impressed by the pigeon rescue she promised to turn the attic over to them.

Petroleum is a complex mixture of hydrocarbons and their sulfur, nitrogen and oxygen derivatives.

Gibbons are the most primitive of the anthropoid apes.

As far as science can learn, Ice-land had no aboriginal inhabitants.
