

FOREIGN MINISTERS WEIGH AMERICAN PLAN

Opposers of OPA Get Set For Showdown

WASHINGTON—(AP)—A power drive to clinch price control exemptions for meat, milk and sundry other items gathered steam today as the senate nudged an OPA revival bill toward passage.

Republicans go behind the new campaign after barely failing to rip from the measure provisions which Senator Taft (R-Ohio) said could prevent manufacturers from getting needed price increases.

The GOP objective was to compel the house to vote specifically on the various decontrols already ordered by the senate. Administration leaders were worried over the outcome. They conceded privately that the house might go along and that President Truman again might feel compelled to toss out a veto.

This is the strategy, as outlined by Taft to a reporter:

Once the senate passes its measure to bring OPA back to life in slimmer form, the bill will have to go to a conference committee so differences with the house can be straightened out.

(So far the house has passed only a bill to continue OPA until July 30 in its pre-death form.)

However, amendments are being drafted—and the senate will be asked to approve them—telling the senate conferees to stand pat on amendments outlawing any future price control on:

Meat, poultry, milk, petroleum, cottonseed, soy beans and their products.

Senate insistence almost certainly would compel the house conferees to drop these decontrols before the full chamber for test ballots. Taft said these votes probably would nail down the exemptions.

Hughes' Condition Bad; Gives Cause Of Plane Accident

LOS ANGELES—(AP)—His battle for life suddenly weakening, Howard Hughes, 41, allowed his doctor to his bedside last night and whispered a halting story of the cause of his fiery crash Sunday in an experimental plane.

"I want you to give this message to the army. The accident was caused by the rear half of the right propeller," the millionaire maker of planes and movies told Dr. Verne R. Mason.

"I don't want this to happen to anybody else."

Explaining carefully that the rear set of propeller blades on the right engine of his twin-engine plane had suddenly reversed during the first test hop, Hughes said:

"It felt as if some giant had the right wing of the airplane in his hand and was pushing it back and down."

"Tell the army to look in the wreckage, find the rear half of the high propeller, and find out what went wrong."

Hughes gave his message to Dr. Mason after asking, "Am I going to live?" and asking the physician solemnly to reply:

"I don't know."

In a bulletin on Hughes' condition, issued when he disclosed the airman's first words on the cause of the crash, the doctor said:

Hughes has suffered a turn, for the worse in his fight for life. His left lung has failed to respond and is still functioning. He is surviving through the restricted use of his right lung, the extent of which is being watched.

"He is breathing pure oxygen 24 hours a day."

Hughes' XP-11 photo-reconnaissance craft, reportedly the world's fastest long-range plane, struck and set afire three houses and a garage in Beverly Hills before crashing and exploding in a vacant lot.

"Giving his own story of the crash, Hughes said:

"The front four blades of the propeller were trying to pull the airplane ahead while the rear four blades were trying equally hard to push it backward. To make matters worse, these eight large propeller blades, whirling around fighting one another, created a dead drag on the right-hand side of the airplane equal to that of a steel disk, 17 feet in diameter, turned broadside to the wind at several hundred miles per hour."

Hughes said he unfastened his seat belt and looked out the cabin to see if any part of the plane might have torn loose, creating the drag. He saw nothing out of order.

"I have thought about it carefully," he said. "I am absolutely certain it was the propeller."

83 More Houses Being Built Here

Construction has begun on 83 more houses by Hughes-Pitts, Inc., it was announced by Dick Hughes, a vice head of the organization.

Hughes said the houses, which will be constructed only as materials are available, will be for veterans. They will be four-, five-, and six-room structures, and will be built in what is to be known as the Wynnton addition. This addition lies between Talley addition and Pampa proper. The houses will be situated on Sumner, Nelson, Wells and Dwight streets.

Hughes has already constructed 273 houses in Pampa, said materials are still difficult to procure but that he thought, since some of the difficulties had been ironed out, more would be on the market within the next 60 days.

He said he had men traveling almost all time, seeking different kinds of materials.

Soviet Demanding Large Reparations

PARIS—(AP)—Secretary of State Byrnes said in a statement on German reparations today that the Russians already have received directly or indirectly \$14,000,000,000 in territory and equipment.

The Russians through Foreign Minister V. M. Molotov demanded \$10,000,000,000 reparations of Germany earlier this week.

Byrnes acknowledged that an accurate valuation was difficult, but he said the detachment of eastern Germany, including Silesia, as decided at the Potsdam conference, placed \$14,000,000,000 worth of German property under Soviet control.

Under another agreement, this area was placed under Polish administration in compensation for portions of eastern Poland which Soviet Russia absorbed, the secretary pointed out.

The council of foreign ministers heard a proposal by Byrnes for economic unification of Germany but no decision was reached. France demanded that the Saar be excluded from the unification and integrated into French economy, and Russia asked more time to study the Saar, an American informant said.

Politicians Seek To Sway Voters As Yet Undecided

By The Associated Press

It's that unbranded voter the political candidates are looking for these days.

And with the roundup time only two weeks away, the riders of the campaign range say:

"I ain't mad at nobody," says Beauford H. Jester. "I'm not replying to anybody."

Jester told voters in Mineral Wells that just because someone has held a lot of public offices was no reason to elect him to another.

"I'm your best bet—I've been in office just long enough to be seasoned, but not spoiled."

Someone is stealing the plans out of my platform, Grover Sellers said, meaning Jester. He cited the broadening of extension service at Texas A. & M. as an example.

"That was one of the original plans in my platform," Sellers said in Bremond, "and about the fifth one the commissioner has belatedly adopted, possibly after he found out it was popular with the voters of Texas."

John Lee Smith asked Rainey where these great sums are coming from with which he proposes to buy this radio time.

"His efforts to get more radio time after being on the air most daily for six months reminds me of a big hog trying to root the pigs out of the trough in order to have all the swill himself—and then squealing because the swill barrel is empty," Smith said.

Homer P. Rainey said in Odessa that he believed "a major scandal" was approaching over the subject of pardons and paroles.

"Too many hardened criminals are being returned to society to continue their depredations," Rainey declared.

At Odessa, Rainey was introduced by former Mayor A. J. Burks. West See STATE POLITICS, Page 8

Bald Truth Will Stay Undecided

CHICAGO—(AP)—Two Chicago judges engaged in a friendly out-of-court contest yesterday to determine the bald truth—but they refused to split hairs and no verdict was decided.

It all started when Judge Matthew D. Hartigan, sitting in felony court, received a birthday gift of a hairbrush with the bristles removed and replaced with a yellow polishing cloth such as used by baldheaded men.

The sender was Judge Charles E. Byrne of criminal court, whose head is as bare as Judge Hartigan's.

Judge Hartigan dashed into Judge Byrne's chambers, waved the hairless hairbrush in the air and shouted: "You should have kept it. I've got at least two more hairs than you."

The judges started counting hairs on their heads but before they finished Randall Jordan, baldheaded shoeshine boy, appeared in the chambers.

The judges decided to give the birthday gift to Jordan. He didn't say whether he would use it on his head or on his customer's shoes.

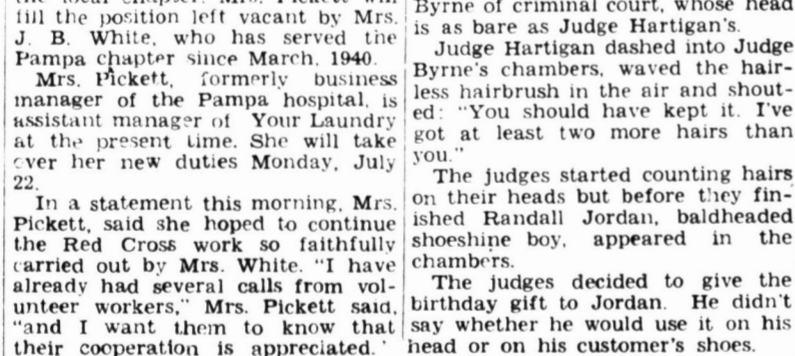

Mrs. Pickett Is Red Cross Head

Mrs. Mildred Pickett, 217 E. Kingsmill, was elected executive secretary of the local Red Cross chapter according to an announcement today by Hurlon Laxcock, chairman of the local chapter.

Mrs. Pickett will fill the position left vacant by Mrs. J. B. White, who has served the Pampa chapter since March, 1940.

Mrs. Pickett, formerly business manager of the Pampa hospital, is assistant manager of Yvonne Laundry at the present time. She will take over her new duties Monday, July 22.

In a statement this morning, Mrs. Pickett, said she hoped to continue the Red Cross work so faithfully carried out by Mrs. White. "I have already had several calls from volunteer workers," Mrs. Pickett said, "and I want them to know that their cooperation is appreciated."

INITIATIVE COOKS UP A VACATION.—If their overhauled 1931 Ford double-decker truck holds out, these boys will have a 10,000-mile vacation trip to talk about at the end of the summer. Dick Jahnke, 17, in the upper bunk; Wolf Dreves, 17, standing beside the car, and Morris Parker, 16, all of Staatsberg, N. Y., are taking along a paint spray gun to earn their expenses by doing odd painting jobs along the route. Their provisions included an eight-pound ham and a fruit cake.

Hope Dwindles For Balanced Budget in '47

WASHINGTON—(AP)—Government economists all but gave up today their hopes for a balanced federal budget this fiscal year.

Despite President Truman's announcement late yesterday that "government expenditures will be reduced," some officials close to fiscal matters said they fail to see how two to three billion dollars can be lopped off.

That is the probable difference, they predict privately, between federal income and outgo in the new fiscal year only 12 days old.

Mr. Truman named the army and navy, along with veterans' programs, as about to undergo a "review" to find ways of cutting expenses without "endangering national security or causing unjustified hardship."

Such cuts—as well as any possible in public works, highway agencies—were urged by Reconstruction Director John R. Steelman yesterday as a way to lessen the inflationary effects of public spending.

But Steelman and the chief executive termed quick passage of a "workable" OPA bill the only guarantee against inflation, but they said stabilization would be aided "powerfully" by reducing the outgo on public works keeping taxes high and controlling credit expansion.

The report declared that a balanced budget, or a surplus, is "highly desirable."

But reconstruction officials now estimate that running the government, until next June 30 will cost about \$42,000,000,000 instead of treasury's January estimate of \$35,800,000,000.

As a compensating factor, however, government income has soared, now. Now some government economists think it will go close to \$40,000,000,000 if tax revenues keep pouring in at the present indicated rate.

In other words, if business stays good, it strikes as infrequent and tax rates stay high.

But this still leaves a gap of \$2,000,000,000 or \$3,000,000,000 which may prove hard to close, especially in an October year.

Steelman did not state which army and navy expenses he wanted to cut, but some of his aides indicated the axe might fall upon military building which is going on overseas and at home; upon the civilian staffs, which remain large; on proposed new uniforms and on other expenses not directly related to paying, feeding and transporting troops.

Steelman said three fifths of all the planned military outlays are in the latter category. But he termed the military the logical place to start an economy review because it represents "not far from half" the total national budget, except interest on the debt and tax refunds.

Steelman's report, his first since taking over the reconstruction office, was summarized in a statement issued by Mr. Truman at his news conference.

Production by midyear, it said, had reached the highest level ever attained in peacetime; Americans are "earning more money and purchasing more goods than ever before."

"More people are working now," Steelman said. See BUDGET BALANCE, Page 8

Americans Would Buy Over 5,500,000 New Automobiles

DETROIT—(AP)—Orders on hand for new passenger automobiles now total something in excess of 5,500,000 units, according to authoritative estimates.

If the car industry follows the anticipated pattern, the production should catch up with accumulating demand by the end of 1947 or early 1948. Trade experts plotting production trends forecast that assembly plants will turn out about 2,000,000 passenger cars between now and next Dec. 31, and said about 4,000,000 more in 1947.

These figures represent the more realistic thinking of the industry's conservative executives. None of these leaders ever placed much faith in reports that the war had piled up a backlog of demand for more than 12,500,000 vehicles. The latter figures, these executives say, more truly represents probably demand over five to six years, taking into account annual normal replacement requirements.

Sales managers say that prices will be more of a factor than ever before in determining the volume of demand. Demand for cars from buyers to whom costs are secondary probably will be filled by early 1947.

2 Benjamin P. Fields, Washington, said the committee has duties included review of millions of dollars of advance payments to Garsson's munitions combine.

He also testified that Chairman May (D-Ky) of the house military committee had recommended that he be reinstated to the District of Columbia bar, from which he had resigned under "pressure."

May has acknowledged interceding with the war department for Garsson's interests, but has denied any personal profit.

Developments outside the hearing room included:

1. President Truman told his news conference that Mead's war investigating committee has his full support in its profit probing. Mr. Truman used to head the committee when he was a senator.

2. Benjamin P. Fields, Washington, press agent accused by Senator Mitchell (D-Wash) of offering him \$25,000 to help him.

Pampan Slightly Injured in Crash

Robert Addington, son of Frank Addington, 14 Mary Ellen, miraculously escaped serious injury yesterday when the motorcycle on which he was riding was in collision with an automobile at the intersection of Mary Ellen and Georgia streets.

Addington was rushed to a local hospital in a Duenkel-Carmichael ambulance but X-ray examinations showed that a head injury was not serious.

Some witnesses reported that Addington was thrown off the motorcycle and his head hit the curbing.

According to a report made by City Patrolmen Buck Gales and Ernest Winborne, Addington was going south on Mary Ellen when his motorcycle was in collision with a car driven by Mrs. Ruth Thomas, wife of Ralph Thomas, county agent.

Mrs. Thomas was also going south on Mary Ellen and was turned into the gutter when the accident occurred.

The damage to both vehicles was slight.

Warning on Parking Meter Is Issued

Definite and serious action will be taken against anyone found to be tampering with parking meters on downtown streets, according to a statement made by city officials today.

Chief of Police Louie Allen reported today that the small glass pane has been broken in at least 22 parking meters and there have been other indications of damage to the meters, much of it through careless parking.

City Manager Garland Franks said that a charge of destruction of public property can be very serious and that the city is going to "do everything in its power to stop the destruction."

Many meters have been damaged when motorists allowed their cars to "jump" the curb and strike the meter.

Pampa News

VOL. 44, No. 82. (8 Pages) PAMPA, TEXAS, FRIDAY, JULY 12, 1946. Price 5 Cents AP Leased Wire

SYMBOL OF GRATITUDE—President Manuel Roxas of the new Philippine commonwealth passes a flag which is his personal gift to President Truman. The flag expresses Philippine gratitude for the grant of independence from the United States. Mrs. Roxas, center, and Mrs. Osmena, right, wife of the former Philippine head, appear with him in Manila.

'Formal' Invitation Is Extended to May

WASHINGTON—(AP)—The Senate War Investigating committee today formally invited Rep. May (D-Ky) to testify publicly in its munitions inquiry. May declined to say whether he would comply.

The committee made public a letter which said that May's secret testimony June 4 "did not furnish the full, complete and accurate facts as to May's activities in connection with a chain of Illinois munitions makers."

May told reporters:

"I have received a letter and will answer it in due course."

He refused to say more, or to indicate when he might make his reply.

Chairman Mead (D-Ny) read the letter of invitation as the committee resumed its inquiry into the activities of the combine promoted by Henry Garsson, one time internal revenue agent.

Senator Ferguson (R-Mich) termed the letter to the chairman of the house military committee "only the first step" toward getting May's testimony on the record.

He added that the second step—presumably if May declined to appear—"should be a subpoena."

Garsson said he was "rarin to go" to present his case.

"I am ready to say a lot of things," he said, "but I don't want to be a newsman after hearing Chairman Mead (D-Ny) describe testimony thus far as beyond the ken of 'the most imaginative writer of fiction.'"

Garsson waited much of yesterday afternoon while the committee questioned Albert W. Jacobson, who resigned from a \$1,620 a year war department job as clerk-typist to consultant in the legal branch of the chemical warfare service at \$9,975 a year.

Jacobson told the committee his duties included review of millions of dollars of advance payments to Garsson's munitions combine.

He also testified that Chairman May (D-Ky) of the house military committee had recommended that he be reinstated to the District of Columbia bar, from which he had resigned under "pressure."

May has acknowledged interceding with the war department for Garsson's interests, but has denied any personal profit.

Large Citrus Crops For 1946-47 Seen

WASHINGTON—(AP)—Large citrus crops for the 1946-47 season were predicted yesterday by the agriculture department with the orange condition on July 1 at 80 percent against 30 percent in 1945.

Orchards in Texas are starting the summer period in good condition, the department said.

Top o' Texas Rodeo, Show Parade Confests Announced for August 16

Various events of the Top o' Texas Rodeo, Horse Show and Fair Association, Inc., set for August 16, 17 and 18, are taking shape while minute details are being discussed to make this first postwar rodeo in five years one of the best.

Latest announcement concerning the three-day celebration is the parade which will precede the first night performance, August 16. The parade will be the second event of the rodeo; the Palomino Horse show will be held Thursday, Aug. 15.

Paul Crouch, parade chairman, in an announcement today, especially urged civic clubs, American Legion, Red Cross, Boy Scouts, Girl Scouts, B. & P. W. club and any other organizations, to enter the parade contest. The entry may portray any idea, Crouch said, and the theme need not be necessarily western. Prizes of \$10, \$5 and \$2.50 will be awarded the three place winners.

To the three winners in the most typical ranch entry, the same prize money above will be awarded. Examples of previous ranch entries are chuck wagons, covered wagons, surreys, hacks and stage coaches.

Third Polio Case Is Reported in County

Pampa's second and the county's third polio case this season was announced this morning to Dr. Roy A. Webb county health physician.

Tony Smith Jr., son of Mr. and Mrs. T. L. Smith, 324 North Banks street, was declared to be a mild case by Dr. Frank Kelley, attending physician. The boy's father is a welder for Brickell Welding Works.

Dr. Kelley told reporters the case would be sent this afternoon to the Plainview clinic, which has been designated by the National Foundation of Infantile Paralysis as a polio center for the Pampa and county areas, due to the fact that there are nurses there who are trained in the treatment of polio and doctors who have made special study of the disease.

Tony, three years old, has been ill with signs of our cleaning drive for the past eight or ten days, Dr. Kelley said. He suffered a stiff neck and a little fever.

This morning the youth developed more fever and gastro-intestinal condition. He has mild paralysis of the left shoulder and the left thigh muscles.

A spinal puncture made this morning showed a positive, but mild, case.

Dr. Webb who has been directing sanitation work throughout the county in connection with a state and city clean-up campaign, said: "This puts on our cleaning drive. We are predicting a fairly heavy epidemic in August unless we get the county cleaned up. I don't mean maybe in saying this. I am not putting this in the paper to scare anybody."

One other Pampa, a 15-month-old child, and a young boy from McLean have been reported as cases previously this season. The small boy, now living in a local school, while the McLean youth was admitted to the Plainview clinic.

Pampa Residents To Pay More in Taxes for School

City residents will soon begin paying more school taxes but city tax payments will generally remain the same, City Manager Garland Franks said today.

Under a plan adopted by the joint city-school board of equalization, the values of property will be raised 10 per cent and will be made to conform so that city valuations will not pay more taxes, because the same City Manager Garland Franks said today.

As the purpose of the joint board is to equalize city and school valuations, Franks said, the city also will raise valuations 10 per cent, but the city tax rate of \$1.80 will be lowered in proportion so that residents will not pay more taxes, because, he said, the city does not need more funds.

The city manager added that there has been much unrest in the past when taxpayers paid the school on one valuation and paid the city a different amount on another, because of the fact that separate assessments did not show the same value.

A letter of explanation is being mailed to all city and school taxpayers explaining their new property valuations, which, in all cases, will be the same for both the city and school.

Each letter will bear the new property valuation and will carry the signature of Irvin Cole, secretary of the joint board.

The board has been in session for the past two weeks working out the changes in the tax plan.

'Double Suicide' Verdict Given in Death of Couple

CANADIAN (Special)—A coroner's jury, called by Justice of the Peace Harold Reed, returned a verdict of double suicide here yesterday afternoon in the death of W. A. Heap, well-known past surgeon for Santa Fe, and his wife, the former Miss Janet Dent, of Kansas City.

Dr. Heap, 55, and his wife, 30, were found dead in their room at the Hotel Hamilton here about 2 yesterday afternoon by an old friend, Ferman Williams.

Dr. and Mrs. Heap arrived in Canadian on Monday, registering at the hotel. Dr. Heap had told the friend that he planned to consult an attorney at Canadian in regard to a patent on a money-changing machine on which he had spent a good deal of time.

Mr. Williams, who had just returned from a trip outstate, said he visited the Heaps in their room about 5 o'clock Wednesday afternoon. He returned to the hotel about 2 yesterday and was unable to get an answer when he called the couple. Both Dr. Heap and Mrs. Heap were reported to be somewhat dependent over his failing health. The family business affairs were also reported to be in bad arrangement.

Dr. Heap is well known on the Santa Fe line. He is past head surgeon of the Santa Fe hospital at Mulvane Kan.

Only relatives known are Dr. Heap's two sisters, Mrs. Edna Clark and Mrs. Willa Clark, both of Topeka, Kas.

Funeral arrangements had not been completed this morning. The bodies were taken to the Sticker Funeral home.

Plenty of roller skates, Lewis Hardware Co. (Adv.)

Hobart Underpass Is Being Sought

A movement to secure an underpass at the Hobart street Santa Fe crossing on Highway 152 began yesterday when the public improvement committee of the Pampa chamber of commerce voted to petition the city commission for an underpass. The announcement was made today by C. A. Huff, chairman of the committee.

The movement has been discussed frequently, but this is the first definite step in carrying the underpass. The crossing is used extensively and is a definite hazard," a chamber of commerce spokesman pointed out today.

The crossing is used by Highway 60 as well as Highway 152. Persons going to Amarillo are said to use the Hobart street crossing rather than the Cuyler underpass, therefore, the traffic is extra heavy there. While only one fatality is known to have occurred at the Hobart crossing, records show numerous accidents.

The petition will be presented to the city commission at its meeting next week, Huff said.

Other members of the committee are Leon Boyd, Tom Rose, Jr., James White, J. E. Murphy, Sherman Massa, Travis Lively, Garland Franks, Earle S. Heig and Vernon Hobbs.

Warning on Parking Meter Is Issued

Definite and serious action will be taken against anyone found to be tampering with parking meters on downtown streets, according to a statement made by city officials today.

ease of mastery, through long and intimate fellowship with the Master. The distinctive thing about the religion of the Jews, from early times, was the insistence upon the supreme demands of a righteous God. Clear and plain was the commandment, "Thou shalt have no other gods before Me." Holiness was the law of life, and there was no part of life free from the presence of God and the obligation to serve Him. In this, Jesus fulfilled the law and the prophets. He gave His followers no formal tasks and set up no artificial observances or rituals. He demanded no allegiance to Himself, except in the same way that He gave allegiance to the Father. But He insisted upon loyalty to the Truth. There is no half-way place in Christianity, and that is why so many professing Christians never find either ease or happiness in their religion. It is in the lives of those who have given themselves fully to Christ, that the power, beauty, and true satisfaction of the Christian way are found and revealed.

Political Calendar
The Pampa News has been authorized to present the names of the following citizens as candidates for elective offices at their primary election Saturday, July 27.

- Precinct 2, Place 2: CHAS. I. HUGHES
- J. E. YODER

World-Traveled Christian Jew To Appear in 3 Churches Here

Sunday a squat little man with a soft voice will go into three different pulpits here in Pampa, bringing to listeners his views of politics, society, and religion throughout the world.

He is Dr. Joseph Herschel Cohen, a Christian Jew, who has traveled throughout the world, is the author of "The Jew and Christianity." He will speak at the Church of the Nazarene at 11 a. m., and his subject will be "Russia and Christianity." At 2:30 p. m. Sunday he will conduct a mass meeting at the First Methodist church, the subject to be "Palestine: Lost Cause, or Homeland?" And in the evening, beginning at 8, he will treat the subject, "The Jew, This Present War, Future World," at the Central Baptist church.

Dr. Cohen, who is a native of Charleston, S. C., declares he has spoken before nine million persons; he has brought 27,000 persons to accept Christ in his ministry; and he has spoken in 2,700 churches.

He was in Germany at the time victory came, and had been in Paris when France fell in 1940 to the Germans.

The last 15 years he has made five trips through Palestine and Europe. In response to questions from a News reporter, Dr. Cohen says he believes the problem of Palestine and the Jews is one of politics, that he thinks the Jews and the Arabs could settle their differences if the British and Russians would cease their propaganda activities, which, he thinks, both countries are carrying on in the interest of dominion. Russia, as everyone knows, he said, is seeking to extend her influence into the Mediterranean area; while the British are seeking to hold her so-called life-line to the Near and Far East.

Few people, he said, are aware of the fact that in 1918 there were about 80,000 Jews in Palestine, while today there are a million. The country is developing its agriculture. For instance in 1904 there were no fruit

He will speak at the Church of the Nazarene at 11 a. m., and his subject will be "Russia and Christianity." At 2:30 p. m. Sunday he will conduct a mass meeting at the First Methodist church, the subject to be "Palestine: Lost Cause, or Homeland?" And in the evening, beginning at 8, he will treat the subject, "The Jew, This Present War, Future World," at the Central Baptist church.

Dr. Cohen, who is a native of Charleston, S. C., declares he has spoken before nine million persons; he has brought 27,000 persons to accept Christ in his ministry; and he has spoken in 2,700 churches.

He was in Germany at the time victory came, and had been in Paris when France fell in 1940 to the Germans.

The last 15 years he has made five trips through Palestine and Europe. In response to questions from a News reporter, Dr. Cohen says he believes the problem of Palestine and the Jews is one of politics, that he thinks the Jews and the Arabs could settle their differences if the British and Russians would cease their propaganda activities, which, he thinks, both countries are carrying on in the interest of dominion. Russia, as everyone knows, he said, is seeking to extend her influence into the Mediterranean area; while the British are seeking to hold her so-called life-line to the Near and Far East.

Few people, he said, are aware of the fact that in 1918 there were about 80,000 Jews in Palestine, while today there are a million. The country is developing its agriculture. For instance in 1904 there were no fruit

trees in Palestine; now there are 21 million.

"The best Arabs and the best Jews can get together now," he explained. "I think the whole problem of Jewish-Arabic relations will settle itself in time if politics is left out."

He was asked: "Do you, with your background as a Jew, believe it is practicable to take into Palestine at this time the 100,000 Jews recommended as a number for entry?"

He said he thought the country could take care of that many at this time, but that he did not think more than that should be admitted at this time.

He pointed out the following as examples of progress in that country:

1—The waters of River Jordan

have been harnessed and the Ruthenberg dam has been built—bringing to millions of acres plenty of water.

2—A railroad has been built from Cairo to Jerusalem, making it possible to ship fresh fruits from Jerusalem one night and have them accessible to the public the next morning.

3—Tel-a-Viv and Haifa, both predominantly Jewish, have been modernized completely. Eight million dollars has been spent in building a new harbor at Haifa.

Jerusalem's King David hotel, declared to be the finest in all Asia, was greeted at a cost of \$3 million.

The 1,850,000 motor vehicles in France in 1938 have been reduced by more than 50 per cent.

SUNDAY SCHOOL LESSON
JESUS AND SUPREME
Scripture: Exodus 20:3-6; Joshua 24:16, 22-24; Luke 14:25-27.

By WILLIAM E. GILROY, D.D.
Years ago, traveling in Colorado, I had a casual and very friendly meeting with a fellow-traveler, an Episcopalian minister. We talked about various things, and in the course of our conversation he spoke of the adjective of what he called "easy religions."

When he referred specifically to Methodists, I was both surprised and amused, for I had grown up in a very strict Methodist home in which we didn't dance, play cards, attend theaters, or do a hundred other things that even Methodists do today. And we were inclined to think of our Episcopalian friends and neighbors, who did most of those things, as members of one of the "easy religions," though we hadn't used the phrase.

It goes to show how little we understand one another, and how much there is in the point of view. There are, of course, easy-going people in all denominations, just as in all denominations there are earnest souls whose religion is the supreme and dominating thing in their lives.

True Christianity is not an easy religion. Jesus never offered His disciples ease or pleasure. He offered them joy.

He bade them in a very dark hour to be of good cheer. He spoke of rich rewards of service in the Kingdom of Heaven. But He always spoke of sacrifice, of losing and leaving certain things which in the eyes of the world were greatly to be desired. In contrast, Jesus spoke of the Kingdom as a pearl of great price, which one should be willing to sell everything to buy.

The late C. Sylvester Horn, famous minister, Whitefield's Taborite, in London, England, once wrote a book under the title, "The Life That is Easy." It was a Christian life of which he was writing, but he was writing of it from the standpoint of the Christian who had accepted the full obligations of the Christian way and the disciples of the Christian life. The ease that he wrote of was the

THE RECORD SPEAKS

Figures and facts speak loudly, for folk make figures and facts just what they are! We find that during the past five years of the ministry of Brother Carver, that there have been 1,066 additions to the church, and of this number 321 by baptism. From July 15, 1945, to July 14, 1946, 388 have joined the church; 125 of these came by baptism. Many, many of our church members can remember when the last cent of indebtedness was paid off on the church building. Was that a happy day!

SOCIETY

Bunnie Shelton Is Club Hostess

Miss Bunnie Shelton, 1108 Terrace drive, was hostess to the Las Cressas club Tuesday evening at a regular weekly meeting.

Miss Shelton presided at the business meeting. An ice cream freeze and theater party was planned for the club members and their guests. The party will be held at 7 p.m. Tuesday. The group is to meet at the home of Misses Barbara and Eleanor Carruth, 1018 Mary Ellen. From there they will go to the City park for the ice cream party and then to the theater.

Miss Mary Lou Mazey was appointed to make invitations for the party and Miss B. Carruth was appointed to head the ice cream committee.

Attending were those mentioned above and the following members: Misses Wanda Hilburn, Roberta Smith, Marjorie Taylor, Rosamond Allen, Mildred Groves, and Helen Gowdy.

Class Has Covered

Dish Luncheon in Home

TEL class of the Central Baptist church met in the home of Mrs. Pearl Erwin for a covered dish luncheon Thursday.

Business meeting was opened with a prayer by Mrs. Zula Taylor. Mrs. Betty Small led the devotion. Mrs. O. H. Gilstrap, president of the class, had charge of the meeting, which was closed with prayer by Mrs. R. B. James.

Attending were those mentioned above and the following members: Mesdames John Browning, S. L. Anderson, Noah Jones, G. C. Stark, May Monroe, J. H. Hilburn, H. C. Chandler, John E. Gray and two visitors, Janet and Jane Halsom.

Officers Elected for Ester Club Recently

Mrs. H. M. Cone was elected president of the Ester club when it met in the home of Mrs. T. A. Mastin, Monday. Mrs. T. L. Rowe was co-hostess.

Other officers were vice president, Mrs. Mastin; secretary and reporter, Mrs. John Mitchell; and treasurer, Mrs. Leo Braswell. These officers will serve for the next six months.

Club was opened by prayer by Mrs. Mitchell. Refreshments were served to those mentioned above and to Mesdames Sammie Sullivan, J. W. Crisler, Alva Phillips, J. L. King, Emory Noblett, J. E. Killian, Dewey Voyles, and two visitors, Carrie McCartney and Miss Lura Finley.

The next meeting will be a breakfast in the Hilltop Coffee shop on July 27 at 8 a.m. All members are asked to be present.

Pampa Radio Amateurs Entertain at Dinner

Pampa Radio Amateur organization honored the Berger-Phillips amateurs with a dinner at the Cities Service Club rooms on Wednesday evening.

An after dinner discussion pertaining to amateur radio was led. At a drawing contest, each club member was presented a hand drawing illustrating the slogan of his station call. The drawings were by Mrs. Al Bueselink. Music throughout the evening was furnished by Mrs. Billy Smith, Mrs. Art Harban and Mrs. Don Flemming.

Members present were Messers and Mesdames Otis Payne, Al Bueselink, L. E. Jordan, Herman Whitley, Tom Eller, E. M. Reuss, Emory Smith and the following guests: Mrs. Don Flemming, Messers and Mesdames Billy Smith, Cecil Hudson and Art Harban.

Letters Marked PERSONAL

Could this letter have been addressed to you?
To An Empty Corn Husk:
You don't belong to anything. You laugh at those who are members of church groups or lodges or clubs or occupational organizations. You aren't even a democrat or a republican. You pride yourself on being "too smart for these rackets." You are like an empty corn husk blown by the wind across a prairie road, without direction, without destination, without distinction. If you don't want to become smaller and smaller, better become part of something big and worthwhile.

POTION SUC-SEEDS
SYDNEY—(AP)—Three-year-old Raymond Muller of Sydney was dangerously ill of a kidney ailment. His mother remembered reading in a New York news dispatch of a like case that had responded to broth made from watermelon seeds. Doctors tried this on Raymond and he became better.

In bright light, the pupil of the eye of a cat is a vertical slit, but in dim light it becomes circular.

RELIEF FOR HEAT RASHES
The misery of minor rashes rises with the thermometer. Soothe the burn, smart and sting of prickly heat, diaper rash with Mexsana soothing medicated powder.

WSCS Members Meet in Circles

W. S. C. S. members of the First Methodist church met in circles Wednesday for study.

Circle One met with Mrs. W. R. Campbell with Mrs. Luther Pierson conducting a business meeting. Mrs. E. B. Bowen gave a devotional on "Let Me Know." Topic for the talk by Mrs. Horace McBees was "Methodism in Japan." Subject for Mrs. Fred Carey's lecture was "Streamline Circuit Rider." Eleven members were present.

Mrs. Joe Hodge was hostess to Circle Two. Mrs. E. J. Elkins gave a devotional. "What a Friend We Have in Jesus" was sung by the group. Mrs. W. R. Ewing gave a review of "Burma Surgeon Returns." Nine members and two visitors attended the meeting.

Circle Three met at the church. The meeting was opened with the song, "In Christ There Is No East or West." Mrs. John Hessey gave the devotional on "Missions" and Mrs. Knox Kinard discussed "Chinese Home and Christianity." She read letters from Chinese missionaries. Mrs. Larry Snyder was hostess to six members.

Circle Four met with Mrs. Carl Wilson. "Blest Be the Tie" was the opening song. Mrs. C. E. Ward gave the devotional which was followed by a prayer. Mrs. Raeburn Thompson discussed "Missions in This New Age." Mr. Lee Harrah spoke on "Peace Through His Cross." The meeting was closed by a prayer given in unison. Twelve members and one visitor attended the study.

Circle Five met at the church parlor with six members present. The meeting was opened with a song followed by prayer. Mrs. Roy Goodnight gave the devotional and Mrs. Frank Shotwell gave the discussion on "Marriage."

Mrs. G. H. Anderson Is Hostess to Mary Class

Mrs. G. H. Anderson was hostess to the members of the Mary class of the First Baptist church when they met Tuesday afternoon.

At the business meeting at which Mrs. Bob Sidwell presided, plans were made for a picnic to be held Tuesday at 7 p.m. at the City park. Husbands of the class members were invited to attend. Meeting was opened in prayer by Mrs. Owen Johnson and monthly reports of officers were given. Absentees were discussed.

The devotional was read by Mrs. Morris Goldfine. Refreshments were served to those mentioned above and the following members: Mesdames G. H. Studebaker, L. H. Studebaker, John Young, Louis Tarpley, S. E. Waters and one visitor, Mrs. Fred Stalcup of Wichita Falls, sister of the hostess.

Informality at Ascot

By BARBARA WACE
AP News-features
LONDON—Before the war a man would have been turned out of the exclusive royal enclosure at Ascot, Britain's most fashionable horse race, if he wore anything but the traditional top hat and tails.

This year, however, in still austere and Socialist-governed Britain, the "best people" trod this sacrosanct ground in a lounge suit or service uniform.

Not that the man who appeared in tail coat, striped trousers and grey top hat, hauled out of storage, was invited to leave—but the order definitely read that informal clothes should be worn.

This did not deter many women from trailing around in long, flowered Ascot gowns of pre-war meetings. Most women are making up for the years of utilitarian attire by coming out as frequently as possible in the formal evening dresses and garden party frocks that have been packed away since 1939. Clothes rationing has, in fact, let them with little else they consider fit to wear. Austerity, therefore, may make them gayer instead of plainer.

In Large Sizes

By MRS. ANNE CABOT
Apparently all the clothes and the lineries in the shops have been designed for the half-pint sizes! Well, keep your temper and make your own—they'll be nicer in the long run. The nightgown illustrated is a summer beauty with sash ties, capped sleeves and neckline. Make it in flowered batiste, rayon satin or crepe. Pattern includes sizes 42, 44 and 46.

To obtain complete cutting pattern, finishing instructions for the Large Sized Nightgown (Pattern No. 5046) sizes 42, 44 and 46 included, send 15 cents in COIN plus 1 cent postage, YOUR NAME, ADDRESS and the PATTERN NUMBER to Anne Cabot, The Pampa News, 1150 Ave. Americas, New York 10, N. Y.

Borger Gassers Blast Oilers for 18 Hits in 12 to 7 Victory

PAGE 4 PAMPA NEWS Friday, July 12, 1946

Rebels Furnish League Thrills

By The Associated Press
Again the Dallas Rebels furnished the thrills for Texas league fans last night with a 10-inning 3-2 victory over the Tulsa Oilers.

Fort Worth, the league leader, dropped a 8-2 defeat to the Oklahoma City Indians. The San Antonio Missions won their eighth straight victory with a 3-1 win over Houston. The Beaumont Exporters won 8-3 in a two-hour and 35 minutes endurance contest with Shreveport.

The Dallas win came when relief pitcher George Sumey walked Gene Markland with the bases full. It ran the Rebel winning streak to four straight. Big H. K. Perry limited the Oilers to five hits and had but one bad inning—the seventh—when Tulsa got both its runs.

Len Gilmore of the Oklahoma City Indians limited the Fort Worth

Cats to four hits while his mates touched Al Zachary for 12, including two doubles and a triple.

Clarence (Hook) Iota notched his fifth win against one loss in holding the Houston Buffaloes to six hits. Houston's Shroba gave only five hits to the Missions but one of them was Charlie Grant's triple with two on in the second.

Jack Devincenzi of the Beaumont Exporters homered in the fourth with a man on base. The Louisianans could never catch up.

Win Is Borger's First in Series With Local Nine

BORGER, (Special)—After having meekly set down and watch the Pampa Oilers go by them eight straight times, the Borger Gassers, much to the delight of nearly 1,500 fans, won a hectic 12-7 game here last night as they pounded three Oilers hurlers for 18 hits.

The game, a typical West Texas-New Mexico league "pitcher's battle," saw 59 trips to the plate, 19 runs, 32 hits for a total of 54 bases including seven doubles, two triples and four home runs, 18 walks, 25 left on base, 27 assists, four errors, five double plays and six pitchers.

Ed Leiker, who has pitched the season's only no-hit, no-run game, started for the Oilers and stayed in long enough to yield 10 hits and eight runs before retiring in favor of John Gist.

Gassers pounded for six hits and four runs in three and one-third innings and was relieved by Manager Grover Seitz, who pitched the last one and two-thirds innings, giving up only two hits and no runs.

The Oilers missed a chance to provide better competition when, after having scored two runs in the second inning and leading the bases, went down when Manager Seitz filed out for the third out.

Emmett Fulewider, Oiler outfielder, keeps pulling out of his terrific batting slump as he collected a triple and two singles in five trips to the plate.

Manager Ted Clawitter of the Gassers also hit for the circuit and the ageless Gordon Nell, who, with Fulewider, shares most league records than any other player, slapped two home runs.

M. J. Cato, for sheer averages, was the big news of the night for the Gassers. Cato, new outfielder, slapped a triple and three singles in four trips to the plate.

Fulewider, in addition to his hitting, also led off one of the longest and oddest double plays in the history of the league.

In the fifth inning, Cato singled to left, and Tinsley doubled to center. Fulewider relayed the ball to Otey, who threw to Zigelman, holding Cato to third. Tinsley, who had rounded second was caught for the first out, Zigelman to Harriman. Cato decided to score on the throw to second and was caught. Harriman to Zigelman, at the plate.

The two teams meet again tonight and tomorrow night at Borger.

The box score:

McWilliams, Schafer Win Softball Games

McWilliams defeated Alpacos 12-4 and Skelly Schafer won over Phillips 18-14 in Industrial league softball games last night.

Eddy Connor was on the mound for McWilliams and Bill Speer hurled for Alpacos. Batteries of the other game could not be learned today.

Stanolind plays Kingsmill and Leders meets Heiskell in games to night.

Fair Association Is Formed in N. Texas

ARLINGTON, (AP)—The North Texas Fair association was organized here Tuesday with E. Paul Waggoner of Vernon and Arlington, owner of Arlington Downs, as its first president.

More than 70 directors from 36 north Texas cities voted to hold the first annual fair Aug. 24 to Sept. 2 at Arlington Downs.

Junior Golf Tourney Finals Are Starting

SAN ANTONIO, (AP)—In the finals today of the 20th annual State Junior golf tournament, Gene Towmy of Dallas, pre-tourney favorite, meets Joe Conrad, local darkhorse. Towmy defeated James Ryan of San Antonio yesterday, 7 and 5, in the semifinals. The day before he knocked out medalist Chester Hauser of Kerrville.

Conrad had to go an extra hole yesterday, beating Palmer Lawrence of Arlington.

The championship match is scheduled to begin today at 9 a. m. The afternoon eighteen is set for 1:30 p. m.

Feller, Working Out of Turn, Blasted by New York, 9 to 1

By RALPH RODEN
Associated Press Sports Writer

Working in and out of turn doesn't prolong the career of a pitcher even if that hurler is Bobby Feller, star righthander of the Cleveland Indians and one of the best to toe the rubber in baseball history.

Gunning for as many major league pitching honors as possible including Rube Waddell's strikout record, Feller has a number of times this season requested Manager Lou Boudreau to work him ahead of schedule.

Boudreau has never refused the requests of his ace and Feller had turned in some sparkling performances on what would have been his off days with the highlight being a 1-0 no-hit victory over the New York Yankees on April 30.

However, the law of averages and nature caught up with the fireball king in New York's Yankee stadium last night.

Granted permission to make his first home run and with only one day of rest, Feller was blasted for nine runs and 11 hits in five innings as the Yanks whipped the Indians, 9-1.

Before bowing out at the end of the fifth, Feller fanned five batters to bring his season's total to 195 in 187 innings.

By winning, New York managed to stay within seven-and-one-half games of the race-setting Boston Red Sox who posed out the Detroit Tigers, 3-2 in ten innings.

The Chicago Cubs, behind the three-hit tossing of Johnny Schemitz blanked the Brooklyn Dodgers, 1-0, in the National League.

Before bowing out at the end of the fifth, Feller fanned five batters to bring his season's total to 195 in 187 innings.

'Babe' Playing Best Golf of Her Career At Denver Tourney

By BEN FUNK
DENVER, (AP)—A new and different Babe Didrikson Zaharias overwhelming all opposition in the women's trans-Mississippi golf tournament.

"I'm shooting the steadiest golf of my career," she says. "I don't play to the galleries any more. I just forget everything but the match and play to win holes."

She has dropped only two holes all week in swamping Mrs. Robert Monstead of New Orleans, 5 and 4; Mrs. Sam O'Neal of Odessa, Texas, 7 and 5, and Ann Casey of Mason City, Iowa, 7 and 6.

The victory over Miss Casey sent Mrs. Zaharias into today's semifinals against Margaret Gunther of Memphis, Tenn. Two Texans, Betty White of Dallas and Polly Riley of Fort Worth, will battle it out in the other bracket.

Perry Samuels Will Enroll at Texas U.

AUSTIN, (AP)—University of Texas Athletic Director D. X. Bible has announced Perry Samuels, fleet San Antonio schoolboy track and football star of the past two years, will enroll at the University of Texas this fall.

Samuels was one of the state's leading scores in football during the 1943 and 1944 seasons and received all-state mention in his senior year.

He gained national recognition with his sprint times in Texas schoolboy meets and for his showing in the 1945 National AAU meet at New York.

Jimmy Hines Is Big Surprise of Kansas City Open

By SKIPPER PATRICK
KANSAS CITY, (AP)—Greying Jimmy Hines of Chicago who is in his sixteenth year of golf campaigning, was ready today to continue his bid for the \$20,000 Kansas City invitational tournament title today after a sizzling first round job of 6-under-par 66.

Hines hasn't won a tournament since the Tacoma open a year ago. The manner in which he mastered the 6,592-yard Hillcrest country club course yesterday, however, indicated he's dead serious in challenging the might of such golfing greats as Ben Hogan, Byron Nelson, Lloyd Mangrum and Sammy Snead for the \$2,500 crown here.

Exactly three fans followed Jimmy yesterday as he put together 3-under par 32 and a 3-under 34 for

Scott's Scrap Book

By SCOTT RAFFERTY
Members of the Montgomery Ward industrial league softball team didn't forget a promise made by M. R. Lower, manager of the store, to the effect that he would give games, by scores of 31-9 and 21-7, to a party if they won their first league game.

To make sure, it seems, that he didn't back down on his promise, Wards proceeded to win its first two games, by scores of 31-9 and 2-7, although the store nine did not figure too much in pre-season predictions.

The party held at the Terrace Grill was termed a big success by members of the game. We decided to remark that Lower had a pained expression on his face when they reminded him of his promise.

Most of the team's members are former school students here. They include Bill Marler, first base; Jack Lane, second base; John Cornett, catcher; Harvey Gilmore, left field; Bill Kent McDonald, center field; Bill Red Sox who posed out the Detroit Tigers, 3-2 in ten innings.

The Chicago Cubs, behind the three-hit tossing of Johnny Schemitz blanked the Brooklyn Dodgers, 1-0, in the National League.

Before bowing out at the end of the fifth, Feller fanned five batters to bring his season's total to 195 in 187 innings.

Decomposed Body Of Dallas Lawyer Is Found in Home

DALLAS—(AP)—Formal investigation began today in the death of Will R. Allen, 48, wealthy retired Dallas attorney, whose badly decomposed body was found last night in a ransacked bedroom of his home here.

Justice of Peace W. L. Sterrett ordered an autopsy this morning and withheld his inquest verdict pending a report. He said the condition of the body, enclosed for a month in the locked house, made it impossible to determine if there was any sign of violence.

The body was found by assistant

district attorney Robert B. Allen, a cousin. Allen said he became alarmed by the continued absence of the retired bachelor, and decided to investigate. Allen said he found the pajama clad body in one of the beds.

Sterrett placed the time of death at about June 3. Police said the fast newspaper that had been opened in the house was dated June 3. Mail had accumulated since that date also.

Detective chief Will Fritz said burglary appeared to have been committed after the man's death. Every room of the residence had been searched. All drawers were open, the closets had been searched, and the man's clothing found beside his bed had been gone through, Fritz said.

Robert Allen said his cousin was a bachelor and had retired from active practice seven years ago. He lived alone in the house.

Heir's Admirer Given Sentence

SAN FRANCISCO—(AP)—Oil-rich Johnny Oeschner's second stowaway girl admirer was headed for a federal corrective institution today.

Theresa Ann Bristol, 16, pleaded guilty yesterday to theft of \$2,000 from Mrs. Dorothy Munson of Honolulu aboard the liner Matsunaka en route from Hawaii to the United States. Federal Judge Louis E. Goodman sentenced her to three years in an institution of the "training type" to be selected by Attorney General Tom Clark.

Theresa came to this country, she said, to be with Johnny after a romance among the palms of Hawaii, where he was stationed with the U. S. navy.

The Hawaiian romances of the Oakland, Calif., 20-year-old oil heir began when he was followed there by his stowaway pursuer No. 1, Marguerite Human.

Johnny and Marguerite announced their marriage was impending, but territorial authorities said last winter Oeschner wasn't old enough to marry in Hawaii without his parent's consent. His mother packed her lawyer off to Honolulu with instructions to oppose the marriage. Johnny later was quoted by his mother as saying he never wanted to see Marguerite again.

"PEN MONEY"
 PORTLAND, Ore.—(AP)—For a long time police were mystified by the insistence of one of their prisoners on holding the trustee job of caretaker of the patrol car lot next to the jail—eup in bad weather.

Rain or shine, he always asked for the same duty—until he was discovered selling police lot parking space at 25 cents a car to hurried midtown shoppers.

The modern grapevine is the descendant of the native wild vine of Europe and southern Asia.

Hughes' Condition Remains Critical

LOS ANGELES—(AP)—The condition of Howard Hughes, wealthy sportsman, flier and film producer, was pronounced as still critical today, his fifth day spent under constant medical care since the spectacular crash of an army experimental plane he was flying.

"Hughes has a terrific determination to live," said his physician, Dr. Verne Mason. "He has the constitution of a man of steel."

Hughes is suffering from a lung injury, burns and other hurts.

FLUSH KIDNEY URINE

Benefit wonderfully from famous doctor's discovery that relieves backache, run-down feeling due to excess acidity in the urine

People everywhere are finding amazing relief from painful symptoms of bladder irritation caused by excess acidity in the urine. DR. KILMER'S SWAMP ROOT acts fast on the kidneys to ease discomfort where bladder irritation due to excess acidity is responsible for "getting up at night." A carefully blended combination of 18 herbs, roots, vegetables, balsams; Dr. Kilmer's contains nothing harsh, is absolutely non-habit forming. Just good ingredients that many say have a marvelous effect. All druggists sell Swamp Root.

Two of Five Vets Get Compensation

DALLAS—(AP)—According to the Dallas News, two out of every five returned veterans in Texas are now receiving unemployment compensation or have filed a claim at some time for compensation.

The News quoted the veterans administration in Washington as showing a potential \$32,100 returned veterans in Texas as of June, 1946.

The Texas unemployment compensation commission in Austin reported 53,660 active accounts Jan. 1, 1946, with 197,869 claims filed since then.

Kenneth B. Barber, TUC official in Austin, estimated the number of currently unemployed veterans claiming readjustment allowances totaled 98,312.

Now... ZALE DIAMONDS COME TO YOU

DIRECT FROM BELGIUM!

BECAUSE... YOU HAVE DEMANDED THE FINEST IN DIAMONDS

Because it's our constant aim to bring you the ultimate achievement in diamond cutting... Zale's have established an office and diamond-cutting plant in Antwerp, Belgium.

Here diamonds are expertly cut by master diamond cutters, and shipped direct to Zale's New York office. There they are exquisitely mounted in hand-wrought rings of gold and platinum, and shipped direct to your Zale store.

Because we import our diamonds direct from Belgium for all 18 Zale stores, we are able to give you

FINER QUALITY AT LOWER COST

It's your recognition of Zale's higher quality, more brilliant cutting, and better values that has made Zale's the leading diamond store of the Southwest. Yes, it's Zale's for diamonds!

ZALE'S SELLS MORE DIAMONDS THAN ANY OTHER JEWELER IN THE SOUTHWEST

The Challenge of Russia

Two authors of widely different political backgrounds and temperaments have recently and separately reached a common conclusion about Russia. They are Max Eastman, self-styled radical and former admirer and defender of the Soviet system, and John Foster Dulles, republican, international lawyer, and expert on foreign affairs. Their conclusion is that Russia is embarked upon a long-range policy of world domination. Mr. Dulles, writing in Life magazine, bases his opinion on Russia's domestic policy and her visible course of expansion in the last seven years. Mr. Eastman, in a series of the Scripps-Howard newspapers, quotes from Prime Minister Stalin's book, "Problems of Leninism," from other Soviet writings, and from speeches by Mr. Stalin and other Russian leaders.

The approach of each writer differs from that of the other. Mr. Eastman stresses the copious record of Soviet commitment to world revolution. Mr. Dulles feels that today the Kremlin's emphasis is less on revolution than on "security."

But both seem to agree, out of their mutually broad and intimate experience with Russian thought, that the Soviet Union considers democratic capitalism a dangerous, implacable enemy that must be overcome, and believes that the Soviet Union will not be safe until the Soviet political ideal is dominant and unchallenged throughout the world.

The logic of both authors seems sound. Their evidence can be read or heeded. Perhaps, then, it is time that the American government and the American people stop generating so much oratorical heat and start facing facts and making concerted, intelligent plans for averting a crisis.

The government may at length have decided where its course lies. But the people have not. And it is up to the United States, as one of the world's two strongest nations, to oppose Russia's world plans.

Too many of us waste too much hatred on Russia. We give way to hot, exasperated, impatient rage at the inflammatory actions of Russia's communist followers in this country. But fuming and spluttering will get us nowhere.

Russian policy is what it is, and we might as well accept it. Hatred and anger might better be hardened into a determination to face the facts and prevent the ultimate showdown.

Since communism spreads through hunger, discontent, confusion and apathy, the American people need to get together and get going. We must change our selfish thinking, put our house in order, compare industrial strife, and do something about the more glaring inequities of our social system.

Domestic and international problems no longer exist separately. Millionaires, anti-communists, leaders, all who cherish American democracy must form a solid front and maintain our moral, economic and military strength. We must prove to the world by example—as we are not doing today—that our way of life is best. We must be tolerant of other political systems, but we must be strong enough to insist on tolerance in return.

For only when a world political policy of live-and-let-live is established will the United Nations really be able to start functioning effectively. Only then will the prospect of lasting peace really be bright.

MACKENZIE'S Column

By DEWITT MacKENZIE
AP Foreign Affairs Analyst
Russian foreign minister Molotov's advocacy of a united and self-supporting Germany provides a starting-point for a world which has come to regard the reich as a commensurate to impotence.

Some quarters in Paris regard Molotov's speech as a bid for Russian popularity in the reich and as calculated to strengthen the hand of the German communists. One certainly could argue that thought by trying to look beyond the surface. However, it's worth examining the proposal from the standpoint of face value.

In theory, the main purposes of any peace settlements for Germany must be three-fold: (1) To make absolutely certain that never again will she be able to wage a war of aggression; (2) to reduce her in the ideals of peace and self-determination; (3) to rehabilitate her so that she may take her proper place in the politico-economic life of Europe.

Even if the Allies look at the matter solely from the viewpoint of self-interest, they can't escape the fact that the old Germany was the key stone of the continental European arch. It is given to doubt whether that keystone can be destroyed without doing terrific damage to Europe. It must be repaired and restored within the limits prescribed by the peace terms.

Total dismemberment of Germany would in the main defeat the objects sought, because the various parts of the reich have been interdependent. But there is nothing in this circumstance which would prevent the creation of a federation of German states, and it wouldn't prevent the Allies from carrying out their determination to eliminate all industries which might be used to create sinews of war.

This wouldn't fit in with the French thesis that the Ruhr, Rhineland and Saar be separated from Germany, but that is a problem which still has to be solved.

Many of the difficulties which the Allies face would seem to be covered in major degree by Secretary of State Byrnes' proposal last April for a four-power (America, Britain, Russia and France), 25-year mutual assistance pact to insure the demilitarization of Germany. This pact would commit the United States to participate in European security with armed forces for at least 25 years after the end of the present military occupation of the reich.

Molotov at first characterized this proposal as wholly inadequate. Yesterday, however, he said he would study it further, and Byrnes indicated that the term of the treaty could be extended to forty years if this would satisfy Russian objections. Both Britain and France have accepted it. Agreement on this point among the Big Four certainly would render much easier the titanic task of settling Germany's affairs.

Louisville is a great tobacco center. I couldn't but wonder why the incense of tobacco power generation because he harnessed Niagara generators and transmitted the pow- ers to Buffalo, 20 miles away, 50 years ago, proving it to be the practical way to produce and distribute electricity on a wide scale.

PROVED PRACTICABILITY
George Westinghouse is called "the father of modern power generation" because he harnessed Niagara generators and transmitted the pow- ers to Buffalo, 20 miles away, 50 years ago, proving it to be the practical way to produce and distribute electricity on a wide scale.

2 Held in Connection
With Knife Slaying
LILLINGTON, N. C.—(AP)—Deputy Sheriff Ken Matthews said last night that Roy Roberts and Worth Weaver, both of Coats, N. C., were confined in the Harnett county jail without bond in connection with the knife slaying of Pvt. Roy L. King of Longview, Texas.

King, stationed at Fort Bragg, died at the post hospital Sunday of knife wounds received in a roadside near Coats.

Construction in Texas Approved
WASHINGTON—(AP)—Funds have been released by the federal works agency for advance planning on public construction projects in Texas estimated to cost \$2,565,000.

Texas State College for Women, Denton, new classroom building, \$285,000 total cost, \$10,980 released for advance planning; Lamb county, construction of 6.75 miles of farm to market roads near Anton \$60,750 and \$1,822; construction of 11 miles of farm to market roads near Sudan, \$99,000 and \$2,979; Kingsville independent school district, additions to Plato, Lama and Douglass elementary school, \$189,399 and \$5,200; Brownwood, storm drainage system, \$225,000 and \$9,282.

Taxes Refunded to Lone Star Company
AUSTIN—(AP)—The third court of civil appeals has upheld a district court order which awarded the Lone Star Gas company recovery of \$55,786.68 paid under protest as Gas Utility taxes for the first quarter of 1943.

The appeal court said the sole question presented was whether the company owed a gross receipts tax for the period as an established corporation or owed only a beginner's tax of \$50.

The company began business as a new Texas corporation on Jan. 1, 1943, after operating prior to that as a Delaware corporation with a permit to do business in Texas.

Court records showed that of the old subsidiary corporations had been dissolved and all liabilities discharged prior to the new company beginning business as a "newly created legal entity."

NATIONAL WHIRLIGIG

Common Ground

Worshipping Two Gods
The reason so many people believe in the OPA is that we have, for years, been worshipping two gods. The people have violated the First Commandment, and the Lord, thy God, thou shalt have no other gods before me."

They are trying to worship the god of coercion and force, the god of government, the god of state regulation, the god of collectivism, and, at the same time, the God of individualism, the God of individual, natural rights, the God of order, the God of liberty, the God of laws that no man made and no man can unmake, the God of the Bill of Rights. They are saying, in reality, that there is no law superior to the law of the state or their own will.

It is no wonder the people are confused. It is no wonder we are not able to pay our bills and have that debt money when the people are told by political leaders and by supposed-to-be educators and religious leaders that there are certain groups of people who must not pay for what they consume, what others are willing to pay, and that they need not pay government costs in proportion as they consume. We stand for the strange god—an idol.

The politicians and those who advocate price control say they believe in God, "but, in reality," they believe only in themselves, seeing that they have no faith in the maxim, laissez faire (freedom to create), but all give forth their social nostrums as infinitely superior to the plans of Providence.

They are, in reality, saying that men need not live by the sweat of their brow; that they need not reap what they sow. They do not respect liberty and human initiative.

Yes, we have a terrible spectacle in our country in the people's belief in social nostrums. It is a warning as to what we can expect in the future if we do not abandon our stand for the principles on which this country was founded; namely, one God and that the only purpose of government is to protect people's lives and their right to produce goods and freely exchange them.

When we followed these principles we made more progress than any other nation in the world. It is only because we have departed from them and are worshipping the raise god of coercion and attempting to make others comply with our will instead of God's will that we cannot buy what we are entitled to and have been unable to pay our bills. And now we are trying to kid ourselves into believing that we can keep prices down by law and continue to do the very things that cause prices to go up.

Big Business and Cheap Money
The common belief among the great mass of people is that cheap irredeemable paper money is a great boon to the working man. The fact of the large corporations of the United States shows how the big organizations cash in on this fiat, debt money. This corporation sold \$100,000,000 worth of debentures carrying 2 1/2 per cent interest, due in thirty years. They netted the company 99.34 per cent. Then the corporation made an arrangement with the banks so that they could borrow \$75,000,000 from July 1, 1945, to July 1, 1948, at 1 1/2 per cent per annum. The corporation agreed to pay 1/4 of 1 per cent per annum on any unused portion of this credit during the period.

Then the bank gave the company the additional option of converting this loan at the end of July 1, 1948, into a ten-year loan at 1.85 per cent per annum.

Of course, the man with lots of security always borrows at a lower rate of interest than the man who borrows with non-liquid security. It is doubtful, however, whether the big corporations would have this terrible advantage over the little borrower if the money we had was convertible to gold. Then there would be a limited amount to loan. Then there would be no object in making such low interest rates, they could loan all they had without. The gap between what the big fellows and the little fellows pay would be more nearly on parity if we had sound money instead of fiat money.

The best way in the world to help the little fellow and every body else is to stop having the government issue fiat money or to prevent the banks from issuing fiat credit. As Thomas Jefferson said, in effect, let the man who has the money of the land buy himself and do not permit the banks to create fiat credit that is not redeemable in gold.

DECLINE—Although retail prices of meat have risen, packer's representatives believe the continued increases in receipts will cause an eventual decline. The law of supply and demand, in their opinion, will provide a more effective check than governmental intervention.

It is also pointed out that subsidies totaling \$700,000,000 a year amounted to a saving of approximately five cents a pound to the consumer. Similar economies have resulted from federal underwriting of many other foods. But the ultimate consumer paid for those savings in taxes.

The nation's meat men do not promise to buy what the family budget for this item will fall to prevent levels. Many factors—some political and some economic—conspire to necessitate a general advance.

ECONOMIC—All costs have been boosted by the administration's support of movements for wage increases. Shipment of food to Europe and other places has increased the supply of feed and increased costs of the domestic portion.

Purchasing power, which means a much greater demand, is at an all-time peak. These developments insure higher prices, with or without OPA controls.

In short, the necessity and effectiveness of OPA are now on economic rather than political trial. A practice of the bureaucrats had hoped to avoid.

It was their expectation that, following President Truman's veto, congress would be panicked into extending OPA's full powers and sidetrack the present showdown between free and controlled enterprise.

SQUEEZE—John L. Lewis has applied a squeeze play to the nation's tinplate operators who may keep their properties in the possession of the federal government for a long time. The United Mine Workers' head has indicated that he will threaten to make a permanent political escrow until he wins his new demands.

Under the bituminous agreement negotiated by Interior Secretary J. A. Krug for the White House, the union will be administered by a three-man board. One will be chosen by Secretary Krug, one by Mr. Lewis and those two shall select a third. Although that arrangement virtually affords veto to the U. M. W., Mr. Lewis is not satisfied.

He wants the same sort of welfare system which he wrested from the anthracite owners. They agreed to bear to with him for two men, while they have a single representative. This arrangement gives the miners' boss final say in all decisions, and he wants the same setup.

Thus, although the strike was settled nominally many weeks ago, the mines still belong to Uncle Sam.

REFOOZES!—A man who has been refoozed by the code of the hills.

WHY?—We all lived by the code of the hills until you became the first of our line to break the code!

Peter Edson's Column: POTPOURRI OF NEWS ABOUT WASHINGTON

WASHINGTON, (NEA)—A new kind of black market may develop if sugar stays under rationing, but without price control. While sugar can legally be sold at more than ceiling prices, ration coupons for sugar could easily become meaningless if sugar went under the counter to be sold only to preferred customers and those who had coupons and were willing to pay premium prices. For small quantities of sugar, household consumers would be willing to submit to this squeeze.

Bakers, food processors, soft-drink manufacturers, and candy-makers, as well as outlaws moonshiners, are the sugar users with the greatest demands; and the greatest ability to pay inflated prices on the quantity purchases necessary to keep them in business. Pressure to force the price up, as long as supplies remain scarce, would come from these sources.

Never mind the thermometer this summer. Just keep your eye on the Bureau of Labor Statistics cost-of-living and wage-rate indexes, which will give the best forecasts of approaching heat waves and storms.

Cost-of-living figures show a 33 per cent increase since 1939, the year the war began in Europe. Straight-

time hourly wage rates are up approximately the same percentage. So what happens to the cost-of-living index from here on will determine whether there will be new wage demands from labor, and probably whether there will be another round of strikes.

ATTORNEY GENERAL CLARK DISPLEASES COMMUNISTS
Attorney General Tom C. Clark of Texas is the newest pet peeve of the communists. The day after his recent speech before the Chicago Bar Association, the "Daily Worker" attacked Clark, charging him with lax protection of civil liberties. It is under these liberties, of course, that the communists do most of their agitating—in the United States.

Later, Dr. Frank Kingdon, head of the National Citizens' Political Action Committee, took up the chant in a speech in Washington in which he said, "Henry Wallace must be a very unhappy man, having to serve in the cabinet along with Tom Clark." On the platform with Kingdon at the same time were such notables as Secretary of Labor Lew Schwelb, Undersecretary of the Interior Oscar Chapman, Senators Claude Pepper, Hugh Mitchell, and Glenn Taylor, and several left-wing congressmen.

White Senator Claude Pepper is now the darling of the labor and liberal forces, supporters of these movements wish they had another, stronger leader. Henry Wallace bowed himself out with his statement that he would stick by the democratic party, regardless. But if serious inflation develops as a result of all the late, last-minute monkeying around with price control in congress, the liberals hope that Henry Wallace will rise as their hero and man of the hour.

Bowles, however, will probably not declare his future political intentions until August. If he does toss his hat into the ring for the Connecticut gubernatorial or senatorial nomination, it will be as a straight, democrat. The prospect of Bowles' being in the U. S. senate, along with O'Daniel of Texas, Tamm of Ohio, Wherry of Nebraska, and Moore and Thomas of Oklahoma, is something to look forward to with delight.

OPA CHANGES COULDN'T HAVE BEEN ADMINISTERED
Price Administrator Paul Porter has given the best tip-off as to how unworkable were the Tamm and Wherry amendments to the price-control renewal legislation which President Truman vetoed. When recent increases were given to the canned-food industry, it took book-

keepers six months' time, and it cost \$300,000, to get at the basic data for approving the price rise.

This industry had all the data necessary for determining the amount of the increase under OPA formulas. Most industries don't have such data. The amendments would, therefore, have been administratively impossible.

The chief danger to the housing program, according to the Producers' Council, will come first from labor shortages and then from strikes in the building industry itself. If industry gets higher prices, labor is bound to demand higher wages.

Boyd Barnard, president of the National Association of Real Estate Boards, insists there will be no general increase in rents. He declares that over the next year a 10 per cent increase "is necessary and would be reasonable and fair" in view of landlords' increased costs. But even a 10 per cent increase in rents, with other price increases, would shoot up the cost of living, making further demands for wage increases inevitable.

These are the things that leaders of the building industry believe will cause the greatest pressure for increased housing costs.

SAND PAINTINGS
The most complete collections of reproductions of Navajo sand paintings in the world are contained in the Museum of Navajo Ceremonial Art, located near Santa Fe, N. M.

General Duty Nurse

Copyright by Lucy Agnes Hancock Distributed by NEA SERVICE, INC.

XXXIII

THE members of the staff melted away and Kate Channing slipped her arm through that of Mrs. Cantwell and drew her out of the room, closing the door behind them.

"Aren't you just a bit hard on the lady, Doctor?" Sally asked. "After all, she probably can't help it—admiring you. I do myself."

"I know, my dear," the man frowned, "but you don't know what I have endured at the hands of that woman. I can't, for the life of me, think what I could have done to deserve this."

"Cheer up, Doctor," Sally said. "She can't marry you without your consent, you know."

"Not marry me; but there's such a thing as breach of promise. Did you ever hear of that? She doesn't know that I'm perfectly aware of her case against Bromwell Avery, the artist. Cost him a cool fifty thousand, smashed both his romance with Helen Moredock and his career. The man's never been the same since. The woman's dangerous."

"She must be," Sally agreed. "Can't your sister protect you? Or, why don't you get married? That's the best protection I know of."

"You say it very glibly, my dear; but who would marry an old bookworm like me? I'm neither extremely wealthy nor even tolerably handsome and I'm no longer young."

"And yet the Cantwell woman wants you. You must have something, you know. I tell you, how about your neighbor across the hall? Why not consider her?"

She's lovely—sweet, talented and about the right age. Come on, Doctor," she urged. "I'll help. Try writing notes to her—just friendly little billet-doux—"

"HEAVENS!" he cried. "Not love letters. I know enough about law to realize letters may prove to be dynamite, and often are. No, let's keep it verbal—then if nothing comes of it—"

"You mean you will?" Sally cried jubilantly. "Grand! Let's start with that visit tomorrow. I'll get things we can serve—let's see, I'll plan things tonight after I go off duty. We'll have a real party."

"But how can you be sure undesirable won't pop in?"

"I'll No Visitors sign you. And I hope Sunderlin or the Chief won't come nosing around while the party's on."

"I hope you won't get into trouble doing it, my dear. We could have it in the morning. Not many people call mornings."

"That's an idea and we'll make it breakfast instead. Fine! I'll get Kitty to help."

And so next morning soon after nine, Kitty Howard wheeled her patient across the hall to room 327 and the four had a merry time. It lasted until after ten when, by the grapevine, word reached them that the Chief and retinue had begun their daily journey of inspection. By the time the dignified visitors reached the third floor, Doctor Channing was back in bed, listening to his nurse as she read from his latest manuscript while, across the hall, little Miss Newell sat by the sunny

window knitting. Both patients greeted their callers pleasantly and the tour of inspection moved on down the corridor to the elevator where the Chief and Miss Sunderlin rode to fourth and the others in the company took the stairs two at a time and were on hand to follow sedately as Doctor Richards and the superintendent took up their slow journey.

DOCTOR CHANNING left the hospital the first week in June. Elizabeth Newell went back to Bascom Junction, a village some sixty miles distant. Sally wished she might have been present when the two said good-by. She had a hunch Doctor Channing thought well and often of the slim little woman who had lived across the hall from him for five weeks. But she could find out nothing from her patient although she confessed that she tried. She managed to bring Miss Newell's name into the conversation often during the first days after her departure, but the good doctor was extremely reticent—he was not committing himself.

Kitty Howard was more communicative. She said she had watched surreptitiously as the doctor shook hands on the day her patient had left and she claimed there was something very romantic about that parting. Miss Newell had been up and about a few hours each day for two or three days and the doctor was walking with a cane and limping scarcely at all. She said she saw across the hall and the two stood for several minutes just outside in the corridor and held hands.

"I don't think he kissed her," Kitty said regretfully; "but I know he said something special because when she came back her eyes were shining and her cheeks were like roses but she wouldn't talk. Very suspicious, my dear. Don't you agree? Wouldn't it be grand if it really came to something, Sally?" she said. "They are both so swell!"

(To Be Continued)

'Governor' Club Is Formed Here

A "Rainey-for-Governor" club was formed at the court house here last night by a group of young people from six different colleges, and from the local high school, according to information received from Bill Waters, ex-GI and former University of Texas student. He served as chairman of the meeting, which will be repeated next Tuesday night, 8 p. m., at the same place.

"Considerable interest was manifested at the meeting," Waters stated.

He said a group of young people would meet Dr. Homer Rainey, candidate for governor, when he arrives at the Schneider hotel next Wednesday.

Rainey, who will speak over KPND at 7:15 p. m., and on the court house lawn at 8:15, will be guest of honor at a dinner given by the young people, Waters said.

He announced that the local club was interested in persons in Lefors, McLean and Shamrock, who will support Dr. Rainey. A club has already been formed at Borger, it was said.

Jeanne Paxson, college student, will handle correspondence for the club. Mary Jane Pfeffer is in charge of publicity.

Amarillo Offers New Fire Pump

Pampa and Amarillo may battle on the football field, basketball court or the baseball diamond, but close cooperation exists between officials of the two cities.

Approximately eight months ago, the Pampa city commission decided to build a new fire truck instead of purchasing one. However, the city's efforts were blocked as a pumping unit or chassis could not be obtained.

Yesterday Fire Chief E. J. Curry of Amarillo visited Pampa and informed the local city government that Amarillo had been able to obtain several new pumping units and that one of these would be made available to the Pampa department. City Manager Garland Franks said he would bring the matter before the city commission next week.

He added that the City of Pampa "certainly appreciates the cooperation in helping Pampa modernize its fire department."

Budget Balance

(Continued From Page 1)

than ever before—four-and-a-half million more than in 1941, our highest prewar year.

"Particularly gratifying is the fact that eight out of every ten returned veterans already have jobs; but we shall not be satisfied until the rest of our veterans have suitable employment opportunities.

"Certainly, up to this point runaway inflation has been prevented. "But"—here Mr. Truman quoted the reconversion report directly—"all of the ground we have so laboriously won against inflation will be irretrievably lost without a workable price control law.

"Every day that passes without a law on the books increases that danger."

RECKLESS DRIVING

LOGAN, Utah—(P)—City Judge Jesse P. Rich gave a defendant 90 days in jail for "drunken driving on a horse."

Rich said a city ordinance prohibits intoxicated persons from riding horses.

The culprit was piloting his mount down the main street sidewalk when arrested.

"CUCKOO"

SALT LAKE CITY—(P)—"Cuckoo" testimony helped the city commission decide to bar trucks from using South Second West street as a thoroughfare.

"Why, every time a truck went by," testified Walter P. Bohm, "my cuckoo clock would sound off."

Now the trucks must use another street.

\$5,000 bride to "lay off" the case, told reporters he was merely trying to help a friend. Fields, also summoned to testify today, said he had talked with Mitchell but denied that any money was mentioned. He said he had no connection with the munitions combine but was trying to help the combine's Washington agent, Joe Freeman.

ATTEND SHORT COURSE

Chief Ben White and Fireman W. A. Claunch will leave tomorrow to attend the annual firemen's short course of study, to open Monday at Texas A. & M. college. All aspects of fire-fighting and fire defense are studied during the course.

MAN ALIVE REVEALS NAKED TRUTH

SIDNEY, Mont.—(P)—Teodoro Esquada didn't mean to cause any trouble but—swimming with other Mexican sugar beet workers, he crossed the swift Yellowstone river to an island where he stopped to rest. He rested so long that when he swam back to shore he found a large group looking for his body.

Teodoro was nude; so he hid in the bushes until the searchers departed, taking his clothes. He had to make his way 10 miles along the stream before he found a rancher who lent him a suit so he could go to town and call off the hunt for his body.

W. G. LYONS, Secretary,
Pampa, Rt. 1, Box 38

State Politics

(Continued From Page 1)

Texas' only candidate for governor.

"I have too much sense to get out in the hot sun and gray like a donkey in order to tell the people what I know or to cuss some fellow running for the same office, whom I do not know," Burks said of his gubernatorial campaign policies.

Burks has made a hand-shaking tour of West Texas, has covered most of Central Texas and a part of the southern area of the state.

In the next few days he plans to invade East Texas.

"The law of averages is in my favor," he said. "I think I can make the runoff. I am the only candidate from West Texas who have never had a governor and we think it is time for us to be represented in Texas."

"A thousand men in Texas are as well qualified for the job of governor as I am," he said, "but if the citizens wish a businessman as governor, I am ready to serve."

son contest are as follows: Lynn "Punkin" Moore, Wellington; Dude Barton, Cross-Six ranch, Beaumont; Janette Moore, Moore ranch, White Deer; and Louise Ann Bennett, Big Spring. W. B. Weatherred, chairman of the sponsor contest, said that rodeo officials are expecting a total of 50 entries before rodeo time.

Two dances have been announced to be held in conjunction with the rodeo. Joe Fischer, chairman of the dances, said today that Rip Ramsey and his Texas Wanderers will play for the dances, Friday and Saturday nights, August 16 and 17. Ramsey, formerly with Bob Willis and his Texas Playboys, is well known in screen and radio. The band is on Cal Farley's week-day radio program at the present time, Fischer pointed out.

The dances will begin about 9:30 at the Junior high school gymnasium. Admission will be \$1 per person.

Forty types of automobiles will be manufactured in France instead of the 136 models made in the pre-war era.
