Iranian Delegation Moves to Bring Dispute Before World Security Council

Question Is Ignored by Soviet Chief

LONDON, Jan. 18.—(AP)—The Iranian delegation to the United Nations general assembly today took the first concrete step to bring the explosive Iranian-Russian dispute before the World Security Council.

Andrei Gromyko, acting chief of the Soviet delegation, making the first major Russian speech before the assembly, ignored the Iranian question.

ARRANGEMENTS MADE Shortly before Gromyko took the floor, Seyyed Hassan Taqizadeh, chief of the Iranian delegation, conferred with the executive secretary of the assembly on what Taqizadeh called "technical arrangements" for placing Iran's complaints before the Security Council.

Gromyko, meanwhile, told the assembly that the future peace of the world depends upon the unit of the big powers and warned against any efforts to cut down their authority by revising the charter of the U.NO.

He also strongly supported big-power plans to give the security council control of atomic energy.

Engineer Killed As Katy Freight Trains Collide

ROYSE CITY, Texas, Jan. 18.—(AP)—H. M. Powers, 52, a Missouri-Kansas-Texas engineer from Denison, was killed instantly early today when two Katy freight trains collided head-on at the edge of Royse City.

Two others were injured and taken to Denison hospitals. Their conditions are not believed to be serious.

The two engines were demolished in the crash, and railroad traffic over the line is disrupted.

Injured were Engineer E. Scott and Fireman R. P. Pike, both of Denison.

Because of the collision is not known. The impact was so severe an oil tanker 15 cars from the engine overturned.

The two engines are lying on their sides near the tracks.

Filibuster Threat Hangs Over Senate

WASHINGTON, Jan. 18.—(AP)—The worst filibuster since Huey Long's time threatened on Capitol Hill today as the senate plunged into a knock-down, drag-out fight on the dynamite-packed FEPC bill.

ADVANCE BILLING The advance billing had Capitol Hill harking back to the '30s when Long, as senator from Louisiana, went on a filibuster marathon.

A solid phalanx of southern senators all pledged to talk plenty, lined up against the fair employment practice bill which would establish a permanent committee to eliminate racial and religious discrimination in industrial and governmental employment.

1,000 AMENDMENTS "I'm going to talk against it as long as God gives me breath," Senator Ellender (D-La.) told a reporter.

Senator Eastland (D-Miss.) promised that he and Senator McClellan (D-Ark.) would offer 1,000 amendments to the FEPC legislation between them. Eastland said he would talk "two years" if necessary.

30 DAYS AT A TIME Senator Bilbo (D-Miss.), who knows a filibuster when he is in one, informed newsmen he intended to speak twice—30 days at a time—against the measure which has been endorsed repeatedly by President Truman.

The unexpected motion which called up the controversial bill before the senate yesterday took its southern opponents completely by surprise. A hurried strategy session was ordered, but they made no bones they would use everything in the rule book in their effort to block a vote.

Backers of the measure were fully aware of the opposition's fallacy: an ready to take countermeasures of their own.

Their most obvious weapon was a resort to clothe, a seldom-invoked parliamentary device to limit debate. Its adoption requires a two-thirds vote.

A prolonged filibuster on FEPC would have the effect of stalling senate action on all other pending legislation.

Services Set for Pioneer Rancher

Services will be held at 2 p. m. tomorrow in the First Methodist church for James J. Crutchfield, 69-year-old pioneer rancher, who died suddenly Wednesday in Borger as a result of a heart attack.

Born in Henry county, Tenn., he moved to Hutchinson county in 1904 and to White Deer in 1912. He moved to his home here about six years ago.

The Rev. E. B. Bowen, pastor of the Methodist church, assisted by the Rev. Douglas Carver of the First Baptist church, will officiate. Burial will be in Fairview cemetery under the direction of Duemkel-Carmichael Funeral home.

Serving as active pallbearers will be Willis Price, Albert Reynolds, Luther Harrison, Wade Thomason, Bill Harlan, R. L. Edmondson, W. J. Stubbfield and George Coffee.

Demos Block Move to Call On Churchill

WASHINGTON, Jan. 18.—(AP)—The Pearl Harbor committee voted 6 to 2 today against calling former Prime Minister Winston Churchill as a witness in its investigation of the 1941 disaster.

MOTION BY FERGUSON The vote came on a motion of Senator Ferguson (R-Mich.) to invite the former British government leader, now vacationing in Florida, to appear at a time that suited his convenience and that of the committee.

Ferguson previously had told the committee he wanted to have Churchill tell what he knows about any agreement that might have existed with the late President Roosevelt for parallel action on the part of Britain and the United States before the Japanese attacked Pearl Harbor.

DEMOS VOTE SOLIDLY Six democratic members of the committee voted solidly against Ferguson's motion.

Barkley, as chairman, brought the question to a vote by demanding a public decision by the committee. He announced that he neither would issue a subpoena for Churchill nor would he call on him.

The 110 additional war crimes suspects listed for arrest included Gen. Takeji Wachi, former chief of staff of Japanese general headquarters.

Mao, once premier of Burma under the Japanese puppet regime in his country. He disappeared by the time Allied forces recaptured Burma.

Japanese small businessmen meanwhile rushed plans for a "league for safeguarding the emperor," to advocate a nationwide plebiscite on retention of the emperor system. Jiji news agency reported.

The fact that this issue remains unsettled is responsible for current "political unrest," Jiji quoted a spokesman.

Plans for a purge of ultra-nationalists from public office progressed, with Kyodo news agency reporting that at least 21 of Japan's 47 prefectural governors were due to resign.

Military leaders listed among today's new war crimes suspects included Gen. Kiyotake Kawaguchi.

Chinese Reds Ask Withdrawal of National Troops

CHUNGKING, Jan. 18.—(AP)—The Chinese communist party issued a formal statement today demanding withdrawal of government forces from all places it charges they occupied after the Sunday midnight deadline for cessation of China's civil strife.

It charged that the government used "excellent wireless facilities" to order "swift seizure of strategic points." Communists have to depend upon government radio for communications, but are preparing to establish a station of their own at Peiping.

Army Would Like To Keep GI Jane

WASHINGTON, Jan. 18.—(AP)—The army wants to keep GI Jane. Present plans call for a permanent force of women as part of the postwar regular army. It would be known as the "Women's Corps" and include army nurses as well as W.A.C.s.

Maj. Gen. Willard Paul, chief of army personnel, told a senate military subcommittee yesterday that the projected women's corps would number between 5,000 and 6,000.

Authorization for W.A.C.s, WAVES and other women's auxiliaries will expire with the official ending of the war emergency.

M'Arthur Orders Arrest of 110 New War Criminals

TOKYO, Jan. 18.—(AP)—Gen. MacArthur today ordered the arrest of 110 more Japanese war criminal suspects, including seven generals, and 100 other officers arrested.

The long-missing Dr. Ba Maw, puppet premier of Burma, in Peiping, Chinese arrested Maj. Gen. Eugene Ott, naz ambassador to Tokyo at the time Pearl Harbor was attacked, and announced he would be brought to Japan for questioning.

The 110 additional war crimes suspects listed for arrest included Gen. Takeji Wachi, former chief of staff of Japanese general headquarters.

Mao, once premier of Burma under the Japanese puppet regime in his country. He disappeared by the time Allied forces recaptured Burma.

Japanese small businessmen meanwhile rushed plans for a "league for safeguarding the emperor," to advocate a nationwide plebiscite on retention of the emperor system. Jiji news agency reported.

Fact-Finding Board Studies Meat Strike

WASHINGTON, Jan. 18.—(AP)—The meat situation looked bleak today.

There was no sign government efforts would bring a quick settlement in the three-day-old strike of 263,000 meat-packing workers.

A federal fact-finding board opened a study on the strike's wage issue but its report is not due until Feb. 15-20 days hence.

The fact-finders promised, however, to act promptly on any agreement possibility that would bring a settlement in the walkout before that date.

CONFERENCE ENDS Secretary of Labor Schweitzerbach, who invited all sides to Washington in connection with a futile effort to avert the walkout, ended four hours of conferences last night.

But the talks with packers, CIO, AFL and unaffiliated union representatives were "exploratory," Schweitzerbach told newsmen, with each presenting his position.

WITTE IS CHAIRMAN Edwin E. Witte, chairman of the fact-finding panel named by the secretary yesterday, took up the conference today. Witte indicated they would be concerned largely with procedure to be followed when formal fact-finding hearings begin.

AFL representatives said they had not modified their demand for a 45-cent an hour wage increase. CIO spokesmen declared their demand remained at an immediate increase of 7 1/2 cents, with an additional 7 1/2 cents to be negotiated later.

Company spokesmen reiterated that any wage adjustment must be tied to a price increase.

Both unions objected at the opening of the meetings to the presence of officials of the national brotherhood of packinghouse workers, an unaffiliated union.

At Least 15 Are Dead in Crash of Transport Plane

CHESTER, Conn., Jan. 18.—(AP)—A large plane, believed to have been a transport, crashed here today and an eye witness said he had counted 15 bodies.

The big ship was still in flames when first witnesses reached the scene. The crash occurred on a farm about two and a half miles from the center of this town.

A woman attendant at the state reformatory, close to the scene of the crash, said she saw 15 bodies.

BOSTON, Jan. 18.—(AP)—The army flight service today identified a plane that crashed in Chester, Conn., with the loss of at least 15 lives as flight 16-B of the Eastern air lines, en route from La Guardia field, N. Y., to Boston.

The plane checked in at Hartford at 10:30 a. m., and was found in flames at Chester at 11:06 a. m.

A woman attendant at the state reformatory, close to the scene of the crash, said she saw 15 bodies.

Veterans of 36th To Stage Reunion

BROWNWOOD, Jan. 17.—(AP)—This Central Texas town was decked out in its best today and waiting for the 36th division veterans of the 36th Division—with everything from three big dances to memorial services, beginning tomorrow.

Camp Bowie, home training ground of the division, will add its best martial music, entertainment, and official words to the three-day occasion.

Mayor Wendell Mayes, will address the soldiers, veterans, Gold Star mothers and wives at 10 a. m. tomorrow.

Three bands will play for the parade tomorrow afternoon. The 62nd army ground forces, the Eighth service command, and Brownwood high school will provide music.

Noon Deadline Is Set by President

WASHINGTON, Jan. 18.—(AP)—A union official who declined use of his name said today the CIO Steel Workers had accepted President Truman's compromise pay increase proposal in the steel wage dispute.

This official, who declined to be quoted directly, said a union letter of acceptance had been sent to Mr. Truman through Secretary-Treasurer David J. McDonald of the Steelworkers. He said CIO President Philip Murray wrote the letter in response to the President's compromise proposal, reported to be 18 1/2 cent hourly wage increase for the 800,000 steel workers.

An hour and a half before President Truman's deadline, the White House reported no clue on whether "Big Steel" and CIO Steelworkers will accept a reported 18 1/2 cent compromise of their wage dispute.

ANNOUNCEMENT EXPECTED Press Secretary Charles G. Ross told a 9:30 a. m. (CST) news conference he expected to have an announcement after the 11 a. m. (CST) deadline fixed for answers from the United States Steel corporation and the steelworkers union.

Ross said the President had heard nothing at that time from Benjamin F. Fairless, president of the corporation, or Philip Murray, CIO leader.

PROPOSAL DISCUSSED At New York Fairless was reported discussing Mr. Truman's proposal at a conference.

Ross said he thought the replies would come either by telephone or telegraph.

NOTHING TO ADD In the meantime, he said there was nothing he could add to last night's announcement that the proposal would be discussed.

More 'Hot Checks' Are Being Passed

A record number of "hot checks" have turned up within the last two days, stated Bruce L. Parker, county attorney, this morning.

Checks are still coming in to be more careful in taking checks on people they do not know, Parker advises merchants to call the bank on which the check is drawn before accepting doubtful checks.

One man gave a worthless check as down payment for a watch which was given away as a gift. Another party paid for a musical instrument with a "hot check," then sold it to a second-hand store for half the original cost.

On two different occasions checks have been tendered to merchants who, on calling banks for verification, found the passers of the checks to have left while the call was being made. The procedure is recommended by County Attorney Parker on all doubtful checks.

Jaycees Stage 'Pay Your Poll Tax' Campaign

Plans for a campaign to encourage Gray counties to pay their poll taxes before Jan. 31 were made at a meeting of a special Junior chamber of commerce committee yesterday.

The committee, which met in the office of Dr. R. A. Webb, decided to put up posters over the city and to fully publicize the necessity of every qualified person paying his poll tax.

Three Berger Jaycee members, Dan Morton, C. E. Ruby and Ralph Fulton, outlined the steps that had been taken in that community to further the campaign.

Dr. Webb pointed out there would be several major issues, local, state and national, that would be put to vote this year and it was important that every person qualified should take part in these elections.

The Berger representatives said that nine billboards had been obtained in that city and messages encouraging the payment of the tax had been put on these boards.

A list of persons who may obtain exemption rights were given to the committee by the Berger men.

Most important of these was the returning veteran, who, if the election comes within 18 months after his or her discharge, may vote without payment of poll tax or without obtaining an exemption certificate.

This ruling was explained by a specific example as follows: A person discharged April 1, 1946, may vote this year and it was important for 18 months after that date, or

Work on Water Line Will Start Tomorrow

Work will start tomorrow on the digging of ditches for each water line in Talley addition, City Engineer George Thompson said today.

The firm of Simmons and McConnell of Pampa has contracted to do the work.

Thompson said lines will be laid on Montagu and Browning streets and will dead-end at each end of these streets because not enough pipe is as yet available to connect the two.

As soon as materials are available two-inch coming lines will be laid on every street where there are enough residences to merit the work. Fire plugs will be installed about every 700 feet on the two streets, he said.

SUNDAY SCHOOL LESSON
THE LAWS OF A PEOPLE
Scripture: Exodus, 19:23, especially Exodus 19:7-8; 20:1-2; 23:4.
By WILLIAM E. GILROY, D. D.
Moses stands out in history as a great law-giver, as well as a great deliverer.

The Ten Commandments, which have endured through the ages though men have not always obeyed them, are only a part of extensive moral and hygienic codes which Moses established, or were later set for guidance in Israel.

It must be obvious to every intelligent reader that all parts of the law are not of equal value in moral or social worth. The times were crude, and in some respects cruel. One reads in Deuteronomy 2:34, and in Deuteronomy 3:4-6, how in the war of conquest, Moses took over 60 large, walled cities, besides "unwalled towns a great many," and "utterly destroyed" the inhabitants, men, women and "the little ones."
Possibly this was no more ruthless than the practice of the peoples whom the Israelites fought, but it sounds too much like the Hitlerite ruthlessness of our own time; and surely the Christian conscience must recoil against it.

STOP JOHN CLAY

By Lionel Mosher Copyright, 1945. NEA Service, Inc.

XIV
THE car drove off. Pike stood there. The September air was cool, but he was perspiring a little. This is a fine mess, he thought. His handkerchief with Fay Tudor's lipstick on it. And all for nothing. All he had done was to confuse himself.

He walked along the main street past a tearoom called The Rain-bow and he saw her.
She came toward him with her auburn hair shining in the sun. She was wearing a green shark-skin suit and she looked fresh and lovely. She glanced up suddenly and saw him.

"Hello," he said.
"Hello," she said.
"Busy?"
"Yes."
"Don't be so prim," he said. "I've got something to tell you."
She looked up and down the street.

"I'm listening," she said.
"Not here." He took her arm and steered her back toward The Rainbow. He was very firm about it. She looked up at him and frowned.

He held open the door for her and they found a table in the corner with scalloped paper doilies at each place.
"He's asked," she said.
"She shook her head.
"I suppose you've heard about Bateman," he said.
"That did a little something to her."

"No."
"She's dead."
"She just sat there with her hands clasped so tight that her knuckles showed white."
"She said: 'Are you sure?'"
"Quite," he said. "They found him this morning. They think it might have been murder."
"I'll take that coffee, after all," she said.
"John Clay just gave me a lift to town," he said. "He told me

that a handkerchief was found near the body. It had lipstick on it."
"What else?"
"I don't know whether I ought to tell you this," he paused. "The handkerchief was mine."
"The O. S. S. worked on the case for weeks until finally they got a break. A girl—a secretary in your uncle's office—finally got through to them that she had information on John Clay which she thought they ought to know."
Pike stopped. Ray Tudor, sat with a peculiar stillness in her face. She waited and he let her wait. Then he said:
"Have you detected any errors?"
"I wouldn't know," she said.
"Then all of this is new to you."
"If I knew all that, if it were true, and if Uncle John knew I knew—"
She made a vague little gesture with her hand, stopped it, and picked up her bag. He said:
"You must have suspected—"
"Believe me, Mr. Calvin," she laid a hand on his arm. "I know that Uncle John is no angel. But my mind has been so taken up with—other matters—that I must have missed a lot of sure bets."
"Are you in some kind of trouble," he asked.
She looked at him, shook her head, smiled and said:
"Brother!"
She started to walk out, then turned back. "Thanks for the coffee and cigaret," she said. "And Mr. Calvin."
"What?"
"This looks like a big job. You'd better get help."
He watched her cross the street and go into the drugstore. In a few moments she came out with a newspaper. A lovely girl. He liked her very much, but there were times when he thought that if someone took her firmly by the shoulders and shook her a bit—
(To Be Continued)

all that is best in Christian civilization. This measured, Moses stands out in history as a great law-giver, and to modern laws and law-givers, reveals how much we owe to that great Deliverer.

Warren A. Hohl, recently appointed director of music in the First Methodist church will present an organ recital in the church Sunday evening at 7 o'clock.
Mr. Hohl's organ will be divided into three groups, the first consisting of organ masterpieces including number by A. Guilmaut, C. Saint-Saens and J. S. Bach. The second group of familiar melodies will include the works of Schubert, Handel and Tchaikowsky. The last group consists of the works of American composers with the works of Nevins, Chenoweth and Yon represented.

Organ Recital At Methodist Church Sunday

The Junior High Fellowship will meet at six Sunday evening. The senior department of the Methodist Youth Fellowship will meet immediately after the evening service for an evening of fun and fellowship in the singing of old familiar folk-songs and hymns.

Church of Christ to Study Organization From New Testament

Beginning Sunday night the Francis Avenue Church of Christ will hold a series of meetings of four nights duration. Luther G. Roberts will be the speaker at the church who will do the preaching at these meetings has announced.
The special subject for this series of sermons is "The Organization of the Church." The type of organization set forth in the New Testament, the officers, their qualifications and duties, and the responsibilities of the membership to them, are some of the questions to be discussed. Services will begin each evening at 7:30 starting Sunday evening and continuing through Wednesday evening. The pastor is cordially invited to attend these services.

Sunday afternoon at 3 o'clock there will be a singing at the church building of the Francis Avenue church. This singing is conducted each month on the afternoon of the third Sunday at various meeting places of the churches of Christ in this section of the state. In the past two months singings have been conducted at Borger, and at the building of the Central Church of Christ here in Pampa. Some twenty-five churches of Christ have been invited to participate in the song service here Sunday afternoon. The public is likewise invited.

"NATURALLY, they were very cagey about it," Pike went on. "They took all of the advantages of democratic freedom which the undemocratic know how to take. And they were very careful to stay within the law. It is obvious that somehow they must be stopped. For they are very powerful, very wealthy, and very ruthless."
"The O. S. S. worked on the case for weeks until finally they got a break. A girl—a secretary in your uncle's office—finally got through to them that she had information on John Clay which she thought they ought to know."
Pike stopped. Ray Tudor, sat with a peculiar stillness in her face. She waited and he let her wait. Then he said:
"Have you detected any errors?"
"I wouldn't know," she said.
"Then all of this is new to you."
"If I knew all that, if it were true, and if Uncle John knew I knew—"
She made a vague little gesture with her hand, stopped it, and picked up her bag. He said:
"You must have suspected—"
"Believe me, Mr. Calvin," she laid a hand on his arm. "I know that Uncle John is no angel. But my mind has been so taken up with—other matters—that I must have missed a lot of sure bets."
"Are you in some kind of trouble," he asked.
She looked at him, shook her head, smiled and said:
"Brother!"
She started to walk out, then turned back. "Thanks for the coffee and cigaret," she said. "And Mr. Calvin."
"What?"
"This looks like a big job. You'd better get help."
He watched her cross the street and go into the drugstore. In a few moments she came out with a newspaper. A lovely girl. He liked her very much, but there were times when he thought that if someone took her firmly by the shoulders and shook her a bit—

WE ARE THINKING WITH OUR EMOTIONS

America democracy is on trial. Our representatives in Washington find themselves in the uncomfortable position of being between the emotionalism of the man overseas and the people at home, and the expressed responsibility of steering the country through the unpredictable straits of security.

That is probably one of the most deplorable predicaments of a politician, considering the fact that there is an election in the offing.

Democracy is on trial before the eyes of the people in lands where there are other types of government, which, in an emergency, issues orders—and there can be no protest. This predicament is partly the fault of the government in Washington and partly the fault of the civilians at home and the civilians in uniform.

First, it is the fault of the government because there has not been formulated some long-range policy as to the size of permanent army we are to need and raise to police Europe and Asia. A military army is now carrying out a political assignment.

The war is over, and the men who fought for the right to protest in a free country are clamoring because they are not all back home—notwithstanding the fact that since the war in Europe and that in Asia were terminated, a little more than four million of them have already been brought home.

The announcement that 1,800,000 others are to be at home by July 1 has not been much of a stimulant to the men, unless it is to prompt them to more demonstrations.

Second, it is the fault of the people in that they are thinking only with their emotions. "The war is over; bring them home." Just like that, and they are quite sincere about it.

Aside from the fact that the government has made the mistake of delaying demobilization because it has not formulated a policy as to how big the army of the future is to be and just what the men left over there will be asked to do, we at home have forgotten that there should be some sort of such policy, and that it will call for a certain number of men, even though the shooting has stopped.

As the government has failed to formulate some sort of policy for a policing army, so the people have forgotten that there is still a job to do—the sort of job that should have been done after the Germans were beaten in 1918. With the benefit of hindsight we now know we lost that peace.

Every Panpan—ever American—who has any concern at all about whether or not the little tots around the house today will have to go to war in the future, should consider the statement made Wednesday by Texas Rep. John E. Lyle, who served in Italy and holds the Purple Heart. (He will be up for reelection, too, one of these days.) Here is what he said in regard to Gen. Eisenhower's explanation of the demobilization slowdown:

"General Eisenhower didn't tell congress or the people anything they didn't know, if they stopped to think—that the responsibilities facing the people and the soldier arising out of the war haven't changed.

"I can fully appreciate the longing of G.I.'s overseas to come home, having shared with them that desire. But it is one of two things: abandonment of our task of straightening out of a torn-up world, or disciplining ourselves as individuals to take the consequences of our responsibilities."

To our way of thinking, he spoke his lines well. They won't suit very many people, if we continue to think with our emotions. But that is one of the privileges of our land; it could be one of the pitfalls. If the time comes when we must make what some day may prove to be an important decision, and we use emotionalism to make that decision, then the privilege we enjoy in making it might be destroyed.

It seems to us that if we here at home are going to do any protesting, let's put it in the form of a demand to the government for a policy on the size of the army needed. Then if that policy is not formulated and carried out, there should be some head-knocking in Washington.

Answers Given Concerning UNO

Do you have any questions on the United Nations Charter? To help the people of this country better understand the Charter and their responsibilities to world organization, the American Association for the United Nations is answering questions received reflecting the tremendous interest today and always for lasting peace.

Q. Why should we give out information on the atomic bomb? How can we be sure that it won't be used against us?

A. As Secretary of State Byrnes has repeatedly made clear adequate security arrangements on an international scale will always precede any atomic information disclosure. Secretary Byrnes has also made it clear that any plans recommended by the United Nations atomic commission must receive congressional approval before coming into effect.

Q. What is the program of UNO's meeting?

A. The United Nations general assembly opened its first session on January 10 in London. This session will be in two parts. At the London meeting the general assembly is to set up the United Nations as a going concern; the secretary-general will be elected; the security council set up; the eighteen members of the economic and social council elected as well as the judges of the international court of justice, and part of the members of the trusteeship council; permanent headquarters will be selected; a commission on atomic energy set up, etc. The general assembly will reconvene in the spring here in the United States, its permanent headquarters and tackle the job of world peace problems.

Q. Is the Palestine question affected by Foreign Secretary Bevin's statement that Great Britain will propose that UNO take over the whole refugee problem?

A. Yes, Foreign Secretary Bevin made it clear that he was referring to all refugee problems, including that of the Jews. Sir John Singleton, chairman of the Anglo-American committee of inquiry on Palestine, has pointed out that in setting up this joint committee, it was done with the intention of obtaining information on which the United States and Great Britain could make recommendations to UNO.

Q. What has been the result of General Marshall's discussions in China?

A. Both the national government and the communist party have signed

Water Under The Bridge-Work

NATIONAL WHIRLIGIG

news behind the news

By RAY TUCKER

STOCKPILING—Alarmists on the supposedly tragic depletion of America's natural resources have been fairly well discredited by a senate military affairs sub-committee's investigation of stockpiling strategy and critical materials against the possibility of another war. Uncle Sam has virtually everything for a high standard of peacetime living, but he is shy on a few articles for his Armageddon.

Save or a dozen products, all the essential materials for national defense and peacetime prosperity are available in the western hemisphere. Domestic commercial reserves of principal ingredients will last between 100 and 200 years on the basis of 1935-1939 consumption. There are a few crucial gaps for battlefield and naval purposes.

New military and naval weapons, however, as well as future developments—necessitate speedy passage of the stockpiling bill, which was steered through the military affairs committee and the senate under the able direction of Senator Joseph C. O'Mahoney of Wyoming, subcommittee chairman. For some strange reason the house military affairs committee has not yet given any consideration to the question.

RESOURCES—The senate version authorizes the President to establish a purchasing and exploratory agency in whatever department he determines, with a \$10,000-a-year chairman. Other strategic boards on the administrative board will be the secretary of state, treasury, war, navy, interior, agriculture and commerce. Industrial advisory committees will assist at ten dollars per day.

Besides purchasing nondomestic but essential materials abroad, the strategic materials stockpiling board will explore insufficiently developed resources in the U. S. A.—low-grade iron ores in Minnesota, manganese and bauxite in Georgia, Arkansas and Alabama, and celestine in Texas.

Except where the national interest requires foreign purchases, the policy of "Buy American" shall prevail. The state department raised minor objections to this doctrine but the Byrnes boys were beaten down.

The bill should be a boon and a boom to the mining industry, for it is expected that the eventual reserve built up by the government will cost almost \$4,000,000,000. As demands change and require the hoarding of new and strange minerals, the total expenditure may go higher. But the benefits will be widely distributed, economically and geographically.

MATERIALS—In an old-fashioned conflict such as World War I, the United States would hardly have to go beyond its own borders to get the wherewithal for weapons. But the recent struggle and inventions still on the military-industrial

62 principal embassies and consular offices, with part-time work going on in 22 more. About 500 would be necessary to keep the radio programs going, 500 would be on temporary duty with the occupation forces in Japan and Germany, perhaps 100 could supervise the cultural relations program, and another 500 would be needed to prepare and edit publications and information programs in Washington.

CAN'T ESTIMATE COST OF PROGRAM

In addition to these would be some four of five hundred analysts in NIA, the proposed national intelligence authority, now being organized from OSS remains by Col. Alfred McCormack. Contrary to common belief, NIA isn't going to do any spy work itself. The cloak-and-dagger activities have been transferred to the war department. All NIA will do is analyze the intelligence obtained by others—the army's G-2, navy's ONI, FBI, and commerce and state department foreign service officers.

Colonel McCormack has estimated that the intelligence end of the business may cost six million dollars a year. But not one can estimate what the information and cultural regulations program in OIC will cost, till congress gets through with it. For the first six months of this year, OIC will operate on a budget of about 13 million dollars.

They justify this expenditure by

In Hollywood

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD. — Hollywoodites are talking about: Movie grosses, which continue to be phenomenal. Latest figures show that 100,000,000 people went to pictures each week during 1945. . . . Hollywood's post-war movie boom—39 films are in production, compared to only 29 a year ago. . . . Those ads for "Getting Gertie's Garter." They are getting the censor's goat. . . . Bing Crosby and Barry Fitzgerald slated to be reunited on the screen in a new film, "Pinnegan's Folly."

Gene Autry, who hadn't appeared in a movie since 1942, receiving 248,000 fan letters in 1945. . . . Jack Haley forming his own film producing company. . . . Buddy DeSylva bowing out of his Paramount contract after his serious illness. But the "rest" he promised himself will soon find him back on Broadway, producing another musical. . . . Alice Faye convinced that she does better in musical since her fling at straight drama in "Fallen Angel."

Producer Sol Lesser's purchase of a new James Norman Hall novel, "Lost Island." . . . Pat O'Brien's new word for women who overwork about weight: Hippochondriacs. . . . Dorothy Lamour signing a five-year contract, starting in 1948, with RKO. . . . Lana Turner due to play a hard-boiled role again in the Raymond Chandler mystery, "Lady in the Lake."

Mrs. Paul Henreid becoming an American citizen. . . . Director Eddie Gubling's big dinner party in honor of David Niven at Mike Romanoff's. David was home in bed with the flu but talked to all the guests via telephone.

"AMBER" GETS APPROVAL

After wearing out plenty of ice packs, the censors finally approving the film play of "Forever Amber." . . . Jack Benny accepting an "invitation" to do background horror music for Peter Lorre's next picture.

Errol Flynn playing a concertina, rocking a cradle and crooning to an infant in a scene for his current film, "Escape Me Never." . . . Jeanne Crain's marriage, minus her

chases and possible sales of stuff which has become technologically obsolete for war use try to guzzle against any operations detrimental to private enterprise. Even Senator Robert A. Taft was satisfied on that score.

CRIMINAL—War's technological advances became so bewildering that many erstwhile strategic materials were outmoded after millions of dollars' worth had been bought. Other products never regarded as military in nature became all-important.

Before 1939, army-navy experts in this field held that only eleven materials were vital to war-making and national survival. Before V-J Day, the number had been increased to sixty-five, of which twenty-seven had to come from overseas.

"It was only because providence allowed us nearly a year and a half before Pearl Harbor," confessed a war production board minerals expert, "and the strenuous and effective efforts of the old national defense council, that got us by."

In private huddles with state-army-navy committees after Pearl Harbor, industrial advisers described this kind of unpreparedness as "criminal." The government men agreed.

SUPPLY—The increasing importance of electronics in warfare has put the United States in an unfavorable position from the standpoint of self-sufficiency, according to the O'Mahoney findings.

Radio, radar, the atomic bomb and other still unutilized devices for defense have given inestimable national defense value to minerals once looked on as scientific curiosities—mica, tantalite, beryllium, quartz crystals.

Where these products are not available domestically, we have only about a five years' supply. Stockpiling under the O'Mahoney plan has become a necessity.

While the house committee's inaction is puzzling, it should not handicap the long-range program. Private industry will probably need many of these substances for reconversion purposes. Incidentally, the bill's provisions regarding pur-

MACKENZIE'S Column

AP World Traveler

MADRID, Jan. 18—Spain's high cost of living—like that of other countries—puts the wage earner in the position of the small boy who can't reach the jam on the pantry shelf.

The average pay of the laboring man is from a dollar to \$1.35 a day. Naturally the cost of necessities isn't on speaking terms with such wages. The worker has to resort to the black market for many of his necessities and the prices are five times those fixed by the government for rationing. The result is that the person of small means can't buy meat, sugar, eggs, butter or other similar items in the food line, and is equally hard hit when it comes to clothing.

The Spaniard uses olive oil for about everything except baking. It not only goes into many dishes, but much of the food is cooked in it. The average family uses over 20 quarts of olive oil per month, and the cost runs anywhere from \$1.40 to more than \$2 per quart.

But poor people get along, and mother's approval, to Paul Brinkman.

The advice given Monte Blue by his long-time friend, Lewis Stone. From a dashing leading man, Blue became a character actor. No one would take a chance on him at first, but slowly he began getting roles. Discussing his fall from stardom and his efforts to recoup his career, Stone said: "This time, Monte, stay just this side of glory."

JENNIFER TURNS PLUMBER

A plumber showing Jennifer Jones how to act when English plumbing fixtures go wrong for a scene in "Cluny Brown," in which Jennifer plays a lady plumber. . . . George Jessel flying to New York Jan. 22 to be toastmaster at a memorial dinner for the late Alfred P. Smith.

All the gals subtly needing their boy friends to take them to Hollywood's plush LaRue restaurant for dinner. Reason is that pheasant is served there complete with full-feather regalia—which the gals promptly appropriate for hats.

foreign observers who live here say hunger is not one of the trials of the workers as a whole.

How do poor folk manage? Well, to begin with, every member of the family who is able to earn money goes out to work. The children don't attend school if they're needed as bread winners.

The mainstay of the poor man is bread and soup. These days the soup is likely to run pretty thin, but when the right ingredients can be found, it's really a grand dish. If it's properly made it calls for plenty of little chick peas, which are largely imported from Mexico and are scarce in Spain now.

The chick peas are boiled with potatoes and perhaps other vegetables along with a piece of meat or at least some fat. When this dish is done it is served as two courses, and the eyes of the worker shone with appreciation as he told me about it. The liquid soup is poured off and beaten first. Then the pea pudding which is left is served up for the final course.

Good fruit is plentiful and not high in price. Spain also has an abundance of fish.

When he fed his chickens, the goose would try to eat the corn but did not know how. Angry, she would pull the tails of hens eating the corn.

After she learned the secret of picking up the kernels, she ate as one of them. She began to get well. Two years later another wild Canadian goose arrived from the north for the winter. He was attracted to the little cripple, and spent the season with her. Foester said he was easy to identify. He, too, had a gap in his wing feathers where he had been shot.

Spring came, and the guest began coaxing his hostess to return north with him. He would fly off, circle the ranch several times, go a mile or two, and come back and land beside her.

But the Calhoun county cripple couldn't fly. After three or four days of teasing flights, the male left without her.

From then on, every year brought

Gracie Reports

By GRACIE ALLEN

Well, I just read about a San Francisco woman who married the same husband the fourth time—after divorcing him three times—and I don't quite understand it, unless her brother; is a divorce lawyer and she wants to throw some business his way.

Personally I think that sort of revolving romance would be pretty hard to keep straight. Suppose he took her home after dinner and a show—herd have to think twice before deciding whether to tip his hat at the door or go on in and go to sleep.

She claims she put Cupid on a merry-go-round because she doesn't want her husband to stop getting up when she enters a room or lighting her cigarettes for her. Aren't people amazing? She gets upset if her husband doesn't do those things, but if George did them for me I'd think he wasn't well and I'd worry my head off.

a reunion.

They rubbed necks, chattered excitedly for several minutes, then settled down for the winter.

Only one year did the routine vary. That was the year of Pearl Harbor. The male arrived on schedule, but did not leave next summer.

He remained, and became as tame as the female. He left the following spring.

Then, this year, came the August hurricane. When the wind stopped blowing there was no sign of the cripple. She hasn't been seen to this day.

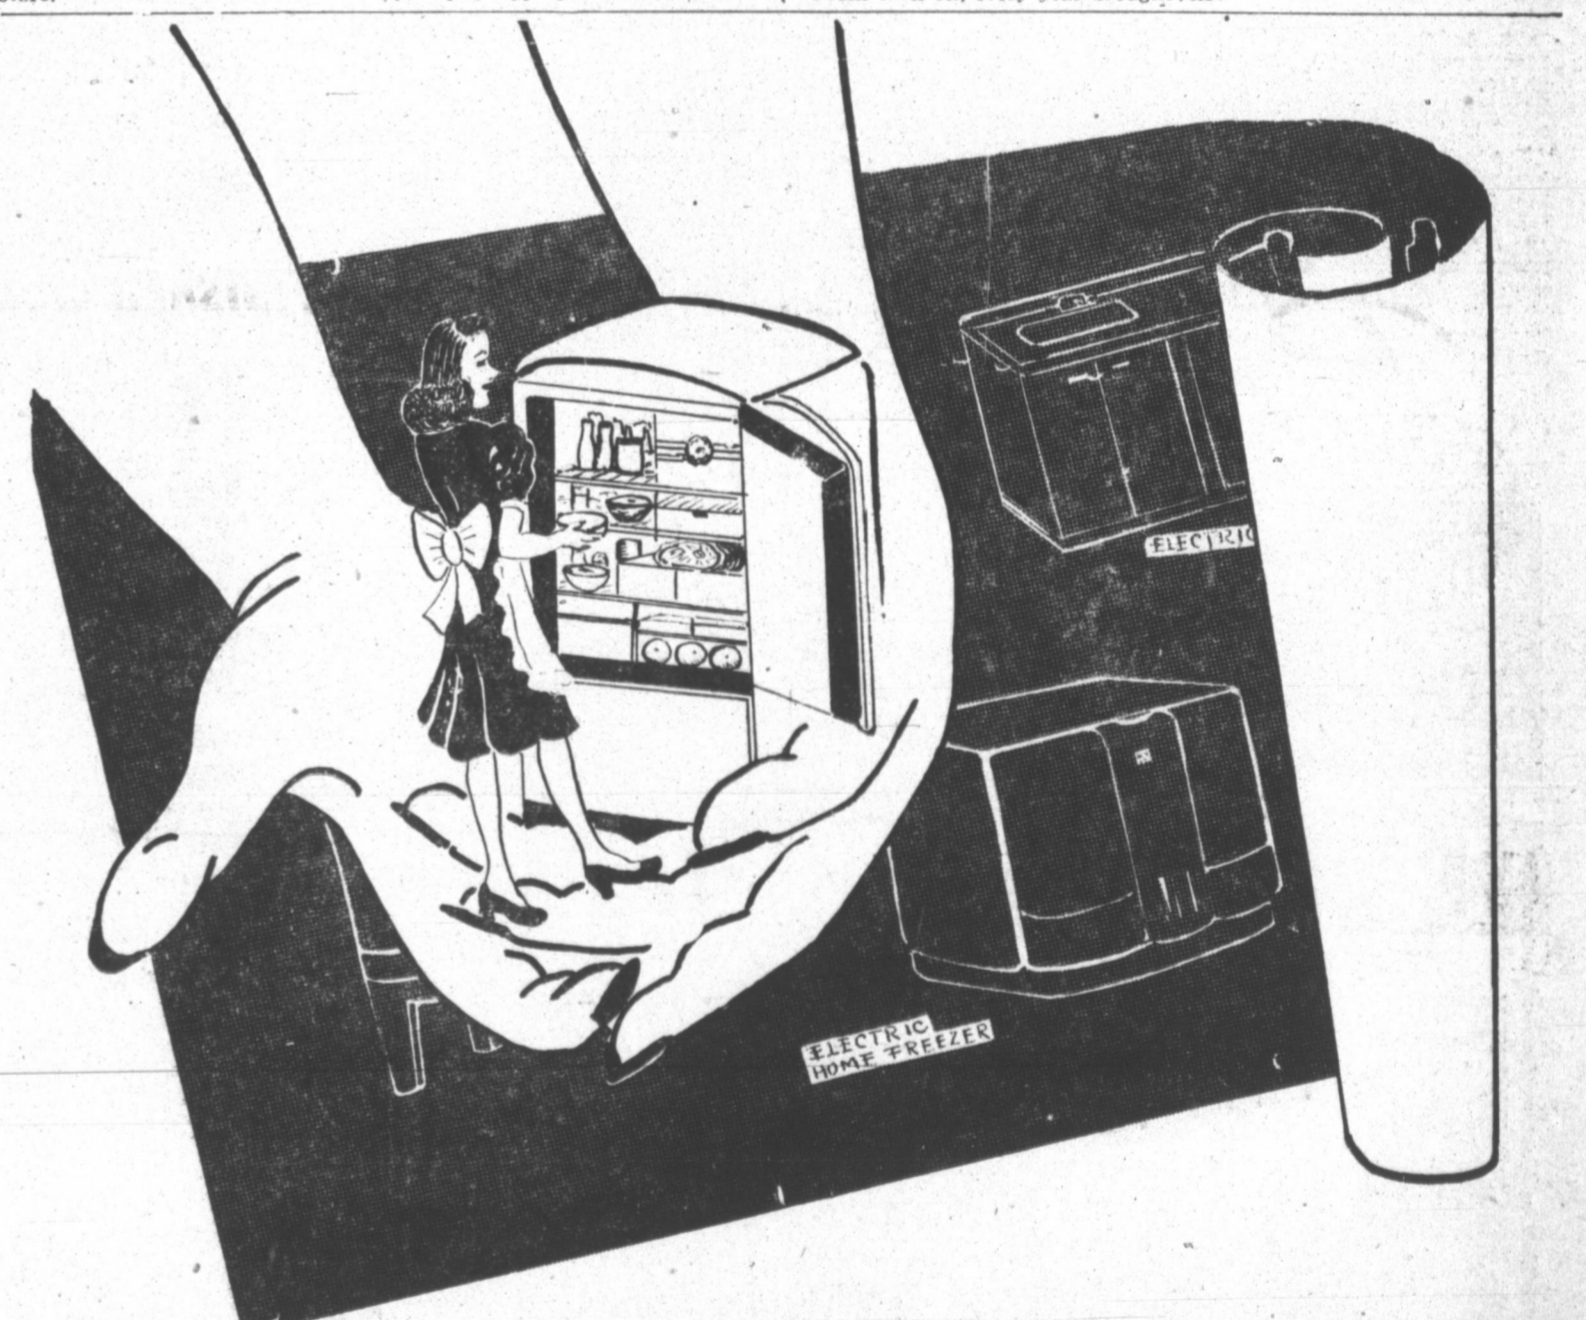

But a short time ago a goose landed in Foester's back yard. There was a gap in the wild goose's wing feathers.

He wandered around for an hour, then flew away.

He returned the next day, retracing his searching steps. Then he flew away for the last time.

Foester likes to think that the cripple was blown inland to some nearby game preserve and, unable to fly home, waited there. He likes to think the wild Yankee goose found her.

"I think he found her, and they are spending the season together again. Otherwise, he'd be coming back to look for her every day," Foester says wistfully. "Wouldn't he?"

Zero Temperatures FOR YOUR NEW ELECTRIC KITCHEN!

An important unit of your next kitchen will be a modern electric refrigerator . . . dependable as always, and in addition, equipped with a zero-temperature freezer compartment of such a size that you can quick-freeze meats and fresh fruits, and store frozen foods. Too, Home Freezers will be obtainable as entirely separate units, offering countless advantages and almost

limitless possibilities for economy and tasty food combinations the year round.

Plan now for the All-Electric Kitchen of your dreams . . . the kind of time and step-saving kitchen in which it will be a pleasure to work and live, where low-cost electricity will perform all manner of tasks, quickly, quietly and efficiently.

Secretary of Agriculture Approves Big Increases in 1946 Crop Goals

WASHINGTON, Jan. 18.—(AP)—With demands for food holding at peak levels, Secretary of Agriculture Anderson this week approved increases totaling nearly a million acres in 1946 crop goals.

Crops for which the final goal recommends increases include rice, dry beans, sugar beets, flaxseed and feed grains.

Some slight revisions were made in the final goal for livestock and livestock products. Anderson said the final goal is as high as a tight livestock feed supply situation warrants. The spring pig crop goal was set at 51,651,000 head compared with Anderson's earlier proposals of 52,000,000 head.

Final goals for chickens and eggs are close to original national recommendations which called for 15 per cent fewer eggs and 17 per cent fewer chickens.

The total goals by crops and products, the earlier suggested goals and the 1945 production, respectively, include:

Wheat 68,875,000, 68,875,000 and 68,781,000 acres; rice 1,479,000, 1,405,000 and 1,517,000 acres; dry beans 2,301,000, 2,000,000 and 1,760,000 acres; dry peas 488,000, 488,000 and 528,000; soybeans for beans 9,590,000, 9,500,000 and 10,873,000.

Peanuts (picked and threshed) 2,500,000, 2,500,000 and 3,183,000 acres; cotton 20,200,000, 20,000,000 and 18,157,000; sugar cane (acreage harvested) 327,000, 327,000, and 301,000; potatoes 2,771,400, 2,789,000 and 2,896,000.

Sweet potatoes 761,200, 750,000, and 715,000 acres; truck crops (for fresh market) 1,827,000, 1,827,000 and 1,901,000; truck crops (for processing) 2,094,000, 2,094,000 and 2,072,000.

Corn 96,760,000, 97,000,000 and 92,867,000 acres; oats 45,668,000, 46,000,000 and 45,234,000; barley 13,400,000, 13,000,000 and 11,429,000; all sorghums, except sirup, 17,093,000, 16,600,000 and 15,666,000; all time hay 61,313,000, 60,000,000 and 59,905,000.

Milk 120,824,000,000, 120,517,000 and 123,250,000,000 pounds; hens and pullets on farms January 1, 407,993,000, 406,863,000 and 468,161,000; egg production 3,900,000,000, 3,913,000,000 and 4,577,000,000 doz.; chickens raised, 679,156,000, 680,000,000 and 821,353,000; turkeys raised, 39,700,000, 39,700,000 and 44,150,000; spring pig crop 51,651,000, 52,000,000 and 51,570,000; cattle and calves on farms on December 31, 78,788,000, 78,600,000 and 80,200,000; sheep and lambs on farms on December 31, 45,624,000, 44,800,000 and 14,800,000.

Journalists of Panhandle High Schools To Meet

CANYON, Jan. 18.—Outstanding high school journalists will direct affairs of the Panhandle High School Press association this year according to an announcement made at headquarters of the organization.

Three of the officers are editors of their school papers. These are Fatsie Northcutt of Amarillo, president; Anna Merle Cox of Pampa, vice-president; and Joe Ella Hussey of White Deer, secretary. The treasurer, Alvin Jennings of Canyon, is an executive of the yearbook at West Texas high school.

These officers were elected by a mail vote, inasmuch as the organization's convention plans in 1946 were canceled by O. D. T. regulations. This year a convention will be held at Canyon in the spring.

The association has its permanent headquarters at West Texas State where Olin E. Hinkle, director of journalism, is the general sponsor. Its history dates back to 1934.

Market Briefs

WALL STREET
NEW YORK, Jan. 17.—(AP)—There were enough buyers in today's stock market to lift selected steels, utilities and industrials to peaks for the past 8 to 15 years although profit taking continued to chill many leaders.

Transfers ran to around 2,200,000 shares.

Advancers most of the day included U. S. Steel, Bethlehem, Republic Steel, Sears Roebuck, Aviation Corp., American Telephone, Electric Power and Light, Columbia Gas, American Power and Light, Anaconda, Kennecott, Westinghouse, General Electric, Allied Chemical, Southern Pacific, Allegheny Corp., California Packing, Sunray Oil and Texas Co. Railway bonds were in demand.

University Society To Be National Affiliate

AUSTIN, Jan. 18.—National recognition of the I. M. Lewis Biological Society of the University of Texas will be given when it is affiliated with Phi Sigma, national honorary biological society, on February 2.

At the February meeting two public lectures will be given—one by Dr. Leon J. Cole, professor at the University of Wisconsin.

At a banquet that night, speakers will be Dr. T. S. A. Pinter, acting president of the university, and an outstanding zoologist, Dr. R. R. Williams, distinguished professor of biochemistry at the university, and Dr. A. L. Ortenburger, curator of the American Museum of Natural History at the University of Oklahoma, and national secretary of Phi Sigma.

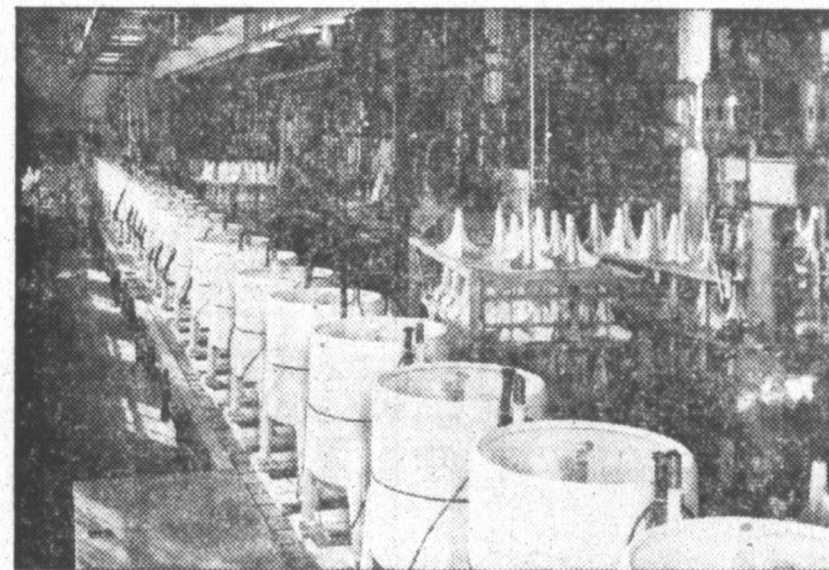

Student officers of the I. M. Lewis Biological society are Charles Olsen of Waco, president; Jo Beth Walling of Austin, vice president; Ruth Lind of Austin, secretary; Kit Anderson of Austin, treasurer; Calvin Ward of Yancey, scribe.

HIGHER "TAKE HOME" PAY THAN WARTIME AVERAGE

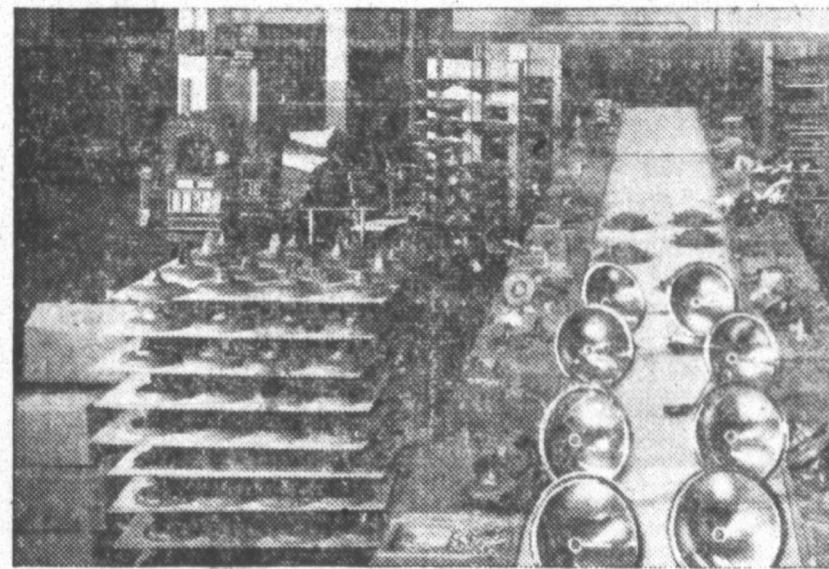

... but the world's largest electrical plant has no workers

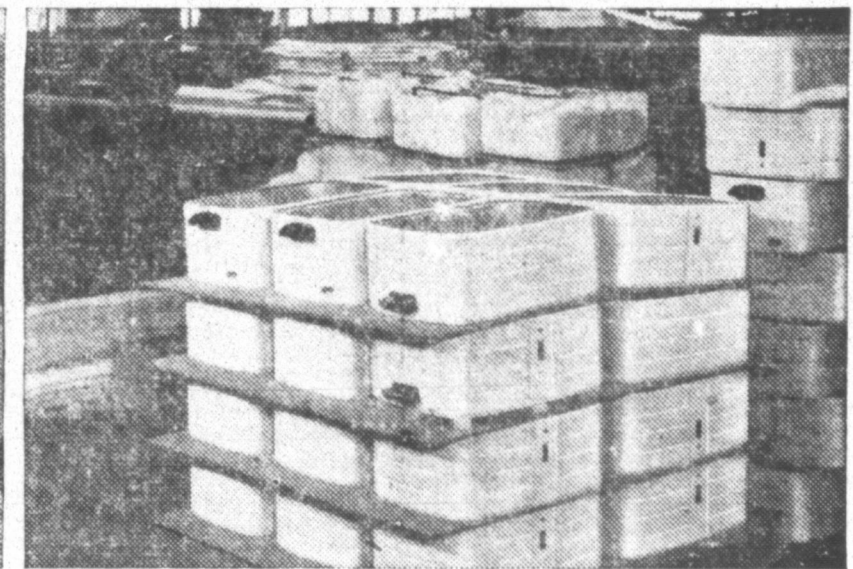

HALF-FINISHED washing machines*

HALF-FINISHED toasters*

HALF-FINISHED heaters*

HALF-FINISHED roasters*

The UERMWA (CIO) has taken General Electric workers out on strike.

Washing machines, refrigerators, heaters, a hundred things were on their way to you. But the strike stopped that.

It was expected to hire twice as many workers as before the war. But the strike stopped that.

Six new government plants were bought. Seven other new plants were being built. And land bought for three more. Increased production was planned in every existing works city.

We are sorry they decided a strike was the answer. The strike will pinch the public with shortages. And take a million dollars a day out of the pockets of General Electric workers.

G.E.'s PAY OFFER

Many of our workers, from what they tell us and write us, do not know that we offered the union an increase of

10¢ an hour for all those making less than \$1.00 an hour, and 10% increase for those who make more.**

With the offered increase and the overtime that will be necessary to meet consumer demand this year, the average employee would have had more "take home" pay than during the war.

THE STRIKE IS PUZZLING

Since 1935, average hourly earnings for men climbed over 51%. Over half of this was in the last five years.

There has been no real labor trouble at G. E. in 24 years. We believe in collective bargaining. G. E. was one of the first large industrial companies to enter voluntarily into a company-wide contract with a national union.

A million-dollars-a-day pay loss will strike every G-E community. And the real tragedy is that employees can gain nothing that they could not have gained while still at work.

*Pictures taken between shifts before the strike represent the condition of our factories today.

**Those making \$2,000 to \$3,000 in salary would receive 10% increases, and those receiving between \$3,000 and \$5,000 annually would receive increases of \$300.

Cash and Carry Basis Is Clamped On Wall Street

NEW YORK, Jan. 18.—(AP)—Wall Street prepared to go on a cash and carry basis today as the government acted to curb speculation in the current bull market by ordering 100 per cent margin requirements on security transactions for the first time in history.

A federal reserve board ruling late yesterday raised margin requirements from 75 to 100 per cent, effective next Monday.

Some brokers who preferred to remain anonymous frankly expressed doubt the action would put a brake on speculation.

In financial circles the move had been expected for several weeks. Stock prices have advanced almost daily to within approach of the 1929 level. The inflationary aspect of the rise has become of increasing concern to authorities.

Emil Schram, president of the New York Stock Exchange, said: "We are for anything that will curtail unwise speculation in the market."

He added: "The market has been practically on a cash basis for some time."

Financial statistics show the market value of stocks traded on the stock exchange totaled \$73,765,250.751 last Dec. 31—highest since June 1930—compared with \$39,666,276,854 on Sept. 1, 1929, and \$15,633,479,577 on the depression-low date of July 1, 1932.

Pearl Harbor

(Continued from page 1) "I will not invite him to attend unless ordered to do so by the committee."

NO COMMENT MADE Ferguson first suggested yesterday that Churchill be called before the committee.

Churchill at Miami had no comment on Ferguson's request.

Ferguson said he will ask that former Undersecretary of State Sumner Welles be recalled to the stand. Welles testified previously that he knew of no agreement between President Roosevelt and Churchill to act jointly against the Japanese.

Ferguson's request for Churchill's appearance plunged the committee into a bitter controversy yesterday after Kimmel, former Pacific fleet commander, had been excused for the day.

SYDNEY, Jan. 18.—(AP)—Dispatches from Lae, New Guinea, today reported a violent earthquake had shaken that area last night, causing a stampede at a movie being shown to American Negro troops.

United Nations

(Continued from page 1)

INTERESTS COINCIDE Defending the big nations' position in the UNO, Gromyko said "all nations, big and small, are interested in securing a stable peace and in preventing a repetition of new aggression. In this their interests completely coincide."

"Endeavors to counterpose the big states with the small ones," he continued, "cannot be regarded with sympathy in the United Nations organization, for this organization is a body to protect all peace-loving states, big and small."

Meanwhile, numerous UNO officials, including those of the United States and Great Britain, privately expressed concern over the Iranian question and said that it is untried and only partially completed machinery of the peace organization might be badly strained in trying to cope with such a dispute at the very outset of its existence.

The assembly moved rapidly through its fifth day of general debate, but by midday so many delegations remained to speak that there was the possibility a night session would be held.

The 13-nation security council, holding its first meeting yesterday, adjourned after running into the problem of nominating a secretary-general for the UNO. The name of Gen. Eisenhower continued to figure largely in the speculation over this key post.

Should Iran press her case at this stage, while the council is still in the process of organization, several possible results were foreseen:

1. If the council were finally compelled to make a decision strongly critical of Russia, unity among the Big Three nations—Russia, the United States and Great Britain—might be upset.

2. If the council ruled against Iran, the faith of the small nations in the organization's ability to protect their interests against conflicting policies of the great powers might be shaken.

3. If the council stalled along and arrived at no decision for an unreasonably long time, it would almost certainly lose prestige.

Both the United States and Britain have tried during the past months to bring the Iranians and the Russians together for a friendly settlement without involving the United Nations.

The basis of the Iranian case, according to informal statements of Iranian delegates, is that the Red army in northern Iran prevented Tehran from putting down a revolt in Azerbaijan province, which they contend is a violation of Iran's sovereignty.

Mainly About Pampa and Her Neighbor Towns

Miss Evelyn Mason, secretary of the Gray County Agricultural Conservation Assn., was to leave this afternoon for her home in Wheeler for the weekend.

Chief of Police and Mrs. Louie Allen are in Amarillo on business today.

O'Daniel's USO

(Continued from page one) Street, N. E. Washington, D. C. On the other side is printed: "When signed by U. S. Senator W. Lee O'Daniel of Texas this ticket is good for free lodging for name (blank), home address (blank), date (blank), No. (blank)."

Although any serviceman will be welcomed, O'Daniel said he primarily intends to issue the lodging cards to Texas boys who call at his office.

He said he plans to remodel the building extensively so it will be suitable for a private residence, but construction is held up now because of shortage of material and labor.

Steel Strike

(Continued from page one) proposal was made "in the public interest." However, it was reported to involve an increase of 18 1/2 cents an hour.

Among government officials there was confidence that Murray would accept the proposal advanced by the President when all other wage negotiations at the White House ended in deadlock yesterday.

Murray had lowered his original demand of 25 cents an hour to 18 1/2 cents. The U. S. Steel corporation had offered 15 cents.

While it was learned that steel prices were not discussed in the White House negotiations, the company was said to be aware that government approval of increases of at least \$2.50 a ton—and possible 14—is in the offing for February 1.

Fairless flew to New York with Mr. Truman's proposal, to place it before his board of directors.

Murray called a meeting of his steelworkers' executive board last night, and summoned the strategy committee of the CIO's Big Three unions involved in the wage dispute—the auto workers, electrical workers, and steelworkers. They scheduled a conference just prior to delivery of Murray's reply to the White House.

All government officials dealing with labor disputes agree that the steel case transcends all others in its potentially paralyzing effect on reconstruction if it reaches the strike stage.

A settlement in steel might pave the way for ending the General Motors strike, which started November 21, and the electrical worker's strike at General Motors, General Electric and Westinghouse, which began January 15. The steel strike was postponed a week by Murray at the President's request last Saturday.

state of any date between Jan. 2, 1946, and Dec. 31, 1946, may apply to the county tax assessor and receive an exemption certificate. The holder of this exemption certificate may vote in any election during 1946 provided he has resided in the state one year and in the specific county six months.

Every person who is more than 60 years old, or who is blind, deaf, or dumb, permanently disabled, or who has lost one hand or foot, shall be entitled to vote without payment of poll tax if he has obtained an exemption certificate, which must be renewed every year.

A person who has attained the age of 21 after Jan. 1, 1946, and prior to the date of the election in which he wished to vote must obtain an exemption certificate, and if he reaches the age of 21 between Jan. 21, 1946, and the date of the election he wished to vote in, he must anticipate his birthday and obtain an exemption before Feb. 1.

Plane Crash

(Continued from page 1) accident, said that it appeared that the plane had blown up in the air. Eye witnesses said the big plane fell in flames on the Andrews farm on Wolfs Hill road.

Cheshire firemen sped to the scene, and state police said that six squad cars carrying 25 troopers had been dispatched to the scene.

Shortly after noon Joseph Siendella of Hamden, called the New Haven Register and said that he had seen a plane fall in flames somewhere near the Cheshire-South Meriden line. Siendella said that he had been driving on the college highway when he noticed a large plane flying at about 1,500 feet. As he watched, it burst into flames before his eyes, turned turtle in the air and then began a two mile slantwise plunge toward the earth.

Early arrivals at the scene reported that they found the plane virtually consumed by the flames and expressed the belief that it would be difficult to identify the victims.

Lester Harris, Cheshire real estate operator, said that he saw the

G. Hill, Hereford; Vestus Hodges, Hereford.

It is the duty of organized labor in America in the future to use our spirit of enterprise and our natural resources for the benefit of the whole world.—Frances Perkins, former Secretary of Labor.

plane burst into flames as it passed over the town. Trailing the craft's plume to the Andrews farm, Harris said that he saw three bodies near the wreckage while at least "ten or twelve others" were piled up in the flaming fuselage.

First word of the disaster reached Cheshire fire headquarters at about 11:35 a.m. (EST).

Kellerville Has New Scoutmaster

KELLERVILLE, Jan. 18.—Dee Johnson was elected scoutmaster of troop 70 at a recent meeting of the scoutmasters of this community for the ensuing year. The troop was re-registered with ten boys.

Ollie McPherson and Ernest West are the assistant scoutmasters. Walter Elliott was selected as chairman of the board and E. A. Tendall, secretary-treasurer. Other members of the board are: Custer Lowary, Carl D. Wall, W. W. Hughes, H. Knox, J. N. Clark and J. M. Bruton. Bruton is the retiring scoutmaster.

The troop is sponsored by the public school. This is the tenth year of scouting here and during that time seven boys have attained the rank of Eagle Scout.

The following is a list of the scouts that re-registered: Weldon Earls, Dwain McPherson, David

Harlin, Billie Ellington, Billie Peto Hughes, Carl Wall, Bobbie Boyd, Henry Knox, Jimmie Newton and Cordell Pugh.

Ex-Serviceman Buys Shamrock Drug Store

SHAMROCK, Jan. 18.—Mr. and Mrs. Aaron Fry of Erick, Okla., have purchased the Linton drug and have already taken charge.

Mr. Fry has recently received his discharge from military service. The Frys are acquainted with many citizens of the Shamrock territory, since they were engaged in business in Erick for a number of years.

of war about the new railroad station, the spinning mills, the broad, snow-covered streets, the housing projects for factory and railroad workers in the new city. Aside from a few shivering correspondents there virtually are no Americans here.

These wary South Chinese of Gen. Tu's army are not to be trifled with. This morning, six frightened young Chinese in chairs were led by on the main street at the point of bayonets.

"Looters," explained a Chinese staff officer who was accompanying us, "They may be shot. It depends on the offense."

The palmy days for looters have passed in Chihnsien but a few months ago this was not the case. From a number of demolished office buildings, warehouses and private homes which have been picked clean, it is evident that looters did well for themselves after the Baluchins (communist Eighth route army) dynamited bridges and a building here during the active phase of the civil strife.

Occupation

(Continued from page one)

who served in the Philippines in 1942; Lt. Gen. Takashi Sakai, once commander of Japan's 23rd army; Lt. Gen. Rensuke Isogawa, former 10th division commander; Lt. Gen. Shizao Tani, one-time sixth division commander; Lt. Gen. Sadaki Kagawa, former commander of the 38th division; and Maj. Gen. Saburo Watanabe, who served at Singapore in 1945.

Among civilians named was Kishiro Yasuda, captain of the Tachibana Maru, which some released American prisoners named as one of the hell ships which carried Allied captives to Japan.

Chinese Reds

ist troops as attacks." Earlier today, a spokesman for the council charged the communists with violating the truce as late as yesterday.

The Chinese political consultation conference failed to reach agreement today on the thorny question of the validity of the national assembly scheduled to meet May 5, and turned the matter over to a special sub-committee.

Gen. Chou En-lai, communist delegate, objected strongly to the assembly as now constituted but added that he would be reluctant to jeopardize the unity of the nation on this score.

The communists have asserted the assembly is packed with Kuomintang (national) party delegates.

Poll Taxes

(Continued from Page One)

Under the Texas Constitution, a member of the armed forces will be entitled to vote without payment of poll tax provided:

He is 21 years of age at the time of the election in which he offers to vote; he is a citizen of the United States; he has resided or claimed legal residence in this state for one year preceding the election and has lived or claimed legal residence in the county or district for the last six months.

Armed forces means that the voter is a member of the armed forces reserve but not a member of the regular army or navy. Otherwise, professional soldiers or navy men are denied the privilege of voting.

Room Without Bath

(Continued from page one)

DANVILLE, Ill., Jan. 18.—(AP)—Police investigated a report that a motorist had been slumped beneath the wheel of a parked automobile for two days.

They learned, however, that the motorist, a LaFayette, Ind., traveling salesman, was tired and was using his car for a bed. He hadn't been able to find a hotel room for two nights.

Warp threads are those which run lengthwise of the fabric; weft threads run transversely.
