UN Fighters Hack Out Line On Critical Central Front

Thieves Strike Six Times In Pampa; Loot Said Small

Polio Funds Short; Boosting Is Started

During 1950, the Gray County Polio Foundation spent \$800 on county polio cases. When the books were closed at the end of the year, it was shown that more than \$3200 is owed, and the bank balance is \$4.

Dime boxes and March of Dimes posters are already beginning to be displayed in business houses here. The national campaign opens Monday with a goal of \$50,000,000, which is almost twice the goal sought last year.

Six polio cases in Pampa and nearby territory cost the county \$4116.06. McLean cases totaled two, with a cost of \$1659.65; Lejors, one case, \$98, and Alandred, one case, \$812.

The bank balance of the Gray County Foundation is, at the beginning of this drive, \$4. With a debt of \$3244.43, it can be seen that the drive must be more than a success.

Ray Evans, president of the foundation, has stated that if each person in Gray County will give at least 50 cents, the drive will be a success.

Paul Brown is heading the campaign here. No county quotas are set. Collections last year totaled more than \$9200. Half of the total collections must be sent to the national fund and half kept for the county fund.

Last year was the nation's second worst polio year with 33,344 persons afflicted. The worst year was 1949 with 42,375 cases.

Six Pampa merchants were probably surprised this morning when they opened their doors and discovered burglars had paid them a visit during the night. Robbed were Harvester Feed Co., 800 W. Brown; Pitts Farm Equipment, 527 W. Brown; Hogue-Mills Equipment, Inc., 821 W. Brown; Transmix Concrete and Material Co., 620 S. Russell; Mitchell's Grocery and Market, 638 S. Cuyler; and Bethlehem Supply Co., 623 S. Cuyler. Not more than \$75 was taken from all six places, combined.

Sheriff Rufe Jordan stated early today that the robberies were committed by the same person or persons between the hours of 1:30 and 4 a. m. today. He said that there were probably at least two and maybe three persons involved. He based the time element on the fact that all the victims were located on or near the highway and had their motels taken advantage of the "dead" hours, they might have been seen.

His belief that there were at least two or three persons involved was based on the fact that a heavy crowbar was used in almost every case and that it would take at least two men to handle the bar, leaving a third as lookout.

At Mitchell's Grocery, the burglars entered through the back door, with the use of the crowbar, and took about \$55 in silver money. Nothing else was taken. Mitchell's had no safe as it was carried off in a previous burglary.

The thugs broke the glass in a south door at Transmix concrete Co., broke open the safe and took \$12.15.

At Bethlehem Supply Co., they came through a side door at the back of the building, opened the safe and carried off the money box, containing about \$6. Nothing else was taken.

The burglars entered the Harvester Feed Co. store through an east side door that had been left open accidentally. They opened the safe and upon finding no money, went through several desk drawers, taking only a .22 caliber pistol.

They opened the back door at Hogue-Mills, cracked the safe and took 25 cents. Pitts got off even lighter; they left nothing but scattered papers around the building, but apparently left empty handed.

Ko-Reds Beaten Off In 7-Hour Struggle

TOKYO (AP)—Allied forces hacked out a holding line on the critical central Korean front today after a seven-hour battle south of Wonju.

The battlefront was uneasily quiet late in the day. The snow-carpeted valley and hills were splashed with the blood of 2,100 killed and wounded Korean Reds.

American, French and Dutch troops dealt out death to the enemy in a seven-hour fight that developed after a tank-led U.S. Second Division patrol pushed into the abandoned road-rail hub of Wonju and then voluntarily withdrew.

At one stage, the Americans fixed bayonets and charged.

More than 7,000 North Koreans jumped the company-size entry patrol south of Wonju on the road to Chongju. The patrol was reinforced by the other allied forces and the Reds broke off the battle Wednesday night.

But the greatest menace to allied arms was shaping up in a 50-mile stretch between Chungju and Red-held Osan in western Korea.

Chinese and Korean Red forces estimated at 285,000 were in the area or moving toward it in an apparent bid to cut off the main forces of the U.S. Eighth Army on the road south of abandoned Seoul.

In that area roads fan through the hills, affording many avenues of approach to the allied forces.

Allied Planes Lash at Reds; 1400 Killed

U. S. FIFTH AIR FORCE HEADQUARTERS, Korea (AP)—Allied warplanes lashed today at Communist troops and supplies and reported they killed or wounded more than 1,400 Reds.

It was their first chance in two days to hit the Chinese invaders of Korea. Ground-bugging clouds had prevented their usual close teamwork with their buddies on the snowy ground.

The heaviest strike was in the Suwon area south of Seoul. About 100 fighters caught huge enemy concentrations in the open and inflicted casualties on nearly 1,100 of them, headquarters reported. A total of 215 sorties was flown throughout Korea in the three hours of clear weather this afternoon.

Headquarters said F-80 jets of the 49th Fighter Bomber Wing made the largest kill in the Suwon area when they shot up 200 troops in one concentration. Supplies, box cars, locomotives and buildings also were hit near Suwon.

WITH U. S. SECOND DIVISION, Korea (AP)—Six Navy Skyraiders and four Corsairs dipped through a hole in the clouds over the Wonju area today and bombed, rocketed, fire-bombed and strafed Communist troops.

The United Nations troops held their positions south of Wonju, a key central Korean rail and road center 55 miles southeast of Seoul.

Spontaneous small arms fire was reported. There also was artillery fire directed against Red lines.

WASHINGTON (AP)—Rep. Walter Rogers of Pampa, who beat Texas' lone Republican congressman, Ben Guill, was reported today to have a spot on the House Administration Committee.

Assignments will be made later this week.

Rep. Thompson of Galveston is understood to be headed for the Agriculture Committee, a new assignment. He now is on the Marine and Fisheries Committee. He represents a diversified farm district.

Rep. Thornberry of Austin is reported headed for the Commerce Committee, also a new assignment. The committee handles bills closely tied with functions of the Texas Railroad Commission. He is now on the post office and civil service committee.

Most other Texas congressmen are expected to keep their old committee jobs.

Rep. Poage of Waco would be second ranking on the Agriculture Committee. Rep. Beckworth of Gladewater would have a similar spot on the Commerce Committee.

Rep. Combs of Beaumont is the only Texan on the Ways and Means Committee, and is expected to hold that place.

Chisum Rites Held Friday

Funeral services for Earl Chisum, long-time resident of the Pampa-Miami area, will be held at 2 p. m. Friday in the Methodist Church in Miami. Burial will be in Everway Cemetery, under the direction of the Duenkel-Carmichael Funeral Home. Special military services will be held at the graveside.

Mr. Chisum was born April 14, 1895 in Grayson County, Mo. He moved to Miami when he was two years old. Several years ago he moved to Folsom, N.M., and about a year ago moved to Baton Rouge, La., where he died of a heart attack Monday. He was a veteran of World War I.

Survivors include his wife, Myrna; one sister, Mrs. Ruth Sewell of Pampa; four brothers, Roy and Ralph of Pampa, Henry and Frank of Turlock, Calif.; and his father, Lee Chisum of Pampa.

Pallbearers will be M. M. Craig, Jr., Bill Land, Ben Graham and L. E. Terry, all of Miami, and Bill Crowson and B. W. Rose of Pampa.

Rites Set for Area Woman

MIAMI (Special)—Graveside services will be held here today at 2:30 p. m. Friday for Mrs. Laura Alice Christopher, 85, who died Wednesday afternoon in Amarillo. She had been ill a long while.

Funeral services will be held in the Blackburn-Shaw Memorial Chapel in Amarillo at 11 a. m. after which the body will be taken overland to Miami.

Mrs. Christopher formerly lived in Miami and Pampa. She was an aunt of Mrs. J. Clyde Logan and Oval Christopher of Miami.

Survivors include three daughters, Eula Lee Christopher, Mrs. B. Eddie and Mrs. Margie J. Jossander; one son, L. C. Christopher; one grandchild, Mrs. Lara Harvey; three grandchildren and one great-grandchild.

PLANE LOST
MURCO, Calif. (AP)—Air search began at dawn today for a B-50 bomber missing with eight persons aboard.

Six air force personnel and two civilians left Edwards Air Force Base here at 8:45 a. m. yesterday on a routine four and one-half hour flight over the desert.

The plane was last heard from at noon.

TODDLER CASHES IN FOR LOTTERY
DETROIT (AP)—Four-year-old Donald Bathy toddled over to a punchboard in a drug store and popped out four punches.

"That'll be \$1," the druggist told the boy's mother, Mrs. Betty Bathy, 25. She called police.

The druggist, Allen Dunc 35, was fined \$25 yesterday for operating a lottery.

Governor Warns Texas Must Limit Spending; Boost Taxes

AUSTIN (AP)—Gov. Allan Shivers warned the legislature today it must spend less, tax more and cut state projects dimmed under "the long shadow of another world war."

The governor's biennial message to the legislature on the third day of the 52nd general session bluntly underscored the urgency of girding against sabotage and defending "our own lives against a possible enemy attack."

Balancing the budget without crippling schools, state hospitals and public welfare demands new taxes in the face of an expected 110 million dollar deficit, the governor said. He forecast heavy defense spending.

"I hope you will protect the slender balance in our general revenue fund for civil defense," Shivers solemnly told the lawmakers. Specific civil defense legislation will be offered as soon as possible, he said.

Shivers called for drastic reduction or elimination of every state project not necessary to building a strong, sound home front. Inevitable federal demands for more taxes, more material and more manpower "will have to be given priority over similar state and local demands."

The question is no longer whether or not new taxes will be needed, the governor said, but how large or how small the new levy will be. He turned thumbs down on a sales or an income tax.

Shivers suggested the answer to the question of how to meet the deficit lies within the ability and willingness of the legislature and the people to separate the essential from the non-essential.

The governor said the legislature

state government. Generally speaking, we can not dispense with any of them and continue to operate. They ought to be considered as early as possible in the session . . . in the light of the national emergency."

He urged exploration of the present tax plan to be sure "no one shall pay more than his share, and no one less."

Review Is Asked For Draft Proposal

WASHINGTON (AP)—A Senate committee asked today for more information on administration proposals to draft 18-year-olds into the armed services and set up a universal military training program.

Mrs. Anna M. Rosenberg, assistant secretary of defense, was called back for questioning by the Senate preparedness subcommittee 10:30 a. m. EST before the committee and Secretary Marshall unveiled the proposals yesterday.

The Defense Department officials said then that a bill containing the new program would reach Congress next week. They added that it was backed by President Truman.

Congressional reaction to the program varied, with some senators in both parties suggesting a draft age minimum of 18 years and six months. The present draft act limits actual inductions to the 19 through 25 year age bracket although young men must register when 18.

Mrs. Rosenberg agreed with senators that it might be possible to fill immediate manpower needs for the next year or two without lowering the age limit provided there is no war or all-out mobilization. "But we hate to come up (to Congress) for amendments every few months," she added.

Mrs. Rosenberg estimated that 1,050,000 young men would reach 18 in the year beginning next July 1 and that 450,000 of these could be inducted into the services.

Secretary Marshall and his woman assistant presented the broad new universal military service and training proposal as a permanent plan for meeting both the immediate needs for emergency expansion of the armed services and the long-term obligation of defending the nation.

They both urged that the present 21 months' service by draftees be extended to a minimum of 27 months.

This brought a protest from Senator Russell (D-Cal.), chairman of Armed Services Committee. He said President Truman's order freezing all armed services personnel in service for an additional year already applied to draftees.

Short of all-out war, 21 months is enough for a citizen to give in service to his country," Russell said. He added that draftees now are serving 31 months and that all of them are obligated to serve in the reserve, subject to active duty for several years.

All Safe in Plane Crash

ALBUQUERQUE (AP)—A crippled, twin-engine C-47 crashed and burned near Albuquerque last night but all 11 persons aboard parachuted to safety. Seven were injured.

Ground search parties found the three crewmen and eight passengers clustered around two fires in a rugged, barren area about 20 miles west of Albuquerque. Early today, the searchers brought them to Albuquerque where the seven injured were taken to hospitals at Kirtland Air Force Base and Sandia Secret Weapons Base.

Rescuers reported none of the injuries was serious. Only two of the men were kept in the hospital at Kirtland although all were given a checkup there or at Sandia. The most serious injuries were a wrenched back and a bruised leg.

The more all military personnel including at least one lieutenant colonel and a Navy man, bled out of the plane after the co-pilot radioed Kirtland that one engine had failed and they were in a landing spin.

The plane was on a flight from Norton Air Force Base, San Bernardino, Calif., to Wright-Patterson Air Force Base, Dayton, O.

Lt. L. A. Young, the pilot of an Air Force C-45 sent to help in the search, said the seven injured were gathered around one of the men or so away around another fire, were the others.

Crouch Is Named To Head Shriners

Paul Crouch, one of Pampa's "belongers," last night was made head of the divan for Khiva Temple of the Mystic Shrine. Crouch replaced George Thompson of Clarendon, who was elevated to high priest and a prophet.

Crouch is president of the Top of Texas Rodeo Association, a member of the Pampa Country Club and secretary-treasurer and general manager of the Panhandle Packing Co.

Services Friday For Loy E. Keck

Graveside funeral services will be held at 4 p. m. Friday in Fairview Cemetery for Loy E. Keck, who was killed in an airplane crash in Mississippi last Saturday. Services will be conducted by Rev. Edgar Henshaw.

He will be buried beside the body of his wife, Mrs. Ella Maude Keck, who died March 5, 1942.

Survivors include one daughter, Mrs. Marilyn French of Borger. Services are under the direction of the Duenkel-Carmichael Funeral Home.

Commission Grants Rates

AUSTIN (AP)—The Railroad Commission today granted through relief freight rates on cattle loads for 37 counties of Southwest Texas.

Just arrived: Plenty of Fiesta and LuRay pottery. Lewis Hdq.

More Killings Tied to Cook

EL CENTRO, Calif. (AP)—Desperado William E. (Bill) Cook may have added two more victims to the list of killings attributed to him, Sheriff Robert W. Ware charged today.

Formerly charged with murder and kidnaping in Oklahoma, Cook is still being hunted in California's Imperial Valley and across the border in Mexico.

Sheriff Ware's theory is that the 22-year-old Joplin, Mo., convict may have done a way with two missing El Centro prospectors and seized their automobile for his flight.

The prospectors, Forrest Damon, 32, and James Burke, 33, left home last Saturday, expecting to return next day.

The sheriff said he had information that they were seen at San Felipe, Mex., a fishing spot. (See KILLINGS, Page 2)

Air Official Favors E. Browning Field

By HENRY S. GORDON

Only under "unusual circumstances" would the district office of the Civil Aeronautics Administration approve federal funds for improving and developing the northwest airport—or any airport that distance — (six and one-half miles) — from town.

That was stated bluntly Wednesday afternoon during a brisk joint session of city and county officials, Chamber of Commerce Aviation Committee members and representatives of the Pampa Pilots Assn. by J. D. Church, district CAA airport engineer from Big Spring.

Asked what he meant by "unusual circumstances," Church replied that he was interested in making the taxpayers' money by insisting the post be paid if it would stand the best chance of operating at a profit.

He stated, however, that if he entered down applications for funds his office could be reversed by the CAA regional headquarters, or by Washington.

Other queries to Church were made concerning the reversal of his attitude since a joint meeting of the county and city commissioners over a year ago when he said CAA would approve funds for either location present site or northwest site.

Church replied he had made that statement but changed his mind because "from our experience" airports located "that far" from the city have failed to operate on a profitable basis and have died because they were not easily accessible to the towns' business districts.

Under further questioning, Church backed up on a prepared release given the press Wednesday by the Pilots Association, when he said that by their term "officially" actually meant only as high as his office was concerned. In regard to government participation of land cost, President Truman, Church said and he was supported by a late Associated Press dispatch from Washington had signed a bill authorizing 50 percent federal participation in airport land acquisition.

Under still closer questioning by Hugh Burdette, chairman of the Aviation Committee, Mayor C. A. Huff and others, Church declared he would approve funds only for a site he thought best for Pampa and aviation. This, he added, did not mean he would insist on the present site, but highly recommended a site close to the city.

Burdette reminded the government man that it was most embarrassing for the committee to vote in a straw poll on which site they prefer and then have one of these sites thrown out the window.

However, Church left one thing ray of hope when he also stated that if all other possible sites were exhausted and "unusual circumstances" existed he would approve the northwest field.

But Church was unable to be convinced that the northwest site should be equally considered.

Proponents of the northwest field indicated strongly they were not giving up the fight for their choice and urged every property owning taxpayer to continue mailing in their ballots on whether they preferred the present airport to remain at its present location or E. Browning sites.

Irrespective of yesterday's vote, (See OFFICIAL, Page 2)

Rogers Slated For Committee

WASHINGTON (AP)—Rep. Walter Rogers of Pampa, who beat Texas' lone Republican congressman, Ben Guill, was reported today to have a spot on the House Administration Committee.

Assignments will be made later this week.

Rep. Thompson of Galveston is understood to be headed for the Agriculture Committee, a new assignment. He now is on the Marine and Fisheries Committee. He represents a diversified farm district.

Rep. Thornberry of Austin is reported headed for the Commerce Committee, also a new assignment. The committee handles bills closely tied with functions of the Texas Railroad Commission. He is now on the post office and civil service committee.

Most other Texas congressmen are expected to keep their old committee jobs.

Rep. Poage of Waco would be second ranking on the Agriculture Committee. Rep. Beckworth of Gladewater would have a similar spot on the Commerce Committee.

Rep. Combs of Beaumont is the only Texan on the Ways and Means Committee, and is expected to hold that place.

Services Postponed For Amy Stokes

Funeral services for Mrs. Amy Stokes, who died last weekend in a Wichita Falls hospital, have been postponed until 2 p. m. Friday. They were originally set for this afternoon.

Reason for the postponement was the arrival in San Francisco this morning of a son who had been stationed in Korea.

Funeral arrangements are under the direction of the Duenkel-Carmichael Funeral Home.

Toddler Cashes In For Lottery

DETROIT (AP)—Four-year-old Donald Bathy toddled over to a punchboard in a drug store and popped out four punches.

"That'll be \$1," the druggist told the boy's mother, Mrs. Betty Bathy, 25. She called police.

The druggist, Allen Dunc 35, was fined \$25 yesterday for operating a lottery.

TWO CHAMPIONS AND A COMER—Joe Culmone tied for the 1950 riding championship with 388 winners. Bold is a Kentucky Derby horse of Brookmeade Stable, which under Trainer Preston Burch, showed the way in money won with \$651,249. The Brookmeade string is now quartered at Hialeah.

Mainly About People

Bobby Morris, 1417 N. Charles, son of Mr. and Mrs. R. D. Morris, left Tuesday for San Diego, Calif., where he will enter naval training station there. Morris, a student at Texas Tech, enlisted in the Navy at Lubbock.

Studio Girl Cosmetics, Ph. 4689. Mrs. I. W. Spangler, long-time resident of Pampa, has moved to Oklahoma City. She lived at 1215 Ripley.

A daughter, Maurita Marie, was born to Mr. and Mrs. W. M. Scanlon on Jan. 8 at the Worley Hospital. She weighed 8 pounds, 9 ounces.

Will keep children in my home, day or night. 806 E. Browning. Ph. 4432.

A baby girl, Linda Sue, was born to Mr. and Mrs. J. F. Johnson, 318 N. Roberts, at 5:52 a. m. today at Highland General Hospital. The new baby weighed 6 pounds, 11 ounces.

Practical nurse wanted to take care of mother and new baby; references desired. Ph. 283-W.

Mr. and Mrs. E. D. Smith, 132 S. Sumner, became the parents of a baby girl at 10:21 p. m. Wednesday at Highland General Hospital. The baby weighed 6 pounds, 6 ounces.

Dispatcher wanted, apply in person. Yellow Cab.

Mr. and Mrs. Al Weits were in Shattuck, Okla., on business Tuesday.

Dr. J. Foster Elder is in Dallas this week attending the Obstetrical Gynecological clinics of the South.

Welding Show Held Friday

The public has been invited to attend a combination welding and pipe layout demonstration Friday night at the Gray County vocational combination welding school at Pampa High School. The demonstration will be given by students and instructors, starting at 6 p. m.

Herbert Denny, instructor at the school, said that there would be a demonstration on the use of utactic rods in welding.

Denny also warned the GI's that July 1, 1951 is the end of present veterans T and I training periods to begin. Three courses are now given in Pampa: combination welding and pipe layout, mechanical drawing and a business course. The mechanical drawing and business course is located at the junior high school. There is also a business course for colored GI's being given in the colored section of town. The courses are half-time weeks, taking 12 1/2 hours per week, at night, for which the GI's will be paid.

Jack Graham, the veterans' service officer, and Jesse O. Coleman, coordinator of Gray County vocational training, of McLean, can, process veterans papers.

KO-REDS

(Continued from Page One)

eight miles northeast of Chechon, and another 1,300 were observed east of the city.

Reports reaching Eighth Army headquarters said a large number of Reds was seen eight to 10 miles south of Chechon and moving south.

There were no reports of any action between Chechon and the Sea of Japan coast on the east side of the peninsula.

Chinese and Korean Red forces have been spotted moving south along the coast, however. Last week they were between the 28th Parallel and abandoned Hungnam in North Korea.

On the western front, AP correspondent Stan Swinton reported a force of some 5,000 quilt-uniformed Chinese Reds was seen moving south of Osan, 28 air miles south of Seoul.

Lee Fogolin, Chicago Black Hawks' defenseman, is considered to be one of the best "holler guys" in the National Hockey League.

KILLINGS

village on the gulf of Lower California Saturday night. Other information indicates Cook was also seen at San Felipe Saturday night.

The automobile of one of Cook's victims, Robert H. Dewey, Seattle Wash., salesman, was found 30 miles north of San Felipe. Dewey's body was found north of the border near Ogilby, Calif. It was in the automobile of a Blythe, Calif., deputy sheriff who attempted to arrest Cook but was himself tied up and abducted.

The forests of the United States include more than 800 different kinds of trees.

Rotary Shown Driving Film

Pampa Rotarians Wednesday were shown the difference between a minor traffic violation and instant death in a brutally realistic sound film depicting the results of sloppy and reckless driving.

"And Then There Were Four" the picture showed five different persons starting out on a routine day's work. Only four came home alive. One was a widowed mother with "other things" on her mind while driving in heavy traffic; another was a doctor who thought he was a good driver; a third was a man who "put off until tomorrow" making necessary adjustments to his business; another was a young man who thought he was a good driver; and another was a salesman who forgot there were other cars on the road.

The film followed each of them through their daily chores until the return evening journey when one of them died in a flaming wreck.

The picture was presented by Secretary L. E. Higgins, instructor at Pampa Senior High School.

Prior to the program, Farris Glen passed out straw ballots to the members on the Pampa Municipal Airport was the only field location struggle. The other each member to vote as he wanted in the ballots to the Chamber of Commerce in the postpaid envelopes accompanying the ballots.

Due to the absence of President Fred Neslage, former president, Ray Evans presided at the meeting.

JACOBY ON CANASTA

Learn to Score 3-Hand Game

By OSWALD JACOBY
Written for NEA Service

"We've had a difference of opinion about the best way of settling the score in a three-hand Canasta game," writes a Pittsburgh correspondent. "The other night we were playing at a neighbor's home and the game ended with the following score: Self, 5385; Wife, 3955; Neighbor, 2715.

"Who wins how many points?" There are two ways of scoring a three-hand game. The rule to be followed should really be agreed upon before the game begins.

Most players follow the rule that the high score wins from both opponents, and that the player in the middle wins from the low man. According to that practice, we would first reduce all scores to the nearest hundred and proceed thus: Self wins 1400 from Wife and 2700 from Neighbor; he therefore wins a total of 4100 points. Wife loses 1400 to Self but wins 1300 from Neighbor; so she loses 100 points net. Neighbor loses 2700 points to Self and 1300 points to Wife; so he loses a total of 4000 points.

The other method of scoring has one important point of difference. The player in the middle does not collect from the low man. If we followed this rule, Self wins the same amount; but Wife loses 1400 points, and Neighbor loses only 2700 points. I like the second method for two reasons. First, it is easier on the low man. As we noticed, Neighbor was 1300 points better off by the second rule than by the first rule.

My second reason has to do with strategy. When the ordinary scoring rule is followed, it is always to your advantage to score as many points as you can. If you don't happen to win, you may beat the low man badly enough to make up for what you lose to the winner.

When the other scoring method is used, however, you want to win the game and you are not a bit interested in being second. Hence you are willing to cooperate with the low man while the game is in progress. You try to stop the leader even if that means scoring fewer points yourself on that particular hand.

Meanwhile, the low man has an interest in cooperating with you. If the game can be prolonged, each of you has a chance to improve his position.

The result is that unspoken partnerships arise during a game and flourish until the score shows a new leader. Then a new partnership develops. This sort of game has more interest than the game in which everybody is pulling at the heels of the man above him and stamping on the face of the man below.

Moose Install New Officers

Two new officers of Pampa Lodge 1285, Loyal Order of Moose, were installed in office Wednesday night by Supreme Lodge Auditor George H. Wood; one for an indefinite term, the other to fill out an unexpired term.

Both officers were appointed by the Supreme Lodge of the fraternity.

Amos Evans, bookkeeper for Acme Lumber Co. was installed as secretary to succeed Angus Doyle, resigned, for an indefinite period.

To succeed David P. Smith, who resigned as governor, Henry S. Gordon, of The Pampa Daily News, was handed the governor's gavel to fill out the unexpired governor's term.

The new governor will also address the weekly meeting next Monday of the Pampa Chapter. Women of the Moose, on new procedures to be followed on recommendations of the Supreme Lodge at Mooseheart.

Recruits Stampede Air Force, Navy

NEW ORLEANS (AP)—Men of draft age are stampeding into the Air Force and Navy because of the small losses among personnel in those services in the Korean war, according to Lt. Gen. Leroy Lutes.

OFFICIAL

(Continued from Page 1)

meeting the straw poll will continue and the results counted on schedule at 2 p. m. Tuesday in the Chamber of Commerce office by Wayland Merriman, Ed Myatt, and County Commissioner J. W. Graham.

In a brief discussion, Mayor Huff told the group he was not interested in the eventual location of the field so long as an active airport was in operation in Gray County located where the best interest of the public would be served. He added that he felt the county was entitled to federal funds for its airport "where we think it best to locate it."

Failing to agree on the site proposition the lengthy session adjourned shortly before 4:30 and another meeting was set for 1:30 p. m. Friday, Jan. 19.

Church indicated he would attend that session along with his superiors who "are in a position to say more than I can."

With that, the session broke up under a note of warning by Burdette who told the entire group:

"We must come to an agreement if we are to get anything accomplished with our airport situation."

Campbell Installed Building President

E. L. "Buck" Campbell, vice president of the Higgins Development Co., will be installed as president of the Pampa Chamber of Commerce Home Builders Assn. at a banquet Friday night. The banquet will be held in the Hermitage Hotel, Amarillo.

Jay Thompson, who is a local director of the organization, will also be installed Friday night.

PROBLEM: FIND THE GI'S—Almost lost in the huge pile of storage batteries they are checking on the dock at Pusan, Korea, are two American soldiers. The pile is typical of the mountains of supplies jamming the big UN supply port. (AP) Acme telephoto by Staff Photographer Ed Hoffman.

EVERYBODY IS HAPPY OVER

FURR FOOD STORES LOW Prices

BAKED HAM WITH APRICOT BURGUNDY GLAZE

Baked Ham With Apricot Burgundy Glaze
A McCall's Magazine Fail-Proof Recipe

- 10-15 lb. ham
- Whole cloves
- 1/2 cup brown sugar
- 1 cup apricot puree
- 1 cup Burgundy wine
- 2 sticks cinnamon
- 1/2 teaspoon dry mustard

Because of the many types of ham on the market, we are not going to give cooking instructions. When you buy your ham, make certain the ham has the packer's cooking instructions attached. Follow them exactly.

To glaze the ham, take out of the oven 1 hour before the total baking time is over. Drain off the fat. Remove the rind and score the fat in a diamond pattern. Insert a clove in center of each diamond.

Combine brown sugar, apricot puree, wine, cinnamon, and mustard in a saucepan. Cook over low heat, stirring constantly, 5 minutes. Pour over ham, put back in the oven and baste every 15 minutes, until ham is done.

Pilots' Claims Checked Over

By OLEN CLEMENTS

FIFTH AIR FORCE HEADQUARTERS, Korea — (AP) — The Air Force claims its estimates of enemy troops killed by planes are more nearly correct than many people think.

The question was raised most pointedly last week by the London Daily Mirror in a front page story scoffing at Fifth Air Force claims. It said pilots flying fast planes could not glean much information on how many enemy personnel they killed.

Here's the way the Air Force arrives at its conclusions: An interrogation officer — a sort of professional doubting Thomas — questions each pilot after every mission. There are usually four planes in each fighter flight and fighters are doing most of the work now. So the interrogator has four stories to check on each flight.

He evaluates each pilot's report, trying to strike a reasonable medium between the most cases, he subtracts up to a third of the total claimed killed by the pilots and balances that with what aerial observers and ground intelligence have reported on the enemy disposition.

Plane cameras record the action in each strike; the movies are reviewed daily. Pilots are not allowed to claim having killed any troops they do not actually see themselves. Buildings strafed and bombed are not permitted to be added to air force calculation of personnel casualties.

The Air Force interrogators then report them to Fifth Air Force headquarters. There they are again balanced against ground force reports and the eyewitness accounts of aerial and ground observers in the area for that specific purpose.

After the Air force headquarters makes its report the Eighth Army then makes its own evaluation and most often finds that the airmen have been too modest in their claims.

TIGHTLY KNIT—Big Jim Ferrier never plays a round away from his wife Norma's keen eye. After watching the major demonstration, the husky Australian puts her suggestion into practice.

Flu Bug Bites Henry As He Settles Down in New Orleans

By HENRY MCLEMORE

NEW ORLEANS — This is a town in which a man should be particularly hale and hearty in order to enjoy the food, fun and friendship, but I won't be able to do it this time.

I had particularly wanted to visit Antoine's for it was at this world-famous restaurant a few years back that, at the suggestion of owner Roy Alciatore, I created a dish which we both thought would rival the restaurant's celebrated Oysters Rockefeller.

Roy gave me full run of the kitchen for several days, with permission to call for help on everyone from the head chef to the third cook in the frog's legs and crayfish sections. I tried a dozen dishes, including Shrimp, J. P. Morgan, Veal Vanderbilt, Elton Mellon, and Goulash Goldenrod.

It was not until the fourth day, though, that I hit upon the dish that suited me. Mutton Mutton, named in honor of Barbara. I forgot the exact recipe now, but I do recall that the mutton was baked in a Ming vase and served with a rich sauce made of 100 dollar bills, egret feathers, and Rolls-Royce hubcaps.

But for some reason it never caught on. The price — \$500 a serving — might have had something to do with its failure.

For the life of me I don't understand how the flu bug got hold of me. I flew in here from Texas at an average height of 10,000 feet and all I had read of the flu bug had convinced me that it had a ceiling of about 8,000 feet. Above that, I thought, its motors began to fail and ice

American Sails Yacht to Malaya

PENANG, Malaya — (AP) — A

38-year-old American, after sailing 16,000 miles in his own yacht on a round-the-world tour, has found the people of Far East "very friendly."

Alfred Peterson, from Brooklyn, New York, reached this North Malayan port after visiting several islands in the Pacific, Sydney, Port Moresby, Bali, Sourabaya, Jakarta, Singapore and Port Swettenham, after piloting alone, his 33-foot, 12-ton "Storm-oway." He is a toolmaker by trade and a bachelor.

Aboard a battleship only one man is allowed to whistle. He is the boatswain, who signals the crew with his "pipe."

Old Sergeant Debunks Posters

ABERDEEN, Md. — (AP) — In

those Air Force recruiting posters, the young flier — always very young — stands clean limbed and straight against the horizon.

Well, M. Sgt. John E. Fox, of Phillips Field, Md., can tell you those posters are a lot of prop wash. He's still on flying status — and he's 61-years-old.

Sergeant Fox is a mechanical inspector of Air Force planes. And he's probably old enough to be the grandfather of some of the pilots he flies with.

Fox enlisted in the Army on Nov. 26, 1910, at Ft. Slocum, N. Y. He's a veteran of the Mexican border campaign, and he saw service in the Philippines in 1915.

Caribou Appearing In Record Numbers

CHURCHILL, Manitoba — (AP) —

Caribou from the barren lands in numbers greater than ever before are reported along the Hudson Bay Railroad, south of here.

At one time these animals grazed on the flats near here. Then for 25 years not one was seen. Eight years ago they returned, even running through the streets. Old timers believe the number of caribou is diminishing. The natives at times kill many more than they need for food. A far greater number is destroyed by wolves.

DENIES STORY

TOKYO — (AP) — General MacArthur's official spokesman today denied there were any facts to a story printed in the United States that the general had recommended withdrawal of all United Nations forces from Korea.

Interest in the security of employees is being reflected in the growth of group life insurance in the United States.

Volcano on Ice Is Described

BERKELEY, Calif. — (AP) — A "volcano of ice" several thousand years ago in southern British Columbia was described here by a University of California assistant professor of geology.

Dr. William H. Mathews told of the eruption of Mount Garibaldi when that area of present-day Canada was under a great glacial sheet of ice covering everything up to 5,000 feet.

The "volcano on ice" was created when the eruption threw up masses of molten matter. The hot ashes gradually built up a cone covering more than 10 square miles, Dr. Mathews said. Through this cone avalanches of ice poured out onto the surrounding ice, causing awesome clouds of steam and hot volcanic dust to rise, the geologist said.

Iranian Government Controlling Sugar

TEHRAN, Iran — (AP) — Foreign purchases of sugar have been taken over by a government monopoly agency as a result of the recently-concluded Russo-Iranian trade treaty.

Dealing in sugar was restored to the free market last year. But with the contract to buy 750,000 metric tons of sugar from Russia during 1951 the government has reverted to its monopoly policy.

DIRECTOR — Maj. Gen. S. R. Brentnall, chief of research development at Wright-Patterson AFB, Dayton, O., was named to direct production of top priority B-47 jet-powered bombers at Douglas Aircraft plant in Tulsa, Oklahoma.

STRIKE UP THE BAND!—C. V. Whitney's Mahmoud celebrates his 18th birthday dancing a jig at his owner's farm hard by Lexington, Ky. Since his importation from England in 1940, the high-spirited fellow has maintained a top spot among the United States sires. Casey Jones, the Blue Grass' crack amateur photographer, a druggist by trade, took this unusual snapshot. (Photo from The Thoroughbred Record.)

Two Talleys Don't Tally With Readers

MEMPHIS, Tenn. —(AP)—Folks who read the "Commercial Appeal" must have been amazed at Robert Talley. Pick up the paper and there on the front page was a red-hot story by "Robert Talley." Then on the sports page, subscribers would run across another item, maybe a night football game — topped with the same byline, "by Robert Talley."

Who is this hard working, versatile, and agile man of words. He's two persons — Robert Talley, the paper's star reporter of some 25 years experience, and Robert Talley, the 22-year-old cub reporter in the sports department. They are not related.

Things were confusing for awhile. Take the time the cashier gave big Bob the paycheck that should have gone to young Talley. Or the time big Bob picked up the telephone and a sweet young voice purred, "is that you, B-O-B?" But editor Frank Ahlgren solved things by having young Bob sign his stories "Bob N. Talley."

Cock fighting was practiced in ancient times in Asia and was introduced to Greece after it was observed in Persia.

One accidental death occurs approximately every five minutes in the United States.

CARRYING ON—Although heavily riddled by gunfire from an enemy that ignores the Red Cross insignia, this U. S. ambulance is still used to evacuate United Nations casualties from the battlefront. (Department of Defense photo from NEA.)

Shamrock Schools Ending Semester

SHAMROCK — (Special) — Shamrock high school will end its first semester Friday.

"We have had a very good semester," declared Supt. Elmer J. Moore. "Although we won high honors in athletics, in the field of education we also made big strides."

Shamrock's football team won the district 2-A title, the bi-district playoff with Hereford at Pampa, 20-6, and reached the regional finals, where Levelland defeated them.

Examinations will be held today and Friday, and registration for all four classes on Monday, Jan. 15.

Israel to Grow Barley in Negev

TEL AVIV — (AP) — In 1951 for the first time, barley will be planted in the vast Negev Desert in Southern Israel, it was announced here. The barley project is part of Israel's program to gain self-sufficiency in vegetable growing and cattle raising. Storage units are being constructed for unsalable seasonal surpluses.

The unit in weighing gold is the troy ounce.

"It's a Matter of Good Taste"

More pleasure per cup—More cups per pound

Wills Rejects Star Billing

By BOB THOMAS

HOLLYWOOD — (AP) — Found: a film player who doesn't want to be a star.

The guy is Chill Wills, the rangy, drawing actor from Seagrave, Texas, who has often been mentioned to play the life of Will Rogers on the screen. He is also known as the voice of Francis, the talking mule, and as the comic character in a variety of westerns and other films.

Chill is an independent cuss who wastes no words with diplomacy, so I put the question to him point-blank: "Do you want to be a star?"

"Wall," he answered, "I wouldn't mind getting some of that money that stars get, but I don't want any of that fuss and feathers that go with it. I'd just as soon let the boy and the girl carry the load on the theater marquee."

"You know, I've been in a number of pictures that have been real turkey-shoots. But as long as you're just doin' a role in it, you don't get the blame. It's the stars who take it."

Chill gained his independence a few years ago after spending nine years at MGM. He performed roles in dozens of pictures. He was able to observe at close hand the workings of the star system.

"I don't care how big or how small a role is," he explained. "All I want is something to make people say 'that dad-blamed guy was pretty good.'"

Tax Decision Aids Breeders

FORT WORTH — (AP) — Cattlemen throughout Texas and elsewhere in the United States will be benefited by an opinion delivered Monday by the U. S. Court of Appeals for the Fifth Circuit at New Orleans in three income tax cases brought by ranchers of the state.

The question presented was whether the gain from the sale of cows and bulls culled from a breeding herd and sold as taxable as capital gain or as ordinary income.

The position of the taxing authorities was that the gain from only such of those sales as served to reduce the breeding herd could be taxed as capital gain, while the gain from sales which did not reduce the breeding herd was taxable as ordinary income.

The taxpayers' position which the court's opinion upheld was that all gains from the sale of breeding animals held more than six months were taxable as capital gain.

ART BEHIND BARS—Stone walls do not a prison make for the artistic urge as this inmate of the San Quentin, Calif., penitentiary can testify. A member of the prison's art workshop, he read of Europe's hungry children living in the ruins of shattered cities and was inspired to put this conception on canvas. He's working under a prison program aimed at guiding convicts from a destructive to a constructive life.

Israel Planning Desert Theater

TEL AVIV — (AP) — Israel will have its first "Theater in the Desert" soon. The hall with a seating capacity of 300 is to be built in Elath in the southernmost part of the country near the Red Sea.

The new theater will be erected by the Histadrut (General Federation of Jewish Labor). It will serve for guest performances of theater ensembles from Tel Aviv, and for concerts, lectures, public meetings and as a social center in general.

The average retail price of wheat flour jumped from 3.8 cents per pound in 1939 to 10.1 cents per pound in 1948.

At its peak strength during World War II, Germany, including Austria, had 19,000,000 men under arms.

The motto of Virginia is Sic Semper Tyrannis.

Three cases were reviewed by the court, the plaintiffs being John M. Bennett, et al, from South Texas; O. H. Finch, et al, from West Texas, and M. H. Ritchie, et al, also from West Texas, the latter case involving the J. A. Ranch.

The decision in the Bennett case had been favorable to the taxpayers, while the decisions in the other two cases in the lower court had been in favor of the taxing authorities.

TRAVEL IRONS — Nowadays traveling irons are small and compact; you can find models that are collapsible, fit into a tiny bag, and weigh only about two pounds. Some of them have fabric dials.

Golden-Haired Girl Carries On For Brother at Air Base

JAPAN — (AP) — Let me tell you a tale of silver jets and a girl with golden hair.

It begins on a day 15 years ago when snow dusted the low hills around Ann Arbor, Mich. The skates of hockey-playing high school boys raced across a frozen pond. There was one named Scott Osler who played better than the rest. He did everything better than the other kids.

Beside the pond a pert-nosed girl with flaxen hair watched in admiration. Her eyes were big and blue and always on Scott. She was 10 years old and in love with him. Her name was Priscilla Osler, and Scott was her brother.

The years paraded past. Scott Osler was graduated from the University of Michigan in 1940. He was a brilliant flying student at Dayton, Ohio, and later was selected as a Pan-American pilot. Boeing picked him as a test pilot, riskiest job in aviation.

By then the little girl had grown up, too. She was graduated from Michigan State College in 1947 and promptly moved to Seattle to be near her brother.

47, forerunner of the jet bomber on which America today is staking her security.

Then tragedy struck. High above the arid wastes of Washington's Moses Lake, while the XB-47 swished across the sky at hundreds of miles an hour, the canopy above the pilot's compartment slipped. Just an inch or so. Just enough to crush in the head of Scott Osler.

Priscilla thought for a long time. When you are a girl and only 25 and can't fly, how do you carry on for a famous pilot brother?

Priscilla found a way. She is at this bustling air force base in South Japan, in a blue uniform of the Air Force Service Club. Sometimes Priscilla listens sympathetically when GIs eagerly tell her of their wives and girls back home. Or she jokes with a forlorn noncom who brightens at an American girl's smile.

Those airmen wonder about one thing, though. That's the way Pat sometimes stands at the window by the runway. They wonder at the faraway look in her eyes as the silver jets roar skyward for Korea.

Australians Waging Big Fish Controversy

SYDNEY — (AP) — An Australian sports magazine, "Outdoors and Fishing," has jumped into the big game fishermen's controversy on the true color of Australian Marlin.

American scientists and fishermen have always held that the huge, beaked fish found in Australian waters is the Black Marlin, and not the Blue Marlin variety found along the coasts of the United States.

At the F. D'Ombrian, an authority on angling here, says in an article in the magazine that on many occasions, Marlin caught by Australian anglers tallies perfectly with descriptions of the American variety. He has pictures to back up his argument.

There are 2500 different kinds of mosquitoes, according to the Encyclopedia Britannica.

HEADS SCIENTISTS — Dr. Kirtley F. Mather of Harvard University, above, is the new president of the American Association for Advancement of Science. He was installed at the group's annual meeting in Cleveland, O.

New Medical Weapon Found For Battle Against Arthritis

By HOWARD W. BLAKESLEE

LAFAYETTE, Ind. — (AP) — A new medical weapon for arthritis is the discovery that "limping swine" have the same disease as humans, has been announced at Purdue University.

This discovery opens a new field, because it is the first time medical science has found a developed for rheumatoid arthritis of humans. So far as he could tell the pig and human tissues were identical, with the same telltale arthritis spots whose origins are a mystery.

Back at home he and Dr. P. N. Andrews, L. M. Hutchings, W. W. Bay and J. D. Salisbury gave the new hormones — cortisone and ACTH — to limping pigs.

The pigs quit limping, their pain appeared to be gone. These good effects were the same as in young and old, with pain continuous and crippling frequent.

The Purdue discovery shows that swine definitely have rheumatoid arthritis, the worst form for humans.

The discovery was made by Dr. L. P. Doyle of the department of veterinary science. For 35 years he had been familiar with

long as the hormones were given. In the animals these changes can be watched step by step, by slaughtering the pigs. Already at Purdue, new type thermometers are placed in the tissues of arthritic joints of pigs, something that never was possible with humans. This experiment is to see whether fever has any specific effect in starting arthritis.

Dr. Roger Smith of Ohio State University College of Veterinary Medicine spent three months last summer at Purdue on heart actions of arthritic swine, and in continuing this study now at Columbus, Ohio. He is investigating a belief that there is some connection between arthritis and bad hearts — a fact well known about rheumatic fever, which is a distant relative of arthritis.

Newfoundland is the oldest English Colony. It became a British Colony in 1713 by the Treaty of Utrecht.

The Soviet Union contains practically all natural resources used by man.

Rearming Europe Matter of Morale

(Editors Note: Much of the Current Debate deals with complex problems of rearming Western Europe and the extent to which United States collaboration will help find solutions for meeting the challenge of Soviet Russia. A first-hand view of these problems is given by J. Wes Gallagher of the Associated Press executive staff, who has just returned from foreign service assignments spanning the last 10 years of European history. The accompanying article is the first of two stories summing up his personal impressions.)

(Gallagher first went overseas in 1940, arriving just in time for the German invasion of Denmark and Norway. Subsequently he covered the war in the Balkans, captained AP frontline teams in North Africa and on the western front, and organized postwar Associated Press operations in Germany. He has just returned to New York and summed up his personal impressions in a two-part series. Tomorrow, he will survey strategic angles of the European military outlook.)

By WES GALLAGHER

NEW YORK — (AP) — Rearming Europe today is fundamentally a question of morale, not guns and planes.

A large part of Europe hasn't the will now to defend itself. On a grand scale General Dwight D. Eisenhower is in the position of a football coach trying to instill the "will to win" in his team.

Eisenhower must try to instill the "will to fight." Without it the United States can pour arms into Europe from now until doomsday without the slightest result.

This colors the way Europeans look on the East-West conflict and the way Americans look at it.

Europeans are no less conscious than Americans of the menace of Soviet aggression. The vast majority of French, Germans, British, Italian and other Europeans have no more liking than Americans for communism. They dislike the Kremlin rulers, poke fingers at Stalin privately and wish Russia never existed.

But they don't see that they can do much about the situation except commit suicide. And this is more than a figure of speech: I know Germans who keep a poison on hand and swear they will take them if overrun by the Soviet army again.

From the Baltic to Spain, Europe has been ravaged and bled white by recent wars. The torments of bloodshed touching every family have drained away that intangible called morale.

They know that any Soviet attack must be met in the heart of Europe. Whether the attack is held or not they know their homes will be devastated by battle and bombings. They and their sons and daughters will die by the thousands.

family that has not lost at least two close relatives in the last war. Virtually all have lost their homes, their money and their security.

They are an occupied country, treated as second-class citizens, and largely through French fears they are being asked to rearm as second-class soldiers — pawns of nations that defeated them.

The Germans are also military realists. They know the sad state of western defenses in Europe, compared to the six Soviet armies that rattle their tanks in the middle of Germany and the occupation border. They know that there is no such thing as a "little" rearming such as the Atlantic Pact has thus far proposed for them.

A "little" rearming would provide no defense and only leave them at the mercy of the Russians as an "enemy" should the Soviets attack. They also know any attack would begin in the middle of Germany and devastate a country just now getting back on its feet.

There is no doubt a vote now for rearming would be overwhelmingly defeated if the West Germans were polled.

West German politicians are riding this anti-rearming tide to gain concessions from the West. Even if they got all the concessions they are asking it is doubtful if they could put the voters over on their side and convince them they must arm.

Should the West become stronger, offering some protection against the threat of attack, and should the West Germans feel themselves equal partners of the western nations, they might vote to rearm. No one can say for sure.

This does not mean the Germans would favor the Russians. It is axiomatic that the closer the Europeans are to the Russians, the more they dislike them.

Germans say if the West really wants some one to fight the Soviets they should recruit eastern Germans who live under Soviet rule. It is true that West Berlin, which is completely surrounded by the Soviet Army, is the most belligerent.

The Germans like the rest of the continent must be convinced that what they have is worth fighting for and if the prepare to fight they have a chance of winning without being wiped out.

Under these conditions it is well not to be misled or interpret some European political statements as appeasement or collaboration with communism or just silly unjustified optimism.

It is probable the speaker does not really believe what he is saying but is like the small boy whistling in the grave yard. He hopes for the best but fears the worst.

The famous Kohinoor diamond is thought to have been found in southern India about 5000 years ago.

What's the use of being a boss when I can't get you to listen to me when I want to bowl you out?!!

Hollywood Is Dull for Judy

By SAUL PETT

NEW YORK — (AP) — In the new movie, "Born Yesterday," which ignited talk of an academy award for Judy Holliday, she plays a beautiful dumb blonde who learns to be an intellectual.

Corny but true, the fact is that in real life Judy Holliday is a beautiful blonde intellectual who had to learn to be dumb.

And so she found life in Hollywood very dull.

"Making pictures is fine," she said. "It's stimulating, exciting, I respect and love it.

"But the social life is deadly. Go to a party and you always meet the same people — talking about the same thing — pictures. The urgent topic of conversation is: are you on the way up, or on the way down, or on the inside or outside?"

"You're weighed the second you walk into a room. You can almost see the minds working: 'What's she wearing? What did her last picture gross? Who did she come with?'

"If you happen to have an

Housework Easy Without Nagging Backack

When kidney function slows down, people complain of nagging backache, leg pain and energy, headaches and dizziness. Don't suffer longer with these discomforts. If reduced kidney function is getting down—due to such common causes as age and strain, over-exercising or exposure to cold, minor bladder irritations due to a wrong diet may cause getting up and down too often.

Don't neglect your kidneys! If these conditions bother you, try Doan's Pills—a diuretic. Used successfully by millions over 50 years. While often others say it's amazing how many times Doan's happy relief from these discomforts—the 15 rules of kidney tubes and flush out waste. Get Doan's Pills today!

Pickpockets' Union Helping Cupid Along
ALEXANDRIA, EGYPT —(AP)—Alexandria's pickpockets have a union with a membership of 400 men and 100 women, police discovered recently.
The union, besides taking care of its members' interests, also arranges for marriages between male and female pickpockets.
The dowry paid by the bridegroom (in Egypt, it's the man who pays the dowry) is proportional to the "professional" ability of the bride.

New Hope of Life Beginning For Orphaned Korea Children

By HAL BOYLE
CHEJU, Korea — A new life of hope has begun on this rugged island for nearly 1,000 war orphans saved from Seoul by Operations Kiddy Kar.
And today Americans opened their hearts to these children of disaster in a sequel by the U.S. Air Force to the flight that res-

There was also a ton of badly needed medical and toilet supplies purchased in Japan with funds contributed by U. S. Far East Air Forces personnel, and clothing donated by individuals and organizations from all parts of America.
"And this is only a trickle of what we have been promised," Lt. Col. R. L. Blaisdell said happily.
Blaisdell, who lives in Fort Worth, is chaplain of the Fifth Air Force. It was he who inspired Operation Kiddy Kar Dec. 20, an airlift that removed from battle danger these hundreds of orphaned or abandoned children who had been picked up off the streets of the Korean capital by kindhearted American soldiers.
Since then he has raised more than \$10,000 for their share. The orphans are housed in the old wooden buildings of an agricultural school on the outskirts of Cheju.
They came running in eager curiosity as the trucks rolled in from the airport loaded with their gifts.
"Hello, hello hello," they called. Chaplain Blaisdell turned to a group of small girls leaning out of a window and sang to them.

"Jesus Loves Me, This I Know for the Bible tells me so."
The girls laughed merrily and immediately sang back to him the same song in Korean.
The carefree friendliness of the 849 children was in marked contrast to the dispirited group that had been flown here last month. Three weeks of fresh air and nourishing food had given them back childhood's gift of laughter.
"We have 27 deaths — all children less than a year old," said the orphanage doctor. "They were too weak to save. But the health of the children now is generally good, although 96 are still ill. Most are suffering from malnutrition. Thirty-five have contagious diseases, chiefly whooping cough."
The principle of jet propulsion was used in 1222 A.D. when the son of Genghis Khan, Ogdaï, used rockets as "secret weapons" against the Tartars.
The Postmaster General has power to make postal treaties with foreign governments subject to approval by the President.

Red Offensive Is Not Easy On Columnist

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
Just before I sat down to write this article a visitor remarked that the Communist offensive certainly provided plenty for a foreign affairs analyst to write about these days.
Well, that's one of those observations which sound like truisms but actually are far from fact. All roads of thought lead to the strife of the ideologies which for so long has been disrupting normal ways of life the globe around.
There's very little variety in events. What happened yesterday is happening today and will happen tomorrow with perhaps varying degrees of intensity.
It is, of course, natural that our thoughts should be flowing in this one channel, since the future not only of this generation but of our successors is involved in this unprecedented struggle. And it's right that we debate the great issues involved in an effort to keep abreast of events which affect every one of us so greatly.
However, it strikes me that our discussions — and especially those conducted in public — should be controlled and not be allowed to erupt into expressions of views which are the product of emotion and may therefore be extremely dangerous. To be specific, not later than today I again heard the remark:
"Oh, we've got to fight Russia sooner or later. Let's strike now and get it over with."
It's surprising how fast and far a pungent remark like that will travel. Irrespective of its factual merits, it appears to folk who are fed up to the teeth with the Red upheaval.
This particular remark is doubly dangerous since it not only is inflammatory but it doesn't represent the view of the western allied governments. The democracies recognize the grave threat of war and are arming to meet any contingency.
But no government takes the stand at this juncture that world war is inevitable. As a matter of fact many high military authorities have gone on record as saying it isn't inevitable — providing the western powers are equipped to defend themselves.

Worker's Escape Costs Him \$100

LIBERTY, N. Y. —(AP)—When a passenger car and a light truck he was driving collided head-on near here, Charles Barthelemy, a worker on the New York City reservoir project in this area, got a vice-like grip on the steering wheel and tried to pull out of harm's way.
He escaped injury, but after he was hauled from the wreckage discovered that he had gripped the wheel so hard that he forced from a ring he was wearing a diamond worth \$100.
First county health department in the United States was established in Guilford County, N. C., June 1, 1911.

AMBASSADOR—Jose Felix Lequerica poses in Washington after Madrid announced he would be Spain's first Ambassador to U. S. since 1945. He has been in U. S. two years with title of "inspector of embassies and legations."

New GI Insurance Will Be Proposed

WASHINGTON — (AP) — Speedy congressional action is considered likely on a new GI life insurance program to supplant the system which has made the government the world's biggest insurance broker.

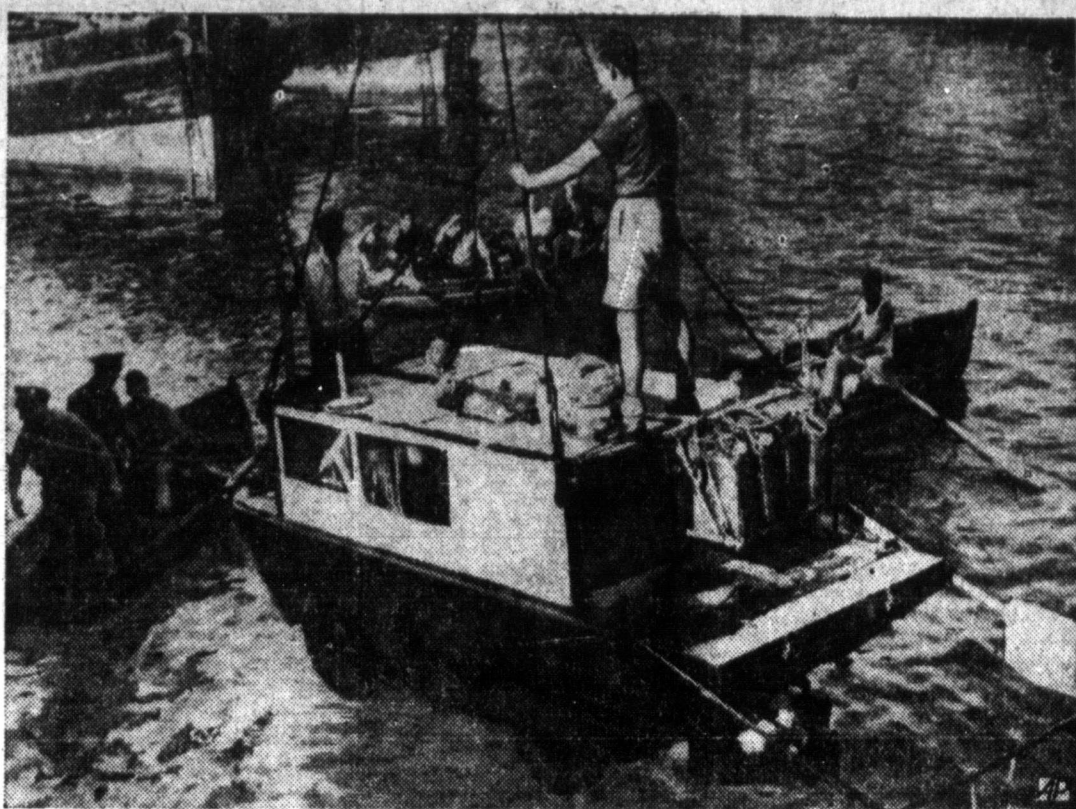

It is a plan, endorsed by three of the four major veterans organizations, to insure \$10,000 of free insurance to every serviceman while on active duty.

Rep. Rankin (D-Miss.), chairman of the House Veterans Committee, said he planned to bring the new GI insurance bill before the House shortly.

Feldspar Deposit Found in Canada

REGINA — (AP) — The Department of Natural Resources says analysis of Saskatchewan's first major find of feldspar has shown it to be top quality for use in the manufacture of pottery or glass.

The samples were found early last summer by Dr. J. B. Mawdsley of the University of Saskatchewan during radioactive investigation in the Nunn Lake area in northern Saskatchewan. The feldspar deposit was in a

BY LAND AND BY SEA — Ben Carlin, an Australian engineer, stands atop his amphibious jeep as it is lifted from water at Madeira during leg of a world-circumnavigating trip.

flat-lying dike about four feet thick, with about 5,000 tons exposed at the outcrop. However, the same type of feldspar is produced in South Dakota and markets for the Saskatchewan output would be local and possibly slow to develop.

BUTTONS AN' BEAUX SHARON SMITH

"He only kissed me on the forehead. Next time I'm going to wear my high heels!"

Servicemen's Debts Are Not Dissolved When Army Calls

By JAMES MARLOW
WASHINGTON — (AP) — What about your civilian debt if you're called into military service?

With your military pay much less than your civilian income, you may find you can't meet the debts you undertook when you were a civilian.

You may have a lease on your home, or a mortgage, or you were buying something on time, or paying on life insurance, or you owe taxes.

And is your family thrown out because you no longer can afford the rent you used to pay?

There's only one single answer to all this: your civilian debts are not just automatically wiped out because you've gone into uniform.

Under law — whether you're called in as a national guardman, reservist or draftee — you

get some relief or protection on debts.

What you get depends on your particular case and your kind of debt:

You may have to pay off in full while you're in the service, or you may have to pay only part of your debt while in service; or you may not have to pay until you're discharged.

One man going into service may reach a satisfactory arrangement with his creditor, whether it's an individual or a department store.

The case of another may have to be solved by a judge when the creditor goes to court to get satisfaction on his debt.

This is the best single bit of advice for you if you're going into the service and know you can't take care of your debts:

Get some legal advice. You can do it this way:

1. Before going into service — consult a lawyer. If you can't afford one of your own, then go for advice to the Red Cross, a veterans organization or the local bar association.

2. If you're already in service — Consult the legal assistance officer of your outfit. There's supposed to be one in every camp and on every ship. If there's none in your outfit, start the ball rolling by consulting your commanding officer.

The following explanation — in this story and the one which follows — comes from government experts in the field:

Federal income tax — If you're called to service you don't have to pay that civilian income tax until six months after leaving the service.

But you must notify your internal revenue collector that you are in the service and want payment delayed until you're discharged.

State property taxes and assessments — If you can't pay them because you're in the service, notify your state or county tax collector.

He can't sell your property for taxes owed unless he goes to a judge permitting him to sell it.

If the tax collector takes your case to court, the judge can:

1. Postpone sale of your property — for taxes owed — for any length of time up to six months after you get out of service.

2. Tell the collector to go ahead and sell the property but — and this is an important but — if the judge lets this happen, then:

You can get it back after leaving the service by then paying up the taxes owed, provided you do it within six months after leaving the service.

Now Many Wear FALSE TEETH With More Comfort

FASTTEETH, a pleasant alkaline tooth-powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTTEETH on your plate. No sticky, gummy, pasty taste or feeling. "Becky" "Alice" "Edna" "Evelyn" "Get FASTTEETH at any drug store.

News Being Sold In Blackmarket

BELGRADE — (AP) — Western press correspondents established here miss out. This means they borrow from each other and papers get double or triple usage. There are three major reasons for this condition:

First, there is a newsprint shortage. Second, there is a greater demand for papers since the war because illiteracy has

Man Refuses Bargain On His Own Shotgun

WOODBOURNE, N. Y. — (AP) — Enroute to his home here at an early morning hour, Burton McGray thought it looked familiar, but said he wasn't interested and drove home. There he found a window had been forced open, his house ransacked and his favorite shotgun stolen.

Gray, New York City reservoir project worker, was halted by a man standing in the highway who offered to sell him a shotgun at a bargain price.

4-H Club Council Meets; Adopts Recreation Program

When the Gray County 4-H Council met Monday at 7:30 p.m. in the Home Demonstration of fce. plans were made to have regular monthly council meetings on each first Tuesday night of the month at 7:30. Brent Carruth, chairman, was in charge of the meeting.

David Engle was appointed chairman of a special committee to plan a concession stand at the Top of Texas Fat Stock Show. Committee members are Johnnie Mae Dancy, Shirley Keel, Billie Mae Osborne, Jimmie Honaker, Elbie Edwards, and Barbara Edwards. This committee will meet on Jan. 19 with a called meeting of the entire Council and present to council plans for the concession booth along with other business that needs attention from the council.

All committee chairman made reports on the county-wide Christmas party.

A county-wide recreational program was adopted. Once each month the 4-H boys and girls of Gray County will get together for fun and play to help create interest and a desire to do better work.

Those present at the meeting were: Chairman Noel, Johnnie Mae Dancy, Ernestine Edwards, Billie Mae Osborne, Shirley Keel, Barbara Edwards, Brent Carruth, Elbie Edwards, Jimmy Keel, Joe Keel, Paul Miller, David Engle, Charles Lacey, Jimmy Honaker, John Lloyd Carruth, Glen Har-

Actress Scorns Artificial Beauty for Naturalness

British film actress Jean Simmons relies largely upon simple beauty routines to enhance her natural loveliness. She guards her fresh complexion by removing stale make-up with a lotion cleanser (right) before applying new cosmetics, and by deep-pore cleansing with a complexion brush and cold-cream soap (left). She keeps her short hair glossy and manageable with frequent brushings (center).

By JEAN SIMMONS
Written for NEA Service
EDITOR'S NOTE: A British complexion is something lots of people envy. And Jean Simmons, 22-year-old British film star whose face is being seen more and more in U. S. theaters (her latest picture is "Trio") has that complexion. Here, in an article written for Alicia Hart, NEA beauty expert, she tells how she keeps it that way.

Since natural-appearing beauty is the kind I most admire and strive for, I find myself continually on guard against artificiality.

Spending so much of my time in the make-believe world of the screen wearing wigs and special make-up in keeping with my various roles, I am especially anxious to look natural during non-working hours.

This doesn't mean I scorn all cosmetic aids. On the contrary, I've learned that certain routines are necessary if one wishes to preserve such gifts of youth and nature as a clear skin, sparkling eyes and a slim figure.

My first beauty rule is complexion cleanliness. I always remove all traces of old make-up before I apply new cosmetics. For hurry-up occasions or times when priming facilities are limited, I find it helpful to use a quick cleansing lotion.

For deep-pore cleansing at the end of the day, or for giving my face a fresh, lively look before making up for a special appointment, a complexion brush is excellent. With it I use a cold cream soap which works into a rich, non-drying lather.

I brush this onto my face with brisk motions which stimulate circulation, and then allow it to stand a few minutes before rinsing.

Hair beauty is dependent, I feel, upon two things—cleanliness and sheen. Whether you wear your hair in a simple, two-inch bob like mine, or arrange it more elaborately, your locks will usually lack loveliness unless frequent shampoos and brushings are a regular part of your beauty ritual.

If your hair has springiness and an inclination to wave, you might try a spiral bristle comb brush to encourage natural tendencies.

With my short cut, hair grooming is easy. Even on my busiest days, I can usually find time for a shampoo and a quick brushing if my hair is looking less than best. Since my coiffure needs no all that it takes to prepare my-

rs. Jessie D. Honaker, Jerome Weinheimer, Kenneth Honaker, Mrs. Joe Keel, Mrs. Mary Anne Duke, Martha Duke, Joy Williams, Foster Whaley and Paul Payne.

setting, this 10-minute routine is hair for the most important date.

Any busy woman—housewives and career girls as well as actresses—should take time somehow in her hurried schedule for a few moments of daily rest.

I consider this a must, whether I'm on location or personal appearance tours. It pays to deal with fatigue before your steps become draggy and your glance dull.

To keep the sparkling eyes that are important in my profession, I cover my lids during rest periods with cotton dampened with eye lotion.

Expressive lips, which are also important to an actress, are an impossibility if they are blurred with slapped-on, smeary color. I learned when I was 14—at the very start of my movie career—to use a lipstick brush.

It's easy if you proceed with confidence first outlining your lips with the tip of the brush and then filling in with broad strokes.

Not only is color important, but pattern and fabric as well.

If your coat or suit is plaid or tweed, it's best to steer clear of conspicuously patterned scarves. Florals, stripes or checks contribute nothing to your appearance when worn in combination with garments of bold weaves. Your best bet is usually a solid color scarf.

If your coat or suit is plain in fabric, cut and color, then your choice may be wider. Often a scarf with bright designs can do much to enliven an ensemble which is made up of otherwise solid colors.

Match your scarf to the style of your clothes, too. If yours is a sporty, camel's hair topcoat, steer

Scarves Enhance Your Winter Coat

By ALICIA HART
NEA Staff Writer

Now that the wintry winds are sweeping down coat collars, scarves have become a practical necessity as well as a fashion accessory.

It's a good idea in choosing a scarf, however, to think not only of warmth, but also to consider how it will look with the rest of your attire. This one small accessory can spoil the effect of an otherwise perfect costume.

Or, if your coat is dressy in cut, trimmed with velvet and fancy buttons, avoid heavy scarves in clan plaids or other styles designed for casual wear.

clear of sequin-studded satin ascots. Choose instead a woolen muffler.

For this pattern, send 25 cents in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett (Pampa Daily News) 1150 Ave. Americas, New York 19, N. Y.

doing something not just for our own children but for a whole group of children.

WE, THE WOMEN

By RUTH MILLET
NEA Staff Writer

They're having trouble in our town and perhaps in yours, too, getting leaders for Brownie and Cub troops, those junior organizations of the Girl and Boy Scouts.

The answers they get from mothers asked to lead such groups are too often the same: "I want my child to belong and I'll be glad to help out anyone who takes the group, but I just don't want to take on all this responsibility myself."

So while many mothers are sitting around ready to "help" but are unwilling to "lead," some of the children who should be starting out in Scouting aren't getting a chance to.

What's the matter with us mothers that we fight so against taking on responsibility? Too many of us want only to "help out" when it's convenient and figure that if we sit back and wait, somebody else will come along and assume the responsibility for the leadership of our children and others.

WE'RE JUST EASING OUR CONSCIENCES

Yet the truth of the matter is that offering to "help out" when we are asked instead to assume responsibility as a leader isn't much more than a salve to a nagging conscience.

It doesn't help the kids, and it doesn't help for us.

The jobs that are really worthwhile always involve responsibility and hard work.

It's easier to dodge such jobs. But there's a lot of satisfaction in taking them on, doing them well, and knowing that we are

Neat Home Style

By SUE BURNETT

Gray County Home Demonstration Council Plans Year's Activities

Mrs. Walter Noel of the Bell Home Demonstration Club, made introductions of Council officers and committee members at a called meeting of the Gray County HD Council.

Mrs. Charles Warminski, Council chairman, presided at the meeting, which was in the court house.

Council officers and committee presented were Mrs. Warminski, Council chairman, from the Bell Club; Mrs. Walter Noel, HD president; Bell Club; Mrs. T. G. Croves, secretary-treasurer; Meriten Club; Mrs. Emmett Osborne, parliamentary; Bell Club; Mrs. Vern Savage, reporter, Hopkins Club.

Yearbook, Mrs. Noel, Bell; exhibit, Mrs. V. Smith, Meriten; education and expansion, Mrs. Gracye Morris Bell; recreation, Mrs. A. M. Nash, Meriten; marketing, Mrs. W. R. Dunn, Wayside, and visual aids, Mrs. David Collis of Bell.

Library, Mrs. Emmett O. Knight, Bell; finance, Mrs. O.G. Smith, Worthwhile.

The 4-H plans for the year were presented by Miss Joy Williams, assistant HD agent.

Mrs. Mary Anne Duke, HD agent, spoke briefly to the group and outlined the purpose and duties of the committees. An announcement stated that the Council will be in charge of a food sale at the Hereford Breeder's Show Feb. 5 and 6. Mrs. C.A. Jones of the Meriten Club was appointed chairman of a committee to arrange the food sale, and Mrs. Paul Rice of the Hopkins

Club and Mrs. Jim Chase of the Wayside Club will assist her.

Club presidents and representatives present were Mrs. Joe Keel, representative from Bell; Mrs. Rice, Hopkins representative; Mrs. D. A. Rife, Meriten president; Mrs. H. H. Threatt, Meriten representative; Mrs. J. S. Fuqua, Wayside president, and Mrs. Henry Duesterhaus, Bell representative.

Mrs. Threatt gave a brief summary of the meeting. The next regular meeting will be Jan. 29.

GRILLED SANDWICHES

Apricot jam makes delicious grilled sandwiches. To prepare them sandwich slices of bread together with the jam and a sprinkling of cinnamon. Then grill the sandwiches in butter or margarine in a hot skillet until both sides are golden brown. Serve right away with hot tea.

Relieve Monthly Distress

Before Pain Starts

Sounds almost impossible, doesn't it. Yet Cardui proves that many women who take Cardui a few days before painful periods get happy relief, and sometimes suffer no cramps at all. You see, monthly distress is commonly due to spasms of the uterus, by helping control these spasms Cardui has aided thousands of joyful women escape the monthly ordeal. See if Cardui doesn't surprise you, maybe get you by those awful days in wonderful style. It's certainly worth trying! Ask today for Cardui.

Island-Hopping Veteran Goes To Dogs (and Cattle) By Air

EASTHAM, Mass. — (NFA) — When James Leach goes to the dogs, he goes by air. Also when he goes to the cows.
That's because Leach is a flying veterinarian. Dividing his practice between his own farm-hospital here and the island of Nantucket, off the Massachusetts coast, Leach travels in a light airplane.
At least once a week, he takes off from the bay in his pontoon-equipped plane for his Nantucket patients. He averages about 20 to 25 calls on the island, then flies back.
The 40-year-old Pennsylvania native worked with K-9 dogs during the war, as a Coast Guardsman. He had taken his veterinary degree at Villanova in 1925.
After the war, continuing his interest in animals, he shepherded 887 cows and 36,000 chickens on a ship bound for Poland. The cargo was part of an UNRRA shipment. When the vessel docked, there were 897 head of cattle but only 28,000 chickens.
"You really haven't lived," says Leach, "until you've delivered a cow of a calf in a hot, smelly stable below the waterline of a Victory ship."
After that experience, Leach settled down as a practicing veterinarian. He took up flying as a hobby first, then studied it seriously under the GI bill when he realized his vocation and avocation could work together.
His 80-acre farm has about three-quarters of a mile fronting on the salt water inlet, making an ideal runway for his amphibious plane.
The island of Nantucket boasts about 100 head of cattle, plus a large assortment of dogs and cats. Leach, who knew the island well from a teen-age summer job exercising horses, first built his practice there by traveling on chartered planes.
Now, with his own plane, his private airport and an established practice, he feels like he's living a veterinarian's dream come true.

RELATIONS

(Continued from Page 12)
member, explained that this was a shrewd means of re-establishing contacts with non-Communists of various social categories and religious views, who could be persuaded to "frustrate the cannibal designs of American imperialists seeking to reduce Spain to ashes."
On the 33rd anniversary of the Russian October Revolution this year, Dolores Barriuri, Spanish Communist boss, assured Moscow, "We Spanish Communists will not spare our blood in order to frustrate the plans of the Anglo-American imperialists to turn Spain into a base for aggression against the Soviet Union."
So watch for trouble when Spain takes her place at long last beside the defenders of the free world.

THE BIG DEBATE: Where Do We Go From Here?

Shall we continue the Truman-Acheson policy of helping other nations create "situations of strength" against Red aggression, or switch to the Hoover doctrine—with Kennedy and Taft variants—of building a "Western Gibraltar" at home and building a greater Navy and Air Force to protect its Atlantic and Pacific frontiers? These are opposing concepts of the proper course for American foreign policy now undergoing strenuous debate in Congress, in your newspaper columns, on street corners, city buses and wherever Americans gather to speak their piece about the vital subject. The Newsmaps below present in broad general outline the opposing views.

HOOVER PLAN: Fence Around Western Hemisphere

"The foundation of our national policies must be to preserve this Western Hemisphere Gibraltar of Western civilization. We can, with our own air and naval forces, hold the Atlantic and Pacific Oceans with one frontier on Britain (if she wishes to cooperate); the other on Japan, Formosa and the Philippines."—Herbert Hoover.

"Our first consideration must be defense of America."—Senator Taft.

TRUMAN PLAN: Fence Around Soviet Sphere

"Other nations need our help and we need theirs. We must work with a sense of real partnership and common purpose with these nations. We must stand firm with our Allies, who have shown their courage and their love of freedom."—President Truman.

ADMINISTRATION POLICY: We must create situations of strength that will deter Communist aggression. We will aid our Allies wherever they are willing to resist aggression and wherever we can bring our strength to bear.

Danish Language Being Made Easy

COPENHAGEN — (AP) — A book on basic Danish is due to be published soon by the Scandinavian Book Club. The author is Knud Mogensen, a Copenhagen anthropologist, who has been working on the book for two years to make it possible for all English-speaking people to learn the most necessary Danish words. The book contains 3,000 Danish words, in three chapters, each of one thousand words. A foreigner can easily get along in Denmark if he masters the first chapter. If he can learn 2,000 words he can carry on a conversation with an average Dane.

Recruits Overflow Lackland Air Base

SAN ANTONIO — (AP) — Personnel at Lackland Air Force Base here is working around the clock to complete the processing of more than 20,000 new recruits which arrived the past seven days.
The influx of volunteers at Lackland, the Air Force's only reception center for new recruits, has caused a "temporary freeze" on Air Force enlistments.
One-third of the new recruits are now being shipped to Sheppard Air Force Base at Wichita Falls for basic training.

Today's Great Hope for Those Suffering Aches and Pains

Due to Lack of Vitamins B₁, B₂, Iron and Niacin

Why Settle for Symptomatic Relief • Read How Just a Few of Thousands Have Relieved the Cause of Such Deficiencies with HADACOL!

Mr. Homer Hames, R.D., Newport, Ohio: "I have been having aches for a long time, and I did everything I knew of to help without success. So I took three bottles of HADACOL. I sure feel good now, I couldn't hardly do my housework before, but now I can get my work done good. I went and got me a job at the pottery and really don't feel tired at the end of the day. I can sleep good at night now. Thanks a million for HADACOL, I wouldn't be without it. I am thirty-two years old."

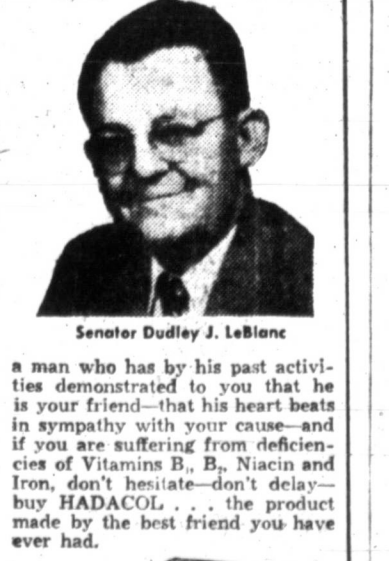

A. M. Hurst, R.R. 22, Box 285, Perry, Florida: "I was born September 23, 1872. I heard of your HADACOL having the vitamins B₁ and B₂ in liquid form and that sounded good to me. I bought and have taken two large bottles and part of a second large bottle. Now I do not feel any more aches and pains. I intend to keep right on taking HADACOL."

J. I. Pappy, Bayard, Florida: "I feel that I should tell the world about your wonderful HADACOL. I have suffered with aches and pains for the past year, which worried me considerably. But after taking two large bottles and one small bottle of HADACOL, I am now doing all my work again, and

feel better. I sleep good at night, eat hearty all because of your wonderful product. I am seventy-five years of age, and am more active than the average man, and feel sure that if I had not heard about HADACOL, I would not be able to achieve the things I have done since taking it. I will always praise your wonderful HADACOL."

Senator Dudley J. LeBlanc, the Man Responsible for Today's Great HADACOL

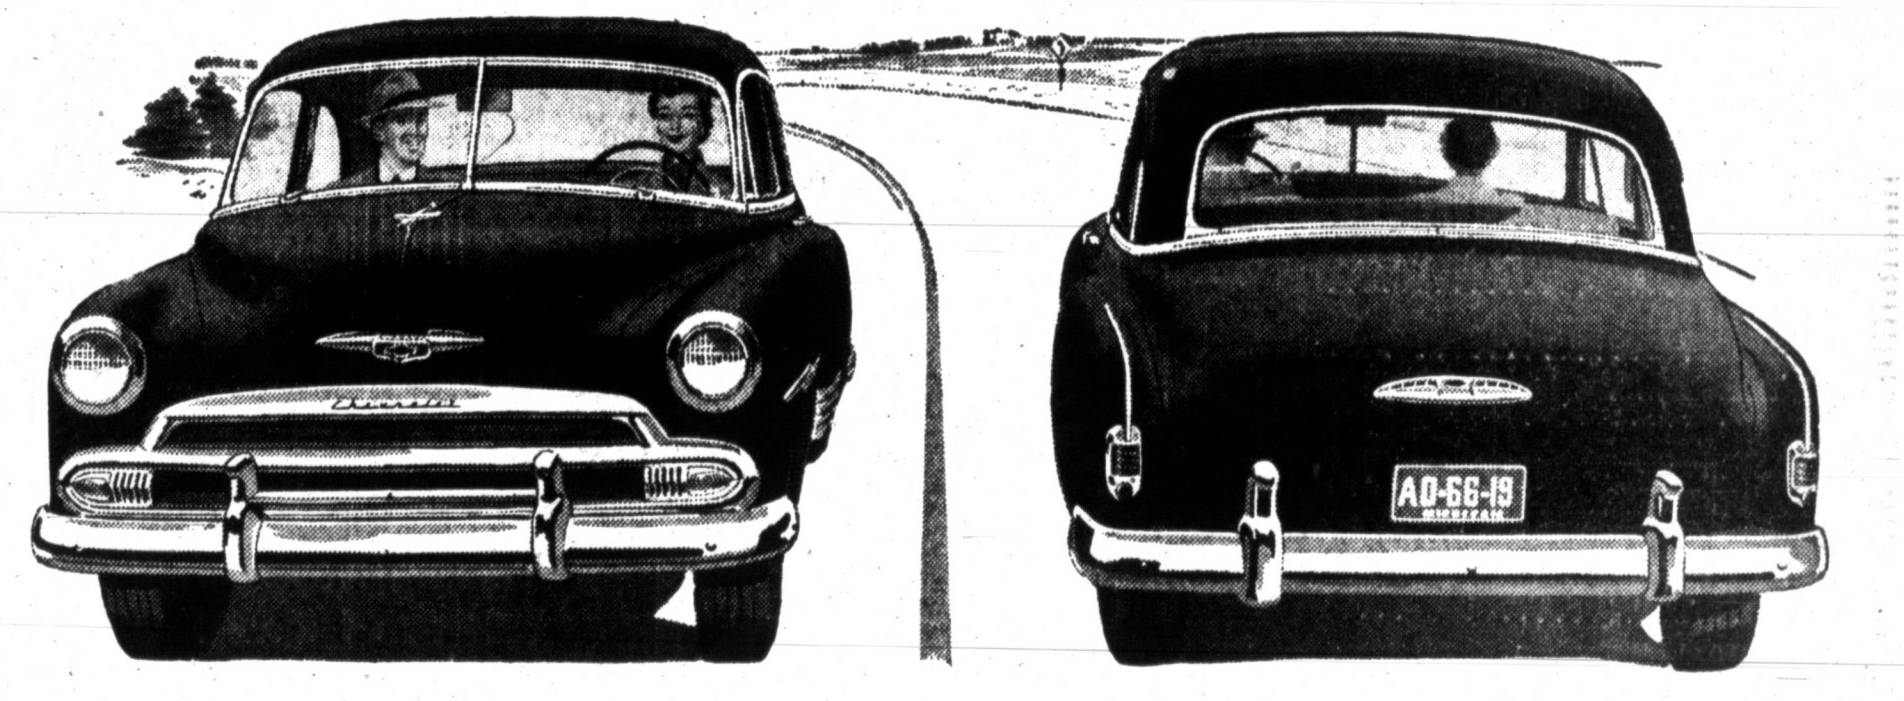

Senator LeBlanc has been in public life since he was quite a young man and he has always advocated the cause of the oppressed and the downtrodden. It was he who introduced the law in Louisiana that gives every deserving man and woman in Louisiana a pension of \$50.00; it was he who introduced the law creating the office of Service Commissioner, the duties of which office is to see that every deserving ex-soldier and veteran receives his just reward from the Federal and State Government; it was he who has consistently fought the battle of the school teachers in the halls of the legislature; he worked untiringly for the farmers and the laboring man.
In view of the fact that this man has worked so untiringly for your cause and in your behalf, don't you believe that it was reasonable to assume that in his untiring efforts he would someday find something to assist you besides rendering governmental assistance.
The word "HADACOL" has become a by-word throughout this Nation. Read the testimonials on this page. Ask your friends who have taken HADACOL the benefits they have received from it. Don't hesitate. Place your confidence in

MANY DOCTORS RECOMMEND
HADACOL
Only HADACOL Gives You That WONDERFUL HADACOL FEELING!

NEW 1951 Chevrolet

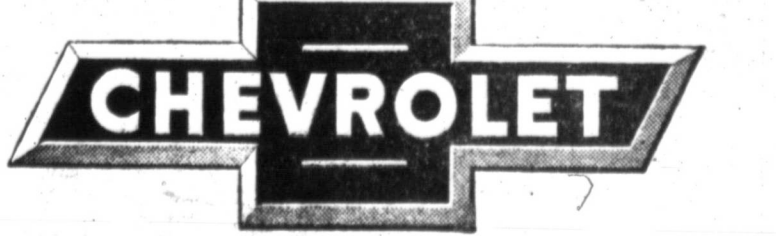

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR!

It has that longer, lower, wider big-car look!

- NEW! AMERICAN BEAUTY DESIGN** Brilliant new styling... featuring entirely new grille, parking lights, fender rear-end design... imparting that longer, lower, wider big-car look which sets Chevrolet above and apart from all other motor cars in its field.
- NEW! MORE POWERFUL JUMBO-DRUM BRAKES** (with *Dual-Life rivetless brake linings*)—Largest brakes in the entire low-price field... extra-safe, extra-smooth, extra-durable... with both brake shoes on each wheel self-energizing for forward and reverse operation of car... providing maximum stopping-power with up to 25% less driver effort.
- NEW! AMERICA-PREFERRED BODIES BY FISHER**—With new and even more strikingly beautiful lines, contours and colors... with extra sturdy Fisher Unisteel construction... Curved Windshield and Panoramic Visibility... the smartest, safest, most comfortable edition of Chevrolet's America-Preferred Bodies by Fisher.
- NEW! SAFETY-SIGHT INSTRUMENT PANEL**—Safer, more convenient, more efficient... having an overhanging upper crown to eliminate reflections in windshield from instrument lights, and lower edge of panel recessed to provide a safe, convenient location for control knobs... with plain, easy-to-read instruments in two large clusters directly in front of driver.
- NEW! MODERN-MODE INTERIORS**—With upholstery and appointments of outstanding quality, in beautiful two-tone color harmonies... with an even more attractive steering wheel embodying a new full-circle horn ring (in De Luxe models)... and with extra generous head, leg and elbow room for driver and all passengers.
- NEW! IMPROVED CENTER-POINT STEERING (and Center-Point Design)**—Making steering even easier at low speeds and while parking... just as Chevrolet's famous Unitized Knee-Action Gliding Ride is comfortable beyond comparison in its price range... additional reasons why more people buy Chevrolets than any other car.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Relations With Spain Signal Reds to Boost Discord Work

By JOHN FISHER
Even before President Truman beckoned a guard to welcome to Spain, the Reds had anticipated the return of the outcast and had schemed to lessen Spain's value to the Atlantic Pact states.

Something Smells Mighty Fishy!

What's going on? That's the question that Gray County taxpayers may well be asking themselves today with the announcement by J. D. Church, district airport engineer of the Civil Aeronautics Authority, that he would not allow funds for improvement of the northwest site as a Pampa Municipal Airport.

Spain - with a population of 28 million and with needed cobalt, zinc and other minerals - no longer is in the dog house. As Senator Henry Cabot Lodge Jr., delegate to the United Nations, points out, Spain, because of her strategic position and anti-Communist feelings, can make an important contribution to the military security of Europe.

Washington ... by Peter Edson

NEA Washington Correspondent
By PETER EDSON
WASHINGTON (NEA) - When Guslav Metzman, president of the New York Central and Hudson River Railroad, appeared in front of the House subcommittee on the Interstate Commerce Commission, he was asked to explain why he had not resigned from the railroad when it was nationalized.

Washington ... by Peter Edson
The reason was that since the government has seized the railroads in the operating unions' wage case, railroad executives have been commissioned as chicken colonels to run the roads for the Army. Colonel Metzman's uniform was complete when he was a braided fourragere and one shoulder.

Washington ... by Peter Edson
To help old members of Congress identify the new members and to help the new members identify each other and the old members, Government Printing Office has this year issued a new "Pocket Congressional Directory" showing pictures of them.

Better Jobs

By R. C. HOILES

"Intellectual indigestion"
I am indebted to Mrs. Muriel Herritt Floyd of Colorado Springs, Colorado, for calling my attention to and the loan of a book called "The Cult of Incompetence" by Emile Faguet of the French Academy.

The author recites the various ways of attempting to reduce the incompetence of majority rule government. One of the ways he points out is the claim by the government that incompetence can be reduced by education by the state.

Golden Glove Tournament Opens at Shamrock Tonight

Lefors Pirates Will Make Strong Bid for Team Title

SHAMROCK (Special)—Boxing fans will see one of the outstanding Golden Gloves area meets at the American Legion Hall at 7:30 tonight when clouters from Shamrock, Lefors, Wellington and Clarendon swap punches in the three-day show. The tourney will be held Thursday, Friday and Saturday nights.

Sixty swat-smiths and a crowd of 1,500 is expected for the inaugural show. Shamrock qualified the strongest schoolboy team to fight in the Amarillo Regional event last January and this year's meet is expected to produce many standouts.

WT-NM Baseball Officials to Meet

DALLAS — (Special) — Club owners and officials of the West Texas-New Mexico League will hold their annual schedule meeting in Lubbock Saturday night at 7:30 in the Hilton Hotel. President Milton E. Price announced today.

Primary consideration on the agenda will be adoption of a 1951 playing schedule, but Price indicated that even more important will be discussion concerning the operation of the league in view of the national emergency.

"We must set up a program where we can follow through by complete cooperation," Price said. "The operations of the past two years in the league are a thing of the past. We will need guts to stick with our decision, but I think that the league now is ready for such action," Price declared.

"We can go to even less play, if that we are allowed now," Price stated. "We will need guts to stick with our decision, but I think that the league now is ready for such action," Price declared.

There will be at least 15 bouts each evening, states Jack Stroup, tournament director.

A regulation-size ring has been erected and there are seats for about 4,000 people, Stroup reports.

Following his victory in 11 bouts to 6 for Lefors and 4 for Panhandle in the triangular meet here last week, mittermen of Coach H. W. Callan, Shamrock mentor, are expected to go far in the tourney. Last year they won the Golden Gloves here and at Wichita Falls and Amarillo in the high school classes.

Both Callan and his brother were coaches at the boxing ring in Midwestern University, Wichita Falls, from which both graduated.

The tournament is sponsored by the George DeShazo Post of the American Legion.

Plainview Defeats Hale Center, 42-28

PLAINVIEW (Special)—The Plainview Bulldogs stopped Hale Center Owls, 42-28, here Tuesday night.

Plainview's Otis Ratliff and Hale Center's David Harper shared scoring honors with 11 points each.

Washington is called the Evergreen State.

Chiefs Clash With Wizards Jan. 25

The Noblitt-Coffey Chiefs will have a tough cage assignment when they cope with the Whiskered Wizards at 8 o'clock Thursday night, Jan. 25, in the junior high gym.

The Chiefs have handled four opponents easily this season, but the competition wasn't in the same class with the Wizards. The Pampa quintet clipped Hedley Independents, 84-58, in its last cage outing; they also own wins over Meyers Motor Co. and the Ploymboys of Amarillo, and defeated Hedley in the opening game of the season.

The Chiefs have Cliff Mc-

Battling Ben Hogan Is Comeback Champ

NEW YORK — (AP) — Bantam Ben Hogan's phenomenal, movie-script rally from a near-fatal accident to regain his old golfing heights was rated today the greatest comeback in sports for 1950.

Sports writers and broadcasters, participating in the year-end Association Press poll, had little trouble making up their minds in this category, giving an overwhelming vote to the plucky little shotmaker from Texas.

Tennis Pros to Play In Amarillo, Feb. 9

NEW YORK — (AP) — Touring tennis pros will play six Texas cities next month.

They will play in Amarillo Feb. 9, San Antonio Feb. 12, Waco Feb. 13, Dallas Feb. 14-15, Austin Feb. 17, and Harlingen Feb. 19.

Bill (Tippy) Dye, former Ohio State star, is coaching the University of Washington basketball team this season.

Liberals Expect Soft Sanity Code

By HAROLD V. RATLIFF
DALLAS — (AP) — Confidence arose among the liberals of the National Collegiate Athletic Association today that an amendment softening the sanity code governing financial aid to athletes will be passed.

Some of the liberal leaders, notably T. P. Heard, Athletic Director of Louisiana State, flatly predicted that the NCAA constitution would be amended to place enforcement of the code in the hands of the individual schools and conferences. This will require a two-thirds majority in the convention whose showdown meeting comes tomorrow.

Passage of such an amendment also probably would mean that seven schools not now in compliance with the code would escape going on trial.

There were ten schools on the black list until yesterday when the compliance committee reported three of them have attained compliance.

Names of the schools were not announced.

Hugh Willett, of Southern California, NCAA president, said if the seven schools were brought up for suspension he would rule that only a majority vote of the convention would be needed to put them out. But he admitted there might be a floor fight.

Some members of the NCAA are working for the authority to suspend came from as the constitution only provides for expulsion, which requires a two-thirds vote.

The sanity code now provides for tuition and fees with all other needs of the athletes to their side is due to come today when the small college group of the NCAA meets to talk over the code. It is from the small colleges that the balance of power apparently must come.

The Southern, Southeastern and Southwest Conferences are allied in getting the code changed while the Big Ten and Pacific Coast Conferences want to strengthen the present powers of the NCAA.

The American Association of College Baseball Coaches yesterday recommended to the NCAA that beginning with the next spring semester freshmen be made eligible for varsity participation in all sports. This was done because of the war situation.

WILLIAMS SET IRISH RECORD

NOTRE DAME, Ind. (AP) — Notre Dame's 1950 quarterback, Bobby Williams, threw 210 passes, the most ever thrown by an Irish back. He completed 99 tosses, for another record. His heaves were good for 1035 yards and 10 touchdowns.

Neely and J. W. Malone to match the Whisker shot makers. McNeely has averaged better than 24 points a game in the first four contests. Caddo Matthews holds down the center spot, and Bill Bond and Garland Head round out the starting five.

The Chiefs meet Tinker-Tockers in Lubbock Saturday night.

Bulldogs Favored To Measure Pampa

With 15 basketball victories under their belts, the Harvesters go against District 1-AA favorites Friday night at Berger—Coach Tex Hanna's powerful Bulldog five.

Pampa's record is 15-2, and Berger has stopped 11 basketball foes and dropped three decisions. Lubbock's Westerners have accounted for two of the losses and Stratford clipped the Bulldogs in an overtime in the season opener.

Coach Cliff McNeely's Green and Gold quintet has a 47.3 point game average and has held the opposition to 35.8. Port Arthur and Lubbock handed Pampa its two defeats, both losses were by two points.

Senior guard James Claunch is the Harvesters' leading scorer. The blond haired sentinel has tripped the cords for 197 points. Marvin Bond, junior forward, has pushed in 153 tallies, and Duane Jeter, junior center, has accounted for 146 markers.

The Harvesters have played in two cage tournaments, winning one and placing second in the other. Pampa nipped Childress, 42-37, to take the Bobcat invitational cage trophy. Port Arthur edged the Harvesters, 35-33, in the finals at Brownwood.

Pampa has stuck to the man-to-man defense in its first seven tilt, but the Harvesters face a fast shooting ball club in the Bulldogs. And the big task for Pampa Friday night is to halt Berger's 6-foot 4-inch Keith Lane and Red Hooper.

Lane has blistered the nets for 259 points for an 18.6 game average. Lane receives plenty of help from Scott, 6 foot 2 inch, Hooper, 6 foot 1 inch, Hamilton, 6 foot 1 inch, Brooks, 5 foot 10 inch, and Carter, 6 foot 4 inch.

Berger has scored 721 points in 14 games for an average 51.5 a game. The Bulldogs have checked their opponents to 521 points for a 37.2 game average.

The Bulldogs have 12 squadmen back from last year's district champions, and are picked to repeat this year.

Coach Cliff McNeely started the season with an experienced crew and wasn't expected to make a strong bid for the conference until the 1951-52 season. But the Pampa cage mentor has welded together a winning combination with emphasis on hustle and team play.

However, the Harvesters' shooting irons will have to be plenty hot Friday to match the Berger marksmen, and it's a question mark whether Pampa's defense can ice down the scintillating Bulldogs.

SPORTS MIRROR

(By The Associated Press)

Today's Fear Ago—Tom Janiro fought his way back into the top welterweight ranks by winning a 10-round decision over Charlie Fusari at Detroit.

Five Years Ago—Elmer Layden resigned as National Football League Commissioner and was succeeded by Bert Bell.

Ten Years Ago—Eddie Alton met Bobby Riggs, 3-6, 7-5, 4-6, 10-8, 6-3, in semi-finals of the Dixie Tennis Tournament at Tampa, Fla.

Fifteen Years Ago—Willie Hoppe won the world pro 3-cushion billiards title by defeating Welker Cochran at Chicago.

Panhandle Enters 28 Clouters in Pampa Tournament

Twenty eight clouters from Panhandle entered the District Golden Glove Boxing tourney to be held in Pampa Monday, Tuesday and Wednesday nights, Jan. 15-16-17, in the junior high gym.

Tickets for the tournament went on sale today at Frank Leder's Jewelry store, Texas Motor Co., and Jack Vaughn's Service Station. Fighters can get their entry blanks out of the Pampa News. The entry blanks will be published today through Sunday on the sports page.

Romlie James, 80-pound glover for the Pampa Boys Club Inc., was the first Panaman to enter the tournament. James will fight in the Pee Wee Division.

Fighters from Panhandle are: Fee Wee Division — Arkie Grant, Glenn Axe, Roger Williams, Oscar Thorpe, Montie Bell, Pat Maroney, Charles Miller, Richard Hooper, Orville Cooper, Deane Howard, Bill Jay, Morris Moss, Ted Addington, Jimmy Mitchell and Bill Chikwood.

Golden Glove and High School Division — Royal Parrish, Walter Clawson, Artie Pratt, Everett Howard, Gene Trent, Jim Howard, Duane Howard, Allen Kirk, Durward Lynch, Walter Martin, Jack Weatherford, D. D. Home, and Joe Russell.

Boyd Williams is coach of the Panhandle mittermen. He has a coming boxer in Jimmy Mitchell, 95-pound clouter. Mitchell has fought in seven ring battles and he was champion in his weight at the Berger Golden Glove tourney last year. Everett Howard is another returning veteran. Howard is 13 years old and weighs 120 pounds.

Durward Lynch is also a ring-winner. He has fought in 11 ring engagements and tips the scales at 135 pounds. Jim Howard has 10 fights to his credit and is entered in the 155-pound class.

Del Miller of Meadowlands, Pa., drove the winners of seven harness races in which the purse was more than \$14,000 in 1950.

ROYAL SPORTS SESSION—Emperor Hirohito (right), of Japan, and members of his family chat before starting a tennis game on the grounds of the Imperial Palace in Tokyo.

Storekeepers Urged To Prevent Scares
NEW YORK - (AP)—The retail storekeeper was urged today to bend every effort toward preventing scarce buying and hoarding and toward battling inflation.
Edward Carroll, sales promotion manager of Hays brothers, Allentown, Pa., urged the men who sell the nation's goods also to sell ideas that will contribute to the defense program and keep the economy in order.

TEXAS PRESS ASSOCIATION
441 DRISKILL HOTEL * TELEPHONE 72023
AUSTIN, TEXAS
SUCCEEDS RIDGWAY—Lt.-Gen. John E. Hull, above director of the Army's weapons evaluation group, has been named deputy Army chief of staff for administration. He succeeds Lt.-Gen. Matthew B. Ridgway, who heads the 8th Army in Korea succeeding Gen. Walton Walker.

A Sure Sign He is Headed for Success!
THERE'S no surer sign that an ambitious boy is on the right track than to see him serving his newspaper route swiftly and dependably day after day. By so doing, he is turning spare time into welcome dollars, gaining valuable business training, getting practical sales and service experience, saving money regularly, and enjoying teamwork and good times with other live-wire lads.
As a result of this pleasant and profitable business venture, he is becoming well equipped for advancement in whatever career he may choose. For, he is taking the same "basic training" that started so many leaders in all walks of life on the road to success. No wonder they rate a newspaper route as the TOP spare-time opportunity for teen-agers who are eager to get ahead.
What About Your Son?
If he has time on his hands, urge him to see our Circulation Department about getting the first route available in your locality. You'll be glad you did!
