## Like An Earthquake: Nevada Rocked By New A-Bomb Test

LAS VEGAS, Nev. (AP)—A new atomic test rocked Las Vegas with the force of an earthquake today. Residents said it appeared to be the heaviest of four felt here in the past week as a result of experiments at a new government atomic range on the desert northwest of here.

"It was just like a quake," said one observer. "The building rocked and the concussion blew in swinging windows."

The first damage here from any of the shocks was reported to police a few minutes after the blast. It was the shattering of a big window in a downtown department store. It took the concussion six minutes to reach here, after a brilliant orange-yellow flash lit the northwestern skies, etching buildings in this gambling resort town and the mountains which ring it.

The flash was timed at 6:49 a.m. (Pacific Standard Time). It was visible in a pale orange flash as far distant as Los Angeles, some 300 miles away.

Since Saturday, the government has been testing atomic weapons of undisclosed nature at the new 5,000 square mile range on the desert. The Atomic Energy Commission has consistently declined to comment except to confirm that tests have been held.

The tests have been made in pairs: a fairly light explosion Saturday, a heavy one Sunday; a fairly light one yesterday, a heavy one today.

All have occurred at about the same hour, just before dawn.

Today's flash faded quickly in a core of orange light.

Several Las Vegas were convinced that it was the strongest jolt of the four.

Cashier Jo O'Donnell at one of the big gambling clubs said it "shook hell out of the building."

"There was a blinding white flash of light that got deeper orange and finally faded away," was the way she described the sight that loomed in the distance despite a haze of neon signs.

"After the flash, everybody was set for the jolt and a policeman said 'here comes'."

Some 75 players in the club stopped their games for a minute or two and then resumed. This was in contrast to previous tests, when the wheels went right on spinning in this town of quick divorce and mount gambling tables.

Night clerk Fred Worthen at the four-story Sal Sage Hotel said: "It shook the whole building and blew in the swinging doors."

Many of the occupants of the building were awakened.

This is the thirteenth atomic explosion since the first went off in the New Mexican desert in mid-July, 1945. Two were dropped on Japan, five others were exploded in Pacific Island tests, the Russians set off one and four have been detonated here.

## Truman Asks Tax Increase Of 10 Billion

WASHINGTON (AP)—President Truman today asked Congress for a quick \$10,000,000,000 tax increase and said he will ask still another increase later.

In a message to the legislators, Mr. Truman set out this program for raising the \$10,000,000,000:

1. A \$4,000,000,000 increase in individual income taxes, already scheduled to yield a record \$26,000,000,000 in the fiscal year starting July 1.
2. A \$3,000,000,000 increase in corporation income taxes. These with excess profits taxes included, are scheduled to hit a record \$20,000,000,000 next year.
3. A \$3,000,000,000 increase in excise (sales) taxes — to be concentrated upon less essential consumer goods. These taxes are estimated to yield \$8,222,000,000 next year, under present tax laws.

The schedule outlined would mean a total tax take of \$64,200,000,000.

This is nearly a third more than the record collections of World War Two when the take reached \$43,000,000,000 in 1945.

The understanding among Congress members is that the further increase Mr. Truman is requesting later would raise government revenues to more than \$71,000,000,000.

Even before the President presented his special message, cries for slashes in non-defense spending — to relieve the need for such big tax increases — echoed across Capitol Hill.

Senator Byrd (D-Va.), who has advocated trimming some \$7,000,000,000 from the President's \$71,600,000,000 budget, said that with proper economy the "first package" tax bill would be enough.

Rep. Harrison (D-Va.), a member of the tax-writing ways and means committee, issued a statement proposing a \$6,500,000,000 budget cut and \$10,000,000,000 in new taxes.

"We cannot avoid increasing the tax burdens of our people all along the line if we are to pay for preparedness," he said, "but we cannot admit that real savings are impossible."

# Tank-Led Allies Pushing Assault Nearer To Seoul

THE WINNER—The real winner is the March of Dimes in the disc jockey contest held on Radio Station KPND between Rudy Marti, at the driver's post, who spins "Variety Time," and Bert Conway, who turns the discs on "Whooop-de-do." Conway got more money for the March of Dimes from his listeners than Marti, so this morning Conway got a ride down Cuyler Street in the above vehicle manned by Marti. Receiving check for nearly \$100 to be added to the March of Dimes fund is Rev. Edgar Henshaw, president of the Gray County Chapter of the MOD. (News Photo and Engraving)

## 2 Red Companies Try To Stem Drive

TOKYO (AP)—Tank-led allied assault forces advanced through thick fog Friday night to points north of Anyang, which is only eight and one-half miles south of Red-held Seoul.

Two to two and one-half miles south of Anyang, however, two companies of Chinese Communists (possibly 400 men) counterattacked at 10 p.m. and still were fighting at midnight.

No details were available on this relatively small Red effort to check the United Nations drive which has gained about 20 miles since it began Jan. 25. Enemy opposition has been slackening daily.

Advance patrols of the allies have been reported only seven miles from Seoul.

Heavier forces are moving up cautiously, wary against flank attacks which are the favorite Red tactics.

An Eighth Army spokesman estimated that 6,650 Chinese and North Korean Communists had been killed by ground action between Jan. 25 and 31. Air reports listed casualties for that period at 1,442, but some may be duplications.

Even so, there was a difference of military opinion as to whether the allies have cracked the main enemy defenses, despite notable losses in manpower and shrinking morale among the Reds.

In Washington there were reports that high officials have decided UN troops should stop at Parallel 38, presumably pending further efforts toward political settlement of the conflict.

An Eighth Army spokesman declined to confirm or deny the Washington report.

Chopped up are the Chinese 50th and 38th Armies. Resistance has slackened even though the Communist 39th and 40th Armies are in immediate reserve, allied commanders said.

Reliable sources said the ghastly threat of typhus has made its appearance among North Korean troops, and that tuberculosis, trench foot, frostbite and other wartime diseases likewise were taking a toll among the Chinese allies.

Prisoners of war said 50 to 100 percent of some North Korean companies are infected with typhus, a disease transmitted by vermin from rats. However, U. S. Eighth Army investigators said there was no evidence that Chinese troops have been affected seriously by the disease.

No typhus cases were reported among isolated UN troops. Army officials in Washington said Russian satellite countries have had difficulty perfecting an effective vaccine.

On the allied right flank, near the juncture of western and central fronts, French and American troops are being held up by thousands of screaming Communists who leap.

(See TANK-LED, Page 6)

## Final Campaign For 'Dimes' Saturday

As a last campaign for funds to cap the March of Dimes, a "Mile of Dimes" parade will be staged on the streets of Pampa Saturday by the civic clubs.

On various city street corners, members of the clubs will be stationed to collect last-minute donations to the polio fund drive. Dr. Douglas E. Nelson is head of this final drive.

Kiwanis members will be on the corner of the Citizens Bank, Lions at Levine's, Rotarians at the Wilson Drug; Jaycees at B&G Hostery; American Legion, First National Bank, and the 20-30 club members at J. C. Penney Co.

Paul Brown, chairman of the city and county drive, has released no total funds received during the campaign, which began Jan. 15. Donations have not all been counted from the dime boxes in business firms, from other towns in the county, or from contributions mailed in to the officials.

Since the beginning of the drive, a constant schedule of programs, special attractions and campaigns have been kept up. Highlights of the local drive were the "Cavalcade of Stars" a variety show featuring local talent; a radio show, the "March of Dimes

## Building Is Off To Good Start

Building in Pampa got off to a good start for 1951 despite high prices, threat of shortages, and extreme cold weather.

In all, 63 permits to build, remodel and move were granted in the city engineer's office during the first 31 days of the year to reach a grand total of \$374,800 valuation.

Topping the list were 45 new residential jobs at the total value of \$361,800; remodeling of five residences totaling \$6,425 in work; five new private garages totaling \$3,000; one new business building at \$600; six permits to move houses inside the city limits totaling an additional \$2,650; and one permit to move a house outside the city limits with no value recorded.

This was a substantial increase over building activities in Pampa for the same period last year when the total valuation for the month was less than the total for the 45 new homes so far this year.

The January, 1950, total was \$140,115 for 35 varied permits. Of this only \$76,800 was represented by 13 permits for construction of new homes.

## Ike's Opposition To Limit On Troops Splits Lawmakers

WASHINGTON (AP)—Gen. Dwight D. Eisenhower's opposition to a limit on the number of American troops to be sent to Europe split the ranks of lawmakers demanding such a ceiling today.

Senator Taft (R-Ohio) told a reporter he has not changed his position that Congress ought to tie down the number of foot soldiers who could be dispatched to help main western Europe's defenses.

However, Senator Douglas (D-Ill.), who has advocated that Congress fix a ratio of American to European troops, said he is surprised at Eisenhower's opposition and will have to "think the whole matter over."

Eisenhower has an opportunity tonight to explain more fully his position on this point when he reports to the nation by radio (10:45 p.m., EST) on his survey of western Europe's defenses. His address will be carried on all radio and television networks.

There were indications, however, that the Pentagon does not want to disclose with any exactness the probable U. S. contribution. The reasoning is that Eisenhower's hands should not be tied.

The general will report to the House Foreign Affairs and Armed Services Committees in closed session earlier in the day 10 a.m. EST.

Eisenhower was quoted by senators who heard him in a closed session yesterday as fixing his sights on a 40 - division land force by the end of next year to help guard Europe against possible Communist attack.

Some senators said Eisenhower, supreme commander of the (See LAWMAKERS, Page 6)

## U.S. Offering Japan Part In Defense Pact

TOKYO (AP)—The United States today invited Japan to join a collective defense agreement based on American power after a peace treaty is signed.

Ambassador-at-Large John Foster Dulles made the offer in a careful and official speech before the America-Japan Society. Top government and business leaders were among several hundred persons present.

Dulles said Japan could decide for herself. But he warned Japan must choose between joining the United States or inviting Communist aggression, and decided.

"Today the principal deterrent power" to aggression "is possessed by the United States."

Dulles said the United States is prepared to combine this power with that of other western nations, under the United Nations charter, "so that the deterrent power which protects us also will protect others."

He said the United States would consider retaining defense forces in and near Japan "as a testimony to the unity of our countries."

## City Collects \$267,213.66

At least 88.08 percent of the city's tax collecting worries are over.

That percentage figure is what the city tax office collected of the total tax levy by Jan. 31, deadline for paying city taxes in one lump sum.

This means that \$267,213.66 in personal property and real estate taxes have been paid into the city's coffers, leaving a balance of \$36,232 to be paid.

About half of this balance represents the balance owed by those who have elected to pay taxes in two installments — one by Dec. 31 and the other by May 31.

To date the tax office has collected \$193,346.84 in real estate taxes and \$73,866.82 in personal property, the latter representing stock and fixtures of business establishments and not private home furnishings.

This year's percentage of collection on the total levy is an increase over last year's percent collection of 82.74 percent.

## City Beins To Feel Rail Strike Effects

The railroad strike has now reached into Pampa.

According to Postmaster W. B. Weathered, a curtailment on mail has been ordered by the postmaster-general. The order from Washington is as follows:

"Tie-up of railroad switchings at various points throughout the country makes it imperative that certain mail service restrictions be imposed. Restricted categories of mail will consist of second class, except daily newspapers, and all third and fourth class matter and matter of the first class exceeding eight ounces in weight. Restrictions will not apply to medicine, drugs, surgical instruments and surgical dressings.

"Effective at once no mail matter of the restricted categories will be accepted for any post office located in the states of Florida, Illinois, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, New York, Connecticut, New Jersey, Pennsylvania, Delaware, Maryland,

## Fans Get Chance To Repay Parker

Some fans last night partially repaid a ball player for the entertainment given them through his performance during the summer.

Two weeks ago, the Roy Parkers lost all of the family's belongings in a fire. Roy pitched for the Oilers in the summer. Last night a group of fans gave a miscellaneous shower for Roy, his wife, and little daughter, Patty, at the home of Mrs. Harvey Graham, 413 Warren. Another little Parker is on the way.

The Parkers received many gifts to help refurbish their new living quarters in the rear of 704 Gray.

## Mercury Rise Is Promised

A promise of warmer weather came from the weather bureau today and the warming-up has apparently already started. Low temperature last night was recorded at three degrees above zero, with a sharp rise to 12 above at 9 a.m. today.

Cattlemen throughout the Panhandle have reported that they have made the storm in fair shape — because the winds weren't too high and the snow was dry instead of wet.

The snow, dry as it was, didn't help the wheat crop much in this area. There wasn't enough to snap the long drought, hugging the area.

Although schools were closed in many cities and towns in the state, Pampa schools continued to operate and, for the most part, buses ran on schedule.

Although sidewalks, too, carried a thick coating of hard-packed snow, no serious falls were reported.

Texas Gas and Power Co. reported no operating difficulty during the cold snap.

Amateur forecasters so frightened a family who had just moved to Pampa from deep in South Texas, that the husband spent half of last night looking for more anti-freeze and/or a warmer place to park his car. Their forecast? Twenty-three degrees below zero.

## Hereford Breeders Banquet Monday

The Top of Texas Hereford Breeders Assn. will hold its annual banquet in the American Legion-VFW Hall, Monday, Feb. 5, at 7:30 p.m.

A program is being arranged by F. Jake Hess, McLean breeder, who is in charge of the banquet committee. The banquet is one of the highlights of the TOTHEA show and sale, which is being conducted Monday and Tuesday at Recreation Park.

## Clovis Air Base To Be Reopened

WASHINGTON (AP)—The Clovis Air Base will be reopened as a single engine training base, Rep. Dempsey (D-N.M.) said today.

He added in a statement Air Force officials told him the opening date is "very indefinite."

About 200 civilian and military personnel will be stationed at the base, Dempsey said.

## UN Offensive May Halt At Parallel 38

WASHINGTON (AP)—A reported decision to halt United Nations forces short of the 38th Parallel, if they can drive that far north, indicated today that this country is ready to keep the way open for a possible diplomatic settlement of the Korean war.

Responsible authorities said last night that such a decision had been reached and would be transmitted to the UN commander, Gen. Douglas MacArthur, if it had not been already. Although they were reluctant to discuss the development even privately, the intent appeared to be to create, if possible a basis for new efforts at a political settlement.

The old dividing line between North and South Korea is still regarded by officials as having political significance even though it has been crossed and recrossed by both the United Nations and Communist forces in the past.

The idea that a cease-fire arrangement might be worked out by having the Chinese Communists withdraw north of the parallel and the United Nations forces remain south of it has been discussed in the United Nations.

Moreover, the present military situation in Korea is such that experts here feel a decisive victory by either the Communists or the United Nations forces is virtually impossible and if the struggle is

## 700 Suit Granted In Auto Collision

Judge Lewis M. Goodrich Thursday afternoon in 21st District Court approved an agreed judgement of \$700 in favor of J. C. Davis against the Moran Bros. Inc.

Davis brought suit against the company following an automobile collision on Jan. 4, 1951 at the Duncan and Louisiana intersection where his car, driven by Earlene Davis, and a Moran Bros. vehicle collided. The award was for personal injuries and damages to the Davis' car.

## C-C Holds Banquet Tonight Winding Up Membership Drive

The Greater Pampa Baseball League's victory banquet will be held at 7:30 tonight at the Pampa Country Club to honor the Birmingham Tigers, champions of the league for this season.

The Tigers amassed a total of 880 points in the week-long Chamber of Commerce membership campaign to win the crown. They were crowned by the Myatt Yankees, with 867 1/2 points, need for second round points.

The teams will be dined in a manner befitting their status in the eight-team league. In addition, the members of the membership team will receive special individual awards for their fine work.

Six weeks more winter

## Reporter Looking For Mr. Groundhog

We stood for hours 'other day over a couple of holes in the ground. We set off an alarm clock early this morning, but it was so cold the alarm bell froze and one ding of it is still hanging over one of the holes.

Somehow, we learned how much more winter we'll endure rather than turn to the more scientific method like, say for instance, the groundhog.

Now, Mr. Groundhog predicts the weather scientific like. He comes out his hole-in-the-ground and takes a gander at the terra firma 'bout him. If he sees his shadow he ducks back in and sometimes snoozes for another six weeks while we freeze our little toesies in the winter wonderland. If he doesn't see any shadow of himself he yawns, takes a few setting up exercises and lets out a hellow you can hear from Lancaster, Pa., to Spokane, Wash.

Truly, that is the signal for the red flannels to get ready for the methagans and exercising the old throwing arm for a little ketch — ah, spring is on the way and will be here in six weeks.

But slack and alas, us poor folks here in Gray County evidently don't have no groundhogs.

## Grocers Warned Of Price Freeze

HOUSTON (AP)—Meat prices except chickens and turkeys are frozen, grocers were warned.

Charles H. Winerich, Jr., Houston district price stabilization act director, yesterday said grocers had reported being told by wholesalers the January 26 freeze order permits them to increase the price to retailers in proportion to cost.

That is not true, Winerich said. Poultry, fresh fish, seafoods and game are the only meats not included in the price freeze.

For expert commercial refrigeration service call Bert A. Howell, 115 N. W. Highway, night phone, 3741 or 8933.

### Missionary Speaks In McLean Church

McLEAN (Special) — A missionary who works among the Indians of Arizona was guest speaker at the Assembly of God Church here recently.

He was accompanied by several Indian children, and in addition he addressed slides showing the life of the Indians.

The missionary, R. B. Suhl, is a White River, having spent five years with the Apache Indians. He is making a tour of the district in the interest of the mission work of the Assembly of God Church according to Board of Lectureship. He is expected to arrive at McLean before arriving at McLean, he will speak to groups at Pampa, Amarillo, and White Deer, and on to Shamrock, Wellington and Memphis.

### Lecture Scheduled On Christian Science

At 3 P.M. Sunday

Arthur Perrow will deliver a lecture on "Christian Science: The Way of Present Salvation" in the Senior High School Auditorium at 3 p.m. Sunday. The lecture will be open to the public and there will be no admission fee.

Mr. Perrow, a former Chicago business executive, left the business world in 1943 to enter the public practice of Christian Science healing, and is now a member of the Christian Science Board of Lectureship. He is expected to arrive at McLean before arriving at McLean, he will speak to groups at Pampa, Amarillo, and White Deer, and on to Shamrock, Wellington and Memphis.

## A Hymn Is Born

BY CLINT BONNER

### Stand Up, Stand Up For Jesus

*A revival... a corn-shelling machine... an accident... a hymn*

"The Word of God in Philadelphia" is what men called the citywide revival of 1858. Of the participating ministers, none was more powerful than 29-year-old Episcopalian Dudley Tyng. Tyng was a born preacher and had been tutored by his minister father. One Sunday he stood before 5,000 men in Jayne's Hall. When he concluded his sermon 2,000 knees were on the floor.

The following Wednesday he was at work in his study. For relaxation he went to his barn to watch the operation of a corn-shelling machine. The sleeve of his robe caught in a cog. His arm was torn out of his shoulder. Doctors and a score of ministers gathered at his bedside. His only wish was to sing "Rock of Ages" but he was too weak. The Rev. Stephen H. Tyng leaped over to hear the last words of his son, who had brought

thousands to their knees... "Tell them to stand up for Jesus."

The phrase so impressed Presbyterian Minister George Duffield, Jr., that he soon composed the hymn, "Stand, therefore, having your loins girded about with truth..." The Duffield read the verses printed for distribution in the Sunday School. One of the ladies found its way to a Baptist periodical, *Commonwealth*. George Wash read the poem... set it to music.

In 1864 the Rev. Duffield heard soldiers in a Union camp sing verses he had written as a concluding exhortation to a sermon six years earlier.

A revival... a corn-shelling machine... a fatal accident... a hymn. "The Word of God in Philadelphia" has its influence today every time a hymnal is opened to—

*Stand up, stand up for Jesus,  
Ye soldiers of the cross;  
Lift high His royal banner,  
It must not suffer loss.  
From victory unto victory  
His army shall He lead,  
Till ev'ry foe is conquered  
And Christ is Lord indeed.*

*Stand up, stand up for Jesus,  
The battle will be long;  
Forth to the mighty conflict,  
In this, His glorious day.  
"Ye that are men now serve Him"  
Against unnumbered foes,  
Let courage rise with danger,  
And strength to strength oppose.*

### How To Make Christianity Work

By WILLIAM E. GILROY, D. D.

Paul once reported a saying of Jesus unwritten elsewhere. He expressed it as an unimpressive gesture, and one that could only lead to antagonizing reactions and confusion.

It is obvious that the noblest Christian lives, such as those of the late Jane Addams, and Grenfell of Labrador, are lived upon the basis of something higher than the profit motive; but it is equally obvious that the businessman, when he goes from his church on Sunday to his business on Monday, has to make a profit, or go out of business.

He may, of course, have a higher motive, and may make his business, as many have, even in a competitive world, serve Christian ends. He is, however, part of a society and a system within the orbit of which his business must be conducted; we are all in a way parts of our environment and subject to at least some of its limitations. The problem becomes that of putting into a world still so largely un-Christian as much Christian living as we can. One might compare Christians to those living in a house while it is being made over and rebuilt.

There is no world to which we can move out, while the remodeling process goes on, and much adaptation is inevitable. Yet great, effective transformations can be made, if the Christian goal and the Christian purpose are never forgotten.

### McLean Pastor Plans Preaching Mission

McLEAN (Special) — Announcement has been made by the Rev. W. B. Hicks, pastor of the McLean Methodist Church, of plans for a preaching mission to be held in the near future.

The choir of the church will present an Easter cantata on Easter Sunday and previous to that, it is planned to hold night preaching services each night of that week, with a different minister bringing the message each night.

### Pampans To Attend Ministers' Week, Dedication In Dallas

Among Pampans who will be in Dallas next week for Ministers' Week and to attend dedication of the quadrangle at Southern Methodist University on Feb. 8, will be Dr. and Mrs. Orion Carter and Mr. and Mrs. Lee Harrah. Fred Cary will also attend the dedication ceremonies.

Others who will attend the dedication and Ministers' Week from this area are the Rev. and Mrs. W. E. Hamilton of Cleburne; the Rev. and Mrs. N. O. Bryant of Roger; the Rev. Vernon Willard of Mobeetie and the Rev. Darris Egger of Wheeler. Speakers for the annual Ministers' Week series of lectures at SMU will be Dr. Neils P. S. Ferré of the School of Religion of Vanderbilt University; Dr. Harold A. Bosley of Evanston, Ill.; and Dean Clarence T. Craig of Drew Theological Seminary.

### Fidelis Class At Social Meeting

The home of Mrs. Ralph Baxter, 217 N. Faulkner, was scene of a social meeting for the Fidelis Class of the Central Baptist Church.

Mrs. O. W. Love opened the

### CHRISTIAN SCIENCE

That the world's woes are to be met and solved through a correct understanding and daily living of love and fellowship is brought out in the Lesson-Sermon on "Love" which will be read in all Churches of Christ, Scientist, on Sunday, February 4, 1951.

The Golden text is: "The Lord thy God in the midst of thee is mighty; he will save, he will rejoice over thee with joy; he will rest in his love, he will joy over thee with singing" (Zephaniah 3:17).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Humble yourselves therefore under the mighty hand of God, that he may exalt you in due time: Casting all your care upon him; for he careth for you" (1 Peter 5:7).

Also included is the following meeting with prayer and Mrs. B. W. White gave the devotion. The group drew names for secret pals and refreshments were served.

Present were Meses. Hubert Lam, O. W. Love, Dolphus Nunn, Linnie Johnson, J. E. Flynn, Wayne Cox, A. L. Sikes, M. D. Sparks, Gene McClendon, Bob Burrows, Al Moore, E. W. Hendrix, Bill Lam and V. W. White.

WE, THE WOMEN

By RUTH MILLET  
NEA Staff Writer

According to a recent Gallup poll: "The pet peeve or annoyance of the average American is — people. Too many inconsiderate, disagreeable people doing little annoying things."

No doubt the survey takers on this particular poll found people ready to talk. For almost everybody is irritated by some particular kind of behavior from others.

But how often, when we are voicing our own pet peeve against others, do we ever stop to wonder if we have any inconsiderate, disagreeable habits that annoy others as much as they may annoy us?

Yet the only way we can do anything to make daily living a little more smooth is to watch out for our own actions. CAN'T CHANGE OTHERS

No matter what others do to annoy us, we can't change them. We can wish people wouldn't do this or wouldn't do that, but we can't stop them from being rude or disagreeable or thoughtless.

We can stop ourselves. And the more of us who try to be thoughtful, considerate, pleasant, and cooperative in all our dealings with others the fewer pet peeves we will all have.

And some of our pleasantness does brush off on others. Approach a sour — puss pleasantly and often you get pleasant treatment in return — not always, but often enough to make it worthwhile.

Even more important than voicing our own pet peeves is to be sure we aren't somebody else's pet peeve. Unthinkable as that may be at first, we just might be, you know.

Mankind will be God-governed in proportion as God's government becomes apparent; the Golden Rule utilized, and the rights of man and the liberty of conscience held sacred.

Mary Baker Eddy  
Hawaii's first written laws were published on December 8, 1827.

New driving comfort for '51 Ford Truck models, like this F-8, offer a choice of two new 5-STAR Cabs! New massive-modern front-end appearance makes Ford, more than ever, the truck style favorite!

Yes... over 180 new models

NEW Sensing column gearshift in series F-1 for car-like shifting ease! NEW Grain-tight 61-1/2-in. Pickup body has hardwood floor with steel skid strips! NEW Wider rear cab window — 50% more rear safety vision! NEW Two new cabs: The 5-STAR; and the 5-STAR EXTRA. Engineered for maximum driver comfort! 5-STAR EXTRA Cab has additional features at slight extra cost. NEW Chrome-plated top piston rings now standard in all four Ford engines, for longer cylinder life! NEW Autothermic pistons, high-lift camshafts for top performance! NEW Easier, quiet shifting with new 4-speed Synchro-Silent transmission available at extra cost on Ford Series F-4, F-5 and F-6 models!

New Ford Trucks for '51 offer you great new economy features... to do MORE per dollar.

There are more than 180 models, with new features throughout... from 95-h.p. Pickups to 145-h.p. Big Jobs! With a Ford Truck, and ONLY with a Ford Truck, you can choose a V-8 or Six, to match your power needs exactly.

Behind the new Ford front end are engine performance advancements like new autothermic pistons, new chrome-plated top rings, new high-lift camshafts... new transmissions, and axle for even longer truck life.

In the low-price field...  
**Only Ford Trucks feature POWER PILOT ECONOMY**

WORKS AND SAVES AUTOMATICALLY ALL THE TIME

1. The Ford Truck Power Pilot is a simpler, fully-proven way of getting the most power from the least gas!

2. It automatically meters and fires the right amount of gas, at precisely the right instant, to match constantly changing speed, load and power requirements.

3. Unlike conventional systems, the Power Pilot uses only one control instead of two, yet is designed to synchronize firing twice as accurately.

4. You can use regular gas... yet you get no-lack performance! Only Ford in the low-price field gives you Power Pilot Economy!

Ford Trucking Costs Less because—

**FORD TRUCKS LAST LONGER!**

Using latest registration data on 6,992,000 trucks, life insurance experts prove Ford Trucks last longest

**Only a TENTH**

"What shall I render unto the Lord for all His benefits?" (Psalms 116:12). Every man of earnest and serious mind must ask himself this question as he meditates on the goodness and the Grace of God toward him. We want to do what is right in our every association with God and man. The Government takes as its proper share at least twenty per cent of every man's income. WHAT IF GOD SHOULD REACH DOWN INTO YOUR LIFE AND MINE AND TAKE WHAT REALLY BELONGS TO HIM? How much would be left for us? Have you raised corn? Or did you and God work together in making the corn crop? And just which of you put more time and energy into the process? Have you "struck" oil? Who spent centuries creating the oil and holding it in the underground lake until you came along? Is the oil really all yours? What is God's share? YOU AND GOD ARE PARTNERS IN THE OIL BUSINESS; WHAT IS HIS PORTION?

**YOU IN THE CHURCH THE CHURCH IN YOU**

Character is a by-product of the church. It is from the young and old alike who observed with amazement that the church and its influence for a better citizenship and a stronger society and influence for a better citizenship and a stronger society.

William Newspaper Features  
P. O. Box 371, Ft. Worth, Tex.

Jesus Christ is our revelation of the generosity of God who has been the eternal Giver, enriching us with every sort of good thing. From the day of the first creation God has been at work with and for man. Each of us represents in his body and in his soul the everlasting toil of God, who truly wants to make us His children and who desires us to join Him in making an ever better world for His sons and daughters to live in. JESUS IS OUR PATTERN OF WHAT A MAN CAN GIVE TO HELP IN THE PURPOSE OF GOD. HOW MUCH DID JESUS GIVE BACK TO GOD?

Jewish and Christian people have agreed that we ought to give at least a tenth of our income to God and His Church for the carrying on of His redemptive program. A tenth will not necessarily discharge all our debt, but it will show a sense of deep gratitude. Everything is His, even the cattle of a thousand hills and the abundant harvest from the fields. He gives us everything which makes life abundant. Our ideal is to join in the prayer, "Take my life and let it be consecrated, Lord to Thee." Let's be good partners with God. Let us be His co-workers. HE WOULD GLADLY GIVE BACK TO HIM AT LEAST A TENTH OF WHAT HE SO FREELY GIVES US."

**ONE-HANDED SHOTS**—Buddy "Dude" Cockrell gets a one-handed shot against the Miami Warriors last night in the junior high gym. The sophomore center dunked in 10 points, and held Miami's high scorer, Dewayne Wells, to eight markers. Guard John Oden of Pampa is in the background. (News Photo and Engraving)

## Guerillas Tumble Warriors In Basketball Tilt, 39-33

The Pampa Daily News

PAGE 4 PAMPA NEWS, FRIDAY, FEBRUARY 2, 1951

## Harvesters Invade Amarillo Tonight

The Pampa Harvesters are out of the district title basketball race but Coach Cliff McNeely's boys can send the Amarillo Warriors to the sidelines, too, with a victory tonight at the Sports Arena.

Amarillo has a 2-1 conference record and must win tonight to stay in the running with the Borger Bulldogs. Coach Tex Hanzel's quarter enters Plainview tonight at Borger.

The Harvesters have been led twice in trying to notch a 20th cage win. Guyman Ed Foster doing the damage. With a 19-5 season record, the boys want this big game.

McNeely coached Harvesters in games during a season. The boys played seven in 1947, five in 47-8, and lost five times last year.

The Harvesters have to halt Bill Winter of the Sam Houston State team. The Sam Houston team has earned 52 points in three conference tilts. Thawing Bill Winter will be Duane Jeter's job.

Coach McNeely has been running Roy Pool and Jimmy Duncy first string in Wednesday and Thursday's drills. However, he will probably stick with his regular starters tonight.

Pampa Marvin Boyd and Jazz Tappley at forwards; Jeter center; James Claunch and Tommy Smith at guards.

Amarillo Jenkins and Linkenhager at forwards; Winter at center; and Settles and Sullivan at Guards.

Tipoff time is 8 o'clock.

## Bucks Battle Groom Tonight

**WHITE DEER**—(Special)—Big Kenneth Anglin will lead the Groom cagers against the White Deer Bucks in a conference tilt here tonight. The Grooms and White Deer girl cagers meet at 7 o'clock and the boys game will start at 8 o'clock.

Groom measured the Bucks 59-56 in an overtime period earlier in the season, but White Deer took the next game 62-60.

The Buck B cagers stung St. Louis last night at Stillfort, 45-16. Bud Wilkerson and Demetrius each hit nine points for White Deer.

**Cincinnati Wants Championship Bout**

**SAN ANTONIO**—(Special)—Ezzard C. Charles' manager says the World Heavyweight Champion has been offered \$150,000 plus a cut of the gross and broadcast rights to defend his title in Cincinnati against light heavyweight champion Joe Maxim.

Jack Minz said the offer was made by promoter Sam Becker. Minz said Chicago and Pittsburg were also bidding for the fight.

Charles is here for an appearance before a grand jury at Lackland Air Force Base.

Some birds complete their nests in a single day, while others require several months.

**Legionnaires Clip Tiger Cagers, 70-53**

**McLEAN**—(Special)—The McLean Legionnaires checked the high school Tigers here Monday night, 70-53, in a March of Dimes basketball tilt. The eighth graders owned the seventh graders, 23-16, in the opening game.

Johnny Haynes canned 23 points for the Legionnaires, and Bill N. Smith looped in 21 for the Tigers. The high schoolers led 27-23 at halftime.

**Street's Condition Is Unchanged**

**JOPLIN**—(Special)—The condition of Charles E. (Gabbey) Street, former major league baseball player and manager, was reported unchanged today. He is critically ill.

## Lefors Wins Five Bouts First Night

**LEFORS**—(Special)—Fourteen bouts opened the Lefors Boxing Tournament here Thursday night, and Wellington clouters won six fights, Lefors five, and Shamrock three.

The boxers will go to it again at 8 o'clock tonight with 14 bouts scheduled. The top attraction on tonight's card is the 160-pound battle between Durwood Lynch, winner at the Amarillo Regional Golden Gloves, and Bill Povlovsky of Shamrock. Povlovsky went to the finals at Amarillo in the 160-pound class and Lynch in the 155-pound class. Lynch Panhandle annexed the 155-pound title at the Regional meet.

Results:

66 pounds—Raymond Haygood, Lefors, dec. Ronnie Thompson, Wellington. James Warner (L), TKO'd Barry Ward, Shamrock, first round.

71 pounds—Joe Jerrigan (S), dec. Joe Wiggins, Panhandle.

80 pounds—Don Hood (W), TKO'd Edgar Crutcher (L), second round. J. D. Keius (L), dec. Rondel Harron (W).

85 pounds—Gery Phillips (W), dec. Cecil Sanders (L).

90 POUNDS—Bobby Smith (W), dec. Kent Eagle (P).

100 pounds—Bill Swift (W), dec. John Quarles (L).

105 pounds—Eddie Clements (L), knocked out Johnny Helms (S), first round.

112 pounds—Truman Judd (W), dec. Carl Weich (L).

118 pounds—David Bronner (L), dec. Wayne Smith (S).

135 pounds—Ronald Settle (S), dec. Bobby Thomas (W).

Billy Campbell (S), dec. Gene Baird (W).

155 pounds—Bill Jamerson (W), TKO'd Billy Ray Free (S), second round.

Tonight's pairings:

70 pounds—Joe Jerneage (P), vs. Glenn Axe (P).

80 pounds—Bobby Trimble (S), vs. Smoky Savage (W); Don Hood (W), vs. Gary Haron (S); Johnny Keys (S), vs. J. D. Redus (L).

85 pounds—Don Scott (W), vs. Jerry Herring (L).

90 pounds—Reggie Smith (W), vs. Billy Crosley (W).

95 pounds—Weldon Axe (P), vs. Dean Howard (P).

100 pounds—Bill Branch (W), vs. Bill Swift (W).

105 pounds—Fred Blackwell (L), vs. Clarence Jones (S).

118 pounds—Evert Howard (P), vs. Charles Payne (S).

135 pounds—Bobby Campbell (S), vs. Artie Pratt (P).

147 pounds—Ed Carver (S), vs. Jimmy Pennington (S).

150 pounds—Gene Trent (P), vs. Billy Ray Free (S).

160 pounds—Lynch (P), vs. Povlovsky (S).

## Two Pampans Get Honorable Mention On Prep Grid Team

**OKLAHOMA CITY**—(Special)—Eddie Scheig and Jimmy Hayes, guard and halfback for the 1950 Pampa Harvesters, won honorable mention on the fourth annual National All-America prep school football team. L. M. Watson of McLean and Tommy Schaefer of Canadian also were placed on the honorable mention list.

Larry Graham of Lamar High School (Houston) was the only Texan to land on the first team. Dick Sparks, great back of Krumm, was picked on the fifth team and 32 Texas schoolboys wound up on the honorable mention list.

Mose Simms, chairman of the football committee of the Wiggam Wiseman of American, announced seven teams and a long list of players from the United States and Hawaii, was selected by 543 daily newspapers and 65 radio stations.

Simms traveled over 12,000 miles and witnessed or observed workouts of 211 high school teams in 1950.

The All-Star game—third to be played—will again have Harold (Red) Drew of Alabama and Will Walls of the University of Corpus Christi as coaches. Drew handling the squad east of the Mississippi River and Walls the team west of that stream.

The first game was played in Corpus Christi, and last year it was at Memphis. The East won both games.

Texans gaining honorable mention were:

Centers—Jack Taylor, Sherman; Billy Harris, Wichita Falls; Barton Massey, Bowie.

Tackles—Billy Alexander, Bond; Tommy Schaefer, Canadian; Eric Knebel, Thomas Jefferson (San Antonio); Clarence Dierking, Brenham; Don Koepfle, Dalhart; Bob Warner, Denison; Dickie Hopping, Littlefield; Lawrence Kalmus, Wharton.

Guard—Don Miller, Port Neches; Eddie Scheig, Pampa; Kenny Paul, Lamar (Houston).

Covans—Bill Lane, Denison; Donald Terrell, Dalkab.

Ends—Howard Moon, Reagan (Houston); Charles Schriever, Brown Braunfels; Kenneth Harlow, Abington Heights (Fort Worth); Backs—Duane Nutt, Corsicana; Wilson Thompson, Breckenridge; Terry Herrman, Gaines.

## Pampa Clouters Box Shamrock Wednesday

The Pampa Boys Club Inc. boxing team will meet the Shamrock team next Wednesday evening. This is the first bout scheduled between Shamrock and Pampa this year. The high school Pampa for the team trophy at the Amarillo Regional Golden Gloves, 23-21.

Pampa boxers are to report to Coach T. J. Watt at the White building at 7:30 tonight to begin workouts for next Wednesday's battle.

## Fans Have Ref Near Nervous Breakdown

**PITTSBURGH**—(Special)—A top football referee has refused to officiate at the Duquesne-Chicago Loyola game in Pittsburgh's Gardens Monday because of howling, booing fans make life too miserable.

He is Zigmund (Red) Mihalic, reported to be near a nervous breakdown brought on by spectators' taunts.

The red-thatched referee won't comment on his troubles. But Basketball Commissioner Dave Fawcett said the situation is serious and Mihalic isn't the only official shying away from Gardens assignments.

## Cage Tournney Time Is One Month Away

**NEW YORK**—(Special)—Now comes the time when the thoughts of many basketball coaches wander to the coming of spring, and not necessarily for the usual reason.

Spring to the coach means tournament time.

The pressure increases and performances from now to the middle of March will determine which teams are invited to the NCAA and National Invitation Tournaments, and the NAIB for smaller colleges.

Several major fives have important tests coming up this weekend. Tonight's games include:

Bradley (18-3) at San Francisco. Rated the best team in the country last month and now just another also-ran, Bradley could boost its comeback chances by whipping San Francisco tonight and Stanford tomorrow night.

Kentucky (16-1), the country's No. 1 five, at Mississippi State. Southern California (13-2), Pacific Coast Southern leader, vs. Santa Clara.

Brigham Young (16-4), Skyline Conference leader, at Utah State.

Idaho at Oregon (12-7) Pacific Coast Northern leader.

West Texas State at Arizona (15-3) Border Conference leader.

Missouri (10-5) at Iowa (8-5) in a match of middle-bracket Big Seven and Big Ten teams.

St. John's of Brookline (14-2) vs. St. Francis of Brooklyn.

The league contests are important because champions win automatic invitations to the NCAA Tournament in March. Then, several of the teams listed in independent matches can win bids to the National Invitation Tournament.

Last night's skinny action included Holy Cross at Chicago Loyola 56, Cornell 78 Fordham 76, Siena 63 John Carroll 39, Boston College 65 Tufts 61, West Virginia 88 Washington Lee 70, Wisconsin 60 Butler 55, Hamline 75 Duluth Branch of Minnesota 59, Hardin-Simmons 51 Texas Tech 49 and Stewart Chevrolets 80 Stanford 64.

## Texas Golfers Lead At Tucson Tournney

**TUCSON, Ariz.**—(Special)—Jim Simpson of Fort Worth and Jack Ellis of Tucson paced the amateurs today in the second round of the Tucson Open Golf tournament.

Jim Turnesa, a pro, held the lead at 64, Jack Burke, Jr., of Houston was a stroke back at 65.

It is exactly like the follow-through in golf, which, although the ball is already on its way, grooves the swing, perfects the routine that enables the shot-maker to perform the same feat time after time.

To impart direction in bowling, the right arm is brought

## BOWL LIKE A CHAMP

**AT WORK**—The ball has been released, but Dick Hoover's right hand and arm still have work to do.

**By DICK HOOVER**

World Champion

Send the ball on its way in a low trajectory.

This assures that it will not bounce or scoot crazily when it settles onto the lane.

The forward action of the ball will continue smoothly as it rolls until the hook action takes and turns it onto the desired course.

In the accompanying photograph, the ball has been released, and is in midair preparatory to landing over the foul line on the polished surface.

While the ball has been released, the right hand and arm still have work to do, for the follow-through is an important phase.

It is exactly like the follow-through in golf, which, although the ball is already on its way, grooves the swing, perfects the routine that enables the shot-maker to perform the same feat time after time.

To impart direction in bowling, the right arm is brought up to a direct line between the eye and the pins or pin one is attempting to hit.

Once this procedure has been mastered, the bowler has laid a fine groundwork.

**NEXT:** The follow-through.

## Next Cagers Play Plainview Tonight

Carver High School basketball tangle with the Plainview Negro High School tonight at 8 o'clock tonight in the junior high gym. Carver is tied with Borger for the conference lead.

Carver has been stopped twice this year, once by Borger and Carver of Amarillo turned the trick at Amarillo.

Quebec Bridge Sabotage Denied

THREE RIVERS, Que.—(AP)—
Suggestions that sabotage might have caused the \$3,000,000 Duplessis Highway Bridge to buckle and collapse were denied last night by Mayor J. A. Mongrain.

"No one in Three Rivers believes sabotage had any connection with the disaster," Mayor Mongrain said. "There is nothing to indicate it."

GIs Are Happy With Shower

By WILLIAM C. BARNARD
CENTRAL FRONT, Korea — (AP)—
Next to mail from home, the corporal said, "the most important thing you can get over here is a shower."

He pulled off his boots. His socks were soiled. His feet were dirty and there were dusty rings around his ankles.

Word of the shower unit had been passed around. Trucks and jeeps, some from the front line, unloaded men eager for a bath.

HOUSTON — (AP) — Oilman Glenn McCarthy today paid a record \$17,000 for the grand champion steer of the Houston Fat Stock Show.

The \$20-pound Hereford was exhibited here by Louis Reyes, 15-year-old 4-H Clubber from San Antonio.

The previous record price for the Houston show was \$15,400 paid last year by McCarthy.

Houston stock show officials said McCarthy's grand champion purchases today and last year set new world's records for bids submitted by individuals for a single steer at stock show auctions.

FARM AND RANCH SECTION

FIRST WITH THE TOP O' TEXAS NEWS AND PICTURES

## HBA Show Set Monday, Tuesday

### Show Activities Scheduled For Presentation In Recently Completed \$13,000 Heated Barn

**HBA BUILDING**—The 1951 Top o' Texas Hereford Breeders Assn. show and sale, to be held this coming Monday and Tuesday, will be conducted in this new 6136-foot building at Recreation Park. The building is an all-steel Butler creation and will easily take care of all entries in the show. It was erected by the Link Tschudy company of Amarillo and was completed a short time ago. Members of the HBA bought and paid for the building out of their own pockets and with the aid of interested outsiders. (News Photo and Engraving)

Visitors from all over the Panhandle, many other parts of Texas and from a number of other western and northwestern states will come to Pampa this weekend to attend the seventh annual Top o' Texas Hereford Breeders show and sale, Monday and Tuesday. Included in the two-day show besides the HBA show and sale, will be a junior livestock show and sale and an area-wide FFA judging contest. Hereford breeders, Future Farmers of America and 4-H livestock exhibitors of the Top o' Texas Fat Stock Show will show in a new \$13,000 heated show barn at Recreation Park.

**AUCTIONEER**—Col. Walter Britten, College Station, cuts loose with the auctioneer's chant at the 1950 sale. Col. Britten, who is well known throughout the Southwest as one of the best in the business, will cry the sale at the forthcoming Top o' Texas Hereford Breeders show and sale, Monday and Tuesday. Britten will also be on the stand in connection with the HBA show and sale. (Smith Photo, News Engraving)

**CONSIGNED TO SALE**—Dandy Prince the 17th, sired by A. B. Royal Domino, will be one of the many animals that visitors will see at the Top o' Texas Hereford Breeders Assn. show and sale, Feb. 5-6. The bull, not quite a year old, is owned by Brent Carruth who has a record of grand and reserve champions to his credit. Visitors from all over the Panhandle and from many other sections of the country are expected to attend the two-day show and sale. (Smith Photo, News Engraving)

The show barn will house 46 registered bulls and 11 registered Hereford females. In addition, one part of the barn will be used for showing the animals for judging in both the Junior Fat Calf Show and the Junior Hereford show. The show barn will also house 46 registered bulls and 11 registered Hereford females. In addition, one part of the barn will be used for showing the animals for judging in both the Junior Fat Calf Show and the Junior Hereford show.

Also, Combs & Worley, Pampa; C. J. Frantz, Jr., Waka; W. A. Gray, and Buel Gray, Skellytown; F. J. Hess, McLean; Ralph Hale, Perryton; L. A. Maddox, and Wayne Maddox, Miami; M. C. Overton, Pampa; Bob Newton, Lark; Tommie Potts, Memphis; H. H. Reeves, Shamrock; W. O. Simmons, McLean; Gordon Whitener, Wheeler; and W. K. Spurlin, Allison.

There will be a total of 56 animals in this year's Hereford show, while there were 57 entries in this division last year. In the junior division, there will be 32 beef entries and 55 hogs, while there were 48 calves and 72 pig entries in 1950.

**WHEELER JUDGE**—Ted Alexander, Hemphill County Hereford breeder, judges some of the top animals exhibited at the Wheeler Junior Fat Stock Show, Jan. 26. Alexander, who is one of the prominent members of the Top o' Texas Hereford Breeders Assn., judged 29 animals at the Wheeler show. Many of those same animals will be entered in the Top o' Texas Junior Livestock show and sale, which is being held in connection with the HBA show and sale, Monday and Tuesday. (News Photo and Engraving)

**TROPHIES**—The trophies these two men are holding will go to two outstanding young men in the Top o' Texas Junior Livestock show, next Monday. At left is Leslie Hart, president of the Pampa Kiwanis Club, holding the trophy which will be presented to the first place winner in the fat calf section. At right, holding the trophy which will be presented to the first place winner in the fat pig section, is Fred Nesingo, president of the Pampa Rotary Club. All the civic clubs in Pampa—Rotary, Kiwanis and Lions—have cooperated in years past in the presentation of trophies to winners in the junior division. This year, as in the past, the Kiwanis Club is sponsoring a banquet for the juniors in the basement of the First Methodist Church at 5:30 p. m., Monday. All the clubs are active in their interest toward 4-H and FFA work. Each maintains an agriculture committee which aids boys in securing animals for their work and gives them assistance and advice in the problems which may often arise. The trophies were presented last year to Vernon Turner of McLean for the Grand Champion steer and to Wayne Scales, McLean FFA, for the Grand Champion pig. Turner sold his animal to the Lynn Boyd Lumber Co. at \$1.65 per pound. Scales showed his pig, Nubby, and sold it to Fursley Motor Co. for \$1.50 a pound. Rosettes for reserve champions were presented last year to Frank Parker of Miami, for the steer and to Kenneth Scales, McLean, for Corky, the Reserve Champion pig. The steer was purchased by Jack Osborn and Wylie Reynolds, local ranchers, at 85 cents per pound. The pig sold to Ideal Food Stores. Competition is expected to be stiff again this year and only through hard work and great care will the boys turn out the best animals possible. (News Photo and Engraving)

Gray County 4-H boys having livestock entries include Franklin Nace, Ruben and Vernon Baggett, and a dance team from German, Grandview Community; John Lloyd and Dayne Carruth, will present a program. Roy Snyder, judge of the show, is scheduled to give a brief talk to Harris, Jimmy and Joe Keel, Kingsmill; Christal Lowe, northeast of Pampa.

The board of directors is composed of A. B. Carruth, Clyde Gilbert, H. H. Reeves, F. A. Hess, R. M. Juillard, Clyde Carruth, Alex Gray, Wayne Maddox, Dr. M. C. Overton, Ted Alexander, Gordon Whitener, Frank M. Carter and R. R. Thomas.

McLean FFA boys having entries include Junior Brooks, Carl

The average of the first sale was about \$298. The average increased through the years until, in 1950, it reached \$498, an increase of \$200. The first officers of that organization were A. B. Carruth, Pampa, president; L. A. Maddox, Pampa, secretary.

**ASSISTANT SUPER**—To Ralph Thomas, Gray County agent, goes the credit for taking entries in the Junior Livestock Show and Hereford Breeders show and sale, Monday and Tuesday. Thomas supervised the layout of the sale catalogue and handled details for the printing and publication of it. Through his work as county agent and his close association with both the junior breeders and members of the HBA, Thomas has proved to be one of the most valuable workers on the event. He is assistant superintendent of the junior show and has worked with the superintendent, Clyde Carruth. (News Engraving)

**1950 CHAMP**—Bob Domino the 56th, herd bull of A. B. Carruth, was Grand Champion of the 1950 Hereford Breeders show. Carruth, first president of the HBA, has taken an active part in show activities and is one of the charter members of the organization. It is animals like this that make the annual HBA show and sale one of the top events in the Panhandle. Although Bob Domino the 56th is not entered in this year's show, there will be many of his caliber that will show next Monday and Tuesday. (Smith Photo, News Engraving)

# Shamrock FFA Boys Make Near Record Killing Hogs

By GEORGE BUEBIS News Correspondent SHAMROCK (Special) — Howard Weatherly's FFA boys at Shamrock High School have set a near record for the butchering of hogs recently. The Future Farmers have such, scalded, scraped and hung up carcasses in such terrific numbers as seven minutes, 51 seconds. Even a first, 660-pound hog they butched took only 14 minutes from scalding to the table.

Some of the backing teams are spreader than others, but none of them could be called slow. After the first day they had to butchering the hogs upright in an average of 11 minutes. Four boys are assigned to the butchering team. The boys butcher for area fairs, charging \$1 per hog and 300 pounds, \$2 per hog more. The experience is a big one for them.

Weatherly, head of the Shamrock vocational agriculture department since 1937, has brought a punch into the training in Shamrock schools and vicinity. The Shamrock FFA boys are not interested in hogs. They have all sorts in such and crop projects. Some of the boys are going in for dairy farming, Mack and Tom Christian, brothers, are following in their father's foot steps. Father Christian owns a dairy farm. Tom has a registered heifer to start his herd. He's having some of crop farming.

Ernie Shimrock boys are in on this registered heifer project, which Weatherly explains by stating that the Shamrock Chapter of Commerce, brought Jersey heifers from a blooded line in Canada, gave them to the boys. Not all the boys have to give a heifer to another boy when those heifers reproduce. Last fall the vocational ag boys had a booth at the State - Line fair in Shamrock. It attracted so much attention that they were about invited to reproduce it at the

# Gully Erosion Enemy Of Soil

Of the many enemies of our soil, gully erosion is one of the most dangerous. The world's production of food and fiber products are produced from a thin layer of topsoil which covers the land at an average depth of seven inches. Due to the fact that less than half of the earth's soil is suitable for cultivation, the drastic need for conserving this thin layer is ever present.

The cure for gully erosion is in prevention. On any piece of land there is always a certain amount of water runoff. On extremely flat land, runoff can be retarded by farming on the contour, but on land of steeper slopes it is necessary to walk the water off with a field diversion or terrace system. Often it is impossible to find a suitable outlet to dump the water carried by the diversion or terraces and it is then necessary to establish a sodded waterway to fulfill this purpose.

Once the gullies have formed the cure is a somewhat different proposition. Gullies cannot be plowed out and erosion stopped. The depression in the land is still there and the runoff water will take the same route across the field as before. Each rain will deepen the depression more until the field is criss - crossed with uncrossable gullies. Much land has been damaged by gully erosion to the extent that the topsoil is gone and cultivation is no longer feasible. This land should be returned to permanent type of vegetation.

In many cases, it will be necessary to construct check dams and gully plugs to retard further erosion and give the gullies a chance to heal over with range type vegetation.

Land owners get little return from the topsoil which has settled in the Gulf of Mexico. Information and assistance in establishing soil conservation practices can be obtained from the U. S. Department of Agriculture, Soil Conservation Service, in cooperation with the Gray County Soil Conservation District, located on the third floor of the court house here in Pampa.

land, Canada and the United States since 1914. When he came here from England in 1923, he had travelled only 80,000 miles, but has made up for it since then. Trips to South Carolina, Quebec City and the Adirondacks added to his score. His favorite pedalling grounds still are in Ontario, however.

# Staked Plains Seeks Two Gandy Spreaders

PANHANDLE — D. W. Osborne, chairman of the Staked Plains Soil Conservation district, has instructed the secretary-treasurer of the board, Herbert Hunt, to attempt to locate two Gandy spreaders. This order is the result of action taken during the last monthly meeting of the board, Jan. 12.

The spreaders will be used primarily for the spreading of dry materials used in weed control. However, the same equipment will be available for the spreading of commercial fertilizers. The equipment will be rented to farmers and ranchers in Armstrong and Carson Counties for a small fee. Charges must be made in order to keep the equipment in good repair. Plans are to house one spreader at Panhandle and the second one at Claude. Arrangements to use the spreaders can be made in the same manner as for the grass drill and stubble mulch equipment.

It is believed and hoped that more men will spread weed killers with this equipment than they would with the old method. Loges Hamilton of the Texas Experiment Station, Bushland, used the same kind of equipment in establishing the weed control plots at Lee Switch, and at Claude.

Carson County livestock men have expressed considerable interest in the mixing of salt with cottonseed meal to be given self-fed to cattle. Some have reported excellent results while others have reported only fair results. Authorities on cattle feeding are not in agreement in their recommendations about this practice which is aimed at reducing the amount of labor normally required for feeding supplements to range cattle. It is reported to be growing in popularity.

Cattlemen in all parts of Texas have been attempting to secure all information possible on the subject. To give assistance in the matter, the Texas Agricultural Experiment Station at College Station, conducted an experiment during the winter of 1949-50, to compare the results of hand feeding two pounds of cottonseed meal daily with self-feeding a mixture of salt and cottonseed meal.

Thirty - five Angus, Hereford and shorthorn cows were used in the test. They were divided into two groups as near alike as possible with respect to age, breed, weight and expected date of calving. They were put on two 200-acre Brazos County upland pastures with an abundance of dry winter forage available.

One group of 18 cows was hand-fed two pounds of cottonseed meal per head, daily, in feed bunks. The other group, consisting of 17 cows, was given free access to a mixture ranging from 15 to 35 percent salt and 65 to 85 percent cottonseed meal. Water was available from a stream about a quarter of a mile from the feeding station.

In order to limit the daily consumption of the cottonseed meal to about two pounds, the salt content of the mixture was increased as the cows consumed more food. As feed consumption dropped off, the salt content was reduced.

The self-fed group consumed an average of 2.19 pounds of cottonseed meal and .95 pounds of salt per day over the 177 - day test period. The hand-fed group received two pounds of cottonseed meal per day over the period.

Thirteen calves were dropped in the self-fed group and 12 in the hand-fed group. Calves from the former group averaged 162 pounds when 79 days old, while the hand-fed group calves averaged 164 pounds at 88 days.

Five cows of the self-fed group scoured periodically. One cow started scouring July 16 and was too weak to weigh Jan. 27. It died Feb. 6. No scouring was observed in cows of the hand-fed lot.

Beef cattle specialists at the station concluded from this experiment that self-feeding mixtures of salt and cottonseed meal may cause scouring and death losses of breeding cows when the salt intake is one to one and one-half pounds per day and the pasture and water conditions are similar to those existing in this trial.

# Carson Reports Cats Being Exterminated By Infection

SHOW SUPERINTENDENT — Clyde Carruth, superintendent of the Junior Livestock show of the Top o' Texas Fat Stock Show, Monday and Tuesday, was largely responsible for the speedy erection of the new \$12,000 HBA show building at Recreation Park. He is a member of the board of directors of the HBA and has spent much of his time helping with the completion of the new barn.

PANHANDLE — Extension agents in Carson County have agreed that a disease which is killing off a number of cats in that county is, from all indications, "Feline Enteritis." Most of the cats that have died made their way killing rats and mice. The disease can affect house cats too, if they come in contact with the virus.

This disease is commonly called feline distemper or gastroenteritis, and is the counterpart of distemper of dogs. It is an acute, infectious, highly contagious disease and usually affects young cats most. Quite often it occurs in an epidemic form, affecting and rapidly decreasing the entire young cat population. It is believed that such a process is taking place in Carson County at this time.

Symptoms are variable, but those most characteristic are high fever, loss of appetite, a marked decrease of white blood cells, rapid loss of flesh, great depression, diarrhea, vomiting, acute inflammation of the intestinal tract and sometimes a discharge from the eyes and nose. Affected cats may assume a peculiar resting position, lying flat on the abdomen with head lowered, forelegs stretched laterally and hind legs stretched out. This is due to an extreme soreness of the coat is one of the first symptoms to be observed.

Natural infection of the virus may occur by direct contact of living animals with the diseased or by exposure to contaminated quarters, bedding or utensils. It has been proved that fleas harbor the virus and evidence has been presented that fleas play an important role in the spread of the disease.

A serum may be injected into susceptible cats to furnish immunization for a limited time. If treatment with serum is commenced in the early stages of the disease before the temperature begins to drop, a large percentage of cases will probably be saved and/or prevented. No specific medicinal treatment for this disease of our traditional rat-killers has been found, as yet.

Due to the wildness of cats who spend a greater part of their time chasing mice in barns and other outbuildings, many of them contract the disease and die before they can be treated. Farmers and ranchers, not only in Carson County, but in surrounding counties as well, should be on the lookout for cats that show signs of sluggishness and other indications mentioned above. Such cats are probably sick and should be destroyed. If they are found early enough, immunization may be used.

This is a specific disease and will not spread to other livestock, according to experts.

Fertilizer Analysis Should Be Checked — Farmers should buy their fertilizer on the basis of cost per pound of plant food, experts say. The analysis of the fertilizer is required by law to be on a tag attached to the bag.

If the analysis reads 4-12-8, this means there are four pounds of nitrogen, 12 pounds of phosphoric acid and eight pounds of potash, a total of 24 pounds of plant food, in a 100 - pound sack of 4-12-8 fertilizer.

The fertilizer is considered low grade if the figures in the analysis add up to less than 20. Usually, the lower the analysis, the higher the cost per pound of plant food. Farmers are advised to compare the prices of mixed fertilizers which have the same ration, such as 5-10-5 and 10-20-10, and figure the costs per pound of plant food. Farmers are also advised by the experts to purchase their fertilizers early, in order to assure themselves of an adequate supply when they need it.

MIAMI JUDGE — Quentin Williams, above, was head judge at the Miami Junior Livestock Show, Saturday, Jan. 27. Williams has been one of the outstanding supporters of junior livestock activities in the past. The animals which he judged are to be entered in the Top o' Texas Junior Livestock Show, Monday. (Smith Photo, News Engraving)

Former Threshes His Grain; No Combine — SHELLBROOK, Sask. — (AP) — Alex Pearson of Merchant Grove is getting better wheat grades than neighboring farmers. He says it's because he threshes his grain instead of using a combine. When frost came he lighted straw piles and the warm smoke protected his grain from damage.

Singapore Police Nix Private Cops SINGAPORE — (AP) — Singapore police said they will not permit gun-packing "shadows" for wealthy citizens. Fearing Communist terrorism, many wealthy Chinese and big businessmen have asked the police to permit private armed bodyguards. But the police refused.

FIRST PRESIDENT — A. B. "Gus" Carruth, who lives two miles south and two miles east of Pampa, was the first president of the Top o' Texas Hereford Breeders Assn. Carruth served for two years. The HBA was organized March 18, 1941 and had its first annual sale Feb. 26, 1945. Carruth is now a member of the board of directors of the HBA. Serving with him that first year were L. A. Maddox, vice president; Frank Carter, secretary; and G. T. Hackney, then Gray County agent, treasurer.

Although Nebraska has no coal mines, it is rich in silica, sand, chalk and gravel.

The Management and Personnel of Fisher Panhandle Grain Co., extend a cordial welcome to visitors and participants in the Top o' Texas Hereford Breeders Show and Sale. Now, as always, we invite you to visit our establishment and make this your headquarters during your stay in Pampa. M. M. MOYER, Mgr. Fisher Panhandle Grain Co. 600 S. WEST PHONE 3590

## Alfalfa Hay Proves Better Protein For Wintering Cows

Cottonwood cake, long the standard protein supplement for range cattle, now suffers competition from another feed which has proved its value in tests run at the Oklahoma Agricultural Experiment Station, Stillwater. The tests were made during 1947-48 and have just been released.

This new feed is alfalfa hay fed at the rate of 5.5 pounds per head daily — during the winter months — as compared to 2.5 pounds of cottonseed cake.

Forty cows were divided into two uniform lots of 20 cows each and were handled under identical conditions with the exception of the type of protein supplement fed.

On Nov. 7, 1947, 20 of the cows were started on 2.5 pounds of cottonseed cake daily while the other group of 20 was started on 5.5 pounds of alfalfa hay. Both groups of lots of cattle were on a rangeland of the Stillwater area. These cattle were run on this basis until April 18, 1948.

At the time of calving in March, 1948, the cows fed alfalfa hay gained 59 pounds, as compared to 18 pounds for the cows on cottonseed cake. At the conclusion of the experiment in the fall of 1948, the cows fed cottonseed cake weighed 19 pounds less than the group wintered on alfalfa hay.

The most important financial gain revealed by this experiment was the marked difference in the weight of the calves taken from the cows in the fall of '48. Calves taken from cows that had been wintered on alfalfa hay weighed 506 pounds as compared to calves weighing 463 pounds taken from cows wintered on cottonseed cake.

Another important economical factor was revealed in the cost of wintering the cows. Cost of wintering cows fed alfalfa hay was \$36.24 as compared to \$41.04 for cows fed cottonseed cake. However, at the time of the experiment, cottonseed cake was figured at \$10 a ton, while alfalfa hay figured at \$22 per ton. The margin between the price of the two feeds is somewhat narrower at present.

Labor cost was not figured in the cost of feed. Cottonseed cake is, of course, more conveniently fed to cattle.

The tentative conclusion made by the 1948-49 progress report of the Oklahoma Agriculture Experiment Station states that "the 1947-48 and 1947-48 data indicates that the system of grazing the year round and feeding approximately 5.5 pounds of alfalfa hay during the winter months is the most economical and profitable method of managing a commercial cow herd." With the alfalfa fields of the irrigated South Plains near and around Gray, County ranchers might do well to investigate this new discovery in a protein supplement for cattle.

## Lefors Civic Club Collects \$150 For March Of Dimes

LEFORS — (Special) — The Lefors Junior Art and Civic Club collected \$150 for the March of Dimes from the citizens of Lefors in a drive in which the members went from house to house collecting. They covered the entire town, the Coltejo plant and the carbon black plant. Members that helped in the drive were LaVaughn Fillman, Billie Gatlin, Gloria Casey, Peggy Johnson, Carolyn Hughes, Colleen Dunn, Leta Turner, Letha Jordan, Vera McDonald, Betty Teals and Jeanne Sims.

## Garrison Editor Of WTSC Prairie

Gene Garrison, former sports editor of the Pampa News, has assumed the duties of editor of The Prairie, West Texas State College campus newspaper, for the spring semester. He succeeds Bob Hembree, Sunray senior, who left for the armed forces. Garrison, the son of Mr. and Mrs. Lee Garrison, 429 N. Nelson, has been working as a reporter for the Lubbock Avalanche-Journal.

## SHOW

(Continued from Page 7) Miami, vice president; Frank Carter, Pampa, secretary, and G. T. Hackney, then Gray County agent, treasurer. The board of directors that year included R. T. Alexander, Canadian; Paul Caylor, Pampa; Bill Gray, White Deer; Clyde Gilbert, Clarendon; Ed Carr, Pampa; H. H. Reeves, Shamrock, and O. W. Hampton, Pampa. At the first show and sale in 1945, Col. Earl Gartin of Greensburg, Ind., was auctioneer. That year, 39 bulls and 13 females were consigned to the show by 29 members of the association. Reeves had the grand champion bull, both in 1945 and in the following year.

Other presidents of the organization include L. A. Maddox, Frank Carter and the present head, Cliff Vincent. All these above men served two years in office except Vincent, who is concluding his first year. Salary of the President of the United States is \$100,000 a year, with a \$50,000 tax-free expense allowance.

The earth averages about 40 persons for every square mile of dry land.

It's against the law to sell pickles in Connecticut unless they bounce.

## Wagon Tracks

By ROBIN TIBBETS  
Farm Editor

Well, here it is, my first full six-page section of area-wide farm news. I hope you like it. Keeping up with all the farmers in the area designated to me is something of a job, but it is a pleasant one.

Take for example, along about Jan. 14, I made a little trip down to Shamrock. While I was there, I drove out to the modern farm home of Mr. and Mrs. Mill Williams. Whether you know it or not, Mr. and Mrs. Williams are the parents of Miss Joy Williams, the assistant home demonstration agent here in Gray County. I met Harold Williams and his wife and all the kids and had a very nice Sunday dinner featuring roast beef and all the trimmings. It was a swell.

You remember that it was that day when all the snow fell in this country. The first real snow, anyway. That country down there is sandy and the soil really absorbed the water. All the snow was gone by late Sunday afternoon. They didn't get as much as we did here in Pampa, though.

The country down there looks pretty good to me. I like the plains, but I like rolling hills too. Mill Williams can tell some pretty good tales, especially about the buffalo that are to be found in a place just about eight miles from his house. Just get him started sometime.

I asked Mill and son Harold if their wheat had any roots, and to my surprise, they said it did. You fellows here on the plains should go down and take a look. Harold tells me it was the best plowing that put roots on his. Maybe that's something worth looking in to.

Granger McIlhenny is at it again. Our state representative from Wheeler is doing his best to get a Texas A&M experiment station in this part of the country. If he has the same luck the last time he tried, we still won't have one. It definitely isn't McIlhenny's fault, the fact is that it takes more than just one or two men to get something like that over. Maybe if you farmers and ranchers in this district would write to Granger at Austin, you might give him the confidence and push that he needs to get this thing over. Of course, if you don't want an experiment station, then you'd better let him know that, too.

This proposed experiment station would be located in one of the following counties: Wheeler, Collingsworth, Donley, Gray, Childress, Hall, Motley or Cottle.

I think most of you will enjoy the story about the experiment carried on in Oklahoma in which a comparison is made between cottonseed cake and alfalfa hay. Foster Whaley, assistant county agent, gave me the information for that. All I did was write it down.

If you haven't heard Ralph Thomas' new radio program, tune in to KPDM, Monday, and give a listen. I think it comes on at 6:30 a.m. and from what I have been hearing a lot of people tune in, regardless of the early hour. Thomas doesn't have to get up early though. He goes out nearly every day and interviews people, using his tape recorder, and then plays it back over the radio. Simple? Amen. Who knows? You might hear yourself on his program.

I just couldn't resist using this one. It comes from The Grass Roots Digest, which is printed at Columbia, Mo., and originally appeared in the Batesville, Ark., Daily Guard.

The story is told of an editor who, just before press time, spilled the type of two articles, one concerning a public sale and the other a wedding story. He asked the printer, whom he had just hired, to put the articles in-type back together. The employees obliged, but the editor didn't know of the mix-up until an angry preacher and the mother of the bride appeared on the scene. Here are the two articles as printed:

"William Smith and Miss Lucy Anderson were disposed of at public auction at my barn one mile east of a beautiful cluster of roses on her shoulder and two white calves, before a background of farm implements too numerous to mention in the presence of about 70 guests, including two milk cows, six mules and one bob sled." "Rev. Jackson tied the nuptial knot with 200 feet of hay rope and the bridal couple left on the John Deere gang plow for an extended trip with terms to suit purchasers. "They will be at home to their friends with one good baby buggy and a few kitchen utensils to responsible parties and some 50 chickens."

I guess everyone is looking forward to the big Hereford Breeder show this coming Monday and Tuesday, and, from what I hear, it is going to be a good one. I hope you will take a look through the paper, here and read some of the stories I have written, with the generous assistance of Foster Whaley, about the participants in this show. If you can't read, look at the pictures, anyway. Congratulations to the Top o' Texas Hereford Breeders Assn. for what I know will be one of the best shows it has ever had in Pampa. Hope to see all of you there Feb. 5 and 6.

## Grass Seeding Will Build Up Worn-Out Land

Before long it will be time to start seeding grasses, say the supervisors of the Gray County Soil Conservation District. Thus far this year some two thousand acres of reseeding has been planned. Most of the acreage making up this figure is found in the fields which have in the past failed to produce field crops in such amount to make them a good investment.

In the past two years, many of these old fields throughout Gray County have been reclaimed by the reseeding of permanent vegetation and are now sound economical units. Land so heavily used and eroded that it will no longer produce crops is now being revived by its original, parent vegetation—Grass.

A big question which arises concerns what grass is best to plant. Just as in any other crop the soil where the reseeding is to be done must be considered. For the sandier types of soil a mixture of Sudan grass, Indian grass, Switch grass, Little Bluestem and Sand Love grass have been very successful in Gray County.

These grasses are native to this country and can be found growing in the better conditioned, native pastures throughout the county. Much success has been obtained in the pure seeding of introduced grasses such as Weeping Love grass and King Ranch Bluestem.

A very promising grass which is to be seeded in the county this spring is Blue Panicum. This is a tall grass and resembles Sudan very closely. It has been proven to be a good range grass by the Mill Iron Ranch near Childress. This large ranching unit has turned back all its cultivated land to Blue Panicum.

To meet the large demand for grass seeding assistance this year, the Gray County Soil Conservation District has purchased two more grass drills. In all, the district owns four drills which are available to farmers cooperating with the district. Any farmer or rancher interested in sowing grass this spring should contact the SCS on the third floor of the court house in Pampa. Samples of all grasses mentioned are in the SCS office and any information concerning seeding can be obtained there.

## Rasco Speaker For Lions Club

WHITE DEER — (Special) — David Rasco, regional news editor of the Amarillo News, who recently returned from Korea, spoke at the Ladies' Night meeting of the local Lions Club, Tuesday evening, in the high school cafeteria.

Rasco said that his chief purpose as a war correspondent in Korea was to look for men from the Panhandle area and, by relating their stories, to show the people back home that they had a stake in the war even though it is being fought in far-off Korea.

Illustrating his point with pictures, the speaker explained that the extremely rugged terrain of the battle area presented a problem of great magnitude to armies accustomed to mechanized warfare. In connection with this, he noted that the advance of the UN armies up the coast was the longest march in history made by ground forces without their own artillery. Artillery support in this case was furnished by the Navy off shore.

The sudden evacuation of Seoul and Inchon was also explained by Rasco by the fact that the harbor at Inchon, although good in many respects, is affected by a tide which varies as much as 30 feet, making it, most of the time, impossible to move large vessels out of the harbor. For fear of entrapment at a time when the tide was low, the troops, therefore, were removed from the area.

Rasco reports that the morale of the American boys, of course, varies with the tide of war, but that they seemed to realize that they are battling a rising tide of communism that threatens their own homes.

## Lefors Club Backs Local Talent Show Staged March 22

LEFORS — (Special) — The Lefors Junior Art and Civic Club is sponsoring an amateur talent show to be given in the Lefors High School auditorium, March 22 at 7:30 p.m. Those who wish to participate in this show should send applications stating their name, address, act and age. Entry fee will be the price of admission. Applications should be sent to Billie Gatlin, Box 704, Lefors. The number of contestants will be limited. Auditions will be held March 6 in the auditorium at 7:30 p.m.

## Bobbye Tucker Is Cast In WTSC Play

Bobbye Tucker, Pampa sophomore at West Texas State College, will appear as Mercedes in the West Texas State presentation of "Ring Around Elizabeth," a three-act play slated for the Branding Iron Theatre on the campus on Feb. 7-8. She is the daughter of Mr. and Mrs. R. W. Tucker, 512 N. Ward.

# Top o' Texas Hereford Breeders Association

**HBA OFFICERS**—Pictured above are the officers and directors of the Top o' Texas Hereford Breeders Assn., with headquarters in Pampa. The men were elected by HBA members at their annual banquet which was held during the 1950 show. Seated, left to right, are A. B. Carruth, director; Cliff Vincent, president; J. P. Callahan, vice president; E. G. Wedgworth, secretary; R. R. Thomas, director.

Directors standing, left to right, are: F. Jake Hess, Frank Carter, Clyde Carruth, H. H. Reeves, Ted Alexander, M. C. Overton, Alex Gray, Gordon Whitener and Wayne Maddox. Not pictured are F. E. Imel, treasurer, and directors R. M. Julliard and Clyde Gilbert. (Smith Photo, News Engraving)

**F. L. MIXER 872**—Although not consigned to the 1951 Top o' Texas Hereford sale, this bull, owned by Alex Born & Sons, Follett, is an example of the type that may be seen at the forthcoming show, next Monday and Tuesday. Born has consigned Texas Royal 8th, calved Dec. 1, 1949, and Texas Larry, calved Feb. 8, 1950, in the Pampa show next week. Born will have a consignment of top show cattle at Perryton, Feb. 18 and at Amarillo, Feb. 28. (News Engraving)

**HEREFORD FARM**—One of the most unique and most outstanding Hereford farms in the Top o' Texas area is this one belonging to Tomle Potts of Memphis. As can be seen in the picture above, Potts has numerous spacious corrals, large, airy barns and adequate facilities for an extensive herd of registered Herefords. Potts' place was one of the many visited last fall by the Top o' Texas Hereford Breeders and their visitors, who toured the area, visiting a large number of farms. (Smith Photo, News Engraving)

**HBA PRESIDENT**—Cliff Vincent, president of the Top o' Texas Hereford Breeders Assn., is shown as he spoke at the 1950 HBA banquet which followed the show and sale. Vincent is serving his first year as president of the organization and has proved to be a capable and efficient leader. (Smith Photo, News Engraving)

**1950 ENTRIES**—Frank Parker, Miami, who had the Reserve Champion steer at the 1950 Junior Livestock Show, shows off both of his entries in the show last year. Parker is one of the more active young stockmen in Roberts County and will be on hand again this year to make a try at the top honors. (Smith Photo, News Engraving)

**ECA Is Boosting Mining Of Silver**

OSLO — (AP) — Norwegian silver production may be increased as the result of research at the government owned Kongsberg silver mines by the ECA technical assistance program. The silver at Kongsberg is contained chiefly in low grade ore, with occasional pockets of nearly pure silver. It is hoped that methods will be found to mine the low grade ore more efficiently so that eventual high grade pockets may be found. The mines now operate at a loss. Live buying, and no shortages of staple items. Sugar supplies, which were described as "tight" about ten miles from Brussels, 10 days ago, have loosened up considerably, one retailer said.

**Belgian Prince Gets \$600,000**

BRUSSELS — (AP) — Twenty-year-old Prince Baudouin, Belgium's Prince Royal, chief of state is to get 30 million Belgian francs a year (\$600,000) from the nation. Part is to be used for maintenance of estates put at his disposal by the Belgian government, such as the royal palace of Brussels. King Leopold was given six million francs (\$10,000) while former Prince Regent Charles and Queen Mother Elisabeth both get four million (\$80,000). A residential estate is also to be given to Prince Charles. It is called Argenteuil near the famous battlefield of Waterloo which was described as "tight" about ten miles from Brussels, 10 days ago, have loosened up considerably, one retailer said.

**Shoppers Claim Government Too Late In Applying Freeze**

(By The Associated Press) Food prices apparently aren't budging an inch up or down following the government freeze of late last week, spokesmen of retailers show. But consumers seem generally unimpressed. Mrs. Helen Lowry, an early-morning New York shopper, offered this typical comment: "The government froze too late. They locked the stable after the horse was stolen. I think the prices are awful, and that they should have been rolled back to at least six months ago." Some food retailers agreed. "The freeze doesn't give the public a break," said Manhattan food store proprietor Alexander Pannas. "Today's prices are higher than the black market prices during World War Two," said a New York beef market owner, there was no hoarding or excess-

John D. Milone. "Then you would pay \$1 for a nice steak while today it would cost you \$1.39." Grocers said their prices were sticking to the levels at which the government froze them last Friday. Items not covered in the freeze also appeared to be holding steady. In Washington, economic stabilization officials indicated roll-backs on some items were forthcoming. In Pittsburgh, checks indicated food prices were holding the line, and that retailers expected no rises in prices of items pegged by the government order for several days at least. Food stores generally reported late. They locked the stable after the horse was stolen. I think the prices are awful, and that they should have been rolled back to at least six months ago." Some food retailers agreed. "The freeze doesn't give the public a break," said Manhattan food store proprietor Alexander Pannas. "Today's prices are higher than the black market prices during World War Two," said a New York beef market owner, there was no hoarding or excess-

**ANOTHER VIEW**—A side view of the Grand Champion bull at the 1950 Top o' Texas Hereford show and sale. The animal was consigned by W. D. Collier, Dallas. The animal was bought by A. B. Carruth, Pampa, for \$775. Collier is shown with Collier, left, and his son, W. D., Jr. (Smith Photo, News Engraving)

By EDWIN J. JORDAN, M.D.

All of the questions published today deal with various kinds of skin troubles. I am sorry that space makes it impossible to answer all of the letters I have received on that subject.

Predetermination

By DAVID BAXTER

A reader who objects to a recent column on the Apostle Paul demands to know whether I agree with the great Christian on predestination and if so, why should anyone be interested in progressive achievement. He calls it "Fatalism" and says the Chinese have been fatalistic for centuries...

I get a kick out of the contradictions the old agnostic Voltaire got himself into in his frantic efforts to ridicule and refute the Bible—particularly the letters of St. Paul. While claiming that Paul perverted the teachings of Jesus and venting his spleen on the great Apostle, I notice that Voltaire, in one of his Diatribes laughs at the idea of man having free will. He says that when a stone is thrown through the air, if it were able to speak it would declare that it was traveling of its own free will and by its own power of choice. Voltaire, a typical smart-aleck, thought he was producing some great original thought when he built up a case for everything being immutably planned to work out the way it does...

Washington... by Peter Edson

By PETER EDSON NEA Washington Correspondent WASHINGTON — (NEA)—Washington is toying with the idea of some form of compulsory savings. It is not being put forward by any responsible government official as something that will have to be done in 1951. But as presented by its advocates, the compulsory savings would be desirable for several reasons. First, they would soak up excess spending power, and so curb inflationary pressures. Second, they might be put into effect in some way that overtime payments would be made in non-cashable, non-transferable savings bonds.

might be translated into some form of social security, which would provide greater old age pensions on retirement. Fifth, cost-of-living wage increases might be made payable in savings bonds. The idea of compulsory savings is not new. It was put forward by the late Lord Keynes, British chancellor of the exchequer, in his proposals on how Britain could finance World War II. The idea was adopted by Britain on the promise that the government would pay back the compulsory savings when the war was over. Corporations were assessed 100 percent excess profits tax. Eighty percent was to be kept by the government, the other 20 percent paid back. Some of these taxes were paid back for plant expansion and reconstruction after the war. But none of the tax was paid back for payment of dividends.

Individuals never got any of their compulsory savings back because they were converted into fiat money pressures did not subsidize age pension funds. The inside in Britain after the war, the government felt it advisable to keep the compulsory savings, rather than put them into the spending stream. The United States also had a little World War II compulsory savings, for corporations. Ten percent of the 95 percent excess profits tax was supposed to be covered by bonds made redeemable at the end of the war. Only a few of the bonds were issued, and Congress saw that they were immediately cashed in at the end of the war, to help avoid the slump everyone felt was coming near.

On individuals during the war. He resisted it, feeling this was not the American way to make people save money, voluntarily. Several proposals for compulsory savings were presented to Congress in the summer of 1945. The victory tax bill. But in all the confusion over the Ruml skip-a-year income tax collection system, the idea never got to first base. The compulsory savings plan is being revived today as something that might help the inflationary situation and solve other economic problems as well. Tax levels can be raised only so much. If taxes get too high, they destroy incentive to produce. The higher taxes are raised, the more desire there is to evade payment and the more difficult enforcement becomes. Under such conditions, some other form of soaking up excess spending power might be desirable. The compulsory savings plan is advocated because it is considered fairer for hardship ships. If the United States must have a \$70 billion budget for the next ten years or so, it will be necessary to dip pretty deep into low-income groups. If their surplus income is taken away in taxes, they get nothing back. If taken away in compulsory savings, they would get something back when they needed it. The objection to any such plan is that everyone would naturally try to get in the hardship class, so as to avoid taxes and benefit by the savings. Another objection is that there is no way of knowing how long the present emergency will last. The time for paying back the compulsory savings might come just when it was most inconvenient for the government. This is exactly the situation with respect to the ten-year war savings plan.

they are furnishing the stones for our totalitarian prison house, and the Communist leaders do, and use the cupidity of individuals, who want something for nothing, to eventually imprison them. "Our greatest danger lies in the totalitarian state that we are permitting to be built up within our own borders by managed economy fanatics, who plan eventually to take us over as they have the Balkan States, Czechoslovakia, China, Northern Korea, and Russia herself. They are getting us, as they are more rapidly getting England, and will accomplish our utter subjugation if we remain in our present confused lethargy. Then for a few centuries freedom and free enterprise will vanish from the earth and the want and the tyranny of managed economy will succeed to the great material benefit of leaders whose most effective weapon is the selfish, but suicidal, making of our own citizens to be tied up and strangle our economy in order to get special privileges for themselves. Our financial ruin is their surest road to power."

performance in the Second World War was pitiable. The disasters of Dunkirk and Singapore were glossed over by the news and turned into heroic episodes. The loss of two major battleships to the aviators of Japan was conveniently and quickly forgotten. The victory of Montgomery at Alamein was in large part due to the timely arrival of American supplies and clinched by the advent of the United States armies. The British contribution to the Battle of Europe was not of first-rate importance. We are copying England. Just the other day the President said that the government would sooner or later determine whether or not a man could change jobs. That is exactly what they are doing in England. The author says: "Today, Englishmen can't change their jobs without government permission; they can't buy or sell the necessities for carrying on their business without obtaining government permission by lengthy correspondence and the filling of many forms." "The Communist leaders know that every privilege granted them up the economy further, disciplines the people to further economic controls and brings nearer the complete economic collapse which, under Communist leadership, will result in their complete economic control. Those who seek privileges for themselves do not see that bonds which start to become due this year. A final argument raised against the plan is that it might not achieve the desired result at all, in that it would soak up no more excess spending power than is going into voluntary savings. Some families might continue their voluntary savings in addition to the compulsory savings. But most families, it is felt, would save only what they were forced to save and spend the rest.

Moreover, he could reduce hunger in other and cheaper ways, if it were not for his embroilment in a boundary dispute with Pakistan that may yet provoke war between India and this country of 100,000,000 people. Nehru has persistently balked efforts at a settlement of his embroilment in Kashmir province. The controversy has made that section of India a happy hunting ground for Red agents and local conspirators. Nehru could have bought plenitude at low prices from Pakistan, which is only 200 miles distant from famine areas. But he aims to break down that possible foe's economy, and is paying high prices in the distant Australian market, despite currency complications. Moreover, although his only offer of reinforcement of the UN forces in Korea consists of 400 bags of jute, he is spending millions to build up an army for the Pakistan war. Meanwhile, forgetting his own past experiences with Hitler and Stalin, he has recognized Red China and become her champion inside and outside the United Nations. HASTE — A sharp and caustic remark by President Truman on the relatively trivial question of his tax-free \$50,000 may benefit millions of less favored taxpayers when Congress gets around to framing a new revenue measure. Unless he meets the growing, popular demand that he subject himself to what he called a "tax bill it hurts" policy, the legislators may not raise the full \$15,000,000,000 or more that he has asked. Answering a press conference query, Mr. Truman said he had not "asked for the money," and that Congress "could ball up the question, if it wanted to." His red and angry countenance showed the resentment. It was immediately recalled that he signed the bill in haste before his 1949 inauguration so that he could benefit from it. The increase would have been outlawed if he had waited until after the inaugural for Congress to enact the bill. The salary of legislative or executive incumbents. Under the proposal, Vice President Barkley and Speaker Rayburn would also pay taxes on their \$10,000 exempt incomes. While Mr. C.'s would have to pay on their own bonus of \$2,500. It is estimated that Mr. Truman would be nicked by about \$7,500 extra, the V.P. and Speaker by \$1,500 and members by about \$850. Thus, this may be one instance in which a Truman flourish, unlike his Marine and music critic letters, may hit him where it hurts.

DISPUTE — Moreover, he could reduce hunger in other and cheaper ways, if it were not for his embroilment in a boundary dispute with Pakistan that may yet provoke war between India and this country of 100,000,000 people. Nehru has persistently balked efforts at a settlement of his embroilment in Kashmir province.
