## Ground Fighting Goes On But Old Gusto Is Lacking

"ALL I WANT FOR CHRISTMAS is a great big truck, some candy and a little bitty horse." That's what Butch Miller, 3, told Santa yesterday afternoon when they met in Pampa. Butch is the son of Mr. and Mrs. Earl Miller, 1120 Garland. (News-P photo)

### Youngsters Tell Santa Their Christmas Hopes

"I think I have been a good girl and would like a big doll, some needles and a record player and some records."

"Love"  
"Patsy Butler"  
"1802 N. Hobart"

"Dear Santa Claus:  
"I want a baby blue eyed doll and a card table and black board."

"With all my love -- I am 9 years old"

"John Roy Howard"  
"807 N. Cuyler"  
"Ph. 4283"

"P. S. and a wrist cinder riller watch"

"Dear Santa:

"I am a little girl 5 years old. I have been told many times that I am a good girl so for Christmas I would like a doll, basinet, typewriter and house steps. My brother, Bob, wants a pool table and monopoly set. We will leave something under the tree for you to eat."

"Love,  
"Susie Harbison"  
"P. S. Please print in The News. Thank you."

"Dear Santa Claus:

"Please bring me a set of scarfs for my dresser and chest of drawers. And a table and four chairs. Please bring me a pair of ballerinas like ballerina girls wear. I wear size 4. I want a pair of gold shoes and silver strings. I am 9 years old. I am in the third grade. My teachers name is Mrs. Jones. Please bring me some little taps for my shoes. Please bring me a record player with 10 records with it. And a colorbook about you and Christmas. And some colors please. And some house shoes with Rudolph and a bell. I live at 532 S. Somerville."

"With lots of love  
"Lola Ann Persons."

"Oh yes, I am going to leave you some wrapping paper and something to eat and a present. Merry Christmas."

"To Dear Santa Claus:

"Please bring me a little piano. And a gold billfold. And a little negra doll. And a real wrist watch. I think you are nice for bringing kids toys. How are you. I am just fine."

"My girl friend said if someone said that they didn't believe in you they wouldn't get anything at all."

"Is that true -- yes or no -- ?"

"Do not forget to get my mother what she wants for Christmas."

"With love  
"Anita Buske."  
"P. S. I live at 533 S. Somerville. Merry Christmas."

"Dear Santa:

"I have been a good boy. I help my mother and my daddy. I am a little boy 8 years old. Would you please bring me a bicycle?"

"Do not forget the other little boy and girl."

C. L. Sackett  
"Star Route 2"

"Dear Santa Claus:

"My name is Karen Lee Copenhaver and I live at 604 N. Gray. I would like for you to bring me a tricycle with a

### Winners Announced In Parade Contest

Holy Souls parish council and the Peter Pan kindergarten entries in the Santa Day Christmas parade Friday, were judged best in their divisions, local chamber of commerce officials announced yesterday.

A manger scene was depicted by the Holy Souls parish and the kindergarten entry showed a snow scene in front of a small house.

Engraved trophies will be presented to the winners.

Other floats ranking high were the Pampa Girl Scouts Assn., Pack 22 Cub Scouts, Girl Scout Troop 28 and the Business and Professional Women's club.

### NPA Officers To Be In Pampa Dec. 5

G. S. King, member of the regional National Production authority, Lubbock, will be in Pampa Wednesday to furnish information on controlled materials to anyone interested.

Wedge, manager of the local chamber of commerce said yesterday.

Anyone wishing to see King may do so at the chamber office.

### U.S. LEADS IN A-POWER

ROME — (AP) — Informed sources said today Western military leaders have estimated the United States lead over Russia in atomic striking power is now about five-to-one.

Still have a few new & used boats in stock. Bert A. Howell & Co., 119 N. Ward, Ph. 152.

QUEEN — Beverly Rogers, sophomore, right, is crowned queen of the annual all-school carnival by Tolle Hutcheson, senior class president, in the Pampa High school auditorium. The yearly event was held in the high school gymnasium prior to crowning of the queen. Other contestants were Betty Kih, Vivian Brake and Harriet Schwartz, seniors; Shirley Olsen, Pat Cargile and Beth Shelton, juniors; and Greta Miller and Norma Qualls, sophomores. (News Photo)

### Polio Mounts In Odessa; Now 55 Cases

ODESSA — (AP) — The 55th polio case of the year was reported in Odessa Saturday night as plans were rushed for a city-wide cleanup drive.

Arthur W. Beck, 25, was the fifth victim of the disease reported Saturday.

The others are Evelyn Fierro, 1; Sherra Bowen, 5; Billy Wilson, 4; and Mrs. Joseph Burnett, 22.

Nine persons have died of polio in Odessa this year.

Odessa merchants, now in the midst of the Christmas shopping season, were asked to close shop Monday as every able bodied man can help in the cleanup. The drive is designed to rid the city of waste paper, trash, weeds, and other possible breeding places for disease carriers.

The annual Santa Claus parade, set for Thursday, has been canceled.

The exodus of persons taking their children to other cities and states continued. Telephone switchboards were swamped with long distance calls.

Although attendance has been dropping steadily, the Odessa schools remained open.

In addition to nine persons under treatment at the Medical Center Hospital here, where four iron lungs have been set up, 33 other Ector county polio patients are being treated at medical centers at Abilene, Big Spring, Dallas, Plainview and San Angelo.

### Highland General Hospital Directors Selected Saturday

Atty. Aaron Sturgeon, Boyd Meador, McLean, and Walter Eller, retired farmer, were named to the board of directors of Highland General hospital late Saturday afternoon by Judge Bruce Parker.

The three men will serve a two-year term, replacing Atty. Arthur Teed, O. G. Stokely, McLean, and A. J. Sparkman, LeRoy, whose terms expired Dec. 1.

Other members of the board, who have one year remaining of their two-year terms are: Tom Rose, Jr., E. J. Dunigan, Jr., and Harvey Nenstiel. County Judge Bruce Parker, is automatically a member of the board in his position as county judge.

The board meets monthly on the second Thursday in the hospital.

### License Examiner Returns To Pampa

Examiner Patrolman Walter Roberts, drivers license division of the Texas Department of Public Safety, will return to duty here Monday morning after a year's absence.

Roberts, who arrived here Saturday morning, was recalled to active duty with the Army on Nov. 3, 1950, and spent nine months in Korea.

On Nov. 5, 1951, Roberts reentered the drivers license examining service and underwent one month of retraining before being reassigned to his old station.

Examining days for Pampa will remain the same — Monday, Friday and Saturday.

### Juvenile Officer Holding The Bag

Juvenile Officer H. A. Doggett yesterday was still holding a purse and sandal slipper turned over to him Friday night during the big Santa Claus rush at city hall.

The little slipper, Doggett said, looked as if it might belong to a two or three-year old child. The purse is red-leather. There was nothing in it when the finder turned it over to Doggett.

ROPING CLUB MEETS  
The Pampa Roping club will convene Monday at 8 p.m. for a membership meeting in the county court room. The new president, H. B. Taylor, Jr., will preside.

### County Tax Office To Get Face-Lifting

At least part of the county tax office will be moving into temporary quarters Monday while the department undergoes a \$4000 face lifting job that will increase its service window space and working room.

Saturday morning county commissioners awarded the remodeling bid to T. J. Owen of Dallas with the Brooks Electrical Co., Pampa, doing the electrical work.

Owen was low bidder of the two considered by the commissioners. The Dallas firm bid the remodeling at \$380 while W. L. Heske and Co., Pampa entered

a bid of \$4668.60. A third bid, entered by Osborne Construction Co., Pampa, was not considered because the company bid at cost plus 10 percent profit and eight percent overhead.

Monday, expensive calculators, and machinery of the department will be moved upstairs to the rear of the county court room. Eventually the entire tax department may have to move there until workmen are finished with the its first floor offices.

Other routine business was transacted by the commissioners including approval of monthly bills and salaries.

### Pampa Serviceman Dies In Accident

Capt. Clyde A. Bray Jr., 28, U.S. Air Force and a former teller for the Citizens Bank and Trust Co., was fatally injured in a truck-crash near Stratford early Saturday morning.

Capt. Bray was enroute to Pampa from Great Falls, Mont., where he had been undergoing C-54 flight training, to visit his wife, Thelma and twin sons, Rodney and Ronny, when the accident occurred.

Sheriff Rufe Jordan Saturday morning quoted Sheriff A. L. Wilson of Sherman county, who investigated the wreck, as reporting Capt. Bray had hit the rear end of a large truck and semi-trailer, 10 miles south of Stratford about 7 a.m.

TAKEN TO DUMAS  
The injured man was taken to Dumas Memorial hospital where he died at 8:30 a.m. from what his doctor described as "severe head injuries."

He was first believed to have suffered chest injuries too, but none could be found by the examining physicians. His attending doctor said Capt. Bray had been pinned between the steering wheel and front seat, but was breathing normally when brought to the hospital.

A veteran of World War II, Capt. Bray flew four-engine bombers and came through unscathed. He was one of the first Pampans in the Air Force reserve to be recalled to active duty and left his teller's job in Feb., 1951, to undergo retraining with C-54 transports.

NATIVE OF MULESHOE  
A native of Muleshoe and a graduate of Muleshoe High school, Capt. Bray came to Pampa several years ago and worked for several years with the Osborne Service station, owned by

Capt. Clyde A. Bray

Vernon Osborne, his father-in-law. In 1949 he went to work with the Citizens bank as a note teller and began training for an assistant cashier's job. He left the bank when he was recalled to active duty.

Known survivors besides his wife and children are his parents, Mr. and Mrs. Clyde A. Bray, Sr., of Muleshoe.

Funeral arrangements were not known by press time Saturday.

Boys to sell Pampa News on street. Hustlers can make money. Inquire Circ. Dept. 4 to 5 afternoons.

Duck Hunting at Lake McClellan on Sundays, Wednesdays and all holidays.

### Bomb Carriers Off To Secret Destination

FORT WORTH — (AP) — Six bombers from Carswell Air Force base apparently were thundering over the Atlantic last night on a non-stop flight to an undisclosed United States base in the Mediterranean area.

The sky giants, part of the strategic air command, took off at 6 a.m. (CST) on their first mission to the Mediterranean area.

Eighth Air Force headquarters announced the big planes built to carry the atom bomb were to land about dawn today and their destination probably will be given as soon as all are safe on the ground. They are expected to return to Carswell "within the next few days."

"Certain training exercises" will be carried out en route, the Air Force said.

Commanding the flights was Col. Thomas P. Gerrity of Chicago.

Piloting one of the planes is Lt. Col. Paul R. Paskvan of McCook, Ill., one of three airmen who rode a B-36 down safely on crippled landing gear Monday.

Other pilots on the flight are: Maj. Alexander L. McClung of Hinton, W. Va.; Capt. Marvin E. Carver of Durham, N. C.; Maj. Russell M. McKinney of San Antonio; Capt. Edward C. Barrett of Woodland, N. C.; and Maj. Grayson F. Bowers, Jr., of Frederick, Md.

If it comes from a hdwe. store we have it. Lewis Hdwe. Ph. 1312

### Governor Shoots His Quail Limit On 1st Day

It took only an hour and a half early Saturday morning for Gov. Allan Shivers to get his day's limit of 12 quail.

The governor, shooting on the Gene Howe ranch near Canadian, spent the opening day of the Texas quail season in the Panhandle after passing through Pampa Friday night.

According to Howe, member of the state game commission, Gov. Shivers fared better than other members of the party. The birds, as in other parts of the Panhandle, were plentiful on Howe's Big Bull ranch.

GOOD SHOT  
"Not all of us shoot as well as the governor," said Howe. "Everyone got the opportunity to get his limit." Howe said, "but

### Hope For Cease-Fire Slows War

SEOUL, Korea — (AP) — Communist MIG-15 jets Saturday shot down three Australian Meteor jets in a flashing air battle over North Korea in which two MIGs were destroyed, U. S. Fifth Air Force said today.

Earlier reports had said only that the Meteors destroyed two of the speedy Red planes and damaged three others.

Fifth Air Force made no mention of the fate of the Australian pilots.

The sky battles furnished the only action in an otherwise quiet war.

Indicative of the ground situation was Saturday night dispatch filed from the western front by AP correspondent Milo Farnoff:

"Not a single (U. S.) Third Division soldier died in battle Thursday or Friday, an Allied officer said last night."

"All along the Eighth Army front, the Allies and Communists lightly today with artillery, small attacks and probes."

"There were no ground clashes on the Western front, and divisions on the Eastern and Central fronts reported only seven brief contacts this morning."

"The Allied officer said the Chinese fired only 81 rounds of artillery and mortar at the Third Division ending at 8 o'clock tonight." (Saturday).

The cold, wintry 145-mile front has been virtually idle ever since truce negotiators at Panmunjom approved a cease-fire line to become effective if an armistice is signed by Dec. 31, regardless of what battle changes occur in the meantime.

just didn't get the birds. Shivers had a good word for his hunting dog, Princess, loaned to him by Howe.

"She's a wonderful dog," said the governor.

Saturday afternoon, the party was scheduled to go duck hunting. The governor was shooting Saturday morning with a 30 gauge automatic shotgun.

CAREFUL  
Gov. Shivers made no political predictions when he arrived here unexpectedly Friday afternoon on his way to Howe's ranch.

He didn't make any predictions because the newsmen and radio-men surrounding him declined by gentlemen's agreement, to ask any political questions.

The governor is on vacation and all of the questions pertained to football, hunting and fishing.

Gov. Shivers flew here from Austin in Shamrock Oil Co. plane where he was met by former Amarillo Mayor Lawrence Hagy at Pampa Municipal Airport. Hagy was accompanied by Harold Dunn, of the oil company.

After submitting to several tape cuttings for Pampa and Amarillo radio stations, the governor transferred to an automobile for the last leg of his journey to the Big Bull ranch.

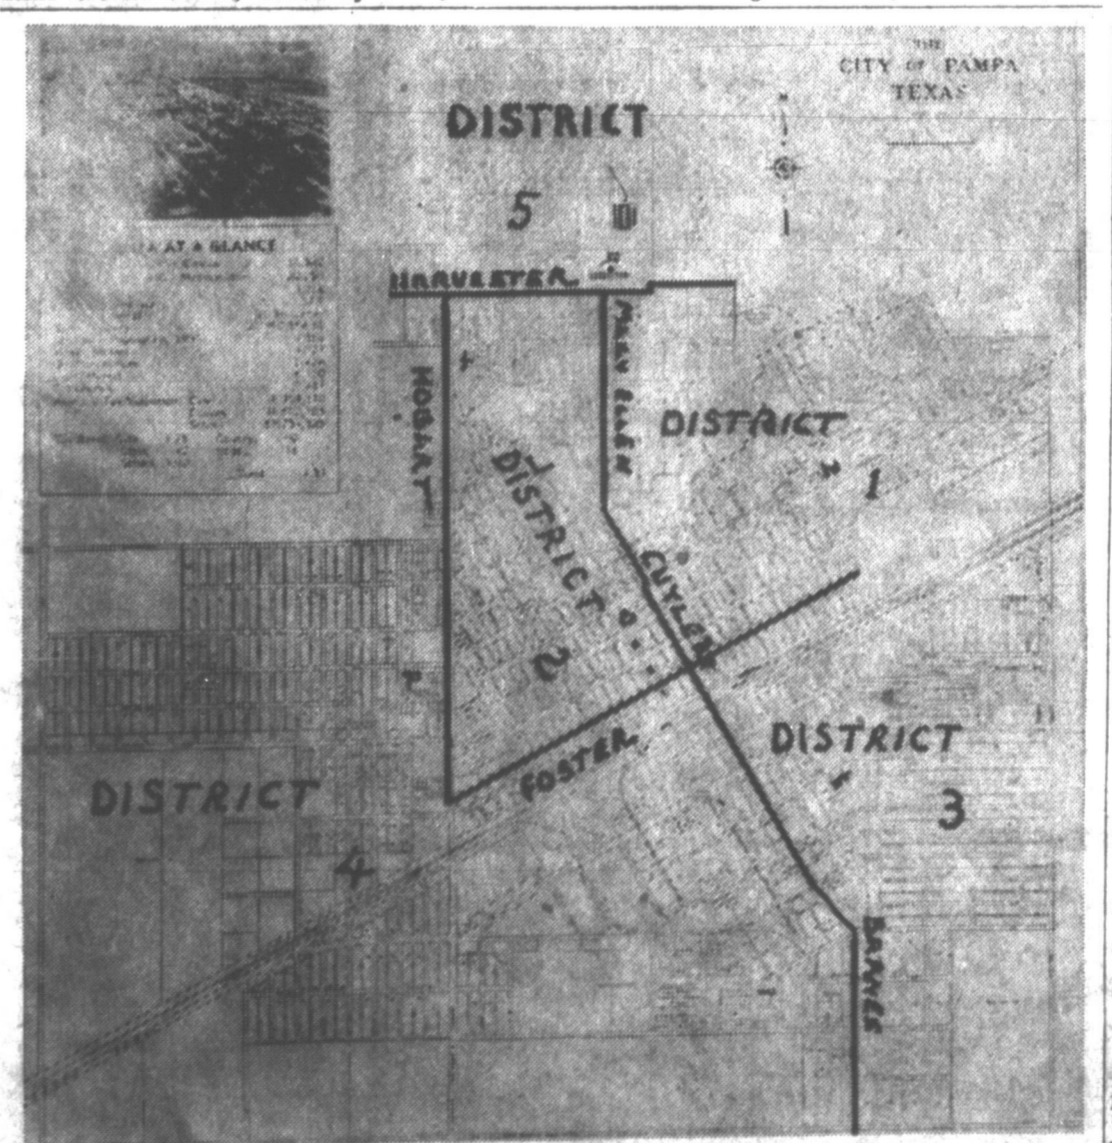

"We're going to be extra careful on our limit since we're going hunting with a member of the State Game commission we hit something," the governor (Gene Howe) but I do know we'll bang away more often than said as he walked leisurely about the airfield.

Accompanying him on the flight from Austin were Wes Lezard, editor of the Amarillo News; Maurice Acres, and Garland Smith, attached to the governor's office.

Only two local people appeared at the airfield to greet the governor, Atty. Sherman White and Clifford Bray.

TEXAS YOUTH KILLED  
AMARILLO — (AP) — A youth who withdrew from Texas Tech Friday to enter the Navy was killed and a Marine sergeant was injured Saturday in a head-on collision near Stratford.

Paul Ray Semard, 21, Clarendon, was killed.

DECORATING PLAN — The map of Pampa is marked off in sections showing residents in which division various homes will be entered in Christmas home decorating contest. By this year's plan every home in Pampa is automatically entered in the Christmas home decorating contest.

M., attended the funeral services here Friday for T. H. Chaffin.

### Three Fined \$22 In Court Saturday

Three people were fined a total of \$22 yesterday in corporation court for traffic violations. Robert L. Lewis paid a \$15 fine for driving on the wrong side of the road. Mrs. Otis T. Cooper was fined \$5 for driving without an operators license and Russell Vernon was assessed \$2 for running a stop sign. Police also were holding in jail for further investigation a man accused of intoxication.

### Cabot To Present Sunday Radio Show

The second in a series of 30-minute broadcasts explaining operations of various departments of the Cabot Carbon Co. will be presented over radio station KPND tomorrow at 8:05 p.m. Thirteen employees of the safety department will explain what the section has done for Cabot workers.

Soldiers back from New Guinea report having seen tribes of wild women without tongues. No wonder they were wild!

You can bet a dollar to a doughnut today without giving such big odds.

## Junior Class To Present Play In HS Auditorium Dec. 3, 4

"Arsenic and Old Lace," a three-act comedy, will be presented Dec. 3 and 4 in the Pampa High school auditorium by the Junior class. Cast includes Rochelle Smith, Marlene Leder, Sally Cobb, Carol McClelland, Neil Jolly, Reggie Mayo, Don Nelson, Herman Van Sickle, Ann Jordan, Jerry Bray, Buddy Epperson, Billy Wittrow, Joe Key, Leroy Ellis and Robert Kelley. Miss Billie Hutchins, speech department head, is director. Student director is Carol McCune and stage manager, John Allford. Members of the stage crew are Bobby Becker, Walter Colwell, Robert Kelly, Janet Weathered and Johnny Willis. Prop committee is headed by Jerry Bray assisted by Ann Oulter, Gloria Faye Coombes, Connie Kelly, Charlotte Hendricks, Paul Simmons and Leroy Ellis. Other assistants are Shirley Olsen, Adelaide Williams, Doris King, Dick Standefer, Byron Byars, Nibia Morrison, Marvin Beer and Gail Finkelstein. The play was written by Joseph Kesselring and first produced on Broadway in 1941. The story is built around two old maids whose favorite pastime is helping lonely old men escape from life.

## Satellites Of Russia Increase Arms

ROME — (AP) — Russia may not have increased her own armed forces lately, but the armies of her satellites are growing by leaps and bounds, Western intelligence sources report. One informant for a western power, which keeps close tabs on the iron curtain nations, says Red Bulgaria has built up a tough army of between 160,000 and 180,000 men spearheaded by some 800 tanks. That would be three times the 55,000 - man army limit set by Bulgaria's peace treaty with the Allies after World War II. The Bulgarian air force also has been converted to MIG-15 jets, the fighter plane which has proved so effective in Korea, the informant said. Army morale in Bulgaria is high, he declared, since soldiers and their families get special privileges. The rest of the country's 7,000,000 inhabitants are becoming restless under the Communist yoke, however, he added. This same informant said starving little Albania now in the throes of a depression, has managed to build up an armed force of between 60,000 and 80,000 men. He reported that Albania lacks Bulgaria's tanks and heavier armament, but the army is tough, well - trained and in good spirits. Here again troops are accorded special favors not granted the rest of Albania's 1,150,000 people.

## Worthless Check Draws Jail Term \$144 Damage In Auto Accident

A California man Friday was sentenced to 60 days in jail by Judge, on a charge of swindling with a worthless check. The man gave his name as Edgar M. Dyer, who earlier admitted passing a worthless check to Calvin Follis, 830 S. Schneider, Aug. 10. Prior to passing the check he had been visiting relatives here.

Damage in an accident at 11 a. m. yesterday involving two vehicles in the 100 block of S. Russell was estimated by police at \$144.

Involved were William J. 1304 N. Starkweather, arrested O. Smith, 117 E. T. Officers said the accident occurred when the car in which Ladd was driving was in collision with Smith's vehicle, which was being driven from a parking place. No arrests were made.

## Presbyterians Expect Large Group For 25th Anniversary

Presbyterian church representatives from all over the Pampa area are expected to attend the 25th anniversary of the First Presbyterian church here today.

The memorial and dedication service, commemorating the founding of the church, will begin at 3 p. m. Rev. W. M. Baker will be in charge of the program, and will give a history of the church.

Rev. John Sharp of Canyon will conduct the memorial service and a male quartet composed of W. S. Dixon, James McCune, Gerald Adams and Cameron Marsh will sing.

Dr. Douglas E. Nelson has been minister of the church since February, 1948. The present church at Gray and Montagu was constructed in 1940, 14 years after the first church was established here with 75 charter members.

Among the charter members was Mrs. I. N. White, who celebrated her 90th birthday the day the Presbyterian group held its first meeting in the building now occupied by Duenkel - Carmichael. Mrs. White had three daughters who are charter members, Mrs. F. C. Ledrick, Mrs. Dave Pope and Mrs. J. E. Corson, who now lives in Amarillo.

Mrs. Pope and Mrs. Ledrick still attend services here, and will assist other charter members in the reception to be held from 4 to 6 p. m. in the education building. The following women will serve: Meses, John Andrews, Tom Clayton, Clinton

Henry, E. M. McKinlin, G. H. Reber, M. C. Vincent and Clyde Fatheree.

The public is invited to the services.

## Laketon Elevator Sale Announced

MIAMI — (Special) — Wallace L. Locke and Bill Tolbert announced this week they have bought the Laketon Wheat Grower's elevator here.

Formerly owned by the Coffee-Davis Grain Co., the building was purchased by the Laketon organization Sept. 15. It has a 17,000-bushel capacity, and will be managed by Clinton Hayes, Locke and Tolbert own the Miami Feed and Supply and have extensive ranching and farming interests in this area.

They said the elevator is open for grain storage on either a cash or loan basis.

## Men's Club Plans Ladies Night Event

MIAMI — (Special) — The Miami Men's Service club will hold an annual ladies night meeting Tuesday at 7 p. m. in the Methodist church Fellowship hall.

The meeting, held in December of each year, is the highlight of the annual program and is the only one to which women are invited.

Lt. George A. McBride of the Public Information office, Amarillo Army Air base, will be guest speaker. He will discuss the newest experiments with jet propulsion engines and will show motion pictures.

Musical entertainment will be furnished by local talent, Jim Reeves, club president, announced.

## Senior Play Set

MIAMI — (Special) — Date for the high school senior play has been set for Dec. 13 in the school auditorium.

Seniors have chosen a comedy, "Mother is a Freshman," and have been practicing on it for some time. The speech class is assisting in planning and building sets for the stage.

## Federal Office Studies Negro Military Instruction Problem

WASHINGTON — (AP) — The Federal Office of Education is studying what to do about providing military instruction at Negro land grant colleges in the South.

The question arose after a ruling by the agency's legal department that present law requires military instruction at these schools if they are to receive federal funds.

The agency now is making a study by state survey to determine what can be done.

Dr. John Dale Russell, assistant commissioner for higher education, said the department first sought to have the defense department set up reserve officer training corps units at the schools. Since 1929 the department has operated ROTC units at many land grant colleges, including some of the Negro colleges.

However, its policy, as stated by a public relations officer, is to establish such units only on

request and only where established Army standards are met.

The southern states, Dr. Russell said, have several courses open to them. They could establish their own courses of military training at the Negro colleges; build the schools up to meet the Army standards for ROTC units; or open the white land grant colleges to Negro students.

An agency report lists these

## Sooners Fined In Miami Court

MIAMI — (Special) — One Oklahoma man pleaded guilty to a charge of driving while intoxicated and his companion to being drunk in a public place, and were fined \$105 and costs by County Judge Ed Haynes here Thursday morning.

Homer Giles Farman and a companion, both of Reydun, Okla., were arrested Wednesday afternoon east of Miami on Hwy. 80 and jailed by Sheriff Cy Carr. Both men waived a preliminary hearing and trial by jury.

Farman, driver of the car, was fined \$100 and costs, his companion, \$5 and costs. Farman's conviction carries an automatic suspension of his driver's license for six months.

**REPLACEMENT** — New employe at the Pampa Chamber of Commerce is Mrs. Paul Hurley, permit clerk and general office assistant. She replaces Mrs. Dorothy Nelson who resigned recently.

## Lawyers Needed By U. S. Marine Corps

Legal officer assignments are available for law school graduates and qualified members of the bar who enroll for officer training in the Marine Corps. Officials at Marine district headquarters, Denver, have announced.

Although guaranteed legal duty, all eligible applicants must complete a 10-week officer candidate course before receiving commissions as second lieutenants and five months of specialized officer schooling before assignment to legal duties.

Officer candidates must be physically qualified and less than 27 years of age. Further information can be obtained by writing the Marine Corps Office of Officer Procurement, Old Custom house, 16th and Arapahoe, Denver 2, Colo.

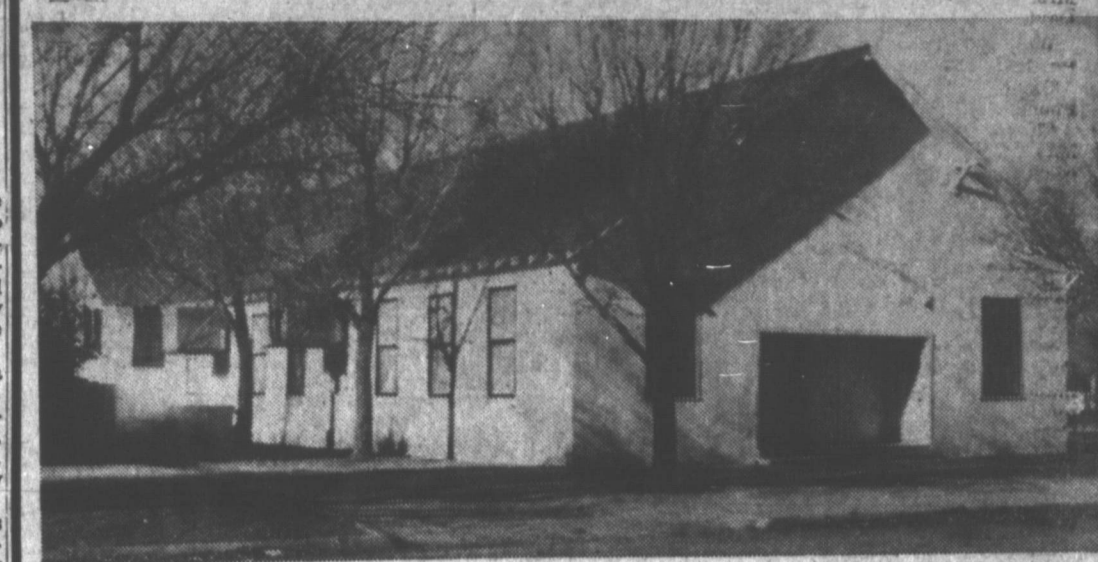

## Archery Club To Take Part In Opening

SHAMROCK — (Special) — The Magic City archery club will participate in the formal opening of Palo Duro State park near Amarillo, Dec. 2, reports M. L. Earles, president.

Members will offer exhibitions of the skill with the bow and arrow, with a prize offered for the best total score. Contests include a roving course.

states as operating separate white and Negro land grant colleges: THE PAMPA NEWS, SUNDAY, DEC. 2, 1951 PAGE 2

## Through His Eyes

This is a day of reckoning. This is a day of exactness. This is a day when every man must stand up and be counted. Whether you are a watchmaker or a grinder of high-powered lenses... you've got to be good. God demands our best. He is not satisfied with average products. To be out of measurement means the whole of what you are doing is useless. Precision grinding is expected of you if you are to be trusted with the operation of this highly efficient machine. *Spiritual Precision is necessary if you are to walk with God.*

We also are to work in the field of sensitive minds, hearts, nerves and spirits. This is the realm of spiritual and eternal values. Flesh and blood persons are to be dealt with. Am I as careful in moulding the life of a child as in creating a watch, or a lens, or a pilotless plane? There is no better place to learn of the fundamental workings of God than at the little Church on the corner. Here, you will hear the Master Workman, as he says, "Inasmuch as you did it unto one of the least of these, you did it unto me."

DEAR SANTA — "I have been a good boy this year. Will you please bring me..." This Pampa youngster is among the many who are letting St. Nick know their desires for Christmas. Letters from all over the city and area have been pouring into The News to be sent to Santa's North Pole headquarters. A few, like the lucky youngster above, got a personal interview with Santa Claus when he visited here Friday. (News Photo)

(Continued From Page One)

"Dear Santa: I'm a little boy eight years old. I go to B. M. Baker school. I haven't missed a day yet. I'm in the second grade. I want an electric train and a pair of house slippers, some candy, an nut. I would like to have some flinker toys too. I love you."  
 "Charles E. Duncan"

"Dear Santa Claus: Please bring me a football set and 2 guns and holster set."  
 "Anthony McCool"

"Dear Santa: Please bring me a tricycle and 2 guns and holster set."  
 "Don McCool"

"Dear Santa: Please bring me a doll and rocking chair, we have all been good."  
 "Juanita McCool"

"Dear Santa: I am a little boy four years old. I have tried to be a good boy and help my mother. Please bring me a desk style blackboard, a set of building blocks, a pair of 'Little Beaver' house shoes, and a grader for Xmas. And don't forget my Mother and Daddy."  
 "Love to You, Mike Thompson"

"Dear Santa: Please bring me a set of Plastic houses, a road grader, metal Indians, and a flash light. My sister, Joyce, would like a doll, teddy bear, and some dishes."  
 "Don't forget the little poor boys and girls."  
 "We Love you, Joe Fischer, Jr."

"Dear Santa: I am a little boy 8 years old. I would like very much to get a tool set, a black holster set with two guns, and a radio for my room, and please Santa remember all the other children at Christmas."  
 "I live at 206 E. Foster."  
 "With love, Curtis Smith"

"Dear Santa: I am a little boy 7 years old. I have been a good boy and glove and a police car and some I want a radar car and a ball and some nuts and candy."  
 "Love, Richard Allen Hopson, 321 East Francis St."

"Dear Santa Claus: I am a little boy nine years old. I want you to bring me a big truck and nuts and candy, fruit and some nuts and candy. Please do not forget me, this is the first Christmas I spent in Pampa."  
 "Don't forget my little cousins, Your friend, Burnice Robinson"

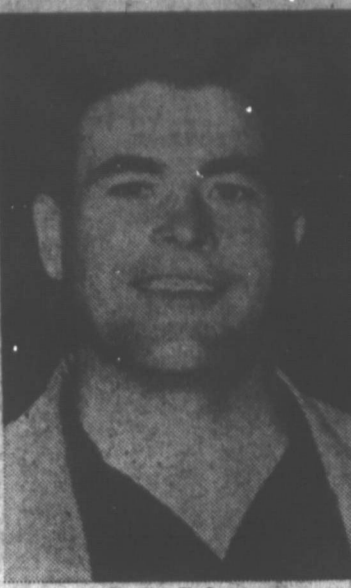

"Dear Santa Claus: I am a little girl 7 years old."

"Dear Santa Claus: I am a little girl six years old, but I didn't get to go to school this year because my birthday came to late."  
 "I would like for you to bring me a walking doll with blond hair like mine, a table and chairs and some dishes. I would like to have a little sewing machine too."  
 "Santa, please take all the little orphan children some dolls and toys."  
 "We have moved since you were here last year. I hope you find our house."  
 "Love, Carol Anne Enloe, 1161 N. Starkweather"

"Dear Santa: I am a little girl 7 months old, so my Mommie is writing this for me. Please give me a sack of candy. I really don't care what you bring me for Christmas, just something I can chew on and play with."  
 "Lots of love, Debby Walsh"

"Dear Santa Claus: Hurry up and come to Pampa. I am tired of waiting. My name is Linda and I am 4 yrs old. My brother, Orval, is 2 yrs old. I have been a very nice girl. I help my Mother and my Grandma."  
 "I want a doll, a tricycle, a bracelet, and a housecoat. My brother wants a red wagon, a tricycle and a pair of boots."  
 "Linda and Orval Peacock, 311 West Brown"

"Dear Santa: I am in the second grade at Please bring me a cordian are a bicycle, some candy, fruits and nuts. And also bring the rest of the family something. My name is Wanda Fern Roberts, 821 1-2 East Campbell St."

R. L. Roberts...heads Red Cross

**Shamrock Red Cross Head Named**

SHAMROCK — (Special) — R. L. Roberts, Shamrock banker, will be new chairman of the Red Cross for the Shamrock area. Roberts was chosen at a meeting in the local Community building Tuesday night.

He replaces Al Ryan, chamber of commerce president, who served last year.

Other officers include: Marshall Adams, vice-director; Sam Thompson, secretary-treasurer;

**Shamrock Seniors Order Invitations**

SHAMROCK — (Special) — Seniors have sent in final orders for invitations to the graduation exercises next May, according to Kenneth Laycock, senior sponsor.

Rings came in last Monday. Laycock said the group also would make plans soon for the senior trip to occupy the week prior to graduation.

We couldn't understand how he kept so fat, when everyone said he ate like a bird, until we discovered he ate a peck at time.

**Police Say Singer Not Discriminated Against In Club**

NEW YORK — (AP) — A police investigation has disclosed no evidence that the Stork Club discriminated against Negro entertainer Josephine Baker.

The singer said club employees had discriminated against her and kept her waiting more than an hour for a meal on Oct. 18.

Police Commissioner George P. Monaghan has made public a report prepared by an inspector who headed the investigation, giving details of interviews with the Baker party and persons at the club on the night concerned.

Monaghan said that as a result of the investigation, "there is no basis for further action by the department in the matter."

The report said Walter White, executive secretary of the National Assn. for the Advancement of Colored People, brought the original complaint which led to the investigation.

However, the report said, White and other NAACP officials agreed that the facts obtained by police were "insufficient to proceed in a criminal court."

We're getting just like our car. The older we become the more knocking we do.

**"Perpetual Motion" Clock Scientific Marvel of Age**

Offered for sale at **McCARLEY'S Atmos**

### Silver C. Chisum Is Commissioned

Silver C. Chisum was one of 17 Air Force reserves to receive the commission of second lieutenant at Baylor university. The men are fall quarter graduates of the Baylor AF ROTC. Col. H. Paul Dellinger, professor of air science and tactics, awarded the commissions.

The men completed their bachelor's training at Baylor with the close of the fall quarter and won the commission in recognition of their achievements in the ROTC unit. Each was awarded a certificate and gold bar. Roy Chisum, 405 N. Russell, is a senior student and will receive

### Goodrich Approves Auto Damage Claim

An agreed judgement, awarding four-year old Stephen A. Goodrich \$122.33, was approved Friday by Judge Lewis M. Goodrich in 31st District Court for injuries received when he was hit by an automobile on Oct. 2, 1951.

The suit was filed and heard Friday by the court, a jury being waived. The child was hit by a car driven by Mary E. Williams as he was crossing Duncan near the south end of the bridge. He suffered a fractured shoulder and facial abrasions. His degree at the end of the spring quarter.

### Shamrock Postmaster Asks Early Yule Mail

SHAMROCK (Special) — Postmaster Flake George issued a call yesterday to late Christmas shoppers to mail as early as possible.

Already a flood of mail is building up and George said he was working through as fast as possible, but admitted that deliveries would be delayed by increased volume.

### Mrs. Bedford Harrison To Review 'Moses'

SHAMROCK (Special) — Mrs. Bedford Harrison will review "Moses" by Sholem Asch before the women of the First Christian church Dec. 5. The meeting will be a church benefit. Annual observance of Woman's Day at the church will be held simultaneously and the public is invited.

### Lefors Student Is Fraternity Member

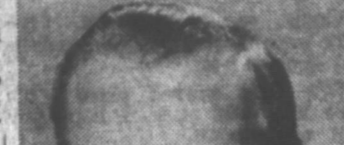

NORMAN — William C. Osburn, petroleum engineering Junior of Lefors, was honored this week with initiation into Sigma Tau, honorary academic engineering fraternity on the campus of The University of Oklahoma, R. C. Doremus, Worthy, N. J., president, announced Saturday.

Membership in Sigma Tau is based on evidence of promise of a successful career in the field of study. The three qualifications are scholarship, practicality and leadership. In scholarship, the candidates must rank among the upper third of the eligible men in the junior and senior engineering classes. Sociability is the measure of the public spirit of the man, Doremus said.

## Stars and Stripes

(Readers are invited to mail or telephone orders of 1 cent in the Armed Forces. Write or Call Stars & Stripes Editor, Pampa News.)

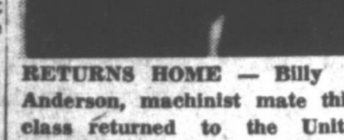

J. T. Hassie, son-in-law of Mr. and Mrs. H. H. Heiskell, 728 E. Kingsmill, recently was promoted to captain in the Marine corps, Oceanside, Calif. He expects to be discharged next April. Hassie is the husband of the former DeAnn Heiskell.

Cpl. Ira L. Gilliland, 409 N. Lowry, was among 2828 Army combat veterans from the Far East that returned to Seattle aboard a transport Thursday. Among the troops were 150 Texans.

Pvt. Thomas W. Downs recently arrived at home on a leave enroute to Camp Stoneman, Calif., before being sent to the Far East. He is the son of Mr. and Mrs. Ghent Muncy, 830 N. Gray.

Downs has been stationed at Camp Carson, Colo., with the

RETURNS HOME — Billy C. Anderson, machinist mate third class returned to the United States Nov. 26 after spending a year aboard the minesweeper USS Thompson in Korean waters. He is the son of Mr. and Mrs. Jack W. Reed, 320 N. Dwight.

Anderson expects to receive a 30-day leave Dec. 5. After attending Pampa schools he entered service in 1943 and now is on his second enlistment. After destroying a key railroad bridge last June on the North Korean coast, the Thompson was hit 14 times during an engagement with shore batteries. Although damaged the minesweeper knocked out one gun and damaged another.

547th Armored Field battalion, Battery A. He enlisted at Amarillo last March.

Carroll L. Smith, USN, has been promoted from fireman apprentice to fireman. He is the son of Mr. and Mrs. R. E. Smith, 604 N. Wynne. Smith is aboard the USS Spratton, destroyer escort, stationed at Pearl Harbor.

Morris Walberg, USN, recently finished boot training in San Diego, and now is visiting his parents, Mr. and Mrs. Norman Walberg, north of Pampa. His wife also will visit her family in Korea. Walberg will return to San Diego Dec. 12 for further assignment.

ON OKINAWA — Cpl. Jerry D. Davis is stationed now on Okinawa in the Pacific where he is working in the adjutant general's office. He is the son of Mr. and Mrs. John R. Davis, 1021 S. Sumner.

### Would Nest Egg Be Wiped Out If A-Bomb Fell?

NEW YORK (AP) — If enemy bombs fell on America what would happen to your nest egg of savings and investments? Big business had been worrying about that for some time. And now individuals are, too. Many of them are seeking ways of dispersing their investments, just as corporations are dispersing their vital records among outlying branches, or in converted mines, or in vaults in smaller cities unlikely to be bomb targets.

Individuals are moving their securities and records to bank boxes in non-industrial areas. But even more than that, larger investors are checking their securities, to make sure they are widely scattered among companies that wouldn't fold up if one bomb fell, according to those who make a full-time job of handling investments.

Investors are beginning to disperse their investments whenever possible, according to Clinton Davidson, president of Fiduciary Counsel, Inc., which supervises about \$500 million for wealthy families.

His clients reason that a company with many plants located in various parts of the United States, such as large oil companies or chemical companies, would be able to continue producing and earning even if some of the units were damaged or destroyed.

The small investor is just as much involved as the large one. Dispersal of investment has long been considered good sense — with or without "bitters" over bombs.

"Investment is more than a means of obtaining current income on your capital," Davidson points out. "It is also a way to protect your funds against the hazards of the future."

To protect capital against war, investors seek stock of companies whose activities will not be badly restricted by war effort or by the inevitable inflation which accompanies war. Such companies are the most likely to go on making money when over businesses are being hurt by shortages and price controls.

To this is now added another consideration: companies with plant dispersals so that a one bombing raid doesn't stop everything.

### Volcano Expert To Make Movie

AUSTIN — A University of Texas expert on volcanoes will make a movie on Stromboli.

Dr. Fred M. Bullard, professor of geology, will film the island's volcanoes as part of scientific studies to be conducted in the area of the Italian peninsula and Sicily.

The volcanologist who has made investigations in Hawaii, Mexico and Central America, will leave in February for a year's study of the "classic" volcanoes, including Vesuvius and Mount Etna.

On a Fulbright fellowship, he will be attached to the University of Naples.

"Volcanoes offer our best means of studying the earth's interior," Dr. Bullard said. "And there appears to be a definite relationship between them and earth quakes."

Dr. Bullard will seek basic information on the classic volcanoes for comparison with those on the American continents. "There is relatively little information available on Western Hemisphere volcanoes," he explained. "Some are yet to be explored."

### Barbara Bentley Is Named Editor For White Deer Paper

WHITE DEER (Special) — Barbara Bentley, a junior in White Deer High School and daughter of Mr. and Mrs. B. O. Bentley, was named recently as editor of "The Bucks' Tale," the school's bi-weekly newspaper.

Other members of the staff are Juanita Hernandez, assistant editor; Yvonne Henry, managing editor; Billy Hill, assistant sports editor; Jimmy Mosteller, production manager; Laphon Chance, assistant production manager; and Mary Jo Kramer, circulation manager.

Ernestine Thornburg, Lavelle Rhoades, and Betty Knutson are reporters.

The staff was selected from the journalism class after a 12 weeks try-out period.

Miss Bentley, along with four members of the yearbook staff, will go to Denton next Thursday to attend the twenty-sixth annual clinic sponsored by the Texas High School Press Assn. Members of the annual staff who will make the trip are Marilyn Bagley, editor-in-chief; Barbara

### Pampa Girl Is Named To Chorus

ABELINE — Cornelia Capinella, sophomore student at McMurry College from Pampa, has been named as a member of the Chorus.

The Chorus have concerts in Texas, mixed choral group, that will leave on a five-day tour of North Texas, Dec. 2.

Dr. Richard C. von Ende, chairman of the Fine Arts division, will direct the choir, which is composed of 48 voices, as they give 18 programs, both sacred and secular.

The Chorus have concerts slated in Eastland, Breckenridge, Wichita Falls, Cisco, R. A. G. P., Mineral Wells, Vernon, Childress, Graham, Paducah, Crowell, Knox City, Haskell, Munday, Throckmorton, and Stamford.

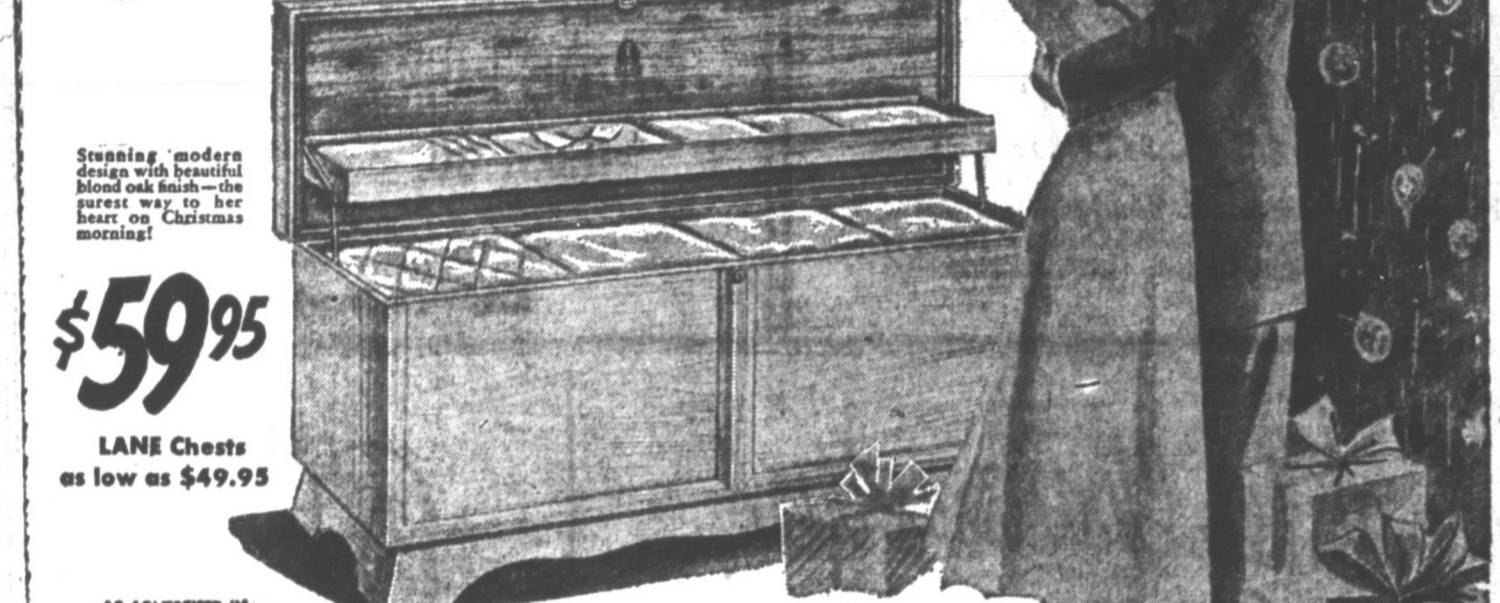

Lewis, associate editor; Philip Rapstine, junior editor; and James Huffines, photographer, with their sponsor, Miss Clara Eversly.

Last year both "The Bucks' Tale" and "The Antler" received All-Texas rating in the T. H. S. P. A. contests.

To do his job right the surgeon must have the very latest inside information.

Young Enough To Love... Completely...

"A PLACE IN THE SUN" is the story of today... a drama of three young people uncontrollably in love — who risked everything to get that love! It is the story that mirrors all lovers — the story that belongs to everyone.

It is rare that any motion picture has captured so magnificently the fire and fever of America's youth. Even rarer, has any screen drama spoken so freely and frankly of the compelling needs and desires of young people, driven by instincts they can neither resist nor understand.

Here is the story of a young man who was too ambitious, even in love, and of the two girls who cared for him too much!

These three emotion-packed roles are portrayed by the most exciting young stars it has been possible to combine in one film in many years.

Here is a remarkably revealing picture — one you'll remember and love... completely.

## Rivera's Murals Leave Mac 'Stone Cold In Market Place'

By HENRY McLEMORE  
**MEXICO CITY** — Notes Writ- ten On The Back Of An Old Tortilla: As a man who failed his crayon and sandbox courses in kindergarten, I doubt that the artist will pay much attention to me when I say that Diego Rivera's murals leave me stone cold in the market place. . . I have made pilgrimages to see his works in Mexico City, but wish I had spent the time wandering through lovely Chapultepec Park. . . The murals Rivera did for the great water works project (they have attracted world-wide attention) to me are the downright ugliest things I have seen since I last looked in the mirror. . . Given my "drubbers" I'd rather have a soft drink sign over my mantelpiece than anything have seen by Senor Rivera. My favorite street in Mexico

because flowers are so plentiful and cheap here. . . For what you pay for a carnation in New York you can get a two-story wreath worthy of the most distinguished dead gangster. . . When I get around to giving myself a coming-out party, Mexico City is where I am going to hold it. . . All the boys in the back room will have to get out to make a kindergarten, I doubt that the what I should wear at my de- but? Searucker has always looked mighty nice on me, especially with a touch of dotted swiss at the throat. . . This will give the Toots Short set a slight laugh, but I have been giving the native folk dances a heavy play since I got here. . . Rivera's Art gallery is where the dancers are running now, and my favorite parley is a Michoacan wedding dance in the first, coupled with the jarabe tapatio the most popular dance of Jalisco. . . If I lived in Mexico City I certainly wouldn't bother to go to school and learn my ABC's. . . On the Square of Correg-

### Million Diabetics Pose Problem

CHICAGO — (AP) — The American Diabetes Assn. has said the civil defense program should include care for one million known diabetics and another possible one million whose condition might become acute in a major catastrophe. . . occupying a block long arcade, is a row of evangelistas, or public letter writers. . . Say I couldn't read or write and fell in love with Florabelle Smith of Pueblo, who lacked book latin' too. . . I could go to an evangelista and for a peso or two have him write my Pueblo pet and tell her I was nuts about her. . . The evangelista in Pueblo would read the letter to her and write to her for me, saying, "Be-loved Creep: Save your pesos. I am happily married to Jose Miguel, and if you ever read Winchell you would know that I can hardly middle-aise it with you when Joe and I are infan-

WINNER — Joe Reynolds, KFDN staff member, presents over \$50 in prizes to Mrs. Howard Weaver, 588 Short, who Friday correctly answered the question, "What English poet and nobleman swam the Hellespont?" on radio station KFDN's new quiz contest, "Time Is Money." The answer was Lord Byron. (News

## Texas Industrial Areas Busy On Defense By-Products

By HAY CARPENTER  
**Associated Press Staff**  
 Texas nears the end of 1951 with its heavy industry areas busy producing and tooling to get out warplanes, steel, aluminum, aviation gasoline and oil by-products for defense. . . The biggest producing areas are along the Gulf coast, in the Panhandle and in the Dallas-Fort Worth area. . . Smaller metal working and fabricating businesses are still haunted by the specter of materials shortages for civilian production. . . A survey by Associated Press member papers shows the full product of the state's defense mobilization yet to come. . . To help, the Munitions Board and the USDC plan joint clinics to guide the small industrialist in dove-tailing his plans with the defense mobilization program. . . Defense Production Administrator Manly Fleischman has warned that there will be some casualties among manufacturers who can not find or use substitutes for steel and other metals. He told the American Federation of Labor convention in San Francisco last month, "the squeeze is now beginning." . . Charles E. Wilson, defense mobilization, has said the next six months period "will not be a happy one" for many industries. . . Wilson, however, said in Quebec, Canada, Oct. 29, "that within two years the allied arsenal will be 'skyscraper high.' He said, "you are about to see production really pouring out." . . The Texas Employment Commission reported that non-agriculture employment hit a new peak of 2,560,700 during September. This compares with 2,467,860 last January, an increase of \$9,840. Most of this new employment reflected an increased mobilization effort. In the Panhandle defense production is pouring out of industry in the tri-cities area of Borger, Phillips and Bushland. . . Production is geared largely to defense contracts at plants which process petroleum and gas into gasoline, oil, carbon black and rubber products. The section has been classified as a critical defense housing area, and rent controls have been put into effect. This results in relaxed credit restrictions on residential construction and a rollback of rent prices to the level of February, 1951. . . Several defense contracts have been let to Amarillo firms. One is manufacturing electronic equipment and another is busy with machine tool work of a classified nature. The Star Manufacturing and Foundry Co. has built a new foundry to supply the machine tool industry with castings. Both the American Refining and Smelter Co. and the American Zinc Co. at Dumas, are producing at peak capacity. Much of their output goes into government stockpiling. Construction of all types in Amarillo is British troops in Korea, and keeping pace with last year's dollar volume.

## Miami Schedules Observance Of Democracy Day

MIAMI — (Special) — Bob Ford, local agriculture teacher has been appointed general chairman of the committee for "Operation Democracy", which will be part of the local American Legion post's program to stamp out complacency and neglect of civic responsibilities. . . Observed on Dec. 7, the program, the third of its kind, is sponsored by the 778 American Legion Post in Texas. All churches, schools and civic organizations are asked to take part in the one-day series of programs designed to bring home to every citizen the benefits and responsibilities of democracy. . . Commander Newton Cox said other committee appointments will be made shortly.

## YULE AIRLIFT

LONDON — (AP) — A four-plane "Santa Claus Airlift" will carry late Christmas parcels to British troops in Korea, and Japan during the next two weeks.

YOU'LL LOVE THIS BREAD THAT STAYS FRESH SO LONG

The use of the "Double Heart" formula in baking MEAD'S FINE BREAD gives it the same high degree of superiority that wins "Oscars" for movie stars. And you can depend on MEAD'S FINE BREAD to supply you with an extra measure of the nutritional elements of VITAMINS, MINERALS and PROTEINS plus the GOOD N' FRESH quality that's made housewives call it a "Sweetheart of a Bread."

### LOVE AT FIRST BITE

The necessity of added vitamins, minerals and proteins in bread for good health is well known to every housewife. So . . . if you want the best for your money it must be MEAD'S FINE BREAD . . . for the price remains the same.

Try this new formula loaf in the popular Golden Yellow Wrapper with the band of red "Double Hearts" around it.

### UNDEVIATING QUALITY

The New MEAD'S FINE BREAD is a better bread because it contains added "Double Heart" elements of nutrition. The moment this superior quality white bread kisses your lips you'll agree . . . It's so GOOD and SO GOOD FOR YOU. The New "Heart of the Wheat" and "Heart of the Milk" formula NOW employed in baking MEAD'S FINE BREAD gives it a distinctive and nutritious goodness that sets a new high standard of excellence in baking craftsmanship.

### THE "GOOD N' FRESH" SECRET

When you have this New MEAD'S FINE BREAD IN YOUR HOME, chances are it won't be around long, for its appealing deliciousness is an invitation to eating. Your family will ask for more at meals, plus sandwiches in between. However, should part of a loaf remain, you'll notice how its oven freshness lasts days longer. That's the good n' fresh secret that the "Double Heart" ingredients and a lifetime of baking experience combine in MEAD'S FINE BREAD. This ability to stay fresh longer is baked into every loaf. Try it, taste it, test it, today! It's GOOD N' FRESH and SO GOOD for you.

MEAD'S FINE BREAD

"What have you in soft rubber hammers and saws?"

# Santa's Visit Marked By Colorful Parade Here

**SANTA GETS A WARM WELCOME** — Santa Claus flew down from the North Pole Friday night and got a warm reception from residents in and around Pampa. An estimated 12 to 15 thousand people thronged Pampa for the colorful parade Friday night and for the personal visit with the old fellow following the Parade at the city hall. Santa and his reindeer talked to Panhandle young-

sters and had his helpers pass out 10,000 bags of candy. Bands, floats, and torch-carrying Boy Scouts were under the direction of Leslie Hart, Parade marshal. The kids mobbed Santa at his stand on the city hall lawn and got in a few early requests for the old fellow's next visit here Dec. 25. All in all, the city agreed, Santa made a hit with Pampa. (News Photo by Don Duncan)

## Government Writes Word 'Honest' Into Military Oath Of Allegiance

WASHINGTON — (AP) — You don't have to swear to be honest if you take a federal civilian job, but the government wrote the word "honest" into the military oath of allegiance this year.

Senator J. William Fulbright (D-Ark.), who has been fighting to establish a commission on ethics in government, says he sees no reason why this difference should exist.

"Inclusion of language in the civilian oath similar to that in the military oath would seem to be appropriate," Fulbright says. "A stronger oath might be a method of impressing the seriousness of the situation upon the people."

"But there are many aspects to present conditions. Inserting the word 'honest' in the oath might turn out to be, after study, far too little a move to do any good. If we can get a commission appointed to study government ethics, the oath of office certainly is a subject that these people should consider."

The oath of office taken by most civilian employees of the government says:

"I, (Name of employee) do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion, and that I will well and faithfully discharge the duties of the office on which I am about to enter, so help me God."

The military oath is similar but the word "honest" was inserted this year when a standard oath was adopted for all of the military services.

Here is the new military oath:

"I, (Name of the person taking oath) do solemnly swear that I will bear true faith and allegiance to the United States of America; that I will serve them honestly and faithfully against all their enemies whomsoever; that I will obey the orders of the President of the United States and the orders of the officers appointed over me according to the regulations and the uniform code of military justice."

Fulbright says that undoubtedly the people who devised the civilian oath many years ago certainly believed that it implied that the employee was swearing himself to be honest. He says he is uncertain whether insertion of the word "honest" in an oath, or tightening of the wording of the oath to make it more inclusive, would cause employees to be more conscious of the need for honesty.

The Britannica encyclopedia contains a Russian military oath which pledges the soldier or officer of the "workers-peasants" army to be an "honest, brave, disciplined and vigilant fighter" willing to defend the Soviet motherland to "the last breath" and not sparing "my blood and my life itself."

"If by evil design I betray this solemn oath let me suffer the severe punishment of Soviet law and the universal hatred and contempt of the workers," this Russian pledge says.

Government experts on Russia said Stalin took this oath in February, 1939, shortly before World War II.

## Post Office Preparing For Christmas Rush

Preparations for the Christmas rush were being made yesterday by the Pampa post office in lining up extra help for the two-week busy period.

Postmaster W. B. Weathered said he would have room for about 25 extra clerks and carriers from Dec. 10 to Dec. 25.

Only boys and men over 18 will be accepted for the jobs. They will work during the hours of 6 a. m. to 9 p. m. at the rate of \$1.66 and a half cents per hour.

Applications will be taken by the postmaster between 8:30 a. m. and 5 p. m., starting Monday and ending when the necessary number of men have been hired.

## Pampa Students To Go On Tour

Pampa students will be among the 45 members of the McMurray College Chanters, a mixed choir group which will tour 10 towns in the next five days.

Dr. Richard C. von Ende, chairman of the fine arts division at the college, will direct the choral group in presenting programs of sacred and secular songs.

## Local Student Wins Role In Play

ABILENE — Deon Martin, McMurray college student from Pampa, has been named a member of the cast for the college's forthcoming stage production, "Medea," slated Dec. 12 and 13.

Directed by Bill Adams, the play is starring Barbara Douglass, senior speech major from Big Spring and Bill Crier, from Abilene.

You can judge a man as well by his foes as by his friends.

## Lela To Have New Postmaster Soon

SHAMROCK — (Special) — Lela will have a new postmaster soon, due to the resignation of Mrs. Pat Bullock.

Civil Service authorities have issued notice of an examination to be held at Shamrock. Deadline for accepting applications is Dec. 13.

Salary is \$1762 annually and is open to anyone 21 through 64 years old who resides in the area served by the postoffice of Lela, a fourth class office.

Lela, five miles west, is in the Shamrock school district.

## Sports Announcer Puts Religious Program On Air; Finds He Has A Paying Business

WACO, Tex. — (P) — When Jarrell McCracken, Baylor University student and announcer for a Waco radio station, agreed to give a special "sports" program to a small church group in 1950, he unconsciously opened the door to quick success in a comparatively new field of religious records.

A high school football star at Gladewater decided to become a preacher after hearing it in Houston, twelve persons joined Forces of Christianity and the church where it was played. Forces of Evil. He spoke from a public address where he moved by it in dress system so that the audience got the illusion of a radio broadcast from "Station W-O-S-D," signifying the word of God.

The 25 or 30 people who heard McCracken's novel treatment of "The Game of Life" liked it, son for fellow prisoners. In Lou, they asked him to record it so it could be used at a young people's meeting.

Within a few months, the time football star, now a bust record was in great demand from scores of religious groups. With the realistic "game," and youthful McCracken at the microphone, and all the crowd of Baylor University's president, noises and coor of a real grid. W. R. White; Dr. John W. Raley, battle merged with the play-by-play, president of Oklahoma Baptist play account, it's hard for the university; and Dr. W. W. Adams, president of Kansas City's Central Baptist seminary,

immediately applauded the recording.

The 24-year-old McCracken suddenly realized that his unintentional project was developing into an industry. WORD records, never even quite so much as a dream, were now an actuality with tremendous potential.

He asked Frank Roggs, a student in Southwestern Baptist Theological Seminary, to sing some religious songs to put on records. Next came recordings of religious numbers by the Baylor University Religious Hour Choir, a Baylor quartet, and other soloists.

McCracken, sensing the magnitude of his new "business," called upon Henry SoRelis, a senior business student in Baylor, and Ted Snider, a 1950 graduate of Baylor who was working in radio and television, to go with him in a partnership.

Thirteen records (28 sides) have been made thus far, and they are being sold in Baptist book stores and other outlets in some 25 states. McCracken estimates that at least 15,000 WORD label records are now in circulation.

The future bids even greater

## College Students Hold Celebration

SHAMROCK — (Special) — Shamrock college students, returned for Thanksgiving, held a special celebration in the home of Mr. and Mrs. Cecil Reavis after the Irish-Tulla football game.

They made candy and popcorn and also called on the former high school teachers to show appreciation of earlier work.

Among the Irishers off to college at this party were: Martha Ann Montgomery, Martha Lou Setzler, Shirley Lee, Mary Alice Close, Katherine Smith and Jane Woolly.

He spends his Sundays preaching in a Baptist church at Anderson, Texas.

Some of these radio announcers should change their line and frankly say: "Due to conditions beyond our control, we present the program originally scheduled for this time."

## Hearing Aid Authority Will Visit Pampa

Mr. Cecil Robinson will be in Pampa all day Wednesday, Dec. 5 to show the Hard of Hearing the latest progress that has been made in the hearing field. Mr. Robinson will make free hearing tests and demonstrate the new Helton Melody Hearing aid. . . will show you how you may hear clearly . . . and UNDERSTAND . . . with NO BUTTON SHOWING IN YOUR EAR!

For home demonstration phone Schneider Hotel, Phone 600

**Wednesday, Dec. 5**  
**Schneider Hotel**

Batteries for all makes of aids. Sponsored by Helton Hearing Service.

117 West 6th St. Amarillo

"I want a bicycle, a radio, a pony, a cowboy outfit and an electric train—repeat that back to me, please!"

## Legend Of Lost Mine Leads Tourists On History Jaunts

By JACK STEVENSON

PHOENIX, Ariz. — (P) — A gold mine which may exist only in legend has made it possible for thousands of tourists and residents to learn more of the history and lore of Arizona.

Each spring the Dons club, a group of 50 Phoenix business and professional men conducts a trek into the Superstition mountains in search of the famed Lost Dutchman gold mine.

One of the favorite events of the year, the trek draws about 2,000 persons. The Dons charge just enough to pay expenses and to finance their yearly program of travelades to points of interest in Arizona, including the Grand Canyon, Indian reservations, ruins of early structures and dude ranches.

Except for transportation costs—visitors can travel either in chartered buses or their own cars—the travelades are free.

Bob Hickman, Phoenix contractor and president of the Dons this year, estimates his group has played host to more than 100,000 persons on these trips. The Dons do it for a hobby.

"I'll bet we have more fun than any other club in the city," says Hickman.

The club name was derived from the early Spanish. The Dons and their wives, who help with the travelades and trek, wear colorful Spanish costumes.

Two years ago more than 700 cars turned out for the journey to Wickenburg, 35 miles northwest of here, for a dude ranch visit complete with rodeo.

Traffic was jammed for miles as the travelcade proceeded, with a highway patrol escort. This added impetus to a movement toward using buses for the journey.

Most of the travelades are limited to central Arizona, but last year the program included two overnight jaunts—one to the Grand Canyon and the other to Ambos Nogales—the twin cities on the Arizona-Mexico border.

This season the Dons' schedule includes a repeat journey to the Grand Canyon. The southern overnight trip will be to Bisbee, where a big new mining development is underway, Douglas, and the Chiricahua National monument.

As a general rule, however, the Dons' travelades skip the national parks and monuments which have regular guides available.

"We take our travelades to points where people ordinarily would have little interest unless

of his "L" behind bars in Pennsylvania uses it as the theme of a weekly Sunday school lesson.

A prisoner who has spent most of his "L" behind bars in Pennsylvania uses it as the theme of a weekly Sunday school lesson.

On each bus a "Don" explains the scenery as we pass and full explanations are given at the destination. We emphasize the trips are free and there's nothing to buy."

The travelcade program started Nov. 25 and will continue every Sunday, with few exceptions, until April.

Next spring's trek into the Superstitions, 35 miles east of here, will be held March 9.

The Dons' search for the Lost Dutchman mine started in the late 30's, largely as a result of a mistake. A story erroneously said the Dons would lead an expedition into the Superstitions, Hickman said, and the response was terrific.

"The Dons had letters from all over the nation and from some foreign countries, so they decided to conduct a tourist expedition. From then on it's been a regular event."

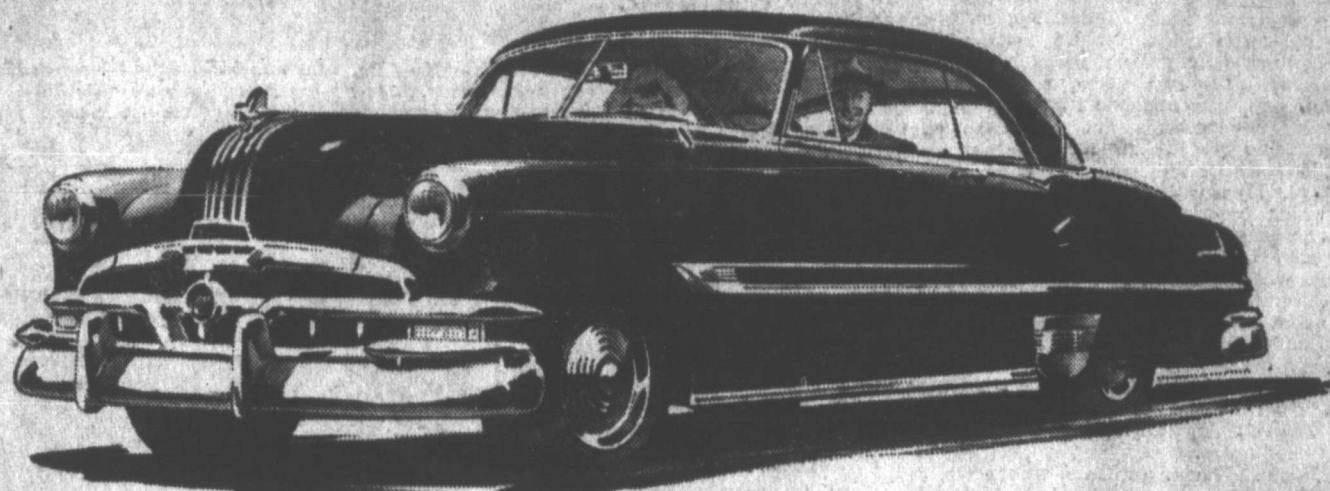

Two years ago an eight-year-old, David Rotroff, son of a Dons club member, actually found a bit of gold.

The Superstitions are of tremendous interest for visitors. Even if the Dons and their guest never find the Lost Dutchman mine they've hit a bonanza in the history of the vast Southwest.

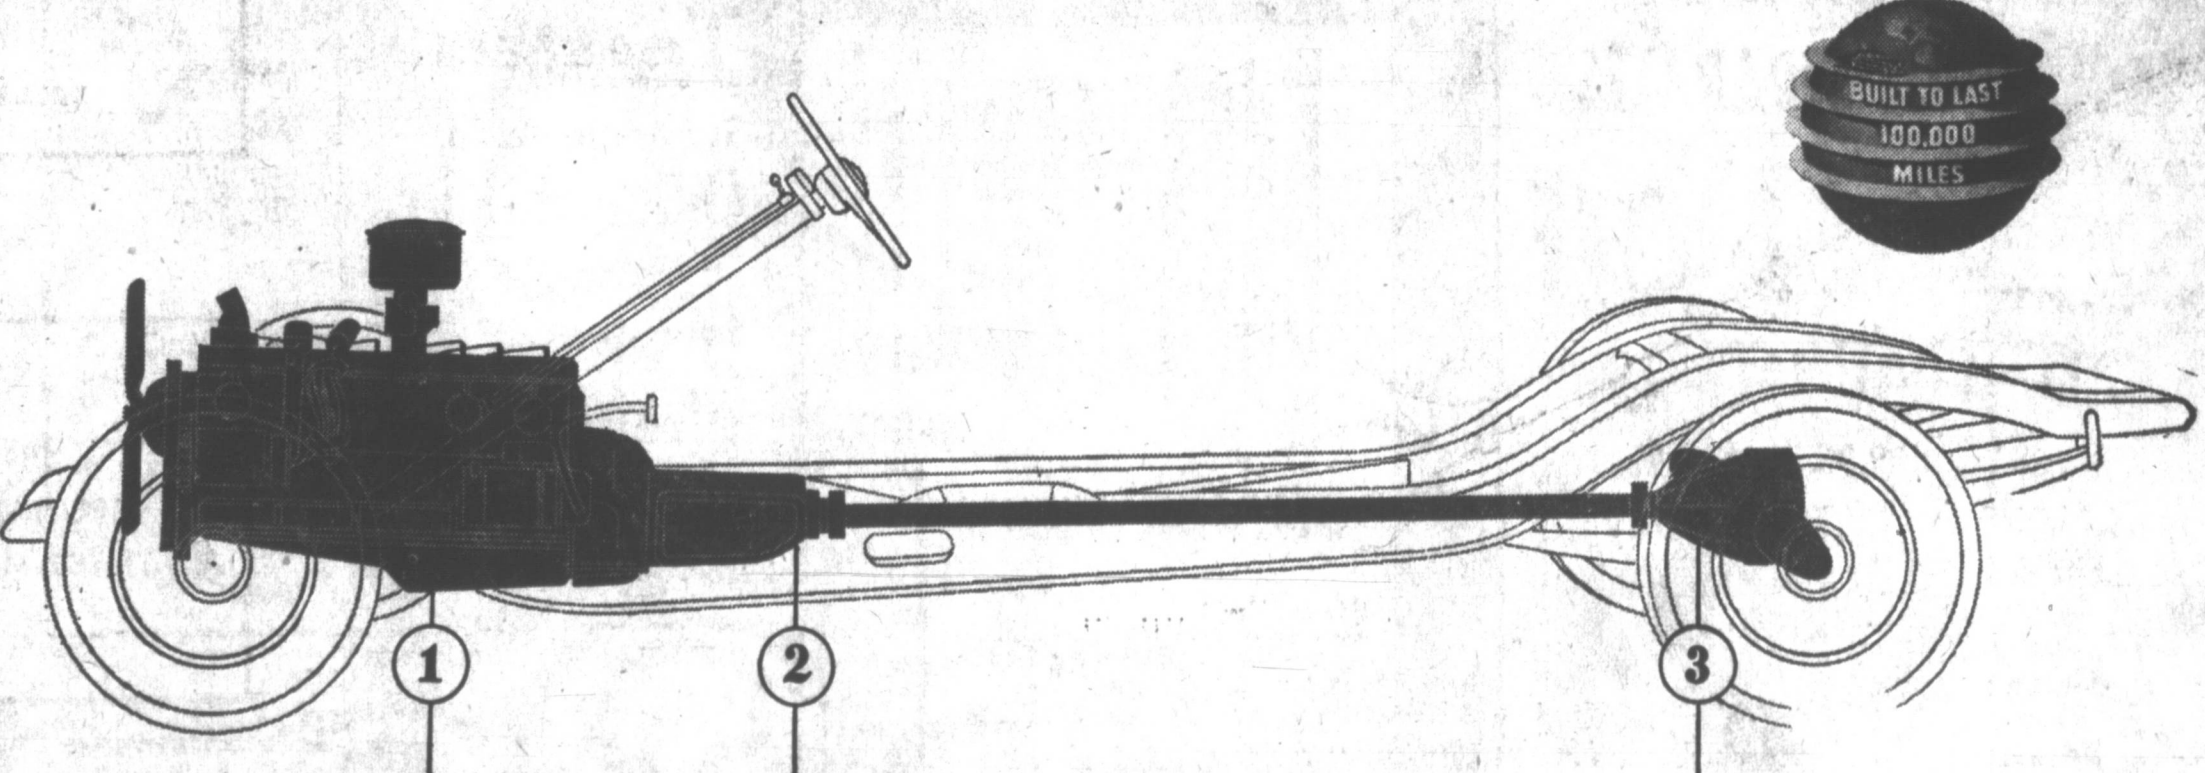

## New Light Expected On French History

AUSTIN — New light will be shed on an exciting period in French history — 1830 to 1860 — when a University of Texas professor edits letters purchased by the Library for its Rare Books collections.

Dr. Aaron Schaffer, Romance Languages chairman, has been granted a research leave or the spring semester to edit 294 letters of Emile Deschamps, one of the leaders of the French Romantic movement. Deschamps was closely associated with Victor Hugo and other prominent writers, such as Berlioz and Meyerbeer and well-known painters and sculptors.

## Bale Of Figures Needed To T Number Of Cotton Bales Grown

WASHINGTON —(AP)— it takes a bale of figures each month to show the country how many bales of cotton it is growing.

The figuring is done by Agriculture Dept. statistical experts, who announce each month, August through December, their best estimate of the cotton crop.

These announcements, prosaic though they appear, vitally affect the lives of thousands of people throughout the South and West. They result in an almost immediate reaction in the cotton market, and what the cotton market does or doesn't do directly affects the pocketbook of the collective cotton belt.

An indication of the importance of the department's cotton estimates came recently with a request by Rep. Abernethy (D-Miss.) for a Congressional investigation into methods of gathering and publishing crop statistics.

This followed a sharp drop in the department's November cotton estimate. On Oct. 1 the department estimated the crop at 16,931,000 bales; on Nov. 1 it reduced the total to 16,771,000 bales.

The Nov. 1 estimate was followed by an almost immediate hike in cotton prices. That's the old law of supply and demand at work—the less there is of a commodity the higher its price.

Abernethy contends that the department's estimates for August, September and October must have been too high, a factor which kept the price down.

As a result, he says, farmers who sold before the Nov. 1 estimate were published lost money. He estimates this at \$25 a bale or about \$157,000,000 for all farmers who sold cotton before Nov. 1.

Abernethy said there must have been "gross mistakes" in the August, September and October estimates.

Agriculture Dept. officials who work on these crop statistics have an explanation of what happened and it boils down to the one big factor over which no one has control—the weather.

They say they'll be happy to make the explanation to the House Agriculture committee or any investigating group or any one else.

What happened, they say, is this:

There were two droughts in the cotton belt this year—one right after planting time, another in August and September. About half of the cotton, planted early, started growing at once. The rest got caught in the early drought and stayed dormant several weeks until more rain came. The result was that over the entire cotton belt there were what amounted to two crops—the early and the late.

"No one knew, not even the farmers themselves, how the late cotton would turn out," said Jack Morgan, member of the crop reporting board. "But we had to assume we would have normal weather and given normal weather the crop would have developed normally."

The Sept. 1 estimate of 17,291,000 bales was about the same as August's 17,286,000 bales.

Then the drought began. The early crop was far enough advanced so that it wasn't much affected. But dry weather caught the late cotton at a critical stage and the bolls didn't develop properly.

In September, when the October figures were being assembled, the department had only a faint hint of the damage. This was enough to drop the October estimate to 16,931,000 bales.

Then the next month's reports showed what was happening—had happened in fact—so the estimate was cut sharply to 15,771,000 bales.

In September, when the October figures were being assembled, the department had only a faint hint of the damage. This was enough to drop the October estimate to 16,931,000 bales.

Then the next month's reports showed what was happening—had happened in fact—so the estimate was cut sharply to 15,771,000 bales.

### Shamrock FHA To Give Program

SHAMROCK — (Special) — Future Homemakers of America club at the high school here will present an assembly program in the high school auditorium Dec. 7. Miss Helen Borth, vocational homemaking teacher, reports.

Program will be built around the activities of the Shamrock FHA chapter and will depict modern methods of advancing home living.

Miss Borth said the FHA group would also hold a party at the school Dec. 4, but details for the party are not yet available. Mary Kay Holmes and Maynette Derr are in charge of party arrangements.

THE MUSICIAN — Bo, who was trained by Florence Reynolds to "play" the piano, is an especially eager performer. It has not yet been determined if Bo likes to play because of his love for music, or because he is particularly fond of eating. After a performance at the keyboard, Bo is rewarded with scraps of meat. (News Photo).

## 'Kitten On The Keys Easy Project For Educated Felines

CHOW TIME — Wimpy, one of Florence Reynold's trained cats shows his "table manners" while seated on a small pedestal. Much training was required before the cat would learn to eat out of a spoon, but patience accomplished the job. (News Photo)

"You just can't punish them for failing to do their acts, even when they know perfectly well what you want them to do," Florence Reynolds said as she put Bo, Bruce, Wimpy and Grandpa through their stunts.

"Cats have to be coaxed and rewarded."

Florence Reynolds, who is known to Panhandle rodeo fans for her trained horses, is known to a few friends as a small animal trainer too.

Wimpy, a long-haired huge yellow cat, was the reason for Florence's explanation. Wimpy, who waltzes on his hind legs, was refusing to waltz, but trying desperately to play the piano, having seen Bo the black sleek cat with the white bow tie receive some weiners for performing some weiners for performing.

Florence, who always has several cats around her, had Wimpy sit up on small pedestal and eat food from a spoon.

"Not that way — this way" Florence coaxed, taking the spoon away as Wimpy ate with both paws. Dutifully Wimpy took the spoon in his left paw and ate with one "hand."

Bruce, a light-yellow cat who is just beginning his training, also wanted to play the piano and had to be restrained while Bo, the first performer, played.

"Like children; they like something new to do," Florence

smiled. Bruce pushed a little car around the floor, stood on his hind legs, did a pretty skilled hippety-hop backwards on his hind feet, played on the ukelin — a sort of stringed instrument which lay flat on the floor — picking the strings with his paws. He also rolled a heavy stone bowl, similar in shape to the kind that the Indians used once to pound their cornmeal in, by curling himself around it and spinning it. Grandpa, the old blue cat who once performed, refused to do any stunts except the chair with his head on his to say his prayers, standing on folded paws. Grandpa is sort of old and childish now and even praying, he kept one eye slightly open and on a spoon of cat food.

"The first Grandpa was the performer," Florence recalled. "He never got temperamental around strangers and I could take him anywhere to perform."

"Old Grandpa would jump hurdles, pray, shake his head "no" to the question "Do you like dogs?" and hold up supposedly sore paws. And Florence could depend on him to do her proud when she showed him over at the Spring Creek school or when folks came out from town to see him perform."

Bo was the cat who stole the limelight. His first stunt was to play the piano and he thought he might get by with a one-hand chord, but it didn't work. His mistress told him to get busy and play nice and Bo humped over the piano and played like a maestro with both paws. Bo likes to perform (and likes so well the food that follows the performance) that he insists on performing when Florence has the other cats on stage. The cement filled coffee cans which are used as anchors for the too anxious cats — light chains attached to the cans through the lids, with little collars for each of the three young cats — was not enough to restrain Bo, and he growled and pulled at his "stake" until Florence turned him loose. Once loose, Bo rushed past Bruce who was doing the hippety-hop, and began to perform furiously on the piano, looking sideways at Florence to ascertain whether any meat was forthcoming.

Removed forcibly from the piano, Bo didn't like playing sec-

### Irish Policeman Recovers Lost Car

SHAMROCK — (Special) — Herbert Callan, Irish policeman, recovered a car stolen in Amarillo Nov. 13, a Packard which was taken while it was being unloaded from freight cars to be stored for later delivery.

Callan said the car had been driven to San Angelo, Borger and then to Shamrock. Apparently, the thief stole license plates near the place where the new Packard was unloaded. They have not traced the man responsible for the theft, as the car was abandoned.

It wasn't hard to get him to mount another car placed on top of the first a few days later. Before long he was sitting on top of many cans, the top one so small that he over-lapped all around, according to Florence.

Florence won't allow civic or school groups to "book" her cat acts. "They aren't ready. They just won't perform for a group away from home, and even here — just look how they fuss over who performs," she said.

Florence's cats are individuals, not just a trained act. Showing remarkable training, and finesse in displaying their acts, they yet keep that distinctive individuality which characterizes an act — any animal trainer anywhere would be proud to display on any stage.

### 4-H Dairy Award Made

SHAMROCK — (Special) — Sherron Stephens, 14, son of Mr. and Mrs. Frank Stephens of Shamrock, won the 4-H dairy achievement award in Wheeler county for 1951.

Sherron's call, a dairy circle helper, took ribbons in both shows in which she was entered. Stephens is reporter for the local 4-H club.

Shamrock Dairy circle is a group formed by Irish business men who loaned money to buy blooded stock from outstanding dairy herds in Ontario, Canada, and then members receiving calves in turn promise to give increase to other boys of the 4-H group.

Rear Admiral Lucian A. Moebus, chief of the Navy's Air Reserve training, who spoke during a press conference at the U. S. Naval Air station here.

**HONORABLE MENTION.** Ends — Bob Beckham (Abilene), John Held (Odessa), Jim Cook, (Pampa), Tackles — Walter Cooley (Odessa), Bill Ebeling (Odessa), Tom Cadenhead (Lubbock), John Spencer (Amarillo), Don Newell (Lubbock), Guards — Jim Johnson (Abilene), Jim Gafford (Lubbock), Travis Dyer (Odessa), Leon Eggleston (Amarillo) Charles Broyles (Pampa), Charles Stowers (Abilene). Backs — Bobby Ghormley (Odessa), Stuart Baughan (San Angelo), Randle Garner (Abilene), Darrell Wilson (Pampa), Gale Murphy (Borger), Charlie Hodges (Lubbock), DeWey Cudney (Pampa), Carl Schleymer (Odessa).

## Davis, Walker And McPherson Get Nod On Both Defensive, Offensive Teams

Lubbock's state-champion favored Westerners and the Fighting Pampa Harvesters, one-two finishers in District 1-AAAA, dominated the field in the selection of the first all-district 1-AAAA offensive and defensive teams.

The champion Westerners, who yesterday roared past Yaleta in district play to notch their eleventh straight win of the year, placed a total of seven men on the first defensive and offensive teams while the Harvesters notched six first place honors.

Odessa had the third highest total with five, Abilene placed two, Amarillo one, and Borger one. San Angelo, district dormat in football, had no players on either first team.

The votes were cast by the head coach, one sportscaster and one sportswriter in each city in the district. Voting for Pampa were Coach Tom Tipps, Coy Palmer of KPDM, and Warren Hasse of The Pampa News.

Pampa's six first place team members, strangely enough, were the same three men. Billy Davis, Jerry Walker and Bill McPherson drew first place positions on both offense and defense.

On the second string offensive team Buddy Cockrell and Tommy Sells drew starting posts and Charles Ely was the lone Harvester placed on the second string defensive unit.

Honorable mentions went to Jimmy Cook, Charley Broyles, DeWey Cudney and Darrell Wilson on offense and to Jimmy Cook, John Young, Buddy Cockrell, Charley Broyles, Ed Dudley, Darrell Wilson and DeWey Cudney on defense.

Those casting ballots were not permitted to vote for their own team's members, therefore nobody was a unanimous choice. But had this been possible, James Sides and Johnny Tatum, brilliant Westerner aces, would have been the only unanimous choices, each polling 17 of a possible 20 votes. One member failed to vote.

In addition, Lubbock placed quarterback Charley Brewer, a really makes the Westerner T formation click, and end Don Jones, on the starting offensive club. Second string Lubbock quarterback Buddy Hill drew the starting assignment as safety man on the defense.

A total of 44 players were named to either the first two offensive teams or given honorable mention. On the defensive, 51 players were given some acclaim.

Of the Harvesters named on the first two teams, two, Cockrell and Sells, will return next year. Both are juniors.

By Warren's Sports Editor

**QUESTION: Who is head coach of the professional Cleveland Browns?**

**CONGRATULATIONS** are in order to the members of the Fighting Harvesters who made such good showings this season as to merit their selection on the first all-district 1-AAAA football teams.

Two teams were selected in both defense and offense, and the Harvesters placed three on the first team of each, Billy Davis, Bill McPherson and Jerry Walker. These boys were impressive enough in each game they played to merit their selection over many other fine ball players throughout the district.

Our hat is off to them.

While the selections went pretty much according to form and not too many surprises appeared in the final selections, this column was surprised by one, however. That was the selection of Joe Youngblood of the Abilene Eagles.

Youngblood must have gotten the nod on his showing of last year and not this season's performance. It wasn't his fault that he missed most of the district games because of the mumps. But still it is hard to choose a boy on your selected team when you haven't even seen him in action. But that is apparently what several voters did in order to get him on the starting offensive eleven.

If that case, could hold true, all juniors and sophomores on this season's team would become automatic choices for next year. Youngblood missed three of the district games completely and saw only limited action in two others. He was called off the bench to score a touchdown from 13 1/2 yards outside the goal line against Amarillo.

Other boys played game after game, played consistent ball, and still got no more than second team or honorable mention while Youngblood gained the big honors. We're not saying that he isn't a good enough ballplayer to deserve them; but this column doesn't feel that he played enough in district competition to warrant his selection over several others.

Will Bobby Reynolds or Bob Smith make all-American this year?

## Westerners In Easy Victory

EL PASO — (Special) — Lubbock again buried local hopes of a bi-district champion by turning back a fighting but outclassed Yaleta eleven 40-21 at Texas Western's Kidd Field here Saturday afternoon.

The victory advanced the Westerners of District 1-AAAA to the state semifinals. They will meet Arlington Heights of Fort Worth, which defeated Woodrow Wilson of Dallas Friday night.

The visitors displayed West Texas power and finesse in capturing the bi-district contest, played on a clear afternoon for a crowd estimated at 15,000.

Headed by first quarter advantage, they ripped to 26-7 lead at halftime, then turned on the pressure in the third stanza to put the game out of reach of Yaleta by scoring another TD, jumping the score to 33-7. They blazed once in the final period while Yaleta, displaying a consistent attack for the first time in the game, took the play from the visitors with a two touchdown uprising.

Charles Brewer, a magician at quarterback, was the brains and arms of the Westerner T formation attack. The 165-pounder passed for four touchdowns and pitched out to Bob Sexton for the other in one of the greatest one-man shows seen on an El Paso gridiron.

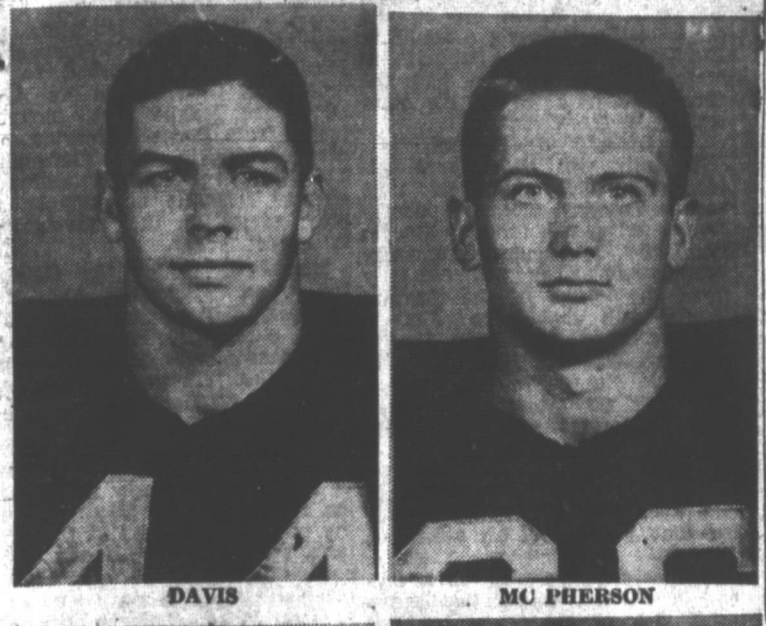

He hit Don Jones for a 71-yard pass and run play for 26-7 lead at halftime, then turned on the pressure in the third stanza to put the game out of reach of Yaleta by scoring another TD, jumping the score to 33-7. They blazed once in the final period while Yaleta, displaying a consistent attack for the first time in the game, took the play from the visitors with a two touchdown uprising.

### Breckenridge Passes Way Past Midland And AAA Quarterfinals

MIDLAND — (P) — Quarterback Kenneth Ford's sharp aerial thrusts sent the Breckenridge Buckaroos winging past the Midland Bulldogs here Saturday, 33 to 14, in a Class AAA quarter-final playoff game.

More than 10,000 fans saw Ford toss three touchdown aerials, two coming in the last quarter when Midland had pulled to within 19-14.

Ford tossed 22 times, completed 15 for 219 yards and had one intercepted.

The interception came in the final moments of the first quarter, when defensive halfback Dan Black of Midland speared one at the three-yard line, cut away from two men and romped 97 yards to paydirt. Larry Friday led.

But Ford went to work, tossing to Bobby Keith and Warren McFall to bring Breckenridge back 46 yards to a touchdown. With Sam Thompson driving over from the one-yard line, Keith led the count at 7-7.

Near the end of the half, Breckenridge took over after a short Midland punt and went 37 yards, Ford completing three passes — the last to Keith for 16 yards and a touchdown on the last play of the first half.

### Hurricanes Whip Detroit

TULSA, Okla. — (P) — Tulsa University's Golden Hurricanes led four yards short of a new national total offense record yesterday, but smashed Detroit, 24 to 20, for its second Missouri Valley conference title in a row.

### Little Dutchman Sheds Happy Tears

FORT WORTH — (P) — Coach Dutch Meyer of Texas Christian wiped away a tear down in the steamy dressing room yesterday and said: "I'm the happiest man alive."

His Horned Frogs had just won the Southwest Conference football championship by beating Southern Methodist 13-2.

It was Meyer's third conference title — his teams won in 1936 and 1944.

"I thought both teams played great ball," said the little coach, who must now start thinking about the Cotton Bowl where his Frogs meet Kentucky January 1.

"SMU was really up and they blocked and tackled viciously. So did we. It was absolutely one of the cleanest games ever played anywhere. I didn't see one thing during the day that could be called off color on either side. They were really rocking and soaking but they were clean."

Meyer said he was proud of his team that "came back from nowhere and went all the way. What did it? Courage, determination and organization. That did it. The kids never lost their faith, their courage. We never became disorganized. I'm sure happy and proud."

There was mostly silence in the Southern Methodist dressing room but all the Mustangs agreed on one thing: TCU had one of the best and cleanest teams they faced all season.

"They had a fine team and they played good, hard ball," said SMU Coach H. N. Russell. He praised Ray McKown, the TCU quarterback, and said TCU had a well-balanced team — offensively and defensively, running and passing. "They're well worthy of the Southwest Conference title," he added.

Among the SMU players, Dick Hightower and Herschel and Bill Forester, defensive stars for the day, said TCU had "a darn good ball club," and that it was the best team they had faced this season.

Benny White, SMU wingman, said the Frogs were the "cleanest team we played against."

Apparently the many references to clean play were inspired by an attack the SMU campus newspaper made this week on Baylor University, accusing the Bears of "dirty play" in their game last Saturday at Waco.

The Hurricane needed 627 yards to eclipse in 10 games 4,747 yards it established last year in 11 contests.

The Tulsans under the generalship of quarterback Ronnie Morris — who did a unusual bit of running himself — racked up 267 yards on the ground and 296 by passing.

The Baylor athletic council has called a meeting in Waco Monday to discuss a planned distribution of their quota of Orange Bowl tickets.

### Sooners Close In Win Over Aggies

NORMAN, Okla. — (P) — Freshman halfback Buddy Leake clicked off four easy touchdowns to lead Oklahoma past a game but inadequate Oklahoma A&M football team, 41-6, Saturday in the 48th renewal of their rivalry.

Oklahoma just had too much power for the injury-riddled Aggies as it won its seventh straight contest before 34,800 persons.

The 24 points by the hard running Leake, who moved to a regular post early in the season when halfback Billy Vessels was injured, tied Oklahoma's modern record for points scored by a player in one game. George Thomas set the record with 24 against Kansas in 1949.

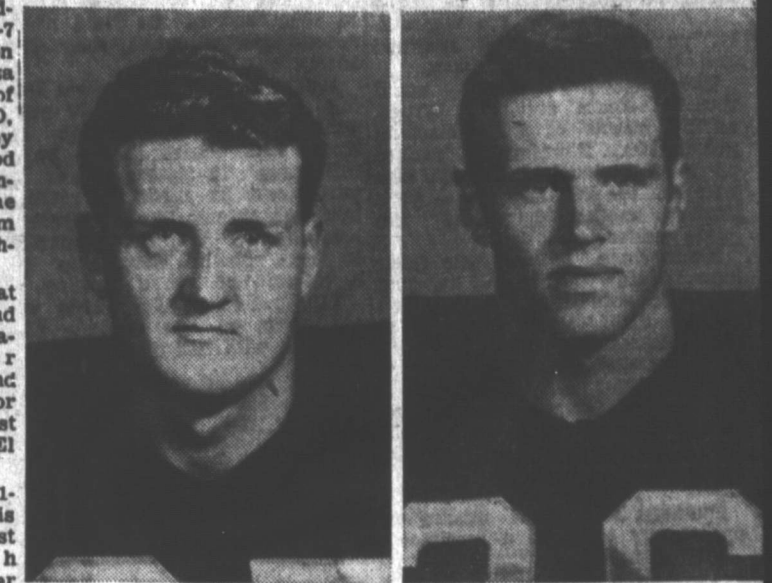

Leake made 187 yards rushing on 23 carries. Quarterback Eddie Crowder scored one touchdown and pitched to John Reddell for the other Sooner touchdown. All-America tackle Jim Westhahl made 8 of 6 conversion attempts. The lone Aggie tally came in the third period with a pass from Bobby Green to Dorsey Gibson seven yards over the goal.

The Aggies' only threat — passing from the spread formation — was gone with injured quarterback Don Babers only able to play a few minutes. Green, playing his first full game, hit 7 of 19 passes for 78 yards.

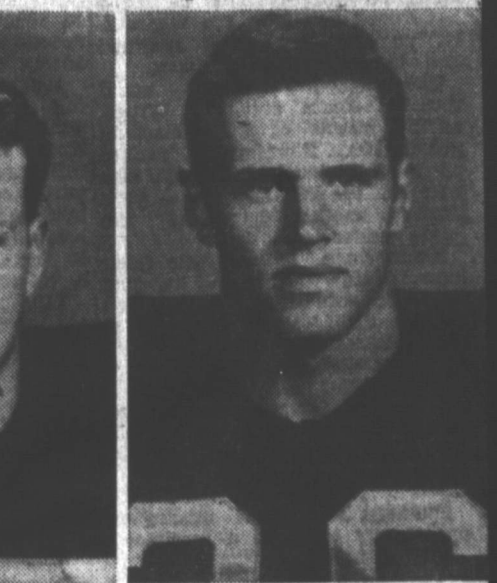

Oklahoma, the nation's No. 10 team, ends the season with eight victories and two defeats while the Aggies closed out a disastrous year on a 3-7 record.

A farm lad who took a job in the big city returned home a few months later to report he was flat broke in spite of the big pay. He said, "Most of my money I spent on women and whiskey. The rest I just wasted."

### Boykin Closes In 7-Touchdown Rush

STARKVILLE, Miss. — (P) — Mississippi's showboat LaVerne Boykin ended his college football career in a burst of speed Saturday setting a new Southeastern Conference individual scoring record and overwhelming Mississippi State 49-7.

The Greenville, Miss., senior fullback had everything his own way, scoring seven touchdowns. Quarterback Jimmy Lear and the Rebels' split T ripped gaping holes in the nation's 10th best defensive team. Boykin set up all but one of his touchdowns. Boykin's most spectacular performance was an 85-yard touchdown sprint mid-way in the third quarter. But it didn't seem to make much difference where he started. His other scoring runs began on the Mississippi State 34, 12, 17, 13, one and five yard lines.

Bill Stewart spearheaded State's single tally, romping five yards around his own left end. Boykin, who had only scored three times previously this year, smashed the 30-points in one game set in 1936 by Bob Davis of Kentucky — a record Davis equaled in 1937.

The Rebel triumph was their fifth straight over Mississippi State and returned the "golden egg" — a mounted gold football symbolizing victory in the 60-year-old grid feud — to Oxford for another year.

Mississippi's 49 points is the most the Rebels have ever scored against State. Their previous best was 24 points in 1938.

She claimed he married her for her money... and he claimed he will be different at the end of the year. I almost forgot a very important score in last Thursday night's bowling. . . . No Lou Jones come through very nicely with a 452 with a high of 192. Her average is around 125 or 130 I think. Anyway... that's very nice bowling — and Ana-Lou is to be congratulated. . . . Phil Pague was down at the bowling alley last Thursday night giving his wife a few pointers on bowling. Whether he is, or is not an authority on this game, I don't know, but he's bowled in the low 300's. . . . You next week. . . .

### PIN ACTION

By RUDY MARTI

Got many, many scores to give you all this weekend, but first I've got a little information on the biggest bowling tournament held in the world and that of course is the ABC bowling tourney to be held in Milwaukee, Wis., March 22, 1952. . . . Anyone who is interested in the American Bowling Congress tourney this year can contact me or write Al Munroe, director, 611 Broadway, Milwaukee, Wis. He's the guy who runs the housing deal and can give all the dope on the tourney. . . . The only scores that are worth mentioning in the national ABC tourney of last year are these. . . Individual 3-game total — Stan Thaden, Madison, Wis., 839. . . Frank Mataya, St. Louis, Mo., 822. . . Bill Starr, Hamburg, Pa., 800. . . Check this column for further details on the ABC tourney in the forthcoming month. . . .

On the local scene, . . . Let's congratulate Candy Kelly, bowling for the Service Liquor Store, on Tuesday night. . . . Candy came through, with (and I will make a guess on this) her best series this year and perhaps in all her bowling career (correct me if I'm wrong) a 354 with a high game of 223. . . . That is very good bowling in any league. . . . I have seen Candy bowl, she has nice form, nice delivery, in fact she is a good bowler all around. . . .

This reporter bowled last Monday night. He didn't do too well, and a few of the boys said, "Rudy, let's see your total in Sunday's paper". . . . Sorry boys, but I'm afraid I'm in the driver's seat, and it won't appear. . . .

Bob Brake pulled a 99 last Monday night, with a high of 233. . . . I'd say that's good bowling, wouldn't you? . . . Buck Donnell's 800 is worth mentioning. . . . Don Ormsen rolled a 588 with a high of 227. . . . That's got to be a wonder if he will ever make a 600. . . . Let's hope he does. . . .

We have talked about the high scores enough, so let's mention a few of the LOWS this past week. . . . R. McKinney 246. . . J. Carruth 246. . . B. Nelson 248. . . B. King 228. . . Of course, this is their first year, and the scores will be different at the end of the year.

# Texas Christian Grabs Cotton Bowl With 13-2 Victory

## First Southwest Conference Crown For TCU Since 1944

FORT WORTH (AP)—Texas Christian's crushing line, a stray elbow and Ray McKown, Gil Bartosh and Bob-by Jack Floyd Saturday brought a 13-2 victory over Southern Methodist and the Southwest Conference football championship to TCU.

The title — Texas Christian's first since 1944 — put the Horned Frogs into the Cotton Bowl as host team.

It was a wild and furious finale of a bizarre season in which the conference title was in doubt until the last gun.

At Houston Saturday, Baylor beat Rice. If Texas Christian had failed to fell SMU, Baylor would have taken the championship.

The passing of McKown, that gifted sophomore, set up the first Texas Christian touchdown and the throwing of Bartosh did the same for the other. Floyd's line-cracking runs proved the margin in between.

**BENNETT'S MARK**  
Southern Methodist was behind 6-2 in the third period when Fred Bennett, who tied the Southwest Conference passing record with 16 completions — making him 110 for the season — pitched a pass to Benton Muslewitz that gained 65 yards and an apparent touchdown. But an SMU player was ruled to have used an elbow too vigorously, so the score was nullified and the ball brought back.

The Methodists never could threaten again and the Frogs, as the result of that slashing guard, Herb Zimmerman, racked up another touchdown. TCU also was on the SMU three-yard line on another drive as the game ended.

Zimmerman is who flung himself into the air and knocked the ball out of Bennett's hands as the SMU star attempted to pass. Morgan Williams, busy Christian tackle, fell on the ball on the SMU 40. With Bartosh running and passing the Frogs pushed to the clinching touchdown. It was made on a six-yard run by John Harville.

**MISS CHANCE**  
Southern Methodist missed an opportunity to score a touchdown late in the second period when the Mustangs paraded to the Frog six on the passing and running of Bennett. But the Frog line rose up to smother four attempts and the effort died on the TCU six.

The Frogs got a touchdown early in the first period as the result of an SMU fumble. Henry Stollenwerk dropped the oval on the SMU 27 and Keith Flowers, great Christian line backer fell on it. McKown passed to Floyd to carry to the 12, then combined with Floyd and John Mednich to slam to the one from where Floyd pulled over. Flowers missed the extra point.

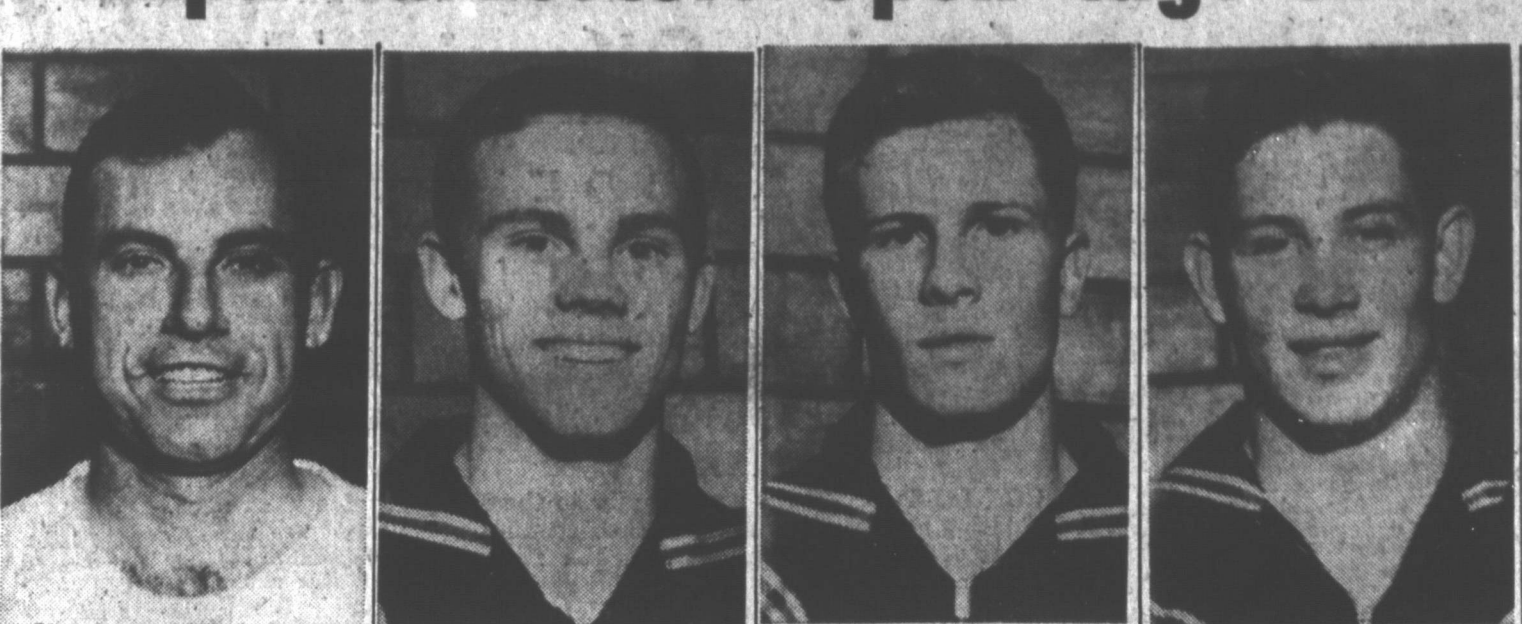

A 22-mile per hour south wind handicapped the punters, especially TCU's, but it helped SMU keep the Christians bottled up in their end of the field in the second period when the SMU safety came.

McKown was the game's leading ground-gainer with 77 yards while Floyd racked up 76. McKown also passed for 54 yards. Bennett's 16 passes netted 139 yards and he made 55 running, but was thrown for 57 yards in losses when trapped attempting to pass. So he wound up with a minus two yards rushing.

TCU rolled up 247 yards with 185 of it on the ground. SMU got 171 with 139 passing. SMU 0 2 0 0-2 TCU 6 0 7-13

Southern Methodist scoring: Touchdowns, Floyd, Harville. conversion, Flowers.

# Pampa Harvesters Open Cage Season Tuesday Night

MC NEELY J. BOND M. BOND COCKRELL

## THUMBNAIL SKETCHES

**CLIFTON MC NEELY**, head basketball coach. Has outstanding record since coming to Pampa, winning 88 and losing only 15. Has prospects for another good team this year. Was nation's leading scorer during senior year of college at Texas Wesleyan, during 1946-47 season.

**JIMMIE BOND**, 6-4, 150, 16, sophomore. Jumped straight from Reapers to first year with Harvesters. All-district with Reapers and leading scorer. Fine hands, good movements, excellent post man with great love for game. May start slow until gets feel of fast competition but should be great at season's end.

**MARVIN BOND**, 6-2, 155, 17, senior letterman. Winner of 1951 "Hustling Harvester" award. All-district second team, good scorer and defenseman. Great hustle and desire with strong want-to-win spirit. Steady, dependable player. Team leader. Uses either hand well and should be one of outstanding players in district.

**BUDDY COCKRELL**, 6-2, 205, 17, junior. Played both Reaper and Guerilla basketball. Still shaking effects of football season and has only been out for basketball one week. Has good jump and hook shots. Great rebound man, throwing weight around under basket. Will offer good strength for team on defense and can score.

**JIMMY DULANEY**, 5-11, 145, 17, senior squadman. Played both Reaper and Guerilla ball. Is hard worker with lot of body faking. Has good jump shot and eye for basket. Will likely be regular starting guard. Had little opportunity last year but should spring into own this season. Strong desire to play winning ball.

**DUANE JETER**, 6-5, 165, 17, senior letterman. Playing on third season of basketball. Was starter with Harvesters last year. Has good eye for basket with push and hook shots, but doesn't shoot enough. Was fair scorer last year and expected to be strong offensively this season. Needs little more aggressiveness.

**CHARLES MC CRAY**, 5-9, 140, 16, junior. Played both Reaper and Guerilla ball. Is good ball handler and will offer good strength at guard posts. Good worker and fairly fast.

**ALLIE MILLER**, 5-10, 160, 18, junior. Played Reaper ball. Is good worker and has desire to play. Will be too old for next season. Little older than most of boys and therefore should be stronger.

**JON ODEN**, 5-9, 135, 16, junior. Played both Reaper and Guerilla ball. Is fast on feet and has good eye for basket. Showed good prospect as a Reaper, but hasn't come along as fast as expected. A little more desire to play will make him good player. Should be starter next season and may press for first string post this year.

**ROY POOL**, 5-10, 160, 18, senior. Played both Reaper and Guerilla ball. Was Harvester squadman last year. Football season keeps him from getting even start with rest of basketballers. He excellent one-handed shot and good competitor. Lots of basketball savvy. Good defensive ball player. Should be strong candidate for starting position by time district season starts and he shakes football legs.

**TOMMY SMITH**, 5-10, 135, 18, senior letterman. Speed is greatest asset. Is fastest man on club with good eye for basket. Is fine defensive ball player and could be one of outstanding men in district, despite size. Has come along fast in last year and is expected to be regular starting guard. Has fast hands with lots of faking ability. Does nice job driving.

**BILLY WEBB**, 5-11 1/2, 148, 16, junior. Played both Reaper and Guerilla ball. One of most improved boys on team. Another who will be strong candidate for starting job. Good defensive player, fine hustler and good worker all the time. Fairly fast, good ball handler with want-to-win attitude. Could be type of player needed on club for all-around depth.

**FREDDIE WOODS**, 6-1, 160, 16, junior. Played both Reaper and Guerilla ball. Has grown fast both physically and basketball-wise. Should be strong candidate for starting job at either guard or forward. Getting some work at center. Has big hands, with good eye for basket. Must learn to stay in game at all times, even after making little mistake. Has great desire to play, basketball is first love.

**DAVID CROSSMAN**, team manager. Third year at job, and doing it excellently.

**WOODS**

**WEBB**

**SMITH**

**POOL**

**ODEN**

**MILLER**

**MC CRAY**

## Stratford Elks To Open Schedule At Junior High

With hopes of getting into their new fieldhouse before the District 1-AAAA basketball season gets underway, the Pampa Harvester cagers will open their lengthy campaign in the Junior High school gymnasium Tuesday night by entertaining the Stratford Elks.

Game time is 8 o'clock with a preliminary contest between the B teams of both schools scheduled to start a 7 p.m. in district play all games will start at 8 o'clock and if B teams are playing, they will play following the A team clash according to district rules.

**NOONCASTER COACHES**  
The Guerrillas have been working out under Coach Aubra Nooncaster for the past week. His starting lineup is uncertain for the Tuesday night inaugural. Plans are being worked on to enter the Guerrillas in an AAU sanctioned league that includes teams from Borger, Amarillo and other towns in the Panhandle. This would give the Guerrillas a regular schedule of competitive play, something they haven't had in recent years.

Elsewhere around the district, the Odessa Bronchos and the Lubbock Westerners are the only other clubs who haven't started their season. But they will swing into action this week also. Odessa opens at Lamesa Monday night and the Westerners challenge Lamesa at Lubbock Tuesday. Borger plays its third game of the year tomorrow night when the Bulldogs face Tucuman in the preliminary game at the dedication of the West Texas State college fieldhouse. A similar game opened Friday night against Price College and San Angelo opened last Tuesday night at Coleman.

District play doesn't begin until the middle of January and it is hoped that the fieldhouse will be ready for use by that time. Season ticket sales will have to await the outcome of the fieldhouse situation, according to the school business office.

**LIKELY STARTERS**  
McNeely will have three lettermen in uniform to start the season Tuesday. They are center Duane Jeter, 6-5, forward Marvin Bond, 6-2, and guard Tommy Smith, 5-10. They will likely form three-fifths of the starting lineup with sophomore Jimmie Bond, 6-4, and squadman Jimmy Dulaney, 5-11 1/2, filling out the quintet.

Putting up strong bids for starting posts have been juniors Fred Woods and Billy Webb and senior Roy Pool, but released from the football season. Pool has missed the last two practice sessions because of an attack of the flu.

McNeely is planning on carrying a 12-man squad this year, with five of the dozen being seniors.

The Green-Gold has two games scheduled this week, both at home. After the Stratford game, the Dumas Demons come in for a Friday night contest.

All non-conference games will be doubleheaders with a B game preceding the main contest. The B squad games will start at 7 p.m.

The Green-Gold has two games scheduled this week, both at home. After the Stratford game, the Dumas Demons come in for a Friday night contest.

All non-conference games will be doubleheaders with a B game preceding the main contest. The B squad games will start at 7 p.m.

## Odessa Bronchos To Field Team Over Six Feet Tall

(Edis. Note — This is the first of a series of preview articles of member teams of District 1-AAAA.)

**By SPEC GAMMON**  
Odessa American Sports Editor

**ODESSA** (Special) — Odessa is looking forward to improved play from the 1951-52 Broncho basketball club, but don't expect a better finish than fifth in the district 1-AAAA cage chase.

Coach John Malaise will field a well-balanced team averaging a little more than six feet in height, and expects better backboard play. Greatest weakness will be the lack of good "outside" shooters.

Five lettermen, three reserves, five B team players and a transfer student and a brilliant sophomore make up the 15-man varsity roster.

The sophomore is Carl Schlemmer, sensational passing star in football. He is due to step into a starting berth at forward guard.

The probable starters at this time include Walter Spiller (6-2 1/2) at center, Schlemmer (6-1 1/2) and Frank Gee (6-1) at forwards and Bill Harville (6-1) and Lonnie Muse (6-0) at guards.

The Broncho schedule:  
Dec. 2—At Lamesa.  
Dec. 9—Midland here.  
Dec. 11—Big Spring here.  
Dec. 14—At Midland.  
Dec. 15—At Hobbs, N. M.  
Dec. 17—Lamesa here.  
Dec. 21—Open.

Jan. 3-4-5—Odessa tournament.  
Jan. 8—At Lubbock.  
Jan. 12—Amarillo here.  
Jan. 15—At Big Spring.  
Jan. 18—Abilene here.  
Jan. 19—San Angelo here.  
Jan. 25—At Borger.

Jan. 26—At Pampa.  
Jan. 29—Midland here.  
Feb. 2—At Amarillo.  
Feb. 5—Hobbs here.  
Feb. 8—At Abilene.  
Feb. 9—At San Angelo.  
Feb. 15—Borger here.  
Feb. 16—Pampa here.

The Odessa roster is as follows, listing the player's name, experience, height, weight and class in that order.

Doyle Dixon, 1L, 16, 5-8 1/2, 132, Jr.; Frank Gee, 2L, 17, 5-11 1/2, Sr.; Emmet Gibson, transfer, 15, 5-9, 147, Sr.; Don Gilliland, reserve, 17, 6-0, 157, Sr.; Bill Harville, 1L, 16, 6-1, 175, Jr.; Jimmy Jackson 1L, 17 5-8, 145, Jr.; Lonnie Muse, 1L, 15, 6-0, 138, Sr.; Larry Fruit, B team, 17, 5-8, 137, Jr.; L. W. R. Ray, B team, 16, 5-8, 140, Jr.; Walter Spiller, B team, 6-2 1/2, 155, Sr.; Horace Zellars, reserve, 17, 6-0, 145, Jr.; Jim Payne, reserve, 16, 6-0, 162, Sr.; Carl Schlemmer, junior high, 16, 6-1, 150, 172, Soph.; Tommy Harris, B team, 17, 6-2, 180, Jr.; Kenneth Wineburg, B team, 17, 6-0, 165, Jr.

The margin came on three successful conversions by Ray Kanipe, but it was the cool quarterbacking by Sonny Crisp and hard running of Buddy Tedder that brought the Texans victory.

The lead changed hands three times in the fourth quarter as Ray scored twice and Waco scored once in only one minute of play.

Ray got in a hole late in the first quarter by trying to quickkick on first down after being penalized to their own one. Gene Ward broke through to block Crisp's kick and Raleigh Harvey fell on the ball for the first score for Waco to score again as a

It took just about one minute for Waco to score again as Ray play bobbed an attempted outside kick. Harvey Neese recovered on the Ray 27. Truman Smith uncorked a pass to Neese good for 32 yards and another score.

In the third quarter, Jimmy Foster recovered Powell's fumble on a punt return on the Waco 18. Kanipe went to the 5 and Tedder scored from the 2.

Ray started off the fourth quarter with a sustained drive of 62 yards with Crisp getting Tedder scored on a 5-yard thrust through tackle and Ray moved out from 14-12.

Harold Cobb returned the kickoff 78 yards for a Waco touch-60 yards and get back out down.

Sul Ross scored in the first period on a pass from Charles Lafoon to Don Bingham.

In the second period East Texas got two touchdowns on passes from James Gray to Self and Rod McCormick.

## Fighting Irish Tip Southern Cal, 19-12

By BOB MYERS  
LOS ANGELES (AP) — The Fighting Irish of Notre Dame, marching in ghost-like fashion 61 yards for the winning touchdown through the gloom of a fog-filled stadium, defeated their old rivals, the Trojans of Southern California, in the final minutes Saturday, 19-12.

Led by a freshman, Ralph Guglielmi, and three seniors winding up their careers at Notre Dame, the Irish broke a 12-

all deadlock with only six minutes left to play.

Halfback John Pettibon swept right end on a pitchout for the final eight yards.

This payoff punch was the breaking point for a Trojan team that was favored from the start and on top through most of the game.

But the Irish never seemed to know they could be whipped. Twice they came from behind to tie the score before going in front for the winning points.

**IRISH SEVENTH WIN**  
The windup of the season left the Irish with seven wins, two defeats, and one tie. The Trojans, looking as moody as a coach's brow as they trudged out of the big stadium, finished with seven wins and three losses.

The Trojans went 62 yards on a drive set off by Frank Gifford's pass for 18 to Dean Schneider. Gifford added nine yards, a reserve back, Harold Han, added 21 in three runs, then Gifford swept left end for the final eight with the second period just starting.

Guglielmi came in at quarterback for the Irish and they went to tie the score. The freshman hit senior end Ted Ostrowski for 35 yards, then for 16. He found Pettibon, another senior, for 14, and gave the ball to John Lattner, the other backfield senior, to bang 12 yards within scoring range. Lattner crashed the Trojan line from the one.

**TROJANS REBOUND**  
USC bounced back strong in the third quarter when Dick Nunn intercepted one of Guglielmi's passes on the Irish 34. Jim Sears, a halfback whose 94 yard kickoff scoring run helped beat Notre Dame a year ago, caught a short pass and raced to the five yard line.

On the next play, he added the final five and put USC ahead again, 12-6.

The underdog Irish retorted with a 73 yard march which began when Gene Carrihine grabbed a long Trojan pass deep in his own territory.

Notre Dame worked the ball across midfield, and from the 39 Nell Worden uncorked the longest run of the day, a wide swing to the left and down the sidelines into the end zone.

Then came the winning parade through the murkiness of the fading afternoon and victory for the freshman and his three senior ghosts, Lattner, Worden, and Pettibon.

Notre Dame scoring: Touchdowns — Lattner — Worden, Pettibon; conversions — Joseph.

USC scoring: touchdowns — Gifford, Sears.

## Tennessee Subdues Tough Vanderbilt

KNOXVILLE, Tenn. (AP) — A lightning Vanderbilt football team, fired to great heights by the sensational passing of quarterback Bill Wade, gave mighty Tennessee a real scare Saturday before bowing, 35 to 27.

A wildly screaming crowd of 45,000 homecoming fans shouted their hoarse as Wade riddled unbroken Tennessee's secondary with passes and almost pulled off the biggest upset of the season.

The bitterly-fought game ended in a free-for-all which was quickly brought under control by officials, coaches and police.

The hardwon victory was the 10th straight of the season for the Sugar-bowl bound Volunteers and marked their first unbeaten and untied season since 1949. It also was their 20th consecutive win over a two-year period.

Wade completed 16 of 34 bullet-like passes for 251 yards and no interceptions. He failed to score directly through the air, but he scored twice the stage for each of the Commodores' four touchdowns.

Tennessee completely dominated the first half and left the field

## Quarterbacks To Meet Wednesday

The Pampa Quarterback Club has moved its regular Monday night meeting back to Wednesday night of this week in order not to conflict with other events tomorrow night and Tuesday. The meeting will be held in the Woodrow Wilson auditorium, starting at 8 o'clock.

Movies to be shown Wednesday night include the Pampa-San Angelo game and a "highlight" film of the professional Cleveland Browns. The pictures of the Lubbock-Odessa game may be available this week and will be shown at the meeting if possible.

In addition Wednesday night, Harvester football banquet will be placed on sale. The banquet will be held Jan. 17, with Rice coach Jess Neely as guest speaker.

## Ray Defeats Waco, 21-20

AUSTIN (AP) — W. B. Ray, high school of Corpus Christi, scored high 11 points in the first half here Saturday, then came roaring back to win a 21-20 thriller.

The lead came on three successful conversions by Ray Kanipe, but it was the cool quarterbacking by Sonny Crisp and hard running of Buddy Tedder that brought the Texans victory.

The lead changed hands three times in the fourth quarter as Ray scored twice and Waco scored once in only one minute of play.

Ray got in a hole late in the first quarter by trying to quickkick on first down after being penalized to their own one. Gene Ward broke through to block Crisp's kick and Raleigh Harvey fell on the ball for the first score for Waco to score again as a

It took just about one minute for Waco to score again as Ray play bobbed an attempted outside kick. Harvey Neese recovered on the Ray 27. Truman Smith uncorked a pass to Neese good for 32 yards and another score.

In the third quarter, Jimmy Foster recovered Powell's fumble on a punt return on the Waco 18. Kanipe went to the 5 and Tedder scored from the 2.

Ray started off the fourth quarter with a sustained drive of 62 yards with Crisp getting Tedder scored on a 5-yard thrust through tackle and Ray moved out from 14-12.

Harold Cobb returned the kickoff 78 yards for a Waco touch-60 yards and get back out down.

Sul Ross scored in the first period on a pass from Charles Lafoon to Don Bingham.

In the second period East Texas got two touchdowns on passes from James Gray to Self and Rod McCormick.

## Horned Frogs Finish With Record Of 5 Wins, 1 Loss

(By the Associated Press)

Texas Christian won the Southwest Conference football championship Saturday by a half game.

The Christians beat Southern Methodist 13-2 at Fort Worth while Baylor licked Rice 34-13 at Houston to wind up second.

The season ended Saturday except that TCU will be host team in the Cotton Bowl. Baylor is expected to go to the Orange Bowl.

The Christians played in the first Cotton Bowl game 15 years ago beating Marquette. They appeared in the intermission with a 14-0 lead.

Our fishing days are days of eternal expectation and perpetual disappointment.

# Larry Isbell Guides Baylor To 34-13 Win Over Rice Owls

## Bears Get Bid To Orange Bowl Game

By WILBUR MARTIN

HOUSTON (AP)—Larry Isbell led, frustrated and footed Rice in a humiliating 34-13 licking Sunday as Baylor's Golden Bears grabbed for an Orange Bowl bid.

They made it too, the invitation coming a few hours after the final gun sounded on the remarkable action of the nonchalant Isbell.

He ran for one touchdown, passed for another and figured two more as his mates secured second place in the Southwest Conference whacky race.

It was a one-sided football game for 45,000 spectators, despite the seven touchdowns tucked up on the scoreboard and from the outset, there was another penalty rubbed out.

Never much doubt as to the outcome. Baylor dominated the play, punting 59 plays to 20 for Rice in the first half alone.

Isbell made his last regularly scheduled college game and final home town appearance a memorable affair, cockily guiding the Bears to 237 yards on the ground and 191 in the air, accounting for 63 yards running and all of the yardage gained in the air.

Don Carpenter broke the scoring ice in the first period for Baylor, plowing over from the line. He made the final Bear rally, too, this one from the line, the two, passed to Stan Williams from the 17 for another touchdown, and Bob Reid grabbed Billy Ed Daniels' fumble in midair, romping 63 yards untouched to the end zone for still another.

Rice never got the ball enough to do much damage in the game's early moments, but Dan Drake hit Bill Howton and Sonny McCurry with touchdown passes in the third and fourth periods. Another payoff pitch to Howton was rubbed out by an illegal use of the hands penalty.

Drake's first scoring heave went 11 yards and his last six, C. O. Brocato kicked four extra points for Baylor and Bill Wright for Rice.

The win, coupled with Texas Christian's 13-2 victory over Southern Methodist, gave Baylor undisputed second place. The Bears had received feelers from the Orange Bowl and figured to say "yes" if an official invitation was made.

It was a sad swan song for Rice's upstart youngsters, who had surprised everybody this year by finishing in the first division. But they couldn't cope with Isbell and his handrunning backfield mates, Jerry Coody, Carpenter and Mickey Sullivan.

The first Baylor drive came the first time the Bears were good for 91 yards. The second covered 80 yards, the third 45, and three. In between Isbell scored and the final 66.

Drake's passing was Rice's most effective weapon. On the ground he gained 22 yards, but picked up 148 yards passing. Howton caught passes for 124 of them.

The Owls traveled 75 yards on their first touchdown drive that counted and 73 on the second. The one that didn't stand was a 55-yard pass play.

Isbell led Baylor ball carriers with 69 yards. Coody picked up 68 yards.

Isbell was Rice's leading ground gainer with 36 yards. David Johnson had 35.

In the first half, Rice penetrated Baylor's 50-yard line just once and that as the result of Leo Rucka blocking Isbell's punt.

By contrast, the Bears were stopped on Rice's ten-yard line Isbell was the game's top ball carrier and on the one twice.

Rice Coach Jess Neely thought Rice "should have played a little better than we did," but said Baylor had a "great ball club."

Sauer said his Baylor club was the "best I ever coached" and yesterday was Isbell's finest all-round performance.

Isbell was the Southwest Conference's leading passer and runner in the 1950 season.

Georgia Tech, invited early in November, concluded its regular season with an impressive 48-0 conquest of Georgia yesterday.

TIED BY DUKE  
Tech's 11-game season was marred only by a 14-14 tie with Duke. The Engineers defeated Southern Methodist 21-7, Florida 27-0, Kentucky 13-7, Louisiana State 25-7, Auburn 27-7, Vanderbilt 47-7, Wake Forest 27-7, Davidson 34-7 and Georgia.

Baylor won eight, lost one and tied one while taking the runner-up spot in the Southwest Conference, which had one of its wildest and wooliest years, with four teams contending for the title right up to the final week's games.

Bears knocked over Houston 19-0, Tulane 27-14, Arkansas 9-7, Texas Tech 49-20, Texas 18-6, Wake Forest 42-0, Southern Methodist 14-13 and Rice. They were tied by Texas A&M 21-21 and

## All-District 1-A Grid Teams Selected

AMONG THE all-district 1-A gridders named today by the coaches of the district were these athletes from area schools. Left to right they are Ray Dickerson, Ed Wiggins, Jimmie Doon and Bob Clemmons of Lefors and Jackie Freeman and Don Carpenter of White Deer. Two teams were selected by the seven member schools.

McLEAN — (Special) — The District 1-A all-district football teams, first and second string, were announced here Saturday afternoon by Logan Cummings, McLean district chairman. The selections were made upon a poll of the district coaches and players.

The champion Canadian Wildcats and the Lefors Pirates paced the teams with the Cats getting four men on the first team and the Bucs three. Panhandle, Clarendon, Wheeler and White Deer each placed one.

The first team picked by the coaches and players was: Ends — Jimmy Doon, Lefors, junior, and Jimmy Naylor, Panhandle, senior; tackles — Guy Tatum, Clarendon, junior, and Melvin Bigham, Lefors, senior; guards — Dan Conklin, Canadian, junior, and Roy Flowers, Canadian, sophomore; center — Orin

## Navy Middies Blast Cadets To Worst Defeat Of Series

By WILL GRIMSLEY

PHILADELPHIA (AP)—A quick opening break and a 101-yard touchdown, run by plebe John Raster lit a fuse under the lumbering Navy football giant shattered by the one for two others while the final came in the Saturday and sent it stampeding over Army's rag-tag forces for a 42 to 7 victory. It was the most humiliating Army defeat in the 62-year-old service football rivalry.

A crowd of 99,000, sat in awe in Municipal Stadium's huge horseshoe as the battered Middies, a big bungling team that had won only one of its eight previous games this year, poured it on their crib-shattered enemy without mercy.

The worst previous Army shelling at the hands of the Middies, a big bungling team that had won only one of its eight previous games this year, poured it on their crib-shattered enemy without mercy.

PASS INTERCEPTION  
Raster, a lean 19-year-old from Toledo, provided the most sensational play when he intercepted a Fred Meyers pass in his own end-zone and burst up the sidelines like a rifle shot.

Army's warriors, who had been knocking at touchdown door when this swift turn took place, just stood and watched in surprise as the 170-pound defensive back streaked the length of the field for the third of Navy's three first period scores.

The other chief executioners were Mike Sorrentino, a ball-handing hound from Sharon Hills, Pa., and Vic Vine, a slashing runner from Carretville, Ohio.

They engineered the other three Navy touchdowns in first half which followed successively a flubbed opening kick off, a fumble and a short kick by the Cadets.

Sorrentino threw for two of them, a 15-yard pass to

Frank Brady in the opening period and an 11-yarder to Dean Smith in the fourth.

Jack Perkins and Vine plunged over from the one for two others while the final came in the Saturday and sent it stampeding over Army's rag-tag forces for a 42 to 7 victory. It was the most humiliating Army defeat in the 62-year-old service football rivalry.

LONE DRIVE  
Rocked back on its heels most of the day and confused by the shipmen's play, Army mustered one scoring offensive in the third period.

With Meyers and John Wing taking alternate whacks at the ponderous middle forward wall, the Cadets moved 43 yards to a touchdown with Meyers slicing across from the four-yard line.

Navy was so dominant that Bob Zaastrow, the 200-pound star of last year's 14-2 upset victory over Army, played only a few minutes.

Army was saved further embarrassment when the clock froze another Navy drive on the one-yard line at the end of the half.

The Cadets, whose ranks were shattered by the exam-cribbing scandal this summer, showed flashes of a ground attack but never got into the game after the first period.

Navy had 15 first downs to 13 for Army and piled up 287 yards rushing compared with 114 for the Black Knights. The passing yardage was about even—77 for Army and 76 for Navy.

Vine was the leading ground gainer, personally accounting for 108 yards. Sorrentino was credited with 76 yards passing.

The game was witnessed under fair skies and in springlike temperatures by a host of celebrities, including former President Herbert Hoover and Secretary of defense Robert Lovett.

## Georgia Tech Wrecks Pleased With Baylor As Opposition

MIAMI, Fla. (AP)—The Baylor Bears were chosen last night as Georgia Tech's opponent in the New Year's Day Orange Bowl football game.

The announcement was made by Orange Bowl President Stuart W. Patton after Baylor swamped Rice, 34-13, to sew up second place in the Southwest Conference.

Georgia Tech, invited early in November, concluded its regular season with an impressive 48-0 conquest of Georgia yesterday.

TIED BY DUKE  
Tech's 11-game season was marred only by a 14-14 tie with Duke. The Engineers defeated Southern Methodist 21-7, Florida 27-0, Kentucky 13-7, Louisiana State 25-7, Auburn 27-7, Vanderbilt 47-7, Wake Forest 27-7, Davidson 34-7 and Georgia.

Atlanta, Ga. (AP)—The high flying heels of Leon Hardeman and George Malouf cut tremendous gains out of Georgia defenses Saturday as the unbeaten Georgia Tech Engineers moved on to the Orange Bowl with a 48-0 victory.

A full house of 40,000 fans saw the massacre.

Tech, whose record is discolored only by a 14-14 tie with Duke in 11 games, recovered a Georgia fumble by Lauren Hargrove on the Georgia 19 on the game's third play. From then throughout the half, there was no holding Tech and about all Georgia could do was try.

# Childress Bobcats Knock Shamrock Out Of AA Championship Play, 25-7

By WARREN HASSE  
Pampa News Sports Editor

DENVER FIELD, Shamrock — The Childress Bobcats, discarding an inoperative spread formation and returning to their explosive "Y," handed the Shamrock Irishmen their first loss of the year here Friday afternoon, 25-7, knocking the Irish out of the AA playoffs.

With the victory went the regional championship and the right to meet Anson, conquerors of Kermit Friday afternoon, 26-6, in a quarterfinal battle.

A capacity crowd of nearly 5000 fans sat through ideal football weather to see the Irishmen move into a 7-0 half-time lead, only to have the Bobcats roar back with four startling touchdowns to spoil the title hopes of Coach Scott McCall and the rabid Irish fans.

The hard running of Don Carlton, Jimmy Pennington and Paul Hartwick wasn't enough to offset the blazing speed and fine passing attack of the District 3-AA champions, bi-district winners over Quannah last week, 19-7.

### IRISH LONE TU

The methodical, grinding Irish formation started its lone touchdown drive late in the first quarter after a poor punt gave the Irish control on the Childress 25. Pennington, Carlton and Hartwick took turns driving to the goal line with Hartwick turning in the best scamper, a 10-yard blast over leftguard that carried to the Cat 6. As the first quarter ended the Irish were resting on the Cat 1-yard stripe.

On the first play of the second quarter Carlton hit left tackle for the touchdown and then he split the uprights perfectly with a placement to give the Irish their 7-0 lead.

The Irish stopped a Childress drive that began with the next kickoff when Johnny Hartwick recovered a fumble on the Irish 30 to halt the threat. Neither team could get a sustained drive started on the wet, soggy field the rest of the half.

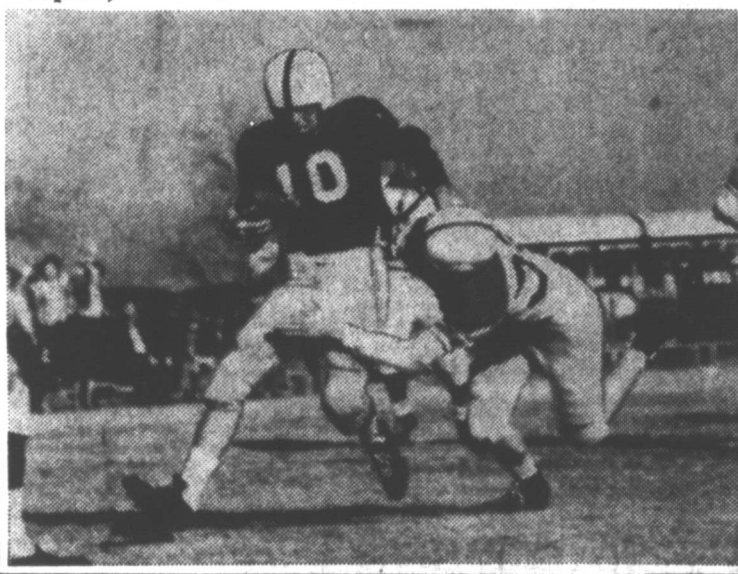

A pass interception to start the second half nearly paid off for the visitors. On the second play after receiving the kickoff, quarterback Charlie Francis' pass was intercepted by LaNoel Castleberry and the Cats started driving. With fourth down coming up and ten yards from paydirt, Castleberry shot a pass into the end zone which R. D. Bradshaw appeared to have his hands around, but in the melee lost the ball.

### PASS HITS

The next time they gained control of the ball they wasted little time. A punt gave the Cats the ball on their own 43. A fumble lost three and a second on third down, Castleberry whipped down pass fell incomplete. A short jump pass to wingback George Crews on the Cat 45 and Crews reversing his field, outdistanced the Irish secondary behind nice blocking, raced the remaining 55 yards to score. Perry Moren booted the

REGIONAL PLAY at Shamrock Friday afternoon saw the above scramble for a pass in the Shamrock end zone with the Irishmen coming down with the ball after J. D. Bradshaw (hands around ball) apparently had caught it. But before the play was completed the three Irish defenders had caused him to lose possession. No. 11 is Irishman Johnnie Hartwick and No. 33, Don Carlton. In the bottom photo, Mickey Compton, who scored two of the Bobcats touchdowns, is pictured taking off on a nice gain as an Irish defender tries futilely to stop him. (News Photos by Don Duncan, staff photographer.)

## Only California Tops Texas in Non-Military Aircraft

WASHINGTON — (AP) — Air-minded Texans rank second only to Californians in the matter of maintaining non-military aircraft active operating status. A recent report issued by the Civil Aeronautics Administration says that as of July 1 there were 4,320 such planes active in Texas as of July 1. California had all states with 6,496; Illinois is third with 3,168. In all three leading states the number was slightly below the figures for July 1, 1950. In this respect, they followed the national pattern. The total number active civil aircraft in the United States was 26,915 on July 1, compared with 27,791 a year earlier. The July 1, 1950, figures for the top three states were: California, 6,820; Texas, 4,438; Illinois, 3,489. In addition to the 4,320 civil aircraft active in Texas as of July 1, there were 2,384 such planes within the state classified as non-active, making a total of 6,704. The total a year earlier was 6,913. One or more planes were active in all but 36 of the 254 Texas counties when the survey was taken in mid-1951. Those with no active planes were: Andrews, Austin, Bureason, Camp, Coke, Cottle, Franklin, Garza, Goliad, Hardin, Irion, Jim Hogg, Kennedy, King, Live, Llanito, Loving, McMullen, Madison, Mills, Mitchell, Newton, Pecos, Real, Roberts, Rockwall, San Augustine, San Jacinto, Starr, Sterling, Stonewall, Trinity, Tyler, Upshur, Wilson, Zapata. Dallas county led the state with 511 active and an additional 17 classified as non-active. Both Dallas and Tarrant (Fort Worth) counties actually showed increases in the number of planes active July 1 as compared with twelve months earlier. On July 1, 1950, Dallas had only 494 active planes and 336 non-active. Tarrant county had 291 active civil aircraft and 156 non-active on July 1, 1951, compared with 285 active and 161 non-active on

## Retired Man Going Back To College

BIRMINGHAM, Ala. — (AP) — The retired president of the South's biggest steelmaking company believes that "if you want to keep up with the times, you have to keep up with youth." Suits his actions to his words, Robert Gregg, 66, plans to enroll as a student at the University of Florida. Gregg retired last Jan. 1 as president of the Tennessee Coal, Iron and Railroad Co. here. He graduated from Georgia Tech in 1906 and received his master's degree at Cornell in 1908, but plans to enroll at Florida as a freshman. He will take courses in physics, chemistry, mathematics and possibly a foreign language. Gregg is building a small home at Gainesville, Fla., where he and his wife will live near the university.

FLYING TRIP — Twenty Girl Scouts and their leaders from Pampa Troops 19 and 28 leave Pampa airport for an overnight visit to Borger where they will be entertained by a Girl Scout in Borger. The girls will return by air today about 4 p.m. One of the troops earned money for the trip through a rummage sale. Troop 19 now has travelled by all means except water. Leader of Troops 19 and 28 respectively are Mrs. Burl Lewter and Mrs. J. C. Steward, Virginia McDonald is executive officer for local scouts. (News Photo)

## Irish Schools Open Fourth Month of Year

SHAMROCK — (Special) — Shamrock schools opened the fourth month of work here Monday after Thanksgiving. Reports cards for the second six-weeks were distributed Wednesday, with principals agreed that marks were generally improved over the first six weeks. The World's first five money-winning horses—Citation, Styxie,

## Enemy Losses in Korea Estimated

WASHINGTON — (AP) — The Army has estimated enemy casualties in Korea at 1,805,877 through Nov. 22. This is an increase of 21,785 since last week. The total included 32,982 Korean prisoners who are now classified as civilian internees. Recently, the Eighth Army began a wholesale screening of enemy prisoners to separate members of regular army units from guerrillas, agents and persons who were captured with enemy soldiers but were not members of organized units. There have been no recent figures on total losses by forces in the United Nations command. The latest estimate on Nov. 1, compiled from various U.N. sources, was 313,711. Many of the figures used in that total were old.

## Beetle Menace Appears Less

COLLEGE STATION, Tex. — (AP) — The Texas Forest Service says the attack of southern pine bark beetle in southeast Texas appears to have lost its momentum. It has killed 80 million board feet of sawtimber and 30,000 cords of pulpwood in the past two years, the service estimated. The beetle's natural enemies have been the primary cause for its decline, the service said. Chief among these is the clerid beetle.

# Lynch-Gilchrist, Brazda-Howe Weddings Announced

## Henry Gilchrist's Will Establish Home In Pampa

In a formal ceremony read November 24 in the First Baptist church at Bryan, Miss Patricia Ann Lynch, daughter of Mr. and Mrs. Shirley A. Lynch, became the bride of Mr. Henry Gilchrist, son of Chancellor and Mrs. Gibb Gilchrist of Texas A & M college.

Vows were exchanged before an altar decorated with gold and bronze pompons flanked with arrangements of chrysanthemums and tall palms. A background was formed by garlands of smilax against the choir loft which was lighted with golden tapers on the railing. Fewer were marked with ribbons and smiles.

Mrs. Robert W. Butler, accompanied by Mrs. Imogene Nash Robertson, sang "I Love Thee" and "The Lord's Prayer." Mrs. Robertson played the traditional wedding marches.

The bride's sister, Miss Carole Lynch, attended the bride as maid of honor. Bridesmaids were Misses Neddie Jane Bullock, Joan Rupel and Mary Ann Richardson of Bryan, Mrs. Bryan Peel, Austin, Misses Lois Agnor, Emily Ann Finch and Patricia Forbes and Mrs. Errol Fry, all of Houston.

They wore similar dresses of gold satin with velvet flowers edging the fitted bodices, and nylon tulle forming the portrait necklines. Their hair hats were trimmed with velvet flowers and each carried a bouquet of pompons.

The bride, given in marriage by her father, wore an original gown of white bridal lace and satin with draped bodice of Chantilly lace. The long tapered sleeves had a pleated ruffle of illusion at the wrists.

The full gathered skirt had an overskirt of rose point lace which flowed into a cathedral length train. Her fingertip veil of imported illusion was edged with the same design of lace and held in place by a lace-edged bonnet adorned with pearlized orange blossoms. Her bridal bouquet was formed of stephanotis, lilies of the valley and white orchids.

Chancellor Gilchrist served his son as best man. Groomsmen were Dr. James G. Gabbard and Joe A. Orr, both of San Antonio, Malcolm Douglass, Pampa; Irvin Carroll, Bryan; James N. Reeves, Houston; Robert G. Schofield, Gainsville; Dr. Louis H. Forten, Dallas; and Frank S. Haines, Jr., Liberty.

The bride's mother wore an original gown of aqua nylon lace and tulle with a matching tulle halo hat. The bridegroom's mother wore mauve lace and crepe with accessories in a lighter shade. Both wore corsages of spider anemone.

Following the ceremony, a reception was held in the Memorial Student Center on the Texas A&M campus. The bride's table was covered with a ruffled nylon cloth with silver punch bowls at each end. White mums and greenery were arranged about the tiered wedding cake.

Following the reception, Mr. and Mrs. Gilchrist left by private plane for a honeymoon. For traveling, the bride wore a brown sharkskin suit with brown accessories. Her hat was beige with brown rhinestone trim.

The bride is a graduate of Stephen F. Austin high school and the University of Texas, where she was a member of Pi Beta Phi, Cap and Gown, Panhellenic Council, Upper class advisor, and secretary for her sorority.

Mr. Gilchrist was graduated from the Consolidated High school, Texas A&M and the University of Texas. At A&M he was co-editor of the Engineer, winner of the Engineering Faculty Senior award and Scholarship Honor Society. At the University, he was associate editor of the Texas Law Review, a member of the Chancellors' Quinmaster and Order of Calf. He served in the Army during World War II and is now associated with Douglas - Maguire - law firm here.

Mr. and Mrs. Gilchrist will make their home at 319 N. Somerville upon their return to Pampa this week end.

## Shamrock Teachers Have Entertainment

SHAMROCK — (Special) — Shamrock teachers had a social hour in the school cafeteria Tuesday night. Sponsors were the classroom teachers organization, headed by H. C. Weatherby, head of the vocational agriculture department.

Committee headed by Weatherby set up the program, which included games. Refreshments of coffee and cherry pie were served.

Weatherby said the group, affiliated with both the state and national classroom teachers organizations, would hold other frolics during the school term.

## Mrs. Locke Gives Review In Miami

MIAMI — (Special) — Mrs. W. F. Locke reviewed a mission book, "Pilgrimage to Latin America," by Everett Hill, Jr., at a recent meeting of the Baptist W.M.S. in the home of Mrs. L. A. Maddox.

This program was given in preparation for the December Week of Prayer, which will be held in the church, Friday, Dec. 7, with an all-day meeting.

MRS. HENRY GILCHRIST

MRS. MELVIN A. HOWE

## Brazda-Howe Wedding Vows Said in Ranger

Miss Beaufort Elaine Brazda, daughter of Dr. and Mrs. A. W. Brazda of Ranger, became the bride of Melvin Arnold Howe, son of Mr. and Mrs. G. L. Howe of Pampa, in a formal ceremony read November 25 in the Ranger First Methodist church.

Rev. Garland C. Lavender officiated at the ceremony read before an altar flanked with baskets of white chrysanthemums and candelabra. Miss Mildred Balch and Mrs. David Pickrell played traditional wedding music and accompanied Mr. Fred D. Baumgardner who presented vocal selections.

Attending the bride as maid of honor was Miss Lois Jean Cooper of Dallas who wore a copper-toned velvet dress with a long, molded bodice accented at the neckline with a band of small lace flowers. The full, floor-length skirt was worn over crinoline.

She carried bronze and gold pompons. Bridesmaids were Misses Jo Oyler, Denton; Melba Creager, Ranger; and Dorothy Imhoff, Albuquerque, N. M. Their dresses and flowers were identical to that of the maid of honor.

Candlelighters were Tommy Booth, Karen Killingsworth and Mary Catherine Rush. Flower girls were Karen Conway and Nancy Lavender.

Given in marriage by her father, the bride wore traditional white slipper satin and chantilly lace. The lace formed an overlay on the molded bodice both in the front and back. The long, tapered sleeves came to points over the wrists. A design of lace starting at the neckline and continuing to the hemline was used on the full, flared skirt. The lace panel extended into a formal length train. Her fingertip veil of French illusion was arranged on a sculptured cap of satin and lace to match the gown. She carried a bouquet of butterfly orchids and stephanotis.

Mr. Alfred Karsten of Dallas was best man, and groomsmen were Robert Imholz, Bryan; Benjamin Holmes, Joe Josephine, Texas; James Conaway, Ranger. Following the wedding, a reception was held in the home of the bride's parents. White chrysanthemums and white spider mums were used in the receiving room. Misses Jeanne Crawley, Doris Parlatin and Katherine Adams assisted.

When the couple left on a short wedding trip, the bride wore a mocha flannel suit. The dressmaker jacket was trimmed with satin binding on the lapels. Cavalier cuffs accented the long sleeves. With the suit she wore reptile accessories and wore a white hat with jewel trim. Her corsage was of orchids.

The bride attended Sophie Newcombe college in New Orleans and is a graduate of Southern Methodist University in Dallas. She is a member of Alpha Delta Phi sorority.

Mr. Howe attended Texas Tech and is also a graduate of Southern Methodist University where he was a member of Delta Sigma Phi.

## Mrs. Friauf Gives Club's Program

Mrs. E. E. Shannahan was hostess to the Twentieth Century club last week for a program on the life of Mrs. George Friauf who recently returned from there.

Mrs. Mike Wilson was introduced as a new member, and during the business meeting, Mrs. Dudley Steele was appointed club reporter.

Attending were Meses. Jeff Bearden, J. L. Chase, M. E. Cooper, G. L. Carduck, M. F. Downs, Philip A. Gates, H. H. Hahn, Leslie Hart, E. L. Henderson, V. L. Hobbs, Rufe Jordan, Myles Morgan, Doyle Osborn, L. J. Zachry and Meses. Steele, Friauf, Wilson and the hostess.

## Home Progress Club Has Friend's Party

MIAMI — (Special) — The annual friend's party sponsored by the Home Progress club, was held Thursday in the home of Mrs. W. F. Locke. Meses. W. D. Allen, C. W. Bowers, C. C. Carr, J. V. Coffee, Ross Cowan, A. H. Gordon, Frank Gracey and W. L. Lord were assistant hostesses.

All arrangements were in charge of the social committee, directed by Mrs. C. H. Mulkey. The meeting was called to order by the president, Mrs. W. C. Scott, and each member presented her guest. The afternoon was spent in playing forty-two. At the conclusion of the games, Mrs. Lona Talley and Mrs. F. S. Parlier tied for high score.

Thirty-four members and guests were present.

## Local Methodists Attend Conference

The District conference of the Methodist church was held this week in Quitaque. Meses. W. D. Allen, C. W. Bowers, C. C. Carr, J. V. Coffee, Ross Cowan, A. H. Gordon, Frank Gracey and W. L. Lord were assistant hostesses.

## The Pampa Daily News Women's Activities

THE PAMPA NEWS, SUNDAY, DEC. 2, 1951 PAGE 17

To MARRY — The engagement of Miss Sandra Jan Shile to Mr. Ray M. Wells, Jr., son of Mr. and Mrs. Ray M. Wells, Sr., of Pampa, was announced this week by her parents, Mr. and Mrs. Harold B. Shile, of Amarillo. The ceremony will be performed December 22 in the chapel of the Polk Street Methodist church with Dr. Eugene Slater, officiating.

ENGAGED — Mr. and Mrs. C. E. McMinn, 322 N. Dwight, announce the engagement and approaching marriage of their daughter, Bernalou, to Pfc. Wesley K. Byers, son of Mr. and Mrs. Floyd Byers of Canadian. Wedding vows will be exchanged in late December in the home of the bride's parents.

MR. AND MRS. CARROLL KILLINGSWORTH

## Miss Vondell Starkey And Carroll Killingsworth Wed

WHEELER — (Special) — The bride chose a street length dress of white gabardine with long fitted sleeves and a v-neck line. Her white hat had a heart-shaped veil. The brim was beaded with rhinestones and seed pearls. Cluster of pearls formed her ear-rings and a borrowed bracelet carried out wedding traditions.

Rev. Robert Webb of the Lutheran Church read the double-ring ceremony before a metal grill arch with baskets of white mums at each side. The arch, immediately following the ceremony with greenery and white blossoms, was topped with a large blue satin bow and wedding bells. Mr. and Mrs. C. H. Starkey, Mrs. Jerry and Paula Faye Killingsworth, Gwynn Crossland was in charge of the guest register. Gienna Hefley and Doris Mahaffey of the cathedral presided at the serving table. The tiered wedding cake, topped with a miniature bride and bridegroom and a flower arch, was at one end of the "Because." "The Lord's Prayer" serving table.

The bride chose chocolate in addition to the traditional brown for her going away ensemble, with pink hat and gloves as color accents. She wore an orchid corsage. After a short street length dress of aqua wedding trip to Carlsbad the couple is at home in Briscoe. The bridegroom is teacher of commercial subjects and basketball coach for the Briscoe schools. He is a graduate of Kelson High school and Wayland College. The bride is employed in the Wheeler (See KILLINGSWORTH, Page 17)

## First Christian Church Social In Canadian

CANADIAN — (Special) — Those attending were Mr. and Mrs. Young Adults Sunday School Mrs. Joe Morgan, Mr. and Mrs. class of the First Christian Mansfield, Mrs. Warren Hill, Mrs. R. A. Flowers, Jr., Mrs. Tuesday night in the home of James Tucker, Mrs. Thomas A. Mr. and Mrs. Leslie Webb, Mrs. Gray, Maurice Bernson and Mr. Webb is the class teacher. and Mrs. Webb.

ENGAGEMENT ANNOUNCED — Mr. and Mrs. V. R. Hightower, Skellytown, announce the engagement and approaching marriage of their daughter, Ramona, to Ensign Marvin P. Thrasher, son of Mr. and Mrs. W. H. Thrasher, Amarillo. The wedding is scheduled December 26 in the Skellytown First Baptist church.

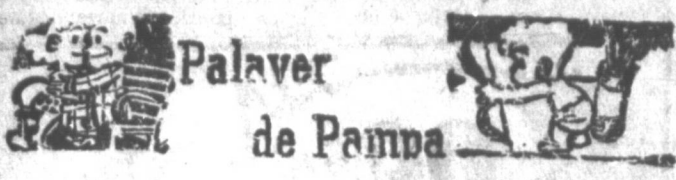

RECENT BRIDE — The marriage of Miss Johnnie Black to Mr. Frank N. Bonner, Jr., son of Mr. and Mrs. F. N. Bonner, 909 Barnard, was announced this week by the bride's parents, Mr. and Mrs. J. F. Black, west of Pampa. Wedding vows were read November 17 in the Methodist parsonage in Clovis, N. M. The bride wore a purple suit with black accessories and wore a white gardenia corsage. Attendants were Mr. and Mrs. Tommy Martin. Mrs. Bonner is a senior at Pampa High school and Mr. Bonner is a senior at Texas A&M.

## Las Cresas Plan Christmas Party

A Christmas party planned for casual and will be held in the near future. Attending the meeting were Meses Pat Cargile, Pat Johnson, Carolyn Willingham, Barbara Miss Judy Followell, 326 N. Southard, Dorothy Roberts, Anita Davey, Frankie Turpin, Janice Fritchard, Gloria Cumbas, Mae and Mrs. Lee Harrach.

DECEMBER 2, 1951

**THANKSGIVING HAS COME AND GONE, TWICE AND PEG HAS BEEN TOO BUSY BEING THANKFUL TO BE POETIC.** Aren't you glad? From the first singing of "America the Beautiful" to the last line of "Now Thank We all Our God," it is truly one of the most poetic times of the year, though, isn't it? It makes me all-quivery inside when I stop to think how really thankful we can be in this country, not smugly self-congratulatory, but humbly grateful for the bounty we enjoy...not only for all the things and qualities usually enumerated, but for having a background of Christian homes, for having had the choice, known only to free men, unscathed by tyranny. The phrase "ancestral memory" (from the recent fantasy, NINETEEN EIGHTY-THREE, wasn't it?) both haunts and challenges me. Liked the way the new Church of the Brethren minister expressed it in saying that our greatest blessings are not the oft-mentioned material ones, but the opportunity to live purposefully. Was curious about the authorship of that axiom he quoted at the recent Thanksgiving service, something about "Thanksgiving being evidenced best by unstinted thanks-living instead of being a purely secular holiday. Was glad to see the Church full almost to capacity that morning, and wasn't it a rewarding service? Wish I had a recording of Dorothy Peacock's rendition of "The Lord's Prayer". Saw the Ayers family, the Frank Dials, Roy Johnsons, Doug Carvers and a good sprinkling of several of Pampa's thirty some-odd churches. Wish we had more community get-togethers like this.

**HAVEN'T THE LAST TWO WEEKS BEEN FULL OF WONDERFUL TREATS, THOUGH?** Knife and Fork Club speaker, Senator Mundt, was one of the best ever, Peg thought. Wish he'd run for president...Was definitely convinced of his sincerity, and heartened by his idealism, in a day when so often we grow discouraged by seeming lack of that virtue in high places. Especially liked his thought that he'd be satisfied if he could just get the people who thought alike to vote alike, regardless of party label. You could have heard a pin drop most any time while he was talking, but interested as I was, I let my roving eye catch the rapt expressions of the Roy Kays, George Friaufs, Fred Thompsons, Orton Carters, E. E. Ehrhardts, E. E. Shalhams, and of course, former Congressman Ben Gull seemed an especially interested part of the audience.

**THEN TO BACK UP BIT,** Peg hasn't really come down to earth since the concert two weeks ago Saturday night. It just doesn't seem fair for a gal to be as good looking, pleasing and gracious, and as smart as Vivien Della Chiesa and be able to sing like a nightingale at the same time! In Peg's humble opinion, though she knows absolutely nothing about music, this soprano is out of the top drawer, and we must hand it to the board of directors (or whoever picks them out) for starting the year off with such a fine artist. Accompanist was able-and-accomplished-at-the-same-time, too. Spied beautifully attired Mrs. Jake Garman, and daughter-in-law, Mary...who's another of those rare combinations of beauty, brains and sweet humility...really one of Peg's favorite persons...Adelaide Skelly and the Irl Smiths' daughter were among the younger set. Heard someone whisper as the Ken Baumgardners were leaving, "Isn't she the cutest thing?.... Looks just like one of the students!" Nice to see Mrs. Carl Wright back in her customary place. Her efficiency is back of the program's success. Isn't Community Concerts Association nearly a decade old in Pampa?

**WOULDN'T IT BE NICE IF WE ALL HAD AS MANY BECOMING HATS AS MRS. BOB CURRY?**...The versatility of Mrs. Bob McCoy, who manages a home, antique shop, and still has time to do nice programs like the one she gave at El Progreso recently. (Also heard nice comment about the Parent Education program on jewelry...believe Mmes. George Hofess and Bob Gordon did the honors.) If we could all be as even-tempered as Mrs. Art Teed, give time for community and school service as Mrs. Bob Andis does...As contagious in our enthusiasm as Miss Clayton (was over at Woodrow Wilson on a PTA chore "other day, when from her, spied her, conducting music class, and believe me, those children were having the time of their lives...Surely was a cute little brown jerkin suit she was wearing... Also, 't would be nice if we all had complexions like Albertine Tripplehorn...If we all were as photogenic as laboratory technician, Carolyn Rowland...if all Thanksgivings like the "two" observed could bring such nice weather for family get-togethers, if we could all just pick up and go all the places we wish to visit...if we could all have put into effect the timely suggestion in Psalm 100, "Make a joyful noise unto the Lord, all ye lands. Serve the Lord with gladness... Come before His presence with singing."

**ENVY MRS. H. H. HEISEKELL'S** unique ability for finding ways to serve those she loves...Katie (Mrs. Key's) cooking, telephone manners...Ever notice how some people, otherwise highly civilized, misrepresent themselves terribly on the phone and in their letters? Wish we could all be as good scouts as the H. D. McWaters... To hear Paul Beisenherz tell it, they're pillars of the local organization, carrying on far beyond what could be considered "the line of duty" towards their own boys. As well informed and helpful to all our contacts as Miss Helen Dunlap, the county home demonstration agent.

**NOT TOO BUSY TO SMILE OR LEND A HELPING HAND DEPARTMENT:** Marvin Bond, Dudley Steele, R. Virgil Mott, Grocer Hal Suttle Sr., and Sam Beget

**PANORAMICALLY...**Saw Pampa Office Supply getting a face lifting...More and more organizations getting interested in Girlstown, U. S. A., and the Salvation Army Milk Fund... (Don't you know Lt. Fred McClure and wife are proud of their new son? The Jaycees did a fine job on Christmas decorations over town. (And weren't we just talking about Halloween the other day? Can't someone trip Time's lightning pace, and slow it down a bit?..) Got an invite to a couple of the grade school's Thanksgiving programs, and wish I could have made them all. Heard especially nice comment about the sixth graders' program at Horace Mann, and the one presented by Mrs. Stowell's fourth grade at Sam Houston. Lotza excitement over the last game of the season, but mingled with all the fun, a little sad nostalgic feeling comes over you when you think of all those seniors...specially DeWey Cusney, John Young, Darrell Wilson and Billy Davis...leaving the squad so soon...But with budding Reaper talent flowering into the Guerilla line-up as effectively as did Harold "Greaser" Lewis in that spectacular victory over the Plainview Bull Pups, we may not have to worry too much.

**WEEK'S BEST SALESMANSHIP AWARDS:** Mrs. R. E. Hamm...Also for salesmanship of services, wish to nominate the Mr. Miller (believe he's Earl) at the watch-repair department in a local drug store. A HAPPY HOME: The John Schoolfields', east of Pampa...

**IN THE LOCAL IDIOM...**"As energetic as" the civic clubs, all of 'em...Junior High dancer, Jan Dyer, Gladys Robinson...Getting back to energy, can't omit Pampa's most energetic inhabitant, The Wind... Was thinking a Monday or two ago, while combatting a mild "squaw breeze" to hang the laundry, of someone's comment about being able to recognize a newcomer to these parts by the way she hangs her clothes...If she does any of these things, you can bet your purtiest cowboy boots she hasn't been here long:-(a) suspends sheets anyway but hem-to-hem; (b) approaches a line of flapping wet garments with a clothes-pin in her mouth (splendid way to lose a tooth); (c) if she lets go of the line between pieces, especially if she's taller than it is...

**ONE OTHER SLIGHT IMPERFECTION** about our climate, which is, in most respects, quite superior, no kidding...is the fact we might never have noticed if a newcomer, charming Mrs. Bill Clark, whose husband is one of the Germanese personnel, hadn't mentioned it...To wit: the fact that leaves don't turn, just freeze and fall, cheating Autumn of her crimson colors which are her garb in many other sections...We must acknowledge and regret this sad state of affairs... But just in case you think of Pampa's autumns as being colorless, suggest you drive out a few miles (the drive to Prices' ranches is especially pretty) and see the purple sagebrush and stuff (Alas! Why didn't I study botany?), not to mention the various colors of the earth itself, the buttes, mesas and rugged sturdiness of the terrain, and the various colors of the earth itself. There is grandeur and an exhilarating sense of elevation about living up here on the caprock, that you just have to get used to, to appreciate fully...But not me!...I gotta keep my mystery to be appreciated! 'Cause without mystery, there'd be no

PEG O' PAMPA

**WHAT'S COOKIN' IN GRAY COUNTY HD CLUB WORK**

By HELEN DUNLAP  
Gray County Home Demonstration Agent

If you are wondering what to give for Christmas, have you thought about a fruit cake? It is fun to make, and may cost no more than other gifts. If your son is in service, what better would please him than a fruit cake made by "mother"? In case he is overseas, you might want to can it to be certain it reaches him in good condition. At any rate this is the time to be making the fruit cake to let it have time to ripen.

If it is to be baked, the containers are simple. You may use coffee pans, individual bread pans or larger loaf cake pans. At any rate, the pans should be lined with oiled paper. A heavy brown paper cut the size of the inside bottom of the pan is good. Oil it on both sides with a cooking fat and place it in the bottom of the pan before you pour in the batter.

Here are the steps for canning fruit cake:

1. Use any good recipe for making fruit cake.
2. After the ingredients have been mixed well, pack the batter into greased number 1 or 2 cans. The cans may be lined with wax paper, if you prefer.
3. Leave 1 to 1 1/2 inch headspace at the top of the can.
4. Seal the first roll on the can and steam.
5. To steam in the pressure cooker, leave the pet cock open, or if using a water bath, do not have so much water that it will boil into the cans. Cover the water bath with a lid.
6. Let it steam 75 minutes for number 2 cans and 60 minutes for number 1 cans.
7. Complete the seal.
8. Process immediately at 10 pounds pressure for 30 minutes. Should you bake your cake, use a slow oven (250 degrees). The baking time depends upon the size and shape of the loaf. For a large cake, it will be about 45 minutes per pound. (Covering the top of the pan with a heavy paper and tying this down will protect the crown from getting too dry and brown. It will not be necessary to all ovens. This table may serve as a guide for baking time.

Weight of cake	Time
1 pound	2 1/2 hours
2 pounds	3 1/2 hours
3 pounds	4 hours

In case you prefer to steam your cake, place over the top of the cake pan of mixture, several layers of heavy wax or brown paper. Be sure to seal these papers and tie them securely to the pan. This prevents a collection of moisture on the surface of the cake.

If you use a pressure cooker for the steaming process, place the pan on a rack in the pressure cooker after boiling water to the cooker and fasten. Leave the pet cock open and steam 55 minutes. Close the pet cock and process at 15 pounds pressure for 15 minutes. This insures cooking the cake in the center. Let the pressure fall to zero. Remove the pan and take off the paper covers. Place in a slow oven 45 minutes to remove the excess moisture and to dry the crust.

If you steam in other vessels, use one with a tight lid and a rack, which will keep the cakes above the surface of the water. Prepare the cake as directed for steaming in a pressure cooker. Steam for about the same time as given for oven baking, less about 30 minutes. After the steaming, take off the top paper cover and dry in a slow oven for about 30 minutes to remove excess moisture.

Cakes may be decorated by placing a few extra pieces of fruit or nuts on the top, either scattered or in set designs. Decorations should be added when the cake has almost finished cooking, because fruits and nuts tend to discolor in the oven. Fruits may be added after the steaming period or when the glaze is put on an oven baked cake. If the surface of the cake is dry, dip the decorations in egg white or corn syrup to make them stick.

A glaze for a dark fruit cake may be made of a mixture of molasses and water. For a light fruit cake, honey and water, or egg white and water may be used. Brush the mixture on the surface about an hour before the baking time is up.

After the cake is baked, remove from the oven and cool thoroughly in the paper in which it was baked. Wrap it then, with a second heavy paper (waxed paper is preferred) and tie in place.

An old stone crock is an ideal container for storage, but other tight containers may be used. In a very dry climate, it is best to supply some source of moisture during storage. An apple or orange in the container with cakes will give off enough moisture to keep cakes from drying out. This fruit should be replaced frequently.

### Professor To Fight Wife's Divorce Plea

LOS ANGELES — (AP) — After a wife has sued for divorce, it's not her business whether her husband occupies a motel room with another woman. That is the basis on which Dr. Silas Medford Wesley, resigned University of Southern California psychology professor, complained, "he'd go to his ac-cordian and play it, ignoring me. University of Minnesota."

### Personnel For Annual Presentation Of "Messiah" Complete; Set For Dec. 14

The Pampa Civic chorus, as-sisted by members of the Am-arillo and Borger choruses, will present "The Messiah" at 8:15 p. m., December 14 in the Pampa Junior High school auditorium. Mrs. May Foreman Carr is director and organizer of the chorus, and Mr. Clyde Roller of Amarillo will be guest conductor. Mrs. Ernestine Holmes Scott and Mrs. Carr will accompany the chorus.

Soloists will be Mrs. Kay Fan-cher, Mrs. Lucille Hinson, Miss Edith Kral, Mrs. Dorothy Pea-cock, Mrs. Howard Weaver, Mrs. Loyd Wilson, Miss Evelyn Clay-ton, John W. at 1:30, and Bill Myers, Bill Hutchinson, Kenneth Baumgardner, Virgil Mott and Roy Johnson.

Among the sopranos are Mrs. Lynn Boyd, Mrs. R. B. Dial, Mrs. J. W. Garman, Margaret Humphries, Betty McKinney, Mrs. W. C. Scott, Rochelle Smith, Mary Edna Tarpley, Anna Merle

### Teen Topics

By RUBY POTTS  
4-H Advisor

As fast as the clock ticks and pages of the calendar turn, you can bet that Christmas is coming your way. No holiday is more welcome. But it's high time to remember that along with the magic and the mistletoe, the star on the tree and the stars in the eyes, Christmas spells PRESEN-ces.

One unusual, attractive and in-expensive gift you teenagers can make for the feminine names on your list is Christmas corsages. The first thing you need to do is to get all the necessary supplies: heavy aluminum foil, pipe cleaners, colored tinsel, small Christmas balls and bright colored ribbon, and a stapler.

Here are the step by step directions:

1. Bend the pipe cleaner about 3/4 inch from the end, so that it has the appearance of a seven. (7). Now, use plenty of glue. Then put the bent end of the pipe cleaner into the Christmas body to allow at least 30 minutes to one hour for drying.
2. The aluminum foil is used to make the background for the corsage. It is up to you to select the size and shape you prefer. Draw an outline of four or five leaves. Cut out the leaves, and mark the veins of each leaf with a pencil. Take a piece of white cardboard about 1" by 2 1/2" and staple on the back side of the leaves you have just made. The cardboard is used to give body to the corsage.
3. If you are planning to use tinsel, it should be arranged and stapled on the leaves.
4. Place the colored Christmas balls on the leaves and staple. (If you prefer colored pipe cleaners you can use colored ink or cake coloring). Twist the ends of the pipe cleaners into a curled effect.
5. Use a festive colored ribbon for a bow to add the finishing touches to your corsage.

Small Christmas balls and pine cones can be used to enhance the corsages. Place drops of glue on the ribbon or Christmas balls, then sprinkle with silver glitter. What could be nicer?

The name Puerto Rico comes from the Spanish and means "Rich Port."

New York has been the most populous state in the Union since 1820.

The principal crops of Bulgaria are wheat, rye, barley, oats, corn, potatoes, tobacco and fruit.

### Calvary Baptist Circles Meet For Programs Stressing Christmas Theme

First of several Christmas pro-grams was presented at circle meetings this week of the Cal-vary Baptist WMU.

The Branch Circle meet-ing in the home of Mrs. Andrew Fisher, heard a devotion by Mrs. George Moore after which the following women presented short talks: Mrs. Andrew Fisher "Christmas in many lands," and Mrs. Wes Langham, "Christmas near Bethlehem."

Other parts were given by Mrs. Martha Walker, Mrs. A. W. Lunsford and Mrs. Floyd Vaught. Attending were Meses Charles McGahen, Martha Walker, Alma Walker, Jack Robertson, and Meses Langham, Walker, Luns-ford, Vaught and Fisher.

The Kathleen Mallory circle met in the home of Mrs. C. A. Fixler for a mission program. At-tending were Meses Clyde Frisco, Kenneth Lister, W. B. Swearinger, C. E. Humphries, Alma Holmes, Ben Walker, C. Davis, and Fixler.

Mrs. A. E. Elwess was hostess to the Winnie McGraw circle. Mrs. Austin Ruidick gave the devotion on stewardship, and Mrs. Bert Mitchell and Mrs. El-wess gave the prayers.

Those present included Meses Roy-Agee, Truett Stovall, R. O. Clement and Meses Ruddle, Mitchell and Elwess.

Mrs. Jack Bronmonger was hostess to the Vada Waldron circle with Mrs. C. W. McGahen, circle chairman, presiding.

Mrs. Graham Reeves had

**KILLINGSWORTH**  
(Continued from Page 17)  
office of the Wheeler County Vocational School for Veterans.

Out of town guests at the wedding were Mr. and Mrs. Walter Sites of Mayfield, Okla., Mr. and Mrs. Troy Sites of Mayfield, Mrs. Afton Williams of Canyon, Mr. and Mrs. Gwynn Crossland of Amarillo, Mr. and Mrs. William Hart of Borger, and Mr. and Mrs. Evan Fuchs and their daughter, Chloe Ellen.

**ENGAGED** — Mr. and Mrs. M. W. Stockton, 615 N. West, announce the engage-ment and approaching mar-riage of their daughter, Mrs. Lucille Miguez, to Mr. Bill Stephens, son of Mr. and Mrs. Jeff Stephens of Comanche, Okla. The wed-ding will be solemnized January 11 in the home of the bride-elect's parents.

### Beauty After Forty

The After Forty woman has so many facets to her Personality and Charm that she should take advantage of all of them.

Elegance and beauty become the mature woman. She should put the accent on her Beauty Potential. Pearls flatter and warm the skin and nothing is more attractive than a necklace of cultured pearls caught with a multi-jeweled clasp

and, of course, matching pearls on the ears. For added grace the pearl bracelet is the perfect foil for the shorter sleeve length.

For pure Drama the smart After Forty woman should wear the newest, the most intriguing fash-ion, scatta-sticks, designed by Mar-chal of Fifth Avenue, well known for novel and unique jewelry de-signs to enhance the elegant ap-pearance of women.

The smartest trick of fashion is the tiny, understatement pill-box, fashioned of luscious velvet and across the front are thrust a collection of scatta-sticks in gold; miniature animals, a jeweled man-agerie—a cat, a monkey, a rabbit, two cuddly cinnamon bears, or any animal that you find attrac-tive, even to a circus bear. The pins stand straight up but are se-cured by a safety catch. You will create conversation with this clever idea. It will make you feel young and gay and quite in the fashion know-how!

The fashions of this season call for handsome materials; deep, rich fabrics, which are perfect for the After Forty woman. Jewels glitter throughout any fashionable gar-ment and pearls gleam with soft-luster when worn by the well-coiffed, well-dressed woman who has captured Beauty After Forty.

There is Glamour in your After Forty world, play up to it, drama-tize it, make the most of your particular personality!

H.; Jenny Kelley, Cleveland, Tenn., and Mary Ann Goertz, Red Rock, Tenn.

### King Farouk Is Accepted By Vatican

CAIRO, Egypt — (AP) — The Vatican apparently has accepted King Farouk as ruler of the disputed Sudan as well as King of Egypt.

A foreign office spokesman said the Vatican has agreed to accept a new Egyptian minister to the Holy See bearing credentials styling Farouk King of Egypt and the Sudan.

Britain sharply disputes Farouk's right to extend his reign to the Sudan, the vast African territory to the south of Egypt, which has been ruled jointly by Britain and Egypt since 1899. The United States

supports the British stand. Egypt cancelled the 1899 agreement last month and on Oct. 18 the Egyptian parliament expanded Farouk's title to include the Sudan. The change in title has delayed official recognition of several new foreign diplomats who were accepted before the change but arrived afterward with documents referring only to the King of Egypt.

Ahmed Rashid Bey, now Egyptian ambassador to Belgium, is the new minister accepted by the Vatican.

John A. Sutter, on whose property gold was first discovered in California, was a Swiss immigrant.

### Millionth Traffic Victim To Die Dec. 21

CHICAGO — (AP) — The 1,000,000th traffic death in the United States may be recorded on Dec. 21.

The National Safety Council said today that its estimates indicate "M Day" will fall on that date.

The council reported that its tally for October, plus special weekly reports for November from state accident record bureaus, had raised the grand total through

yesterday to approximately third week in December. With the October statistics in hand, it announced the probable date for the first time. That leaves just 2700 lives to be lost before victim No. 1,000,000 is counted. If "M Day" occurs on Dec. 21, it will be precisely 51 years, three months and seven days after the first known motor vehicle death was recorded in 1889 in New York City. The date could be postponed, said the council, if "The drivers get good or the weather gets bad." "We can't depend on the weather," it added, "so let's hope and pray that the drivers get good and delay this tragic event at least until after Christmas." October fatalities totaled 3765. That was the heaviest toll for any month since December, 1941. The council earlier had figured that the 1,000,000th death would be counted near the end of the year. Women have many faults, but men have only two — everything they say and everything they do.

DEC 2 5 1

**Settlement Sought** — Indonesia announced she will send a 17-man delegation to Holland to try to negotiate a settlement of differences over the small island of New Guinea and existing treaties between the two countries. Bear cubs are surprisingly small at birth, being about eight inches long, and weighing from nine to twelve ounces.

**Judge Dismisses 13 Suits Against Insurance Concerns**

BOSTON — (AP) — A federal judge has dismissed 13 suits brought by a group of minority policy-holders against two big Boston insurance companies in connection with multi-million dollar loans made to the Texas Petroleum Co., a Texas oil development.

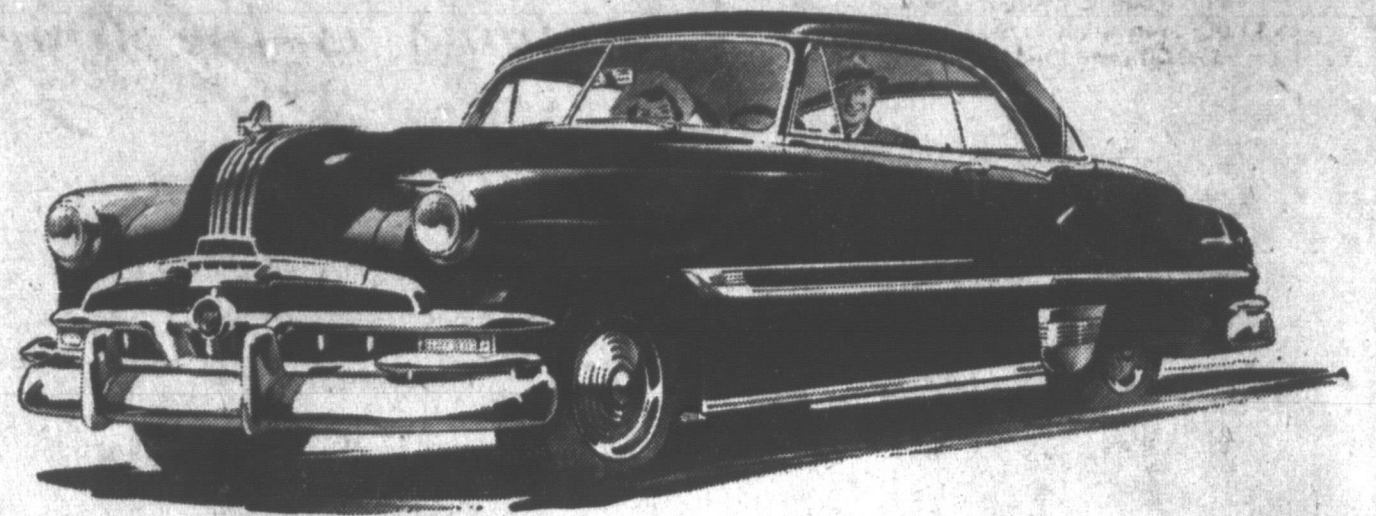

Federal Judge Charles E. Wyanski, Jr., yesterday dismissed the suits "on the merits" of the case and said he would not grant the plaintiffs the right to amend their claims.

The policy holders charged that the John Hancock and Massachusetts Mutual Life Insurance Co. granted loans of \$7,500,000 while the Texas company was insolvent.

The suits, filed at various times over a period of 15 months for unpaid balances of the loans, named in the actions 15 Hancock and 17 Massachusetts Mutual directors, brokers and attorneys.

The suits charged the loans were made for the purpose of "bailing out" and otherwise assisting relatives and business associates of the directors.

The defendants denied all the allegations and maintained the Texas company was solvent.

1952 PONTIAC — Pampan are being invited to visit Noblitt-Coffee Pontiac Monday to see and test drive the 1952 Pontiac featuring dual range performance. The dual range addition is a new adaptation to Pontiac's Hydra-Matic drive, which enables the driver to

set the new transmission into traffic range for powerful acceleration, then flick into economy range for long, sustained driving. Also featured is Silver Streak styling, new color ensembles, non-glare glass throughout and twin-duct, built-in ventilating system.

**Five O'Clock eau de parfum**  
**last so long?**

ONE of the remarkable things about Gourielli's FIVE O'CLOCK eau de parfum is that it lasts so long. You can put it on at teatime, and it will still be enchanting and fragrant at dawn! Gourielli does this by super-concentrating the scent.

The other remarkable thing about FIVE O'CLOCK eau de parfum is the scent itself. There is nothing like it—nothing you can even compare it to.

Gourielli has blended jasmine and rose and sandalwood and other costly essences into an absolutely unique fragrance. You'll just have to come in and let us try some on your wrist—it's better than all the adjectives in the world.

As a matter of fact, why not come in today? You'll recognize FIVE O'CLOCK eau de parfum by the exquisite little cocktail shaker bottle with the golden top. 2 ounces cost 3.00. 4 ounces 5.50.

(The trial whiff, of course, is free.)

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

Published daily except Saturday by The Pampa News, Atchison at Somerville, Pampa, Texas, Phone 666, all departments. MEMBER OF THE ASSOCIATED PRESS. (Full Lease Wire.) The Associated Press is entitled exclusively to the local news published in this newspaper as well as all news dispatches. Entered as second class matter under the act of March 3, 1879.

Subscription Rates: By Carrier in Pampa 25c per week. Paid in advance (at office). \$1.00 per month, \$4.00 per quarter, \$12.00 per year. By mail, \$1.50 per year in retail trading zone. Price for single copy 5 cents. No mail order accepted in localities served by carrier delivery.

We believe that one truth is always consistent with another truth. We endeavor to be consistent with the truths expressed in such Great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these moral guides, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

WEEK FROM HUNGER

As everyone knows, there are approximately 13 weeks, or 91 days, in any three-month period. But this is only according to the calendar. The Department of Commerce reveals there will be nearly 100 "weeks" celebrated to promote something or other.

The notion held by some that Taft is the best man but can't be elected isn't borne out by the facts. The New Deal Democrats, New Deal Republicans, the CIO, AFL, and the whole kit and kaboodle of left-wingers all went together in Ohio at the last election with just one objective—GET TAFT. They spent more money than has ever been spent on a state election and it was doubtful if Taft could possibly squeeze through. Yet, when the votes were counted, he had snatched his opposition under a landslide. It takes a vote-getter to do that, and the chief of justice of the Supreme Court, Old William Howard Taft wasn't spectacular but by and large he was consistently conservative, an able administrator, a man of business and usually careful not to jump on the rights and liberties of the individual citizen. He took his responsibilities seriously and kept the dignity of his office on a very high plane.

It is true that the Senator lacks the mighty personality and magnetism of a Theodore Roosevelt. He isn't the dynamic, bombastic type. But neither was his father, who not only made a good President, but later on a good chief justice of the Supreme Court. Old William Howard Taft wasn't spectacular but by and large he was consistently conservative, an able administrator, a man of business and usually careful not to jump on the rights and liberties of the individual citizen. He took his responsibilities seriously and kept the dignity of his office on a very high plane.

When that week - of - the future arrives, we shall celebrate it with all vim and vigor and we shall call it "National No Week at All Week."

Time To Look Skyward

Pampa recently approved bonds for civic improvements such as streets, water and sewerage systems - all of them, or connected with the ground - and now it appears it's time for the community to look skyward.

Pioneer Airlines will be heard by the Civil Aeronautics Authority on Feb. 1 on its application to provide air service to Pampa and points as far south as Dallas and Fort Worth. Chamber of Commerce and city officials will appear at the hearing to assist the airline.

The second proposal now pending is a Civil Aeronautics board hearing Dec. 3 on Central Airlines' application for a permanent permit to operate in Pampa. A group of Pampans will attend the hearing to point out that loss of the airline service would deal a serious blow to the community, especially in the matter of fast mail service.

Many authorities are convinced that the air age is still in its infancy and they predict great things in the way of new unheard of speeds and conveniences for air travel. The predictions certainly are not unreasonable if one considers that 19 years ago the fastest planes would streak across the sky at speeds exceeding 700 miles an hour would have met with solid disbelief on all sides.

But whether the predictions are true about the future of the air age, we must realize that air travel is here to stay.

Many of our American cities and towns came into existence because transportation in the form of a railroad came their way. If Pampa is to maintain growth, we must keep pace with transportation - which means air travel.

Our civic leaders realize this and are spending a great deal of time and effort to obtain all facilities possible for air transportation. They will need help from everybody in the community.

It is indeed time for Pampa to look skyward.

BAXTERS VIEWS

DAVID BAXTER

LOOKS like the 1952 political campaign is already starting, what with Taft having announced and others being galvanized into making early jumps.

Barring certain acts of God, 1952 could be the most crucial election year in American history. Indeed, if the internationalist and socialist planners stay in the saddle it could well mark the END of American history.

Right now there is only one statesman (most of the crop being mere politicians) whom I could give the edge over Taft, and that is Senator Harry Byrd of Virginia, a Democrat. But Byrd has no chance of winning the Democratic nomination. The socialists are too strong. His best bet is to measure up to his finest ability in serving the nation's best interests in common cause with Taft and others against the socialist planners.

Taft is not without his faults and he has compromised more than once where he should have been adamant, but he certainly comes nearer to being a national figure in public life than any other figure in public life excepting Byrd. In other words, it looks as though Taft were the best the patriots can get.

The notion held by some that Taft is the best man but can't be elected isn't borne out by the facts. The New Deal Democrats, New Deal Republicans, the CIO, AFL, and the whole kit and kaboodle of left-wingers all went together in Ohio at the last election with just one objective—GET TAFT. They spent more money than has ever been spent on a state election and it was doubtful if Taft could possibly squeeze through. Yet, when the votes were counted, he had snatched his opposition under a landslide. It takes a vote-getter to do that, and the chief of justice of the Supreme Court, Old William Howard Taft wasn't spectacular but by and large he was consistently conservative, an able administrator, a man of business and usually careful not to jump on the rights and liberties of the individual citizen. He took his responsibilities seriously and kept the dignity of his office on a very high plane.

It is true that the Senator lacks the mighty personality and magnetism of a Theodore Roosevelt. He isn't the dynamic, bombastic type. But neither was his father, who not only made a good President, but later on a good chief justice of the Supreme Court. Old William Howard Taft wasn't spectacular but by and large he was consistently conservative, an able administrator, a man of business and usually careful not to jump on the rights and liberties of the individual citizen. He took his responsibilities seriously and kept the dignity of his office on a very high plane.

When that week - of - the future arrives, we shall celebrate it with all vim and vigor and we shall call it "National No Week at All Week."

The second proposal now pending is a Civil Aeronautics board hearing Dec. 3 on Central Airlines' application for a permanent permit to operate in Pampa. Better Jobs

By E. C. HOILES

A Statement Accredited To Jesus That Seems To Imply Two Masters

There is one passage in Matthew, Mark and Luke accredited to Jesus that I think has caused much confusion. Since I have never heard a rational explanation of this statement, I want to experiment and try to explain it with the hope that someone will point out my errors. A good way to learn is to think out loud and have someone point out one's errors.

The statement referred to is: "Render therefore unto Caesar the things that are Caesar's and unto God the things which are God's." Matthew, Mark and Luke quote practically the same thing. The Moffatt and Goodspeed translations change the text very little. Moffatt says: "Give Caesar what belongs to Caesar. Give God what belongs to God." Goodspeed gives about the same translation as Moffatt.

Of course, this statement means render unto the government what belongs to the government, and because in this case Caesar stood for the government.

However, this statement does not give any enlightenment to the individual as to what belongs to the government and what belongs to God. The statement, of course, was made to the Pharisees who were not very much in sympathy with the doctrines of Jesus. They were trying to ask Him a question that might get Him into trouble. Possibly the explanation for this statement accredited to Jesus is that He used this method of evading a direct answer.

Why So Harmful? The reason that this statement seems to me to cause a lot of confusion is that it leaves the impression that an individual can be loyal to two masters - the government and to his own conscience or to God. It seems to me that it implies that the state or the government has a right to do things that no individual has a moral right to do. In other words, that you can serve two masters or two gods.

And this theory that you can serve two masters and two gods is entirely contradictory to the whole philosophy of Jesus Christ that you can only serve one god. This statement is invariably defended by church people in their defense of some form of statism or collectivism. Of course, they never attempt to explain what belongs to the government and what belongs to an individual's conscience.

The "Free Thinkers", or men who do not believe in the inerrancy of the Bible, would undoubtedly explain this statement on grounds that it is a misquotation and that Jesus never really made this statement. Remember Thomas Jefferson wrote:

"Among the sayings and discourses imputed to him by his biographers, I find many passages of fine imagination, of great energy, and of the most lovely benevolence; and others again, of so much ignorance, so much absurdity, so much untruth, charlatanism and imposture, as to pronounce it impossible that such contradictions should have proceeded from the same being. I separate, therefore, the gold from the dross; I restore to him the former, and leave the latter to the stupidity of some, and the rancor of others. Of his disciples, of this band of dupes and impostors, Paul was the great Coryphaeus, and first creator of the doctrines of Jesus."

This was included in a letter that Jefferson wrote to W. Short in 1820.

That solves the problem for some people by denying that the statement was ever made by Jesus. But that does not solve the problem if Jesus really made the statement on any other basis than a method of getting out of trouble that the Pharisees were trying to get Him into.

This statement, of course, was made to the Pharisees and not to his disciples. At that time people knew very little about a limited government. They were used to having the government direct their lives. It was a new statement, as far as the times were concerned, for it implied that there were things that the state had nothing to do with and that the individual's conscience was above the state. At that time, of course, the Declaration of Independence had not been written that says: "governments derive their just power from the consent of the governed." But the whole philosophy of Jesus would indicate that He believed in one god - one master and that loyalty could not be divided.

Or possibly Jesus meant that an individual was to support the government or render service to the government for things that it should do better and wisely than they could be done by individuals. But this is hard to conceive because individuals have a right to voluntarily cooperate and in so doing can voluntarily do things better than they can be done on a compulsory basis, as is the case with government.

At any rate, the belief that there are two standards and that the government has a moral right to do things that are immoral for an individual to do is a belief that is contrary to the Commandments and the Golden Rule and the Declaration of Independence. It is a belief that leads to long periods of unemployment, unnecessary poverty and misery, one war after another and into a government planned economy.

I would be glad to have someone explain this passage to what I agree rationally with other teachers of Jesus.

Q - What are some of the new medals established in World War II?  
A - Bronze Star Medal, Air Medal, Legion of Merit, American Defense Service Medal, Army of Occupation Medal World War II, The Distinguished Unit Citation, Medal for Merit (for civilians only), and Victory Medal World War II.

THE QUESTION: Does Pampa need a Community Chest?

R. M. Samples, store manager: In my opinion, a Community Chest would go a long way toward obtaining a 100 percent participation in fund campaigns. I think each individual would give more if he or she was required to give only once instead of many times. A Community Chest would also make collection easier. I believe it is a project that only needs to be sold to the public.

Mrs. Demaris Holt, housewife: "Yes, I am convinced that a Community Chest would be a good thing for this community. It would put all the money in one project, cutting down on time and effort that now goes into many separate fund campaigns. And too, I think a Community Chest operation would induce people to give more since it would be the only donation they would be required to make during the year."

Clyde Oswald, pharmacy owner, 410 W. Texas: "Yes, I am convinced that this community should have a Community Chest or some similar organization to take care of fund drives. For my part, I would rather give all at one time, by check, for a year instead of being inconvenienced every few weeks by collections. A Community Chest would probably save a lot of time, for merchants must devote a great deal of time working on each separate contribution."

W. A. Patton, 324 W. Craven: "I think a Community Chest is long overdue for this community of Pampa. I feel it would solve a lot of the problems connected with running fund campaigns which we now give every few weeks by collections. If a Community Chest or similar organization were to be organized, I believe it would be of real service to the community."

Jones - Good evening, old man. Thought I'd drop in and see you about the umbrella you borrowed from me last week.

Brown - I'm sorry, but I lent it to a friend of mine. Were you wanting it?

Jones - Well, not for myself, but the fellow I borrowed it from says the owner wants it.

Dollar Shortage

As a matter of fact, if both we and they only knew it, our outpouring of dollars in recent years is the cause of this so-called "dollar shortage". It actually is not a dollar shortage; it is a goods shortage. More than that, it is a morals shortage. Our hand-out of dollars has encouraged laziness and discouraged self-reliance. This situation can be illustrated by almost the ultimate in illustrations; namely, the fact that we are now "carrying coal to Newcastle". Britain has traditionally depended upon the export of coal from the United States. The coal was still in the mines in abundance, but the coal miners had become accustomed to being taken care of by their government - their own or ours - and they simply wouldn't dig the coal sufficient to supply their own needs, much less for export.

The British weren't able to buy as much of our coal as they wanted, due, they say, to a dollar shortage. But a dollar shortage wasn't their real trouble; their real trouble was a shortage in thrift and energy and self-reliance. Britain didn't need more dollars to buy coal; Britain simply needed the efficiency of private operation of their coal mines rather than the bungling of government operation; Britain simply needed the incentive of free enterprise rather than the stagnation of state socialism.

If I remember my history correctly, there was a time back in the early days of our own country when we had a pound sterling shortage and a double dollar shortage and a gulder shortage and a lot of other shortages in the world currencies we were using at the time. This shortage has been taken care of in the succeeding years in the only way it can be done soundly and honestly - by the hard work and thrift and ambition of the people of the United States.

It is not to be believed this nation would ever have amounted to any more than a tinker's dam had these currencies been handed to us on a silver platter. People just don't make progress that way.

Now, that the United States has attained a position of pre-eminence among the nations of the world and the American people have attained the highest standard of living the world has to give recognition to, and regain, the qualities that built our economy in the first place. The fact that is going to bring us up with a jolt some of these days before long is that the actual dollar shortage - honest dollars, that is - is right here in our own country.

As long as we have dishonest dollars in this country - and we have had them ever since we went off the gold standard in 1933 - we shall have a dollar shortage. At least, that's what we shall call it, but actually it will be a shortage in morals. As long as we can print dollars without having any honest value back of them - and that we are constantly doing - the supply of money will continually outstrip the amount of goods produced. This will cause prices to continue to rise, thus giving the illusion of a dollar shortage, when actually all we need to do - in our country as well as in the rest of the world - is to go back to a sound currency and the willingness to work for a living.

The prime contractors that went only to ten companies originally, have in effect, been cut up into more than 100,000 separate pieces and scattered throughout the entire industrial field - yet even this is only the beginning." Mr. Fairless said, "When just one of these hundred thousand orders comes to U. S. Steel, for example, we in turn, must employ nearly 54,000 other companies to provide us with the things we need in making the steel and cement that is wanted. In fact, 40 per cent of all the money we take in each year is paid to these suppliers, and each of them, in his turn, will pass part of the work and the money along to his suppliers. And so it will go, in a chain reaction, until the original prime contractor has been subdivided into countless millions of individual orders."

The Armed Forces acted wisely in awarding prime contracts to "industrial giants". With the whole future of mankind at stake, they followed the one sane policy of giving each job to the company, which with the aid of thousands of small suppliers, could do it best and quickest.

Meanwhile, small firms seem to be doing more than all right in their participation in the defense program, it looks "kinda like" the members of the Senate Small Business Committees in their overzealous solicitude for small business have been developing some unnecessary gray hair.

International Whirligig.

Russians Spend Freely To Spread Lies Against U. S.

By JOHN FISHER

Russia's furious protests to the United Nations that America is violating a 1933 anti-subversive pact are based more on the fear of our propaganda behind the Iron Curtain than of aid in the immediate future to armed uprisings.

Agents of the various undergrounds were pleased when \$100,000,000 for aiding Russia's victims was authorized in the Mutual Security act of 1951. They hoped some of this money would be used to furnish resistance movements with paper, ink, printing presses, radio transmitters and other machinery for propaganda.

News does penetrate the sealed borders of the Soviet bloc. The Voice of America and other outside radio broadcasts reach people of the Communist press would not be constantly calling it the "Roar of the Pentagon" or the "Shriek of Wall Street" in attempts to refute it.

Outside papers also are circulated by brave men and women and many other information devices are effective. Nevertheless, the amount of information which the free world spreads to Communist countries is very small in proportion to that which the Reds deluge on their and other peoples.

A few days ago Edward W. Barrett, assistant secretary of state for public affairs, warned that the United States was losing out in the global cultural war with Russia.

DISTORTED FACTS He reported that last year the Soviet Union sent abroad 39,000 scientists, athletes, musicians, actors, writers and other artists to boom Communism and smear freedom. It spent \$150,000,000 for propaganda in France alone - \$50,000,000 more than the all-purpose money in the Security Act to which the Kremlin takes such strong objection.

All sorts of unfair methods and clever schemes are used to blacken our reputation in the world. The Tass news agency in Washington and New York cables and mails to Russia news of American life which is twisted into half-truths and lies and then sent out in various publications printed in English and circulated in America and Europe.

The Moscow crew takes pains to reach every possible ear. For example, it has been reported that the deported vice king of Lucania had given Martin a letter of introduction to Mr. "Rockefeller" top banker in Wall St. But when the "arriving" news of the adventures in the New York financial district.

"We found ourselves swept up by a mob," said the writer, "and carried to the Stock Exchange. Signs of panic were on the ghastly faces. All were screeching advertisements of the war. 'This is a possibility of peace in Korea,' replied the American banker. 'It is too dreadful to imagine.'"

The episode reappears in the Prague, Czech Slovac, "A new fear has been born in America," it charges, "the Korean Peace Crisis. Armament shareholders have become victims of panic over the prospect."

The shocking official reports from General Eisenhower's headquarters on the killing of United States prisoners of war sparked MOR MOR MOR MOR MOR MOR.

PANIC-A LA RUSSE A sample of Russian anti-American propaganda circulated in England is the printed and developed adventures in the United States of a fictitious "Martin Chuzzlewit." The writer explains that the deported vice king of Lucania had given Martin a letter of introduction to Mr. "Rockefeller" top banker in Wall St. But when the "arriving" news of the adventures in the New York financial district.

"We found ourselves swept up by a mob," said the writer, "and carried to the Stock Exchange. Signs of panic were on the ghastly faces. All were screeching advertisements of the war. 'This is a possibility of peace in Korea,' replied the American banker. 'It is too dreadful to imagine.'"

The episode reappears in the Prague, Czech Slovac, "A new fear has been born in America," it charges, "the Korean Peace Crisis. Armament shareholders have become victims of panic over the prospect."

Success Secrets

By ELMER WHEELER

Every man in a while I hear one woman refer to another by saying "she's just a secretary."

Such a statement is not only unfair to the woman concerned but is a sign of ignorance on the part of the person making it. Hundreds of famous people, including two former presidents - Woodrow Wilson and Herbert Hoover - began their careers by becoming secretaries.

Any one - man or woman - well can start on the way to a job of importance by traveling the secretarial route.

There are few better opportunities to learn a business than in the secretarial field. But when women were employed to relieve men for military service during the war, they took over the field.

During almost the same period in which they were taking over as secretaries, women began to acquire more and more of the wealth of our country.

Perhaps the fact that women were really learning the basic facts of business - as secretaries - helped them acquire more than has of our wealth.

So, next time someone says "she's only a secretary," perhaps you'll want to remember that secretaries not only rule their offices - but, eventually, own them!

# Record Turnout Expected at AP Banquet Wednesday

## New Gas Wells Set The Pace For Panhandle Oil Activity

Gas completions set the pace in the Panhandle field last week as operators completed 15 new gasers for a total increased potential of 79,028 MCF.

One wildcat was staked by Ray A. Albaugh in Childress county. The venture will be a 10,000-foot test located seven miles southeast of Memphis. Four wells were plugged in the area, two of which were in Carson and two in Gray county.

## World Crude Production Takes Drop

**OKLA. Okla.** — World crude production in September averaged approximately 25,000 barrels daily below output in June which was the last full month prior to the shutdown of the main petroleum industry. The Journal has reported.

The Journal's tabulation showed September world production at 11,757,000 barrels daily, including estimates for Russia and Communist-dominated countries of Eastern Europe. World production reached a high in June with a daily average of 12,004,000 barrels daily. In July when most of the main fields were closed, there was a loss of 1,244,000 barrels daily when the world total was 10,513,000 barrels daily.

Production in the United States rose about 22,000 barrels daily to a new high of 6,284,000 barrels daily. Venezuelan production was at a new record of 2,200,000 barrels daily, a gain of 16,000 barrels daily over August. Increases also were reported in Saudi Arabia, Iraq, and other countries.

These increases, however, in aggregate were almost completely offset by a decline in production in Kuwait. Output in this shakedown at the head of Persian Gulf was down 58,000 barrels daily to 1,700 barrels daily. Kuwait's production, like practically all other areas, is on an all-out effort, and during September, difficulties in scheduling tanker arrivals caused the decline in production from the field itself.

## Largest In 20-Year History

A record turnout is expected for the American Petroleum Institute's annual officer election banquet in Borger next Wednesday.

The affair, one of the highlights of the Panhandle chapter's program, will see present one of the largest groups of oilmen and Panhandle residents in the group's 20-year history.

According to API officials here, the banquet is going to be a sellout. They said their only worry now is finding room for all who have bought tickets to the affair.

The Panhandle chapter, the largest API organization in the Mid-continent district, is celebrating its 20th anniversary and during the celebration will present special merit awards to men who have performed outstanding service for the chapter on behalf of the oil and gas industry in the Texas Panhandle.

The function will open at 7 p.m. in the Buvastia cafeteria, four miles west of Borger, across from the Phillips synthetic rubber plant on Hwy. 138.

Featured speaker for evenings, Gen. Ernest O. Thompson, member of the Texas Railroad commission, will discuss the oil situation in the United States in 1975.

Gen. Thompson, recognized as the outstanding oil authority in the United States, will predict that the United States will be using 10 to 14 million barrels of crude oil a day in 1975.

He will tell also how this demand is to be met by the industry and where it will be obtained. The nation is using about six million barrels of crude oil per day now. He is to be introduced by former Amarillo mayor, Lawrence Hagy.

Hagy and Gen. Thompson have recently returned from the world petroleum conference held in The Hague, Holland.

Congressman Walter E. Rogers has notified API officers he will be present for the meeting. He is scheduled to return to the Panhandle Dec. 5.

To be honored at the banquet will be J. Ed Warren, first chairman of the Panhandle chapter.

## Phillips Worker Is Given Award

Phillips Petroleum Co. recognized George D. Parks Dec. 1 for the completion of 25 years of service with the company. Parks is district electrician in the engineering department, and resides at the Pampa camp.

An electrician in the production department at Borger was Parks' first position with Phillips. He has held similar jobs at Seminole, Oklahoma and Pampa, being promoted from electrician to district electrician in 1935.

Check your local automobile club also with a view to giving your favorite motorist a membership in this helpful organization, for Christmas this year.

**ROBERTS**  
Gulf Oil Co. No. 1 John Haggard, Sec. 5, Blk. 2, I&GN, G. M. Cree drilling contractor; drilling water well.

## MORE PRECIOUS THAN RUBIES

By Nina Wilcox Putnam  
Copyright 1951 by NEA Service, Inc.

Tommy had been running around together for years. Joe is devoted to you!

"How do I know?" said Tommy, stamping out his cigar viciously. "Maybe I don't know anything—except that right now I'm hungry. What happened to that dinner we were going to have?" Alma sprang up with her usual devoted obedience.

"I'll try and rescue it!" she said.

THE next morning Tommy left early. Alma, still glowing from the happiness of the evening before, breakfasted and set the apartment to rights quickly and efficiently. Then she pulled a large hat that was beautiful but unfashionable down over her rough-cut copper-colored hair and stood for a long moment staring at the mirrored reflection of the full mouth and wide set gray eyes which dominated her face.

It was not, strictly speaking, a beautiful face, and Alma knew it. She was aware too that her body was just an average, gently rounded body looking neither older nor younger than her 26 years. As a rule Alma cared very little about her appearance excepting only that it be cleanly and devoid of the ridiculousness of too current fashion. But today, thinking of Tommy's surprising jealousy, she realized for the first time that she bore a certain intangible resemblance to Grand Bijou.

"A French temperament and a New England conscience!" she said aloud. "That's me, and it's an awful combination!"

She picked up the lovely new fox stole and drew it around her tenderly, caressing it with her cheek. It was going to be a bit of triumph to be able to say Tommy had given it to her, and it was a chilling thought—ought she to mention that fact just yet?

Warren, past president of the Independent Petroleum Assn. of America, has recently been named to the Petroleum Administration for Defense.

Gribbon is district superintendent for The Texas Co. Dunigan, is active in local, state and national oil industry group affairs.

Outgoing officers, in charge of the banquet, are Fred Nease, chairman; Joe Cronin, Borger, first vice chairman; Luther Reynolds, Pampa, second vice chairman and Clayton Husted, secretary-treasurer.

## Secondary Recovery Under Study

WASHINGTON — (AP) — The Bureau of Mines is trying to find out why oil clings to underground sands and rocks. The purpose is to find means of getting more petroleum to the surface.

It is part of what the bureau calls its secondary recovery experimental program. Secondary recovery is the oil industry's term for getting out oil which remains in producing sands after a well's output has ceased or dwindled.

Injection of water, gas or air into sands through nearby stripper wells has been used in secondary recovery processes. Bureau chemists are isolating the films forming substances. They have found some traces of metals, such as vanadium, copper, nickel and iron.

If it is determined that certain things make the oil stick to the rocks and in sands, then ways can be made to find ways to separate these substances. "But we don't expect to get final results for quite a while, one bureau official said."

Studies also are being made at the bureau's Frankford, Pa., experimental station of the physics and chemistry of "shooting" wells. Wells are "shot" with an explosive to break up rocks and bring more oil to the surface.

The bureau hopes to improve the methods. Effects of shock waves and the way the rocks break are being studied.

This work was started with shallow holes but experiments likely will be made on deeper wells in cooperation with the industry.

The bureau's San Francisco experimental station has completed a survey of secondary recovery operations used in that area.

An industry group, invited here by the Office of Price Stabilization, this week considered the problem of area classifications, for setting price purposes, of new border gas wells.

"The question was how to draw the line in so far as new wells between the various established areas are concerned," one OPS official said.

197, down 2; Canada, 162, down 1; Ark-La-Tex, 94, up 6; West Texas & New Mexico, 1061, up 10; Gulf Coast, 662, up 11; Illinois, 144, down 1.

The last passenger pigeon died in the Cincinnati Zoological Garden in September, 1914.

## Rig Activity Takes Rise

DALLAS — A total 3154 rotary rigs were active in oilfields of the United States and Canada for the week of Nov. 26, according to a report to American Assn. of Oilwell Drilling Contractors by Hughes Tool Co. This total compares with 3116 reported a week ago, 3041 a month ago, and with 2490 in the comparable week of 1960.

A comparison by principal areas for the past two weeks, shows: Pacific Coast, 177, up 2; Oklahoma, 350, up 2; Kansas, 187, down 9; Rocky Mountain, 187, down 9.

### Poison Tree Tall Tales Proved True

By CHRIS MCGILL  
AP Newsfeatures  
GAINESVILLE, Fla. There's a tree growing in America so poisonous that rainwater dripping from its leaves can blister your flesh.

Dr. W. M. Lauter, pharmaceutical chemist at the University of Florida, didn't believe it. He scoffed at the grisly tales told of the little-known manchineel tree which grows deep in Florida's Everglades.

He set about to dispel as "rather unscientific and deplorable" the aura of dread. Instead, he's working on a report which will uphold the manchineel's sinister reputation in every detail. On his first trip to the Everglades to study the living tree, he was struck on the ear by water dripping from its branches. A "whale of a blister" was the result.

Later he was working on samples from the tree with rubber-gloved respect. But there was a tiny hole in the finger of one glove. A drop of sap came in contact with his skin. His right arm was swollen, paralyzed and covered with ulcers for days.

The University of Florida scientist is only mildly sympathetic with the park service's desire to keep the park's natural features including the manchineel stands — as they are. He would just as soon see the manchineel wiped out.

He draws comfort from the fact the main stands of manchineel are some 50 miles from the nearest town of any size. The area is made still more unattractive to tourists by clouds of mosquitoes.

The manchineel once grew pretty generally in the Caribbean area. The early settlers "burned them down like nobody's business."

It's unsafe to cut down because its sap flies at the stroke of the ax. The pioneer land clearers used to build fires around the trees — and then make certain not to stand in the poisonous smoke.

Dr. Lauter describes manchineels as "pretty little trees," found only near salt water. They're usually low and spreading with leaves somewhat resembling those of pear trees. The fruit they bear is green and is about the size and almost the shape of a large marble. It has a pleasant aroma and is said to taste good. The damage starts when it reaches the stomach.

Reports of the early explorers are full of anecdotes of Indians poisoning springs with its twigs, dipping arrows in its sap, enticing white men to eat its fruit or leading them to shelter under its branches during storms. No antidote for its poison has been found.

One of history's most famous sufferers from manchineel poisoning was the British admiral Horatio Nelson. He led an expedition to Nicaragua a few years before his death at the battle of Trafalgar. Unfriendly Indians poisoned a spring from which the Britons drank. Some were killed by the poison and others became gravely ill.

Nelson managed to pull through but suffered from the effects for the rest of his life. Lauter, who grieves that Nelson wasn't embalmed so his intestines might be studied, considers it something of a miracle he didn't die on the spot.

Strangely enough, furniture is made from manchineel wood in some of the Caribbean countries. The poison is said to evaporate after the bark is removed and the wood cured in the sun. The furniture is considered safe to use and is esteemed for its termite-proof qualities but dubious.

Dr. Lauter says: "Frankly, I wouldn't want to sit in such a chair."

"If you're new and want to make friends around the firm, ask someone to have lunch with you—I'm not dated today!"

### Illegal Netters Meet New Boat To Their Sorrow

SAN FRANCISCO, Calif. (NEA) — One dark, quiet night off the beach at Santa Barbara, a fisherman steered his small motor boat in close to the breakers. He settled down to a highly profitable evening of illegal netting.

He heard a patrol boat from the Fish and Game Division prowling nearby, but it didn't worry him. He knew from experience that at night a low boat near the breakers can't be seen by another boat cruising offshore.

But he didn't know that this boat was the 43-foot Marlin, newly equipped with radar. Instead of passing by, as usual, the patrol craft thundered straight to the violator and pinned him in the beam of a powerful searchlight.

Assistant Chief of Patrols Tom W. Schilling figures this violator had been getting away with his breaker-hugging trick for 20 years. And, since they didn't actually see him until the spotlight hit him, he'd be still getting away with it without radar.

Kenneth Hooker, skipper of the radar-equipped Bonito, thinks the preventive aspects of the radar fleet vitally important. "They know we can always see them now, miles away, any time of the day or night," Hooker says. "They're very leery about coming inside the closed areas."

Before radar, night or a heavy fog gave illegal fishermen their chance. The only thing conservation boats could do was to stop and listen for boat engines, or watch for a careless crewman to show a lamp or lights a cigarette on deck.
