President Fires General MacArthur

Allies Grind Ahead As Ridgway Takes Over UN Command

TOKYO (AP)—Command of United Nations forces in Korea shifted abruptly today from General MacArthur to Lt. Gen. Matthew B. Ridgway.

Many of the fighting men in the Korean front lines did not know at a late hour Wednesday that President Truman had fired MacArthur.

The UN drive into Red Korea ground ahead. Allied air and artillery barrages wiped out the key Chinese base of Chorwon on the western front. Chorwon is 17 miles north of the border. American, British and Turkish troops scored new gains.

On the central front, American troops drove along the southern shores of Hwachon Reservoir toward the big dam and power grid. Censorship obscured their progress.

On the east coast where South Korean troops had thrust about 15 miles north of the border, there were no reports of ground action. Allied ships pounded rail lines and roads.

South Korea was virtually free of Communist troops. The last major pocket of Reds was holding out west of the Imjin River on the extreme western front.

Ridgway and Secretary of Army Frank Pace were reported touring the front. They were not available at Eighth Army Headquarters when news of MacArthur's dismissal and Ridgway's promotion arrived.

Headquarters sources said Lt. Gen. Frank E. Milburn, First Corps commander, probably would command the Eighth Army until the arrival of Lt. Gen. James A. Van Fleet.

Van Fleet was named to succeed Ridgway.

Milburn commanded the army temporarily after the death last December of Lt. Gen. Walton H. Walker.

Chorwon, western anchor of the Red buildup area, was the headquarters of three Chinese army corps. Field dispatches said it was a completely destroyed. American artillery opened up on it for the first time three days ago.

Hwachon, seven miles north of Parallel 38, was the eastern base of the Communist buildup. Intelligence reports placed nearly one-half million Communist combat troops in the Chorwon-Hwachon-Kumhwa triangle.

Military censorship obscured details of the fighting in the Hwachon sector. There were reports the Reds were pulling back across the huge reservoir in boats and digging in on the north bank.

Wednesday's most substantial gains were made in the west. Turkish troops crossed the Hanan River and pushed northward. British infantrymen punched ahead northeast of Yonchon.

American troops forged across the Imjin River south and south-

Pampa Rings With Protest Over Removal

Cries of protest resounded loudest in Pampa today following President Truman's dismissal of Gen. MacArthur.

Protests in the form of petitions, long - distance calls and telegrams were leaving Pampa shortly after the first newscasts were heard at 7 a. m.

At 9 a. m. Western Union had sent some 25 messages to Washington and by 11:30 the number had jumped to 50.

In taking a cross-section poll, The News learned that while the majority interviewed were against Truman's action, there were those who defended Truman.

However, Mrs. Vernon E. Moore, 901 Hazel, who has a son in Korea, turned Republican today. She was very definite in stating, "I think it's the worst thing that could have happened now. We should bring MacArthur back here to have it out with Truman, and we'd see who would come out on top."

When asked what he thought of the Truman action, Mike Roche, ex-Democrat and ex-drilling contractor, said, "I think it's rotten! Nobody can replace MacArthur; he knows more about that part of the world than any American. All I can say is Harry'll have to go farther than Key West this time!"

Mrs. Hollis D. Keys, 1227 N. Russell, feels this action has created a terrible situation. She thinks MacArthur is too important a figure to be dismissed in a such a manner. Mrs. Keys, a Pampa housewife, has a son almost of draft age.

E. J. Dungan, a V.F.W. member, said, "We all regret MacArthur's removal because we feel he's the top man on Asiatic matters. There's a lot of resentment, and it's probably a mistake, but there is a chance MacArthur overstepped his authority and we must remember the President is commander-in-chief."

Oscar Johnson, implement dealer, said the act of relieving MacArthur has embittered him against the Truman administration. "I certainly think it was a stupid move."

Bill Thompson, serviceman for the Pampa Office Supply, told The Pampa News he has \$15 now and can get up to \$25 from a "another man" for night letters of protest to Senators Connally and Johnson and Rep. Walter Rogers. Added Thompson, "I want to see one of two things — either reinstate MacArthur immediately or get rid of him."

Other charges explained by Mayor Huff included the telephone rate boost. "The mayor asserted that Fort Worth and other cities are paying up to \$4 a month more than Pampa and cities of Pampa's size are also paying," he said.

GENERAL FIRED — General Douglas MacArthur today was fired by President Truman from his position as United Nations Commander of the forces in Korea. He will be replaced by Lt. Gen. Matthew B. Ridgway, who has been commanding the U. S. Eighth Army in Korea. Reason for the President's action, he said, is that MacArthur has failed to give the necessary wholehearted support to the United States and United Nations objectives in the Far East.

General Has Had A Brilliant Career

General of the Army Douglas MacArthur reached his 71st birthday on Jan. 26 and could then look back upon one of the most distinguished military careers any American has known. He was the son of Lieutenant General Arthur MacArthur, himself a prominent soldier.

Douglas MacArthur was graduated by the United States Military Academy in 1903 at the top of his class and went into the engineers. From then on his career was one of consistent success.

Record Said 'Outrageous'

WASHINGTON (AP)—The White House said today President Truman thinks it is "outrageous" that Senator Tolley (R-NH) has recorded telephone conversations with the President.

Congressional sources said yesterday that Tolley had told Senate investigators he made recordings of two telephone talks with Mr. Truman about the Reconstruction Finance Corp. investigation.

Asked about this today, White House Press Secretary Joseph Short said:

"The President thinks that the recording of telephone conversations is outrageous."

Specifically, Short said Mr. Truman thinks Tolley's recordings of his conversations are outrageous.

"As to the recordings of these conversations, as far as the President is concerned, every word can be made public," Short told reporters.

Senator Bennett (R-Utah) said earlier that he may demand a Senate playback of one of the recordings, in which the President was reported to have said he "has the goods" on many Congress members in connection with the bringing of influence on RFC loan matters.

Declares Commander Unable To Support Nation And UN

WASHINGTON (AP)—President Truman fired Gen. Douglas MacArthur today on grounds he failed to support—and publicly sought to change—the grand strategy of the United Nations war against Red aggression in Korea.

In a sensational statement released at the White House at 1 a. m. (EST) after days of soul-searching and indecision, the President announced:

"With deep regret I have concluded that General of the Army Douglas MacArthur is unable to give his wholehearted support to the policies of the United States government and of the United Nations in matters pertaining to his official duties."

Acting with lightning speed on that conclusion, once he reached it, the President:

1. Relieved the 71-year-old MacArthur of his four-fold duties as supreme allied occupation commander in Japan; United Nations commander in chief for the Far East; and commanding general of the United States Army in the Far East.

Washington Stunned; Impeachment Talked

WASHINGTON (AP)—Republican leaders of Congress were trying today to reach Gen. Douglas MacArthur by telephone, and one said "we are discussing everything from impeachment on down" because of President Truman's removal of the Far Eastern commander.

Senator Bridges (R-NH) made that statement to reporters.

It was plain Mr. Truman's action had set off a terrific uproar and a possible new "great debate" over foreign policy was in the making—one to have far reaching political repercussions.

Republican leaders from both House and Senate gathered in the office of House Leader Martin (Mass) to talk over the situation.

Among the senators attending were Bridges, Taft (Ohio), Knowland (Calif), Wiley (Wis), Smith (NJ) and Wherry (Nebr).

The Republicans used such phrases as "tragic error" and "the forerunner of a Far Eastern Munich" in commenting to reporters on the MacArthur removal.

By and large, Democrats were lining up in support on Mr. Truman though some were frankly unhappy over what they termed the necessity for his action.

Chairman Vinson (D-Ga) of the House Armed Services Committee got out a statement saying the President has his "full support." He called the matter a "test of civilian control over the military" and said of MacArthur's removal: "It is if anything long overdue."

Mac Agrees To Return

WASHINGTON (AP)—Senator Wherry (R-Nebr) said today Gen. Douglas MacArthur agreed in a telephone conversation with him today to appear at a joint session of Congress and discuss his dismissal by President Truman.

He declined to clear anything he said in a major political or military policy with either the State or Defense Departments.

The order relieving MacArthur of command was Mr. Truman's answer to the general's persistent campaign of public statements to get the United States to follow a different policy in the Far East and especially, with its UN allies, in the Korean war.

Essentially he has advocated expanding the war to include direct attacks on Red China. He has presented Asia rather than Europe as the critical theater of conflict with aggressive communism.

His dismissal amounts to reaffirmation by Mr. Truman of United States policies for a strictly limited war in Korea, if possible, and for treating Europe as the ultimately decisive area of contest with Soviet Communist power.

The bombshell announcement was made by Press Secretary Joseph H. Short at a hastily summoned White House news conference.

The President told MacArthur he is free to "travel to such places as you select"—thus freeing the general to return to his country after an absence of nearly 14 years. There were immediate demands in Congress that he come at once to Washington to give his views.

In addition to the heretofore secret messages, orders sent out hurriedly before midnight to bring about the spectacular shakeup in the Far East were also released. The secret messages filed showed MacArthur had been covered in a general presidential order last Dec. 6, clamping down on policy statements by all government officials. He had been bluntly reminded of this by Mr. Truman's direction on March 24, after his (See PRESIDENT, Page 2)

Firing Brings UN 'Biggest Surprise'

LAKE SUCCESS (AP)—President Truman's firing of Supreme Commander Douglas MacArthur gave the United Nations perhaps its biggest surprise since the Korean War began and fulfilled the often expressed wish of a number of UN delegates, especially the British and French.

MacArthur had his followers in the UN as well as his opponents, but the opponents were more vocal than his supporters. The main fear often voiced by people demanding MacArthur's scalp was that he would in some dramatic fashion entangle the United Nations in a war which they did not want and for which they were not prepared.

Secretary General Trygve Lie is in Europe on an official trip and Acting Secretary General Constantin E. Zinchenko, assistant secretary general for security Council affairs and a citizen of the Soviet Union, had nothing to say on the subject.

Nazollah Entezam, president of the UN Assembly, is on a vacation on Long Island and is not immediately available for comment.

The debate over MacArthur has raged under the surface in the United Nations for months, with

Morrison Ready For Cease Fire

LONDON (AP)—Foreign Secretary Herbert Morrison said today Britain is now ready to negotiate a cease fire in Korea but the "other side" so far had shown no desire to stop the hostilities.

Two unsigned letters, one addressed to King George VI and the other to the General Assembly of the Church of Scotland, were left with the stone.

The people who left the stone did not identify themselves.

The sandstone slab, known as the "Stone of Destiny" in Scotland, had been reliably reported,

'Stone Of Destiny' Delivered To Abbey

ARBOATH, Scotland (AP)—Britain's famed coronation stone or its twin was delivered today to the custodian of Arbroath Abbey, a shrine of Scottish Nationalism. The stone had been stolen from Westminster Abbey in London on Christmas morning.

Intermediaries in the delivery were in members of an ancient Scottish clan who kept the stone for Scotland. It was plain from their statement that they believed the stone should remain in Scotland.

The men said they acted "with great solemnity" for a century and a half. The stone is made of a soft sandstone and was used by the Scottish people and the Austen Vernon "Smookey" Mason, King.

The famed Stone of Scone was placed in the high altar of the abbey, on the grave of King William the Lion, King of Scotland from 1164 to 1214. The Abbey, founded in 1128, is largely in ruins now.

Two unsigned letters, one addressed to King George VI and the other to the General Assembly of the Church of Scotland, were left with the stone.

The people who left the stone did not identify themselves.

The sandstone slab, known as the "Stone of Destiny" in Scotland, had been reliably reported,

Services Thursday For A. V. Mason

Funeral services will be conducted at 11 a. m. Thursday in Duendel-Carmichael Chapel for Austin Vernon "Smookey" Mason, King.

Mason, a resident of Pampa 23 years, was 62 and at the time of death was residing at 417 Hazel.

He was born April 6, 1889, at Russellville, Ky. He had worked in Amarillo, Pampa, Canadian and Woodward and Waynoka, Okla.

Survivors include a son, Russell T. Mason, of Wichita, Kan., and two grandchildren.

Ten Percent Electric Rate Hike Passes First Reading

An ordinance designed to increase city electrical rates by 10 percent passed a first reading yesterday before city commissioners.

The rate increase will go into effect in about a month by providing it successfully passes a second and third reading.

Oaths of office were taken before a small group of citizens.

Mayor Huff and Pepin spent most of the orientation period dealing with accusations made during a radio broadcast by B. E. Ferrell, defeated mayoralty candidate. Huff read from a copy of the script of the pre-election broadcast and Pepin read from a prepared script taken from the city records.

New Commissioners W. B. "Al" Neel and W. D. Varnon were told that the \$63,000 in storm sewer bonds were invested in U. S. government bonds, drawing 2 1/2 percent interest; that the storm sewers were not installed because the money was insufficient to cover all of the business district.

The new commissioners were also told the three wells south of town were working "very satisfactory" despite the bends in two of the well holes and no money has been spent on repairs or maintenance of them since they were installed. They learned too, the wells carry the water supply burden during the winter months, and the only expense at the field was for electrical repairs on the standard pump motor for the "straight well."

They were also shown records where the Lane Texas Co. was penalized for the bent holes and that the company got the contract because it was low bidder.

A charge by Ferrell that the city paid for paving in the Fraser Addition that has needed constant repair was dealt with by the city records showing the paving was put in at the expense of William T. Fraser, who in turn was not reimbursed by the city. However, it was pointed out by Pepin that the city does have to maintain those streets — the same as other city streets.

Records on another well showed the driller was paid only for the pump, motor and pipe, plus use of the well for one summer after he was unable to develop

Mrs. Mary Boshart Dies In Mobeetie; Rites Held Today

WHEELER (Special)—Mrs. Mary Boshart, 74, died yesterday in the home of her daughter, Mrs. Claude Parker, Mobeetie. She had been ill several months.

Mrs. Boshart had lived with her daughter for about a year. Most of her life had been spent in Red River county, Texas.

Survivors include her husband, G. C. Boshart of Mobeetie; two daughters, Mrs. Parker and Mrs. J. T. Robison, of Turkey, Texas; one son, Claude of Ft. Worth; 16 grandchildren and 20 great-grandchildren; one brother, Odie Thomas of Alabama; two sisters, Mrs. Lizzie Ronyon, of Annona, Texas, and Mrs. Clemmie Cagle of Mill Sands, N. M.

Services were to be held today at 2 p. m. in Mobeetie Methodist church with Rev. Vernon Willard and Rev. L. E. White officiating. Burial will be in Mobeetie cemetery with Kirk-Mason Funeral home in charge.

Nephews of Mrs. Boshart will act as pallbearers.

to a full 700-gallon capacity, and that he was not paid in full for it.

Other charges explained by Mayor Huff included the telephone rate boost. "The mayor asserted that Fort Worth and other cities are paying up to \$4 a month more than Pampa and cities of Pampa's size are also paying," he said.

PAMPA

(Continued from Page 1) of Truman; that goes for Acheson too and the rest of those damned thieves up there."

Former City Commissioner Fred Paronto said he firmly believed the firing was because "MacArthur was telling the American people what actually was going on in Korea - something we have a right to know - and the administration doesn't want us to know."

Dan Gribbon, district superintendent for the Texas Co. said "I am a strong MacArthur man, but still don't believe in a soldier disobeying the orders of his superiors."

Dr. D. P. Bonner would have the situation turned around and fire President Truman, if such were possible, saying "We all make little mistakes like that, but still, that doesn't justify firing him."

Attorney Curtis Douglass had this to say about the President's action: "I am confused. I thought MacArthur was working for the United Nations. The President's action in dismissing MacArthur only confirms the belief of many that the United States and not the United Nations is waging this Asiatic War. I think this action will bring the whole fight out in the open so the American people can know the facts and it will surely wind up with the American people being behind MacArthur."

Leonard Doss, manager of the Harvesters Feed Store said, "I think it's the saddest thing that could have happened. Our boys are fighting up to a line and then stopping - they don't know why they are over there or what they are fighting for."

Hugh Burdette, general manager of Cabot's, sided with President Truman and said, "We can't have two bosses in one place. However, I believe MacArthur knows more about the situation than Truman does, but at the same time I see no other choice than to fire him, and I would have done the same if I were the President's shoes."

American Legion Vice-Commander Bonnie Behrman, speaking as a private citizen, declared it a "dirty shame," and added: "We'll never have another man like MacArthur. It was uncalled for and we should have Mac back and given a chance to express his personal views."

Colombia's Chivor - Somonooes emerald mines were rediscovered in 1896 after being lost for about two centuries.

Cancer Topic For Jaycees

Destination of Cancer contributions in the Texas Cancer Crusade were discussed Tuesday at the Pampa Junior Chamber of Commerce luncheon meeting.

The group was told by Roy Taylor, president, that a discussion group will meet at 7:30 p.m. in the District Court Room next Tuesday for the possibility of a Community Center for Pampa.

Clyde R. Seelye, associate secretary of the Southwest Area Council of YMCAs, will lead the discussion.

Dr. D. P. Bonner was guest speaker for the Jaycees. He listed and discussed the various programs for which each dollar is contributed to the Texas Cancer Crusade.

Research, service and education were the principal ways related by the doctor in which the cancer money is used.

One-fourth of the Texas money, he said, goes to research; another part to service to cancer patients; and the rest to the education of the public and to doctors through literature about cancer, its latest developments, diagnosis and treatments.

The National Capital Park system covers more than 45,000 acres in Washington, D.C., and adjoining areas.

It is authoritatively understood that either the President or Secretary of State Acheson, perhaps both, may now follow up with public statements or speeches designed to clarify the Korean war aims and restate the limits and direction of American policies in Korea.

The President rejected suggestions, which had been given wide currency yesterday, that a middle course being adopted between the extremes of ignoring what MacArthur had done or firing him.

The nature of the dilemma, as privately described by these officials was this: MacArthur had shown by ignoring several directives that he did intend to stop publicly preaching his aim to split the UN coalition which was afraid MacArthur would get the United States involved in a big war in the Far East.

Britain has been particularly sensitive about MacArthur's statements in the Far East, clinging to the hope that the Chinese Communists will listen to reason and negotiate a peace. Canada and other countries have been almost equally critical of the man who exercised command over their troops.

The President paid tribute to the general: "General MacArthur's place in history as one of our greatest commanders is fully established. The nation owes him a debt of gratitude for the distinguished and exceptional service which he has rendered his country in posts of great responsibility. For that reason I repeat my regret at the necessity for the action I feel compelled to take in his case."

The combination of praise and censure in the President's statement has been characteristic of his relations with MacArthur, especially since the Korean war started last June.

RATE HIKE

(Continued from Page 1) higher rates since they granted increases; and the paving program which he said will not stop, but may be curtailed because of cement shortages and that cement buyers never purchase the product during winter months because it has a strong tendency to "set-up." Huff said both police and engineering departments are not overstaffed and that each man has a specific job to do at all times while on duty.

Selection of a city health inspector in conjunction with the county was tabled until next week along with other minor items.

Bids for handling 8000 barrels of cement were submitted by Panhandle Lumber Co., Acme Lumber Co., White House Lumber Co. and Foxworth-Galbraith Lumber Co. Each of the lumber yards bid at 15 cents per barrel handling charge. Award of a contract was also tabled until next week.

Scout Leaders Set Organization

Organization and responsibilities of leadership training in the Santa Fe Boy Scout District were discussed Tuesday night in a meeting of the Leadership Training Committee.

Sam Berger is chairman of the group of seven members: Fred Brook, Joe Black, Frank Smith, Jack Edmondson, Don O'Rierson and Walt Elliott.

WASHINGTON

(Continued from Page 1) With Republicans leading the attack on the President's action, administration Democrats expressed regret that Mr. Truman found it necessary to take such a drastic move.

But they backed his demand that military commanders be governed by "policies and directives of the government," as they contended MacArthur had not.

The first flush of GOP criticism was so violent there even were rumors some congressmen might seek to initiate presidential impeachment proceedings in the House.

Discounting the effectiveness of such a move, administration supporters said they believe the President's stand will be backed by a majority of the people of the country.

They said his willingness to submit the issue to such a test might well lead to a presidential decision to run again next year to get the only possible final verdict - at the polls.

Senator Earl of Ohio, chairman of the Senate Republican Policy Committee and a possible Republican presidential candidate next year, led the attack on the presidential decision.

"The President has made a tragic error, not only because of the loss of one of the greatest military leaders in U. S. history, but because the decision indicates a determination to continue the wavering, planless course in the Far East and points to either a stalemate in Korea or to ignominious concessions to the Chinese Communists," he told a reporter.

"By his action, the President has yielded to British and American critics of General MacArthur," Knowland said.

"Our position in Japan and the whole Far East is in jeopardy. It is also a great victory for Secretary of State Acheson and his Far Eastern policies."

Knowland said it is imperative that MacArthur tell his side of the story to Congress - a move the general seemed free to approach under the President's authorization to MacArthur to "travel to such places as you select."

Senator Wherry of Nebraska, the Republican floor leader, said MacArthur now should "tell the American people what the reasons are for his disagreement with administration policies."

"The President has removed the general without consulting the American people or the Congress about the matter," Wherry said. "Anything can happen in Congress now."

Wherry said MacArthur's views had "caught fire in the country." Contending that the majority of the people will back the general.

Senator Kerr (D-Okla.) one of the first openly to criticize MacArthur, said he regrets "that the President found it necessary to take this action." Mr. Truman, too, expressed his regret.

"However," Kerr said, "the job is too important and the responsibility too great for anyone to have charge of it who is not 100 percent on the team and with the team."

SURPRISE

(Continued from Page 1) stop what they called political action by the general. MacArthur was appointed United Nations commander by President Truman when the UN Security Council appointed the United States as its agent to carry the Korean conflict. The council authorized a unified command and the United States promptly set up this command with MacArthur as the supreme commander.

MacArthur was therefore chosen by President Truman and as supreme commander was responsible to the United States government and not to the United Nations. In short, as several delegates often said, MacArthur was working for President Truman and not directly for the UN.

Ambassador Daniel J. Van Buren, the Netherlands president of the Security Council, obviously was surprised when informed by telephone early today of Mr. Truman's action. He said he had no comment on what he termed a matter for the United States government and not for the Security Council since the United States was acting as agent for the UN in carrying on the war.

Pampan Chairman In A&M Open House

COLLEGE STATION—(Special) — Gene R. Barber, senior civil engineering student from Pampa, is taking active part in working on displays for the annual A&M Open House Day on the campus May 12. In the event, he will be chairman of soil mechanics displays. Barber, son of Mr. and Mrs. L. A. Barber of Pampa, lives at 901 East Francis Street. He is currently a member of ASCE and AGC.

Mrs. Jordan Seeks Aid In Cancer Drive

The need for more research funds in the cancer control program was explained today by Mrs. Finis Jordan, crusade chairman of the 1951 Cancer Drive, who said that 25 cents of every dollar raised here goes toward financing science's search for the causes and all cures of cancer. The American Cancer Society's Cancer Crusade will seek \$2,266,000 in this county beginning Monday. "Of every dollar contributed here," Mrs. Jordan said, "a quarter goes to finance nearly 300 research projects at the nation's leading institutions. "The chief object of this search is to find means of controlling cancer. Causes of cancer may never all be known, but it is entirely possible that we shall find means of cure or of control of even advanced cases, which today are most often hopeless. "In addition to research, your contribution supports national and state programs of cancer control," the chairman explained. "Nation-wide education for public and physicians, the compilation of statistics, medical fellowships, scientific motion pictures, exhibits and administration will consume 15 cents of each dollar.

Recruiting Office Opens At Shamrock

SHAMROCK — (Special) — Sergeant Leon R. Chambliss has opened an office in the local city hall for recruiting for the army and air forces. Shamrock has not had a recruiting station for the past year. Chambliss was stationed at a recruiting station in Corpus Christi for a year, following two years in Alaska. He reported he had a quota open for the Air Force, with a limited number of men each month. This will be on a first-come, first-served basis. "Other stations have long waiting lists for the Air Force, but we can take some now," he says. The Texas organization retains 60 cents for its own broad program providing the citizens of this area with educational materials, service to the patient, support of tumor clinics, cancer information centers, volunteer activities, and other essential aspects of the fight against cancer. The spruce budworm destroys Douglas and alpine fir, Engelman and blue spruce and lodgepole and Ponderosa pine trees; mainly in the west.

A Tribute... To Our Insurance Men!

The man who "writes you up" for insurance is one of the most human of all salesmen. He deals in human nature. He must keep a myriad of facts and figures at his finger tips. He must be persistent, persuasive and personable. The sincere insurance man offers you something you owe to yourself and your family. He insures your life, with ample protection for your loved ones. He insures your home, your car, your personal possessions. He sells accident insurance and, oftentimes, special kinds of protection covering other personal or business assets. You're doing YOURSELF, not him a favor when you buy well-planned insurance. Consider him one of your most NEEDED friends!

Neighbors Assist Farmer At Twitty

SHAMROCK — (Special) — Cloce Jolly, Twitty farmer, is convinced his Twitty neighbors are the best in the world. Jolly has been ill for several weeks, and recently 28 of his farm neighbors brought over their tractors and listed his land for spring planting. Neighbors turned in more than 300 acres, freeing them of stalks, listing and one-waying them for the planting. Ladies also helped by preparing food for the workmen.

Typist Exams Are Announced

Examinations for filling vacancies in the positions of typist stenographer and dictating machine transcriber (for the blind) have been announced by the Civil Service Commission. Entrance salaries range from \$2200 to \$2875 per annum. Applications will be accepted from persons who have reached their 16th birthday. Application forms and additional information may be secured from the post office or from the Regional Director, 14th U. S. Civil Service Region, 210 S. Harwood St., Dallas, 1, Texas.

Government distribution of coins fell to a 15-year low in 1950.

PRIEST CHARGED

HONG KONG — (UP) — A Catholic here said today the Chinese Reds have arrested Robert Kennedy, 51, a priest from Norwalk, Conn. Kennedy was charged with mistreating and killing orphans.

Officers Elected By Irish Rotary; Mayfield President

SHAMROCK — (Special) — Gerald Mayfield, auto supply company owner, is the new president of the Shamrock Rotary Club. Mayfield succeeds G. L. Harrison on July 1. He is a member of the Masonic Lodge, the Scottish Rite and Khiva Shrine, serving for three or four years as Potentate's Aid of the Khiva Temple. Mayfield is a past president of the Irish Booster club and the board of directors of the local Chamber of Commerce. Other new officers include Jack Sims, secretary, succeeding Perry Bear; and Harrison, who automatically succeeds Winfred Lewis as vice-president. These new officials were named by the newly elected board of directors: Rufus Doggen, Roy Barten, Mayfield, the Rev. James O. Todd, Norman Patrick, Bob Orrick and Harrison. Adrian VI, who held office from 1522 to 1523, was from the Netherlands and the most recent non-Italian pope.

Recognition Of Unit Due

SHAMROCK — (Special) — Shamrock's national guard unit is expecting federal recognition at any time, following the recent inspection of the unit by Col. Lattimore, representing the Inspector General's department. Col. Lattimore complimented the unit on its personnel and facilities in a letter to Captain Baxter Purcell, local commander. Herbert W. Callan, Jr., assistant football coach at Shamrock high school, has been approved as survey officer in the unit. Company C of the 474th field artillery observation battalion, Callan was commissioned a second lieutenant. Doug Rives, first sergeant, is now on duty from 8 to 5 p.m. Monday through Friday at the American Legion home. Those interested in applying for the guard unit should contact Rives.

'The Effects Of Nutrition On Health' Discussed At Bell HD Club Meeting

The effect of nutrition on health was discussed by Mrs. Henry Duesterhaus at a meeting of the Bell Home Demonstration Club in the home of Mrs. Loyd Collins.

Mrs. T. D. Anderwald reported that members had ordered more than 80 aluminum trays to be made later in the year, and said that all had been received.

Mrs. Duesterhaus said: "There are no super human requirements to be met when we talk about good nutrition in your home. You don't need to be a prize-winning cook to feed your family properly; nor is it necessary to be a trained nutritionist in order to plan balanced meals. All you must have is a working knowledge of the foods required to supply fuel for energy, to produce growth, and to keep the body running smoothly."

Mrs. Duesterhaus continued: "The body is often likened to a car, and in some respects the likeness is good. For example, there are many parts to a car, each with its specific function to perform. Each part must be in good condition if the best is to be obtained from the machine as a whole, and that is also true of our bodies. An automobile must have grease and oil in order to keep the moving parts in condition, so with the human body we have daily need for food substances which are necessary to keep the body in good condition."

"Put there is one very important respect in which the human body is not comparable to an automobile. A new one cannot be supplied when the old one is worn out. To each individual is entrusted one body. Good care of the human body is rewarded by an extended period of good and abundant health, by an extended period of the prime of life, and by delayed old age."

Roll call was answered by "How I manage to get the whole family to help in the garden." An exchange of plants, shrubs and seeds served as recreation.

The Bell HD Club made a donation to the Blue Bell 4-H Club.

Mrs. Mary Anne Duke, HD agent, presented a demonstration on how to make an herb and

'Increase Word Power' Is Topic For Beta Sigma Phi

The Beta Sigma Phi Sorority had its regular meeting Monday night, April 9, in the City Club Rooms. Betty Brock was in charge of the program "Increase Your Word Power," which consisted of a spelling bee on words commonly misspelled. Mrs. Louis Sills and Mrs. J. W. Graham were hostesses.

During the business meeting the following officers were elected: Mrs. Raymond Hall, president; Mrs. Travis C. Lively, vice president; Mrs. Vergil Hamilton, treasurer; Mrs. Martin Stubbie, recording secretary; Mrs. J. G. Fischer, corresponding secretary; Miss Joyce Warner, reporter; Mrs. Louis Sills, historian; and Mrs. Bill Bridges, sergeant-at-arms.

The following members attended: Mmes. Bill Bridges, Betty Brock, Stanley Childless, Todd Cone, George Culver, R. L. Edmondson, Jr., Frank Fals, Joe Fischer, Norman Fulps, Creel Grady, J. W. Graham, Raymond Hall, Ed Line, Travis Lively, Jr., Roy McKee, Fred Myers, John Plaster, James Pool, Bob Quirk, Louis Sills, Martin Stubbie, George Marvin, David Tubbs, and Joyce Warner.

Miss Ernestine Grace, visitor, Mrs. Ernestine Grace, of the Abilene chapter also attended the meeting.

BEAUTY AFTER FORTY

Why worry about growing old? You can't change the number of years but you CAN change your attitude.

Think YOUNG! That, you say, is not easy. No maybe not, but nothing which we win in life is easy. When it is easy it just isn't worthwhile or exciting.

Make of your Fourth Period of life a time for interesting thoughts, new interests, new hobbies. Get out and take an interest in what is going on. If you don't need financial help consider yourself especially lucky. Then work at something which will help others. There are so many things for mature women to do.

The mother of a young friend of mine wanted an interest. She didn't need money so she gathered together six young brides in her neighborhood and gave cake baking lessons once a week. Then she offered to make her delicious cakes for parties. Any profit was given to her favorite charity. She has fun and has found a new social life in being invited to the parties where her cakes are served.

Another mature woman, a grandmother, recently found herself in need of something to do and it had to be a paying job. She wrote notes and made phone calls to friends and neighbors and got results. She drives men and women to work and meets them at the bus station in the evenings. She makes repeated trips to town with women whose husbands take the car to town every day. And, on week ends, this enterprising 58-year-old has youngsters as week-end "paying guests." This is a popular service as mothers and fathers can take trips over the week-ends and be assured that the children are in good and experienced hands. Through this work our lady kept her car and was able to hold onto her small home.

Don't say, "I can't do any of those things." You can when you must. So prepare now for a career at maturity, either for fun or finance. At times both are necessary and one is as important as the other to better living.

Tea Honors Mrs. Imel
 SKELLYTOWN (Special) — Mrs. Alvin Smith gave a tea in her home in honor of Mrs. Art Imel on her birthday. Mrs. Bert Isbell, Mrs. John Banks and Mrs. Howard Moore were co-hostesses. Birthday cake and spiced tea were served.

Merten HD Club Has All-Day Meet On 'Upholstering'

Members of the Merten Home Demonstration Club studied upholstery at an all-day meeting held in the home of Mrs. H. H. Threatt.

Mrs. A. Swafford, living room demonstrator, was in charge of upholstery of a living room chair for the hostess, Mrs. P. J. Boyd and Mrs. D. A. Rife assisted her.

The old upholstery was removed and the chair was completely torn apart, springs retied, new padding added, burleap and other needed material added.

Lunch was eaten at noon with coffee and tea served by Mrs. Threatt.

At 10 a. m. Mrs. Mary Anne Duke, HD agent, showed a film on how to select and buy new furniture.

At the business meeting, at which Mrs. D. A. Rife presided, Mrs. Threatt was appointed chairman of the exhibit on "Herbs and Their Uses" for HD Week, April 29 to May 5. Mrs. A. Swafford was appointed radio chairman. Her subject will be "Reupholstering Furniture." Mrs. T. G. Groves, reporter, will be assisted by Mrs. A. M. Nash.

Afternoon refreshments of cake, coffee and tea were served. Those present were Mrs. Duke, Mrs. John Brandon, Mrs. D. A. Rife, Mrs. A. Swafford, Mrs. P. J. Boyd, Mrs. V. Smith, Mrs. T. G. Groves, Mrs. Jack Fraher, Mrs. W. E. McCracken, Mrs. Volney Day, Mrs. J. C. Steward, Mrs. A. M. Nash and the hostess.

The next meeting will be in the home of Mrs. Jack Fraher.

A duty dodged is like a debt unpaid; it is only deferred, and we must come back and settle the account at last. — Joseph Fort Newton.

What's Cooking In Gray County HD Club Work

By MARY ANNE DUKE

CONSUMERS RESEARCH
 The Consumers' Research monthly bulletin is available in the agent's office. Research for April includes automatic washing machines, dishwashers, photographic equipment, etc.

MEAT FOR THRIFTY MEALS
 Farmers' Bulletin No. 1908, "Meat for Thrifty Meals," may be had from the U. S. Government Printing Office, Washington 25, D. C. for 15 cents. This 48 page bulletin includes such recipes as: fricassee of veal with dumplings, veal or lamb souffle, beef or veal croquettes, braised stuffed heart, meat and macaroni salad, etc.

McLEAN 4-H ADULT LEADERS
 Mmes. Orphus Tate and Stokes are giving a lot of their time to 4-H Club work.

CLOTHING DEMONSTRATION
 Mrs. Walter Noel, chairman of the yearbook committee, announced at the last council meeting that six of the eight clubs voted to take up the clothing demonstration for 1952.

SEWING ON NYLON
 If you've visited the piece goods counters this spring more than likely you're sewing by now on some new kind of material. Maybe it's nylon, or a mixture like cotton-nylon — silk-nylon — or even wool-nylon blends.

Nana Roberson, clothing specialist for the Texas Extension Service, has suggestions for you for she says handling nylon fabrics in sewing can be tricky. You may need to be a little more careful to get satisfying results.

For instance — first, Miss Roberson suggests, cutting nylon on the bias or curve will help avoid puckering. Be sure to use very sharp shears without any nicks — leave wide seam allowances — cut notches outward — or mark them. The reason, of course, is that nylon frays easily. It is strong, so don't try to tear the fabric or break the thread; use your shears.

As for pins, use the sharp thin kind to hold the fabric.

Select nylon thread for the nylon fabric because it doesn't shrink or lose shape, has more elastic than other threads, and dries as quickly as nylon fabric.

Get fine double-twist mercerized cotton thread for cotton-nylon, silk for silk-nylon or wool-nylon blends.

Then, for needles, be sure they're sharp and keep them sharp all the time. When you thread the needle, flatten the end of the thread instead of twisting as it will get bushy and hard to handle if you do.

LOCAL 4-H DELEGATES
 Mmes. J. F. Fuqua, T. D. Anderwald and B. M. Vaught will be voting delegates to the district meeting of Texas Home 4-H CLOTHING REVUE Demonstration Association. This meeting will be held on April 26 in Gray County to have her garment completed by the last of April and be on hand to model in the Clothing Revue.

GOOD NEWS everywhere you look in the NEW PLYMOUTH

NEW "SAFETY-FLOW RIDE"—stability and safety never possible before! Even when you unexpectedly encounter violent bumps, dips, waves, or holes in the road, you enjoy a smooth and steady motion. You have complete control of the car at all times. "Safety-Flow Ride" comes from new Qriflow shock absorbers working with other engineering features.

NEW ELECTRIC WINDSHIELD WIPERS, unlike vacuum wipers, clean at a fast, constant speed, even when the engine is under a heavy load. They're standard equipment and with them you're not required to buy a vacuum booster. You enjoy better vision all around, with narrower front corner posts and a 15% larger rear window.

NEW BUMPERS, GRILLE, HOOD. The low-sweeping new hood permits a better view of the road close to the car. Individual grille units are replaceable, so you don't need a whole new grille if only one part is damaged. Also, all four fenders are bolted on; they cost less to repair or replace than fenders which are parts of the body.

NEW INSTRUMENT PANEL AND HAND BRAKE. The new vertical-grain dash harmonizes with a variety of rich interior fabrics and trim. The new "T-handle" hand brake pulls easily, sets positively, and releases at a turn of the handle. The ignition key does three things at once: turns on the ignition, starts the engine, and puts the automatic choke in operation!

NEW ENGINE FEATURES. A new radiator pressure cap increases cooling capacity when you need it most and also helps keep the water or anti-freeze from boiling away. A new by-pass cooling system, standard on all models, gives fast warm-up and yet circulates the coolant so that the engine is fully protected under all starting and driving conditions.

The Associated Press is entitled exclusively to the use of reproduction on all the local news printed in this newspaper as well as all news dispatches. Entered as second class matter, under the act of March 3, 1879.

SUBSCRIPTION RATES
By CARRIER in Pampa 50¢ per week. Paid in advance (at office) \$1.00 per month, \$3.00 per six months, \$12.00 per year. By mail, \$1.50 per month in retail trading zone, \$12.00 per year outside retail trading zone. Price not single copy 5 cents. No mail order accepted in localities served by carrier delivery.

Dishonest Currency Has Failed Before

The administration's dishonest currency which is providing American people with a dizzy one-way ride on the spiral of inflation, is believed by many to be something evolved in the brain of the New Deal-Fair Deal traders, who are now trying to fix their schemes as they do today.

Fair Enough-Pegler

By WESTBROOK PEGLER

LOS ANGELES — Pershing Square, a sort of Hyde Park corner across from the Bill more, has vanished behind a high board fence, while big scoops and bulldozers work the earth loose and trucks haul it away somewhere.

A parking garage is being dug rather on the order of the one under Union Square, San Francisco. They may also be dug as bomb-shelters. The one in San Francisco is four levels deep and could accommodate, in a squeeze, 10,000 people if there were time, composure and organization to get the automobile out and put the people in without a stampede. There seems to be no serious belief that in a few minutes or even an hour, the cars could be got out and the people let in in good order so there is not much point in pondering what would happen if you got all the cars out of the square in a matter of time.

The Los Angeles job, in its present stage, is like a scale-model of an open-pit copper mine. The trucks go down a sort of shelf in the digging and back up to a shovel that shudders with the might of its own effort as it bites. Then it dumps the load with a subdued rattle, for there isn't much rock to clatter in the wago-box and that one pulls out and another comes under and holds still.

There are no pipes or conduits nor, of course, subways under Pershing Square nor were there under Union Square either. But there is no open space in downtown New York that isn't occupied deep in the ground with water and gas and steam, and subways in some places three levels deep so there is just no sense in thinking about it at all. Excuse me for bringing it up. Years ago, when the Okies and Arkies were loose in California and some reckless promoters put a proposition on the ballot called "Ham 'n' Eggs," Pershing Square was a sensitive spot. The Communists got the jump on the square citizens and the Okies and Arkies were described around the world as ignorant people, as indeed they were, and the resident citizen-taxpayers as harsh and heartless snobs, as they certainly weren't. For, while the Okies and Arkies were pathetic, they were also as low-down orators as people ever heard of.

Better Jobs

By R. C. HOLLES

School Teacher's Double or Socialistic Standard

I am continuing reporting the questions and answers made by J. T. Acree of Colorado Springs, a principal in public schools at the Little Theater of the Santa Ana High school.

Question: "Is it an observance of the Golden Rule 'To do unto others as you would have others do unto you' for the majority to take tax money from an individual for public schools when that individual himself spends money to support a private school?"

Answer: "I don't believe it is incompatible with the Golden Rule for the state to do it. I like to do what the majority decides to do. I would like to go along with it even though I may not approve of it."

Question: "Because you like it doesn't make it right, does it?"

Answer: "That's correct."

Question: "Then if another individual didn't want to pay for the public schools and wanted to pay for a school of his own choosing, it would be a violation of the Golden Rule to force him to pay for public schools, wouldn't it?"

Answer: "I don't believe so, because I don't believe that the state lives by the Golden Rule."

Question: "Do you know of any socialist who doesn't advocate the general welfare theory of government?"

Speaking of Iron Curtains

By RAY TUCKER

National Whirligig

The Doctor Says

WASHINGTON — It is no accident that Mrs. India Edwards of the flamboyant Joan of Arc of the Women's Division of the Democratic National committee, has been a frequent visitor to the White House since the Kefauver television crime show dramatized for the nation's mothers and wives the evil alliance between racketeers and politicians throughout the country.

President Truman has called her into secret conferences in a desperate effort to devise a program which will prevent this vast and influential body of voters from deserting the Democratic ticket next year and thereafter. Whether he runs or not, he plans to select the Democratic nominee, and a defeat would naturally be regarded as a repudiation of his record. He is a sensitive soul.

DISTAFF — The White House has had plenty of warnings that the women, who had deep, human sympathy for many Roosevelt Truman policies, are shocked by the Kefauver revelations. Seventy percent of the letters praising members of the crime committee, and urging them to continue their inquiry, have come from the feminine sex. Newspaper and magazine reports show that they neglected all but essential homework during the televising of the hearings at St. Louis and New York.

The Truman-Edwards counter-offensive will assume several forms. First, it is planned to organize a nationwide women's committee which will urge further prosecution of racketeers, and "praise" the administration for its efforts in that direction. Secondly, there will be more appointments of women to high offices hitherto reserved for men, especially in the diplomatic service.

In short, in view of the threat of revolt by the distaff block, Mrs. Edwards has become one of the most important and essential members of the Truman political household.

BIZARRE — The inside story behind the indictment of President Truman's Fair Deal and economic program by the Joint Congressional Economic committee is one of the most bizarre and unwritten yarns at the Capitol.

This group, which consists of seven Senators and seven Representatives, is dominated by supposed supporters of the White House in January messages. What makes the story so provocative is the fact that Senator Joseph C. O'Mahoney of Wyoming is the committee chairman. He has voted at least 90 percent for Roosevelt - Truman schemes since 1932. In fact, he was the Administration's candidate for Senate majority leader in an attempt to head off Senator Ernest W. McFarland of Arizona, the entry of the southern plantation bloc.

BURIAL — The O'Mahoney report repudiated the President's program, including the financial phases of rearmament, so scathing that Senator Taft, ranking member, did not submit a minority report for the first time in the committee's history.

Martyr Nurse

BY DAVID BAXTER

I've been looking around for a good, substantial martyr to the cause of freedom from force in the healing business, and I know of no better one than Mrs. Gall Largent, about whom I wrote recently in connection with her having been jailed in Roswell, New Mexico, because she refused to permit compulsory vaccination of her daughter.

Guayule Is Insurance

WASHINGTON — (AP) — Recent hearings on appropriations for the government's guayule program brought out testimony that the substitute for natural rubber is an "insurance policy" against the possibility of a war.

Guayule is a latex bearing shrub that grows wild in arid parts of the Southwest, from West Texas to the Pacific Coast. During committee hearings on the Agriculture Department appropriation bill, Chairman J. D. Small of the Munitions Board was called to testify. The board early this year allocated \$500,000 to the Agriculture Department to reactivate the World War II guayule experiment.

He said that part of the allocation would be used to rent 1,000 acres in Texas for nurseries. Further discussion brought out that the program would not involve any additional appropriation at this time. The production would be solely to build up a large stockpile of seed, and for some research.

tion saloon and office reading "The Law West of the Pecos." The law was pretty much what old Roy said it was and anyone who didn't agree, with him might at the very least find himself in jail—more likely in the cemetery. I don't know whether or not the present Bean is a descendant of old Roy but SOMETHING has descended, all right. I would say offhand that the administration of justice has.

Of course Mrs. Largent got out of jail where she should never have been sent in the first place. Some students at the Cleveland Chiropractic College in Kansas City heard about the INDEPENDENT lady, one of them suggested, "Let's pay her fine," and the students, many of them combat vets of Roosevelt's War, offered to pay her fine for her quarter and half-dollars. That was a real sacrifice for them because, while even the veterans barely manage to live, while going to school for the four-year term, the non-vets have it tougher yet. Most of them do part-time work to help earn living expenses while getting their schooling.

Well, the money was raised and Mrs. Largent's fine was paid—but she was not released until five days after she was ordered to jail. Perhaps the judge was anxious to let her think matters over before being released. She might think twice before again expressing her opinion or daring to act like an independent American. Sets a bad example for the other economic slaves and conscripts and ordered-around citizenry. Might give them ideas.

While it's good to know that Mrs. Largent was finally set at liberty and was free to re-join her daughter, whom she made a great sacrifice to protect, the issue, the principle now burns hotter than ever. An injustice has been done here. Not only should this specific case be rectified but decent, liberty loving citizens should see to it that other injustices should not be encouraged or tolerated by abolishing such laws as compulsory vaccination ones—going on from there to abolishing ALL laws violating the citizen's right to freedom of choice to services he may or may not desire.

Lie's Insistence On Protocol Puts Him Among Lightweight

By HENRY McLEMORE

Trygve Lie, judging by his pictures, appears to be a heavyweight, meaning that he weighs 175 pounds or more. But in my book he'll always be a lightweight, and have to fight in that class, mentally if not physically.

Lie, who is secretary general of the United Nations, popped four buttons off his waistcoat, and shook the dew off his boutonniere in an effort to look like a real dignitary at a recent dinner honoring the President of France, M. Vincent Auriol.

To me, such an outburst of false pride is extremely distasteful. Lie is the head of an organization which has its aim to make all of the men of the world brothers in kindness and decency. Yet he isn't big enough to waive a bit of protocol. He isn't big enough to overlook a seating arrangement, when the organization he heads is looking for a man in his position to lead straight at a hard world.

Let us switch to Korea and picture what would happen if Lie's ribcage ever reached the combat troops. Corporal to captain: Cap—you got me in the wrong place. According to protocol I should be in foxhole four, next to the BAR man.

What's ridiculously new today becomes commonplace in a few years. — Irving Blustone, men's fashion stylist, suggesting wined dinner jackets.

So They Say

What's ridiculously new today becomes commonplace in a few years. — Irving Blustone, men's fashion stylist, suggesting wined dinner jackets.

The Red mortars drop in and all is quiet for a while. Men have their noses in the mud, and their bellies are tightened with fear, and they dig like moles.

The mortars lift. A private cries, "Medic! Medic!" And back in New York Lie cries, "Protocol Protocol!" If this sounds bitter, I am glad.

The Nation's Press

EISENHOWER CLAMORS FOR AN ARMY

(The Chicago Tribune) — Sen. McFarland, the majority leader, says that a second communication has been received from Gen. Eisenhower, urging haste in the dispatch of American troops to his European army. The general was quoted as saying that he is hampered by the senate's inaction.

It would be instructive to know if Gen. Eisenhower has sent similar messages to London, Paris, Brussels, The Hague, etc. It would be instructive, also, to know whether the general has sent similar messages to the European capitals urging the Europeans to hasten reinforcements to Korea. We know that Gen. MacArthur has appealed through the United Nations for additional forces and that his appeal has brought him next to nothing from Europe.

There is war in Korea. The United Nations has sanctioned it. Under the United Nations treaty, the countries of Europe all have a duty to make substantial contributions to the collective effort. That is what the United Nations was created to do.

There is no war in Europe. Under the North Atlantic treaty, even if there were a war, we would not be obliged to send a single soldier to Europe without authorization from congress. This country has no moral or legal duty to send men now.

Wages For Ball Players Frozen

WASHINGTON — (AP) — The Wage Stabilization Board today ruled wages paid baseball players must conform generally with those paid players of 1950.

Officials said that means no individual ball player can be paid more this year than the highest salary a player on the same club received during 1950. The ruling is effective at the request of attorneys for the major and minor leagues. They asked whether wages paid ball players are exempt from wage controls. The board said they are not.

Ancient Bones In U.S. Say Reds

HONG KONG — (AP) — The bones of the famous "Peking Man," the Chinese Red said, to think, have been taken to the United States.

These bones, of anthropological interest because of possible evidence of the existence of humans in North China in pre-historic ages, disappeared during World War II. They had been shipped from Peking shortly before the war and the Reds, claim, were reported found after the war in Tokyo and turned over to SCAP headquarters.

All indications are that the bones were taken by the American Government from a museum in Japan to America. The Communist New China News Agency says.

All Or Nothing — UNION, S. C. — C. W. Shap took a look at his old one posted in his front yard. Somebody had stolen a tire and wheel. So he placed an ad in The Union Times and addressed it to the thief.

Weather Man Must Come Through If Oilers, Dukes Clash Here Tonight

Third Baseman Nelson Davis Decides To Join Pampa Team

Manager Grover Seitz is hoping for plenty of sunshine today as the Oilers open their exhibition home stand against the Albuquerque Dukes at 8 o'clock tonight at Oilier Park.

Cold weather and snow kept the 1950 West Texas-New Mexico League front runners inside Tuesday, and the weather man will have to be kind today to enable the Oilers and Dukes to clash tonight.

With the arrival of Mack Hyde, Manager Seitz has four hurlers to choose from for duty. Along with Hyde are southpaw George Washington Matthews, right hurler George Fayst and Carroll "Red" Dial.

Manager Hershel Martin has a four veteran to throw at the Oilers. They are:

Bob Spence (16-11), Walt Stenberg (6-9), Don Cantrell (20-6) and Steve Lagomarsino (8-4). Pampa has a 2-1 record in exhibition play. The Oilers topped Lamesa, 2-4, and buried the Amarillo Gold Sox, 10-3, at Amarillo Sunday.

The Oilers added a third baseman and a rookie catcher, Tuesday. Nelson Davis, a third baseman, is supposed to report today, and catcher Fred Lujan joined the club from El Paso of the Southwestern International League.

Davis was purchased from Amarillo, and at first declined to report. He has played two seasons in the WT-NM League. In 1949, he notched a .311 batting average for Lubbock. Davis fell to .284 last season, but he slugged out 22 home runs.

Lujan is an 48-hour recall option, and is the second rookie back stopper on the Oiler squad. Pampa now has Bill Whitehorn, Jerry Squires, rookie Don Roddy and Lujan in the catching department.

The Oilers and the Dukes are early season favorites to battle it out for the loop flag. Pampa finished in the number one spot last season, but Manager Martin's Dukes swept the play-off series, defeating Lamesa in the finals.

With the addition of Davis, Seitz will have to do some infield juggling. Veteran Virgil

DUKE HURLER — Pitcher Bob Spence is one of Manager Hershel Martin's ace hurlers. The veteran pitcher notched a 16-11 record with the Albuquerque Dukes last season.

Richardson has first base all to himself, but the other three positions have five men battling for them.

Deck Woldt is at second base. Gil Castillo has been starting at short and Luis Suarez has been handling the third base slot. Davis and Gaspar Des Toro are the other two infielders competing for an infield berth.

Manager Grover Seitz said late this morning that the Pampa-Albuquerque game has been cancelled.

Track Meet Set For White Deer

A Pre-Regional Track and Field Meet will be held here at 9:30 Saturday morning at the White Deer Stadium. Nine schools have entered teams in the one-day meet. The regional track carnival will be held in Lubbock, April 21.

Coach George Watson of the White Deer Bucks is still sending a call out for entries. Schools interested in entering the meet should contact the White Deer

PAMPA NEWS, WEDNESDAY, APRIL 11, 1951 PAGE 7

Harvesters Race At Borger Today

Harvesters' sports came in a poor fourth behind the snow, wind and dipping temperature Tuesday afternoon. The only one not bothered by the cold front was Coach Cliff McNeely, who is holding spring basketball practice in the high school gym.

Bad weather postponed the scheduled Pampa-Mobeetie baseball game yesterday. Coach Duane Lyon held a limited practice session inside the gym. Track Coach A. R. Mooncaster and his thinclads were forced inside too.

The Harvesters engage the Borger Bulldogs in a dual meet there at 3:30 this afternoon, weather permitting. It's the second of two duals in the competition between the two schools. The Harvesters travel to Canyon Saturday for the District Track Meet.

The Harvesters 440-yard relay quartet placed third at the Oiler track carnival, and are counted on to furnish stiff competition at the Canyon meet Saturday.

In the dashes, Pampa has Jimmy Hayes, Elmer Wilson, Wey Cudney and Billy Davis. In the field events are Bobby Seitz, Cudney, Jerry Walker, Buddy Cockerill, Howard Musgrave, Davis, Don Burns and Harold Smith.

The relay teams have Smith, Wilson, Hayes, Davis, Cudney and Eugene Bonny. Distance men include John Young, Musgrave, Smith and Harold Cramer. The hurdlers are Young and Alvin Ward.

The Harvesters' next baseball date is with their arch rivals, the Amarillo Sandies, at 3:30 Friday afternoon at Oiler Park. Pampa has a 1-0 record. Coach Lyon's baseballers opened their season last Friday with a 4-3 victory over Dalhart.

The Harvesters did all right in their first season test. The infield handled 10 chances without a miscue, and the team came through when the chips were down. Trailing 3-2 going into the last frame, leftfielder Ed Dudley and third baseman Bobby Seitz broke up the ball game with successive singles. Two outs were registered when the Harvesters came through with their two-run rally.

The infield is made up of Tolle Hutchens, first base; Elmer Wilson second base; James Claunch, short stop; and Seitz, third base. In the outfield are Eddie Seitz in right; Lawrence Rice, center; and Dudley, right field.

The Harvesters had right-hander Jimmy Cook and left-hander Wayne Hardin on the hill against Dalhart with Hardin getting credit for the victory. Dudley was slated to start against Mobeetie, and Lyon may call on the freshman to toe the rubber down the conference stretch.

mentor by phone or card before Thursday noon.

Gold track shoes will be awarded to first place winners, and second and third place finishers will get ribbons.

Schools entering are: White Deer, Phillips, Dimmett, Canyon, Canadian, Follett, Stratford, Dalhart and Farwell.

None of Sir Philip Sidney's writings were published during his lifetime, according to the Encyclopedia Britannica.

SPECK SPECULATES

By SPECK REYNOLDS

I received my second letter since I've been in Pampa. Futt dropped me a line to tell me I misread his column. The following card will explain:

Dear Mr. Reynolds — (that's me) You misread my column on the Amarillo-Pampa situation.

I wrote that the Pampa B team had never defeated the Amarillo A (Sandies) in anything. I know only too well that the Pampa B teams have defeated the Amarillo B teams in various sports.

I also wrote that the Amarillo B team in track defeated the Pampa A team. That happened recently at Panhandle. Also our B team in the District 1-A A Meet last Friday. Also our B team beat our A team.

Tell the Harvesters to take it easy on the Sandies in baseball next Friday. I'll do the same for Pampa in track — Pitt Powell, Harold Smith.

Powell is correct. I misread his column. However, he is guilty on one count. The Amarillo B track squad scored more points at the White Deer Track Meet, not the Panhandle meet as Pitt mentions above.

Will anyone please come forward with proof that the Guerrillas defeated the Sandies in some type of sport? Such as—jacks, hop scotch, dodge ball, darts or red rover.

Harold Raliff, AP sports editor, should be commended for his column last week. Harold said he would stop putting Bob Cole's tears in his weekly column. Having Bob has been crying now for several months. He thought the Wichita Falls Coyotes should have landed more players on the all-state grid team. They placed one player on the first team. The Wichita Falls sports editor started racking Jinx Tucker over the coals right after the team was announced. Tucker headed the committee which picked the football team.

The reason Cole has been writing so much about this mis-casting of justice, as he puts it, is because of the sports program in Wichita Falls. Outside of a football team, the Coyotes have nothing else. Their basketball coach quit recently to enter private business. If you saw the Wichita Falls cagers play last year, you get an idea why he went into private business.

Byrne Shines For Yanks In Victory Over Braves, 3-2

By RALPH RODEN, AP Sports Writer

Tommy Byrne, the in and out lefthander of the New York Yankees, may prove to be the "silver lining" of the Bronx Bombers this year.

Byrne, at times brilliant and at other intervals erratic, loomed at the moment as the shining light in an otherwise dismal picture for the two-time World Champions, who have three starts all year.

Byrne somewhat lightened the gloomy picture by pitching the victory picture in the Yankees camp yesterday by pitching the champs to a 2-1 victory over the Boston Braves at Kansas City.

Tommy, who failed in mid-season last year, restricted the Braves to six hits, walked five and fanned three in his best outing of the spring.

Home runs featured most of the other Grapefruit League exhibitions yesterday.

At Nashville, the New York Giants turned back the Cleveland Indians, 10-4, primarily on four-baggers by winning pitcher Dave Koza and shortstop Alvin Dark.

The Philadelphia Athletics scored eight runs in the second inning to swamp their Tarboro farm hands, 9-2, in the North Carolina city. Two homers by Sam Chapman and one each by Ferris Fain and Elmer Valo caused the damage.

A grand slam home run by Gil Hodges and another three-run blast by Pee Wee Reese paced the Brooklyn Dodgers to an easy 13-2 victory over Greensboro of the Carolina League.

Johnny Wrostek blasted two home runs and Grady Hatton one to pace the Cincinnati Reds to a 14-12 decision over the Washington Senators at Durham, N. C., pitcher Sandolfo Conzagra and outfielder Gil Coan connected for the Senators.

Ted Williams sparked the Boston Red Sox to a 7-1 verdict over their Louisville (AA) farm hands by socking a two-run homer in the third inning.

A grand slam homer by Sherm Lollar touched off a six-run ninth inning rally that gave the St. Louis Browns a 7-4 edge over the St. Louis Cardinals in a night game at Houston. Stan Musial cracked a home run for the Red Birds.

The Chicago White Sox downed the Birmingham Barons (SA), 6-4, Floyd Baker, Chico Carrasquel, Al Zarilla and Bud Gernial led the Sox attack with two hits each.

Luke Appling's Memphis Chicks upset the Chicago Cubs, 4-1, at Memphis. The loss was the Cubs tenth and their second in the last three days of Southern Association nine.

SPORTS MIRROR (By The Associated Press) Today a year ago — Andrew Fossil, 47, former world's pocket billiards champion, died in Philadelphia.

Five years ago — Van Lingle Mungo, New York Giants pitcher, was suspended by the club for breaking training rules at Richmond, Va.

Ten years ago — Fitcher Bill Lee signed his contract with the Chicago Cubs for \$11,000. Twenty years ago — Hunk Anderson was named as successor to Knute Rockne as head football coach at Notre Dame.

It's too bad Cole has to spend 12 months out of the year writing about football. However, he has no gripes coming in the gridiron selection. The Panhandle area failed to land a player on the all-star eleven.

Irish Gridsters Look Sharp After One Week Of Practice

By SHAMROCK — (Special)

"The boys are looking sharp," reports Head Coach Scott McCall at the end of the first week of spring football practice.

McCall opened grid practice last Monday with a squad of 40, including 10 lettermen.

Back from the 1950 bi-district champions, he has six regulars, all line men: Van Pennington, end; Billy Harris and Dwayne Hager, tackles; Eugene Collinsworth and Mack Terry, guards; and Billy York, center.

McCall has four other lettermen for the 1951 season: Don Carlton and Jimmy Pennington, backs; and Bobby Campbell, boxing ace, end, and Billy Pavlovsky, guard.

None of the latter played on the main string last fall, but saw service as reserves. Campbell recovered one fumble that resulted in a touchdown against Phillips; Carlton made one touchdown on a pass and was strong on defense. Pavlovsky and Pennington both did yeoman service for the District 2-A winners.

Carlton, who played more than any other substitute back last season, is now tossing the pigskin in practice and appears a good bet to chuck passes on the 1951 crew. McCall misses Harrah Dunnam, quarterback and passer,

who graduates after hurling 18 TD's through the air.

Gerald Templin, freshman this year, appears to be doing well, and the whole team is showing spirit and strength.

McCall has brought a number of the 1950 "B" team forward this spring to the "A" squad.

Backs reporting now include: Carlton, Pennington, Dwayne Bealy, Paul Hartwick, John Hartwick, Jimmy Lamb, Jack York, Ronald Settle, John Morse, Jerry Marshall and Templin.

Line men out for spring practice: Paul Cooper, tackle; Cook-Brewster, letterman guard; Norrell Perkins, Van Pennington, Dwayne Hager and Billy York, regulars at end, tackle and center; Tommy Holmes, James Henderson, Bill Parks; Billy Pavlovsky, guard; Billy Harris, 215-pound regular tackle; Bill Freeman, tackle; Bobby Johnson, guard; and Bennie Paris.

Intra-squad scrimmage will come early next week. After limbering-up drills, McCall sent his charges through some preliminary plays Thursday.

Three weeks of spring practice remain, to be followed by regular practice about August 27. Training for the opener at Chick-dress Sept. 7.

Famechon Punches Out 10-Round Win Over Eddie Burgin

CINCINNATI — (AP) — Ray Famechon of France is fighting back among the leaders in the parade toward a possible featherweight championship bout with Sandy Sandier.

Famechon was un there once before. A month ago, however, he took a second round technical knockout defeat from unknown Eddie Burgin of Cincinnati.

Last night a sharper, harder-hitting and a smarer Famechon gave the same Burgin a ten-round beating, before a crowd of 8,244 which paid a gross of \$22,420.75.

Famechon's victory was by a unanimous decision. There were no knockdowns and only Burgin was bleeding at the finish, Burgin's only wound on the Associated Press scorecard was the seventh.

At the finish, however, he said he never was hurt except that a bleeding nose bothered his breathing.

Famechon weighed 137 1/2; Burgin 135.

When it was all over last night Famechon had this to say in broken English:

"Me excuse first fight!"

He then attempted to explain through his interpreters that the first fight "was an accident."

Burgin said even as he left the ring: "Let me have him again."

The National Capitol Parks of Washington, D.C., and adjacent areas is the largest metropolitan park system in the world.

AND WE THOUGHT SHE WAS A POOR-HOMELESS KID!

I SHOULD BE SO HOMELESS!

GIVE CANCER

"Yeah, she gave me an old suit, but her husband is the tall man in the circus!"

WHOSE BIG TRUCKS?

While telling Texans their highways are being damaged by the present 48,000-pound load limit, foreign-owned railroads like the Santa Fe, operate huge double-trailer trucks (shown above) in other states. Despite the greatest rail car shortage in American history, these railroads are attempting to reduce the volume of freight now being moved by their competitors in Texas.

This giant truck and double trailer is operated by the Southern Pacific Railroad, one of the foreign-owned railroads now claiming that the present 48,000-pound load limit is damaging our Texas highways. The equipment shown above is capable of hauling more than 122,000 pounds, the legal load limit in Michigan. Yet, the foreign-owned railroads which operate this type of equipment in other states are seeking to reduce the limit to 38,000 pounds in Texas.

Railroad-Owned Trucks Carry (In Other States) Nearly Twice the Texas Load Limit

The foreign-owned railroads operating in Texas and calling themselves "The Texas Railroads" are attempting to mislead the people of Texas and the Legislature. In a series of advertisements they call the Texas-owned Motor Transportation Industry, "The Big Truckers" and accuse this industry of seeking "preferred treatment." This propoganda campaign is designed to secure the passage of restrictive legislation which will further reduce competition of motor transportation.

Railroad Propaganda Has Not Told Texans Truth

The railroads do not tell us that their own trucks in other states are carrying nearly twice the weight now allowed in Texas. They do not tell us that Texas has the third lowest load limit in the United States. They do not tell us how much money railroads contribute

to the construction and maintenance of the Texas highway system. Nor do they admit that the railroads of America are now incapable of furnishing the necessary service and equipment to meet the demands of the present national emergency.

American Association of State Highway Officials Recommend Standard Limits

This group of highway engineers has promulgated a set of standard sizes and weights for governing motor transports. The results of years of experience, the AASHO Code is recommended by the Defense Transport Administration. Under these specifications Texas

Motor Carriers would have an INCREASE in load limits approved by the highway engineers themselves. These officials are responsible for building and maintaining our highways.

Fair Treatment . . . Not Preferred Treatment

Texas motor carriers feel that Texans are entitled to the best service possible. With the present railroad-sponsored restrictions, it is impossible to render that kind of service. Service can be improved and rates can be lowered by increasing load limits. More taxes will result from more freight hauled.

Motor transportation is not asking for "preferred treatment"—only fair treatment. This industry is proud to contribute to the construction of better highways in Texas.

The foreign-owned railroads have a place in the economy of our state. They have a service to perform. So has highway transportation which would not exist today if rail service had been adequate to meet our needs. Railroads have received good treatment from the State of Texas. 32 million acres of good Texas land has been given them as an inducement to building their roads.

Texans Want Facts . . . Not Propaganda

The Texas motor transportation industry composed of more than 2,000 independent operators has done more to give this state its present highway system than any other industry. This Texas-owned industry paid more than \$62,000,000 last year in taxes and license fees, all of which goes to the building of highways and to the public schools. Railroads pay nothing.

motor carriers to haul loads of much greater weight. States like California, Colorado, Michigan, New York and many others noted for their fine highways have refused to allow the railroad propaganda to restrict motor transportation. Are their highways being destroyed? The railroads would have us believe that half the weight being moved by truck in other states is damaging our highways in Texas.

The maximum limit for motor cargo is now 48,000 pounds. This is the third lowest in America and only a little more than half as much as is allowed in most states. Our highways are built under the same specifications required by the Federal Government of all states participating in the use of Federal funds. Yet, every state except two allow

The foreign-owned railroads have not told us they operate more than 100,000 trucks and how much weight they carry on the highways in other states. If what they say about trucks in Texas is true, then they are guilty of damaging highways in other states by carrying loads up to twice as much as are now allowed in Texas.

DEFENSE TRANSPORT ADMINISTRATION CALLS FOR EXPANSION OF HIGHWAY TRANSPORT SYSTEM

Following are excerpts from a letter addressed to the Governors of all the States from James K. Knudson, Administrator of the Defense Transport Administration, dated March 8, 1951:

JAMES K. KNUDSON Says:

"We are faced today with a rail car shortage unprecedented in American history . . .

"Restrictive State limitations on the sizes and weights of highway transport vehicles, and lack of reciprocity covering their operation between the several States, are materially reducing the load capacities of our transport facilities and preventing their full utilization in the defense effort.

"When the present national emergency first came upon us with the Korean crisis, it became apparent that some action to liberalize size and weight requirements and to attain greater uniformity in State laws would be necessary. STATE RESTRICTIONS ON HIGHWAY TRANSPORT HAVE A MORE SERIOUS EFFECT UPON THE WELFARE OF THE NATION DURING TIMES OF NATIONAL EMERGENCY THAN AT ANY OTHER TIME. IN SUCH AN EMERGENCY, NEARLY ALL TRAFFIC CARRIED ON THE HIGHWAYS IS EITHER DIRECTLY RELATED TO THE NATIONAL EFFORT, OR IS NECESSARY FOR THE MAINTENANCE OF THE ESSENTIAL CIVILIAN ECONOMY. IT IS ESPECIALLY IMPORTANT, THEREFORE, THAT SUCH TRAFFIC BE ALLOWED TO MOVE AS FREELY AND EXPEDITIOUSLY AS POSSIBLE . . .

"Unjustifiable State limitations on sizes and weights of motor vehicles, and restrictions intended to harass and burden highway transport to obtain competitive advantages for other modes of transportation, can not be tolerated in time of national emergency such as this, nor can they be permitted to impede our gigantic defense effort . . .

"Highway transport vehicles must be operated at full capacity to provide the essential transportation facilities for the vastly expanded defense economy. This must be done also to conserve manpower, motor trucks, and vital rubber supplies and equipment . . .

MAXIMUM LOAD LIMITS

STATE	LOAD LIMIT
MICHIGAN	122,000
ARIZONA	80,000
RHODE ISLAND	80,000
WEST VIRGINIA	80,000
