Road-Bridge Bonds Washed Out As Airport Scuttled, Tax Okayed

"Men are free when they can seek equal opportunity choice, plan, and act effectively in pursuit of their goals, and enjoy economic freedom by retaining the fruits of their labor."
—Ray W. Lynd

Truman Issues Warning

DETROIT — (AP) — President Truman gravely warned the American people Saturday to get ready for "any emergency." He laid down a bitter, detailed indictment of Russia's build-up for war "around the world."

He cited way-like moves in Bulgaria, Rumania, Hungary and the Russian provinces as well as in North Korea and even questioned whether the Communists "really desire peace" in that battle-ravaged area despite their negotiations.

Mr. Truman spoke to a holiday throng in Cadillac Square after a flight from Washington to join in Detroit's 250th birthday celebration. Police estimated the crowd at 60,000.

The President didn't mention General MacArthur, Republican Senators Taft (Ohio) and McCarthy (R-Wis) or other administration critics by name, but he accused opponents of "trying to stir up trouble and suspicion between the people and their government."

"They are using the smear and the big lie for personal publicity and partisan advantage, heedless of the damage they do to their country," he charged.

"Never, not even in the bitterest political campaigns have I seen such a flood of lies and slander as is now pouring forth over the country."

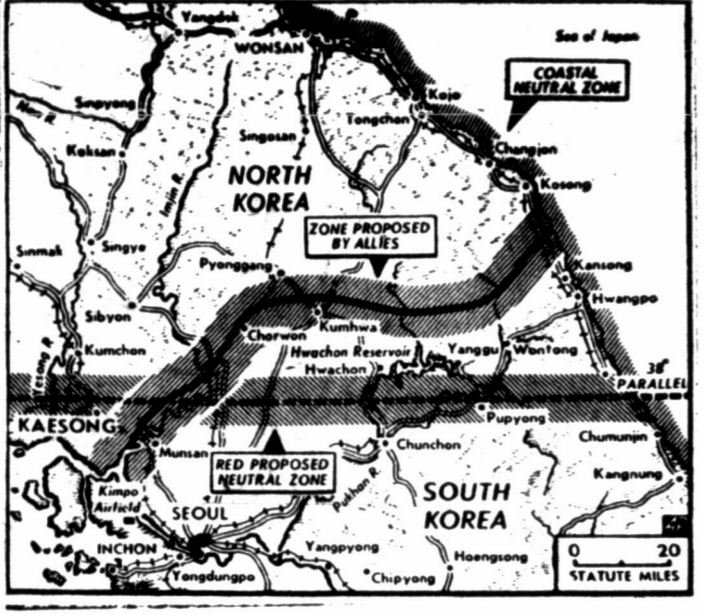

Referring to MacArthur's Boston charge that the administration has no policy, the President declared "this country is on the right track in foreign affairs."

Mr. Truman said Russia's actions give no indication of "peaceful intentions" and declared her satellites "are rapidly being brought to a peak of military readiness."

"In the Far East, the situation is much the same. The North Koreans and the Chinese Communists are getting a steady flow of new equipment from the Soviet Union for ground and air use."

"The Russians themselves have more than four million men under arms in Europe and the Far East. There are heavy concentrations of Soviet air, land and sea forces in the Manchurian border, across from Japan, and across from Alaska."

"Let's go Evrindring. Lewis Hardware.—adv.

CEASE-FIRE LINES WANTED BY ALLIES AND REDS—Shaded areas on the map show where Allies and Communists want to draw cease-fire lines. Area running from point about 35 miles north of the 38th parallel and following present battle line is cease-fire area proposed to Reds in Kaesong by Vice Adm. C. Turner Joy. Communists want line to follow the 38th Parallel. Shaded area along coast would be three mile naval neutral zone off the shores of Korea. (AP Wirephoto Map)

Peace Negotiations Snarled Over Buffer Zone Location

U. N. ADVANCE HEADQUARTERS, Korea — (AP) — Reports that the Reds are demanding an immediate cease-fire in Korea persisted Saturday as deadlocked negotiators headed toward the 13th session of armistice talks at Kaesong.

It was disclosed officially after Saturday's coldly formal meeting that the allies and Reds were at loggerheads over where to set up a cease-fire buffer zone.

Unofficial signs suggested even greater differences. A Communist interpreter was overheard referring to the conference to allied "air and naval power" and to the "bombing of peaceful Korean villages" — a long familiar Red propaganda twist for air strikes.

This tended to underscore reports the Reds want all the shooting to stop right now, even while the talking goes on.

While ground fighting has been desultory ever since the talks were first proposed, allied planes and ships have continued daily attacks on the North Korean military build-up areas.

The U. S. State Department and allied officials have emphasized that all terms of an armistice must be settled before cessation of hostilities.

Four major points are on the agenda and the two sides already are deadlocked over the first-

Marshall Housewives Face Property Seizure

MARSHALL — (AP) — The Treasury Department Saturday issued warrants for seizure of the personal property of rebellious Marshall housewives who refuse to collect social security taxes from domestic servants.

The housewives, through a spokesman, denounced "this Gestapo tactic of our money-mad, power-mad government officials."

John P. Armistead, Treasury Department employee stationed at Longview, Texas, issued notices that the warrants have been issued and advised the housewives he is holding them in his office.

He said the warrants are being held to give the women a last-minute chance to pay the first quarter tax and penalty due April 20. The announcement said the department is asking immediate payment "to avoid inconvenient embarrassment and additional costs..." that would result from seizure of property.

The warrants, according to the notice which Armistead sent the women individually, "authorize the seizure and sale of your property or rights to property, or levy upon your salary, wages or other income."

"The warrant now being held in this office," the notice continued, "commands the taking of such drastic action, if necessary, as a means of collecting the account owed it."

The housewives had notified Secretary of Treasury Snyder they could not "in good conscience" comply with the law and thus "serve as a tax collector for the government."

Upon receipt of this warrant, the ladies of Marshall, who have prayerfully and conscientiously petitioned the government, rebel at this Gestapo tactic of our money-mad, power-mad government officials.

One of the ladies, whose tax payment would amount to less than a dollar, declared "my privilege for fighting for what I believe is a stand against socialism is worth it. Article One, Bill of Rights, allows a petition of my just grievance."

The penalty of knowing that our country is free and democratic, to uphold the Constitution of the United States, has paid off with a writ of seizure for amount of the tax and penalty, without due process of law.

Rural Ballots Beat Two Of Three County-Wide Proposals

Gray County voters Saturday turned thumbs down on the airport, road and bridge bond issues, but passed the 16-cent tax assumption proposal designed to indirectly pay them out in 10 years. Although the city vote gave the road and bridge bond 37 votes more than its needed two-thirds majority, the rural vote turned down the airport almost unanimously.

Precincts 3 (Grandview School) and 6 (Laketown School) voted unanimously against the airport as did Precinct 13 (Phillips Camp) where only two votes were cast.

The seven city boxes carried the road and bridge issue by 677 to 320; the airport by 608 to 385; and the tax 632 to 353.

Of the 1,422 total vote cast — 360 less than the 1,782 ballots cast in the May 26 airport bond election — roads and bridges received a total of 850 votes for to 573 against, 296 less than the two-thirds majority needed to pass it; the airport lost on a vote of 607 for to 740 against, a difference of 73 votes.

The 16 cent tax assumption passed by a comparatively large margin — 753 to 646, a difference of 107 votes.

Precinct 10 gave the roads and bridges a favorable 289 to 87 count; the airport 283 to 66, and the tax assumption 228 to 87.

By 9:45 p.m. every precinct had reported to County Clerk Charlie G. S. "Pinkey" Vineyard, Pampa Chamber of Commerce past president, Friday night was unanimously chosen chairman of the Panhandle-wide committee that will seek replacement of the damaged Lake McClellan spillway.

The still nameless organization, formed Friday night, is to proceed on ways and means of repairing the lake's spillway, and decide later whether they want to include other damaged dams in the Panhandle.

To do this, the 50 odd representatives of Panhandle cities and towns within a 75 mile radius of Pampa, appointed a seven-man executive committee (which may be increased) shortly before the permanent chairman dismissed the meeting.

Officers of the embryonic organization are: Vineyard, chairman; Gene Howe (Old Tack) vice-chairman; E. O. Wedgeworth, secretary-treasurer; Bill Stubbs, of near Lake McClellan; Judge G. W. Hefley, Wheeler; City Manager A. A. Meredith, Borger; Pete Kunz, Clarendon; Howard Horn, McLennan; Rex B. Baxter, Amarillo; and Reno Stinson, Pampa; were named to the executive committee.

These men will study the lake damage situation at a 4 p.m. meeting, Aug. 14, at Lake McClellan and consider the advisability of embracing other dams and lakes in its program. They will then return a recommendation to the general committee of the new organization.

Prior to selection of the executive committee, Wedgeworth said a Senate sub-committee considering appropriations for the Soil Conservation Service had turned thumbs down on an allotment to repair McClellan's spillway after they admitted it was the government's place to repair its own property.

Wedgeworth, who with Rep. Walter Rogers and a soil conservation engineer appeared at the sub-committee hearing in Washington, said he presented the request on three points:

1. The dam is the property of the federal government and as such should be repaired.

2. In its present condition it presents a serious danger to the 20 families living along McClellan Creek directly beneath the dam.

3. The high value for recreational purposes it affords the people of the Panhandle.

Wedgeworth also read a telegram received last week from Rogers which said "Funds for Lake McClellan and other similar projects are not included in the Soil Conservation Service appropriation by the Senate. Projects were victims of economy wave on domestic spending. Permanent committee should start work immediately and forces and 60,000 airmen."

Only in Precinct 10 did a sharp upsurge in voting show between 4 and 6 p.m. — the box had an almost even 300 votes cast by 4. Although the count climbed in the other mid-city boxes it was still far short of its potential. Precinct 15 came up with an even 50; Precinct 16 tabulated 87 votes while Precinct 12 came up with 92 ballots.

Texas Temperature Expected High As Rain Activity Drops

(By The Associated Press) Weather Bureau reports showed a lessening of shower activity in Texas Saturday, plenty of hot weather, and much the same in prospect for today.

Pampa had a high reading of 94 degrees Saturday while the low was 67 early Saturday morning.

The only rain reported in a 24-hour period ended at 6:30 p.m. Saturday at Beaumont and Galveston. Both had light falls.

A small twister hit Frost in north Central Texas Friday night. Heavy rain also fell.

The lowest maximum temperature in the bureau's Texas read Saturday was 89 degrees at Marfa. Mostly, the weather was in the high nineties. A few points were above 100 degrees.

Four major points are on the agenda and the two sides already are deadlocked over the first-

1. The present positions, based on ridges, are more defensible militarily than the 38th Parallel.

2. The parallel is where the Red invasion began June 25, 1950. It is viewed in many quarters as a symbol of UN defeat and a settlement along that line is bitterly opposed by the South Korean government.

Up to 12,000 residents of Seoul paraded Saturday, protesting the trend of the Kaesong talks.

The marchers carried banners proclaiming "No Peace On The 38th Parallel."

The perfunctory allied communique referred to an "atmosphere of cool military formality." It said that when the truce session ended "the position of both delegations on the agenda item under discussion had not changed."

The usually intractable two Chinese delegates gave frequent advice to Lt. Gen. Nam Il, the senior Red delegate, as he stated the Red views.

Brig. Gen. William P. Nuckols, allied spokesman, said Nam argued "with more force and nerve than on any previous occasion."

The year's total of 6,165 compared with 6,038 last year. Operators brought in 14 gas wells, which now total 486 against 443 a year ago.

Ninety-seven dry holes were reported. Plugged wells included 96 dry and 30 oil.

The total average calendar day crude oil allowable as of today was 2,973,218 barrels, up 10,782 from a week ago.

Izzy Bear-ly Escapes Harm As Big Grizzly Seeks New Meal

KENNETH WILLIAMS YELLOWSTONE — Anybody like bears? Well, you can sure have Herman and my share of them. We don't want any part of any bear, big, little, or small, after last night.

Yesterday afternoon, (Tuesday) we drove into the Mammoth Hot Springs campground here in Yellowstone. We found a pretty good place to park so Isabel headed for it and stops. Supper is cooked and eaten in a short time.

I washed the dishes and put them away in our grub box, that is situated on the tail end of Izzy. I also put a loaf of bread into the box.

At this point I would like to describe the box because it plays an important part in what comes next in this "Episode of the Bears." The grub box was constructed by Herman's Dad a couple of days before we left. It is a sturdy box constructed of 1 by 12s amply reinforced. The front of the box is constructed of flooring, the kind that locks into each other. This front lowers to form a table on which we can eat, type, or do practically anything we want. And when the front of the box is closed, there is a lock as big as the one on bank vaults holding it shut. It seemed to be quite a well-built affair.

Now back to the story. After eating, Herman and I put our coats at the front of Izzy and bedded down for the night. All was quiet; nothing was stirring, not even a mouse, until 11:30 that is. At 11:30 p. m. every-

HERMAN and the grub box

thing broke loose. First, we heard a woman scream; second, we heard a loud growling sound; and last, we heard a car horn and a man yell. "Get the heck out of here!" I managed to get awake enough to look out in time to see a bear shad out of some people's

Completions Skid During Last Week

AUSTIN — (AP) — Oil well completions during the last week of the Texas Railroad Commission has reported.

The year's total of 6,165 compared with 6,038 last year. Operators brought in 14 gas wells, which now total 486 against 443 a year ago.

Ninety-seven dry holes were reported. Plugged wells included 96 dry and 30 oil.

The total average calendar day crude oil allowable as of today was 2,973,218 barrels, up 10,782 from a week ago.

Newsman Of Three States Gather Here For First Meeting

Newspaper representatives from Texas, Oklahoma and Kansas gathered in Pampa Saturday for the first regional meeting of the Panhandle Press Assn., which included a clinic on "Plant Layout."

After registration at 9:30 a.m. in the Pampa Daily News building, visitors were taken for a tour of the recently-built plant.

At 10:30 o'clock, the meeting opened in the commission room, city Hall, with Hershel Combs, association president, presiding.

Speakers were Ralph Juillard, publisher of The News, and Ralph Eaton, of the Western Newspaper Union, Wichita, Kan. Following the theme of the meeting, speakers highlighted planning newspaper plants for efficiency of operation.

Noon luncheon was in the Pampa Room, courtesy of the

6' Texas Rodeo Assn., with the program consisted of barbershop quartet selections by Dr. Calvin Jones, Bill Crouch, association president. The dinner music was by Ed Holland Evans.

Okay Plans For Church

SHAMROCK — (Special) — Building plans have been completed here for a new building for the First Christian Church. A committee, headed by Jack Deike, submitted the plan to the membership July 15 and the plan was adopted by church membership.

Plans call for an English style building, built in the form of an "L", 90 by 102 feet. There will be a nine-foot wall and a high pitched roof.

The building is planned for the south end of the 700 block between South Houston and South South Street's. However, no contracts have been let and actual construction date has not been set.

Shamrock Farmer Gets Helping Hand

SHAMROCK — (Special) — J. Arville Glover, farmer living seven miles south of Shamrock, is convinced he has wonderful neighbors.

He has been ill for several months and friends recently planted and replanted crops for him when they were washed out. They also recently hoed and plowed the crops.

Practically all the families in the area showed up to help the ailing farmer.

See Football Film

SHAMROCK — (Special) — Shamrock Rotarians enjoyed a technical film of action highlights of the Washington Redskins professional grid team at their meeting last week.

Four-H Groups Return From Encampment At McClellan

Six groups of 4-H boys and girls have returned from a three-day camp held last week at Lake McClellan under the supervision of five adult leaders and a home demonstration agent and county agent.

The 28 boys and girls attending studied various crafts, and participated in athletic events and folk games and stunts.

Adult leaders supervising the camp were Mrs. Orphus Tate, McLean; Mrs. Fred Haiduk, Grandview; Mrs. George Smith, Lefors; Mrs. Jim Mahan and Mrs. T. D. Anderwald, Pampa. Also assisting as a leader was Jimmy Honaker.

Joy Williams, assistant home demonstration agent; Foster Whaley, county agent, and Jim Mahan, assistant; planned the camp.

Attending were Marilyn Wallin, Jerry Wagner, Nace Baggerman, Jerry McCracken, Harry and Myrna Haiduk, Grandview; Dawn Vandenberg, Emma Rae Howard, and Faye Harrison, Hopkins, Kenneth Stokes, Carolyn Hugg, Orphus and Gerald Tate, Max Billingsley, Dorothy Pakin, Sandra Kay, Dawn Ann Clayton, McLean; Lajuana Penner, Melba MacCarley, Bertie Coberly, Gary Smith, Aletha Rave Smith, Patricia Martin, Lefors; and Archie Laird, David Miller, Janice Frazier, Iva Powell and Bobby Anderwald, Pampa.

GRIZZLY

(Continued from Page One)

ident that the bear would stay gone. Ha, was I in for a surprise?

At around 1 o'clock this morning I was awakened by a loud grunting noise that sounded like somebody was in the process of digging a deep ditch. I thought, "I didn't know Herman snored in his sleep." I yelled to Herman to wake up and quit snoring.

The grunting noise kept up and seemed to be getting closer to me. Now, that set me to thinking. If it was Herman he also must be sleeping. I kept a close watch on the noise. I heard a clumping of feet that sounded like a herd of elephants going by. I stuck my head out of the covers and looked into the eyes of the biggest and loudest I have ever seen in the whole United States of America! I climbed down to the bottom of my sleeping bag so fast the sleeping bag was warm until noon today.

When I got brave again I peeped out of the hole in the covers and saw the bear go past Herman's cot and head for the back of the car. I was so scared I couldn't even wake Herman up to warn him.

Herman got woke up anyway. The bear started to tearing at the grub box in the process. Izzy was jumping around like a scared rabbit. That old bar tore that front off that grub box like it was tin foil and must have gulped that loaf of bread down like a pill, because Herman was in Isabel in a fraction of a shake after he woke and found out what was making Izzy squirm like a fencer. When Herman slammed the car door it kind of scared the bear momentarily because he trotted out a little ways from the car. Then he stopped and looked towards me and licked his chops. I started yelling for Herman to honk his horn to scare the visitor. Well, I don't to this moment know what was the matter with Herman, but he sure didn't honk the horn. And Herman kept not honking his horn because he kept creeping towards me. I could even see his eyes shining! I could have made a hundred milk shakes while that bear was coming.

I must have been yelling bloody murder, because a man next to us honked his horn and the bear turned tail and ran off. After the bear had gone, Izzy's horn blares out. I could have yelled for Herman to honk his horn. People who saw him have been trying to tell me that it was only a small black bear, but to my dying day I will swear that was a grizzly bar! Needless to say, I didn't get any more sleep last night.

After we mailed our last story Tuesday morning in Helena, Mont., we started hunting some place to fix Isabel's bum front wheel. It is the one that has been wanting to come off ever since we were in Billings, Mont., last Thursday.

Well, we found our saviors at 602 Fuller Ave. in Helena. There at Barney's Auto Repair, Barney Spurlock solved our troubles. He took a thread chaser and tried to renew the threads that were already on the axle of the front right wheel, but they were stripped so bad it was no use. Spurlock then took a threading machine and put some new threads on the axle. That gives us one size of nut on the right front axle and another size of nut on the left front axle. But, that's alright because everything is working fine. Boy Herman and I think Mr. Spurlock is a pretty good old guy.

In with Mr. Spurlock is the A. W. Perge Co. To tell the truth we don't know exactly what Mr. Perge does. But the interesting thing about him was the old truck he has.

When we went into the building housing the two firms, Mr. Spurlock and Mr. Perge had an engine up in the air. The engine was used with a compressor and weighed about 1500 pounds. In a minute Mr. Perge went out of the building and came back in driving a two-ton truck that looked like it was made at the time of Adam and Eve.

It was a Parker truck that must have been at least twenty-five years old. Mr. Perge said he didn't know what model it was. It had a motor that was nearly the size of two of Izzy's motor. It didn't have a cab on it and the only seat was one cushion that the driver had to set on. The brakes were manipulated by a handle that was all of four feet long. When Mr. Perge would want to put on the brakes it looked like he was working a cante.

That old Parker truck ran good, though. But it wasn't the only antique that Mr. Perge had. Nope, he also had an old Pierce-Arrow truck and a White Truck. They looked like something out of a museum. The combined ages of all three trucks must have been at least seventy or eighty years.

I managed to buy an old kerosene head lamp that belonged to the White of Mr. Perge. Don't know whether I will be able to make it work again, but it is well worth a try.

And among the antique trucks was another oldy. It was a Plover tractor. It was so old it looked like it was two separate pieces. One piece was the large back wheel and the front part was the big motor and the front wheels. All that seemed to hold them together was just a piece of iron.

Herman told Mr. Perge he should rename his shops and call

AIRPORT

(Continued from Page One)

the road and bridge bond, with 212 to 81 count.

The airport stood 191 to 106 favoring the field, while the tax question received the green light with 198 to 97 tally.

By 7:45 the road and bridge bond were almost assured of victory as the county's largest boxes reported almost simultaneously. At that time the road and bridge bonds held a good two-thirds majority with 603 for to 215 against. The airport was carrying its own but with not as wide a margin as the road and bridge; it stood 646 for to 277 against. The tax assumption was also carrying 673 to 245.

As the results began to come in faster the roads and bridges started losing ground for their needed two-thirds majority, and by 8:25 p.m. had slipped from a comfortable 210 - vote margin to 98 votes less than needed to carry them.

By that time, the 13 boxes reporting gave the airport a slim margin of 653 for to 614 against; the tax assumption held an assured lead of 723 to 516. The roads at that time stood 821 voting yes and 459 voting no.

It was a city vote in precincts nine and 10 that gave the bonds the heaviest favorable vote.

By 8:40 p.m. the death knell for the roads and bridges was sounded when the count showed they failed to obtain the needed two-thirds majority by 111 votes. The count then, with only Grandview, Laketon and Farrington unreported, gave the roads and bridges 836 to 478. The airport was still holding its own with signs of defeat in the offing from the three remaining boxes, of 663 to 631. The tax assumption, however, stood 739 to 5228 — the only one that was sure of passing.

Lay Plans For Concerts

SHAMROCK — (Special) — Big plans are being made to bring outstanding artistic talent to Shamrock this winter by the Wheeler County Municipal Concert Assn., Mrs. Bedford Harrison, president, reported at the end of a membership drive which ended this week.

One of the highlights may be the visit of Angeline Collins, vocalist and winner of the Naumberg award in New York last year. She is a soloist with the Oklahoma City Symphony Orchestra.

Brent Williams, dramatic tenor from St. Louis, will be another feature attraction.

Two accordions and a string bass compose the Concert Trio, one of the better attractions listed.

"A. W. Perge, Antiques." We got Isabel fixed about noon Tuesday and set sail for Yellowstone. We pulled in here about seven o'clock and staid out a bear hating.

This morning we talked to a man that has got it made. Mr. Earl M. Schmetter of 6640 31st Street, St. Petersburg, Florida, and his wife are touring the U. S. with a trailer house. The Schmetters left St. Petersburg in May pulling a twenty-one foot house trailer, and have been gone every since. They went up the East coast and came out through Northern United States. And they plan to go on to the Pacific Northwest and down the West Coast and then home by the Big Bend country of Texas. Wow, what a trip. They will be gone until November. Herman and I are thinking about hitching Iszy onto the back of their house trailer and going with them.

Just a little while ago we met some Texan. They were from some little old town to the west of Pampa. I think they called it Armidillo or something like that. They were Mr. and Mrs. George Killian of Route 1, Box 334, Amarillo. Mr. and Mrs. Killian are the parents of Mrs. Waldon Moore of Pampa.

With the Killians were their daughter, Mrs. Richard Canney of Cheyenne, Wyoming, and Mrs. Canney's mother-in-law, Mrs. Al Canney, also of Cheyenne.

The Killians were up here on vacation and were planning to go to Cheyenne in time to see the last performance of the Cheyenne Frontier Days Rodeo.

Herman, Izzy, and I are bedding down here for the night, but if any bears start getting friendly tonight we are packing up and leaving — regardless of the time. Them bears ain't for us.

At birth, the approximate weight of a baby elephant is between 160 and 200 pounds.

Will Conduct Revival

SHAMROCK — (Special) — Dick Clayborne, pastor of the First Christian Church, Berger, will conduct weekly revival services at the Shamrock Christian Church, beginning Aug. 5, announced Tracey Hopper, Shamrock pastor.

Services are slated for 8 p. m. each evening through Aug. 11.

Dr. Carter Speaks At Kiwanis Meeting

The business of being a preacher and why he likes it was discussed Friday by Rev. Orion W. Carter, pastor of the Methodist Church, in a speech to the Kiwanis Club.

Showing the part played by the church in Pampa, Dr. Carter pointed out that the church owns about three million dollars worth of physical property in this town.

Churches number 45 and employ about 65 pastors. From these sources come the way of learning the American way of life, he said. The church starts the foundation of a person's life, plays an integral part during life and continues the process after life.

Because of these things, the church is as "big as we live it," G. F. Branson, head of the music committee, was in charge of the program and introduced the speaker. He also presented Miss Betty Jane Boynton, who sang two selections.

Dr. T. J. Wright, who is to care for the foreign exchange student to be sponsored by the Kiwanis in Pampa High School this year, reported that the boy will probably arrive about Aug. 5.

Walter Hunt, who invented the safety pin, thought so lightly of it he sold his patent rights for \$400.

HOUSING BOOM—Construction is now the third largest industry (\$75,000,000 in 1950) in Puerto Rico's booming economy. One contractor has a 10,000-man payroll, spends \$17,000,000 for labor wages. Typical of the little island's great housing projects is this vast development at Puerto Nuevo. Originally started with about 5000 small houses, 3500 duplex bungalows (foreground) are being added. They will provide homes for 7000 families.

'Menacing Trend' Developing In American Men's Clothing

By HENRY McLEMORE

My eyes are old and rheumy, and my ear trumpet has developed a fault which enables it to pick up nothing but "Break the Bank," but still I am able to see and hear enough to know that there is a menacing trend developing in this country.

The trend is this: Undress men in summer for comfort's sake. No matter how they look, let them wear haberdashery which will allow the breezes to play across their chests, calves, ears, necks, and big toes.

Away with the blue serge suit. Dismiss the vest and collar that buttons. No more brogues, no more cuffs, no more pants, no more ties, no more garters, no more socks.

The broker goes to business in a bathing suit. The lawyer draws up a brief in just that. The doctor leans over a patient in an aloha shirt, while twisting his toes to rid his sandals of the sand from the city streets. The postman explains that he is late because his Bermuda shorts let his legs get sunburned, and he couldn't walk or pedal as fast as usual.

I am against this sort of thing. For a half dozen reasons. Firstly, name me any man in history, whose name comes quickly to your mind, who established his greatness in resort clothes. Napoleon didn't conquer Europe wearing a deep-sea fisherman's cap and gay shorts. He wore a suit that was hot and uncomfortable in summer, but he did it right. Moreover, he kept his right hand in his vest to keep it warm.

Alexander the Great would have scorned espadrilles, and Caesar didn't have a man in his legions who owned a net shirt.

To get down to more modern times, did Eisenhower review his D-day troops in open-work shoes, with big toes sticking out? Did Herbert Hoover campaign in bathing trunks? Does Barney Baruch sit on a park bench today in a leisure suit?

Secondly, if men start dressing in cities as they do in vacation spots, what will be the use of vacations?

If this trend, I spoke of earlier, is allowed to continue, I can easily imagine the conversation between two men a few years from now.

Bill: Joe, where are you spending your vacation?
 Joe: Well, Bill, I thought of taking the family to Atlantic City, but I hear they're a little fussy about the way you dress in a resort. So I have decided to go to the Chrysler Building, or the Chase National Bank. Seems the fellows there have finally got sensible about being cool. I hear that a vice president wore cuff links the other day and now is assistant night watchman.

Thirdly, when a man is in his early twenties, and every muscle is working overtime without pay, nothing is more gratifying than to stroll around in garments that wouldn't make a decent airmail stamp. But when you hit those unlovely forties, when the sunset is just as close as the sunrise, and your figure is not that of a life-guard, you want to wear a lot of clothes.

Two vests. Three pair of pants. A cashmere windshield. A rac-

coon coat. A diving bell. A bomb shelter. And a moonless night. Truthfully, the best-dressed man I ever saw was Admiral Byrd just after he had crossed the Pole.

Concerning Codes And Integrity
Secretary of Commerce Sawyer takes a dim view of Senator Douglas' proposal that a code of ethics be prepared in order to guide federal representatives and officials in their proper performance of their duty.

That is an amusing way of slanting it up. But the matter of non-integrity is a little deeper. Public officials are not innocent. If they were, they would feel no need for reformation because they wouldn't know right from wrong.

But a public that will elect or re-elect a man who is demonstrably not a good citizen exhibits nothing more than a momentary amnesia when he is caught doing something against the public interest.

Nothing could be further from the fact. A government, in reality, is only a collection of the people who live through it.

Even the harshest governments have noble-sounding charters. Communism has slaughtered millions of gentle people and it practices all kinds of persecutions.

American democracy has been good because the aspirations of most American people are directed by the Christian ideal of kindness.

What life country needs, therefore, is not a brand new code of ethics. It needs greater education over examples of venality and more personal practice of integrity in the conduct of life.

Little Richard ate all the raisins out of his rice pudding, and then promptly lost interest in it. Researching the rejected portion, he asked, "Mother, why do you put rice in your raisin pudding?"

Better Jobs
By R. C. HOILES
The Communist Idea Of Justice
A friend of mine handed me a copy of The People's Daily World for June, 1951, a Communist paper. It is an excellent illustration of the Supreme Court decision of June 4th convicting 11 Communist leaders of violating the Smith Act.

The Communist paper gives the pictures of the 11 Communist leaders together with their names. All of them are Communists. There are only three who seem to have any other occupation.

This Communist newspaper prattles about the conviction of Kefauver's political ability that he was able to bring such an assessor into his Atlantic Union fold. He is unquestionably a "smart cookie".

But the answer to integrity lies with the public itself, not with a printed code on a neat card. A public which elects itself distinguishes sharply between right and wrong and condones the latter under no circumstances.

But they pat themselves on the back and say they are successful or ever used any force. They are guilty by what they advocate. Men do not need to be successful in order to be criminals.

They patte about free speech. But free speech does not give a man the right to commit murder. A moral man or a man who believes in the moral principles of the Declaration of Independence and the Constitution has no legal right to advocate the overthrow of the government by majority.

GOODWILL TOWARD THE ENEMY
("Truth," London, Eng.)
At no time has the history of "pushed around" and "tried with such manifest contempt, as she has been, and is being, under her present Socialist dispensation, no suggestion of a return to the rule of the law of the land of the late August San, has raised a voice without bringing our deplorable Government instantly to heel.

Two men hadn't seen each other for 15 years. They met and began re-encountering. "I'm-I'm your wife as pretty as she used to be." "Second-oh, yes, but it takes her quite a little longer."

Customer-I want to buy a plover. Clerk-Sorry, we have no plover. Customer-This is a book of a drug store.

Baxter's Views
BY DAVID BAXTER
MR. KEFAUVER
Having discussed Senator Kefauver's approach to the setting up of a world government, I likewise expressed some amusement at seeing the names of such supposed opponents of Kefauver's resolution as Senators Nixon and Humphrey and Congressmen Gwin and Hollifield on Kefauver's resolution (S. Res. No. 4; H. R. No. 26).

called "The Atlantic Union Resolution" which was introduced in both houses of congress Jan. 15, 1951. It might be well for some of the "watchdogs" of American principles to take more than a passing interest in this resolution and write to some of the senators and house members I named in my former column asking them just WHY they appended their names.

What ever may be said of world federalism, it is a tribute to Kefauver's political ability that he was able to bring such an assessor into his Atlantic Union fold. He is unquestionably a "smart cookie".

NEW YORK - The menace of the union movement to constitutional government is the more dangerous because it is not appreciated by the average intelligence. This average intelligence embraces the overwhelming majority of the people who, of course, believe themselves to be naturally intelligent and have been taught the multiplication tables and a course of shallow, arbitrary political doctrine.

Some members of school and college faculties are accused unfairly of a pinkishness which is not really in them. It is not in them because they are incapable of independent inquiry and thought. Told that the union racket is "labor" and that "labor" is a select element and arbitrarily noble, these timid, jealous of the tweeds and flannels of the motor agency magnates and other Republicans of

The Doctor Says
By T. WARD F. JORDAN, M. D.
Even though there may not be any remarkable new discoveries concerning polio every year it seems a good plan to discuss this dread disease about the time it is likely to hit its peak. Polio is a terribly alarming and it is wise to review the known and unknown facts calmly and sensibly.

Why, Senator, you aren't getting impatient, I hope!
and did none of these things, as expressed Mr. Morrison's assurance to the potential plunderers that they enjoyed his abundant goodwill. Empires can survive wars and pestilences; they cannot survive their Morrissons.

FAIR ENOUGH--PEGLER

By WESTBROOK PEGLER
NEW YORK - The menace of the union movement to constitutional government is the more dangerous because it is not appreciated by the average intelligence. This average intelligence embraces the overwhelming majority of the people who, of course, believe themselves to be naturally intelligent and have been taught the multiplication tables and a course of shallow, arbitrary political doctrine.

Every now and then some one I have known in triangular pants grows up fat enough to grab a fiddle from the ranks, and make a notch in the world. I can never get used to a 1928 baby getting up in public and saying, "Looka me, I'm good." But they do, and this one has done it superbly well. He is a pianist enough at 23 to debut in Town Hall before a cash public and, the other morning, some music critics with concrete hides gave him a fat, rich "Hello" in print.

Looking Sideways

the high suburban set, pass these errors along to the young. The young, carelessly thought-to-be eager idealists and full of fight, are in fact, more often than not unprincipled little cynics. Who parrot nonsense not because they believe it but because they know that if they disagree that means they haven't learned their lessons. Who wants to flunk and wait another six months or a year to get married? Who gives a damn what is right? The pedagogue simply do not know of the existence in our nation of a system of oppression, coercive and confiscatory laws, kangaroo courts and tolerated persecutions affecting millions of citizens directly and all the rest of us by implication. So, of course they do not suspect that this system nullifies the Constitution nor that it was not imposed on the nation by the demand of the people but by the Roosevelt regime for evil political purposes. It has been written and said so often that the union racket was a program of terror, and the contrary truth has been said so seldom and so feebly, that the growth of this vicious power is completely misunderstood by the whole people. There was no popular demand for unionism in Lewis and his Communist henchmen with Roosevelt's approval and protection. These were said to be "the people" demanding their "right to organize." And the press of the country let the Constitution go by default, probably realizing that this will amount to a cocktail party in those days there was abroad in the land, especially in the editorial offices and faculty councils, a sentiment that industry or capital had been guilty of great wrongs against the working man. The A. F. of L. and A. L. W. were ordained by God to punish the fat man in the plug hat and white waist. This was a stupid conclusion which would have been inexcusable in any really intelligent press or editorial writer. Only a few individuals had the presence of mind to inspect the constitutions of the unions, and appraise their laws, courts and powers of boycott and punishment. Few had the bravery to cry out against the clamor of the mob, that these unions were an ugly institution which would oppress labor as capital never had and supplant the Constitution of the United States. As we expected, these parties, and I am proud to count myself among them, were vilified as fat, labor-baiters, Tories and Copperheads. Few Americans even knew that unions had constitutions. And the electoral methods whereby John L. is solemnly authorized to re-elect himself and to even a pretense of an election is still Greek to most of the people. A professor in a state university, which has high standing in the system, confessed to me that he was unable to refute the standard pro-union propaganda which other professors were teaching some of his students and which they were prattling at him. He has a strong mind and a healthy skepticism but "education" has dropped an iron curtain before the negative side of the debate and so he never learned the truth about unionism. Now, he was inquiring for authorities to study which would teach him, so that he could

INTERNATIONAL WHIRLIGIG

By JOHN FISHER
We may not discover for months whether our new military base bargain with Francisco Franco is an asset or a liability, provocative of trouble. Some diplomats, pointing out the unprecedented strike wave as an indication, maintain that the Generalissimo's discontented people were on the verge of forcing him to soften his harsh rule. Encouraged by attacks on "corruption and incompetence" in the regime, appearing in the Spanish Catholic press, moderates as well as leftists were demanding and receiving promises of reform. But now, observers say, American needs of approval and financial aid have restored the Caudillo's waning strength so that he will again reject proposals to clean up his government and tackle the roots of the economic problem. For 11 years Franco has had dictatorial powers for solving the prolonged economic depression. Until lately his excuse for failure was that Spain had been denied Marshall Plan assistance. Now, so unstable in his political position, he clings to Uncle Sam's military aid. Every job and family military gesture by the United States is described in the Spanish press and radio as evidence that Washington backs the Franco regime. No Europeans this side of the Iron Curtain endure greater misery than Spain, an ordeal from which stems growing discontent. Much of the Prado's earlier support was from government officials and the army. Today even top bureaucrats are so poorly paid that many are compelled to find private jobs as school teachers' salaries have not been raised since before the war. UNDERNOURISHMENT Everyone below the rank of colonel is hard-penned financially. Enlisted men earn extra money for their families by selling a part of their double ration of bread and olive oil. The big brass was angered by Franco's hesitation over restoration of the monarchy. A group of captain-generals presented a written demand for a housecleaning from the Falangist bureaucracy. Some openly sided with the National Committee, composed of political critics of the regime. Rumors of a coup d'etat have been bruited. Civilians are in distress, especially in the Andalusian orange and lemon belt. The average daily pay of a farm hand is 15 pesetas, barely enough for a half-dozen eggs. It would be unfair to blame Franco for all peasant ills. Much of the wretchedness is the result of four successive years of drought. Fortunately, record rainfall this year has filled reservoirs and a bumper harvest is in sight. Health surveys reveal that in Madrid nine of every 10 persons are undernourished. Approximate-

FINITION IN BLOOD
TAIPEI, Formosa, (AP) - The Chinese Nationalist defense ministry said today that every man of one Army regiment had signed a petition in his own blood protesting Nationalist China's exclusion from the Japanese peace treaty conference. The petition was addressed to the United States and the United Nations. trenching with him. They would lean on their Democratic shovels and wonder what the Republican party had come to. Then a foreman would say: "Get with it, boys," and they'd start to dig again. He rose from the ranks, gradually and with painful slowness. He became at last a ninth assistant architect on a post office project. He got other white collar jobs in the WPA. He even took a hand at designing sets for the Federal Theatre. And it was taking its toll. He was aging beyond his years. The child was growing and he too displayed talent. For the piano. They went without food at times to encourage and foster his talent. It became a wonderful child. A pianist. And dad became a wonderful wreck of a man. And for 20 years he scoured and pinched and never got started at anything again, just to see that boy get to the concert stage. We sat together at the concert the other night. His eyes filled with pride and tears. That's what they look like, anyway. Actually, I think they were filled with bitterness, frustration, too. Because want had brought him a physical ailment. He never heard one note his son played.

Some gloomy conditions form the background of the spontaneous wave of strikes that burst in March in the Catalonia and Basque provinces, near the French border, and spread south, recently reaching Madrid. Spanish trade unions are in the pattern of disciplined syndicates, organized to carry out the economic policies of the state. Hence - to quote Franco - "a strike is a crime and must be treated as such." Nevertheless, loyal Spaniards in Barcelona struck in complaint of soaring living costs, wherein food prices are nearly eight times higher than in prewar days. Other cities soon followed. The significant fact is that many divergent elements shared in stimulating the taboed walk-outs. Some strike notices bore grievances over controls encouraged their men to down tools and, despite disapproval of authorities, willingly paid for strike time lost. Members of the Falange, Franco's own monolithic party, were among arrested agitators. The united effort influenced the regime to increase the pay of government employees 30 percent and to reimpose controls that reduced the prices of fish, potatoes and other commodities. "LAND OIL DESPAIR" Of course, the Communist stuck their finger in the pie and boasted that they had sparked the strike, a claim rejected by impartial witnesses. But there is no doubt Stalin's trouble-maker exploited the orderly protest movement. In Barcelona they carried banners stating: "This is but the beginning." They flooded mails denouncing "Butcher Franco for the starvation and ruin to which he has doomed all Spain." Dolores Ibaruri, secretary of the Communist Party and fiercest of female Reds, in her official report stated: "This is but which began as a campaign against hunger, developed into a predominantly political struggle against American penetration (and against Franco) who, in the service of American warmongers, is to turn our country into a land of despair and death." News of the recent deal, by which Washington receives strategic bases in return for economic aid, activates the sharply conflicting opinions of Americans regarding Franco. Some consider him "a devout, well-intentioned ruler, striving against heavy odds to build a nation previously wrecked by Communism in the civil war." Others loathe his type of totalitarianism and fear that if we shore him up, he will deny the Spanish masses the greater freedom of a recent event were forcing him to grant. Stung by this loss, they argue, the people, in the event of war, will revolt, destroy our bases and side with Russia. But Washington, cognizant of all recognizable pitfalls, feels that the bases are of such importance to our global defense system that we must take a chance.

Field Day Is Slated

Supervisors of the Gray County Soil Conservation District met Sept. 5 as field day in Gray County, at a meeting Friday in the county agent's office.

The field day will be held to show results of soil conservation practices in this county. Various farms in the area will be visited, showing different types of terraces, grass seeding and other practices.

Following the business session, a film, "Neighbors of the Land," was shown to board members.

Attending were W. B. Jackson, secretary of the Gray County Soil Conservation Dist.; Homer Abbott, McLean; Bill Waggoner, Grandview; and Foster Whaley, Gray County Agent.

Elvy Sargent, district soil conservationist for Gray, Hutchinson, Carson, Donley and Armstrong Counties, conducted the meeting. Other supervisors in this district are Arlie Carpenter, representing Lefors and Jack Stephens, Kingsmill.

HORACE MANN ELEMENTARY SCHOOL lacks only a few interior items before it is ready to use in this school year. Knox Kinard, school superintendent, said that Sam Houston school and Woodrow Wilson schools will also be ready for occupation when school opens Sept. 4. All the elementary school have received new classrooms and gymnasiums since construction began last year. (News Photo)

Polio Hits Shamrock Twice; Both Cases Are Said Improved

SHAMROCK (Special) — Polio struck in Shamrock twice within the last few days, but both cases are apparently of a fairly mild form.

Mrs. Johnson Mundy, one of those stricken, has returned to Shamrock after having been pronounced past serious danger by Oklahoma City specialists.

Robert Michael Miller, twenty-two-month-old son of Mr. and Mrs. Harold Miller, Pampa, is still undergoing treatment in the Crippled Children's hospital at Oklahoma City. He was visiting his grandmother, Mrs. W.W. Roane while his parents made a trip to California when stricken. The boy's parents flew back when they learned of the illness.

WORK PROGRESSES on the gymnasium and vocational building at Pampa High School. The steel frames are almost completed and brick work is moving rapidly. It is expected to be ready for use about the first of the year, according to Knox Kinard, superintendent of schools. (News Photo)

Schools Due Completion In Early Fall

All Pampa school properties which have received new additions or completely new facilities will be ready for occupancy by the beginning of the school year except the high school gymnasium and vocational building, according to Knox Kinard, school superintendent.

Beginning Aug. 1, Kinard said, work will be completed on Horace Mann and Woodrow Wilson Elementary Schools. Both schools have received new gymnasium, auditoriums and several classrooms.

The new Carver School will be ready by approximately Aug. 15 as will the new classrooms and gymnasium - auditorium of Sam Houston.

Work is progressing rapidly on the senior high school gymnasium and vocational building, Kinard said. The contractor date has been set on Nov. 30 and it is expected to be ready for use about the first of the year.

Improved shop and home economic facilities for ninth graders in junior high are being worked on now. The old shop in back of the junior high school building is being remodeled and new equipment for the home economics classrooms will be in a timetable outlined or pending of school.

New additions of classrooms and gymnasium-auditorium were put into use in Baker elementary school before the last school year was over.

Cleanup Underway At Irish Cemetery; Seek More Funds

SHAMROCK (Special) — Annual cleanup is underway at Shamrock cemetery, reports Earl Etter, secretary of the cemetery association.

General cleanup also included mowing lots that had not previously been mowed, Etter said. He appealed for funds to pay expenses of the cleanup, explaining that in past years local citizens were asked to work at the cemetery, but this year it has been cleaned up with professional workers to avoid confusion and expedite completion of the work.

Potter's Field also will be mowed and cleaned up, Etter said, if contributions are sufficient.

Shamrock Firemen Take Short Course

SHAMROCK (Special) — Two Shamrock firemen attended the annual Texas Firemen's short course held at Texas A&M College, July 16-21.

Bob Hammack and Matthew Cantrell, members of the Shamrock Volunteer Fire Department, received instruction in modern firefighting methods and use of new equipment, and also fire prevention and safety instruction.

HEARINGS POSTPONED — The United Nations Security Council has postponed until next Wednesday further hearings on an Israeli demand that Egypt open the Suez Canal to Israel-bound shipping.

WHITTIN' — Unimpressed by the excitement of the Kaesong cease-fire talks, a North Korean WAC sergeant methodically sharpens a pencil for use by the armistice delegates. The young woman has a Red star on her cap and a paper identifying her as a member of the reception staff at the conference city.

The World Of Books

MAN AND GOD: by Victor Gollancz; Houghton Mifflin Co., Boston, 1951.

Subtitled, "passages chosen and arranged to express a mood about the human and divine," this is a book of no particular creed, but of all creeds.

The purpose of the anthology, says the author, is to set a mood — not a doctrine. Anti-humanistic religion and anti-religious humanism are prevalent in all minds. "Man and God" attempts to bridge gaps that have always existed.

Quotations are included from the Bible, Talmud, poets, philosophers, rabbis and saints. No commentary is included — that is for the reader to do. It is a book for thought.

It can be read during long sessions, but is the type of book one might prefer to read in parts and in various moods. The AMERICANS BEFORE COLUMBUS; by Elizabeth Chesley Bailey; Junior Literary Guild; illustrated.

The author gives a panorama of life on the American continent before Columbus opened the way for European exploration and conquest. The book begins with the ice age animals and unravels the story to the highly organized civilization of the Incas. Geography includes the people of Alaska to the southern tip of South America. Geographically, the book covers the ice-covered Alaska through Central America to the southern tip of South America.

STORY OF SERAPINA: by

Anne H. White; Illustrated by Tony Palazzo; Junior Literary Guild.

Serapina is a large multi-colored, handsome cat with black whiskers — and an important member of the Salinas family.

Says Band Progressing

SHAMROCK (Special) — "Our band is making wonderful progress, and we expect to be ready for a series of summer concerts within two weeks," reports Ray L. Showalter, Irish high school band director.

Showalter is having senior high school band practice each Tuesday and Thursday night at 7:30, while he takes junior high and beginner band students Tuesday, Wednesday and Thursday mornings.

Plans call for rehearsals for the between-game maneuvers on grid — game nights, with Aug. 15 tentatively set for the opening of these festivities. Tentative plans call for taking the Irish band to Perryton Aug. 18 for the city's annual birthday celebration.

Showalter opened band practice July 17, after spending six weeks in the summer session at Texas Tech, Lubbock, where he worked toward his master's degree.

Mexico achieved its independence from Spain in 1810. The change was not effected until 1821.

ONE FOR THE CHEMISTS—This three-cent stamp will commemorate the 75th anniversary of the American Chemical Society. The stamp will be placed on first day sale at New York City on Sept. 4, 1951.

Vollmer Does It Again! Bosox Win In Sixteenth, 8-4.

Top Clutch-Hitter Blasts 4-Run Homer

BOSTON — (AP) — Clyde Vollmer, clutch hitting wonder of all baseball in the last few weeks, did it once again Saturday, slugging a four-run homer in the last of the 16th inning to provide Boston's Red Sox with an 8-4 triumph over the Cleveland Indians.

Vollmer now has won 13 games with his booming bat for the Sox, and yesterday's decision was well deserved by lefty Maruce McDermott who went all the way. McDermott, who only two weeks ago pitched 17 of 19 innings against Chicago, struck out 15 Indians hitters, walked only one and hit another.

The Sox now are six points behind the first place New York Yankees and 10 points ahead of the third place Clevelanders.

Vollmer had singled home a home run in the 15th to pull the Sox into a 3-3 tie. The Indians went ahead 4-3 in the 16th on Ray Boone's double and a single by Larry Doby. Johnny Peaky walked with one out in the Boston 16th and scampered all the way home when Williams lofted his two bagger into the left field corner.

Vern Stephens drew three called balls and then Bob Feller, ordered to give Steve an intentional fourth ball. Bob Doerr fled out.

After the first pitch was called a ball, Vollmer rapped the next one for the ball game.

Billie Goodman ran the count to three and two and then walked.

After the first pitch was called a ball, Vollmer rapped the next one for the ball game.

Billie Goodman ran the count to three and two and then walked.

After the first pitch was called a ball, Vollmer rapped the next one for the ball game.

After the first pitch was called a ball, Vollmer rapped the next one for the ball game.

Billie Goodman ran the count to three and two and then walked.

After the first pitch was called a ball, Vollmer rapped the next one for the ball game.

Dial Whips Hubbers For Fifth Time

LUBBOCK — (AP) — Red Dial best the Lubbock Hubbers for the fifth time in six attempts this year as the Pampa Oilers won a 9-4 decision over the second place team here Friday night, with Ray Faust taking his sixth less against 13 triumphs.

George Mendoza finally broke Dial's string of scoreless innings against Lubbock at 13 when he smashed a grand slam home run in the seventh inning. His blow accounted for the only runs off Dial, who whiffed five, walked three and allowed only nine scattered hits.

Pampa lost no time clinching the victory, reaching the usual dependable Faust for three hits and four runs in the opening frame. Faust gave up consecutive hits to the first three batters to load the bases, then walked Jake Phillips to force in the first run.

Faust at that point slipped while delivering and ylate umpire Kermit Cran called a balk, forcing in the second run and moving Francis Rice into third. He scored on Joe Fortin's long fly to right, Phillips moving into third. He scored on Frank Calo's fly to right.

Faust, although touched for hits in every inning thereafter, escaped trouble until the fifth when Fortin's single, the first of five wild pitches and Calo's double accounted for one of two runs, the second came when Jimmy Banks singled to left and Mendoza fumbled the ball, allowing Calo to score.

Two more runs in the seventh with no one out led the victory. It also brought Steve Catadul to pitch in relief of Faust. It marked the first time since May 31 that Faust had failed to go the route. Up until Friday night he had gone the distance in 16 of 21 games he had started.

The Oilers added a run at Catadul's expense in the eighth, but it wasn't needed. Despite Mendoza's long clout in the Hubbers seventh.

Dial again was in complete command. He gave up single hits in the first four innings, but two double plays helped him out of the rest. He held the Hubbers hitless in the fifth and sixth, gave up three safeties in the seventh and six blows in the eighth and ninth.

Blue Sox Blank Oilers In Opener To Win 3-0

Righthander Clyde Baldwin locked himself in a good pitcher's duel with righthander Art Hamilton last night in the first game of a two-game series with the Abilene Blue Sox, but he came out second best as the Hose shut the Oilers out, 3-0.

Both pitchers hurled runless ball for six innings. But in the home half of the seventh the Sox put together four straight hits for three runs and the ball game.

The Oilers had various and many scoring chances, but each time they had men on bases, Hamilton slammed the door in their faces.

The big seventh inning started with Rahmes popping out, Sessi followed with a single to right, went to second when Schmidt hit a too-hot-to-handle single to third. Bowland singled Sessi home and Card followed with a double that plated Schmidt and sent Bowland to third. Tuckey dumped a bunt down the first base line and Bowland scampered home with the final run a fluke game.

This afternoon the two clubs conclude their series with a single game. It will be broadcast at 2:30 over KPND. The starting hurler for the Oilers is expected to be righthander Mel Kramer, while veteran Fred Schmidt may get the nod for the Sox.

PHENOM—Proportionately to his times at bat, Willie Mays has the best home-run record in the major leagues. Mays stepped right into center field for the New York Giants, May 25, upon being called up from Minneapolis, with which club the 20-year-old Fairfield, Ala., lad tore the American Association apart. He was one of the strongest and most accurate throwing arms, is above average in speed, runs bases well and doesn't hesitate to hit the dirt, with or without his cap, which he frequently loses. (NEA)

NEW YORK — (AP) — Jack (Zip) West, who twice outsmarted master fixer Eli Kaye by upping the latter's price to Bradley and Toledo basketball players, was still at large today while Toledo, New York, and Florida authorities continued their investigation in the latest college basketball scandal.

Odor Grows Stronger And Spreads In Basketball Fixes

NEW YORK — (AP) — Jack (Zip) West, who twice outsmarted master fixer Eli Kaye by upping the latter's price to Bradley and Toledo basketball players, was still at large today while Toledo, New York, and Florida authorities continued their investigation in the latest college basketball scandal.

District Attorney Frank Hogan Friday explained how West engaged a second betting coup by paying each of four Toledo players \$500 to shave the point spread against traditional rival Bowling Green on Jan. 11 of this year.

Kaye, who had been dealing with the players Williams Walker, Carlo Muzi, Robert McDonald and Jack Feeman — asked the four to "do business" against Bowling Green. But they told Kaye he should bet on Toledo because they wanted to give Bowling Green a good beating.

Actually, Hogan said, they had no intention of trying to run up a high score against Bowling Green. However, as things turned out, the game got out of hand, and Bowling Green won 11-65.

This, incidentally, happened frequently in fixed games. The players would try to keep their winning margin close, but would fall behind and never be able to make it up.

Until Friday, Feeman had not been implicated. But president Asa Knowles of Toledo told Hogan the other three were forced to take him in when he almost upset against Niagara in a fixed game.

In that contest, Toledo was ahead by 17 points with only three minutes to go. But by dint of keeping the ball away from Feeman and making poor passes, they managed to win by only three points, enough for Kaye to collect his bets.

From then on, Feeman was on it, and when West's unidentified lieutenant delivered the \$2,000 to Walker, after the Bowling Green fix, "Jumping Jack" received his cut.

Mangrum In St. Paul Lead

ST. PAUL, Minn. — (AP) — Firing a record-scattering 62, ten strokes under par, Lloyd Mangrum of Chicago captured the lead Saturday at the three-quarter mark in the St. Paul Open Golf Tournament.

That score gave him 54-hole total of 196, and put him well in front of an avid group of golfers who made a mockery of par 72.

Mangrum's 62 was one stroke better than the previous mark, a streak from the East.

Professional in Hawaii, and Horton Smith, Cooper made his 63 in the third round of the tournament in 1936 and Smith caved his in the final round in 1941.

Cochise, leading most of the way, stood off a challenge by Oil Capital, and CCounty Delph, second choice in the wagering, finished third, another length and a half back. The King Fanch's Curanderro, trailing the eight horse field down the last stretch, came with a rush to finish fourth.

Richards Protests Rain-Stopped Game

NEW YORK — (AP) — Manager Paul Richards of the Chicago White Sox protested an official protest of Friday night's 3-1 New York Yankee victory over his club, blasting "incompetent" umpiring for calling the rain-swept game after Chicago took a 4-3 lead in the ninth. The score then reverted to eight and 11th innings with New York the winner.

Paul Richards

"Unplayable field," he fumed. "There's no such thing. All they had to do was take the cover off. Ten minutes after they called it off, it stopped raining and we were on the field, not by the umpires. Why this game might win or lose the pennant for any one of five clubs."

The more Richards talked about the stormy night at Yankee Stadium, the hotter he got. "Since when are they in such a hurry?" he said. "What the big rush? They told us we could play until morning. There's no curfew — no time limit."

"Soar (plate umpire Hank Soar) says to me 'we don't want to keep these people out too late.' It was all right to keep 'em out until after 2 in the morning at Chicago wasn't it?"

"If they want a time limit, let the league put it on. Not the umpires."

The umpires halted the game for 26 minutes in the top of the ninth and resumed play. They went about 15 more minutes before it started pouring again with thunder cracking and lightning flashing.

By this time Chicago's Bert Haas had come through with a pinch single that scored two runs and put the Sox out front 4-3. After a one hour and two minute wait, it was still raining at 11:33 p. m. (EST). The umpire notified the press box the game was called because of an unplayable field.

"It wouldn't be so bad in the daytime," said Richards. "If it was getting dark and still raining they might have a case. But we've got the lights on and all the time in the world. Why such a hurry?"

Richards, top candidate for manager of the year honors, led his Chicago White Sox into Yankee Stadium Friday night to lead the league-leading New York Yankees.

The Yankees won, 3-1, by the grace of fickle fortune to retain their one game lead in the tight American League pennant race which finds the Boston Red Sox and Cleveland Indians tied for second and the White Sox fourth, 4-1-2 games off the pace.

Chicago, trying to climb back in the fight, entered the game nursing six deficits in its last seven games and a tongue lashing from Richards.

The Yanks led, 2-0, going into the ninth. The Sox scored a run with one out and had two runners on base when a thunder-

Burns Paces Bat Race

Glen Burns of the Lamesa Lobos retained the bat leadership of the West Texas-New Mexico League for the second consecutive week according to the latest official averages. His .387 average was 17 points better than that of teammate Glen Selbo.

The pitching leader continued to be Jesse Priest of the Albuquerque Dukes, who had won 17 and lost 1 up to the date of the official averages, July 22.

A complete rundown of batting leaders showed, percentage: Burns; runs, Santiago, 109; hits, Burns, 145; total bases, Burns, 239; doubles, Stokes, 31; triples, Murray, 12; home runs, Burns and Howard, 20 each; runs batted in, Burns, 112.

Pitching leaders were, percentage: Priest, .914; wins, Priest and Arthur, 17 each; most losses, Borrego, 14; most complete games, Faust, 18; most innings pitched, Faust, 207; most games, Arthur, 21; most strikeouts, Diaz, 123; most bases on balls, Payne, 133.

The Lamesa Lobos continued to lead the team batting average with a mark of .387. Abilene was second with .368. The fielding leader is Albuquerque with Pampa fourth. The Oilers dropped to sixth in team hitting.

PHILADELPHIA — (AP) — Hal White, third Detroit pitcher of the game, retired two men in order to cut short a Philadelphia-A's rally in the ninth inning Saturday and gave the Tigers a 6 to 5 victory.

With one out, Dave Philley singled and Gus Zornoff walked. Frank Majeski pounded out a double to score both but Philley and Joe Astroth went down trying to move Majeski around.

Detroit went ahead in the fifth with two on Connie Berry's safe punt, a walk to Dick Wertz and successive singles by Pat Mullin and Johnny Groth.

PITTSBURGH — (AP) — Pinch hitter Eddie Fitzner's 2-1 pinch double and Warren Spahn's wildness helped Pittsburgh come from behind Saturday to down the Boston Braves 8-4 behind the nine-hit pitching of Murry Dickson.

Phillies Blank Chi Cubs Again

CHICAGO — (AP) — Behind the seven-hit pitching of Russ Meyer, the Philadelphia Phillies recorded their fourth consecutive shutout victory Saturday by edging the Chicago Cubs 1 to 0 before 10,806.

The Phils are only two games short of the major league record of six set by Pittsburgh in 1903.

Meyer had perfect control. He issued no walks and fanned three.

Andy Seminick's line double to start the fifth opened the way for the winning run. Meyer moved Seminick up with a sacrifice and Richie Ashburn singled to collapse Friday night during a mat bout.

Dr. Ernest R. Sturgis, county coroner, said he will hold an inquest on the death of a woman wrestler from Columbus, died in osteopathic hospital Saturday after collapsing Friday night during a mat bout.

The woman wrestled in two bouts here Friday night. In the first

LEROY BROWN
... transferred

Leroy Brown (SS), son of M. and Mrs. D. L. Brown, 922 E. Campbell, has been transferred to the submarine, USS Aspro at Mare Island.

He was graduated from the submarine school in New London, Conn. and served 20 months on the USS Charr.

Brown has been in the Navy about three years. At present, he is hospitalized and expects to be home on leave soon.

Further word from friends of the late Capt. John Henry Nelson, who was killed during ac-

tion in Korea Feb. 14, has been received by his father, Harry A. Nelson, east of Pampa.

Capt. Albert C. Metts wrote, "I lost one of my best friends when John Henry was hit, so we have a great sorrow in common. I felt he was fighting too hard for one man and didn't believe he would live through the war. I hoped he would get wounded and sent home out of danger."

"I hope the great pride you must have in being the father of a heroic son will in some way lessen your sorrow. I'm very proud to have had John Henry for a friend."

Another friend who was in Korea at the same time was Capt. William Paul Brocke. He said Capt. Nelson would have kept going all the way to the Yalu by himself if he could have. "He was absolutely fearless."

The Distinguished Service Cross was awarded posthumously to Capt. Nelson June 6.

Damages In Accidents Pass \$1000

Investigations on three accidents late Thursday were complete Saturday morning with damage estimates surpassing \$1000.

First of the series of accidents occurred at 4 p.m. when Leta Belle Olney, 1328 Duncan, backed from a curb on E. Browning and was in collision with a car driven by Herbert L. Bull, Lubbock. Police charged Mrs. Olney with failure to grant right-of-way.

Damages to the Lubbock man's car were thought to be \$125, and only \$25 in damages was reported on the woman's car.

At 5:20 p.m. Thursday, Doyce Chapman Shelton, 1108 Terrace, and Pedro Garcia Martinez, Conway, were involved in an accident on Duncan at Louisiana. Damages to her car were \$350, and police estimated damages to the Martinez's car to be \$200.

Martinez is charged with reckless driving and driving with no operators license, police said.

Another accident on E. Francis at Starkweather involved Elizabeth Mills Stevens, 718 Doucette, and a Pampa teenager.

The collision occurred, police said, when the youth pulled into an intersection without stopping at the stop sign. He is charged with driving with no operators license and failure to grant right-of-way.

Damages to the Stevens car were reportedly \$250, and repairs to the pick-up driven by the youth were estimated at \$200.

There were no injuries in the three accidents, police reported.

School Vacations Shorter This Year In Pampa System

Twelve days have been set aside for the Christmas holidays in the Pampa schools, making the vacation a little shorter than last year.

Instructors report for a meeting Aug. 31 and students report Sept. 4.

Other vacations for the school year have been set up by school officials. Thanksgiving will be the first vacation, with two days, Nov. 22 and 23.

Christmas holidays will begin Dec. 23 and end Jan. 2; Easter

VISITORS DISCUSS — B. K. Min, left, from Korea, and Jurri Nou of Estonia discuss life in the United States. Both have been in this country about two years, attending McMurry College at Abilene, and would like to make America their home. (News Photo)

We Were Happy Before They Came:

Visitors Deplore Communist Rule

By BOB BUSH

"When people take things for granted, it is good for them to be reminded of others' hardships."

This was the opinion expressed by B. K. Min of Korea and Jurri Nou of Estonia during a radio interview over KPND Friday.

Both are in the United States attending McMurry College at Abilene. Min is studying pre-law, and Nou is majoring in mathematics.

Min said he believed the situation in Korea is becoming more complicated. "All I can do is hope things will be better," he said. The big problem among the people is how to make a living. So much has been destroyed, thousands are starving, he added.

As far as relations between North and South Koreans are concerned, Min remarked both have the same history and language, and would be a unified people if communism had not interfered.

"Our country was one of the happiest before Japanese occupation. Now it is in a terrible condition."

Nou, who has been in this country about two years, comes from Tallin, Estonia. In 1944, when the Germans occupied it, he was taken to Germany and forced to work in a munitions factory and later, in a potato field. He remarked he would have starved if it hadn't been for the potatoes.

"According to Communist ways, Hitler's rule was just a picnic," he said. Like Min, Nou said his country was happy before the war. During Soviet occupation in 1940, his father refused to join the Communist Party and was taken away, probably to Siberia. Nou is uncertain whether the rest of his family are alive.

Now, conditions there are the same. "In all Soviet controlled Balkan countries, killing goes on. Communist education is stressed, unlike policies of Lenin."

Holidays begin April 11 and end April 14; March 14 has been designated a holiday for the Northwest Texas Conference for Education.

It added that "such things cannot be tolerated. Isolation some leaders from the broad party masses and their attempts to take the part of issuing commands and ignoring criticism and self-criticism must be resolutely condemned."

Reports here say that some dispossessed peasants have hidden out in the mountains and formed groups of armed raiders. Others reportedly have fled to

Taxes Reach Record Total

WASHINGTON — (AP) — Federal tax collections totaled a record amounting \$50,386,622.68 in fiscal 1951 which ended June 30, the Internal Revenue Bureau has announced.

That was a solid 15 percent gain over the previous record high of \$43,800,387.87 in the wartime fiscal 1945; 32 percent above the \$38,957,131.768 collected in fiscal 1950.

And it was 19 times more than the government collected only 17 years ago, in 1934 — \$2,640,603.828.

Individual income tax collections reached an unprecedented \$28,302,451,998.91 in 1951, running 25 percent above the previous record of \$20,997,780,699 set in 1948. In fiscal 1950, personal income tax collections totaled \$19,574,747,452.

Corporation income and profits taxes jumped to \$14,358,670,915.48 from \$10,854,351,108 last year, but fell short of the \$16,027,212,826 peak reached in fiscal 1945.

Miscellaneous internal revenue, chiefly from excise (sales) taxes, pushed to a new high of \$9,458,861,625, compared with \$8,204,897,891.63 in fiscal 1950.

Collections by the revenue bureau ran higher than net budget receipts of \$48,142,604,532, partly because they included \$236,964,695.26 in unemployment insurance levies, which are not counted in the budget, and partly because the government had to return more than \$2,000,000,000, chiefly as refunds to individuals on tax overpayments through payroll withholdings.

The upsurge in tax collections was primarily responsible for the fiscal 1951 budget surplus — excess of income over outlays — amounting to \$3,509,782,624.

Biggest contributor among the states and territories has been New York which paid \$9,163,210,042 into the federal treasury as compared with \$7,215,466,536 the year before.

Some of the larger contributors and their totals for 1951 and 1950 fiscal years included Illinois — \$4,312,227,294 in 1951 and \$3,798,892,658 in 1950; Michigan — \$4,121,989,530 and \$2,747,570,685; Pennsylvania — \$3,880,132,291 and \$2,964,381,617; California — \$3,536,306,198 and \$2,794,713,395; and Ohio — \$3,288,823,963 and \$2,452,586,906.

Others with 1951 figures given first include: New Mexico — \$80,516,063 and \$57,906,231; Oklahoma — \$494,417,408 and \$412,470,632; Texas — \$1,679,349,000 and \$1,290,822,384.

Yugoslavia, but many more have been imprisoned.

According to some reports Premier Chervenkoff himself has fallen from power and been replaced by Georgi Chankov, deputy chairman of the council of ministers.

Colorado's state motto is: Nothing without God.

Says Reds Outnumbered In Germany

BONN, Germany — (AP) — Allied armies in Germany will outnumber Russian troops now in the east zone by nearly 200,000 men by the end of this year, an informed allied source reveals.

The planned allied build-up will put nearly 800,000 men in Germany compared with estimated Russian strength of about 600,000, the source said.

The allied plan provides for the equivalent of 18 divisions and a "considerably increased" British-American air force.

Opposing allied and Russian forces in Germany are now about equal, the source added.

Intelligence reports show on indication of a Russian build-up at present. Nor is there any indication that one is coming. The allies claim to know of the arrival of new Russian units in the east zone within 24 to 48 hours.

Allied agents have identified 24 Russian combat divisions and six engineer and anti-aircraft divisions in East Germany. Armored strength is given as 5000 tanks. The Russian division is

Bowman Explains Summer Program

Marylin Bowman, director of the youth recreation program, told the Lions Club last week how money is being spent in the program.

The program was originally set up to take care of 300 boys and girls between six and high school age, but approximately 700 have received benefit, Bowman said.

A popular event is the fishing program, in the charge of Game Warden Slim Davis. Also, swimming instruction is offered once a week at City Pool.

Bowman expressed hope the program could be continued on a full time basis, which would

be smaller than that of western armies, equalling a big allied combat team.

Eight allied nations are contributing to the forces expected to overtake Russian strength in Germany for the first time in six years.

They are: United States, Britain, France, Canada, Belgium, Norway, Denmark and Luxembourg.

The French may not complete their program on time, and the Canadians may not all be here before the beginning of January. But allied leaders here are confident that their plan will be substantially fulfilled.

Father Of Pampa Dies In New York

The death of Thomas Webster Nock, New York City, father of Mrs. J. W. Meador, was made known here Friday.

Mr. Nock died suddenly last Wednesday. He is survived by his wife, Mrs. Meador and three other children.

Justice Court Levies \$70 In Fines Saturday

Fines totaling \$70 were levied in Justice court Saturday against two out-of-town men, a Pampa man and a Pampa teenager.

A fine of \$35 was levied against a Pampa man, charged with intoxication. A Pampa boy paid \$35 fine for driving with a bed muffer.

An out-of-town man paid a \$35 fine for driving without an operators license and another paid \$14 in fines for not having trailer brakes.

include recreation for everybody. This would cost about \$12,000 a year, he said.

Sherman White, president of the Lions Club, told about his trip to Lions International Convention in Atlantic City last month.

Both words and music for "My Wild Irish Rose" were written by Chauncey Olcott.

TO VISIT INGRID—Pia Lindstrom, 12-year-old daughter of actress Ingrid Bergman, and her father, Dr. Peter Lindstrom, smile from the rail of the "Queen Mary" as they arrive in Southampton, England. Father and daughter are on their way to Stockholm where Pia will visit her famous mother.

GIGANTIC SAVINGS DURING OUR ANNUAL WHITE ELEPHANT SALE

WHITE ELEPHANT: Webster defines it as a "piece of merchandise no one wants!"
We define it as a "lousy, junky, stupid, foolish buy — Bought by an equally lousy, junky, stupid, foolish and ignorant buyer."
So, we are getting rid of both! The "White" Elephants to you (he!) and the furniture buyers to the STATE . . . both at extra low prices. **HELP WANTED:** Furniture buyer with only one head!

IT'S BIG! IT'S COLOSSAL! IT'S THE MOST SENSATIONAL EVENT OF THE YEAR!

2-PIECE LIVING ROOM SUITES

Hurry! Hurry!
Come early for the worst selection!

Just received! Too-oo Too-oo Devine! The very latest in styles and colors, so our buyer says. But we are trying to arrange with the state authorities to give him a room with NAPOLEON! If you are a giraffe, maybe you can look over some of these gorgeous selections and appreciate this WHITE ELEPHANT PRICE

169⁸⁸

It almost breaks our heart to cut the price and sell this sofa. It's been with us so long we feel a deep affection for it. But our customers don't feel as we do. Regular \$219.95. Take it for only . . .

149⁸⁸

MANY OTHER WHITE ELEPHANTS NOT LISTED

PLATFORM ROCKERS

Not much for looks, but they must be comfortable as our salesmen want to sleep in 'em. Please take the rockers away so our salesmen will stay on their feet!

JACOBY ON CANASTA

Think Before Throwing Card

By OSWALD JACOBY
Written for NEA Service

"I have a discarding problem for you to solve," relates a Chicago correspondent, "and hope that I will be able to give you enough information. That isn't easy, because it's one of those situations in which the packer builds up and up until all the players have ulcers of the stomach from sheer excitement. The pack was born froze with each side needing only 50 points for the first meld. Everybody throws safe cards, including ten wild cards. You draw from the stock and hold three aces, three kings, three eights and three fours. You must now discard from one of those triplets. No ace or four has ever been discarded. The player at your

left has discarded two eights, at his last two turns to play; but no other eight has been discarded by anybody. Only one king has been discarded — by your partner at his last turn to play. "Assuming that all the players are experienced Canasta players (they consider themselves pretty good, too), what should you discard at this point?"

A very interesting little problem. The safest discard stands right out. In this situation you should discard one of the kings. We can begin by eliminating the aces and fours. They have never appeared, and they are the most dangerous cards to throw. The eights are a possibility, of course. The player at your left has thrown two of them. Unless

he started with four of them, or unless he picked one at his last turn, he does not have a pair of eights left. However, it is very likely that he did have four of them when he discarded the first eight. It was then a very dangerous discard. What is more natural than for him to discard the rank that he had most of?

On this basis, you are suspicious of the eights. You don't rule them out entirely, but you look around for something better.

Now consider your partner's last discard of a king. It was the first king to appear. Obviously, your partner didn't choose this moment to throw a singleton king. He must have had enough kings to make the discard look safer than anything else he could throw. He surely had at least three kings, in other words; perhaps four or five.

If he had three kings, there are only two that are left to be accounted for. Perhaps both of them are at your left; but that would be hard luck. If your partner had more than three kings, your discard is perfectly

FROM NINE TO FIVE

It's just beautiful but could you raise the price? I wouldn't dare be seen in anything so cheap.

THE OUTPOST

By RAY FANCHER

Well, just 13 more days. That's all it is, until the Headquarters Battery of the 474th Field Artillery Observation Battalion packs up and leaves for Fort Sill, Okla., and summer camp. As we have said a number of times before, the work is getting heavier and heavier as the battery continues its preparation for the camp period.

This year, the training at Fort Sill will consist of one week of on-the-job training with members of regular Army units. The second week will consist of field problems. The men of the battery will take to the field and train under simulated battle conditions. At times during the two weeks at camp, the men will have demonstrations of field artillery equipment and procedure as held by regular Army units. During the time at camp, the battalion will have 100 per cent cooperation from regular Army field artillery units.

This year, the unit will be housed in tents. These tents are set on wooden framework and are completely screened in. Each tent will hold eight men. Even though the men will be housed in tents, the unit will still have a permanent mess hall and administration building.

The battalion has a new officer to introduce this week. He is Captain J. C. Pogue, who has been assigned to our unit as the regular Army advisor-instructor. Another new face in Pampa will be Sgt. 1st Class J. C. Stephenson. Capt. Pogue has recently returned from Korea, where he served nine and a half months with the 90th Field Artillery Battalion of the 25th Division. Capt. Pogue became a member of the battery as a private at Fort Sill in 1940. He was commissioned in July, 1942 and was relieved from active duty the latter part of 1945. Captain Pogue was recalled to active duty in January of 1949 and was sent directly to Japan.

Sergeant Stephenson, Capt. Pogue's assistant, is also a new face in Pampa. He will take up residence here in the city if he can find a place to live. The sergeant is an ex-Navy man who re-enlisted this time into the Army, in March, 1948. He served with the Second Armored Division before he was assigned as instructor to this unit.

There has been a change out at the Army during the week. Sgt. 1st Class George R. Plumlee has taken over as the battery administrative assistant.

He will replace Pvt. Loyd W. Lee, who will still be a member of the unit.

Master Sgt. Stewart M. Miller will go before the Army reviewing board July 31, for examination for appointment to warrant officer. If Sgt. Miller passes the board, he will become battalion supply warrant officer.

We told you last week that the drill team of headquarters battery would be ready to march in the rodeo parade this year. Well, the preparations are moving along according to schedule. The men of the team have received their equipment, which includes; white helmets, white leggings, white pistol belts and white gloves. Pretty sharp, what? Not only that, the men have their new M-1 rifles, which is quite a feat, seeing as how we are equipped completely with carbines.

That's about all from this Outpost this time out, I do want to say that there are still openings for qualified men and officers in the 474th Field Artillery Observation Battalion.

See you next week from this same OUTPOST.

Need A Desk? Government Has About 11,000 Extra

WASHINGTON—(AP)—The government has about 11,000 extra desks on its hands here. Warehouses are jammed with them.

"But we're not worried about it at all," says William A. Miller, regional director of the General Services Administration. The GSA is the buyer for most government agencies.

He told a reporter he expects ordinary demand to take up the supply within three to five months. He estimated there were 16,000 wooden desks and 1,000 steel desks.

Some are stored in the cow barns at the soldiers home.

"When the furniture started piling up we had to get some emergency storage space," Miller said.

He attributed the overstocking to a variety of reasons. Mainly, he said, it sprang from urgent demands by defense agencies after the Korean war broke out. Orders were placed in anticipation of a big jump in employment.

Then congressional cutbacks, "freezes" on government employment and heavy filling of back orders by furniture companies caused the piling, Miller said.

A spokesman for GSA Administrator Jess Larson said that on June 30 the agency had \$16,700,000 worth of materials in 12 supply centers across the country.

The items ranged from pen and pencil desk sets to office machines, floor cleaning equipment and furniture.

Brides Favor Mid-Summer Season For Exchange Of Wedding Vows

MR. and MRS. LEROY THORNBURG

ABSENCE MAKES THE HEART grow fonder, and "two-weeks-with-pay" is just what Peg needed. But still, home is the best place to be. And this is such an active looking place with all those flags waving. Very festive. Can hardly wait as time draws near for the rodeo. We think there should be a law (with five minute jail sentence attached) against all persons not carrying out the traditions of the old west in their clothing. Even if it's only a bright kerchief, our gang is going to get into the spirit of the week.

MR. PEG, who was a dear for taking over this column for two weeks, didn't mention that the soap box derby was last Sunday. Seems that is one of the biggest events of the summer for young boys. (The aftermaths of the event are still seen along the curbs.) The sponsors deserve a pat on the back, and all the young fellows who worked so hard on their cars. Mr. Peg wonders, I think, why at least one little Peg wasn't in the race. I just don't know where he thinks they'd get the handicraft — I'm just not much of a craftsman. Paul Brown is a veteran "soap box planner" and he had lots of help from that likeable young Dick Stowers, the Frank Culbertson's son-in-law. The Pampa News, my favorite paper, had no little part in the success of the event. I can pass that compliment — being an outsider.

THOSE FREE MOVIES down at Lions park Wednesday are a nice thing. Seems so much is being done for the kiddoes' summer. Isn't there a free movie downtown on Wednesday morning, too?

HEARD SOMEWHERE not long ago that Mrs. H. H. Heiskell, who has been here many years, was among the group that played the first set of tennis here. That was when our school system was quite young, and the first rackets and other equipment were brought in. Interesting to note that her sons grew up and did their share in bringing fame to Pampa's basketball and football teams. Recently saw her son, Grover, and his attractive wife and young son in the movies, and Peg mused, "There's a fine third generation growing up."

WE TALKED last year about the "playhouses" over town, and have been longing for one in our backyard. Boys can have as much fun as little girls in those. (Though many times they'd rather go more primitive and have a tent.) Cutest little house we've seen is the one house in green and the effect is most unusual. But, like Peg mentioned sentences earlier, we just don't have a bullder in the family.

LATEST THING for the ladies is a "nightcap" like Grandmother used to wear. Movie star Arlene Dahl designed them and they'll be handmade in Cuba or some such place, and then shipped back here for market during the Christmas rush. They're appropriately called "Dahl caps." The whole idea is to hide that distasteful "peeled-onion" look we take on at night with our hair in pin curls. Husbands of we "middle agers" have it worse — but they just must wait a few years when we start wearing chin straps and all that sort of thing. Beauty is such a complicated process.

PAMPA PANORAMA: One of the nicest things about summer is the weddings it brings, and each year we think the brides were never lovelier ... the T. J. Worrell's daughter and the W. C. Moseley's daughter are just two ... And the Stanley Brandt's beautiful young man is on the bride-to-be list ... she's as talented as she is pretty ... And speaking of the young and pretty, the O. W. Hamptons' daughter is a favorite ... See L. N. Atchinson back home ... Harry Kelley is busy with the hopeful young swimmers in the summer youth program ... he is popular with oldsters alike ... Mrs. Joe Donaldson is a sweet person ... Mrs. Ken Reeves is a honey ... a sweet smile ... A nice fellow is Bob Jorgenson ... Heard about a pleasant brood-dinner at the First Baptist the other night ... Bob Allford is president of the group ... Mrs. Charles Gilson is the new president of the American Legion Auxiliary ... The Floyd Watson's little girls is a cutie, people say ... So is the Tom Tipps' new little one ... Haven't seen Mrs. Morris Enloe in a long, long time, miss seeing pleasant people like her ... Mrs. Roy Williams is another one of those too scarce seen people ... she lives out north of town ... Mrs. Tom Braly is a handsome person ... Noticed Aaron Sturgeon's playing golf the other afternoon ... And Jimmy Thompson lurching at the new restaurant by Citizen's Bank ... Incidentally, that bank opening is one of several things Peg's missed out on the last two weeks, but heard the long full-length mirrors in the ladies lounge were eye-catchers ... Like the way Mrs. K. W. Irwin wears her hair ... pulled back smooth, very smart and yet casual.

ALL OF THE WOMEN did their part in helping on the bond election. The League of Women Voters called and reminded all the women that there was transportation and "sitters" enough for anyone who wanted to go to the polls. We spied a number of women who were typical of what the well-dressed woman wears to the polls.

ONE THING WE'VE MISSED THIS SUMMER is a carnival (or a circus). The kiddoes have seen so few in their lives, they don't know what fun they're missing. (That's why it's such a shame the fair was stopped here.) That cotton candy wouldn't taste good anywhere else but on a carnival ground, where there is just one big swirl of activity. Merry-go-rounds, ferris wheels, barking side-show men, and veiled fortune tellers all play a part in making the carnival something special.

AND SPEAKING OF VEILS, I'm nice and unflattered from vacation, but you can't tell 'cus there's still a veil of mystery draped about.

PEG O' PAMPA

Jeneane Worrell, Leroy Thornburg Repeat Vows

A home ceremony, read by candlelight at 8 p.m. Friday, July 20, united in marriage Miss Jeneane Worrell and Leroy E. Thornburg. Dr. bride is the daughter of Dr. and Mrs. T. J. Worrell, 1707 Christine, where the vows were exchanged, and the bridegroom is the son of Mrs. Alma Thornburg of White Deer.

The Rev. Douglas E. Carver, pastor of the First Baptist Church, officiated at the double-ring service.

The fireplace was the background for the ceremony. It was banked with emerald leaves and flanked by palms. A mirror above the fireplace reflected a row of 24 graduated tall white tapers on the mantel. The tapers backed a large mantel floral arrangement of white gladioli, white asters and emerald leaves. Arrangements of white flowers were used throughout the living room and in the dining room. Mrs. Virgil Mott, organist, played nuptial selections and the traditional wedding marches. She also accompanied the vocalist, Miss Margaret Humphries, who sang "Because" and "You're My Heart Alone."

Miss Patsy Worrell attended her sister as maid of honor, and the bridesmaid was Miss Ernestine Thornburg, sister of the bridegroom. They wore ballerina-length dresses of orchid and peach. The net skirts were dotted with small velvet bows. Both attendants carried colonial bouquets of peach feathered asters. George Schoner was best man and groomsmen were Douglas Coffey, White Deer, and Bob Allford, Jr.

Given in marriage by her father, the bride wore a ballerina-length gown of white net topped with a close fitting jacket of starched lace; it was fashioned with a Queen Anne collar and fastened to the waist line with small covered buttons. Her lace mitts ended in petal points over the hands and her fingertip veil of illusion was edged in lace and fell from a crown of seed pearls and rhinestones. She carried a bouquet of stephanotis centered with a white orchid and showered with baby orchids knotted in white satin streamers.

For her daughter's wedding Mrs. Worrell chose a dress of navy blue imported linen trimmed in Irish lace, and she wore a white orchid corsage. Mrs. Thornburg's corsage was also a white orchid. She wore pale pink linen with matching accessories.

A reception in the Worrell home followed the ceremony. The white satin covered table was centered with an arrangement of white gladioli, chrysanthemums and smilax flanked by white tapers. Miss Margaret Humphries served the cake, assisted by Mrs. Maude Schulkey. Miss Barbara Crouch entered names in the bride's book. Others in the house party were Mrs. Joe R. Foster, Mrs. Eula Riggs, Mrs. Bob Triplehorn, Mrs. C. V. Forsman and Mrs. L. B. Scruggs.

There were about 50 guests present for the wedding. The rehearsal dinner was held in the home of the bride's parents Thursday evening before the wedding, with the bridal party (See Miss Worrell, Page 12).

MRS. WILLIAM DIXON

MISS JOY WILLIAMS

ENGAGED—Mrs. Mary Forrester, 319 N. Gray, announces the engagement of her daughter, Mary Lou, to Cpl. Bill Penhal of the United States Air Force. Cpl. Penhal, son of Mrs. Ollie Penhal of Nocona, is stationed at Sheppard Field, Wichita Falls. The wedding date has not been set.

WEDDING SET—Mr. and Mrs. Cecil Myatt, 601 N. Nelson, announce the engagement and approaching marriage of their daughter, Norma Jean, to William Haldane Suttle, son of Mr. and Mrs. Hal Suttle, 407 N. Cuyler. The wedding date has been set on September 21.

Collins-Dixon Vows Repeated In San Antonio Church

A ceremony read in Trinity Episcopal Church in San Antonio Saturday evening, July 21, united in marriage Miss Susanna R. Collins and William S. Dixon. The bride is the niece of Mr. and Mrs. G. H. Compton of San Antonio, and the bridegroom is the son of Mr. and Mrs. W. S. Dixon of Pampa.

The Rev. Charles H. Douglas officiated as the vows were exchanged against a background of white gladioli, fern and two candelabra, which decorated the church for the formal, double-ring ceremony.

Miss Katherine Polter sang "The Lord's Prayer" and "Ave Maria," and Max Carr, organist, played the wedding marches.

Maid of honor was Miss Evelyn Blandford of Houston. She wore a strapless white net gown with a fitted bodice and bouffant skirt, and also wore a jacket-stole of net and a headdress of green daisies and white net. She carried a green daisy and ivy bouquet.

Bridesmaids, Miss Midge Ball of Lubbock and Miss Margie Dixon, sister of the bridegroom, wore costumes identical to that of the maid of honor.

The bride, entering with her uncle who gave her in marriage, wore a V-necked gown of white satin with a fitted bodice and full-gathered skirt extending into a cathedral-length train. The gown was trimmed with Chantilly lace, and with it the bride wore long lace mitts which came to points over the wrists.

Her headdress was a coronet of Chantilly lace and seed pearls holding an illusion veil. She carried a prayer book topped by a white orchid showered with stephanotis, and she wore a single strand of pearls.

John Gambrell of Beaumont attended the bridegroom. Brent Blonkivist and Warren Fatheree of Pampa and Wayne Fahle were ushers.

A reception was held in the garden of the Compton home after white gladioli, hurricane lamps and white gladioli were used as decorations. Members of the house party were Mrs. Dan C. Colbert and Miss Singa Sellers of Austin; Mrs. Al Donahoo and Miss Eleanor Neumeyer of San Antonio; Miss Rachel Clark of Blossom and Miss Frances Covey of Sherman.

The bride's aunt wore a gown of lavender Chantilly lace over taffeta with an orchid corsage. The bridegroom's mother chose a dress of blue chiffon over taffeta and an orchid corsage.

For the couple's short wedding trip to the hill country near Kerrville, the bride left in a white pique beach suit with black accessories. The couple will live in Houston.

Miss Williams' Engagement Told At Home Breakfast

SHAMROCK (Special) Mrs. Mitt Williams announced the engagement and approaching marriage of her daughter, Joy, to John McDowell at a breakfast honoring her daughter Friday morning at 9 o'clock at the home of Mrs. Harold Williams, sister-in-law of the bride-to-be.

There were individual tables, with a corsage on each resembling a bridal bouquet. Streamers on the corsages were inscribed, "Joy and John, September 1, 1951." The dining table was laid with a satin cloth, and a miniature church altar in the center contained little satin kneeling pillows inscribed, "Joy and John." A miniature bridal party was shown, including the bride advancing toward the altar, accompanied by two bridesmaids.

Bridal place cards were featured and the group played bridal games. Guests included Mmes. Dee McDowell, Shirley Draper, Carl Linkey, Gid Bell, Clint Collinsworth, M. W. Yarbrough, John Sherrill, Lewis Smith III of Hillsboro, Tex., Paul Dodgen, Fred Brown of Groom, Glynn Bell, Harold Williams, Roy McNett of Trupe.

Misses Doris Davis, Pampa; Janet Caperton and June Ann Nix.

Miscellaneous Shower Honors Bride-Elect

A miscellaneous shower, given in the home of Mrs. Fred Cary, 721 N. Gray, Monday evening, honored Mary Ellen Sherrod, whose marriage to Henry Kolb will be an event of August 10. Hostesses were Mmes. E. E. McNutt, Ray Wilson, Ernest Fletcher, Milton Stanford, Hal McCrea, Emory Noblitt, Joe Foster, Lamor Stovall, Virgil Mott, Ovin A. Davis, W. G. Cunningham, Perry Franklin and Fred Cary.

The honoree was presented a corsage of red roses tied with chartreuse ribbon and her mother, Mrs. Elmer Cary, received a corsage of white carnations. Red and chartreuse, chosen colors of the bride-elect, were used in decorations and refreshments. Mrs. Mott and Mrs. McNutt served punch and water.

About 40 registered at the guest book, presided over by Mrs. Stanford.

The Pampa Daily News Women's Activities

PAMPA NEWS, SUNDAY, JULY 29, 1951 PAGE 11

MR. AND MRS. JAMES W. CAMPBELL

Miss Ann Moseley, James W. Campbell Marry In Formal Church Ceremony

The First Methodist Church was setting for the formal service uniting in marriage Miss Billie Ann Moseley and James William Campbell, Sunday, July 22. Dr. Orion W. Carter, pastor, read the ceremony at 4 o'clock.

The bride is the daughter of Mr. and Mrs. W. C. Moseley, northwest of Pampa, and the bridegroom is the son of Mr. and Mrs. W. R. Campbell, 1200 Mary Ellen.

Vows were exchanged against a large center arrangement of white gladioli and Marconi daisies flanked by baskets of white gladioli, palms and ferns. A background of lighted tapers in tall candelabra completed the altar decorations and clusters of Marconi daisies and satin streamers marked the pews.

Preceding the ceremony Miss Phoebe Osborne, organist, played a medley of nuptial music and accompanied Miss Margaret Humphries as she sang "O Promise Me" and "Because." Miss Osborne also played traditional wedding marches for processional and recessional, and played soft music during the exchange of vows.

Bridesmaids were Miss Beverly Ann Collier of Dallas, cousin of the bridegroom, and Mrs. Evert Dixon. Miss Jewel Moseley served her sister as maid of honor. The attendants wore identical dresses of two-tone green net fashioned with shirred strapless bodices and floor-length bouffant skirts. They wore matching stoles, mitts, and cloches of shirred net, and carried crescent-shaped bouquets of white gladioli.

Harvey Roper of Oklahoma City, room-mate of the bridegroom at the University of Oklahoma, served as best man. Ushers were Glenn Tarpley, Carl Kennedy, Weymer Osborne and Dale Richerson.

Escorted to the altar by her father, who gave her in marriage, the bride was gowned in deep candlelight Skinner's satin and Chantilly lace. It was made princess style with a full train. Godets of lace were inserted in the front of the skirt and the lace was repeated in the off-shoulder illusion yoke and in the full-length mitts.

Her chapel-length veil fell from a cloche made of lace and bordered with tiny seed pearls, and she carried a showered bouquet of stephanotis centered with a white orchid. Her only jewelry was a string of pearls.

For her daughter's wedding Mrs. Moseley chose a gown of American Beauty lace trimmed in small rhinestone buttons. Her accessories were navy. Mrs. Campbell, mother of the bridegroom, wore a gown of royal blue lace with shell pink accessories. Both wore lavender orchids. Mrs. E. S. Collins, grandmother of the bridegroom, wore a gown of navy sheer and a corsage of pink roses.

Following the ceremony a reception was held in the church parlor. The bride's table was covered with white marquisette. A deep scalloped ruffle outlined the edges of the table and small nosegays of stephanotis and greenery accented the top of the scallops. Satin streamers ran from an arrangement of white carnations and greenery flanked by tall tapers, to the wedding cake at the opposite end of the table.

Mrs. Ardene Piper of Navasota, aunt of the bride, served the cake and Mrs. J. M. Fitzgerald, aunt of the bridegroom, ladled punch at a similarly decorated table. Mrs. Bill Braly presided at the guest register. In the house party were Misses Marilyn Fitzgerald, Angela Duncan, Carl Culbertson, Barbara Carlson, Belton Jackson and Clifford Arrington.

For traveling the bride chose a suit of imported navy blue Irish linen with white accessories. Her corsage was a white orchid. After the honeymoon the couple will be at home in Oklahoma City.

Both Mr. and Mrs. Campbell were popular students at Pampa High School, and later both attended the University of Oklahoma. Miss Campbell was elected beauty candidate from McSpadden Hall last year. Mr. Campbell was a Phi Kappa Sigma and last year was voted the outstanding pledge. He is now in service, stationed at Tinker Field in Oklahoma City.

Out-of-town wedding guests were Mr. and Mrs. Ardene Piper and son, Jerry, of Navasota, Mr. and Mrs. C. D. Arrington and sons, Tom, Bob and Phillip of Cange, Okla., Harold Dean Arrington of Navasota, Bill Arrington of Midland, Mrs. G. H. Wheeler of Vernon, Mr. and Mrs. E. S. Collins, Jr., of Channing, Mr. and Mrs. R. E. Collier and daughter, Beverly, of Dallas, Bob Aldridge and Milton Spivey of Oklahoma City, Lee Mills of Durango, Colo., and Mr. and Mrs. Ben Graham and children, Charles, Elizabeth and Mary Nell, of Hale Center.

A coffee and kitchen shower in the home of Mrs. Bill T. Braly, 1105 Terrace, honored Miss Moseley recently. Hostesses were Mrs. Braly and Mrs. William R. Hodge of Amarillo.

Arrangements of white asters and daisies carried out the chosen colors of green and white, and the honoree received a corsage of white asters tied with a bow of green ribbon. Miss Jewel Moseley poured coffee for about 20 guests. Guests included Mrs. W. C. Moseley, Mrs. W. R. Campbell, Mrs. E. S. Collins, and Misses Jewel Moseley, Carol Culbertson, Barbara Carlson, Angela Duncan, Betty Wilson, Joan Stroup, Venita Lovan, Phoebe Osborne, Norma Mannatt, Betty Scott and Nicki Fraser, Mrs. Ewert Duncan and Mrs. Jack Dunham.

Miss Jimolou Newman Favored With Shower

WHITE DEER — (Special) — Miss Jimolou Newman, whose marriage to Edgar Judy will be solemnized on August 4, was complimented at a shower given by the women of the Church of Christ, Tuesday afternoon, in the home of Mrs. H. G. Hynds.

Serving as hostesses were Mrs. Kenneth Bruton, Mrs. Alvin Lewis, Mrs. Jack Dupuy and Mrs. Hynds.

A bouquet of white daisies centered the refreshment table, which was covered with a lace cloth over blue; and garden flowers were arranged about the room. Dupuy registered the guests; Mrs. Roy Davis and Mrs. Lewis served punch and cake.

Flavor Milk For The Children

"SKYLINER"-FILLED ROLLS and flavored milk, a tempting treat for children's summer party.

By GAYNOR MADDOX
NEA Staff Writer

Just as much in summer as in winter all the dairy foods are essential for children's health. Milk is one of the most important, so if the young folks in your house begin to lose interest, try flavoring their milk a little.

It will take only a minute to do. There are now packaged flavors for milk on sale. Or you can use many flavors from the pantry shelf.

Strawberry Flip
(Serves 1)
One cup milk, 3 tablespoons strawberry jam, few drops red food coloring.

Warm milk, add strawberry jam and coloring. Chill thoroughly and serve.

Spiced Honey
(Serves 1)
One and one-half tablespoons honey, dash cinnamon, 1 cup milk. Pour honey and cinnamon in glass. Mix well. Add milk.

Cherry-Cherry
(Serves 1)
One cup milk, 1 tablespoon maraschino cherry juice, few drops red food coloring. Mix together and serve.

For a party, serve "Skyliner" buns with the flavored milk.

Skyliners
(Serves 6)
Six hamburger buns, 6 tablespoons butter, 2 cups Humpty-dumpty filling, 2 cups Mad-Hatter filling. Garnishes: pimiento, carrot strips, sliced stuffed olives, sliced tomato, celery slices, black olives, capers.

Partially cut out center of hamburger rolls, leaving 1/2 inch layer at the bottom of the roll. Spread inside of each bun with butter. Toast buns in oven. Fill three of the buns with Humpty-dumpty filling and the other three with Mad-Hatter filling. Decorate each differently with your choice of garnishes.

Humpty-dumpty Filling
Four hard-cooked eggs, chopped, 1/2 cup diced American cheese, 1/2 cup celery, diced, 1/2 cup mayonnaise, 1 teaspoon salt. Blend all ingredients together.

Store in refrigerator until needed.

Mad - Hatter Filling
One and one-half cups cubed cold meat, 1/2 cup diced Swiss cheese, 1/2 cup cubed green pepper, mayonnaise to moisten, salt to taste. Blend ingredients together; store in refrigerator until needed.

Ernestine Phillips Becomes Bride Of Bob Brummett

WHITE DEER — (Special) — Miss Ernestine Phillips, daughter of J. A. Phillips, White Deer, and Bob Brummett, son of Mr. and Mrs. J. W. Brummett, Pampa, were united in marriage Sunday afternoon, July 22, in the home of the bride's brother and sister-in-law, Mr. and Mrs. Jay Phillips.

The Rev. M. V. Mears, pastor of the First Baptist Church, read the double-ring ceremony before an archway decorated with white daisies flanked by baskets of lavender daisies.

Preceding the exchange of vows, Miss Ernestine Thornburg and Miss Guyda Eaten sang "Because" and "Always." They were accompanied by Miss Berna Lou McMinn of Pampa, who also played the wedding marches and soft background music for the ceremony.

The bride wore an aqua street length dress with white accessories and a corsage of white carnations, and carried a white Bible. She was attended by Miss Carolyn Lovinggood of Pampa, both the bridegroom and his best man, Billy Phillips, brother of the bride, were in Air Force uniform.

Immediately after the reception the couple left for Austin, where the bridegroom is now stationed. Mrs. Brummett attended White Deer High School for the past two years and Mr. Brummett is a graduate of Pampa High School. Attending the wedding were the bridegroom's parents, Mr. and Mrs. Brummett, and the bride's

Pampa Women Are Looking And Buying New Fall Clothes, Merchants Say

About this time of year — every year — the weather gets hotter and hotter, and the feminine faction of our adult population says "Whew, gosh but it's hot"; then it breezes through housework, takes a shower, brushes its hair into a knot in deference to the weather, puts on a cool cotton frock, ditto, goes down town and tries on high-necked, long-sleeved clinging wool jersey dresses.

Another shop shows an old-winter weight wool suits and fur-trimmed coats. Not to mention fur felt and deep pile velvet hats.

The ladies, bless 'em, are no slouches when it comes to looking to the future. They don't just look, either, according to Pampa merchants. They are buying the new fall and winter garments, largely by the lay-away plan, almost as fast as they arrive.

Most women seem to feel that the time to get the best selection is early, before the stock has been picked over.

Then too, it is mighty hard to resist the new fall clothes. Most women have wearied of their summer cottons and are wanting a change, yet they don't want to buy more summer clothing, so they indulge in the new things that are just now beginning to arrive in the local shops.

The first arrivals cater to the younger crowd for the most part, with an eye to the going-away-to-college girls. There is an abundance of corduroy in most of the local shops, in the bright colors favored by youth. These come in one-piece dresses, suits and weikits. In one shop the girl who goes in for "mix-matching" can get excellent results. Skirts and sweaters can be mixed or matched, then topped with a brand new idea—a three-quarter length duster in corduroy. It is a new duster, however, a duster with a graceful back swing that adds the jauntyness of the full-back coat that has long since proved

its popularity. These may be had in several color combinations, and will probably be meeting themselves all over the college campuses this fall, as well as among the high school crowds.

Among the outstanding new dresses is one in two shades of blue wool jersey accented with a wide belt of orange jersey. The dress has a flared skirt and dramatic bat-wing sleeves. Another shop shows an old-white semi-tailored dress with black buttons and black patent belt. The unusual note is the fabric, which is of wool and mink fur. The same store has a dressy costume consisting of a black faille rhinestone-trimmed cocktail dress topped with a matching duster. The price is very reasonable for so much elegance. In fact, most of the prices on the new merchandise are quite moderate.

Coat news is not spectacular, but interesting. Styles are not too different from those of past seasons. Some are flared, some belted. The duster influence has perhaps projected itself into the winter coat scene, for back fullness is not as pronounced as in the past. Then, too, this fashion lends itself well to the belted or not belted idea.

One Pampa store is showing a "drooly" collection of imported tweed coats. These are not the drab colors usually thought of in connection with tweeds, but are alive with color. They are rather expensive, but worth it if the purchasers can afford them.

The new offerings at local shops are not all for winter wear. In respect to Texas and her lingering warm days, buyers have included a nice selection of dark fall cottons, shantung and nylons. They combine a warm weather feel with a look of fall.

Weather Pampa women are looking to buy or looking for fun, they are going to enjoy a peek into the fall fashion picture.

Child's Record Time Offers Family Fun

This young mother shares her daughter's pleasure, and learns about her interests as they listen together at record-playing time.

By ANNE LARSEN
NEA Staff Writer

NEW YORK — (NEA) — As dead and gone as a crank-handle phonograph are the days when children sat primly upon the parlor sofa while indulgent parents favored them with a turn or two of their precious grown-up records.

Children cooped up on rainy days find purposeful movements for fidgety young muscles when interpreting in their own way the antics of the little boy in "Nothing to Do." They better understand the many dance rhythms after following a father through a day in which he hears the tune of "Hot Cross Buns" in varying beats wherever he goes.

They learn that the sounds of an empty house are interesting, not frightening, when the creaks and drips are duplicated instrumentally in "The Lonesome House"; and they learn the rewards of cooperation through the public lesson slipped into "Mr. Grump and the Dingle School Band." In still another record "The Carrot Seed," they are gratified and reassured to find adults and their big brothers can sometimes be mistaken.

The Guild is deadly serious in its attempt to make its records a meaningful part of child's life. It's not enough, they contend, to buy a record at random at times when a gift seems in order. Nor has a parent fulfilled his obligations when he reiters his child's record player as a convenient and

The summer slip that can double as a dress is doubly easy on the budget. Black rayon taffeta (left) moves with bright red jacquard polka dots hasuffed top, scalloped hem. Checked rayon taffeta (center) has sheath look, simple gored skirt, slim lines. White rayon crepe (right) with gold print makes cuff-topped slip that can serve as blouse, or team with a duster.

The padded hipline is gone from fall suits; the gently arched hipline is here in its place. Copper wool (left) by Adele Simpson has this hipline and a narrow skirt with center back pleat. Rust velvet jacket (center) and jewel-tone muted plaid make this suit by Seymour Fox. Birdseye yellow wool is used by this designer to make a suit with oblique side front closing and triangular patch pocket.

Methodist Youth Subdistrict Holds Meeting Here

Joe Yoho of Groom was in charge of the business session when the John Wesley Subdistrict held its monthly meeting at the First Methodist Church here Tuesday. Joe Yoho is president of the organization.

Jackie Weathered of Pampa was in charge of the recreation, which was held in the courtyard of the educational building. After recreation the group went to the chapel for a short worship service, with Molly Nelson in charge. Scripture was read by John Ted and Eugene Bonny, and Miss June Gull was at the organ. Immediately following the meeting watermelon was served on the back lawn of the church.

Those attending from Groom were Joe Yoho, Wright McGee, Julia McGee, Ruth Blackwell, Betty Henson, Virginia McCarthy and Juanita McCarthy.

Those present from McLellan were James Cliett, Eula Mae Scales, Neal Shull, Floella Cubine, H. E. Parmentier, Mr. and Mrs. J. Hess, Dicky Sigan, Virginia Beck, Shirley Allison and June Stubblefield.

From Pampa were Betty Boswell, Don Cook, Herman Vansickle, Betty Jackson, Bud Reynolds, Skip Summers, John Teed, June Gull, Byron Byars, Jackie Weathered, Judy Nance, Gay Nell Carter, Joyce Harrah, Eugene Bonny, Billy McKee, Bryan Clemens, Shirley Cook, Margie McKee, Dan Williams, Molly Nelson, Rochelle Smith, Mr. and Mrs. Cecil Williams and Dr. and Mrs. Orion Carter.

Nellie Osborne of Panhandle and Mary Kuykendall of Albuquerque, N. M., were guests.

SOCIAL CALENDAR

TUESDAY
The Merten Home Demonstration Club will hold an all-day meeting, beginning at 9 a. m., in the home of Mrs. A. M. Nash on Tuesday, July 31.

sort of glorified baby-sitter. Children often need a bit of a nudge from an adult before they realize there's fun to be had "acting out" the movements of their records. If mothers and fathers take a few minutes to "clap-clap-clap" their hands as instructed in "Train to the Zoo," they're likely to find they have a monkey-doo right in their own homes.

These records offer, too, an opportunity for family sharing of pleasure. The father who's too dignified to push a toy truck around the living room floor, or the mother who can't really take an interest in her daughter's doll-house pretending, may find in record-playing an opportunity for companionship that's not only dutiful but actually fun.

Mrs. Jack Sloan Is Pink, Blue Honoree

MIAMI — (Special) — Mrs. Jack Sloan of Pampa was honored with a pink and blue shower in the Legion Hall here Saturday night. Mrs. Rip Barrett and George Shultz, Pampa, and Mrs. Horace Smith were hostesses.

Decorations featured a large replica of a stork, mixed bouquets of pink and blue flowers in appropriate containers, and pink and blue streamers hanging above the dining tables. A covered-dish dinner preceded the presentation of gifts.

Mrs. Dan Graham of Miami gave the invocation, and John Horace Smith, son of Mr. and Mrs. Smith, presented the gifts. Mrs. Sloan was assisted in displaying the gifts, by her mother, Mrs. Leo Paris, and her mother-in-law, Mrs. Fred Sloan.

California is the United States' biggest producer of barley — 47 million bushels in 1949.

Fried Chicken Picnic Honors Rev. Otto Meyer

The Rev. Otto Meyer of Holy Souls Catholic Church was honored at a fried chicken picnic by Pampa square dancers Tuesday night. Rev. Meyer, who will leave next week for a new parish in New Orleans, La., was presented a piece of luggage.

The Foot and Fiddle Club and California produces more gold than any other state.

Miss Marjie Taylor Is Bridal Shower Honoree

Miss Marjie Taylor, bride-elect of Thomas Burleson Rogers of Memphis, Texas, was honored with a pre-nuptial shower in the home of Mrs. R. E. Montgomery on Tuesday. Hostesses were Mrs. C. L. Thomas, Mrs. W. R. Green, Mrs. Guss Green, Mrs. Gess Roberts and Mrs. Montgomery.

Carlene Carruth of LeFors, cousin of Miss Taylor, registered the guests. Mrs. W. D. Price, Jr., also a cousin of the honoree, presided at the refreshment table. A white drawwork cloth covered the table and the centerpiece was an arrangement of orchid and white asters centered with a miniature bride standing under a lace covered umbrella.

Bouquets of white daisies and asters decorated the home.

About 50 guests called during the afternoon.

Community Singers To Meet This Afternoon

The Community Singers will meet at 2:30 p. m. Sunday at the Bethel Assembly of God Church, Elmo-Hudgins, president, announced Saturday.

The Tri-City quartet of Borger will be here for the meeting, he said.

Circle Eight Club served as hosts at the square dance and picnic, held at the Skeely Tennis court. Approximately 150 persons attended, taking covered dishes of food for the picnic.

Pampa square dancers said they are deeply appreciative of Rev. Meyer's understanding and help, as he said, believes square dancing is one of the best possible forms of recreation, and has assisted in various ways.

Eighteen national forests in California cover one fifth of the state.

Senate Made Changes From Truman's Control Desires

WASHINGTON (AP) — Here is how the major provisions of the Senate - House economic controls bill - approved by the Senate and slated to come up in the House Monday - compare with the present law, and the new powers requested by President Truman:

FREEZING OF PRICES
Present law: Permits the freezing or rollback of prices of non-farm commodities, with consideration in fixing ceiling to be given to prices which prevailed during the month preceding outbreak of Korean war; permits freezing or rollback of farm items only after they have reached parity, a formula level designed to assure farmers a fair return in relation to prices of things they buy.

The President requested: In general, continuation of price control authority in the present law.

The Senate - House bill: To permit price rollbacks on non-farm commodities to pre-Korean levels, provided increased costs are taken into consideration; to keep intact a 40 percent beef price rollback already in effect, but to ban additional beef cutbacks. Prices for other farm items could be rolled back to 90 percent of May 19, 1961, level or parity, whichever is higher.

The bill also would require ceilings to be fixed at level assuring retailers and wholesalers their "customary percentage margins over costs."

WAGES
Present law: Generally prohibits wages from being frozen at less than they were during the May 24 - June 24, 1950 period. Under the law, the Wage Stabilization Board has worked out formulas permitting some wage increases - thawing a general freeze imposed last January at the same time prices were frozen.

The President requested: No change in the basic provisions.

The Senate - House Bill: Goes along with that request.

BEEF SLAUGHTER QUOTAS
The present law: Permits them.

The President requested: They be kept in effect.

The Senate - House bill: Bans them.

RENT CONTROLS
Present law: Provides for continuance of federal rent controls in areas debarred control or not ending it by local action.

The President requested: Extension of controls of business places; also broad reconrol powers and authority to bring new areas under the residential program; no rent increases.

The Senate - House bill: Contains no commercial rent provision; permits residential rent increases up to 20 percent over levels of June, 1947, in areas now controlled; increases granted since then would have to be subtracted from the 20 percent.

The bill permits rent rollbacks to levels which prevailed just before Korea in the case of newly designated critical defense areas; authorizes secretary of defense and the mobilization director to designate critical areas - near military installations where housing is scarce, for example. Whenever an area is declared critical, the government would be required to relax construction credit control on new housing. The President is authorized to determine to what extent they should be relaxed.

State or local governments could still decontrol or ask for re-control. Federal controls could not be imposed in any state or local community that has its own rent law unless rents in the state or community rose more rapidly than the national average increase.

The bill also revises the anti-inflation provisions by giving the tenant or federal government the right to sue landlords for treble damages.

CREDIT CONTROLS
Present law: Consumer credit is controlled by the federal reserve board through Regulation "W", which generally limits installment buying terms.

The President requested: continuation of the authority.

The Senate - House bill: Requires the reserve board to allow 18 months for payments on new and used automobiles, as compared with 18 at present. No change in the one-third down requirement. Would allow 18 percent down payment and 18 months to pay balance on radios, television sets and other household appliances. At present it's 25 percent down and 15 months.

PRIORITIES, ALLOCATIONS
Present law: Gives the President power to channel necessary materials into defense program through a system of priorities and allocation of scarce materials.

The President requested: Power to continue this program, with power to make exceptions from anti - boarding regulations.

The Senate - House bill: Present

program would be continued with slight change in authority. Government would have a direct authority to set conditions applicable to anti - boarding regulations.

SUBSIDIES
Present law: Doesn't allow them except under certain circumstances in case of metals and minerals.

The President requested: Authority to producers of commodities and other materials who have unusual high - cost production problems.

The Senate - House bill: Broadens authority to permit payment of subsidies on raw or non-processed non - farm materials; no payments for finished products.

PROPERTY ACQUISITION
Present law: Allows President to acquire real property for the defense program.

The President requested: Continuation of authority and additional power to acquire property through condemnation.

The Senate - House bill: Request granted, with the stipulation there first must have been a real effort to acquire the property by negotiation.

PRODUCTION FACILITIES
Present law: Permits the President to install facilities and equipment in existing government plants and to install equipment in private plants.

The President requested: Authority to build and operate new plants, expand existing plants, and install new processes in private plants.

The Senate - House bill: No provision.

IMPORT CONTROLS
Present law: A special law expiring July 31 provides for controls on imports of fats and oils.

The President: Made no recommendation on this point in connection with controls law, but the administration wants import curbs continued.

The Senate - House bill: Tightens the curbs and authorizes import controls on dairy products under certain circumstances, also on rice and rice products.

LOANS AND PURCHASING
Present law: The government is authorized to make loans for defense plant construction and expansion.

The President requested: Continuation of the program and broadening of it.

The Senate - House bill: Broadens it somewhat: sets up a \$2,100,000,000 revolving fund to cover the loan, subsidy and purchasing program. Under the purchasing program, items bought by the government could not be sold at less than ceiling prices.

SMALL BUSINESS
Present law: Makes no special provision for aiding small firms get defense contracts.

The President: Made no request.

The Senate - House bill: Sets up a small defense plants administration to aid small companies.

COMMUNITY SPECULATION
Present law: No provision.

The President requested: Authority to curb speculation.

The Senate - House Bill: No provision.

LICENSING
Present law: No provision.

The President requested: Broad authority to license businesses for price control enforcement purposes.

The Senate - House bill: No provision.

PARITY
Present law: Follows the traditional practice of computing parity monthly.

The President requested: Authority to compute parity annually for the stated purpose of achieving more effective food price control.

The Senate - House bill: No provision.

Present law: Restricts credit on purchase of new homes and on housing financed by the government.

The President requested: Extension of the restrictions to all houses, both new and old.

The Senate - House bill: No provision.

Present law: Exempts from price provisions publications, radio, television, movies, real estate dealers, professional people and most common carriers and public utilities.

The President requested: No change in these exemptions except tightening of the present provision exempting common carrier and public utilities.

The Senate - House bill: No provision regarding the request dealing with carriers and utilities; would limit the exemption regarding professional people to practicing lawyers and doctors; would exempt prices charged and wages paid for services by barbers and beauticians.

DURATION
Present law: Expired last June 30 but was continued for one month.

The President requested a two-year extension.

The Senate - House bill: Provides for extension through June 30, 1951.

WTCC Slates August Meet

MINERAL WELLS, Texas — First 1951 meeting of the publicity and tourist development committee of the West Texas Chamber of Commerce will be held at the Baker Hotel Aug. 3, beginning at 2 p.m.

Invitations have gone to more than 100 men representing every section of the WTCC's 123-county territory. The committee will endeavor to draw a "blueprint" for a greatly intensified program of public information on West Texas' attractions, study improvements in the organization's monthly magazine, "West Texas Today," and give special attention to promotion of the region's tourist attractions, the chairman declared.

The committee will hear Fred H. Husbands, executive vice president and general manager of WTCC, and Wendell Bedichek, manager of the public information and tourist development department.

Saga Of Bill, The Lady Turtle

SANTA BARBARA, Calif. — It takes four hours, 10 minutes to reach Tacoma, Wash., by commercial airline.

It takes 18 hours by car, averaging 60 miles an hour. It took Bill, a lady turtle, seven months. Nobody knows whether she went by the shortest route, made any stopovers, or hitched any rides.

Bill's amazing journey came to light when Santa Barbara police received a letter from E. F. Ruff, of Dempsey Mill Road, Tacoma. It said: "Dear Sirs: The Tacoma Chamber of Commerce tells me that you have an Ashley Road in your city. It couldn't be possible that a large turtle we found on the road here pointed in red and white '119 Ashley Rd.' meandered here, could it?"

"Yes, Bill belonged at that address and the owner was pleased to hear she was safe. Plans were made immediately to bring Bill back to her grieving mate, Willie.

QUEEN PAIRS WIN—Ending a week-long "Battle of Charm" between Florida and California girls at Santa Monica, Calif., judges selected two from each group as winners. Left to right are Marcia Fuller and Mary Dwight of St. Petersburg, Fla., and Beverly Jones and Lillian Farmer of Los Angeles.

Enrollment In Gray Schools Expected To Show Increase

County school enrollment is expected to reach an estimated 5600 students as compared to last year's total of 5488.

The estimated total for this year is according to the school census and must be revised by the state with transfers and other reassignments.

Pampa schools will have an approximate 4333 students; McLean, 490; Lefors, 402; Alanreed, 97; Hopkins, 128 and Grandview, 55.

All schools of the county are scheduled to open their student year Sept. 4.

Morocco is a monarchy and is also a French and Spanish associated state.

WHY STARVE TO TAKE OFF FAT?

When you buy Barcetrone, you buy a preparation for taking off weight. You do not buy for a printed diet. Barcetrone is not a vitamin tablet to fortify you against weakness while on a starvation diet. You need never know a hungry moment, while taking Barcetrone. It contains no harmful drugs, but does contain ingredients to make you feel better.

Barcetrone when mixed with grapefruit juice does this: First, cuts down your desire for sweets and fatty foods, but you do not have to FORFECE yourself. Barcetrone takes care of your DESIRE. Second, dehydrates and eliminates so that water is carried away - almost like melting fat. At the same time you feel better, more peppy, more alive, but never starved or hungry.

Lost 37 Pounds
"I wish to state that I lost 37 pounds taking Barcetrone," writes Mrs. J. L. McCarty, Denning, Texas.

Lost 14 Pounds
"Without a diet, I have lost 14 pounds taking Barcetrone," says Mrs. E. M. Hanzel, 2500 Warner Ave., Austin, Texas. "I am glad to recommend Barcetrone to anyone."

10 Pounds Lost
"I wish to state that I have had very satisfactory results taking Barcetrone," writes Mrs. Louise Skipper, 427 W. Lost Ave., Kingsville, Texas. "I lost 10 pounds and ate anything I wanted."

Comedian Sees Need For Shows

TOKYO (AP) — "You have to see this war to realize how badly the guys need entertainment," comedian Jack Benny declared after a three-week tour of Korea.

"The soldiers in Korea were the most appreciative audience I ever had," Benny said. "They should have more show people entertaining them over there."

Benny and his troupe - Marjorie Reynolds, Benny Venuta,

Irish GI Is Killed

SHAMROCK (Special) — Douglas Bills, former Shamrock resident, was killed in a truck accident in Korea July 9, according to word received here by his grand-parents, Mr. and Mrs. D. E. Banks.

Bills, 33, entered military service when he was 17 and had been in military service for about 13 years, ever since his first enlistment except for about two years following the close of World War II.

He was a former student of the Shamrock schools and lived here for several years prior to World War I.

From Bloomers To Bikinis

NO. 12

Came 1948, and the dawn of the most controversial advance (or retreat) in swimming attire history. That was the skimpy model from France, the "Bikini" bathing suit, shown at left. It exposed more than the Kefauver Committee. It didn't take long for the new style to sweep across the Atlantic Ocean to American shores and beaches and pools. The next picture shows a 1949 American adaptation of the "Bikini"—nothing changed but the material and girl. But fashion stylists are never content. No soon had the "Bikini" caught on than they started dreaming up something new. The next young lady is wearing the strapless bra, that out-Bikined the "Bikini" in some respects. The future? No one can tell. There is some reason to doubt whether the Bikini will ever be seen on all women. Paris has this year come up with this virtually transparent substitute. But we'll have to wait and see. And "see" is surely the word.

Keep Your Eye On KPDN

By KAY FANCHER

You know, it's always a problem to start one of these little chit-chat, but once I get started, things just seem to come right along. I sat here five minutes before I could get a brain-storm. Still don't know for sure what is most important.

First of all, I want to say that Uncle Coy is still on vacation and he'll be gone until Monday, Aug. 6. He'll be back then with all three of his shows... The Sunshine Man at 7:45 a. m., the funny papers at 6:45 p. m., and Lullaby Lane at 7:45 p. m. I know that all the kids and a lot of grown-ups will be happy to see for maybe I should say "hear" him back. By the way, I heard a rumor that he might go way down into Old Mexico and do a little fishing... the lucky dog.

Last week, we mentioned a brand new show called Party Line... I sure hope that you've had a chance to hear the show. Billy has done a swell job these last five mornings at 10:00.

Have you been listening to the game of the day lately? Boy, we sure have listened to some fine games these past weeks. Al Heffer and Dick Bingham are sure to bring us lots more fine games as the season draws nearer and nearer to its close. Remember, the game of the day is always the top game of the day in all the major leagues. Don't forget our own Pampa Oilers either as Warren Hasee follows them both, at home and away. There have been some mighty fine ball games lately.

Bert Conway went on his vacation a week ago and he went down into Oklahoma. He said he did some fishing but I think the closest fish he ever came to were some pretty big fish STORIES.

Be that as it may, when he came back, he had sprained his ankle and now we call him Lopin' Limpy, after the funny paper cowpoke of the similar name. It's not funny though when you sprain an ankle, and we want to say right now that all our nicknames are just in fun. Bert, by the way, has some of the oldest relatives... did you hear his brother, Joe Spiven, on the air the other day? It seems that "Spiven's the name" from down Jugtustle way. That much information we get without much effort, but when we try to find out where Jugtustle is, the only answer we can get is that it is somewhere down in Lapland. It seems that Lapland is down where Arkansas laps over into Missouri. Take a look on the map, you may see what he means. I don't, but I do know this... "Spiven's the name."

You know, one of the busiest guys at KPDN, that is when he's on duty... is Lee Drake. It gets week same time same station.

BUTTONS AN' BEAUX SHARON SMITH

"I broke a date and he made absolutely no fuss about it!"

Just Like Cowboy Joe, He Rode Away

INDIANAPOLIS — (AP) — The highwayman drove a black automobile, but his technique was straight out of a western rodeo. The prize was \$75 and a billfold. Leverett Henshaw, who posted it involuntarily, told it this way: Henshaw's car door swung open as he turned a corner. As he reached to close it, his billfold (containing \$75) popped out of his pocket and fell in the street. "Traffic was heavy and I was trying to stop and pick it up," Henshaw told police. "But before I could a guy in black car going the other way slowed down, leaned out and scooped it up and drove away."

Full Schedule For Parents

WACO, Tex. — (AP) — Caring for ten-month-old twins is just part of the daily chores of Mr. and Mrs. Frank Garnett. Garnett reports for duty at the General Tire Co. here at 11 p.m. He works eight hours and then hurries to a 7 a.m. class at Baylor University. He has another class at 8 a.m. Then he runs three blocks to his apartment to keep the twins while Mrs. Garnett runs to a 9 a.m. class. She then dashes home to relieve Frank while he attends a 10 a.m. class. Then he runs home so that Mrs. Garnett can attend an 11 a.m. class. After lunch, Garnett takes a nap. But he must be up in time to care for the twins while Mrs. Garnett attends a 7 p.m. to 9 p.m. night class.

Stopette THE ORIGINAL SPRAY DEODORANT

Now try Stopette—the deodorant that changed a nation's habits!

Spray your odor and perspiration worries away!

A quick squeeze of Stopette's famous flexi-plastic bottle does it all. Stops odor, keeps underarm free of moisture. Harmless to skin and clothes.

Indications are for an enrollment of 375, with an average daily attendance of 300. School starts about Sept. 2.

Larger Enrollment Expected For Shamrock School System

SHAMROCK — (Special) — Shamrock schools will have a substantially larger enrollment in 1951-52, reports Supt. Elmer J. Moore. His annual report reveals last year the schools here enrolled 444 in elementary grades and 322 in high school. Allocations of state funds are based on what is known as "average daily attendance," or ADA. ADA for grades was 561 last year, 264 for high school. Net ADA for last year, overall, was 821. This will be supplemented by ADA totals of 45 for Bethel, newly consolidated with Shamrock. Bethel is expected to end in about 70 students this fall, but Shamrock will get only two new teachers, due to some of the Bethelites not attending regularly at Bethel last year, or else going to the Texola, Okla., school. Teachers salaries will total \$31,458, with operation and maintenance of \$14,800, transportation funds \$11,700. Total budget for 1951-52 amounts to \$195,000, with local taxes making up about one-third of the total, the state furnishing two-thirds, Moore reports. Colored school here enrolled 61 in 1950-51 and ADA was 45, giving the colored school two teachers again next year. so that sometime he just doesn't have time to answer the phone. You might have noticed that he has asked that anyone with requests for Variety Time, please call them in before six o'clock, and if you possibly can, to write in your requests on a post card or in a letter. Lee says that he's going to have to start playing the requests of those who send in letters and post cards before he plays telephone requests, because those are the only ones he has time to look up in the library. The telephone requests come in so late that it makes them hard to find. I'd advise that if you would like a selection played for you on Variety Time, you get in those letters and post cards. I know that Lee would sure appreciate it and would do his best to play it for you. Of course he will do that, no matter how you make the request. Speaking of record shows, have you ever heard one so well put together as "Merit's Record Adventures." It's run by a fellow named Merit Copeland in New York, and is heard on KPDN each Monday, Wednesday and Friday at 5 p. m. If you haven't heard this show, you've really missed something. Merit makes every record fit in just right to tell some of the most terrific stories that you've ever heard. Well, I'm going to close this thing up for today. I haven't run out of news, but I'm getting "Typewriters Cramp." Ever heard of it? Well, neither have I, but I've got it... so see you next week same time same station.

Poof! there goes perspiration!

"FLYING TRAILERS" FOR FAST FREIGHT—Huge helicopters, each as big as a conventional air liner, carrying removable "pods" filled with freight, are expected to be in operation next year. The helicopters are a version of the Piasecki XH-16, now being built for the Air Force. The artist's conception shows a centrally located "heliport" in operation. At (1) an XH-16 is ready to take off with an attached pod, big as a cross-country bus, which a trailer-truck has just hauled in. Another helicopter (2) has laid its huge "egg," which has been coupled to a truck and is being hauled away. At (3) a third helicopter prepares to spot-land in the circle with its loaded pod. In foreground and background (4), trailer trucks leave and approach the heliport.

**ON BRIDGE
• JACOBY**

**This Hand A Gamble
But Not Impossible**

By OSWALD JACOBY
Written for NEA Service
"Please settle a percentage problem," requests a San Jose reader. "My husband played the South hand at three no-trump. If West had opened a spade, we'd have been beaten almost before we could get started. But West gave us a chance by leading a heart."
"My lord and master decided that this was a good time to finesse the heart, so he played low from the dummy. East naturally won with the king of hearts and shifted to the five of spades."
"It was almost worth being set just to see the look on my husband's face. Down two on a hand we should have made."
"Before I could say a word (and had quite a few ready to deliver), my ally expert said that percentage favored the finesse; that even if the heart finesse lost all was well if the diamond finesse won; that even with both kings wrong all would be well if East had both the ace and queen of spades or more than five spades."
"Could he possibly have a point — or is this just his

**Job Placements
Hit Two-Year High
During Past Month**

regular double talk?"
He had a point — but it's not quite good enough. If South puts up the ace of hearts at the first trick and goes right after
Job placements set a two-year high last month according to the Pampa office of the Texas Employment Commission.
Number of people who were placed by the local office totaled 354. In June the number was 337.
Present shortages exist in jobs for stenographers, machinists and year-round farm hands.
In the state office in Austin, it was reported that 54,000 workers absorbed by expanding industries throughout the state represented the greatest number ever recorded by the TEC, except during a few months of World War II, when a system of priority referral was in effect.
A large demand continues to exist for engineers of all kinds, the office reported, including draftsmen and tool designers, aircraft workers, especially aircraft maintenance men, sheet metal workers, major assemblers and sub-assemblers are needed badly.
Male aircraft workers, especially sheet metal workers, major assemblers and sub-assemblers are needed badly.
chances, as he pointed out, but the contract was not even close to a 20 to 1 shot.
All the same, I'm happy to see that the spirit of adventure still lives in our Western male!

**Indians Find Buffalo Hunting
Different In This Modern Day**

By HAL BOYLE
HOT SPRINGS, S.D. — (AP) — Buffalo hunting today is easier than it was in the old days — for everybody except the buffalo. They begged one year here the other day. And the verdict of a number of reservation Indians who went along for the ride was this:
"We used to do it better before the palefaces came."
The hunt was held in Wind Cave National Park, on whose rolling grassy acres the largest buffalo herd in the world grazes. Some 150 Sioux Indians came here from their Pine Ridge reservation as a sideshow attraction at the "Miss South Dakota" beauty pageant.
One of their rewards was to be the carcass of a fresh-killed buffalo, the meat they love best.
Their leader, Chief Ben Chief, president of the Sioux Tribal Council, and three of his braves were invited to the hunt. Chief in tribal regalia, they mounted their steed — a two-ton wrecker — and gravely rode to the scene. There two national park rangers already had weeded an old bull from the herd.
One ranger dismounted from a small pickup truck, knelt and fired at close range with a high-powered rifle. The bullet thudded against the buffalo's skull with a sound as if it had hit a granite boulder. He shook his head, and topped across the hills.
The rangers pursued him in the truck, dismounting time after time to fire at him. But the bullets seemed only bee stings to the old bull.
By then they were out of sight of the Indians, but they could hear and count the number of ineffective shots — and they did. "Six—seven—eight."
Their solid faces creased in copper grins.
"Nine—ten—eleven."
The valleys reverberated with the white man's futile bullets and the whoops of laughing Indians. The old bull circled back toward the herd. The buffaloes began angrily to paw the ground, the calves crowded close to their mothers and a great rumble as of distant thunder arose from the herd.
Before they could stampede, however, the truck turned back the wounded bull. He disappeared over a knoll. The Indians began to count again.
"Twelve — thirteen — fourteen." And then their counting stopped. After a 3 1/2 mile chase, the old bull had sunk in death like a deflated balloon.
"We used to do it with one arrow — never more than three," said Harry Jumping Bull.
The red-faced rangers explain-

Rig Activity Up Slightly

DALLAS — A total 2764 rotary rigs were active in oilfields of the United States and Canada for the week of July 23, according to a report to American Assn. of Oilwell Drilling Contractors by Hughes Tool Co. This total compares with 2748 reported operating a week ago, 2680 a month ago and with 2282 in the comparable week of 1950.

A comparison by principal areas for the past two weeks shows:

Pacific Coast, 183, up 3; Oklahoma, 290, down 22; Kansas, 159, down 17; Rocky Mountain, 165, down 2; Canada, 133, down 5; Ark-La-Tex, 164, up 6; West Texas & New Mexico, 629, up 18; Gulf Coast, 904, up 30; Illinois, 168, up 2.

Pioneer Americans had to supply their own leather soles to the cobblers, who traveled from door to door making boots and shoes.

Panhandle Oil Field Activity Increases; Wildcat Is Staked

Panhandle oil operators quickened their pace last week by staking one wildcat location and completing 19 wells, one of which was another wildcat. New location, however, fell to six. H. L. Hunt staked his No. 2 Ritchie in Briscoe County. Location was made on the No. 1, the previous week. The No. 2 is a 9000-foot test.

In the regular field, new locations dropped to six from the previous week's 11 while oil completions rose slightly to eight from six filed the week earlier. Nine gas completions were filed as compared to none the week ended July 21. Total increased oil potential was 635 barrels while gas hit 18,247 MCF. Wheeler County filed two plugged wells. The wildcat completion was the No. 1 Man Womble by J. M. Huber Corp., in Hansford County.

Special Postage Stamps To Honor Chemical Society

During 1951, the unusual, small number of only four commemorative United States postage stamps will be issued. Normally, in recent years, about 12 commemorative stamps were issued each year and the number was much greater prior to reduction of the program a few years ago.

Operators of the great Red-water field in Alberta, Canada, plan to save some \$864,000 in annual pumping expenses by switching to water injection.

Water from the nearby North Saskatchewan River would be injected below the oil level at a rate of 100,000 barrels a day, exerting pressure enough to cause the 900 wells to flow again, engineers calculated.

Newsmag above indicates oil-producing countries of the world and the number of barrels they turn out individually. The world output during 1950 was 10,359,104 barrels daily, with the U. S. the leader with 5,404,954. Iran's output, 657,742 barrels daily, is third among the producers. All figures are from U. S. Department of Mines data for 1950. With 5,178,090 barrels daily, the non-Communist nations (striped area) production of oil is approximately nine times greater than Soviet-dominated countries (dotted area).

May Crude Output Rises

TULSA, Okla. — With Iranian output at a near record level, world crude-oil production during May rose to a new high of nearly 12,000,000 bbl. daily, the Oil and Gas Journal has reported.

The trade publication pointed out that May was the last full month before the stoppage in shipments out of Iran as a result of the government's nationalization program. Daily average production world-wide during May, including estimated Russian and Eastern European output, was placed at 11,983,700 bbl. daily. The increase over April represented a gain of about 2 1/2 percent. Some of this tremendous outpouring of crude oil during the month was due to efforts to add to stocks abroad in view of the then-apparent likely shutdown in Iran. During May, it appeared that the oil fields of the non-Communist world were producing at or near maximum possible levels considering field potential and, what is even more important in some cases, capacity of oil-handling facilities such as pipe lines and treating equipment.

Venezuela showed a small gain of 9,000 bbl. daily during May to climb to an average of just under 1,700,000 barrels daily. Most of the increase in world production came from the Middle East, Canada and the United States.

Production in the Middle East rose more than nine percent to 2,199,800 barrels daily. Part of this was due to the fact that in chemical engineers. Indeed, the chemists are an important part of the team that has converted "frontier living" into the ease and luxury of modern life.

April production in Iran was 740,000 barrels daily. Alberta, in the United States, depressed as a result of strikes during that month at Abadan, surged upward as shipping about 40,000 barrels daily to Saudi Arabia showed a sharp increase during May to nearly use of the new pipe line from new high of 6,167,000 barrels production during May gained.

Oil Production And Refining Begins Recovery After Flood

By LEO MARKS
TULSA, Okla. — Early reports from Kansas, Missouri and Oklahoma — still incomplete and sketchy — indicate that oil refining and transport facilities survived heavy flood damage and were rolling with the punch.

Loss of gasoline and other petroleum products in storage, outside of spectacular fires at Kansas City, appeared negligible. The Great Lakes Pipeline Co., handling runs for 18 refineries and two other pipelines, was laying a by-pass around that terminus and expects to be back to 95 percent of capacity in two weeks.

It will be two months, however, before deliveries can be made at Kansas City bulk plants because of extensive repairs to local installations, Great Lakes President Harry Moreland said last week.

Refineries and other pipelines reporting suffered negligible injury and were near normalcy as the weekend approached. Crude gathering systems from water pressured wells in Kansas and Oklahoma had to shut down until the crests passed but damage was minor.

The Kansas River flood washed out several pipelines and another burst under the weight of water near St. Louis but pressure was generally maintained by rerouting runs.

What happens to the dollar income of an oil company? One of the country's largest showed this breakdown in an annual report: For raw materials, producing, transporting, manufacturing and

selling — 62 1/2 cents. Payrolls and employe benefits — 12 1/2 cents. Obsolescence and depreciation — 7 3/10 cents.

Investment in new properties and facilities — 5 8/10 cents. Income and other direct taxes — 5 9/10 cents.

Dividends to investors — 5 8/10 cents. Interest payments on borrowed money — 4-10 cents.

The Williston Basin, an underground reservoir of oil 350 miles long — north and south — and 300 miles wide which spans North Dakota and Montana, is beginning to shape up as one of the richest discoveries in recent years.

Shell Oil Co. disclosed that its No. 1 Northern Pacific, near Ritchie, Mont., had flowed 4,000 barrels of 38 gravity crude daily on drill stem test.

Meanwhile, Amerada Petroleum Co.'s Clarence Iverson No. 1 near Tioga, N. D., was back in production after fishing tools making 290 barrels of 39 gravity oil in 24 hours. It was the state's first oil well.

SCRUB TEAM—The plumbing fixtures may be crude, but they work all right as Pvt. Gordon Mosey of South Perth, Western Australia, scrubs "Pak," a Korean orphan adopted as a mascot by Pvt. Mosey's unit.

Australians To Start Version Of UMT Soon

CANBERRA — (AP) — Compulsory training of Australian 18-year-olds for military service will begin soon.

National Service Minister Harold E. Holt reported to Parliament that 55 percent of the 41,000 eligible youths had registered for this first post-war compulsory call-up.

More than one-third of those registered had indicated preference for the Navy and Air Force, he said, but some of those would have to serve in the Army.

KOREA SEEKS ISLE—The Republic of Korea wants to sit in on the signing of the Japanese peace treaty and, in a note to the State Department, has laid claim to the little island of Tsushima, now held by Japan. Cross on map shows location of Tsushima, in the Korea Strait, between Japan and the Korean peninsula.

ARMY

No restrictions on arms. Presumably Japan may build up armed forces to serve in Japanese-American defensive alliance. U. S., in separate pact, will get right to station military forces in Japan.

REPARATIONS

Japan's reparations payments will be in the form of labor. Former fees will send her raw materials to be processed and returned. No huge cash reparations imposed because Japan could not pay them.

PRODUCTION

(Continued from Page 17)

The west and forces the oil eastward.

But the water drive at Redwater would be vertical since the oil-bearing formation is locked in by shale with the water horizon directly beneath the crude.

The magnitude of petroleum's importance to modern America was touched on briefly by K. S. Adams, chairman of the board for Phillips Petroleum Co., in a recent address.

He pointed out that the industry has become an important source of chemicals in the United States.

"In 1950," he said, "it is estimated that production of chemicals based on oil and natural gas was around 12 billion pounds. Included were carbon black, nitrogenous fertilizers, sulphur, synthetic rubber, carbon dioxide and dry ice, alcohols, glycols, sulphur compounds, glycerin and a host of other organic compounds."

Oil is a youngster among professions, comparatively, but as far back as 1915 a movement was under way for establishment of a home for old oil men.

At a meeting held in Tulsa \$10,000 was pledged, but never collected, and a retirement setup patterned after that maintained by fraternal orders approved.

The panic of 1923, however, caused the dream to be laid aside.
