Ridgway Says Reds Plotted To End Talks Before 'Bombing' Charges

McCarthy Accuses HST Of Silencing Probe Witnesses

WASHINGTON (AP)—President Truman has been accused by Senator McCarthy (R-Wis.) of forbidding federal employees to "give Congress the truth about Communists who are in our government." The senator also charged last night that Ambassador-at-Large Philip C. Jessup was formerly editorial director of a Communist-front publication which he said received "thousands of dollars of Communist money."

Talks Between Britain, Iran Grind To Halt

TEHRAN, Iran (AP)—Oil talks between Britain and Iran ground to a halt today and Britain's chief negotiator, Richard Stokes, prepared to fly home. W. Averell Harriman also made ready to leave Iran for Washington. He will report to President Truman who sent him here last month in a last-ditch effort to keep Iranian oil flowing to the West.

Dope Peddler Accused Of Having 'Office' In Hospital

NEW YORK (AP)—An alleged dope peddler was accused today of using big Bellevue hospital's main waiting room as a sales office to operate a \$500,000-a-year narcotics business. Police said the peddler cached his drug stock in the hospital's underground engine room and kept daily "office hours" at the institution. He was not employed there.

Rites Friday For Mrs. Ellen Earl, Roberts Pioneer

MIAMI (Special)—Funeral for Mrs. Ellen Cordelia Earl, 91, will be held at 10 a. m. Friday in the First Baptist church here with Rev. Grady Adcock, pastor of the Methodist church, officiating. Mrs. Earl died in Worley hospital Thursday afternoon from a cerebral hemorrhage with which she was stricken Monday. Until Monday she was active in gardening and caring for her son's house in Miami.

Probable Polio Case In Wheeler

WHEELER (Special)—An older probable case of polio has been reported in Wheeler. Clifford Farmer, 67, son of J. and Mrs. E. E. Farmer, went to the Plainview clinic for examination this week. Although the tests proved negative at the time of the examination, attendants at the clinic told Farmer that he may have a very light case. He returned to Wheeler, where he and his wife, the former Mrs. M. J. Jones, are vacationing from Farmer.

Army Fires Commander Of Toledo Depot

WASHINGTON (AP)—The Army has relieved the commanding officer of an ordnance depot at Toledo, Ohio, where House investigators last week reported they had found evidence of "highly irregular conduct." It announced late yesterday that Col. S. W. McIlwain had been relieved of command of the Rossford Ordnance depot, but gave no reasons. Chairman Hardy (D-Va.) of a House subcommittee said last week the group had found evidence of "improper dealings" with contract-holding firms by procurement officials he did not name. The Army also said that overseas orders of Brig. Gen. David J. Crawford, recently suspended from his command of the Detroit Automotive Ordnance center, have been held up.

Beef Ceilings May Go Up

WASHINGTON (AP)—Beef price ceilings may go up a cent a pound on many cuts instead of being reduced a dime as the government had planned. Meat industry officials got word of the contemplated price boosts from aids of price controls boss Michael P. DiSalle and expected to get further details today at a meeting (9 a. m., EST) with DiSalle himself. Housewives probably will have to pay the penny or two extra a pound for beef round cuts. But ceilings on hamburger are likely to remain unchanged and some of the price cuts on loins and ribs cuts are expected.

Oil Field Worker Dies From Injuries In Pipe Accident

WYLEE Gene DeMoss, 16, son of Mr. and Mrs. George W. DeMoss, Skellytown, died here at 6 a. m. today from severe cerebral convulsions, the result of an oil field accident about 2 p. m. Wednesday. The youth was helping lay 16-inch pipe at the Skelly-Crawford Gasoline plant near Skellytown when a pipe fell, striking him in the head. He was brought to a Pampa hospital by workmen at the plant, and is reported to have walked into the hospital. He became unconscious shortly after doctors said. Besides his parents, the boy is survived by three sisters, Mrs. W. R. DeMoss, Amarillo; Mrs. Reever, Galt, and Mrs. Carolyn Ann DeMoss, Skellytown.

FIRST VIOLATION—Chinese litter bearers carry a wounded comrade down a road in the Kaesong neutrality zone. The Reds built the first violation charge from an alleged ambush of a Chinese patrol by UN troops. They have broken off peace talks from a second charge that a UN plane bombed the peace city. (NEA Telephoto)

Jim Thomas Is Killed: Shotgun Blast Ends Hunt Murder Case

DURANT, Okla. (AP)—Death has done what the courts couldn't do—settle the Dr. Roy Hunt murder case. Jim Thomas died in gunfire here yesterday. He was the man tried three times for the slaying of Dr. Hunt at Littlefield, Texas. Twice he got the death penalty, the other time life imprisonment. Each time the Court of Criminal Appeals reversed the trial court. Thomas, known by police as "one of the most cold-blooded trigger men" in the underworld, was shot to death by Hubert Deere of Durant, in an argument over an electric drill. Thomas, 35, was killed at the home of Deere's truck dealer. Officers said Thomas loaned the drill to Deere a month ago. The two met on a street. Deere said Thomas accused him of selling it or having it hidden somewhere. "I'll give you just two hours to get it, or I'll beat hell out of you," Deere had said he had taken the drill to Midland, Texas, and turned it over to a Thomas associate. Thomas went to Deere's home later, forced his way into the house and struck Deere. Then, officers said, Deere got his shotgun and blasted the Texas twice. "Boin" was shot in the head after being "taken for a ride." Thomas was questioned in the recent explosion death of Herbert Noble, Dallas gambler.

Ex-White House Aide Linked To State Department Attack

WASHINGTON (AP)—Louis Budenz testified today a 1942 Communist article, which he called the opening gun of an attack on State Department figures unfriendly to Russia, was prepared "through arrangement" with Lauchlin Currie, then a White House aide. The article was published in the Daily Worker, Communist newspaper. Budenz was on the paper's staff at that time. He since has renounced communism and is on the faculty of Fordham university. Budenz spoke before the Senate internal security subcommittee. The group is looking into the question of whether there have been subversive influences on U.S. foreign policy. Publication of the article, Budenz said, led to a meeting between Communist Leader Earl Browder, and Under Secretary of State Sumner Welles.

Santa Fe Scout Leaders To Meet

No Evidence Of Bombing In Kaesong

TOKYO (AP)—Gen. Matthew B. Ridgway's headquarters said today that if any planes attacked the Kaesong cease-fire site last night, they were Communist planes. The Reds broke off armistice talks after charging a UN plane bombed, fire-bombed and strafed the site. An information bulletin issued by the United Nations command headquarters said liaison teams "found no evidence whatsoever to support the charge." "In fact," the bulletin continued, "they could find no damage that had been done to any person, building or crop. The only 'damage' visible was a few holes in the ground which looked more like the results of a land mine explosion or a hand grenade than a bomb crater."

Hurricane Blows Out In Mexico

TAMPICO, Mexico (AP)—The killer hurricane that raged over tropical seas all week, taking more than 130 lives and causing millions of dollars in damage, was blowing itself out today in the mountains of Mexico. The storm—described as the storm of the century—spent its final fury over the oil port of Tampico yesterday. At least one person was killed here and the damage was expected to run far above \$1,000,000. Twenty-seven persons were officially reported injured here—unverified reports placed the casualties as high as 300. Repair crews worked through the night by the glow of truck lights in the darkened city, to restore wires. The weather bureau said the storm ceased breaking up west of Ciudad Victoria, 300 miles north of Mexico City. The bureau said it could not say exactly where the storm was because communications were broken.

Transport Plane Crashes In Alaska

ANCHORAGE, Alaska (AP)—A C-47 transport plane with nine persons aboard crashed at Summit, 152 miles north of here on the Alaska railroad, at 8:42 last night (1:33 a. m. EST Thursday). First reports indicated all persons aboard were killed. The plane was enroute to Eielson Air Base near Fairbanks from Elmendorf Air Base at Anchorage. A Civil Aeronautics administration radio officer at Summit reported the plane shortly before the crash but was not informed of any trouble. Contact was broken and the operator said he saw the plane diving into the runway of the Summit landing field. Bad weather kept search planes from Sum it. The Alaska railroad sent an ambulance car to the crash site with doctors and a rescue team.

Canadian Dam Delegates Plan Machinery For District

Machinery for a master water district for the Canadian River dam will be put in motion following return of the Panhandle-Plains delegates from Washington where they conferred yesterday with Secretary of the Interior, Harold I. Lloyd, and Tom Connally, and Reps. Walter Rogers and George Mahon. Such a district must be formed before a contract between the Bureau of Reclamation and the cities using the water can be signed, the delegation was told in talks held in the Senate Foreign Relations committee room in Washington, D. C. The 45-minute session was held with Rex B. Baxter, Amarillo Chamber of Commerce manager; Mayor Clarence Whiteside, Lubbock; Leonard Johnson, regional director of the Reclamation bureau; State Engineer Harry Burleigh; the four lawmakers and Wesley Nelson, Washington, assistant director of the Reclamation bureau. When the delegation returns, a meeting of representatives from the various Panhandle and Plains cities will be called to hear the delegates report and set the machinery for forming the master district in motion. Baxter said the meeting will be held sometime in September. Baxter quoted Sens. Connally and Johnson as promising to push for the appropriation after the national emergency is declared up, and such action would be justified. Baxter noted the solution if work should be started immediately on formation of the master district. He was told the district would have to be formed before any construction work could be started. The meeting yesterday was to be followed by a conference with Reclamation bureau officials on procedure to be used in formation of the district. Only a fraction of the estimated \$85,000,000 Sanford project is to be asked for later to start construction. The dam was authorized by Congress last year following a commitment that funds would not be sought during the period of the national emergency.

Claims No Planes In Peace City Area

MUNSAN, Korea (AP)—The Communists called off the Korean armistice talks "from now on" Thursday on a bombing charge which the United Nations command said was a complete frame-up. The Reds accused an allied plane of bombing Kaesong, site of the deadlocked negotiations. In a sharp statement issued in Tokyo at midnight (6 a. m. Thursday, CST) Gen. Matthew B. Ridgway said the allies made no such bombing, and that the timing showed the Communists had decided to break off the talks even before they made their trumped-up complaint. The UN commander's statement called it "a frame-up staged from first to last." Allied statements said no UN air force or naval plane was in the area, no allied artillery fired into the area, and the Reds presented no evidence that there even was a bombing. An investigating American officer said the evidence he was shown in the early morning blackness was "ridiculous."

ROKs Win Hill Posts

U.S. EIGHTH ARMY HEADQUARTERS, Korea (AP)—A five-day "battle for the hills" in east central Korea has ended with South Korean troops in firm control of all their objectives, Eighth army said today. Gen. James A. Van Fleet Army commander, indicated the positions were won by strategically important if the last breakdown of cease-fire talks means a resumption of full scale war across the Korean peninsula. Van Fleet told the victorious South Korean troops: "The vital commanding terrain which you have captured will deny the enemy observation of your positions and will in time afford you added security and observation of the enemy for a considerable distance to the north."

Hospital Council In Session Here

Highland General hospital held its first meeting of the hospital council, comprised of members from 29 counties and headed by Steve Walters, Northwest Texas hospital in Amarillo. The council meets to discuss ways and means of better care for hospital patients and to work out mutual problems which arise in every-day hospital routine. Sister Teresa, Wellington, is secretary for the current year. The Panhandle council was the first to organize in the state. Last year their bylaws were studied and partially accepted for use in organizing other councils over the state. Grade A 4-drawer filing cabinets in stock. Texas Printing Co.

BULLETIN

WASHINGTON (AP)—President Truman asked Congress again today for stronger price controls, and denounced an economic "boobytrap" provision of the law passed by the legislators only three weeks ago. This sharp phrase was directed at the Caphart amendment, a provision which Senator Caphart (R-Ind.) got into the law. It requires that price ceilings must take into account all increases in costs since the Korean war began. Besides elimination of the Caphart amendment, Mr. Truman also asked for repeal of the Herlong and the Butler-Hope amendments.

## Camera News

By BOB KRADIN  
I am a professional photographer but shy away from talking photography with amateurs. Amateurs make me feel like an amateur. They know so much more than I do about theory, about the people and the background of the people in the business. They are familiar with the chemicals and the paper and the enlarging lenses and every thing even remotely connected with photography. I know people who signal me they feel the same. Perhaps, with all that in mind, we can forgive the amateur when he forgets to pull a slide, neglects to cock his shutter or puts more than one exposure on a single piece of film.  
If any of you amateurs (who know you are good) are rearing up on your hind legs, settle down. Even a well-grounded press photographer has at one time or another pulled a boner. In this regard a story concerning a studio photographer in a big city as told to me by an airline publicity man, who hired him, comes to mind. This happened years ago when airlines made it their policy to discourage pictures of wrecks. This particular publicity man was intelligent enough to know that news remains news, even if bad. Anyway, he convinced his employers of it and when one of their planes went down in Canada with a loss of life he immediately hired this commercial photographer to fly to Canada in a special plane so he could make pictures for distribution to the papers. The airline he represented hadn't as yet reached the stage where it would help press photographers go out and shoot and, as the airline alone, at the time, knew of the location of the wreck, that was it. This photographer made two dozen shots. As I said this hap-

pened years ago, so that if the gentleman concerned should see this, maybe he can sleep now. Seems when he developed his stuff he had a batch of blank film.  
Another story that I can laugh at now concerns an ambitious youngster who wanted to be a photographer. Evidently he had seen too many movies. I never bothered to talk to him while he worked in the same office after this occurrence. I met him recently, some 15 years later. He gave me a warm handshake, extended an invitation to lunch. I said to him: "Do you remember that time on Long Island when I was covering a polo match and you asked me how to get some pictures?" I thought what you were doing was commendable and briefed you on the proper lens aperture, the speed and the most likely place for you to get some action. I saw no more of you because I was busy and you hustled away to make your pictures. Well, next I saw you in the office where you had returned pronto in the hopes of getting your pictures used. You had already developed your negatives. It was a nice job of exposure, your development was good, the only flaw was that you had several shots showing the tail of the polo ponies and little else. The one thing you didn't know was that with the speed of the ponies one had to shoot ahead and allow for the movement."  
I just about finished the story when this very embarrassed fellow disappeared.  
I know that were I not in this swell business, I certainly would become an amateur. It is a thrill to capture the beauty and ugliness that is all about us. If nothing more, it sure makes for a lengthy conversation when discussion of the weather is completed.

Fine quality athletic shirts made of long staple cotton in swiss rib knit. Tubular finished neck and armholes. Full-cut, extra long for tuck-in, sizes 10-16. 45c Ribbed knit cotton speed shorts, 10-16, now 37c

### SPECIAL-SAVE-ON BRIEFS

Real Ward buys 38c dr. 3 prs. \$1

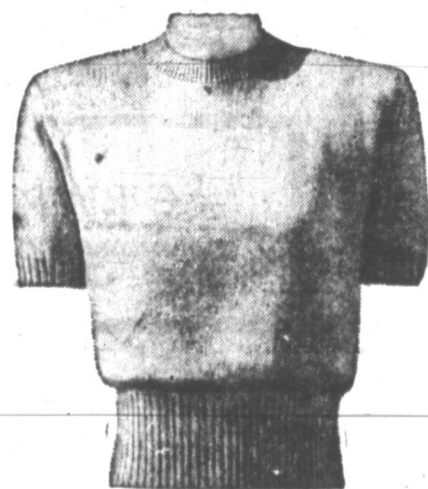

If not specially purchased Wards price would have been 79c. Every pair made of top quality run-proof tricot rayon. Choice of smooth-fitting elastic or band leg styles. Pink and white. Small, medium and large.

### 4-7½ PASTEL COTTON SLIPS

Real buys at 98c Big assortment

You'll find sweetheart necks, round necks, gored skirts and swing skirts at this one price. Dainty lace and eyelet ruffles, hemstitched armholes. All seams neatly finished. Choice of white, pale blue or pink.

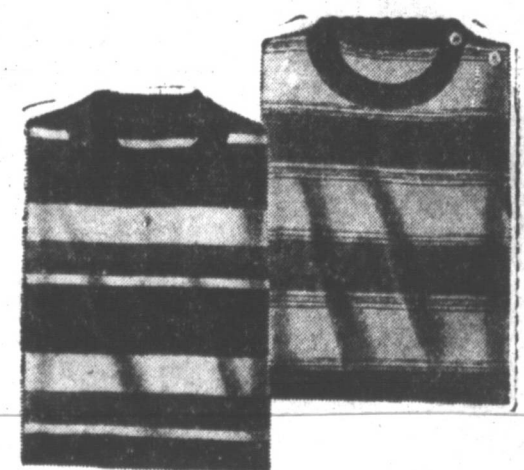

### WARDS NYLON SWEATERS

Wash, Dry Quickly 2.98 Retain their shape

100% virgin nylon sweaters in classic pullover style. Short sleeves and reinforced neckline for better fit. Light blue, pink and white. Also in new fluorescent shades of cerise, lime and lemon. In sizes 34-40.

## COMPLETE NEW BACK TO SCHOOL ASSORTMENTS

Fresh stocks and new styles—every item at an attractive money-saving price—are featured here in Wards big August back-to-school round-up. Come in now for best selections in children's clothing for early fall and classroom wear. You will approve the bright new fashions and welcome the down-to-earth prices in these outstanding buys to outfit your family for the school year.

### 3-6X NOVELTY KNIT SHIRTS

Excellent value 98c New fall colors

Youngsters never have enough of these. Better quality, 2-ply softly textured combed cotton with short sleeves, crew neck. Assorted fall stripings and colors. Same style for 1-4, 2-button shoulder. .... 89c

### 8 OZ. DENIM DUNGAREES

2.39

They can really take abuse. We've used a heavier weight denim, copper rivets and bar tacked strain points. Added a heavy duty side zipper closing, back yoke. Sanforized, max. shrinkage 1%. 2 front pockets, 1 back pocket. Navy with red stitching. Sizes 7 to 14.

### BOYS' 6-18 COTTON KNITS

Real buys at 98c Grand Colors

He can't have too many of these practical shirts for school, for play. Easy to launder; no ironing needed. Ribbed crew neck. Take your pick of wide or narrow stripes in bright colors he's sure to like.

### JR. BOYS' BLAZER SOCKS

Bright and bold 25c Sizes 6½ to 8½

Here's fine quality at a genuinely low price. Brilliant, washfast colors in long-wearing mercerized cotton yarn, with strongly reinforced heels and toes. Knit-in elastic cuffs for snug ankle fit.

### 'Candy Bars Away' For Korean Kids

BOSTON — (AP) — Berlin or Korea, wherever American flyers, there's candy for the kids. Remember "Operation Little Vittles?"

Those were the missions which delighted the nation during the Berlin airlift when an American pilot dropped candy bars on little handkerchief parachutes to the children who crowded the airport.

Now it's "Candy Bars Away" in Korea.

In a letter home Marine Sgt. Harold E. Pierce tells how he and his pilot, Capt. Frank Parks of Allentown, Pa., spotted ragged Korean children running in fright as their helicopter flew over.

"We dropped some candy bars so they wouldn't be scared of our blue helicopter," the sergeant said. They fly courier duty between Seoul and the advanced UN headquarters at Munsan.

Now, he went on, the youngsters recognize the blue plane and jump and wave instead of running for cover.

"Only trouble is," the sergeant wrote, "there's more kids than candy bars."

### JACOBY ON BRIDGE

#### Here's An Example Of What Not To Do

By OSWALD JACOBY  
Written for NEA Service

"Please tell us who the criminal was," requests a Rapid City (South Dakota) fan. "North and South certainly were overboard at three no-trump. And what happened to South shouldn't happen to a dog."

"West led the jack of spades, dummy played the king, and East won with the ace. East shifted to the jack of diamonds, whereupon the defenders ran off five diamonds and four spades while South was still trying to catch his breath. In a little while South caught more than his breath, since North was not exactly pleased with the result.

"— this sort of thing supposed to happen every once in a while, or did somebody rock the boat? If the latter, who was guilty?"

Evidently South went for an 1100-point ride. This sort of thing is not supposed to happen. The

TO GUIDE PROPAGANDA— Ben Hibbs, above, editor of the Saturday Evening Post, is head of a new State Department press and publications committee which will help guide American propaganda. The committee of distinguished newsmen and publishers will review periodically the work of the State Department's press and publication division and "recommend shifts of emphasis, new techniques and modifications."

### Engineer Says Raincoats Not Needed In '52; Rain Due '53

AUSTIN — (AP) — You won't need that raincoat much next year either. Keep it handy for 1953.

That's the advice of Abraham Streiff, hydraulic engineer who has studied weather cycles for 30 years for dams he has built over the world.

Streiff has just completed work on the lower Colorado River authority's two new dams above Austin, the Granite Shoals and Marble Falls dams.

"In 1953 you'll see those big floods come back to the Colorado," he said, "but don't look for them before then."

Where does he get that idea? From Texas' weather statistics that for years have roughly followed the same general seven-year cycle, ranging from a d d drought years to peak rainfall years and then back to drought again.

"There's a certain rhythmic recurrence, a certain systematic sequence that makes it possible for us to foretell with reasonable assurance just what to expect in the way of rainfall and runoff for years ahead," he said. "Of course, conditions may not conform locally to the pattern. You may get rains during a dry year at one place and a dry spell during wet years in another place but if you study the area as a whole you'll find the cycles."

Texas is just pulling out of the trough of one of those dry periods.

"There's some sort of complicated relationship with sun activity," Streiff explained. "Weather cycles, runoff cycles, the thickness of annual tree rings all bear a direct relationship to 'explosions' on the sun's surface. Where weather data is missing, we can often reconstruct weather graphs from sun activity data and tree-ring data."

Cycles vary geographically and other factors often come into play, too, he noted.

Streiff's studies of weather cycles have been published in weather observers' official publications.

He became interested after he

### Band Director At Shamrock Resigns

SHAMROCK — (Special) — Ray L. Showalter, Shamrock high school band director, has resigned to take a similar position at Rankin, Texas, near Odessa.

His wife, who was scheduled to teach third grade in the Irish schools, also submitted her resignation.

Supt. Elmer J. Moore said he would like a man and his wife to fill the combination vacancies.

Showalter, a graduate of Texas Tech, Lubbock, came to Shamrock as band director in February.

### Judd Asks Czechs To Press Reds

WASHINGTON — (AP) — Rep. Judd (R-Minn.) has called upon the Czechoslovakian people to "bring pressure" upon their communist government to free William N. Oatis, Associated Press correspondent jailed on spy charges. The U.S. has called the charges phoney.

In a broadcast over the "Voice of America," Judd said the "conduct of the outfit which is in control of the Czechoslovakian government today is a threat to the freedom and proper rights and privileges of free intercourse of all people everywhere."

bread and water diet is for South.

It's all right to open the bidding with a three-card club suit to provide yourself with a convenient rebid. Remember, however, that the rebid is necessary only if your partner bids a new suit. You're allowed to pass if your partner bids one no-trump or if he raises to two clubs.

What does North show when he raises to two clubs? Certainly less than an average hand in high cards. What's more, North indicates that he has no biddable suit and probably not even a four-card length of any description in diamonds, hearts, or spades. However, North guarantees four-card support for clubs; and the chances are that North has at least five clubs.

If North has that kind of hand, what should South hold to hope for game? South should have the sort of hand that was not quite good enough for an opening bid of two no-trump but that was too good for an opening bid of one no-trump. His message is, "I know you have a weak hand, but we can still make a game if your hand has small claims to merit."

Obviously South didn't have that kind of a hand. He should have passed at two clubs on the theory that it was as good a spot as any to play the hand. A player who is advanced enough to open with what is called the "short club" should be advanced enough to pass a simple raise to two clubs.

#### Czechoslovakia To Attend Peace Meet

LONDON — (AP) — Czechoslovakia has informed the United States she will attend the Japanese peace treaty conference in San Francisco next month. She is the third Communist state to accept the U. S. invitation. Russia and Poland already have accepted.

Thirty-three of the 50 nations invited to the conference beginning Sept. 4 have accepted.

Fire destroys approximately five schools in the United States every day.

### Problems Raised With Atoms In Industry

By JAMES MARLOW  
WASHINGTON (AP) — The Navy created a sensation in announcing that it has arranged to build a submarine driven by atomic power.

But this doesn't mean we've advanced so far in development of atomic energy that we'll be using it the day after tomorrow in American industry instead of oil and coal and water.

Side by side with its main job of producing atomic weapons the Atomic Energy Commission (AEC) learns and develops other uses for the atom and it has made this much progress to date:

Right now it can use atomic energy to provide industrial power. The fact that the atomic submarine is to be built is proof of that. But the main point is this: AEC still hasn't found a way to provide atomic energy for industry so cheaply that industry would drop the usual coal-electricity-power it's using now.

Recently the chairman of the Atomic Energy Commission, Gordon E. Dean, said that in his opinion the use of atomic energy in industry is still a good way off. And he gave some reasons for saying so:

1. There are technical difficulties which must first be overcome.
2. There's no immediate industrial need for atomic energy since we're still so well supplied with the usual kind.
3. Defense needs for a atomic energy are still greater than the commercial needs of industry, and therefore need more work and attention now.

Last July the AEC said work was being done on atomic energy for driving submarines and planes. It seems plain, now, from the Navy's announcement, that work on the submarine has outstripped work on the plane.

This may explain some of the problems ahead for industry: In making atomic weapons the government needs plutonium. Luckily, it gets the plutonium this way:

Natural uranium is dumped into a reactor (call it an engine). The uranium contains two kinds of atoms, 235 and 238. The 235's keep hopping around and hit the 238's. This results in a change which produces the needed plutonium.

But this process produces tremendous energy in the form of heat, more energy than the government needs. So the question is:

How can this heat be used for the benefit of industry by providing power to turn the wheels of industry. For instance, how can the heat be turned into steam for driving engine turbines?

When the solution is found — this atomic energy at a cost cheaper than its present means of power — we shall have moved far forward in the atomic age.

Four groups of big companies, chemical and electric power companies, recently made a deal with AEC:

They'll send their technicians, after they've been well-checked by the FBI, into the commission's plants to study the reactors, or engines, at work in producing plutonium.

The purpose: to see if they can come up with a plan by which private industry could produce plutonium for the government and at the same time use that tremendous energy, resulting from the manufacture of plutonium, for supplying industry with power.

If they do produce a plan, and it should take at least a year, the AEC will have to study it. And Congress will almost certainly have to approve before private industry is allowed into this field.

When the time comes for such a decision, there probably will be a long and bitter fight — so, one as predicting the outcome — over this question: Should private firms be allowed to use atomic energy developed by the government at the expense of the taxpayers, for private profit? Or should the government itself step into the industrial power field on the grounds that atomic energy is public property?

### Russia Willing To Raise Debt Payment

WASHINGTON (AP) — Russia has indicated it is willing to go higher than its last offer of \$240,000,000 in settlement of its lend-lease account with the U. S.

The Soviet received \$11,000,000 worth of U. S. goods during the war, but this government has been willing to settle for \$800,000,000 or less, on the basis that most of the total amount of goods had no peacetime value.

### Local Student Named College Cheer Leader

ABILENE — Dean Martin, son of the Rev. and Mrs. E. H. Martin of 234 Zimmer, Pampa, has been appointed assistant cheerleader at McMurry college, for the coming year.

Martin is a junior student, majoring in speech and studying for the ministry.

## Bill Introduced To Block Plan

WASHINGTON — (AP) — Senator Martin (R-Pa.) introduced legislation to block President Truman's plan for dispersal of defense industry.

Martin introduced the bill as an amendment to the new Defense Production Act.

Before Congress passed the act, both the Senate and House overwhelmingly defeated a proposal calling for dispersal of future defense plant construction or expansion.

But Mr. Truman, through an executive order, put a dispersal plan into effect. It is aimed at encouraging industry spread out as a safeguard from enemy air attacks, by offering such government aid as loans and contracts.

## Development Of Area Highways Due

D. C. Greer, state highway engineer, will be honored at a luncheon here Friday when highway leaders of the area meet to discuss highway development in this section.

Delegations from Perryton, Miami and Borger will meet with local highway committees to discuss highway problems and confer with Greer.

A meeting was held Tuesday to plan the luncheon. Attending were the following highway chairmen: Howard Buckingham, Hwy. 80; Fred Thompson, Hwy. 70; Jack Vaughn, Hwy. 70; and D. V. Burton, Hwy. 273.

Frank Culbertson, chairman of the Roberts county right-of-way committee; and W. B. Weathered, co-ordinator of all highway committees, were also present.

G. B. Vineyard will act as master of ceremonies for the Friday meeting.

ALL IN A LIFETIME

By Frank Beck

## 'Reds Mean Business,' Visiting Pastor Tells Rotary

A strong warning that communism means business in conquering the world was sounded to the Pampa Rotary Club yesterday by Dr. Guy Newman, pastor of the Brownville First Baptist church.

Stalin, he said, has to destroy Christianity because it is the bulwark against destruction of democracy, adding, "and we better preserve that Christianity."

He predicted the only alternative to communism in America is a rebirth of the spirit and a rebirth of the work of the individual.

The speaker, who is currently conducting the revival of the First Baptist church here, traced the history of communism from its birth in the mind of Karl Marx through the 1917 Russian revolution — spawned by the German High command during World War I by shipping Nicholas Lenin and 18 others behind the Russian lines to stir up the revolt — and its membership growth over the world since then. He pointed out, however, that only three percent of the Russian people today are actually members of the Communist party.

Prior to Dr. Newman's talk, Bill Turner, minister of education of the Perryton Baptist church, sang two solos, "I Walk With the King" and "The Peace My Saviour Gave to Me."

The program was introduced by Rev. E. Douglas Carver, pastor of the First Baptist church. George Scott, president of Ro-

tary, announced a club assembly — would meet with the district governor at 7:30 p. m. Tuesday in the city commission room. The governor will also attend next week's meeting of Rotary.

## Lake Resorts Are Planned

DENISON — (AP) — The state parks board has approved construction of three resort hotels on the three Texas lakes.

The resorts would be built at Lake Texoma on the Texas side in the Eisenhower park near Denison, at Possum Kingdom State park near Mineral Wells, and at Inks lake near Burnet.

The one at Lake Texoma was estimated to be a million-dollar project and the other two were expected to be similar.

Negotiations for the Texoma project were started between the board and John H. Edwards, of the R. J. Edwards firm which financed the million-dollar resort project at the Oklahoma State park at Lake Murray, Okla.

The Texas projects will be financed by revenue bonds for private investors. The bonds were authorized by the legislature several years ago.

The state parks board must get approval of the state attorney general on the three agreements.

## MacArthur Turns Down Government Invitation

WASHINGTON — (AP) — Gen. Douglas MacArthur is reported to have turned down a government invitation to address the Japanese Peace Treaty Conference on the ground it might put him in the light of representing the Truman Administration.

An aide in New York quoted MacArthur as saying he would not attend the conference opened in San Francisco Sept. 4 "short of a direct invitation" by the conference itself.

A Washington official, declining to be quoted by name, said President Truman had approved a U.S. government invitation to MacArthur to speak during the time allotted this country "but MacArthur had declined. The general's aide, Col. Lawrence Bunker, said MacArthur had received no invitation.

John Foster Dumes, Republican advisor to the state department and a key figure in the forthcoming conference, was said to have approached MacArthur, also a Republican, last week. At that time, MacArthur was reported to have first accepted, then turned down, a proposal to attend.

The state department last Thursday said it considered MacArthur's participation in the conference as only logical due to his five years as Supreme Commander of the Allied Occupation Forces in Japan.

At the same time Mr. Truman, who fired MacArthur from all his Far East commands because of differences over policy and the general's public comments, said the general could attend the conference if he wanted to.

Mr. Truman himself is scheduled to make the principal address at the conference opening in the War Memorial Municipal Opera House in San Francisco's civic center. He will be introduced by Secretary of State Acheson, serving as temporary chairman.

Meanwhile, Czechoslovakia became the 43rd country — and the third Communist nation along with Soviet Russia and Poland — to accept the invitation to attend the conference. A total of 51 were invited.

Thirty-three have now sent formal acceptances and 10 have indicated they will attend. Hold-

## Two Local Men Given Sentences For Theft

Two local men, whose address in The Falls is not known, started jail sentences Tuesday after pleading guilty in county court to charges of theft under \$50.

R. V. Woods was sentenced to 60 days in jail, and Levester Kilgore to 30 days by County Judge Bruce Parker.

According to County Attorney Bill Waters, the men were charged with theft of scrap steel from Texas Pipe and Metal Co., Sunday. They were arrested by city police.

outs include four Asian nations — India, which has criticized features of the treaty, the Philippines which are pressing reparations claims, Indonesia and Burma. Japan has indicated a "pro-

PAMPA NEWS, THURSDAY, AUG. 23, 1951 PAGE 7

found sense of gratification and gratitude" over the spirit and terms of the proposed treaty, bringing peace to the Pacific. This was expressed in a letter from Prime Minister Shigeru Yoshida, on behalf of his government, to General Matthew B. Ridgway, Supreme Allied Commander in Tokyo.

Scandal Stirs A Memory

Cadets Took Chances During Inspection Time

(Editors Note: This is the fifth of a series of six articles about West Point by Westbrook Pegler. These columns were originally written in January, 1929 and deal with football affairs as related to Military Academy life.)

"Reprinted by Special permission of the Chicago Tribune." By WESTBROOK PEGLER The sight of three young men intently studying three books did not seem to lend itself to animated description. Moreover, I had an appointment to go with the tactical officer for evening inspection, which takes place any time between the start of the study period and 9 o'clock, when it ends.

To me, any time before 9 o'clock meant anything prior to 9 p.m., but I thought Lt. Gallagher seemed a mile impatient when I appeared at 8:50. They don't like to inspect so close to the deadline, he explained, as it seems as though they were trying to trap the men relaxing at the last moment.

However, we dashed across the area and into one of the division corridors. I was beginning to realize that they dash about their duties at the academy, and when the inspecting officer began to dash up the flight of stairs it occurred to me that my legs weren't what they used to be.

But first the lieutenant strode to the far end of the hall, hit a door a clout with his knuckles, swung his censorious gaze from man to man, to the floor, to the beds and clothes lockers. He slammed the door, wheeled and fetched a bang on the door across the hall. I thought it was nice of him to knock before charging in. Chairs rattled again and three cadets stood frozen for an instant. Now the front room on the left, now the front room on the right, and now the agile lieutenant took the stairs three at a leap and went banging on the doors there following the same order. There

Jury Lashes Law Policies

FORT WORTH — (AP) — Practices of some law enforcement officers and public officials have been condemned as "reprehensible" by Tarrant county's special grand jury. The jurors recommended that the practices be "stamped out." Listed were: Some police patrols and other law enforcement officials, for private gain, to knowingly permit gambling and gaming devices to be operated. For organized associations to collect monthly or other periodic sums — in some instances amounting to more than \$1000 a month — to be paid to those having authority to "keep the town open" for vice. The practice of some law enforcement officials to demand tribute or pay-off money from operators in gambling. The practice of some influential citizens and attorneys to get "no bills" for organized associations and groups operating in violation of the gambling and other laws against the morals of the community.

Icardi Declares America Is Aware Of His Innocence

PITTSBURGH — (AP) — Aldo (Ike) Icardi, former Army lieutenant accused in Italy of killing a fellow officer in the last war, says he is certain the American people hold him innocent. "I have just begun to fight, Italy, but to the fairest and most honest judge in the world — the people of America," Icardi stated. Icardi previously said he would rejoin the United States Army and face court martial rather than be extradited to Italy. He said a trial in Italy would be unfair because it "would be a trial by enemies in a country where I operated as an American spy."

Icardi was an intelligence officer in Italy under Major William V. Holohan, U. S. Army, who disappeared in December, 1944. Also accused of slaying Holohan are two Italians and former Sgt. Carl G. La Dolce, of Rochester, N. Y., who like Icardi, has denied the charge, he stated. Icardi said Holohan disappeared "during a hail of gunfire, as we were leaving our headquarters. When the firing started, our party scattered. I never saw Major Holohan again." Icardi, a New York lawyer, returned to his parents' home here last week after the Defense Department in Washington issued a statement naming him and La Dolce.

More Comfort Wearing FALSE TEETH

There is a pleasant way to overcome loose-plate discomfort. FANTH, an improved powder, sprinkled on upper and lower plates holds them firmly in place. They feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FANTH today at any drug store.

them and pursue them to their rooms to get their names. Some of this visiting may be well intended: a fellow goes to another man's room to get help in a subject he doesn't understand. But strictly speaking it's wrong. He ought to do it in the proper hour. About the necktie, why report a man for having no tie when the tie was worn as a loose formality anyway? "They know they're supposed to wear them until nine o'clock. They will have no respect for you if a glance — or think you can. You're soft with them. I was a cadet, so I know. They know what to expect when they take a chance."

I caught Mr. Sprague in bed during study hour a while back. He knew better than that after three years. If I had ignored that, he and the whole corps would have thought I was making things easy for the football captain. "Yes," I said. "He mentioned the matter to me." "There's a fat faced plebe in this division right here," he continued. "One night I caught him wearing a polka-dot bow tie. You get so you can spot anything at a glance — or think you can. You're soft with them. I was a cadet, so I know. They know what to expect when they take a chance."

"So you were with Lt. Gallagher," Mr. Sprague remarked. "He's the one who caught me in bed during study hour." "Yes; he mentioned it." "What did he say?" "He just said he caught you and put you on report. I offered no explanation for you, not thinking you'd like me to." "No; I'm glad you didn't." But I thought the evening inspection was a dangerous one to gamble with. It's hit or miss. An officer must inspect two divisions every evening, but may inspect four. Two divisions may or may not escape inspection. But which of the doors, if he doesn't hit your door first? "We get it by telegrapher if he's on our left," a young man explained. "But if he's out to our right, or if he starts in with our division the chances are not so good, if you're taking chances. But usually you aren't. You have so many subjects and so little time that you haven't much temptation to fool around." "When he's off the left the next division passes the word along." He tapped on the wall. There was an answering tap. "Even when he's on the right, you can hear him bang-

# Battle Starts As Yankees Move Into Cleveland's Teepee

PAGE 10 PAMPA NEWS, THURSDAY, AUG. 23, 1951

## Phillies' Owner Spikes Rumors

PHILADELPHIA (AP)—Robert R. M. Carpenter, Jr., president of the Philadelphia Phillies, says he hasn't talked over a 1952 contract with Manager Eddie Sawyer but he intends that Sawyer manage the club next year. Rumors have persisted that Sawyer might be moved up to general manager and that the Phils are seeking someone to replace him as field pilot.

The 1950 National League champions have flourished a 11 season and now are having trouble staying in the first division. Attendance is off by 250,000.

**RED ARROW MINERAL OIL**  
IT'S TASTELESS

## Bears, Rams To Offer Favorite

LOS ANGELES (AP)—It's only an exhibition game, but tomorrow night's football battle between the Chicago Bears and the Los Angeles Rams may show where the real strength is in the western division of the National pro league.

George Halas is supposed to have one of his championship teams in the making. It has more speed than in 1950 and quarterback Johnny Lujack's arm, sore much of last season, is back in condition.

The Rams have won the division title for two years running, and Coach Jumbo Joe Stydaher makes no secret of his belief that this is a better team than won last year, only to be nosed out by the Cleveland Browns in the payoff.

On the average, February is the least rainy month of the year in London.

# Oilers Sweep Set From Hubbers, 8-5

The Oilers stretched their current winning streak to four straight here last night by beating the Lubbock Hubbers 8-5, and also gaining a sweep of the Pampa end of the series.

The clubs will move to Lubbock today to resume action where righthander Al Kavanagh will face the Hubbers who are expected to throw Ray Machado.

The Oilers took the lead in the first inning when, with two out, Jake Phillips doubled to right center and Frank Calo followed with a home run over the left centerfield fence.

Pampa added two in the third. With one away, Phillips singled and stole second. Calo singled to left to score Phillips and Novotney juggled the ball, Calo taking second. Dick Woldt doubled to plate Calo.

The Hubbers got their first hit off Payte in the fourth, when Earl Hochstatter singled after Novotney had walked. Kubaki forced Hochstatter and then Palmer singled to score Novotney. Sargent singled, scoring Kubaki with the second Hub run.

Pampa added two in their half of the inning on doubles by George Payte and Phillips mixed around an error by Mendoza.

In the sixth when Mendoza singled, went to second when Novotney walked and scored on a single by Michael accounted for two more runs and brought Bill Coffey in to pitch.

He was effective the rest of the way, giving up but a single run in the eighth when Mendoza singled, went to second when Novotney walked and scored on a single by Hochstatter.

The Oilers added single runs in the sixth and eighth innings to complete the scoring.

Payte pitched effectively, but wild ball, and gained the victory, his eleventh against fourteen losses.

## Maxim Earns Clean 15-Round Decision

NEW YORK (AP)—Joey Maxim settled the world's lightweight crown tightly on his swarthy brows today by his surprising 15-round decision over free-swinging Irish Bob Murphy.

It was boxing science versus brawling and science won. Three tough challengers await Maxim. Most probably the champion will fight Bob Satterfield in Chicago Dec. 7. There is talk of a fight in London with British champion, stocky Don Cockell. Out on the Pacific Coast there is Harry "Kid" Matthews, who, his supporters claim, is the best of the lot.

The action-packed fight in Madison Square Garden last night came as a shock to the experts, who picked Murry as the 12-5 betting favorite. This was Maxim's first defense of the title since he won it 19 months ago.

Payte; umpires: Crain and Hotel; time: 2:10.

### Gal Golfers In Putting Contest

The Pampa Women's Golf Association held a putting contest for their regular weekly meeting yesterday. The girls counted their putts over the first nine holes and Maysia de Howell, Lila Austin and Beth Heiskell tied for honors in the first flight with 15. In the second flight, O P H. Mitchell and Edith Hughes each had 18.

### Sooners To Change Offense To Let Billy Vessels Romp

NORMAN, Okla. — (AP) — Na-up his mind whether to run or pass until after the play starts, shelve its famed split-T offense at times this fall for a spread formation that scatters players half way across the football field. This comes from head coach Bud Wilkinson, whose Sooners rode the split-T through 31 straight victories before they lost the 1951 Sugar Bowl game.

"We don't intend to discard the split-T," said Wilkinson, "but we won't be able to take the ball and ram it down the throats of the opposition as we have done in the past."

"So, a lot of our players will be run from a spread formation. And we will do a lot more passing than ever before. As Wilkinson explains, it will resemble the double wing, with the ball carrier standing alone about nine yards straight behind the center. The balanced line will be spread wide, measuring some 27 yards from end to end. The ball will be snapped with out a shift. The defense won't know whether the play is going right or left, whether it will be a run or a pass. Even the man with the ball won't make

NO WORRIES ABOUT DATES  
DES MOINES — (AP) — No matter which way he looks when he swings in his swivel chair, N. F. Reed, clerk of the U. S. district court, can tell the date at a glance. He has 17 calendars of all sizes on the walls of his office in the federal building.

### Sports Round-Up

By GAYLE TALBOT

NEW YORK — (AP) — Baseball visitors here from the Midwest say the situation at Detroit is really distressing and that the Tigers' new general manager, Charlie Gehringer, had better give up his manufacturing business entirely and devote all his days to trying to rebuild the club.

The Tigers, they say, have almost no good looking young players coming up. Their attendance threatens to fall 700,000 short of the 1,900,000 drawn at Briggs Stadium last season.

It required no great twisting of the arm to persuade tennis officials at Forest Hills that they should hold the national doubles final in their stadium next Sunday after it had been washed out four days running at Brookline, Mass.

It is the fondest wish of USLTA's top brass that the men's and women's doubles might be transferred permanently to the big plant on Long Island. Only if, and when, that is done will it be possible to stretch the championships to two weeks and claim something like parity with the famous Wimbledon fortnight.

Incidentally, this tennis observer feels the American body pulled a skull in withholding an invitation from Baron Gottfried von Cramm to compete in this year's title event starting on Saturday. There isn't a single European threat in the tournament, and the German veteran, who was one of the world's very best just before the war, would at least have added much color. He wanted to come over.

At the risk of putting the whammy on Cleveland, we would like to call modest attention to the fact that we picked 'em away last spring.

We based this pretty piece of experting largely on the expectation that Minnie Minoza, a semi-rookie from Cuba, would whale the ball at about a .350 clip. The fact that Minnie has done most of his whaling for Chicago does not, in our opinion, detract from the brilliance of the section.

An expert baseball picker, like a good horse player, must learn to allow for every contingency, even to the trading off of the league's best hitter for a left-handed relief pitcher.

Ever since the race to become

Happy Chandler's successor began in earnest, it has been said and frequently emphasized in some quarters that Ford Frick, president of the National League, didn't have a chance at the commissioner's job because "those American League fellows wouldn't have him."

Now, one of the reports from Tuesday's meeting here is that Frick showed more strength in the rival league than in his own, and that, as a result, he is a very strong contender. Frick told this writer months ago, and with great earnestness, that he didn't want the big job, but evidently he has expressed willingness to be drafted.

The owners would make no mistake in choosing either him or Warren Giles of the Cincinnati Reds. Both are smart, able baseball men, and neither of them can sing a lick. That would help.

### Forest Hills No Longer Girl Show

NEW YORK — (AP) — No more Follies Bergere on the tennis courts. Patrons attending the national championships Saturday at Forest Hills will have to take their tennis straight.

That was the edict handed down today by the sedate fathers of the ancient sport who are horrified by the growing trend toward lace panties, low neck lines and other fashions that accent feminine charms.

"A few innocent kids have been falling for caring tennis costumes designed purely for commercial reasons," said Russell B. Kingman, president of the U. S. Lawn Tennis Association.

"It's time this was stopped. What we want, and now insist upon, is more good taste, with

emphasis on competition instead of questionable fashion displays." The girls, Kingman said in effect, must impress the customers with drop-shots and half-volleys instead of dropped necklines and half-skirts. No more emphasis on the well-turned feminine calf.

The "lace panty" era was ushered in by Gertrude (Georgous Gussy) Moran, who showed up at Wimbledon three years ago with a lacy fringe peeking out from under a ballerina skirt.

The curvaceous lass then proceeded to parlay a good forehead and a scanty, shimmering wardrobe into some \$30,000 on the professional circuit.

This year Beverly Baker, 21 and attractive, brought gasps from the Wimbledon crowds with equally daring attire.

"It was enough to convince me that it was time to return to more conventional apparel," Kingman said.

### Sinton Wins Second Round

WICHITA, Kas. (AP) — The Sinton, Texas, Oilers advanced into the third round of the National Semipro Baseball Tournament undefeated last night by beating the highly regarded Lafayette, Ind., Red Sox, 5-3.

It took a three-run eighth inning rally for Sinton to win. The Indian team scored five runs in the seventh inning to take the lead.

Earl York homered twice for Sinton.

The Fort Wayne, Ind., Capaharts, defending champions, make their first start tonight.

They play the Perryburg, Mo., club in the final game of a five-game card. Fort Wayne has won the national title four years.

### Green Sox End Season In Loss

SHAMROCK — (Special) — Shamrock's Green Sox ended the baseball season at Briscoe Sunday by losing, 14-5. It was the eighth loss against six wins and gave the Irish Sox a percentage of .428 for the 1951 campaign.

Briscoe, one of the toughest crews in the East Panhandle League, also beat the Sox earlier at Shamrock and came in at the head of the "loop."

Bobby Close pitched the earlier innings for the Green Sox and then J. D. Cook came in to finish the battle.

Jimmy Tallant, Sox second sacker, slugged a triple to lead the Sox batting parade.

Shamrock defeated Allison Wheeler, Kelton and Miami during the season, but were lassoed by McLean and Mobeette twice, while the Briscoe crew also defeated the Sox twice.

Fernand Rushing piloted the Shamrock team this season.

At the risk of putting the whammy on Cleveland, we would like to call modest attention to the fact that we picked 'em away last spring.

We based this pretty piece of experting largely on the expectation that Minnie Minoza, a semi-rookie from Cuba, would whale the ball at about a .350 clip. The fact that Minnie has done most of his whaling for Chicago does not, in our opinion, detract from the brilliance of the section.

A Little Wait—or a Big Compromise!

Standard equipment, accessories and trim illustrated are subject to change without notice.

If you have a Cadillac on order—or if you are giving thought to placing your order for one—we want to talk frankly with you about the matter.

There is, of necessity, some delay in delivery of new Cadillacs. You have to wait a while to get one—the time depending somewhat upon the model you select.

Naturally, you are being urged to purchase other makes of cars—which can be had almost as soon as your signature is on an order blank.

For the sake of your own welfare, we hope you will turn a deaf ear to all this—and hold firm.

If your order for a Cadillac is already in—let it stand, and be patient until your car is ready.

If you want a Cadillac, but haven't yet ordered it, do so at once—for the longer you delay in ordering, the longer you postpone delivery.

It is a simple choice you have to make. You must choose between a little wait—or a big compromise. You must make this choice because there is no substitute for a Cadillac.

There is no substitute for the deep world-wide respect in which it is held—

—there is no substitute for its marvelous overall performance... so smooth, so quiet, so steady that to drive is to relax and to ride is to rest—

—and there is no substitute for the sheer joy of owning and driving it, so great that you will actually think up excuses for taking to the highway!

Yes, if you want a Cadillac—and you know that you do—stand firm until you get it.

There is nothing else like it—nothing in all the wide, wide world that can take its place!

The Pampa Daily News

One of Texas' Two Most Consistent Newspapers

Published daily except Saturday by The Pampa News, Pampa, Texas, at \$2.00 per month...

Bureaucrats Promise Much More Inflation

We can't help wondering what citizens who are living on fixed incomes — the people who saved through their working years to provide for their old age...

It is preparing now to issue a large amount of new federal savings bonds and to launch new series of deficit spending...

How far the administration will force the dollar downward is anybody's guess. It can do just about as it pleases in this respect...

We mentioned wondering about elderly people with fixed incomes because these are hardest hit by dollar shrinkage. The savings they banked over a period of years to provide food, shelter and clothing...

Private economists and government statisticians juggle varying estimates of the comparative value of the New Deal dollar...

The man of mature character is one who has learned to subordinate his passions and his impulses to certain spiritual standards...

The book I've been writing about for some strange reason, is a digest of the lectures and papers at the 16th annual INSTITUTE OF INTERNATIONAL RELATIONS AT WHITTIER COLLEGE...

Apparently the New Dealers, including such recent converts as Charles E. Wilson, think the American people are so drunk on phony dollars and the make-believe prosperity resting on top of the biggest national deficit...

Howard (Sparks) Dodge is the salesman's name and he's known from Chicago to New Orleans for the magic he performs.

Sparks, you've probably guessed, is an amateur magician in addition to being a salesman well-versed in "word magic."

For years I've been urging salesman to "find the uzle" to find success and Sparks not only is an apt hunter when it comes to finding the right sentence to interest and sell his customers...

At this point Sparks would take the magazine cover back from the prospect, go through a number of rapid movements and end by folding the cover so that a duplicate of the card held by the prospect appeared.

Then, while the customer was still laughing, Sparks would make still another fold so that his own business card would appear and begin to tell his story.

Usually this story began with the statement that Dodge's magazine could work magic, too.

Baxter's Views

By DAVID BAXTER

THE BOOK THAT came into my hands has a nice, bright red cover. Its title is "America's Responsibility Toward the World in Revolution."

"The U. S. is now regarded as the imperialistic country in the world (particularly in China). Many feel that the reservoir of good-will toward the U. S. is running dry because the U. S. supports the wrong government abroad and tolerates racial and economic injustices at home."

"There will be no revolt against Communism in China. The Chinese people are accepting Communism."

"Russia has the historical tradition of invasion from the west. She has no defensible frontier, he complains constantly to invaders."

"Kalinoff continuously expressed Russia's devotion to peace and universal disarmament."

"Soviet policy since World War II has been to hold what they have and to develop a powerful military force to defend it."

"We must decide what we are stopping Communism for. What will we do? The only advocates for Korean independence in the last 40 years have been the Communists."

"The United States had 24,000 troops in Korea. The Soviet withdrew her troops first. The U. S. refused to withdraw until she finally withdrew. The moral force of her opinion no longer gave the U. S. a choice."

"If the U. S. loses and Russia wins and American military and political leaders are tried as aggressors in the World War, then ten hours will be long."

"The U. S. should make overtures to Russia as we have overlooked the subtle ones made by Russia for the past year and a half."

"The United Nations fails to deal with individuals; there is a minimum of justice; it passes resolutions, it condemns, it flouts them; it tries to create peace by going to war; the only answer is world government."

"The Chinese react enthusiastically to the Communist. They refuse to accept the Communist government quickly; they can't wait 300 years for 'free enterprise.' This is the strongest government since 1949."

"Recognition of Red China by the U. S. does not imply approval of government methods. We will recognize China when the proper moment again arrives."

"Russia must belong to China."

"I am not suggesting the adoption of that Communist line — but it's spirit is a spirit we need to have. The world is in a state of fundamental beliefs was the characteristic of the power of the early Christian church."

"The wage war was caused by the refusal to implement the concept that the people of the U. S. have a right to the use of collective bargaining (Merchants and Manufacturers Assn., the Neutral Laborers Assn., the American Farmers, Management refused to permit labor to organize and bargain collectively and used abusive methods to suppress the rights of labor."

"The only encouragement of freedom in Korea for the last 25 years of the Japanese occupation were the Communists, who worked in the farmers and industrialists. Half the Communists are dead. There is something terribly right about communism."

"The above quotes are but a few samples of the exact words which they came from. This is quite a book, all right, and I thought I'd mention it by way of public information."

"COMMUNIST PROPAGANDA" someone will say. Bless Best! What a suspicion. Why certainly such a fine private-enterprise institution as Whittier College, at Whittier, California, wouldn't lend itself to such a thing. This school was built and is supported by honest people who have made their money under the established American system of free enterprise...

Better Jobs

By R. C. HOILES

"The Way To Security" IV

I want to continue to quote from the book "The Way To Security" by Dr. Henry C. Link and published by Doubleday & Co., Inc. Dr. Link is a student of moral principles and how government should be limited.

Under the chapter "Security through Education and Personality" Dr. Link observes: "Why should our extensive system of public education fail to develop the personality as well as the mind? This problem is of utmost importance to every student and parent, because an effective personality is basic to sound mental health and security..."

"If they wish to develop mature characters they must rely on their families and the church. Inadequate though these may be, they are still far superior to the forces of public education. Indeed, since the training of character must be largely based on religious principles, the public schools cannot do this training properly even if they would. Religious education is, for certain reasons, not compatible with secular education."

Then Dr. Link relates that: "The net result of our modern system of secondary education was revealed by a study of secondary schools in New York State. This study was made over a period of three years by a large body of the nation's leading educators, under a grant of a half million dollars from the Rockefeller Foundation. The director of the survey, Luther Gulick, summed up his findings as follows:..."

"The inquiry found, in spite of the fact that New York's schools are as good as those in other states, that we are turning out of school a vast number of boys and girls each year who are ill-prepared for adult life. They have no idea what work means, what sorts of opportunities there are, how to look for work, or how to work when they get a job. They are not prepared to be useful citizens and to enter community or home life. They do not know how to take care of their own bodies or minds. Few have imprinted in them any seeds of individual inner life and growth, any skill in working with others, any protections against mob hysteria, propaganda, shallow prejudice, or economic gold bricks."

"We of the inquiry submit that America cannot be governed satisfactorily or administered industrially in the days that lie ahead on the basis of the kind of schooling that is being given to our boys and girls now receiving."

"The school products described in this summary are perfect prospects for those who preach the doctrine of Communism and class hatred. They are the perfect products of the politicians who promise them a security which they have not earned. They are the easy victims of the labor leaders who induce them to hold their jobs, and they cannot keep by their own merits."

Under the chapter "The Mature Character" Dr. Link writes: "Much has been said in recent years about the mature mind, emotional maturity, and the mature personality. Less and less has been said about the mature character. The concept of character as a petty character development was once the focal point of education. Today this concept has all but disappeared from our thinking."

"Am yet, no matter how we approach the subject of security, we find character as its basic ingredient. Security is no more possible without character than life is without air, or a building without a foundation. Character is the foundation of security in the individual, in the family, in the community, the nation, and in the world of nations."

"The man of mature character is one who has learned to subordinate his passions and his impulses to certain spiritual standards...

Me And My Shadow

FAIR ENOUGH--PEGLER

By WESTBROOK PEGLER

NEW YORK — Martin Dies, who pioneered the fight against the Communist treachery and then suddenly dropped out of politics, has taken the case of the Marshall girls, Texas, in their revolution against the social security tax on household help.

"The school products described in this summary are perfect prospects for those who preach the doctrine of Communism and class hatred. They are the perfect products of the politicians who promise them a security which they have not earned. They are the easy victims of the labor leaders who induce them to hold their jobs, and they cannot keep by their own merits."

Under the chapter "The Mature Character" Dr. Link writes: "Much has been said in recent years about the mature mind, emotional maturity, and the mature personality. Less and less has been said about the mature character. The concept of character as a petty character development was once the focal point of education. Today this concept has all but disappeared from our thinking."

"Am yet, no matter how we approach the subject of security, we find character as its basic ingredient. Security is no more possible without character than life is without air, or a building without a foundation. Character is the foundation of security in the individual, in the family, in the community, the nation, and in the world of nations."

the Supreme court. Campbell can deny a hearing on the application and just turn it down flat. After all, the Treasury realizes that this law is a turkey and Campbell knows that Dies will be making political medicine for his own candidacy. Naturally, as an administration man, the collector can't be expected to oblige Mr. Dies.

But it will not take Dies long to get the case into court and there he can swing out into space and use the honorable court for a political rally.

"We will charge that the Treasury has been guilty of embezzlement of all this money as it has been used to pay the bills of the Marshall girls already have sent the Treasury to terrible bother and considerable expense and have kicked up a favorable press. Nevertheless, the Treasury has momentarily put them behind the eight-ball by levying on their bank accounts for a petty amount. John Snyder, the secretary of the Treasury, realizes that Congress gave him an unenforceable law to administer so he didn't dare apply the criminal penalty but went after the money by attachment. Then the Marshall girls got hold of Dies, and Martin, who is just getting hot in his campaign, hurried over to East Texas to see them.

Now Mr. Dies is going to file an application with Ellis Campbell, Jr., of Dallas, the collector of internal revenue for the district, demanding the return of the money. He will also demand public hearings of the arguments which would give him a chance to sound off against the constitutionality of the social security tax on employers and the withholding process generally. Campbell undoubtedly will refuse to give up the money and Dies then will go into the district court as the first step toward

particular company that the President is interested in. Congress would have just as much right to say 'you have got to buy a brand new automobile for that employee and you have got to buy it from a certain company.' We are going to subpoena the records of the collector's office and show that the law is practically a dead letter in Texas. They would have been glad to say nothing about the case of the ladies in Marshall but those ladies just wouldn't be still. They insisted on a test. Snyder tried to duck the test by commiserating their money."

Two Treasury agents recently spent a whole day serving 57 legal papers on two Marshall banks to seize petty amounts from each of 19 bank accounts. They drove a total of about 170 miles to do this and before that actively began there had been a squall of correspondence, and doubtless long-distance calls, too, between the Treasury in Washington, and the collector's office in Dallas, and sub-offices in Tyler and Longview. And, of course, a clerical work has been necessary, too, to fill out the papers. One desperate revolutionist, Mrs. Janie Pitts (all these married women perform clerical work as tax collectors against their will, which is involuntary servitude, a crime without pay. That is unconstitutional and they know it. They are scared to death of this case because the whole withholding process will come down in the crash. They are never going to get the criminal penalties. A half of the housewives of Texas Miss Janie Pitts for \$3.47 and she brightened a year.

Four times a year all this must be repeated, and if Mr. Dies is right about the disregard of the law all over the state, the collapse of the business is inevitable. If a million women disobey and take the pains to advise their defiant disobedience the cost in man-power and money of enforcing it according

hour. They knew enough about wrestling to wrestle, and didn't come out a real winner. Today what do you have for wrestlers? Bearded Joe, the Wild Canadian, Saveless William, the Idaho Indian, Primo Carnera, the Glandular Freak, and a host of others who weigh around two hundred and fifty pounds. But let's get back to the people who attend wrestling matches. I don't think they have bad sense. People who hurry dinner to go to a wrestling match count for nothing in this world. Their heads are completely vacant. Can you imagine a man and his wife hiring a baby sitter so they could make the wrestling match in time? As I said before, the whole thing is framed and that goes for the referee. The referee knows just as well as the wrestlers who is supposed to win.

When I was writing sports in this town I was offered a hundred dollars a week not to write about wrestling. If I just wouldn't mention wrestling I'd get a hundred dollars a week in cash. I needed the one hundred dollars badly, but I figured it would be a high price to pay to walk along Broadway and have some jerk say the suit I had on really belonged to him or her.

If any wrestling promoters question what I'm talking about, I promise to produce a wrestler who will ship, and easily, any of the so-called wrestling stars of today. There will be no theatrics, no phony business, but just plain, knowing wrestling. I can take the average college wrestler and whip most of the fakes who are wrestling today, and I'll bet on it, too.

Most wrestlers work under a trust that is a complete monopoly. They are hired and they work under a schedule as rigid as that of the Pennsylvania railroad. Flying tackles have nothing to do with wrestling. Neither does the billy goat butt. I have yet to see a wrestler hurt. They are hired tumblers who know just about as much about wrestling as I do.

It's the customers who fascinate me. They take it seriously. Women scream and leap and jump. Men boo and yell. Every match is rehearsed. There isn't an honest wrestling match staged once a year in this country.

Once saw an honest wrestling match in which Strangler Lewis met somebody whose name I don't remember — I think it was Jim Brooming — and neither one touched the canvas for almost an

hour. They knew enough about wrestling to wrestle, and didn't come out a real winner. Today what do you have for wrestlers? Bearded Joe, the Wild Canadian, Saveless William, the Idaho Indian, Primo Carnera, the Glandular Freak, and a host of others who weigh around two hundred and fifty pounds.

National Whirligig

By ROGER WARREN

(Ray Tucker is on vacation)

WASHINGTON — Republicans in Congress are trying to make a record for economy in view of the fact that a housewife now spends \$3.21 in marketing for food that would have cost her only a dollar in 1939.

The recent fight to slash the Foreign aid bill and to trim the regular budget won public attention everywhere. But simultaneously with making current newspaper headlines on savings, GOP strategists here are storing up ammunition on other subjects for the election campaign which will run with accelerating speed from now until November 1952.

The Republican National Committee and the special Senate and House campaign committees have turned out to win the Presidency but they must also regain both the Senate and the House. Otherwise the new man in the White House might suffer the fate of Herbert Hoover, whose hands were tied by a hostile Congress, even though the nation was sliding into the great depression.

UNDERDOG — Chairman Guy George Gabrielson and his bullet-molders are determined to engage in a slugfest match with the Democratic Dewey, convinced that he had it in the bag, sincerely fearful that a bitter campaign would disunite the nation on the eve of possible war. So he talked brotherly love. Truman on whistle stop trips talked more like an alderman in a walk rough-and-tumble — and walked off with the championship belt.

GOP strategists theorize that in a given year the bulk of the voters either vote strongly for someone or violently against him. They argue that the public voted against Hoover in 1932 and for Truman, the underdog, in 1948. They think Truman's popularity is at low ebb, so they will keep on belting him.

ATTACK — Some may say that they blasted Roosevelt again and again and again but the attack method did not pay off. The explanation offered is that they unwisely slammed him for things the public approved of — Social Security, WPA, labor legislation, farm aid. They plan to plaster Truman with the corruption and communism issues — two conditions which decent and loyal rural-of-the-mine voters certainly abhor.

The Senate Crime Investigating Committee has just ended its public hearings in which racketeers, gamblers and other scum were exposed. It will make its final report around Sept. 1 and recommend legislation. This will furnish the GOP with a textbook on crime issues.

By no means were all the underworld's big shots examined. Some other probe is bound to be suggested to find missing witnesses and other malefactors.

GRAFT — Republican spokesmen will soon crosscut the country to the Marshall (Tex.) plan will dramatize the most important public protest since the day of the bootlegger.

The Dallas News endorsed the course of the Marshall girls in these terms: "The courageous Marshall housewives who are making their own security merit every assistance in making the attempt. No injustice is cured by being covered up. To the Marshall housewives, patriotically taking the brunt of the test, salute!"

The Marshall News-Messenger said: "Support for a small group of Marshall housewives is snowballing from all corners of the nation. There is evidence that they are receiving silent support from thousands who are simply ignoring the law and filing no report, neither serving as tax collector."

The Shreveport Times said: "The Marshall housewives deserve a lot of attention, a lot of respect and a lot of help. They are fighting in behalf of all housewives — of all taxpayers, in fact — all over the nation. More power to them!"

# The Pampa Daily News Women's Activities

PAMPA NEWS, THURSDAY, AUG. 23, 1951 PAGE 13

## Final Square Dance Jamboree Is Scheduled For Slab Saturday Night

All square dancers of Pampa and surrounding towns are expected to attend the final jamboree on the slab at Hobart Park at 8:30 p.m. Saturday. Special feature will be the grand march and presentation of prizes. The grand march will be at 9 o'clock.

Clem Followell will be the floor manager and many of Pampa's callers will call their favorite squares for this last dance of the season.

Square dancing has proved a favorite form of recreation for many this summer. Out of town guest callers and dancers have added interest and variety to the dances. States and towns represented were Missouri, Kansas, Arkansas, Oklahoma, Maryland, Chicago, Ill., and White Deer, Abilene, Wellington, Groom, Shamrock, Canadian, and Spearman, Tex.

Most of the square dance clubs bore on the slab at Hobart Park at 8:30 p.m. Saturday. Special feature will be the grand march and presentation of prizes.

Those present were Buddy Cockrell, Lee Fraser, Don Nelson, Richard Qualls, Terry Forrester, Bunky Fannin, Jean Martin, Richard Radcliff, Jackie Weathered, and Mr. and Mrs. Leslie Hart.

of Pampa helped form this Summer Square Dance Club. This club sponsored lessons and dances for the teen-agers every Friday evening. Bob Sumrell, instructor and caller of Abilene, conducted a series of lessons for adults and called for one Saturday night dance.

All profits from the gate receipts and sale of cold drinks made this summer will be given to the city to help pay for the cost of construction of the Slab in Hobart Park. This slab serves a dual purpose, for tennis courts and square dances.

In case of rain the Saturday night dance will be held in the Parish Hall at 8:30.

## Wrights Entertain For German Boy

Dr. and Mrs. T. J. Wright, 1337 Williston, entertained Tuesday night for Dieter Umbach, the German boy who is staying in their home this school year to attend Pampa High School.

About 12 teen-age boys were present for the informal party in the back yard of the Wright home. After dinner, the boys played games.

Those present were Buddy Cockrell, Lee Fraser, Don Nelson, Richard Qualls, Terry Forrester, Bunky Fannin, Jean Martin, Richard Radcliff, Jackie Weathered, and Mr. and Mrs. Leslie Hart.

of Pampa helped form this Summer Square Dance Club. This club sponsored lessons and dances for the teen-agers every Friday evening.

All profits from the gate receipts and sale of cold drinks made this summer will be given to the city to help pay for the cost of construction of the Slab in Hobart Park.

In case of rain the Saturday night dance will be held in the Parish Hall at 8:30.

## Pre-Nuptial Shower Is Compliment To Miss Delva Sheedy

A pre-nuptial shower at the Phillips Community Hall recently honored Delva Sheedy, bride-elect of Winslow V. Heath.

Members of the Hobby Club and PBX operators were hostesses. The honoree and her aunt, Mrs. G. L. Howe, were presented corsages of white Marconi daisies tied with blue ribbon.

Blue and white, chosen colors of the bride-elect, were also used on the serving table. Blue wedding bells were attached to the white linen cloth and white candles in crystal holders flanked the floral arrangement of blue delphinium and Marconi daisies in a crystal bowl.

Assisting the honoree with the gifts was Mrs. George Howe, Irene Heath and Mrs. John House.

Mrs. Louise Brummett presided at the punch bowl and Mrs. Joe Stone served the three-tier wedding cake.

Mrs. Vern Savage greeted the guests and Mrs. George Parks presided at the guest book.

If you are an adult and weigh about 175 pounds, in 24 hours you give off in heat 85.6 degrees Fahrenheit.

## Firemen's Auxiliary To Elect Officers

The Firemen's Auxiliary met in the home of Mrs. Oscar Brothers, 508 E. Foster, the president, Mrs. W. A. Claunch, called the session to order.

Mrs. Charles Winborne gave a treasurer's report. Refreshments were served to Mrs. Roy Franke, Mrs. Eddie Cox, Mrs. Albert Fuller, Mrs. Carl Summers, Mrs. Elmer Darrell, Mrs. Tom Haggard, Mrs. Vernon Finkle, Mrs. Charles Winborne, Mrs. W. A. Claunch, Mrs. Oscar Brothers, Mrs. Ernest Winborne, members, and one guest, Mrs. Joe Trussell.

The group will meet with Mrs. W. A. Claunch as hostess on August 30, when officers will be elected. New secret pals will also be drawn and gifts exchanged.

CALL LETTERS ADOPTED OMAHA — (P) — The internal broadcasting system at the Omaha Veterans Hospital has adopted the call letters K V I M. The letters stand for: "Keep Veterans in Mind."

## Job Placements In Texas Take Jump

Job placements in Texas during July climbed to a new post-war peak of 85,428, according to an announcement today by the Texas Employment commission.

The placement of women, which represented 33.3 percent of the total placements made by TEC, dropped 288 to a total of 14,452. The drop was evenly distributed between manufacturing and non-manufacturing industries.

While the number of women placements were down, veteran placements climbed to 11,558, nearly 800 above the June level. Male non-veteran placements picked up to 991 to reach 25,931, TEC said.

## New Fall Beauty Tips Given For Ambitious Teen-Agers

By ALICIA HART  
NEA Beauty Editor

It's easy, when you're in high school, to drift along as a part of the crowd, not giving much thought to developing yourself as an individual. Then it's the summer after graduation, and suddenly, with the tang of autumn in the air, you realize that phase of your life is over. From here on in, you're a person in your own right.

This is what happened to two girls we shall call Betsy and Barbara Baker, the summer they were eighteen. Quite abruptly it became apparent that changes were in order if each was to fit successfully into the next stage of her life.

In Barbara's case, this meant a job. Typing and stenography had appealed to her as classroom subjects; she was anxious now to take a crack at the real world of business.

Betsy, however, had other ideas. College sounded to her like the perfect sequel to high school. Although the girls are identical twins, each has been encouraged since infancy to do her own thing.

**FRANK F. FATA**  
Equitable Life Insurance  
for PLANNED Security  
Phone Res. 500C  
Bus. 4444

In making themselves over to fit their September plans, their first step was to take a good look at themselves.

What they saw was not to their liking. Without actually thinking about it, they'd just gone along with the high school fads. They jangled with charm bracelets and dog-leash belts, they dazzled the eyes with the luminous beanie their club had adopted just for fun.

These things were not in very good taste, they'd realized from the very beginning, but it was part of group-belonging to wear what everybody else was wearing.

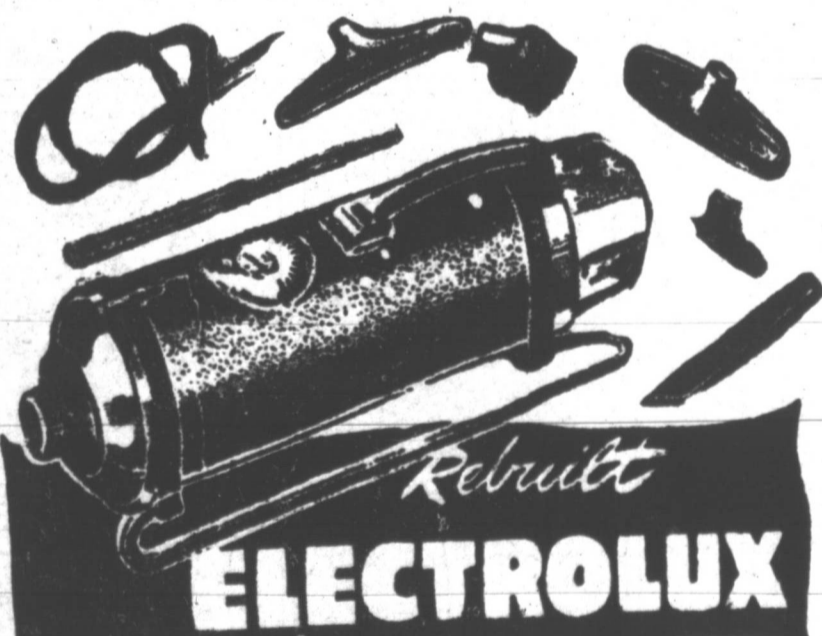

There were other things wrong, too. They'd never worried too much about the fit of their clothes. Although they were petite, which meant that often their sleeves were too long and their shoulder lines drooping, they were inclined a bit to plumpness. If they were to look really well turned out from now on, both these factors would need consideration when they went shopping for clothes.

Like a great many other teenagers who feel themselves on the verge of maturity, they'd overdone the sophistication a bit on occasion, too. This consisted mostly of applying cosmetics with a hand more enthusiastic than skillful.

In considering their appearance faults frankly and honestly, both girls realized make-up was a major problem, one that would re-

### Happy Is The Day When Backache Goes Away . . .

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritation due to cold or wrong diet may cause irritating urination or frequent passages. Don't neglect your kidneys. If these conditions bother you, Try Doan's Pills—a mild diuretic. Used as casually by millions for over 50 years, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

### Money To Aid West German Papers

FRANKFURT, Germany — (AP) — The U. S. high commission disclosed today it is lending 15,000,000 marks (\$3,570,000) to help "Democratic" West German newspapers achieve financial — and thus editorial — independence. The money will be advanced to a German publishers organization called "Economic Press Cooperative" to be used as loans to deserving papers. The plan was revealed in a review of the West German press in the April-June quarterly report to the state department by Commissioner John J. McCloy.

"So you're the one she's been drooling over all week!"

### Mama Back In Overalls

By HAL BOYLE  
NEW YORK — (AP) — Rosie the riveter is more likely today to be a Mrs. than a Miss. Why are American mothers swarming back into defense factories again in numbers reminiscent of World War II days? In the last war many women felt it was a patriotic duty to go to work in defense industries. Now many feel that way again. Others want to earn money to get more luxuries for themselves or a better deal out of life for their children.

"I guess with most of us it is a mixture of patriotism and a desire to help out our families," said Mrs. Margaret L. Packer. Mrs. Packer, a pleasant-faced, hazel-eyed woman of 42, has five children. She looks and talks like any average housewife, and she is typical of millions of mothers who now are working again in America's expanding defense plants. "Two thirds of the women in the plant I work in are married," she said, "and of those, two-thirds have children under 14."

She has two married daughters and a son, Donald, who is in the Navy. Still at home with her are two younger daughters, Verna, 14, and Donna, 4. Mrs. Packer is employed by Pratt & Whitney aircraft plant at Hartford, Conn. She worked there from 1942 to 1945 as a lathe operator. She was pleasantly surprised, when they called her last May, to find they wanted her for a better post. Women were being hired on exactly the same basis, and at the same rate of pay, as men. In the plant that employs her one out of every three machine operators is a woman, the same ratio as in the last war. Mama is back in overalls again—for the duration.

### Some Think Russia Will Sign Treaty

TOKYO — (AP) — There is a growing belief in this country that Russia will do the unexpected and sign the Japanese peace treaty in San Francisco next month. Reliable, if unofficial, Japanese circles express the view that the Russians will sign after putting up a strong fight for inclusion of one major provision. They say the Reds will agree to keeping an American military establishment in Japan — but will demand a definite date for departure. They are opposed to a unilateral treaty between Japan and the United States.

This view was expressed despite threats from the Chinese Reds' Peiping radio that Japan's acceptance of a peace treaty not approved by both Red China and Russia would be considered an act of war. Red China wasn't invited to the peace treaty conference. Soviet Russia accepted after considerable delay. The feeling around Gen. Matthew B. Ridgway's allied headquarters had been that the Soviet delegates enroute to San Francisco are carrying brief cases loaded with monkey wrenches. But Japanese sources predict the Russians will sign the treaty if they can thus prevent a separate treaty between the U. S. and Japan.

The present plan is for the United States and Japan to sign a unilateral treaty as soon as the ink is dry on the treaty at San Francisco. This unilateral treaty would provide for the stationing of American troops — between two and four divisions of ground troops plus an Air Force and a Navy — in Japan until this country is able to defend herself. Russia is believed willing to sign if the provisions of the military establishment are placed in the treaty and a date set for the last American soldier to leave Japan. Failing in this, the Russians may go ahead and sign anyway because of several reasons. Even after the treaty is signed it must be ratified before it becomes effective. Signing would be a surprise and the Russians love to shock the diplomatic world. Another reason for believing the Russians will sign is that they have to maintain an embassy here to continue their customary Communist propaganda activity among the people. Throughout Western Europe, the Red propaganda offices are

### Phillips To Build Natural Gas Plant

BARTLESVILLE, Okla. — (AP) — The Phillips Petroleum Co. is ready to start construction at once of a natural gas plant in Midland County, Texas. The firm said the site for the plant has been purchased and surveys partly completed for pipelines and other facilities. The plant is to process about 100,000,000 cubic feet of gas daily, mainly from the Tex Harvey, Germania and Driver areas in Midland and Glasscock counties. The Pacific ocean has an area of 68,634,000 square miles.
