"No only who is able to stand alone is qualified for society. And that I understand to be the end for which a soul exists in this world—to be himself, the counter-balance of all falsehood and all wrong."— Emerson

GIs Fighting "Bouncing Battles" With Commies:

Thousands Of Beaten Reds Stream Northward From UN

TOKYO—(AP)—Thousands of beaten Reds streamed northward in Korea today as allied task forces roamed unopposed over their abandoned "Iron Triangle." Allied tanks and men spilled out over the flat lands north of Chorwon and Kumhwa. They made good advances toward Pyongyang, northernmost point of the triangle, but censors would not permit correspondents to mention the distances.

Rollback For Clothing Is Said Pending

WASHINGTON—(AP)—The government is getting set to order roll back in the factory prices of some clothing.

Laycock To White Deer

After serving seven years as Gray County superintendent of schools, Huelyn Laycock has accepted the position of superintendent of White Deer schools.

The mountain warfare followed a uniform pattern, bouncing from ridge to ridge.

United Nations forces attacked North Koreans, entrenched on hillsides and supported by artillery and mortar fire.

There the same performance was repeated. GI's gave this type of warfare the name "Bouncing Battle."

The ridge climbers drove forward to straighten out the allied battleline. Their immediate objective was to catch up with spearheads probing through the shattered red "Iron Triangle."

While UN patrols uncovered more abandoned stockpiles at the base of the triangle, warplanes hammered at Red efforts to drag equipment out of the top.

Tank-led forces fanned out three miles and more beyond the lines around Chorwon and Kumhwa.

They found and blew up 4,000 rounds of Chinese artillery and mortar shells near Kumhwa. Another large cache was demolished near Chorwon.

Patrols smacked into entrenched Chinese each side of the triangle.

POSTMASTER DIES Dunlap, postmaster here for ten years and associated with his father in publishing the Meridian Tribune, died Monday night of a heart attack. He was 50.

Have your air conditioner serviced by experienced service men. Copper tubing, pads, pumps, etc., for replacement. Bert A. Howell & Co., 119 N. Ward. Ph. 152.

Probe Finds 1 Out Of Each 200 NY Students May Use Dope

NEW YORK—(AP)—Dope probably is used by one out of every 200 students in New York City's junior and senior high schools, William Jansen concedes.

He puts the possible number of school boys and girls addicts at 1,500.

Another 3,500 teenagers not attending public schools also may be habitual narcotics users, Jansen adds.

The school superintendent made his estimate yesterday during more than two hours of sharp questioning by state officials probing narcotics traffic among teen-agers.

Essays by junior high school students, written in the lingo of dope addicts and telling "What I Know About Narcotics," dramatized the first day of public hearings.

Jansen was questioned closely by State Attorney General Nathan L. Goldstein about the superintendent's previous assertion that there were only 154 dope addicts in the schools.

Jansen insisted that the earlier figure represented "known" addicts and that the 1,500 number was an estimate.

Assistant Attorney General Sidney Tartikoff then read police reports about several schools. In each case, more student dope addicts were listed by the police than in Jansen's previous report.

At one school, police reported 20 cases. Jansen had listed only one known case there.

The superintendent said he could not understand the discrepancies and would check with the various school principals.

Jansen added that he was inclined to accept an estimate of 5,000 as the total number of addicts in the state.

Wedemeyer Recommends Bombing Reds' Railroads

TROUBLE FOR THE REDS—Marines, riding the top of a tank retriever, fire their machinegun at enemy forces dug into the fields ahead. Communist rear guards tried to slow the UN's pursuit of the retreating Red armies twenty-five miles north of the 38th parallel. (NEA Telephoto by staff photographer Jim Healy)

U.S. Mum On Atom Secrets But World To Get An Inking

WASHINGTON—(AP)—The United States isn't telling all its nuclear weapons secrets but it is becoming increasingly plain this country wants the world to know what terrific destruction it can drop on an enemy who chooses to start atomic war.

In apparent extension of this policy, the Atomic Energy Commission and Defense Department scheduled a joint news conference today to tell something about the latest tests of the Eniwetok proving grounds in the Pacific.

Those experiments included some first steps in actual field work toward creation of a super-destructive hydrogen bomb of perhaps a thousand times more force than standard atomic bombs.

McMahon, however, refused to discuss the H-bomb at all. The formal announcement of the news conference said only atomic weapons tests at Eniwetok would be on the recent "test."

Those who planned to meet newsmen were Lt. Gen. Edward R. (Pepe) Quezada, commander of Joint Task Force 3 which conducted the tests, and Dr. Alvin C. Graves, scientific deputy commander. Both men met with the congressional committee yesterday to discuss the tests.

There were reasons to believe that more might be said today about this series of experiments.

White Deer Fund Jumps Local Summer Youth Program Starts; Registration Monday

Money for the White Deer disaster fund continued to roll in today as contributions jumped to \$3,803 in the sixth day of the fund-raising campaign.

The following contributions were reported today from the Citizens Bank & Trust Co., the headquarters for the drive:

- Eloise Lane \$10 Mrs. J. S. Carter \$20 W. A. Davis \$10 Malone & Keel \$25 C. H. Mundy \$10

Indications were today that Pampa churches would raise money and send to the various denominations in White Deer. The First Baptist Church here collected \$1,150 that will go direct to the Baptist Church in the disaster city.

Minister Denies Death Of Soldiers

PUSAN, Korea—(AP)—Korea's vice defense minister today flatly denied reports that 50,000 Republic army trainees had died of inhuman treatment and disease.

"It's absolutely untrue," said Chang Kyung Keun. "It's a distorted report."

Chang said fewer than 700 died in army training up to the end of March. Health minister Oh Han Yung said 263 trainees had died of injuries and ailments since April 1.

Concedes Manchurian Attacks Might Torch Off A World War

WASHINGTON—(AP)—Lt. Gen. Albert C. Wedemeyer recommended today that the United States bomb the Manchurian railroad controlled jointly by Russia and Red China. He conceded it might touch off a world war but said that "calculated risk" should be taken.

Testifying at the Senate's MacArthur inquiry Wedemeyer said he recognized such action to carry the Korean fight to Red China "might result in a war." He added: "It is a calculated risk that personally I would recommend we accept."

Wedemeyer supports generally the proposals of Gen. MacArthur to bomb Manchurian bases and supply lines. And he named the railroad as a proper objective for attack.

But in response to questions by Senator Kefauver (D-Tenn) he declined to specify what cities, supply depots and arsenals he thinks should be targets.

Wedemeyer said only the commanding general in the field could make such decisions. "If I occupied General Van Fleet's position, I could answer that question intelligently and immediately," Wedemeyer said. "But I cannot answer from this position. I am not acquainted enough with the situation in that area. The military commander there is."

Lt. Gen. James A. Van Fleet is the U. S. commanding general in Korea. Kefauver noted the Soviets these bases would be an "act of war against the Soviet Union."

"No sir," Wedemeyer said. "Kefauver noted the Soviets have joint control of the Manchurian railroad."

Wedemeyer said that when the Russians shot down a U. S. naval plane in the Baltic area several years ago "our investigations proved conclusively that our naval bomber was not over Soviet territory at all."

"However," he added, "it was shot down by Soviet planes and that was tantamount to an act of war or could be interpreted as such."

Earlier, Wedemeyer told the senators his four State Department advisers in China in 1944 and 1945 were "very critical" of the Chinese Nationalist government but made "favorable" reports on activities of the Communists.

Wedemeyer, U. S. commanding general in China at the time, said the four advisers were John Davies, John Service, Raymond Liden and John Emerson.

For the third day, Wedemeyer was in the witness chair at the Senate inquiry into the dismissal of Gen. MacArthur from his Far Eastern commands. Many of the questions concerned conditions and events in China as World War II came to an end.

Wedemeyer stated that MacArthur, as Pacific commander, gave him an order against letting the Chinese Communists have any of the weapons taken from the Japanese who surrendered in (See HOMBING, Page 2)

Chamber Airport Group Accepts Recommendations

The chamber of commerce airport committee late this morning accepted a recommendation by its advisory group to proceed with attempts to develop the northwest field at a cost of \$155,700.

In addition, the committee to day tackled on development of the airstrip at McLean to make a grand total of \$168,700. These figures will be presented to the chamber's board of directors at a special meeting Thursday morning for approval. From there, if approved by the board of directors, it will be built into petition form to be signed by at least 280 eligible voters and presented to the county commissioners court for the purposes of calling a special bond election.

All of the estimates, drawn up several months ago by engineers, were kept intact except the engineering costs which were cut from \$15,000 to \$10,000.

Development of the northwest field becomes a reality it will be during CAA's fiscal year of July 1, 1951 to June 30, 1952—the same day the present lease here today for a day-long conference on the role of the churches in civil defense.

Millard Caldwell, civil defense administrator, James J. Wedemeyer, his deputy, and other government officials were scheduled to outline civil defense planning.

Mary Grace Noland Funeral Services 4 P.M. Thursday

Funeral for Mrs. Mary Grace Noland, 59, will be held at 4 p.m. Thursday at the First Baptist Church with Rev. E. Douglas Carver, pastor and Dr. Douglas E. Nelson, pastor of the First Presbyterian Church, officiating.

Mrs. Noland died Tuesday night at a local hospital. She is survived by her husband, W. T. Noland, west of Pampa; five sons, C. R., Caracas, Venezuela, W. A., B. E., W. J., all of Pampa, J. P., Phillips, two daughters, Mrs. C. C. Campbell, and Mrs. Lloyd Taylor, both of Pampa; 16 grandchildren and two great-grandchildren; five brothers, Mark Barbee, Call City, Okla., L. W., Casper, Wyo., Ben Plainville, Kans., Jake, Odesa and Harry, Prague, Okla.

Mrs. Noland had been a resident for the past 20 years, moving here from California. Most of her life was spent in Bartlesville, Okla.

Funeral services will be John Hill, Roy Kretzmer, Noel Dalton, G. W. Boyles, A. J. Kirkham and E. F. Fuller.

Interment will be in the Fairview Cemetery under the direction of Duenkel - Carmichael Funeral Home.

Religious Leaders Plan Civil Defense

WASHINGTON—(AP)—More than 100 religious leaders gathered here today for a day-long conference on the role of the churches in civil defense.

Millard Caldwell, civil defense administrator, James J. Wedemeyer, his deputy, and other government officials were scheduled to outline civil defense planning.

Let's go Evinruding. Lewis Hardware—adv.

Texas Cities Roll Out Long Red Carpet As Mac Starts Whirlwind Tour

AUSTIN—(AP)—General Douglas MacArthur comes to Texas today and his whirlwind visit to six cities may be the beginning of a "grass roots" campaign for his Korean war policy.

What the five-star general will say in five speeches in four days is still a secret. He makes the first today (3 p. m. CST) on the steps of the state capitol, before a joint session of the Texas Legislature and a crowd figured to number 50,000 persons.

From here he flies to Houston, then goes to Galveston, San Antonio, Dallas and Fort Worth, making speeches in each of these cities.

He'll fly to Houston tonight, spend the day there tomorrow with a side trip to Galveston, Friday he'll go to San Antonio and Dallas and will go to Fort Worth Saturday morning, then fly back to New York City.

Mainly About People

Mrs. C. W. Lawrence, 1617 Mary Ellen, visited her husband last weekend in the Canyon Sanatorium in Dallas. His condition is slightly improved.

Mrs. G. A. Bynum has returned to her home in San Diego after visiting her daughters and families.

Rites Friday For Father Of Pampan

Funeral for W. L. (Fubby) Boyles, formerly of Pampan, was to be held at 2 p. m. Friday at the St. George Presbyterian Church with Rev. James G. Glenn officiating.

BOMBING ROLL BACK Vital Statistics

(Continued from Page 1) China. He said the purpose was to see that the former Japanese arms went to Chiang Kai-shek's central Chinese government.

Service, one of the four advisers, was among the individual targets of the attacks last year by Senator McCarthy (R-Wis.) of the state department.

Hickenlooper asked Wedemeyer whether any of the four State Department representatives had an attitude which appeared to be one of antagonism.

Wedemeyer replied that he had "received from those four gentlemen written memoranda and oral reports indicating or embodying disparagement against the central government."

He said these reports were "very critical of the leader, Chiang Kai-shek, and his assistants." He said there were "currently favorable reports concerning the conditions in Yenan, which they from time to time would visit, Yenan being the center of the Chinese Communist movement."

Whether or not — you used the term, senator, "undermined" — and whether or not that was their intention, I couldn't state that was to undermine the central government.

He said the reports I received were very derogatory against the Chinese Nationalist government.

Goldstein also was critical of what he called the schools' failure to meet the dope threat to school children.

"I don't it true that many pupils know much more about narcotics than the school teachers?" Tartikoff asked.

"They may know more about the use of them," replied Jansen.

As if to answer the adult officials, four essays by anonymous high school students were read into the record.

"I know there is about 4 ways you can take it (dope) which I have seen," wrote one nint-grader.

"Smoking, liquid, injecting and sniffing a powder form. Some of the boys and girls I know sell it. Many of my friends say that it makes them feel good."

Another wrote: "It sometimes happens when you are at a party. After the feeling you got from the first puff (of marijuana), you take another and then another ...

"By this time you are finished with one stick or bomber, whichever you want to call it. You ask your friend for another."

MINISTER'S WIFE TELLS HOW HADACOL WAS SO HELPFUL

HADACOL Helps Folks With Weak, Run-Down Conditions, Poor Appetite, When Caused by Deficiencies of Vitamins B1, B2, Nicotin and Iron.

A weak, run-down condition can make life mighty drab for folks who feel that way. Imagine not having a good appetite. Loss of weight and energy often accompany this condition.

Mrs. Longaker "I am a minister's wife and am 39 years old. I'm run-down, lost weight, was listless, and had no appetite at all. I'm on my fifth bottle now and am amazed at the results. I want to eat all the time now. Most of all, I'm glad to say, I've gained several pounds. HADACOL is so economical, I believe almost anyone can afford it, and I do recommend it to my friends."

HADACOL now makes it possible to actually relieve the REAL CAUSE of weak, run-down conditions, stomach distress, nervousness, poor appetite and nagging aches and pains when due to the lack of Vitamins B-1, B-2, Nicotin and Iron in the system.

AND LISTEN TO THIS! Continued use of this great HADACOL not only gives continuous complete relief but helps keep such painful distress from returning when caused by such deficiencies.

Now that's the kind of product you have been waiting for. That's the kind you should buy and start taking at once.

And HADACOL's wonderful Vitamins and Minerals come in special pleasant liquid form so they are quickly absorbed and assimilated in the blood, ready to go to work at once.

HADACOL IS SO EFFECTIVE Because HADACOL helps build up the hemoglobin content of your blood (when iron is needed) to carry these precious Vitamins and Minerals to every organ and to every part of your body.

You may have tried other Vitamin preparations or other Vitamin and Mineral preparations, so we make you this offer. Try a bottle of HADACOL today. You be the judge. I do not believe that HADACOL is the best you have ever taken, we will gladly send back your money. That's our positive money-back guarantee.

So be fair to yourself. Don't go through life suffering from these conditions when caused by lack of Vitamins B-1, B-2, Nicotin and Iron, when relief may be as close as hand as your nearest drug store.

REFUSE SUBSTITUTES There's only one HADACOL. Don't let anyone tell you something else is "just as good." Insist on genuine HADACOL. You risk nothing because HADACOL is sold on a strict money-back guarantee.

Sold at all drug stores. Trial size, \$1.25, but buy the large family-size, only \$3.50.

### Cold War Hurts Tourist Spot

PASSAU, Germany — (AP) — This ancient Danube city is suffering from a lack of tourist traffic.

Passau, biggest German city on the Eastern border, has a population of 35,000 nearly one-eighth of whom are unemployed. In addition there are 8,000 refugees in camps.

For centuries visitors have provided virtually all Passau's outside income. It is a city which never has had a major industry. It prided itself on being a cultural center and a bishopric. It pointed out its seminaries to the thousands who used to visit the city and the great cathedral, begun in the bustling days of Rome's northern conquests but border regulations have stifled

### Indians Named To Governing Posts

GALLUP, N. M. — (AP) — Two Navajo Indians have been named to governing posts by the McKinley County Republican organization for the first time since Indians got the vote in New Mexico two years ago.

The county GOP organization elected Hoskie Naswood of Gallup to the state central committee and named John Perry of Crownpoint its treasurer.

those tourists coming from Austria, most West Germans have neither the time nor the money to travel as they did in the old days, and the Iron Curtain is close by.

"People don't want to come so far east," one councilman says. "Until they do Passau must just wait in the sun."

### Lion-Saving Drive Is Opened In India

JUNAGADH, India — (AP) — A campaign has opened here by opponents of unrestricted hunting to save an estimated 225 lions in the famous Gir Forests — believed to be the last of their species in Asia.

Lion hunting is still permitted but only on special license by the Saurashtra State Government which administers the forests.

### Singapore Harbor Has No Fire-Fighting Boat

SINGAPORE — (AP) — Believe it or not, Singapore is the only big port in the world without a fire-fighting boat.

Furthermore, it's not likely to get one, even though Fire Chief J. G. Shaw

"It is absolutely necessary," Shaw told the municipal commissioners that the absence of a fire boat is alarming, as there are many millions of dollars worth of shipping daily affloat within Singapore harbor.

However, the committee which studied the question of a fire fighting service for the Singapore Harbor Board rejected the proposal because the gain in efficiency by having a fire boat "would not be commensurate with the expense involved."

## McLemore Begins Economy Plan Since Living Costs Up

By HENRY McLEMORE

With the cost of living what it is, a family man has got to economize.

I'm saving money by only betting on horses to place. Until it became necessary for me to be thrifty I bet on them to win.

It's amazing what forms of thrift people will turn to.

The richest man I ever knew in my life decided to save by wearing old clothes. Three months ago this man, who is 65, from Pittsburgh, and can come very close to buying out the Melons, dropped by my house in Florida and talked hard times.

Talked poor mouth to me. He told me that he just couldn't conceivably pay his income tax, because it was too much.

He was renting my house from me. Paying me during the winter season \$1000 a month. I'm so poor I'm run out of my house by this gentleman. The house I love. He never liked the sun better than I did, but he was rich enough to make me retreat from the beach.

He was wearing some sunbans, which he must have stolen from a 25-year-old boy who fought in the war. As long as I'm going to be completely honest, he had on a khaki shirt, and on each shoulder there was a captain's bar.

I said, "Why are you dressed that way?" and he said, "I can't afford to wear those \$200 suits I have." I asked where were those \$200 suits, and he said, "They're upstairs in your closet."

That astounded me to death.

I thought that must be the hard way to save until I met a man who writes a sports column in New York City, gets paid real good every week and here's his idea of how to save.

He comes close to being my dearest friend, and we and our wives were sitting around in his living room. Brand new house. One of the best sections of New Jersey. Children at expensive private schools. And here is the way he saved money.

The New York Times was thrown on his porch. He heard it land, went out and picked it up, and then came back and told his wife this:

"We can't afford the Times. It seems to me, as my wife, you would try to save a little money for us. I don't mind your buying dresses, and you can never

Thrifty Buyers Say—"Buy the 100 TABLET FOR 49¢ Make Nearly DOUBLE SAVINGS!" St. Joseph ASPIRIN

tell anybody that I was ever tight with money for you, but you insist on us having the Times every morning. Frankly, I can't afford that sort of money."

So the man's wife called up and canceled the subscription to The Times. The next day it wasn't there. And the man I'm talking about went out and looked for it, didn't find it, came back and asked his wife where the Times was.

She told him exactly what I've told you in the above paragraphs.

Whereupon he put in a phone call (19 cents), called a cab, got in the cab, went in the cab three miles, bought a Times, got back in the cab, came back three miles, paid the cab driver \$7, then gave the cab driver \$2 for a tip, and marched proudly in the house with his Times under his arm.

By spending close to \$10 he had saved the price of the Times. I am not quite sure what the price of the Times is in New Jersey, but the sports writer I'm talking about congratulates himself on being a thrifty fellow.

Write and tell me your economy, because I sure do want to know. If your letter reaches me I shall be slightly disappointed. If there's one thing in the world I love it's my readers. But I wonder sometimes if my readers love me as much as I do them.

### Brother Accused Of Man's Death

NASHVILLE, Tenn. — (AP) — A retired bank official was stabbed to death last night at his suburban home and officers arrested a brother in connection with the slaying.

Jim Richardson, special investigator for the District Attorney's office, said Clint T. Calkins, 48, died of 12 stab wounds.

Richardson said Calkins' older brother, 60-year-old Harry Calkins of Indianapolis, Ind., was arrested shortly afterward at a hotel, and held without charge.

**just what they need for RAPID, HEALTHY GROWTH!**

**RED CHAIN BROILER FEEDS**

Since feed cost amounts to 60 to 65 per cent of the total cost of producing quality broilers it is poor economy to use anything but a high efficiency Broiler Feed... one that will produce the most meat per pound of feed.

When you feed RED CHAIN Broiler Feeds in mash or granular form, you provide your chicks with everything they need for fast growth, fast feathering, and heavy fleshing... the mark of premium birds. Then, too, you will find that the high quality of RED CHAIN Broiler Feeds fortified with Vitamin B<sub>12</sub> and Antibiotic Feed Supplements results in lower feed consumption per pound of gain.

Beefs About Beef

With the meat shortage getting more acute every day, it soon will be easy to spot a millionaire... you can smell the beef on his breath.

When the government turned Mike DiSalie and his boys loose to play around with the beef market, it was with the avowed purpose of lowering retail prices.

Even the Kansas City, Mo., stockyards reported a shortage of beef cattle yesterday. If Harry can take such good care of people like O'Dwyer and Acheson, looks like he would see that there's plenty of beef for those hungry Missourians.

If the administration wanted to take beef off the American menu, maybe it would have been easier to institute a propaganda program aimed at telling the people it's un-American to eat beef.

This whole beef situation might be the result of the administration's desire to get the nation so beef hungry that citizens would vote for anything.

Or maybe the administration wants to eventually give out "FREE" beef. That way, it could add a lot of new taxes and hire more bureaucrats.

Well, the beef shortage won't hit so hard as Whinnings. Mink coats can be traded for a few pounds of hamburger and those with deep freezers, like General Vaughn, will probably be able to stock up with the aid of some five-percenter.

LOOKING SIDWAYS

By WHITNEY BOLTON

An old friend with a tattered pink moustache and broad, smiling here and there the other day with a sullen confession that he had stuck his head in the lion's mouth and agreed to become a class in journalism.

I don't know if Fred Olthman is getting his facets square on the line when he confesses cold pants over those engagements with fate, but I know that twice in my life I was twice-headed enough to say "yes" when the chance came and that I had made it.

Nothing happened for two more years until a magazine editor for whom I did occasional odd jobs fell in love with the crisscross areas of a fashionable exclusive and expensive girls' school. Men in love customarily are adorned men, and one day he began to believe that if I would go up the Hudson a pace and talk theater to the young ladies of New York's first families he would gain considerable ground in pursuit of his learned sweetheart.

I still don't know what happens to lone men when put down at a dinner table with sixteen young girls, but usually it is a sort of icy paralysis resulting in grimaces and gibbers. These were cultured young women, charming young women and sophisticated young women.

Telling them things about theater we don't know about theater they didn't know about theater by trying to tell a baby tiger how to deal with a mouse. I tried for 51 minutes, struggling every syllable of the way. It was in all candor, frightful. I was embarrassed, gauche, silly, awkward and summing. I felt waves of crimson shame washing over me as though I were an stool. It was plainly horrible. And now I know

can't imagine what a when, at 8:15 promptly, the adored head mistress rose from her cot and introduced me, saying: "I thought perhaps we could just relax here in the drawing room, as in our own homes, while Mr. Bolton tells us things about theater we don't know about theater they didn't know about theater by trying to tell a baby tiger how to deal with a mouse."

Better Jobs

By R. C. HOILES

Californians Should Bow Their Heads in Shame For Their Governor

Gov. Earl Warren is opposed to any law being passed in California that would outlaw labor unions from using the Hot Cargo method of forcing unwilling workers to join unions and pay tribute to labor bosses.

He recently saw to it that a bill banning the use of Hot Cargo for perishable farm products was referred to the Industrial Committee so it would be killed.

He brags his comrade he is advocating a "no strike" labor policy. He is doing nothing of the kind. His cowardly cringing and fawning on the labor bosses only whets their appetite for more control over the lives of honest workers.

Gov. Warren is thwarting the only purpose of government — to protect life and property and maintain an unhampered market. He does not believe that he is advocating a "no strike" labor policy. He is doing nothing of the kind.

The kindest thing that can be said about Gov. Warren is that it would have been easier to institute a propaganda program aimed at telling the people it's un-American to eat beef.

This whole beef situation might be the result of the administration's desire to get the nation so beef hungry that citizens would vote for anything.

Or maybe the administration wants to eventually give out "FREE" beef. That way, it could add a lot of new taxes and hire more bureaucrats.

Well, the beef shortage won't hit so hard as Whinnings. Mink coats can be traded for a few pounds of hamburger and those with deep freezers, like General Vaughn, will probably be able to stock up with the aid of some five-percenter.

The Big Lie

BY DAVID BAXTER

PART THREE: The COLLIER'S article on Dr. Koch quotes Oliver Field, "a former Federal Food and Drug agent" as calling "the Koch treatment" "the answer to a quack's prayer."

But isn't it noteworthy that this same Oliver Field is now head of the American Medical Association's Bureau of Investigation? Besides that, I might ask, just what does a supposedly private organization like the A.M.A. need with a bureau of investigation?

It is not surprising that the individual is presumed to be unable to decide for himself what service he wants to pay for or who he wants to pay for. He needs a "guardian," a "brother's keeper."

Admittedly, that Dr. Koch really is a doctor, the article then points out that he was once tried on Federal Trade Commission charges, although no mention is made of who put the FTC up to do the job.

Next, the story takes up the Christian Medical Research League, which has championed the Koch treatment. Nothing really untoward is pinned on the League but one of its leaders, Dr. Sam Swain, is made the target of much ridicule.

The United States government supported this British policy, going so far as to refuse to back up the Shah and Premier Ali Razmara — later assassinated — when they proposed a drastic reform program to curb growing unrest.

Communist agitation and Russian imperialism, it is now made clear, had little or nothing to do with bringing on the Iranian oil crisis. The way it is developing, however, the Russians now appear to have a better chance than ever of having Iran fall into their laps.

It can, of course, be argued that Iranian oil is no concern of the U. S. But somehow, at some time in the near future, the

United States will have to find a way to support the sound, right-minded, progressive-reform movements in these backward countries. It must learn to build them into responsible governments.

The British Anglo-Iranian Oil Company management brought most of the trouble on itself by trying to settle the dispute in the traditional high-handed manner of the 19th century Victorian imperialism.

Real "Grass Roots" Politics

Washington . . . by Peter Edson

WASHINGTON — (NEA) — President Truman's latest note to the British and Iranian governments, a ringing demand that they settle the Iran oil nationalization dispute by peaceful means, may have some good effects, but isn't likely to provide a permanent cure.

Latest confidential reports reaching Washington from inside Iran now indicate that this whole crisis was unnecessary. It could have been avoided by exercise of a little more common sense.

The United States government supported this British policy, going so far as to refuse to back up the Shah and Premier Ali Razmara — later assassinated — when they proposed a drastic reform program to curb growing unrest.

Communist agitation and Russian imperialism, it is now made clear, had little or nothing to do with bringing on the Iranian oil crisis. The way it is developing, however, the Russians now appear to have a better chance than ever of having Iran fall into their laps.

National Whirligig

By RAY TUCKER

WASHINGTON — A revolutionary extension and strengthening of Congressional authority in the foreign affairs field is slowly taking place at Washington as a result of past and pending investigations into the MacArthur dismissal, Far Eastern policy and America's future role in an atomic age.

The management of far-reaching, international problems which care plunge the nation into warfare without prior Congressional action, will no longer remain the secret and exclusive prerogative of the White House, the State Department, the Pentagon and the United Nations.

FINAL — It would, of course, require a constitutional amendment to alter the basic relationship between Congress and the President in this field.

The Doctor Says

Written for NEA by EDWARD P. JORDAN, M. D.

Comparatively few people are born with perfect bodies and go through life without developing some physical defect or blemish.

Q — I have a bright red birthmark on my upper leg and live in constant fear of having to go to a doctor for an examination. Now I expect a baby and would sooner die than show a doctor my body. What shall I do?

A — This modesty is both unnecessary and foolish. The physician's whole training is such that he is used to unusual things. Stop worrying about what the doctor will think and get good medical care for the sake of the baby as well as yourself.

Q — My 15-month-old grand-dad has picked the wool from carpets, nibbles at even the blankets on his bed, and eats it. I am at my wits end to know what to do.

A — This seems to be another example of pica or an appetite for abnormal things. There is probably a good chance that one so young will stop by herself in time. In the meanwhile perhaps she can be kept away from wool most of the time.

Q — About three weeks ago one of my dear friends started to swell up all over the face. She was terribly worried and about 10 days ago it happened again. She was unable to talk for several hours. What should she do?

A — The description fits an attack of hives or urticaria. If this should turn out to be the cause, an effort should be made to find out what she is sensitive to. It could be something she comes in contact with or a food.

**Man Dies After Receiving Estate**

LEWISTOWN, Ill. — (AP) — William F. Crothers, 73, of San Antonio, died yesterday — only one day after he had inherited a \$900,000 estate. His death apparently was due to a heart attack. Crothers testified Friday in county court that he had heard of the eccentric woman relative who left him her estate, but that he had never seen her.

**Pennies Add Up To Truckload**

OBLONG, Ill. — (AP) — A retired mailman who likes to play a practical joke found another victim for his specialty. W. R. Wall paid an insulation salesman off in pennies — 110,000 of 'em. Salesman Earl Cazzell from Vincennes, Ind., took the trick good naturedly. He also took the 850 pounds of money away in a truck.

**Air Force Ends Quest For Planes**

FRANKFURT, Germany — (AP) — The U. S. Air Force last night abandoned its three-day search for two U. S. jet fighters feared to have crashed somewhere in communist Europe. The hunt was called off after long range planes and helicopters had combed western Germany along the Iron Curtain border in a vain quest for the two P-54 Thunderbolts which vanished Friday.

**Harry Faces Delay On Making Up Mind**

WASHINGTON — (AP) — It looks as though President Truman will have quite a wait before he can make up his mind. He told a news conference last week he won't decide about making a cross-country talking tour until he sees how his program fares in Congress. And he can't do that, he said, until Congress quits. Judging from the gait at which Congress has been traveling, or not traveling, it can't quit before the end of summer anyway, and probably not then except maybe for a short recess. The biggest part of its work still lies ahead of it, even though some of the members have been making restless noises about a summer vacation. This has been an unusually gabby Congress, with a great deal of its time, especially the Senate's, so far taken up with two big items of discussion: 1. Whether we should send troops to Europe. (The answer was a qualified yes.) 2. The General MacArthur inquiry. (Still going on.) While Congress talked, a big bundle of its work, particularly work in which Mr. Truman was most interested, has bogged down, although Congress can't be blamed for all the bog. Now in its sixth month of business in 1951, Congress has approved so far only these three major items which were also items of major interest to Mr. Truman: 1. Wheat for India. 2. A new draft act, including a start for UMT — Universal Military Training. 3. Extension of the reciprocal trade program for two years. And here are the major items, closest to Mr. Truman's heart, which still haven't passed: 1. Bill to raise income and corporation taxes. 2. \$60,000,000,000 for defense. 3. \$8,500,000,000 for arms and economic aid for our friends in Europe and elsewhere. 4. Extension of the Defense Production Act. Which means: all government controls over prices and materials end June 3 unless Congress votes to keep them longer. 5. Money to run the government agencies for the fiscal year which starts July 1. (This probably can't all be done by July 1 so, to keep them going until the full money can be voted, Congress may have to vote some stop-gap authority to spend funds.) 6. Federal aid to the states for education. (Unlikely to pass.) 7. Changes in the labor law. (Most unlikely to pass.) Sandwiched in between those major projects are a batch of smaller ones, some of which may get through, some not. Even though some members are itching for the tall trees and cool waters of vacationland, it seems impossible Congress can finish up before September. The tax bill, which hasn't even passed one house yet, is bound to require a couple more months of hearings and debate before being passed. But Congress can't be blamed entirely for this demonstration of tardiness. Before Congress could tackle two of the biggest items — the defense budget and arms-and-economic-aid for abroad — details on how the money is to be spent had to be worked out by government experts.

Can you beat this measure of car value?

Of standard-built cars used as taxicabs, there are far more Plymouths than any other make...in fact, there are more Plymouths than all other makes combined!

Those who own taxicabs are experts on car value. They have to be! Their very living depends on their judgment in selecting the right car.

This selection is not made on "hunch" or "sentiment" or loyalty to any make.

In the cold light of fact, taxicab owners test all makes of cars for everything — roominess, riding comfort, handling ease, braking action, maintenance cost, day-and-night dependability — everything!

As the result of these continuous tests, the overwhelming majority of taxicab owners say: "The car for our money is Plymouth!"

Isn't this pretty convincing proof that Plymouth is the car for your money, too? But you don't have to take somebody else's word for it. Your Plymouth dealer will gladly arrange a demonstration now. Then you can put the Plymouth through your own tests and see for yourself.

**Let Dad Strut Stuff On His Day**

**LET FATHER PROVE he is the best cook in the house on Dad's Day.**

By GAYNOR MADDOX  
NEA Staff Writer

Why not let Dad strut his stuff on Father's Day? Secretly, he probably thinks of himself as a suppressed kitchen genius, far better than all the womenfolk in the family put together. So give him a break. Turn the kitchen over to him for Father's Day and let him turn out a master piece—cream pie a la Pop.

**Boston Cream Pie a la Pop**  
One cup sifted cake flour, 1 teaspoon double-acting baking powder, 1-4 teaspoon salt, 2 eggs, unbeaten, 2-3 cup sugar, 2 teaspoons shortening, 1-2 cup milk, 1-2 teaspoon grated lemon rind, vanilla cream filling, chocolate glaze.

Sift flour once, measure, add baking powder and salt, and sift together three times. Beat eggs with rotary beater until foamy; add sugar gradually, beating constantly until very thick and light. Add shortening to milk and heat, then add to egg mixture, mixing quickly. Add lemon rind and flour all at once and beat with rotary egg beater only until smooth.

Turn batter into 8-inch layer pan, 1-2 inches deep, which has been lined on bottom with paper, but not greased. Bake in moderate oven (375 degrees F.) 15 minutes, or until done. Remove from oven, invert pan on rack, and let stand one hour, or until cake is cool. Remove from pan.

Split cake in half. Spread vanilla cream filling between halves and pour chocolate glaze over top of cake.

**Vanilla Cream Filling:** Combine one package prepared vanilla pudding with 1-3-4 cups milk

**WE, THE WOMEN**

By RUTH MILLET  
NEA Staff Writer

For the mothers of school-age children right now is the "costume season."

For as the school year draws to a close, Sis and Junior take to the stage, for class plays, school plays, operettas, dance recitals, and so forth.

One week Sis needs a couple of Dutch girl costumes. The next she needs a Chinese getup. Costumes demanded for boys aren't usually quite so elaborate—but they have to be made, nevertheless.

It's a big drain on Mama's pocketbook and on her time and patience, making costumes for everything that comes along at school.

So here is a suggestion for in saucepan. Cook and stir over medium heat until mixture comes to a boil and is thickened. Cool, stirring occasionally.

**Chocolate Glaze:** Heat 2 tablespoons butter and 2 squares unsweetened chocolate on top of double boiler until melted. Combine 2 tablespoons hot milk, 1 cup sifted confectioners' sugar, and dash of salt; add chocolate mixture gradually, stirring to blend.

**Cotton, Nylon, Rayon Take To Water In New Swim Suits**

**Suits for swimming or sunning acquire the dressmaker look when they're done in cotton. Green-and-white cord-stripe ballerina suit (left) has tight bodice and round scooped neck. One-piece suit (center) is in black-and-white wicker weave with white pique picture frame collar. Chisholm Clan tartan plaid cotton in red-and-green (right) makes elasticized maillot and matching terry-lined cape.**

By GAILE DUGAS  
NEA Staff Writer

PTA's across the country. Why not a costume wardrobe for your school?

It ought to be simple to collect in just a year or two. If every mother in the school were asked to turn over all the costumes she has on hand and any she makes in the future, there ought to be a big enough assortment to take care of a ny school play or operetta. **EASIER ON MOM**

A sewing class could have the project of upkeep, mending the costumes, pressing them, etc. That way the kids would get all the thrill of dressing up—and the mammas wouldn't be wasting money on costumes that are used once and put aside. To say nothing of the hours of work that go into the making of any head-to-toe costume.

It's amazing how mothers go on year after year, grumbling about the burden of costume making for their small fry, when if they got together and created a school costume wardrobe, the news that Sis is going to be a fairy princess in the Spring Fes-

**NEW YORK**—(NEA)—Cool and porous cotton lends itself best to beachwear with a dressmaker touch. Nylon and rayon make sleek swim suits; cotton makes pretty swim suits.

These cotton suits, jersey-lined for practicality, are equally successful as sun suits or swim suits. They are made to fit through strategic use of zippers or through elasticizing. And they get along with soap-and-water just as readily as they slip into the sea for a dip.

The ballerina suits, done up in green-and-white cord-stripe, is a boon to girls with hips they'd like to conceal. Slim to the waist, this suit has green shoe

lival wouldn't come as such a blow. And the children whose mothers haven't the money to spend on elaborate costumes wouldn't be by-passed when parts are handed out in favor of the little darlings whose mothers can be counted on to spare no trouble or expense to costume their children.

string ties at the shoulders. The neck is round, scooped out and bound in green. At the waist, the skirt blossoms out, full and brief. It has an embroidered eyelet edge in flower design. The zipper is down the back and the suit is lined in matching fabric. It has romper bloomers.

A trim, neat swim suit with a tailored look is done up in black-and-white wicker weave. There's a white jersey lining. To the waist, it looks much like a pretty summer dress with a white pique picture frame collar fastening halter fashion at the back of the neck. There are two slit pockets at the hips.

Put this dress top ends suddenly in tailored trunks. This suit, too, slips neatly down the back.

A beach ensemble, in the sprightly red-and-green tartan plaid of the Chisholm Clan, is made up of elasticized suit and an abbreviated cape lined in terry cloth. The maillot has slim straps, may be worn without them. The cape, nicely tailored, has simple slits for the arms. It provides a coverup when sun or sea breezes prove too much.

**GAINESVILLE LADY LOST 48 POUNDS**

"I highly recommend Barcenate to take off fat and not harm you," writes Mrs. Bessie Beasley, Route 1, Box 20, Gainesville, Texas. "Before taking Barcenate, I weighed 225 pounds. The first bottle made me feel better and I lost 6 pounds the first week. I now weigh 180 pounds and want to get down to 160 pounds. I have now taken 8 bottles. I am 61 years of age and wouldn't be without Barcenate, for it is a laxative as well as to reduce and no pains or griping after taking as so many laxatives I have taken do. I just say no use to carry that excess fat when Barcenate will take it off so easy and no ill effects. When I get to the weight I want, I intend to still take it as its regularity makes me feel so much better every morn-

ing; no tired feeling. I have recommended Barcenate to my friends." When you buy Barcenate, you buy a preparation for taking off weight. You do not pay for a diet list. Barcenate is not a vitamin tablet to fortify you against weakness while on a starvation diet. You need never know a hungry moment while reducing with Barcenate. It contains no harmful drugs, but does contain ingredients to make you feel better. Just ask your druggist for four ounces of liquid Barcenate. Add 12 ounces of canned grapefruit juice. Then take just 2 tablespoonful twice a day. If the very first bottle doesn't show you the simple, easy way to lose bulky, unsightly fat, return the empty bottle for your money back.

# Lou Kretlow Stars Again For Chisox

(By The Associated Press)

Until now, Lou Kretlow's chief claim to fame was: 1. He received a \$35,000 bonus to sign with Detroit in 1946. 2. He was shipped to St. Louis along with \$100,000 by Detroit for Jerry Priddy in 1949. Lanky Lou has blossomed into a winning pitcher for the amazing Chicago White Sox. The Sox picked him up for a song from the Browns last year. The coming of Kretlow into his own is just another feather in the cap of freshman Manager Paul Richards, renowned as a handler of pitchers.

Kretlow, who failed as a starter early in the season, faced Washington last night as the Sox opened their second tour of the East. Lou came through with the first shutout of his major league career—a brilliant 3-0, four-hit job.

The victory enabled the Sox, winner of seven straight the last time they visited the East, to boost their lead to 3 1/2 games over the runner-up New York Yankees. The Yanks were upset, 5-1, by the lowly St. Louis Browns.

Kretlow, a 27-year-old right-hander who failed to win a game last year, never was headed after the third inning. The Sox jumped Con Marzore for two runs in the third with Ed Robinson and Don Lenhardt driving in the runs. Robinson clinched the game in the fifth by driving in his sixth run, high for the league.

Duane Pilette, excited to the Browns a year ago, came back and haunted the Yanks at the stadium. The slim right-hander stopped the Bombers on four scratch hits. The Browns collected only five off Fred Sanford and three relief pitchers but made the most of ten walks. The Browns wrapped it up in the seventh when Tommy Byrne forced home two runs with bases on balls.

The Cleveland Indians moved to within a game of the third place Boston Red Sox, outlasting the Philadelphia Athletics, 8-6, in a night game at Philadelphia. The Red Sox dropped a 7-3 decision to the Detroit Tigers under the flood lights at Boston. Cleveland's Bob Feller, with help in the ninth from Lou Brissie and Mike Garcia, gained credit for his ninth victory. The A's rallied in the ninth, pushing one run home and placing the potential tying runs on base. Garcia stopped the threat by getting Gus Zernial to fly out.

# Texas Amateurs Ready For State

**CORSIANA** — (AP) — The elite of Texas amateur golfers were moving into Corsicana today for tune-up rounds before making their bid for the state championship.

The Texas Amateur Tournament opens tomorrow at Corsicana Country Club with its eight par 71. Qualifying rounds will be Thursday.

There will be two rounds of match play Thursday, two Friday and 36-hole finals Saturday.

L. M. Crannell, Jr., the North Texas State star from Dallas who won the Trans-Mississippi last weekend; Julian Arnold of Corsicana, holder of the Corsicana Country Club course record of 66, and Capt. Fred Moseley of San Antonio, the Air Force champion, are among those rating highest in championship speculations.

Other top entries include Don January, Billy Maxwell, Joe Conrad and Buster Reed of North Texas State; David (Spec) Goldman, John Oliver, Jack Timmin, Don Addington and Floyd Addington of Dallas; Grady S. Trim of Sulphur Springs, Wesley Ellis, Jr. of the University of Texas and Don Mathewson of Fort Worth.

Princeton's baseball team beats Yale next week to tie for the Ivy League title, the playoff may take place in Omaha during the NCAA tournament. Princeton already has been named for the college world series and Brown will play Springfield for a nomination.

# Lefors Hal'back 'Looking Good'

**ABILENE** — (Special) — Joel Combs, 6-1, 183, left halfback from Lefors, looked pretty good in spring drills, Harlin Simmons University head football coach Warren B. Woodson said here today as he waived the prospects of the 1951 Cowboys.

Combs will probably see quite a lot of action behind Harold (Twister) Taylor come this fall when the Cowboys play an eleven game schedule—eight on the road.

"Combs has the speed, desire, and poise to make us a pretty good ball player before he leaves the Forty Acres," Woodson said.

Woodson has produced the leading national ground-gainer three times since he came to H-SU. Last season he had on hand the best touchdown passer in the land in quarterback, John (Midel T) Ford.

Woodson, recognized for his intrinsic grading ability, saw Doc Mobley set a national record in 1942 when he churned out 1,281 yards in nine games from his left half post. Mobley came back after the war to again lead the nation in 1946, carrying for 1,227 yards.

Wilton (Hook) Davis set a national record in 1947 when he galloped for 1,173 yards in ten regular season games.

Combs will be one of 15 sophomores returning in 1951. He saw much action as a member of the H-SU Buton Freshman team last year.

First game of the season for the Cowboys will be Sept. 22 when they go to Stockton, Calif. for a game with College of the

# Shamrock Star In All-Star Tilt

**SHAMROCK** — (Special) — Vaughn Terry, star right end of the 1950 District 2-A Irishmen champions, will play with the all-stars at an east-west all-star game for high school graduates of 1951 at Childress Aug. 17.

Terry, only Irishman to join the all-star game, will go to Childress for practice sessions, beginning Aug. 12.

Last fall he was all-district and all-regional at end, considered one of the best line-backers in the area. Terry also took four touchdown passes and completed a number of very helpful aerials, but his defensive work was more outstanding.

He also was outstanding as a forward on the 1951 Shamrock basketball crew, which lost the district to Memphis in the playoff, 45-43, but entered the regional tourney at Tulsa.

Terry said he has no plans for going to college next year.

Pacific, H-SU and College of the Pacific played a 35-35 football history breaking tie in the 1948 Dodi Grape Bowl game.

Other teams the Cowboys will meet: Trinity University, Sept. 29, Midwestern, Oct. 6, Arizona State, Oct. 13, Houston, Oct. 20, West Texas State, Oct. 27, Loyola University, Nov. 16, all on the road; and Cincinnati, Nov. 2, Arizona University, Nov. 24, and Texas Western, Nov. 30, all in Abilene.

Reservations in Arizona contain 54,000 Indians, or one-sixth of the national total.

# Lobos Defeat Lowly Pioneers

**CLOVIS** — (AP) — Frank Calo's double and Ray Bauer's single deprived righthander Ted Wyberanec of a shutout here last night as Lamesa's Lobos dunted the Clovis Pioneers, 7-1, to sweep the series.

The lone run garnered off Wyberanec came in the fourth inning. The Lobo twirler was invincible thereafter as he set back Clovis on six hits.

**Get a real truck!** Your key to greater hauling profits

**GMC**  
GASOLINE & DIESEL TRUCKS  
1/2 TO 20 TONS

**TEX EVANS BUICK CO.**  
123 N. Gray Phone 123

There are a lot of reasons you can expect a new GMC to keep hauling a lot longer than any other truck you can buy.

First is the fact of horsepower. Whether it's a gasoline-powered 1/2- to 2-tonner with horsepower unbeaten in its class, or one of the new heavy-duty Diesels—you can't beat a GMC for "go"!

But the extra value you find in these great trucks doesn't end at the power plant.

There's the smooth GMC Synchro-Mesh Transmission linked to a sharp-shooting drive line, pouring every ounce of power back to the rugged rear axle. And the solid way horsepower becomes wheel-action—you know there's extra depth of truck performance engineered right down through the broad-shouldered frame of a GMC!

And standing guard over these long-time trucks are husky brakes with more area than most—the surest, easiest steering ever devised to direct a pay load home—all controlled from a spacious "Six-Footer" Cab that's Weathersealed for a lifetime.

GMC's are made in the widest variety of engine-body-chassis combinations to meet any trucking need. And the prices? No better buy anywhere! Come see for yourself.

...BUT NOBODY LISTENS.

**FUNNY BUSINESS** by HERSCHEBERGER

I'VE GOT AN IDEA, MEN! WE COULD SELL THE POPCORN MACHINE!

THERE AREN'T ANY OTHER DOPES IN SHADYSIDE!

JUST WATCH ME, AND TAKE A LESSON IN SALESMANSHIP!

BATTEN DOWN YOUR GEAR, LIVERMORE—HERE COMES MORBID!

IT'S A CHANCE OF A LIFETIME, MR. LIVERMORE, TO GET IN ON THE GROUND FLOOR OF A CORN-POPPING MACHINE!

SORRY, BUT I HAVE NO FONDNESS FOR EXPLODED MAIZE, MASTER MORBID!

"I don't take any more chances when I'm testing reflexes!"

EXTRA SPECIAL

2 1/2 acres at South Edge of city with 6 room house and out-buildings. 2 duplexes with house in rear. 3 units furnished, new refrigerators, new roofs, new plumbing. Close in with excellent rental income.

DROP ON THE 'ROK'—He's carrying a white flag and wearing the uniform of a South Korean soldier, but Sgt. Lonnie Kiffin of Sparta, Ill., keeps his carbine poised as he questions the soldier before sending him to the rear. Allied troops follow a policy of "strictly no trust" of unidentified soldiers, because of the Reds' favorite infiltration trick of masquerading as friendly troops. (NEA-Acme photo by Staff Photographer Jim Healy.)

would it something drastic, were not done. Mr. Prater and Mr. Wertheim also saw ruin.
"Mr. Wertheim who came up with what seemed a brilliant suggestion. No one else, he assured the others, knew of Miss Martin's visit to the Prater office. Why not drive her car to some spot along the river, send the car into the river with Miss Martin's body inside and pass off her lamentable death as a traffic accident?
The idea seemed perfect at the time. Wertheim sent his employee and his prospective customers packing back to La Jolla Club, where they were to establish their alibi. He himself managed the manipulation of the accident, dressing Miss Martin in her street clothes. Bidault probably learned of the tragedy from Wertheim.

**'Austerity Smoking' Is Tried In Israel**

TEL AVIV — (AP) — Austerity cigarettes if you don't hand your old carton back. The thing is still being tried only that it is difficult to get a genuine American or British brand — even if you are will-

ing to pay the high import duties. It may soon mean that you won't get a pack of cigarettes if you don't hand your old carton back. The thing is still being tried in some parts of Tel Aviv to economize paper and cardboard.

*A Tribute...  
To Fathers!*

There's an old saying that "mother knows best." Well, it seems to us that Father, bless him, should come in for some compliments, too, once in a while. It is true, of course, that upon Mother's patient shoulders rests the upbringing of the children. And this is as it should be. But let's not forget that Pa is generally the family breadwinner and it is up to him to pay the bills. When day is done and he comes home, make things as cheery and loving as you can. Have a nice dinner ready. Lay out his slippers and his beloved pipe. Show him how much you love him by being kind and considerate. He may not tell you how he appreciates these attentions. But he will... as all good fathers do.

**Sunnyside Up On Frontlines**

TOKYO — (AP) — A company of U. S. Fifth Cavalry soldiers recently got fresh fried eggs while in their foxholes atop a 12,000-foot hill. "Nothing has helped morale more — short of rotation," said PFC Willis J. Marcantell, Lake Charles, La. He's a cook. The credit went to Lt. John Higgs, commanding officer of the group. He consulted a mess steward, eggs and two cooks. Usually such food is prepared in the unit kitchen at a battalion rear position, then brought up.

**Practical Approach Offered For Sarongs**

SINGAPORE — (AP) — There'll be no sarongs for the 13 scouts who are to represent the Federation of Malaya at the International Scout Jamboree at Salzammergut, Austria, next August. They've been told to forget about such Malayan garments and take instead warm pajamas as sleeping attire.

**Grain Loan Bill Goes To President**

WASHINGTON — (AP) — A bill to furnish \$190,000,000 worth of U. S. grain to India on a loan basis was sent to President Truman by the Senate yesterday. The President asked in February that 2,000,000 tons of food be sent to the hungry in India as a gift but Congress changed it to a loan, contending this was what India asked. Economic Cooperation Administration officials have estimated the grain can be on the seas 10 days after Mr. Truman signs the bill.

**FROM NINE TO FIVE**

It must be for you, Mr. Wump. There's no one on the line.

**America's First Department Store Falls On Rough Times**

By HAL BOYLE  
NEW YORK — (AP) — America's first department store — the door-to-door peddler — has fallen on rough times.

His occupational hazards used to be flat feet, angry watch dogs, and elderly housewives who would listen to him give a half-hour sales spiel and then say: "Young man, I can't hear a word you're saying. I'm deaf. But whatever you're selling, we don't want any."

But today his greatest problems are local ordinances adopted by some 400 communities that ban most house-to-house salesmen altogether. The U. S. Supreme Court has just ruled that towns have a right to do this.

Its action shows how far the itinerant peddler has fallen in public favor — and how the pattern of our lives has changed.

The Yankee peddler is old as the nation. In the beginning, he was a kind of traveling troubadour of commerce, carrying his wares upon his back from one wilderness community to another. He was a welcome figure indeed to lonely dwellers in the backwoods. The menfolk would halt their work to hear his gossip of politics and high life in the towns. The womenfolk loved to see him open his magic pack and bring out his glittering merchandise — needles, thread, gay fabrics, strange toys. And after the ecstasy of bargaining was done, the peddler sat down to a big free home-cooked meal, and then trudged on his way.

Later, as he prospered, he bought a horse and cart and added a line of patent medicines. But he still was welcome; his visits helped keep people in touch with events beyond their own neighborhoods. And the hospitality of most households was still expressed by the phrase, "welcome, stranger."

The peddler declined in importance as the trolley, the railroad and the automobile sowed the town and countryside together. Why buy from the peddler when you had a bigger choice at a nearby general or department store? Why ask him what was going on when you already had a newspaper? Why count on him for gossip when you could pick up a telephone and find out more yourself? The old free-and-easy relation-

ship between householder and peddler also deteriorated because too many cheap racketeers entered the field. Unregulated and unlicensed in many communities, they peddled things like fake oil, stocks and grass seed "guaranteed" to grow grass only two inches tall. They came by once, collected — and never came again.

The faith in the old-fashioned peddler began to die out. The stranger at the door became a nuisance in more and more places. Housewives have become more chary of opening their doors to a stranger. They don't know whether he is a criminal casing their homes for a future robbery, or just a poor but honest old man trying to work his son's way through college.

Trust in strangers is dying out in modern times. The home today has everything but a drawbridge to protect it against intrusion. Peddlers not only have to worry about signs warning "Beware — Bad Dog," Doors have chain locks, state or local ordinances, or the U. S. Supreme Court. It is progress — something called radio and television.

The smart peddler today is taking voice lessons instead of foot-strengthening exercises. Why get fallen arches going from door to door when you can get on a television program and bray your sales message into ten thousand living rooms at once?

So far the U. S. Supreme Court hasn't taken up the problem of the peddler who opens 11 o'clock living room to living room on his vocal chords.

**Fellow Gets High On Beer**

SAN FRANCISCO — (AP) — "I guess I got a little high on beer," Elliott Poor said. No one disputed him. Here's why:

Loud shouts of "Taxi!" awakened sleepers at 1 a.m. yesterday. Some who traced the calls and believed their eyes called police.

Police called, called a hook and ladder fire company. Patrolman Richard Hubert and Fireman Edward O'Donnell slowly climbed 125 feet to the top of the smokestack of the Southern Pacific General Hospital.

There, finger by finger, they pried Poor — frozen by fright — from his high perch.

**Extra Care Is Taken For Aerial Cargoes**

LONDON — (AP) — The world's international police are being turned on the job of safeguarding airline cargoes.

Announcing this, Sir William P. Hildred, director general of the International Air Transport Association declared: "Pilferage of airline cargoes is extremely rare... international air cargo has become established as the safest way to ship, and we mean to keep it so."

So the world's scheduled airlines are cooperating with the International Criminal Police Commission to improve safeguards for cargoes, help prevent smuggling by air and simplify police formalities at airports, it was announced.

**American Factory To Be Built In Scotland**

GLASGOW — (AP) — A new American factory employing over 1,400 persons is to be built at Glasgow's new "overflow" town of East Kilbride. Lord Bilsland, a director of the Dollar Export Board, said here. The factory will be used by the John Deere Co., of Illinois, to make agricultural machinery.

**USO Show Tours Foxhole Circuit**

TOKYO — (AP) — The "Spotlight Revue," first U.S.O. show to tour Korea, has returned to Tokyo and will entertain troops in Japan, Okinawa, the Philippines and Guam before returning to the states in July. The "Camel Caravan" is expected here Wednesday night after playing the Korean "foxhole circuit." That troupe will return home next week after giving three shows in Japan.
