CLAM APPETIZER DIP

1 garlic clove
1 8-oz. pkg. Philadelphia Brand Cream Cheese
2 teaspoons lemon juice
1 1/2 teaspoons Worcestershire sauce
1/2 teaspoon salt
Dash freshly ground pepper
1/2 cup drained canned minced clams (1 7-oz. can)
4 tablespoons clam broth

Put a small mixing bowl with the garlic clove which has been cut in half. Place all remaining ingredients in the bowl, and blend well. Serve crackers, potato chips or raw cauliflower buds to be dipped into this mixture for an unusual and tasty appetizer.

Cry For More:

Polio School Is Popular

PORT WORTH — (P) — With all the enthusiasm of kids going to a circus 19 children went to class Wednesday and cried because there wasn't more school the first day.

This unusual reaction to studies occurred at an unusual school—the school for polio children at city-county hospital here.

In wheelchairs and on beds the youngsters were rolled into a newly-petitioned classroom on the third floor and met their teacher, Mrs. Zettie D. Ord.

"Can I go to school, can I go to school?" was the frequent cry heard in the wards.

The children sensed the prospect of a break in the long hours of lying in their beds playing with too-familiar toys or slaving at unchanging walls.

They all wanted to go to school. But Mrs. Ord explained that classes must be broken down according to grades and that only a few children of the same grade could be taught at a time.

This is the third year the kindly Fort Worth woman has taught classes at the hospital and enrollment for the fall term is larger than ever.

Former Red Says It's Likely Author Slain By Leftists

PHILADELPHIA — (P) — Louis F. Budenz, one-time Communist editor and leader, says he believes it is "quite likely" author Louis Adamic was slain by Soviet underground agents.

Budenz is a former editor of the Daily Worker, New York newspaper which is the official organ of the Communist party in the United States. He turned against the Communists years ago, and since has testified before congressional committees and written and spoken extensively on Communist activities.

He told a U.S. Senate subcommittee in 1948 that he had been assigned by the Communist leadership to "corrupt" Adamic.

Adamic was found dead of a gunshot wound in his burning home near Flemington, N.J., Monday. Local authorities listed the death as suicide, but invited the

FALSE TEETH Helps You Overcome Looseness and Worry

No longer be annoyed or feel ill at ease because of loose, wobbly false teeth. FASTEREETH, an improved alkaline (non-acid) powder, sticks to your plates holds them firm so they feel more comfortable. Nothing and cooling to gums made sore by excessive acid mouth. Avoid embarrassment caused by loose plates. Get FASTEREETH today at any drug store.

Juror Invites Senators To Sit In On Trial For Newsmen

LAKE CHARLES, La. — (P) — A grand juror, one of those who indicted five Lake Charles newspapermen on defamation charges, invited U.S. Sen. Hill (D-La.) to "have your investigators present" when the cases are tried in open court.

In a recent statement Hill criticized the grand jury's action and said the indictments were "so flagrantly unjust they will alert the people to the need for a grass roots uprising against crime and corruption."

The Senator said Congress should appropriate money to reopen crime committee hearings, which officially ended Friday.

The newspapermen's indictments followed an anti-gambling crusade by the Lake Charles American Press. The indictment included the paper's publisher, co-publisher, managing editor, city editor and a reporter.

Those allegedly defamed included Sheriff Henry Reid, District Attorney Griffin Hawkins and the 13 members of the parish (county) police jury, the county governing body.

The grand juror, Seth D. May, a Lake Charles businessman, answered Hill's statement in a 500-word telegram to the Senator.

"I cannot understand how a U.S. senator can pass judgment on men or conditions unless he has the facts in front of him," May's telegram said.

"You state that the indictments are unjust. How do you know they are unjust? You most certainly do not know what happened during the secret session of the grand jury, and I regret that due to the laws of this state I am unable to give them to you.

"In my opinion every man on the jury believes in freedom of the press."

Earlier a trio of parish ministers released a letter sent to District Attorney Hawkins in which the ministers assumed equal guilt with the press on one of the alleged defamation charges.

The ministers, William O. Byrd, Methodist, and T. V. Owens, and H. H. O'Brien, both Baptists, told the district attorney:

"The recent indictment by the grand jury for alleged defamation of the Calcasieu parish police jury by Kenneth L. Dixon is unjust in our opinion.

"If... it is defamation of character for law-abiding citizens to make a request of their elected officers, then we are guilty of defamation.

FBI to investigate the possibility that the 52-year-old Yugoslavian author had been slain by leftists.

Budenz' statement was made in a telephone interview with the Philadelphia Evening Bulletin. Now a professor at Fordham University, he spoke from his home in Crestwood, Westchester county, N.Y.

JACOBY ON BRIDGE Tourney Play May Call For Over-Bid

By OSWALD JACOBY
Written for NEA Service

In rubber bridge you seldom deliberately overbid against silent opponents. In tourney bridge, however, you sometimes know just you need unusual results to produce a winning score, and in that case you sometimes bid the cards for a little more than they're really worth, trusting to luck and your good right arm to bring the contract home.

Today's hand was of that nature. South knew he didn't belong in a game contract. To begin with, his hand was a slightly doubtful no-trump. Moreover, his partner raised to only two no-trump, showing that he lacked the strength to bid all the way to game. But South also knew that he needed a better

Maid Of Cotton Contest Opens In Southern States

The 1952 Maid of Cotton contest is officially open. Candidates from 18 southern states will compete, and one will be chosen the 14th emissary for the 12 million members of the United States cotton industry. She will travel to as many as 45 cities in 10 nations.

The 1951 Maid, Jeannine Holland, Houston, became the second Texan to win the honor. She made the longest journey to date for King Cotton.

Contest is open to girls between 19 and 25 years, who were born in a cotton-producing state, have never been married, and who are at least 5 feet 5 inches tall.

Entry blanks are available from the National Cotton Council, Box 18, Memphis, Tenn.

Girls will be judged on beauty, background and personality, contest officials said.

Gulf Announces Canada Discovery

HOUSTON — (P) — Gulf Oil Corp. has reported the discovery in a wildcat well, Gough No. 10, in western Canada. Eight miles south of producing fields at Stetler and seven miles north of Big Valley, the well indicates the company may have a discovery of major proportions.

Production was obtained at 5175 to 5211 feet in the D-2 zone of Devonian formation, it was reported. On drill stem test for 30 minutes, gas came in after five minutes and oil after 25 minutes, according to the report.

Preliminary estimates of the well's production were set at 1200 barrels per day from 36 feet of pay thus far penetrated. The oil is 31-degree gravity at 60 degrees Fahrenheit.

Editor Lashes Administration

BEAUMONT — (P) — Donald M. Ewing, associate editor of the Shreveport Times who spent 15 years reporting Washington affairs charged the Truman administration today with dishonesty.

He told the Rotary club: "The Truman administration is more widely infiltrated at the top with dishonesty, dishonor and disregard of morals and integrity than any administration in our history."

Ewing said he may not represent the opinion of the Shreveport Times. He is not related to the Ewing family which owns the Times.

Ewing described his experiences in reporting activities of eight presidents.

He said there were greater acts of illegality in the Harding administration but that the Truman administration, by skirting the law without breaking it, is less moral.

Harding didn't know what was going on, but Mr. Truman does, Ewing declared.

"President Truman personally defends those whose honesty and moral conduct of public trust falls below standards of honor and decency," Ewing said. "Dishonesty in the form of immorality, of dishonorable actions, or disregard of integrity in its relations to public life, are accepted as proper and right among the top Truman political clique in Washington."

Ewing said that when the first hints of the Harding scandal came, Harding's own party — the Republicans — launched a full investigation and "cleaned up its own mess and concealed nothing from the public."

Congressman Says Atomic War Would End Civilization

WASHINGTON — (P) — An all-out war using new and improved atomic weapons "would destroy civilization as we know it," declares the chairman of the House military appropriations subcommittee.

Chairman Mahon (D-Texas) told a reporter "certainly we have improved and are developing atomic and other weapons such as guided missiles. These are and will be, when fully developed and in the field, of such destructiveness that an all-out war would destroy civilization as we know it."

Mahon was commenting on an address by President Truman in San Francisco in which the President said the United States has "fantastic" new weapons more powerful than the atom bomb.

Mahon said he didn't know whether Mr. Truman was referring to the same new weapons mentioned by the Texas Congressman last Sunday in a radio statement.

Mahon, in the radio talk, disclosed that the U.S. plans to spend one billion dollars before next July on guided missiles, some of which "will carry the atomic warhead."

He said the U.S. is "moving toward the use of atomic artillery" but cautioned against any belief that such weapons are now ready for use.

than average result, so he bid the impossible game.

Incidentally, I should point out that North's response of two clubs was the Stayman Convention, asking South to show a major suit if he had one. South showed the hearts, thereby denying that he had biddable spades. Hence North went back to no-trump.

West led the four of diamonds, and South won with the jack. Declarer next cashed the king of diamonds, followed by the ace of hearts, and a low heart towards dummy. West allowed dummy's jack of hearts to win the second round of that suit, but had to take his king when declarer led a third round of hearts.

The contract could be defeated if West ever led clubs, but he had no way of knowing that. It seemed safe to lead the queen of spades, as indeed it was. East, knowing that he needed a club lead from the West hand, should have put up the king of spades to make sure he would not eventually be stuck in the lead with a high spade. As it happened, East made the fatal error of playing the eight of spades.

Connally Sees Long Debate In Treaty Meet

WASHINGTON — (AP) — Senator Connally (D-Texas) says he foresees long, stormy debate before the Senate will ratify a peace treaty with Japan.

Connally, chairman of the Senate Foreign Relations committee, told a reporter he believes there is "no question" that the Senate will approve the treaty ultimately.

A storm signal was raised by Senator Jenner (R-Ind.), who said he found a "threat to our security still hidden" in terms of the proposed peace treaty.

Jenner said secrecy surrounds the treaty itself and companion pacts proposed on one hand between the United States and Japan, and on the other between Japan and the Republic of China.

"How," he demanded, "can secrecy and double dealing help us?"

Senator McFarland of Arizona, the Senate Democratic leader, announced he plans to press for ratification of the peace treaty before Congress adjourns on or about Oct. 1, if it is completed "in reasonable time."

This country is pushing, at the treaty conference now in progress at San Francisco, for signature of the draft this week.

Ratification by the U.S., among other nations, is required before the treaty can become effective. House action is not needed; the Senate alone ratifies treaties.

While predicting ultimate approval, Connally said he expects a long, vigorous fight from critics first.

"If they want to filibuster against it," he said, "they can hold it up for a long time."

Connally, named officially as a member of the U.S. delegation, has stayed in Washington. An associate said the Senator may fly to San Francisco in time for signing of the treaty, but Connally himself reserved announcement of his plans.

Jenner denounced failure to invite Nationalist China to the conference and declared Congress "must insist that Free China be invited to this conference at once."

The Indiana Senator asked whether it is true, as Senator McCarran (D-Nev.) said in a recent Senate speech, that the Nationalists were left out of the meetings lest their presence "wreck" the conference by offending Soviet Russia and other nations.

Jenner said the State department reportedly assured some senators that Japan will sign a separate peace treaty with the Nationalists, and not with the Chinese Reds.

"But the senators must not say so publicly," he said, for fear an announcement might disrupt the San Francisco conference.

"Why are we afraid to stand alone?" he asked. "If it is both morally right and essential to our national interest to support free China, what choice do we have but to take our stand? What can secrecy and double dealing help us?"

"Whom are we afraid of?" he

Youths Are Beggars Who Deserted China

SINGAPORE — (AP) — Many Chinese youths who fled recently to Red China from Malaya to avoid the manpower draft "now are begging in the streets of Hong Kong."

That's the word brought back here by a prominent Chinese businessman who recently returned from that British crown colony city. He reported that the youths had illegally, through underworld connections of the "Yellow Cow" gang, succeeded in getting out of South China and making their way into Hong Kong.

The businessman said all of the youths were eager to return to Malaya, but had found their re-entry barred.

PROBE LIKELY IN CAPITAL

WASHINGTON — (AP) — The Senate rules committee may vote today on a request for \$50,000 to set off an investigation of crime and narcotics traffic in the nation's capital.

The last report of the Senate crime committee, out last week, named Washington as a possible pivot point for organized racketeering.

demanded, "Red China? The Soviet Union? The Soviet fifth column in Britain and France? What country makes the State department tremble with fear?"

Jenner protested also that the State department has kept from Congress the text of a proposed mutual-aid treaty between this country and Japan. He said Congress should insist that it "contain unequivocal promises for American troops and American bases in Japan" — and guaranteed that they will not be designated as United Nations troops and bases.

Meanwhile several Republicans criticized a portion of President Truman's speech to the peace conference in which he praised Gen. Douglas MacArthur — whom he had fired from his Far East commands.

Mr. Truman spoke of "the pride that my countrymen and I feel" in the way allied occupation of Japan was handled under "the outstanding leadership" of MacArthur and Gen. Matthew Ridgway, his successor.

Senator Cain (R-Wash.) commented to a reporter: "It's a great pity the President didn't think of that before he so summarily dismissed General MacArthur."

Senator Caphart (R-Ind.) said he considered the President "only echoed what the American people have been saying — but the credit comes very late."

Senator Bennett (R-Utah) called it "peculiar" that Mr. Truman's praise of MacArthur "should be buried in a generalized statement of thanks to thousands — a single short paragraph."

Most Democrats said they wanted more time to study the President's words. But Senator Gillette (D-La.), a foreign relations committee member, said he thought the President always had made it clear he approved of MacArthur's job in Japan. He said the President fired MacArthur "for totally unrelated reasons" involving their disagreement on how to fight the Korean war.

There are 80 islands in Lake Champlain.

BUTTONS AN' BEAUX SHARON SMITH

Camera News

By IRVING DESFOR AP Newsfeatures

It is generally agreed that there would be more harmony in the world if people were left alone. They just don't like to be shoved around or bullied into this action or that. Speaking toward amateur photographers, let me add that there would be better pictures if people were left alone and were snapped in the act of doing things naturally, unaware of the camera.

I was forcibly reminded of this on my vacation when I tried to shoot some pictures of children at play. There they were in the sand box, absorbed in making pies, building castles and just letting the stuff trickle through their fingers. I sat nearby, with camera inconspicuous as possible and waited till I was part of the scene and no longer an object of curiosity. I studied the light and estimated the exposure, guessed at the distance, shifted a few feet to eliminate an unsightly background.

I raised the camera to my eyes several times and studied the activities through the view finder but lowered it innocently when an inquisitive eye came my way. Soon they accepted my action as normal and were no longer inquisitive. Now I was ready to shoot not one, but a series of pictures, and merely waited for the proper tilt of the heads and action of the hands.

At that critical moment, a councillor spied me and, anxious

New Way To Plant Oyster Shell Tried

CHARLESTON, S.C. — (AP) — A new way to plant oyster shells is being tried in coastal waters near here.

Young oysters, called spat, need to attach themselves to something rough soon after spawning. That's why dead shell is spread along the shoreline, in oyster banks.

The only method used locally for as far back as oystermen remember has been to shovel the

welcome to it. Even the lowliest box camera can take good pictures of people doing things naturally, unposed. If the button is pushed at the right moment when hand or face or activity is poised or suspended. It takes patience, to be sure, and it may mean that you have to shift around for a better angle instead of asking the subjects to move. In that way it wouldn't disturb the natural action which caught your camera eye in the first place and substitute for it the familiar, stiff, here's-looking-at-the-camera pictures.

In fact, I would like to propose this added characteristic in the definition of a serious or advanced amateur or professional photographer: "The ability to take pictures of people without saying 'Look at me!'"

That phrase belongs to the rank amateurs . . . and they are

Pep Rally At High School

Pampa High school's first pep rally of this year will be held at auditorium.

This will be a "rehearsal" for the cheering section for football games that begin Friday night. Head cheer leader is Linda Fraser, senior. A boy and a girl have been chosen by each class to be cheer leaders. Mrs. Mahie Torvie is sponsor.

Other cheer leaders are Pat Ellis, Elbert Daugherty, seniors; Pat Cargile, Bruce Campbell, juniors, and Beverly Rogers and David Fathere, sophomores.

Modern China has never produced enough oil for its own needs.

DiSalle Sees 6-8 Percent Rise In Autos

WASHINGTON (AP) — Price Director Michael V. DiSalle says automobile manufacturers probably will be granted an increase of from six to eight percent in the price of new cars. DiSalle told reporters the increase would be somewhat lower than the average of nine to 10 percent asked by the industry. In addition to the increase at the manufacturing level, another order to be issued soon will permit dealers to add their traditional percentage markup in sales to buyers. This will mean a further increase to the consumer. DiSalle said the order contains complicated formulas for manufacturers to figure their ceilings. Because of this he estimated it is impossible at the moment to estimate the range of increase on the various models.

The higher prices are being granted manufacturers to cover their increased costs of materials and labor since the Korean cost break. It was understood the order does not include all allowances for higher indirect costs such as sales and administrative expense, advertising and the like. The new Defense Production act requires that indirect cost increases be allowed. Price control officials hinted auto manufacturers might be expected to ask a further increase later on this basis.

Old-Timer Claims Film Love-Making Too Rough Today

HOLLYWOOD (AP) — "They don't make love today the way we used to." The man speaking was House Peters, the romantic star who flattered many a heart in the roaring '20s. Now grey and distinguished, he is performing his first screen role in 23 years and he paused to reflect on the quality of movie love-making today. "The screen lovers of today, just don't have the finesse with a woman," he sighed. They look at a woman as though they were going to attack her. They have no consideration for the subtleties of romance. "In the silent days, we were in no hurry when it came to making love on the screen. There are so many things you could do merely by holding a girl's hand or touching her face. It is the preliminaries that count." Peters admitted that the screen lovers of his day had one distinct advantage—the long kiss. Today's film ideas are limited to only a few seconds for their smacks. "Of course, I was never the overly romantic type of lover like Valentino or the other Latin." He continued, "It was too many-lookers for that. I got a laugh the other day by looking through an old magazine. There was a letter from a woman who said I was the only clean American lover on the screen."

Negroes File Suit For Entrance Into Wichita Falls School

WICHITA FALLS (AP) — Six Wichita Falls Negroes asked speedy hearing by a federal court of their suit to force Midwestern university here to accept Negro students. The six were refused admission when they filed their applications on Aug. 16. The suit asked for a court decree holding that action of the university in denying admission to Negro students is void and unconstitutional and for a permanent injunction to prevent the college from denying Negro students equal educational opportunities with other students. The Wichita Falls Junior College district, Wichita Falls Junior college, Hardin Junior college and statutes which call for segregation and separate schools.

Fight Predicted On Taxing Co-ops

WASHINGTON (AP) — Senator Humphrey (D-Minn.) has predicted a hot fight on the Senate floor over the finance committee's decision to tax larger farm co-operatives. Humphrey said he and other senators will try to knock out the tax.

Chemists' Stamp On Sale At Post Office

On sale at the post office are the three-cent stamps commemorating the 70th anniversary of the American Chemical Society. The stamp has for its central design the emblem of the society on a maroon background. The stamps were issued from the New York City Post Office. They are for floor consideration next week.

Oilmen Schedule Fort Worth Meet

About 250 men from every oil producing area will participate in industry committee meetings at Fort Worth, Sept. 30, in preparation for the 1951 annual meeting of the Independent Petroleum Assn. of America. J. Ed Warren, Midland, president of IPAA, said eight committees will prepare reports to be presented at the 22nd annual

Dallas Milk Price Boosted

DALLAS (AP) — The retail price of milk increased two cents a quart here Wednesday. One Dallas dairy said the increase would be effective immediately and other distributors said IPAA meeting, Oct. 22 and 23, in Houston. Warren urged members to attend or to write their ideas to committee chairmen.

Marriage Realized After Half Century

AXMINSTER, England (AP) — Fifty-nine years ago William Arnold asked Elizabeth Drew: "Will you marry me?" At a wedding ceremony in the Methodist chapel here recently she finally said, "I will." When William first popped the question in 1892 he was 21 and Elizabeth, 37. "You're too young for me," she said.

Finance committee staff experts predicted the new tax would pick up \$15,000,000 or \$20,000,000 a year.

The committee's action, if sustained, would reverse a 35-year-old congressional policy of offering tax exemption to all farm co-ops. The committee resumed work on the House-passed \$7,200,000,000 revenue-raising measure today. It already has sliced more than \$1,400,000,000 of the increase out of the bill. The finance group hopes to finish its work on the bill this week. The measure tentatively is

Amazing New Discovery for RHEUMATISM ARTHRITIS

NO FASTER PAIN RELIEF KNOWN SAFE - CLINICALLY TESTED

Developed after years of extensive clinical tests, IMDRIN has been a closely guarded experimental secret. Now proved conclusively to work incredibly toward bringing reduction of pain, heat, redness and swelling. For victims of rheumatism, arthritis, neuritis, sciatica, neuralgia. Get IMDRIN today.

RELIEVES PAIN AND SUFFERING AFTER YEARS OF TORTURE

"After five years of suffering from rheumatism, I discovered IMDRIN. The first dose relieved my pain, and I walked with a limp. After a few more doses, I feel better all around. I feel like a new man." — J. H. R. Chester, New Mexico

WHERE RHEUMATISM STRIKES... AND HOW TO DETECT IT

Rheumatic and arthritic pain and inflammation may strike any of the areas indicated on above chart (see Arrows). But these diseases have many forms and symptoms. All forms cause pain, frequent swelling, and possible loss of function at joints. Clinical test patients give IMDRIN were able to begin happy, comfortable living once pain subsided and confidence grew. IMDRIN reduces swelling and ease pain rapidly. IMDRIN may give you the same blessed results. Get IMDRIN today!

HOW IMDRIN HELPS YOU!

If you suffer the tortures of arthritic pain, IMDRIN may be your greatest hope. IMDRIN is one of the fastest arthritic pain relievers known. Cases deemed almost hopeless... persons suffering years... are now living happy lives. Every case backed by clinical proof. Get IMDRIN today. If it isn't the greatest blessing you've ever used, return for your money back after first bottle. Get IMDRIN today—start living a pain-free life!

SAVE SCIENTIFIC! IMDRIN contains no dangerous harmful drugs. It is not habit forming. Clinical tests prove it is one of the fastest pain relievers known. Start using IMDRIN today. Don't miss the chance to enjoy pain-free living.

Oilers Split Two With Amarillo Sox

AMARILLO — (AP) — Pampa's Oilers turned back the Amarillo Gold Sox 16-9 in the bottom half of a horrendous doubleheader here last night after losing the first game 18-11.

Amarillo all but clinched their possession of fifth place by coming from an 0-6 deficit to win the first game.

The split in games left the Gold Sox two and one-half games ahead of Pampa in the battle.

Lefty O'Doul In Search Of New Job

SAN FRANCISCO — (AP) — Frank "Lefty" O'Doul, who turned down job offers managing major league clubs to stick as pilot of the Seals for 17 years, will be among baseball's unemployed when the Coast League season ends, Sunday.

The big, handsome fellow, who twice led the National League in hitting while starring as an outfielder for the Phillies and Brooklyn, is the victim of unforeseen circumstances. Paul I. Fagan, owner of the Seals, announced his intention of quitting baseball, leasing his stadium and selling the franchise and player contracts.

He directed his club secretary to notify O'Doul his services would end with the season. In all his years with San Francisco, "Lefty" never had a contract. Only a verbal agreement.

O'Doul, as a player and later manager, is probably the most popular figure in San Francisco's baseball history. He joined the Seals as a kid pitcher in 1917.

During his career as Seals' skipper he turned down chances to manage the New York Yankees and Brooklyn, or at least was under consideration to manage the Giants.

O'Doul led the Seals to the 1945 split season championship and won the pennant outright in 1946. His clubs finished second five times and were out of the first division six times, including this season's probable last place wind-up.

Who ever buys the Seals may decide he is too valuable to remain on the outside. His ability as a manager is unquestioned.

Bobby Jones, five-time winner of the U. S. amateur crown, was recently elected captain of the Royal and Ancient Golf Club of St. Andrews, Scotland.

Area Boys Try To Make Repeater Out Of WTS Buffs

CANYON — (WTNS) — The big question mark in college football in the Panhandle of Texas is "What About West Texas State in 1951?"

Last year the Buffs of Coach Frank Kimbrough wheeled through to 10 outings and wrapped up the Border Conference championship, the Sun Bowl championship and led the nation with a sizzling 465.2 yards per game offense.

Gone from that squad are 9 starters which included the famous Bill Cross-Charles Wright scoring punch which replaced Doc Blanchard and Glen Davis of Army as the new national rushing champions. Also, Gene Mayfield, the Houdini of the Handoff, graduated and the battle for the starting quarterback slot is currently a hot feud between 4 upperclassmen and one outstanding freshman.

Currently, fifty-eight candidates are undergoing two-day drills at Buffalo Stadium in preparation for the season opener Saturday night, September 15, against Trinity University of San Antonio in Amarillo Stadium.

Three exceptional gridders from the Pampa area are figuring strongly in the 1951 season. Joe Ogden, lanky senior speed merchant from Letors, is presently leading the pack in the race for a starting halfback post. A reserve wingback last season, Ogden, was switched to the half-

PAGE 10 PAMPA NEWS, THURSDAY, SEPT. 6, 1951

ARMY'S HOPE—Candidates for West Point's football squad leave the campus gymnasium on their way to the practice field under the scrutiny of fellow cadets. Fifty-two of them, half the normal number of tryouts, are faced with the rugged task of replacing the powerful team which was wiped out by a wave of expulsions following the recent cribbing scandal. (NEA)

Area Boys Try To Make Repeater Out Of WTS Buffs

CANYON — (WTNS) — The big question mark in college football in the Panhandle of Texas is "What About West Texas State in 1951?"

Homers Lead Tribe To Win Over Tigers

(By The Associated Press) — Al Rosen and Luke Easter, Cleveland's classy one-two punch, are using their big bats to deflate the theory that the Indians are a "no hit, good pitch" club.

Rosen and Easter were the big guns last night as the Indians defeated the Detroit Tigers, 5-2, and regained first place in the American League. Each walloped a home run with a man on base to help the Tribe back up its 18th victory in 17 meetings with Detroit.

The Indians wrested the lead from the New York Yankees, who dropped a 4-2 decision to the visiting Boston Red Sox. The triumph moved the third place Sox to within three games of the defending champions and left them four behind Cleveland. Boston trails the Tribe by only one in the important "lost" column.

New York's Giants refuse to give up their fight to overhaul the National League leading Brooklyn Dodgers. A sweep of a doubleheader from Boston, 3-2 and 9-1, enabled them to cut Brooklyn's lead to five and a half games. The Dodgers whipped the Philadelphia Phils, 5-2, in 11 innings and from Los Angeles two from Washington, 4-1 and 6-7; Cincinnati defeated Pittsburgh, 6-3, and the St. Louis Cardinals and Chicago Cubs split. The Cubs won the opener, 3-2.

The homers by Rosen and Easter were needed to register his 17th triumph against 12 losses. The right-hander surrendered only four hits. Dick Kryhoski batted in both Detroit runs with a homer and single.

Hitting homers in the same game has become something of a habit to Rosen and Easter. Yesterday marked the ninth time this year the two sluggers accomplished the trick. The Indians won all nine games.

Brilliant pitching by Leo Kieley, called up from Louisville last July, hurled seven less innings before weakening. A brilliant rescue job by McDermott helped the 21-year-old from Hoboken, N. J., to his fifth victory in eight decisions.

Aces Trying To Overhaul Laredo

(By The Associated Press) — Corpus Christi, leaders in the Gulf Coast League almost from the first of the season, found themselves playing catch up today. The Aces trail by a game in the first round playoffs.

Fourth place Laredo spotted the Aces five runs, then prevailed 10-9 last night.

Second place Harlingen beat third place Brownsville 9-3 in the other first round game.

With Joe Koppe slugging two home runs, the Aces scored four runs in the first and one in the second. Ray Mink, the Corpus Christi handy man couldn't hold the Aces. They finished off with four in the seventh. Earl Caldwell, the third Harlingen pitcher, stopped Brownsville in the ninth inning to preserve an early Capital 1-0 lead.

Caldwell caused Steve Golets to ground out with the bases loaded to end the game.

Billy Goodman's two-run double in the first inning, Ted Williams' 28th homer in the third and Bobby Doerr's single in the fifth, accounted for the Red Sox runs. All came with two out. Vic Raschi lost his ninth decision against 17 victories. Williams now has homered in every park joining Eddie Robinson of Chicago as the only American and 9-1, enabled them to cut Brooklyn's lead to five and a half games. The Dodgers whipped the Philadelphia Phils, 5-2, in 11 innings and from Los Angeles two from Washington, 4-1 and 6-7; Cincinnati defeated Pittsburgh, 6-3, and the St. Louis Cardinals and Chicago Cubs split. The Cubs won the opener, 3-2.

The homers by Rosen and Easter were needed to register his 17th triumph against 12 losses. The right-hander surrendered only four hits. Dick Kryhoski batted in both Detroit runs with a homer and single.

Hitting homers in the same game has become something of a habit to Rosen and Easter. Yesterday marked the ninth time this year the two sluggers accomplished the trick. The Indians won all nine games.

Brilliant pitching by Leo Kieley, called up from Louisville last July, hurled seven less innings before weakening. A brilliant rescue job by McDermott helped the 21-year-old from Hoboken, N. J., to his fifth victory in eight decisions.

SWC Squads Open Rough Workouts

(By The Associated Press) — It's slam-bang and don't spare the heads as Southwest Conference football squads push through the first week of fall practice. They're at it in all the camps and the injury list shows how tough it's getting.

Arkansas has centers Jimmy Smith and Charles Ramey, and Frank Fischel, fullback Lew Carpenter, tackle Jim Sperring and guard David Lashley among casualties.

Texas A&M couldn't use Charlie Hodges, starting end, and guard Bob George, and Yale Lary, the team's top punter, hasn't been able to work out all week. Neither has linebacker Van Hetherly.

SMU welcomed Jerry Norton, sophomore runner, back. Norton has been out with an injured ankle.

Otherwise, there were only bumps and bruises.

Rice had its first scrimmage yesterday. Cooler weather was the reason — the boys could put on the pads and other regalia necessary for the rough stuff.

Several camps worked on punting and punt formations. Among them were the Aggies. And while Lary watched from the sidelines, four other fellows were doing a good job of booting the ball. They were quarterbacks Roy Dollar and Ray Graves, center Hugh Meyer and halfback Bob Shaffer.

Texas worked on punt returns and extra points attempts. June Davis and Bill Johnson, guards, and Walter Bond, end, did the extra point work. Bobby Dillon and Bob Raley worked as a double safety.

Gil Bartosh sparked the workouts at TCU. The talented quarterback went 65 yards for one touchdown and set up another with his passing as the Frogs continued their vigorous scrimmage schedule. Dutch Meyer also liked the work of halfback John Medanic and tailbacks Ray McKenna and Bubba Jones.

Baylor did away with morning practice but the boys had a scrimmage in the afternoon.

Coach Otis Douglas of Arkansas liked Ralph Trotlett, a junior college transfer, who showed he would fight veteran Jim Rinehart for his quarterback job.

Hubbers Rally To Top Borger

BORGER — (AP) — The Lubbock Hubbers and the Borger Gassers closed out their 1951 series here in Huber Park with the Hubbers coming out on the long end of a long drawn out, error marred game, 7-5.

Ray Faust went all the way to rack up the win and Socky Red, first of two Gasser mounders, was charged with the loss. Faust had little trouble excepting the bases twice but timely double plays eased him out of the hole.

Brandsel University's football coaching staff has representatives from Michigan, CCNY, Harvard, Boston U. and St. Bonaventure.

PRESIDENTIAL PROSPECTS
Tom Dewey (little Tom Thumb himself), it seems, managed to stand on tip-toe and look over the pulpit at an audience down in New Zealand and tell them that he definitely would not be the Republican nominee for president in 1952.

By WESTBROOK PEGLER
NEW YORK — In addition to 13 references to Margaret Bourke-White in the earlier records of the House Committee on Un-American Activities, numerous other contacts of the same kind have been noted since 1944 when the historic volume, INDEX IX, went to press.

Federal Government Should Not Levy Gift, Estate Taxes
(Editor's Note: Robert B. Dresser of Providence, R. I., is a member of one of the leading law firms of that city. He is author of resolution proposing a constitutional amendment limiting the power of Congress to tax income, inheritances and gifts, which has been passed by a number of state legislatures. He has written many articles on this and other tax questions. This series of articles states in substance his recent testimony before the Senate Finance committee on the pending tax bill.)

Under existing laws the tax on the estates of decedents runs from a high of 77 percent, and the tax on gifts to 37 3/4 percent. These rates are manifestly confiscatory, and they have very harmful economic effects. They not only seriously impair the incentive to work, produce and invest, but they are extremely destructive of capital and will, in the long run, destroy the accumulations of capital that are so necessary for industrial activity and expansion with the resultant beneficial effects on our economy and the people as a whole.

FAIR ENOUGH--PEGLER

By WESTBROOK PEGLER
NEW YORK — In addition to 13 references to Margaret Bourke-White in the earlier records of the House Committee on Un-American Activities, numerous other contacts of the same kind have been noted since 1944 when the historic volume, INDEX IX, went to press.

Those 13 citations in the official report of the committee quoted from documents put out by some of the most flagrant Communist fronts in the country. Therein Miss Bourke-White and her former husband, Erskine Caldwell, a writer of pessimistic books about the American scene, were listed as sympathizers.

This woman is a photographer who has persistently emphasized some of the worst spots of our country. She enjoyed the courteous favor of the Soviet dictators on a sojourn in Russia during the war and she herself is authority for the statement that she has been a photographer for Life magazine since 1936.

And, moreover, those who have fought the Communist treason at considerable risk and pain for years, including the years since 1938 when Miss Bourke-White joined the staff of his Peeping Tom paper, Fui-Pi-Yu, is known as the most prominent and most influential anti-Communist. In this respect he might be said to run a dead heat with Harold Ross, the editor of the New Yorker, except that the New Yorker is no longer influential. His deceitful praises of Frank Sinatra, Alger Hiss and the team of Draper and Adler, presently were discredited by the conduct of these editorial proteges of the New Yorker, and a strange dreaminess set in, as endless "profiles" of dull, meaningless people droned on.

many notorious fronts. Miss Bourke-White and a reporter for China-boy's magazine "were the only civilians ever to do so," said one of his ads for this brazen exploit. "They were in places so closely guarded their passes were constantly being checked by armed guards. This actual

Under existing laws the tax on the estates of decedents runs from a high of 77 percent, and the tax on gifts to 37 3/4 percent. These rates are manifestly confiscatory, and they have very harmful economic effects. They not only seriously impair the incentive to work, produce and invest, but they are extremely destructive of capital and will, in the long run, destroy the accumulations of capital that are so necessary for industrial activity and expansion with the resultant beneficial effects on our economy and the people as a whole.

It should be realized that rich men, such as, for example, the late Henry Ford, play a very important part in our economy. They and their families can personally consume and enjoy but a trivial part of their wealth. The balance is in effect held by them as trustees for the public. It is this wealth that supports and sustains much of the venture or risk capital required by new and hazardous enterprises, such as the railroads, the automobile industry, the aircraft industry, and many others, as well as for the expansion of existing enterprises. By this means jobs and good wages have been provided for millions of workers.

Such enterprises, however, are risky. Many of them fail and the investor loses his investment. Hence, he must have funds that he can afford to risk. Most people do not have such funds, and banks, insurance companies and trust estates are not permitted to make such hazardous investments. High death as well as high income taxes destroy the incentive and the ability to incur such risks.

Does anyone doubt that the wealth of Henry Ford was a greater benefit to the people and to the country than the money he would have been in the hands of the federal government? He used it to develop a great industry which has given employment at good wages, a directly and indirectly to hundreds of thousands of people. In the hands of the federal government the money would soon have been dissipated in the construction of non-productive post-offices and other government buildings, and in paying the costs of an unduly

National Whirligig
By RAY TUCKER
WASHINGTON — A semi-cooperative corporation embracing Iranian, British and American interests may even eventually tame the politico-diplomatic-economic solution for the threatening petroleum difficulties in the strategic and restless Middle East.

Although this prospect may not be entirely satisfactory to the British, who regard it as further evidence of the breakup of their erstwhile empire, it is known that it was discussed by W. Averell Harriman, President Truman's emissary, and Richard Stokes, London's representative, during their recent negotiations with Premier Mohammed Mossadegh at Tehran.

Under the proposed plan, Iran would nominally manage the industry through holding company's board of directors. That might satisfy all except the extreme nationalist and pro-Russian factions.

JAPAN: Rebirth of a Nation (3)

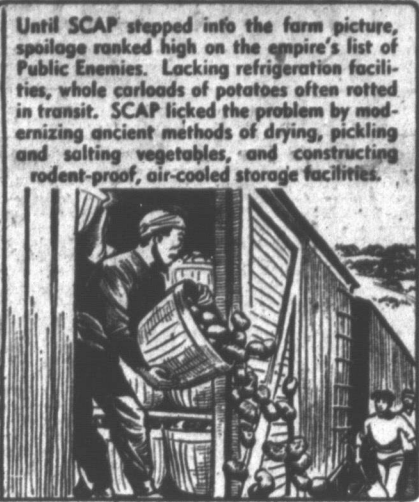

Illustrated by Ralph Lane

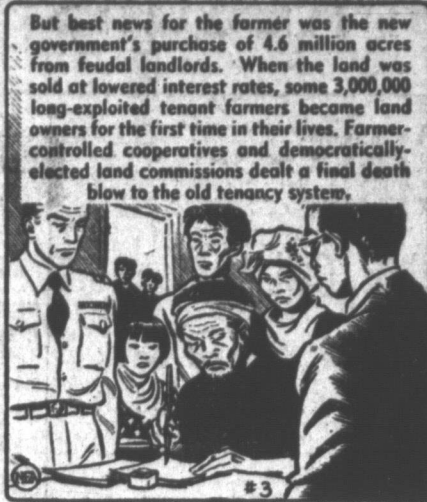

Japan's oldest enemy is starvation. Although the Japanese are skillful farmers of their pathetically small fields and rice paddies, less than 19 per cent of the country's 91,000,000 acres can be cultivated. In 1945, bad weather, fertilizer shortages and the ravages of war had left the Japanese farmer face to face with his age-old foe.

With plant insects and diseases reducing Japan's crops by at least 12 per cent annually, one of SCAP's first jobs was to promote the widespread use of insecticide dusts and aerosols. The timely importation of fertilizer and the development of a seed improvement program have also paid big production dividends.

Until SCAP stepped into the farm picture, spoilage ranked high on the empire's list of Public Enemies. Lacking refrigeration facilities, whole carloads of potatoes often rotted in transit. SCAP licked the problem by modernizing ancient methods of drying, pickling and salting vegetables, and constructing rodent-proof, air-cooled storage facilities.

But best news for the farmer was the new government's purchase of 4.6 million acres from feudal landlords. When the land was sold at lowered interest rates, some 3,000,000 long-exploited tenant farmers became land owners for the first time in their lives. Farmer-controlled cooperatives and democratically-elected land commissions dealt a final death blow to the old tenancy system.

'No Wild Parties If I Go To Washington,' Says Candidate

BENJAMIN, Texas — (AP) — James A. Stephens says there will be no wild drunken parties or poker playing in his apartment if he goes to Washington. "If my friends come to see me all they can enjoy will be a big thick steak cooked in a dutch oven as I do here in Benjamin," Stephens declared. He's a big, white-haired man, eighty-two years old. He's a practicing attorney in Benjamin. And he's running for Congress to fill the post that Ed Gossett left when he resigned this summer. The election is Saturday. But Stephens isn't making any speeches, and he promised to spend only 75 cents in stamps on his campaign. "I made my application to place my name on the ticket to every county judge in the district," he said. "I said my age was 82. I wrote a letter to each stating that my only expense in the race would be twenty five three-cent postage stamps to every one that requested me to go make a speech, that I was living up to my stamp promise, that I would not be there." And Stephens said he was receiving many envelopes with 20 stamps — "times as they are, many voters don't approve of too much spending. So they write."

Texarkana Getting A Break On Calls

TEXARKANA — (AP) — If you ever want to make a telephone call to Dallas from Texarkana, call from the Arkansas side of the city. It's cheaper. The same thing goes if you want to call Hot Springs, Ark. Make the call from the Texas side. Confusing? So is the telephone rate structure worked out by Texas and Arkansas rate fixing bodies and the Federal Communications Commission. L. L. Porter, district manager of the Southwestern Associated Telephone Co., said the situation is not unique in Texarkana. "It's the same in any border city," Porter said. The gist of rate fixing, he said, is that it's cheaper to telephone interstate than intrastate. Texarkana folks making long distance calls get the break. The Arkansas-Texas state line divides the city. Residents can cross that line without too much trouble to get the interstate break on long distance calls.

Science Show To Be Fair Highlight

Science in everyday living will be one of the phases of the Science Engineering show at this year's state fair, Oct. 6-21. The nation's leading industries will be represented at the show and will explain how research makes possible improved home appliances, finer and faster automobiles, progress in television and advanced methods of warfare. There will also be exhibits from the U.S. Department of Defense, University of Texas and Texas A&M.

No Segregation Of Colored Germans

BREMEN, Germany — (AP) — There will be no segregation in Bremen schools of colored children born to German women by American Negro soldiers, German school authorities have announced. Some Germans suggested separate classes for the 25 half-Negro youngsters who will become of school age here next year. But it has been decided to accept them in the classrooms alongside white German pupils, said Friedrich Erberman, Bremen school counselor. "This is the best way to prevent them from developing an inferiority complex," he commented.

McLemore Takes A Blast At Sioux City And Other Things

By HENRY McLEMORE
Getting A Lot of Little Things Off of a Little Chest: The cutest animal in the world is a lion cub, and the stupidest animal in the world is a mountain climber. . . . I have yet to be able to sympathize with any man who climbs a mountain and falls off. . . . It grieves me to know that there are such people in the world as those in Sioux City, Ia., who refuse to let a man who had given his life for this country be buried in this city cemetery because he was a Winnebago Indian. . . . Sioux City officials have apologized, but just remember they didn't apologize until the heat was on, which means their apology means nothing in my book or any decent man's book. . . . The officials who barred Sergeant Rice's burial should always be remembered as men who took a stand against all this country stands for. It must have pleased every American when he read what President Truman did about the Sioux City disgrace. . . . He ordered full military honors for the sergeant at Arlington cemetery. . . . As head man of this country he sent a plane to pick up the sergeant's body and his family and bring them to Washington, where the sergeant will sleep among the country's heroes. . . . No taxpayers in the United States will complain about chipping in his penny for that flight. Just in case you think I'm going overboard for Mr. Truman let me tell you that I consider his handling of the Czech ambassador was aimed more at getting votes than getting newspaperman Oatis out of jail. . . . If he really wanted to get Oatis out of jail quickly why didn't he tell the Czech ambassador that this country didn't have to knuckle down to the likes of Czechoslovakia, and if this country didn't get action on Oatis in 24 hours, the Czechs would get action? . . . After all, the President brought home a man like MacArthur so he must have every reason to send home a Communist. . . . No use treating your kin folks bad and letting those who mistreat our people off free. With all the problems it has to face, Oatis has taken time out to pass a law forbidding anyone to go over their side of Niagara falls in a barrel. . . . Can you imagine anything nicer for a country than to get rid of the people who go over Niagara falls in a barrel? . . . I don't know of any country in the world that would not be improved if all the citizens who wanted to go over Niagara falls in a barrel were not only allowed to, but encouraged. It is my firm belief that any man whose dream it is to go over Niagara falls in a barrel should be allowed to go, even if he hasn't got a barrel. . . . I think I remember an old Bugs Baer line along these same sentiments in which he said that a man with that many squirrels in his head should be allowed to shoot the falls in a hollow tooth.

Committee Seeks Answers On U. S. Newspaper Woes

NEW YORK — (AP) — A congressional committee — a medal with questions American publishers want answered about newspaper — are in Montreal today to get Canadian views on the shortened paper supply situation. Rep. Lindley Beekworth (D-Texas), head of the House Interstate commerce sub-committee on newspaper, and other members of his group met Tuesday in New York with some American publishers. At the closed, informal session, Beekworth said the publishers presented questions they would like to have answered by Canadian officials and manufacturers to clarify the future picture. In an interview after the meeting, Beekworth said he understood the publishers could not get all the newspaper they needed from Canada because some of it was being diverted to Europe and some woodpulp was being used for products other than newspaper. Beekworth stressed that the problem was being approached amicably by both the Americans and Canadians. The Texan said the publishers wanted information on such questions as these: How much Canadian newspaper will be produced next year? What will be done with it? What reductions or diversions are planned? How much newspaper will be available to American publishers? The American newspaper market depends heavily on Canada, producer of five times as much newspaper as the United States. A mutuality of interests, Beekworth said, would be one topic discussed in Canada. He said that while Canada has most of the newspaper, the United States is a major supplier of sulphur, an important ingredient in newspaper production.

Sooner Complains Dallas Is Hijacking Cotton Bowl Guests

McALESTER, Okla. — (AP) — A University of Oklahoma alumnus and one-time grid great Cotton Bowl bound for next month's football game with Texas — complained to the Office of Price Stabilization Dallas hotels were "trying to hijack the public the week end of Oct. 13." Roy Spears, 6-5, 245 pound center for the Sooners in 1912-13, protested that Dallas hotels were requiring Oklahomans to buy rooms for three nights to assure a place to sleep after the Longhorn-Sooner contest. Spears said the Wycliff motel had told him he must pay \$80 for two rooms Thursday, Friday and Saturday nights if he wanted reservations. He had asked for Friday and Saturday night accommodations. He said a check disclosed that many other Dallas hotels had adopted the same policy. "Shades of inflation, what are the hotels in Dallas doing to us Oklahomans," he wrote to the OPS office in Dallas. OPS has no control over Dallas hotel or motor court rates. Several of Dallas' largest hotels have for the first time instituted a rule requiring guests on the Oct. 13 week end to reserve and pay for rooms for three days, beginning Thursday. "This is simply a protection for those people who have confirmed reservations," a spokesman said. "It gives us an extra day to clear the house of people who come in at the first of the week and then refuse to leave. It is not hijacking. It merely

Texas Newsman Has No Faith In Louisiana Justice

ORANGE — (AP) — An Orange Leader reporter who says he was punched in the nose by a Louisiana night club bouncer has refused to file charges because "I do not have enough faith in Calcasieu parish justice." Joe Parsley, author of a front-page column which has consistently attacked gambling in the parish (county) just across the Louisiana border, said the attack occurred early Monday. Several hours later two Louisiana deputy sheriffs and an Orange (Texas) county officer called on him and asked that he file a complaint. "I told them that on the basis of my own experience as a reporter in a county adjoining their own and in view of what happened last week to five Lake Charles newspapermen, I do not have enough faith in Calcasieu parish justice to bother with filing charges," Parsley said. The parish (county) grand jury indicted four members of the Lake Charles (La.) American Press staff on charges of defaming parish officers and two admitted gamblers. The American press also has been campaigning against gambling. One of the gamblers, Claude Williams, owns

Shells Still Remain Menace To Children

ROME — (AP) — War, six years after its end, still takes a deadly toll of children in Italy. The average number killed annually picking at or playing with hand grenades, bombs and mines is 1,400 — three or four every day. An intensive campaign has been set by the National Organization for Accident Prevention to cut or eliminate this slaughter. The organization has distributed thousands of posters showing a boy about to touch a half-buried shell. The large-mounted club she w boat, scene of the alleged attack on Parsley. Williams told the leader the man who slugged Parsley as he walked down the show boat ramp was a former bouncer discharged some time ago. He named the man, who then denied to the leader that he had struck the newspaperman.

WE ARE FIRST! YES FIRST IN THE PANHANDLE!

AMAZING NEW FALL SUITS BY "ZIM"

In a Magic Fabric That Is Moth Proof, Crease Resistant and Color Fast!

\$19.98

Compares to \$29.98 Value!

Miracle Tailoring:
Master crafted by famous "Zim," detailed and finished like much higher priced suits. Fully lined in high quality rayon crepe, interfaced with shape retaining armo hair canvas.

Miracle Selection:
Fashion — New silhouettes for Juniors, Misses, and Women! A bevy of colors! Two-tones, solids!

Each suit is tailored to fit . . . and true to size — quality assured by New York's leading suit tailors — advertised and featured editorially in fashion magazines throughout the country.

PAMPA TEXAS

THIS HEEL HAS A "WAISTLINE"

\$5.98

buys you \$15 worth of fashion.

at **LEVINE'S**
"Prices Talk"

See how this new heel curves in the middle . . . like a slender waistline! Here's the flattery of a high heel . . . the comfort of a "happy-medium." And very new . . . the pretty shell-cut shoe. In softest, smoothest suede.

STORE HOURS:
Weekdays 9 - 6 Saturday 9 - 8 PAMPA TEXAS

FAIR WARNING — Hollywood actress Colleen Miller goes in for a bit of sun-bathing that sounds a warning to the beach wolf patrol. Oddly enough, the slogan she selected happens to be the title of a new picture.
