

Mainly About People

Apprentice Seaman James Jackson Davis is visiting here this week with his sisters, Mrs. Lloyd King and Miss Delores Davis, 2001 N. Coffee. He will return to his base in San Diego, Calif.

If you fail to receive your Pampa News by 6:30 p. m., call No. 9 before 7:00 p. m.

Mrs. H. E. Eversmeyer of Dallas is visiting this week with her daughter, Arden, 1334 Christine.

Mr. and Mrs. Marion Smith, of Canadian, spent the week end here in the home of their daughter, Mrs. Laura Belle Cornelius. Mrs. Smith is remaining until Mrs. Cornelius returns from Houston, where she has taken her daughter, Jean, to enter Rice Institute.

Miss Donna Robinson left today for Lubbock where she will enroll at Texas Technological college as a sophomore. She is a transfer student from the University of Oklahoma. Miss Robinson was employed at the First National bank during the summer.

Mrs. Lucille Wilson and children, Bobby and Kathie, of Taos, N.M., visited friends in Pampa over the week end.

Miss Irma Jean McWright, motorist fined on drunk charge.

WHEELER (Special) County Judge George Hefley assessed a fine of \$50 and costs against Robert Patton, Shamrock, in county court here.

Patton, recently arrested by highway patrolmen, was charged with driving while intoxicated.

CITIZENS

(Continued from Page One) the south end of town along Crawford; 18 manholes and labor, including ditching. The other outfall line, running from the swimming pool to the disposal plant, would use 8300 feet of 18-inch sewer tile, 3000 feet of 15-inch sewer tile and 24 manholes. Extension of lateral sewer lines that would take in 40,000 feet of ditching, sewer tile, manholes and labor would cost an approximate \$54,000.

An estimated cost of \$141,375 was tacked on to the bridge and street improvement project which would include bridges on Somerville, Kentucky, Yeager, and a pedestrian walk on the Duncan bridge. The program also calls for large culverts on Gwendolen, Clark, Wilcox, Albert, Barnes, Hupson, and the Foster-Kingsmill alley. Since the state has requested the city extend its storm sewer on N. Hobart, an additional \$1500 was put into the project. Other improvements would include traffic lights at four intersections and rest rooms in the city's four parks.

Mayor C. A. Huff, City Manager Dick Pepin, and City Engineer Ray Evans termed the water and sewer improvements "immediate necessities." Mayor Huff, in his opening address, said the committee was called together "because it is the citizens' problem as well as the city commission's."

The mayor told the group there were several ways to raise the money: call a bond issue; raise the tax rate and take care of one project each year until all are completed; call a bond issue for part of the program and let the remainder drop — or let the whole thing drop.

Oden, after taking the floor, asked each of the committeemen present to sign their names on a pad and turn it over to him. Sometime today Oden will break the group down into three study groups — one for the water system, another for the sewer problem, and the third to work on the street and park problem. A chairman for each will also be named and notices mailed tonight to each member telling him which committee he is on.

"These groups will be asked to meet as many times as possible between now and Monday so they will be ready to make their recommendations to the whole committee."

WHY, RUDOLPH!—Doing their best to make "Rudolph" (a red-nosed reindeer) feel at home at their base in Korea are U. S. Airmen Cpl. Danny Scarpati, left, of Newark, N. J., and S/Sgt. George O. McFarland of Fairborn, O. The young deer wandered into the ammunition supply depot, saw all the sergeants and got buck fever. (U. S. Air Force photo from NEA-Acme.)

daughter of Mr. and Mrs. W. M. McWright, 214 N. Gillespie, left Sunday for Amarillo to enroll in Draughins Business college.

Tommy Allison of the U. S. Marine Corps, has returned to his base in San Diego after visiting here with his parents, Mr. and Mrs. R. F. Allison, Sinclair-Merten Lease. Capt. and Mrs. Wendell LaCasse and children of End, are visiting his parents, Mr. and Mrs. J. P. LaCasse, 415 N. West, this week.

Wanted: Women for work. Apply in person at Your Laundry and Dry Cleaners, 301 E. Francis.

For sale: Close in 11 room modern house — apply 919 W. Rham.

S. B. Smith and two children, Bobby and Sally, of Andrews, are guests in the W. D. Kelley home. Smith is Mrs. Kelley's brother.

274 Enrolled At Shamrock High School

SHAMROCK (Special) — Shamrock high school now has an enrollment of 274, reports Edward M. Burkhalter, high school principal.

There are 155 seniors, including 28 boys and 27 girls. Junior number 59, with boys totalling 35 and girls 24.

Sophomores constitute the largest single class, with 47 boys and 39 girls for a total of 86.

Freshman class which normally would be the largest group, have 71, divided with 32 boys and 42 girls.

Reason for the large sophomore class is the addition of Twitty and Magic City districts which brought in a large freshman class in 1950.

Last year there were 290 high school students at the enrollment peak in the fall.

Officials had expected about 375, after adding the Bethel school brought in a consolidation election last May.

There are 42 teachers this year, an addition of two gained from the Bethel consolidation.

Supt. Elmer J. Moore heads the Irish schools for the seventh straight year. He formerly taught 12 years in other Panhandle cities.

Officers Seated By Shamrock PTA

SHAMROCK (Special) — South Ward PTA has installed new officers, with Mrs. Rufus Dodgen in charge of the installation.

Mrs. Gene Ray assumed the presidency, with Mrs. Bailey Henderson as vice-president. Mrs. Dan Frye, secretary, and Mrs. W. R. Ritter, treasurer.

Twenty-six members joined the PTA. South Ward has had no PTA organization since being reopened in 1950. It was closed for a period of about 10 years and opened last fall to relieve crowded conditions at North Ward.

INFANTRY

(Continued from Page 1) with a five-mile view into enemy territory.

They won the commanding height after a savage three-hour hand-to-hand fight against bitterly resisting Reds.

"The hard-fighting United Nations forces swept nearly three miles Tuesday in the general area of the north-south Soyang river. Eighth Army sources did not pinpoint location of the peak.

The Allies, using bayonets and flamethrowers, have advanced 12 to 15 miles northward in two waves of tough hill fighting in Eastern Korea.

The first limited offensive attack began in mid-August from an allied line that then was 20 to 25 miles deep in North Korea.

That drive carried four to seven miles in two weeks. It cost the Reds their punchbowl assembly area.

The Allies halted for regrouping, then shoved off on a second limited offensive Sept. 9.

Vital Statistics HOSPITAL NOTES

HIGHLAND GENERAL ADMISSIONS: Egly Ross, 521 Doucette; Mrs. Dorothy Keeling, 939 Schneider; Mrs. Bessie Waters, Skellytown; Bill Mums, Pampa; C. L. Donner; E. C. Rupp, 534 S. Somerville; Baby Larry Smith, White Deer; Mrs. Marion Honea, White Deer; JoAnn Meadows, 1017 S. Wells; Mrs. Lucille Gaines, McLean; Mrs. Betty Howell; Mrs. Ann Wisdom, Panhandle; Mrs. Mary Hutto, Borger; Mrs. Kirk Duncan, 1613 Hamilton; Mrs. Haysel Smith, 307 1-2 W. Foster; R. L. Myers, Pampa.

DISMISSALS: Rev. W. B. Hicks, Lefors; W. S. Shouse, 801 Murphy; M. S. Jenkins, 727 E. Locust; Elvin Kite, McLean; Shress Ann Cable, Lefors; Mrs. Mary Day, 910 Twiford; Mrs. A. J. Sutton, Skellytown; Mrs. Dorothy Neslage and baby girl, 1341 Russell.

LEGAL RECORDS WARRANTY DEEDS: J. S. Morse and M. E. Morse, husband and wife, to Minnie Morse Haynes; Lots 18, 19, 20, 21 and 22, Block 2, Subdivision of Block D, Christian Add.; McLean.

Radiator Shop Changes Hands

W. A. (Buster) Claunch, 413 S. Ballard, has purchased Doc's Radiator shop, located at the corner of Sommersville and Atchison.

Claunch, a city fireman, said the new name would be the Pampa Radiator shop. W. B. Maggart, Iowa Park, Texas, was the former owner.

ATLANTIC

(Continued from Page One) U. S. Senate and by parliaments in other countries, Greece and Turkey would then formally be invited to join.

Both countries have long sought security guarantees from the Western Powers, particularly the United States. There is no question about their joining if asked.

OPS Rules On Yule Merchandise To Be Discussed Tonight

Regulations governing Christmas merchandise will be discussed at 8 p. m. today in the district court room when merchants from 10 area cities will meet here with Office of Price Stabilization experts.

Businessmen from Groom, McLean, White Deer, Miami, Canadian, Mobette, Lefors, Wheeler and Skellytown have been invited to attend.

OPS officials will help merchants apply the pricing rules under their pricing charts and discuss Amendment 8 to Ceiling Price Regulation, 7, according to the local chamber of commerce, co-sponsors of the meeting.

Shamrock Students Off For College

SHAMROCK (Special) — Many of the seniors of 1951 have left Shamrock to enter college this fall.

Texas Tech, at Lubbock, drew Carrol Valentine, Virgil Snell, Clois Smith, Gene Payne, Ted Sonnenberg, Patsy Eblevins, Albert Purcell and Mickey Fogelson.

West Texas State at Canyon attracted Nova Jones, Shirley Lee, Johnnie Pavlovsky, Martha Lou Setzler and Ila Jean Byars.

Texas A&M also drew 1951 seniors, including Bobby Hammack, Mac Christner, Fred Hofmann and Andrew Carver.

Kathleen Tindall left for Stephens college at Columbia, Mo.

Jane Skidmore is at Baylor University, while Haral Dunnam, Irish grad ace of 1950, is at Lon Morris Junior college, Jacksonville, studying for the ministry.

Peggy Porter is going to North Texas State at Denton.

Vernon Tarbet, ace Irish half-back and basketball star, will work the first semester and then enter Abilene Christian college on an athletic scholarship.

Driver Ticketed After Collision

One man was given a ticket for following too closely in traffic after an accident at 6:45 p. m. Monday on Cuyler and T.M.

Involved were Lee W. Hoover, Pampa, and Virgil E. McNeely, 837 E. Campbell. The latter's car allegedly struck the back of the Hoover car when it stopped at a stop light.

About \$200 in damages was listed on the McNeely car and \$40 on the Hoover car.

GUIDING HANDS of the Pampa High school student body are, left to right, Johnny Willis, junior class president, Rex McKay, sophomore president, Tolle Hutchen, senior class president, (noted) and Bryan Clemens, president of the student body. Clemens was elected last year and the class presidents were elected this week. (News Photo)

Allender Campaign Song Written By Manager Of KPND

If and when Dan Allender of Dalhart starts campaigning for president, his campaign song will be "Dan's the Man" written by Coy Palmer, manager of KPND.

Allender announced early last summer he may "throw his western hat into the ring" when he decided that what Washington needs is "a business man and not politicians."

He will run on the "Referee Party ticket," one of his own design. His idea is to "referee Washington's cliques."

Palmer has recorded several songs with Allender, who has, as one of his hobbies, a recording studio called "Time Records."

Allender owns two furniture stores in Dalhart and a venetian blind and upholstery shop in Amarillo.

He has composed a number of songs, one of which was recorded by Bob Willis—"Staccato Waltz."

Palmer said Allender recently told him he has received numerous letters from all over the United States since his announcement, but he said he is not sure he will run for president.

Woman Fined On Liquor Violation

Myrtle Rittenhouse, 408 Crest, paid a fine of \$100 and costs in

Local Group Will Attend Conclave

Representatives from Pampa will attend the convention of the West Texas Chamber of Commerce to be held in Amarillo Nov. 14-16, the local chamber announced today.

Roy Bourland and G. S. Vineyard are members of the West Texas chamber board of directors. Bourland is also director of Dist. 1, and a member of the executive board.

The Amarillo meeting will be the first since a complete reorganization of the staff and program inaugurated last winter with the appointment of Fred Hubbs as vice president and general manager.

Roundtable Scheduled For Scouts

District Roundtable for Santa Fe Boy Scout district is scheduled for 7:30 p. m. today in the City Palm room with James A. McCune, district commissioner, presiding.

Main issue to be discussed by the group is the roundup program to be staged later this month. A skit will be presented in connection with this with Jim Goff, institutional representative of the First Christian church scouts in charge. Procedure for open house to be held during the roundup will be shown.

Cub Scout introduction offer to be used during the roundup will be shown the group.

Each committee on the Roundtable will hold short private meetings to determine meeting times to plan for open houses.

Sam Begert, chairman of the leadership training committee, will present plans for his course of instruction to be given soon. George Newberry and his committee will show plans for the Camping and Activities group.

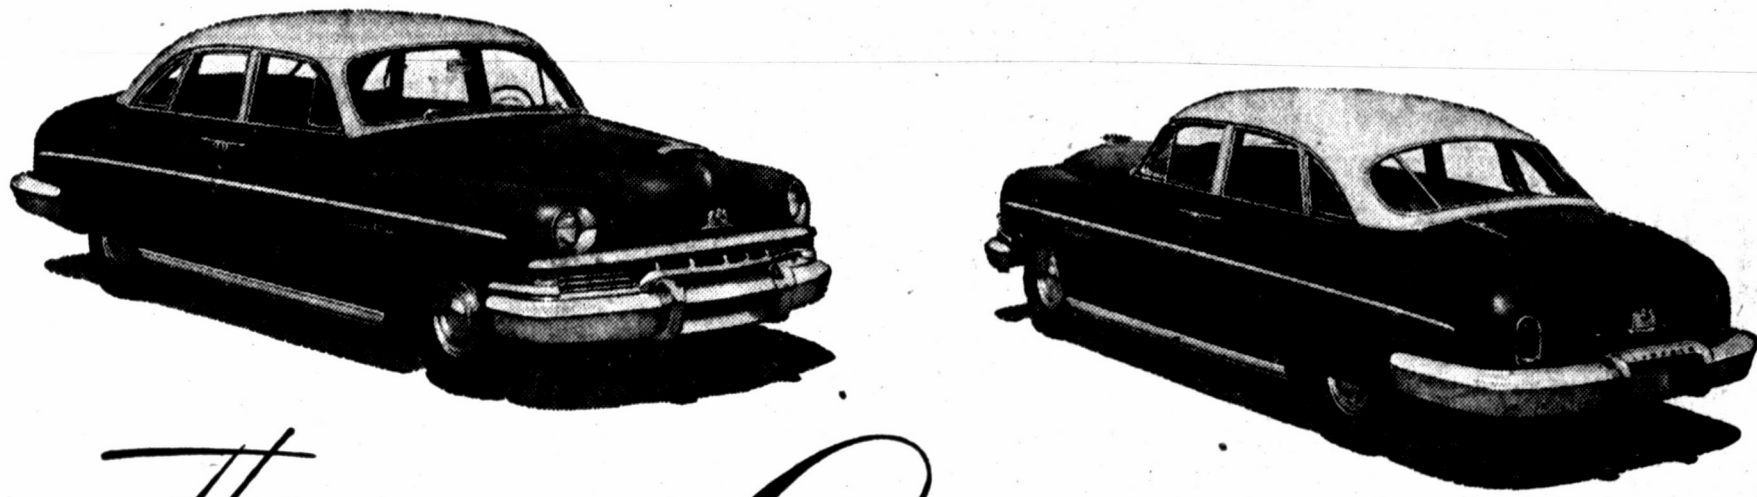

Closing ceremony will be conducted by John Teed, Troop 10, and representatives from Post 14, Troop 14 and Pack 14.

Organization of the staff and program inaugurated last winter with the appointment of Fred Hubbs as vice president and general manager.

Power Steering Considered No. 1 Automotive Triumph

DETROIT — (AP) — Adaption of power to passenger car steering is one of the great automotive engineering advances of 1951. The motoring public has seen it only in some Chrysler models. Next year, however, hydraulic help in handling the wheel will be applied to other makes, unless material shortages upset planning.

Chrysler introduced power-assisted steering several months ago in its Imperial and New Yorker models. Now it has been made available also in the slightly shorter Saratoga model.

General Motors has carried on considerable experimental work with power-assisted steering. Rumor has it GM will offer it in some of its higher-priced cars next year.

Chrysler, whose version of the device is manufactured by the Gemmer Manufacturing Co. of Detroit, reports it hasn't been able

to keep up with demand for it. While the device isn't especially costly, current indications are it will not reach the lower price car field for two years.

At least one concern that has made power steering devices for trucks is working on a unit that can be installed in the steering linkage under the car. That would make it available for cars already on the road.

What power-assisted steering adds to driving ease is best realized in a driving test. It helps in parking and in getting the car back on the road after slipping off the pavement onto the shoulder. This has given it great appeal to the woman driver.

The device derives its power from the car engine. It operates only when the engine is running. Front wheels can be turned normally when the engine is still.

Gemmer says the device "takes the wrestling out of steering." Power-assisted steering costs only slightly more than the average automatic transmission.

Also certain to be taken up by other companies is the vastly improved braking principle featured by Chrysler. Most car makers have been carrying on extensive research in lighter touch braking.

The Form Divine

By HILDEGARDE DOLSON

THE STORY: Lucilla Webb, enrolled in the Beautiful-You school, hasn't told her husband Arthur how it will make a new, glamorous woman out of her. Consequently, Arthur is baffled at Lucilla's new hairdo and the exercises she does at home.

XXIII
FOR lipstick and eyeshadow, each student received a kit with six trial shades resembling a child's tin box of watercolor paints. As they wriggled their faces into the goopy blobs, their faces had the absorbed, dedicated look of scientists on the verge of cosmic discoveries. Miss Dottle decreed that Lucilla's best lipstick color was Innocent Bliss—"done with a very full upper lip and no indentation whatsoever," and for fresh shadow, Hothouse Violet. The early applications of eyeshadow made Lucilla look as if she had a black eye, but she was soon able to achieve a delicately dissolute why-was-I-bruised expression.

Each eyelash had to have an individual coating of mascara. "And ladies, if your eyelashes aren't won't do," Miss Dottle told them, "you can now purchase at our cosmetic counter real live lashes—not false—repeat, these are real lashes—and you glue them on one by one." The implications of this startled Lucilla. If Beautiful-You had established an eyelash bank, who contributed to it? Did condemned prisoners leave a will saying, "I hereby bequeath my eyelashes to benefit humanity"? Or did indigent college students allow their lashes to be yanked out and converted into cash? Either way, it was rather horrid. Even without gluing on live lashes, the process of making up took about 40 minutes. As their instructor said, "If you do it well, your face will last all day." The truth was that the ingredients made so firm a mask it could even have lasted for months. At bed-

machines for as long as an hour at a time, backing up to sit on the bumpy revolving apparatus. Miss Thumbold, having the firmest fatty tissue, was the No. 1 victim of the Bump-Wumps. When the resignation on her face had proceeded through the stages of exalted suffering to a mute animal rebellion against pain, Miss Willit would exhort her with cries of, "Just five more minutes on the upper thighs, Miss Thumbold. Remember, we must agitate the flesh!"

Mrs. Varsney and Mrs. Cleery, whose flesh was more easily agitated, were so encouraged by the day-to-day shrinkage that they would run to the torture-rack as to a lover, and hug it till they were black and blue.

The machines, plugged in to wall sockets, made a loud, rackety noise in action; but so did Paris. She gave her opinion of the Bump-Wumps candidly, at the top of her head, interposing frequent and piteous yells of, "How much longer I gotta take it on the fanny?" Whenever she was quiet for several minutes, Miss Willit, with justifiable suspicion, would investigate. "Miss Green, you aren't even in contact!"

As soon as Lucilla, who had her own Bump-Wumps, had been given an exercise jumping rope, Paris was irresistibly drawn. "Look, you're holding it too low down, and you gotta jump with both feet at once." She would grab the rope and demonstrate so buoyantly that her topknot of curls leaped. "Didn't you ever skip rope as a kid?" It turned out that everybody in the class but Lucilla had been an expert rope-jumper, although the others contented themselves with occasional kibitzing, whereas Paris had the tenacity of a trainer. "There, you didn't trip so bad that time, did you? Now swing it easier, and make like your feet were tied together." Lucilla naturally resented the good advice, although after benefiting by it until she could jump 10 consecutive loops without tripping, she always expected Paris to praise her.

(To Be Continued)

All In A Lifetime RECOLLECTIONS

Same Song--82nd Verse: Fraud, Inflation Hot Issues For Congress--100 Years Ago

WASHINGTON — (AP) — A whitewash job at the White House, the peril of inflation, revenue frauds, and federal budget of \$48,000,000 (yes, million) were hot issues before Congress one hundred years ago, that is. The overriding interests and many of the problems of the lawmakers haven't changed much in a century, as a check of the record of the opening days of the 32nd Congress showed. Of course, there was that matter of buying 50 barrels of salt to carry out a treaty obligation to the Winnebago Indians. And conservative elements were demanding an investigation of the Army's experiment in using camels as pack animals on the Great Plains. Otherwise, members were plugging as usual for improvement of navigation on the upper Mississippi, construction of a lighthouse at Sand Key, Fla., a change in the postage rate for newspapers, and the establishment of various naval yards, branch minis and other government installations in their home states. Pretty extensive repairs and improvements were contemplated at the White House, then occupied by President Millard Fillmore. These betterments, including whitewashing the interior of the residence and laying out fancy gravel walks on the playgrounds, were budgeted at \$6,150. The whitewash must not have held the building together well; it is being renovated now at a cost of some \$7,000,000. The federal government had spent \$48,004,878.68 the year before, and President Fillmore's opening message to Congress called attention "to the enhancement of prices and a rising spirit of speculation and adventure, tending to overtrading." However, there was no OPS. Some of that message would sound familiar to the current 82nd Congress. The President called for improved reciprocal trade relations with other countries. He noted the outbreak of another revolution in Central America. He couldn't persuade anybody to take the job of commissioner to China — it only paid \$6,000 a year and carried

Scout Councilmen Return From Executive Session

"Forward on Liberty's Team" was the program studied during the one-week session in East Lansing, Mich., of Boy Scout executives, including five Adobe Walls councilmen. The five who returned Sunday night were Paul Beisenherz, executive, Phil Pegues, Vincent Hobbs, David Agnew, and John Pound, district executives. For three years, scouts will work on the program. A part of the program will be "to get out the vote" in the presidential elections in 1952. Arthur A. Schuck, chief scout executive, was chairman of the conference. Expansion of the Boy Scouts is expected to reach its greatest heights, it was shown at the conference.

Only 1 Mountain Is Unconquered

COLEMAN, Alta. — (AP) — All but one of the "Seven Sisters", in the foothills of the Canadian Rockies, now have been climbed. The Sisters, bare and jagged rock spires averaging 700 feet, were tackled by two Swiss-born mountaineers, Bruno Engler and Fritz Frey. Before their attack, only "The Placid One" had been climbed. It took them three week-ends to defeat five more. Their most difficult climb was the main spire, "The Old Sister." Engler, an Alberta government photographer, said they had to inch their way up the last 120 feet using hand holds only. The descent was made with the help of rappels, rope-offs, and the climbers swung through the air in 80-foot leaps. They said they plan to come back to climb the only spire they couldn't manage this time. It's No. 2 — "The Witch" — with barren perpendicular sides and a bleak overhang.

Rotary Governor Visits At Shamrock

Farm, Ranch Land Prices Take 12 Percent Increase In Texas

COLLEGE STATION — (AP) — Farm and ranch land prices in Texas rose an average of 12 percent during 1950. The figure is based on a study made by the U. S. Department of Agriculture and the Texas Agricultural Experiment station in 24 representative counties. The study also showed that the number of land transfers increased by 20 percent over 1949 and the acreage changing hands increased by more than 50 percent. A substantial decline in the average selling price occurred in the Panhandle wheat area, the Edwards plateau and Central basin, and the northeast sandy lands, and a slight drop occurred in the High plains and Trans-Pecos grazing area. The largest increases occurred in the Grand prairie, with 49 percent; the Rolling plains, with 34 percent; and the north-central grazing area, with 31 percent. Gains of 20 percent or more occurred in seven other areas. The economists report that since 1939, the beginning of the rise in land prices, a narrowing of the price spread between the "best" and the "poorest" land has been noted in most areas of the state.

Mid-East Treaty Group Suggested

WASHINGTON — (AP) — Admiral Robert B. Carney suggested yesterday the creation of a Middle Eastern treaty organization to strengthen the defenses of the vital Mediterranean area. "It would and should, I believe, be separate from NATO (North Atlantic Treaty Organization) but closely affiliated with NATO," he said.

INDIA'S RAIL TRAFFIC
NEW DELHI — (AP) — During the second quarter of 1951, 311,000,000 passengers traveled by railroad in India, paying fares for a total revenue of \$63,000,000, Railway Minister K. Santhanam announced in Indian parliament.

FRENCH DIAMOND YIELD
BRAZZAVILLE, French Equatorial Africa — (AP) — French Equatorial Africa's diamond production this year will reach 200,000 carats or five percent of the total world production, said High Commissioner Cornut-Gentille when he opened the yearly session of the Equatorial Africa Grand council. He further quoted the recent oil discovery in the Gabon area as a major hope for FEA's mining industry, but said it would take several months to ascertain whether big scale exploitation would be possible.

YOUNGEST SKIPPER IS 25
CENTRALIA, Ill. — (AP) — Farm-born James L. Cox has become a U. S. merchant marine captain at 25. Ralph Cox of near Johnston City, Ill., said his son was advised that he had become the youngest merchant skipper. He completed in 30 months work on captain's papers that usually takes five years.

Worthwhile Club Has Meeting On Candle Making

The home of Mrs. Oliver Allison was meeting place for the worthwhile Home Demonstration club Friday for a program on candle making.

Mrs. O. G. Smith was in charge of the program. Mrs. Smith said "Candles are made of tallow, beeswax, paraffin and a palm oil. The most modern ones are now made from stearin—a commercial product made from stearic acid. They are made by dipping, rolling, pouring and moulding.

"The perma-lite candle is one made of metal and uses lighter fluid. One filling lasts 12 hours."

Present were Mrs. Roy Tinsley, Mrs. W. W. Estes, Mrs. R. E. Engle, Mrs. A. A. McElrath, Mrs. J. L. Carlton, Mrs. O. G. Smith, Mrs. Ora Wagner, Mrs. Nat Lunsford and Mrs. John King. Mrs. George T. Adams, a new member, was also present as was Mrs. I. T. Goodnight, a guest.

Indian women of New Mexico bake their bread in outdoor ovens that are built of sun-baked clay and have the appearance of large bee-hives.

More than 800,000 ingot tons of stainless steel were produced in the United States in 1950, an all-time peak.

Miss Adell Roberts Is Honor Student At Commencement

Miss Adell Roberts received a wrist watch as the highest ranking student at commencement ceremonies for the Hendrick Memorial Hospital School of Nursing in Abilene. The ceremony was in the Abilene First Baptist church.

Miss Roberts is the daughter of Mr. and Mrs. W. Lee Roberts of Pampa. She received the watch on the basis of scholarship, citizenship and character, according to Dr. Rupert Richardson, president of Hardin-Simmons university, who spoke briefly.

Miss Roberts was graduated from Pampa high school in 1948 and was salutatorian of her class. She plans to be a surgical nurse.

US Schools Show Record Enrollment This Year; More Than Thirty Million

By DOROTHY ROE
Associated Press Women's Editor

A record crop of more than 30 million children is enrolled in US schools this fall.

This amounts to one-fifth of our entire population, and means most schools are bursting at the seams, trying to accommodate this vast army of young scholars.

The war babies of 1942-45 are reaching school age.

The present boom in school children can be expected to continue for 12 years, with reinforcements as a result of the new birth-rate upswing following the Korean war this year and last.

These lusty millions of small fry are providing assorted headaches to school boards and taxpayers. New school buildings are being voted and rushed into construction at virtually every crossroads, overflow pupils are being taught in makeshift quarters such as churches and community halls.

School buses are having to stagger their loads, delivering some pupils in time to start school at 8:30, others at 9:15, with dismissal hours in the afternoon.

The demand for competent teachers grows more urgent by the hour, and in most communities PTA groups are taking a more active interest in school problems, with fathers as well as mothers showing up for meetings and working to raise badly needed funds.

Meanwhile the newest crop of young Americans struggles with the same old three R's in a brand new atmosphere.

Projects with kindergarten blocks are interrupted for atomic bomb drills. Little boys work with geiger counters and uranium.

Granddaughter gets the same satisfaction from loading her deep freeze with food for the unexpected guest as Grandma got from filling her basement shelves with jars of canned goods.

The morning chat over the backyard fence that was part of Grandma's day has just been replaced by Granddaughter with morning telephone chat with a friend who lives across town.

Grandma said "feed the brute."

Granddaughter doesn't use that expression, but she does give her husband a good dinner before she shows him the new dress she just "couldn't resist."

When Grandma heard that a friend or neighbor had sickness in the family she sent over a cake or pie. Granddaughter tries to be just as helpful. Only she probably telephones to say: "can I do any chauffeuring for you?"

Grandma kept the parlor "nice for company" by making the kitchen the family's real living room. Granddaughter laughs at the idea—but all the same as soon as she can afford it she builds a "rumpus room" for family living.

Grandma made sure she got her hands on some of the family income by holding out the "egg money" for her own personal use. Granddaughter has accomplished the same end by means of a joint banking account.

Grandma helped her church raise money by contributing to pie and cake sales and helping serve church suppers. For all her so-called economic independence, granddaughter uses those same fund-raising schemes.

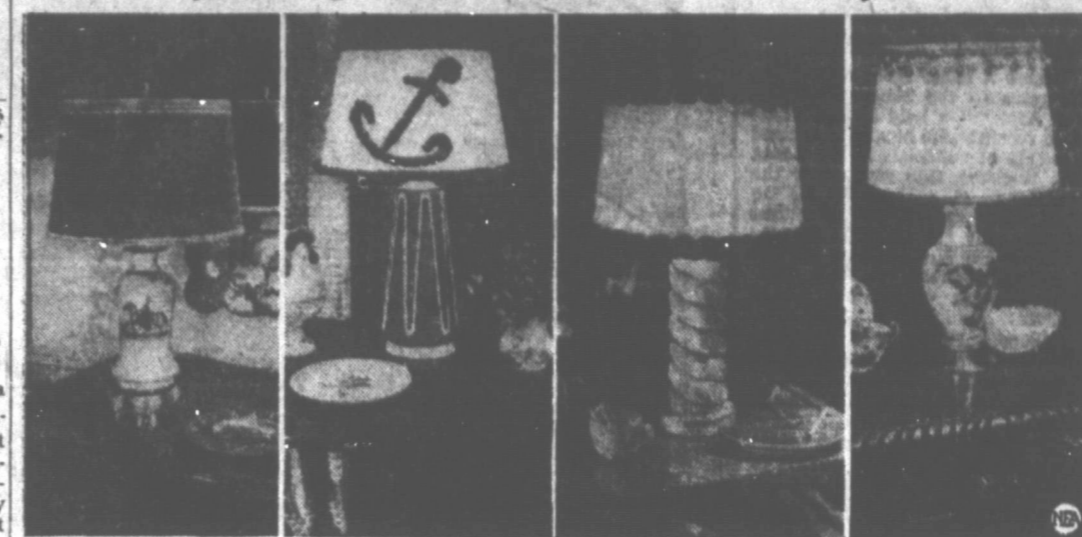

Grandma, who didn't have today's labor saving devices, was fond of saying that a "woman's work is never done." Granddaughter, who has had the basic jobs of housework lightened by modern methods, has upped her standards of living and added to her outside activities until she, too, can make the same claim to being overworked.

The snake, corn and fire dances of southwestern Indians are religious in character.

New Lamp Shades For Old For Very Little Money Is One Way To Brighten The Home For Winter Days

These are old lampshades that got a new lift for mere pennies. Old parchment shade (left) has been covered with grass-green shantung and banded in oyster-white gimp. Shade with nautical theme (left center) has trim of navy rope cord pasted on. Warm shade (right center) is transformed with burlap covering, bushy cotton fringe trim. Formal shade (right) is created from old parchment shade, covered with scrap of white silk and trimmed with gold satin scalloped ball fringe.

By GAILE DUGAS
NEA Woman's Editor

NEW YORK (NEA)—About the easiest, least expensive way to put a new shine into your living room during these days of mounting costs is to refurbish your lampshades. If you're equipped with a little time, a lot of imagination and some trimmings you can buy for a few cents a yard, you're in business.

For pennies, you can have a new shade suited to the decor of any room in your home. If you've a modern living room, you may be fond of burlap shades. Start with your old shade or a new one to put a new shine into your living room during these days of mounting costs is to refurbish your lampshades. If you're equipped with a little time, a lot of imagination and some trimmings you can buy for a few cents a yard, you're in business.

For pennies, you can have a new shade suited to the decor of any room in your home. If you've a modern living room, you may be fond of burlap shades. Start with your old shade or a new one to put a new shine into your living room during these days of mounting costs is to refurbish your lampshades. If you're equipped with a little time, a lot of imagination and some trimmings you can buy for a few cents a yard, you're in business.

It, the way a rope is twisted, to make it bushier. Then tack it, with needle and thread, to the top and bottom of the shade as a bordering. For the base, you might use a tall, coiled cylinder in white ceramic, but this shade is equally good for any modern base.

Those of you who shun the sleek and modern way of living in favor of the cozy and informal might like a shade that's right for contemporary or early American settings, or a mixture. The covering for this shade is cut from grass-green shantung and pasted over a plain parchment shade. The trim for this is oyster-white gimp, that rail-like banding that's used in upholstery.

For the top border, four rows of gimp are pasted directly on the covered shade, each row pushed tightly together to create a solid two-inch band. Since the heaviest trim always goes at the

top, only two rows are used to edge the bottom.

In a traditional room, the feeling of formality must be carried out, even in lamp shades. Heavy white silk, used to cover a plain parchment shade, is trimmed at the top with gold satin scalloped ball fringe.

Eyes First In Beauty Says Jane Russell Of Motion Pictures

Written Exclusively for
By JANE RUSSELL
HOLLYWOOD—I've often heard women say the only thing they'd never want to be caught without is their lipstick. I agree, it's important, but to me the first item in my beauty kit is my mascara.

If I'm in a real rush to get somewhere, I'll grab my mascara and brush and be sure that my eyelashes and brows are made up—even if I don't get a chance to get to the lipstick until later.

I always notice a woman's eyes first. To me, they're the most important features of her face. No matter how irregular or unattractive the other features, if she will take time to beautify her eyes her whole face will be attractive.

Always remember, when you um in their chemistry sets, and little girls contemplate careers in politics.

When Mean Colds Stuff You Up

It's so easy to relive coughs and stuffiness of colds in a hurry this home-proved way... with 2 spoonfuls of Vicks VapoRub in a vaporizer or in a bowl of boiling water as directed in package.

Just breathe in the steam! Every single breath carries VapoRub's soothing medications deep into throat and large bronchial tubes. It medicates irritated membranes, helps restore normal breathing. For coughs or upper bronchial congestion there's nothing like using Vicks VapoRub in steam.

For continued relief always rub it on throat, chest and back.

VICKS VAPORUB

SOCIAL CALENDAR

National Recreations Association will meet at the home of Mrs. Mildred Lafferty, 922 E. Franklin, at 8 o'clock tonight.

If the small fry in your family inhabit a room with a nautical theme, there's no problem in freshening the shades. On a parchment shade, paste in a v rope-cord top and bottom and, at the center, twist and paste the rope into an anchor design. Then, to give the base a salty look, paint it red, white and blue.

The gleam that you'll get from your salvaged shades will tempt you to design your own shades. You might even find it fun to do them as gifts for your friends or as a means of earning pocket money.

The Tushimas are islands lying in the 120-mile-wide strait between Korea and Japan.

Soybean oil has a tendency to develop undesirable flavor in storage which limits its use for foods.

Documented Taste Tests PROVE FOLGER'S Has the Coffee Flavor Most People Like Best!

Never Before Such Conclusive Proof of Flavor Preference!

In Impartial Tests the majority of women agree they prefer the rich, vigorous Folger Flavor!

Here's proof that Folger's has the coffee flavor most people like best! In actual taste tests, the majority agree—it's Folger's Coffee for better flavor!

Yes, in tests comparing Folger's with other well-known brands, most people liked Folger's best! These tests are dramatic proof of the distinctive Folger Flavor. Folger's is truly different... with a flavor that has never been matched!

Folger's is a Special Kind of Coffee
MOUNTAIN GROWN

There's a reason for the individual flavor of Folger's. It is made from mountain grown coffees—uniquely blended to produce the rich, vigorous flavor known as the Folger Flavor. No other coffee flavor is quite like it.

*Authenticated tests made by Home Arts Guild, Chicago, Ill.

FOLGER'S COFFEE

Folger's the Favorite in "Blind" Taste Tests

Tests were conducted among typical American women. Each was served two cups of coffee—identified only by code marks. The majority preferred Folger's.

All Coffee Prepared Under Same Conditions

Identical drip makers. Other brands were made with 1/4 less coffee. The coffee makers were labeled only with code letters.

Extra Rich in Flavor!
FOLGER'S IS SO RICH IN FLAVOR... YOU ARE URGED TO TRY USING 1/4 LESS THAN WITH LESSER FLAVORED BRANDS

Yankees Drop Indians Full Game Out With 2-1 Win; Bosox Swamp Chicago

Harvesters Preparing For Visit From Austin Of El Paso

The Pampa Harvesters started preparing themselves for their Friday night battle with the "unknown quantity," the Austin of El Paso gridders, little is known about Austin, other than the fact that they are the annual winners of the old district in which they participated. Friday night's battle at Harvesters Park, starting at 8 o'clock, will be the first for them this year.

The Green and Golders, not overly enthused over their easy Friday night victory over the recent Sweetwater Mustangs, buckled right down to defensive and offensive work both, yesterday, and the work wasn't confined to sunny scrimmages. Instead, it was "war."

The battle raged without the service of end Jimmy Cook, still out resting a suppurating abscess in the right leg. When he will be ready is questionable, but he will probably be ready if needed Friday night. Tackle Buddy Cockrell saw limited action last Friday and apparently is ready if called upon. The rest of the squad emerged from the 40-12 romp unscathed. Only the Mustangs were licking wounds.

A change was made by the coaches yesterday when Oscar Sargent, who has been running in the second string as a harvesters backfield, was moved into a defensive guard post. The move was a test change in an effort to find more bench strength for a line that was well-bent and fractured at times last weekend.

While the Harvesters did the hard work, the Guerrillas and Reapers, who split their games last weekend, also toiled long and hard. The Reapers looked good in winning over Horace Mann at Amarillo Friday afternoon. Next Thursday, at 3 p. m., they battle Sam Houston at Harvesters Park.

The Guerrillas, who took a shelling from the Wheeler Mustangs Thursday night, play host to the Lefors Pirates here Thursday night. The Pirates were victimized by Shamrock last Friday night in the Buc's season opener.

Class A Elevens Start Flag Play

Conference play features the Class A division of Texas school football this week. Four districts have games counting in the championship race.

The busy District 17 is at it again hot and heavy with 10 of the 17 teams playing conference games. The teams are undefeated in conference warfare in this district. They are East Mountain, Pine Tree and White Oak. This week finds White Oak playing Ar, loser of two games; East Mountain clashing with Lovett's Chapel, which has won one and lost one, and Pine Tree meeting Overton, which also has a 1-1 record.

District 19 opens with Groveton at Alto, Rusak at Diboll, Elkhart at Loveland and Woodville at Grapevine.

District 24 also starts the conference campaign with Smithville at Eagle Lake and Schulenburg at Weimar while the first game counting in the standings is played in District 29 when Crystal City goes to Cotulla.

The week's schedule by districts include:

1 - Thursday: Lefors at Pampa; B; Friday: White Deer at Groom, Shamrock at McLean, Wheeler at Turkey, Canadian at Memphis.

Strader Sues For Back Yankee Grid Salary

NEW YORK — (AP) — Norman Strader, former head football coach of the New York Football Yanks, goes into the New York supreme court today to try to collect \$14,051.80 which he contends is owed him in salary and expenses.

The coach is suing Ted Collins, owner of the National Football League club, contending he had a verbal contract for the 1951 season.

Strader on Aug. 6 said he had been fired as head coach.

Wilson To See Work For Tech This Week

LUBBOCK — West Texas State fans, who will never forget Bill Cross, may think that the Canadian Comet has changed uniforms when they attend the Texas Tech contest here Saturday (Sept. 22) night.

Bearing a striking resemblance to the tiny groundgainer signed by the Chicago Cardinals as a Tech halfback, Elmer Wilson of Pampa.

Wilson will have to do a lot of running before he matches Cross's exploits, but, physically, he's close to him. Wilson stands only 5 feet 5, weighs 185 pounds. Because of his size — and, incidentally, his scintillating — Wilson has become a favorite of spectators at Tech practices.

Wilson came to Tech well accredited. Besides being an all-district player, he won the "most valuable back" award in the Greenbelt Bowl at Childress this summer.

Probably a year or two from being a regular, Wilson may see a lot of service this season. Already, he's tabbed for work at safety against the Buffaloes.

There were only four two-minute trotting miles during 1950. There were 22 two-minute miles credited to pacers.

Musial Holds 21 Point Bat Lead

NEW YORK — (AP) — Back a few years, the National League chant was: "Break up the Cardinals."

Now it's just: "Break up Stan Musial."

He's on his way to a fifth batting title, with a .367 average.

Richie Ashburn of Philadelphia at .348 is 21 points behind Musial.

Rounding out the top ten were: Roy Campanella, Brooklyn, .325; Johnny Wyrostek, Cincinnati, and Monte Irvin, New York, .318; Alvin Dark, New York, and Ralph Kiner, Pittsburgh, .312; Carl Furillo, Brooklyn, .305; and Harry Lowrey, St. Louis, .303.

Longhorn Play All Tied At 1-1

ODESSA — (AP) — The Longhorn League championship series moves here tonight with the Oilers and Roswell Rockets tied at one game each.

The Rockets evened the series with a 12-6 victory last night. They had two big innings, a three-run first and a six-run sixth. Odessa had a four-run third, but led until the big uprising.

Dean Franks, ace of league hurlers, went the distance for the Rockets despite the heavy shelling in the third frame. He gave up a home run pitch to Kenny Peacock in the fourth and another run in the seventh after the rocky start.

Skipper Pepper Martin used three pitchers in an attempt to stop the Rockets but they collected 16 hits.

Civic Club Golf Banquet Tonight

Contestants and their caddies in the Civic Club golf tournament held last Sunday afternoon will be feted tonight at the tournament banquet to be held at the Country Club starting at 7 o'clock.

At this time the awarding of prizes to the various winners will be made.

The Kiwanis Club retained its city championship, won last year, by edging the Rotary, Lions and Jaycees in Sunday's event.

Abilene Hose Tie Playoffs As Lamesa Leads Dukes

Southwest Elevens Prepare For Intersectional Tilts

(By The Associated Press)

Southwest Conference teams went through the workout book yesterday in preparation for six intersectional games this week stretching from Georgia to California.

Texas A&M, booked by many to win the SWC crown stressed defense against a single-wing attack in a two-hour scrimmage. The Aggies face UCLA in Los Angeles Friday night.

Rice is the only idle SWC team this week. Jim Neely sent his boys through a two-hour pass drill yesterday.

The Texas Longhorns, last year's SWC champions, made ready for the aerial attacks of Kentucky Saturday afternoon at Austin.

The Baylor Bears pitched aerial and ground plays against changing defenses. The Bears, rated by some to take the SWC crown this year, play Houston Saturday. The Bruins also spent some time on returning punts and kickoffs.

The TCU Frogs took it easy after Saturday's heavy scrimmage. Dutch Meyer put his players through light drills, saying they probably would return to rough work today. The Frogs meet Kansas at Fort Worth Saturday night.

The Arkansas Razorbacks were getting ready for their game Saturday night against Oklahoma A&M. Coach Otis Douglas had the team playing tough ball to sharpen their aerial attack and give the bruised players a breather.

Rusty Russell in Dallas termed workouts yesterday "pretty sharp," as the SMU Mustangs prepared for the battle Saturday with Georgia Tech at Atlanta.

Offensively, Kentucky's worries are few, although Parilli did lose his leading receivers by graduation. He still has some capable targets, however, and is expected to have more help from the ground crew this season, with fullback Bill Leskovar sound again.

Price's problems are of an entirely different nature. The defensive platoon from Texas' cham-

Wilson To See Work For Tech This Week

LUBBOCK — West Texas State fans, who will never forget Bill Cross, may think that the Canadian Comet has changed uniforms when they attend the Texas Tech contest here Saturday (Sept. 22) night.

Bearing a striking resemblance to the tiny groundgainer signed by the Chicago Cardinals as a Tech halfback, Elmer Wilson of Pampa.

Wilson will have to do a lot of running before he matches Cross's exploits, but, physically, he's close to him. Wilson stands only 5 feet 5, weighs 185 pounds. Because of his size — and, incidentally, his scintillating — Wilson has become a favorite of spectators at Tech practices.

Wilson came to Tech well accredited. Besides being an all-district player, he won the "most valuable back" award in the Greenbelt Bowl at Childress this summer.

Probably a year or two from being a regular, Wilson may see a lot of service this season. Already, he's tabbed for work at safety against the Buffaloes.

There were only four two-minute trotting miles during 1950. There were 22 two-minute miles credited to pacers.

Wilkinson Impressed By Don Stokes' Hustling Play

DON STOKES — Impressive freshman football prospect this year at Oklahoma University is Don Stokes, former player with the Lefors High school. O. U. Coach Bud Wilkinson said the 240-pound left tackle is quick to learn, able and aggressive.

NORMAN, Okla. — Bud Wilkinson, football coach at the University of Oklahoma, believes he has a fine freshman prospect this year in Don Stokes, who formerly played at Lefors High School.

Wilkinson is particularly impressed by Don's aggressiveness and hustle. The former high school team captain played 14 1/2 tackle and weighed in at 240 pounds this fall at Norman. He stands 6 feet 3 1/2 inches and is 18 years old.

Stokes, who has not yet chosen his major subject at the university, is the son of D. E. Stokes, an oil company employee. His parents live at Route 2, Pampa.

Coach Wilkinson said Stokes came to him with an excellent basic knowledge of football fundamentals taught him by James Love, his high school coach. The genial Sooner mentor has high hopes for Don as soon as he can be taught the tricky split-2 formation that has lifted Oklahoma to the football heights.

"Stokes is quick to learn, is able and aggressive," Wilkinson said. "With the proper experience and his willingness to learn, I am expecting great things of him in the near future. He has been one of our standouts during freshman workouts."

Stokes will play this fall with the Oklahoma "B" team coached by Jack Baer, the man who guided the Sooner baseball team to the national collegiate championship last spring.

The Sooner Bees have already scheduled five night games this fall and will add a sixth, Wilkinson says. The "B" team slate: Oct. 4 (Th) Tulsa U. at Norman. Oct. 25 (Th) Kansas at Norman. Nov. 1 (Th) Cameron Aggies at Lawton. Nov. 9 (Fri) Southern Methodist at Norman. Nov. 29 (Th) Oklahoma A&M at Stillwater.

Doak Walker of the Detroit Lions wears low cut shoes on offense, but changes to a high shoe on his right foot when kicking extra points and field goals.

Atom Bomb Tests Will Train GIs

WASHINGTON (AP)—Ground troops will be trained for atomic warfare during actual test explosions in Nevada, Rep. Durham (D-NC) says.

How many troops will be used and when the tests will occur were not revealed by Durham, vice-chairman of the Senate House Committee on Atomic Energy, when he told of the proposed training yesterday.

The tests and training of ground forces on how to avoid radiation and other atomic explosion effects would be just like training civilians in best methods to avoid injury in case of an attack, Durham said.

Asked if he knew of any plans for underground test explosions, he said he did not, and doubted if any such tests would be made in Nevada because of dangers involved.

JAPAN: Rebirth of a Nation (9)

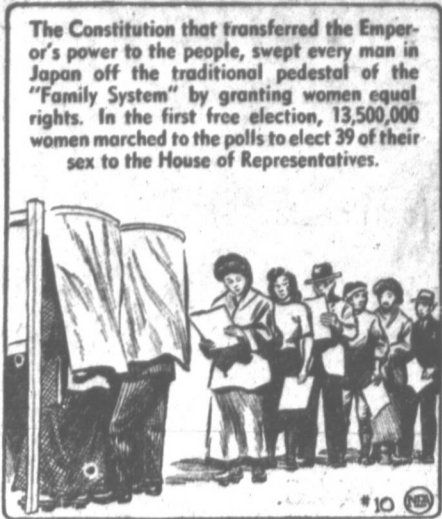

Illustrated by Ralph Lane

Emperor Hirohito in a rice paddy? Until January, 1946, the Japanese would have been less surprised to wake up and find Mt. Hiroshima on the Ginza, Tokyo's main street. But in that month, the incredulous Japanese heard their Emperor publicly label as false the conception that he was a divine descendant of the Sun Goddess Amaterasu.

The humanization of Hirohito symbolizes Democracy's impact on Japan's ancient way of life. Today the smiling Emperor, at whom no subject would dare look while bowing in blind obedience, attends baseball games and often, during tours of the nation, stops to chat with other human beings.

The Constitution that transferred the Emperor's power to the people, swept every man in Japan off the traditional pedestal of the "Family System" by granting women equal rights. In the first free election, 13,500,000 women marched to the polls to elect 99 of their sex to the House of Representatives.

"The enlightenment of women" now ranks second only to food as a topic in the average home. The kimono is losing ground to western dress. And newly-emancipated women have taken over responsible jobs in a business world that was once for "men only." But tea ceremonies and flower arranging still go on as Japanese women seek to find their bearings in a land of "something old and something new."

Chest X-Rays To Be Given During State Line Fair

SHAMROCK — (Special) — All residents of the Shamrock area are urged to have free chest X-rays made during the State Line Free Fair here Sept. 20-22, by W. R. Ritter, county sanitarian. Equipment will be in the local community building from 1 p.m. Thursday through Saturday, with hours of 9:30 a.m. to 6:30 p.m. Friday and Saturday and 1 to 6:30 p.m. Thursday afternoon. Ritter to lighten the load during the noon hour.

Penalties Stiffened On Guilty Drivers

PARIS — (AP) — French prefects have been authorized to take away the licenses of drivers guilty of speeding, recklessness or drunken driving. This is another step in France's current campaign to curb reckless driving and reduce the growing number of deaths on the highway. A government decree gives the new power to the prefects, who are the governing officials for the 90-odd departments into which France is divided. France, however, still has no speed limit for its highways.

Last year almost 2000 people in this area had X-rays made. This can't come because of working hours. Ritter requested those who could to come during other hours.

RADIO AIDS MINES
CENTRALIA, Ill. — (AP) — Three southern Illinois coal mines have added radio to their operations. Fred Huff, superintendent of the mines, said the two-way FM radio could cut accidents and contribute to great production. The mines are near Pinckeyville, Elkville and Shakerag.

Band Director Turns Into Artist To Decorate Room

WHEELER — (Special) — The ivory walls dampened the spirits of his budding musicians. He painted the walls above the vauvaucing a rich green. Then taking his cue from some tiny silhouette plaques, he painted dark green silhouettes of musicians and instruments on the green background. Jazz men, handmen and musical notes float around the walls to the section headed with block letters as "Mustang Band." Under this title are the trophies won by members of the band.

The bandroom is equipped with music racks, instrument cases, music files, and a baby grand piano that the high school chorus uses most. Mrs. Patrick Boddy is in charge of the music department while Boddy is on a year's leave of absence for study. Her work starts with first grade students. They have marching drills and take part in the tonette band made up of first second and third graders. Last year his band had 83 members.

An active band boosters organization has bought the needed band instruments and uniforms for the 50-piece band. The boosters sent the four twirlers who lead the band on parade to a week's training course in Hutsville just before school started.

Cool Attitude Develops For United Nations Prayer Room

UNITED NATIONS, N. Y. — (AP) — Secretary-general Trygve Lie and some high UN officials have become cool toward opening a room for prayer and meditation in the UN headquarters, a responsible source at the UN says. As a result, this source added, there is a strong possibility such a room might not be made available, despite Lie's announced plan for it.

There is no indication when a final decision will be made, but it has been decided definitely not to open a prayer or meditation room in the 38-story Secretariat building. That structure, the only one of the new UN building now in use, has been closed to the public and will be used only as a work shop for the UN.

Lie had been expected to arrange for a room for prayer or meditation in the General Assembly building, which is to be completed in 1952. It was said, however, that he is veering away from the idea and may not carry it out. Lie has made no comment. There is a struggle in the UN inner circles about the prayer room, it was reported. Persons supporting the project argue that the UN is setting up an elaborate place for a bar for the delegates in the Security Council area, with a view overlooking the East river. These persons contend that the UN also can furnish people, delegates and Secretariat a place to pray or meditate.

sored a day of prayer at the UN in Manhattan last February and reported 600 persons attended, including representatives of the Protestants, Roman Catholics, Christian Scientists, Hindus, Moslem and other beliefs.

The movement has requested the UN to make available that same room for a day of prayer on UN Day, Oct. 24. Prayer groups in all parts of the United States and some sections of Canada are planning to pray for the success of the UN on that day.

After receiving many letters and verbal requests for prayer in the UN, Lie in 1948 announced plans for a special building on the UN grounds to be used for prayer or meditation, as well as a minute of silence at the opening and closing of each General Assembly. He had no trouble on the minute of silence but there was opposition to the building, some faiths claiming they could not use it unless it had certain symbols of their religion in it. The building could not be adorned with any symbols so Lie gave up that idea and announced there would be a room set aside in the permanent headquarters. With his reported present attitude, there is some question here whether that room will be opened.

Famous Race Driver Chooses Nash Ambassador!

HERE'S WHY **Johnny Mantz** PICKS **JETFIRE** POWER!

Johnny Mantz, world-famous race driver, who's driven just about every kind of car ever made and won many of racing's top honors, has this to say about his Nash Ambassador:

"I chose a Nash Ambassador for personal and stock-car racing use because I firmly believe Airlyte C construction and handling ease make it the safest car on the highway. Speed and performance? I proved that when I drove an Ambassador 102.46 m.p.h. over El Mirage Dry Lake. Its Jetfire Engine is one of the finest ever put into any car! But, above and beyond its record performance and economy are such features as Coil Spring riding ease, Airliner Reclining Seat, Twin Beds and Weather Eye Conditioned Air. Nash wins on every count—and I can recommend it to anyone who wants a truly fine car."

Frontiers Return To Latin America

LOS ANGELES — (AP) — Colonization in Latin America has brought back conditions somewhat similar to those on the old American frontier, says Dr. Henry J. Bruman of the University of California. Dr. Bruman saw the problems of South and Central America frontiers in 1941-45 when he spent a year studying them in Brazil. Now he is leaving on another trip which will take him to several countries, but he will spend eight months of his sabbatical leave in Brazil. He says the new pioneers cannot be as self-sufficient as the types on the vanished U. S. frontiers and they now have to have a salable commodity and access to a market.

Increase In Travel To Israel Is Shown

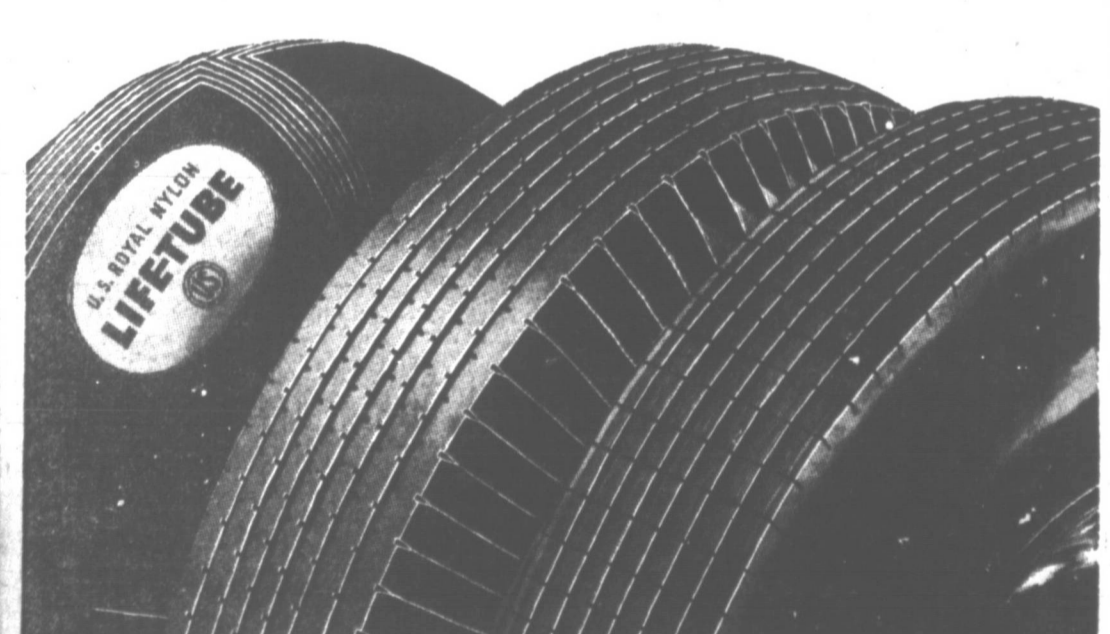

TEL AVIV, Israel — (AP) — A sharp upswing in the volume of American travel to Israel is reported by the American Express office which opened here a year ago. In 1949, there were 22,000 tourists. Last year 33,000 visitors arrived. This year promises to break that record. One of the principal appeals of Israel is the Holy Land. But visitors also have an opportunity to observe here the day-by-day progress being made by the world's newest republic. The Negev area, for example, was a desert wasteland, populated by wandering Bedouins, a few years ago; but today, because of the government's land reclamation program, it is a fertile agricultural area dotted by communal farm settlements.

POLITE BUT FIRM
MONTREAL — (AP) — A useful maxim for tramway employees given here by Ivan Sheehan, director of investigation for the Montreal Transportation commission, is "be polite to everybody but trust nobody." He said 171 persons were brought to court last year for failing to pay their fares, and all were convicted except two.

TUMBLERFUL—Jessie, two-week-old Chihuahua puppy weighing just eight ounces, is grateful for cool sides of glass in Long Beach, Cal., home during summer heat wave.
