SOLONS IN QUESTIONING MOOD

Tojo's Recovery Chances Improve; M'Arthur Adds to Wanted List

French Insist On Principles Of Reparation

LONDON, Sept. 12.—(AP)—France presented to the conference of foreign ministers of the world's five big powers today her views on a proposed peace treaty for Italy, insisting at least on the principle of reparations.

Outlines of American and British views indicate both governments have opposed collection of reparations from Italy because they were eager to get the Italian economy back on a sound basis.

The French views, it was learned, include these:

1. France wants a small reterritorialization of her border with Italy, and would like complete control over the Roya valley, on the frontier just north of the Mediterranean.
2. France disclaims any desire to annex the valley of Aosta in northern Italy, but wants guarantees either in the treaty or by joint international pledge that the French population in the area will be given home rule by Rome.
3. The French are inclined to side with the British and Americans on Trieste—leave the city in Italian hands, but establish an international authority to assure Austria.

See FRENCH, Page 8

Enrollment at Senior High Reaches 1,032

Principal Winston Savage of Senior high school stated yesterday that enrollment at that school had reached a high of 1,032. This means that there are 20 more students enrolled than at the beginning of this year, and at the end of last term. One of the most difficult problems is serving lunches to members of the large student body at the noon hour. The split lunch hours of 30 minutes each are being continued this year, and have been well organized that each of the two groups will have about five minutes left after the meal.

The biblical story of the "loaf of bread and two fishes" was reenacted the first day of school, when about 300 students indicated that they would buy their lunches in the cafeteria, and at the last minute, an additional 400 decided to remain for the lunch period.

West Texas Judges To Hold Convention

ABILENE, Texas, Sept. 12.—(AP)—The semi-annual convention of the West Texas County Judges and Commissioners association will be held here Friday and Saturday.

Postwar problems of county government will be discussed. Speakers will include Grover Sellers, state attorney general; John H. Reddit, highway commission chairman; D. C. Greer, state highway engineer; James P. Alexander, chief justice of the state supreme court; John H. Winters, executive director of the state department of public welfare; Tom K. Epley, president of the Texas Good Roads association; John P. Marrs, Wichita county judge; Don H. Morris, president of Abilene Christian college and Gilbert Smith of Anson, president of the County Judges and Commissioners Association of Texas.

Biddle Is Named Member of Allied Military Tribunal

WASHINGTON, Sept. 12.—(AP)—President Truman announced the appointment of Francis Biddle, former U. S. attorney general, as American member of the Allied military tribunal to try Axis war criminals. Judge John J. Parker of North Carolina was named as alternate.

At a news conference in which he cleared his desk of a long series of appointments, the President disclosed the resignation of Elmer Davis as director of the office of war information and the assignment of Neil Dalton of Louisville to succeed him for the purpose of liquidating that agency.

The President announced the appointment of former Senator Bennett Champ Clark of Missouri to be an associate justice of the U. S. court of appeals for the district of Columbia, succeeding Thurman Arnold.

He appointed E. Barrett Pretyman of Washington and Wilbur K. Miller of Owego, N. Y., to the two other vacancies on the appellate court in Washington. Pretyman succeeds Justin Miller and Clark replaces Fred M. Vinson, now secretary of the treasury.

The President said he had not yet decided on a successor to Justice Owen J. Roberts, who retired from the supreme court.

Industrial Survey Is Made of Pampa

Burt C. Blanton, consulting engineer and business economist of Dallas, arrived in Pampa today to deliver Pampa's industrial survey on which he has been working for several months.

The delivery is scheduled to be made to the industrial committee of the chamber of commerce this afternoon at two o'clock.

The survey has been printed in book form and contains over 180 pages in addition to approximately 24 maps and charts, including photographs.

Included in the survey is statistical data encompassing the entire Pampa trade area—about 29 counties in Texas and Oklahoma.

The volume is divided into such sections as agriculture, industry, population, future population, retail trade, wholesale trade, education, transportation, power and many other divisions, that would possibly interest manufacturers who plan to locate in or near the city.

'HOME IS IN TEXAS'

GENERAL'S RIGHT HAND MEN ARE FROM TEXAS

WASHINGTON, Sept. 12.—(AP)—Home isn't home unless it's in Texas for two American soldiers who were included in the capital's homecoming celebration for Gen. Jonathan Wainwright.

The general's two right hand men who are from Texas are Lt. Col. Thomas Dooley, 31, of McKinney and Wainwright's orderly, Master Sgt. Hubert Carroll, 36, from Paris.

"I had wanted to go straight to Texas as soon as we reached San Francisco," said Colonel Dooley last night, "but they had planned that big reception for us here in Wash-

Genl. Homma Heads Allied Criminal List

By the Associated Press
Japan's Pearl Harbor Premier Hideki Tojo, who shot himself rather than face possible trial as war criminal No. 2, rallied today (Wed.) on the volunteered blood of a Pennsylvania mess sergeant and was accorded a "very good" chance for life.

Adm. Shigetaro Shimada, Tojo's navy minister when Pearl Harbor was attacked, also named on General MacArthur's "wanted" list, said he, too, had contemplated suicide—but had changed his mind and was awaiting trial as a war criminal with "nothing to say... no excuse to make."

MacArthur today expanded his list of wanted men to 47, naming seven leaders of the Black Dragon super-patriotic, militaristic society which he ordered dissolved. Japanese sources said last week it had disbanded in August.

Lt. Gen. Masaharu Homma who ordered the infamous death March from Bataan and who, with Tojo and his cabinet, headed the "wanted" list, reportedly has fled.

Japanese sources told Associated Press Correspondents Russell Brines that Homma left three days ago for the Sado island, off Japan's northwest coast, after expressing his wish to die.

14 Navy Men Die In Florida Crash

MIAMI, Fla., Sept. 12.—(AP)—Fourteen navy men died today in the crash of a big four-engine privateer which, with one engine failed, was being guided to cleared runways by radio. One man escaped by leaping with his parachute.

The man who jumped was W. J. De Roche, address unavailable immediately, aviation ordnanceman, who attempted to rescue his comrades by driving away by flames and exploding ammunition.

Naval authorities gave this description of the tragedy:

The big plane with 15 men aboard took off from the naval air station on a regular training flight and as it gained the air observers in the control tower saw that its No. 3 engine was afire.

"Your engine is afire," the pilot was told by radio. "You will land immediately on any runway. All runways are being cleared for you."

Every plane in the vicinity was ordered out of the way of the distressed craft as the pilot acknowledged the message and began to turn back toward the field.

The aircraft circled and made a normal, three-engine approach, at about 500 feet with smoke getting into the cabin, one man was observed to parachute to safety. No one else left the plane," the navy reported.

The aircraft suddenly dove, crashed and exploded. There were 14 other survivors. Names of the dead will be released after next of kin have been notified.

American War Dads Leaders Hold Meet

AUSTIN, Sept. 12.—(AP)—Texas leaders of the American War Dads met here for a two-day conference with veterans administration officials. Bob Gary of Beaumont is president.

CONGRESSIONAL LEADERS CONFER

President Truman confers with his congressional leaders at the White House on legislative matters now facing congress. With him in the NEA Telephoto, above, are Speaker of the House Sam Rayburn and Senator Kenneth McKeller, president of the senate.

Recent Scientific Investigations Refute Enemy A-Bomb Reports

City of Kamaishi Greatly Damaged By Bombardments

ALAMORGORDO, N. M., Sept. 12.—(AP)—Secret details of Japanese scientific investigations released here today refute enemy radio reports that the atomic bomb area of Hiroshima had become unfit for human habitation.

Disclosed by Maj. Gen. Leslie R. Groves, head of the atomic bomb project, these reports declared that 11 days after the bomb fell Hiroshima apparently was safe from dangerous rays. The reports said that at any point beneath the impact of the explosion there was less than a tolerance dose of X-rays coming from ground or air.

This amount means, General Groves said, that it is safe for anyone to live in that area permanently without risk.

The general issued the Japanese reports in connection with a visit to the site of the first atomic bomb explosion, about 60 miles north of here. He led a party of 31 writers and photographers, five scientists and a dozen army officers into the bomb crater last Sunday afternoon.

This was the first public revelation of the amazing details of the atomic damage to the ground itself.

This New Mexico bomb was nearly as big and, for ray-making, just as terrific as the Hiroshima and Nagasaki bombs. It was exploded only 100 feet from the ground, where it melted the top soil for a quarter mile all around and by transmutation filled this thin layer with X-rays and less dangerous forms of atomic rays.

Both Japanese bombs were deliberately exploded at much greater heights. One purpose was to spare the Japanese from blasts which would poison the earth with radioactive rays and subject the sites for some weeks to dangers beyond the military destruction sought.

When Groves led the party into the New Mexico crater last Sunday afternoon, the boiled earth still was emitting X-rays. But by that time, less than two months after the explosion.

Ban on Conventions To End October 1

WASHINGTON, Sept. 12.—(AP)—The ban on all conventions, group meetings, and trade shows will end October 1.

Announcing this today, the office of defense transportation said it was acting on the recommendation of the office of reversion. The restrictions were imposed February 1, 1945.

ODT Director J. Monroe Johnson said the lifting of the ban was neither an invitation to travel nor an assurance that sufficient transportation will be available.

He asked sponsors of conventions, group meetings and trade shows to defer meetings whenever possible and keep necessary meetings small until after the peak of the troop movement early next year.

"This, however, is merely a request, and an ODT permit will not be required for any kind of gathering."

Texas Personnel Conference Meets

AUSTIN, Sept. 12.—(AP)—The Texas personnel conference will hold its seventh convention here at the University of Texas October 26-27. Dean J. A. Fitzgerald, chairman, announced.

Reconversion personnel problems will be discussed.

In addition, other personnel meetings have been tentatively set for Beaumont Nov. 1; Houston, Nov. 5; Amarillo, Nov. 17 or 19; Fort Worth, Nov. 20, and San Antonio, Nov. 22.

Southeast Asia Japanese Forces Are Surrendered

SINGAPORE, Sept. 12.—(AP)—Admiral Lord Louis Mountbatten received the surrender of all Japanese forces in southeast Asia and the East Indies today from Gen. Seihiro Itagaki, representing the ailing commander of the Japanese southern armies, Marshal Count Juechi Terachi.

Promptly after the ceremony the Allied southeast Asia commander announced he would tolerate no arrogance from the Japanese and told his troops in an order of the day that they would have his support "in taking the sternest measures against any Japanese attempt at obstinacy, impudence or non-cooperation."

The surrender involved about 55,000 Japanese troops in the Singapore area and some 500,000 soldiers and sailors in the southern regions—southeast Asia and the East Indies.

Lt. Gen. Sir William J. Slim, commander of Allied land forces in southeast Asia, and Lt. Gen. R. A. Wheeler, of the U. S. army, deputy southeast Asia commander, as well as representatives of the Netherlands, Australia, France and China looked on while Mountbatten signed eleven copies of the surrender instrument.

The ceremony began in the council chamber of Singapore's flag-draped municipal building at 11:15.

See JAP FORCES, Page 8

Tokyo Radio Reports Sugiyama as Suicide

SAN FRANCISCO, Sept. 12.—(AP)—Field Marshal Gen. Sugiyama, former war minister, committed suicide today, the Tokyo radio said.

The broadcast, recorded by the federal communications commission, did not say where or how the field marshal took his life.

Sugiyama was former chief of the army general staff and was relieved of his post in February of 1944.

He was inpector general of military education later and became minister of war in Premier Kuniaki Kiso's cabinet July 23, 1944.

Refinery Employees Take Strike Vote

BEAUMONT, Texas, Sept. 12.—(AP)—Oil workers union employees of the Texas Company refinery in Port Arthur will take a strike vote today.

The action was voted at a union meeting attended by an estimated 1,500 last night. Speakers predicted the issue would spread to the petroleum workers all along the Gulf coast.

The issues of the referendum ballot will be whether employees wish to support the international union's program of 52 hours, "take home" pay for a 40, 35 or 30-hour week; provisions of jobs for returning servicemen, double time on Sundays or the seventh day, union and job security.

12 Newly Liberated Yanks Are Missing

MANILA, Sept. 12.—(AP)—Twelve newly liberated prisoners of war were missing today when a B-24 bomber carrying them from Okinawa to Manila crashed into the sea near Formosa, airforce authorities announced.

Five crewmen and eight other prisoners on the bomber, were rescued by a naval vessel.

All had parachuted into the sea.

Army and Navy Are Kept on Defensive

WASHINGTON, Sept. 12.—(AP)—Congress worked itself up into a questioning mood today. Its curiosity was terrific.

The army and navy were more on the defensive than at any time since D-day and Guadalcanal. Congress asked questions about many things, some military, some not. For example, the law-makers wanted to know about:

1. Army-navy discharges.
2. Pearl Harbor.
3. Un-American activities.
4. UNRRA.

The senate military committee summoned army-navy big shots today to ask why men can't be released faster. Congress hoped the folks back home would listen to the answers—and stop writing all those letters.

A congressional investigation of the Pearl Harbor attack was all set. Both the senate and house voted for it unanimously. That means more quizzing for army-navy big shots. Six democrats and four republicans will do the quizzing.

Un-American activities snapped back into the news when the house committee to investigate them held its first formal meeting under the new chairman, Rep. John S. Wood of Georgia.

This used to be the "Dies committee." Wood said he expects the group to have more work than ever before. But he said he's going to be mighty careful whom he labels "un-American."

Herbert H. Lehman, boss of UNRRA—the United Nations relief and rehabilitation administration—came before the senate foreign relations committee for stiff questioning.

Meantime a republican from Pennsylvania, Rep. James Fulton, just back from Europe, took a poke at UNRRA. He said its activities are a "laughing stock" in Europe.

So much for quizzing. There also

Col. Oveta Hobby Will Be Honored

HOUSTON, Sept. 12.—(AP)—Brig. Gen. Henry Irving Hodges, former Houston area assistant deputy of staff to General of the Army George C. Marshall, will represent General Marshall Friday at the testimonial dinner in Houston Friday for Col. Oveta Culp Hobby, former director of the W. A. C.

General Marshall will address the assembly by radio from Washington. There high-ranking officers of the W. A. C. will go to Houston for the dinner. They are Col. Westray Battle Boyce, the present director; Lieut. Col. Jessie Pearl Rice, deputy director on war in Manhattan and at present, commandant of the school for W. A. C. personnel administration; Maj. Patricia Chance, executive officer to both Col. Hobby and Col. Joyce. Major Chance is a former member of the Houston Post editorial staff.

Navy Cross Awarded Former Legislator

MELBOURNE, Fla., Sept. 11.—(AP)—The navy cross was awarded to Lt. Fred Harris, former state representative from Dallas county in ceremonies here yesterday.

Angels of 'Peace and Victory'

SOME MEN KEPT SANITY MAKING 'MEMORY BOOKS'

By HAL BOYLE
YOKASUKI NAVAL BASE, Japan.—(AP)—Some soldiers mope in prison. Some go mad. And some American prisoners in Japan held on to sanity by making little "memory books" of their past lives.

These books helped them to forget the winter cold, the lack of food, the hard labor and, at times, the brutal torture.

One of the most interesting "memory books" was made by a marine private whom we shall call Oscar.

Oscar, whose true name can't be given until his relatives are notified he is alive and safe, enlisted in the marines in 1939 and served in Shanghai before the war. He was taken prisoner Jan. 2, 1942, while in a Manila hospital under treatment for dengue fever.

During his imprisonment at Asahiro prison camp in Japan, he managed to obtain some sheets of paper and a strand of copper wire. From these, he fashioned his "memory book."

He put his name and rank in big letters on the front cover and on the back cover drew an angel of "peace and victory" and an American soldier.

See ANGEL OF PEACE, Page 8

Timberwolves To Parade on Anniversary

SAN LUIS OBISPO, Calif., Sept. 12.—(AP)—Fifteen thousand men of the fighting 104th (Timberwolf) division will parade in review at Camp San Luis Obispo, Calif., Saturday, Sept. 15, on the third anniversary of the famed outfit's formation at Camp Adair, Ore.

It will be the division's last big event before it is deactivated in the near future. Redeployed from Europe in July, the Timberwolves were headed for Japan before peace brought a change in orders.

Under the command of Maj. Gen. Terry Allen for the past two years, the division became one of the nation's historic combat groups during 195 consecutive days in the front lines of France and Germany.

Its personnel represents a cross-section of the nation's fighting men. The majority, however, are from California, Oregon and Texas.

During its battle career the division took 51,664 prisoners and drove across France 315 miles into Germany, fighting with the First Canadian and First and Ninth American armies.

It was the first to reach the river Meuse in the fight that freed Antwerp. The Timberwolves then joined the First U. S. Army at Aachen and took embattled Etoblerg in the opening battle for the Roer river.

The surprise cliff-scaling night seizure of Lutcherberg was called a "superb" performance by high commanders and helped the 104th gain the reputation as one of the premiere assault divisions of all American armies.

Allen, former Associated Press correspondent from Whitehead and Bay, Boyle, the United States "finest infantry division commander," never lost a battle with the 104th or gave ground, gaining objectives on or ahead of schedule.

Reduction in Oil Production Due

AUSTIN, Sept. 12.—(AP)—An additional reduction of about 200,000 barrels daily in Texas oil production will be needed to bring supply and demand into proper balance, Railroad Commissioner Ernest O. Thompson said today.

Thompson did not say when the cut should be made but pointed to increasing crude storage which he said might soon result in too much surplus.

The situation will be reviewed at a statewide prorotation hearing before the commission Friday.

For September the commission cut statewide allowable 395,588 barrels daily under August. The average daily allowable reported by the commission Sept. 1 was 1,984,690 barrels daily. Normally, actual production is six to seven percent under allowable in Texas.

Kay Kyser Quitting Entertainment Field

LAKE ARROWHEAD, Calif., Sept. 12.—(AP)—Kay Kyser is quitting the entertainment field for at least a year, and maybe longer, he said yesterday, because he is tired and wants to rest and enjoy life while he can.

"I still have my health. I'm only 40 and I have a wonderful wife," (She's Georgia Carroll—"swagous Gargia" of Kyser's radio program). I want to spend a few months with my mother down in North Carolina and then a few months not doing anything."

Kyser said he would go overseas anytime the USO wants him to, but he won't entertain in this country, except, perhaps in his own parlor.

Phone 51 Garage, 600 S. Cuyler. (Adv.)

Pampa Firemen Attend Meeting In Wellington

Approximately 300 "smoke-eaters" of the Panhandle Firemen's association attended the 23rd semi-annual convention in Wellington yesterday.

Addresses were given by Judge E. C. Fisher, city attorney of Canadian, and Chief Frank Williams, field instructor of the Firemen's Training school of the A. and M. college.

Part of the business of the association pertained to the revision of its constitution. Officials were advanced or elected.

Members of the committee are O. W. Hampton, Tom Cox, Frank Carter, Mel Davis, Ed Carr, Irvin Cole, Sam Dunn, Clarence Barrett, Floyd Imel, Arthur Rankin, C. L. Thomas, J. P. Smith and Carruth.

BASIN, Wyo., Sept. 12.—(AP)—A motorist who reportedly recently said "fill'er up" and let a gallon run on the ground "can now take a back seat."

Filipino Sailor Returns Home After 16 Years at Sea

LOAY, BOHOL ISLAND, Philippines.—(AP)—The withered old Filipino in the white suit made a ceremony out of suiting the party from the U. S. destroyer through the long, palm-lined lane.

Children of the village trotted alongside, calling "Hello Joe" to the big Americans.

Finally, the old man halted before a big native house built on stilts.

"This," he announced, "is the home of Cesar Severo" and sure enough, there Cesar Severo stood framed in the doorway.

Cesar Severo, boatswain's mate 2/c, USN, was ending his first home leave—for this was his native village—in 16 years.

Then, he said his farewells and, with two urchins carrying his bag, he led the destroyer's party back along the jungle path between the palms.

Printed on the back of each bill in ink were these words: "Welcome to our liberators, the generous people of America. These are souvenirs. We never forget."

Legend Adds Another Story in Heroics, Amarilloan Involved

PHILADELPHIA, Sept. 12.—(AP)—In their blood and sweat, crewmen of the destroyer escort Bowers have written another chapter in the never-ending drama of America's heroes of the sea.

Survivors of a Japanese plane's suicide attack off Okinawa, in which more than half of the ship's 200 men were either killed or wounded, stood stiffly—almost sheepishly—as reporters inspected what remained of the ship's topside, but told their story simply.

"Every man aboard performed feats of superhuman bravery," said Ensign William Word of Amarillo, Texas, the only officer above decks not killed or wounded.

The navy disclosed today that four Japanese suicide dive bombers of a type known as "Val" swooped in for the kill on the 1,600-ton craft on April 16, 1945.

Do you feel headachy and upset due to poorly digested food? To feel cheerful and happy again your food must be digested properly.

Each day, Nature must produce about two pints of a vital digestive juice to help digest your food.

Therefore, you must increase the flow of this digestive juice. Carter's Little Liver Pills increase this flow quickly—often in as little as 30 minutes.

Printed on the back of each bill in ink were these words: "Welcome to our liberators, the generous people of America. These are souvenirs. We never forget."

Texas Cities Plan Purchase Of Army and Navy Airfields

(By The Associated Press) Air-conscious Texas, studded with multi-million dollar army and navy air fields yesterday studied post-war use of the installations with mixed feelings.

Some cities felt conversion for civilian use made the fields costly white elephants.

Others, which will have air fields for the first time, viewed them as opening a new and prosperous era of air transportation.

All agreed the tens of millions of dollars spent by the government on runways, hangars and other improvements gave Texas a running start in the postwar race for airport development.

Cox army air field near Paris is considered a definite asset as a commercial and private air field. But conversion will mean building hangars, a main building and other airport necessities.

Perrin field, almost midway between Denison and Sherman, may be converted into a joint airfield. The field has three runways and two hangars on which the government spent about \$10,000,000.

The navy plans to keep all its air fields in the Corpus Christi naval air training bases area, at least for the time being.

Not until congress acts on proposed legislation granting financial aid in airport development will the newly-created state aeronautic commission know its full scope of activity.

Under state law creating the commission it has authority to assist in dispersing federal funds which may become available and to act in an advisory capacity.

Petroleum Stocks Total 215,169,000

WASHINGTON, Sept. 12.—(AP)—The bureau of mines has reported that stocks of domestic and foreign crude petroleum totaled 215,169,000 barrels on Sept. 1, a net increase of 356,000 barrels for the week.

Daily average production was 4,876,000 barrels, a decrease of 16,000. Rums to still averaged 4,886,000, a decrease of 246,000.

Stocks, by grade or origin, and change from previous week (in thousands of barrels): East Texas 19,620 inc. 1,377; West Texas 31,612 inc. 372; Gulf Texas 28,884 inc. 653; other Texas 27,746 inc. 183.

Parents and Teachers Will Meet in Four Elementary Schools Tomorrow

Parents and teachers will be introduced officially tomorrow afternoon when the first P-T-A program of the season is presented in each of the four elementary schools.

Plans for these affairs include teas, socials, programs and short business meetings, and each organization has expressed a desire for friendly and informal sessions where parents and teachers, as partners, become better acquainted.

Activities will begin for the Woodrow Wilson Parent-Teacher association when a get-acquainted tea is held tomorrow at 2:30 p. m. at the school.

H. A. Yoder, principal, will introduce the faculty, and the room-mothers will also be recognized.

Mrs. Emmett Forrester and Mrs. J. M. Johnson will be in charge of tea arrangements.

Each person attending is requested to bring a dish towel or dish cloth which will be donated to the school cafeteria.

Mrs. J. E. Ayres urges all officers and committee chairmen to attend the executive board meeting at 1:30 tomorrow afternoon in the principal's office.

B. M. Baker executive board met yesterday afternoon at 2 o'clock at the school to nominate officers to fill vacancies created during the summer, and to complete plans for the regular meeting of the organization.

Initial program of the school year will be held tomorrow afternoon at 2:30 at the school. The meeting will open with the group repeating the Lord's Prayer, and a sing-song directed by Mrs. Claudie Gallman, music teacher.

New officers will be introduced by Mrs. Roy Holt, and teachers will be recognized by Principal B. R. Nuchols.

Recreation and a short business session will complete the afternoon activities.

Mrs. J. M. Fitzgerald, president, will conduct the first meeting of the Sam Houston Parent-Teachers association which will convene tomorrow afternoon at 2 p. m. in the school auditorium.

Time of meeting has been changed to coincide with the hour the school buses leave the building, in order that mothers of bus children may attend the programs more conveniently.

Highlight of the afternoon will be a tea honoring the teachers, with arrangements under the direction of Mrs. Wiley Reynolds, hospitality chairman, and her committee.

Members of the executive board will meet in the principal's office at 1:30.

Knox Kinard, superintendent of schools, will be guest speaker when Horace Mann Parent-Teacher association meets at the school tomorrow afternoon at 2:30 for the first regular session of the year.

Rev. H. H. Wood, pastor of the Assembly of God, will give the devotional.

Special music will include violin selections by Miss Evelyn Thoma, and group singing will be led by Miss Elizabeth Sewell, who will also accompany Miss Thoma.

Mrs. W. O. Prewitt, president, has announced that a social and get-acquainted hour will follow the program.

The executive board will meet in the principal's office at 1:30.

Three of every four Mexicans work on the land.

SOCIETY

Mrs. R. H. Nenstiel Is Hostess To Council of Church Women Board

Pampa Council of Church Women will provide one family unit which will be sent to a Protestant minister and his family in Europe, it was decided when the executive board met Monday in the home of Mrs. R. H. Nenstiel, council president.

It has been reported that persons in Europe who enter hospitals for medical attention must furnish their own linens. Ministers families have tried to donate the needed articles from their own limited supplies.

Approximately 2,000 ministers' families in France, Holland, Belgium and Italy will need supplies, it has been estimated. The United Council of Church Women has been asked to help supply this need.

Included in the family unit will be six sheets, two blankets, six towels, three pairs of pillow cases, six handkerchiefs, and soap.

Mrs. Walter Purviance, Mrs. G. F. Friauf and Mrs. D. V. Burton were appointed as a committee to draw up a new constitution for the Pampa organization.

The executive board of the Pampa Council of Church Women will meet the third Monday of each month.

Calvary Baptist Women Name New Union Officers

Plans were made for packing a number of Russian kits, when members of the Kathleen and Blanch Groves circles of the Calvary Baptist Women's Missionary union met at the church for industrial and business recently.

Mrs. C. G. Shelton presided at the meeting, and Mrs. S. L. Lowe led the opening prayer.

New officers for the year include: president, Mrs. Lowe; secretary, Mrs. J. H. Tucker; circle chairmen, Mrs. George F. Moore and Mrs. C. G. Shelton; Bible study, Mrs. J. W. O'Neal; missions, Mrs. W. E. Walker; mission study, Mrs. E. M. Dunsforth.

Education, Mrs. Jack Robinson; benevolence, Mrs. Frank Slaten; community missions, Mrs. E. B. Brown; stewardship, Mrs. J. C. McGraw; periodicals, Mrs. Humphreys; social, Mrs. Clements, and publicity, Mrs. Claude Crane.

Attending the meeting were Mesdames E. M. Dunsforth, I. C. McGraw, W. E. Walker, George F. Moore, C. G. Shelton, Mrs. S. L. Lowe, E. B. Brown and Claude Crane.

Right Hangers And Handling Aids Clothes

Keeping your clothes in good shape depends so much upon how you hang them up in your closet, that how-to-do-it rules are worth a few minutes' review.

Slacks? If you hang them over the crossbar of a coat hanger, see that there is cardboard or padding to protect the trouser legs from creases.

Shirts? Holders that clasp the waists are the perfect hangers. If you don't have these, use safety pins to hank skirts by the waistband to the crossbars of regular hangers.

Dresses? Put these on hangers wide enough to reach from one sleeve seam to another. Adjust shoulder padding to the hanger as you would to your shoulders, and fasten the dress at the neckline.

Knitwear? To hang is a crime. Sweaters and other garments should be folded in drawer and laid away in a box or drawer to prevent them from stretching out of shape.

Twinkle Toes

FASHION'S newest foil: jeweled boots. Aided by matching gauntlet gloves, black suede boots embroidered with karat-size stones steal the spotlight for quiet suits, such as Anthony Blotta's black satin model above.

Gaiters, with multi-color sequins, also are in the fall footwear parade, with matching gloves from the same black brocade as the suits with which they're teamed.

Books of Today

By W. G. ROGERS
NOT IN OUR STARS, by Joshiah E. Greene (Macmillan; \$3).

The milkman is the hero of this novel, which secured the \$250 Macmillan centenary award for Sgt. Greene, native of Duluth, graduate of Brown and formerly on the Providence Journal.

Taking as locale a growing metropolitan dairy farm, Greene marshals all the people in the community, shows what they eat and drink in mosty not milk... where they live, whom they love and how, whom they hate, how they carry on their living, how they carry on the labor-management conflict.

It makes agreeable reading. There are pages and pages of conversation, and numerous dramatic incidents such as strike threats, fire, theft, love, sex and murder.

It's more agreeable than convincing, however. For instance the conversations differentiate people as to their ideas but not as to their characters, so that while you learn what they think you don't learn what they really are.

Freddie Ellis is incredibly innocent for a girl of 16, Ida Heim incredibly malicious, Charlie Dann incredibly evil.

This novel is all things to all men. Do you believe in labor? Then here it is and here is the dirty deal it gets but also the way

Balance Is Key To Good Posture

"The handsomest posture I ever saw," says a GI friend back from the wars, "was that of a South Sea native woman who balanced water pails from the opposite ends of a yoke."

Her walking effortlessly under a back-bending burden may have opened this soldier's eyes wide, but it doesn't surprise posture experts. They say the balancing of weight, which gives you less of a load (your own belt) to carry, is the secret of good posture.

Remember this when you have to stand in line or want to look fatigue during miles of walking. Imagine that your weight is a yoke or a head-borne basket of clothes. Do this, and you can't possibly shift weight from its steady see-saw level.

But to maintain this yoke-line balance in motion, how to a line when you walk. That line should run parallel between your feet. Down there, put the burden of your weight on the outer borders of your feet.

Guymon Reunion and Golden Anniversary Attended by Pampan

Several Pampan's attended a family reunion in the home of Mr. and Mrs. C. A. Garrison, 201 S. Beaver St., Guymon, Okla., Sept. 8. The occasion was the celebration of the golden wedding anniversary of the couple.

Many appropriate gifts were received by Mr. and Mrs. Garrison.

The dinner table was centered with a large three-tiered cake decorated in white and gold, and a seven course dinner was served to the group.

Five of the seven children of Mr. and Mrs. Garrison were present. They included: Elva Garrison, Guymon; Mrs. Essie Young, Pampa; Della Garrett, Houston; Mrs. Ozella Shilling and husband, Oscar, Pampa; Mrs. Wilma Gunter, and her husband, J. R. Perryton.

Unable to attend were two daughters and sons-in-law, Mr. and Mrs. Roy Scanton, Hawthorne, Calif.; and Cpl. and Mrs. Earnest Morgan, Camp Hood, Texas.

Grandchildren attending were Mrs. Ella Faye Willis, Pampa; Mrs. Fern Stewart and husband, Manson, Guymon; Mrs. Berrie Sullivan, Pampa; Mrs. Opal Patrick, Houston; Jessie Lee and Harold Roy Shillings, Pampa; Joan, Donita and Teddy Joe Gunter, Perryton.

Unable to attend were the following grandchildren: W. T. Patrick ARM 1/C, stationed in the Pacific; Pfc. Mervin D. Scanton, San Diego, Calif.; Pfc. Joim Sullivan, in the South Pacific; Mrs. Alene Shillings and Robert Willis, Pampa.

Great-grandchildren present were Lola and Layton Stewart, Guymon; Nancy Willis, Pampa; Dona Marie Patrick, Houston and Don Carl Sullivan, Pampa. Unable to attend was Sharon Marie Shillings, Pampa.

Achievement Day Is Held for Canadian Home Economics Girls

CANADIAN, Sept. 12—Achievement day was held recently for 20 girls who have completed their projects in the summer home economics activities. Garments and canned foods were placed on display in the home economics room at the high school.

Reports were presented concerning work accomplished about the home as the redecoration of rooms. Punch was served to the guests.

Concluding event was a swimming party and picnic for the girls, who were accompanied by their teacher, Miss Margaret Doak. Later in the day the group attended the theater.

Miss Doak has accepted a position with the Claude high school for the coming term.

Order and progress in international affairs is essential for order and progress in America. We cannot have one without the other.—Gary, Ind., Post-Tribune.

La Paz, Bolivia, has perhaps the most fantastic location of any capital—it is perched 12,000 feet above sea level, yet rests in a canyon almost 1,500 feet deep.

Junior Guild Has Meeting in Home

Mrs. Lee Harrah led the study of the Philippine Islands, when Miss June Hodge was hostess to members of the Junior Guild of the First Methodist church last evening in her home.

The meeting opened with the singing of "Onward Christian Soldiers", and Miss LaNelle Sheihagen presided at the short business session.

Assisting Mrs. Harrah with the lesson were Miss Louise Stuart and Miss Hodge.

Refreshments were served by the hostess to Mesdames Quentin Williams, Lee Harrah, Joe Wilkinson, Howard Hoover, Frank Shotwell, and Misses Louise Stuart, Maxine Gary, LaNelle Sheihagen, Vera Sackett and the hostess, June Hodge.

Music Teachers Plan Programs

Plans were discussed for the presentation of the "Messiah," an oratorio, during the Christmas season, when members of the Music Teachers association met last evening in the home of the president, Mrs.

Pampa News

Published daily except Saturdays by The Pampa News, 222 W. Foster Ave., Pampa, Texas. Phone 446—All departments, MEMBER OF THE ASSOCIATED PRESS (Full Leased Wire). The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise credited to this paper and also the regular news published herein. Entered as second class matter at the post office at Pampa, Texas, under the act of March 3rd, 1879.

POOR BUTTERFLY

If any doubt lingers about the war being over, this should clear it up. Puccini's opera, "Madame Butterfly," which went underground Dec. 7, 1941, has re-established a beachhead in the repertory of American opera companies.

We understand that the San Carlo Opera already has mobilized a cast and redeployed it into rehearsal. Further landings may be expected at New York's Metropolitan and elsewhere in our land where opera has a foothold.

So it won't be long now until the hearts of American opera fans are again bleeding for poor Butterfly. Butterfly, as you may or may not recall, was the trusting daughter of one of the prewar sons of heaven. She met and fell for a handsome young lieutenant of the U. S. Navy by the name of Pinkerton. The armed services had no rule against fraternization in those days.

It's a very sad story. But it might seem that we were going in for forgive-and-forget stuff too soon and carrying it too far in restoring this story of the deceived Japanese maiden and the heartless American sailor to the operatic boards.

In fact, it would definitely be a bad idea if the fans whose hearts are going to bleed for Butterfly weren't opera fans. But the opera fans will hear "Macame Butterfly" sung in Italian, as they always have. Most of them won't understand the words and won't care. They'll be on hand just to listen to the music, which is lush, lovely, and about as Japanese as a grind-organ aria.

So there's very little danger that American opera patrons are going to confuse poor Butterfly with the poor Japanese. Besides, it might turn out that our alert postwar opera impresarios will have transformed Butterfly into a Chinese girl, and transferred Lieutenant Pinkerton to some mythical Graustarkian navy. Who knows?

LOOKING AHEAD BY GEORGE S. BENSON President—Harding College, Searcy, Arkansas

VINSON

Shortly after Fred Vinson was named Secretary of the Treasury he was quoted in the press as saying "the American people are in the pleasant predicament of having to learn to live 50% better than they have ever lived before." When he made this remark he was talking about a future day, one that may not come then and has not come yet, but a completely possible future day.

Hitler was no longer a menace, when the new Secretary spoke of a 50% higher living standard in America, but Japan still clouded the Pacific. Now that has cleared up also and today's national problem is economic rather than strategic. The strain is no less, but in a different place. Ease felt in America as firing ceased was like the relief of changing hands with a heavy burden.

LOAD IS ON VINSON About a month ago this column carried an outline of Mr. Vinson's tax policies which I frankly considered sound. Now, in view of the changed international picture, it is high time everybody knew more about this generalissimo of post-war finances, czar of economics in the world's most important country. He is a key man on the team that has to win if liberty, civilization and enlightenment survive.

Fred Vinson is 55 years old. Half a century ago he was playing in the yard of the jailhouse in Louisiana, Ky. His father was convicted of murder and he started to school. His coarse hair is half gray now and he has some loose skin under his chin but he's recognized as the "best in his line" and on a job where everybody wishes him well, if that's success.

A SERIOUS STUDENT A Louisiana, with some 2,000 inhabitants, is across the Big Sandy river from West Virginia. There young Vinson entered school, there he was a member of the team that went to Congress in 1922. At Center College, Danville, Ky., he worked in the library to help pay expenses, took a leading part in athletics and averaged above 95 in grades all through college and law school.

TO MAKE MORE JOBS Vinson has many prime qualifications for his present job. Anent his thoroughness, it came out a time or two in connection with his work as chairman of the tax section of the Ways & Means committee that he knew more than his witnesses themselves about testimony they submitted. Recollection of these incidents naturally tends to keep alive Vinson's influence among congressmen which is a big asset.

Nation To Return to Standard Time Soon

WASHINGTON, Sept. 12.—(AP)—The house interstate commerce committee voted unanimously to do away with war time at the end of this month.

The action, if approved by the whole congress—and such approval seems certain—would turn the nation's clocks back one hour.

The legislation provides for re-establishing standard time at 2 a. m. Sunday, Sept. 30, last day of the month.

Rep. Boren (D-Okla.), author of the measure, said he expected to bring it before the house tomorrow and predicted it would pass there without a dissenting voice.

The yolks of eggs contain lecithin, an important substance for nourishing nerves and aiding growth.

CARNIVAL BY DICK TURNER

"Do you think I'm made of money, Imogene? I took you to the movies and bought you candy, and now you want to get weighed!"

News Behind the News The National Whirligig

By RAY TUCKER

POLICY—President Truman and Secretary of State James F. Byrnes have formulated a definite and aggressive round-the-world foreign policy for the first time in recent American history. Although difficult to define in precise terms, they regard it as a program of enlightened but selfish idealism—the prevention of economic, political and battlefield conflicts.

Our role in world war—II has given us incredible authority in future international councils. The world is looking to us for leadership in the Red army for dealing the final stroke to Germany. But it is likely to forget that the U. S., while making a major contribution to Hitler's defeat, simultaneously crushed Japan without real help from any other power.

We produced some of the finest weapons, even excluding the atomic bomb, and two of the greatest generals—Eisenhower and MacArthur. We also turned out two of history's finest naval strategists in Nimitz and Spruance.

Through the use of our demonstrated military, industrial, economic and scientific authority, the Truman administration believes that it can help to build a more orderly universe on the ruins of prewar imperialism and dictatorship. As General MacArthur said in accepting Japan's formal surrender on the U. S. S. Missouri, it realizes that civilians faces its "last chance."

CHINA—Here are some of the fruits of our emergence as the greatest power in the history of mankind: The Sino-Russian treaty, which gives China its first opportunity to become a great modern state, was due largely to the Truman-Byrnes attitude at the Potsdam conference.

The White House recognizes that the friendship of this potentially powerful nation of four hundred millions can be a great asset to future generations of Americans. China can be a balance wheel against too strong a Russia or a revived and militaristic Japan. She can help to build a bridge amity between this country and three hundred million restless inhabitants of India and other peoples of the Far East.

What Messrs. Truman and Byrnes accomplished in the Berlin suburb after the Boxer Rebellion and in dealing an "open door" to that portion of the Asiatic continent. They made a permanent and historic comradeship of China, barring unforeseen developments.

It is not possible to exaggerate their realistic and humanitarian achievement in this field of Far Eastern diplomacy.

RUSSIA—As a result of the Truman-Byrnes attitude, Stalin has promised to keep hands off territory he had been expected to demand for himself—Manchuria and North China—and to withdraw support from the Chinese communists. Mr. Truman insisted on complete recognition of Chiang Kai-shek, and the iron man of the Kremlin's agreed. His acquiescence surprised even the American delegation, and the British were stunned.

The American assertions at the same parley forced Moscow's satellites to agree to the holding of free elections by unofficial observers from this country and England.

Although Russia's puppet rulers in the Balkans had scheduled phony elections for late in August, they postponed them after Washington and London insisted that they keep the pledges signed by the Big Four at Yalta. But they did not fall in line until after they had consulted "Uncle Joe." He ordered them to behave.

Incidentally, it is noteworthy that the new Attlee government backed President Truman in all these demands. It is doubted here whether former Prime Minister Churchill would have given his assent, fearing that the inevitable consequence of our policy would be American insistence on greater freedom for India, Burma and eventual withdrawal of the British from Hong Kong.

PINANCIAL—Messrs. Truman and Byrnes did not achieve these diplomatic triumphs by mere vocal persuasion or the charm of their personalities. In these they do not match former President Roosevelt.

In Hollywood

HOLLYWOOD—No wonder Eric Johnston is beating over the job he'll probably get as president of the Motion Picture Producers and Distributors of America, succeeding Will Hays. The job pays \$156,000 a year, plus a \$75,000 annual expense account and maintenance of an apartment in New York and a suite in a Beverly Hills hotel. At least, that was Hays' deal as movie czar. Johnston is ready to step into the post if Hays steps out completely. But Hays would like to remain as chairman of the board, which is holding up Johnston's appointment.

This yarn left us howling but we could be wrong. When the bored offspring of a famous business tycoon attained manhood, the biggie asked the lad what he wished to do with his life. "I want to be a radio star," said the son.

So the tycoon called together the greatest minds in the business world, fashioned a radio show, starting the boy every Saturday afternoon at 2:30, from coast to coast.

But the boy was unhappy and wailed, "This is terrible." "How can you say that?" cried papa. "It's the finest radio show in the world."

"Year," said the son, "but look at the time you've given me—Saturday afternoon at 2:30. No one will be listening."

"Why not?" asked Papa. "Because," said the son, "any fool knows that at 2:30 on Saturdays everybody is outside playing polo." LANA TURNER MAY WED

Look for the Lana Turner-Turban Bey wedding any day now. Lana is telling close friends that he is next, but soon. . . Clever, these popcorn manufacturers. The new popcorn bags have tiny holes in them so the kiddies can't pop 'em all the movies. The meanies. . .

Either Gary Cooper or John Wayne will replace Alan Ladd in that picture he found "unsuitable to his talents."

Singer Andy Russell's fiancée, Della Norell, is turning down all movie offers. Says she wants a career of being Mrs. Andy Russell. Andy, incidentally, collects \$30,000 for singing two songs in a new movie. It figures \$5,000 a minute. The income tax boys will come in on the last chorus.

THE MOVIE STAND-IN Someone asked how the Hollywood stand-in was invented. I believe it happened back in the days of Mae Murray, who wailed about standing under the hot arc lamps while cameramen lighted the set. So some unknown humanitarian made a stuffed dummy of Mae's approximate height and size, and stood the dummy in the spot that the scene was filmed. The dummy was called a "standin" and every star soon demanded one.

Then some cameraman, lighting up a scene in which action was to take place, complained that he needed dummies that could move. The mechanical man had not yet been invented so people were hired to be "movable dummies."

Gracie Reports

By GRACIE ALLEN Consolidated News Features

Well, you notice I didn't take Los Angeles long to get back into the old tourist game. Now we can advertise a mountain lion hunt within our famous city limits. This mountain lion, according to an eye-witness, killed a deer—that was drinking from a pool near Sunset Boulevard.

The story confuses me because it said the lion jumped on the deer from a bank I don't know what it was doing in a bank unless it was hired to bite people who overdraw their accounts. Goodness, if the banks are doing that, I'll have to take lessons from a lion tamer.

Anyhow, that's more proof I've had recently that California hasn't lost its wild and woolly pioneer flavor. A girl friend of mine was telling me last week a wolf jumped at her in front of a drug store.

Peter Edson's Column: QUESTION IS: WHEN WILL THE WAR BE OVER?

By PETER EDSON NEA Washington Correspondent

WASHINGTON—In spite of the last surrender of Japanese forces, that two-day binge in celebration of the fighting, President Truman's V-J Day proclamation and various other justifiable causes for rejoicing, the lawyers in government are having a tough job trying to decide whether the war is over and, if not, just when it will be. And, since there apparently will be no peace conference that the late enemies have anything to say about, it seems probable that congress will have to pass a resolution setting some arbitrary date to make end of the war legal.

You may not realize it, but it is really important to know when this war is over, officially. A lot of things depend on it. For instance, six months after the "termination of the war," it will be illegal to enlist WACS, WAVES, SPARS or lady marines. Six months after the "termination of hostilities," however, there can't be any more tax-free distribution of cigars to members of the armed forces.

What the difference is between these and other trick phrases is something that only lawyers and congressmen could think up. If congress didn't pass something to make it official, the war might go on forever and you wouldn't know the difference. What this proves is that congress really ends the wars, not armies or navies.

A V-DAY FOR EACH INDIVIDUAL But even an act of congress doesn't end the war adequately. Every individual has his own final V-Day, and the dates will differ for each man. For some people the war won't be over until the last tin can has been stepped on, the last pound of fat turned in, the last scrap of paper saved.

When you can light a bonfire with your ration book, say along about next Fourth of July, that will be good. When you can get all the beefsteak you want and can have it broiled with butter, that will be better.

For others—wives, mothers, and best girls—the war really won't be over till a certain very special man in uniform can come home from the front.

As the veterans' bureau was recently reported still paying a pension to a descendant of a veteran of the War of 1812, which was begun 133 years ago, it is reasonable to assume that the veterans' bureau will be paying benefits to the descendants of this war 133 years hence. That would put the end of the war in the year 2078.

With luck and good management the trillion-dollar cost of this war might be written off and the books closed in the year 2100. The point of all this is that wars really never end. Silly things, aren't they?

When the doctor's arrival, SHE was not prepared for the doctor's speedy arrival. She went down the stair once more as she heard the car to open the door before he should ring.

It was Dr. Lacey. He said, "What's up?" in that brusque way she so disliked. "Dr. Pelham has an appendix on his hands, so I came to see it."

"It is my daughter-in-law, Doctor; she has fainted in the hallway upstairs. I—I can't move her or I shouldn't have called you. Please be as quiet as you can; my son sleeps so poorly and his rest is so essential to him."

Dr. Lacey strode ahead of her up the stairs. Then she heard the door of Brock's room open and his call. "Mom, is anything wrong?"

"Everything is all right, dear." "The phone woke me. And didn't someone just die in?"

She confessed a little breathlessly, "Thayer got herself upset, naturally. I asked the doctor to drop by and give her sedative."

Suddenly she was aware of the sound of a rapidly driven car sliding its tires before the front door. Henry Pelham after all, no doubt. She opened the door. Hildreth came in like a storm. "What in heaven's name is going on?" she demanded. She had no intention to put on make-up and her strong-featured face looked bleak as a rock and as implacable.

"Something is the matter with Thayer," she challenged. "What are you trying to do to that girl, Corinne? Crucify her?"

"You'll have to explain that, Aunt Hildreth," Brock said and came toward them, standing himself against the wall.

(To Be Continued)

No. 8: The March of Science

(1) Professor Enrico Fermi, a Nobel prize winner, left Fascist Italy to work at Columbia University. At Columbia, his discovery that slow neutrons are more effective in splitting atoms than fast neutrons proved an important step toward making the atomic bomb a reality. At a Berlin laboratory, Drs. Lise Meitner, Otto Hahn, F. Strassmann and O. Frisch, repeated Fermi's experiment and opened a direct route that led to the unleashing of the atom's enormous energy storehouse. Heedless of the value of non-Aryan scientists in future discovery of Germany, the Nazis exiled Dr. Meitner and Dr. Frisch.

(2) Concerned more with the importance of her work at the Berlin laboratory than expulsion from her homeland where she had made many valuable contributions to science, Dr. Meitner set about to calculate the full significance of the German scientists' work. Where previous scientists had failed to do more than knock small chips off the heart of the atom, they had split uranium almost in half. The products were barium, the common metal in barium sulphate which patients swallow when doctors X-ray stomachs, and krypton, a rare gas used in neon-type lights. She calculated that energy could be released by this means on the order of 200,000,000 electron volts, or 5,000,000 times greater than the burning of coal. American scientists set at work at once to repeat the work which had been done originally in Germany. A great 75-ton cyclotron was available at Columbia where Dr. Fermi was working with Dr. George B. Pegram and other American scientists. The studies at Columbia revealed that when a uranium atom split in two, the amounts of energy suggested by Dr. Meitner actually were released. But the problem was a very complicated one and a number of questions needed to be answered.

(3) By all calculations, the scientists believed, atomic fission should start a chain of reactions that would blow up uranium in a terrific explosion. But this did not happen. The results were anything but spectacular. Then Dr. Niels Bohr in Copenhagen and Dr. J. A. Wheeler at Princeton offered an explanation. They said a chain reaction might occur if the scientists used pure U-235, the form of uranium that Dr. Dempster at Chicago University had reported upon. Ordinary uranium contains U-234, a form of the metal 234 times heavier than hydrogen; U-238, which is 238 times heavier than hydrogen, and U-235. U-235 acts as a fuse to light the fire, but the fire is quenched by U-238 and U-244.

Tomorrow: Hunting for the rare U-235

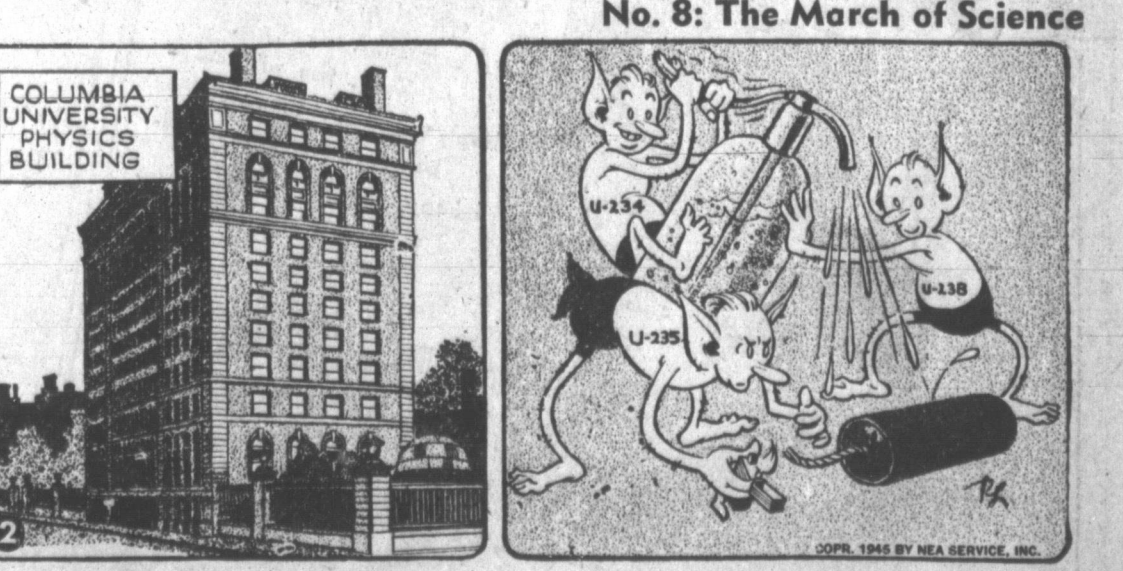

THE STORY OF THE ATOM

(1) Professor Enrico Fermi, a Nobel prize winner, left Fascist Italy to work at Columbia University. At Columbia, his discovery that slow neutrons are more effective in splitting atoms than fast neutrons proved an important step toward making the atomic bomb a reality. At a Berlin laboratory, Drs. Lise Meitner, Otto Hahn, F. Strassmann and O. Frisch, repeated Fermi's experiment and opened a direct route that led to the unleashing of the atom's enormous energy storehouse. Heedless of the value of non-Aryan scientists in future discovery of Germany, the Nazis exiled Dr. Meitner and Dr. Frisch.

(2) Concerned more with the importance of her work at the Berlin laboratory than expulsion from her homeland where she had made many valuable contributions to science, Dr. Meitner set about to calculate the full significance of the German scientists' work. Where previous scientists had failed to do more than knock small chips off the heart of the atom, they had split uranium almost in half. The products were barium, the common metal in barium sulphate which patients swallow when doctors X-ray stomachs, and krypton, a rare gas used in neon-type lights. She calculated that energy could be released by this means on the order of 200,000,000 electron volts, or 5,000,000 times greater than the burning of coal. American scientists set at work at once to repeat the work which had been done originally in Germany. A great 75-ton cyclotron was available at Columbia where Dr. Fermi was working with Dr. George B. Pegram and other American scientists. The studies at Columbia revealed that when a uranium atom split in two, the amounts of energy suggested by Dr. Meitner actually were released. But the problem was a very complicated one and a number of questions needed to be answered.

Dizzy Trout Carrying Out 'Five-Win' Plan Against East

Harvesters Work Hard for Game With Electra Here Friday Nite

Major League Standings

NEW YORK, Sept. 12.—(AP)—Major league standings including all games of Sept. 11.

AMERICAN LEAGUE:

Team	W	L	Pct.
Detroit	80	57	.584
Washington	80	61	.567
New York	70	65	.519
St. Louis	71	64	.518
Cleveland	67	65	.508
Chicago	67	72	.482
Boston	66	73	.475
Philadelphia	47	89	.346

NATIONAL LEAGUE:

Team	W	L	Pct.
Chicago	85	50	.630
St. Louis	83	53	.610
Brooklyn	75	60	.556
Pittsburgh	77	65	.542
New York	73	65	.529
Boston	59	78	.431
Cincinnati	55	81	.404
Philadelphia	42	97	.302

'Gangling Youth' Now Holds Down First for Bruins

CHICAGO, Sept. 12.—(AP)—One spring day back in 1934 a scout for the Chicago Cubs watched a gangling 16-year-old youngster cavorting around for the Chicago's Lane Tech high school baseball team.

Today he's still holding down a first base job for the Cubs. And right now he is eight percentage points ahead of Boston's Tommy Holmes as he battles for the National league batting championship.

He's Phil Cavarretta, and he's the big spark-plug in Manager Charlie Grimm's offense as the Cubs fight toward a National league pennant and the World Series.

He's having the best season of his career now.

His batting average for this season is .360 today, compared to Holmes' .352. His fielding average is over .980, and he's driven in 87 runs. The last Cub to win the National league batting title was Heinie Zimmerman in 1923. But Cavarretta isn't worrying about the hitting crown.

"All I want to do is hit that ball. Averages, records or league batting championships don't mean anything to me if I can drive in some runs now and then."

That's his baseball philosophy.

Borowy Wins Number Eight For Chicubs

By JACK HAND AP Sports Writer

Dizzy Trout's "five-win plan," designed to assure Detroit of the pennant during its final eastern jaunt, is 80 percent complete today.

Before the talented righthander took the mound against New York, Sept. 4 for the opener of the Tigers 20-game tour, he revealed a self-made schedule calling for five victories along the Atlantic seaboard.

After blanking the Yankees 10-0, he beat them with relief help, 11-4, trimmed Boston in the fireman role, 6-3, and shut out the Red Sox yesterday, 9-0. Four decisions in eight days, a torrid pace even for a Trout.

Ever since the Terre Haute terror regained his 1944 stride, the Tigers have been hard to catch even though Hal Newhouser's aching back required more rest between starts and Al Benton has failed to finish a single one of his last eight starts.

Now they have lengthened their lead over Washington to two full games for the Senators. Although Trout has yet to beat Oesle Bluege's contenders, his brilliant September form is one of the big reasons for his club's success.

The Senators dropped a discouraging 2-1 tangle to Chicago after taking a 1-0 lead into the ninth inning. The White Sox beat Johnny Riggle with two runs in the ninth on only one single.

New York and Cleveland were washed out of their final meeting of the campaign and the other clubs were not scheduled. Only news from that quarter was Luke Sewell's retention as Brownie manager for 1946-47.

Although the American race is attracting most of the attention, the National has developed into a close battle again with St. Louis only 2 1/2 games behind Chicago.

Hank Borowy, whose sale by the Yankees remains one of the big mysteries of the season, hurled his 10th complete game in as many starts for the Cubs, earning his eighth triumph, beating Boston by a 5-4 score. Fordham Hank had his anxious moments after blowing a 3-0 lead but pulled through in the ninth when Phil Cavarretta raced home in pinch-hitter Ed Sauer's infield hit.

St. Louis had to come from "way back, trailing once by four runs, to finally catch and pass New York in the last of the ninth, 6-5, on Whitey Kurowski's two-run single with the sacks loaded. Billy Southworth tossed five pitchers into the fray and Bill Crouch, recently acquired from Rochester, got the credit for his first win of the year.

Pittsburgh continued its September drive, tightening its hold on fourth place, by dumping the Phillies twice, 5-4 in 10 innings and 5-1 on a five-run spurt in the eighth frame.

After Al Libke's 10th inning single gave Cincinnati a 5-4 shade over Brooklyn in the opener, the Dodger snapped back with a 15-hit attack for an 11-6 victory to square the season series at 11 decisions apiece.

California Tourney Goes Into 2nd Day

DEL MONTE, Calif., Sept. 12.—(AP)—California senior golf tournament competition goes into its second day today with Guy Hansen of Los Angeles and J. K. Wadley of Texarkana, Ark., pacing the field. Both fired 75s yesterday over the Monterey peninsula country club course.

Frank Lindsay of Los Angeles, defending champion, carded a 78. Vice Adm. William H. Standley, USN retired, shot a 91. He is former ambassador to Moscow and president of the U. S. senior golf association.

VETERAN ELECTROCUTED

SAN ANTONIO, Sept. 12.—(AP)—Vernon Lee Bradshaw, 23, a discharged overseas veteran, was electrocuted Monday when he backed a truck into a high tension wire at Normoyle depot, District Fire Chief H. A. Dustin reported.

Sports Round-Up

By HUGH FULLERTON, Jr.

NEW YORK, Sept. 12.—(AP)—Ed Wright, the rookie who shut out the Cubs for Boston the other day, was discovered by Red Smith, the Cub coach, who got \$1,500 for his find. Wright may have pitched Red right out of a cut in the world series dough. . . Jimmy Johnston is broadcasting the news that he now is manager of Al Hoesman, who was heavyweight champion of the Pacific area before his discharge from the army. Hoesman is six feet five and weighs 210, which makes him about big enough to do everything Jimmy claims he can.

LET WHO DO IT?

The New York university football manager is George Kleinkecht; his assistant is George Baer; the equipment manager is George Olsen and the publicity director is George Shiebler. . . When there's a tough job, who do you suppose does it? . . . Why, coach Jack Weinheimer, of course.

ONE-MINUTE SPORTS PAGE

What's this story that the all American football conference is trying to peddle a quarter interest in its "strongest" franchise — Los Angeles—for \$50,000? . . . Ray Dumont's national baseball congress has set a \$10,000 "ceiling" on the prize money to be awarded the winning team in future sandlot tournaments at Wichita. This year's championship averaged better than \$5,000 a night at the gate for two weeks. . . Ed Danforth, Atlanta Journal sports editor, suggests the "confusion bowl" as a name for the Miami (Florida) vs. Miami (Ohio) football game Oct. 26. . . Tommy Tallchief, an Osage Indian, has rejoined the Oklahoma U. grid squad after his discharge from the navy. Sounds like a natural for Bruce (no more small boys) Drake's basketball team.

THIS WAY OUT

Manager Chick Wergeles tells about this phone conversation with Lightweight Beau Jack, who is due out of the army any day: "Mistah Wergeles, my papers is gone through; everything's gone through, but I ain't gone through. I want to go through the gate."

Merchants, Knights Game Is Postponed

The game that was originally scheduled to be played between the Pampa Merchants and the Knights of Pythias softball teams at Roadrunner park will not be played, it was announced today.

The game has been postponed until 2:30 Sunday afternoon at Roadrunner park.

The two teams are playing an exhibition series. The Knights won a three-game series from the Merchants to take the city softball league title.

Railroad Commission To Hold Hearing

AUSTIN, Sept. 12.—(AP)—Proposed new rules for handling bus and manufacturing and installing equipment will be aired before the railroad commission at a hearing here Sept. 17.

Under an act which became effective Sept. 4 the commission has broadened powers in the regulation of bus and manufacturing and installing equipment. New rules will be written following the hearing.

Oil Production In Texas Slumps

Philadelphia's Mundy Stadium To Get DDT

PHILADELPHIA, Sept. 12.—(AP)—Philadelphia is going to try to make the bugs out of night football.

City health officials will spray municipal stadium with the magic insecticide DDT for tomorrow's exhibition football game between the Green Bay Packers and the Philadelphia Eagles.

Pine oil will be mixed with the DDT to eliminate any trace of the insecticide odor.

Saturday: Forest (Dallas) vs. Crozier Tech (Dallas) (conference).

Two Pampa Vets Arrive in U. S. During Week

Pampa servicemen due to arrive in the States during the past week were Pfc. Roy L. Davenport, 729 E. Denver St., and Pfc. Leon Stuebken, 1108 Alcock St., according to a special release by the Associated Press.

On the USS Victory due in New York Sept. 7 were S/Sgt. Alvin E. Cone, Perryton; Pfc. James C. Demers, Plainview; Tec 5 Clarence E. Ausburn, Pfc. Harold B. Stewart and Pfc. Olin E. Monk, all of Lubbock. Among those on the USS Marine Robin due in Boston Sept. 9 was Pvt. William Mitchell, Amarillo.

Due in New York yesterday on the USS Daniel Hugen were S/Sgt. Frank E. Kennedy, McLean and Cpl. Clarence T. Briggs, Canadian; in Boston Sept. 10 on the USS Sea Owl, Capt. Charles B. Townes, Lubbock, Pfc. Alvin O. Frelton, Canyon, Pfc. Harvey J. D. Melton and Pfc. David L. Riley, both of Amarillo.

Expected to arrive Sept. 10 in Boston on the USS Marine Devil were Cpl. Marion E. Watts, Wellington; 1st Lt. Paul C. Nail, Lubbock, and S/Sgt. Thomas C. Galvin, Tec 4 Ortheil C. Sumner and Pfc. Altley J. Foster, all of Amarillo; On the USS Tabitha Brown due in New York Sept. 9 were S/Sgt. Lawrence L. Reynolds, Lubbock; Sgt. Milton W. Story, Dumas; Pvt. Jerral H. Slagle and Sgt. Maurice A. Hutchinson, both of Amarillo.

Pfc. Allen L. Britton, Burger, was due to arrive in on the USS Ralph Izard in New York Sept. 7; Pfc. Alvin P. Coonce, Dalhart and Pvt. Wayne T. Mitchell, Wheeler, on the USS Claymont Victory in Boston Sept. 7.

New Horizons...

Powered by Shamrock

Soon the entire output of the great Shamrock refinery will be available for peacetime use—bringing you finer petroleum products with the benefits of wartime research and development.

Ninety-five percent of Shamrock's production has been essential to the war effort. Shamrock gasoline powered the tractors and other machines for men who produced food for freedom. It transported war workers and vital materials—served at war plants and military posts. Too, Shamrock provided components for aviation fuel that flew our gallant fighters to victory.

Newly Released Yanks Give Aid To Jap Sufferers

YOKOHAMA, Sept. 12.—(AP)—American prisoners of war, newly released from the Japanese prison camp where they had starved and suffered, stopped their train from the camp to give aid to Japanese victims of a train wreck, the Eighth army reported.

The prisoners of war train was halted, the headquarters announcement said, at the request of the prisoners near Hachiji, 18 miles south of Atsugi air field, while the prisoners provided "comfort and first aid" to the Japanese victims.

In a reunion at the Yokohama station, Staff Sgt. Joel D. Whitley of Cisco, Texas, who was captured on Bataan, met his former troop commander in the Fifth army cavalry at Fort Bliss, Texas. The troop leader is Maj. Gen. Clivis E. Beyers, now chief of staff of the Eighth army.

To effect reunions and assist the former war prisoners as many as possible of the high ranking army and navy officers as possible make it a point to meet the prisoners of war train. On one occasion there were 22 gold stars on the collars of the welcoming group.

The be-starred group met a contingent of prisoners of war under Capt. Charles C. Underwood of Amarillo, Texas, who brought them from the Sendai camp.

Hot Weather, Hot Checks, and No Good Underwear

By JACK RUTLEDGE
Associated Press Staff

Santa Claus was in Dallas recently and says a local gazette, he was hot under the collar.

B. Donohue of Fort Worth sometimes doubles for Santa. He did this August. He came to Dallas to appear in a movie sequence urging early mailing of overseas Christmas packages.

The summer sun was almost too much.

"Oh, brother," he said, sweating through his false whiskers and red felt, "this is no time for Santa Claus outfits."

But just a few days after Donohue was so hot under the collar, the weather took a sudden drop. It got downright cool.

Detective Sergeant Bob Davis of the Dallas police force was peeved. He had just spent a lot of money installing an attic cooler.

And speaking of the heat, there was the Dallas Negro and his hot checks.

The Negro was carrying two pads of blank counter checks. He was caught by City Detective Bob Reeves as he was trying to cash a pretty good-sized check.

The Pulitzer prize alibi:

"I had a vision last night that I had \$200,000 on deposit and that I could write as many checks as I wanted against the account."

All steamed up was a discharged veteran at Marshall. He was trying to buy underwear. (Have you tried recently?)

"You fellows sure left the home front go to pieces," the veteran said in disgust, giving his pants a hike.

Market Briefs

WALL STREET

NEW YORK, Sept. 11.—(AP)—Related buying of selected stocks and industrial put prices under today's stock market after a timid liquidation had prevailed during the greater part of the proceedings.

Transfers ran to around 1,000,000 shares.

Forward leanings were shown for U. S. Steel, Montgomery Ward, Southern Pacific, Atlantic Coast Line, Northern Pacific, Bridgeport Brass, Gray Wood, International Paper, Douglas Aircraft, Chrysler and Boeing. Occasional minus signs were attached to Goodrich, U. S. Rubber, Eastman Kodak, Pepsi-Cola, Texas Co., Santa Fe, Anaconda, Allied Chemical and American Smelting.

Bonds were spotty.

The many problems accruing through our transition from wartime economy to one of peace cannot be solved successfully if the 48 state legislatures adopt widely conflicting or competing methods of assistance and control.—Gov. Walter E. Edge of New Jersey.

Abuse of Mexicans
Charged in Complaint

AUSTIN, Sept. 12.—(AP)—Col. Homer Garrison, Jr., director of state police, has ordered an investigation by a Texas ranger of a complaint from San Angelo pastors that Anglo-Americans have abused Latin-Americans.

The investigation was ordered after the complaint was referred to Garrison by Gov. Coke R. Stevenson.

The governor himself, made no comment, declaring that he did not know the facts of the situation.

The complaint, signed by pastors of a Catholic and two Protestant churches, asked aid of rangers to protect Mexican nationals against "an organized gang of Anglo-Americans who have been and continue to threaten, abuse, beat, maltreat and waylay Latin-Americans."

Gen. Wainwright Praises Texans

WASHINGTON, Sept. 12.—(AP)—When Gen. Jonathan M. Wainwright came here to a conqueror's honors he wanted the crowd to remember the men who were with him, one of them a sergeant from Paris, Texas, and another an aide from McKinney, Texas.

T. Sgt. Hubert Carroll of Paris, a regular army man of 12 years service was with Wainwright all through Bataan, Corregidor, and the prison camps. He said "Wainwright is all right. He will always be all right. He is that kind of man."

Lt. Col. Thomas Dooley of McKinney, aide, was at the first prison camp with the general, but they were separated the last two years of their imprisonment.

Carroll said he was last home in 1940. He has two brothers in Paris. S. E. Carroll, who works for a bakery, and Herman Carroll, a farmer near Paris. He has a sister, Mrs. P. M. Osburn, also a Paris resident.

Dooley and Carroll will accompany General Wainwright's party to New York for the reception there Thursday.

Speedy Liquidation Indicated for OPA

Speedy liquidation of the office of defense transportation was indicated today in an announcement by E. P. McCallum, Jr., regional director of the Highway Transport department of ODT, that all remaining district offices be closed on or before November 1. Only a skeleton staff will be retained after October 12 in the district offices and the regional office in the Mercantile bank building in Dallas.

Many district offices and all of the field offices already have been closed in the Missouri-Kansas-Arkansas-Texas-Louisiana region.

The Railway Transport Division of which E. O. Walker is district director in Dallas, will close October 6. The information division of which J. Porter Wright is regional officer in Dallas, and the Division of Transport personnel, of which Robert Cray is regional representative in Dallas, will close September 21.

ODT executives have announced the reductions are being made in accordance with the agency's policy of lifting transportation controls as fast as can safely be done.

Cheese Is Taken Off Ration List Today

WASHINGTON, Sept. 12.—(AP)—The OPA yesterday removed all varieties of cheese from rationing effective at 12:01 a. m. today.

The agency took this action as the agriculture department removed all cheese controls following notice from the army that some military stocks of cheddar cheese can be used to meet requirements of foreign claims.

The department estimated a 40 percent cheddar cheese set aside for September, and terminated an order which had restricted manufacture of foreign-typed cheese to permit production of cheddar in greater volume.

The United States stands alone among the great powers as still firmly committed to individual initiative in the economic field.—Hon. C. V. Starr-Bulletin.

Conservation Group Elects McCallister

NAACOGDOCHES, Tex., Sept. 11.—(AP)—New officers of the Sabine-Neches conservation district board elected Ralph A. McCallister, Naacogoches, president.

McCallister was elected at the first meeting of the newly organized board held Sunday. The nine members of the board were appointed by Gov. Coke R. Stevenson last week.

The officers were elected at the first meeting of the newly organized board held Sunday. The nine members of the board were appointed by Gov. Coke R. Stevenson last week.

The undersigned having been duly appointed independent executors of the Estate of W. W. Harrah, deceased, late of Gray County, Texas, by Sherman White, Judge of the County Court of said County on the 27th day of August, A. D. 1945, hereby notify all persons indebted to said estate to come forward and make settlement, and those having claims against said estate to present them to them within the time prescribed by law at their residence, Pampa, Gray County, Texas, where they receive their mail, this 24th day of August, A. D. 1945.

Harlingen School Refunds Approved

GALVESTON, Sept. 12.—(AP)—The state board of education approved Harlingen independent school district bond refunds but voted against similar application from Wichita Falls at its meeting here yesterday.

Harlingen will refund two issues, one totaling \$240,000 at five percent and the other \$261,000 at 3.75 percent interest. The district will issue new bonds at a lower interest rate to cover cost of show on bond building program and repair of damage caused by the recent storm.

District officials said Harlingen was assessed its maximum tax rate and reached the legal debt limit. The only possible relief is through reduction of bond issue rate, they said.

Wichita Falls' issue, which was refused by the board, was 1,741,000 at three percent.

The board approved school district bills and departmental accounts totaling \$12,721.88 and a group of 1945-46 homeing education contracts totaling \$13,172 for salaries and work in 36 counties.

Market Briefs

NEW ORLEANS COTTON

"How was I to know he scrubbed decks in the navy?"

Well, Senator?

Truman's Chances For Re-Election Are Speculated

WASHINGTON, Sept. 12—(AP)—The prophets are at it again. Now they're predicting President Truman's political future.

It goes something like this: 1. Mr. Truman's chances for re-election in 1948 depend upon what happens to the 21-point program he gave congress last week.

2. Upon passage of that program depend the democrats' chances for winning the 1946 and 1948 congressional elections.

3. It's too soon to be positive about the effect of the success—or failure—of the Truman program upon him or his democrats.

4. Mr. Truman's popularity is still riding high. This alone, if he retains it, will be a big factor in the future of himself and his party.

5. His program cuts two ways. Some of it is to solve immediate problems. Some is long-range, like full employment, housing, public works.

6. The key to our prosperity is full employment, or rather a lack of wide unemployment.

7. Unemployment is growing now. It will continue, for a while at least.

8. Then, economists inside and outside government, think employment should grow as industry gets going.

9. The point is: how long will fairly full employment last?

10. If it starts before the 1946 elections and lasts through 1948 it undoubtedly will do Mr. Truman and his democrats a lot of good.

Japanese Bows Self Off Dock Into Water

TOKYO, Sept. 12—(AP)—An effusive Japanese civilian bowed himself right off a dock into the water yesterday, as a crowd of Japanese turned out to greet the first American ship to tie up at a Tokyo dock since before the war.

Destruction of A-Bombed City Is 'Much Greater'

SAN FRANCISCO, Sept. 12.—(AP)—American experts returning from atom-bombed Hiroshima reported today the destruction was "much greater" than they had expected, but that there was no dangerous radioactivity lingering in the area, radio dispatches said.

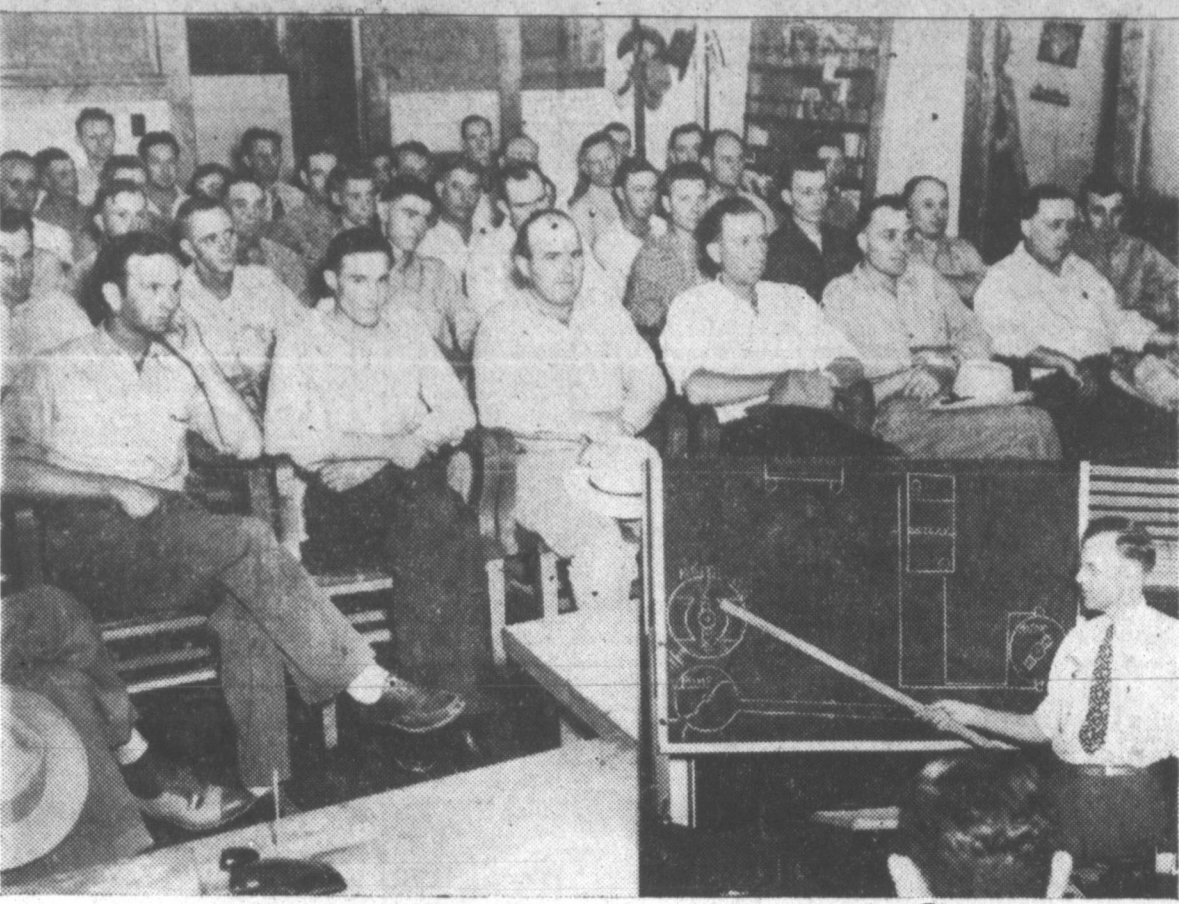

American broadcasters quoted Col. Stafford Warren, chief medical officer of the atom-bomb project for three years, as saying that 70,000 to 100,000 Japanese casualties at Hiroshima would be "the best guess." Most, he added, were from blast, missiles and fire; and the casualties from radioactivity resulted from exposure at the instant of the explosion—rather than afterward.

He said the American investigators had tested the area but found nothing to support Japanese claims that radioactive matter remained in the area.

The bomb was designed as a blast weapon and radioactivity was confined to the point of detonation, he added; and he also denied Japanese reports that gases had been released by the bomb.

He reported 68,000 buildings destroyed or damaged—80 to 90 percent of the city, with the area completely devastated for a radius of a mile and one quarter. Buildings three miles distant were half destroyed, he said.

MECHANICS GET INSTRUCTION

Above is a photograph taken during the opening session of the current automobile mechanics course being held here by the

University of Texas in cooperation with the local chamber of commerce. The course is being taught by Elmer Frede (inset) in-

erant instructor of auto mechanics for the university's extension division.

336 Jobs Open In Panhandle

In keeping with the state-wide adjustment to reconversion of workers, 336 employment opportunities are available in Gray, Wheeler, Hemphill and Robert counties, according to a report of the Pampa Labor Market.

Principal demands for labor are for male carbon black workers, laborers in gasoline and oil refineries, construction laborers, auto mechanics, foundry laborers, office clerks and one opening for a chemist or metallurgist. Three stenographic positions are available to women.

Most of the 188 persons registered for jobs with the United States employment service are women, whose only experience has been process work in factories, and elderly men. During the past two weeks 132 persons have been referred to jobs by the office, with 129 hired.

Congress

Continued from Page 1

was debating: The house considered a bill to end "war time" and turn America's clocks back an hour on September 30. There wasn't much argument about this. The bill is expected to sail breezily through the house, senate and White House.

The senate continued its debate on the airport bill. The measure would put up federal money to go Dutch-reat with states in a huge program of airport building. The house has a different version; hasn't debated it yet.

And there was tax news: Those tax cuts that corporations and individuals are expecting Jan. 1 became even more likely—in fact pretty certain—when the house committee on ways and means voted unanimously to get going soon on a quick tax bill.

There will be a tussle over the amount and method of the cuts. But if the tussle doesn't last too long, some sort of cuts can be expected.

As for the situation on unemployment: The Truman-supported plan for bigger benefits to the unemployed was given a surgical operation by the senate finance committee.

Here's what was removed: Federal cash to increase weekly payments made by state governments.

Here's what stayed in the bill: Federal cash to string out those payments to 26 weeks; also travel pay for jobless workers stranded away from home; also unemployment benefits for federal employees and maritime workers.

That isn't final. Congress will debate the measure and maybe shuffle it around again.

Hitting some more high spots today: Senator Bally (D-NC) said he soon will introduce a bill for a federal helping hand in industrializing areas that are poorly developed and haven't enough industry.

The senate foreign relations committee took a preliminary look-see at a bunch of bills relating to the atomic bomb.

Jap Forces

a. m. (10:15 p. m. Tuesday CWT) and was concluded in a few minutes. Itagaki signed for Terachi, who Mounbatten said had suffered a cerebral hemorrhage at his headquarters in Saigon.

But Terachi himself will have to make a personal surrender as soon as he is well. Mounbatten made clear, adding that "this sword is the one thing I want out of this war."

News of Many More Texans Is Received

OMINATO, JAPAN, Sept. 12.—(AP)—News of more Texans in Japanese prisoner-of-war camps has been brought by five Americans who arrived here yesterday from an Allied prison camp in the mountains of the northern Japanese home island of Hokkaido.

The men said a Texas national guard unit was in Hokkaido. The names of those they had were: S/Sgt. Leonard C. Campbell of Jacksboro, Pvt. John T. Baker of Perrin, Cpl. Jack Kenner of Marlin and Pvt. Douglas F. Knight of Amarillo.

State Instructor

To Address Firemen

Chief Frank Williams, state field instructor from the Firemen's Training school, A. and M. college, College Station, will address Pampa firemen and put on a fire drill Friday morning, Sept. 14.

Chief Williams visits all Texan stations annually, giving information of the latest developments in fire-fighting.

Texas Men

and she made up for lost time. "Oh, I'm so happy I still don't know what to say," she remarked. "I haven't come down to earth yet. I just knew he would get back all right some day, and he looked so much better than I expected."

Colonel Dooley agreed that he had fared well compared with most of the Americans who were prisoners of the Japanese.

"It was a miserable life," he elaborated, "but personally I was very fortunate to come through it all right when all those boys of ours were dying."

After a few months imprisonment on Luzon in the Philippines, Dooley was taken along with General Wainwright to Formosa, and following two and a half years imprisonment there was removed to Ax Mukden, Manchuria. He and Wainwright then were separated, the general being removed to a camp about 200 miles north of Mukden.

On Aug. 17 the prisoners were released, a day after American paratroopers had dropped down to demand the surrender of the Japanese. Three days later Russian troops entered Mukden. On Aug. 27 a plane bearing General Wainwright stopped there and picked Dooley up and carried him to Manila. The Texan was with Wainwright at the surrender scene on the battleship Missouri and also when the Japanese surrendered Philippines thereafter at Baguio, in the

Throughout imprisonment he managed to get six letters through to his mother to let her know he was safe. Dooley is single, but he has a married sister, Mrs. M. S. Minton, whose husband, Dr. M. S. Minton, accompanied Mrs. Dooley to Washington.

Sergeant Carroll, a regular army man, has been in the service since 1934. Although he calls Paris home, he lived in several parts of Texas before entering the service. His parents are both dead but he has other relatives in the state.

War Criminals

Continued from Page 1

keen interest in "the American drive to round up war criminals." Several others on the list, which includes a few suspected Occidentals, already were in custody.

In Singapore, Adm. Lord Louis Mountbatten received the surrender of all Japanese forces in southern Asia and the East Indies; and in Japan, Dome reported that more than a million imperial navy men were disarmed and discharged—more than two-thirds of the navy's total manpower.

Allied headquarters in Tokyo reported 33,000 allied prisoners had been or were being freed in the homeland islands. Prisoners from an isolated Hokkaido camp said Marine Lt. Col. James P. S. Devereux was alive and has preserved the full story of his garrison's heroic defense of Wake island.

Osaka, Japan's second largest city, virtually was taken over a week ago by a handful of self-liberated American prisoners who now are awaiting arrival of Gen. Walter Krueger's Sixth army forces. Associated Press Correspondent Spencer Davis reported.

Sgt. John A. Archinal of Allentown, Pa., provided the first whole blood for Tojo today, explaining: "I'm doing this so he can get his just dues and suffer for the 17 months he made me spend in New Guinea."

Tojo, eyes closed but lids sometimes quivering at the flash of photographers' bulbs, said nothing at all. He lay quietly, his feet protruding from beneath the covers of his mattress bed in the American evacuation hospital in Yokohama. MacArthur's personal physician and four nurses attended him.

Lt. Gen. Robert L. Eichelberger said Tojo had shot himself at his home yesterday with an American air corps pilot's pistol, which "I believe was taken from an American aviator shot down during the war."

Of Tojo, the Tokyo newspaper Mainichi said "The general masses clamored for his death."

Tojo was quoted as announcing "I will shoulder the whole responsibility" for the war.

MacArthur, pleased with occupation progress, compared it favorably with that of Europe, and pointed out that Japan retained her own leaders who are helping enforce Allied orders; and that Japan would rehabilitate herself without Allied assistance.

Residents of Monte Carlo are not allowed entrance into the gambling casino.

Special Election Count Announced

AUSTIN, Sept. 12.—(AP)—The official canvass and proclamation of results of the Aug. 25 special election gave the following final votes: on four constitutional amendments: Soldier vote—for adoption, 134,865; against, 38,679.

Legislators' pay — for, 42,879; against, 130,893.

Nine-judge supreme court — for, 92,114; against, 79,295.

Welfare appropriation ceiling—for, 96,959; against, 78,052.

Returns from 18 counties were excluded because they failed to report results or failed to hold an election, said Secretary of State Claude Isbell.

Atascosa and Zapata counties held no election, he said, and three other counties also failed to hold an election.

Angel of Peace

Continued from Page 1

can flag flying over a cross marked "let us forget." He even managed to find a piece of red crayon to color the stars in the flag.

Then in his odd hours he set down the memories. First he made a calendar and crossed off the days as he circled the 15th of August, when he first heard of Hirohito's capitulation, and September 5, the day he was freed.

He then listed significant dates in his marine service and names and addresses of all his fellow prisoners. Next he recorded a bet with another prisoner that an armistice would be signed at an hour closer to nine a. m. than noon. The bet was for "two wash basins, two apple pies, two jellyrolls and four malted milks, jayable at first opportunity." Oscar won. The Japanese envoys signed shortly after nine o'clock on the battleship Missouri.

Oscar next listed all cities he had ever visited, his favorite jazz songs, and all the clothes he wanted to buy when he got home.

He set down all the holidays he could remember and followed that with a list of important anniversaries in his life. One notation said "mother's birthday" and five spaces below it was "August blank, 1938—mother buried."

Oscar then noted down all mountains he had seen, all theaters he had visited, all night clubs he had ever been in and schools he had attended.

Oscar composed several sentimental and light spirited songs and poems.

Tomorrow I will give you some songs and poems by Oscar, poet laureate of Ashiro prison camp.

(This is the first of several columns giving prisoner of war side-lights.)

Retired Aircraft Executive Dies

FORT WORTH, Sept. 12.—(AP)—George Newman, 61, of Fort Worth, retired airplane manufacturer, died of a heart attack yesterday at Miami Beach, Fla., where he had resided the last three months, relatives here were advised.

With Maj. Reben H. Fleet he established the Consolidated Aircraft Corporation in 1923 and became vice president and general manager at East Greenwich, R. I., and at Buffalo. He remained with Consolidated until 1935, when he retired.

Bomb Reports

Continued from Page 1

plosion, these rays had died down so much that half an hour's stay was safe.

The crater, a saucer nearly half a mile wide, was an almost unbroken expanse of jade and turquoise colored glass, formed by the intense heat that melted the earth.

Equally amazing was the form of the crater. This depression had not been made by digging out the soil, instead the solid earth had been forced down, as if pressed by a gigantic mold.

The mold was the pressure generated in the bomb. The amount of this pressure is a secret, except for an approximate figure given in the official British report of the atomic bomb. The British said the pressure was millions of times greater than one atmosphere which is 14 1/2 pounds a square inch at sea level.

The heat which boiled the earth is also a secret. But again the British report gives an idea, saying it was millions of degrees.

Before entering the crater, every member of the party was required to tie white canvas bags over his shoes. This was to avoid the possibility — which the scientists said was remote — that shoes might pick up and carry unnoticed a particle of dirt that was still strongly emitting X-rays.

Within the center members of the party picked up souvenirs that consisted of pieces of the colored glass.

Each souvenir was carried by its possessor to one or another of the scientists who had X-ray meters. The souvenir had held close to the meter and a dial reading showed whether the object was safe or whether it still had too much X-rays. Most of the objects were safe, by the meter, but the party was warned not to carry them in bare hands and not to use pieces for desks weights for a month or two until the rays weakened.

French

Continued from Page One

Czechoslovakia and Yugoslavia free use of the port.

4. The French are prepared to accept the British and American plan to place the bulk of the Italian colonies under Italian trusteeship.

5. The French desire border rectifications on Tunisia's inland frontier with Italian colonies, seeking certain areas which are important on the desert routes.

6. France is insistent on at least the principle of Italian reparations. The French say they are not seeking any large sum for the general war damage but that they are anxious to get a small sum as a matter of principle.

Pampa Home Badly Damaged by Fire

Fire broke out and badly damaged a two room house at 1035 S. Barnes St., at 7:45 this morning as the result of a curtain over an open window being blown over the flame of a gas stove burner, according to Fire Chief Ben White.

With all doors and windows open the fire was given good ventilation and quickly spread; both rooms were completely charred. Firemen strung a one-line 600 foot hose to fight the flames. The residents had lived in the house but one day.

Chief White urges that inflammable materials, such as curtains, be kept from within range of all sources of fire, and that when a fire does break out to keep all doors and windows closed.

Dodgen To Take Coast Operations

AUSTIN, Sept. 12.—(AP)—Direction of coastal operations of the Game, Fish and Oyster commission today passed into the hands of Howard Dodgen, executive secretary.

Dodgen announced appointment of two supervisors for the commission's coastal field operations, and said the Corpus Christi office would stay open to issue licenses and disseminate information.

He also announced that a plan for establishing a marine laboratory, probably at Rockport, and for employing two additional marine biologists was under study.

Dodgen named Frank Mebane, now a coastal warden at Alvin, as supervisor for the northern coast section from Freeport to the Louisiana line. He appointed Ernest Wehmer, coastal warden at Palacios, as supervisor for the southern district from Freeport to the Mexican border.

Madeline Barnham will remain in charge of the functions of the Corpus Christi office.

The game commission has a \$25,000 fund available for establishment of a marine laboratory to study development of salt water fisheries. Dodgen indicated that the commission would have to approve whatever plans are finally formulated for its establishment. The commission meets next month, but the date has not yet been set.

Dodgen made the announcements on his return from a survey of the coastal area.
