

TODAY on the HOME FRONT by James Marlow and George Zielke

WASHINGTON—(AP)—Lo! What is an American Indian? Congress wants to know.

At present in the United States there is no standard definition of an Indian which is accepted for all purposes.

Now congress has authorized its house committee on Indian affairs to investigate the status of the Indian, find ways of improving his condition, maybe cut down some government expense caring for him, and finally get him out from under Uncle Sam's guardianship as soon as possible.

The bureau of the census, in making its round to check up on the population, accepts as Indian anyone who says he is and who is regarded as an Indian in his community.

But the office of Indian affairs, which manages the affairs of perhaps 350,000 Indians, has a different definition, an Indian is one who has a certain specified amount of Indian blood.

Thus the census bureau found there were about 22,000 Indians in North Carolina but the office of Indian affairs reports only 3,000.

In the past even the tiniest drop of Indian blood was sufficient in certain cases to allow a person to be considered Indian.

In one tribe, whose lands were divided about 40 years ago, allotments were made to individuals claiming only 1/256th part of Indian blood.

Now the trend is to exclude individuals of less than 1/4 Indian blood from future benefits. In some cases 1/8 Indian blood is needed.

This is what an Indian office statistician said in trying to give a definition to the house committee: "Because of previous legislation and administrative decisions, many persons of lesser degree of blood still are involved in the affairs of the Indian office, and many individuals are in the anomalous position of being Indians for some purposes and non-Indians for others."

"A standard definition of Indians, applicable to all situations, would require an act of congress."

This confusion must create quite a problem for bartenders because it is against federal law to sell alcoholic drinks to an Indian.

But how can a bartender tell who's an Indian? The office of Indian affairs comes to the rescue, by explaining:

"There have been many court decisions and, among them, they say this: It is illegal to sell alcohol to anyone who has ever been a member of an Indian tribe."

"That could mean this: A child, only part Indian but accepted as a member of a tribe, is taken away by his parents when he is a baby. He grows up in a distant city. He becomes a man. He goes into a barroom. Can he buy a drink? No."

BUY BONDS Want to Be Head of Texas A&M?

FORT WORTH, March 16—(AP)—Want to be president of Texas A. & M. College?

The board of directors says the list is "wide open" and here are some qualifications:

1. Preferably a Texan, but not necessarily so.

2. That he be possessed of ample and successful administrative experience.

3. A man who will command the confidence of the student body, the faculty and the people of Texas.

4. That he be possessed of abundant ability, vision and courage.

5. Preferably not over 50 years of age.

6. Proper educational background.

Heavyweight

If you're making future book on heavyweight champions for around 1964, you might consider Donald Neri, above, pictured on his second birthday. Weighing eight pounds at birth, he now weighs 40 pounds, takes a size 4 suit and 6 1/2 shoe and lifts a telephone book with ease.

Retail Stores To Be Checked

A checkup on retail stores in Pampa to see if they are keeping their prices in line with office of price administration regulations will be made on March 20 and again on April 3 by a committee working under the direction of the county rationing board.

At other places in the county, the inspections will be made by board members.

In the second checkup, the committee is to find out whether storekeepers have corrected errors found in the first inspection. If they are found out of line in the second inspection, they must meet with rationing board officials.

Deliberate violations will be referred to the OPA district office for immediate enforcement action.

In the survey, 10 popular market-bank foods will be checked for selling and ceiling prices. Representatives will visit 55 food stores in the county.

Purpose of the survey is to obtain better compliance with price control regulations by helping retailers understand the necessary requirements and to protect storekeepers and customers from black market competition.

Teachers of Pampa public schools form the committee. They have accepted the job on request of the county rationing board.

J. Herman Jones, junior high assistant principal, is chairman. Other members, by school, are: Baker—Mrs. Winnie Carnahan, Mrs. Jean Moore, Mrs. Rachel Jones, Horace Mann—Miss Elizabeth Sewell, Miss Clara Brown, Miss Joan Gurley.

San Houston—Mrs. J. D. Beach, Mrs. John I. Bradley, Mrs. Marlon Bishop.

Woodrow Wilson—Mrs. Haskell Duckett, Mrs. Espar Stover, Miss Hazel Gilbert.

Junior High—Mrs. Robert Carter, Mrs. James Pool, Miss Essie May Leaverton.

High School—Mrs. E. L. Norman, Mrs. Leslie Hart, Mrs. R. H. Sanford.

BUY BONDS Counterfeit Gasoline Coupons Big Racket

WASHINGTON, March 16—(AP)—Printing and selling of counterfeit gasoline ration coupons is the biggest criminal racket ever to blanket this country and constitutes a menace to the rationing system itself.

Poller, director of gasoline rationing enforcement for the office of price administration, asserted today.

Unless the public understands and helps crack this black market, Poller said, its activities will jeopardize ration currency and undermine the national wartime economic structure.

BUY BONDS The Army's malaria rate for overseas units in 1942 was about 30 men out of 1,000.

CHICKENS—TURKEYS STAR SULPHUROUS COMPOUND Given in water or feed destroys intestinal germs and worms that cause most all disease and loss of egg production as they enter fowls in feed. Keeps them free of blood-sucking insects. Appetite, health and egg production good. Costs very little. Money back if not satisfactory. CRETNEYS

NEWS OF OUR MEN—WOMEN IN UNIFORM

Naval Avic Kerry D. Barnard, of Pampa, son of J. L. Barnard, has reported to preflight school at Athens, Ga. Cadet Barnard completed naval flight prep school at Austin and was transferred to Athens from the CAA war training service school at Kerrville.

Pfc. James W. Campbell and Pvt. Albert L. Taylor, both of Pampa, are among soldiers qualifying for Carbine M-1 rifle shooting medals, at Lubbock Field.

Marine Recruit Wesley D. Martin, above, nephew of Mr. and Mrs. J. W. DeWitt, 901 Campbell, is learning to "squeeze 'em off" at the Marine corps base, San Diego, where he is taking recruit training.

AN EIGHTH AAF BOMBER STATION, England—The promotion of Charles W. Dagner from the grade of corporal to sergeant has been announced at this bombardment base, by Lt. Col. Robert B. Satterwhite, group commander. Sgt. Dagner is an electrical specialist, working on one of the special Flying Fortresses in the eighth air force at this base in England.

The recently appointed sergeant is the son of Mr. & Mrs. William Dagner of Arcadia, Texas, the wife, Mrs. Mollie Dagner lives at Pasadena, Calif. Prior to entering the AAF on Aug. 31, 1942, Sergeant Dagner was employed by Stanolind Oil and Gas Co., Pampa.

BUY BONDS Teller Wins Large Bets on Horses With His Bank's Money

BOSTON, March 16—(AP)—Short mid-named Charles Stewart Dineen, 32-year-old, \$35-a-week bank teller who waserased thousands of dollars of the funds of his bank on horse races—and won—and replaced his earnings, has been sentenced in federal court to serve two months in jail.

The luck that had served Dineen during months of successful betting failed him at last when a \$10,000 shortage was discovered in another teller's accounts, according to an outline of the case presented to Judge George C. Sweeney by Prosecutor Joseph M. Hargadon.

Other employees of the Broadway National bank in Chelsea told FBI agents that Dineen had been playing the horses and they arrested him as he left the Suffolk Downs race track. They never traced any shortage in bank funds to him—but he told them about his betting and came into court and pleaded guilty of a charge of embezzling \$10,000 in bank funds and falsifying records. The \$10,000 shortage has never been solved.

Dineen, a bachelor, said he had placed one bet of \$17,000 on Count Fleet to win the Kentucky Derby in 1943 and another of \$4,000 on Whirlaway at New Orleans in the winter of 1942.

The FBI men said Dineen told them he had won all his large bets.

BUY BONDS MacArthur Viewed As Candidate to Break Republican Deadlock

DALLAS, March 16—(AP)—W. E. Talbot of Brownsville, a former Dallas resident who was on the staff of Gen. Douglas MacArthur in World War I, says MacArthur is an ideal candidate for president and a distinct possibility for the Republican nomination to break a Willkie-Dewey deadlock.

The present situation in the Republican party is much similar to that of 1920 when Warren Harding was chosen as a compromise candidate, said Talbot, who was once the Republican nominee for governor and has been president of the Texas department of the Rainbow Division Veterans association since it was organized in 1919.

"Most of the Rainbow veterans who served under MacArthur are for him, of course, but MacArthur's popularity reaches into all ranks and all sections of the country," said Talbot.

MacArthur is not a candidate for any office. He is imbued with one purpose, to return to the Philippines and deliver his people from Japanese bondage. If he runs for president, it will be because he is drafted."

BUY BONDS Man Goes Back To Prison for Health

AUSTIN, March 16—(AP)—Jose Salinas of Laredo was a free man again today, after building up a prison and clemency record unique in the files of the board of pardons and paroles.

Salinas has been in and out of the penitentiary several times—once by the escape route, twice back behind the walls upon his own volition, pardon board records show.

First, he was sentenced to serve a 10-year term for burglary from Webb county. Then he escaped from the penitentiary, fled to Mexico, and gave himself up to Laredo officers.

He served more than five years of his term with a spotless record, applied for clemency and was backed up in this application by local officers. A conditional pardon was granted Nov. 12, 1941 and Salinas was free again.

Salinas, ill, and running a fever, re-appeared at Huntsville on July 28, 1943, asking to be re-admitted. Puzzled prison officials asked the governor's advice—it was a new wrinkle to them. They were informed that under the law, Salinas could be re-admitted if he asked for revocation of his own pardon. This he did.

The pardon was revoked and Salinas stayed in the prison hospital for seven months, regaining his health. When he applied again for clemency, this time he was granted in the form of a six-months reprieve.

**Campbell Conviction Is Reversed by Court**

A judgment in 31st district court here last fall was reversed and remanded by the court of criminal appeals at Austin yesterday.

The case was that of State of Texas vs. F. A. Campbell, who had been indicted here on July 9, 1943, on charge of assaulting a woman. Campbell, in a jury verdict returned Oct. 27, 1943, was found guilty and sentenced to five years in the penitentiary.

A transcript of the trial here was mailed to the state court on Jan. 11 of this year. Ennis C. Favors, who represented Campbell in the district court trial, represented him also a week ago in Austin.

The United States had 172 disasters, including floods and tornadoes, in the year ending in June, 1943.

**Weapons Pile Up In India for Chinese**

WASHINGTON, March 16—(AP)—The United States has a huge stockpile of weapons in India—\$40,381,000 of artillery and other guns, \$77,871,000 of ammunition and \$42,197,271,000 of munitions and \$42,197,271,000 of munitions.

This information was given congress in the quarterly report of Leo T. Crowley, foreign economic administrator, on operations of lend-lease which he said aggregated \$19,986,000 of tanks—awaiting the time they 000,000 through December.

It was the first of such reports to give so much detail of efforts to aid China. Heretofore, the reports have lumped India and Australia without making clear what percentage has gone to the Chungking government.

By comparison with the stockpile now in China, lend-lease in three years has succeeded in getting into China only \$15,865,000 of ordnance and \$22,203,000 of ammunition although aircraft, machinery and other supplies run the total of lend-lease aid to China through last December to \$200,595,000. This total includes \$25,419,000 of services which were not explained but probably include training of Chinese pilots in this country and of Chinese troops in India.

**Prehistoric Reptile Aids Oil Search**

AUSTIN, March 16—(AP)—A horn-backed, cigar-shaped prehistoric reptile found in a quarry in Howard county may throw new light on an important geological formation through which drillers pass in seeking oil and water.

H. J. Sawin, assistant geologist in the university's bureau of economic geology, will begin the second of his studies of vertebrate fossils found in the triassic formation, which underlies the High Plains of Texas, some of Oklahoma, much of New Mexico and extends down into Mexico, Dr. E. H. Sellards, bureau director, said today.

Significance of this and other studies of these fossils lies in the fact that they aid in identifying and correlating the various subdivisions of the formation.

As complete information on the aspects of the formation becomes available, oil drillers—piercing this formation en route to the deeper oil-bearing Pennsylvanian and Permian formations—will be better able to chart their progress, Dr. Sellards explained.

**Citizens Asked To Aid City In Cleanup Drive**

Still feeling the pinch of manpower shortage, the city today reiterated its plea to Pampans to help out the city by cooperating with cleanup men and meter readers.

Basis of the appeal is the complaint of James B. Massa, city water department superintendent, that Pampans are dumping garbage on water meters, making it difficult to get to them.

"We're having trouble enough getting meter readers as it is, without this extra difficulty, so we are asking Pampans please not to dump their garbage on or around the meters," said Massa. There are only seven meter readers now.

Along with Massa's admonition, City Manager W. C. deCordova warned Pampans there would be no call-backs when the city's annual cleanup starts.

No definite time has been set for the cleanup drive, but it may be held from April 1 to 15. Manpower again is the bottleneck that prevents definite plans.

In the meantime, the city manager advised that Pampans cleanup their premises, gather up twigs and limbs, and have everything squared off in readiness for the cleanup.

Last year, he said, the city had received calls after the cleanup was over, from householders who said they had been missed.

"We simply don't have the manpower now, and one call is all," the city manager said.

**Market Sued For Loss of Boy's Hand**

Damages totaling \$37,432.10 are sought in a suit filed in 31st district court here, styled B. A. Ricketts individually and as next friend for Leon Ricketts vs. Mitchell Hill.

Action is based on an accident occurring Jan. 29 at Mitchell's Grocery & Market, 638 S. Cuyler, in which Leon Ricketts, 7, whose mother, Mrs. B. A. Ricketts, is a market employee, suffered the loss of his right hand and forearm when he put his hand into the meat grinder.

The plaintiff's petition alleges that the machine was left running, with electric current on, by Charles DeFoss, a store employe, and contends that the defendant was negligent in not having a guard around the machine, located at a slight level above the floor.

Hospital bills of Leon are itemized at \$432.10 of which \$60 was for an operation, \$210 for hospital expenses, and the remaining \$300 for further aid that will be needed, according to the plaintiff. Balance of the amount added in the suit is divided into damages of \$25,000 for Leon and \$12,000 for the father, or \$37,432.10 in all.

While we're about it let's bury this myth "Coffee makes me nervous"

For one thing, don't mistake a nice, big fat tantrum for "nervousness." Actually, coffee soothes frazzled nerves by sharpening the senses and aiding as a gastric tonic. It's the mainstay of men under battle stress . . . first thought at big fires and disasters. So when your nerves feel like they've been shredded with fishhooks, look deeper for the cause. Drink coffee, don't blame it. Drink Admiration Coffee, a blend of the choicest, most enjoyable coffees grown. Its rich, delightful flavor picks you up. Its room-pervading aroma will thrill you.

**Admiration Coffee**

1. "Tonight of all nights, Mother, when I wanted to look radiant and beautiful here I am, my nerves on edge. Oh, why did I drink that coffee! It always makes me jittery."

2. "Fiddle-fiddle, child. It's you, not coffee. I've drunk it for thirty years. And there isn't a calmer set of nerves in town. Coffee soothes. It doesn't cause jitters."

3. Off to the party—wiser, lovelier and more beautiful. After legs become dance-weary and "the gang" devours coffee and doughnuts at some late spot, "nervousness" soon vanishes.

### Plenty of Oil Is Forecast In Next 300 Years

NEW YORK, March 16—(AP)—Plenty of oil to meet the needs of the world for 300 years is forecast by the advisory and postwar planning committee of the Oil Heat Institute of America.

The committee accepted a report by Wallace E. Pratt, geologist for the Standard Oil Co. (N.J.) who predicts, "the earth should ultimately give up 700-billion barrels of petroleum."

W. A. Matheron, chairman of the postwar committee, said Pratt's report indicated that there are approximately four cubic miles of oil remaining in proved oil reserves and that besides there may be 23 cubic miles in areas of the world where there are indications of oil-bearing sands.

W. A. Kemp, chairman of a sub-committee on oil supply, said these estimates of future oil supplies do not include billions of barrels of petroleum equivalent from the processing of coal, oil shale and natural gas.

C. E. Lewis, president of the institute, said that while long range prospects are optimistic, "the present civilian shortage to supply the needs of war is real and every oil conservation and rationing measure has the industry's full support."

John M. Lovejoy, president of the Seaboard Oil Co. of Delaware, suggests the American oil industry be given "the green light" to search for new petroleum reserves.

Lovejoy, in an interview in the Magazine of the American Institute of Mining and Metallurgy, said that in British development of oil resources that government has been alert to back its nationals in their explorations and developments of all raw materials wherever they may be found.

The oil man, commenting on the Saudi Arabian pipeline scheme, said American concerns were well established before the government's plan was evolved. In many countries, he asserted, a company in which government participates would be barred from operating.

They're dull-eyed with fatigue, these U. S. Marines, and dirty and grimy from the smoke of battle and the coral sand in which they crawled on their bellies and buried their faces. But they are winners—and typical of the conquerors who wiped the face of Eniwetok Atoll. They are pictured after the battle, hungrily downing hot coffee aboard a Coast Guard-manned transport.

### Soldier With Foot Blown Off Who Started To Kill Self Didn't Aid Wounded Doughboy

BY KENNETH L. DIXON  
WITH THE AEP IN ITALY, March 6—(Delayed)—(AP)—In a hospital not far behind the Cassino front there's a soldier lying now with one leg off at the knee. The story of why he is still alive has become a legend of unselfishness all along the line.

Wounded by a mortar shell in the midst of one of the Italian campaign's bloodiest battles, he looked down and saw the lower half of his leg was gone.

The sight, coupled with his dazed, tortured condition, was too much for him. He drew his AS and raised it to his head.

"I didn't feel like I could possibly stand it any longer," he said later, "and besides, there didn't seem to be much left worth living for."

But just as he was about to pull the trigger he heard a moan from a nearby foxhole. Hitching himself up over the edge, he saw a badly wounded buddy lying there semiconscious.

"He was suffering so much I decided I'd wait long enough to help him get some attention."

Calling loudly for an aid man, he worked his way over to the other wounded man and tried to fix him so he would rest easier until help came. When the aid men got there they started taking care of both of them.

"So I decided, what the hell, I might as well stick it out," he said in the hospital, "and now of course I'm glad I did."

For almost three months an infantry unit in the thick of the Pacific fighting had two pigeons which they kept around for emergencies. When they ran out of special food for them the boys turned them loose, expecting them to go back to their signal corps pigeon coop. Instead, the two birds slipped out straight for the German lines.

"They must have been spies," said T/Sgt. Chester Winslowski of Chicago, "but if they were and the Germans opened up their message tubes hoping to intercept some important information they're going to be sadly mistaken. All I wrote was 'Sorry, No message.'"

The evolution of the enemy's name often reflects the temper of the troops. A few months ago he was just the "German" to almost everyone. Then came the shift to the British term "Jerry," which the air forces still continue using to a large extent.

Up on Anzio beachhead the infantrymen have reverted to the last world war appellation. With clipped viciousness they call him the "Kraut."

On the Cassino front the other day lots of the soldiers were referring to the enemy as "the Squareshead," another one of 1918 vintage.

All those, of course, are only the polite names. There are many others used by the Doughboys which are much more expressive, but editors being the narrow-minded souls they are probably it would be futile to list them.

### Congress Balked In Getting Facts

**GEORGE ROTHWELL BROWN**  
(Los Angeles Examiner)

Washington bureaucrats who are defying committees of Congress by refusing to testify before them—for whatever reason—are striking at the very fundamentals of legislative government.

Mr. Jonathan W. Daniels, of the White House inner circle, and Secretary of Agriculture Wickard have flatly refused to reveal information requested by a subcommittee of the Senate committee on agriculture.

Mr. Daniels has declared that to answer the questions would not be in the public interest.

The amazing spectacle is presented by the administrative assistant to the President thus acting in defiance of a committee of the Senate, upon the advice of the Department of Justice.

The case involved is a particularly smelly one, involving allegations that the Roosevelt administration, whose silence Mr. Daniels apparently protects, is trying to use the Rural Electrification Administration to line up 4,000,000 rural voters behind the fourth term.

Instead of trying to cover up this unsavory case, the Roosevelt administration should be anxious to lay its cards on the table and disabuse the public mind of such sinister implications.

At the House end of the Capitol, Representative Wigglesworth of Massachusetts, a responsible member of the appropriations committee, has openly charged the Roosevelt administration with "coercion, intimidation and blackmail" in allegedly blocking an investigation by a special committee, of which Representative Lea of California is chairman, into the sale of Radio Station WJCA, New York, under circumstances which prompted Donald Flamm, its former owner, to testify before the committee he sold his station to Edward J. Noble, a former Undersecretary of Commerce, after learning that a move to obtain his license had been "greeted from the White House down."

There have been other flagrant acts of defiance of the legislative branch of the government on the part of the deeply entrenched and strongly sustained Washington bureaucracy.

In these two particular cases the honor of the administration and the prestige of the Congress clearly demand the fullest and freest publicity.

The Senate committee is now considering whether Mr. Daniels comes within the law, or is above the law.

### Border Mexicans To Get Buying Permits

**McALLEN, March 16—(AP)—**A new general export license to permit border Mexicans to buy certain articles in the United States without a Washington permit, is now being issued through U. S. consular posts.

Designated as G-MB, the license applies only to the Mexican border zone to facilitate commerce there. It covers certain emergency replacement parts obtained from suppliers in the United States who are within 20 miles of the Mexican border, provided the replacement parts are destined to final consumers residing in Mexico within 50 miles of the border.

Commodities authorized for export under the license include certain types of electrical machinery, certain types of industrial machinery and apparatus and some types of office appliances.

### Panhandle Gains 57,110 Workers In War Period

AUSTIN, March 16—(AP)—If Texas is to solve its future employment problem, 850,000 post-war jobs must be available, C. E. Belk, state director of the war manpower commission says.

Since 1940 approximately 445,000 new workers have entered the Texas labor force, of which 210,000 are women, 110,000 are minority groups and handicapped workers, and the balance immigrants to the state and workers over the age limits, he said.

Belk estimates that by July 1 of this year, 550,000 Texans will be in the armed forces, of which 400,000 are normally expected to return.

Although postwar will mean an abundance of people to one job, the next six months forebodes a serious labor shortage which can only be filled by women not now employed, he said.

Belk also stressed the importance of studying the rural to urban shift of population in postwar planning. To date there has been an 18 per cent gain in urban population. Although Texas is primarily an agricultural and livestock state, three years of industrial work has drastically changed people's thinking habits.

Belk said it might also be well to consider population shifts throughout the state in making postwar plans.

A comparison of population of the 12 manpower commission areas showed that the following changes had occurred since 1940. The Austin area has lost 48,464 people, San Antonio gained 15,892, Brownsville lost 28,530, El Paso gained 6,985, Abilene lost 9,281, Amarillo (Panhandle) gained 57,110, Fort Worth gained 13,434, Dallas lost 5,491, Waco lost 59,888, Longview lost 92,263, Beaumont gained 19,633, Houston gained 83,654. These figures represent areas having from 15 to 43 counties and reflect a total loss in population for the state 65 per cent, exclusive of military establishments.

On the other hand, Belk said that the cities of Texas showed an entirely different picture. For instance, the city of Austin shows a gain of 23,070. San Antonio gained 41,146, Brownsville gained 2,917, El Paso gained 10,190, Abilene gained 4,288, Amarillo gained 8,314, Fort Worth gained 32,338, Dallas gained 60,266, Waco gained 9,018, Tyler gained 2,721, Beaumont gained 10,939, Fort Arthur gained 8,850, Orange gained 17,256, Houston gained 45,486, Galveston gained 11,318, Freeport gained 5,921.

On the statewide figures, Belk said that the 1940 census had been used and compared against 1943 figures.

### Legislative Branch Budget Is Reduced

WASHINGTON, March 16—(AP)—The house appropriations committee has recommended \$46,176,321 for operation of the legislative branch of the government for the next fiscal year, a decrease of \$302,889 from last year's funds and \$1,005,847 below budget estimates.

The committee also approved a \$13,746,769 fund for the judiciary for the fiscal year, an increase of \$481,679 over last year's appropriation but a cut of \$705,150 from budget estimates.

Included in the joint bill was a \$40,000 item for painting the dome and the central portion of the capitol.

Of the total recommended for the legislative branch, \$20,600,000 was allotted to the government printing office, \$4,148,930 to the library of congress, \$115,000 to the botanic gardens and \$147,000 for the library buildings and grounds.

For operation of the senate the committee recommended \$4,067,174, an increase of \$43,743 over current appropriations; for the house, \$9,602,463, a decrease of \$214,278.

The committee turned thumbs down on a request for \$300,000 for construction of an addition to the library of congress, asserting the project could be deferred "to a period of more normal conditions."

### Mrs. Kearby Sure Husband Is Safe

SAN ANTONIO, March 16—(AP)—Mrs. Neel E. Kearby, wife of Col. Neel Kearby, reported by the war department as missing in action, said:

"I had a letter from Neel day before yesterday. It was dated Feb. 24, and was very cheerful. He had just been made a wing commander of a bombardment group and was so pleased at the idea of getting back into action."

Mrs. Kearby expressed the belief that her husband would be located, or would make his way back to the Allied lines.

ance of ration book number four after adjustments for death and selective service withdrawals had been made (October, 1943). On the city comparison, he said the Texas Almanac had been used for 1943 figures.

Fear for the Future

A strange new kind of fear has beset this country, Bernard De Voto points out in the current Harper's Magazine. It is, he says, the fear of peace and of the future.

Mr. De Voto divides our fears into three groups: economic, social, and a special "fear of the returning veterans."

Our social fears are another and we believe, more serious matter. Almost any day's conversations bring a crop of gloomy predictions.

Our economic fears are another and we believe, more serious matter. Almost any day's conversations bring a crop of gloomy predictions.

Our social fears are another and we believe, more serious matter. Almost any day's conversations bring a crop of gloomy predictions.

Common Ground

By R. C. HOILES. "I speak the pass-word... I give the sign of democracy. By God I will accept nothing which all cannot have their counterpart of on the same terms."

Government's Creeping Control of the Press

The present administration is gradually edging in to control the bigger newspapers. It will only be a question of time until they control all newspapers.

Here is the way the bureaucrats are encroaching on the bigger newspapers: they are limiting newspaper tonnage progressively.

This is the schedule of curtailment of newspaper tonnage which the government is using to work against the big newspapers.

Our social fears are another and we believe, more serious matter. Almost any day's conversations bring a crop of gloomy predictions.

Our economic fears are another and we believe, more serious matter. Almost any day's conversations bring a crop of gloomy predictions.

SIDE GLANCES

COPI. 1944 BY NEA SERVICE, INC. U. S. REG. U. S. PAT. OFF.

"I don't know why he gets excited about hockey—he can sit at home reading peacefully while the children are fighting!"

The National Whirligig News Behind The News

By RAY TUCKER. AID—The numerous attempts to cash in on the second crop of American World War veterans have frightened the more sincere friends of soldiers engaged in the current crusade to "make the world safe for democracy."

Certain credit organizations, for instance, have lobbied for relaxation of "Regulation W," which imposes a ceiling on the amount of money that can be loaned to a borrower.

The regulation will be modified however, to accommodate certain hardship cases. Typical are those of "M-G-M" men who are on long leave would be invited to go into debt for unnecessary and second-rate goods.

Further, an outpouring of hoarded cash or bonds based on extension of credit might generate price inflation that would reduce the value of their savings.

QUESTIONS—Ittery Henry L. Morgenthau is trying to mend the breach which President Roosevelt's tax veto widened between the Treasury and Capitol Hill.

Mr. M. recently sent hush-hush invitation to the key tax experts of both branches to visit him.

THE night of July 1-2 brought the break in the weather the pilots had been waiting for.

HE was about two-thirds of the way across Davis Strait when his right engine sputtered and died.

MAYBE IT'S HERE: Leaves From The Editor's Notebook

Some commentator remarked the other day that to hear all the talk one might think Americans were more afraid of the peace than they were of the war.

The little country is generally reported to have decided on rejection of the Soviet conditions.

They've taken, in the lifetime of those now living, a great world war devastating epidemics, a boom in which nearly everyone lost his head.

Can Americans take the peace? They can take anything! Just watch them!

HOPE deferred maketh the heart sick, and even deferred fear may have the same effect.

May day will be celebrated this year as Shoe Day. On May 1 a certain stamp in the family ration book, as yet unspecified, will be good for one pair.

Run Down—A roundup of draft delinquents netted a man who, the FBI said, had:

Registered under a false name, failed to appear for a physical examination, neglected to report for induction, and carried no registration card.

Lightnings to London By Capt. Bernard W. Crandell. Copyright, 1944, NEA Service, Inc.

An Eskimo village in Greenland. Shipping losses were up in March, 1942, and P-38 fighter planes were not getting to England in sufficient quantity.

When she starts to look good... The night of July 1-2 brought the break in the weather the pilots had been waiting for.

HE was about two-thirds of the way across Davis Strait when his right engine sputtered and died. This was not necessarily extremely dangerous, since Mathis had sufficient altitude in which to trim up the controls to compensate for the deadening drag of the useless engine.

War Today

By DEWITT MACKENZIE, Associated Press War Analyst. One of the momentous decisions of the war is in the making—perhaps has been irrevocably cast already—in Helsinki where their Finnish government has been struggling with the fateful question of whether to accept Russia's armistice terms or to defy the hurricane.

The little country is generally reported to have decided on rejection of the Soviet conditions. An Associated Press dispatch says the Finns are preparing everywhere for the resumption of war.

There can be only one outcome—defeat for the Finns. If Finland believes that Uncle Sam will intervene and save her because of past friendship, she has badly misjudged the possibilities.

So They Say

We are fighting for liberty, the most expensive luxury known to man. For town meetings, for the soapbox, for the high privilege of throwing pop bottles at the umpire—Army Service Forces, Lieut. Gen. Breton Somervell.

If our Allies are to do their best for us as well as for themselves, they must have confidence that the pipeline of lend-lease supplies will be kept full.—Navy Secretary Frank Knox.

Unless we clearly define what we mean by "the duration," we may suddenly wake up and discover that the wartime powers of the chief executive will go on for years.—Sen. Styles Bridges of New Hampshire.

Berlin is doomed—it has ceased to be a capital or even a town.—Swedish traveler.

Only 11 to 21 per cent of a white potato is starch.

HOLD EVERYTHING

### Douglas Carries Double Normal Load by Mistake

BY CLYDE A. FARNSWORTH  
ENROUTE TO 14TH AIR FORCE  
HEADQUARTERS IN CHINA,  
March 2—(Delayed)—This dis-  
patch is being written on the naviga-  
tor's table lent me on a flight to  
the 14th air force headquarters  
by Second Lt. Lewis G. Helm, St.  
Joseph, Mo.

Up in front as co-pilot is First  
Lt. W. H. Julliard, of Madisonville  
Station, Cincinnati, who recently  
had a two-week hike back to base  
after his transport plane had been  
blown off its course to become lost  
and run out of gasoline.

Beside Julliard at the controls is  
First Lt. O. F. Price of El Paso,  
Tex., who has the distinction of  
taking off with the heaviest cargo  
ever carried by a DC-3 in China:

On Dec. 7 Price started down a  
7,000-foot runway with a cargo of  
catsup. It was night. Price was  
eyeing his instruments. Halfway  
down the runway at 90 miles an  
hour the plane was still hugging  
the ground. Nor would it come off

with cold's muscle aches and sore throat.  
Take St. Joseph Aspirin for quick relief.  
World's largest seller at 10¢. Big 100 tab-  
let size only 35¢. Get St. Joseph Aspirin.

**EXPERT MECHANICAL WORK**  
Passenger Cars—Commercial  
**FIVE-ONE GARAGE**  
300 S. Caylor Phone 51

at 100, 10 miles an hour faster than  
normal takeoff speed.

At 105, with full throttle, the  
DC-3 pried itself into the air. There  
wasn't any runway left.

When he landed Price had the  
cargo weighed box by box. It to-  
talled 12,000 pounds, which was 6-  
000 pounds more than the regular  
load. One of the most important  
statistics of all in this performance  
was that the takeoff field lies more  
than a mile above sea level.

Asked if he would have tried it  
had he known how much load he  
had, Price considered for a second  
and responded, "Hell, No."

There's a phase of the 14th air  
force operations which rarely gets  
into print. That is the day in, day  
out flying under all conditions of  
the 14th transport section. Its  
DC-3's cover Free China, carrying  
everything from canned milk to  
bombs in order to keep this opera-  
tion going.

In 20 months of operations the  
boys have lost only three planes  
and these without casualties.

### Colonel's Lodge In Argentina Disbanded

MONTEVIDEO, March 16—(AP)—  
Argentina's united officers group—  
known as the GOU and the "col-  
onels' lodge"—which was regarded  
as the power behind the June 4  
revolution and recent government  
changes, has been dissolved, it was  
reported here.

An informant with close army  
connections said members of the  
group, formed several years ago un-  
der the leadership of Col. Juan Per-  
on, now acting war minister and  
secretary of the department of  
labor and welfare, had been in-  
formed in a circular letter that

### FUNNY BUSINESS

"We have to guarantee a hit—we're short on ammunition!"

the organization already had serv-  
ed its purpose.

The membership of the GOU was  
said to have been advised Feb. 28  
that the directorate of the organ-  
ization met for the last time Feb.  
23, just prior to former President  
Pedro Ramirez's decision to delegate  
his power to Gen. Edelmiro Far-  
rell, now president. Dissolution of  
the group was understood to have  
been agreed upon at that time.

### Some Motorists Can Get 'B' Coupons

WASHINGTON, March 16—(AP)—  
The office of price administration,  
emphasizing that not all Midwest  
motorists are eligible to recover gaso-  
line they will lose in the one-third  
reduction of "A" card rations effec-  
tive March 22, gave this picture of  
requirements to be met to obtain  
compensation in a "B" ration:

Motorists who have been using  
up to 60 miles a month—or up to  
one gallon a week—of their present  
"A" ration for occupational driving  
may apply to their local ration  
boards for restoration of the same  
amount in "B" coupons.

The supplementary ration will be  
granted, however, only to motorists  
who are members of a car pool or  
who demonstrate that because of  
circumstances this is not possible.  
In the case of motorists already  
holding "B" coupons, the supplu-  
mentary ration will not in any in-  
stance be boosted beyond 475 miles  
of driving a month. The present  
ceiling is 400 miles per month but  
60 miles are derived from the "A"  
ration.

These requirements apply in all  
"middle-of-the-country states," or  
the entire country exclusive of the  
17 Atlantic Seaboard states and the  
five Far West states of California,  
Oregon, Washington, Nevada and  
Arizona.

### SOMEONE IN THESE DAYS

SOMEWHERE IN THE SOUTH  
PACIFIC—(Delayed)—The marines  
who went into the Gilberts singing  
"Tarawa-Boom-Dee-Ay" have a ri-  
val for the worst run on a song.  
Marines in the Solomons, according  
to S/Sgt. William S. Frank, of  
Washington, D. C., a Marine com-  
bat correspondent, are singing "Af-  
ter Rabsul is over."

### Republican Senators Organize Committee

WASHINGTON, March 16—(AP)—  
Republican members of the senate  
have ratified unanimously their  
present set of officers and organized  
a steering committee with Senator  
Taft of Ohio at the helm.

Senator White of Maine was re-  
tained as acting leader in place of  
the late Charles McNary of Oregon  
and Senator Vandenberg of Michi-  
gan officially was named acting  
conference chairman. Senator  
Wherry of Nebraska continues as  
whip and Senator Burton of Ohio  
as conference secretary.

All officers were elected only for  
the rest of the present session of  
congress which ends next January.  
Vandenberg told a press confer-  
ence after the meeting Wednesday:  
"Our action was based on the ex-  
pectation that the Republican party  
will obtain control not only of the  
government but also of the senate  
next November."

—BUY BONDS—

### Pre-War Work Aided Gasoline Production

WASHINGTON, March 16—(AP)—  
Sixty-five per cent of the wartime  
increased production of 100-octane  
aviation gasoline is the result of  
chemical and mechanical improve-  
ments of pre-war refinery processes,  
Harold L. Ickes, petroleum adminis-  
trator for war, says.

Guided by necessity which moth-  
ered chemical magic and mechanical  
improvements when the nation could  
not wait for new refineries, the in-  
genuity of the industry made pos-  
sible the United Nations' tremendous  
air offensives, Ickes declared in a  
statement.

### Senate Oil Probers To Interview Ickes

WASHINGTON, March 16—(AP)—  
Petroleum Administrator Harold L.  
Ickes appeared likely today to be the  
first witness called by the senate's  
newly-created oil-member committee  
on national oil policy.

Senator Brewster (R-Me) said he  
thought the committee would call  
Ickes for questioning about his pro-  
jected Arabian pipeline and his  
warnings of a growing shortage of  
domestic reserves.

Senator Connally (D-Texas) chair-  
man of the foreign relations com-  
mittee and slated for election as  
chairman of the special committee  
this week, told reporters the investi-  
gation "will be thorough in every  
respect."

The committee will seek to deter-  
mine the necessity for going outside  
the western hemisphere for addi-  
tional oil reserve, as well as the policy  
by which additional reserves will be  
acquired. Most of them favor pri-  
vate acquisitions, backed by strong  
diplomatic assistance of the state  
department.

### Wichita Falls Wins Bus Company Suit

AUSTIN, March 16—(AP)—The city  
of Wichita Falls has won in su-  
preme court a reversal of adverse  
lower court decisions against it in  
litigation with R. C. Bowen, involv-  
ing bus operations.

The city in 1942 passed an ordi-  
nance annexing Sheppard Field and  
Kell Field and a highway connect-  
ing them with the city. It then pass-  
ed two additional ordinances, one  
levying rental for transporting pas-  
sengers for hire in motor buses over  
the city streets, another fixing fares  
to be charged by those transporting  
passengers within the city.
