LEAVES FROM A WAR CORRESPONDENT'S NOTEBOOK

by Hal Boyle

BARI, Italy, Dec. 21. (Delayed) (AP)—The Spanish Main never had a more persistent band of pirates than the ragamuffin generation now leaving tribute along the Bari waterfront.

These halpint buccaneers, ranging from two to 10 years of age sweep out of hillway hiding places and nail every male soldier as he passes.

"Chewing gum, Johnny?" he asks, dogtrotting at your sides. "Finito," you say, stepping up your pace.

CHECK YOUR ELECTRIC APPLIANCES REGULARLY

It's Your Patriotic Duty!

The trained appliance service man with his knowledge and long experience can help you get all the years of service the manufacturer has built into your electric equipment.

However repair specialists are very busy these days and we therefore suggest that whenever possible you make your own minor repairs.

If it is not possible to secure new cords and plugs, or use new wire, you can do a good job of patching up the old cords by following the simple suggestions shown in the adjoining illustration of cord repairing.

For Current Consumption Only

Gas rationing doesn't bother Joseph Jacobs, above, Minneapolis electric company superintendent. He drives to work in this electric car he built during his spare time. With four speeds forward and four reverse, it operates on three 12-volt storage batteries and makes 15 miles an hour and 100 miles to the battery charging.

Sports Roundup

By HUGH FULLERTON, JR. NEW YORK, Jan. 7. (AP)—No doubt there are plenty of good common-sense reasons for re-awakening the baseball man, but we still wonder why major leaguers are so interested in this essentially minor league project. It's the big league officials who keep pointing out that it is silly to have little leaguers overlapping each other and towns where natural rivalries might develop operating in different circuits. Generally they add that if leagues were more compact and travel expenses were reduced, minor clubs could operate under local ownership and wouldn't have to keep running to their big brothers for help. They might be anticipating another anti-chain move by Judge Landis, of course, but our guess is that last season's declining attendances made the chain operators think about divesting themselves of these expensive appendages.

SHORTS AND SHELLS The story is that Georgia Tech's Eddie Fropok operated like Sammy Barch without knowing what happened during what happened during the Sugar Bowl game. . . If true, adds Scoop Lattimer, the Greenville, C. O. scribe, "His was the greatest exhibition of a man running (not walking) in his sleep I ever saw."

Bob Steuber (ex-Missouri and Bears) who was the nation's top football scorer for De Paul last fall, has turned up as a Navy V-5 trainee. . . Crooner Frank Sinatra will be the best man at Healy's weight Tami Mauriello's wedding—and with no microphone to help him.

QUOTE UNQUOTE After the Chicago U. basketball team ended its two-year, 45-game losing streak, Coach Kyle Anderson explained: "We have no trouble losing men in the draft, but the club has been laboring under a mental strain, nevertheless. Most of the fellows are worrying about their dads going into service."

NAMES IS N'MS (H) Hoenschmeyer, Indiana's typographical typhoon who troubled football writers all the past season, played for the Cincinnati-American Legion baseball team a few years ago, and in box scores of two tournament games at Flint, Mich., his name appeared as "Hoermyn" and "Hemser."

TODAY on the HOME FRONT by James Marlow and George Zielke

WASHINGTON—Three questions fairly quiet now but bound to spring into vivid life at war's end, revolve around the problem of making arrangements with our Allies for keeping the world peace.

1. Will the senate, perhaps after agonizing long debate, approve or reject proposed treaties of peace or alliances?

2. Would the president—whenever he at the time be justified in dodging the senate and achieving the arrangements through executive agreements?

3. Could a majority of the American people with such a treaty and be frustrated by a minority of the senate representing only a fraction of the population?

4. The 435 members of the house of representatives have nothing to do with treaty-making since the constitution provides that approval rests with a two-thirds vote of the senators, which means that one-third of the senate plus one more senator can block a treaty.

5. The votes of 17 states are sufficient to wreck a treaty under the existing rule. If all the votes opposing a treaty should come from the small states, the senators representing 10,518,249 people would be able to block the will of 121,151,026 people who live in the largest 31 states.

6. So much for question No. 3 as Colegrove sees it. As to question No. 2 he says: "About 900 treaties have been proclaimed by presidents of the United States from the inauguration of the federal republic in 1789 to the opening of World War II in 1939. Over 200 other treaties were concluded which never became law because they were rejected by the senate or neglected by the senate or amended in a manner not acceptable to the other signatory powers. In the same period, over 1,200 agreements with foreign countries were entered into and enforced without securing the advice and consent of the senate to these contracts. All of these other contracts were executive agreements. They were made and enforced by the executive without reference to the senate."

American presidents in the past have made plenty of agreements without help from the senate. Can't the president after this war—if he thinks the senate may get hazy—just ignore that body and make an agreement with foreign nations that will have the effect of a treaty? But in doing it, actually he might be evading the provisions of intentions of the constitution. (You can argue all day on that.) Colegrove thinks that that kind of evasion breeds contempt for law that is dangerous to democratic institutions.

So much for question No. 2. As to No. 1—time will tell, although Colegrove warns that it is unlikely all senators, at treaty-making time, can lay aside personal prejudice or party politics and attack the problem unselfishly.

RUCKER BACK WITH GIANTS NASHVILLE, Tenn., Jan. 7.—(AP)—Despite an ailing back, outfielder Johnny Rucker plans to play with the New York Giants this season because "baseball has been hard hit by the draft and I feel that I should help out, if I can."

All-American Bombardier

Bombing "Berchtesgaden" from 8000 feet, Cadet John W. Guthrie, Jr. of Philadelphia establishes Olympic record to become all-time All-American bombardier. Competing against best from seven other huge bombing colleges, Guthrie's Big Spring, Tex., AAF team captures All-American Bombing Olympics at Deming, New Mex., for second consecutive time.

Russia Is Only Nation Getting 'Lend' Butter

WASHINGTON, Jan. 7. (AP)—Only a minute fraction of one per cent of America's coal production has moved into lend-lease channels, President Roosevelt's lend-lease report said, and none has been sent to Russia.

Russia, it said, is the only country on the list for lend-lease butter and has received 33,700 tons. At the same time, American forces in the Pacific got 8,250 tons of butter through reverse lend-lease from Australia and New Zealand.

From January through October, 1943, the report said, the average American consumed 11 pounds of butter, whereas only 2-5 ounces per capita were lend-lease.

Lend-lease aid to Russia in the first 10 months of last year was up 83 per cent over all of 1942, with aircraft, medicine and other munitions constituting 56 per cent of the export value.

The lend-lease aid we have furnished to Russia, it said, has been effectively used in the Red Army's advances in the Ukraine and West Russia. Through October we sent to the U. S. R. nearly 7,000 planes, more than to any other lend-lease country; more than 3,500 tanks and 195,000 motor vehicles, including trucks, jeeps, motorcycles, and other vehicles.

Exports of foodstuffs to the Soviet Union included 343,000 tons of wheat and flour, 277,000 tons of sugar, 224,000 tons of canned meat, 441,000 tons of fats and oils, 136,000 tons of dried fruits and vegetables and 38,000 tons of dried eggs.

Munitions comprised 48 per cent of lend-lease exports to Britain in the first 10 months of 1943. The report told how lend-lease planes and bombs are helping to devastate German industries and mentioned tremendous offensives to be launched from Britain.

Army, Navy Value Training Football Gives

(This is another in a series, written expressly for the Associated Press, by major leaders in which prospects for 1944 are discussed.)

By MAJOR JOHN L. GRIFFITH (Commissioner of Athletics, Big Ten Conference) CHICAGO, Jan. 7. (AP)—College athletics, and sports in general, will continue in 1944 with the blessing of the American people. College football will continue, not primarily because it is conducive to improved morale and because it furnishes entertainment, but because it has training value that army and navy officials, for the most part, recognize.

Reviewing 1943 on the collegiate sports front, we find that the majority of colleges and universities kept their sports programs going. These institutions of higher learning, without exception, will keep their athletic programs in 1944. Meanwhile, many schools which abandoned football in 1943 have announced that they plan to put teams in the field this year.

Looking back a year, 1943 will be remembered as one of the most remarkable in college athletics. It will be remembered as the year that many college football coaches sent out boys to do a man's job, with most gratifying results. It will be remembered as the year that young men in colleges reaffirmed the fact that the game of football belongs to them.

Other institutions where there were no navy units, it was found that there were enough boys who played high school football in 1942 to round out 1943 college teams.

Further, there were some who felt that the war would be shortened if the American people spent their leisure time in serious thought about the awfulness of war and in worrying about the hardships imposed by the war on all the people. This attitude, most of us now believe, is wrong. We learned that Russia, fighting for its life, promoted athletics. Germany, England and other countries at war also availed themselves of sports as a balance against despondency.

We can recall too, that many who were opposed to college football during the war, have since then changed their minds. They are now in the forefront of the fight to keep college football alive.

Remington, Du Pont, British Company Named in U. S. Suit

WASHINGTON, Jan. 7. (AP)—A civil suit charging E. I. Du Pont & Nemours, the Remington Arms Co., and Imperial Chemical Industries, Ltd., giants of the United States and British chemicals and arms industries, with maintaining an international cartel agreement in violation of the Sherman anti-trust act, has been filed by the justice department.

The complaint, filed in United States district court in New York City, alleged restraint of trade in the manufacture of chemical products, fire arms, and ammunition.

In addition to Du Pont and Imperial Chemical Industries, the complaint named the following additional defendants: Lamont Du Pont, Wilmington, Del., chairman of the board of the Du Pont company; and Walter Samuel Carpenter, Jr., Wilmington, its president; Charles Krum Davis, Fairfield, Conn., Remington president and general manager; Harry Duncan McGraw (Lord McGowan), president of the board of Imperial Chemicals, and Henry Mond (Lord Melchett), deputy chairman; and Imperial Chemical Industries (New York) Ltd., New York City, American agent of ICI.

The complaint described Du Pont as the largest manufacturer of chemical products in this country with total assets of about one billion dollars, including the ownership of approximately 23 per cent of the stock of General Motors Corp., Remington as the largest manufacturer of sporting arms and ammunition in the United States, and since 1933 controlled by Du Pont; and Imperial Chemical Industries as the largest manufacturer of chemical products in Great Britain.

He added that the relations between the companies form a good pattern for post-war international agreements.

Beau Fights Lulu In 10-Round Bout At Garden Tonight NEW YORK, Jan. 7. (AP)—Mike Jacobs' champ dollar magnet gets the call to start the 1944 Madison Square garden fight season in the approved big money tempo tonight when Beau Jack, the New York and Pennsylvania lightweight king, risks his reputation against Lulu Costantino in a non-title 10-rounder. Twelve thousand are expected to look on. It is 1 to 2 that Jack, the Augusta, Ga., shoeshine boy, will be able to outpunch the clever East Side New Yorker but the dissenters argue that the Beau will be able to catch Lulu left alone punch him.
