Impending Court Action Broadens GM-CIO Breach

Ford-Union Resume Wage Talks Today

DETROIT, Dec. 14—(AP)—Attention in the automotive wage disputes switched back to the Ford Motor Co. and to the industry's latest entrant today as impending court action broadened the breach between General Motors Corp. and the CIO United Auto Workers.

While Ford officials headed for further wage talks with the union this afternoon, the Kaiser-Frazer corporation, which has leased the giant Willow Run bomber plant for car production, was reported preparing an "entirely novel" company-union security plan.

Details of the plan were not disclosed but Edward D. Riordan, director of Kaiser-Frazer's industrial relations, said they may be made public in advance of the firm's first negotiations with the UAW-CIO next Monday.

Particular significance was attached to the fact that R. J. Thomas, the union's international president, was slated to head the UAW delegation at the conference.

BEGIN NEGOTIATIONS
Ford began negotiations on a new contract Nov. 21 when the General Motors strike was called—but discussion of the union's demand for a 30 per cent pay increase was held up for three weeks pending agreement on a "company security" counter-demand.

The wage talks began Wednesday after the union proposed to permit discharge or firing of wildcat strikers. Ford officials commended the union for giving their request "thoughtful consideration," and promised a decision on the plan's acceptability at an early date.

TIME IS NOT RIPE
They said that because of production uncertainties, however, they felt the time was not ripe for granting such wage increases as the

Houses, Streets Are Renumbered

Corrections on house and street numbers in the city will be made in the very near future under a plan inaugurated by City Manager Garland Franks and the city engineers' department.

City workmen have nearly completed the painting of orange stripes on curbs throughout the city and stenciling equipment has been loaned Pampa by the City of Amarillo through H. P. Hancock, Amarillo city manager.

Residents are urged to cooperate with the city in the correction of numbers on houses.

He added that, as soon as all house numbers are corrected, a complete file will be prepared for the use of all city departments, including police, fire, water, sewer, health and engineer. A copy will also be turned over to the post office as an aid in extending mail deliveries.

Residents are urged to cooperate with the city in the correction of numbers on houses.

MYSTERY DEATHS

A. L. Cline

Search Pressed In Deaths of 4 Elderly Women

SAN FRANCISCO, Dec. 14—(AP)—District Attorney Edmund Brown today spearheaded a nation-wide investigation of the strikingly similar deaths and cremations of four elderly women, whose names have been linked with that of Alfred Leonard Cline, ex-convict under arrest here.

Brown asked police in Macon, Ga., Portland, Los Angeles, Jacksonville, Fla., and Dallas to send officers here to confer on the widely-separated aspects of the case.

Three of the four women left property exceeding \$300,000 in value. One—Mrs. Eva Delora Krebs of Chicago—left her entire estate to Cline, attorney Frank Ward said at Columbus, O. Cash and securities totaling more than \$200,000 were recovered Wednesday from her safety deposit box here.

Cline has stated Mrs. Krebs died as his wife in Portland in November, 1944 and was cremated. Cline is held here on a charge of suspected forgery of papers from Mrs. Krebs estate.

Brown outlined the case as follows: Nov. 8, 1943, a woman died in Jacksonville, Fla., and was cremated as "Elizabeth Hannah Klein." Brown is convinced she actually was Mrs. Elizabeth Hunt Lewis, of Oakland, a widow who has disappeared.

A woman died in Macon, and was cremated as "Mrs. Alvin Willis Carter" of 385 Geary St., San Francisco. Brown believes she actually was Mrs. Alice W. Carpenter, of Bloomington, Ind.

Oct. 17, 1944, a woman died in a Dallas hotel and was cremated as Mrs. Alice W. Carpenter. Brown believes she actually was Mrs. Krebs.

General Clean-Up Of Cafes Planned

City health officer Dr. N. L. Nichol and City Manager Garland Franks will meet with local cafe owners to work out a program of sanitation and clean-up in local eating establishments.

The meeting is to be held in the city commission rooms at 3 o'clock Monday afternoon, Franks said. "This is to be a program that will be carried out by mutual understanding to everybody's satisfaction," Franks said.

He emphasized that conditions do exist in some of our local cafes but we believe that they are problems that concern all of us and that a program satisfactory to the city, the cafe owners and the public can be worked out," he said.

Administration Plans to Halt Trouble Ahead

WASHINGTON, Dec. 14—(AP)—Signs multiplied today that the administration sees trouble ahead—mainly inflation trouble—unless it braces some of its wartime controls.

The government prepared to celebrate the fifth month of peace starting tomorrow by putting back to work part of its discarded priority machinery.

BUILDING MATERIALS
The decision to restore priority control over building materials in an effort to boost the construction of sorely needed houses is the latest in a series of moves tokening a firmer government grip on some parts of the economy.

The moves all are aimed at familiar wartime problems: Prices, scarce materials and work stoppages.

PRESIDENT'S REPORT
President Truman mentioned these problems only briefly in his recent optimistic report on the first 100 days of reconversion. But since when the administration has:

1. Asked for immediate fact-finding and compulsory cool-off legislation to prevent spreading labor troubles from thwarting the speedy return to peacetime standards of living and working.

2. Opened a vigorous drive for prompt extension of the price control act beyond its present expiration date of next June 30.

3. Put a brake on OPA's schedule for removing individual price ceilings.

Commons Okays U. S. Loan Terms

LONDON, Dec. 14—(AP)—The house of commons today gave final ratification to the Bretton Woods monetary stabilization pact, approval of which was one of the conditions laid down by the United States for a loan of \$4,400,000,000 to Britain.

The measure was passed without dissent on its third and last reading and went at once to the house of lords. The action came barely 14 hours after commons had approved the terms of the loan by a vote of 345 to 98.

The Bretton Woods bill was rushed through its second reading last night by a vote of 314 to 50.

A sharp debate, punctuated by personal clashes between labor and conservative leaders, preceded the vote on the loan terms.

Led by former Prime Minister Winston Churchill, many conservatives abstained from voting and drew caustic criticism from Foreign Secretary Ernest Bevin, who headed the government fight for loan approval.

Bevin and Churchill duelled on the commons floor. The war-time prime minister declared: "I certainly am of the opinion we (the conservatives) could have got better terms."

Bevin termed Churchill's assertion a "libel on the administration of the United States."

Churchill asked his conservative

Disaster Preparedness and Relief Plan Is Organized by Pampa Chapter of Red Cross

In case of a disastrous fire, extensive train wreck, oil refinery explosion, earthquake, cyclone, or other acts of God, Pampa's Red Cross disaster preparedness and relief plan is organized to cope with the situation.

The organization, recently brought up to date from its initiation in 1941 and four years of growth, is chaired by Ed Weiss, who has expanded and put the plan in written form.

An area Red Cross bulletin recently acknowledged the Pampa organization. Excerpts read, "Convenience is the outstanding feature which makes the new disaster plan edited by the Pampa chapter a model for all chapters. On its front cover are names, addresses, and phone numbers of all committee members and of the police and fire departments . . . in case of a disaster, all one has to do to find out what buildings are to be used as emergency shelters is to look along the indexed tabs of the copy, to the one marked "Sub-committee on shelter" . . . wording is concise and restricted to simple instructions."

The Pampa plan was first set up in 1941 under the chairmanship of Fire Chief Ben White and L. H. Johnson. In 1942, under the chairmanship of Walter Biery, plans were made in conjunction with the office of civilian defense for emergency hospitals in strategic places over Pampa. Essential articles such as sheets, blankets and coats were located and labeled in case they should be needed.

Sub-committee chairmen working with Weiss on the disaster preparedness plan, some of whom have been on the committee since 1941 are:

Joe Gordon, chairman on surplus

CIO Electrical Workers Vote 5 to 1 for Nationwide Strike

NEW YORK, Dec. 14—(AP)—CIO electrical workers, following the pattern set by CIO workers in the steel and automobile industries, voted almost five to one in favor of a country-wide strike, nearly complete balloting returns showed today.

The vote authorized if walkout of a union-estimated 200,000 workers after Jan. 1 in plants of three of the largest manufacturers of electric appliances—General Electric, Westinghouse and the electrical division of General Motors.

86,794 VOTE IN FAVOR
The national labor relations board said 86,794 workers in plants from coast to coast voted in favor of a strike to back up their demands for a 32 daily wage boost; 18,216 balloted against.

The union said official and complete tabulations were expected to be completed later today.

THIRD LARGEST UNION
The electric workers, third largest in the CIO, numbered 1,200,000.

'Lipstick Slayer' Still at Large
CHICAGO, Dec. 14—(AP)—Chicago's "lipstick slayer," the maniac killer who stabbed and shot Miss Frances Brown, former wife, and left a grisly message in lipstick on her apartment wall, continued to elude law enforcement authorities today.

Four days of intense investigation by police and state's attorney's authorities have uncovered more than a score of clues to the brutal murder of the 33-year-old stenographer. Scores of suspects have been seized, questioned, and most of them released.

The police have jumped at every possible clue in their efforts to track down the slayer who entered Miss Brown's one-room apartment at the Pine Crest hotel on the north side some time Monday morning.

The unannounced message written in lipstick was regarded by many of the investigating officers as one of the most important clues. The lipstick legend read: "For heavens sake catch me before I kill more I cannot control myself."

Some criminologists theorized that the slayer may have been a woman, but tests by the police scientific crime detection laboratory indicated that the warning message was written by a man.

Lowest Temperature Recorded in Pampa
Pampa had the "dubious honor" in the state last night with a low of 16 degrees and Amarillo ranked second with 17.

Light snow that fell here Wednesday night was prevalent over other parts of the state, including snow at Fort Worth, Abilene, Wink and Big Spring.

Southern Texas, including the Rio Grande Valley reported temperatures ranging from 40 to 50 degrees.

Barkley May Quit Chairman's Post

WASHINGTON, Dec. 14—(AP)—The Pearl Harbor investigation hit two big snags today which threatened its future.

First the entire legal staff of the joint senate-house probe committee asked to withdraw from the case.

Then the committee's chairman, Senator Barkley, (D-Ky) said he was thinking of resigning his post in the inquiry.

UNEXPECTED DEVELOPMENTS
Both cited the widening scope of the investigation and the prospects of a prolonged sitting as a factor.

This pair of completely unexpected developments posed the question of how the investigation would continue. It has been planned to conclude it by January 3, but William D. Mitchell, chief counsel of the committee, said there were at least 60 more witnesses.

Months would be required to examine them, he estimated.

REPUBLICANS ARE SILENT
Republican members of the committee sat in silence as their democratic colleagues discussed the problem without reaching any immediate solution.

The legal staff offered to help any new counsel—the committee might secure, but Mitchell said that he and his aides could not remain longer than the early part of January.

FINAL DECISION SOON
Barkley called the staff's request to withdraw a "tragic" development and said he had "no idea" who might be willing to take over its work.

In discussing the possibility that he, too, might withdraw from the investigation by resigning as chairman, Barkley informed his colleagues.

150 City, County Employees Will Have Yule Party

"Santa Claus is Coming to Town" to visit the city and county tax collectors, the city and county employees, in fact all city and county employees, it is hoped, at a Christmas banquet to be held at 7:30 p. m. Wed. Dec. 19 in the Palm room of city hall.

There are approximately 150 city and county employees, all offices in both city hall and the county court house will be included, with employees inviting husbands, wives, or others as guests.

Program plans are completed, with Dr. Douglas of the First Presbyterian church, guest speaker, and Chamber of Commerce Manager "Red" Wedgeworth, master of ceremonies. Judge W. R. Ewing will give the invocation.

Musical selections are to be presented by Miss Evelyn Thomas, violin solo, and Elizabeth Ann Sewell, vocal solo, both accompanied by Mrs. H. A. Yoder.

Overall plans for the party were laid by John B. Hessey, supervisor of the state department of public welfare, who has organized an annual Christmas party for court

See YULE PARTY, Page 8

City Being Dressed For Christmas Spirit

A delay in shipment of materials has caused the completion of Christmas street decoration to be postponed until about Sunday, D. L. Parker said today.

Parker is chairman of the Junior chamber of commerce committee that is in charge of putting up the decorations. The Jaycees are resuming the prewar Christmas decoration program this year.

Parker said that the delay was caused by a truck strike but he was notified that the remainder of the lighting materials and spruce rope will probably arrive here today.

'Beast of Belsen' And 10 Others Are Hanged for Crimes

HAMBURG, Germany, Dec. 14—(AP)—Field Marshal Montgomery's headquarters announced today that Josef Kramer, the "Beast of Belsen," and ten others of the Belsen gang, including blonde Irma Grese, were hanged yesterday for committing crimes at the notorious concentration camp.

The executions were carried out at the Hamelin by Pierrepoint, official British hangman.

The 11 condemned to death were moved from Lueneburg's jail to the ancient prison on the banks of the Weser river at Hamelin five days ago. The gallows were built by the royal engineers.

Marshal Montgomery denied all appeals Saturday.

The eight men and three women hanged were condemned to death by a British military court for atrocities committed at the Belsen and Oswiecim concentration camps. Nineteen other persons drew prison terms.

Three of the condemned accepted the court's verdict without appeal. They were Elizabeth Volkenrath, 26, head woman's supervisor for the S. S. (Elite Guard), Juana Borman, 42, a fanatic who gave up missionary work to join the S. S., and Franz Hessler, 34-year-old S. S. member who helped pick victims for the gas chamber.

Kramer, 39, was camp commandant. Irma Grese, was the pistol-packing "queen" of the Belsen gang. Others who died were Dr. Fritz Klein, 58, who chose inmates for the gas chamber, Peter Weingartner, 32; Karl Franz, 33; Ansgar Pichler, 32; Franz Starke, 30; and Wilhelm Dorr, 24.

Two gallows were used, permitting the eight men to be hanged in pairs. The women walked to their death singly.

German civilians said former concentration camp inmates were allowed to witness the hangings by special passes.

Ceiling on New And Old Houses Is Just Proposal

By JAMES MARLOW WASHINGTON, Dec. 14.—(AP)—The No. 1 point to remember about President Truman's proposal to put ceiling on the price at which a new or old home can be sold—is this:

He simply is proposing it. He's not going to do it himself. He thinks neither he nor anyone else in the government has authority under any law to impose such ceilings.

So he suggests that congress pass a law specifically giving him or some government agency such authority.

It will be some time before congress does anything of the kind, if ever.

Until it does—or unless Mr. Truman changes his mind and decides he has authority to impose such ceilings—you can sell your house at any price you wish.

Prices on houses already have gone up, and probably will continue to climb, because housing is scarce. House owners are taking advantage of this scarcity to charge inflated prices.

Pending in congress now is the Patman bill—offered by Rep. Dwight Patman, Texas democrat—which would give the government authority to place ceiling sales prices on new or old homes.

The house banking committee has held hearings on it. Some of the committee members seem bitterly against it. If the committee does approve it, the bill has to go up before the full house for debate and action.

This is what the Patman bill would do, if it became law:

In the case of a house built before the bill became law—the first time the house was sold after passage of the law, the sale price would

1946 MERCURY IS ON DISPLAY

The new 1946 Mercury went on display at the showroom of Tom Rose, local Ford, Mercury and Lincoln dealer today.

Main feature of the new Mercury is the "track bar" installed in the rear of the car. The bar prevents road "wander" due to high winds prevalent in this territory.

The new Mercury has a heavier, lower and wider appearance resulting from a wider head and a redesigned front grille, consisting of die-cast, vertical louvers extending across the front.

The new models will be available in eight exterior colors with harmonizing instrument panels and upholstery. Rose said. Two distinctive interior treatments are being used.

One feature is gray-green broadcloth upholstery and a modernistic gray-green lacquered instrument panel with contrasting plastic trim. Doors are paneled with gray-green leather.

Riding comfort has been increased by redesigning the springs, Rose said. Spring leaves are thinner and their number, has been increased.

could re-sell it at a higher price. In the case of a house completed after the bill became law—the government would set a ceiling price on that house. That would be the maximum price no matter how many times the house was re-sold.

These ceilings wouldn't necessarily be imposed all over the United States but only where the government thought they were needed to control prices.

But—whether or not such a law is passed—the government from now on is going to exercise some control over the price of houses to be built.

It will do this by controlling the materials going into new housing. Builders who agree to build no more housing more than \$10,000 will get priorities on 50 per cent of the building materials in this country.

As for the other 50 per cent of materials—which will not be under priority—anyone who can get them can build anything he wants at any price.

Nighthawks were called goat-suckers because of an old belief that they milked goats and cattle in the fields.

One Look at City Is Enough for Marines Confucius Can Have It

By HAL BOYLE

TSINGTAO, China, Dec. 14.—(AP)—Confucius once said "one look is worth a thousand words."

Several thousand marines, accepting his statement verbatim, have had a good long "look" at this ancient sage's home province and now they're almost unanimous that they don't want to waste words about getting out of here.

It is the only subject I ever knew more than two marines to agree upon.

Tsingtao is one of the chief ports of Shantung peninsula in northeast China and is important as a rail terminus, textile manufacturing center and all shipping point.

Confucius lived in Shantung province more happily than do American marines, and still residing here are the 77th generation of his descendants.

The old philosopher might like to know that his sacred mountain, Tai Shan, is still 5,066 feet tall and no rivals have appeared upon the landscape.

The city has a population of well over 500,000, and a visitor gets the impression well over half of the citizens are engaged in peddling souvenir bric-a-brac and garments of "genuine silk rayon"—whatever that means—at prices that make Shanghai merchants look like philanthropists.

I talked here to two navy pharmacist mates who also served with the marines on Okinawa. They emphasized repeated how much the marines dislike their present position in China.

State Aeronautics Head Asks That Cities Be Marked

AUSTIN, Dec. 14.—(AP)—A. W. Meadows, state aeronautics commission's executive director, today urged "a bucket of white paint, a big brush and a little work" upon Texas cities to aid private fliers in finding their way around in Texas.

Most Texas towns and some of the cities are not adequately marked, Meadows said, but two gallons of paint properly applied to the largest available roof would do the job.

He said that a flier dodging a storm or blown off his course often finds himself in strange territory. Unless he can locate himself quickly, he is quite likely to run out of gas and end up in a pasture.

Meadows plans to attend a conference of the airport division of the civil aeronautics administration in Fort Worth Dec. 19 to bring himself up to date on regulations before inaugurating a state-wide marking program.

Old regulations required the name of the town painted on a roof in three-foot letters. A large arrow bearing the letter "N" would point north. Another arrow with the letter

er "M" and a figure would indicate the distance and direction to the nearest airport or landing field.

More Units Sent To Restore Order

BATAVIA, Java, Dec. 14.—(AP)—A British spokesman said today that no companies of the Third and Fourth Gurkha divisions and a battalion of the British Sixth airborne division had arrived in Java to augment the military force engaged in restoring order in Java.

Dr. Hutertus J. Van Mook, acting governor general of the Dutch East Indies, today rejected Indonesian suggestions that the dispute over Indonesian demands for independence be referred to the United Nations organization.

The British statement reported minor clashes at several points, including Soerabaya, Ambarawa, Buitenzorg, Batavia in Java and Belawan in Sumatra.

To be perfectly proportioned, a man should weigh 28 pounds for every foot of his height.

SOCIETY

Christmas Is Observed by Baptist Women When They Meet in Circles

Women of the First Baptist church met in circles in the homes of members for Bible study and Christmas observances Wednesday afternoon.

Mrs. A. French was hostess to members of Circle One, when Mrs. Roy Holt led the opening prayer. Mrs. O. A. Davis, chairman, presided during a short business session, and reports of the year's work were heard.

Mrs. T. V. Lane taught the Bible lesson, and gifts were exchanged from a Christmas tree.

Refreshments were served to the following: Mrs. Roy Holt, Mrs. O. A. Davis, Mrs. E. K. Douglas, Mrs. T. V. Lane, Mrs. Allen Vandover, and Mrs. A. French, and a guest, Mrs. Johnson.

Mrs. Baker Henry was hostess to members of Circle Two. She gave the devotional, and Mrs. C. V. Forsman led the opening prayer. Mrs. Henry presided at the business session, and circle officers were appointed for the new year.

Mrs. Del Scalf led the opening prayer when members of Circle Three met in the home of Mrs. O. B. Schiffman. Mrs. W. B. Mitchell, chairman, directed the business session when new officers were appointed.

Refreshments were served to Mrs. Del Scalf, Mrs. R. W. Tucker, Mrs. T. E. Keeney, Mrs. Schiffman, Mrs. E. Stidham, Mrs. M. K. Gurley, Mrs. E. M. Cene, Mrs. W. B. Mitchell, Mrs. Joe Mullins and Mrs. H. H. Keyser.

Mrs. Hugh Grimes was hostess to Circle Four, and Mrs. L. H. Green led the opening prayer. Mrs. C. L. McKinney, chairman, presided, and officers gave reports of achievements for the past year.

Mrs. McKinney taught the Bible lesson using as her subject, "The Angel."

Present were: Mrs. Richie, Mrs. Howard Giles, Mrs. H. B. Landrum.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Greene, Mrs. A. A. Day, Mrs. McKinney and Mrs. Griener.

Mrs. F. J. Worrell was hostess to Mrs. D. E. Jameson, Mrs. L. H. members of Circle Five, and Mrs. S. E. Waters led the opening prayer, and presided as chairman.

Reports were heard, and plans for a Christmas party were made. The party will be held in the home of Mrs. Bob Trippelhorn, Dec. 21.

Mrs. J. V. Young taught the Bible lesson, and songs were sung by the group.

Refreshments of cake and coffee were served to: Mrs. C. H. Schulky, Mrs. Lela Phillips, Mrs. Bob Trippelhorn, Mrs. Floyd Yeager, Mrs. J. V. Young, Mrs. Bob Sidwell, Mrs. Homer Doggett, Mrs. Waters, and Mrs. Worrell.

Mrs. Ewell Mote was hostess when members of Circle Six met in her home. Mrs. Chuck Hogan led in prayer, and Mrs. R. W. Orr directed the business. Offerings were made for the Little Moon missions, Buckner's Christmas gift, and a community Christmas basket.

Mrs. J. A. Meek taught the Bible lesson, and led the closing prayer. Refreshments were served to: Mrs. S. Taylor, Mrs. J. A. Meek, Mrs. Jack Morris, Mrs. Chuck Hogan, Mrs. R. W. Orr, Mrs. S. W. Brandt, Mrs. Cecil Snellgrove, Mrs. L. H. Simpson, and Mote.

Mrs. C. A. Scott was hostess to Circle Seven, and Mrs. P. H. Baker led the opening prayer. Bible study was conducted by Mrs. Owen Johnson. Refreshments were served.

Mrs. Eaton Riggin was hostess to members of the Hopkins Home Demonstration club, when the annual Christmas party was held in the Community hall, Tuesday afternoon.

Miss Millicent Schaub, agent, conducted the installation of new officers, with a candle lighting ceremony and a short business session was held with Mrs. W. E. Melton, presiding.

Mrs. Riggin, food chairman for the Christmas supper to be given Friday, Dec. 21, at 7 p.m., read the menu and told each member what foods they were to bring.

Mrs. A. L. Montisomery was reported as in a local hospital.

Tips for Teen Gifts

By NEA Service

If it's new different and wearable, it's perfect for the teen-ager's Christmas. You won't go wrong if you buy her something that covers her head, like the gray wool jersey hood with matching gaiters, or something that cinches in her waist, like the red felt belt with fringed pouch attached—illustrated on the teen-age skater in the center.

Other sure-fire successes, top to bottom at left, are costume or real jeweled lockers which can be worn on a velvet ribbon; a dashing corduroy beret with matching gloves in pastel or brilliant colors; and knitted ballet tights and jumper tops for lounging or wear with a wrap-around skirt. Striped ballet slippers, upper right, are perfect teammates for the tights ensemble, or to wear after skiing. Also for skiing there are a number of new giddy sweaters sporting huge peacocks and reindeer. And at long last, high-styled skating costumes again are being manufactured.

Administrator Purposes That Surplus Goods Be Sold by Wholesale Dealers

WASHINGTON, Dec. 13—(AP)—Surplus property administrator W. Stuart Symington yesterday proposed to Congress that surplus goods be made available to veterans through thousands of wholesale dealers.

He told a senate military subcommittee that the present plan of releasing surplus goods through 31 regional offices of the reconstruction finance corporation has not been successful.

Symington also recommended: 1. That veterans be granted a priority over all purchasers except federal agencies, the war rank behind state and local governments as well as federal agencies.

2. That veterans be permitted to buy surplus property for personal use, at present they may make purchases only for business purposes.

Both of these provisions, Symington said, are part of a bill that has been introduced by Rep. Lyndon Johnson (D-Texas).

In proposing release of goods to veterans through wholesalers, Symington also urged that the veterans administration be named to screen purchase applications, replacing the smaller war plants corporation.

Under his plan for distribution through wholesalers, all veterans qualified to buy surplus goods would be classified as large dealers. This would give them the right to purchase at as low a price as anyone trading with a wholesaler.

Veterans would buy with coupons provided by the veterans administration. Those who are employed, but who need certain tools or equipment, could buy \$1,000 of merchandise. Those in business or who plan to start one could purchase, in general, \$20,000 of goods.

Mrs. Hettie Seiber Is Miami Hostess

MIAMI, Dec. 14 (Special)—Mrs. Hettie Seiber was hostess to members and guests of the "42" club Tuesday afternoon with twelve in attendance.

After a number of games, the hostess assisted by Mrs. Annie O'Laughlin, served refreshment plates consisting of cake, cherry fruit cup and coffee. High score was won by Mrs. J. K. McKenzie.

Those attending were Mesdames W. C. Scott, E. A. Wyckoff, J. V. Coffey, M. W. O'Laughlin, and Dan Kivlehen. Guests were Mesdames C. Carmichael, J. K. McKenzie, R. E. Webster, J. M. Arrington.

It is expected congress shortly will make available the \$500,000,000 highway fund for each of the next three years, to be matched by an equal amount by the states, in our forthcoming huge national highway building program.

Refreshments of cake and coffee were served to: Mrs. C. H. Schulky, Mrs. Lela Phillips, Mrs. Bob Trippelhorn, Mrs. Floyd Yeager, Mrs. J. V. Young, Mrs. Bob Sidwell, Mrs. Homer Doggett, Mrs. Waters, and Mrs. Worrell.

Mrs. Ewell Mote was hostess when members of Circle Six met in her home. Mrs. Chuck Hogan led in prayer, and Mrs. R. W. Orr directed the business. Offerings were made for the Little Moon missions, Buckner's Christmas gift, and a community Christmas basket.

Mrs. J. A. Meek taught the Bible lesson, and led the closing prayer. Refreshments were served to: Mrs. S. Taylor, Mrs. J. A. Meek, Mrs. Jack Morris, Mrs. Chuck Hogan, Mrs. R. W. Orr, Mrs. S. W. Brandt, Mrs. Cecil Snellgrove, Mrs. L. H. Simpson, and Mote.

Mrs. C. A. Scott was hostess to Circle Seven, and Mrs. P. H. Baker led the opening prayer. Bible study was conducted by Mrs. Owen Johnson. Refreshments were served.

Mrs. Eaton Riggin was hostess to members of the Hopkins Home Demonstration club, when the annual Christmas party was held in the Community hall, Tuesday afternoon.

Miss Millicent Schaub, agent, conducted the installation of new officers, with a candle lighting ceremony and a short business session was held with Mrs. W. E. Melton, presiding.

New Officers Are Elected at Ester Club Meet

Mrs. Lois King was hostess to members of the Ester club when they met in her home recently for a business session and Christmas party.

The following officers were elected: Lois King, president; Elsie Cone, vice-president; Etta Crisler, treasurer, and June Rowe, secretary and reporter.

After the business, games were directed by Elsie Cone and Ruby Wylie, and gifts were exchanged.

Refreshments of cake and coffee were served to: Etta Crisler, Hazel Franklin, Ethel Willson, Elsie Cone, Flo Spoonmore, Bessie Mastin, June Rowe, Ella Noland, Viola Vandover, Ruby Wylie and the hostess.

Guests were Mrs. Maxine King, Teddy Mastin and Janice Nolland. All members are invited to meet with Ruby Wylie, 621 S. Barnes, Dec. 17, to make Christmas boxes.

Social Calendar

FRIDAY
Rainbow for Girls will meet at 7:30 p.m. in Masonic hall for formal initiation.

Pampa Civic chorus will meet for rehearsal in the First Baptist church at 7:45 p.m.

VFW auxiliary will meet at 8 p.m. in City club room.

Wayside home demonstration club will meet with Mrs. W. F. Taylor for Christmas party.

SATURDAY
Home Demonstration council will meet in City club room for Christmas party at 2:30.

4-H Council will have party in City club room.

SUNDAY
Business and Professional Women's club will have Christmas party in City club room at 2:30 p.m.

MONDAY
American Legion auxiliary will meet at 8 p.m. in City club room.

Beta Sigma Phi will meet. Council of Church Women executive board will meet.

TUESDAY
A. A. U. W. will meet at 8 in City club room.

BKJ will meet. Church of Brethren W. M. S. will meet at 2 p.m.

Parent-education club will meet. Worthwhile Home Demonstration club will meet with Mrs. O. G. Smith for Christmas party.

THURSDAY
Rebekah lodge will meet at 7:30 in I.O.O.F. hall.

Ester club will have Christmas party.

White Deer Members Have Christmas Party And Program in Home

WHITE DEER, Dec. 14 (Special)—Mrs. M. E. Wells, teacher of the T.E.L. class of the Baptist Sunday school, was hostess for the annual Christmas party, Wednesday afternoon, at her home.

After refreshments were served, the group sang several Christmas carols, with Mrs. Neal Edwards, accompanist. Mrs. J. W. Every then read the story of the Nativity as Mrs. M. G. Upton portrayed the scenes with flash-ograph pictures.

Mrs. Edwards, as little "Kate Moss," read the poem, "The Night Before Christmas," and Mrs. Upton gave a reading, "When the Wise Men Appeared."

As little Paula Anderson sang "Jingle Bells," Mrs. Santa Claus (Mrs. Charles Milligan) came in and distributed the gifts from a beautifully decorated tree. Mrs. W. B. Carey led the closing prayer.

Present were Mesdames Carey, Upton, Milligan, Edwards, McKiel, Every, E. I. Colerove, W. H. Bray, P. D. McBride, Jessie Pearson, Milner Osborne, Clara Rector, W. E. Moore, L. A. Cunningham, J. W. Wells, F. L. Smoot, Wilburn Eaton, C. P. Hussey, and W. W. Simmons, and Paula Anderson of Amarillo.

Couple Killed After Seeing Son for First Time in Two Years

TYLER, Dec. 14—(AP)—Mr. and Mrs. R. R. Bandy of Colmesneer, Texas, were killed in an automobile collision here last night after they saw their son for the first time in two years.

The son, Sgt. Ray M. Bandy, was injured in the accident. He was being discharged from the army at Camp Pannin after two years overseas and his parents had come to the camp to get him. John Pittman, an occupant of the Bandy automobile, also was injured and seven Negroes in the other car were hurt.

In the X-ray field of center treatment machines which can generate as much as 1,000,000 volts are making possible non-surgical cures which would have been undreamed of a few years ago.

Beta Gamma Kappa Dance Date Changed

WASHINGTON, Dec. 14—(AP)—The atomic bomb is expected to get its ocean test in a remote corner of the Pacific sometime next spring. Although a White House announcement that President Truman himself suggested the joint army-navy test against warships indicates desire for early action, those in a position to know say the preparations may require as much as five months.

Beta Gamma Kappa Dance Date Changed

DATE OF THE Beta Gamma Kappa dance, which was originally announced as Dec. 18, has been changed to Dec. 20, when the dance will be held at the Southern club. Music will be furnished by Ken Bennett and his orchestra.

Birthday Dinner Is Given in Shamrock

SHAMROCK, Dec. 14 (Special)—Morgan Eoff was complimented with a birthday dinner by his mother, Mrs. Bryan Eoff, at the Eoff home Tuesday evening.

James Paul Stribling, whose birthday occurred in the same week, was also an honor guest, and both the boys received a number of gifts.

The birthday cake was placed on the buffet, flanked with an arrangement of candles.

Guests included: Barbara Scott, Janet Caperton, Joy Williams, Media Mae See, Doris Bell, Bill Morgan, Joel Sanders, Donald Briggs, and the honorees.

Blaze Destroys Colorado Hotel

GLENWOOD SPRINGS, Colo., Dec. 14—(AP)—Fire swiftly destroyed the ancient Glenwood hotel early today and authorities, starting a search in the now icy ruins, estimated from three to 12 or more guests may have perished.

Seven persons were injured. Nearly 125 guests fled into near zero weather of this western Colorado resort town.

Fire Chief Joe Blanton said only three persons were unaccounted for while Police Chief Charles Wells declared a dozen may be missing, among them some transients.

The fire, which started at 1:10 a. m. (CST) in the basement of the adjoining Bullock's department store, quickly devoured the 59-year-old three-story brick structure. The fire chief said its cause remained undetermined. Besides the hotel and store, the Western Union office and the South Canon coal mine company's office in the same building were destroyed.

Wells said the loss was roughly between \$200,000 and \$300,000.

JUDGE GIVES TEACHER TWO HUNDRED SENTENCES

CHARLESTON, W. Va.—(AP)—A school teacher received in municipal court a punishment usually reserved for students. Judge Harold H. Neff sentenced him to sit down and write out 200 times in longhand the words: "I must not drive through a traffic light again." The teacher, red-faced, did as the court directed.

RETURN ENGAGEMENT

FORT DOUGLAS, Utah—(AP)—The tug of familiar scenes and \$300 in cash were too much for Pfc. George Gorman. Honorably discharged here, Gorman, a veteran of World War I, strolled about the post, visiting old friends, and then headed for the enlistment office. He explained he knew all about the new regulations authorizing him a cash reinstatement allotment of \$50 for each of the six years since his last enlistment.

SHORT SNORTED

CEDAR CITY, Utah—(AP)—A short-snorter \$5 bill helped to clinch a holdup case. The victim identified the bill as one signed by his former crew mates in the army air forces.

Pictures have been made of molecules representing the virus of a plant disease called tobacco mosaic. Magnification of 30,000 times was needed for the picture-making operation.

Christian Class Is Entertained With Party

Mrs. Earl Cloud and Mrs. Forest Newman entertained with a Christmas party Wednesday at the First Christian church for the pre-beginner class and mothers.

The hour was spent decorating a tree, working puzzles, coloring and listening to the Christmas story.

Children brought gifts to be sent to the three-year-old children of the Fowler home, Dallas.

Favors of bell lapel pins were presented to the mothers, and the children received Santa boxes filled with treats.

Refreshments of cookies and punch were served to: Mrs. John Sexton and Carol Ann; Mrs. Aaron Sturgeon and Mary; Mrs. D. H. Pirtson, and Lynn; Mrs. T. B. Langston and Shelah; Mrs. Bert Stevens, Lynda and Lee Kent; Mrs. J. M. Scott and Lonnie, Mrs. Carl Stone and Bubbie; Rickey Taylor and Katherine Kasiskke; Mrs. Cloud, Mrs. Newman and Verlie.

Your HOME

will be ALL-ELECTRIC!

Maybe you have some new home ideas of your own right now, that you want to carry out when materials and appliances can be secured. Remember this: The truly modern home will be All-Electric.

The All-Electric Kitchen will save time and steps. The electric laundry center will do away with the irritations and inconveniences of "Blue Monday" forever. The quick-freeze unit will keep garden foods fresh the year round. And all through the house, the newest in electric lighting will "move the sun" indoors, to make every seeing task easier.

Decide now to take full advantage of tomorrow's electrical developments. You'll have a home that will remain modern for years to come.

DON'T INVITE THEFT

With gasoline rationing off and the Christmas shopping season in full swing, a very great deal of valuable merchandise is going to be transported between stores and homes in private automobiles.

Now and again a locked car will be broken into, but the chances are against it. The seasoned prowler looks for the cars of the careless.

If anything valuable is to be left in an automobile for only a few minutes during the shopping rush, the car should be locked. If the car cannot be locked, valuables should be taken along by the owner.

The police here and elsewhere will do their best to protect property and prevent theft, but their task will be lightened greatly if motorists do whatever they can to safeguard themselves against loss by theft.

THE PROFESSOR SAYS 'BOO'

It seemed quite like old times to read these excerpts from a New York speech by the British Laborite, Prof. Harold Laski: "Free enterprise and market economy mean war; socialism and planned economy mean peace."

It was long the fashion for zealots to predict the end of civilization if things weren't run according to their recommendations. Nobody took them seriously, of course. It was just a handy oratorical trick.

Since Hiroshima was blown off the map, the actual destruction of civilization has been a foreseeable, uncomfortably literal possibility. Consequently we doubt that many of Professor Laski's acquaintances were very frightened when he shouted "Boo!"

SERVICE DISABILITY

(Harry C., age 40, served with the army in numerous South Pacific campaigns without receiving any disability other than a slight nervous condition.)

Many veterans are discharged from service either with or without disability and for some reason have not filed a claim for pension.

If the veteran finds he is suffering from any physical complaint, or if he believes he is not in as good physical condition as he was upon induction, or if he has any residual scar or other disability, he should file a claim with the nearest regional office of the Veterans Administration.

The filing of such a claim is beneficial both to the individual and the government since an early determination of the medical status may establish future benefits.

THE NEWS AGAIN: ALLIANCE'S NO. 1 FAN CHICAGO.—(AP)—Back in 1937, label Dickson, 11, was very ill.

Recently the railroad hired a new stenographer. A fellow employee thought there was something vaguely familiar about her, and he was right. It was Miss Dickson, now and restored to health.

SIDE GLANCES

BY GALBRAITH

"This will be your first girl-boy party, Margie, and remember, we don't want you to come home engaged!"

The National Whirligig

BY RAY TUCKER

OBSTACLE.—The postwar plan for decentralizing the factories of America's industry has bumped into a serious obstacle in the bulky figure of Brian P. McMahon, the senator from the heavily industrialized state of Connecticut.

Headed by Senator Pat McCarran of Nevada, a group of western legislators sponsored the inquiry into the problem at the last session. In his opinion, their hearings disclosed that eastern-minded individuals in the war production board and the reconstruction finance corporation had tried to divert the growth of great manufacturing centers in the Far West and on the Pacific coast.

It was largely because of the late President Roosevelt's sympathy for and support of Henry J. Kaiser and Arthur Hays Sulzberger, the name of the bill was changed to the Western Industrial Development Act.

But the valley is in a class by itself. Palm trees, grapefruit and oranges hang in luscious clusters on the trees. Old Mexico just a few minutes away, a charming hospitality, blooming poinsettias and brilliant bougainvilleas.

Next he got himself made chairman of the Interstate Commerce Commission, a position which he held for a few years. He has successfully blocked a further survey in that capacity, although a coalition signed by forty-nine congressmen from the West and South have asked him to act favorably and affirmatively.

ON THIS MATTER OF SAVING THE SHIRT

By PETER EDSON

NEA WASHINGTON.—Well, it appears that Uncle Sam didn't lose his shirt to the British bulge in the big loan negotiations, after all. What the British wanted when the Earl of Halifax and Lord Keynes began their hard luck story last September was a grant of six billion dollars.

The heat produced by atomic energy will be so abundant and so cheap that even such places as the Arctic regions and the deserts which depend on irrigation will be able to compete with regions that are climatically better off.

A normal home life is the greatest antidote to juvenile crime and the sooner we return to it in America, the sooner such crime will lessen.—Tom C. Clark, U. S. attorney general.

In Hollywood

By ERSKINE JOHNSON

NEA Staff Correspondent

HOLLYWOOD.—A slight of the year: Lauren Bacall giving a Hollywood restaurant the same look that made her famous on the screen.

The censors are about to completely approve the film script of "Forever Amber." It will be on the angle of "crime does not pay," with Amber losing friends, fortune and love in the final fadout.

Producers Arnold Pressburger's mess agent recently sent some picture stills to the Johnston office for okay, accompanying them with a letter. The letterhead, plugging "A Scandal in Paris," has a whimsical drawing of a foppish diary examining a lady's garter while she hides her skirt above the knees.

Laraine Day has signed a contract with a Salt Lake City manufacturer to design costume jewelry for her spare time. Hollywood will release a special short around Academy Award time, titled, "How to Make a Movie." It will be shown to the Hollywood hignups when the Oscars are handed out.

Strip teasing is not permitted by the censors on the screen but Hollywood usually can find a way to beat the thing. Latest is the "infernal striptease." Rita Hayworth does it in "Gilda," removing her earrings, then her necklace, her bracelets, an anklet and her garters.

Strip teasing is not permitted by the censors on the screen but Hollywood usually can find a way to beat the thing. Latest is the "infernal striptease." Rita Hayworth does it in "Gilda," removing her earrings, then her necklace, her bracelets, an anklet and her garters.

But the war has apparently taught the youngsters that they must "organize" to obtain their objectives. They are joining the American Legion and the veterans of foreign wars as well as unions. And, since most of them are unskilled workers, they are finding that they must start to work at fairly modest pay in the service trades or in manufacturing.

Whatever else the Pearl Harbor investigation proves or disproves, we could wish that five years ago the nation had been blessed with more intellectual honesty in high places.—Canton, O., Repository.

World Today

By D'WITT MACKENZIE

AP World Traveler

DUBLIN, Dec. 14.—(AP)—One of the most extraordinary personages of our generation without the shadow of doubt is Eamon De Valera, prime minister of Eire—a man whose name is received at home and abroad either with applause or disfavor but never with halfway emotions.

Here we have a one-time college professor who so far departed from his studiousness as to become one of the leaders of the ill-starred bloody Easter week rebellion of 1916 against British rule. When this rebellion failed, De Valera and several other leaders were condemned to death.

He added that the king "acts for us under advice in certain specified matters in the field of our external relations."

De Valera then recommended to the king the appointment of Daniel Buckley, a staunch republican but a mild and retiring man. The appointment being made by De Valera deliberately buried Buckley in a

So They Say

little residence and told him to effect himself from public life. The result was that the governor-generalship in effect disappeared. The master strike, however, came in 1936 when King Edward VIII abdicated. For a period of two days there was no king and in that time De Valera pushed through his legislature an external relations act abolishing the kingship so far as it concerned Southern Ireland.

When the rebellion failed, De Valera and several other leaders were condemned to death. Most paid the price with their lives, but he was American born and this is said to have influenced the British to commute his sentence.

He finally gained his freedom and attacked the problem of independence from the political rather than the military standpoint. In this he and his captains have succeeded.

The manner in which this position was achieved is one of the high water marks of De Valera's strategy. As described to me by one of his henchmen back in 1932 when De Valera became head of government and there still was a governor general to represent the king, the governor general became angered over an incident and refused to accept De Valera's advice. De Valera then asked the king to recall his governor-general, which was done.

De Valera then recommended to the king the appointment of Daniel Buckley, a staunch republican but a mild and retiring man. The appointment being made by De Valera deliberately buried Buckley in a

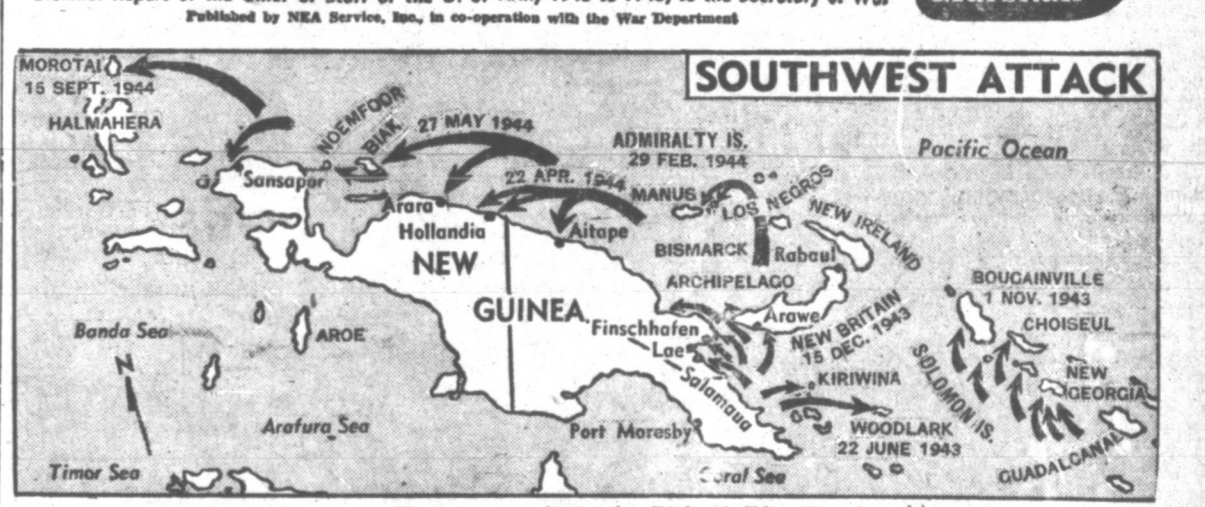

Thomas, president, United Auto Workers union. If we want to keep America the kind of country it is, we must awaken to the menace of pressure minorities which use powerful weapons and use them mercifully.—Olympia, Wash., Olympian.

The whole history of warfare has been built around the development of new weapons. Mankind has never yet devised an instrument of offense against which there has been no defense.—Harry T. Rowland, first vice president, Glenn L. Martin company.

We can face the future unafraid because men have learned something from working and fighting together.—Methodist Bishop G. Bromley of New York City.

Report On the War By General George C. Marshall

From a Fortune map drawn by Richard Edes Harrison, copyright by Time, Inc.

SOUTHWEST ATTACK goal was possession of New Guinea as first step on a ladder leading up this island's northern coast to the Philippines. The Solomons, off New Guinea's flank, were neutralized simultaneously with successful invasions of southeast New Guinea.

This is the 29th of 42 installations of material selected from General Marshall's report on the winning of World War II.

ON 1 July 1943, General MacArthur had four American divisions and six Australian divisions under his control. His air force had less than 150 heavy bombers. Admiral Nimitz had nine Army and Marine divisions. Yet in the spring of 1945 these two commanders were electing the Japanese from the Philippines and the Ryukyus—already on the home stretch to Japan.

Following the completion of the extremely difficult Buna campaign late in June 1943, difficult because of the paucity of facilities and the character of the terrain, two regimental combat teams landed on Woodlark and Kiriwina islands off the eastern tip of New Guinea. The operation was small but it was typical of the general method of the offensive in the Southwest Pacific.

Salamaua had fallen five days previously. General MacArthur then moved quickly toward Salamaua, an Australian force landed a few miles east of Lae. The next day, supported by air and screened by smoke, a U. S. parachute regiment dropped to seize the airdrome at Nadzab, 19 miles northwest of the town.

On 4 September, while the Japanese still resisting at Salamaua, an Australian force landed a few miles east of Lae. The next day, supported by air and screened by smoke, a U. S. parachute regiment dropped to seize the airdrome at Nadzab, 19 miles northwest of the town.

At Seattle—
Miscellaneous personnel on Lamar from Yokohama, Carlisle from Okinawa, Ernest from Guam Strike from Manila, Carl Solving from Adak, service Blains from Guam.
At Tacoma—
 Brookings from Korea.

Patton May Be Paralyzed for Life--Spurling

HEIDELBERG, Germany, Dec. 14.—(AP)—Col. R. Glen Spurling, chief specialist attending Gen. George S. Patton, Jr., said today the American commander was "out of danger of death, but there was a possibility that he never would be able to command his troops again."
 He described Patton's condition as a touch and go affair. He said the general might recover fully from the broken neck he received in an automobile crash last Sunday, but again that he might be partly paralyzed for life.

Spurling said it would be impossible to forecast the effects of Patton's injuries for at least three or four weeks.
 This morning's medical bulletin said Patton's condition was excellent.

Patton will be in a traction apparatus for several weeks and then will be fitted with a neck brace or collar support, Spurling said.
 "As soon as his condition permits, he will be moved back to the United States for hospitalization," the doctor said. "That probably will be within the next four to six weeks. He'll go by air."

Explaining that the injury to the spinal cord can not yet be determined, Spurling said doctors might have to wait six months to know definitely whether Patton would regain full control of his arms and legs.

The medical bulletin stated: "Temperature 98, pulse 64, respiration 24," said the announcement. "The patient had a comfortable night, alert and cheerful. Scalp wounds are healing normally. Condition excellent. Neurological status unchanged."

Slinging as an exercise is a great benefit to anyone suffering from chest or throat weaknesses.

Possibility of Peace Depends on Relatively Free Access to News

AUSTIN, Dec. 13.—The possibility of peace depends on the relatively free access to news, Dr. Harry E. Moore, University of Texas sociologist, told university journalism students in a specially-prepared talk delivered recently.

Freedom of the press is fundamental to peace, Dr. Moore reminded the students.
 "I am not absolutely sure that if we had free transmission of what happens in all other countries it would make us love all the rest of the world," he admitted, "but if we have any hope of working with people, we must have information about them. Anything which impedes access to information arouses suspicions."

"If American reporters were free to investigate events in London, Paris, Rome, Moscow and other

cities of the world, they would ask the right questions and we would get the correct facts," he continued.
 "The partisanship in the viewpoint of the American public is partly because of this lack of knowledge. There is evidence that many of the views we develop are obtained from news released through propaganda channels. Even in the United States, it has been disclosed, 60 per cent of the news contained in the conservative New York Times originated from individuals who are seeking to further their own interests.

Flowers

ests. In peace as well as war, a great deal of news is selected for its effect on the reader.
 "What is the antidote? If we can get at the pertinent facts, then we can judge whether it's propaganda or not," he concluded.

Dr. Moore warned that the privilege of freedom of the press must not be abused—for in a system where the newsgatherers themselves are not held accountable, there lies danger also.

Snails are being used to replace men in cleaning moss on citrus trees in Jamaica.

Grasshoppers won't eat Ceres wheat for some unknown reason, so North Dakota wheat farmers have planted that variety.

Map Wrap

Evelyn Keyes, Columbia screen player, had a nice enough map to start with but she's also proud of the new ones she had made up into the swim suit pictured above. They're special waterproof Air Force maps, bearing data secret until recently, which were presented to her by an Army admirer.

Youngsters of Pampa Write Wishes to Santa

Following are reprints of letters to Santa Claus as sent in care of The Pampa Daily News:

Dear Santa: I want a sled and a coaster wagon, a pocketbook, a box of puzzles, and lots of candy and nuts in my stocking.
 I S—Please, Santa, if you have a switch board for a train, I would like one.
 From David Kent Gantz, 426 Sunset Drive.

Dear Santa: I want a doll, story books, some fruit, and a turkey.
 Lots of love,
 Dorothea Gantz.

Dear Santa Claus: I am a little boy five years old. I want a tricycle, a billfold, a cowboy suit. Some apples and oranges and nuts.
 Your little friend,
 Lyndel Wayne Johnson.

Dear Santa Claus: Please bring me a wagon, a teddy bear, some linker tops, some house shoes, a toy horse and a milk wagon.
 Your friend,
 Sammie Jerrill Johnson.

Dear Santa Claus: I am a little boy nine years old. I want a cowboy suit, a Lassie Come Home book, and a toy farm.
 Your little friend,
 Leonard Ross Johnson.

Dear Santa Claus: I am a little boy seven years old. I want a toy farm, a cowboy suit and a Lassie Come Home book. I've tried to be a good boy.
 Your friend,
 John Langford.

Dear Santa Claus: I wish you would bring me a nurse set and a telephone, and a ring and anything else you think a little girl should have. Thank you.
 Love,
 Wanda Langford.

Dear Santa Claus: I am six years old and have been a good girl and helped mother. Please bring me a doll, house shoes, purse, nurse set and a telephone, and anything else you want. Bring me some fruit, nuts and candy. Thank you.
 Margaret West,
 Skellytown, Texas.

Dear Santa Claus: I am a little boy old and have been a real good little boy. Please bring me a cowboy suit, doctor set, house shoes, tinker toys, a horn and a drum, also some candy, fruit and nuts. Thank you.
 Eugene West,
 Skellytown, Texas.

Dear Santa Claus: I am a little boy six years old. I am in the first grade. For Christmas will you please bring me a football, house shoes, and a gun.
 Your little friend,
 Arthur Ray Roberts,
 Lefors.

Dear Santa Claus: My name is Billy Don Eaton. I am two years old. I have been a good boy. Please bring me a train, a wagon, some candy, fruit and nuts.
 Yours sincerely,
 Billy Don.

Dear Santa: I am seven years old. I've tried to be good. I want a doll for Christmas, and some games, some books, and some color books. I guess that will be all. But, remember I will keep trying to be good. And I forgot to tell you my name, so I will tell you now. My name is Joan, and don't forget me. Santa.
 Joan Robertson.

Dear Santa: I am a pretty big girl and am nine years old, and in the fourth grade. I go to Horace Mann school and like it very much. I want a doll, chemistry set, paint set, desk and a record player. I would like very much to have some games, (inside games). I have been pretty good this year and help mother with the dishes (sometimes).
 Your friend,
 Jaquelin Robertson.

Dear Santa: I am a little girl three years old, will soon be four. Bring me a dollie, telephone and dishes. Don't forget all the other boys and girls.
 Lots of love,
 Barbara Ann Maxwell.

Dear Santa: I am a little boy five years old. Would you please bring me a gun and an abard, a little train and football. Don't forget all the other children.
 With love,
 Durrell Ivan Maxwell.

Dear Santa: I am a little boy seven years old. I am in the second grade. I go to Horace Mann school. My teacher's name is Mrs. Gilbe. I want a telephone, gun and scabbard, a howling alley set and farm set.
 Edson Lee Maxwell.

Flu Is Reaching Epidemic Stage

AUSTIN, Dec. 14.—(AP)—Influenza is reaching the epidemic stage in Texas with 7,332 cases reported for the week ending Dec. 8 as compared with 1,738 for the seven-year median, Dr. George W. Cox, state health officer said today.
 In announcing this rise in influenza, Dr. Cox reminded that every one case reported to the state department of health there at least is 10 unreported cases. This means an estimated 73,320 cases of influenza over the state.
 Counties having the highest incidence include: Brewster, 109 reported cases; Cooke, 110; Grayson, 201; Hal 240; Midland, 300; Taylor, 236; Tom Green, 253; Webb, 370.

In Annapolis, Md., fire hydrant of different colors indicate size of the water mains serving them.

Units of Texas 36th Division To Dock Friday

WASHINGTON, Dec. 14.—(AP)—Two ships of the 36th (Texas) division troops were due to dock simultaneously this morning, one at New York and the other at Hampton Roads, Va.

The war department, announcing late changes in the arrival dates and boat assignments, said there would be no official homecoming ceremony for the division, but to land on European soil in World War II. The men will be immediately to staging areas near the ports then to separation centers throughout the country.

The Admiral Capps, bearing the division commander, Brig. Gen. Robert I. Slack, his staff and 5,122 officers and men, is scheduled to dock at 8 a. m. at Hampton Roads in the Norfolk area. At the same hour the Altona Victory, carrying 1,558 officers and men, is to tie up at New York. The ship previously was expected to arrive at Hampton Roads tomorrow.

On the Altona Victory are the 141st regiment, companies A, B, C, G, I and L; service and cannon companies and medical detachment. Later Friday, another ship with 36th division men aboard is due to arrive at Hampton Roads—the Frederick Lykes with 2,439.

Maj. Gen. Fred L. Walker, division commander in the Italian campaign and now in charge of army service force headquarters here, plans to be on hand when the Admiral Capps docks. Accompanying him will be former Lt. Gov. Carl Phinney, Dallas attorney, who was to have welcomed the troops on behalf of Gov. Coke R. Stevenson of Texas if there had been a formal ceremony. Also present will be Wick Fowler, Dallas News war correspondent with the 36th throughout the Italian operations.

Latest schedules, still subject to change because of weather, call for the arrival at Hampton Roads of the Tusculum Victory Dec. 15; Pontotoc Victory Dec. 18; Wooster Victory Dec. 19; Benjamin Milan Dec. 20; Francis Lee Dec. 21. The Excelsior Victory and Mayo Brothers originally assigned to carry 36th troops have been given other tasks.

Troops due on the Mayo Brothers are arriving on the Haym Sullivan at an undetermined date. They are the 141st infantry regiment, company K; 143rd infantry regiment, service company and company A.

Troops which were to sail on the Excelsior Victory were the 141st regiment headquarters, due in on the Pontotoc; 36th reconnaissance troops on the Francis Lee, and 32nd, 153rd and 155th field artillery battalions on the Tusculum Victory.

Market Briefs

WALL STREET
NEW YORK, Dec. 14.—(AP)—A few rails, utilities and industrials negotiated a modest recovery in today's stock market but early advances running to a point or more failed to hold in the majority of cases and many leaders eventually extended their decline of the preceding session.

Transfer of around 1,200,000 shares were among the smallest of the past two months for a full stretch.

Trends improved after a lower opening with rails getting the principal attention along with scattered aviation and "thin" high-priced industrials. Steels and motors still were depressed by wage controversies in these fields. While plus signs were fairly well distributed at the close, numerous losses persisted.

St. Paul railway common (widespread) pushed up to a new top. Ahead most of the time—some finally slipped—were N. Y. Central, Santa Fe, Southern Pacific, Southern Railway, Dow Chemical, Allied Chemical, Shell-Oleum Oil, Eastern Air Lines, Boeing and American Telephone. Backward were U. S. Steel, General Motors, Chrysler, Packard, Douglas Aircraft, Sperry, Eastman, Kodak, J. C. Penney, Anaconda, Texas Co., Radio Corp., International Harvester, Westinghouse and General Electric.

Railroad bonds did better. Cotton, toward the last, was down to 75 cents a bale.

Hollywood's Own Margaret O'Brien Awaits Old Santa

HOLLYWOOD, Dec. 14.—(AP)—It's a little early, but here's the first Hollywood Christmas story for this year.

Margaret O'Brien thinks more about Santa Claus than the fame and wealth she has achieved as an actress. She profoundly believes in Santa Claus and her burning ambition was to ride with him down Santa Claus lane.

A couple of years ago, when she was 6, Margaret and her mother were on the lane known the rest of the year as Hollywood boulevard, when St. Nick rode by on his nightly trip. Margaret asked: "Can I ride with Santa Claus?" Her mother told her no, that only movie stars could ride in the sleigh.

This year Margaret asked her mother: "Am I a movie star?" Mrs. O'Brien said cautiously: "Why?"

"Because if I am, I'd like to ride with Santa."

So it was arranged for Margaret to accompany Santa down the tree-lighted boulevard. The man enacting St. Nick that night was an old actor-friend of Mrs. O'Brien. Imagine Margaret's surprise to see

her mother talking over old times with Mr. Claus.

But she still believes in Santa.

A golf game with Bing Crosby may lead to anything, but this one brought a movie job to Capt. Mike Zawisza.

Mike, a native of Camden, N. J., was an army pilot who bagged seven Japanese planes around Port Darwin and Port Moresby. He was resting in Colorado Springs a few months ago when Bing came through on a bond tour.

They became golfing companions and good friends and Bing told Mike to look him up when he got out of the army.

When the captain was discharged, he took Bing at his word. Now Mike is acting in Paramount's "Ladies' Man," and his ambitions to be an actor. I wonder what his new name will be.

Van Johnson was mobbed by a thousand admirers when he exited from a radio broadcast and couldn't find his car. Of course he could have left by the back entrance, but Van likes crowds. Harry James is taking his farming career seriously. He's poring over farm jour-

nals to learn how to raise alfalfa on his new ranch.

Sinatra and Crosby have been palling around New York. Twentieth-Fox signed James Stacy unknown actor-soldier who appeared in the army training film, "Resisting Enemy Interrogation."

George Montgomery's first civilian broadcast will be on wife Dinah Shore's program Dec. 20.

MARRIED?
EMPORIA, Kans., Dec. 14.—(AP)—Mrs. Alice Bradford attached a slip of paper bearing her name and address but leaving out the "Mrs." to one of several sweaters she knitted for the Red Cross.

Recently she received a note from a soldier in northern Italy. After expressing his appreciation, he added: "I suppose you are married." Mrs. Bradford is 95 and has three great grandchildren.

The Pearl Harbor of the future might well be Chicago or Detroit or Pittsburgh or even Washington, D. C. As top dog, America has become target No. 1.—Gen. Carl Spaatz, chief, U. S. Army air forces.

HOSE LINE

MANITOWOC, Wis., Dec. 14.—(AP)—A middle aged man got at the end of the long line of women who waited their turn to get to the hosiery counter of a department store—and buy a pair of nylon.

After almost an hour, he left the line for a few minutes. When he returned he didn't get his position back, so again he went to the end of the line.

Another long wait and he finally reached the hosiery counter. "A pair of men's socks, size 10, please," was his request.

The Pearl Harbor of the future might well be Chicago or Detroit or Pittsburgh or even Washington, D. C. As top dog, America has become target No. 1.—Gen. Carl Spaatz, chief, U. S. Army air forces.

(Legal Notice, Continued) drainage outlets, shall be drained by special waste pipes discharging to an approved open plumbing trap, sump, or floor drain.

acid resisting materials, or shall be lead lined. Such fixtures, tanks, receptacles, apparatus, or devices, may indirectly drain to a water supplied diluting tank or sump, constructed of acid resisting material, which shall be properly trapped, vented and connected to the drainage system.

SECTION 150—METHOD OF TEST. All the piping of a plumbing and/or drainage system shall be tested with water or air in the following manner: (1) WATER TEST: The water test shall be applied to the plumbing and/or drainage system in its entirety or in sections.

SECTION 151—CONSTRUCTION OF SETTLING TANKS IN DAMPS AND SAND TRAPS. All settling tanks, sumps and/or traps, shall be constructed of cast iron, with bottom and sides as thick as four (4) inches in any part.

SECTION 152—DRAINAGE FROM ACID AND CHEMICAL FIXTURES. Drainage from fixtures, receptacles, apparatus, or devices, in which acids or other chemicals are used, shall be directed to a drain pipe which shall be constructed of acid resisting material.

SECTION 153—RAINFALL DRAINAGE SYSTEM TESTS. Water leader pipes and their roof connections within the walls of buildings, and storm water drainage systems that connect to a combined sewer system, a storm water drain system, or a system that drains to a public gutter shall be tested and inspected, as provided for in Section 160.

SECTION 154—WATER DISTRIBUTION SYSTEM TESTS. Upon the completion of the entire water distribution system, including connections to apartments, devices, tanks, apparatus, or fixtures, it shall be tested and inspected, as provided for in Section 160.

SECTION 155—CESSPOOLS AND SEPTIC TANKS. When a public sewer is not available for use, all drainage piping shall connect to a cesspool or septic tank until such time as a public sewer is available.

SECTION 156—AIR TEST OF DEFECTIVE PLUMBING SYSTEMS. The test shall be used in testing the sanitary condition of the drainage or plumbing system of any building or premises where there is reason to believe that it may be defective.

Harvesters Beat Childress 29-26

Goose Creek, Waco, Highland Park, Wichita Falls Are Favored

George Rickard's Famed 'Garden' Is 20 Years Old

By HAROLD V. RATLIFF AP Sports Editor Four games drawing more than 50,000 fans tomorrow will send the Texas schoolboy football race into its semi-finals with only one of last year's quarter expected to again reach the penultimate round.

Only Highland Park remains and the Scotties move against the mighty defense of North Side at Fort Worth tomorrow.

Theo three other games: Odessa at Wichita Falls, Waco at Marshall, Goose Creek vs Thomas Jefferson at San Antonio.

Richard originally banked on boxing, the circus and six-day bicycle races. Track and field helped.

SECTION 160—COVERING OF WORK. No drainage or plumbing system or part thereof shall be covered or concealed until it has been inspected, tested and approved as herein prescribed.

SECTION 161—UNCOVERING WORK. If any drainage or plumbing system or part thereof is covered or concealed before being regularly inspected, tested and approved, as herein prescribed, it shall be exposed, upon the direction of the Plumbing Inspector.

SECTION 162—DEFECTIVE WORK. If inspection or tests show defects, such defective work or material shall be replaced within three (3) days and inspection and test repeated.

SECTION 163—RAINWATER DRAINAGE SYSTEM TESTS. Water leader pipes and their roof connections within the walls of buildings, and storm water drainage systems that connect to a combined sewer system, a storm water drain system, or a system that drains to a public gutter shall be tested and inspected, as provided for in Section 160.

SECTION 164—WATER DISTRIBUTION SYSTEM TESTS. Upon the completion of the entire water distribution system, including connections to apartments, devices, tanks, apparatus, or fixtures, it shall be tested and inspected, as provided for in Section 160.

SECTION 165—FINAL FIXTURE TEST. Upon the completion of the setting or installing of plumbing fixtures, or other apparatus, and all appurtenances or appliances, including waste and/or water connections, and prior to the general use thereof, it shall be the duty of the person doing such work, to notify the Plumbing Inspector that such work is ready for inspection and test.

Nelson Leads in Fort Worth Open Golf Tournament

SECTION 166—AIR TEST OF DEFECTIVE PLUMBING SYSTEMS. The test shall be used in testing the sanitary condition of the drainage or plumbing system of any building or premises where there is reason to believe that it may be defective.

SECTION 167—WHEN INSPECTION AND TEST IS NOT REQUIRED. No tests or inspections shall be required, where a plumbing system, or part thereof, is set up for exhibition purposes and has no connection with a water or drainage system; nor after repairing of fixtures, faucets or valves used for the same purpose, nor after forcing out stoppers and repairing leaks.

Beau Jack, Willie Joyce Meet Tonight

NEW YORK, Dec. 14.—Beau Jack, one of boxing's biggest draws, comes back to Madison Square Garden tonight, a 1 to 2 favorite to beat Willie Joyce over the 10-pound round.

Lured by the return of the bouncing Beau, who served 16 months in the army, a crowd of more than 15,000 is expected to contribute to a gross gate of close to \$100,000 at \$12 tops.

Joyce, a Gary, Ind., southpaw with an "educated" jab that has put him in line for a lightweight title bout with NBA champion Ike Williams, is a tough hurdle for the Beau after his long layoff.

SECTION 168—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 169—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 170—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 171—MASTERS PLUMBERS AND JOURNEMEN PLUMBERS HOLDING VALID LICENSE UNDER FORMER ORDINANCE. (a) All persons holding a valid Master Plumbers License issued by the City of Pampa, Texas, under the former Plumbing Ordinance shall be entitled to receive a Master Plumbers License without taking the examination prescribed herein, but shall make application and pay the renewal fee as herein prescribed.

SECTION 172—UNLAWFUL APPOINTMENT. The issuance or granting of a permit, or the approval of plans and/or specifications shall not be deemed or construed to be a permit for, or approval of, any violation of the provisions of this Ordinance. No permit purporting to give authority to violate, or cancel the provisions of this Ordinance, shall be valid.

SECTION 173—LIABILITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 174—REPEAL OF CONFLICTING ORDINANCES. All Ordinances and parts of Ordinances of the City of Pampa, Texas, in conflict herewith, are hereby repealed.

SECTION 175—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 176—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

Barry Sparks Late Rally To Pull Score Up

Coming from behind in the last half, the Pampa-Harvesters staved off a desperate Childress Bobcat rally last night to win a 29-26 cake victory at Canyon's basketball clinic.

Childress took an 8-5 lead in the first period but the Harvesters came back to tie it up at the half-time whistle 13-13. Pampa held a 21-19 lead at the end of the third period.

Bill Speer, eloquent center, showed up well on the defense last night and took most of the rebounds that Pampa got, in addition to making six points.

SECTION 176—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 177—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 178—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 179—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 180—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 181—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 182—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 183—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 184—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

Leaves From a Correspondent's War Notebook

By HAL BOYLE ABOARD U. S. NAVAL VESSEL OFF NORTH CHINA.—There are hundreds of sailors on this ship, but only a few are sick. The rest are the full sweetness of life. He knows because only a few hours ago he tried to kill himself.

He is a moody man of about 30 whose job was to help handle ship stores. Only a few days ago he was given a summary courtmartial after an inventory showed him short a few cases of beer. He received a small fine and was restricted to the ship for 30 days.

The penalty was light, but he brooded about it constantly. He felt himself disgraced in the eyes of other men, and the situation became intolerable to his overwrought mind. He decided suicide was his only way out.

SECTION 185—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 186—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 187—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 188—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 189—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 190—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 191—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 192—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

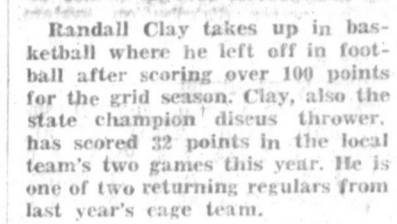

SECTION 193—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

Negro Teams Battle For State Football Title Tonight

AUSTIN, Dec. 14.—Predicted intermittent rains may inject an unpredictable factor into the state Negro high school football championship game here tonight between the Austin Anderson high school Yellowjackets and the Wichita Falls Leopards.

Anderson Yellowjackets have played in the state finals three times in the past six years, capturing one state championship. This season they have won eight games and lost one.

Wichita Falls has successfully matched dangerous passing with a powerful and speedy backfield capable of wide running plays.

Six thousand are expected to see the game.

SECTION 205—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 206—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 207—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 208—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 209—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 210—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 211—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 212—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 213—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

Everybody Is Happy Again at Waco Plant

WACO, Dec. 14.—A contract including wage increases was signed last night by the management of the General Tire and Rubber company's Waco plant and representatives of the United Rubber Workers Union (U. R. W.).

Plant Manager Joseph F. Slone said: "We have worked out a happy relationship. Everybody is happy."

When Chopin died in 1849, his coffin was sprinkled with Polish earth in recognition of his great love for his country.

SECTION 214—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 215—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 216—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 217—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 218—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 219—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 220—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 221—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 222—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 223—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

Howie Odell Signs 5-Year Contract As Yale's Head Coach

NEW HAVEN, Conn., Dec. 14.—Yale, shattering 73 years of football history, today announced the appointment of Howie Odell as head coach for five years, a long distance record here.

For the 25-year-old Odell, one of the youngest major college head coaches in the nation, the appointment came as a reward for a brilliant series of successes at Yale, successes that brought tempting offers from several colleges and professional teams.

Our national income may not be at the peak that it reached earlier in the year, but it still is running 50 per cent above the prewar year 1941.

SECTION 224—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 225—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 226—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 227—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 228—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 229—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

SECTION 230—VALIDITY OF CITY OFFICIAL OR EMPLOYEE. This Ordinance shall not be construed as imposing upon the City of Pampa, Texas, any liability or responsibility for damage resulting from defective plumbing or drainage systems, or the installation thereof, nor shall the City of Pampa, Texas, or any official or employee thereof be held as assuming any such liability or responsibility by reason of the inspection authorized hereunder.

SECTION 231—MAYORANCE. All plumbing or drainage systems, found defective or in an unsanitary condition, shall be repaired, renovated, replaced or removed, upon written notice from the proper administrative authorities.

SECTION 232—GENERAL PENALTY. Any person violating any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, and each such person shall be liable.

SECTION 233—EMERGENCY. The fact that there is no proper and sufficient Plumbing Ordinance in effect in the City of Pampa, Texas, to properly protect the health, sanitation and the welfare of its inhabitants creates an emergency and the rule requiring this Ordinance to be read on three separate days, is hereby suspended and this Ordinance shall take effect upon the expiration of ten (10) days after its last publication.

Legal Notice, (Continued)

SECTION 69 - FLOOR CONNECTIONS.

Water closet, Pedestal Urinal, and Trap Standard Slop Sink floor connections. A brass floor flange shall be welded or soldered to lead pipe, a brass floor flange shall be caulked to brass pipe, and the connection made, by bolting the fixture to the flange with brass bolts.

SECTION 70 - INCREASERS AND REDUCERS AND PROHIBITED JOINTS AND CONNECTIONS.

(a) Where different sizes of pipes, or pipes and fittings are to be connected, proper size increasers or reducers, pitched at an angle of forty-five (45) degrees, shall be used. (b) Any fitting or connection, which has an enlargement, or reduction of the pipe area in the direction of the flow on the outlet or drain side of any trap, is prohibited. No putty, or similar material, shall be used between a trap and a fixture, or in slip jointing connections.

SECTION 71 - EXPANSION BOLTS.

Connections of wall hangers, pipe supports, or fixture supports, with any masonry, stone, or concrete backing, shall be made with expansion or through bolts, without the use of wood plugs.

SECTION 72 - TUBING AND SOLDER BUSHINGS.

Connections between brass tubing traps shall be wiped joints. SECTION 73 - USE OF COUPLINGS.

Full size brass or cast iron drainage coupling, shall be used as an increaser, when one and one-half (1 1/2) inch diameter pipe is to be caulked into a two (2) inch hub, except that a plain coupling may be used when a vent pipe is to be so connected.

ARTICLE VI TRAPS

SECTION 74 - WHERE REQUIRED.

(a) Each plumbing fixture, except as provided for in this section, shall be separately trapped by a water seal trap, placed as close to the fixture outlet as possible. All traps shall have drum traps.

Combination plumbing fixtures such as a sink and laundry tray, bath tub and lavatory, or any similar two-piece fixture may be installed, provided that each fixture in such combination is separately trapped and vented; provided, however, that two (2) sinks set together, where the waste outlets are not more than twenty-four (24) inches apart, or where one sink is not more than four (4) inches deeper than the other, may be classed as one fixture and installed on one trap.

(c) Sand-traps, sumps, water leaders, outlets to Special Waste Pipes, and other waste discharging receptacles or devices, shall be trapped as otherwise provided for in this Ordinance.

SECTION 75 - TRAPS PROHIBITED.

No form of trap which depends for its seal upon the action of movable parts, or concealed interior partitions, shall be used. No fixture shall be double trapped. No crown vented trap shall be installed.

SECTION 76 - TRAP SEALS.

Every trap, except sand-traps and similar intercepting traps, shall have a water seal of not less than one and one-half (1 1/2) inches, and not more than four (4) inches. All traps shall be set true with respect to their water seals.

SECTION 77 - SAND TRAPS.

Sand-traps, and similar intercepting traps, shall be so designed and located, as to be readily accessible for cleaning, and shall have a trap seal of not less than six (6) inches.

SECTION 78 - GREASE TRAPS.

When a grease trap is installed, it shall be located as near as possible to the fixture from which it receives the discharge.

SECTION 79 - FLOOR DRAIN TRAPS.

Floor drains, shall connect into a trap so constructed, that it can be readily cleaned, and of a size to serve efficiently the purpose for which it is intended. The drain inlet shall be so located, that it is at all times in full view. When subject to back flow, or back pressure, such drains shall be equipped with an approved back water valve.

SECTION 80 - TRAP SUPPLIES.

Every trap, which is directly connected to the Drainage System, shall be provided with a permanent water seal, fed from an approved plumbing fixture, or by means of an approved automatic priming device, designed and installed for that purpose.

SECTION 81 - KIND AND MINIMUM SIZE.

Every trap, except sand traps and similar intercepting traps shall be self-cleaning. Traps for sinks, showers, wash basins, sinks, urinals, laundry tubs, hoppers, floor drains, drinking fountains, dental units and other similar fixtures shall be of lead, brass or cast iron.

The minimum size (nominal inside diameter) of the trap for a single green fixture, shall be not less than that shown in Table No. 1.

Any fixture not shown in Table No. 1, shall be provided with a trap not less in size than the fixture outlet. Any appliance, or device, not shown in Table No. 1, shall be provided with a trap not less in size, than that required for fixtures of similar size, as shown in Table No. 2, based on the known or estimated rate of discharge, in gallons per minute.

Each two (2) shower heads shall be the equal of one fixture unit, and the total number of shower heads shall determine the size of trap required for gang showers.

ARTICLE VII WATER SUPPLY AND DISTRIBUTION

SECTION 82 - QUALITY OF WATER.

The quality of the water supply

shall conform to the standards of purity, as established by the Boards of Health of the State of Texas and the City of Pampa.

TABLE NO. 1

Table with 2 columns: Kind of Fixture, Trap Size. Includes Drinking Fountains (1 1/4"), Dental Units (1 1/4"), Bar Sinks (1 1/4"), Wash Basins (1 1/2"), Kitchen Sinks (1 1/2"), Bath Tubs (4"x8"), Laundry Tubs (1 1/2"), Bidets (1 1/4"), Lip Urinals (1 1/4"), Cuspidors (1 1/2"), Sump Gutter Drains (1 1/2"), Combination Fixtures (1 1/2"), Small Floor Sinks (1 1/2"), Small Floor Hoppers (1 1/2"), Shower Stalls (2"), Small Floor & Area Drains (2"), Trough Urinals (2"), Stall Urinals (2"), Pedestal Urinals (3"), Slop Sinks (3"), Water Closets (3"), Sand Traps (3").

SECTION 83 - DISTRIBUTION.

The water supply, shall be distributed through a system of piping entirely independent of any piping system conveying either water supply, or any piping or device conveying any other thing whatsoever. No connection shall be made, or conditions maintained that would permit the entrance of any unapproved foreign matter into the water distribution system, either by gravity, syphonage or back pressure.

SECTION 84 - SIZE.

The water service, and all water distribution piping of any building and premises, shall be of sufficient size to permit a continuous ample flow at all outlets at a given time.

SECTION 85 - SUPPLY TO FIXTURES AND DEVICES.

All plumbing fixtures shall be provided with a sufficient supply of water for flushing to keep them in a clean and sanitary condition. Every water closet and urinal shall be flushed by means of an approved tank or flush valve, of at least four (4) gallons flushing capacity for water closets, and at least two (2) gallons for urinals, and shall be adjusted to prevent the waste of water. The flush pipe for water closet flush tanks shall be not less than one and one-quarter (1 1/4) inches in diameter, and the water from flush tanks shall be used for no other purpose.

No water closet, urinal, or any other fixture, appliance, appurtenance, or device, shall be directly supplied from water distribution system through a flushometer, or other valve, bibb, or device, unless such valve, faucet, bibb, or device, and outlet therefrom, is set above the extreme overflow rim of the water closet, urinal, fixture, appliance, appurtenance or device, in such a manner, as to prevent any possibility of polluting or contaminating the water supply, either by gravity flow, syphonage, back pressure, or by any means whatsoever.

No plumbing fixture, device or construction, or pipe discharging therefrom, or connected therewith, which will provide a cross-connection between a water distribution system for drinking and domestic purposes, and a drainage system.

SECTION 86 - WATER SERVICE PIPE DISTANCE FROM SEWER PIPE.

All water service and distribution pipes shall be laid in a separate ditch, and at least four (4) feet from any sewer pipe or drain.

SECTION 87 - PUMPS, TANKS, WELLS, ETC.

All water pumps, tanks, wells, hydrants, filters, softeners, appliances and devices, shall be protected from surface water and outside contamination, by approved covers, walls, or copings, and where subject to freezing temperatures, shall be efficiently protected from freezing.

SECTION 88 - SHUT-OFF VALVES.

A shut-off valve, shall be installed on the main supply line near the curb. Supply lines taken from pressure or gravity tanks shall be valved at or near their source. All supply tanks, shall be provided with valved drain lines located at their lowest point. An accessible shut-off valve, shall be provided on the main supply line, at or near the foundation wall, and if there be a basement, such valve shall be accessible in the basement.

SECTION 89 - PRESSURE RELIEF VALVES.

Whenever a check valve, water meter, or any device functioning as a check valve, is installed on the cold water supply line between a street main, or other source of supply, and a hot water tank, there shall be installed on the hot water distribution system, an approved pressure relief valve.

SECTION 90 - MATERIALS OF WATER PIPE AND FITTINGS.

All water service and distribution pipes, shall be of lead, galvanized wrought iron, galvanized steel, brass, copper, or cast iron, with brass, copper, galvanized cast iron, or galvanized malleable iron fittings.

No pipe or fittings, shall be used for the distribution of water which has been used for purposes other than water distribution.

ARTICLE VIII PLUMBING FIXTURES

SECTION 91 - MATERIALS.

No water closet, or urinal, shall be installed, or maintained, unless constructed of verified earthenware. All other plumbing fixtures, shall be constructed of glazed porcelain, stoneware, china, porcelain, enameled

cast iron, or other materials of equal quality, provided, however, that the Plumbing Inspector may approve of, and permit the installation of fixtures that are constructed of materials other than as above, when it is known, that the herein required would not be practical, due to use out of the ordinary.

SECTION 92 - INSTALLATION.

All plumbing fixtures, shall be installed free and open in a manner to afford access for repairs and cleaning. When practical, all pipes from fixtures shall be run to the wall at right angles thereto. All wall hung fixtures, shall be rigidly supported by approved metal hangers, or bolts, and all floor outlet fixtures, shall be rigidly secured to the floor, by approved screws or bolts. Water tight joints shall be made, where fixtures come in contact with walls and floors.

SECTION 93 - ACCESS TO SUPPLY AND WASTE CONNECTIONS.

Built in bath tubs, or other fixtures having concealed slip-joint connections, shall be provided with suitable access panels or utility chambers, so placed as to make such connections easily accessible for inspection and repairs.

SECTION 94 - WATER CLOSET BOWLS.

Water closet bowls and traps, shall be made in one piece, and be provided with integral flushing rims, constructed so as to flush the entire interior surface of the bowl. The form of the bowl shall be such, that when filled to the trap overflow, the quantity of water retained will be sufficient to prevent fouling of surfaces.

SECTION 95 - PROHIBITED FIXTURES.

Fixed wooden wash trays or sinks for domestic use, shall not be installed or maintained, in any building designed or used for human habitation. No sheet metal lined wooden bath tub shall be installed or re-connected.

Water and valve plunger, offset washout, long hopper, or other type of water closet having invisible trap seals or unventilated spaces, or surfaces not thoroughly washed at each flush, shall be installed in any building used for human habitation.

SECTION 96 - DRINKING FOUNTAINS.

Every drinking fountain shall be a separate fixture, of such form as to be easily cleaned. The drinking fountain head shall be of the Shielded Angle Stream type, constructed of non-corrosive material. The water orifice shall be above the extreme overflow level of the fountain bowl, and provisions for regulating the flow of water shall be provided.

SECTION 97 - FLOOR DRAINS.

A floor drain or shower, shall be considered a fixture, and must be provided with a strainer.

SECTION 98 - SPRINGERS.

All fixtures, other than water closets and urinal washdown urinals, shall be provided with fixed malleable strainers.

SECTION 99 - OVERFLOWS.

The overflow pipe from a fixture, shall be connected in the inlet side of the trap, and be so arranged that it may be readily and effectively cleaned.

ARTICLE IX VENTILATION OF ROOMS AND FIXTURES

SECTION 100 - LOCATION OF FIXTURES.

No plumbing fixture shall be installed in any room or compartment, which does not contain a window, or vent, or which is not otherwise provided with proper ventilation by means of a Local Vent Pipe.

SECTION 101 - LOCAL VENT PIPES.

Local Vent pipes from fixtures, or from rooms or compartments in which plumbing fixtures are located, shall be separate and distinct, and have no connection whatever with other ventilating ducts or pipes in the building.

SECTION 102 - TOILET ROOM VENTILATION.

(a) Toilet, and/or Urinal Rooms or compartments, in Apartment Houses, Hotels and Dwellings, shall be provided with ventilation, in accordance with the requirements of the State Housing Act.

(b) Toilet, and/or Urinal Rooms or compartments, in buildings other than Apartment Houses, Hotels or Dwellings, shall be ventilated by means of a window opening on a street, yard, court, or vent shaft, a fan exhaust system of ventilation, or a Local Vent Pipe.

(c) Fan exhaust systems of ventilation, serving toilet, and/or urinal rooms, shall be so designed and operated, as to provide a complete change of air in not to exceed five (5) minutes.

SECTION 103 - PROTECTION FROM FREEZING.

No soil or waste pipe, shall be installed, or permitted, outside of a building, unless adequate protection is made to protect it from freezing. If such pipe is subject to freezing temperature.

SECTION 104 - ROOF EXTENSIONS.

All vent pipes, shall be run separately or combined of the full required size, not less than one (1) foot above the roof. Flagging of vents is prohibited, except when the roof is used for purposes other than weather protection. In such cases, the vent shall extend not less than seven (7) feet above the roof and be securely stayed.

SECTION 105 - VENT TERMINALS.

The roof terminal of any vent pipe, if within ten (10) feet in any direction, including any angles and any other openings, window, air shaft, or any other source of ventilation or air supply of any building, shall extend at least three (3) feet above the same. No vent pipe shall terminate on a wall, or under an overhang of any building, or overhang of any overhang, cornice, or similar structure, which is structural to extend through the roof without such offset.

SECTION 106 - VENT TERMINALS ADJOINING BUILDINGS.

In the event, that a new building is built higher than an existing building, the owner of the new building shall not locate windows

AND EQUIVALENTS.

The unit equivalent of Plumbing fixtures shown in Table No. 1, shall be based on the size of the trap required, and the unit equivalent of fixtures and devices not shown in Table No. 1, shall be based on the rated discharge capacity in gallons per minute in accordance with the following table:

TABLE NO. 2

Table with 2 columns: SIZE OF TRAP (In Table No. 1), Unit. 1 1/4" Traps Equal 1 Unit, 1 1/2" Traps Equal 1 Unit, 2" Traps Equal 2 Units, Over 2" Traps Equal 6 Units.

DISCHARGE CAPACITY (In Gals. per Min.)

Table with 2 columns: 1 to 7 1/2 Equals 1 Unit, 8 to 15 Equals 2 Units, Over 15 Equals 6 Units.

SECTION 105 - SIZE OF DRAINAGES AND VENT PIPING.

The minimum sizes of vertical and/or horizontal drainage and/or vent piping, shall be determined from the distribution and total of all fixture units connected thereto, and additional, in the case of vertical soil, waste, and/or vent pipes in accordance with their length.

The following table shows the minimum sizes of vertical and/or horizontal soil or waste pipe, House Drain, and/or House Sewer of a given size; the maximum number of fixture units allowed on any branch interval of a given size; the maximum length (in feet) of a branch interval, waste and/or vent pipe of a given size; the maximum number of fixture units allowed on any one vent or vent stack of a given size; and the maximum number of square feet of roof, or other rain water drained area, allowed on any pipe of a given size:

No water closet shall discharge into a pipe less than four (4) inches in diameter.

The term "branch interval" shall mean a vertical length of stack not less than eight (8) feet in length, within which a branch or branches are connected, and the total fixture units on all branches connected to a stack within any eight (8) foot length, shall not exceed the maximum permitted by the table in one branch interval.

Every building in which plumbing fixtures are installed shall have a soil or waste stack or stacks, extending full size through the roof.

SECTION 106 - SOIL AND WASTE AND STACK FIXTURE CONNECTIONS.

All soil and waste stacks, and branches, shall be provided with approved inlet fittings for fixture connections, correctly located according to the size and type of fixture proposed to be connected.

SECTION 107 - CHANGING SOIL, WASTE AND VENT PIPES.

In existing buildings where the soil or waste vent pipe is not extended through or above the roof, or where there is a sheet metal soil or waste vent pipe, and the fixture to be changed is of a different size, or is to be replaced, a soil or waste vent pipe of the size and material prescribed for new work, shall be provided.

SECTION 108 - PROHIBITED CONNECTIONS.

No water connection shall be made to a lead bend or branch of a water closet of similar fixture. No soil or waste pipe, shall be connected to a branch or main, shall there after be used as a soil or waste pipe.

SECTION 109 - PROTECTION FROM FREEZING.

No soil or waste pipe, shall be installed, or permitted, outside of a building, unless adequate protection is made to protect it from freezing. If such pipe is subject to freezing temperature.

SECTION 110 - ROOF EXTENSIONS.

All vent pipes, shall be run separately or combined of the full required size, not less than one (1) foot above the roof. Flagging of vents is prohibited, except when the roof is used for purposes other than weather protection. In such cases, the vent shall extend not less than seven (7) feet above the roof and be securely stayed.

SECTION 111 - VENT TERMINALS.

The roof terminal of any vent pipe, if within ten (10) feet in any direction, including any angles and any other openings, window, air shaft, or any other source of ventilation or air supply of any building, shall extend at least three (3) feet above the same. No vent pipe shall terminate on a wall, or under an overhang of any building, or overhang of any overhang, cornice, or similar structure, which is structural to extend through the roof without such offset.

SECTION 112 - VENT TERMINALS ADJOINING BUILDINGS.

In the event, that a new building is built higher than an existing building, the owner of the new building shall not locate windows

within ten (10) feet of any existing vent pipe on the lower building, unless the owner of such new building, shall defray the expenses, or shall himself make such alterations as may be necessary to conform with Section 105 of this Ordinance.

It shall be the duty of the owner of the lower or existing building, to make such alterations therein, upon the receipt in advance of money or security therefor sufficient for the purpose, from the owner of the new, or higher building, or to permit, at the election of the owner of the new or higher building, the making of such alteration by the owner of said new or higher building.

SECTION 113 - TRAPS PROTECTED BY VENT PIPES.

Every plumbing fixture trap, except as provided for in Sections 118, 120, 121, 122 and 144 of this Ordinance, shall be protected against syphonage and back pressure, and air circulation assured throughout all parts of the drainage system, by means of a vent pipe, installed in accordance with the requirements of this Ordinance.

Every plumbing fixture trap, shall be protected against syphonage and back pressure, and air circulation assured throughout all parts of the drainage system, by means of a vent pipe, installed in accordance with the requirements of this Ordinance.

SECTION 114 - DISTANCE OF VENT PIPE FROM TRAP SEAL.

No trap shall be placed more than three (3) feet horizontal distance from the trap seal. The distance shall be measured along the central line of the soil or waste pipe, from the center of the vent pipe.

The vent pipe opening from a soil or waste pipe, except for Water Closets and similar fixtures, shall not be below the drip of the trap. It is provided, however, that in all cases, the vent pipe shall be as close to the trap it serves, as structural conditions will permit.

ARTICLE XI HOUSE DRAINS AND HOUSE SEWERS.

SECTION 123 - INDEPENDENT SYSTEMS.

The Plumbing and Drainage System of each new building, and of new work installed in an existing building or premises, shall have an independent connection with a public sewer if such public sewer exists in the tract or alley, upon which the property abuts, except that one or more buildings located on an interior lot under the same ownership, may be connected to the same House Drain or House Sewer, should any building or premises so connected change ownership, an independent public sewer connection shall be provided for each premises.

SECTION 124 - OLD HOUSE SEWERS AND DRAINS.

Old house sewers and house drains, may be used in connection with new buildings or new plumbing and drainage work only when they are found on examination and test to conform in all respects to the requirements governing new house sewers and house drains. The old work is found defective, the proper administrative authority shall notify the owner to make the changes necessary to conform to this Ordinance. No building or part thereof, shall be erected, or placed over, any part of a Drainage System, which is connected to a public sewer only.

SECTION 125 - CESSPOOLS AND SEPTIC TANKS.

When a public sewer is not available for use, drainage piping from buildings and premises shall be connected to an approved private sewage disposal works, a septic tank or cesspool.

SECTION 126 - EXCAVATIONS.

All excavations required to be made for the installation of a plumbing and drainage system, or part thereof, shall be open trench work. All trench work, within or without a building shall be kept open, until the piping has been tested, inspected and approved.

SECTION 127 - HOUSE SEWERS IN MADE GROUND.

The house sewer, or any other drainage piping serving in the capacity of a house sewer, when laid in made or filled ground, if connected to a verified clay pipe, shall be laid on a bed of approved graded fill above the water table of such pipe, ahead of the trap being served, and unless prohibited by structural conditions, shall rise vertically to a point not less than six (6) inches above the extreme overflow level of the fixture to be served, before offsetting horizontally.

SECTION 128 - DEFECTIVE DRAINAGE.

No house sewer, or other; drainage piping constructed of vitrified clay pipe, shall be installed within three (3) feet of any bearing wall, or less than twelve (12) inches from the surface of the ground. All underground drainage piping shall be laid at sufficient depth to provide wide protection from frost and vehicle traffic.

SECTION 129 - DRAINAGE BELOW MAIN SEWER LEVEL.

Drainage piping serving fixtures located below the crown level of the main sewer, shall discharge into an approved water tight sump or receiving tank, so located as to receive the sewage or; other wastes by gravity. From such sump or receiving tank, the sewage or other liquid wastes shall be lifted, and discharged into the House Drain or House Sewer, by ejectors, pumps or other equally efficient approved mechanical device.

The discharge line from such ejector, pump, or other; mechanical device, shall be provided with an accessible back water valve, and if the gravity drainage line in which such discharge line connects is horizontal, the method of connection shall be from the top through a Wye branch fitting.

SECTION 130 - SUMPS AND RECEIVING TANKS.

All sumps and receiving tanks, shall be constructed of concrete or metal. If constructed of concrete, the walls and bottom shall be not less than six (6) inch thick, plastered on the inside with cement plaster, not less than one-half (1/2) inch thick. Metal sumps and receiving tanks, shall be of such thickness as to serve the purpose for which they are intended, and shall be painted inside and

served by a loop or circuit vent, shall be full size throughout its entire length.

SECTION 121 - WHEN VENTS ARE NOT REQUIRED.

(a) No vent pipe will be required on a rain water leader trap, backwater trap, sub-soil catch basin trap, or sump trap, when such trap acts as a primary setting tank and discharges into a secondary sand trap which is properly trapped and vented.

(b) Traps serving outside areas drains need not be vented, if such traps discharge indirectly into the drainage system, in the manner provided for Special Waste Pipes.

(c) Traps serving sinks, which are part of the equipment of bars, soda fountains and counters, need not be vented in the manner specified in Section 110 of this Ordinance, when the location and/or construction of such bars, soda fountains and counters is such as to make it impossible so to do. When such conditions exist, said sinks shall discharge into a floor sink or hopper which is properly trapped and vented.

(d) No vent pipe will be required on a trap which connects to a Special Waste Pipe.

SECTION 122 - FIXTURES BACK TO BACK.

Two fixtures of the same kind, set back to back, or side by side within the distance allowed by this Ordinance, shall be vented, independent of any other drainage piping. Automatic mechanical ejectors or pumps, shall be used to lift the drainage from such sump or receiving tank, and the discharge therefrom shall terminate over a properly trapped and vented fixture of such capacity as to prevent flooding.

SECTION 132 - HOUSE DRAIN AND HOUSE SEWER MATERIALS.

(a) The House Sewer, beginning three (3) feet outside the building line, shall be of cast iron pipe, or vitrified clay pipe of approved standards.

(b) The House Drain, shall be of cast iron pipe of approved standards and there shall be no joint under or in a foundation wall.

SECTION 133 - SIZES OF HOUSE DRAINS, HOUSE SEWERS AND HORIZONTAL BRANCHES.

The minimum size of any House Sewer, House Drain, Soil Pipe or other Drainage Pipe, shall be determined on the basis of the total number of fixture units drained by them, in accordance with Table No. 3 of this Ordinance.

SECTION 134 - DISPOSAL OF RAIN WATER DRAINAGE.

Rain water from roofs, or other approved areas exposed to rain water, may be drained into the storm water Drainage System, or the combined Sanitary and Storm Water Drainage System, but shall not drain into any sewer intended for Sanitary Sewage only.

A Special Permit shall be procured in all cases, to connect rain water or drainage to the Storm Water Drainage System or the combined Sanitary and Storm Water Drainage System, which Special Permit shall bear the written approval of the City Engineer, or other proper authority of the City of Pampa, Texas, having jurisdiction over Public Sewers.

Rain water from roofs, or other approved areas, may drain into a Public Street Gutter, provided that such gutter is paved and runs to a catch basin connected to a Public Sewer System, and provided further, that such drainage has the approval of the City Engineer or other proper authority of the City of Pampa, Texas, having jurisdiction over Public Streets and/or Public Sewers.

SECTION 135 - RAIN WATER TO PUBLIC GUTTERS.

No rain water from roofs, or other rain water drainage of premises, shall discharge upon a public sidewalk. When it is desired to conduct rain water from a building or premises to a public street gutter, the outside underground drainage piping, shall be vitrified clay pipe, galvanized wrought iron or steel pipe, or cast iron pipe. Water leaders connecting to such underground drainage piping, which are on the outside of a building wall that abuts on a Public thoroughfare, shall be constructed of galvanized wrought iron or steel pipe, or cast iron pipe, for a distance not less than five (5) feet vertically above official grade.

SECTION 136 - SHEET METAL LEADERS AND DOWN SPOUTS.

No sheet metal water leader, shall be installed on the inside of a building, inner court or vent shaft.

No sheet metal water leader, shall be directly connected to any drainage system, which connects with a Public Sewer, Septic Tank or Cesspool.

SECTION 137 - DEFECTIVE SHEET METAL WATER LEADERS.

When an existing sheet metal water leader pipe within

HOLE AND ALL
PHOENIX, Ariz., Dec. 14.—(AP)—The Phoenix Little Theatre group has for many years given away a cup of coffee with each purchase of a five-cent doughnut. Recently the group asked the OPA for sugar for the coffee and the request was denied on the grounds that the coffee was not sold.

So now its coffee (with sugar)

that costs five cents. The doughnut is free.

We've got to have the full support of our industry, our government and our people—that is the

only way to insure a real peacetime American merchant marine.—Arthur M. Tode, honorary president, Peeper Club of the United States.

Business Offers Sales Services

This marks the beginning of another business and industrial page in the Pampa Daily News. Each week the wares and services of some of the progressive concerns of the city will be paraded here.

Business outlook in the latest edition of "Business Week" says:

"Retail trade is booming despite the dearth of goods... Cash, U. S. bonds, and deposits held by the people will have risen from an estimated \$50 billion at the end of 1939 to \$170 billions by Jan. 1."

And so, with the prospects for a high buying ability, the concerns subscribing to this page are looking forward to putting before the people what they have to sell, both in merchandise and in services.

Their stories will be told in advertisement, picture and narrative on this page.

Announcement Made Of Change in Beauty Salon Management

A change in the management of the Parisian Beauty Salon, 114 W. Kingsmill, has been announced.

Mrs. Alleen Boehm is the new owner of the establishment, and Mrs. Ruby McMahan, former saleswoman in a local concern, has been made operator. The changes were made last Monday, it was announced.

The management yesterday said all kinds of permanents, manicures and hair styles are offered to the women of this community. A sufficient staff is on hand to take care of the Christmas rush days.

Products sold are Merle Norman cosmetics of all kinds, Revlon lipsticks and polishes, and Suave hairdressing. Other brands are offered.

The phone number at the Parisian is 720.

We're Going To Eat Late in 1946-'47

NEW YORK—The largest and most rounded diet in this country's history is in prospect for late 1946 and through 1947, according to Business Week.

"That's the real significance of the department of agriculture's crop and livestock goals for 1946," an article in the current issue states. "These call for farm output somewhat below the 1944 peak, but about 25 percent ahead of the 1935-39 average. The needs of our armed services will be relatively small. And by the time of our 1946 harvest, liberated countries will have taken their first real postwar crop so relief needs will be light."

There are about 272,000 seeds in pound of clover seed.
