83 Dead, 100 Missing, 250 Homes Ruined

CLEVELAND, Oct. 21.—(AP)—As the death toll in Cleveland's greatest fire soared to at least 83 tonight, the cause of mysterious blast which converted the East Ohio Gas company's liquid gas tanks into giant lethal throwers apparently was locked in smoldering ruins.

FIRE TOLL, DAMAGE
Following are the latest available official statistics on the fire:
Known dead: 83.
Missing: 100.
Injured in hospital: 165.
Homes destroyed: 250.
Homeless: 3,800.
Devastated area: One-half square mile.

Hospital records indicated 165 persons still were under treatment for injuries, at least seven of them in critical condition. More than 250 had received emergency hospital care.

Essence of Free Speech Is Cited
CHICAGO, Oct. 21.—(AP)—Kent Cooper, executive director of the Associated Press, asserted today that an "unhindered flow of information" was necessary to preserve the postwar peace.

Invaders Move In On 18-Mile Front

By MURLIN SPENCER
Associated Press War Correspondent
GENERAL MACARTHUR'S HEADQUARTERS, Philippines, Sunday, Oct. 22.—(AP)—The capital city of Tacloban, its airfield and the town of Dulag have been captured by American invasion forces driving inland on Leyte in the Central Philippines all along an 18-mile front to a depth of four miles, headquarters reported today.

By RAY CRONIN
Associated Press War Editor
Thrusting speedily from their invasion beaches, American liberation forces in the Philippines were reported late Saturday racing into Leyte island.

Only light opposition was encountered as the Americans overran the airfield within 24 hours after they hit the beaches. One officer said only half a dozen men were lost in the conquest of the airfield.

Gen. Douglas MacArthur, in personal command of the invasion forces, said he was well satisfied with the progress being made by his army. American fliers continued to support the land forces, blasting gun positions behind the beachheads.

Meanwhile, Adm. Chester W. Nimitz reported carrier-plane strikes in support of the invasion. He said naval airmen in widespread raids through the Central Philippines, shot down 13 Japanese planes, destroyed 37 on the ground and sank or damaged many ships.

Tanks spearheaded the army columns that took the Tacloban airfield and pressed on to the provincial capital. Other Yank forces were consolidating their positions on two beach fronts through which supplies were pouring ashore from the great armada of ships in Leyte gulf.

Reports from the fronts indicated the Japanese had not yet offered serious opposition such as the fight they put up on D-day when they hammered the invasion forces with artillery and mortar fire at some points.

Gen. MacArthur, in personal charge of the liberation forces, said the invasion was on schedule; that the Japanese have made only two weak air raids so far, and that but one of the 600 ships in the American convoy was damaged when hit by a torpedo.

Radio Tokyo claimed the sinking of a transport and the damaging of two aircraft carriers, two battleships and another transport.

Tokyo propaganda broadcasts, picked up by the federal communications commission, said that the Japanese were preparing to launch a new offensive against the American forces.

Starting PARTY LINES
A series of ten articles, in which the two major political parties debate the issue, will be published in The Pampa News. The first issue will begin tomorrow. Be well informed. Read Party Lines.

T.C.U. CLOUDS CONFERENCE HOPES OF TEXAS AGS

Kucera Bids Frogs Farewell With Passes

By HAROLD V. RATLIFF
COLLEGE STATION, Tex., Oct. 21-(AP)—Joe Kucera said farewell to football at Texas Christian University today with a flurry of passes that clouded Texas A. and M.'s Southwest Conference hopes under a 13-7 defeat.

Joe Kucera T.C.U.

The first period was scoreless but midway through the second the Frogs put over their initial touchdown on a 30-yard march. First Kucera passed to Harry Mullins for five, then to Zeke Chronister for a first down on the Aggie 14. Kucera ripped into left tackle but could gain only two.

Two yards and Jim Cashion passed to Cotton Howell on the Christian 16. Bob Butchofsky hit tackle for four. Yates the other tackle for three, then after losing one on third down, Yates whipped over left tackle for the score.

Department of agriculture scientists have been working on varieties of dates that ripen earlier and are more rain-tolerant.

A good Life Policy will run any old mortgage on Home or Farm, leave them clear. Mamma will appreciate it.

Advertisement for John H. Plantt, Insurance Agent, with contact information for 2261 W. Foster St.

The fighting mad Aggies came back quickly to stage their touchdown drive, a 65-yard march in which Paul Yates did most of the work. From the Aggie 35, Yates rumbled the line for five, Goff made it first down with seven more, then Yates, Scott and Goff combined for another first on the Frog 41. Line tries netted

WAR CHEST

(Continued from page one)

in Texas to refuse its war fund quota.

"I regret exceedingly that the executive committee has declined to accept the Gray county war fund quota," the war chest leader declared. "I hoped that we would be able to report that every Texas county had accepted its share of the war-related program.

"The executive committee, however, is entirely within its rights in declining to conduct the war fund drive along with the community chest campaign. We have no desire to urge any group to represent the National War Fund if they do not wish to do so.

"I do not believe, however, that the people of Gray county, who have sons and husbands fighting abroad, wish to be deprived of the right and privilege of taking part in the National War Fund program, which serves our fighting men, our allies, and suffering war victims throughout the world. We will therefore plan a campaign at the conclusion of the local community chest campaign, during which the people of

Gray county will be given the opportunity of contributing to the war fund.

"This separate campaign, carried on at a time when it will not conflict with the Community Chest effort, will be conducted by Gray county leaders and will represent Gray county's participation in the National War Fund drive now being carried on in every other county in the nation.

"No other Texas county, and no other county in the nation that I know of, has declined its part in this nation-wide effort, and I do not believe that the people of Gray county wish to be the only citizenship group not participating.

Judge Powell explained that the quota assigned Gray county was set by the same formula used in assigning quotas to all other Texas counties and communities. He denied emphatically that large community chests or other campaign units have been given preferential treatment in the setting of quotas.

"The Texas quota of almost \$5,000,000 was assigned by the National War Fund, and we cheerfully accepted it as our rightful share in the nation-wide effort," Judge Powell explained. "In setting quotas for the various counties, we followed

a procedure suggested by the National War Fund.

"Our first decision, made in the interest of fairness, was that all quotas should be set on the same basis, and that the same formula should be applied to every county of the state. The formula was based upon the population, various indices having to do with business conditions, and other factors. It was applied to all counties alike.

"Naturally, it would have been unfair to reduce the quota for Gray county or to use a different formula in setting the Gray county quota, when the 253 other counties had cheerfully accepted their quotas as assigned by the state quota committee.

"The best proof of the fact that the quotas are fair and equitable is the success being met in all counties now campaigning for the war fund. Sixteen counties surpassed their goals on the first day and eleven more during the first week of their drives. I am sure that we could have done the same, had the executive committee seen fit to accept the quota and carry on the joint campaign."

Judge Powell declared that persons who charged that community chests were given preferential treatment in the setting of quotas were "woefully misinformed."

"The quotas of the community chests were set exactly as were all other quotas," he declared. "As a matter of fact, after their quotas had been set by the state-wide formulas, the larger chests volunteered to accept an additional burden of \$84,000, in order to permit a five per cent reduction of quotas in Gray and other counties.

"Thus, actually community chest quotas were raised through their voluntary agreement, while quotas of Gray and other counties were reduced five per cent. This was done in an effort to help counties which might experience difficulty in reaching their war fund goals.

"I am explaining this in some detail in order to give the people of Gray county full information, and to clear up any misunderstanding which might have been caused by statements that quotas were unfair."

Persons who have said that preferential treatment was given other areas are not only woefully misinformed, but have actually reversed the facts, since Gray county actually received a quota reduction of five per cent.

"The campaign quota, after all, is merely something to shoot at—a mark toward which to strive. The true goal of the war fund is all-out support of the war by every man, woman and child in the nation.

"The real quota for every community is 100 per cent participation by every citizen. The real goal is victory, which can only be achieved when everyone in every county and every state has done his best.

"The patriotism of the people of Gray county has been proven in too

many ways to be questioned. Gray county has been in the forefront of every war-related program, and I know it will do its full share in the 1944 war fund campaign.

"When the community chest drive has been completed, outstanding Gray county leaders will be asked to help organize and carry through a separate campaign for the National War Fund, and the people will be given the opportunity to take part in this greatest of all war-related agencies.

"I know that when the time comes, every Gray county will give a 'Texans Share.'"

PRESIDENT

(Continued from page 1)

open car showed himself as a fourth term candidate to thousands of cheering and flag-waving urbanites in a wide sweep of New York City's environs.

His four-hour drive in an alternating cold downpour and drizzle through four of the city's five boroughs was a prelude to his first away-from-Washington address of the campaign. It included brief remarks at Ebbets Field in Brooklyn in behalf of reelection of Senator Wagner (D-NY).

Mavor F. H. La Guardia quoted his chief of police as estimating that 3,000,000 persons saw the President during his tour.

La Guardia said Mr. Roosevelt was "moved—really impressed" by the reception and stood the weather "better than I did."

Even before the President spoke last night, his opposition made an international affair, following up Gov. Thomas E. Dewey's blast at what he called Presidential "personal, secret diplomacy."

While the President rested in the Washington square apartment of Mrs. Roosevelt in the afternoon, Gov. John W. Bricker told an audience in Provo, Utah, that Mr. Roosevelt's "vaunted indispensability for foreign affairs is pure myth."

The republican vice presidential candidate said the President "provided himself anything but an able diplomat" with what he termed a "blighting message" to the London economic conference in 1933—a message which Bricker asserted ended "all hope" of an agreement.

Bricker spoke as Dewey arrived back in Albany from his Pittsburgh labor speech to rest up for vote appeals Tuesday in Minneapolis and Wednesday in Chicago.

Second man on the democratic ticket, Senator Harry S. Truman, spent the day in conferences with Senator Murray (D-Mont) and other Montana party leaders at Butte.

Vice President Wallace, in Minneapolis for two days of speeches, said at a news conference that the pro-Roosevelt farm vote in the Midwest "is better than I expected."

Thus, apparently, the chief executive gave his answer to Dewey, who contended in a speech last Wednesday that the administration had no plan for dealing with Germany and that this had resulted in the shedding of American blood.

The President said he was not talking with "rancor or snap judgment," and that he was speaking without losing his temper or head.

He added solemnly that he believed at the end of the last war and still believes now that enduring world peace has no chance unless America cooperates in winning and maintaining it. Words, he said, must be backed with deed.

Saturday afternoon, the President had put on the bad weather togs of earlier campaigns and in an

EXPLOSIONS

(Continued from page one)

and navy intelligence, police and fire officials, the Gas company and Coroner Gerber.

An assertion that the fire apparently started in one of the large storage tanks was made by Mrs. Viola Moore, 37, office manager in the American Gas association's laboratory, located near the \$6,000,000 storage plant.

Gerber reported only 17 of the known dead had been identified. He said 47 bodies at the county morgue were so badly charred that identification was difficult.

The latest combined official estimate of property damage, including plants and homes in the 50-block devastation area, was set at \$4,000,000. The destruction rivaled scenes in the bomb-blast Europe.

Less than 18 per cent of men selected for the U. S. Army air forces' training schools fail to complete their courses.

The President's flag consists of the President's seal in bronze, upon a blue background, with a white star in each corner.

"I wanna talk to you a minute
about Our
COMMUNITY CHEST!"

We've got a good town here in Pampa, lots of good people, we've put on a lot of things in Pampa, we've supported Pampa in every way.

Now, we've got our Community Chest coming up again, we've got the Hi-Y organization, the Girl Scouts, the Boy Scouts, the Salvation Army and the American Legion Welfare and Civic center, all these organizations are rolled into one operation as far as their finances go. We make one drive, and "wrap" it all up at once, cuts down on the time and the many men and women who must shoulder the double job of giving and asking me and you to give, and then we're not bothered with this'n and that'n coming around about every two or three months. All in all it is a pretty successful deal and most folks are right happy with it.

Now, just to see that the ball keeps rolling, and we continue with this set-up, won't you be ready with your contribution, when the volunteer worker calls ...
"And give from your heart!"

"give from
your heart"

PAMPA COMMUNITY CHEST

Memorials Serve Living as Well As Honor Dead

By JAMES MARLOW
WASHINGTON, Oct. 21.—(AP)—American towns and cities are planning now for memorials to world war veterans, living and dead.

Hundreds are thinking of memorials with a double purpose: to honor the veterans and give useful service to the generations coming after them.

These memorials which can be used by the living are called living memorials and there is great emphasis on that type.

Americans have seen memorials to veterans of other wars: men on horseback, heaped cannon balls, moldy cannon on a courthouse lawn.

After the last war living memorials began to spring up across the country. Here are some which the federal security agency (FSA) says are being considered now:

Auditoriums, convention halls, schools for special purposes, hospitals, research institutions, band shells, open air theaters, school forests, community forests, camping areas, picnic grounds, recreation parks, beaches, swimming pools, canoeing areas, golf courses, baseball and football parks, playgrounds.

In the past three months FSA says it has received more than 1,000 inquiries about youth centers alone. They are intended as world war II memorials but will serve the young people of today and tomorrow.

These inquiries are in addition to hundreds asking about other plans, particularly community centers and recreation grounds.

The FSA has 12 regional offices with a field staff of perhaps 100 men, specialists in recreation facilities. They can be of help.

Suppose a town wishes to build a living memorial, such as a community or recreation center.

The FSA specialist can give advice on a recreation center because he has had a lot of wartime experience in that field.

He can also suggest that the town get from FSA a few typical plans of community buildings which serve many purposes. The plans are outlines. They have nothing to do with the architectural work which would have to be done on them.

Casualties on Western Front Reach 174,750

WASHINGTON, Oct. 21.—(AP)—United States army casualties on the western front, from the invasion on June 6 through October 3, numbered 174,750.

Air force casualties are not included in this figure announced by the war department.

Of the total, 29,842 were killed, 130,227 wounded and 14,711 missing.

The casualties include those of the Seventh army which is fighting in southern France as well as those fighting in France, the Lowlands and the German border region.

Since the start of the war, the combined army and navy casualty total is 453,375, compared with 417,065 two weeks ago.

Army casualties for all theaters through October 6 were 384,895, an increase of 33,892 since the last announcement of casualty figures October 5.

Part of the increase, the department said, "is due to a revised and improved statistical system which permits a more up-to-date picture of the situation. However, there inevitably remains a time lag of about 15 days between actual casualties and the receipt of individual reports for accounting at the war department."

Of the 384,895 casualties, 75,562 are dead, including those who died of wounds as well as battle field deaths; 208,392 are wounded (excluding those who died of wounds); 48,404 are missing and 52,537 are captured and interned.

The latest navy casualty figure is 68,480, an increase of 2,688 in two weeks.

Here's Real Love for a Man--Moral Is: Don't Forget to Write Husband Often

By HAL BOYLE
WITH AMERICAN TROOPS IN GERMANY, Oct. 11 (Delayed) (AP)—I have read many stirring letters from wives who lost their husbands in foreign combat, but none more moving than one written by Irvin, who was killed when an American bomb fell short in the breakthrough near St. Lo last July.

Bede, an Associated Press war photographer, now lies buried in France. He was the envy of every soldier and correspondent who knew him because the mailman never passed him by. He was gone from home a year and three months and every day his wife sent him a gay, gossipy letter invariably well-written and cheerful.

Like thousands of other American women whose husbands have died in action Kath has found it difficult to adjust herself to the finality of death. She expressed this loss in a letter to Dorothy Gross, another photographer, thanking him for telling her the details of Bede's death.

Because I knew Bede and Kath well I don't know how to share it with you for the picture it gives of a perfect marriage broken by war. I know Kath will understand my reason and therefore won't mind.

Nothing is very real now," she wrote. "And I find myself putting away little chit-chat in my mind for future letters. I will be writing to Bede—and then I remember there can be no more letters to write to him, can be no more mail coming from him. Can be no home leave, no home coming at all so far as my Bede is concerned. But if the impossibility of everything which makes it hard for me to believe that it is true and makes me think that he will some day be returning home like millions of other men will some day be doing.

There is so little comfort in the fact that Bede was a good soldier and died a good soldier's death—Bede held no ideas of ever being heretic. He would say how little he did over there compared to what so many other men were contributing. Yet he had a certain amount of satisfaction in knowing that he was doing whatever he had to do to the best of his ability. I know Bede was happy this past year and three months—as happy as any man can be so far away from his family and home.

There are so many hopes and plans between a husband and wife. Plans that won't for Bede and

Analyst Foresees Approaching End For Aggressors

By KIRKE L. SIMPSON
Associated Press War Analyst
The Nazi-Japanese war axis was rocking with new portents of approaching doom this October weekend.

From fallen Aachen in Germany to MacArthur's return-to-the-Philippines beachheads on Leyte, the story was the same. The United Nations were closing in for the double kill.

The bleak prospect could be read clearly in Hitler's wailing appeal to the German people to defend him and his criminal Nazi regime with their lives. His home guard mobilization decree dropped all pretense that victory was still possible. It called only for a fight to the death within Germany itself in hope that softer peace then un-

conditional surrender somehow could be gained.

Japanese official desperation was no less apparent in jaded claims of a decisive naval victory over raiding American forces deep in Japan's home waters off Formosa. Invasion of the Philippines had been warded off for months, the Tokyo radio chanted.

A fraudulent day of rejoicing was set in Japan. Yet the words were no more than spoken than the Stars and Stripes were flying again over the Philippines. MacArthur, with his men, set foot again in the islands to redeem his promise of return.

There was a startling about face on Japanese radio waves. They yammered now that the battle of decision was impending in the Philippines. There was no effort to reconcile conflicting reports. Enervating confusion and dismay was apparent in utterly contrasting Tokyo and Manila versions of the invasion that went to confirm General MacArthur's announcement that the foe had been caught napping.

38,590 Pounds Scrap Paper is Collected

SHAMROCK, Oct. 21.—A total of 38,590 pounds of scrap paper, the nation's No. 1 vital war material, was shipped from Shamrock this week.

Wheeler collected 2,810 pounds, while the Shamrock area contributed 29,780 pounds.

The collection in Shamrock was sponsored by the boy scouts while in Wheeler the American Legion post was in charge.

Proceeds from the sale will be used by the Scouts to further their activities.

Scoutmaster Charles Stiemmer directed the drive in Shamrock, and he today expressed his appreciation to those who helped in any way with the campaign, including, of course, persons who contributed the paper.

The date palm will thrive in any subtropical climate where the temperature rarely drops to 20 degrees F., but fruit can be produced only if the weather is hot and dry during the summer and fall ripening period.

Shamrock Woman Gets News From Prisoner Husband in Germany

SHAMROCK, Oct. 21.—Mrs. Chester J. Beasley this week received a letter which was written aboard the M. S. Gripsholm by T/Sgt. R. L. Warwick, who was on his way to America after being a prisoner of the Germans, interned at the same camp with S/Sgt. Beasley, husband of the Shamrock woman.

T/Sgt. Warwick was engineer, and S/Sgt. Beasley was a tall gunner of a B-17 Flying Fortress shot down over Germany August 17, and both youths have been in German prison camps since that time. Warwick, who was wounded, was among exchange prisoners sent back to America on the Gripsholm.

Excerpts follow:

"I am Rusty Warwick, Chester's engineer. I left him August 26 for this exchange. He is in excellent condition in spite of everything."

Chester has received a few letters, but not as many as you have written I am sure. Just keep them going, and part of them will get there. This war will be over before he gets many more, I hope.

"Chester always finds something to employ his time. He made a model out of wood with all the working parts. He makes picture frames and cup handles and trades them to the other boys. Our medium of exchange was cigarettes and chocolate bars.

"We could trade with the French occasionally and get macaroni, oats and rice and some other things we did not get in our parcels. He made a stove from tin cans and lined with sand and made cakes and pies almost like home.

"He works with the chaplain a lot there, and two of three of them made a very nice chapel.

"We had a get-together just before I left and he made the cakes and pies.

"Chester doesn't have a scratch or wound on him, so if you have thought otherwise, please forget it.

"Your friend, Russell Warwick."
