

NAZIS RETREAT ACROSS MEUSE

Reporter Charges Chiang Kai-Shek Plays Politics With Army

People Aren't Represented, Says Writer

NEW YORK, Oct. 31—Brooks Atkinson, New York Times correspondent who has just returned from Chungking, says in the Times today that Chiang Kai-shek "may mean that the United States has decided from now on to discount China's part in a counter-offensive."

"Inside China," wrote Atkinson in a Page One story, "the (the) representative of the political triumph of a moribund anti-democratic regime that is more concerned with maintaining its political supremacy than in driving the Japanese out of China."

Atkinson said Generalissimo Chiang Kai-shek had demanded that Stilwell be removed and that "President Roosevelt agreed to the Generalissimo's demand."

The situation developed during negotiations, in progress for two months, between President Roosevelt's representative, Maj. Gen. Patrick J. Hurley, and the Generalissimo to give Stilwell "full command to the Chinese ground and air forces under the Generalissimo and to increase China's participation in the counter-offensive against Japan," the correspondent wrote.

Chiang refused to accept General Stilwell as commander, Atkinson said, but indicated he would accept someone else.

"The fundamental difference between the Generalissimo and General Stilwell," Atkinson wrote, "has been that the latter has been eager to fight the Japanese in China without delay and the Generalissimo has hoped that he would not have to."

In an explanatory note the Times said the story was "delayed and finally cleared by the war department censorship in Washington." The story said Stilwell left Chungking Oct. 21, made a final tour of some of the bases under his command.

Texas GOPsters Deny Any 'Deal' With Regulars

DALLAS, Oct. 31—(AP)—Walter Rogers, director of the republican presidential campaign in Texas, today described as "pure bunk" a statement by Tom Tyson of Corsicana that republicans were "going to instruct the Dewey-Bricker people to vote for the electors of the Texas regulars."

"We have no agreement with the Texas regulars nor do we expect to have one," Rogers said when asked to comment on Tyson's statement, made in a speech to a democratic rally at Hillsboro yesterday. Tyson is chairman of the state democratic party's speakers bureau.

"On the contrary we are urging all those opposed to Roosevelt, Hill and the New Deal to vote for the Dewey-Bricker republican electors," said Rogers.

Tyson had said that the republicans were going to instruct Dewey-Bricker supporters to vote for the electors of the regulars, and if the regulars carried the state their electors would vote for Dewey and Bricker in the electoral college.

Rogers denied the statement, adding that F. B. Cressler, Brownsville, republican national committeeman from Texas, would speak over a network of Texas stations Monday night after the national address of republican presidential candidate Dewey to "urge all republicans and all anti-New Deal democrats to vote for the Dewey-Bricker electors."

Fingerprint School To Be Conducted

R. G. (Dick) Danner, chief of the Dallas F. B. I. district, and L. E. Kingman, operator from the Amarillo sub-station, were in Pampa yesterday to complete plans for the conduct of a fingerprint school scheduled to begin November 7.

Using F. B. I. instructors, the school will include local authorities, and will be conducted at Pampa police headquarters, in the city hall.

WAR IN BRIEF

WESTERN FRONT — Battle of Southwest Holland virtually ended as Germans begin fight across Meuse river; Yanks clear enemy from Maestries-les-Metz.

PHILIPPINES — American advance toward Leyte's northern shores where reinforced Japanese are concentrated.

EASTERN FRONT — Berlin acknowledges Russians have swollen into Kocskemet, Hungary, in blazing new offensive.

CHINESE — Maj. Gen. Albert Wedemeyer arrives in Chungking to take over command of American forces in China; Japanese within six miles of Kweilin.

ITALIAN — Eighth army throws bridgehead across Ronco river, threatens German stronghold of Forli.

GREEK — Greek guerrillas operating with British capture Armissa, Nazi escape route seven miles from Yugoslavia border.

Gulf Scout week, Oct. 29 to Nov. 4th—Adv.

U.S. CARRIER PLAINES REVEN MANILA BLOWS

Typhoon Sweeps American Front On Leyte Island

By LEONARD MILLIMAN Associated Press War Editor

Typhoon drenched American troops slogged toward the first potential major land engagement of their Philippines re-invasion today as Japan's disastrous sea losses mount to 60 warships sunk or damaged and an estimated 35,000 men killed.

An additional 24,900 casualties were suffered by Nipponese ground forces opposing Gen. Douglas MacArthur's conquest of Leyte and Samar islands. American casualties were 3,221 including 700 killed, 2,245 wounded and 276 missing. Both figures are for the first ten days of the invasion.

U. S. carrier planes, returning to the attack on Manila, accounted for most of 96 more Japanese planes reported wiped out and destroyed. 1,000 pound bombs squarely on three fugitive cruisers in Manila bay. One, previously damaged, probably sank. Seven enemy tankers or freighters were sunk or damaged in Philippine waters.

A Japanese imperial communiqué asserted that naval planes sank five American warships and damaged 14 in a carrier task force operating about 100 miles east of Manila and in sea squadrons in Leyte gulf supporting MacArthur's men.

Possibility of a major engagement on northern Leyte developed as Prime Minister Churchill told the British house of Commons the war against Japan may last for another two years—or longer.

Japanese rear guards were fighting a delaying action in Leyte valley, apparently to permit their retreating comrades and reinforcements ferried in from Luzon to gather for a full-scale battle on the island.

Noted Surgeon, Author Succumbs

WACO, Oct. 31—Funeral services planned here at 5 p. m. today for Dr. K. H. Aynesworth, surgeon, educator, author, archaeologist and University of Texas regent, who died of cancer, yesterday after a long illness that had lasted since Feb. 14. He was 71.

Services were to be held at the First Baptist church with Dr. J. M. Dawson officiating. Burial was in the Oakwood cemetery.

Pallbearers listed included Dr. Homer V. Rainey, president of the University of Texas; Dr. Marion Brown, Mexico; John McNamara; Dr. W. S. Witte, Dr. Paul Murphy, Pat Neff, president of Baylor university, Dr. Dan Warren, Dr. W. L. Crosthwait, Warren Duncan and A. R. Wilson, all of Waco.

In 1933, he was appointed by Gov. Miriam A. Ferguson as a university regent; and in 1941 he was elected vice-chairman of the chamber of commerce.

The national Halloween committee has stressed the importance of staging Halloween parties for servicemen and women far from home, and that the automobiles be kept off the road—for the simple reason that the gasoline and tires must have some better wartime usage.

Survivors of the oldest traditions on our calendar, has probably undergone more transitions than any similar festival. It is indeed a far cry from the Druid ceremonies of centuries ago to the rollicking parties which the national Halloween committee recommends.

Noting further that the department is kept busy with other matters, the police chief stated that authorities interference, would not be enacted unless the celebration got out-of-bounds.

The national Halloween committee has stressed the importance of staging Halloween parties for servicemen and women far from home, and that the automobiles be kept off the road—for the simple reason that the gasoline and tires must have some better wartime usage.

CONGRESS OUTLOOK

Next Congress May Consist Of Demo Senate and GOP House

By D. HAROLD OLIVER WASHINGTON, Oct. 31—(AP)—The next Congress may consist of a democratic Senate and a republican House, as most forecasts have it today.

But the democrats believe they will retain and strengthen their slim House control because it's a presidential election year, and the republicans say they have a fighting chance to win a Senate majority.

The present House is made up of 214 democrats and 212 republicans, with five vacancies in seats formerly held by democrats, and four minor party members. A numerical majority is 218.

Republicans have made net gains of 80 and 44 in the off-year elections of 1939 and 1942, respectively. See CONGRESS Page 8

POLITICAL BROADCAST Gov. Thomas E. Dewey, republican candidate for president, will speak from Buffalo tonight at 8 (NBC).

NIPS NIPPED

Churchill Says German War May Go Into Summer

LONDON, Oct. 31—(AP)—Prime Minister Churchill told Commons today that Germany's defeat might not come before early summer and that it might take at least 18 months after Hitler's downfall to beat Japan.

Urging qualified extension of Britain's nine-year parliament for another year, he said that "roughly speaking there is no likelihood of a general election far from seven to nine months from now," and warned that "those who force such a disaster would take upon themselves immense responsibility."

"It seems to me," said Churchill, "that unless all political parties resolve to maintain the present coalition until the Japanese are defeated, we must look to the termination of the war against Nazism as a pointer which will fix the date of the general election."

FDR Stepping Up Campaign Tempo, Dewey To Speak

By J. W. DAVIS Associated Press Staff Writer

President Roosevelt stepped up the tempo of his fourth term bid today. His press secretary, Stephen Early, told reporters the chief executive will deliver a radio address from the White House Thursday night and make three New England appearances before his final major speech on the coast Saturday night.

This development came as democratic cries of "Don't take out the winning team" met republican reports that Dewey's war successes can be chalked up to the fourth term.

Early said he did not know the subject of Mr. Roosevelt's "Thursday speech" nor which networks will carry it. At the same time he said the President's Boston speech will be at 8 p. m. (cwt) and probably from Fenway park.

Enroute to Boston the chief executive will speak at Bridgeport and Hartford, Conn., and Springfield, Mass.

The schedule outlined today virtually precludes an Ohio appearance by Mr. Roosevelt, already discounted by Early after persistent reports that it was in the cards.

Exchanges on the victory abroad phase of the presidential campaign came today as Governor Dewey traveled to Buffalo for his 13th speech on the coast tonight (8 p. m. cwt, over NBC).

Calling the list of victorious American generals and admirals, republican chairman Herbert Brown said in a statement for party workers that "it isn't true that any civilian could teach strategy, tactics and logistics to such experts."

But Brown declared Mr. Roosevelt has tried to get across the idea that "the personally built every airplane launched every ship and forged every cannon."

War Mobilizer James F. Byrnes noted in a broadcast speech from See FDR Page 8

Churchill Says German War May Go Into Summer

LONDON, Oct. 31—(AP)—Prime Minister Churchill told Commons today that Germany's defeat might not come before early summer and that it might take at least 18 months after Hitler's downfall to beat Japan.

Urging qualified extension of Britain's nine-year parliament for another year, he said that "roughly speaking there is no likelihood of a general election far from seven to nine months from now," and warned that "those who force such a disaster would take upon themselves immense responsibility."

"It seems to me," said Churchill, "that unless all political parties resolve to maintain the present coalition until the Japanese are defeated, we must look to the termination of the war against Nazism as a pointer which will fix the date of the general election."

"Any attempt to estimate the date when the war with Germany can be officially declared over can be no more than a guess," said Churchill.

"I do not place any dependence on a political uprising in Germany."

"I certainly could not predict—still less guarantee—the end of the German war before the end of the spring or even before we reach early summer. It may come earlier, and no one will rejoice more than I if it should."

"On military grounds," he said, "it seems difficult to believe that the war could be ended before Christmas or even before Easter, although many high military authorities with every means of forming an accurate judgment have expressed themselves more hopefully."

Bluntly he told Commons that "I have no hesitation in declaring that it would be a wrongful act, unworthy of our country's fame, to break up the present governing coalition before we know where we are with Hitler's Germany."

He added, however, that he was "thankful to say that there is no sign of any such desire in any responsible quarters."

Soldier Will Be Tried on Hit-Run

SHAMROCK, Oct. 31—Military authorities at Fort Leonard Wood, Mo., today assured District Attorney Walter Rogers that Pvt. Melvin L. Simpson, paratrooper, would be returned to Wheeler court in adequate time to stand trial on a charge of hit-run driving in connection with the death of six-year-old Peggy Bohler, daughter of Mr. and Mrs. Charley Bohler of this city.

The child was hit by an automobile while she was returning to school from the noon lunch hour October 11. She never regained consciousness and died in a local hospital a few days later.

Pvt. Simpson, who was arrested shortly after the child was hit by an unknown driver, denied the charge. He is now under \$1,070 bond for his appearance in the next term of court which convenes November 13.

His return was sought by the district attorney of the Thirty-first district court.

No decision had been reached by the grand jurors at press time this afternoon.

Grand Jury Studies Local Shooting Case

Gray county grand jury was sitting in a called session this afternoon reviewing evidence in the fatal shooting of Kenneth W. Conway, 34-year-old oil well rigger, who died of two pistol shot wounds as result of an argument over a boxing bout between two seven-year-old boys.

G. McEntire, southside produce vendor, arrested and charged with the fatal shooting of Conway, was released shortly after the grand jury's finding.

No decision had been reached by the grand jurors at press time this afternoon.

Texas Movie House Operator Succumbs

DALLAS, Oct. 31—(AP)—Harold Buchanan, Robb, 55, president of Robb and Rowley Theaters, Inc., operators of 110 motion picture houses in the Southwest, died last night at a hospital after an illness of more than a month.

Included in the firm's theaters were those at Fort Worth, Mart, Hillsboro, San Angelo, Laredo and Corpus Christi.

Funeral services for Robb will be held in Big Spring tomorrow.

BLUE CROSS MEMBERSHIP CHICAGO, Oct. 31—(AP)—The American hospital association reported today membership in its 82 non-profit Blue Cross plans for hospital care had reached a total of 18,400,000, with one out of every eight Americans now paying their hospital bills in advance.

Fierce War Rages In East Holland

By WILLIAM L. RYAN Associated Press War Editor

Victorious British and Canadians all but ended the battle for Southwest Holland today, but Prime Minister Churchill said he would not predict the end of the European war before the end of spring "or even before we reach early summer." (Separate story on this page.)

Russian troops stormed into Kocskemet, fourth largest Hungarian city 50 miles southeast of Budapest in a blazing new offensive, but were expelled, Berlin said, and "the battle between the Danube and the lower Tisza is nearing a climax."

The total of Allied prisoners on the western front by latest official estimates reached 637,544.

Canadian and British armies took out in hot pursuit of German 15th army remnants fleeing across the Meuse (Meuse) river in Holland under the protection of a shroud of heavy fog which grounded Allied planes.

The British Second army reached the Meuse due north of Tilburg, while Canadians, chasing the Germans toward the coast, lost contact with the enemy fleeing toward the Hollandsch Diep, seaward outlet of the Meuse.

Fierce, see-saw fighting raged on the eastern flank in Holland, where strong German armored blows were stopped.

A British spokesman said only continued bad weather could save the Germans from merciless pounding by air to make the flight as costly as possible. Nazi Field Marshal Gen. Walter von Model, whose army originally was estimated at 120,000, was believed to have had some 40,000 troops below the Meuse. Front dispatches said he left 10,000 or more along the south bank in an attempt to retard the Allied advance.

British forces, which captured Roosendaal, last major coastal corner stronghold of the Germans in Holland, advanced toward Willemstad and Moerdijk against the nazis' main Mass crossings by road and rail bridges.

Canadians have crushed nazi resistance on the south bank of the Scheldt estuary and on South Beveland Island. They are racing toward German units on flooded Walcheren Island, where the remaining nazi guns still dominate the approaches to the important port of Antwerp.

The central Allied front U. S. Third army troops completed occupation of Malzieren-Les-Metz, stronghold six miles north of the Meuse.

British Eighth army Indian troops threw a bridgehead across the Ronro river south of the Rimini-Bologna highway, threatening to outflank Forli.

RAP and RCAP heavy bombers dumped 4,000 tons of bombs last night on Cologne, which a Canadian communiqué called the most heavily bombed of all German cities.

Speedy Finish to Community Chest Drive Is Sought

A renewed appeal was issued today to workers on the advanced gift drive to the Community Chest drive to get it and make calls on prospective contributors.

J. W. Garman, general campaign chairman, said at noon, today, canvass among employees in the downtown and oil field districts is progressing satisfactorily.

"We seem to be having most trouble with workers in the advanced group," Garman said. "It is so important that this be done that I wish I knew of some way to stress the need for the workers to fulfill their obligations."

Garman said R. G. Hughes and A. J. Beagle, co-chairmen of the advanced gifts group, had used every method they know to get workers on the job.

"But still less than one-half of the calls have been made in this particular division," Garman said. The general chairman said \$9,192 of the \$21,000 goal had been raised so far.

The employee drive is going splendidly, Garman stated. Lieb Langston and Ed Weiss are co-chairmen of that group.

At the Alpacco Construction company, General Manager Marshall Hubbard told his 12 employees he would double their contribution with the result that \$186 was turned in from 13 employees.

"If the solicitors will just work their cards, we can raise the money," Garman said. "If anybody knows of a way to get them on the job we can finish this drive in a hurry. I will appreciate the information."

Chairman of all committees today urged canvassers to turn in their money and reports on their cards as soon as the calls have been completed.

Anti-Nazi German To Govern Aachen

AACHEN, Germany, Oct. 31—(AP)—A slight, but lawyer of about 40 years, previously took the oath of office as mayor of devastated Aachen yesterday—the first anti-Nazi in 11 years to be chief administrative officer of any major German city.

He was selected by military government officers from 12 candidates known not to have been nazis. Censorship withheld his name.

OVER HALF-MILLION MARK SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE

PARIS, Oct. 31—(AP)—The official Allied bag of prisoners on the Western front now totals 637,544.

2—Russian Front: 365,050; Michigan area, 250 to 120,150.

Production in Illinois increased 10,200 barrels a day to 200,200; Louisiana, 450 to 365,050; Michigan, 400 to 48,200; Oklahoma, 4,000 to 296,000; and East Texas, 50 to 371,300.

Production in Illinois increased 10,200 barrels a day to 200,200; Louisiana, 450 to 365,050; Michigan, 400 to 48,200; Oklahoma, 4,000 to 296,000; and East Texas, 50 to 371,300.

Just arrived De Laval cream separators, Lewis Hed'w Co. Ph. 1312.—Adv.

Fortress City of Metz, U. S. Seventh Army Troops to the South Took Two More Villages in the Drive Toward the Belfort Gap to Germany.

A vast Red army offensive flamed on a broad front 50 miles from Budapest, and thousands of civilians in the imperiled Hungarian capital, already hearing the roar of the artillery battle, were erecting breastworks outside the city, the Germans said.

Berlin said the push, spearheaded by swarms of Red army tanks and planes and supported by tremendous artillery fire, struck across the Tisza river after weeks of preparation. Moscow broadcast a Swiss report that Ferenc Szlasi, Hungarian pro-Nazi premier, fled to Germany.

Moscow, noting that wintry storms were harassing the eastern front, made no mention of this offensive, and also was silent on Germans' reports of another great drive in western Latvia. The Russian communiqué said the Fourth Ukrainian army, which captured all Ruthenia, had invaded Slovakia to the west, capturing 10,160 Germans in three days.

British troops and Greek guerrillas have captured Armissa, only seven miles from the southern Yugoslav border on one of the main escape routes for the nazis, and the British Eighth army Indian troops threw a bridgehead across the Ronro river south of the Rimini-Bologna highway, threatening to outflank Forli.

RAP and RCAP heavy bombers dumped 4,000 tons of bombs last night on Cologne, which a Canadian communiqué called the most heavily bombed of all German cities.

Fire Demonstration Will Be Conducted

"Magic of Fire," a show-demonstration, will be presented by the U. S. Bureau of Mines at the Junior high school auditorium here at 8 p. m. Friday, it was announced today.

G. M. Kintz, supervising engineer of the Southwest Territory, bureau of mines, will conduct the demonstrations, it was said.

A special invitation to attend the program has been extended to the science class of the senior high school, the fire and police departments. The general public is also invited. Admission is free.

One of the principal features, especially interesting to oil field workers, is a demonstration of the danger of handling gasoline.

3 Negroes Charged in Mutilation Slaying

HOUSTON, Oct. 31—(AP)—Murder charges have been filed here against three Negroes arrested in San Antonio Saturday in connection with the mutilation slaying of Clarence W. Edwards, Houston shipyard worker.

Charges were filed in the court of W. C. Ragan against Julius Harper, Joseph Davis and Ernest King. The three were arrested a few hours after the body of Edwards was found in a ditch here. He had been missing for about a week.

The sheriff's office said Edwards' arms and legs had been cut off.

GUATEMALANS DENY BOMBING MEXICO CITY, Oct. 31

The embassy of Guatemala denied last night reports which had circulated regarding new disorders in that republic. All was quiet there, the embassy said.

BOMBER DOWN IN SWEDEN

Men Warned of What Oil Treaty Will Do

TYLER, Texas, Oct. 31—A warning that ratification by the United States Senate of the Anglo-American petroleum treaty would practically drive out of business the Texas independent oil operator and seriously endanger the economic life of Texas was voiced here Thursday before the East Texas chapter of the A. P. I. by Glenn H. McCarthy, independent Houston oil operator, and co-chairman of the statewide committee of oil operators opposed to Senate ratification of the treaty.

Pointing out that the treaty, if ratified by the Senate, would become the supreme law of the land, McCarthy said that provisions of the proposed treaty are decidedly one-sided in favor of Great Britain and would put the giant American petroleum industry at the mercy of foreign powers.

The proposed treaty, which is now awaiting action in the Senate foreign affairs committee, is between the United Kingdom of Great Britain and Northern Ireland. The pact was signed on behalf of the United States by Edward R. Stettinius, Jr., acting secretary of state, and Lord Beaverbrook for Great Britain on August 8, 1944. It was submitted to the Senate for ratification on August 24, 1944, by President Roosevelt at which time the contents of the proposed treaty became known publicly for the first time.

McCarthy took up the treaty, article by article, analyzed each section, and then pointed out how each article of the treaty would endanger the American oil industry and the economic life of Texas.

He said that the preamble of the treaty states "that ample supplies of petroleum, available in

international trade to meet increasing market demands are essential for both the security and economic well-being of nations means that the United States will be giving her oil resources and in return receiving only a token phrase. Said McCarthy:

"Great Britain, and its dominions, are essentially non-producers of oil. Actually, they are dependent upon the world for their supply. Great Britain, speaking only for Great Britain and its dominions, can truthfully say that ample supplies of petroleum are essential to its security and economic well-being. The United States, on the other hand, is an oil-producer—the greatest in the world. We are self-sufficient with respect to crude oil and its derivatives, and have some oil in quantity for export. We do not argue against the statement that the availability of oil is of great importance to our national security, but we see little in its statement in the preamble of the treaty. It implies an obligation on the part of the signatory parties, one a non-producer of oil and to whom the obligation would give nothing but benefit, and the other the world's greatest producer of oil and to whom the obligation must imply a pledge to hold its oil in trust for world security needs and to make it available in international trade to enhance world security. I do not believe that this proposition represents a fair trade for the United States. We will be giving up everything and receiving only a token phrase in return."

Youth Picked Up For Authorities

Clavis, New Mexico, authorities, transmitting the description of Billy Davidson, alleged to have broken into Levine's department store there Friday, were given quick results as far as the apprehension of the youth is concerned.

Pampa Police Officer Louie Allen, noticing a stranger frequenting a local beer tavern, went back to the police station from his usual beat only to receive the description of the man he had just seen. Davidson, arrested on the charges, is being turned over to New Mexico authorities.

Much of City's Manhole System Would Have To Be Reconstructed Entirely

(Editor's note: This is the sixth in a series of articles dealing with Consulting Engineer Joe E. Ward's study of the needs for repairs and renovations in Pampa's sewer system. The articles were prepared by Everette Banister, member of The News Staff.)

Manholes in the lower ends of the sewers are more deteriorated than those on the upper ends. Manholes constructed in the original system are generally in better condition than those constructed in the 1928 program, according to the engineer.

Ward pointed out that since it is deemed advisable to locate the reconstructed sewers on new alignments, it would be only logical to build new manholes for the reconstructed sewers. For the concrete manholes on the original system where deterioration is only moderate, he believed that it would be advisable to clean off the disintegrated mortar and apply a substantial protective coating to the inside of the wall, such as a double application of emulsified asphalt or other material not susceptible to attack by the sewer gas.

Manholes, according to the engineer, should be constructed of bricks or of vitrified tile radially manhole blocks. Due to the badly rusted condition many of the manhole covers would also have to be replaced.

It also appears advisable to give the cast iron covers a protective treatment, such as hard oil or some other substance which would not cement the lid in place.

The engineer proposed further the manhole spacing be adjusted. Additional manholes will have to be constructed on laterals where they are now 700 or 800 feet apart, and drop manholes spaced at short intervals, merely to step down the sewer grades, will be eliminated. He proposed to substitute cleanouts for the lamp-holes on the upper ends of the reconstructed laterals.

Disposal Plant
Conducting a study of the present disposal plant, the engineer stated that the plant is of the Imhoff tank-trickling filter type. It has a bar screen, two concrete Imhoff tanks, a concrete-walled trickling filter and five sludge drying pits. The bar screen consists of sloping steel bars set about one inch apart in a concrete box approximately 3 feet wide, 6 feet long and 4 feet deep. Each Imhoff tank is 41 feet

wide by 52 feet long overall at the top, and is shown by the plans submitted to the city commissioners to be 30.5 feet deep with an 18-inch freeboard above the horizontal waterline. The trickling filter is approximately 98.5 feet square inside, and plans show the filter media to be 6 feet deep. The earth sludge drying pits are of various sizes located at convenient places, so that sludge can be flowed into them from the sludge pipes of the Imhoff tanks.

The settling capacity of the two Imhoff tanks, based on a detention period of 2 hours, is 1,639,400 gallons per day contributor would be sufficient capacity to serve 27,324 contributors.

The sludge digestion capacity, calculated from a level 2 feet below the sedimentation compartment slot, is 25,032 cubic feet, which at 3 cubic feet per contributor should be sufficient capacity to serve 8,344 contributors.

The trickling filter area of 9,700 square feet is sufficient for 446,000 gallons per day at a dosage rate of 2,000,000 gallons per acre per day. This figure is sufficient to serve 7,453 contributors at 60 gallons per day per contributor.

The engineer reported that while it is customary to estimate the sludge digestion capacity of an Imhoff tank from a level of 1.75 to 2.0 feet below the sedimentation compartment slot, it is reported that foaming in both the gas vents and the sedimentation compartments increases a considerable extent if the sludge level is allowed to rise until it is less than 5 feet below the slot.

This feature makes the actual operating sludge digestion capacity approximately 25 per cent lower than the capacity estimated above.

Panhandle Scenes Are Being Filmed

On a mission of filming motion pictures of the Texas Panhandle to be shown servicemen overseas, Lt. Louis Lindsey, and his crew of flyers from Los Angeles, were in Pampa yesterday photographing refineries and carbon plants from the air. The officer and his crew will return to Pampa in three weeks to resume their work, shooting ranch and agricultural scenes.

New Cravat Wanted
Some of the infamous Pierre Laval's famous white neckties brought 300 francs apiece at an auction of the former Vichy big-shot's effects. Now what are we offered for a new cravat for M. Laval—a little model in hemp, perhaps, which will satisfy all his future requirements in the neckwear line?

Machineguns used by Americans in world war 1 were developed by John M. Browning of Utah.

FOR MEN ONLY

Scientists have now found that men who are run down, and no longer have the ability to enjoy life as they once did, may be suffering from a deficiency of certain essential vitamins and hormones. Middle-aged men especially may be the victims of this embarrassing condition. Trombone, the new medical discovery, combines the necessary vitamins and hormones that may make it possible for you to get a kick out of life again. If taken in sufficient quantities, to make up your vitamin-hormone deficiency, Trombone may stimulate your vitality, give you the verve and zest of a much younger man. Added years may no longer deprive you of desired enjoyments once you begin to use Trombone. Note: follow directions on label. Trombone for sale at City Drug Co., Cretney Drug Co. and druggists everywhere.—Adv.

Farm Project Will Sell Land to Pay Off Indebtedness

RELSA, Oct. 31—(AP)—The largest government-financed farm project ever undertaken in the Rio Grande valley, Rio Farms, Inc., is preparing to sell 3,100 acres of its land and from the proceeds pay off its remaining \$900,000 indebtedness. Manager Sam Taylor has disclosed.

Taylor said the land sale was expected to return several hundred thousand dollars to Rio farms with the Bentzen Bros. Firm of Mission and McAllen handling the sales.

Eight hundred acres are in citrus orchards and 2,300 acres in irrigated vegetable land. The project in addition contains about 20,000 acres of irrigated lands and 2,600 acres in citrus trees.

The project, now starting its third full year of operation, is no longer a federal project but is operated by a local board of directors. Both Latin and Anglo American farmers till its soils.

Manganese is the most important of the six alloying metals; between 12 and 13 pounds go into the making of every ton of steel. THE Volksturm—10 pt.

Man Fined \$23.20 On Forgery Charge

Clifford Braly, acting special judge of county court in the absence of Judge Sherman White, who is visiting his father in Stephenville, late yesterday fined B. M. Wilson \$23.20, charged with forgery of a \$70 check.

Wilson, who was arrested by Pampa police, entered a plea of guilty, and repaid the amount of the check he was accused of forging at a local drug store.

Use Doughnuts for Centerpiece

Doughnuts and black cats are novel and decorative place cards.

By GAYNOR MADDOX
NEA Staff Writer
Doughnuts seem to belong in the Halloween picture. Here are some suggested ways of using them.

Doughnut Place Cards: Each doughnut stuck with orange toothpicks on which is mounted a black paper cat with name in white ink.

Doughnut Table Centerpiece (1): Wooden bowl of doughnuts, some sugared, some plain, set on large round wooden tray.

Doughnut Dessert for Children's Halloween Party: Frost doughnuts with melted semi-sweet chocolate.

Men Warned of What Oil Treaty Will Do

TYLER, Texas, Oct. 31—A warning that ratification by the United States Senate of the Anglo-American petroleum treaty would practically drive out of business the Texas independent oil operator and seriously endanger the economic life of Texas was voiced here Thursday before the East Texas chapter of the A. P. I. by Glenn H. McCarthy, independent Houston oil operator, and co-chairman of the statewide committee of oil operators opposed to Senate ratification of the treaty.

Pointing out that the treaty, if ratified by the Senate, would become the supreme law of the land, McCarthy said that provisions of the proposed treaty are decidedly one-sided in favor of Great Britain and would put the giant American petroleum industry at the mercy of foreign powers.

The proposed treaty, which is now awaiting action in the Senate foreign affairs committee, is between the United States and the United Kingdom of Great Britain and Northern Ireland. The pact was signed on behalf of the United States by Edward R. Stettinius, Jr., acting secretary of state, and Lord Beaverbrook for Great Britain on August 9, 1944. It was submitted to the Senate for ratification on August 24, 1944, by President Roosevelt at which time the contents of the proposed treaty became known publicly for the first time.

McCarthy took up the treaty article by article, analyzed each section, and then pointed out how each article of the treaty would endanger the American oil industry and the economic life of Texas.

He said that the preamble of the treaty which states "that ample supplies of petroleum, available in

international trade to meet increasing market demands, are essential for both the security and economic well-being of nations" means that the United States will be giving her oil resources and in return "receiving" only a token phrase. Said McCarthy:

"Great Britain, and its dominions, are essentially non-producers of oil. Actually, they are dependent upon the world for their supply. Great Britain, speaking only for Great Britain and its dominions, can truthfully say that ample supplies of petroleum are essential to its security and economic well-being. The United States, on the other hand, is an oil-producer—the greatest in the world. We are self-sufficient with respect to crude oil and its derivatives, and have some oil in quantity for export. We do not argue against the statement that the availability of oil is of great importance to our national security, but we see little relevance in its statement in the preamble of the treaty. It implies an obligation on the part of the two signatory parties, one a non-producer of oil and to whom the obligation would give nothing but benefit, and the other the world's greatest producer of oil and to whom the obligation must imply a pledge to hold its oil in trust for world security needs and to make it available in international trade to enhance world security. I do not believe that this proposition represents a fair trade for the United States. We will be giving up everything and receiving only a token phrase in return."

CITY IMPROVEMENT

Much of City's Manhole System Would Have To Be Reconstructed Entirely

Editor's note: This is the sixth in a series of articles dealing with Consulting Engineer Joe E. Ward's study of the needs for repairs and renovations in Pampa's sewer system. The articles were prepared by Everett Bannister, member of The News staff.

Manholes in the lower ends of the sewers are more deteriorated than those on the upper ends. Manholes constructed in the original system are generally in better condition than those constructed in the 1928 program, according to the engineer. Ward pointed out that since it is deemed advisable to locate the reconstructed sewers on new alignments, it would be only logical to build new manholes for the reconstructed sewers. For the concrete manholes on the original system where deterioration is only moderate, he believed that it would be advisable to clean off the disintegrated mortar and apply a substantial protective coating to the inside of the wall, such as a double application of emulsified asphalt or other material not susceptible to attack by the sewer gas.

Manholes, according to the engineer, should be constructed of bricks or of vitrified tile radial manhole blocks. Due to the badly rusted condition many of the manhole covers would also have to be replaced. "It also appears advisable to give the cast iron covers a protective treatment, such as hard oil or some other substance which would not cement the lid in place." The engineer proposed further that manhole spacing be adjusted. Additional manholes will have to be constructed on laterals where they are now 100 or 800 feet apart, and drop manholes spaced at short intervals, merely to step down the sewer grades, will be eliminated. He proposed to substitute cleanouts for the lamp-holes on the upper ends of the reconstructed laterals.

Disposal Plant Conducting a study of the present disposal plant, the engineer stated that the plant is of the Imhoff tank-trickling filter type. It has a bar screen, two concrete Imhoff tanks, a concrete-walled trickling filter and five sludge drying pits. The bar screen consists of sloping steel bars set about one inch apart in a concrete box approximately 3 feet wide, 6 feet long and 4 feet deep. Each Imhoff tank is 41 feet

wide by 52 feet long overall at the top, and is shown by the plans submitted to the city commissioners to be 30.5 feet deep with an 18-inch freeboard above the normal water line. The trickling filter is approximately 98.5 feet square inside, and plans show the filter media to be 6 feet deep. The earth sludge drying pits are of various sizes located at convenient places, so that sludge can be flowed into them from the sludge pipes of the Imhoff tanks.

The settling capacity of the two Imhoff tanks, based on a detention period of 2 hours, is 1,839,400 gallons per day contributor would be sufficient capacity to serve 27,324 contributors.

The sludge digestion capacity, calculated from a level 2 feet below the sedimentation compartment slot, is 25,032 cubic feet, which at 3 cubic feet per contributor should be sufficient capacity to serve 8,344 contributors.

The trickling filter area of 9,700 square feet is sufficient for 446,000 gallons per day at a dosage rate of 2,000,000 gallons per acre per day, which is sufficient to serve 7,433 contributors at 80 gallons per day per contributor.

The engineer reported that while it is customary to estimate the sludge digestion capacity of an Imhoff tank from a level of 1.75 to 2.0 feet below the sedimentation compartment slot, it is reported that foaming in both the gas vents and the sedimentation compartments increases a considerable extent if the sludge level is allowed to rise until it is less than 5 feet below the slot.

This feature makes the actual operating sludge digestion capacity approximately 25 per cent lower than the capacity estimated above.

Panhandle Scenes Are Being Filmed On a mission of filming motion pictures of the Texas Panhandle to be shown servicemen overseas, Lt. Louis Lindsey, and his crew of flyers from Los Angeles, were in Pampa yesterday photographing refineries and carbon plants from the air. The officer and his crew will return to Pampa in three weeks to resume their work, shooting ranch and agricultural scenes.

Farm Project Will Sell Land to Pay Off Indebtedness

ELSA, Oct. 31—(AP)—The largest government-financed farm project ever undertaken in the Rio Grande valley, Rio Farms, Inc., is preparing to sell 8,100 acres of its land and from the proceeds pay off its remaining \$900,000 indebtedness, Manager Sam Taylor has disclosed.

Taylor said the land sale was expected to return several hundred thousand dollars to Rio farms with the Bentsen Bros. Firm of Mission and McAllen handling the sales. Eight hundred acres are in citrus orchards and 2,200 acres in irrigated vegetable land. The project in addition contains about 20,000 acres of irrigated lands and 2,000 acres in citrus trees.

The project, now starting its third full year of operation, is no longer a federal project but is operated by a local board of directors. Both Latin and Anglo American farmers fill its rolls.

Manganese is the most important of the six alloying metals; between 12 and 13 pounds go into the making of every ton of steel. THE Volkssturm—10 pt.

Man Fined \$23.20 On Forgery Charge

Clifford Braly, acting special judge of county court in the absence of Judge Sherman White, who is visiting his father in Stephenville, late yesterday fined E. M. Wilson \$23.20, charged with forgery of a \$70 check.

Wilson, who was arrested by Pampa police, entered a plea of guilty, and repaid the amount of the check he was accused of forging at a local drug store.

LOOKING AHEAD

By GEORGE S. BENSON, President, Banking College, Spring, Arkansas

HEAD AND HANDS

When I was nine years old, my father sent me horseback on an errand to a nearby farm...

ALL FIGURED OUT

"In these parts," he said thoughtfully, "a man can't get together more than \$10,000 in a lifetime unless he carries on some right shady business..."

CLASS PREJUDICE

He may be sincere as my venerable neighbor of years ago, but he does not know everything about men who work with their hands...

THOROUGHLY AMERICAN

Under pressure of war demands and hurry-up orders, this share-the-profit plan really shined. Output increased. Users bought new equipment 80 per cent cheaper...

Rewards of Genius

The spectacle of a belated appreciation of a genius, dead and gone these hundred years, is always a sad one. And the fate of Edgar Allan Poe, though he died only 95 years ago...

Homes for K-9 Vets

Dogs attached to our armed forces have performed a real and valuable service in this war. If they hadn't, the notoriously unsentimental Army and Navy would not have used them...

The Nation's Press

MORGENTHAU'S FOLLIES (The Chicago Tribune) We can't agree with a good many of the things Mr. Dewey said in his talk on foreign affairs in New York on Wednesday evening...

Party Lines

This debate on the nation's labor policy is the seventh in a series of ten, on controversial issues, prepared for NEA and The News by the national committees of two major political parties.

FDR Gave Workingman His First Real Break, Democrats Point Out

By the Democratic National Committee AMERICAN wage-earners—50,000,000 of them, men and women, in all branches of industry and commerce from coast to coast—will vote overwhelmingly for the re-election of President Roosevelt...

Roosevelt Plays Labor Favorites and Destroys Basic Rights, Says GOP

By the Republican National Committee THE NEED TODAY in labor legislation is for better administration of the existing laws, not fundamental changes in the laws themselves.

THE TEST of the administration's labor policy is how successfully it met the stress and strain of war.

Did "coddled" American labor fall down on the job? Or did it rise mightily—as one man—and, in cooperation with management and government, perform a matchless job at phenomenal speed in making this country the "arsenal of democracy"?

THE MATTER of strikes has been deliberately exaggerated for partisan purposes.

Under the war labor board, with labor, industry, and the public equally represented, less than half of one per cent of total working hours have been lost by work stoppages, almost always by "wild-cat" strikes on the job.

FOR 20 YEARS the department of labor functioned efficiently under four national administrations.

Neither labor nor the nation had any quarrel with its operation. It had the respect and cooperation of the public. Since 1933, however, under inept direction by the executive, it has steadily deteriorated.

MANY HEADS of labor unions recognize this fault of the present administration, as was brought out in the Herald-Tribune Forum on October 10, 1944.

Philip Murray, president of the CIO stated: "My experience with government agencies that have been established to deal with disputes over collective bargaining has left me a little bit disappointed because of the interminable delay."

"SO HELP ME GOD!" ... RAY L. DUDLEY

I stood in the blazing sun at Ellington Field, in Texas, last Monday and watched the cadets file by. The first man I saw, I saw in the first file, was a young man...

Gracie Reporting

Consolidated News Features HOLLYWOOD, Oct. 25—Well, officially, Halloween is supposed to be next Tuesday, but if you ask me it's been here too long already.

WARNED (Fort Wayne News Sentinel)

In a current magazine article, the President's pal, Harry Hopkins, declares that the United States must continue to be the lender to the whole world, and he declares that there must be even higher taxes to pay the inevitably increased costs of government.

Around Hollywood

By ERSKINE JOHNSON, NEA Staff Correspondent

Estelle Taylor, the screen's No. 1 camp girl of the 30's, gave a lady-like sinner today at the Hollywood "entertainment" shamus.

Estelle Taylor

"Sex," she said, "is something you sense, not something you come with a sweater." Estelle was a pleasant surprise.

THEY HAD HER WRONG

As a movie star, didn't she have quite a reputation as a helicat? Estelle admitted she had.

OUR MEN IN SERVICE

(The Pampa News encourages letters and cards on men and women in service. Identify subject and write plainly, so there will be no chance of mistake.)

SLIGHTLY FOUL LYON

Mr. and Mrs. Paul Lyon, 426 N. Cuyler, have received word from the war department that their son, Pfc. Basil Arnold, 29, was slightly wounded in action October 1.

Pvt. Arnold enlisted in March of 1943 and went overseas in July of 1944. He took part in the invasion of Southern France where he was awarded the Purple Heart. He is now at a Red Cross hospital somewhere in France.

TOOK REFRESHER COURSE

Sgt. Nolan Cole, son of Mr. and Mrs. Edwin Cole, has just finished a refresher course in aircraft maintenance at a modification depot in England. Training with him were soldiers in the uniforms of England, France, Holland, Czechoslovakia, Australia, Canada, and other of Allies.

Sgt. Cole graduated from Pampha high in 1933 and joined the army corps in July of 1942. After training at various stations in the States, he was moved to England for further training in August of 1943.

Cole has a brother, Don, who is back in the States after having seen duty in the Pacific.

Joe Oglesby

Joe Oglesby, seaman first class, is home on furlough after having served overseas for some time. Oglesby has seen action on Saipan, Guam, Tinian, Palau and in the Philippines.

Seaman Oglesby, the son of Mr. and Mrs. Jack Killebrew, 617 North, attended Pampha high before enlisting in the navy. He will report November 19 to the naval base at San Pedro, Calif.

SHAMROCK

—Cpl. Jack Martin of Paine Field, Wash., who has been in service more than two years, is here on furlough, visiting his parents, Mr. and Mrs. W. L. Martin, and other relatives.

—SHAMROCK — A/S Jeff Green, who is a V-12 student at Tulane university, New Orleans, is at home on leave. He is the son of Mr. and Mrs. Charles Scrogins, 1519 N. Main, Pampa.

—SHAMROCK — A/S Max Scrogins, home on furlough, is completing his preflight training at Santa Ana, Calif. A/S Scrogins, the son of M.

L. Scogins of Lela, is wearing a presidential unit citation, which is in addition to several decorations.

Lately James Chaney of Shamrock has been stationed at Rapid City, S. D. Mrs. Chaney is with him.

Pvt. Robert Barth of Grand Island, Neb., left last week-end after a furlough here. He visited his sisters, Mrs. W. R. Wooten and Mrs. George Barth, at Shamrock.

Lieut. and Mrs. Clyde Whittle and daughter, Annisette of Dodge City, Kan., are guests in the home of her parents, Mr. and Mrs. John B. Harvey, Shamrock, this week.

Sgt. Roy Cowalk, 23, son of Mr. and Mrs. Roy Cowalk of east of Shamrock, is now serving as a sheet-metal worker with a Liberator heavy bomber group of the 16th AAF in Italy.

AWARDED THE PURPLE HEART

MIAMI—Lt. Woody Pond, a former Roberts county citizen, visited recently in Miami with his wife. He has been in service over three years, and nine months overseas in a tank destroyer division. He is a veteran of D-day and was wounded on June 11. He has been awarded the Purple Heart.

WOUNDED IN ETO

MIAMI—Mr. and Mrs. J. P. Murry received word this week that their son, J. P. Murry, machinist mate, third class, had been injured in the European theater of operations.

PROMOTED

MIAMI—Burl Chesher, formerly of Miami, now with the navy, has been promoted to petty officer, third class.

WOUNDED

From the war department comes word that Pvt. John H. Pike, husband of Mrs. Rosalie Pike, 618 S. Main, Berger, has been wounded in the European theater of operations.

MOTOR MACHINIST MATE

Richard Casey, 19, son of Mr. and Mrs. Earl Casey, has been promoted to motor machinist mate, first class.

He has been overseas for the past year and is stationed on an LST and has taken part in the battles on the Marshall Islands and the Solomons and landings on Green Island, Hollandia and lately the landing at Saipan and Guam.

PROMOTION ANNOUNCED

The promotion of Alfred A. Lennick, 21, from private first class to corporal has been announced by the commanding general of the Eighth air force.

Cpl. Lennick has been overseas six months and has had some combat in the armed forces. Prior to entering the air corps he was employed in Groom. He is a graduate of the Groom high school.

His wife, Mrs. Rosa Lee Lennick, lives at 121 S. Starkweather, and his parents are residents of Groom.

SOMEWHERE IN THE SOUTH PACIFIC

Sgt. Robert Matteson, radio repair man, is at present somewhere in the South Pacific where he has been serving for the past 22 months.

Matteson received his basic training in San Diego and from there went to North Island, then to Golet, Calif., for his last six weeks' training prior to going overseas in January of 1943.

He has seen service in Honolulu and Palmyra and the New Hebrides Island.

Sgt. Matteson is the son of Mrs. Ada Mathe of the two years he has served in LeFors, and brother of Miss Mildred Matteson, a former LeFors school teacher.

Market Briefs

NEW YORK WALL STREET
NEW YORK, Oct. 30.—(AP)—It was another blue Monday for the stock market today—the fourth one in a row—and, while there were scattered gains, leading issues sold down fractions to more than a point.

The ticker tapes faded frequently and transfers for the full proceedings tapered to around 600,000 shares. Extreme activity was noted here and there near the close but losses were widespread.

Dividends and earnings propped individual favorites and helped keep reaction at a minimum.

Prominent on the official was U. S. Steel, Chrysler, General Motors, John Hancock, Santa Fe, Southern Pacific, Western Union, "A. T. McCormick, Douglas Aircraft, Sears, Roebuck and Philip Morris, American Alcoa and modest support was accorded American Telephone, Pennsylvania, Westinghouse and International Harvester.

Bonds were mixed.

Here's What FDR's Vice President Says On 'U. S. Revolution'

DALLAS, Oct. 31.—The exact quotation of Vice President Henry Wallace as to the "proposed revolution" in America following the present war was received here today by Walter Rogers, campaign director of the Dewey-Bricker forces in Texas from Fulton Lewis, Jr., nationally-known commentator.

"Those of us who realize the inevitability of revolution are anxious that it be bloodless and gradual. Instead of bloody and sudden we believe it can be bloodless and gradual if the makers of public opinion, if the politicians, if the pressure groups will only influence their millions of followers on behalf of the public good instead of regional and class prejudices. We are not going to use the whole Russian political and economic system here in the United States. Russia is doing every day what we in the United States have only preached on Sunday."

Vice President Wallace made this declaration in a speech in Oregon on February 9 of this year.

Side Glances

"Oh, gosh, let's cancel our plans for the usual wrecking—help's so scarce we might have to make the repairs ourselves!"

Uncle Sam Will Help Veteran In Financing Postwar Business

(Editor's note: This is the thirteenth in a series on veterans' benefits, ranging from demobilization to jobs and pensions.)

By JAMES MARLOW

WASHINGTON, Oct. 31.—(AP)—The government will help war veterans—

to buy a home, farm or business—by guaranteeing part of the loans they need for a start. The veterans administration (VA) does the guaranteeing.

There are two chief benefits to the program:

1. The interest charged the veterans can't be more than 4 per cent. The VA won't guarantee a loan with a higher interest rate.
2. For the first year the veterans will have to pay only part of the total interest.

Texas Newspaperman Hurt in Philippines

FORT WORTH, Oct. 31.—(AP)—Stanley Gunn, the Star-Telegram and Houston Chronicle war correspondent in the Philippines, has been injured in the Philippines.

In a message forwarded from General MacArthur's headquarters in the Philippines, Gunn notified his wife here Friday that he had sustained a broken leg. The message did not relate the circumstances under which Gunn received the injury, but said that he would return to the United States within a few weeks.

12 Students Make LeFors Honor Roll

LeFORS, Oct. 31.—J. D. Fonburr, principal of the LeFors High school, announced Friday the names of twelve students who made the honor roll for the first six weeks of this school term.

Angae Rae Davis led the group with four A's and one B. Following her were Patsy McIntyre and Patsy Johnson each with three A's and two B's. Bobby Jean Berryman, Norma Jo Byrd and Jo Ann Wall made three A's and one B.

Following is a list of those making two A's and two B's: Charisse Bright, La Velle Rossmiller, Berryman Breimring, Judith Johnston, Sara Alice Abington, and Delma Rickman.

MILK GOES TO WAR

.... for Lend-Lease and the Military

Each represents 100 gallons

EV 1 DAY

1941 1,680,000 GALLONS
1942 3,000,000 GALLONS
1943 4,910,000 GALLONS

Source: U.S.D.A.

The paramount importance placed upon dairy products by Government and the fighting forces has imposed gigantic problems upon the entire industry. 1,680,000 gallons of milk each day were required in 1941 to make the whole-milk dairy products for lend-lease and military needs. In 1943, that has increased to 4,910,000 gallons every day. It is still higher in 1944.

To supply this milk, the National Dairy Council points out that all the products from more than 210,000 farms with ten good cows each is required. This is in addition to vast quantities of separated milk necessary to produce the non-fat milk solids for lend-lease and military purposes. Never in the world's history has the dairy industry contributed so much to the nourishment of the fighting forces of its nation.

Letters From a Correspondent's War Notebook

By HAL BOYLE

AACHEN, GERMANY, Oct. 18.—(AP)—(Delayed)—Unofficial "Mayor of Aachen" is a 26-year-old American captain who daily toured this wrecked city to see that doughboys got supporting fire in prodding German defenders from attic and basement shelters.

Whenever Nazis holes up for a last-ditch defense, you could look around and find Capt. Gilbert H. Fuller of Ludlow, Va., calmly twirling a borrowed enemy cane and calling up mortars and machine-guns to blast them out.

Ask Fuller what he did before entering the army, and he will first say "my memory isn't that good," and then he'll add: "I guess I was just a slacker."

He is one of the most popular junior officers along the front. His men like him because he came up from the ranks during his four years service, and hasn't got officer's complex.

The troops like him, too, because he fights gaily. No matter how the enemy mortar or artillery fire showers down, they always call glances and see him grinning cheerfully. It causes their own unconscious fear of death to Ebb.

He is one of the few men in this nasty, house-to-house cleanup who actually seems to enjoy the job. He has a boy's love of battle, and one positive theory of street fighting: "Just throw around all the firepower you can—and the rest isn't so hard. Make a lot of noise in the streets and you can scare the enemy. They run down into cellars, and

then you teach them to be good with a grenade—if they haven't already had enough."

In 1908 French investigators discovered that the keeping quality of cut flowers was not improved by any chemical used in water unless it was in combination with sugar.

Pampa Harvesters Continue Drills for Saturday Meet

Estimated That 12,000 Will Witness Annual School Clash

The grid classic Saturday afternoon on the field of Butler Stadium, Amarillo, between the Harvesters and the Golden Sandies will be, as usual, a battle from the whistle. The Golden Sandies, defeated by the Harvesters last year 7 to 0 in somewhat of an upset, have been waiting one long hard year to avenge the defeat. The Harvesters, on the other hand, have forgotten the 7-0 win but shall never forget the humiliating 39-7 blasting which the Sandies gave the Harvesters in 1942.

Sports scribes, with eyes gleaming on the grid field, predict defeat for the Harvesters, but past experience has taught fans the Harvesters thrashing machine works better on bigger and tougher teams, therefore the outcome is unpredictable.

As far as weight, experience and about everything else, the Golden Sandies have the upper hand on the Harvesters, but for that matter so did Oklahoma City's Cardinals, whom the Harvesters would allow but seven points. Les Ming got away for a long hard streak down the field that brought the Sooners to pay dirt. Had this not happened, the Cardinals would have returned home neither winner nor loser. Les Ming, an all-American high school grid player, and despite scribes from the Sooner state claiming the Cardinals were playing under blanket, in order that they play prize material against Norman the following week, fans know better, for they saw about everything the Cardinals had played.

Exhibiting continual improvement as the season progresses, the Harvesters have been taking everything coming their way for the last three games. Opening the season September 25 they went to a fast victory over the Phillips Blackhawks 13 to 0. They next met the fast Midland Bulldogs and were defeated by a score of 18 to 13. Come Oklahoma City with their tough and hard fighting Les Ming, and the Harvesters again went down, but only by a 7 to 0 score.

Facing a supposedly high rating team from Clovis, N. M., the Harvesters played evenly on the field in uniform, but still the score mounted. The final gun stop-

ped it at 83 to 2. One week of no scheduled game was a blessing to the Harvesters, for the sound attended the clash between Amarillo and Norman, Okla., there to see new tricks in the art of pushing the pliskin down the field. The Harvesters will be waiting for the beginning of such tactics Saturday afternoon.

Come news through the sports columns of Amarillo papers that say "Frankly we are worried." The Sandies have every right to worry, for no one knows, except the members of this Harvesters squad, of the tricks carried around in their bag. They have pulled things that have not only looked good, but were good, and win or lose the Harvesters are a fair, open and above board bunch of fighters. They are under the guidance of Coach Otis Coffey, a man who not only has the ability to handle his team, but who eats, sleeps and even writes football.

What is to happen on the grid field in Amarillo this Saturday afternoon is hard to guess. Amarillo claims they will defeat the Harvesters, and they have the upper hand, but almost anything can happen. The game is by far the best on the schoolboy schedule this week-end, and already officials estimate over 12,000 spectators.

Rightly or wrongly, going on the air in Amarillo at 2:15 Saturday afternoon, will bring to Pampa grid fans a play-by-play description of the classic.

500 More Amarillo Grid Tickets on Sale

Ducats for the Amarillo Golden Sandies-Pampa Harvesters football classic, to be played at Butler stadium Saturday afternoon, Amarillo, are on sale in the office of Roy W. McMillan, manager of the Pampa Independent school district, city hall. Numbering over 1,200 the tickets went on sale early Monday morning, sales consuming the greater majority of the number before the noon hour. McMillan has requested an additional 500 tickets for Pampans. Officials estimate that the clash will be a drawing card for over 12,000 spectators.

Army Picked As Tops In Sports Poll

By HAROLD CLAASSEN
NEW YORK, Oct. 31.—(AP)—Army is the top football team in the country by vote of 101 sports writers polled by The Associated Press and Randolph Field ranks first among the service teams.

The West Point cadets garnered 41 first place votes and collected an aggregate of 898 points, exactly 100 more than collected by Notre Dame. The Irish were marked No. 1 on 15 ballots but were unable to retain their first place rank, a position they had held through 13 consecutive tabulations starting with the first of 1943.

In the over-all poll, in which both college and service teams were ranked, the two leaders were followed by Ohio State, Randolph Field, Georgia Tech, Navy, Iowa Pre-flight, North Carolina Pre-flight, Illinois and Michigan, Ohio State was first on 17 tickets and Randolph on 18, each thus surpassing Notre Dame in that department.

A strictly collegiate first ten, however, would be made up of Army, Notre Dame, Ohio State, Georgia Tech, Navy, Illinois, Michigan, Southern California, Indiana and Tennessee. The unbeaten but tied volunteers are in sixteenth place in the over-all tabulation.

Randolph Field heads a service ten that has Iowa Pre-flight, North Carolina Pre-flight, Fourth Air Force, Bainbridge, Md., Naval, Great Lakes, Norman, Okla., Navy, Second Air Force Third Air Force and Camp Peary as members.

Camp Pierce (Fla.) Navy, an unbeaten and untied eleven, was the only other service club to draw votes in the fourth poll of the 1944 season.

TCU Coach Glad He Has Open Date

(By The Associated Press)
Coach Dutch Meyer of Texas Christian University could well be glad today that his team has an open date Saturday—an extra week could conceivably ease Meyer's pain in losing eight players.

Scholastic ineptility hit the Frogs yesterday, removing three linemen, two regulars and one reserve, after navy transfers, military induction and injuries had taken five players in seven days.

Newly ineligible men are Albert Craigwell, 195-pound starting left tackle for Stephenville; Bryan Taylor, 210-pound starting center from Corpus Christi and Embrey Walton, 185-pound reserve tackle of Fort Worth.

Don't Look Now—

It is quite apparent that Gordon Gray suspects he is being followed, but he spent evening in Los Angeles Coliseum running for magnificent distances as Southern California belted Washington, 38-7. Trojans' swift back is being pursued by Bob Knowles, left, and Jim McGarry. Note white tips on ball.

White's Glass Eye Is Under Probe

LOS ANGELES, Oct. 31.—(AP)—The disclosure that Luther (Sluggo) White has a glass eye is being investigated by the state athletic commission, that agency has announced.

Dr. A. E. Edgerton, commission physician, discovered the artificial right eye of the Baltimore Negro boxer during a checkup in San Francisco last Thursday. The commission immediately cancelled White's participation in a fight with Willie Joyce scheduled for last night in San Francisco.

The Frogs play their next game Saturday, Nov. 11 when they meet Texas Tech in Fort Worth. Rice, who meets Texas Tech at Houston next Saturday, also has its troubles. The conference leader loses Morris (Buck) Sheffield, 200-pound fullback who last Saturday threw the pass which beat the University of Texas squad. Sheffield's name was among naval trainees posted yesterday for transfer from Rice to a service training center.

Meanwhile, Texas A&M limbered up for a meeting at College Station Saturday with the Arkansas Razorbacks. At Dallas the Southern Methodist University Mustangs were glad to see R. O. McWilliams return to practice as first-string center as they prepared for Saturday's game with the University of Texas Longhorns in Austin.

Sports Roundup

By HUGH FULLERTON, JR.
NEW YORK, Oct. 31.—(AP)—Texas Pete Cawthon should have waited another day before he quit as Brooklyn Tigers coach—he couldn't have seen any more specks on Halloween than he did in Dodgerstown—this year's Tigers have lost five straight games and not one by more than seven points—the last two were 17-14 and Washington's winning field goal hit the cross bar. Pete said he never had seen that happen before in all his coaching days—incidentally, it wasn't the Ebbeis field fans who ran Cawthon out of Brooklyn but the other common complaint—from office interference.

LOS ANGELES, Oct. 31.—(AP)—The meeting room with a puzzled look on his face and asked: "what does indefinitely mean? Does that mean I can't fight anywhere else?" —Vince (meal check) Dimaggio of the Pirates made 82 hits last season and struck out 85 times—Lou Little's explanation of the Illinois touchdown against Notre Dame that was called back because of "too much time" is that Buddy Young is expected to run at a 10-second-per-100-yard clip and he was a shade slower on that gallop.

F.D.R. (Continued from Page 1) Washington that the President is commander in chief and asked: "Who ever heard of changing a quarterback in the closing minutes of a football game when his team is only five yards from the goal line and his opponents are demoralized?"

A similar thought came from Senator Harry S. Truman, democratic presidential nominee, at Providence, R. I. "It is always poor policy to send in substitutes when you have a winning team on the field," he said.

The argument that Roosevelt-Truman team isn't even a traditional democratic party team was reiterated by Gov. Joe W. Bricker, the republican No. 2 man.

Bricker said in a Detroit speech that "a foreign influence of the most pervasive kind is trying to take over our government." Linking this to what he called "facts" which "conclusively prove that Franklin Roosevelt and the new deal are in the hands of the radicals and communists."

He cited in support a list of federal employees submitted by the Dies committee of the house as "members of subversive organizations." Tomorrow Bricker heads on a 10-speech eastern swing from Ohio.
