Your Republic will pillaged and razed in the Twentieth Century just as the Roman Empire was in the Fifth Century, with the difference that in the devastation of the Roman Empire the Huns and Vandals came from abroad, while your barbarians will be people of your own country. —Lord Macaulay

IT'S POP'S DAY — Fred Neslage gets all the attention today — breakfast in bed in everything! Little Marion brings in the dishes for the special treat while all the rest of the kids admire their "pop." Watching the procedure (left to right) are July and Dorothy Jean, Freddie, Billy, Bobby and Johnny. The baby, Pat-Sy, was asleep at breakfast time. (News Photo)

President Labels Ike Salesman Of Cut-Rate Security

Union Lashes Dixiegops For 'Kick In Face'

WASHINGTON — (P) — The CIO Saturday accused Senate "Dixiegops" — Republicans and Southern Democrats — of kicking labor in the face and said "American labor will not soon forget."

FIRST PAMPA WHEAT — W. R. Dunn, left, three miles north of Pampa received a premium price of \$2.25 per bushel from the Fisher-Panhandle Grain Company for the first load of wheat brought to a Pampa elevator this year. The load weighed in at 143 bushels and 10 pounds with a test of 60 pounds per bushel. It showed a 13.88 per cent moisture content. Pictured with Dunn is Charles Robinson, bookkeeper and dock manager of the grain company. (News Photo)

Makes Attack At Dedication Of Atom Sub

GROTON, Conn. — (P) — President Truman coupled the dedication of atomic energy to a golden future Saturday with an attack on Gen. Dwight D. Eisenhower as a salesman of "cut-rate, bargain counter" national security.

Commission Okays Lights For NW Field

Purchase of landing lights for one runway at the northwest field was approved unanimously yesterday by the county commissioners during a special session in County Judge Bruce Parker's office.

Reshuffle Of Envoys Alerts West To Possible Russ Moves

WASHINGTON — (P) — A reshuffle of Soviet diplomats involving key western capitals alerted the United States and other western governments today for a possible major Russian political move in the cold war.

25-30 Bushels At Laketon... First Wheat Begins Rolling Into Panhandle's Elevators

Wheat harvest is expected to be in full swing throughout the county by the end of this week as the first loads have begun rolling into elevators in Pampa and Laketon, Rahn this week end was too slight in wheat areas to affect harvest plans.

Says U. S. Has H-Bomb Ready

HARTFORD, Conn. — (P) — Senator Brian McMahon indicated Saturday that America has solved the secret of the hydrogen bomb.

Secret Red Base Blasted

SEOUL, Korea — (P) — Waves of Allied fighter-bombers pounced on a hidden Communist airfield less than 100 miles north of Western Korea battle lines late yesterday and left the runway pocked with bomb craters.

Justice Shakeup Leads Off Probe

WASHINGTON — (P) — Attorney General James P. McGranery shook up top echelons of the Justice Department Saturday, announcing the resignation of three of his six assistant attorneys general.

Health Department Seeks Limitation Of Flies In City

With the sharp beginning of the polo season in Texas, L. E. West, city health inspector, asked people leaving livestock and open toilets inside the city limits to take every precaution in keeping them clear of flies.

Section Crew Narrowly Misses Death As Train Roars Off Track

COLEMAN — (P) — Twenty-seven cars in a long freight train roared off a track near here Saturday, narrowly missing a section crew before crashing into spectacular flames.

Mutual Star Slates Visit

Bobbie Benson and his B-Bar-B Riders, famous radio personalities, will be featured in this year's Top of Texas Rodeo and Kid Pony Show, August 6, 7, 8, and 9.

Judge Tags Shivers A Playboy

A small audience turned out at the north end of Pampa City Hall yesterday to hear Judge Ralph Yarborough, candidate for governor, accuse Gov. Allan Shivers of "playboyism" and running an "arragant and dictatorial" administration.

City Directory Out In January

Canvassing for the 1952-53 City Directory for Pampa has been started, and the directory is expected to be published about January, 1953.

Registration For Summer Program Will Begin Monday

Registration for the summer recreation program has been set to begin at 8:30 a.m. Monday and Tuesday, according to Otto Mangold, program director.

Registration For Summer Program Will Begin Monday

Registration for the summer recreation program has been set to begin at 8:30 a.m. Monday and Tuesday, according to Otto Mangold, program director.

Wounded In Action

Pfc. Harold E. Fry, son of Mr. and Mrs. Clarence E. Fry, Pampa, has been reported wounded in the Korean area, according to the Department of Defense.

Borger Oldster Missing Two Days

An 81-year-old Borger man has been missing from his home since Friday morning. J.H. Crawford is 5 feet 6, weighs 100 and has a dark complexion.

A POLITICAL HANDSHAKE is given Jeff Seitz, seated, by Judge Ralph Yarborough, standing, after he spoke at the north end of City Hall yesterday. Seated and looking on is H. C. Coffey, one of the men who turned out to hear the candidate speak.

Briton Charged As Communist Agent

LONDON —(AP)— William Martin Marshall, a 24-year-old radio operator in the British Foreign Office, was formally charged Saturday with passing state secrets to the Soviet Union.

After a first hearing in a magistrate's court, Marshall was ordered held in prison without bail. He did not enter a plea at the first hearing.

When he was charged earlier at Wandsworth Police Station, however, he said, "I deny the charge." Magistrate Clyde T. Wilson ordered Marshall's next hearing in a week, at which time he would be expected to plead.

Scotland Yard anti-espionage agents arrested the slight, fresh-faced youth, who looks like a high school senior, in a London Park Friday night. Marshall, formerly a radio operator in the British Embassy in Moscow, specifically was accused of violating Britain's Official Secrets Act by tipping information on "diverse dates and at diverse places" to Pavel Kuznetsov, second secretary of the Soviet Embassy in London. The charge said the information would be useful to the enemy.

Chief Inspector William Hughes told the magistrate Marshall was arrested while strolling in King George's Park with "another person," who was identified. The foreign office refused to confirm or deny a report that this second man was Kuznetsov and that he had claimed diplomatic immunity. The Soviet embassy did not comment.

A foreign office spokesman declined to say immediately whether Britain would ask Moscow to call Kuznetsov home. He said the government would take no action

which would prejudice a jury in Marshall's case.

Asked whether Soviet Ambassador Georgi Zarubin had been informed of the case, the spokesman said: "I think not." Zarubin, who was ambassador in Canada when a Soviet spy ring was broken there in 1946, has just been reassigned to Washington. He was absolved of any part in the Canadian investigating commission. Conviction under the Official Secrets Act carried a maximum penalty of 14 years imprisonment. That is the sentence now being served by Klaus Fuchs, convicted of giving vital atomic secrets to the Russians while working as one of Britain's top atomic specialists.

Marshall's job at \$1,120 a year salary—was to send code or plain messages from the foreign office to British embassies around the world. The foreign office spokesman said the fact he sent coded messages did not necessarily mean he had access to the most secret messages. That most messages already were coded when handed to an operator.

Clem Koshorek, rookie infielder for the Pittsburgh Pirates, is the smallest player in the majors. He is five feet five and weighs 165 pounds.

PRETTY KITTY-CORNERED—Hunting social "lions" at the Paris Fair, Arabelle, 16, left, has finally cornered a pretty kitty, Claude Richard. Claude's bathing suit is the cat's meow, and there's nothing wrong with the attire of the "huntress."

Demonstrations On 'Hopper Poisoning' To Be Held Monday

Demonstrations on poisoning grasshoppers in gardens and field crops will be given tomorrow at 2 p.m. at the Irwin Cole farm for gardeners and farmers throughout the area.

Fred Reece of the Bureau of Entomology, U. S. Department of Agriculture, Amarillo, will show the use of hand sprayers and power sprayers with various types of insecticides.

The demonstrations are sponsored by Foster Whaley, county agent, as a result of reports the heavy grasshopper infestations on gardens and young row crops in the area.

Ted Evans of Pampa is furnishing the equipment for the demonstrations. Reece is to give demonstrations at a similar meeting in Pampa tomorrow at 8 p.m. at the Carson County Court House. Reports from the Carson County Agent indicate that grasshoppers are damaging crops and gardens in that area also.

The Cole farm is one mile south of Pampa on the Clarendon Highway and one-half mile east. Signs to indicate the location are to be placed on the highway, said Whaley.

To Publish Book

Rev. C. Gordon Bayless, former pastor of the First Baptist Church in Pampa, is to have a book of his revival sermons published. The tentative title is "Broadcasting from Calvary" and the publishing contract is with the Fleming H. Revell Company, with offices in New York, Los Angeles, London and Glasgow, Scotland. National publicity through periodicals is planned.

Rev. Bayless is now pastor of the Central Baptist Church in North Little Rock, Ark.

Anthony Eden Said Future Premier

WARWICK, Eng. —(AP)— Mrs. Winston Churchill, wife of the Prime Minister, referred to Foreign Secretary Anthony Eden Saturday as a future prime minister.

Eden had just completed a speech to a Conservative Party rally here, his second of the day in this area, when Mrs. Churchill told the crowd: "I congratulate you on having as your member so distinguished a statesman and a future prime minister."

Nova Brummett Services Monday

Funeral services for Nova Lora Brummett, infant daughter of Sgt. and Mrs. Bob Brummett, of Reese Air Force Base Hospital, Lubbock, will be held at 2 p.m. tomorrow in the Duenkel-Carmichael Funeral Home Chapel. Rev. M. V. Mears, pastor of the First Baptist Church of White Deer, will officiate, assisted by Rev. Douglas Carver of the Pampa First Baptist Church. Burial will be in the Baby Garden, Fairview Cemetery, MAP.

Pastor Speaks For Brotherhood

Men of the First Baptist Church will meet Tuesday at 7 p.m. in the dining room of the church for the monthly brotherhood dinner meeting. Rev. Taft Holbrook, pastor of the First Baptist Church, Canadian, is to be guest speaker.

Table captains include Stanley Drake, Otto Mangold, Jack Bearless, Leroy Biggs, E. N. Ellis, E. C. Edwards, W. A. Frenning, E. C. Mackie, W. L. Rountree, Ely Sargent, C. E. Broadhurst, Harold Anderson, Floyd Barrett, Joe Foster, Henry Kolb, Dr. George Snell, H. H. Still, M. A. Jones, Bob McKenamy, H. L. Gunter, W. J. Morris, Paul Appleton, Allen Hoover and Buzz McDonald.

appointment Saturday and said the Austin public relations firm of Hart & Van Cronkhite would serve as advisors in the campaign.

Dillard Will Manage Shivers' Campaign

AUSTIN —(AP)— Jack Dillard of Waco, executive secretary of the Baylor University ex-Student's Association, will be state campaign manager of Gov. Shivers' race for a second term. Shivers announced Dillard's ap-

Mainly About People

The brother of Mrs. Ivan W. Howard, 1322 N. Russell, will become Director of Installations for the U.S. Air Force July 15. He is Brigadier General Lee B. Washburne of Headquarters Strategic Air Command, General Washburne has been chief of the Air Installations Division, Directorate of Materiel, Headquarters SAC, for the past four years.

All beers 25c Southern Club. Mr. and Mrs. Vernon Stuckey and children, Patricia and Schuyler, are on a three-week vacation to Yellowstone Park, Glazier National Park, Washington, and Portland, Oregon. They will also visit Mr. Stuckey's parents and other relatives in California.

Frasher, Atlanta, Ga., head of the chemistry department of Georgia Technological College, and his friend, Dr. Howard Stroble, a professor at Duke University, Durham, N. C., visited in the home of Frasher's parents, Mr. and Mrs. E. G. Frasher, east of Pampa. They were en route to Mexico City.

Fryers approx. 2 1/2 lbs. \$1.00 each. 301 Tignor—Jess Taylor, Mrs. John Beverly, 301 N. Cuyler, who has been ill at her home for several weeks, was reported improving yesterday.

Hospitalization, Polio, Life Ins. Business Men's Assurance Co. Frances Craver Agency 1300 N. Russell, Ph. 614.

Robert Bagdale of Pampa is among the 11 Texas students listed in the enrollment for the summer session at Southwestern State College, Weatherford, Okla.

Oxygen equipped ambulances. Ph. 400 Duenkel-Carmichael. Miss Nina Spearman, daughter of Mrs. J. E. Spearman, 1707 Mary Ellen, returned recently from Texas Tech College, Lubbock. She was elected to the Junior Council, an honorary organization of 15 junior girls who have maintained a B average in college. They are elected on the basis of leadership, scholarship, and high moral character. Miss Spearman was also elected to represent Horn Hall in the Association of Women Students for next year.

Luzier's Cosmetic's Ph. 4146. Linda Duffek, daughter of Mr. and Mrs. Don L. Duffek, 427 Short, is visiting her grandmother, Mrs. B. A. Russell, in Sherman.

All beers 25c Southern Club. Mr. and Mrs. E. G. Hemphill, their twin sons, David and Dale, and their daughters, Evelyn and Patty Jo, all of Skellytown, have returned home after a vacation spent in Walters, Okla., where they visited relatives. They also attended a Hemphill family reunion at Wolf City, Tex., June 8.

Can Of Paint Spells Disaster

ST. URBAIN, Que. —(AP)— A can of paint absent-mindedly placed on a hot electric stove spelled disaster yesterday for this village on the north shore of the St. Lawrence River.

A blinding explosion ripped through the house, starting a roaring blaze. When it was all over, six hours later, 62 buildings lay in ruins and 350 people were homeless. No one was injured.

The Army and the Red Cross, working together, have set up emergency quarters in the parish hall and in a convent. No estimate of damage is immediately available but it is expected to run well over the \$500,000 mark.

Openings Announced For Hopkins School

Applications for two teacher vacancies at the Hopkins school are now being accepted and interviews made at the county school superintendent's office in the court house.

Resignations of Mrs. C. L. Cross, fourth grade and music teacher, and Mrs. Claude Zevely, third grade, brought about the vacancies. Zevely is the school's principal.

PLAN NEW BUILDING ODESSA —(AP)— Plans for a ten-story million-dollar office building here were announced Saturday by Phillips Petroleum Company and Ben Nedow, owner of radio station KECK of Odessa.

Says Consumers Are Like Sheep AUSTIN —(AP)— Consumers usually behave like sheep, says Dr. Edward G. Nourse, former chairman of the President's Council of Economic Advisors. Dr. Nourse delivered a series of lectures during the first week of a workshop in economic education at the University of Texas. The consumer is "sitting on his hands," now, Dr. Nourse said, because he overbuilt his inventory after the start of trouble in Korea anticipating a World War III. "Consumer behavior is always sheeplike," Dr. Nourse said. "The scarcity becomes a self-created sort of thing, business inventories are built up, and consumer pantries and linen closets are over-stocked. Consumers run after rising prices and from falling prices."

He was emphasizing that inflation and its control form one of the outstanding problems of free enterprise economy. "While we may know the tools that may control inflation, we do not always have willingness to use them," he said.

Overtime Parking ANACONDA, Mont. —(AP)— A housewife has asked police to remove a parked car from in front of her house. She said the car has been parked in the same spot for two years.

Ike Claims 'No Deals'

DETROIT —(AP)— Gen. Dwight D. Eisenhower, scrapping his carefully prepared speech, told a cheering throng here last night that he has made no deals for the GOP presidential nomination and "I have no political debts."

"I am strictly a no deal man," the general declared before a monster crowd which gave him a thunderous welcome as he entered the Olympia Stadium.

"I have heard of many deals," he said. "All of us have." Then he insisted that in his talks with delegates to the GOP national convention and to others that he has made no political commitments so that things will be as he might want them to be in the case of victory.

He went on to declare his belief that a change in the administration of the federal government "is absolutely mandatory."

Referring to corruption in government, the general told his responsive audience there are many ways to clean up corruption in government "and we can do it."

Then he added: "That applies to primaries... and that applies to my native state of Texas."

This was obviously a direct slap at the forces of Senator Robert A. Taft of Ohio who the Eisenhower supporters have accused of "stealing" GOP delegates in Texas.

PLAN NEW BUILDING ODESSA —(AP)— Plans for a ten-story million-dollar office building here were announced Saturday by Phillips Petroleum Company and Ben Nedow, owner of radio station KECK of Odessa.

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with the truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa News, Atchison at Somerville, Pampa, Texas. Phone 646. All departments. MEMBER OF THE ASSOCIATED PRESS. (Full Listed Wire). The Associated Press is entitled exclusively to the use for republication on all the local news printed in this newspaper as well as all AP news dispatches. Entered as second class matter under the act of March 3, 1879.

SUBSCRIPTION RATES: BY CARRIER in Pampa 25c per week. Paid in Advance (at office) \$2.00 per month, \$6.00 per six months, \$12.00 per year. By mail \$2.50 per year in rural trading zone, \$2.75 per year outside rural trading zone. Price for single copy 5 cents. No mail order accepted in localities served by carrier delivery.

The Ornament Of Prosperity

By Thaddeus Ashby

Customer Is Boss

An official of a retailers' association recently had this to say about merchandising: "Stores are so different from each other as people are. Each store has its own personality which reflects its method of doing business. All of them are united, however, in one principle. They consider themselves NOT as distributors for manufacturers or as manufacturers' agents. They are purchasing agents for the consumers. As such, they find out what their bosses, the customers, want to own. They locate this merchandise. They offer it for sale."

Here we have a situation which is typical of a free competitive economy — and only of a free competitive economy. If manufacturers produce and stores stock something which people don't want, the goods tarnish on the shelves and must be sold at a loss or not at all. For, when the customer becomes dissatisfied, there's always a manufacturer who makes what he does want and a store which sells it. And that's where his business goes.

In a socialized or government controlled economy, the case is utterly different. The government decides what shall be produced, in what quantity and quality, and at what price it will be sold. If the consumer doesn't happen to like the article, it's his tough luck. He has to take it or go without — for no one is allowed to make or sell a competitive product. This totalitarian method of controlling consumption has reached its full flowering in Russia, where the people's living standards are incredibly low as compared to ours.

Yes, in this country the customer is boss. And our economic system is responsible for that happy fact.

Prodigality Danger

"Profits are the lifeblood of private enterprise," says U. S. News & World Report. "They help provide the capital for improvement and expansion. They finance inventories and provide the cushion that staves off trouble when times get hard. With prices where they are, more money than ever is required by private business to finance its operations. Yet the tax collector has moved in to take the bulk of all corporate earnings."

To back this up, the magazine showed the extent of the tax burden, carried by a number of representative corporations in such basic fields of activity as steel, aviation, agricultural implements, rubber, railroads, chemical, and so on. In every case, the government takes more in taxes than the company can keep or distribute to its shareholders, and in many instances the tax rate is over twice as much. This happened with 1951 tax rates — the 1952 burden will be materially greater. Corporate taxes now are actually higher than during the peak of the war effort.

You needn't be an economist to understand what this will do to our economy if it is continued long enough. The cards are stacked — if a man takes a risk and loses he must bear the whole loss, while if he wins the government will take most of what he makes. There is no surer way to dry up the sources of capital which are vital to a dynamic, progressive economy. And, in the long run, there is no surer way to undermine the living standards of our all.

History has proven, time and time again, that prodigal government can destroy a nation. And history repeats itself.

Who Is Thaddeus Ashby?

In this issue we are running a very important article on "The Ornament of Prosperity" by Thaddeus Ashby. In this article he attempts to prove, and we believe does prove, that there would be more financial support for education under a voluntary basis or a free enterprise basis than there is when it is supported by the state.

Mr. Ashby is a young man of 26 or 27 years of age. He was born in Oklahoma. He went to Harvard and then went to war. He came back and again went to Harvard. He ran out of money and went to New York to get a job. He could not find anything very attractive and finally decided to work as a sweeper in the Republic Iron and Steel Co. He worked up to the open hearth. He wrote an article describing his work and experiences, which was run in the July, 1950, issue of Reader's Digest. There was such a demand for the article, that Reader's Digest sold 250,000 reprints of it.

Mr. Ashby is now suffering from tuberculosis and is taking a year's rest in Santiago, Chile.

He is a regular contributor to the Freeman magazine and Human Events. One of his articles has been reproduced in the Congressional Record.

He is a true liberal and defines a liberal as a man who believes liberty will work.

There is not much demand for articles that are constantly liberal. Most magazines and newspapers will only go so far in pointing out certain violations of liberty.

Freedom Newspapers, Inc., bought four articles from Mr. Ashby for \$200 because of the lack of market for true liberal articles. The price does not prevent Mr. Ashby from selling these articles to any other newspaper or magazines that care to buy them.

We believe the article reproduced in this issue is a splendid presentation and suggest that the reader save it if he doesn't have time to read it at this sitting and after he has read it hand or mail it to someone else to enjoy.

On one occasion Aristotle was asked how much educated men were superior to those uneducated: "As much," said he, "as the living are to the dead." . . . It was (also) a saying of his that education was an ornament in prosperity and a refuge in adversity.

Diogenes Laertius Aristotle II

I am going to explore here a very provocative idea: Can public education keep pace with progress? Could private education do it better? I hope to show that public education cannot greatly expand without aid from the federal government. I believe that public education will then become a monopoly of the federal government; in the same way that after local school boards applied to the states for subsidy, education then became a monopoly of the states.

Knowledge Dies Without Liberty

Progress depends upon liberty, in the field of knowledge. History shows that when the state monopolizes any branch of knowledge, liberty in the field of knowledge dies. All liberty may die soon after. Liberty is not a divisible thing. You cannot have freedom in one field and restrict it in another. Freedom of action without freedom of thought cannot long endure. There can't be different "freedoms" applied to different activities; there is only freedom. Curtailment of liberty in one field does not mean that "one freedom" has been taken away; all freedom has been diminished. This article presumes to present a practical alternative to state monopoly or state dominance of the dissemination of knowledge.

Let us begin by defining liberals. We all call ourselves liberals. We all claim to believe in liberty. Let us start from there. In recent years "liberal" has been applied to persons who believe in government operation of services which had formerly been provided privately. I urge you to dam this flowing tide, and to embrace with me a much older definition of liberalism: "A liberal knows that liberty will work."

To know that liberty will work demands great imagination. You must envision man straining, striving, exerting himself, burning the candle at both ends—in the future. Free human intelligence defies prognostication. We admire and marvel at the way free intelligence performs miracles in other fields. From them we must infer how liberty would operate in the field of education. What? Would I educate everybody privately? Impossible! Let us explore seriously this alleged impossibility. You probably have not previously examined any alternative to the status quo. Let's do so. As an economist let's ask: "Is there a demand for education?"

Be very careful how you answer. A trap yawns for you, whether you answer, yes, or, no. I repeat the question: Do people want education? Watch your step! You answer, yes, yes, of course there's a demand for education! Then you say: "But once you stop forcing tax supported schools upon our people, a large percentage of children must stop receiving education."

You say: "Stop forcing parents to send children to school; and they will stop going to school." Aren't you saying the supply is greater than the demand? Nevertheless you assure me that you still want public education no matter if it's in excess of demand. Are you sure you say that? Then you need read no further. You believe the economic law of supply and demand has no practical validity.

Education in Short Supply Perhaps, however, you have used your eyes. Perhaps you've taken a look at the overcrowded conditions of our schools. With the evidence of your eyes you reject your above pessimistic view, that we are surfeited with education. You see, that on the contrary, education is in short supply. You see now that the demand is greater than the supply. Everyone who wishes to see education expanded agrees with you. We are optimists then. We believe that people not only need more education. We believe they are smart enough to know it. Now follow me carefully. The economy expands. Jobs become more technical. Education must expand too. You agree? Good. Now—Can public education do this? I won't press you for reply until you have looked at present day schools. Cramped with pupils to the bursting point. The teachers harassed. The teachers underpaid. The teachers too inundated with the beneficiaries of the school tax . . .

to them beneficially. Look at them. One look convinces you that for the moment, the supply of public education lags far behind the expanding economy's demand. Can it keep up in the future? Or will it always lag behind? Must education always be inadequate? We have scrutinized the state school tax structures to find ways of raising new taxes. We find most states are sorely strained for funds

and their school men agree: public schools cannot possibly expand—without federal aid. That is a certainty. You can't expend public schools indefinitely without federal aid. But look to the federal government when local resources have dried up? Isn't that a contradiction in terms?

Education Must Never Stop Great expansion of education will not and cannot come about through government action. For a very simple economic reason. Taxes cannot shoot up and up, forever increasing. No government agency can expand forever. But to keep up with private production education must extend, enlarge, augment, germinate and flourish. It must never stop growing. It must expand forever with no more limitation imposed on schools than we should impose limitations on man's imagination. The government can't provide this constant growth. Even if we became a total dictatorship. The moment production stops the government will expand only a little beyond, then it will collapse. Do you argue that you will curtail other government agencies and use the money saved for education? That sounds reasonable. Stop, look and think. It is the same argument of every other government agency which wishes to preserve itself. All outstretched palms allege equal claims. Political expediency doesn't counsel chopping off any of them.

The educators themselves refuse to rescue us from this dilemma, for they are notoriously unselfish persons. They believe in charity. They believe in aid to Europe. The World Bank, Point Four, Health and sanitation projects for the world. They demand continuance of all other elementary propositions which compete with public education in the race for federal funds. The educators, therefore, will be hardpressed to decide which agencies should be killed in order to appropriate more funds for themselves.

Let Education Expand With Production Only one way exists to expand education, so that it will expand indefinitely. That is: Let education expand marginally as the rest of the economy expands. Let the schools sprout up at the same rate and for the same reason as skyscrapers. Do you think the government can achieve this? Federal aid will not work, even for a short time. For this reason: As general taxes go up, production slows down. The margin narrows. Funds for education dry up. But why should education be marginal, you ask. Why shouldn't it come ahead or production? Why not dip into capital to support so worthy a cause? Those are good questions. Farmed education rests high on everybody's list of important things. But it is a long range benefit, intangible in nature. Do you call education the same thing as an investment in a quart of milk? It's not the same. If the quart of milk doesn't come first, you will not live to reap the harvest of long range investments. There are no don't rate formal education as important as production. We call it marginal to production. That is, it must be paid for out of surplus funds. You cannot dip into capital safely. Admit this important point and you will see why poor nations have poor schools. Whether they are operated privately or publicly need not complicate this specific point. This point shows: private or public, schools must be operated with money marginal to production. So rich nations (nations in which production comes first) always build expensive schools. Do you cite Spain as an example of an illiterate citizenry, because Spain has no public schools? We know Spain's private schools are poverty stricken. We don't all see the real reason why. Since Spain expelled the Moors and the Jews everything in Spain has been poverty stricken. Since then Spain's production lagged behind government spending, Spain dipped into capital. But private or public, the U. S. would have rich schools. Let us concentrate on this point. Would U. S. schools not be richer and more capable of infinite expansion if they were run privately? Put it

this way: What is the best way of building as many schools as possible at an ever expanding rate? That phrase, an ever expanding rate—there lies the key to my whole argument. A dictator who believed in public education might build a school on every block. But what happens to the schools when he bankrupts the nation? His programme cannot continue at an ever expanding rate. If he puts schools, or anything else, ahead of production, his programme will shortly collapse. Remember the legend of The Golden Eggs? Our schools show no signs of collapsing yet — but they lag woefully behind demand. They can't catch up—without resort to the stultifying effects of federal aid, and ultimately federal domination. Then the other agencies will have been expanded as well. Then the golden

system will surely outlive . . .

Therefore you need not show insecurity by refuting my arguments before examining them objectively. Lend your dignity to my investigation. Grant me the respect of a worthy adversary. Explore with me the possibilities of widespread private schools. If you do, I may succeed in provoking your intelligence to take an interest in the cause of a truly free society."

The argument that 1000 children can never afford a two million dollar school house will be easy for you to refute without my aid. Have you ever gone into an A & P store? Or entered a multi-million dollar movie palace? Then you will realize that you as a patron were not imposed upon to capitalize the building. A supermarket is not put up by its customers. The entrepreneurs of a \$2,000,000. private school will raise money for it through any accepted method. If they can get 1000 prospective students per year, tuition at \$200 per head will pay for the building in ten years. Assuming, that is, all incomes goes to retire the debt. Probably they will pay for the building at \$50 per head per year over forty years. Some office buildings are amortized over 99 years. Let them finance it any way they wish.

Cost Less An expensive school on the West Coast can today educate children for \$100 per year. Chain schools modeled after chain stores can at least cut costs in half, trimming the price down to \$200. This is less than good public schools now charge taxpayers. But remember one thing: Parents won't have to save that \$200 over and above current expenses. Why not? Because that \$200 will not be collected in taxes. Parents can set the money aside for their children directly — without having to pay the upkeep of taxcollectors.

Something else: By the time schools are returned to private ownership, every other form of socialism will have become a memory. Public schools, our most popular form of socialism, will be the last to go. Income tax will be abolished long before. Parents can apply that money to their children if they wish. I anticipate your next question: — "What about people who can't afford even \$200 for their children? Those now subsidized by their neighbors. Wouldn't they suffer if socialism were abolished? For our answer let's turn to economics of capitalism. Let's help us out of this difficulty, we will build a skyscraper. I don't want these children to suffer any more than you do."

Capitalism. You have said: "It seems only fair to educate as many children as possible." Seems, indeed! nay, it is; I know not, seems. Of course we must educate — not only children — but as many grown ups as possible too. We can supply people with every demand they make. Go further, we go beyond elementary needs, such as food, clothing and shelter. Provide them with all the luxury they want, as well. How can we do it? It seems like a miracle when we see how much we've done. Past miracles look so compared to what we might do in the future. Yet we've worked miracles already compared to the accomplishments of the rest of humanity. We called this miracle, capitalism. But it means actually nothing more than recognizing natural law.

The law of supply and demand freely will supply people with everything they want. If they are rich enough to afford it. Ay, there's the rub, you say. And I agree with you. The problem then, we both agree, still deals with how to enable everybody to afford schools. How can we increase people's surplus out of which they pay for schools? How can we make our wealth resemble an upside-down pyramid which never stops growing? One day making enough habits for everybody. The next year enough automobiles for everybody. That's where we are now, you know. Enough cars on the American roads for the whole population to go riding at once.

Only Free Economy. Ad rocket ships. Ad infinitum. Somewhere along the way private schools will be built for everybody who demands them. It takes imagination to envision this. Yet we need no more imagination to dream of this than persons of the 19th Century who read of "airy navies" in Tompison. Or atomic bombs in H. G. Wells. For this great expansion we need no new formula. We need production; and only production. Working men stand a chance to afford great luxuries in our economy. But only on our economy.

Radios, automobiles, completely equipped kitchens, telephones and television. Absurd! If you'd lived fifty years ago. As absurd as widespread private education seems to you now. But workingmen now consider these things minimum necessities.

All Education They Want Our economy can double . . .

payment for their children's tuition. If this problem can be solved few people will continue to argue for government monopoly of education. The problem of how to make people rich becomes: How can we expand the general production of the nation?

If our economy expands, you will see how fifty years from now we may possess ten times as much wealth. Then there will be ten times as much marginal surplus in existence. Normal expansion accelerates its own rate. For example, An airplane climbing at 100 feet per minute climbs at a fixed rate. In six minutes it climbs 600 feet. But an airplane climbing at 200 feet the second minute, three hundred feet the third, climbs at an ever expanding rate. In six minutes it climbs 2100 feet. We hope that this trip our total production between 1900 and 1950. Do you call it a wild dream to believe we could increase our production ten-fold by the year 2000? The classical economists believe we can if business is free of controls. Now note: — Let the schools be privately owned until the year 2000. Let the government take them over then. The government will have ten times as much money to spend on the schools then as it has now. Because we will have ten times as much taxable surplus in our pockets by then. But let me demonstrate the following thesis. If I succeed, the government will not take over the schools in the year 2000, or even. Because by then it will be seen clearly that education, and every other kind of production, will grow at an ever expanding rate — only privately. The money to pay for education will be there, provided the economy expands. If the economy doesn't expand, funds will dry up. Even for public schools. They are drying up now. For twenty years we have been dipping into capital. Local funds for public schools have already reached their elastic strain limit.

I said you need imagination to know that liberty will work. The following incident illustrates this. A champion of public education read some of my writing. It advocated that all education be provided privately, just as food is. He said when he was finished: "This is all very fine in theory. But in practice it won't work. Why not? Because a high school with an enrollment of 1000 pupils costs two million dollars to build. Where will you find 1000 pupils with two million dollars in their pockets?"

The man who asked this question concerns himself more with protecting the schools from my analysis than he concerns himself with economics. He regards economics as theoretical and therefore impractical. To him, I reply: Do you seriously want an answer to your argument that 1000 children would never have two million dollars? I will answer it. But first let me say:

A Truly Free Society "Sir: Calm yourself. Qu . . . I fear. The public schools stand in small danger from me. I might as well attack the Pope while addressing Catholics. Or attack Prohibition while addressing Southern Baptists — as advocate abolition of public schools within earshot of the average American. Material progress may fly. But progress in ideas always crawls. The beginnings of reform movements antedate results by centuries. Do the Hindus cherish sacred white cows? Our people cherish the public school system just as devoutly. That system will surely outlive . . .

triple within the next ten years. It did in the last fifty. If it does, I foresee a future in which factory workers afford not only cars and homes, but all the education they want. Not only factory workers. Here's where you apply that phrase, at an ever expanding rate. But people who work only a few months of the year. Part time labor, migratory farm workers may also afford these things. I foresee a future in which the poorest will be rich compared to the poor of today. Impractical theorizing, you say? Wait—use your imagination. Or your money—we've seen the beginnings already. Under normal capitalism, the government borrows no money and thereby causes no inflation. Prices . . . down. The price of new cars went from 10,000 dollars in 1910 down to \$600 in 1930 before inflation began. Men's real earnings thus increase constantly in normal times through increased purchasing power. Finally a man need work all year long only if he wishes to fulfill some great dream. To afford the luxuries and necessities he need work but a few months. And finally but a few weeks. (Whether or not he uses his increased leisure to his benefit depends on the individual. Some will.) It takes a true liberal to be able to imagine this. But it's not a crackpot theory. It's not even a personal prediction. It's the logical future of the American idea.

Trying A New Bill of Rights Public education, and every other form of socialism violates the American idea as set down by the Founding Fathers. Lately the champions of various kinds of socialism have tried to reconcile their programme to the American idea. They have tried to write a new Bill of Rights. Roosevelt's Four Freedoms illustrates this attempt. Did Roosevelt respect our Bill of Rights? Then he might have offered it to the world. Instead he invented one of his own. He wanted to make the socialist idea of freedom from fear and want (guaranteed security) respectable. He associated guaranteed security with the already respected freedom of worship and speech. We don't have to refute the idea of freedom from fear and want here. Any respectable psychiatrist will tell you that wants and fears behave subjectively. Their absence can't be guaranteed without a major operation on everybody's psyche. A man's greatest fear may consist of dreams about snakes. His greatest want may be artistic inspiration. Freedom from these fears and wants can't be supplied by any government guarantee.

Roosevelt wanted to invest the word freedom with new meaning. He succeeded among his followers. Whenever a government employee is fired nowadays somebody always says in his defense: "It's right to work" is being interfered with. They say something for expanding all education privately will deprive some children of their "right to learn to read and write." If a broadcasting company executive fires a radio actor for his political opinions, they say: "his right to freedom of expression" has been taken away. But none of these cases involves rights. They involve privileges. Note the difference. Nobody has a right. God given or otherwise, to work for the government. It is a privilege. In normal times, it is a high honor. The Founding Fathers brought up the question of property rights during the drafting of the Declaration of Independence. Someone suggested it read: the right to life, liberty, and property." Intelligent objection overruled, by pointing out: Do you consider man to have a God given right to property at birth? Then some other man must be forced to give him some of his property. The point was well taken and the pursuit of happiness was the happy choice. Nobody ever has a right to property. Or the right to work. Or the right to an education. Or the right to talk over the radio. People have a right to try to get these things. If some people fail, no agency can guarantee their success in attaining these privileges, without depriving other people of their liberty.

Meaning of Equal Liberty Equal liberty does not mean that people start on an equal footing. Do you want absolute equality? Then everybody will have to become exactly alike. Life will lose the spice of variety. Do you entertain the idea that children should be started on an equal footing? The idea contains a false premise. Children cannot be started on an equal footing without heavily subsidizing some, and trimming others down. Brain surgery would be required. Nature knows no such thing as equality. Our Founding Fathers provided for but one kind of equality: Equal Liberty. Do you want liberty for all? You can't have it if you take liberty away from some in order to subsidize others. Does education determine opportunities? Not strictly . . .

Nothing determines opportunities. Some steelworkers go to night school to learn more about their own jobs. Some don't. Who's to say that those who don't, can't? Opportunities knock everywhere. Some answer the door. Others go out and make their own opportunities. Individual limitations may be determined. But nothing else is. One way to help people fulfill their higher capacities, set them free. Privileges may help them a little. But nobody should be forced to help others against his will. Is education a boon to mankind? Does it increase a man's prospects?

Does it promote liberty? Can it teach the concept of freedom of knowledge? Then I am all for it. But it must be provided at an ever expanding rate, a rate that keeps pace with the skyrocket pace of capitalism. I believe education can keep pace with capitalism only by becoming a part of capitalism. Otherwise it must look to the federal government for funds, eventually losing touch with capitalism, eventually becoming completely stultified.

One Socialist Idea Demands Another Do you believe that liberty will work? You cannot at the same time believe in privilege guaranteed by law. Those two things are mutually contradictory. We can't believe in government subsidy of anybody. We can't believe in tariffs. Nor in an RFC. Nor in guarantees to bull market gamblers. Nor in public subsidy of shipping, airlines, nor of any business. Nor their children. Do you still argue for government dominance of the dissemination of knowledge? If so your argument applies equally well to food, jobs, shelter, clothing and medical care. Do you allow one socialist idea? You cannot consistently deny others. Especially if those others rank higher up on the list of necessities. No stretch of imagination will make education more important to survival than food. Only the most doctrinaire and reactionary mind can admit the private supply of food and yet assert dogmatically that to supply education privately and in abundance is impossible. Will the law of supply and demand work for food? The most important thing to survival? The most perishable? The most difficult to handle? Then that law will work for anything.

Some persons still refuse to consider this idea and how it will work. We write them off as simply too reactionary to stretch their imaginations into fresh explorations. Others have imaginations that refuse to remain asleep. Something stirs. They may have believed in public education religiously. All their lives. But their doubts are now aroused. Once they've grasped the validity of the premise of liberty, logic will do the rest. Their minds will open when logic rings. And logic will lead them past the confusion, past the real obstacles. If they follow on and on, it will reveal to them a glimpse of beauty. It will reveal the truly free society.

If G. Wells represented a kind of mind that thrived during the 19th Century. Big minds that could look ahead. Liberal minds that could envision and lay the groundwork for all our modern inventions including atomic energy. Wells once lamented: "Obscure men of letters are made the subject of intensive research . . . the far more romantic, thrilling and illuminating document about the seekers and finders of great fortunes, are neither gathered nor cherished."

But Wells believed that these romantic men would triumph and lift the world to new heights. IN THE DISCOVERY OF THE FUTURE he described the creed of the true liberal in this burst of heroic poetry:

"The past is but the beginning of a beginning, and all that is and has been is but the twilight of the dawn . . .

"A day will come when beings who are now latent in our loins shall stand upon this earth as one stands upon a foot stool, and shall laugh and reach out their hands amid the stars."

Listen, idealists, you who wish to do good in the world. You have my understanding for I am one of you. Our present strivings are but a prelude. Fledglings beating their wings often flail one another. Stop enumerating these around you with your good intentions. Stand out of your brother's path and listen. Above you the high flight call. And each solo into the burning blue, opens a view of higher heights. There is no highest, no Everest to limit man. Reach for your expectations. They lie just beyond the clouds. Breathe those clouds. Gather your dreams. You can and will. If only you burn one motto into each morning's sky: I am a convert to the science of freedom. My reasoning mind tells me: "Liberty will work."

Thaddeus Ashby March, 1952

AMBIHING SOAP BOX DERBY PRIZES — Two Pampa Soap Box Derby contenders share enthusiastically at two of the prizes to be awarded on Derby Day, Sunday, July 13. On the left, Glen Howell, son of Mr. and Mrs. A. A. Howell, 1902 Hobart, holds a Casco Power Tool Kit, presented to the boy with the best-holstered racer. At the right, Bobby Culbertson, son of Mr. and Mrs. E. M. Culbertson, 823 E. Malone, gives a once-over to a complete tool kit, which goes to the boy with the best-constructed car. Both boys are 12 and are competing in their first Soap Box Derby. (News Photo)

This Year's Soap Box Derby Has Background Of 15 Years

By ED NASH

The 15th running of the All-American Soap Box Derby will be held this year at Derby Downs, Akron, Ohio, August 10.

An estimated three million people will have witnessed or participated in races in the United States, Canada, Alaska and U. S.-occupied Germany to determine the 150 contestants who will appear in the grand finale. The winner of the Pampa Soap Box Derby, to be run July 13, will be among those competing at Akron.

To the winner of the All-American Soap Box Derby goes a \$500 college scholarship. The runner-up will receive a "champion" sash. Other top place winners will get a place in the "champion" sash. The Pampa boy of Akron has as much chance of winning one of these prizes as anybody else.

But how did this "crazed" amateur race exist in the world? It got its start when a Dayton, Ohio, newspaper photographer, Myron E. Scott, who got the idea in 1937, one day Scott came across some small boys coasting down a Dayton hill on homemade coasters; he snapped a few pictures and on the way back to the office became very enthusiastic. He got his managing editor interested to the extent that he agreed to sponsor a city-wide race, which Scott promptly dubbed the Soap Box Derby.

The next year, 1934, Scott and Chevrolet went to work and enrolled thirty-four newspapers as co-sponsors for the first soap box derby on an extended basis. It was run each year on a convenient street until 1937 when the race was held on Derby Downs, Akron, O. Each year since, the track facilities have been increased and improved. From the beginning the various soap box derbies have been sponsored by leading newspapers, Chevrolet agencies and interested civic organizations. Co-sponsors of the Pampa Soap Box Derby are The Pampa Daily News, Culbertson Chevrolet, Inc. and the Pampa Junior Chamber of Commerce.

Derby Downs itself is a 30-foot wide concrete course, perfectly green to eliminate glare, and has three racing lanes. Total distance from start to finish is 975.4 feet. At top speed the racers can make as much as 26 miles an hour. Lining the course are guard rails, capped with rubber. Derby Downs will seat 60,000 spectators. Nearby is a permanent garage which houses the 150 competing racers and contains service pits manned by expert mechanics.

At the starting line, there is a heavy shaft with a baffle plate which is counterbalanced in the concrete pavement. The cars line up with their noses flush with the plate. As the baffles drop simultaneously, an electric timer is set in motion and an electric eye controls a special photo-finish camera directly above the finish line.

After the race is over, the local champs are guests of honor at the "Banquet of Champions" where all the awards are made. All of the 150 contestants receive a "champion" sash and a special All-American Soap Box Derby diploma. In addition, special awards are given for the best-designed car, the best-upholstered car, the best-constructed car, the car with the best brakes and the car which ran the fastest single heat at Akron.

Winners have come from all parts of the country, although there have been none from Texas. Three Ohioans have won; two each from New York, Indiana, and West Virginia and one each from Missouri, Nebraska, Michigan, California and Pennsylvania. The attraction of the all-American Soap Box Derby is that it emphasized sportsmanship and initiative in our youth. For a boy to have the initial push to get his entry blank and begin work on his racer, for him to have the stick-to-it quality to

Biggest ROTC

NEW YORK — (AP) — The Reserve Officers Training Corps at the City College of New York has more than 1,500 members and is the largest voluntary R. O. T. C. unit in the country. Col. Malcolm R. Krammer is chairman of the Military Science department.

IT SHOULDN'T HAPPEN TO A DOG—Dreaming of happier days, this Minneapolis dog sits forlornly by his favorite freepig, which was knocked down by a careless motorist. The forlorn fido has the sympathy of the fire department's repair crew.

Virginia Stands To Lose Position If Taft Is Elected

By HENRY S. GORDON

The Commonwealth of Virginia has a distinction to lose should Sen. Robert A. Taft be elected 33rd president of the nation.

She could no longer call herself the "Mother of Presidents."

The election of Sen. Taft would make Ohio Virginia's equal in the number of sons she gave to Washington, D. C. — eight presidents each.

Taft's election, too, would widen the margin of presidents whose native soil was included among the Yankee states during the Civil War. It would mean the north produced 22 of the 33 presidents. Now it is only 21.

(Abraham Lincoln was born in Hardin Co., Ky., which never joined the Confederacy.)

Out of the present 48 states, only 12 furnished the nation with one or more presidents — Virginia, Ohio, New York, North Carolina, Massachusetts, Vermont, Pennsylvania, Iowa, New Hampshire, New Jersey, Kentucky and Missouri.

Virginia, however, has given the nation one fourth of its presidents to date, eight, while Ohio is a close second with seven. New York is third with four sons going to the White House while North Carolina, Massachusetts and Vermont contributed two presidents each and the remainder of the states boast one president apiece.

Presidents born in Virginia were George Washington, Thomas Jefferson, James Madison, James Monroe, William Henry Harrison, John Tyler, Zachary Taylor and Woodrow Wilson.

Ohio mothered Presidents U.S. Grant, Rutherford B. Hayes, James A. Garfield, Benjamin Harrison, William McKinley, William Howard Taft (father of Sen.

Franklin Pierce was a native of New Hampshire and his successor, James Buchanan hailed from Lancaster, Pa. Abraham Lincoln was a Kentuckian.

Grover Cleveland was born in the Garden State of New Jersey; and Herbert Clark Hoover called West Branch, Iowa, home.

President Truman is a native of Lamar, Mo.

Politically, nine presidents sailed into Washington under the Democratic banner; 13 under the Republican flag while four were Whigs. The Federalists had only the first two presidents and the National Republicans one. The Democrat - Republicans elected three presidents under that name, including Thomas Jefferson who actually favored the name "Republican" over that of "Democrat."

The first President to actually call himself a Democrat (as the

parties are identified, to a degree, today) was Andrew Jackson. Lincoln was the first Republican.

However, Washington and Adams, who were Federalists, belonged to the party that eventually became known as Whigs and later drifted into the ranks of the Republican Party. Only during the term of John Quincy Adams was the party known as the National Republicans. They later became the Whigs and eventually drifted back to the term "Republican."

Today's Democrats — the conservative ones — were at one time the Anti-Federalists, later became Democrat - Republicans. When the term Democrat lost its Revolutionary War and Post Revolutionary War unpleasant connotation, dropped the latter half of the name and became just plain "Democrat."

So, bringing it down to bare Democrat and Republicans, it can safely be said there were 20 Republicans and 12 Democrats elected to the presidency.

Jack Schaff, rookie center for the Washington Redskins in the NFL, is a park policeman in Gary, Ind., during the off-season.

Swimming Class Cards Available

Registration cards for the Red Cross swimming and life saving classes will be available tomorrow at Baker and Sam Houston Schools to boys and girls enrolling for the city summer recreation program.

Classes will be free only to those enrolling in the summer program. Boys and girls must be accompanied by their parents to enroll in any of the four swimming classes sponsored by the Red Cross, according to Mrs. F.W. Shotwell, executive secretary.

Completion of the classes will qualify swimmers for Red Cross cards showing achievement in beginning, junior, intermediate, and advanced swimming.

In connection with this program, posters of water safety and swimming have been placed throughout Pampa by local Red Cross workers.

NOTHING LIKE THE ARMY LIFE — Four of Pampa's Army Reserves pack their gear in preparation for two-week summer encampment at Ft. Sill, Okla. Pictured here, left to right: Lt. Truett Ross, Sgt. Connor B. Hicks, Lt. Wayne Reed and Cpl. Robert Zimmerman. They were to have left at 6:45 a. m. today. (News Photo)

Reserves Get Early Start

At 6:45 a. m. today Pampa's Army Reserves wiped the sleep from their eyes and climbed aboard a bus, in full uniform and field equipment, for their annual trek to summer encampment. Their destination is Ft. Sill, Okla.

Those participating in the exercises will be Bty. A (Borger) and Bty. B (Pampa) of the 80th AFA Bn, the headquarters battery and battalion headquarters. Maj. George Aorris, Pampa,

Mermaid To Make Final Channel Try

GROSSINGER, N.Y. — (AP) — Four more swims and Florence Chadwick is going to call it quits, "win, lose or die."

The only woman to swim the English Channel two ways, the 32-year old former stenographer is going to take one final crack at the channel in August in an attempt to break Tom Blower's record for the England to France crossing.

Before she heads for England this summer, the attractive mermaid has mapped out an ambitious program in which she attempts to break three other records.

First on her agenda is a June 28 Catalina Island to the mainland trip. Then she will head from Beirut, Lebanon, for a crack at the Hellespont Dardanelles. Once that chore of five miles is over, she'll move on to Tarifa, Spain, and church across the shark-infested Straits of Gibraltar.

"By then I should be in perfect condition for an August try at Tom Blower's record of 15 hours, 30 minutes for the England to France channel swim," said Florence. "I did it in 16:19 last year."

a. m. Saturday to hand out a fine of \$23 to Robert Wayne Cameron, of Mexico, for failing to stop at the command of Borger police. He was finally caught in a roadblock set up by Highway Patrol on the Borger-Pampa Hwy.

Catcher Sammy White of the Boston Red Sox, played three seasons for the University of Washington before signing with Seattle in 1949.

Justice Of Peace Has Early Caller

Justice of the Peace J. V. Andrews was called out at 12:30

The cod fish lays 1,000 eggs,
The helpful hen but one.
But the cod fish doesn't cackle
To tell us what she's done.
And so we spurn the cod fish
And the little hen we prize.
Which indicates to you and me,
IT PAYS TO ADVERTISE!!

Pampa Wages Fight Against Polio Invasion

Gray County's first polio victim this year finds the city of Pampa in the midst of fogging business and residential areas with DDT, pine oil and diesel oil to help rid the city of flies, reputed to be a carrier of the disease.

This process, said Ray Evans, city engineer, is being done for the second time this season and will be continued throughout the summer. Before polio and fly season began, the city sprayed each trash barrel and surrounding ground area with chlordane and diesel fuel to kill as many fly eggs as possible.

Swimming pools in the city, Evans pointed out, are filled with chlorinated water which is recirculated at 600 gallons per minute. There is a complete change of water every six hours. Wading pools are also chlorinated, he said, and water in them changed every day.

During the recent clean-up campaign, 300 loads of trash were hauled out of the city in addition to the regular loads. Garbage in Pampa is picked up twice a week from each home and business.

All these measures are being taken to help keep down the spread of polio as local doctors urge special precaution not only in sanitation conditions but also in the area of small children.

Plenty of rest, particularly during the hottest part of the day, staying away from crowded places and special care against chilling are all urged by the doctors.

Early symptoms of polio have become so familiar to parents, the doctors pointed out, that only a reiteration is necessary. Symptoms are the same for polio as many other childhood diseases and thus easily confused. Fever, headache, muscular aching, sore throat, and occasionally vomiting and diarrhea are noticeable in early stages.

First definite signs of the bulbar type are difficulty in swallowing or breathing. The doctors urged against any form of hysteria, pointing out that the death rate of polio is still lower than many more common diseases for which there are cures and serums. They reminded that polio is not contagious to the extent of many diseases and that the bulbar type is no more likely to spread than a milder form.

No polio epidemic is in evidence yet. It was pointed out, and parents can help only by leading a normal life and carefully but not over-anxiously watching their children.

Seniors In Demand

DALLAS — (AP) — Southern Methodist University shares with other U. S. colleges in the "seller's market" on 1952 college seniors.

D. Y. Robb, director of student placement at SMU, says the demand for college grads by business and industry and the salaries they can command have reached a record high this year.

Engineers and scientists especially are in demand. Salaries are up 1 to 20 percent, Robb says. Starting salaries for engineers are between \$300 to \$400 a month.

BATTERED — These two cars met each other in a head-on collision at 8:35 p. m. Friday on Hwy 152, a little more than a mile west of Pampa. Driver of the car on the left was Harry James Bahr, 28, 416 N. Dwight. Clancy L. Chaffin, 1714 A. Ave., Dallas, was operating the one on the right. Bahr was going west on the wrong side of the road, officers said, when the cars col-

held, Highway Patrolman E. J. Robertson brought him in. In County Court yesterday morning, Bahr pleaded not guilty to charge of operating a vehicle while under the influence of intoxicating liquor. Judge Bruce Parker set bond at \$2,000. His trial will come up in July. (News Photo)

NEW METHODIST MINISTER — Rev. Edwin Lynn, 324 N. Zimmers, preaches first sermon today as the newly installed minister of the McCullough Methodist Church. Prior to his Pampa appointment Lynn served for three years at the Euless Methodist Church, Euless, Tex. He received his Bachelor of Divinity degree from Southern Methodist University. As an Army staff sergeant during World War II, Lynn was a member of the 4th Infantry Division and served in eight countries. (News Photo)

Would Use Tideland For Federal Schooling

WASHINGTON — (AP) — Sen. Hill (D-Ala.) and 22 other senators have reintroduced a measure designed to channel oil revenue from tidelands oil into a federal aid to education program.

The amendment was proposed to a bill on the submerged lands reintroduced Monday by Sen. O'Mahoney (D-Wyo.). O'Mahoney's bill would validate the leases already negotiated by the states but leave control of the disputed lands in the federal government.

Hill said he expected the vote to be sustained and had reentered his oil - for - education proposal for consideration with the O'Mahoney interim bill if it comes before the Senate again.

Ivan Ivanovich Faces Serious Test As Russ Enter Olympics

NEW YORK — (AP) — "Ivan Stalin Medal" replies Ivan Ivanovich is going to the Olympics. And the entire sports world is buzzing with gossip about what will happen to the Russian teams at Helsinki next month. The decision to let Soviet athletes compete in the international games puts the Politburo to its supreme test. The Communist leaders have held that their ideology has given Russia the world's greatest science, art and literature. Now they are going to show that ideology also builds better bodies.

Is a Communist muscle necessarily better than a liberty-loving muscle? The Soviet athletes are being sent to prove this. And it's not a pleasant spot to be in. They must feel like old Roman gladiators, told to win or face the consequences — a down-tumbled thumb.

Soviet athletes take their training seriously. One report is that they keep in shape by reading Karl Marx all morning, and then tapes off in the afternoon by wrestling live bears. Before going to bed they relax by doing full knee bends with a copy of "The Life of Stalin on each shoulder.

They will be alerted to any possible western trickery. In his respect they can get a few tips from Comrade Mikhail Botvinnik, the world chess champion. Botvinnik ordinarily gets ready for a big match in Russia by walking, running and cycling. But he takes extraordinary measures to prepare himself for competition outside his own country.

A Russian chess expert recently described his strange methods as follows: "Before Botvinnik plays a match in a western country, he spends three weeks with a companion, working out problems while a radio blares in the background and his companion blows smoke in his face."

Soviet leaders must be already a bit worried about the possible effect contact with the western world will have on their athletes. And not without reason. Let us imagine, for example, what happens when Ivan Ivanovich, a Russian weight lifter, meets up with Jim Biceps, an American contender. The first thing they do, of course is reel each others muscles gingerly. All weight lifters do that. It is their way of saying "hello."

"Well, what will happen if you win the championship?" says Jim. "I will get a foreman's job in my factory — perhaps also a

breakfast food endorsements, television appearances and a book on weight lifting.

"All in all, I suppose I will clear \$100,000 the first year."

"That ain't grubles," sighs Ivan, "but he will wander off, a Communist tainted for life, wondering why he can't get a chance to play Tarzan, too. Once a horse sees hay-it is hard to get him to eat sawdust and like it."

WARREN'S ARM UP Montero Whitewashes Lamesa, 4-0

By Warren Haase—News Sports Editor

QUESTION: How many major league managers have produced three consecutive pennants for their team.

NICE GUY
We spent about four hours talking with President Ray Winkler of the West Texas-New Mexico League Friday, and the more we listened the more we were impressed with the drive behind this young fellow, perhaps the youngest league president in organized baseball. His firm belief in the league, in baseball, and his persistent faculty of wanting to help every club in the league with whatever its problems may be insures the WT-NM of good sound operation.

Ray is in his first season as a league executive. He is leaning East, and has already admitted one of his mistakes that, before the season started, he thought was a top-drawer idea. That was the one that called for working four rookie umpires along with four veterans and thereby cutting down the umpiring expenses that have cost the league three-fourths of its expenses in the past. But he quickly ran into troubles with the rookies. They discovered they didn't like the profession that looked so good to them as a fan; and Winkler quickly discovered that what Winkler's secretary suited to that type work.

"I think that I have nearly gotten my umpire troubles straightened out," he said. "We've got six good veterans now, and a rookie that has just found himself, but is thinking of quitting. I'm trying to talk him into staying on but don't know if he will or not. It takes quite a while to become accustomed to the jibes of the fans and the players."

We asked him if it was true that Mel Ross, the big, colorful boy who plays pro football with the Washington Redskins, was quitting July 15 "he better not, he will or not. It takes quite a while to become accustomed to the jibes of the fans and the players."

Winkler switched the subject to attendance. "It's up over the entire league, with Lubbock leading and setting a pace that will see them reach over 100,000 by the end of the season. We are happy with the fans; they have supported us good. And while we really have to travel fast this second half of the year to reach the 700,000 goal we set before the year started, it is still within reach."

Winkler said that the Oilers are ahead of last season at home. But here is the surprising thing. They have been a great attraction. On the road they have outdrawn every other club, playing before over 23,000 fans. They are playing good ball, and the fans know it. You have a great club, good hustle, one of the finest young managers in the league as well as professional baseball. The Oilers will be around at the finish."

There were a lot of other things that Ray brought out that will be announced later in the season, in respect to both the Oilers and the league. He is driving force; he is the pleasure to have the president of the league able to take that much of an interest. He's still new at the job and will make mistakes. But after a full season at the helm, he should be one of the best.

Who Can Beat Freeman?
Nobody is a good answer to that one as the city golf championship gets started this morning at the Pampa Country Club. There probably isn't a more methodical and mechanically perfect stroker on the course than the defending city champion. But he could be sneaked up on.

If we weren't so far down the list we'd think about doing it ourselves. But as this is being written Saturday afternoon, it is rumored that we will have to battle Ralph "Baylor" McKinney this morning at 9 a. m. in the first round. If we can just keep that personal cheering section of McKinney's quiet we might have a chance of getting to start the back nine.

And speaking of the tournament, here's a little item that might be of interest to the golfers, not only at this time, but all times.
CAD VERSUS CADDY?
Some golfers set like a loving daddy.
Toward the kid they hire to be their caddy.
But there are others, 'tis said to say.
Who act in a most unmanly way!
If they are really smacking that ball.
The caddy, of course, gets no credit at all.
But come the time they are off of their game.
And it's the poor caddy who gets all the blame!
Will somebody tell me, if I tell me, who's the son.

UT Eliminated By Holy Cross

OMAHA — (AP) — Holy Cross pushed across an unearned run in the eighth inning for a 2-1 victory over Texas in the third round of the NCAA baseball tournament, Saturday.
The victory gave the Crusaders a 2-1 tournament record and eliminated Texas, the 1949 and 1950 champion, with a 1-2 mark.
Johnny Turco, who had walked to open the inning, scored his deciding run from third with two outs when Third Baseman Jimmy Face oled Frank Miatango's easy grounder.
Travis Ekert accounted for Texas' only run off Ronnie Perry with a homer in the second inning. Holy Cross tied the score in the fifth when Turco singled Fran Dyson home from third.
Holy Cross got only five hits off Riley Lerdine. Luther Scarborough, who came in in the eighth, did not allow any hits. Holy Cross 010 010 019 1-1 Holy Cross 000 010 01x 2-1 Ferbine, Scarborough (8) and Spradlin; Perry and Naton.

Shantz Notches Tenth Straight Win

ST. LOUIS — (AP) — Little Bobby Shantz marked up his 10th straight victory Saturday as the Philadelphia Athletics tagged the St. Louis Browns for a pair of four-run innings in a 9-2 triumph.
By winning the decision, Shantz kept his spot as the No. 1 pitcher in the majors. The spunky left hander has lost but one game this far.
The Browns' outfit pitched wildness kept them in trouble. Stanek and lower Tommy Byrne walked six, and three relief hurlers added three more passes.
Philadelphia's victory was tarnished somewhat in the sixth when Third Baseman Hal Bevan left the game with a volcanic leg. He suffered the fracture, just above the right ankle, as he slid home after racing in from second on a single by Eddie Joost.

Larry Jansen In Win Over Cards

NEW YORK — (AP) — Larry Jansen, champion papa of the major leagues, celebrated father's day several hours early Saturday as he pitched and aided the New York Giants to a 4-3 victory over the St. Louis Cardinals.
Jansen, father of seven, pitched scattered in his effective, but it helped win his sixth game of the year with a timely single in the fourth inning that drove in two runs.
Those two tallies plus home runs by Ed Elliott and Wes Westrum enabled the Giants to snap the Cards' winning streak at three straight and give right-hander Cloyd Bover his third loss against two wins. Jansen has lost twice.
The victory would bring runner-up Giants to within three games of the league-leading Brooklyn Dodgers, who were to engage the Cincinnati Reds in a two-night doubleheader at Ebbetts Field.
Elliott's homer, his sixth, came in the second and Westrum's homer, his seventh, came in the seventh to snap a 3-3 tie.

TL Pitchers Trim Big Bats

DALLAS — (AP) — Those Texas League pitchers are up to the old domineering tricks in the fight last week by subbing six more hitters under the 300 mark.
The potent streak of Grant Dunlap of Shreveport, who has chubbed out a 363 mark, stands out as the hurler's main target after they cut down the list of big stickmen from 19 to 35. And Dunlap, who led last week averages, is staging a losing battle apparently. He lost 10 points over the week.
Al Blarick of Beaumont, in second last week, saw his batting record trimmed from 340 to 333 but he still is runner-up to Dunlap. Blarick also leads the batsmen in runs, with 45, and in total number of hits, with 80.
The pitching records, incidentally, show five moundsmen out to set up twenty game records early. With only 40 per cent of the season completed, five of the hurlers have nine victories. Al Pappal of Houston with a 9-2 mark, Dave Hoskins of Dallas 9-3, Hank Wysz of Beaumont 9-3, Hal Erickson of Dallas 9-3, and Joe Landrum of Fort Worth 9-4. Hoskins' earned run average of 1.62 is the foremost mark, while control artist Eloy Face of Fort Worth is strike-out leader with 73.

CHECKING UP — Melvin Watkins, member of the tournament committee, Professional Johnny Austin, and defending champion Clare Freeman, left to right, check the entry lists as the qualifiers complete a day of shooting yesterday in the Pampa Men's City Golf Tournament. The first round of play in the two-week tournament starts this morning. (News Photo)

Raschi, Berra Combine To Put Yanks Into First Place Alone

CLEVELAND — (AP) — Vic Raschi and Yogi Berra formed a super-charged battery Saturday as the New York Yankees trounced the Cleveland Indians, 11-0, to regain the American League lead.
Raschi blanked the Indians on four hits and struck out eight for his sixth victory and second straight shutout. He didn't allow a hit until Al Rosen doubled with two out in the sixth.
Berra knocked in five runs, three with a homer in the first inning and two with a single in the ninth.
Berra's homer gave the Yankees a 2-0 lead against Eddy Yarnall, who also served a two-run homer to Gene Woodling insing by Mantle and Bauer and in the third inning. The Yankees walked Berra in the seventh, scored one run off Sam Jones in the seventh and five off Mickey Harris in the ninth.
Wynn served singles to Mickey Mantle and Hank Bauer before Berra connected in the first run home. McDougald walked and Woodling, Joe Collins and Ed gave the Yankees a 5-0 Billy Martin singled runs across in succession. Dick Rozek finally stopped the rally.

Wertz Homer Is Win For Detroit

DETROIT — (AP) — Vic Wertz, fighting mad at his manager because of a \$25 fine for indifferent play, stepped in as an eighth inning pinch hitter Saturday and lasted a two-run homer to give the last place Detroit Tigers a 6-5 victory over the Washington Senators and end their seven-game losing streak.
Wertz slammed loser Tom Ferrick's pitch into the upper right field stands after Joe Ginsberg had singled Jerry Pridy to tie the game from second and Minnie Mirowski had hit a two-run homer in the fourth.
Relief Pitcher Hal White, the fourth Turf hurler, received credit for the win. Art Houtteman of the Tigers and Lou Luecke of the Senators, both were driven from the box.
Manager Red Rolfe fined Wertz Friday, along with Cliff Mape, for letting a lazy fly drop between them in the 3-0 defeat by the New York Yankees.

Pale Hose Take Boston Out Of First Place In American

CHICAGO — (AP) — Sam Mele's third inning single registered two runs and backed a line relief job by Harry Dornish Saturday to give the Chicago White Sox a 1-2 win over Boston and toppled the Red Sox from first place in the American League.
Homer by Chicago's Eddie Robinson and Boston's Ted Lepore had Mel Parnell of the Red Sox and Hector Brown of the White Sox hooked up in a 1-1 mound duel until the seventh when the heat began walking both starters.
Mele's decisive blow shattered the Red Sox' lead in the eighth. Parnell suffered his fourth loss against four wins.

Rose Wins Medalist Honors As City Golf Tourney Gets Underway Today

Henry Rose, who shot a sub-par round of golf last Sunday afternoon and then sweated through a week of high wind to see if it would outlast 99 other qualifiers, was named medalist of the annual Pampa Men's City Golf Tournament yesterday as no other par-busters were around. Rose qualified with a 1-under par 70 to win a dozen golf balls and set of head covers which go with the honor.
None of the remaining potential medalists who qualified yesterday could whip the high wind in the 71-stroke par.
The tournament itself gets started this morning as the golfers start firing in the first round. A Calcutta pool and Dutch luncheon was held last night. Semifinal rounds must be played by 7 p. m. on June 28th, and the championship finale will start at 1 p. m. on June 29.

TL Pitchers Trim Big Bats

DALLAS — (AP) — Those Texas League pitchers are up to the old domineering tricks in the fight last week by subbing six more hitters under the 300 mark.
The potent streak of Grant Dunlap of Shreveport, who has chubbed out a 363 mark, stands out as the hurler's main target after they cut down the list of big stickmen from 19 to 35. And Dunlap, who led last week averages, is staging a losing battle apparently. He lost 10 points over the week.
Al Blarick of Beaumont, in second last week, saw his batting record trimmed from 340 to 333 but he still is runner-up to Dunlap. Blarick also leads the batsmen in runs, with 45, and in total number of hits, with 80.
The pitching records, incidentally, show five moundsmen out to set up twenty game records early. With only 40 per cent of the season completed, five of the hurlers have nine victories. Al Pappal of Houston with a 9-2 mark, Dave Hoskins of Dallas 9-3, Hank Wysz of Beaumont 9-3, Hal Erickson of Dallas 9-3, and Joe Landrum of Fort Worth 9-4. Hoskins' earned run average of 1.62 is the foremost mark, while control artist Eloy Face of Fort Worth is strike-out leader with 73.

Seven-Hit Pitching Wins; Moore And Woldt Lead Hitting

Veteran Cuban righthander Juan Montero became the second Oiler pitcher to throw a shutout this season as he set the Lamesa Lobos down on seven well-scattered hits last night at Lamesa. His zzz's pounded out a 14-0 win and halted a brief losing streak.
This afternoon the two clubs resume their series with a single game. Morris Shipman is expected to start for the Oilers while the probable starter for Lamesa is either Lee Gatewood or Ed Arthur, both righthanders. The game will be broadcast over Radio Station KPFD, starting at 3:30.
Montero opened his hitting support from Don Moore and Deck Woldt, both of whom had been in batting slumps. Moore contributed four hits and Woldt three. Moore was shifted to leftfield last night to give Manager Jake Phillips a rest. The Oiler skipper had been in the throes of a serious batting slump himself and hoped that the rest would provide the necessary recipe for him to start hitting the ball again.
The Oilers wasted no time. Norm Auerbach opened the first inning with a single, the first of five straight innings in which the lead-off man got on. Bobby Brown singled him to third and a fly ball to left by Manny Temes got the run across.
Moore opened the second with a double, went to third as Auerbach and Montero walked, and scored on a single to right by Woldt.
Things really broke loose in the fourth, Montero starting it with a single into leftfield. Auerbach hit to Wilcox, who threw to second to start double play, but Frosty Kennedy missed the ball, and both runners were safe. Brown sacrificed and Woldt was walked to load the bases. Temes popped to Wilcox for the second out, but Sudol lined a single to left for two runs. Bartkowski followed with a liner to center for another run. Moore kept alive with a single to right to score Sudol and then Teddy Tate singled to center to score Bartkowski. Montero, up for the second time, bounced out to end the inning.
Auerbach opened the sixth with a single to center and stole second. Brown fanned, but Woldt singled. Auerbach and Temes were safe on an error by Wilcox. Woldt moving to third, Sudol walked to load the bases and Bartkowski walked to force Woldt across with the Oilers' ninth run. Moore forced Temes at the plate, but Tate sent the hopper to left basemen Glenn Pine, who fumbled the ball, Sudol scoring. And again Montero bunched out to end the inning.
Ralph Carrier, the second Lobo hurler, then held the Oilers off until the ninth. Brown started it with a bunt single and went to second on a sacrifice. Woldt singled. Temes walked to load the bases. Both Sudol and Bartkowski popped out, but Moore got his fourth hit, a single to center, to score Brown and Woldt. Tate lined a one-baser to left to score Temes and Montero bloomed one in right for another run. The fourteenth and final run of the game.
Montero got the bases loaded frequently, but each time had the necessary equipment to get out of the jam, leaving eight Lobos stranded on the bases out four and eight runners could tie his season's total of 68. It was his fourth appearance on the mound in the last seven games and his sixth in the last ten.
The Lobos got the bases full in the fourth and again in the sixth but neither could tie the score. Montero's stuff, Glenn Pine making the final out in each inning.
In other games around the league last night the Berger Gassers split a doubleheader with the Albuquerque Dukes at 1-1. Berger, Jesse Priest and Eddie Carnett in the opener, 4-1, while veteran George Payne came back in the nightcap, hurling a three-hitter, and shutting out the Dukes. 9-0. Clovis edged the Amarillo Red Sox, 4-3, at Amarillo, and the Oilers edged the Sox, apparently back on their winning road, slaughtered the Lubbock Hubbers at Abilene, 16-6. The same teams play in the same places this afternoon.

Two Track Marks Are Shattered

LONG BEACH, Calif. — (AP) — Two American records were shattered Saturday as a track and field meet staged here between an all-around forces team and the Los Angeles Athletic Club.
In the 480-yard shuttle-hurdle relay, the armed forces team composed of Dick Atterley, Walt Anderson, set a new record of 1:17.4. Art Ballard and Billy Wertz, 57 seconds. The former record was 38.6 set by the University of Texas at the Princeton Invitational Meet in 1940.
In the 660-yard run, the winner, Mal Whitefield, of the U. S. Air Force, set a new record of 1:17.4. Officially the old record was 1:18.9 by Johnny Fulton of Stanford, and unofficially, George Rhoden in 1951 ran 1:18.5.

Fowl 'Shots' Speeded

VANCOUVER, Canada — (AP) — Mass vaccination of poultry flocks against pulmonary disease will be available here shortly, replacing the present tedious bird-by-bird procedure. Dr. J. C. Benker, provincial pathologist, said the fowl could be "sprayed" with the vaccine at the rate of 10,000 per hour.

Bartzen Pitted Against Giammalva In Tennis Finals

AUSTIN — (AP) — It'll be Bartzen (Tut) Bartzen against Sam Giammalva in the men's singles final of the Texas Tennis Championships Sunday.
Bartzen, sergeant in the Army at Fort Sill, Okla., joined Giammalva in the finals by defeating Pancho Contreras, No. 4 man on the Mexican Davis Cup team, 6-1, 6-3, 6-1.
Giammalva dined John Hernandez of San Antonio Friday in a semi-final match. Giammalva, a 17-year-old from Houston, is the defending champion, while Bartzen is a 24-year-old ex-intercollegiate title holder from San Angelo.

Low Rubber Price

SINGAPORE — (AP) — The Malayan rubber price is likely to remain at its present low level owing to completion of United States stockpiling, in the opinion of Dr. W. E. Cate, president of Malayan-American Plantations, Ltd. The present price averages 30 cents a pound.

Little-Know Julius Boros Open Champion

By WILL GRIMSLEY
DALLAS — (AP) — Ben Hogan's gold dynasty crumbled Saturday and a 200-pound North Carolina apprentice professional, Julius Boros, came scrambling out of nowhere to win the 52nd National Open championship with a 72-hole score of 281.

The unheralded 32-year-old from Southern Pines, N. C., won with a four-stroke margin over chubby Ed Oliver of Lenora, Ill., who sank a 30-foot birdie putt on the final green to beat out Hogan for second place by a stroke.

Oliver had a tournament total of 285 while Hogan finished with 286.

Playing like a man of destiny Boros collared the great three-time champion, Hogan, with a blazing two-under par 65 in the morning and then hung on firmly by shooting a scattered, shot 71 in the final round.

Hogan the hawk, as his fellow professionals call him, weakened under the blistering Texas sun and soared to rounds of 74 and 74 after wrenching the midway controls of his 52nd tournament with a pair of sparkling 69's.

Hogan tires
He was a tired old man of 59 when he trudged to the 72nd green—his hopes of a record four championships in as many successive attempts shattered when kinks developed in his once peerless iron game.

Oliver, the little round man who was disqualified for a late start after he finished in a tie for the title in 1940, played with Hogan as a partner on the final day and blasted out rounds of 70 and 72.

Other ambitions were wrecked and strewn over Northwood's tight, 6782-yard course in one of the most dramatic climaxes of the 58-year-old links classic.

Tall John Balla of Verona, Pa., was a contender right up to the last. Then he missed a six-foot eagle putt on the 14th hole of his final round, went over par on the 16th and 18th and finished with a 287 for fourth place.

Balding George Fazio of Clementon, N. J., second behind Hogan going into the final 36, blew himself to a pair of heart-breaking 75's which gave him fifth at 290.

Snead falters
And there was Sam Snead, a strong favorite finally to come through to the Open crown he has never won. Snead went 40 straight holes without a birdie and made only three birdies in the entire 72 holes as he blew sky high to 293. He had final rounds of 76 and 72.

This was the first important tournament victory for Boros, a bronzed, bull-shouldered son of Hungarian parents who was born in Fairfield, Conn., and was an all-around athlete at Bridgeport University.

He is just three years out of amateur ranks, having led the nation's qualifying for the U.S. Amateur in 1948 and gained the quarterfinals in the event in 1949. His four strokes ahead of Hogan going into the showdown 36 holes, Boros kept a sweltering crowd of 15,000 on edge with his constant flirtations with trouble. But a magic wedge and a dutiful putter repeatedly pulled him out of jams.

During the morning round, he played the front side in even par 35, counting a two-over six on the 17th, and then he rushed back in 33 strokes, two under. Par for the course is 35-37.

Boros Scrambles
Boros continued his nerve-baiting scrambling in the afternoon, starting out with a 15-foot birdie putt on the first hole and then taking a one-over six on the second after banging successfully

into the rough and a trap. He lost two strokes to par on the short, par three 12th when he drove into a trap and then failed to get out on his next try. He wound up with a five.

On the four next holes after that while the crowd shuffled from Boros to the late-starting Hogan—he caught traps framing greens until he must have thought he was in the Sahara.

But he continued his remarkable explosions. He blasted to within five feet for a par on 18th, got a birdie on the 21st and then gave the spectators something to cheer about.

On the 13th he banged out of a trap and sank a 20-foot putt to get his par four and on the 16th, after trapping his tee

shot, he whiskered his recovery short of the green and then rolled the ball home from 30 feet—three feet back on the grass.

Boros received \$4,000 for first place but the victory is reported worth \$100,000 to the Open champion during the first year in endorsements and other ways. Oliver received \$2,500 and Hogan \$1,000.

Stanton Mosel of Denton, Tex., was the low amateur at 299.

Red Holmes, sophomore athletic star for West Virginia University, hit a home run in his first time at bat in an intercollegiate game. Holmes is also one of the standouts on the basketball team.

Delaware Park race track is the only major mile oval in the country with the front and back stretches each 100 feet wide.

HOGAN BLASTS FROM THE SAND — Ben Hogan, who shot a one-under par 65 to finish second in the opening round of the U. S. Open Golf Championship, blasts from the sand trap on the edge of the 16th green in the first round at Northwood Club, Dallas. (AP Wirephoto)

Lila Austin Is Women's Medalist

Lila Austin, 15-year-old junior golfer, became the youngest golfer to ever win medalist honors in the Pampa Women's City Golf Tournament, as qualifying for the three-day event ended Friday.

Lila, using only 28 putts on her 18-hole round, rolled in with a 42-38 — 80 gross total to gain the honors. She scored birdies on the first and fourteenth greens, shooting the first into a strong south wind.

The smallest field in the tournament's history is also competing, with only 14 members of the Pampa Women's Golf Association participating. Last year's champion, Jean Duenkel, entered with an 86, tied by Marge Atkin. Last year's medalist, Both Heiskell, failed to enter as did several other golfers.

Posting qualifying rounds, in addition to the medalist, were: Fern Parier, 105; Oak Allee Whittle, 94; Juanita Tinsley, 112; Lynda Austin, 109; Marge Austin, 86; Shirley Austin, 93; Virginia Carver, 140; Mayna De Howell, 92; Barbara Austin, 114; Jean Duenkel, 86; Orpha Mitchell, 108; Floy Heath, 98; and Opal Samples.

The tournament actually gets underway on June 25, running for the next two days. There will be 18-hole match play with eight players per flight. Three prizes will be awarded in each flight.

Posting qualifying rounds, in addition to the medalist, were: Fern Parier, 105; Oak Allee Whittle, 94; Juanita Tinsley, 112; Lynda Austin, 109; Marge Austin, 86; Shirley Austin, 93; Virginia Carver, 140; Mayna De Howell, 92; Barbara Austin, 114; Jean Duenkel, 86; Orpha Mitchell, 108; Floy Heath, 98; and Opal Samples.

Sgt. Eugene Cooper Bidding For Olympic Berth This Week

By CPL. RAY FRANKS
Sports Editor
Amarillo Jet Journal

In 1944, a raw-boned 14-year-old kid from Lords paced nervously in the dressing room while awaiting his first bout in the Amarillo Regional Golden Gloves Boxing Tournament.

However, when his match came up, he walked out into the ring with all the confidence of a seasoned performer and won. He took his next bout and the next one and finally the flyweight championship. This skinny unknown youngster had knocked off all the favorites in impressive style.

Now, eight years later, Loyd Eugene Cooper, 24 pounds heavier and much stronger, is bidding for another title, the U. S. Amateur light middleweight crown and a chance to represent this country in the Olympic Games this summer.

The hard-hitting southpaw, who now calls Pampa home, will attempt to clear the last hurdle in the Olympic Finals at Kansas City, Mo., next week.

It won't be an easy assignment though. Gene, who is now stationed at Amarillo Air Force Base, will meet the country's best amateur punchers, all winners of previous preliminary tournaments. The big show will begin Monday and continue through Wednesday.

The winners will carry the U. S. banner into the international sports extravaganza in Helsinki, Finland, in July.

Never in Better Shape
Cooper qualified for the Kansas City classic by capturing the Air Force light middleweight title a few weeks ago in San Antonio. Since then, he has been working out daily in the Alamo city, along with the other nine Air Force champions.

Gene, son of Mr. and Mrs. W. H. Cooper of Pampa, was scheduled to arrive on the tournament scene Friday. He will weigh in every day and must not go over 150 pounds to stay in the light middleweight bracket. He kept himself busy and to exactly 150 while prepping for the Air Force Tournament.

"I've never been in better shape in all my life," says Gene, who has been working out on the road in the mornings and in the gym in the afternoons.

While this is, without a doubt, his most important test in the ring, Gene has posted a record over the past eight years that stamps him as the Panhandle's greatest amateur boxer.

Since breaking through with his first championship in 1944, the powerful southpaw has won

six other Amarillo regional Golden Gloves titles and two state crowns.

In 1948 as a welterweight, he vanquished the state field in the Air Force in the fall of 1950 and was stationed at Sheppard until the summer of '51 when he transferred to Amarillo. He was boxing coach at the Wichita Falls, base and holds the amateur title at Amarillo.

Weight Problem Concerns Sugar

POMPTON LAKES, N.J. — (AP) — Sugar Ray Robinson, trained down to 157 1/2 pounds, is concerned with holding his weight in the steaming heat for his June 25 light heavyweight title bout with Champion Joey Maxim.

"I want to be around 158 for the fight," said Sugar Ray. "It's tough to keep on weight in this hot weather. I was down to 154 1/2 Sunday after I got through boxing."

Because of his weight, Robinson was ordered to lay off his training routine yesterday by Manager George Gainford.

Robinson will give away about 17 pounds to Maxim in this Yankee Stadium match between two champions. Once before he gave away 17 1/2 pounds back in 1942 when he first boxed Jake Lamotta as a welterweight. Ray won that one.

Although Bob Feller struck out 18 Detroit Tigers in a game in 1938, his Cleveland Indians lost the contest.

Odessa Bronchos Capture News-Globe 1-AAAA Prize

By PITT POWELL
News - Globe Sports Writer
AMARILLO — (Special) — Odessa High School is the winner of the first annual Amarillo News - Globe District 1-AAAA All - Sports Trophy.

The Bronchos compiled a total of 23 points to nip the Amarillo Sandies by one-half a point. Abilene was third with 29 1/2 points followed by Lubbock, 24, Borger 17 1/2, Pampa 17 and San Angelo 12 1/2.

Odessa was the leader in golf, tennis and track. The Bronchos placed third in football and were ranked fourth in baseball for kethball.

Sport	Odessa	Amarillo	Abilene	Lubbock	Borger	Pampa	S. Angelo

Frosty Kennedy Takes Bat Lead; Bill Hair Tops Hurlers

Another new batting leader has taken over in the West Texas-New Mexico League chase with Forrest "Frosty" Kennedy, fiery Lamesa infielder, rising to the fore with a .394 average. He displaces the last week's leader, Eddie Bucz, who dropped out of sight during the series with the Pampa Oilers.

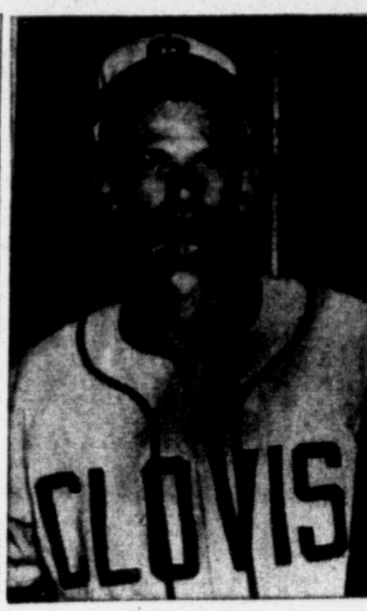

Running right behind Kennedy, who was just reinstated by the league after a 10-day suspension, is veteran Eddie Carnett, with a .388 average, one point ahead of team-mate and room-mate Windy Eldridge. Little Jess Jacinto is coming up with a .351 mark for fourth spot and Cully Rickard, the former Pittsburgh outfielder, is fifth with .373.

Carnett is not only one of the top hitters, but his 4-0 pitching record has the former St. Louis Brown, Chicago Cub and Chicago White Sox pitcher leading the pitching parade. But Bill Hair, veteran Clovis righthander, is the top performer with 8-1 through all games of June 10. Carroll "Red" Dial of the Oilers has won the most games, nine.

Back to the batting, Merv Connors, who spent the 1937-38 seasons with the Chicago White Sox, is the home run producer. His big bat came to life the past week and zoomed him up to 16 home runs, three ahead of the Dukes' Art Cuiti.

Francis Rice of Clovis is a three-point leader: hit (.72), total bases (119), and runs scored (58).

RBI's: Cuiti, 52; Johnny Jean-dron, Clovis, 49; Carnett and Pemberton, 47; Machinsky, 46.

BILL HAIR . . . tops hurlers.

16; Ed Sudol, Pampa, and Jim Hayes, 15.

Three-base hits: Abbott, Rickard, Jacinto, Deck Woldt, Pampa, Ed Kenna, Lubbock, Stan Machinsky, Amarillo, and Oscar Williams, Abilene, 4.

Home runs: Connors, Amarillo, 16; Cuiti, 13; Les Mulcahy, Amarillo, 11; Fortin, 10; Sudol and Rice, 9.

RBI's: Cuiti, 52; Johnny Jean-dron, Clovis, 49; Carnett and Pemberton, 47; Machinsky, 46.

SHAWNEE CLUB TO STAY AS SOONER

SHAWNEE, Okla. — (AP) — Irvin Owen, owner of the Sooner State League's Shawnee Hawks, says he is writing Gainesville, Tex., to say the Shawnee team will stay here.

Owen made his decision after Shawnee fans turned over \$6,300 to him Friday, the result of a season ticket campaign. About \$700 more is still out.

RESERVOIR FISHING: FISHING THE SWIRLS

WHEN YOU REACH A DIMPLING AREA; CAST A NOISY POPPING PLUG; A SINKING PROPELLER PLUG OR A PORK RIND SPOON AT A SWIRL AS SOON AS IT APPEARS. A POPPING BASS BUG IS ALSO GOOD. IT'S ESSENTIAL TO GET THE LURE AT THE SPOT BEFORE THE FISH GOES BACK INTO THE DEPTHS.

USE SMALL PLUGS. JERK RETRIEVE THE POPPERS. ALLOW SINKING PLUGS TO SINK 1 FOOT AS YOU REEL IN SLOWLY THEN RAISE ROD TIP AND REEL FASTER TO BRING PLUG TO THE SURFACE. STOP, THEN REPEAT THE ACTION. KEEP A FIRM GRIP ON YOUR ROD!

Black Oilers At Home Today

The Pampa Black Oilers meet some of their toughest competition of the season this afternoon when the undefeated Quannah club comes to Oiler Park for a 3 p.m. ball game.

The Black Oilers have only been beaten three times, twice by the Pampa Sports and once by Borger.

Next Thursday afternoon at 1 the Black Oilers play the Amarillo Colts in a return game here. Admission for both games is 75 cents for adults and 25 cents for children.

Holy Souls Boys Lead Two Leagues

The Holy Souls boys' softball teams have moved into first place in both boys' leagues of the Kiwanis-Church softball program. Both teams are undefeated, the junior boys having won three in a row while the senior boys have two straight.

The Calvary Baptist junior girls are leading their league with a 2-0 mark.

All of Friday night's games were postponed because of the heavy evening downpour of rain, leaving the standings as follows:

SENIOR BOYS LEAGUE

Team	W	L
Holy Souls	2	0
Central Baptist	1	0
Hobart Mission	1	0
First Baptist	1	1
First Methodist	0	2
First Christian	0	2
Calvary Baptist	0	0

JUNIOR BOYS LEAGUE

Team	W	L
Holy Souls	3	0
Church of the Brethren	2	0
Central Baptist	2	0
Hobart Mission	1	1
First Methodist	1	1
First Christian	1	1
McCullough Methodist	1	2
First Baptist	1	2
Calvary Baptist	0	2
Salvation Army	0	4

JUNIOR GIRLS LEAGUE

Team	W	L
Calvary Baptist	2	0
Central Baptist	1	1
First Baptist	1	1
Hobart Mission	1	1
First Methodist	1	1
First Christian	0	2

Foundry Still Tops In League

The Texas Company softballers sneaked up on the Pampa Foundry squad Thursday night in the Lefors Municipal Softball League and bumped off the league leaders, 10-7. The Pampa crew retained sole possession of the lead as Skelly, which had been pushing the Steelmen, fell to the Phillips crew, 4-2.

The standings:

Team	W	L
Pampa Foundry	5	1
Skelly	4	2
Phillips	4	2
Southern Production	4	2
Texas Company	2	5
Foxworth	2	5

Sports Roundup

NEW YORK — (AP) — Any hopes there might have been that Jake LaMotta would remove his battered visage from the fist scene and retire to count his money went down the drain with his slam-bang defeat of sailor Bob Murphy in Detroit. Now that Jake knows television loves him he'll probably go on forever.

Most everybody considered the Bronx Bull washed up. More than a year ago he took a fearful beating in losing his middleweight title to Sugar Ray Robinson in Chicago. He was in a terrible state when the slaughter was halted in the 13th round. Then, just short of 12 months ago, Murphy battered him into submission in seven heats at Yankee Stadium.

After the latter hiding, even Jake's pretty wife joined in the chorus. Grieving over his numerous cuts and abrasions, she told the butcher boy he had taken enough for one lifetime and begged him to hang 'em up. This seemed not too great a favor to ask at the time, as it appeared all too plain that Jake, though not yet 31, was through as a big time money winner.

There was quiet rejoicing among other fighters, for LaMotta's throughout his 10-year career had made a point of collecting enemies within the craft. A strange character, he always said that friends were for the birds and that he was interested solely in looking out for his own interests. Authorities claim he is the most hated boxer in the history of the game, not excepting Jim Corbett right after he knocked out the immortal John L. Sullivan.

Only in Detroit did LaMotta ever achieve real popularity. He did his best fighting for the fans of that city and won the middleweight title from Marcel Cerdan in a Detroit ring. His Motor City admirers were spared the sorry spectacle of seeing Jake stopped in the fourth round by a second rater named Billy Fox.

The odds of the one lingering day.

And so the Bull was through — or so everyone in these parts thought — and nobody seemed sorry. When the word got around that Detroit was insisting on holding a post mortem there was a surprise at first. Then there was a rush to the television sets with the anticipated pleasure of watching Murphy take Jake apart again, this time for days.

Home Clubs Win In West Texas Action

BY THE ASSOCIATED PRESS

Underdog, home standing West Texas-New Mexico League teams had a good night around the circuit Friday night.

Borger climbed into a tie with Lubbock for second by downing league-leading Clovis 8-4 at Borger while Lubbock was going down 7-2 at Lamesa. Last place Amarillo bumped seventh place Abilene 4-0 at Amarillo and sixth place Abilene trimmed fourth place Pampa 7-3 at Abilene.

Ed Flanagan was in frequent trouble as he scattered 10 hits to post the win at Borger. The victory gave Borger a 2-1 edge in the series with the league leaders and was the 12th home win in the last 15 games for Borger. Jack Gaines gave up only nine hits in losing. He blanked the Gassers for three frames but weakened in the middle three frames.

Otho Nicholas, with a three-run edge after the first inning, had little trouble winning at Abilene. Dub Akins homered with two on to build a lead Abilene never relinquished. Loser for Pampa was young Bob Votaw.

The Abilene hurler checked the Oilers for four innings after yielding a single in the first.

Gene Wolf got his second shut-out at the expense of Abilene, scattering 10 hits at Amarillo. Jerry Folkman hurled nice ball in losing, but two of the 10 hits he yielded were homers. One was Merv Connors' 19th of the year and his ninth in the last seven games.

Manager Jay Haney shook up the Lamesa lineup and the club unleashed a 10-hit attack that broke Lubbock's winning string at four games. Bill Smith gave up seven hits in winning. A three-run spurge in the first was all Smith needed.

Lubbock . . . 300 010 050-2 7 1
Lamesa . . . 300 011 205-7 10 2
Moreno, Fox and Palmer; Smith and Marti.

Clovis . . . 601 010 101-4 10 6
Borger . . . 600 152 095-11 9
Gaines and Benites; Flanagan and Perez.

Abilene . . . 600 000 000-0 10 1
Amarillo . . . 300 010 105-4 11 6
Folkman and Cuiti; Wolf and Mulcahy.

Pampa . . . 600 012 000-3 7 1
Abilene . . . 400 020 105-4 11 6
Votaw and Moore; Nicholas and Bowland.

Pampa Sports To Meet AF Amjets

The Pampa Sports, one of the biggest amateur teams in the Panhandle, meet the high-flying and rugged Amarillo Air Force Base Jets at Oiler Park Monday night. The Amjets have been playing service teams all over the country and field a very strong team.

The Sports' lineup is studded with strong local talent, too, many of the fellows having played professional and college ball. The starting pitcher against the Amjets will be Andy Troop while it will probably be L. Bill Miller, son of West Texas State's basketball coach Gus Miller, throwing for the arm.

Game time is 8:15. Admissions 75 cents for adults and 25 cents for children.

This afternoon the Sports are meeting the Wheelie club in Wheller, lefty George Matthews, former Oiler, Borger and Clovis southpaw, is due to pitch for the Sports.

JOLLY CHOLLY — Popular Charlie Grimm, who replaced Tommy Holmes at the Boston helm, is a one-man circus coaching at third base. Braves' base runners have little trouble hearing the former Milwaukee generalissimo with the log-horn voice. (NEA)

Greens Gossip

By HOGAN O'NEAD

Well, here we go. The biggest and toughest field in the history of the city golf tournament is scheduled to get started today and we should have some very interesting golf before the title is decided on June 29. Some of those fellows, guys like defending champ Clare Freeman and former champs Grover Austin, Jr. and C. F. McGinnis, have been seen practicing hard... something they don't ordinarily do. They're after it.

Injured hands aren't going to stop a couple of boys. We wouldn't miss the tournament, say Lefty Cox and Grover Austin, Sr. Both have injured fingers, will have to play one-handed, but they're still going to be rough for somebody to handle. One guy we're still waiting to see get in the tournament is rotund Tommy White.

And speaking of hands, shortly Heiskell and some of the other boys have nearly completed the preliminary legal work to have cross-handed golfers barred from the course. The rule is aimed right at Ben Falton and L. E. Chisholm.

Elders Good Round

Lots of the fellows attended the National Open—as spectators, of course, this year—including Malcolm Douglas, Henry Rose, Buster Carter and George Casey. Dr. J. F. Elder fired one of the best rounds ever shot on the local course, and except for a bogey on 12 and a double bogey on 15, might have really torn things up. Despite those two holes he came in with a 31 on the back nine and finished with a 28 on the front for a 69. But he wasn't qualifying. Later, when he was shooting for the medalist honor, the best he could hit was 74.

And talking of good shots for the week, Howard Willingham needed eight blows before he hit a ball in the lake on seven. And he hit the ball even time, too, but on the eighth shot he finally got it into the water. Takes a lot of practice to accomplish that feat.

One group that always has a lot of fun on the course is composed of Shorty Heiskell, Shorty Layne, Grover Austin, Sr., Walt Fade and W. T. Fain. Celestine man. Fain got sick and tired of paying the boys dimes, so he started taking lessons, and looking very good, too. If he sticks with it the dimes will be coming back. The word has gotten around to the rest of the group, so things may be made rough for him. Fade was barred from using his "hunk of steel" putter for a while. E. Utthoyinall as say for a while. But the boys finally relented and told him he could use the "hunk of steel" but he would only be paid half of what he won on any hole.

Lila Wins

Congratulations to little Miss Lila Austin for copping medalist honors in the ladies tournament. But we're unhappy about the number of faces missing in the meet. Come on, gals.

That big rain Friday night left Johnny Austin smiling on Saturday. And he still is asking for more to keep things alive. He's been putting the water on the layout 12 hours a day, and barely keeping ahead of the water. More about the city tournament. Bull Atkins is unhappy. He shot a 79 to qualify, not an 89 as a misprint in the paper stated. Now Bull is being "gunned for" by Lefty Cox. Lots of newcomers in the tournament. The field of a hundred is really excellent. Bill Lemmons can't play because of a back injury suffered in the Phillips tournament. It's a real loss to the championship flight because Bill is a fine golfer as well as

Bauer Bids For All-Star Spot

CHICAGO — (AP) — Hank Bauer, the New York Yankees' veteran outfielder who never has played in an All-Star baseball game, has taken a substantial lead for the American League's position in balloting for this year's squad. Bauer has received a total of 33,191 votes, a lead of 4,654 over Detroit's Vic Wertz, as votes were tabulated today for the 19th annual all-star contest in Philadelphia July 8.

Other ankees currently leading in votes for their respective positions are Shortstop Phil Rizzuto, 38,523 votes, and Catcher Yogi Berra, 36,779.

Hank Sauer, the Chicago Cubs' wallowing leftfielder, continues to lead all individual vote-getters. He has been named on 47,246 ballots.

LEFORS ALL-STARS — This group of softballers representing the town of Lefors and managed by C. A. Martin, center, kneeling, is seeking games with other teams throughout the area. They'll play any other girls' team within 100 miles of Lefors on a home and home basis. The girls are all teenagers. Games are played in the public square at Lefors, either afternoon or under the lights.

Harridge Awaits Umpire's Report

CHICAGO — (AP) — Will Harridge, president of the American League, awaited a formal report today from Umpire Bill McGowan on McGowan's Wednesday night fracas with Manager Marty Marion of the St. Louis Browns. Marion, appointed Browns manager last Tuesday, appeared before Harridge Friday, accompanied by Browns President Bill Veeck.

They gave their side of Marion's argument with McGowan during a game with the Boston Red Sox. Marion was suspended indefinitely by Harridge on McGowan's oral report of the incident.

The umpire reportedly claimed Marion bumped him, but the new Browns manager said Friday: "McGowan put me out of the game the minute I came up to kick about a close play. Then I stood in front of him with my hands on my hips. He told me to get out of his way. I told him I didn't have to, that I was up there to talk to him. Then he tried to walk through me."

Veeck said, "We presented our side of the case and I think we'll be satisfied with the duration of Marion's suspension which will depend on McGowan's report."

Veeck had named Marion manager the day before the incident, replacing Rogers Hornsby.

A great gentleman. A word of warning: beware of Johnny Forman!

Get 'em fellows.

Texas Western Star To Mexico

SAN ANTONIO — (AP) — Erich Pohl, member of the U. S. Olympics Committee, said Friday night he had lodged a protest with the committee over the decision of Javier Montes to represent Mexico in the Olympics at Helsinki.

Pohl told the San Antonio Express he did not believe Montes could represent anyone in the Olympics but the U. S. because he was born in the United States.

Earlier in El Paso, Montes, graduating captain of the Texas Western College Track team, announced he was going to Chihuahua, Mexico, for the Mexican Olympics Trials.

"It is not a matter of choosing countries," the 22-year-old senior said. "It would be a great honor to compete for the United States, but I am doubtful that I could make the team. I'm not fooling myself, although some people think I would be a cinch for the American team."

Montes holds the Border Conference mile and two-mile records. He said the Mexican government promised him the trip to Helsinki later in the summer regardless of how he finished in the Mexican Olympics. He said they would not accept him if he tried out for the U. S. squad.

Pohl said he had received a letter from Dale Waters, Texas Western track coach, concerning Montes' decision. Pohl quoted Waters as saying the El Paso coach tried to talk Montes out of going to Mexico.

Araujo In Split Win Over King

NEW YORK — (AP) — Winner George Araujo and split decision loser Arthur King both are screaming today for a lights-out title shot with the winner of the Lauro Salas-Jimmy Carter rematch tentatively set for Aug. 27 at Madison Square Garden.

"We want the champion next," yelled Manager Frankie Travla in the Garden dressing room Friday night after Araujo's widely-expected win over King. "We fought everybody in the way. We deserve it. We're going to post a forfeit."

At ringside, Frank Blinsky, Jr., King's manager, was offering a \$20,000 guarantee for a Toronto title scrap between Lauro Salas and the Salas-Carter winner.

Palermo said the Salas-Carter bout is all set for the Garden Aug. 27, during the American Legion convention. The International Boxing Club, which holds

Phillies Snap Losing Streak

PHILADELPHIA — (AP) — Russ Meyer and Freeman Jim Konstanty turned back the Pittsburgh Pirates 4 to 2 on five hits Saturday to end a four-game Philadelphia Phillies losing streak.

Meyer, going out for his third win, allowed the Pirates only five hits, one of them a ninth-inning homer by Pete Castiglione that brought Konstanty to the rescue.

Meyer also contributed to the Phillies attack with a second-inning single that scored Catcher Smokey Burgess.

The Phillies put across their second run in the same frame as Eddie Waitkus singled to score Caballero.

The third Philadelphia run was chalked up in the fifth as Dal Ewnis tripled off the center field wall and scored on a wild pitch.

"He beat him Friday night," by Pittsburgh hurler Bob Friend, said Palermo. "Why ask for another in the seventh as Gran Hamner bunted and reached first on an Friday night, but the majority error by Freeman Hamner—stole second and went to third on an Ennis grounder. A Burgess single sent Hamner home."

Wes Ferrell of the Washington Senators had six opening day pitching assignments in his career and won all of them.

Notre Dame Bucks NCAA

CHICAGO — (AP) — The National Collegiate Athletic Association (NCAA) is expressing an anxiety to change by the president of Notre Dame that its television policy is illegal and unfair.

The Rev. John J. Cavanaugh, C.S.O., head of the football-coached Catholic university, criticized the policy Friday in a letter to the NCAA's executive director, Walter Byers.

Byers said he is preparing an answer but "the president of Notre Dame's business matters will not permit review before Monday."

NCAA President Hugh C. Whitely in Berkeley, Calif., expressed "great surprise" at Cavanaugh's stand and said he was "very sorry that Father Cavanaugh has taken that position." He made no further comment.

Notre Dame and Pennsylvania, among major schools, have led an unsuccessful fight the last two years to strip NCAA controls from television of collegiate football games.

The rematch contract has made an announcement. Los Angeles wants it back where little Salas, the Mexican jumping bean, won the crown from Carter, May 31, 1951.

"We'll guarantee the champ \$30,000 and a privilege of 43 percent of the gate," said Palermo. "The fight in Toronto, King's home town, would do \$120,000 in late September."

Palermo may think his man won the majority vote in the Philadelphia election. He was King interested in a rematch with Araujo?

"He beat him Friday night," said Palermo. "Why ask for another in the seventh as Gran Hamner bunted and reached first on an Friday night, but the majority error by Freeman Hamner—stole second and went to third on an Ennis grounder. A Burgess single sent Hamner home."

Wes Ferrell of the Washington Senators had six opening day pitching assignments in his career and won all of them.

Serena Homers To Aid Cub Victory

BOSTON — (AP) — Rashed into center field for defensive purposes in the 11th, Hal Jeffcoat came up with a two-run triple in the 15th inning Saturday to give the Chicago Cubs a 3-1 decision over the Boston Braves. Jeffcoat's 10th win in 11 starts.

That mighty blow to left field was a heart-breaker for left-waller Spain who went the full distance for the Braves, fanning 13 of the Cubs while scattering 39 hits.

Starter Willard Farnsworth gave the Braves two hits and four bases on balls before Klippstein took over in the eighth inning. The latter ignited the Bravesmen to two hits and did not yield a pass over the last eighth frame.

Bill Serena's sixth homer of the season over the left field wall to open the ninth enabled the Cubs to dedlock the unhappy Spain, who was seeking his seventh win. He now has a 6-4 record and Klippstein is 4-4.

Three Tackles Inked By Texans

DALLAS — (AP) — Three tackle linemen have signed pro grid contracts with the Dallas Texans, head Coach Jim Phelan announced Saturday, bringing the list of players under contract with the Texans to 3.

The veterans are Don Cole (Brown University), Art Donovan (Boston College) and Ross Nagel (St. Louis).

Cole is probably the biggest lineman on the squad, carrying 270 pounds on a 6-foot-3 inch frame. He was acquired from the Baltimore Colts when that team disbanded in 1951.

Nagel, 243, played with the Chicago Cardinals before joining the New York Yanks last year.

Donovan will be playing his second season under Phelan. The New York Yanks acquired the big tackle from the Baltimore Colts in 1951.

One Of Baseball's Funniest Clowns To Appear Tuesday

One of baseball's funniest clowns, Ed Hamman, will make an appearance here on Tuesday when the Oilers play the Albuquerque Dukes.

Hamman, from Fostoria, O., has been clowning his way in baseball parks for many seasons. His pre-game clowning is only topped by his famous "pepper game," a show all by itself that makes the fans gasp with his spectacular back handed throws. He is the greatest trick handler of a baseball. Hamman has been doing this for many years and his dexterity and ball handling is almost unbelievable unless you see it.

His fame is so wide spread that even the Major Leagues were after his services. Several years ago Hamman was asked to perform in the World Series between the Cleveland Indians and the Boston Braves at the Municipal Stadium in Cleveland. His "Susie" kept the huge throng laughing just before game time. Hamman and his duck were finally chased by the ground-keeper in order to get the ground under way. Television and radio bribes were high in their praise for Hamman and his act.

Hamman was also invited to perform before the Little World Series in Indianapolis and made a big hit with the fans. The following year Hamman toured the country with the famous Indianapolis Clowns and Harlem Globe Trotters baseball club. After supporting on hundreds of diamonds in the past few years, Hamman has decided to forego performing for one club and will offer his services throughout the U.S.A.

His side splitting pranks will definitely keep the multitude in good humor before and during the game. He is a veteran of pantomime and his comical pranks will always linger with the fans. Hamman is sure to attract many more fans to the ball parks.

SPORTS AFIELD

By TED KESTING

Two things about casting lines are axiomatic: (1) The lighter the line, the better it will cast. (2) The lighter the lure, the lighter the line should be.

Many casters still use lines much too heavy to get the enjoyment they should out of fishing. The introduction of spinning is helping solve this. In fresh water spinning a line over eight pounds won't work and it is damning on casting rod users that a light line will not only permit better casting, but will land surprisingly big fish.

Jason Lucas says that in reasonably weed- and snag-free water for any fish up to the size of large bass and pike, he nearly always uses a five-pound line. Where bass and pike run large, he will use a 10, sometimes a 15-pound line. The spots are rare where bass grow so large that a 10-pound line won't land them. If you remember this it—the user keeps cutting off the worn front of his line, next to the plug, before it gets weaker than the rest of the line.

However, in bass fishing and such, for the beginner or the man who casts much practice, Lucas recommends a 12-pound line.

There are two general types of lines: the hard-braid water-proof which is very common, and the soft-braid nonwater-proof used by some advanced anglers. The soft will cast much better with fewer backlashes, but it will not wear as well. In heavier tests, the soft-braid becomes too bulky. The dividing line is a matter of taste.

CHANGING DOUBLE TAPERED FLY LINES TO TORPEDO TAPER

CUT FLY LINE IN ITS CENTER. AND SPLICE TO 25 YDS. OF SIZE # OR G RUNNING LINE. SPLICE AS FOLLOWS: SCRAPE 1/4" OF FINISH ON EACH JOINING SECTION OF LINE.

FRAY BOTH SECTIONS WITH A PIN POINT AND DIVIDE EACH SECTION INTO 4 TWISTED STRANDS. PUSH BOTH ENDS TOGETHER WITH NYLON OR SILK THREAD. TIE A KNOT IN THE CENTER AND WRAP PAST THE TWISTED STRANDS TYING A FINISH KNOT AT EACH END. WRAP AGAIN AND WASH 3 TIMES. ALLOW EACH GO TO DRY THOROUGHLY.

Best Kind Of Dog Is Your Kind

By JOE STETSON Dog Editor

I don't quite remember how we got started talking about dogs—perhaps it was because some of the dogs were being given their afternoon airing. At a rate the cab driver made a remark or two about this breed and that and then directed a question to me that I couldn't ignore.

"What is the best kind of dog?" he asked.

"There is only one answer to that question so I gave it to him."

"Your kind, I said."

"Wadaya mean, my kind?" It was obvious that he thought I was implying some kind of insult.

"Haven't you a dog?" I asked.

"Well, the kind you have is the best kind of dog."

"My dog's a mutt—a pure bred Heinz," the driver said as he squeezed through traffic.

"You know it's funny," he continues, "he knows my cab when I drive home at night and he's up in the window watching for me. The wife says he gets the curtains dirty, but I know she doesn't mind. She says he shouldn't be fed at the table, but I notice he's always sitting up begging on her side and that ain't for nothing."

"He's got a ball and you should see him hunt for it. Just say 'getcher ball' and he starts lookin' in every corner and under the couch 'til he comes up with it."

"Then is when he's really funny. Go put your head in the corner I say, and he walks into the corner by the radio and pretends he's not lookin' while I

hide his ball. Then he comes racing out and finds it and brings it back again.

"You should see him walk on his hind legs. He's smart as a whip. We almost lost him once though. He was a sick dog, Cost a lot of dough in vet bills, too—shots and pills and special food, but the wife and I took turns feedin' him every two hours for four days, then he picked up slow like and now he's fine."

"What I wanted to know, though," he said as he slid the cab into the curb in front of my stop, "is what's the best kind of dog?"

"Gosh," he muttered, as I slipped him his fare, "I guess I heard you the first time."

TO HELP OTHERS NOT SO FORTUNATE — Pictured here are five aerialists of the Gainesville Community Circus which will hold two performances here at 8 p.m. Friday and Saturday, June 27 and 28. Sponsored by the Pampa Elks for the benefit of the Elks Crippled Children's Hospital, Odine, Tex., the performances will take place at Recreation Park, the site of Pampa's Top O' Texas Rodeo. Boy Scouts will handle the concessions; while the Girl Scouts will sell programs. Joe Tooley is in charge of the entire occasion.

Sooner Wheat Record Seen

OKLAHOMA CITY — (AP) — Op-timum is growing in Oklahoma's bread basket area that farmers may harvest a near record 100 million bushel crop this year. The Department of Agriculture's June 1 estimate was 90,132,000 bushels.

As harvesting continued under ideal weather conditions — a hot sun, dry fields and a slight breeze — yields consistently were reported higher than normal with

quality the best in years. An estimated 17,000 combines are working the fields from Southern to Northwestern Oklahoma. The hot sun is ripening the grain in great waves farther north each day. The wheat is maturing so fast the state employment service has sent out emergency calls for more combines and trucks to get the grain to market.

The Rock Island Railway reported loading more than 1,000 cars out of the northwestern section of the state in the last two days. The railroad has 2,400 cars in storage awaiting the big rush.

The Frisco said it is leading more than 300 cars daily and so

far has not had any shortage of cars. Both lines shuttle their trains to Enid or Ft. Worth where they are quickly unloaded and shot back to the wheat country. Observers at elevators over the state reported few farmers have harvested less than 20 bushels per acre so far this year. The all-time Oklahoma average is 27 bushel set in 1926.

Touchy Automobile
PORTLAND, Me. — (AP) — Robert B. Farley Jr. is only 2 but already he has his doubts about these modern autos.

All master Robert did recently was press a couple of gadgets and the family car jumped over a curbing and smacked a fence.

Sennett Urges Americans To Be Goodwill Ambassadors

HOLLYWOOD — (AP) — From all reports, the hit of the recent Cannes film festival was not an international beauty or a young movie genius. It was veteran Mack Sennett, father of the Keystone Cops and the bathing beauties.

Sennett, who hasn't been active in film production for more than a decade, was chosen by the French government to be guest of honor at the festival. "At first I didn't want to go," he admitted. "It sounded like a long and tiring trip. But then I talked to some of my friends and I realized it might be a good gesture for American relations with France and other countries. So I decided to go."

"What a trip! I was in the air for 28 hours. I arrived at Cannes at 4 in the afternoon and started to take a nap. Then someone called up and told me the Italians were giving a big cocktail party and dinner and I had to be there. I started on a merry-go-round and never got off. I didn't get a good night's sleep until I got home two weeks later."

Sennett is 68, but he set the pace for the glamor girls who attended the festival. He attended most of the showings and managed to stay awake, despite the fact that most of the films were in foreign languages without titles. "Sometimes I felt like dozing off," he said, "but I realize that wouldn't be diplomatic. A special feature of the fes-

tival was a Sennett festival, an hour and a half of his early films. They featured such stars as Charlie Chaplin, Mabel Normand and Gloria Swanson.

"I was worried about how they would go over," Sennett remarked, "because the pictures were so old. But the audience howled. You never heard such laughs. Afterwards, Orson Welles introduced me and I had to make a speech."

Sennett returned from France enthused about the possibilities of engendering goodwill abroad for Hollywood and the United States.

"Think we ought to send more movie people over there, just to make friends for us," he commented. "I don't mean the brain-

less stars who merely antagonize people. I mean good, level-headed personalities like Clark Gable, who is over there now. Or Bill Holden and his wife, Brenda Marshall, who made a lot of friends at the Cannes festival. "That goes for all Americans. I understand there are 750,000 people going from here to Europe this year. If they will all remember that they are goodwill ambassadors, they can do more good than all the money we are pouring into Europe."

Sennett offered these tips to travelers abroad:

1. Don't be a show-off. Instead of driving around in an expensive United States auto, hire a little foreign car.
2. Don't throw your money

around. Europeans don't like to be reminded that they are poor.

3. Don't order the natives around. You are a walking billboard for democracy.
4. Remember a friendly smile is your calling card.

He added another point — don't be surprised by anything. Mack went to the Maurice Chevalier show in Paris and was startled to see that the chorines wore nothing from the waist up. "I had to clean my glasses three times to make sure I was seeing right," he said.

EVERY DAD SHOULD BE A KING today—his day! This day will be tops for Pops—nothing too good for the man of the family. Mr. Peg has already been greeted with hugs and kisses from his family with a promise of a golf game before coming home to his favorite meal prepared by his ever-loving spouse and kiddies. Pretty wonderful people... Fathers! Speaking of fathers—overheard Clyde Oswalt bragging about how well his daughter, Joyce, is doing in her new job as housewife. It always seems to amaze parents, especially fathers, that their "little girls" can be so efficient on their own.

FRANCES CREE celebrated her birthday this week... friends and family dined at the C. C. in honor of the occasion. Frances looked mighty fetching in a dark green strapless dress with a green orchid fastened mysteriously on her shoulder. She is such a tiny thing, she makes ole Peg feel so gauche.

FATHER AND SON look-alikes: Demaris Holt and his son.

GUESS THE CITY GOLF tournament is tops in sports discussions right now. Mr. Peg qualified the other day—won't mention what with. Dear boy does pretty well considering the little time he spends on the links. You know it is difficult for Sunday golfers to shoot a really low score. Oh well, he has plenty of company in his group and they have fun... Clare Freeman is the defending champ... he plays a beautiful game. Others to watch are Henry Rose and Grover Austin, Jr., both are shooting fine golf. (Info thanks to Mr. P.)

HERE IS A LITTLE TRICK you might use for just a touch of elegance... so simple yet so very effective. Open a hankie-half way, place some of your favorite powdered sachet onto it and fold the hankie in a way that the sachet will stay put, yet the hankie will be flat. Simply pin the sachet filled hankie (a pin at each end) to the top of the mattress cover where the pillows will be. The fragrance from the sachet will float out very subtly. This a nice touch in your guest room, too!

THE BONNIE ROSES have been married 31 years Thursday. Goodness, they seem more like newly weds. They are so cute together. Their home is nearly ready for occupancy.

HAD OUR FIRST WATERMELON this week, it was so good. As usual, ate far too much. Do believe Mr. Peg was shocked—just how long will it take for him to get used to the fact that he married a gal who loves food. Jr. is following in his mother's footsteps.

PROUD PAPA, Melvin Watkins handing out "It's a Boy" cigars.

KNOW THE RUSSELL CHISHOLMS are proud of Tom on his graduation from Notre Dame. Jeane was certainly excited about the trip to see him graduate.

HANK NIPPETT was with a lovely bit of femininity at the last C. C. dance. Don't know her last name, but her first name is Sybil. She had a darling "poodle" cut—still want one. Gonna quit talking about it one day and get one.

WOULD LIKE VERY MUCH to see Jimmy Howard in his West Point uniform. How about it Jimmy? Know he looks very handsome.

BET THE CHOW was mighty good at the Roping Club's get-together Thursday night with Rufe Jordan and Otto Mangold cooking the steaks. Make mine medium rare, boys.

PAMPA WELCOMES B. H. Cruce as her new city manager. Of course Mrs. Cruce and their daughter are included in the welcome.

PEG IS SO HAPPY for the ever-smiling Tom Hammonds on their being awarded a new seeing-eye dog.

AM THANKFUL I was nowhere near the scene of the five-car accident out by Celanese Monday. Mr. Peg would have been sure it was all my fault. Why are men so unreasonable about their wives' driving. Not one of the dents or scratches on our car was put there by me. Statistics show that women are safer drivers than men—oh well, guess it is a futile argument.

THE CENTER OF ACTIVITY these nice warm afternoons is the swimming pools. Can't seem to get up the nerve to go swimming with so many lovely young things around. Pampa certainly has her share of beautiful young ladies. One little girl who is growing into a beauty is Linda Austin.

HERE'S WHAT I'VE BEEN waiting for... Breakfast in a package! Carton contains 6-oz. can of frozen orange juice, 2 golden brown quick-frozen waffles and quick-frozen coffee concentrate. You blend the orange juice with cold water while the kettle boils, pop the waffles into the toaster, then add a teaspoon or so of coffee concentrate to a cup of boiling water. There you are! Be terrific for bachelors' husbands while wife and kiddies are visiting Grammie, which is what Peg and the youngsters are planning on doing next week. Mr. Peg will take over next Sunday. He did such a good job and got so much praise, am sure he has been really quite anxious for this time to arrive.

THE C... and the Jack Fox... to Chicago to attend a... market. If I know... in June—is a bit warm.

HAD MY FIRST LOOK at women wrestlers Wednesday night. Good heavens those girls are rough... even worse than the men wrestlers. Can you imagine, Jr. thinks it would be thrilling if his o' ma were a wrestler. Am afraid he is going to be disappointed.

TODD AND TOOLEY CONE are such a cute couple. They raise chinchillas... quite expensive pets for their two darling children.

LOUISE MONROE, of the Jay Monroes, who is living in Albuquerque is in town, 'tis nice seeing her.

HERE GOES ANOTHER BACHELOR to an out-of-town girl—His interests are in Canadian.

HAD A FRIDAY 13th party for the kiddies. It is amazing the number of things you can dream up to show of superstition it doesn't mean anything to you.

KIDDIES ARE GETTING after me to start "daddy's treat"... so guess we had better. That's all from PEG O' PAMPA

Campbell.

A woman is greeting guests in her own home. WRONG: She doesn't offer to shake hands. RIGHT: She shakes hands with each guest.

MISS DOROTHY ANN ROBERTS Mr. and Mrs. Harland B. Roberts, 1112 E. Browning, announce the engagement of their daughter, Miss Dorothy Ann Roberts, to Mr. Sam Wampler, son of Mr. and Mrs. John Wampler of Amarillo. The wedding is scheduled for August 2. Miss Roberts attended Pampa schools.

MISS BOBBIE TUCKER Mr. and Mrs. R. W. Tucker announce the engagement and approaching marriage of their daughter, Bobbie, and Mr. Wendell Altmiller, son of Mr. and Mrs. Ray Altmiller of Darrouzett, Texas. Vows will be exchanged July 2 in the First Baptist Church with Rev. Douglas Carver officiating. Miss Tucker and Mr. Altmiller were students at West Texas State College the past year. She was graduated this month, and he will be graduated next spring. The couple will live in Amarillo.

MISS WANDA LUEDECKE The engagement of Miss Wanda Luedecke and Mr. Dick Post is announced by her parents, Mr. and Mrs. E. A. Luedecke of Lakeview. The bride-elect is a 1951 graduate of Pampa High School. Mr. Post, the son of Mr. and Mrs. R. L. Post, Sr., is a graduate of Southern Methodist University. The wedding will be solemnized in late summer in San Antonio.

MR. AND MRS. DON CAIN Betty Anne Brock, Don Cain Are Wed Saturday In First Methodist Chapel

In an all-pink wedding read in the First Methodist Church Chapel Saturday at 5 p.m., Betty Anne Brock, daughter of Mr. and Mrs. Frank M. Culbertson, became the bride of Don Cain, son of Mr. and Mrs. E. M. Cain of Dallas. Rev. Edgar W. Henshaw of St. Matthew's Episcopal Church, officiated at the single-ring ceremony. Mrs. Roy Johnson, organist, played traditional wedding music and accompanied Mrs. Sam Pruitt, who sang "O Perfect Love," and "The Lord's Prayer." The chapel was decorated with large baskets of pink peonies, flanked by tall cathedral tapers and palms. Mrs. Richard Stowers, sister of the bride, was matron of honor. Her dress was yellow marquisette, ballerina length, and she carried a nosegay of pink carnations. J. E. Thompson was best man, and ushers were Richard Stowers and Sam Pruitt. The bride, who was escorted to the altar by her father, wore a ballerina length gown of mint green lace. The bodice closed to the waist with covered buttons, featured a close-fitting collar and long sleeves. The bridal bouquet was white gardenias surrounded by pink peonies. The bride wore matching lace hat and shoes. Following the wedding ceremony, a reception was held in the home of the bride's parents. The table was laid with a pink satin cloth caught in folds by pink carnations. The pink tiered wedding cake was encircled with pink carnations. Assisting at the reception were Miss Carol Culbertson, Mrs. J.E. Thompson, Mrs. Mike Hemperly, Mrs. Walton Smith, Miss Pat Lively, Mrs. Sam Pruitt, Mrs. Ralph Dunbar, Mrs. George Scott, and Mrs. Roy Escobard. When the couple left for a wedding trip to New Mexico, the bride wore a navy sheen dress with white collar beaded in red, a matching hat and navy accessories. She wore a gardenia corsage. Out-of-town guests included the mother and father of the bridegroom, Mr. and Mrs. E. M. Cain; Mr. and Mrs. Walton Smith, Brandon; Mr. and Mrs. Mike Hemperly of Wichita Falls; and Mr. and Mrs. Lawrence Hanaway, Portales, N.M. Mr. and Mrs. Cain will make their home at 2004 Williston, Okla.

MISS NICKI FRASER Fraser - Lyon Wedding Plans Announced Here

The engagement of Miss Mary Nick Fraser, daughter of Mr. and Mrs. William T. Fraser, and Mr. William Duaine Lyon son of Mr. and Mrs. R. L. Lyon of Olton, was announced at a luncheon given this week at the Pampa Country Club. Guests included the wedding attendants and their mothers. The table was covered with a white cloth and centered with an arrangement of pink peonies in a milk glass bowl, carrying out the bride-elect's chosen colors, pink and white. The wedding will be solemnized July 18 in the First Methodist Church. Miss Linda Fraser will serve her sister as maid of honor and Miss Angela Duncan and Miss Norma Ann Pirtle will be bridesmaids. Other guests at the engagement announcement were Mrs. Wade Duncan and Mrs. Roscoe Pirtle, and Mrs. Fraser, hostess.

VIVIEN BRAKE KAY STEWART Mrs. Lily Hartsfield To Present Pupils In Recital At Baptist Church Tuesday

Mrs. Lily Hartsfield will present a group of her piano pupils in recital Tuesday at 8 p.m. in the Central Baptist Church. Miss Carolyn Carver, vocal soloist, will sing "Irish Lullaby" by Shannon and "Thine Alone" by Victor Herbert. Among the pupils to appear are Miss Kay Stewart, daughter of Mrs. Lillian Zamora, who will play "Second Gavotte" by Godard and "Rustles of Spring" by Sinding. Miss Claudette Maloney, daughter of Mr. and Mrs. C. A. Matheny, will play "Waltz in A Flat" by Chopin, and "Norwegian Concerto" by Greig. Miss Vivien Brake, who is the daughter of Mr. and Mrs. W. S. Brake, will play "Fantasia Impromptu" by Chopin and "Clair de Lune" by Debussy. Other students include Jeannine Leith, Billie Jones, Sydna Morris, and James Lee Byars, who will play "Aragonaise" by Massenet and "On the Ice and Sweet Briar" by Crawford. An attractive way to serve hot—about fifteen minutes. In the oven. Sliced tomatoes and into a bean pot and heat them canned beans is to empty them cucumbers on a bed of cole slaw make a fine accompaniment to the beans. Finely chopped chicken mixed with pickle relish and cream cheese makes a delicious sandwich filling.

MRS. JACK LEE SUTTON First Christian Church Is Setting For Wedding Of Miss Parks, Mr. Sutton

Miss Martha May Parks became the bride of Mr. Jack Lee Sutton in a ceremony read at 6 p.m. June 7 in the First Christian Church. The bride is the daughter of Mr. and Mrs. A. E. Parks, northwest of the city, and the bridegroom's parents are Mr. and Mrs. H.S. Sutton, 1131 E. Francis. Rev. H. H. Tyler officiated at the double-ring ceremony read before an altar decorated with baskets of orchid gladioli, greenery and candelabra. Mrs. Helen Payne sang "Thine Alone" and "Because" and was accompanied by Mrs. Roy Johnson who played "Clair De Lune" and traditional wedding marches. Miss Clarice Parks was her sister's maid of honor. She wore a ballerina-length gown of orchid lace and carried a crescent shaped bouquet of orchid gladioli. James Gallimore was best man and Ed Marlow and Leon Taylor were ushers. The bride, whose father gave her in marriage, wore a ballerina-length gown of white lace and net styled with short scalloped sleeves and small, rounded collar. The dress was closed to the waist with small covered button. Her veil of illusion was attached to a small hat ornamented with rhinestones and pearls. The bride carried a bouquet of split carnations centered with an orchid with ribbon streamers. For her daughter's wedding Mrs. Parks selected a beige linen dress with navy accessories and red rose bud corsage. The bridegroom's mother wore a grey and white cotton lace dress with black accessories and a white gardenia corsage. The wedding was followed by a reception in the church fellowship hall. Orchid punch was served with the orchid and white wedding cake. Assisting with serving were Miss Donna Robinson and Mrs. Mardella Chapman. Miss Joan Stroup presided at the bride's book. When the couple left for a wedding trip to Colorado Springs, Mrs. Sutton was wearing a navy suit with navy accessories. They will make their home at 302 E. Francis for the remainder of the summer, and will move to Lubbock in September where Mr. Sutton will continue his study at Texas Technological College. Both are Pampa High graduates.

Logan-Cree Vows To Be Read In Abilene June 28

Mr. and Mrs. T. G. Logan, 1202 Douglas, Sweetwater, announce the engagement and approaching marriage of their daughter, Mary Elizabeth, to Mr. William Richard Cree, son of Mr. and Mrs. G. B. Cree, Sr., of Pampa. The ceremony will be read June 28 at 8 p.m. in the Central Presbyterian Church in Abilene. Miss Logan is a graduate of Newman High School, and attended Texas Technological College in Lubbock. Mr. Cree is a graduate of Culver Military Academy, Culver Ind., and of the University of Texas.

First Baptist Circles Hold Meetings Here

The Ruth Meek circle and the Vada Waldron circles of the First Baptist Church met this week for study. The Vada Waldron group met in the home of Mrs. Tom Rose, Jr. The meeting opened with a prayer by Mrs. J. W. Graham, Jr., and Mrs. Tom Duvall gave the closing prayer. Attending were Meses. Creel Grady, Snell, Bob Triplehorn, Ivan Noblitt, Ralph McKinney, Graham, Duvall, and Rose. Mrs. Lewis Holler gave the Bible study at the Ruth Meek circle meeting in the home of Mrs. John A. Jones. Mrs. F. E. Leach gave the opening prayer. Mrs. C. E. Powell closed the meeting with prayer. Attending were Meses. H. B. Taylor, Jr., Homer Taylor, Jack Morris, Ed Wosegemuth, Bessie Robertson, L. A. Baxter, Rupert Orr, E. B. Clapper, and Dan Schaffer. If white sauce is to be kept hot cover it so as to discourage a film from forming over the top.

Color Harmony Studied At Joint Club Meetings Here

A program, "Color Harmony in the Home" was presented by Mrs. Roy Goodnight when the Worthwhile Club entertained the Bell Home Demonstration club Friday in the home of Mrs. O. G. Smith. "Make color in the home to suit your personality," Mrs. Goodnight said. "There are only three basic colors, red, yellow, and blue, but several hundred colors can be made from these. There are six colors in the rainbow: yellow, red, blue, green, orange, and purple. The first thing in decorating a home is to think what is used in the room. Put wall and woodwork in the same color," she advised. With her talk, Mrs. Goodnight displayed colored pictures of rooms. Mrs. Carl Smith of the Bell Club won a fruit dish in a drawing contest. Refreshments were served to Mrs. Goodnight and the following Bell members: Mrs. Connor O'Neal, Mrs. Carl O. Smith, Mrs. Roland Dauer, Mrs. Amos Greenlo, Nolan Cole. Worthwhile club members present were Mrs. Mattie Kees, Mrs. P. G. Turner, Mrs. Ray Robertson, Mrs. Nat Lunsford, Mrs. Ruby Lunsford, Mrs. R. F. McCallip, Mrs. Roy Tinsley, Mrs. O. A. Wagner and the hostess.

MR. AND MRS. J. M. LEDGERWOOD
(Smith Studio Photo)

An open house will be held today in the home of Mr. and Mrs. J. M. Ledgerwood in observance of their Golden Wedding anniversary. Friends are invited to the entertainment between 2 and 5 p. m. The couple has lived in Skellytown since 1928, moving there from Fox, Oklahoma, where they were married.

They have four children, a son, W. C. of Wirt, Okla.; a daughter, Mrs. Raymond Ketchum of Tulsa; and two daughters in Skellytown, Mrs. T. C. Cofer and Mrs. Tom Hall. They have 11 grandchildren.

Before his retirement, Mr. Ledgerwood was employed by Magnolia Oil Co.

MR. AND MRS. JAMES BROOKS

Bartz-Brooks Double-Ring Ceremony Read By Candlelight In Kingsmill Church

Miss Carolyn Bartz, daughter of Mr. Bill Bartz and Mrs. Don McLaughlin of Pampa, became the bride of Mr. James Brooks, son of Mr. and Mrs. Wallace Brooks of Rockdale, Texas, in a double-ring ceremony read by candlelight June 5 in the Kingsmill Church.

Rev. John Whipple, Balke, Okla., read the service under an arch decorated with greenery and carnations. A basket of carnations and two blue asterines flanked the arch. Palms and lace fern were used in the background.

Miss Joan Wallenberg, of LaVerne, Okla., played a prelude of wedding music and accompanied Ester Barker, Phyllis Zetoch and Pearl Mae Clanton as they sang "Facing the Future." Rev. Donald Dibbins of Hardesty, Okla., sang "Because." Traditional wedding marches were used.

Pews were marked by bows of white and blue satin.

Mrs. Clifford Bailey, matron of honor, and sister of the bride, wore a blue taffeta gown covered with net. She carried a nosegay with satin steamer.

Bridesmaids were Miss Barbara Lewis and Miss Corrine Flowers. Both wore a lavender taffeta gown covered with net and carried a pink and blue nosegay of baby asterines and satin ribbon.

Miss Flower was attired in a pink taffeta gown with net and carried a nosegay of asterines. Both wore head decorations of pink net.

Miss Pamela Bailey, niece of the bride, dressed in white satin bridal attire similar to the bride. She carried a red basket lined with white satin and bore scattered white rose petals on the bridal aisle.

Miss Kathryn Eckman of Pampa handled the register. She wore a pink taffeta gown with net overskirt.

Janette Bailey, niece of the bride, and Harold Fred Brooks, the bridegroom's brother, were candlelighters. Each carried a candle decorated with yellow satin ribbon.

Given in marriage by her father, the bride wore a white satin gown with a softly draped skirt and peplum ending in a full train. The bodice featured a sweetheart neckline trimmed with rhinestones and seed pearls, and long pointed sleeves. The gown was closed in the back with small satin covered buttons.

Her veil of illusion fell from a crown of rhinestones and seed pearls. She carried a nosegay

CPL. AND MRS. BILL F. DEATON

Miss Wilkinson Becomes Bride Of Cpl. Bill Deaton

Nuptial vows were solemnized Saturday afternoon June 7, for Dauris Sue Wilkinson, daughter of Mr. and Mrs. A. C. Wilkinson, eldest of Pampa, and Cpl. Bill F. Deaton, son of Mr. and Mrs. J. S. Deaton of Biggs, Okla., in the Chapel of the Presbyterian Church.

Dr. Douglas Nelson read the double-ring service.

Miss Harriet Schwartz was maid of honor. She wore a white lace dress with a yellow carnation corsage at the waist. Ernest Wilkinson, the bride's brother, was best man.

Given in marriage by her father, the bride was attired in a gown of white embroidered organza, styled with a fitted bodice and gathered skirt of ballerina length. Her veil was shoulder length and her only jewelry was a watch which belonged to her great-grandmother. She carried a white Bible topped with a white orchid and surrounded with stephanotis.

Immediately following the ceremony, the couple left for San Antonio, where Cpl. Deaton is stationed at Kelly A. F. B. with the Aviation Engineers.

For traveling, Mrs. Deaton chose a yellow linen suit with straw colored accessories. Her corsage was a single white orchid.

Among the pre-nuptial entertainments was a shower given by Mrs. H. E. Schwartz and Miss Harriet Schwartz on May 31 in their home. Mrs. C. V. Wilkinson and Miss Vivian Wilkinson entertained the bride with a luncheon June 6 at the Country Club.

MR. AND MRS. ROBERT L. LEWIS

Miss Senora Mayo, Robert L. Lewis Wed In Informal Ceremony In Clovis

In an informal ceremony read May 17 in the Clovis, N. M., First Baptist Church, Miss Senora Mayo, daughter of Mr. and Mrs. H. N. Mayo, became the bride of Mr. Robert L. Lewis, son of Mrs. Bert Smith of Pampa.

The double-ring ceremony was read by Rev. B. P. Maddox.

The bride's parents were the only attendants.

Mrs. Lewis was graduated from Pampa High School in 1930 and is employed by Brooks Electric Co. Mr. Lewis was graduated from Corsicana High School in 1935 and attended school in Kansas City, Mo. He is a veteran of World War II, and is now employed by Gulf Research and Development Co.

Cook fish filets in a little butter or margarine, then serve on toast with a rich mushroom cream sauce. Garnish with minced parsley and strips of canned pimiento.

WHAT'S COOKIN' IN GRAY COUNTY HD CLUB WORK

By HELEN DUNLAP
Gray H. D. Agent

About 1600 Four-H boys and girls with their leaders made the trip to College Station last week to attend the annual Round-Up. Those counties farthest away went by train or bus. The 18 Panhandle counties known as District One traveled in three chartered busses from Amarillo. The Gray County delegation was composed of Shirley Keel, Johnny Mae Dauter, Mrs. Roland Dauter, John Lloyd Carruth, Jimmie Keel, Glenn Harris, Butch Reynolds, Foster Whaley and Helen Dunlap.

The primary objective of the meeting was recognition for achievement and entertainment. All of the six delegates received this trip as an award for some work done at home in their club work. The girls received the highest scores among the older girls in the spring dress revue, while the boys were high individuals in grass judging.

The boys and girls were kept busy playing games and square dancing Monday night at a party for them held on the cement slab at the "Grove."

Tuesday the demonstration teams judging contests were held. The winners in these contests were presented between 6 and 7 p. m. in a series of meetings. In the girls contest the winners were as follows: Dairy Foods Demon-

stration team - Nueces County first, Gray County second; Harrison County third. Haskell County received first place in the one-member team. The Nueces team, second and the Brazoria team, third. Shrub Identification: Franklin County first; Fayette County second; Denton County, third; Vegetable team demonstration: Bastrop County, first; Smith County, second; Tom Green County, third.

The Panhandle district brought back a first place winner in Public Speaking. Patsy Stewart of Lipscomb County received this award.

Jo Ann Glover was first place winner of the State Dress Revue, for which she will receive Mrs. Roland Dauter, John Lloyd Carruth, Jimmie Keel, Glenn Harris, Butch Reynolds, Foster Whaley and Helen Dunlap.

Virginia Ruth Hunter of Dallas County was one of the high winning girls for which she was awarded an electric iron.

One of the high lights in entertainment was the recognition banquet Tuesday night, sponsored by the Sears-Roebuck Foundation. Mr. C. T. Johnson, southwestern area director for the foundation, arranged an entertaining program of dancing and singing, assisted by the Larry Herman Orchestra.

On Wednesday morning all district one delegates boarded the buses for home and arrived sometime that night.

Tinware should be washed and dried well right after it is used. The rippled or honeycomb pattern of much modern tinware is said to help the pan resist warping.

ly, the average new mother lives for the hour when the new father comes beaming into her room in the maternity ward. Later, when he says "his child in the new mother would not trade the sight of the look on his face for all the gold in Fort Knox."

You could give her a marriage license, embossed with cupid and signed by every Justice on the Supreme Court, and, though she might say, "Thank you, it's quite pretty," she would put it down the incinerator if you asked her to choose between it and the dear and comforting presence of the man who has made her a mother.

As to our approval, a new mother is too pleased with her husband's approval to care much how we feel about her.

How unjust, how wrong to talk as though money, marriage licenses and social approval were anything but the most incidental concerns of the young creature whose emotions are totally engaged with her loveless and unprotected state.

For her, the maternity ward's visiting hour comes and goes a somber and bleak as the road that lies ahead of her.

Without a man's love, providing for babies is extremely difficult. Money cannot make the home good if love is not there. All the social approval gathered for the season's most fashionable wedding can't make a baby's home happy if its father doesn't want to be there.

So it is not "backward" of America to disapprove of illegitimacy. It is not "fascistic" of her to ask that babies be born into welcome instead of into the recriminations of a broken love affair.

In anthropology Margaret

The Mature Parent

By MICHAEL LAWRENCE

A reader of this column believes that America is "backward" and "fascistic" to encourage the adoption of illegitimate children by married foster parents.

"The child's natural mother is robbed and cheated by the United States notion that motherhood means little unless it is accompanied by money and a marriage license," she writes, adding that it is our Puritanical prejudice against illegitimacy that makes it hard for an unwed mother to keep her baby.

Knowledge, what makes it hard for the unmarried mother to keep her baby is not the absence of money, a marriage license or our approval—but the absence of love and responsibility in the young man she chose to father her baby.

No "United States notions" rob her of her child, but some notion that she herself has entertained about some untrustworthy young man.

What my reader is implying is that all a new mother wants out of life is her baby. This is inaccurate. She wants the baby's father around occasionally. Actual-

Le Secret
astounding new beauty serum for "over-40" skin!

7 Wash Give Spectacular Results in Renewal of Firmer, Younger-Looking Skin

"Le Secret de Blanche Delysia"—a sensational new beauty serum for aging skin—is imported direct from Paris by Primrose House. MRS. WILLIAM J. SEITZ

Jones - Seitz Wedding Solemnized In Dallas First Baptist Church

An altar decorated with a fluted edge of tulle and summer greenery and palms and baskets of white gladioli formed a background for the marriage Friday of Miss Sally Lou Jones, daughter of Mr. and Mrs. J. R. Manning of Dallas; and Mr. William J. Seitz, son of Mr. and Mrs. W. J. Seitz of White Deer.

Vows were exchanged at 8:30 p.m. in the First Baptist Church with Dr. W. A. Criswell officiating. Mr. Ben Camp played an organ prelude and accompanied Miss Florence Mahon of Fort Worth who sang special music. Miss Betsy Brown of Arlington was maid of honor. Bridesmaids included Miss Ferra Hopkins of Fort Worth and Miss Dorothy Patterson of Houston. Miss Carolyn Hodges, the bride's niece, was flowergirl.

Donald Lummis and James Bethal of Dallas were groomsmen, and Les Faulkner and Bill Manning, brother of the bride, were ushers. Jay Oswald of Austin was best man.

The bride, given in marriage by Mr. Manning, wore a white strapless nylon tulle dress with an overskirt and jacket of chantilly lace. The Victorian collar was styled with extreme keyhole neckline outlined with lace medallions centered with seed pearls. The long, fitted sleeves of the jacket tapered to points over her hands. The lace overskirt was edged with small lace medallions and extended to a cathedral-length train. The gown was designed by her mother.

The veil of matching nylon tulle, styled by Edna Earl of Dallas, fell from a Juliet cap of lace

with a fluted edge of tulle and seed pearl trim. The bride carried a white Bible topped with an orchid and surrounded by stephanotis and streamers tied in love knots.

A reception was held in the church following the ceremony.

Ruth Millett

A columnist's mail is never dull. Perhaps because the columnist gets so many angles of the same old problems.

Here, for instance, is a letter from a young woman who wants me to back her up in her belief that she ought to demand that a wife give up her husband to her.

The writer has been having an affair with a married man for a long time. She says he has been most generous to her. Given her many gifts, lets her drive his car, and so on.

The wife has found out about the affair, but is sitting tight— with no intention of demanding a divorce.

So far as I could tell from the "other woman's" letter the husband has never asked for one.

And the sooner she faces that fact, the better off she'll be.

Chances are, if she goes to the wife she will only strengthen

her determination to sit the situation out.

If she should get the wife out of the picture, she has no assurance that the husband will marry her. Philandering husbands usually don't want to swap one wife for another. They want to have their cake and eat it too.

And even if she should succeed in marrying this man, she would be getting a poor bargain. A man who will cheat on one wife will probably cheat on another.

Why two women will fight over a no-good man is one of life's mysteries. For the winner is really the loser in the end.

Never discard the tops of young beets; wash them well and then cook them in a half-inch of water, stirring occasionally, just until tender. Drain and chop the greens and reheat with butter or margarine and salt and pepper to taste; garnish with slices of hard-cooked egg.

If there are four to six people in your family you'll find that a two-quart casserole is a convenient size.

Sound Off

By A Leaguer

The League of Women Voters of Pampa is still growing. In recent weeks the following women have joined the organization: Mmes. John Bradley, Ruth Spearman, D. A. Brown, Mae Wall, Ralph Thomas, J. B. McCrery, and Jess Clay.

The year 1952 is a year of decision. Can you think of any private appointment which a young American is contemplating for 1952 that will affect his material wellbeing and his peace of mind as much as the obligation to cast a ballot on Nov. 4? The very future of the republic will be determined by the fateful decision made then.

Records of the past present a sad picture, since in the presidential election of 1948 only 51 percent of eligible Americans actually voted. We are accustomed to think that we excel in many fields of human endeavor, but this is one in which citizens of other countries outstrip us. In Belgium 90 percent of the eligible voters participated in a recent election; in Italy, 89 percent; in the election which brought Winston Churchill back to power 86 percent of the qualified British voters expressed their views.

An opportunist is a man who makes hay from the grass that grows under your feet. —Clarence House

Our personal profile this week concerns Mrs. W. L. Campbell, Unit Organization chairman for the League. Her work involves enlisting Unit leaders, helping to train them, and assisting in the forming of new Units. Mrs. Campbell, of Lela, as she is known to her friends, was born in Anson, Texas. She was living in Houston when she met her future husband with whom, after their marriage, she moved to McLean in 1926. In 1936 they moved to Pampa.

Married at a young age, Mrs. Campbell had five children before she reached the quarter-century mark. "I have six children," she comments, "and have just completed 21 years of sending them to school." The six include Marcella, Dorothy, Johnny, Wanda, Nancee, and Billy. An insatiable desire for knowledge quite naturally indicates that reading would be one of her hobbies, but her first interest is her ten grandchildren. For years she has kept scrapbooks of family photographs and interests, worked in P. T. A., church, and Home Demonstration Club activities.

Her immediate objective for the League is to recruit at least seven new discussion leaders for Units which are ready to be organized. Her long-range objective is to place every Leaguer in a discussion group. "The Unit plan seems to be the best method yet devised for getting the widest possible participation of the members in League work," Mrs. Campbell explains. "Taking part in this process of talking over governmental problems helps each member to think about the issues objectively, and to learn to express herself about them. She comes to base her opinions less and less on prejudice and more and more on facts."

After a smashing 163,492-vote margin victory in his race for president of New York's City Council, Rudolph Halley said two things helped him: (A) voters have stopped voting blindly along party lines, and (B) women. "Yes, the women—God bless them—they can see through men."

It's still possible for modern children to be seen and not heard, if you play the radio loud enough. —Homer Phillips

It is still the rule in this country for a newly elected gov-

WINNERS in the third annual Clarence Qualls Contest were announced today as follows: upper left, Donnie Kay, five-months-old daughter of Mr. and Mrs. Donald Walberg of Pampa, class one winner; upper right, Larry Morris, one-year-old son of Mr. and Mrs. Wilburn Morris, class two winner; lower left, Freddie Tinsley, 4-year-old son of Mr. and Mrs. Fred Tinsley, class three winner; and lower right, Cynthia Hubbard, 4, daughter of Mr. and Mrs. R. M. Hubbard of White Deer, grand prize winner, \$100 bond. First place winners received \$25 bonds in the contest, which was judged by mothers of contestants. (Qualls Photos)

Patricia Parkerson And James Walters Wed In Las Vegas, Nev., Chapel May 3

The marriage of Miss Patricia Jean Parkerson, daughter of Mr. and Mrs. David R. Parkerson, and Sgt. James B. Walters, announced by the bride's parents, was solemnized in the chapel of Wee Kirk o' Heather Church in Las Vegas, Nev., May 3.

The bride wore a dress of white satin and carried a bouquet of roses.

The bridesmaid wore a pink dress styled like the bridal gown.

Sgt. Walters has been in the Marine Corps since June 15, 1951, and is now stationed at Ocean side, Calif.

Few Changes Due In Autos

DETROIT — (AP) — Few things come hurriedly in the automotive industry; anything "new" that is announced usually is the fruit of years of research and test — or it's a refinement of something known basically about the time the automobile was born.

So the American motorist need not worry about some vital feature of his car being outmoded overnight. With the possible exception of additional switches from six cylinder to eight cylinder or straight eight to V-8 engines, there will be few drastic moves as the car industry changes models later this year.

Periodically, the automotive engineers disclose they have been trying out varying types of power plants designed some day to replace the present gasoline internal combustion engine. Usually the researchers are working on an entirely different principle of power production. It may be a gas turbine, a diesel type, a unit powered by the sun's rays or atomic energy or it may be one of the so-called "closed circuit" power plants. But these things still are far in the future and for every one engineer working on them hundreds of others are working out improvements on the present day four cycle gasoline combustion engine.

Some engineers especially those seeking new forms of power production say the present automobile engine rapidly is approaching its maximum possible performance.

Engines developing more than 200 horsepower are coming in stock cars; so too is increased fuel mileage.

General Motors engineers have proved that with proper balance between engine and transmission the volume of fuel that formerly gave 20 miles will some day, not too far distant, yield 30 miles.

SAFETY FIRST — E. C. McFadden is shown here addressing the monthly meeting of the Panhandle chapter of the American Society of Safety Engineers, held Wednesday evening, June 11, in Amarillo. McFadden is vice president in charge of the engineering division, Texas Employers Association.

Alarming Cost Of Accidents Described To Area Engineers

E. C. McFadden, vice president in charge of the engineering division, Texas Employers Association, stressed the alarming rise in the cost of accidents to industry at the monthly meeting of the Panhandle chapter of the American Society of Safety Engineers.

DANGER OF DIETS CITED IN ARTICLE

For many of this country's 25,000,000 overweight adults, reducing diets have become a dominating influence. But the frightening fact is that many of the most popular diets are extremely dangerous. In an article titled, "Which Diets Are Dangerous," a recent issue of a national magazine lists some of the most prevalent reducing plans and tells why they can cause serious trouble.

Why not try the Barcetrate way to take off "ugly fat"? Barcetrate is the original grapefruit juice recipe for weight reduction. No starvation diet. No calorie counting. No vitamins, for you can't live on vitamins. You must have food to live. Nothing harmful in Barcetrate. Nearly four and a quarter million bottles sold in Texas in nine years. Just go to your druggist and ask for four ounces of liquid Barcetrate. Pour into a pint bottle or jar. Add enough grapefruit juice to fill bottle. Then take just two tablespoons twice a day. That's all there is to it. If the very first bottle doesn't show you the way to reduce easily, sensibly and safely, return the empty bottle for your money back.

is or jar. Add enough grapefruit juice to fill bottle. Then take just two tablespoons twice a day. That's all there is to it. If the very first bottle doesn't show you the way to reduce easily, sensibly and safely, return the empty bottle for your money back.

40 Pounds Lost
"My doctor told me I must lose weight so I started taking Barcetrate. I lost 40 pounds taking eight bottles," writes Mrs. John Graham, Route 1, Box 102, Alta Loma, Texas. "I ate what I wanted and I feel better than I have in several years. I think Barcetrate is wonderful."

Reduces 12 Pounds
Mrs. Marie Kelley, 1224 Avenue E, Galveston, Texas, writes us as follows: "I have lost 12 pounds taking Barcetrate and I think it is a wonderful medicine."

X-Rays That Are Shown On TV Described

CHICAGO — (AP) — X-rays that put a picture on a TV screen can make a mosquito seem as big as a grapefruit.

These new pictures promise a safe, easy method of X-raying to detect early cancers or other troubles of the stomach or intestines. Or of letting a doctor watch exactly what happens when he sets broken bones.

Hard To Take
The X-ray device has been described to the American Medical Association by Robert J. Moon, University of Chicago physicist. X-ray pictures of the middle of the human body are hard to take clearly without using a fairly heavy dose of X-rays. Needed is some method that uses a light dose but gets clear pictures, and a method suitable for mass survey use like Chest X-rays to spot TB.

Moon's device gets X-rays from electrons hitting a tungsten target. The rays go through a tiny pinhole, and form a pattern. But only one in 10,000 of the rays gets through.

The rays pass through the body, then are turned into bursts of ultraviolet or suntan rays. A tube picks up these rays, turns them into electric impulses, and multiplies them many millions of times. These impulses go through a TV viewing tube, and appear magnified on the screen. The pictures are a thousand times more brilliant than the usual ones on a fluoroscopic screen.

Can Watch Picture
The doctor can watch the picture on the screen, or take movies or still photographs of it.

Atomic cocktails or radioactive iodine have helped 384 patients suffering from overactive thyroid glands, said four University of Chicago surgeons, Drs. Dwight E. Clark, James H. Rule, Otto H. Trippel and David A. Coffrin.

The rays from the radio-iodine break down some tissues of the thyroid, the pacemaker gland of the body. The iodine drinks were used successfully on selected cases of overactive thyroids. Patients ranged from 11 to 68 years old, and included a number who had had cases of pop eyes which often come with overactive thyroids.

This meeting brought to a close the Panhandle chapter's first year of affiliation with the national society. New officers for 1952-53 were elected. Don Conley, safety director of Cabot Carbon Co., was elected national representative. Chosen for the executive committee was Bert Arney, assistant director of safety for Cabot.

Pampans attending the meeting were Bert Arney, Jay Meador and Andy Anderson, all of whom are members of Cabot's safety department.

FLEET COMMANDER — Vice Admiral John H. Cassady, carrier warfare expert, is the new Commander of the United States Sixth Fleet based in the Mediterranean Sea.

Need a Million?

"We're having a lot of trouble with her—she wants a grand piano!"

Sweptback Wings To Be Standard

FARMINGDALE, N. Y. — (AP) — Sweptback wing effect will be standard for every first line combat plane in the Air Force by 1955, says Alexander Kartveli, vice-president of Republic Aviation Corp.

"It's sweptback wings that help man fly faster than sound," he said. "Sweptback wings cut down on what airmen call drag. For example, a plane with wings swept back 45 degrees flying at the speed of sound (760 miles an hour at sea level) reacts to the pilot's control like a straight-wing plane at only 540 mph. "Thus a plane with sweptback wings is more maneuverable at high speeds, can turn, wheel, climb and dive easier," he said.

Southeast Asia Importance Seen

SINGAPORE — (AP) — Malayan traders welcome a call for recognition of the importance of Southeast Asia by the United States Chamber of Commerce.

Traders believe the American move indicates appreciation in United States business circles of a stable South and Southeast Asia, and realization of the economic importance of the region to the democracies.

The visits of American goodwill missions to this area has done much to improve United States appreciation of Southeast Asia, traders said.

Gulf Stakes Test In Haggard Pool

Gulf Oil Corp. staked a new basin test on its Haggard lease last week and Texas Gulf Producing Co. staked a 6,500-foot test in Hartley county to lead off a fast pace for Panhandle oilmen during the past week.

In addition to the wildcats, eight other locations were made in the regular field and 26 wells were reported completed.

Of the completions, nine were oilers for 539 barrels, 15 were gassers for 58,449 MCF and two were plugged wells.

Gulf is adding a 4,100-foot test to its new pool 10 miles northwest of Miami. The new well is one-quarter mile west of the company's deep test, the No. 1 Haggard.

Decrease In Crude Stocks

WASHINGTON — (AP) — The Bureau of Mines has reported stocks of domestic and foreign crude petroleum totaled 284,956,600 barrels on June 7, a net decrease of 3,090,000 barrels for the week.

Domestic crude decreased 1,549,000; foreign crude decreased 1,541,000.

Daily average production was 6,811,000 barrels. Runs to stills averaged 6,500,000. There were no comparative figures given for daily average production and runs to stills.

Stocks, by grade of origin, and change from previous week in thousands of barrels:

Pennsylvania grade 2,319 Dec. 19; other Appalachian 1,903 Dec. 50; Lima-Michigan 640 Inc. 11; Illinois-Indiana 12,881 Inc. 271; Arkansas 3,174 Dec. 43; Kansas 10,717 Inc. 48; Northern Louisiana 2,839 Dec. 153; Gulf Coast Louisiana 12,090 Dec. 229; New Mexico 7,739 Inc. 180; Oklahoma 32,306 Inc. 83; East Texas 13,660 Dec. 633; West Texas 60,188 Dec. 271; Gulf Texas 32,405 Dec. 900; Other Texas 24,121 Inc. 531; Wyoming 12,740 Dec. 23; California 30,498 Inc. Foreign 7,359 Dec. 1,241.

New Record Is Set On University Land

By BOB BYERS

AUSTIN — (AP) — Wealth never dreamed of a quarter century ago is flowing into the University of Texas treasury from oil and gas development of the school's two million West Texas acres.

Oil and gas lease bonuses on some 39,000 acres netted \$7,803,500 last week a new record for a single auction. That boosted the university permanent fund to approximately \$143,372,433.

Even as short a time as 15 years ago, best authorities did not expect such revenue. They were predicting the University would realize only some 50 million dollars from all the oil under the two million acres.

Last week's auction on oil and gas development rights brought the total of university land under lease to 502,838 acres.

Now, Dr. Hal P. Byers, geologist in charge of the school, is willing to make this prediction: "If we never drilled another well, we still would double the amount of oil we've already produced."

Though the grand total is \$143,372,433 in the fund is a record for the university school officials don't like to hear the university described as wealthy. They note that only interest earned by money in the fund can be used; the principal must remain untouched.

One-third of the income is allotted to Texas A&M College and the money which the university can spend may be used only in improvements to the permanent United States and Canada for the week of June 9, 1952, according to a report to American Association of Oilwell Drilling Contractors by Hughes Tool Company. This total compares with 2985 5/8 million barrels of oil at the reported a week ago, 3028 a month ago, and with 2637 in the comparable week of 1951.

A comparison by principal areas for the past two weeks shows: West Texas, 169, up 1; Oklahoma, 323, up 4; Kansas, 170, down 16; Rocky Mountain, 242, up 7; Canada, 181, up 3; Ark-La-Tex, 150, up 4; West Texas & New Mexico, 656, down 12; Gulf Coast, 615, down 12; Illinois, 163, up 13; North Texas, 325, up 17.

Since Puritans objected to May-poles and other May Day celebrations were forbidden by the British parliament in 1544.

95 New Locations Made In Oklahoma

TULSA, Okla. — (AP) — Oklahoma oil operators during the past week staked 95 new locations, ten of them in Carter County. Trailing Carter County in production were Lincoln and Osage Counties with 19 each and Garvin with eight.

Both first reports and completions dropped from the previous week's totals. New wells staked declined by 19 while completions shipped from 140 to 11.

The Tulsa World's survey showed 59 oilers with an initial daily flow of 3,304 barrels; one gasser which flowed an initial 6,442,000 cubic feet per day; 40 dry holes; and a total of 381,487 feet drilled.

Colorful Stories Of Texas Oil Pioneers To Be Preserved

AUSTIN — Colorful stories of Texas oil pioneers will be preserved at the University of Texas through a fund established by Mrs. Walter B. Sharp, widow of an early-day oil man, and her son Dudley C. Sharp, both of Houston.

Local historians in Texas oil-producing areas will be assisting in obtaining tape-recordings of the stories, told by living pioneers themselves.

"This type of oral history will make possible the preservation of the flavor and color of the oil industry as it was not possible to preserve the experiences and personalities of pioneers in other fields," Professor William A. Owens of Columbia University, who will assist in the research project, said.

Miss Winnie Allen, University of Texas archivist, and Professor M. J. Boatright, English teacher and folklorist, will direct the work. English Professor Wilson M. Hudson also will assist.

Recordings will be preserved in the university library's archives section. Efforts will be made also to collect letters, diaries, photographs and other documents pertaining to development of the Texas oil industry. All the materials will be made available to responsible journalists and scholars.

"Another phase of the project will be a series of oil pioneers' biographies to be published as they are completed.

W. B. Sharp, who died in 1914, is credited with developing the rotary drill, the mud system of drilling and a fire-fighting system for diverting oil from the blaze. The successful wildcat began as a water-well driller and later drilled wells in most of the early Texas oil fields. He was associated with the father of Howard Hughes, Houston oil man.

Professor Owens is a native

Royalty Owners Sign Unitization Plan For Scurry

DALLAS — (AP) — About 1,000 royalty owners have signed agreements to a unitization plan for the Kelly-Snyder canyon reef line, a Magnolia Petroleum Co. official has said.

Vice President A. E. Chester said that royalty owners are signing the agreement at the rate of almost 50 a day. His company is backing the plan.

A group of oil men met in Fort Worth and opposed any proposed change in the method of allocating oil production as part of the unitization program.

"I don't know who was at the meeting," Chester said, "but we don't know of any royalty owners who wer there."

He said he understood only about eight per cent of the wells in the area were represented at the Fort Worth meeting. Chester said there was some opposition to the unitization agreement, but he thought most of those who opposed it wanted only minor changes.

The unitization agreement is sponsored by the Scurry Area Canyon Reef Operators Committee.

ON THE UP AND UP—Flippy, a porpoise trained at Marineland, Fla., is a flag-raiser as well as an excruciatingly funny. At either spoken or visual command, Flippy races across his tank, leaps out of the water to grasp a rubber ball, pulling it down to raise the Marine Studios' porpoise flag. At left, above, he leans for the ball. At center, almost free of the water, he grabs the ball. Flopping back (right) he releases his hold on the ball just as the flag reaches the top of the mast.

The Bigger They Come, The Harder They Fall, Says Thomas

By BOB THOMAS
HOLLYWOOD — (AP) — Lately we have been kicking around some ideas of the best scenes of movie history. So we might as well do the reverse and pick the 10 worst scenes.

This is the equivalent of an Ike man putting his head in a Taft caucus. It can mean nothing but trouble for me, since I will doubtless pick scenes which many film fans remember fondly. But we must have fearless journalism.

It's amazing how kind the human memory is. I found I could not remember the bad scenes from 'way back. Most of them were of fairly recent vintage.

Many, you will notice, were in costly productions. The bigger they are, the harder they fall, I always say.

Anyway, here are my selections:

1. The Victor Mature, Hedy Lamarr love scene in "Samson and Delilah," wherein she gave him a clip job. Neither of them seemed much interested in each other, much less passionate. The big haircut had little more power than any other barber shop scene.

2. Helen Hayes' breakdown in "My Son Ohn." Her "mad scene" was one of the most uncomfortable I have witnessed. It showed how even one of the great actresses, as she certainly is, can go awry with the wrong material.
3. Jose Ferrer's death scene in "Cyrano de Bergerac." It was otherwise an artful performance, but I thought he would never expire. Ferrer seemed to be hopelessly "singing" the academy committee through it.
4. The trial scene in "Joan of Arc." Maybe I was just getting a little tired by then, but the trial went on so long I was afraid there would be a hung jury.
5. The love sequence between Jim Davis and Bette Davis in "Winter Meeting." It was supposed to be torrid romance. But it came out with all the excitement of a faculty tea at a girls' college.
6. The circus scene in "Quo Vadis." The sight of the lions' lunching on the Christians was neither entertaining nor appetizing.
7. The Gregory Peck - Jennifer Jones death scene in "Duel in the Sun." Somehow I could never believe that such a handsome pair would take potshots at each other on a mountainside.
8. The scene of Clark Gable and Greer Garson's running through a cornfield in "Adventure." The scene had no particular relation to the picture, which had no particular relation to anything.
9. Claudette Colbert's plunge into the mud for "The Egg and I." Slapstick is okay when it has a reason. But there was no reason there, except to destroy Miss Colbert's dignity.
10. Spencer Tracy and Katharine Hepburn exchanging endearments under the courtroom table in "Adam's Rib." They're too mature for that sort of thing. Well, there are my selections. How about yours.

Boys Start Fire

NEW YORK — (AP) — Three small boys playing on the roof of a Bronx apartment house dropped a burning mop over the edge and set four fires.

The mop ignited drying laundry on window sills of the fifth, fourth, third and second floors which in turn set fire to window curtains. Fire apparatus extinguished the multiple blazes before flames spread to the structure itself.

New Directory

NEW YORK — (AP) — The giant new Manhattan telephone directory carries 758,000 listings, has 1,836 pages and weighs 10 1/2 pounds 11 1/2 ounces. More than 1,418,000 copies will be printed.

The Manhattan directory is the second largest in the country, being exceeded only by the Chicago directory with 2,100 pages. The Chicago directory is city-wide whereas Manhattan is one of New York City's five boroughs. The first Manhattan directory, printed in 1929, carried 486,000 listings.

In the last six years, telephones in Manhattan jumped from 1,083,000 to 1,531,400.

THEY BACK US UP—Residents of Seoul turn out in force to demonstrate that they, too, are against forced repatriation of North Korean prisoners now held in UN prison camps. "Boycott Any Humiliated Truce" is only one of many sentiments which appeared on banners born by the crowd. The question of forced repatriation has deadlocked the Korean truce talks.

Busy Man Cites Calmness As The Major Key For Long Life

CHICAGO — A key for thinking a person can practice it, says Dr. Fishbein, one of the busiest men in the nation.

"Avoid raising your voice. Don't get angry and shout. All you do is raise your own blood pressure, not the other fellow's."

Dr. Fishbein is editor, author, lecturer, traveler, advisor; with perhaps a half dozen to a dozen projects going at one time. At the American Medical Association convention he took time out — he always seems to have time to tell secrets for health and long life.

In London, he began, he was talking with Lord Horder, as famous in British medicine as Fishbein is here. Dr. Fishbein congratulated Lord Horder on looking so well and being so active at 82.

"Lord Horder asked me, 'How old are you?' I'm 62, I said. He leaned over the table and felt my pulse. 'You will live to be 100,' Wonderful, I replied, why? And Lord Horder said, 'because you have imperturbability.'"

"I've practiced imperturbability since I was 16, I told him. I

calories. 5. Low threshold for humor.

"Be able to laugh easily, and recognize the humorous aspects of what humans take too seriously."

"I don't mean to slow your life to the speed of a turtle. I'm never happier than when I'm extremely active. But you can accomplish far more if you have equanimity and imperturbability."

But what can a person do to lower his pulse rate?

"The habit of reading is wonderful for those who want to cultivate calmness. Read before going to bed, and on awakening. Not dull books. Read something interesting. In 15 minutes to an hour, you can be ready to sleep and go to sleep in a minute relaxed. If you go to bed with your mind full of problems, you lie awake and fret."

"Cultivate imperturbability, and automatically you will slow your heart beat. It's the guy who gets excited who raises his blood pressure."

And Dr. Fishbein walked off to answer to several matters, imperturbably.

Pampan Is Graduated From Engineer Course

Charles E. Bradford of Pampa has been listed among the 29 graduates from an advanced engineering program offered by the General Electric Company in Schenectady, N. Y.

Bradford was presented a certificate and key for the completion of a three-year course in highly technical engineering problems.

He was one of 60 young engineers selected for the advanced course out of 200 applicants.

Roy M. (Legs) Hawley, West Virginia University athletic director, was formerly a scout for the St. Louis Cardinals under Branch Rikeby.

passenger ships of 16,400 tons each for the transatlantic service with South America.

"I hope you don't mind when the wife gets a meal in a hurry she doesn't stop to open the can!"

U. S. Builders Disagree On New Housing

NEW YORK — (AP) — You can get an argument in building circles today on whether new home starts in 1952 will top the million mark for the fourth straight year.

Builders have hit this pace through the spring — surprisingly, in view of official estimates six months ago that the total wouldn't run much over 800,000.

But now some of them have shifted to a cautious attitude.

In part this may be due to disappointment over the federal reserve action in lowering slightly the required down payments on new houses under Regulation "X." Many thought such controls should have been dropped entirely, as the House Banking Committee has proposed.

Also a factor is a few signs, including price cuts on older houses and more trouble in selling new ones, that actual demand for the building industry's output has slackened off a bit.

These developments were cited by George W. Warnecke, New York building financials expert, in expressing doubt that present volume of building will continue through the rest of the year.

He believes many builders pushed housing projects in the early months this year and now plan to sit back and see how they fall before committing themselves further.

While Warnecke says there is ample financing for well-planned homes and apartment buildings in attractive locations, he points out that some large insurance companies and banks have altered their investment portfolios and now are doing only a replacement business in mortgages.

More analysts don't think this week's easing of Regulation "X" will have much effect on the pace of building.

They reason that a home buyer still will have to find a lender willing to issue a mortgage on the somewhat more liberal terms. And this may prove difficult.

Along this line, complaints like this are heard from some builders: many persons loaded themselves with installment payments on automobiles and appliances after credit controls on those articles were dropped. Now some of them want to buy homes but can't prove ability to meet additional payments.

Lower home prices could stimulate lagging demand, but not much likelihood of this is seen.

Shipbuilding Booms

BILBAO, Spain — (AP) — The Basque shipyards are in full production, building ships totaling over 100,000 tons. Included are two

HARD OF HEARING

"I wouldn't take \$10,000 For My New Beltone."

—Says this successful secretary.

Only two years ago she had a desk 'way back in an unimportant corner. Then she got her Beltone, corrected her hearing difficulty and blossomed into a popular efficient staff member. Now she's secretary to a high-ranking official and making a great success of her new job.

You, too, will be more successful in business and social life if you correct your hearing problem with an efficient aid. Learn how Beltone has brought new success and happiness to thousands.

The Pampa Daily News

... is proud to publish for general notice its paid circulation figures as given by the AUDIT BUREAU OF CIRCULATIONS * Publisher's Statement for the six months ending March 31, 1952.

Six Months Average Net Paid Circulation

	EVENING	SUNDAY
CITY ZONE	5,235	5,354
TRADE ZONE	2,067	2,156
TOTAL	<u>7,302</u>	<u>7,510</u>

AVERAGES BY QUARTERS

	EVENING	SUNDAY
OCT. 1 to DEC. 31 1951	7,172	7,399
JAN. 1 to MARCH 31 1952	7,431	7,622

*The AUDIT BUREAU OF CIRCULATIONS is an independent organization for the purpose of auditing and verifying the net paid circulation of printed publications. The BUREAU has, on its board of directors, representatives of the country's leading industrial concerns and is recognized by America's leading vertisers and advertising agencies as a completely impartial organization whose circulation audits are unquestioned as to truthfulness and accuracy.

We think the above circulation figures are significant for they reflect the ever-growing acceptance of your 'Pampa Daily News' into those homes who want the latest and best in general news and picture coverage, society news, comics, columnists and sports.

The Pampa Daily News

Buzz Sawyer

PLEASE, BUZ, WE'RE ABOUT TO START ON OUR VACATION. DON'T ANSWER!

HELLO, NEW YORK. CALLING MR. JOHN S. SAWYER.

HELLO! HELLO!... THAT YOU, SAWYER?... THIS IS WRIGHT, FRONTIER OIL. SAY, IT JUST OCCURRED TO ME YOU WERE AN AVIATION PILOT DURING THE WAR. YOU'RE JUST THE FELLOW WE NEED TO HANDLE A LITTLE JOB IN IRAN.

ME? WHERE? IRAN?

WELL, THERE IT GOES... OUR TWO GLORIOUS WEEKS TOGETHER!

PING-A-LING!

BUT NOBODY KNOWS WHERE WE ARE. PROBABLY A WRONG NUMBER.

PLEASE, BUZ, TELL THEM YOU'RE NOT HERE!

Jackson Twins

I THOUGHT YOU WERE ASLEEP! YES, YOU MAY GO ON ONE CONDITION! WHAT'S THAT?

THAT YOU DON'T ASK FOR ANY NEW CLOTHES!... BETWEEN TAXES AND THE NEW DINING ROOM SET THE OLD MAN'S PRETTY FLAT? I CAN JUST SWING YOUR FABES AND THAT'S ALL!

SEE, WE'LL JUST HAVE REAL WESTERN CLOTHES! HOW CAN WE RAISE ABOUT...?

THE PRIZE MONEY FROM THE AMATEUR CONTEST. JAN CAN WE SHARE IT JUST DO IT?

ALL WE HAVE TO DO IS WIN. WIN, TWIN!

IT'S EITHER FIRST PRIZE OR NO CLOTHES!

LUCKY FOR YOU TEXAS IS A WARM PLACE!

Blondie

I WONDER WHAT WERE HAVING FOR SUPPER

UM-M- LOOKS GOOD

?

M-M-M

Alley Oop

HEY, EVERYBODY, LOOK! OUR LIT' OL' MARIO'S COMIN' BACK!

AVE GADFEATION! SHE GOT HER MAN AWRIGHT!

SHE'S OL DEAVEY FOR SURE... NEVER MISSES!

Bo

SNIFF-SNIFF... HEY... I'VE PICKED UP JUNIOR'S SCENT AGAIN, TRIX.

AGAIN?

HE MUST BE WANDERING AROUND THIS NEIGHBORHOOD. LET'S GET OUT OF HERE

OKAY, HOW ABOUT THE PARK?

THIS IS MY THIRD SODA, BUTCH, YOU MUST BE MAKIN' DOUGH

AND I'LL MAKE MORE

THAT FAT KID AND HIS PAL ARE SIPPIN' SODAS EVERY TIME I PASS BY THAT DRUG STORE

Ozark Ike

OUT!

A DOUBLE PLAY... AND TH' RAMS ARE RETIRED IN TH' FIRST INNING.

HORNBLD FIRED A STRIKE TO TH' PLATE FROM SHORT LEFT FIELD.

HOW'D YA LIKE THAT CATCH AND THROW, SKIP?

BUSH LEAGUE ALL TH' WAY, ELMER?

WHAT? WHY I TOSSED THAT RUNNER OUT BY FIVE YARDS!

BUT OZARK COULD HAVE NAILED HIM BY TEN... TH' KID HAD TH' PLAY QUARELY IN FRONT OF HIM, WHILE YOU HAD TO TURN TO MAKE YOUR THROW.

JEALOUSY HAS BEEN... SKELLEY WILL BE CALLING ME HIS 'MEAL TICKET' BEFORE THIS SEASON IS FINISHED!

Chris Welkin

MILLIONS OF MILES FROM JUPITER, MAN-MADE TITANS OF SPACE LOCK IN BATTLE...

WE NICKED THE SAUCER, CHRIS!

HE'S RUNNING! OUR FISSIONATOR GUNS SCARED HIM AWAY.

HE SCORED ON US, TOO... RAVIO'S LOUSED UP... EVERY TUBE'S OSCILLATING LIKE CRAZY.

TOO LATE, BRANDY, THE WAR'S OVER.

POSH-WELKIN! THEY'VE KILLED ALL MY PRECIOUS GERMS AND VIRUSES!

Mutt & Jeff

MUTT, I CAME OVER TO YOUR HOUSE TO ASK YOU IF YOU WOULD HELP ME MAKE OUT MY WILL.

O.K., SHOOT!

WELL, TO YOU, AUGUSTUS MUTT, I LEAVE THE HOUSE!

HOUSE? WHAT HOUSE?

YOU CAN'T LEAVE MY HOUSE TO ME!

WHY NOT? I LEFT MY GIRLS FATHER'S HOUSE TO HIM WHEN HE ASKED ME TO LEAVE IT!

LEAVE MY HOUSE!

Bugs Bunny

SKREE SQUARK

I'M GONNA CHARGE PETUNIA EXTRA FER SITTING WITH CICKO WHEN HE PRACTICES THAT VIOLIN!

SOMETHING'S GOTTA BE DONE... I GOT TH' MUSIC UPSIDE DOWN!

Princess's Pop

YOU SEEM WORRIED REVEREND WEEMS!

INDEED I AM! OUR ORGANIST IS SICK AND I CAN'T FIND ANOTHER!

I DON'T KNOW WHAT I SHALL DO SUNDAY!

I KNOW AN ORGANIST WHO PLAYS REAL GOOD!

YOU HERE! IT'LL BE RIGHT BACK!

REVEREND WEEMS, I WANT YOU TO MEET MY GOOD FRIEND, MR. SPLIMONI.

HEROES ARE MADE - NOT BORN

GO ON, TAKE YOUR BIGGEST STEPS AND I'LL TAKE MINE-- THEN WE'LL FIGGER HOW MUCH SHORTER MY STEP IS, AND HOW MANY MORE AND HOW MUCH FASTER I'D HAVE TO TAKE 'EM TO BEAT YOU RUNNING!

I PREFER TO FIGGER WHY I COULD GET A MUCH LONGER SWING ON YOUR NOSE!

HOLY SMOKE! WHEN DOES THAT PLAY-GROUND PROFESSOR TAKE TIME TO LIVE? HE SPOILS EVEN TH' SMELL OF FRESH CUT LAWNS!

EGAD, WALDO! IT'S BIG OF YOU TO INVITE ME INTO YOUR CHARMING HOME!... AVARICE IS REPULSIVE TO ME, AND THE SCENE OF MARTHA RECEIVING THE \$1,000 REWARD THAT OUGHT TO BE MINE WOULD OVERWHELM ME!

YOU STAND A CHANCE OF GETTING OVERWHELMED AT MY HOUSE, TOO, IF THE TURKEY TAKES A TANTRUM!... BUT SHE'S BEEN AN INACTIVE VOLCANO THE LAST FEW DAYS -- WE AIN'T SPEAKIN'!

WILLY NIBS IS ON TOUR AGAIN

Vic Flint

NOW, SKOWIE, THINK OF YOUR BLOOD PRESSURE. I JUST SAID I STILL BELIEVE ARCHER FOCUS WAS MURDERED!

WHAD'DYA HAVE TO GO ON BESIDES A PHONE CALL FROM A GUY WITH A 'STUTTER'?

FIRST, A MOTIVE HE HAD THE DOPE ON A NEW MOB OPERATING HERE.

MOTIVES ARE A DIME A DOZEN.

THEN, THIS HYPOPERMIC NEEDLE...

WHAT IS THIS? HOLDING OUT ON ME?

VIC? I HAD A HUNCH I'D FIND YOU THERE. YOU'D BETTER COME TAKE A LOOK AT YOUR OFFICE.

PARDON, INSPECTOR. CALL

Little Doc

COMICS

Wash Tubbs

STOP! YOU-- OOPS!

FASTER, EASY! KEEP YOUR HEAD DOWN, PODNER... I'LL HANDLE THE BOAT!

THEY'RE MILES BEHIND BY NOW! NOT ABOUT TH' AIR BOATS?

CUT 'EM LOOSE, WASH! I'LL HEAD FOR THE KEYS AND CALL THE FBI. THEY'LL ROUND UP THAT GANG IN THE MORNING.

TALON'S ELECTRONICS PLANT WAS A BLIND EAGLE. HE SHIPPED OUR RADAR PARTS TO RED CHINA TO BE USED IN ANTI-AIRCRAFT GUNS IN KOREA!

WELL, HE WON'T SHIP ANYTHING FOR YEARS TO COME, PAL... THANKS TO YOUR BEING ALERT !!

Boots

DON'T WANNA BE GENTLEMAN.

DAVEY, COME BACK HERE!

I HAVE NO OBJECTION TO YOUR BEING A SPACE CHARACTER OR A COWBOY-- OR INDIAN! NOT AT ALL! IT'S THE BLOODTHIRSTY LANGUAGE YOU USE THAT I DON'T LIKE! YOU CAN STILL HAVE FUN AND BE A LITTLE GENTLEMAN!

AND TALK NICELY, TOO!

A SIBBY, HUH?

Mickey Finn

IF HE'S RESERVED A SUITE DOWN THERE, HE MUST INTEND TO ENTERTAIN THE DELEGATES THE SAME AS HE ALWAYS HAS, NICKY!

HE DOES, TOM! IN FACT, HE SAID THIS MORNING THAT HE'S GOING TO DO MORE OF IT THAN HE'S EVER DONE BEFORE!

IT BEATS ME! I'D THOUGHT SURE HE'D KEEP HIS EXPENSES DOWN TO THE BONE -- WITH HIM SPENDING HIS OWN MONEY!

SO DID EVERYBODY, TOM! BUT THAT MAN HE TALKED WITH IN THE PARK CONVINCED HIM THAT MONEY ISN'T VERY IMPORTANT, I GUESS!

I WONDER WHO THE OLD GUY WAS?

HE MUST'VE BEEN SOMEBODY IMPORTANT, TOM! UNCLE PHIL SAID HE WAS VERY DIGNIFIED-LOOKING-- WITH EYE GLASSES, A VAN DYKE BEARD, AND A CANE!

AND SO I TURN THIS GAVEL OVER TO MY WORTHY SUCCESSOR, WITH A MIXTURE OF JOY AND SORROW!

WHO DOES HE THINK HE IS NOW? THE NATIONAL COMMANDER OF SOME LODGE!

Penny

WHAT WOULD YOU LIKE FOR FATHER'S FOUNTAIN PEN, FATHER?

YOU'RE KIDDING. I GAVE YOU A FOUNTAIN PEN LAST FATHER'S DAY AND ONE THE FATHER'S DAY BEFORE THAT.

I KNOW PRINCESS, BUT YOU MOTHER TOOK THE FIRST ONE, AND YOU LATER ON TO THE OTHER ONE...

SO I FIGURE THERE'S A CHANCE THIS ONE IS FOR ME!

Freckles

WHY DON'T I GET MYSELF A GIRL FRIEND? HE SAYS! HUH! ANYONE CAN SNAG A CHICK! WHAT I'M LOCKING FOR IS MOOLA!

THERE'S A MILLION BUCKS WAITING FOR ANYONE WHO CAN INVENT A TONIC THAT GROWS HAIR ON BALD HEADS -- A HOUSE PAINT THAT WON'T PEEL OFF, OR A SUBSTITUTE FOR GASOLINE -- GOSH! A MILLION JUST FOR SOMETHING SIMPLE LIKE THAT!

SYLVESTER, EDISON? WHAT ARE WE WAITING FOR?

Donald Duck

NO UNDESSING IN CASE OF LOSS OR DAMAGE

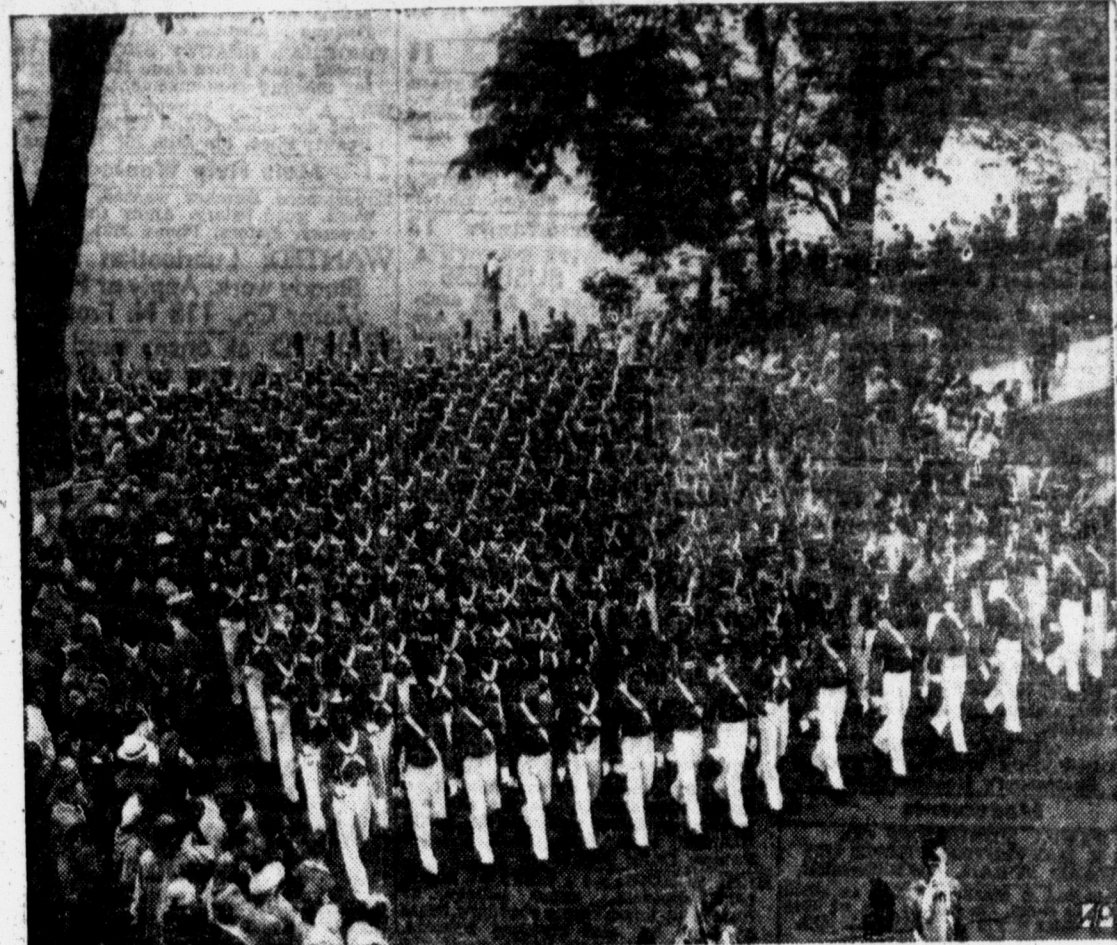

WORLD NEWS IN PICTURES

PART OF EUROPEAN 'INVASION FLEET'—Four ocean liners, harbingers of a record tourist season, make ready to carry 4,470 passengers to European ports from New York.

IN ORDER AGAIN—West German border guards wear steel helmets for first time since end of World War II, at Bonn after the Republic was given virtual sovereignty by Allies.

TREE NO PROBLEM FOR CADETS—Ranks open and close with a minimum of fuss as smartly marching U. S. Military Academy cadets leave parade ground at West Point, N. Y.

NO HOWLS OF COMPLAINT HERE—These four-month-old coyote pups are bottle-fed by Jacqueline Mering after being taken from their den at Philadelphia, Pa., Zoo.

TOPS TOURNAMENT—A new collure created by Georgius is presented by Fredie, leading French model, during the Tournament of the Best-Dressed Woman, in Paris.

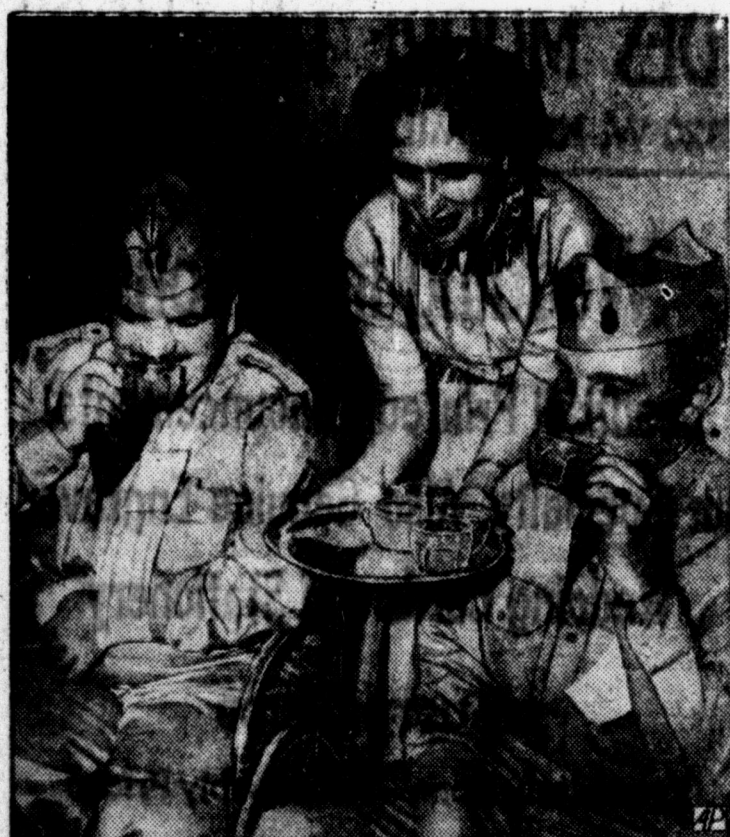

BIRTHDAY SALUTE—Queen Elizabeth II salutes the colors of one of the household regiments as it passes the saluting base at Buckingham Palace, London, following the Trooping the Color ceremony on her first official birthday as Queen.

DANISH BEAUTY—Hanne Sorensen, 20, of Copenhagen, was chosen "Miss Denmark" to represent her country in the annual "Miss Universe" contest at Long Beach, Cal.

MIGHTY MIGRATION—Dutch dairy farmer Pier Tjaards, his wife, Grietie, right, and ten children wave from the Nieuw Amsterdam on arrival in New York enroute to California.

TRUMAN SERVICE—Margaret Truman serves fruit juice to Cpl. Irving Rosenberg, left, of New York, and Sgt. Harold Henly, of Cleveland, Tenn., at White House lawn party given by the President for disabled veterans from Walter Reed Hospital.

FIXING HER CROWN—The Statue of Freedom, atop the U. S. Capitol in Washington, will have her crown touched up. Steeple-jack Jack Mathis is about to remove platinum lighting arrestors from the crown for replating.

EYE AID—Awnings of light stainless steel, devised by a Miami, Fla., aircraft engineer to keep rain off eyeglasses, are worn by Don L. Davis, in a Los Angeles oddity contest.

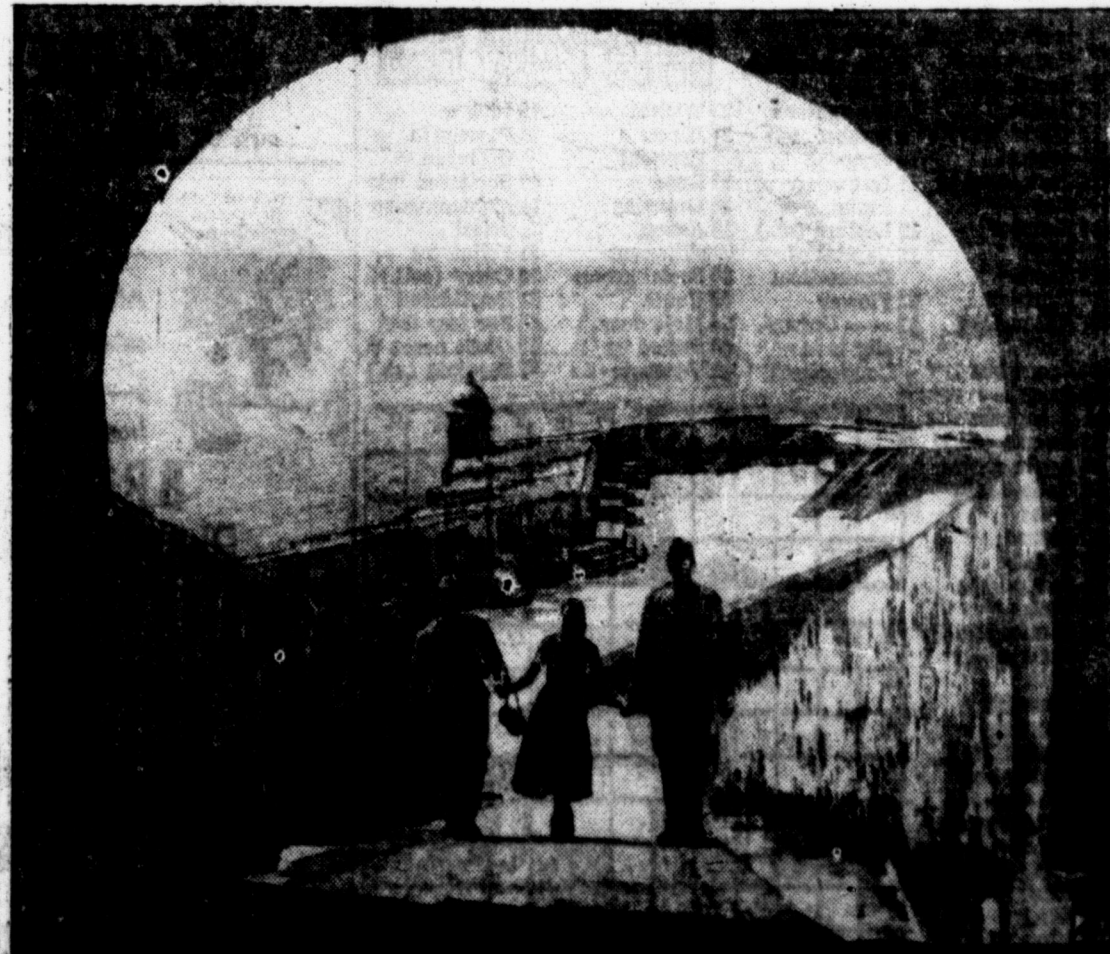

OBLIGING A PETITIONER—British Foreign Secretary Anthony Eden signs a lad's autograph album on his back near Muenster, Germany, where he saw British Army maneuvers.

MASS ORDINATION—Candidates prostrate themselves before 21 altars in Montjuich Stadium, Barcelona, Spain, in mass ordination of priests at 25th World Eucharistic Congress.

A VISITOR DEPARTS—Admiral Robert B. Carney, Commander-in-Chief of Allied Forces in Southern Europe, has life jacket adjusted before boarding helicopter on the USS Salem at Villefranche, French Riviera, to return to his base in Naples.

ON SPANISH MAIN—With Caribbean as background, two Marines on USO-sponsored tour of old San Juan, P. R., walk with guide through El Morro, fortress built by Spanish in 1535.

I'm Hurting Considerable

Notwithstanding the fact folks that I will be a millionaire like John Haggard probably in the next 6 months dont cause me to be a little short on money right now . . . Ive got to sell another house . . . I probably bit off to much alright, when I paid considerable for the 10 acres of Miami royalty, but I saw that Haggard No. 2 running . . . and it wasn't salt water. I dont believe . . . Anyway to get back to the house that I need to sell . . . This is the new 3 bedroom that I advertised about a month ago before I got the FHA loan commitment . . . Its a mighty nice new house I think, and its on the corner of Williston and Worrell up at the north end of the 1500 block . . . faces west, and the garage door is unlocked in case you want to go inside and look at the floor plan and etc . . . But close the door when you come out . . . We might have a hard blowing rain from the west and I don't want anything to get wet . . . The FHA commitment came in for a flat 9200, so you can borrow that much on it . . . Now heres what Id rather do on this house than sell it . . . Id rather take in a good cadalack car, as I no Im going to need one before to long, otherwise Im going to sell it for a bargain . . . This is my personable house, and anytime I cant sell something of my own within a given period of time, Ill cut the price to where it will sell even if I loose money . . . But I can afford to loose some money on this house . . . Look what Ill have coming in about 6 months from now . . . Ill be another Buzz Hoover. When you read this go to Church . . . youll feel better the rest of the day.

PLANNERS — Members of the program planning committee of the Top o' Texas Hereford Breeders Association work out summer activities. Seated from left to right they are F. Jake Hess, McLean, J. P. Callihan, Conway, and Wayne Maddox, Miami. (News Photo)

Hereford Group Plans Recreation

Plans for a barbecue at State Park August 28 for members of the Top o' Texas Hereford Breeders Association and their families were made Friday at a meeting of the program planning committee of the association.

This is to be the summer activity taking the place of the Hereford Short Course sponsored by the group last year.

Entertainment and educational features for the barbecue are to be worked out later, according to Wayne Maddox, Miami, committee chairman. The park is located seven miles east of Miami.

Dates for the 1953 annual stock show and sale were announced Friday for February 16-17 by J.P. Callihan, Conway, president.

the rule does not apply to the Texas delegation.

The rival factions are expected to line up this way in taking their contests before the national committee, credentials committee, and then the convention itself.

Five Cases Tried In City Court

A small accident, three cases of intoxication and one case of vagrancy filled the docket of city police yesterday.

Two cars knocked fenders at a red light, corner of Frederic and Starkweather, about 7:50 p.m. Friday. One was driven by Charles B. Broxson, 25, of 1000 Campbell; the other by Truman W. Reed, 17, of 902 Murphy. Total damages are \$70.

Corporation Judge Cliff Braly disposed of four cases in short order yesterday morning. Three were charged with intoxication and sent to city jail in lieu of payment of \$15 fines.

The fourth, Jack Adams, was picked up on a vagrancy charge after the receipt of several complaints. Adams had been begging money from passers-by. He, too, could not pay a \$15 fine and was jailed.

Community Singers Hold Session Today

Community singers will meet at 2:30 p.m. today at the Baptist Hobart Street Mission. There will be quartet and group singing during the session. The Public is invited to attend.

Strike May Affect Curbs

WASHINGTON — (AP) — The steel strike has caused the government to postpone lifting restrictions on use of steel in amusement places, residences, schools and highways, it has been learned from informed sources.

It was said the lid may be clamped on even tighter, curtailing more uses of steel, if there is no break soon in the shut-down.

The National Production Authority (NPA) would neither confirm nor deny officially that it has decided to postpone relaxing steel restrictions.

The NPA announced May 15 that on July 1 it would: end its ban on erection of amusement centers such as theaters, night clubs, baseball parks and athletic fields; permit use of up to 1,500 tons of structural steel in new-home construction; increase the quantity of steel, copper and aluminum permitted for school and highway construction; reclassify several types of buildings to make available greater tonnages of structural steel.

Michigan State has competed against 97 different teams since inaugurating football in 1896.

Taft Supporters Laughing Up Their Sleeves On 1944 Ruling

WASHINGTON — (AP) — Supporters of Sen. Robert A. Taft are laughing up their sleeves in these days.

Its about a rule put through in the 1944 Republican national convention controlled by the forces of Gov. Thomas E. Dewey, long a Taft rival. The rule stipulates that only seating contests attracting delegates — at large — may be presented to the convention for settlement.

The rule was not strictly adhered to in the 1948 convention which gave the New York governor a second presidential nomination. But Sen. Taft has indicated he will insist on its application at the coming convention in Chicago.

If he does and is upheld in committees expected to be dominated by Taft supporters, the contests between him and Gen. Dwight D. Eisenhower over 77 delegates from five Southern states would be reduced to embrace just 18 delegates — four each from Georgia, Louisiana and

Mississippi and six from Texas. Otherwise, the scrap would take the entire delegations from those states — Georgia 17, Louisiana 15, Mississippi five, and Texas 35 — plus two district delegates from Virginia. Eisenhower would be expected to benefit more from this broader field of contention, since Taft's forces largely control the state convention and state committee machinery which are supposed to settle district delegate contests.

The deadline for filing notice of contests with the secretary of the national committee is 20 days or more before the July 7 convention opening. That is next Monday, according to committee officials. None had been filed up to today, but inquiries of the rival slate leaders in the five states developed replies that their notices will take in district as well as at-large delegates, leaving a legal as well as personal battle for the national convention.

The delegate contests this year are of great importance since the decision on their final seating could swing the presidential nomination to either of the two leading contenders. The Associated Press tabulation of delegates lists 464 favoring Taft to 391 for Eisenhower, 130 favoring five others and 208 uncommitted or in dispute. A majority — or 504 — will be needed to win. Thirteen delegates remain to be selected.

The rule by which the 1944 and 1948 conventions operated — but which the 1952 convention could change — says: "All contests arising in any state electing district delegates by district conventions, shall be decided by its state convention or if the state convention shall not meet prior to the national convention, then by its state committee; and only contests affecting delegates — at large — shall be presented to the national convention."

That Taft will be challenged if he seeks to apply this rule to the biggest southern delegation in contest, Texas' 38, was emphasized last Friday by H. J. (Jack) Porter, Texas Eisenhower leader.

Porter said, "all delegates in Texas are chosen at large by vote of both the Republican and Democratic parties at their respective state convention. So
