Big Three Settle Down To Regular Conference Rounds

Chairman Truman Is Holding Reins

POTSDAM, July 18.—(AP)—President Truman, grasping the reins as presiding officer of his first Big Three conference, went calling today to talk things over separately with Prime Minister Churchill and Premier Stalin.

Potsdam skies were cloudy, but the party atmosphere appeared considerably cleared. The President first conferred and ate luncheon with the Prime Minister and then visited the Soviet Generalissimo for a similar personal session later in the afternoon.

Mr. Truman was selected yesterday as conference chairman. With him on at least the latter visit was Secretary of State James F. Byrnes, the President's erstwhile capitol hill partner in many a congressional pathway for wartime commitments which the late President Roosevelt made at just such international sessions as this.

It was a new and far more spectacular setting to an old story for both of them—an international basis now. Truman's swift step to get down to cases individually with both Churchill and Stalin indicated the Missouri was taken the Potsdam program right in his stride.

Truman's visits to the other two members of the Big Three followed the order in which they had visited him—Churchill on Monday and Stalin on Tuesday—thus conforming to diplomatic protocol.

Announcement of the President's plans was made by an American officer after a conference with the

16-Year-Old Boy Is Charged in Shooting

WELLINGTON, Texas, July 18.—Carl Ray Dearing, 16, was held in the county jail here today, charged in the fatal shooting of Mrs. M. A. Barton, 51, July 14.

Mrs. Barton, prominent Wellington woman died of a gunshot wound suffered at her home last Saturday morning.

The youth was arrested Saturday night, and County Attorney W. M. Tucker filed charges Sunday. Tucker said the boy made a statement.

Officers said he probably would be tried in juvenile court.

BLACK EYE

CHICAGO, July 18.—(AP)—Mrs. Edna Vogelahn told Circuit Judge Harry M. Fisher that in the three years she has been married her husband, Otto, has given her 27 black eyes.

During the first year they were married, Mrs. Vogelahn, 22, told the court, her 36-year-old mechanic husband gave her two black eyes. Since July, 1943, she said she has been getting one black eye a month. She was granted a divorce on the ground of cruelty.

Boats and motors for sale or trade. Will buy your boat or motor. Bert Howell, Lake McClellan (Adv.)

Senate To Attempt Final Bretton Woods Vote Today

WASHINGTON, July 18.—(AP)—The Senate rejected 52-31 today a proposal by Senator Taft (R-Ohio) to put off action on Bretton Woods monetary legislation until after a new international conference.

Taft proposed that consideration of the house approved bill be delayed until Nov. 15 to await the calling of a world trade conference by the social and economic council of the projected United Nations organization.

Democratic leader Barkley (KY) said, however, that nations must make their commitments to the fund and bank proposed under the bill by Dec. 31 or the international monetary agreement will lapse.

"The motion made by the Senator from Ohio is, in effect, an effort to kill the entire Bretton Woods agreement," Barkley declared.

Taft argued that emergency conditions in Europe will be met with an American outlay of \$7,000,000,000 through the export-import bank and lend-lease operations. He said the proposed fund and bank would not begin operations for several months.

Today's vote was the first test in the Senate of opposition strength to the monetary legislation. Several amendments remain pending.

Chairman Wagner (D-NY) of the banking committee said he hoped for a decision by nightfall. The Senate geared for a long day by convening an hour earlier than the usual noon meeting time.

Wagner told reporters he didn't expect more than 15 votes against the bill which proposes a \$9,100,000,000 world bank to help nations reconstruct and an \$8,800,000,000 fund to stabilize their currencies.

The fight is expected principally on amendments by Senators Taft (R-Ohio), Millikin (R-Colo.), and Thomas (D-Okla.). These would specify that the fund could not be used "as an excuse" to abrogate existing debt or trade treaties, spill the requirement, but other nations eliminate currency restrictions and place silver on the same monetary base as gold.

Taft has led the opposition to Bretton Woods through the Senate banking committee and on the floor.

Taft, contending the American contribution is "pouring money down a rat-hole," told the Senate yesterday the American dollar is "the only stable" currency. Other nations will be anxious to buy up dollars, he said, and "we'll get nothing" out of other nations.

Republican ranks weren't solidly against the bill however. Sen. or Tobey of New Hampshire termed the measure a key to the whole concept of international cooperation to keep the peace.

Allied Carrier Attacks Join Bold Naval Bombardments To Rip Jap Defense Second Successive Day

Schwellenbach Is Planning More Control

WASHINGTON, July 18.—(AP)—Lewis B. Schwellenbach appeared today to be charting a course which, with congressional sanction, would make him the powerful secretary of labor since the department was created in 1913.

The new cabinet officer told a news conference yesterday that 30 leaders of organized labor had advised him his department should have control over all federal labor agencies except the long-standing national mediation board which handles rail labor disputes.

Schwellenbach strongly indicated he agreed with them. He said, however, he had not made up his mind which agencies should be united with his department, but that he would begin conferring with agency heads tomorrow and later sound out congressional sentiment.

Schwellenbach also made plain that if he did gain control of the quasi-judicial war labor board and national labor relations board, which deal with wartime labor disputes and unfair labor practices, he would not meddle with their congressionally-conferred powers.

"I would only take over their housekeeping functions," was the way he put it. "That is, to oversee their procedure and try to speed it up."

Panhandle To Get German Laborers

DALLAS, July 18.—(AP)—Rep. Eugene Worley of Shamrock said yesterday the Eighth service command had promised to send as many German laborers to the Panhandle as the area can absorb under government requirements.

Worley has just returned from a two-month tour of Europe. In an interview here, he said that America must retain its interventionist policy after the war. The \$300,000,000 war debt can be retired only by building up a strong foreign trade sufficient to keep up production in America. Worley declared.

Newman Reported In Grave Condition

FORT WORTH, July 18.—(AP)—The condition of Corp. James E. Newman, the former prisoner of the Japanese who was given only a slight chance to live when he was brought home, was reported "grave" today.

Newman was flown home from an army general hospital at Santa Fe last month, suffering from malnutrition, tuberculosis of the lungs, and laryngitis, developed while he was in a prison camp on Luzon. His parents, Mr. and Mrs. O. F. Newman, had asked he be returned after any physicians had said he would not survive.

But once at home he seemed to improve. Today came news that he had suffered a relapse and his condition was poor.

Local Car Fire Results in Damage

The first fire of consequence in several weeks was announced today by Fire Chief Ben White.

The fire, at 807 Foster, started when the inside of a 1935 model Ford caught fire. The car, which was parked in the garage, was badly damaged.

Firemen removed the car from the garage immediately upon arrival and it was left unburned.

THE SHIP THAT COULDN'T BE LICKED: NEVADA STAYED IN FIGHT AFTER DAMAGE FROM SUICIDE PLANE AND HITS FROM SHORE BATTERY

WASHINGTON, July 18.—(AP)—Veteran of two wars, the battleship Nevada absorbed damage from a flaming suicide plane and five hit from an Okinawa shore battery but stayed in the fight.

The navy today told the story of the actions which occurred as part of a formation assigned to obliterate enemy installations on the island.

Fleet Gives Hitachi Boys Bad Beating

By JAMES LINDSLEY
WITH HALSEY'S THIRD FLEET OFF JAPAN, July 18.—(AP)—The Hitachi boys, who make up one of Japan's ruling industrial families, really took a beating from the powerful bombardment force of the U. S. Third fleet today.

Their name was over the front entrance of most of the vital war plants wrecked by the ships' big guns as they steamed leisurely along the Japanese coast to a point nearly opposite Tokyo, hurling more than 2,000 tons of explosives.

Engineering works, a steel plant, a copper refinery and an arms factory are now only rubble in the Hitachi industrial empire.

The Third fleet, which apparently dares to go any place where it can keep a little salt water under it, started pumping its shells toward the shore at 11:10 o'clock last night and kept it up for 55 minutes. Firing ceased at five minutes after midnight today.

For hours we were within fighter plane range of Tokyo. During the bombardment we were within six miles of the Honshu island shore. Yet at no time was any attempt made by the enemy to molest us, either on the sea or in the air.

We had numerous reports of unidentified planes, but if they were Japanese they were just having a "look-see" because nobody has bothered us up to the time this is written. That includes the entire bombardment period, because the warships turned their bows seaward and got away from shore fast once they were through shelling.

The weather was cold. There was fog and rain. Visibility was almost nil when the fleet went into

More Units Arrive In States Today

By The Associated Press
Army units arriving in the United States today (Wednesday) from Europe.

At New York — The Second and 10th regiments of the Fifth division, advance detachments of the Eighth corps.

Units which arrived Tuesday: At Hampton Roads, Va.—Elements of the 77th air squadron, 76th, 76th and 77th bomb squadrons, 527th air service group, 946th and 953rd air engineer squadrons, 154th reconnaissance squadron, 18th air depot group, 63rd depot repair group, 17th medical supply platoon, 520th headquarters and base service squadron and 71st veterinary detachment.

Units scheduled to arrive tomorrow: At Hampton Roads—Elements of the 48th and 49th service squadrons of the 468th air service group, 65th quartermaster company, 286th quartermaster laundry detachment, 321st quartermaster truck company, 16th maintenance company, 17th field artillery battalion, and headquarters detachments of the 79th and 80th ordnance group.

At Boston: 346th infantry regiment, 87th infantry division. Advance units of the 20th armored division sailed yesterday from Le Havre.

AGREED! SALT LAKE CITY, Utah, July 18.—(AP)—As if you didn't know it, Guy T. Toombs, public relations chairman for the American Hotel association, has estimated that the odds against getting a steak in a restaurant are 399 to 1.

Such Is Youth

Despite bullet fragments still lodged in three places in his brain, 4-year-old Loary Roe is gay and chipper as he leaves St. Mary's hospital, Rochester, Minn., with his dad, Raymond, after operation. The Fairfield, Mont., youngster, injured when bullet fired accidentally on June 11 pierced his ear drum, has only a faint hearing in right ear to remind of accident.

Warships Attacking Honshu East Coast

By LEONARD MILLIMAN
Associated Press War Editor
Japanese broadcasts reported Allied carrier attacks and naval bombardments ripped up military defenses and war industries within 80 miles of Tokyo today for the second successive day.

London reported hearing a Tokyo broadcast that 16 warships shelled the east coast of Honshu island for about an hour at noon today. This would be a repeat performance of a mid-night barrage that poured more than 2,000 tons into a 20-mile stretch of the vulnerable coastline northeast of Tokyo.

At least 500 carrier planes from the great U. S. and British Pacific fleets, capable of putting 1,500 aircraft into the air, faked airdromes, military installations and cities on three sides of Tokyo for three hours and were still coming over in mid-afternoon, the enemy radio said. The strike began at noon (Tokyo time) but could match yesterday's day-long attack by 1,500 aircraft.

Land-based aircraft filled in the gaps. Tokyo reported 83 bombers and fighters raided southern Japan this morning, a handful of navy patrol bombers hit Honshu island south of Tokyo, and 30 Superforts flew widely over the islands during the night, scouting and dropping propaganda leaflets. Liberators and Black Widow night fighters struck at the industrial coast 55 to 80 miles northeast of Tokyo last night before the American-British bombardment fleet moved in.

Led by the 45,000-ton U. S. battleship Iowa and the British King George V, Allied fleet units steamed in through mist and rains to within six miles of shore and for an hour poured more than 22,000 tons of hot steel into factories and military installations.

Associated Press War Correspondent James Lindsley who watched the shelling said a copper refinery, steel, engineering and arms plants in the Hiachi area were trans-

OPA Methods Are Criticized

WASHINGTON, July 18.—(AP)—Senator Moore, Oklahoma republican, termed "unconstitutional" an order instructing OPA investigators to check contents of private frozen food lockers in six southwestern states for illegal meat.

"They have no more right to enter the property contained in it than they have to sneakily enter a private home and seize the food in the kitchen pantry," he said in a letter to Price Administrator Bowles.

Moore said the order, which came from the Dallas district OPA office is "a serious invasion" of constitutional rights.

OPA enforcement officer Harry Hall said at Dallas that "our guns are aimed at large eating places which maintain big stores of meats in locker plants not at the individual who keeps his own meat in his own locker. This doesn't mean we are not checking the individual however."

Sewer Engineer Being Selected

Harvey W. Schmidt, Amarillo, Henry M. Roberts, Lubbock, and Joe E. Ward, Wichita Falls, were conferring with the city commission today on selecting an engineer for Pampa's sewer reconstruction project.

Mayor Farris Oden said that no definite action on selecting an engineer would be taken until all the men had been heard.

The commission told the engineer that it was necessary that actual work should start as soon as possible on the reconstruction of the outfall lines.

Several construction bids are expected in the very near future, City Manager W. C. deCordova said.

Texas Crops Are Benefited by Good Rainfalls

AUSTIN, July 18.—(AP)—Rains during the first half of July gave adequate moisture to all crop districts in Texas except in southern counties, scattered counties on the Edwards plateau and the high plains. Some areas, said the U. S. department of agriculture in a report for the week ending July 16 received too much rain, including the north-central and eastern districts where field work was delayed.

South-central and southeastern areas had a fairly good balance. Wheat harvest was nearing completion in the high plains. Threshing was delayed in other areas.

Cotton progress was varied. The peak of harvest was reached in lower Rio Grande valley counties. With much premature opening as the result of hot, dry weather. Conditions were more favorable and progress satisfactory in most of south-central and southeastern areas. Although boll weevils were causing considerable damage in a number of counties, picking was becoming general in the Corpus Christi area. Frequent rains were causing excessive plant growth at the expense of fruiting, and promoting increased boll weevil activity in the blacklands and eastern districts.

Cotton in the low rolling plains of the northwest, while unusually late, was growing nicely following improved moisture conditions. Some counties in the area were damaged by washing rains and open weather was needed for cultivation. The crop in the north and south high plains, on

Around the World

LONDON, July 18.—(AP)—London newspapers today attacked what they termed a blackout of news at the Potsdam Big Three conference, and sharply criticized the luxurious menus and accommodations provided for conference delegates.

"We ask for the conference agenda," The Mirror said in an editorial. "We are offered the delegates' menu. It consists of choice steaks, strawberries—big and juicy—whisky, gin, Bourbon, vodka."

WASHINGTON, July 18.—(AP)—Revised price ceilings for white potatoes grown in Arkansas, Oklahoma, Texas, Kansas, Missouri and Nebraska will be higher by 15 cents a hundred pounds July 22 through 31, the office of price administration announced yesterday.

MONTERREY, Mexico, July 18.—(AP)—A U. S. naval plane piloted by an officer identified as A. Bagel, crashed Monday near the town of Doctor Gonzalez. The pilot was instantly killed and his plane destroyed.

This plane and another (Heloat P-6-F number 214) had set out from Oklahoma for Kingsville, Texas, and lost their way.

LAREDO, Texas, July 18.—(AP)—Sergeant of Detectives W. O. Minstrow of Port Arthur and State Highway Policeman Ab Bryant left here today for Port Arthur with Elfron Mendez, 17, charged with murder in the hammer death of J. L. Pruitt, 64, night watchman, in Port Arthur early Monday.

Two other youths are held in Port Arthur in connection with Pruitt's death.

Bridge Gives Way With Loaded Bus

RICHMOND, Va., July 18.—(AP)—A heavily laden Greyhound bus inbound from Norfolk plunged into the rain-swollen waters of Gillies creek in the edge of Richmond today when a bridge over the normally tiny stream gave way. Only one of 45 persons aboard, this one an infant, was killed.

The swirling waters of the creek swept the bus 100 yards downstream from the bridge and only one tall light, still burning, marked its position when the first police squad arrived about 4 a. m.

Chief of Police E. H. Organ said 37 persons, one holding a child, were on top of the all-but-submerged bus when he arrived, and that six or seven swam to safety on the west side of the creek.

War Forgotten By Vets Aboard Returning Ships

By E. V. W. JONES ABOARD SS QUEEN MARY July 16 (Delayed)—A talk of home dominates all conversations as the Queen Mary drives steadily westward bearing 14,700 United States and Canadian troops from the European theater. (The vessel docked Wednesday.)

War is a forgotten subject, although for a great majority of the men and women aboard home to be but a 30-day haven between two wars.

Nearly all will go to the Pacific. "Sir," an air force private asked the transport commander, Col. Dallas D. Dennis, "when does this place get somewhere?"

Of the total 8,563 are United States forces and 8,197 Canadians and British, with one lone Frenchman numbered among them.

Most of the United States forces on board belong to the Eighth air force Second division or the 103rd general hospital, scheduled for Pacific duty.

A few Canadians are going home for discharge, but a great majority are volunteers for Pacific duty who will become a part of the new sixth division which is to train in the United States and command a part of the United States command.

A thousand men a day are assigned to details. Only two meals are served to each man daily.

The ship is divided into three sections, the forward third designated the red areas, the central portion white, at the aft section blue. Troops received identity buttons with their sections' color, and must stay in their own area. This traffic jams are held to a minimum.

There aren't enough berths for all men, so 8,000 rotate between sleeping on deck and in bunks, as compensation, they get no duty assignments.

Every serviceable space is used, even the swimming pool. This is decked over at the balcony level for a mess hall. Another false floor over the pool itself provides bunk space while a trap door leads to the pool where reserve pots and pans are stored.

Adjudicators Sought By U. S. Civil Service The U. S. civil service commission is seeking qualified applicants for the position of adjudicator, for duty in various regions of the veterans administration. The position pays \$2,000 a year, plus additional compensation as provided by recent legislation.

INSECT DESTROYER PRESERVES HISTORY AMHERST, Mass. (AP)—DDT, the hot-shot insecticide, is not only making history—it's preserving it. Entomologists at Massachusetts State College got a frantic call that moths were raising you-know-what in the upholstery of a "de-bee" model colonial stagecoach owned by the Amherst Historical Society. The scientists produced a gallon jug of DDT—and the insects were blitzed in short order.

Reporting Under Pacific Dateline

By ROBBIN COONS APRRA HARBOR, Guam (AP)—There is a great yearning for the seven seas among sailors who man dozens of U. S. Pacific fleet boats—if you can hoist aboard a ship, it's a boat, mate—which daily darts about this great war harbor. They joined the navy to see the sea. And most of them complain that all they are seeing is Aprra Harbor, Guam. It's a busy, interesting harbor to the newcomer but, like anything else, it could no doubt become tiresome in time.

"And how!" chorus the four "swabbies" of the "Mickey House" navy—as distinguished from the seagoing "Donald Duck" navy" of subchasers, escorts and the like—who operate the YTL 656 in Aprra Harbor. "The YTL is a 'yard work launch' and her number, 656, shows she came along in that order when the hundreds of similar little craft were being launched for their humble but essential service. They are tugboats of a sort, with not enough power to pull big ships but very useful for line-handling and other light jobs.

Day after day, the four "swabbies" take the small, gray YTL 656 on its round of chores inside the harbor break-water and along the Gunter shores. The life of a harbor sailor? They live in a quonset ashore, and eat ashore too. They go to movies at night and on their one day off weekly they can play ball if they like. They're cheered by a ration of 24 cans of beer per month.

Okey Noff inevitably "Okinawa" this budding business found a way to break the monotony. He knows some fliers; on days off goes up to their airfield and, by virtue of helping clean guns and such, invades rides. He's been on two practice bombing missions to Aota and thinks that's "fun."

Texas Today... By JACK RUTLEDGE Associated Press Staff You can have your pistol packing mamas. Gregg county will take six-shooter sis. They've elected her constable of Precinct 4 twice, and she says frankly she's going to run again and again and again. She likes it. Sis is the wife of Addle Louise (Sis) Lott, 21, 165 pounds and five feet six. Everyone calls her sis, and she even gets her mail that way. Her bullweck is no pushover. Precinct 4 is in the East Texas oil field. It includes Liberty City and ten nearby oil company camps. She says there is little "what you might call crime" and no gambling. But there are at least ten honky tonks scattered around "and the boys like to get out and kick up their heels a bit. Sis says the boys usually come along quietly when she says so. For one thing, they know she packs a 38-caliber Colt and knows how to use it. On duty she wears slacks and a jacket and her snubnosed revolver swings in plain sight in a holster on her hip. She wears an outside badge, to save argument. She hasn't shot a man yet, but had a close call with a former Texas Ranger last Thanksgiving. He finally backed down. Then there was the time she chased a speeder and found herself looking down the muzzle of a sawed-off shotgun. She talked herself out of that one, and turned the man over to the federales. A sawed-off shotgun is illegal. On trips, she carries what she calls her "Sunday badge"—smaller and neater. And wears a dress. She was appointed to her to succeed her late father in 1941, has been re-elected twice, plans to keep on running. "It's a rugged life, but I like it," she says.

Odessa Marine Is Awarded Silver Star for Heroism

U. S. NAVAL HOSPITAL, New Orleans, La., July 18 (AP)—Thiele F. Harvey, 21, Pfc. U. S. marine corps observer, of Odessa, Texas, recently was awarded the Silver Star medal for conspicuous heroism on Two Jima.

Veteran of three invasions, he is now recovering from wounds at the U. S. naval hospital here. Harvey has seen a lot of action since he graduated from Odessa high school in November, 1942. That same month he enlisted in the marine.

Barely a year later he was making his debut in the invasions of Vela La Vella and Bougainville, of the Solomon Islands. On the latter island for a month and a half, he spent 28 days fighting in the front line.

Returning to the states for some rest and a leave, he was shortly ordered to join the marine's 5th division, and soon was en route to the Pacific again, destined this time for Two Jima.

The citation accompanying his Silver Star medal says that on Feb. 20 a star of three marines was sent out to establish contact with the adjoining company. They were ambushed by heavy fire from an enemy machine gun and one of the men was seriously wounded.

Harvey, disregarding his own safety, dragged the wounded man over a hand fire to the safety of a nearby hole. He stayed with the wounded man while his comrades went for aid. By rifle fire and the use of hand grenades, he held off the enemy until the arrival of the rescue party, then he successfully evacuated the wounded man by passing himself to enemy fire and placing a heavy accurate fire on the enemy position," the citation said.

Five days after the initial assault when Harvey was held-up for the night, he received the wounds he now is recovering from. "Guess the Nips had me spotted," he says, "because before I knew what was happening had three Jag hand grenades right in my hole with me."

He was wounded in both legs and hip. "My plans for civilian life? I want more education," he says. "I've thought a lot about it the past couple of months, and I've decided to go to college, probably Texas Tech, and major in geology."

Harvey's mother, Mrs. Jessie Harvey, lives at 1005 North Jackson Ave. in Odessa.

European Vets Dock at Manila

MANILA, July 18 (AP)—The first American service troops shipped directly into the Pacific war zone from Europe without a trip home arrived here yesterday to a wet, sloshy welcome after a month's journey from Italy.

The 4,275 veterans of Africa, Sicily and Italy landed on a muddy Manila dock in the damp dawn. They came from nearly every service branch of the Fifth army.

There were four companies of white troops, but the remainder were Negroes. Some soldiers told correspondents "things would have been much better if we'd been given furloughs at home first." Many served overseas for more than 20 months before coming here.

Farm Safety Week Begins Sunday COLLEGE STATION, July 18—Supplementing the recent action of President Truman, Governor Coke Stevenson, has made the period July 22 to July 28 "Farm safety week" in Texas. President Truman recently designated the same period for National farm safety week. "Prevention of accidents on farms has a deeper significance than just keeping men and women fit for work," E. C. Martin, chairman of the Farm safety program recently said. "The waste of human lives and the pain and suffering to the family and individuals are as important as bringing in Texas crops," he added. "The distressing point," he continued, "is that a large part of the accidents which happen daily could be avoided by caution."

Gamelin Says Maginot Covered One-Sixth of France's Border

(This is the third of a series of articles on France's defeat by Gen. Maurice-Gustave Gamelin.) By GEN MAURICE-GUSTAVE GAMELIN (Copyright, 1945, By The Associated Press) Advance PARIS July 18.—I have a passion for definition before discussion. Therefore, I ask "what was the Maginot line exactly?"

On this point there are still some serious ambiguities. There are many people even in France who believed the country lay sheltered behind "La Ligne Maginot" and that it protected all our dangerous frontiers. To calm public opinion and to give confidence, our government never thought it necessary officially to correct this error.

The name "Maginot Line" was given to a system of permanent fortifications erected between 1929 and 1934 on our eastern frontier. From a technical point of view, the system was composed of a series of installations, that is to say, forts of varying strength connected by casemates. There were two "fortified fronts" between the Rhine and the Luxembourg border which we called "the fortified zone of the River Lauter" and "the fortified zone of Metz."

A wide gap remained between the two. After 1935, when I succeeded General Weygand as supreme commander, it appeared that it was very late to begin large scale building of new installations, completion of which would require several years. War might break out at any moment. Therefore we decided: "To complete our 'Maginot Line' by erecting obstacles, including a network of iron wires, fields of rails and of anti-tank mines, and by building blockhouses to give depth to the position."

To close gaps in our system of fortifications and progressively to extend it up to Dunkerque on the left and to the Jura mountains on the right by merely creating what I called "a bony framework for the battlefield" composed of pillboxes and blockhouses and other barriers of various types. In these circumstances, it can be understood that the Maginot Line, properly speaking, didn't cover a sixth of our northeastern border. Nor did it cover our northern frontier, in case the Germans violated the neutrality of Belgium.

Now, as everyone knows, it was from west of Montmedy that the Germans exerted their main effort in May of 1940. They didn't attack the Maginot Line. In June, they attacked us on our eastern frontier in the gap between the fortified zone of Metz and that of the Lauter River and that of the Rhine, where they forced passage at Neufbreesch. The Maginot line in 1940, therefore, had deflected the initial German attack from our eastern frontier. What would be the result if the Maginot line had been subjected to frontal assault? Here, we are in the realm of speculation. For my part, I believe that given necessary strength, you eventually are able to subdue any fortifications. You Americans broke the Siegfried line, but to attack the Maginot line, it would have been necessary for the Germans to concentrate great power, notably in artillery. And that would have given us time to place our reserves.

D-DAY CIGARETTES ARE ON THE HOUSE A COAST GUARD - MANNED SHIP IN THE PACIFIC (AP) Free cigarettes aren't important on D-Day, says Chaplain James J. Carberry who provides them for the personnel of this ship just before a landing. In landings in Normandy, in Southern France, and again in this theater, the chaplain set out cases of smokes on the mess deck where they were easily available and invited everyone to come and get it. Few men took more than one pack," he reported, "although there were no restrictions and no supervision."

American Soldier Connects Legends And Chinese War

By CLYDE A. FARNSWORTH KUNMING, China, July 18 (AP)—"Now the way I heard it..." And your American soldier in China will cock his feet up and add another touch to the already vast collection of myths and legends related to the United States war effort in the Orient.

Some of these stories might have a shred of truth but most of them defy any attempts at confirmation. That doesn't keep them from being good stories. There's a recurrent myth propagated by the boys who used to fly the hump over the rugged North Burma route before the conquest of Burma permitted easier passage—the story of sighting a mountain a mile higher than Mt. Everest. So far as I know the map coordinates of this peak have never been recorded.

There's the tale of the fellow that sold a whole airplane on the black market, or engineered the disposal of an entire convoy. The raconteurs never stand short on anything but names. Stories bearing on easy contact between free and occupied China have been originated with rare imaginative skill. One rare story is of the GI who inadvertently visited Canton.

As the myth runs—and you hear it over and over—an American soldier in Southeast China, riding the Hankow-Canton railway at the end of a long AWOL drunk, slept through his appointed station and passed that mythical place where the "Free China" train crew turned the train over on schedule to the trainmen for occupied China. He woke up with a headache in a large and strange railway station. He wandered about, trying to find someone who spoke English and, failing, was about to approach one of the strangely uniformed soldiers he saw about the place. He thought they were Chinese. But before he reached them a Chinese touched him on the shoulder, told him, "boo-hoo" (good good) and led him away to safety.

The most glaring fault with this story is that when the Chinese controlled the inland sections of the Canton-Hankow railway there were no rails linking occupied and unoccupied sections. The Maginot line in 1940, therefore, had deflected the initial German attack from our eastern frontier. What would be the result if the Maginot line had been subjected to frontal assault? Here, we are in the realm of speculation. For my part, I believe that given necessary strength, you eventually are able to subdue any fortifications. You Americans broke the Siegfried line, but to attack the Maginot line, it would have been necessary for the Germans to concentrate great power, notably in artillery. And that would have given us time to place our reserves.

Gray County Home Demonstration Women Will Have Overnight Camp

Lake McClellan will be the scene of the overnight camp for women of the Gray County Home Demonstration clubs, July 26 and 27. The camp will open at 4 o'clock, Thursday afternoon and close at 2 p. m. Friday.

Each Home Demonstration club member will take the list of supplies which was made out by the food committee composed of Mrs. Roland Daur, Mrs. J. B. Jones and Mrs. O. G. Smith.

Mrs. Howard Osborn will direct the camp routine, serving as sergeant and guide to keep the camp in order.

Mrs. Daur will be educational chairman and will have charge of demonstrations. She will introduce Miss Helen Swift, rural women's organization specialist from College Station, who will train the women in "What We Can Do to Build a World Peace". Miss Swift will be assisted by Miss Doris Leggett, district agent.

Mrs. O. G. Smith and Mrs. J. C. Steward will preside at the candle lighting ceremony, and Mrs. O. R. Owens will be director of the musical programs for the camp.

Mrs. V. Smith, Mrs. G. H. Anderson and Mrs. S. E. Waters will direct the recreation which includes games and stunts.

Mrs. W. E. Melton will act as mistress of ceremonies. Mrs. Steward and Mrs. Vern Savage will be camp hostesses.

Each club will give a summary of its work so far this year and name the club activities. Scrap books will be exhibited by the reporters.

Prizes will be offered to the clubs having the best summary reports, the best demonstration, the best stunt, the best game, the largest percentage in attendance, and the best scrap book.

Las Cresas Club Members Meet for Business Session

Misses Helen and Mary Lou Mazy were joint hostesses Sunday afternoon to members of Las Cresas club for a business meeting.

Miss Quebell Nelson, president, conducted the business session, and plans were made for a pledge party which will be held at the beginning of school.

Present were Misses Donna Holden, Marjorie Lawrence, Bunny Shelton, Mardell Hawkins, Mary Jean Hoover, Jo Dell Elliott, Quebell Nelson, Katherine Crowley, Mildred Groves, Barbara Carruth, Delores Watson, Helen and Mary Lou Mazy.

Open Spaces Are Noon Hour Escape

Plan a noon-hour escape from the four walls in which you work, and head for the open spaces, even if you have to bring your lunch from home in a paper bag.

Best break in the working day—best for storing up energies to use after quitting time—comes from spending an hour out-of-doors, preferably lolling on a lawn.

If you have an al fresco lunch see that you serve yourself the essential foods. Nutritionists, who worry for fear working girls think any kind of snack makes an adequate summertime lunch, lay down some rules. They say you should drink milk and eat a hearty sandwich—a protein filler flanked by enriched bread.

White Deer Teacher Becomes Bride At Double Ring Ceremony in Chapel

PANHANDLE, July 18.—Miss Helen Robinson, daughter of Mr. and Mrs. R. A. Robinson of Panhandle, became the bride of First Lt. George W. Gordon of Mobeetie, in a double ring ceremony performed July 9 in the chapel of the Folk Street, Methodist church in Amarillo, by Dr. Neal D. Cannon, before a background of palms and candelabra, flanked on either side with floor baskets of white lilies.

The bride wore a street length dress of white with black accessories and a corsage of red roses. The couple was attended by Miss Ruth Robinson, sister of the bride and Ernest Gordon, brother of the bridegroom.

Mrs. Gordon, a graduate of Panhandle high school with the class of '40, and West Texas State college, Canyon, in 1943, was a teacher in the White Deer schools the past two years.

Lt. Gordon attended West Texas State college before entering Military service about four and a half years ago. He recently returned from Germany where he was a prisoner of war for 16 months.

The couple left on a wedding trip to New Mexico. Lt. Gordon will report to Miami, Fla., Sept. 1.

The wedding was attended by members of the immediate families of the bride and bridegroom.

BPW Director Attends Meet of Clubs in Abilene

PANHANDLE, July 18.—Miss Elsie Cunningham, home demonstration agent and district director of Business and Professional Women's clubs returned to Panhandle this week after attending a meeting of the executive committee of the Texas Federation of BPW clubs in Abilene.

Miss Myrtle L. Tanner of Austin, president, presided at the meeting attended by state officers and six district directors.

Principal objective of the meeting was to lay plans for club work for the new year which began July 1. Tentative plans were made for district conferences to be held in October. Conference for district 9, will be held in Plainview.

The executive committee also passed on the creation of a new section in the organization publication, "Texas Woman," to be known as "My District." District directors throughout the state will take turns in editing this section of the magazine. Miss Cunningham will edit the section of the September issue.

Figure Should Be Lined Up Straight as a String

You know that a taut little stance helps to keep you healthy and makes you a handsomer girl and that the letter "S" posture can cross you up on both counts. But do you try to lick the out-we-go, in-we-come slump?

Cadet nurses called one of the trimmest and smartest groups of uniformed women on the U. S. scene—do. And they succeed, thanks to common-sense rules learned from a handbook issued by the U. S. public health service's division of nurse education. Every rule can be taken over as usefully by other girls who want to keep as fit and look as smart.

Use Weighted String
A cadet nurse is taught to line up proper posture—and here's your cue—by thumbtacking a weighted string to the top of a full-length mirror. Standing so that the profile reflection can hew to the plumb line, she checks herself to see if the string falls at the following points: tip of ear, tip of shoulder, center of thigh, center of knee and slightly in front of the ankle.

While you're examining your posture in the mirror, check, as the cadet nurse does, to see if you have any one of the common faults. Pick out the offender, and go to work on it with exercise. A forward head? Here's the exercise that helps to remedy the fault: Stand and place fingers of left hand on back of neck to feel play of muscles. Now, keeping a level chin, start pecking—that is, push head forward and backward as a rooster does. After each peck, push head back to an erect position, which means that tip of ear will be directly over tip of shoulder.

Round Back Cure
Round back? You can take your exercise for this on a bed, lying on your back with legs outstretched and relaxed. With head glued to the mattress throughout the exercise and arms out to sides with palms down, raise thorax by pushing down on mattress with outstretched hands, then force an arch in the upper back. Relax and repeat.

Sway back? To correct one which sways more than it normally should, lie on back, arms extended slightly to side, knees flexed, soles of feet on floor. Pull legs up so that they are perpendicular to the floor. Grab knees with hands and pull them to thorax four times. Relax and repeat.

While you're examining your posture in the mirror, check, as the cadet nurse does, to see if you have any one of the common faults. Pick out the offender, and go to work on it with exercise. A forward head? Here's the exercise that helps to remedy the fault: Stand and place fingers of left hand on back of neck to feel play of muscles. Now, keeping a level chin, start pecking—that is, push head forward and backward as a rooster does. After each peck, push head back to an erect position, which means that tip of ear will be directly over tip of shoulder.

Confederate Veterans' Pensions Increase

AUSTIN, July 18.—(AP)—Texas' confederate veterans' pension rolls have increased from \$59,000 monthly to \$85,000 under individual pension boosts authorized at the last general session of the legislature.

Increased payments began in May for the 24 veterans and 1,655 widows.

J. H. Taylor, chief of the veterans' pension division of the comptroller's office, estimates veterans will continue to draw payments for 10 more years and that some widows will remain on the rolls two decades from now, based on current mortality rates.

Financing the program is no problem to the state. The veterans' pension fund, financed by a state property tax of two cents per \$100 valuation, has a \$3,000,000 balance. Increased monthly payments au-

thorized by the legislature were: \$150 (from \$80) for married veterans living outside of the state home. Only three now draw pensions. \$100 (from \$50) to unmarried veterans. There are 21 in this classification.

\$25 (from \$15) for residents of the state veterans' home. There are none in the home.

\$50 (from \$30) for widows who live outside of the state home. There are 1,595 of these.

\$25 (from \$15) for widows in the state home. There are about 60 in this category.

The Muslim day begins at sunset, and the Balinese day at sunrise.

Haegg Sets New Mile-Run Record; Bests Anderson

MALMO, Sweden, July 18 (AP)—The four-mile mile long considered an impossibility by many leading track and field experts, is going to be accomplished soon says Gunder Haegg and the swift Swedish runner believes he's going to be the one to turn the trick.

The long-striding haberdashery salesman came pretty close to doing it yesterday when he was clocked in the record-shattering time of 4:01.4 in bettering the old standard set by his rival countryman, Arne Anderson, on July 1, 1943.

NAZIS WEREN'T NASTY—70 YEARS AGO

CINCINNATI, Ohio (AP)—That highly-discriminatory word "Nazi" first was used more than 70 years ago.

Vioselle Pitches Giants To 2 to 1 Victory Over Bruins

Sam Bredon's right to be known as the David Harum of baseball remains unchallenged today off incomplete returns of his Cooper-Barrett-and-a-barrel-of-cash deal with Boston.

Mort Cooper yet may win a pennant for the Braves when the millionaire owners excavate enough supporting talent but the proof is on the table that Charley "Red" Barrett is doing a great job of tossing the Red Birds toward a possible fourth straight flag.

President Bredon of the world champion St. Louis Cardinals must have been well satisfied by Barrett's 3-2 victory over Boston last night for it was his tenth since joining the Birds and twelfth of the season.

Neither pawn of 1945's biggest deal is a spring chicken, Cooper admitting 31 summers and Barrett 30, but the red-headed chucker from California has been the more impressive. Although Cooper's won and lost mark of 9-1 is tops in the league, he has been troubled by an ailing flipper, hasn't started a game since June 27 and has worked only four complete titles since he was sold May 23.

The Dodgers squared their series with Pittsburgh, after blowing a Sunday doubleheader, by trimming the Pirates, 5-2, taking advantage of sloppy enemy fielding.

Knights of Pythias Meet Junior Oilers in Feature Game Tonight

One of the five leaders in the city softball league, the Knights of Pythias will meet their second test of the last half of the season tonight when they play the Junior Oilers in the second game of a twin bill at Roadrunner park.

In the first game of the doubleheader, the Pampa Merchants will play the reportedly improved Phillips outfit in a game starting at 8:30. Neither team has seen action in this half.

The PAAAF Medics, losers to the Monday night will battle the Kim-Knights of Pythias in a no-hit game boys at Magnolia park in a contest starting at 7 o'clock.

Last night, the Odd Fellows, playing good ball all the way, bested the Base Communications team 10 to 4. The Odd Fellows came out of the doldrums at the end of the first half of the season and pulled up to a 500 percentage mark with six wins and six losses.

The usually hapless Cargay outfit set the Cabot team back to the tune of 9-3 last night in a surprising finish. Cargay won only 1 out of 11 games in the first half.

Branham Blocks Texas League Move To Resume Play Next Season

DALLAS, Texas, July 18 (AP)—The Texas league is moving—it hopes—toward a showdown with National Association of Professional Baseball leagues on the question of suspended circuits returning to play in 1946 with full privileges of leagues that have continued.

It was caused by a ruling from Judge W. G. Bramham, president of the association, and backed by the executive committee. Bramham said the Texas league, which has been inoperative since 1942, could sign players after Oct. 1 but could not transfer by sale before Dec. 1, which marks the end of the baseball draft period.

Under this ruling the circuit would be able only to make contracts with free agents.

President George Scheppe of the Dallas club recalled the National association convention last year when the rights of the inoperative leagues came up and it was finally decided they had all rights as members during the emergency so long as they paid their fees for territorial protection.

Wife of Miami Cattleman Dies While in Amarillo

MIAMI, July 18.—Mrs. Nora N. Philpott, wife of J. W. Philpott, well-known cattleman and grain dealer, died yesterday afternoon at 5:35 in the Northwest Texas hospital, Amarillo.

Mrs. Philpott, 67 years old, was a member of the First Baptist church in Miami. She has been in bad health for the last year.

Mrs. Philpott was born in Kentucky Oct. 18, 1877, and has lived in Miami for the last 40 years.

Funeral services will be conducted tomorrow afternoon at 2:30 in the First Baptist church in Miami.

Mrs. Philpott's husband, J. W., survives along with two daughters, Mrs. Ruth Donaldson, Amarillo, and Mrs. Flora Corbin, Miami.

Three sons all of Miami survive. They are W. J., George A. and Kint C.

Among the three brothers surviving is W. G. Lyons of Pampa. Other brothers are O. L. Lyons, Miami, and Earl Lyons, White-wright, Texas.

Pall bearers for the services will be Dan Graham, Horace Smith, Ed Schmidt, C. T. Locke, Harry Craig and Bill Locke.

The honorary pallbearers will be the deacons of the First Baptist church in Miami.

Funeral arrangements are in charge of Duenkel-Carmichael funeral home.

Spotty Career

New York fireman George S. Keeley has plenty of spots before his eyes since he took over the task of mothering the 14 three-week-old Dalmatian pups pictured with him above. Their mother, Susie, the fire company's mascot, got hit by a truck, but is recovering nicely.

German Prisoner Of War Camp Is Run With Aplomb

By HAROLD COWAN
INGOLSTADT, July 17.—(AP)—Few people could run a German prisoner of war camp with more aplomb than this undertaker from Sioux City, Iowa—Lt. C. W. Doty.

It was obvious the minute a person walked inside the fenced area and heard the wave of "Achtungs" sweeping ahead of a tall, blue-eyed officer who speaks with raspy twang that make a midwesterner homesick.

"How do you like that discipline?" asked Capt. Lindsay Nelson of Columbia, Tenn., keeping a straight face with difficulty. Every German in earshot had snapped to attention.

The "Achtungs" were coming from the Germans themselves, and the last syllable rang across the prison yard like a breaking banjo string.

Work inside the camp is done chiefly by SS troops. This includes providing music for Sunday church service. The 35-voice male chorus is 100 per cent SS.

For entertainment of the prisoners, Doty ordered the Germans to organize a soccer team and play each Sunday against a team of Hungarian prisoners, who are segregated in their own barracks.

The first two Sundays the Germans thrashed the Hungarians soundly, much to Doty's displeasure. Subsequent contests, however, have been one-sided affairs, with the Germans coming out second best, bruised and beaten.

Doty has sent a scout through the division's area who turned up two strapping Hungarians who had been professional soccer players. They had already been discharged from the PW cage, but for a couple of square miles a week they agreed to play on the Hungarian team.

The Germans don't know yet what happened.

Party Line

Make sure you get a private frequency when the walkie-talkie becomes available for private use, or you'll let the whole neighborhood in on your conversation with the little woman. Ruth Jones, Chicago, demonstrates the new handi-talkie set being made for civilian use by Chicago concern.

Texarkana Man Gets Navy Cross, Now Convalescing

NEW ORLEANS, La., July 18.—(AP)—Marine Pfc. D. A. Carson of Texarkana, who charged a pill box on Iwo Jima, grabbed an enemy machine gun, and pulled it from the embrasure, has been awarded the Navy Cross, the navy said today.

Carson, now convalescing at the U. S. Naval hospital here, was serving with a marine infantry battalion on Iwo Jima on March 1, his citation said.

When his assault squad and an attached machine gun squad had suffered severe casualties and were pinned down by machine gun fire from an enemy pill box, Carson crawled 30 yards through deadly fire to a position close to the side of the pill box, the citation related.

The enemy attempted to prevent his reaching it with a barrage of hand grenades.

Carson charged the pill box and, grasping the enemy machine gun by the barrel, pulled it from the embrasure, enabling the remainder of the squad to advance and annihilate enemy resistance in the squad's sector.

A native of Texarkana, where his parents, Mr. and Mrs. Cullen A. Carson, now live, the 23-year-old marine enlisted in the service in September, 1942. He participated in the invasion of Iwo Jima and Bougainville in the Solomons, in 1943.

"It's hard to compare the two," he says. "In the Solomons you had to fight jungle and Japs and those Nips were hidden so you could never find them. . . . It was perfect for me. . . . I like to see who I'm fighting. At Iwo they were dug in. . . . Had to either burn 'em out with flame throwers or set demolition charges and blow 'em away. When Carson's D company of the Second Battalion, 28th Marines, landed on Iwo on the morning of D-day in the 8th wave, the Japs had found the range effectively, and many of the landing craft, LCP's and LVT's mostly, were being badly shot up.

"We got in all right, though," Carson says. "Our objective was Suribachi hill, where we later held that flag raising ceremony that's so famous now. Once we got that, we were to relieve the 27th Marines, who had come in earlier, and were further inland."

Carson was wounded on D-Plus 5, when a bullet passed clear through his thighs and hips. He says he wants to go to school after the war.

"That's all that's been on my mind these past months. . . . I want to study aeronautical engineering and get my college degree," he says.

Carson has an older brother, J. D. Carson, a sergeant in the army air corps.

Mitchell's Flag Flies

A B-29 BASE, India.—(AP)—The personal flag of the late Gen. "Billy" Mitchell, pioneer exponent of expanded air power, is flying against the Japanese.

The burgee flown from the Mitchell yacht "Canvassack," depicting a canvasback duck on a background of green and white stripes, was presented to Maj. Gen. Kenneth B. Wolfe, first commander of the Twentieth bomber command.

Gen. Wolfe gave the flag as a monthly trophy for the B-29 squadron with the best record. One squadron won it three months consecutively, and came into permanent possession. The squadron promptly named itself the "Billy Mitchell Squadron," and is so known officially. The design of Gen. Mitchell's flag is copied on all planes of the group.

Texas Crops

(Continued from Page One)

a drastically reduced acreage, was making fair to good progress following rains and cooler weather. Except for locally heavy hail damage in El Paso county, the crop in the irrigated trans-Pecos area continued in good condition.

Late planted corn continued to make good progress, and earlier acreage was matured.

Conditions were favorable for land preparation and planting of sorghums on the high plains, and growing crops were benefited by recent rains.

All rice districts reported good crop progress.

Harvest of cantaloupes and watermelons continued active in most mid-season districts, and was getting started in some of the late areas.

Good crops of potatoes and onions were expected in most of the Panhandle area with harvest in the earliest districts getting started.

Transplanting of fall crop vegetables continued in the Laredo and winter garden districts.

Range and livestock conditions were very good and stock water was plentiful over most of the state. The exceptions were a few upper south high plains counties, parts of the Edwards plateau and the southern portion of the state, where rainfall was spotted and the long period of drought remained unbroken. Livestock losses continued very light.

Veterans Receive Advice on Farms

TOPEKA, Kan.—Returning veterans who buy farms without careful reconnaissance may find "delayed action land mines" blasting them into financial ruin in years to come, I. W. Duggan, governor of the farm credit administration, warned in an article in the August issue of Capper's Farmer.

"Farm purchases today may be loaded with disaster," Mr. Duggan writes. "Land values are packed with inflation explosives. The land who comes home anticipating peace and security on a farm of his own should use all available detectors in locating and disarming these hidden dangers before he signs a contract to buy a farm."

Land prices have increased an average of 52 percent over those prevailing during the period of 1935-36 for the country as a whole, he adds. The increase has been much higher in some regions.

House Advocates No Poll Tax for Man in Uniform

"A citizen of Texas who puts on the uniform in time of war to fight for this country is still a citizen of Texas with all the rights pertaining thereto, including the right to vote, and the State should not ask him to pay a poll tax out of his \$50 a month pay," declared Boyce House, For. Worth author, in speeches Tuesday in Panhandle and Canadian.

House expressed the hope that the people will give an overwhelming endorsement to the Constitutional amendment on August 25, exempting from the poll tax, "Texans in the service during war."

The speaker criticized the sale by the state of approximately 200,000 acres at an average of \$3 an acre during the war, saying that the land should have been held off the market until the war is over and "our heroes come marching home and give them at least an equal chance with the land-grabbers and speculators to acquire a few acres and economic independence in the State for which they have fought."

At noon Tuesday before the Panhandle Lions, House was introduced by W. L. Boyles and last night at a meeting sponsored by the Canadian Rotary club, Preston Hutton, president, presided at the speaker. A group of Pampa citizens, headed by C. P. (Doc) Pursley accompanied House.

Mainly About Pampa and Her Neighbor Towns

Pvt. Jesse J. Stark of Amarillo air field who was formerly stationed at Pampa field, spent Sunday visiting in the home of Cpl. and Mrs. W. E. Morris, here.

Wanted — Body men, permanent position, apply in person. Must have own tools, good pay. Plenty of work, good working conditions. — Pursley Motor Co., 211 N. Ball.

Lloyd Graham, of Washington, D. C., has received a discharge from the armed forces and is here for a visit in the home of his uncle and aunt, Mr. and Mrs. Burl M. Graham, Sr.

Three dances will be held weekly at Southern Club, on Saturday, Sunday and Wednesday nights beginning this Wednesday. Orchestra each dance. Regular admission prices.

Mr. and Mrs. Lonnie Roundtree and son of Richmond, Calif., are here for a visit with relatives and friends. They are former residents of Pampa.

Call 441 for City Cab.

Mr. and Mrs. Owen Johnson and children have returned from a visit with relatives in Hereford.

Mr. and Mrs. Clifford Lewis and daughter, Karen, of Long Beach, Calif., are visiting in the home of Mr. Lewis' parents, Mr. and Mrs. Earl Lewis, and with Mrs. Lewis' uncle and aunt, Mr. and Mrs. Dutch Kever, and with friends here.

Mrs. A. A. Proctor and daughter, Arlene, will leave tomorrow for a visit with their son and brother, Pvt. Clovis Lynn Proctor, who is stationed at Camp Fanning. They will also visit with relatives in Kilgore and Greggton.

Winston Savage is a patient in Pampa hospital where he underwent an appendectomy yesterday morning. Savage is principal of Pampa High school.

Mrs. E. R. Jay and daughter, Gloria, have returned from Gorman, Sweetwater and Clifton, where they have been for visits with relatives.

Mrs. Henry Mathieu and daughters left Monday for Bowie where they will visit with relatives.

Jap Massacre on Luzon Revealed

INFANTA, Luzon, July 18.—(AP)—Filipinos in this isolated East Luzon coastal town have told of a Japanese massacre of 2,000 natives in a wholesale slaughter and looting that rivaled their infamy in Manila.

They raided scattered outlying districts, stabbing and slashing Filipinos in their beds, declared Lt. Col. Jaime Manzano. Most of those who sought desperately to escape were shot down as they fled.

Mayor Faustino P. Juncos told the correspondent that the Japanese massacred the natives after finding American canned goods and learning of guerrillas in the villages.

The Filipinos made Luzon's largest scale evacuation by water to escape additional Japanese vengeance. Colonel Manzano said 7,000 civilians were removed from the Infanta vicinity to the Polillo islands off the east coast.

Facilities were scant. Five launches furnished the motive power. For 18 nights they pulled strings of native boats loaded with evacuees.

Prompt Conversion of Cottonseed Is Urged

DALLAS, July 18.—(AP)—The war cotton production committee of Texas in a statement today urged prompt movement on cottonseed and lint to industries that convert them into munitions, food, feed and fiber.

"Cotton picking, ginning and the crushing of cottonseed are the essential first steps in the production of smokeless powder from cottonseed oil; meat and milk from cottonseed meal, cake and hulls and hundreds of other products required in the war effort," the statement asserted.

"Everything that can be done to increase production, improve quality and speed the marketing of the 1945 crop of cotton and seed will directly benefit both the producer and the nation," the war committee said.

Pacific War

(Continued from Page One)

formed into rubble before the mighty warlike turned and sped away shortly after midnight. There was no sign of Japanese opposition.

Tokyo explained the Japanese were preserving their strength "until the time is ripe" when they will deliver a knockout blow to Allied naval and invasion forces.

Japanese propagandists warned that Allied bombardment and carrier forces would be back again and strike wherever they wished; admitted the Japanese were terrified by the bombardment, they called upon the government to give the people "capable leadership" and for the Japanese themselves to meet the bombardments without fear.

Tokyo said the midnight bombardment reaching from Hitachi to Mito was smaller than the two previous shelling of northern Japan, which drove residents of Kamaiishi into their air shelters, where many remained "long after the enemy warships had retired, unable to shake off fear."

Carrier planes included last night's bombardment area in today's targets.

Land-based aircraft combined with PT boats to sink or damage 150 more small Japanese vessels. Naval patrol planes from the Philippines accounted for 100 river craft in the Amoy, Swatow and Hong Kong areas of the China coast.

Inland three Chinese columns closed in on Kweilin, former main U. S. airbase in southeast China. Advances up to seven miles placed Chinese 11 miles northwest, 12 miles west and 23 miles southwest of Kweilin. The Nipponese made a futile attempt to restore their escape route to the north, cut recently by the Chinese.

Pocketed Japanese in the northern Philippines fought desperately with makeshift weapons, including mortars made of three inch galvanized pipe, against U. S. Sixth army troops trying out revolutionary non-recoil 57 to 75 mm artillery which they said would be ideal for cave fighting the mountains of Japan.

Bob Clark's Commandos To Visit Lake McClellan

SHAMROCK, July 18.—After several weeks of preparation Bob Clark and his commandos will visit Lake McClellan July 31 for advanced outdoor preparations.

Clark is director of the Shamrock High school athletic department and has announced that the public is invited to witness the military and outdoor knowledge the commandos have learned.

The commando teams have been trained in both offensive and defensive tactics.

The teams are divided into two armies and will divide to solve the problem Coach Clark has prepared. Clark said maneuvers will start at 2 in the afternoon and continue until 9 in the evening when the actual raid begins.

The first Europeans coming to American found the Indians using crude oil as a medicine.

Nevada

(Continued From Page One)

into the main deck aft beside a main battery turret. The seven marines who saved the ships superstructure died at their stations, their guns barking until the second the plane struck.

Fires started by the Kamikaze crash were extinguished in three minutes, but not before considerable material damage was done to the main battery turret and one 20 mm. gun.

It was the Nevada's first damage since Pearl Harbor, although she was "straddled" by German shore batteries during the bombardment of Cherbourg.

At Pearl Harbor, she was the only capital ship to get under way during the attack. About 40 minutes after the Japanese hit, she cleared her berth unassisted and started down the south channel. Heavily damaged and drawing water, she was beached to prevent blocking the channel.

Numerous legends indicate that the Greek recognized the usefulness of oil.

Bombardment

(Continued From Page One)

action. Great flames belching from huge guns tore the night into crimson tatters.

This ship fired the first salvo and immediately afterward the other vessels cut loose with such fury it seemed that all the gods of war had gone mad.

The best description I heard was uttered by Lieutenant Fulmer (first name unavailable) machine gun officer of Dayton, Ohio, who said "It looks like the Fourth of July in Hell, doesn't it?"

The night's first target was at Takahagi, about 55 miles north of Tokyo.

Sailing southward at a steady pace, the ships then turned their guns loose on the Shibauchi plant of the Hitachi engineering works, located at stich town, six miles from Takahagi. The next target was another plant of the Hitachi engineering works and the copper refinery at.

The night's last target was the Hitachi steel works and the Hitachi arms factory at Mito, 12 miles south of Taga.

The Mito air field was believed to be the site of an elaborate military installation of electronic devices. It got a thorough and destructive pounding.

Many cities populated chiefly by war workers lay along the bombardment route.

The bombardment was the third of the Japanese homeland in four days.

The fleet has been prowling around the Japanese home islands now for more than a week. If we're here much longer we should be permitted to vote.

Big Three

(Continued From Page One)

Washington delegation. "The fact that it came in advance of developments indicated that Truman, while apparently not trying to force an "open meeting" policy on the parley—nevertheless was adhering to his policy of keeping the people at home informed as much as possible concerning what is going on.

An unconfirmed report said Premier Stalin had come to Potsdam ready to make definite commitments concerning the war in the Pacific.

The first joint communique from the three world leaders was issued last evening. The communique said: "The Berlin conference of the heads of the governments of the United Kingdom, the United States of America and the Soviet Union met this afternoon at five o'clock."

By invitation of his two colleagues, the President of the United States of America will preside at the meeting of the conference.

"The preliminary exchange of views took place on matters requiring decision by the heads of the three governments."

"It was decided that the three foreign secretaries should hold regular meetings with a view to preparing the work of the conference."

"It was reported that Truman, in his nomination won a quick second from Prime Minister Churchill."

Christmas in August

WICHITA, Kans., July 18.—(AP)—Wanted, on or about August 1: One Christmas tree, with all the trimmings.

The idea is a serious one to Irene Virginia, 10, Johnny, 11, and Mary Lee, 8, daughters of Mrs. J. E. Shofe, of this city.

The children promised their half-brother, Private First Class Fred Caple, when he was fighting on Iwo Jima, that they would have Christmas for him when he got home, no matter what time of year it was. And Fred, who has served overseas since December, 1942, is scheduled to arrive home for a 90-day furlough about August 1st.

Does anyone know where a guy can get a Christmas tree?

Mica is an excellent non-conductor of heat and electricity, and its resistance to decomposition is high.

Refining transfers crude oil from a natural into a usable product.
