# UAW Strike Against General Motors Is Settled

## 'Equalization' **Fund Created By Agreement**

DETROIT, March 13----(AP) -An agreement for an 181/2 cents an hour (16.5 percent) wage rate increase and the creation of an "equalization" fund, brought an end today to the 113-day-old General Motors strike.

Accepting the 181/2 cents an nour offer of the management, the CIO United Auto Workers said in a statement that the 'equalization fund meets the union's 191/2 cents an hour demand, which was the amount recommended by President Truman's fact-finding commission.

#### **RETURN TO WORK**

Settlement of the strike means an early return to work of 175,000 GM a hand to interfere, we'll cut it production workers in 92 plants off." throughout the country. UAW vicepresident Walter P. Reuther said the start back some time Management did not Action Comes men could start back some time comment immediately on this state ment.

The settlement was achieved af-ter an unprecedented negotiation At Request of meeting between union and corporation which lasted 17 continuous nours after having begun last night. California Man The union said the peace terms with General Motors surpassed the "economic and non-economic terms" recommended by President Truman and his fact finding board and "tops the tremendous wage victories already won throughout the automo- of Edwin W. Pauley, California 1942. bile industry.

These victories, the union said, of the novy were a result of the "campaign spearheaded by the courageous and Motors workers."

An exact date when GM could resume its production of automobiles in nearly 100 plants thus was uncer- conclusive.

## 176,500 Workers **Remain Jobless**

**Throughout** State AUSTIN, March 13-(P)-Unerc ployment increased in Texas during February and is still rising, with 176,500 workers jobless and 12,117 openings filed with the United States unemployment service, C. E. Belk, state director of that agency.

reports. 1991 Cities having major unemploy ment problems are San Antonio, Texarkana, Longview, Lufkin, Beau-mont and the Sherman-Denison area, Belk declared. There are no longer any areas in the state where

the local demand exceeds the local supply of labor. Areas of unemployment include Box 85B.

Austin, Lubbock, Orange, Wichita Falis, Dallas, Fort Worth, Tyler. Waco, Temple, Port Arthur, Brownwood, Abilene, San Angelo and Marshall. The only areas now listed in the balanced job and labor class are Houston. Corpus Christi, El

Paso, Amarillo, Borger and Galveston-Texas City. During February, Belk said, 72,-

96 workers applied for jobs, five thousand less than during the preious month; while placements by the USES totaled 27,043, an increase of 13 percent. It was pointed ou

that the agency put on a drive to contact employers during February while the demobilization program of the armed services slowed down. An employment increase of 3.1 percent in the smiler towns since V-J day was observed.

Germany's guilt cannot be dis-puted and no historical investigation will be able to deny it .-- Rev. Martin Niemoeller.

for the baby-a condition brought on by sugar-deficiency in baby pigs The vital atomic factory in the is now causing losses for many swine raisers, according to a report is-United States has never been seen sued this week by the American by a single British, let alone Euro pean, scientist, Unless we are able Veterinary Medical association. The condition, known as "baby pig to break down this grim curtain condisease" causes newborn pigs to cealing one nation's work from anshiver and shake, makes their hair other, suspicions will grow between nations so fast as to make irrational nations, and results in death with-

row under the bedding, refusal to mingle with the rest of the litter and a "crying" type of squeal which is said to be characteristic of the

disease. Baby pig disease is not caused by by specific germ, according to the eterinary association's committee on swine diseases. However, post-mortems show that the pigs' blood is almost wholly deficient in sugar. If a veterinarian is able to treat the pigs when first symptoms of the disease appear, most of them can be saved by injections of a special glu-cose-sugar solution under the skin, or into the peritoneal cavity, the report states. Use of baby pig hovers, to keep the newborn animals warm, Johnny Weissmuller is getting ideas —he names Hollywood's 10 best- baby pig diseases.

#### McLean Farmers Sign For ACA Practices

Yesterday at McLean over 50 farmers and ranchers filed with the Agricultural Conservation agency their intentions to carry out conservation practices this year. Miss Evelyn Mason, secretary of the Gray county ACA, and her assistant, Mrs. Margie Moore, were

#### **Congress Will Consider Wool Industry Design**

WASHINGTON, March 13.-(A)-Congress soon will be asked to consider President Truman's resgin for a stabilization wool industry. Senator O'Mahoney (D-Wyo.) told a reporter today that legislation along the line of the President's

recommendations will be prepared at once. 8:15-Real Stories Fro mReal Life-MBS, 8:30-Spotlight Bands-MBS, The proposals, made Tuesday in a

letter to O'Mahoney, chairman of the special senate wool investigating committee, resulted from continued protests by s wool-grower that the industry is in serious condition. The war years were unprofitable ones, wool men say, and uncertainty over the future is driving many producers to liquidation of their holdings.

The President recognized that "a serious world-wide wool situation exists." His legislative remedy for the domestic industry in the main would be

(1) Continuation of support prices or loans by the commodity credit corporation, (2) sale of domestic wool by the CCC at prices competitive with foreign wools, and (3) a research and development program to improve the quality of domestic wools and marketing practices.

A revised parity price for wool would be established on a basis "comparable" to that of parity prices for other agricultural products. Woolgrowers contend that the present parity price was based on a period (1910-1914) when wool prices were among the lowest in recent history. (Parity is a price designed to assure the same buying power as in some past favorable period.)

Support prices to be paid by the CCC would be based on the new formula. Mr. Truman recommended that no reduction be made in the general level of 1946 support prices until the decline of sheep herds in America is checked.

One congressional wol authority Pert and piquant Scotty Marsh is eatured vocalist with Orrin Tucker today went beyond the President in and his orchestra, one of the naexpressed belief in an interview that ion's top bands frequently heard his view. Rep. Barrett (R-Wyo.) on Mutual's "Spotlight Bands" Monthe support level should be held lays. Wednesdays, and Fridays, firm until the sheep population regains the 1941 figure. Barrett said that since 1242 the number of sheep in the United States has dropped from 49,000,000 to 38,000,000. Costs of the proposed program

would be paid for out of customs duties. Mr. Truman said in his letter to O'Mahoney, that he felt it would be better "to have the government absorb losses on sales of domestic wool rather than to raise additional trade barriers against imports.'

11:00-Lyle Van, News-MBS. 11:16-Songs by Morton Downey-MBS. 11:30-J. L. Swindle. 11:45-Voice of the Army. 12:00-Songs by Irma Francis. 12:15-Lum and Abner. **Kite Contest** (Continued from page 1) kites flying the highest. There will be prizes of 75 and 50 cents in each grade for the most un-

usual kites. These kites must stay n the air at least two minutes. . Teachers will either serve as judges or will name someone to udge for them. Principal Meek said there would be plenty of room for spectators

BY CARRIER in Pampa 25c per week, \$1.00 per month. Paid in advance, \$3.00 per 3 months. \$6.00 per six months. \$12.00 per year. Price per single copy 5 cents. No mail orders accested in localities served by carrier delivery.

#### -NOT EVEN IN AMERICA

At a point on two Tennessee highways near Memphis last Friday night a high-powered rifle of some sort was used to fire on Dixie Greyhound Lines buses. One man is in a Memphis hospital recovering from a rifle slug in his back. He might have been killed, and the bus might have been wrecked.

On Feb. 23 a bus was ambushed and fired upon near Byhalia, Miss. It was a Greyhound bus.

On Feb. 28, in an almost identical location, another bus was fired upon. No one was injured.

On March 5, a stone, heavy enough to penetrate the side, was hurled at a bus near Flora, Miss.

This is all the result of a mid-South Greyhound strike. Amalgamoted Association of Electric Street Railway and Motor Coach Employees of America (AFL) has been on strike against the company since Jan. 7.

Those are the facts so far in the case. They are cited so that the reader can get the background to what is developing into another deplorable blot on the record of organized labor. Mass picketing has been subverted by virtue of court injunction.

The workers have grown impatient with the process of law and negotiation and have taken the matter into their own hands. In doing so, they have employed one of the most dastardly means of gaining their ends-intimidation, and using ambush at that. It smacks of the days of frontier gangsterism. It is in utter disrespect of constituted law.

We are not taking sides in the issues involved in the strike, from Pacific islands and the Far goods. but merely set forth these circumstances to show that men yet have not come to the place where they will settle things amica-in a report now in preparation by that not vet here areanized. #### Who Should Regulate The Value of Money?"

A reader asks the question "Who should regulate the value of money? The individual?" He asked this question after im-

plying that the state should regu-late the value of money. In the first place, no one can

regulate the value of anything. Value is what two or more people voluntarily agree to exchange wealth for. It is no more possible for the government to regulate the value of money than it would be to regulate the time of day. What this expression undoubtedly meant in the Constitution was that the government should regulate or guarantee the purity of money and prevent people from defrauding others by stamping money a certain weight fineness when it was not that certain weight and fineness.

The government's attempt to regulate the value of money has en the most colossal failure. The more it attempts to regulate value of money by expandthe value of money by expand-ing and contracting credit, the it robs one group of peopl

to the advantage of another group of people. Doing this is harmful to society as a whole.

The government passed the Fedserve act with the idea of regulating the value of money. The eory was that by expanding and contracting credit the value of noney could be controlled or regulated. It has not worked. It has been such a failure that the government passed a law that no vate citizen could have any of what was real money before the act was passed. In its place the citizen was given a piece of paper with no real value in itself.

Eventually we will make what we now call a dollar so worthless by issuing so many of them that we will sooner or later have to establish a new unit of measure with real value in itself.

The present price control is a nice example of the absurdity of trying to regulate the value of anything. If the value is established so that the producer gets less than he gets by producing something else we do not get the commodity. We only use up the com-modities produced before the government attempted to regulate the value

When the government attempts to regulate the value of money, as It has been doing to an increasing degree during the last thirty years, it is only a question of time until it tries to regulate the value of everything hy price controls, rationing or by fiat edicts of one orm or another.

The real regulators of the value of money or of anything else a'e all the people. If all the people are not permitted to help establish the value, we do not have the true value of anything. When all the people are permitted to help regulate the value, nothing for ong gets too high and costly or cheap. Then the relative value things is constantly adjusting work in harmony with natural aws and the accumulation of

Hearing To Reopen WASHINGTON, March 13-(P)-

The federal power commission an-nounces that it will reopen in April a hearing on a petition by the Reynosa Gas Pipeline company for authority to transport natural gas of from Texas to Mexico.

The Texas railroad commission asked that the record be reopened "to receive further any new evidence before the final decision," the FPC said. Prior hearings were held Dec. 12 to 19.

Reynosa is seeking authority to sell and deliver to gas industrial De Monterrey up to 60,000,000 cubic feet of natural gas daily for use by industries around Monterrey, Mexi-

The commission also announced t will hear on April 1 a further petition of United Gas Pipeline company for permission to continue sell-ing and exporting natural gas from Texas to Mexico, but at an increase in rates.

# Advance Sale of Season Tickets For 67 Home Games PAMPA OILERS Concentration of the second second

LGAME

# **Back This Drive**

It is necessary to sell 500 or more season tickets in advance for operating expenses. In this manner it will avoid asking any business firms for ANY donations and will put the club in good financial condition right from the beginning. Thanks!
