Cotton Crop Less Than Prediction

AUSTIN—(AP)—Significant decreases from the July prospective production of peanuts and cotton were noted yesterday in the United States department of agriculture's Sept. 1 report for August.

On the brighter side, somewhat larger crops of corn, rice, Irish potatoes and broomcorn appear in prospect.

Texas pastures declined sharply and were generally poor as drought conditions increased in intensity during August.

Continued dry weather in much of the commercial peanut area lowered crop prospects to 324,700,000 pounds, about 8 percent below the Aug. 1 forecast. Production in 1945 was 330,800,000 pounds.

Full range feed prospects are good except in the western counties where drought conditions continued. The USDA's range and livestock report for August stated:

Most calves and yearlings came

through the critical mid-summer drought in fair and good flesh, but some mature cows on heavily stocked ranges in the western two-thirds of the state were thin.

The drought had fed shortage forced liquidation only in the extremely dry areas in the northern Edwards plateau and some southern high plains countries.

Sheep and lambs were in fair to good flesh but should soon regain weight on the new range feed, said the USDA.

The reported conditions of sheep on Sept. 1 was 79 percent of normal, seven points below their condition a month earlier and the lowest recorded at this section since the drought year of 1934. The reported condition at that time was 64 percent of normal.

Days of '49 Come To Life Once More

CRESCENT CITY, Calif.—(AP)—The days of '49 have come alive here in a new stampede inspired by discovery of gold.

Citizens of this little community in the northwest corner of the state are rushing to the claims. Outsiders are beginning to pour in.

A persistent, gizzled prospector, Tom Cronin, 55, made the new gold strike this week. For 12 years he had been tramping into the rugged timber-clad mountains north of Crescent City. He brought out samples. Assayers found them worthless.

Cronin played a "hunch."

FOSTER PARENT PROGRAM HELPING REBUILD EUROPE'S WAR ORPHANS

Remnants of war-broken families, these four Dutch children typify the condition of food and housing.

orphans brought to foster parent families for rehabilitation. Dispar marks their faces, undernourished

By RAY SHERWOOD
NEA Staff Correspondent

NEW YORK, (REA)—Five minutes ago, the comfortable dining hall had been a peaceful, quiet, orderly room. Then pandemonium broke loose.

With less than a rocket bomb, 20 small children, all of them orphans from areas shattered by war, began screaming and sobbing hysterically. Tables and chairs overturned. Plates crashed on the floor.

The scene was Little Bardfield Hall, near Bristol, Essex, in England, where the uncontrollable outbreak had happened before, and will happen again. The children are not peevish or delinquent; they were born and reared in the terrible thunder and scream of war, and sometimes the impact of the new quiet that has come with peace is more than they can bear.

Impossible? Not at all. Psychologists' first strange things happened to the minds of these children. Such hysteria is out of the problems the child psychologists and social workers face in the delicate task of rebuilding the lives of thousands of these battered little remnants of war-torn families.

Many agencies, American and European, are contributing to their relief. But a sympathetic, personalized approach to the problem has been the goal of the American Foster Parent Plan for War Children in its work to rebuild Europe's homeless children, wails taken from concentration camps, found wandering in the mud, sitting bewildered in a bombed city.

10,000 SHELTERED

Stranded 10 years ago during the Spanish Civil War, the Foster Parent Plan has sheltered more than 10,000 children since then. It is financed by voluntary contributions and maintains 56 "colonies"—usually large old houses or castles in England, France, Belgium, Holland, Malta and Italy.

"Homeless and hungry children, shaken by the war, need more than food and clothing," says Mrs. Egan E. Egan, executive chairman. "They must be taught to be children again. They must be given back the sense of security that comes with a normal home life."

Here, the plan works: The "foster parent" who may be an individual or a school group or a club agrees to contribute money, personal interest and long-term affection to a child a year to help his "ward." There are no legal contracts and children cannot come to America to live with foster families.

It costs \$15 a month to "adopt" a child. This feeds, clothes houses and educates him. Renewing the child's sense of security in the world is done when he is told in detail as to how his American friend who has chosen him to help. The "foster parent" receives the child's picture and history.

Letters must be exchanged at least once a month through the executive offices in New York; birthday cards and occasional small gifts increase the bond between them. In nearly every case a marked improvement in the child's progress is noted when the letters start coming and he feels the "foster parent" really does care.

One French orphan adopted by a "foster parent" school was given honorary membership in classes and school activities, and letters about "studies, football games and parties" which he is "spiritually" a part of back and forth across the Atlantic.

The children's letters, usually accompanied by a floridly crayoned drawing of their colony, are poignant testimony of their eagerness for friendship. "The world isn't such a friendly place anymore," writes a French orphan. "My sister writes you and you write her. Would it be all right if I wrote you, too?" hints an English orphan. "May I call you Auntie Helen?" is another timid inquiry.

One English boy from London's East End, summing up war experiences, a wrecked home and separation from family and friends, concluded matter-of-factly that "thanks to the dreadful war, though, I now live in a house with a bath."

Reports from children to young "foster parents" are of social workers.

LONG WAITING LIST

To give the restless refugees a feeling of family life within the colony, they are divided into groups of three or four and a trained social worker is their "mother." The colony personnel is recruited from the social workers, teacher, doctors, and nurses of the country.

Native languages and customs, as well as practical training courses, are taught to prepare the young people to help in the rebuilding of their own countries.

What is the future of these youngsters? Some, as concentration camp records are clarified, will be reunited with their relatives; others will be placed in homes. Many will grow up in the colony. At present there are 2,000 children, ranging in age from a few months to 16 years, in the colonies. But Mrs. Egan points out grimly that these are the neediest, most desperate cases. There is still a waiting list of several thousand.

The electrical manufacturing industry covers about 170 subdivisions and more than 300,000 distinguishable products.

Years of insecurity no longer mark face of Shamus Thomas, who has been sheltered at foster colony in France since May, 1945. Her father was sent to Germany as a slave laborer, never returned.

He took a sample of blue-streaked yellow clay from a plateau at a 3,000-foot elevation about 18 miles north of Crescent City.

An assayer ran the tests, and told Cronin he apparently had found a rich vein. The samples, the assayer said, ran as high as \$75 a ton. Cronin and operators are regarded profitable on one assay as little as \$12 a ton.

Hugh Stennis Leaves For Medical School

Hugh J. Stennis, son of Judge and Mrs. S. P. Stennis, 416 North Semmesville, left Friday for Philadelphia, where he is a second-year student in the University of Pennsylvania Medical School.

Another son, Hampton J. Stennis, is attending George Washington University in Washington, D. C.

Deafened People May Now Hear Clearly

Science has now made it possible for the deafest to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy singing, music and friendly conversation.

Accepted by the Council on Physical Medicine of the American Medical Association. This device does not require separate battery pack, battery wire, case or attachment to large or weigh you down.

The tone is clear and powerful. So small that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Bellone, Dept. 3617, 1430 W. 19th St., Chicago 8, Ill., are so proud of their achievement that they gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. Write Bellone, today.

Darkness Shrouds U.S. Boats' Fate

MEXICO CITY—(AP)—The navy department said yesterday it had no information whether four U. S. fishing boats being held at Ciudad Del Carmen on the Gulf Coast for violation of Mexican territorial waters had been released.

A report radioed to the Associated Press yesterday morning from Merida, about 100 miles northeast of Carmen, said there was "no change in the situation."

The four fishing boats, the E. S. Martin, Pearl Harbor, Faith and Genevieve, were picked up Sunday about 40 miles west of Carmen by a coast-guard cutter and towed to port. Wednesday the navy department ordered "immediate release" of the boats but Friday said it was investigating why its orders had not been carried out by local authorities.

Reports from other sources said local officials were seeking to confiscate the shrimp catch valued at about \$37,000. Fishermen said the shrimp would bring between 30 and 35 cents a pound on the docks but would retail for about \$1 a pound.

De Gaulle Plans Political Return

PARIS—(AP)—Indications multiplied yesterday that Gen. De Gaulle is planning a return to the political arena during the coming weeks, which some observers believe may be critical for both France and Western Europe.

De Gaulle's return would be connected with the October referendum on the new constitution for the Fourth Republic, which the provisional legislature is writing.

It appears fairly certain that De Gaulle will be at the head of the opposition to the proposed charter, which differs little from the constitution rejected by referendum in May. It reserves most of the powers of government to one legislative house.

Caught in the middle of these maneuverings is President Georges Bidault's MRP party, which appears not yet decided whether to vote the constitution.

De Gaulle's friends say it is practically sure that in a Sept. 29 speech at Epinal he will urge the nation to reject the constitution—which means postponing the establishment of the Fourth Republic another six months. It is now six years since France has had a permanent form of government.

Rabbit Skin Exports Booming in Australia

AP Newsfeatures

SYDNEY—Rabbit skin exports, which have increased in value since 1939 from \$1,395,000 to \$20,560,000 a year, are now Australia's sixth most valuable product in the overseas market, Australian government statistics reveal.

Only exports of greater value in the year ended June 30, 1946, were wool, \$205,320,000; meat, \$39,120,000; flour, \$35,850,000; butter, \$32,600,000; wheat, \$20,750,000.

The United States, which uses the skins for felt hat manufacture, was the largest buyer, followed by Canada and the United Kingdom.

Big sheep farmers still class the rabbits, which eat out their pastures, as their worst pest, but smaller sheep farmers find them more profitable than sheep. Good rabbit trappers have been earning from \$163 to \$244 a week.

Former Refugee Sells Gasoline On Radio Show

By BOB THOMAS

HOLLYWOOD—(AP)—Victor Borge, who as a penniless refugee almost took a service station job six years ago, is now selling gasoline—but at a few thousand dollars a week on a big radio show.

The Danish comedian- pianist's career reads like an advertisement for the freedom of opportunity in America. For in six years he has risen from poverty to a position of distinction in the entertainment world.

Borge has been the highest paid performer in his native Denmark. It would have gone well for him except for one failing—he hated the Nazis. As early as 1934 he attended Hitlerite meetings and ridiculed the hate mongers. He was playing in Sweden when the Germans ratched into his native land, and a friendly police official sent a courier to warn him not to return.

The performer landed in New York with the ability to say only "yes," "no" and "what time is it," in English. His American wife translated his comedy-routines and Victor laboriously learned them in English. But producers seemed unwilling to take a chance on this fresh material. Why try anything new when "who's on first" type of comedy always pays off?

Desperate, the Borges came to the land of opportunity—California, that is. Still no luck. Unable to meet the rent on his one-room apartment, Victor was about to take a job filling tires and checking oil. Then his luck turned.

He was brought to the attention of Rudy Vallee. The vagabond lover had no spot ready but referred him to Bing Crosby. Borge went on the Crosby show for a one night performance and stayed 55 weeks.

The Borge home now has considerably more than one room and rests on an 18-acre ranch in the San Fernando Valley. He has a radio program with an odd billing designed to please everybody—the Victor Borge show starring Benny Goodman. Besides, he is a success whenever he wants to make records, night club or concert dates.

Pampa Girls Plan To Attend TSCW

From all indications Pampa will be well represented on the Texas State College for Women campus at Denton this fall. In attendance will be Beverly Candler, Quebell Nelson, Betty Jo Coffey, Eleanore Matheny, Joyce Pratt, Sybil Pierson, Phyllis Ann Parker, Joella Shelton, Gerry Carruth, Bonnie Nell McBer, Joan Paxson, Beth Bailey and Mary Wyatt. The girls are leaving for Denton this weekend.

How Would You Like to Live in the "Good Old Days"?

★ Back in grandfather's time, during the final quarter of the last century, things were quite different. There were no movies, no airplanes, no automobiles, few bathrooms, practically no efficient electrical appliances. If you contracted diabetes or pernicious anemia, your days were numbered. Your blood just "changed to sugar" in the former, "to water" in the latter.

There was little protection against virulent epidemics. Smallpox vaccine was the only biological on the market. When diphtheria or typhoid ravaged a community, there was nothing to do but wait it out in hope and dread.

Yes, a return to the "good old days" would mean, among other things, the sacrifice of the major portion of the contribution of medicine and pharmacy to your health and well-being.

Reydon Field Day Is Attended by Three Local Men

Three local men, Quentin Williams, Willis Price and Smiley Henderson, attended the second annual Roger Mills county range improvement field day, at Reydon, Okla., last Friday.

The program was sponsored by the Upper Washita Soil conservation district and consisted of two field trips for the purpose of observing results of grass planting work and various methods which have been used in controlling shinnery and sage brush.

Williams said that over 24,000 acres of abandoned or marginal cultivated land have been planted in pasture grasses in the past five years, under the supervision of the district organization. He said best

results have been secured where mixtures were used, which included some of the varieties of native grasses found originally on the different soil types, which were being retired from cultivation. Weeping lovegrass, which was introduced from South Africa a few years ago, has been used successfully in all of the medium and coarse textured soils in Roger Mills county.

Another interesting part of the program was the comparison of average gains of yearling white-face steers for a three year period. These gains were approximately 54 pounds per acre on the moved pasture; 45 pounds per acre on the untreated pasture and 48 pounds per acre on the pasture which had burned during the spring months in alternate years.

J. W. Hammett, assistant soil conservator, Fort Worth, presented slides and moving pictures which showed the damaging effect of raindrop action on the surface of unprotected soil. It was clearly shown that the agitating effect of the

Farmers and Stockmen Invited To Attend Annual 'Grass Tour'

Quentin Williams, head of the Soil Conservation department, with offices in the Court House today that farmers and stockmen from Pampa and vicinity have been invited to attend the annual "grass tour" of the Southern Great Plains Experiment station.

The tour will be held this year at Woodward, Okla., on October 5, according to Dave Savage, senior agronomist at the station.

This will be an all day program with discussion of grass breeding experiments, grass seed harvesting and planting methods, and other

raindrops on the soil surface was much more likely to cause severe erosion, than the mere passing of running water over the soil.

phases of the work. A morning tour where visitors will study land preparation and grass establishment on 15 reseeded pastures at the range unit will follow the discussion. The cattle used in grazing five of these areas will be available for inspection.

The usual barbecue luncheon will be served at noon at the experiment range north of Fort Supply. There will be a short speaking program at noon, followed by an afternoon tour of the 13,000 acre experimental range in order to study grazing experiments under varying conditions on both mowed and untreated pastures.

The Woodward station has conducted extensive experiments in mowing sage brush and in treating both sage brush and other brush species with both mechanical and chemical types of treatments.

Weeping lovegrass from South Af-

Brazil Plans Forming Of Coalition Cabinet

RIO DE JANEIRO — (AP) — Preparations were being made yesterday for the formation of a coalition cabinet for Brazil ratification of the new constitution, which is expected next Wednesday or Thursday. Present cabinet members will hand in their resignations to President

Erico Gaspar Dutra as a formality. Ratification of the constitution, replacing the charter drawn by former President Getulio Vargas in 1937, will formally restore Brazil to representative government after nine years of one-man rule. Vargas was ousted last October, but President Dutra has governed by decree since his inauguration Jan. 31 while the constitutional assembly wrote a new constitution.

U. S. Army Prisoners Arrive in New York

NEW YORK — (AP) — One hundred fifty-seven army prisoners including some who reportedly were life termers, arrived yesterday from Leghorn, Italy, and immediately were rushed away to undisclosed destinations. The prisoners arrived aboard the army transport J. W. McCandrew, which also brought 1,096 troops. A guard detail of 30 men armed with submachine guns, shotguns and carbines, was on hand when the boat docked.

Justice Department Wants Laws to Help Protect Citizens' Civil Rights

By BRACK CURRY
WASHINGTON—The Justice Department says new legislation is needed to strengthen Uncle Sam's hand in protecting your civil rights. This is the reason it gives:

If local officials fail to protect your civil rights, the federal government is powerless in most cases to intervene.

Suppose, for example, that you are the victim of a mob attack. The federal government cannot prosecute the mob under normal circumstances. To do so it must prove that an officer played a part in the mob action.

Suppose, again, that you are beaten or murdered by a police officer after being arrested on a false charge.

What Court Says
The Supreme Court has ruled that in such a case the federal government can prosecute only if the police officer at the time he committed the offense had the clear purpose of depriving you of a specific federal right.

This means a right made specific by statute.

BoB Clements

either by "the express terms of the Constitution or laws of the United States or the decisions interpreting them."

The Justice Department maintains that the federal government should have the power to act when local authorities fail to protect your civil rights. This means cases of mob attack, for instance, even when no police officer takes part in the attack.

Says Assistant Attorney General Lamar Caudle, head of the department's Criminal Division:

"New legislation is needed. The federal government now has little power or authority to deal with the social and government situations which give rise to civil rights problems."

Caudle gives this summary of the situation:

The United States Constitution did not mention civil rights. But the first Congress, fearing interference by the federal government with basic rights, passed and submitted to the states the first 10 amendments.

These now are known as the Bill of Rights. But the Bill of Rights did not afford protection to the individual against other individuals or the states. It was directed against oppressive acts by the federal government.

Other Amendments
After the Civil War the 13th, 14th and 15th amendments to the Constitution were adopted. The reason was that certain states would not or could not protect the liberties of all persons.

Five laws were passed providing penalties for state officers and individuals who violated the rights set out in these amendments. The rights included due process of law by the state. This means you cannot be deprived of life, liberty or property without a fair trial.

Congress later repeated most of these civil rights laws. Two sections are left. They constitute the sole authority under which the Justice Department can act in the civil rights field.

They deal with conspiring to harm citizens in the exercise of federally secured rights (section 51) and with depriving persons of civil rights under "color" of law (section 52).

Section 51 does not protect you against mobs. It affords protection only against officials—that is, federal or state—abuse. Yet most civil rights complaints are against an act of some persons against another person, or of a group of persons (like a mob) against one person.

Section 52 does protect you against

Brahma bull flies from Prison Rodeo chute as rider hopes for three-point landing on solo flight. The outlaw riders say these rodeo bulls are much rougher than the "harness-bull" variety—and who should know better than they!

Ladylike

Throughout history, the white glove, or kid glove has been a mark of elegance. There's nothing smarter for all seasons wear, and American-made white gloves, both short and long, are seen with every type of costume. Above, a simple navy blue faille suit is dressed up with elbow length, white gloves, a two-strand pearl necklace and white flowered hat.

The standard anti-lynching bills of the past have been aimed at state officials rather than at members of mobs, says the section. They would make state officials criminally responsible for failing to take necessary measures to protect an individual from a mob, to act to ascertain the identity of mob members and to prosecute mob members.

The recent lynching of four Negroes near Monroe, Ga., by 20-odd white men spotlighted the problem of civil rights. FBI agents are investigating the lynching, but they can't make arrests unless they find that some Georgia official conspired with the lynch mob to kill the Negroes.

This and comparable cases prompted Attorney General Clark to say in a speech at Cambridge, O., that federal action to protect

civil rights "hangs upon a very thin thread of law."

"It is like trying to fight a modern atomic war with a Civil War musket," he said.

Members of the American delegation had "nothing to say" last night in response to President Truman's statement, Connally and Vandenberg, after reading the statement, declined to comment.

Vandenberg said in his statement that Americans who deserted the "United American Front" on foreign policy jeopardized the twin goals of organized peace and collective security. He called for continuation of a bi-partisan policy "which is neither hostile nor subservient to any other power on earth."

A delegation spokesman declined to say whether this statement had Byrnes' endorsement, adding it was "the senator's own."

No comment was forthcoming from Byrnes himself, but it was learned he had not been consulted in advance on Wallace's Thursday speech in New York in which the secretary of commerce denounced any "get tough with Russia" policy and demanded American abstention from close cooperation with "imperialist" Britain.

Rides for Amputee Vets

First to benefit under the government's \$30,000,000 program to furnish new autos to amputee veterans is Richard A. Tenelly, ex-Marine combat correspondent. A former Washington, D. C. newspaperman, Tenelly was a radio network correspondent in Tokyo when the war began. Japs took him prisoner but later he was returned to the U. S. in an exchange. Anxious to get into the Pacific fight he enlisted in the Marines as quickly as possible. Two Jima battle wounds eventually resulted in loss of his left leg. Above, he receives his new car at Washington from William Krebs of Silver Spring, Md.

Flash! People Are Honest!

Cynics get a setback in the experience of Lewis A. Drury of St. Louis, Mo., who, in three years of operating two "honor system" parking lots, is convinced that 95 per cent of his fellow-citizens are honest. To pay for parking, drivers just put the money in an envelope and drop it in a receptacle, as demonstrated above by Louis A. Zimmerman.

Officials Report Two Types of Pasteurized Milk Are Sold Here

Two types of pasteurized milk are being sold in Pampa at the present time according to Ray Salmon, city health inspector, and E. J. Howard, county health inspector. One of these types known as "Under grade," was authorized for sale as an emergency measure to supplement the Grade "A" milk supply, said Salmon.

Grade "A" milk is produced under strict supervision and must meet the requirements of United States Public Health Standard Ordinance and Code, a part of which is given as follows:

1. All herds must be tested and declared free of contagious disease (which is transmitted to humans as undulant fever), and tuberculosis.
2. Dairy barns and milk rooms must be properly constructed providing proper lighting, ventilation, floors, walls, ceiling, etc.
3. Cleanliness of all equipment, utensils, premises and personnel.
4. Approved water and sewage facilities must be provided and maintained.
5. Milk must be cooled to a temperature of 50 degrees F. or less, and maintained at that temperature until delivery to the pasteurization plant.
6. All vehicles used for transportation of milk must be constructed so as to protect their contents from contamination.
7. Bacterial count upon delivery at plant must not exceed 200,000 per CC.

The requirements for under grade milk is merely that a man must own a cow or cows, and that the milk be produced in a "so called" sanitary manner. The opinion of the health authorities is that it is impossible to produce milk in a sanitary method without meeting at least a few Grade "A" requirements.

The milk when bottled at the pasteurization plant is labeled either Grade "A" Pasteurized or Whole Milk Pasteurized. If your bottle does not have a Grade "A" plainly printed on the hood or cap, you are receiving under grade milk. The consumer pays same price for each type.

Solon Advisers

(Continued From Page 1)
ests, and has sought a stable and just peace.

"It has been generally understood that at no time has there been any disagreement with President Truman's policy.

"There is no place in our international relations either for partisan politics or for intraparty division or personal ambitions.

"While we are striving desperately for peace in the world there should be no controversy or bickering or strife at home."

The American policy outlined by Byrnes has been to support Britain on most of the issues that have arisen here. This had led to American-Soviet clashes, and thus the impression that the President had endorsed a diametrically opposed policy had struck the delegation like a thunderbolt.

Byrnes himself has not communicated as yet with either the President or undersecretary of state Will Clayton, a delegation spokesman said.

Members of the American delegation had "nothing to say" last night in response to President Truman's statement, Connally and Vandenberg, after reading the statement, declined to comment.

Vandenberg said in his statement that Americans who deserted the "United American Front" on foreign policy jeopardized the twin goals of organized peace and collective security. He called for continuation of a bi-partisan policy "which is neither hostile nor subservient to any other power on earth."

A delegation spokesman declined to say whether this statement had Byrnes' endorsement, adding it was "the senator's own."

No comment was forthcoming from Byrnes himself, but it was learned he had not been consulted in advance on Wallace's Thursday speech in New York in which the secretary of commerce denounced any "get tough with Russia" policy and demanded American abstention from close cooperation with "imperialist" Britain.

Truman

(Continued From Page 1)
Wallace speech as a departure from the Byrnes policy?"

The President said he did not "—toward Russia?" the questioner persisted.

The chief executive answered that he considered the speech and policy exactly in line.

Yesterday's statement was issued after Mr. Truman had conferred with Undersecretary of State Will Clayton, the directing head of the state department in the absence of Byrnes. Clayton subsequently had no comment on it but presumably concurred in the President's handling of the matter since he had been fully consulted on it.

Man Is Sentenced in District Court

Claude Neal Barker entered a plea of guilty to charges of unlawful transportation of cigarettes and was sentenced to 60 days in jail by District Judge W. R. Ewing, this morning.

Barker was released due to the fact that he had been in the county jail 62 days awaiting his trial. The court ruling stipulated that time served awaiting trial be credited to his sentence.

The safest distance to follow a car is one car-length for every 10 miles of speed.

Maritime

(Continued From Page 1)
of the AFL sailors union of the Pacific and the SIU, said as the AFL groups ended their strike Friday night that SUP-SIU men would honor the CIO lines.

In Washington, government officials said they were informed that the CIO unions were asking for the same wage scales granted AFL men, but final settlement was delayed by an attempt to Vincent J. Malone of the West Coast firemen's union (independent) to reduce the spread between East and West coast scales.

The firemen's union is associated with six CIO unions in the committee for maritime unity.

Termination of the AFL walkout resulted from economic stabilizer John R. Steelman's order amending wage stabilization board regulations, permitting government agencies to pay the same wage scale as private operators.

The move permitted raising the \$17.50 monthly increase approved for AFL seamen by the WSB to \$22.50 for West Coast AFL mariners and \$27.50 for East Coast AFL workers.

The higher figures had been agreed upon by the AFL and ship owners some time ago but was turned down by the WSB, precipitating the strike.

The NMU, which had won a \$17.50 wage boost, struck yesterday to back up demands for "parity" with the AFL mariners. The CIO maritime cooks and stewards and the marine firemen, oilers, wipers and water-tenders, an independent organization, joined the walkout.

Heat all acid fruits and foods in a porcelain enameled utensil to insure their keeping a delicate flavor, and also to prevent any loss of color. Non-absorbent porcelain enameled kitchen ware assures complete freedom from any previous food tastes seeping into the acid fruits.

Mrs. Mary Ford, 89, Dies Here Saturday

Mrs. Mary Ford, 89, who lived at the home of her daughter, Mrs. Rena Wedge 2116 Alcock street, died yesterday afternoon.

She was born in Kentucky in December, 1856, but had been in Texas for the past 60 years. She had lived here for one year.

Funeral services will be conducted from the Lefors Methodist church Monday afternoon at two o'clock with the Rev. N. S. Daniel, pastor officiating. Burial will be in Hillcrest cemetery in McLean under the direction of the Womack funeral home of McLean.

Survivors are three daughters, Mrs. Wedge, Mrs. Minnie Robertson, California, and Mrs. Ruby Combs, Lefors, and two sons, Emmett of Sileam Springs, Ark., and J. W. Lawton, Okla.

The body will lie in state at the Womack funeral home until time for the funeral.

The average family pays the doctor \$75 annually.

GILBERT'S "Progressing With Pampa"

A RESOLUTION PROVIDING FOR PUBLICATION OF NOTICE OF INTENTION TO THE CITY OF PAMPA TO ADOPT AN ORDINANCE CALLING AN ELECTION FOR THE SUBMISSION OF PROPOSED CHARTER AMENDMENTS.

BE IT RESOLVED by the City Commission of the City of Pampa, Gray County, Texas, that the qualified voters of the said City of Pampa be and they are hereby notified that a petition has been presented to the said City Commission...

Shall Section 1 of Article VII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 1. MUNICIPAL GOVERNMENT: The municipal government of the City of Pampa shall be composed of a Mayor and four (4) Commissioners."

Shall Section 2 of Article VII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 2. TERM OF OFFICE: The Mayor and each commissioner shall serve for a term of two (2) years, and until his successor is elected and qualified, unless sooner removed from office as herein provided."

Shall Section 3 of Article VII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 3. ELECTIONS: The elective officers of the city shall consist of a Mayor and four (4) Commissioners. The Mayor shall be elected to office by a majority of the qualified voters of the city at large, and each Commissioner shall be elected to the office of Commissioner by the qualified voters of the Ward in which he resides and the qualified voters of the ward in which he resides shall consist of four (4) Election Wards, and the said city is hereby divided into four (4) Election Wards, being numbered Wards 1, 2, 3 and 4, and being described and bounded as follows, to-wit:

WARD NO. 1 shall be that portion of the City of Pampa lying north of Foster Avenue and Rhoad Street and west of Cuyler Street and Mary Ellen Street.

WARD NO. 2 shall be that portion of the City of Pampa lying north of Foster Avenue and east of Cuyler Street and Mary Ellen Street.

WARD NO. 3 shall be that portion of the City of Pampa lying south of Foster Avenue and east of South Cuyler Street and east of that section of the intersection of South Cuyler Street and Barnes Street.

WARD NO. 4 shall be that portion of the City of Pampa lying south of Foster Avenue and Rhoad Street and west of South Cuyler Street and west of that section of Barnes Street which lies south of the intersection of South Cuyler Street and Barnes Street.

and the Commission shall be, the Judge of the election and qualifications of its members."

Shall Section 11 of Article VII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 11. MAYOR PROTEMPORE: In the event of the absence or disqualification of the Mayor, the Commissioners present shall select one of their number to serve as Mayor Protempore."

Shall Section 14 of Article VII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 14. LEGISLATIVE PROCEDURE: Any three (3) members of the Commission shall constitute a quorum for the transaction of any business, and the affirmative vote of three (3) members of the Commission shall be sufficient and necessary to adopt or repeal any ordinance or resolution. The vote upon the passage or repeal of any ordinance or resolution shall be taken by "yea" and "nay" and entered upon the journal. All members of the Commission shall vote upon every question, order, ordinance or resolution, provided that not more than one member of the Commission may be excused from voting by a vote of the other three members, which shall be entered upon the journal. Any Commissioner refusing to vote unless so excused shall be entered on the journal as voting in the affirmative.

Every ordinance or resolution passed by the Commission shall be signed by the Mayor and attested by the person acting as City Secretary, and the seal of the City Impressed thereon within two (2) days after its passage."

Shall Section 6 of Article VIII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 6. ELECTION OF MAYOR AND COMMISSIONERS: If such amendments shall be adopted, then it shall be the duty of the City Council, within ten (10) days after such election for the adoption of the amendments shall have been held, to call an election for the election of a Mayor and four (4) Commissioners, which election shall be held under the direction of the City Commission, according to the laws of the State of Texas regulating municipal elections. And all provisions of this Charter in conflict herewith are hereby expressly repealed."

Shall Section 7 of Article VIII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 7. Within five (5) days after the election of the Mayor and all the Commissioners, they shall each take the oath of office and qualify as such Mayor and Commissioners, and shall hold their respective offices until the first Tuesday in April, 1947 and until their successors are elected and qualified, unless sooner removed under the provisions of this charter. And all provisions of this Charter in conflict herewith are hereby expressly repealed."

AND BE IT FURTHER RESOLVED that this resolution be and the same shall constitute notice of the intention of the City Commission as required under Article 1171 of the Revised Civil Statutes of Texas, and this resolution shall be published in The Pampa News, the official publication of the City of Pampa, the same being a newspaper published in the said city, and such publications shall continue for ten (10) days, the first publication to be at least twenty (20) days before the said ordinance shall be passed.

W. J. Ernest Hood, City Secretary.

Sept. 10 through 20.

L. M. "Buddy" Batten, divisional superintendent for the Cities Service Gas company has announced his resignation from that company, effective October 1.

Gray County Well Tests 134 Barrels

Nine oil wells were tested by the oil and gas division of the Texas Railroad commission last week. There were five tests made in Carson county. They were: Gulf Oil Corp., No. 4, B, F, Block, tested 29 barrels in a 24 hour test.

Panhandle Field Produces 85,000 Barrels of Oil

NEW YORK—(AP)—Gasoline production in the week ended Sept. 7, was estimated yesterday by the American petroleum institute at 15,263,000 barrels, an increase of 249,000 barrels over the previous week's 15,014,000 barrels.

If your baby is fussy about his food, here's a hint to help cure him of balking at mealtime. Prepare his food in non-absorbent porcelain enameled pans, and offer his meal to him from porcelain-on-steel plates and cups. There is no danger of any metallic taste seeping into the food when it is prepared in or served on porcelain enameled ware, and the gleaming finish of this type of ware insures the utmost in sanitation.

Month Allowable 2,064,032 Barrels

AUSTIN—(AP)—The railroad commission yesterday set permissive Texas crude oil production for October at 2,064,032 barrels daily.

Branca Limits Cardinals to Three Hits as Bums Win

Harvesters

Wilson Scores Twice; Locals Show Good Blocking, Tackling

Showing far better form in their practice sessions had indicated, the Pampa Harvesters stormed to a 19-6 victory over the Electra Tigers here Friday night in the curtain-raiser of the 1946 schoolboy grid campaign.

Smooth ball-handling and better-than-average blocking marked the victory as two pint-sized backs, Charlie Laffoon and Jim Wilson, ate up the yards on the slippery turf.

Duck Bag Limit Reduced to 10, 20 in Possession

Panhandle hunters will be interested in the announcement that the daily bag limit for ducks has been reduced from 10 per day and 20 in possession, to seven a day and 14 in possession.

The season this year will extend from Nov. 23 to Jan. 6.

Besides bag limit for ducks, other changes have been made in the rules. The daily bag and possession limits for geese have been reduced to two of any kind in any combination, including brant, plus two snow geese or two blue geese, singly or in the aggregate. The length of the shooting day for water fowl has been shortened by one-half hour in the afternoon. This year it will run from one-half hour before sunrise to one-half hour before sunset.

The interior department this past week told Texas hunters that Texas could not be divided into two hunting zones — one for the north and one for the south. Secretary Krug gave as the reason the prevention of further cuts into the breeding stocks of waterfowl. Continental waterfowl population in the past two years, the department head said, has reached "the dangerous level of 80 million birds," this figure noted as a 36 percent decline from the peak inventory figure of 124,350,000 in 1944. During that same period the number of hunters increased by 50 percent, it was said.

The request had been made because Texas hunters on Lake Texoma — which lies in Texas and Oklahoma — had to wait almost a month longer than the Oklahoma season to begin shooting. The Oklahoma season opens on Oct. 26.

Louis Expected To Cave Roof In

NEW YORK—(AP)—The Yankee stadium's leading hitter, Bomber Joe Louis, goes to bat again Wednesday night, and although Bomber Joe never cracks a Louisville slugger up there to the plate with him, he is expected to cave the roof in about as usual.

In June, he turned the lights out for Billy Conn in eight rounds. This Wednesday, he has Matt Mauler, a somewhat round individual who runs a bar in the Bronx (Adv.) and whose chief asset in being Joe's battery mate appears to be in the fact he'll have nine seasons of youth on the Bomber—23 years to 32—which isn't much to go on, of course, when you meet up with one of Joe's Sunday suits.

This will be Louis' 21st defense of the world heavyweight championship he jolted from game old Jim Braddock back in 1935.

The general opinion is that Joe will not keep Tamil waiting long before he makes him the Bronx birdie. This corner figures the serenade will come inside of three rounds. The bookmaking wise-guys make Louis a cinch at odds up to 1 to 12.

Tamil is the kind of a young fellow who comes winging in, heaving wild wallops from various sections of the premises. Because of a deformed right heel, suffered when he fell from a window as a youngster, he is unable to retreat, and has only a forward gear in his works.

Promoter "Uncle Mike" Jacobs wouldn't be surprised if some 30,000 to 40,000 cash customers show up and chip in to a pot of \$300,000.

Assault Loses In Jersey Race

CAMDEN, N. J.—(AP)—For the second time within the span of a week, Mahout, belonging to Mrs. Walter M. Jeffords, of nearby Philadelphia, beat King ranch's highly esteemed triple crown winner, Assult, in the \$25,000 added Jersey handicap, closing day feature of the highly successful summer season at Garden State park.

Last Saturday at Aqueduct Assult had finished third in the Discovery handicap won by Mighty Story and in which Mahout finished second. Mighty Story ran in the Jersey handicap Friday and finished fourth.

It was Assult's third straight defeat. He had been beaten by the Duke in the Arlington classic. The Duke brought up the rear in today's stake.

Assult did not lose much prestige today because he took up 126 pounds, conceding 12 pounds to Mahout and was beaten just a half length.

Third honors went to Mrs. E. H. Augustus' Blue Yonder, beaten four lengths by Assult, and the Son of Ariel was 1 1/2 lengths ahead of Mighty Story.

Mahout ran the one mile and a furlong in 1:59 1/5, a new time record for the stake. Mahout earned \$24,200. He was slightly neglected by the greater number of 29,916 closing day fans present and paid \$17.

The total mutuel handle was \$2,512,000.

Antelope range the open prairie almost exclusively, being unlike other big game species in this respect.

Electra in Grid Opener 19-6

Oilers Defeat Gold Sox 8 to 5

Riley, Seitz Hit Homers as Locals Take Third Game

AMARILLO.—(Special)—Pounding Frank Mekules for 17 hits, Pampa's Oilers took the third game of their playoff series with the Amarillo Gold Sox here Friday night, 8-5.

Every Oiler batter hit safely with Second Baseman R. C. Otey collecting four singles in five trips as Righthander Joe Isaacs limited the Sox to eight hits, although he had to help from Lefty Bill Garland in the last of the ninth.

Manager Grover Seitz was the big show of the game as he collected three runs across the plate. Seitz, play in left field was nothing short of sensational. His catch of a hard line drive off the bat of Harry Lamprich ended the game.

Fatma drew first blood in the second in the second inning when Virgil Richardson doubled, Joe Fortin and Seitz grounded out and Ross grounded out. Richardson's grounder to Seitz, Richardson scored.

The Soxkers tied it up in the last half of the second when Crues hit a ground ball to Range and the latter made a wild throw to first with Crues going to second. After Seitz fouled out, Ross hit a screaming line drive that seemed destined to go over the left field fence but Seitz leaped high in the air and brought it down, with Crues going to third after the catch and scoring on Lamprich's single.

The Oilers struck twice in the third when Otey singled and went all the way to third on Crues' fly to first. Richardson grounded out and Range singled to score Otey. Riley singled to score Riley. Richardson grounded out and Fortin singled to score Riley.

Riley's homer over the left center field fence gave the Oilers a 5-1 lead in the fifth but the Sox came back to make it 5-3 in the last of the fifth when Scopetone walked and Bauman homered over the right field wall, all after two were out. Crues then doubled but Seitz struck out.

The Oilers added another run in the seventh when Riley walked, Richardson sacrificed, Fortin filed out and Seitz singled to score Riley. Fortin grounded out and Seitz homered over the center field fence. Scopetone walked but was out at the plate trying to score on Isaacs' double. Otey then singled to score Isaacs.

Bauman walked to lead off the ninth for Amarillo and scored when Crues hit a homer over the left field fence. Garland relieved Isaacs and struck out Seitz. Lamprich was out on a line drive to Seitz.

The two teams were scheduled to play here again last night and will again today at three o'clock. Amarillo if the game is needed. Pampa was trying for the second fourth win last night.

Scott's Scrap Book

By SCOTT RAFFERTY

Al Schacht, clown prince of baseball, has a competitor in Pampa's own Grover Seitz successful manager of the Pampa Oilers, but, with the exception of a few arguments with umpires, Grover has never performed before local partisans.

He did, however, put on quite a show for the Amarillo fans Friday night and we were certainly sorry we missed it, but we've found out a few of the particulars.

The story goes that Grover was a little unhappy about a remark made by P. J. Powell, sports writer on the Amarillo Daily News to the effect that Grover should be playing softball instead of baseball.

We can't see any basis for P. J.'s remark, but Grover decided he would just live up to his "reputation" Friday night in a little ceremonial game in the Pampa-Amarillo playoff battle.

It seems that Grover walked out to a point halfway between the pitcher's mound and home plate and began throwing warm-up pitches with a softball to Al Zigelman, Oiler catcher. Like a typical softball player, Grover had the bill of his cap tucked up and his glove stuck in his belt.

After throwing underhanded several times, Grover autographed the catcher's mitt and handed it to a fan who promised to give it to P. J.

Then, in a rebuttal as hot as a district attorney's speech, Grover gets in the game—baseball, that is—and knocks a home run over the center field fence with one man on and singles in another tally, playing a sensational game in left field between times at bat.

Maybe P. J. should take a vacation from sports writing and try playing a little softball for a change. He might do as well.

Speaking of Amarillo, the Sandies open their football season here Friday night against the Childress Bobcats who made the mistake of agreeing to coming to Amarillo every year. Childress edged the Class A Shamrock Irish 14-7 last Friday night, although the Sandies will beat the Bobcats. Should be quite a comparison.

Borger's Bulldogs witnessed the Pampa-Electra game here Friday night. Borger is slated to have one of the best teams in its history this year. We wish them a lot of luck—because they're going to need it here October 18.

Randall Clay, Harvesters great of 1944 and 1945, is in town for a few days. Clay is going out for football at Texas university and we figure by the time he's through he will have made a deep impression on several Southwest conference goal lines.

Oklahoma university, which couldn't find room for Tulsa on its football schedule after the Hurricanes left, will play Army next week in its opening game. Those Sooners just don't know when they're well off.

Chesty Walker is slated to have another line team at Phillips this year. The Blackhaws beat Brownfield Friday and are top-heavy favorites to cop the District 3-A pennant.

Five Southwest Elevens Will Open Grid Season This Week

(By The Associated Press)

Five Southwest conference coaches' retros looked for big game will fire the opening rounds of the Southwest conference football season next Saturday.

Two teams predicted to be in the top bracket of the conference race, Southern Methodist university and Rice institute, will be idle.

Most conference coaches predicted the best brand of football since Pearl Harbor.

Coach Matty Bell of the SMU Mustangs, however, takes a darker view of the situation.

"It's most certain," Bell explained in predicting that conference football will reach its peak in 1947 and 1948, "that we coaches are going to make a lot of mistakes this fall. The reason is the usually large squads of candidates, many of them new to us. I look for a lot of juggling of lineups during the season. Only then will be able to learn all our men and to realize all their potentials."

The schedule for Saturday pits Texas Christian university against Kansas university at Kansas City, Mo. Baylor against Southwestern at Waco, Arkansas and Northwestern against Texas Tech at Poyetteville, the University of Texas and the University of Missouri at Austin and Texas A. and M. against North Texas State College at Denton.

The T. C. U. and Baylor games will be at night.

The Texas Aggies will go up against a team whose coach who has a record of 165 wins, 46 losses and 8 ties when they meet Odus Mitchell's North Texas State team. Mitchell amassed his outstanding record while coaching two Texas high schools, Marshall and Pampa. It is his 22nd year of coaching but the first with the Aggies.

The Aggies' with a great forward wall again, will have a strong passing game this year which they didn't have last year. The College Station aggregation has 36 returning lettermen.

Baylor, meeting Southwestern University of Georgetown, can point to the best squads in history, although not as flush with veterans as some other conference teams. The Bears are expected to have speed and explosive scoring punch. Rack are a dozen pre-war lettermen.

T. C. U. like Baylor, did not get many experienced men back from the services. But with 100 huskies working out, Coach Dutch Meyer expects to come up with a team which will give the conference plenty of trouble. The Frogs suffered a blow to the mid-section last Friday when Billy Hale, first string center, was held ineligible until late October 24.

The University of Texas will meet Missouri twice in one year. The Longhorns took a wild, 40-27, game from the Tigers last January in the Cotton Bowl, but that game will not have much bearing on Saturday's tussle. For expected to start Saturday are only four of the men who started in January, although the other seven will be around.

All-America Hub Bechtel, who shunted between Texas Tech and the Austin school early in the season, and Bobby Layne, whose draft invitation has been delayed until at least Nov. 1, are among the January starters expected to open the Saturday hostilities.

Ted Bishop Wins National Meet

SPRINGFIELD, N. J.—(AP)—Sixteen-year-old Ted Bishop, a lanky oil salesman of Dedham, Mass., won the National Amateur golf championship at Baltusrol today when Smiley Quick, the Public Links king from Inglewood, Calif., missed a three-foot putt on the 37th green.

While a gallery estimated at 6,000 held its collective breath, the squat little man from the coast stroked the biggest putt of his life, and saw it go inside the rim of the cup and come out and roll to rest inches away.

Bishop won the hole and the championship with a birdie four, the third time in the course of today's grueling play-off that he had shot Baltusrol's 418-yard first hole in four. Just before Quick missed the putt that decided the title, Bishop had curled the winner in, from four feet.

During every Spanish bullfight, six bulls and about 25 horses are either wounded mortally or killed outright in the ring.

Greenberg Puts on One-Man Show as Tigers Beat Yanks

Pirates Strike In Third to Win From White Deer

BROOKLYN—(AP)—Leo Durocher got away with one of the most colossal gambles in recent years yesterday when Ralph Branca, an obscure bull pen tosser shut out the St. Louis Cardinals 5-0, to reduce the Redbirds' first place margin over Brooklyn to one half-game, or one skinny percentage point.

Durocher had told reporters he was going to use Branca to pitch to one hitter and then shift to Lefty Vic Lombardi after Eddie Dyer of the Cards had committed himself to a surplus of left handed hitters in his batting order.

But Branca got the first man out on the first throw, retired the second on another filing and had the Cards out on six losses.

That changed the Durocher strategy plan and Branca was left to shut the door in the faces of the wounded birds.

The dark-haired Mt. Vernon, N. Y. native, never gave the birds a chance striking out nine men and walking only two. He allowed only three men to advance as far as second base and retired 12 men in succession from the fifth, when he was in his only jam, until the ninth when Stan Musial singled with two out.

Cookie Lavaretto actually won the game for the Bums with his second inning homer that bounced off the railing of the upper left field stands.

Branca, who set the hitting pace with two singles and two runs, opened the third inning with a smash off Red Schoendienst's glove. After Ed Stanky had lined to left, Pec Wee Reese dropped a single into left field that Dick Sisler barely reached after a hard run, but couldn't hold. Dixie Walker struck a vital blow at St. Louis hopes with a two-run double to the far right center field corner.

PHILADELPHIA—(AP)—The Philadelphia Phils rapped three Chicago pitchers for 16 hits to take a 6 to 3 victory over the Cubs yesterday before an estimated 12,000. Johnny Wrostek of the Phils had two doubles and a single.

NEW YORK—(AP)—Tall, skinny Ewell Blackwell hung up his sixth shutout of the season yesterday when he pitched the Cincinnati Reds to a 4-0 victory over the New York Giants.

131 Students Enroll In Lefors High School

LEFORS.—(Special)—J. D. Fonberg, principal of Lefors high school, stated yesterday that Lefors High school has 131 students enrolled this year. That number is only five more than last year. The attendance is expected to build up during the year, however, Fonberg said.

According to Fonberg, there are 20 seniors, 33 juniors, 24 sophomores, and 44 freshmen this year.

Do not wet asparagus tips until ready to cook. Do not boil long as asparagus may become starchy and "woody" with age.

Wine and Beer License Denied Local Dealer

Jack Kellam was refused a wine and beer retail license for his establishment called Jack's Place, 1390 South Barnes, by County Judge Bruce Parker, county attorney, disclosed Saturday.

At the hearing Bill Money, liquor control agent and Dan Lowe, district liquor control agent, contested the granting of this license, and introduced records showing that Kellam has had two previous licenses cancelled, Parker stated.

Chinese fortune-tellers read the lines on the soles of the feet as well as the markings on the hands.

Telephone Union Threatens Strike

HOUSTON—Threats of a telephone employes work stoppage here within the next few days loomed today over the promotion of two employes, which the Southwest Telephone Workers Union States was in violation of the seniority clause of the contract.

J. B. Patterson, division commercial superintendent, said that negotiations are now going on in St. Louis, head of the Southwestern division, over the promotions. He said the negotiation is on an appeal from the local office and the Dallas office.

He stated that the union contract provides that seniority shall be considered provided that qualifications and other conditions are equal. He said the company felt that the conditions of the contract were met in promoting the two employes.

Mrs. Jewell Whitley, vice president of the union for the Southeast Texas district, said there were three employes with greater seniority each of whom was qualified.

Texas Students Win Art Recognition

AUSTIN—William Lester and Everett Spruce, University of Texas art department staff members, won honorable mention for oil paintings displayed at the 52nd annual exhibition of Denver Art Museum.

Mr. Lester, instructor in art, was commended for his oil painting titled "Midnight Snack." Mr. Spruce, assistant professor, received recognition for his oil painting, "Negro Fisherman."

The Denver museum's show, held in July and August, was a competitive exhibition of contemporary paintings, prints, drawings, sculpture, and ceramics by artists living west of the Mississippi.

Until through the United Nations the world has progressed to the point where peace can be maintained as an international cooperative action by all peace-loving people, we must maintain our capability of carrying out the national will for peace, able to resist any enemy that threatens that peace.

—Secretary of War Patterson.

Politics, Labor Set Up N.Y. State As '48 Campaign Testing Ground

By S. BURTON HEATH
NEA Staff Correspondent

NEW YORK (NEA) — The two major political parties and organized labor have set up New York state as a testing ground for the 1948 presidential campaign.

The state's size and its 47 electoral votes make this natural. So does its racial, social and industrial cosmopolitanism, and the prestige that traditionally goes with its major political jobs. Two added reasons make it inevitable this year:

1. Because Governor Dewey, seeking re-election, is one of the relatively few men from whom the GOP will select a presidential candidate two years hence.

If he loses the governorship he will cease to be an important factor. If he wins by a narrow margin, or shows inability to hold his party tightly together, his position will be weakened. If he can produce a big, healthy majority, he will be sitting pretty for the nomination.

The democrats would like to destroy him completely. If they can't do that, they want to lay the lines for the 1948 campaign against his election to the presidency.

2. Because the democrats want to find out whether new dealism will be good for the election of at least one president.

If so, their national course during the coming two years can be one of devoted adherence to every job in the new deal line. If not, they can begin seeking some formula for pointing a new deal line.

Mrs. Eleanor Roosevelt, with pride in the past 14 years while shifting to a new line for the future.

This decision to try out the remaining appeal of new dealism was emphasized by the appearance of Mrs. Eleanor Roosevelt as keynote for the state convention, by the tenor of her speech, by the content of the platform, and by the tone of the acceptance speeches of gubernatorial candidate Senator James M. Mead and senatorial candidate former Governor Herbert H. Lehman.

It was confirmed by the selection of those two men to head the ticket, because both have been unswerving apostles of the late President Roosevelt and of everything for which he stood, throughout their high political careers. And

both made it clear, in words, that they have not changed in that respect.

So the democratic campaign has been outlined as one for preservation and expansion of everything achieved or sought by Roosevelt, plus every effort to brand Governor Dewey as a reactionary; as one who is unfriendly to organized labor and the common man and cool if not actually hostile to war veterans; as a planner without vision and a below-par administrator — in brief, as a poor governor and an impossible presidential candidate.

The republican campaign, on the other hand, has been aimed toward proving that in spite of inefficiency on the part of Washington, Governor Dewey has done a remarkable job at post-war planning; that he has provided uniquely excellent facilities for the training, housing and employment of veterans; that he has administered the state in a highly superior manner; and that he is sympathetic to every legitimate aim of organized labor.

The nomination of Assemblyman Irving Ives, dean of the State School of Industrial and Labor Relations, apparently is designed to emphasize this last claim. For many years Ives has been liberal, imaginative legislator. His vote-getting appeal is questioned by many, but he is the GOP admired and re-line for labor, respected by the AFL and other right wing labor groups, and there are some who wonder whether Dewey's selection of Ives over the more colorful Major-General William J. Donovan, who is an expert in international affairs, portends support of the GOP ticket by the AFL or at worst, its agreement not to support the Democratic slate.

This would be the more possible because the left-wing CIO-dominated American Labor party and the two political action committees are going all out for the democrats and it is felt that the AFL would like to knock down these elements

Organization Predicts Substantial Income Tax Reductions in 1947

Prospects Improve for Tax Cuts

In 1947

Rise of this year's national income to an all-time high of \$165,000,000,000 materially increases the probability of substantial income tax cuts in 1947, according to an analysis just released by U. S. Business Organizations. The political considerations may postpone the happy day when tax bills will be lower, it is pointed out.

Before war's end, most official and unofficial sources pessimistically forecast a drop in post-war income to around \$120,000,000,000. Present tax rates are based on about that figure, which, it was estimated last January, would produce \$31,500,000,000 revenue. However, projections have so greatly exceeded anticipations that President Truman last month upped his revenue forecast to \$39,600,000,000. It now appears likely that another billion or more may flow into the treasury before the year's end.

High national income of 1945 produced \$43,800,000,000 of tax revenue. Fiscal 1946, which started after the Nazis were licked and only six weeks before the Japs quit, set \$40,672,000,000 of tax collections into the treasury—nearly a dollar a day a piece for every man, woman and school-age child in the country.

Two schools of thought on tax revision will be represented when the new congress convenes in Washington next January. One, headed by the powerful Ways and Means Committee by Representative Harold Knutson of Minnesota, who will be chairman if the republicans carry the house, believes that taxes should be slashed at once. The other, led by the President, the secretary of the treasury and various democratic leaders in congress, favors postponement of tax reduction until 1948, another election year. Both schools of thought are campaigning this

LONDON—The army officer who sits at a desk is far more likely to break down mentally than the officer in the foxhole, four British Army psychiatrists reported in The Lancet, British medical weekly.

Of 150 British officers discharged or sent home from India for psychiatric disability, 120 were base officers and only 30 came from forward areas, the specialists said, adding:

"The infantry officer may at times be exposed to strain of a kind and intensity never experienced by his colleague at base headquarters, but this is for limited periods in between which he is probably physically healthier and (which is more important) more satisfied."

"He can, moreover, give vent to his aggressive impulses, and he obtains satisfaction from the crumbs of glory thrown to him by the daily press and from occasional decorations. It is easier for him to feel one of a team. His results and objectives are nearer."

"The staff officer, on the other hand, has little or no physical exercise, long office hours and less hope of obtaining promotion by death of his seniors. Though his typewriter may be mightier than the machine-gun, he seldom has the satisfaction of using the keys himself as an outlet, and any anger or irritation he feels is more likely to be vented on other department than on the enemy."

"In these circumstances it is no wonder that acid letters, childish squabbles over unimportant details and abuse of rank are known."

The report was signed by Lt. Col. R. F. Tredgold, two majors and a captain.

One tire manufacturer is advocating use of helium in airplane tires in place of air.

Because the Bikini bombs didn't destroy the whole fleet, as some people appear to have expected, the power of the bomb against cities or even against ships should not be underestimated.—Dr. William G. Penney, British physicist and Bikini observer.

Friday the 13th Proves Lucky for One News Reporter

Friday the 13th was not such an unlucky day for Robin Tibbets, Pampa News cub reporter. Tibbets, who resigned from the News staff yesterday to enter the University of Missouri, as a student in journalism, was informed Friday morning that he would have a place to live while attending school and would not have to live in a pup tent as he had feared.

A telegram, dispatched by the local chapter of the American Red Cross to the Red Cross at Columbia, Mo., where the university is located, achieved the desired results. A letter informed Tibbets he was to proceed to Columbia where he would be given a room as soon as possible.

Lefors Students Elect Officers

LEFORS—(Special)—J. D. Fongberg, principal of Lefors high school stated today that the high school students have elected their class and student officers for the first semester.

Student council members have been elected, but have not organized as yet. The plan to organize as soon as possible, and will elect their own officers. Those elected to the council at large, were Vesta Grace James, C. H. Keeton, Joe Ogden, and Connie Garber. Others were elected from each of the four classes, these being class representatives.

Class officers for the seniors are: Clell Breining, president; C. H. Keeton, vice-president; Betty Scott, secretary; Patsy McIntyre, treasurer; Zoma May, sponsor, and Angie Davis, representative to the student council.

For the juniors: Joe Ogden, president; Wade Stracener, vice-president; Jo Ann Wall, secretary; Pat Johnson, treasurer; Melba Knip-

Motorists Damage Hedge at Cemetery

El Foran, superintendent of grounds at the Fairview cemetery, said last night that considerable damage had been done by motorists during the football game at Harvester field Friday night.

Several persons had parked their cars off the pavement next to the grounds, and had backed into the hedge.

He said there was no objection to parking cars there, but urged motorists to take care that they did not back into the hedge.

Mrs. John P. Lewis Will Speak at Council of Clubs Annual Reception

The Pampa Council of Clubs will hold its yearly reception Thursday, Sept. 19, at 8 p. m. The reception for new presidents of clubs holding membership in the council has not been given since 1941 due to the war.

The speaker for this occasion will be Mrs. John P. Lewis of Phillips, Texas. Mrs. Lewis is a graduate of the University of Nebraska at Lincoln, where she was on the staff of the art department.

Miss Clara Mae Lemm Is Honored With Luncheon

Honoring Miss Clara Mae Lemm, bride-elect of Edward J. Brogan of Cambridge, Mass., Mesdames A. B. Zahn and A. D. McNamara gave a luncheon Tuesday noon.

Garden flowers of asters and snapdragons formed the centerpiece and also decorated the second room used for entertainment.

Miss Lemm was presented a beautiful gift by the following persons who attended: Mesdames E. L. Holland, Jr. of Bangor, Maine; Lynn Boyd, D. J. Gribbon, H. W. Waddell, Lewis Jones, Jake Garman, Jr., Roy McKernan; Misses Ursula Jones and Bernardine Whaling. Also included in the guest list but unable to attend were Misses Pat Bissett and Ann Chisholm.

Sam Houston PTA Is Addressed By Rev. Norris

Rev. Buford Norris, in speaking to the Sam Houston P. T. A. Thursday, said: "The firm foundation for character building is the wise distribution of our faith. Whether we like it or not, we live by faith. We invest our faith in things, in people and in God. Too much faith invested in things and in people and not enough in God makes a shaky foundation. Good character building in children begins by stressing faith in God."

The address was part of the program under the leadership of Mrs. J. M. Fitzgerald, on "Building Firm Foundations." Mrs. W. B. Weathered, president of Sam Houston P. T. A., gave the objects of Parent-Teacher association which are: To promote the welfare of children and youth in home, school, church and community; to raise the standards of home life; to bring into closer relation the home and the school that parents and teachers may cooperate intelligently in the training of the child; and to develop between educators and the general public such united efforts as will secure for every child the highest advantages in physical, mental, social, and spiritual education.

These are objects of the National Congress of Parents and Teachers, of which Sam Houston P. T. A. is a local unit.

"P. T. A. were given to three teachers and their pupils, whose names were highest in attendance. Pottery in metal stands were presented to Miss Bernice Larsh, Miss Louise Willis, and Mrs. D. R. Weton, winners of first, second and third places, respectively.

Eighteen teachers were introduced, including fifteen women and three men. Aaron Meek, principal, said 485 pupils are enrolled in Sam Houston this year.

A tea, honoring faculty members and piano selections played by Mrs. Calvin Whitley closed the meeting.

Red Cross Executive Board Holds Meeting

The executive board meeting of the Red Cross was held, at which \$150 was voted to be sent to the Federal hospital at Amarillo. This is to be Gray county's share in the Camp and Hospital committee project to light and equip the recreation field.

Mrs. Mildred Pickett, newly elected executive secretary, is to attend the three week training course in St. Louis which starts October 2.

Five hundred young "shut-ins" in Iowa go to school everyday without leaving their homes, via a two way wire system with loud speakers at both ends so that classroom proceedings can be heard and the "shut-ins" can take part in the recitations.

Miss Clara Lemm, Edward J. Brogan To Be Married

Mrs. Wilma B. Lemm of 1112 E. Brownling Ave., announces the engagement and approaching marriage of her daughter, Clara, to Edward J. Brogan, son of Mrs. Nora A. Brogan of Cambridge, Mass.

Miss Cordie Spurlock and S. W. Turley Wed

Miss Cordie Spurlock of Panhandle, daughter of Mr. and Mrs. A. W. McGill, formerly of Shamrock, and Sammie W. Turley, of Amarillo, were married on August 24 at Wellington.

Vows were exchanged in a double ring service at the home of Rev. C. D. Darnon, who officiated.

Miss Jimmy Light of Wellington, was maid of honor, and was attired in a gray street-length dress with red accessories.

Mr. Quinton Brewer of Wellington, served the bridegroom as best man.

The bride chose a suit of light weight blue wool, with cherry accents in gray and white of yellow rose buds.

Mrs. Turley attended Shamrock high school and for the past year has been employed by the Bell Telephone company of Amarillo.

Freddie Brown, sister of the bride and bridegroom and was served with punch.

Mr. and Mrs. McGaughy then left for a trip to various points in Texas. On returning, they will make their home in Lubbock.

Mrs. Williams is a graduate of the White Deer high school and for the past three years, has been attending Texas Tech.

Mr. McGaughy is a graduate of Nacona high school and is now attending Texas Tech and majoring in business administration.

Both Mr. and Mrs. McGaughy will continue their studies at Texas Tech.

Out-of-town guests at the wedding were Mr. and Mrs. G. H. Flaherty, Pauline Cherry, Ray Powers, Mrs. Julia Powers, Mr. and Mrs. E. A. Miliken, Jean Ray Powers, Arlene Miller, and Glenda Davison.

First Baptist Church To Have Women's Social

The eleventh annual departmental social for the women's department of the First Baptist church will be held Tuesday, September 17, at 1 p. m. in the basement of the church.

The aim will be for each member to know at least three women with whom she was not acquainted on her arrival.

Mrs. Lewis Tarpley is to be chairman of the program. Thirteen tables will be used, twelve to represent the months of the year, and the thirteenth, for luck. Mrs. Carl Thirstow is to be hostess for the thirteenth table.

Hostesses for the remaining tables are as follows: Mesdames H. M. Stokes, Joe Edwards, McDonald, Slates, John Young, Mary Bobbitt, Lee Moore, J. B. Long, Ade Braucum, Emmet Forrester, Bill Money and Earl Eaton. Each hostess will have two assistants.

Rev. Douglas Carver and Virgil Mott, will be special guests.

Sub Debs To Have Traveling Dinner

The Sub Deb club met in the home of Avis Kelley Thursday. Plans were completed for a traveling dinner to be held Monday evening, September 16. Members and russhes are to meet in the home of Betty Barrett at 6:30.

At the meeting, refreshments consisting of cookies and lime popovers were served to the following: Pat Pierson, Joan Thompson, Brannon Marjorie Dixon, Ottolene Fattou, Carol Culbertson, Donna Beagle, Betty Barrett, Barbara Carlsson, Leona Mills, Lela Ward, Junice Fahle, Johnny Sue Hart, Nicki Fraser, Barbara Conrod, Ida Ruth Taylor, Patsy Miller, Delores Burnum, Anita Lane, June Myatt, Margaret Price, Carol Perkins, and the sponsor, Mr. R. G. Mills.

Social Calendar

MONDAY
The American Legion Auxiliary will hold its annual installation of officers in the city club rooms at 7 o'clock.

TUESDAY
The 11th annual departmental social of the Women's department will have a 1 o'clock luncheon in the basement of the First Baptist church. The Sub Deb club will meet with Lois Ward at her home, 719 N. Frost, at 7 p. m.

WEDNESDAY
General Auxiliary tea of First Presbyterian church.
First Baptist W. M. U. circle meetings: Circle One with Mrs. O. A. Davis, 7:30 p. m.; Circle Two with Mrs. Baker Henry, south-west of city, 3 p. m.; Circle Three, with Mrs. E. S. Sidman, 30 N. Banks, 3 p. m.; Circle Four, with Mrs. L. H. Green, 510 N. Somerville; Circle Five, with Mrs. E. Waters, 1300 Christine, 3 p. m.; Circle Six, Mrs. Rupert Orr, 1000 N. Hill; Circle Seven, with Mrs. Bob Alford, 724 E. Francis, 3 p. m.

THURSDAY
Rebekah lodge initiatory services will be held at the IOOF hall.
For your convenience, the Social Calendar will carry the time and place of all club meetings when informed.

PERFUME

By ALICIA HART
NEA Staff Writer

The atmosphere established by thoughtful selection of perfume may be destroyed if an evening scent is carelessly dabbed over a daytime scene. To retain its greatest effectiveness, perfume should be applied only to clean skin.

Esme of Paris, vivacious perfume, suggests that American women, always rushing and on the go, should apply perfume only on the knee caps. By doing this, she says, the woman who doesn't have time for a complete bath between perfume changes has only her knee caps to wash thoroughly.

Consider what message you wish to send and what type of atmosphere you wish to create when you choose perfume. During the daylight hours, strive for an aura of fresh fragrance with a light floral perfume or cologne. The heavier, more seductive scents are reserved for the after 5 o'clock hours.

Whatever perfume you wear, regard it as a ritual. Esme cautions. Never never dab it on in public, but apply it alone and behind closed doors.

Miss Mary Frances Powers Weds Dexter E. McGaughy

Miss Mary Frances Powers, daughter of Mr. and Mrs. T. H. Powers of Panhandle, and Dexter E. McGaughy, son of Mr. and Mrs. W. B. McGaughy of Nocona, were married at Lubbock August 29 at 8 p. m. The Rev. L. M. Lipscomb officiated at the double ring ceremony which took place at the home of the bride's uncle and aunt, Mr. and Mrs. Floyd Pipes.

The fireplace was banked with baskets of gladioli and the mantel was decorated with tapering candles and bowls of asters.

The bride chose for her wedding, a gold suit with which she carried brown accessories. Her corsage was of white carnations.

Her bridesmaid, Maxine Doss, wore a black and white checked suit accompanied by black accessories. Her corsage was of red roses.

Joe Williams served the bridegroom as best man.

The bride's mother wore a black dress complemented with black accessories. Her corsage was of gladioli.

Immediately following the ceremony, a reception was held at the scene of the wedding. A three-tiered wedding cake was cut by the bride and bridegroom and was served with punch.

Mr. and Mrs. McGaughy then left for a trip to various points in Texas. On returning, they will make their home in Lubbock.

Mrs. Williams is a graduate of the White Deer high school and for the past three years, has been attending Texas Tech.

Mr. McGaughy is a graduate of Nacona high school and is now attending Texas Tech and majoring in business administration.

Both Mr. and Mrs. McGaughy will continue their studies at Texas Tech.

Out-of-town guests at the wedding were Mr. and Mrs. G. H. Flaherty, Pauline Cherry, Ray Powers, Mrs. Julia Powers, Mr. and Mrs. E. A. Miliken, Jean Ray Powers, Arlene Miller, and Glenda Davison.

VFW Auxiliary Sends Delegates

The VFW Auxiliary held its regular meeting in the city club rooms with Mrs. Josephine Blacklock presiding. Two new members were initiated. Mrs. Fred Brum and Mrs. Cora Jones.

Those attending were as follows: Mrs. W. M. Castleberry, a guest; and members, Mesdames H. H. Boynton, Hugh Anderson, C. L. Brownlee, Leon Cook, Frank Conover, S. M. Goodlett, Jr., S. A. Evans, Ben Williams, and C. McNaughton; George Parks, D. P. Fry, Roy B. Shepperd and the hostesses.

Police Auxiliary Meets With Mrs. Martin

Mrs. Dewey Martin was hostess to the Police Auxiliary Friday afternoon. Following a brief business session, a series of games were played after which refreshments consisting of cake and pie were served to the following: Mesdames James Connor, J. O. Dumas, E. G. Albers, Raymond Greaves, H. H. Gates, Ernest Winborne and Louie Allen.

Broken Lipstick Is No More a Problem

The problem of the broken lipstick is one that has caused momentary and moderate dismay and considerable needless expense to hundreds of thousands of women in the United States every year. Usually the stick breaks near the base and there is too little remaining in the case for more than a few applications. Another cause of waste is the inevitable dropping of a lipstick from time to time. At last there is a solution offered by Wally Westmore, make-up director of Paramount.

Pass both broken ends of your lipstick above the flame of your gas range burner, being careful to soften—not melt—the ends. Then push the hardened ends firmly together and stand upright until slightly cooled. Carefully smooth the point of joining with your fingers until the seam is gone, and your lipstick is as good as new.

For a lipstick that has been dropped the gas range treatment is effective also. First, wipe all dust particles from the surface with cleansing tissue. Pass through the flame quickly and reshape with the fingers. This method is helpful in restoring to usable shape lipsticks which have become distorted through use of a lip make-up brush.

These few suggestions from the "master of make-up" can save you several dollars each year and help you to maintain the best of good grooming at relatively small cost.

AAUW To Hold Annual Membership Meeting

The American Association of University Women will hold its first regular meeting of the year, Tuesday, September 17 at 7:30 p. m. in the city club rooms. This is the annual membership and registration meeting. Eligible university women interested in membership may contact Mrs. Quentin Williams, 2219 W. or Miss Helen Huff, 1627.

BK Sorority To Have Series of Parties

The BK Sorority held its monthly business meeting September 12 in the City Club rooms.

Beth Mullinax, president, conducted the meeting. The group discussed and planned a series of parties to be held the last week of September.

KISSING CLUB

A kissing club has been organized in Oklahoma City by the Rev. William E. Webb. Married men are pledged to kiss their wives once daily, compliment them on their cooking and other household duties, and tell them they love them.

For the past five years, the production of glass milk bottles reached an all-time record average of three and a quarter million gross annually. This represents an increase over the preceding five-year period of 89,000 gross, or 35 percent.

WE, THE WOMEN

Women Drivers' Club Needs New Rules

By RUTH MILLETT
NEA Staff Writer

It had to happen every time. Women who organize for every reason they can think of—and, when they run out of original ideas, form auxiliaries to all their husbands' organizations.

The first: The husband's statement that his wife is indeed such a good driver that he never, never gives her a safe driver's license.

The second: The husband's signed statement that in his opinion his wife is just as skillful a driver as he is.

But maybe that last would make the club a little too exclusive, practically limiting it to wives whose husbands do not—for one reason or another—drive at all.

Miss Betty Jenks, W. L. Morris To Wed September 20

Mr. and Mrs. P. M. Jenks, 522 N. West, are announcing the engagement and approaching marriage of their daughter, Betty, to W. L. Morris of this city.

The wedding will take place Friday, September 20, at 7 p. m. at the Assembly of God church. Friends of the couple are invited to witness the ceremony.

Mrs. Edd Harmon Honored at Pink And Blue Shower

Mrs. Wayne Anderson, Mrs. Curtis Huckaby, and Mrs. T. H. Lamb of Schuifer Camp were hostesses to a pink and blue shower Thursday evening in the home of Mrs. Wayne Anderson, given in honor of Mrs. Edd Harmon.

The lace draped table was centered with a large bouquet of roses from which ran blue ribbon streamers to tiny pink cradles filled with mints which were later used as plate favors. The house was decorated throughout with seasonal flowers. The honoree was presented with a corsage of roses from Mrs. June Williams.

Each guest made a baby bonnet, first prize being won by Mrs. E. L. Byars, then being presented to Mrs. Harmon. A basinette filled with gifts was presented to the honoree.

Mrs. Williams was in military service four years and two months, spending thirty-two months overseas. He is now employed by the Coca Cola Bottling Co.

Those attending were as follows: Mrs. W. M. Castleberry, a guest; and members, Mesdames H. H. Boynton, Hugh Anderson, C. L. Brownlee, Leon Cook, Frank Conover, S. M. Goodlett, Jr., S. A. Evans, Ben Williams, and C. McNaughton; George Parks, D. P. Fry, Roy B. Shepperd and the hostesses.

Young Married Women's Class Is Entertained

The Young Married Women's class was entertained last evening with a supper in the basement of the First Methodist church. Mesdames Paul Nelson, Dorothy Cox and Cleo Hoyler were hostesses at this event.

A short business meeting was conducted during which the following officers were elected: teacher, Mrs. H. H. Boynton; assistant teacher, Mrs. Hugh Anderson; president, Mrs. George Parks; vice-president, Mrs. C. H. McNaughton; corresponding secretary, Mrs. Roy B. Shepperd; treasurer, Mrs. S. M. Goodlett, Jr.; reporter, Mrs. C. L. Brownlee.

Those attending were as follows: Mrs. W. M. Castleberry, a guest; and members, Mesdames H. H. Boynton, Hugh Anderson, C. L. Brownlee, Leon Cook, Frank Conover, S. M. Goodlett, Jr., S. A. Evans, Ben Williams, and C. McNaughton; George Parks, D. P. Fry, Roy B. Shepperd and the hostesses.

B.M. Baker PTA Plans Greatly Enlarged Group

The B. M. Baker P-T-A opened Thursday with a registration of ninety members. Mrs. Roy Holt, who spoke in the absence of Mrs. D. L. Brown, membership chairman, stated that the membership committee had set a goal of two hundred for the Baker association this year.

Both Mrs. Holt and Mrs. Dwight urged that every person on his part in helping to make this goal.

In addition to the usual program of the opening meeting, Mrs. J. E. Moore, chairman of publications, presented a short discussion on the state and national magazines, also taking a number of subscriptions for each.

Mr. B. R. Nuckols asked for someone to volunteer as Girl Scout leader in view of the fact that Mrs. Carl Stone has resigned. Mrs. Stone moved from the Baker school district. Mrs. Roy Underwood volunteered to replace Mrs. Stone as the new leader.

Announcement was made by Mrs. E. M. Culbertson, president, that the City Council meeting of October 3 is to be a school of instruction.

Following the business session, the group was invited to the cafeteria where cold drinks were served.

During the short business meeting of the executive board, the resignation of Mrs. Lois King, goal chairman, was accepted and Mrs. Rachel Johnson was appointed to succeed Mrs. King who is moving from Pampa.

JUVENILE DELINQUENCY

Juvenile offenders result when adults have fallen down on their responsibilities as educators. J. Edgar Hoover, director of F. B. I., declared that the delinquency of youth has been traced into crime because adults have failed to provide proper outlets and upbringing," Mr. Hoover maintained.

Too many cases of young offenders result in early delinquency because of the difference on the parts of parents and neglect by the community.

Pointing out the sharp rise in crime since the end of the war, Mr. Hoover reported that during 1945 a total of 1,565,541 major crimes were committed, an increase of 12.4 percent over 1944. "Forty-nine percent of the burglars, 61 percent of the thieves, 30 percent of the rapists, 23 percent of the robbers, and more than 33 percent of the thieves were youngsters under voting age," he stated.

Woodrow Wilson PTA Has Meeting

The Woodrow Wilson P-T-A opened its first meeting of the year with group singing led by Miss Hart Anderson accompanied by Mrs. L. G. Langston. Mrs. Owen Johnson opened the devotional by reading a poem concerning a boy's first day of school. She stressed the four growths of a child: physical, intellectual, social, and spiritual.

Mrs. A. A. Norris sang two solos accompanied by Miss Hart Anderson, "Mummy's Song" by Harriet Ware and "A Little Boy" by Lyn Murray.

Mr. H. A. Yoder introduced the teachers. One hundred and twenty people registered. Room count was won by Mrs. Jessie White, with Miss Pearl Spough, second.

Immediately after the meeting, a get-together tea was given. Mrs. J. B. Ayers presided at this event.

Miss Peggy McBurnett Weds Roger L. Dennett of Boston, Mass., in Shamrock

SHAMROCK—(Special)—In a beautiful church wedding, Miss Peggy McBurnett, daughter of Mr. and Mrs. Guy McBurnett of Shamrock, became the bride of Mr. Roger Lee Dennett, son of Dr. and Mrs. Louis Dennett of Boston, Mass., Tuesday afternoon at five o'clock at the First Methodist church with Rev. Hubert Bratcher officiating.

Wedding vows were exchanged in a double ring service before an altar draped with garlands of English ivy against a white background. Taped baskets with white baskets were filled with white gladioli. Cathedral tapers in seven-branched candelabra were arranged in the choir loft to point upward toward a lighted cross. Ales were marked with lighted tapers in three-branched candelabra, and alternate pews with bows of white satin ribbon.

The attractive bride given in marriage by her father, wore an exquisite bridal gown of ivory brocade satin, fashioned with a yoke of silk net with a drop shoulder, finished with a fold of brocade. The fitted bodice was buttoned down the back and the long sleeves terminated in points at the wrist. The full skirt extended into a graceful full chapeau which was held in place by a tiara of orange blossoms. She carried a white prayer book topped with a white orchid, showered with Starrs. Bridesmaids wore something old she wore a diamond bar pin belonging to her mother.

Mrs. McBurnett wore a dress of brown crepe with smoked white accessories and a corsage of pink carnations. Her bridesmaid, Mrs. E. L. Byars, wore a black and white crepe, with black accessories and a corsage of white carnations.

Immediately following the ceremony a reception was held at the home of the bride's parents. Pink and white asters were featured in decorations.

Mr. Burford Reynolds of Austin, served the bridegroom as best man. Miss Virginia Long of Carthage, Texas, was maid of honor. She wore a dress of blue silk with white accents, fashioned with a "V" neck and fitted basque, and a peplum over a full gathered skirt. The sleeves were bracelet length.

Bridesmaids were Misses: Charlotte Kromer of Amarillo, Sue Alexander of Houston, Phyllis Ann Dennett of Boston, sister of the bridegroom and Kathleen Tisdall, junior bridesmaid. Their dresses were designed along identical lines in the same style as that of the maid of honor.

For traveling, the bride chose an Adriatic suit of gabardine in a charcoal shade with which she wore an aqua blouse and brown accessories.

Mrs. Dennett is a graduate of Shamrock high school and the University of Texas, where she was a popular student.

The bridegroom is a graduate of Boston high school, and attended Northeastern university near Boston before entering military service where he served with the U. S. army air corps for more than four years. He had 14 months of overseas duty in the European theater.

Mr. and Mrs. Dennett left on a trip to points in Colorado, after which they will make their home in Austin, where he will be a student at the University of Texas.

P-TA of Horace Mann Meets

The Horace Mann P-T-A held its first regular meeting of the year at the school Thursday afternoon at 2:30 o'clock. Mrs. R. W. Tucker gave the devotional and spoke for the Parent-Teacher association, the Link Between the School and the Home.

"It is our duty as parents to become members of the P-T-A—active members, not just members with our names on the book. Our association will be only as strong as its weakest member. Therefore, we should become participating members in our association so as to make it the best in our community."

The meeting opened with group singing led by Miss Virginia Moore, accompanied by Miss Francis Meade. Mrs. O. B. Schuffman then welcomed the teachers and Miss Josephine Thomas gave the response.

Special vocal selections for the afternoon were given by Miss Virginia Moore accompanied at the piano by Mrs. H. A. Yoder.

Refreshments were served following a get-acquainted hour.

ANNOUNCEMENT

The Parent Education club will have its opening meeting at the home of Mrs. N. Dudley Steele, 117 N. Starkweather, Tuesday at 2:30. Mrs. Farris Oden will speak on the relationship of parents and parliamentarian, will talk on parliamentarianism, will talk on parliamentarianism.

Forty-eight guests were entertained at the party in the basement of the First Baptist church after the football game Friday night. Other parties are to be scheduled to which all young people are invited.

The community singers will meet today at 2:30 at the United Pentecostal church on W. Brown St.

Chicle originally was brought to the United States as a substitute for rubber.

(Photo from American Wool Council)

Fall fashion cuts a ladylike silhouette. Left, this bronze wool suit takes honors for its rippling pleated bodice with musk... its soft fur cravat and its full sleeves. Right, long, black and white striped suit is new dipping neckline, bow-tied waist and diagonally striped sleeves.

Subtle styling dramatizes these wools. Left, shocking pink and black checked dress flirts a bustle back in impudent 1890 fashion. Right, twin-browa jerkin-topping a wisper-waist wool dress is finished with pointed pockets and belted with brown siliagator at the willow-slim waistline.

Panhandle Briefs

For the interest and information of a number of students in the Panhandle and vicinity who plan to enter West Texas State this fall, Virgil Henson, business manager of WTS stated earlier this week that barracks on the campus will be ready to receive students by October 1.

Henson has just returned from down state in an effort to obtain materials to finish the barracks. Due to his efforts, 76 apartments will be ready for students. A full crew of carpenters is at work on the barracks and there is sufficient material on hand to keep them on the job.

West Texas State was given two dormitories at the Cactus plant near Dumas a short time ago, but no way could be found to move them across the Canadian river. However, Henson secured permission to raze the buildings and several loads of lumber have been transported to the building site already.

A big fat coon caused a great deal of excitement in Wellington earlier this week, when he entered town and took a leisurely stroll around the square. Apparently, the animal was a movie fan, for it entered the Texan theatre, where it was killed by Constable Bill McCarver.

The coon weighed about 40 pounds.

September 21 will be a big day for the Panhandle. The annual State Fair at Dallas from October 5 through 16. It will be printed on 10,000 folders which are to be given visitors to the Hansford county exhibit.

First prize for the best slogan will be \$12.50, \$7.50 for the second, and \$5 for the third best slogan. Deadline for entries is September 18.

Hugh McSkimming
TEACHER OF PIANO

Do the ancestors whose blood flows thru our veins take turns in dictating to us our actions and our state of mind?

in Clarendon featuring the Donley County Horse Show, horse races and the county fair. All three events are limited to entries from Donley county, except a "free for all" which is open to all counties.

Communities with the best entry in the county fair will receive cash prizes, to be used as the communities see fit.

The location of the fair has not been announced as yet, but the horse show is to be in the football field, and the horse races at the Clarendon Roping club grounds.

The Groom Parent-Teacher association will hold its first meeting of the new association year at the community club house on Thursday of next week.

This meeting will be in the form of a reception for the faculty, both old and new, of the Groom schools.

A freak peach tree has been discovered in McLean. The tree which belongs to C. P. Callahan, McLean plumber, is bearing its second crop of fruit for the year.

According to Callahan, the tree is ten years old and has borne two crops each year that peaches have made.

The first crop is an extra large peach, with the second crop being smaller but of saleable size.

A feature of the second crop is the extra small seeds.

The Hansford County Fair association has been asking county residents for a slogan which will describe Hansford, and give outsiders a picture of the natural resources which may be found there.

The prize-winning slogan will be used at the State Fair at Dallas from October 5 through 16. It will be printed on 10,000 folders which are to be given visitors to the Hansford county exhibit.

First prize for the best slogan will be \$12.50, \$7.50 for the second, and \$5 for the third best slogan. Deadline for entries is September 18.

The service books, containing hundreds of pictures of Wheeler county men and women who fought in World War II have arrived and are available at the Wheeler Times office at this time.

The books, which contain a picture and short history of at least 80 percent of Wheeler county men and women, cost \$4.75 per copy. Most of them were ordered beforehand, but a few extras were made which will be sold "first come, first served."

A rain and windstorm, which hit Panhandle Wednesday night, did much damage to the main section of town. The force of the wind, and the extent of the damage gave the impression that a small twister came with the storm.

Roofs were blown off several buildings, windows broken, and signs blown down the full length of main street. A number of trees were blown down or ruined, and a great deal of damage was reported to the residential section of town.

Farmers from the north and west of town reported their wheat was severely damaged by the high winds and lashing rains. A number of them expect to have to plant a large part of it over.

The Perryton Rangers held a pre-season scrimmage session on the Ranger practice field recently with the Canyon Eagles. Both teams welcomed the chance to test themselves against strange opposition.

As is always the case, both teams showed the usual early season raggedness, and worked better on offense than defense.

Every Ranger was given a chance to play in order that they would be ready to engage the Wellington Sixrocks in Friday night's game.

Connecticut is known both as the nutmeg state and the constitution state.

Knowing how long it takes Mrs. Johnson to pick out one dress, we decided that waiting for Joan to pick out six would take us to the middle of January. So we just stood there, talking through the drapes, and getting wild-eyed looks from passing models, customers and even Adrain himself who gave us a nasty look and rushed out, we were sure, to call the cops.

Joan, who once burst a blood vessel in her neck because she sings so loud, said she arrived in Hollywood, for her film debut in "Hit Parade of 1947," with her three-year-old daughter, a nurse, her maid and a secretary. Luckily, she had a friend who rented her a 10-room house and swimming pool for the eight weeks she will be here.

"How did you like your screen test?" we asked.

"Terrible," she said. "I offered them \$5000 to get me out of my contract so I could go back to New York. You should see me. I really don't look like myself. Ouch, Ouch!"

"The 'ouch,' she hastily explained, meant nothing about the way she looked but was due to two pins sticking her in the stomach.

"The studio cut my hair and made me lighten it. I had to lose 10 pounds. I'm inclined to gain weight like Linda Darnell. You should see me now.

We wished we could have seen her.

NO HUCKSTERS, PLEASE

We wondered if she had read "The Hucksters," the book reportedly inspired by her radio sponsor, George Washington Hill, the big tobacco man.

"Please, PLEASE," she said. "I don't even mention that book. I've worked for Mr. Hill for five years but I've never met him. We write notes to each other—he sent me a lovely letter just before my baby was born. I wrote him back that I had sung 'Brazil' 16 weeks straight on the show and that the baby probably would be born wearing a Carmen Miranda hat."

She was very happy about her film chance, she said.

"It's sort of a Lucille Ball character. I'm a flip dame. I get to act as well as sing."

During lulls in the conversation—have you tried talking to some drapes lately?—Joan's press agent, Lynn Daddy, passed out the information to us that besides being terrific, and super-colossal, Joan is the only singer in radio who has a vocal stand-in.

Joan extended her bare arm and part of her nose from behind the drapes when we left. "Good-bye," she said, sweetly.

We hope to see more of her.

National prejudices in many instances have been caused by classroom practices. The teaching profession can do a great deal to eliminate those prejudices by stressing international understanding and working for world peace.—Dr. Frank L. Schlage, former president National Education Association.

NO TIME LIKE NOW

Knowing how long it takes Mrs. Johnson to pick out one dress, we decided that waiting for Joan to pick out six would take us to the middle of January. So we just stood there, talking through the drapes, and getting wild-eyed looks from passing models, customers and even Adrain himself who gave us a nasty look and rushed out, we were sure, to call the cops.

Joan, who once burst a blood vessel in her neck because she sings so loud, said she arrived in Hollywood, for her film debut in "Hit Parade of 1947," with her three-year-old daughter, a nurse, her maid and a secretary. Luckily, she had a friend who rented her a 10-room house and swimming pool for the eight weeks she will be here.

"How did you like your screen test?" we asked.

"Terrible," she said. "I offered them \$5000 to get me out of my contract so I could go back to New York. You should see me. I really don't look like myself. Ouch, Ouch!"

"The 'ouch,' she hastily explained, meant nothing about the way she looked but was due to two pins sticking her in the stomach.

We wished we could have seen her.

IN HOLLYWOOD
BY ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD—(NEA)—We finally trapped your Hit Parade singer, Joan Edwards, in a dressing at fashion designer Adrian's plush Beverly Hills salon.

We had a nice chat with the lady. Some day, we hope to see what she looks like.

All we know now is that she has a very lovely arm. We got a good look at it because it was bare. In fact, Joan giggled behind a thick drape, all of her was practically bare. Which is why we didn't meet the lady face to face.

She was putting on and taking off clothes faster, she said, than Gypsy Rose Lee, and pardon her, please. She brought a couple of trunks full of clothes out from New York. The Republic studio, decided, at the last moment, that they weren't photogenic. She had to pick out six dresses in half an hour.

NO TIME LIKE NOW

Knowing how long it takes Mrs. Johnson to pick out one dress, we decided that waiting for Joan to pick out six would take us to the middle of January. So we just stood there, talking through the drapes, and getting wild-eyed looks from passing models, customers and even Adrain himself who gave us a nasty look and rushed out, we were sure, to call the cops.

Man Acquitted Again
Of OPA Violation

ST. LOUIS—(AP)—Ferrell B. (Ben) McGovern, head of a St. Louis Leer company and former boxer, was acquitted by a federal court jury for the second time Friday of charges of conspiring to violate OPA price ceiling regulations in the sale of beer. He was freed of similar charges last June.

Four co-defendants, Luke Franklin of St. Louis, Frank Alessio of San Diego, Calif., and two beverage companies headed by Alessio, also were acquitted.

Alessio told the jury he paid more than the ceiling price, but was not aware of it until after the payments were made.

Judge Richard M. Duncan today assessed minimum fines of \$100 each against Frank Resznic of Santa Barbara, Calif., and Ralph Nelson of Velasco, Texas, the remaining defendants. Both had previously entered pleas of no defense and appeared as government witnesses.

Our Civic Clubs

Jaycees—Tues., Palm Room.
 Rotary—Wed., Palm Room.
 Lions—Thurs., Meth. Church.
 Kiwanis—Fri., Meth. Church.

Weeks Activities

JAYCEES—Club members this past week heard Luther Roberts, minister of the Francis Avenue Church of Christ, treat the subject, "Youth Problems," in which he stated: "Right here in Pampa the number of juvenile cases handled by the authorities is very high and many of the cases involve children from seven to 12 and 13 years of age." He urged that members of local civic clubs take a more active interest in the youth of the city, to "fit the need for leadership in homes, schools and churches."

ROTCARY—Members of the Rotary club this past week were treated to a program on the lighter side, the type which all civic clubs enjoy now and then. Virgil Mott, who is director of music and religious education in the First Baptist church

here, conducted a quiz program. It was quite a "tussle" between the Bald Heads and the Slims. Various catch questions were employed. Both sides claimed they won.

LIONS—Several visitors were welcomed this past week to the regular noon luncheon of the Lions club. County Superintendent of Schools Hueyn Laycock appeared before this club, as he did before the other civic clubs, in behalf of the new veterans vocational training courses which are to be offered through the public schools. The guest speaker at the club was Rev. A. W. Ferrell, Methodist minister of Fort Worth, who spoke on the subject, "Thermometers and Thermostats."

KIWANIS—Col. C. N. Morgan announced he is in this area to help work for a unit of the 36th division (National Guard) here. He appeared before several civic groups this past week. Coach Otis Coffey and his assistant, Jiggs Whittington, were speakers on this past week's program, as was Steve Matthews, local businessman. The football coaches commented on Pampa's prospects this year; while Matthews, a football referee himself, discussed rules and the spectators. Randall Clay, Pampa high football star now attending the University of Texas, discussed TU prospects on the field this year, describing the keen competition there among the boys, who are seeking berths on the team.

Let us once and for all tear aside the artificial suggestion that large segments of adherents to the Nazi party were going about in blinkers.—St. David Maxwell-Pyke, British prosecutor at Nuremberg.

Service Held for Joe Noblett, 29

Funeral services were held at 2 p.m. yesterday from the chapel of Duenkel-Carmichael Funeral home for Joe Noblett, 29, who died at Merced, Calif., on Sunday, Sept. 8. The body arrived here Friday.

A veteran of World War II, he is survived by his parents, Mr. and Mrs. A. J. Noblett, of 222 W. Brown St., Pampa; brother, Wayland of Long Beach, Calif.; half-brother, Lonnie Kelly of Long Beach.

Serving as pallbearers were H. L. Hawkins, E. C. Holt, Clarence Crain, E. Tucker, C. E. Prince and Weldon McEntire.

Services were conducted by the Rev. R. Q. Harvey, pastor of the Central Baptist church and burial was in Fairview cemetery under the direction of Duenkel-Carmichael. Military rites were held at the graveside.

Local Man Is Named To Business Society

Edwin E. Simmons of Pampa is included in a group of 144 certified accountants of 31 states, named in August to be members or associates in the American Institute of Accountants, it was announced yesterday from New York.

Simmons was named as an associate to the institute, which is a national professional society of certified accountants.

The war has created a considerable lack of balance among the political and economic forces of the world. It is, moreover, very doubtful that peace conditions may succeed in correcting some of the political consequences of the war, although all of us must use our best efforts in that sense.

—Portuguese Premier Antonio de Oliveira Salazar.

Statement of OPA Is Termed 'Silly'

HOUSTON—(AP)—OPA's statement, that the reason for the meat shortage is lack of animals in the hands of legitimate packers and not price ceilings, is silly," Flat Stone, secretary of the Retail Grocers association, said yesterday.

Paul Porter, OPA administrator, wired Representative Albert Thomas that the present inadequate meat supply is not attributable to im-

proper wholesale and retail prices. Thomas had wired Porter Thursday urging action to relieve the meat situation.

Stone said that, "of course, there is practically no offering of cattle to packers, and of course, if there was there would be more meat. But there are no offerings because the producer won't sell under existing ceilings."

He said OPA keeps talking about beef, and that the price spread on it is adequate to get by.

"But Texas is a veal eating state, and there is practically no beef in

JUT OUR WAY

By J. R. Williams

the state. It is a physical impossibility to buy veal at the ceiling and dress it out and sell at the dress ceiling without a heavy loss," he said.

Porter said in his answer to Thomas that the recent price increases, "should be more than adequate" to provide meat "when livestock marketing gets back to normal."

The phrase "seven seas" was used by the ancient Hindus, Chinese, Persians and Romans — and in each case referred to different bodies of water.

Garbage Drivers Will Strike for More Pay

SAN ANTONIO—(AP)—Unless the city comes through with union demands of a \$1-a-day increase in wages, approximately 150 garbage-truck drivers and helpers will go on strike at 8 a.m. Monday, N. C. Alexander, president of the General Drivers local union No. 607, A.F.L., said yesterday.

Alexander said that union employees of the city garbage department who now are paid \$1-a-day,

Affiliates of CIO Get Strike Order

TOKYO—(AP)—The Congress of Industrial Unions, claiming a membership of 1,600,000, last night ordered a nation-wide strike of all major industrial affiliated unions. Because of the weekend holiday, effect of the order on major industries probably will not be known before Monday.

The strike of a CIO affiliate, the Japan's Seamen's union, has tied up eight U. S. Liberty ships at Yokohama and the Japanese crews of six others threaten to walk off, Kyodo News Agency reported.

The CIO condemned the government's settlement earlier yesterday of a disagreement that had threatened a nation-wide railway strike and ordered its affiliates to fight "until the collapse of the (Premier) Yoshida reactionary government." It charged the government was deceptive in its settlement of the rail controversy.

There was no indication whether General MacArthur would act. A few days ago, he expressly forbade "strikes... inimical to objectives of the military occupation."

Brothers Killed in Crash at Longview

LONGVIEW—(AP)—V. B. Morris, Jr., of Monroe, La., and his brother, Edward V. Morris of Longview, were killed instantly yesterday in the crash of a two-passenger airplane on a Longview street.

The plane burned after the crash, which occurred about 9 p.m. Witnesses said the plane, apparently Friday night and "decided to stand pat" on a strike vote taken a week ago.

Dr. Dudley A. Reekie, city health officer, said the union rejected a 50-cents-a-day increase he proposed.

ently in engine trouble, narrowly missed several residences in the thickly-populated area, while the pilot seemed trying to gain altitude.

Several power lines were severed. The Glendale, Calif., airport has "airplane crossing" signs posted the road which runs close to the landing field.

Expecting a Baby?

Mother's Friend massaging preparation helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND, an exquisitely prepared emollient, is useful in all conditions where a bland, mild anodyne massage medium in skin lubrication is desired. One condition in which women for more than 70 years have used it is an application for massaging the body during pregnancy... it helps keep the skin soft and pliable... thus avoiding unnecessary discomfort due to dryness and tightness. It refreshes and tones the skin. An ideal massage application for the numb, tingling or burning sensations of the skin... for the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use. Highly praised by users, many doctors and nurses. Millions of bottles sold. Just ask any druggist for Mother's Friend—the skin emollient and lubricant. Do try it.

Third Trial Set for Suspect in Hunt Case

SWEETWATER—(AP)—October 15 has been set as the date for the third trial of Jim Thomas, paroled convict charged with murder in connection with the slaying of Dr. Roy Hunt of Littlefield, Texas.

The date was set by Judge A. S. Mauzey of the 32nd district court. Thomas also faces a second charge in connection with the slaying of Mrs. Hunt. The bodies of Dr. and Mrs. Hunt were found trussed in a bed at their Littlefield home Oct. 26, 1943.

Thomas was first tried at Plainview in August, 1944, for the slaying of Dr. Hunt after a change of venue from Lamb county. A mistrial was declared after he had been found guilty and sentenced to death. Last January he was tried at Lamesa and again found guilty and assessed the death penalty. The sentence was reversed.

Because cheese becomes tough and stringy if too much heat is used, melt over low heat and add to hot dishes before removing them from the heat. It's less apt to curdle than when combined with flour in a white sauce.

For the first time since prewar days, glass manufacturers are operating at capacity in production of milk bottles. But a 15 percent increase in milk consumption has created a serious shortage of bottles.

Of Course It's a Charm-Kurl SUPREME COLD WAVE

More Smart Women use Charm-Kurl than Any Other Brand

Applied closer to the scalp, your curls and waves will be longer-lasting, more lustrous and easy to set. The laboratory tested, crystal-clear Charm-Kurl waving solution is safe and easy to use on any type of natural hair. Satisfaction or money back.

New, Different Auto Is Envisioned; Enthusiast Says It'll Cruise at 100

Tucker Torpedo, drawing board front wheels, so will the head version: Fenders will turn with the lights, says this car's creator.

By JOHN SHEA
NEA Staff Correspondent

CHICAGO, (NEA)—Preston Tucker says the contraption he hopes to build at the rate of 1500 a day by sometime next year will cruise at 100 miles an hour, given highways that can take that sort of speed.

Eyebrow, bow-tied Tucker says his projected new car, the "Tucker Torpedo," will go a lot faster than that. "You've got to have speed to sell cars to red-blooded Americans," says he.

DETROIT SKEPTICAL—And while he's aiming at 1500 per day, he says he can break even if he can make and sell 167 Tucker Torpedoes a day. To do it, he has leased the former Chicago-Dodge plant on Chicago's west side—a 475-acre, \$170,000,000 factory that turned out B-29 engines during the war—from the War Assets Administration for the next five years with an option to buy for more than \$50,000,000.

Back in Detroit, the eyebrows of old-line automotive bigwigs are raised to a skeptical attitude at Tucker's ideas, probably because of the troubles that have beset another new starter in the business who had revolutionary ideas about automobile manufacture and, like Tucker, went to work on them in an airplane factory. But Tucker has been mixed up with the industry since he was 13 and while he's not surrounded with the big names of automobile row, he does have associates who know their way around in the field.

To further skepticism at his plans for mass-produced "highway meteors," Tucker answers that he will build more safety into his cars than he builds speed. He has designed some revolutionary brakes he says will stop his new car in less than 100 feet at 90 miles an hour. Fenders will turn with the front wheels, headlights will follow the direction of a turn.

Power goes direct from engine to

Free for Asthma

If you suffer with attacks of Asthma so terrible you choke and gasp for breath, if restful sleep is impossible because of the struggle to breathe, if you feel the disease is slowly wearing your life away, don't fail to send at once to the Frontier Asthma Co. for a free trial of a remarkable method. No matter where you live or whether you have any faith in any remedy under the Sun, send for this free trial. If you have suffered a lifetime and tried everything you could learn of without relief, even if you are utterly discouraged, do not abandon hope but send today for this free trial. It will cost you nothing. Address: Frontier Asthma Co., 372W Frontier Bldg., 402 Niagara St., Buffalo, N. Y.

Preston Tucker: The part he holds is for the car that isn't built yet. wheels via hydraulic clutch, transmission, drive shaft, differential and conventional rear axle—and 800 pounds weight. The six-cylinder 150-horsepower engine will be set between the rear wheels.

The car will have a 126-inch wheelbase, will carry six passengers. Doors will open out and up to clear curbs and will extend into the roof so passengers can get in and out without stooping. The car will weigh about two-thirds as much as other cars of comparable size and power and will sell in the medium price field. The model is a sort of outlandish looking thing, compared to conventional types, but Tucker figures by the time he makes a few of the new cars the public won't be frightened by it, at least not at speeds less than 100 miles an hour.

DESIGNED GUN TURRET

Like his car, Preston Tucker is a bit on the spectacular side. But essentially he is a solid combination of engineer, executive and salesman. His experience in autos began at 13 when he learned something of engine and chassis design as an office boy for the vice-president in charge of engineering for Cadillac. He moved to Ford in 1921 and had

Facts on New Terminal Leave and Insurance

WASHINGTON, (NEA)—Here are some questions from veterans regarding the new terminal leave bill and the new government insurance law:

Q—Suppose an enlisted man died while in the service and had at that time unused accumulated leave. Could his survivors apply for the cash and bonds provided for in the terminal leave bill?

A—No. Any leave so accumulated shall not survive death occurring during active military service. Only if the serviceman dies after discharge can the survivors collect the amount due.

Q—Do the survivors of a veteran

use the same application form as the veteran?

A—No. There are special forms for survivors, with an instruction sheet attached.

Q—I made a loan a year ago on my National Service Life Insurance. I understand a veteran can use his terminal leave bonds for premium payments on insurance. Can they also be used to pay up a loan on government insurance?

A—Yes, provided the loan was made before July 31, 1946.

Q—Recently the Veterans' Administration denied an appeal on a claim my father had against it on some insurance my brother had before he was killed in action. They said there was nothing he could do about it. But I understand the new law changes that. Is this true?

A—Under the new law questions involving NSLI with the VA can now be brought before a United States district court for adjudication.

Q—I am a widow. My husband was killed in action in France during the war. I am now receiving the small monthly benefits. Can I now get a lump sum for his insurance under the new law?

A—No. You get another choice as to how the money will be paid. But the payments will still be each month. You cannot get a lump sum payment.

Good labor standards will come about only through hard work and positive action by all concerned.

—Miss Frieda S. Miller, director Labor Department Women's Bureau.

Motor vehicle deaths increased 44 percent in the United States in 1945 over 1944.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unwanted weight and help bring back alluring curves and graceful slender lines. Just get from your druggist, four ounces of Liquid Baracelate (formerly called Barcol Concentrate). Add enough grapefruit juice to make a pint. Then just take two tablespoonful twice a day. Wonderful results may be obtained quickly. How you may slim down your figure and lose pounds of ugly fat without back breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

British Commemorate Battle of Britain

LONDON—(AP)—Thousands of grateful Britons gazed skyward yesterday and with glistering eyes watched a mass fly-past of 370 RAF fighter planes commemorating the sixth anniversary of the decisive battle of Britain.

There were tears in the eyes of many, mindful of that Sunday six years ago when mere handful of RAF men doggedly challenged the mass might of Hermann Goering's Luftwaffe, won the battle of Britain and frustrated German hopes of invading England.

New York Barbers Ask Wage Increase

NEW YORK—(AP)—New Yorkers, beset by strikes, faced a new one today—barbers and manicurists.

The Barbers and Beauty Culturists Union (CIO) announced its 4,500 members would strike Monday because last minute efforts to settle a dispute over wages and hours with the Broadway Master Barbers association had failed.

JANES MARKET. Fresh, clean stock of groceries and meats at all times

Flying Aircraft Carriers Viewed

WASHINGTON—(AP)—Flying aircraft carriers—huge bombers with fighter escorts tucked in their fuselages—have been discussed among military and aviation industry officials as a means of providing long-range heavy craft with protection over enemy territory.

These talks involve projects to equip super-long-range bombers with jet-propelled "parasite" fighters, launched and recovered in flight.

Discussions include the possibility of converting a bomber such as the Consolidated Vultee XB-36 into a flying aircraft carrier. This plane

has six engines, weighs around 130 tons, and has a wing-span of 230 feet and a length of 163 feet.

A hangar might be built into its fuselage to carry folding-wing jet fighters. These could be launched from below the bomber and recovered on a hook, much as a carrier plane is slung by an arresting cable on the deck of a ship.

The idea already has been demonstrated by the army and navy.

The stop-and-go output of materials and parts which has been obstructing volume manufacturing has now been replaced by continuous, high-level production. That means that industry is within sight of full production of finished goods if industrial peace continues.—CPA Administrator John D. Small.

Rice Ceiling Price Will Be Increased

WASHINGTON—(AP)—The office of Rep. Combs (D-Tex.) says the office of price administration will issue an order increasing the price ceiling on rice early this week.

CPA Administrator Paul Porter has signed a rice price increase order to be issued Tuesday and become effective Sep. 21, Combs' aides said they were informed by OPA officials.

The agriculture department has recommended a hike of a dollar a barrel on rice prices. There was no indication in the statement from Combs' office on the size of the planned increase.

It was not until 1909 that investigators discovered infantile paralysis was caused by a virus.

Leaves From a Correspondent's Life Notebook

By JOHN P. MCKNIGHT

TRIESTE—(AP)—Just as mosquitos swarm happily to the full-blooded newcomer to the tropics, so do the Triestini (inhabitants of Trieste) assault the unjaded ear of the latest arrival in their city.

At all hours of the day and night the newcomer is subject to verbal assault by permanent residents and Allied occupation authorities, all eager to give their version of the "situation" and their solution of the "problem."

It is easy to understand all this gum-beating, of course, for the permanent and semi-permanent denizens of this big port at the head of the Adriatic are acutely conscious of its present importance in the scheme of things.

Some quotes picked at random from the barrage of verbiage pounding at this correspondent's ears:

An Allied information officer—"A large number, perhaps 60 percent, of the Triestini will be pleased enough to have some sort of independence, or autonomy; but there are no Tom Paines in Trieste."

Col. Alfred C. Bowman, senior AMG civil affairs officer in the occupied zone A—"Because I work on the theory that the best government is the least, some people have mistaken mildness for weakness. There has been some disorder, but I think some Triestini are beginning to understand what we are trying to do."

Dr. Stanislao Rubini, an editor of the independent Corriere Di Trieste—"the smaller the political unit, the more international-minded it is—it has to be. Trieste is very much world-minded. We speak languages, we travel. Thus we are able to understand that Trieste is a European and world problem, and that only a European and world solution is possible."

Ma Gi—"Most of the soldiers here, I think, don't care whether Trieste goes to Yugoslavia or Italy, or becomes international. But most of them don't like Tito (Marshal Tito of Yugoslavia) because they figure he's the guy keeping us over here."

Dr. Ferdinando Zidar, an editor of the communist newspaper Il Lavoratore—"the Allied military government? It is definitely prejudiced in favor of the Italian faction in Trieste. It is not impartial. Events every day prove it."

An Italian writer—"I do not understand the way the Yugoslavs are acting. I have been in Yugoslavia, and they are good people, who love their country and their homes and are nice to you. I do not see why we can not get along."

An Italo-Slovene laborer—"It is not so much that we are pro-communist or pro-Slav, as that we are opposed to the Italian capitalists who have exploited us for 15 years under fascism. It is the same crowd today; there has been no change. When the Yugoslavs say they will give us a chance to make a decent living, we listen."

Market Briefs

WALL STREET
NEW YORK—(AP)—The stock market continued its slide during the past week on the heaviest 5-day volume in about seven years although selective recovery tendencies appeared at intervals. There was one good rallying session.

It was the fifth consecutive losing week for the share division during which values of all listed stocks showed a drop of more than \$13,000,000,000. Since the 15-year high established last May 29, the retreat topped the \$18,000,000,000 figure. About \$7,000,000,000 of this aggregate was registered in the past two weeks.

A stock exchange seat sold at \$62,000 during the week, a fall of \$15,000 from a previous sale and a low since July a year ago.

The Associated Press 50-stock composite hit a 15-month low on Tuesday, Aug. 22, 1945, and on Tuesday touched bottom since April 12 the same year. For the week it showed a net decline of 2.5 points at 617.

The bond market got a toehold on rising price grounds late this week after tumbling on Tuesday to the lowest level since January, 1945.

CHICAGO GRAIN
CHICAGO—(AP)—Slightly lower trends developed in the grain market today when profit-taking entered the pits following the preceding session's advance.

In the cash market bids of \$1.50 a bushel for new crop corn for shipment by October 15 were maintained while bids for old crop advanced about 2 cents.

Wheat finished unchanged to 3/4 lower, January \$1.96 3/4, corn was 1/4 to 3/4 lower, January \$1.32 1/2-1.33, and oats were unchanged to 3/4 lower, September 78 1/2.

FORT WORTH GRAIN
FORT WORTH—(AP)—Wheat No. 1 hard 2.08-2.11.

Barley No. 2 1.48-1.50 nominal.

Oats No. 2 white 88 1/2-89 1/2.

Sorghums No. 2 yellow mto per 100 pounds 2.78-2.83.
