

### Wartime Housing Plans Modified By Price Rises

NEW YORK—How many U. S. families still plan to build homes? At war's end, the National Housing Agency estimated that 630,000 home units would be required from 1946 to 1955. In May of this year, between 1,500,000 and 1,800,000 were called for to "provide adequate and comfortable housing for all who are figuratively 'homeless'."

Prior to peace, housing surveys discovered that from 30 to 80 percent of all families planned to build. But, in one group, 45.7 percent expected to pay no more than \$7,000; in another group the ceiling was \$8,000. Veterans claim that amortization of even a \$8,000 home is too steep for their postwar pocketbooks. It's anybody's guess how rising building costs have modified the plans of the nation's families on homebuilding. Those who indicated

a year or more ago that they "definitely" intended to build after the war had a cost figure in mind. But that cost figure has been knocked into a cocked hat.

The standard six-room house that cost \$5,771 in 1939, last full peacetime year, now costs \$9,759, according to U. S. department of labor statistics. Higher labor cost is one reason; cost of building materials is another.

The Bureau of Labor's wholesale price index shows a gain, since 1938, of 134 percent on cement, 96.1 percent on lumber, 30.6 percent on nails, 32.5 percent on brick, 28.4 percent on plumbing and heating equipment. To date, OPA price ceilings have been posted on cast iron soil pipe, asphalt roofing and plumbing fixtures.

But not all the picture is discouraging to the prospective home builder. Although the wholesale price of pine windows has increased 50.3 percent since 1938, the price of the window glass used to place them has scarcely changed at all. This is despite an increase of 48 percent in glass industry wage costs since 1938. Actually, there has been a 14.1 percent decline in window glass prices since 1930 as contrasted with a 40 percent increase in building material prices generally.

In reporting recently that record production of flat glass would "undoubtedly meet all the foreseeable requirements" of the construction field for the remainder of the year, one industry spokesman emphasized the "urgent need for price relief," adding that "it will be difficult to maintain present production levels without some correction in present price discrepancies."

Another encouraging price situation from the consumer's point of view exists in aluminum. While in 1939 building construction ranked fifth among aluminum-consuming industries, taking only about one-twelfth of the nation's output as compared with transportation which consumed nearly a third, building construction today heads the list. The price of aluminum has declined 25 percent from 29 cents a pound in 1939 to 15 cents a pound today. Industry sources believe that a conservative estimate is that building construction is today taking more than half of an aluminum output more than double that of 1939. Anxious home builders, plagued by shortages, strikes and rising prices may find encouragement in the progress report of the federal housing administration for July: 225,000 homes and apartments completed in the first six months of this year and an added 500,000 homes started.

**LACE CLOTHS LEAVE DINNER TABLE; RETURN AS SMART EVENING GOWNS**

By EPSIE KINARD

NEW YORK—(NEA)—When top-flight designer Zoe DeSalle cut up a handsome lace tablecloth, a buffet runner and a tea table cover and fashioned these into smart formal dresses, she may have started something: a run on the linen closet and hope chest.

She contends that simplified living makes many formal household laces and linens almost useless as such but that these have a busy life cut out for them as wearable clothes. She thinks that other women will applaud the idea.

The woman who winces at the thought of cutting up household treasures, can, says Miss DeSalle, search her linen closet for less fabulous pieces that will also make elegant additions to a wardrobe. Yellowing or dingy laces and linens can be revived by ceru dips or color baths.

A circular tablecloth makes a swirling skirt, like that on the model shown above. All that was needed for the conversion—the skirt is posed over a gray satin dinner dress—was to remove the linen center of the tablecloth. This made a point of entry for the waist. An uncut length of heirloom lace makes the handsome shoulder shawl.

The picturesque bolero, right, which is worn over a black dinner dress, is made from a buffet runner of linen and lace. First centered and draped across the shoulders, scarf-fashion, the runner was cut to make openings under the arms. Seamed up, these formed sleeves.

The fancy reticule shown, made of a tea table cover, was gathered up by a decorative cord, and is uncut.

**Announcement**

Mr. and Mrs. Clarence C. Crowder of Wheeler announce the engagement and approaching marriage of their daughter, Imogene to James Karr Trout, son of Mr. and Mrs. Jim Trout of LeFors, formerly of Wheeler. The wedding will take place Sept. 1 in the home of the bride's parents.

**Mrs. J. C. Tinsley Entertains Class**

SHAMROCK (Special)—Mrs. J. C. Tinsley entertained at her spacious country home south of Shamrock, with a covered-dish dinner for members of the King's Daughters Sunday school class of the First Methodist church and a number of guests Tuesday.

The group met for a morning session with Mrs. H. T. Fields, class president, in charge. The devotion was given by Mrs. H. M. Green, which was followed by a prayer led by Mrs. Ed R. Wallace.

Mrs. J. D. Bulls, vice president of the class, was named honor guest at the meeting and was presented with a gift from the group.

Mrs. M. E. Risk, a former teacher of the class, who now resides in Wilmington, Ohio, was a special guest.

The dinner was served buffet style with the invocation given by Mrs. Risk.

Those attending were Mesdames T. J. Ferguson, D. J. Briggs, A. M. Hilburn, Allen I. Smith and children, W. F. Setzler, Neylon Morgan, Bill Carver, R. Stuart Tisdal, M. E. Risk, George L. Stanley and Miss Margaret A. Elliott, guests.

Members included Mesdames C. G. Cantrell, Sr., G. H. Burkhalter, H. M. Green, W. L. Orrick, Harry Vermillion, Ed R. Wallace, J. B. Zeitler, O. T. Glascock, Edna Newman, L. E. Gray, E. L. Shipley, A. R. Hugg, H. T. Fields, D. J. Bulls, Margie Fleener, E. A. Williams, G. H. Aldous and Miss Geneva Zeitler.

**Canadian School To Open September 16**

CANADIAN (Special)—The board of trustees of the Canadian Independent school district held a meeting Tuesday night and set September 16 for the opening of school. The meeting was open to the public, and the budget for the 1946-47 term was presented and discussed. Several teaching positions are still vacant.

It is estimated that the cost to the United States of crime associated with habitual excessive drinking amounts to \$175,000,000 yearly.

**Rainbow Girls Attend 2-Day Outing at Lake**

McLEAN (Special)—Mesdames Daphne Morris and Ollie Headrick took the McLean Rainbow girls last week to Lake McClellan to join other Panhandle girls who were there for a two-day outing. The girls were: Joe Ann Grigsby, Bobby Jean Headrick, Jo Alice Tubbs and Lota Mae Hughes.

It was an all Panhandle outing for Rainbow girls. There were 16 girls from White Deer, accompanied by Mr. and Mrs. Ed Minter and Mr. and Mrs. S. Mullins. Mrs. Kaye Selby from Dumas brought seven girls. Amarillo was there with about 100 girls.

The entertainment consisted of picnicking, swimming and boating. This is an annual affair for the Rainbow girls of the Panhandle assemblies which are 14 in number. Plans are now being made to have all the assemblies represented next year.

**Cafe Reopens After Complete Remodeling**

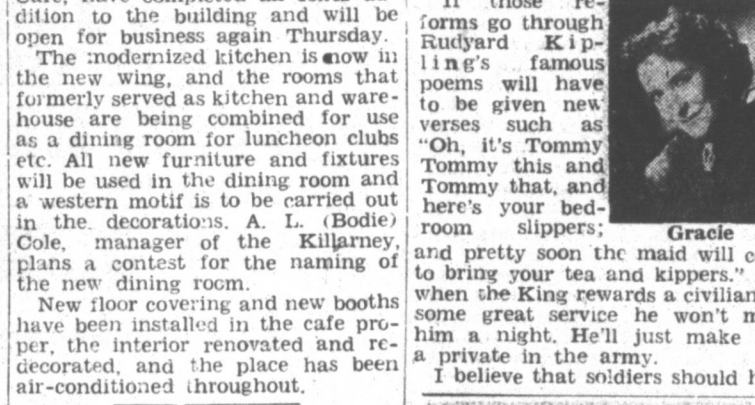

CANADIAN (Special)—Abraham Brothers, owners of the Killarney Cafe, have completed an 18x42 addition to the building and will be open for business again Thursday.

The modernized kitchen is now in the new wing, and the rooms that formerly served as kitchen and warehouse are being combined for use as a dining room for luncheon clubs etc. All new furniture and fixtures will be used in the dining room and a western motif is to be carried out in the decorations. A. L. (Bodie) Cole, manager of the Killarney, plans a contest for the naming of the new dining room.

New floor covering and new booths have been installed in the cafe proper, the interior renovated and re-decorated, and the place has been air-conditioned throughout.

Fourteen industries unknown in the United States in 1870 now employ 25 per cent of all workers.

**School Ensemble**

By SUE BURNETT

Send her off to school in this exciting little button-back jumper. It's bright and gay in checked or plaid fabrics and has pretty yoke treatment and fitted waist. Matching drawing blouse.

Pattern No. 8073 is for sizes 3, 4, 5, 6, 8 and 10 years. Size 4, jumper, 2 yards of 35 or 39 inch; blouse 1 yard.

For this pattern, send 25 cents, IN COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, Pampa Daily News, 1150 Ave. Americas, New York, 19, N. Y.

Send an additional twenty-five cents for your copy of the SUMMER issue of FASHION—that exciting and different pattern book, 52 pages of specially designed patterns, beauty and home-making sections, content designs by America's talented juniors. Plus free slip cover and drapery directions and a free shoulder pad pattern printed in the book.

**Gracie Reports**

By GRACIE ALLEN

Well, I see that Field Marshal Lord Montgomery says British soldiers should have bedrooms and sitting rooms to live in instead of barracks and should be allowed to read in bed. I'm pretty sure there's a connection between his remarks and the British army needing 100,000 recruits.

If those reforms go through Ruddyard Kipling's famous poems will have to be given new verses such as "Oh, it's Tommy Tommy this and Tommy that, and here's your bedroom slippers" and pretty soon the maid will come to bring your tea and kippers." And when the King rewards a civilian for some great service he won't make him a knight. He'll just make him a private in the army.

I believe that soldiers should have

**Hints Are Given for Summer Dulled Hair**

Good resolutions are usually made with fervor and as generally forgotten with ease. Even the usually meticulous girl who has promised herself that this summer she'll not let her hair get dry and sun-streaked looks into her mirror one pre-autumn day and remembers that she has forgotten.

Somewhat the vacation-careless coiffure is completely incongruous with the sleek elegance of new fall clothes. So incongruous that most girls are shocked into immediate action to retrieve their hair beauty. Put the ravages, resulting from the three month onslaught of sun and wind and swimming, can't be corrected by one single treatment. It's keeping at it that counts—keeping at it each week for several weeks. Even if you have a standing appointment with a beauty shop, every girl should supplement the shop treatments with home treatments as well.

It is the one-two-three method which spells revived-shine and soft bright hair. One—brush; two—oil; and three—liquid conditioning shampoo. The hair and scalp must be brushed until a tingling of the scalp labels it a thorough job. Then the oil (any well-known brand of hair oil—or mineral or vegetable oil if the other is not available)—is warmed and applied to the scalp and hair with a cotton pad. Now massage. A firm, rotary massage with finger-tips until tired arms announce "Time's up." Then, for a quiet hour, keep the hair wrapped in a dry towel so that the oil can do its soothing before the shampoo. Naturally, the shampoo is all-important. The modern and scientific method is to use a liquid shampoo with hair conditioning action that removes every speck of oil and dust and helps to restore dimmed highlights. First, the hair is wet with clean warm water and then a little

This time there will be a plentiful lather, and all the oil will be washed away, leaving hair clean and ready for experimenting with new style arrangements. Sometimes, when hair has been especially neglected it is advisable to use a little brightening or hair pomade. If used, it should be applied while the hair is still damp.

This type of treatment, simple but thorough, sensible and effective, may be given the hair once or even twice a week. Naturally, it will take time to repair the damage of careless summer habits. Brittleness, sun-streaks, and general dryness of the hair do not respond overnight. But concentrated treatment, given regularly, can really work magic. So much so, that your hair will be lovely enough for you to start making good resolutions all over again.

Plane Trip in South Pacific Very Eventful

By GENE WORLEY We left for Guam shortly after our return to Kwajalein—a distance of nearly 1600 miles. Nothing of consequence happened on that trip except that our No. 1 engine developed carburetor trouble when we were halfway to Guam and had to be feathered which is flight parlance for stopping the engine and turning the propeller thin-side into the wind to prevent drag.

Drouth Conditions in Texas Still Prevail Despite Scattered Showers

AUSTIN—(AP)—Drouth conditions still prevailed over all areas of Texas, though showers gave scattered relief, the United States department of agriculture has reported in its crop and weather bulletin for the week ending Aug. 19. The USDA report noted that showers were becoming more numerous Monday in the northern half of the state but said a general rain is not yet in prospect.

Terminal-Leave-Pay Questions Pour In

By DOUGLAS LARSEN NEA Staff Correspondent WASHINGTON, (NEA)—Here are questions from veterans regarding the new terminal-leave-pay act. Q—Where and when will application forms for terminal-leave-pay be available? A—These forms will be available at every post office, veterans' information center, post of a veterans' organization, and VA office sometime during the first part of September.

the discharge papers, but losses will inevitably occur. It would be smart to have your discharge photostated before mailing it. Q—What government agency should be sent the application for terminal-leave pay? A—Send it to the paying office of the service you served with. The address of the nearest office will be printed on the back of the application blank, according to present plans.

Q—Will veterans have to have applications for terminal-leave pay notarized? Will this cost anything? A—Applications will have to be sworn to. There will be free oaths administered at practically any veterans' information center.

IT'S MONSTROUS. SAY FRANKENSTEIN GIRLS WHITE PLAINS, N. Y.—(AP)—The Frankenstein sisters, Jane Marie, 16, and Mary Ann, 15, asked court permission to change their name to

Backache, Leg Pains May Be Danger Sign Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg

UPTON CLOSE:

GI Spends All One Year Just Chasing Loan

It was going to be all right after the war; a GI could come back and buy him a little business or a white cottage with a red roof and everything modern inside and Uncle Sam would help him swing the deal. Maybe he could buy both a home and a business; ten thousand dollars was a big stack of chips.

promise of several carloads of material he had ordered. We waited through the October and November reconversion period; and then the contractor said he wouldn't take on any more work till after the first of the year.

Fifty Dollars Down the Drain

"In January the building tradesmen threatened to strike and got another raise ranging from fifteen to twenty percent. Twenty percent on \$2000—approximately the figure we were shooting at—adds \$600. But the GI appraisers and the banks appeared willing to finance construction on that basis, so we found another contractor and he said OK he would give us a bid.

There Went \$75

"In the late spring the GI loan began to show results of the 'liberalization' amendment. A banker said he was putting through a raft of GI loans on purchases of existing houses. So I tried again and to make a sad story short found that, while appraisers now were willing to up their former valuations a thousand or so, the market price was still a jump ahead of them.

SAFETY SUGGESTION FOR SNEEZING SEASON

NEW YORK—(AP)—Hay fever sufferers should never let themselves get so burned up they set fire indiscriminately to ragweed patches. The fire hazard in such a practice, says the Fire Protection Institute, is not to be sneezed at. To get rid of weeds, the institute advises, telephone the health department and get direction for making a weed-killing spray.

MURDER CASE SUSPECT TAKEN INTO CUSTODY

KILGORE—(AP)—Police Chief Otis Whittington and Louis Grigsby, of the district attorney's office, have gone to Sacramento, Calif., to take into custody a negro man wanted in connection with a twelve-year-old Kilgore murder that occurred as the result of a prank.

## Mexico Will Send Exhibit to Fair

That the Mexican government will send a big exhibit to the State Fair of Texas this year, for the first time since 1924, was announced by W. H. Hitzelberger, vice president and general manager of the Fair, this week. Hitzelberger stated that he had received word from the Mexican Tourist department at San Antonio that the exhibit would arrive at Fair Park about Sept. 15.

More than a thousand articles of Mexican silver, pottery, leather and rare lacquers will be included in the exhibit, as well as a large collection of colorful Mexican regional costumes. The exhibit will occupy some 1500 square feet in the Foods Building.

The exhibit was procured through aid of Fernando de la Garza, San Antonio official of the Mexican Tourist department; Gustavo Ortiz Herman, Mexican consul general; and Alejandro Buena, head of the tourist department, Mexico City.

## Canadian Will Do Something About Curious Spectators

CANADIAN (Special) — This city's volunteer fire department intends to do something about curious spectators who chase the fire trucks.

At a business session following a long drill, firemen presented a plan for controlling the spectator "nuisance" and drew promises of cooperation from Mayor Jess Lindley and Commissioner Jim Reid.

"Drastic action" is predicted.

The firemen named John Wilkinson to be captain of the pumper team which will compete at the Panhandle Firemen's association in Quannah September 10.

### Airmen Face Loss of Licenses

AUSTIN—(AP)—Because the term "air carrier" is subject to misinterpretation, many small Texas airmen face the loss of their air carrier operating certificates unless they move soon, says A. W. Meadows, executive director of the Texas aeronautics commission.

Meadows contacted Washington officials for legal definition of "air carrier." He found it means anyone who is operating an aircraft for hire—even the operator who has a single plane for hire.

These operators must apply by Sept. 15 for air carrier operating certificates if they want to stay in business. They have until Sept. 3 to make a required report on their past business for the civil aeronautics board in Washington.

Meadows said application blanks for operating certificates may be obtained from the nearest CAA inspector or from George Childress, chief of non-scheduled flight operations, civil aeronautics authority, Fort Worth.

### Hugoton Gas Reserves Estimated 20 Trillion

WASHINGTON—(AP)—Gas reserves in the Hugoton field of Kansas, Oklahoma and Texas were estimated yesterday at between 20 trillion and 25 trillion cubic feet by Ralph Davis, a geologist for the Phillips Petroleum Co.

He testified for the Michigan-Wisconsin Pipeline Co. at a federal power commission hearing on the company's application to build a \$46,000,000 pipeline from the Texas-Oklahoma portion of the field to Michigan, Wisconsin and Iowa.

Lavis estimated the Hugoton reserves in Texas exceed 5,000,000,000,000 (trillion) cubic feet. He made no estimate of the reserves in Kansas and Oklahoma but recalled that three years ago he expressed the opinion Kansas had about half the Hugoton gas.

### Panpan Buys Surplus Tractor at WAA Sale

FORT WORTH, (Special) — Jesse D. Hitchcock, Pampa veteran of World War II, was among the successful purchasers at a sale of surplus new and used farm and construction machinery conducted by the War Assets Administration Fort Worth regional office, awards of which were announced today.

Hitchcock, who was certified in December, 1945, was awarded a used International Crawler Tractor for \$3162.25.

The sale, which attracted bids by men from 225 veterans in Texas netted the government a recovery of \$86,511.77.

All awards were made strictly in accordance with the oldest dated certificate held by veterans for each of the items in the sale.

There is no need to sweater in summer heat when DES MOORE TIN SHOP, 111 East Kingsmill, can air condition your home or business—you don't have to have leaky gutting either because by phoning 102, you can get quick action on this.

### Model Agency Head Goes to Hollywood On Talent Search

HOLLYWOOD—(AP)—Note to California women: If a brown-haired man ogles you more than he should, don't holler—copper too soon; it might be Harry Conover.

The man whose model agency supplies beauties for magazine covers and elsewhere is in these precincts prowling for talent. This is a fine pastime for a man on his honeymoon, but it is strictly business for Harry.

"Turnabout is fair play," he explained while lolling beside a hotel pool with his model-bride, Candy Jones. "After all, Hollywood took girls like Anita Colby, Joan Caulfield, Jink Falkenberg and Dusty Anderson from my agency. Maybe I can steal some beauties from Hollywood."

Conover arrived here from Dallas, where he signed up five girls in three days. "Then I returned to the hotel and found the girl behind the counter was more beautiful than any of them," he said. "Texas is the most fertile field for beauties—Texas and California." He quickly added, noting his native state.

"It must be the outdoor life that does it," he said. "They have the freedom of movement and forthright charm that girls who live indoors don't have."

### Bouquet To Duce Found Where His Body Hung

ROME—(AP)—A bouquet of red and white dahlias was found Tuesday tied to the girder of the Milan Gasline station from which Benito Mussolini's body dangled before a howling mob after his execution by partisans last year.

A ribbon around the flowers said: "To the Duce from his most faithful."

Police arrested several suspects, Milan dispatches said, and were on the trail of a young woman believed to have bought the flowers at a nearby stand the previous evening.

Meanwhile Mussolini's body, recovered in a Pavia monastery two weeks ago, was reported en route to a new secret place under heavy police escort as authorities prepared to prosecute ten persons allegedly involved in the theft of the body from a Milan potter's field last April.

## Firm Celebrates 16th Anniversary Of Wide Service

Sixteen years of service to Pampa car owners, garage and repair men and to the Top o' Texas area in general are being commemorated by the Motor Inn Supply, 107 East Francis, this month.

The firm, originally the Atkinson Motor company of Dalhart, was moved to Pampa in August, 1933, by Crawford Atkinson.

Luke McClelland later went into partnership with Atkinson and is now manager of the store.

In addition to its local store, which employs about 20 persons, the Motor Inn Supply has a store in Big Spring, Texas, under the management of John West, and known as the Auto Supply company.

To give customers over a wide area the advantage of a complete stock of wholesale parts, the firm operates a motor sales service over a 20-county area.

Among the products sold are automobile accessories of nearly every conceivable type, factory approved auto parts, service station and garage supplies and equipment and many other items.

Included among the many services are crankshaft and valve grinding.

The firm recently started the construction of a new building in the 400 block on West Foster. The new structure will provide room for much more work and the supplying of a larger stock direct from the store's headquarters. In addition, the firm owns a large warehouse on South Starkweather street.

Mr. Atkinson is an active member of the Rotary club and has served as president and vice president of the Top o' Texas Rodeo, Horse Show and Fair association, which sponsors one of the biggest events in the Panhandle area.

Mr. McClelland is actively interested in civic affairs, being a member of the Rotary club and of the chamber of commerce.

Service station owners over the entire Panhandle are urged to contact the Motor Inn Supply company when they are looking for one of the most complete stocks of wholesale and retail automotive equipment in the entire Panhandle. The telephone number is 1010.

## Methodists Will Vote As Individuals—Smith

HOUSTON—(AP)—Bishop A. Frank Smith of the Methodist church last night issued a statement in which he denied "any thought or purpose of attempting to speak for Texas Methodists on political matters."

The bishop's statement followed distribution of a circular purportedly prepared by headquarters by Benouff H. Jester, candidate for governor. Smith said the circular quoted him as saying, "The Methodist people are back of Benouff Jester 100 percent."

"Methodists do not vote as a bloc nor do they vote for candidates because they are Methodists," Smith said. "They vote as individual citizens. No person is competent to speak for Methodists politically, save each Methodist for himself."

Sapphires and rubies are used in meters and delicate instruments in airplanes and tanks.

**Competitors Will Perform in Arena During NT Rodeo**

ARLINGTON—(P)—Texans who currently are in hot competition for 1946 world championship rodeo laurels will perform in Arlington Downs' arena during the North Texas fair and rodeo opening Saturday.

Competing against the 1945 champions will be such highly-regarded Texans as Louis Brooks of Sweetwater, twice world champion all-around cowboy; Rovee Sewall of Brownwood; Dub Phillips of San Angelo; G. K. Lewallen of Hico; Paul Gould of Sweetwater; Bert Clennon of Wichita Falls; and many others.

Sewall, the crack calf roper, is far ahead in 1946 rodeo cowboy association ratings, as released today by the authoritative magazine, *Buckboard*. He appears a certainty to dethrone another Texan, Toots Mansfield of Rankin, 1945 champion and holder of the world calf roping title five of the past eight years.

Brooks, the powerful bronc rider and steer wrestler who held the all-around championship cowboy titles in both 1943 and 1944, still is regarded by most followers as the best in the business. They point out that he probably still would be the champion and 1946's leading contender had he not gone into "semi-retirement" to devote more time to his ranching interests.

Lewallen, only a few points off

first place in 1945 bull riding competition, may wrest the lead from Ken Roberts of Strong City, Kan., current leader, on the basis of their showings here. Lewallen is the defending Madison Square Garden champion.

Gould, current No. 3 in world standings, is regarded a stiff competitor to defending champion Bill Linderman of Red Lodge, Mont., in saddle bronc riding. Paul Bond of Collinsville, Okla., stands a chance here of displacing Bud Linderman, also of Red Lodge, as the bareback bronc leader.

**Old Love Letters Spice Court Trial**

SAN LIEGO, Calif.—(P)—Torrid love letters which Mrs. Lucy Malcolmson says "Pappy" Boyington wrote her when she was his "Dearest Cuddle Bum" spiced court proceedings yesterday as she vigorously denied charges that she embezzled \$8,000 from him while he was away at war.

The auburn-haired defendant was on the stand for the second day at her preliminary hearing on a charge of embezzling part of \$20,000 entrusted to her by the marine flying ace, Lt. Col. Gregory "Pappy" Boyington.

Mrs. Malcolmson, who is the wife of an Australian business executive but had intended to divorce him in

order to marry "Pappy," testified that Boyington addressed her as "Dearest Cuddle Bum" in a letter from the South Pacific in which he told her he was coming home and "Baby, what a bundle of loving is coming to you."

In this letter, which was offered in evidence, the marine flyer asked: "Honey, will you still love me even if I never get to be America's leading ace?"

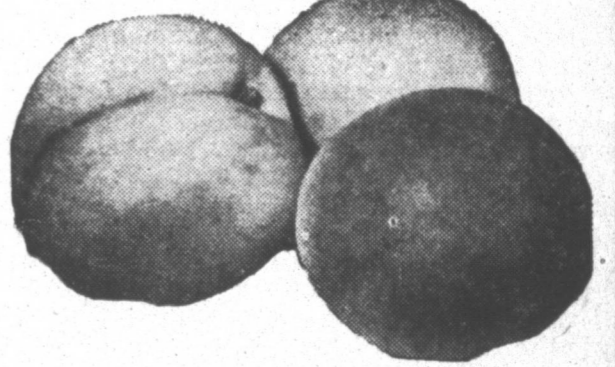

That was back in November, 1943, the testimony indicated, when Boyington was running second to Major Joe Foss in shooting down Jap planes. Later they tied at 26 each. "Pappy" was captured by the Japs about that time and didn't get back home for a long time.

When he did return, Mrs. Malcolmson testified, they had planned for her to get a Reno divorce and be married immediately afterward. That was last January 8 but, in-

Cars received from connections totaled 11,911 compared with 14,033 for same week in 1945. Total cars moved were 38,864 compared with 37,138 for same week in 1945. Santa Fe handled a total of 39,860 cars in preceding week of this year.

Albany is the oldest chartered city in the United States.

**Now Many Wear FALSE TEETH**

With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or washing. FASTEETH holds plates firmly and more comfortably. This pleasant powder has no gummy, soapy, pasty taste or feeling. Doesn't cause nausea. It's ALKALINE (iron-free). Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

**Make This Home Recipe To Take Off Ugly Fat**

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugist and ask for four ounces of liquid Barconate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose

bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. More alive, youthful appearing and active.

**Aerial Bombardment in World War II Cost 1,200,000 Lives**

NEW YORK, N. Y.—Aerial bombardment in World War II, which reached its climax in the atomic bombing of Nagasaki and Hiroshima, cost the lives of at least 1,200,000 civilians and possibly as many as 1,500,000, according to Dr. Louis I. Dublin, second vice-president and statistician of the Metropolitan Life Insurance company. He points out, by contrast, that in World War I, only 5,000 civilians died in air raids.

"The one atomic bomb dropped on Hiroshima, where between 70,000 and 80,000 persons are estimated to have been killed," Dr. Dublin notes, "cost the lives of more persons than the entire air death toll in World War I of any of the other belligerent countries, with the exception of Germany and, possibly, Russia. Nagasaki, where another atomic bomb was dropped, raised the total of civilian deaths from that weapon to between 105,000 and 120,000. Actually, the greatest loss of life in a single air raid in the entire war was that suffered by Tokyo on March 9, 1945, when 85,000 civilians lost their lives. Altogether, Japan's total civilian losses by bombing were 380,000 to 375,000, according to careful estimates of the United States Strategic Bombing Survey.

"Of the total civilian victims in World War II, at least two-thirds were nationals of the axis countries, with Germany far the heaviest loser and Japan the second. Germany's losses were about 500,000 according to the United States Strategic Bombing Survey. Of German cities, Hamburg experienced the most intensive bombardment. A series of attacks by the Royal Air Force in July, 1943 brought death to 60,000 persons in that city within the short period of three days.

"For the other axis countries there are only fragmentary figures, but the total losses of these countries ran to tens of thousands, with Italy suffering the largest toll.

"On the allied side Great Britain was probably the heaviest sufferer, next to Russia. More than 60,000 English civilians were killed between March 1940 and March, 1945. Other parts of the British commonwealth suffered civilian air raid

**THE GREATEST BAKING POWDER IMPROVEMENT IN 50 YEARS!**

Improved WITH... **FOOD CALCIUM**

**Bettors Bakings 3 Ways!**

1. **BAKINGS LOOK BETTER**... The FOOD CALCIUM in the new KC permits more even distribution of the fine, active ingredients throughout the baking powder. This promotes more uniform action—gives bakings the light, smooth texture and inviting rich appearance everyone enjoys.
2. **BETTER TASTE**... FOOD CALCIUM in KC prevents the "overpowering" of the rich natural flavor of other ingredients in your bakings. There's no bitterness or "Soda Taste" when you use the new KC.
3. **BETTER FOR YOU, TOO**... KC makes every thing you bake with it a valuable source of FOOD CALCIUM—adding 2 to 3 times more FOOD CALCIUM than the fresh milk used in a baking, depending on the recipe. Thus KC joins milk as a fine source of this vital food element.

## DEVIL'S LAUGHTER

By Alice M. Laverick Copyright, 1946, NEA SERVICE, INC.

THE STORY: I, Cecelia Hart, was only 17 when I came to Iau- fall that eventful summer to help out Cousin Ellen, who was the Fitzgerald's friend. Lovely Charlotte Brent captured my heart immediately but autocratic old Mrs. Fitzgerald, who ruled the household from a sick bed, frightened me at first. I had just heard her tell her nurse how plain I was.

IV  
I MUST have looked a little dis- heartened still for when I passed Miss Charlotte in the lower hall, where she was arranging flowers in two tall vases, she turned and looked at me.  
"Wouldn't you like to see the house, Cecelia?" she asked. And immediately I was dazzled again by her oddly vibrant voice and the divine fact that she was speak- ing to me, Cecelia Hart, as if I were someone of importance.  
I said I would love to, but secretly I thought I would prefer to simply gaze at her for the afternoon. The house was now a mere secondary attraction.  
I managed finally to take my eyes away from her and meekly followed into the dining room, with its gleaming mahogany and deep, soft rugs, where she showed me a bewildering amount of fam- ily silver, fabulous linens and delicate china embossed with tiny green shamrocks. Her movements were all quick and she used her hands a great deal as she talked.  
At the door of the Professor's study, which was off the dining room, she stopped. "We'll just peek in here," she said, "we won't go inside. If we disturbed any- thing, we'd be drawn and quar- antined." She coughed then, and it was the first time I heard that nervous little laugh of hers. It surprised me somehow, there was such a shrill note in it.

THE study was an ordinary room and dusty but to me it was the room of a great man

and I should not have presumed to cross its threshold, even if she invited me to do so. I have said before that I had always stood in awe of Mark Fitzgerald. At this time, before I had even met him, this would have considerably understated my feelings. I was actually terrified at the thought of living in the same house with him. I knew that at the Academy they laughed at his touch of brogue, admired and respected the brilliance of his mind and feared his sarcasm. Also, I had seen his books at the Lynchester public library, serious-looking volumes which I had heard referred to as a distinctive collec- tion of essays. He had, of course, been offered much higher teach- ing positions, one at Trinity Col- lege in Dublin, Ireland, his own Alma Mater. There were many who considered such an eminent man rightfully wasted here in this little Massachusetts town of Lynchester, teaching science at an obscure academy for boys. But, as I have pointed out, the Fitz- gerald's paid little or no heed to what others thought or expected, but did as they pleased.  
Nevertheless, Mark Fitzgerald was to surprise me in many ways that summer. There was his inter- est in the old-fashioned flower garden that he dug and weeded and cultivated with as much con- centration as if it were the most important thing in the world. And the untiring patience with which he worked at tutoring two dull, over-grown boys who had to pass their exams in order to play football in the fall. Father Gene, it seemed, was an ardent football fan and without these two cre- tures the team would be crippled.  
There was also Mark's unex- pected speech of gratitude to me. But I should not speak of these things here. They came later.

NOW, standing in the study doorway, Miss Charlotte began to talk of Mark. With shining

eyes, she told me that he planned to take his sabbatical year when they were married and they would honeymoon in Europe. But everything depended on Aunt Honora, she added seriously.

"Poor Aunt Honora. We're really very worried about her." She laid her hand on my arm. "She's a very sick woman, Cecelia," she said. "Please don't mind if she seems—well, a little cross. She suffers so much."  
And at the sight of tears in Miss Charlotte's blue eyes, I would have promised to bear cheerfully any insults Mrs. Fitz- gerald might heap upon me.  
"Come on," she said. "I'll show you Aunt Honora's portrait." And we went into the living room then, that room that was to my eyes so wonderful, with its many windows and the French doors through which you caught glimpses of marble benches and square formal gardens.  
"Here it is," said Miss Char- lotte. "Of course, she isn't really my aunt, you know. But I love her so much. How do you like the picture?"

I looked up at the large oil painting over the fireplace and continued to look in stupefied sil- ence. For the woman in the pic- ture was handsome, aristocratic, even noble-looking. No resem- blance at all had she to the poor, shrunken creature in the huge walnut bed upstairs. I shivered a little and I think it was then that I received my first faint realization of the change time makes in all of us.  
It was while I was still gazing at the portrait that Ellen came, flushed with indignation, to find out what was keeping me.  
"It's all my fault, Ellen," Char- lotte said contritely. "I'm showing her the house. I'm sorry."  
Cousin Ellen cooled off some- what at this, but she sniffed sev- eral times while we were prepar- ing dinner and told me that since I had wasted so much time, she could not now show me how to serve. So tonight she would do it herself, while I helped dish up in the kitchen. But, mind, in the future I was to serve all the meals.

### First Conference of UNESCO Opens in Paris Nov. 4

Do you have any questions on the United Nations? To help the people of this country better understand the Charter and their responsibilities to world organiza- tion, the American Association for the United Nations is answering questions received reflecting the tremendous interest today and always for lasting peace.

Question: When will the United Nations Educational, Scientific and Cultural Organizations begin to function?

Answer: The first General Con- ference of UNESCO will open in Paris on November 4th. Although only seventeen signatures have been received to date, it is expected that the requisite twenty will have been deposited by that time. The Pre- paratory Commission has approved an agenda and has prepared a list of projects—those already begun, those to be undertaken within two years and long-range projects for the future.

Question: What is the status of the Trusteeship Council?

Answer: It has not yet been pos- sible to set up the Trusteeship Council. According to the terms of the Charter, the Council must be composed of an equal number of countries administering trust areas and countries not administering such areas, including the five per- manent members of the Security Council—China, United Kingdom, USSR, France and the United States. France, Great Britain and Belgium announced their intention to place their former mandates under trust- ship and draft terms of trustee- ship for some areas are being ne- gotiated, subject to approval by the General Assembly. If trust agree- ments are concluded and approved for these British, Belgian and French mandates, the Council could then be formed with three coun- tries as the administering countries and China, Russia and the U. S. as the non-administering coun- tries.

Question: What has been decided at the UNRRA Council meeting now being held in Geneva?

Answer: No decisions have been taken as yet. The Council will pre- pare recommendations for presen- tation to the Economic and Social Council regarding the activities which should be continued after it ceases to function. December 31, 1946, in Europe and March 31, 1947, in the Far East. The World Health Organization and the International Refugee Organization are slated to take over relevant sections of UNRRA's work. The International Bank for Reconstruction and Devel- opment may provide financial as- sistance upon recommendation of the Temporary Sub-Commission on

### OUR BOARDING HOUSE

### Revenue Collections Total Over 1 Billion

WASHINGTON — (AP) — Texas with 5.12 percent of the nation's 132,463,174 population, provided 2.64 percent of total internal revenue collections in the year ended June 30, a population-income breakdown by the internal revenue bureau shows.  
The report showed a total col- lection of \$40,672,096,997 with New York with approximately one-tenth of the national population, provid- ing almost 20 percent of the total collections.  
Texas collections for 1946 totaled \$1,047,306,132.46 as compared with \$1,152,529,149.12 for 1945.

### Geysers are found only in the United States, Iceland, and New Zealand.

### WITH MAJOR HOOPLE

### Economic Reconstruction of Devastated Areas. Unless other provisions are made, direct relief will be dependent upon private agencies.

Question: Why does the Danube figure so prominently in the peace treaties?  
Answer: The Danube is the prin- cipal waterway of southeastern Eu- rope and vitally affects the eco- nomy of a large number of coun- tries. Since 1856, efforts have been made to apply the freedom of the seas to the Danube and stipulations regarding this were written into the peace treaties after the first World War.  
Note: Send your questions to Question Box, American Association for the United Nations, 45 East 65th Street, New York 21, N. Y.

### Sugar, Not Frost, Gives Fall Color

(AP) Newsfeatures  
WASHINGTON—It's sugar and not Jack Frost that tints the foliage of autumn with reds, yellows and oranges, says the forest service of the U. S. Department of Agriculture.  
Popular belief to the contrary, tree leaves actually change color be- fore cold weather begins as part of the plants' preparation for winter.  
"All during the spring and sum- mer," says a booklet just released by the service, "the leaves have served as factories, where foods necessary for the tree's growth have been manufactured. In the fall when the cool weather causes a slowing down of the vital processes, the work of the leaves comes to an end. The machinery of the leaf factory is dismantled. Whatever food there is on hand is sent to the body of the tree to be stored for use in the spring.  
"All that remains in the cell cavities of the leaf is a watery sus- tance in which a few oil globules and crystals, and a small number of yellow, strongly refractive bodies can be seen. These give the leaves the yellow coloring. It often hap- pens that there is more sugar in the leaf than can readily be transferred back to the tree. When this is the case the chemical combination with other substances produces many color shades, varying from the brilliant red of the dogwood to the more austere red-browns of the oak."

### Henry Pu-Yi Suffers Severe Memory Lapse

TOKYO (AP)—Henry Pu-Yi, in a garbled mood, testified yesterday that Japan made opium addicts of Manchurians to keep down revolt and was planning an invasion of Soviet Russia while he was puppet ruler of Manchuria, but later suffered a severe lapse of memory under de- fense questioning.  
Pu-Yi fenced off every defense ef- fort to get him to admit that in the late 1920s there was any banding under Chinese generals, that the Manchurians were oppressed or that warlords burdened their people with taxes.  
But Pu-Yi brimmed over with in- formation for the prosecution ear- lier.  
Testifying that Japan made opium addicts of the Manchurian peo- ple, he declared the Nipponese Kwantung army promised it would suppress the use of the narcotic but instead built up an opium business that nets \$200,000,000 profit yearly.  
Bolivia is the fifth largest coun- try of South America.
