 On Oct. 17, 1945, the criminal appeals court ordered that Traxler must answer an indictment brought in Walker county, charging robbery with firearms, in Fayette county on a change of venue. The court also set aside a judgment of the Harris county criminal district court holding that if Lipscomb county did not claim custody of Traxler in 15 days, he should be discharged from all further restraint under the original Lipscomb county indictment.

THE GREATEST BAKING POWDER IMPROVEMENT IN 50 YEARS!

Improved WITH... **FOOD CALCIUM**

BETTER BAKINGS 3 WAYS!

1. BAKINGS LOOK BETTER... THE FOOD CALCIUM in the new K.C. permits more even distribution of the fine, active ingredients throughout the baking powder. This promotes more uniform action—gives bakings the light, smooth texture and inviting rich appearance everyone enjoys.
2. BETTER TASTE... New K.C. assures full flavor of other ingredients—in your baked goods you get no soda taste from K.C.
3. BETTER FOR YOU, TOO... K.C. makes everything you bake with it a valuable source of FOOD CALCIUM—adding 2 to 5 times more FOOD CALCIUM than the fresh milk used in a baking, depending on the recipe. Thus K.C. joins milk as a fine source of this vital food element.

Double Action K.C. BAKING POWDER

RELIEVE THAT TORMENTING PIN-WORM ITCH

It is no longer necessary to put up with the trouble caused by Pin-Worms! A highly effective way to deal with this ugly infection has been established. Ask your druggist for P.W., the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son. The small, easy-to-take P.W. tablets act in a special way to remove Pin-Worms. So don't take chances with the embarrassing rectal itch and other distress caused by these creatures that live inside the human body. If you suspect Pin-Worms, get JAYNE'S P-W and follow the directions. Your druggist knows: P-W for Pin-Worms!

Admiration Coffee

The qualities of leadership must be outstanding—and to keep leadership those qualities must be maintained. ADMIRATION is the leader among the coffees in the Southwest—and those standards that have earned it that distinction are carefully maintained by the ADMIRATION "Cup-Testing" process. Cup after cup, day after day, year after year, ADMIRATION is tested BY TASTE to make it the distinctive blend that never varies. The personally "Cup-Tested" ADMIRATION way is the only way to assure the same perfect blend—package after package.

CALLIHAM-HERNDON VOWS ARE READ IN PRETTY CEREMONY

PANHANDLE—(Special)—In a beautiful double ring ceremony at the Conway Community church, Sunday evening at 7:30 o'clock, Miss Opal Calliham, daughter of Mr. and Mrs. Ray Calliham of Claude, became the bride of Clyde (Gabe) Herndon, son of Mrs. Faye Herndon of Panhandle.

Rev. James Todd, pastor of the First Christian church of Panhandle, read the ceremony before an altar banked with palms, fern and baskets of white gladioli. Four tall bronze candelabra held

While the guests were assembling Mrs. Douglas Smith of Panhandle played the "Kashmiri Song" and "Always," Paula Faye Calliham, cousin of the bride and Max Morris the bride's brother, lighted the candles. Miss Mary Lee Abbott of Canyon sang "At Dawning" and "Because," accompanied by Mrs. Smith.

As Mrs. Smith began the playing of "Lohengrin's" wedding march, Rev. Todd entered the door at the left front of the church followed by the bridegroom and his brother, Joe, who served as best man. They took their places before the altar followed by the ushers, who came down the center aisle—preceding the bridesmaid, Mrs. Spicer Gripp and Miss Mary Anna Roberts, of Amarillo, aunt of the groom as bridesmaids.

The bride chose a gown of white slipper satin, with a sweetheart neckline and ornaments of seed pearls, long pointed sleeves, a scalloped basque and a full skirt with a moderate train. Her fingertip length veil was attached to a bonnet of net with clusters of orange blossoms. She carried a white Bible topped with an orchid and streamers of white satin ribbon, knotted with stephanotis. She wore a pearl necklace, belonging to her mother for something old.

Mrs. Gripp and Miss Roberts wore dresses identical in style, with a satin bodice and three tiered skirt of net. Mrs. Gripp's dress was canary yellow, and Miss Roberts, pale green. Mrs. Billy J. Burgin, sister of the bride, who served as matron of honor, wore a dress which was slightly different in style and orchid in color. All attendants wore shoulder length veils attached to bonnets of net with white carnations, and carried colonial bouquets. Master Marvin Miller, Jr., of El Paso, nephew of the bride, was ring bearer and his sister, Linda Kay, was a flower girl. Zelda Mae Weatherly, cousin of the bride was also a flower girl. Linda Kay wore a floor length

Automobile Stolen in Amarillo Recovered

The automobile of Mr. and Mrs. J. F. Williams, Hereford, stolen in Amarillo on Sunday, Sept. 29, was recovered by Deputy Sheriff C. M. Tucker on Route 66 near Groom.

According to Tucker's report, the car had one flat tire and no oil in the engine.

Tucker was driving along the road when he spotted the car and stopped to check it, then towed it to the home of County Commissioner Tom Kirby. Further checking showed that it was the Williams' car that was reported stolen from Amarillo.

At aches at the sheriff's office informed the owner who later identified the car. The Williams will come back to Gray county today to take the vehicle home.

er as the conference, with the Italian treaty out of the way, took up the second of the five drafts before it. He was joined in his plea for free commerce on the Danube and free trade throughout the Balkan nations by British Foreign Secretary Ernest Bevin.

"The task of rehabilitating Europe is made infinitely more difficult," Bevin said, "so long as there is a barrier between the west and the east in the Danube area and the commercial interests of the west are met in Romania by a whole host of discriminatory acts."

Bevin said that the Russian proposal, which sought "to restrict the use of the Danube exclusively to the countries along its banks, is not only a retrograde step but a deliberate discriminatory action against their allies."

"It is this policy which gives rise to a good deal of suspicion as to the designs of the Soviet Union in this part of the world," Bevin said.

Answering one Slav argument that the United States should think more about the St. Lawrence river than the Danube, Vandenberg declared that vessels of all nations are "welcome to use the St. Lawrence on terms of equality with those of the United States and Canada."

More than that, he told the 21-nation conference, which is striving to meet an Oct. 15 adjournment deadline, the United States is "reparative by proxy" so long as American forces are occupying sections of Germany and Austria to whose economic progress the Danube is "indispensable."

Forty-eight games, more than half of them conference affairs, will be played in the far-flung Texas schoolboy football race this week-

Sooners To Arrive in Pampa In Time for Workout Today

Sensing their mistakes of last week's game with Vernon, Pampa's Harvesters were set to go through their last workout today, preparatory to meeting the Norman Tigers here tomorrow night in the fourth game of the season for both teams.

Both elevens have unimpressive records—Norman having lost three and Pampa two of three—but both are in time for their workout today.

Scott's Scrap Book

By SCOTT RAFFERTY Seven wins and four misses out of a comparatively easy state last week our gridiron forecasting reputation in a rather precarious position.

NORMAN AT PAMPA—Both teams are on the rebound. Pampa has lost two straight, Norman three. Hoping for a dry night and taking the Harvesters.

OKLAHOMA AT TEXAS—A victory for Texas but it won't be like the Texas-Oklahoma Aggie game last week.

York's Four-Bagger Gives Sox One-Game Series Edge

By JACK HAND

BOSTON—(AP)—Once again a booming home run off the bat of balding Rudy York has boosted the American's league's Boston Red Sox into the driver's seat in the 1946 world series.

Holding a 2-1 game edge over the St. Louis Cardinals going into today's fourth game on York's clout and Dave Ferriss' 4-0 shutout pitching, manager Joe Cronin is able to come back with Tex Hughson, his No. 1 man.

Back at Fenway park, the Red Sox yesterday looked like an entirely different club than the bewildered and jittery team that split two games in Sportsman's park.

The next time he came up there was a man on second with two out and the birds pulled a half-way shift, leaving Whitey Kurovski at third but moving shortstop Marty Marion directly back of second.

Iowa State Grid Players Will Be Fed Horse Meat

By TED MEIER

NEW YORK—(AP)—Iowa State griders are going to be served horsemeat, but most other college football squads generally haven't reached that state—yet.

"We believe in red meat even if it's horse or goat meat," Oliver declared. "But we haven't had to eat that yet."

The meat shortage has reduced the Indiana griders of the Western Conference to eating chicken, but early replies to an Associated Press survey indicated that while meat is increasingly difficult to obtain, so far most schools have been able to get it.

Some—like Ohio State and Nebraska—have their own supply and expect no trouble. At OSU, the Ohio State agriculture school furnishes meat from its own cattle.

Sharp contrasts were reported at Yale and Arizona. A Yale spokesman said meat is "way below regular requirements and the squad is getting meat just occasionally."

'46 Cotton Crop Being Estimated At 8,724,000 Bales

WASHINGTON—(AP)—The agriculture department Tuesday estimated this year's cotton crop at 8,724,000 bales, on the basis of conditions prevailing Oct. 1.

This estimate compares with a forecast of 9,171,000 bales a month ago, with last year's crop of 9,015,000 bales and with an average crop of 12,553,000 bales for the 1935-44 period.

The acreage indicated to be harvested was estimated at 17,776,000 acres, the same as a month ago.

The condition of the crop on Oct. 1 was estimated at 63 percent of normal compared with 67 percent a month ago, with 70 percent a year ago and 71 percent for the ten-year average.

The yield of lint cotton per acre was estimated at 235.6 pounds compared with 247.6 pounds a month ago, 251 last year and 243.2 for the ten-year average.

Cotton ginned from this year's crop prior to Oct. 1 was reported at 2,334,399 bales compared with 2,177,768 to the same date last year and 3,998,130 in 1944.

The condition of the crop as of Oct. 1 indicated yield per acre:

- We fix flats.
- 24-hour service.
- We pick up flats.

Marshall Is Still Working for Peace

NANKING—(AP)—General Marshall, fighting for a resumption of negotiations to end China's intensifying civil war, flew to Shanghai today for a personal conference with Gen. Chou En-lai, the communist negotiator who yesterday rejected Chian Kai-shek's latest proposal for a 10-day truce in the government's Kalgan offensive to permit peace talks.

Marshall returned to Nanking tonight, silent on results of the talk. Meantime, Generalissimo Chiang Kai-shek, in a radio speech to the nation observing the 25th anniversary of the Chinese revolution, appealed to the Chinese communists to "abandon your plot to achieve regional domination and disintegration of the country by military force" and participate in a unified government.

The Generalissimo proposed the immediate convening of truce committees headed by General Marshall and U. S. Ambassador Stuart, with a promise that the government would issue a cease-fire order as soon as agreements are reached. The government and communists have equal representation on each committee.

(Because of the short time Marshall was closeted with Chou, it appeared probable the communist had remained adamant in his refusal to participate in peace talks, unless communist demands were met.)

Q's AND A's

Q—What is a kankajou?
A—It's a village on the Watut river in New Guinea.

Q—What is a kankajou?
A—South and Central American relation of the raccoon, with a long, prehensile tail like a monkey.

Q—Where do most of the flowers sold in London during the winter come from?
A—The Isles of Scilly, in the Atlantic off England's southwest corner. Islands are warmed by Gulf Stream and flowers bloom outdoors all year round. Before war Scilly shipped 85 million blossoms a year to England.

Q—What is a baseball parachute?

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912, AS AMENDED BY THE ACTS OF MARCH 3, 1933, AND JULY 2, 1946

Of the Pampa News, published daily except Saturdays at Pampa, Texas, for October 1, 1946.

COUNTRY OF TEXAS.

Before me, a Notary Public in and for the State and county aforesaid, personally appeared R. M. Julliard, who, having been duly sworn according to law, deposes and says that he is the Publisher of the Pampa News and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily, weekly, semi-weekly or tri-weekly newspaper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the acts of March 3, 1933, and July 2, 1946 (section 357, Postal Laws and Regulations), printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher, R. M. Julliard, Pampa, Texas; Managing editor, J. L. Swindle, Pampa, Texas; General manager, R. M. Julliard, Pampa, Texas.
2. That the owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.) C. H. Holmes, Mrs. R. C. Holmes, Trustees Santa Ana, California; Jane Holmes Hardie, Marysville, California; Harry H. Holmes, Colorado Springs, Colorado.
3. That the owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.) None.
4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's best knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation, has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.
5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the twelve months preceding the date shown above is 7221. (This information is required from daily, weekly, semi-weekly, and tri-weekly newspapers only.)

Demand for Labor To Gather Cotton Exceeding Supply

AUSTIN—(AP)—The demand for transient labor to help harvest a rapidly opening cotton crop is generally exceeding the supply in the south high plains and low rolling plains of Texas, the United States department of agriculture reported yesterday.

Harvesting of cotton progressed under fairly satisfactory weather conditions in most areas except in south and southeast Texas where wet fields caused further delay, said the USDA crop and weather report.

for the week ending Oct. 7.

Adequate to excessive surface moisture continued to prevail in all cropland areas of the state, and week-end rains relieved dry top soils in some northwest counties and built up needed subsoil moisture reserves.

The USDA reported sufficient moisture for the late sorghum crop to make a grain crop, but continued cool weather has slowed maturity.

Corn harvest made slow progress during the week, but a considerable part of the crop has been gathered.

A good crop of peanuts was being harvested in the northcentral commercial counties, but wet weather was delaying harvest of much of the south Texas late crop and some losses had occurred.

Part of the rice district was able to resume harvest but a large part of the district was still too wet for active field work.

A sweet potato harvest was becoming quite active in most districts.

Fair to excellent forage was reported over practically the entire state as range and pasture grass continued to make good development.

A crystalline form of penicillin which does not require refrigeration has been developed.

Texas Today

By JACK RUTLEDGE Associated Press Staff

There is too a pest paper. He is James Lorenz Nicholas. He hates rats. That's why he has spent the last 35 years killing them.

Bushy-haired, 77-year-old Nicholas claims modestly he has probably exterminated as many as 50,000,000 rats over the country.

He told Keith Fuller of the Dallas News that he kills them by psychology. Later on he mentioned poison.

"After killing several million rats," he said, "I stopped seeing them. People would take me to barns and warehouses, supposedly infested. When I got there—no rats. I believe that they could sense danger when I approached."

He scoffed at the theory that the smell of human hands will drive a rat away from a trap. He pointed out that rats exist only where there are humans. He said they have been together since earliest history.

He knows so much about rats he has written a book about them. It's called "Vandals of the Night." He says it's in the hands of a publisher, and tells everything there is to know about rats.

Magnanimously he passed out one of the secrets of his success. Use three baits and traps.

If you put out just one bait, they are suspicious, he explained. Put out two and they are still suspicious. Put out three, and the rats will eat.

He uses three baits with an odorless, tasteless poison. The baits can be fish, meat, some fruits or vegetables, and cereals or cooked articles. He said rats' tastes change just like humans.

He says rat killing is not a ratty racket. It does a lot of good. The only rat he ever hated to kill was in a prison. An inmate sentenced to die picked it up and cried: "He was the only friend I had."

Market Briefs

WALL STREET STOCKS NEW YORK, Oct. 9.—Stock leaders slided one to around 7 points on heavy selling today as the market suffered its sharpest break in more than two weeks.

An early downturn was led by rails and some motors and industrials, while steel softened under the impact of noon-hour offerings that flooded the market and left the tape two minutes behind for a short period. Prices then steadied but retreated again near the close with final indications of many losses at new lows for the year or longer.

Transactions totaled around 2,000,000 shares. Chrysler was a weak spot reflecting curtailment of operations. Packard dipped fractionally on a 25,000 share block, but General Motors held close to previous levels. Major losers included U. S. Steel, Bethlehem, Youngstown Sheet, Southern Railway, Union Pacific, Santa Fe, Southern Pacific, Kennecott, International Harvester, Goodrich, U. S.

Actions Taken to Channel Materials To Vets Listed

Housing Expediter Wilson W. Wyatt recently announced that he is taking drastic action to enable his goal of 1,000,000 housing units for this year to become a reality.

In regards to the Veterans Emergency Housing program, Wyatt listed the following specific actions which are being taken to channel more construction materials into

veterans housing: (1) Reserving from 75 to 100 percent of each scarce building material for priority holders, such reserves to be held indefinitely; (2) The addition of scarce building items to the list under priority control, bringing the total to 58; (3) Stricter compliance will be obtained through the inspection of sales of building materials, and provisions requiring distributors to keep complete records of such sales; (4) A reduction in the permitted weekly volume of non-housing construction from the current figure of \$48,800,000 toward a goal of \$35,000,000.

Wyatt said that the action that will benefit home-seekers most directly is the one that places under priority control almost every scarce item that goes in to a house, and directs that the greatest portion of each material be set aside indefinitely for home builders with priority rated orders.

NHA officials state that this late priority control should result in building materials being channeled away from non-residential construction. However, the housing shortage is so acute that relief will not be in sight for some time.

If Stomach Gas or Sour Food Taste Robs You of Sleep

Here's How You May Help, Whether You Eat 500 Pounds or 2000 Pounds of Food In a Year

You can't feel cheerful, be happy and sleep well, if your stomach is always upset. As you advance the "old stomach" needs more help. The reason is this: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour, indigestion, indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains very special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-eating of soda and other alkalis to counteract gas and bloating when what you badly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

LET'S HELP THE PHYSICALLY HANDICAPPED

Of all the "weeks" we are accustomed to celebrating each year, perhaps one of the most important is "Employment-Handicapped." Much comment is being written and spoken in support of the thought behind this observance. It is a noble undertaking to bring the attention of the nation to those persons who, being either mentally or physically handicapped in some way, need help. The plan is not only to help those who are not employed, but also to help the employed to find the kind of work suitable to his ability, as well as those who need more training of some sort.

Aside from all the good this program is undoubtedly going to render an estimated 1,500,000 of our civilian handicapped, there is one point that should be emphasized wherever the program is put into effect. There are handicapped people that might take advantage of the plan. Some such persons, for instance, might get the idea that they just as well get a better job—an easier one—though they might be well qualified for the jobs they held.

We hope this will not be the case, that those who are thus gainfully employed will not take advantage of a situation. There are enough physically handicapped people who need help.

From the employers' angle, it should be stressed in every community that when a handicapped person is employed at a job he can and will do, the community as a whole has gained something. Another satisfied citizen joins the ranks of a beneficial society.

It should be understood this program is not designed to help, especially, the disabled veteran. Although they will be helped, it is for civilians by and large. Disabled war veterans can get help through the Veterans Administration.

Let's look around, see if we cannot find someone whose circumstances can be improved with our attention. It is certainly a good cause.

In Hollywood

By ERSKINE JOHNSON NEA Staff Correspondent

HOLLYWOOD, (NEA) — Four years ago Xavier Cugat was worried about acting in the movies. Now he isn't worried at all. "I have discovered," he says, "that there is no such thing as acting in Hollywood. It all depends upon who you are squeezed in between. 'I am a star, yes? In Spain I am bigger than Franco? Why? Because I can act? No. 'I am a star because M-G-M squeezed me in between Lana Turner and Walter Pidgeon. M-G-M could take a watermelon and squeeze him in between Lana Turner and Walter Pidgeon and make them a star.'"

Gracie Reports

Well, I see that a gentleman who has been doing some political campaigning in Michigan thinks there should be a law against serving anything but chicken croquettes at banquets. His report covered 12,000 croquettes and a half to the mile. Personally, I think it was very clever of the man who arranged the menus that way if the food was good. How could they get anybody to push their plates aside and listen to political speeches? But, goodness! In my opinion, such a restricted diet could have a very bad effect on our politicians. I pointed out to George that if they kept on eating nothing but chicken croquettes, they might get up in congress and lay an egg. But he said it was already too late to worry about that.

ABOUT THIS MARITIME MUDDLE

WASHINGTON—(NEA)—Dicker to settle the third and fourth maritime strikes reveals what a completely bedeviled jurisdictional mess the ship operators and the maritime unions have got themselves into, with the public as usual doing most of the bag-holding. The strikes were called by the two unions "supervisory employees"—the deck officers and the licensed engineers. Deck officers are organized in the AFL, Masters, Mates and Pilots Association. Engine-room officers are organized in the CIO Marine Engineers Beneficial Association. Needless to say, the heads of the two unions won't speak to each other or meet in the same room. But both organizations have a real problem of existence on their hands. During the war, with some 5000 merchant ships afloat, most of which carried four or five deck and engine-room officers, membership of the two organizations approached 50,000. Now there are only 3000 ships in service, and the number may go down to 1500. That means no more than 30,000 jobs available now, half that many later.

NATIONAL WHIRLIGIG

news behind the news

MACKENZIE'S Column

By J. M. ROBERTS, JR. AP Foreign Affairs Analyst (Subbing for MacKenzie)

The United States delegation to the atomic control commission seems to be in the position of the man who tried to give away a solid gold brick—nobody's going to fall for that gag. The spectacle of a nation laying its minimum instead of maximum demands on the conference table at the outset, seeking both to clarify the issues and avoid haggling, apparently has the negotiators stumped. Diplomats don't ordinarily do business that way. They can't believe that there isn't some point somewhere, and have spent many weary weeks looking for it. To them, it seems, it would have been more "regrettable" for the United States to have fixed a high, even impossible, price on her atomic secrets, and then begin bargaining.

When Bernard Baruch presented the United States control plan to the atomic commission it clearly had the water squeezed out. Formulated in the light of more information about atomic bombs than is available to any other country, it constituted the greatest concession the administration felt it could make with regard to the nation's safety. Indeed, many people familiar with the possibilities of atomic development fear that safety may have been infringed upon. But the search for bargaining points has not been diminished by Mr. Baruch's insistence that the position before the world is a rock-bottom one. The Russians could hardly have expected that their counter-proposal, for an "honor system," would be accepted in the light that history throws on national interpretations of honor.

The recent Mexican "question" as to whether dangerous atomic processes could be placed under central international supervision, with only "denatured" fuels going to individual nations for peaceful purposes, must also be considered merely an effort to see if there is a field for bargaining. The commission's scientific report a few days before on how production of atomic power works contained the answer to that. In Hollywood Athletic Club, always has a yarn or two for us. Not to mention a couple of new muscles.

Among Paddy's satisfied customers are stars like Barbara Stanwyck, Joan Leslie, Maureen O'Hara, Mary Kay Morgan, Robert Taylor and Frank Morgan. There's also one Howard Freeman, an actor, whom Paddy has to keep fat. Howard weighs 250 pounds, and he must keep his weight up because he always plays fat men. One of Paddy's favorite clients is Gregory Ratoff. Once Paddy told him he couldn't have sweets to eat. Then he found him in the kitchen eating a big hunk of pie. Gregory looked up and said, "I'm joost eating an apple, Paddy. You said they were good for me."

INDIA'S RECKLESS MOSLEMS

(Kansas City Times) Spokesmen for India's Moslem League are busy explaining that their organization cannot possibly be held responsible for the recent riots in Calcutta, despite the fact that these started on the very day the league had chosen to inaugurate its new policy of "direct action" against the Hindus and the British in support of a separate Moslem state. Their arguments, unhappily, are far from convincing.

INDIA'S RECKLESS MOSLEMS

Thus one of the leading Moslem newspapers of Calcutta declares that the mob violence which cost some 3,000 lives really resulted from "the other side's premeditated direct action against the very idea of Moslem direct action." It appears to have been on the part of the executive committee of the Moslem league, which suddenly reversed its acceptance of a plan for Hindu self-government and virtually instructed its party members to resort to force.

INDIA'S RECKLESS MOSLEMS

This eagerness to disclaim responsibility may mean that the Moslem leadership is beginning to come to its senses. Almost every informed observer in India seems to have foreseen the consequences of the direct-action decision. It was tantamount to throwing a lighted match into a powder keg. Yet so far the league's executive committee still has not called off its campaign, and classes between Moslems and Hindus are reported to be spreading through Northern India, although not on the scale of the Calcutta riots. The British and the predominantly-Hindu Congress party continue to behave with restraint in the face of such provocation. But, as in China, a vicious people are being required to pay in blood for the inexperience and recklessness of their leaders.

WASHINGTON

By RAY TUCKER

SCANDAL—The record-breaking number of plane tragedies in recent weeks has provoked a demand by certain airline interests and high government officials for an old-fashioned investigation of the excessive secrecy with which the army and navy surrounded their electronic discoveries, especially radar, during the recent conflict.

The brass hats suffered from the same hush-hush complex which threw an "iron curtain" before the simplest operations on land and sea and in the air. As a consequence of this secrecy and exclusiveness, CAA and private companies are at least five years behind in the development of radar for commercial flying.

RADAR—Aviation experts consider it incredible that virtually no airline and only a few military planes carry radar equipment, which could prevent crashes into mountains even in the worst weather, and also lessen landing hazards. Only a negligible number of civil airports are equipped with radar, and existing facilities are used largely for experimental purposes.

Indeed, Mr. Baruch has been suggested as possible head of any study group. INDIFFERENCE—Although the failure to perfect radar equipment so that it can be used to prevent or avert accidents is one thing, the motive power behind the immediate demand, the whole question of developing and utilizing war-inspired

electronic devices has become a hot potato at Washington. Influential radar and aviation men inside and outside the government are frankly dismayed over official and congressional indifference to the importance of the problem. Some key civil aeronautics authority engineers and experts are alive to the need, but certain key figures show a surprising indifference. Another reason for backwardness in this vital field, according to those aware of the dangers ahead, is the excessive secrecy with which the army and navy surrounded their electronic discoveries, especially radar, during the recent conflict.

So They Say

Take the teen-agers into the family conference. But don't let the family income be the family grab-bag. —Mrs. Elsie Stapleton, New York budget consultant.

The racially prejudiced are insecure, though externally they may exhibit confidence and even arrogance. They accuse racial groups of aggression, underlying weakness, preoccupation with sex, etc. Actually these are the things which the prejudiced find in themselves, but are unable to face in themselves. —Dr. Elsie Brunsvik, U. of California psychologist.

Last year we dropped a small, 65-pound pellet on a Pacific target. That pellet killed 200,000 people. It is shocking that we, a peace-loving nation, should have been forced to do that. —Dr. Guy E. Snavely of Washington Director Association of American Colleges.

dragged into their contests. The 1946 crop of democratic hopefuls will try to avoid such subjects as the meat shortage, rising prices, labor troubles, housing, the administration's on-again-off-again attitude toward Stalin and the Palestine problem.

LIABILITY—President Truman's active participation in local battles, according to these same politicians, might move a liability rather than an asset because most democratic nominees prefer to fight it out on local instead of national or foreign policies. They do not want Washington personalities or principles

Diplomats Like Separate Race

WASHINGTON—(AP)—Diplomats are like a race apart. They get special treatment. Laws that govern other people don't govern them.

The reason, of course, is this: A diplomat represents his country when he is abroad. The nation's visiting gives him special privileges so there'll be no interference with his work.

The latest reminder of all this comes from Nikolai Novikov, Soviet ambassador, who complains he was treated discourteously when he arrived at LaGuardia airport in New York last Friday.

Novikov reportedly complained that customs inspectors detained him an hour at the field, trying to persuade him to sign a statement that his baggage contained nothing illegal.

Foreign diplomats coming here must go through customs, but without examination of baggage.

They can't be arrested or jailed or sued in court for any reason. If a foreign ambassador killed an

Shade of Sycamore

By PERCY MARKS Author of "The Plastic Age" "A Tree Grown Straight" Etc.

THE STORY: Bart meets Gayle's brother, Jimmie, and Gayle announces the engagement. She is amazed at the amount of space given the story in the newspaper.

XVI
WHEN Gayle got back to New Haven she found that her anonymity, which she hadn't known before was precious, was gone forever; and before a week had passed, she thought despairingly that her privacy was gone.

The students at the school made a kind of awe of her, so that she found almost painfully embarrassing. She was to them a person suddenly transmuted by the Bartlett millions and Bart's fame. She was about to leave their world for a world of shimmering splendor all of them had read about but which most of them had never even glimpsed.

Gayle felt as if her life were being torn to shreds. Her work suffered, but that didn't matter particularly. She was completing only the third year; so she was a candidate for neither a certificate nor a degree. But she found little things unsettling her badly.

They all seemed menacing portraits of dreadful things for the future. A detail in her mother's first letter after her return disturbed her as much as if Bart had done something unkind, though what he had done was, she told herself, just typically generous.

But since it wasn't the kind of thing normally done in her home, it seemed to mean a good deal. "I wish you could have seen Belle," her mother had written.

"She went to Bart's room to straighten up after we left for the airport. When we got back she handed me a ten dollar bill and told me to send it to Bart. 'He forgot it,' she explained. 'He left it on the dresser.' When I told her he had left it for her, her eyes all popped out of her head. She was tickled to death.

American citizen here, he couldn't be arrested. If he ran up a big bill for something he couldn't be sued in any American court.

Further, you, an American, not only can't bring action against a bigtime foreign diplomat, but, if you try, you could be jailed under the laws of this country for as long as three years, and be fined.

Other representatives of a foreign government don't get the same full immunity from American laws that the top diplomats do. Other countries, but not all, extend to our diplomats abroad the same general kind of courtesies and immunities that we give theirs when they're here.

Some of these courtesies and immunities are agreed upon by treaty, some by international practices.

of course, but I think she was almost shocked too. It's too late to say anything to Bart now; so don't, but a dollar would have made her quite as happy. Now she'll look forward every time he comes to a big tip. Belle's only human; she'll be shocked only once.

"I ought to have known he would do something like that," Gayle thought unhappily. "Oh dear, if he spoils Belle! She's always been so sensible."

SHE did her best at the School, but it was hard to keep her mind at her work. Bart was at her continually, it seemed, with questions about the house.

Gayle had to go to New York so he could take her to Bronxville and show her the big double lot. She had to discuss plans with the landscape artist, and she had to discuss plans repeatedly with the architect. They had one magnificent fight, and Bart stood on the sidelines almost unbearably proud of Gayle and of her fortitude. It had never entered his head, he confessed later to his father, that she had so much scrap in her. "She told him," he reported proudly. "She certainly told him."

The fight had been over the location of the cook's bedroom. According to the plans, all the women servants' rooms were to be on the third floor. There was to be a room and bath for a man over the garage, with an extra room for a possible visiting chauffeur. Gayle insisted that the cook's room be next to the kitchen, and she said that the breakfast room should be made into a servants' sitting room. "We can do without a breakfast room," she said definitely. "We don't need one at all, and servants do need a parlor. They've got to have some place to sit and see their friends."

The architect was willing to

sacrifice the breakfast room to the servants, but he balked at adding a room for the cook. "Can't you see, Miss Kent," he protested, "what you are doing to the plans? You've studied art." He placed an indignant finger on the blueprint. "I can't stick a little room on here. Even with the bath, it'll look like a woodshed. Why, to keep the proportions, I'd have to build a room fully twelve by fifteen."

"Well, suppose?" He looked at her, amazed. "For a cook?"

"Cooks are people," she retorted. "A decent room won't spoil her. Now, listen to me, please. I've studied art, and I can see easily enough what you're talking about; but I've cooked too. I'm young, but I know how tired you can get after you've stood over a stove two or three hours. You ache. But there are times when you have to wait for things, and then you can rest—if there's any place to rest. You can't be running up to the third floor; I'll tell you that. It's got to be somewhere close."

"Well, we've put in a sitting room. What more could anyone want?"

"A place to lie down—a place to sprawl and take off your shoes. A good cook isn't apt to be young, and the older she is, the more she'll need a room right by the kitchen. Make it fifteen by twelve. It won't cost much more money, will it?"

"A good deal, Miss Kent. It's an extra room and an extra bath. Of course, we can pick up an old-fashioned tub cheap, perhaps."

"No! I want a tub with a shower. I tell you, when you've been working all afternoon getting a dinner ready, it's a life-saver if you can have a quick shower before the rush begins of getting things finished and on the table." She turned to Bart. "Ask your father, will you, please? I'd rather cut out one of the baths upstairs than give up the cook's bath."

"I'll ask him," Bart promised.

The cook had a room twelve by fifteen, and the bathtub was strictly up-to-date with an excellent shower.

Restaurant Meals Will Cost You More From Thursday on

By JAMES MARLOW
WASHINGTON—(AP)—It's going to cost you more to eat out. Restaurant prices on meals with meat go up 15 percent, starting Thursday, Oct. 10.

That's only part of the story. Here's the general picture. It revolves around the date of June 30. Until June 30 restaurants were not supposed to charge more for meals than they had in April, 1943. OPA had ordered it that way in order to keep restaurant prices down.

But June 30 came and on that day congress let OPA die. Right there all price controls on everything, including restaurant meals, died, too.

Price controls were off on everything until late in July when congress, passing new price control law, brought OPA back to life.

But congress had made some changes. Because of the way the new law was written, not everything that had been under price control June 30 had to go back under ceilings.

For example: poultry and eggs no longer were under price controls. And fish, which had not been under ceilings June 30, remained free of ceilings.

Yes, restaurants used a lot of fish, poultry and eggs in the dishes they served and the freedom from ceilings of those things meant a great deal to restaurants.

It meant that dealers who sold those foods to restaurants were free to charge whatever they could get for their fish, poultry, eggs.

If OPA had forced restaurants to go back under the ceilings they had on June 30, then this is what would have happened:

The restaurants would be paying higher prices for fish, poultry and eggs but could not charge more than they had charged June 30.

This would have meant a loss to the restaurants. So OPA told the restaurants they could do this:

When fish and eggs and poultry cost them more, they could add part of that cost to their meals which contained these things.

Thus the price to you—of meals containing those foods—were allowed to rise.

But then, after price ceilings were put back on meat, OPA told restaurants they could not charge any more for their meat meals than they had been charging on June 30.

This infuriated the restaurant people. Some of them tried to get federal courts to block this OPA order on meat meal ceilings. Many restaurants threatened to close down altogether if the OPA order went into effect.

So OPA finally gave in and said restaurants, starting Thursday, could charge 15 percent more for their meat meals.

In many cases it will mean more than a 15 percent boost because restaurants will be allowed to round out the increase—in nickels—on meals costing over 30 cents; and in pennies on dishes costing less than 20 cents.

For example: Say a roast beef dinner sells for \$1.50 today. On Thursday the restaurant can up the price 15 percent, which would be \$1.725.

That's an increase of 22½ cents. The restaurant, round out the price in nickels, will be allowed to charge \$1.75 for the dinner.

On a 15 cent sandwich, the two and one-quarter cent raise will be rounded out to the next penny, or to three cents. That will make the sandwich cost 18 cents.

So, generally, restaurant meals will cost you more from Thursday.

IMPORTED BRICKS
In 1934, England used 6,000,000,000 bricks for house building. Her 1600 brick plants were capable of producing only 4,500,000,000, but Belgium and other foreign countries made up the deficiency.

Texas, Louisiana Still at War on Shrimp Fishing

AUSTIN—(AP)—The shrimp war between Texas and Louisiana is still on.

The Texas game fish and oyster commission has just licensed six Louisiana boats to fish in Texas waters—at \$2,500 per license—but commission sources indicated this was just to pay the cost of enforcing the out-of-state commercial fishing license law. That included the purchase of a high-powered shrimp trawler that the commission uses as a patrol boat.

It was not considered likely that Texas would issue any more out-of-state licenses to Louisiana shrimpers immediately.

Under the law which sets the out-of-state commercial fishing license at \$2,500 annually, the game commission may refuse to issue permits to boats from states which discriminate against Texas commercial fishermen. When this law was passed by the 49th legislature, members advocating it said it was aimed at

Louisiana shrimpers who operated powerful boats in Texas waters. Executive Secretary Howard Dodgen of the commission was flooded with protests from Texas shrimp boat operators when they learned that six licenses had been issued to Louisiana trawlers. They howled by mail, telegram and in person.

But game commission officials believed they were satisfied when they learned that no more licenses were to be issued, and that the six sold were to pay the enforcement bill.

Dodgen also announced that he has employed a former navy radio operator and installed a short wave set on the Texas patrol boat to monitor broadcasts between radio-

equipped Louisiana boats and shore stations. They have been using the radio to keep each other informed on the whereabouts of the Texas patrol boat, Dodgen said.

Effect of Labor Fight on Film Production Discussed

By BOB THOMAS
HOLLYWOOD—(AP)—Cameras were still grinding and stars were still glittering in front of them today as the Hollywood labor battle entered its third week. Film making has been slowed, but not stopped.

Some studios have been cagey about releasing production news, fearing that an optimistic report would bring bigger picket lines. But it is apparent that although not all studio jobs are being done, the "staff" is getting on celluloid. And that's what pays off.

Selznick has postponed two epics, but most of the other studios are plodding along. How much new production can be started is problematical, although two films, a Maise picture and the expensive and sexy "Forever Amber" got the starting gun this week.

The actors seem to be more concerned about the studio strife than any of the other workers. After a picture starts, anyone can be replaced by the actors. Some performers are even sleeping at their studios.

The screen actors guild has instructed its members to pass the picket lines, but most of them do so reluctantly, some fearful of their personal safety. Yesterday Marilyn Maxwell was driving into M-G-M when a picket stood in her path. He was removed by police and she drove through, casting him a smile.

"Don't think you'll get by with a smile," he said, scaring the be-jeepers out of her. She and many other performers fear a possible act which might endanger their faces and therefore their fortunes.

The battle is not without its humor. In a scuffle at MCM one day a little man was shoved inside with a bunch of employees who were going to work. "Hey, let me out," he shouted. "I'm a picket!"

At Jerry Ward's opening at the Palladium Frank Sinatra made his first public appearance since his break-up with his wife. He was with his band leader, Axel Stordahl, with whom he is living—it's the little things in life that count. Henry Fonda was bitten in the eye by an insect and "a time to kill" shut down, costing thousands of dollars.

Barbara Hale and Bill Williams will do a husband-and-wife appearance tour. First stop: Duluth—the Cleatus Caldwell-Bob Hutton wedding is postponed until they find housing—Joel McCrea and Frances Dee made one of their rare public appearances at the "inspector general" opening at Actor's lab. The show is below lab par—Esther Wil-

kins retires for several months after making underwater shots for "This Time for Keeps." Close-ups, of course.

In the film palaces—"Angel on my Shoulder" (UA-90 minutes) is the most effective movie fantasy in a long time. It concerns the devil and his effort to raise a little hell on earth. Claude Rains is high perfect as Satan, and Paul Muni, as a gangster, reaches the heights he achieved before he became too artistic.

They swear that anybody who jays on the "Lady from Shanghai" set is fined two bits. Orson Welles, however, loses a buck, on account of his writer, producer, director and co-star.

The name Vermont is derived from the French "verd mont," meaning green mountains.

Association Will Have Ladies Night
The Purchasing Agents association of the Panhandle will hold its annual ladies night dinner and dance at the Mexican Inn, Amarillo, Friday night at 7:30. It was announced today.

E. F. Lau, of Borger, is president of the group; and John Price, Amarillo, is secretary.

MERCY ASKED FOR NAZI NUERNBERG—(AP)—Pope Pius XII has asked the Allied control council to be merciful to Hans Frank, former Nazi governor general of occupied Poland, who has been sentenced to hang by the international military tribunal. Dr. Alfred Seidl, Frank's attorney, said last night. Frank was converted to Catholicism after his arrest.
