Passenger Train Plows Into Freights

MANFIELD, O., (AP)—An official of the Pennsylvania Railroad estimated today that at least 15 persons were killed and 50 injured when the railroad's "Golden Triangle" passenger train plowed into the wreckage of two freight trains early this morning.

The rail official, who declined to be identified by name, told newsmen at the wreck he felt that was a "conservative estimate" after looking over the wreckage left by the pileup which occurred about 1:45 a. m. (CST), near Coulter, 12 miles southeast of here.

Two coaches of the passenger train carrying soldiers overturned and some of the passengers were trapped in the wreckage. Rescuers, with flow torches cut through twisted steel to reach the victims.

"The seats were twisted and turned every which way," Sheriff Frank Robinson of Richland County said of the overturned coaches. Physicians and nurses from surrounding communities climbed into the wrecked cars to administer aid to the injured.

The scene was one of terrible havoc, Sheriff Robinson reported. "The rails were badly twisted," he added. "Cross ties were splintered and torn from the road bed."

Physicians and nurses from surrounding communities climbed into the wrecked cars to administer aid to the injured.

"I ran back inside, hollering for See TRAIN WRECK, Page 6"

"The seats were twisted and turned every which way," Sheriff Frank Robinson of Richland County said of the overturned coaches.

U.N. Urges Members To Break With Franco

NEW YORK—(AP)—The United Nations General Assembly today tossed one of its hottest issues into the laps of its 54 members by recommending withdrawal of ambassadors and ministers from Franco Spain and a British spokesman immediately announced his country would "very shortly" recall its ambassador from Madrid.

A government source in London said Sir Victor Mallet, British ambassador to Spain, would be recalled in accordance with the U. N. resolution declaring the Franco government to be a "Fascist regime."

The United States has had no ambassador at Madrid since the return of Norman Armour.

To strengthen its recommendation for action, the assembly included a clause asking all members to report what action they had taken.

The final resolution, a compromise gleamed from a series of proposals ranging from outright economic sanctions to a direct appeal to Generalissimo Francisco Franco to get out, also made these specific recommendations:

1. That the Franco government be barred from membership in any organization affiliated with the U. N. The present Madrid government was barred from membership in any organization affiliated with the U. N. itself.

2. That if the Franco regime still remains in power after a "reasonable time" the Security Council consider "such measures" to remedy the situation.

The action was taken by a vote of 34 to 6, the negative votes coming from Argentina, Costa Rica, Dominican Republic, Ecuador, El Salvador and Peru.

Former Pampan Finds Himself in 'Trouble' With Perryton Lions

Harry Kelley is in trouble—deep trouble. The Pampan who recently took over the job as manager of the Spearman Chamber of Commerce has committed an unpardonable crime against the Perryton Lions Club.

In a letter to a certain Pampan that was intercepted in some manner by the Perryton Lions, Kelley asked the Lions for help in extricating himself from the storm of punishment inflicted by the Perrytonites.

Here's the story as it was learned here today: Kelley, a Lions Club member, visited the Perryton Lions one day, and as is the custom, acted as honorary tail-walker, whose duties are to levy small fines against members for various mistakes.

Now, the pride and joy of the Perryton Lions is "Porky Pig," a small, dime store piggy bank which the tail-walker uses to deposit the funds in.

It seems that Kelley must have let "Porky Pig" slip from his hands and, needless to say, Porky is no more. The grief-stricken Lions Club members, with the aid of a local funeral director, have figured up funeral expenses for "Porky Pig" of \$500.00 to be withheld from Kelley's salary as manager of the Spearman chamber.

In his letter, Kelley pleads: "I would like for you to get me out of this. I have written several letters to the Perryton Lions and help get me out of trouble. I kin assure you it wuz an accident."

Hope Given Up For Lives of 15 of Victims

NEW YORK—(AP)—Wearied workers who dug the bodies of 21 persons from the wreckage of a collapsed tenement house in a slow, grim procession of death gave up hope today for the lives of 15 others believed buried under tons of rubble.

The broken body of Rose Fussi, 15, was carefully extricated from the ruins, police said they planned to set three steam shovels to work on the ruins of the building in which more than 30 were injured.

The building at 2515 Amsterdam Avenue in Upper Manhattan, which housed 22 families, was smashed early yesterday by a two-foot thick wall of an adjoining ice house which toppled on it after a five-alarm fire in the ice house.

Rescue workers toiled all night in the glare of huge searchlights which played over the six-story structure's gaunt remains. They had to abandon most of their heavy power machinery and resort to bare hands and small tools in an effort to avoid another collapse.

Shortly after 12 a. m. (CST) today—nearly 24 hours after the building toppled following a fire in an adjoining abandoned ice-house—the bodies of a mother and two children were removed from the debris. One child still clutched a gaily wrapped Christmas package.

They were identified as Mrs. Elizabeth Biancardi, 37, and Joyce, 12, and Lucille, 8. The body of another Biancardi daughter, Monica, 6, was recovered earlier.

Timothy P. Guineen, assistant fire chief in charge of the rescue operations, said shortly afterwards that he doubted there was anyone left.

Two Die as Cars Crash as Result Of Flash Flood

DALLAS—(AP)—A flash flood that inundated U. S. Highway 77 near Lewisville, Denton County, early yesterday was said by police to have caused an accident which took the lives of two persons and injured four others.

Miss Norma Womack, 19, of Fort Worth, a student at North Texas State College, and Buddy Lee Hindman, 20, of Electric, Texas, on 30 days leave from the Navy after spending three years overseas, died last night of injuries received in the accident.

Miss Womack died in a Fort Worth hospital. Hindman died in a Dallas hospital.

The injured were the dead youth's brother, Freddie, 18; a cousin, Ronald McCoy, 17, of Denton, Miss Betty Johnson of Salida, Colo., and Miss Mary Ruth Scott of Athens, Texas, both students at North Texas State.

Policeman C. T. George of Denton said the flash flood backed up over the highway shortly after midnight Thursday, making it nearly impossible so quickly that guards had not been placed.

Hindman, driving a car carrying his brother, cousin and three girl students of North Texas State College, stopped behind a parked truck to wait for the waters to subside.

A few minutes later another car driven by Miss Patsy Lovejoy of Gatesville and carrying three other girls, all students at the college, George said, collided with the back of the Hindman car.

Other passengers in the cars were not injured were Miss Marjorie Means and Miss Marilyn Rice of Ferris and Miss Jane Weeks of Longview, Texas.

Man Injured Only Slightly In Leap From Burning Plane

McALLEN—(AP)—A leap from a burning crop-dusting plane resulted only in a fractured rib for Pilot Tommy Hecklin, 30, of Edinburg.

Flying too low to use his parachute, Hecklin jumped and landed in a plowed field yesterday shortly before the plane crashed into a citrus orchard near here.

The plane was believed to have struck a power line before it caught fire.

Hecklin was brought to a McAllen hospital, where it was found that the rib fracture was his only injury.

Gradual Lifting Of Strict Curbs On Building Seen

WASHINGTON—(AP)—A gradual lifting of the present strict curbs on non-home building reportedly is being advocated by Housing Expediter Frank R. Creedon.

This disclosure came privately from government associates of the new housing boss as Creedon himself said that administration leaders in closed sessions today (1 p. m., CST) and probably tomorrow scheduled testimony before a revamped housing program by week's end.

It was taken for granted that the web of Federal controls left by Wilson Wyatt, who resigned last week, would be loosened to some extent, but no details today.

Stewart, chairman of the Senate small business subcommittee now holding hearings on housing decontrol, said shortly afterwards that he doubted there was anyone left.

GRAVE WARNING—With serious warning, Secretary of State Acheson addressed U. N. Atomic Energy Commission at Lake Success, N. Y., warning against delay in outlawing atomic warfare. He urged adoption of his plan for control of atomic energy.

Committee Agrees On Principles of Arms Slashing

NEW YORK—(AP)—The United Nations sped toward final action on the principles of a world-wide arms reduction program today when the general assembly's powerful Political Committee approved unanimously a draft resolution laying down the general terms of the arms plan.

The 54-nation committee, meeting at Lake Success, sent the measure to the assembly for final action after making a few minor changes. In view of the unanimous vote, it was assumed of adoption by the assembly.

The resolution recommended that the Security Council formulate plans for armaments limitations and set up inspection and control machinery to detect and prevent violations.

The machinery will be free of the big power veto. It must be approved finally by a special session of the general assembly and then be ratified by individual states.

The program includes provisions for the outlawing of atomic bombs and other weapons of mass destruction and the control of atomic energy used for peaceful purposes.

LAKE SUCCESS, N. Y.—(AP)—The United Nations Headquarters Conference, having decided to accept John D. Rockefeller Jr.'s proffered gift of an \$8,500,000 piece of Manhattan real estate, will meet this afternoon to discuss the details of shaping the housing drive, the former construction engineer replied.

"We are considering the housing program as of today—yes."

They would not elaborate, but when asked whether he proposed to make a few minor changes. In view of the unanimous vote, it was assumed of adoption by the assembly.

"We are considering the housing program as of today—yes."

FLAME DANCE—Like weird dancing figures engulfed in flames, a war-born airport fog dispersal device is pictured being tried out on runways at Landing Aids Experimental Station, Arcata, Calif. The system, called "FIDO," was developed at British airfields during the war and may be an answer to commercial aviation's pressing weather problem.

Witness Is Subpoenaed to Shed Light on Bilbo Case

One Dead, Seven Injured in Three Wrecks Near Here

One person was dead and seven were injured as the result of three automobile accidents in the Pampa area last night and this morning, with at least one of the accidents attributed to fog and wet pavements.

Alvin Schroeder, 20, son of Mr. and Mrs. Ora Schroeder of Spearman, was killed shortly after midnight last night when the 1946 Ford in which he and a girl companion were riding overturned on a curve three miles north of Canadian.

His companion, Shirley Sprague, whose address was not learned, was not seriously injured.

The young man's body is at the Stickley Funeral Home in Canadian. Funeral arrangements are incomplete.

A head-on collision one mile west of McLean this morning at nine o'clock hospitalized four persons, none of them believed seriously injured.

Witnesses told state highway patrolmen that a 1939 Chevrolet coupe driven by Mrs. Mattie Lou Lannom of 106 N. Houston, Shamrock, was in collision with a 1946 Oldsmobile occupied by Mr. and Mrs. George O'Brien of Minnesota.

According to witnesses, the two cars collided as the Minnesota car was attempting to pass another car on the slick pavement.

Mrs. Lannom is in Shamrock City Hospital suffering from shock. Her employer, J. R. Cheatham, Perryton, who was in the car, was injured for minor injuries and released from the hospital. Mrs. Lannom is Cheatham's secretary. He is the operator of the Cheatham Freight Lines of Perryton.

Mr. and Mrs. O'Brien were brought to Worley Hospital in Pampa in a Clegg Funeral Home ambulance.

The other accident occurred last night two miles west of Panhandle.

Injured were Miss Florence Dillman of Pampa and J. I. McIntire of Borger. Miss Dillman suffered a broken left arm and several skin lacerations. McIntire suffered cuts and bruises.

The accident occurred when the car in which the two were riding ran into a partition and trailer house on the highway.

Trial on Murder Charge Held Over

LAS VEGAS, N. M.—(AP)—Frank W. Kelchline held for trial at the next term of court in June, 1947. The defendant was released under the same \$10,000 bond which he posted shortly after being charged.

Ferry also from San Angelo, was shot and killed at a mountain resort where witnesses said he was registered with Kelchline's wife.

Judge Armijo yesterday also continued until the June, 1947, term of court the case of Mrs. Ruth Ribb Rau, who is charged with manslaughter in the fatal shooting of her husband, Howard Rau, on a ranch near Las Vegas last May 31. Mrs. Rau has pleaded innocent.

In a statement after the shooting, Mrs. Rau, a former rodeo queen, told officers that her husband, formerly of San Angelo, was fatally wounded when the discharge of a revolver over which they scuffled during a quarrel.

WTSC Veterans Vote Strike and Begin Picketing

CANYON—(AP)—West Texas State College students, demanding the resignation of Virgil Henson, college business manager, voted to strike today and immediately began picketing the administration building.

A strike vote was taken this morning, when Henson failed to resign by a 8 a. m. deadline, students refused to attend classes and began picketing.

War veterans led the protest because of housing conditions which they claim are entirely inadequate.

Members of the Board of Regents are meeting here today to discuss two new dormitories, and President J. A. Hill has arranged for the regents to hear the protest of the veterans.

After a stormy assembly yesterday a group of student veterans, with the apparent support of the student body, issued an ultimatum to officials of the college demanding Henson's removal and threatening to strike and throw up picket lines if their demand was not complied with.

Leader for the group was Leo Steinkoenig of Wichita Falls, a disabled veteran who was formerly a football player at West Texas and who is resident of the College Veterans Association.

Complaints against Henson concern his administration of veterans housing.

Man Given Death In Murder Trial

PLAINVIEW—(AP)—A 64th district court jury last night found W. Fred Jones, Floydada grocer, guilty of murder in the fatal shooting of H. C. Love, Jr., last Sept. 27 and set the penalty at death.

Defense Attorney E. T. Miller told reporters he would make a motion for a new trial today.

Love, who was employed by Jones, was fatally wounded by a shotgun blast in front of the Jones' grocery about 11 p. m. Sept. 27. He died the following day.

Testimony at the trial showed that the shooting followed a drinking party in which a number of persons took part. The defendant's wife testified that she and Love left Jones at the store and went to the Floydada school grounds, where they had intimate relations in Love's parked car.

Jones, taking the stand in his own defense, said he had a lapse of memory after finding his wife and Love in what he called a compromising position in Love's automobile in front of the store and did not remember events for some time after Love was shot.

Pampan Returns from Relief Conference, Visits Capital, Attends Session of UN

The Rev. Russell G. West, pastor of the Church of the Brethren here, has just returned from a 10-day conference of the Brethren Service Workers at New Windsor, Md., on world food and clothing problems.

While in the East, Rev. West, who in the past has been active in relief work here, visited at the Capital and also sat in on a session or two of committees working at the United Nations conferences, Lake Success, N. Y.

On Thursday, Dec. 5, he sat in the conference room where the nations were arguing the disarmament issues. In reference to the seating arrangement, he said Sen. Tom Connally, member of the U. S. delegation and V. M. Molotov, member of the Russian delegation, sat side by side. "They are almost jammed up against each other," he explained. "All and all, there's a wondering

Area Lions Clubs to Meet at White Deer

Representatives of four area Lions Clubs are scheduled to attend a zone meeting of that organization at the White Deer High School Tuesday, Dec. 17, at 4:30.

Officers and program committee members of the Groom, Panhandle, White Deer and Pampa clubs have been invited.

The program includes: Duties of club presidents and secretaries, committee organization and committee work, objectives for 1947 (finance, attendance, activities, membership), duties of boards of directors, and other activities.

Delegates to the meeting have also been invited to the White Deer Lions Club ladies' night program that evening at 6 o'clock.

Members planning to attend are asked to notify the White Deer club.

Little Hope Held For Missing Men

SEATTLE—(AP)—Hopes waned today for the 32 marines aboard a Marine Corps transport plane when it disappeared Tuesday afternoon enroute here from San Diego, Calif.

White House sources were silent, searchers, chafing under inactivity enforced by some of the worst storm conditions in a decade, expressed their mingling plumes.

They were based on Mount Rainier, to begin a search of its slopes, particularly on Nisqually Glacier, above 8,000-foot altitude as soon as the weather permits.

The plane, last reported herself south of Toledo, Wash., at 2:13 p. m. (CST) Tuesday, Toledo is some 40 miles southwest of the mountain.

Search turned to Mt. Rainier after Park Supt. John C. Preston reported hearing a plane overhead about 4:15 p. m. Tuesday during a heavy downpour, and a Ranger at Paradise Valley, near the glacier, also told of hearing the plane.

The plane was one of six transferring marines to Seattle. The weather forced four to stop at Portland. A fifth made it safely to Seattle.

9 SHOPPING DAYS LEFT

Gather Ye Rosebuds

By **ANNETTE COVERT NOLAN**
Copyright by J. C. Nolan
Distributed by NEA SERVICE, INC.

THE STORY: Sidney Cameron, Norma president-winner, Basil Starke, but decides privately she just might marry him some day. Sidney, though, she is any nonsense about love. All she wants, she wonders why she doesn't hear from Ace Lathaw.

VII

Of course, you could never guess what Ace would or wouldn't do; he was slippery as quicksilver. Sidney had known that from the beginning, and it was probably part of his charm. And what was the beginning? Sidney didn't have to concentrate, remembering. It was a day in September, she was visiting Norma in Henderson; they had gone to the county fair, talking in the races, the side-shows, the tents of freaks, everything, until they hadn't a red cent left and had laughed themselves into a state of sheer exhaustion.

Sidney had but to close her eyes to bring it all back, the heat of the afternoon, the white sunshine, the dust rising in clouds from the race track.

Sidney and Norma had been eating popcorn and cotton candy, their throats were dry, and they thought that maybe if they went to the refreshments pavilion, some friend of Norma's might come by and treat them to pink lemonade. But the person who bought the lemonade turned out to be Ace Lathaw—though, of course, they didn't know his name then.

Sidney would probably never forget her first impression of him, leaning against the bunting-wrapped pillar of the pavilion; blond, nonchalant, a smile in his calculating eyes, the straw hat on the side of his head secured by a black cord to the lapel of his blue serge coat. His trousers were white—ice cream pants! He was carrying a thin Malacca cane, twirling it in his fingers. He looked exactly like the dude your mother always warns you about; and he must

Minor Scrape Settled; Gypsies Leave Town

A group of people dressed in Gypsy garb was gone to Amarillo today after a minor scrape with the law, when an unidentified man reported to City Police that he had been robbed of \$10.

The victim was walking along Cuyler St., he told authorities, when a woman member of the group asked to tell his fortune for \$1. He refused, he said, and then she said she wanted to get some money for something to eat. Saying he felt sorry for the woman, he said he drew out his billfold to give her a dollar. He told police that it was snatched from him.

Hailed into police headquarters, the woman, who gave her name as Rosa Mark, 27, denied she had taken the money. The other woman member of the group taken into custody was Ruby Mark, sister-in-

law, according to Rosa.

The two men jailed for a short time were Jack Mark, 16, and Tom Mark, 18.

The group was released at 6 p. m. yesterday after Rosa, police said, refunded the man his \$10. Authorities said they departed for Amarillo.

ABUNDANT as autumn leaves, the letters flew, through October and November, until Thanksgiving when Sidney visited in Henderson again. She was there for a few days at Christmas, too. The Lyons were hospitable folk, though maybe rather bewildered by Sidney's devotion to them. Ace was still in Henderson on January fifteenth, but then he went to Chicago to confer with his partner on a business deal. Sidney didn't know who the partner was, or what the deal. Really, she knew almost nothing about Ace, except that he was foot-loose and fancy free. His letters were light in vein, mostly about Sidney and how remarkable she was.

His spelling was terrible.

Sidney, in her answering letters, was much more restrained. She had never said she was in love with Ace, never would say it, for probably she wasn't. Just the same, she had been chagrined when the letters came irregularly in February, ceased altogether in mid-March. Sidney had written last, which was a mark against her.

And now Ace was in Blakesville. Or was he?

Silence, ten days of blank silence. In those ten days Sidney evaluated romance as repudiated it forever. She was convinced now that she'd never hear again from Ace, never lay eyes on him.

She did wish, though, that she, and not Ace, had ended it. She wished she could banish this feeling of something more to come, an aftermath, a sequel. She kept expecting that damned telephone to ring!

(To Be Continued)

Mrs. Eliza Warehime Dies at Home of Son

Mrs. Eliza Warehime, 85, a resident of Pampa for four months, died yesterday afternoon at 3:45 in a local hospital. She had suffered a broken hip a week ago.

Mrs. Warehime, a native of Indiana, had been residing here with her son, Forrest.

Other survivors include three sons, Harold of Mt. Vernon, Ill., Howard of Cherokee, Okla., and John of Cherokee; one sister, Mrs. S. E. Burnett of Hugo, Colo.

Funeral services will be conducted in Cherokee Sunday afternoon. The body is being taken overland by Duenkel-Carmichael.

Before a legislator may take his seat in South Carolina he must swear that he has never engaged in a duel.

Ohio Fighter Wins Decision at El Paso

EL PASO—(AP)—Joe Maxim, 180, of Cleveland won a 10-round decision over Dolph Quijano, 176, of El Paso last night.

Maxim scored the only knock-down of the fight, dropping Quijano for the count of eight in the third round with a left hook. He hurt the local fighter in the sixth and tenth rounds but was not able to get over a knock-out punch.

HELPS KIDNEYS

Remove Harmful Impurities

Backache, loss of the old pep, getting up nights, and headache are often caused by nothing more than improper kidney action due to excess acid in the urine. The kidneys are one of Nature's ways of removing impurities from the blood. And when these impurities back up, trouble may start.

So if you have these troubles, give your kidneys and bladder a good flushing out by taking Dr. Kilmor's Swamp-Root. It works on the kidneys to flush them out... increasing the flow of urine to help relieve that excess acidity and ease that burning sensation when you pass water... helps that bladder irritation that wakes you get up nights.

Made of 16 herbs, roots, vegetables, and balsams, Swamp-Root is absolutely non-habit forming. Millions have taken it for three generations... often with wonderful results. Caution: take as directed.

For free trial supply, send to Dept. X, Kilmor & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your drugstore.

Canadian Will Have Air Ambulance Service

CANADIAN — (Special) — Tom McCurdy, manager of the Hemphill County Airport, has purchased a Stinson SR9. He already had a Taylorcraft and an Aerocraft, both two-place jobs used principally as trainers. The addition of the Stinson, capable of carrying four people besides the pilot, is an important addition to the service here. McCurdy stated that the new plane is now fully licensed for aerial taxi service, and will be available for ambulance service as soon as some additional equipment can be obtained.

Wages account for more than half the value added by manufacture in cotton manufacturing.

White Deer 'B' Wins Cage Game From Reapers

Pampa's Junior High Reaper basketball team dropped their second session of the season to the White Deer High School Bucks "Bees" 23 to 19, here last night after taking their opening game from the same team last week, 33 to 20.

As the score indicates, something new had been added to the White Deer line up. It was added in the form of a hitherto "A" string guard who was referred to on the score card as Harvey.

One of the White Deer boys who was keeping the Bucks' tally book mentioned the fact that Harvey usually played with the "A" team but "Coach said he was going to play him tonight and get a little experience."

This kid, who is only a freshman, kept the local boys in hot water for three quarters by means of a very fast break and then finally succeeded in using the same tactics to gain a decisive win in the closing two minutes of play.

The score was tied at 10-10 at the half and 16-16 at the windup of the third stanza.

Harvey was high point man with 15 points. Brian, Reaper guard, was next with 6.

50,000 Fans Due To See Pro Title Bout In New York Sunday

NEW YORK—(AP)—The Chicago Bears and the New York Giants have reason to believe Santa Claus will hit town early.

The windy city Whizbangs and Stout Steve Owens' touchdowners probably will be pitching at the fanciest pot o' gold in all pro football history when they play for the National League championship Sunday.

Tickets are still going like the melted butter at a clam bake. League Commissioner Bert Bell's office figures if sales continue at the present rate there'll be 50,000 fans on hand and \$185,000 in the pot when the stew comes to a boil at the Polo grounds.

That would make most previous assault-and-battery tournaments of the National League look like cozy get-togethers.

Top previous gate was the \$164,542.40 clipped in by well-iced fans in Cleveland last year.

Be sure that your windows are clean before you put wreaths and candles in them.

Working smoothly in every department against the too-eager band of Pampa Harvesters, the Hollis Tigers forged ahead in the last three quarters to take a 36-17 decision from the local eagles at the Hollis gym last night.

Particularly adept at passing the ball around with no wasted effort, the Tigers held only an 8-6 lead at the end of the first period but led 17-7 at the half-time intermission and 31-10 at the end of the third stanza.

The Harvesters started as though they would make it a ball game but cracked up in the second stanza and couldn't find an adequate defense against the quick passing of the Tigers, they flicked the ball in and out sometimes faster than could be seen.

Pampa missed dozens of opportunities for scoring by dribbling the ball in when it could have been passed in much more effectively and easily against a not-too-tall Hollis 'V'.

Hollis tried few long shots during the contest, depending solely on working the ball in past the Harvesters' defense, which they did with comparative ease.

Hollis also took advantage each time the "slippery" ball slipped out of a Harvesters' hands.

In an effort to perfect Harvesters ball-handling and to find a suitable "starting five," Coach Otis Coffey has scheduled two scrimmage sessions today and tomorrow.

The first was scheduled this afternoon against Miami and the second tomorrow night against White Deer.

Pampa will play its first home game of the year Tuesday when the strong Chilness Bobcats come here.

The box score:

| PLAYER | P | F | T | TP |

Stagg, Mitchell To Be Feted Next Week

HOUSTON—(AP)—Glenn H. McCarthy, independent oil operator, will be host at a reception honoring Amos Alonzo Stagg coach of the College of the Pacific football team and Otis Mitchell, coach of North Texas State College next Thursday at the Houston club.

The reception, to which all coaches of the Southwest area have been invited, will be held two days prior to the Opt'ist Bowl game between the College of the Pacific and North Texas State.

CAR THEFT REPORTED

Theft of a car belonging to Mrs. Mima Gibson of Pampa last night has been reported to local police.

The car, a black 1938 Dodge coupe, was stolen from in front of the Brown Silvey Courts last night about 10:30. The license number is CJ-8416.

GI Cage Tournament Underway in Tokyo

TOKYO—(AP)—GI hoopers start shooting this weekend for the championship of the 12 team American basketball league.

GHQ's athletics, comprising several college stars, are favored to win the championship in the double round Robin schedule which runs through March 11. The 11th Airborne Squad won last season.

The league champ will represent Japan at an intercommand Pacific tournament scheduled for March 14 in the Philippines.

Married men of the Amish religion drove covered buggies; uncovered ones are for the bachelors.

Don't wait until you reach the next town to clean the snow off your windshield.

Station To Broadcast Quarterfinals Game

Radio Station KPBN will broadcast the Odessa-Wichita Falls football quarterfinal game from Odessa tomorrow afternoon, it was announced yesterday.

The broadcast will go on the air at 2:15, with the game proper starting at 2:30.

The station will also broadcast one of the semi-final games, next week and the state final the following week.

Lufkin, Waco Play Today in Quarterfinals

By HAROLD V. RATLIFF AP Sports Editor

A couple of perennial contenders—Lufkin's Panthers and Waco's Tigers—clash today at Lufkin in the opening game of the Texas schoolboy football quarter-finals.

Tomorrow, there will be three more games—Wichita Falls at Odessa, North Side (Fort Worth) at Highland Park (Dallas) and Lamar (Houston) at Thomas Jefferson (San Antonio)—but today's battle is the hardest to forecast.

Nearest to a toss-up are these two teams that got up off the floor and surged back to prominence in the state's gridiron circles. Even the season records show neither with an advised edge.

The Saturday tilts will have definite favorites—Odessa and Thomas Jefferson.

A total of 63,000 fans will see the four games, the largest setting the Coyotes largest crowd with 23,000 in Ownby Stadium at Southern Methodist University, San Antonio anticipates 17,000 as Jefferson tries to get past "the odorous" rivals of the State race for the first time. Lamar has been in the semi-finals once but Jefferson in three tries hasn't yet made it.

North Side, also, will be seeking a semi-finals berth for the first time but Highland Park has been up there on three occasions; in fact, the Scotlands have played in the finals twice.

The North Side-Highland Park game appears close although North Side is undefeated and untied whereas the Scots have lost two games.

We hit seven out of eight last week which was pretty good. Wichita Falls crossed us up by licking Amarillo. We don't expect the Scotlands to give us an upset this time, however. Here's how they look anticipated crowds in parentheses:

Today—
Waco at Lufkin, 2 p. m. (8,500)—Lufkin ought to edge out in this one.
Tomorrow:
Wichita Falls at Odessa, 2:30 p. m. (14,500)—Odessa by touchdown.
North Side at Highland Park, 2:30 p. m. (23,000)—Highland Park in a tight squeeze.
Lamar at Thomas Jefferson, 2:30 p. m. (17,000)—Kivie Role will ride again; Jefferson by a couple of touchdowns.

Mack To Rebuild Baseball Team

PHILADELPHIA—(AP)—The word was out today that the Philadelphia Athletics are going to join their National League cousins, the Phillies, in creating their role of league doormat "no matter what it costs."

Arthur Ehlers, newly-named manager of the Athletics' farm system, said 43-year-old Connie Mack, who has piloted the A's since 1901, wants to build another winning ball club, "that he wants a strong organization with no thought of the cost."

Ehlers said Mack feels he has the nucleus of a strong club, particularly in pitching and in the outfield and that the veteran manager is anxious to build up his farm system.

"The A's are eight to ten years behind the other clubs in the majors," Ehlers declared, but added that "I feel sure that we can produce something worthwhile in the next few years."

96 Three-Year-Olds Nominated for Santa Anita; Purse To Be \$100,000

ARCADIA, Calif.—(AP)—Ninety-six three-year-old thoroughbreds have been nominated for the \$100,000 Santa Anita Derby on March 8, making the second year race has boasted a hundred-grand purse and the first time it has been run at the regulation mile and one-quarter Derby distance.

Nominations fell short of the high 141 named when the route was a mile and one-eighth.

Included was a generous international flavor, however, as was evident in the \$100,000 Santa Anita handicap. Six British hopefuls, Sir Laurence, Sullivan, Midde Abbey, Lolima, Lodge Night and Milder, were named, with the first two named heralded as stake winners abroad.

Pervert and Faultless, one-two colts in the recent Walden stakes, from the capable Calumet Farm, were named in the American entries, and Jet Pilot, of Poncio Futurity renowed, Milkwagon Joe and others headed the domestic field.

Charles S. Howard led the nominations with nine, Louis B. Meyer was next with five, and Mrs. Ada L. Rice of Chicago dropped in the names of four hopefuls.

Weights are set at 118 pounds.

"This must have been some game," she said excitedly. "A. and I. 116, opponents 32. We should have played opponents college this year."

"That's nearly always a good game for the Javelinas," a sports editor told her gravely. "We played them in 1941, too, and won 336 to 112."

She telephoned Coach Dewey Mayhew to get him to schedule a post-season game with opponents.

Never again will Wendell Moreman of Dalhart consider jigsaw puzzles harmless.

While trying to press one together a piece flew up and injured his right eye so badly doctors sent him to a specialist.

Another Dalhart businessman, Raymond Jacques, came within 30 seconds of becoming stone blind.

His son, Lamar, recently graduated from an osteopathic school, came home for a visit and brought a special type of lamp, Jacques, without reading the explicit instructions attached to the lamp began to tinker with it. The warning said to wear goggles.

After several minutes of treatment during which he didn't feel any heat, he turned it off and went to bed. He awoke later with an acute pain and was unable to see.

An Amarillo specialist said if he had looked at the lamp another 30 seconds he would have been blind for life.

Sign of the times: Dallas dairies will switch soon from the old style milk bottle to the modern square type. The new square bottles save space for the producer, deliverymen and housewives, they say.

And an advertisement offers air pistols—air pistols, mind you—for \$41.50.

The Adelle Coast in the Antarctic was named by a French explorer after his wife, and now one of the shortlines of the area is known as the Adelle Penguin.

TEXANS IN WASHINGTON:

Lone Star State Ex-GI's Apparently Realize Difficulties Surrounding Surplus Property

By **TEX EASLEY**
WASHINGTON—(P)—Texas ex-GIs apparently realize the difficulties involved in getting surplus war items.

This is the opinion of John Mayfield, Tyler, Texas, ex-Naval officer, who served as legislative representative for the veterans' division of the War Assets Administration.

"We get a lot of mail here from Texas boys," said the son of former U. S. Senator Earl B. Mayfield, "but you'd be surprised how few are gripe letters."

Most of them are writing for information. We try to answer all questions and lend all assistance possible. They seem to realize this surplus property disposal problem is a tough one and that there are many requests than possibly can be satisfied."

Mayfield's job keeps him in close contact with John R. Campbell, head of the WAA Veterans Division. This is the picture and outlook for Texas veterans as seen by the two WAA officials:

Up to date there simply haven't been enough consumer goods declared surplus around Texas military centers to justify establishment of a large retail outlet for ex-service men in that state as has been done in some parts of the country.

But on this point, Campbell, himself a veteran of fighting in Europe, holds out some hope for improvement.

Coin Collecting In Biggest Boom

By **HAL BOYLE**
NEW YORK—(P)—Coin collecting the world's oldest hobby—is enjoying such a boom now that a ten-inch string of Indian wampum costs a hundred bucks.

But the price has zoomed too late to help the unwary Redskin who fashioned his shell money centuries before the John Smith became the most popular name in the phone books.

Wampum is just one of 100,000 specimens of money stockpiled in stacks by the Stack Brothers—Joseph B. and Morton—since their grandfather became a coin dealer in 1838.

If you think coin collecting is just an Indian-head penny game for the kiddies it may interest you to know that this year the Stack firm sold a \$2 gold piece minted in San Francisco for \$16,000.

But you have to be careful. The Stackers know a man who paid \$5,000 for what he thought was a \$5 gold piece of 1815. When he tried to insure it, it turned out to be an 1813 gold piece worth only \$50. A counterfeit had worked on the piece.

Coin collecting is now in the midst of its biggest boom with an estimated quarter of a million followers in this country alone. Joseph Stack estimates about 40,000 of these are "serious" collectors.

"Prices have doubled since the war, chiefly because of the increased demand," he said. One of the chief stimulants has been the sending home by American soldiers of souvenir coins from abroad.

How do old coins get on the market? Many are recovered from household treasuries. One woman found a handful of old coins given to her mother in the middle of the last century five "flying eagle" pennies of 1856. They were worth \$100 each.

The Stack Brothers still shudder over housewives who clean old coins before bringing them in.

"Never clean them," said Joseph. "One woman cleaned a flying eagle with sulphuric acid. The acid pitted the date so that she was lucky to get fifty cents for a coin that was worth \$100."

Excellent condition and scarcity determine the value of coins rather than mere age. For example, the oldest known silver coin, the ancient Greek coin of Aegina, about 700 B. C., fetches from \$100 to \$200 while a dime minted at San Francisco in 1894 has a value of \$1500. Only 24 were made, and only eleven of these are known.

What is the most valuable coin in the world?

"Well," said Joseph, "I'll settle for the Decadrachm of Athens, made about 650 B. C. It's silver, a little heavier than the dollar, and it's worth up to \$50,000. The only two known are in British and Berlin museums."

Store Liquor License Suspended; Man Fined

O. V. Henderson, employe of the Cretney drug store, entered a plea of guilty to charges of selling liquor after hours, before County Judge Sherman White, yesterday afternoon.

"Henderson was apprehended on Nov. 12, after he had sold whiskey at around 10:30 p. m. to a liquor control agent," County Attorney Bruce Parker said this morning.

"A liquor control board hearing on this violation ruled to suspend the local store's license for a period of five days," Parker stated. The court fined the employe \$100 plus court costs.

Tri-City Clubs Have Ladies Night Here

Pampa Toastmasters Club members were hosts to their wives and to Berger and Amarillo Toastmasters and their wives in a program at the Palm Room, City Hall, last night. Five persons were present from Amarillo, 14 from Berger.

Fred Sweazy was toastmaster, and Garland Franks was leader of a special topic program. General critic was H. P. Doster, who named the wives of speakers as their critics.

On the program was Hugh Peoples, who gave the invocation; Quentin Williams, who as president of the club welcomed the visitors; DeLee Vickers, who led group singing; and Gosper Beard, past president who drew an account of the club's work in the past year; and J. L. Swindle, who gave two short interpretatives on poetry and prose.

leges and universities will be made Dec. 15 by Dr. Frank Aydelotte, director of the Institute for Advanced Study in Princeton. Dr. Aydelotte is also American secretary for the Rhodes trustees.

From the first award in 1904, when the scholarships were founded under the will of Cecil John Rhodes, South African financier and statesman, 1,128 students of 211 American colleges have attended the University of Oxford, England.

Forty-one educational institutions have had 10 or more students selected by the Rhodes award committees.

Princeton head the list with 61 Rhodes Scholars. Other leaders in order are Harvard 46, Yale 43, Virginia 26, Brown 22, Dartmouth 20, Idaho 18 and Michigan 17. Arizona, Nevada, Washington (Seattle) and Wisconsin have had 15 each.

Dr. Aydelotte pointed out that one in every six Rhodes Scholars is included in "Who's Who in America." In the list of Rhodes Scholars are such men as:

Oliver C. Carmichael, president of the Carnegie Foundation for the Advancement of Teaching; Robert P. T. Coffin, poet and Bowdoin College professor; Elmer Davis, former director of the office of War Information; James Fulbright, United States Senator from Arkansas; Stanley K. Hornbeck, ambassador of the Netherlands; Edwin P. Hubble, Mt. Wilson astronomer; Carl E. Newton, president of the Chesapeake and Ohio Railroad, and

Clarence K. Streit, president of the Federal Union.

The record for members of one family to receive Rhodes Scholarships is held by the three Morley brothers, Dr. Aydelotte said: Felix M., educator; Christopher, author and editor; and Frank W., publisher.

Dr. Aydelotte says that more than a third of the Rhodes Scholars have chosen educational careers. Among them are 25 former or present college presidents including:

Dr. Aydelotte, former president of Swarthmore; Stringfellow Barr of St. John's; Paul S. Havens of Wilson; Frederick L. Howde of Purdue; John Y. Nason of Swarthmore; and Alan Van Lentine of Rochester.

Twenty percent of the Rhodes men are in law and 13 percent in business. Of the 350 Rhodes Scholars of war age, 250 served in the armed forces. In addition, 150 were in government or war industry.

Competition this year, Dr. Aydelotte said, is at its peak, with 850 applications received as compared with a previous high of 550.

Dr. Aydelotte said the United States was divided into eight districts, each including six states, for applications. The District of Columbia was included with Maryland.

State committees met yesterday to screen outstanding applicants. District committees will meet Dec. 14. Each district committee will name six men. The names will be forwarded to Dr. Aydelotte, who will announce the successful candidates.

The previous high in the number of annual scholarships was 32.

The Rhodes Scholarship stipend was set at \$400 a year, (now approximately \$1,000 a year). It normally is awarded for two years, but may be held for three years if a definite plan of study acceptable to the trustees is presented.

Qualifications before the last war were that to be eligible, a candidate must be an unmarried male citizen, must have passed his 19th birthday on Oct. 1 of the year for which he was elected, but not his 25th birthday must have completed at least his sophomore year at some recognized degree-granting American college or university.

However, this year, Dr. Aydelotte said, regulations have been devised. Men who engaged in any kind of war effort, whether the armed forces, war work, agriculture, etc., will be considered with age restrictions waived. They also may be married. The other requirements were not changed.

The successful candidates this year will begin their terms in October, 1947.

Rhodes Scholars are not restricted on course of study, and may take work in the various honour schools, and if properly prepared, may work for research degrees.

In considering the candidates scholarship, character, interest in sports, interest in fellow men and instincts for leadership are considered paramount.

State committees met yesterday to screen outstanding applicants. District committees will meet Dec. 14. Each district committee will name six men. The names will be forwarded to Dr. Aydelotte, who will announce the successful candidates.

U.N. Break

(Continued from Page 1) economic sanctions, long has spearheaded the drive for positive action. The United States and Great Britain have opposed any show of force. At American resolution submitted to this session asked the U. N. to recommend that Franco give up power and to call upon the people of Spain to get their house in order and qualify for U. N. membership.

JUT OUR WAY

Fire Victims

(Continued From Page 1) left alive in the wreckage.

This blaze, which started at about 10 p. m. Wednesday night, was the second in the ice plant in a few hours. The earlier one, occurring around 4 p. m., was put out swiftly by firemen.

Two boys, Joseph McCabe, 13, and Joseph Elio, 10, were arrested last night and held as juvenile delinquents on arson charges in connection with the earlier fire. They, along with two other boys had been questioned by Assistant District Attorney Jacob Grumet.

Fire Marshal Thomas P. Brophy, in a report to Mayor William O'Dyer, said the first fire was caused by "mischievous boys."

The disaster, Brophy reported was caused "by weakening of roof beams" of the ice plant by the second blaze, "which apparently had been burning intensely for some time before its discovery, resulting in the roof caving in and pushing out the north wall."

Twenty of the dead were residents of the tenement, the other was a fireman.

Guineen expressed doubt any further victims would be found alive after police reported rescuers had heard no word after midnight from a man believed to be Joseph Arigo, 60-year-old 265-pound man.

Arigo's body was found today at the rear of the building. The man with whom the police talked yesterday was toward the front of the wrecked structure.

Train Wreck

(Continued From Page 1) my pals. I couldn't find them and came here on the first ambulance."

Private Compton, who escaped injury, told his story in the Mansfield General Hospital, where some of the injured were placed in a student lecture room after regular facilities were filled up. He was en route home on furlough from Fort Dix, N. J.

The accident was caused by the breaking of an air hose on an East bound freight train. Sheriff Robin said he was informed by a Pennsylvania railroad representative.

"The first freight train then stopped," he related. "Then another East-bound freight train rammed into it and both locomotives overturned."

"Just then the West-bound passenger train came along and ploughed into the two wrecked

Bilbo Probe

(Continued from Page 1) necessary witness" and "every agency of government should join in the search so we can proceed in an orderly way."

Mead ordered the federal bureau of investigation and all facilities of the Senate pressed into the hunt. Terry last was reported en route from New York to his home at Meridian, Miss., earlier this week. His letter to Mead was dated Dec. 2.

Bilbo himself expressed eagerness for Terry's appearance. Though his attorney, Forrest B. Jackson of Jackson, Miss., the senator said he wanted the missing witness brought before the committee along with J. Marion Quinn, executive vice president of the Jackson State bank.

The committee agreed to subpoena Quinn and the record of Terry's personal bank accounts.

Jackson told the committee Terry had made the same claims of death threats during the Mississippi pri-

Lingerie—\$75,000 Boom Hits the East

NEW YORK—(AP)—New York City, dazed and dazzled by pre-Christmas displays of million dollar baubles on Fifth Avenue, has just received another symbol of boom wealth—160 pieces of ladies' lingerie tagged at \$75,000.

Mme. Hermine de Kadar, who has outfitted practically every famous woman in Europe from her new Bond Street shop in London, is responsible for this phenomenon of excess. She is peddling a cargo that consists of \$200 step-ins; \$300 nightgowns (with \$200 bed jackets); \$400 blouses; and \$500 negligees.

mary campaign last summer which ended with Bilbo's Democratic renomination.

The attorney also contended that Terry had told Quinn he would use the threats as an excuse not to testify because he was "afraid he might incriminate himself."

George Meader, counsel for the War Investigating Committee, related that Terry had been questioned Nov. 26 behind closed doors and that committee attaches had last talked with him by telephone at Lakeland, Fla., last Saturday.

Pending further word from Terry, the committee listed nine witnesses for questioning today.

The greater part of the first day's hearing was devoted to questioning of a group of Army engineers about award of the various contracts.

The officers all testified that Bilbo had been extremely active in learning about contracts, introducing numerous Mississippi contractors and boosting them for the jobs, and then sending telegrams and letters to see that the contractors were paid promptly.

Several of the officers, including Brig. Gen. L. D. Worsham, former Army Engineer chief in Bilbo's home area, testified they had written memos and made telephone calls to superiors noting that unless certain things were done "we will have Sen. Bilbo around our necks again."

"Intrigue" numbers of these chiffon frills cost somewhat more.

This is her first consignment for the American market (except for the citizens who went to London to buy) but the whole East seems to be her oyster. The Aga Kahn's new wife bought her trousseau from Madame; Indian rajahs were reputed to be steady customers for her versions of harem underwear; a Persian nabob recently dropped \$200,000 into her pockets.

The second wife of a rich Wall Street broker had \$100,000 worth of \$14,000 worth of Madame's "garments" and she had.

Australian bride is wearing a \$40,000 trousseau, not one garment of which can be seen on the street.

To a layman without the merchandise looks pretty, delicate, old-fashioned and as though it belonged in a museum instead of a dress-drawer. Mme. Kadar scorns snobsteries entirely and denounces slips as "unwomanly." She sticks to an ancient list of camisoles and chemises.

FOUND GUILTY, FINED

Ray Brown, Pampa, was fined \$100 plus costs after entering a plea of guilty to charges of fighting with a blackjack before County Judge Sherman White, yesterday afternoon.

Brown committed the offense several weeks ago and was released on bond until his trial yesterday.

White Deer Host To Palo Duro Association

"WHITE DEER," (Special)—"The Challenge of Today's World" was the theme for the Monthly Workers' Conference of the Palo Duro Association held in the First Baptist Church here Tuesday evening.

The Rev. R. Q. Harvey, pastor of the Central Baptist Church, Pampa, delivered the conference sermon, using as his subject "Three Words of Paul—Know, Can, Ready."

Other talks on the program were: "The Challenge of the Modern Orient," by C. E. Newman; "The Challenge of Modern Europe and Africa," by J. E. Anderson; "The Challenge of Modern Latin-America," by George King; and "The Challenge to Christianity of Modern America," by Kenneth Marshall.

Rev. Paul Cullen of the First Church, Borger, was moderator.

Virgil Motz, educational director of the First Baptist Church, Pampa, led the singing and also was in charge of the young people's group, which met for the first time. Pampa, First, led in number of young people attending, with 20 present; Calvary Church, Pampa, was second with 14; and Line Avenue, Amarillo, third with 12. A total of 87 young people was present, representing First, Central, and Calvary churches, Pampa; Line Avenue, River Road, and Fairview, Amarillo; First and Tenth Street, Borger; Phillips, Palo Duro, Halle, Skellytown, White Deer, Vega, and Goodnight.

Special music for both the young people's meeting and the general assembly was furnished by the Youth Choir from the First Baptist Church, Pampa, directed by Mrs. N. B. Ellis.

Approximately 200 persons registered at the meeting.

Panhandle WMU Has Luncheon

PANHANDLE, (Special)—The W. M. U. of the Baptist Church convened in the church parlor, Dec. 6 for a covered dish luncheon and a foreign mission program, with the theme "Let the Nations Be Glad and Sing for Joy," using as a scripture Psalm 67. Mrs. Herbert Brown was leader of the lesson.

The meeting was opened with the song "Joy to the World" followed by the scripture read by Mrs. Allen Black.

Mrs. Allen Johnson discussed "Overcoming Evil With Good" and this was followed by another song "Take My Life," Mrs. Vaughn Biggs then discussed "Waste Places Made Glad" followed by a vocal duet "Christ For the Whole World," by Messdames John Stone and D. C. Landon. Mrs. Allen Black led in prayer and the meeting was closed with a talk on "Widening Opportunities," by Mrs. Eva Craig.

Those present were Messdames Allen Johnson, Allen Black, V. D. Biggs, John Stone, J. J. Holcomb, Herbert Brown, D. C. Landon, Eva Craig and W. W. Evans.

Friday, Dec. 13, 1946 PAMPA NEWS PAGE 7

Iahoma City sang a solo "Tomorrow May Mean Goodbye" and Rev. Homer Shets, district superintendent, gave an address on the work of the Sunday School.

Churches with representatives present were First Church, Amarillo, Assembly of God Church at Sixth and Houston, Amarillo, Borger, Skellytown, Pampa, Mobeetie, Wheeler, Wellington, Shamrock, Clarendon, Groom, Eriscoe, and the McLean church. These with several other churches comprise the district.

About eighty nine people were present.

SUNDAY SCHOOL LESSON
AFTER AN CHRISTIAN BROTHERHOOD
Scripture: The Book of Philemon
Text: Philemon 1:1-7

The one-chapter Book of Philemon has been the occasion of many sermons, treatises, and sermons. As I have suggested previously, dispensers of Paul have used it to attack his attitude toward slavery.

The chapter ought, therefore, to be examined carefully in all its implications.

Was Paul a defender of the institution of slavery? If not, did he take toward it an attitude of indifference? Or does the Epistle relate only to a specific case in which two Christian friends of Paul were concerned. In no way referring to the general use of slavery.

Here are the circumstances: Onesimus, a slave belonging to Philemon, a Christian resident of Colosse who had turned up as a fellow-worker, had run away from his master, and was living under Roman guard (Acts 28:16). In Rome, Onesimus had been broken into slavery, had become a slave before running away, had become a Christian, and had been converted to the Christian faith.

What should Onesimus do now? Whether it was Onesimus' own idea that he had been converted, or whether Paul urged him to do so, is not clear. But the fact is that Paul, in thus subjecting himself to the dual danger of his master's wrath and of severe punishment by his fellow-slaves, had taken a risk.

Now note the facts:

Paul was the minister of a gospel that he knew struck at the very heart of slavery. In his own mind slavery was abolished. Onesimus, a slave, was as much his Christian brother as was Philemon.

Paul knew that when all men were of his mind and heart the world would be a great and terrible reality in that Roman world.

Paul would have been as powerless to unroot slavery in the Roman world as was David Livingstone, centuries later, in the heart of Africa. What Paul had to do.

With high Christian strategy, Paul appealed to Philemon as a Christian brother. He offered him the great privilege of acting in the spirit of love, in so doing, Paul asserted the principle of Christian brotherhood, transcending race and color, and clearly as it has ever been asserted.

That principle holds today in the continuing conflict of class, if not of slavery. It tells men how they should act with respect to man's right to freedom and equality which, despite our high professions, is still a long way off.

Assembly of God Churches Have Fellowship Meet

MCLEAN, (Special)—The McLean church was host for the monthly All District Fellowship meeting of the Assembly of God Churches last week.

Rev. J. F. Jones, of Borger presided at the meeting.

The morning song service was led by Rev. Cox, pastor of the Brisco church. Rev. A. W. Trotter of Oklahoma City was the principal speaker at the morning service.

A basket lunch with coffee was served at the noon hour.

Rev. A. Daley of Amarillo was leader of the afternoon song service.

Mrs. E. R. Foster of Amarillo, spoke on Missions, Mrs. Lane of Oklahoma City.

Name of Mid-Week Services Is Changed

"The Peoples Power Night" has been adopted as the name of the mid-week services at the Central Baptist Church, the Rev. R. Q. Harvey, pastor, has reported.

In this particular program, the young people of the church furnish the special music, and make up the choir.

A series of sermons, "How to Successfully Live a Christian Life," is to be presented by the minister at this time.

Attendance, he said, has grown from less than 100 to 203.

TOPICS FOR SUNDAY, Dec. 15:
11:00 A. M. "Our Duty to One Another."
7:30 P. M. "Our Duty to Self."

"THE CHURCH OF CHRIST"

1—DOES THE HOLY SPIRIT DIRECT MEN MIRACULOUSLY TODAY?
No! The Holy Spirit does not guide men today as he did the Apostles and other inspired men of the Apostolic Age. There are no miraculously inspired men now. No man on earth has miraculous power. The Holy Spirit does not work that way today.

2—IF THE HOLY SPIRIT DOES MIRACULOUSLY GUIDE MEN, HOW CAN THEY KNOW THEY TEACH THE TRUTH?
They can know by measuring their teaching by the written word. Jo. 20:30, 31; 2 Cor. 2:9; Ja. 1:22-25. Preachers who preach the truth must study the truth. 2 Tim. 2:15. It is just as impossible to teach the Bible without studying it, as it is to teach Greek without studying it. Preachers who claim they do not have to study God's word because the Holy Spirit will put the truth in their mouth, make a false claim, and they also make a bad out of preaching the truth. Preachers should not blame the Holy Spirit with the mistakes they make in preaching. The Holy Spirit teaches and directs men today through the written word of God.

3—CAN ALL PEOPLE LEARN GOD'S WORD?
Yes, all who desire to know the truth can learn it. Jo. 6:44, 45; 7:17. God's teachings, regarding man's soul salvation, is very easily understood. All people have to do is to study it intelligently, like they would any other book, and they can understand what to do to be saved from past sins. Acts 16:30-34; 2:37-41. They can also understand how to live as Christians, and thus prepare for heaven. Rev. 22:14. Every person who learns and obeys all the teaching of the Bible, learns and obeys the same thing. The Lord teaches each person to do the same thing.

4—IF ALL CAN LEARN GOD'S WORD, AND HIS WORD TEACHES EVERYONE TO DO THE SAME THING, WHY ARE PEOPLE SO FAR APART RELIGIOUSLY?
Because they learn and obey man's teaching. People do not disagree on what the Bible teaches, they disagree on what man teaches. If men would burn all their books, such as creeds, disciplines, manuals, prayer books, etc., and take the Bible, and the Bible only, then there would be Christians, and Christians only. There would be "Churches of Christ," and "Churches of Christ" only. Wouldn't it be wonderful if all religious teachers taught the word of God and nothing else?

5—WHY WOULD IT BE SO WONDERFUL IF NOTHING ELSE WERE TAUGHT, RELIGIOUSLY, BUT GOD'S WORD?
1—Because that is all God wants people to teach. 2—Every religious teacher would be teaching the same thing. 3—Everybody would be ONE RELIGIOUSLY. 4—There would be peace and love among all, and everyone would be glad to hear any religious teacher, because they would be teaching God's word. 5—There would not be any error to correct, therefore, much more truth could be taught, and more good could be done. 6—The soil would not have to be cleared of erroneous rubbish before the seed is sown. THE "CHURCHES OF CHRIST" PLEASED FOR ALL TO TEACH ALL THE TRUTH, AND NOTHING BUT THE TRUTH! (But more next week.)

Meet with the "Church of Christ" nearest you. We welcome you to all the services of the Central Church of Christ. Are you a Christian? If so, you should live righteously each day of the week, and meet with other Christians, each first day of the week, to take the Lord's Supper and engage in other items of worship! We are looking for you Sunday.

When BUILDING Or REMODELING

INSTALL ADEQUATE WIRING

Make sure you have adequate wiring when you build or remodel. It costs little to install adequate wiring for today and tomorrow. As new electrical appliances appear, and new electrical aids to better farming are available, you'll want them.

Make sure when you build or remodel that adequate wiring is installed, so that you can efficiently use as much low cost electricity as you wish.

ADEQUATE WIRING MEANS BETTER LIVING ELECTRICALLY

Texas Today

By JACK RUTLEDGE
AP Staff Writer

Texas newspapers admit they're good but the El Paso Times was startled to learn someone had paid \$2,200 for one issue.

A man named Jacinto Sandoval from San Eliazo came to town with a check for \$2,200 from a bank. While drinking coffee, a solid border custom, he got into conversation with two strangers.

One of the strangers flashed a wad of money and asked Sandoval to sign it. He warned him against it. They wrapped it in a handkerchief. Sandoval said he had quite a wad, too. They suggested he wrap his money up, and he did. Then they asked him if he'd keep their handkerchief-full for them at his hotel until they returned. He said okay. There was a bit of "handkerchief-passing-around."

You've guessed the rest, of course. When Sandoval got to his room and opened the handkerchief which was supposed to have his own \$2,000 that of the strangers, all it contained was the Friday issue of the El Paso Times.

"A reader" wrote the San Antonio Light that the sign reading "shaves and haircuts, popular price" was a very readable bit of lettering compared with what he found in a West Commerce eatery menu: "Lorje Juice Tee-bone Steaks."

The Mineral Wells Index in reporting police cases doesn't believe in beating about the bush.

A page one story telling of seven cases said two men involved in a fight had been drinking. When dismissed another case briefly with the sentence: "One man just got drunk for no reason at all."

Mrs. N. C. Cooper, society editor of the El Paso News, was amused when, after writing that a bride "wore cherry coke accessories," she received a letter from the Coca Cola thinking her for the publicity but asking her to please use a capital letter next time she mentioned the word "coke" because it was a registered trademark.

She said cherry coke is one of the newer shades known in fashion shops. But what confuses her is how the New York office got hold of the El Paso paper.

Girl Scouts Give Program for Club

PANHANDLE, (Special)—The Girl Scouts and Brownies presented the program for the Rotary Club when they met recently. Miss Norma King area director and local leaders were in charge.

Visiting Rotarians were Rev. Paul Cullen, O. B. Flann, and Joe Cooley, Borger, Bywater, Elgie of Hotford was a guest of Herman Furell.

The club will have its annual Christmas party and dinner on Friday evening.

Leaves From a Correspondent's Life Notebook

By HAL ROYLE
NEW YORK—(AP)—A voice from the clover-laden air along the banks of the Wabash itself above the monoxide-poisoned clamor of Manhattan to deny that the old-fashioned country general store has moved to town.

Answering a recent lament in this column that city slickers had stolen the cheese-and-cracker forum of the rural folk and turned it into a neon-lighted saloon, Ernest A. Gady, proprietor of Gady's general store at Rainville, Ind., wrote this

Cadillac Ambulance Service

refreshing rebuttal: "The old country store is still present in a big way, plus its old-fashioned Republican and its old-fashioned Democrat, both going strong with the pot-bellied stove. Mighty in their combined draft!" "Election prophecies, weather forecasts and crop estimates still rate tops above John L. Lewis, Joe Louis and football. The snuff box still hangs on the wall and the spiffin' terracer outsells the Camel which created so many pedestrians."

"Ketchup, cheese bubbles and castor oil run a close second to bologna, Bull Durham and butter-milk in gross sales."

"A sign proclaims that the grocer is paying thirty-four cents a dozen for good eggs and fourteen cents for bad ones. Another sign announces that the political views expressed here do not necessarily reflect the opinions of the store-keeper."

"The 'not responsible for accidents' notice is partly hidden by the thrilling news of a coming box-supper at the schoolhouse across the street, and schoolhouse is not spelled 'schule hous' either. When the rural route mail comes in half an hour ahead of schedule all hands rush out and chorus, 'what made yuh so late? Have a flat tire?'"

Gady said that international affairs get quick brush-off in the store updates.

"Molotov must be contrary old coot and Truman gets his dander up too quick" disposes of all the heavy politics," he wrote. "The township trustee race is far ahead of the Olympic games in the country store."

"The proprietor of Gainsville's leading emporium has a comfortable life with a pleasant brook full of bass within strolling distance. But he has no illusions about a business boom."

"Here in Bainville one customer is a rush, two is a riot, and three calls for prospective military rule," he said.

Market Briefs

WALL STREET STOCKS
NEW YORK, Dec. 12—(AP)—The stock market lost its balance today and closed with losses of fractions to around 4 points after leading over a fractional range in morning dealings. Steel and motor shares paced the decline, but, though less active, were also well in front of the retreat. Most market leaders closed at or only a shade above the low levels of the day. Only a handful of plus signs sailed the list.

Turnover, never very active, dwindled to around 1,100,000 shares compared with 1,250,000 Wednesday.

High in the minus column were U. S. Steel, Bethlehem, General Motors, Chrysler, Goodyear, Southern Railway, Union Pacific, Santa Fe, Douglas Aircraft, American Can, General Electric, and Kennecott.

Bonds traded downward, irregularity in cotton persisted.

City Will Acquire Portion of Camp

DALLAS—(P)—One-third of the hospital area of Camp Fannin at Tyler is to be acquired by the city of Tyler for operation of a 200-bed hospital.

Gordon D. Jackson, acting chief of the non-industrial division of the Dallas Regional War Assets Administration office, has announced. Title will pass to the city of Tyler.

OUR BOARDING HOUSE ... with ... MAJOR HOOPLE

66AD! YEARS HAVE FLOWN SINCE I SPORTED THESE TOGS WITH THE OLD TIPS! HIGHLANDERS—THE BLACK WATCH!—BUT TIME HAS BEEN KINDLY—MY PHYSIQUE STILL HAS THOSE BOYISH LINES!

IF YOU EVER FEEL YOUR TIME IS SHORT, MAJOR, I KNOW A JUDGE WHO WILL GLADLY GIVE YOU TEN YEARS—KYUK—KYUK!

I HOPE THE GOOSE RECOGNIZES YOU AS A SCOT, MAJOR—MAYBE PIKE COULD TELL HIM YOU WERE THE GUY WHO ORDERED ASPARAGUS AND LEFT THE WAITER A TIP—KYUK—KYUK!

GAN A GOOSE SMILE?

although the Smith County Medical Society and the Smith County Tuberculosis Association will sponsor the project.

Plans include the assignment of 75 beds for tubercular cases with special provisions for the care of veterans. Negro tubercular patients also will be accommodated.

Properties sold by WAA to Tyler approximately \$1,000,000 in value with liberal discount to this non-profit institution, Jackson said.

Sponsors of the project have indicated that the hospital's facilities will not be limited to Smith County residents.

Q—Where and when was the first steel bridge built in the U. S.?
A—At Glasgow, Mo., where the Chicago & Alton Railroad threw a five-span, 1570-foot bridge across the Missouri river. It went into operation June 7, 1870, and served for 20 years.

Q—What is euthanasia?
A—"Mercy killing." The Euthanasia Society of America has long campaigned to give physicians the legal right to help hopelessly suffering patients die.

Q—How many Rural Free Delivery mail boxes are there in the U. S.?
A—Over 6,173,000, serving some 29,508,000 individuals.

Q—How much blood does the average man have in his body?
A—About 11 pints. Loss of more than a third usually is fatal.

Q—What huge digging job is being undertaken in the U. S.?
A—The biggest earth-moving job in history, 75,000,000 cubic yards of dirt, forming a two-mile embankment, will be involved in building Garrison Dam on the Missouri river, above Bismarck, S. D.

When a Chinese reaches age 60, he becomes an "elder" and is accorded special respect by younger men.

Bogart Gives Out With Hearty 'Nuts' At Visitor's Remark

By BOB THOMAS

HOLLYWOOD—(P)—To those who claim that Hollywood is a modern Babylon, reveling in sin and sensations, Humphrey Bogart adds a hearty "nuts!"

The matter arose when a mid-westerner was visiting the set of "Dark Passage" and remarked that this seemed like a nice town, but it suffered because of the wild lives of its inhabitants.

"Bah!" Humphreys barked. "So we get married and divorced and have children just like people anywhere else." (I trust he didn't mean it in that sequence.) "We take care of our backyards, worry about income taxes, play golf at the country club, and work hard. And we're not any more sinful than they are in Pawnee City."

Because screen romances and divorces are so highly publicized, Bogart said, the rest of the world is inclined to look down a long nose and believe that Hollywood is a citadel of sin.

He declared he knows Hunt-club socialists in New England, ranchers in Texas and dairy farmers in Wisconsin whose week-end sprees would make a Hollywood party seem like a day shower. At this point he looked as though he were going to pull out his familiar rod. He concluded:

"I figure about nine-tenths of the people who lick their chops over the lack of Hollywood morals would be sorely disappointed if they knew what comparatively clean and honorable lives the movie folks lead."

Nancy Sinatra should be warm this winter. Her husband is giving her a \$20,000 white mink coat for Christmas—June Haver is bedded but says it's only "shopping fatigue"—Pat O'Brien off for a dinner in Birmingham, Ala., honoring Cardinal Spellman—Former Bandleader Wilson Wood finally gets to play a bandleader in "Song of the Thin Man."

Technicolor movie cameras cost \$15,000 each.

New System Slated In Vet Schooling

WASHINGTON—(P)—The Veterans Administration today announced a new system to enable

schools and colleges to speed up the collection of tuition and fees for veteran-students. Henceforth schools may bill VA for tuition and fees during the course of a semester, instead of at its conclusion as heretofore. In addition, schools may be reimbursed for the cost of books and supplies provided veteran-students as soon as they have been issued.

MR. MURRAY'S DECISION
By declaring war on American corporations and making peace with the Communists in his family of unions, CIO President Philip Murray has set a course which will prove a perilous one, both for the country and for the CIO itself.

Mr. Murray's action may seem strange in view of his well-known personal distaste for communism. But apparently he prefers to take the chance on controlling the Reds within his ranks and pacifying the anti-Communist CIO officials who want a showdown rather than risk a temporary distribution within the CIO and a possible loss of membership.

The CIO convention's toothless, namby-pamby resolution, to the effect that the delegates "resent and reject" Communist interference, is meaningless. Indeed, it is a wry joke, since the six-man committee which prepared the document included one admitted Communist and two others who have been accused of membership by persons under oath.

With that pious resolution out of the way, Mr. Murray turned the full force of his wrath on the "staggering profits" of corporations, which he estimates at \$15,000,000,000. He called these profits a graver threat than communism.

The CIO chief might have enlightened his membership and the public more if he had been a little more specific. If he had given the source of his estimate, named the companies that made at least the bulk of this alleged profit, specified whether his figures were before or after taxes, and told what percentage of the corporations' total business they represented and over what period of time, then the members and the public would have had a better idea of the validity of his future demands.

NATIONAL AFFAIRS

WASHINGTON
By RAY TUCKER
MEXICO: The running row between Ambassador George S. Messersmith and Spruille Braden, assistant secretary of state, over our Argentine policy has lowered American prestige in South America to a great extent than did the headline controversy between Henry A. Wallace and Secretary Byrnes over Russia.

Latin-American diplomats will not discuss the question openly, but they say privately that the Messersmith affair has done Uncle Sam a laughingstock below the Rio Grande.

Returning newspaper correspondents and business men make the same report, adding that the unsettled dispute may jeopardize seriously our postwar attempt to win new markets. Any further overproduction of made-in-America products.

Secretary Acheson felt that he had to take the position, in view of the department's housekeeping. The dictator's action was on a par with the pre-election speech delivered by an Argentinean Braden, urging the Argentineans to defeat Peron at the polls. Braden's subsequent promotion to his present post was a direct slap at Peron, and the letter to Mr. Higgins was the sequel.

WARSHIPS—As if these internal dissensions over our relations with so important a state as Argentina were not enough to bewilder the Argentinean and lead them to question our right to leadership on the Western Hemisphere, the latest development has placed Uncle Sam in the worst jam of all.

It is now understood that the State Department has authorized the Navy to sell warships and other weapons to Peron. This strikes the Latin American world as an amazing and incredible departure from our wartime policy, when we refused to sell arms to Hitler.

THOUGHTS

And the king said unto him, How many times shall I forgive thee? Thou tellest me nothing but thy words are in vain, for thou sayest, I will forgive thee, but thou dost not forgive me.
—Matthew 18:21-22

And the king said unto him, How many times shall I forgive thee? Thou tellest me nothing but thy words are in vain, for thou sayest, I will forgive thee, but thou dost not forgive me.
—Matthew 18:21-22

And the king said unto him, How many times shall I forgive thee? Thou tellest me nothing but thy words are in vain, for thou sayest, I will forgive thee, but thou dost not forgive me.
—Matthew 18:21-22

World's True Peace

DALLAS—Dr. T. Harrison Davies of the Institute of Atomic Studies, University of Chicago, said yesterday that an "intensive" campaign of terror to arouse public support for international control of atomic energy may have hindered the establishment of true peace.

In the speech before a regional meeting of the American Chemical Society, Dr. Davies cited warnings by scientists and other leaders of the horrors of an atomic war and added:

"One might inquire whether an atmosphere of fear is one in which a discriminating and sustained support of government policy by the public can grow."

War was hideous before the atomic bomb was invented, Dr. Davies said, and this factor was not enough to deter nations from new conflicts.

"I prefer to side with the school which agitates for international action, unusually heavy in the last few years."

UNDISCIPLINED—The Eighty-ninth Congress, in short, will be a post-War Congress in every way. It will be more youthful, more energetic, possibly more independent and undisciplined. But the same virtue of comparative youthfulness, if not so cautious or so unafraid in trying new solutions for new problems.

The Nation's Press

THE LEGION OPPOSES A BONUS
(The Kansas City Star)
Pressure from veterans for a World War II bonus has been effective through Congress, but the American Legion, at least for the present, has rejected the bonus proposals.

The Legion has shown an awareness of economic conditions by opposing the bonus. The Legion has not suggested that its attitude might never be reversed.

What the opposition is sure of is that, under the present system of arrears, the government's raids on Polish pensionary headquarters, arrests of its leaders and interference with its press, the election in January will not be free.

Refugee Poles have predicted that if free elections were held the government would not lose and that if elections were not free there will be a civil war.

The government-harrassed Polish peasant party claims to represent a majority of the people and is supported, although it repudiates underground groups, especially the NSZ (National Armed Forces) headed by Vice Premier Mikolajczyk.

In Hollywood

By ERSKINE JOHNSON
HOLLYWOOD, (NEA)—There's a new Swedish dish on the Hollywood smorgasbord by the name of Viveca Lindfors. Viveca, the Warner Bros. publicity department was quick to announce, rhymes with terrific-ah.

She liked the idea of a stand-in. "There are none in Sweden." Outside of that, she was about as communicative as Lassie, except to help up a Swedish actress who had found anything objectionable in her Warner contract.

She started the entire Warner studio by inviting such unimportant little people as studio gatekeepers and trade waitresses to help christen her star dressing room.

So They Say

One reason they failed to make an atomic weapon was that German scientists put scarcely more effort into this field than they would have put into a peacetime research project, because they felt certain of their superiority.

Builders of America

Last week I went into a garage and there were six men working on a car. One was the foreman, and only the foreman was left.

Gracie Reports

My old man, the Duke and Duchess of Windsor, have been married nearly ten years. It seems like only yesterday I listened to the Duke addling the brains of the press.

Alan Ladd Chooses University Beauties

AUSTIN—(P)—Movie Actor Alan Ladd's selection of the "Ten Most Beautiful Girls" of the University of Texas has been announced here.

GOP CORN IS GREEN

WASHINGTON—(NEA)—The Republican National Committee came into town at a meeting of 19 and 46 as the liberal party. For some reason or other, nobody present laughed. Maybe he didn't mean it as a joke.

They National Chairman Carroll Reece said that the Republican Party waged the campaign of 19 and 46 as the liberal party. For some reason or other, nobody present laughed.

TEXAS QUAIL SEASON OPEN, PROSPECT GOOD

By JACK RUTLEDGE AP Staff Writer The Texas quail season is open, and prospects look better than for ducks and geese. Farmers say they believe this year's crop of birds far exceeds that of last year, one expert reports. And farmers ought to know, as they live closer to the birds than anyone else. Rains were heavy enough to produce plenty of cover, but not heavy enough to wash away the eggs. Just getting outdoors is enough for most true sportsmen, and it's a good thing for the boys and girls who like to hunt ducks and geese. These birds are scarcer than usual in Texas this season. Albert M. Day, director of the U. S. Fish and Wildlife Service,

blames it on increased hunting pressure and a drouthy spring in the nesting areas. Another reason in Texas is the increase in waterholes, ponds and marshes following fall rains. This enabled birds to scatter. Duck stamps increased from 1,170,000 to 1,700,000 from 1944 to 1946. During this same period, the waterfowl population tumbled from 125,000,000 to an estimated 80,000,000. Reports from all sources for the present year are very discouraging. Some trained observers in Federal refuges show a 40 percent drop in waterfowl during the past two years. Under Texas state law a person is required to place his game birds in storage within three days after the close of the season for the species being stored. No limit is provided for retaining game. But Federal regulations provide that migratory game birds may not be retained for longer than 90 days after the close of the season. The use of No. 8 shot in duck hunting is both futile and inhumane, Henry W. Flagg, Galveston, long associated with game conservation agencies, warns. He said the scarcity of No. 6 shotgun shells had caused many hunters, especially amateurs, to use the smaller No. 8, ordinarily used for quail and doves. "You can't expect to bag a duck with No. 8," Flagg said, "but you can seriously cripple or mortally wound it so that he dies later. If you can't find No. 6, don't hunt."

From where I sit... by Joe Marsh A Grand American Tradition The Cuppers had a grand old family reunion last week—for the first time since the war. Big and little Cuppers came, by car and train, from as far west as Nebraska and as far east as Vermont. They crowded Dee and Jane's house, set up quarters in the barns, or stopped with neighbors—and a jollier gathering you couldn't have imagined! I was asked to their final Saturday night supper, when they sang old songs, drank beer and cider, reminisced. Dark Cuppers and

blonde ones—Vermont accents and Alabama draws—doctors and farmers... all with their differences of taste and politics, yet as close and harmonious in spirit as a group could be. From where I sit, it's a great American tradition—not just family reunions, but the ability to get along as one harmonious family, regardless of differences of taste—whether it's taste for politics or farming, beer or cider. Joe Marsh

Final Appeal Is Made for Fund

AUSTIN—A final appeal for support in the 1946 Sister Elizabeth Kenny Infantile Paralysis Foundation fund campaign has been made by George C. Francisco, Jr., of Houston, Chairman of the Texas Executive Committee of the Foundation. Chairman Francisco said that support to the campaign had been gratifying throughout the state and that practically every county which was organized had reported "over the top." Reports from the county organizations were being received at the state headquarters in the Driskill Hotel in Austin. There was no organization in a number of Texas counties and it was to these counties that Chairman Francisco issued the final appeal for support in the campaign to combat polio, which struck Texas worse in 1946 than in many years. He said that campaign contributions, which are deductible from income tax returns, could be mailed direct to the Driskill Hotel headquarters and that all such contributions would be credited to the quota of the county from which they were received. The campaign came to an official end on last Saturday, but contributions are still being made. In several of the larger counties, the campaign has been extended until Dec. 21. Gen. W. T. Sherman, famous Civil War leader, was a mine "cock" during the days of the California gold rush. Beryllium is a metal about one-third lighter than aluminum. There could be no guarantee of peace as long as any nation had the sovereign rights to decide questions of war and peace for itself. —Dr. Hamilton Holt, president Rollins College.
