U. N. Meeting

(Continued from Page 1)
then strongly denied charges made yesterday by Andrei Y. Vishinsky, deputy Soviet foreign minister, that the small nations were attempting to split the big ones by the campaign for changing the veto.

Romulo did not limit his attack to Russia, declaring:
"While the Soviet Union has used the veto most, we know that all of the big five want it and would not hesitate to use it."

In demanding a revision of the charter "in time to prevent war," he contended that an "atomic armament race is around the corner."
"It is either limited world government or unlimited world anarchy," the scrappy Philippine delegate declared.

Premiere

(Continued from Page 1)
are being taken by members of the ESA sorority now.
Members of Epsilon Sigma Alpha, who'll gladly put your name on the dotted line for a couple of shickies—tickets, to you, dear friend—are: Mesdames Margaret Payne, president; Iris Ragdale, Lillian Kelley, Lucille Foster, R. E. Givens, Mary Lindsey, Freda Barrett, Jean Haw, Margaret Dial, Mary Lane, Rachel Brunley and Adèle Mae Bryant.
Also Mesdames Adelen Brazil, Varue Dyson, Wilsie Blakney, Ursula Jones and Carolyn Holt.
There will be extra seats put in the theater for the event, but tickets should be bought early, because they may not last long.

WAA Surplus

(Continued from Page 1)
the time of a WAA investigation had only \$24,968 in its possession.
At two successive sales of surplus property one county judge used a priority to purchase 19 motor vehicles and turn them over to dealers for resale.
Other officials made priority purchases for their own use or for friends and relatives at no profit.
Priority disposal of war surpluses to state, county and local government during the first half of this year amounted to \$84,149,000.

Plane Wreck

(Continued from Page 1)
snowline was reached at about 4,500 feet. The wreckage lay at about 1,800 feet in a saddle below the summit of the 6,233-foot peak.
Western Air flters identified the wreck as that of the missing ship Friday. The plane, carrying eight passengers and three crewmen, vanished in a storm Wednesday, only about three minutes away from the air terminal. It was inbound from Salt Lake City.

Two Texans Die As Deer Season Opens in State

By The Associated Press
The deer season opened officially in most of Texas yesterday (Saturday) with several good kills reported, but marred by the deaths of two hunters.

Hunting was expected to improve considerably today with dropping temperatures predicted for much of the state. Unseasonably warm weather on the season's opening day probably kept the bag lower than normal.
Ward Nowlin, 53, a city employe at Austin, died of a heart attack while hunting deer near Harper, about 24 miles north of Fredericksburg.

Jess L. Lambert of Smackover, Ark., was killed on his way to hunt deer in West Texas. A car in which he was riding went out of control and struck the base of an underpass north of Bryan.
The first buck reported killed was by P. B. Teeples of Austin. He bagged a five-point buck at 200 feet with a 30-30 rifle at 7 a. m. Near the Bull Creek road, eight miles west of Austin in Travis county.

The day's heaviest kill was reported near Mason, where 56 bucks were on cold storage by 1 p. m. Over 3,000 hunters were believed active in the county yesterday.
The first to report a kill there was J. R. Tulk of Dallas.
Ideal cold weather also was reported at Llano. The kill in that area was believed to have equalled last year's, but most of the bucks were kept in camp, due to the cold weather.

A Paris, Texas, sporting house store owner killed the first in that area. He got a 116-pound, eight-point buck ten miles west of Snow, Okla.

Senate Probe

(Continued from Page 1)
mack, unsuccessful democratic primary opponent of McKellar.
Announced that no complaints had been received as a result of the close senate election contests in Maryland or West Virginia.
Ellender said Bilbo will be notified of the hearings and invited to testify or present witnesses.
Meanwhile a friend of the senator here said Bilbo's physical condition may prevent his appearance on Jan. 3 when congress opens.
Bilbo, 69, recently was injured in an automobile accident.

Meeting on County Hospital Sited

The commissioners court will meet Wednesday at 11 a. m. in the county court room for the purpose of considering location of a site for the new hospital, County Judge Sherman White announced yesterday morning.
All citizens interested in the hospital location are invited to meet with the commissioners and present their views, Judge White said.

Feed High—Milk Scarce
LUBBOCK—(AP)—The milk shortage will continue in West Texas at least two years, Prof. K. M. Renner, head of the department of dairy manufacturers at Texas Technological college, predicts.
Because of the scarcity and high cost of feed, many dairy farmers have either sold outright or reduced their herds, and it will be at least two years before production can again be built up in the area, he said.

Amateur Radio Club Holds Monthly Meet

The Pampa-Borger-Phillips Amateur Radio club held their monthly meeting at the Cities Service club rooms last Friday night.
Following the dinner, which was served buffet style, a discussion was held on amateur radio activities.

Music was furnished by Mrs. R. E. Smith, accordionist.
Guests present at meeting were Mr. and Mrs. John Terry, Amarillo.
Members present were Mr. and Mrs. Bill Hawkins, Mr. and Mrs. Tom Eller, Mrs. R. E. Smith, J. E. Jordan, Al Buslinck, Charles Heal, Ernest Reuss, Ray Samberson, Herman Whately, Irvin Doss, Marshal Rawlings and Miss Delores Samberson.

HUSBAND GETS THE BIRD

AUBURN, Ill.—(AP)—A. L. Pewonka, returning from a hunting trip without a pheasant, was greeted by his wife who was waiting to give him the bird she got without firing a shot or leaving her backyard.
Mrs. Pewonka explained to the empty-handed hunter that she found the pheasant in the backyard. She said the bird apparently had fallen there after being fatally wounded by a hunter in a nearby cornfield.

When a ship flies the Stars and Stripes upside down, it means that the ship is in dire distress.

Galloping Glenn And Playmates Beat Penn 34-7

By SID FEDER
PHILADELPHIA, Pa.—(AP)—Galloping Glenn Davis with his Army playmates turned in one of their more sizzling shows yesterday for the entertainment of a sell-out crowd of just under 78,000 customers and careened to a 34 to 7 victory over the ponderous Penn gridder.
They thus made it 27 straight starts without a defeat in their three-year run of wrecking collegiate football machines.

It was an Army team triumph but, actually, this one was strictly a Davis show.
The California comet did practically everything as he scored two touchdowns himself, forward-passed for another and lateralled for a fourth and put on what comes close to being the top performance of a career that has been strictly star-studded all the way.

Altogether, he was in there banging away for fifty minutes and carried the ball nine times for a net gain of 59 yards, or an average of better than 6 1/2 times a carry. This with his passing—two completions for 76 yards — and his kicking (three for good measure, made it strictly Davis day.
And when it wasn't Davis taking the Penns apart, it was his running mate, Doc (the monster) Blanchard getting away at the line, or Arnold Tucker, the unsung quarterback, pitching passes until he injured his leg and had to be relieved.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off unsightly weight and help bring back alluring curves and graceful slenderness. Just get from your druggist, four ounces of liquid Barcozate (formerly called Barcol Concentrate). Add enough grapefruit juice to make a pint. Then just take two tablespoonsful twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back-breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Two Minor Fires Make Up Day's Business
Firemen Friday afternoon were called to the city dump east of town to extinguish a fire on a trash truck. Fire Chief Ben White reported Saturday morning.
The blaze was confined to the trash load on the rear of the truck and was quelled before any damage was done to the vehicle.
Less than three hours later firemen answered a call from 927 E. Fisher St., only to find that it was a false alarm.
Chief White said that a wood fire had been started in the stove of an out house in the rear of the residence causing quite a bit of smoke and sent neighbors to calling the department.
American forces won their first victory in World War I at Cantigny, France, on May 28, 1918.

OUR CIVIC CLUBS

Jaycees, Tues., Palm Room.
Rotary, Wed., Palm Room.
Lions, Thurs., Meth. Church.
Kiwanis, Fri., Meth. Church.

Week's Activities
JAYCEES—There was no regular noon luncheon meeting of the club this past week. Members held their regular ladies' night, with a dinner and dancing at the Terrace Grill. Arrangements for the occasion were chairmanned by Don Foster, club member.
ROTARY—A group of Amarillo citizens presented a short program for the regular meeting of the club. Boone McClure gave an exhibition lecture on the history of firearms, a feature well received by the membership. Ike Gillespie sang a selection of solos, being accompanied at the piano by Donna Jean Beckhard. Rotarian Steve Matthews introduced the program.
LIONS—An education film on the production of steel was presented by C. E. McClelland, U. S. Steel's Southwest public relations representative. Members discussed a proposed joint meeting of three

clubs—Lions, Rotary and Kiwanis—on Dec. 6, a plan designed to continue the good relations among the organizations.
KIWANIS—Club program arrangers came up this past week with another vignette-type speech—and by a member of the club, R. Q. Harvey, pastor of the Central Baptist church here. In dealing with the subject, "The Ready Man," Kiwanian Harvey based his speech around the lives of three men of theological history—Abraham, the rich man, who, when requested by God to take the gospel to men, was ready; Isaiah, who, having a vision of the ministry, accepted the call of God; and Paul, the persecutor of the church, preached the fall of the Roman Empire when it was devoid of Godliness. "Man," said Harvey, "must have vision, to see life's needs."
He gave listeners something to think about when he said: "Our government is not going to be any better than we are as individuals." Howard Riggs, Kiwanis district lieutenant governor, Wellington, spoke on Kiwanis and its objectives.

In spice cakes, leftover coffee may be used instead of sour milk.

Six Gray County School Buses Fail State Inspection

Six of 18 school buses operating in Gray county failed to pass the annual inspection held Friday, State Highway Patrolmen reported yesterday.

Seven other buses were passed and five held up for minor repairs before patrolmen would give their OK to them.

Three of the six that failed to pass the inspection were operated out of Donley county bringing pupils to schools in Alameda and Lefors. Faulty muffler and exhaust pipes; brakes; and lights were given by the patrolmen as reasons for turning down the buses. This does not mean that these school buses will be taken off the roads, but means that they will not be eligible for state aid in maintaining them.

The patrolmen added that the five buses temporarily disapproved need only minor repairs and will be passed after these are completed.

Two of the Donley county buses turned down by the officers did not have the required lettering on the sides, or the rear, the officers claimed. The required signs must read "SCHOOL BUS" in letters at least six inches high on each side of the bus and on the rear. Signs on some

FUNNY BUSINESS

BY HERSHBERGER

"His horse was shot from under him!"

of the other buses were in need of repainting or brightening up. One

of the Gray county operated buses turned down needed the required signs, and repairs to headlights, clearance lights, brakes, muffler and exhaust pipe, windshield wipers and other incidentals.

Patrolmen inspected the vehicles for full and clear identification; entrance and exit facilities, including emergency doors; driver's vision, both front and rear views; brakes, all lighting equipment, steering, tires, ventilation, fire extinguishers, first aid kits, heater, sild chains, and location of gas tank.

According to patrolmen, approximately 22 more school buses will be checked next week.

The inspections were made on the school grounds at Pampa, Hopkins, Lefors, Alameda, and McLean.

Veterinarian Reports Special Experiment

ORANGE, Conn.—(AP)—A veterinarian who announced last spring that he had succeeded in transplanting ovaries from an older to a younger dog now reports the result of his experiment—the birth of two half cocker spaniel, half English setter pups to a pure bred Dalmatian.

The two-year-old Dalmatian, "Imogene," which whelped the pups here Friday is no more related to them, said Dr. Leona F. Whitney, "than an incubator is related to the chick it hatches from a hen's egg."

"Imogene" was mated with an English setter after Dr. Whitney, in what he described as a simple operation, had removed her ovaries and replaced them with ovaries taken from a cocker spaniel too old for breeding.

When he first described the experiment in a magazine article last May, Dr. Whitney said that the old dog's ovaries, instead of becoming played out after the transplanting, "became rejuvenated and started developing many eggs like those of the young dog in which they were transplanted."

He added Friday that the result of his experiment bolstered his previously expressed belief that the way

might be opened "to similar transplants in other species of animals, and possibly human beings."

The veterinarian, reporting that the experiment was the first of its kind ever performed so far as he knew, said the two black and white pups bore not the slightest resemblance to the Dalmatian, but looked like any pups would if born to a pure bred Cocker Spaniel, which had been mated with an English setter.

Russia is so large that its extreme east and west points have an 11-hour difference in time.

USE OUR LAY-AWAY PLAN

THE DRILLER'S LOG By Bob Bray

Representatives of all the major carbon black companies operating in the Panhandle will go to Amarillo next Wednesday for a hearing with the Railroad Commission, to be held at the Herring hotel.

At that time carbon company spokesmen will attempt to answer charges made by R. C. Kay, chairman of the gas committee of the Panhandle Producers & Royalty Owners association, at a hearing last month.

Kay charged that excessive amounts of gas have been and are now being wasted in the production of channel black and asked the commission to make complete investigation of the matter and to take steps to prevent further waste of our natural resources.

To bear out his testimony, Kay offered figures from reports on record with the Railroad Commission. By these figures he sought to prove that due to the wide variation in the amount of channel black produced from one thousand cubic feet of sour gas, by various carbon companies, all of the plants in the lower production brackets were doubtless being wasteful in production.

No answer was made to the charges due to the fact that carbon black plant representatives present said they had not come prepared to answer any such charges. They said they had not understood the nature of the hearing.

Before closing the session last month and setting the date for next Wednesday's hearings, Olin Culbertson, chairman of the commission, said "I am frank to say it looks to me like there has been a bad case made against channel black, and if you boys want to get your cards on the line, you had better wheel and deal while you have a chance. In the state of the record as it now stands, if there isn't more enlightenment brought with reference to this, I make a promise to you, I am going to try to get the legislature to do something about this wasteful use."

Rumors were circulating yesterday to the effect that the Danciger Refinery which recently ceased production, due to the present "eco-

December Crude Allowable Order Lowest for Year

AUSTIN—(AP)—Texas crude oil production next month will dip to its lowest flow this year under the railroad commission's December allowable order designed to result in 2,900,367 barrels of crude daily.

Commission Chairman Olin Culbertson explained the slashing of permissive production as being in line with a normal seasonal decline in crude oil demand and as prevention against further piling up of stocks above ground.

The reduction will be affected by cutting the number of producing days from 25, the November figure, to 23 during this 31-day month of December, and leaving West Texas District 8, on 23 days and the big East Texas field on 21 days. The Panhandle field remains exempt from shutdown.

The commission's proration order set allowable at 2,133,518 barrels, but an estimated underproduction of 825 percent was expected to cut the flow back to the 2,000,267 barrels daily, 49,733 barrels daily under the U. S. Bureau of Mines forecast of demand for next month.

Production of 130,977 barrels of natural gasoline and distillate would boost flow of all petroleum liquids to 2,161,261 barrels per day, 131,264 barrels above the Bureau of Mines estimate of demand for all petroleum liquids.

Current crude oil calendar day allowable is 2,264,034 barrels. The next statewide oil proration hearing was set for Dec. 30.

The net allowable by districts as of Nov. 9, as compared to December:

- 1. Southwest Texas 21,158, 20,703, down 455; 2. Southwest Texas, 170, 192, 144,129, down 16,022; 3. Gulf Coast, 504,251, 55,849, down 48,402; 4. Southwest Texas, 241,297, 270,503, down 29,206; 5. East Central Texas, 32,879, 36,071, down 3,192; 6. East Texas (outside), 111,736, 105,173, down 6,593; 7. East Texas Field, 328,757, 318,400, down 10,357; 7-B. West Central Texas, 40,793, 38,785, down 2,008; 7-C, West Central Texas, 22,418, 29,998, down 7,580; 8. West Texas, 541,003, 531,051, down 9,952; 9. North Texas, 147,297, 150,275, down 2,978; 10. Panhandle, 92,285, 92,059, down 226.

American railroads use more soft coal than the total amount sold by all U. S. retail dealers.

A non-union situation, was being considered for purchase by the Phillips Petroleum company.

An attempt was made to substantiate this report, but it was impossible to contact officials of either company late yesterday evening.

News of Interest To Oil Men

Sunday, Nov. 17, 1946 PAMPA NEWS PAGE 5

Huge Lease Play Is Underway Here

Over 30,000 acres of land in Northeast Gray and Southern Roberts county have been leased by the Phillips Petroleum company during the past ten days, according to lease records in the county clerk's office.

This is the recorded acreage and it seems very likely that several thousand more acres have been leased that have not been reported at this time.

Also, the Sinclair-Prairie Oil company has reportedly leased approximately 10,000 acres of land in the same area recently, though records to substantiate this report are not yet on file.

This extensive lease play runs to Laketon, northeast through Hoover and involves the whole area generally northeast of Pampa. It also extends from Gray county into southern Roberts county.

The average price per acre is believed to be approximately \$3 which would make the entire Phillips acreage recorded, involve an expenditure of \$90,000 for the entire 30,000 acre tract. It is known that prices have run much higher than this on some acreage, according to documentary revenue stamps prices have advanced as high as \$7 per acre in some instances, though these prices are admittedly infrequent.

Even the average \$3 per acre price is far over past prices for land in this area which have been \$1 for the past several years.

Records on file at the county clerk's office show that the Phillips Petroleum company has recently leased the following listed property from the named property owners:

- November 4—John E. Kinney, E/2 of sec. 151, blk. M-2, BS&F Survey; W. L. Lard, W/2 of sec. 111, and the NE/4 of sec. 118, blk. M-2, BS&F Survey; Aubrey S. Cousins and Gertrude Cousins, sec. 209, blk. M-2, H&GN RR Co. Survey; Mary Ames Ducorran, sec. 221, blk. M-2, BS&F Survey; Orval Christopher and Mabel Christopher, sec. 4, blk. M-2, (except 2.9 acres) BS&F Survey.

- November 5—Ben H. Lockhart and Grace A. Lockhart, sec. 82, SW/4 of sec. 81, sec. 26, all blk. S, H&GN RR Co. Survey; Mrs. Hattie V. Seiber, W/2 of sec. 62, blk. M-2, (except certain tracts) BS&F Survey; W. D. Benton and Belle Benton, N/2 of SW/4 of sec. 4, blk. 3, I&GN RR Co. Survey; Leo Paris and Thelma Paris, W/2 of sec. 116, blk. M-2, BS&F Survey; Annie E. O'Loughlin, sec. 171, 188, 205, (Robert county) and 172, and W/2 of 141, all blk. M-2, BS&F Survey; William E. O'Loughlin and Edith J. O'Loughlin, sec. 152, 21, blk. 153, and E/2 of 173, all blk. M-2, BS&F Survey.
- Thomas O'Loughlin and Mary O'Loughlin, sec. 108, E/2 of 141, blk. M-2, BS&F Survey; Irene B. Beville and A. M. Beville, Jr., sec. 184, 182, blk. M-2, BS&F Survey; Bulah B. Sims and John T. Sims, Jr., sec. 218, 210 and 183, blk. M-2, BS&F Survey.
- November 6—Lona S. Talley, W/2 of SE/4 of sec. 118, and N/2 of SW/4 of sec. 117, and E/2 of sec. 144, all in blk. M-2, BS&F Survey; O. H. Ingram and Maryetta Ingram, sec. 211, 118, 6, blk. S, 114, 88, blk. M-2 and all that part of sec. 28, 27, lying S of P&SF right-of-way.
- November 7—Ray Jones, Flora Mae Jones and Florence Jones, sec. 84, and E/2 of sec. 113, blk. M-2, BS&F Survey.
- November 8—Clyde L. Carruth and Virginia E. Carruth, W/2 of sec. 173, blk. M-2, BS&F Survey; See LEASE PLAY, Page 7

Phillips-AFL Pay Negotiations Fail

Wage negotiations between the AFL International Union of Operating Engineers, Local 351, and Phillips Petroleum company officials ended without an accepted settlement Friday afternoon, according to Earl Schneider, local AFL secretary.

Schneider said, "A committee from the production department failed to reach an agreement with Phillips officials. The strike vote will be taken as planned tomorrow and Tuesday." If the strike vote carries it will affect 2,500 employees and the operation of six plants.

When asked if Phillips has made any offers to compose differences, Schneider said, "Phillips has made offers but none that are acceptable. Phillips has offered a wage increase that would help higher wage scale employees, but would not be so beneficial to lower wage brackets, unskilled employees. We feel that the cost of living has advanced proportionately for all age groups and that any wage increase should benefit all workers alike."

Francis Speaks To Oil-Gas Committee

SAN ANTONIO—(AP)—Charles I. Francis of Houston told a special committee of the Texas senate studying the oil and gas industry here recently that court decisions and policies of the FPCC must be clarified if there is to be progress in stabilizing the gas industry.

He also told the committee that the price paid for natural gas at the well was too low.

Five Completions and Eight Commencements Are Reported

A total of five well completions were reported in this area during the past week. Three of these wells completed were gas, and two were oil.

The two oil wells that were brought in tested a total daily potential production of 198 barrels in a 24 hour period.

At the same time eight commencements were reported during the week.

Oil Commission Issues Notice of Hearing Dates Set

AUSTIN—(P)—The railroad commission recently gave notice of the following hearings:

Nov. 3—Application of George K. Tappan for a special oil allowable for his No. 1 State of Texas well, Lane City field, Matagorda county.
 Nov. 27—Petition of W. E. Richey for the commission to determine if proper accounting and proper records are being kept of the oil produced from the Yoast field, Bastrop county. Richey alleged in his petition that he is the owner of an 80/128th interest in the oil and gas in and under the Yoast "A" lease.
 Nov. 29—Application of E. C. Rach in behalf of the West Central Drilling and Associated companies for reconsideration on the maximum efficiency rate of production in the Reddin and Wimberly fields, Jones and Taylor counties.
 Dec. 5—Application of the Warren Oil corporation for the establishment of maximum efficiency rates of production in the Steed field, Young county, in the Kendall field, Young county, and in the Matlock field, Jack county.
 Jan. 8—Application of Roeser and Pendleton, Inc. for a discovery allowable for their W. I. Cook "B" well No. 1, Shackelford county.
 Jan. 8—Application of Henshaw Brothers and Smith for a discovery allowable and net field deal for their H. N. Schwartz et al well No. 1, San Patricio county.
 Jan. 8—Application of Lean Brothers to use as a water input well their D. C. Pratt well No. 2, Stephens county.
 Jan. 9—Application of the Anzac Oil corporation for a revision of the field rules now in effect for the Anzac-Graham field, Young county, for the overall field, Coleman county, and for the Anzac-Morris field, Coleman county.
 Jan. 15—Application of Fred M. Manning, Inc. for a discovery allowable for his Parrott "B" well No. 1 and his McKnight well No. 3, Throckmorton county regular field.

Anglo-American Oil Treaty Is Opposed By API President

CHICAGO (P)—William R. Boyd, Jr., president of the American Petroleum Institute, said recently he opposed the United Nations "setting up an international control over oil."
 At a news conference prior to the formal opening of the institute's 26th annual convention, Boyd declared:
 "I don't want to see a setup in which the non-producing nations can control the production of oil."
 Boyd, of Teague, Texas, who was one of six American industry advisors in London negotiations for the Anglo-American oil treaty, said he favored the inclusion of reservations in the treaty which would make "clear that the treaty is purely advisory and that it has no control over oil."
 Earlier Harry K. Phipps of the Socony-Vacuum Oil company told a subcommittee that dehydration of products pumped through long distance pipelines "completely eliminates the source" of the corrosion responsible for costly upkeep problems.
 New directors elected recently at the 26th annual convention of the American Petroleum Institute included:
 Production group: Central United States: H. N. Greis, Tulsa, Okla.; Jake L. Hamon, Dallas, Texas; E. A. Landreth, Fort Worth, Texas; H. R. Straight, Corsicana, Texas; H. C. Wiess, Houston, Texas.
 Refining group: Central United States: T. H. Barton, El Dorado, Ark.; D. J. Moran, Houston, Texas.
 Marketing group: Pacific coast: H. D. Collier, San Francisco; Charles S. Jones, Los Angeles, Rocky mountain: G. H. Johnson, Denver.
 Supply group: F. M. Mayer, Dallas, Texas.
 Central gasoline group: J. H. ... Amarillo, Texas.
 The U. S. traffic death record in 1941 was 40,000, highest in the nation's history.

Deaton & Sons Firm Gets Pipeline Job

BROWNWOOD—(P)—The Brownwood city council has awarded a contract for laying a 14.1 mile pipeline to tap a new gas field at Thrifty, Tex., to C. N. Deaton and Sons of Odessa, Tex.
 The bid, lowest submitted, calls for excavation at the rate of 27

cents per linear foot for dirt and 88 cents for rock with a minimum of \$20,100.95.
 The city previously purchased 80,000 feet of six-inch invasion pipe for the line for \$44,043.22 delivered, bringing the minimum cost of the project to \$64,144.26.
 The welded line will supply the city gas system from three completed gas wells.

New Administrative Areas Are Formed

HOUSTON—(P)—Shell Oil Company, Inc., recently announced formation of three new administrative areas with headquarters in Midland, Houston and New Orleans. The present Tulsa area will continue under R. B. Roark, vice president and

manager.
 Overall exploration and production activities east of the Rockies will continue to be coordinated from the Houston office, with appointment of a new advisory staff.
 W. A. Alexander was named manager of the Houston area, B. Sykstra was made manager of the Midland area and E. G. Robinson manager of the New Orleans area.

Movie Actress to Testify in Case

NEW YORK—(AP)—Movie Actress Sally Haines will come to New York from Hollywood some time next week, Brooklyn District Attorney Miller McDonald said yesterday, in order to tell anything she may know about Jimmy Collins, one of five

men charged in the embezzlement of nearly \$500,000 from the Mergenthaler Linotype company. McDonald planned to ask the actress why Collins had access to her safe deposit box here. Police took \$5,400 from the box. He also was expected to ask her questions about Collins' activities in California. McDonald learned from Charles Morrison, owner of the Mergenthaler Linotype company, that Collins invested heavily in a club at Palm Springs, Calif.

Other defendants with Collins are William A. Nickel, the Mergenthaler company's former \$100-a-week cashier; Irving (Dizzy) the Bel; Isadore Rappaport and Joseph Millstein. They are charged with larceny and forgery. Nickel is being held in lieu of \$100,000 bail. The others are free in \$25,000 bail each.

A brace of geese consists of two birds. Three presidents of the United States participated as soldiers in the revolutionary war.

CALL ME LIZ

by Rene Ryerson Mart

THE STORY: Red McFan, army pilot, comes home with a chestful of ribbons and a cocky swagger. His old boss offers him a chance to finish school and a part-time job meanwhile, both of which he accepts. Russ Condon, the boss' son, is his closest friend. Russ is in love with Elise Varney, who doesn't like Red. Red thinks he's losing his way with women when he can't seem to make any time on a date Elise provides for him. The next day, however, he picks up a cute co-ed, takes her to the movies, kisses her goodnight. He feels better.

MONDAY MORNING Red started to work in the laboratory. The first Elise knew about it was when Russel brought him in and said smilingly, "Well, here's your new helper."

Her unpleasant surprise registered on her mobile face. "Helper?" she said tactlessly, caught for the moment of guard. "You mean he's going to work here?"

"Just mornings," Russel explained. "Red is slated for a job in the laboratory when we open the new plant. We want him to work here and get in touch with what we're doing, while he's going to school."

"Oh, I see," Elise purposely busied herself at her work for a moment while she got herself in hand. She didn't think she was going to like working with Red McFan. There was something about the man that got under her skin. But since it was all evidently pre-arranged there was nothing she could do about it.

She managed a smile as she turned back to Russel and Red. "I'm sure that will be all right." And then to Red, "When do you start?"

"Right now," Red said. He hadn't, however, missed the look on her face when Russel broke the news to her. He waited until Russ was out of ear shot and said smartly: "You don't need to look like that, Liz. I don't bite."

Man Being Held Here To Return to Kansas

Clifford Oakley, 43, Lakin, Kans., yesterday signed papers of extradition for his removal to that state, Chief Deputy Sheriff Jeff Guthrie, said Saturday morning.

Oakley is wanted in Kansas on bad check charges. Sheriff Jim Pratt, of Syracuse, Kansas, arrived in Pampa Saturday night and will take Oakley to Kansas today, Sunday, Guthrie added.

Board of Review Will Meet Monday

Gray county board of review, Boy Scouts of America, will sit at 7 p. m. Monday, Nov. 8, in scout headquarters, city hall.

Scouts from Gray county who are up for advancement at the county court of honor to be November 25 in district court room, Gray county court house, are required to appear before this board of review for approval of advancement. Joe Gordon, chairman of the advancement committee will preside at the review.

Leaves From a Correspondent's Life Notebook

By HAL BOYLE

NEW YORK—(AP)—So General Eisenhower is going to improve army chow—he says.

What in heck does he think we are? Red thought irritably. He was fed up without the assignment the Professor threw at them for next day's class.

He swore as he read the assignment over in his room that night: "Write a descriptive essay of some scene in your past, preferably your childhood, which impressed

me most deeply on your mind. Try not just to remember the incident as you write about it, but try to relive it. Recapture the way you felt at the time."

He made two or three attempts to start writing and then he threw down his pen in disgust. He got up and walked back and forth across the room.

Suddenly something clicked in his mind. He could remember things to write about all right. Plenty of things without going back to his childhood.

He sat down and began to write. He wrote rapidly remembering the incident vividly. An early morning mission over Italy. A clear morning. Visibility unlimited.

Venice under his left wing. As calm and serene down there that morning as if war were a million miles away. The dark Adriatic and the sun coming up over the mountains of Yugoslavia.

The break into the coast and the target. Test your guns. And now the flak, the little black flowers of death. Blossoming in the morning sky. Roll up and over and dive down. Doing 450, miles an hour. Release bombs. Guns going. Pull up and out of it. Pressure forcing one down and out until the red haze came.

And then miraculously the open sky again. The little black flowers left far behind. Out of it and safe. Head for home and the sack.

Red wrote it as he remembered it. Wrote with short staccato sentences, the feelings of excitement, fear and elation pouring over him until the sweat streaked down his face.

He finished writing in a whirl of creative pride. He laid down his pen and read back over what he had written. His flush of accomplishment began to fade. Sure it was good. It expressed what he had seen and felt that morning. But it wasn't written according to good English form.

He could see the stiff old English prof going over it. Picking it to pieces. Marking the pages black with underscored errors.

"To Be Continued"

The "Big Inch" pipe line extends 1,363 miles from Longview, Texas, to the New York-Philadelphia area.

Military Forces Hold Spotlight

JERUSALEM—(AP)—Political action began moving offstage in Palestine yesterday and the spotlight was taken over by new activity of British military forces.

As the Arab executive scheduled a brief final meeting in Jerusalem before going to Cairo and Jews awaited the opening of the Zionist congress at Basle next month, reliable military sources disclose impatient troops movements or relatively major acle toward Palestine.

These sources said Palestine's garrisons—now estimated at nearly 100,000 British personnel—was likely to be raised by year's end to twice that, including four full divisions of combat troops.

Observers close to the Palestine scene believe military and police garrisons are being strengthened because of an expected Palestine decision after the first of the year and the added forces might be necessary to implement the decision.

Many Negroes Walk Through Picket Line

LOUISVILLE, Ky.—(AP)—Many negroes walked through a negro picket line to attend a showing here Friday night of "Carmen Jones," with an all-colored cast.

The national association for the advancement of the colored people and the Kentucky bureau of negro affairs joined in the picketing for

what they called "segregation" of negroes and whites in the audience. The management said a large section of the main floor in Memorial auditorium was reserved for negroes and another large section for whites. In the balcony, whites and negroes could mix, if they cared to do so, and some did, observers reported.

Negro actors expressed no sympathy with the picketing, saying members of their race were not refused admittance and asking why the pickets did not protest against segregation in shows with white casts as well as those having negro performers.

'Canned' Shows May Take Over In Radio World

By BOB THOMAS

HOLLYWOOD—(P)—While other radio stars are yearning publicly and privately for the transcription show, A. La. Crosby, Dinah Shore calmly draws that's not for her.

Following Bing's revolutionary move, the radio industry may become a canning business, say some observers, with networks offering already-performed shows on wax, much the same as a grocer sells packaged fruit salad and chili con carne. Advocates argue recorded shows would insure perfection of performance and accord radio stars vacations at any time.

"That's right," said Dinah. "Of course George (Montgomery) and I would love to take a few weeks off and go to our ranch," she said. "But really, the 'grind' of a weekly radio show isn't so bad. I come in a few hours twice a week, and that's all. It's the easiest way I know of to earn a few (thousand) dollars."

She added that a transcription radio show would not evoke her best work.

"If I knew I could stop and start over again if I had to, I wouldn't be so eager to please. I need the excitement of knowing 'this is it.' Every Wednesday night is a first night for me. But if I canned four shows in one week, maybe one would be good and others would be mediocre."

Ann Sothern is growing wearier of her Maude roles and threatens to dye her hair to get away from the characterization. . . Claudette Colbert's illness has kept her out of "The Egg and I" for a week. . . With production hampered by sniffing actors, 20th-Fox is planning to administer anti-cold shots to its talent. . . Lionel Barrymore donated a self-etching to his school, Seton Hall college, Orange, N. J.

(Box) "Song of the South" (90 minutes) which premiered in Atlanta last night, is Walt Disney's latest departure for ordinary film making. Live acting, by such good performers as James Baskett, Luana Patten, Bobby Driscoll and Ruth Warrick, comprises 70 percent of the picture. The rest is given to the rollicking stories of Uncle Remus, drawn in the best Disney tradition. There could have been more cartoons, but the plantation story is charmingly told and should please on both sides of the Mason-Dixon line.

"BEWARE OF FALSE PROPHETS" OR Beware of False Teachers, Preachers, or "Bible Lecturers," Who Wrest God's Word!

1—WHO ARE THEY?

They are Legion! ANYONE WHO MISREPRESENTS GOD'S WORD either willfully, carelessly, or ignorantly IS A FALSE PROPHET! Jesus knew they would be on earth, so he said, "Beware of false prophets who come to you in sheep's clothing but inwardly are ravening wolves." Mt. 7:15. They are deceptive. They will not let you know who they are, nor what their plans are, until they get you where you have to pay off! Then they will use you and your money to their diabolic end.

2—HOW MAY WE KNOW THEM?

It is hard to know them unless you know God's word. Paul said, "And no marvel; for even Satan fashioneth himself into an angel of light. It is no great thing therefore if his ministers also fashion themselves as ministers of righteousness; whose end shall be according to their works." 2 Cor. 11:14, 15. Jesus said, "By their fruits ye shall know them." Mt. 7:20.

3—WHAT IS THEIR FRUIT?

Their fruit is their deceptive life they live, their false teaching and the other dirty work they do.

4—WHAT HAVE BEEN SOME OF THE TEACHINGS OF THE FALSE PROPHETS?

1—They have set dates for Christ's return. But Jesus said, "Ye know not the day nor the hour." 2—They claim to have had visions from God. But their conduct, and the changing of their visions show that their visions were from beneath and not from above, if they had any visions at all. 3—They teach that you may have more than one companion. 4—They collect money for indulgence under false pretense. 5—They encourage people to call them "Father," "Reverend," etc. 6—They teach instruments of music may be used in worship. 7—They say that people do not have to be baptized to be saved. 8—They say that the "Seventh-day Sabbath" is "The Lord's Day." 9—They claim they can perform miracles, and speak in tongues. 10—They baptize infants. 11—They teach that Jesus will return and establish an earthly kingdom and reign over it 1,000 years. 12—They say that Christians do not need to take "The Lord's Supper" every first day of the week. 13—They teach that the bread and fruit of the vine are the real body and blood of Christ. 14—They say any church will do. 15—They teach that faith only saves. So we could go on and on! Is it any wonder that people are lost and do not know what to do to be saved. **FALSE TEACHERS ARE TO BLAME!** "Ye do err, not knowing the scriptures nor the power of God." Mt. 22:29.

5—WHY ARE FALSE TEACHERS DANGEROUS?

1—THEY LEAD PEOPLE ASTRAY! Jesus said, "Many false prophets shall arise, and shall lead many astray." Mt. 23:31. **THEY CAUSE PEOPLE TO SPEAK EVIL OF THE TRUTH.** Peter said, "But there arose false prophets also among the people, as among you also there shall be false teachers, who shall privily bring in destructive heresies, denying even the Master that brought them, bringing upon themselves swift destruction. And many shall follow their lascivious doings; by reason of whom the way of the truth shall be evil spoken of." 2 Pet. 2:1, 2.

6—HOW DOES GOD AND CHRIST FEEL ABOUT FALSE TEACHERS?

1—Jesus said they would be hewn down and cast into the fire. Mt. 7:19. 2—Paul pronounced the curse of God upon all of them. Gal. 1:7-10. 3—John shows that the plagues of God's words shall be added to them and that they shall have no part of heaven. Rev. 22:18, 19. He further shows that they shall be cast into the lake of fire and be tormented day and night forever and ever. Rev. 19:20; 20:10.

7—WHAT ABOUT THOSE WHO FOLLOW FALSE TEACHERS?

They will be lost with the false prophets! Read 1 Kings 13; and note the scriptures cited above. We have been warned against them and if we do not take warning we will be lost!

8—WHAT ATTITUDE MUST WE HAVE TOWARD FALSE TEACHERS?

1—WE MUST NOT BELIEVE THEM. John said, "Beloved, believe not every spirit, but prove the spirits, whether they are of God; because many false prophets are gone out into the world." 1 Jo. 4:11. 2—WE MUST TRY TO TEACH THEM GOD'S WORD. Acts 18:26. 3—We must not encourage them in their error. If we do we become guilty of the same sin. 3 Jo. 9-11. 4—We must warn others against them! 5—We must mark them and turn away from them. Rom. 16:17.

9—WHY NOT LEAVE THEM ALONE?

That is the easy thing to do, and the popular thing to do! But that is not what Jesus and the Apostles did! And we can't do it either if we follow their example. As long as Satan can get God's people to keep their mouths closed, his ministers will lead people to destruction and make them think they are marching to heaven.

10—DO I WANT YOU TO FOLLOW ME?

No, friends, I want you to follow Christ! My desire is to point you to the lamb of God that takes away the sins of the world.

11—HOW CAN YOU FOLLOW CHRIST IF YOU DO NOT FOLLOW MEN WHO CLAIM TO FOLLOW CHRIST?

1—Search the scriptures daily to see if the things you hear are so! 2—"Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." 2 Tim. 2:15. When you rightly divide "the word of truth," you will read Matthew, Mark, Luke and John, and there learn of the birth, life, and works of Jesus, and be made to believe that he is the Son of God. Jo. 20:31, 32. Then read the Acts of the Apostles and you will learn about "The Church of Christ" and what you must do to be saved or become a member of his church. Then read the rest of the New Testament and you will learn how to live the christian life and be prepared for heaven when this life is over.

FRIENDS, THERE IS ONLY ONE WAY TO BE SAVED AND THAT IS THE LORD'S WAY! WE PLEAD WITH YOU TO LEARN THE WILL OF THE LORD, AND OBEY THE LORD, THAT YOU MAY BE SAVED! THE LORD'S WAY IS RIGHT, MAN'S WAY IS WRONG! THE DIFFERENCE IN MAN'S WAYS AND GOD'S WAYS IS THE SAME AS THE DIFFERENCE IN HEAVEN AND HELL! FOLLOW GOD AND BE SAVED, FOLLOW MAN AND BE LOST! MAY YOU HAVE THE COURAGE TO LEARN THE LORD'S WILL AND DO IT, IS MY PRAYER!

Building of New Homes Restricted To War Veterans

By JAMES MARLOW
 WASHINGTON—(AP)—Today in this country new home building is supposed to be limited almost entirely to homes for veterans. This is a government program. But now veterans' housing has become a very hot subject, may grow hotter. Here is an explanation, with background, of how it got to where it is. Start at the beginning.

In October, 1945, the government threw off all its wartime controls on buildings of any kind. But veterans needed housing. Their cry reached Washington. By early 1946 the cry had become so acute because a lot of scarce building materials were going into construction other than homes—that the government had to act. Since then it's tried to repair the damage done by throwing off its wartime controls in October a year ago. This is what it has done:

1. Wilson Wyatt, one-time mayor of Louisville, Ky., was made housing boss. He set a goal of new homes for veterans.
 2. Unless the government gives permission, there can be no building repairs or new building or any kind that exceed certain money limits. For example: no repairs without permission if they cost over \$400.
 3. To keep costs down for veterans, the government gives special help in getting scarce building materials for veterans' new homes that cost less than \$10,000 or rental units that will rent for no more than \$80 monthly.

To do this, the government has set up a system of priorities on 66 necessary but scarce building materials, like nails and hardened flooring. The government did it this way:
 It ordered manufacturers of those 66 scarce materials to set aside half or more than half of what they turn out so the materials can be bought for the \$10,000 new home or \$80 rental unit for veterans.
 4. The government has been told by congress it can spend up to \$400,000,000 in premium payments—or bonuses—to encourage manufacturers in breaking their own production records of scarce stuff.
 5. To encourage the makers of pre-fabricated houses to turn out as much of that housing as possible, the government will buy, at 90 percent of the regular price, any pre-fabs the makers can't sell in the regular market.
 6. The government did a number of other things, like building new roads to timberlands to get the lumber out faster and turning over temporary housing units to colleges.

7. This was very important: the government kept price controls on all building materials and controls on the wages of people working in the building industry.
 But—last week, in wiping out all wage and price controls, President Truman wiped out all price and wage controls in the building industry, too.
 This move, although the government still keeps controls by priorities on scarce materials—may knock into a cocked hat the government's efforts to keep down the building costs of new homes for veterans.

This remains to be seen. Wyatt is supposed to tell Mr. Truman this week what the outlook is and what he can hope to do in carrying out the building program.
 When the program got under way early in 1946, with Wyatt in charge, he set goals for new homes for veterans. Here are his goals and what has been done:
 Goal—1,200,000 housing units under construction by the end of 1946. Result—by the end of September, 807,500 units were under construction. So the goal of 1,200,000 by year's end may be missed, probably not by much.

War Department Wants Regular Army Officers
 The war department is seeking applications from its war time officers for appointment in the regular army as permanent regular army officers.
 Congress has authorized the army to appoint a total of 50,000 officers in the regular army. These officers are to be chosen from men who were war time officers, and who meet the right specifications of the officers examining boards, and the requirements of the war department.
 Veterans who were commissioned officers during the war, and officers now on active duty are eligible to apply for appointment. Applications can be obtained from army recruiting offices, army reserve offices or from the adjutant of any arm post or army air base.
 Appointment will be made during the calendar year of 1947 in four separate groups. The war department desires to encourage the many outstanding officers it had during the war to return to the

army as a profession, as the officers with war time experience and training are invaluable.
 This will be the second group of war time officers to be appointed in the regular army.
 "All you or I, or anyone else, possesses in this world is the power to serve, the power to produce. We need the facilities to exchange that production and service with others."
 —Ody H. Lamborn

Precautions Are Issued Hunters

AUSTIN—With the hunting season now open, Dr. Geo. W. Cox, state health officer, is urging that all hunters or other persons spending time in wooded areas use all

possible precautions against being bitten by ticks which may infect the victim with relapsing fever. He further advises that when a tick is found, it be removed from the body as soon as possible and that care be taken not to crush the ticks in handling them. "Tick-bite fever is contracted, Dr. Cox explained, "either from the bite of infected ticks or by absorb-

ing the infectious material through breaks or scratches in the skin." According to Dr. Cox, the disease does not spread from person to person by direct contact but only through the bite of an infected tick or body louse. Prompt removal of the insect is of the utmost importance.

Relapsing fever, commonly called tick-bite fever, is characterized by sudden onset intense headache located in the front part of the head and pains in the back and limbs. The fever lasts from three to five days before slowly declining. The temperature will then remain normal for about a week then the fever repeats itself. There may be three, four, or even more such relapses, which accounts for the

name of the disease. Dr. Cox said that the wearing of suitable clothing so as to prevent ticks getting next to the skin is of importance in the prevention of this disease. The insects may be removed with the fingers but the use of tweezers is recommended since this helps to prevent leaving the head embedded in the skin. After removing or handling a tick,

the hands should be washed carefully with soap and warm water.

Social Honors New Pastor, Clyde Smith

About 70 members of the Men's Brotherhood class of the Methodist church held an informal get-together with the new pastor, the Rev.

Sunday, Nov. 17, 1946 PAMPA NEWS PAGE 13

Clyde Smith, at the church basement Friday night.

The group had chili, coffee and pie, and the remainder of the evening was spent in a talk by the minister and in the group visiting among themselves.

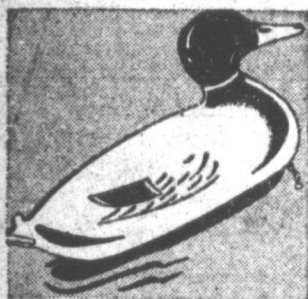

Brotherhood class.

"I want for France a constitution like that of the United States," says Gen. de Gaulle. Why not lend him ours? We're not using it—Cincinnati Enquirer.

CITIZENS GIVE TIME, MONEY TO MAKE HIGHWAY A REALITY
It's pretty difficult to measure the progress of a city or a community in one specific, isolated achievement, but it is through such single, step-by-step achievements that a civilization is finally built.

When a group of civic-minded people in this community devoted a great deal of their time and effort over a period of months to the pursuit of such a project as the highway to Perryton, they were doing something for those of us who had no more than a superficial interest in what was going on.

There is a handful of men here deserving commendation, in that they spearheaded the drive to raise the funds for the road, as well as for doing the spadework of negotiation with landowners, the highway commission, and so on.

It would be impossible to name here all the people who in some way contributed to whatever success can be attached to the verbal assurance a few days ago that the road would go in—and soon.

Even before that stage had been reached, they had helped on the special right-of-way committee, among whose jobs it was to contact landowners, who in some cases were hundreds of miles away.

All of these men worked closely with the regular chamber of commerce highway committee chairman, Crawford Atkinson.

All these men, and many hundreds of others who spent time and money, deserve a "Hats off" from Pampa and Gray county. They did a good job working with officials and citizens in other counties, to make the road a near-reality.

In Hollywood
By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD—(NEA) Lucille Ball will be starred by MGM in a new version of the old musical hit "Roberta."

Carole Landis is due back in Hollywood to resume her film career. She's been living in New York with husband Hornd Schmidlap.

John Garfield has gone into training with Johnny Indrisano for his role of a prize-fighter in "Burning Journey."

Susan Hayward will speak before women's clubs all over the country on "Temperance in Drinking."

Overheard by Al Sack at the Billmore Bowl: "Their engagement is still a secret, or so everybody is saying."

There's no shortage of would-be Lewis' race against time
WASHINGTON—(NEA)—Settlement of the fuss which John L. Lewis has kicked up with the government over modification of his present contract with Coal Mines Administrator J. A. Krug is complicated by speculation as to what the new congress intends to do about labor legislation.

It is estimated that there were 30,000,000 Catholics in America when the white man first arrived.

Gracie Reports
By GRACIE ALLEN
Well, it's been a very nice week for general peace of mind and disarmament, for a change.

So They Say
In the economic and social council we may have 10 hours of agreement. But a five-minute argument between the British and the United States or Britain makes the headlines.

So Lewis' negotiations—with the government—broke up, to be resumed on Nov. 1. Only after Lewis had told the government he wanted a new contract.

Unless an immediate curb is placed on the dead-end public education campaign, it is feared that the nation's motorist will be subjected to a new wave of public lamps, there is a lot of less tragedy packed into the future.

NATIONAL AFFAIRS
news behind the news

Common Ground
By R. C. HOLLES

Competition Coupled With Fair Play
In the last issue under the heading, "Answering an Old Question," I quoted from an article in The Commercial and Financial Chronicle by Robert T. Haslem, vice-president of Standard Oil Company of New Jersey.

With the White House a seemingly attainable prize two years hence, it is certain that this trio, as well as other prominent persons, will show no shyness in seeking the nomination.

AMBITIOUS—Governor Dewey makes no attempt to conceal his ambitions in his private talks, despite the tradition that the Grand Old Party has never given a second bid to a candidate who has been defeated at the polls.

He can hardly be blamed, in view of his almost 700,000 plurality in such an electorally important state as New York, his massacre of the opposition in 1944.

DEADLOCK—Mr. Dewey's advocates point out that New York, New England, Pennsylvania, New Jersey and other Atlantic coast states have a total of approximately 149 electoral ballots, or more than half of the number required for election.

AMBITIOUS—Senator Taft is not bashful, but he was never as bold as he is now.

FAVORITE—Mr. Taft, as earnest and sincere as he is presidentially proud, also wants a clear-cut showdown on the question of conservatism.

So They Say
In the economic and social council we may have 10 hours of agreement. But a five-minute argument between the British and the United States or Britain makes the headlines.

Mackenzie's
AP Foreign Affairs Analyst
By DEWITT MACKENZIE

The campaign of left-wingers in the British house of commons to force a vote on the issue of the United States, so as to avoid what they describe as an inevitable conflict between Russia and America, gives interesting emphasis to the metamorphosis which John Bull's empire is undergoing.

That's the plain talk. It means that as things now stand, there is danger Europe may be heading into another war. Further, consular is inevitable, but it is a possibility.

And the prime minister has given no indication that he thinks the dangers of another war rest in the relations between Russia and America. Europe is as full of perils as a hedgehog is of quills.

As far as John Bull is concerned, his position is such that it's good to have a friend—meaning America—but his policy of preparedness and his foreign relations are inspired by any "war fever" in the United States.

There is Britain's recent momentous recognition of the independence of her Mediterranean lifeline, the Suez Canal, and her own defensive adjustments in the Orient.

There are political changes for one thing, the granting of independence to the vast sub-continent of India.

It isn't America's "war fever" that impels John Bull to keep his powder dry. He has troubles of his own and finds it very comforting to be on close terms with Uncle Sam.

The bureau of agricultural economics has revealed that while farmers comprise almost 20 percent of the population of the United States, their share of the total income last year was only 7.74 percent.

It could hardly be denied that farmers are entitled to economic equality, yet it is common to regard food prices that would bring about this equality as exorbitant.

Of course economic equality is an intangible thing, yet one knows just what per cent of the national income farmers would need to be on an equal basis economically with city people.

It would be a fair share of the national income during the war years, when both farm prices and production were high.

But it may be that the memory of low prices during the depression years—a period of bankruptcies on farms—impulses the thinking on present-day prices.

Other prices are high, but these are not luxury items. Today many former luxuries also are regarded as necessities.

In the reshuffling of values now in progress, because of material shortages and other inflationary influences, it is not reasonable to expect the food prices will be exempt.

Can compulsory public education be abolished? It is a question that has been raised in the past, but it is not one that is likely to be raised again.

Unless an immediate curb is placed on the dead-end public education campaign, it is feared that the nation's motorist will be subjected to a new wave of public lamps, there is a lot of less tragedy packed into the future.

Unless an immediate curb is placed on the dead-end public education campaign, it is feared that the nation's motorist will be subjected to a new wave of public lamps, there is a lot of less tragedy packed into the future.

Texas Today

By JACK RUTLEDGE
Associated Press Staff

"Big D" as some folks call Dallas, is still chuckling over the contretemps, if that's the word, of the Idlewild club which brings out the local crop of debutantes.

With the war well over the young bloods of the town revived the Idlewild and named the new Dallas deb. They dug out their tails and tuxes. They imported an expensive orchestra.

But somewhere along the chain of command, someone erred. Someone failed to brief the imported bandmen on the importance of dress. Already en route to Dallas by forced marches, by chartered busses or leased planes or something, the band was cut off from its base of sartorial supplies.

They couldn't turn back. Their white ties were out of pocket.

The bandmen came to town, some say, in sports shirts, others say in brown slacks and two-toned shoes.

Their music may have been the sweetest in dancebanddom, but to Idlewild eyes their dress was definitely sour.

The young bloods and the old of Idlewild were wild—but not idle. It wasn't Oscar Pettiford this time, but the fashion sense of the Idlewild who waved the sports-suited bandmen to the ballroom bench.

Hurriedly another dance band, complete with formal dress or something near enough to it, was dragged in. Both orchestras, incidentally, were paid.
