Cotton Wage Law Is Flexible But USDA Warns of Violations; Farmers Wonder About Hands

Application of ceiling prices to the pulling of the 1945 cotton in Hall County will have a considerable degree of flexibility to meet varying crop conditions, but federal government enforcement of the law is held as a sure threat if there are attempts made to circumvent the ceiling by one means or another.

Such were points made Friday by W. B. Austin, member of the county wage stabilization board of Texas, who met with the county advisory committee which had been selected at a meeting of farmers at the courthouse.

A county-wide committee, chosen from each county, was selected in conjunction with the Department of Agriculture to enforce regulations under the cotton control act.

Services were held Thursday afternoon at 3 o'clock from the First Baptist church, with the Rev. T. E. Gibson officiating, assisted by Rev. P. E. Yarborough. Interment was in Fairview cemetery under the direction of the Womack Funeral Home. Flower bearers were Mrs. Roy Thompson, Mrs. Charle McBea, Mrs. George Hammons, Mrs. Henry Newman and Mrs. Frank Smith.

Pal bearers were Art Miller, Orville Goodpasture, Charlie McBea, Jett Hoggard, Ben McElreath and Ivan McElreath, with John Morris, A. J. Jefferies, Jess Gardner, George Hammons, Henry Newman, Dr. McBea, C. C. Hodges and C. M. Cadle as honorary pal bearers.

Prize Pigs Are On Show Today

Annual pig show of 4-H club boys is being held today in a warehouse building at the cotton oil mill. Eleven gilts and one boar are being shown. Judging was begun this afternoon at 2 o'clock by Fred Hale of Texas A. & M. experiment station.

Rev. Jeff Moore's Father Succumbs

Rev. Jeff Moore's father passed away late Monday in Venus, Texas, where he was visiting another son. Rev. and Mrs. Moore left Monday night.

Quotas Are Set in War Chest Drive

Community quotas in the National War Chest fund have been announced by County Chairman Carl Harrison.

They are as follows: Memphis district \$3,185, divided as follows—Memphis, \$2,750; Eli, \$80; Salisbury, \$215; Friendship, \$80; and Newlin, \$80.

Good Crops Must Be Off Highway, Says Vandiver

If there are any "good crops" they must be off the highway, reports Joe Vandiver, who with his son, Ralph, Sunday afternoon took a trip as far west as Silverton.

"SOAPY" TRIBBLE IS HOME

Wearing his civies against Homer "Soapy" Tribble, recently discharged from the Navy. He was taking it easy around town this week. He is the son of Mrs. P. M. Tribble. Before entering the service he was with the Memphis Steam Laundry.

Maj. A. S. Harwell Once Flew Maps To Rampaging Patton

There hasn't been much rest for Maj. A. S. Harwell since D-Day in June 1944, until he was given a furlough recently and came home to visit his parents, Mr. and Mrs. A. S. Harwell, Sr.

Major Harwell, who saw action in France, Belgium, Holland, Germany and the Rome-Arno sector, has received five bronze battle stars, representing as many major campaigns.

His group played an important part in keeping General Patton's armored army supplied with gasoline and other essentials in its swift advance into Germany after the Rhine crossing.

"Once we took him some maps" said Major Harwell. "He was moving so fast he ran out of maps and didn't know where he was exactly."

Major Harwell, who is a brother of Mrs. Jim Smith, has been in service five years, enlisting in 1940 to "get my year of training in early," he recalls.

Major Harwell will be home for 45 days, after which he will report to Jefferson Barracks, St. Louis. He is undecided yet as to whether he will ask for his release at that time.

Capacity Crowd At Singing Meet

Another capacity crowd was on hand Sunday afternoon at the Methodist church for the regular monthly meeting of the Hall County Singing club.

President Bill Monzingo reports the monthly conventions are attracting more and more visitors. The church auditorium was filled to overflowing.

Council Votes To Employ Engineer To Handle New Projects Before City

Is Freed From Japs

The heartening news was received Wednesday by Rev. and Mrs. L. M. Clements of Lakeview that their son, Pfc. W. F. Clements, had been liberated from a Japanese prison camp—and soon will be on his way home.

He entered the service in 1940 from Lovington, N. M., where his family was living at the time.

Rev. Clements and family moved to Lakeview this past spring, where he is pastor of the Baptist church.

Grand Jury To Meet on Friday

The Hall County grand jury has been summoned for Friday morning at 10 o'clock. A number of felony cases are up for investigation before the opening of criminal court on Oct. 8.

Sgt. Jack Martin Receives Discharge

Among late arrivals home from the wars is Sgt. Jack Martin, son of Mr. and Mrs. M. C. Martin, who received his discharge Tuesday.

200 FFA Boys From District Stage Peppy Lakeview Program

Lakeview did it again! In acting as host for the annual Greenbelt district FFA meeting and banquet Tuesday night the young people—boys and girls, school officials and others of Lakeview showed impressively that no job is too big for them and that when they tackle a job they do it up right.

Almost 300 persons attended the banquet, served in the old high school gym, and visitors present from various surrounding towns were unanimous in declaring it one of the most successful occasions of its kind they ever attended.

Wheelhorse behind the annual program was Vocational Agriculture Teacher T. H. Seay, but cooperating with him to make the event an outstanding success was Supt. Loren Denton, the entire school faculty, his FFA members, the 60 members of the Home-makers class sponsored by Mrs. E. J. McKnight, and the citizenship as a whole.

To handle new public improvements and other projects needing the attention of a full-time man, the city council has voted to employ a city engineer.

The action came after a joint meeting with the directors of the Chamber of Commerce, who pointed out the need for a man who can devote his time to handling various public and civic matters which Memphis must act on in the near future.

Girl Scout Council Is Proposed Here; Meeting Tuesday

A Girl Scout Council will be formed in Memphis at a meeting Tuesday night at the First Baptist Church, at which time Miss Mae McClure of the National Girl Scout staff will be present.

At present there are 50 Girl Scouts in Memphis with an estimated 70 more girls waiting to become members as soon as leadership is available.

Rainfall Is Far Behind for Year

Wind of near cyclone proportions struck briefly in Memphis late Friday. Accompanying rainfall was .12 of an inch.

The high wind, which lasted only a minute or two, blew out a plate glass in the M-System store, ripped off the rear porch of the R. C. Akard place a mile east of town; unroofed a barn at the Jimmie Sanders place and blew down the T. D. Weatherby chicken house.

Rain estimated at an inch and a half fell Monday afternoon in the Parnell community.

Weatherman John J. McMicklin's records show just how shy rainfall has been in this area this year. Total precipitation up to now is 9.17 inches. Normal rainfall up to the end of September is 15 inches and average annual precipitation is 21 inches.

Mrs. Noel Clifton was called to Estelline Tuesday on account of the serious illness of her father-in-law, S. K. Jones. She was accompanied by Mrs. Billie Polk Hall.

Jimmie Grins As the General Talks

Shown above is T-Sgt. Jimmy D. Holbrook of Memphis as he receives his honorable discharge from Brig. Gen. Carl W. Connell, commanding general of Amarillo Army Air Field. Sgt. Holbrook is the first member of the armed forces to receive his discharge through the Separation Center at Amarillo Field.

Clocks Back Monday Morning

Clocks in Memphis will be turned back an hour Sunday morning as the nation goes back to normal time, after almost four years on War Time.

Enters Plea Of Guilty
Ed Parmley, formerly of Memphis, received a sentence of 2 to 6 years in prison in district court in Panhandle last week. He entered guilty pleas to two charges of burglary.

Lakeview Takes On McLean Friday; Is Downed by Rockets

After being swamped by Wellington last week, 37 to 0, the Lakeview Eagles will be hosts Friday night to the Tigers from McLean.

McLean last week knocked Wheeler down, 26 to 6, but this score hasn't ruffled the Eagles any.

Pushing over three touchdowns in the first period the Skyrockets at Wellington last Friday night never gave the Eagles a chance. Russell and Hatch were running wild in the backfield, and promise to give any team in the conference plenty of trouble.

A crowd of 3,000 saw the game in Wellington.

In the Lakeview line-up were Anthony and Hancock, ends; Clarke and Payne, tackles; Poyner and DuVall, guards; Rappy, center; Moreland, Moreman, Wiley and Benton, backs. The Skyrocket line-up: O'Neil and Covey, ends; Copeland and McClendon, tackles; Fulton and Raburn, guards; Hunt, center; Winter, Russell, Hatch and Moore, backs.

Ban Is Lifted On School Trips

School buses may be used again this winter for transporting football teams, pep squads, bands, and school kids to inter-school football games and meetings, Roy Bedichek, director of the University of Texas Interscholastic League, has announced.

After checking with officials of the ODT, Mr. Bedichek was assured that the war-time restrictions on school transportation have now been lifted, and school buses may be used in accordance with policies approved by the state, county, or local school authorities.

"This lifting of restrictions will help our small schools tremendously," Rodney Kidd, athletic director for the League, said. "Those schools who have been dependent upon the use of school buses to transport teams will now be able to resume their football and basketball activities."

RED CROSS RADIO TALK
Chairman Basil O'Connor of the Red Cross will address the nation over a network Friday night, Sept. 28, 9:45 to 10 o'clock on what is blanketed 11 to 0. Most of the American Red Cross at Home, local chairman Ben Wilson has been advised.

WE'RE all hearing a lot about ceilings these days. It's suddenly become one of the most popular words in the English language. Aviators started it with their ceilings. They're all faced with the problem of adjusting their businesses to increased costs, decreased personnel, and shortages of materials.

Ceiling prices are an old story to business-managed electric companies. And they're constantly working and planning to make the price of electricity still lower. They've accomplished some pretty remarkable results along this line, too. For example, the average American home today enjoys about twice as much electricity for its money as it did fifteen years ago. Perhaps you may not have noticed this reduction because you've added more electric appliances and used more electricity all the time the rates were coming down.

Maybe you wonder how this has been accomplished: this reduction in the price of electricity in the face of rising costs for almost everything else. Well, the answer is sound business methods—plus the practical experience of men, women, and management working together. That's a team that's hard to beat! And one that won't be beaten as long as we have that grand old American freedom of working together, planning together, and profiting together!

Cyclone Spirit Upsets Dope Bucket To Beat Paducah Dragons, 19 to 7

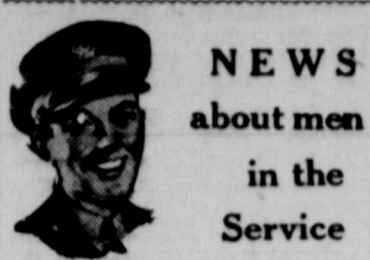

Wheeler Here In First Conference At Friday Night

After being tagged as an underdog for the big Paducah game, from lack of experience, the sparky little Cyclone turned the tide with a complete and total victory in the first of their season last Friday night. The tension and strain told on the boys until after the kick-off and then settled down to a task well done like veterans.

The Cyclone defense was an unbreakable wall and the offensive was put into motion with precision timing and teamwork. The Dragon squad could not determine when the Cyclone would win played an astute strategy under heavy odds. Cyclone kick-off to the field in the first period and ran deep in Dragon territory. The skillful line held the Dragons' punt a short distance. With Cyclone hands for the grand march began with the first tally of points. Following good inter- and blocking, McElreath pressed the leather and converted to make the quarter for the home team. The quarter found the score same but the Dragons kept the Cyclone from getting into dangerous territory. However the Memphis kicked the scoring punch period ended with the field, both teams striving to break to come later in the second period brought a change in both teams. The tally of the Cyclone team first in his first ball game, if a nice run around and crossed the goal line. The extra point was never but failed to count an off sides agreement was nullified and made shortly after, but with ahead of them, they hunt the Cyclone spirit. McElreath chalked up the first of the game for the Cyclone to make the score 19 points for Memphis, 7 points for Paducah.

Reuben E. Martin Given Discharge

Reuben E. Martin is home from the service, but plans to make his home in California. He is now helping his parents, Mr. and Mrs. R. E. Martin, dispose of their property here and all of them plan to move to the West Coast at an early date. Mary Lee Hammons and Merle Padgett Wed on Thursday

Miss Mary Lee Hammons, daughter of Mrs. Myrtle Hammons of Memphis, and T-Sgt. Merle Padgett were married Thursday evening, Sept. 20, in the First Baptist parsonage. Rev. Jeff Moore read the double ring ceremony.

The bride was dressed in an afternoon dress of white woolen flannel and Navy accessories. She wore a corsage of red rosebuds. For something old, she wore a pair of pearls which were presented her by her mother-in-law, Mrs. C. L. Padgett. Something borrowed was an amethyst ring belonging to her mother.

Attending the couple was Marvin Padgett, uncle of the groom, and Miss Frankie Hammons, sister of the bride. Miss Hammons wore an ensemble of powder blue and wore black accessories. Merle is the son of Mr. and Mrs. C. L. Padgett, formerly of Memphis. He recently returned to the States from the Pacific where he served several months. He recently received his honorable discharge.

The couple left immediately after the ceremony for Portland, Ore., where they plan to make their home.

Mrs. Fitzjarrald Hostess Friday to Blue Bonnet Club

Mrs. Otho Fitzjarrald was hostess to members of the Blue Bonnet Club at her home Friday, Sept. 21. The afternoon was spent in doing needle work with the exception of a short period devoted to business. Mrs. T. B. Rogers, president, presided at the business session.

A delicious refreshment plate was served to the following: Meses Gladys Gilmore, Fern Boone, Mabel Meacham, Gussie Jones, Essie Cullin, Minnie Valance, Hucie Lindsey, Helen Combs, Winnie Johnson, Ethel Rogers, Margaret Phillips, Ethel Gregory, Betty Goodall, Susie Coleman, Kathryn Morgensen, one guest, Mrs. R. H. Wherry and hostess, Mrs. Fitzjarrald. The club will meet with Mrs. Jack Boone on Oct. 5.

Recent Bride

A recent bride is Mrs. Wiley Crump, formerly Miss Troy Lee Holcomb of Amarillo. She is a graduate of Lakeview high school.

Nellie Hammons, J. D. Harris Marry

Miss Nellie Hammons and Sgt. J. D. Harris were married Sunday afternoon at 4:00 o'clock. The single ring ceremony was read by Rev. Jeff Moore in the Baptist parsonage in the presence of family members.

The bride, daughter of Mrs. Myrtle Hammons of Memphis, wore a green woolen flannel suit with black accessories.

Sgt. Harris is the son of Mrs. Ellis Pickering of Memphis. He will report to El Paso on Oct. 4 and is expecting to receive his discharge soon. Mrs. Harris will remain in Memphis with her mother.

1913 Study Club Meets Wednesday With Mrs. McNeely

Mrs. M. McNeely was hostess Wednesday, Sept. 19, for the 1913 Study Club. Following a short business meeting, the program, "People on Our Side" by Edgar Snow, was presented by Meses Lemons, Smith and Dunbar. Refreshments were served to: Meses Jessie Jones, T. M. Harrison, D. L. C. Kinard, R. C. Lemons, R. S. Greene, L. B. Merrell, T. J. Dunbar, L. W. Stanford, Joe DeBerry, Adrian Odom, Byron Baldwin, J. F. Smith, Horace Tarver, R. C. Walker and M. McNeely.

The next meeting will be held Oct. 3.

Tea Honors New Members of PTA

The West Ward P. T. A. opened the 1945-46 school year with a tea honoring teachers and new members on Thursday, Sept. 13. After a business session which was presided over by the new president, Mrs. James Smith, the following program was presented, Lord's Prayer and song, "America" by the entire group. "Why Should I go to P. T. A.," given by Mrs. D. L. C. Kinard.

Punch and cookies were served by the social committee from a long lace covered table centered with fall flowers.

Forty-nine new members were received into the P. T. A. and the next meeting will be held in the West Ward School auditorium on Oct. 11 at 3:00 p. m.

Atalantean Club Meets in Home of Mrs. J. A. Whaley

The Atalantean Club met Wednesday afternoon Sept. 19 at 3:00 o'clock in the home of Mrs. J. A. Whaley. The business meeting was presided over by the president, Mrs. Claud Johnson. Members gave their assigned roll call.

Mrs. J. H. Morris opened the program with the biography of Bennett Cerf. Mrs. Troy Broome followed with the views of his books, "Try and Stop me" and "Kindly Light." "Drama in Real Life" by Joseph R. Sizoo was presented in a skit by Mrs. Guy Smith, Miss Gertrude Rascoe, Mrs. J. H. Morris and Mrs. Troy Broome.

Members present for the meeting were Meses C. W. Broome, Troy Broome, W. C. Dickey, H. E. Estes, N. A. Hightower, Claud Johnson, John Minnich, Edd Monzingo, H. J. Howell, T. M. Isham, J. H. Morris, D. J. Morgensen, J. H. Norman, J. A. Odom, Myrtis Phelan, Bob Roberts, Guy Smith, C. R. Webster, J. A. Whaley and Miss Imogene King and Miss Gertrude Rascoe, one guest, Mrs. Browder.

Mrs. Ira Foster Named President West Ward PTA

The Junior High P. T. A. met Thursday afternoon, Sept. 20, in the Junior High School auditorium. Mrs. Robert Devin introduced the persons taking part in the program. Miss Donna Webb, a fifth grade pupil, played a piano selection; and Mrs. D. L. C. Kinard, president of the District P. T. A., discussed some of the goals we should strive to attain in the future.

The members of the Junior High P. T. A. regret that Mrs. Devin, who resigned as president at this meeting, is moving from Memphis. Her leadership and friendly interest will be missed.

Fortunately for this chapter, Mrs. Ira Foster is also a capable leader, and in choosing her the members are looking forward to a profitable series of meetings.

During the social which followed the adjournment of the meeting, the mothers and teachers took advantage of the opportunity to become better acquainted. Refreshments of cookies and punch were served under the direction of the social committee.

Mrs. Felix Jarrell Is Club Hostess

The Newlin Mother's Club met Sept. 20, for the September meeting, in the home of Mrs. Felix Jarrell. A luncheon was served to the club members and the remainder of the afternoon was spent in conversation and quilting for the hostess. The October meeting will be held with Mrs. Bill Kesterson on October 11.

Rev. and Mrs. C. O. Miller of Los Angeles, Calif., were dinner guests in the F. A. Whitefield home Thursday.

Mrs. Hamilton Is TEL Class Hostess

The members of the T. E. L. Class of the First Baptist Church met Thursday afternoon Sept. 20, in the home of Mrs. Sam J. Hamilton for a regular social and business meeting. Mrs. J. S. Forkner and Mrs. Claud Johnson were co-hostesses. The vice-president, Mrs. Chas. Oren, presided.

The program was opened with a song, "My Faith Looks up to Thee" by the entire class. Prayer was offered by Mrs. J. W. Fitzjarrald and reports given by the secretary, treasurer and chairmen. Mrs. John Barber brought the devotional, Psalm, 23. Group 4 with Mrs. R. C. Walker as captain brought the program of songs, prayers and poems.

Refreshment plates were served to 18 members and visitors. A meeting for the installation of officers will be held Friday evening in the home of Mrs. G. H. Hattenbach. All members have been urged to be present.

Sidney Mayfield was a Fort Worth visitor earlier this week.

Alfred Burks

... From Korea

... is more like the United States than any country he has seen. writes Sgt. Alfred L. Burks of the 32nd Infantry to his mother, Mrs. J. W. Burks of Memphis. His letter follows: Sept. 10

... better let you know where I am located at present. I am in Incheon on Sept. 4. Got on the 3rd but didn't sail until Sept. 4. The boat ride was good except it was terribly crowded. There were about 50 in the convoy that I was in. I liked a lot being the only American on the trip.

... landed here Sept. 8 and the first night outside the city of Incheon. It is a nice city of about 100,000 people. They have regular street cars, buses and lots of automobiles. The fact that it is the only place I have seen that even resembles the United States since I left.

since 1910, so you can imagine how happy they were to see us come in. They put out extra papers telling how glad they were. I slept on the capitol lawn last night. We are going to move into regular barracks in a day or two but they are to be fumigated first.

All the people here wear white -men, women and children. The women wear dresses that come down to the ground and the men wear trousers and coats. We are not allowed to fraternize with civilians yet and probably won't be for several weeks. The civilian police keep order and do not allow civilians near our camps.

There is a street car that runs down the street in front of us. It reminds me of Ft. Worth or Dallas. This city is larger than either of them and has lots of nice brick buildings.

We will be permitted to get passes later on and go see and buy what we like but until then we will have to stay in camp. The weather is much cooler here than any place I have been in the Pacific. It is more like West Texas. It snows a good bit in the winter which is about Oct. 1.

Well, I had better stop for now, will write more in a few days. Lots of Love, ALFRED

City To Remove Trash Hauling Fee After October 1

After the end of the month merchants and business firms downtown will not be required to pay monthly assessments for having their trash hauled away. A city dump truck will be used after that date and the trash will be hauled by a city employee, Mayor C. C. Hodges has announced.

Under the present arrangement the merchants pay \$100 monthly toward the expense of having the trash moved from the alleys and back lots of store buildings, and the city makes up the difference of the expense. Hereafter the city will bear the total expense.

Sgt. Paul Frisbie Home from Marines

With more than four years' service to his credit and in combat most of the time since Pearl Harbor, First Sergeant Paul Frisbie of the Marines is back in Memphis—and wearing civilian clothes.

He received his discharge last week at the Marine base at Camp Lejeune, North Carolina, where he had been attending officers' training school. When offered his discharge he accepted, rather than spending three more months in training in order to receive a commission.

Sgt. Orval Gilreath Is Now in Civvies

Sgt. Orval J. Gilreath, of Memphis has been honorably discharged from the AAF at the Sheppard Field separation center after nearly three years in the service.

Sgt. Gilreath spent nearly two years overseas attached to the 446th Bomber Group, 705th Bomber Squadron. He has been awarded the Good Conduct Medal, and the European Theatre of

Operations service ribbon with six battle stars. He is a graduate of the Scott Field Radio Mechanics School.

PAYROLLS WORK FOR EVERYBODY...

OUR PAYROLLS OF MORE THAN FOUR AND A QUARTER MILLION DOLLARS IN TEXAS HELP SPEED NATURAL GAS FOR PEACETIME RECONVERSION.

United Gas payrolls in Texas amounted to more than four and a quarter millions of dollars in 1944 alone. These millions of dollars, being put continuously into circulation in Texas, do this:

- Create still more and larger payrolls—more jobs for more people...
- Bring more and more dollars into circulation, ultimately ringing cash registers, large and small...
- Stimulate business and make for better living!

Yes, our payrolls, scattered over a large area of Texas, work for everybody... And low-cost, efficient, natural gas fuel speeds the day of complete reconversion to peacetime payrolls in Texas.

Workings of Radar On Ships Outlined By Buster Guthrie

Buster Guthrie, who has been working with other scientists on defense weapons, was guest speaker at the Lions Club Wednesday. During the first part of the war, he worked with the Navy Department handling the installation and operation of radar gear. In his talk, he explained how radar is used on the nation's fighting ships, giving information about how it detects approaching surface ships or planes, and its use in aiming and firing guns.

Then Guthrie described his work in helping to perfect the atomic bomb. After outlining the problems which faced the scientists as they tried to smash the atom, he went on to explain how these problems were overcome.

"The atomic bomb only weighed 100 pounds," he said. "And in its true sense it is not a bomb—it is the disintegration of matter."

Preceding Mr. Guthrie's talk,

Lion N. W. Durham, immediate past president, was given a senior master key and a senior master key plaque by the club. This was in appreciation of his work in the past in promoting Lionism.

Guest at the luncheon was County Agent W. B. Hooser. Upon being introduced, he outlined part of the 4-H Club program and discussed the Pig Show the boys are holding.

Cpl. Dewey Melton Home From Luzon

Cpl. Dewey Melton, son of Mr. and Mrs. R. N. Melton of Route 1, arrived home last Saturday, Sept. 22. He received his discharge the day before at Ft. Sam Houston, San Antonio. Dewey entered service in April of 1941 and has spent the past three years in the Pacific serving as a member of the Military Police on Luzon. He landed in San Francisco Sept. 14.

Cpl. Melton holds the Asiatic-Pacific Campaign Medal with three battle stars and one assault troop arrow, also the Presidential Citation.

Texans Urged To Give Generously To War Chest by Gov. Coke Stevenson

Gov. Coke Stevenson, honorary president of the United War Chest of Texas, has designated the month of October as National War Fund month in Texas in the final victory campaign to raise funds in support of our armed forces and for the humanitarian services of the affiliated agencies of the National War Fund.

The campaign opens officially October 1 and will continue through the month to raise approximately \$4,500,000.00 in Texas for services for our military forces, merchant marine and foreign relief as well as local welfare agencies. Gov. Stevenson, in issuing the proclamation, urged all Texans to join in the observance of National War Fund Month by giving generously to the campaign that peace on earth and goodwill to men may again be manifest in a world still suffering from the aftermath of war.

The text of the proclamation is as follows:

PROCLAMATION BY THE GOVERNOR OF THE STATE OF TEXAS

TO ALL TO WHOM THESE PRESENTS SHALL COME:

WHEREAS, the most destructive war in the history of mankind has been successfully concluded and the promise of peace on earth and good-will to men has become manifest once again; and

WHEREAS, the next six months will settle for the liberated victims of war the grim question of sheer survival, and also will largely shape the kind of peace and the kind of world with which we shall have to live; and

WHEREAS, the National War Fund has exemplified the patriotism and conscience of America in financing humanitarian service to these victims and to our armed forces; and

WHEREAS, there still remains the obligation of the National War Fund to complete its task until every victim shall have become rehabilitated and every member of the armed forces returned to his home; and

WHEREAS, Texans, through the United War Chest of Texas and affiliated organizations, have been among the leaders of the nation in generously sharing in this patriotic enterprise; and

WHEREAS, Texans are as strong in peace as they are in war;

NOW, THEREFORE, I, Coke Stevenson, Governor of Texas, do hereby proclaim the period October 1-30, 1945 as NATIONAL WAR FUND MONTH in Texas, and urge all patriotic citizens of Texas to join in the observance of this occasion by giving generously in the third and final National War Fund campaign to the end that Texas may again demonstrate its leadership among the states of the nation.

IN TESTIMONY WHEREOF I have hereunto signed my name officially and caused the Seal of State to be affixed hereto at Austin, this 24th day of September, A. D. 1945.

C. OF C. IS THANKED FOR AID TO DANCE TEAM

For its help in sending the square dance team to the Shamrock rodeo on Saturday, the Chamber of Commerce has been thanked by Mrs. Virginia Dodson, in charge of the dancing group which appears on horseback. The chamber of commerce gave a contribution to the team to help defray the expense of transporting the horses to the rodeo.

Radio Program For War Chest Monday Night

Judge Ben H. Powell of Austin, president of the United War Chest of Texas, announced the official opening date of the victory campaign of the National War Fund as October 1 with a statewide radio hookup carrying the opening ceremony Monday, Oct. 1, from 9:30 to 10 p. m.

"At this time when services of the agencies of the National War Fund are at their peak," Judge Powell said, "I have found that Texans are enthusiastically endorsing the campaign and ready to give as generously in victory as they were in war to speed the day of actual peace throughout the war-devastated world."

Featured speaker on the radio broadcast will be Dr. James L. McConaughy, president of United China Relief, an agency of the National War Fund, who is on tour of Texas. McConaughy has recently returned from a trip to China and will report on the needs of United China Relief in that country now that the eight years of war with Japan are over.

Gov. Coke Stevenson, honorary president of the United War Chest of Texas, will also speak on the program, proclaiming October as National War Fund month.

Music for broadcast will be played by the 32-piece Eight Service Command band of the U. S. Army.

Homecoming for Lost Battalion Is Set for Oct. 29

An invitation to the people of Memphis and Hall County to attend a home-coming celebration for members of the Lost Battalion on October 29, has been received by Mayor C. C. Hodges from Mayor W. B. Hamilton of Wichita Falls.

The occasion will honor all service men and women of North-west Texas, Mayor Hamilton writes.

Guests of honor will be members of the famous Lost Battalion, which was lost in Java. It was composed of National Guard units from Wichita Falls, Amarillo, Plainview and other North-west Texas points.

THANKS, FRIENDS

I want to take this means of thanking all the people of Memphis and this area who have been letting me do their repair work as well as getting their cars and trucks serviced at my station.

I have sold out, and at the present time have made no definite plans. In all probability I shall go into business here again.

Please accept my thanks for your business. I sincerely appreciated it.

Johnnie Brewer Opens New Shop

Johnnie L. Brewer is back in Memphis and is opening a general automobile, truck and tractor repair shop in the building at Eighth and Main streets which he has purchased from J. S. McMurtry.

He is installing new shop equipment and also will carry a complete line of automobile parts. He expects later on to have an automobile agency.

He will carry used automobiles and will operate the Conoco Service station, which is in the building.

Mr. Brewer moved to Cisco last December to open a White Auto Store, which he operated until recently, but he and his family have returned to Memphis and have bought a home at Twelfth and Bradford. "We're here to stay," he says.

Textile Engineering Will Be Stressed At Tech College

Major expansion in the work of the department of textile engineering at Texas Technological College, will be under way by January 1, according to L. E. Parsons, acting head. This will be due to the decision of the Texas Cotton Research Committee to allocate the sphere of cotton fibre research to Texas Tech.

The Cotton Research Committee of Texas is made up of the presidents of the University of Texas, Texas A. & M. College and Texas Technological College, and is directed by the Moffett Act (Senator George Moffett of Chillicothe) to undertake cotton plant products research by whatever means the judgment of the committee dictates.

In recent articles in West Texas Today, Texas Tech's President Whyburn points out: Since the Cotton Research Committee was established by the 47th Legislature, it has made available funds aggregating some \$90,000 for the prosecution of research and the acquisition of additional equipment on our campus. This sup-

plements the established work which have been provided by the college at an approximate \$250,000.

How women and girls may get wanted relief from functional periods

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periods. Here's how it may help you.

1 Taken like a liquid medicine, it should stimulate appetite, aid digestion and give relief from the cramp-like agony of the period.

2 Started 3 days before your period, it should help relieve the pain due to purely functional periods. Try Cardul. If it helps, you'll be glad you did.

'M' SYSTEM

Many Uses Atomic Power, Some Weird, Even by Scientist

YORK—What will the atomic age be like? Will it be a curse? Will man be able to harness nuclear energy or be destroyed by it? Scientists who worked on the atom and invented the bomb are not talking, except in general terms about the possibilities of keeping the secret in the world.

The smashing of the nucleus of an atom and its promise of quantities hitherto unobtainable opens what some see as a vista of things to come. Perhaps no more fantastic atomic bomb, before two pulverized Hiroshima and Nagasaki.

First use of nuclear energy, according to the scientists who developed it, probably will be in the form of heat. Beyond this it is being used in medicine as a source of radioactive material to supplement or slim up the body; and possibly as a source of transmitting metals, porcelain ones and making the body more healthy.

Loewy envisioned airlines using huge rocket ships, carrying freight as well as passengers. Loewy believes that as long as we have started on the road to the atomic age, we should press on with our discoveries and developments. "One of the most vicious theories," he said, "is to leave well enough alone."

"This may sound fantastic," Loewy said, "but since you ask me to look into the atomic future, it does not seem impossible to me that this atomic energy may give us the means at last to send ships into space, to other planets."

"Man's desire for expansion is uncontrollable. When we realize here on earth that we can blow each other to bits and that war has become fruitless, we will look for new worlds to conquer. Instead of Japan fighting to win Australia, we may have all the world joined in colonizing, say the planet Venus."

"Of course, if we find the inhabitants of other planets no more highly developed than we, this might lead to a great interplanetary conflict, perhaps with Saturn and Earth fighting for domination of Venus."

"But staying on this earth for the present, I don't know how

people are going to take this new energy. Because it was introduced as a great destructive force, I think it will take some time after the building of the first atomic power plant before people feel at home with it. There will be some prejudice to overcome."

Service Men Are Coming Home Fast

Service men are coming home faster these days than The Democrat can keep with them.

Among some of the late arrivals, who are home with honorable discharge papers in their pockets, are Orval Gilreath, Homer "Soapy" Tribble, Melton Saunders, Willie H. Butler, Paul Frisbie, Jerry Melton, Chester Grimes, and Reuben Martin.

BUS SCHEDULES CHANGED

Practically all bus schedules have been changed, effective Oct. 1. The new schedules are: South Bound—5:49 a. m.—7:56 a. m.—10:47 a. m.—1:32 p. m.—4:32 p. m.—8:16 p. m.—11:53 p. m. North Bound—2:29 a. m.—9:22 a. m.—12:56 p. m.—3:06 p. m.—7:41 p. m.—11:37 p. m.

Apothecary Garden Growing at Austin

An apothecary garden where plants are deadly as well as tasty, flourishes at the University of Texas, with Dr. C. C. Albers, associate professor of pharmacognosy in charge.

Cultivation of the garden was impractical during the war, but it is once more underway, Dr. Albers said. Now in cultivation are such plants as sweet marjoram, sweet basil, lemon balm, wordwood, thyme, sage, and summer savory.

The garden will be used in the study of pharmacutis, Dr. Albers explained. Raw materials for research will be at hand for laboratory work; there will be an increased interest among the students in Pharmaceutical, medicinal plants, and the garden can be the testing ground for various drug sources which could open up new drug industries in Texas.

Among the suggested plants which Texans might cultivate for industry Dr. Albers mentioned sage, formerly imported entirely from Europe; and fennel, a flavoring agent for foods, candies, and medicines.

Tech Professor Has Book On O'Daniel

The book on W. Lee O'Daniel by Dr. S. S. McKay, history professor at Texas Technological College, is creating national attention and comment. Newspapers and news magazines all over the country have given uniformly favorable criticisms.

Dr. E. C. Barker, head of the history department at the University of Texas, gives Dr. McKay credit for developing "a sound historical manual written on current politics," and hopes "that he will continue to exploit the field that he has opened up."

It is a perfect example of objective writing, says Allen Duckworth in the Dallas Morning News and he adds that it is to be hoped that Dr. McKay will continue to write Texas political history.

Reconversion Plans Within Dairy Industry Subject of Short Course

Reconversion plans within the Texas dairy industry are expected to be laid upon facts and ideas presented at the third Dairy Fieldmen's Short Course to be held Oct. 8-9 at the Texas A. & M. College.

A. V. Moore, A. & M. professor of dairy manufactures and director of the short course, said the program for the dairy industry for 1946 is somewhat like that for 1944 and 1945. One difference Moore explained, is that total production gets less attention this year, while efficiency and quality are reemphasized.

Subsidies, labor, marketing and sanitation are topics slated to be stressed on the business program for the short course. Talks have been promised by outstanding authorities in the industry who will bring out the best that is known on these subjects, Moore said.

The short course will include a banquet which will be held in the College dining hall at 7:00 p. m. Oct. 8.

The eight-point program adopted for 1946 by the Dairy Industry Committee and the U. S. Department of Agriculture, includes the following goals: feed every cow for economical production; save milk dollars by improving grasslands; retain feeding values by improving hay making and silos; keep production records for better herd management; breed for improved herd replacements; protect quality of milk and cream by

cleanliness and cooling; reduce labor costs by improved layouts, equipment and methods; and maintain herd health for quality and efficiency.

Dairy fieldmen will be welcomed officially to the Texas A. & M. College by Chas. N. Shepardson, dean of Agriculture and former head of the Dairy Husbandry Department.

Professor Moore will preside at the opening session on Oct. 8, with E. R. Eudaly of Universal Mills and former Texas A. & M. Extension dairyman, handling the program that afternoon.

Presiding at the business meeting Oct. 9 will be Dr. I. W. Rupel, recently named head of the Texas A. & M. Department of Dairy Husbandry.

Film strips will be shown during the short course through cooperation of the International Harvester Company, National Dairy Products Corporation, and the Ralston Purina Company, Moore said.

Thirty individuals, including twenty from various divisions of the Texas A. & M. College system, are listed in the group which will stage the short course.

SOME QUESTIONS AND ANSWERS AS TO WHY THE WAR CHEST FUND IS BEING RAISED

With the fighting over in Europe and with the war with Japan won, why isn't the work of the United War Chest ended, is a question being asked these days. It is understandable why such a question should be asked, and on the eve of the national campaign to raise funds for the chest it is appropriate that this and other related questions be answered.

National War Fund agencies are handling the peak load of the war period right now—and for the next six months they will be busier than ever. When the "shooting" war ends armies don't fold up overnight. Neither do service in their behalf. When hostilities cease, starving, homeless people don't suddenly wake up to find they are enjoying the life abundant. Then, and often only then, can the necessities of life, which we call relief, be made available.

"Victory in a great war is not something you can win once and for all, like victory in a ballgame. Victory in a great war is something that must be won and kept won. It can be lost after you have won it—if you are careless or negligent or indifferent," President Truman has declared.

To keep the victory won will require a USO much more needed than before for the lonely occupation troops in far-distant lands, for trainees who will eventually replace them, and for the wounded here at home; a full budget for United States man's Service, for War Prisoner's Aid until every American prisoner is repatriated and restored to health; a full measure of relief to the homeless and sick in Europe, in the Philippines and in China.

After the first six months are over, economies and adjustments will be possible.

"Why haven't we cleaned up the relief job in Europe long ago?"

When the Germans occupied vast areas of Europe only a trickle of relief could be supplied. Now, for the first time, the "peak load" of American aid can be provided. The next six months will be one of the most critical periods of European history. The crisis in Europe, with Germany defeated, but with real victory not yet won, means that these six months will settle for millions of the liberated the grim question of sheer survival, and also will largely shape the kind of peace and the kind of world with which we shall have to live.

Until democratic governments can be established to provide law and order and some degree of economic security, the helping hand of 13 European relief agencies will be needed. The program is temporary to provide a stop gap until each nation can take over on its own. For at least six months, and probably for a year, therefore, there can be no substitute for the service of the private agencies. As President Truman has said, their role is "indispensable and unique."

So to bring sympathy and support—when it is most needed—to brave peoples who are too stunned, exhausted, cold and hungry to stand on their feet unaided, European relief budgets (and likewise for the Philippines and China) have been stepped up in order to concentrate American help this fall and winter.

TIME FOR A LITTLE MORE DIRECT ACTION

Decision of the city council, upon the recommendation of the chamber of commerce, to employ a city engineer is, in our opinion, a step in the right direction. Memphis has been "marking time" long enough. There are a thousand and one details, duties, projects or whatever you may want to call them needing the attention of someone at the city hall. Members of the council as individuals are too busy to look after them; the same is true of chamber of commerce directors.

Time after time projects or public needs have been discussed and committees have been named to see that they received attention. But, generally that's where they died—in committee.

A full-time engineer can be a tail-twister for the community as a whole. At least, he should be—and he will be if the right man is employed.

What Makes Jobs?

Production makes jobs. But investors make production possible.

Who are these investors? Among them are the men and women who regularly set aside part of their earnings in thrift accounts in banks like ours. These funds help to supply industry and business with needed credit, and help to create good jobs for millions of people under our free-enterprise system.

Press Paragraphs

SELECTED FROM THE
DEMOCRAT'S EXCHANGE

America should closely follow investigation of Pearl Harbor, by Congress. Future security demands that it be thorough, impartial, and searching, with no attempt to whitewash those responsible, high or low.

We recently talked with a minister, stationed there before the war.

He told an amazing tale of the stuffed shirt jealousy, existing in peace time forces in the islands.

Social functions had to be arranged so that Army and Navy were never present at the same time. Even at State functions where both were forced to attend, they grouped themselves in hostile groups, to the embarrassment of their hosts.

Once invited to participate in aid for underprivileged children by appearing at a benefit, the chiefs of staff, Army and Navy, requested appearances on separate nights. Not even for indigent children could the armed forces afford to associate with each other.

The minister told too, of stuffed shirt officers who took Jap officers on tours of the defending fortifications at Honolulu and over high ground, from which all the key defense positions were spread out to view. It was a case of Navy speaking only to Marine Corps and the Marines speaking only to God—Moore County News.

The honeymoon is definitely over. President Truman has stirred up a hornet's nest in Congress in his 16,000 word message. Most of his suggestions are sane, but he presents controversial problems which make political thunder. The Republicans are carefully going after the Truman message with the view of winning a majority in Congress in 1946, which would be the prelude of winning the Presidency in 1948. A few years ago good Democrats predicted that GOP was so deeply buried that it would never dig out. But back comes the party, seemingly getting stronger year by year. After all, safety in government is based upon the two-party system. Texas would be better off if this were a two-party state instead of being under the control of one party.—Claude News.

The policy of General MacArthur toward the Japs is becoming evident. MacArthur was unwise criticized when he first landed in Japan for the kid glove attitude toward the Japs. Yet how silly and how disastrous would have been any other course. We had a few thousand men in Japan; and there were more than three million armed Japs in the home islands when MacArthur took over. An act of treachery would have resulted in the loss of practically all of these men had an unwise attitude been adopted. We have maintained that MacArthur knows the Jap mind better than most Americans; and, therefore, he is in better position to act wisely.—The Canyon News.

Jim Pat Johnson Member of Crew Boasting Record

Jim Pat Johnson, 312 Cleveland, Memphis, can lay claim to a share in one of the outstanding records of the war while serving on the combat transport USS Golden City, which took part in six of the major Pacific actions without the slightest damage to herself or her landing boats, and without a casualty among her crewmen.

Called the "Lucky Golden" by her crewmen, the combat transport participated in the amphibious assaults on Guam, Leyte, Lingayen Gulf and San Narciso. She landed troops and supplies at Okinawa, evacuated Marines from Iwo Jima and Okinawa, and was under attack by aircraft, submarines and milgit subs.

The Golden City piled up her record while attached to the Service Force of the Pacific Fleet.

al Interests After Their Says Lee

Interests and organized are on hand at all times legislative sessions to fight measures affecting "the people" back home from heard from, declared Lee in a talk Tuesday the Rotary Club.

Lee, who lives in Paducah the origin and history of hills as they go through legislature to final enactment defeat, reciting in detail special interests and well-bled blocs are on the job night through paid lobby- other means.

know how to put the on," he said, "and don't e doing it. What worries other members from rural is how the people back feel about certain bills that pending. We seldom hear the folks at home and too

often we are in the dark as to how they feel on pending bills." Rep. Lee urged farmers, business men and all other folks at home to keep their legislators advised on the various bills which they favor or oppose. They should not hesitate to write the members, he said.

"It is only through such expressions that we know what you people want," he said.

He pointed out the dangers of the lobbying practices of the special interests and organized groups, declaring that by their constant pressure tactics they dominate the Legislature.

If the farmers, ranchers and other home folks would be on the alert as these other factions are, there would be a better balance in legislature, he declared.

There are so many bills pending during a session and the individual member does not have the time to familiarize himself with the merits or details of many of them, and must rely on information, suggestions and opinions from his constituents.

Rep. Lee was introduced by J. Claude Wells. Maj. A. S. Harwell, recently returned from Europe, was a guest of Jim Smith.

Faster Schedule For Train South

On Monday, October 1, the first postwar adjustment reducing railroad travel time between the Texas Panhandle and Fort Worth and Dallas will be made by Burlington Lines, it has been announced by John J. McMickin, agent.

The Gulf Coast Special's running time will be reduced 45 minutes between Texline and Fort Worth. On the new schedule this train will leave Memphis at 1:15 PM, instead of 1:33 PM, and arrive Fort Worth at 8:50 PM and Dallas, 10:10 PM, 45 minutes earlier than at the present time. Comparable changes will be made at intermediate points, and better connections will be provided with other railroads' trains for all points beyond Fort Worth and Dallas.

Officers Named By Homemakers Of High School

A Future Homemakers Club sponsored by Mrs. Winona Moorhead had a meeting in the High School auditorium September 21.

Ninety-six members were present and the following officers were elected: Suvilla Saunders, president; Patsy Richards, vice-president; Winfred Jo Fowler, secretary and treasurer; Gayle Stilwell, reporter; Mar-Alice Ables, song leader; and Louise Rogers, accompanist. Ellen Lenoir was elected chairman of the social committee and those working with her are Ann Norman and Betty Sue Gibbs, other committees will be appointed.

Regularly scheduled chapter meetings will be held.

When Your Back Hurts -

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, neurachic, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning in another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

Overseas Parcels Must Be Mailed By October 15

Christmas parcels for the Army personnel overseas must be mailed on or before October 15.

In a statement intended to lighten the burden of Army postal units, General Eisenhower recently predicted that only 700,000 of the 3,100,000 troops in the European theater would be left there by New Years Day.

He urged servicemen's families to hold up Christmas parcels, "if it appears the soldiers will be on their way home by Christmas."

Prior to Oct. 15 requests from addressees are not required for Christmas parcels mailed to Army personnel.

Each parcel should be endorsed "Christmas Parcel". Since Navy, Coast Guard and Marine Corps personnel may receive parcels with a request at any time of the year, it is not the policy of the Navy Department to encourage the mailing of parcels during any particular period each year. The Navy Department suggests, however that Christmas parcels be mailed not later than Oct. 15, to afford some degree of probability of delivery prior to Christmas Day. The War and Navy Department points out that members of the armed forces are amply provided with food and clothing and the public is urged not to include such matter in gift parcels. Christmas parcels may not exceed 5 lbs. in weight or 15 inches in length or 36 inches in length and girth combined. Not more than one Christmas parcel may be mailed in any one week when sent by or on behalf of the same person or concern to or for the same addressee.

The Navy Department, in announcing the results of a survey made by the Navy Mail Service, states that the Navy men prefer above all else to receive letters, but that of gifts the ten preferred in order of their popularity are:

1. Photographs.
2. Canned snack foods (such as olives, sardines, nuts, etc.)
3. Books.
4. Writing cases or portfolios.
5. Service watches.
6. Good pipes.
7. Pens.
8. Engraved identification tags.

THE MEMPHIS DEMOCRAT

9. Waterproof wallets.
10. Cigarette lighters.

The five most disappointing articles to find in a package from home, in the order of their unpopularity are:

1. Candy.
2. Cake.
3. Cookies.
4. Fancy shaving kits.
5. Cigarettes.

The reasons given were that the food is usually inedible upon arrival, that there is no way to carry and stow the toilet kits and that Navy men are issued an ample supply of cigarettes.

Jack Sturdevant Bruised in Crash

Crashing into a bridge banister a mile west of town Jack Sturdevant was considerably bruised up early Sunday morning as he drove to Lakeview. He apparently went to sleep at the wheel. His pickup was badly damaged. Sturdevant had been driving a school

bus but handed in his resignation Tuesday, saying he "didn't want to take any chances in getting some child hurt."

BACK IN BUSINESS

I have just purchased the Jess Melton Service Station and Garage, located at the corner of 8th and Main, and will continue, for the present time, to operate the service station and do repair work.

I have also purchased the entire building at this location from J. S. McMurry, and will have possession of the remainder of it within 90 days. This will give adequate room for the business which will be established here. But for the present time we will take care of our customers in our limited quarters.

It is our plan to take on an automobile agency within the near future. A complete line of auto accessories will be installed, as well as other lines.

Along with car, truck and trailer repairing, we will also take care of the farmers' tractor problems.

Soon we will have a completely equipped shop. And all the equipment will be new and modern.

We are here to stay. I have bought a home here, and at this time we want to invite all my friends to come by and inspect our new business establishment.

ATTENTION!

Cream Producers

The Federal Food & Drug Administration Is Condemning Thousands of Cans of Cream and Milk Daily!

Buyers in Memphis as well as every other town have taken losses on illegal cream. Illegal cream is cream with an unpleasant taste or cream that shows dirt, insects or any foreign matter on a sediment test.

Boiling cream or cream unpleasant to the taste will invariably be illegal on account of sediment. All buyers must reject cream not up to Government standards, otherwise the losses will force us out of business.

We suggest you use a modern strainer with strainer pads. This will eliminate about 90 per cent of the sediment and will keep your cream from being turned down. Boil all utensils and sell your cream at least twice a week

The Government Program Is Here to Stay, and We Must Either Get in Line or Get Out of Business. Cream Producers Must Do Likewise.

trict president of the FFA, had charge of the opening ceremonies following which Junior Poyner introduced various presidents of the FFA chapters.

Response to the welcome address given by young Poyner was made by J. B. Knight of Clarendon.

In his talk Rep. Lee stressed the importance of soil conservation, telling the future farmers of a farm he lived on as a youth which had been allowed to become almost valueless through wind and water erosion.

"We don't own the land we live on," he said, "we are merely permitted to use it. If we don't take care of it, we are not doing right by our children and our grandchildren."

Rep Lee also outlined briefly the procedure of legislation as it goes through the two houses at Austin and finally emerges as a law.

He expressed the opinion that irrigation will play an important part in farm life in this area in the years to come and mentioned the proposed dam on Red River, near Quitaque, which he said is "nearer realization than some of you may think."
