According to the Soil Conservation Service, Texas leads the nation in the number of organized soil conservation districts, as well as in the amount of acreage and number of farms involved in the organizations. Scout Concession Is Definite Success

The Boy Scout drink and candy concession at the Memphis ball park is proving to be a profitable venture, according to Scoutmaster Ted Myers.

The scouts' total sales reached \$51.35, but deposits on bottles

and other expenses almost eliminated profits on the first game sales. The next games here should net a much wider margin of profit, Myers said, since the expenses will be much lower.

Bobby Lindsey and George Carter were Amerillo visitors Tuesday.

'47 Cyclone Has First Scrimmage

The 1947 Cyclone had their first scrimmage of the spring training season Wednesday afternoon. Coach Don Ezell, coach of the Memphis High School, reports. The men are showing a lot of hustle and spirit, and each is trying hard for a first place slot on the team, Ezell said.

Ezell stated that as the season progressed he would have the starting line-up picked, and in good condition for the game against the Exes May 16. He added that the boys were learning the deceptiveness and power of the T formation and that they would be running their plays with ease in time for the game.

Ezell asked that any ex-cyclone wanting to play in the May 16 game contact him or Doyle Bunch.

Boys tentatively playing on the first string line-up, and in the scrimmage Wednesday were: Bill Hickey, RE; Olan Jenkins, LE; Dell Rich, RT; Bill Newbrough, LT; A. C. Sams, RG; Ted Graham, LG; Gale West, QB; Don Morrison, HB; J. D. Akard, HB; and Bill Davis, FB.

Boys pushing the above players

for the first string line-up, and who will probably see a lot of action next fall are: Wendell Orand, G; Charles Messer, G; Sammy Rasco, E; T. B. Blackman, E; T. J. Kilgore, B; Leroy Green, B; Jackie Knight, C.

Panhandle Fiddlers Play Off April 30

Admission charge will be \$1 for any seat in the house, plus tax.

CARD OF THANKS

To the host of friends who came to us with love and sympathy, to those who could not come but sent flowers or messages of condolence, we want to express our deepest appreciation. We are especially grateful to those who helped with the music and flowers. May we be more worthy of such friendship.

"No, not cold beneath the grasses, not close-walled within the tomb; Rather in my Father's mansion, living in another room."

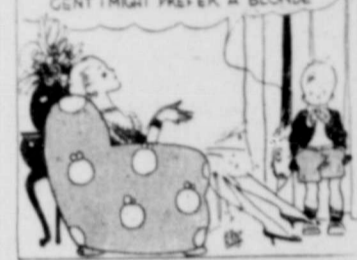

"Shall I doubt my Father's mercy? Shall I think of death and doom; when I know my love is happy, waiting in another room?"

Mrs. Kenneth H. Neal.
Mrs. B. H. Neal and Family.

Mrs. J. L. Murtaugh of Austin arrived in Memphis Saturday for a visit with her parents, Mr. and Mrs. Horace Tarver.

Coffee Drinkers, Use Cream to Lessen Harm

If you want to do yourself a favor, put cream in your coffee.

Because the cream will give you a 40 per cent better chance of avoiding coffee-induced ulcers.

"Research has shown," declares the National Dairy Council, "that cream is good for you. But the value of putting cream in coffee is one of those mighty important little things that many men and women ignore, or forget, or don't know about."

"Yet thousands and thousands of adults are worried about ul-

cers, or are trying to get rid of them.

"So here's a simple little thing that you can do, if you are a coffee drinker, that might add greatly to your health and happiness: use cream in your coffee."

"It works this way: The caffeine in coffee provokes an unusually heavy and prolonged flow of digestive juices. That heavy flow may contribute to the tendency to ulcers, or may aggravate an existing ulcer. But add cream to the coffee and the cream reduces by 40 per cent the flow of digestive juices that is caused by caffeine."

"So, to safeguard your health, use cream in your coffee."

A lot of girls won't stand for necking. Guess standing makes them tired.

Thomas Alva Edison

YEARS AGO, before Thomas Edison invented a successful light bulb, our grandparents burned kerosene and candles that were expensive, troublesome, and gave very poor light,—but,—

EDISON GAVE YOU SOMETHING NEW AND BETTER

This genius, laboring over thousands of experiments, led the way to better light for better sight,—as well as to a better way of living, with electricity.

TODAY you have bright, cheerful and well lighted homes, stores and offices. There is no reason for them to be otherwise! Because you have LIGHT BY WIRE.

A much better lamp than Edison's first incandescent light can be bought for a thin dime. I, Reddy Kilowatt, will light that bulb for hundreds of hours for a coolie's wages, and give you more and better light.

Edison's successful light bulb was really the start of the electric industry. Today we work and live electrically; we have more comforts and conveniences than any other country in the world,—all because one man had an idea and developed it.

KING CONSUMER

An article in the Wall Street Journal tells of the preparations grocery manufacturers and distributors are making to attract customers. Modernization and expansion plans which had to be postponed because of material shortages, are being revived. Sales forces are being expanded. New products are being readied for market. As the article puts it, "Men who make and sell groceries are getting ready to fight for the housewife's business."

This spirit, which augurs well for the consumer's welfare, is general in all retail fields, from foods to clothing and furnishings. During the long war years, retailers had to take what was offered in the way of stock and struggle along with decimated and illtrained sales staffs. They had to cut down on services. Now, with the restrictions off, and with the available supply of goods of all kinds steadily growing, they are returning to pre-war standards as rapidly as possible.

The trend will be seen in every part of the country—in the village as well as the metropolis. You, as king consumer, will get better service, a more varied assortment of goods—and the lower prices consistent with the times.

This competitive urge is traditional to the American merchant. His whole philosophy has been to sell goods cheaper, offer more service, and in general do a better job for the consumer. He knows that the only good customer is a pleased customer. And he was as unhappy as anyone else at what the war did to his establishment.

QUOTING OUR NEIGHBORS

Plainview Dairy Show
 The Clarendon FFA dairy products judging team won the annual dairy products judging contest of the Panhandle Plains Dairy Show at Plainview for the tenth consecutive year Monday when the team composed of Jack Stone, Gilbert Stewart, and James Moore topped the entries from the FFA chapters of the entire Panhandle Plains area. If the Clarendon entry wins the contest in 1948, the trophy will become permanent property of the chapter.—The Donley County Leader.

Floyd Old Settlers
 Date of the Floyd County Pioneers Reunion in Floyd County this year will be May 28, it was decided in a meeting of directors and others Saturday afternoon, and the place will be the court house lawn in Floydada. Anxious to have an increased representation of pictures and relics of old days at the reunion the directors voted to urge that each community in the county be asked to furnish a window of these in stores of the town on the reunion date.—The Floyd County Hesperian.

Prohibition Election
 A local option prohibition election has been called for Saturday, May 10, when voters will go to the polls to decide whether the sale of beer, wine, and whiskey shall be legalized in Wheeler County. The county commissioners court ordered the election Monday when a petition carrying the names of 269 persons was presented, asking that an election be called on the proposal of legalizing the sale of all alcoholic beverages. The forthcoming election will be the first time electors of Wheeler County have voted on the sale of all alcoholic beverages.

Old Fiddlers
 Finals of the old fiddlers' contest at Amarillo sponsored by Cliff Harris of Amarillo and A. W. Howard of Memphis, were postponed because of bad weather, and will be held at the Amarillo City Auditorium April 30 at 8 p. m. There are ten top fiddlers remaining in the contest, who will compete for prizes ranging from \$10 to \$200, a total of \$565.—The Hedley Informer.

Then there was the young woman who wouldn't ride her horse down the bridal path because she thought it was only for newly married couples.

moving day was pour water on the fire and whistle up the dogs. He was made justice of the peace and as he said, "I got along pretty well. My judgments were never appealed from but if they had been they would have stuck like wax, as I gave my decisions on the principles of common justice and honesty between man and man, and relied on natural-born sense and not law-learning to guide me for I had never read a page in a law book in my life."

After serving in the legislature, Crockett decided to run for Congress. His opponents were two dignified and solemn individuals who took themselves quite seriously and ignored the backwoodsman in his hunting costume who told jokes and discussed matters in a common-sense kind of way. When the votes were counted, he had beaten both of them put together. He had to borrow money to make the trip to Washington. On his way, he stopped at an inn and in trying to get to the fore he accidentally jostled a self-important chap who demanded, "Who do you think you are?"

This Week in WASHINGTON

The foreign relations committee of both house and senate have literally been up to their ears in hearings which have probed into every factor surrounding our new foreign policy as enunciated by President Truman in asking for a \$400,000,000 loan to Greece and Turkey.

Will it lead to war? Will it entail sending troops to Greece? Will it mean more money later on? What about the China situation? Answers to all these questions were obtained from witnesses, chief among whom was Under-Secretary of State Dean Acheson. Certainly there is risk of war, but Mr. Acheson thinks there will be no war, and troops are not necessarily needed in Greece. More money, maybe later for perhaps other countries. The situation is different in China.

The usually gay and complacent capital was gravely sobered over the tremendous import of this new foreign policy which backs up with action our oft-repeated declarations that we were squarely behind the downtrodden peoples and are determined they will get an opportunity to work out their own destinies free from attempted subjugation by communist or fascist nations.

In the meantime, the senate considered time and again the portal-to-portal pay bill and arguments have consumed much of the time in the upper house. Opponents of the present bill, already passed by the house, declared that it goes far beyond the attempt to outlaw portal-to-portal pay suits and actually emasculates the fair employment practices law and some sections of the wage-hour law.

And appropriation cuts, such as have been made thus far, are considered only paper cuts which likely will have to go back into the appropriation bill later. For instance, much was made of the fact that the house committee had slashed \$800,000,000 from the treasury appropriations. As a matter of fact, this sum was included in the treasury appropriations for tax refunds. So if the refunds are due then they will be paid, in spite of the cut, out of a deficiency appropriation, so nothing will have been accomplished by the initial slash. Appropriations for tax collection have paid dividends to the government and their reduction is false economy since the treasury with these appropriations has collected more than \$3 billion dollars in taxes from persons who sought eva-

Davy shouted, "I'm Davy Crockett, half horse and half alligator, a little touched with the snapping turtle. I can wade the Mississippi, jump the Ohio, ride a streak o' lightning and slide down a honeycloust without a scratch. I can whip my weight in wildcats and, if any gentleman pleases, for a \$10-bill, he can thruther. I can hug a man for comfort and I can man that's against a son."

Dr. C. E. Matthews To Speak Sunday On Baptist Hour

DR. C. E. MATTHEWS

The Baptist Hour will present Dr. C. E. Matthews of Dallas in the broadcast next Sunday morn- ing, who has selected for his sub- ject, "Man's Greatest Need," as announced by the radio commis- sion of the Southern Baptist Con- vention of Atlanta.

According to the Atlanta an- nouncement, the service of the Baptist hour is being greatly ex- tended by beautiful printed copies of the messages, which are being mailed out to churches, pastors, and other listeners who request them for use in evangelizing thru- out the territory. Every such printed message also carries one or more membership cards thru which a league of one million is being formed who will pray every day for the spiritual awakening America and the world so much needs at this time.

April 27 is the date set for the change over to daylight saving time. Many of the stations will be operating on daylight saving time and all interested in the Bat- tist Hour will watch their daily papers and listen to their local radio stations to learn of the ex- act time of the Baptist Hour on that date and the Sunday follow- ing.

The program may be heard in

this area over radio stations KGNC, Amarillo; WFAA, Dallas; and WOAI, San Antonio; at 7:30 a. m. CST.
