Fund Drive To Combat Cancer Lags In County

Little interest has been shown to date in Hall County in the drive to collect funds to combat cancer, N. W. Durham, county fund chairman, reported this week.

Summer Irrigation Water Rates Are Effective May 18

Memphis residential water users are being urged this week to make application for the summer irrigation water rate.

W. V. Coursey, local manager of the Community Public Service Company, said it was imperative that customers make application for the summer rates by May 18.

"We feel confident that we will be in position to furnish the people of Memphis a sufficient supply of water. Our maximum production now is some 25 per cent above any consumption we have ever had."

Application for the reduced rate must be made in writing at the water office on or before May 18, Coursey said, and the applicant must agree to remain on the rate for the full five-month period.

The summer rates will be as follows: \$2.50 net per month allowing use of 5,000 gallons; 35 cents net per thousand gallons for the next 5,000 gallons used per month; 25 cents net per thousand gallons for all over 10,000 gallons used per month.

Two Week-End Ball Games

32 4-H Awards Presented At Annual Program

The Memphis nine meets Childress here Saturday night for the first game under the newly-installed lights. The Memphis High School band will play, it was announced.

A league game with Mobeetie, a pre-season favorite, is scheduled here Sunday. Mobeetie took Kirkland 5-2 in a season-opener at Childress, the same day Memphis won over Childress here 9 to 3.

Memphis dropped the second league-play game to Quail Sunday, as Young, the Quail pitcher, turned in a surprise performance that held the visiting Memphians 2 to 5.

The first Memphis run came in the fifth when Moyer connected with a hit to center field. McKnight walked, and Moyer went to second. Moyer then came in on Coppedge's hit to left field.

In the eighth Coppedge again hit into left field to make first, and later scored on Gibson's hit into left field.

Gatlin, pitching for Memphis, walked but one man, and each team collected two errors.

Gibson came to the infield from center field to snag a high fly hit by Martindale in the sixth for one of the nicest catches of the game. Glendinning, on first, stopped the hottest line drive of the day when Young, the Quail pitcher, hit down (Continued on page 7)

DR. L. D. NEWTON

Dr. L. D. Newton To Speak Sunday On Baptist Hour

Dr. Louie D. Newton, president of the Southern Baptist Convention and pastor of the Druid Hills Baptist Church of Atlanta, is the speaker on the Baptist Hour next Sunday, Rev. C. R. Tension, pastor of the First Baptist Church, announced this week. His subject will be "Life's Greatest Question."

The announcement states further that approximately 250,000 believers have already enrolled in the One Million Prayer League who will pray daily for the revival so needed in our day.

It is reported that a network of 55 stations extending from Baltimore to Miami, and to the far Southwest broadcast these programs on a sustaining basis.

The Baptist Hour may be heard in this area over radio stations KGNC, Amarillo; WFAA, Dallas; and WOAI, San Antonio; at 7:30 CST Sunday morning.

April 27 the program changed over to daylight saving time. Many stations will be operating on daylight saving time and all interested Baptist Hour listeners were urged to watch their daily newspapers and listen to their local radio stations to learn of the exact time.

City Will Have Clean-Up Mon.

Mayor C. C. Hodges announced Wednesday that two trucks would start early Monday morning on rubbish and refuse collection trips around town, proceeding until all unburnable trash was carted off—working for two or three days if necessary.

He urged citizens to place this refuse in cans or boxes that may be handled quickly by collection crews. He also asked that these be placed in alleys where trucks could get to them.

It was pointed out that there was no necessity for anyone to call for a collection, that the crews would get over the entire city. If everyone will have the collections ready by early Monday morning the collections will be speeded and the trucks will not have to double back on trips about the city, unnecessarily prolonging the work.

The clean-up campaign is mainly centered in the residential sections, but suggestions were also given as to how business men could aid in making Memphis a cleaner town. It has been noticed that some stores sweep paper and trash into the streets in the mornings. It was suggested that if the business men would deposit the paper and sweepings in trash cans it would go a long way toward keeping the streets of the business section clean after they have been swept.

It was estimated that it might take three days to cover the city, depending upon the cooperation and upon the amount of collections.

Citizens were urged to take other measures in connection with the clean-up campaign, such as painting buildings and caring for lawns and yards.

Cyclone To Play Night Football Game Here May 16

The Cyclone football squad is showing constant improvement as the season progresses, and the group should be in top condition at the climax of the spring training, the game with the Exes Friday night, May 16, at the Cyclone stadium, Coach Don Ezzell reported this week.

The starting line-up for the game with the Exes has not been set, Ezzell said, and any player still has a chance to make the first string for this game.

With A. C. Sams at the center position, hard-charging Dell Rich and Bill Newbrough at tackle positions, Bill Hickey and Olen Jenkins at end positions, and with Bill Davis, Gayle West, and Don Morrison in the backfield, and several likely candidates for guard positions, the basis for a well-rounded passing and running attack is being formed.

Among other squad members who have been doing good work during spring training are Ted Graham, J. D. Aekard, Andy Gardenhire, Sammy Rasco, and Wendell Oran.

At present Bill Davis has an injured knee and Jack Pierce has a sprained ankle, but both are expected to be back in practice sessions next week.

My Dearest Mother:

As usual I am very sorry I haven't written but this time it was because I didn't want to. I believe it was best for your sake and now let me try to explain why. There is no use asking you if you heard about the Texas City deal because it was known all over the world. Well, Mom, I was there, right square in the middle of it all and I am still so sick at my stomach I can't eat, sleep, or do a darn thing. I am sure you read the papers but they couldn't describe it good enough. It has to take a softie like me to really do it.

We got down there about 11:30 Wednesday night and ten of us went into town. We were staying in Galveston but Texas City isn't but 12 miles from there. When I got there the first sight of things made me sick. The town was almost completely demolished and so many people dead, half dead, and injured looking for their wives, husbands, children or some loved one. The fires were so big you could read about 12 blocks from it. About 1:30 (think the Lord I was where I was) the U. S. High Flyer exploded.

And of the stupid things, there were about 400 people standing on the docks watching it burn and the whole darn thing blew up right in their faces. I was about

six blocks from it and it felt as if some one hit me with a train. It rained steel and bricks for about two minutes and then the trouble really started. The explosion had set two oil tanks on fire and they went blazing like the devil. I was so scared sick and everything else I couldn't think straight for a minute. When I did, I got in that ambulance and got the hell out of there. I got so far as the main gate and I was stopped by a guy who had the remains of two people. Out in his arms and the other in a bucket. I took those three to the morgue and I was about ready to go myself by then. Wasn't a thing wrong with me except I was still scared like the devil. After the second blast the rest of the battalion came in and was supposed to relieve us but we all worked straight until Friday morning. All this time, one oil tank after another was catching fire but those explosions were just like fire crackers compared with the others before. I couldn't sleep, so I just worked. I did almost everything but bury them. I suppose I just haven't got the guts, but believe me, if I had gone overseas and seen very much of that stuff, you can be sure there would have been a preacher in the family.

All this went on until Saturday night and then we got a rest. Those last two days I spent swimming in the Gulf and what a relief. It was a horrible mess and every veteran in the company said it was worse than anything they ever saw across. Thanks to the dear Lord I didn't get a scratch. One or two of the fellows got cut and burned but the dear Lord was on my side.

I could have written you down there but I knew you would have pulled your hair until I wrote again so I didn't bother. I was very busy too. It was quite a mental strain for Mister Robertson and I am praying to God it

Wheeler County Dairy Farmers Increase Output

Milk companies in the Panhandle are saying that Wheeler County farmers have made more progress in dairy development in the last six months than most counties make in two years.

In September of 1946, relates Wheeler County Agricultural Agent J. H. Martin, there were only four Grade A dairies in the county. The last time he made a count, which was near the end of March, there were 25 in operation and 6 others going up. The dairymen are now shipping milk to Amarillo and Pampa that will reach a 3,000,000-pounds per year mark.

Dairy farmers have brought over 400 head of dairy cows into the county in the last few months, the county agent says. Many of the producers have bought registered females as a foundation for their herds, and high quality sires are in wide use throughout the county.

The herds are made up of both Jerseys and Holsteins.

County Agent Martin, whose office has assisted the dairymen by sponsoring dairy schools to bring producers up on recent information, reports that milk company representatives are surprised at the work accomplished by the dairymen. They have made two years' progress in six months.

Housewife Is Soap Hope For Consumer

The housewife's kitchen, for many months to come, is the consumer's only hope for more soap and other commodities in which fats and oils are used.

According to B. F. Vance, state director of the Production and Marketing Administration, the housewife, with the used kitchen fats she saves and sells to her butcher, is the only individual who can help bridge the gap between

supply and demand of oils. Vance states that supply of fats and oils exhausted now, 1947 will be short and below normal. This result in a serious housewives don't have help. Every pound of that a housewife can help needed, Vance is urging all housewives to can of fat to the their shop.

School Band News

By SCHOOL REPORTER

Thursday, April 24, the Memphis High School was honored by having with them Glenn Truax, formerly of Memphis, and now head of the music department of West Texas State College.

During the day he worked with both musical organizations of the school, the choral club and band, and gave to both some very helpful suggestions and criticism. The organizations sang and played for him, then he criticized them and helped correct the mistakes.

Mr. Truax helped both groups with their contest pieces and complimented them on their work and that of Mr. Keyser, the director. He worked two hours with each group during the day and also had a short session with the twirling section of the band.

Mr. Truax was greatly enjoyed by all of the students and a welcome is open to him anytime he again comes this way.

Students on the high school A band honor roll for the past week were Hugh Haynes, Murita Gibson, Nomalee Ellis, Diane Meacham, Berna Benton, and Faye Carolyn Patrick.

Students on the Junior High School band honor roll for the past week were Omer Johnsey, Donald Max-McCoy, Donna Webb, Gereta Graham, and Jack Gilbert.

Sentinels of Health

Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood. If good health is to endure, when the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out. Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. **Doan's Pills.** They have had more than forty years of public approval. What Are You Doing Monday?

Next Monday is clean-up day for Memphis. There is none among us who does not know that unsightly accumulations of rubbish and trash offers: A barrier to the title: City Beautiful. A fire hazard that is a constant threat to our own life and to the life and property of those living nearby. A breeding ground for insects, disease carrying rats, and other pests. A loss of space for storage, flower gardens, recreation facilities and better home-and-grounds arrangements. May 5 is an opportunity. It is to our mutual benefit to work together on this date. We all mean to do things like this, but we don't seem to get around to them. That's one of the reasons for setting a date. Another reason is that the city is making two trucks available solely for the purpose of carting off unburnable rubbish. It is more economical for both the individual and for the city to cooperate in this measure on a set date. If all the people of the town will have the rubbish in boxes or cans or otherwise readily accessible, the truck crews can cover a large territory in a short time, at quite a saving in time and manpower. It is well to remember that these trucks are used for hauling gravel for street repairs and a number of other purposes. It is to our common advantage to cooperate in securing the greatest use of limited facilities. We can, if we will, accomplish a great deal for ourselves, our neighbors and the city on May 5.

Friendly Thoughts
by HARRY G. WOMACK

Life—such a ponderous affair—is made up of very small things; Tiny words, short steps, small gestures, little inferences, spoonfuls of food, tiny seconds, drops of blood, little breaths, pebbles, buds, drops of rain. Fitted here and there into the interstices are little acts of devotion, little declarations of faith and love and the accomplishments of little duties. And it is these little things that hold the world together and make it habitable.

To be of good repute a director must work conscientiously, conscious of his every obligation, rendering a service that is sincere and respectful.

QUOTING OUR NEIGHBORS

McLean May Day
Bands attending the festival here today are those from Shamrock, Wellington, Kellerville and Memphis. The Clarendon band will also be present, providing members are able to obtain instruments. Practically all their instruments were destroyed in the Clarendon school fire several weeks ago. The program is as follows: 2 p. m., parade; 3 p. m., free movie at the Avalon theater for all visiting bandsmen; 5:30 p. m., barbecue supper at the city park for all visiting bandsmen; 8 p. m., massed concert and marching maneuvers at football stadium.—The McLean News.

XIT Reunion
The Annual XIT Reunion is being returned to the traditional late summer period. Directors, meeting April 21, decided to hold the reunion this year on Thursday, Friday and Saturday, July 24-26. It had previously been set for June 13-14.—The Dohart Texan.

Rare Exhibits
So priceless that Assistant Curator Boone McClure is keeping it under lock and key until its proper "debut" at the meeting of the Panhandle-Plains Historical Society May 10, a 28-piece collection of scarabs from ancient Egypt has added another flavor of the oriental to museum valuables. . . . Oldest item in the group—and incidentally the smallest—is number 23, a ring setting which dates back to 3200 B. C.—The Prairie, WTSC.

Consolation
Bro. M. M. Young preached a forceful sermon on the Ten Commandments. One member of the congregation, Homer Martin, was heard muttering to himself as he left the church, "Anyway, I have never made a graven image."—The Groom News.

Startling News
Wm. Fredericksen, a deacon in the Baptist Church, was going to Dallas, and agreed to purchase a new sign to be hung in front of the church. He lost the sheet of paper on which he had put the motto and dimensions, so he wired his wife:
"Send me motto and dimen-

sions."
An hour later the Western Union girl fell in a dead faint when she received the reply. The message read: "Unto Us a Child Is Born, 8 feet long and 2 feet wide."—The Groom News.

BOYCE HOUSE
"Gives You Texas"

A masterpiece of oratory was the eulogy by James G. Blaine on the martyred President, James A. Garfield.

Great in life, he was surpassingly great in death. For no cause, in the very frenzy of wantonness and wickedness, by the red hand of murder, he was thrust from the full tide of this world's interest, from its hopes, its aspirations, its victories, into the visible presence of death—and he did not quail. Not alone for one short moment in which, stunned and dazed, he could give up life, hardly aware of its relinquishment, but through days of deathly languor, through weeks of agony that were not less agony because silently borne, with clear sight and calm courage he looked into his open grave.

What blight and ruin met his anguished eyes, whose lips may tell—what brilliant, broken plans, what baffled, high ambitions, what bitter rending of sweet household ties! Behind him a proud, expectant nation, a great host of sustaining friends, a cherished and happy mother, wearing the full, rich honors of her early toil and tears; the wife of his youth, whose whole life lay in his; the little boys not yet emerged from childhood's day of frolic; the fair young daughter; the sturdy sons just springing into closest companionship, claiming every day and every day rewarding a father's love and care; and in his heart the eager, rejoicing power to meet all demands. And his soul was not shaken.

His countrymen were thrilled with instant, profound and universal sympathy. Masterful in his mortal weakness, he became the center of a nation's love, enshrined in the prayers of a world. But all the love and all the sympathy could not snare with him his suffering. He trod the wine-press alone. With unflinching front, he faced death. With un-failing tenderness, he took leave of life. Above the demoniac hiss of the assassin's bullet, he heard the voice of God. With simple resignation, he bowed to the Divine decree.

As the end drew near, his early craving for the sea returned. The stately mansion of power had been to him the wearisome hospital of pain and he begged to be taken from his prison walls, from its oppressive, stifling air, from its homelessness and its hopelessness. Gently, silently, the love of a great people bore the pale sufferer to the longed-for healing of the sea, to live and to die, as God should will, within sight of the

heaving billows, within sounds of its manifold voices.

With a won, fevered face tenderly lifted to the cooling breeze, he looked wistfully upon the ocean's changing wonders; on its far sails; on its restless waves, rolling shoreward to break and die beneath the noon-day sun; on the red clouds of evening, arching low to the horizon; on the serene and shining pathway of the stars. Let us think that his dying eyes read a mystic meaning which only the rapt and parting soul may know. Let us believe that in the silence of the receding world, he heard the great waves breaking on a further shore and felt already upon his wasted brow the breath of the eternal morning.

This Week in WASHINGTON

IT IS APPARENT that whatever labor bill passes congress will be written upon the floor of the house or senate and not within either of the two committees which have been conducting hearings for more than six weeks and still are unable to reach any agreement.

It is also obvious, despite the telephone strike and John L. Lewis' spurious coal strike which actually violates the court injunction and the supreme court edict upholding the labor bill will get by a presidential veto, and the GOP leadership does not believe it has the strength to pass a labor bill over the presidential veto. So a labor bill, which is to be written from the floor by amendment to any bill which comes out of the committee, likely will outlaw jurisdictional strikes and secondary boycotts, force unions to publish memberships and financial standings and give employers equal voice with labor. There will be no ban on the closed shop or on industry-wide bargaining.

THE APPROPRIATION BILL
The ceiling is still stalemated and it looks now like a tax cut law will not get through the senate until sometime in late May or June. It likely will provide not more than a 10 per cent tax reduction for this year, maybe more for next year. As a matter of fact, treasury revenue is running far above estimates for this first quarter and not only will the administration be able to balance the budget by the end of this fiscal year, June 30, but likely there will be a three or four billion dollar surplus which no doubt will be applied on the national debt.

FAST ACTION by the senate is expected on the President's request for a 400 billion dollar loan to Greece and Turkey. That this amount is a drop in the bucket as compared to loans and commitments already made and pending to foreign nations is evidenced in a study of budget bureau estimates. From July 1, 1945, to February 28, 1947, American aid plus authorized or pending before congress totals 15.8 billion dollars exclusive of payments to the International Monetary Fund and various short term credits. A summation of all foreign commitments from 1940 through 1946 shows that non-war foreign commitments of

Exclusive of lend-lease during the war received American aid of more than \$50,000,000 of which is a loan from export Foreign Liquidation of about \$3,000,000 from commission. The Greco-Turkish out of the senate in committee with a case for passage and expected to pass it after several qualifying amendments and for the United Nations.

over Wellington last Sunday 3 to 2. Wellington had beaten Clarendon the week before by the same margin.

League standing:

	W	L
Mobeetic	2	0
Kirkland	1	1
Childress	1	1
Memphis	1	1
Quannah	1	1
Wellington	1	1
Quail	1	1
Clarendon	1	1

Childress went heavy on bunts in the game last week. Adron Lobban repeated his tactics of bunting down first base line. Dub Nelson bunted. Five of seven Childress hits were bunts.

The Mobeetic club has a big right-hander with a fast delivery—Metz LaFollete. And they have some heavy hitters that are capable of breaking up a pitching deadlock. They proved this Sunday in the game with Quannah.

The first game will be played under the new field lights Saturday night. This is a non-league contest, but it should prove an ideal night for a capacity crowd. While neither team will have an advantage this week, so far as playing under the lights are concerned, Memphis should have a little edge on visiting teams after this week.

This encounter with Childress should be extremely close. The Memphis club was better at the last meeting, but the Childress outfit has improved, while Memphis has not. The loss of Carroll Berryman to Pampa has been felt, even though he has been capably replaced. Berryman was a good consistent hitter and fielder.

Notes on Players

Herschel Stewart, third baseman and fielder and dependable hitter, has played with the Memphis team for five years. He played with the team four years before he went into the service, and before that was on the old Memphis Owls team. He didn't get around to playing much ball in the service. He has played ball around Memphis for about 14 years, taking time out to play with Wellington, Clarendon, and Amarillo. He is probably the oldest man on the team, both in age and in playing time.

Lakeview Home Ec Students Present Style Show

Colorful flowered curtains and green pot plants formed a background for the style show staged by the Lakeview home economics girls last Wednesday night in the

high school auditorium.

The program consisted of two parts. First, a one act play, "Three Girls for one Job," presented by Giner Porter, Avylee Weddel, Frances Brewer, Betty Hulsey, and Elaine Blewer.

Second, a two act play, "Daisy Mae Buys a Dress." Daisy Mae was played by Grace Sanders and Lil' Abner by Harold Rampy.

Taking the money Lil' Abner has won at a soap contest, Daisy Mae goes to the department store to buy a new dress. She has a wide variety to choose from as students of each class model their dresses and aprons.

That Nagging Backache

May Warn of Disordered Kidney Action
Modern life with its busy and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body wastes. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Get your neighbor!
