Spirited Race Looms Mayor, Aldermanic City Election, April 5

Hot contests seem to have developed in the Memphis city election next Tuesday, April 5th. They are in Wards three and four. In three, R. C. Cummings is opposed by two candidates, F. E. Monzingo and Earl Briscoe. In Ward four both candidates are new, since present incumbent, Walter Hightower is not running for re-election. The candidates who are scrapping it out in that ward are J. J. Bice and E. C. Rice. Mayor C. C. Hodges has no opponent, nor have H. E. Tarver in Ward 1, and Durwood Howell in Ward 2. The official ballot reads as follows: For Mayor, C. C. Hodges; For Alderman, Ward 1, H. E. Tarver; Ward 2, Durwood Howell; Ward 3, R. C. Cummings, F. E. Monzingo, Earl Briscoe; Ward 4, J. J. Bice and E. C. Rice. The election is next Tuesday, April 5th.

BOSS LION DOC SAYE of Memphis club looks rather surprised when the Photographer Wise caught him shaking hands with Lions Governor Bill Rutherford at the ladies banquet here last Friday night. Rutherford delivered a strong plea for world wide peace, in his address on "Lionism". Some 135 Lions and guests heard him. See story on page 5, section 2.

Many Bargains Offered Under Half-Price, Less Than Cost; Crowds Expected

Here is something new in Memphis. Sometime, away back when—Memphis may have had its DOLLAR DAYS, but if it did, nobody seems to recall them. Now, the business people of Memphis have decided they want to bring the DOLLAR-DAY to a REALITY. So that's what they're doing now. Next Monday, April 4th, is set aside for DOLLAR DAY. Almost every merchant in Memphis is in on it and has made preparations to offer many bargains. Many are offering bargain prices lower than half price, even lower than the wholesale cost of many items in their stock. The business men feel that by the promotion of this special day, owners and clerks will go even farther in reorganizing that every customer should receive first consideration. In every merchant's plan, courtesy is of utmost importance when patrons are making purchases. R. C. Lemons, chairman, Retail Merchant's Committee of the Chamber of Commerce, expects large crowds of shoppers from all sections of the trade territory. R. C. Howell, president of the Chamber of Commerce, urges fullest cooperation on the part of everybody, merchant and citizen alike, to make this DOLLAR DAY a great success in every way. "There is no reason," Mr. Howell declared, "why we can not make DOLLAR DAY a regular monthly feature, to the very great benefit of our merchants and citizens alike. But to do that, everybody must go all out for the movement and do his share." Lack of space makes it impossible to give justice to all of the different lines merchandise being offered on this, the first DOLLAR DAY in years, but one thing worthy of special notice is what there will be of special interest to the ladies. Calling your attention to the many great bargains in ladies' merchandise, cosmetics, etc., announced in the numerous ads in this issue of The Democrat, emphasis was placed on the benefits women and girl shoppers will find in Memphis on this DOLLAR DAY. Don't forget the date, Monday, April 4th.

Easter Seal Sale Off To Good Start; \$200 Already In

"Voluntary contributions to the Hall County Crippled Children's Society have been most gratifying," asserted N. W. Durham, Hall County chairman of the organization. "With the campaign hardly begun, we have received around \$200.00," Mr. Durham said, "and each mail brings in more." "The society supports free clinics for physically handicapped children from underprivileged homes. The only means of raising funds for this charitable cause is by the sale of Easter Seals. Recently the Society approved 2,000 letters containing stamps, mailed to citizens of Hall County. The stamps are used in the same manner as Christmas seals. "We have learned that many people do not receive these seals, due to changes in the mailing list, and many of these people are anxious to do their part in this worthy cause. Any who did not receive seals, and desire them, should contact Mr. Durham at Durham's Pharmacy, in Memphis, by telephone, letter or personally, and the stamps will be furnished promptly".

Interest Mounting City, County School Trustee Election

Contests in the trustee election of the Memphis Special school district April 2, have served to enliven what otherwise might have been a quiet election last-minute entries of two more candidates caused a tremendous increase of interest. The two new candidates are James F. Smith, president of the First National Bank, and Lynn H. Reams of the Western Cotton Oil mill. Already, a month ago, three had filed for the three vacancies to be filled by the election Saturday. They are Roy L. Coleman who is now president of the board. The other two are James Arthur Anthony, Matthew Allen, Lynn H. Reams and James F. Smith. The ballots, 400, have been printed, and the candidates' names occur in the following order, three to be elected: Roy L. Coleman, James Arthur Anthony, Matthew Allen, Lynn H. Reams and James F. Smith. In the county board election, three places are to be filled, in none of which is there a contest. Arthur Gidden of Plaska, member at large, is up for re-election. So is Clarence Moore of Newlin, representing Precinct 1, and T. W. Luttrell of Precinct 2. Trustees for all other school districts in the county must be elected. (Continued on Page 12)

Ft. Sill Army Team Will Mix It With Our Owls Sunday, 3 P.M.

Fur will fly Sunday afternoon around three o'clock at Estes Park baseball field. The Memphis Owls will meet the always powerful Fort Sill Army team, which means a good game, anyway you take it. This will be an exhibition game, to open the season, but it will be just about as interesting and exciting a game as will be played on the local lot this season. The complete schedule of games of the Red River Valley semi-pro baseball league will be found elsewhere in this paper. Checking over the Owls roster reveals that we have some outstanding star players in our club, and local fans may be assured of good games throughout the season, with the Owls giving a good account of themselves. Don't forget the game Sunday, and pass the word along to your friends to be there.

McKown Wins First Place With 42,868 On Cotton Ginning

Here that cotton producer you have been waiting for, finally let the bag Monday. The report shows a total of 42,868 bales of the 1948 crop in Hall County. "This county ginned 42,868 bales of the 1948 crop," said Lynn McKown, secretary of the Hall County ACA committee. "This is 745 more than the 1948 crop was made with only 42,123 bales. He credits the terracing and other conservation work as making the difference a good crop and what we have been a poor crop as joining counties made last year." McKown, secretary of the Hall County ACA committee, said he was "proud" to be the winner, that cheerfully. Dog Owners Warned Their Pets Will Be Killed if Not Tagged

Two people were bitten in Memphis last week by vicious dogs. Police Chief Jack Peabody has issued a warning that the menace of vicious dogs running at large on Memphis streets has got to stop. Last week he gave this warning and it was carried in a conspicuous position in the Democrat. Some claimed they did not see the notice, after it was too late after their pets had been shot. The chief doesn't want to kill anybody's harmless pet, but the only way he can be sure the dog is not dangerous, and has a thoughtful owner, is by the tag which it must wear, showing that it has been vaccinated against rabies. The city council has instructed Chief Peabody to kill all stray and un-tagged dogs. The orders will be carried out to the letter. This warning should be heeded if you want to save your pet. "Get your dog vaccinated at once, if you have not already done so," warns the chief. "Then bring your receipt to the City Tax Collector, Glen Carlos' office and get a tag for your dog. If your dog has a tag, we will not pick him up. But unless he does, you leave us no choice in the matter. There are now too many dogs running around the city streets without owners, dogs which may have drifted in from outside, and these are the dogs we are after. Unless you want yours mistaken for a homeless stray and shot, get him vaccinated and tagged," warned the chief.

Hall Co. Concert Association Stages Annual Ticket Sale

Monday evening the Hall County Concert Association launched its membership drive by playing host to 60 guests at the High School Cafeteria. Mrs. T. M. Harrison president of the Association presided at the dinner and introduced the board members and the out-of-town guests. Mrs. Harrison presented Mr. Charles Thomas Representative of the Lucius Pryor Concert Service of Council Bluffs, Iowa, who informed the guests of the correct campaign procedure, and discussed the artists available to Memphis for the 1949-50 season. It was stressed that no single admission tickets to concerts will be sold next season. The campaign drive will close at 6 p. m. Saturday April 2nd. Three concerts will be presented in Memphis between October of 1949 and May of 1950, more if the budget permits. Anyone wanting memberships who has not been contacted by the office headquarters at The County Commissioners Court in the Court House at Memphis, or Call 255-J. Membership dues are \$4.80 for adults and \$2.80 for students. The board of the Hall County (Continued on Page 12)

Charles Thomas, Well-known Artist, Presented on Little Theatre Program

A large and appreciative audience was present Wednesday afternoon, March 23, at the First Christian Church when the Memphis Little Theatre presented Charles Thomas, well-known Panhandle artist, in a dramatization of Robinson Jeffers' play "Medea."

Mrs. L. G. DeBerry, president of the club, welcomed the guests, after which she presented Miss Helen Boswell, program chairman, who in her own charming manner introduced Mr. Thomas, telling of dramatic activities and of his work in the U. S. O. unit overseas.

Having recently seen the production of "Medea" on Broadway, Mr. Thomas gave a vivid portrayal of the play, particularly of the character, Medea, which Robinson Jeffers wrote for Judith Anderson, who has played the part for two seasons winning the critics award of the year.

Medea is a tensity dramatic play from the original by Euripides. It is the story of a woman who having sacrificed all for her husband, Jason, finds herself forsaken for a more beautiful and desirable princess. As Mr. Thomas builds to the climax of this story of a wife's jealous revenge, the audience is held in hushed suspense until the final curtain.

Approximately 300 members and guests enjoyed the presentation of this outstanding and popular play.

YOU BUY A GIFT OF SCIENCE

With the dollar or so you spend to have this prescription filled, you buy millions of dollars worth of research and the time and work of many men.

One of the ingredients of your prescription is a new drug that is particularly effective in overcoming skin infections. Its development a year or two ago was the crowning achievement of a decade of study by a group of research chemists in a midwestern laboratory.

Another ingredient, which likewise hinders germ growth, is a drug developed out of research that originated abroad. It, too, made headlines when its discovery was announced a few years ago.

The third ingredient is a new water-soluble ointment base that has the ability to penetrate tiny cracks and crevices of the skin.

Your pharmacist skillfully combines these ingredients... the new germicide, the drug from across the sea, and the water-soluble base. With the art that is his, he prepares a smooth, greaseless ointment, following the prescription written by your physician.

In the finished prescription you purchase a truly priceless gift of science... the science of pharmacy, chemistry, and medicine that went into the research, development, and production of its ingredients.—Reprinted from a copyrighted advertisement published by Parke, Davis & Company, Detroit 32, Michigan.

ANOTHER CAR LOAD OF CANADIAN JERSEYS TO BE SHIPPED SHORTLY

Progress is being made on orders for another car load of Canadian Jersey heifers for Hall County, according to W. B. Hooser, County farm agent.

It is desirable to get this stock as soon as possible, before real hot weather sets in, as the change from Canada to Texas in weather and temperature varies considerably.

Farmers and 4-H club members who don't want to be left out of this shipment are urged to contact County Agent W. B. Hooser as soon as possible.

The value of bringing into Hall County this fine strain of registered Jerseys can not be overestimated. It is bringing our county well up in the rank of dairy counties. Clifford Farmer, chamber of commerce manager, is an authority on this class of dairy development, and Hall County is fortunate in having him to work with the county agent in this enterprise.

Pass the word along to any who might be interested in getting one or more of these fine heifers, before it is too late.

Mr. and Mrs. Raymond Adcock and children, June and Gary, of Wichita Falls and Mr. Powell of Childress spent Sunday with his brother, Oran Adcock and family. Other guests were Mr. and Mrs. Thurman Ellerd and son Dwain.

Early Steps Can Be Taken Against The Grasshoppers

LUBBOCK—Big crop losses attributed every year to the grasshopper can be avoided by taking early precautionary steps.

Dr. A. W. Young, professor of plant industry at Texas Technological college, insists it is not necessary to feed the grasshopper all spring so he can do his customary dirty work in the late summer. Several of the newer chemicals were used last year with great success. Chlorinated compounds as Chlordane and Toxaphene are especially recommendable, Dr. Young said. These insecticides are usually available in both dust and spray forms. County agents can suggest which is best for each area's particular treatment.

Although indications are that infestation will not be so high in the immediate high plains district this year, Dr. Young suggests farmers and ranchers be prepared with insecticides to stop the grasshoppers on their first appearance. High infestation has been reported in other parts of the state.

April Set Apart To Study Deadly Cancer; To Save Many Lives

AUSTIN.—Throughout the nation April is observed as National Cancer Control Month, and on April 10, 17, and 24, the Texas State Department of Health is presenting special broadcasts over WOAI in San Antonio, at 7 A. M., outlining twenty different sites of cancer, the common age at which they appear, the accepted methods of treatment, the percentages of cures, and any known preventive measures.

Dr. Geo. W. Cox, State Health Officer says that cancer patients today have a brighter prospect for recovery than at any time before in history, and agrees wholeheartedly with the national movement to stamp out cancer through educating the public that "early discovery can mean recovery."

"Surgery, radium and x-ray therapy are working wonders in many different types of cancer," Dr. Cox said. "In all types of cancer except leukemia there is a possibility of cure if the patient is diagnosed in the very early stages. Any suspicious symptoms should be investigated by a competent physician at their first appearance, and if cancer is found to be present and treatment instituted at once, there is every reason to hope for complete recovery. The important thing to remember is that cancer can be cured; but it depends entirely on early discovery and proper treatment."

All persons interested in cancer control are urged to hear these special broadcasts on April 10, 17 and 24, on WOAI, San Antonio, at 7 A. M.

Soft Ball League To Be Discussed Thursday, April 7

Progressive citizens of Memphis are behind a movement to organize a soft ball league, and a meeting is called at the City Hall for Thursday evening, April 7th, at 8 o'clock to discuss the matter.

W. C. Davis, High School superintendent, and Clifford Farmer, manager of the chamber of commerce, will be present.

Frank Smith, Jr., local sports enthusiast, is inviting all interested citizens to be present and present their views.

Especially are business firms likely to be interested in having a team in the league, urged to attend the meeting.

This league, if organized, intends to plan its program so that the games will not conflict with the games of semi-pro baseball, nor other major sports events of Memphis.

There is plenty of room, it is pointed out, for a live soft ball program, to add to the recreation program of Memphis.

A league of six or eight teams would bring out a good representation of business firms, as well as young people interested in the popular sport.

This is a reminder to all who may be interested, to be sure to attend the meeting Thursday, and pass the word along to others.

National Farm Clean-Up Week Will Be Observed, Beginning On April 3rd

AUSTIN—Texas farmers and farm organizations were urged today to aid in the annual observance of national Farm Clean-Up Week, set this year for the week of April 3 to 9.

Purpose of the project is to reduce livestock and poultry losses caused by disease, parasites and injury, the American Foundation for Animal Health announced here.

"By taking a little time for a cleanup of lots and buildings now, farmers can add materially to their 1949 livestock and poultry profits," the Foundation said.

Heading the list of cleanup measures were:

"Clean and disinfect livestock quarters, particularly those where young animals or birds are to be born or housed.

"Clean out refuse in barnyards and feed lots. Old piles of manure and rubbish may be heavily infested with livestock parasites.

"Drain or fence off low, muddy spots in yards and pastures to protect stock against the germs and parasites that thrive in stagnant water.

"Remove or destroy old straw stacks that harbor parasites and germs. Scatter the straw or plow it under.

"Pick up and remove nails, glass and other sharp objects which might cause skin wounds and infections, or might be swallowed by livestock.

"Move young animals to fresh, clean ground as early as weather permits, and around weaning time have pigs vaccinated against hog cholera. Check also on the advisability of vaccination against other diseases which may be problems in the area."

In many communities, the Foundation said, it is being suggested that farmers and veterinarians organize Farm Clean-Up Week as a neighborhood project to rid the entire community of these disease and parasite hazards. Organized or not, these measures were urged as wise precautions for every farmer.

Women Changing Their Minds Is Upheld In Survey

Women are always changing their minds. Everyone has always thought so and now a University of Texas

Testing and Guidance Bureau study proves it is true in one area anyway.

The Bureau, which handles all of the University's student testing, asked 109 male and 150 female freshmen in 1946 to list their vocational choices.

In 1948 the same students were again asked the same question, and more than half of the women had changed their minds. Only

41 per cent of the women indicated the same preference when asked the second time, whereas 65 per cent of the men were still firm in their original choices.

A shift toward social service occupations, including religious work and teaching, was exhibited by a number of students who had changed their preference, the tests indicated.

Turning Toward the Cross. Lesson for April 3: Mark 8:27-34; Luke 9:28-35, 51.

Memory Selection: Mark 8:34.

In the second quarter we continue studies in the Life of Christ. Today we first consider the Great Confession. The place was among the sources of the Jordan river. The Confession came after Jesus had asked the opinions of men concerning himself and had then asked the disciples their own opinions.

His thoughts "turning toward the Cross," Jesus then began to tell the disciples of the things that awaited him. In the consternation that followed, Peter, as usual, was the spokesman. He seemingly took Jesus aside and advised him not to talk about sufferings and death. Having just risen to a great height in the Great Confession, so soon Peter became presumptuous. Jesus, rebuking Peter, issued a challenging call to the multitude to deny themselves and share in the sacrifices he was to make.

The transfiguration, with only Peter and James and John with Jesus, evidently came to Jesus as he prayed, and was given him for his own assurance and also to strengthen the faith of the disciples.

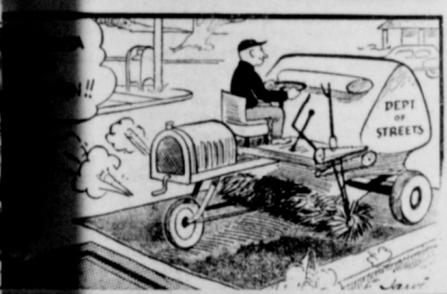

Great Confession and Transfiguration both pointed to the Cross that awaited Jesus and soon, as the last passage of the lesson tells us, Jesus "steadfastly set his face to go to Jerusalem." He was going to the Cross. And what a blessing it would be to a sorrowing and anxious world if all men would now turn toward the Cross.

Thousands Expected In Lawton April 1 For World Premiere Of "Lawton Story"

LAWTON, Okla.—Thousands will converge on this city of 32,000 on April 1 when "The Lawton Story," new Hallmark Cinecolor film based on the famous Wichita Mountain Easter Pageant, opens its world premiere here.

The two remaining tickets to the two-theatre premiere can be obtained by writing Reece L. Russell, secretary of the pageant board, here or by sending money order or check to Mr. Russell at pageant headquarters.

Tradespeople, restaurateurs, hotel men and all other businessmen here are participating in the important event. Extra rations of food and gallons of extra soft drinks have been purchased to satisfy the hunger of the anticipated crowd of 100,000.

Decorations, some in the form of life-sized blowups of scenes from "The Lawton Story" and others of colorful display material, will be put up in every business house and residence along the city's main thoroughfares. Streamers will be thrown across the principals' streets and in front of main business buildings.

The tickets for the premiere priced at \$1.00 each—highest admission price in the history of motion pictures—already have been sold. Among the purchasers are Governor Roy J. Turner of Oklahoma who has extended written invitations to other governors to attend the premiere.

Governor Beauford Jester of Texas already has indicated to Gov. Turner that he will attend the event. Other celebrities expected include the President of Mexico, a special representative of President Truman, United States Senators from Texas, Oklahoma and Georgia and a score of United States Representatives.

Kate Smith, famed singer, and dozens of Hollywood stars and directors—including all members of the cast of "The Lawton Story"—will arrive here on the morning of the premiere in two chartered planes. All of the stars will make personal appearances on the stages of the two theatres during the evening.

The four principals in the film near Lawton—Mrs. Darlene Bridges who plays the Virgin Mary, Hazel Lee Becker, who plays Mary Magdalene, Del Fisher, who plays Simon Peter and Millard Coody, who plays Jesus—will appear on the stages in person and over nationwide radio hookups.

More than 400 employees of Hallmark Productions, Inc., Wilmington, Ohio, producer of the film, will attend the premiere. There persons will be divided into two groups, half to attend one theatre, half the other theatre. Later the Wilmington group will be entertained at the American Legion Hall in Lawton by the pageant officials.

Ginger Prince, the 8-year-old child star from Atlanta who plays the niece of the late Rev. Mark Wallock, founder of the Wichita Mountain Pageant, will appear at both theatres during the evening. Little Miss Prince has been featured in coast-to-coast radio and television shows during recent months.

Farmhouse Plans Now Available In 25-Cent Bulletin

COLLEGE STATION—Thirteen up-to-date farmhouse plans, every one designed to give farm families comfortable and efficient surroundings, are pictured and described in a new U. S. Department of Agriculture bulletin, "Farmhouse Plans for the Northeastern States." W. S. Allen, extension agricultural engineer, buildings of Texas A. & M. College, says that county home demonstration agents now have the bulletin in their offices.

These 13 houses are adapted to most Texas conditions. Since a farmhouse is a combined home and work center, the designers have seen to it that each house has outstanding features that farm families want and need. Included are: rooms planned for family work and living; space for eating in the kitchen; a place near the back door for the men to wash up and hang work clothes; indoor traffic routes that do not cross busy areas; adequate storage space for food and fuel; and ample closet space.

Every house, adds Allen is designed for running water and each plan provides for at least one bathroom.

These plans are the product of the Regional Plan Services. This is a cooperative arrangement between the U. S. Department of Agriculture and the states in a region. They work together in developing plans for farm buildings that are suitable for the region. The 13 farmhouse plans for the northeast were developed by three agencies in the Department—the Bureau of Plant Industry, Soils and Agricultural Engineering—the Bureau of Human Nutrition and Home Economics—and the Extension Service—and twelve Northeastern States cooperating.

Copies of the bulletin, "Farmhouse Plans for the Northeastern States," may be purchased for fifteen cents per copy, from the Superintendent of Documents, Washington 25, D. C. The order should be accompanied by coin or money order (no stamps), says Allen.

• Don't forget DOLLAR DAY, Memphis, Monday, April 4.

Story" will hold state premieres in Atlanta, Oklahoma City, Dallas, Cincinnati, Wilmington, Ohio and an unannounced Texas City. On Easter Sunday morning, "The Lawton Story" will be shown in a pre-dawn service to more than 500,000 persons in New York City's Central Park Hall.

By the end of April the film will be launched in sixteen zones throughout the nation.

All proceeds from the world premiere will be donated to the Wichita Mountain Easter Sunrise Service Association. The \$40,000 expected to be raised will be used to perpetuate the annual pageant at Holy City, 22 miles from Lawton.

Fourth Down Coming Up

By DAY EDGAR

A short short story in which it is demonstrated that strategy always wins, whether the game is football or love.

"HERE comes another Princeton substitution!"

A radio broadcaster, working in a glass booth high above the field, turned to his student "spotter." The student, identifying the substitute at a glance, checked a name on a printed list—a name the broadcaster then relayed to listeners throughout the nation.

"It's Ted Lane," he announced. "Lane's a tackle and he weighs—say, there's a surprise! Lane only weighs one hundred and forty! He'll look small in that Tiger line, but weight's not everything, I guess."

Down on the sidelines, tormented by doubt, stood the coach who had

Ted Lane, digging his cleats into the turf just behind the goal line, wished the coach had given him some time to warm up. He fought to control his nervousness.

Louise Bayle gripped a program in her small gloved hands. Now that he was out there among them she suddenly realized how small Teddy was in comparison with the other players. Fear crept like a shadow across her face.

As the ball was snapped Ted Lane lunged hard at the opposing tackle. Outweighed by 50 pounds he was shoved backward—and he saw the Yale man with the ball rushing toward him.

A tense hush filled the stadium; and Louise Bayle, appalled, stared fixedly at a mound of tangled human bodies. A chill fled through her blood. Then, just as the referee pointed to the far end of the field, she saw Teddy, still miraculously in one piece, scramble blithely to his feet. Whereupon she promptly added her voice to the thunderous cheer.

"No touchdown!" the broadcaster cried. "The Tigers stopped it! Princeton's ball now. Boy, you ought to see this crowd going crazy. . . . And—the game—is—over!"

An hour later, in a restaurant Louise Bayle awaited the arrival of her fiancé and heard snatches of wonderful things people were saying. Ted Lane had saved the game; Ted Lane should have been sent in much earlier.

Two men walked past her booth. One was the coach. The other, an assistant coach, was his friend and confidant. They took the next booth and were presently engaged in a discussion that was quite audible on the other side of the low partition.

"Now that we're alone," the assistant began, "will you kindly tell me why you sent Lane in there?"

The coach laughed quietly, the laugh of a man freed from tension, pleased with himself and the world.

"Why not?" he asked, "Lane's always worked hard. He's game and willing, and he deserved the chance to win his letter."

"But—"

"Also," the coach continued, "there are some fine line-plungers on that Yale team, and so, with only another foot to go, what was that last play sure to be?"

"A line buck, naturally."

"And what chance had we of stopping it?"

"Practically none."

"Correct," the coach agreed. "There was only one way we could prevent a touchdown—find out just where the play was coming through. Suppose we knew that? Suppose somebody tipped off our boys in the secondary?"

"Why, they'd gang up and smother it."

"Isn't that exactly what happened? I rushed Ted Lane in, without any notice, at the most crucial moment of the game—enough to rattle even a seasoned veteran. So, besides being too small, Lane had a very obvious case of jittery straightflight."

"Yale spotted him at once as the weakest place in our line, the logical point for the attack. And our backfield boys, as I expected, reached exactly the same conclusion."

"Oh, a decoy, eh?" said the assistant slowly.

"Yes, Lane was the bait in a trap we—"

Louise Bayle rose quickly. Ted Lane was approaching. He must not come within range of those voices. Hurrying toward him she saw the light of new pride and confidence shining in his face—a light she would protect and keep forever bright.

"No touchdown!" the broadcaster cried.

just rushed Lane into the game. Although he seemed calm the crisis now at hand was working badly on his nerves; and when one of his assistants ran up, protesting this last-minute substitution, the coach glared so fiercely that the assistant hastily retreated.

"Here's some data on Ted Lane," the broadcaster was saying. "He prepped at Andover. Been on the squad since his sophomore year but was never in a Varsity game before. Well, Lane gets his chance now—in the last moments of the last game of his college career."

Louise Bayle, sitting in Section 22, felt her heart throb in the greatest joy of her 19 years. For two hours, in loving sorrow, she had watched a blanketed form huddled on the bench. Then, with all hope dead, a miracle had occurred; and only she knew how much it meant to the substitute who was now running eagerly out across the field.

In his booth the broadcaster rubbed his weary throat; then, to fill in the lull, he gave his audience a summary of the status quo.

"The score is 10 to 6, Princeton leading," he said. "Fourth down coming up, with only a few seconds left to play. The ball's in Yale's possession on Princeton's one-foot line—twelve inches to go for a touchdown and victory."

Breathless, Ted Lane halted in front of the referee.

"I'm Lane, sir," he stammered. "Lane comin in for Ramsay at tackle."

"This next play tells the tale," the broadcaster said a moment later. "It's been a great game, hard-fought but clean, with very few penalties. The weather's been fine, too, sunny and—there goes Yale into the huddle."

KR Bluestem Grows Despite Drouth On Falls County Farm

COLLEGE STATION—One Falls County farmer planted an acre of KR bluestem a year ago.

Otto Pursche, of Otto, Texas, planted the original acre last April, reports County Agent W. L. Ross. Pursche harvested a crop of hay and 21 pounds of seed despite the drouth, and says the seed tested 40 percent purity and 69 percent germination.

At a pasture meeting in the county agent's office in December, Pursche told the other stockmen of Falls county his story of KR bluestem. They became interested and each one—a demonstrator in the county—received two pounds of seed to plant this year. Each of these farmers agreed to follow Pursche's method of planting the grass in three-foot rows. The seed harvested from these plantings will be used to increase the plantings on their farms, says Ross.

The new KR bluestem demonstrators who received two-pound packages of the seed are H. H. Perkins, Mooreville; Frank Phillips, Perry; Edward Schlottman and Henry Stermer, Westphalia; Mrs. W. N. Delleney, Marlin; W. C. Davis and Raymond Golding, Lott; O. G. Kelley, Reagan; James Street, Otto; and Richard Fiend, Cego.

County Agent Ross reports that a number of others have secured seed from other sources, which they will plant on their farms this spring. Results from these demonstration plantings should indicate the possibilities of KR bluestem for hay and pasture use in Falls county, he concludes.

Johnsongrass Has High Food Value For Stock Feeding

COLLEGE STATION—Johnsongrass is just an all-around good grass. It seems to lead the field for heavy yields of high-quality forage. This includes, of course, the cool-season grasses and legumes that may be grown in Johnsongrass fields.

This information comes from Robert R. Lancaster, extension pasture specialist of Texas A. & M. College. Idle Johnsongrass land throughout the blacklands and elsewhere needs only fencing and stock water to make it available for leasing as hay or pasturage. So you don't need to apologize to anyone for growing Johnsongrass for pasture or hay, says Lancaster, except those whose fields become infested by seed from yours.

Six steers grazed 11 acres of fertilized Johnsongrass for five months at the Texas Agricultural Experiment Substation at Temple, and gained 1.58 pounds a day. This indicates a yield of more than four tons of green forage to the acre, or one-fourth as much on a dry-matter basis.

Results from these experiment station tests show that early-cut Johnsongrass hay is richer in protein, phosphorus and total nutrients, and rates highest among other grasses in the most valuable nutrients. In addition to a summer graze of Johnsongrass equivalent to one ton of 10 percent protein, a cool-season crop of oats and sweetclover can follow. Lancaster says this would be expected to yield approximately two tons of 20 percent protein on a dry-matter basis.

If you figure on leaving the Johnsongrass for grazing, make a pasture out of it and fertilize with 200 pounds of 16-20-0 or 400 pounds of 6-10-0 of commercial fertilizer to the acre, until a legume gets well established, suggests Lancaster.

Here's this pasture specialist's idea about seeding Johnsongrass. If a field in an infested area already has too much Johnsongrass to be farmed, but not yet a full stand, the bare spaces might as well be seeded to a complete pasture. Of course, in a clean-farmed area, every plant of it should be killed out.

Summing it up, Lancaster says if you have a good stand, use it, but if it's only scattered around, kill it out.

Ronnie Takes a Chance

A SHORT-SHORT STORY By DANIEL F. LINDSAY

RONNIE BROWN raced into the offices of the Smithville Daily Chronicle. Racing was Ronnie's usual rate of speed. He was sixteen. Had he taken time to walk, he might have had time to think. This, I am sure, never had occurred to him. He slid to a full stop in front of Tom Brennan's desk. Tom was the editor, chief reporter and owner of the Chronicle.

He looked up as Ronnie adjusted his clothing.

"What's up this morning, Fashion Plate?"

"Oh nothing much." He feigned nonchalance. "Just a scoop for yours truly. That's all."

"A scoop?" Tom looked mildly interested. "Where, who and how?"

Racing was Ronnie's usual rate of speed.

"Charlie Slater and his wife are getting a divorce." He emphasized this last. "And it's over another woman."

"That's no scoop. It's dirty linen." Tom stared at him coldly. "We don't wash it in the Chronicle. You know that." He lowered his head again. "Wait a minute," Ronnie insisted. "The other woman is only six years old."

"Well, why didn't you say so?" Ronnie leaned back with a self-satisfied grin. "I got it from Pop. He and Mom were talking last night."

Pop is handling Mrs. Slater's defense or whatever you call it. Anyway they are getting a divorce because Charlie won't let her adopt her niece."

"Why doesn't her sister raise her own kid?"

"They won't let her. She's been in a lot of trouble and the court has decided if Mrs. Slater won't take her she will have to go to the Orphans' Home."

Tom let out a low whistle. "Mrs. Slater must have some sister."

"I guess so," Ronnie admitted. "Whenever they talk about her I have to leave the room."

"I get it," He laughed at Ronnie's hopeful expression. "But I'm not letting you in on it. You can get the facts of life from your Dad."

"Well, then," he sighed dismally. "How about the story? Can I write it up?"

Tom stared into space thoughtfully for a minute. "It hasn't come to court yet, has it?"

"It comes up this morning. I heard Pop say so."

"Well, then," he smiled, "you cover it as it comes out in court. Ronnie couldn't believe his ears. "You mean I can handle it alone?"

"You'll have to," He didn't look too happy about it. "I've got to go to the capitol this morning. It might take me all day."

"Look, Ronnie." He stared at Ronnie doubtfully. "I'm not too sure about leaving this thing to you."

"Oh I'll be all right, Tom." Ronnie attempted to look older than he was. "Just leave it all to me. I can handle it for you."

"Okay, son, only remember. One dumb trick and we could lose the respect of the whole community. Not to mention a lawsuit which could cost me my newspaper."

"When you leave call the operator and ask her to put any calls for the paper through to you at the courthouse. Just report exactly what happens in that court room. Nothing more. Above all, no personal opinions. Have it ready for Jack to set up when he comes in at one o'clock."

He started for the door. "Oh, yeah." He turned around. "In the right hand corner of my middle drawer you'll find a card you might need."

Ronnie waited until his car had pulled away and made a dive for the desk. There it was. Ronnie grew two inches in half a minute. It was a press card, with his name on it.

At ten minutes until nine Ronnie entered the county courthouse. The proceedings consumed nearly an hour. It was a busy hour for him. He tried to get every word spoken into his note book.

He hurried back to the Chronicle office and sat down at the battered old typewriter. After two hours of banging on it, he looked up. It was noon.

At one o'clock he had to swallow his pride and help the pressman.

At four o'clock they were all out and on the street.

Ronnie grabbed a copy, as he had seen Tom do, and sinking back into a chair read every line. He was amazed at his own daring, as he read the write-up on the divorce proceedings. His cockiness oozed out of him. It didn't seem such a good idea to take matters in his own hands as it had seemed before the paper went to press.

At four-thirty Tom burst into the office with murder in his eye. "Ronnie!" he exploded, "what got into you?"

"What do you mean? It looks pretty good to me." He eyed Tom warily. "It would." He sank into his chair.

"Oh, brother! This should stir up something!" He stared moodily at the desk. "I guess it's all my own fault. I ought to have known better than to leave a sixteen-year-old with a newspaper."

Ronnie got a sick feeling in the pit of his stomach.

"Tom?" He smiled weakly. "I hope it won't cause you any trouble."

"It won't, will it?"

"I don't know, boy." Tom held his head. "Time will tell."

Ronnie took out his press card and laid it on the desk.

"I'll see you later, Tom. If I can help let me know."

Tom looked up sensing the utter defeat in Ronnie's voice.

"Pick up your card, boy. Every newspaper man has to learn from mistakes. How do you think I learned about personal opinions?"

Ronnie shook his head. "From just such a stunt as yours. Only it was a murder case. I picked the wrong guy!" He smiled faintly.

"I got canned."

"But I've still got a job?" Ronnie's hopes started to rise.

"Maybe. If I've still got a newspaper you have."

Ronnie felt sick again. They both turned as the door opened. It was Charlie Slater and his wife. Ronnie swallowed hard. Tom braced himself.

Charlie spoke first. "Tom, did you write that story about us in the paper this afternoon?"

"No, sir," Ronnie interrupted Tom. "I wrote it while he was up at the capitol."

"Why?"

"Why, I don't know." Ronnie racked his brain. "I just said what I thought, I guess."

Mrs. Slater laughed. "We kinda thought it was you Ronnie."

Ronnie began to feel a bit better. "Anyway," Charlie smiled, "to make a long story short, we decided if a sixteen-year-old lad thought we were a couple of fools, maybe we were."

"And," she finished it for him, "we want to thank you."

Ronnie heaved a sigh of relief. They all laughed.

Troy Broome Buys Interest In Local Kaiser-Frazer Firm

Troy Broome, well-known rancher and farmer of Memphis, this week purchased one-half interest in the E. E. Rice Motor Company. The company has the agency for Kaiser and Frazer automobiles, and was owned by E. E. Rice, who retains the other half interest.

In making the announcement, the owners stated that the policies of operation will continue as in the past, although more emphasis will be placed upon selling and servicing of the two lines of automobiles.

Name of the agency was changed to Rice-Broome Motor Company.

The motor company was established in October, 1946, when Mr. Rice bought the building they now occupy, located on Noel street. He obtained the Kaiser-Frazer franchise for Hall County in February, 1948. Operated in connection with the car agency is the service station, located in the same building.

Mr. Broome was reared in Memphis, and has spent the past 16 years in the ranching and farming business. He is well known to the people of this area.

Both men plan to devote their full time to the dealership.

Along with the announcement of the formation of the partnership, Rice and Broome said that Kaiser-Frazer Corporation had just released information pertaining to drastic cuts on five of six models.

"We do not have definite information about the price cuts," they said, "but it is understood that they range from \$198.00 for the Frazer to \$333.00 for the Kaiser Special. This was verified by a telegram from our distributor Wednesday."

No cut was expected on the new Kaiser Traveler, they stated. This new car has been advertised at the price of \$2,088.48, f. o. b. factory. Lowest priced car under the new set-up, it is understood, will be the Kaiser Special, listed tentatively at \$1,995, f. o. b. low Run.

HOWDY, NEIGHBOR

By A. H. WHEELER

It will be like Circus day in Memphis Monday. You'll think Barnum & Bailey's "greatest show on earth" has come to town. And the occasion will be vastly more important to YOU. It will mean big bargains in all kinds of merchandise, offered by almost every merchant in Memphis. It will be Memphis' DOLLAR DAY!

It will mean that many items will be offered at less than half-price, much below actual wholesale cost, on that special day, Monday, April 4th.

The merchants of Memphis are doing their part. They are sending the word out all over this trade territory, telling of their bargains, offered to you to help you make your budget go farther during these times of high prices. Many of the prices in the ads in this paper are lower than pre-war prices.

Don't get the idea that this is just a big, city-wide "clean-up" sale, and that the merchandise offered is a lot of slow-moving, shelf-worn merchandise.

Most definitely, it IS NOT. It is clean, staple merchandise, as good as you'll find anywhere at much higher prices.

Another purpose of DOLLAR DAY is to help you get acquainted with the Memphis merchants and their sales-people. You want to know them and they want to know you. It means much for merchant and customer to be acquainted with each other.

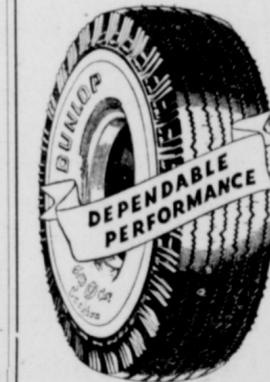

The DOLLAR DAY committee of merchants are going to special pains to make this a big, friendly get-together day, a "Howdy, Neighbor." That's the pass word. "Howdy, Neighbor." Greet everybody you meet Monday with "Howdy, Neighbor," the grand old Western way.

So, you who live outside of Memphis, come in Monday, April 4, and invite your neighbors to come with you. Bring your car full of your neighbors who couldn't come otherwise. They will thank you for it.

"HOWDY, NEIGHBOR!"

Lunch Program Shows Increase Of 13% for This Term

The number of Texas school children taking part in the community school lunch program has jumped 13 per cent above a year ago.

This announcement came today from M. F. Thurmond, school lunch director, State Department of Education.

Latest count shows 293,136 children are eating lunches daily in 2,314 schools. About 72 per cent are served type A lunch with milk.

Since last July, USDA's production and marketing administration in cooperation with 79 county school children are benefitting the state have distributed to these schools about 336 carlots of farm products, most of which were bought from farmer's under USDA's price support programs. Major foods are dried eggs, dried and canned fruits and Irish potatoes.

In addition, PMA also has purchased other foods which children need for a balanced meal. Included are cheese, dried milk, canned tomatoes, tomato paste and orange juice.

"The school lunch program continues to be an ever increasing outlet for a lot of farm products which are not being absorbed through regular trade channels," Thurmond emphasized.

He added that this is one of the reasons for the joint sponsorship of the national school lunch program by USDA and the State Department of Education. It is essentially a community project with the state government matching funds put up by the federal government and looking after foods received from USDA.

This partnership makes it possible to shift plentiful foods into areas where these foods are less plentiful. For instance, Texas school superintendents throughout from raisins, prunes and peaches grown in other parts of the country, he explained.

group, is a vital necessity in cutting cancer's death toll, he said. The Society also supports professional education programs to bring newest developments to the family physician, including films, bulletins, and post-graduate courses, since it is generally accepted that doctor's offices are the best cancer detection centers.

Service to cancer patients is another part of the work supported by this annual membership campaign. Local county units throughout the state are organizing bandage-rolling programs, furnishing transportation and comfort to the sick, and furnishing lectures and exhibits to create an awareness of the cancer problem and its solution.

April is designated by an Act of Congress as Cancer Control Month, and has been proclaimed by President Truman as the time for the American Cancer Society's annual campaign.

"And," says Mr. Spicer, "through the active cooperation of the people of Hall County and the entire state, many lives can and will be saved from this dreaded disease."

Miss Henry and C. W. Kinslow, Jr., Are United in Marriage in Little Rock, Ark.

LITTLE ROCK, ARK.—Miss Mary Frances Henry and Charles William Kinslow Jr., son of Mrs. Charles Kinslow and the late Mr. Kinslow of Memphis, Texas, were married at 4 p. m. Friday, March 18, in the home of her parents, Mr. and Mrs. Elbert Augustus Henry.

Simlax and white ribbon intertwined the stairway, and the place of ceremony was marked with white tulips, stock, gladiolus, greenery and lighted white tapers. Dr. Aubrey Walton, pastor of First Methodist Church, officiated. Nuptial music was provided by Thomas Scott and Martin Sauer.

Mr. Henry gave his daughter in marriage. The bride wore a white lace gown with off-shoulder neckline outlined with a lace ruffle and trimmed with pearls, and full skirt gathered to the fitted bodice. Her veil fell from a halo of pearlized orange blossoms, and she carried a shower bouquet of stephanotis and white orchids. Her only jewelry was a pearl sunburst pin given to the bride by her grandmother, the late Mrs. John Stark Cargile.

Miss Margaret Carter of Johnson City, Tenn., was maid of honor, and wore a lime green faille dress, with tight bodice, buttoned bodice and short puffed sleeves. She wore matching mitts and a coronet of spring flowers, and carried a matching bouquet.

Frank Phelan Jr., of Clarendon was best man. Ushers were Elbert Henry Jr., brother of the bride, and Thomas Knight of Dallas, Tex.

A reception at the Country Club of Little Rock followed the ceremony. The table was covered with white net cloth and gathered ruffle trimmed with green satin bows. The double ring cake centering the table was flanked with lighted tapers in antique candelabra. Calla lilies, stock and gladiolus were used throughout the rooms.

For travel Mrs. Kinslow wore a beige tailored suit, coffee colored straw hat and brown accessories. She pinned the orchid from her bridal bouquet to her shoulder. After a wedding trip along the Gulf Coast, the couple will be at home in Memphis, Tex.

Out-of-town guests were Mrs. W. C. Dickey and Mrs. Myrtis Phelan, Memphis, Tex.; Mrs. Ed Dishman and Mrs. Frank Phelan Jr., Clarendon, Tex.; Miss Meadie Montgomery, Yazoo City, Miss.; Mr. and Mrs. Newton P. Allen, Memphis, Tenn.; Mrs. Cargile Ligon, William Ligon, Mr. and Mrs. Robert Stark Ligon, Mr. and Mrs. Howard C. Ligon, Mr. and Mrs. Ben D. Gray, Arkadelphia; Dr. and Mrs. R. L. Henry Jr., Kansas City, Mo.; Mr. and Mrs. R. L. Henry, Mr. and Mrs. A. F. Henry, Jacksonville; Mrs. Thomas Knight, Dallas, Tex.; and Mr. and Mrs. Neil H. Cargile and Allen Cargile of Nashville, Tenn.; Mrs. C. W. Kinslow of Memphis.

Mr. and Mrs. E. F. Lemons had as their guests Sunday their children. Those present were Mr. and Mrs. Zeno Lemons and son of Hedley, Mr. and Mrs. M. H. Lemons and daughters of Clarendon and Mr. and Mrs. Herman Cross of Goodnight.

Bettye Gidden spent the week end in Estelline with her grandparents, Mr. and Mrs. L. C. Richburg.

Mrs. Earl Davis and son, Donnie, and Miss Mary Kate Campbell all of Amarillo visited Sunday with Mr. and Mrs. T. A. Everett and Mr. and Mrs. G. J. Foxhall.

Medium-size Potato Popular With Lady Of The Home, Report

Ask the average housewife what she looks for in potatoes, and here's what she'll likely tell you: a medium size potato that is clean, has a smooth skin, no spots, few eyes—and eyes that are not so deep. She also likes potatoes to be light colored and undamaged.

This is what the USDA found in a recent survey of housewives, says Myrtle Murray, extension home marketing specialist of Texas A. & M. College. Miss Murray says the housewives' ideal potato is one that will cook up soft, mealy and even throughout without falling apart.

Housewives buy the medium sized potato because it's the best size for judging portions, it's easy to peel and handle, and can be used for many purposes. The small ones take too much time and too much work to prepare. The large ones do have one advantage, and that's baking. But housewives will tell you that the large ones often have black spots in the center. Those are the reasons Mrs. Average Housewife picks out the medium sized potato.

Few people seem to know that potatoes have any food value other than starch. Fact is, says Miss Murray, a helping of potatoes has about as much iron as two slices of enriched bread, or about half as much as in one egg. And one med-

LOCAL CHAMBER OF COMMERCE BANQUET FRIDAY EVENING, APRIL 8

This a gentle reminder that the annual Chamber of Commerce Banquet will be held in the High School gymnasium, Friday evening, April 8th.

There will be special music by the high school orchestra and chorus under the leadership of Perry Keyser.

Quality comes first, but price has its place, says Miss Murray. As incomes go up, people are more interested in quality and size, and are not so much interested in the price.

Processed potatoes aren't very popular with housewives. Canned boiled potatoes, frozen French fries and potato flour come under this heading. At least half the women interviewed in this survey said they had never heard of these products.

There's one processed potato product that is popular, though. And that's the potato chip. Nine out of ten people interviewed buy them for parties, snacks and picnics, says Miss Murray.

Note to Farmers, shippers and distributors of potatoes: That's what the housewives want. Now it's up to you.

Rev. Leon M. Hill, pastor of San Jacinto Baptist church, Amarillo, will be the guest speaker.

Ace Gailey is chairman of the banquet committee.

This announcement is a reminder for all members and their guests to plan for this banquet, and watch next week's Democrat for details of the program.

Here's good news for campers. You can throw away those smoke-covered, bulky pots and pans. The open-fire cook has a new friend in the form of pure aluminum rolled into thin, flexible sheets. All you have to do is wrap the food in this foil and place it on the coals to cook.

Practically anything you have been cooking in open can be handled by this new method—meat, fowl, fish and vegetables such as potatoes, carrots, sweet potatoes, onions, turnips, and fruit such as apples and bananas.

There's nothing to it, merely slice or dice the larger vegetables, season, wrap in three thicknesses of foil, place on the hot embers for about 10 minutes. The foil cools rapidly and can be used as plates.

If you prefer to cook the vegetables or larger pieces of meat whole, allow about an hour cooking time. Even eggs can be wrapped in foil and cooked to suit your taste. Biscuits can be baked singly in the foil, or the foil can be shaped into a reflector oven by reinforcing it with green sticks.

Just think of these advantages that foil gives: No more dishes to wash; and besides being used as plates, it can be shaped into bowl and cups.

No more bulk or weight in your pack. The compact, lightweight roll of foil is about one foot long and two inches in diameter.

Food in your pack will stay in better condition packed in this airtight, waterproof manner, and leftovers can be saved from meal to meal. Food cooks faster this way and tastes better because the foil seals in moisture and natural flavors are not lost during cooking. Food will be cleaner—no more ashes in the stew or charred wood on the steak.

Catterton-Hutchins Vows Are Read In Pretty Home Ceremony March 19

In an impressive home ceremony Saturday evening, March 19, Margaret Josephine Catterton, daughter of Mr. and Mrs. P. B. Carlson of Amarillo became the bride of James Neil Hutchins of Lubbock, son of Mr. and Mrs. S. T. Hutchins of Estelline.

Dr. A. D. Foreman, Jr., pastor of the First Baptist Church, Estelline read the service in the home of the bride's aunt and uncle, Mr. and Mrs. John A. Williams in Amarillo.

Miss Jaynet Catterton, sister of the bride, sang "Through the Years" by Youmans and "Because" by D'Hardelot. The traditional wedding marches were played by Mrs. Julia Dean Evans.

Vows were exchanged before an altar, located in front of a picture window which was flanked by Woodwardia fern and flanked by arrangements of white stock and white roses. Floor candelabra bearing lighted cathedral tapers completed the setting.

Denzil Bevers of Lubbock was best man.

Given in marriage by her stepfather, Mr. Carlson, the bride was a picture in a Victorian gown of ivory slipper satin, fashioned with a high double pointed neckline on the Empire waist, long fitted sleeves and eight-gored skirt, trimmed with bias folds of the material and forming a bustle in the back, terminating in a graceful train. Her finger-tip veil of illusion was attached to a shirred illusion bonnet trimmed with a wreath of orange blossoms. Her only jewelry was an Eisenberg necklace, and she carried a bouquet of Easter lilies tied with white satin ribbon.

Mrs. Carlson, mother of the bride, wore an ice blue gown with matching accessories. Her corsage was fashioned of violets. Mrs. Hutchins, mother of the bridegroom, wore a dusty rose crepe dress with a white gardenia corsage.

Following the ceremony, the bridal party was feted at a reception. Laid with an Irish, shell pink, satin striped cloth, the bride's table was centered with silver candelabra bearing white candles decorated with hyacinths, gardenias and maidenhair fern. The tiered wedding cake was encircled with white rosebuds and the punch bowl was decorated with hyacinths and gardenias.

Assisting in the house party were Mrs. Warner Wilson, Misses Sydney Brooks, Mary Louise Zelman, Louise Irwin and Pat Nolan.

After a short wedding trip the couple is to be at home in Lubbock. For traveling, the bride chose a toast colored gabardine suit with matching accessories and a corsage of Talisman roses.

Mrs. Hutchins was graduated from Amarillo High School and attended Texas Technical College, Lubbock. She is now attending Draughon's Business College in Lubbock where she will graduate in June. Mr. Hutchins was born and reared in Estelline, and graduated from the Estelline High School. He was in the Navy Air Corps and stationed at Chapel Hill North Carolina for officers training. He will be graduated from Texas Tech in June with a major in agriculture and expects to enter government work.

Memphis Cyclone Cinder Artists Grab Second Spot

Although the Phillips Blackhawks carried away top honors in the annual track and field meet last Saturday, the Memphis Cyclone squad took second-place honors with a total of 24 1/2 points.

Other teams scoring in the meet were: Dalhart, 14; White Deer, 11; Lefors, 10; Panhandle, 10; Hereford, 8; Canyon, 5 1/2; Dumas, 2, and Shamrock 2. Memphis showing against all of these teams augurs well for the local cinder artists, coached by Charley York.

Bobby Crooks was the outstanding star of the local outfit, registering the good time of 10.2 seconds in the preliminaries of the 100-yard dash event but he lost to Etheridge of Phillips in the showdown sprint.

Memphis won the mile relay event because Crooks overtook Daniels of Phillips in the final lap of that event.

Bobby Young took second place in the 20-yard high hurdles, while Marion Posey got third place in the pole vault event.

Crooks took second place in the 100-yard dash, of course. Kenneth McQueen took fourth place with the discus. Crooks took third place in the 440.

Jimmy Adkins, whose father is foreman for The Democrat, grabbed second place in the 200-yard low hurdles. It was Bobby Crooks in third place in the broad jump for 18 feet, 5 1/2 inches. Then he was third in the 220-yard dash.

Charles Morrison was third in the mile run. The winning team in the mile relay included: Harvey Jarrell, Randolph Messer, Leroy Green and Bobby Crooks.

New Vitamin Gives Promise For Swine, & Poultry Raising

The newly discovered vitamin B-12 gives promise of being of great practical importance in swine and poultry production, Carl M. Lyman and J. M. Prescott, of the Texas A. & M. College department of biochemistry and nutrition, report. A recent study, reported to the Journal of Biological Chemistry, is looking forward to the establishment of a reliable method for determining the vitamin B-12 needs for swine and poultry.

Hog feeding tests the Texas Agricultural Experiment Station workers have under progress are showing marked increases in growth rates as the result of adding a commercial preparation of B-12 to their regular rations.

No satisfactory way has yet been established for analyzing this vitamin in feedstuffs and animal tissues, though a number of scientists over the nation are working on the problem. The full possibilities of B-12 cannot be developed until a prac-

Pasteurized Milk Keeps Out Danger Of Undulant Fever

As a safeguard against the serious and disabling disease known as undulant fever or Malta Fever, Dr. Geo. W. Cox, State Health Officer, advises Texans to drink milk only from approved sources. Undulant fever is usually acquired by human beings as a result of consuming milk or raw milk products from cows infected with Bang's disease.

Raw milk or milk products can be consumed with safety only when they are known to be produced by cows tested and found to be free of Bang's disease. Pasteurization, of course, will kill the germs if present.

To assist in lowering the incidence of undulant fever all dairymen should remove cattle infected with Bang's disease from their herds as soon as the disease is discovered. Even if the milk is made safe for human consumption by pasteurization, infected cows are still a menace to health since they can transmit the disease to healthy animals and to their owners and other persons who handle them.

"Undulant fever from cattle," Dr. Cox said, "is one health hazard we can eradicate in our State through absolutely safe milk supplies from dairy herds free from Bang's disease."

"Unless a herd is shown to be free from this infection, only pasteurized milk should be used so that the disease cannot be passed on to the consumer of milk and dairy products."

tical system of analysis of the new vitamin is perfected. Texas A. & M. research workers report progress in the determination of this vitamin through a microbiological method.

Ability To Adapt Oneself To Life Test Of Education

Texas Technological college has the youthfulness, heritage and position in an empire that leaves it free to select what is best to teach and how it will educate and build its own traditions and its own background.

That pronouncement was made at Texas Tech's first spring all-college convocation featuring Pres. D. M. Wiggins as guest speaker. In a friendly conversational manner Dr. Wiggins talked on the business of education and fun in life.

He said he does not believe it is the business of education to save the world or remake society, but "to give the best sort of training and experience that will develop wholesome attitudes and because of superior training affect society."

"Nothing about education is magical or unreal. Education is comparatively simple. It is to direct change. Learning is an eternal process of changing and education directs the changing," he said.

"An educated man," Dr. Wiggins said, "be he a college man or not, is one who is adjusted with all smoothness in the life he lives. The fun in life is not in security, but in the attack for security. The attack for victory in sports is the fun. Engineering won't bring you happiness through the mere security it affords if you don't like engineering. You have to like to study to enjoy the extra activities to have fun in college, and in a career after college."

"May you find joy in the attack that is yours," Dr. Wiggins concluded.

EVERYBODY IN THE COUNTY is coming in Friday night to see the Famous Redheads play the Memphis Cyclone basketball champs at the Memphis high school gym. Coach L. E. McColloch says this is one time he will do a little predicting, something unheard of in his case. "It will be a tough game but I believe the results will be a tie, as the Cyclone is really up against a tough aggregation this time," he said. Everybody will get lots of fun out of this game and it will be worth many times what it costs. The Redheads have been out to Hollywood and are on their way back to their home state of Missouri. To let the reader in on a little secret—the Redheads will put on many acts and will thrill the crowd with their superb ball playing. Even Leroy Green is mum about what to expect in this game. However, Sammy Rasco says the entire squad, so far, says they will get in there and play harder than they ever played before this winter. Remember, this is a game between two champion outfits.

Trailways Official Says New Buses To Be Used Thru Here

Some 22 local business men were guests at a steak luncheon at Pounds Cafe last Friday of L. G. Simon, traffic manager of the Continental Trailways bus company, celebrating a new milestone in growth of the system.

Mr. Simon, with several of his subordinates, were here exhibiting two of the new buses which had been brought all the way from the American Car Foundry factory at Philadelphia. They are known as "The Silverliners" and 30 of them have been purchased for use on the line between Dallas and Los Angeles and Denver.

"These new cars are the finest built in the United States and that means in the world," Mr. Simon told the group of business men at the luncheon. "These new buses cost us \$27,500 each at the factory and the licenses for operating each one from Dallas to Los Angeles cost \$1,200 in addition to \$1,600 for insurance on each one."

Two of the company's veteran drivers, Joe Ledbetter and Ray Haggard, both of whom have medals for driving over ten years without a chargeable accident, were with Mr. Simon. Two of the passenger agents, A. McDonald and J. W. Downing, also were

Formal Opening of Household Supply Set For Saturday

Household Supply Company, new appliance store and gas dealer, will hold its formal opening Saturday, April 2. This announcement was made Saturday by Bill Todd of Clarendon, one of the owners. The company's other owner is J. G. MacNear, also of Clarendon.

The building immediately east of the post office is occupied by the company, which was opened about two weeks ago. Delay of announcing the formal opening was caused by need to work out operational details, and the arrival of part of the merchandise which is carried in stock.

Todd and MacNear have been supplying users of butane and propane gas, who reside in Hall County for the past two and a half years, operating out of their store located in Clarendon. For the past year and a half a truck has been operating out of Memphis.

They are dealers for a line of gas refrigerators, as well as ranges, butane tanks, and several kinds of small appliances.

Hall County Board Members Named To Succeed Themselves

Only three names were filed before the deadline last Thursday in the race for places on the county board of education, reports Miss Mary Foreman, county superintendent.

They were those of present members, including Arthur Giddens of Plaska for county trustee at large, Clarence Moore for re-election in Precinct 1 and T. W. Luttrell for re-election in Precinct 2.

Only two names were filed for the Estelline school district ballot, Clinton Richburg and Trilton Davis, the latter a candidate for re-election.

75 Members, Guests Attend Banquet for B-PW Thursday

No man ever accomplished much unless there was a woman somewhere in his life, Rev. Leon Mr. Hill, pastor of the San Jacinto Baptist church of Amarillo, told the 75 members and guests of the Memphis Business & Professional Women's club at its annual banquet last Thursday night.

The speaker devoted much of his address to praise of women and their accomplishments in the business world as well as in the homes of America. Relating many jokes about them being "mysterious beings," Rev. Hill concluded that woman's restraining hand helps the men to put movements over for the good of all mankind.

Mr. Hill was introduced by Miss Roselyn Williams, program chairman for the occasion. His talk highlighted a delightful evening. Miss Mary Foreman, club president, was toastmistress and introduced all others on the program.

The guests, including many employers and their wives, were seated promptly at 7:30 with no time lost in waiting for the delicious meal that was served by "Ma" Reynolds and her staff. The menu included fruit juice cocktail, pineapple salad, baked ham, new potatoes, green beans, creamed asparagus, stuffed celery, hot rolls, pickles, olives, mints, angel food cake and coffee.

The invocation was by Mrs. Isabell Cypert, following which guests were introduced by each member. The welcome talk by Miss Una Leard brought a vivid response from O. L. Helm. Mrs. Gertrude Rasco provided special music on her marimba.

Favors were dainty hats for the men and powder puffs hats for the ladies, each individual's name neatly written on same. The theme of spring was carried out in the table decorations, with peach blossoms predominating. The tables were artistically arranged with guests seated at the left of the members.

His evening subject will be "Loyalty to Christ."

WELCOME

Church of Christ

7th and Brice Streets

Memphis Texas

Children of Israel were all in the wilderness, with their leader, lawgiver, priest, king and their people, when they crossed the sea. We have Christ for our leader, He is the law giver, Prophet, Priest King and our King. We must be baptized by the authority of Jesus Christ. The Jews started to the promised land; they had to obey the Jordan river, they had to hear and obey the voice of the Lord. To hear what they had to hear and do, read Heb. 10:21, 23, and if they violated that law, they died. He that despised Moses law died Heb. 10:28. We today are to hear and obey all things. No escape if we turn away from the Lord (2:25; Heb. 2:3). The Lord will take vengeance on them that obey not the gospel. 2 Thess. 1:6-8. We believe only, is not obeying the gospel, Christ of salvation unto all them that obey him. Obey Christ, would be to do what He commands. He that believeth and is baptized shall be saved. Repentance, Confession, and baptism. 1 Pet. 3:21.

Gray Carter,
Minister.

**Rutherford Makes
Strong Plea Here
For World Peace**

Approximately 135 members and guests of the Memphis Lions club attended the ladies night program last Friday evening in the Masonic Hall dining room.

W. R. Rutherford, district governor of Lions, delivered the principal address. He reported almost 4,000 Lions now in District 27-1, with 350 new members added during the past year. The organization has 360,000 members all over the globe, he added.

Rutherford made an impassioned plea for peace in the world, asking for ideals and action to keep our boys out of another world war.

Lions club president, O. R. (Doc) Saye turned the gavel over to program Chairman Ben Wilson Jr. He, in turn, turned the program over to Toastmaster Wendell Harrison. Harrison introduced all guests of the club and the

Members of the Friendly Sewing Club were guests Wednesday afternoon, March 23, in the home of Mrs. Lucy Phillips.

During the party, members honored one of their members, Mrs. Ben Moss, with a pink and blue shower.

A tasty refreshment plate consisting of angel food cake and home-made ice cream was served to one guest, Mrs. A. B. Rampey and the following members: Mesdames J. E. The menu included: Virginia ham, new potatoes, relish, English peas, Harvard beets, hot rolls, cherry pudding and coffee.

**Books Added To
Carnegy Library
Are Good Reading**

Recent books at the Memphis Carnegy Library offer an attractive choice of early summer reading, according to Librarian Mrs. W. V. Coursey.

Heading the list in popularity probably is the Book-of-the-Month Club selection, "Double Muscadine" a deeply moving dramatic novel of the Old South, long ago passed into history with "Gone With the Wind". It is written by Frances Gaither who visited many court trials and studied court procedure with some of the most prominent criminal lawyers to get the viewpoint of the young defender in the book.

"The Big Fisherman" by Lloyd C. Douglas is another in the large series of a dozen or more by this author with a biblical background. It is, of course, the story of Simon Peter, most beloved of the Master's apostles, who gave up his career as fisherman to become a worker in the savior's vineyard.

"Cry the Beloved Country" by Alan Paton is a moving story of South Africa.

"Salamander" by Victor Canning is a story of North Africa, full of adventure and thrills. "Dinner at Antoinette's" by Frances Parkinson Keys, is a colorful and glamorous story of New Orleans and the Mardi Gras.

"Inside Jalna" by Maza de la Roche, is a story of upper Canada and the great North Country.

"The Chain" by Paul I. Wellman, who is the author of "The Walls of Jericho, and has the same background.

"Remembrance Rock", by Carl Sandburg, the poet, is a moving story covering 350 years of history of the United States.

Two more fine selections are "Cheeper by the Dozen," by Frank B. Gailbreth and his sister, Ernestine Gailbreth Corey.

The other is "It Gives Me Great Pleasure" by Emily Kimbrough, and is highly recommended.

There are many other recent additions to the library not yet announced to the public, which are highly recommended for your reading pleasure. Watch this paper for late news of your public library.

Reception and Shower At Estelline Honors Recent Bride and Groom

By MRS. E. F. KENNEDY

A semi-formal reception honoring a recent bride and groom, Mr. and Mrs. Jim Hutchins, who are attending Texas Technological College in Lubbock, was held in the church parlors of the First Methodist Church of Estelline, on Saturday evening, March 26.

The reception room was most beautifully arranged, and decorated with cut flowers, fern and lighted tapers. In the receiving line were Mr. and Mrs. S. T. Hutchins, father and mother of the groom and the honorees. Mrs. James Hutchins was formerly Miss Josephine Catterton, daughter of Mr. and Mrs. P. B. Carlson, 1013 Bonham, Amarillo.

On display were two long tables of beautiful and useful gifts which were presented by guests. Mrs. Bill Holland presided at the bride's book.

The bride's table was most beautifully laid on an Irish linen handdrawn cloth. Centering the table on a large reflector was a crystal bowl filled with white and gold flowers; this was flanked by tall lighted tapers in crystal candleabra. Presiding at the silver tea service was Mrs. Leon Phillips, and at the silver coffee service was Mrs. C. E. Wilkinson. On large crystal plates were miniature cakes in the shape of wedding bells, decorated with tiny yellow flowers and green leaves; other containers held nuts and mints. Attending the table were Mesdames Dave Waldron, L. A. Tucker, Hulien Clifton and S. S. Cooper.

During the evening musical entertainment was provided by Mrs. C. L. Sloan, Mrs. W. M. Whaley and by young Duane Kennedy, who played by special request of the honoree. Also by special request Gerry Kennedy gave a humorous reading.

Mr. Hutchins thanked all of his friends for the evening's entertainment and for the gifts. The honorees with linen handkerchiefs. Members of the house party were dressed formally with matching corsages.

Those present were: Mr. and Mrs. H. G. Hartwell, Mrs. Ruth Richerson, Mr. and Mrs. John Chaudoin, Mrs. Cecil Adams, Mr. and Mrs. Arle Jones, Mrs. Joe Loyd Mothershed, Mrs. R. N. Mothershed, Mrs. Erie Trapp, Mr. and Mrs. V. C. Beverly, Mrs. Pauline Williams, Mrs. Albert Cooper, Mr. and Mrs. W. M. Whaley, Mr. and Mrs. Joe Eddins, Mr. and Mrs. J. A. Ballard, Mr. and Mrs. John Russell, Mrs. Lura Marcum, Mr. and Mrs. Bob Davidson, Mr. W. F. Holland, Mr. H. C. Clifton, Mrs. A. J. Books Added To
Carnegy Library
Are Good Reading

Recent books at the Memphis
Carnegy Library offer an attrac-
tive choice of early summer read-
ing, according to Librarian Mrs.
W. V. Coursey.

Heading the list in popularity
probably is the Book-of-the-Month
Club selection, "Double Musca-
dine" a deeply moving dramatic
novel of the Old South, long ago
passed into history with "Gone
With the Wind". It is written by
Frances Gaither who visited many
court trials and studied court pro-
cedure with some of the most
prominent criminal lawyers to get
the viewpoint of the young de-
fender in the book.

"The Big Fisherman" by Lloyd
C. Douglas is another in the large
series of a dozen or more by this
author with a biblical background.
It is, of course, the story of Simon
Peter, most beloved of the Mas-
ter's apostles, who gave up his
career as fisherman to become a
worker in the savior's vineyard.

"Cry the Beloved Country" by
Alan Paton is a moving story of
South Africa.

"Salamander" by Victor Can-
ning is a story of North Africa,
full of adventure and thrills.

"Dinner at Antoinette's" by Fran-
ces Parkinson Keys, is a colorful
and glamorous story of New Or-
leans and the Marti Gras.

"Inside Jalna" by Maza de la
Roche, is a story of upper Canada
and the great North Country.

"The Chain" by Paul I. Well-
man, who is the author of "The
Walls of Jericho, and has the same
background.

"Remembrance Rock", by Carl
Sandburg, the poet, is a moving
story covering 350 years of history
of the United States.

Two more fine selections are
"Cheeper by the Dozen," by Frank
B. Gailbreth and his sister, Er-
nestine Gailbreth Corey.

The other is "It Gives Me Great
Pleasure" by Emily Kimbrough,
and is highly recommended.

There are many other recent
additions to the library not yet
announced to the public, which
are highly recommended for your
reading pleasure. Watch this
paper for late news of your public
library.

Socialism By Default

In the March issue of Fortune, John Davenport writes on "Socialism by Default." His basic thesis is a simple one—yet one that is being tragically overlooked in these days of over-powering government. He says: "It is apparent that, internally at least, this country is in no danger of collectivization by the Communists. . . . Equally certain it is that the U. S. is in no danger of formally espousing Socialism in the sense that a sincere Socialist of the stripe of Norman Thomas uses the word. . . . But socialism and collectivism do not always have to enter a country by the front door, especially if the rear door is left ajar. . . . The essence of European socialism is not that the state owns the means of production but that. . . it seeks to guide the course of production and distribution by a complex process of controls over prices, materials, imports and exports, and takes on such enormous functions that the private citizen is either subject to perpetual inflation or crushed beneath a staggering load of taxes. This kind of socialism. . . is technically different from the old-fashioned brand. But it leads to the same result—a vast and dangerous increase in the power of the state over men's lives."

What Mr. Davenport is saying is that we can drift into socialism and collectivism without knowing it. If we do, it will be because we permit the government to become too big and too strong. We are going to have big government in such fields as the military, foreign relief, international relations and so on. But to believe that this must be accomplished by big government in every conceivable human activity is to surrender before the battle. The very size of Federal spending directly endangers economic and political liberty. If we must spend huge sums for arms and kindred purposes, that is all the more reason for paring to the limit that which we spend for unnecessary activities. To take an obvious example, what conceivable sense is there in taxing us all to put government into the business of producing a service, such as electricity, which can be produced without cost to the taxpayers by free enterprise working in a free society?

This is not just theory. It is hard, inescapable logic. No nation ever asked, eyes open, for oppression and tyranny and dictatorship—the hall-marks of collectivism. But a score of nations have fallen beneath them—by default. Mr. Davenport comes to the heart of it when he writes: "Political institutions are meaningless unless buttressed by economic institutions that also allow for freedom." Liberty is not guaranteed to any one. It must be earned and protected.

The NEW 54 COTTON PLANTING SEED NOW AVAILABLE

The NEW Paymaster "54" is now available for the 1949 planting season—ready for farmers who want more profit from Cotton. This quick-maturing, high-yielding, better-staple-producing planting seed answers the demand for a variety that is tested and proved for West Texas growers. It is the result of scientific selection and painstaking experiments to develop a seed that will produce more money per acre planted.

Here's why the NEW Paymaster "54" is a money-making Cotton . . .

- **EARLY MATURITY**
Of 25 varieties tested recently . . . "54" was first in percentage of crop harvested in a four-month period.
- **HIGH YIELD**
In this same test, "54" was third among all varieties in yield per acre.
- **BETTER STAPLE**
"54" ran 15/16" to 1 inch throughout West Texas, assuring a better price.
- **TESTED FOR DRY LAND**
"54" has been proved successful for dry land farming as well as for irrigated Plains areas.

Be among those profit-minded farmers who demand a money-making Cotton planting seed—the NEW "54"; order your supply of the improved, state-registered "54" NOW.

spring sun after a warm rain. How many thousand such agencies there are and how many more hundred there are in the making only the good Lord knows. The people and the Congress propose them, the president or some agency disposes. It must be a joy to whomsoever handles such matters to get up in the morning and order another 200 typewriters and desks and girls and repeat the operation every morning of the world, knowing all the time that that is what farmers and the miners and the grocers and the landlords and bankers want done while futile newspaper fellows sputter and splash around as though it presaged the end of civilization. The newspaperman, with a smattering of knowledge, having read the Rise and Fall of the

Roman Empire, Roberts Rules of Order or something of the kind, has the fool idea that taxes and government finally get so entwined in people's affairs that they had just as soon the Vandals or the Goths or the Communists take over as the overlords they have, not being enough between them to choose to justify getting out the old musket and oiling it up.—Floyd County Hesperian

ONE OF OUR "BIG MEN"—Americans are afraid of big men in high places. They are afraid of men who have become great, fearing that they became great by taking advantage of the "little folks." Lawrence Hagy is an example. When he was elected mayor of Amarillo two years ago, the people refused to give that

city ample financial support. They were afraid of Hagy. They were afraid of Hagy. Because he had made a great record with his own affairs, they feared he would be extravagant with the city's money. As a result of the people having turned down adequate financial support, Hagy refused to accept another term. The city was run on the money available, but a lot of improvements have not been made. During his administration, Hagy has done much traveling for the benefit of the city. But he paid his own expenses on every trip. He gets a salary of \$10 per week, but has turned all of his salary checks over to charity. Since he has refused to run again, and, since the people realize what a record he has made, bouquets are flying in the direction of the mayor. Before he made his decision, there were many brickbats. How foolish we become in governmental affairs at times is well illustrated in his case.—The Canyon News.

This Week in WASHINGTON

ANYTHING may, and likely will, happen in this session of congress. The only thing clear is that President Truman has lost control, if he ever had control; that a coalition of southern Democrats and northern Republicans are in the drivers seat and that what the President considered a mandate from the people as a result of the last election, is not so considered by the members of congress.

During the campaign the President declared that his program could have been enacted into law within 15 days by the Republican-controlled 80th congress, but the Democratic-controlled 81st congress has fiddled away about 60 days and has done nothing but form an unholy alliance with a Republican faction which has no program but opposition to the Truman program.

It is significant that the leader of the conservative faction of the Republican senate, Senator Robert Taft, refused to join in the Democratic-Republican coalition and voted to uphold the ruling of Vice-President Barkley which would have once and for all killed the threat of the filibuster.

And so while the filibusterers won out, they have made a farce of the congress and cost the taxpayers some \$500,000, according to conservative estimates. Of this sum, some \$50,000 was used up for the Congressional Record alone in printing the 700 pages of useless talkathon.

Even the usually astute majority floor leader, John McCormack of Massachusetts, and Speaker Sam Rayburn of Texas at least temporarily lost control of the house majority when they voted through a "home rule" rent control bill which was diametrically opposed to the administration two-year extension and tightening up of the present rent-control law.

One of the most important questions on the Washington scene has been a decision of the Economic Recovery administration to resell ECA or the Marshall Plan to the American people. The cause is simply the old American characteristic that when there is any money being spent, "I want to get up to the trough."

To the average individual listening to testimony in the senate hearings one wonders whether or not ECA is a European Recovery Program or an American Business Recovery Program. The representatives

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

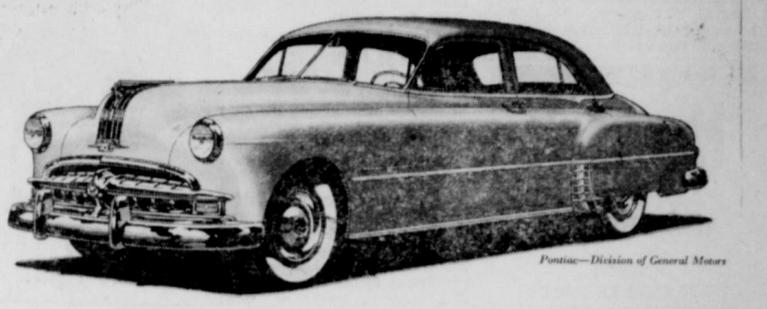

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. **Doan's Pills**. They have had more endorsement of public approval. Presbyterian Church To Give Lenten Music

The choir of the Presbyterian Church will present Daniel Prentiss' Lenten Cantata "The Seven Last Words of Christ" in a special service Easter evening.

None of the librettos of the Cantata is based on the words of Christ, according to Matthew, that he used on the Cross and the words of the authors are by Thomas H. Pollock.

The first word, "Father, forgive them," is a verse from the Gospels.

The second word, "I thirst," is a verse from the Gospels.

The third word, "My God, my God, why hast thou forsaken me?" is a verse from the Gospels.

The fourth word, "I am thirsty," is a verse from the Gospels.

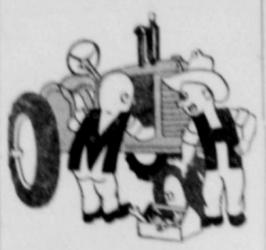

The fifth word, "It is finished," is a verse from the Gospels.

The sixth word, "Father, into thy hands I commend my spirit," is a verse from the Gospels.

The seventh word, "It is finished," is a verse from the Gospels.

Discounting the possibility of war and adverse weather conditions, the 1949 prices of most commodities from Texas farms and ranches are expected to average slightly lower than the prices of 1948.
