tion for 1950 is 998 as com pared with 930 persons in 1940.

Lakeview's population is now 284 as compared with 330 in 1940. Estelline dropped the most in the 1950 count, falling from 603 in 1940 to 462 this year.

The population figure for Memphis is particularly surprising to most persons. Unofficial counts in the past had placed the population here at from 4,500 to 5,-200. Most people seemed to believe it would be somewhere within these figures.

The census returns for Hall County seem to follow county trends in this area. Childress County is down 84, from 12,-065; Collingsworth County is down 1,209, from 10,331 to 9122, and Donley County is down 1,286, from 7,478 to 6,-

However, all these county seats showed some gain. Childress is up 1,123, from 6,464 to 7,587; Wellington is up 361, from 3,308 to 3,669, and Clarendon is up 141, from 2,431 to 2,572.

The fact that college students were enumerated in the city where they are attending school and not in their hometown accounts for part of this county's fall in population, particularly in Memphis.

Mrs. Herbert Sisk, county crew leader for the 1950 census, poin ted out earlier that unofficial census counts by local organizations had undoubtedly placed the colunty here too high. The usual method was to count water, light or gas meters and multiply this figure by an average of four persons per home. This average was too high as trends throughout the

NOISE CAN DRIVE YOU TO INSANITY

SCIENCE HASN'T DISCOVERED yet what kind of a noise bothers oysters.

But the experts know that noises irritate humans. The answer is: any noise at all, when there's enough of it.

Sometimes, of course, we are conscious of the noises that bother us, at other times we are not. But, says the scientist, whether we realize it or not, noise-most of it preventablejust isn't healthy.

Medical experiments show that noise where we work, where we to and from work, can cut down our mind, health and comfort. Noise, they say, brings loss of sleep, tired nerves and poor digestion.

The scientists have even devised ways of determining just how much noise, or how little, if you prefer, is damaging to our welfare. Measuring noise in degrees, called decibels, Dr. E. Lawrence Smith, neurologist, determined that noise at a level of 60 decibels or more had a decided effect in ruining digestions.

Decibels are easier to under stand by comparison than by definition. For example, an ordinary conversation averages 40 decibels Normal noise in a business office will combine to create a noise that measures 50 decibels. A noisy office often hits 70 decibels.

Contrary to popular belief, we never completely adjust our physical, mental or nervous mechanisms to noise. No matter how familiar a repeated sound becomes. it never passes unheard. Even when asleep, we "hear" sounds entering our bedrooms for they register on our minds and cause unnecessary mental activity.

Some sounds which experience has taught us require muscular reaction, automobile horns and the like, actually result in physical activity while we sleep. Impulses transmitted to and through the nerves by these sounds cause jumptossing, all adding up to uneven sleep and loss of real

Occupational deafness is becoming more and more common. As our cities become noiser, there's more deafness among road builders, bus and taxi drivers, printers and traffic policemen. Organizations of employers and insurance groups now are analyzing this hazard and beginning to develop control techniques.

Street and traffic noises are, for live and sleep, and while we travel therefore, the most annoying, as the ear cannot readily adjust to noise? efficiency, impair our peace of them. This gives rise to anger and other disturbing emotions. This is one of the reasons for the dire effects of noise on the delicately attuned nervous system. Not only does the continual pressure of strident sounds to which workers are exposed tend to produce impairment of hearing, but there also is a strain on the nervous system which leads to neurasthenia and other mental ills.

It has long been realized that noise in machinery means inefficiency. Automotive engineers particularly seem to understand this. The automobile manufacturers are quieting the modern automobile. Even newer auto horns are less raucous, more melodious.

Other heartening advances in the battle against useless noise come from the use of more sound absorbing materials in factories, offices, stores and homes. Telephone and radio engineers have developed techniques which can show others how to cope with unwanted sound. Noise probably never will be eliminated completely, for paradoxically, absolute quiet has an adverse effect on human nerves. However, man-made rackets, industrial and especially traffic roars can be subdued to a peint where they no longer constitute a health

Brain specialist Dr. Foster Kennedy has shown that noise has a

been outhit. The Oklahoma visit-

ors tapped little Jack Brinkley

for 11 safe bingles but could

definite and detrimental effect on the mind. In experiments at Bellevue Hospital in New York, he discovered that bursting a blown-up paper bag raised the pressure on the brain of a nearby patient higher than morphine and nitroglycerine, the two most powerful known drugs for increasing brain pressure. The paper bag explosions raised the brain pressure four times above normal for an interval of one second before returning to normal.

Is it any wonder that some peothe most part, non-rhythmical, and ple can be driven to despair, to insantiy or to death by incessant

> At a recent anti-noise conference in England, Dr. Dan Mc-Kensie, British Army Surgeon, revealed that during the late war some men were killed by noise itself. The shock of sound waves, resulting from high explosives, was actually able to produce death. Scientists are studying the possibility of using sound waves, both audible and inaudible, as killing weapons for future wars. If the Hbomb doesn't get you, noise

All experts agree that a sudden, oud noise causes about the same reaction in a person as does a great fright. If the reaction is severe enough, it may be followed by shock, a general feeling of depression and a loss of vitality. And shock, from a medical standpoint, often is more dangerous than various bodily injuries which produce shock.

Not only loud noises, but continuing noises, even little ones, can create a great nervous strain in most persons. The Chinese, many centuries ago, used a constant oise like the ticking of a clock to irive prisoners, in otherwise quiet cells, out of their minds. Police officers recognize the psychological effectiveness of continual question ng and shouting when interrogat ng criminals and trying to force nformation or confessions from

It was one of the few times

never hit him at the right time. Brinkley kept the hitting scattered, allowing as many as two in only the second, sixth and ANY BRAND eighth frames.

Walker went the distance on the hill for Altus, giving up four hits. Wilson was the power for Memphis, hitting safely three times in four trips to bat.

Walker was in difficulty all evening due to his own wildness He issued 13 walks and his mates bobbled eight times. This is the explanation of the Owl win.

A homerun in the second inning by Nipp sent the visitors ahead. Pruett, who reached base on an error, tied up the game in the fourth when three straight Owl batters were walked to send him home. Altus and Memphis each scored one run in the sixth to maintain the deadlock.

But the Owls cashed in on son timely hits and an abundance of walks and Altus errors in the seventh and eighth to run up a total of five runs and the clinching

Try your hand at Fan Tans - strips of yeast-raised dough piled one on top of the other, cut and placed in greased mussin pans. Let rise until doubled, then into a moderate oven about 20 minutes. Out they come - pretty little fans, tanned just so - and off to the table piping hot.

FAN TANS (Makes 18)

1/4 cup milk 1/4 cup sugar 21/4 teaspoons salt 41/2 tablespoons shortening 1/2 cup lukewarm water 1 package active dry yeast or 1

41/2 cups sifted all-purpose flour

Scald milk, add sugar, salt, and shortening. Stir until dissolved. Cool to fukewarm. Put lukewarm water into a large mixing bowl. Sprinkle or crumble in yeast. Let stand until dissolved, about 10 minutes. Add lukewarm milk mixture. Stir in 21/4 cups of the flour. Beat until smooth. Add remaining 21/4 cups flour and mix until dough forms an irregular ball and comes away from sides of bowl.

Turn out on lightly floured board and knead until dough is tightly stretched, does not stick to board. Place in greased bowl and brush Place in greased bowl and brush top lightly with melted shortening. Cover with a towel. Let rise in a warm place, free from draft, until doubled, about 1 hour and 25 minutes. Punch down with fist, pull sides into center and form into a ball. Divide into two parts. Roll out each part into an oblong about 17x10½ inches and ½ inch thick. Brush lightly with melted margarine or butter. Cut with a sharp knife into crosswise strips 1½ inches wide and pile 7 strips together. Cut crosswide into pieces 11/2 inches wide. Place cut-side up in greased muffin pans and cover with a towel. Let rise in a warm place, free from draft, until dou-bled, about I hour. Bake in a mod-erate oven, 400°, about 20 min.

Estelline Bride is Feted With Lovely Bridal Shower at Methodist Church

Mrs. Erma Dean Gardenhire Nunley, a recent bride, was honoree at a beautiful shower given Tuesday afternoon, May 30, at the Estelline Methodist Church. Blue and yellow, the bride's hosen colors, were featured in floral decorations and table ap-

Doris Chaudoin, Karen Eddin and Mrs. C. L. Sloan entertained with piano numbers as the guests were gathering. Tommye Jane Travis, Gaye Nell Jones, Sue Wallace, Doris Chaudoin and Karen Eddins sang "Dear Hearts and Gentle People."

Other numbers on the program ncluded two readings, "The Qualifications of a Good Housewife' by Louise Kinard and "A Prayer o a Bride," by Maria Rea. The lovely array of gifts were

presented to the bride by Donna Sue Eddins. More than 50 guests registered

in the Bride's Book. Hostesses for the occasion were Mmes. Lonnie Richburg, D. E. Travis, L. H. Price, John Chaudoin, Lon Morton, C. L. Sloan, H. C. Clifton, Arle Jones, F. E Leary, L. A. Tucker, Joe Eddins, D. T. Eddins and J. L. Darby.

sentinel, John McMickin.

SANDWICH TIME is almost any time at all. But they're never more popular than in spring and summer when you'll rely on them for auto trips, picnics, and outdoor teas. From dainty mouthfuls for the ladies to hefty triple-deckers for the he-men, there's an ideal sandwich for every occasion. Suit the bread to the fillings as shown in the picturenutbread for cream cheese, enriched white for chicken, wheat or rye for ham or beef. Make your mixed fillings in generous portions, but don't forget the Bakers of America reminder that "breads is two-thirds of the sandwich." So the right bread is just as important as the filling.

healthier living.

Member of TEXAS PRESS PANHANDLE PRESS WEST TEXAS PRESS ASSOCIATIONS

office at Meniphis, Texas, as second-class matter, under Act tof March 3, 1879.

Dairy Month June is being recognized as official "Dairy Month" in Texas with the idea of selling the seven million potential Texas consumers on using more dairy foods for better and

Here are some interesting facts on the dairying industry: Last year dairying produced more than \$200 millions in farm income for three out of every four Texas farms. 12,000 commercial Grade A dairies in Texas are dependent upon milk as their chief income and some 60,000 farm units de-

pended upon milk and milk products for their income in 1949. The Dairy Products Institute of Texas has estimated that the industry contributed \$400 millions annually to the commerce of the state with some 500,000 persons earning a livelihood from production, processing, distribution and sale of dairy products.

The Institute says that the average Texas housewife spends more than 15 percent of her food budget for dairy products and for this they get 30 percent of the food consumed in this state and her family is provided with three-fourths its calcium, one-half its ribo flavin and substantial quantities of every other nutrient vital to human development.

Dairying has been gaining momentum steadily in Hall County during the past few years. The Canadian Jersey program, now in its third year, has been outstandingly successful and a new shipment of cattle will be brought here this month.

Agriculture and Chamber of Commerce officials have been encouraging this program in order to increase and add versatility to the Hall County farmer's income.

Every citizen in this county who is interested in its development and growth should have a sincere interest in encouraging this dairying program as much as possible.

If it is to be entirely successful, it will need the cooperation and support of everyone in the county.

You can do your part by encouraging the use of dairy products in your family and among your friends. The results ed States might have made to and the whitest people." AT START-Shown above is the Liberty Bell replica replica which was on exhibit here June 7 as it started its journey from New York City. The bell was brought directly to Texas and is being exhibited in 220 cities and towns in connection with the 1950 savings bond drive. The Ford Motor Co. is furnishing transportation for the bell.

LIBERTY BELL REPLICA SHOWN

The Liberty Bell-at least an thrill to many local youngsters

The bell was greeted here by an American Legion color guard. James F. Smith, Hall County bond drive chairman, made a short talk. Eddie Foxhall, local Ford dealer, was in charge of the reception committee for the exhibit. The Ford Motor Co. is transporting this bell - as well as the others throughout the nation-on the statewide tour.

The exhibit, which was shown from 9 until 11 a.m., furnished a

slice of cold watermelon in secare grown in abundance than it is n the cities up this way. And in San Antonio the slice they served us for a quarter was twice as big as the slice we got at Pharr, in the Valley, for the same price.

And in cafes in the citrus-

Cotton is in all stages of growth unless we knock them out early We desire some new accounts in Too much rain has already hurt town all over this territory and the crop badly in many of the

W. E. Schrader, who railroaded we will go into the matter with until he was 67, now has, at age 70, one of the finest gardens and peach orchards in Tarrant county Plains Investment Co. we ever saw. He has pecan trees in his peach archard, too, He grows winter legumes in his orchard and cultivates in the spring Box 2314 and summer. He gets a genuine pleasure in -planting things and watching them grow and it shows up in his countenance.

the palatability and nutrition of exact replica of it-sounded in when they were allowed to ring regetables, so harvest them at Memphis last week when a two- the bell. It is an exact duplicate the right time. Some gardeners hour exhibit was held on the west of the original Liberty Bell at have them planted so there will side of the square in connection be fresh vegetables coming off with the savings bond drive now every week nearly all summer, underway throughout the nation.

8:30 p. m. Choir rehearsal.

The pastor begins his second year with the First Baptist Church to the original Liberty Bell at year with the First Baptist Church to make this anniversary relief In ONE HOUR or your 40c back territories to emphasize the bond Sunday a great day by being predrive theme, "Savings Bonds for Your Independence."

An interesting sidelight to the exhibit was the appearance of Jimmy Caldwell who is driving this truck on its Texas trip. Officialy titled "World's Champion Truck Driver," Caldwell has already donated 11 weeks of his time to this exhibit and will continue throughout the state. He is from Albuquerque, N. M., and is a brother-in-law of James Watkins of Memphis.

The Liberty Bell exhibit moved ious that it is harder to buy a tions of south Texas where they from Memphis to Borger. It was presented at Shamrock immediately prior to coming here.

THE MEMPHIS DEMOCRAT OFFICE SUPPLIES

You can haul more loads . . . more miles . . . for less . . . with Chevrolet Trucks

Take time out to talk to some Chevrolet truck users. You'll find it revealing. You'll discover that Chevrolet trucks pay their way by hauling more loads-more milesfor less! And you'll find that this extra measure of value is even more apparent in the new Chevrolet models. Definitely, they're America's first-choice trucks. Heavy-duty units feature a brand-new 105-h.p. Valve-in-Head engine with the power to pull heavy loads and conquer steep grades. They offer new Power-Jet carburetion for smoother, quicker operation. They bring you the fast, safe shifting of Chevrolet's

4-speed Synchro-Mesh transmission. But whatever your hauling requirements, Chevrolet trucks are your best bet. See them in our showroom. You'll agree.

To Women With Nagging Backache

cold sometimes slows down kidney func-tion. This may lead many folks to com-plain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or distance leads to cold, dampness or dietary indiscretions

If your discomforts are due to thes causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief— help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

For easy poultry-house disinfecting, use Dr. Salsbury's Germex. Odorless Germex packs plenty germ-killing power. Use regularly to sanitize drinking water and fountains. Disinfect brooder houses with Germex. Ask for Dr. Salsbury's Germex here.

Zephaniah Calls for Repentance Lesson: Zephaniah 1: 12-18; 3: 16-

Memory Selection: Zephaniah 2: 3 PEPHANIAH, who labored about L the time that Jeremiah did, and not long before Judah was carried into captivity, was greatly concerned abut the corruption of Judah and he strove to bring the people to repentance. But they were slow to hear and they failed to heed what the prophet declared. As a consequence, they were soon carried as exiles into Babylon.

So we find the prophet warning the people against their evil ways and urging them to return unto God. The Lord declares that he will search out Jerusalem, and in the great day of Jehovah the silver and gold of the people will not save them and the whole land will be devoured if they do not repent.

in the third chapter Zephaniah seemingly looks beyond the 70 years of captivity to a brighter day which shall come for Judah. in the days when the discipline of the exile has ended the people will come to better things. Jehovah will be in the midst the mighty One to save. We cannot do better than identify this blessed period with the coming and the reign of Christ in the world. It was a distinguishing feature of the dwelling of Christ on earth that God dwelt with men. According to prophecy one of the names of Jesus was Emanuel which means "God With

So may we labor the harder to spread abroad the teaching of the gospel and to bring a larger number of men to know Him whom to know is life eternal.

Major Bernice Lyons, veteran Texas Salvation Army worker, will be in Memphis and Hall County all this week. She is conducting the annual campaign in this coun ty to raise funds for the statewide program.

S THE CONGRESS moved for | suit on a final n A ward, finally sending the im-House, its various investigation groups continued to take the headlines. Sen. Estes Kefauver of Tennessee, chairman of a senate crime investigation committee. opened sessions in Miami. Frank Buchanan, Pennsylvania congressman, chairman of a house lobby investigating committee, announced subpoenas for officials of the committee for constitutional government, the national economic council and the constitutional educational league, and the Tydings committee continued its probe of alleged Communist infiltration in the state department, with that department denying there is a single communist or communist sympathizer in the whole department.

The committee for constitutional government, with its principal writer, Sam Pettingill, erstwhile Indiana congressman, and its guiding genius, Edward A. Rumely, has been one of the particularly bitter and is said to have spent near a million and a half dollars since the passage of the lobbying act. Up until this time, however, the organization has refused to name its contributors, as provided under the law. Rumely had a brush with Uncle Sam after World War I in connection with the tradingwith - the - enemy act, and he was perdoned by President Coolidge after serving part of a sentence.

Rumely also has been charged with contempt of congress on previous occasions. In 1944 he refused to testify before a special congressional committee investigating campaign expenditures and was cited for contempt. A jury failed to agree on a verdict, and on a retrial, he was acquitted in 1946.

President Harry S. Truman probably won his biggest congressional victory when his Point Four program was included in the ECA bill providing for aid to underdeveloped countries. Final house roll call on the measure was 248 to 88. to keep the govern with a majority of Republicans thetic rubber voting "no." The senate followed more years.

THE CATHARTIC HABIT

★ Too many people are influenced by stories concerning "intestinal cleanliness" or "stimulating the flow of bile." Many cases of simple constipation do not require a laxative at all, but only a minor change in diet and habit.

The habitual use of cathartics is dangerous. Such misuse is often followed by chronic ill

health. Strong laxatives are particularly dangerous when taken to relieve abdominal distress. The source of the pain should always be accurately determined by your physician. The safe procedure is to consult him. If a laxative is needed, he will prescribe a safe preparation with proper instructions for dosage. Then bring your prescription to us for expert compounding.

How SMOOTH can a ride be?

THAT'S a question well worth answering before vou settle on your next automobile.

For what fun is there-what thrill-in a car that is prisoner to the city streets, slowed down by roads a Buick is built to take in stride?

So we'd like to show you just

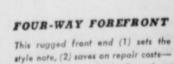

how much smoothness your money can buy. How levelly you float over cobbles and car tracks-over rutty gravel and wavy black-top-in this stunning traveler.

The car will be any Buick you prefer-Special, Super or ROADMASTER. You can name the place-pick a spot or a stretch you know so that you can measure Buick's smoothness against your own experience-and we'll promise you a new sensation in riding comfort.

The time can be any time you want to arrange with your Buick dealer-who is ready to show with actual figures that "if you can afford a new car you can afford a Buick."

See him, will you, and treat yourself to some real comfort?

Coppedge Homers As Owls Down Dukes 4-2 There Sund

OWLS COLLECT 11 HITS OFF DORMAN; HOLD DUKES TO FOUR

The Memphis Owls added classy infield play, four-hit hurling and a two-run homer by J. W. Coppedge Sunday to come up with a 4-2 win over the Wellington Dukes in league game played at Wellington.

Ed Mathes and Jack Brink- + iey handled the mound chores for the Owls. Mathes was credited with the win. He hurled seven innings, allowing four hits and the two runs, walking one and striking out one. Brinkley gave up no hits or runs, whiffed two and walked two during his two inning relief job.

Memphis pounded Wellington moundsman Bus Dorman for 11 hits and were allowed two walks. A Wellington rally in the ninth

died "a-makin'" to kill the Duke hopes of a win. "Owens reached for a forced-out on Owens when at Estes Park. was hotly contested by the Wellington club on the claim that Owens beat the throw but Umpire Butler Stewart stuck with his decision. A Wellington protest is undon't usually go over the heads of umpires on personal decisions.

Brinkley struck out the next Duke batter. Dennis, and Francis went out on a fly to left field to end the ball game.

The Dukes went ahead in the second inning, scoring two runs. They were aided by two Owl errors.

Memphis tied up the game in the fifth when Mathes singled to reach first and Coppedge's homer gave both runners a ticket home The Owls surged ahead in the sixth when Pruett singled and came home on Stonecifer's double Pruett scored again in the eighth He reached first on a single and was pushed around on hits by Stonecifer and Veltman.

> But perhaps "exhibition" is putting it little strongly. The Owls had quite a busy evening. All in one game they avenged the historical massacre at Little Big Horn, ran up their highest score of the season, fattened their batting averages off 17 hits and made the game such a one-sided affair that the noble First Citizens of America were persuaded to return to their reservation without playing the scheduled Saturday night

Big Don Williamson was the

loudest gun in the Owl plate power. The hard-hitting outfielder had a perfect night at bat, hitting four times in four official trips. He was walked once-quite understandibly. He opened his night in an awesome manner-from the Dumas standpoint-by homering his first time at bat with McKay aboard and accounting for the two Owl first inning runs. He doubled in the third to drive in a run, singled in the fourth and drove in two tallies with a sixth inning single. Dumas walked him in the eighth.

the fourth with two aboard to account for three of the Owl scores. The biggest Owl run spree was in the sixth, however. The little hurler, Jack Brinkley, opened the inning with a single and pushed around by Farmer's safe tap. Coppedge struck out and then McKay Williamson's single brought in two runs and Pruett's fly-out aided the cause. Edmondson's walk loaded the bases and then Stonecifer was passed to bring in another tally. Veltman went out pitcher to first to retire the sides.

The Owls scored their final tally in the eighth when Williamson walked to reach base and was aided by two other
