CITY COUNCIL PASSES TWO NEW ORDINANCES

Ordinances were passed by the City Council at their February meeting held in the City Hall last evening concerning Highway 287 through Memphis and the Police Department.

The City Council also took action on the proposed sewer fees which have been assessed property owners in the City. Persons owning property on which the sewer fee has not been paid by the end of February 20, next Tuesday, are to be notified that city plumbing crews will disconnect their sewer connection to the city sewer system.

Wees Named Partner in Firm

H. A. Finch

Announcement that Andy F. Wees is now a partner with H. A. Finch in the Allison business in Memphis was made this week.

Wees' new name will be Finch DeWees Implement Co. DeWees will devote full time to the firm.

Finch purchased the business last August from Frank Monahan who operated the agency more than 14 years at its present location.

Wees was raised near Fort Worth on a farm and attended Wesleyan College. He spent years in the Air Forces during World War II. He was formerly employed by International Paper Co. at Cleburn and has been in Lubbock and Amarillo.

Wees and his wife, the former Gladys Bownds, were married last week.

LAUDE'S COMMENTS

By J. C. W.

Another summer we had! Now another winter is upon us. The fall of snow. The wind, the cold, the snow to drift, the wind to melt, it is what we call "dunking".

When the snow melts, it puts some moisture, badly needed into the ground—much in places and little in others. Any amount of moisture is good.

Letter from R. S. Greene states that he and Mrs. Greene are enjoying the sunny climate of Florida. Clear Water. Due to war conditions, he says the winter here are not crowded this winter. A cold time like this, the ones are lucky to be in Florida instead of here.

By Thompson, it is reported, that doctor to give him a check the other day and was given a report. He asked the doctor if he could resume "dunking" doughnuts. The doctor didn't know what he meant by "dunking", but you had it on the diet list.

The doctor was at a loss. Rattie Dem, No. 100 Commercial, had added to the list the words, "No dunking doughnuts."

Commercially may be for the radio stations, but are certainly a pain in the neck when one wants to hear what is being done in Korea or in Japan.

Congressman Walter Rosten in this paper it is being written in an interesting and informative way, and attention is called to same.

Hall County Real Estate Values Increased

FFA To Observe National Week February 17-24

Weldon Mason, Meadow, State President of the Texas Association of Future Farmers of America, has announced February 17-24 as National Future Farmer Week in Texas.

The Future Farmers "believe in the Future and in the ability of our organized farm youth to improve the conditions of our Texas farms and raise the standard of living." This is a part of their creed, and means to them what your job, or earning your living, means to you.

The major purposes of the Future Farmers of America organization are to develop leadership, encourage cooperation, promote good citizenship, teach sound methods of farming and inspire patriotism among the members.

Through their intensive courses in Vocational Agriculture taught in the various high schools, and under the sponsorship of the Texas Education Agency, these members of the FFA perform valuable community services and provide important leadership in developing our agricultural economy and in building a better state.

Among other things, members learn through active participation how to conduct and take part in a public meeting, to speak in public; to buy and sell cooperatively; to solve their own problems; to finance themselves; and to assume civic responsibility. The FFA is 100% American in its ideals and outlook, and has no outside affiliations. There is no secrecy in connection with any of its activities.

Courses in vocational agriculture under the National Vocational Education Act were first established in the United States in 1917. From the very beginning the boys who were enrolled in these courses in the various states felt a spirit of comradeship due to their background of country life and their desires with a regard to farming as a vocation.

At present 1-10 of the National membership of FFA is made up of Texas. There are 32,000 Texas Future Farmers at present, and 798 Future Farmer Chapters in our State.

The show is open to the public.

Income Advisor To Be In Memphis

Deputy Collector of Internal Revenue William E. Palmer, of Dallas, will be in Memphis at the courthouse from 1 p. m. to 5 p. m. March 6, and from 8:30 a. m. to 5 p. m. March 7, to render assistance with income tax problems.

The deputy collector's advice and assistance is extended as a courtesy and without cost to the public.

WELDON MASON

Estelline FFA Chapter to Hold Livestock Show

The 28 members of the Estelline Future Farmers of America Chapter have planned a livestock project show Saturday to be held in Arthur Eddleman's barn in Estelline.

In addition to the champion prize in each division additional prizes will be awarded in all classifications. Judging is slated to be held at 1 p. m. according to N. C. Duke, chapter advisor.

Entered in the show are 22 dry-lot calves, four club calves, six breeding cows, four registered breeding hogs and two feeder hogs.

Object of the show is to increase the number and quality of the projects in the Estelline chapter. Prize money has been donated by business men throughout the communities of Estelline, Memphis and Childress.

The show is open to the public.

Men Go to Austin To Fight Road Bill

M. O. Goodpasture, county judge, and Roy Patton, commissioner of precinct 1, left Monday afternoon for Austin to attend a hearing on a proposed bill to be introduced in the state legislature.

The bill, which is being sponsored in the House of Representatives, proposed to take away from counties their part of the 1-cent gasoline tax. In the past, this tax has been set aside in a separate fund, and has been used to retire road bonds of Hall County and other counties of the state.

Judge Goodpasture and Commissioner Patton appeared before the House committee Tuesday afternoon and argued against the bill.

BURGLAR SUSPECTS ARRESTED

Suspicious actions at several service stations here Monday caused the arrest of two paroled convicts from San Quentin prison by Highway Patrolmen N. D. Calloway and Herman Moore.

Vance Collier Chenworth, 34, of Fort Worth, and Weldon McCree Keeling, 29, of Dallas and Berger, were arrested at Hedley service station.

After questioning by officers it was learned that both men had served terms in San Quentin penitentiary.

Three courtesy cards bearing the name of George W. Lacy Ft. Worth, were found in possession of the men. Officers learned on contact with Fort Worth police that the home of Dr. George W. Lacy had been burglarized last Friday or Saturday and a search was in progress for the culprits.

Rifle

A fine sporting rifle was found in the arrested men's car that was identified as part of the loot in the Fort Worth burglary.

The men were apprehended after their suspicious actions observed by O. R. (Doc) Saye were reported to highway patrolmen.

The men stopped at the Almo Service station Monday morning and purchased an automobile tire with the courtesy card of Dr. Lacy. They then stopped at the Rice Motor Co., and bought two more tires with the card. Doc Saye who happened to be at the Almo station saw them stop at the Rice Motor Co. and noticed they later stopped at the third service station and attempted to buy tires.

Questioned

Saye reported the incidents to Patrolmen Moore and Calloway who started after the men. The patrolmen radioed Clarendon patrolmen to be on the lookout for the car, a 1939 Chrysler and immediately left town up Highway 287 after the men.

Questioning revealed Keeling was sentenced to San Quentin in December of 1941 for second degree murder. He was paroled after serving seven years. Chenworth was sent to San Quentin in July, 1946 for burglary and was paroled last year.

Detectives Terry L. Wood and Tom Hoot of the Fort Worth Police Department arrived in Memphis Monday evening and returned the men to Fort Worth Tuesday.

MPCA Elects Elects Officers

S. M. Jolly of Paducah, was elected president of the Memphis Production Credit Association at the annual stockholders' meeting in Wellington last weekend.

Other officers elected for 1951 include J. C. Emmert of Wellington, vice-president, Don Wright, secretary-treasurer, and James Van Pelt and Willie Isham, assistant secretary-treasurers.

More than 500 members and guests from the eight county area attended the meeting. Director J. C. Emmert reported on 1950 association activities and Don Wright read the association financial statement.

Otis Wilson of Briscoe County and L. M. Bartlett of Childress County were elected for three year terms as directors.

Wellington Concert Slated for Tonight

Lillian Kallir, talented 17-year-old pianist, will be presented by the Wellington Concert Association tonight, Thursday, in a concert at the community building.

30 Percent Raise To Be Added in '51

Real estate values in Hall County are to be increased 30 per cent in valuation, the Commissioners Court announced this week.

County tax Assessor-Collector J. W. Coppedge has been directed by the Court to enforce these increases in the 1951 tax values.

First State Bank Remodels Building

"A complete new appearance will be given the First State Bank both from the outside and interior," President James F. Smith announced this week.

Extension of the safe deposit vault, enlargement of officers' quarters, modernizing of teller's windows and repainting will be done on the inside.

On the exterior, plate glass windows will be replaced by glass brick and the entrance will be enlarged to include a vestibule with entrances on Noel and Sixth streets.

New fixtures also will be installed inside the bank. Vice President Heydon Hensley said the remodeling job is under the direction of Frank and Winfree Construction Company of Denison, Tex.

Remodeling began last week and will be completed as soon as possible, Hensley continued.

Memphis Pioneer, Mrs. Grundy, Dies

Mrs. Joe A. Grundy, 82, a resident of Memphis for more than 59 years died last Saturday at a local hospital.

She is survived by a daughter, Mrs. Emma Kinard of Memphis, and a daughter-in-law, Mrs. Allen Grundy, Memphis and a sister, Mrs. Emma Miller, Salina, Texas.

Mrs. Grundy moved to Cook County, Texas with her parents Mr. and Mrs. W. H. Clark at the age of 15. She married Joe A. Grundy in 1891 at Era, Texas and moved to Hall County where they lived at Newlin until 1900 when they moved to Memphis.

In the passing of Mrs. Joe A. Grundy, friends declare that Memphis and Hall County lost one of the real pioneers of this section. (Continued on Page 12)

McNeely Quits Dentist Practice

Dr. M. McNeely, who has practiced dentistry in Memphis since 1908, has announced his retirement and Dr. C. C. Chandler will take over his practice.

Formal opening of Dr. Chandler's office at the same location 1102 W. Main, will be held Monday.

Dr. McNeely came to Memphis from Milford, Texas in 1908. He was a graduate of Vanderbilt Dental School at Nashville, Tenn. and practiced in Covington, Tenn. before moving to Texas.

A member of the Presbyterian Church, Masons, Lions Club, Chamber of Commerce and the dental association, Dr. McNeely (Continued on page 12)

Tournament Site To Be Selected

A meeting of representatives of the winners and runner-up-teams of district 1, 2, 3, and 4 will be held February 19 in Amarillo to determine the place where the regional basketball tournament will be held, W. C. Davis, high school superintendent announced.

"In addition to deciding on the location where the tourney will be played, officials will be selected and other details worked out," Davis said.

Most winners of the district will be determined either this week end or early next week.

Example

For example: On a piece of property valued at \$1000 last year, this year it will be valued at \$1300.

The county tax rate last year was 95 cents on the hundred dollars and will remain the same this year.

The state tax rate last year amounted to 72 cents on the hundred dollars, but this year with the decrease of 30 cents will only be 42 cents on the hundred dollars.

Thus the total tax rate of 42 cents plus 95 cents gives us \$1.37 per hundred dollars value and this based on the \$1000 piece of property last year which is now \$1300 in value gives a tax of \$17.51.

Whereas last year the tax rates of 72 cents and 95 cents gave \$1.67 tax on \$1000 equaled \$16.70 in taxes.

Increase

Thus the actual increase in dollars and cents to tax payers will be only a small amount.

Judge M. O. Goodpasture explained the increased valuation was brought about by increased prices which demand more money for the county tax budget.

He also pointed out that this is the first general state and county tax valuation increase since 1924, more than 27 years. No announcement has been (Continued on Page 12)

Noel Street Stores Start Remodeling

Remodeling inside and installation of a new front will give the Memphis Grocery and Memphis Tire and Supply Company stores new appearances on Noel street.

Three hundred and seventy-five additional square feet has been added to the Memphis Grocery, O. S. Goodpasture, owner, said.

Remodeling was started last week and will be completed as soon as possible, Mr. and Mrs. Morgan Baker own the buildings.

New fixtures and a new floor will be installed in the grocery store and interior will be painted. J. M. Ferrel, owner of the Tire and Supply Company, said no interior changes would be made at his store at this time.

M. F. Parks Dies In Memphis

Mikel Floyd Parks, 48, died Sunday at the home of his daughter Mrs. Carl Wood in Memphis.

Mr. Parks, is survived by his wife, his daughter, Mrs. Wood and two sons, Leon and M. B. Parks of Afton and Memphis, Texas, and three brothers, two sisters and two grandchildren.

Mr. Parks formerly lived in Cottle and Dickens Counties. The family moved to Memphis in 1949.

A Deacon of the First Baptist Church, Mr. Parks farmed near Memphis.

Funeral services were held at the First Baptist church here by the Rev. Roy Shahan. Burial was at the Garden of Memories in Paducah, Texas.

Piggly Wiggly Remodels Inside

The Piggly Wiggly grocery underwent remodeling last week as a new floor was installed and the store interior painted, H. E. Good, night owner announced.

"These changes were made in order to better serve our customers," Goodnight said.

West Texas C. C. Plans '51 Program

Agricultural and livestock activities of the West Texas Chamber of Commerce will be projected into every section of West Texas as a part of the organization's 1951 program of regional and community level services, Fred H. Husbands, executive vice president and general manager of the WTCC, announced.

George A. Logan, former manager of the agricultural department of the Waco Chamber of Commerce, assumed management of the WTCC's agriculture and livestock department on January 1. Logan will spend most of his time in the field on regional projects and activities, and cooperating with local chambers of commerce and farm and ranch groups in organizing and activating agricultural and livestock programs.

Roads

Development of more efficient marketing practices and procedures for agriculture and livestock, more and better farm roads and water and soil-conservation for improved and increased production will be important areas of projects of the department, Logan said.

Services of the WTCC will also be available to chambers of commerce and other farm groups throughout the territory in helping to organize and expand local agricultural and livestock programs, and in county and area fair planning. These services will include advisory assistance in the selection of committees, planning sound programs of work, financing, and methods of successfully executing the program for maximum benefit to all concerned.

A graduate of Texas A. and M. College, Logan has spent several years in extension and soil conservation services and on the faculty at Texas A. and M. as graduate assistant in agricultural economics.

Worn Out

A Waco, he received wide recognition for outstanding work in developing the state's first Save-A-Farm Day with the complete rebuilding of a worn-out 185-acre farm, the state's first economy beef program for farm boys and girls, an extensive milk production program, an early cotton stalk destruction project, and the development of plans for a \$1,250,000 agriculture and livestock exposition.

Other Central Texas projects supervised by Logan were corn

Farm-to-Market Road Backers Ask State Help

(Editors Note: The following is a story from Wallace Jenkins, a farmer living near Dallas who has been pushing the campaign for rural roads. Ideas expressed herein are only those of Mr. Jenkins and do not reflect the policy of this paper.)

Farmers and rural citizens are weak at the Texas legislature. That is shown by the hard fight for farm-to-market roads.

Two years ago there happened to be a surplus in the General fund so friends of farmers got an appropriation of \$15,000,000 a year for two years. But when the surplus dwindled, big city members tried to have the appropriation rescinded.

So far, only 1800 miles of rural roads have been built since 1949 with that fund. Within the past five years the Highway Department has paved only 12,330 miles of rural roads, with an annual income of some \$80,000,000 for cardinal repairs.

Fair Tax

In their annual convention last year, the County Judges and Commissioners, in a strong resolution demanded a fair tax on the billion dollar annual harvest of natural gas going from Texas to other states, to finance rural roads.

For many years the people of Texas have demanded such a tax on this great natural wealth for roads and schools, 100 percent of which would be paid by other states getting our gas to save their coal reserves, and for which Texas receives almost nothing.

The big Eastern corporations, profiting from Texas gas, seem to be more popular with Texas lawmakers than are the farmers and citizens of Texas. Does anybody know the reason why?

contest activities and a coordinated production program. This included cotton insect control, cotton labor supply, cotton growing contests and first bale auction.

The Waco Farm and Ranch Club was developed by Logan to meet the needs of landowners and "windshields" farmers and ranchers.

Logan is a charter member of the Texas Commercial Agricultural Council and was made an honorary Lone Star Farmer in 1948 for outstanding work with FFA programs in the Central Texas district.

Texas Schools Rank Lower In Penmanship

It looks as though Texas school children had better pay more attention to their penmanship, if they want to keep pace with the rest of the country. Or maybe it's just that Texas school teachers set higher standards.

A survey of 5,000 grade and high school principals indicates that while nationally 64.4 per cent of the responding educators think pupils' penmanship today is as good or better than it was a generation ago, in Texas the percentage is only 57.

And the sizable group who contend that today's writing is worse—35.5 per cent nationally—is correspondingly larger in the Lone Star state: 43 per cent.

Basic Arts

"The notion that basic arts like reading writing and spelling have been neglected in this mechanized age is to a large extent refuted by the results of this poll," said Craig Sheaffer, president of the pen company which made the survey, "but a great many insist that penmanship is declining, and for the most part they blame it on 'crowded classrooms' and 'outside distraction'."

One of the Texas school heads, Mrs. Elaine L. Morrel, principal of the Austin High school in El Paso, has a somewhat different slant. She thinks the decline is probably "due to the fact that we do not put as much emphasis now on how children write, as we do on what they write."

The Sheaffer survey also turned up the news that the built-in inkwell is gradually disappearing from the American school scene. This is especially true in Texas, where only four per cent of the schools use them, against a nationwide average of 36.4. Apparently, little boys will have to think up new ways to get the attention of little girls—no more dunking of pig-tails in the inkwells!

Contest Open To HS Students

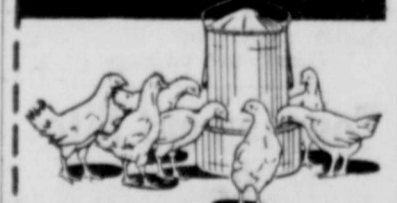

Texas high school students have a chance to win a \$100 prize or eight other prizes by writing an historical story about the town or region in which they live, or on any other topic in Texas history.

The Junior Historian, published details and contest may be obtained by the Texas State Historical Association at the University of Texas, is sponsoring a writing contest open to regular Junior Historian chapter members and to any Texas high school student who becomes a member-at-large by subscribing to the magazine.

MILK

Manufacture of dairy products in Texas slid 1 per cent in 1950 to 747,146,000 pounds milk equivalent as compared with 754,058,000 in 1949.

Texas Venture
In Education • 1876-1951
Our first state college—Texas A. and M. is now in its seventy-fifth year

One day in 1909, A. B. Conner held in the palm of his hand all of the Sudan grass seed that existed in the United States. In search of new forage crops, the United States Department of Agriculture had imported seed of this Johnson grass cousin from Africa. Mr. Conner, then superintendent of the Texas Agricultural Experiment Station's substation at Chillicothe, was entrusted with the precious package of seed with the job of trying it out and increasing it, if it proved valuable. From 3,000,000 to 5,000,000 pounds of Sudan grass seed a year are now produced in Texas and this importation is one of the most valuable forage crops in the nation. During a long and distinguished career with the research branch of the Texas A. and M. College System, Mr. Conner served as researcher and later as director of the statewide experiment setup, pioneering in the introduction of grain sorghums and other valuable crops which now play a major role in Texas agriculture.

COMMITTED

Hall County committed two persons to the Texas State Prison system in each of the years 1949 and 1950. Four persons were sent up in 1948. The most persons sent to prison in any year from the county was 19 in 1930.

These figures were revealed by Dr. Rupert Koeninger, director of classification at the prison and head of the sociology department college. His advanced students

aided in the survey which dates back to 1928.

DRILLING IS EXPENSIVE

The average cost of drilling an oil well in 1949 was from \$40,000 to \$50,000. Many wells involved an outlay exceeding \$100,000 and some cost more than a million dollars. Costs of drilling exploratory wells vary tremendously. Since four out of every five wells are dry holes, the cost of finding a producer in unexplored territory may exceed \$250,000.

Mrs. Nathan Hudgins

Miss Mary Jo Jackson Becomes Bride Of Nathan Hudgins in Dallas Rites

Several Memphians were among guests for the wedding service performed in Dallas today at the Gaston Avenue Baptist Church to unite Miss Mary Jo Jackson and El Nathan Hudgins, both of this city. The bride is the daughter of Mr. and Mrs. F. O. Jackson of Greenville. Her groom is the son of Mrs. E. N. Hudgins Sr., of Fort Worth and formerly of Memphis.

Dr. W. Marshall Craig, pastor, read the service before an improvised altar of fern and palms flanked by candelabra bearing lighted tapers. Music was provided by Bobby Cobb, organist, and Ann Klapp, vocalist.

Given in marriage by her father, the bride was lovely in a gown of ivory slipper satin fashioned with a portrait neckline outlined with a ruche of imported Swiss embroidery and three-quarter length sleeves. The couffant skirt, worn over hoops, swept into a cathedral-length train. Finger tip length veil of French illusion fell from a Godey bonnet of shirrel illusion.

Mrs. Richard N. Pierce of Detroit, Mich., sister of the bride was matron of honor. She was attired in a crisp taffeta frock in sunrise coral, designed with fichu collars which crossed in front to form a portrait neckline. The fitted bodice was cut in deep points from which the full gathered skirt over a crinoline petticoat.

She carried a fan-shaped bouquet fashioned of maline, orchid carnations and baby orchids and tied with long streamers of green ribbon.

Miss Joyce Jackson of Dallas, sister of the bride, was maid of honor and bridesmaids were Misses Chomel Ellis, Gloria Greenwell and Mrs. V. G. Ailes, of Dallas. They all wore dresses identical to that of the Matron-of-honor and carried identical bouquets.

Rickie Jackson, niece of the bride, was flower girl and Dandy Hudgins, nephew of the groom, served as ring bearer.

David H. Hudgins of Memphis attended his brother as best man. Groomsman were Bill T. Johnson, Elmo Penley of Dallas, Tommy E. Robinson, Charles Lon Wester, Jr., of Fort Worth. Us-

Culture Club Hears Program On Homemaking

"Homemaker versus Housekeeper" was the subject discussed Wednesday afternoon at a meeting of the Woman's Culture Club held in the home of Mrs. Homer Tribble.

Presented in three parts the program was introduced by Mrs. Clifford Farmer, chairman. "Homemakers Rather than Housekeepers" was discussed by Mrs. E. E. Clark and "What Does Your House Say About You?" was given by Mrs. Farmer. Mrs. H. A. Combs concluded the discussion with a talk on "What Does Homemaking Mean to You?"

An inspiring devotional, in keeping with the program theme, was presented by Mrs. Gene Chamberlain.

Mrs. Robert Moss, president conducted a short business session. During the tea hour, tasty refreshments carrying out the Valentine motif, were served to Mrs. Gene Chamberlain, R. E. Clark, H. A. Combs, Frank Ellis, Clifford Farmer, D. A. Grundy, Ward Conley, Jeanette Irons, C. B. Morris, Robert Moss, Lloyd Phillips; Misses Alma Bruce, Sylvia Gurley and hostess, Mrs. Homer Tribble.

Lovely Luncheon Honors Fort Worth Visitor Wednesday

Honoring Mrs. W. C. Anderson of Fort Worth, a group of Memphis friends entertained with a lovely luncheon at the Cyclone Drive Inn Wednesday. Mrs. Anderson, who was a house guest in the home of her sisters, Mrs. Roy Patton and Mrs. W. B. Gilreath, last week made her home in Memphis for many years prior to moving to Fort Worth five years ago.

Carrying out the Valentine motif, table decorations featured red carnations in heart-shaped baskets.

Friendship was the thought for the day and Mrs. Henderson Smith served as toastmistress. Mrs. Emma Baskerville gave a reading, "A Friend" and special music was rendered by Miss Sue Miller.

Special guests for the party included in addition to Mrs. Anderson Mrs. Roy Patton, Mrs. W. B. Gilreath, Mary Bownds of Amarillo and Vera Gilreath of Clarendon.

In charge of arrangements were Mrs. Henderson Smith, Mrs. Holt Bownds, Mrs. Walter Hightower and Mrs. Clifton Burnett.

Others present were Mmes. Emma Baskerville, Oattie Jones, Theodore Swift, Frank Ellis, Omer Hill, Isabell Cybert, J. W. Fitzjarrald, Leon Randolph, L. O. Dennis, Jack Boone, Sam Hamilton, Andy DeWees, R. E. Clark, Ida Hutcherson, A. G. Kesterson, H. H. Lindsey and Misses Mary Foreman, Avis Kilpatrick and Daphne Hillhouse.

Mother's Club Of Newlin Meets In LeCompte Home

The Newlin Mother's Club met Thursday afternoon, February 8, in the home of Mrs. Tracy LeCompte. Mrs. A. A. Jones was co-hostess.

The afternoon was devoted to quilting for the hostess.

After a short business session, refreshments were served to Mmes. Trilton Davis, Gene Jonett, Fred Hemphill, D. W. Lawrence, Wyman Davis, D. C. Messick, M. P. Moore, P. E. Gardener, Boyd Waddill, Bedford Moore, Estal Collins, members and two visitors, Mrs. Rhoda Nelson and Mrs. Henry Crow.

The club will meet the second Thursday afternoon in March in the home of Mrs. M. E. Ellis. Mrs. Ralph Scott will serve as co-hostess.

Juanita Albert Becomes Bride Of Ernest Shaw

Miss Johnnie Juanita Albert, daughter of Mr. and Mrs. Raymond Albert of Wellington, became the bride of Ernest Shaw, son of Mr. and Mrs. Hooper Shaw, on Sunday, February 4, in the parsonage of the First Baptist Church. Rev. Roy Shahan, pastor, read the single ring service at 12:30 p. m.

For her wedding, the bride chose a brown gabardine suit accented with a corsage of white gardenias.

Miss Bobbie Ann Shaw was maid of honor. She was attired in a blue suit complemented by a corsage of white carnations. Bobby Hutcherson served as best man.

Immediately following the ceremony, a reception was held in the home of Mr. and Mrs. H. N. Blackmon. Attending the reception were members of the two families and Mr. and Mrs. C. J. Messer and Juesetta.

Mrs. Durwood Schmalried, Recent Bride Is Honoree at Lovely Tea-Swower

A beautiful array of gifts was presented to Mrs. Durwood Schmalried, recent bride, during a tea-swower given in her honor Monday evening, February 5, in the home of Miss Joan Lockhart. Mrs. Schmalried is the former Lorene Lewis of Memphis.

Assisting Miss Lockhart with hostess duties were Mmes. Henry Foster, Omer Hill, Leon Randolph, Lloyd Phillips, John L. Burnett, J. O. Strother and Miss Anna M. Collins.

Guests called between the hours of 7 and 9 o'clock and were greeted by the hostess, the honoree, Mr. and Mrs. Schmalried, the bride's mother, Mrs. M. P. Lewis and Mrs. M. M. Lewis, grandmother of the bride.

Other decorations in the dining room included a lovely floral arrangement on the buffet. Soft music was played throughout the party hours.

The invitation list included 65 friends of the couple.

Mrs. C. F. Stout Entertains Members Of Salisbury Club

Mrs. C. F. Stout, assisted by Mrs. L. I. Davis, entertained the Salisbury Sewing Club last week at her country home southeast of Memphis.

Mrs. Ted Barnes, president, opened the meeting with prayer and presided during the business session. Members discussed the possibility of employing a Home Demonstration agent for Hall County and also drew names for Pollyanna friends.

Following the business session, the members enjoyed piecing quilt blocks.

Three visitors, Mrs. Bill Longshore of Lakeview, Mrs. Ruth Gardenhire of Newlin and Mrs. C. A. Williams of Henrietta, and 16 members were served a dainty refreshment course by the hostesses.

The next meeting is slated for March 6 in the home of Mrs. Ernest Lee with Mrs. Wayne Hutcherson as co-hostess.

1913 Study Club Meets Wednesday In Rogers Home

"But words are things, and a small drop of ink, falling like dew upon a thought, produces that which makes thousands, perhaps millions think—" was an appropriate quotation with which to introduce the day's program when members of the 1913 Study Club met Wednesday, February 14.

Mrs. T. J. Dunbar was leader for a forum on Analysis of Words. Other members participating in the interesting and informative discussion were Mmes. E. M. Wilson, T. M. Harrison, A. L. Galley, Gene Lindsey, Paul Montgomery, D. L. C. Kinard, Mac Tarver, H. A. Fineh, Charles Dryden and Boyd Rogers.

Mrs. E. M. Wilson, vice president, presided in the absence of the president, Mrs. R. S. Greene during a brief business session.

The hostess, Mrs. Boyd Rogers served delicious refreshments during the social hour to one guest, Mrs. Coy Beckham, the above mentioned members and Mmes. Byron Baldwin, L. G. DeBerry, Geo. Craft, Frank Foxhall Bray Cook, R. C. Walker, M. McNeely and Brown Smith.

Mrs. Jimmy Bownds Is Honoree At Pink And Blue Shower

Mrs. Charlie McBee, 317 south 10th, entertained with a pink and blue shower on Friday evening, February 2, honoring Mrs. Jimmy Bownds.

Serving as co-hostesses for the courtesy were Mmes. Clem Evans, E. H. Rasco, Robert Spicer, W. B. Hooser, Frank Goffinett, J. E. Ables, Barney Floyd, Carl Lee, W. H. Monzingo, Gordon Maddox, M. A. Beasley, Ted Young, Carleen Young, Paul Smith and W. Floyd.

Guests were entertained with appropriate readings by Margaret Ann Massey and Audrey Beth Burnett. Another feature of the program was a contest and Mrs. Marvin Long was awarded the prize winner.

Little Vivian Maddox gave a short reading and then presented the honoree with an array of tissue-wrapped packages. The honoree was assisted in opening and displaying the gifts by her mother, Mrs. Marvin Long and mother-in-law, Mrs. Hester Bownds.

Refreshments of hot chocolate, coffee and decorated cake squares in pink and blue were served from an attractively laid table in the dining room.

Those present were Mmes. O. L. Hammonds, R. E. Clark, Ira Foster, Clifton Burnett, Barney Burnett, E. S. West, Hester Bownds, Charlie Stewart, Butler Stewart, Frank Monzingo, Andy DeWees, O. G. Long, Marvin Long, Misses Betty Carolyn Long, Sharon Long, Audrey Beth Burnett, Margaret Ann Massey and honoree.

Friends who were unable to attend but sent gifts were Mmes. Arlis McBee, Jewel Childress, Gerald Knight, Lamar West, Carl Stout, L. J. Sanders, Jr., Homer Holton, Clem Marchbanks, Bluff Ford Burnett, J. B. Burnett, John Holcomb, Ida Hutcherson and Dorothy, H. B. Bennett, C. F. Srygley, Floyd McElreath, J. E. Roper, Shirley Ann McBee, Jimmie McElreath, O. S. Callahan, Nancy Jones, Gale West, Aubrey Martin and Anna Dickson.

Charles Stout, of the Amarillo News-Globe, spent the week-end here with his parents, Mr. and Mrs. C. F. Stout.

Atalantean Club Meets in Home of Mrs. W. C. Dickey

Mrs. W. C. Dickey was hostess to the Atalantean Club on Wednesday afternoon, February 7. Mrs. T. M. Isham, president, conducted the business session.

"Love gilds the scene and women guides the plot" was the quotation introducing the topic for the afternoon titled "Love's Way."

An interesting book review, "The Peabody Sisters of Salem" by Louise Hall Thary was given in a most charming manner by Mrs. Viola Johnson.

The reviewer was introduced by Mrs. Edwin Smith Jr. The song "Love and Grow" was sung by the club.

Dainty refreshments carrying out the Valentine motif were served from a beautifully appointed tea table. Mrs. D. A. Neeley presided at the silver service.

Members present were Mmes. J. W. Coppedge, Bill Cosby, H. B. Estes, Henry Foster, John Fowler, T. M. Isham, Claud Johnson, C. W. Kinslow, Ed Monzingo, J. H. Morris, J. H. Norman, J. A. Odum, Myrtis Phelan, S. B. Pallmeyer, Robert Sexauer, Edwin Smith, Robert Spicer, C. R. Webster, Earl Allen, D. A. Neeley, Bob Roberts, C. W. Broome, Viola Johnson, Miss Gertrude Rasco and one guest, Mrs. R. D. Williams of Bay City.

Saied Daughters Observe Birthdays With Joint Partys

Georgia Kay and Lou Carol Saied, daughters of Mr. and Mrs. Louis Saied, celebrated their birthdays with a party at the Country Club Saturday afternoon between the hours of 3 and 5 o'clock. Georgia Kay was observing her 8th anniversary while Lou Carol was 6 years of age.

A Valentine theme was noted in party decorations and the refreshment service.

Following a series of well-planned party games, the guests were served sandwiches, birthday cake, ice cream and punch.

The invitational list included Barbara Allen, Deeda Hickey, Barry Phillips, Linda Kay Saye, Tootie Sturdevant, Paula Blevins, Jo Beth Barnes, Elaine Clayton, Alice Kay Young, Bill J. Pounds, Pamela Lindsey, Robert Mack Moss, Skipper Hall, Micheal Vandeventer, Ernestine Young, James Wesley Smith, Doffa Sue Valance of Clarendon, and Ben Louis Saied of Childress.

Also present were Mrs. Gerald Hickey, Mrs. M. C. Allen, Mrs. Thomas Clayton, Mrs. T. O. Pounds, Mrs. Maybelle Smith, Mrs. Lloyd Vandeventer, Mrs. Charlene Hall and Mrs. George Saied of Childress.

J. O. Y. Circle Meets for Study

The J. O. Y. Circle of the First Christian Church met in the church parlor Tuesday, February 13, at 3 o'clock. Mary Tate and Mary Kesterson were hostesses.

"Christ Last Hours with His Disciples" was the program topic for the day with Doris Hickey as leader. All members participated in the Bible study and discussion.

Coffee, cake and nuts were served to Mmes. Bernice McCoy, Wanda Stephenson, Lena Mae McNally, Mary Kesterson, Doris Hickey, Faye Maddox, Mary Tate, Aline McKnight, Inez Aspgren and Elsie Smith.

The next meeting will be held on March 13 at 3 p. m. in the church parlor.

Saunders Home Scene of Dinner

Mr. and Mrs. E. H. Sanders entertained with a dinner Sunday at their home in Lakeview.

Enjoying this affair were Mr. and Mrs. Andrew Hamel and children, Linda Ann, Barry and Tony of Amarillo, Mr. and Mrs. R. B. Smith of Amarillo, Miss Odessa Saunders of Canyon, a student in WTSC, and Dalton, J. W. Thollie and Nancy Lindley of Lakeview.

Mr. and Mrs. E. A. Thomas of Amarillo were guest of Mr. and Mrs. Clifton Burnett last Wednesday evening.

Mrs. Hubert Sisk and daughter Susan and Mrs. Rube Sisk were Childress visitors Saturday morning.

Harmony Club to Present Program Tonight at First Methodist Church

The Harmony Club will present an open program tonight (Thursday) at 8 o'clock in the First Methodist Church. An invitation is extended the public to attend. No admission will be charged, but a silver offering will be taken and proceeds will be used for the Women's Club house fund. The program, which is an annual feature of the club, will consist of organ, piano and vocal numbers.

Mrs. Robert Sexauer, well-known and talented local vocalist will appear as guest artist. Accompanists will be Miss Laura Mai Hightower, piano, and Mrs. Mammie Lou Rouse, organ and anvil. Miss Mary Foreman is the director.

Included on the program will be the following selections: "Prayer Perfect" Riley-Stenson, Club Choir; Organ Solo "Prelude and Fugue in G Minor," Bach, Iris Smith; piano duo, "Blue Danube," Straus, Flossie Allen and Gladys Smith; organ-piano, "Finlandia," Sibelius, Mary Foreman and Elsie Smith; vocal solos, "Chanson Boheme" from Carmen, Bizet, "My Lover He Comes on the Skee," Boysen Clough-Leign, Mary Helen Sexauer; organ-piano, "The Harp of St. Cecilia," Wiegand, Mammie Lou Rouse and Gladys Smith; "The Village Blacksmith," Chas. F. Noyes, mixed chorus.

Members of the chorus include Ollie Lee, Nita Shelton, Katherine Milam, Verna DeBerry, Anna May Foster, Ona Rasco, Lucy Way, Lottie Kinard, Sarah Lillian, Harriet Williams, M. D. Davidson, R. D. Jones, Rev. J. O. Mer, Mildred Monzingo, Smith, Marjorette Keyser, Smith, Iris Smith, Flossie Ruby Compton, Buster Gayle Greene, S. A. Jackson, D. L. C. Kinard.

Mr. and Mrs. T. M. Harrison and Mrs. Wendell Harrison of the Tri-State Hardware and Implement Convention in Dallas Monday and Tuesday.

Mr. and Mrs. Byron Harrison and Mr. and Mrs. Sam Harrison visited Dr. and Mrs. James Harrison and sons in Quanah Saturday.

Mr. and Mrs. Doyle Sargent Turkey visited here with their parents, Mr. and Mrs. C. R. Sunday.

Pfc. Carl Wilson who is stationed in San Diego, Cal., spending a few days here with his parents, Mr. and Mrs. C. R. Sunday.

Mr. and Mrs. W. D. Lefors visited their parents, Mr. and Mrs. C. W. Craven.

Mr. and Mrs. Jake Robinson, Denny of Abilene visited the weekend with their parents, Mr. and Mrs. Bob Robinson.

Mr. and Mrs. Boyd E. Hereford spent the week-end with her father, J. T. Denton.

Mrs. Nora Painter of Abilene is here this week visiting her daughter and family, Mr. and Mrs. J. D. Gable.

Mr. and Mrs. Millard and son, Gene, of Wellington visited with friends here Sunday.

Mr. and Mrs. Gene Haggard and Mrs. J. E. Haggard with Mrs. Frankie Hughes remained for a visit.

Mr. and Mrs. Joe Crowder family of Brownfield visited Mr. and Mrs. Bob Scott and Mrs. Bill Crowder a week end.

Mrs. Berdie Sanders, her brother and family, Mrs. Gene Gibson in Abilene over the week end.

Jean Berry of Brownfield the week-end with Nan Berry.

Cpl. Glenn Crowder of Chapfle, Ark., visited his parents, Mr. and Mrs. Crowder Monday and Tuesday.

Mr. and Mrs. R. W. and family of Shamrock in the home of his brother-in-law, Mr. and Mrs. Bill Sunday.

Mrs. Frank Monzingo, Howard and Mrs. Clifton were Childress visitors last night.

Those attending were Emma Jean Vallance, William Ray Moore, Bob Alewine, James Allen Adeock, Gordon Newton, Dianne Ammidown, Eugene E. Newton, Brenda Vaughn, Ann Litton, Marie Davidson, Horace Henson, Dorothy Jo Copeland, Barbara Henson and the honoree, Mrs. Herman Vallance, Mrs. Bob Ammidown and Mrs. B. J. Eller.

Mrs. Allen Monzingo, Mrs. Claude Hickey and Mrs. George Childress were in Childress Friday night.

Mrs. Henry Newman visited with her son and family, Mr. and Mrs. Henry B. Newman over the week end.

Mr. and Mrs. Ralph Liner visited in Childress Sunday with their parents, Mr. and Mrs. C. C. Scott.

Mr. and Mrs. Claude Hickey spent Sunday with their parents, Mr. and Mrs. W. C. Eddleman in Quitaque.

Miss Patti Sloan and Rayworth Pa United in Marriage in Vernon Rite

Mr. and Mrs. C. L. Sloan of Esteline announce the marriage of their daughter, Patti, to Rayworth E. Pardue, son of Mr. and Mrs. R. B. Pardue of Childress. Mr. and Mrs. Pardue were married on December 26 in Vernon at the home of the groom's brother, R. B. Pardue, Jr., by Dr. Paul E. Whiteside, pastor of the Episcopal Church in Vernon.

Both Mr. and Mrs. P. graduates of North Texas College in Denton. Mrs. is now commercial teacher in the high school. She is bookkeeper for Coyne Company in Childress. Mr. and Mrs. Pardue establish residence at Esteline.

VET PROBLEMS AND ANSWERS

Q. My husband, a World War I veteran, is drawing a VA pension for nonservice-connected total disability. He has a yearly income of \$2,000, while I have a personal income of around \$600. When he reports his annual income to VA, does he include my \$600 along with his, or does he just mention his own money?
A. He reports only his own income to VA. Your income has no bearing on his rights.
Q. A friend of mine served in World War II and received an honorable discharge. After the war, he reenlisted and was later discharged dishonorably. Will he be entitled to GI Bill benefits?
A. Yes, on the basis of the military service for which he obtained an honorable discharge.
Q. I have just been discharged from service, and I want to keep

my National Service Life Insurance in good shape. I would like some tips on the best way to handle premium payments.
A. The safest way to pay your premiums is by money order or check. Don not send cash through the mail. Also, be sure to use the printed return envelope VA sends you regularly; then you'll know your premium won't be misdirected. Most important of all pay your premiums on time.
Unless good shelters are provided, hogs are in great danger of contracting flu when cold nights follow warm days. Hogs, like human beings, need a warm dry place in which to sleep.
If your car needs any kind of body work, bring it to Kermit Monzingo, your Chrysler-Plymouth dealer. —Adv.

Legal Notice

THE STATE OF TEXAS
To William Ernest Paul, if living, and if dead, the unknown heirs of William Ernest Paul, deceased defendant, Greeting:
You are hereby commanded to appear before the Honorable District Court of Hall County at the Court House thereof, in Memphis, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 26th day of March A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 26th day of January A. D. 1951, in this cause, numbered 3369 on the docket of said court and styled MAE PAUL, Plaintiff, vs. HORACE PAUL, ET AL, defendants.

for the title and possession of all of the following described premises and land, situated in Hall County, Texas; Being a part of Section No. 23, Block A, AB, & M Survey, described by metes and bounds as follows: Beginning at a stake 475 yards North from an iron pipe, the SW corner of Section 23 above mentioned;

Attest:
Isabell Cybert Clerk, District Court, Hall County, Texas.

How would you like to RE-BUY everything in your house?
- if everything burned TONIGHT?
The furnishings in your home are probably worth 5 or 10 times what you think they are.
You've accumulated them one at a time—a chair, a book, a picture, a suit of clothes, a set of dishes—so you underestimate their total value.
Your insurance on these things is probably only a fraction of what it should be. For example, just list the things in one room, and see! Or ask us for a form on which to make a complete inventory of your household possessions. And we'll tell you how inexpensive complete America Fore protection against fire loss really is.

America Fore INSURANCE GROUP

What's its Power? FIREBALL!
(Only Buick can make this statement)

BEND an ear to the deep baritone song of this marvel motor, and you'll know we aren't fooling when we call it Fireball.
Mister, that's Power, with a capital P!
What happens beneath that brawny Buick bonnet happens in no other car in the world.
Years ahead of the rush to high-compression valve-in-head engines, Buick was in there pitching for more power from every drop of fuel.
The result was—and is—a spectacular engineering phenomenon that makes itself felt the instant you touch toe to gas treadle.
You command a rapid-fire sequence of tiny tornados, letting loose their pent-up power every five inches that a Buick travels.

If you could look inside that Fireball engine, you'd see the reason. Instead of the flat-topped pistons used in other cars, Buick uses a turbo-top piston, contoured like this:
So the intruding fuel whirlwinds into a compressed ball that adds a super-urge to the down-stroke of the piston.
And you get the thrill—and thrift—of this Buick "first" in every mile you drive.
More than that, you get an engine tried-and-true—an engine that's been polished and perfected in every detail up through the years.
Again and again, compression ratios have been stepped up to keep pace with advances in fuels. Self-setting

valve lifters contribute to silence. Micropoise balance and Hi-Poised engine mountings add two more Buick exclusives.
And the silken might of this Fireball's power has been made more beautifully obedient by still another "first"—Dynaflo Drive.*
So we list as a prime reason why "smart buy's Buick" this Fireball power plant—and a host of happy owners will say "Amen."
Better see your dealer soon, to find out what you've been missing.

Statehouse Tips From Williamson About Legislature

There are two bills in the House of Representatives dealing with the rural road problem. The solutions they suggest are at variance with each other.

The main question involved is whether the counties or the State Highway Department will control the surplus in the road bond assumption fund. This fund is derived from one cent of the state gasoline tax. The revenue is more than sufficient to retire bonds issued by the counties to build roads that were subsequently taken over by the highway department.

At present, half of the surplus goes to the counties, half to the highway department.

One of the bills now being considered was introduced by Max Triplett of Hillsboro. Authors of the other are Callan Graham of Junction, Dolph Briscoe, Jr. of Uvalde, and Clyde Whiteside of Seymour.

First Bill

The Triplett bill authorized the counties to obligate half of their income from the surplus to secure bonds for farm-to-market roads to be constructed or improved under the highway department's supervision. The other would go directly into farm-to-market road construction under the highway department's supervision.

The Graham-Briscoe-Whiteside bill repeals the appropriation act, passed by the last legislature, which provided \$15 million per year out of the state's general fund for rural road building.

Then the bill gives the surplus in the road bond assumption fund (after a \$1 million surplus to be held in the state treasury) to the highway department for farm-to-market road building.

The roads to be built would be selected by the highway department "after consultation with the county commissioners courts—relative to the most needed rural roads . . ."

Transportation

First of the many anticipated transportation bills to make progress was one by Jim Lindsey of Texarkana. This one was considerably amended before getting past second reading.

Originally, the bill provided that all trucks found to be overloaded would have to unload down to 48,000 pound maximum at the point where they were weighed. Any officer of the law, including constables, could make the trucks reduce weight.

Amendments eliminated livestock trucks from having to unload on the spot, removed constables from the list of officers authorized to stop and weigh trucks, and provided that scales used by weighing officers must be supplied or approved by the Texas Department of Public Safety.

Representative Joe Kilgore of McAllen offered an amendment permitting trucks laden with perishables goods to proceed to the nearest terminal with facilities for storing the goods being hauled. This amendment was defeated, 78 to 52, leaving livestock the only exception to the on-the-spot unloading rule. Any other kind

INNOVATION . . . Los Angeles mailmen may have started a way to tote the mail that will catch on—pushcarts.

Reserve Feed Supply Needed For Full Program

The unfavorable weather conditions existing over most of Texas this winter can hardly be considered beneficial to the livestock man. However, the situation may be a blessing in disguise—if it makes the farmer and livestock producer realize the necessity for having a reserve supply of feed.

A. W. Crain, associate pasture specialist for the Texas A. & M. College Extension Service, points out that farmers can learn a valuable lesson from the present situation. He advises them to plant a "complete" forage program.

Regardless of how good a permanent pasture is, for adequate forage to be provided at all times it must be supplemented—with stored roughage and supplemental pastures.

By properly planning his supplemental pastures, a farmer can usually provide ample forage during the seasons when grazing from permanent pastures is inadequate. Crain observes, however, that this past winter is an example of the "unusual season" for which the livestock man must always be prepared. Neither permanent nor supplemental pastures will furnish grazing under very adverse weather conditions.

Crain suggests that the farmer provide at least one ton of hay

of excess cargo would have to be put on the side of the road.

Veterans

The veterans' land program, discussed in this column last week, was heartily approved by the House, 149 to 1, and went to the Senate.

This measure would call for a constitutional amendment to provide an additional \$75 million to finance purchase of land for veterans.

Cyclones To Meet McLean Tonight

Memphis' Cyclones will meet McLean Thursday evening at 6 p. m. in the first game of the district tournament to be held February 15, 16 and 17 in McLean. Memphis' Clarendon, Wellington, Shamrock, Lefors and McLean will vie for district honors. This is the last year these teams will battle for the district crown as districts will be changed for the season next year.

If the Cyclones win over McLean they will meet the Wellington Cagers Friday morning at 9 o'clock.

The Cyclones play their first game against the McLean girls at 5 p. m. Thursday.

The tournament is a double elimination affair.

Dairy Cows Need Plenty of Water

It takes a lot of water to produce a lot of milk, and dairy cattle do not always drink enough water during the winter months. Quite often, this is because an adequate supply of good water is not available.

Good water is clean and cool, but not colder than 50 degrees F. says R. E. Burleson, associate extension dairy husbandman of Texas A. & M. College.

There should also be an adequate supply of water and the cows should not be forced to walk long distances for their drink.

They prefer to stay in the barn or under a shed on cold days, and the water supply should be nearby.

Converter

The dairy cow is primarily a converter of roughages, reminds Burleson, and since roughages are usually dry feeds and comparatively high in crude fiber, the dairy cow needs a large amount of water for the digestion and absorption of feed nutrients and for the removal of waste from her body.

Burleson reminds also that milk is approximately 87 percent water. The lack of water will cause a more rapid drop in milk production than will the lack of most feeds.

The average dairy cow will consume from 100 to 120 pounds of water daily, Burleson says that a cow producing 60 pounds of milk daily may drink as much as

and three tons of silage for each cow on the farm. Without silage, at least two tons of hay are needed. He says that forage retains more of its nutritive value when stored as silage than when stored as hay.

Fire Burns McCoy Home

Fire destroyed part of the L. O. McCoy home, 915 Robinson, last Sunday.

Igniting from a small grass fire, the living room and its contents were destroyed and part of the bedroom furniture was burned.

A man passing through town, noticed the fire and warned the family and turned in the alarm.

McCoy reported the house was partially covered by insurance. Estimates of the damages were between \$1500 and \$1800.

Mrs. McCoy also reported the loss of \$100 she had been saving which was destroyed in the fire.

Mr. and Mrs. Bob Reed and daughter, spent the week end in Andrews with her parents, Mr. and Mrs. James Welch.

Future Readers of The Democrat

Mr. and Mrs. Clayton Fields are the parents of a daughter, Patsy Louise, born Feb. 2, weighed 6 pounds, 4 ounces.

Born to Mr. and Mrs. Dick Fowler a son, John Rogers, Feb. 5 and weighed 8 pounds.

Mr. and Mrs. C. J. Pence of Lakeview announce the birth of a son, Stephen Paul, Feb. 4. He weighed 7 pounds.

Report Gives Cotton Picture

A complete picture of Texas cotton plantings for the 1950-51 season is given in a report published at the University of Texas.

A Cotton Research Committee of Texas project, the report shows where and how much of 22 varieties were planted in the state's nine U. S. Department of Agriculture crop reporting districts. The data help locate cotton with specific fiber properties and that means a better market.

Hawaii Teachers Needed for '51-'52

Hawaii needs kindergarten and elementary teachers for the 1951-52 school year, Dr. Hob Gray, University of Texas Teacher Placement Service director, reports.

For further information, interested teachers may contact Dr. Gray at Box 2138, University Station, Austin, Texas.

The Statue of Liberty faces away from shore because she is supposed to be enlightening the world.

It would take 53 years for an airplane, traveling 200 miles per hour, to go from the earth to the sun.

180 pounds of water. On the average, dairy cows need from two to three pounds of water per pound of milk produced.

Dry Weather Puts Pasture Grasses In Critical Shape

The cured forage remaining on pastures in Texas at the present time is higher in quality than during any year in the last 10 to 20.

This higher quality is the result of slow growth made by the grasses during the dry weather last summer and fall, says A. W. Crain, associate pasture specialist for the Texas A. & M. Extension Service.

Because of the drought, however, the plants were unable to store a reserve food supply in the crown and root systems. Since new spring growth is made from stored food, the plants are in a somewhat critical condition.

Warning

Crain warns that, due to this situation, proper management is extremely important when the grasses put up new growth in the spring. He advises allowing little or no grazing until after the plants have made good growth.

Crain recommends making the best possible use of oats and other supplemental grazing crops

this spring. This will allow perennial pasture plants to get off to a good start and produce many of these plants.

When they receive rainfall, the supplemental plants will grow rapidly and carry a large number of the cows. Better utilization of the mental forage and better permanent pastures will result in perennial grasses are not for the first month or two of the growth begins.

Mr. and Mrs. Bobby J. Murry visited in Amarillo the week end with friends.

Mr. and Mrs. M. B. spent last week end in Okla., visiting his parents and Mrs. Jackson.

April Draft Call of 4,150 Given for Texas Youths

Call for induction of 4,150 Texas youths in April was re-announced today by Brig. Gen. Paul Wakefield, state director of Selective Service.

Wakefield compares with a call for 4,142 in January. The state director said this brought total number called since start of Korean conflict to 27,062.

At the same time General Wakefield announced pre-induction physical examinations for 1951 men have been scheduled for March. A total of 73,584 examinations have been ordered for pre-induction physical examination August, 1950.

of Texas men called for pre-induction physical examination since examinations were resumed in the summer of 1950; August, 10,050; September, 10,050; October, 10,398; November, 688; December, 4,741; January, 14,847; February, 13,963; March, 8,857.

Induction and pre-induction examinations are held at Abilene, Amarillo, Corpus Christi, Dallas, El Paso, San Antonio, Shreveport, Texarkana and Houston.

Grandson of Rowell Dies in Accident

Tom Lynn Rowell, grandson of W. H. "Pistol Bill" Rowell of Newlin, was fatally injured February 2, when he fell from a power line pole near McCamey.

Rowell, 23, was employed as a lineman for the West Texas Utilities Co.

Funeral services were held Sunday, February 4, at the McCamey First Baptist Church. Burial was at McCamey cemetery.

FASHION ITEM . . . This formal design is a white cotton-satin sheath skirt, touched with gold embroidery and topped with strapless camisole. Skirt is lined with red cotton-satin and cuffed with bunny fur.

LIBRARY NEWS

Miss Ira Hammond, Librarian, reports that there has been new shelves put in the library. These shelves will be for magazines of different types and will be helpful in keeping the magazines and papers in order. New books are being added this week, but the names and authors are not yet available.

Model Air Show To Be Held Sunday

A model plane air show will be held Sunday, weather permitting, starting at 1 p. m. at Estes Park in order to help stimulate interest to form a local model flying club.

Several local planes will be flown by members including Donald and Arnold Fisher of Childress. There will be stunt, combat, crackups and sport flying.

Flying and non-flying members are invited to attend. The first meeting of the Memphis Club will be held at 7:30 Tuesday night at the City Hall.

Leroy Jones was sentenced two two year terms to be served concurrently on embezzlement charges. He was taken to Huntsville by Deputy Bill Baten last week end.

Rheumatic Fever Tips Given By State Health Man

Rheumatic fever is serious because it may affect the heart, said Dr. Geo. W. Cox, State Health Officer.

Age is important. Rheumatic fever usually begins in childhood at about age 5 or 6, although adults may have it. There is a susceptibility to the disease which causes rheumatic fever to be more common in some families than others.

The other factors which may favor its onset, combined with an individual susceptibility, are frequent chilling, damp or overcrowded living quarters, and a poor diet.

Future Attacks

It is also known that one attack of rheumatic fever does not protect a child from future attacks as, for example, one attack of measles does. On the contrary, rheumatic fever tends to recur. Repeated attacks are more likely to damage the heart.

It is not communicable as chickenpox and measles are, and there is no danger of catching it by

being in contact with a child who has it.

The physician is the only one whose judgment can be relied upon in this matter, and his directions should be followed exactly no matter how well the patient feels or how slight the attack.

Good nursing is important for rheumatic fever patients. In communities which have visiting nurse service, a visiting nurse can give help of great value to the patient and to the doctor.

LIVESTOCK

Texas livestock shipments in 1950 totaled 74,775 carloads, an 11-per cent increase over 1949, the University of Texas Bureau of Business Research reported.

During 1950, shipments of calves showed a 30-per cent increase from 1949, while shipments of hogs were up 26 per cent; sheep, 12 per cent; and cattle, 6 per cent.

One twentieth of the world's population lives south of the equator. Hat's worn by the Kigin's guard in England are called Busbies.

A forgery charge against Jimmy T. Green, a Negro, resulted in a five year suspended sentence. A theft over \$50 charge resulted in a five year suspended sentence for Antonio Almoquer, a Mexican.

Farmers Organize To Get Jobs Done

Texas farmers are asking for faster and better operating cotton gins, larger and better equipped grain elevators and rice driers to handle their ever increasing production.

To meet at least a part of these demands, farmers, says M. Jaynes, extension specialist in organization and cooperative marketing of Texas A. & M. College, are doing the job themselves through their own cooperatives.

He points out that figures released by the Houston Bank of Cooperatives last year borrowed more than \$22,800,000 from the bank and much of it was invested in modern facilities for handling crops.

Reasons These cooperatives have been organized to handle a variety of farm services that are required by present day farmers. Crops which a few years ago were stored over a period of months are now being handled rapidly due largely to the use of better farm equipment and the planting of early maturing varieties of crops.

Farmers, Jaynes says, use their cooperatives to do the jobs which are too big for the average farmer to handle alone.

He cites as examples cooperatives for ginning cotton, those for handling and marketing grain, fruit, vegetables, livestock, and poultry products and those for crushing and marketing processed manufacturing feed.

He says there are some 900 Co-ops.

farmer cooperatives in Texas. About one-third of these are cooperative cotton gins. Local cooperatives with an average of about 200 members each make up 95 per cent of the total number.

Cooperatives, says Jaynes, help the operators of family sized farms compete with the large corporate farms, and the savings that are made through the cooperative effort are returned to the farmer which in turn adds to the prosperity of the entire community.

Editorial

(Editor's Note: A newspaper fights for what it believes to be the right and proper thing for the community, the country. There are some issues in which a newspaper does not wish to take sides, yet it does wish to give the people the facts available. This week's editorial is of such nature. We definitely state that we are not against the Trucking Industry in any way. We publish this information for the value of what it is worth to the public.)

Many recklessly extravagant statements have been made by and about the trucking industry in Texas; so many that the public interest demands that the picture be made clear.

Everyone agrees that there is a place in the transportation industry for the trucks. How big they should be—how fast they should run—are questions which the truckers dispute with the public.

Highway safety, highway costs and damage are involved

Present day highway trucks can be 45 feet long and 8 feet wide. If loaded to legal capacity in Texas, they can weigh 48,000 pounds and combined with all other trucks weighing (loaded) 20,000 pounds or more they comprise only 1% of the total number of motor vehicles registered in Texas.

Is it right for this one per cent of the registered vehicles to make all Texas taxpayers pay for more costly roads and bridges, and to face increasing maintenance costs for public roads.

The farm truck, the automobile, the city delivery truck, and practically all other privately operated highway vehicles comprise the 99% for whom Texas present highways were constructed and could be maintained for about one-third of the cost presently imposed on the 99% by the one percent users.

High Cost

Expenditures for highways in the state last year were estimated to be about one-third of the total cost of state government.

Texas build highways now for \$60.00 to \$70,000 per mile because of the heavy trucks which use our highways.

These trucks which compose only 1% of the users of our highways cause us to have roads which cost about three times as much as if we built road for only the 99% users of our highways.

It's your money. If you want it spent wisely, for the use and benefit of the 99% of highway and city users, you should demand enforcement of existing laws, and see that no increase in present load limits, sizes and speed of the One Percent is permitted.

Auto Association

"Billions of dollars of the nation's finest highways are being pounded to pieces by overweight and overloaded commercial vehicles," says the American Automobile Association.

"We are overloading our highways in their traffic volume capacity and in their structural capacity," says Thomas H. MacDonald, United Commissioner of Public Roads.

"The results are so costly both to individuals and to the public that they total a disgraceful and extravagant waste in the nation's true economy.

"It is apparent that a relatively small number of extra-large and extra-heavy trucks are imposing an undue burden upon the highways and their other users."

"An impartial representative of all who use the nation's highways, the American Automobile Association, had this to say about highway damage:

"Abuses of highways and highway use by elements of the trucking industry continue to cause heavy road damage, pro-

duce serious accidents, interfere greatly with other traffic movement, and irritate and terrify motorists. . . . Trucking abuses are so widespread, serious and costly to our highways that strong corrective measures are imperative.

"One type of abuse is the repeated pressure to get increased sizes and weights permitted by state legislation. . . . NO OFFER IS MADE TO PAY FOR THE INCREASED HIGHWAY COSTS PRODUCED BY SUCH INCREASES. . . . indeed truckers challenge the best brains of the highway engineering profession as to whether proposed heavy loads damage highways.

Press Paragraphs— QUOTING OUR NEIGHBORS

EVERY MAN'S BATTLE

John T. Flynn, the author of the best-seller, "The Road Ahead—America's Creeping Revolution" which was a staggering revelation of the strides socialism has been making in this country, recently addressed the Association of American Physicians and Surgeons. He spoke of the menace of socialized medicine. And then he said this: "The point I want to stress is not just a fight for socialized medicine. . . . The field of medicine is just one battlefield in a general war. . . . The war is upon our whole economic and social system. . . . There is another battlefield in this same war—to socialize the power industry. . . . There is another one in agriculture. . . . There is still another battleground in the field of industry where through the administration-backed Spence bill they propose to make the first dangerous steps in government-owned and government-planned industrial plants. . . . There is still another in the field of credit. . . ."

BATTLEFIELDS

"The Federal government is now planning to get its hooks into the schools by gradually invading them by means of tax grants. . . . Unfortunately, each of these battlefields is more or less neglected save by the group which happen to be involved in any given attack. What I want to impress on you is that each of these battles is every man's battle. . . . The coming of socialized medicine will be speeded by the coming of socialized power. . . . The doctor, the educator, the free working man, the banker, the farmer the manufacturer, the free citizen must each of them realize that no more battles can be lost and that wherever the attack is pressed all must fly to the defense."

That is one of the best and clear-

est statements on American socialism that anyone has made yet. There are no isolated skirmishes in this ideological war. Each is part of the whole—and the whole is found in the clear intent to socialize and regiment all the resources and energies of the nation. The emphasis may periodically shift from one place to another but the purpose is never forgotten. And all who believe in freedom and justice must join in the defense if socialist strategy is to be exposed and defeated. —Industrial News Review

HELP THE HELPLESS

That the treasury of the infantile paralysis organization has been seriously depleted by the inroads of polio in the past 12 months is the common report, which can be taken as correct.

The report of the Texas situation says that not only have the chapters spent all of their funds but have been forwarded some \$375,000 from the national foundation. The way it works when you subscribe, half of the money that is collected stays in the home county chapter and half goes to the national fund to meet the overall problem and to carry on research.

In a case of infantile paralysis the bills for hospitalization and medical attention are so tremendous it takes a mighty few patients (Continued from Page 8)

Pearls of Wisdom

Strung by J. H. R.

Etiquette
The word "etiquette," of French origin, was originally applied to the code of behavior of the courtiers and bundles for the purpose of identifying their contents. In present usage, however, it signifies those niceties of behavior that stamp or label one as a person of good breeding and standing the requirements of a particular department. It is so much thought has been given to good manners that a code of good form, as Emily Post didn't say this, has been formulated for itself as a guide for all phases of behavior for all phases of activity. In social and business life, in dining, dressing, correspondence, conversation there is an unchangeable code of good form. Emily Post didn't say this, but she has formulated for itself a rule to follow when faced with the problem of etiquette, is: Be sincere and thoughtful in all you do, as simply and unobtrusively as possible under the circumstances. Good manners are, of course, indispensable in social life and have a very practical value in business dealings. But in any situation, etiquette is more than the observance of social amenities because it is founded on respect and consideration of others. In the sports and games have rules and regulations, their ethics and considerate behavior toward fellowman. There is a true etiquette of the heart which James B. Hays describes thusly: Be sweet and gracious, even in common speech, that fine sense which men call courtesy! Be as air and gentle as the light, come in every clime as breath of flowers... transmits aliens into trusting friends, gives its owner passport around the globe. It isn't necessary to follow the rules of the letter to be thoughtful, considerate house. You know it is customary to take along some little gift for the hostess as well as all the usual equipment for your own use; that you are to be on time for meals and to go to your room some time each day thereby giving your hostess time to her own work; that you are not to be too long and so wear your own thread-bear. When you do get your eggs in the basket and are ready to go, tip the servants (if any) and don't forget to write your thank-you letter within the hour. You certainly don't want your hostess' memorandum the following day to read like this: 1) Send out room rug to cleaners. 2) Send out goldfish. 3) Remove varnish from dining table. Give canary a decent burial. Send clothes lent to guest to be cleaned. 6) Write a letter of thanks to volunteer fire department. 7) Remove apple cores from guest room. 8) Tell servants you were going to discharge them anyway. Needless to say, the same code of consideration should be followed by the host and hostess. But use whatever term suits your fancy etiquette, good manners, social amenities, good taste, are all based on the Golden Rule of "Do unto others as you would have the mdo unto you." From the practice of certain social amenities, odd customs have become established in various countries. When Arab meets Arab on the roads of north Africa, they observe a ritual of greeting which requires the man "looking down" to speak or nod first, irrespective of financial or social status. Thus the gentleman on a camel greets first the one on a horse, the horseback rider speaks first to the man on a donkey, the donkey rider nods first to the pedestrian and he first to the man sitting down. And primitive societies and ancient and modern hedge their members about with etiquette rules which would seem very harsh to us. On the Palau Islands it is an insult to a man to inquire about the health of his wife. In Samoa, a man must never, in all his life, speak to any female relative of his wife (No talking back to his mother-in-law). In the Temu districts of Togo, unmarried women may wear as many strings of beads as they wish but they are not permitted by social code to wear a dress until they are wed. The Tibetans to signify their greeting and approval when introduced to a stranger, hiss at him. I believe I prefer America where hand-shaking is the customary sign of social acceptance.

CARD OF THANKS

We wish to express our heartfelt thanks to all our friends for their many beautiful acts of kindness and sympathy in the passing of our husband and father. May God bless you all.

Memphians Attend Relatives Funeral

Mr. and Mrs. Frank Saxon and Mr. and Mrs. Grover Moss attended funeral services for Mrs. J. A. Swan Thursday, February 8, at Ebenezer Church, near Winnsboro, Texas. Mrs. Swan was a sister of Mrs. Saxon and Mr. Moss. Miss Sharon K. Saxon returned to Memphis with her parents. She had been in a Dallas hospital since January 24 suffering from poliomyelitis. Her condition is reported to be much improved.

Democrat Want Ads P-A-Y-I

REPORT FROM WASHINGTON

From the Office of Congressman Walter Rogers

RAILROAD STRIKES: The strikers who are resuming work are responding to Defense Mobilizer Wilson's appeal for them to demonstrate that they are Americans first. No one doubts the rights of these men to present their grievances and have fast action thereon. By the same token this should be done in an orderly manner without disrupting the transportation system of this country and subjecting the boys in Korea to possible shortages and additional hardships. Carrying of grievances is one thing; a strike against the Government in time of crisis is another.

PRICE CONTROLS: The President wants more of a price crackdown than Mobilizer Wilson has offered. Wilson is still hopeful that very rigid price controls can be avoided or postponed. It will take some search for controls that will make everybody happy and nobody mad. Undue delay, however, must be avoided if the little income person is to be properly protected.

ATOMIC ENERGY: Again, Nevada has been the atomic testing ground for the fifth time. AEC states only that it is "well satisfied." Las Vegas, 100 miles away called this test the "worst yet" as windows crashed and the streets heaved. At Los Angeles, 300 miles away, the sky lit up for a second as windows rattled there, too. The light from the explosion was seen in Oakland, 450 miles from Las Vegas, where one witness described it as terrifying. We hope Joe Stalin "saw the light." We think he did.

FAR EAST: UN forces hold the initiative and the stepped up defense program in this country is already beginning to have its effect. Atomic bombs by artillery may be coming since the Nevada tests. To Russia: "We ain't fooling." Air warfare is paying off in Korea. Red China's chance for a cease fire agreement is still being seriously considered by Red China.

OUR NATIONAL STRENGTH: This country is just beginning to realize its capabilities. The present defense program is a mere hint at what the United States can do if it has to. It can build a military power that will make a potential enemy think twice before shooting. It can encourage its allies to have confidence in American strength. We don't want war and never have. But this country is beginning to build up a defense strength, that will far outstrip the rest of the world to prevent total war. We just feel like Stalin will not sit down and write us a letter telling us about his war plans, so we are preparing to fight any time. As free people, we know that no peace and little happiness can come until the evil power of communist rulers is broken. Certainly, with everything at stake, we have no other choice.

COMMUNISM ON THE HOME FRONT: The conviction of Remington probably left red faces in a broadcasting company that paid \$10,000 to him in settlement of a threatened lawsuit. These Government convictions are paying off. Pinks are leaving the Communist Party like rats leaving a sinking ship. Being what they are, they probably think the same way and their ship is sinking.

Mrs. Ira Foster and Shirley and John Ira visited in Pampa over the week end with friends.

The Cyclone News

Twirp Party Held at MHS

Twirp season closed Friday night after a fun-packed evening in the M.H.S. Cafeteria.

The Twirp Party, sponsored by the Cyclones News Staff, started at 7:30 when the girls began arriving with their dates. The Cafeteria was decorated in red and white, carrying out the Valentine theme.

The program consisted of 12 dances, some ballroom and some couple and square. The couple and square dances were explained by Mr. and Mrs. Roy L. Guthrie.

Hostesses were: Beryle Davis, Ann Spoon, Patsy Adecock, Eudine Gable, Patricia Alexander, Carnis Durham, Margaret Massey and Mrs. Irons.

Those attending were: Duke Frisbie, Sue Miller, Harvey Kennedy, Yvonne Sturdevant, Janice Anthony, Jimmy Morrison, Bobby Dick Hutchinson, Patsy Adecock, Charles Messer, Eudine Gable, Max Kennedy, Patricia Alexander, Roy L. Guthrie, Davey Corley, Johnnie McDaniel, Marilee Pruett, Carl Dickey Lee, Jr., Nancy Brewer, Gayle Monzingo, Donnie Mac Smith, Katherine Wright, Duane Miller, Tommy Messer, Anne Shankle, Gereta Graham, Jack Spry, Carnis Durham, Lee Bloxom, Barbara Castner, Scotty Grundy, Della Jo Kennedy, Ann May, Freddy Vinson, Billy Cowan, Wayne Tiner, Vance Adams, Mackie Allen, Marthlyn Burnett, Betty Burnett, Mrs. DeBerry Don Rasey.

Margaret Massey, Peanut Pierce, Roddy Stargel, Nancy Stanford, Onieta Ables, Roy Don Coleman, Patsy Admstrong, Clyde Tamplen, Joan Huggins, Dempsey Archer, Yvonne McDaniel, Neville Wrenn, Mrs. Roy L. Guthrie, Mr. and Mrs. Ray Newton, Mr. and Mrs. C. D. York, Laura Mai Hightower, Lona Faye Collins.

Beverly Snell, Frankye Lynn Srygley, John Ira Foster, Troy Taylor, Bobby Burnett, Donald Payne, Roberta Nelson, Jeannette Irons, Ann Spoon, Beryle Davis, Sue Wesson, Beth Murdoch, Jessie Faye Hammonds, Sylvia Lee Weddel, Bellie Hartman, Elizabeth Grundy, Jimmy West, Anita Murphy and Barbara Myers.

"B" Cage Squad Hits 523 Points

The Memphis "B" team has scored 523 points in their 16 games. Opposing teams have racked up 515 points against the Cyclone "B" but the opponents have an average of 32 points per game while Memphis has 33 point average.

Of the 23 boys involved in the scoring leading scores for the "B" team were Charles Messer with 66 points; Rayford Hutchinson 73 points; Davey Corley 48 points; Harvey Kennedy 21 points; Carl Lee 40 points; Jimmy Morrison 53 points; Dempsey Archer 14 points; Bennie West 40 points; Julius Stephens 18 points; Ronnie Smith 40 points; and Duane Miller 45 points.

ATTEND MEETING

Don Beasley, the district officer from Memphis, and J. W. McCreary, local advisor, attended a district F. F. A. meeting in Childress, Wednesday, February 14. The meeting primarily dealt with records and keeping records. Dates for future meeting were set up and will be posted later.

A well located electric light in the barnyard will make night trips to and from the barn and other outbuildings safer.

MKT
Natural Route Southwest

Cue and Curtain Club Holds Meeting

The Cue and Curtain Club met in regular session last Thursday at 7 o'clock. In the absence of Scotty Grundy, president the sponsor presided. The minutes of the previous meeting were read and approved.

The idea of a strike party for "The Bashful Bachelor" was discussed. Also, a suggestion was made that the club consider a summer production. The club is also planning a parent's night, in which a one-act play will be given. The date for the play is March 22.

Ann Spoon told the club about the Thespian Society. Several members of the club are eligible for the National Society and plans are being made for these students to join. These students will merely be an experienced inner-circle of the present dramatics club.

It was decided that parliamentary procedure will be studied at the next meeting, which will be February 22, 1951.

Five Students Attend Meeting

Five MHS students attended the Texas Music Educators Association held at Galveston last week. The divisions were band, choral, orchestra and twirling. M.H.S. was represented in three of these divisions by Troyce Rhudy, band; Patsy Hays, Donna Webb, Minnie Jackson in choral, and Patsy Combs in twirling. Perry Keyser the director and Mrs. Henry Hays also attended.

The state directors the East and West bands were chosen. The director for the East band was Bachman, Florida, and the director for the West band was Russel Wiley, from Kansas. Friday night each band played five selections with various moods. There was approximately 100 members in each band.

The Orchestra consisted of 175 members and they played three pieces at the grand concert on Friday.

Dr. Williamson, founder of the Westminister Choir, was the conductor of the 550 member mixed chorus. Patsy, Donna and Minnie attended classes from 8:30 until 12:00 and from 2:00 until 5:00 during the days that they were there. The chorus learned 13 selections that were presented at the grand concert on Friday.

ORCHIDS AND ONIONS

ORCHID—to the students who attended the Twirp Party and had such a good behavior.

ONIONS—to the boys who ran off and didn't help their dates clean up the cafeteria after the party.

ORCHIDS—to Patsy Combs, Minnie Lee Jackson, Patsy Sue Hays, Donna Webb and Troyace Rhudy for being chosen members of the ALL State Band and Choruses.

ONIONS—to girls who didn't take advantage of Twirp season.

ORCHIDS—to the basketball teams for working so hard all season preparing themselves for the District Tournament.

ONIONS—to note-writers around M.H.S. who sign other people's names to their notes.

F.F.A. Enters Judging Contest

The Memphis F.F.A. Livestock Judging team, composed of Roddy Stargel, Don Beasley and Kenneth Wesson and alternates, John Foster and Raymond Whitten, took part in the annual Top-O-Texas Livestock Judging Contest, Monday, February 5, which was held at Pampa.

In District Competition, Memphis placed 4th, and they placed 14th in the area. Don Beasley won a third place ribbon for high honors in judging beef cattle. Samnorwood, Esteline and Wellington placed above Memphis, respectively, in District competition.

After the contest, the boys looked over the stock at the show, including the Grand Champion Bull, shown by Tommie Potts. At 8:30 the Pampa Chamber of Commerce gave a big banquet for the 29 teams in the contest.

The boys were served a meal, and the Pampa High School Sextet's gave a program. The Main Speaker for the banquet was Jay Taylor of Amarillo. The banquet was concluded with the presentation of awards and results of the contest.

CYCLONE CUT-UPS

The very best jokes aren't written. They're running around in the Senior Classrooms.

If you want to remember things, tie a string around your finger.

If you want to forget things, tie a rope around your neck.

Science Class Sees Film

The Science classes, under the direction of Miss Neville Wrenn, are making a study of the ear and hearing. The science students were fortunate in being aided by a movie, "The Ear and Hearing."

The movie was divided into four main divisions. By means of animated drawing, the film explains what sound is and how sound waves reach the ear. Next the film showed how the ear functions.

Live action photography then reveals the middle ear and shows the movement of the ear drum and the three bones associated with it.

Disease and ailments of the ear and their remedies are mentioned. The film explained how hearing aids are used. In conclusion is a brief summary of how important hearing is to the understanding and enjoyment of our environment.

Visual aid in the form of motion pictures are an asset to any science department.

Cyclones Trip Vernon 56-42

The Memphis Cyclones triumphed over the Vernon Lions in both the A and B games in Vernon Tuesday night, February 6th.

In the B game, Jimmy Morrison and Duane Miller tied with 10 points each and Stoney was the high point man for Vernon with 11 points. The score ended with Memphis 40, Vernon 31.

Tommy Messer was high point man for the Cyclones in the A game with 16 points. Scotty Grundy and Max Kennedy were next with 14 and 13 points respectively. Paten was high point man for Vernon with 18 points. The A game ended with Memphis 56 and Vernon 42.

The Jr. High Whirlwinds made a good showing in the Childress tournament over the week-end, winning over Quail, but finally losing out to Childress.

Christmas cards were first used in the U. S. in 1874.

The dahlia is named for the Swedish botanist Dahl.

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Shorthand Class Progresses Fast

The Shorthand Class has been doing outstanding work this past semester. They have finished one book, "Gregg, Shorthand Manual, Simplified" and have ordered a new one, "Gregg, Dictation, Simplified."

Joan Edwards, Muriel Burton and Patsy Adecock are able to take dictation at 60 words per minute and occasionally are able to get it at 80 words per minute.

Margie Lou Young, Margaret Harris and Barbara Castner are able to take dictation at 40 words and occasionally they are able to get it at 60 words per minute.

"These students," quoted Miss Smith, "are doing exceptionally good work. When I was a Senior, students were required to be able to take dictation at 80 words a minute and some students were only able to get it at 60 at the end of school. It is only mid-term and these girls are already getting it at 60 fairly easily."

Local Student Now In Air Force

Raymond Cullin, son of Mr. and Mrs. George Cullin, 1419 Brice, left recently after joining the Air Force. He is stationed at Lackland Field near San Antonio.

A former Memphis high school student, Raymond also attended Wayland College two years.

SCIENCE AIDS OIL MEN

Oil researchers use an electronic microscope which photographs grease fibers measuring 29.37 millionths of an inch. This instrument, which magnifies up to 26,000 times, is only one of the scientific tools which oil men use to improve present products and to create new ones.

Mrs. D. R. Kelly visited her daughters, Mrs. J. L. Shropshire in Plainview and Mrs. Bill Lewis in Lubbock last Thursday. They visited Mrs. Kelly's sister, Mrs. J. T. Hubbard who is ill in Gordon over the week end.

Cyclone Cagers Win 14, Drop 10

At the conclusion of the 24 scheduled ball games, Coach Fred Wright reports that his Cyclone cagers came out ahead with 14 wins and 10 losses. The Cyclones have brought in a total of 1075 points, for an average of 45 points per game, while the opposing teams have scored only 994 points against them, or 41 points per game.

Of the five starters, Scotty Grundy was lead scorer with 342 points. Close behind, was Messer with 200 points, three with a high score. Max Kennedy with 180, Lee Bloxom bringing in 160, Don Rasco with a total of 140 points.

The remainder of the made by the Cyclones, divided among the 9 boys, Smith, Duane Miller, Dempsey Archer, Bennie West, Jimmison, Duke Frisbie, Daley, Charles Messer and Hutcherson, who have an "A" games.

Scotty Grundy, Lee Bloxom, Tommy Messer were mentioned in the Amarillo as high scorer, floorman, bound man of the week.

The Cyclone team is working hard in preparing the district tournament. Lean. The play their part of the tournament, they are playing McLean at 6:00, Luck, Cyclones !!!!!!!

CHAPEL

The main thought brought by Rev. Roy Shahan to the M.H.S. chapel period was that it is more blessed to give than to receive. "If one's attitude to life is to contribute his best, he will attain the highest altitude obtainable."

After several group songs, Bro. Strother, educational director of the First Baptist Church, gave a lesson in a song entitled "When Jesus Comes."

English mail boxes are called pillar posts.

DURHAM PHARMACY FOOTE & FOWLER

John Ryan, Los Angeles light and power worker, sticks head out of manhole after being trapped by auto driven by H. R. Marvin (leaning against auto). Marvin was pulling out of alley when car's wheel pushed aside safety screen and dropped into manhole.

Texas City Areas Still Send Most People to Prison

Texas city areas continue to send more people to prison than smaller towns and rural areas. In 1950, more than half the new convicts sent to the State Prison system came from only eleven of the State's 254 counties. These counties represent about forty per cent of the state's population.

These figures were revealed recently by Dr. Rupert Koeninger, director of classification of the Texas Prison system. He was assisted in the 23-year study by sociology students from Sam Houston State Teachers college who take course work inside prison walls under his direction.

In order of the most number of commitments, the eleven counties were Harris, Dallas, Bexar, Tarrant, El Paso, Hidalgo, Travis, Lubbock, Jefferson Nueces and Wichita.

Lubbock High

The furnished 1,605 of the 2,995 prisoners committed during 1950, or 50.25 per cent of them. Based on 1949 population estimates, the eleven counties had a total population of 2,845,000 which was 39.35 per cent of the estimated state population of 7,230,000.

Lubbock and Nueces counties on opposite ends of the state, were newcomers among the "few" counties which furnish the bulk of the state's convicts. All the others had consistently been in the group; although Travis county had not since 1947. Dropped from the 1949 "big four" list were Smith and Cameron counties. Cameron county did rank fifteenth, however.

Big Four

Thus, for the first time in recent years, the 1950 number of commitment were in the exact order of the State's "big four" cities—Houston, Dallas, San Antonio and Fort Worth.

Harris county with its 418 commitments leads the state for at least the 23rd consecutive time (the commitments go back to 1928), and sent the biggest number from any one county in one year in history. However, there were only six more commitments than in 1948.

Nematodes populations can be reduced by including certain resistant plants in the crop rotation. Resistant varieties of soybeans are Biloxi, Laredo, O-too-tan, Acme and Haberlandt. Braham, Coneh, Iron, Nonetta, and Victor are resistant varieties of cowpeas. Other root-knot resistant crops are bur clover, crotalaria, and velvet beans.

Press Paragraphs

Overactivity Signs Signal of Distress

When the body sends out signals of overactivity or consistent overactivity or underactivity, it is usually a signal to find out what's the change. All the symptoms of emptiness and fullness of your normal rate of physiological function to the daily routine when these symptoms change normal, it may well be considered a signal of distress.

When your appetite changes from the desire for general foods into certain specific types of food, it may be indicative of changes taking place in your body. Certainly the strange yearnings for exotic foods that may accompany pregnancy are not necessarily a sign that something is wrong; they may be considered a sign that changes are taking place in the body, which happens during pregnancy.

Adolescent girls with a yearning for pickles and condiments may be manifesting a symptom of green sickness, though this illness is much less common than it used to be. Spices, acids and some liquids may be the chief desire of some people suffering from chronic gastritis, an inflammation of the lining of the stomach which may interfere with the stomach juices.

Teeth
If your teeth are bad or if your false teeth don't fit well, you might develop a lack of appetite merely because eating isn't a pleasure anymore. Since you can't go on indefinitely without eating, any reason that may interfere with your partaking of food may be considered a health threat that requires medical attention.

Hot Weather
Weather seems to decrease normal appetite and allergy. Inactivity to certain foods, may be associated with the production of a painful reaction to eating to an extent that all foods are unattractive, the harmless as well as the ones that cause allergic reactions.

Hot Weather
Weather seems to decrease normal appetite and allergy. Inactivity to certain foods, may be associated with the production of a painful reaction to eating to an extent that all foods are unattractive, the harmless as well as the ones that cause allergic reactions.

Light Sandy Soils Breed Nematodes, Infest Plants

Nematodes, microscopic worms which cause root-knot on various plants, infest many of the light sandy soils of Texas. According to J. E. Hutchison, associate extension horticulturist of Texas A. & M. College, they are seldom found in the heavier type soils.

Nematodes enter the plant roots from the soil and cause small knots on the roots. This usually stunts the plant's growth and gives it a sickly appearance.

Hutchison says that most of the common garden vegetables are susceptible to nematodes, but only about half of them are readily attacked. The other half are somewhat resistant to the tiny worms.

Vegetables
Beans, beets, cantaloupes, cucumbers, eggplants, lettuce, peas, Irish and sweet potatoes, pumpkins, squash, and tomatoes are some of the more highly susceptible vegetables. Some of the less susceptible ones are turnips, spinach, rhubarb, onions, radishes, cabbage, cauliflower, and asparagus.

Hutchison says the best way to control nematodes is to keep them out of the fields. To avoid bringing nematodes from infested areas he advises cleaning the soil from all farm equipment that has been used in infested fields.

In Water
Nematodes can be carried in drainage water; therefore, runoff from infested fields should be diverted around the clean areas.

Precautions should be taken to prevent bringing nematodes into clean areas on nursery stocks, bulbs, seedlings, tubers and roots. Nematodes can also be spread in manure, so Hutchison advises against feeding plants from infested fields to livestock.

B.F. Goodrich

POWER-CURVE TRACTOR TIRES

give you maximum traction

Feel the positive traction, the deeper bite of those hard-nosed Power-Curve cleats. Notice how the cleats mesh with the soil like the teeth of a gear. That's because the curved cleats are evenly spaced, the same distance apart at the center as they are at the shoulders. Cleats are parallel to form an unobstructed channel which allows natural cleaning. The tire stays clean—another aid to maximum traction.

MORE TREAD RUBBER GIVES YOU LONGER WEAR!

Power-Curve cleats are higher in the center than the cleats of the other leading brands. This extra cleat height means you may get an extra year of wear. Stop in today. See the tire that will pull for you!

GET FRONT TRACTOR TIRE EFFICIENCY

SKID RING—Popular "easy steering" tire. The skid ring acts as a rudder—you steer straight, make even, safe turns. Built for trouble-free wear.

MULTI-RING—Use it in semi-soft soils. Center ring makes steering easier. Outside shoulder rings support the tire, give you longer wear.

Curiosity, Mistake Equals New Way

A plug mistakenly placed into the wrong socket plus scientific curiosity on the part of a Signal Corps engineer, may be responsible for a new approach to the study of stuttering and "psychacoustics"—the study of speech and how it is affected by a person's hearing.

Bernard Lee, assistant chief of the Squier Signal Laboratory Photographic Branch, inadvertently plugged a telephone headset into a playback jack last April while working with a magnetic tape recorder. A fraction of a second later his voice began to feed back at him and speech became extremely difficult.

Tested

Since that time, after finding no previous scientific work in the field, Lee has tested the reactions of more than 100 people to the delayed speech feed-back phenomenon.

Some of the results, described in the September issue of the Journal of the Acoustical Society of America, are:

"Of the subjects tested thus far, some develop a quavering slow speech, others may halt, re-

peat syllables, raise their voice in pitch or volume, and reveal tension by reddening of the face—Some have challenged the disturbance but none as yet defeated it. A prolonged session (more than two minutes) is physically tiring."

Depends

His experiments, Lee asserts, point out that a person's speech depends on his hearing. The "artificial stuttering" produced by the delayed speech feed-back technique may aid speech scientists to find a solution to the cause of stuttering, said to affect about one per cent of the world's population, some 22½ million people.

The research combines for the first time the neural and electronic networks making it possible to investigate the production of speech itself. By controlling or altering the electronic network, in this case the magnetic tape recorder, Lee points out, psychologists may be able to learn more about the person's nervous system.

Truman's Pen In Tech Museum

The fountain pen with which President Harry S. Truman signed the Canadian river project law is now on display in the West Texas museum on the campus of Texas Technological College.

Charlie Guy, editor of the Lubbock Avalanche Journal, presented the pen to Tech President D. M. Wiggins in behalf of Sen. Lyndon B. Johnson and Rep. George H. Mahon who were present at the signing of the bill which is designed to help the water problems of northwest Texas.

Junior High Cage Tourney In Progress

Cage play in the Memphis Junior High School Invitation Basketball Tournament got underway today at 1 p. m., Coach George F. Childress said today.

Twenty teams are entered, eleven boys' teams and nine girls' in the consolation tourney. Trophies are to be awarded three winners in each division.

Schedule of games run 6 p. m. Thursday 1 and 6 p. m. Friday and 9 a. m., 1 p. m. and four final games starting at 6 p. m. Saturday.

Boys' and Girls' teams from Hollis, Hedley, Quail, Carey, Kellerville, Childress, Quannah, Clarendon, Lakeview, Estelline and Memphis are entered.

Admission will be 15 and 25 cents for all games except the final games Saturday evening which will cost 25 and 50 cents. Tournament tickets are good at all games.

Mrs. Grundy—

(Continued from page 1)

tion of the Panhandle. For 60 years she was identified with the growth and activities of town and county, and was known for her interest in the welfare of others, always ready to lend support and sympathy to neighbors, friends and her own family.

Funeral services were held at the First Presbyterian Church last Sunday.

Ministers who conducted the funeral were A. B. Morris of the First Presbyterian Church, Rollo Davidson of the First Methodist Church and B. M. Litton of the Church of Christ.

Burial was at Fairview Cemetery.

Funeral bearers were Jim Deaver, Temple Deaver Jr., Bill Kinslow, Ray Bruce, Ray Nelson, Dwight Kinard, Buster Helm, Willie B. Wilson Jr.

Mrs. Grundy was preceded in death by her husband and son, Allen.

McNeely Quits—

(Continued from page 1)

has made a real citizen's contribution to community life.

Retiring, Dr. McNeely introduces his successor, Dr. Chandler who is a graduate of the University of Texas School of Dentistry, 1946. He spent two years in the army after graduation and worked two and half years as a public health officer.

He is from Kingville, Texas and comes from a family of dentists including his father, grandfather, four uncles and one cousin.

He recently served as dental surgeon at the public health hospital in Fort Worth.

Dr. and Mrs. Chandler and their two children are making their home in their trailer house until they find a home.

Real Estate Values—

(Continued from page 1)

made by the two independent school districts, Estelline and Lakeview, whose collections are made through the County Tax Office whether they will accept the increased valuations or not. They may vote to refuse if they wish; however state aid which they receive is based on their tax valuation.

Three Cases Tried In District Court

Three convictions were returned in District Court last week, two suspended sentences and one imprisonment, according to Miss Isabell Cybert, district clerk.

Judge Luther Gribble presided. Next session of court will be held February 28.

Tractor Tires Filled with Air Best In Sand

Air-filled tractor tires operate more efficiently and economically in sand and loam than tires filled either partially or fully with water.

This was the conclusion of a report made by the Division of Farm Machinery, U. S. Department of Agriculture and a tire manufacturing company.

Three identical tires were tested under 12 drawbar loads on the two types of soils. All tires carried equal weight, but the method of applying weight differed.

Water

One tire was filled to capacity with water, another was filled to the top of the rim with water and the third tire was fully inflated with air. Wheel weights were then used to equalize the total weight of each tire.

Tests in sandy soil showed that at 1,000 pounds pull there was little difference in the performance of the tires that were filled partially and fully with water. Both were considerably less effective than the air-filled tire. Maximum drawbar pull for the air inflated tire was 1133 pounds as compared to 1085 pounds for the partially filled tire and 1050 pounds for the water-filled tire. In loam soil, the air inflated tire proved to be equally superior.

Mrs. F. A. Limer and son, Richard visited her sister and family Mr. and Mrs. Jim Conner in Florent Sunday.

Mrs. Stelle Smith of Altus, Okla., spent Sunday with her sister, Mrs. Ira Lawrence.

Mr. and Mrs. Herlie Moreman of Hedley spent the week end in Mineral Wells with relatives.

Dr. Charles Oren has been in Fort Worth attending an optical meeting. He is to return Thursday.

Track Season To Open at MHS

Track season at Memphis High School opens Monday, Coach Chuck York, announced regardless of the weather.

"We may have to hold a few practices inside until the weather will permit us to train outside," York said, "but we want to start getting in shape."

The district track meet is scheduled here in Memphis April 14.

Most of the track team this year will consist of boys from last year's junior team. Only one man, Bloxom who won first in the district mile last year, is on the team this year. The other top track men last year graduated.

Hall County Sheriff Peck Morrison, Deputy Bill Baten and Police Chief T. D. Weatherly attended the Sheriff's Convention at Berger today, (Thursday.)

DEMOCRAT advertising doesn't cost; it pays for itself!

Tree Pruning Time Is Here

From now through the next few weeks is the best time to prune trees throughout the county, advises County Agent W. B. Hooser.

In pruning trees, the county agent reminded pruners to be certain and paint or wax places on trees where limbs were cut off to prevent bleeding of the tree's sap.

Further detailed information is available at the county agent's office.

Ball Control Wins For Cyclones 38-35

Expert ball handling and free-zing during the last six minutes of play enabled the Cyclones to defeat the Estelline Cagers here Tuesday night 38 to 35.

The "B" squad of Memphis also won their game 32 to 26. The Cyclones journey to McLean today to enter the District Tournament.

Pine trees are less likely struck by lightning because resin interferes with the conducting of electricity.

It is warmer to wear two garments than one thick one because the air between them acts as insulation.

Memphis Colonel Employs New Type Artillery Action

A former Hall County boy who graduated from Estelline High school is now a Lt. Col. commanding an artillery battalion in Korea and employing new methods of artillery warfare with exceptional results according to official releases.

Lt. Col. O. B. Lawrence, son of Mr. and Mrs. D. W. Lawrence of Newlin, has been in Korea since the first of August and is commander of the 38 FA Battalion.

"An artilleryman's dream," Lt. Col. Lawrence described the new artillery action.

The new type artillery warfare consists of shells with timed fuses which explode a few yards over the heads of the enemy and shower him with steel fragments.

The artillery action is estimated to have destroyed more than 4500 North Korean troops in less than a week recently in Korea.

Col. Lawrence has been in service since 1931.

Businessmen Vie For Air Field

J. R. Mitchell and Louis Foxhall Memphis businessmen, accompanied a group from Childress Sunday to attend a meeting in Dayton, O., between civil airmen and representatives of the United States Air Force Training Command to discuss prospects of government contracts for private training of military pilots at the Childress Air Force Field.

Reports from Dayton early this week by Childress City Secretary Arvil Patton stated that Childress Air Force Field has a "high rating" among Air Force men. The report said this was true due to the fact that the field can be put into shape for use more easily than others.

Only about 500 contracts are expected to be given for the training of pilots and competition is reported to be very keen among contractors. Only three of the contracts are to be issued in March.
